

Cat Stevens- Wild World

2015.jan.16

Ukens Utvalgte

Cat Stevens converted and became Yusuf Islam. This famous song 'Wild World' was made as warnings to a young runaway girl. Nowadays, converting youth need such warnings about the growing wild sides of the Muslim world. A few but powerful theocrats promote anti-human misdeeds and dare blaming God for it. Like the true prophets rejected temptations of ulterior evil, - any true believer should reject Iblis in any appearance, deception or command. The wild world holds world-records in slave-trade, abuse of psychotic narcotics, hypnosis and other human rights violations. This UU is an escalation of Yusuf's warning for the converting people. With this, a new UU theme 'Charlie' is started – in a spirit of GHRL (see UU 2014.okt.17).

There are needs for proper definitions to understand what is right and wrong, like there are need for proper maps in new worlds. A main basis of the theocratic crimes is based on deliberate abuse of the word 'blasphemy'. Firstly, "a prophet is (merely) a human who is claimed to be contacted by the supernatural or the divine, and to speak for them." "The Quran identifies a number of 'Prophets of Islam', including Ibrahim (Abraham), Musa (Moses), Isa (Jesus) and even Adem (Adam)." "Prophecy is claimed in many cultures like Judaism, Christianity, Islam, Ancient Greece and Zoroastrianism. There must be thousands of prophets of all qualities. Muslims do not consider the prophets Adam, Abraham, Moses and Jesus as 'perfect' and should not claim such for Muhammad either. (This paragraph is mostly from Wikipedia and the rest is mostly translated from UU 2013.aug.02.)

The archangel Gabriel is claimed to have dictated the Quran from God/Allah via himself and then via the prophet Mohammed. However, it cannot possibly be perfect, since neither humans, angels nor djinns are capable to fully understand God, - far from it. Faults, errors and misinterpretations in the prophets' scripts are therefore certain. Besides, an archangel like Gabriel is of a lower rank in the hierarchy of angels, without proper insight of God's 'big picture'. Besides, any angel's liability is as questionable as for djinns, since the scripts say that 1/3 of the angels were cast from Heaven for disobeying God's command concerning Adam. The remaining angels' belief is also questionable, since the prophet Moses wrote that God expelled Adam from Paradise due to direct disobedience towards God.

"Blasphemy is the act of insulting, contempt or disrespect to God. Blasphemy concerns only God and does not apply for humans, angels or djinns. However, - heresy does. Heresy is any provoking belief or theory that strongly differs from the established beliefs, teachings or rituals. 'Heresy' is particularly used in reference to Christianity, Judaism, Islam and even Marxism. The difference between blasphemy and heresy was enlightened in the prophet Jesus dispute with Jewish theocrats. Jesus said, "Your sins are forgiven" and was accused of blasphemy, with the argument that only God can forgive sins (Matthew 9:2)". Blasphemous or not, - heresy indeed, since the prophet Jesus opposed the previous prophets' interpretations of God. Anyways, questioning any prophet's reliability is not blasphemous, but quite the opposite. Heresy is necessary for quality insurance of God's true messages – to avoid real blasphemy.

The main sources of the Sharia law are the Quran and the Sunna. The Quran claims to be dictated from God via Gabriel and Muhammad. Sunna, on the other hand, is Mohammed's own (human) interpretations and exemplifications. Sunna is strongly influenced by the Old Testament of Jewish prophets and later theocrats' interpretations in the Torah. Therefor the Sharia and Torah is rather similar, while Christian humanism contrasts much of the older prophets' interpretations. Anyways, O.T., N.T. and Quran say that everyone will be held responsible directly to God. Consequently, no theocrat can execute prejudice punishment for blasphemy, even if some stone-age prophet in wartimes might have expressed so. Slavery, death penalty and terror seem to be human commands during wartimes. For example, the scripts do tell about cases

when God/Allah's counterpart seduced prophets. Clearly not all temptations were discovered and rejected by all the prophets.

Now it seems as risky to criticize Muslim theocrats, as it was to criticize Christian theocrats during the inquisition and the democratic Reformation to 'Protestantism'. Anti-democratic dictatorial theocrats seem desperate to keep powers over God's peoples. Crimes in God's name happen when theocrats judge Heresy for blasphemy, - like they were God themselves. Fatwas argued in blasphemy is blasphemy in itself because the issuers have put themselves in God's place and execute prejudice in contradiction with the G.T., N.T. and Quran.

Unfortunately, false prophets, theocrats and preachers get away with their crimes toward humans and humanity. Blaming God for own misinterpretations is no excuse at all. We are responsible ourselves to deal with such deceptions and crimes like for any other crime towards humans and humanity. True believers should treat such in sound social-psychological ways. The humanity of the Human Rights is not contradicting God. No theocrat's interpretations should be allowed to overrule that.

As mentioned, a new UU theme 'Charlie' is started and will run weekly until Easter. This will be in the spirit of GLHR and especially with respect for the freedom of religion and expression (UU 2014.okt.17). However, the sudden and beastly violation of Charlie has emphasized the necessity for the models of 3x3, LQ and Games in order to turn this minor 5D event and to avoid major ones in this century. As mentioned in the previous UU 2015.jan.09, this concerns in particular humanity's 3x3 OB (OverConscience Belief) and UD (UnderConscience Drive). Moreover, the event has made an opportunity to further develop the theories of the new categories of 4th degrees meta-Games. The Will-related Game category CdE was talked through in UU 2014.sept.12 and 2014.okt.10 to 2014.dec.19. A Drive-related Game category AF (Animal Farm) was mentioned in UU 2014.dec.19. The third 3x3 meta-Game category is Belief-related and might be called something not yet realized.

Yusuf Islam, alias Cat Stevens, is a British singer-songwriter, multi-instrumentalist, humanitarian, and education philanthropist. While on holiday in Morocco, Stevens was intrigued by what was explained to him as 'music for God'. In 1976, Stevens nearly drowned and shouted: "Oh God! If you save me I will work for you." This brush with death intensified his long-held quest for spiritual truth. Stevens' brother brought him a copy of the Quran as a birthday gift from a trip to Jerusalem and began his transition to Islam.
