

SDG2030/QoH – Political RAPO Games

Blog UU20260208

Such public Court cases are very hard for many persons in many ways, - especially when the very foundation of the national Constitution is traumatised. Still, like the Marius Trail and Press shows, this Game is pre-judicially escalated to a globally Blame-Game. Hence the thesis of this blog-series is to better some resolutions more than a rigidly logically Court system can. In this synthesis, the point of view is set on some psychosocially based previous blogs' theses. Still, the point of view in this blog is the traditional 'Political RAPO Games'. Unfortunately, that might be rather traumatising, - due to the accusations taboo nature. Hence, some theoretical background is necessary to legitimize this rather untraditional point of view to the ritually bureaucratic Court procedures. Still, the main synthesis is related to the Epstein/Belarus globally Sexual/Underworld Games of 4th degree.

The very basic thesis of RAPO Games are described by Dr. Eric Berne in the book called 'Games People Play'. It is based on Freud/Young individual psychoanalyse and developed to psychosocial analyse on more comprehensive and complex explanations. In theory, Games, in contrast to actions like Work, Rituals etc are characterised by ulterior motives and deceiving to achieve other Gains. The Game RAPO is explained in 3 levels of ID, Ego and Superior-Ego, namely: 1; 'Kiss Off', is popular at social gatherings and consists essentially of mild flirtation; 2; 'Indignation', where offended gets some satisfaction but rejects. 3; is a vicious Game that might cause murder, suicide or trial, with physical contact and claims of criminal assault or irreparable traumas.

Yet, the decade of blogging about Games and 3D politics has developed a 4th Grade of Games, concerning Coups, Wars and AIDS / CCD / CdE (Acquired Immunodeficiency Syndrome, Colonial Collapse Disorder & Coup 'd Etat). In brief Games like RAPO can be escalate to national and international levels, - just like this overblown process towards a troubled youngster. There is no doubt a relation to this seemingly individual court case, with the massive Belarus/Russian Agent Epstein, - and those RAPO Games for the highest level of blackmail, powershifts and coups.

Still, this point of view, this synthesis, focus on organisational dysfunctionalities, - not personal traumas, - like the Court Game is set to be.

Those RAPO Games are well known in the Nordic political arenas. Most are of 3rd degree, though this one if of the 4th. Such political Games are thoroughly described in blogs like UU20180223, UU20180216 and UU20180202. Such sociopathic Games have seriously traumatised parties, person and related, - with unhealing possibilities. Such Games are simply, as meant to be, - mass-psychopathic and sociopathic, - intended to weaken the civil constitution of the "western" nations, citizens and organisations, - in order to promote AIDS / CCD / CdE.

Such youngster Games like spin 'the bottle', 'truth or dare', 'have you ever' are basically innocent, - but can indeed be abusive. It all depends on the Gamers' Motives and planned Gains. The political culture is well documented of AUF, the youth organisation of the dominant AP/LO regime, - that is founded on the Cominterns twenty-one conditions of 1920. (This is issues for later blogs in this series.)

Conclusively, - this ongoing Court Game does not seem to be about a youngster's of 3rd degree. The focus is all wrong from the very start, - and actually since the accused was a minor at 3 years. This desinformative process, takes the focus from the real Constitutional hybrid warfare that most 'western' constitutions suffer.

Shouldn't we rather continue the focus at the real Constitutional hybrid warfare's, than endlessly play along with youngsters' aftermath of some pubic Games.

Hybrid Warfare towards Monarchy - Intro (SDG2030/QoH)

Blog UU20260131

'The Great Nordic War' towards the Scandinavian monarchies seems re-started in 2013, - as this thesis says. Nevertheless, and well documented, - there are constant hybrid warfare towards 'The West' as initiated by the Comintern in 1920. Hence, all of the Nordics nations are under ulterior attacks.

This upcoming series of blogs will primarily focus on the present judicial attack at the very foundation of the Norwegian Constitutional Monarchy, - the Royal House. Certain POA (Parallel Organisational Apparatuses), as of CoC (Cults of Comintern), has already pre-judged a close relative to the Heads of State, long before the proper process of the true Judicial Court had the chance to start.

In contrast, these following blogs will rather set the focus on the Quality of Constitutions than personal inquiries and rumours. This focus will also be based on some previous blogged judicial cases - as well as the Epstein related hybrid warfare of current global rivalries.

Theoretically, this thesis concerns the peripheral Judicial process, like hundreds other, that are based on the global Epstein hybrid warfare towards 'Western' heads of authorities. It all seems rather clearer now - that the main objective of this hybrid warfare is to black-mail those in certain Underworld Games of the 4 degrees, - by ulterior images and statements, - deep-faked or not. Yet, unlike hundreds of those other peer persons, - the Høiby bondage process is now formally Judicial started - with global attention and consequences.

This blog will be based on previous analysis that are based on the theories of Constitutional Quality, such as talked through in blogs like UU20240407.

Still, there are some accusations the real penalty Court have to handle in order not to make presumptions before their real Judicial case, - such as the existence of Parallel Organisational Apparatus (POA). These are ulterior 'secret services' play Sociopsychological Games. Related crimes are admitted by the accused in advance, - concerning violence, drug abuse and possession.

Anyways, - 'the show must go on' according to the prejudgement of the central democratic POA press, - that certainly shortcuts, and might overrule, the Constitutional Court. Meanwhile, this 'side-show' blogs will focus on a very different and more probable thesis – that the nova hybrid warfare towards the Nordic West abuses that unfortunate and less protect youngsters against such extreme.

Conclusively, this thesis will keep the focus on how any related person can be bonded and abused in this hybrid warfare to hurt and extort peer persons, - like the heads of state, enterprises and families. Hopefully, there will be some inspirations to improve the Quality of Life, Constitutions and Humanity (LQ, QoC and QoH).

Finally, as a human, - the sympathy is mainly to the family members, - like fathers, step-fathers, mothers, grandparents, sisters and all other relatives, - that are trying harder than anyone to do the best for all, - including themselves.

(Note, the previous hundreds of blogs and articles since 2010 has suffered deletions by Microsoft and Meta/Facebook. The references to those blogs are hard to recreate from the original documents. Still, the latter half of the blogs are recreated and available. Enjoy.)

SDG2030/QoH – Momentum Shift

Blog UU20241201

What is the Constitutional Momentum? Do Denmark need such a Momentum Shift? The simple answer is – 'Yes Indeed'. Still, it is a complex matter, - so this thesis concludes this year's blogging concerning the Danish sudden power-shift at the Throne. Even though not realised yet, - this monarchical change does certainly cause vital Constitutional shifts. Historically, there have been numerous vital momentums-shifts of the Dane Constitutions. Elder blogs are fatigue though, yet indicate that the past Games must have been as controversial as the present one. Still, we cannot possibly know – since we were not there and only relying on ancient unreliable medias, - just like relying on today's 'fake news'. This final blog of this year's theme, is as vague as the Dane future itself. Yet, some personal reflections and suggestions cannot be withheld.

The 14 years of blogging consists of rather controversial theses and hypothesis that might seem irrelevant and tedious. How to express something obvious from another point of view, - yet not being labelled outlandish? Anyways, basically, we all consider ourselves, our relations and our social existence as 3 dimensional. This 3D perception is elevated to 3D psychosociology, 3D politics, 3D constitutions, etc. All in all, the basic thesis is that this 3D perception applies for individual humans as well as the Humanity, and all the human organisations in-between. Anyways, in this sense the Constitutional momentum is the balance of the 3 Superpowers; the Throne, the State and the Temple.

Moreover, there are numerous psycho-social theories that applies both ways and in general. Still, these blogs 4th Dimension relates to a true LifeQuality democracy, not that institutional centralised-democracy of the Eurasian 'East'. This true 4D is rather elevated to terms of Hyper-democracy, related to the hypotheses of QoH (Quality of Humanity) and LifeQuality (LQ/QoL). That concept was demonstrated in blog UU20170407, when psychosocially analysing the Belarusian dysfunctional Constitution, - simply by transliterating and transmitting terms of family-therapy to Constitutional properties and nature. Moreover, the blog UU20220522 'Kremlinology' takes such analysis further. Such Constitutional psychosocial analysis applies for any super-powers like the Thrones, the States and the Temples.

Also, the 5D is relevant when hypothesising the 4D Constitutional momentum shift. Intriguingly, the past scenarios reflect that the official perceptions of the past might not be real, but mass-psychoses, since the dominants' historical storytelling might be subjective, unprecise and even wrong. For example, as questioned in UU20240804, did Valdemar I (Vladimir) cause the start or the end of Denmark's history? Moreover, is the present collective perception of the Dane Constitutional Momentum completely true, - or slightly untrue? There are several reasonable questions asked in blogs related to UU20240602, concerning the previous century's war-damages to the Constitution. The state of the Constitution is highly required to be healed, have a momentum-shift.

The previous blog's joke aside, - there is no anarchy in Demark and there is no Kardemomme City-state. Still, there is the massive organised crimes in the overpowered embedsfolks' State. Hence, the Constitution needs to balance as ordered in the Rule of Law. Meaning, - there should be inter-constitutional safe-guards between the 3 Powers, - like there is a Governments between the Parliament and the State. Hence, the Cyber QoC requires Judicial and Executive intra-organisations too. The Dane Constitution needs a momentum shift of its 3 powers. In brief, in Denmark, the CdE war Games in the previous century has perverted the State with overpowering way out of Constitutional balance. The State executes some reverse Legislative parliamentarism via the Government and it short-cuts the Judicial power with its own pre-Judicial prosecutor's office (Anklagemyndighet). In practice, the collective of Executive embedsfolk have privileged themselves with the Throne's immunity and the historical absolute powers.

This was concluded in Blog UU20240602 like this. "Conclusively, although the 3 Constitutional powers are sovereign, there are certainly need for some cybernetic quality ensuring mechanisms between the three in order to maintain the Balance of Power. The Legislative power certainly need intersecting institutions both to the Judicial and Executive powers, - like the Judicial has a Government to the Executive. Likewise, the Judicial power need means to monitor, propose and act on the Executive Power's prosecution authority and a Legislative power's Control & Constitutional committee. In brief, the Judicial organisations must be empowered to correct obviously judicial failures in the Legislative and Executive powers."

Anyways, the Dane Constitution Legality has altered considerable by having a king back after half a century abandonee. Now that power is most certainly Legislatively and Executively re-enabled. There is no way that new power will be ignored anymore, - it will include Denmark in the world legally, neighbourhood, and lawfulness. The institutional war Games towards the Constitution is more than alarming. Examples in this blog series indicates the highly corrupted ministry of Treasure, the opt-out of European legislative cooperations, the TV series 'Black Swan' scratching the surface of massive organised institutional crimes. (See blogs related to UU20240505.)

Conclusively, not merely Denmark, but all the Scandinavian democratic monarchies should embrace the new constitutional unity formed with the treaties of EU/EEA, ECHR, UN, NATO etc. that gives hope to finally end the 300 years of hybrid warfare towards Norden, called the 'Great Nordic War' of the Winter Palace, -

that Kremlin outpost of ruin. This century's collapse of that diluted empire needs to be minimised and psychosocially handled like a person endangering himself and any surrounding.

Xtra UU – Monument Shift

The theory, the thesis, the daydream, - about a momentum shift, - is, and will always be rather controversial. This blog's musical video do certainly indicates such.

Yet, just realise that we all, in a 1/3 of our time, - in each day, in our whole life, we sleep.

We do not remember much from that 3rd of our life, but do very well know that it is vital for our physical, mental and spiritual well-being.

Imagine, 'flat-earthier' having a 3D experience, - or more real, - 3D illusions of a 4D reality.

With that, I rest this year of theses and let deeds be to anyone that cares, - to balance the Dane Constitution. Now, there are far more comprehensive and vital situations to focus.

SDG2030/QoH – Anarchy in the DK

Blog UU20241103

The 'ever-green' by a UK punk band uncovered an underworld urge for a dystopic UK. Still, such 'Londongrad' lyrics seem to manage a de-evolutionised UK to its sorry reality of Brexit. It took 5 years to get out and will takes 10 years to get back again. Still – oligarchs' punks express the sincere wish and agenda for a total UK CdE Game. Now, relate this cosy 'UKulele' version to from UK to DK - it appears like some Cardamom City dystopia too. Though wondering, despite the UK-DK differences, there certainly are extreme attempts and indications that thrive for a present 'Anarchy in the DK' too. Well, it certainly will not happen, - yet the Games cause extreme costs, - that can be minimized if consequently defended. This blog is an attempt to focus on a similar Dk scenario in order to minimise such sociopathic Games.

The premisses of this hypothetical anti-thesis, are thoroughly talked through in themes like; the 'Pirate Bay' that unhindered operated for years within the datacentres of police, health and tax authorities; the extreme violent paramilitary 'BlekingegadeGang where leaders were rewarded with consultant jobs in the police; the countless frauds in Dane Tax authority; the missing 330000 Dane passports; the illegal mink

genocide that ruined Dane the industry and favoured BRICS; the abuses of the Epidemic Law to ruin masses of SMEs; the Fatwa vs Law impeachment towards a minister; the Chinese overruling of Dane police towards peaceful Tibetan demonstration; the Kafka-like processes towards Dane police and defence heads; 'The Black Swan' documentary of the massive organised criminal cultures including bikers/lawyers and officials/unions; the burning of 'Børsen' at the abdicated Queen's birthday; The Dark Net related cross-border assassins by minors; -and all the other cases mentioned in blogs related to UU20240505 and UU20180316.

The previous century's tainting of the Quality of Constitution (QoC) is alarmingly exposed these years. Previously, the massive Judicial misconducts are Executed as pre-judicial short-cut by the prosecution authority (Anklagemyndigheden), and redirecting criminal charges to Parallel Court Apparatuses (POA) for unions, psychiatry, temples, trade, military (UU20240505). Now, some quasi-theocratic POA are exposed, whereas 5 mafiosi grand-families have already shortcut 5000 criminal charges and 'solved' them in Underworld GoT (Games of Temples). Such POA procedure seems 'politically' related to the BlekingegadeGang/PFLP, WagnerGroup/Kremlin, Iran/Hamas, Tengri/Swastika, Komintern/Nova-Russia, RAF/GRU etc. In brief, the GRU related WagnerGroup is collaborating with Iran's Secret Army and abuses quasi-Imams as 'useful idiots', to legitimate illegalities like 'agent' Rasputin senior was.

Such extreme infiltration, manipulation and destruction of the QoC are cloaked as ulterior political Games. Intriguingly, the term 'useful idiots' was projected by the history's main anti-western sociopath. For the Western nations and citizens preys, those are rather 'abused idiots', believing that any self-destructive crime will be pardoned after the CdE (Coup d' Etat). Still, such agents seem rather to execute in sociopathic thralldom than by own free will (UU20220501).

The present East vs West hybrid warfare towards the Dane QoC is most transparent in the Parliament (Folketinget). The extreme political parties, whether Red, Blue or Green, play various anti-QoC Games. Despite all the oratory skills, the ulterior S-E (Superior-Ego) Games by S-I (Superior-ID) is clearly Eastern Remote Controlled. That is simply some immature triangle Games of LYAHF (Let's You and Him Fight).

For example, DF (Dansk Folkeparti) influenced voters to block Denmark from joining the European Defence federation, Europol, Eurojust and Cepol (retsforbeholdet) and strongly propagate Denmark from abandon any 'civilised international Treaty, - basically by using some Red Mafia Putinist absurd reversed arguments (UU20151106). Therefore, Danmark became a magnet for international criminal organisations and the very high level of organised crimes in the Executive power.

Likewise, the party EL (Enhedslisten/faction-list) deny having any Dane Chairman, - which is a reason to assume that their chairman is of a foreign power. EL consequently shows its contempt for the Danish Constitution, which disqualifies for any profession in the Constitution. EL shows way too often itself as anti-NATO, but pro-BRICS. The EL Party simply acts as a straw-man, some fifth colonist as described in the Comintern's 21 conditions. If so, it is clearly high treasonous.

The Dane parliament uncovers merely a tip of the iceberg. It's not about whatever some parliamentarian might say wrong about their laws – it's all about what the executive do wrong and shortcut the quality assuring Court. The iceberg is anti 'rule by law' ('med lov skal land bygges'). The new king can change this mayhem. Still, after 30 years, its legislative obligations to the TFEU (Treaty and Functioning of the European Union), the ratified EU 'Rules of Competition' are systematically violated by misinformation and misconduct. How can there be 'rule by law' and justice under such 'anarchistic' symptoms?

Despite this hypothetical and synthetic antithesis, - there is no 'Anarchy in the DK'. The challenge for the Constitutional Monarchy is to restore 'Rule of Law' as intended – true legislative overrule prosecution authority.

Still, - the new Dane king is the superior power to ensure the Quality of Constitution (QoC).

SDG2030/QoH - Dane Coronation

Blog UU20241006

The coronation of a monarch is usually an official ceremony to state the alliance of society's 3 superpowers; the Throne, the State and the Temple. There were questions why the recent Dane coronation had no religious ritual. This blog aims to hypothesise on the recent Dane coronations in order to legitimise them. Historically, to set the basics straight, Denmark has three distinct types of coronation rituals; the elective monarchy since 1170; the anointing ritual of the absolute monarchy since 1660; and the simple proclamation since 1849, - till the present time.

Throughout the millennium, the momentum has shifted considerably of the Dane superpowers; (Th, St and Te). Historical dramas related to the three powers are well documented, for the rest of the world as well. The basic 3x3 religious hypothesis (WoW, SET and UNO) are talked through in blogs like UU20180302. Also, the psychosocial Power Games of Coups (CdTh, CdE, CdTe) are in a decade of blogging focused in chronicles like UU20220417.

An example of a coronal paradox is certainly the iconic image of Napoleon coronating himself as an emperor because the pope refused. Later, the State's Emperor burned down the self-declared Roma3 of Russia, State and Temple, yet not the Throne in St. Petersburg though. Still, this blog focus on the reason for the present Dane coronation ritual, especially on the religious aspects. Yet, the Danish catholic coronations surly ended when king Christian III radicalised to Protestantism and expropriated the Catholics' 1/3 of the land in Denmark. Though, this emphasis is by no means blasphemic, even though certain theocrats consider knowledgeable expressions as heretic.

What is the monotheism of 'western' theology though? Intriguingly, the fundamental philosophy seems rather pantheistic, due to all the included deities. (See the Xtra UU) A reason might be that the monotheistic philosophies are incomprehensible to any human - or even the whole Humanity, - hence polytheism and pantheism is perceptible. Intriguingly, both the New Testament and the Quran refers to the polytheistic Old Testament's prophets that refer to myriads of Arabian, Egyptian and European deities. As previously concluded, the Persian temple adapted to the Egyptian theology of a superior wholistic deity to execute another Coup d' Temple in Egypt. That monotheistic pantheism, 'one to rule them all', is simply occult (secret), like defined as the basic property of ulterior psycho-social Games.

Still, the Danish king is by no mean disbelieving, despite that the religious perceptions and practises seem rather ambiguous, confused and dysfunctional. That is rather due to a millennium of Game of Temples (GoT) by Catholics, Russian Orthodox and Protestants (UU20191206). A religious coronation of the King might even symbolise and promote such inconsistency. In contrast, he clearly states in his book 'Kongeord' (King-words), "All the religious stuff is also hidden in those words. Even without our Lord or God being mentioned explicitly" (translated). Moreover, the king and the constitution is obliged by law as Lutheran (the Constitutional Law §4 and §6). Maybe the most iconic symbol for the present Dane religious OverConscience is the iconic 'Marble Church' (Marmorkirken) with its location, architecture, statutes, memes etc. (See Xtra UU)

Still, the Dane theocratic silencing and excommunication appears bizarre. In psychosocial terms, - it can be characterised as an immature GoT (Game of Temples). It is like all of Denmark is excommunicated. Such national 4th degree of Games is thoroughly talked through in the blogs UU20170407 and UU20240204.

Surely, the Danish theocratic regime (Te) needs to clearly express a recognition of the new King (Th) like the head of State did (St). Such a formal act is indirectly obligated as the Constitutional Law states itself as Lutheran in §4 and §6). The theocratic silence and hesitation are certainly expressive though, - it is like it states to the whole world and Humanity that it is neither Constitutional nor Lutheran. What else then? Catholic, Russian orthodox, Jewish, Muslim, Tengri Rasputin, - or what? It appears as war-damaged as the Russian state-church during the atheistic cold-war. Politicalised, or atheistic, theocrats are no more trustworthy than any other politicians or embeds-folks.

Still, it seems that the Dane Temple needs to recover after the theocratic State-Church cold-war. It should not be that hard though, - if only loyal to God, the Constitution and the Danes.

SDG2030/QoH – European United Monarchies

Blog UU20240901

The European monarchies are somewhat different constitutions than the cold-war state-dominated ones. Although the monarchs' power and freedoms vary greatly, - so does it for the republican heads of states too. What kind of superior head of state is best, though, - a conservative king for life at a throne - or tens of presidents in radical rivalries for the chair? Intriguingly, - yet not the concern in this blog. This blog's focus is based on realizing that the remaining European monarchies are now federally united too. Still, the Legislative, Executive, Judicial and Democratic powers (LEJD) apply to constitutional monarchies as well as republics, - and even theocracies. Hence, this blog is an attempt to address the anti-western 5D 'fake facts' of the past, - in order to thrive for a constitutionally sane 5D path for our future.

A fundamental fact is that the European nations have obligated their national laws to a federal constitution, - called TFEU (the Treaty on the Functioning of the European Union). This mutual agreement of democratic values is achieved through centuries of rivalries, diplomacy and final resolutions. Hence, this European federation clearly states that any national, regional, organisational or personal contradiction to the treaty is illegal and must be handled as such. In the end, - the actual challenge for the democratic constitution is to prove that their 'Rule by Law' is truly valid and functional. Thus, if contradicting, - such constitutions have simply degraded itself to some kind of dysfunctional dystopia.

Taking the constitutions seriously, - as the LEJD powers are cybernetically intended to. Populistic objecting in Parliaments, operational counteractions in the Executive sector, the shortcut of any Courts or the silencing of truly democratic persons, - do not indicate any healthy, sane or wise constitution, but the very opposite. Anyways, such evaluation of constitutional sanity is not for this blog, though elaborated in blogs like UU20240505.

Still, there are European constitutions based on the foundations of the Thrones in Denmark, Sweden, Norway, Holland, Belgium, Spain, UK, Luxembourg, Lichtenstein and Monaco. Moreover, there is a European Temple state like the Vatican. The remaining majority of European nations are now converted to national States. There is numerous psycho-social analysis of such Freudian and Jungian extended analysis in blogs like UU20150403 and UU20151030.

Yet, it is all so simple, so ethical, so moral and even honourable. We Europeans, of 'the Democratic Cradle', have finally agreed on what is ethically Right and Wrong in our civilised nations, - feudal, republican or theocratic. We do indeed agree on our basic foundation. Now, despite the centennial collapses of Kremlin - and the projected world war consequences, - the civilized democracies are better prepared to defend ourselves towards such mayhem insanity. Isn't there a clinical doctor in Kremlin, Beijing and Washington, that can overrule when a head of state obviously goes insane? Anyways, in Europe, there are still constitutional monarchies that scores very well on the 'Good Nation Index' (UU20240107).

Now, what do our common constitution obligations say? Basically, it is based on the UN declaration that any nation and person have the right to thrive for their quality of existence, hence in these theses called LQ, QoC and QoH (LifeQuality, Quality of Constitutions and Quality of Humanity). This focus on humans, civilisations and humanity is certainly constantly confronted. Related theses are talked through, analysed and concluded in blogs like UU20220731, UU20171103 and UU20150320.)

The 'Western' monarchies are now united by obligations to the federal organisations like the EU, EFTA, ECHR, UN and NATO. Some main points to these obligations are: The United Nations' declarations of ICCPR and ICESCR. The defence alliance of NATO that is founded on the UN Charter. The European Convention (/Court) on Human and Constitutional Rights and Fundamental Freedoms (ECHR).

Still, most efficient is the national and federal obligation to the of the European Union (EU). These are basically stated in the TFEU (Treaty and Functioning of the EU), - that also relates to the EFTA nations

Norway, Iceland and Lichtenstein by the EEA Treaty. Some of the federally legally obligations are: the 4 basic freedoms in the democratic internal market, - yet restricted by HMS (Health, Environment and Security). The protection and promotion of innovative research, development, small enterprises, culture and regions. Hence, these legally obligations include: Access for small enterprises that qualifies to the huge public market (article 106). Reduction of abusive oligarchic treaties and practices in the public market (article 101-109). Reduction of market-distorting abuses by State Aid (article 107). Re-distributing social State Aids from the oligarchic organisation and directly to the citizens (article 107). Prohibition of customs duties and taxes having similar effects (article 30).

Still, there are uncivilised factions of the Comintern of 1920, - refurbished in 2020. These culturally assimilated and bonded 'sociopathies' still runs on the mobsters' dysfunctional bondages to some nova Red Mafia. The self-destructing and collapsing regime need to expand by Coup d' Etat in other nations, - to survive a little longer. Now, hopefully, most united civilised nations are well aware of those immature Games of CdTh (Coup d' Throne). See blogs like UU20220522.

The European re-United constitutional monarchies need to enforce their defence towards ulterior fifth columnists of extreme red, blue and green, - and not hesitate anymore, - but react accordingly to the present hybrid warfare towards the European Constitutional Monarchies. Basically, - some modernised Sustainable Development Goals for 2030 could help considerably, - especially 'SDG16 - Peace, Justice and Institutions' (UU20201002).

SDG2030/QoH – Prussian kingdoms

Blog UU20240804

The 5D analysis of the 4D constitution-model is based on the thesis that there can be alternative past-history-tales as well as future scenarios. Controversial indeed, - though most think that some past events have influenced our present situation. Yet, other events, or prevented ones, could have made our present situation somewhat different. Still, we certainly cannot change the past. Yet our perception of the past, is written of the winning rivals, - and does indeed influence our future behaviour. Hence, false past Believes can cause ethically Bad/Destructive/Wrong (BDW) planning and actions. This blog, though, focus on some historic perception of the kingdom of Denmark.

The 'folks' history writings of the Dane crown are just a millennium of history, - even though the culture is more than 10000 years old. A previous 5D hypothesis raised the question: Did the 'first' Dane king 'Valdemar I' (Vladimir) start or end the real Danish history. The reason for the question was that Wikipedia documents that the power was gained by killing the 3 native Danish kings – and that the new queen Sofia was a royalty from the capital Minsk in Belarus. Anyways - that hypothesis is not this blog's concern. That

analysis can be read in blogs like UU20170505 - and UU20170407 provides a thoroughly social-psycho analysis of the very dysfunctional nation.

The present Dane royalties are related to the terminated Prussian confederal kingdoms. Prior to that, there was a traumatic war in regions of Schleswig and Holstein. "The Danish Throne shifted from the Prussian families of Oldenburg to Glücksburg in 1863. The king was dying and had no heir to the Throne. The new Danish king was not of a royal family, but the Throne's sovereign power was transferred to the State's executive bureaucrats. Anyways, Dagmar, the last functioning tsarina of Russia was of this family and became the 'mother-in-law of Russia and the Winter Palace' until 1913." (Blogs UU20220508, UU20141219, UU20180323)

However, these were of Prussian, not German regions. "King William I appointed Otto von Bismarck as the Minister President of Prussia in 1862. Bismarck successfully concluded the war with Denmark in 1864; the subsequent decisive Prussian victory in the Austro-Prussian War of 1866 enabled him to create the North German Confederation, which excluded Austria/Hungary. After the defeat of France in the Franco-Prussian War, the German princes proclaimed the founding of the German Empire in 1871. Prussia was the dominant constituent state of the new empire; the King of Prussia ruled as its Kaiser, and Berlin became its capital." (Wikipedia, see link.)

In other words, it is a fact that European War-Games of the previous century had a goal to eliminate the Prussian kingdoms by Games of CdE (Coup 'd Etat) and AIDS & CCD (Colonial Collapse Disorder & Acquired Immunodeficiency Syndrome). The result was the Coldwar Iron-curtain over sovereign nations like, Estonia, Latvia, Lithuania, Belarus, Ukraine, Czechoslovakia, Yugoslavia, Romania, Moldova, – and most of all, - the western Russia itself. Moreover, the war-Game was triggered with invasion of Poland by the Stazi alliance of the Hungarian/Austrian 'Hister wannabe' and the Russian red-mafia boss - alias Stalin. Those comrades of war-crimes were legitimated with the Russian-Austria/Hungarian Molotov-Ribbentrop pact of 1939. (See blogs like 'Kremlinology' UU20220522.)

The war-Game script from 1913 seems to be updated and re-used since 2013. Hence, it is crucial to uncover the present War-Games towards 'the West' in order to minimize that world-war's destructions by disabling those aggressors, - no matter how ulterior the war-Gamers acts. (See the link to Comintern's 'Twenty-one condition' of 1920.) One hint is that the WW2 started in China 1937, two years before the Hungarian/Austrian 'Hitler' used same concept when attacking Europe. That 'Hister wannabe' might simply have been some black tengri copy-cat, considering the Asian allied, the religious references and the cruel methods towards humans.

Anyways, the greatest traumas of war are at human costs. The exodus of Prussians seems to be repeated on the Ukrainian these days. The were all labelled 'nazis' to legitimize the cruellest crimes towards civilians. All-in-all, - such mass-xenophobic of refugees is simply the very opposite of that the civilized nations stated that our humanity will never tolerate such again. They formed the United Nations. It is certainly now time to enforce the Sustainable Development Goals, - to minimize the casualties of indecisive War-Games towards millions of civilians.

Xtra-UU – Prussian and Ukrainian exodus and Refugees

The termination of Prussia in the past century seems like a ‘copy-cat’ attempt to eliminate Ukraine this century. The 5D hypothesis is that it is based on a refurbished of the Comintern’s War-Games towards civilians in western nations. Anyways, some, like these, 5D videos of the past, might enlighten some folk-schooling blurs of the previous centuries war-crimes. Hopefully, the uncovered truths can enlighten some clearly tasks to realise the civilised nations common tasks to realise the Sustainable Development Goals for the year 2030.

SDG2030/QoH – A hyper-democratic kingdom

Blog UU20240707

True democracy is the very foundations and support to the north-European constitutions. A main reason for the nations' stability and prosperity is simply that we chose a family to represent our humanity as citizens. Yet, democracy is upgraded with this decade's industry 4.0, which alters our perceptions of the needs, rights and prosperities of LifeQuality (LQ). Anyways, this blog is an attempt to minimise the destined crises of the present 4th Industrial and Social Reform. All in all, it is to hold on to GUR ethics (Good/Useful/Right) in this phase of those hybrid anti-democratic rivalries.

True democracy is naturally founded on the single citizens' LifeQuality (LQ). It concerns the single human beings will and ability to prosper their natural needs and rights. The phenomena democracy is the societal solution to thrive for the Quality of Humanity (QoH). The theses of this foundation of humans are a main concern to this blog series and described in blogs like UU20141017, UU20220703, UU20240107. Still, as mentioned in the blog 'AI press apparatus' (UU20231105): "The self-proclaimed 4th constitutional power is not that 'central-democracy' state-power. The thesis includes the 'hyper-Democracy' as a 4th constitutional power, truly democratic (citizens), not the undemocratic central 'democracy' (state-controlled press apparatuses). Democracy represents the true human nature, and should be more powerful than the 3 other constitutional powers. Humans should always be more powerful than the institutional machines.

The term 'Democracy' is further talked through in blogs like UU20160701, saying that hyper-democracy might appear by cyber-democratic resources like the information and communication technologies. Thus, hyper-democracy rather refers to the LQ (LifeQuality) of humanity at larger scales. It exists in every single human as a holistic inter-relation." Thus controversial, yet very real in this decade of Industrial- Social Revolution 4 (IR/IS4). However, in this 4th 'Industrial reform', we should have become adult enough to minimise harmful crisis and maximise the obvious positive outcomes, and avoid devastating Games of 4th degree, - like CdE (Coup d' Etat). Still, we are humans of humanity. Hence, this blog focus on the evolved democracy of citizens as a 4th power to the LEJ, - i.e. LEJD, - a 4th dimension of the constitutional power.

Still, democracy mainly concerns the citizens ability and right to prosper and provided the basic necessity to become willing and able adults. Negative bureaucracies have been abused to reduce citizens to submissive folks, yet the obligation is to promote. Still, this 4th industrial and social reform can indeed radically reform the public services to its true obligations, as in the civilised united nations' Sustainable Development Goals for 2030 (SDG). A major developing concept is called XaaS (Anything as a Service) as described in blogs like UU20201203.

“Most can be fixed due to innovations of virtualizations and XaaS, - as mentioned in the previous blog UU20201203. However, this might also be the most corrupted area of the public institutions (SDG16). Therefore, the parliamentary Constitution must take back the legal and executive power from criminal organisations that corrupts the executive powers by illegal re-distributions. The most important task at hand is therefore to regain the balance of the constitutional (LEJD) powers – in particular - stop the criminal factions within the Executive powers, that overrun the legal power by re-delegate public organized crimes from the criminal court to their para-court systems.”

However, a concern is: “How can humanity stay above machine in this eve of AI (Artificial Intelligence)? Certainly, the breakthrough will happen this decade of SDGs and IR4, - even if the institutions are ready or not. The hypothesis is that bureaucracies can be considered as organisational implants of ICT (Information and communication technologies), - or even POA (Parallel Organisational Apparatuses).” UU20231001

A most anti-constitutional POA Game is the so-called Danish ‘Retsforbeholdet’. That anti-western civilized Kardemomme Game simply reveals such political corrupted Underworld Gamers as POA thralls. The sociopathic scheme is obviously to disconnects Dane court and police from the international apparatus in (1993 and 2015) by a people’s referendum. Consequently, Danmark has become a magnet for all kinds of international crimes by discouraging the institutions from following European practices for justice as by Europol and Eurojust (UU20240505). Political parties promoting that was probably heavily sponsored by ‘the Red Mafia’.

Anyways, TFEU art 107.2a states that all ‘social stat-aid’ shall be given directly to the citizen and not to organisations. Public XaaS can certainly escalate the quality and availability of most public products and services. Parts of some public services are already virtualized for the internet, such as education, health and taxation. However, commercial providers seem far more enthusiastic to make such XaaS deliveries to the citizens - although the public servants are obliged to do so by penalty law. Still, the potential from public XaaS innovations is huge - since the public bureaucracies already have transformed to Information Technocracies. At large, some main categories of such public hyper-services can be for; Energy aaS, Transport aaS, Movement aaS, Insurance aaS, Citizenship aaS, Broadcast aaS, Information aaS, Housing aaS, Food aaS, Art aaS, Finance aaS, Communication aaS, Education aaS, Housing aaS, Healthcare aaS, Welfare aaS, Subsidies aaS, Emergency aaS, Security aaS, Police aaS, Defence aaS, Jurisdiction aaS, Governance aaS, Waste management aaS, Water supply aaS etc. The list is as long as the list of obligated public services.

Les Misérables - Who Am I?

<https://youtu.be/NNH0ZGAcCrE>

<iframe width="560" height="315"

src="https://www.youtube.com/embed/NNH0ZGAcCrE?si=MBJM5qTELNbelZoo" title="YouTube video player" frameborder="0" allow="accelerometer; autoplay; clipboard-write; encrypted-media; gyroscope; picture-in-picture; web-share" referrerpolicy="strict-origin-when-cross-origin" allowfullscreen></iframe>

Xtra UU - Les Misérables citizens

Les Misérables is considered one of the greatest novels of the 19th century. It has also other titles like; The Wretched, The Poor Ones, The Victims, and The Dispossessed. The story starts with the French Napolish CCS (Colonial Collapse Syndrome) after 1815 and climaxing with the planned failed Coup d' Etat (CdE) of the city-state Paris in 1832.

In UU blog sense, the drama is mainly personalising Good/Useful/Right ethics (GUR) vs Bad/Destructive/Wrong (BDW). The lives and interactions of several characters, particularly the struggles of ex-convict Jean Valjean and his experience of redemption. the nature of law and grace, the novel elaborates upon the history of France, the architecture and urban design of Paris, politics, moral philosophy, antimonarchism, justice, religion, and the types and nature of romantic and familial love.

Still, the centurial and present Russian aggressions and temptations of CCD, CdE and 4th degree Underworld socio-psycho Games, are quite the opposite of the citizens' morals' contra institutional abuses of democratic dominance. For example, the students' ethical references to the colours of red and black, - is quite the opposite in 'this age of fake news'. Now there is the Kremlin's 'Red Mafia' and the collective of 'Black Swans' in western institutions.

SDG2030/QoH – Judicial unbalance of power

Blog UU20240602

The 'Rule of law' is a fundamental and vital statement in all the civilised united nations. The 3rd constitutional power, the Judicial, function as the quality ensurance to the balance of power for the LEJ (Legal, Executive and Judicial). The court, the Judicial power, is the cyber function to the constitution, to ensure feedback and correction when outlaws execute illegalities. Such a well-function Judicial cyber-system sustains and develops the civilisations' Quality of Constitution. However, when being dysfunctional, - the civilisation will decline and fall into uncivil Underworld Games of crime. This blog sets the focus at the Judicial power in the Dane post-occupied cold-war phase, - and the obvious remedies to start the healing of the war-damaged Constitution.

As mention in the previous blogs, concerning the Dane Legal and Executive powers, there is now some critical destructive unbalance in the Constitution. The grave cyber condition is due to the Comintern's deliberate warfare towards western nations. It was stated by Lenin in 1920, executed by the Stazi conspiracy of 1939, hence the Coup d' Etat (CdE) of Denmark the same year, and continued during cold-war from within 'Embedet' (the Executive power). However, the CdE failed, the eastern Denmark did not become like the eastern Germany (S.U. Prussia). Still, the post-war Judicial processes rather seem like some Nazi-Stazi Games of CAD (Cloak & Dagger) when the Stazi allied to the nazis were betrayed in favour of the USUK Game. In fact, those immature BOOFY Games (UU20150306) rather scared Denmark into NATO, EU and ECHR. Still, there are great need for profound restorations, maintenance and healing to do after that half a century of dysfunctionalizing the Dane LEJ Constitution.

Legally, the Judicial court power is described in the Danish Constitutional law in § 59–65. In brief, "Judges answers to no-one, and in general cannot be fired or forcefully moved to a new position, unless due to a restructuring, or by verdict from other judges." "All judges except for the President of the Supreme Court are appointed by the reigning monarch, following recommendations (orders) from the Minister of Justice on the advice of the Judicial Appointments Council." (Wikipedia) Now, as the new documentary about the whistleblower 'The Black Swan' ('Den Sorte Svane') by TV2 proves, the 'Red Mafia' overrun the Judicial and Executive Powers completely like some nova parallel organisational apparatus (POA). Those untouchable oligarchs seem far beyond the 'Rule of Law', hence are sociopathic and destructive.

However, Denmark's cousin-nation, Norway, did not have similar cold-war dysfunctioning of the LEJ powers, - although, war-damaged in other ways. Denmark could, and should, revise and ratify their Constitutional Law and functioning by actually ratifying and publish their international laws, - in accordance to this century's obligations. Most of all, - to state to the Executive and Judicial employees what the Dane Legislation also is, - which they are legally obliged to act on.

Internationally, the ratifications include the treaties of the UN, the EU, the ECHR, and the NATO. Moreover, Denmark should also implement the Norwegian harnessing of the Judicial power to resist any hybrid Judicial warfare, - as well as to sentence criminal clerks and judges by the Penalty law. Such Legal and Judicial empowering is crucial to sustaining the Quality of LEJ, - and prevent the forceful illegalities in the Dane Executive power (UU20220724 'The Big Red'). Certainly, the Judicial power want a well-functioning cyber prosecution authority (anklagemyndigheden), - that do not occasionally act like some Red Mafia Godfather. (UU20230101 'Global Sustainability Court')

The Dane court system has to be restored to some proper quality of Constitutions. 'The New King in Town', - is the most powerful authority to do so, - like restoring the trueful Dane 'Rule by Law'. Actually, - the king approves all employment of judges to the Courts. Moreover, the king has full power of the Executive institutions, - including the 'prosecution authority'. As argued in the previous blogs, the Executive institutions does indeed massively shortcut the Judicial power, by redirecting their own institutional crimes to their Parallel Organisational court Apparatuses (POA), - like 'Arbejdsretten' (Labors' Court).

In fact, the Penalty Law's wording is stricter to 'embeds-folks', judges and similar public servants. Still, nearly no penalty trials are executed in those POAs. Such abnormal deviations to the 'Rule by Law' are utmost alarming, - as in inverted 'false negative' of faulty cybernetics. Still considering all their resources, time and capital - wasted on improper judgements, - the Legislative powerlessness of the Constitutional seems nothing but systematically corruption.

Conclusively, although the 3 constitutional powers are sovereign, there are certainly need for some cybernetic quality ensuring mechanisms between the three in order to maintain the balance of power. The Legislative power certainly need intersecting institutions both to the Judicial and Executive powers, - like the Judicial has a government to the Executive. Likewise, the Judicial power need means to monitor, propose and act on the Executive Power's prosecution authority and a Legislative power's Control & Constitutional committee. In brief, the Judicial power must be empowered to correct obviously judicial failures in the Legislative and Executive powers. Without such mutual cybernetic quality ensurance, - there will not be any proper 'Rule by Law' – just like a 'Cardamom City-state'.

Xtra UU – Judicial issues

Trying to find some documentaries of Danish judicial facts on videos, - was rather hard, - as in not publicly available. Therefore, the following videos are rather and general about the European and American Judicial powers. Hopefully, some basic educational material will be made for democratic cyber quality feedback.

Corruption is mainly capital-driven; hence the oligarchic state-capitalism is the most corrupt at all by the Red Mafia. A most obvious proof is the massive prejudicial short-cut of the Judicial power by the Executive power's Prosecution institution (anklagemyndigheden). The brief trailer shows backstage how the Executive power is corrupted and that none of the corrupted public embeds-folk ever get prosecuted for such penalty crimes. It is discussed, though, whether the Whistleblower is still a Trickster too.

SDG2030/QoH – An Embed King

Blog UU20240505

‘Embede’, is a Danish term for the Executive power, the State, - the public institutional complex. Originally, the word refers to an ‘embeds man’, an oligarchic statesman. They were highly influential to the Legislative power’s Government, and practically immune to the court of the Judicial power, - privileges illegally acquired by relation to the legally immune King. The overpowered ‘embedded men’, and their collective of ‘embedsfolk’, surely reminds of some oligarchic untouchables within the State. Such a state within the State, an embedded Parallel Organisational Apparatus, - as described by the Comintern war-declaration towards all Western nations and citizens in 1920. Henceforth, this blog sets a critical view on the escalating unbalance of LEJ power of the Danish ‘state within the State’ – and the obvious remedies to heal the Quality of the Dane Constitution.

As mentioned in the previous blog, the Legislative Constitutional Law provide the Danish King with superior powers, - which was disabled by 'crowning' a queen instead during the Cold War. Yet, by the abdication, the Constitution has regained those royal powers of half the Legislative (Parliament) and the whole Executive (State) power. Now, there is a great need for thoroughly restructure of that previous century's war damages, - facing this century's required healing, reorganisation and development.

There are numerous blogs, written to meet the recurring crises, like; theses concerning institutions (UU20210703), Danish politics (UU20150724), institutional dysfunctions (UU20231203), and psycho-social Game theses (UU20180323). Hence, the 5th Pyramid Game Over (P5GO), the 3D politics model (LEJ), plus the Hyper-Democracy (LEJD), the organisational ego-states of Drive, Will and Belief, the 5D scenarios model of future and past, the definition of Quality of Constitutions (UU20210703), LifeQuality (LQ), as well as the social transaction analysis of OK vs KO (not-OK).

All in all, the institutional war-damages, the dysfunctionalities from the Nazi-Stazi CdE Game were devastating and is spreading. the healing process should start with diagnosing the institutional Acquired Immune Deficiency Syndrome (AIDS), hence the Colony collapse disorder (CCD). Generally, the Dane Constitutional seems re-built to fail. That reversed parliamentarism in the intercepting government was mention in the previous blog.

There is an alarming unbalance of the Powers (LEJ) due to the 'embed' Executive power's coldwar towards western society and citizens, - which has not ended. Dane statistics shows that the public spending is 60% of BNP (370 billion euro), increased 20% in 2014-2024 and that the embed employees counts for 30% of the national (760,000 employee) - and in increasing.

There are considerable symptoms that could be diagnosed for dysfunctional organisations. There is a blog UU20170922 that actually transliterate diagnosis and remedies for organisations as large as nations, in the concept of the smallest, like families. It is relevant and applies. Anyways, all the institutional scandals, fraud, dysfunctionalities are mainly due to misconduct of Judicial powers that can only continue when the Legislative penalty power is disabled. The imperial facts, in lack of any institutional statistics, indicates institutional organised crimes of billions each year, as well as violations of thousands of citizens, - in the extended cold-war folks vs citizens. Still, 'embedsfolk' are misled into doing the daily public crimes.

Surely, there are some occasionally staged trials, to simulate some kind of judicial 'rule by law', - like the Britta case towards a single clerk, the political fatwa impeachment towards a minister and the multiple criminal charges towards leaders of the secret police and military. The misconducts can be arranged since the constitutional quality-ensurance is still shortcut by the prosecution authority (anklagemyndigheden). Its POA redirects most criminal charges against itself to their parallel court apparatuses for the labor, psychiatry, church, trade, military, - instead of the real Legislative penalty Court. Furthermore, some 'putinist' parties managed to block Denmark from joining Europol, Eurojust and Cepol (retsforbeholdet) by some absurd reversed arguments (UU20151106). Consequently, Danmark has become a magnet for international criminal organisations. Still, after 30 years, its legislative obligations to the TFEU rules of competition are systematically violated by misinforming and misconducting. How can there be any 'rule by law' or justice in such a reformed constitutions of 'rebuilt to fail'.

There is not a simple conclusion to heal these complex institutions. A previous blog concerning the 'Quality of LEJD said: "Cyber is a vital concept for the Sustainable Development Goals, - public institutions (SDG16). These mass-productions of public service are as determined to such total industrial reforms, like farming, mass-productions and digitalization were in the 3 previous ones. The outcomes will as well benefit the

citizens' LifeQuality – if managed wisely. Thus, the focus of this blog is on such de-bureaucracy of the public institutions - in order to liberate the civilizations.” (UU20210703)

By the way: the Danish court has ruled that any citizens might say to embedsfolk that 'I bør skamme jer' (you should be ashamed of yourself). That is at least a start.

Xtra UU – Embedsfolk and Robbers in Kardemomme CityState

“When the Robbers Came to Cardamom Town (Norwegian: Folk og røvere i Kardemomme by) is a 1955 Norwegian children's book written and illustrated by Thorbjørn Egner, which tells the story of Kardemomme by (Cardamom Town).” (Wikipedia)

Folk og Røvere i Kardemomme By

<https://youtu.be/6b88s0GSB44>

```
<iframe width="560" height="315" src="https://www.youtube.com/embed/6b88s0GSB44?si=mWT-KLN2jJvBKjDZ" title="YouTube video player" frameborder="0" allow="accelerometer; autoplay; clipboard-write; encrypted-media; gyroscope; picture-in-picture; web-share" referrerpolicy="strict-origin-when-cross-origin" allowfullscreen></iframe>
```

Plot summary: "The peaceful town Kardemomme and the citizens, are stirred up in serious trouble, when three outlaws, Casper, Jasper and Jonathan regularly enter to steal the things they need. They get arrested and treated well in jail. In the end they are integrated, and become heroes of the day when fighting a fire in the town's tower. Finally, Casper becomes the town's fireman, Jasper becomes the town's circus manager and Jonathan becomes a baker."

A well-reputed criminologist considered Egner contributions significantly to criminology in Norway due in part to this book." https://en.wikipedia.org/wiki/When_the_Robbers_Came_to_Cardamom_Town
(This most certainly applies to the city-state Copenhagen too. Citizens might be sceptical to an anarchist police-chief and the assimilation of kleptomaniac folks to public services.)

SDG2030/QoH – King of the Constitution

Blog UU20240407

"There must be a reason there's a king of the castle" - and also like there is a reason why Denmark had no king the recent half century. Still, the Constitutional Law clearly states the constitutional powers to the king. Hence, this blog focus on the Danish constitutional damages of the past century's wars and some proposals on how to heal the constitution. Thus, this is a hard blog to write, - because it focuses on some constitutional traumas, taboos and vital remedies. Still, 'the new king in town' has the powers to restore, sustain and upgraded the Danish constitution.

Fundamentally, the Danish constitution has legally obliged itself to the world's civilised treaties like the UN charters, the ECHR, the TFEU and the UN SDGs. These LEJ obligations (Legislative, Executive and Judicial) are agreed on by the national parliament as superior to any national contradictions. Such issues are addressed in previous blogs like UU20240107.

Some individual parliamentarians contradict their own parliamentary legislation, though. Such deliberate disinformation cannot possibly be due to political ignorance, - but rather due to unlawful disrespect for the Danish constitution. Such political Games misguide some public servants to execute criminal acts. Alarmingly, the present hybrid warfare toward the western constitutions seems to be some refurbished version of the Comintern's war-declaration towards 'the West' in 1920. Now, Folketinget seems mainly to be 'Left-winged' and statesmen depended. (Such issues are summarized in the blog UU20220522 'Kremlinology' and related to blogs about previous Danish parliamentary elections UU20151016.)

Historically, the Danish parliamentary system had two-chambers. 'Riksdagen' comprehended 'Landstinget' ('a congress) and 'Folketinget' ('a house'), - located in the king's castle, Christiansborg. There was a constitutional proposal to make a combined parliament of 210 members where the 'house'/Folketinget held 140. A public referendum was ordered that resulted with a highly qualified majority (91%) to pass that law. However, the referendum was annulled by claims that merely 44,46% voted, whilst requiring 45%. Hence, the Danish 'congress', the 'throne' and ultimately the constitution, suffered greatly. Intriguingly, the

annexed executive power, managed to disable half the legislative power, its judicial relation and empower itself tremendously, - like some autocratic renaissance of 1863. (See blogs like UU20180316)

The Danish constitution was occupied by a CdE Game of the nazi-stazi conspiracy in 1939. That was legitimated with the Molotov–Ribbentrop Pact of 1939, - hence executed by the allied comrades Stalin and Hitler. That was the same anti-western Kremlin regime that triggered the WW2 towards the European nations by some 4th degree Games of TLM, LYAHF and BOOFY. (See blogs like UU20180119). However, their TLM (Two Little Maidens) Game of CaD (Cloack and Dagger) turned their mutual trickster minds to 'enemy mine'.

The post-war occupation regime had to minimize the constitutional power of the Danish throne to uphold its own power and to avoid the Judicial power. Hence, the Danish government was abused as some 'reversed parliament' by the embed regime, to overrule their own parliament. Still, no prime-minister will ever get such power. Formally, the Constitutional Law was altered in 1953 in order to upgrade Landsting and alter the king's succession order. This cold-war dysfunctional process caused 'Folketinget' to replace the legislatively king's brother with the young, grieving and inexperienced daughter. However, the new queen did hold stand for the kingdom and did possibly prevent a full scale CdE of the Danish constitution. Moreover, Folketinget holds 179 members, not 210 or 140 members. Where are the rest the parliamentarians? Where is the 'upper house' / Landsting?

However, the constitutional war damages have not been healed and still holds organized crimes in the embeds institutional powers. Now, the king has the LEJ powers to heal the Danish constitution, - back 'fra skrot til slot'. The constitutional law states that the King rules over the Executive power and half the Legislative power. Moreover, the throne has 150 employees – about the same number as the present parliamentary House/Folketinget. Such issues will be talked through in the coming blogs. Meanwhile, issues of the 3D LEJ superpowers can be found in blogs related to UU20160923. Still, the main solution is to make surveilling intersections between the 3 LEJ powers, - like as there is a government, - there should be a constitutional quality ensuring comity ruled by the Judicial power.

Xtra UU – The Dane Parliament

Borgen is a Danish political drama television series. In Denmark, Borgen, lit. 'The Castle', is the informal name of Christiansborg Palace where all three branches of Danish government reside: the Parliament, the Prime Minister's Office, and the Supreme Court, and is often used as a stand in term for the Danish Parliament (Folketinget). Four seasons, each comprising 8-10 episodes, have been made.

SDG2030/QoH – The Queens of Women's Day

Blog UU20240303

The queen might be a front figure to any female movement – and be highlighted on this day of women's celebration. Believe it or not, - despite any opinions, - some conditions related to the Thrones are harder than anywhere else. Hence, this wisdom by Margrete II to dethrone in proper time should be honored by any feminists in Denmark. It seems the best way to sustain a stable and developing constitution. Moreover, Dane feminists should celebrate the new queen for an utmost achievement. This blog will further investigate these thoughts on the global women's day of 8th of March.

Still, the queen was extremely discriminated in her 50 years period of reign. The parliamentary remains of the Cold War, Folketinget, did not provide the queen the rightful power as stated for kings in the Constitutional Law. There is no larger discrimination of women in the history of Denmark. The constitutional mischief is still silenced as any shameful taboo. However, now Denmark has 2 queens. It is highly on time to upgrade the constitutional law to 'heritage law', - it seems that can be initiated by the king, the son, the husband.

Actually, ruling queens have an extraordinary hard time due to sexism in the LEJ powers (Legal, Executive, Judicial powers). Moreover, "Behind a great man is a great woman" is a recognized saying of truth. Any family is an organisation and a kingdom is most certainly so. In any society there are divisions of work for organisational functionality. Yet it is even hard to tell who is the psychosocial superpower of Drive, Will and Belief, - of LEJ. So, it is for any kind of decision, good as bad, functional as dysfunctional.

Denmark has a history of queendoms of different property, functionality and faith. The Danish liberating women on the 8th of March could and should remind themselves of women that actually made it to the top. Some of them are talked through in the blog UU20180323:

"Ingeborg Valdemardatter of Novgorod, the daughter of Valdemar I of Denmark and Sofia of Minsk, was the queen in France, just for a day, - and then locked away for 20 years. (UU20170505). Margrete I had a 5-year-old son as king and did indirectly established the Nordic (Kalmar) Union (UU20140502). The mother of Christian IV must have been very influential since he was crowned the king just 15 years old. Denmark started its most expansive period when Christian the 4th was too young for such enterprises, -yet most of the kingdom collapsed in wars when he got real power. Catarina (the Great) from Holstein was widowed soon after the marriage to the tsar and became an extremely expansionist tsarina. Princess Dagmar of Denmark/Holstein (alias tsarina Maria Feodorovna) was the mother of the last tsar and most influential to

the Russian empire. Louise, the princess of Glücksburg/Holstein, continued the royal bloodline since the King, Christian 9, was not of any royal family. The queen to Christian 7, that proposed the building a Baltic/Atlantic canal, as an alternative route between the Baltic Sea and the Atlantic Sea, was forced to stop when he was declared schizophrenic. His wife got pregnant with an adviser who was later sentenced to death by being torn apart in public." (Now, that 98 km Kiel canal that links the Baltic and Atlantic Sea is one of the world's most frequently used.)

Today, Denmark has 2 queens, since the abdication by 'the princess of Iceland' was no abolition of the Throne. Moreover, the new king Frederik X has a queen from the very republican Australia. Now, this globalized Kingdom will might be the most influential queendom too. After all, - we are all humans of the humanity. Yet, the cold war public institutions will most probably continue the sexist disempowerment of the Throne, - despite parliamentary, constitutional 'rule by law'.

By the way, , imagine if a king's spouse merely were titled princess 'gemahl' by some authorities. That would cause grave unrest on the Women's Day of 8th March.

SDG2030/QoH – AdTh (Abdication d’ Throne)

Blog UU20240204

There is a new King in Town. Denmark, like Holland, recently had an Abdication d’ Throne (AdTh). This might be one of the most peaceful, mature and prosperous action for their Sustainable Development Goals for the year 2030. The Thrones in civilized monarchies do indeed need their generation shifts in proper time. The traditional shift by death causes unfortunate deviations, distracting grief and rivalries. Such crises have previously caused constitutional dysfunctionalities and been abused in ulterior Games of CdE (Coup d’ Etat). The books of history are full of such examples, with even Games of 4th degree (wars). Hence, this blog will rather focus on the positive effects of such a well-planned transition of powers for the SDG-16 (Peace, justice and strong institutions).

The Thrones are basically hold by Humans, promoting humanity. So is the Dane Throne too. The theses to this blog series elaborates that in blogs like UU20160805, UU20160902 and UU20180323. Humans are unique, fragile and evolving. In fact, we are all humans, whether related to societies superpowers like Temple and the State, rather than the Throne. The thesis of their rivalries is talk through in blogs like UU20221225. Anyways, the thesis is that balance of Th, St and Te is as important as the balance of the constitutional of LEJ powers (Legislative, Executive and Judicial). Furthermore, the thesis is that any organisation can be psycho-analyzed just like any humans, since they are made of our minds through the millennia.

The abdication has raised some constitutional questions, though, that should be examined thoroughly, like: Should there be a retiring age for regents? Does doctor's order apply for regents too? Can a regent voluntary retire? Can a regent delegate core tasks? How influential are mentors allowed to be? Shouldn't the constitutional law be updated to the represent constitutional realities, - including international legalities.

The most powerful constitutional person in Denmark is the king. (Yet, the revised constitutional law of 1957 was not updated to mention a queen.) The king is sovereign to the Executive power, to half the Legislative and is immune to the Judicial. That power is now restored after the somewhat Legislative CdTh in 1957. There seems to be many dysfunctional stalemates after the joint stazi/nazi CdE of the Dane institutions in 1940. Even though the nazis were cast out in 1945, the stazis was not, due to their prior Cloak&Dagger Game, leading to the USUK Game (UU20200201). Such Institutional Cold War traumas need to be healed. Anyways, despite all odds and Games, the Queen did keep the House in order, and now deserve a break.

Moreover, Denmark has now a majority government that did legislatively authorized the new king. He has been waiting for so long and is well aware and prepared for some necessary institutional changes to fit this decade of Industrial and Social reforms (IR4/IS4). An indication of the renewed procedures of powers is the parliaments sudden decision have a Dane officer joining the USA military forces to protect the Dane shipping in the Red Sea. Any objections were futile.

Anyways, the unexpected generation shift in the Dane Throne can be considered as a 5D event. (See blog like UU20141219.) It is a far stretched philosophy, that future, as well as past events, can be alternatively analyzed. No doubt, a spoil of political Games is to rewrite history. Although such masspsychoses might provide a needed social rest at that time, - it has to be healed in time to avoid serious dysfunctionalities. This decade seems to be such a phase.

Danes, as the rest of the Scandinavians, have chosen that a human family is the head of state. there is no stronger constitution of 'Human over Machine', – over Institutions. The citizens of such a human constitution should indeed be supported, rather than fall into some ulterior Games of CdE KoC (King of the Castle). Still, realising that no one is perfect, - living up to some ideals of GUR ethics (Good/Useful/Right) will benefit all. Let's give 'the new king in town' a fair chance, also for sake of ourselves, our humanity, our society.

SDG2030/QoH – State of the SDG Union

Blog UU20240107

A New year, halfway in the Global SDG program, - there is now about time to consider the state of the united nations' thrive. The SDGs were made in 2015 and we are 1/3 in this decade of IR4/IS4. Like the new years' blog traditions, - it is time to evaluate the past and plan for the future. Yet, the status, reasons and consequences differ slightly from certain politicians, organisations and nations points of view. However, there are some objective and trustworthy surveys and reports that rather should be guideline for the rest of the SDGs. This blog will also evaluate some 'fake news' as the deliberate masspsychoses the jeopardizing Games really are.

There is published "The Sustainable Development Goals Report 2023: Special Edition". See the detailed report for all the SDGs at web-links and the Extra UU videos. Here is a summary to the general introduction to the SDG Progress at the midpoint:

"At the midpoint of the implementation of the 2030 Agenda, a sobering reality emerges: the world is falling short of meeting most of the Goals by 2030. We uncover both successes and challenges, bringing attention to areas requiring urgent attention for significant challenges. We acknowledge the existing gaps and calls for a redoubling of efforts on a global scale. By harnessing the power of data, we can gain valuable insights and drive effective actions towards realizing the 2030 Agenda. Half of the 140 targets that can be evaluated, show moderate or severe deviations from the desired trajectory. Also, more than 30% of these targets have no progress or regression below the 2015 baseline."

The 5 urgent priorities are: "1. Recommit to transformative SDG actions. 2. Advance inclusive policies for equality. 3. Strengthen capacity for SDG progress and recommit financing for all SDGs. 4. Strengthen the UN system for certain SDGs. 5. The World leaders have to unite in SDG summit for rescue plan for breakthroughs." Moreover, the 3 most required actions are to: "1. Equipping governance and institutions for sustainable and inclusive transformation. 2. Prioritizing policies and investments that have multiplier effects across the goals. 3. Securing a surge in SDGs financing and an enabling global environment for developing countries."

Though, the 'Good Country Index' (GCI) of 2014 does also provide annual statuses for 163 united nations. The GCI was thoroughly talked through in blogs like UU20141212 and UU20160923. "The GCI is a composite statistic of 35 data points that are mostly generated by the United Nations (UN). The data points are combined into a common measure that ranks the seven categories; Science and Technology, Culture, International Peace and Security, World Order, Planet and Climate, Prosperity and Equality, Health and Wellbeing. "The scores of GCI might surprise. Nine of the top 10 countries are in Western Europe, where 4 are Nordic. Contrary, the ranking of anti-SDG BRICS countries is like Russia = #95 and China = #107." However, now, Norway has dropped out of the top 10 list due to its recent dysfunctional governance, - which calls for UN/EU help and support to the SDG 16 'Peace, Justice and Strong Institutions'.

Moreover: "The GCI is interesting in relation to the value-system called GCR (Good/Constructive/Right). GCI and GCR are practically compatible and supplementary. The approximation is close enough to be virtually similar. Originally, the GCR was related to the 3 Freudian ego-states at individual and social levels. However, the GCR advanced to the 3D political axis in relations to the political meta-systems; Throne/State/Temple. Besides, the three axes have negative as well as positive scales, which can de-cloak anti-forces of civilizations, - like CdE Game-players."

Also: "All the GCI factors are closely related to the definition of LifeQuality (LQ) since they relate to the Human Needs of the Maslow hierarchy; Physical, Safety, Social, Respect and Self-realization. Furthermore, like LQ, all the GCI factors are related to UN HR treaties the UNC (United Nations Charter), the ICCPR (International Covenant on Civil and Political Rights and the ICESCR (International Covenant on Economic, Social and Cultural Rights) (UU20141017). LQ is directly related to true political democracy and consequently the conditions for individual and social mental health."

Anyways the different point of views on Qualities. What should the united civilized nations focus on to get on the SDG 2030 track? Obviously, SDG 16 'Peace, Justice and Strong Institutions' is the very core factor that certainly dysfunction. None of the other SDG can succeed with dysfunctional, corrupted and disinformed institutions. Clearly, Peace and Justice are highly required for certain nations Institutions, - simply 'Rule by Law', - not anti-UN plutocracy. This critical priority is thoroughly talked through in blogs like 'AI and the Balance of Powers' (UU20231203), 'Institutions (SDG 16)' (UU20201002) and 'Hyper Democracy' (UU20201107).

SDG2030/QoH – AI and the Balance of Powers

Blog UU20231203

Every year at this time, the blogs are related to Xmas. However, this one relates also to this UN SDGs for 2030. Reflecting that most civilized constitutions at that time were seriously war-damaged too. The dysfunctionalities were never properly restored due to denials, corruptions and submissions. Now, the ‘Balance of Power’, the ‘Rule of Law’ and ‘True Democracy’ can be restored. Knowing that the Constitutions are basically like computers Operating Systems, like Roman scrolls of scripts, - the realistic solutions to heal the Constitutions is to utilize the ongoing AI virtualizations of the institutional bureaucracies. Hence this blog is the continuum of previous ones and aim to provide realistic solutions in this decade of the 4th Industrial Reform (IR4) and Sustainable Development Goals for institutions (SDG16).

The musical JCS is not religious, but dramatizes the dysfunctional relation of the constitutional superpowers; the Throne, the State and the Temple, - as well as the dysfunctional unbalance of the 3 constitutional powers; the Legislative, the Executive and the Judicial (LEJ). Hence, there was a Democratic reactive movement, which led to the most intriguing judicial murder. Still, the analysis, diagnoses and remedial are as relevant today as then. They certainly needed a SGD16 (Institutions). (By the way, the whole incident was probably about preventing the formation of a joint Roman-Egyptian empire with Julius, Cleopatra and Caesarion, - all self-declared devine.)

The thesis of Quality of Constitutions (QoC) is talked through in several blogs like ‘Big Red’ (UU20220724), ‘AI Bureaucracy’ (UU20231001) and ‘GSC - Global Sustainability Court’ (UU20230101). Those main institutional dysfunctionalities are due to hybrid warfare of infiltration, manipulation and corruption. Such sociopathic scripts are now uncovered, like the Comintern’s war declaration of 1920 towards all the Western civilizations. In brief, AIDS (Acquired Immune Deficiency Syndrome) were used to cause CCD (Colony Collapse Disorder) in order to execute Games of CdE (Coup d’ Etat) at all Western constitutions.

The constitutional war-damages worldwide are quite different. Such are hard to diagnose, hard to admit and hard to heal. Thus, not yet healed and still cause severe calamities to the Quality of Lives (QoL/LQ) and the Quality of Humanity (QoH). The solution to the unhealed constitutions is rather similar to what’s described in blogs like ‘Kremlinology’ (UU20220522) and ‘Big Data Masspsychoses (UU20210905).

Several Constitutional powers seem way out of balance. In the 'western' world, the State institutions seems overpowered. Furthermore, and rather stereotyped, the temples are dominating in the 'Eastern' worlds and the thrones are dominating in the developing worlds. This stereotyping is to indicate that the three superpowers, the Throne, the State and the Temples are still superpowers globally, even though seemly singular locally. There are several philosophical analyses of such in blogs like UU20200306 and UU20170317.

Anyhow the Constitution, - the solution to restore the balance of powers is to not make them so automatous that they can be abusive. The constitutional cybernetic machines need interfaces, interferences and interactions between the 3 powers. Imagine the 3 powers as 3 overlapping circles L, E and J. The powers will then be reduced to; L not EJ, E not LJ, J not LE. Hence the powers are not autonyms, but might react to extensive abuses. The quality enduring intersections will be L and E (government), E and J (prosecuting authority) and J and L (constitutional authority). The model also contains an all-inclusive intersection of L and E and J. This ultimately power might be considered as some none-Legislative, non-Executive, and non-Judicial hyperpower, that function like as a supervisor and emergency break. Furthermore, the thesis includes the 'hyper-Democracy' as a 4th constitutional power, truly democratic (citizens), not the undemocratic central 'democracy' (state-controlled press). This should represent the true human nature, and always be more powerful than the 3 constitutional powers. Man should always be more powerful than machine.

Still, with the rapid deployment of AI, there is no doubt that constitutions are getting computerized fast, - probably too fast without proper quality ensurance. As mentioned in previous blogs like 'AI Bureaucracy (UU20231001) and 'AI vs ai' (UU20210801), there more versions of ai like artificial; instinct, intuition and idiocy. Certainly, some constitutions of Thrones, States and Temples will ignore SDG16 and develop towards ai, rather than AI.

SDG2030/QoH – AI press apparatuses

Blog UU20231105

Artificial Intelligence (AI) is a main disrupter in this decade of the 4th Industrial Reform. Many fields of work are automated and radicalized. Consequently, workers are discretely revised and reformed and replaced. Unsurprisingly, the press-workers seem to shout up the loudest, simply because of their resources, – ruling the mass media. Still, the press, and others, will be radically altered, – eventually to the better for Humanity in the long run, - like in the previous 3 IRs. In this blog, the focus is ones again set on the press as a war-apparatus, yet with consideration of the AI and SDG (UN Sustainable Development Goals for 2030).

Topics of the press, the mass media, are talked through in several previous blogs. The main concern now, is the resolute strategy to alter ‘western’ press apparatuses and workers to be tools for masspsychotic weaponry from within. Those orders were dictated in 1920 by the Comintern is stated in the ‘Twenty-one Conditions’ by the Russian Cominterns war declaration towards the ‘western’ nations and citizens. It was initiated by Lenin and executed by Stalin (see link). However, in the following ‘cold war’, the 5th columnist undermine fake news, fake instructions and fake executions were like the present Putinists’ Red Mafia. That warfare towards to the sane humanity is most certainly ongoing in this century and IR4 too, - like mass-fabricated ‘fake news’ in any part of societies.

The Press is not a 4th State power, - although the Kremlin still projects that delusion. The media, including the press, is a democratic property as a counterforce to constitutional dysfunctions, - especially the undemocratic press. That mass-delusion stems from strategies of the Comintern that called their parallel press-apparatuses 'central democratic', meaning dictated from themselves toward the arc-enemies the western bourgeoisie (citizens) and the yellow labor unions.

An anti-thesis is called 'hyper democracy' and talked through in blogs like UU20160923. However, the new challenge is parallel press-apparatus of ai bots. Such can too easily be dominated by nova Comintern of the 2020 and AI presented as artificial intelligence. Though, there must be at least 4 kinds of ai, - namely artificial intelligent, intuition, instinct and idiocy. (See 'AI vs ai' in blog UU20210801). For those that might want some reflection to relevant social-psychology, - there are numbers of blogs concerning a terminology that can relate to the 3-dimensional models of Instinct (id/drive), intuition (se/belief), Intelligence/Idiocy (ego/will). (See blogs like UU20200402.)

Artificial bot workers of the press apparatuses are immature and even sometimes built to fail. There are already major concerns about absurd solutions from AI, - that rather seems to be ai. There is a new term 'AI hallucinations' when it refers to 'facts', like books, that does not even exist. Bots seems also used for propaganda, assimilation and cleansing by mass-psychotic regimes. An example is the so-called 'Mandela effect', the mass-psychosis that he was dead. Even Google uses their immature AI on their users for 'trail and error', in order to get feedback from humans and fixed the inbuilt faults. Even their peer leaders might at a point admit that they do not know what happens in those vast and complex algorithms. (See 'infant humanity' at blog UU20211204.)

That path of Icarus over Babylon needs to be corrected. Humanity need some quality ensurance of mass-information. Just like there are proposed 3 laws of robotics (plus the 0th and the 4th), the is need to such for AI press apparatuses, - parallel or not. The only seeable way for such global health of information seems to be the in the united civilized nations' sustainable development goals for the year 2030. Most relevant are the SDGs; 4, quality education; 8, decent work and growth; 9, industry, innovation and infrastructure; 10, cities and communities; 12, responsible consumption and production; and 16, peace justice and strong institutions.

Besides the UN sanity, there might be another force to alter the pass of the ai parallel press apparatuses, the PROSA press workers, the expendables the abandoned human press workers, the previous generation of the 'useful idiots', the suckers of the P5GO. There might be some collective sane reactions that will counterforce their nemesis. Hopefully, not to fight mass-psychosis with mass-psychosis. Hence, such revers thinking might provide an outcome where human press workers still are above ai machines.

Xtra UU – The new printing revolution (reform)

“The Printing Revolution occurred when the spread of the printing press facilitated the wide circulation of information and ideas, acting as an "agent of change" through the societies that it reached. Demand for bibles and other religious literature was one of the main drivers of the very rapid initial expansion of printing. Much later, printed literature played a major role in rallying support, and opposition, during the lead-up to the English Civil War, and later still the American and French Revolutions through newspapers, pamphlets and bulletins. The advent of the printing press brought with it issues involving censorship and freedom of the press.” (Wikipedia)

SDG2030/QoH – AI Bureaucracy

Blog UU20231001

How can humanity stay above machine in this eve of AI (Artificial Intelligence)? There are vital debates on the ethics of high-tech implants like neural links. Low tech implants and organs are now common in surgery. Certainly, the breakthrough will happen this decade of SDGs and IR4, - even if the institutions are ready or not. However, this blog focuses on AI ‘implants’ in the institutions themselves. The hypothesis is that bureaucracies can be considered as organisational implants of ICT (Information and communication technologies), - or even POA (Parallel Organisational Apparatuses). Hence, this blog is based on several previous ones, - and take the philosophy a bit further. This will probably be a series of blogs concerning the evolving AI bureaucracy in this eve of IR4/SR4 and the SDGs.

Bureaucracies have always existed in human societies, - and always will. It simply means writing-desks with the power of scripting and deciding. From the age of scribbling scrolls to the computer desktops, - it is still the humans’ ability to making thinking into writing and order for the organisational institutions. The Victorian human bureaucracies have now developed to being public ICT. Such issues are previously talked through in blogs like ‘GSC (Global Sustainability Court)’ (UU20230101), ‘AI vs ai’ (UU20210801), ‘Genetic Engineering (UU20170714) and ‘Institutions (SDG 16)’ (UU20201002).

These days, this decade of IR4 and SDGs, are challenging indeed. This 4th industrial reform (IR) will most certainly affect the constitutional Executive Powers, as the previous 3 IRs did to the agriculture, the industrialization and the digitalization. The public services are most certainly to be rationalized and

democratized to the better of the societies and humankind. The efficient rate might be as high as 1/10, - a thumb-rule number indicating the massive break-through for the next generation of products and services. Hence, this industrial revolution will affect the 3 constitutional LEJ powers (Legislative, Executive and Judicial), just as well like the 4th power, Democracy already has. Talks about ongoing the powershifts are in blogs concerning a new term 'Hyper Democracy' (UU20201107).

Still, we cannot imagine the constitutional outcomes of this IR4, like we could not before the previous 3 IRs and SRs (Social Reforms). Hence, there is a rising concern this eve of AI (Artificial Intelligence). Although just a machine, it can most certainly cause havoc and jeopardies due to carelessness, uncivilized agendas and abuses. In fact, that is nothing new, considering some autocratic organisations like POA (parallel organisational unites) as described by the Comintern's Twenty-one Conditions' - with its war declaration towards civilized nations, organisations and citizens. That coldwar traumas are not fully healed, but rather seems to be re-activated like some pandemic computer-virus in the massive constitutional computer systems.

What might a constitutional artificial intelligence be, then? The hypotheses were many in sci-fi novels. Now, some are not called fiction, but rather considered philosophy (sci-phi). Ancient governmental terms like cyber, are renewed. Hyper is common for any youngster using the internet. Newer though, is terms like augmented and virtual reality, where artificial images are realistically mixed with real perceptions. No doubt, - altered realities are deployed and perceived. Such new realities do also revitalize some philosophies of over-science influence like the sub- conscience ones to the conscience, - in social-psychological terms. (See 'Big Red' UU20220724). Uncivilized nations of BDW ethics (Bad/Destructive/Wrong) are already abusing AI and will escalate to uncontrollable havocs for themselves and others. - like some Ministry of Fear.

Neural Implants, though, escalate the science-philosophy (sci-phi) to another level. After decades of testing on animal, such man-machine integration is taken to human brains. Such irreversible hybrid technology is far more revolutionary than the AI. This is HI (Hybrid Intelligence) at collective scales. New terms like 'proxy brains' indicates that we are developing a higher intelligence than any single human or organization can comprehend. Hence, such AI must have limited powers, ethical protocols of GCR ethics (Good/Constructive/Right) and emergency shutdown switch at UN level. Yet, such hybrid AI seems to be an unavoidable path to the Sustainable Development Goals and sufficient QoH (Quality of Humanity).

Still, we might rather do some revers thinking. Is such man-machine integration necessary to control what we cannot understand? Can human implants improve the understanding and control of the AI complex? Such thoughts will probably be explored further in future blogs.

SDG2030/QoH – Submarine Life and Industry

Blog UU20230903

The quality of submarine life is highly dependent on how nature and humans manage. 2/3 of our biosphere is marine. There is even a saying that we know more about our Moon and Mars than our own seas. This is radically changing now, at the eve of this new age of submarine extension. Still, we have lots of experience and hinter sights from our development at land. Moreover, there are great differences and new enterprises ahead, - where no human has ever been before, - right outside our doorstep. Hence, this blog sets the focus on the civilized united nations sustainable development goal for 2030 – namely SDG 14 'Conserve and sustainably use the oceans, seas and marine resources for sustainable development'.

Deep sea mining involves retrieval of minerals and deposits from the ocean floor found at depths of 200 to 6500 meters. There is great interest in polymetallic nodule, polymetallic sulphide, and ferromanganese, which contain valuable metals such as silver, gold, copper, manganese, cobalt, and zinc. Such minerals are until now merely dredged in coastal zones. Future Deep Sea mining raises questions about its environmental impact. Some actors argue that it should be totally banned, due to environmental and economic interests. Banned or not, the mining will happen soon anyways, by new technologies. Hence, there will be considerable geopolitical consequences land dominated resource holders.

The sea areas are twice as large than the land areas. Yet 70% of all marine life is at the coastal areas until 200 meters, due to the access of sunlight. That is half our globe's surface. Even though most land areas are claimed by nations, - most sea areas are international. Some nations have even larger sea-areas than land. Moreover, the seas are even as high, or deep, as the air volumes over the lands. Just imagine if the skies were as populated as the seas. Though, we have barely started to explore the seas and practically merely mapped the surfaces. Moreover, the seafloor is assumingly richer than the land areas. Most remarkable though, is the submarine flora and fauna. Even The most fantastic fictional tales cannot measure up with what we have seen of the lifeforms so far.

Still, the obligations of the civilized united nation are to preserve the seas, and prevent industrial damages, like we have experienced at certain lands. The SDG 14 is also closely related to the Food (SDG2) institutions (SDG17); 'water and sanitation' (SDG6), 'urban sustainability' (SDG11), 'industry and Infrastructure' (SDG9), 'consumption' (SDG12) and 'partnerships' (SDG17). Somehow a nice way to think of Humanity and the quality of all life, is that we certainly can act as gardeners of the seas as well as the lands. However, history

proves that some global authority, like the UN, is required to prevent fatal outcomes. Yet we can harvest and farm in sustainable ways. — if globally regulated.

There is nearly no experience in human submarine existence. Such submarine existence is almost as alien as the imaginations spun out of the sci-fi series Star Trek. In fact, the sea-pressure is far dangerous than space vacuum. Furthermore, there is the human need for air, food, fresh water, shelter, energy, exoskeleton, etc. Yet, we are still far from developing truly aquarian existence. Such might even take another century to fully develop.

Still, the deep-sea resources might be far more valuable than earthly and space resources. The new space-race for exploring and mining our Moon is minimal in comparison to the submarine enterprises to come. In fact, we know barely nothing of what states and companies have done so far, except for giant nuclear submarines, oil drilling, windfarms and massive fisheries by industrial trawlers. Still, the sea-farming seems to get its breakthrough this decade of SDGs. A question then, - why rather space than sea? The following videos might provide some ideas of why.

There are agreements on some clear UN regulations for the space and our Moon. For example, no nation can claim its own domain, no nations can establish military settlements, no nation can use nuclear weaponry. However, we know very well that there are numerous nuclear submarines and that some nations insist on expanding by extending island areas. Yet, there is no preventing legal regulation toward mining our moon or other special objects. An omen is that for example China remakes UN maps of national territories, – making Russian, Indian and other south-east coastlines their own.

Yet, there is the UN international seabed authority 1994, that regulates and control all activities for mineral mining. Now there are 19 exploratory missions for the metals. The potential just outside Mexico will alter for example the need for metals to electric car productions. However, there is practically no prevention to exploit the vast riches of the seas. Any nation or enterprise can, and will, industrialize the international seas by the crudest means of industrialization of the sea-floors.

Hence, deep sea mining can reduce the land mining, and environmental consequences considerable. It might be the best solution to most land environmental issues.

SDG2030/QoH – Subway freight

Blog UU20230806

Most cities have urgent needs to solve their transport problems. Especially the urban transport of goods is expensive, polluting and inefficient. Though, most authorities and citizens agree that electrification is the solution. Yet, most of these cities provides such electric infrastructure, but have simply prevented such utilization for decades. The obvious and instant solution is to 'rule by law' and not to prevent any freight transport on their subways anymore. Hence this blog elaborates on the subway freight in order to solve some urgent Sustainable Development Goals for 2030.

Related issues have been talked through in blogs like; 'Infrastructures' (UU20211002), 'Megacities' (UU20220710), 'Citizens of Cities' UU20220703 and 'Gaiapolis' (UU20220807). The theme also relates specially the Sustainable Development Goals; SDG-7, Clean Energy; SDG-9, Industry, Innovation and Infrastructure; SDG-11, Cities and Communities; SDG-16, Institutions and Justice; and SDG-17, Public/Private partnerships.

The issues of suburban freight is highly related to the technologies of this 4th Industrial Reform. TaaS and MaaS means Transport and Movement 'as a Service'. Hence, the transport of products should be made as efficient as movement of people. The MaaS enables the citizens to plan a route with their mobile app the involves multiple schedules and vehicles. Citizens are even allowed to bring some smaller products like packages. All-in-all, people or products, - it is simply about free movement from A to B. Transport of goods in these well-developed collective subway infrastructures do not exist, but are rather forced to the streets – polluting and overcrowding.

Freight trains on subway rails do indeed requires some modifications of the infrastructure. Still, most is already in place. Freight subways should not be mixed by passengers though, - just like there is clearly separations between passenger- and freight-trains. There should be sidetracks, separate stations and related facilities for re-loading, storage, handling, etc. Moreover, subway-lines that are combined with surface tracks, stations and connections are the most suitable for subway freight. There can be suburban interconnecting stations for reloading goods from trailers, trains ships and even planes, - the so-called Marshalling Yards.

The wagons for products are certainly different from those for people, - although using the same tracks. These days, most barriers are overcome for the unstandardized rail-dimensions, energy for the engines and traffic regulations. Flexible railway bogeys can be suited for any kind of rails, container or wagons. Bogeys can even come with electric engines and highly advanced electronics, - which practically solves any TaaS challenges for suburban freights that are interconnected with other trams-, trains- and metro-systems.

The negative freight products, like all sorts of garbage, can as easily be transported out of the cities. The amount of garbage in cities is critical due to expensive, polluting and inefficient handling and transport. The very same subway freight trains, stations and facilities can most certainly be reused for the return of the garbage out of the cities. These freights of negative products should be transported directly to suburban recycling sites, and thereby efficiently recycled for a positive circular economy.

The barriers to realize the suburban freight is basically due to politicalized corruption. There are just minor and manageable barriers to the development and implementation of the concept of freight transport on urban electric transport networks. It can be realized within 2030 with minimal investment and true political goodwill. This problem and solutions are talked through in the blog UU20210605 'Public Market Failures'. In brief, legally, any qualified actor is allowed to utilize public infrastructures, - just like for pavements,

roads, seaways and airways. There are no legal barriers to let non-public freighters utilize, and even modify, the existing electric transport infrastructure to realize the SDGs for 2030.

A proposal for concept development of freight transport is to:

- Make legal clarification about the right of use of infrastructure for subways.
- Test a simple freight transport in wagons from A to B.
- Strategically select stations as A2B destinations.
- Promote electric 'boogey' carriages as (EV), preferably Internet of Things (IoT).
- Map the need for waste freight traffic out of cities via subways.
- Optionally plan siding, platform, warehouse and reloading, - i.e., Marshalling Yards.
- Modifying existing TaaS applications similar to the Itinerary for freight logistics.
- Map the most favorable time periods for freight traffic, when passenger transport is low.
- Find willing freight forwarders for the project by promoting SDG17 Partnership for the Goals.

First movers will get the advantage to export their concepts to other metropolises in other cities - worldwide.

SDG2030/QoH – The Impact Flood

Blog UU20230604

The myths about 'The Flood' are basically true. There was indeed a major asteroid impact in the Arctic region that caused the 'Younger Dryas period'. Evidently, the previous ice-age had a sudden major climate change in the polar regions, - as if hit by a series of 'nuclear' blasts. This fact alters religious and scientific dogmas. Such meteor impacts have happened much too often. A main goal for our Humanity must therefore be to minimize, or preferably prevent, such disasters in the future. That is relatively easy, if our minds are set to actually do it. Thus, this blog aims to further encourage such resilience, sustainability and security by monitoring, detecting and alter the next NEO to endanger our existence as we know it.

Scientifically, the Younger Dryas impact hypothesis (YDIH) explains the sudden flood of freshwater in North America. Fragments of a 4 km asteroid struck northern America, Europe and Asia almost 13000 years ago. That multiple massive meteor impacts are evidently identified by craters, rock layers, polar-ice layers, scorched biomass, as well as un-earthly materials like iridium and 'micro-diamonds'. We do not know how must flora and fauna was lost by the following arctic floods of icy water. Still, 12 major mammal species became extinct, such as the Mammut and Sabre tiger. Moreover, the flood caused the extinctions of late Pleistocene megafauna, 35 animal classes and resulted the end of the human Clovis culture. The cold from the impact triggered a global climate change and a brief winter elsewhere.

Religiously, The Genesis Flood narrative is a Hebrew myth of in the Moses' 'Book of Genesis'. It is dated from 5-3 BC. It is claimed that 'God decided, during a rain for 40 days and a flood of 150 days, to return and remake the universe to its pre-creation state by watery chaos. Noah's Ark is claimed to save one family and some pairs of animals from that 'cleansing'. However, that myth is inconsistent with real physical findings of geology, archeology, paleontology. That mythological interpretation seems rather based on the Persian and Egyptian myths, as well as Plato's writings about Atlantis, - alleged 9000 years before Plato's and

Moses' time, - 12500 years ago. By the way, the journalist Graham Hancock have made several documentaries about the myths of several other lost civilizations at that time.

Anyway, anyhow and anyone. Now we know. Such disasters to our biosphere have happened far too often, - and will most certainly happen again, - if no one and nonsense determines our earthly exitance. Now we know, the reason of those natural disasters. Now we know, at least in theory, how to prevent such. It is rather easy, indeed, if we set our minds to it, – and do not fall for some primitive prejustice. However, we do need to expand to our companion dwarf planet, - the Moon.

It is great news, indeed, that the lockdown for the second 'great leap for Humanity' is finally ended. Now, Humanity is finally allowed to prepare and prevent such natural disasters to the unique creations on Earth. Yet, the necessary projects will be hard to realize. It will still take several decades, - which, by the way, could already be reached if not locked-down by ignorance and superstition. One thing should be very clear for certain, - blaming God for the massive extinction is very wrong and damaging, - and blasphemous.

Anyways, being enthusiastic about the future potentials to expand the UN SDG to our outer space, - I do indeed encourage to, - at least, - consider the following video presenting the EMP Engine as a possible solution to some of our planetary challenges ahead. I truly believe that some of the visions can be realized and helpful to prevent the next NEO disaster from happening.

Conclusively, any next NEO impact on our Earth will be a natural disaster that exceeds any volcano, quake, Flood or war. The United Nations should extend the Sustainable Development Goals to not exclude outer space and our planet-system. In fact, such concerns were the reason for the lockdown of our companion dwarf-planet – the Moon.

Some might find interest in the previous blogs 'Planet B' (UU20230402), 'Lunar EMP Engine' (UU20230507) and this blog's video called 'The EMP Engine – Lunar (and asteroids) Visions'.

SDG2030/QoH – Lunar EMP Engine

Blog UU20230507

A 4th kind of engine is needed to solve our challenges concerning our Earth's orbit, our Moon and elsewhere in the space. The 3 previous kinds of engines; steam, combustion and electric, are invented for tasks on Earth - and nowhere else. Thus, satellites, spaceships and even astronauts float uncontrollable in space – waiting for some rescue - or hopeless fate - eternally. Now, ending the overdue lockdown of our Moon, - hope is regained for professional Sustainable Development Goals for our planetary system too. Thus, the Artemis program does indeed evoke some neglected innovations to that second 'Big step for Humanity'. Hence, this blog sets focus on how the EMP Engine could and should be utilized in outer space.

The EMP engine is patented in order to provide space vessels with an electric motor. It is utterly presented at the website cloudmaps.dk/emp. Basically, it reduces the backwards counterforce of electromagnetic pulses (EMP), - thus causing a net forward acceleration. Thus, any vessel can be pushed for the inside as well as the outside. Dissimilar to Earth, a tiniest push in vacuum space will make a vessel accelerate to a higher velocity - forever, - which is also true for the Earth and Moon orbits.

