

Gary Numan – Pure

2015.jan.30

Ukens Utvalgte

Purity is an utmost theological value and required of women at an almost inhuman level. Still, neither humans, angels nor jinns are pure or free of sins. None was created all-knowing or almighty. Still, the Quran is made by man, angel and djinn with no woman involved. They are in power while human women and slaves are made inferior. Religiously real or not – clearly there is an urgent need for social-psychological therapy of family concepts at organizational and cultural level. There have been 'family' violence and traumas at large scale for 4000 years – through 200 generations, - starting with the Prophet Abraham's family affairs.

Slavery of humans is highly promoted in the Quran. Wikipedia writes that: "Slaves are mentioned in at least twenty-nine verses of the Quran. Women's rights were severely limiting for slave women who accepted Islam and women who refused to accept Islam. The Quran recognizes the basic inequality between master and woman slave, between free women and slave women, as well as their unequal rights. According to Muslim theologians, it has been lawful for male masters to have sexual relations with female captives and slaves without her consent; the purchase of female slaves for sex was lawful from the perspective of Islamic law, and this was a motive for the purchase of slaves throughout Islamic history." Frankly, that ethics of providing (non-Muslim) virgins as reward and promoting sex-slaves is certainly pimping.

Both the Old Testament and Quran refer to the same O.T. prophets that promote inhumanity like torture, terror and massacres. Such is banned and criminalized in most civilized cultures in accordance to the obligations of the Human Rights conventions. However, extreme Islam sub-cultures abuse the prophets' verses to promote personal powers with terror, - and dare blaming God for it. For example: Boko Haram began kidnapping large numbers of girls and young women for sexual use. IS (Islamic State) has taken as many as 2000-7000 women and children captive, selling and distributing them as sexual slaves and virgins were given to commanders as sexual slaves. A prominent Saudi cleric, Shaikh Saad Al-Buraik, recently urged Palestinians to do exactly that with Jews. Most Muslim scholars found the practice inconsistent with Quranic morality though. However, Shaykh Saleh Al-Fawzan issued a fatwa claiming that slavery is a part of Islam and jihad. He attacked Muslim scholars who said otherwise.

The Arabian slave trade in Africa has been extensive since the days of Abraham, - and still is. The relative short period of slave trade to America 200 years ago was a fraction of this. At that time, the Arabian slave trade also included a million white Europeans, - also from Norden. It was made possible with converted Europeans as middlemen. However, Arabia never stopped the slave trade. (UU 2013.Juli.26). One can question if some that tales of plagues in that period were cover-ups for kidnapping Europeans for slavery. Anyways, after the Muslims invaded Roma2 (UU 2014.april.25), large-scale assimilation programs were set in motion, such as the Muslim got 10% tax while the Christians got 50%. Most infamous is the Janissaries (i.e. 'new soldier'), an elite corps of slaves recruited from young Christian boys. They fought the Christians in Europe brutally. The number of Janissaries grew to 49000 at the most. However ironically is the massive increase of Janissaries (music) corps in the Nordic folk-schools and LO (trade union) during the Cold War. No one seems to know the real history and missions, though. (UU 2014.jan.10.)

A reason for the diluted misinterpretations of the word Allah/God seems to stem from before the Quran: "In pre-Islamic Arabia amongst pagan Arabs, Allah was not considered the sole divinity, having associates and companions, sons and daughters – a concept that was deleted under the process of Islamization. In Islam, the name Allah is the supreme and all-comprehensive divine name, and all other divine names are believed to refer back to Allah. In Islam, Allah is unique, the only Deity, creator of the universe and

omnipotent. Arab Christians, however, use terms like Allāh al-Ab, meaning 'God the Father'. There are both similarities and differences between the concept of God as portrayed in the Quran and the Hebrew Bible." (Ref Wikipedia.) Still, it is uncertain how much of the pre-Islamic pagan concept have influenced the ancient prophets and today's followers, since they also were 'pre-Islamic' without knowing it at the time.

Human Rights societies hardly realize the scale and consequences of the theocratic sexual abuse of women. However, Norwegians were alarmed by the so-called Marte case that caused a global web-storm in a week. The psychosocial Game at play was clearly 'RAPO': A Norwegian Christian woman and a Muslim man had sex in Dubai. It is unclear if it was voluntary or not. However, she reported rape to the local police. The girl withdrew the charge after warnings from some locals. Then the police jailed her for two years for false accusations, having sex with a married man and alcohol consumption. The Norwegian UD (Foreign Ministry) kept silent in four months until the media was informed. The global democracy protested with web-petition that caused diplomatic and commercial penalties for Dubai. The Emirate/Throne pardoned both, so the economic sanctions stopped and the case was silenced again. UU 2013.aug.02.

Believable or not, - there are some ethical/legal background for this: "In Islam, sexual intercourse between a Muslim woman and any man to whom she is not married is zina, a religious crime. This includes extramarital sex, premarital sex and rape. It is listed as a hadd crime, i.e. a crime against God (murder of a Muslim; theft of a Muslim's property. Zina; consumption of alcohol or other intoxicants; and apostasy). The punishment in Islam for unlawful sex is fixed at a 100-lash public flogging, or stoning to death. Accusing anyone of sex crime or rape, without proper witnesses, is also a hadd crime." "Zina cannot be alleged by any woman or man without four male Muslim eyewitnesses or without confession in court by the man who committed zina. This sharia requirement of four eyewitnesses severely limits a woman's ability to press rape charges, a crime often committed without eyewitnesses. Sex with a non-Muslim slave women is not considered adultery. This principle of religious crime only applies for unlawful sex between free Muslim men and free Muslim women." (Ref Wikipedia.) Consequently, the man would get free, even if there was rape, because raping a Christian is considered legal in such interpretations.