At the website, there are descriptions and videos, - with some advices on some possibly earthly profitable utilizations too. However, now, after a commercial setback, - the focus is once again on the true and original idea, theses and intention. Still, the EMP Engine is originally invented for space utilizations - with its rather un-earthly conditions like; minimal friction, unlimited energy and 3D motions. Fortunately, the engine is based on some very basic and simple technology.

The restart of our lunar explorations is primarily triggered by the Artemis projects. It is called a 'robotic and human Moon exploration program' – an intercontinental collaboration by NASA, ESA, JAXA and CSA. The main projects of the program are to permanently create; 1) the Space Launch System (SLS), 2) the Orion spacecraft, 3) the Lunar Gateway space station, and 4) the commercial Human Landing Systems. Additionally, the long-term goal is to establish a permanent human base on the Moon. The aim is also to facilitate human missions to Mars. Clearly, the goals will also be to explore the asteroid belt with its dwarf planet Ceres – as well as the Jupiter's 4 main 'moons' Io, Europa, Ganymede and Calisto, - as well as Mercury's poles and Venus' atmosphere.

Still, the main challenge for this renewed 'leap' to our planetary expansion is the lack of proper space motors. What there is developed so far is useless in space. This is related to the previous blog 'Planet B' says: "The obvious first candidate is our Moon, due to its constantly short distance and low escape-velocity. It is perfect for remote control and have rich deposit for minerals from asteroids, fuel from the Sun and water with oxygen. Human presence will basically be required for on-site maintenance. Most of the construction and operations can be done by remote controlled machines. In fact, the Moon is perfect as an outpost to hinder the next mass-extinction asteroid to hit our Earth. Most important, it should be a storage site for all biological heritage on Earth, - like the island Svalbard is." (UU20230402 & UU20170707)

Regardless, the 3 previous kinds of engines; steam, combustion and electric, can also be substituted with EMP technology. It does not even require the scarce resources of organic fuel, greasing and liquids. The 3 presentation videos of the EMP Engine can be viewed in this blog's 'Extra UU'. They explain the aim to make the prototypes, how they work and some visions of gainful utilizations. Besides, an additional video will soon be made, that illustrates utilizations related to the Artemis program and further potentials for the Moon and the rest of our solar system. For instance, since our Moon has practically no air resistance, and with gravity and escape velocity at 1/6, - the EMP Engine will function well for work and transport. It might even enable astronauts and some vessels to fly. Moreover, there are several other possible ways of utilization like; propelling rockets, vessels and astronauts; pumping, drilling, and mining; as well as for robotics, construction and other industrial tasks.

Conclusively, it would be wise to build proof of concept models in order to develop full scale EMP Engines. The 3 previous engines were constructed for earth environment, but not space or moons. Still, the EMP Engine was originally designed to solve the challenges for work and transport in space.

SDG2030/QoH – Planet B

Blog UU20230402

“There is no Planet B” is a saying these days. A response should be “Let us make one”. That might sound like lunacy, - yet scientifically quite possible. A ‘Planet B’ is right up there, very visible every night, - our companion dwarf planet, called the Moon. Although no potential Terra or Gaia, - our Moon can serve Humanity in unique and beneficial ways - if we simply continue were we locked-down half a century ago. Our Planet B should be considered as a supplement to the UNSDG for 2030, since it certainly can be the most proper backup plan for terrestrial flora and fauna genetic materials. Thus, this thesis concerns settling rather than terraforming the Moon – at least as a re-start.

First of all, this thesis does not include the theories of terraforming the Moon into a Gaia (UU20220807). It would be utopian to plan for a terrestrial atmosphere like the Earth's biosphere. Moreover, legally, the UN limits activities to no national colonialization or utilization. Other enterprises can establish settlements and utilize resources and potentials, though, like for minerals and energy. In fact, our Moon is rather rich due to the supplies from the Sun, comets and asteroids. Thus, the Moon can host basis for mining, constructions, monitoring, transports, transfer and temporary settlements.

Quite contradictory, no other planets than Earth in our habitat zone are habitable for humans, - not even Mars. Thus, a solution for habitation is to make well shielded, airtight and sustainable buildings. Anyways, this thesis also includes the claim that there are far more planets in our solar system, since the quality of dwarf planets does not only match Ceres, but also our Moon, Io, Europa, Ganymede, Calisto, as well as the new companions to the degraded Pluto. Even Mercury should be degraded to the category, which should, by the way, be renamed to something like 'minor planet'.

However, few humans, if anyone, want to settle in such space-station conditions. Still, not even our Earth is any Gaia, paradise or utopia. In fact, most humans prefer to live in cities, where resources, except the natural ones, are plentiful (UU20220710). Evidently, people do not want to live in barren conditions on Earth, - like the areas of deserts, mountains, caves, polar or sub-terrain or -marine. Yet, such areas cover most of Earth's biosphere. Still, these areas are suitable for professionals that can and will adapt to future space existence.

Our Moon is freezing cold like the Antarctic; has no air like sub-marine; is barren like some rocky mountains; and has practically zero gravity (16%) like space stations; and has radioactivity like a nuclear site. All in all, a conclusion is that since we are able to build living quarters, sites and even cities in the atmosphere, on surface or underground. – we should consider more of our neighboring planets Venus, Mars, Ceres and Europe.

Still, the obvious first candidate to be 'Planet B', is our Moon, due to its constantly short distance and low escape-velocity. It is perfect for remote control and have rich deposit for minerals from asteroids, fuel from the sun and water with oxygen. Human presence will basically be required for on-site maintenance. Most of the construction and operations can be done by remote controlled machines. In fact, the Moon is perfect as an outpost to hinder the next mass-extinction asteroid to hit our Earth. Most important, it should be a storage site for all biological heritage on earth, - like the island Svalbard is, - as long as the permafrost holds (UU20220904).

A most controversial question, though, is if astronauts should, would and could genetically modify for space adaptation. This is already questions concerning LifeQuality and Survival of the Fittest. Generally, human genetic enhancement, therapy and engineering is a main issue in this 4th Industrial Reform (IR4) and talked through in the blog UU20230205. We are indeed about to change how we are. There are already genetic solutions to; cure and prevent diseases; improve performance and change physical appearance; as well as mental abilities. Such enhancements might be required for astronauts to adapt to the atmosphere, gravity, temperature, mobility, radiation and nourishment. The new space-suits might even be considered as high-tech exoskeletons.

Conclusively, half a century lockdown is far too long for our potential Planet B. There is no more time for hesitation and jeopardizing. Our Moon is indeed a vital part of the sustainable development goals for the year 2030.

Extra UU – Lunar settlement

“Lunar settlement is a concept for claiming robotic or human exploitation and settlement on the Moon. While a range of proposals for missions of lunar colonization, exploitation or permanent exploration have been raised, current projects for establishing permanent crewed presence on the Moon are not for colonizing the Moon, but rather focus on building moon-bases for exploration and to a lesser extent for exploitation of lunar resources.”

SDG2030/QoH – Sustainable Nuclear Development

Blog UU20230305

“Affordable, reliable, sustainable and modern energy for all before 2030”. This is the promise and obligation of all the civilized united nations to their citizens, enterprises and society. It is quite possible to do, if the technologies of this 4th Industrial Reform (IR4) are properly utilized. However, the hardest barrier is to overcome the cold-war dilutions, denials and corruptions of the grey energy market. That oligarchic mafia has put the world under the thumb – even trying to trigger a third world war. Still, the apparent solution is to re-consider those phobias towards the modern nuclear power - as recommended by the International Atomic Energy Agency (IAEA) and the World Nuclear Association (WNA). Thus, this blog is dedicated the promotion of SDG7 ‘Energy’, - based on quotations from their official web-sites.

“IAEA helps countries to meet the growing energy demand for development, while improving energy security, reducing environmental and health impacts. More than 1 billion people do not have access to electricity. There is a rapid growing energy demand. Still, Nuclear power is a reliable, low-carbon and a necessity for most nations’ energy mix.” “National experts can use the IAEA’s energy planning and modelling tools and assists to help them plan their country’s energy future. The IAEA provides guidance and support on establishing and maintaining a nuclear power program in line with the internationally recognized safety standards and security guidelines. The IAEA also assists to develop the proper infrastructure and all aspects of the nuclear fuel cycle and the life cycle of nuclear facilities, as well as other innovative technologies. The tools are already used by 135 countries.” (IAEA)

The WNA writes: “Nuclear power will be required to play a crucial role if the world is to reduce its reliance on fossil fuels to address climate change and chronic air pollution. The needed human energy consumption is 100 GJ per capita, which merely 20% get. The world’s poorest 4 billion persons consume only 5%, which need to rise to 15%. Still, all nations can fundamentally enhance the health, educational standards, and wellbeing by providing more energy. Now, over 80% of the primary energy consumption comes from burning oil, gas and coal. It is unchanged since 1990, and cause the death of 7 million persons each year – in addition to the profound social, economic and environmental consequences.” Note, this blog also relates to UU20221002 ‘SDG & Nuclear cleanup’.

However, there are many kinds of energy can be converted to the needed stored (potential) or working (kinetic) electric energy. Some kinds of energy are; chemical, physical waves, magnetic, radiant, nuclear, ionized, elastic, gravitational, rest mass, thermal, heat and mechanical. Yet, even low-carbon sources, like solar and wind, are responsible for emissions and waste during construction, manufacturing and decommissioning. Thus, the modern nuclear energy is essential to fulfill the obligations of the SDG 2030. Hence it seems necessary to develop RTGs (Radioisotope thermoelectric generators) for civil use in private as well as public consumption.

Gravely, though, there are certain plutocratic grey energy suppliers that fights the UN SDGs. For example, Gazprom failed the Nordstream 2 strategy, because they would not accept the democratic trade conditions of the western EU. Thus, the regime’s market dominance abuses are practically hybrid warfare - and certainly not ‘business as usual’. Even some environmental organisations are so corrupted that they promote anti-green arguments that indirectly prolongs the grey energy regimes dominance and the anti-SDG7 warfare. Moreover, learning from the history, such grey energy warfare towards the electric car market is well documented (see video hereunder). In brief, the electric car was invented at the same time as the gasoline car. Yet, it took a 100 year of environmental and energy crises before the electric cars could enter the market. Such hybrid and ulterior Underworld war Games are ‘history repeating’.

Furthermore, some united nations have made themselves dependent to the gray energy income by high taxes. No doubt, the green energy solutions, like windmills, solar panels and more can be rather democratic - since the citizens can self-sufficiently harvest energy. For example, a household can charge an electric car tax-free. Hence, it is necessary to find alternatives for certain nations dependencies of the overtaxed energy. Some nation states have made themselves grey energy exploiters – just like Kremlin.

How far are the plutocratic grey energy suppliers willing to go? History shows, there are no civil limits at all. The very same regime triggered the Chernobyl nuclear catastrophe, attacks Ukrainian nuclear power plants and triggers energy warfare towards civilian humans, societies and nations. Conclusively, the nuclear risks are not the technology – but its war Gamers.

SDG2030/QoH – Sustainable Gene Development

Blog UU20230205

This 4th Industrial Reform (IR4) will change how we are – not merely how we do. This century will truly be re-evolutionary, in the sense that we are changing the evolution of flora, fauna, humans - and even Humanity. Our biological changes will be as unpredictable and rapid as the IT changes were during the 3rd IR. Moreover, this 4th Reform of cyber technology is also essential for the development and utilization of the new bio-tools - like Crisper and Gene Drives. Merging IT and Bio, - the mapping of the whole human genome was done. Now we know our DNA - and we will most certainly biologically change ourselves – for better and for worse. Therefore, a ‘Sustainable Gene Development’ should be prioritized in the United Nations’ SDG - and made as legally obligated like the UN Charter– even though some submissive underdeveloped or immature states are ordered different. Hence, this blog continues the focus on such issues.

Humans have always manipulated genes through the millennia. The historic methods are by natural selection with mate-matching, inter-breeding, farming and pest exterminations. There is nothing new in that, - which points out that we will continue the manipulations with these IR4 tool that makes it 1000 times more efficient. Yet, the BBC documentary (see the Xtra UU) shows there were unimaginable challenges, competitions and drama during code-breaking. Still, they had to use some crude methods of cell-crushing, partial analyzes and assumed resembling of the gigantic jigsaws. Thus, there might be considerable errors in the final DNA/RNA survey. Those errors in the final maps can jeopardize our present gene-altering dramatically. Surely, no scientist will ever admit to be wrong. So here is a dilemma, - here is our basic hazard of ultimately denials.

The mapping of the human genome is complete. It is like an enormous digital table – with four digits (C, G, A, T). instead of two digitals (0, 1). Thus, the computing tools are perfect for genealogical diagnosing, manipulating and designing any of the human’s nature, properties and function. Also, since it was a one-time program to use these vast resources for a single survey, - these resources and knowledge is now free to further programs – like mapping all flora and fauna and how to utilize the information. Sooner or later, we will certainly have the maps and tools to alter anything in our bio-sphere (UU20220101). Now, - that surely calls for some investigations of the previous experiences of similar situations – and definitely on how to manage the crises far better this time.

There are some ethics that surely will be violated again. The Chinese manipulations of human embryos was punished by their state, rather for revealing the secret than for actually doing it, though. There are however, clear guidance that germ-cells should not be manipulated, although somatic-cells, and even stem-cells, might. However, one can except more experiences legitimized by the unethical saying ‘It's Easier To Ask Forgiveness Than To Get Permission’. For example, there are projects to biologically exterminate female mosquitos in order to effectively stop their spreading of deceases to humans. Also, bananas are biologically modified (GMO) in order to make them immune to a ‘banana plague’. Moreover, killer fungus is altered so that infected termites are not detected by the hive’s guards.

Now the human genome is mapped, what is next? Certainly, the IR4 bio-tools will benefit Humanity tremendously. It is also aligned with our sustainable development goals, especially SDG3 'health', SDG14 'Life in water' and SDG15 'life on land'. In fact, even extinct life, that we thought was lost forever, can be recreated. Moreover, flora and fauna, that still are in the melting permafrost of this ice-age, can come back to life. Anyways, vaccines might be so efficient and inexpensive, that the benefits for collective healthcare far outnumber the costs for any person as well as any nation. Moreover, the next pandemic might be coordinated via the World Health Organisation (UNWHO). In brief, there will be considerable social reforms following this IR4 – just like the previous IRs – that should be handled far better this time. There are also some higher philosophical issues to consider, - as touched upon in the blog 'The Infant Humanity' (UU20211204).

There will certainly be more genetic pandemics if denials and veto are continued to be abused again. There is a lot to learn from the IT history for the planning for these Gene challenges. There are numerous of do's and don'ts, but a top 10 list from the UN.WHO as forceful as the UN Charter and should be passed in UNSG. However, it will probably be vetoed. Most fortunately though, such a veto can now can be overruled by the UNGA – just like the banning of the Russian invasion war towards Ukraine. Still, the UN needs a far more efficient legal court system to stop criminal nations in due time.

SDG2030/P5GO-1h –Crispr warfare

Blog UU20230129

Crispr technology can be abused for bio-weapons, - as talked through in the previous blogs. Hence, this blog hypothesises that the historical bio-wars throughout the millennia is now escalating by abusing the new technologies of this 4th Industrial Reform (IR4). The civilized united nations must take immediate actions, due to the grave reasons for the UN banned ABC weapons in the first place. Thus, modern bio-warfare has the potentials to cause catastrophic consequences for humans, humanity, civilizations – as well as the flora and fauna. Thus, the main challenges to minimize the present bio-experience, -weaponry and -warfare are the disinformation, denials and psychosocial Games. Hence, this blog talk through some of these issues.

The blog 'Bio wargames' (UU20230115), provides a summary that shows the bio-warfare through the millennia; the plagues of Egypt, via the European Black death and Spanish flue, to the present pandemic - Sars-Cov-2. The historical bio-wars were legitimized by theocratic blame-Games at deities. Yet, such divine support has never been confirmed by any divinely, – which rather shows that bio-warfare are of the psychosocial Game category GoT (Games of Temples). Thus, such theocratic Gamers have disclosed themselves as highly blasphemous, by blaming their deities for their theocratic crimes towards Humanity.

The previous blog 'Crispr weapons' (UU20230122) examines this decade's weaponizing of biological IR4 tools, like Crispr and Gene Drives. Alarmingly is that a functionality DNA manipulation called 'knock-out mutations' that often result in random disruptions and altered genes functionality. Moreover, Gene Drives are simply deployed like a vaccine and can cause irreversible and hereditary alterations. This powerful tool is legitimized by restoring the balance of ecosystems by eliminating invasive species. Alarmingly, though, Crispr Gene Drives can too easily cause massive human changes, - even for assimilation, purging and genocides. Now there is certainly an urgent need for global control of the black-market industry of synth pharmacies, like narcotics, drugs and false vaccines.

An earlier blog 'Tengri Kremlin' (UU20220529) talks through the historical GoT (Games of Temples) of the East vs West with inbreed of genes, ethics, politics and religions. Now that GoT Gamers threaten to trigger Games of DOOM ((Digging Our Own Morgue) with A-weapons (UUUU20220814-UU20221016). Such worst-case scenarios can most certainly happen if the plutocratic ethics of BRICS are allowed to overrule the UN defenses - causing global CCD (colonial collapse disorder) due to some organisational AIDS (acquired immunodeficiency syndrome). For example, the present hybrid war-propaganda seems to legitimize a

dooms-day scenario by doing 'copy-cat' of the occult 'John's Revelation with the mass-psychosis of 'the 4 horsemen of doom' (disease, division, famine and slaughter).

Anyhow, there are suspicious events and circumstances of the Covid disease prior to the Ukrainian war of division, slaughter and hunger. A few examples are: The plutocratic BRICS nations (Brazil, Russia, India, China and South-Africa) did not merely start the pandemic, but also initiated new variants in waves. The European PIGS nations (Portugal, Italia, Greece and Spain) were especially hit hard. The Danish so-called 'Mink scandal' was a total genocide of all Dane minks by illegal orders to police and military, which favored the rivaling Russia and China fur industry. The Chinese Lockdown of Megacities (UU20220710) caused a high rate of pensionists' deaths, halt of most health care, caused bankruptcies of enterprises, especially private SME. All in all, the 'accidental' pandemic appears also to be bio world war.

This centennial war-Game of 'Rus vs Rus vs Rus' seems to escalate far beyond the UN tolerances, - following the PPP's 2 recent visits of to the PPX. There are now reasons to question whether the PP's have become dPP, aPP or pPP (double-, altered-, or para-Puppet President) (UUUU20221218). If so, - the representation of Russia or China is not legit in the UN Security Council anymore – and definitely not any of their 'veto'. There is no way that the UN can allow more anti-UN veto in the UNSC.

Most fortunately, the new UN procedures enables the UNGA to overrule UNSG veto. For example, the UNGA overruled Russia's veto on banning their invasion war towards Ukraine. Likewise, the UN should issue a preventing ban on use of Crispr gene-drives as Bio-weapon as well as hazardous and unethical experiments on humans, flora and fauna. Such a banning will probably get a Chinese veto in the UNSC, though. However, with the new UN procedure, the banning can be issued to the UNGA as well – which most certainly will overrule such UNSC veto – and become bounding for all United Nations – including BRICS nations like China.

SDG2030/P5GO-1g – Bio Crispr

Blog UU20230122

This 4th industrial and social reform does basically concern technology and biology. It is said that this reform will not merely change how we do things – but also how we are. Such issues of biology are mentioned in several blogs concerning this decade of Sustainable Development Goals and this 4th Industrial and Social Reforms (IR4/IS4). No doubt, our human biology is fundamental for the LifeQuality as well of the quality of the Humanity and Constitutions., Alarming though, there are grave issues and trends that can no more be dysfunctional taboos of denials. The previous blog called ‘Bio war Games’ (UU20230115) initiated a more thoroughly analysis. Hence, this blog dares to offer some free speech in order to elevate the most vital goal of our Humanity.

There are indeed powerful actors with altered motives in this Covid crises. The health authorities are responsible for thoroughly quality assurance of related products, services, information and actors. Civil servants of any united nation are in fact legally obligated to secure the citizens against ‘unfortunes’ that the following information indicates. Still, the UN SDGs are the most effective tools for sustaining and evolving Humanity’s health. In particular, the obligations in SDG16 ‘Institutions’ and SDG3 Health.

The CRISPR gene editing has become most important in biotechnology and medicine. It enables manipulation of living genomes precisely, cheaply, and easily. It is used to create new medicines, agricultural products, genetically modified organisms, - also to control bacteria, viruses etc., as well as cures

for genetic diseases and cancer. A bacteria can be manipulated with Cas13 to make molecules that can destroy the RNA of the virus. The 'genetic scissor' of the fungus Cas9 and Cas13, are used for; 'knock-in mutations', that enables to targeted a damage DNA and repair it; and 'knock-out mutations' that can often result in random deletions that may disrupt or alter gene functionality. Therefore, there are great concerns about the risks and consequences of such genome editing, since it leads to irreversible changes to flora, fauna and humans. Thus, our new ability to manipulate genes is highly controversial – morally, esthetically and legally.

Also, 'gene drives' might be a powerful tool to restore the balance of ecosystems by eliminating invasive species. However, it can also cause human mass modifications, - even genocides. thus, there are risks for accidental release from laboratories into the wild and cause unknown irreversible changes. Serious scientists have proposed several safeguards for ensuring the containment of experimental gene drives - including molecular, reproductive, and ecological. Many recommend that immunization and reversal drives have to be developed in tandem with gene drives in order to overwrite their effects if necessary. Yet, such ecological disruption that can probably not be corrected with reversal drives. The Chinese Covid pandemics are obvious example of executing such irresponsible and immature bio-hazards.

Moreover, the Chinese scientist He Jiankui announced on YouTube that they edited the genomes of human embryos that was born as babies in 2018. The project intention was claimed to help people with HIV-related fertility problems by using CRISPR/Cas9 gene editing to modifying the embryos DNA. The Chinese authority removed and punished 3 involved scientists – for publishing the controversial project. In response, the UN World Health Organization issued three reports on the guidelines of human genome editing. Chinese authorities claim to prepare regulations to the WHO recommendations. However, by looking at the Worldmeter statistics, it is obvious that the Chinese institutions are in complete denial, confusion and thereby fails to heal itself.

Still, most humans are in denials about this IR4 realities due to disinformation. Thus, the documentary 'Unnatural Selection' is crucial to promote the necessary awareness – especially for all the civilized united nations. The documentary presents an overview of genetic engineering and particularly CRISPR, from the perspective of scientists, corporations and biohackers working from their home.

The civilized United Nations need to protect humanity against state-driven hazardous insanity in bio experiments and 'health care' and war-fare. It would be most effective to issue restrictions in the UNSC, that will get veto from China – yet be overruled by the new UNGA procedures. (See the blog 'The re-United Nations' UU20221106.)

Extra UU – ‘Unnatural Selection’ by Crisp

“The documentary ‘Unnatural Selection’ presents an overview of genetic engineering and particularly, the DNA-editing technology of CRISPR, from the perspective of scientists, corporations and biohackers working from their home. It explores new developments in the science of gene-editing that defy evolution and raise moral, social and environmental impact questions about where we, as a society, draw the line. From eradicating disease to selecting a child’s traits, gene editing gives humans the chance to hack biology.”
"If you are playing God - you don't really care what people think."

Documentary: Unnatural Selection

<https://www.youtube.com/watch?v=WIIVh7H6nvl>

SDG2030/P5GO-1f – Bio war Games

Blog UU20230115

This 4th industrial reform does basically concern technology and biology. Unfortunately, the previous reforms caused rivalries, - even war-Games. The tech wars are now apparently like info-wars, coups and new weapons. Yet, less apparent is the biological war-Games - due to global denial by organisations and nations. Most alarming though, are the genocidal pandemics like Spanish flue, Black death and Corona were abused as tactical ‘B’ weapons. (The UN banned Atom, Bio, Chemical warfare). Still, the hybrid CCD effects on economy, LifeQuality, society and stability of such pandemic bio-wars seems to be the main ulterior Gamers’ Gains. Hence, this blog takes some previous reflection to this century’s Bio war-Games.

The thesis from blog UU20220417 and UU20200402 is that the self-proclaimed 3rd Rome (Kremlin) is ‘built to fail’ by AIDS for CCD (acquired immunodeficiency syndrome & colonial collapse disorder). The built-in Pyramid Games of disorders collapses in riots, warfare and coups. The following quotes concerns the CCD cycles of the year 2013, 1913, 1813, 1713, but also dates back to its origin by the Mongolian CdE Game of Beijing in 1213.

“Marco Polo was far more important to the fall of Roma2 than the history books tell. Marco was in a group of European observers, counselors, priests for Kublai Khan for decades. They provided in-depth knowledge about European societies, religion, technologies, weapons and warfare. ‘Mongol see, Mongol do’. Finally, the Mongolians occupied Beijing in 1213, basically by looting rural supplies, infecting the food and starve the citizens to desperation. At the end, Marco was set free from the Mongolians for escorting a Chinese princess to a Persian prince for an arranged marriage. The journey was fatal and Marco was arrested for treason in Italy/Venezia. (UU20150327) Such a Tengri/Islam conspiracy showed to be disastrous to the christian Roma2 some centuries later.

“The Black Death was one of the most devastating pandemics in human history, peaking in Europe 1347-1350. The Plague caused a series of religious, social and economic upheavals that made profound effects on the course of European history. 30–95 % of the entire populations was killed and it took ca 200 years for Europe's population to recover.” “However, the surviving workers had a golden age of prosperity and new

opportunities since land became plentiful, wages high, and the serfdom disappeared. A century later, though, the workers faced deprivation and famine again due to the population growth.” (UU20160108)

“The Game’s Gimmick of CoC (Cults of Comintern) is clearly dictated in the 21 Conditions for submission to the Comintern elite. Lenin claimed that ‘the 2nd International’ failed to make Europe collapse despite the efforts in World war 1; the trench warfare, the execution of emperors and the final pandemic plague called ‘the Spanish flue’, - which killed at least 50 million Western Christians. However, a Caucasian godfather, nicknamed Stalin (steel) replaced Lenin to escalated the genocides. Stalin’s nickname was associates to the Genghis Khan’s family labor, ‘blacksmith’. Yet, the ulterior motivation and Gain seems rather to be a vendetta to revenge the Siberian shaman Rasputin with the wrath of Mongolian black shamanism.” (UU20200306)

This thesis claims that the present global hybrid war-Game that started in 2013, includes bio-tech. Although all the civilized united nations agreed to ban weapons of ABC (Atom, Bio, Chemical), the present war-Gamers prove that they consider themselves above such peace-sustaining legislation. For example, the Kremlin made an invasion-war out of their parliament’s (Duma) request to support Russians in Ukraine. Moreover, private armies like the Wagner group are forbidden Russian law, yet executes war crimes for Russia in Ukraine. Likewise, the Chinese zero-tolerance policy towards Covid works like inhuman exiling, violation of privacy and punishments of dissidents. The acts appear quite silly when the Chinese foreign minister complains about Western Covid testing of the sudden flood of infected Chinese, - since the Beijing just locked down their megacities in fear of their own viruses. (UU20220710) Playing indignant towards the Western bio-defiance, after last year’s Chinese pandemic, is simply immature version of Game psychosocial Games like SWYMD (See What You Made Me Do) and ITHY (I’m Only Trying to Help You). Bio-Game Gamers too have the dogma “honesty is suckers”.

The civilized united nations should now be aware enough about the ongoing bio world war. For their own sake of resilience and sustainability, the nations should learn from the history of bio-wars and take a closer look at what the new Nordic union does. “Yet most fortunate, the present Norden has already some well-functional replacements for a common Nordic development for Sustainability, Resilient and Unity. The obligated legal ground is founded on the Treaties of the UN, NATO and the EEA (EU/EFTA).” (UU20220731)

Xtra UU – Bio war-Games

“The story of the Black Death is the story of a perfect storm. A massive pandemic and plague that devastated humanity. It is the tale of a lethal bacterium that had a powerful vector of transmission and found just the right conditions to kill off an estimated 200 million people world wide. This is the full documentary, chronicling it's incredible spread through Europe. “

SDG2030/QoH – GSC (Global Sustainability Court)

Blog UU20230101

A ‘Global Sustainability Court’ does not exist – yet, - although required for the united nations’ to function well. The anti-SDG warfare by certain organisations and nations demonstrates so. Those violations have forced the UN to deploy stricter law enforcements. Hence, the Red Mafia that infests the Kremlin will indirectly strengthen the UN counter-force of global Law & Order. Consequently, the UN will enforce a collective and effective Executive power to ensure the obligations to the UN Charter, the Human Rights and the Sustainable Goals. Most relevant is the UN’s own Sustainable Development Goal 16 ‘Justice’. Hence, this blog will further argue why and how the UN itself have to implement its own SDG16 now.

Theoretically, the constitutional term ‘cyber’ is talked through in the blog ‘Global Human Rights Law’ (GHRL) (UU20170721). ‘Cyber’ stems from ‘cybernetic’ that means ‘skilled in steering or governing’. Basically, cyber systems provide feedback for quality ensurance, like an independent Judicial power.

Furthermore; "the GHRL can most certainly provide some innovative perspectives on how-to heal the LEJ (Legislative, Executive and Judicial Powers) and the QL of Humanity. This suits the SDG16 well, in order to: "Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels".

Politically, the UNGA (UN General Assembly) did annul the Kremlin's veto in the UNSC (UN Security Council), concerning the banning of their criminal warfare that violates the UN Charter. This UN evolution is described in the blog 'The re-United Nations' (UU20221106). This issue is further talked through in the blogs 'UNGA overrule rogue nations' (UU20221023) and 'Coup d' UN' (UU20220424). Now the new UN Legislative procedures enables the UNGA to annul such veto-abuses in the UNSC. Still, the massive banning in the UNGA against only 5 (BRICS related) nations is not able to heal the Kremlin, though. Hence, the UN needs to fully develop to a well-functional constitution itself – as required in the stated SDG16.

That cyber dysfunctionality is mainly due to cyber malfunction of true Judicial powers like the ICJ (International Court of Justice) – just like the UNGA and UNSG dysfunctionality before the reformed procedures. Consequently, the penalty measures are simply ignored. However, it is fully legit for any united nation to support any violated nation to protect itself. Unfortunately, though, such indirect support seems to merely extend the conflict in time – and does not end the crimes or enforce compensations.

How come that the Judicial powers of many constitutions are so dysfunctional? Surely, the civilized nations should have fully enabled such basic judicial obligations in the last century. The answer is tragically simple. The Judicial powers were infiltrated, manipulated and disabled by the Red Mafia in the Cold War – as ordered by the Kremlin's Comintern's '21 Conditions' to treasonous public servant workers. In sum, it still dictates to such CoCs (Cults of Comintern) to: C2; "...methodically remove reformists and centrists from every responsible post ... and replace them, ..." C3; "In almost every country in Europe and America the class struggle is entering the phase of civil war. (You) have the obligation of setting up a parallel organisational apparatus which, at the decisive moment, can assist the party to do its duty to the revolution (Coup d' Etat). " ... it is absolutely necessary to combine legal and illegal activity." (UU20200903)

Hence, a total implementation of the true 'cyber' powers is required to restore the balance of the LEJ authority requires that the Legislative Governments can overrule any corrupted prosecution authority of the Executive Powers. Public servants cannot be allowed to redirect their own criminal charges to parallel court systems that are dependent on some 'nova Comintern Red Mafia'. Moreover, the BRICS nations execute extreme plutocratic agendas that violates the UNC. Thus, the UN should expect that Beijing will 'copy-cat' Kremlin war-crimes towards Taiwan, Hong Kong, Nepal and more. (UU20220821) In psychosocial terms, the UN is required to provide a global superior court (Superior-Ego) to overrule rough national powers (Superior-Id).

The UN Executive powers are restrained whilst the Legislative and Judicial powers condemn the war-crimes in hardest term possibly. Still, any member state is obligated to execute any disabling measures on the violators and support any measures for the attacked. Likewise, new ICJ procedures should force through its ruling. Moreover, all the direct and indirect cost have to be taxed on the violators – just like Germany and Japan were after WW2. Still, the main WW2 criminal have not paid, – namely the Kremlin.

SDG2030/P5GO-5d – 3rd Roma Xmas

Blog UU20221225

Xmas is an annual theme to this blog series – so is this extraordinary one, called ‘3rd Roma Xmas’. This hypothesis relates the Roma3 to the Game category of GoT to the pagan Roma1, rather than the christian Roma2. Although the Easter is officially linked to the roman empire’s execution of the mature Christ, - the Roma1 certainly did a failed attempt to execute the baby Christ at Xmas. However, that epic Game is most complex, - including the society’s superpowers Game categories; KoC (King of the Castle); GdE (Games d’Etat); and GoT (Games of Temples). The intention of this blog, though, is to point out that the Motives & Moves of the present Kremlin’s Gamers are not of the Christian Roma2 – but rather the anti-Christian Roma1. Hence, this blog basically consists of pervious quotes and some final conclusions.

A historical background of Roma1 is in blogs like UU20191206: “The prolog to the present Phishes testament tells a story about an immigrant family in a most critical inter-imperial situation (Luke 2:3-6). The new Cesar, Octavius, alias Augustus, was an adopted son with very different agenda than his stepfather Julius. The local king Herod issued an order to execute any unwanted heirs to his Throne, - as well as Augustus. The Arabian theocrats wanted Egypt back after Alexander’s conquest 3 centuries earlier. The pregnant Mary was forced to register to the empire and had to come out of hiding. What happened next is unclear though, since the remaining texts are few, excluded and censored.” “However, the cause to this ultimate Game peaked 47 years earlier, when the alliance between Egypt/Africa and Roma/Europe was

genetically merged with Caesarion. He was the firstborn son of the self-proclaimed goddess Cleopatra. Julius Cesar was also declared a god by the senate of Rome. Neither of them, nor Cleopatra's second roman husband, Antonius, survive this rivalry of Thrones, States and Temples – the ultimate Game of the millennia.”

The theses of ‘Roma3 Rise & Falls’ is found in the blog UU20220417: "Historically, Moscow was merely a ‘grand duchy’ when the 2nd Rome (Roma2) collapsed about the year 1500. The crises in Moscow were mostly due to frequent raids by Mongols and Huns. Kiev was the Russian capital at that time, - yet Moscow declared itself the successor to the Christian Rome (Roma2). In this hypothesis, some historical milestones are that; Ivan III (the Great) allegedly subdued a Mongolian city and relieved the duchy from their tax and terror. Ivan gained a genetic heritage by marrying a princess of Roma2. Moscow also acquired its coat of arms, the two-faced Eagle. Occasionally, Ivan was titled Tsar/Caesar to designate some legacy from Rome. Theocratically, in 1510 a monk named Philotheus stated, ‘So know, pious king, that all the Christian kingdoms came to an end and came together in a single kingdom of yours, two Romes have fallen, the third stands, and there will be no fourth. No one shall replace your Christian Tsardom according to the great Theologian’ (cf. Revelation 17:10).” However, with more or less respect, - no petty monk has the authority to declare a Christian empire. That GoT Move is rather blasphemous, though.

The present Kremlin regime seems fixated to distance itself from its European origin, and do alter towards the Asian OD (singular) regime of Beijing – just like a 100 years ago – and just like in Roma1 2000 years ago. After its violent and merciless occupation, the Roma1 registered, labelled, and surveilled the spoils of war – the enslaved humans. Yet, today, with the technology of the 4th industrial revolution, such surveying violations of the citizen are far more extensive– including physical, psychological and proprietorial abuses.

The history of extreme violence by the Kremlin proves that the Roma3 is not willing or able to promote Humanity's values in the civilized sense of our globe's united nations. Quite the contrary. Although the buildings, the actors and the rituals has adopted some resemblance to the christian culture, - its inner nature is not able to fully cover its ulteriority of GoT. Periodically, there have been some scapegoats like Ivan, Peter, Catherine, Rasputin sr, Stalin, and that ‘Hister wannabe’ (UU20200402).

Now, there are some blasphemous RoC theocrats that blame God for their own collaboration to the genocidal manslaughter of innocent citizens. (UU20221204) The world's major civilized organisations banning of those war-crimes seems rather to encourage those ulterior black shamanists with clerical cloaks and daggers. Thus, the Kremlin has long gone the point of no return. However, this time, this century, - the Humanity is very well aware of the Kremlin's centennial Games of collapse, - and will not enter that Blame-Games of diluted projections – but rather expose and end that scripted Game of Roma3's ‘Rise and Fall’. Hence, the real threat to the ‘Roma3’ is not some external phantom enemies, - but some internal altered personalities – altered by some rivaling black Tengri singularity.

SDG2030/P5GO-8e3 – pPP (para puppet presidents)

Blog UU20221218

This 7th hypothesis, ‘the pPP’ (para Puppet presidents), follows up on the previous blogs. This one sets the focus on the dictators that use ‘body- and altered-doubles’ (dPP & aPP), which eventually alters the governing into mass-psychotic Games. This hypothetic synthesis of dPP, aPP and pPP is based on the very real pPP of the WW2 that was an allied to the Kremlin’s dPPS (Stalin) - namely the pPPH - the ‘Hister wannabe’. Thus, the ‘39 relation between the Kremlin and Berlin in to be ‘history repeating’ in the Kremlin these days. Hence, the intention of this blog is to further explore such hypotheses in general, - and the possibility that the PPP (Putin), dPPP or aPPP has become a pPPP – like some Rasputin jr.

Issues related to the pPPH (Hister wannabe) is talked through in several blogs like UU20191101: “Cults in Japan related to the Tengri Belief and allied with Adolf Schicklgruber - alias the ‘Hister wannabe’ of the occult Nostradamus’ scripts. That Nazi empire adapted the black shamanism symbol, the Mongolian swastika. They called it the 3rd Rich, like Putin indicates the Russian claim that it is the 3rd Rome of Ivan the Terrible. Even the Caucasian godfather Ioseb Besarionis je Jūgašvili, was nicknamed the ‘Steelman/Stalin’, - also an association to the working cast of the blacksmith Temüjin (Genghis Khan). No matter the mass-psychotic associations of these puppet dictators; - the World Wars towards the West cost 100 million Christians lives; degraded the ‘bourgeois’ citizens to a workers’ cast; organized the Gulag execution camps; and systematically violated most Human Rights and ethics. All in all, the Eurasian map of 1969 and 1369 look rather similar.” (edited quotes)

“Moreover, with the WW1, the whole system of Throne/Temples fell and opened up for figures like Rasputin, Gurdjieff and Hitler. The apocalyptic ‘John’s Book of Revelation’ laid Europe wide open for occult

scripts like the Nostradamus' mass-psychotic 'prophesies'. 'The book of Revelation' tells about four horsemen of doom and Nostradamus wrote about the doomsday dictator 'Hister'. Still, the scripts are definitely no divine prophesies at all, but rather scripts for a psychotic sociopathy to force the cause of civilizations towards the 'worst case scenarios'. (UU20130628 & UU20121221.)

Anyways, a main reason for the Kremlin to make the occult pPPH in Berlin was to end the German/Russian attempt to reconcile after the French pPPN (Napoleon) burned down the Tsar's rival – Moskov/Kremlin in 1812. Those missing French soldiers were probably granted citizenship in the new Prussia. They were called 'bourgeois' – which became the arch-enemies of PPL (Lenin) in WW1. (See link to the Cominterns 21 conditions) However, the main accusation from the Kremlin toward the imperial outpost, called the Winter Palace, was that it was infiltrated by a German spy, - namely the last Tsarina. The Kremlin's secret agent, Rasputin sr., functioned as a main misleading adviser for the Tsardom by abuse of drugs, hypnosis and psychosis – just like some pPPR. However, less known is the ulterior major Game Player, - the previous Tsarina – the princes Dagmar of Denmark, alias Maria Feodorovna (UU20130517 and UU20151106). Anyways, a similar variant of GdE (Game d' Etat) was used to eliminate the attempt to rebuild the Prussian capital - after the Russian annexation of Königsberg (Kaliningrad) – namely the Weimar republic in Berlin. Intriguingly, Mr. Schicklgruber was no German citizen at all, - but an immigrated Hungarian/Austrian war-prisoner that became the pPPH by submission to the pPPS (Stalinism) and the Molotov–Ribbentrop Pact of 1939.

Basically, the PPP (Putin) upbringing by secret services (KGB/Oprichnina/Praetor) and the recent radicalizations - is an indicating omen that there is now an executing pPPP in the Kremlin. More evidently, though, is the PPP's altering to a Red Mafia Godfather of war-crimes that are now investigated by the civilized united nations. The PPP had its Ego radically altered after the two visits to the PPX in Beijing, by; ordering and executing the military war toward Ukraine/Europe/NATO; and starting a full-scale diplomatic coldwar towards the civilized world in the UN. All in all, there was triggered a self-genocidal war-fare of 'Rus vs Rus vs Rus' – like every century in the past millennium. Now Russia is excluded from most civilized world organisations too.

Still, the main question remains: Is it really the real Vladimir Putin that acts so insanely anti-Russian – or is the public misled to be 'the suckers' in an ulterior Game by remote-controlled dPPP, aPPP and pPPP? No-one can ever be sure anymore – or trust any of the denials – when the path of secret services Games has irreversibly past such a point of no return. Anyway, that self-declared 3rd Rome (3rd Reich) will probably fall – not by external phantom enemies, - but by the backfires of its own self-destructive projections by some parallel puppet presidents.

Conclusively - considering the documented historical facts about Kremlin's dPPS, aPPR and pPPH – the present radicalized PPP has probably multiple dPPP and aPPP. Most alarming though, is that the extreme radicalized PPP rather appears like a pPPP. Still, the xPPM is the one that rather expresses the Inhuman Blasphemous Games of DOOM (UU20220814-UU20221016 & UU20221204). Consequently, - the PPP's successor could rather be the trigger of Kremlin's final fall – by its own psychotic possession (UU20220417).

Blackout – VETO

<https://youtu.be/-2CRNLMisgk>

<https://www.flashlyrics.com/lyrics/veto/blackout-11>

Xtra UU –para–Puppet Presidents

“The Manchurian Candidate is a novel by Richard Condon, first published in 1959. It is a political thriller about the son of a prominent U.S. political family who is brainwashed into being an unwitting assassin for a Communist conspiracy.” Putin’s personality altered radically after the Olympics in Beijing. The second meeting with Xi on the '99 Pact' – escalates the 'Rus vs. Rus'-war extremely.

SDG2030/P5GO-8e2 – aPP (altered puppet presidents)

Blog UU20221211

This 6th hypothesis 'the aPP' (altered Puppet President) concerns the fact that the dictators who use 'body doubles' (dPP) have passed a point of no return for ulterior Games. There is no way anyone can truly trust such a puppet president anymore. Hence, the introduction of such Games of deception makes the PP itself a tempting prey for further manipulations by other Gamers in the regime. Thus, anyone's Ego can be altered with hypnosis and drugs - even without the Ego's awareness itself. Hypothetically, a PP or dPP can

be altered to further alter the regimes orders, policies and ethics – and even trigger wars of self-destruction. Hence, the intention of this blog is to further explore such hypotheses in general, - and the possibility that an aPPP sometimes acts politically instead of the real PPP (Putin).

‘Crime by hypnosis’ seems to be far more tabu for Institutions – than for public entertainment. Such a relevant thesis is talked through in blogs like UU20140110: “The destructive potentials of Enneagram/NLP (Neuro-linguistic programming) can hardly be worse than in relation to Freud/Berne psychosocial Game-analysis. It can function like a dominating and psychotic Superior-Ego that can transfer its psychosis to the client’s S-E, make ID’s neurosis and even split its Ego. There are potentials for the whole spectrum of Berne’s classic Games, - especially LYAHF, NIGYSOB, Debitor, SWYMMD, Courtroom, LHHIT, Schlemiel, WDYYB, Rapo, Uproar, HDYGOH, LPFOJ, IOTHY - and certainly the Game Psychiatry. The destructive results of such Ennea/NLP psychosocial Games in enterprises and governments certainly gain their rivals and competitors most of all.” (See videos in this blog’s Xtra UU) Terms like mass-psychosis, brainwash and indoctrination can surely be related to such unsound S-E/S-I relations. Identifications of such ulterior and abstract organizations might be easier with use of metaphoric terms like ‘The Psychopathy’ and ‘The Sociopathy’ - in order to relate their activities of mass-psychopathy and mass-sociopathy to such psychosocial Games.

Furthermore, systematic denials are clear symptom of dysfunctional institutions. However, the 1913 collapse of the Kremlin outpost, the Winter Palace in St Peterburg, happened mainly due to the occult Siberian shaman Rasputin sr. Such manipulations by an aPPP seems as obvious for the collapse of the Kremlin of 2013. As mentioned in the blog UU20221030: “Most revealing is the ‘occult’ parts of the Game. The ‘Agent’ Rasputin was educated in religion, hypnosis and psychology, - as well as introduced to Persian mysticism, spiritualism and occultism in Kiev, got relations in Moscow and was at last positioned by the tsarina Alexandra in the Winter Palace. He functioned as her first-advisor in the war towards her home country Germany. That Game could only make fatale outcomes – like the WW1.

This hypothesis is that there are dPPP and aPPP in the Kremlin today that contributes to this century’s collapse. However, such Games are considered ‘secret services’ and systematically denied at any cost. Just see the growing democratic awareness and the growing suppressions. However, the facts about Stalin’s doubles and Rasputin’s hypnosis are today considered public theses – which should allow this hypothesis to be considered a synthesis of those theses.

What should be the Humanity’s priority concerning the aPPP – when the immature Games of denials have become uncovered and futile? The answer might be found in the blogs UU20170922 - where diagnosis and remedies for the smallest dysfunctional organisations (families) is transliterated to the largest organisations (nations). Thus, as the word ‘family’ was substituted with ‘nation’ etc. Moreover, the word ‘nation’ can be replaced with ‘Kremlin’ etc.

This diagnostic for healing the Kremlin etc. will be fully specified in the next blogs. However, here is such a transliterated introduction: “A dysfunctional nation is a nation in which conflict, misbehavior, and often citizen neglected or abused on the cost of individual authority – that occur continually and regularly, - thus leading other members to accommodate such actions. Citizens sometimes grow up in such nations with the understanding that such an arrangement is normal. Dysfunctional nations are primarily a result of co-dependent authorities, and may also be affected by addictions, such as substance abuse (e.g., alcohol or drugs), or sometimes an untreated mass-psychosis and mass-neurosis (mental illness). Dysfunctional authorities may emulate or over-correct from their own dysfunctional authorities. In some cases, ‘immature’ authorities will allow the dominant authority to abuse their citizens.” (See the whole thesis in the blog UU20170922)

Conclusively, “Any nation should, and hopefully does, use such diagnostic checklists at their own dysfunctional institutions - and, hopefully, are willing and able to quality assure for proper functionality.” Unfortunately, though, for the UN - and Russia, - the CCD (colonial collapse disorder) due to its AIDS (acquired immunodeficiency syndrome) cannot be fully healed in this century. What can be done, though, is to minimize the fatalities of this ‘5th Pyramid Game’ by exposing the Game and not to play along (P5GO). It might be one of the most important tasks for Humanity to support the Client, like any sane doctor will do. However, the single Client (Scapegoat) is not the root of the dysfunctionality, - but several other ulterior Gamers involved. It is a collective syndrome rather than an individual complex.

SDG2030/QoH –Inhuman Blasphemy

Blog UU20221204

‘Inhuman Blasphemy’ is based on several previous blogs regarding the UN’s Quality of Constitution. Now, this theocratic issue is related to the blog-series concerning the Sustainable Development Goals (SDG) and the Quality of Humanity (QoH). Basically, ‘the freedom of religion’ is a well-respected Human Right that regimes have obligated themselves to respect - yet some penalize systematically. However, it is per definition blasphemous to blame divinities for own crimes towards any human. Still – such blasphemous regimes manage to shortcut Humanity’s ‘rule of law’. However, that can be ended right now. Thus, this blog is an attempt to expose such GoT (Games of Temples) of illegal legitimation.

Blasphemy is per definition a punishable insult towards a divinity, like Allah, God, Christ and others. Only the insulted divinity can judge that person. No human can therefore overrule the divinity by pre-judging, - simply because that is most certainly blasphemous. Some obvious pre-judicial blasphemous acts are the PR-related executions by quasi-Islamic warriors - that blame Allah for their own punishing or war-crimes. Such blasphemous Inhumans appear incapable to tell the difference between Iblis from Gabriel, Christ from Satan or a white Tengri from a black. However, the executor might be a human tool by some hard-core Underworld Gamers of GoT.

GoT (Game of Temple) is a comprehensive and complex thesis about a category of Games that is talked through in the blog UU20200402 ‘Easter Crown’: “Still, the aim of these blogs is not to explain true divinity, but to investigate the psychosocial acts of GoT. Still most religious citizens perceive the ulterior GoT as true superior ethics, whilst such Games are simply conning ways to extort and abuse some collective humans of prey. This blog does not merely relate to the untrue spirituality of some dysfunctional Temples – but also to investigate the damages of spiritual perversions by occultisms. Such exposures are crucial for any Quality of Constitution, though. Temples are vital, because they are the 3rd superpower of any society, - in addition to the Throne and the State.” Thus, meaning that the religious institutions are included in the UN SDG 16 ‘Peace, Justice and Strong Institutions’. No wonder that inhuman blasphemers fight the united civilized nations and the SDGs for 2030.

The GoT abuses in the rivaleri of PPP and xPPM was mentioned in blog UU20221120 ‘Coup d' Kremlin’. However, two such puppet presidents are simply ‘suckers’ in a sub-Game of TOL (Two Little Maidens). That GoT War-Games are at least from the year 1054, yet revitalized about 1500, when the Kremlin declared itself the 3rd and final Rome – stated that ‘only Satan can end it’. Hence, in such a paranoid Game of ABD (Attack is the Best Defense), the anti-NATO Serbian Orthodox Church honored the xPPM (Medvedev) with its highest order to attack the Ukrainian Orthodox Church and revenge over NATO for the Albanian invasion of Kosovo. Moreover, the ROC’s polar shaman Mirtofan promotes nuking ‘enemies’; warriors are blessed and encouraged in the dark cathedral ‘Angels and Artillery’; and the PPP (Putin) is iconized along with PPS (Stalin) as some holy savior of the 3rd Rome. That charade seems like some re-play of the Kremlin Game of the dark shaman Rasputin (sr) of 1913. However, since the PPP banned Jehovah's Witnesses for being extremists - the PPP should surely ban the xPPM too for the theocratic extremism - that is exceed the Islamic State’ in practice.

Eastern theocracy is as vital as ever, - even though the Kremlin defined the theology like some non-existent mythology, The Tengri Belief is still as potent to the Asians, as through this millennia.-. The ignorance of Kremlin, though, is by no way any Superior-Ego for any such Superior-ID, - but rather to themselves- if such Belief applies. However, by such theological ignorance, the Kremlin became an easy prey for the eastern

spiritualism, ala Rasputin sr. the Siberian alter-ego theocrat in the service of the Oprichnina/Praetor. Anyways, the Kremlin has been Played for a millennium by para puppet presidents. (UU20220410)

Conclusively, GoT Gamers have to prove by devine witness their claim of devine breach of the civilized rule of law and chain of command. In failing to do so, - such argument is as illegitimate as illegal and blasphemous – It-is simply the simplest excuse of mass -psychopathic sociopathy in ‘Hister wannabe’ style. The solution to end such blasphemous Games of GoT is the general solution to confront and expose the Gamer. Most important is to not accept any of the claims without any devine proof – that the rule of law can accept.

Finally, as questioned several times before, - how to heal religion? Such a comprehensive question is almost religious in itself. There is no simple answer to such a complex question. However, a very simplified hint is the SDG. Most civilized nations have formally signed to execute the global Sustainable Development Goals of 2030. These goals concern institutions, which includes any kind of Temple in any nation. Therefore, with all respect for ‘clients’ confidentiality, this includes psychological healing – meaning ‘the healing of souls ‘.

SDG2030/P5GO-8e1 – dPP (the double puppet presidents)

Blog UU20221127

This 5th hypothesis 'the dPP' (double Puppet President) concerns the fact that most unpopular dictators make extra-ordinary security actions – even hiring their own doubles gänger. Such body doubles can be so identical that most people will be deceived into believing the double is the real person - and not some kind of alter-ego. A drawback to such ulterior Games, though, is that no one can no longer trust that regime's representatives. Other political powers will turn permanent distrustful - and wonder what mischiefs that Gamers might cause this time. Such ulterior Games seem so foreign that it even might be played by foreign powers. Such swap of Heads of State could even cause several Games d' Etat (GdE) - like Coup d' Etat (CdE). Thus, in this blog, the intention is to explore such hypotheses generally, - and also the possibility that sometimes a dPPP acts politically instead of the real Putin.

The basic thesis is that: "A political decoy is a person employed to impersonate a politician, to draw attention away from the real person or to take risks on that person's behalf. This can also apply to military figures, or civilians impersonated for political or espionage purposes. The political decoy has strong physical resemblance to the person being impersonated, which can be enhanced by methods like plastic surgery. Often, such decoys are trained to speak and behave like the target. In fact, examples who had body doubles are; Bernard Montgomery, Heinrich Himmler, Joseph Stalin, Sukarno, Henry Kissinger, Boris Yeltsin, Saddam Hussein. Voice doubles were engaged for; Winston Churchill, Harry S. Truman, Indira Gandhi, and queen Elizabet." (Wikipedia.)

In fact, the PPP's predecessor and patriarch, Stalin (PPS) had up to 14 body doubles. (See video hereunder). The first double was engaged after a fake assassin attempt, like the basic psychosocial Games of WAHM (Why does this Always Happen to Me?), SWYMD (See What You Made Me Do) and ITHY (I'm Only Trying to Help You). Later the Gamers engaged several doubles as political decoys, celebrity and scarecrow. That hypothesis is that dPPS acted on his behalf even after his death - and that a dPPS was buried in his coffin. Hence, there is also reasons to ask; how many doubles did Stalin's allied of 1939, Hitler (dPPH), have, – since it is claimed that the PPH survived 42 assassin-attempts by the Germans? When and how did he really die? (UU20160603). Moreover, the Kremlin learned from Castro of Cuba, (PPC) the most threaten puppet president - on howto play such Games of HDYGOH' (How Do You Get Out of Here / Want Out).

Even though the PPP denies any use of body doubles, - such denials are required due to the secret services for the state security. Any exposure of such security measures would certainly jeopardize the safety and be judged as treasonous. Hence, there have been several denied assassins attempt at the PPP that are claimed to fail. Failed or not, - the subsequent risk analysis would most probably all conclude that political decoys are required. After all, this ex-KGB agent PPP, in the highest power of the post-empire, - is most likely replaced with doubles in several occasions. A question is then – how advanced have such Games of constitutional secret services developed?

Most alarming, though, is that the public videos of the press apparatuses cannot reveal advanced ulterior images, voices or other influences. Multimedia-manipulations have now advanced to 'deep fake' technology, - so that any person's image or voice can be altered beyond the undetectable. Any revealing technology is so advanced that most anyone simply has to trust that such stated influences are to trust. That is simply yet another 'Catch 22'. Such abuses are well known, even to the public, by some published 'dark web' videos of celebrities – for extortion purposes.

Hypothetically, such Underworld Gamers can also state contraversive and illegal orders to be executed. Other heads of states might be tricked by such ulterior influences. Hence, all in all, - when some secret

services of such Underworld Gamers have finally Gained such powers, - there is created a deadlocked spiral of Pyramid schemes. Such phenomena seem to be the very foundation of the inherited dysfunction of the, self-proclaimed '3rd Rome' (Roma3)- and its centennial CCD (colonial collapse disorder) due to its AIDS (acquired immunodeficiency syndrome).

This hypothesis about political body doubles will be the continuation of the blog UU20220529 'Tengri Kremlin'. Then, the challenge was: "How can Kremlin be healed? That might be the question of this century. Nonetheless, the dysfunctionality is inherited in its 9 institutions of 4 Churches (Temples) and 5 Palaces (Thrones). Those are like organisational Superior ego-state, the S-Ego and the S-Id."

SDG2030/P5GO-8d – Coup d' Kremlin

Blog UU20221120

'Coup d' Kremlin' is the 4th hypothetical outcome to the present War-Game towards Ukraine. This scenario is historically related to the Coup d' Roma1 by the warlord Julius that executed a military coup in order to become an Emperor, a Caesar, a Tsar. The relations of the present puppet president Putin (PPP) to the paramilitary foreign forces, Wagner Group, is illegal - even by Russian law. It appears like some copy-cat scheme by that Red Mafia Army. In such an Underworld Game, - how are the ulterior Gamers, the 'Suckers', and the Gains, - which, by the way, are determined and far too late to reverse? Anyways, - this Coup d' Roma3 scenario is based on previous UU blogs series like UU20220320, UU20170106 and basically UU20140912. All in all, the main model is the anti-thesis P5GO (the 5th Pyramid Game Over) and the related psychosocial models.

This copy-cat Game analysis is based on some exposed Gamers, like:

- First of all, there is the original Gamer Julius Caesar that rose to become one of the most powerful politicians in Roma1. He participates to the First Triumvirate, an informal political alliance that dominated the Roman politics for years. Initially, he gained powers in the Gallic Wars and the annexation of France. In fear, the Senate ordered Julius to step down from his military command and return to Roma1 as a civilian. On the contrary, he openly confronted the Senate's authority and invaded the Senate of Roma1. Caesar won the following civil war and declared himself - a Caesar, an emperor – just like a Tsar of Kremlin's Roma3.
- The Wagner Group is a Russian paramilitary organization and a de facto private army for the PPP regime. It operates beyond the law since private military contractors are officially forbidden in Russia. Its special operations include war crimes like rape, robberies and torture. However, the group utilizes and receives military equipment from the MoD (Russian Ministry of Defense) thus operates as an ulterior unit of the MoD's GRU (the secret military forces). Their worldwide Wargames include the civil wars in Syria, Libya, Africa, Mali - and Ukraine by initially aided the CdE Games in DPR and LPR in 2014 – as well as the daily war crimes this year. The group is also allied with the Iranian and Syrian military. The head of the Wagner Group Yevgeny Prigozhin admitted in 2022 that he 'founded' that paramilitary group.
- Dmitry Medvedev is now the deputy chairman to the Russian security council. He has also been the president and prime minister of Russia. He won the election over Putin by promoting liberalism, modernization and lesser reliant of the annexed oil and gas industry. His presidency led to a nuclear arms reduction treaty, the annexation of a Georgian region, some recovery from the Russian recession and an anti-corruption campaign, - yet being accused of corruption himself. (See the video.) Though, lesser known is his 'tour d' US', where double-agents like Snowden were activated. However, now he appears much more adopt to radical positions. That might be because he received the highest award of the Serbian Orthodox Church, the Order of St. Sava. His recent doomsday antipathy towards Ukrainian seems rather like some reliefs of his youths' illegal

fascinations of hard-rock lyrics of Led Zeppelin, Black Sabbath, Pink Floyd, Deep Purple and more. The xPPM, appears rather like some an altered ego as a black Tengri Hun in some occult perversion of orthodox theocracy.

Now, the PPP seems to be isolated even from BRICS and the pact of 99 articles with the PPX. Furthermore, the 'ideological brain' Aleksandr Dugin, that promoted the invasion of Ukraine, do now openly criticize the PPP. Even the 'chef' the head of the Red Mafia Army 'Wagner Group' do criticize the PPP for the retreat from one of the invaded Ukrainian regions. The xPPM would surely think he could manage the invasion far better than the PPP. Surely, the 3 would like to see the PPP removed – and might even arrange that – like Julius made a military coup in Roma1. However, the PPP might do a contra coup in advance like the PPE (Erdogan) did – simple by sending a false alarm to the national military and claim it is an attempted coup. That would give the PPP, like the PPE, an excuse to initiate a nationwide purging of political opponents.

Anyway. the UN did force the Kremlin Red Army and the Red Mafia Army to withdraw from Europe (UU20221106) Still, even though all the civilized united nations are obliged to support the pray nation to defend itself from such inhuman insults - the UN cannot interfere to the Russian civil war and a coup d' Kremlin – even though the human rights for any Russian civilian in this century's Gulag processes.

Still, the PPP seems to have lost power and seems rather like a 'Sucker' than a Gamer – just like Cesar of Roma1 was played, executed and blamed for the empire collapse. There is no positive outcome for anyone in that P5Go Game. It might even trigger a scenario like 'the Day After – BRICS' (UU20220925) The Kremlin is in desperate need for traumatic healing.

SDG2030/P5GO-8c – Reversing the Duma

Blog UU20221113

'Reversing the Duma' is the 3rd hypothetic attempt to resolve the Kremlin's War-Game towards Ukraine. This is based on the fact that an overwhelming majority of the civilized United Nations indirectly condemn the Duma's request to the Kremlin to partly annex Ukraine. Hence, the Duma's request was probably highly illegal to the Russian constitution as well - due to the Russian obligations to the Charter of the worlds United Nations (UNC). Anyways, the main model for this blog is the general anti-thesis P5GO (the 5th Pyramid Game Over) and some related models from this UU blog series. Most relevant of them is the definition of QoH (Quality of Humanity) and the psychosocial analysis of organisations.

Historically, the Imperial State Duma was formally constituted in 1905. The Emperor had absolute veto power and dismissed the first Duma in 75 days. The last and 4th Imperial Duma was dissolved in 1917, due to the revolution. The present Duma has 450 deputies and is like a legislative lower house, whilst the Federation Council is like an upper house.

Initially, the Russian federation annexed the Donetsk People's Republic (DPR) and the Luhansk People's Republic (LPR) by some 5th columnist and imposed its civilian-military administrative regimes. Those imposter regimes of DPR and LPR claimed their 'independence' from Ukraine, despite the Russia's obligations to the UNC. Moreover, the PPP (puppet president Putin) announced that Ukrainian statehood was a fiction and that the modern Ukraine was entirely created by Russia. He blamed Lenin for the separation. Hence, the Duma asked some Latin-American state, like Cuba, Nicaragua, and Venezuela, to approve the DPR and LPR 'independence', - but received none. Moreover, the Russian confederation of Novorossiia was shut down in 2015 due to "incompatibility with the Normandy Format plan of peace settlement".

Then, in 2022, the communists proposed that the Duma should ask the president to 'peacefully' recognize the imposters DPR and LPR to complete the CdE Game (Coup d' Etat). Hence the PPP approved and signed decrees recognizing DPR and LPR and an agreement of friendship, cooperation, and assistance. Next, Russia invaded Ukraine, bombed Kiev and annexed the Kherson and Zaporizhzhia regions too - and signed treaties of accession to the puppet heads of all four occupied regions, - like previously in Crimea. However, the PPP's illegal invasion, by use of rouge soldiers of fortune, failed dramatically since most of the world's nations honor the UNC and rather support the offended nation. Now, it seems highly unlikely that Kremlin can dominate the 5 invaded Ukraine regions. Quite the contrary, - there is brewing yet another violent revolution in Russia due to its dysfunctionality.

The procedure from the Duma to the PPP is clearly highly illegal according to the Russian international obligations, - as talked through in the blog UU20221106. There is no other way than to have those sham legislation in the Duma and Ukraine reversed. However, even though it is as simple as obvious, there seems to be no way that the imposter Red Mafia regime in the Kremlin will let go freely. Hence, the challenge is now – how can a reversing happen and to what misfortunes for Kremlin, Russian, Ukraine and the rest of the civilized united nations? Russia risks to be disabled in the UN, like the PPP caused dismissal from the UN Human Rights Council, the ECHR and the G20. Ultimately, Russia is on a path to be the world's major Red Mafia state for two more decades.

The obvious anti-thesis to the Red Mafia crime in the Duma is to reverse its 'peaceful request'. However, such is rather unlikely to happen, due to its level of political corruption. The Federation Council might reverse the request, since the PPP obviously abused it as illegal war-declaration, annexation, sham referendums and invasions. However, a likely outcome is that Russian powers will disable the PPP, - like they did so many times in history to their previous despots, like Ivan, Lenin, Stalin. Ukraine though, has made it clear that they want peace negotiations with Russia, - just not with the Red Mafia Godfather – the PPP.

The UN should be very aware that this abuse is an attempt to legitimate illegal practice for the BRICS pact and the related nations in the UN. Furthermore, this seems to be a proxy-war to test the path of least resistance for massive invasions of any united nation.

The Duma cannot be compared to any democratic parliament, though – which is the reason why PPP can act like the Tsar and tried to veto the UNSC and declares war contra the UN. Clearly, there is no reason that the Kremlin will respect the 'democratic' UNGA either. The Kremlin seems more determined to the BRICS than the UN. Which president dominates the BRICS though – the PPP or the PPX by their '99 pact'?

SDG2030/QoH –The re-United Nations

Blog UU20221106

‘The re-United Nations’ is based on several previous blogs about the UN’s Quality of Constitution in this series SDG2030/QoH. The democratic General Assembly (UNGA) did align with the Secretary General’s (UNSG) clear banning of the Russian illegal warfare towards a UN member state, the abuse of veto power in the Security Council (UNSC) and the massive violations of the fundamental UN Charter (UNC). All in all – the united nations have realized and admit the organisational dysfunction. The UN has re-united to heal itself – for the qualitative existence of itself, as well as any nation, person and organisation. Thereby, the Kremlin-crises in the UNSC forced the UN to take own SDG16 seriously by adopting new procedures for the UNSC.

A veto in UNSC can now be overruled by the UNSG due to a newly adopted procedure. There are 5 new reform issues though, concerning; categories of membership, veto procedures, regional representation, enlarged and working-methods, and the UNSC/UNGA relationship. Hence, the invalidation of the Russian veto in the UNSC was altered with a demand to Russia to respect the UNC by withdrawing its armed forces, stop any aggression and declare peace.

The background to this issue is the Russian annexed 4 Ukrainian regions Donetsk, Kherson, Luhansk and Zaporizhzhia regions (in addition to Crimea) by arranging sham referendums. (That Game is quite similar to the invasions of east-European nations by the PPS (Stalin), yet well-documented as a CdE Games (coup). The majority of the UNSC condemned these crimes as illegal, but was hindered by a planned vetoing by Russia. However, now such abuse of the veto-power triggers a new procedure that enables a resolving assembly in the UNGA. The UNGA Resolution ES-11/4 required 2/3 majority and the UNGA got 3/4 majority. 143 voted for, 35 abstained, 10 was absent and only 5 voted against, namely; Russia, Belarus, Syria, North Korea and Nicaragua. Related to the BRICS pact; against, Russia; abstained, China, India, and South Africa; and Brazil vote for.

The debate in the UNGA revealed several other similar conflicts that might be resolved in the UN by this new procedure. Here are some observations from the video of the discussion before and after the democratic vote: North-Korea criticized the USA for the military support to South-Korea, which is perceived as a threat of invasion. Russia claims it has the right to annex, presented in wording like the cold-war SU block policy. Russia criticized ‘the West’ of violating the formers Yugoslavia after the death of their PP Tito. Syria claimed that ‘the western’ nations are to blame for the Russian annexation and thereby legitimized

the Russian violate UN charter. (However, the Syrian wordings that was similar to the Russian objections in the UNGA and probably written by the Kremlin.) Venezuela voted against because they wanted a delay the decision with more debates. South-Africa abstained, arguing that the resolution does not present a concrete solution. Pakistan abstains, because they claim India occupies Kashmir and wanted a ban of that too. Likewise, India abstains because they required more resolutions, like their Kashmir dispute. Brazil voted in favor even though they are in the BRICS pact with Russia. Cuba abstains because they claimed that only Ukraine was favored. The Rwanda vs Congo conflict was in heated regional disagreements, which also included Uganda. However, the China vs Taiwan dispute was not debated due to China's domination in the UN.

This new resolution procedure in the UN has already change the constitution and the politics considerable. Such safeguard is to prevent constitutional dysfunctions of AIDS (acquired immunodeficiency syndrome), hence CCD (colonial collapse disorder). Hopefully, similar binding UNGA resolutions will solve other regional conflicts in Africa, Arabia, Asia and America – as well as Europe. In fact, the EU has now matured some more and seems rather capable to resolve European crises due to the new Kremlin's hybrid world-warfare. Still, the Kremlin seems too mass-psychotic and still denies global reality. Such issues of healing the Kremlin are not handles in this monthly blog-series SDG2030/QoH, but in the weekly blog-series SDG2030/P5GO. The next blogs in this series will probably concern the other UN procedures – like the enlargement of the UNSC.

SDG2030/P5GO-8b – Doctors’ Orders

Blog UU20221030

‘Doctors’ Order’ is the 2nd proposal to resolve the Kremlin’s War-Game towards Ukraine. It concerns the legal issue of whether a doctor can disable a dictator when contradicting the constitutional duties. This issue is of the highest national security and frequently debated these days, since the number of candidates is growing. Intriguingly though, could a removal of the PPT (Trump) prevent his violent CdE attempt at the US congress? Also, could the Kremlin remove the PPP in order to end their fights toward Ukraine - and most nations in the UN? Nevertheless, the psychosocial anti-thesis P5GO (the 5th Pyramid Game Over) and the definition of QoH (Quality of Humanity) are made to evaluate such issues.

This thesis of ‘Doctors Orders’ was openly debated thoroughly in the US while the scandals of PPT escalated. In theory, most industrial presidents can be disabled, while the political presidents’ immunity seems total. For instance, the legally 25th Amendment (of the USA) deals with presidential disability if the president dies, resigns, or removed from the office. Such temporary transfer of powers and duties can be executed by the vice president and a majority of the president's cabinet. Hypothetically, should the PPT be disabled when he disabled the FBI director that investigated his unconstitutional activities?

Still, there are 27 psychiatrists and mental health experts that publicly raised concerns about the PPT mental health that could endanger the citizens, the nation and ultimately the world. Any other peer leader would be removed by such diagnoses. However, the APA's Goldwater Rule silence and prevents such ‘remote’ diagnoses. Anyways, the disfunction is that an insane president can and will dismiss any sane official as a preventive Move in the paranoid Game of ABD (Attack is the Best Defense), - just like Ivan, just like Stalin and just like the present PPP/PPX pact.

Doctor’s order is a safety measure to ensure the Quality of Constitutions. The safeguard is to prevent constitutional dysfunctions of AIDS (acquired immunodeficiency syndrome), hence CCD (colonial collapse disorder). Such cyber security should be fundamental to any constitution, hence apply for any PP (Puppet President), like the PPP, PPT, PPB, PPX and PPL, - as well as any united nation. Such dysfunction can occur when an insane patient is far superior to any health authority. It opens up for rival nations to sponsor ‘Joker for President’. In fact, any united nation has obliged itself to such measures by the UN Sustainable Development Goal 16 ‘Peace, Justice and Strong Institutions’ – as well as the UN Charter. And most important, - SDG16 applies for the UN as well – including abuses of veto powers in the Security Council (UU20221023).

A critical taboo is that the relations of psychosis and drugs to insanity, which is talked through in blogs like UU20140801 and UU20141219: “Hallucinations/psychosis occurs mostly by poisoning or brain damage.

Damages can be caused by Alzheimer, brain tumor, Parkinson and syphilis. Poisoning can be caused by narcotic hallucinogen drugs or lack of vitamin B. In brief, the categories of drugs are; psychedelic drugs like LSD and mescaline (hallucinogens); euphoria drugs like hashish; paralyzing drugs like morphine and heroin; in addition to central-stimulating drugs like amphetamine; and illegal designer drugs like XTC (dopamine), (which is counter-dosed with legal anti-dopamine by the institutional psychiatry).”

The massive organized international drug crimes by Red Mafia became evident when excluding the Russian athletes from the 2016 Olympics in 2012. Proven after-effects are symptoms similar to CBS (Charles Bonnet syndrome) where subconscious images appear in the conscience, - due to damaged neurons in the brain. Also, some psychiatrists prescribed a non-approved Asian anti-psychotic synth-drug named Aripiprasol as a remedy whilst manipulated the formal diagnoses to get it approved. That failed - and the damages are now as unmeasurable as covered up. (UU20150828) Anyways, there should be no doubt that the Red Mafia dominance in the Kremlin is highly influenced by unapproved synth-drug abuses – that makes decision making as insane as in drug related hallucinations. Such ‘Rasputin politics’ might be as serious as the drug/hypnos warfare between Arabia and Egypt thousands of years ago. (UU20150828)

Such ‘gray drug marked’ might very well have influenced several PPs, as well as the PPT and PPX. Such ‘black/illegal’ Doctor’s Orders need contra-orders by ‘white/legal’ counter-parts – which ultimately means disabling of the PP’s authority. That is hard though, when the mental patient’s finger in on ‘a big red button’.

SDG2030/P5GO-8a – UNGA overrule rogue nations

Blog UU20221023

The new sub-theme to the war-Game toward Ukraine is Possible Outcomes and Suggestions. Half a year ago, the introduction blog presented 5 possible negative outcomes and 5 anti-theses (UU20220320). These are, however, slightly changed in this half a year of war. Still, the most pressing outcome is '2. UN unites for Humanity' and the anti-thesis '4. UN overrule UNSC veto'. In fact, this seems rather likely to happen due to the recent developments in UN diplomacy. However, the main model for this blog is the anti-thesis P5GO (the 5th Pyramid Game Over) and related models of the UU blog series. Most relevant, though, is the definition of QoH (Quality of Humanity) and the psychosocial analysis of organisations like the UN.

The fact is; a vast majority of the united nations have stated that the Russian invasion of Ukraine is illegal and threatens any nation and human in the world as well as the UN. The UNSG states, like the vast majority of the UNSC and UNGA, that: "The Kremlin annexation of Ukrainian regions, by threat or use of force, is a violation of the UN Charter and international law. Russia has a particular responsibility as permanent members of the Security Council. Russia's violations; have no legal value; has no place in the modern world; cannot be reconciled; breaks the Purposes and Principles of the UN; stands against everything the international community stand for; creates a dangerous escalation; and must not be accepted. The so-called 'referenda' (in the occupied regions) cannot be called 'a genuine expression of the popular will'. Russia prolongs the dramatic impacts on peace, the global economy, and hinder our ability to deliver life-saving aid." Moreover, the ICJ (International Court of Justice) ordered Russia to withdraw from the invasion. The ECHR (European Court of Human Rights) had to expel Russia as a member due to the massive war-crimes toward humanity. Furthermore, many civilized nations have suffered indirectly due to Russia's warfare toward civilizations, like economy, food, energy and masspsychosis.

The Russian rhetoric in defense of their violence reminds about the Underworld Games as described in previous blogs like UU20220424. The communications in the UN are of the highest diplomatic level. Yet, the official Russian uses terms like Nazis, coup-makers, terrorists, threats, extortions etc. about the defenders and UN allied. All in all, the rhetoric is simply reversed like in psychological projections of own offences, - as in the Game BOOFY (Beat your Own and Other will Fear You). The transactional (TA) Motive in such Underworld Games is to cover the nature of the Underworld Gamers'. However, in Underworld Games, the real Gamers are undercover/Ulterior and not the ones we hear, see or interacts with. Simply said, it is a 4th degree version of the Game LYAHF (Let's You And Him Fight). That Ulterior 3rd party is recognized as 'Red Mafia', PROSA, FSB and Oprichnina. (UU20220410) At least, such is this hypothesis, which will a basis for the further analyzes of this sub-theme of P5GO thesis.

Hypothetically, they are not truly Russian, - those violations towards, Ukraine, Russia and the UN. There are Ulterior third Gamer with destructive Motives in hope of preying on the prize of ruins. Immature SE/ID Games of Kremlin can be replayed publicly from UN Internet. (See extra UU videos,) As mentioned in UU20141031 about the first realization when the S-E/S-I relation was discovered: "The Oprichnina/Praetor is like a definition of psycho-social Games. The Actors and the Games are ulterior and concealed like the very nature of secret services. It is however, a problem if the democratic Quality of Life is not respected. It is serious if the organization consider itself as a Superior-Ego and individual as inferior. It is catastrophic, if it also inherited the properties of Ivan's murky mentality as a collective obsession."

The Red Mafia has obviously overrun the Kremlin these days. The KGB's installed their agent in 1999 as the PPP (Puppet President Putin). However, the BRICS conspiracy and the 99-article pact with PPX, did shift the

powers from the western Moscow to the eastern Beijing. Now the PPP does most dysfunctional deeds that weakens, alienates and isolates Russia from the civilized world. The damages to Russia, its neighbors and humanity, is now beyond repair and worsening by the day. Kremlin seems to be possessed by its own worst enemy – like Ivan and Stalin before.

The UN itself has to prove to not to be dysfunctional beyond healing. The UN has to use this global political crisis to repair its own dysfunctions and set a precedence example that such political violations is unacceptable. The most immediate remedies are to let the UNGA overrule UNSC abuses of veto-power. The UN should enable global sanctions towards Russia until their war is stopped. All UN member states should also start purging of PROSA 5th columnist. Finally, the BRICS conspiracy should be investigated and exposed for hostile activities – covered up as the UN SDG (Sustainable Development Goals). Now, would Russia try to leave the UN, like they did before they were dismissed from the ECHR? Quite unlikely, - there will rather be a CdE Game (Coup d' Etat) in the Kremlin first.

SDG2030/P5GO-7h – The Day After – Crimea

Blog UU20221016

'The Day After – Crimea' is the 7th and a final scenario concerning the threats of nuclear disasters in this decade of war-Games. The peninsula is a central port for the northern Europe, Russia and 'the East' - to the lands of the Black Sea – and indirectly to Mediterranean lands as well. Thus, this hypothesis is based on some ulterior theocratic Motives of GoT (Games of Temples) by a 'Tsar Bomba' in some fake miracle. However, such an EMP bomb might knock out most electric devices of the world, causing yet unknown levels of calamities. Still, the motivation for this blog is to utilize the anti-thesis P5GO (the 5th Pyramid Game Over).

Theocratically, this hypothesis is based on the 'build in failures' in the Kremlin's constitution. Its AIDS (acquired immunodeficiency syndrome) enables some CCD (colonial collapse disorder) that cause the centennial war-Game of 'Rus vs Rus vs Rus'. The psychosocial reason for this GoT is complex, yet based on the hypothesis in UU20220529 'Tengri Kremlin'. In brief, the centennial purge of 'the West' is triggered by some fail-safe for the Tengri/Trinity pact, - from the time that the Kremlin claimed to be the Christian Rome's successor - about 1513. However, the great schism of the Christian Trinity was due to the unexplainable supernova 'miracle' in 1054 (see the blog UU20220515). Still, it does not change theocratic determinations, even when now knowing that the 'Bethlehem star' was Sirius, followed by the three kings, the Orion's Belt (see blogs like UU20191206). Still, some self-destructive occult scripts of dilutions, like the 'Johns Revelation' and Nostradamus, are superiorized means for such theocratic rivalries in some GoT of DOOM (Game of Temples / Digging Our Own Morgue). However, such unpredictable miracles of doom can be faked – by triggering an atmospheric Tsar Bomba – as in the fiction 'Angels and Deamons' (Dan Brown). Such can alter a theocracy balance of powers - as in the years 0, 1054, 1908, 1945 and 1963.

The public history and common perception are pre-dominated, since the proclaimed winners take the sovereign right to state their version as truth (Pravda). Thus, few know the real reasons of the first world war, since overshadowed by the second. Anyways, the official history to the millennia of warfare is rather based on beliefs than facts. Still, the prelude to 1913 is rather well documented in the video 'The long way to war', that documents the precluding 50 years of rivalries and wars. The Black Sea was, as is, central to the official trigger in Sarajevo of 1913 (P4) as Crimea in 2013 (P5). (See video documentary hereunder)

The Red Mafia Godfather PPP do threaten to use nuclear weapons in a final desperation. That nuclear threat is backed up by the occult polar shaman Mirtofan – seemingly a Rasputin wannabe. Moreover, the PPP's black temple 'Angels and Artillery' is made of nazi-steel, - and is used to bless the soldiers forced to

commit war-crimes in Ukraine. A psychological reason seems to be like his story of the PPP's childhood experience when cornering a rat. It attacked desperately as a final Move in the psychosocial Game 'Want Out'. Still, any sane organization, nation or union would let such a client free – before turning schizophrenic and mass-murdering. However, the archetypical GoT of DOOM is far more complex bonded. Surprisingly, maybe, the better outcome might be to let the rat live in peace, although the war-crimes are massive. Such organisational Games are far more comprehensive than a 'scape goat'. (Games of the superior Throne/State/Temple are described in several blogs like UU20150403 and UU20151030.)

Howto prevent an occult fake miracle of illumine from happening, then? As for any Game, from the most ID driven to the most diluted Superior ones – the path is to uncover the ulterior Games, Gimmicks and Gains. The Kremlin war towards Ukraine is basically theocratic, as talked through in blog UU20220529. The solution is also religious. There should be clear statements from the religious leaders of Humanity that such Games of DOOM with fake 'miracles' will be exposed and dealt with accordingly – which means disabling such occult GoT powers. Blaming superior deities for own crimes towards humans is simply blasphemous.

Extra UU – The long road to war

“Angels & Demons is a mystery-thriller about conspiracies of secret societies, a single-day time frame, and the Catholic Church, ancient history, architecture, and symbology are also heavily referenced throughout the book. The plot is basically that a CERN physicist is murdered, with an authentic ambigram of the word ‘Illuminati’ - an ancient anti-religious organization thought extinct. They have stolen a canister containing antimatter, a substance with destructive potential far more than a nuclear weapon. The Cardinals who are most likely to be elected Pope are missing and ritually murdered. However, the anti-matter is taken up in the sky in a helicopter before detonated, thus interpreted as a miracle and the ‘hero’ is considered to be the next new Pope – Christ successor.”

SDG2030/P5GO-7g – The Day After – Kaliningrad

Blog UU20221009

‘The Day After – Kaliningrad’ is the 6th scenario concerning the threats of nuclear disasters in this decade of war-Games. This scenario is due to the recent sabotage on the Russian North Stream gas-pipe just outside Kaliningrad. The land is now like a Cuban missile base that has grave historical reasons. The sabotage on the pipeline reveals some schized and ulterior war-Gamers of the many Kremlin factions. In ‘the West’, though, that sabotage is considered an act of war and has raised the alert accordingly. Still, the motivation for this blog is to utilize the anti-thesis P5GO (the 5th Pyramid Game Over) against such War-Games of DOOM (Digging Our Own Morgue).

Kaliningrad is like the Cuban nuclear missile-base in Norden and the Baltic sea. Russia did illegally annex this 4th Baltic land, originally named Königsberg, in 1945. Geographically, Kaliningrad is inside the EU and neighboring Sweden, Denmark, Belarus, Poland, Lithuanian and Ukraine. The nuclear missiles are aimed at European capitals such as Copenhagen, Stockholm, Berlin and Warsaw. Actually, the Cuban missiles were shipped out from Kaliningrad to Cuba in 1963, which caused the threat of a nuclear world war between the US and SU (Soviet Union).

Historically, Königsberg (King’s Mountain) was an ancient Prussian city of the Teutonic knights, the Kingdom of Prussia, the Russian Empire and of Germany. The city was renamed to Kaliningrad by the SU and then thoroughly ruined, annexed and assimilated. The legal status of this ‘fourth Baltic state’ is disputed, since the SU ‘agreement’ did not mention any explicit right of annexation of the ‘Western’ exclave. This issue is quite comparable with the illegal annexation of Crimea and the four other Ukrainian regions. (See the video Full History of Prussia)

However, there are some recent intriguing issues in the Baltic region that indicate hardcore Gaming:

- The execution of the journalist Kim Wall. She was a freelancer for major papers that uncovered the Chinatown and torture chambers in Uganda, real-life ‘vampires’, troubled tourism in Haiti, nuclear weapons testing and some issues of North Korea and Sri Lanka. Peter Madsen was an amateur rocket scientist that launched rockets from Bornholm/Nexø - and made private submarines in Denmark. That must have been quite alarming to the Baltic nations, - and Kaliningrad indeed. However, there is probably no way that a single person could execute such enterprises without powerful sponsors and decisionmakers. In fact, at the very end of the Netflix documentary, Madsen warned about real ‘human predators’. Moreover, there were other marine activities in the area at the time the submarine was missing- that might involve a 3rd person in the submarine. (ref UU20171013)

- The Nordic Council and the Nordic Council of Ministers should function as a significant power for Nordic nations. However, it appeared dysfunctional during the cold war - and is still disabled to all the recent Nordic crises of immigration, finances, trade, energy, citizens' rights, etc. An obvious reason was the bounds to 'the friendly cities' of Kaliningrad, Leningrad and Murmansk, - which are like 'the Cuba of the Baltics. the 'KGB/FSB quarters', and the major Arctic nuclear test-site. (UU20170728)
- A Chinese naval group used the port of Baltiysk/Kaliningrad during the military exercise 'Joint Sea'. There was a missile destroyer, a frigate and a replenishment ship. The military influence is far more direct though, such as the North Korean labor that was engaged in building the newest Danish warship 'Lauge Koch' in Poland, - just next to the Kaliningrad. Moreover, the annual Zapad is an was a joint strategic invasion exercise by armed forces of Russia and Belarus, Kaliningrad and occasionally other Russian related. Moreover, the Russians insisted on building the pipeline 'North Stream 2' on Danish sovereign territory, - at the Bornholm Island, just next to Kaliningrad.

Still, the escalation of the Russian nuclear war-Games is most alarming to the European nations, the EU and NATO. Questions rises about the timing, the nuclear engagements and the Asian involvement. Do China install spyware in the Baltic sea? Is the Gazprom's Stream 2 pipeline also hosting military devices? Do they move upgraded weapons between the Baltic and the Pacific? Does Chinese business involvements in Europe include military agendas? What are the joint operations in Europe by the secret services of Chinese MSS (Ministry of State Security) and the new Russian MGB (Ministry for State Security)?

After all, the illegal annexation of Kaliningrad seems rather familiar for the new Russian/Chinese Pact of 99 articles. No wonder that all the Baltic nations escalate their joint defense alliance in NATO – where the ethic is like 'all for one – one for all'. No-one in the 'West of Ural', including Kremlin, truly wants a nuclear war-game triggered by some third Gamer.

Fusion/Fission – John Foxx

<https://youtu.be/HfP8sb-gZug>

Extra UU – Kaliningrad, a Cuban missile base in Norden

“Kaliningrad is a historical rarity. This piece of land which was called Königsberg until 1945, ended up becoming a kind of Russian island in the middle of the European Union. A small enclave surrounded on land, sea, and air by NATO territories but which has nevertheless become Russia's largest military base and the spearhead of Kremlin's pressure on Europe. ...” “In other words, Russia can launch dozens of nuclear warheads from Kaliningrad against NATO positions that would barely have any time to react. The Iskander missiles are considered one of the critical systems in Russia's powerful nuclear deterrent arsenal. And now, for the first time in decades, such systems are deployed in the heart of Europe.”

SDG2030/QoH – SDG & Nuclear cleanup

Blog UU20221002

Nuclear cleanup is all-embracing to the Sustainable Development Goals of 2030. Most unfortunate, though, the amount of waste is large widespread, - yet as silenced as invisible. However, the two major powerplant disasters in Chernobyl and Fukushima are minor compared to the 2000 detonated nuclear bombs, the many leaking storages and all the accidents. Still, the aim for this blog is not to trigger some Blame-Game, but merely to set the focus on the status, some solutions and safer utilizations.

This sub-series to the UU blogs, called SDG2030/QoH, concerns the Sustainable Development Goals to promote the Quality of Humanity. As mentioned about pollution in general, the nuclear waste does certainly affect most SDGs to some extent, including; 1, No Poverty; 2, No Hunger; 3, Good Health; 6, Clean Water and Sanitation; 7, Clean Energy; 8, Decent Work; 9, Industry, Innovation and Infrastructure; 11, Cities and Communities; 12, Consumption and Production; 13, Climate; 14, Submarine Life; 15, Life on Land; 16, Peace; Justice; and Institutions; and 17, Public/Private partnerships. These Goals also include their 169 targets.

It should be noted though, that there are natural levels of radioactivity, which we always have been exposed to - and always will. The radiations might even be a reason for our development as humans. Moreover, radioactive technology is also utilized to clean water. For example, 20% of the industrial water pollution stems from the textile industry that can be cleaned by nuclear utilization. (See video-link to the IAEA).

In fact, there have been 2121 nuclear weapons detonations by 2476 devices. There were 520 atmospheric, 8 underwater and 1352 underground of 90 Mt (Megatons TNT). The detonations had a total yield of 545 MT, where 217 Mt were fission 328 Mt were fusion. Even though US had more device tests than SU (1132 vs 981) - the US detonated far less yield than the SU (197 vs 297). Besides, there are big differences on how 'dirty' these bombs were, - how much radioactivity they really spread. The IPPNW states that the nuclear atmosphere test caused 0.4 million deaths by cancer by 2000 and 2,4 million deaths from nuclear testing.

A nuclear and radiation accident is defined as a significant consequence to people, the environment or the facility. The prime examples are the Chernobyl and Fukushima disasters. However, as of 2014, there have been more than 100 serious accidents. (ref Wikipedia)

How to recover the radioactive calamities, then? The UN is the only and the vital institution for nuclear sanity. Historically, in 1963, the 3 of 4 nuclear nations USUK (US, SU, UK) and many other UN nations, except France and China, signed the Limited Test Ban Treaty, that allowed only underground testing. However, underground detonations did (officially) stop before 2000 with the signing of a comprehensive treaty, - except for North Korea that continued with their latest detonation in 2017.

The sad conclusion is that done is done and can't be undone. However, some nuclear waste can be cleaned up and the most potentially disasters can be prevented for happening. Still, some of all the radioactive materials are too wide-spreads and contribute to the 'natural radiation' - hopefully at safe levels. Moreover, the heavy nuclear atoms sink down in the ground. For example, the Chernobyl waste have now sunk 20 cm, which makes an effort to remove it unlikely. The region might be uninhabitable for a hundred years. Such sites need to be evacuated and isolated. Most important though, is that any of the united nation and related organisation do understand that nuclear terrorism is the very opposite of the civilizations' SDGs for 2030. Any such uncivilized member of the UN is the most serious danger to itself and any other – and needs to be disabled from any decision-making in the UN - until its regime is proven sane.

Extra UU – Nuclear waste

“Nuclear testing ended over 20 years ago but the legacy of the test areas still remains and will do for hundreds or thousands of years. 8 countries have actively tested nuclear weapons, some in their own backyard if it was big enough like the Soviet Union and the US but they also used others peoples’ backyards in the Pacific, the British and French did this. But what happened to the test sites, in this video we look at the US and Soviet test programs and what became of them and the people nearby.”

SDG2030/P5GO-7f – The Day After – BRICS

Blog UU20220925

‘The Day After – BRICS’ is the 5th scenario concerning the threats of nuclear disasters in this decade of war-Games. This hypothesis is based on the TV-series ‘Jericho’, yet in the ‘nova SU’ rather than the US. This scenario is that several major cities are nuked simultaneously. The reason for the plot stays covered since the series was stopped in season 2. Hence, this blog investigates similar Motives, Dysfunctioning and Outcomes of such a nuclear chain-reaction – not merely in Russia, but all the BRICS. The Motivation for this blog is to utilize the anti-thesis P5GO (the 5th Pyramid Game Over) against such War-Games of DOOM (Digging Our Own Morgue).

‘Jericho’ is an American post-apocalyptic TV-series about the aftermath of a nuclear attack on 23 major cities. The story centers on the residents of the fictional city Jericho in Kansas. Jericho was shown in more than 30 countries, but canceled in the climax midst in season 2. However, that hypothesis is as relevant for the ‘nova SU’ as the US. Actually, that War Game of 5th degree is far more relevant in the PPP autocracy now that the PPT is removed. Anyways, in ulterior Games, no puppet president actually executes its own Will, - but is simply Remote Controlled (RC) by corrupting powers – just like the PPP, PPT and PPB (Putin, Trump, Boris). The identification of ulterior Global War-Gamers is nearly impossible due to their Underworld nature. However, the metaphor ‘Red Mafia’ is used in order to uncover such DOOM Gamers.

The ‘Red Mafia’ is talked through in many blogs like UU2220501 and UU20220410. Some documentations clearly indicate the activities in any kinds of illegal weapons trade with the annual turnover of 200 billion \$, - including nuclear materials. (See link to the pdf doc. at mckinneylaw.) A main source of materials is from the post-SU dismantling of nuclear armory, - that got out of control during the post-Gorbachev period. The Red Mafia illegalities have escalated in this Putinism period. Now, with the PPP as a Red Mafia Godfather, as the head of the secret’s services and Executive powers, - the bounds to the civilized united nations are becoming as non-existing and even hostile. Still, the centennial path of Kremlin’s self-destruction is indeed climaxing in the brewing of the uncivil ‘Red Mafia’ war amongst their own major mobsters. Neither seems to favor the war at Ukraine, the national despotism, nor the Pravda masspsychosis. The Kremlin last desperate Moves for the Blame Games might ‘accidentally’ trigger some of the stolen nukes by the ‘Red Mafia’.

The BRICS (Brazil, Russia, India, China and South-Africa) is the plutocratic pack that opposes the civilized united nations treaties of national peace, trade human rights and sustainable development. However, the BRICS is dominated by the Russian/China pact of 99 articles. Still, the millennium of their fierce warfare is covered with rituals. Yet, there is no reason not to assume that Red Mafia also embraces the extreme Chinese mafia too, - ultimately the worldwide BRICS. For example, the PPP para-military Wagner Group is allied with Syrian and Iranian military too, which might include nuclear materials.

Still, China wants some retribution for Siberia from Russia, which never will be given freely. Hence, the determined path is like the '39 pact' of Stalin/Hitler, which merely became a version of LYAHF Game of 4th degree. Who, in that Game or outside, can truly believe that there are any sound intentions in such a Game of CAD (Cloak And Dagger). Psychosocially, that continual war Game is purely about Drive (Id/Sex) of the Pyramid scheme anti-climax, - where anyone involved lose in the long run. This issue is talked through in the blog UU20220626 'The Great Siberian War (GSW)'.

Evidently, the PPP got his Ego altered at the two latest visits to Beijing and the PPX. The first time was followed by the illegal invasion of Ukraine. This time 300,000 Russians will be drafted to the war of self-destruction by force – Gulag style. The Russian civilians run from the autocratic dictatorship and openly riots in desperation, - whilst the Red Mafia mobsters are assimilated in its full-scale internal warfare. The PPP/PPX Game of 'DOOM' is certainly climaxing, - yet uncertain how. Some Red Mafia factions might realize that the Pyramid Scheme is a 'Lose-Lose-Lose' Game and will rather seek revenge than Gain – just like the ex-PPM (Medvedev's) insane fury towards Ukrainian humans – like some 'black Tengri' spirit ala the occults priests Mirtofan of ROC (Russian Orthodox Church). Eventually, the Russians might realize that they never were or will be Asians of the East – but are truly Western.

SDG2030/P5GO-7e – The Day After – Arctic

Blog UU20220918

'The Day After – Arctic' is the third scenario concerning the threats of nuclear disasters in this decade of war-Games. In fact, our Humanity have been living the 'tDA Arctic' for 60 years. Russia did detonate nuclear bombs in the Arctic that is comparable to what is described as 'nuclear holocaust' followed by 'nuclear summer'. However, the nuclear warfare toward the Arctic was covered-up when realizing the disastrous effects on nature, wildlife, societies, ozone, radiations, melting and warming. However, the cover-ups are now uncovered on the internet. Quite shocking though, is the Kremlin threat to use nukes in the Arctic again – as if the civilized United Nations will submit Kremlin's claims to invade more Arctic regions. Hence, this blog is dedicated some attempts to use the anti-thesis P5GO (the 5th Pyramid Game Over) towards such War-Games of DOOM (Digging Our Own Morgue).

The Arctic issues are thoroughly talked through in the blog UU20170421. Hence this blog is an updated summary that focus on the Kremlin threat execute a 'nuclear holocaust' in the Arctic once again. The rest of the arctic nations are very concerned about sovereignty, defense, resource development, national borders, shipping routes, and environmental protection. The Arctic Council consists of US, Canada, Iceland, Norway, Sweden, Finland, Russia, and Denmark (including Greenland and the Faroe Islands). The diplomatic rivalries and military positioning escalated when former president Medvedev, called for the establishment of improved military forces in the Arctic to "ensure military security and strengthening the existing border guards." Now, the majority has disabled the Council by withdrawal due to Russia's invasion of Ukraine. Russia's BRICS conspirator, China, is also most aggressive in the Arctic, despite no geo-political legality or legitimacy at all.

Russia's 'nuclear holocaust' in Arctic is all-embracing. It was massively silenced in the 60's, Pravda style, - yet now uncovered to all on internet. Kremlin detonated 224 nuclear bombs of 265 megaton TNT. There was a blast-force at 20,000 times the Hiroshima bomb and 100 times all the blast-force in World War 2. That was like a total nuclear war with accordingly radioactive pollution like a 'nuclear summer'. The Tsar Bomba alone had blast-force 10 times all the WW2. No wonder why the Arctic has big hole in the ozone layer, has the highest increase in warming and why the Arctic ice melts so rapidly. The radioactive waste is spread with the winds and by the Atlantic and Pacific currents - in addition to the Arctic land and ice areas. All remaining life, like fish, bears, whales and seals were highly exposed by the radioactivity. Attempts to uncover these circumstances was strongly opposed by the Secret Services, though, like the Russian Nikitin trail proves. The insanity led to the UN doctrine 'MAD' (Mutually Assured Destruction).

Did none of the Soviets underwater nukes affect the volcanic Gakkel Ridge or Lomonosov Ridge? Such is hard to prove and will most certainly be political denied anyway, - like all the other cold-war-crimes. However, underwater nuking in the Arctic is like nuking the 'Ring of Fire' - the volcanic belt in the Pacific. Nuking an underwater volcano would probably trigger volcanic eruptions – causing additional heat to the Arctic ice from beneath. This might explain why the Arctic region is warming more than the global average.

As concluded in the previous blog, 'tDA – Chernobyl', - this century's Putinism has become a most serious threat to the Humanity's Sustainability Development Goals for 2030 – just like Stalinism was the most serious threat to Humanity in the previous century. No wonder why Gorbachev insisted on 'perestroika & glasnost' (restructuring & transparency) and that the PPP opposes all the SDGs (especially SDG-16, 'peace, justice and strong institutions'. In fact, Kremlin has practically stated itself as the main enemy toward Humanity.

SDG2030/P5GO-7d – The Day After – Chernobyl

Blog UU20220911

‘The Day after – Chernobyl’ is the third scenario concerning the threats of nuclear disasters in this decade of war-Games. In fact, Humanity have been living the ‘tDA Chernobyl’ of 1986 for decades. Still, as in most war-Games, the historical Chernobyl incident included ulterior Moves to cover-up and disinform about the real Gamers, Motives, Gains and Victims. Although some present documentaries have not uncovered all the coverups, it was certainly a Russian reactor with dysfunctionalities that caused and escalated the disaster - and prevented proper emergency actions. The consequences were as gravely to Ukraine and Belarus as if a nuclear bomb was deliberately detonated on them. Now, the Kremlin threatens daily to abuse nuclear powers in its hybrid warfare in Ukraine. Hence, this blog is dedicated some attempts to use the anti-thesis P5GO (the 5th Pyramid Game Over) towards such War-Games of DOOM (Digging Our Own Morgue).

The Chernobyl disaster was a maximum rated severity nuclear accident in Ukrainian in 1986. The initial emergency response involved more than 500,000 personnel and cost roughly 67 billion €. Russia, that still subjected Ukraine, continued a hazardous safety-test on the nuclear reactor despite numerous alarms and warnings. The dysfunctional technology, procedures and management were unable to prevent the disaster at that ‘built to fail’ facility. To top it all, firemen were ordered to pour masses of water on the radioactive core, which anyone with some sanity intact knows will vaporize and carry radioactive atoms in the wind’s direction. Hence, the radioactive fallout in Europe was not reduced, but increased and widespread.

Belarus got 70% of the radioactive fallout. That fact is as covered as the consequences to Ukraine when under Russian control. Consequently, the Belarusians did not get the highly needed international help and support. About 110,000 Belarusians were evacuated

However, the disaster in Belarus was assumingly twice as severe than the Ukrainian - and emergencies were far less due to its dysfunctional dictatorship. The dictator withdrew Belarus from the UNGA for 5 years by claiming they managed well themselves. However, that is much like the story of how the Belarusian application for full membership in the ECHR (European Council/Court of Human Rights) was blocked and annulled in 1993. Russia rushed to be a member of ECHR in 1996 and the PPL Lukashenko was selected as president (for life). In 1999 the PPP (Putin) was selected by Kremlin. Now, the ECHR had to expel Russia when they invaded Ukraine. Now, Belarus is like a KGB satellite-state dominated by the KGB agent PPP. This dual ‘nova Stazi’ regime threatens the world daily about initiating more nuclear disaster in the very same region – and have proved their inhuman ability to do so.

There are 4 active and 5 unactive nuclear power plants in Ukraine. The plants in Chernobyl and Zaporizhzhia are now attacked by the Russian military. The hazardous actions and threats have caused the UN chief to urge Russia to withdraw from the Zaporozhzhia nuclear power plant, demilitarize all the plants and engage the UN for security tasks. Quite opposite this sanity, the Kremlin threatens to escalate its war towards Ukraine to nuclear War-Games. Still, such threats are per definition ‘nuclear terrorism’. Hence, those actions do simply substantiate that the previous nuclear disaster towards Ukraine and Belarus in

1986 was nuclear terrorism, - in a war game of 4th degree towards the liberating citizens of both Ukraine and Belarus.

This century's Putinism has become a most serious threat to the Humanity's Sustainability Development Goals for 2030 – just like Stalinism was the most serious threat to Humanity Declaration of Human Rights in the previous century – as well as the very reason that the United Nations was created in the first place. No wonder why Gorbachev insisted on 'perestroika & glasnost' (restructuring & transparency) and that the PPP opposes all the SDGs (especially SDG-16, Institutions/Justice). In fact, Kremlin has in practice stated itself as the main enemy toward Humanity. Still, only Kremlin itself can cure itself from such occult black Tengrism.

SDG2030/QoH – Ice Age End

Blog UU20220904

This ice age is about to end. The global temperature has been rising for centuries and will continue for centuries to come. This natural development is simply a scientific fact – and has profound consequences. One alarming result is that the sea levels will rise 6 meters more, since they were 6 meter higher before this ice age. Another result is stronger weather activities due to the released solar energies. Now, that negative effects require planning for sustainability, contingencies and actions to minimize the certain disasters. Yet, the Ice Age End provides great potentials too - that also need dedications to be utilized. Still, handling these natural disruptions is about choosing 'survival of the fittest' over dooming disinformation of

despair. Hence, this blog provides some constructive suggestions related to all the 17 Sustainable Development Goals for 2030.

Some extreme hypotheses about this Ice Age End are the most fearful political Games of this century. Massive sums of money are redirected to undefined goals with uncertain reasons and outcomes. Some are even propagated like some occult theocracy of personal emotions, ignorance and superstitions. Such corruptions, labelled as politics, are also acted out like the psychosocial Games; AIA (Ain't It Awful), LYAHF (Let's You And Him Fight) and DOOM (Digging Our Own Morgue). Hence, related to the CO2 propaganda, a tactical Game could be uncovered as IWYT (I want You to Panic).

Anyways, all Ice Ages has Ended by natural global warming, - like this Ice Age does too. The reason is not due to Blame Games argued in mammal CO2 emission. Since most thinks that Humanity should focus more on science, there are good reason to let scientists like Svensmark about cloud formations in the stratosphere. That scientific theory says that the global warming is due to cloud formation by solar and stellar radiation.

Furthermore, Ice Ages Start and End are profoundly related to all Earth's impacts of asteroids and comets. In fact, our Sun and the Earth circle our Galaxy. They pass through a Spiral arm about every 50 million years and pass by a star system about every 100,000 years. A star-system passed through our Oort cloud about 70,000 years ago. That caused the present Ice Age Start. There should not be doubt that objects from other star systems have periodically hit all our planets, - including the Earth. (Such issues are rather related to the blog series called 'Accidental Genesis 2, blog UU20120901-UU20130125. Also see links hereunder.)

Anyways, surely there are profound global challenges for Humanity to our sustainable goals in 2030. Moreover, the conditions are fundamentally changing too, which makes some of the present plans less relevant for 2030. Surely the certain increasing warmth, sea-levels and storms requires revised plans. However, way worse than all these realities are the hybrid war Games of disinformation. Hence, as flexible as the SDGs are, they still hold, if the tasks are revised for the future rather than the past. The SDG are still about proper Quality of life, earth and society.

Certainly, there are serious consequences of the environmental changes of this Ice Age End. First, when the sea levels rise about 6 meters, there will be populated areas overflowed – if not prevented in time. If not managed like the Dutch Deltas. Truly, it will certainly affect most SDGs to some extent, including; poverty, hunger, health, water, work, cities/communities, industry, production, growth, climate, wildlife and justice. So, let's be realistic and set the priorities right, due to this Ice Age End.

SDG2030/P5GO-7c – The Day After – Korea

Blog UU20220828

'The Day after - Korea' is the second scenario concerning the threats of nuclear calamities in this decade of war-Games. Some might ask, what in the world could go wrong? Yet, in the very north of Korea, there is a super-volcano named Paektu. A thousand years ago, it had the world's most violent eruption in 5000 years. It is uncertain when it will blow again, - but that could certainly be triggered by nukes. Most humans, which are quite sane, are extra careful about such major risk for a global catastrophe. Such neighboring leaders try to prevent another 'Hister wannabe' to play with nukes in that area – that is rather a 'Hell Hole' than any 'Heavenly Sea'. Nevertheless, the Kremlin/Beijing pact has created such an altered Ego, supplied with weapons of doom that enforces its dysfunctionality. Thus, this blog is dedicated some attempts to use the anti-thesis P5GO (the 5th Pyramid Game Over) towards such War-Games of DOOM (Digging Our Own Morgue).

The thesis is that the nation, the organisations and the person were designed in 1948 to be the main actor in a 4th degree war-Game of BGGG (Bad Guy – Good Guy), - just like the Hungarian/Austrian Hister wannabe

of 39. (See blogs like UU20200402 and UU20220821.) Alarming, there are no emergency stop-button, - and our technology has now developed to enable Games of the 5th degree (apocalypse). Now, the national introvert masspsychotic Belief is that the only solution is to 'elevate' from bodily humanity to Tengri spirituality – and to provide the rest of the world a similar solution. However, such dysfunctional state of Superior-Ego/Superior-ID is historically well-known in ideological inbreed of ethics, politics and religions – and always end in Games of DOOM. However, this time our Humanity has also evolved and matured to actually do suicide of our own specie – our Humanity kind.

'Belief', is the psychosocial term for Superior-Ego (Parent) of these theses. Generally, as the evolving Humanity, we do believe before we can prove that something is mostly true or false. (See blogs like UU20180302.) However, as immature infant, humans can be manipulated to believe that false is true, - that the Gamers Gimmicks, Gains and Moves are determined True Faith. There have been warfare of drugs and hypnosis for thousands of years. Yet, issues of those hybrid warfare are still tabu, hence abused. Such Games of War are now not merely a threat to some kinds of enemy, - but indeed all-included in ultimately backfiring Games of DOOM.

Though, what is the anti-thesis to such dead-locks of ultimately self-harming? A solution might be found in the basic psychosocial therapy and Game analysis like P5GO. The 3rd extra post to blog UU20200402 describes this S-E/S-I meme as: "Kim Jong-un is the grandson of North Korea's founder (which became a SU agent). The Ten Principles for the Establishment of a Monolithic Ideological System of 2013 serves as the primary legal authority and framework to demand 'absolute obedience'. The modern mythologies pervade their version of history that as crucial to the cult of personality and political control. It is alleged that Kim Jong-Il was born on Mount Paektu at his father's secret base in 1942 (yet his actual birth was in 1941 in the Soviet Union), and that his birth was heralded by a swallow, caused winter to change to spring, a star to illuminate the sky, and a double rainbow spontaneously appeared. The North Korean cult of personality is a large part of North Korean socialism and totalitarianism. It is considered to be the only imperial cult left on Earth."

The 99 (paragraph) Pact of Kremlin/Beijing is the only ones that can break the mass-psychotic deadlock of North Korea – simply because they have jointly crated, are supporting and maintaining their meme of that schizophrenic 'Bab Guy'. They probably still Believe that their responsibly will not be uncovered when the PPK is finally fooled into 'accidentally' trigger and release their own weapons hidden in North Korea. However, Beijing, if not Kremlin too, might understand that the Stalinist Game of DOOM will not work as it did with the other 'Hister wannabe' of WW2. Although Kremlin might still think that Korea, China and Japan get a deserved retribution for the Russian catastrophic naval loss in Korea in 1905, - the sane Asian nations might work out some anti-thesis to prevent such a Game of DOOM of the 5th degree. However, first the United Nations have to resolve their own veto-dysfunctionality in the UNSC by letting itself be overruled by 2/3 majority in the UNGA. All-in-all, east and west Germany managed to re-unite half a century after their 'Hister-wannabe' calamities.

SDG2030/P5GO-7b – The Day After - Taiwan

Blog UU20220821

‘The Day after - Taiwan’ is the first scenario concerning the threats of nuclear assaults in this decade of war-Games. There are several reasons why Taiwan could be nuked in one way or another. Firstly, Taiwan (ROC) is actually the nation that the United Nations originally recognized as China - before the regime of the Coup d’ Beijing (PRC) undermined the UN processes. Secondly, Taiwan produces a majority of high-tech IT chips for the West, which is a superior competitor to the BRICS. Thirdly, Beijing needs freer passage to the Pacific Ocean in order to conquer the Asian wealthy nations like South-Korea, Japan and Singapore. It seems that these realities are so frustrating for the PRC - that the desperate Moves into those War-Game might trigger nuclear assault of some sort – followed by blame Games. Thus, this blog is dedicated some attempts to use the anti-thesis P5GO (the 5th Pyramid Game Over) on such War-Games of DOOM (Digging Our Own Morgue).

The history of China is as ancient and complex as the rest of Asia. It is over 4000 years old while the present dictatorial elite in Beijing (PRC) is merely 70. The regime is alien and has little to do with Chinese or other Asian culture. Its Coup d’ Beijing rooted in a dysfunctional symbiosis of Mongolian/Soviet from the collapse of Stalinism. Their extreme war-Games of BOOFY (Beat your Own and Others will Fear You), were merely a kleptocratic genocide like the Stalinist Gulag. If related to Asian culturally at all – they might be found in some kind of black Tengrism ala Genghis. It seems determined to continue the list of Chinese wars of nonstop destructions of itself and its surroundings. (See link hereunder.)

Most of the real Chinese heritages are now pacified by the PRC regime's warfare towards China's myriads of peoples, cultures and values. Yet, some managed to emigrate in time and recover at the Chinese island Taiwan (Formosa). In fact, the majority of all the civilized United Nations did recognize the legal ROC (Republic of China). However, the Beijing elite, PRC (People's Republic of China) has undermined Taiwan (ROC) in the UN by hard-core Games of diplomacy. Still, it is a fact that Taiwan was illegally excluded as a nation when downvoted in the UNGA. The (contra-) resolution 2758 of 1971 is ambiguous and do not mention Taiwan explicit, though. Thus, the PRC position as a permanent member of the UNSC is as questionable as the PRC representation of being some kind of 'One China' – which basically means the final termination of ROC. Still Taiwan (ROC) does truly honor the UN Charters, whist Beijing (PRC) determinably and aggressively violates them with UNSC veto. Hence, the sane UN diplomacy seems to have failed to such immature psychosocial Pyramid Game of S-E/S-I (Superior-Ego/Superior-ID) - and heads towards a climax of 4th or even 5th degree. (See blog UU20220417about S-I/S-E)

There are innumerable ways of executing nuclear attacks. The most obvious ways, like a nation use a registered bomb, is not likely in this scenario, - although there should be no doubt that the main Gamer and Gain is that the PRC wants the ROC assimilated or terminated. The tactics of such a strategy would be in the category 'nuclear terrorism', rather than 'nuclear warfare'. Scenarios could be; using EMP to disable industry, infrastructures and institutions; using neutron bombs for genocide, while saving constructions; polluting society by dirty nukes; in-place minor nukes in cities; assassinating key-personnel by radioactive poison; - or simply threatening of such in diplomatic warfare. Anyways the tactics, - the PRC needs a scapegoat for the aftermaths of blame-Games. But who could be blamed? The question is as intriguing as - who really gave the order to attack Pearl Harbor in 1941? Anyways, the obvious candidate for such a Game of FOOJY (Let's Pull A Fast One on Joey) is the North Korean 'Black Tengri wannabe' for such a Game of BGGG (Bad Guy – Good Guy). More about that scenario in the next blog.

The solution of the anti-thesis P5GO (5th Pyramid Game Over) is a basic approach, - simply by uncovering the ulterior Gamers, Gains, Gimmicks, Motives and Moves – for example Mao's personal vendettas. However, UNGA has the main responsibility to correct Taiwan's unjust status after its dysfunctional resolution 2758 of 1971. The UNGA and UNSG will be accomplices to the grave aftermaths and consequences if Taiwan is nuked in any way in such a Game of DOOM. Moreover, this could split China into 5 traditional clans again, - like the PRC flag indicates. Anyhow such 'accidents' are planned and executed, - all the Gamers needs solid Blame Games for the aftermaths – which will be globally chaotic.

Extra UU – Beijing vs Taiwan (PRC vs ROC)

Documentary video: “Despite China’s increasingly aggressive behavior both at home and abroad, Beijing’s open threat to take control of Taiwan by force is receiving comparatively little attention – leaving this flourishing liberal democracy uniquely isolated and vulnerable. The threat may be far more imminent than many imagine. According to Taiwan’s Foreign Minister Joseph Wu “the Chinese authoritarian leaders may find Taiwan as a convenient scapegoat. Therefore, Taiwan needs to be doubly concerned about a possible Chinese use of force against us.”

SDG2030/P5GO-7a – The Day After – Introduction

Blog UU20220814

‘The Day After’ is the introduction blog to a series of scenarios for such ultimate outcomes. They are based on the movie with the same name, - yet modified to other places that are threatened with nuclear assaults. The analyses of such worst-case scenarios are meant to prevent them from ever happening, - just like the scenario ‘1984’ did. Anyways, these points of view will be based on the models formed in these 10 years of blogging. They all are encompassed in the umbrella of psychosocial Game synthesis – the P5GO (the 5th Pyramid Game Over).

In theory, the models for the psychosocial Games were originally made for family-therapy by Eric Berne. Those theses are here extended to also cover; the largest organisations, like nations; to Games of the 4th degree, like hybrid Wars; and the uncovering some new Games, like BOOFY (Beat your Own and Others will Fear You), DDD (Damned if I Do – damned if I Don’t) and DOOM (Digging Our Own Morgue).

Still, an ultimate and founding though is that our ‘Humanity’ is at a living being at its infant stage, - struggling to find its nature, senses and purpose - in its enterprises, like the sustainable development goals for the year 2030 (SDG). Hence, such meta-analysis, that includes the Superior-Superior concept and philosophies for the real 4D, - are out of bound in this blog-series.

Anyways, there are several causes to these major shifts in Games. The Gimmicks, the Games, the Gamers and the Gains - are now radically altered. Hence, this decade is a milestone and a cross-path for Humanity’s development. Even though Humanity’s previous re-evolutions could, and should, have been handled far better, - we all did advance in the aftermaths.

Some founding causes to those P5GO Games are; the eve of the 4th industrial and social reform that will change how humans are; the centennial collapse of the Russian empire; the climax of the Trinity millennium schism; the bi-millennium shift of Age/Era; the constitution of Humanity by the United Nations; the accessibility of the new worlds of sea, ice and space; and the myriads of retributions for previous bad Games due to false 5D history writings. Such issues are talked through in this blog series called SDG2030/P5GO-xx.

The overall goal, tough, is to promote the sustainable development of Humanity. This focus is set on the constructive Work, not the destructive Games – hence the P5GO (5th Pyramid Game Over). Some basic blogs are UU20160513, UU20220320 and UU20170106.

War Game planning do usually go rather wrong. A main reason is ulteriority of Games. Unforeseen counter-attacks, political reactions and disinformation do alter the events, which is as catastrophic for the attackers as well as the attacked. In brief, - any political leader can start a war. Yet the challenge for our Humanity is to minimize and end the Games before it is too late. Mentally unsound leaders might turn insane and in desperation use nukes.

Anyways, here are some general views of the Gamers, Motives and Gains, so far: Beijing sees itself as the dominator of the Asian region and legitimates any use and abuse of power to achieve total domination over land, sea, people – despite its obligation to UN Treaties. Russia is already in its centennial War-Game towards ‘the West’ – which is failing gravely and is determined to escalate to a yet unseen chain-reaction and climax. The UN struggles to maintain its legalized world-order, and seems too immature and dysfunctional to overrule the anti-UN attacks in the UNSC. The NATO nations; wants resilience by expansion in the West, including lands of the Mediterranean, Black Sea, Balkan and the Arctic. The Kremlin threats cause the EU is re-unite and strengthen its organisations. The USA might find itself in a two-front warfare in both East and West – just like in the WW2. However, the ‘nova’ USUK Game failed since the PPP (Puppet President Putin) did not manage to keep the PPT (Trump) and PPB (Boris) in power – hence the War Game USUK TOO is escalated. Meanwhile, the AU (African Union) struggles like the UN to unite whilst under the re-colonialization War-Games of the plutocratic BRICS pact. Similar challenges are for the UAE (United Arabic Emirates) and a possible future continental UA (United Asia) (See blogs like UU20170317)

Conclusively, the hypothesis of the P5GO (5th Pyramid Game Over) seems more likely than ever. There is no turning back to 2013, like there was not in 1913, 1813 etc. The centennial collapse of Roma3 (Kremlin) is determined since its power Games are built on global Pyramid schemes – which are ‘built to fail’ for the all-inclusive ‘Suckers’. At some point, - it would be sane though, to realize that the collapse affects the Gamers too in the end. Still, the aim to this new blog series ‘The Day After ‘ is to prevent some of the worst case scenarios of Games of the 5th Degree – ‘nukes’.

Extra UU – The Day After

The Day After is an American post-apocalyptic television film from 1983. The film postulates a fictional war between US and the SU countries that escalates into a full-scale nuclear War Game. The film was broadcast on the SU state TV in 1987 during the negotiations on Intermediate-Range Nuclear Forces Treaty. Still, nowadays, it seems necessary to remind certain War Gamers that the movie a warning – and not an encouragement.

SDG2030/QoH – Gaiapolis

Blog UU20220807

Gaiapolis is a hypothetical urban utopia. It is the imaginations of how truly sustainable cities could be formed. Although such dreams cannot be fully realized, - the visions could certainly pinpoint some dos and don'ts, when developing sustainable cities and communities (SDG11). Still, some communities could learn from some cities – and most cities planners could re-learn about sound communities. Hence, this blog is dedicated some reflections on how-to develop more sustainable cities and communities – by using ideal visions of the hypothetical utopian Gaiapolis as a model.

No one can truly grasp any idea, or ideals. Our perception of anything is merely personal sensing and interpretations of matter and energy. Hence no one can even understand the true form of any object. Yet, we humans do certainly define ideals. – regardless how faulty in reality. For example, Plato's 'cavemen' were no different than the caged 'Matrix' humans in their delusion of their own reality. Still, Plato is the godfather to the ideal State and institutions.

Gaia, as in the ancient philosophy, is one of the primordial deities and the mother of all lives. The primordial represented the fundamental forces physics of the world. They were not actively worshipped, as they have no human characteristics, but rather are personifications of places or abstract concepts. Therefore, any Gaiapolis is not an issue of psychosocial GoT (Game of Temples), but rather visionary concepts of metropolises with natural properties.

Moreover, the biosphere is the self-sustainable surface zone of life on Earth. Thus, the geochemical model, the Ecosphere, embraces the biosphere, geosphere, hydrosphere, and atmosphere. The biosphere is a closed system for matter, - yet an open system for energy, like the photosynthesis harvests solar energy of 130 Terawatt a year. The definition also includes human-centered biospheres, like any closed artificial-, space-, and planetary- biospheres - as well as any 'Gaiapolis'.

Anyways the philosophy, Humanity has certainly prioritized and stated some qualitative properties of 'polises' by the United Nations Sustainable Development Goal 11 'cities and communities. There are lots of documentaries and statistics that suggests howto improve the cities. In this sense, concepts for city designs should probably be based on living organic systems as well as materialistic lifeless ones. Someone might

also find interest in the 3 blogs reflecting about the Humanity as a living being (UU20211204-UU20220205).

Quite alarming though, - the previous blogs about cities and megacities stressed some major crises due to dysfunctionalities like; slums, crime, homelessness, traffic crowding, urban sprawl, redevelopment, distribution, pollution, energy and material resources, - in addition to issues of the fundamental Human Rights related to the SDGs. However, this decade of industrial and social reforms (IR4/SR4) do certainly provide innovating solutions for most of the challenges. (See blogs like UU20220703, UU20220710)

The previous blogs do also present several suggestions for self-sustainable cities, communities and institutions. Here are some elaborations:

- The cycle ecology is as important as cycle economy, - like plants and mammals' symbiotic and mutual waste/nutrition handling. Cities should produce its own flora by vertical farming, - which requires CO2 as well as energy, water and sanitary waste. Additionally, organized insects farming is vital for any biosphere Gaiapolis.
- Energy production by natural gas will provides the needed CO2 to the urban vertical farms. Other energy sources to harvest are solar, wind. Ways to Store potential energy are far more than chemical. The electromagnetic turbines for el-production can be reversed to store potential energy.
- Transport infrastructures (IS) in cities are as important as the veins for organisms. Most cities have electric transport IS by metro, subways, intercity express etc. Yet most peculiar, these vital IS are merely for persons and not products. However, there are no legal, economical, rational or practical reason to prevent utilize these IS for transport of goods into the city and the waste out of the cities. Such utilization would reduce the pollution, traffic jams, noise, manhours and costs dramatically. Issues of, MaaS and TaaS are talked though in blogs like UU20170630.
- The tele IS is like the neural network of societies. Mobile phones could even be considered 'telepathic organs' of wireless communication. Two major categories of networks are called WAN (Wide (World) Area Network), LAN (Local). Yet, the overlooked term MAN (Metropolitan) should be used since cities do needs and provides net- properties and qualities different from LAN and WAN. The MAN could be dedicated to the subnets for the metropolitan motoric functions and automation - for servers, IoT and other 'machine to machine' communications.
- Societies and cities do have 'Central Neural Units', which is analog to the computers' CPU - and an organism's brain. Such issues are talked through in blogs like UU20211204. Besides, issues of public virtual services, XaaS (anything as a Service), is potentially as huge as vital – and talked through in blogs like UU20201203.
- Finally, Humanity itself, as a single organism, is a fundamental issue that is philosophized in the four blogs UU20211204 to UU20220305.

Finally, there seems to be a lot to rethink and do when considering cities as living Gaiapolis as well as lifeless Metropolis.

SDG2030/P5GO-6a – The reuniting Norden

A re-united Norden is barely as populated as the megacity Tokyo, yet more economic and military powerful than Russia. In fact, even more so, after the post-empire's self-destructive assaults on its neighbor nation. The pressing challenge for Norden, though, is to end the GNW (the Great Nordic War) of the Russian empire. That 300-year hybrid War-Game has dysfunctionalized the Nordic Council of Ministers from within. The Comintern's POA (parallel organisational apparatus) of 5th columnists needs to be disabled, quarantined and replaced. Yet most fortunate, the present Norden has already some well-functional replacements for a common Nordic development for Sustainability, Resilient and Unity. The obligated legal ground is founded on the Treaties of the UN, NATO and the EEA (EU/EFTA). Thus, this blog follows up on UU20220619 'The Great Nordic War' and is dedicated to such prosperous challenges.

The reuniting Norden has a consensus on mutual benefits, like; the 17 Sustainable Development Goals of the United Nations; the NATO article 3 that obligate development of 'resilience and civil preparedness' towards any hybrid warfare; and the Treaties of EU and EEA (European Economic Area) between the EU and EFTA nations. Moreover, all the Nordic nations are committed to the ECHR (European Charter of Human Rights). In brief all the reuniting Nordic nations have a very strong common legal ground and obligations to the civil and prosperous goals – to develop a fully reunited, resilient and sustainable region before the year 2030.

Related issues are talked through, analyzed and advised in most of the UU blogs. Some core blogs are; UU20171103 and UU20150320. Also see the links hereunder to the EU, EFTA, ECHR, UN and NATO. Some main points to these obligations are pin-pointed as:

- The United Nations' declarations of ICCPR and ICESCR of 1966 became real by the obligation to ratify into all the united national laws, - despite the institutional unlawfulness and violations. These obligations and rights are now stated in the first UN SDGs, whilst the second part concerns our globe's necessities and the last SDGs concerns our national civilizations. (See blogs like UU20220205 and UU20140905)
- The nations of the European Union (EU) are legally determined to legislate for a common democratic market with the TEU (Treaty of EU), - that also relates to the EFTA nations Norway and Iceland by the EEA Treaty. They have legalized the 4 freedoms of the common democratic market, - though limited to some issues of HMS (Health, Environment and Security). Moreover, the TEU/EEA also protects and promotes research, development, small enterprises, culture and regions. In brief, some of the legal obligations are: 1. access for small enterprises that qualifies to the huge public market (art. 106). 2. Reduction of abusive oligarchic treaties and practices in the public market (art. 101-109). 3. Reduction of market-distorting abuses by State Aid (art. 107). 4. Re-distributing State Aids from the oligarchic actors and directly to the citizens (art. 107). 5. Prohibition of customs duties and taxes having similar effects (art. 30). Also, Custom Duty and similar taxes are illegal means of market abuses.
- NATO is the intercontinental alliance of countries of Europe and North America for consultation and cooperation in issues of defense, security, and multinational crisis-management. The treaty's article 3 concerns 'resilience and civil preparedness' to resist and recover from a major shock like natural disaster, failure of critical infrastructure, and hybrid or armed attacks. (See blogs like UU20220327 and UU20170310)
- The European Convention (/Court) on Human Rights (ECHR) pursues the maintenance and realisation of European Human Rights and Fundamental Freedoms. The ECHR is basically as the UNHR, but do also include some restriction towards violation the rights of other humans and the nation itself for security, territorial integrity and public safety.

However, most important and most unfortunate, as mentioned in blog UU20170818, the Nordic Council and its Council of Ministers should have been the driving power for the Nordic nations, - but it is definitely not – quite the opposite. The Councils block vital Nordic obligated cooperation, hence the Nordic nations appear paralyzed for national, as well international, actions to develop proper resilience, sustainability, and prosperity. (See blogs like UU20151030 and UU20160701)

The grave conclusion is that the cold war towards the Nordic Councils is the main reason why the Nordic nations have suffered from organisational AIDS (acquired immunodeficiency syndrome) and CCD (colonial collapse disorder) during the Cold War. In fact, the hybrid war-Game of organized dysfunctionalities are well documented by all the absence of Nordic sustainability, resilience and defense during this last decade of crises, - like; immigration, inflation, energy, pandemic - and all the consequences. The reason is quite simple, - the Nordic Council of Ministers is a POA (parallel organisational apparatus) as described and ordered by the Comintern of 1920. Most fortunate, though, the healing process starts now, when the aggressive hybrid War-Game of Kremlin toward Norden can no longer be kept as 'secret services'. Consequently, the POA and its PROSA (Pro Russian Oligarchs, Separatists and Anarchists) has to be handled like the pandemic it is – be quarantined, disabled and replaced.

<https://youtu.be/2AlLxHnwpsM>

<https://genius.com/John-foxx-sitting-at-the-edge-of-the-world-lyrics>

Extra UU – Great Northern War (GNW)

The GNW has been indirectly issued in several UU blogs. The latest 5D scenario of the future is that the Russian (empire) might have to face their true enemy in the East, - now that Norden reunite within the EU/EFTA, ECHR, NATO and UN. (UU20220619) However, more curious was the attempt to form a 5D scenario of the past, when Russia declared itself an empire, withdraw their pirates of the Caribbean and triggered the GNW. The blog-theme 'Tordenskiolds pirates' can be found from blog UU20160108 to UU20160311, where a 5D scenario of the past concerns the GNW (UU20160108).

Documentary – The Great Northern War (How did Russia Become an Empire?)

<https://www.youtube.com/embed/rDCFxgHDncc>

SDG2030/P5GO-1d – Big Red vs NATO

Blog UU20220724

A Big Blue faction became Big Red in 2014 – exactly 100 years after the trigger of the world wars. That radicalization of western ICT (Information and Communication Technology) became a major threat to the

West – as to any civilized united nation. Such critical issues were thoroughly analyzed when the Kremlin invaded Georgia and threatened to invade Ukraine. Although highly relevant to Kremlin’s present invasion of Ukraine, - the main task in this blog is to re-focus on some present issues of that radicalized Big Blue faction and its hybrid cyber-war towards nations of UN, NATO and EU – from within.

The highly alarming issues of such proxy hybrid warfare within IBM and Microsoft was analyzed and published from the breakout of 2013. Most is summarized in the blog UU20170512 ‘Frexit and Big Red’, where a main source was the documentary ‘Putin, Russia and the West’ (UU20220327 + UU20141107, 14, 21 and 28). The following provide some elaborated adaptations of some of those points.

IBM was created to serve the elites and the working cast, - not the democratic citizens. Hence the IBM dogma, “the world needs just 5 computers”. Its name reveals its true organisational Ego. It is International Business Machines – no more and no less. At its infant state, the predecessor, CTR, had a close relation to Russia and Tsar Nicolas II until his sudden death at Crimea/Yalta. The unexperienced and last tsar, Nicholas II, was on a determined Game of CdE (Coup d’ Etat). A video in this week’s extra UU also reveals IBM’s cooperation with the Stazi genocides in the world wars. During the cold war, Watson jr. was allowed by Watson sr. to develop the IBM Personal Computer (PC) with Intel CPU and Microsoft OS, whilst IBM bought the most relevant patents worldwide. However, the IBM PC was indeed ‘built to fail’ due to IBM’s ulterior motives, generation rivalerier and Sr’s Belief over Jr’s Will and Drive. However, Intel and Microsoft had extreme success with the PC, - whilst IBM Games of ignorant arrogance paved the path to its self-inflicted - ruin.

The POA (Parallel Organisational Apparatus) ‘Big Red’ should have been the most alarming 5D scenario for all the NATO-nations in 2013. However, such ‘secret services’ are ulterior indeed, - just as in the definition of psychosocial Games. Yet - just like scheduled, the legalized take-over was formalized exactly 100 years after the WW1 triggers – the Balkan wars in 1913. Just like a Game of CAD (Cloak & Dagger), IBM sold their control over Intel technology and Microsoft platform to Beijing/Lenovo, - in addition to their software, personnel and customers. The NATO nations IT mainframes’ infrastructure and services was handed over to anti-NATO dominance. No wonder why the cyber-wars have escalated with such 5th columnist POA within the core of western public computers. The defense is simply completely out of control with poorly civil defense.

As an exiled professional, there are some experiences from that eve of that Dane psychosocial cyber-war Games, - which is summarized and published in blogs like UU20170512. Reflectively, there is in fact some major difference of IBM, IBM and IBM, - just like for Microsoft, Microsoft and Microsoft. However, Microsoft Dane is extraordinary, - just like IBM Dane. In brief, the cyber warfare is, as was, intense in this USUK twilight zone. There are massive cybercrimes in the public services that include customers like the police, the tax authorities and the public health sector, thus indirectly all the Dane citizens. Even the clear and repeatedly warning from the Swedish police was ignored and silenced for a year. Hence, the Pirate Bay could continue operating within the Dane public servers hosted by CSC. There were massive transactions to Asia of data related to NATO and EU. Later, prior to the pandemic, all Dane’s personal data was sent from the Dane SSI (the State’s Serum Institute) in an unencrypted disk to a Chinese agency related to the MSS (Ministry of State Security). (UU20160902)

How-to heal western Cyber Defense towards Big Red Games of war, though? In brief, the keywords are UN Sustainability and NATO Resilience (article 3). Knowing all too well that the ongoing global cyber-wars between NATO, Russia and China have gone much too far, - the security needs immediate massive upgrade – and the ban any anti-NATO suppliers, workers, products and services. Such security projects need holistic security models, implementations and protection. Related warnings are talked through in blogs like UU20131206-1220, UU20140307-0404 and initially in UU20130719.

However, most important to the healing processes of the nations' cyber technology is the same as repeated for most Sustainable Goals – heal the dysfunctionalized Institutions and Courts (SDG16). Officials in the public sector in NATO nations are highly obliged by laws for securing services, maintenance, purchasing etc. In fact, they are strictly regulated by penalty law against exposing public affairs, society and citizens for security risks. Therefore, the officials of NATO nations have to re-evaluate professionally this new 'Big Red' era. (See blogs like UU20201002).

Extra UU – Big Red vs Humanity

The Cyber ICT has become the most powerful resource for our Humanity. IT can be used to promote the SDG - and abused for anti-SDG as well. The IBM Big Blue pact with Stazi certainly made the Gulag genocides happen. Similar abuses of Beijing Big Red are certainly the largest threat to all the united nations' sustainable development goals for the year 2030. However, psychosocial Game analyses seem to indicate that the gravest dysfunctionalities of 'ai' (artificial idiocy) are rather related to the ego-states of Drive than Belief – as in 'Mongol see – Mongol do'. Still, the maturing UN is probably the most capable to heal such issues.

SDG2030/P5GO-1c- USUK 2 Game

Blog UU20220717

USUK is a Game defined in the PPT blog-series. It is based on the iconic Yalta photograph of 1945. Now with this PPP series, there is a second version called USUK 2. The USUK (US-SU-UK) concerns Games of 4th degree, which means War. The thesis became rather fundamental and complex, though. The Game CoC (Cults of Comintern) was also defined to fill in some gaps. Actually, the Game USUK 2 was mentioned as a hypothetical outcome in the intro-blog UU20220320. Now, that the foundation to the East vs West rivalries seems revealed (UU20220515), the USUK 2 is extended with the Game TOO (Tengri Orthodoxy Occultism). This blog will uncover and investigate issues and hypothesis of such a combined trilogy of War-Games called USUK, CoC & TOO.

The USUK CoC Games, related to the PPT (puppet president trump), were defined in the blog UU20200201 and the 3 subsequent ones. Generally, Games consist of ulterior Motives to Gain undeserved advantages, by playing with Gimmicks and Moves (see blogs like uu20140912). The Game USUK was based on the US-SU-UK pact from Yalta/Crimea in 1945. That iconized picture of Roosevelt, Stalin and Churchill revealed their ulterior conspiracy - and Stalin's Game of CaD (Cloak&Dagger) towards his Stazi pact of '39 with Hitler. That historical USUK Game thesis was renewed to suite the PPT Games as described in blogs UU20170106-UU20170310. The relation between the PPT and the PROSA (Pro-Russian Oligarchs, Separatists and Anarchists) (UU20150612) was further extended to the Games of CoC (Cults of Comintern) (UU20210501) and that heritage of Cominterns war-declaration towards the West in 1920. That 100 years War-Game is now climaxing in the centennial collapse of Roma3. This century's concept is denoted 'Red Mafia'.

This new version the USUK CoC Games is based on the photoshop version of the picture from Yalta/Crimea, where the faces of Roosevelt, Stalin and Churchill are replaced with Trump, Putin and Johnson. Even if such an ulterior pact of that fatale trio is true or not - yet- it is doomed since the PPT and PPJ are no longer in power - just like the PPP soon will be. However, most certain is that the 99 Pact between the PPP and PPX was sealed during the Olympics in Beijing in 2022. Hence, just like the '39 Stazi pact between Stalin and Hitler was broken with the Stazi CaD Game - in order to initiate the USUC Game - that 99 pact will be broken too in order to initiate the USUC, CoC & TOO Games.

The new Game TOO (Tengri Orthodoxy Occultism) relates to GoT (Games of Temples). Such issues are introduced in blogs like UU20220529 on Tengrism in the Kremlin and the cause to the 'East vs West' schism of 1054. A new thesis is that the 300 years GNW (Great Nordic War) Game will end in its 3rd centennial cycle since the Nordic nations have become re-united in the UN, NATO and EU. Consequently, the Kremlin, have to look east for expansion, just like Beijing needs to expand north. Their plutocratic kleptocracies cannot resolved peacefully as obligated to the UN SDG (Sustainable Development Goals) - and will most probably trigger a GSW (Great Siberian War) Game, - hence the USUK, CoC & TOO Games

Psychosocially, the 5D timeline indicates a centennial repetition that will involves the 99 Pact of 2022. However, the cycles are not the same even though similar elements are involved. The ulterior script should rather be considered as 2D zodiac calendars than a 1D timeline. The pacts are not superior the script. Anyways, It is hard to predict who will stab first and last, though. Still, a likely outcome, after the GSW, will be that the schized Kremlin needs to accept that it cannot be both east and west – for the sake of its own sanity. If so, in time, Kremlin will figure out that it is - and always have been - in the West – not the East. Ultimately, the Kremlin might end its millennium War-Game towards itself and find a way back to the Trinity.

SDG2030/P5GO-2c – Megacities

Blog UU20220710

Megacities are more populated than most nations – and more people are urban than rural. Therefore traditional thinking about urban LifeQuality is not that relevant anymore. Not all megacities are the capital of the nations, though, but rather become competitors, - nationally as well as internationally. Historically, some capitals have moved from one city to another, - like Ankara in Turkey. Intriguingly, its predecessor, Constantinople, was called the second Rome (Roma2), since it was the successor of the Roman empire's capital in Italy. Still more curious, Moscow/Kremlin claimed to be the successor of that Christian Rome (Roma2), legitimized by a declaration of a domestic monk. Hence, in this blog, the focus is set on some megacities to talk through such issues related to this UU blog-series.

Generally said, a megacity, metropolis or metroplex, is a very large city, - typically with a population of more than 10 Mp (million people) and density of 2 Kp/km². A conurbation, or megapolis, is rather a region comprising a number of metropolises, cities, large towns and other urban areas. They have merged to form a continuous polycentric, urbanely and/or industrial area. Therefore, some megacity mayors could be considered more powerful than most national heads of states.

According to the UN there are 33 megacities, where half are in China and India. Other countries with several megacities are Brazil, Japan, Pakistan, and USA. African megacities are in Nigeria, Egypt, South Africa, and the DRC; European megacities are in Russia, France, the UK, and Turkey; Latin American megacities are in Brazil, Mexico, Colombia, Peru, and Argentina. Some sources identify Tokyo (37 Mp) as the world's largest conurbation, whilst NYC has 20 Mp due to hosting the UN-HQ and the UN global parliament.

Megacities have several serious challenges related to the UN SDGs for 2030. Most crucial are the SDG-09 (industry, innovation and infrastructure) SDG-11 (cities and communities), SDG-12 (production and consumption). However, as mentioned in the previous blog UU20220703 – all the SDGs are highly relevant for cities. In particular, some major challenges for Megacities are related to; slums, crime, homelessness, traffic crowding, urban sprawl, redevelopment, distribution, pollution, energy and material resources, - in addition to issues of the HR related SDGs. However, this decade of industrial and social reforms (IR4/SR4) do certainly provide innovating solutions for most of the challenges. Still, the main barriers are dysfunctional institution (SDG-16) and barriers to the public/private partnerships (SDG-17).

However, more serious are the megacities' rivalry and hybrid warfare. This is not anything new, though, since the ancient Persian/Egyptian warfare included drugs and hypnosis. Anyways, this millennium shows extended forms of hybrid warfare that involves means like; money, information, isms, riots, assassins, food, water, drugs, health, epidemic and energy. Such altering hybrid warfare has been going on towards the west in 100 years, since the Kremlin's Comintern declaration in 1920. However, - like the starting shot of WW1 in Sarajevo in 1914, - this modern megacity warfare might be the 911 event in the global megacity NYC.

The capital megacity Beijing have been very direct in the take-over of domestic megacities. Although 'merely' 7,6 Mp, most obvious is the annexation of Hong Kong. Recently, the PPX infiltrated it with illegal legislation and anti-HR mass-violations towards the still independent citizens. Beijing also seems to use disinformation of epidemics as hybrid warfare towards its rival megacities Shanghai and Wuhan. The justifications of no-tolerance of SARS-COVIS seems rather to cover up the non-tolerance towards the obligated HR treaties and the democratic humans. The most alarming case though, follows the Olympics meetings between the PPP and PPX. Beijing knew very well about the PPP plans of invasion of the peaceful Ukraine. In fact, the PPP Ego state altered fundamentally in that dedicated warfare towards its own origin –

in the 'Rus vs Rus vs Rus' War-Game in the West. Even more, the theocratic Kirill of the megacity Moscow/Kremlin could be as influential as the PPP in certain issues. Anyways, a main motive for this 'un-development' goal is most certainly to weaken the Western alliance for the planned invasion of Taiwan, Seoul and Tokyo.

Conclusively, there are some common and fundamental qualities of cities, capitals, megacities. As mentioned in the previous blog, some are related to the human psychosocial states of Drive, Will and Belief. Hence, the theories of such 3D analysis are relevant to cities as well as other organisations and humanity as a whole. Such issues are of main concern of this decade of blogging. Blogs like UU20220612 and UU20220101 provides some pinpoints to struggles, diagnostics and healing. Still, megacity or not, hybrid warfare is as ancient as cities and involves rivalries of Superior-Belief, S-Will and S-Drive. These issues are the main theme for this blog-series called Sustainable Development Goals for 2030 / The 5th Pyramid Game Over (SDG2030/P5GO).

SDG2030/QoH – Citizens of Cities

Blog UU20220703

The SDGs are made by humans for humans - primarily. Yet, now there is an urgent need to prioritize the urban sustainability (SDG 11) since the humanity's urban populations have exceeded the rural. That shift in environmental conditions do indeed alter the SDGs targets fundamentally. For instance, the urban citizens cannot hunt or harvest their primary necessities anymore. A citizen's LQ (LifeQuality) do require sufficient food, housing, health, information, - as obligated by all the United Nations through their Institutions (SDG16). Hence, cities do need to adapt, both materially and socially, for the sake of Humanity and the cities themselves. So far, - the SDG11 has become the ultimate SDG for the majority of Humanity. Thus, this blog will focus on such challenges concerning the SDG 11.

Generally said, after humans innovated from huts and caves, - the cities provide extensive systems for housing, transport, sanitation, properties, productions, communication and numerous kinds of collective utilization. The density in cities do simplify interactions for the citizens, institutions, and companies, which might innovate products and services – for better or worse. For example, there is still too much physical transportation to the city center, considering the present alternatives of ICT innovations (Info & Comm. Tech). Anyways the globalization and ICT, have made some cities to become global influencers as well as rural, which the UN SDG11 proves. Hence the focus also addresses urban negative consequences, like areas of heat, pollution and crime, - along with the extorted supplies of water, food, energy etc. Still, most urban SDG11 challenges can be solved. and even improved. with the means of IR/SR4 (industrial and social reforms) (See blogs like UU20200802 and UU20201203.)

Moreover, the average population of the states in USA is less than its 3 megacities, - where N.Y. is a global one due to the UN Head Quatre. Maybe terns like cities, nations and unions should be redefined when; a

'nations' has more than 100 Mp (million people); some 'nations' federates 10s of states; megacities are more populated than most nations; some 'nation' exceeds 1000 Mp, and; when the smallest state, the Vatican of > 1000p, has more than 1000Mp related humans worldwide. Thus, the definitions of cities, nations and unions should rather be distinctive in several key factors, like; 1Mp, 10Mp, 100Mp and 1000Mp. Such theses of LQ and nations are talked through in blog-series like UU20150828, - which led to the models of definitions of the superior psychosocial states of Drive, Will and Belief. (See blogs like UU20220101 and UU20160916)

Moreover, cities can be as diverted, unique and as powerful as nations. Some city-states dominate their 'nation'; like Beijing, Mexico, Moscow, Nairobi, New Delhi, Seoul, Singapore, Tokyo, Manila, and Washington. Some historical capitals reflect the cultures of Thornes, like Petersburg, Vienna, Paris and London. Some cities are rather like religious Temples, like, Jerusalem, Rome, Athens, Mecca, Varanasi, Ayodhya, Haridwar and Prayagraj. Moreover, some capital cities have been coupé (CdE Games) and moved like Kremlin, Ankara and Cairo. Intriguingly, some city's mayor might be more powerful than its nation's president, - which certainly alters future global rivalries and world wars.

Anyways, - previous blogs includes several suggestions on howto innovate cities as needed. Some issues from blogs are; basic income to relieve the citizens from red mafia bondage (UU20210206), creating virtualized public services & market places (UU20210605), enable products transportation on the existing electric subways, urban vertical urban farming, water recycling by centrifuging, recycling most resources, heat redistribution, altered electric generators, and, most controversial, - reconsider energy sources like atomic generators and batteries.

Conclusively, mayors of cities should really pay attentions to all the innovations presented by this 4th industrial and social reforms. there are far more potentials for cities to utilize - even though the SDGs do generally obligate and target. Some of these are talked through in blogs like UU20200802 and UU20210303. Still, the most urban barriers and dysfunctionalities are due to oligarchic corruption - labeled as politics.

Extra UU – Cities

Cities are a major concern that should be prioritized in the UN SDGs. In fact, they are as important for the so-called I-lands as the U-lands (industrial and underdeveloped), as the so-called 1st, 2nd and 3rd worlds. There is just one world to the Humanity, where cities has become our primal cave systems. Here are some videos for inspiration.

SDG2030/P5GO-3c- The Great Siberian War (GSW)

Blog UU20220626

Russia's Great Nordic War Game (GNW) is about to shift considerably while the whole Norden region unites within the EU, NATO and UN. In fact, the united Norden has greater economic and military powers than Russia. Surely Kremlin cannot ignore this major powershift and will adapt – more or less wisely. Besides, Kremlin has weakened itself critically in its 'Rus vs Rus vs Rus' War Game towards its own foundation. That Game of Russian self-destruction is simply too tempting for the Asians rivals to ignore. Hence, this 5D scenario hypothesize that Beijing rather Move north than south to regain land, resources and honor. Then, in some self-righteous dispute, the claim for Siberia will probably cause the great Russia-China war for Siberia. Thus, this blog explores for the likelihood of such a 5D scenario in this century.

This hypothetic synthesis of such a GSW (Great Siberian War) is based on the historical theses; 'the Great Schism' of East vs West of Ural (UU20220515); the constitution of the 3rd Rome (a tsar/khan pact), the World Wars towards the West; and the recent BRICS War Game towards the UN constitution (UU20220410). This 5D scenario is that the millennium schism will settle in this centennial purge toward the West by the red-golden horde. The geopolitical stalemate might settle that the East is East and the West is West. However, most alarming is the traumatizing scripts of long-lost retributions that promote various pseudo prophesies (UU20190628). Such ultimate Games of 5th degree are most certainly at Play and the psychosocial anti-theses should be of highest priorities in the UN – both the parliamentary UNSC and UNGA.

Some events indicates that the Red-Golden Horde rather will expand in Siberian land than the Pacific Sea: The red-golden horde was never naval, which its fatal attempts document, like the attacks on Japan. The Asian empires focus on the East of the Eurasian continent, despite some calendarized HAR Games (Hit&Run) towards the West seem. Such 4th deg HAR Games are fundamentally GoT in the sense that the ancient Hun archetype appeared as reincarnated in the Hungarian PPH in 1939. Anyways, although Japan was lured to attack Pearl Harbor in China-Russian favor in 1941, - the historical documents show that the red-golden hordes of China will rather choose domestic higher grounds than some centennial waves of the Pacific Sea. Also, taking into account the US retribution on Japan, - the values of then continental riches contra naval riches, - makes such risk-, Cost-Benefit- and 'Return of Investment' -analyses most obvious.

BRICS has already altered the Gimmicks (ethics) of its war-Games towards the UN constitution. The plutocratic Gimmicks of BRICS cannot be stopped before traumatizing the World, - merely be judged by global civil courts much too late. Anyways, the altered Ego of PPP did trigger a futile war-Game of Rus vs Rus vs Rus. The outcome has critically weakened Russia by military, economy, geography, moral, ethics and ultimately - stability. Kremlin has disabled Russia in order to prepare for the upcoming invasion of Beijing in Siberia. The riches in Siberia are many, yet the gas resources in north-east of Ural are crucial. Kremlin has not even realized that it is Move-by-Move handing over the gas-resources to the East – and losing the enormous incomes from the West.

The 99 Pact of Kremlin/Beijing will be broken like the '39 Stazi Pact of Kremlin/Berlin. The '39 Pact was made to legitimize the Gimmicks of the WW2 war-Game towards the West. The Stazi pack was broken by Stalin when the Nazi had been engaged in warfare with most European nations – just like some nova Napoleon – a Hister wannabe. Another Pact was made in Crimea, the Yalta Pack of the US, SU, UK, - hence the Game called USUK. Cults of Comintern were engaged in CoC Games of PROSA (UU20200402). Anyways, Kremlin should realize that Russia is becoming the Sucker in this centennial Eurasian war. Either way, the Kremlin needs to realize that it has become to weak to manage both East and West of the Arctics. Consequently, - after 1000 years of anti-trinity War-Games, - the final outcome could be to reunite the West of Ural.

Howto minimize the traumas of this psychosocial War-game of Siberia, then? First of all, do not let this Games of 4th degree escalate to the 5th, by letting GoT Game-players overrule. Second, the UNGA must be enabled to overrule egocentric abuses of veto-power in the UNSC. Third, Kremlin needs to start healing from its Denials to its internal crises-handling, - since the GoT script it is following will most certainly end in a 5th degree fall of 'the 3rd Rome'. Anyways, such a self-inflicted Game self-destruction of 'the 3rd Reich' do not have to be of 5th degree, even though some quasi-prophetic scripts say so. The Dagmar syndrome in Kremlin should be degraded to the 3rd degree for a constitutional reform - and further degrade then back to its original 1st degree of TLM Game in the proxy-Kremlin in Petersburg.

SDG2030/P5GO-1b- The Great Nordic War (GNW)

Blog UU20220619

‘The Great Nordic War’ was triggered by Russia in 1700. It is not yet ended, but merely become a hybrid war. However, the unification of the Nordic nations in the UN, EU and NATO will probably end that Russian empire’s war-Game towards Norden. There is a consensus on the mutual Nordic goals, as in the Sustainable Development Goals to the civil United Nations for the year 2030. Still, such an obviously obligation is complex. The Kremlin GNW Game is merely a regional part of the war Games towards the West, - the Great Schism of the East vs West, the Napoleon Wars and the 20th century World Wars. Hence, this blog sets focus on some issues that might be keys to end that GNW, - triggered by Peter the Great of Petersburg.

Norden (the Nordic countries) is described more detailed in the links hereunder. In brief, Norden consists basically of regions of the northwest Atlantic, hence NATO and EU relations. The fundamental nations are Denmark, Norway, Sweden, Finland and Iceland, including the regions Greenland, Faroes islands, Aaland, Jan Mayen, and the related sea area. Norway serves as protectorates of Svalbard (Arctic), Peter I island and Queen Maud’s land (Antarctic), whilst some regions of Asia, Africa and America are now history. Still, the united Norden beats Russia economic as well as military. Although, there should be kept in mind that the Rurikid dynasty stems from Norden and founded Kiev, Minks, Novgorod and the Kremlin in Moscow – and ultimately, the present Russia.

Norden is a confederal union founded 500 years ago as a defensive strategy to Roma3. This is a main issue talked through in blogs like UU20160311 and UU20140530. Anyways, related to the centennial Russian collapses (UU20220417), the century milestones are roughly: 16th, the Nordic Kalmar union is formed as defense towards the self-proclaimed 3rd Roma (Moscow/Kremlin). 17th, the union is split because of Sweden’s obligations to defend its Baltic allied towards Ivan the terrible. 18th, the emperor Pjotr (alias Peter) names Petersburg as the Russian capital, trigger ‘the Great Nordic War’ and claims Russia has become an empire. 19th, Russia allies with Napoleon that triggers war on Europe and later redirected to burn down Moscow/Kremlin. 20th, the ‘European’ World Wars are triggered and executed by Stalin/Hitler due to the 3rd Reich Pact of ’39. 21th, the Nordic council reorganizes and dismisses all the Russian POA (parallel organisations apparatuses). Now, due to the PPP threats from nova Russia, - Norden strengthen its inner alliances via the treaties with the UN, EU and NATO.

The Dagmar syndrome of 1913 is still the most dysfunctional heritage towards Norden’s Sustainable Development Goals. That ‘butterfly effect’ of CCD (colonial collapse disorder) is talked through in blogs like UU20141219 and UU20180323. In brief, the Superior-Ego/-ID theories of organizations can even be lifted to Global levels during centuries. The most outstanding example is the CdE Game in the Winter Palace, - the Dagmar Syndrome. It started as a simple TLM/TOL Game (Two Little Maidens) between the rivalling tsarinas from Germany and Denmark that worsened like a snowball can cause an avalanche, - like a match can cause a forest fire and like the shot in Sarajevo. Anyways, such hybrid War-Games are still haunting Norden like some proxy-Kremlin Hamlet ghost. Still, the fact is that the Nordic Council of Ministers are so

dysfunctionalized that it cannot even advice on the current massive inter-Nordic crises of migration, pandemic, energy, inflation, etc. These Nordic CCDs can probably be healed, though, by basic psychosocial 3D analysis and 5D psychohistory as explained in these P5GO blog-series.

Still, the present threat towards Norden and the rest of the West, is the ulteriority of Kremlin's War-Games. Just like Kremlin made the Hitler/Stalin Pact of 39, the new PPP/PPX pact of 99 paragraphs includes ulterior War-Declarations. The next ulterior Moves is rather predictable, though, when knowing that the Kremlin did a 'Cloak & Dagger' Move against the '39 Pact with its new conspirators of the Yalta Pact. Assumingly, the loosely BRICS conspiracy will be broken and trigger plutocratic war-Games between the conspirators. Furthermore, at a critical point of time, the 99 Pack will be broken like the 39 Pact did, which will cause the China/Russia War-Games in Siberia. Eventually, the beaten Russia might let Siberia go and find back to its place in the West of Ural. Hopefully, a final realisation is that the War-Game BOOFY hits back in the centennial cycle of CCD. This issue will be followed up in the next UU blogs.

Extra UU – Norden and Russian foundation

The Rurikid dynasty was founded in 862 by Rurik, a viking prince. The Rus' people originated in what is currently coastal eastern Sweden. Their name has the same origin as Roslagen in Sweden. The name Rus' is derived from an Old Norse term for "the men who row" (rods-) as the rivers of Eastern Europe. The name Rus' would then have the same origin as the Finnish and Estonian names for Sweden: Ruotsi and Rootsi.

SDG2030/P5GO-2b – BRICS Psychoses

Blog UU20220612

Delusions are fundamental to any dysfunctional dictatorship. Any Human know that well, as being victims of propaganda, fake news, doubletalk, half-truths, and countless kinds of lies. Any such Superiority needs their means of masspsychoses to alter the truth to 'pravda' – and some cold-war radio transmitter of noise (Duga of Kyiv). As shown in the previous blog, - the Human Rights Watch states clearly that China is the main executer of mass-psychotic warfare towards humans and the Humanity. The PPX (Xi) empire abuses mass-psychotic dilutions to clone the dilution to its worker cast, conspirators, rivals - and ultimately the

United Nations. Masspsychoses are like biological virus, - hence mental viruses. This blog continues UU20220410 'BRICS vs UN', thus focused on mass-psychotic healing.

Clinically, such mass-psychotic autocracies are dictated by dysfunctional scripts provided by their rivals for self-harming war-Games. The main Move is to make the rival despotic and then alter the Puppet President (PP_) from 'pro us' to 'anti us'. The related psychosocial models were talked through in blogs like UU20160513 - and issues of such mass-psychotic denials in blog UU20190628:

- Clinically, it is 'self-harming' due to a collective Minor Complex syndrome that degrades the counterpart into not-OK (KO), hence causing mutual downwards spiral of negative attitudes and actions towards each other leads to the KO-KO mentality. That negative mental state produces Supremacy psychosocial traumas like mass-psychoses, -neuroses and -schizophrenia. Such never-ending Games escalates like a 'built to fail' Pyramid Game. Such autocracies could resolve its dysfunctionality, though - if only willing and able. Still, that requires a mental shift from Denials to Realizations – which requires confessing that its own Believe comprises some untruths too.
- Denials are described in blogs like UU20151023: Based on theories found in Wikipedia, the merged stages of crisis handling are defined as; Denial; Acceptance and Hope; - thus; grief and anger; diagnosis and conclusion; bargaining and settlements; treatment, healing and post-traumatic care. There are several kinds, like; denials of; responsibility; impact; cycle; awareness; and denials of denial. Moreover, there are innumerable kinds of 'black & white' lies and half-truth, like; bluff, cover-up, deflection, delusion, dismissal, exaggerations, fabrications, frauds, tales, blunders, minimization, misleading, pretending, unreasoning, perjury, doubletalk - and more.

The PPP got an alter Ego during the Olympics in Beijing 2022 - and signed the illegit '99 Pact'. Historically, such total mass-psychosis of insane propaganda were channeled through the PPH, PPS & PPM, - mass-produced psychoses like; 'facts are lies', 'war is (merely) operations', 'war makes peace - eventually' and 'massacre is liberation – of us'. In such, the ulterior war-declaration towards Ukraine provides Beijing with decisive information on how the West and the UN react to the innumerable hybrid war-crimes on the Western nations. Such intel is decisive for Beijing for its future war-crimes towards Taiwan, Tibet and Korea - as well as several BRICS related associations.

However, the Beijing Pyramid scheme is Built to Fail due to its inherited anti-SDG schemes. One symptom is Beijing's lockdown of Shanghai. There was no epidemic reason for total lockdown of its rivaling mega-city for so long. The argument of zero-tolerance towards viruses was simply a propagated mass-psychosis to cover up its anti-HR operations, - just like the previously siege of Hong Kong. Yet, the symptoms of Kremlin masspsychoses are more transparent though, due to the closer UN and Western relations. The badly played Games of masspsychosis in the UNSC is perceived as gravely alarming to the Global civil order. Russia loses every ethical battle in the UNSC, due to its altered self-perception. Beijing, the 3rd party in this LYAHF Game, fails both the 99 Pact and the UNSC obligations. The Kremlin sees too clear that their PPP is altered and deceived by the PPX. Beijing do not back up on the tremendous losses Kremlin have suffered.

How to break the PPP/PPX deadlock of the 99 Pack, then? The solution is as previously mentioned. The UNGA needs formal acceptance that their qualified decisions (2/3) shall overrule any ego-centric abuse of Veto in the UNSC. However, such a P5GO (5th Pyramid Game Over) will be a critical Game-changer.

Consequently, the 99 Pact of PPP/PPX might revoke the 1000 years old differences and disagreement of the Trinity vs Tengri Games. That 99 Pact is Built to Fail and will be broken – just like the PPH/PPS Pact of 1939. The PPX will take the role of the PPS and initiate a Cloak & Dagger Game (C&D) towards the former allied PPP, - like Stalin vs Hitler in the Yalta Pact and the Game USUK (UU20200201). Their battlefield might preferable be in Siberia.

SDG2030/QoH – GSDL (Global Sustainable Development Law)

Blog UU20220605

Any GHRL (Global Human Rights Law) should be extended to GSDL (Global Sustainable Development Law). The GHRL is still the suggested program for all the United Nations to ratify their legislative obligations. Still, its hindered by constitutional dysfunctionalities. The SDG 2030 states clearly the 17 goals, 169 targets and innumerous programs. The fundamental Human Rights are transferred to the fundamental SDGs, while the other SDGs obligates development of the nature and the civilizations. Thus, the SDG16 (strong and just institutions) obligates the essential constitutional sustainable development. Hence, this blog focus on the constitutional responsibility for proper LQ (LifeQuality) by global SDG obligations, - called the GSDL. This blog is also a follow-up on previous QoH (Quality of Humanity) blog, concerning the international workers day. (UU20220501)

The ‘Global Human Rights Law’ (GHRL) is an attempt to conceptualize the institutional legal obligation to any human, as talked through in blogs like UU20200103. “Despite knowing that the UN has not eliminated warfare of all kinds, there is a valid Belief that the UN’s collective Conscience has prevented a nuclear WW3. This led to the conclusion that any human deserves a Global Human Right Law (GHRL). Also, knowing that the UN do not have the legal powers to make the nations live up to their obligations, the path is to make multi-lateral NHRL.” “All NHRL (National Human Right Laws) should at least include the UNC (United Nations Charter) that provides the UN powers to investigate and mediate in international disputes, - and

authorizes international economic, diplomatic, and military sanctions and force to resolve the disputes, - as well as the ICCPR (International Covenant on Civil and Political Rights) and ICESCR (International Covenant on Economic, Social and Cultural Rights). (See blogs like UU20170521 and UU20141017.)” Such a NHRL ‘Menneskerettsloven’ was ratified in full in Norway in 1999 - before the exile.

The urgency for GHRL and GSDL has now become obvious due to Russia’s WW3 declaration towards Ukraine. However, fundamentally, the plutocratic conspiracy was revealed when the PPP and PPX signed a 99-paragraph joint statement that mutually support each other’s Trade and War-Games, - just like the Molotov-Ribbentrop Pact of 1939 that founded the Stalin/Hitler-conspiracy (Stazi) and their joint attack on Poland. Beyond the Ukrainian War-Game, the PPP/PPX conspiracy Will is about to be deployed to all the BRICS relations, - which basically means the whole world and all the United Nations.

The Belief in occult black Tengrism is one foundation to the PPP/PPX conspiracy. This is rather similar to the black/red anti-humanists like Stalin, Hitler and Mao. Alarmingly, the anti-human Underworld Games are revealed by the black Beijing vs the yellow Tibet - as well as in Hong Kong, Shanghai and Uyghur, - which is now added with the nova-Gulag camps towards the Ukrainians. These nova-Stazi War-Games should be of the highest priority for all the civilized nations of the UN, - simply because the UN itself is the final target for the nova-Stazi conspiracy. The worlds legal institutions have already responded to the black Tengri Moves from the Kremlin, by throwing Russia out of the EUHR, the UNHR and being rebuked in UNSC – in addition to being charged by the UN High Court for massive war crimes.

Conclusively, the suggestion stands - that all the nations should ratify the HR like the concept of GHRL. Moreover, the parliament and their governments need to quality-ensure the pre-justice procedures of their Executive power. Their prosecution authorities have to be disabled form corrupting criminal charges from the Penalty court to parallel courts – like the Comintern’s Labor courts. Finally, and most important, the UNGA should be enabled to overrule the abuses of veto power for anti-UN means in the UNSC.

SDG2030/P5GO-5c –Tengri Kremlin

Blog UU20220529

The millennium-war between 'East vs West' is theocratic, - Eurasian Tengri vs Trinity. The ROC's method to un-paganize 'the East' was to redefine Tengri theology as atheistic - thus diluting itself that the religious reality does not exist. That excommunication enabled the Tengri theocracy to secretly execute GoT (Games of Temples). Consequently, the history shows extreme purging by red-golden hordes of Mongolian/Tatarian patriarchs like Genghis, Stalin, Hitler, Mao, Pol Pot, Kim, - like their archetype Attila the Hun. Now, the Eastern Tengri theocracy is once again prepared for a centennial GoT towards 'the West'. Alarmingly, the PPP seems having altered Ego into yet another Hister wannabe – that might again exploit some prophecies as apocalyptic scripts for Games of self-purging. This blog is meant to uncover such Game of Temples' Motives, Moves and Manipulations.

This synthesis of Tengri P5GO (5th Pyramid Game Over) is based on previous blogged Historical 5D events, like: The all-Russian Kremlin stems from Belarus/Ukraine/Novgorod of the 9th century, even though Moscow claimed to be the 3rd Rome in the 16th century. The tsardom's legitimation is based on the claimed victory of the three Mongol/Tatar Khanate of Kazan, Astrakhan, Siberia – and the claim that they stopped the Eastern terror on the West. Still history indicates that the golden-red hordes simply passed through Moscow for their centennial purge of Western Christians. Fundamentally, the Trinity church was split due to an unexplainable new 'leading' star (supernova) in 1054, which left the Trinity in dysfunctional confusion. Tengri theocrats used that confusion to infiltrate with Mongolian/Tatarian shamanism of its 99 deities. Last century, the Siberian black shaman, Rasputin sr. was played in GoT in Kremlin to terminate the Romanov 'Westernized tsardom', as well as the German, Austrian/Hungarian and Vatican empires.

Anyhow the historical 'pravda', - some fundamental historical events need re-evaluations for quality-ensurance. That is simply a necessity to heal the Kremlin psychosocial crises of dysfunctionality. This thesis suggests testing out the psychosocial models for organisational 3x3D analysis, the GUR ethics, the 5D event evaluations and Games analysis. (See blogs like UU20180302)

Some relevant hypothesis is that there is some Tengri dominance in the Kremlin psychosocial state. Kremlin has become 'built to fail' in order to execute 'western' genocidal self-purging. Its manic-depressive, bipolarity oscillates gradually and climaxes as planned. The centennial timeline seems to be reset in the year 99, followed by some ulterior milestones, like in 9, 13, 18, 27, 39, 44, 55, 63 and 81. The CCD (colonial collapse disorder) is due to some organisational AIDS (acquired immunodeficiency syndrome) that weakens the Kremlin host to be overrun by golden-red purging hordes of Tengri mass-psychosis. The cornered mass-neurotic defenses project its dilutions of doom by its own Trinity apocalyptic scrips, - like some occult retaliation versions of John's Revelation, thus; a demonized second coming; the 4 horsemen of doom (disease, division, famine and slaughter); a genocide of all the living Humans. Such diluted theocratic psychosis suggests that the Tengri spirits are finally freed from their human body by death. It is like some GoT version of the genocidal war-Game; 'It all Started with the Retaliation' (ISR), 'Breed Them Out' (BTO) and 'One's Death Another's Bread' (ODAB). The mass-blessing of warriors in the PPP's Black Cathedral, made of Nazi Steel, is merely one symptom to that insanity. It might end in a self-righteous abuse of some 'Tsar Bomba'. (See blog like UU20200402.)

The PPP had its Ego-state altered gravely during the Olympics in Beijing 2022. The indisputable evidence is the ulterior motivated war-declaration of 'Rus vs Rus vs Rus'. The PPP and PPX (Xi) signed a 99-paragraph

joint statement that mutually support each other's plutocratic Games towards civilizations, - just like the Molotov-Ribbentrop Pact of 1939 that founded the Stalin/Hitler-alliance and the joint attack on Poland.

How can Kremlin be healed? That might be the question of this century. Nonetheless, the dysfunctionality is inherited in its 9 institutions of 4 Churches (Temples) and 5 Palaces (Thrones). Those are like organisational Superior ego-state, the S-Ego and the S-Id. The 3x3D theory claims that such institutions could be balanced into ego-states like Drive (RF, AF, WL), Will (KoC, GdE, GoT) and Belief (UNO, WoW, SET). (See blogs like UU20150227, UU20150306 and UU20150313) This issue will be followed up in later blogs.

Extra UU – Future Tengrism

There are very different versions of Tengrism, like the fundamental rivalry of the 55 White deities against the 44 Black of terror. Also, there is the rivaleri of the Red vs the Yellow. The yellow Tengrism is more known as Buddhism and the Dalai Lama. The Black of the Beijing State have been purging the Yellow in Tibet for decades.

Anyways, Dr. Michio Kaku seems to be mostly related to the Yellow Tengrism – and thereby able to evolved positive philosophies for our future.

SDG2030/P5GO-5b – Kremlinology

Blog UU20220522

The millennium-war between 'East vs West' is Eurasian, - not merely European. The war is not even geographical, but rather mental. It is fought as a theocratic war-Game for supremacy due to the unforeseen 'miracle' in 1054. Still, this seemingly never-ending rivaleri is determined and is about to terminate by astronomical calendars. The end of this Phishes Age/Era about now, - not like some apocalypse, but like some calendar new-year's eve. The challenge for our Humanity, though, is to arbitrate and moderate any kind of such psychosocial Games. This blog is therefore dedicated the uncovering of some ulterior causes and motives to the insane Eurasian War-Game of Divide And Conquer (DAC).

The hypothesis so far is that the Kremlin, 'the fortress inside a city' (Moscow) is heavily influenced by Tengri theocracy. The Tengri theology is considered atheistic and therefor ulterior to ROC. Hence, there is some historical background that have to be addressed. Yet, official history-telling is the sole privilege for the victorious, - even if false, half-true or denied. Such masspsychosis are the fundamental cause to dysfunctional conditions. Hence it is necessary to re-evaluate historical 5D events of the past - regardless of any guardians of masspsychosis. The following is therefore points that might be true and might change perception of the ongoing 'Rus vs Rus vs Rus' suicidal Game.

The Kremlin complex is as mysterious as the Vatican, hence the related psychosocial terms Vaticanology and Kremlinology. Still, these organisations are made by humans in image of our Humanity's properties. Therefore, Kremlinology is like organisational psycho-analysis, that can include the models for psychosocial Game theories, organisational dysfunctionality analysis, 3D ethics etc. Still, the very basic requirements for proper diagnosis treatment are; honesty; sanity; and the whole truth. Unfortunately, ulterior Gamers are based on the very opposite. Hence, it is necessary to question some dogmas, taboos and myths. Here are some 5D historical considerations.

- The Kremlin Tsardom might have conquered the Mongol/Tatar Khanates of Kazan, Astrakhan and Siberia just after Moscow declaring itself as the 3rd Rome. However, a few battles are not the same as a millennium war-Game. During the 5 hundred years, it seems that the Russians were assimilated as well as the Mongols. The cultural legacy and archetypes of the Golden Hordes, the Genghis Khan and even Mao, indicates some determined long-term plans for total assimilation. In brief, why on Earth is Kremlin's Belief so fixated on Asian domination when facts prove otherwise?
- The Rurik (Rurikid) dynasty was established in Novgorod around the 9th century and ruled till 14th century. Its all-Russian empire included Novgorod, Kiev, Belarus and Moskov. They built the Kremlin as their center of power. The 'Time of Troubles' let the Romanov dynasty make a Coup d' Throne (CdTh) and Petersburg the capital of the nova Russian Empire. After 3 centuries, the 'Shot in Sarajevo (Serbia)', terminating the Austria/Hungary dynasty, triggered WW1 and a contra-CdTh to move the all-Russian powers back to Kremlin. Anyways, some might say that the legacy of the Rurikids dynasty could have inspired Shakespeare to another saying, like: "Something is Rotten in the State of Kremlin." Thus, Denmark was merely a Russian vassal state at the time.
- The previous collapse of Russia started in 1913 with the termination of the Russian Throne. the Tatar god-father, alias Stalin, lead the genocidal mass-execution of Russians. Even the Hister wannabe of Hungary/Austria, seemed to become a Stalinist in 1939 with the Molotov-Ribbentrop Pact. The very same mass-termination was dictated for the west- as well as the east-Europe. Most revealing was that drug-addicted puppet's memes like; the Tengri swastika; the occult theocracy; and the horde-like purge of 100 million christian Europeans in WW 1 and 2. Most peculiar though, is the Gulag meme 'Arbeit macht frei', which suites black Tengri workers.

- Now the PPP seems to be hard-core radicalized into some multi-personal psychosis. There is no doubt, whatsoever, that the insane invasion of Ukraine was proclaimed just after the top-level meetings during Olympics in Beijing. That War-game of 4-5th degree is so dysfunctional planned and executed that it sat Russia powers back to the previous Imperial collapses. There is no way that such a 'Custer plan' could truly be from loyal strategists. It was a dictator's order of BDW ethics. As most leaders could see from the very start, this self-destructive warfare of 'Rus vs Rus vs Rus' is highly likely some LYAHF Game. The ulterior 3rd party is most probably of Beijing, - using mind-altering methods as in the movie 'The Manchurian Candidate'. Such brain-washing was indeed a Beijing mean of mass-psychotic warfare towards its own citizens during the mass-purging called 'The Great Leap Forward'.

Conclusively, the Kremlin is probably the most interesting organisation for psychosocial analysis. The Kremlin has certainly the most potentials for healing. In fact, the level of dysfunctional delusions has proven to be most harmful for itself, its empire, the neighboring nation, the world peace and the Humanity. The Kremlin is continually manic-depressive, thus, psychotic and mass-neurotic. Even though its 4 rivaling temples and 5 palaces is complex in itself, - surely such dysfunctional organisations are highly influenced by external Gamers. Anyways, the first step is simply to calm down and getting realistic – by being truthful.

Extra UU – The Supernova of 1054

“The Crab Nebula is a supernova remnant and pulsar wind nebula in the constellation of Taurus. The nebula was discovered in 1731, and it corresponds with a bright supernova recorded by Chinese astronomers in

1054. The nebula was the first astronomical object identified that corresponds with a historical supernova explosion." Wikipedia

SDG2030/P5GO-5a – Trinity Schism of 1054

Blog UU20220515

The 1000 years the War-Game between the 'East vs West' is theocratic. Yet, the public history does hardly mention this fundamental origin – not even now in its 4th degree (War) and alerts of the 5th degree (Apocalypse). However, such theocratic Games are not truly religious as in the 'fundamental philosophies of existence'. Such Gamers simply abuses of some theistic memes, dogmas and rituals to deceive certain 'useful idiots'. Such Games of Temples (GoT) are simply Gamers' psychosocial manipulations for unjust Gains. Thus, this UU blog and some following, aim to uncover some causes, dysfunctionalities and remedies to these frequent Russian proxy Wars.

Theoretically, true religion is not included in the theses of P5GO (5th Pyramid Game Over) - or the 3D psychosocial models. Devine issues are considered as undiscovered realities and relate to hypotheses of the 4th Dimension. It is beyond the individual ego-states of Belief, - like unknown objective ideas are beyond the subjective perceptions. Prior UU blogs present some attempts to philosophize about such with the 4D categories called: WoW (Well of Wisdom), SET (Supreme Extra Terrestrial) and UNO (Universal Natural Order). (See blogs like UU20160916 and UU20180302.)

Nonetheless, theocratic psychosocial Games are still defined as ulterior, conning and mostly destructive, - just like the present Eurasian War-Game towards Ukraine. In fact, the patriarch Kirill of East and the Pope of West are now re-engaged with those millennium rivaleri of exchanging insults. In this century, the trigger was the liberation of the Ukrainian church from the Russian by the Patriarchy of Constantinople in 2018. This contradicts the Moscow declaration of itself as the 3rd Rome instead of Kiev in the 16th century. That statement also said that there will be no 4th Rome, because that requires the anti-Christ to make it fall. (UU20220417)

Moreover, 'The Great Schism' of 1054 is the original Game against the Trinity theology. The Eastern Russian Orthodox Church and the Western Catholic Church disagreed on the Trinity hierarchy. The ROC patriarchy could not tolerate the catholic statement that; the holy Spirit was of both the Father and the Son; his body was symbolized by unleavened bread; and there is a patriarchal leader like the Pontifex Maximus, the Pope.

However, the original trigger to this millennium theocratic War-Game was probably an assumed miracle. A star in the constellation Orion went super-nova - seemingly a new star appeared in the year 1054. Orion's head seemed to blown up by the horn of the constellation Taurus, - the zodiac Era/Age of Egypt before the Old Testament's Arian sign. Today, the remains are called the Crab nebula, which might occultly be related to the Cancer constellation, symbolled by the number 69. This will be the main issue in the next UU blog.

Nevertheless, this GoT version of TLM (Two Little Maidens) did extend to the Game LYAHF (Let's You And Him Fight). That third ulterior Gamer was of the spiritual Tengri theocracy of Asia. Thus, the East/West momentum shifted from Hagia Sophia of the Christian Rome (Roma2) towards the Ural Mountain range. Those 99 Tengri spirits are Believed to be superior to any Human, including the Western Pope, the Eastern Kirill, - as well as the holy Father and Son Christ. Theologically, that could be as occult as an anti-Christ.