The Marte-case is surely an example of what is called social psychological RAPO Games of 3rd degree according to Eric Berne's theories. It is also used as a foundation for the 3x3 Game category called AF (Animal Farm) that is built on the category 'Sexual Games'. The Games are basically ID-driven like in Freudian psychology - and are extended in the 3x3 model to include Jungian social psychology. Furthermore, taken from UU 2014.dec.19: "'Organized Insanity' in S-E/S-I (Superior-Ego/Superior-ID) relations for organizations' and nations' is talked through in UU 2014.jan.10 and UU 2013.april.12: "The destructive potentials (of modern occultism) can hardly be worse than in relation to Freud/Berne psychosocial Game-analysis. It can function like a dominating and psychotic Superior-Ego that can transfer its psychosis to the client's S-E, make ID's neurosis and even split it's Ego. There are potentials for the whole spectrum of Berne's described Games, - especially LYAHF, NIGYSOB, Debtor, SWYMMMD, Courtroom, LHHIT, Schlemiel, WDYYB, Rapo, Uproar, HDYGOH, LPFOJ, IOTHY and certainly Psychiatry."

'Quite normal insanity' is a transliterated term that was talked through in UU 2013.april.05. "Unfortunately, the state of the mental health can be so troublesome that it unprofessionally is called 'madness'. Even worse, the condition might develop to a collective norm in the society, - 'quite normal insanity'. Therefore, it is important to understand what the professionals mean and what can be done to improve the state, - even if the theme is taboo. As indicated, the collective pressure on individual humans can be the direct cause to psychological crises. It might happen when the national State (Temple or Throne) takes on the role as a dominating Superior-Ego, - as a Mama- or Papa-State (Temple or Throne). In addition to the personal sufferings, it can cause mass psychoses, double-morality and mass-neurosis that explodes in uprisings. This has been seen in so many autocracies, - that rise and fall in orgies of violence. It is however less likely to happen if the society is based on the respect for democratic LifeQuality."

The Muslim male attitude towards women stems from the archetypical memes of the Eden incident, described by the prophet Moses. As mentioned in the previous UU 2015.jan.22 and UU 2015.jan.15: "All angels are fallen in the sense that even those that bowed for Adam had to face the consequences that Prophet Adam disobeyed God in the Garden of Eden. A second fall of the rest of the angels are unnoticed, though. However, a woman and a jinn, in the form of a snake, were left with the blame." It is a curious tale in many ways, though. Anyways, the Jews became slaves in Egypt, which they escaped with the prophet Moses and God's help. Neither Jews nor God are certainly do not favor slavery, but rather fights it. The Prophet Jesus forgave sins and practically freed humans from their bondage. Christian priests continue forgiving sins in Jesus place. Who is then in favor of enslaving humans, when prophets and God oppose it? Theologically, - it must be fallen angels and jinns, - those who influenced the prophet Muhammad with making the Quran.

On the other hand, matriarchal power and Games should not be underestimated. There is truth in the saying 'Behind every great man there's a great woman'. Abraham's women definitely played LYAHF (Let's You And Him Fight) which has been going on for 4000 years – 200 generations – and still goes on. This is definitely a 4th degree Game in the meta-category AF (Animal Farm), where Drive biology overrules Will and Belief. Such themes were talked through in a summary in UU 2014.dec.19. It touches upon issues about 'Dagmar's last meeting with Rasputin' (UU 2014.mai.30), the Jante-culture promoted with pedocracy in Nordic Folk schools (UU 2013.nov.15 and UU 2012.April.27) and generally about Superior-Ego Patriarch/Matriarch in UU 2014.jan.10. A consequence of the theocratic Patriarchal abuse over Matriarchs is that some matriarchs manipulate the boys and girls into their Will to alter the Games. The next generations of patriarchs becomes altered – and confused, - believing they are in power. Furthermore, the internal gynocratic pecking order is certainly fundamental for the Jante Gimmick (UU 2014.aug.01). Anyways, at organizational level, - it all points to the most serious social-psychological conclusions and that the theocracy is of urgent need for professional healing.

Gary Numan is mostly known for hits like 'Are 'Friends' Electric?', 'The Park' and 'Cars' in the early 1980s. He was rather innovative with the use of synthesizers and his vocal. His lyrics are rather alien and he became so to the audience. In this century, the style is more classic hard rock. The album Pure was a follow-up on Exile, where the lyrics are openly hard critics of Christian (and related monotheistic) dogmas. The lyrics indicates that he had some very bad experiences with theocrats and finally flipped. The song Sacrifice expresses the extreme attitude towards women in extreme pre-Islamic cultures – what is seldom admitted, but clearly expressed otherwise.

"Fighter" by Christina Aguilera is from the album Stripped. It is musically inspired by band Guns N' Roses' song "November Rain". Lyrically, Aguilera kind of thanks a man doing wrong to her for making her strong. Aguilera told about the lyrics that there was a very chaotic and abusive home, where she did not feel safe. In school, Aguilera was picked on and alienated because of her musical passion. However, it made her become smarter and stronger. The writing process of 'Fighter' began during her promotion for her debut album in 1999, when she was a part of the big craze pop phenomenon when making the debut hit 'Genie In A Bottle' (jinn). A later, song called 'Army of Me,' is sort of a 'Fighter 2.0.'