A preliminary conclusion, is that the PPP in the theocratic Kremlin seems highly influenced by Eastern theism, - which opposes the theology of the Christian center and the West. Lately, the PPP mental health has been questioned due to the irreconcilable mania to exaggerate that war-Game of 'Rus vs Rus vs Rus'. This centennial purging Game started in the spring-time, - like some 1st degree LYAHF Game of the psycho-state Drive. Actually, the two Covid Games started in the spring-time too. All-in-all, the PPP seemed highly radicalized after the Beijing Olympics of 2022 – timely altering the Ego-state like some Rasputin Jr. This issue will be further explored in the following UU blogs.

Extra UU The Great Schism of the Trinity church in 1054

“The East–West Schism (also known as the Great Schism or Schism of 1054) was the break of communion which occurred in the 11th century between the Western and Eastern churches. Immediately following the schism, it is estimated that Eastern Christianity comprised a slim majority of Christians worldwide, with the majority of remaining Christians being Western. The schism was the culmination of theological and political differences which had developed during the preceding centuries between Eastern and Western Christianity.” Wikipedia

SDG2030/P5GO-3b – PPP Grand Parade

Blog UU20220508

Tomorrow is the annual grand parade where Russians demonstrate their military forces to both friends and foes. Traditionally, the parade is dedicated the fall of the Nazi regime. However, this year’s parade is unusual though, since the PPP has labelled their Ukrainian ‘brothers in arm’ as Nazis. That includes all the freedom fighter, women and children, any civilian – even the Jewish president. However, Humanity’s global insight via the internet have altered that propaganda and invasion decisive. The parade will not consist of the return of 10,000s dead soldiers, the wrecked 1,000s of tanks, 100s of planes and 10s of boats. Instead, the parade will display the next victims in line to that self-destructive insanity. In brief, this week’s blog is dedicated a rather alternative point of view to uncover the traditional Russian Underworld Game BOOFY.

Theoretically, the psychosocial Game BOOFY was described in blogs like UU20150306: “BOOFY is based on a Russian proverb saying, ‘Beat your Own and Others will Fear You’. That psycho-state is based on Parents’ punishing their Children and causing traumas. That abuses cause projections of not-OK transaction to others. Adults’ experience of unexplained fear can stem from UW (UnderConcient Will), which is related to UD and UB (UnderConcidence Drive and Belief). Emotionally, some outbursts of accumulated negativity are as necessary as flushing the toilet. It should not be directed towards other people, though, - but to some mental sanitary systems. Unfortunately, (the phobia) Hate is abused as means in Games of Terror.” Now it is the culture of PROSA and the Red Mafia. Also see other blogs concerning; oligarchic para-police and -military (UU20150306). Related classic Games are; SWYMD, NIGYSOB, LYAHF and LPAFJ; and UU Games like ISR, Jante/TUD, TLM/TOL, RRRP and ODAB.

The 5D psycho-historical hypothesis of pasts are summarized in UU20200402 “The S-E/S-I (Superior-Ego/ID) theories of organizations can even be lifted to Global levels during centuries. A most outstanding example is the CdE Game in the Winter Palace in 1913, - the ‘Dagmar Syndrome’ (the failed CdE Game that led to the Russian revolution and 100 years of global warfare). It started as a simple TLM/TOL Game (Two Little Maidens) between the rivalling tsarinas from Germany and Denmark. This is an ultimate example that cloaking of ulterior Games can lead to unlimited cascades of misdeeds and mischiefs, - like a snowball can cause an avalanche, - like a match can cause a forest fire and like the shot in Sarajevo.”. (UU20141219 and UU20180323)

The self-proclaimed 3rd Rome collapses every century, like from some theocratic calendar. Now there is the war of 'Rus vs Rus vs Rus' again. This imperial dysfunctionality, this executive 'built to fail', should not be expanded to global wars again. Hopefully, the UN prevents that. How to help, then? The answer might be like all the theories of the therapy of the smallest dysfunctional organisations – the families. The culture of the Winter Palace is assimilated into the Kremlin by the PPP. As for godfathers, mobsters and mafia families, the United Nations need to treat the dysfunctional empire as a dysfunctional family. Do not pick up the Gamers fight of violence, but rather disarm, reason and support to the remaining sane.

The PPP was seated as president in 1999 when the predecessor simply had to de-Throne himself. However, as a KGB agent, the loyal forces were by the secret police and not the military. Still, any president needs loyal forces in order to keep the position. Thus, there have been parallel rivalries of the KGB vs FSB and RA vs RAF. Most active in the Ukraine invasion have been the traditional KGB of Belarus, not the FSB, - as well as the RAF related Wagner Groups and some foreign armies. Now there is unrest in the Red Army since they suffer far more than planned. It seems that there is an ulterior parallel war-Game towards the RA and the FSB. It could even look like the War towards Ukraine is like the concept of the Danish purging war in 1863 - to eliminate the former royal family's loyal army. (See this week's Extra UU.)

Conclusively, the Grand military parade on 9th of May 2022 might be the Red Army's opportunity to remove their real rival – the PPP.

Extra UU – The Danish Purging war of 1863

The Danish Throne shifted from the Prussian family of Oldenburg to Glücksburg in 1863. The king was dying and had no succeeding heir to the Throne. The new Danish king was not of any royal family, but the queen Louise was. In that transition, the Throne's sovereign power was transferred to the State's executive bureaucrats.

Naming the king 'father-in-law of Europe, is not quite right, since there were no royal Y chromosomes left in the royal blood. 'The 'mother-in-law of Europe' would be closer to some truth. Anyways, Dagmar, the

last functioning tsarina of Russia was of this family and became the 'mother-in-law of Russia and the Winter Palace'. (See blogs like UU20141219 and UU20180323)

The second Schleswig war is traumatic for the Danish historians. However, with some simple psychosocial Game analysis, - it is rather easy to see that the pathetic senseless invasion of Germany probably was about to get rid of the 'kings' men' - that were loyal to the previous King and skeptical to the new regime.

SDG2030/QoH – Workers' SDG8 day

Blog UU2220501

The 'International Workers' Day' is an annual issue in these UU blogs. They can be found in the blog listing page. The main issue last year concerned the thousands of years thralldom for workers - that was renewed a century ago by the Russian empire's Comintern – and renamed from workers' cast to workers' class. Still, the same god-damn thing, though. Anyways, that self-proclaimed 3rd Rome collapses centennially, like in 2020 as in 1920, - when the Comintern projected its own dysfunctionalities on the Russian bourgeois citizens and degraded them to petty workers (UU20210501). Now, the world's civilized nations have managed to unite in the UN and do promote the Human Rights, the Nations' Rights and the Global Sustainable Goals for 2030. Thus, this blog aims to reason why our Humanity should emphasis on healing from that occult mass-psychotic Tengri dogma - that 'demons rule workers'.

The SDG-8 should rightfully be the main focus on this 'International Workers' Day'. It is basically about all the UN nations' obligations to the Sustainable Development Goal - SDG8 'Decent work and economic growth'. The SDG-8 is a precondition to; the SDG-1, No poverty; SDG-2, No hunger; SDG-3, Good health; SDG-4, Quality education and SDG-5, Gender equality. These SDGs are the continuum of the Universal legality of the Human Rights. (GHRL UU20170721) The SDG-8 is also required for all the other Sustainable Development Goals. Still, to reach that, all the united nations, and especially the UN itself, require a well-functional SDG-16 'Peace, justice and strong institutions'.

However, the SDG-8 is hardly mentioned, but rather hindered on this 'International Workers' Day'. The main reason is talked through yearly in this decade of blogs. The main BDW anti-thesis is illegally legitimated by the Russian Comintern's 21 conditions of 1920 via their oligarchic 'red worker unions'. In fact, that dogma declares its international war against the civilized 'yellow labor unions', the citizens (bourgeois) and all 'western' nations. Its extreme anti-human concept for mass-assimilation was deployed as Gulag worker camps all over Eurasia. Similar dictates of global war-crimes towards Humanity seem to be centennially renewed - like in 2022 with Kremlin's theocratic warfare towards Ukraine. Such a 'Nova Comintern' in the Kremlin is based on former secret police services from Ivan the terrible. That Underworld War-Game is executed of myriads of 'nova' underworld PROSA Gamers of red mafia, red army faction, KGB, red unions, red press, red police, red socks (red stockings) and other hordes of other ulterior 'suckers' organisations. (UU20220327)

The Red Mafia is the main Game Player in the anti-UN warfare towards the civil workers, though. The Red Mafia matches all the descriptions for Underworld Games of mobster crimes. As a youngster, the PPP was recruited by the Leningrad underworld, assimilated and infiltrated as secret service agent (KGB). He was deployed as the PPP during the 1999 Coup d' Kremlin. The Kremlin spirit of Ivan the Terrible is resurrected for this muppetry - just like the Georgian godfather before, Ioseb, alias Stalin/Steel. Now the PPP is assimilated to that Kremlin heritage and do indeed resume that god-damn ruling. Still, the PPP's decisive radicalization was triggered during the Olympic Games of 2022 in Beijing. Sequently, the PPP Party made a political request to the PPP to 'liberate' two Ukrainian regions from Ukrainian –like the Ukrainian region Crimea was illegally annexed in 2014 – strongly enforced by 5th columnists of the Red Mafia's Red Unions.

Conclusively, the success of SDG-16 'Peace, justice and strong institutions' is a prerequisite to the SDG-8 'Decent work and economic growth'. The 100 years of thralldom by the Red Unions domination will continue to corrupt until its parallel Court apparatuses are disabled. All the UN nations' courts have to overrule public prosecutor according to their civil Rule by Law. All the red unions' criminal cases have to be directed to the true Penalty Courts – instead of some parallel courts - like Labor Courts of the mobster Stalin's Comintern.

SDG2030/P5GO-4a - Coup d' UN

Blog UU20220424

This blog focus on the 4th P5GO scenario – ‘Coup d' UN’. That War-Game might downfall Humanity’s global peace and order, - the foundation of anyone’s LifeQuality (LQ). still, the UN HQ building still stands, yet now threatened from within by para-diplomacy. Such a CdUN Game is rather based on true idiocy than xIQ (UU20220403). Thus, just like the PPP warfare towards Ukraine caused neighboring nations to join NATO, - such a poorly planned CdUN War-Game might cause the very opposite result - enforcing the UN LEJD powers towards the Gamers. Still, this blog argues such a hypothesis further in order to reduce the harm to the UN and all its related.

A similar 5D scenario was analyzed 5 years ago concerning the PPT called ‘the un-UN’ (UU20170317). The hypothesis was that the UN HQ tower in NY could fall like the WTO towers, while the PPT’s WTF tower rose. That series of scenarios also demonstrate further use of the UU models, - which will not be repeated here. Still, the intention with these 5D ‘worst case’ scenarios aligns with the intention of books like ‘1984’ – to uncover such Games of BDW ethics - in order to promote sustainability.

Anyways, this PPP scenario hypothesises a fall of the UN due to diplomatic corruptions from within. Such POA (parallel organisational apparatuses) are basically as indicated in the blog UU20220410, ‘BRICS vs UN’. The UN was formed by our Humanity as an anti-thesis to the Cominterns thesis of triggering world wars by degrading citizens (bourgeois) to a nova workers’ cast. Nowadays, such Underworld Gameplayers are related to the Red Mafia, RAF, PROSA, GRU, BRICS etc. (UU20220327). Underworld/Sexual Games are related to life & death – to War & Peace for 4th degree Games. This escalates classic Berne Games like LYAHF, TOL and SWYMD, to 3D Games like HAR, BTO and BOOFY. The BDW ethics of such Underworld Games are based on negative economies theses like; destruction is 10x efficient than creation; Cost/Benefits of YourCost/MyBenefit and; Workers are potential suckers for our Pyramid Games.

The BRICS conspiracy in the UNSC (Security Council) is failing. The War-Game towards the UN was based on the Veto-power of China and Russia. That Joker-card was drawn for any objection to Russia’s anti-UN act towards the Ukraine Nation and its citizens. That unwise strategy was based on an assumption that a UNSC veto applies to any other world organisation too. Now, Russia is expelled from the UNHR and the ECHR and the G20 consider to expel. Moreover, Russia is ordered by the UN highest Court to stop and is also condemned by the UNGA. There are even interpretations of the UN legislation that such 2/3 UNGA overrules UNSC Veto. Moreover, even though some UN legislation is not fully ratified to the member states’ national law, - any nation can ask for, and legally get, support to defend itself towards such anti-UN attacks. Thus, the NATO and the EU has reacted to this rightful request with support and restrictions of various kinds. Moreover, the UN Court order initiates investigations of the ongoing war-crimes for the ultimate Court decision toward the BRICS nation Russia. All this should confirm that Russia truly collapses every century, as analyzed in the previous blog UU20220417. Still the hard quest to end this recurring plague to Human sanity by uncovering the real major Gameplayer.

There are some gravely alarming indications on this anti-UN attack. The trigger to WW1 and WW2 was based in the fall of the UN’s two predecessors, - ‘The League of Nations’ (WW1) and ‘The Congress of Vienna’ (WW2). Now, and ulterior Motive seems to be WW3 by another attempt to trigger a SU-US nuclear warfare on ‘Europe’s granary’. Such War-Games like; USUK, CoC & Electra were analyzed in the blog UU20200402.

Conclusively, the UN needs to enforce its SDG-16 on itself immediately. The year 2030 will be too late since the UN is now at the climax of a diplomatic war-fare right now. Even though the Russia’s War-Game towards Humanity is legally lost, - the most ulterior Game-players and Motives are not yet exposed. Anyways, the UN Court and the UNGA needs far more effective powers to alter the Veto dysfunctionality in

the UNSC. Ultimately, the UNGA and UN Court should be enabled to democratize the UNSC by removing the UN Veto privilege and such UNSC members that obviously abuses that power for anti-UN Games. Unfortunately, anti-UN members have proven that the UN needs Executive powers that includes penalty to anti-UN acts by national governments. Finally, the permanent seats in the UNSC should not be based on the USUK Game of WW2, but on the present continental powers. These seats should rather represent Asia, European Union, America, African Union and a Union of Arabian nations.

Extra UU – The Congress of Vienna

History repeats – or at least – the Pyramid Games are attempted to.

The trigger to WW1 and WW2 was based in the fall of the UN's two predecessors, - 'The League of Nations' (WW1) and 'The Congress of Vienna' (WW2). Here are documented some relevant 5D scenario of the past.

The Congress of Vienna (Part 1) (1814)

SDG2030/P5GO-3a – Roma3 Rise & Falls

Blog UU20220417

This blog focus on the 3rd P5GO scenario – ‘Roma3 Rise & Falls’. Apparently, the self-proclaimed 3rd Rome collapses every century. This hypothesis is that the empire’s foundation is as unstable as a bi-polar person. Such Kremlinology is previously analyzed with less documentation. Now, the periodic CCD (Colony Collapse Disorder) provides far more insight due to the internet. Briefly, this hypothesis is that this periodic CdE Game (Coup d’ Etat) is not due to legitimate devine, legal or ethical foundation, - but rather due to dysfunctionalities of the Superior-Ego/Superior-ID state. It is just like some reoccurring manic-depressive instabilities of a bi-polar person. Hence, this blog argues this hypothesis further in order to lessen the harm to the empire itself and all its related.

Historically, Moscow was merely a ‘grand duchy’ when the 2nd Rome (Roma2) collapsed about 1500. The crises in Moscow were mostly due to frequent raids by Mongols and Huns. Kiev was the Russian capital at that time, - yet Moscow became the successor to the Christian Rome (Roma2). In this hypothesis, some historical milestones are that; Ivan III (the Great) allegedly subdued a Mongolian city and relieved the duchy from their tax and terror. Ivan gained a genetic heritage by marrying a princess of Roma2. Moscow also acquired its coat of arms, the two-faced Eagle. Occasionally, he was titled Tsar/Caesar to designate some legacy from Rome. Theocratically, in 1510 a monk named Philotheus stated, “So know, pious king, that all the Christian kingdoms came to an end and came together in a single kingdom of yours, two Romes have fallen, the third stands, and there will be no fourth. No one shall replace your Christian Tsardom according to the great Theologian (cf. Revelation 17:10).” To this hypothesis, that statement is a 5D event, - true or false. (See blogs like UU20140502 and UU20141031.)

Nevertheless, the foundation of that theocratic Coup d’ Temple (CdTe) is rather unstable, in which cause the Roma3 to collapse every century - about the year 13 – like due to some theological calendar. Subsequent 5D events are; (1513) Moscow CdTe of Roma2 instead of the Russian capital Kiev; (1613) ‘The Time of Trouble’ end with the Romanov Coup d’ Throne (CdTh); (1713) the Petersburg Coup d’ State (CdSt) from Moscow; (1813) Moscow burned by Napoleon; (1913) Rasputin’s CdTh ends the Romanov reign (WW1) and; (2013) Putin’s failed CdTe towards Kiev. However, in order to analyze the assimilation from the Winter Palace culture into Kremlinology, - we really have to talk about Damar now. (See the PPT P5GO-2 in UU20160527.)

Theoretically, the 3 Capitals of Russia are like the 3 super-states of Humanity; Throne (Petersburg), State (Moscow) and Temple (Kiev). Moreover, these 3 superior ‘ego-states’ are analogous for individual humans, organisation, nations, empires and even the singular Humanity. In order to make a unified 3D model, these states are generally called Drive, Will and Belief. The terminology corresponds to the Freud/Jung/Berne Id/Child, Ego/Adult and Superior/Parent. By that, most models for personal psycho-analysis do also apply to organisations of any size. Thus, just like a personal instability is diagnosed as imbalance between its egostate, this diagnose applies to empires too, - like Roma3. Consequently, the civilized Humanity, by the UN, should be very aware and prepare for such an empirical tri-polar CCD. Such ‘times of troubles’ need extraordinary means, actions and support – not just for the client, but for anyone and anything related.

Fortunately, dysfunctional organizations’ feature, symptoms, diagnostics, therapies, handling, remedies etc. are developed and practiced thoroughly and well. Still, these are mainly practiced just for the smallest organizations of all, - the core families. Yet, such a transliterate to national level is done in the blog UU20170407 – and even tested on a case of Belarus – the most traumatized relative to Russia. Still, most humans are sane and relate to organizations – hence knowing very well what is Good/Useful/Right (GUR ethics) or not (BDW) - what should be done about that - and not.

Conclusive, concerning the UN SDG2030, this grave crisis threatens even our global organization the United Nations. Therefore, the UN should prioritize a combined SDG16 ‘Institutions’ and SDG3 ‘Health’. Alarmingly,

the Security Council (UNSC) empires practice extreme unhealthy SE/SI veto-abuse toward Humanity. Therefore, the General Assembly (UNGA) 2/3 majority decisions should be enabled to overrule any UNSC veto – in order to overrule individual insanity with common sense. Finally, the present PPP warfare towards Humanity might cause the formation of proper UN LEJD powers (Legal, Executive, Judicial and Democratic).

SDG2030/P5GO-2a – BRICS vs UN

Blog UU20220410

This blog focuses on the 2nd P5GO scenario – 'BRICS vs UN'. Apparently, the PPP war-Game towards the western nation Ukraine is like the concept of the 'Stazi' pact of 1939. That conspiracy was based on the

Cominterns economic war-declaration towards western nations in 1920. Back then, PROSA columnists triggered crises, riots and coups to weaken the prey nations' defenses against invasions. Nowadays, that very same concept seems extended to the plutocratic pact BRICS. The Stazi War-Game against Poland in 1939 (UU20141121) matches today's nova-Stazi War-Game towards Ukraine. Yet further alarming, that LYAHF War-Game of 1939 was merely a trigger for the Comintern's CCS syndrome towards 'the West'. Hence, this blog intends to lessen that century's repetition by focusing on the P5GO anti-thesis against the 'BRICS vs UN' Games.

The UN Sustainable Development Goal 10 refer to the World Trade Organization (WTO) agreements as instruments of reducing inequality. The WTO dispute settlement boosted trade and reduced barriers. The WTO of 1995 embraces 164 member states, regulates and facilitates 98% of the international trade. Historically, the WTO is a UN continuum, since it replaced the GATT of 1948. However, the WTO is criticized for some dysfunctions. Still, that is no legitimate reason to weaken the WTO with parallel trade apparatuses.

The BRICS is a spin-off idea from Goldman Sachs Asset Management in 2001. It formed after a UNGA debate in 2006. The BRICS became a powerful plutocratic pact of Brazil, Russia, India, China, and South Africa. Since about 2013, the BRICS gained significant economies influence on the member-state's regional affairs. It covers 27% of the world land, 42% of the world population, 23% of the gross world product, and has 4.5 trillion \$ in foreign reserves. Bilateral relations in BRICS are mainly based on non-interference, for mutual benefit, - yet without regards of their UN obligations, the SDGs or human and other nation's rights. Thus, BRICS's informal nature causes several economic, territorial, and political disputes among the five governments as well as their trade partners – due to the BRICS's underpasses.

The theories of this UU blog-series are complex. The fundamental concerns about the 'BRICS vs UN' are indicated in blogs like UU20161005. "Finally, on how the idea the Superior-ID developed: The Oprichnina/Praetor (the 500 years old secret police) is like a definition of psycho-social Games. The Actors and the Games are as ulterior and concealed as the very nature of the secret services. It is, however, a problem if the democratic Quality of Life is not respected. It is serious if the organization consider itself as a Superior-Ego - and individuals as inferior. It is catastrophic, if it also inherited the properties of Ivan the Terrible's murky mentality as a collective obsession." The theory of Superior-ID is talked through in UU20140110 and the OD (OverConscience Drive) in UU20140822. "Furthermore, the mentality of historical oligarchs can become some other persons' dominating Belief (S-E) centuries later - and ultimately the organizations' pseudo identity. Stalin's extreme psychopathy, inherited from the Russian secret services of 'Oprichnina', was assimilated as the masspsychopathy of unions and parties, - and ultimately inherit as 'The Masspsychopathy'. This has to end with this 5th Pyramid Game - and surely can be escalated with hyper-democracy. However, quite the reverse, the Comintern's 100 years' war towards 'The West' is evidently intensifying globally - towards some cascade of climaxes (CCD, Colony Collapse Disorder)." (UU20151106)

The PPP has undermined BRICS with its RAF, Red Mafia and KGB – and its Chinese counterparts as much. The Underworld and Sexual (ID) P5 Game towards Ukraine are trade related Games of the 4th degree (war). The relation and involvements of the BRICS conspiracy is obvious in their cooperation and voting in the UNSC and UCGA. Still, the UN seems to unite and fight towards this anti-UN and 'anti-western' powers of plutocracy. Russia is now cast out of both the European and the UN Councils of Human Rights - due to its masspsychopathic and sociopathic War-Game towards the Ukrainians.

The BRICS is the very anti-SDG as well as anti-WTO. Some actions by the BRICS in the UNSC shows its brute plutocratic force against the UN mutual obligations to our Humanity. Until now, Russia and China have abused their veto power in the UNSC like practically a totalitarian license to prey and kill. Such grave dysfunctions in the UNSC should be overpassed by 2/3 in the UNGA votes. Moreover, there should be

no insolent veto-power in the UNSC – just like in the UNGA. In that case, the invasion of Ukraine is the extremist predatory demonstration of the plutocratic BRICS to underpass the UN SDG for 2030.

Extra UU – Babylon 5

Extra UU – Babylon 5 Babylon 5 is a tv-series of 5 seasons that sets the scene 250 years ahead in an interstellar UN. There are 5 main species and several related kinds. It is like a Science Fabel based on the Isaac Asimov's Foundation, - and the falls and rises of Rome 1, 2, and 3. The many psychosocial events, the interstellar disputes and technologic innovations - do indeed release and alter views of our own terrestrial challenges of the past and the future.

The Babylon 5 sage has been inspirational for this blog series' model, called 5D scenarios.

The TV series is about to be remastered for web-streaming.

SDG2030/QoH – xIQ multi-intelligence

Blog UU2220403

There are many kinds of intelligence. Most humans have an IQ over the average in some kinds and under in others. Nevertheless, the Humanity need to be extraordinary in all kinds of intelligence, in order to reach the SDGs before 2030. Therefore, it is necessary to comprehend our Humanity's multi-intelligence (xIQ). This blog is therefore an attempt to shift the focus from unintelligent views on intelligence and rethink such for the SDG tasks.

Traditionally, intelligence is defined as the ability to perceive or conclude on information, to retain it as knowledge and to applied it for adaptive behaviors. That includes abstraction, logic, understanding, self-awareness, learning, empathy, reasoning, planning, creativity, examination, and problem-solving. The intelligence quotient (IQ) indicates the mental age, whereas the average is 100 and the standard deviant are 85 and 115. Still, intelligence is also mistaken for memory, instinct, intuition, rituals and habits. Also, the term AI (Artificial Intelligence) is still as questionable as instincts, mania and rituals. (UU20210801)

New theories of multiple intelligences (xIQ) propose specific modalities, rather than a single, general ability. In some official theories there are the 8+ different kinds of intelligences with modalities for; 1, Musical; sing, play and compose; 2, Visual; with the mind's eye and 3D; 3, Linguistic; words, languages, reading, writing and telling;; 4, Logical, abstractions, reasoning, numbers and examination; 5, Bodily, motions of body and objects; 6, Interpersonal: social skills of sensitivity, moods, feelings, temperaments, empathize, motivations, and discussion; 7, Intrapersonal, introspective, self-reflective and -awareness, predict own reactions or emotions;; 8, Natural, recognizes flora and fauna, natural productively (hunting, farming, biology). Also, 9, Existential (spiritual) intelligence was proposed, by rejected. Besides, other modalities could be considered as intelligence, like; teaching; humor; cooking; sexual; creativity; meta-intelligence; managements; etc.

All the modalities of intelligent are needed to reach Humanity's 17 SDGs before 2030. The SDGs concerns; 1, No Poverty; 2, No Hunger; 3, Good Health; 4, Qualitative Education; 5, Gender Equality; 6, Clean Water and Sanitation; 7, Affordable and Clean Energy; 8, Decent Work and Growth; 9, Industry, Innovation and Infrastructure; 10, Reduced Inequality; 11, Cities and Communities; 12, Consumption and Production; 13, Climate; 14, Submarine Life; 15, Life on Land; 16, Peace; Justice; and Institutions; and 17, Public/Private partnerships for the SDGs.

Consequently, such complex relations make numerous combinations of modalities for the xIQ to the SDGs. Still, the challenge is to utilize these lists to discover the needs, requirements and potentials. For example, the SDG-11 'Cities' might be most important one because the number of urban people have exceeded the rural. Is there really any SDG or xIQ that SDG-11 does not include? Innovating the SDG-11 requires a comprehensive plan to transform metropolises to 'Gaiapolises', - possibly by the means of the IR4/SR4 (4th Industrial and Social Reform). Moreover, the SDG-14, 'Submarine Life' is probably the most challenging and complex of all. The needed innovations for submarine tools, vessels and constructions require most of the xIQ modalities. Imagining the needed submarine communities, and even cities, to sustainable the submarine flora and fauna by submarine farmers, workers and manager.

Apropos, remember the so-called 'Nerds'? They raised their social status from introvert 'wierdos' to high-tech superstar during the IR3. Even romantic poets became 'rock-stars' when provided electricity. Yes, it's simply intelligent to realise that most kinds of jerks, sulks, geeks, freaks, dreamers, outlaws, punks and other outcasts. are intelligent - in some not-yet realized ways. It might help to use the tools related to the 3D psychosocial model of Drive, Will and Belief (see blogs like UU20220101 and UU20160916)

What is the xIQ of Humanity, then? There is no number – like in Mensa quantifying. First, as mentioned in UU20210801, the Humanity is considered being at an IQ age like an infant. Next, there is no other Humanity to compare those modalities with, - so what could the average and deviations be? Lastly, measuring Humanity's multi-intelligence (xIQ) is as pointless as unintelligence. Still, there are room for lots of improvements will we Sustainably Develops the Goals of Humanity.

SDG2030/P5GO-1a – RAF vs NATO

Blog UU20220327

This blog sets the focus on the 1st P5GO scenario – ‘RAF vs NATO’. In brief, the PPP (Puppet President Putin) started a 4th degree War-Game to its neighbor nation. That political call to war broke the Red Army chain of Command, violated the Russian obligations to the United Nations (UN), disrespected the UN High Court's (ICI) order to stop, withdrew from the European Council of Human Rights (ECHR) and started a national purging of Russians - like some Gulag of 2022. The Kremlin's PPP have also lured nations like Belarus, Kazakhstan, Syria and Iran into that fatal War-Game. The Games at play, though, seem rather to be of the St. Petersburg's Winter Palace than of Moscow's Kremlin.

However, the ulterior main Gain does not seem to be certain Ukrainian regions, but rather to trigger a much larger NATO warfare. Still, no one, except the PPP, want to participate – and no one should. Generally, a main anti-thesis to such Games is to play Game Over (GO), - thus the name P5GO. In order to end those never-ending intrigues, - the focus and actions must be set on the ulterior Gamer players – the PPP's Red Army Faction (RAF), containing of a band of Red Mafia, Night Wolves, Wagner Group, and any other PROSA faction. This is elaborated in a blog series in 2016 concerning the PPP invasion of Georgia and the threats towards Ukraine.

Some categories of Berne's Game theories are called Sexual (ID) and Underworld (Crime). He analyzed them at the inter-personal level of 1st, 2nd and 3rd degree. These blog series of P5GO though, extends that foundation to inter-organisational Games of 4th and 5th degree, by modifying terminologies, models and issues. However, a main aim is to heal such dysfunctionalities of Humanity as well as quality ensure society by correcting suggestions to minimized damages of CCD (Colony Collapse Disorder) and games of CdE (Coup d' Etat). The main script of such anti-UN sociopathy is the Cominterns 21 conditions to its members in order to make and abuse parallel apparatuses, like RAF, PROSA, etc.

In that petty attempt of 4th degree Game LYAHF (Let's You And Him Fight), the PPP actions are still as described in the UU blogs series PROSA (Pro-Russian Oligarch, Separatists and Anarchists). In psycho-social science, these are basically the same in 2022 as elaborated in 2016 in the blog series P5GO 01-12 that analyze 12 aspects of PROSA, - namely; Politicians; Pension; Workers; Citizens; Oligarch; Separatists; Anarchists; Plutocracy; Psychocracy; Technocracy; Mass-psychoses; and finally, the anti-thesis Hyper-Democracy (See blog UU20160708-UU20160923.) However, since such Games of 4th degree are complex, there might be a Winter Palace Game going on in the Kremlin, like FOOJY (Let's Pull A Fast one on Joey) where the PPP itself is set up to be caught and thereby eliminated. Therefore, the Game-players might be several actors in the 3-dimensional constitutional super-powers Throne, State and Temple.

Conclusively, the United Nations is the only organisation that can order nations to organize defensive counter measures – and even armed counter attacks. No PROSA parallel apparatuses are superior to the UNSC, although frequently played LYAHF towards Humanity's Rule by Law. Consequently, no UN member state should have the ultimately power of veto in the UN, like the 5 permanent members have. Such Underworld Game players, should be suspended from the UNSC. The UN should also look to the EU on how to solve such 'Brexit' intrigues. Finally, the UNSC should be more aware of international like the anti-WTO conspiracy BRICS, the RAF and other Comintern dictated 5th columnists.

SDG2030/P5GO-0 - Intro

Blog UU20220320

This interruption of the SDG blogging is due to extraordinary P5GO events that now threaten Humanity. Thus, the next blogs will be frequented from monthly to weekly due to the escalations of the psychosocial Games. These blogs are attempts to hypothesize some anti-theses in order to alter some 'worst case' 5D outcomes. These blogs are basically the continuance of the main theme P5GO (the 5th Pyramid Game Over) and the discovered Games like USUK, COC, etc. The P5GO models will be used to minimize the ongoing path to irreversibly traumas for Humanity, civilizations and ecosystems.

The ongoing psychosocial 5D Game towards Humanity is already of the 4th degree - with attempts to escalate to the 5th. Still, in order to hypothesize some anti-thesis, the writings from 400 weekly blogs will be re-used, - including the models of 3D politics, the LEJD powers (Legal, Executive, Juridical & Democratic), the 5D scenarios (of past and present), the 3^3 psychosocial diagnosis, the LifeQuality and Humanity definitions, as well as the complex Game analysis like the P5GO. (See summary in blogs like UU20160513.)

The 5th Pyramid Game syndrome is complex. It was made during the PPT & PPP pact (Puppet President Trump & Putin). Fortunately, the refurbished pact failed. It did not become a second Molotov–Ribbentrop Pact' of 1939 (UU20141121). Still, the PPP Ego is altered to something similar. Hence, some hypothetical outcomes might be:

1. RAF vs NATO
2. BRICS vs UN
3. 3rd Rome Fall
4. 4th degree UN fall
5. 5th degree apocalypse

Some hypotheses for outcomes might be:

1. Russia back to glasnost
2. UN unites for Humanity
3. USUK COC 2
4. Regret, Forgive and Forget
5. New Plutocratic Order (BRICS)

The PPP is already seated, empowered and radicalized, - like another 'Hister wannabe'. Comparingly, the virus-war of WW1 in 1919 was considered a failure – even by the Comintern of 1920, thus 20 years of restructuring the war-Games before continue with WW part 2. Anyways, some 5D anti-theses might be:

1. Doctors' orders, where Kremlin itself eliminate and replace its insane Head
2. Coup d' Kremlin by the Red Army due to PPP violation of the Chain of Command
3. Political annulment the PPP violation of military chain of command
4. UNSC overrule veto and enable UN Rule by Law
5. China/BRICS withdraws when realizing that the PPP path goes straight to Pluto

As noted, this blog series about the PPP Games is a continuance of the P5GO anti-thesis of PPT Games. (See blogs from UU20160513 to UU20171201). Yet, these drafted hypothetical outcomes and anti-theses will be adapted as the PPP reveals more ulterior Moves of the war-Games.

Kiew Mission - Tangerine Dream

Blog UU2220305

Our Humanity needs a mutual understanding in order to properly complete our obligations to the UN SDG in 2030. A mutual understanding requires a common language, as well as standards, reasonings and agreements. Unfortunately, though, the UN seems like some post-disastrous Babylonian state. This might be the very reason why the UN Humanity acts still are so diverse. Most peculiar though, all the UN has to do, - is to agree on one of our 6000 languages to be Humanity's global standard language. Then, in a generation's time, - any human is enabled to speak with anyone, - whenever, wherever and about whatever. Actually, the state of the UN is an indication of dysfunctionality.

Theoretically, a language can be defined as a structured system of communication, based on speech, gestures, signs and writings. The structure is by grammar and free vocabulary. Linguistics is the philosophy of the relation between languages and thoughts. It stems from the ancient Greek civilization, whilst recent philosophies focus on expressions of emotions, rationalities, logics and any other thoughts. The Human languages can be recorded, thus enables learning as well as complex communication to describe our rules and values. Hence, human cultures and languages are co-dependent and thereby have social uses such as identity and stratification, as well as learning and entertainment.

Still, in order to communicate and agree, there is also a need for standards for numbers, time, measures, locations, properties, formulas, definition etc. In fact, the UN keeps enormous amounts of vital data for analysis, conclusions and decisions. However, it is seldom properly utilized due to lack of the simplest standards. All of it could easily be made comparable by agreeing on the simplest conversion algorithms. This is also a vital task for our prosperities and obligations for the SDG 2030.

Apropos, communication is a very basic for these UU blogs concerning the psychosocial model of 3[^]3D, - particularly because it's based on an elevated TA (Transaction Analysis). Basically, the psychosocial analytic tool is extended to apply for any organisation as well as any human, - thus Humanity too. In brief, all the 27 (3[^]3) relations of human states are interrelated by communication of several kinds, - including dreams. The languages are mostly extraverted though. (See blogs like UU20220205).

Still, the 6 official languages of the United Nations are; Arabic, Chinese, English, French, Russian and Spanish. One of these should be the obligated as the 2nd language in any member nation. This does not contradict any human right to choose any language and dialect to be the preferred one. By the way, today's 6000 languages will be reduced by 70% in 2100. For example, the 3 Scandinavian 'languages' are really dialect, that can be the basis of a merged Scandinavian language – a standard for the Nordic region.

Moreover, in order to minimize organisational dysfunctionalities, the UN's itself needs a single operative language. Its structure should rather relate to our computer languages than our emotional ones. That would be true cybernetic, as in the ancient Greek definition of function, control and govern. The UN language should be related to a merged set of metrics and definitions. Such a challenge is certainly according to the ongoing 4th IR/SR (Industrial and Social Reform). The advantages of a well-functional Humanity apparatus will probably enable yet inconceivable synergy effects.

Conclusively, a main challenge for our Humanity is to get out of this post-Babylonian Belief. The UN should agree on escalating the issue to be a top priority. It can be done by adding 'Global Language' as a target to the SDG 4 'Quality Education'. In doing so, all United Nations are obligated to promote a global language for any human, hence Humanity itself.

U2 - One (Instrumental)

Blog UU20220205

We are Humanity, - like a single human being. This statement founds the hypotheses to this new blog-series. It is based on the simple realisation of how far our development have come, - individually, nationally and globally. We are currently in a new 'level up'. However, this escalated phase for Humanity is foremost a real challenge of how-to make us well-functional, like the ancient philosophies of humanity.

Some previous dysfunctionalities are due to Believes that a single human, or collective, is indirectly omniscient, - that claims to fully understand what we are and will become. Such fatal Believes of ideologies, policies and theologies are self-destructive to our Humanity. Therefore, the main quest to this blog is to argue why no-one should Believe they are superior or inferior. Thus, the focus is to relate the SDGs and QoH to some basics of the psychosocial models from previous UU blogs.

For starters, the United Humanity was formalized in 1966 by the United Nations' ICCPR and ICESCR declarations. The Human/Humanity became real by this obligation to ratify all united national laws, - contrary to all institutional violations and unlawfulness. Like the Magna Carta implies, these human rights are legally inherited properties for any human being, - just like our organs are. Legally, public organisations' violations of anyone's inherited human right are as criminal as to anyone's property or personality. These obligations and rights are now stated in the first SDGs, whilst the second part concerns our globe's necessities and the last SDGs concerns our national civilizations. (See blogs like UU20140905)

Still, the definition QoH (Quality of Humanity) do not directly relate the UN HR, like the definition of QoL (LifeQuality/LQ). Still, the QoH do relate indirectly, since our Humanity embraces all the individual human lives. Thus, the UN is a main organisational embodiment of the Humanity. Therefore, the humanity is unified as one organism by our common ego-states; 'Drive', 'Will' and 'Belief'. The ten years of blogging includes such reflections, which will be talked through till 2030. Still - concluded that Superiority and Inferiority are two psychosocial extremes that requires remedies to lessen the diluted dysfunctionalities. The following summaries shows some basics of the integrated psychosocial models called 3D, 3x3 and 3^3.

- Clinically, a healthy positive attitude towards oneself and others is; OK-OK (I'm, OK – you're OK). Totalitarian isms degrade their counterpart into not-OK (KO). Such mutual downwards spiral leads to the KO-KO mentality. Such never-ending Games of Superior Egos have been deadlocking for 1000s of years - and have escalated like a Pyramid Games. Institutions could resolve their dysfunctionalities - if willing and able to mentally shift from Denials to Realizations - that Believes do include some untruths.
- The 4th and 5th level Games of Superior-Egos are unimaginable to most sane humans. However, history evidences such collective self-destruction of Humanity over and over again. A main hypothesis is that such Games of Superiority are only possible to plan and execute by mass-assimilation to a collective 'KO-KO' state of minds. A preventive counter-action is therefore to collectively expose the sociopathic mass-psychotic schizophrenia that escalates to mass-neurotic hysteria. (See blogs like UU20190628 and UU20190628.)
- The synthesis of the Supremacy dimension is based on Freud's classical psychological 'ego-state' of Superior-Ego, - i.e., Belief overruling Will and Drive. It was sub-categorized into S-I (Superior-ID), S-E (Superior-Ego) and S-D (Superior-Devine). It does not include theological or philosophical question of existence of long-gone ancestors, gods or other divinities, - but do include such believes or denials. However, the Belief dimension cannot be as tangible as Will or Drive. Additionally, the value-system of Good/Use/Right (GUR) and Throne/State/Temple (Th/St/Te) are still valid and re-vitalized in this sense.
- More theoretically specific, - the new 3^3 social sub-categories to the ego-state 'Belief' are called: UNO (Universal Natural Order) and is a UB (UnderConscience Belief) and a sub-category of Drive that relates to S-I (Superior-ID). WoW (Well of Wisdom) is a CB (Conscience Belief) subcategory that relates to CW (Conscience Will). SET (Supreme Extra Terrestrial) is an OB (OverConscience Belief) and a sub-category of Belief that relates to S-D (Superior-Devine). (See blogs like UU20150403 and UU20151030.)

Still, most important though, is the globally obligated respect for the Quality of Humanity and any Life (QoH and QoL). That require the obvious acknowledgement that no-one is identical, but all are unique in qualities, properties and conscience. For example, there are tens of different kinds of intelligence, which varies for anyone. Yet most IQs are rather underrated, due to simpleminded Belief of personal superiority. Such issues will be addressed in the following blogs - in order to provide some better understanding of what our Humanity really might become.

Biosphere – Phantasm

Blog UU20220101

The Quality of Humanity (QoH) might be the most important topic for any human, - just like the Quality of Life (QoL). Topics of QoH were introduced in the previous blog UU20211204 – and will continue throughout this new year. Although, this hypothesis considers the Humanity Being to be at an infant stage, - we, as individual humans, have tens of millennia of experience of our collective human nature. Still, the recent leaps in population, innovation and communication have made the Humanity Being far more capable, conscious and prosperous. Thus, we surely need to reconsider our existence, especially in this decade of this 4th industrial and social reform of technology and biology.

The QoH is hereby defined as: “The Quality of H

umanity is the totality of properties and potentials of humanity to achieve the essential and prosperous necessities”. This definition is based on the United Nation’s definition (ISO 8402-1986) “The Quality of products and services is the totality of features and characteristics of a product or service that bears its ability to satisfy stated or implied needs”. This globally ratified standard is a main reason to the recent globally increase of qualitative products and services. This definition was also the inspiration and foundation for gathering the abstract and conflicting definitions for individual humans. Thus defining: The Quality of Life (QoL) is a person’s totality of properties and potentials to satisfy the stated and implied needs”. The QoL definition is later called LifeQuality’ (LQ) in order to stand out from other QoL definitions. (See UU20200103)

Terms of humanity are still mostly related to abstract philosophies of values. The previous 12 years of blogging are often focused on developing psychosocial models for analyzing humanity's past, present and future. These are adaptable to QoH as well as QoL. The following quotes should therefore apply to the QoH too.

- It was necessary to upgrade and extend the classic Freudian models to organizational levels in order to enable psychosocial analysis. The result is a joint Freud/Jung/Berne model called 3x3. This was further developed to the 3^3 model (3x3x3). The model is explained and used about a parliamentary election in the blogs UU20150605 to UU20150724.
- The terms are developed from-via-to: Id-Child-Drive, Ego-Adult-Will and Superior Ego-Parent-Belief. A second dimension of conscience is added in order to merge Jung with Freud's 3-state; UnderConscience, Conscience and OverConscience. The third dimension contains of 3 subcategories of Drive, Will and Belief. These are interrelated via the conscience dimension. However, the subcategories are open for adaption and modifications to what is to be analyzed, - for example persons, organizations, nations, empires or humanity. Thus, sub-categories for Personal level are; Drive (Sulk, Nerd, Jerk), Belief (Matriarch, Authority, Patriarch). Parliamentarism relates to Will (Legislative, Executive and Judging (LEJ). National and Imperial constitutions relate to Drive (Throne), Will (State) and Belief (Temple). (See UU20160916)
- There are probably more philosophies related to the Belief (ego-state) that suites more to the (3D) value-systems of GUR (Good/Use/Right) than the BAW (Bad/Abuse/Wrong), - like the Christian and platonic virtues of; belief, hope, love, wisdom, courage, moderation and justice. Why believe so? One way to see this is that most expressions in poetry and songs are emotionally good rather than bad, - most expressions of folk tales have rather useful moral than abusive, - and most religious mythologies do rather express philosophical righteous ethics than wrongful ones. At least – expressions of negative BAW Believes are to indicate directions, boundaries and goals. See what happens if you do the negative. (UU20150313).

These first reflections about QoH are still uncertain and will be developed from hypothesis to thesis. A suitable start for the new year with a new realisation of a dream for a new era, - like the titles, the lyrics and the tunes of this artice artist.

Blog UU20211204

The Humanity itself is a fundamental subject for the UN's SDGs, - yet being most abstract and theoretical. We simply do not know what we are, how we develop or is going to be. It seems overwhelming, though,

trying to imagine how a fully integrated humanity will perceive, reason and interact globally. However, this month is the last one before a new year, called advent, the time for caring for a newborn in troubled times. In such light, this thesis is made, supposing that the Humanity is like an infant living being. Such an abstract and alienated hypothesis will be related to some models developed in previous blogs, like UU20160513, as well as continued this decade through.

Terms of humanity are rather focused on human ethics than a collective human being. The reason might be that we have not considered the humanity as an existing being yet, but rather as abstract hypotheses. Thus, this attempt to concretize such hypotheses needs to synthesis some global ethics of humanity with the development human biology and cyber-technology. That comprises this so-called 4th Industrial and Social Reforms (revolutions), - that basically comprises cyber-technology and biology.

Still, the ethics of 'humanity' is not clearly defined, but rather relate to terms like; human beings as a group, human race, mankind, humankind, human conditions, human nature and collective human quality. Thus, 'humanity' is considered as one of consistent seven virtues (temperance, prudence, courage, justice, faith, hope and charity). The humanity virtue is mostly related to basic ethics of altruism (unselfishness), love and compassion, - but differ from mere justice, though. Such humanist philosophies stem from Aristoteles and was revitalized in the Renaissance period. Now, the humanism is constituted by most united nations as the 'human rights' (HR) – and extended to the global Sustainable Development Goals for 2030. The first SDGs are simply the classic HR, the midst concern our globe and the latter our civilizations.

Such a development of the humanity will probably not be completed in this decade though. The perspectives should rather be in centuries or even a millennium. Still, the UN SDGs are a vital start for the quality of the infant humanity. However, the terms of human development are not quite the same for the development of humanity. For example, the term, infant means speechless and is a formal synonym for the common term baby, or juvenile of other organisms. The term applies typically for 1-2 years, yet 4-7 years in English, and up to 18 years in legal terms. The time-spans for the humanity is far longer and uncertain, though.

The most important organ for any lifeform is the center of the neural system (the brain). It is usually located close to the sense organs. Each of billions of neurons in the human brain are connected by synapses are intra-connected to thousands and communicate by signal pulses via fibers. Physiologically, the human brains exert centralized control over a body's organs. This allows rapid and coordinated responses, reflexes, as well as sophisticated purposeful control of behavior based on complex sensory input that require information integrating capabilities.

Still, we do not understand how the brain cells cooperate in millions, although we do know the operations of the individual cells. Recent models in modern neuroscience consider the brain as a biological computer. That is very different in mechanism from an electronic computer, though, - but similar somehow since it acquires information from the surrounding world, stores it, and processes it in a variety of ways. Likewise, we humans are interconnected, interoperative and interdependent, which proves that humanity act like an organism – individually as well as collectively. Thus, humanity should be considered as an interrelated hybrid, in the sense that our shared qualities also have similarities like: the Internet is like the neural network, bigdata is like our memory, thinking is like cpu operations, neural perceptions like the Internet of Things (IoT), reflexes like communities' emergency systems, etc.

Conclusively, "I think, therefore I am" (Cogito, ergo sum) is a fundamental statement of Western philosophy on human intellect and self-awareness. A similar principle "We think, therefore we am" should apply to the present Humanity as well as any individual human. This blog is thereby the introduction of a new thesis and UU theme called 'the Quality of Humanity' (QoH). The following blogs is therefore dedicated the synthesis of SDG, QoH and several previous theses.

Blog UU20211101

Advanced Infrastructures promote advanced civilizations. The public institutions are responsible for any kind of public infrastructural development, availability and maintenance. Moreover, the term infrastructure is here extended by including the new technologies, society and humanity's advances. Although ridiculed a century ago, our present Information technological infrastructure is fundamental for any advanced civilization. Hence the upcoming virtual infrastructure will be as vital in a few decades. However, being 'blinded by technology' is alarming, since our LifeQuality concerns the development of the society for humans and the humanity. After all, the neural and social networks are kind of infrastructures too. The focus in this blog is somewhat general, though, - but will be rather hypothetical in some following blogs.

The global Sustainable Development Goal 09 is; "to build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation". The Institutions (SDG17) are responsible to build, maintain and innovate these infrastructures. However, the SDG goals and targets must rather be considered as hints and indications than workable qualitative requirements to our needs. Moreover, a main confusion is that the CO2 target not even included in SDG13 'Environment', but merely mentioned once in SDG09. Thus, this blog is an effort to further elaborate on the main institutional obligations.

Issues of Infrastructures were generally talked through in the blogs like 'Public Market Failures' (UU20210605 and UU20170630). A main point is that: "Products and services can be categorized into 'necessary' and/or 'tradeable' – or not. Some require markets for exchange, whilst other cannot be priced and traded at all. Thus, there are both markets' 'commercial failures' and 'public failures' - categorized as commercial or public– i.e., practically or legally." Furthermore, the development of Public 'hyper-services' should be a main challenge for the public institutions in order to innovate the infrastructure services in the concepts of XaaS, meaning 'Anything as a Service', - especially the Markets (Platforms) and the infrastructureaaS. (UU2017.juni.30)

All of these infrastructures will be substantially advanced in this decade of the 4th Industrial and Social Reform (IR4 & SR4). Just imagine consequences of the new electric energy infrastructures that will decentralize and democratize the oligarchic oil elites' infrastructures. The digital infrastructures are already changing services, consumptions and distributions – yet merely just began the innovations. Virtual market-places for public, as well as commercial, services, will elevate access, knowledge and deliveries of public self-services of public properties. (PPaaS, see blogs like UU20210303) Infrastructures for virtualizations of citizens in meta-verses will open the world, the market-places and interactions for anyone, anywhere, anyhow - at anytime. Just imagine meeting your fellow ancient soulmate over dinner in Mesopotamia, at work in Metropolises or leisure on the terraformed Moon.

Consequently, the quality of infrastructures is entirely dependent on the quality of the public services – hence the public servants' cybernetic lawfulness. However, there are interdependencies of the public and commercial markets due to both kind of markets' failures. Therefore, joint partnerships (SDG17) must be promoted by the SDG16 Institutions for success of SDG09 infrastructure in order to reach all the SDGs in 2030. Furthermore, the public enterprises have to be controlled by strict rule by law to minimize the corrupting oligarchies, state-aid abuses and market predatory (SDG16). The penalty laws are in fact as strict for the public enterprises as the commercial.

Still, we have no way to understand the changes we are making to ourselves – just like in the start of the 3 previous reforms. However, some hypothesis will be initiated in the following in blogs, - based on the idea that humanity is born and developing, - just like an infant. Our global neural-network is working somehow, just like the central neural system for an infant at the age of 3.

Blog UU20211002

'true or false' is the simplest logical statement – yet the very basis for our overwhelmingly advanced systems. However, an altered statement can have fatal consequences for anything like; profiling, votes, alarms, cybernetics, automation, big data, artificial intelligence, as well as governing, ruling and judging. Still 'false negative' or 'false positive' statements can be corrected by proper cyber-systems with feed-back control. Any civil human will certainly favor such. Nevertheless, the ethics are quite the opposite in any kind of warfare. The coldwar was particularly aimed towards 'western' bureaucracies during the 3rd industrial reform of digitalization. Thus, there are crucial unreparable 'false' systems in the constitutional

institutions. Fortunately, though, these Institutions are one of the united nations' obligated Sustainable Development Goals for 2030, - namely the SDG16. This blog follows up the previous blogs concerning 'AI vs ai' and 'BigData psychoses.

Digital logic is based on the Boolean algebra, where an item can have one of two states like; 1/0, positive/negative, true/false, yes/no, on/off etc. Boolean is different from the elementary algebra (+, -, *, /) since the main operations are conjunction (and), disjunction (or) and negation (not). Such states (bits) and operations (cpu) are now numbered in billions/sec even for the smallest devices like pc, phones and any other IoT. Surely any digital system is based on technology of cyber quality correction by feedback that fixes false negative or positive bits.

Still, errors are frequent - also those that are undetected until too late. Most such errors, or 'bugs', of a single bit's state are insignificant and automatically corrected. Yet some bits are important, like + or - for budgets, yes or no for voting, guilty or not in judging, etc. Simple psychosocial transaction analysis (TA) does certainly uncover such 'bugs' in seemingly comprehensive political decisions, - like 'yes, but no'. Furthermore, some bits are crucial, like false alarms that are called 'false negative' or 'false positive'. Such hypothetical consequences of 'programmed to lie' thus artificial insanity, is expressed in scientific fables like HAL 9000 (left-shifted letters). The fable 'I robot' introduce the human ethical law of robotics (AI).

However, such accidental 'bugs' are no longer the main concern, but rather the deliberate data-hacking, - viruses and -parasites. There is no safety in a perfect computer-system, when its computer operators are manipulated. Alarmingly though, public institutions are too reluctant to upgrade their systems to the present security requirements and options. Yet, operators are granted collective administrative authority that enables undetected and anonym access to read, copy and alter any data of anything and anyone. No wonder that the Institutional BigData and AI might become big psychosis and artificial idiocy. Anyhow such sociopathic parallel organisations have become, there is still merely one single bit to alter to cause waste damages to the civilizations.

Some hypothetical examples of such fatal bit of true/false could be; the Brexit election, ratification of the global human rights, do/don't SDG-2030, the Rotterdam bombing, the Turkish palace-guards' coup-alarm, the shots in Sarajevo and Texas, most CdE Games, some SARS-Covid lockdowns, the Molotov-Ribbentrop Pact, the Pigs Bay invasion, the Chernobyl disaster, extreme climate politics, the Apollo 13 launch, GNP budgets, the Enola Gay drop, ILOVEYOU (not), as well as most disastrous institutional projects.

All in all, the quality of data is as important at micro- as well as macro levels, - simply because the BigData is based on bits and AI is based on data. Therefore, the IT models and methods can be converted to constitutional systems as well. Thus the 4 constitutional LEJD powers of civilized nations (the Legal, Executive, Juridical & Democratic powers) are as jeopardized like the tiniest IoT device.

A 100-year-old 'news' is that the anti-constitutional 'Cults of Comintern' (CoC) has prepared its virus parallel organisational apparatuses (POA) since WW1. Still, the good news is that our constitutional systems can apply digitalized models to re-gain proper quality of constitutions. (See blogs like UU20200501.)

Fool On the Hill - Beatles instrumental

Blog UU20210905

'Big Data', is not merely a buzz words in this 4th industrial reform. Like the institutions should not mistake 'AI' for 'ai', - the true 'Big Data' should not be mistaken for collective 'big psychoses'. The trend of 'fake news' indicates that the 'parallel press apparatuses' methodically alter facts with such intends. In fact, dysfunctional institutions do suffer from corrupted Big Data – that makes the quality of decision-making critical. Thus, this blog continues the issues of 'artificial idiocy' (ai) and sets the focus on the alarmingly big masspsychosis against the Sustainable Development Goals for 2030.

According to Wikipedia, the 'Big Data' concerns analyzing, extracting and process extremely large data sets, including capturing, storage, simulations, research, sharing, transfer, visualization, querying and updating. Big Data grows exponentially due to extended collection by devices like phones, cameras, microphones and any kind of IoT. For example, the global data volume grew from 4.4 zettabytes in 2013 to 44 in 2020 - and is expected to be 163 in 2025. Thus, a PC cannot process and analyze that much data, which require hundreds of computer servers. Therefore, public, as well as non-public institutions, should reconsider their data management options. Such solutions of XaaS (Anything as a Service), especially DaaS '(Big) Data as a Service' and PPaaS (Public Properties as a Service) are talked through in blogs like UU20201203 and UU20210303.

The humanity's perception is shifting due to Big Data. Such high qualitative information can escalate the fundamental values that most ancient philosophers agreed on: that good deed depends on good information. Just like we cannot imagine our perceptions in 100 years, they could not imagen our present Big Data realities. However, computer simulators indicate how we are evolving. Computer games/simulators like Civilization and SimCity can be merged with real enterprise applications like CRM, ERP and CMS. Such simulators cab be operated by anyone, anywhere, anytime and anyhow. However, the UN Big Data for SDG is far too inconsistent to utilize for global surveys, planning and decision making. The solution is simple, yet bureaucratically hindered. The data-formats should be standardized in revised reports versions and databases for to unified terms of time, periods, place, disturbance, size, currency etc.

Furthermore, cyber applications evolve to the concepts of 'metaverse' that integrates several kinds of social media. It will also extend the concepts of virtual avatars that provides anyone with global virtual identity, like the global system 'Second Life'. Anyways, the utilization of 3D color manageable presentations will escalate computer images to a next level, like 2D images did. Talking, interacting and dealing with anyone, anywhere, anytime will most certainly reform most present relations, influences and interactions, - which ultimately escalates the humanities evolution.

The saying "Seeing is believing" (in Big Data) has already proven to be a most powerful influence for important decision-making. Alien manipulation of western democratic elections has already altered parliaments in most decisive ways. Pandemic reporting is sometimes too untrustworthy for public decisions. Riots has been raised and governmental Coup attempts have altered stable constitutions. Even recent weather reports seem to worsen as diluted CO2 campaigns are politically propagated. These

examples are merely symptoms on how such negative influence will worsen of Big Data on institutional cyber systems in this decade of the 4th industrial reform. That includes critical Manipulations of SDG related Big Data – that will corrupt the UN 17goals and 169 targets for 2030.

The Big Data Quality is therefore of utmost importance for all the United Nations' goals and targets for 2030. The UN data sets are too inconsistent and corrupted for qualified decision making. Unqualified trust in the UN Big Data can cause the global constitution to be misguided by 'ai', - believing it is 'AI'. However, the low-quality Big Data can provide vital indications on where to set focus for further on-site investigations. Conclusively, any constitution has to prioritize their data quality as seriously as the institutional monetary budget planning and spending. There should be data-auditors as well as capital auditors.

20210801

Issues of Artificial Intelligence (AI) should not be too alarming, - when mastered by human ethics. The artificial idiocy, though, is already a serious hazard to the citizens, civilizations and humankind. Thus, the 'ai' should indeed be a main issue for the 16th Sustainable Development Goal (Institutions), thus the whole UN SDG 2030 Program. Therefore, the focus of this blog is on the intelligence of public institutions in order to prevent critical artificial idiocy.

Briefly: Intelligence is said to be the capacity for logic, understanding, self-awareness, learning, emotional knowledge, reasoning, planning, creativity, critical thinking and problem-solving. Yet, the standard measure for adults, IQ (intelligence quotient), is not comparable to minors, disabled or elderly. Intelligence is also observed in animals, plants and machines. These are not comparable to human IQ either. Still, no one scores high on every kind of IQ, but rather a single kind. Thus, a person might score very high on logic, social or self-awareness, but low score on others, - like a 'nerd' might be socially very unintelligent. Hence, Artificial Intelligence of machines might rather be like autism, - which also applies for organisational machines like bureaucracies as well as technocracies.

The term 'idiocy' refers to an IQ score below 30/100, - which basically means solving 1/3 of ones needs. It is questionable, though, if that is rather due to instinct, intuition, instructions and mimics. Still, tools are not intelligent, but can be used in more or less intelligent ways – although some do advertise their products as 'smart' and 'intelligent'. Likewise, no book, program or constitution are intelligent in themselves, but do

have qualities to be utilized intelligent – or idiotic. Thus, institutions can be operated in ‘AI’ or ‘ai’ ways – just like any other tools.

Results of ‘idiocy’ can occur despite normal intelligence, though. Unwanted outcomes might be due to; bondage, force, violations, blackmail, threats, disinformation, masspsychosis, denials, ulterior agendas, collective dysfunctionalities, unforeseeable complexities, ‘butterfly effects’, Hasse's algorithm, imperfect orders, faulty coding, ‘data bugs’ etc. All of such ‘ai’ could and should be diagnosed, repaired and proper maintenance. The previous blog UU20210704, focus on why Cyber is most important in this 4th industrial reform. In brief, though, this ancient concept provides quality correction by feedback about deviations and faults for intelligent quality ensurance.

Unfortunately, too little is done to late in masses of institutional issues. Public IT scandals have become a norm. Consequent continuation of such ‘artificial idiocy’ has become a trademark for public services. Still, unintelligent digitalization of the 3rd industrial reform is dominant to the public institutions. Civil servants seem unable to free the intuitions from such ‘ai’, yet are freed themselves from legal consequences. (See blogs like UU20210501)

Hence ‘artificial idiocy’ (ai) is not the main reason for the institutional dysfunctionality, though, - but rather ‘cyber parasites’. Most intuitions were seriously war-damaged throughout the previous century, - due to the war-declaration of 1920 towards the western nations and citizens. However, is then a war-damaged institutional cyber-system artificial idiocy? Certainly not – just like any infiltrated, manipulated and assimilated nation is forced into self-harming, like a Mariotte State degrading any free citizens to its working caste – like the so-called ‘useful idiots’.

The alarming aspect is still as concluded in the blog UU20210402. “A warning concerning the escalating institutional para-technocracy, though. The post-coldwar ratified laws are as messy and dysfunctional as the PC Operative System OS2, which, when dilutional denials could no longer rule, - were finally abandoned by its own creators. However, that technocracy is deployed into most western institutional computers. Then, that plutocracy sold the technology, customers and employees to BRICS. Consequently, that very anti-thesis to the West was granted access to western most institutions – like some remote-controlled parallel apparatuses. Conclusively, the highest priority should be security innovations in the concepts of NATO cyber and resilience security - as well as the SDG.”

Technopolis - Yellow Magic Orchestra

UUblog 20210703

'Cyber' is a vital concept for the Sustainable Development Goals, - especially in this decade of the 4th Industrial reform. 'Cybertechnique' describes the science of civil governments, which makes the Information Technology (IT) essential for this re-evolution of the public institutions (SDG16). These mass-productions of public service are as determined to such total industrial reforms, like farming, mass-productions and digitalization were in the 3 previous ones. The outcomes will as well benefit the citizens' LifeQuality – if managed wisely. Thus, the focus of this blog is on such de-bureaucracy of the public institutions - in order to liberate the civilizations, the para-organisations of coldwar corruptions.

'Cyber' is an ancient political term that means 'governance' - concerning qualitative steering, navigation and governing. Nowadays, the term is used with suffixes like; cyberspace, cyberlaw, cybercrime, cyberwarfare, cyberterrorism, cybersex, and cyberbullying. (See blogs like UU20170721.) Such daily use of the term 'cyber' has re-vitalized it and is daily on the agenda. 'Cybertechnique' is simply about providing feedback for qualitative correction and improvements of the production. Cybertechnique is therefore also applicable for most kinds of science, like; architecture, design, biology, computing, engineering, earth system sciences, laws, management, mathematics, psychology, philosophy, sociology, art and sport. The cybertechniques was a major reason for the qualitative development of IT in the past reforms with concepts like 'handshake', 'control-bits', monitoring and automatic error-handling. Such concepts are definitely applicable and vital for cyber quality assurance too.

All Constitutions are cybernetic system – although of various stated quality and various state of quality. There are 3 constitutional LEJ powers, where the Legislative power states the qualities and allocate resources, the Executive power make the products and services and the Judicial power gets the feedback to judge whether any qualitative deviations require corrections. Theoretically, the ideal constitutional cybernetics are free from any corruption of any kind. It is simply like a machine. However, the corruption from the cold-war is alarming – yet denied with falsified alarms by the parallel apparatuses. This is a main concern in the UU blogs like the cited in the following paragraphs:

"All things considered, most systems of LEJD quality appears severely dysfunctional, when considering (...) LifeQuality (...). That is thoroughly denied by some constitutional powers, which proves the state of dysfunctionality. Yet, there is a simple preventative and constructive (method) for significant improvements. This can be done by virtualized cyber bureaucracy. Start by correcting the executive powers' redirecting of organized crime from the common legal systems and direct them to the proper civil penalty legal systems. This will reduce the organized crimes in the public sectors dramatically." (UU20190801) Note: In cybertechnique terms, the feedback system for corrective quality ensurance is shortcut by parallel organisation apparatus – as dictated in the Comintern 21 conditions to its radicalized collaborators.

"An IR4-way to view a solution for proper Quality of LEJD, lies in the previously comparison of the Legislative power with a computers' Operative Systems (UU20170512). The analogue goes for computer bugs, computer viruses and computer parasites as well. Therefore, an efficient and realistic quality assurance for the Judicial powers will be to reconstruct and innovate the whole Judicial powers by means of virtual IT and automation. Besides, a success in healing the () Legislative power is particular important for the rest of the () nations, since (the nation) is a dominant Juridical power for all of them. Still, the infectious bureaucratic system is pandemic and

has been so throughout the cold-war. Such projects must involve all of the Quality of LEJD. The IR4 & SR4 (4th Industrial & Social Revolution) are the waves that can be utilized progressively for this and provide the power to surf it through. In conclusion, (...) events to come is not that unpredictable anymore, - when using relevant models for analysis.” Consequently, in order to promote the SDG 16, the United Nations should provide proper designs and cyber applications for IR4 Judicial powers to all UN member states for free, - at least for all UN legislations, - but also consolidations with national legislations.” (See blogs like UU20200501, UU20170623 and UU20170728)

Consequently, the utmost task to ensure all the UN SDGs quality is obviously to eliminate all the constitutional anti-cyber apparatuses. 'The international association of red trade unions' are such 'built to fail' 'parallel organisational apparatuses' – as dictated in the Cominterns 10th condition to its worker cast. That dictate is no ideology, but a 100 years wargame of sociopathic piracy – in order to bondage all civilizations and democratic citizens. (See blogs like blogs like UU20191004.)

UUblog20210605

The public markets have failures, - just like the private markets have. Such markets dysfunctionalities cause critical hinders to the global Sustainable Development Goals for 'Institutions' (SDG16). Therefore, all the united nations need to develop their post-coldwar markets according to the civilized 'rule by law'. Thus, the public markets have to be consistent with all the other SDGs, - in particular SDG9 Infrastructures/Industries, SDG11 cities/communities & SDG17 public/private partnerships, - as well as the SDGs for basic Human Rights. This blog will focus on some of such critical issues.

The markets' nature and failures are talked through in blogs like UU20170630. In brief: "Products and services can be categorized as 'necessary' and/or 'tradeable' – or not. Then, it is easy to determine whether markets should to considered as public or not public. For example, there should not be private monopoly on water and citizens should not be bound to permanent collective housings. Some products and services require markets for exchange, whilst some 'market failures' exists since they cannot be priced and traded. There are also 'public failures' like 'forced citizens' financing' - and public servants' tend to do alienated spending." "Markets should therefore be categorized into; 1. Collective/necessary, like infrastructures that are the public responsibility; 2. Collective/unnecessary, like arenas are public regulated and partial public

responsibility; 3) Tradable/necessary are publicly supervised; and 4) Tradable/unnecessary, like consumers goods, are private concerns only.”

Market failures are compensated in order to function better in the civilized societies. There are laws and state aids to protect citizens and small businesses from predator oligarchies. There are state aids to develop infrastructures, for rural societies, for market democracies, for maintenance and for innovations. However, such means are abused by private and public oligarchies. Such abuses hinder rightful access for SMB to the huge public market of public purchasing. Moreover, way too much R&D state aid is re-directed to futile research projects - on the cost of the needed sustainable development. Most of the required research for the SDG solutions are already done. Now, it necessary to develop and implement those solutions to realize the development goals before 2030.

Alarmingly, though: “Once again, a reminder that the CPI (Corruption Perception Index) is a measure of the perception, - not the real level of corruption. The mass-propagated delusion that the low score indicates low corruption, is simply just another proof of the masterly mass-psychosis deployed by the parallel press apparatus.” (UU20180316) The article ‘Political corruption’ in Wikipedia mentions several types of corruption like; extortion, comradeship, scandalizing, electoral cheating, fraud, ‘financial mess’, bribery and mafia activities. Global corruptions concern mainly drug-trafficking, human smuggling and whitewashing of money. The annual global political corruption is estimated to be about 1 trillion \$/year, the global GWP is about 70 trillion \$/y. That suites the thumb-rule that there is an average of 2% disloyal employees - in most firms, - but probably much higher in the public market – rivaling in the non-public markets.” (UU20141024)

The relatively high level of corruption in the public markets is due to the ‘Parallel court apparatuses’, - that are abused to shortcut the criminal courts. Assimilated private industries were illegally granted protection like collective public industries in order to escalate ruins of national private markets. All in all, oligarchic abusive of both public and private markets as well as governments and related cybernetics.” (UU20210402) Only true and uncorrupted ‘Rule by law’ can minimize such public organized criminal disservices.

There are some obvious tasks to do, in order to minimize the public market failures. yet, the parliaments’ governments seem to be too coldwar traumatised to handle the dysfunctionalised public servants. Still, public servants are obliged to:

1. Do rule by penalty law at the coldwar public servants – and not by parallel court apparatuses.
2. Create proper markets places for both public and non-public sector, preferably by virtual IT.
3. Provide the qualified SMBs full access to the public B2B and G2B markets.
4. Escalate the sustainable development by technologies like Public Properties as a Service’ (PPaaS).
5. Reform the public institutions and service by means of the ‘4th industrial and social revolution.

A Hard day's Night – Beatles piano cover

Blog UU20210501

The 'International Workers' Day' should rather honor the liberation from that workers' cast of thralldoms - into true democratic citizenship. Historically, the ruins from the Comintern's world-wars towards humanity did force the civilized united nations to legislate the Human Rights. The nations forbid any cast-system of thralls, enslaved Slavs and workers. Still, in this decade of pandemic warfare, some parallel apparatuses of some Cults of Comintern (CoC) preys on civilians - like during the purging plagues of 1919. Confidently, such abuses will be ended in this decade by proper global ratifications of the Human Rights, the Nations' Rights and the global Sustainable Development Goals for 2030. This blog will endorse such ends by uncovering some occult mass-psychosis of such workers' casts.

This annual issue, concerning the workers' liberation, have been blogged for 10 years. The original perception stands - as expressed in blogs like UU20200501. That fake 3rd International, propagated by the Comintern of 1920, is the very anti-thesis against humanity, - as expressed in its 21 conditions. That is an ongoing war-game of bureau vs bourgeois, - i.e., the Russian institutions vs French-related citizens. Thus, the blogging formed several thesis, models and conclusions - like PROSA (Pro-Russian Oligarchs, Separatists and Autonomes), the P5GO (5th Pyramid Game Over), and the 4D psychosocial model for organisations.

History might very well be repeated, like some mass-psychotic script, - mistaken for prophecy, faith memes, - or simply sociopathic orders in Underworld Games of the 4th degree. There are serious indications that such scripts are refurbished for this century. Those Comintern's conditions are determined to enslave the peasants, soldiers, press-workers - and women as sex-workers for non-capital payments. Those wars left some grave traumas, like; the Eurasian Gulags organised for mass-purging, assimilations and genocides, the corruption of legal justice, the parallel apparatuses of public disservices, the unlawful public oligarchies, their inhuman trade unions and some high-treacherous political parties as dictated by the Comintern.

Sustainable LifeQuality do require the sane United Nations to handle the insane Cults of Comintern. However, the origin of CoC is not from the 3D superpowers of the Thrones or States, - but of the Temples. The illusions of a homogenous Eurasian continent split the Temple-Throne alliance and formed the occult Temple-State conspiracy, based on the claim that the Tsarina was a Catholic spy. That schizophrenia is as dilutive as The Great Schism of 1054 that divided the Trinity Church in two. However, the Eastern faction became rather a spiritual infestation of the Mongolian/Siberian shamanism of ROC. Thus, the legacy of Rasputin, the Comintern, made the occult State-Church. The climax of the millennium crusade is known as the East vs West Cold-War – workers vs 'bourgeois' citizens.

Wikipedia says about the occult atheism and their workers: "Black shamanism is practiced in Mongolia and Siberia. Black Shamans are usually perceived as working with evil spirits and White Shamans work with spirits of the upper world. The highest group in the pantheon consisted of 99 Tengri, 55 whites and 44 terrifying blacks. The whites were of the nobles of the clan and the blacks of the commoners. A third category consisted of 'the evil spirits of the slaves and non-human goblins.'" (UU20200402)

Some occult red waves of genocides have been credited the demonized hosts like Atilla, Genghis and Stalin. (No wonder where the script to 'Lord of the Rings' came from - and the dystopian utopia 'Brave New World', where the epsilon cast is indifferent to the Stalinist working class.) Anyways, the propagated mass-

psychosis of the working class is related to the rise of Siberian black shamanism, - like a legacy and retribution for Rasputin sr.

This uncovering of the murky origin of the worker class has to be exposed in full – in order to minimize such inhumanity. Still, there might be legitimated reasons for retribution that will not disappear unless justified. Anyhow this syndrome, the positive path is in the true 4th International – the United Nation's HR, NR and SDG.

Have a prosperous workers' liberation day.

Breathe / On the Run - Pink Floyd piano

Blog UU20210402

High qualitative Judicial Institutions are crucial for all the Sustainable Development Goals, - as for any fundamental human right. The three constitutional powers (LEJ) are interdependent, thus corruption of one do corrupt them all. Proper institutional quality assurance requires thorough diagnosis, maintenance and repairs – and even reforms sometimes. Quite alarming though, is that the western judicial systems have been systematically corrupted by the Comintern's warfare towards 'the west' since 1920. Consequently, the present institutional bureaucracies have become dysfunctionalized beyond repair. Therefore, the Judicial institutions require a total reform, - by upgrading to this century of cyber technology. Thus, this blog's thesis aligns with this decade of Sustainable Development Goals and the 4th Industrial Reform.

How-to judge right from wrong, then? Such a fundamental question is highly relevant to the SDG 16 'Institutions' – as well as the themes of this 10 year of blogging. In constitutional sense, the Judicial power is one of the three dimensions in the 3D ethical value-system. Those 3 axes are; good/bad, constructive/destructive and right/wrong. Thus, the outcomes are of absolute judicial values, like: right or wrong, innocent or guilty and freedom or penalty, - just like the digital states in cyber algorithms. Consequently, the Judicial apparatuses are the most suitable candidates for digitalization into cyber-technology. (Ref. blogs like UU20140912, UU 20150612 and UU20170407).

Even though the Judicial institutions do judge according to the Legal power's lawmaking, - the Executive powers' bureaucracies are now too corrupted by the Comintern's 'parallel judicial apparatuses'. Criminal cases, detected by the Executive power, are misdirected to para-courts that were merely made for disputes of workers, soldiers, press, psychiatrists, clergies etc. In effect, the coldwar bureaucracies are now in a state of 're-built to fail' - in order to execute the Comintern's high treasonous Coup d' Etat (CdE). Most alarming, with such parallel courts of criminals, the procedures of the Executive powers are overruled by Underworld Games players – 'the untouchables'. Such Games of CoC and PROSA are talked through in blogs like UU20200501 and UU20160722.

That tabu, concerning the criminal parallel Judicial institutions, is permanently denied, - which do confirm the symptom of seriously dysfunctional organizations. Such facts are very well documented, yet systematically censored by the Comintern's para-press. Still, in brief, its 21 conditions of 1920 dictate its unfree worker to make parallel apparatuses within the prey nations' institutions in order to support the Comintern's political parties' CdE. Historically, that conspiracy was constituted by the Molotov–Ribbentrop Pact of 1939 - and executed by Stalin & Hitler. Yet, their original objection seems to be to undo the 100-year-old Prussian empire - like the UN forerunner 'Concert of Europe'. That sociopathic duo was manically executing the anti-western warfare of bad/destructive/wrong. Thus, the present anti-western legacy is named BRICS, which will be talked through in future blogs.

Anyways, the European nations were dysfunctionalized by corrupted Judicial powers and para-courts. Now, some corrupted constitutional standards are set by those underworld para-courts. (Ref. blogs like UU20141121.) Yet, most visibly, Poland struggles to counter-reform their infiltrated Judicial institutions from corrupted judges, layers and workers - that are remote-controlled by the KGB-regime in their neighbor state, Belarus. In solidarity, and for our own sake, the rest of the West should ignore such pre-justice of the Comintern's para-press and should also initiate 'judge the judge' - as required by our true 'Rule by Law'.

How-to judge a judge, then? This is a most pressing question, since there is no way that any parliamentary constitution can function well with some corrupted Judicial institutions. However, the Western penalty laws are very clear and strict towards unlawful judicial servants. Yet nearly none are sentenced by those underworld para-courts of disputes. Still, the governments of the democratic parliaments can order the Executive power to execute some quality assured 'rule by law' to the pre-judicial institutions. Moreover, and most important, the post-coldwar legislations have to be qualitative ratified into national law, - as the rule of law requires (UU20190906). Such innovations of the Judicial institutions can rather be in the concept of PPaaS – more specific, JaaS 'Justice as a Service' (See the previous blog UU20210303.) Most important though – there must always be a final human judgment by truly qualified human judges.

Blog UU20210206

The institutional systems that provide 'social state aid' are probably the most corrupted of all. The legal obligations for the national institutions are very clear, though. The universal legality of these citizens' rights has been undeniable ever since the majority of United Nations signed the Universal Human Rights (HR) – over half a century ago. Still, today, the coldwar organized crimes within public institutions are still exploited by 'parallel organisational apparatuses'. Now, such anti-citizen crimes are thoroughly adapted, deployed and globalized. Yet, the institutional coldwar traumas are thoroughly denied and thereby cause dysfunctionalities in most nations. Therefore, this blog continues the talkthroughs of the previous ones and will pin-point some of such taboos and solutions for the 'social state aid' in 'the West'.

The union of European nations, of 'the cradle of democracy', is a forerunner for 'rule by law' for their citizens. For example, the European legally obligated 'state aid of social character' is also like the so-called 'Universal Basic Income' (UBI). Consequently, it is criminal for public servants to redirect the citizens' money to any organisation – public or private. That includes any payment for public services like; health, transport, education, housing, caring, pensions, unemployment benefits, wage subsidies, housing assistance, day care, child support services etc. (UU20210102.)

The Sustainable Development Goal # 8 is to "Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all." The part 'employment and work' is directly related to the first 5 SDGs and the Universal HR. Decent work is also fundamental for supporting the rest of society and family. Therefore, anyone can be terrified of losing job, wages that is vital to support family, home and future. Most citizens give in to threats of such, in order to save their wives, children and homes. This fear of ruins is widely abused by some mafia worker' organisations that indeed degrade the free western citizens to merely be of some workers' cast. No wonder that such Comintern related organisations are globally known as 'the mob'.

However, the ancient Eurasian caste systems can now be categorized as; royals, clergies, officials and unfree workers. Still, the legality of SDG and HR has freed any human along with national obligations to some basic LQ - including penalty laws towards bondage cast like thralls, slaves and workers. (UU20191004)

In order to end the illegal coldwar Games of social state aid - It is necessary to immediately effectuate the 'rule by law' to its full extent. That massive illegal corruption by public officials has been constant for decades. The reason is the high treasonous Comintern's 21 conditions to its official agents in bondage. The criminality of those officials is accumulating in millions daily and now sums in GDPs. (UU20160722)

As previously concluded: "Consequently, in order to succeed with the SDG16 (and SDG08) targets mentioned, - there are some urgent actions to do. All the present employees in public sector have to read the information about their obligations as civil servants according to national penalty law. Then all personnel have to sign a security clearance, to confirming that dedication. This can easily be arranging by internal e-mail systems. Moreover, a whistle blower system and amnesty for all the victims of CdE Games

(Coup d' Etat). Finally, no criminal public servant should be trusted their position and powers anymore.”
(UU20201002)

However, there is not currently the capacity in the court system to properly effectuate 'rule by law' for the thousands of Comintern submitted civil servants. However, the SDG16 resources can be innovated with solutions of the 4th industrial and social reforms – like; immediate suspension, 'Universal Basic Income (UBI) and foot-chain with GPS – like some Covid quarantined. Criminal Comintern organisation should just as effectively be judged like any other financial enterprise.

Finally, the enormous capital of state aid is freed and redirected to truly achieve the SDG08 for the milestone year 2030.

Eleanor Rigby - Beatles piano instrumental

UU20210102

This new year's blog sets the focus on the illegal re-distribution of money - from the public Institutions (SDG 16) that was intended to the citizens. The citizens' basic human rights are continued in SDG 1-5 - concerning; poverty, hunger, health, education and equality. Such distribution of state aid is legally bound by the international treaties and national laws. European nations, of 'the cradle of democracy', thrives to harmonize the national 'social pillars' in accordance to the UN SDG-2030 obligations. Such holistic concepts are called 'Universal Basic Income' (UBI). This blog will focus on what, why and how that obvious innovation of social state aid must immediately replace the present corrupted execution.

Basic Income are talked through in previous blogs like UU20170526: "Political philosophies, like the right to a basic income to satisfy the basic needs, are as old as civilization itself. Most apparent, during crises of war and force majeure, humans organize free supplies for food (meal-ticket), housing (hospice), other rations, collective transport, etc. However, previous management systems were too primitive for such complex situations. They were remote and central driven via oligarchic and standardized logistics. Those management systems were seriously dysfunctional and caused corruptions, crimes and crises. Similar cold-war systems (...) are still dominating most civil state-aid systems concerning food, housing, transport, schooling, health-care, pension etc. Most fortunately, those inherited dysfunctions can be fixed with means of the 'Industry 4.0'.

Furthermore: "There are 3 traditional claims against Basic Income are: 1) 'That it is too expensive.' Yet the social costs of poverty are higher. 2) 'People will not work if not forced to.' On the contrary, most people want to self-realize, be social and contribute. 3) 'It is politically too complicated.' True, this is most certainly serious a challenge, since UBI has actually been a legal Human Rights obligation for all United Nations for 50 years - and in the EU for 20 years due to competition rules of State Aid. (See UU 20141017 about LQ, UN,

EU, HR).” However, the main real motive against the obliged legal Basic Income stems from organized crimes toward humanity as in forced workers unions. This will be the main issue in the next UU blog.

Harmonizing of social pillars might be the most contraversive political issue of this decade. Yet, any nation has their own social pillar - and always will have. The European nations strive to harmonize UBI according to UN and EU treaties and laws. However, the Quality of the Social Security Systems have become dysfunctional by cold war crimes. In order to fix those corrupted systems, the whole Executive Parliamentary power have to act in accordance to the valid legislations for state aid. Their IT systems have to be reconstructed by means of IR4 and Cloud services. See the previous blog explaining XaaS.

The European legally obligated ‘state aid of social character’ can easily be realized without technical obstacles. The obstacles are rather due to political corruptions. The TEU article 107 dictates that State Aid, having a social character, must be given to the consumers and not suppliers or producers. ‘Basic Income’ is such State Aid, having a social character. It concerns most payments for public services of health, transport, education, housing, caring, etc. All these aids shall be paid directly to the citizen, like payments as pensions, unemployment benefits, wage subsidies, housing assistance, day care, child support services etc. Consequently, it is illegal when public servants give the citizens’ aid directly to public or private suppliers and producers.” (See blogs like UU20170609.)

Globally, more people live in urban region than rural. Yet, in western civilizations, more than 75% of the citizens are urban. These people cannot support themselves with traditional self-sustain means like hunting and farming anymore. Quite the reverse, they are rather restricted by urban limitations, regulations and crises. Therefore, the state aids of social character have to be evenly distributed to cover the basic needs of LQ (LifeQuality). Or else, there will be devastating riots of desperations by hordes of trapped citizens.

Most can be fixed due to innovations of virtualizations and XaaS, - as mentioned in the previous blog UU20201203. However, this might also be the most corrupted area of the public institutions (SDG16). Therefore, the parliamentary Constitution must take back the legal and executive power from organized criminal originations that corrupts the executive powers by illegal re-distributions. The most important task at hand is therefore to regain the balance of the constitutional (LEJD) powers – in particular - stop the criminal factions within the Executive powers, that overrun the legal power by re-delegate public organized crimes from the criminal court to their para-court systems. The next blog will follow this issue up by focusing on SDG08 ‘descent work’ and the coldwar corrupted workers’ organisations.

Can't Buy Me Love - Beatles piano instrumental

UU20201203

XaaS for Xmas is the focus in this Christmas blog. Surely most citizens know what Xmas is. XaaS though, 'anything as a service', is new a thesis saying that most products can be provided as services. That concept makes quantum leaps to the quality and availability of public services to its society and citizens. Now, it is certainly about time that public servants provide the collective product and services to its rightful owners – the citizens. Moreover, the XaaS concept is fundamental to SDG17 'sustainable and just institutions'. Hence, this blog might be considered a 2020 Xmas gift to humanity - to elevate the Sustainable Goals for 2030.

XaaS (Anything as a Service) is a thesis talked through in blogs like UU20170630. The term is derived from the ongoing virtualization of IT products – the transformation of hardware to software. Both HW and SW are products, though, - tangible and intangible. These are further transformed to services and self-services. The benefits of internet indexing of net-cards and storages were soon realized as huge. Next, some massive fabrics of data-centers were transformed to such virtual concepts for; Infrastructure, Platform, Software and Security (as a Service). Now the concept is further extended to XaaS like; Data, Database, Storage, Recovery, Content, Desktop, Energy, IT, IoT, ICT, Logging, Mobile, Monitoring, Network, Payments, Games, Robots, 3D printing, Searching and Security. This syndrome of transforming any 'Product as a Service' seems limitless – and it certainly elevates the quality and availability of products and services.

Public XaaS can certainly escalate the quality and availability of most public products and services. (Ref. the ISO 8402 Quality definition). Parts of some public services are already virtualized for the internet, such as education, health and taxation. However, commercial providers seem far more enthusiastic to make such XaaS deliveries to the citizens - although the public servants are obliged to do so by penalty law. Nevertheless, such coldwar mental barriers are no longer real, - but merely obstacles in power-games between public workers and the 'bourgeois' citizens, - which in the end makes the institutions, societies and democracies further dysfunctional. Still, of potential public XaaS innovations are huge - since the public bureaucracies already have transformed to Information Technocracies. Consequently, most public services can be provided just like the commercial XaaS for transport, shopping, booking, payments, etc.

At large, some main categories of such public hyper-services can be for; Energy aaS, Transport aaS, Movement aaS, Insurance aaS, Citizenship aaS, Broadcast aaS, Information aaS, Housing aaS, Food aaS, Art aaS, Finance aaS, Communication aaS, Education aaS, Healthcare aaS, Welfare aaS, Subsidies aaS, Emergency aaS, Security aaS, Police aaS, Defense aaS, Jurisdiction aaS, Governance aaS, Waste management aaS, Water supply aaS etc. The list is as long as the list of obligated public services.

Certainly, there are investments costs to innovate the public services to XaaS. However, experiences from commercial enterprises proves that the Return of Investments (RoI) is about 3 years. The investments pay back significantly in cost-benefit, efficiencies and quality. Knowing that most of the other SDGs are dependent on the SDG16 'Institutions', the innovations cannot be halted any longer. Further delays of SDG16 will corrupt the basic citizens' rights of SDG 1-5, concerning; poverty, hunger, health, education and equality – as well as the societies' need for SDG 9-12, concerning; industry, infrastructure cities, communities and production. To succeed, the public sector needs to cooperate with the commercial enterprises, as obligated in SDG17, - or else, the inherent dysfunctionalities of Institutions will worsen.

Finally, - nations, societies and institutions are all about humans – the citizens. The public XaaS will elevate their LifeQuality and thereby, in return, escalate the other SDGs. Such issues are called hyper-democracy in these blog series. Thus, another fundamental topic is called 'basic income'. That will be talked through in the next UU blog.

Merry XaaS.

The Long and Winding Road - Beatles instrumental cover

UU20201107

This blog's focus is on the public institutions' obligations to its civilization and citizens. It follows up the previous blog that introduced the UN's 16th Sustainable Development Goal 'Sustainable and strong institutions'. This SDG16 is probably the most important of all the united nations' goals for 2030. It must therefore be prioritized accordingly. Yet being this most comprehensive and complex goal, it needs some basic definitions and models. Some relevant theses have already been developed and blogged for a decade. Thus, this new blog-theme 'SDG2030' is an attempt to combine those theses with the SDG agenda. Anyways, the main aim for this blog is to set the focus on well functional institutions by becoming less dysfunctional.

Most of the theses are summarized in the blog UU20170630. Some main points are that any civilized society is dependent on high qualitative institutional deliveries of products and services. The term quality is therefore fundamental to realize the institutional obligations for maintenance, productions and deliveries of public services and products. Basically, the term 'quality' is defined by the United Nations as: "Quality (is) the totality of features and characteristics of a product or service that bears its ability to satisfy stated or implied needs" (ISO 8402-1986). Moreover, based on the UN's definition, the term 'LifeQuality' (LQ) is defined in these UU blogs as; "a person's totality of properties and potentials to satisfy the stated and implied needs". LifeQuality is considered as the most vital word of all. (UU20200103)

Quite frankly, quality is simply common sense put in system. There should be no confusion in any institution about what the quality of public services is. Yet, confusing Games have caused serious institutional dysfunctions during the past century's warfare. Nevertheless, the nature and availabilities of products and services are changing, which can be challenging to realize and to innovate properly. For example, the qualities of immaterial and material products are as different as the provided- and self-services. Moreover, the previous industrial reforms did, and still do, alter their qualities, utilizations and rights, - like for virtual machines, internet sharing and DIY services (Do It Yourself). Such challenges and opportunities will be elaborated in the next blog, though.

Still, the public products and services are the collective property to all citizens. Moreover, most other SDGs are related to SDG16, like SDG 9 'sustainable and innovative infrastructures'. This causes unresolvable power-struggles about rights and obligations between institutional servants and the citizens. Servants strive to make most of the society collective - whilst citizens want their democratic abilities. The 2 rivals have 200% demands over the 100% resources. Still, the western civilizations are democratic by their constitutions, whilst the eastern are rather monocratic. Therefore, the western public servants are to serve, not to overrule the four constitutional LEJD powers; the Legal, Executive, Juridical & Democratic powers.

The true 4th western power is democracy – not the press as dictated by the eastern Comintern. The term ‘democracy’ is talked through in blogs like UU 20160701, saying that hyper-democracy might appear by cyber-democratic resources like the information and communication technologies. Thus, hyper-democracy rather refers to the LQ (LifeQuality) of humanity at larger scales. Such hypothetical hyper-democracy exists independent of information technologies, though, - even without papyrus and pencil. It exists in every single human as a holistic inter-relation. In these UU blogs, ‘hyper-democracy’ is considered a virtual reality and vital to the quality of humanity.

Conclusively, it is absolutely necessary for all the united nations to transform their institutions to be well-functional in order to sustain and innovate their civilizations. ‘Strong institutions’, meaning effective as constituted, - not like some coldwar dysfunctionalized bureaucracy. As concluded in previous blogs, - the public institutions are basically like any IT operating system. The public institutions can, and must, be transformed properly, - like any other IT system did in the 3rd industrial reform. Intriguingly, the present institutions are like the past century’s computers, but should be like this century’s virtual computers before the year 2030. Such an evolutionary leap will also have significant LQ effects. That will be the main focus in the December blog – “XaaS for Xmas”.

Nik Kershaw – Cloak and Dagger

UU20201002

This follow-up blog sets the focus on innovation of the institutions. The present manual bureaucracies are certainly the most likely to innovate in this 4th industrial reform. For public services, like any other product and services, - a 10x innovative potential is needed to get a technological mass-upgrade. That level is exceeded by far due to the cold warfare and delayed evolutions. Still, humanity will thrive anyways, - and will reform our dysfunctionalised institutions anyhow, - despite those barriers of technical, social and delusional dysfunctionalities. Most motivating is that all the united nations now have agreed to make their institutions’ sustainable before 2030.

The priorities for the SDG targets should be on; (16.3) Promote the rule of law; (16.4) combat all forms of organized crime; (16.5) reduce corruption and bribery in all their forms; (16.a) prevent violence and combat terrorism and crime; and (16.b) enforce non-discriminatory laws and policies for sustainable development.

Still, these ideals are not so functional in practice, even in developed nations. A main reason to the contradicting mass-psychoses is mainly because of the still-operative coldwar press. (See blogs like

UU20200306.) Such organised mass-denials are most dysfunctioning, - even to seemingly well-functional institutions. Dilutional denials from the 100 years warfare toward all Western constitution are certainly the gravest kind of self-harming. Psycho-social analysis of such constitutions will be the issues for many blogs to come. Yet, for now, the attention is on the stated fact that the Cominterns 100 years warfare toward the Western constitutions have traumatized some bureaucracies beyond any cure or remedy.

The overall solution to this ominous malfunction is simply to replace the manual bureaucracies and innovate with cyber technocracies. It should make sense to any citizen since the word 'cyber' means control, govern and manage. That is exactly what their public services needs in order to Execute the Legal obligation in a proper Judicial order. Such a proper Executive power is decisive for the proper Rule by Law in any kind of civilization. Still, the Comintern's war -declaration towards all the western nations and citizens did cause organisational AIDS (Acquired Immune Deficiency Syndrome) and CCD (Colonial Collapse Disorders).

The most likely way to fix the LEJD (the Legal, Executive, Judicial and Democratic powers) is to fully computerize their Constitution. This has proven extremely efficient for other information technology systems during the previous industrial reform. The Laws of civilizations are simply like any other operating system (OS) of information technology (IT). When realizing that the bureaucratic apparatuses simply are like some virtual computers, - it is obvious that the system has numerous faults due to; decay, outage and lack of maintenance. Organisational malfunctions are as obvious, since the IT systems are organisational adapted as well. When being no longer in denial about the warlike Games of IT industries in the public sectors, - it becomes transparent that the very same Games are played in all of the LEJD apparatuses.

Most seriously, though, is that CoC (Cults of Comintern - UU20200306) in the Executive powers consequently redirect the criminal charges on themselves - from the penalty court to other dysfunctional parallel court apparatus. Consequently, the Rule of Law does not really apply to the public servants. Nearly none is sentenced, like being some untouchables, - except for some expendable scapegoats now and then. Such Comintern's parallel organisational apparatus (POA), within Western institutions, do escalate the criminal rate in the manual bureaucracies. This has corrupted all Western nations for a century. Fortunately, though, all of the united nations are obligated to fix themselves according to their Sustainable Development Goals for 2030.

Consequently, in order to succeed with the SDG16 targets mentioned, - there are some urgent actions to do. All the present employees in public sector have to read the information about their obligations as civil servants according to national penalty law. Then all personnel have to sign a security clearance, to confirming that dedication. This can easily be arranging by internal e-mail systems. Moreover, a whistle blower system and amnesty for all the victims of CdE Games (Coup d' Etat). Finally, no criminal public servant should be trusted their position and powers anymore.

Orchestral Manoeuvres in the Dark - The Lights Are Going Out

UU20200903

'Strong institutions' is a crucial sustainable development goal for all the United Nations. Most other goals will fail, if this SDG16 fails. Unfortunately, the western constitutional authorities seem to be stuck in debate-loops about their international obligations to the UN, NATO and EU, - like some reversed parliamentarism. Thus, such dysfunctionality should be disabled and prosecuted by the true legal institutions. This blog is therefore focusing on such 'parallel apparatuses' sociopathy from within such prey institutions.

There are 169 targets to the 17 Sustainable Development Goals. Some of the SDG16's targets say: "(16.3) Promote the rule of law at the national and international levels and ensure equal access to justice for all. (16.4) Significantly reduce illicit financial and arms flows, strengthen the recovery and return of stolen assets and combat all forms of organized crime. (16.5) Substantially reduce corruption and bribery in all their forms. (16.6) Develop effective, accountable and transparent institutions at all levels. (16.7) Ensure responsive, inclusive, participatory and representative decision-making at all levels. (16.10) Ensure public access to information and protect fundamental freedoms, in accordance with national legislation and international agreements. (16.a) Strengthen relevant national institutions, including through international cooperation, for building capacity at all levels, in particular in developing countries, to prevent violence and combat terrorism and crime. (16.b) Promote and enforce non-discriminatory laws and policies for sustainable development." (See more in blogs like UU20200306.)

The very anti-thesis the SDGs is the 100 years old Comintern that still dictates their fifth columnists. The KGB is apparently revitalized in 2020 as parallel organisational apparatus within Belarus. Its secret police are actually still called KGB. Such prey nations are in bondage to the Comintern's 21 Conditions like: C2; "...methodically remove reformists and centrists from every responsible post in the labor movement (party organisations, editorial boards, trades unions, parliamentary factions, co-operatives, local government) and replace them, ..." C3; "In almost every country in Europe and America the class struggle is entering the phase of civil war. They have the obligation of setting up a parallel organisational apparatus which, at the decisive moment, can assist the party to do its duty to the revolution (CdE). " ... it is absolutely necessary to combine legal and illegal activity." C13; "... cleanse the party systematically of the petty-bourgeois elements (loyal citizens)." (See more in blogs like UU20170811.)

The last 100 years of western history witness the organized sociopathy and mass-psychopathy from Cults of Comintern (CoC) – including the World War 2. Such predator organisations initiate and escalate actions in order to trigger uprisings to cause CCD (Colonial Collapse Disorders) and legitimize CdE (Coup d' Etat). Such Pyramid Games were played on prey nations in every continent– causing irreversible human and national traumas. These calamities can be ended, though, by strong and sustainable counter-Comintern institutions. (UU20200501)

The aim of such nova Comintern is apparently CCD at the UN, NATO and EU, - like done to the two forerunners; 'The League of Nations' (ww1) and 'The Congress of Vienna' (ww2). Consequently, all the western constitutions need to prioritize the SDG16 in order to quality-ensure their own institution from such cold war legacies. The processes need professional 'rule-by-law' execution by the true LEJD powers (Legal, Executive, Juridical & Democratic). One measure should be to have any public servant signing a confidentiality statement referring to the penalty law in order to work for the public

services. Most important, no public servants should ever be the ones to decide whether criminal acts in the public sector should be directed to other courts than the penalty court.

Big Mess – Fruity Loop Cover

UU20200801

This decade of changes is also a grand SDG program. It involves the 4th industrial revolution, - also called the Industry 4.0 - or preferably the 4th industrial evolution. The 3 previous evolutions did elevate humanity by both quality and quantity, - as well as our civilizations. Still, the technological side of the innovation-leap is not the main gain, but rather the following human evolution. However, there were too many traumas too. That was unfair, unnecessary and unjust – mainly due to poor decisions, planning and execution. This must be far better this time – which certainly can be done - by handling the evolution as a global program of good will. All is already available, right before us, waiting to be realised.

The Western democracies of the United Nations have acknowledged the urgent need to realise the Sustainable Development Goals (SDG 2030). Thus, realising that most western citizens are urban, - do force the focus on urban innovations to solve the basic human needs and rights. Basic requirements are proper innovation of urban facilities as industry, institutions, infrastructure, transport, production, energy, information, computing, communication etc. (See blogs like UU20170721.)

The UN SDG for 2030 is a global program of multiple sub-programs, projects and tasks, - like all the Olympic Game projects are of a single program and several sub-projects. Generally said, projects are concrete and organized efforts to solve a problem, a need, a demand, a requirement. They realise some unique and innovative deliverables, such as; products, services, processes, and scientific conclusions. Main keywords are; plan, processes, people, and power, in addition to; scope definition, resource allocation, time-frames, quality, quantity, cost, benefit, risk-analysis, and issue-solving.

Realistic concepts of SDG programs should be published by the UN, with supporting resources as the Prince2 project concept recommend, - preferably in Partnerships as the SDG17 recommends. Such initiatives will probably escalate synergies beyond the present imaginations.

However, such disrupting solutions will be hindered, delayed and even terminated by commercial, political and personal rivalries - if not promoted and supported globally. Some governments do not favor democratic LifeQuality, some industries do not want start-ups' competition and customers do need objective consumer guidance.

Unfortunately, for humanity though, there is a global anti-thesis to such a human evolution. The false so-called '3rd social revolution' became a main source for crises, destructions and even world wars in the previous century. The Comintern is certainly the very anti-thesis to the UN's true SDG 2030 program. The 'Cults of Comintern' (CoC) are still in bondage to those inhuman dictates and re-activated by mass-

psychosis and -neurosis. Now the plutocratic BRICS conspiracy operates as like some false 5th International. All the united nations should be aware. (See blogs like UU20200306)

Such issues will be talked through in this decade of blogging – including the development of models of 3D politics, LEJD powers (Legal, Executive, Juridical & Democratic), 5D scenarios, 3^3 psychosocial diagnosis, LifeQuality definition, and complex Game analysis like the P5GO (the 5th Pyramid Game over). There is a summary of the theories in blogs like UU20160513.

Big Mess – Fruity Loop Cover

This video of DEVO's Big Mess is a demonstration on how to use several advanced free-ware for music-video production. The mp4 recording made with the free-ware OBS Studio, which could be further advanced by additional facilities. The music was assembled from a free MIDI file version cover version of the song, in free-ware version of Fruity Loops (music studio). This video could be further modified with MS the free Videoeditor. Moreover, It could be streamed out to internet via sites like Facebook, Twitch and YouTube. Similar, or much more advanced production and streaming, can be done by anyone, nowadays.

Changes – Piano cover

UU20200702

This is a decade of changes, indeed. These dedicated changes are more determined than 'status quo'. Cascades of changes seem to happen periodically – like syndromes. Some might think it is all by Will, some might think it is natural Drive, some might even think it is of devine Belief. Anyways, these changes will probably be influenced by them all. Anyhow, - changes will cause 'survival of the fittest' - a hypothesis to contradict 'might makes right'.

Fit to what, then? Not like some darwinist hypothesis based on lab-rat models. Human reality is far more complex than that. A buzzword nowadays is 'disruption'. Yet, anyone should carefully reflect on how to fit to this decade's predicted changes to come. The least fit is certainly the arrogantly ignorant ones. The least fit organisations are certainly the dysfunctional ones, which basically are too far into denials. Thus, evolutionary adaptations concern constructive innovations, based on sound values and foundations.

An extremely abused concept for global organisational changes - is called 'the Internationals'. It was deliberately made dysfunctional - causing fatal consequences. The first one was a human reaction to the massive changes that followed the first industrial revolution. The 'Great Charter of Freedoms' was revitalized and evolved to the present Global Human Rights. Contrary, inhuman powers played global psycho-social Games of the 4th degree. That de-evolution was executed by the fake 3rd International - the anti-thesis by the Comintern of 1920. The true 3rd international, though, is the United Nations and those nations' declarations of human positivism, - even though the USUK Game of WW2, including the 4th and ulterior Player, did make some constitutional space by terminating the UN's European predecessors.

Nowadays, this is the semicentennial of the real 4th industrial reform. Although focused on cybernetics and biology – the outcomes will be as unpredictable, as in for the 3 previous reforms. One present symptom of the syndrome to come is called 'Corona' – 'the Crown'. Such syndromes cannot be explained and healed by

merely focusing on Drive or Will. This syndrome also concerns systems of Belief. For example, a hypothesis is that the anti-thesis 'Comintern of 1920' was instituted, based on a vendetta for the black Siberian böö. The Game's arena was the Winter Palace, where the catholic tsarina fell into the black tngri Gimmick. Now, the 4th USUK Gamer seems to be determined to climax that Game. Such a 5D scenario should be altered, though.

Most fortunately, the civilized united nations have agreed on the 17 sustainable development goals for the year 2030. Related issues will be the focus in the upcoming decade of blogging. However, it is anyone's basic knowledge that realistic and relevant knowledge of the past and the present is essential for such qualitative project planning. Still, there are great big black holes in history writings. Some are even dilutional and cause dysfunctionalities. Thus, the history has to be revised in order to qualitative planning and well-functional execution.

Such issues of changing to the better has been the main concern in the previous decade, - and will be in this upcoming decade of blogging – including the development of models of 3D politics, LEJD powers (Legal, Executive, Juridical & Democratic), 5D scenarios, 3^3 psychosocial diagnosis, LifeQuality definition, and complex Game analysis like the P5GO (the 5th Pyramid Game over). There is a summary of the theories in blogs like UU20160513.

IntroAre Friends Electric – Roland cover

UU20200605

This is the start of a new blog-theme. The 'citizen deuce' ended by the last blog. This new blog-concept has a working tittle '2030', due to recent alternations and prospects. Personally, looking back, life did not start at 40, - not even at 50. What might the next decade bring, though? Thinking, after 10 years of blogging in a kind of lockdown state - what's another decade anyway? Anyways, here starts one more decade of blogs.

Every single human has sensed considerable and irreversible shifts in our being. There are several reasons to this. This decade is also; in a new century and a new millennium; the start of the 4th industrial and social evolutions; the global projects to the provide the sustainable development goals for 2030; a shift of astrological Ages, in addition to some yet unknown impacts. Thus, this second decade of blogging will reflect on these. Hopefully, those blogs will be limited to monthly 1-pager issues with one song to each.

Anyways, entering the state of being a 'bourgeois deuce', - a dual citizen of both the Norwegian and Danish state, - in these times of some nova-Comintern, - the focus and priority is set on humans, - rather than machines, - in all its physical, organisational, constitutional and virtual existence. Thus, the UU theme of GHRL (global human right law) is now elevated to SDG 2030.

This decade's blogs will also be founded on the theories of the previous blogs, - yet, more prosaic and less hypothetical. Some models are explained in UU20140912 as; a consistent definition of LifeQuality; a 3D

ethical system of GCR (Good/Constructive/Right); a 3D political model relating to the constitutional LEJ powers (Legal/Executive/Judicial); a 3[^]3 (3*3*3) psychosocial model of Drive, Will and Belief; an extended psychosocial Game models; a 5D scenario model for past, present and future; and some extended terminology by extended use of suffixes.

Knowing very well that the previous 3 constructive industrial evolutions were followed with social evolutions. Some human consequences were unnecessarily dramatic and destructive. Now, this 4th phase is believed to embody cybercratic technological and biology – which will alter our ways of being and believing. However, this time, most humans have agreed on 17 Sustainable Development Goals for 2030, which, if delivered as promised, should save us from the worst traumas. Thus, these upcoming blogs of '2030' aims to support those goals by unrestricted innovative views – even if contraversive.

The association to this song 'Are Friends Electric', - is a 4th evolution in a new age.

Who Can It Be Now? - Men At Work ('40s Jazz cover)

20200501

Today is the workers' liberation day. It is dedicated true citizens' liberation from any bondage of production or servicing. Even Marx dedicated his life to raise the workers' stand from the workers' thralldom to be civilian citizens. Quite opposite, Lenin propagated a reversing from civilians (bourgeois) to workers by his Comintern of 1920. That dictate lured and forced civilian victims of the ww1 to contribute to the ww2. Comintern 1920, the world worst-case event of inhumanity, seems to return as some Cult of Comintern 2020. This blog is therefore an attempt to support an anti-thesis to such CoC Games.

After the ww2, most civilizations pledged to the true international organisation United Nations and signed the Human rights declaration, - in order to prevent any future Comintern cruelties toward humanity. Most Cults of Comintern (CoC) were thereby hindered in the West, but escalated in the East. Now, the UN have upgraded the goals for civilian progress with the Sustainable Development Goals (SDG) for 2030. It is certainly about time, since this is also the eve of the 4th Industrial revolution. Still, these goals might be perverted in 2020, as in 1920, like some organized mass-psychosis and mass-hysteria of SDG13 indicate. Such a tip of the SDG momentum can surely cause worldwide cascades of CCD (Colonial Collapse Disorders).

However, as a dual bourgeois, - the appeal for today is to any western citizen to rethink and reclaim their stand as a democratic civilian - with the rights and duties in the civilizations. This is important now, because this is also the start of the 4th industrial revolution. This IR4 will be as unpredictable and prosperous as the

previous ones. However, the 3 previous IRs were not handled very well, mainly due to unexpected sociopathic scripts like the Comintern. The true 3rd international is the United Nations, not the Comintern of 1920. Therefore, no human should ever repeat the mistakes of the previous workers' generations and be lured or forced into that mass-psychosis and mass-neurosis. Still, the ongoing 4th industrial reform has prosperous potentials for making all of the 17 SDG 2030 to become real. Hereby the P5GO Game complex includes Good Games of SDG 2030. In addition, the extra UU2 presents a newly uncovered Game called 3F – that relates to Underworld Games of PROSA.

The thesis about psychosocial game analysis has become rather complex during these 10 years of blogging. The main syndrome, though, relates to the so-called P5GO Game category, which involves the 3x3 psychosocial model for LifeQuality and constitutional quality. The following citations from UU20200103 exemplifies some of the views.

- “The definition of LifeQuality (LQ) is a modified version of the UN/ISO 8402 definition for quality of products and services. “LQ is defined as; a person’s totality of properties and potentials to satisfy the stated and implied needs.” “Maslow’s Hierarchy of Needs shows 5 main categories; Physical, Safety, Social, Respect and Self-realization. The ‘stated needs’ are similar to the ‘Human Rights’. The 193 UN member-states are obligated to secure their citizens’ rights concerning; private properties, self-determination, security, privacy, family, work, education, in addition to freedoms of thought, conscience, religion, expression and more.” (See blogs like UU20180323 and UU20170721.)
- “The nations of the UN have agreed on a new program for this century - called the 17 Sustainability Development Goals for 2030. The 17 SDG do not merely concern individual humans’ needs and rights, not merely in the ‘developing’ nations - but the whole humanity. The nature, cities, fabrics, governments and enterprises are included.” “The SDGs cover a broad range of social and economic development issues, that include the traditional Human Rights as poverty, hunger, health, education, climate, gender equality, water, sanitation, energy, environment, governments and social justice. The SDG framework does not distinguish between the united nations, but to all countries as well as the globe.” Moreover, the 17 SDG is a complex and interdependent system with 169 targets. (See blogs like UU20141017 and links hereunder.)”
- “The first step for a (...) constitutional healing is to end the (1000) years of denials and focus on the system failures. Therefore, in order to set some light on its many sides throughout the (western) history, the material from 400 weekly blogging will be used, including the models of 3D politics, LEJD powers (Legal, Executive, Juridical & Democratic), 5D scenarios, 3^3 psychosocial diagnosis, LifeQuality definition, and complex Game analysis like the P5GO (the 5th Pyramid Game over). (There is a summary of the theories in blogs like UU20160513.)” (UU20190705)

Therefore, the UN’s SDG17 is also the very anti-thesis to the ‘5th Pyramid Game’. The theme started in UU20160513 and has not really ended – if ever. The following citations present some Game consideration in this relation:

- “All psychosocial Games are deceiving and manipulative. However, CoC (Cults of Comintern) is at the far ridge of destructive cruelty, where the general Underworld ethic ‘honesty is for suckers’ is degraded to the predatory ethic of ‘them’ being ‘useful idiots’. It even causes genocides. The Game’s Gimmick is clearly dictated in the 21 Conditions for submission to the Comintern elite. It was deceptively called ‘the 3rd international’. Lenin claimed that the 2nd International failed to make Europe collapse despite the efforts in World war 1; the trench warfare, the execution of emperors and the final pandemic plague called ‘the Spanish flue’, - which killed at least 50 million western Christians. That ultimate sociopathic dictation was promoted as the personal vendetta of the exiled Lenin. However, a Caucasian godfather, nicknamed Stalin (steel) replaced Lenin to escalated the genocides of humans. The nickname associates to Genghis Khan’s human family labor, blacksmith. Yet, the ulterior motivation and Gain seems rather to be a Superior vendetta to revenge the Siberian shaman Rasputin with the wrath of Mongolian black shamanism.” (UU20200306)

- CoC is an Underworld Game, sometimes related to terrorism. This is elaborated in two citations from UU20160722. “However, true Parliamentary authorities must differ between willing and forced PROSA workers, when investigating such PROSA crimes. (PROSA; Pro-Russian Oligarchs, Separatists and Anarchists). In fact, criminal law is stricter to public servants than to civilians. Yet, public servants are rarely sentenced for their crimes even though the scandals of low-quality services and expenditures are far too high. It is proof though, of too much fraud and corruption, - like in mafia-dominated markets (UU20151023). Most public laborers are forced by violent mafia organizations that are related to the so-called ‘Red Mafia’ (see blog’s video link). The threats of Underworld Games were talked through in the previous UU20160715 ‘P5GO03 – PROSA Pension’. Although any member of a high treasonous organization can be guilty by association, there are exceptions, - like for civil criminal relation, - by supporting the true Parliamentary system to improve the LEJD Quality by unclocking the criminal ‘parallel organisational apparatus’ (Comintern’s condition 3).”
- “Still, the 4th and even 5th level GoT (Game of Temples) is unimaginable to most sane citizens. However, history proves that such collective self-destruction of humanity over and over again. The logic behind such destructive psychosis might be imaginable with some sympathy to such alienated non-citizens. Therefore a main hypothesis is that such GoT are only possible to plan and execute when assimilated to a collective KO-KO state of minds (I’m not OK – You’re not OK). Consequently, collectively exposed to sociopathic mass-psychotic schizophrenia that is escalated with mass-neurotic hysteria. (See the blog UU20190628 about OK-OK sanity.) Despite the large field of the original philosophies of true divinity, - this current warfare is by no means religious, but simply mass-psychotic parallel apparatuses, designed to cause CCD (Colonial Collapse Disorders) as in CoC Games.”

“The solution was concluded in UU20170623. “An IR4-way to view a solution for proper Quality of LEJD, lies in the previously comparison of the Legislative power with a computers’ Operative Systems (UU20170512). The analogue goes for computer bugs, computer viruses and computer parasites as well. Therefore, an efficient and realistic quality assurance for the Judicial powers will be to reconstruct and innovate the whole Judicial powers by means of virtual IT and automation. Besides, a success in healing the () Legislative power is particular important for the rest of the () nations, since (the nation) is a dominant Juridical power for all of them. Still, the infectious bureaucratic system is pandemic and has been so throughout the cold-war. Such projects must involve all of the Quality of LEJD. The IR4 & SR4 (4th Industrial & Social Revolution) are the waves that can be utilized progressively for this and provide the power to surf it through. In conclusion, the major 5D events to come is not that unpredictable anymore, - when using relevant models for analysis.” The EU Commission should provide proper designs and applications for IR4 Judicial powers to all EU member states for free, - at least for all EU legislations, but also consolidations with national legislations.” (UU20170728)

This blog also ends this theme ‘Citizen Deuce’. It started a year ago because of some unexpected and legally contraversive about a dual citizenship. Such related issues have been talked through in these monthly blogs. The 10 years of blogging had a break for a year, - mainly because of exhaustions of making the P5GO Game model and making some 5D scenarios of past, present and future. The blogging will continue in this decade, though, - yet monthly instead of weekly and hopefully limited to one-pagers.

Men at Work is an Australian rock band that is best known for the hits ‘Who Can It Be Now’ and ‘Down Under’. They were the first Australian band that had a simultaneous # 1 album and single at the US Billboard. They won the Grammy Award for Best New Artist, were inducted into the ARIA Hall of Fame and sold over 30 million albums.

Still, there are Women at Work too. The Comintern of 1920 was a hardcore male sexist elite. Women workers are mentioned in their 21 conditions, though, in addition to peasants, soldiers, workers and the press (workers)'. Still, even though not put down in writing, 'the oldest profession in the world' is likely what the elite had in mind about their female sub-cast, beside all the housework. Thus, women in Comintern bondage were also obligated to violate any western law in order to end the western citizens and nations. Moreover, the women got rather influential positions as weapon producers, tele-operators, spies, as well as sex-workers since the soldiers were slaughtered in battles. They were even encouraged to marry influential men to promote the Comintern Games.

Women, as in Comintern women workers, have been an active undercover workforce for 100 years. That is per definition Game players. However, in any society, there are both official and unofficial powers – powers with and without responsibilities. Therefore a sound civilization needs balance of the genders, for both power and responsibility. Game Over.

Nevertheless, any woman should see through this massive abuse in the Comintern 1920 – and not be lured into being such 'suckers' of Comintern 2020 Games too. Western women of today are liberated., yet discriminated. However, women liberation, from Cults of Comintern, is vital to the quality of any constitution, as well an undisputable constitutional right. (Also see the description of the newly uncovered Game 3F in this blog's Extra UU2)

Extra UU1 Batman

Batman is mentioned in some previous UU blogs. Anyways, the relation in this blog is due to some unreasoned aspects of the present pandemic in the West. This is surely an alternative point of view – a view as a Bat Game. The main hypothesis focusses on the claims that bats are the source for the pandemic virus. That can indicate there is an Underworld Game of the 4th degree – a biological warfare. Even publicly naming the pandemic 'Corona' might be a hint to a Gain of the Game – the Western royal crowns – the heads of the constitutional Executive powers

This is not even a conspiracy theory, since theories are highly scientific. This conspiracy hypothesis about a Bat Game, is founded on some previous blogs of why archetypes like the Batman is remarkably popular in western civilizations. (UU20170804 & UU20151009)

- “There is a far deeper cultural origin to the Pexit process (the attempted Polish Brexit CdE Game) than presented in the () blog UU20170728. In fact, the ‘western’ world-wars were spin-offs from the Russian Fatherland wars and their final termination of the Prussia empire. It comprised Poland and Germany. However, the wars were also theocratic, where the Russian orthodoxy terminated the Gothic Christianity as well as their own Tsardom. Still, Goth memes and archetypes pops up in cultures like some murky ghosts of a mysterious past. Such psychosocial phenomena of collective UnderConscience and OverConscience, will be evaluated here in order to reduce dysfunctional dilutions from the previous century. Therefore, there will be some presentations of Prussian and gothic cultures, related to the 3^3 psychosocial theories and the 5D scenario model, - as well as some talk-throughs about the 5 Pyramid Games.”
- “The association here is the Batman, after the ‘all-American’ Superman’s death. Batman of Gotham city, is certainly a meme of a Goth knight, but also associated to the Russian secret military, - Spetsnaz/GRU, that has a bat as their logo.” (UU20170224)
- “This extraordinary UU concerns fundamental causes to these human and political tragedies, - and indicate why a metaphor about ‘bats and bikes’ is used (ref. Meatloaf’s album cover ‘Bat out of Hell’). It is evident that the ‘human tsunami’ (of the ‘Arab spring’) started when the disreputable Red Army returned in the Arab world. Their failed Afghan war seems to be repeating in a most dangerous warzone. That causes mass-panic and is bad news to almost anyone.”
- “The associations to this UU is that the Russian secret army GRU has chosen a Bat in their symbol. Furthermore, Putin riding on a motor-tricycle amongst the MCC ‘The night wolves’ (i.e. like some Russian Hell’s Angels’) makes vivid scenes in media, - in addition to their declared loyalty to FSB, GRU, Pro-Russian Separatists, Nashi (Наши) and Stalin.”

The 21 conditions of the Comintern appeals especially to soldiers, workers, peasants and ‘the press’ of 1920. Such Comintern warriors are rather of RAF/GRU/Spetsnaz than conventional armies. Yet the new warriors are called Night wolf and Wagner group. However, the symbol of Spetsnaz is a bat – very similar to the Batman symbol. Therefore, some archetypes, the events and even the memes, are probably dedicated the heroes’ legends. Gotham city is probably related to a Prussian city, before the CoC CCD Game (Colonial Collapse Disorders).

In a socialpsychological sense, related to Jung theories, the most opponent to the billionaire Batman is the Joker – a sociopathic anarchist – just like PROSA autonomos (Pro-Russian Oligarchs, Separatists and Anarchists). The two archetypes, Batman and Joker, a hero and an anti-hero, are two sides of the same persona, like two alter egos of one single person. Neither of them relates to ‘rule by law’. Batman is above the law in his KoC Games (King of the Castle) and Joker is beneath the law in his Underworld Games of ID/Drive. Joker is the archetype of anarchy and total destruction, - like a black demon of Tengrism camouflaged as a ‘court jester’. Batman, as a black demonic hero, is so resourceful that his childhood trauma can set the police aside to feed his ID/Drive driven urge for revenge. Together, Batman and Joker are like Freudian Superior-Ego and ID - that are both outlaws and together ruin the city-state in their never-ending schizophrenic LYAHF Games (Lets You And Him Fight). However, the third party, the Game initiator, is not yet uncovered.

A bat is made the main hypothetic meme for the present Chinese flue. There is no evidence that the pandemic virus originated from a real bat – yet propagated like scientific truth. However, truths are the main victims of Games, - also Games of 4th degree – namely war. Those involved in wars often use indirect communications like, symbols, memes and myths of security reason. Therefore, the bat might also be a symbol, not for bloodthirsty vampires, not for the gothic knight, but for the present version of the Red Army Faction, the GRU/Spetsnaz – a faction of the present ‘Wagner group’ and ‘Night wolf’. The plutocratic BRICS surely needs to be tamed now.

Extra UU2 Jane Fonda - Do It

The newly uncovered Game '3F' follows the uncoveries of the Games USUK, CoC & Electra (UU20200402). 3F is a CoC Game (Cult of Comintern) that exploits 'suckers' of PROSA autonomes. However, 3F is more oriented to Electra than Oedipus as the Freudian Sexual Game category indicates. For organisational parallels to personalities, - the mental state is elevated from personal ID to organisational Drive. An association to the 3F Sexual Game can stem from video scenes of an aerobics instructor as a sexed-up fitness milf – as in "you Tarzan me Jane". Memes are for example the 80's aerobic videos where a Jane with her flock of sex objects are dressed up as milfs in tights. Such sexual appeal is obviously planned and did indeed relate to porn-stars of the 80's and other sex-workers.

As a 3F worker, the instructor does repeatably the three subsequent exercises; FxxxIn', FxxxUp and FxxxOff. As a CoC Game, 3F can also elevate to the third level including illegal acts by outlaws with civil consequences. The Game 3F is thereby of the Game category Underworld too, as in the classic Games like C&R (Cops & Robbers), SWYMD (See What You Made Me Do) and LYAHF (Lets You And Him Fight). Furthermore, such 3F fitness cults are deeply involved in illegal synth drugs from Underworld productions, smuggling and distribution. The Russian illegal doping industry at the Olympics is one obvious example. In sum, it is not merely a CoC Sexual worker, but also a SDR worker (ref. 'Sex & Drugs & Rock'n'roll' - Ian Dury & The Blockheads). Thereby, the 3F Game can trigger the newly uncovered Game Junky. (UU20200402) Such 3F Junky Games are simply also for recruitments of 'free-use' sex workers for other CoC workers. The 3F instructor might play some 'blame games' when sexual and drug-related abuses of the followers are exposed.

Most alarmingly, the 3F Game can escalate to the 4th level – i.e. international warfare. There is no doubt close relation of illegal drugs, trafficking and sex workers in bondage. Intriguingly, the 3F matriarch got famous in a delusional nuclear worst-case scenario in a movie called 'The China Syndrome'. It was a ridiculous fantasy that a nuclear core in US could burn through Earth's core to China. Anyways, the IR4 mainly concerns biological industry and thereby warfare. In this sense a China Syndrome could rather be of biological manipulation, industrialization and alternation of humanity. That is hazardous, when a qualitative global institutional control is not yet established. Unwanted and irreversible changes to humanity are likely to happen – if the civilizations' Sustainable Development Goals of 2030 are dictated to be violated. A main task for the SDG 2030 should be to tame the plutocratic BRICS and end those CoC Games.

Jane Fonda's New Workout - Leslie Lillen Singing "Do It"

<https://www.youtube.com/watch?v=HU1FUzrM3Fs>

Extra UU3 DEVO - Smart Patrol/Mr. DNA

The band Devo is presented several times, like in UU20170929. They play the role as some nerdy jerk workers that are abused as industrial 'suckers', as in Pyramid Games. They relate to the newly uncovered Games USUK, CoC & Electra, as well as 3F and PROSA. In these two songs, they sulk about being alienated (potato) wanting nice girls (tomato). They probably work with social supervision and monitors people, - just like some Chinese nova-stasi. The second song (Mr. DNA) is even more alarming - in this eve of the 4th

Industrial revolution. They basically sing “Mr. Kamikaze, Mr. DNA, He's an altruistic pervert - here to spread some genes.”

This 4th industrial revolution (IR4) will escalate the genetic engineering to yet unimaginable levels and to alarmingly consequences, - not merely for flora and fauna, but for humans and humanity too. A Chinese scientist, employed by the Chinese CoC state, has already warned the world about an ongoing project of gene-manipulation of human minors. The 2019 version of the Spanish Flu of 1919, did originate as another Chinese Flue. It has now escalated to a Chinese syndrome, especially ramming the West - especially the so-called PIGS nations. China is dominator in BRICS and therefore, a most hazardous conspiracy in this IR4 – mostly due to its untamed plutocracy and dysfunctional level of denials. That plutocratic ID, BRICS, needs to be tamed now – by the UN.

99 Luftballons - Nena cover - jazz vibes

UU20200402

It is Easter, so this ‘Citizen Deuce’ resurrect with a religious point of view called ‘Easter Crown’. Funny though, that even an atheist cannot deny that religions exist and influence the majority of humanity considerably. Still, the aim of these blogs is not to explain true divinity, but to investigate the psychosocial acts of GoT (the category ‘Game of Temples’). Still most religious citizens perceive GoT as true superior ethics, whilst such Games are simply conning ways to extort and abuse the collectives of prey. This blog goes further than the previous ones - not merely to relate to the untrue spirituality of some dysfunctional Temples – but also to investigate the calamities of spiritual mess-up by occultism. Such uncoveries are critical for the quality of any Constitution, - especially because Temples are the 3rd superpower of any society, - in addition to the Throne and the State.

Nevertheless, some recap of the theoretical background is presented in the following paragraph before continuing the final reasoning. It can provide a background to understand the following conclusion and

The theory of the psychosocial Belief dimension is thoroughly described in blogs like UU20150313. Its introduction says: “The Belief dimension of the 3x3 model is different from (the dimensions) Drive and Will. Freud and Jung called it ‘Superior-Ego’, while Berne called it ‘Parent’. Belief concerns ideas of what we cannot possibly fully understand, but need to know and trust. Here, the focus is set on Belief in Supremacies like the Superior-Ego (S-E/Will). The Superior-ID (S-I/Drive) was included 2 years ago. Now, the Superior-Devine (S-D/Belief), a new and third subcategory, is included to complete the model.” (The extension also caused a restructuring from 3 to 4 types of the classic ego-states.) Further recaps:

- “ (A true) 4D (fourth dimension) represents the metaphysical existences that might be - even though they cannot be proved or argued logically. Still, religion is said to be ‘the first philosophy’, which makes Belief rather about the unanswered questions. Religions are, as science, concerned about finding truths, but is rather philosophies concern on issues yet undiscovered. The blog UU20170804 summaries on some psychosocial themes about Belief.” (UU20180302)
- ““Belief is related to the Freudian Superior-Ego and the Jungian collective ‘OverConscience’ and its ‘synchronization’. True Belief do not include Games at all, simply because Games are based on untruth. However, most belief-systems are abused by Gamers that projects their dishonesty. Blog UU20160916 also philosophies about hypothetical true Belief categories as WoW (Well of Wisdom), SET (Supreme

Extra Terrestrial) and UNO (Universal Natural Order).” (Note that true religious philosophy was elevated from the 3x3D psychosocial model to a 4D model. The rearrangement made room for true Democracy, the so-called 4th constitutional power.)

- “However, there are also Game categories of believes that are played by Will, like there are classic Game categories of sexual (ID), social, and underworld of 3rd degree. Still, the deceiving ulterior and secret moves and goals in Games do most certainly include claims of Belief properties like wisdom, divinity and heritage. However, always keep in mind that there are ‘positive Games’ as well as ‘negative Games’. There are probably more Games related to Belief that suites the (ethical) value-systems of GUR (Good/Use/Right) than BAW (Bad/Abuse/Wrong), - like the 7 Christian and platonic virtues; belief, hope, love, wisdom, courage, moderation and justice.”
- “The social Game category ‘Games of Temples’ (GoT) relates to Belief that has its origin in Freud/Jung’s terms Superior-Ego, - as far as human logic applies. In fact, GoT is not about divinities, but about logical believes in society’s superior powers. Even atheists play GoT of GUR value system (Good, Useful & Right). OverConscience communications are essentials for such socializations. In the beginning, there might have been value-systems of Constructive and Destructive (Use and Abuse) - and even Good and Bad. However, through the centuries, the original reasons and feelings are gone with the deceased Matriarchs and Patriarchs, yet continued as social intuitions recalled with monuments and Rituals. The value system might turn into undisputable absolutes, - of what is Right and Wrong. In most cases such become Rituals, - which has no ulterior motives, but rather processes of socialization and assimilation.”
- “However, failed Ritualization might cause Games of any degree. The long-forgotten reasons of social behaviors might escalate to Games with hidden agendas, like BGGG (Bad Guy – Good Guy), or other Games of the categories; Life Games, Marital Games and Party Games. They might even be motivated by phobic fear of the unknown and cause alienation instead of Intimacy. Even though GoT is far from democratic, it might become very much so in the sense that the adapted citizens promote some aristocratic values in Rituals and Games.” (UU20170804 and UU20150306)
- “The Belief dimension functions as some overruling superiorities to the society’s organisations - as well as any person. Such are expressed by ethics, laws and dogmas. Thus, categorially, the S-Belief is based on religious scripts, S-Will on laws and S-Drive on norms. The superior religious scripts in the (western) culture are the Christian New Testament and also the Jewish Old Testament, but not the Koran. Intriguingly, those thousands of years old testaments are single-sided declarations of spoils of war from the Arabian/Egyptian Game of Temples (GoT) - about who’s god is greatest and who should be the king of kings. These scripts are less about true religious Beliefs. Today, the superior Laws are the Constitutional law and the related laws and regulations, - but also international laws like the Treaty of the EU and the UN Human Rights declarations. The superior ethics and norms are now based on social democracy, however occasionally overruled by cultural legacies of thralldom.” (UU20180309)

Comparing the Game categories, there are probably more untruthful Games in GoT, than in GdE and KoC, due to the extreme level of secrecy in Temples. Their transactions are not by facts, but rather by myths, memes, rituals – and surely believes. The Gamers feel supercity over the flock of citizens, by claims to be personally chosen by divine beings. That illusion involves black as well as white preachers.

The focus here is set on some spiritual Games of Temples. Some previous blogs provide some basis for the hypothesis. The following citations should give some insight to the following conclusion and suggestion:

- “There are several reasons for the Christian schism, though. The eastern Rome (Roma2) did not replace the roman theology completely. The present title of the Pope, Pontifex Maximus, is an undisputable fact of the roman theocratic legacy. The new Rome also expelled spiritual Turks and Greeks who had to migrated to the Caucasian and Ural regions in the east. They formed the Tengri spiritual theocracy that the ‘Djengis Kahn’ later was submitted to. Also, the Muslims from the south radicalized cultures mercilessly and paved way for mythologies of pre-Islamic spirits, called Djinns. It is the same origin as in Jewish spiritisms. Moreover, there were influences from the Vikings’ Asatru from the north-west. Mutual merging eradicated certain spiritual beliefs on both sides, which several Nordic versions of

Christian rituals indicate. The Vikings adopted the White Christ' spirit into their family of gods. None expected a 'Black Christ', - like some trickster god or polar jester or out of the New Testament's appendix - 'the Book of Revelations'." (UU20191101)

- "With the joint Moscow/Mongolian/Muslim peace-agreement, Roma3 (Moscow) executed brutal and effective anti-papal campaigns towards the Christians in the Baltic region and the Nordic union." "Ivan (the terrible) attacked the Baltic region brutally. The nations responded with raids, invasions and blockades. The Polish, Lithuanians, Swedes, Dutch and Germans were together in the resistance. Ivan claimed that Novgorod could end up being catholic in a Polish/Lithuanian alliance. The claim has no documented validation, though. Roma3's final annexations by Ivan and Oprichnina (Roma3 secret services) was terrible and led to the 'Novgorod massacre' in 1570. This also terminated the trade-route between the Baltic sea, Kiev and the Black Sea/Roma2." (UU20140502). It seems that control over the Baltic Sea was an obsession to Russian emperors. A trade route to the Atlantic Sea via Germany was also frequently terminated with wars at Holstein. It left the Danish castle Kronborg as the only passage - regulated with taxes. (See also UU20141031, UU20140509, UU20140502, UU20130524 and UU20160513.) (UU20170804)
- "The S-E/S-I theories of organizations can even be lifted to Global levels during centuries. A most outstanding example is the CdE Game in the Winter Palace in 1914, - the 'Dagmar Syndrome' (the failed CdE Game that lead to the Russian revolution and 100 years of global warfare). It started as a simple TLM/TOL Game (Two Little Maidens) between the rivalling tsarinas from Germany and Denmark. This is an ultimate example that cloaking of ulterior Games can lead to unlimited cascades of misdeeds and mischiefs, - like a snowball can cause an avalanche, - like a match can cause a forest fire and like the shot in Sarajevo." "With hindsight, it is easier to see the moves of the Games, the players and the motives, - and who really lost and who really won. The overall plot should be clear after 100 years; (a CdE Game) to convert Roma3 from Throne/Temple in St. Petersburg to (the atheistic) State in Moscow." However, there are far less costly ways to do so." (UU20141219 and UU20180323)
- The Game CoC (Cults of Comintern) is in fact 100 years old. An anti-thesis Move to CoC, is the Game Over (P5GO), is total public exposure of its origin, Gamers, Gimmicks and Gains. Like the related Game USUK (UU20200201), CoC is apparently of the Game category GoE (Games o' Etat) and its climax is the Game CoE (Coup d' Etat), - like some collective Superior-ID ecstasy. Furthermore, the Games are also related to the Great Schism of 1054, where the trinity Christian church was split into the East and the West. Therefore, CoC is basically of the Game category GoT (Games of Temples) to create the 'atheist' State-Church and thereby dominate the three superpowers; the Throne, the State and the Temple. (See blogs like UU20180216)." (UU20200306)
- "Marco Polo was probably far more important to the faith of Roma2 than history indicates. Briefly summarized from the video tells that Marco belonged to a large group of Mediterranean people. They served Kublai Khan for decades as 'observers', 'counselors', 'priests' etc. The Mongols had previously conquered Beijing, the capital of China, in 1213. The Khan got in-depth knowledge about European society, religion, technology, weapons and warfare. The Mongols reaction and rage towards Roma2, after reading the Bible's 'John's Revelation', can be understandable, - if they were pointed out as the Bad Guys in a Game of Temples (GoT)." (UU20150206)
- "All psychosocial Games are deceiving and manipulative. However, CoC (Cults of Comintern) is at the far ridge of destructive cruelty, where the general Underworld ethic 'honesty is for suckers' is degraded to the predatory ethic of 'them' being 'useful idiots'. It even causes genocides. The Game's Gimmick is clearly dictated in the 21 Conditions for submission to the Comintern elite. It calls itself a 3rd international. Lenin claimed that the 2nd failed to make Europe collapse despite the efforts in World war 1; the trench warfare, the execution of emperors and the final pandemic plague called 'the Spanish flue', - which killed at least 50 million western Christians. That ultimate sociopathic dictation was promoted as the personal vendetta of the exiled Lenin. However, a Caucasian godfather, nicknamed Stalin (steel) replaced Lenin to escalated the genocides of humans. The nickname associates to Genghis Khan's human family labor, blacksmith. Yet, the ulterior motivation and Gain seems rather to be a

Superior vendetta to revenge the Siberian shaman Rasputin with the wrath of Mongolian black shamanism.” (UU20200306)

- “Still, the radicalization of the Eastern orthodox church came from the East, not the West. Wikipedia says: “Black shamanism is practiced in Mongolia and Siberia. Black Shamans are usually perceived as working with evil spirits and White Shamans work with spirits of the upper world. The highest group in the pantheon consisted of 99 Tengri, 55 whites and 44 terrifying blacks. The whites were of the nobles of the clan and the blacks of the commoners. A third category consisted of ‘the evil spirits of the slaves and non-human goblins’. White shamans could only worship white spirits. If they called upon black spirits, they lost their relation to the whites. Black shamans were too terrified to call to white spirits since the black spirits would punish them. Male and female shamans (böö and udgan) were the intercessors between the human world and the spirit world.” The psychosocial dysfunctionality of such GoT is founded on the taboos of denials, forced by terror, which degrade (Comintern) workers to ‘inhuman goblins’. Similar imaginations are reflected in movies like ‘Game of Thrones’, ‘Fantastic beasts’ and ‘His Dark Materials’ (The Golden Compass).” (UU20191101)

While uncovering Games of Temples (GoT) in RoC (Russian orthodox Church), it seems obvious, like hidden in plain sight - that eastern shamanism overran RoC long before that monk unconstitutionally declared Moscow as ‘the 3rd Rome’. Thus, main historical figures are also puppets of GoT, like; Ivan, Rasputin Dagmar and Stalin, - also including tsars and presidents. A further concern is the globalization of occult spiritualization – the collaborations, merging and mutations. Surely Tengri atheist camp for Tibetans, Muslims, Christians, Jews and others, - executes such assimilations, with unknown intentions and outcomes.

Still, the 4th and even 5th level GoT is unimaginable to most sane citizens. However, history proves such collective self-destruction of humanity over and over again. The logic behind such destructive psychosis might be imaginable with some sympathy to such alienated non-citizens. Therefore a main hypothesis is that such GoT are only possible to plan and execute when assimilated to a collective KO-KO state of minds, - consequently, collectively exposed to sociopathic mass-psychotic schizophrenia that is escalated with mass-neurotic hysteria. (See the blog UU20190628 about OK-OK sanity.) Despite the large field of the original philosophies of true divinity, - this current warfare is by no means religious, but simply mass-psychotic parallel apparatuses, designed to cause CCD (Colonial Collapse Disorders) as in CoC Games.

Religious history proves that GoT of 4th degree have been extremely harmful to humanity. Some theocratic scripts even dictate Games of the ultimate 5th degree. That must be prevented, for humanity sake. Therefore, humanity should respond in defense by uncovering such ‘Games of Temples’ in order to secure global sustainable constitutional quality - in this decade of Easter Crown (Pascha Corona).

This blog’s hypothesis is pressing because of the ongoing global biological warfare towards humanity and civilizations is out of anyone’s control. Some regimes have entered a state of delusional denials, which is clear symptoms of a seriously dysfunctional regime. A most urgent Move in the Games is to stop the denying that black Tengrism is globally widespread and accepted as atheism by the Chinese atheist constitution and elite. The regimes’ acts toward humans are hidden in plain sight for all to see. The Chinese flue is like the Spanish flue, on a 100-year anniversary. It might very well develop like the plague-warfare towards Europe as in the 1300’s. That started right after the first Mongolian occupation of Beijing.

Then the main question is, - how to heal religion? Such a comprehensive question is almost religious in itself. There is no simple answer to such a complex question. However, a very simplified hint is the SDG. Most civilized nations have formally signed to execute the global Sustainable Development Goals of 2030. These goals included institutions, which includes any kind of Temple in any kind of nation. Therefore, with all respect for ‘clients’ confidentiality, this includes psychological healing – noting that the word psychiatry means ‘the healing of souls’.

99 Luftballons - Nena

Before presenting the newly discovered Game 'Electra', - here is a recap of the presentation of the song in UU20191101. "'99 Luftballons' is a song by the German band Nena from 1983. An English version has lyrics with somewhat different meanings. Therefore, it is preferably sung in the original language. The reason for selecting this song is the associations that the number 99 gives. The original lyrics tells how Germany got involved in a war due to some science fiction-like presence (like some captain Kirks in Star Trek). Finally, the war ministers figured out how to regain peace. Far-fetched is the association to the 99 Tengri. Yet, the swastika and the occult Nazi emperor might have peaked the indirect influence of 1000 years of black shamanism in ROC. ..."

Now, the newly uncovered Game called 'Electra'. The archetypal Oedipus complex is mentioned in several blogs and is suggested as a Game in UU20180601. It was to be suggested as an Oedipus Syndrome in a subsequent blog, in order to explain how the mass-media can make self-fulfilling mass-psychotic claims of father-son alienations. However, the blog was cancelled since the blog-host decided to delete the whole UU blog site and all its content. That was a depressing set-back, which halted the blogging for a year. However, it is hereby further extended by focusing on Electra instead. This can also be related to the so-called Dagmar Syndrome, as presented in blogs like UU20141219.

Basically, Wikipedia introduces the thesis: "In Neo-Freudian psychology, the Electra complex, as proposed by Carl Jung in his Theory of Psychoanalysis, is a girl's psychosexual competition with her mother for possession of her father. In the course of her psychosexual development, the complex is the girl's phallic stage; a boy's analogous experience is the Oedipus complex." "In classical psychoanalytic theory, the child's identification with the same-sex parent is the successful resolution of the Electra complex and of the Oedipus complex; his and her key psychological experience to developing a mature sexual role and identity. Sigmund Freud instead proposed that girls and boys resolved their complexes differently—she via penis envy, he via castration anxiety; and that unsuccessful resolutions might lead to neurosis. Hence, women and men who are fixated in the Electra and Oedipal stages of their psychosexual development might be considered 'father-fixated' and 'mother-fixated'."

There are made some extensions, though, in order to balance the hypothesis of the Oedipus Syndrome out of discriminations of gender and age. Like Oedipus, the son-mother Drive relation is mutual, not merely as the son as a psychological MotherFxxxer. The mother is a SonFxxxer as well. Likewise, Electra is FatherFxxxer as much as father is DaughterFxxxer. This opens for gender-wise perspectives of the syndromes. The term MILF is dedicated the psychological MF, i.e. Oedipus. However, since the term MILF is included, there should, theoretically, be a term like psychological MILF too, i.e. 'minor I'd Like to Fxxx'. The term MILF is not gender specific and therefore applies to both the mother and the father. Like Oedipus is a psychological MF for MILF, Electra is FF for FILF. Finally, in order not to discriminate any sexual deviations,

the terms apply to psychological sexuality that contradicts physical sexuality too, hence Oedipus can be FILF oriented and Electra can be MILF oriented.

Note that this language and terms of the Oedipus/Electra Syndrome might feel repulsive to some readers. However, this does not exceed the reaction to Freud's original wordings. Moreover, such complexes and syndromes are probably the major Drive for most nature-related shamanisms, both male and female, since it is more ID/Sexual related than other kinds of religion.

Extra UU1 – Robyn Røyksopp – Monument

The Norwegian synth-duo Røyksopp and the Swedish artist Robyn collaborated a short period. With that, Røyksopp ended and Robyn regained her LifeQuality. They are previously presented as artists in the blog UU20161007. However, the following thoughts are not directly related to any of the artists, but to that recovery, the artful video and this blog's issue. Still, Robyn got a serious personal crisis that Røyksopp apparently helped get out off.

Røyksopp & Robyn - Monument + Lyrics

<https://www.youtube.com/watch?v=6c-RbGZBnBI>

<https://www.azlyrics.com/lyrics/royksopp/monument.html>

Røyksopp - What Else Is There? + lyrics

https://www.youtube.com/watch?v=h4rZE_J1beA

<https://www.azlyrics.com/lyrics/royksopp/whatelseisthere.html>

Anyways, concerning the issue is drugs and shamanism. 'Magic mushrooms' (Fleinsopp) is an ancient medicine that polar shamans used long before the age of vikings. It has similar effects as lsd and is considered as a natural psychiatric medicine, that can substitute chemicals from the industrial pharmacy. Certainly, fungus can be healing when used properly and not abused, - like Penicillin is.

The following recap is taken from blogs concerning this issue, followed by yet another refurbished Game:

- “Religion is not merely fundamental for psychology, but consequently to psychiatry as well. Uses and abuses of drugs has always been highly related to psychiatry. Plants are older than humans and psychotic drugs are especially grown in the middle-east regions, where the monotheisms were made. As talked through in UU20140801 and UU20141219: “Hallucinations/psychosis occurs mostly by poisoning or brain damage. Damages can be caused by Alzheimer, brain tumor, Parkinson and syphilis. Poisoning can be caused by narcotic hallucinogen drugs or lack of vitamin B. In brief, the categories of drugs are; psychedelic drugs like LSD and mescaline (hallucinogens), euphoria drugs like hashish, paralyzing drugs like morphine and heroin, in addition to central-stimulating drugs like amphetamine and illegal designer drugs like XTC (dopamine), (which is counter-dosed with legal anti-dopamine by the institutional psychiatry).” (UU20150123)
- “Consequently, diagnosis as psychotic, neurotic, paranoid, manic, phobic etc. are as legitimate for organizations as persons, mainly because organizational cultures are founded on the personalities of matriarchs and patriarchs. The reasons to such unsound conditions are basically the same – immature Superior-Ego/Superior-ID relations. Therefore, the psychosocial model can be used on unhealthy institutions as well as any family.” (UU20151106)
- “Nevertheless, worse than any sane person’s imagination, is the related organized drug crimes towards minors. This Dysfunctional Dane psychiatry is a re-occurring issue and main concern in blogs like UU20170714, UU20160902 and UU20150828. The infiltration, hallucination and manipulation in Dane child psychiatry cause organized crimes that violates the strictest paragraph in the penalty laws. Yet, objections are silent, caring parents are bonded with ruining accusations, while the minors are convinced to self-blaming scapegoats to cover up the crimes of the illegal, legal and twilight drugs markets. For example; the systematic doping of minors in public sports-clubs was related to the Russian crimes of sports dopes in the IOC; the ‘free city’ Christiania inside Copenhagen also includes systematic drugging of minors for both the legal and the illegal pharmacies; some pedagogues in the Folkschools, psychologist, psychiatrists and other commune servants that protects the providers, profiteers and drug oligarchs. Prey minors that suffers from psychedelic side effects of the drugs are diagnosed as psychotic and left with personal guilt, mal treatment and alienations, - which leads to spirals of LifeQuality corruption. The minors are even illegally abused as test objects for Asian un-approved drugs like Aripiprazole. The illegal drug testing is even financed by Dane state-aid, covered up as health services. More cruel abuse of masses of minors are unimaginable.” (UU20171117)

Finally, here is a presentation of a newly refurbished Game; ‘Junky’. Dr. Eric Berne presents the thesis of a Game called Alcoholic. However, the Game is not about the client, alcohol or addiction, but about all of the Game players involved in the client’s misery. There are the relatives having an excuse for other issues, the bartender profiting, the supporting organisations in need for clients and the psychiatrists that get paid for prescribing drugs. Thus, there is certainly a similar Game ‘Junky’. Therefore, some minor editing of Berne’s description of Alcoholic will make a full thesis of this newly refurbished psychosocial Game called ‘Junky’. Please note that the issue is not the unfortunate client, but all the surrounded gamers, like relatives, the pusher, the support organisations, the public social services, the drug-mafia, the pharmacy industry and more.

Extra UU2 – David Bowie – Wild is the wind

‘Wild is the Wind’ by David Bowie was presented in UU20131122 with 2 other related songs from the album Station to Station. He had a period of excessive self-medicating and tipped over. The association to this song and blog, is like some mourning reflections after opening a six-sided pandora box and let the 99 tengris out. A such devine and wind is in Korean called ‘shinmyeong’. (See more hereunder.)

David Bowie – Wild is the Wind + Lyrics

<https://www.youtube.com/watch?v=YsqIXkkEKxl>

<https://genius.com/David-bowie-wild-is-the-wind-lyrics>

This blog, though, explores some ways of shamanism. The attempt here is to remind that, despite the over-exposed black shamanism, there are basically positive and true religious foundations. There probably are far more Good Games. The majority of shamanism is basically positive - like Parents and Children play for healing and learning. A particular interesting aspect of Korean shamanism is that there is a 3rd 'Jing and Jang', - the tricolor where yellow represents humanity, red earth and blue heaven. That could be related to the theories of 3x3 social psychology.

A summary from Wikipedia says:

- "Central to Korean shamanism is the belief in many different gods, supernatural beings and ancestor worship. The Muism are of chosen persons and related to Chinese Wuism, Japanese Shinto and to the Siberian, Mongolian, and Manchurian shamanic traditions. The Korean ancestral king and later mountain god Dangun is related to the north Asian sky god Tengri. Hereditary shamans, who are typical of South Korea, are called Tangol and related to the Siberian Tengri. Some Christian churches in Korea make use of practices rooted in shamanism.»
- "People who become shamans are believed to be chosen by gods or spirits through a spiritual experience known as shinbyeong ("divine or shaman illness"), a form of ecstasy, which entails the possession from a god and a 'self-loss'. Korean shamans also experience shinmyeong ("divine wind"), which is the channelling of a god, during which the shaman speaks prophetically."
- "In all the myths which figuratively explain the role of the shamans, it is implied that they are a media, intermediaries, of gods, spirits or even demons. the lowest class of society have a forgotten their divine or princely nature, often coming from a blood lineage that may be traced back to the early founders of civilization.
- "The bear is an animal often present in such myths, with parallels in the mythologies of Siberia. In Korean shamanism the seven stars of the Big Dipper, and the associated divine influence, are considered fundamental for childbearing."

Nevertheless, indicating how fatal GoT can be. The symbol of bear is in the star constellation 'Big Dipper', 'Ursa Major' circulation around the northern Polar Star. Egyptian astronomers pointed out the constellation 'Southern Cross', Sirius and Orion's Belt and made the theology of the Sun's 2160 years Era/Age like the Moon's month. That astronomy is the very basis of western Christianity. (See blogs like UU20180330.) Likewise, the 'Bear' constellation circling the northern polar star can be divided into the four seasons. With similar imagination as with the zodiac calendar, the polar bear seasons makes a swastika – a 'Northern Cross'.

Therefore, the two polar crosses can be considered as dipolar constellations, with millennia swaps of power, like the great schism of 1054 indicates, - however perverted by anti-theist Players of GoT. Wild is the Wind – indeed.

Extra UU3 – Depeche Mode Wrong

Depeche Mode is often presented in UU blogs. This song 'Wrong' is an ethical anti-thesis BDW (Bad/Destructive/Wrong) and dedicated in particular to the dysfunctional institutions of child-psychocracy. The lyrics is of an unfortunate man that is manipulated to believe that his misfortune is due to superstitious faith. The video shows the real situations and consequences, - quite metaphorical of cause.

Depeche - Mode Wrong + lyrics

<https://vimeo.com/280478148>

<https://www.azlyrics.com/lyrics/depechemode/wrong.html>

This blog relates to the schized Church and the current pandemic and -demonic warfare. Quite frankly, the north Korean dictator appears determined to play a role as a biblical BGGG Game as setup by his

forefather's godfather Stalin. He was made for a CoC Game that provided a superior-divine script as out of the Mongolian shamanism, - and adapted to the northern Korean shamanism. That happened after the final Tsar had a catastrophic failure in establishing a Korean sea port. The Japanese wiped the proud Tsardom's fleet out. That turn of event was also fortunate for Lenin's blood feud towards the Tsar.

Wikipedia writes how the Russia made the fake puppet shaman elite of north Korea:

- «In the 1890s, when the Joseon dynasty was collapsing, Protestant missionaries gained significant influence through the press, leading a demonisation of Korean traditional religion and even campaigns of violent suppression of local cults. Protestant demonisation would have had a long-lasting influence on all subsequent movements which promoted a complete elimination of Korean shamanism. During the Japanese rule over Korea, the Japanese tried to incorporate Korean shamanism within, or replace it with, State Shinto. For a short period in the 1940s, however, after the defeat of the Japanese, Korean shamanism was identified as the pure Korean national essence. After the First Sino-Japanese War and the Russo-Japanese War, Korea was occupied by Japan from 1910 to 1945. Japan tried to suppress Korean traditions and culture and ran the economy primarily for its own benefit. Korean resistance groups known as Dongnipgun (Liberation Army) operated along the Sino-Korean border, fighting guerrilla warfare against Japanese forces. Some of them took part in allied action in China and parts of South East Asia. One of the guerrilla leaders was the communist Kim Il-sung, who later became the first leader of North Korea. »
- “Kim Jong-un, the grandson of North Korea's founder. In 2013, the Workers' Party of Korea amended the Ten Principles for the Establishment of a Monolithic Ideological System, which in practice serves as the primary legal authority and framework of the country, to demand "absolute obedience" to Kim Jong-un. In keeping with the modern mythologies that pervade North Korea's version of history, which is seen as crucial to the cult of personality and political control, it is alleged that Kim Jong-il was born on Mount Paektu at his father's secret base in 1942 (his actual birth was in 1941 in the Soviet Union) and that his birth was heralded by a swallow, caused winter to change to spring, a star to illuminate the sky, and a double rainbow spontaneously appeared. The North Korean cult of personality is a large part of North Korean socialism and totalitarianism. It is considered to be the only imperial cult left on Earth.”
https://en.wikipedia.org/wiki/North_Korean_cult_of_personality#Kim_Jong-un

The risk for humanity, the GoT related CoC Game and the anti-thesis - is hidden in plain sight. The North Korean elite are still puppets of the Comintern's CoC Game. They are selected and assimilated by the atheistic RoC state-church in order to control the region by eliminate true Korean religion. Most alarming is the nuclear detonations at the root of the super-volcano, the black shamanistic farming of 'workers and goblins' and the potential biological warfare, like by some occult christian church in south Korea. All is covered up by some scripted scenes of being biblical horsemen, son of the sun and narcissistic hymns of mass-psychosis. No doubt - this Stalinist puppet is of the same script as black shaman Hitler.

Don't Stop - Fleetwood Mac (Vintage New Orleans Blues Cover)

UU20200306

This 'Citizen Deuce' blog sets the focus on sustainable Constitutions. That required outcome is based on the United Nation's Sustainable Development Goals for 2030 - and in particular the SDG16 (Peace, justice and strong institutions). This will conclude the previous blogs of related issues, like UU20200103. This is also the very anti-thesis to the Comintern, that fake 3rd International and its war-declaration towards all western nations and citizens. That Crime of the Century was triggered in 1920 and should be terminated at this 100-year anniversary. Therefore, the newly discovered Game called CoC (Cults of Comintern), will be fully exposed, in order to elevate the SDG16 by 2030. Both USUK and CoC are thereby parts of the Game category P5GO (5th Pyramid Game Over), as described in blogs the previous blog UU20200201.

All psychosocial Games are deceiving and manipulative. However, CoC (Cults of Comintern) is at the far ridge of destructive cruelty, where the general Underworld ethic 'honesty is for suckers' is degraded to the predatory ethic of 'them' being 'useful idiots'. It even causes genocides. The Game's Gimmick is clearly dictated in the 21 Conditions for submission to the Comintern elite. It calls itself a 3rd international, since Lenin claimed that the 2nd failed to make Europe collapse despite the efforts in World war 1; the trench warfare, the execution of emperors and the final pandemic plague called 'the Spanish flue', which killed at least 50 million western Christians. That ultimate sociopathic dictation was promoted as the personal vendetta of the exiled Lenin. However, a Caucasian godfather, nicknamed Stalin (steel) replaced Lenin to escalate the genocides of humans. The nickname associates to Genghis Khan's human family labor, blacksmith. However, the ulterior motivation and Gain seems rather to be a Superior vendetta to revenge the Siberian shaman Rasputin with the wrath of Mongolian black shamanism. Nevertheless, this demonized masspsychosis needs to be ended now for humanity sake. The nature of such Cults of Comintern is deadly serious ulteriority and denials of own existence and activities. Therefore, they are still dominating western institutions, protected by Stalinist LEJ powers. The anti-thesis is the Game 'Game Over' and can terminate CoC by full global exposure.

The extreme sociopathy of the Comintern's 21 conditions are thoroughly described in blogs like UU20180209, UU20170929 and UU20160923. In sum, the Game CoC violates any paragraph in any penalty law simply by dictating use of illegal means to convert or eliminate the bourgeois citizens, - and to prepare a CdE (Coup d' Etat Game). In the Nordics, one third of the parties, and most labor organisations, are founded on the Comintern and its organised crimes. However, public servants are forced to join such organized criminal organisations in order to keep their jobs and income, that is needed to support their family and related. Therefore, the present public servants should be liberated as the thralls and 'useful idiots' they are forced to be. Still, 'Rule by Law' requires full corporation with the national legal authorities and courts. If not, there is no more protection by the 'Stalinist labor court of organised crimes, since civil penalty courts executes 'rule by law'. The Comintern's parallel LEJ power (Legal, Executive, Judicial) will No more overrule the proper national constitution.

The Game CoC (Cults of Comintern) is in fact 100 years old. An anti-thesis Move, the Game Over (P5GO), is total public exposure of its origin, Gamers, Gimmicks and Gains. Like the related Game USUK (UU20200201), CoC is apparently of the Game category GoE (Games o' Etat) and its climax is the Game CoE (Coup d' Etat), - like some collective Superior-ID orgasm. Furthermore, the Games are also related to the Great Schism of 1054, where the trinity Christian church was split into East and West. Therefore, CoC is basically of the Game category GoT (Games of Temples) to create the 'atheist' State-Church and thereby dominate the three superpowers, The Throne, the State and the Temple. However, the aftermath, the harvest and collection of the spoils of war (goal and payoff), is the Rituals of the ulterior Gimmicks of the Comintern. In brief, the isms, the declaration and propaganda do not expose the objectives of the ulterior Game, - but the masspsychosis for the Game's 'suckers', 'useful idiots', in bondage. CoC is at the simplest a 2020 version of the Game Jante, where the collective mental state is 'we are all full of lies – including our own'. This Spell can be ended by simple means of mental health – like stopping the denials and facing reality. (See blogs like UU20180216)

Still, the UN SDG-2030 is the global solution to restore proper constitutional quality and LifeQuality for its citizens. As mentioned in the previous blog: "The Comintern-2020 is determined gradually end till 2030. The reason is that most united nations are determined to fulfill their obligations to the UN Sustainable Develop Goals – including SDG16, i.e. 'Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.'"

The UN describes its SDG project as: “The 2030 Agenda for Sustainable Development, adopted by all United Nations Member States in 2015, provides a shared blueprint for peace and prosperity for people and the planet, now and into the future. At its heart are the 17 Sustainable Development Goals (SDGs), which are an urgent call for action by all countries - developed and developing - in a global partnership. They recognize that ending poverty and other deprivations must go hand-in-hand with strategies that improve health and education, reduce inequality, and spur economic growth – all while tackling climate change and working to preserve our oceans and forests.”

The goals of SDG 16 are: “To Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.

(16.3) Promote the rule of law at the national and international levels and ensure equal access to justice for all. (16.4) By 2030, significantly reduce illicit financial and arms flows, strengthen the recovery and return of stolen assets and combat all forms of organized crime. (16.5) Substantially reduce corruption and bribery in all their forms. (16.6) Develop effective, accountable and transparent institutions at all levels. (16.7) Ensure responsive, inclusive, participatory and representative decision-making at all levels. (16.10) Ensure public access to information and protect fundamental freedoms, in accordance with national legislation and international agreements. (16.a) Strengthen relevant national institutions, including through international cooperation, for building capacity at all levels, in particular in developing countries, to prevent violence and combat terrorism and crime. (16.b) Promote and enforce non-discriminatory laws and policies for sustainable development.”

However, this complex system of new initiatives does require balanced prioritizing between all of the UN goals. It cannot always put the SDGs concerning the individual human rights at the top of the list. Societies are far more advanced than individuality – even though that might be hard to see as an individual. Therefore, the SDG is also as a realization that such single-sided overfocus have tipped the balance of fragile nations, and thereby serve the CoC Games. A post-war example is that such over-prioritizing has caused societies, cities, nations and unions to collapse with fatal outcomes. Even worse, some CCD (Colonial Collapse Disorders) have been motivated by predator rivals to cause CdE (Coup d’ Etat) and extortions of prey nations at priceless human costs. Such Pyramid Games were played in all the continents – causing irreversible traumas to humanity. One such unbalanced mass-hysteria that serves the CoC Game, is the SDG13 and CO2. CO2 is not even mentioned in SDG13 (Climate Action), but in SDG 9 (Infrastructure and Industrialization) and its target 9.4.1. The same kind of Game Moves and tactics is well known towards the universal human rights – where some single minorities’ rights are overexposed and overprioritized at the cost of the majority and thereby humanity.

Still, this is a blog in a series that spans a decade. Therefore, some of its theoretical models for improving human and constitutional qualities should be mentioned. These are some relevant and conclusive citations and links.

- “... the theories presented ... are explained in UU20140912 as; a consistent definition of “LifeQuality; a 3D ethics model, a 3D ethical system of GCR (Good/Constructive/Right); a 3D political model relating to the constitutional LEJ powers (Legal/Executive/Juridical); a 3[^]3 (3*3*3) psychosocial model of Drive, Will and Belief; an extended psychosocial Game models; a 5D scenario model for past as well as future (UU20140912); and extended terminology by extended use of suffixes.” (UU20150612).
- “All things considered, most systems of LEJD quality (the Legal, Executive, Judicial and Democratic power-system) appears severely dysfunctional, when considering the HR related LifeQuality and dual citizenship. That is thoroughly denied by some constitutional powers, which proves the state of dysfunctionality. Yet, there is a simple preventative and constructive for significant improvements. This can be done by virtualized cyber bureaucracy. Start by correcting the executive powers’ redirecting of organized crime from the common legal systems and direct them to proper the civil penalty legal systems. This will reduce the organized crimes in the public sectors dramatically.” (UU20190801).
- “Finally, - here is an indisputable conclusion about the LEJD Quality of all the united nations. The ratification, implementation, executing and judging concerning the obligated HR are documentations of

any nations' levels of corruption, dysfunctionalities and mass-psychosis. The Anti-HR exists and is more powerful than all the powers of the UN, - or else the state of the nations would be far better. The LEJD quality of all the united nations are evidences of that. Said more directly than the UN can express, - the healing of that global dysfunctionality must be the main objective for the civilized humanity's existence and progress. The ongoing disrupting (Industry 4.0) will tip humanity to dystopian or utopian states – dependent on the healing processes expressed by the UN SDGs.” (UU20170721)

- CoC is an Underworld Game, sometimes related to terrorism. This is elaborated in two quotes from UU20160722. “However, true Parliamentary authorities must differ between willing and forced PROSA workers, when investigating such PROSA crimes. (PROSA; Pro-Russian Oligarchs, Separatists and Anarchists). In fact, criminal law is stricter to public servants than to civilians. Yet, public servants are rarely sentenced for their crimes even though the scandals of low-quality services and expenditures are far too high. It is proof though, of too much fraud and corruption, - like in mafia-dominated markets (UU20151023). Most public laborers are forced by violent mafia organizations that are related to the so-called 'Red Mafia' (see blog's video link). The threats of Underworld Games were talked through in the previous UU20160715 'P5GO03 – PROSA Pension'. Although any member of a high treasonous organization can be guilty by association, there are exceptions, - like for civil criminal relation, - by supporting the true Parliamentary system to improve the LEJD Quality by unclouking the criminal 'parallel organisational apparatus' (Comintern's condition 3).”
- “PROSA workers cannot be allowed to work in the public sector anymore, - it is like letting a flock of wolfs servicing a zoo. There has to be a contra-revolution in the Parliamentary LEJ (Legal, Executive and Judicial parliamentary powers) to outweigh the infiltrations and manipulations of para-LEJ workers. The treasonous Condition 2 (C2) demands replacing loyal citizens with PROSA workers in parliamentary factions, co-operatives, local government. In a similar way, all present employees in public sector must read and confirm a letter informing their obligations as civil servants according to national penalty law. Examples on violations according to 3rd International Conditions should clarify some previous misinformation from PROSA Unions. Furthermore, a security clearance, in accordance to the Penalty law, must be signed by all employees in the public sector, - or else they actually choose to leave. Nevertheless, the public sector will manage very well even if PROSA unions cause massive removals. PROSA Unions' war declaration towards the Parliamentary system, by building para-organizations within, have during the cold war doubled the number of employees required to run the public sector. Besides, valuable information to uncloak the real predators and preys of the Pyramid Games' will be revealed by their direct and indirect activities and passivities.”

“It should also be noted that labor unions, ... , were original positive in human rights values, but unfortunately allowed themselves to be infiltrated and manipulated to be mass-neurotic, mass-psychotic and mass-schizophrenic. It is outdated unrepairable, and needs substitution by some HR unions of this century.” The urgent need for healing such organisational insanity will be the main issue in the next blog.

Conclusively, it is undeniably necessary with a full global exposure of all Cults of Cominter-2020 and the CoC Game. It might be sufficient with the decade to 2030 to successfully reach the United Nation's Sustainable Goal 16 for peace, justice and strong institutions - i.e. qualitative Constitutions and Rule by Law. Most suggested solutions are in the quotations above. However, CoC exists because of their parallel and criminal organisational apparatuses to the national institutions. Therefore, it is necessary to short-cut corrupted official with virtual AI administration and to redirect public criminal activities from the para-courts to the civil courts of 'rule by penalty law'. In addition, all officials must read and sign the legal obligations that official employment requires by penalty law.

Music - Don't Stop - Fleetwood Mac (Vintage New Orleans Blues Cover) ft. Maiya Sykes

"Don't Stop" is a song by the British-American rock band Fleetwood Mac It is one of the band's most enduring hits, peaking at No. 3 on the Billboard singles chart. The song was the theme music for United States presidential candidate Bill Clinton's 1992 presidential campaign. Upon winning the election, Clinton persuaded the Rumours lineup of the group to reform to perform the song for his inaugural ball in 1993. At the 2000 convention, he ended his speech by saying, "Keep putting people first. Keep building those

bridges. And don't stop thinking about tomorrow!" Immediately after the final sentence, the song began playing over the loudspeakers.

The obvious association to this song is simply to end the 100 years' war towards western nations and citizens – now – for the future humanity's sake.

Extra UU1 - David Bowie - We Are the Dead

What a nice surprise to see a republished movie version of David Bowie's masterpiece 'We Are the Dead'. It was presented in the previous blog UU20160923 like this: "The song is taken from the album 'Diamond Dogs' and is the first of 4 songs written to the novel '1984'. This one is from the scene, after getting the fatal 'I Love You' note (like the first computer-virus) and realizing that their 'sex crime' will be a death sentence. The theme of 1984 is mentioned several times in blogs and this song was previous presented in UU20101029." "The novels '1984' and 'Animal Farm' are the inspiration to the Drive Game category AF (Animal Farm). It is described in UU20150227. They are also the inspiration to the dystopian term 'Trelletoptia', where the 'people' in bondage Believe their dystopia is a utopia. (UU20140801, UU 20141114 and UU20150703)". As the blogs indicates, - that is the in-depth model of social-psychology, which these Game analyses are based on.

Also see that blog's extra UU with the revised 'The 5th Putinist International (Comintern)', where the word 'communist' is substituted with 'putinist'. It provides a mind-bending realization of the present CoC Game of Comintern-2020. After all, the novel was originally written I 1948 with the name "The Last European". Somehow, some editors changed the revealing title by swapping the last digits of the publishing year. Anyways, no doubt Big Brother is the Genghis wannabe - Stalin. Comintern's main Gain of that CoC Game.

That newly discovered Game USUK revealed Stalin's third conspiracy, this time between US-SU-UK (UU20200201). Like Comintern shifted partners, like the sex-worker in the book, it should be expected that the nature of the sexual category Games escalates with Superior-ID Drives. Anyways, the book 1984 did probably prevent UK's own 1984 dystopia by full exposure of the USUK Game. Together, the two Games USUK / CoC expose the ID driven Drives of manic insanity, the S-Ego vs S-Drive collective state of mind. This goes for the Comintern of the past, the putinisme of the present and the future.

Finally, the 5D model is not only be useful to make future scenarios, but also to expose the real past beneath the Gamers' propaganda. That is based on knowing that one major spoils of war are to write its history as single-sided as wanted. Telling untrue histories is required to win criminal Games. Therefore, like the USUK conspiracy, the USUK Moves is not described as 'the truth – the whole truth - and nothing but the truth'.

Like Stalin got access to German warplanes in the Molotov–Ribbentrop Pact' in 1939-1941 (UU 20141121), - Stalin did probably got access to British armed forces in the USUK agreement too. If so, that was when factions of RAF radicalized from the Royal Air Force to the Rote Arme Faction. Dresden, like Rammstein, was that Genghis wannabe's revenge for the Caucasian city Volgograd that was renamed to Stalingrad.

Extra UU 2 - The Day Democracy Died - sung by The Founding Fathers

No matter the opinion about the present US president, - this published spoof-video by Occupy Democrats, is remarkably well done. The organisation present themselves like this: "Our mission is to enact progressive change and defeat President Trump's supermajority in 2018 and send him packing in 2020."

The opinion of the present puppet president of the Devo Trinity (PPT, PPP and PPB) is clearly stated in the 3rd extra UU20200201. Although, the PPT is the main reason why the blog series called 'P5GO' was extended from 12 to 50 blogs (i.e. stars in the western EU and US flags). It started with the shock on how corrupted the US electoral system actually is – and the following cascades of variations of Brexit – which really means Bricsit (as in BRICS). The theme was based on the lyrics that says it all – Elected by Alice Cooper (UU20170113). Now the BRICS' Games, USUK and CoC, seems to do permanent HAR Games (Hit&Run) damages to all the United Nations' Sustainable Development Goals for 2030.

Toxic - Vintage 1930s Torch Song Britney Spears Cover

UU20200201

'Bourgeois Deuce' vs the Comintern-2020 is the focus for this UU blog. 2020 is the 100th anniversary for that global pact towards all western citizens (bourgeois/borger) and nations. Millions of were inhumanly violated in a cleansing disguised as workers' social reforms. Still, the suppressions and genocides are basically syndromes of mass-psychosis, mass-neurosis and mass-schizophrenia. That underworld occultism, camouflaged as atheism, is yet to fully uncover. Still, most nations did unite and declared the very anti-thesis to the Comintern, called the Universal Human Rights - yet, too little too late. The anti-human occultism had already infiltrated and manipulated most national constitutions. That autocratic bondage still escalates, because there is no built-in emergency break in such a Pyramid Game.

This dual citizen is determined to see end of the miserable existence of such dysfunctionality – simply by exposing the Cominterns 21 conditions of inhumanity. This blog focuses on howto end the Comintern toxicities at its 100 years anniversary – for humanity's sake. Yet, it has been hard for a hundred years and still is, due to the extreme deniability. Its parallel press, police and courts make organized crimes in the public sector as untouchable as Stalin's mafia. However, such citizens anti-Comintern is fully supported by the UN efforts to save the nations from such dysfunctionality. In particular, most united nations have now of the Sustainable Development Goal # 16 'Peace, Justice and strong Institutions' (SDG16).

Wikipedia sums up: “Comintern, also called the 3rd International, advocated world communism. It resolved to struggle by all available means, including armed force, for the overthrow of the international bourgeoisie (citizen/borger) and the creation of an international Soviet republic as a transition stage to the complete abolition of the state. The Comintern had been preceded by the 1916 dissolution of the 2nd International (in WW1). Its members included the Soviet Union, Tuvan People's Republic (of Turkey) and the People's Republic of Mongolia. The Comintern was dissolved by Stalin in 1943 to avoid provoking his wartime allies, the United States and the United Kingdom.” Clearly, the abolition of the Russian Throne and State leaves only one national super-power – namely the Temple. ROC was anti-western and related to Mongolia, which makes the Siberian/Mongolian black shamanism exposing itself, personalized as Rasputin Sr. (See UU20191101)

However, before the US-SU-UK alliance of WW2, the figures Stalin and Hitler formed the ‘none aggression agreement’ called Molotov–Ribbentrop Pact’ in 1939-1941. (UU 20141121). Consequently, Hitler’s cult of national-socialists became radicalized to ‘Stalinism’. Consequently, all Prussian ‘nashi’ entered bondage to Stalin’s Comintern and its 21 conditional war declaration towards the nations and citizens of ‘the West’. Now, China is bond to the same Game. As a psychosocial Game, this is truly a multilateral LYAHF Game (Let’s You And Him Fight) at 4th degree – with the main Gimmick “honesty is for (human) suckers”.

Like the quality of humanity has been a basic blog theme in 8 years, - its anti-thesis, the Comintern, has been a major issue all along. Still, those blogs are too comprehensive to summarize here. Yet, some previous citations touch upon key elements to the required quality of the constitutional LEJD powers (Legal, Executive, Juridical and Democratic). Some are called PROSA, P5GO Game, 3D politics and 5D scenarios. The following citations should support the following suggestions – and the presentation of the brand-new Game called USUK.

- “The Pyramid Games are described in the initial blog UU20160513. “Pyramid Games are based on the illegal ‘Pyramid scheme’, ‘Eight-ball’ and ‘Gifting circles’. Eight people are lured by one to ‘invest’ in illusions of repayments in a distant future, - not realizing that the Game is built to collapse and rather cause their ruin. The ethics to such Game masters are ‘honesty is for suckers. The 5 Pyramid Games in this UU theme are related to the 5 Internationals (where the Comintern is the fake 3rd International). Those ‘suckers’ are lured to contribute to domestic CCD (Colony Collapse Disorder) that weakens their prey nation enough to enable the main gains of CdE (Coup d’ Etat).”
- “Anyways, the 0D, 1D, 2D and 3D political models are still valid as earlier. However, it should be stressed that the ancient primitive political models, based on 0D and 1D, are declared obsolete due to inadequate foundation in political realities. Only Pyramid related politicians and mass-media still propagates such. Furthermore, the absurd geographically term ‘The West’, i.e. Europe and America, does not merely prove the 2D stone age illusions from Moscow’s Comintern about 2D Flat Earth and flat Sky, but also the insane political perspectives on humanity. The World is round – period. Calling a region west, east, north or south is as absurd anywhere in the world except for a fixed point of the source, like the Kremlin. Such ignorant arrogance merely proves how Bad/Destructive/Wrong the Illusions of the International Comintern are. Simple 0D, 1D and 2D will experience democratic events as ‘ghosts in their machine’ and act psychotic and paranoid towards it.” (See blogs like UU20160701.)
- “Here is a brief summary of the dictated conditions to the ‘PROSA’ (Pro-Russian Oligarchs, Separatists and Anarchists): C2; “...methodically remove reformists and centrists from every responsible post in the labour movement (party organisations, editorial boards, trades unions, parliamentary factions, co-operatives, local government) and replace them, ...” C3; “In almost every country in Europe and America the class struggle is entering the phase of civil war. They have the obligation of setting up a parallel organisational apparatus which, at the decisive moment, can assist the party to do its duty to the revolution (CdE). In every country where a state of siege or

emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity." C13; " ... cleanse the party systematically of the petty-bourgeois elements (loyal citizens)." (See more in blogs like UU20170811)

- "In brief, 'Red Army Factions', despite their extreme ulteriority, were disclosed in several European nations and probably still exists in all. A RAF-dnk cell called 'Blekingegadebanden' was named after the disclosure of a weapon depot in Copenhagen. Besides, the hypothesis of RAF development is the pre-RAF as BRAF (brown-red), formed from the WW2 Stalin-Hitler alliance and postwar-Games. This century's RAF has become GRAF (green-red) where green as the color of Islam and do not symbolize of nature at all. Furthermore, (another bullet point said); "Pro-Russian Oligarch, Separatists and Autonom (PROSA) do not merely operate in Ukraine." This is based on present media observations on how the neo-SU CdE Games are played, where there are hierarchies of RAF cells organized, yet manically denied like in 'Underworld' Games of mafia bosses. The executioner in Oslo, Paris and Copenhagen are displayed as Autonom, merely to disguise and protect the massively organized crimes behind." (See blogs like UU20160610 and UU20150220).

Note, examples of this century's RAF directly submitted to the PPP are Wagner Group and Night Wolves.

The solution and the remedy to the dysfunctionalities, like the Comintern, is described in UU20160701 like this:

- "Generally, the cure, the treatment and the necessity to reduce harm to themselves and the related, are basically the same as for group therapy. In comparison, the situation is similar to how society should deal with unsound mafia organizations to minimize the personal and societies' traumas. It is a psychosocial Game of Game Over (GO). (See more at UU20160624).
- "Yet, there is hope with general knowledge of human and organizational natures. Russia made the sound change by introducing democratic transparency with 'glasnost and perestroika' to end the cold war. However, Oprichnina disagreed and the democratic selected president was replaced with an FSB agent in 1999 - the Puppet President Putin (PPP). Then the 3rd Fatherland war and '5th Pyramid' was initiated. The war against the West operates fully now in Oprichnina secret service style of 500 years tradition from the constitution of Roma3."
- "Still, the Game Over is rather simple. Spot the PROSA (Pro-Russian Oligarch, Separatist and Anarchists) that are obligated to the 21 condition of the Comintern, the Pravda propaganda, the Putinized strategies and other anti-parliamentary expressions, activities and passivities. National Penalty laws should be used as warning or contra-activity."

Note that para-courts like workers courts are 'parallel organisational apparatuses' made to re-direct Comintern crimes from the 'rule by law' penalty court to some mafia-style judicial unlawfulness. Most cold-war public servants became 'untouchables' and are rarely punished like the citizens (bourgeois/borger) are.

By this, a new Game called 'USUK' was revealed. It is a 4th level global Game, based on its origin, the WW2. Its meme is the historical picture at the Yalta Conference - 'the Big Three', Churchill, Roosevelt and Stalin – celebrating the split of their prize – Europe. It uncovers the US, SU, UK pact that continued the Stalin-Hitler pact and strengthens the Cominterns infiltration and manipulations by public organisational apparatuses. During the cold war, Mongolia invaded Beijing the second time and continued that submissive scheme. Conclusively, the cults of Comintern 1920 is as operational as deniable in 2020 – it's just reorganized and camouflaged.

The psychosocial Games are described in UU blogs like UU20160701 and UU20140912. The USUK Game relates to its anti-thesis called P5GO (the 5th Pyramid Game Over). "The Pyramid Game (is), similar to other 3rd degree Underworld Games, - with potentials of 4th and even 5th degree. Pyramid is a whole Game

category that is common to other categories like KoC (King of the Castle), GdE (Games d'Etat) and GoT (Games of Temples)." "Pyramid Games have probably existed in multiple disguises, ever since the golden age of the real pyramids. Anyways, Pyramid Games have caused national riots like 1997 Albania and 2008 Colombia in addition to economic ruins for citizens, banks, global trade, and political organizations. (Ref Wikipedia) In this theme, focus will be set on anti-parliamentarian Pyramids intended to cause CCD in order to execute CdE (Coup d'Etat)." (UU20160513) Nowadays, monetary Pyramid schemes are executed as trade wars between BRICS, US, China and EU. At the present, a major pray nation is the UK. The dysfunctional Parliament and Throne have an existence of 'Dementopia' that cannot ever relate to this century's realities. The only way for the constitution to get realistic, is that the 'dementopists' retire. Then, the real society can adapt to its reality.

Basically, the USUK is a simple Underworld version of the LYAHF Game. Yet, it is overblown to a global Pyramid Game at the brink of detonation, since all fuses, emergency buttons and alarms are systematically disabled by design. However, the USUK Game is far more complex than LYAHF. The ulteriority is that the SU is hidden in plain sight, within both the US and the UK. Apparently, the US-SU-UK alliance of 'the West' (of Ural) might be considered as one big united 'sucker' in such Game of masspsychosis. The Game initiators might not even experience their humanity as superior anymore – but remote controlled by some spiritual dilutions. Most arming is that the US PPT and UK PPB are corrupted to de-part from Europe and to provoke conflicts. The PROSAs of the nova-SU are provenly extremely active in making the political situation as in WW2 – for another round of the 4th degree USUK Game. The reason is that the Pyramid scheme has come to its bursting point – its payback day with a drained treasury.

The degraded citizens in bondage entered the Pyramid Game with the promise of some future pension instead of real payment. However, no such exponential Pyramid scheme can ever pay back. Moreover, most western citizens were not radicalized or executed – as schemed. The illusion of that exclusive reward depended on another Game, namely RPPP (Rob Pete to Pay Paul). However, the surplus is long gone with the founding oligarchs of the labor unions. Now the need for tax income has exceeded any realistic threshold – and still is escalating as any other Pyramid scheme. The present cults of Comintern don't quite realise that their godfathers of protection are long gone – as is their union pensions. Still, the solution is not to cause CdE towards their nation, but towards their oligarchic Unions.

Finally, the Comintern-2020 is determined gradually end till 2030. The reason is that most united nations are determined to fulfill their obligations to the UN Sustainable Develop Goals – including SDG16, i.e. 'Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.'" Unless diluted by mass-psychoses of the Comintern Press, most citizens (bourgeois/borger) promotes true rule by law and the parallel Comintern courts are about to be disabled. The massive crimes of the public sector might very well be directed to the true penalty court and judged by penalty law – in very large numbers.

Game Over.

Music - Toxic - Vintage 1930s Torch Song Britney Spears Cover ft. Melinda Doolittle

The song Toxic by Britney Spears was the most expensive music video ever made. The video is full of memes, messages and symbols about some Toxic Games of 3rd degree. This UU selection relates to this blog and the Toxic Comintern Games. The parallel is intriguing at several issues and degrees. The video starts with an airplane that flies with three dark birds. Britney appears as a worker and 'accidentally' spills a drink on a passenger, kisses him and steals his black pass. Then Britney appears in a futuristic Paris, riding a

Ducati 999, do a Marilyn Monroe meme and wears diamond body-suit. The 'mission impossible' is to enter the Toxic Industries and steals a vial of green poison. All this to deliver her lover a Toxic kiss. Finally, the circle of events is completed with Britney back on the black bird plane.

The association is the Toxic pyramid Games of Comintern 2020, including black shamanism, cyber-crimes and inhuman doom. Issue of black shamanism is talked through in the 'Halloween' blog UU20191101.

Extra UU1 - Manic Street Preachers - If You Tolerate This Your Children Will Be Next

"If You Tolerate This Your Children Will Be Next" is a very strong song by the Manic Street Preachers. The title is taken from an anti-fascist poster from the Spanish civil war, where fascists and Stalinists killed each other as well as Spanish citizens (bourgeois/borger). The Comintern soldieries' quote "If I can shoot rabbits / then I can shoot fascists" illustrates that both sides are just as insane in this citizens' collective self-destruction. The title suits any kind of politics, religions and people. Alarmingly, that civil war was a proxy war to test out 4th degree Game tactics prior to WW2 – not triggered by true civil unrest.

One tested tactic was to infiltrate the prey nation with so-called 5th columnists. They built Comintern parallel organisational apparatuses inside the offended prior to the attack. That parasite method proved so effective that most united nations during the cold war were infiltrated and manipulated in similar ways. Most important, the para-courts, like labor-courts, makes organized crimes by public servants like un-touchable.

The song starts and ends with the anthems of Stalin's Comintern' (the fake 3rd) International. The bondage workers are British and the overlords are Chinese. Related theocratic issues are talked through in blogs like UU20190628.

Manic Street Preachers - If You Tolerate This Your Children Will Be Next + Lyrics

<https://www.youtube.com/watch?v=cX8szNPgrEs>

<https://genius.com/Manic-street-preachers-if-you-tolerate-this-your-children-will-be-next-lyrics>

Extra UU2 – Ramstein – Ich Will

This music video 'Ich Will' (I want) was presented in UU20140613 like this: "Once again, Ramstein is selected because their controversial videos and songs are especially illustrational for the UU theme of the time. This short movie presents a group that can be associated with the 100 Red Army Factions (RAF). Here, one of the hostages are a part of the gang. The association is the fatale bank robbery in Sweden where the prime minister Olof Palme tried to negotiate. The case gave name to the so-called 'Stockholm Syndrome' with the hypothesis that hostages can shift loyalty during a crisis and thereby get reduced punishment compared to the actual participation."

Yet, to this blog, the association is the organisational insanity of the Comintern's parallel organisational apparatuses, like para-military, para-police and para-courts. Germany was particularly exposed due to the infiltration by the schizophrenic alter-egos 'Hitler' and 'Stalin'. The blood-feud to Prussia included infernal bombing of western christian citizens, including the city Ramstein. Such brutal fakir shows have become the trademark to the band. Still, cities like Ramstein was the realization of the 21 conditions of the Comintern, like some shamanist's blood-feud. All in all, 100 million Christians of the west were killed during that Russian 'fatherland war'.

Ramstein – Ich Will + Lyrics

<https://www.youtube.com/watch?v=EOnSh3QlpbQ>

<https://muzikum.eu/en/127-3910-154505/rammstein/ich-will-english-translation.html>

Extra UU3 – Devo – Gates of Steel

The band DEVO and the song 'Gates of Steel' related to the discovery of the Game USUK, as presented in this blog. The song was also selected in UU20131011 to issues about SU Stalinism. However, the band was originally formed as a practical joke by some art-students. The name DEVO is short for De-evolution and indicates that human development has reversed – for some parts. They did not imagine being a band, before they got support from David Bowie, Warner Brothers and Brian Eno. The main message in the song 'Gates of Steel' is that humans are humans and constructions are constructions, - even though the real life 'Devo' called himself Stalin or 'man of steel', making a false meme to the physical Genghis Khan's original labor – a black smith.

This time, the focus is set of the renewed US-SU-UK alliance based on the Comintern-1920. That is the succession of the Stalin-Hitler alliance, the forerunner to the Cold War in most united nations, the legitimation for Asian genocides and the basis to the present Comintern-2020. The lyrics has some somewhat weird religious undertones, though, which suites the occult ulterior of that Caucasian mafia-boss.

Happy - Pharrell Williams jazz cover ft. Gunhild Carling

UU20200103

'Citizen LifeQuality' is the focus in this first blog of this happy new year. It pursues the previous conclusion that the next testament needs advances. Intriguingly, any such texts are made by humans only, yet claimed to be of divine origin. Anyhow, such 'first philosophies' are limited to humans' current perception, knowledge and imagination – and reflect that level of quality. Therefore, this focus is on the most important word for any human – LifeQuality (LQ). Prosperingly, the United Nations' Sustainable Development Goals for 2030 are indeed such needed advances to the universal Human Rights (HR). These songs are selected to associate to entering 'Citizen Deuce' - as a dual citizen of 2020.01.01.

The quality of humanity has been a basic theme in the 8 years of these weekly blogging. Ever since the plebs of Roma1 to the bourgeois of Roma3, there is a dramatic development of LQ. Most is stated in milestones like the New Testament, the Magna Carta and the United Nations' declarations. However, those blogs are too comprehensive to summarize here. Yet, some previous citations support the following conclusions.

- The definition of LifeQuality (LQ) is a modified version of the UN/ISO 8402 definition for quality of products and services. "LQ is defined as; a person's totality of properties and potentials to satisfy the stated and implied needs." "Maslow's Hierarchy of Needs shows 5 main categories; Physical, Safety, Social, Respect and Self-realization. The 'stated needs' are similar to the 'Human Rights'. The 193 UN member-states are obligated to secure their citizens' rights concerning; private properties, self-determination, security, privacy, family, work, education, in addition to freedoms of thought, conscience, religion, expression and more." (See blogs like UU20180323 and UU20170721.)
- Other related models made for UU blogs are; a 3D ethical system of GCR (Good/Constructive/Right); a 3D political model relating to the constitutional LEJ powers (Legal/Executive/Juridical); a 3[^]3 (3x3x3) psychosocial model based on Drive, Will and Belief; an extended psychosocial Game models; a 5D scenario model for past as well as future; and extended terminology by extended use of suffixes. (See blogs like UU20140912, UU 20150612 and UU20170407).
- "Despite knowing that the UN has not eliminated warfare of all kinds, there is a valid Belief that the UN's collective conscience has prevented a nuclear ww3. This led to the conclusion that any human needs and deserves a Global Human Right Law (GHRL). Also, knowing that the UN do not have the legal powers to make nations live up to their obligations, the path is to make multi-lateral NHRL. "All NHRL (National Human Right Laws) should at least include UNC (United Nations Charter) that provides the UN powers to investigate and mediate in international disputes, - and authorizes international economic, diplomatic, and military sanctions and force to resolve the disputes, - as well as the ICCPR (International Covenant on Civil and Political Rights) and ICESCR (International Covenant on Economic, Social and Cultural Rights)." (See blogs like UU20170526 and UU20141017.)
- "The nations of the UN have agreed on a new program for this century - called the 17 Sustainability Development Goals for 2030. The 17 SDG do not merely concern individual humans' needs and rights, not merely in the 'developing' nations - but the whole humanity. The nature, cities, fabrics, governments and enterprises are included." "The SDGs cover a broad range of social and economic development issues, that include the traditional Human Rights as poverty, hunger, health, education, climate, gender equality, water, sanitation, energy, environment, governments and social justice. The SDG framework does not distinguish between the united nations, but to all countries as well as the

globe.” Moreover, the 17 SDG is a complex and interdependent system with 169 targets. (See blogs like UU20141017 and links hereunder.)

The first 8 Sustainable Development Goals are directly related to the individual Human Rights. The SDG 9-17 are an upgrade and related to organisations, industry, cities and constitutions too. Maybe most important, there are sustainable goals for sane governance. Thus - the theories of Quality of the LEJ powers has thereby become highly relevant with the 17 SDG for 2030. However, the attempt to promote a GHRL (Global Human Right Law) for 2020 was sadly unsuccessful. Still, that determination should be upgrade to a GSDL 2030 (Global Sustainable Development Law).

Alarmingly, the united nations’ wholistic efforts to promote the basic human needs and rights have been tipped off balance with extreme single-minded actions towards racism, blasphemy and sexism. The result was less LQ to most humans. Just as alarming is the jeopardizing of the SDG system. The overexposure of SDG13 (climate action) is about to jeopardize all the other SDGs and their 169 targets - by single-sided overexposure of a single target – the CO2 level.

Still, 2030 is not a final goal, but rather a milestone for the further advances. In brief, the next Testament, whenever that will be produced and published - must aim to be a 2000 years guidance for the Gaia-forming of Terra - for humanity’s sake. This will be talked through in the coming UU blogs.

Finally, one intriguing thought, - looking at the illustration of SDG17, one could wonder what the 18th SDG could be. From this point of view, - it is Humanity itself.

Music Happy - Pharrell Williams jazz cover ft. Gunhild Carling on 10 instruments

‘Happy’ is written, produced, and performed by the singer Pharrell Williams. The song became a hit as #1 in 24 countries. It got many awards and recognitions as well. No wonder, happiness was transferred from human to human and had an extraordinary collective appeal.

Gunhild Carling is a Swedish jazz musician and a multi-instrumentalist. She became famous for playing three trumpets at the same time, - as presented in UU20180330. She also plays trombone, bagpipes, recorder and harp, and will often showcase all of her skills in one single song – like in this jazz cover of ‘Happy’.

ExtraUU1 – Coldplay - Life in Technicolor - The 30 Articles of Human Rights

Coldplay is a British alternative rock group from 1998. Brian Eno helped with the production. The group has 7 Grammy Awards of 25 nominations, 7 Brit Awards, 5 MTV Video Music Awards and a UK bestselling album in 2011. Coldplay has been an active supporter to several social and political issues like 'Oxfam's Make Trade Fair campaign', Amnesty International, Band Aid and Live 8.

The video is a brilliant presentation of the Universal Human Rights. However, the original video is very entertaining – a puppet show that exceeds any expectations. Also see UU20130215.

ExtraUU2– Beranek - Loving the Alien (Bowie cover) + lyrics + original

Becoming a Nordic dual citizen in 2020.01.01 is certainly a milestone in life. I even might be one of the very first formally legal aliens with dual Danish/Norwegian citizenship. But it is only paper. It took 18 years to get this far – from being a stranger in a strange land. One should not expect too much of humanization by the collective of anti-democratic statesmen - I reckon.

Thus, this cover version of Bowies 'Loving the Alien' by Beranek means a lot while entering Citizen Deuce. Not that the lyrics suits such a new kind of citizen much, - but it does indeed for this UU theme and the following blogs. Surely, it makes one think of what to Believe, how are all the alien citizens these days - and what in god's name is true and false.

David Bowie has been inspirational to a lot in these UU blogs. Reflections of his unexpected passing was uttered in UU20160408. "How are David Robert Jones these days? That might sound like an odd question knowing that David Bowie passed away by Cancer at 69. Yet, Ziggy Stardust passed in 1975, leaving David Bowie more alive than in a long time. The Ziggy character was definitely an alter ego created for public appearances. The inspirations might have been due to his dissimilar eyes, bisexuality and schizophrenic half-brother. However, all the extreme activities to become a Jinn, turned out to be life threatening for his real ego. One of them had to 'die'. Likewise, living as Bowie was hard too. Symbolically, in the video 'Lazarus', Jones crawled back in the closet."

The Norwegian artist Beranek and his band were presented with 2 mini concerts in UU20150925. That presentation is translated as a whole for this occasion: "Espen Beranek Holm made a hit with a 'boom & punchline' in 1981. That was after a period as a folksinger in 'Studio Klive' with Martin Nygaard. New inspirations came from artists like The Residents, Kraftwerk, Yes, King Crimson and Genesis. The classic guitar was replaced with synthesizers, drum machines and electric guitars. Beranek's debut album was 'Sound of Danger' in 1981. The follow-up 'X-Ray' (1983) made a national performer's prize. Later releases were 'Trigger' (1984), 'Daylight In The Dark' (1986), 'The Red File' (1988). The carrier ended with the album 'Tacoma Bridge' (1994). 20 years later, there was a comeback with the album 'One Day' (2013). There were several concerts with full band in the 80's – and touring to Stockholm, Hamburg, Amsterdam, London and New York. As mentioned in UU20130906, there was no public success like the talent and the works deserved. A reason could be inner diversions and stress, - as for so many other groups. It could also be that the grave cold-war themes in the earlier phases could not quite replace the 'Grease' inspired charm. Anyways, the 'best of' album called 'Vintage Tapes' do present a fine collection of the art."

I Still Haven't Found What I'm Looking For - U2 (Gospel Soul Cover) ft. Rogelio Douglas, Jr.

UU20191206

'Exiled Heathens' is in focus for this 6th blog in the 'Citizen Deuce' series. Clearly, the heathens lived at the heath and were not as religiously influenced as the citizens in the city. Still, it is not blasphemous to investigate such religious origins although some vain theocrats might feel that it is heresy. On the contrary, such taboo-breaking uncoveries are valuable, especially during this shift of Ages. Consequently, the New Testament expires and will be replaced by a newer Testament and another Christ. However, the previous shift, from the Arian Age to the Phishes, was disastrous due to the inter-imperial Game of Temples (GoT). That 'Crime of the Millennia' has been an annual theme in the 8 years of weekly blogging. (See blogs like UU20160401.) This blog is a continuum of those. Anecdotally, the songs are selected to associate to this month's issue of 'Citizen Deuce'.

Norden do still celebrate traditional 'Jul' (Yule) to praise the return of both the Sun and the Son. In fact, Jul is more orthodox than the old Arian testament, since the celebration for the new born Christ is originally of Egyptian pantheism and not Arabian monotheism. Christianity, as the Europeans know it, was the merging of 3 polytheisms; the European Etruscan, the Arabian polytheism and Egyptian astronomy. The theocratic rivalries climaxed by the empires' geographical interceptions in the north-east Africa. The elites could never agree on who should be the king of king and the god of gods. The GoT (Game of Temples) and the KoC (King of Castle Games) has not yet ended during this Age of 2000 years. (See more about that issues in blogs like UU20150403.) On the contrary, the Great Schism split the trinity church into East and West in 1054.

The prolog to the present Phishes testament tells a story about an immigrant family in a most critical inter-imperial situation (Luke 2:3-6). The new Cesar, Octavius, alias Augustus, was an adopted son with very different agenda than his stepfather Julius. The local king Herod issued an order to execute any unwanted heirs to his throne, as well as Augustus'. The Arabian theocrats wanted Egypt back after Alexander's conquest 3 centuries earlier. The pregnant Mary was forced to register to the empire and had to come out of hiding. What happened next is unclear though, since the reaming texts are few, excluded and censored.

However, the cause to this ultimate Game peaked 47 years earlier, when the alliance between Egypt/Africa and Roma/Europe was genetically merged with Caesarion. He was the firstborn son of the self-proclaimed goddess Cleopatra. Julius Cesar was also declared a god by the senate of Rome. Neither of them, nor Cleopatra's second roman husband, Antonius, survive this rivalry of Thrones, States and Temples – the ultimate Game of the millennia.

Anyhow, the most recognized tale of this Age is the official christian version 'the flight into Egypt' (Gospel of Matthew 2:13–23). It states that: "Soon after the visit by the Magi, an angel appeared to Joseph in a dream telling him to flee to Egypt with Mary and the infant Jesus, since King Herod would seek the child to kill him." The angel was probably Michael and not Gabriel, due to the writer's preferences. Anyways, this immigration version is likely since a pregnancy at that time and place was fatal. Moreover, the Moses' tribes had a strong community in Egypt as the Old Arian Testament tells. However, the theocratic wars, with the ten plagues towards Egypt, did not favor their reputation. Most tribesmen would probably end up as Arian slaves to build yet another pyramid to mirror the Orion's Belt.

The official Islamic version of the Phishes Testament states that the infant was to be the next to last prophet and a messenger of God (Allah, not Yahweh). He was sent to guide the Children of Israel with a new revelation. The Quran also describes Jesus as the Messiah, born of a virgin, performing miracles, accompanied by disciples, being raised to Heaven and rejected by the Children of Israel. However, the Quran denies that Jesus was crucified and rejects any divinity as God incarnate and the Son of God.

Intriguingly, the Arabian Quran also mention the birth of Mary, alias Mariam, and her service in the Jerusalem temple. She was under the care of the prophet and priest Zechariah, - the father of John the Baptist, that became the executed forerunner to Jesus. Islamic theology tells that the virgin birth was announced to Mary by the angel Gabriel. Later, the elders question her about the child. Though, given a vow of silence to Gabriel, Mary points to the infant. The elder believe they hear that the infant proclaims that he is God's servant, given the Book, is made a prophet, is blessed enjoined on Worship and Alms, dutiful to Mary, is not tyrannous or cruel – and that peace is on him the day he was born, the day he shall die, and the day he shall be raised alive. In other words, Muslims believes that Jesus was locally raised in a pre-Islamic temple to take the title of the new Christ and to be crowned as the King of Kings in Egypt.

Some other tales also deviates about Jesus' early childhood. Most of them are found in non-official Christian sources like the Gospel of the disciple Thomas, which is banned as heretical. The text tells how the young Jesus used strong spells – that could even take and give life. The gospel of Judas is also banned as heretical. It claims that Judas is the only disciple that Jesus told the true meaning of his words, whilst the 11 other disciples spread their confusions. Another Arabian version is from the historian al-Athir who tells that Jesus was born in Egypt and not Bethlehem. Consequently, like-minded islamists rather recognize the christian New Testament than the Muslim Quran. Such a controversy is not blasphemous to Islam though, since it does not contradict the denial of Jesus divinity as a God incarnate and being the Son of God.

From an Egyptian perspective, Crist is a is not a person, but a title, - like the titles king, emperor and ayatollah. Wikipedia says: “Christ means ‘anointed one’ or ‘messiah’ in Greek and Hebrew. The title is adopted from the tradition of anointing the Egyptian pharaoh during coronation or marriage. The word ‘krst’ is found in coffins of Egyptian mummies as a blessing and anointing from Horus and Osiris. In the Old Testament, anointing was reserved to the Kings of Israel. The word Christos is thought as loaned.” Furthermore, the Macedonian general Ptolemy inherited the title Christ of Egypt from Alexander the great that conquered Persia the occupied Egypt. Queen Cleopatra’s heir, Ptolemy XV Caesarion, was therefor to be the first Christ of the new Phishes Age and Era.

Still, all the Testaments are based on the Osiris myth, like describe in blogs like UU20160401. “The biblical expression ‘The Whore of Babylon’, seems to be dedicated Cleopatra by some republicans, Arabians, Egyptians and Jews. It might have been Julius’ Antonius’ and Cleopatra’s plan all along to invade Roma in a CdE Game (Coup d’ Etat). The execution of Julius in the Roman senate was a necessary part to fulfill the Osiris Ritual. However, who would gain the most besides Cleopatra? Marcus Antonius, - Cleopatra’s lover and co-ruler to be? Nevertheless, since such an Osiris Ritual of the new Age, a Coup d’ Throne, means a new royal family. It also means mass genocide of all the previous related families and servants, in a Game of BTO (Breed Them Out) of 4th degree. This is evident in both GT and NT where mass-assassination of first-borns was executed in the Moses tribe, the pharaoh’s empire, the Jews after the birth of Jesus, - and Cleopatras family tree. Finally, today’s papacy conquered the most by merging Etruscan and Egyptian theocracies into today’s Catholicism. The Pope was originally called Pontifex Maximus.”

The astrological myth of Christmas is explained in blogs like UU20190628. “How the Seth could anyone go wrong in their search for the Egyptian king of kings – an Age ago?’ This question might seem strange, - simply because the guidance is so massively messed up that it is now perceived as normal – not to recognize the brightest star in the night sky. It is simply become ‘hidden in plain sight’, the most luminated fixed star that anyone can see from anywhere. It is not a comet, not a supernova, not Jupiter or any mysterious phenomena. It is simply the brightest star – Sirius.” Furthermore, “The Orion’s Belt, i.e. the Three Kings, still follow the (...) brightest star, Sirius. The interception line with the Southern Cross, points to where the Sun turns to a new Zodiac Era/Age. The event occurs every 2160 years at an average.

Moreover, the constellation Orion is located between the Zodiac constellations, the Twin and the Taurus, which represents the last of the true Egyptian Ages.”

Anyhow these clock-worked Games KoC, CdE and GoT of confusion - based on the cruelty of the Arian Testament, the insanity of John’s ‘Book of Revelation’ and the inaccuracies of the Quran. Still - life, ideas and the world go on and develops anyways. Knowing very well that Jesus was a heathen, a pagan and a refugee to the elites at that time – it seems quite reasonable to rather focus on ethics – like of GUR (Good, Useful, Right) than contradicting myths. (Ref. blogs like UU20180302.) The annual celebration of Jul goes on forever, while some Egyptian astronomist try to figure out when the shift to a new Age and Era should be – since it did not turn out to be 2012 after all.

Meanwhile, finding the peace of Jul, - one could reflect on how the next Testament should be – and not be.

U2 is an Irish rock band started with post-punk music. Now, their lyrics are often spiritual, personal and sociopolitical. U2 is famed for their ambitious and extravagant live performances, - like calling up world leaders live and confronting controversial issues.

The song ‘I Still Haven't Found What I'm Looking For’ is from their album ‘The Joshua Tree’. It exhibits influences from gospel music and describes spiritual longing. The producers Brian Eno and Daniel Lanois added the choir-like backing vocals. The song is considered one of the greatest tracks in music history, like being their second #1 single on the US Billboard, the #6 on the UK Singles Chart and number 93 of its list of ‘The 500 Greatest Songs of All Time’.

The association here to this song is all humans’ search for better understanding and relations.

Extra UU1 – Depeche Mode - Precious

The song ‘Precious’ by Depeche Mode was released in album ‘Playing the Angel’. It peaked at #1 in 18 countries. This is the first album since 1984 and feature lyrics written by Gahan. ‘Suffer Well’ was the first ever post-Clarke Depeche Mode single not written by Gore.

The association here is the abuse of minors in theocratic rivalries - that should never be allowed to be repeated.

Extra UU2 - Erasure – Come up and see me

This song is a favorite. 'Make me Smile' is originally from Steve Harley and the Cockney Rebels'. The band Erasure is a spinoff from Depeche Mode formed by their original synth guru Vince Clarke.

The lyrics is a personal reflection from Steve during some crises, like; "how can you tell so many lies, there's nothing left, it's just a test - a game for us to play, it's from yourself you have to hide, my belief in mother earth, I know what faith is and what it's worth, don't say maybe you'll try." However, he was convinced to make a joyful tune to the lyrics. It worked very well and became a hit instead of some ignored sulking.

The Erasure cover-version is true to the lyrics. However, the video changes the impressions to ironic views on the Xmas and Jul. The gnomes are tradition to Jul. The St Nicolas lookalike propagating 'coke adds life', is rather a plutocratic oddity, though, - like the artists in Swiss costumes performing sexual ID Games.

The association here is to not taking all Beliefs and Gimmick more serious than sound ethics – at least for the next Testament.

Thriller - Michael Jackson (1930s Jazz Cover) ft. Wayne Brady

UU20191101

'Theocratic Exile' is in focus in this 5th blog about 'Citizen Deuce'. The timing is due to this weekend's Halloween. Still, this is the season for several traditional rituals to confront the fear of the dead. Most are related to the church's millennium war towards itself – The Great Schism of 1054. However, that Game is not truly religious, but rather a theocratic BGGG Game of the GoT category. (Bad Guy, Good Guy – Games of Temples). This blog will elaborate on the previous conclusion, that the psychosocial model must extend from 3D to 4D – including both Democracy and Belief. This seems to be the direction the rest of the blogs take. Anecdotally, the songs are selected to associate to this month's issue of 'Citizen Deuce'.

This is a continuum of blog UU20190628 that pointed out: "The 'Great Schism' in 1054 altered most historical perceptions of our Western world. The Trinity Church was split into the Orthodox East and the Catholic West. Some Eastern orthodox priest claimed that spirits had become superior to humans. Mutual accusations of heresy escalated into mass-excommunication and -exiling. Our world is still split into East vs West and that is probably a reason to most East-West conflicts. That is theocratic 'self-harming'. The Trinity Church had the healthy OK-OK mentality that degraded, via mutual OK-KO mentality, to KO-KO Games like Jante/TUD. This never-ending GoT has been its deadlock for 1000 years - and escalates like a Pyramid Game." Finally, in that blog, the theocratic Game players of GoT were challenged to regain their senses, dare take responsibility and end their war towards themselves and others.

Hallows' Evening (Halloween) is a 3 days Western Christian feast in memorial to the dead, like saints (hallows), martyrs and the faithful departed. Some traditions originated from ancient Celtic harvest festivals and was Christianized. The mass transatlantic migrators to the newfound Western continent popularized Halloween in the Northern half of America. In the southern half, it is called 'the Day of the dead' to honor their deceased relatives, like in the Pixar movie Coco. Nowadays, the Halloween ritual is rather exposed as a ritual of fear. Horror serves plutocracy more than honor do, - like the Sankt Nikolaus' counterpart, Krampus, with the Naughty List. Nevertheless, a similar adaptation happened to the Norse

cultures, like; Christmas is still named 'Jul' and 'Aasgaardsreia', 'The Wild Hunt', is still the mythological annual struggle to drive the dead back to Loki's sister, Hel.

There are several reasons for the Christian schism, though. The eastern Rome did not replace the roman theology completely. The present title of the Pope, Pontifex Maximus, is an undisputable fact of the roman theocratic legacy. The new Rome also expelled spiritual Turks and Greeks who had to migrated to the Caucasian and Ural regions in the east. They formed the Tengri spiritual theocracy that the 'Djengis Kahn' later was submitted to. Also, the Muslims from the south radicalized cultures mercilessly and paved way for mythologies of pre-Islamic spirits, called Djinns. It is the same origin as in Jewish spiritisms. Moreover, there were influences from the Vikings' Asatru from the north-west. Mutual merging eradicated certain spiritual beliefs on both sides, which several Nordic versions of Christian rituals indicate. The Vikings adopted the 'White Christ' spirit into their family of Gods. None expected as 'Black Christ', - like some trickster god or polar jester or out of the appendix 'the Book of Revelations'.

Still, the radicalization of the Eastern orthodox church came from the East, not the West. Wikipedia says: "Black shamanism is practiced in Mongolia and Siberia. Black Shamans are usually perceived as working with evil spirits and White Shamans work with spirits of the upper world. The highest group in the pantheon consisted of 99 Tengri, 55 whites and 44 terrifying blacks. The whites were of the nobles of the clan and the blacks of the commoners. A third category consisted of 'the evil spirits of the slaves and non-human goblins'. White shamans could only worship white spirits. If they called upon black spirits, they lost their relation to the whites. Black shamans were too terrified to call to white spirits since the black spirits would punish them. Male and female shamans (böö and udgan) were the intercessors between the human world and the spirit world." The psychosocial dysfunctionality of such GoT is founded on the taboos of denials, forced by terror, which degrade workers to 'inhuman goblins'. Similar imaginations are reflected in movies like 'Game of Thrones', 'Fantastic beasts' and 'His Dark Materials' (The Golden Compass).

In our real world, the Mongol Empire is most evident of such mass-psychotic sociopathy. The eastern Christians were overrun by black shamanism, personalized in Temüjin, alias the Genghis Khan. That title refers to a Tengri emperor, not that the possessed human son of a black smith. That empire of 'tax and terror' expanded to most of Eurasia by massacring and enslaving communities in all of modern-day China, Korea, Caucasus, Central Asia, - and much of Eastern Europe and Southwest Asia. It was genocidal, followed with mass-breeding. Similar mass-suicide assassins appear in several occult theocracies, like the Japanese kamikaze soldiers and the ISIS suicide bombers. The latter are totally cloaked in black, -indicating a psychotic Belief in being more spiritual than human. Cults in Japan related to the Tengri Belief and allied with Adolf Schicklgruber alias the Hister of the occult Nostradamus' scripts. That Nazi empire adapted the the black shamanism symbol, the swastika. Even Ioseb Besarionis je Žuġašvili, from a Caucasian region was nicknamed 'steelman/stalin', an association with Temüjin's original labor. No matter the mass psychotic associations of these puppet dictators, the Western world war cost 100 million Christians lives, degrading the 'bourgeois' citizens to workers, organized Gulag execution camps and violations of most human rights. All in all, the world map of 1969 and 1369 look rather similar. (The Games of WW are analyzed in blogs like UU201603.)

Theocratically, it seems that the Great Schism of 1054 was a CdT (Coup d' Temple) in the ROC (Russian Orthodox Church). The trigger is mentioned in the blog UU20190531 and summarized here: "Great astronomical events have been interpreted as miracles. Orion's head went supernova and became the new brightest star in 1054. Scripts of the event was kept in the East, but erased in the West. The calendar of the star constellations Orion, Sirius and the Southern Cross determines the timing for the new Christian Era/Age. Therefore, it must have been impossible to explain this unpredictable 'miracle' of a new star in the Heavens, - as well as the myriads of altered theological consequences. It probably caused unanswerable theological disputes that escalated into the Great Schism." Curiously, the remains of 'the new and brightest star' is called the 'Crab Nebula', which associates to the Zodiac constellation Cancer, numbered 69. Anyways, a backdoor opened for the exiled spiritualists, even the occult ones. Later in history, similar 'heavenly miracles' might have caused theocratic alterations, like: The Tunguska explosion in 1908 that let the Siberian black shaman Rasputin to manipulate the tsardom to its doom. The nuclear bomb over

Hiroshima ended the occult phase of the Japanese empire. The detonation of the 'Tsar Bomba', north of Ural halted the powers of polar shamanism and started the East vs West cold war.

That Game of theocratic dysfunctionality can be healed by sound social psychology, though. The first and hardest stage is to stop all the Games of denials, the theocratic taboos, and enter the next phase of realizing the realities. All in all, any Belief include the recognition that Belief is far from 100% divine truth, but includes ignorance, untruths and even lies. Belief is a fundamental philosophy that constantly needs adaptations to the discovered realities. The positive way to end Games is to decide not to play GoT anymore. The concept of P5GO might be helpful, as described in blogs like (UU20160513).

Being a human, in the ruins of the millennium of KO-KO Games, it seems vital to uncloak the Great Schism GoT. There have been countless expelled and excommunicated 'citizen deuce' of this millennium war of human vs humans. Just to be as perfectly clear as the UN, no human is degraded to goblin-like slaves or workers. All humans, including priests of any kind, are submitted and protected by the UN Human rights. The true 3rd International is the UN Human Rights – not the fake Moscow Thesis and its 21 conditions, that dictates inhumanity like black shamanism. That was formally adopted by the second congress of the Comintern in 1920. On its 100-year anniversary, it should be globally exposed in order to a final annulment in 2020. Soon there is the 1000 years anniversary of the Great Schism too. It might end the mass-psychotic world of parallel organizational apparatuses in Moscow.

'Thriller' is the best-selling album of all time. The songwriter Rod Temperton wanted to make a theatrical song to suit Michael Jackson's love for horror films and music. It was produced by Quincy Jones and the horror actor Vincent Price contributed – like in the earlier video Black Widow by Alice Cooper (ref extra UU2). In the original video, Jackson becomes a zombie and performs a dance routine with a horde of the undead. The PMJB video starts out with some Carrabin voodoo hymn.

The association here is the personal spiritual struggle of MJ with the Christian sect he was borne into. They literally believe and promotes the Book of Revelations, a script of a second coming of a furious spirit that will destroy most humans in the most inhuman ways. These are symbolized with the 4 horsemen; a white slayer and conqueror, a red that make men slay each other, a black that cause inflation and thereby famine, and a pale of Death leading Hades (or Pluto or Hel). Similar symbolism is used in Mongol shamanism and the Djengis Kahn and mountains.

Extra UU - Nena - 99 Luftballons

'99 Luftballons' is a song by the German band Nena from 1983. An English version '99 Red Balloons', was released after widespread success in Europe and Japan. It has lyrics with somewhat different meanings. Nena sold over 25 million records, making her one of Germany's most successful music artists. The reason for selecting this song is the associations that the number 99 gives. The original lyrics tells how Germany got involved in a war due to some science fiction-like presence (like some captain Kirks in Star Trek). Finally, the war ministers figured out how to regain peace. Far-fetched is the association to the 99 Tengri. Yet, the swastika and the occult Nazi emperor might have peaked the indirect influence of 1000 years of black shamanism in ROC. German princesses as tsarinas were banned after Catharina the Great. Anyways, inspirational might also have been the number 666, which is a checksum for the 36 pre-Islamic spiritual gods. The opposite is symbolized by 999. Some kind of unity can be symbolized with 69, which is the symbol of the zodiac Cancer constellation – and possibly associated with the Orion supernova and Crab nebula of 1054. Moreover, the symbolism of $27 = 3 \times 9$ seems increasingly abused in certain extreme politics. Most extreme, is that symbolic speculations in the horror movie IT by Stephen King.

Extra UU2 Alice Cooper - The Black Widow Music Video (w. Vincent Price)

Alice is not an old man – not even a young man. She is a confused spirit trapped in that body and plays the Game 'Want Out', usually ending in getting the host executed. That candid alter ego might be hard to recognize in appearance, songs and shows. That phenomenon is previously cited in blogs like UU20160429 that refers to the tv-series Vinyl. A translated summary is: The act as a Superior-ID does seldom make hits. The grim nature appears disgusting and cloaked. Vincent Furnier, alias Alice cooper, is a dedicated Christian, though. He made several cabaret acts based on investigation of his inner self and some theatrical acts. Despite the disgusting themes like 'Sick Things' (and 'I love the Dead'), it is kind of honest acts that are comparable to characters like Mephisto, Faust and Dr. Mabuse. Such a skillful actor can play anyone, - even the pure evil ones. A dilemma lies in the phrase, 'keep your friend close, but your enemies even closer'. Abuse of drugs might alter one's Ego and delusion of altered personalities. Any artist and spectators should be able to distinct between the real person and the actor's act. Vincent did not manage that in the beginning, with grave consequences.

The association to this movie is the complex psychosis of black shamanism. The man, Vince Price, is possessed by a black Tengri, like a black widow spider. He welcomes the boy Steven, another alter ego, to the nightmare of 'little death'. Amongst the many albums produced for AC, the selected would be; 'Love it to death', Billion Dollar Babies', 'Dada' and 'The Last Temptation'.

Royals - Lorde - cover ft. Puddles Pity Party

UU20191004

'The Exile Stand' is the focus in this 4th blog of 'Citizen Deuce'. Globally, the theories of stands, casts and classes are basically the same. Still, the propagated mass-psychosis about one single stand, the worker, was just another Gimmick of Games to degrade and enslave the bourgeois (citizens) during an imperial powershift. However, in this thesis, the 1000 years old cast system is still intact. Yet, the exiled noncitizens have status below any new citizens or workers. They are 'blanks' in the system. However, that seems to change during this 4th industrial and social reformation. Anecdotally, the two songs are selected to associate to this month's issue of 'Citizen Deuce'.

'A Stand' is a term for the Nordic social status that stems from the European mid-eval class systems. The 4 Nordic staender applies to the civil and social rights of any inhabitants. The Nordic staender are; clergy, nobility, statesmen and peasants. These can relate to the 3D political model as; Temple, Throne and State, - but also the evolving Democracy. Yet, the classifications are global and comparable to for example the 4 Indian casts (varna); brahminerne (priests/scholars), kshatriyaerne (rulers/administrators), vaishyaerne (traders/craftsmen) and sudraerne (laborers/workers). Nevertheless, the class system of upper- middle- and lower-class, is a hierarchy of power to any of the four staender. Thereby, in this thesis, they relate to the 3 'ego-states', of Drive, Will and Belief. This latter modification is derived from the Freudian ego-states; Id, Ego, Superior-Ego - and adapted to Jung's theories of mass-movements and mass-beliefs. The 3x3 and 3D models are further described in blogs like UU20150313.

In contrast, the isms and ideologies of the past century, of a classless civilization, was merely a propagated mass-psychosis for the anarchy phase of the powershift within the Russian empire. The propagated illusion, that all humanity is merely a homogeneous worker cast, was simply a method used in a psychosocial Game of the fourth degree. Still, Marx propagated to promote the workers' status to the citizens' level, whilst Lenin propagated to demote the citizens (bourgeois) to the peasants' level. Consequently, the politics of Marxist-Leninist is a contradiction in itself that obviously was made to confuse the citizens – a DaC/UaC Game. Surely, none of those elites truly planned for their own demotion to such enslavement as the Worker class. Conclusively, the Staender system still stands, despite the remains of the propagated mass-psychosis from the previous century.

Clearly, such superiorpower Games by the elites are driven by motivations of Gains. However, the masses are rather driven by Gimmicks, like in the Jungian mass-synchronized Belief and Drive. The new stand, the bourgeois (citizens, borger) was permitted to think rationally by their own Will - and became a threat to the staender system of lower-classes. Yet, the mass-assimilation was as effective as brutal by the Gulag systems. The enslaved citizens were divided in the so-called the 'bitch wars' (see video link). Even today, the colonialization program of Gulag is maintained in the Nordic countries by the Confederation of Trade Unions. This real name of LO proves that it is a nationwide oligarchic union – mainly concerned with international trade dominance. Still, the 100 years of mass-psychosis, that the trade union have humanitarian concerns, still dominates the suppressed workers' mass-belief. Actually, the workers are aggressively convinced to protect their own suppression from any liberating thoughts. It is a selfsustained Jante/TUD Game.

Reminding that the term 'Citizen Deuce' is made to focus on the challenges of any multinational citizen, this focus on 'staender', and the linked UU theories, are made to be a foundation for closer focuses and conclusions on the escalating civil issues – that are caused by the technological and social reforms of Industry 4.0. It is said that the previous reform changed how we work, whilst this reform will change how we are. No one knows the outcomes, - just like we didn't know in the eve of the previous phase. One thing is certain though – we are acceleratingly on the move - globally – physically, mentally and virtually.

Finally, several ways of democracy are evolving with such powers that the 3D model of the superiorpowers has to be extended from 3D to 4D. However, the dimensions need to be rearranged to; 1D Democracy, 2D State, 3D Throne, 4D Temple. The intangible 4th dimension will be the main focus in the next blog, especially because a western atheistic belief in ignorance is still that no religious politics has any considerable influence. (More about the models and dimensions in blogs like UU20140912.)

Royals - Lorde - cover ft. Puddles Pity Party

"Royals" is the debut single by the New Zealand singer Lorde. It is an art-and electropop song with elements of grime music. The lyrics gives a detailed disapproval of the luxurious lifestyle of modern artists. The song is widespread acclaimed and praised for its musical style, lyrics and vocal. It reached number one for nine weeks on the Billboard Hot 100 and broke several records. 'Royals' sold 10 million units worldwide and makes it one of the best-selling singles of all-time.

The singer Michael Geier is most critically acclaimed as his alter ego 'Puddles Pity Party'. It has a depressed persona and do not speak on stage or gives interviews. Now, Geier considers himself and Puddles to be separate persons. He recorded this cover of Lorde's 'Royals' with PMJB and has over 26 million views. Lorde herself declared this to be her favorite cover of her song.

The association in this blog is about comprehending the perception of social stands. However, the stand of the modern citizen is not enslaved as the peasants, soldiers and workers were, but might be the freest of them all.

Extra UU – Queen - Radio Ga Ga

The song Radio Ga Ga by the Queen was introduced in the previous blog. It is said to be the inspiration to the artist Lady Ga Ga. Anyways, they both stem from the classic movie about the dysfunctional city state 'Metropolis' (UU20110211).

In brief, the movie describes a city-state's fall, led by a possessed female robot. Even though the acting in 1927 seems theatrical, it was very influential at the eve of ww2 and could be made in a present setting. In fact, it has influenced most modern dystopian movies. Although the apparent plot is about worker vs capitalist, it is also about matriarch vs patriarch – and even a technologist vs a theologist.

The association to this song is that the radio ga ga represents an ID state pretending to be a papa state and a mama state. This might hint on the further development of these 'citizen deuce' blogs.

Poker Face - 1946 Big Band Style Lady Gaga Cover

UU20190906

'Games of Exile' is the focus in this 3rd 'Citizen Deuce' blog. Such psychosocial Games are described in the book 'Games People Play' and further developed and elaborated in previous UU blogs. Such noncitizens, that are not included in the civil rule by law, will soon be dragged into some 'Underworld Games' and stay trapped. Such civil dysfunctionality will backfire sooner or later – intentional or not.

Several psychosocial Games include bondage situations like exile. Three classic Underworld Games are listed in the book with this introduction: "With the infiltration of the 'helping' professions into the courts, probation departments and correctional facilities, and with the increasing sophistication of criminologists and law enforcement officers, those concerned should be aware of the more common games prevalent in the underworld, both in prison and out of it. These include C&R (Cops and Robbers), HDYGOH (How Do You Get Out of Here / Want Out) and LPAFJ (Let's Pull a Fast One on Joey)." With this caution, Games should be taken far more seriously when considering the quality of 'Rule by Law' – including the staff in the Judicial Power itself.

Psychosocial Games are described and analyzed in blogs like UU20140912. Exile relates mostly to the category Underworld where the player uses ulterior moves to get unjust gains - or simply follow outlaw gimmicks. Such gamers' ethics are typically like "honesty is for suckers". Still, Games of crime can include Life Games, Marital Games, Party Games, Sexual Games, Consulting Room Games and even Good Games. Some of these classic Games are named: YDYB (Why Don't You, Yes But), IFWY (If It Weren't For You), WAHM (Why does this Always Happen to Me?), SWYMD (See What You Made Me Do), UGMIT (You Got Me Into This), LHIT (Look How Hard I've Tried), ITHY (I'm Only Trying to Help You), NIGYSOB (Now I've Got You, You Son of a Bitch), LYAHF (Let's You and Him Fight), RAPO, 'Psychiatry' and 'Courtroom'. Some 'UU additional' Games are: ISR (It Started with the Retribution), ABD (Attack is the Best Defense), Jante/TUD (The Ugly Duckling), TLM (Two Little Maids), BGGG (Bad Guy, Good Guy), RPPP (Robbing Pete to Pay Paul), ODAB (One's Death – Another's Bread) and the Russian BOOFY (Beat your Own and Others will Fear You). However, civil real life is far more complex than these simple models indicate. Civil Games can be integrated and involve thousands of people in never-ending cascades. Such overwhelming perspectives can be manageable, though, by focusing on the core gains, games and transactions.

Such exiled noncitizens are likely to end up as the BG in BGGG Games. These easy preys are framed into thralldom and led into Games like WAHM, ITHY, NIGYSOB, LYAHF, TUD, RPPP and BOOFY. The complex embraces even more Games because of the gamers' project the blames and costs. The collective of preys

will try to join forces for self-protection and form parallel societies of outlaws. The reasoning can be; “why not take advantage of being the BG if the GG role is impossible?” This is how the Jante cultures are constructed and maintained, - where the collective project its ko-ko attitude to the new recruit’s ok-ok attitude. Eventually, the pressures, the isolation and the longings will alter the recruit’s attitude from ok-ok to ko-ko. Then the moral and ethics are radicalized from the positive GCR (Good, Constructive, Right) to the negative BDW (Bad, Destructive, Wrong). Such processes could be called Game22, as in ‘Catch 22’, or called DYD-DYD (Damned if You Do, Damned if You Don’t). An example for such dilemma is the concept of Cardinal Sin that includes the three ego-states Drive, Will and Belief. (See UU 20150313) A new Underworld Game is hereby identified.

A well functional LEJ system is quality-secured with proper cyber processes. Parallel Organisational Apparatuses of Underworld properties can only exist in dysfunctional societies. As mentioned, ‘Unwritten tribal rules’ (i.e. gimmicks) can be more powerful than the civil laws (UU20190801). For example, any mafia has an internal court system. The only ones denying that are probably bonded to the mafia themselves. Assumingly, prior to a public execution of a rival, there have been considerable internal judicial procedures with a final sentence. Obviously and likewise, the civil Legislative power can be corrupted during parliamentary elections in order to make dysfunctional law and misdirect resources. Surely the public servants of the Executive law enforcement can be corrupted in service by Underworld apparatuses. Certainly, the Judicial powers are corrupted as well – even though, and probably because, the shielding taboos and ulterior properties of the legal systems. Some underworld cultures have an ultimate gain in corrupting the civil judicial power, and have surely succeeded in such Games. Quite frankly, the previous century left a messy Judicial system, which makes it utterly important in this century to scrutinize for quality security of ‘Rule by Law’, - for who judge the criminal judges - and how?

Finally, at individual level, the obvious remedy is to issue dual citizenship, including close relatives like spouses and children, - not merely on paper, but in practice. So, what can the reasons be for illegal delays, mismanagements and misjudgments? The obvious reason is of cause the Games of Exile, played by international organisations in Underworlds of both public and non-public sector. Such organized thralldom will be the main focus in the next UU blog.

Poker Face - 1946 Big Band Style Lady Gaga Cover

There are 2 chosen songs to associate such underworld Games of Exile. This first song is Poker Face by Lady Gaga. There are disputes on the origin of the artistic name of this multimillionaire. It is somehow though, related to the song Radio Gaga by The Queen, which took that name from the legendary vintage sci-fi Metropolis, where a ‘female’ robot is abused to lead the workers to destroy her creator and city-state. Yet, in an interview, the artist said about this song that: "It's about a lot of different things. I gamble but I've also dated a lot of guys who are really into sex and booze and gambling."

A Pokerface is not anything like ‘bluffing with my muffin’, though. A Poker Face (i.e. ‘stone face’) is a blank facial expression caused by a lack of emotion, depression, boredom or slight confusion, - or a deliberately induced blank expression to conceal one's true ego-states of Drive, Will and Belief.

The association to this song is that a pokerface is the main means of ulterior transactions in Games.

Extra UU – Walk On The Wild Side (Lou Reed cover)

‘Walk on the Wild Side’, by Lou Reed in 1972, was produced by the legendary David Bowie and Mick Ronson. The song received a wide radio coverage despite its touching on taboo topics of drugs and sex. The lyric is describing a series of individuals related to Andy Warhol's studio, The Factory. In an interview, Reed stated, with his pokerface, that: "I know my obituary has already been written - and it starts out; "doot, di-doot, di-doot...". There are many cover versions of this evergreen. This one, though, is probably the most honest one. David Allan Stewart is best known for Eurythmics as a musician, songwriter and producer with Annie Lennox. Vanessa Paradis was a child star with the worldwide success ‘Joe le taxi’. She was in a relationship with Johnny Depp and they have two children together.

The association to this song is the innumerable faiths Underworld Games leads to.

Welcome To The Jungle - Vintage Orchestral Guns 'n' Roses Cover

UU20190801

Issues of Exile is the focus in this 2nd blog of ‘Citizen Deuce’. The term appears like taboo for statesmen, since it concerns illegal moves in political Games. For instance, half a century ago, most united nations signed the human rights conventions, where exile and thralldom are legally banned as crimes. Still, such democratic advances are hindered although knowing that any public servants involved are executors of crime. Such ‘stateless’ citizens of Exile are virtually unleashed in urban jungles - practically without legal rights. Such issues are the inspiration to this month’s PMJB song.

Exile is described in Wikipedia as; “forcing a citizen from the home due to threats or forcing conditions, like imprisonment, confiscations and deportation. Deportation is a forced exile with lifelong loss of citizenship and properties, whilst delegation is an exile where citizenship and properties are kept. However, article 9 of

the Universal Declaration of Human Rights states that "No one shall be subjected to arbitrary arrest, detention or exile." Still, there are related hardcore psychosocial Games that will be talked through in later blogs.

Law is described in Wikipedia as a system of rules to enforced and regulate behavior. Civil law jurisdictions, means that a central body organizes the laws. Common law system means that a judge-made example is accepted as binding law. Civil law deals with the dispute between individuals and organizations, whilst Criminal law deals with behavior that is considered harmful to the social order. Still, law can be perceived and practiced rather divergent. 'Unwritten tribal rules' can be more powerful than the civil laws. Therefore, the 'Rule of law' is an ambiguous and relative concept that dependent on the many contradicting laws, the sovereign court systems and the autonomy of legal actors.

Still, the oldest continuously functioning legal system is the Canon Law that governs the Churches and its associates. However, the Great Schism of the united churches in 1054 triggered a millennium war towards itself with mutual excommunication and exiling each other's citizens of both the orthodox east and catholic west. (See UU20190531) In contrast, the struggle for decent civil rights are stated in the Magna Carta of 1215 as well as the European protestant reform. However, this east vs west theocratic war had a peak in the previous century and has not ended yet. Quite on the contrary, the Islamic Sharia law draw on both civil and common law. Such parallel law systems need to be legally balanced to sustain and develop anyone's LifeQuality.

Unfortunately, international Rule of Law is seriously dysfunctional. If it was well-functional, all the UN nations would have fully ratified and implemented the UN legislations decades ago. It is very easy to execute, though, like the ratification into the 'The Human Right Law' (Menneskerettsloven) proves. Yet, some executive powers still misdirect issues of HR away from the civil penalty court system to the Common law system - or other parallel court systems as for the military, the psychiatry, the police, the priests and the labor unions. In general, all the European signing nations are obliged to fully ratify, implement, execute and judge by the legal regulations of the ECHR as well as the TEU. The simple how-to is described in the Facebook page GHRL and blogs like UU 20170721.

Because Exile is of legal issues, it also provides a source for investigating sciences like history, philosophy, economy and sociology. Such HR laws also raise important and complex issues of equality, fairness and justice. This will be addressed in later blogs, since Law is applicable as one dimension in the 3D political model. Therefore, this blog theme of Citizen Deuce will eventually relate to the previous blog themes about the models of 3D politics, the LEJD powers (Legal, Executive, Juridical & Democratic), some 5D scenarios, some 3^3 psychosocial diagnosis, the LifeQuality definition, and some complex Game analysis like the P5GO (the 5th Pyramid Game over). There is a summary of the theories in blogs like UU20160513.

All things considered, most systems of LEJD quality appears severely dysfunctional, when considering the HR related LifeQuality and dual citizenship. That is thoroughly denied by some constitutional powers, which proves the state of dysfunctionality. Yet, there is a simple preventative and constructive for significant improvements. This can be done by virtualized cyber bureaucracy. Start by correcting the executive powers' redirecting of organized crime from the common legal systems and direct them to proper the civil penalty legal systems. This will reduce the organized crimes in the public sectors dramatically.

Guns N' Roses is a famous hard rock band. In their early years, the band's hedonism and rebelliousness drew comparisons to the early Rolling Stones and earned them the nickname 'the most dangerous band in the world.' They have sold more than 100 million records. Though, the production of the 6th album 'Chinese Democracy' had major setbacks and became the most expensive rock album in history. The sales

started well, but undersold despite mostly positive critical receptions. This month's song 'Welcome To The Jungle' is a description of Hollywood seen through their L.A. glasses. Yet, the title stems from a homeless shouting to them in N.Y.

Extra UU Joe Jackson – Crime Don't Pay

Joe Jackson – 'Crime Don't Pay' is previously presented in blogs like UU20151023. The title is certainly sarcastic. The song starts with some instrumental dramatic mafia introduction, followed by a quick dialog between a robber and a robbed. One is left in wonder on how much is true in the saying. The second part of the song is merely instrumental, - but descriptive as well. An amateur has obviously found an organ and tries to harmonize with the band. The organist has apparently everything left to learn, but is learning, - well guided and supported by rhythms and tunes from the band. The pianist whirls around the organist and pulls him in more harmonic directions. It is a pity though, that the producer faded them out before they completed the masterpiece.

Isn't it a bit like improving any organizational quality?

<https://www.youtube.com/watch?v=Gyv8nCJ9V0U>

<iframe width="560" height="315" src="https://www.youtube.com/embed/skVfsFr5_JQ" frameborder="0" allow="accelerometer; autoplay; encrypted-media; gyroscope; picture-in-picture" allowfullscreen></iframe>

This Must Be The Place (Naive Song) - Vintage 1940s Swing Talking Heads Cover

UU20190705

This is an introduction of a new blog-theme called 'Citizen Deuce'. 12 monthly blogs will set the focus on the experience of 18 years of exile-like state. This might seem trivial to proper citizens. However, consider this, - in an inter-Nordic marriage, one of the spouses are destined to be a non-citizen in the country that they live, work and raise their family. For example, an employer will certainly prioritize a citizen before none-citizen. Such alienated attitude is culturally inherited in most aspects, including the public services – even after dual citizenship is legalized.

Such uncivil practice contradicts the Nordic council's agreements, the European treaties and western democratic constitutions. Therefore, there is only one conclusion to this ulterior reality, - the constitutional powers are thoroughly dysfunctionalized. This state can only be healed by proper 'rule by law' – including, the Human Rights and the EEA legalities, as well as the nations' Constitutional laws.

The first step for a Nordic constitutional healing is to end the 500 years of denials and focus on the system failures. Therefore, in order to set some light on its many sides throughout the Nordic history, the material from 400 weekly blogging will be used, including the models of 3D politics, LEJD powers (Legal, Executive, Juridical & Democratic), 5D scenarios, 3^3 psychosocial diagnosis, LifeQuality definition, and complex Game analysis like the P5GO (the 5th Pyramid Game over). (There is a summary of the theories in blogs like UU20160513.)

Finally, even Norway has passed a legalization of dual citizenship in the parliament. With such pan-Nordic civic legislation – the 500 years old Nordic citizen union can be realized – if the will of the citizens, outweighs the powers of bureaucratic coldwar towards its own 'bourgeois'.

The original 'Naive Song' is well known from the band Talking Heads – especially the stage performance at 'Stop making sense'. This pre-war version from PMJB certainly makes it swing nicer and more naïve.

Extra UU 1 Editors – Papillion

The band The Editors was presented in UU20141024 which consider Nordic 'rule by law'. "The band was unknown to me until I saw this video. It gives several associations. First of all, the band's name brings thoughts about the necessary qualitative re-writing of censored history in order to plan better for the future. Next, Papillion is a butterfly and probably a pet name for the writer's girl, which he is trying to comfort in a harsh situation. Furthermore, a 'butterfly effect' is an expression to an idea and philosophy that one change in a butterfly's flight can cause a cascade of changes globally. Moreover, - running from or to what - alone – together – alone – disappear - in faded colors like black & white. "It kicks like a sleep twitch". That's 3x3 5D poetry - indeed."

Crazy - Gnarl Barkley (Space Jazz Cover) ft. Hannah Gill & Casey Abrams

UU20190628

Ukens Utvalgte

Once again, inspired by the greetings, this annual UU is kind of 'omni'. This is an attempt to uncover some of issues of the midway milestone of the current Era (Age). No one seems to be willing and able to end the Church's millennium war towards itself. Still, the Game ends itself due to the expiring date of this Era. Then, the quest is rather how to overcome this shift in a saner way than the previous ones.

The 'Great Schism' came to attention just recently, - although it has been an epic milestone for a thousand years. In fact, -that discovery alters most historical perceptions of our world. The Church was united by the Trinity until the year 1054. Then there was split into the Orthodox East and the Catholic West. The orthodox claimed that spirits had become superior to humans. The disagreement escalated into mutual accusations of heresy. Finally, the East and the West excommunicated and expelled each other. Our world is still split into East vs West. This millennium of the Church's war towards itself is probably a cause to most East-West conflicts. For example, a recent conflict is that the Ukrainian Church broke free of the ROC dominance. Therefore, there is a reason to question if other conflicts are as fundamental, like; the Inquisitions, the Crusades, The Mongol invasions, the Thirty Years' War, The Great Northern War, the Fatherland Wars, the JFK assassination and the Cold War – as well as the current global conflicts.

Clinically, the Great Schism is 'self-harming' due to a collective Minor Complex syndrome. Yet, a healthy positive attitude towards oneself and others is; OK-OK (I'm, OK – you're OK). The Great Schism is degrading the counterpart into not-OK (KO). This mutual downwards spiral of negative attitudes and actions towards each other leads to the KO-KO mentality. This negative mental state produces and projects psychosocial traumas like mass-psychosis, -neurosis and -schizophrenia. This never-ending GoT (Game of Temples) has been its deadlock for 1000 years - and escalates like a Pyramid Game. The whole Church could resolve its dysfunctionality - if willing and able. Still that requires a collective clerical mental shift from Denials to Realizations – which requires admitting that Believers include some untruths – and admitting that even priests have human faults. (Note that GoT is not of true Belief, but Games People Play. See more in blogs like UU20160401.)

Some kinds of denials and deceptional untruths are described in blogs like UU20151023:

- “Based on theories found in Wikipedia, the merged stages (of crisis handling) are here defined as: denial; acceptance and hope; grief and anger; diagnosis and conclusion; bargaining and settlements; treatment, healing and post-traumatic care. There are different kinds of denials too, like; denials of responsibility; denials of impact; denials of cycle; denials of awareness; and denial of denial.”
- Furthermore, “A classification (of deceptions) counts 34 categories. Bad faith, Barefaced lie, Big lie, Bluffing, Bullshit, Butler lie, Contextual lie, Cover-up, Deflecting, Delusions, Dismissal, Economical with the truth, Exaggeration, Fabrication, Fib, Fraud, Half-truth, Haystack answer, Honest lie, Jocose lie, Lie-to-children, Lying by omission, Lying in trade, Minimization, Misleading and dissembling, Noble lie, Omission, Pathological lie, Perjury, Polite lie, Puffery, Speaking with forked tongue, Weasel word & White lie.”

The reason for the Great Schism of the Church is not officially explained. However, models from the previous UU blogs could be helpful to such a quest, like; the 3^3 psychosocial model of Drive, Will and Belief; the 3D models of ethics (Good/Constructive/Right vs Bad/Destructive/Wrong); the 5D model for history and scenarios; and the P5GO (the 5th Pyramid Game Over) analysis. (More about this in blogs like UU20160513)

Nevertheless, here are some untraditional views that are related to this Black Hole in history:

- Basically, the Christian calendar is fundamentally based on Egyptian astrology and the 12 zodiac star constellations. The Moon makes a full circle in a year and the Sun in ca. 26000 years. Now, after 2000 years, the Sun moves out of the Phishes Era and into the Aquarius Era. This is as epical as when the time was reset to 0. (More about this in blogs like UU20170414)
- Great astronomical events have been interpreted as miracles, like revelations and a Second Comings. One such major event was observed in 1054, although it really happened about 5000 years earlier. Midways in this Phishes Era, - Orion's head went supernova and became the new brightest star. The Orion's Belt, i.e. the Three Kings, still follow the (previous) brightest star, Sirius. The interception line with the Southern Cross, points to where the Sun turns to a new Zodiac Era/Age. The event occurs every 2160 years at an average. Moreover, the constellation Orion is located between the Zodiac constellations, the Twin and the Taurus, which represents the last of the true Egyptian Ages. The Taurus' horn touch Orion's head, which is now seen as the Crab nebula.

It must have been as impossible to explain this sudden 'miracle' as well as the myriads of altered consequences. The dilemma might have caused unanswerable theological disputes and escalated into the Great Schism.

If any conclusions, The Great Schism of the Church seems unresolvable as a Gordian Knot. However, this spiritual knot cannot be resolved by such violence – or any kind of insanity. Unfortunately. The respond to destructive GoT Games are probably Good Games. Yet, some suggestions are here:

- Dare to communicate again by nullifying the expelling and excommunications.
- Dare to end the KO-KO syndrome by altering to an OK-OK mentality.
- Dare to go from Denials to Realizations in order to end the organisational dysfunctionality.
- Dare to annul occults scrips like the 'John's Book of Revelation' that sentence most humans.
- Dare forgiving yourselves and each other for sins in the past.

Heresy – maybe, - but never blasphemous.

The original song 'Crazy' needs no introduction – it is overwhelmingly reflective. It was the debut single by the American soul duo Gnarls Barkley. No wonder, it is selected by Post Modern Juke Box. Also see the presentation of the original at UU20130405.)

Extra UU1 Thomas Dolby – Eastern Bloc

Thomas Dolby has been selected several times in these UU blogs. He had many innovative songs in the top of his career. The 'Eastern Bloc' is a synth-pop classic and is inspired of the atmosphere of the Cold War. It makes one think that it still is as relevant today, - and even in the near future. Thomas has also some political texts. The names 'Joey' and 'Georgie' refers to the US and SU presidents at the time. The guest guitarist is Eddie van Halen.

The Brexit heist has dysfunctionalized the UK Parliament. The organisation is in a state of schizophrenic mass-psychosis and paralyzed. The Brexit is related to the non-European attempt to split the EU parliament. However, it backfired, since no true European could see any gain of such a CdE Game towards oneself. The parliamentary crises have rather raised the western awareness and strengthen the defense as in 'One for all – All for one'. Moving from Denials to Realisation is the main cure for such organisational Dysfunctionality. Therefore, the UK parliament should ask their allied in EU parliament to end this futile attack.

Thomas Dolby - Eastern Bloc + lyrics

<iframe width="560" height="315" src="https://www.youtube.com/embed/dAF7wdNcYDU" frameborder="0" allow="accelerometer; autoplay; encrypted-media; gyroscope; picture-in-picture" allowfullscreen></iframe>

<https://genius.com/Thomas-dolby-thats-why-people-fall-in-love-lyrics>

Heresy – maybe, - but never blasphemous.

Extra UU2 Nick Cave - Messiah Ward

"Dagmar's last meeting with Rasputin' is an association to the blog UU20140530. The song title 'Messiah Ward' hints to mental institutions. In other words, this is a different point of view on 1914, EWW1 and that century. With all the hinter sight in this century, it is easier to see the Moves, the Players and the Motives, in addition to see who really won and lost. The plot should be discovered after a hundred years, namely to convert Roma3 from Throne/Temple in St. Petersburg to State in Moscow." "The rivalries of the past century are previously investigated in UU, especially in the Theme 'LifeQuality and Empires'. Now, as the theme has reached 1914, it is built on the previous writings and with a different point of view. It certainly goes very wrong if one tries to explain insanity only with sanity. The two are not correlated and should not ever be presented as such. Unfortunately, exactly that happened after the unpredictable 'Big Bang' in 1908." (See UU20140530 for more.)

The extraordinary astronomical event happened in Siberia/Tunguska in 1908. Soon the Church abandoned the Throne in St. Petersburg and allied with the State in Moscow. The Siberian Shaman Rasputin entered the Palace via Moscow and caused great distress to the Throne. Theocratic interpretations probably forced the abdication of the Tsar. However, there were warnings that an assassination of Shaman would release something even worse. That might have been Mongolian shamanism, where Genghis Khan is the main spiritual embodiment, which consists of 99 gods (tngri) where the 44 are the terrifying black ones.

Still, today, shamanism should not fill the vacuum left after blasphemous imams and preachers, that blames God for own misleads and misdeeds.

Nick Cave and The Bad Seeds - Messiah Ward + Lyrics

<iframe width="560" height="315" src="https://www.youtube.com/embed/mlmdCxaXyWg" frameborder="0" allow="accelerometer; autoplay; encrypted-media; gyroscope; picture-in-picture" allowfullscreen></iframe>

<https://www.youtube.com/watch?v=mlmdCxaXyWg>

<https://genius.com/Nick-cave-and-the-bad-seeds-messiah-ward-lyrics>

Extra UU3 The HU - Wolf Totem

The Hu is a Mongolian heavy metal band. They call their style 'hunnu rock'. It includes Mongolian throat singing and the Morin khuur. The video 'Wolf Totem' was released in 2018 and got 10s of millions of views as well as reaching the Billboard's Hard Rock Digital Song Sales. The band wants to release the first album 'Gereg' this year. The album tittle is the term used for a diplomatic passport from the time of Genghis Khan.

Mongolian shamanism is as underestimated as it is unknown. Such theocratic ignorance has caused comprehensive overrun like the two invasions of Beijing and Europe. The ROC should not have provoked the polar shamans and blamed the RCC in the 1400 century. That seems like a Game of LYAHF (Let's You and Him Fight) - based on the script in 'John's Book of Revelation'. Obviously, the Mongols did not like that description of themselves.

- Moreover, as indicated in the song 'Messiah Ward', there were warnings that an assassination on the Siberian Shaman would release something worse. That might have been Mongolian shamanism. Genghis Khan is the main spiritual embodiment, which consists of 99 gods (tngri), where the 44 are the terrifying black ones.
- A present omen is that an agent was placed in the presidential seat in 1999. He is as important to the spiritual ROC as the secret stats-police. That constitutional shift seems rather a set-back to the state of 1500 when an orthodox monk declared Moscow as the 3rd Rome - and the secret police 'Oprichnina' was established. (See more in blogs like UU20170428.)

Occult shamanism seems to still be present in politics. The 999 vs 666 is based on the meme 69 which represents the Crab/Lobster/Cancer Zodiac constellation – and the Crab Nebula.

The HU - Wolf Totem + lyrics

<iframe width="560" height="315" src="https://www.youtube.com/embed/z3-6LPwGkwo" frameborder="0" allow="accelerometer; autoplay; encrypted-media; gyroscope; picture-in-picture" allowfullscreen></iframe>

<https://www.youtube.com/watch?v=z3-6LPwGkwo>

<https://lyricstranslate.com/en/wolf-totem-чонон-сүлдэт-wolf-totem-wolfs-totem.html>

The association to the video is the PPP on a tricycle, - riding along with the Night Wolves - the Russian Hells Angels.

Caroline Baran - Nothing Else Matters - Metallica Cover

20180601

Ukens Utvalgte

https://bloguu.azurewebsites.net/uu_2018/UU20180601.htm

All those kind greetings on my day inspired to do an ad-hoc blog to the quest of 'what is the king of Denmark'. The Dane Crown Prince's 50th anniversary was a week of scrutinizing his personal qualities and

experiences. The song 'Nothing Else Matters', that opened the Royal Concert, might be considered a signature. The 'king to be' seems to dare prosper his personal LifeQuality as well as any Danes'. He has matured now and do dare facing the bullying of Pyramid Game Players.

The closing song, 'You Are Not There', might eventually manifests as a memorial for the loss of the father. Still, the anniversary was not a final closure of all the KoC Games. It is the beginning of new chapters of scripts of the never-ending Constitutional Games. It cannot stop – like annual tournaments of chess, governance or sports. Yet, there are constructive ways for an unwilling Game player to respond, - like turning Bad Games to Good Games. Future Loose-Loose Games can be counter-struck, when realizing that the Bad Dad Game really was a Game of LYAHF (Let's You and Him Fight). Some ways of minimizing the losses in next rounds will appear obvious, when realizing that there was not a real Oedipus complex, but an Oedipus Game played by the psychocratic Press of the faked 3rd International.

There is a Dane drummer in the band Metallica that made the song 'Nothing Else Matters'. The lyrics is as logically strange as emotionally touching, - when trying to apply some logics of Game analyzing. Categorically, there is only 'Matter' and not-matter, - if excluding the theoretical anti-matter. Certainly 'things' are 'matter' and 'nothing' cannot matter, - at least by present means. 'Else' is simply exclusive. This makes the tittle similar to saying 'no-matter is not matter', – as if value and meaning are properties of matter and not for immaterial entities like information, emotions and thoughts. That seems to make perfect sense in some mindset of Heavy Metal. On the other hand, - that might be merely an perception from 'I', – which has the very opposite meaning in Danish and English. No matter, - this postmodern performance of a 15-year-old girl certainly lifts this non-metallic song to proper dimensions.

The Final Countdown by Europe ft. Gunhild Carling

2018.mars.30

Ukens Utvalgte

Every year, one of these weekly blogs interrupt on the Easter's Good Friday - like this one to the quest of: 'What is the king of Denmark'. Still, - this is also the final blog at the O365 site, since Microsoft is lured into deleting all their customers' public web-sites (UU 2018.jan.12). Anyways, this Friday's question is: 'How the Seth could anyone go wrong in their search for the Egyptian king of kings – an Age ago?' Such Easter Games have to be exposed in order to minimize dysfunctionalities to humanity in the coming Age.

First, concerning the interrupted blog theme 'What is the king of Denmark?'. This Good Friday blog is more related to the first one about the quest's 4th Dimension (81). The previous blogs explored the quest at the 4D hyper-dimension (UU 2018.mars.02), the 3D of Superiority (UU 2018.mars.09), the 2D of Will (UU 2018.mars.16) and the 1D of Drive (UU 2018.mars.23). The 2 remaining blogs will be published at another time and another space on some other occasions. They will be formed by the 0D (Entropy - realization) and 5D (Scenarios of past and future). Anyways, due to the un-microsoftish censorship of public blogging, those two blogs might appear as interruptive alternatives for hyperspace expressions during this eve of the 4th Industrial & Social Revolution.

Now, the Easter's Good Friday Quest: 'How the Seth could anyone go wrong in their search for the Egyptian king of kings – an Age ago?' This question might seem strange, - simply because the guidance is so massively messed up that it is now perceived as normal – not to recognize the brightest star in the night

sky. It is simply become 'hidden in plain sight', the most luminated fixed star that anyone can see from anywhere. It is not a comet, not a supernova, not Jupiter or any mysterious phenomena. It is simply the brightest star – Sirius.

Furthermore, the Good Friday is astronomically on December the 22th every year and that do not relate to the moon at all. The shift to a new Age/Era was at the year 0 – approximately 2160 years after the previous shift. The length of one cycle of twelve Ages is 25,860 years. Yet, the coming of the Egyptian king of kings is a rare event. Like the moon has 12 months and passes 12 zodiac constellations, the sun also passes the very same, however backwards. Some further precisions seem necessary, like when the greatest moving star, Jupiter, returns every 12 years, dips into the virgin, Virgo, and some micros asteroids showers the earth. The location for the event was Heliopolis (Sun City) by the river Nile. – With such unambiguous description on how to get to the right place in the right time - How could there still be doubts? All it takes are some substandard versions of the Testaments, - intended for the public.

The year 0 was the end of the previous Era/Age of the Aries (ram) and the start of the Pisces (fishes). Consequently, the year zero was the end of the Old Testament and the substitution of the New Testament. Even that was messed up. Now we are at the eve of the new Age/Era of the Aquarius. Many astrologers believe that the world is transitioning from the Pisces and Aquarian Ages, which is claimed to explain that developments in the world today can be aligned to Pisces (i.e. continuing strong religious influences especially from Christianity) and Aquarius (traditional archetypes associated with Aquarius include electricity, computers, and democracy). However, the passing takes more than a century, with a really slow change.

Now, anyone knows for certain when the year 0 occurred. That was more complex before that time, though, since no one had any modern watch. Therefore, the description of time and place had to be astronomical. The coming year zero for the new Age/Era, and the naming for the new Egyptian King of Kings, the Savior Christ, occurred when the brightest star in the night sky, Sirius, aligned with 'the 3 kings' (Orion's Belt) and pointed directly to the constellation 'the Southern Cross', or Crux, - right above where the Sun rises again at the shortest day of the year. The Southern Cross is quite visible at the Mediterranean, even though it mostly out of sight in the north. It is even considered so important that it is illustrated in 10 flags, including Australia, New Zealand, and Brazil. It is simply impossible to misunderstand.

For such quests for 'what or who is the king', this is an obvious example of grand organisational dysfunctionality – and thereby a cause to organisational 'quite normal insanity'. There are more talk-through of such delusions in UU 2013.april.12 about Gurdjieff, the occult Enneagram and NLP. The DR2 documentary 'Crime under hypnosis' is talked through in UU 2012.Juli.13. Also see the other Derren's revealing videos of crimes, frauds and tricks done with hypnosis." (UU 2017.aug.04) The denials of the most obvious truths that everyone always knows – but still denies.

However, there is no need for dramatic mass-hysteria, like theatrically staged for the year 2012, when the Mayas entered their new Age/Era. This is simply another turn of a calendar, just like what happens every month, every year, every century and every millennium. Let the Egyptian have their new king of kings, the new savior, their new Christ. That is OK. It is even OK with some mythical story telling about the mother ISIS and her son, Horus, and the rivalries of night and day, Seth and Osiris. Just don't mix realities with that diluted Games of Enneagrams.

Quite intriguing, though, this year, in 2018, the Holy Saturday is on the 1st of April. It is a reminder to not be fooled anymore by stories about some second coming of the Pisces Christ. It is also quiet a fool's misdeeds to terminate all the customers' public websites at Office 365 – however, gravely serious. It's an omen of the POA (parallel organisational apparatuses) that seems to get dominating control over the democratic spirit that Microsoft grew out of. Now, hands are washed.

Gunhild Carling is a Swedish jazz musician and multi-instrumentalist. She is famous for playing three trumpets at the same time. Carling became known for her performance at Skansen. The same year, she became an expert commentator at SVT. Gunhild plays trombone, bagpipes, trumpet, recorder and harp, and will often showcase all of her skills in one song, sometimes casually breaking into a tap dance or singing lyrics. In 2013, she performed with her 'Carling Big Band'. She is featured in several of Scott Bradlee's Postmodern Jukebox's adaptations of pop songs, including their version of 'Never Going to Give You Up' sampling multiple instruments, a 1920s jazz swing version of 'Material Girl', a vintage jazz version of Europe's 'The Final Countdown' and a jazz cover of Pharrel Williams' 'Happy'.

'The Final Countdown' is a song by Swedish rock band Europe. Written by Joey Tempest, it was based on a keyboard riff he made from the early '80s and inspired by David Bowie's 'Space Oddity'. Originally made to just be a concert opener, it is the first single from the band's third studio album, also named The Final Countdown. The song reached number one in 25 countries and was certified gold in England in 1986. In the United States, the song peaked at number 8 on the Billboard Hot 100 and number 18 on the Billboard Album Rock Tracks chart.

The association to this blog is the final countdown for both the Pisces Testament and the uncalled-for deletion of all these UU blogs.

Sweet Child O' Mine – Guns & Roses Cover ft. Casey Abrams

2018.mars.23

Ukens Utvalgte

The quest for discovering 'what is the king of Denmark' has reached the 1st dimension. It is not the final one though. 1D often represents a single line to differ between to opposites, a point of direction or simplification of more complex realities of 2D, 3D and 4D. In that relation, it is the basis number 3 that is often associated to something holistic, like Trinity. Still, the framework for the quest is the 3[^]3 model psychosocial analysis of organisations. The 1D is called Drive and relates to the UnderConscience of biology, instincts and intuitions. Hence, these talks are about the Drive powers of organisations, including - the Throne, State and Temple. Still, a main objective is to uncover dysfunctions caused by the Drive Powers of the parliamentary LEJD system. The main cause to such qualitative deviations can be organized OverConscient abuses of the collective UnderConscient that occasionally undermines the true Legislative, Executive, Judicial and Democratic powers. Therefore, it is crucial that the Work of the true Constitution is not allured by such Games anymore.

The Drive dimension of Humanity is far too comprehensive and complex for a thoroughly analysis in any aspect. Even focusing on Dane kings' history of 1000 years is far too much. Also, focusing on only Kings, and not queens or the other casts, is too diverse. Besides, the quality of history writings is not completely trustworthy as objective and truth, since that privilege is also a spoil of war for kings. Moreover, Denmark is by no means any fixed geographical area, but was rather a shifting nation and culture. Consequently, so is the Constitution of Denmark. Still, some personifications, events and circumstances are important leads to

focus on Drive related properties. Therefore, this blog will rather point out some aspects of the model in Drive relation, than investigate certain persons and events.

Still, the aim for this blog series is to promote the constitutional balance for sanity of the Superior Powers of the Throne, the State and the Temple. The theories of organizational sanity are talked through in blogs like UU 2015.nov.06. The 3[^]3 model is summarized in UU 2018.feb.16. Once again, now is a chance to modify and clarify the related terms to the 1st dimension Drive for both persons and organisations. The Drive relates to the Will and Belief and itself, which makes 3 subcategories. Details are explained in UU 2015.feb.27. "Dr. Eric Berne split the traditional ID into 2 kinds of 'Child' to relate to two kinds of Parents, namely Mother & Father. In an earlier UU 2014.aug.15, the ID was split into 3 to include Adult/Ego. The 3 IDs were named Sulk, Jerk and Nerd. These 3 ID relate to other individuals via their OverConscience in Game relations like; Sulk/Drive/WL, Jerk/Belief/RF and Nerd/Will/AF. (UU 2015.Jan.23) The Drive Game categories will relate to the conscious dimensions of UnderConscience (U), Conscience (C) and OverConscience (O) - like RF/UD, AF/CD and WL/OD. There are now 3 new socialpsychological Drive-related Game categories; AF (AnimalFarm), RF (RainForest) and WL (WildLife). "However, Games are mainly related to the Will dimension that can use the nature of the Drive state, as for Belief state. The powers might relate to terms of Autocracy (Jerk), Bureaucracy (Nerd) and Pedocracy (Sulk) and ethically to isms, when elevated from nature and persons to the organisation level.

The Drive dimension is also related to the 4th Constitutional power, - namely Democracy. In the 3[^]3 model, it is not quite placed yet, but rather related to the less perceptive 4th Dimension. This has been discussed in several blogs. The term 'Hyper-democracy', as a 4th Dimension, was introduced in UU 2016.sept.23. Still, Democracy is an under-estimated Superior Power in less advanced LEJ systems of dominating arrogant ignorance. This dysfunctionality also manifests in anti-western movements of manipulated collective synchronizations. Thus, a brief presentation of the theories of LifeQuality, might be useful.

LifeQuality is directly related to term of Democracy, which is described in UU 2017.juli.21. "LifeQuality is defined as: A person's totality of properties and potentials to satisfy the stated and implied needs." "Maslow's Hierarchy of Needs shows 5 main categories; Physical, Safety, Social, Respect and Self-realization." "The 'stated needs' are similar to the 'Human Rights'. "The 193 UN member-states are obligated to secure their citizens' rights concerning; private properties, self-determination, security, privacy, family, work, education, in addition to freedoms of thought, conscience, religion, expression and more." Unfortunately, and evidently, anti-democratic nations oppose the Human Rights and Needs, sometimes aggressively with conning Underworld Games. Their need for self-defense is obvious, - even though opponents denies such existence, motives and actions." (UU 2014.okt.17) Additionally, *the nations of the UN have agreed on a new program for this century* - called the 17 Sustainability Development Goals. The SDG17 do not merely concern individual humans' needs and right, not merely in the 'developing' nations - but the whole humanity. The nature, cities, fabrics, governments, enterprises are included too. "The SDGs cover a broad range of social and economic development issues, that include the traditional Human Rights as poverty, hunger, health, education, climate, gender equality, water, sanitation, energy, environment and social justice. the SDG framework does not distinguish between 'developed' and 'developing' nations, but to all countries."

The history of the Dane Throne mostly focuses on individual Kings, though the achievements and events are basically organisational, national and multinational. Still, history writing is mostly focused on such personal obsessions, and consequently will be the following. For Denmark, this was mostly due to the dominant powers of bishop Absolon about 1150. A secretary Saxo manifested the future Dane history with the book 'Gesta Danorum'. It was based on libraries in Sweden, where the Dane kings were linked to roman emperors rather than Nordic people. Hence, these following paragraphs points out some other points of view based on the present information from the internet.

An introduction in Wikipedia says: "The history of Denmark as a unified kingdom began in the 8th century, but historic documents describe the geographic area and the people living there—the Danes—as early as

500 AD. With the Christianization of the Danes c. 960 AD, it is clear that there existed a kingship speaking. The area now known as Denmark has a rich prehistory, having been populated by several prehistoric cultures and people for about 12,000 years, since the end of the last ice age." There were probably figureheads like chiefs and kings 10000 ago, which makes the history writing insufficient for psychosocial analysis. Moreover, the history writing was for example dominated by gynophobic Temples that mainly excluded mentioning Queens. It might seem that the 'Gesta Danorum' was made for legitimization of the annexation of Norden by the Game Categories GoT (Game of Temples) and KoC (King of the Castle).

Still, Kings and Queens, or any other patriarch and matriarchs, are the main argument to elevate the personal psychosocial models to organisational level, - like the 3^3 model. Their organisations are called Throne, House, Castle, Kingdom etc. Therefore, the projections and perceptions of the persons are mostly far from adequate. The iconizing is rather like producing some living archetypes. Now, such Icons are not Believed to have personal superior powers for warfare, healing and wonders any more. However, a large organisation can have superior and dominating powers over individuals, or being propagate so, as a figurehead of Thrones, States and Temples.

The Houses behind the Kings of Denmark are not as fragmented, when relating them to the Throne. The history of Dane Kings and Queens is rather diverse and dramatic, as the links to lists of Dane Kings and monarchs shows. The unification of a Dane kingdom was realized when the chiefs' men were killed by royalties and priests from Ukraine and Belarus. Since then, a few Houses have dominated the struggles and naming of kings of the Kingdom. In brief, the main Houses were Gorm/Dane (950-1050 ad), Estridsen/English (1050-1350), various (1350-1450), Oldenburg/German (1450-1850) and Glücksburg/German (1850->).

Nations are related and bond to unions and empires. Such bondage started for Denmark with the annexation by Ukraine/Belarus Thrones/Temples. Here are some remarkable milestones. Somehow, there was a change from Russian orthodoxy to Roman Catholics that got 1/3 of Dane land after the plague wars about 1300 ad. The Estridsen/English union was expansive until wars broke loose. Shakespeare's Hamlet about Kronborg is about that period. Moscow was declared the 3rd Roma about 1500 and the expansionistic Tsars annexed most land in the North. The legend of the Dane flag, Dannebrog is Believed is to fall from the sky to king Valdemar II in war to submit Estonia. The flag is said to be the cause of a miraculously victory. (UU 2017.mai.05) Magnus of Holstein, the brother to King Frederik II, was appointed by Tsar Ivan as king of Linovia (Estonia) and got a Russian army of 20,000 to conquer Swede colonies. (UU 2014.okt.31) The resisting Nordic 'Kalmar' Union was split after 100 years. The Dane king ordered the execution of all noblemen in Stockholm while the Swedes insisted on defending their allied on the mainland. With no legal ground, the weakened Norway by the plague wars, including Iceland, Greenland and Faroe Islands were submitted to Denmark until 1813. Tsar Pyotr (Peter the Great) declared Russia an empire about 1700, which seem to degrade Demark a remote-controlled vassal state. (UU 2016.jan.08 to UU 2016.mars.11) Dan-Nor colonies in Africa and America declined rapidly. There were also considerable relations with Germany/Austria/Prussia empire that ended with WW1 in 1913. In modern times, there were strong relations to the Soviet Union, however weakened by the Treaties with United Nations, NATO and the European Union. All these historical relations are still, more or less, part of Denmark's collectively Belief and Will dimension.

The Danish superior influences from Russia, as a strategic vassal state in the Baltic Sea, is a most relevant, however suppressed during the cold war censorship. The TV documentary 'Empire of the Tsars' present a rather different and vivid perspective of the Throne of the Russian empire. (See the link below.) Remarkable points are that Pyotr (Peter the Great) had to flee for his life from Moscow, and that he became a young rebellious and grandiose tsar. Catharine (the great) from Holstein, was widowed just after the marriage and became a grandiose tsarina as well. Princess Dagmar of Denmark/Holstein became tsarina under similar circumstances and indirectly ruled via her inexperienced husband and her submissive son, - the very last Tsar. Lenin, with the fake 3rd international was smuggled through Denmark to Russia via a sealed train. The sarcophagi of Tsarina Maria of Russia (alias Dagmar) was newly returned to Russia in silence from the royal in Roskilde.

“Behind a great man is a great woman”. That is a recognized saying of truth. Any family is an organisation. There are divisions of work for organisational functionality. It is even hard to tell who’s Drive, Will and Belief caused the decisions although the man is presented as the head to the public. That goes for any kind of decision, good as bad, functional as dysfunctional. There are remarkable women in Thrones, even though silenced by the Temples. Despite the poor quality of history writings, some examples are: Ingeborg Valdemardatter of Novgorod, the daughter of Valdemar I of Denmark and Sofia of Minsk, that was the queen in France, just for a day, and then locked away for 20 years. (UU 2017.mai.05). Margrete I that had a 5-year-old son as king and indirectly established the Nordic (Kalmar) Union (UU 2014.mai.02). The mother of Christian IV must have been influential since he was crowned the king at merely 15 years old. Demark started its most expansive period when C4 was too young for such enterprises, but most collapsed in wars when he grew up. Catarina (the Great) from Holstein, widowed soon after the marriage to the tsar. She was extremely expansionist tsarina. Princess Dagmar of Denmark/Holstein was the mother of the last tsar and most influential on the Winter Palace. Louise, the princess of Glücksburg/Holstein, continued the royal bloodline since the King, Christian 9, was not of any royal line. The queen to Christian 7, that proposed the building a Baltic/Atlantic canal, as an alternative route between the Baltic Sea and the Atlantic Sea, was forced to stop when he was declared schizophrenic. His wife got pregnant with and adviser who was later sentenced to death by being torn apart in public. (That is no Dane death Ritual, though.)

Related to the 3[^]3 psychosocial model, the Dane population was subordinated in stænder (casts), in order for the King and the Tempe to rule the population. There were 4 casts; the (Temple’s) Clergy, the (Throne’s) Lords, the Civilians (plebs) and the Peasants (thralls). The thralldom included slaves, convicts and maids, - but also Peasants, Workers and Soldiers, - as referred to in the 5 Internationals. Related to the 3[^]3 psychosocial Drive dimension. «What Jung called ‘Collective synchronicity’, is more commonly called ‘herd mentality’. Jung gave it a deeper understanding and described it as ‘an independent (social) connection principle’, ‘a meaningful coincident’ and ‘an independent parallelism’. Jung claimed that the principle gave conclusive proof for his concept about archetypes and collective subconscious, because it described the controlling dynamics that substantiated the complete human experiences and history - socially, emotionally, psychologically and spiritually. In relation to Berne, Jung focused on interpersonal communications (Transaction Analysis – TA) that is most relevant to OverConscience. However, the source is at UnderConscience and Conscience levels. It includes communications directly from Drive and Belief by body-language and rituals.” (UU 2014.aug.22 and UU 2016.sept.16) Moreover: “Identifying and profiling the true nature of the imperial secret organization is like doing Vaticanology and Kremlinology. Previously, it has been identified and described as the Praetor of Roma1 (Rome), the Praetors (network) of Roma2 (Constantinople) and the Oprichnina of Roma3 (Moscow) (UU 2014.mai.02 and UU 2013.Mai.24). Furthermore, Superior-Ego and Superior-ID (S-E & S-I) were described in UU 2014.jan.10. This theory is merged together in a joint Freudian and Jungian 3x3 egostate model. S-E and S-I are like the OverConscience of Belief and Drive (OB and OD), which means they can both influence collective synchronization, - like some ‘peoples’ movements’.” (UU 2016.juni.17)

This summary of Games can give insight of the structure and variety. “There are categories of Games, like Life Games, Marital Games, Party Games, Sexual Games, Consulting Room Games, Underworld Games and even Good Games’. These are often mentioned in UU and summarized in UU 2015.mars.06. “Some classic Games are. YDYB (Why Don't You, Yes But), IFWY (If It Weren't For You), WAHM (Why does this Always Happen to Me?), SWYMD (See What You Made Me Do), UGMIT (You Got Me Into This), LHIT (Look How Hard I've Tried), ITHY (I'm Only Trying to Help You), LPAFJ (Let's Pull A Fast one on Joey), NIGYSOB (Now I've Got You, You Son of a Bitch), LYAHF (Let's You and Him Fight), RAPO ‘Psychiatry’ and ‘Courtroom’. A complete list of Berne’s classic Games is talked through in his book ‘Games People Play’ that is now free on the internet. “Some (self-defined) new Games are: DAC&UAC (Devide&Conquer & Unite&Conquer), ISR (It Started with the Retribution), ABD (Attack is the Best Defense), Jante/TUD (The Ugly Duckling), TLM (Two Little Maids), BGGG (Bad Guy, Good Guy), RPPP (Robbing Pete to Pay Paul), ODAB (One's Death – Another's Bread) and the Russian BOOFY (Beat your Own and Others will Fear You). Psychosocial Games are in general described in UU 2014.sept.12.” (UU 2015.okt.16 and UU 2015.aug.28)

Such classic Games have been occasionally related to the 3³ model. The sub-categories of the Drive dimension are thoroughly talk through in UU 2015.feb.27. However, a summary is in UU 2016.juni.10 says: "The psychosocial dimension Drive (Superior-ID) and its three sub-categories; RainForest (RF), AnimalFarm (AF) and WildLife (WL). The inspiration to describe the nature of human ID is based on nature itself. (The subcategories were at that time called Game categories.)

- "The social subcategory WildLife (WL) relates to animal life in the open nature, as we know it. However, knowledge increases according to new discovery documentaries, which expands this category. Typical areas of WL are penetrable forests, savannas, plains, cultivated nature and even animal life in cities. It concerns Drive-Drive related interpersonal relations by biology, motoric physiology, instincts, neurology etc. WildLife has probably some ulterior Games at Drive/Drive levels that includes hunting and camouflage. Nevertheless, most activities are not Games at UD level, due to the honesty of nature."
- "The social subcategory AnimalFarm (AF) represents some structures and dominations by biological Conscience within species' tribes. There are hierarchal organizations where older mammals dominant younger and where a single male might rule. Contrariwise, insects might have hives where queens dominate workers, drones, warriors and nurses. There are even highly inter-species relations that indicate dependencies and bondage. Besides, flocks of birds and fishes have synchronized collectives where single individuals rarely dominate. Nevertheless, birds and mammals might have fierce rivalries between male during mating. Nevertheless, natures' non-verbal communication is rather advanced with odors, colors, behaviors, rituals etc." (The name is taken from the book of George Orwell.)
- "The social subcategory RainForest (RF) refers to the hidden wildlife that we do not quite know or might have some believes about. The beliefs in RF concerns 'cure for cancer' and 'fountains of youth' as well as deadly nature, - and even viruses of potential apocalyptical pandemics. However, no doubt that RF do hold rich flora and fauna including potential new medicines, trickster predators and preys, where camouflage, poison, paralyzing are used in Games." (UU 2015.mars.13)

Most events of the Dane history can be related to Game analysis. That might uncover rather different point of views to the Believes of what the Will actually did and why, - despite the ulteriority. The events in this blog will not be detailed analyzed here. Still, here are some previous Drive relative blogs that might give some hints of the potentials:

- "There is an ancient war strategy called 'Breed Them Out' (BTO) that suits the Drive Game category AF (Animal Farm). No wonder polygamy and slavery was introduced. The men were sent to kill each other and their women became spoils of war. True theologies of Temples were abused by Thrones to gain access via OverConscience Belief (OB)." "The never-ending rematches have become retributive Oedipus and Electra obsessions. Some hints to present Osiris Games are about Seth related Games of Napoleon (UU 2014.mai.16) and Hitler/Stalin (UU 2014.dec.05). There seems also to have developed a Game that can be called 'Get Seth' that is related to the Game 'Genocide', which is rather an excuse to kill them all while hunting a single person." (UU 2016.mai.27)
- "The S-E/S-I theories of organizations can even be lifted to Global levels during centuries. The most outstanding example is the CdE Game in the Winter Palace in 1914, - the Dagmar Syndrome. It started as a simple TLM/TOL Game (Two Little Maidens) between the rivalling tsarinas from Germany and Denmark. This is the ultimate example that cloaking of ulterior Games can lead to unlimited cascades of misdeeds and mischiefs, - like a snowball can cause an avalanche, - like a match can cause a forest fire and like the shot in Sarajevo." "With hindsight, it is easier to see the moves of the Games, the players and the motives, - and who really lost and won. The overall plot should be clear after 100 years; (a CdE Game) to convert Roma3 from Throne/Temple in St. Petersburg to State in Moscow." There are far less costly ways to do so." (UU 2014.dec.19)
- "However, far worse is the ancient manipulation of the people, systematic formalized the 1st Condition to the 3rd International and Pyramid Games. The first Condition of the Moscow Thesis, dictates: "Members (of the 3rd International) ... can place no trust in bourgeois (the nations' loyal civilians) legality (and shall) brand bourgeoisie (civilians) and helpers systematically and pitilessly" The system is called Gulag and became internal 'Animal Farms' of mass-massacre in Russia and the Stalinazistic Germany. Citizens of prey-nations were assimilated by the Gulag colonialization program. The mass-

psychopathic deeds were finally exposed in Russia, Germany, China and Asia, - after massive denials from the Comintern. Remote Controlled state institutions in 'the West' grew to be the most powerful means for assimilation and turned RC oligarchic. Following are some relevant quotes to elaborate." (UU 2016.juni.24)

- "The origin of the up-coming of 100 years' war in Europe is previously pointed to Moscow. Rasputin was merely a so-called 'useful idiot' – a brick in the Game." "Most revealing is the 'occult' parts of the Game. 'Agent' Rasputin was educated in religion, hypnosis and psychology, - was introduced to Persian mysticism, spiritualism and occultism in Kiev, got relations in Moscow and was at last positioned by the tsarina Alexandra in the Winter Palace. He functioned as her first-advisors in the war towards her home country Germany. This Game could only have fatale outcomes. There are more talk-through of such insanity in UU 2013.april.12 about Gurdjieff, the Enneagram and NLP. The DR2 documentary 'Crime under hypnosis' is talked through in UU 2012.Juli.13" Also see the other Derren's revealing videos of crimes, frauds and tricks done with hypnosis." (UU 2017.aug.04)
- "(Rocket) Madsen himself asked for psychiatric evaluations prior to the police hearing. This is the opposite attitude to for example ABB (ref UU 2017.juli.14), but it is not uncommon. One reason is that the forensic psychiatric court can overrule the civil court in hearing and judging. The charged person will get medications for a rehab treatment and might get reduced penalty for 'being insane at the moment of the crime'. Furthermore, previous statements and further questioning can be annulled due to insanity. Such a forensic conclusion can be settling for many involved in the long run, also psychosocial Game players of Denials. That method is certainly used as Games by Dysfunctional organisations and POAs."
- "Now there is a modernization with Nova Russia and its Oligarchs (– and their subordinated Workers). Still, Hovedaftalen basically violates the fundamental Human Rights of the United Nation and European Court of Human Rights. Furthermore, it contradicts and violates most Legislative obligation Denmark has with the European nations of the Internal Market. this is thoroughly elaborated in blogs like UU 2015.nov.06, concerning the Dexit rejection of Europol, Eurojust and Cepol." (UU 2015.nov.06). 'Rule by Law' seems to be a collective delusion when the Workers Court and the forensic Psychiatric Court can both overrule the Constitutional Civil Court. It seems rather to still be - rule by Moscow law than Danish Law – as during the Cold War.

Even though the Parliament represents the first dimension in the LEJD system, it is truly a tragic dysfunctionality how the mass-psychotic mass-media propagates - that the political reality is merely 1 dimensional – as if the Dane Culture are merely two opposites - made for frequent clashes. "In such a 1D model, all parties are placed on a straight line between the two points Left and Right. It gives an impression that Throne and State are absolute opposites that all other parties have to relate to one of them, and that extremists always are beyond one of these two points (extreme Left and extreme Right). However, this 1D can be viewed in another way. If the two ends of the line are attached, you will see that the two extremist's groups are not opposites at all, but at the same area at the circumference of a 2D circle. Left and Right extremists basically represent the same destructive anti-powers despite any 1D political relation. Nonetheless, a comprehensive model is not made by simply relating Right and Left to a single point. To build a 3D model, the next step is to let State and Throne represent their own axis in a 2D area. Besides, the two axes do have negative scales, where extremists consequently will place themselves as anti-parties on their rivals' negative scale." (UU 2014.sept.12)

A main conclusion in the previous blog (UU 2018.mars.16) concerning the 2D was that the Hovedaftalen and the Moscow thesis are still interrelated after a century of coexistence. Those Manifests are the main mean for subordinating Danes into the ancient cast system. Another main mean abused to cause the collective self-herding, is the Jante obsessions - that flocks most citizens into a cast. Unfit individual will eventually be squeezed in despite their resistance – or simply go down by public services. That is simply 'Animal Farm'.

An Animal farm, - a revolutionized democratic assembly into a 1D Folks Parliament, might in fact be the sorry truth about the state of the Legislative Power. Here is an association about the Throne's real state in Danish Constitutional Law: The royalties had to escape their castle 'Christiansborg' (Borgen) several times.

They were offered residence in Amalienborg, which eventually became permanent. Folketinget, the Folks Parliament, moved in and took permanent residence in the Castle. Today, the political parties and PMs mainly represent the casts of Peasants and Workers. Dane Christians and Lords (Højre) are not represented in the Dane parliament anymore. However, - nova Oligarchs are very much so – cloaked as something else. Even Venstre and Radikale Venstre are of the Peasant cast – just slightly modernized.

Afterword: During this writing this blog, another sexual Game was discovered. It can be called FUMU (Fuck Up to Make Up) – or at the social level, MUMU (Mess Up to Make Up). The Gimmick is that it is expected to have a crisis in order to have make-up sex. The dysfunctionality is that there is no compensation for all the Mess-Ups. There might even not be any Make-Up, which can have the Game going in several rounds in a negative spiral. In generations, the reason for the Mess-Ups might be forgotten and turned into Rituals like burning dolls, beating barrels and watching football. Such Games can like other sexual Games be of 1st, 2nd, 3rd and even 4th degree. That means it can span from a couple's intrigues to inter-national war triggered by some teenagers in a Winter Palace. The psychosocial anti-thesis for Drive related MUMU Games is simply to talk about defunctionalizing rituals, like some family therapy. The themes to discuss could start with burning dolls on Midsummer and continue with other Jante rituals.

"Sweet Child o' Mine" is a song by American rock band Guns N' Roses, appearing on their debut album Appetite for Destruction. Released in August 1988 as the album's third single, the song topped the Billboard Hot 100 chart, becoming the band's first and only number-one single in the U.S. Guitarist Slash said in 1990, "[The song] turned into a huge hit and now it makes me sick. I mean, I like it, but I hate what it represents." "Rose stated that his original concept for the video focused on the theme of drug trafficking. According to Rose, the video was to depict an Asian woman carrying a baby into a foreign land, only to discover at the end that the child was dead and filled with heroin. This concept was rejected by Geffen Records."

The association to this blog, though, is the Superior Drive power, which also includes 'grey zone' drug abuse towards minors in Danish child psychiatry. (UU 2016.spt.02)

"Postmodern Jukebox is a rotating musical collective founded by arranger and pianist Scott Bradlee. PMJ is known for reworking popular modern music into different vintage genres, especially early 20th century forms such as swing and jazz. Postmodern Jukebox has amassed over 912 million YouTube views and 3.2 million subscribers." "Each week, Postmodern Jukebox puts out a new video on YouTube. Although originally most were filmed casually in Bradlee's living room, sets became more elaborate over time. Postmodern Jukebox has gone on to feature 70 different performers and tour five continents." (Wikipedia)

2018.mars.16

Ukens Utvalgte

The quest to discover 'what is the king of Denmark' has reached the 2nd dimension. 3^2 or $3*3$ is 9. That symbol is not as mysterious as 81 and 27 anymore, since the decay of Egyptian mythology. Still ancient memes of cats, enneagrams and pyramids do influence the Will by Drive and Belief. However, the framework for the quest is the 3^3 model psychosocial analysis of organisations. The 2D is called Will and related to the Conscience self, by means of science, reason and logic. Therefore, these talks are about the Will of organisations - the Executing powers of Throne, State and Temple. Still, a main objective is to uncover dysfunctionalities of the Executive powers of the parliamentary LEJ system. The main cause to such qualitative deviations are the parallel constitutional apparatuses that occasionally overrules the true Legislative, Executive, Judicial and Democratic powers. It is therefore crucial that the Work of the true Constitutional is not allured by such Games anymore.

The theories of organizational sanity are talked through in blogs like UU 2015.nov.06 and the 3^3 model is summarized in UU 2018.feb.16. Once again, there is a chance to modify and clarify the related terms to the 2nd dimension Will for both persons and organisations. The Will relates to the 2 other dimensions, Drive and Belief. At an individual level, these have properties like; Ego-Drive (the willpower to maintain and enhance oneself); Self-realization (the ambition to fulfillment of one self's personality); and Egoism (the Belief that one's self-interest is a superior moral). The terms are also applicable to any organisation at a collective level, including the Constitutional superior-powers; Throne, State and Temple. Such properties are at work in their Executive powers. In 'the west', they are called Courts (of the Thrones), Ministries (of the States) and Churches (of the Temples). Certainly, there are different names in different civilizations for these 3 Executive powers. Yet, the Governments are of Parliaments and Etats are subdivisions of Ministries. The term Etats are of the original French state hierarchy related to Napoleon's Game CdE (Coup d' Etat).

The category of activities 'Work', not 'Games', is the focus of this quest. A summary from the previous blog might be helpful to focus. (UU 2018.mars.09) "Games categories, that are not included in the 3^3 model due to their ulterior properties, are related as; KoC (King of the Castle) to S-Drive; GdE (Games d' Etat) to S-Will; and GoT (Games of Temples) to S-Belief. (UU 2015.mars.13) One should also notice that these models are still under development and have not yet been directly used to analyze a nation's constitutional dysfunctionalities. Therefore, these blogs should be rather considered advisable than conclusive."

'Rule by Law' is the very fundament for the existence, functionality and sanity of any civilization. The Danish Constitutional law (Grundloven) is the Superior rule for the Throne, State and Temple, as well as the LEJ powers. The Danish Kingdom is still the primary power, as the following translation of the Constitutional Law shows: "§ 1; This constitutional law applies to all regions of the nation Denmark. § 2; The Governance is limited monarchic. The king's power is inherited to men and women according to the law (Tronfølgeoven). § 3; The Legislative power is shared by the King and the Parliament. The Executive power is the King's. The Judicial power is the Courts'. § 4; The evangelic-Lutheran Church is the Danish folks church and is supported by the State. § 5; the King can not Govern without the Parliament's acceptance. § 6; The king shall be in the evangelic-Lutheran Church. § 7; The king is legally competent when 18 years of age. The same applies for the successor to the Throne." This last revision of the Constitutional law is inconsistent and the reason for Constitutional dysfunctionalities. The equality of Kings and Queens in §2 is not consistent in the following paragraphs about their Constitutional powers. Furthermore, the Parliament denied the Queen's spouse the title King. Consequently, there is literary no Constitutional head to the Executive power and the Legislative power is merely partly functional. Nevertheless, the state of the Church is a main reason for this complex of constitutional dysfunctionalities.

The weakest Superior power is the Church (Temple). It was as powerful as the Throne until the reformation wars, when all the catholic properties and privileges were expropriated and replaced with the evangelic-Lutheran Church. (Intriguingly, Martin Luther was unquestionably an anti-Catholic monk. However, his

organisational relations are unknown. He might as well have been an Russian orthodox agent, like the monk Philotheus (Filofey) that declared Moscow as the 3rd Roma about 1500 – and the monk Rasputin that caused the collapse of the Imperial Throne about 1900. In fact, democratic religious movements failed in Russia prior to the European reformation.) Anyways, the present Danish Temple is called the Folkchurch (Folkekirken). The powers were diverted by ‘folks’ democracy, which is not democratic in ‘Western’ terms. (The term volkkirche is German and not like the ‘national Church’, as the Dane patriarch Grundtvig’s proposed.)

The Church’s power and finances are decided by the Legislative Parliament and the Stat’s Ministries. It has no decision-making body and its powers are divided to regions and bishops. There is no law dedicated the Church’ powers. The Legislative assembly (Folketinget) acts as a superior assembly for the Church’s vital issues. There is not even any christian party left in the Parliament. Proposals to improve the legislation has been rejected by the Parliament 4 times. The Danish Church do not crown the Kings and Queens anymore, - the Prime minister does. The parliament rejected the crowning of the Queen’s spouse, so there is has not been any Danish king since [1972](#). Conclusively, the Dane Temple is made legally incompetent and subordinated the State. Yet, the Kings and Queens are the only persons in Denmark that have no religious freedom, since the Constitutional law states that they are bond to the evangelic-Lutheran church.

Obviously, the Danish Church is made legally incompetent by the Parliament. It is simply a Stat Church, even though denied by some political actors. There are also reasons to ask if the Danish Folkchurch actually is atheistic. A main reason for such a controversial question is described in the Mitrokhin archives. “The book describes the establishment of the "Moscow Patriarchate" on order from Stalin in 1943 as a front organization for the NKVD, and later, for the KGB (and assumingly today’s FSB). All key positions in the Church, including bishops, were approved by the Ideological Department of CPSU and by the KGB.” (UU 2014.nov.21). If so, the State religion is ‘make believe’ and has truly become a paralyzing ‘opium to the people’, - while the Folkchurch is a remote controlled ‘Parallel Organisational Apparatus’ as described in the 3rd International’s 21 Conditions.

The King’s Court was the Thrones’ Executive power. It dominated between 1200 and 1900. Originally, there was a symbiotic existence of the Ukrainian orthodox church and the royalties of Belarus. Somehow, there was a conversion of the Temple to Roman Catholic during the plague wars, around 1300, where the Throne and Church expropriated the southern Sweden as well as Danish/German soil. The catholic church got 1/3 of the land areas. Facing the anti-Catholic wars about 1500, the King appropriated all the Temples properties and privileges, before he could be abdicated by the Pope due to anti-Catholic sympathies. In 1660 the Throne’s powers were secured with autocracy and successions. Yet, the powers of the noble casts (stender) were reduced, while the Throne engaged some of them as governmental officials. The Thrones totalism was abolished with a CdE Game between the two German houses of Oldenburg and Glücksburg in 1863. In the aftermath, 6000 royalists of the deceased king were executed in an unconstitutional and futile invasion of the German border. This might be one of the most interesting CdE Games in Denmark.

The young princess Dagmar became even more influential than the Danish Kings. She was the last influential Tsarina when the Russian Imperial Throne collapsed. This issue is frequent in these blogs, like UU 2011.jan.28, UU 2013.mai.17 and UU 2014.mai.30. With hinter sight, and use of the 3x3 political model, it is easy to see that she was played in a greater CdE Game, where the Russian Throne and the Russian orthodox Temple lost all its Constitutional powers to the imperial State of Moscow. The 1st International of 1863 was succeeded by the 2nd International of 1913. However, the fake ‘3rd International’ by Lenin and its ‘21 conditions’ are simply a war declaration towards the Russian bourgeois royalists as well as all the European nations and American States. The sociopathic insanity of Lenin’s ‘Moscow thesis’ was executed by the mass-psychopathic gangster, nick-named Stalin (UU 2016.juni.03). Anyways, the Danish Throne was once again under double pressure and let German national-socialists pave the way for a socialistic bureaucratic annexation in the Parliament, as well as the rest of the Constitutional powers.

The Executive powers of both Denmark and Norway are thoroughly talked through during parliamentary elections and other referendums. These can be read in blogs like UU 2014.juni.27 and UU 2016.aug.05. The

state of the nations are questionable, as indicated by; reports from OECD and both nations 'productivity-commissions (UU 2016.aug.26); the permanent state of major corrupted projects in the public sectors; the reoccurring scandals of the Dane Tax authority; the infiltration by Pirate Bay in most Danish public computer systems, like tax, police, health etc. (UU 2015.nov.06); the double CdE attack in Norway 2011 (UU 2014.juni.20); the relation to the para-police trail (UU 2017.sept.29); and the continuous public crimes despite the massive critics from '22. juli-kommisjonen' (UU 2014.juni.27). It all sums down to that the Executive Powers of both nations are critically dysfunctional with no significant sign of being able or willing to improve.

The Executive powers are in a permanent dilutive state of denials. Yet, the Executive powers do truly master all kinds of denial at such degree that most people and authorities still believes the mass-psychotic deceptions. Once again, here is an attempt to remind that CPI (Corruption Perception Index) is a measure of the perceived, not the real, level of corruption in the public sector. (UU 2015.okt.23) The propagated delusion that the low score indicates low corruption is simply just another proof of the masterly mass-psychois of the mass-media – as dictated in the 1st condition to the Moscow thesis. It still works – because of a parallel Constitution and Parallel organisational apparatus (POA). (UU 2017.aug.25 and UU 2015.juni.12)

The General agreement (Hovedaftalen) was made by the Trade Federation (LO) and the Danish employers as a 'non-aggressive pact' in 1899/9. There are sub-ordinated agreements called 'overenskomst' (settlements) for LO's organisational sub-units. LO is an international Trade organisation that dominates most of the Nordic nations. There was practically a civil war by strikes and lockouts with workers as means in 99/9. The General agreement sets the framework of truce, while the 3rd International and its 21 conditions sat the conditions for civil war during the general strikes. The General agreement is also called worker's 'Constitutional law', which indicates the collective Ego's perception of realities as well as disrespect for 'Rule by Law'. Prior to the WW1, a parallel court to the civil Court was established with judges independent of the Constitutional Judicial power. LO has therefore been legitimated to overrule the Constitutional Civil Court of civil crimes during strikes, - which LO itself orders. The results can be seen in such civil war toward 'Western' nations and states throughout the previous century.

'Hovedaftalen' is simply a 'none aggression agreement' in the concept of the 'Molotov–Ribbentrop Pact' in 1939-1941 between Stalin and Hitler (UU 2014.nov.21). The same concept was used in the non-aggression pact between Germany and Denmark the same years. Hovedaftalen is simply a parallel constitutional apparatus. In fact, related proposal to revision of the Danish Constitution was rejected by the Parliament in 1939. Hovedaftalen should be rejected as well, with its parallel court, and where LO acts like a remote-controlled Government. The 2nd international was replaced with the fake 3rd international and its 21 conditions that Lenin called 'the Moscow Thesis'. That is simply a war declaration towards all European nations and American states. The extreme violence was executed by Lenin, Stalin and Mao, in the same concept of the cleansing of the 'old' Throne in Denmark in 1864. History shows that there has never been such a level of insane cruelty towards humanity and civil societies. Still, in this century, the Hovedaftalen violations of the Danish Constitutional is in conflict with all paragraphs in the Danish and Norwegian Penalty laws – even the paragraphs concerning high treason.

Now, 100% of the public servants (80% of all the Danish workers) are bond to the General Agreement and thereby indirectly to most of the 21 conditions of the 3rd International. It also applies for workers like policemen, peasants (farmers) and soldiers. Such conditional bonding requires extreme doctorial discipline. Now there is a modernization in 'Nova Russia' and its Oligarchs. Still, Hovedaftalen also violates the fundamental Human Rights of the United Nation and European Court of Human Rights. These nova Oligarch do attempt to regain the dominance over their Worker, Peasants and Soldiers. It is called PROSA (Pro-Russian Oligarch, Separatists and Anarchists) in a blog theme called P5GO (The 5th Pyramid Game Over) with 12 blogs (UU 2016.sept.23 to UU 2016.juli.08) of suggesting how to meet such aggressions towards the 'western' civilization. More about that in the next blog.

Still, it contradicts and violates most Legislative obligation Denmark has with the European nations of the Internal Market. This is thoroughly elaborated in blogs like UU 2015.nov.06, concerning the Dexit rejection of Europol, Eurojust and Cepol.

The only solution to this Constitutional schizophrenia is that the Civil court overrules LO's para-court for violations of the Constitutional Penalty laws. That POA is, and has been for half a century, directly in conflict with the Danish Constitutional law's § 3: "The Legislative power is shared by the King and the Parliament. The Executive power is by the King. The Judicial power is by the Courts."

Yet, the first and hardest challenge to any dysfunctional organisation is to take the major step from Denials to Realizations of its own realities. Therefore, the over-subsidized mass-media has to end – in order to end the source of the organized mass-psychosis. Actually, the Constitution, including the international Treaties, is enough to quality-ensure the LEJD powers in itself. However, the ongoing power-struggles between Constitutional and anti-constitutional organisations, at the Drive dimension, is the main focus for the next blog.

'Gangsta's Paradise' is a song by American rapper Coolio, featuring singer L.V. The song was released on Coolio's album of the same name, as well as the soundtrack for the 1995 film Dangerous Minds. It samples the chorus and instrumentation of Stevie Wonder's 1976 song 'Pastime Paradise'. The song was listed at number 85 on Billboard's Greatest Songs of All-Time and number one biggest selling single of 1995 on U.S. Billboard."

In the lyrics "Coolio begins by reflecting on his life in a Biblical fashion: that his partaking in hoodlum activities has drained him of hope, and his damaged relationship with his mother. However, the narrative turns at this point with Coolio threatening rival gangs with certain death in the event that they take verbal liberties or transgress into his territory. He subsequently educates the listener on the history behind his current position in society; explaining the way in which his upbringing has entrapped him by creating his lust for power, money and murder. However it is at this point that he acknowledges the uncertainty of his survival on the street. Coolio therefore begins to lament the cyclical nature of the violence in which he partakes, as well as elucidating the collective chaos created by individual greed, selfishness and a lack of education or role models. He ends his personal journey on a hopeless admission: that his situation and surroundings will never improve."

"Postmodern Jukebox is a rotating musical collective founded by arranger and pianist Scott Bradlee. PMJ is known for reworking popular modern music into different vintage genres, especially early 20th century forms such as swing and jazz. Postmodern Jukebox has amassed over 912 million YouTube views and 3.2 million subscribers." "Each week, Postmodern Jukebox puts out a new video on YouTube. Although originally most were filmed casually in Bradlee's living room, sets became more elaborate over time. Postmodern Jukebox has gone on to feature 70 different performers and tour five continents." (Wikipedia)

Gangsta's Paradise - Coolio Cover ft. Robyn Adele Anderson 1920's Al Capone Style + lyrics + original
<https://www.youtube.com/watch?v=Rve03u7oEvI>
<https://www.azlyrics.com/lyrics/coolio/gangstasparadise.html>
<https://www.youtube.com/watch?v=fPO76Jlnz6c>

The association here is that the public sector in Denmark and Norway has been a Gangsta's Paradise throughout the pervious century due to Imperial Mafia Bur acracies in the public sectors – and still is on overtime.

Like a Prayer - Vintage 1940's Swing Madonna Cover

2018.mars.09

Ukens Utvalgte

The quest for discovering 'what is the king of Denmark', has reached the 3rd dimension. 3^3 , or $3*3*3$, makes the number 27, which can be a perfect cube, based on the trinity number. It is scientific, tangible and purely logical. It is also a significant symbol for rationality that rather focus on numbers than values. Some propagate that 27 symbolizes evil, like in the movie 'It' and myths of 'the 27 Club'. However, in this blog, 3^3 refers to the model of the 3 superior political powers; Throne, State & Temple, - as well as the 3 Constitutional LEJ powers; Legal, Executive & Juridical. Thus, the main framework is the 3^3 psychosocial model and the Belief dimension of the 3 modified 'Super-Egos'; - Superior-Drive, Superior-Will and Superior-Belief.

The theories of organizational sanity are talked through in blogs like UU 2015.nov.06. The whole blog should be read to get a comprehensive idea of the theories, - even though it relates a to certain event. These models, and related theories, were elevated from personal to organisational levels, motivated by the trust that a balance of the 3 superior powers is as vital for organisational sanity as the balance of the 3 ego-states is for individuals. Thus, the main aim for such psychosocial-analysis is to reduce the risk for organisational dysfunctions that might be caused by; mass-psychosis, mass -neurosis, sociopathy and mass-psychopathy - as well as schizophrenia and paranoia. Ultimately, complexes of such dysfunctions might end in CCD (Colonial Collapse Disorder). As always, the cure for such dysfunctionality is to take the first, and hardest, step from Denials to Realization. Anyways, with the aims in focus, this analysis of 'what is the king of Denmark' - starts with some investigations based on the 3rd dimension of the 3^3 model.

Still, the psychosocial models might need some clarifications first. Here is even a minor revision of terms in this blog. Still, the 3^3 model is summarized in UU 2018.feb.16. This modification concerns the terms of the Superior dimension. The original terms of Freud & Jung were elevated from individual to organisational level, i.e. from ID to Drive, from Ego to Will and from Super-Ego to Belief. The 3D level makes 3 Superior categories of Belief, though. These are now called S-Drive, S-Will and S-Belief (rather than S-Id, S-Ego and S-Devine). Moreover, the 2nd dimension of Drive, Will and Belief are still; UnderConscience, Conscience and OverConscience. However, Games categories, that are not included in the 3^3 model due to their ulterior properties, are related as; KoC (King of the Castle) to S-Drive; GdE (Games d' Etat) to S-Will; and GoT (Games of Temples) to S-Belief. (UU 2015.mars.13) It is also important to notice that these models are still under development and have not yet been directly used to analyze a nation's constitutional dysfunctions. Therefore, these blogs should be rather considered advisable than conclusive.

The Belief dimension functions as overruling superiorities to society's organisations as well as any person. Such are expressed by ethics, laws and dogmas. Thus, categorially, the S-Belief is based on religious scripts, S-Will on laws and S-Drive on norms. The superior religious scripts in the Dane culture are the Christian New Testament and also the Jewish Old Testament, but not the Koran. Intriguingly, those thousands of years old testaments are single-sided declarations of spoils of war from the Arabian/Egyptian Game of Temples (GoT) on who's god is greatest and who should be king of king. The scripts are less about true religious Beliefs. The superior Laws are the Constitutional law and the related laws and regulations, - but also international laws like the Treaty of the EU and the UN Human Rights declarations. The superior ethics

and norms are now based on social democracy, but are still occasionally overruled by cultural legacies of thralldom. Anyways, these stereotypes do certainly over-simplify the categories of superior Believes and Powers. Moreover, organisations are exposed to conflicting overruling that in themselves can cause dysfunctionalities – like when an organisation cannot act according to one rule without violating another. Such are ‘Catch 22’ contradictions, causing irrational Believes, Will and Drive. Moreover, superior powers’ rivalries in the past have caused grave mismatches between the written and the actually Constitutions – for instance, having no king even though the Constitutional law requires one.

The 3 superior powers; the Throne; the State; and the Temple; can be valued in a scale from -10 to +10 and then placed in a 3d axis system. A basis to evaluate their real powers can be done by comparing their ideals with imperial experiences. However, the actual superior power is a totality of several organizations’ powers that differ in sizes, influences and motivations. On the other hand, there are negative organisations that are determined anti-Throne, anti-State and anti-Temple. Also, these anti-powers are cloaked and likely to play Games to achieve ulterior Goals by conning moves. For example, Islamism and Judaism are rather political than religious and can act like State-related and anti-Temple. Intriguingly, a term like Christianity is not even defined – yet real as well. Moreover, international constitutional legalities, related to the EU and the HR, seem seriously dysfunctionalized by anti-legal dilutions and mass-psychoses. Yet unfortunately, democratic ethics in Denmark are still undermined by cultural Jante bondage from its centuries as a vassal state.

‘Folkekirken’ is the dominant super-power ‘Temple’ in Denmark. However, the Cristian Temple became superior 1000 years ago. The prior dominant Temple was based on the ethnic Norse religion, which is still influential by myths, memes and rituals. Nevertheless, Temple and Throne became symbiotically superior when Valdemar besieged the ethnic Dane kings. The name is a Nordic version of Vladimir, which came from his mother, Ingeborg of Kiev, the daughter of Mstislav I, Grand Prince of Kiev and Christina Ingesdotter of Sweden. Conclusively, Denmark was christened Kievan/Russian orthodox and not as Catholics. However, Roman Catholics became the superior Temple in all Europe in the centuries around 1300 during the plague wars. The Catholic Temple had a strong symbiosis with the Throne and owned 1/3 of Dane land. Around 1500, the Dane king expropriated all Temple’s properties after the Reform wars towards the Catholics, including the land. The transformation to the Nordic Folkekirken has practically been a gradual decrease of powers and legal competency, - first by the rivalling Temples themselves, then by the Throne and finally by the State. The present Folkekirken is practically without any real power and is hardly any more influential than the original ethnic Norse religion Asatru – yet more exposed by symbols and rituals. (Religious Issues are found in blog themes like UU 2016.mars.18, UU 2016.mars.25 and UU 2016.april.01.)

The first written Dane law is probably Jyske Lov (Jutland Law) from 1241. In 1665, the Throne’s superior power was constitutionalized by Kongeloven (King law) that provided Enevælden (despotism). In 1849, ‘Danmarks Riges Grundlov’ (Denmark’s rike Constitutional Law) was constitutionalized and changed the Throne’s despotism, but kept the King’s heritage right. The division of power made a powerful administrative oligarchy of nobilities that grew into superior cold-war’s bureaucracy. Dane Constitutional law was revised in 1855, 1866, 1915, 1920 and 1953. A revision in 1939, at the eve of WW2, was rejected, - even though the King was forced to hand over the Parliamentary powers. The international agreements in the previous century and the globalization in this century, includes several superior international treaties that overrules contradicting national laws. There are the Human Rights Treaties of the UN, the Treaties of EU and other regulations to several international organisations. However, the ‘Moscow Thesis’ of the previous century is not merely illegal according to most paragraphs in the Penalty law, but is also high treasonous. Still, there seems to be a vast gap between Constitutional law and practices in the public sectors. Furthermore, Hovedaftalen by LO (Lands Organisationen - the Nordic cluster of Trade Federations), regulates 80% of Dane employees all the Dane public servants. It was directly related to the Moscow Thesis (the 3rd International and its 21 conditions) that dictates ‘centralized democracy’ from Moscow – which is really totalitarian Stalinism and subordination to a superior nova Russia. (UU 2017.aug.25 and UU 2018.feb.23.)

The Throne was superior, in symbiosis with Temple, from the Christening until the previous century. Most laws were made for the king's superiority over the stænder (casts); the (Temple's) clergy, the (Throne's) lords, the civilians (plebs) and the peasants (thralls). Thralldom included slaves, convicts, prostitutes, but also farmers, workers and soldiers. The thralldom has always dominated Dane cultures, either legalized or merely legitimated. That is documented by the slave trade, which included Europeans as well as Africans. The criminalization of slavery was delayed and domestically held in practice till last century. The collectively self-servitude continues, by collectivized self-servitudes of unwritten norms like the 'Jante law', - even though the present Constitutional laws prohibits thralldom. Still, the Dane S-Throne is very fragmented and complex – and rather mysterious - due to its Kievan heritage (UU 2017.april.07), its French intrigues (UU 2017.mai.05) and its Russian last acting Tsarina (UU 2014.mai.30).

The Juridical power is the 3rd dimension in the LEJ Parliamentary system. Its objective is to quality ensure the Executorial powers according to the laws issued Legislative power. This is a highly controversial topic in Denmark where critical dysfunctions seem to be comprehensive, permanent and incurable. One symptom is that hardly any public servant is sentenced, like some 'untouchables', even though the criminal rate in public affairs seem to exceed non-public crimes by far. (UU 2016.aug.26) The cooperation with the Europol, Eurojust and Cepol was terminated, concealed as a democratic referendum. That Dexit project is in align with the cascades of post-Brexit sub-projects of anti-European Constitutional frauds. (UU 2015.okt.16). The LEJ powers appears to still be infiltrated, manipulated and remote controlled. This happened as a process during the whole previous century. Some milestones in that process was; 'Hovedaftalen' that regulates workers from 1899; the Moscow Thesis transferring all powers to Moscow in 1920, the Nazi/nashi annexation in 1940, the submission of all LEJ powers and the massive infiltration throughout the WW2, the Moscow takeover after the war, the lack of normalizing by national powers thereafter and the continuous remote control of Dane LEJ powers during the Cold War.

The Dane king was threatened by massive bombing of the capital if not signing a non-aggression pact. The slow process of annexation, infiltration, and manipulation started in 1900 and could not be reversed with rejected pan-European cooperation. However, the Throne is a single point of failure, when the Constitutional law says that the King is in power for both the Legislative and Executive powers. Still, the massive infiltration of the Judicial power by anti-constitutional judging could not be prevented or reversed when once in position.

All in all - the superior power Temple is as important as the Throne and State for the psychosocial balance and consequently the civilizations' sanity. Dane history, including its 'black holes', indicates periods of critical unbalances between the 3. If any comfort, though, - that seems to be rather normal for most cultures. Still, with this century's elevated insight and capabilities, - psychosocial diagnosing of the 'state of the nation' should be prioritized to figure out, in time, - what to do and not to do, in order to avoid serious future crises. In general, it starts with taking the biggest and hardest step - from Denials to Recognitions.

"Postmodern Jukebox is a rotating musical collective founded by arranger and pianist Scott Bradlee. PMJ is known for reworking popular modern music into different vintage genres, especially early 20th century forms such as swing and jazz. Postmodern Jukebox has amassed over 912 million YouTube views and 3.2 million subscribers." "Each week, Postmodern Jukebox puts out a new video on YouTube. Although originally most were filmed casually in Bradlee's living room, sets became more elaborate over time. Postmodern Jukebox has gone on to feature 70 different performers and tour five continents." (Wikipedia)

" 'Like a Prayer' is a pop rock song and incorporates gospel music. It features background vocals from a choir and also a rock guitar. The lyrics contain liturgical words, but they have dual meanings of sexual innuendo and religion. 'Like a Prayer' was acclaimed by critics, and was also a commercial success. It was Madonna's seventh number-one single on the United States' Billboard Hot 100, and topped the singles charts in several countries." (Wikipedia)

The association to the lyrics and the original video is that the self-proclaimed Madonna, who represents a kabbalah cult that rejects Jesus as king-of-kings, sings about a personal wet-dream of being taken from behind - cloaked as the pray of rivaling Belief.

Joanna Newsom - '81

2018.mars.02

Ukens utvalgte

The number 81 is a symbol for entering or leaving life on Earth. 81 canon-shots marked such a ritualistic transcendence last week for a royalty in Denmark. It is not 'just another number', since 81 equals 3^4 , - a 4th and intangible Dimension to a physical 'trinity' cube. Metaphysically, 81 has become a symbol for life before and after death. Thus, this mini blog-series sets the focus on questions like: 'What is the King of Denmark - really'? This first blog is therefore focused on the 4th Dimension and the Beliefs in royal relations to spiritual existences. The blog series will also refer to the previously blogs about related theories. Still, this first blog, challenging ideas of 81, is somewhat extraordinary.

Symbols and rituals are fundamental to Beliefs in metaphysical existence beyond mundane life. Scientific facts have been used as foundations for philosophies and Beliefs beyond ordinary and physical existence. The number 81 equals $3*3*3*3$, which is interpreted as a symbol for a 4th dimension to a 3D cube based on a 'trinity' – the holy number 3. However, 4D is not the factor 'time' as propagated since the WW1. Previously, the 4D, as well as 3D, 2D, 1D, 0D and 5D, is talked through in blogs like UU 2016.sept.16 and UU 2016.juli.01. Yet, ideas of true 4-dimensional space are hard to grasp, since it is invisible, controversial and hardly detectible. Therefore, watching the video 'Carl Sagan - The 4th dimension explained' will be helpful to understand the philosophies of a physical 4D. (See the link below.)

4D represents the metaphysical existences that might be - even though they cannot be proved or argued logical. Still, religion is said to be 'the first philosophy', which makes Belief rather about the unanswered questions. Religions are, as science, concerned about finding truths, but philosophies concern on issues yet undiscovered. The blog UU 2017.aug.04 summaries on some psychosocial themes about Belief. "The 3^3 psychosocial model is comprehensive. Here are some theoretical writings about the model. The quotes are mainly taken from UU 2017.april.14 and UU 2016.sept.16.

"'Belief' is one of 3 dimensions in the 3^3 psychosocial model. Thus, Belief is related to the Freudian Superior-Ego and the Jungian collective 'OverConscience' and 'synchronization'. True Belief do not include Games at all, simply because Games are based on untruth. However, most belief-systems are abused by Gamers and projects their dishonesty on them. The following is from the UU 2016.sept.16 that also describes the true Belief Game-categories WoW (Well of Wisdom), SET (Supreme Extra Terrestrial) and UNO (Universal Natural Order)."

"Belief in itself do not includes Games at all. However, there are Game categories of Belief are played by Will, like there are classic Game categories of sexual (ID), social, and underworld of 3rd degree. Still, the deceiving ulterior and secret moves and goals in Games do most certainly include claims of Belief properties like wisdom, divinity and heritage. Yet, always keep in mind that there are 'positive Games' as well as 'negative Games'. There are probably more Games related to Belief that suites the value-systems of GUR (Good/Use/Right) than BAW (Bad/Abuse/Wrong), - like the Christian and platonic virtues; belief, hope, love, wisdom, courage, moderation and justice. Why believe so? One way to see this is that most

expressions in poetry and songs are emotionally good rather than bad, - most expressions of folk tales have rather useful moral than abusive, - and most religious mythologies do rather express philosophical righteous ethics than wrongful ones. At least – expressions of negative BAW Beliefs are to indicate directions, boundaries and goals. See what happens if you do the negative. Finally, impressions of beliefs might be adapted as intuitions of Belief and function like instincts of Drive.”

“The social Game category ‘Games of Temples’ (GoT) relates to Belief that has its origin in Freud/Jung’s terms Superior-Ego, - as far as human logic applies. In fact, GoT is not about divinities, but logical beliefs in society’s superior powers. Even atheists play GoT of GUR value system (Good, Useful & Right).

OverConscience communications are essentials for such socializations. In the beginning, there might have been value-systems of Constructive and Destructive (Use and Abuse) and even Good and Bad. However, through the centuries, the original reasons and feelings are gone with the deceased Matriarchs and Patriarchs, yet continued as social intuitions recalled with monuments and Rituals. The value system might turn into undisputable absolutes, - of what is Right and Wrong. In most cases such become Rituals, - which has no ulterior motives, but rather processes of socialization and assimilation. However, failed Ritualization might cause Games of 2nd and 3rd degree. The long-forgotten reasons of social behaviors might escalate to Games with hidden agendas, like BGGG (Bad Guy – Good Guy), or other Games of the category Life Games, Marital Games and Party Games. It might be motivated by phobic fear of the unknown and cause alienation. Even though GoT is far from democratic, it might become very much so in the sense that the adapted citizens promote the aristocratic values in Rituals and Games.” (UU 2017.aug.04 and UU 2015.mars.06)

The 500 years symbiosis of Thrones and Temples was broken by an extraordinary event in 1908 of marvelous proportions. Eye-witnesses in Siberia described the event as if the sky cracked open, like a miraculous revelation. The Temples had no explanation to this unpredictable global blitz even though they claimed themselves to be in direct contact with God. Thus, the Belief in the established Temples faded and consequently there were disbelief in their crowning of royalties as devine representatives. Thus, the 2nd International of 1913 started with the execution of the Austrian emperor’s heirs and the termination of the Prussian empire. The Russian Royalties, and millions of royalists, were executed in the following ‘Fatherland War’. An extraordinary 3rd International was issued, even though the Austrian and Russian emperors abdicated with the outbreak of the plague called ‘The Spanish Flue’. Its Moscow thesis was a global and absolute subordination to a Throne-less and Temple-less State. The argument might have been that; if the Tunguska revelation was not Devine, like a ‘second coming’, - it might as well have been the counterparts’ deed.

Symbols of 4D, like devine revelations, are also abused to gain dominance. For example, the MC club Hell's Angels is associated to the number 81 since H is the 8th letter in the alphabet and A is the 1st. Still, they are definitely no fallen angels from Heaven. Neither are any ‘Bat Out of Hell’. Yet, the Tunguska event disturbed the well-established theologies. “In 1908, Hermann Minkowski presented a paper consolidating the role of time as the fourth dimension of spacetime, the basis for Einstein's theories of special and general relativity.” (UU 2016.sept.16) Furthermore: «The Tunguska event was an explosion over Siberia with powers of 1000 Hiroshima bombs and 1/3 of the Tsar Bomba. The flash was like seeing the Sun in the night sky over Asia and Europe (and even America) for several days. Such events are also considered crucial religious omens for great changes to come. At that time, most Thrones were related to Temples. The emperors probably searched for advices and answers to what that ‘omen’ could mean for their destiny, although the established theologies could not predict or explain that epic event. However, less reliable religious groups probably took the opportunity to alter the theocratic rivalries, found alternative explanations and made plans for all. Unfortunately, even occult apocalyptic insanity was allowed to replace sane reason and decisions.” (UU 2013.juni.21 and UU 2016.mai.27)

At that time, the Russian Throne was in conflicts in Asia, including Siberia, Mongolia, Korea, Japan, China and Indochina. Wikipedia writes, “The defeats of the Russian Army and Navy shook up Russian confidence. Throughout 1905, the Imperial Russian government was rocked by revolution. The population was against escalation of the war. Tsar Nicholas II elected to negotiate peace so he could concentrate on internal matters after the disaster of Bloody Sunday on 9 January 1905.” “Russia recognized Korea as part of the

Japanese sphere of influence and agreed to evacuate Manchuria. Japan would annex Korea in 1910.” Global powers disagreed with the Russian Throne’s influences in Asia and would certainly welcome any opportunity to alter that, not merely Asian Thrones, but also rivaling Temples to the Christian Russian Orthodoxy.

The Dane kingdom has a very complex history that highly involves the aftermaths to the Tunguska event in Russian Siberia. This will be talked through in the next blogs. However, in relation to religion, and without elaborate on Games of Thrones, States and Temples, - some circumstances should be mentioned. The first king that united Denmark, in 1146, was Vladimir of Minsk/Belarus. He was probably a Russian orthodox, not a Catholic. In the 13th century’s Isambour (the Dane princess Ingeborg Valdemardatter) was Queen for a single day in France and then held captive for 20 years whilst the French king tried to divorce her, - possibly due to disputes about Russian/Orthodox – French/Catholic. The Dane kings supported the anti-Catholic Reform wars and converted to Protestantism in order to expropriate their 1/3 of Dane soil in 1536. Princess Dagmar of Denmark, became a dominating ex-tsarina during the Tunguska event and WW1. She was highly influential via her son and the Throne’s court.

What is the King of Denmark, then? This question applies for any king or queen in any kingdom though. Still, on a metaphysical dimension, or religiously, the king is to be chosen by God to guide mankind. The transcendence between the 4th and 3rd dimension is birth and death. Therefore, the ritual proclamation, ‘the king is dead – long live the king’ does not relate to any mundane person, but a blessed spirit, geist, ghost that transcendence from king to king of the Thrones, - via priests of the Temples. For example, the catholic pope’s refusal to crown Napoleon as an emperor was a doom to fail stated by the Temple. Likewise, when the protestant Temple in Denmark refuse to crown the queen’s spouse as king, there seems to be a theocratic controversy or dysfunctionality, since no public reason is stated. Conclusively, the transcendence of the uncrowned king of Denmark exposes a most serious Constitutional dysfunctionality between the Dane Temple, Throne and State. Yet, the Constitutional Law clearly states that the King is a superior power to the Legislative and Executorial powers in Denmark. Therefore, it is not merely a question of ‘what is the king of Denmark’, but what substituted the King of Denmark in the previous century? Even more relevant are questions like: ‘Is the Dane ‘Folkekirken’ (Statskirken) really a true Church capable to exercise its Constitutional powers anymore? The following blogs will talk this through.

“Joanna Caroline Newsom (born January 18, 1982) is an American multi-instrumentalist, singer-songwriter, and actress. She was classically trained on the harp in her youth, and began her musical career as a keyboardist in the San Francisco-based indie band The Pleasid. Her debut album, The Milk-Eyed Mender, was released to critical acclaim, and garnered Newsom an underground following. She would receive wider exposure with the release of Ys, which charted at number 134 on the Billboard 200, and was nominated for a Shortlist Music Prize. She released two further albums. Newsom has been noted by critics for her unique musical style, sometimes characterized as psychedelic folk, and her prominent use of harp instrumentation. She has also appeared as an actress, with roles in the television series Portlandia, and Paul Thomas Anderson's Inherent Vice.” (Wikipedia)

The song '81 seems to relate her mundane life to her pre-life existence with her mother in that year.

Prince - Purple Rain

2018.feb.23

Ukens Utvalgte

A larger Game complex towards the Norwegian Constitution was exposed during the RAPO Game in Arbeiderpartiet. Thus, this last blog sets focus on how the Parliament, Stortinget, must react to end that 100 years' war towards the 'western' nations. For as concluded in the previous blogs, the party's indirect submission to the Moscow Thesis have caused infiltrations and manipulation of all the LEJD powers. That Pyramid Game can only be unharmed when the party minimize the destructive relations. Still, AP has proved, during the 100 years, that it cannot free itself from the corrupted bondage to the Moscow thesis' 21 Conditions. Therefore, the aims for this blog to find a final solution to this Norwegian Labor Party – which definitely is no (social) democratic party. A main solution is associated with a 'new' political color - Purple, i.e. harmonizing of parliament factions, like the so-called Red and Blue ones.

Psycho-social analysis on an organisation is as applicable as psycho analysis is on a person. Arbeiderpartiet (AP) was thoroughly analyzed in the previous blog UU 2018.feb.16. A summary indicates that Arbeiderpartiet has tendencies of organisational mass-psychosis, mass-neurosis, sociopathy and mass-psychopathy - as well as schizophrenia and paranoia. The main reason for the dysfunctionality is the obsessive bondage to an arch-typical Superior-Egos based the 3rd International's 21 Conditions – the 100 years old 'Moscow thesis'.

The alter-Egos of AP play hardcore Games that harms the AP Ego as well as the Nation – just like manifested by the Moscow thesis. Consequently, AP disqualifies for any LEJD power - as it did before, during and after the World War 2. Also note that the 3rd International was an interrupting fake manifest that was designed for a CdE towards the Russian Throne in order to return the power to the State/Moscow. Thus, the Moscow thesis is made for destructive purposes - not constructive. Some main agents' Drives of Throne, State & Temple were the femme fatale Dagmar, Lenin's blood-feud and the occult monk Rasputin. (UU 2014.mai.30) In contrast, the ethics of this blog is based on the anti-thesis P5GO (the 5th Pyramid Game Over). (UU 2016.juli.08 to UU 2016.sept.23.) Anyways, the present so-called 5th International is really the 4th, related to the 4th Industrial and Social revolution, since the fake International, the 3rd, was merely a war-Game tactic to execute the Russian Coup d' Etat during WW1.

The 3x3 political analysis model is previously presented for analyzing the Constitutional powers - like the present LEJ powers (Legal, Executive & Juridical) and for the powers as Throne, State & Temple. The model is explained and demonstrated in the blog UU 2017.sept.08, regarding the so-called 'NoExit' parliamentary election, - that turned out to be yet another failed Brexit manipulation. As demonstrated in that blog, there have been anti-parliamentary factions that dominate political parties in the Parliament during the 100 years. Even though massively denied, the anti-Constitution has been hidden in plain sight in the Parliament (Stortinget) since the declaration of the 21 Conditions to the 3rd International. This Moscow thesis is a dictation as an anti-thesis towards the national 'Rule by Law' – i.e. the Constitutional law and the Penalty law as well as the Constitutional powers, the Legal, the Executive, the Judicial and the Democratic powers.

Another most revealing anti-western event in the Norwegian Parliamentary was the EU referendum in 1994. There was a clear majority in the Parliament (Stortinget) to move along with most of the EFTA nations to the European Union. Therefore, the Norwegian Constitutional law did not require an additional people's referendum like the Danish Constitutional law requires. Despite that legal fact, a referendum was forced through, as if Norway still was submitted to Danish Constitutional law. Like dictated in the Moscow thesis, certain parties and the press abused fake-news, half-truths, mass-psychosis and mass-neurosis about the European Internal Market to scare the voters from their neighboring nations. However, there was silence and denials when asked what the alternatives could be, because mentioning Nova-Russia would certainly scare the voters even more. Even parties like Senterpartiet (SP/peasants) and Kristelig Folkeparti (KrF/Christians) were parroting the propaganda, - just like AP/LO (workers) and Socialistisk Venstreparti (SV/ former NKP). Still, the greatest Constitutional fraud is that all those Parliamentary parties had to know that the very same Parliamentary majority, including themselves, would join the very same European

Internal Market by signing the EEA Treaty between EFTA and EU. This anti-Western political fraud in the Parliament is immensely silenced – as dictated in the Moscow thesis first Condition.

SP, KrF and FrP, as well as SV, Rødt and MPDG, seem to be hosting POA (Parallel Organisational Apparatus) as dictated in the 3rd International Conditions. SP states they are the party for peasant, but promotes cooperated farming and trading industry, like COOP, similar to the CCCP concept. KrF is far more political and anti-European than most Christians are. KrF is probably hosting POA related Russian (orthodox) agents (monks), like the KGB agent Mitrokhin revealed: “The book (about the Mitrokhin Archive) describes establishing the "Moscow Patriarchate" on order from Stalin in 1943 as a front organization for the NKVD, and later, for the KGB and assumingly today's FSB.” (See links hereunder about the Mitrokhin Archive revelations of other POA and sabotages.) FrP is oligarchic and did not dare to express its anti-European duality until very recently. FrP officially supports EFTA, but not EU. The roots of SV are NKP, which is founded on the Moscow thesis. SV is definitely a POA and a main Drive for CdE Games in the Parliament (Stortinget). Rødt (Red) is simply AKP and NKP in the concept ‘same xxxx – new wrapping’. MPDG, like most green extremes, fights EU too, but wants to use EFTA as an apparatus to alter EU politics. (UU 2017.aug.25 and UU 2015.juni.12)

Still, LO is AP's symbiotic alter-Ego and is really a Trade Federation for oligarchs that bound workers, peasants and other thralls. LO's international trade concept is nova Russian. LO is basically anti-European, for geo-political market shares - like the imperial Moscow thesis dictates. LO is not that anti-EFTA, though, although factions within LO occasionally expresses anti-EFTA arguments to let out the internal pressure. The reason is talked through in the blog UU 2017.aug.18 that focused on abuse of EFTA for anti-western organized crimes. Consequently, the focus shifts to the ‘parallel executive power’ - LO. This is elaborated in UU 2016.juli.22. “However, LO is an Oligarchic Trade Mafia that is built for violations of national laws of trade. The 21 conditions of the 3rd International contradicts the post-war trade laws of the European Internal Market. The LO crimes were exposed in the NRK documentary ‘LO sitt store comeback’ and unclocked the massive corruption of the PROSA Union and Party (Norwegian LO and AP) during the parliamentary electoral campaigns. LO bought illegal trade favors, law-violating regulations, and minister posts in the government – all for millions in cash (UU 2013.aug.23). Moreover, Dane LO shows that they do not pay any tax, have just a few underpaid employees and profits greatly on their members (UU 2015.okt.23).”

The AP ‘Basketak’ scenarios, A and B, failed. LO initiated plan C with the RAPO Game to alter AP's Ego even more. “As mention in UU 2014.juni.13, the AP/LO dominated development in the public sectors for a century is obviously the main reason for the grave state of the nation. Just as oblivious, the AP/LO conspiracy is not fit to Execute the required changes that the 22/7 commission points out. As described in the theme ‘LifeQuality and Election Nor2013’ in UU 2013.sept.20: “The AP's alter-ego, LO, has started Plan C ‘Basketak’ (The Tussle). Stoltenberg (AP PM) was massively deleted from AP's election lists and is exposed for harsh interviews by the mass-media. LO do not have time for his Plan B ‘I still sitting here’. With a simple T.A. (psychosocial transaction analysis) and seen from the LO/AP regime's side, - the 5D model indicates 3 alternatives for future scenarios. A; AP do not lose the democratic election after all (in 2013). B; AP takes over the Government after its collapse. C; LO dominates the Government after a collapse in the Legislative power (the Parliament/Stortinget). (The political 5D scenario model is described in UU 2013.april.26)”

Now, with the RAPO Game, it is apparent that LO make moves to start the 3rd Basketak scenario by manipulating the AP in confusing crisis. LO gathers the political parties AP, KrF, SP, SV and Rødt, with the one main goal, - a CdE towards the European friendly bourgeois government. The methods are seen before and are described in all the 21 conditions of Lenin/Stalin's 3rd International. Also, such Pyramid Games are talked through for one and a half year in the blog theme ‘The 5th Pyramid’ from UU 2016.juli.08 to UU 2016.sept.23.

The present Arbeiderparti leader is not of traditional AP culture, but rather like a nova Russian oligarch with relations to the Middle East. The internal reformation of AP from worker's dictatorship to oligarch's dictatorship has failed and is about to ruin the party. Other alter-Egos are forcing Games on AP to

substitute the traditional heads, like the deputy leader was degraded and disgraced in the RAPO Game. The remaining leadership relates rather to oligarchy and Muslimism. However, by using T-A (Transaction Analysis), it seems that the leader express Moves of the Game 'Want Out', while the remaining deputy express 'Want In'. If so, the path is being paved for the Capital's leader, which has turned the domestic AP politics towards extreme Green and related political factions. Furthermore, the AP leader clearly express that the dismissed deputy leader is very much needed in the Parliament for the new phases of AP ambitions. Now, with the RAPO Kompromat in addition to decades of political scandals in hard-core Games, there should be expected 3rd degree Games of DAC towards the bourgeois Government.

How to heal Arbeiderpartiet – is the most urgent question for the dysfunctional organisation. Still, the diagnosis concluded with organisational schizophrenia, and related conditions, due to its symbiosis with LO and relations other organisations that are still bonded by the Moscow thesis. The organisation has proven incapable to evolve from the phase of Denials to Recognition in its 100 years history. Thus, AP has proven itself to exist merely as a puppet party and tool for violation of most paragraphs in the Penalty law – including high treason. After all, the organisation has proven itself as Legally Incompetent and cannot be trusted any powers in the LEJD powers anymore. Still, like mafia organisations are of great danger to other organisations, persons and itself, - the removal of their powers has to be done carefully to minimize the by reactive sociopathic injuries to society. In addition, the Jante cultures in the public sector, that stems from 100 years of Jante Games, will take some decades and generations to minimize. Such psychosocial dysfunctions are also a casualty of the previous century's wars. That indicates that the psycho-social diagnosis on Arbeiderpartiet applies to sub-cultures in most of the public sector too, which includes mass-psychosis, mass -neurosis, sociopathy and mass-psychopathy - as well as schizophrenia and paranoia.

In practice, there are some to do in order to restore LEJ power's 'rule by law' – instead of 'rule by Moscow thesis'. 1) AP cannot participate in any governmental anymore be under surveillance in the parliament (Stortinget). 2) All public servants and related needs to read the Penalty law and sing a declaration for 'rule by law' (and not rule by Moscow thesis). 3) This 4th industrial revolution includes technocratically efficiency of the public bureaucracy, some major reorganizations and massive probably unemployment of employees – like the previous industrial revolutions caused in farming and industry. Public servants that are disloyal, or will not declare loyalty to 'the rule of law', cannot be trusted renewed employments.

A solution is to establish a true Social Democratic (SD) party in Norway. The new SD party should focus on the realities of this century, - not the previous. True democratic people in AP should organize and work for a new Norwegian SD. The SD party's foundation must be as other 'western' democratic parties. First and foremost, its constitution has to refer to the principle of 'rule by law', which includes Constitutional law, and the Human Right law, the EEA law, the Penalty law etc.

When free from the Arbeiderparti's obsessions of favoring oligarchs and their submitted workers, at the cost of the other citizen (bourgeois), there is a brand-new list of political issues to address – concerning democratic citizens in the European nation Norway in this century. The 4th Industrial and Social Revolutions (IR4 & SR4) was a main issue in the blogs from UU 2017.mai.19 to UU 2017.juli.21.

Some of main issues for any 'western' political party to addressed in this eve of IR4 are; Basic income, tax on robot workers, and imported robot products; XaaS, where products and services are offered by highly effective apps; Free resources like internet, transport, education and participation; artificial intelligence, automation, internets and big data; Designed pharmacy, organs and health; Basic human rights for basic human needs like, food, housing, education etc.; Mass deployment of civil servants due to automation of bureaucracy; and much more. Additionally, all political parties in the parliaments should be very concerned and engaged in the new UN initiative for this century - called the 17 Sustainability Development Goals. The SDG17 do not merely concern individual humans' needs and right, not merely in the 'developing' nations - but the whole humanity. The nature, cities, fabrics, governments, enterprises are included too. Therefore, the SDG17 is also the very anti-thesis to the 5th Pyramid Game. The theme started in UU 2016.mai.13 and continues. (UU 2017.dec.15)

Finally, concerning the 'new' political color – Purple. The anti-constitutional Moscow thesis does concern all political parties in the Parliament (Stortinget). It has for too long been a battleground for Games of DAC (Divide and Conquer), while the obvious intention for any Parliament is not to be Destructive, but to be Constructive. All those 1-Dimensional dilutions of politics, red vs blue, right vs left, socialist vs bourgeois, are made to dysfunctionalized the Legal Power, as well as the Executive, Judicial and Democratic powers. The parliamentary condition is a major evidence of the 100 years of Moscow thesis in Stortinget. Now that it cannot be Denied, - true healing of the LEJD powers can overcome that obsessive sociopathy.

Prince Rogers Nelson was an American singer, songwriter, record producer, multi-instrumentalist, actor, and director. He was known for his electric work, flamboyant stage presence, extravagant dress and makeup, and wide vocal range. His innovative music integrated a wide variety of styles, including funk, rock, R&B, new wave, soul, psychedelia, and pop. He sold over 100 million records worldwide, making him one of the best-selling music artists of all time. He won eight Grammy Awards, six American Music Awards, a Golden Globe Award. He was inducted into the Rock and Roll Hall of Fame.

In 1993, while in a contractual dispute with Warner Bros., he changed his stage name to Prince logo.svg, an unpronounceable symbol also known as the "Love Symbol", and began releasing new albums at a faster pace to remove himself from contractual obligations. In 2000, he began referring to himself as "Prince" again. Prince died of a fentanyl overdose at his Paisley Park recording studio and home in Chanhassen, Minnesota, at the age of 57.

Purple Rain is a 1984 American rock musical drama film. The film stars Prince in his acting debut playing "The Kid," a quasi-biographical character. Purple Rain was developed to showcase Prince's talents and contains several concert sequences. The film grossed over \$80 million worldwide, thus making a large profit on its \$7.2 million budget. The film won an Academy Award for Best Original Song Score, the last to receive the award.

Prince - Purple Rain (original video) + Lyrics

https://youtu.be/TvnYmWpD_T8?t=1m

<https://www.azlyrics.com/lyrics/prince/purplerrain.html>

The association to the song 'Purple Rain' is the need for 'red' and 'blue' and other factions of parliaments to harmonize in construction. The Drive force for the destructive DAC Games in 'western' parliaments are based on the high Treasonous Moscow Thesis' 21 conditions – and should be treated as such – even in the Parliaments.

Extra UU - Prince And The Revolution: The Makings Of Rain

“On the 3rd of August 1983, Prince played a benefit concert for the Minnesota Dance Theatre Company at First Avenue, Minneapolis. The concert was instigated by Loyce Houlton, artistic director of the long-time modern dance troupe. She had met Prince during the band's dance classes and asked him to play a benefit show. Prince's concert raise \$23,000 for the financially beleaguered MDT dance company. The concert is generally regarded as one of the most excited shows he has ever played. The basic tracks of three songs from the concert were used on Purple Rain”.

“This was a benefit concert for the Minnesota Dance Theatre, Minneapolis and is one of the best Prince concerts. Just before Purple Rain launched him in to worldwide stardom, there is still a rawness to this performance which is what makes it special. The basic tracks of Computer Blue, I Would Die 4 U, Baby I'm A Star and Purple Rain from this concert were used for the album version.”

2018.feb.16

Ukens Utvalgte

The RAPO Game reveals that the alter-Egos of Arbeiderpartiet (AP) still exist in the depths of its murky ID. The alter-Egos play hardcore Games that harms the AP Ego as well as the Nation – just like manifested. Consequently, AP disqualifies for any LEJD power - as it did before, during and after the World War 2. This grave conclusion is made by psychosocial-analysis, based on classic psycho-analysis. In general, the diagnosis includes dysfunctionality, mass-psychosis, mass -neurosis, sociopathy and mass-psychopathy - as well as schizophrenia and paranoia. Basically, that is the obsessive bondage to the arch-typical Superior-Egos based the 3rd International's 21 Conditions – the 100 years old 'Moscow thesis'. The ethics of this blog, on the other hand, is based on the anti-thesis P5GO (the 5th Pyramid Game Over). (UU 2016.juli.08 to UU 2016.sept.23.)

The theories of Organizational Insanity are talked through in UU 2015.nov.06. The whole blog should be read to get an overall idea of the theories, - even though the main theme is the Dexit (the Dane anti-Europol referendum). The following clips relate to the very same kind of dysfunctionality as the AP RAPO Game.

- “It was necessary to upgrade and extend the classic Freudian models to organizational levels in order to enable psychosocial analysis. The result is a joint Freud/Jung/Berne model called 3x3. This was further developed to the 3[^]3 (i.e. 3x3x3) model. It is explained and used from UU 2015.juni.05 to UU 2015.juli.24 about the Danish parliamentary election.” “The terms are developed from-via-to: Id-Child-Drive, Ego-Adult-Will and Superior Ego-Parent-Belief. A second dimension of conscience is added in order to merge Jung with Freud’s 3-state; UnderConscience, Conscience and OverConscience. The third dimension contains of 3 subcategories of Drive, Will and Belief. These are interrelated via the conscience dimension. However, the subcategories are open for adaption and modifications to what is to be analyzed, for example persons, organizations, nations, empires or humanity. Furthermore, the subcategories are related to Game categories too, - which is not directly in the 3[^]3 model.”
- Concerning organizational health. “Is such organizational insane manipulation, like indoctrinating false memories, possible (in Dane psychiatry) too? Most certainly - yes. ‘Organized insanity’ in S-E/S-I relations for organizations and nations’ is talked through in UU 2014.jan.10 and UU 2013.april.12: “It can function like a dominating and psychotic Superior-Ego that can transfer its psychosis to the client’s S-E, make ID’s neurosis and even split its Ego. There are potentials for the whole spectrum of Berne’s described Games, - especially LYAHF, NIGYSOB, Debitor, SWYMMD, Courtroom, LHHIT, Schlemiel, WDYYB, Rapo, Uproar, HDYGOH, LPFOJ, IOTHY and certainly Psychiatry.” Furthermore “Terms like mass-psychosis, brainwash and indoctrination can surely be related to such unsound S-E/S-I relations. Identifications of such ulterior and abstract organizations might be easier with use of metaphoric terms like ‘The Psychopathy’ and ‘The Sociopathy’, to relate their activities of mass-psychopathy and mass-sociopathy to the psychosocial Games.” (UU 2013.april.19)”
- Concerning obsessive S-E/S-I domination. “A diagnosis includes investigation of backgrounds, traumatic events and relations. In previous UUs, the modern psychosocial history stretches over 500 years in the Nordic region, - including Russia. However, such a complex issue can only provide some new discoveries and point of views. A thesis is that the present (Dane) psychosocial condition was initiated about 1864 with the Throne CdE and following mass-massacre of the previous king’s men at the German border. It peaked half a century later in 1914 with a similar procedure to the imperial Throne and following CdE (Coup d’ Etat) and mass-massacre of the emperor’s men. About 2014, - it has reached another historical shift that should be 5D analyzed with alternative future scenarios (UU 2014.nov.28). Anyways, the hypothesis is that the matriarch obsessions in the psychocratic industry’s OverConscience seems to stem from the apocalypse in the Winter Palace, centered around its sole survivor, - princess Dagmar of Denmark, alias Tsarina Maria of Russia. This hypothesis is elaborated based on previous writings, especially UU 2014.dec.19, UU 2014.aug.01, UU 2014.juli.18, UU 2014.jan.10, UU 2013.april.19 and UU 2013.april.12.”
- Furthermore, from UU 2014.dec.19 “The S-E/S-I theories of organizations can even be lifted to Global levels during centuries. The most outstanding example is the CdE Game in the Winter Palace in 1914, - the Dagmar Syndrome. It started as a simple TLM/TOL Game (Two Little Maidens) between the rivalling tsarinas from Germany and Denmark. This is the ultimate example that cloaking of ulterior Games can lead to unlimited cascades of misdeeds and mischiefs, - like a snowball can cause an avalanche, - like a match can cause a forest fire and like the shot in Sarajevo. Here is a translated part of the talk-through in UU 2014.mai.30: “‘Dagmar’s last meeting with Rasputin’ is the association to this UU. The title of the song is ‘Messiah Ward’ (which hints to an asylum). In other words, this will be another point of view on 1914, EW1/WW1 and the rest of that century. With hindsight, it is easier to see the moves of the Games, the players and the motives, - and who really lost and won. The overall plot should be clear after 100 years; (a CdE Game) to convert Roma3 from Throne/Temple in St. Petersburg to State in Moscow.” There are far less costly ways to do so.”

The collective Jante obsession, (the Moscow thesis, - the 3rd International’s 21 Conditions), is a dominant Superior-Ego to Arbeiderpartiet – the manifest that manipulates the collective Superior-ID to do maniac Moves in the 3rd Pyramid Game. Some further clippings elaborate on that.

- “Surely international criminal organizations fight (Dane) ‘Rule of Law’ with hardcore Underworld Games. Ignoring such and believing the ulterior political deceptions, is a final stage of losing oneself as person, organization and nation. However, these UUs concluding views are both political and cultural. In order to suggest ‘Howto heal the (Dane) LEJD powers’(Legal, Executive, Juridical & Democratic)? The

3D LEJD model is extended to the 3x3D at nations' level. The model is a merged and innovative version of Freud and Jung theories, in addition to theories of LQ (LifeQuality), GUR (Good, Useful, Right - ethics) and 5D (scenarios)."

- "Concerning the 3x3 Superior-ID (S-I): Previously mentioned hypothesis of a Superior-ID, in addition to Freud's Superior-Ego, seems strongly founded by Jung's hypothesis about collective synchronizations and archetypes. Ideas of a Superior ID (S-I) was talked through in UU 2014.jan.10." "In that relation, it seems rather clear that the previous century has been particularly controlled by collective unconscious 'people's movements'. It seems that the unpublished books (at that time) about the phenomena, was studied thoroughly after all somewhere. The most obvious 'peoples' movements' seducing 'isms' were based on Marx socialist ideology (CD/OB) and Gurdjieff occult theology (OD/UB) (UU 2013.april.12). Jung and Berne's theories are thereby well related to the extension of ID to Drive with the levels UD and OD." (UU 2014.aug.22)
- The archetypal Superior-ID (S-I) are like the mass-perceptions of the patriarchs Marx, Lenin, Stalin and Mao. However, the heroic mass-perceptions are not real. "The Man of Steel / Stalin, alias Ioseb Besarionis je Žuġašvili, was originally a local mafia boss in Caucasus that advanced to the chief of operations to the Bolsheviks. They financed the organization with bank robberies, kidnapping, extortions and murders. He was imprisoned and sent to Siberia seven times but was always set free. He had no military background and did not serve in ww1. The need for better reputations was arranged by starting the newspaper Pravda (Truth). Next, he took the nickname Stalin (Man of Steel) to propagate himself and his organization. Lenin said that Stalin was the right person to operate Soviet and posted him as general secretary. Soon Lenin got stroke and had to resign. Stalin continued Lenin's merits with 10 times the execution of own citizens. Stalin simply made Moscow a mafia empire. Nevertheless, Stalin is now a 'patriarch of mass-psychopathy'." UU 2014.juni.06. These genocides of tens of millions of their own citizens were presumably simply to ensure loyalty to the new State regime instead of the previous Throne regime as part of the CdE Game. Brute logic might be that killing and brutalizing is most effective. However, terminating the previous elite is like lobotomizing oneself as a society. The retardation and traumas take centuries to psycho-socially heal, - if ever possible at all." UU 2014.okt.31.
- "The focus is therefore set on 3x3D imperial S-E/S-I obsessions and the psychosocial damaging dysfunctions to itself and its related. As mentioned in UU 2014.okt.31 about the first realization when the S-E/S-I relation was discovered. "The Oprichnina/Praetor is like a definition of psycho-social Games. The Actors and the Games are ulterior and concealed like the very nature of secret services. It is however, a problem if the democratic Quality of Life is not respected. It is serious if the organization consider itself as a Superior-Ego and individual as inferior. It is catastrophic, if it also inherited the properties of Ivan's murky mentality as a collective obsession." The theory of Superior-Id is talked through in UU 2014.jan.10 and the OD (OverConscience Drive) in UU 2014.aug.22."
- "The 100 years old Red Mafia was presented in a video-documentary in extra UU 2015.okt.23. The global Olicracy is founded on brutal mass-assimilations of Throne servants by the CdE State regime, the created the Thieves worlds in Gulag Camps that climaxed in the so-called Bitch Wars. The Gulag colonialization programs have deployed the anti-democratic cultures in order to deploy the Comintern conditions for CdE in European and American democracies throughout the 50 years of cold war. This hypothesis goes along with the hypothesis about PROSA, GRAF and GRU, as talked through in UU 2015.okt.09.

The above clips might appear too fragmented to grasp. However, there should be no doubt that the theory of psychosocial-analysis is as applicable to organisations as the psycho-analysis is to individual persons. All-in-all, the organisational cultures are based on matriarchs' and patriarchs' personalities. Furthermore, the theories of dysfunctionalities apply to any kind of organisations, - not merely core families.

A thoroughly psychosocial analysis of Arbeiderpartiet, is not possible in a few blogs. Still, the following offers some indications that support the psychosocial theories and the AP dysfunctionality.

- The Superior-Ego to Arbeiderpartiet is 'the Moscow-thesis', 'the International' – 'the 3rd Comintern'. "It was initiated by Lenin after ww1, executed by Stalin in WW2 and continued through the 50 years of coldwar towards European nations. The now published 21 Conditions proves the international crimes towards 'Western' (European and American) parliamentary nations. Some of the dictated conditions

are: "C1: In the columns of the press, at public meetings, in the trades unions, in the co-operatives – wherever the members of the Communist International can gain admittance – it is necessary to brand not only the bourgeoisie (civilians/borgere) but also its helpers, the reformists of every shade, systematically and pitilessly." "C3: In almost every country in Europe and America the class struggle is entering the phase of civil war. Under such conditions, the communists can place no trust in bourgeois legality. They have the obligation of setting up a parallel organizational apparatus, which, at the decisive moment, can assist the party to do its duty to the revolution (CdE Game). In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity." (UU 2015.okt.30.) AP is not able to free itself from that Superior-Ego, - even after the 100 years of the infiltration.

- The alter-Egos of Arbeiderpartiet are many, yet the mutual symbiosis with the international trade federation, LO, contains archetypes that violate most of the nation's constitutional foundation with the sole intention to cause CCD (Colony Collapse Disorder) and CdE (Coup d'Etat). "Most alarming, though, is the dictation to make high treasonous POA (parallel organizational apparatus) for civil warfare. The 3rd Condition says: "In almost every country in Europe and America the class struggle is entering the phase of civil war. Under such conditions, the communists can place no trust in bourgeois legality. They have the obligation of setting up a parallel organizational apparatus, which, at the decisive moment, can assist the party to do its duty to the revolution. In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity." (UU 2017.aug.18) LO plays hardcore illegal Underworld Games via AP and thereby acts as AP's 'murky twin'. However, LO is even more complex than AP. For example, this AP RAPO Game, covered as a legitimated (#)MeToo campaign, was initiated in the LO faction called FAFO, which hosts extreme sub-cultures, - not unlike the Dane DIIS. Furthermore, AUF, the joint AP/LO youth organisation, is the breeding hive for all AP leaders. The so-called AUF scandal of 1997, that exposed organised economic fraud through decades, did include most AP leaders. However, the court stopped the trial because of that. Most traumatic is the (arranged) suicide of AP's 'crown prince' that caused AP to turn against NATO and EEC (EU). (UU 2017.aug.25) Since the very foundation is the Moscow thesis, it certainly involves Moscow's secret services for diplomacy, police and military too.
- The Superior-ID of Arbeiderpartiet is the collective unification of peasants and workers a century ago. Arbeiderpartiet is made to maintain their bondage in this century. It is rather anti-democratic than democratic. The theories of S-I by Carl Jung was perverted by Gurdjieff and exploited by Lenin to make the 3rd International's 21 Conditions. It was deployed in most western nations, via parties like Arbeiderpartiet. The Superior-ID adopted symbols and slogans of violence like fists, hammers and the mob. The synchronizations of the deepest fears and anxieties are cynical and shortsighted manipulations of collective emotions and instincts. Although, silenced by the AP press, the party was actually extreme Leninists before WW2, extreme Nazis during the WW2 and extreme Stalinist after WW2. Now AP seems to search towards the green extreme, that might as well symbolize Belarusian autocracy and Islamism, as well as the nature. Besides, one single person, now renamed to Fjodolf, cannot be the sole executer of the AP government bombing (UU 2017.okt.06) and the AUF massacre (UU 2017.feb.24). Fjodolf was actually closely related to AP since both his parents were. Even the Jensen vs Cappelen case (para-police) seems to be related to the 2011 attacks (UU 2017.sept.29).

The organisational insanity of Arbeiderpartiet has developed through the 100 years to become the major damage for the party, its related and the whole Nation. The 2011 double-attack at AP, the Government bombing and the AUF massacre, was a schizophrenic suicide attempt by AP's complex of alter-Egos. The self-destructive executions caused an internal CdE in AP in 2013, - similar to the Kings Bay explosions in 1963 (UU 2017.april.21). This indicates that the same kind of insane Game as the Tsar Bomba diplomatic threats still hunts AP, its related and the Nation – as then - as today. That organisational S-I/S-E dominates most parts of the LEJD powers, - including the police, the military and the court, due to AP/LO public employments as dictated by the Moscow thesis. The S-I/S-E insanity continues due to mass-psychosis of denials. ("There are different kinds of denials too, like; denials of responsibility; denials of impact; denials of cycle; denials of awareness; and denial of denial." UU 2017.sept.22). Some public servants are also 'untouchable' agents, like agents of the so-called 'Red Mafia' (UU 2017.aug.25). One grave indicator is that

some public servants seem to be placed above Penalty law since they are never face the courts despite the massive organised scandals and related crimes within public sector. These violations include terror and high treasonous activities and passivities (UU 2017.sept.01). In brief, AP still acts as if the Moscow thesis overrules national law – as dictated before, during and after WW2.

Other methods for LEJD healing must be considered, since the past decade has proved that the corrupted civil servants of the LEJD powers still can overrule the lawful ones. Still, Arbeiderpartiet is also legally incompetent due to AP's organisational insanity. Wikipedia explains the term. "The word (legally) incompetent is used to describe persons who should not undergo certain judicial processes, and also for those who lack mental capacity to make contracts, handle their financial and other personal matters such as consenting to medical treatment, etc. and need a legal guardian to handle their affairs." This means that a psychotic is not subject to the civil Penalty law, but must be transferred to psychosocial health care. Yet, psychotic organisations require other means of treatments than individual persons. Still, as deemed legally incompetent, the means of powers can be done unavailable for organisations too, like it is done for potential terror organisations.

Ultimately, Arbeiderpartiet disqualifies as a Parliamentary party since its present characteristics and relations is as a POA (Parallel Organisational Apparatus) with high treasonous agenda that legitimates civil warfare in order to demote western nations to be Russian vassal states. Consequently, AP cannot ever be handed governmental power again by the Parliament, the Throne or the Court.

What to do then, when Arbeiderpartiet is legally incompetent and cannot be trusted the powers of LEJD? That will be talked through in the next and final UU blog in this mini-theme. However, in brief, the solution is to establish a true Social Democratic party, - that dedicates itself to true democracy, true human rights and to real rule of law. Yet, AP has proved itself to be incapable of true democracy. Therefor a new party has to be formed, while AP also fades like its extreme ancestors and their related POAs.

The band Cardigans introduced this mini blog theme in UU 2018.jan.19 like this: "The Cardigans are a Swedish rock band from 1992, with the line-up remaining unchanged to this day. Their debut album Emmerdale gave them a solid base in their home country and enjoyed some success abroad and their second album secured their international reputation. Their popularity rose with the songs 'Lovefool' 'Erase/Rewind' and 'My Favourite Game'. After a two-year break the band returned recording and releasing their fifth album. Their last album is a continuation of the country music infused by pop sensibility and further maturing in the band's sound. After a 2006 tour, the band embarked on a long five-year break from musical activities, before reuniting in 2012 to play several concerts. Overall the band sold over 15 million albums worldwide."

The association to the song is when realizing it would be preferable to 'Erase & Rewind' - when a Game has gone too wrong and the damages ricochets. Though, neither RAPO Games nor any Underworld Games can be restarted - like nothing really happened. Sometimes reality is simply 'Game Over' – period.

The Cardigans - Erase & Rewind (Lyrics)

Extra UU2 – Pink Floyd - The (AP RAPO) Trial + lyrics

<https://ap.mnocdn.no/drfront/images/fb11da465da11fa919706f3414b215b7.jpg>
<https://www.youtube.com/watch?v=VpmWfirPIpY>

The collectively accused deputy leader of Arbeiderpartiet got his chance to plea for forgiveness in the home community. That assembly looks very much like some home-town version of Pink Floyd 'The Trial' - with hammers, matriarchs, wives, pedagogues and arbitrators. The local AP/LO community is known for anti-EU agitation and public corruption.

Pink Floyd is previously presented in blogs like UU 2017.juli.28, UU 2016.aug.12, UU 2015.sept.04 and UU 2012.juli.20. "The song 'The Trial' centers on the main character, Pink, who having lived a life filled with emotional trauma and substance abuse has reached a critical psychological break. The very different arrangement of the song is because Bob Ezrin was strongly involved in the production, orchestral arrangement and music. It is the fulcrum on which Pink's mental state balances. In the song, Pink is charged with 'showing feelings of an almost human nature.' This means that Pink has committed a crime against himself by actually attempting to interact with his fellow human beings, defying the mission towards self-isolation that defined much of his life. Through the course of the song, he is confronted by the primary influences of his life, - and a new character – the Judge. In Pink Floyd -- The Wall and the concert animations, the Judge is a giant worm for most of the song until his verse, at which point he transforms into

a giant anthropomorphic body from the waist-down (bigger than the marching hammers in 'Waiting for the Worms'), his face constructed from various elements of the buttocks and genitals. A prosecutor conducts the early portions, which consist of the antagonists explaining their actions, intercut with Pink's refrains, 'Crazy/Toys in the attic, I am crazy,/Truly gone fishing' and 'Crazy/Over the rainbow, I am crazy,/Bars in the window.' The culmination of the trial is the judge's sentence for Pink 'to be exposed before your peers' whereupon he orders Pink to 'Tear down the wall!' "

Eurythmics - Sex Crime

2018.feb.09

Ukens Utvalgte

The grassroots of the present RAPO Game in AP stem from a 100 years old bondage culture for workers and peasants. The democratic (#)MeToo campaign was abused for leadership cleansing in a 'light arbiter coup', executed with sexual Games like RAPO and LYAHF. In doing so, the Gamers have stirred up some 100 years of accumulated cold cases of Underworld Games by the schizophrenic AP/LO symbiosis. One of these Pandora ghosts are globally recognized as '1984'. Originally, the novel by George Orwell was titled 'The last European', which is parallel to the Jante/Kafka process towards true social-democrats too. Still, in Europe, the dystopian 1984 scenario was not realized as a coldwar dystopia, assumingly since the Game was exposed in novels, movies and music. Yet, the very anti-thesis to this ongoing AP RAPO Game is to expose such 1984 Gamers, the motives and the means. This blog is therefore a likewise attempt to hinder AP's dysfunctionality to become such a dystopian autocracy. This also relates to the blog theme called P5GO (the 5th Pyramid Game Over).

The dystopic global order of '1984' is described in Wikipedia: "The Theory and Practice of Oligarchical Collectivism by Emmanuel Goldstein, reveal that after the Second World War, the United Kingdom fell to civil war and then was absorbed into Oceania. Simultaneously, the USSR conquered mainland Europe and established the second superstate of Eurasia. The third superstate, Eastasia, comprises the regions of Eastern/Southeastern Asia. The three superstates wage continuous war for the remaining unconquered lands of the world, forming and breaking alliances as is convenient. Winston remembers the Atomic Wars fought in Europe, western Russia and North America. It is unclear to him what occurred first: The Party's victory in the civil war, the US annexation of the British Empire or the war in which Colchester was bombed." (The 1984 was also a mini-theme in the UU 2010.okt.29 to UU 2010.nov.12.)

Apropos, this week's selected song, 'Sex Crime', refers to the most terrifying ministry of all - 'The Minister of Love'. It was presented in the blog UU 2016.sept.23 'David Bowie - We Are the Dead'. It is actually a RAPO Game, when 'the last European' gets the fatal 'I Love You' -note from an agent, - and much to late realize that their 'sex crime' will finally be abused for his fall. Intriguingly, the first computer pandemic was by a virus named 'iloveyou'. The theme of 1984 is mentioned several times in blogs - and this song was previous presented in UU 2010.okt.29. Furthermore, the novels '1984' and 'Animal Farm' are the inspiration to the Drive Game category AF (Animal Farm). It is described in UU 2015.feb.27. They are also the inspiration to the dystopian term 'Trelletopia', where the 'people' in bondage Believe their dystopia is a utopia. (UU 2014.aug.01, UU 2014.nov.14 and UU 2015.juli.03)"

"Still, the major blog-theme is P5GO (the 5th Pyramid Game Over) is briefly summarized in UU 2017.sept.01 and described in UU 2016.mai.13. "The Pyramid Games are based on the illegal 'Pyramid scheme', 'Eight-ball' and 'Gifting circles'. 8 people are lured by one to 'invest' in illusions of repayments in a distant future, - not realizing that the Game is built to collapse and rather cause their ruin. The ethics to such Game masters are 'honesty is for suckers'. The 5 Pyramid Games in this UU theme are related to the 5 Internationals. Those 'suckers' are lured to contribute to domestic CCD (Colony Collapse Disorder) that weakens their prey nation enough to enable the main gains of CdE (Coup d' Etat). Related sub-Games played by potential PROSA agents (Pro-Russian Oligarchs, Separatists and Anarchists) are of all categories, - especially Underworld Games and Sexual Games like; NIGYSOB (Now I've Got You, You Son of a Bitch) and Schlemiel, SWYMD (See What You Made Me Do), ITHY (I'm Only Trying to Help You), LPAFJ (Let's Pull A Fast one on Joey), LYAHF (Let's You and Him Fight), DAC&UAC (Devide&Conquer & Unite&Conquer), ISR (It Started with

the Retribution), ABD (Attack is the Best Defense), Jante/TUD (The Ugly Duckling), TLM (Two Little Maids), BGGG (Bad Guy, Good Guy), RPPP (Robbing Pete to Pay Paul), ODAB (One's Death – Another's Bread) and the Russian BOOFY (Beat your Own and Others will Fear You). (UU 2014.sept.12.)” (UU 2016.juli.15) Still crucial to keep in mind, - dysfunctional organisations are not about persons, but organisations. Blame Games at scapegoats are symptoms of organisational dysfunctionality. Therefore, the focus is not set on the convicted persons but their organisations.” (UU 2017.sept.29)

Furthermore, the related theories of the 3³ Game Categories are summarized in UU 2016.sept.23 and talked through in detailed, related to the psychosocial dimensions; Drive (UU 2015.feb.27), Will (UU 2015.mars.06) and Belief (UU 2015.mars.13). Most relevant to 1984 is AF: “The social Game category AnimalFarm (AF) was first mentioned in UU 2014.dec.19 in a critique about public schools (the Gulag for Kids). “10 years in a class-room cell with a dominant matriarch, or patriarch, takes Games to an organizational level of S-I/S-E (Superior-ID/Superior-Ego), - in collective versions of the Games of TLM (Two Little Maidens) and national variations like ‘Jante’, TUD (The Ugly Duckling) and other ‘Animal Farm’ related Games of S-I.” However, the term stems from dystopian novella ‘Animal Farm’ by George Orwell. He was a social democrat the warned about the expanding Stalinism by writing in fable form. In social 3x3 sense, there are some structures and dominations by biological conscience within species’ tribes. There are hierarchal organizations where older mammals dominant younger and where a single male might rule. Contrariwise, insects might have hives where queens dominate workers, drones, warriors and nurses. There are even highly inter-species relations that indicate dependencies and bondage. Besides, flocks of birds and fishes have synchronized collectives where single individuals rarely dominate. Nevertheless, birds and mammals might have fierce rivalries between male during mating. 1st degrees of ‘Sexual’ Games like LYAHF stems from such animal rivalries. Actually, most Games are of 1st degree are Drive related. Humanoid primates can even play 1st degree of sophisticated Party Games and Underworld Games. In addition, as indicated, classrooms might have pecking orders like hen houses. Nevertheless, natures’ non-verbal communication is rather advanced with odors, colors, behaviors, rituals etc.”

The very S-E Belief for the schizophrenic AP/LO symbiosis are: “Moskvatesene (the Moscow thesis), the Norwegian term for the 21 Conditions of the 3rd International (i.e. Leninism, Stalinism and Maoism). These are talked through several times and are the basis for the UU Theme ‘The 5th Pyramid Game Over’. The anti-thesis P5GO (the 5th Pyramid Game Over) is discussed in blogs like UU 2014.sept.12, UU 2016.juli.01 and UU 2017.aug.11. The following is basically translated from Norwegian in Wikipedia.

- “These 21 conditions caused power-struggles in several parties that were submitted the USSR Comintern, including the ‘The Norwegian Workers Party (Det norske Arbeiderparti - DnA). The democratic faction broke out and formed Norwegian Socialdemocratic Workers Party (Norges Sosialdemokratiske Arbeiderparti - NSA). The left faction of DNA got the majority to submit to the Moscow thesis in the National Delegate’s Meeting (Landsmøtet) in 1921. However, the power-struggles about the Moscow thesis continued in the workers’ party. For example, one consequent was that the collective membership in the labor unions could not continue, when they split. The party rejected that condition and considered itself as excluded from the USSR Comintern. (However, that is not confirmed by any other part.) A minority faction then established the Norwegian Communist Party (NKP). The youth organisation called itself Left-communistic youth (Venstre kommunistisk Ungdomsfylking, the predecessor to AUF) to point out that they were at least as submitted as the mother-party NKP.” “Arbeiderpartiet modified its agitation in 1927 - and had to reduce it some more, when they formed Government in 1928. However, the government fell after only 18 days because of its dedication to revolutionary socialism, - as dictated in the Moscow thesis. Anyways, Arbeiderpartiet proved that they were able to get governmental power due to their dedications, - which few previously believed.” (Wikipedia)
- The parties agreed to submission Moscow’s dictatorship, which included: “Actively propagate the communistic ideas. Remove reformists and centrist from leadership in the workers movement (arbeiderbevegelsen). Combine legal and illegal means of combat. Strengthen the activities to the party representatives in the parliaments. Refuse pacifism and accept armed combat as a mean. Support national liberations in colonies. Ensure that the labor unions were related to the red doctorial unions and not the yellow Amsterdam social democratic unions. Introduce democratic

centralism in the parties. Support all existing soviet republics. Revise their party programs to the politics of the international. Accept all decisions from the International as binding for own party. Exclude all members that voted against any of the 21 conditions, and parties that votes against. Use the name communistic party. (However, alternative names can are later permitted).” These Moscow thesis – 21 conditions, are discussed in blogs like UU 2017.aug.25, UU 2017.mai.12 and UU 2014.juni.13.

- Most alarming, though, is the dictation to make high treasonous POA for civil warfare. The 3rd Condition says: “In almost every country in Europe and America the class struggle is entering the phase of civil war. Under such conditions, the communists can place no trust in bourgeois legality. They have the obligation of setting up a parallel organizational apparatus, which, at the decisive moment, can assist the party to do its duty to the revolution. In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity.” (UU 2017.aug.18)

Such sociopathic ‘parallel organizational apparatus’ (POA) were particularly in WW2 when LO converted to Nazism for 3 years. Similar tendencies are also obvious in the Kings Bay Crisis (UU 2017.april.21), the Utøya Massacre (UU 2017.feb.24), the Governmental bombing (UU 2017.okt.06) and the Jensen vs Cappelen case (UU 2017.sept.29).

What should AP do, then, - now that the RAPO Game for leadership cleansing is exposed. Obviously, AP should not let itself be abused as in 1928 to be a collective of ‘suckers’ for high treasonous Games of CdE. AP needs to cut its bondage to LO and related cultures of the 3rd Pyramid Game in particular. Its grave psychosocial condition will be focused in the next UU blog.

“Eurythmics were a British music duo consisting of members Annie Lennox and David A. Stewart. The duo achieved global success with their second album Sweet Dreams (Are Made of This) in 1983. The title track was a worldwide hit. The duo went on to release a string of hit singles and albums before they split up in 1990. By this time Stewart was a sought-after record producer, while Lennox began a solo recording career in 1992 with her debut album Diva. After almost a decade apart, Eurythmics reunited to record their ninth album. They reunited again in 2005 to release the single ‘I’ve Got a Life’.”

In 1984 RCA released in 1984 was Eurythmics' soundtrack album 1984 (For the Love of Big Brother). Virgin Films had contracted the band to provide a soundtrack for Michael Radford's modern film adaptation of George Orwell's Nineteen Eighty-Four., the record was presented as ‘music derived from the original score of Eurythmics for the Michael Radford film version of Orwell's 1984’. Eurythmics charged that they had been misled by the film's producers as well, and the album was withdrawn from the market for a period while matters were litigated. The album's first single, ‘Sexcrime (Nineteen Eighty-Four)’, was a top 5 hit in the UK, Australia and across Europe, and a major dance success in the United States.

The duo won an MTV Video Music Award for Best New Artist in 1984, the Grammy Award for Best Rock Performance by a Duo or Group with Vocal in 1987, the Brit Award for Outstanding Contribution to Music in 1999, and in 2005 were inducted into the UK Music Hall of Fame. Eurythmics have sold an estimated 75 million records worldwide. In 2017, the group was nominated for induction into the Rock & Roll Hall of Fame.

The association here is not merely the RAPO Games of the female agent in 1984, but also the cold cases of AP RAPO Games to remove political rivals from the party – like dictated in the Moscow thesis.

Ukens Utvalgte

The RAPO Game in Arbeiderpartiet (AP) has elevated to internal cleansing in the central leadership. Therefore, this 3rd blog is not the final in this series, but will be followed up with more scrutinizing of the Games. This blog set focus on the term 'organisational dysfunctionality' in order to diagnose the internal crisis and suggest some solutions. Still, in general, any Game is based on secret motives and denials of realities. Therefore, any solution for the workers' party is to end this phase of mass-psychotic denials and move on by re-realizing its true nature and needs. In brief, this RAPO Game is merely another periodic round of the 100 years old power-struggles to do a coup (CdE) for the workers' oligarchs. Since it is in any Games' nature to hide the real Motives and Moves, the (#)Metoo campaign was merely a convenient mean to ignite another internal coup in AP. (UU 2018.jan.19)

The party's existentially dilemma is that it cannot and will not heal itself properly from its own mass-psychoses. AP has a 100 year of history that proves the collective mental obsession. The traditional method, when a syndrome of crisis climaxes, is to do a Jante Game and sacrifice one individual by excessive Kompromat to let all the other members go free from suspicions. The mass-psychosis were initiated and maintained by collective control of the press, as described in the 21 conditions to the 3rd International. However, those coldwar autocratic powers are now democratized - and those 100 years of mass-psychosis collides with the public perceptions of this century. The accumulated traumas are too massive to suppress and is about to climax in yet another CCD (Colony Collapse Disorder). This is a classic symptom for

dysfunctional organisations, which is about to be analyzed in this blog series about Arbeiderpartiet (AP). First, some theory, then some observations and finally some conclusions.

The theory of 'dysfunctionality' was talked through in UU 2017.sept.22. In order to escalate the term 'dysfunctional', from family organizations to larger organizations, - the term 'child' or 'family member' are replaced with (organisational) 'member', and the terms 'adults' and 'parents' are replaced with 'leader'. Thereby, the following descriptions apply for dysfunctional organisation of any size.

- "A dysfunctional organisation is an organisation in which conflict, misbehavior, and often member-neglect or -abuse on the part of individual leaders occur continually and regularly, leading other members to accommodate such actions. Members sometimes grow up in such organisations with the understanding that such an arrangement is normal. Dysfunctional organisations are primarily a result of co-dependent leaders, and may also be affected by addictions, such as substance abuse (e.g., alcohol or drugs), or sometimes an untreated mass-psychosis and mass-neurosis (mental illness). Dysfunctional leaders may emulate or over-correct from their own dysfunctional leader. In some cases, 'immature' leaders will allow the dominant leadership to abuse their members."
- "Some features are common to most dysfunctional organisations: 1) Lack of empathy, understanding, and sensitivity towards certain members, while expressing extreme empathy or appeasement towards one or more members who have real or perceived 'special needs'. 2) Denial (refusal to acknowledge abusive behavior, possibly believing that the situation is normal or even beneficial; also, known as the "elephant in the room."). 3) Inadequate or missing boundaries for its Self (Ego-state) (e.g. tolerating inappropriate treatment from others, failing to express what is acceptable and unacceptable treatment, tolerance of physical, emotional or sexual abuse.) 4) Disrespect of others' boundaries (e.g. physical contact that other member dislikes; breaking important promises without just cause; purposefully violating a boundary another authority has expressed). 5) Extremes in conflict (either too much fighting or insufficient peaceful arguing between members). 6) Unequal or unfair treatment of one or more member due to their birth order, gender, age, organisational role, abilities, race, caste, etc. (may include frequent appeasement of member at the expense of others, or an uneven/inconsistent enforcement of rules)."
- "Though not universal, the following features are typical of dysfunctional organisations; Abnormally high levels of jealousy or other controlling behaviors: 1) Conflict influenced by organizational status: Between separated leaders, usually related to, or arising from the breakup. 2) Conflict between leaders who remain dependent, often for the perceived 'sake' of the members, but whose division would in fact remove a detrimental influence on those members. 3) Leader who wish to leave, but cannot due to financial, societal (including religious), or legal reasons. 4) Members afraid to talk (within or outside the organisation) about what is happening at offices, or are otherwise fearful of their organisation. 5) Abnormal sexual behavior such as adultery, promiscuity, or incest. 6) Lack of time spent together, especially in recreational activities and social events ("We never do anything as an organisation"). 7) Organisational members who disown each other, or refuse to be seen together in public."
- "The list of unhealthy leadership signs which could lead to a organisations becoming dysfunctional is: Unrealistic expectations, ridicule, Conditional love, Disrespect, Emotional intolerance, isolation, stifled speech, denial of an 'inner life', being under- or over-protective, apathy, belittling, shame, bitterness, hypocrisy, unforgiving, demonization, unbalance criticism, double standards, the absentee authority, unfulfilled projects, unrightfully redistribution, gender prejudice, sexual imbalance, emocratic policies, scapegoating, 'tunnel visioning', unbalance delegations, hinder mature participations, an 'know-it-all' attitude, forced participation against abilities, scrooge authority, heredity blaming, etc." (ref. Wikipedia)
- The loss of collective mass-psychosis can be shocking. When in shock, there are several stages to go through in order to heal. "Based on theories found in Wikipedia, the merged stages are here defined as: denial; acceptance and hope; grief and anger; diagnosis and conclusion; bargaining and settlements; treatment, healing and post-traumatic care. There are different kinds of denials too, like; denials of responsibility; denials of impact; denials of cycle; denials of awareness; and denial of denial." (UU 2017.sept.22)

The AP party shows all the listed symptoms and uses all the 5 kinds of denials. The systems of denying have

become necessary for survival with 100 years of self-righteous ethics towards own misdeeds. That is like mafia ethics, where any involvement in own criminal misdeeds are denied to protect the organisation of 'untouchables'. The foundation to such cultures are certainly the bondage to the 3rd International's 21 condition, - that was implemented and supervised by the former godfather Stalin. (UU 2017.sept.01)

The press writes that there are 6 reasons for the present crisis in Arbeiderpartiet:

1. The failed parliamentary election in 2017 when AP failed to regain Governmental power.
 2. The distorted evaluation of the real reasons why the election failed.
 3. Rivalries between the party Headquarters and Parliamentary group when HQ replaced some PMs.
 4. The (#)Metoo campaign that uncovered sexual cold cases in the party and its youth organisation (AUF).
 5. The power of the dismissed deputy leader's faction where AP, LO, AUF unites for traditional goals.
 6. The loss of popularity that reduced AP to the second largest party and their loss of political dominance.
- Still, the press has proven itself as a subjective part in this RAPO Game. Also, these 6 reasons are merely symptoms of a trend, when the denials of the dysfunctionalities became open for all to see.

Besides, there are other aspects to this RAPO Game that should not be covered up and denied.

- The Game overshadowed the real extraordinary regime shift in AP - after the governmental building was blown up and the massacre of the youth organisation (AUF) in 2011.July.22.
- The reported 'unwanted sexual behavior' were old cold-cases that were re-activated, coordinated and exposed as means in the power-struggle in the central leadership.
- The sexual abusive culture in the party is as old as the bondage cultures of peasants and worker – 100 years before. Collectively, they all know, they all cover it up and they all will rather play RAPO Games than do morally, ethical and legally right.
- The culture's main icon is an angry fist, which symbolized aggressive use of physical violence to get power. However, that includes the psychosocial violence as in the JANTE Games. According to books like 'Basketak' and 'Maktkamp', there is 'no mercy' for the sacrificed 'loser', - which the responses to the fallen deputy's sick leave clearly shows.
- All the prior general secretaries in AP categorically deny that there have been any reports of sexual abuses in the party in their time at office, - despite the high number of serious accusations. This indicates that the culture of denials dominates, - also for any kinds of criminal activities – not merely sex crimes.

The RAPO Game is not about (#)MeToo support to any victim, but about 3rd degree organizational rivalries. There are many cover-ups in these revenges of factions. Here are some reflections.

- The present party leader is a shipping oligarch without relation to the workers' collective culture. It is unclear why the culture accepted such an outsider to shortcut the traditional internal recruitment in order to replace the former PM Stoltenberg.
- The remaining central leadership had no legal or legitimate ground to remove all the roles from the deputy. He was forced to resign, probably by far more serious accusations than the RAPO charges implies. The whole regional faction, as well as the extraordinary GA, seems to be overruled and silenced.
- The winning deputy publicly announced that the sexual accusations deeply moved her as a lawyer, which implied that there were criminal acts involved. Yet, the police are not engaged despite the stated suspicions. If there is knowledge of criminal acts, there are criminal passivities not to report to the police. If there are no criminal acts, the public announcement was certainly a planned Move in the RAPO Game, in order to illegitimately Gain power on others behalf.
- The cleansing in the leadership leaves a duo of a male oligarch and a young Muslim woman in power after the 2 rivaling men were forced to resign. This new regime deviates so much with the workers' culture and tradition that it cannot last. However, it is unclear what this temporary regime is intended to pave the way for.

There is no final conclusion or anti-thesis to this RAPO Game, - yet. However, Arbeiderpartiet, its members and the rest of the LEJD (Legal, Executive, Juridical and Democratic powers) should take diagnoses of AP's dysfunctionalities very seriously, - even if this analysis might be rejected. In any case, the first step is to stop

the immature denials and start realizing the true condition. Any denial of that will prove of the actual dysfunctional denial. If so, there might not be any remedy at all, since that phase of denial has lasted a hundred years – from the party's very beginning. The recent crises show how experienced the organisation is in covering their murky realities by denials of denials and by picking one single scapegoat to cover for all the others involved. (Nevertheless, no wonder that such an individual self-sacrifice became the collective contra-response to the collective punishment.)

The remaining leadership is definitely not willing to move Arbeiderpartiet from denial to realization. That would require that they admit their RAPO and LYAHF Games for personal power ambitions. Therefore, the higher authority, the Annual General Assembly need to react accordingly to preserve its true self – its real Ego over some alter Ego.

The band Saga was previously presented in UU 2013.juni.14 and is presented closer in this weeks Extra UU. In brief, Saga are a Canadian rock band that have been awarded gold and platinum albums worldwide and have sold more than 8 million albums. A 5th album was released in late 1983 and became another success. The single entitled 'Scratching the Surface' from the album [Heads or Tales](#) became particularly popular in Canada, peaking at No. 45.

The association to this blog is that the RAPO Game merely scratched the surface of the ice berg of the culture of the workers' party. The iceberg seems to face the same faith as the rest of the polar icebergs though.

Extra UU – Saga - Full Concert - Live in Bonn 2002

“Over the course of a career that's spanned five decades, Saga have established themselves as one of Canada's most successful progressive rock bands, and have found a loyal, international audience for their ambitious music.” “Jim Crichton and Welsh-born vocalist Michael Sadler have been the principal songwriters for Saga. Ian Crichton is the band's guitarist; apart from his work with Saga, he has recorded several solo albums as well as sessions with Asia. Saga has had numerous line-up changes throughout their career. Currently, Crichton, as well as his brother Jim, the band's bassist, are the only two original members who have appeared on every album. Lead singer Michael Sadler has appeared on every release by the band apart from their 2008 album The Human Condition, in which he was replaced by Rob Moratti. Though not present on the group's first two albums, current keyboardist Jim Gilmour has been with the band since 1979, making his debut on the album Silent Knight. He departed from the band in 1986, returned later in 1992, and has remained in the group since then. Saga have been awarded gold and platinum albums worldwide and have sold more than 8 million albums.” (Allmusic and Wikipedia)

Yello - Vicious Games

2018.jan.26

Ukens Utvalgte

This second blog about the dysfunctionalized AP (Arbeiderpartiet), sets focus on the roots of the Games that are played with its alter-ego, LO (the Trade Federation). Their schizophrenic symbiosis was constructed a century ago in order to trigger a CdE (Coup d' Etat) and handing over the powers to Moscow. Now, AP cannot end their failed Underworld Games with re-occurring Rituals of self-destructive dysfunctionality. The current complex of internal rivalries is as implied in the latest book about the Games, 'Basketak' (the Tussle). This time, they were staged as a RAPO Game, a perverted version of the global (#)MeToo campaign. However, such sexual Games are based on their joint 'grassroot' culture of both AP and LO. Their cultural basis stems from the upgrade from bonded peasants to bonded workers as dictated in the 21 Conditions of the 3rd International. Therefore the focus should not be on the distracting RAPO Game, but the workers' bondage in general in a larger feudal Game for territorial dominance.

The abusive (#)HeToo campaign, disguised as a (#)MeToo campaign, was uncovered as a combined RAPO and LYAHF Sexual Game in the previous UU 2018.jan.19. The Motive and Gain of the Game is to remove one of two deputy leaders - Illegitimately. He is the head of the largest and most traditional faction in AP and thereby the main rival to the dominating Capital's faction. The Game was initiated, escalated and projected by mass-production of mass-psychosis from a Game playing faction of the Press. However, neither the leader nor the second deputy leader are in power to un-elect the organization's legitimate election. The chosen method was as a mass-psychotic and mass-neurotic Blame-Game without factual discussions, process or legality. This anti-constitutional process is forced on this largest parliamentary party, which has the ambition to replace the current Government. However, this (#)HeToo Game is not played by AP itself, – but AP are played - like workers sometimes are. Clearly, AP itself is overruled and remote controlled in this process, by some un-democratic autocracy. This can be done since the political party AP is not truly 'social democratic' by origin, - like other 'Western' parties. AP is a workers' party promoting workers' collective bondage. LO, the alter ego, is a Republican Trade Federation that do not concern about people, but trade.

The inherited thralldom (trellidom) of workers in AP and LO stems from the Russian feudal empire that dominated Norway via Denmark 400-200 year ago. The Dane peasants were called 'fæstebonde / fæster' and were bound to slavish contracts. They had practically the same status as the slaves of African and the Caribbean. Factually, there were 4 classes in Denmark at that time; the priests, the nobility, the bourgeois (borger) and the peasants. Peasant included slaves, serfs (treller), and workers. Friller, i.e. female treller, were properties and means, like slaves, and had no rights against sexual abuse either. The caste was freed in 1919 by law after European political pressures. However, that was merely on paper, since the illegal trellidom continued in 300 such farms (fæstegårder). Surely, the current RAPO Games in AP and LO indicates that these sexual abusive cultures have not improved much the last 100 years, - during the period of the 3rd International – the 3rd Pyramid Game of mass-psychosis. (UU 2016.juni.24)

In a capital-less society, the penny-less peasant, thrall or worker of any sort, are forced to provide any service as demanded, immoral, unethical or illegal, in order to provide their own and their related basic needs. Like the female workers in need are bound to provide such sexual services on demanded with discretion – not with global (#)MeToo apps. The previous Valla Game in LO did reveal some surfaces of the massive sexual thrall in LO. (UU 2012.juni.29)

The bonded peasants and workers are trapped in a collective self-serfdom by the infamous 'Jante Law'. The collective obsession is a well-known Nordic Gimmick that degrades all the individuals by ten unwritten rules like 'you shall not believe you are (worth) something'. An additional eleventh rule is judicial and goes like 'you should not believe that we don't have something on you'. Such paranoid bondage is a Gimmick for Underworld Games – and clearly in the AP RAPO Game as well as the any other Kompromat (2017.sept.01). Such collectively autocratic self-serfdom is the very foundation for the AP and LO cultures even today. It has spread with the remote-controlled AP/LO regimes throughout the public sector. Now, those generations are obviously not able to free themselves due to the inherited denials of their psychosocial Games. (UU 2011.aug.05)

Arbeiderpartiet (Workers' Party / Labor) and LO (the Trade Federation) were made to gain control of the converted peasants due to the 1st industrial revolution by the 1st International. This 1st Pyramid Game lead to the 2nd International that triggered the 1st World War. The extra-ordinary 3rd International dictates the second phase of that WW of total submission of all 'Western' peoples to the Russian Empire. The 21 conditions factually dictate executions by illegal means for high treasonous actions to terminate own constitution and hand its autocratic quasi-democracy. It might be hard to realize that 5th degree wargames towards the humanity were unconditionally and openly supported by so-called Leninists, Stalinists, Maoists etc. (UU 2014.juni.13)

However, this complex of Underworld Games will not succeed when the 21 conditions are revealed and properly responded to by the Constitutional powers. These crimes of the past century are often focused in these UU blogs. The most recent theme is called 'The 5th Pyramid'. it started in UU 2016.mai.13 and ended with a roundup in UU 2017.dec.01.

The predicted Basketak complex was talked through in UU 2013.aug.30 and UU 2013.sept.20. That was at the end of the 4th Pyramid Game. The conditions to this 5th Pyramid Game are different though. Yet, some fundamental conditions cannot be changed, like the historical events and consequences. However, the history writings of the cold war are highly questionable and other sides of the truths are revealed daily on the internet.

The related Norwegian politics are commented to most Norwegian and Danish elections. Most recent was the sub-theme, the NoExit Game in blogs UU 2017.aug.18 to UU 2017.sept.08. The parliamentary election was a massive failure for the symbiotic AP/LO. Investigations with hard-core LYAHF Games were initiated that would have removed the current party leader, if not interrupted by this RAPO Game. The head of the Trondhjem faction was unconstitutionally removed and paves the way for an internal CdE by the AP Capital faction at the next Party election. That Oslo faction has demonstrated hard-core Game playing in the Capital by a Red-Green conspiracy. However, it has proved itself as a major fraud and failure.

Some current media observations are summarized and translated like: "It is outrageous that the AP leader has concluded the removal of the deputy without waiting for his responses to the accusations. It is violations fundamental legal principles if the decision is based on merely the accusations. There can be no trust in such a judgment. Such a process merely harms the party." Most outsiders, free from the AP/LO bondage, will also conclude that such Game players cannot be allowed Governmental power ever.

All-in-all, this recurring CdE Game on in AP is totally out of their own control – and it is of the ultimate concern for the national constitution. Thus, such CdE Games start in political parties, before escalating into national parliaments and the rest of the LEJD (Legal, Executive, Juridical and Democratic powers). Wikipedia categorizes CdE: "A coup d'état, literally 'hit of state', putsch or overthrow, is the illegal and open annexation of a state by elites within the state apparatus. It is considered successful when power is held for at least seven days. A 2016 study categorizes coups into four possible outcomes; 1) Failed coup; 2) No regime change; 3) Dictatorship swap; and 4) Democratization. Three types of CdE are identified as: 1) Breakthrough coups, 2) Arbiter coups; and Veto coups." UU 2017.mars.24).

The AP RAPO Game is an attempted arbiter coup that should be stopped by the LEJD powers.

Yello was presented with their virtual concert in UU 2017.nov.24. The whole text can be read there. Here is some clipping: "Yello's sound is mainly characterised by unusual music samples, a heavy reliance on rhythm and Dieter Meier's dark crooning voice. Yello has been instrumental in spreading and developing the use of sampling, along with Art of Noise, Paul Hardcastle and Depeche Mode, especially in the construction of rhythm tracks, such as one of their signature tunes The Race from 1988." "Boris Blank has taken a couple of vocal turns; on 'Swing' (from You Gotta Say Yes to Another Excess) and 'Blazing Saddles' (from Flag), and guest vocalists have included Rush Winters (the first female diva to be featured on a Yello recording), Billy MacKenzie, Stina Nordenstam, Jade Davies, Shirley Bassey, Heidi Happy and FiFi Rong. The group has shared writing credit with MacKenzie, Winters and Happy."

"1985's Stella proved to be Yello's commercial breakthrough: while the singles and videos 'Desire' and 'Vicious Games' found success upon their initial release, the duo enjoyed a delayed hit with the album track 'Oh Yeah,' which reached the U.S. singles chart after being prominently featured in the films Ferris Bueller's Day Off and The Secret of My Success. After the remix project 1980-1985: The New Mix in Go, Yello recruited diva Shirley Bassey and ex-Associate Billy McKenzie for 1987's One Second."

The associations here is the continuous complex of Vicious Games in AP/LO.

The Cardigans - My Favourite Game

2018.jan.19

Ukens Utvalgte

Once again, the dominant political party AP enter their periodic Ritual of CCD (Colony Collapse Disorder) with its symbiotic alter-ego, LO. Their reoccurring psychosocial Games are of the category Underworld, yet this time cloaked as the Sexual Games RAPO and LYAHF. This time, the Global (#)MeToo campaign was abused as a (#)HeToo campaign to remove one of two deputy leaders. Now, the RAPO Games are projected on political rivals - even as a (#)SheToo Game. Such hard-core Games of a dysfunctionalized party can be extremely violent and traumatic to organisations, people and the national Constitution. Therefore, the Games will be introduced in this blog, analyzed in the next and concluded with a final remedy in the third.

The basics of Games, and the 3x3 model, are explained in blogs like UU 2014.dec.19, UU 2014.sept.12 and UU 2014.aug.15. Some main points are; "Dr. Erik Berne developed the T.A. (Transaction Analysis) further in the book 'Games People Play'. Psychological Games are dishonest and ulterior per definition and occur amazingly often in real life. Berne explained about 60 general Games and how to eventually reduce the negative consequences by disclosing the hidden motives and the moves. Players use ulterior and false moves (Transactions) to get the gains/spoils. Berne also mentions classifications of Games based on the number of players, means, methods, instincts (ID), 'clinical level' (Ego) and psychodynamics. The Games can also be classified according to flexibility, endurance and intensity." (UU 2014.aug.29) However, most of the time is spent on other activities like Pasttimes, Rituals, Work, Withdrawal & Intimacy." (UU 2013.mars.15 and UU 2015.feb.27) The 3x3 psychosocial model was further developed to the 3^3 model and others. which is summarized in UU 2017.march.17.

Furthermore; "Criminal Games are mainly of the category Underworld, but can include categories like Life Games, Marital Games, Party Games, Sexual Games, Consulting Room Games and even Good Games'. These are often mentioned in these blogs and summarized in UU 2015.mars.06. "Some classic Games are. YDYB (Why Don't You, Yes But), IFWY (If It Weren't For You), WAHM (Why does this Always Happen to Me?), SWYMD (See What You Made Me Do), UGMIT (You Got Me Into This), LHIT (Look How Hard I've Tried), ITHY (I'm Only Trying to Help You), LPAFJ (Let's Pull A Fast one on Joey), NIGYSOB (Now I've Got You, You Son of a Bitch), LYAHF (Let's You and Him Fight), RAPO 'Psychiatry' and 'Courtroom'. A complete list of Berne's classic Games is talked through in his book 'Games People Play' that is now free on the internet. "Some (self-defined in these blogs) new Games are: DAC&UAC (Devide&Conquer & Unite&Conquer), ISR (It Started with the Retribution), ABD (Attack is the Best Defense), Jante/TUD (The Ugly Duckling), TLM (Two Little Maids), BGGG (Bad Guy, Good Guy), RPPP (Robbing Pete to Pay Paul), ODAB (One's Death – Another's Bread) and the Russian BOOFY (Beat your Own and Others will Fear You). Psychosocial Games are in general described in UU 2014.sept.12." (UU 2015.aug.28)

The Game RAPO is explained by Berne in details, which is summarized in the following: "RAPO is a Sexual Game played between a man and a woman that may be played with varying degrees of intensity. 1. First-Degree 'Rapo', or 'Kiss Off', is popular at social gatherings and consists essentially of mild flirtation. 2. In Second-Degree 'Rapo', or 'Indignation', (one) gets only secondary satisfaction from (the other's) advances. 3. Third-Degree 'Rapo' is a vicious game which ends in murder, suicide or the courtroom. Sometimes two actors plays the game LYAHF (Let's You and Him Fight) on an unwilling 3rd person by putting her/him in

such a position that crying rape seems necessary to save the reputation. This can cause blackmail situation and even develop to complex set of Games with more actors involved. The male versions of 'Rapo' are notoriously found in commercial situations: 'Casting Couch' (and then she didn't get the part) and 'Cuddle Up' (and then she got fired)." The antithesis is mainly to distinguish genuine expressions of feeling from moves in the Game. However, it is difficult to conceive of a safe antithesis from hard-core RAPO players. Games can last for century at the highest powers. Outcomes happens to be divorce, ruin, exile and even suicide. (See link hereunder.)

The current 'HeToo' Games in AP do certainly involve some LO factions. In addition, there is probably an ulterior 3rd actor that initiated the RAPO Game as LYAHF. The AP RAPO Game seems to be initiated in the LO faction FAFO, which is parallel to the Dane DIIS (UU 2017.nov.03). Next, the RAPO rumors were processed as mass-psychotic cascades by sub-culture in the press media. These organisations relate to the 3rd International's Condition 1 of 21, which is a 100 years old war-declaration towards 'the west' (UU 2017.sept.08).

However, analyzing dysfunctional organizations do not focus on persons and such Blame Games and Scape Goats. Yet, some organizational factions are personalized with peer actors that might be over-focused by dysfunctional press media. The process to remove the AP's second deputy leader involve the leader himself as well as the other deputy leader. Still, that 100 years old AP Game syndrome, does clearly involve several other peer actors too. Most are mentioned in the book 'Basketak' (The Tussle), which will be focused in the next blog. Yet the ulterior Game Masters are as good as never mentioned, even though some camouflaged puppets sometimes get exposed. In this AP RAPO Game, there are certainly the FAFO's candidate of so-called Red-Green collaboration.

Having said all these controversies related to (#)MeToo, it is also important to know that the critique in these blogs are in no way are critics towards the true intentions and use of the (#)MeToo campaign. Actually, it is considered a 4D hyper-democratic phenomena, as mentioned in UU 2016.sept.23. In these blogs, the stand is that it is a global human right not to suffer from any gender or sexuality abuse.

Conclusively, the AP RAPO Game abuses the hyper-democratic (#)MeToo campaign by some hard-core cold-war Game players. They are now 3rd degree RAPO and LYAHF Games of mass-psychosis and mass-neurosis - fueled up with 'fake news' to hit rival political parties, the Government and consequently the national Constitution. Although the next phase of this organisational warfare is executed behind closed doors in AP/LO, there are still LYAHF wildfires that can torch the civilization, - that must be ended properly. However, this is not a single national incident by a single dysfunctional party, but a demonstration on how anti-democratic warfare towards the democratic 'west' will undermine other 'western' constitutions too. Therefore, these RAPO and LYAHF Games are of concern for other constitutions in any 'western' nations and unions, especially the European Common Security and Defence Policy.

"The Cardigans are a Swedish rock band from 1992, with the line-up remaining unchanged to this day. Their debut album Emmerdale gave them a solid base in their home country and enjoyed some success abroad and their second album secured their international reputation. Their popularity rose with the songs 'Lovefool' 'Erase/Rewind' and 'My Favourite Game'. After a two-year break the band returned recording and releasing their fifth album. Their last album is a continuation of the country music infused by pop sensibility and further maturing in the band's sound. After a 2006 tour, the band embarked on a long five-year break from musical activities, before reuniting in 2012 to play several concerts. Overall the band sold over 15 million albums worldwide.

The association to the song 'Favourit Game' is certainly to all the RAPO Game player making suckers of MeToo preys.

Extra UU – The Cranberries - Beneath the Skin Live in Paris 1999

“Beneath the Skin – Live in Paris is a concert video by Irish rock band The Cranberries from their ‘Bury the Hatchet’ tour. Recorded on December 9, 1999 at the Palais Omnisports de Paris-Bercy on the band's stop in Paris, France. The DVD includes documentaries of the band and technicians, promotional videos for the singles and live performances.” (Wikipedia)

The Cranberries are an Irish rock band. Although widely associated with alternative rock, the band's sound also incorporates indie pop, post-punk, Irish folk, and pop rock elements. They rose to international fame in the 1990s with their debut album and sold over 40 million records worldwide. The band achieved four top 20 albums on the Billboard 200 chart. after a six-year break, the Cranberries reunited and began touring. The lead singer Dolores O'Riordan died unexpectedly this week.

Microsoft – Error Alert Song

2018.jan.12

Ukens Utvalgte

Sub-cultures in Microsoft occasional breaks through with anti-Microsoft misdeeds. So is the Global IT market warfare (see link). Like politicians; people apply, get assignments and manipulates their rivals from within. Most such sociopathic activities are prevented, some damages are normalized, yet a few breaks through with irreversible damages for the customers, the company and the civil society. However, the

Underworld Game masters, remain hidden behind the scenes. The real Motives of such Games are relative market Gains by directing the angry reaction from customers, users, authorities with shitstorm towards the prey company.

Not to claim that such is the real reason for isolating these UU blogs from the Internet. Yet, it certainly seems so, since such a violation of IPR and HR is quite the opposite of true Microsoft visions, values and ethics. Nevertheless, O365 announced last year that all its customers' SharePoint Blog sites would be blocked from the Internet. For this UU Blogs site, there are 7 years of weekly blogging, i.e. 350 blogs of 1000 A4 pages, with considerable work for each one. That violation was, however, postponed for a year due to escalating to Microsoft's true ethics of customers Intellectual Property Rights and Business Critical failures. This year, such escalations are block to supporters' incapacities to deal with business, ethical and legal issues. The suggested technical alternatives are practically unrealistic – which anyone involved understands very well. The SharePoint Blog App that is used to the UU Blog is unique and complex. The IPR content in the blogs cannot simply be migrated to another web site. Yet, Microsoft could offer the O365 SharePoint web-app as a Azure web-app, - but simply choose not to, - knowing very well that the consequences of such decision-making is global silencing of all public web block hosted on O365. This is practically censorship of public blogs by autocratic technocracies, – governed by anti-Microsoft values.

People should not worry more about artificial intelligence than artificial idiocy. As previous mentioned in UU Blogs, "Microsoft should be aware that anti-Microsoft is far stronger than its single departments, - such as Microsoft Denmark." This certainly goes for departments like Office 365 and Azure too. Be extra alerted by anti-Microsoft Cloud sub-cultures. Until 2018 March - the rivalries are talked through in series of blogs like UU 2014.mars.14, UU 2014.mars.21, UU 2014.mars.28 and UU 2014.april.04.

Consequently, these last 3 months, before this global technocratic violation of the 'freedom of speech', - will continue as virtual memorable by other means in other spaces.

Windows XP error song

<https://www.youtube.com/watch?v=NfpTCmlLnIQ>

The association to this song is that some alerts have become so frequent that it is perceived as a norm – and ignored like in denials for dysfunctionalized organisations.

The announcement: "SharePoint Online Public Websites to be discontinued"

AURORA – Concert in the Nidaros Cathedral

2018.jan.05

Ukens Utvalgte

2018 starts with a music break of an utmost quality. Aurora is finally recognized globally– and even allowed to perform in the ancient northern cathedral Nidaros. Being born nearby, certainly reminds of home.

Anyways, the producer writes about the concert: "The young Norwegian pop artist Aurora has great success both nationally and globally the recent years. In this quite unique Christmas concert, she enters the national secrecy Nidarosdomen with songs specially arranged for this unique church chamber.

TrondheimSolistene, Oslo Fagottkor, organist Petra Bjørkhaug and harpist Ruth Potter plays together with her own band. Aurora delivers a concert experience that should not be missed." The last song, her interpretation of Bowie's 'Life on Mars', is exceptional.

In UU 2016.sept.02, she was presented like this: "Aurora Aksnes is a 20 years old Norwegian singer that began writing songs at the age of 9. Her debut EP 'Running with the Wolves' received widespread approval

from online music blogs and national press. Later the same year she provided the backing track for the John Lewis Christmas advert, singing a cover of the Oasis song 'Half the World Away'. It also appears on the debut album 'All My Demons Greeting Me as a Friend'. She has two older sisters, Miranda, a make-up artist and Viktoria, a fashion designer. She grew up in Os, a municipality in Hordaland close to Bergen. The association to this song is in sympathy to all youngsters that goes through troubles in their development to Adulthood."

Nidaros Cathedral is located in the city of Trondheim in Norway and the northernmost medieval cathedral in the world. Since the Reformation, it has served as the cathedral of the Lutheran bishops of Trondheim (or Nidaros) in the Diocese of Nidaros. The architectural style of the cathedral is Romanesque and Gothic. Historically it has been an important destination for pilgrims coming from all of Northern Europe. Today, the cathedral is a popular tourist attraction and tourists often follow the historic Pilgrim's Route to visit the cathedral for this and other cultural events.

Dame Edna - Christmas Is The Spookiest Time Of All

2017.des.31

Ukens Utvalgte

This final blog before 2018 focus on an imaginary personality called 'Dane Edna'. Yes, the main inspiration is the infamous femme fatale – the Australian Dame Edna. That figure is a royalty wannabe whom seems to related to the British throne, which the common Australians are distant to. Yet, Down-under, there might as well be some upside-downs. Yet, down here, at Zealand – the queen-to-be is an Australian native, which will connect the continents in unforeseen ways. She will also have to deal with numerous Dane Ednas of the past, the present and beyond – even some 800 years old ghosts of Minsk (UU 2017.mai.05).

Anyways, having been put through some programs of historical assimilations, yet still able to double-check with the internet, - there are obviously some major Black Holes in the Dane historical writings and perceptions. Looking back on a over-due application for citizenship, - the next years' bloggings will provide some re-discoveries of such historical Black Holes. That will be done by combining the theories of real Black Holes with the 5D model of historical scenarios (UU 2015.juni.26), - not by exposing their undetectable natures, but by realizing the virtual realities of their Event Horizons with slightly bent truths.

However, the association to this weekly selected (UU) is about some collectives of 'queen wannabes' that exploits the Queen's imunity from the Juridicial power, the influence of the Executive power and some manipulations of the Legaslative processes. There are indeed some bent and covered realities by parallel Constional powers of some spirits of long gone Crimson Kings and Queens (UU 2013.Mai.24). The Australian Dame Edna reveals that the joys of xmas is as spooky as true democracy.

(This blog is 2 days delayed since xmas was spent on a vulcan island next to the sahara.)

UU Extra - Danish Dane Ednas

Dane Edna could be a fictional character - a Danish Dame Edna, a royalty wannabe, representing the collective psyche of some present Nille – with the ambitions of conserving some outdated royal court's power, rather than the nation's Constitution. This association does not in any sense claim that the true royalties threatens the Dane Constitution, - but that a long-lost court of some puppet Kings and Queens might have.

Here are 3 examples of Dane Ednas.

Kirsten Birgit Schiøtz Kretz Hørsholm is a fictive Danish person that acts like a senior correspondent at the press and a cultural reporter for a newspaper. She has taken an educating role in the Dane society and do not spare any commons, that simplifies the fine arts by their simple existence. In this video, she is at the annual employee evaluation, where she sees through the Games that are played, takes control and still dominates.

Nissernes Ø - Nisse Calypso

2017.des.22

Ukens Utvalgte

It is like a big black hole in history books – the fact that Norway and Denmark managed the Virgin Islands together until 200 years ago. Much too little is known from the prosper in 'The Golden Age' of the Caribbeans around 1700. Those communities collapsed when the new Russian Empire's declared 'Great Nordic War' and Caribbean resources were withdrawn.

Anyways, there must have been some Christmas celebrations at the Virgin Island at that time too. Wonder how that was. Well, the Danes have made a Christmas Calendar TV-series called 'Nissenes Ø' (The Gnomes' Island). Not quite any historical truth, - but it should inspire to make TV series about the Virgin Islands around 1700. Much is written about this in the UU Theme 'Tordenskjold's Pirates (from UU 2016.jan.08 to UU 2016.mars.11).

Paul Simon - You Can Call Me Al

2017.dec.15

Ukens Utvalgte

This year's last blog about the P5GO has an optimistic approach to the future. All the related theories are based on the definition of LifeQuality and thereby the human needs and rights. However, the nations of the UN have agreed on a new program for this century - called the 17 Sustainability Development Goals. The

SDG17 do not merely concern individual humans' needs and right, not merely in the 'developing' nations - but the whole humanity. The nature, cities, fabrics, governments, enterprises are included too. Therefore, the SDG17 is also the very anti-thesis to the 5th Pyramid Game. The theme started in UU 2016.mai.13 and continues.

However, this complex of new initiatives does require prioritizing between all of the UN goals, - which will not always put the individual human rights at the top of the list – for the sake of humanity. Therefore, the SDG17 is also as an realization that such single-sided overfocus have tipped the balance of fragile nations in the past. There are post-war examples that such over-prioritizing caused societies, cities, nations and unions to collapse with fatal outcomes. Even worse, some CCD (Colonial Collapse Disorders) have been motivated by predator rivals to causing CdE (Coup d' Etat) and extortions of prey nations at priceless human costs. Such Pyramid Games were playd in all the continents – causing irreversible traumas to humanity.

Now, the BRIC union is extended to be BRICS – which includes South Africa as well as Brazil, Russia, India and China. The advice here is to pass on to the next phase of realization by reviewing the Good County Index (GCI) (UU 2014.dec.05) and the SDG17, - in order to plan for the needed constructive evolutions – not more destructive revolutions.

However, the SDG17 is a huge global concern that will evolve for decades. Therefore, this blog will not go in depth to the issues. Still, is a brief summary of the models involved (UU 2017.april.07). Furthermore, the combined 5D & 3[^]3 model was explained in the previous 7+12 EU related blogs (UU 2016.sept.23) "All the 19 blogs also relate to the theories presented in the introduction blog of UU 2016.mai.13. They are explained in UU 2014.sept.12 as; a consistent definition of "LifeQuality; a 3D ethics model, a 3D ethical system of GCR (Good/Constructive/Right); a 3D political model relating to the constitutional LEJ powers (Legal/Executive/Juridical); a 3[^]3 (3*3*3) psychosocial model of Drive, Will and Belief; an extended psychosocial Game models; a 5D scenario model for past as well as future (UU 2014.sept.12); and extended terminology by extended use of suffixes. (UU 2015.juni.12).

"Paul Frederic Simon is an American singer, songwriter and actor. Simon's musical career is 70 years long. He started as half of the duo Simon & Garfunkel. Simon wrote nearly all of their songs, including the #1 U.S. singles charts hits; 'The Sound of Silence', 'Mrs. Robinson', and 'Bridge over Troubled Water'. The duo split up in 1970.

After making 3 highly acclaimed albums, Paul started sessions with African musicians in Johannesburg in 1985. He released the album Graceland with the hit single 'You Can Call Me Al'. It's video featured the comedian Chevy Chase. Further singles, including the lead track, 'The Boy in the Bubble' was not commercial a hit but became radio standards and were highly praised." (See UU 2013.april.19.)

"The lyrics in 'You Can Call Me Al' describes a man experiencing a midlife crisis ('Where's my wife and family? What if I die here? Who'll be my role model?'). However, Paul Simon explained that the third verse move from a generic portrait-like perspective to a personal and autobiographical one of his journey to South Africa. It inspired the entire album." "The song opens simply, with wondering aloud why his life is difficult. Simon structured the song's lyrics in a way that listeners would be given the simplest information first, before getting abstract with his imagery in the song's third verse." "The names in the song came from an incident with his wife Peggy. A French composer mistakenly referred to Paul as 'Al' and to Peggy as 'Betty'."

Extra UU1 – SDG17

“The Sustainable Development Goals (SDGs) is a collection of 17 global goals agreed on in the United Nations, yet the total number of targets is 169. The broad goals are interrelated though each has its own targets to achieve. The SDGs cover a broad range of social and economic development issues, that include the traditional Human Rights as poverty, hunger, health, education, climate, gender equality, water, sanitation, energy, environment and social justice. The SDGs are also known as ‘Transforming our World: the 2030 Agenda for Sustainable Development’ or ‘Agenda 2030’. The goals were developed to replace the Millennium Development Goals (MDGs) which ended in 2015. Unlike the MDGs, the SDG framework does not distinguish between ‘developed’ and ‘developing’ nations, but to all countries.”

“The UN-led process involved its 193 Member States and global civil society. The resolution is a broad intergovernmental agreement that acts as the Post-2015 Development Agenda. The SDGs build on the principles agreed upon in Resolution A/RES/66/288, entitled ‘The Future We Want’. This was a non-binding document released as a result of Rio+20 Conference held in 2012.”

Extra UU2– Live concert Paul Simon Graceland

Graceland is an album inspired by South African township music, which sold 14 million copies on its release. It remains his most popular solo work. Simon travelled to South Africa for further recording of the album. The sessions featured many South African musicians and groups, particularly Ladysmith Black Mambazo. Simon also collaborated with several American artists, singing a memorable duet with Linda Ronstadt in ‘Under African Skies,’ and playing with Los Lobos. Simon was briefly listed on the U.N. Boycott list but removed after he had indicated he had not violated the cultural boycott.

Queen + Adam Lambert - Rock Big Ben Live

2017.dec.08

Ukens Utvalgte

“The Queen is dead – long live the Queen”, - at least it appears so when the remaining musicians found a qualified karaoke substitute to Freddy Mercury. He was born at the time the band was born. The resurrected Queen has a new face to the old body. Therefore, the new preformance is a hit parade for the new populus generation, - rather than the original art-rock generation. Anyway, the band remains the same – and the re-appearance is a nostalgic re-union of long lost idols.

Some edited facts about the band and the new actor from Wikipedia. “Queen is a British rock band from 1970. Their classic line-up was Freddie Mercury (lead vocals, piano), Brian May (lead guitar, vocals), Roger Taylor (drums, vocals), and John Deacon (bass guitar). Mercury suggested the name ‘Queen’, and adopted his familiar stage name. Their earliest works were influenced by progressive rock, hard rock and heavy metal, but the band gradually ventured into more conventional and radio-friendly works by incorporating further styles, such as arena rock and pop rock, into their music.”

“By the early 1980s, Queen were one of the biggest stadium rock bands in the world. Their performance at the 1985 Live Aid concert has been ranked among the greatest in rock history by various music publications. Queen is one of the world's best-selling music artists. They received the Outstanding Contribution to British Music Award from the British Phonographic Industry in 1990. Each member of Queen has composed multiple hit singles, and all four band members were inducted into the Songwriters Hall of Fame in 2003.” “In 1991, Mercury died of bronchopneumonia, a complication of AIDS, and Deacon retired in 1997. May and Taylor have performed under the Queen name with Paul Rodgers and Adam Lambert as vocalists on tours since.”

“Adam Mitchel Lambert is an American singer, songwriter and stage actor that rose to fame in the of American Idol. He has made two albums and been on the U.S. Billboard 200 and received a Grammy nomination for ‘Best Male Pop Vocal Performance’. Alongside his solo career, Lambert has collaborated with rock band Queen as lead vocalist for Queen + Adam Lambert since 2011, culminating in a successful worldwide tour from 2014 to 2017.”

Anyways, such a resurrection of rock legends of the previous century is a recurring issue in these UU blogs. This is a growing industry with many licenced ‘wannabe bands’. Some original bands goes through re-makes while still alive – and occasionally rolling stoned of the stage. Even re-makes of original productions on youtube provides nostalgic revivals of long-lost memories – if ever seen at all. There are also completely new videos made to old songs that gives the lyrics and music brand new experiences. All in all, there are certainly great potentials in new-tech productions to original music of the past. Ironically, - no-one expects to see Shakespeare or Beethoven appear at stage anymore – either. Yet, the classic plays are better performed than ever, - that goes for ended rock bands too. This will be an interesting development of services in the 4th Industrial Revolution that most certainly will change the music industry this time too. (Also see for example UU 2017.mai.05, UU 2016.mai.06 & UU 2012.feb.03.)

Roger Waters - US and Them

2017.dec.01

Ukens Utvalgte

It is time to round up this year's major theme 'The 5th Pyramid'. In this new Roger Waters' concert 'US & Them' expresses peoples' opinion about the Coup d' Etat US2017. Undoubtedly, the US President Seat is a major prize of the war-script against 'the West' - 'the 3rd international'. Just like paralyzing is nature's most efficient way to conquer, the result of the US 11/9 election was won with masspsychosis, massneuroses and match fixing. The Puppet President got seated, like several other PPs before and after. Now they are engaged in Underworld Games causing Global cascades of intrigues. (UU 2017.jan.13)

Still, with hindsight, the pressing question in 'the West' is if their Quality of LEJD (Legal, Executive, Juridical and Democratic powers) are sufficiently immune to handle the bondage and dysfunctionality of the infestations. Which Western constitutions got such Acquired Immune Deficiency Syndrome that consequently will cause Colony Collapse Disorder? One way to get some insight to possibly remedies is to learn from the dysfunctionalized International Organized Crime within the IOC – (International Organized Committee). A start is to watch and learn from the video documentation 'Icarus' in this weeks extra UU1. This was also the main issue of the previous UU 2017.nov.24.

The CdE US2017 is analyzed in 6 alternative scenarios from UU 2017.feb.03 to UU 2017.march.17. Most of the relevant theories to the '5th Pyramid' are also included in those blogs and will not be further explained here. However, the present stalemate of several Puppet Presidents is not as quite expected. The US seems to be interlocked in the scenario '5D-1 – The WTF Tower' with the PPT like some Remote-Controlled Alter Ego. Furthermore, there are other fatal states of other PPs. The PPP's infestation and altering the IOC to a drug 'International Organized Crime' did back-fire indeed. Now, other international organisations retribute via the UN. The PPK still waits by the Pacific for the PPT's wrath of revenge in a Game of ABD (Attack is the Best Defense). That might not only cause a nuclear version of the Korean wars of the 70's, but an intended distraction for the upcoming aggressions in the Artic region. The PPE did surprisingly succeeded in the 'false positive' CdE, which legitimized the real CdE to extend its own power to the level of a Caliphate. The PPB has strengthened the ISIS in Syria and sent it to Europe, so the Islamic State might be able to transfer back to Istanbul. PPP has new deals with both PPE and PPB. (UU 2017.april.28) The next year, 2018, might very well be even more dramatic.

However, Europe did break the code of CdE Games, though. The EU seems to have stopped the flood of Nova Nashi manipulations of the European parliamentary elections. The CdE attempts by 'match fixing' was kind of summarized in blog UU 2017.aug.11. Now, it seems that both Europol and NATO are very aware that the CdE Games actually are International Organized Crimes, Hight Treasonous and Acts of War. Therefore, even the outsider nation Norway is included and under their protection too. Even though some rivals attempt to collapse Germany, there does not seem to be any German remote-controlled puppet president as any candidate. Merkel will probably continue the German unification and stability program, undisrupted by any puppet candidates like Pen (Frexit), Wilder (Nexit), Boris (Brexit), Tsipras (Grexit). The re-match of Spexit even turned out as an unpredicted high treasonous CdE Games in an attempt to 'divide and conquer' Catalonia. Thus the Exit Games in 2018 might have dramatic changes, especially when PPP & PPT finally reveals that they have been 'comrades' for decades – like some Global Games of the 'Katzenjammer Kids'.

A key to maintain the Quality of Western LEJD is to understand and heal the psychology of the Puppet Presidents. It is for anyone to see on the Wikipedia these days. "The dark triad is a subject in psychology that focuses on three personality traits: narcissism, Machiavellianism, and psychopathy. Use of the term 'dark' implies that people possessing these traits have malevolent qualities. Research on the dark triad is used in applied psychology, especially within the fields of law enforcement, clinical psychology and business management. People scoring high on these traits are more likely to commit crimes, cause social distress and create severe problems for an organization, especially if they are in leadership positions. They are associated with a callous-manipulative interpersonal style. 1, Narcissism is characterized by grandiosity, pride, egotism, and a lack of empathy. 2, Machiavellianism is characterized by manipulation and exploitation of others, a cynical disregard for morality, and a focus on self-interest and deception. 3, Psychopathy is characterized by continuing antisocial behavior, impulsivity, selfishness, callousness, and remorselessness. A factor analysis carried out at the Glasgow Caledonian University found that among the big five personality traits, low agreeableness is the strongest correlate of the dark triad, while neuroticism and a lack of conscientiousness were associated with some of the dark triad members." (Ref. Wikipedia) The anti-thesis P5GO (the 5th Pyramid Game Over) is discussed in blogs like UU 2014.sept.12, UU 2016.juli.01 and UU 2017.aug.11.

A key issue to prevent future CdE in the US, is to re-evaluate the US constitution. Although hard to realize and admit during a state of shock, the two party system can too easily be corrupted to a one-party system by an alien 3rd Party. Do not forget that USSR mean 'USS Republic' – violently constituted by USS republicans. Acquiring of the most powerful position is just a matter of money for a PPT that simply was purchased by an IOC – a highly profitable investment that will be returned somehow. However, for future LEJD Quality insurance, a lowering the threshold for other American parties is probably in the spirit of the American constitution.

The new concert with Roger Waters 'Us and Them' is presented in this week's Extra UU2.

Extra UU1 – Icarus (The making of IOC into International Organized Crimes)

This extra UU is a spin of from the previous UU 2017.nov.24, where the focus was set on the relations of global organized crimes of legal and illegal drugs – and the criminal and public organisations. This documentary 'Icarus' provides a unique insight to that. In this relation, the criminalization of IOC can give insight on how the criminalization of LEJD powers are done to. The IOC concepts have similar causes and solutions.

A review says: "In this documentary thriller, one man risks his safety to reveal the shocking details of Russia's alleged massive doping program for Olympic athletes. When Bryan Fogel sets out to uncover the truth about doping in sports, a chance meeting with a Russian scientist transforms his story from a personal experiment into a geopolitical thriller involving dirty urine, unexplained death and Olympic Gold-exposing the biggest scandal in sports history."

Extra UU2 Roger Waters @ Us and Them Live 2017

The newest Roger Water's concert is based on his fourth solo album 'Is This the Life We Really Want?' It is his first rock album in nearly 25 years. Waters announced the return to North America in 2017 with a pioneering new tour named 'Us + Them', stating: "We are going to take a new show on the road, the content is very secret. It'll be a mixture of stuff from my long career, stuff from my years with Pink Floyd, some new things. Probably 75% of it will be old material and 25% will be new, but it will be all connected by a general theme. It will be a cool show, I promise you. It'll be spectacular like all my shows have been." "It is intended that the 44-date Us + Them Tour would visit the United States and Canada, showcase Waters' highlights. The tour title is derived from the track 'Us and Them', from the 1973 Pink Floyd album The Dark Side of the Moon."

The association to this concert is how the peoples react when they finally realize that match fixing elections of Puppet Presidents are as bad as match fixing sports events by drugging minors.

Yello - Touch Yello - Virtual concert

2017.nov.24

Ukens Utvalgte

This musicbreak presents a Virtual Concert with the Swiss band Yello. The name is a wordplay based on “a yelled Hello”. There is not much information about the band on the internet, except what Allmusic says:

- “The ambitious Swiss electronic duo Yello comprised vocalist/conceptualist Dieter Meier - a millionaire industrialist, professional gambler, and member of Switzerland's national golf team -- and composer/arranger Boris Blank. Meier, a former solo artist who also spent time with the group Fresh Colour, began collaborating with Blank in 1979, and the duo bowed with the single ‘I.T. Splash.’ After signing with the Residents' label, Ralph Records, Yello issued their 1980 debut LP, Solid Pleasure, which spawned the dance hit ‘Bostitch.’”
- “With 1981's *Claro Que Si*, Yello made its first forays into music video; their clip for the single ‘Pinball Cha Cha,’ directed by Meier, garnered considerable acclaim and in 1985 was selected as one of 32 works included in the Museum of Modern Art's Music Video Exhibition. Visual accompaniment remained a pivotal component of the duo's work after they signed to Elektra in 1983 for the LP *You Gotta Say Yes to Another Excess*, as the videos for ‘I Love You’ and ‘Lost and Found’ received heavy airplay on MTV.”
- “1985's *Stella* proved to be Yello's commercial breakthrough: while the singles and videos ‘Desire’ and ‘Vicious Games’ found success upon their initial release, the duo enjoyed a delayed hit with the album track ‘Oh Yeah,’ which reached the U.S. singles chart after being prominently featured in the films *Ferris Bueller's Day Off* and *The Secret of My Success*. After the remix project *1980-1985: The New Mix in Go*, Yello recruited diva Shirley Bassey and ex-Associate Billy McKenzie for 1987's *One Second*.”
- “Despite the success of 1988's *Flag*, which contained the international hit ‘The Race,’ over the course of the next several years Yello grew increasingly involved with film projects: after scoring the comedy *Nuns on the Run*, Meier directed his own feature, 1990's *Snowball*. In 1991, the duo resurfaced with *Baby*, followed three years later by *Zebra*. 1995's *Hands on Yello* compiled reinterpretations of the group's songs by the likes of Moby, the Orb, and the Grid, while *Pocket Universe*, a collection of new material, appeared in 1997. Their tenth effort, *Motion Picture*, arrived only two years later, which was itself followed by 2003's *The Eye*, which featured Jade Davies on a number of tracks. *Touch Yello*, their 12th album, landed in 2009 and featured smooth jazz megastar Till Brönner on three selections. Incredibly the duo had never performed live in their long history, yet their 2016 album *Toy* was released amid news that they would undertake their first ever live performance in Berlin later in the same year.”

Wikipedia add about the music style:

- “Yello's sound is mainly characterised by unusual music samples, a heavy reliance on rhythm and Dieter Meier's dark crooning voice. Yello has been instrumental in spreading and developing the use of sampling, along with Art of Noise, Paul Hardcastle and Depeche Mode, especially in the construction of rhythm tracks, such as one of their signature tunes The Race from 1988.”
- “Boris Blank has taken a couple of vocal turns; on ‘Swing’ (from You Gotta Say Yes to Another Excess) and ‘Blazing Saddles’ (from Flag), and guest vocalists have included Rush Winters (the first female diva to be featured on a Yello recording), Billy MacKenzie, Stina Nordenstam, Jade Davies, Shirley Bassey, Heidi Happy and FiFi Rong. The group has shared writing credit with MacKenzie, Winters and Happy.”
- “Yello rarely uses samples from previously released music; nearly every instrument has been sampled and re-engineered by Boris Blank, who over the years has built up an original sample library of over 100,000 named and categorised sounds.”

The association here is IR4 entertainment. Issues of the 4th industrial revolution is talked through in 9 blogs from UU 2017.mai.19 to UU 2017.juli.14. The concept of one musician and one performer can be very innovative, like Yazzo, Pet Shop Boys and Soft Cell. In addition, having an industrialist, like Boris, in the band provides means to overcome some barriers in the music market. New IR4 tool for creating, , financing, producing, marketing and distributing enables even resourceless artists to create and compete in unexpected ways. Yello certainly provides a concept for IR4 entertainers.

Iggy Pop - The Passenger

2017.nov.17

Ukens Utvalgte

This blog follows up on UU 2017.nov.03, concerning the Norwegian trial 'Police vs para-Police' and the relation to the Custom Duty Piracy (CDP). The support to major drug trafficking is now evident. However, it is unlikely that Holland is the original source and Norway is the final destination. Just like Denmark, they are transit nations for smuggling from Africa to Russia via Europa, which is parallel to the American illegal trafficking via Mexico of drugs, weapons, black money and unfree labor. This blog intends to view that 'diversion case' in a global perspective of 'Underworld Games' during this 'Fifth Pyramid'. It is International Organized Crime. Unfortunately, IOC is the same abbreviation as the 'International Olympic Committee' that undergoes an internal cleansing from crimes of sports drugs. However, if healed, the true IOC could be a vital protector against the massive forced doping of children by illegal, legal and 'grey' pharmacy - and all traumatizing violence it causes. Before such conclusions, there are some background to massive the Africa-Russia drug trafficking.

A likely 5D historic background is when Tsar Pjotr (Peter the Great) named St Petersburg the Russian capital instead of Moscow, called it 'the window towards Europe', and declared Russia the Empire over all the Nordic and Baltic nations. Russia's 'Great Nordic War' triggered wars between the Baltic nations, including the former Kalmar Union of Sweden, Denmark and Norway. This happened around 1700, the time of the Trade Triangle between Europe, Africa, America, the 'Golden Age of Piracy' in the Caribbean's, and replacement of the Dane management with Dutch at the Virgin Islands near the Bermuda Triangle. Officially, the Trade Triangle included weapons and forced labor, but unofficially did probably include drugs like cocaine, opium and cannabis back to Europe. (UU 2016.jan.29) A main destination in Europe must still have been St. Petersburg. Now, - 300 years later, Europe LEJD powers (Legal, Executive, Juridical and Democratic) protect themselves against such illegal trade of drugs, weapons, bondage, black money with international organisations like Europol, Cepol and Eurojust. Therefore, the Baltic sea is well guarded, so the illegal trafficking chose the safer and longer Nor-way to St Petersburg. However, that makes the Artic a hazardous region that can potentially trigger hardcore Underworld Games of the 4th degree in NATO.

Moreover, a bermudish triangle of US, EU, AU is the Canary Islands, Morocco and Spain. Now, that ships have engines, they don't have to drift on the ocean currents from Africa, via America to Europa, but can move 'upstream' from America, via Africa to Europa. Still, there are several routes and via-point in Europe, like Ibiza, Portugal and Barcelona. Likewise, there are several routes from Denmark to the north of Norway. A hint from the trial hearings is that the 'para-police' busted some drug-drop from planes in the north, - indicating that some new competing smugglers were whipped out of the market by the para-police. The dominant smugglers seem to be based on stable and well-established routes of ships, trains and cars. Besides, for safety sake, there need to be several via points with storage safehouses. Routes and via points can be Copenhagen-Oslo-Bergen/Trondhjem, Ålborg- Kristiansand-Bergen, Bergen-Trondhjem-Tromsø-Bodø-Kirkenes/Finnmark. Finnmark and Finland (Suomi) are borders to Russia and has a via-point like the Kola Peninsula. There are probably also temporary storages between via-points like Oslo, Bergen, Trondhjem, Bodø, Tromsø and Kirkenes. Such a complex network might appear too hard to establish and maintain for criminal organized, if not simply abusing the well-established infrastructures of Dane-Nor ships, NSB trains and the Hurtigruten Ships of the Norwegian fjords and coasts. Such smuggling must be simple for 'free-riding passengers', when guarded by the 300 years old CDP (Custom Duty Piracy).

The so-called 'Red Mafia' is certainly engaged in smuggling to St. Petersburg in Russia, as well as most other illegal smuggling. However, the real foundation to the IOC is the Stalin-Trotsky rivaleri that formed the Underworld Gamers of the Red Army Faction (RAF). The term PROSA (Pro-Russian Oligarchs, Separatists and Anarchists) was made in order to uncover such cloaked organizations. These are focused in blogs like UU 2017.sept.01, UU 2017.feb.24 and UU 2016.aug.19. However, as in Mexico as in Europe, the massive illegal trafficking of drugs certainly involves weapons, bondage and black money as well. E.g. the South American drug mafia buy weapons for the drug money earned in the US and the drugs are efficient for enforcing people to do illegal services. Therefore, the primitive weapons control in US is probably forced through by RAF politics to undermine the US for a CdE of the 'Fifth Pyramid Game'. Still, there are the same

power, motive and actors involved in the illegal trafficking of goods, services, people and money in Europe too, even with stricter weapon control in Europe. Therefore, fighting the Norwegian para-police and CDP should be a prioritized task for European international authorities like Europol, Eurojust and the future EU military.

Finnmark is the northern region of Norway with joint borders to Finland and Russia. Although the Russian border is narrow, the arctic sea area and borders are huge, which made Finnmark a controversial major war-zone in the ww2. There were Stalinist cooperation based on the Molotov–Ribbentrop Pact' of 1939-41. (UU 2017.okt.06) However, BRAF vs RAF warfare caused a devastating war-crimes in Finnmark as well as Finland. Now, the Norwegian arctic island Svalbard is a strategic key to arctic domination and apparently at risk like Crimea of the Black Sea. (UU 2017.april.21) The Russian motivated illegal trafficking to Finnmark was indicated during the human tsunami toward Europe, when 5000 Russians, with fake work-permits from St. Petersburg, crossed the Finnmark border on bikes in the freezing cold. They were not stopped because the regulations merely forbid walking across the borders. Half of them are now disappeared from the authorities. This reminds of the Selmer case about a boy that was unwillingly offered by his family to SU to trained as an agent and returned for infiltration, espionage and manipulations. (UU 2016.juli.22) His interview was silenced for decades by the state-controlled TV NRK, because of its massive uncovering of RAF agents. Anyways, the trafficking of drugs from Africa to Russia via Finnmark does not merely involves illegal trafficking of drugs, but certainly weapons, forced labor and black money as well. There are most probably networks of safehouses, depots and monitors in infiltrated national infrastructures. This is therefore not merely a concern of NATO, but Europol as well in the corner of the European Economic Area of the Internal Market (EEA IM).

Nevertheless, worse than any sane person's imagination, is the related organized drug crimes towards minors. This Dysfunctional Dane psychiatry is a re-occurring issue and main concern in blogs like UU 2017.juli.14, UU 2016.sept.02 and UU 2015.aug.28. The infiltration, hallucination and manipulation in Dane child psychiatry cause organized crimes that violates the strictest paragraph in the penalty laws. Yet, objections are silent, caring parents are bonded with ruining accusations, while the minors are convinced to self-blaming scapegoats to cover up the crimes of the illegal, legal and twilight drugs markets. For example; the systematic doping of minors in public sports-clubs was related to the Russian crimes of sports dopes in the IOC; the 'free city' Christiania inside Copenhagen also includes systematic drugging of minors for both the legal and the illegal pharmacies; some pedagogues in the Folkschools, psychologist, psychiatrists and other commune servants that protects the providers, profiteers and drug oligarchs. Prey minors that suffers from psychedelic side effects of the drugs are diagnosed as psychotic and left with personal guilt, mal treatment and alienations, - which leads to spirals of LifeQualitative corruption. The minors are even illegally abused as test objects for Asian un-approved drugs like Aripiprazole. The illegal drug testing is even financed by Dane state-aid, covered up as health services. More cruel abuse of masses of minors are unimaginable.

For humanity's sake, - this massive abuse of minors must be a top priority for SDG17 (UN Sustainable Development Goals), which includes 'Good Health and Well-being'. SDG17 also applies to organisations like IOC (International Olympic Committee) that evidently hosts some parasites of International Organized Crime. Such organisational conditions are focused in blogs like UU 2014.aug.22 and UU 2014.dec.19. Hopefully, the true IOC will be able to develop from the state of denials to a state of realization. If so, the true IOC is enabled to actually self-heal. Then the true IOC might become humanity's most vital protector against the drug war towards the minors. Nonetheless, with or without the true IOC, a main conclusion is that this war against drugs concerns the Europol as well as NATO – even in Denmark and Norway, since both are committed to the TEU Treaty and/or the EEA Treaty.

"Iggy Pop, alias James Newell Osterberg Jr., alias the 'Godfather of Punk', is an American singer, songwriter, musician, producer and actor. He was the vocalist of influential proto-punk band the Stooges, that is well known for his outrageous and unpredictable stage antics. Pop's music has encompassed a number of styles over the course of his career, including garage rock, punk rock, hard rock, art rock, new wave, jazz and

blues. Though his popularity has fluctuated through the years, many of Pop's songs have become well-known, including 'Search and Destroy' and 'I Wanna Be Your Dog' by the Stooges, and his solo hits 'Lust for Life', 'The Passenger', and 'Real Wild Child (Wild One)'."

"The Passenger is recorded and released on the Lust for Life album. In an interview with The Guardian, Iggy Pop spoke about how 'The Passenger' was partly inspired by travelling with David Bowie on tour, '...I'd been riding around North America and Europe in David's car ad infinitum. I didn't have a driver's license or a vehicle.' The lyrics, written by Iggy Pop allegedly aboard Berlin's S-Bahn, have been interpreted as embodying the nomadic spirit of the punk outcast. Guitarist Ricky Gardiner composed the music. The song is loosely based on a poem by Jim Morrison. The song has been featured in numerous movies, video games, documentaries and TV shows." Also see the list of cover versions on youtube.

The association here is a Custom Duty Pirate (CDP) and a Free Rider that spending the time thinking about all he has not, - reflexion that everything is everyone's, including himself, - and finally concluding that everything is his alone. High thoughts when "high as a kite".

Roxy Music - In Every Dream Home a Heartache

2017.nov.10

Ukens Utvalgte

Yet another music break – this time with Roxy Music. This is a unique recoding of the original band with both Brian Ferry and Brian Eno, - plus the other skilled musicians. This song is also rather different than most pop rock songs at that time, - both in music and lyrics. In the first part, Ferry appears with reflecting hindsight in his sexy sulky way, - like some Hamlet. In part two, the musicians seem to express the frustrated agony to the conclusion. Eno do not appear often on stage, but is rather a studio synth guru. Here, in his earlier days, he appears like someone out of this world with most of "the science the Rocket

Man does not understand' (UU 2017.Okt.20). He even wears feathered wings, which also can symbolize relations to drugs and 'blown up minds'.

Wikipedia writes:

- "Roxy Music were an English rock band formed in 1971 by Bryan Ferry, who became the band's lead vocalist and chief songwriter. Eno Brian Eno (synthesizer and 'treatments') was the co-founding member. The band took two breaks, reunited for a concert tour in 2001 and toured together until another break-up in 2011.
- "Roxy Music became a successful act in Europe and Australia during the 1970s with their debut album, Roxy Music. The band pioneered more musically sophisticated elements of glam rock while significantly influencing early English punk music and provided a model for many new wave acts while innovating elements of electronic composition. The group also distinguished their visual and musical sophistication through a preoccupation with glamorous fashions. Ferry and Eno had had influential solo careers. Eno became one of Britain's most significant record producers of the late 20th century. Rolling Stone ranked Roxy Music No. 98 on its 'The Immortals – 100 The Greatest Artists of All Time' list."
- "The band's final studio album was Avalon became platinum-certified in the United States. In 2005, they began recording a ninth studio album. It would have been their first record since 1973 with Brian Eno, who wrote two songs for it and also played keyboards. However, Bryan Ferry eventually confirmed that material from these sessions would be released as a Ferry solo album Olympia, with Eno playing on 'a couple of tracks'."

The lyrics might ignite several associations about caged with 'lifelong room service' in privileged families. As indicated, Shakespeare's Hamlet is one. Associations are made in three recent blogs; UU 2017.mai.05 UU 2017.april.07 and UU 2016.feb.05.

2017.nov.03

Ukens Utvalgte

The Norwegian trial 'Police vs para-Police' is mostly related to organized crimes of Custom Duty. The trial hearings were to prove that the para-police supported the mafias in importing drugs without Custom Duty servants' interference. Yet, proof of similar crimes has been apparent in plain sight for 25 years by organized 'Custom Duty Piracy' (CDP). It is 'business as usual' for millions of Euro. It is easy prove, though; just load up some cars of legal goods, according to the EEA Treaty, on the ferry from Copenhagen to Oslo,

and monitor the activities and passivities of the public servants involved. Proper reactions for violations of the 'Rule by law' should be enforced by the international authorities of the Internal Market. This is most relevant for the Europol, since it is international organized crime in the EEA region, involving the Netherlands as well as Denmark and Norway.

The blogging about the 'Police vs para-Police trial' started in UU 2017.aug.18. It is a spin-off from the main theme 'The 5th Pyramid' from UU 2016.mai.13. The theme was focused in UU 2017.sept.01 and UU 2017.okt.06, - but is also mentioned in the succeeding ones. The blogs UU 2017.okt.13 and UU 2017.Okt.20 relates to the on-going Dane case 'Rocket Madsen' (UU 2017.okt.13). A reflection to the cases was: "... some kind of political 'Bermudian' triangle of The UN City (United Nations), The Norwegian Embassy (UD) and DIIS (Danish Institute for International Studies). The harbor to the Copenhagen-Oslo ferry (DFDS) is in the triangle. The embassy (UD), the DFDS ferry and a parallel harbor to the Gdansk/Poland ferry was moved to this area when the UN city was built some years before. (See UU 2012.jan.20). (The Gdansk ferry is ended now.) Anyways, the case is frequently reported in the global media as grotesque discoveries are fed into the press." How to get insight in the ulterior Moves of Underworld Games? Such a metaphor might help to get the picture.

Verifying the LEJ (Legal, Executive and Judicial) quality is as easy as it is obvious. Use the principle of the so-called Black Box analysis. Send something in, see what comes out, and then conclude what it is and is not. Some European authorities should ship legal goods in legal quantities, according to the EEA and TEU Treaties, from the 'Bermudian Triangle' in Copenhagen/Denmark to Oslo/Norway. The shipments should simply be like they normally are between any other EEA members states. The legal transports should be well monitored, documented and reported to both the Dane and the Norwegian authorities, in addition to the relevant international authorities. However, the Norwegian CDP practices are still as before the ratification of the EEA Treaty. There are numerous complaint from several nations in the EFTA and EU. Still, the CDP violations concern the legal amount for private consumers for food, beverage and other goods. For enterprises, it is the illegal taxation of the same kind of goods, where the illegal taxes are sometimes even higher than 100%. That is not merely criminal confiscations of legal goods, - it is topped with economic penalties and possibly black-listing.

The Dane CDP is gone in hiding and is not that apparent any more. Traces of the 'Bermudian Triangle' affairs are sometimes exposed though, like the major 'Panama Papers' cases. They are related to the previous Dane/Norwegian Virgin Islands, - close to the real Bermuda Triangle. A long-lived CDP ritual is their confiscation of cars. The custom duty was over 100% when the TEU came into effect and forbid such a custom duty. In order to continue the practice, the Dane tax authority renamed the illegal tax to 'registration fee' (registrerings afgift). Still the CDP takes over 100% in tax from EU citizens moving to Denmark, which is in practice is illegal confiscation of private property. Still, no European authority dare to confront the Dane or Norwegian CDP, - which merely proves there are a too strong international criminal organisational within the Dane LEJ powers too.

The legal obligations are stated in the Norwegian EEA Law (EØS Loven) as well as the TEU. (UU 2017.aug.18 and UU 2014.okt.24). The TEU Chapter 2, Tax Provision, Article 110 (previous art, 90) says "No Member State shall impose, directly or indirectly, on the products of other Member States any internal taxation of any kind in excess of that imposed directly or indirectly on similar domestic products." The same is stated in the Norwegian EEA law (EØS loven, part 2, chapter 1, article 10, 11 and 12). Both the TEU and the EEA apply to the national Penalty Laws too. However, the organized CDP in both public sectors have been going on since the ratifications – over 20 years ago. Still, the CDP is parallel to the Police and do indeed reveal some of the nature of the para-police forces.

This process does actually involve several departments of all the LEJ powers. All parts of the LEJ powers should be quality verified accordingly. It is as easy and obvious as for any system. Have some trusted professional outsiders to test for real by doing exactly what the system is made. Then monitor the outcomes, - just like a 'black box' analysis. Compare the outcomes with the intended result. Finally report

to related independent authorities. Most important, - publish the results to engage the Democratic powers to support the progress.

Why haven't the authorities fixed this properly decades ago? The only explanation seems to be that neither the national polices, the governments, nor the courts dare interfere with this international organized crime. Not even the legal international organisations of 'rule by law' like EFTA, EU, Norden or Europol dares to fight the international organized crimes of CDP. However, the new federal Europol could and should.

Music

Information about BrunuVille seems scarce. He probably will rather promote his art than his personality. However, BrunuhVille is an independent composer from Portugal who creates a world of magic and fantasy between the fusion of Gothic, Orchestral, Celtic, Folk, Movie, Ethnic and World music. See the website and playlist for the works.

The association here is Piracy in the Bermuda Triangle. So, - what happens if a black box is put in a Bermudian triangle like UD-UN-DIIS. There will probably rather phenomena like the Dane Bohr's theories than Einstein's.

Crash Test Dummies – Mmmm Mmmm Mmmm Mmmm

2017.Okt.27

Ukens Utvalgte

It time for a music break again. Most people know this song, but cannot pronounce it quite right. This Canadian band makes several good songs that does not hit the lists, like this one. The band's name refers to such figures like 'Buster' in the 'Myth busters' - that are made to sacrifice for planned disasters. Somehow, it reminds of the 'Pyramid Games' that are built to fail with the ethics of "honesty is for suckers". (See start of the UU theme 'The 5th Pyramid UU 2016.mai.13.) Still this song, with all its silenced hums, tells 3 stories of some unfortunate faiths of ignorance and arrogance. If any ethics applies to this, something should rather be talked through the sooner than later.

Wikipedia writes: "The Crash Test Dummies are a Canadian rock band from Winnipeg, Manitoba.

It is most identifiable through Brad Roberts and his distinctive bass-baritone voice. The band members have fluctuated over the years, but is best known with Roberts, Ellen Reid, Brad's brother Dan Roberts, Benjamin Darvill and Mitch Dorge. The band is internationally recognized for their single 'Mmm Mmm Mmm Mmm' and most famous in Canada for the single Superman's Song. After a multi-year break, the band returned in 2015 with a tour and the new charity single 'Promised Land', which was a collaboration with Marc Mysterio following up his remix of" that M song.

"The band did not receive much international recognition until the 1993 release of their second album, God Shuffled His Feet. Particularly instrumental in increasing the band's exposure in the American market was the appearance of a new type of radio format, - the adult album-oriented alternative rock (AAA). These

stations put the first single 'Mmm Mmm Mmm Mmm' in high rotation and the song peaked at # 4 in the US Hot 100. The 4x4M song did even better in the United Kingdom, where it was a No. 2 hit, and Australia where it peaked at No. 1. The result was that by mid-1994 the album had passed the platinum sales mark (one million) in the United States and had also earned the band three Grammy nominations and three more Juno nominations. To date, God Shuffled His Feet has sold more than five and a half million copies worldwide."

35:48 Superman's Song

41:03 Afternoons & Coffeespoons

44:55 End of the show/ credits

Elton John – Rocket Man (Ma'n)

2017.Okt.20

Ukens Utvalgte

It is time for a music-break again. The song 'Rocket Man' gives some associations to the previous UU 2017.okt.13 concerning the Dane trial against 'Rocket Madsen'. However, even though inspired by a novel, the lyrics seems rather to be about a family man working the rock industry on its harsh terms. In this sense, there is an association to the Norwegian trail 'Police vs para-police' too. Anyways, about the lyrics, before presenting some closing remarks and discovery of the 'rocket man', - following is an edited public presentation of the creators and the song. Also see the rare interview from Elton's early period before becoming a major super-star.

"Sir Elton Hercules John, (born Reginald Kenneth Dwight), is an English singer, pianist, and composer. He works with lyricist Bernie Taupin as his songwriting partner. They have collaborated on more than 30 albums. In his half century career Elton John has sold more than 300 million records, has more than 50 Top 40 hits, including seven consecutive No. 1 US albums, 58 Billboard Top 40 singles, 27 Top 10, four No. 2, nine No. 1 and has for 31 consecutive years had at least one song in the Billboard Hot 100. He has also composed music, produced records, and has occasionally acted in films." "Elton John has received five Grammy Awards, five Brit Awards – winning two awards for Outstanding Contribution to Music and the first Brits Icon in 2013 for his 'lasting impact on British culture', an Academy Award, a Golden Globe Award, a Tony Award, a Disney Legends award, and the Kennedy Center Honors in 2004. Elton was made a Knight

Bachelor by Elizabeth II for 'services to music and charitable services' in 1998." In brief, Elton John is one of the world's most famous musician(s).

" 'Rocket Man' first appeared on Elton John's 1972 album Honky Château and became a hit single. The song was inspired by the short story 'The Rocket Man' in The Illustrated Man by Ray Bradbury. It echoes the theme of David Bowie's 1969 song 'Space Oddity'. The song describes a Mars-bound astronaut's mixed feelings at leaving his family in order to do his job. Musically, the song is a highly arranged ballad anchored by piano, with atmospheric texture added by synthesizer and processed slide guitar." "Another song called 'Rocket Man' was released by the group Pearls Before Swine on their 1970 album 'The Use of Ashes'. Taupin acknowledged that the song had been a direct inspiration for his own lyrics. Rosenthal's account indicates that Rapp's version was inspired by the writings of noted science-fiction author Ray Bradbury. Some presume this song might also be an allusion to David Bowie's character Major Tom. The song includes the line 'And I'm gonna be high as a kite by then'. The website Schmoop commented, "The phrase 'high as a kite' is a common idiom almost always used to refer to drug use."

It is hinted that the song 'rocket man' is about 'willingly' forced drug abuse in the industries. The lyrics can be read as that his wife sent him away at midnight since he was about being 'high as a kite' again. Now, he misses earthly things, kids and wife, while flying alone in his space-head, like some alienated alter ego. This time, seems like no turning back while burning up his fuses in some kind of cold red hellish world. Still, he is a musician and a writer, not any scientific producer.

Therefore, since the lyrics to 'Rocket man' is not written by 'Reginald Kenneth Dwight', alias Elton John, but by Bernie Taupin, the story's ego is of the latter's associations. Somehow, Bernie became a co-writer to Vincent Damon Furnier, alias Alice Cooper in 1977-1979. AC was sent to rehab in an asylum for lethal abuse and they made the song 'How You Gonna See Me Now' that was dedicated to his wife. The lyrics in 'Might as well be on Mars' is very rather direct on the Mars issue. However, Bob Ezrin was Alice Cooper's song writer before and after Bernie Taupin. In conclusion Elton John is not a person, not an alter-ego as Alice, but the merged personality of Reginald and Bernie.

(The artist personality of Elton John might have been inspired by the real John Elton, that was a British shipbuilder and seaman that was sent by the Russian government in to assist in the Orenburg expedition and noted for his efforts in the service of Nader Shah of Iran. That might explain the artists' strong antipathy towards Madonna and sympathy towards Dianna.)

Extra UU1 - Elton John Rare Documentary

This rare documentary (rockumentary) is from the period before the break-through double album 'Goodbye Yellow Brick Road'. The title refers to the classic fable movie 'The wizard of Oz' from 1939. The

roads lead to the Oz, which Elton John leaves. The album proved to be extremely popular, selling over 30 million copies worldwide, and is regarded as one of his best. This interview presents the original artist before becoming the major global entertainment product.

Bob Hund– Raketmaskinen (Bob Dog – The Rocket Machine)

2017.okt.13

Ukens Utvalgte

The Norwegian trial 'Police vs para-police' is complex since it is international, multinational and violates most of the national penalty law. Still, the trial overfocuses on two scapegoats in psychosocial Game of Prisoners Dilemma, which keeps the Players stuck in mazes of Denials. But the perspectives can be renewed by looking into a parallel trial, - the Dane 'Rocket Madsen' case. It is as absurd as a rejected season of the TV series 'The Bridge' (Broen). Yet, it seems rather initiated by some para-military than the para-police, though. Still, the Swedish police is once again forced to cooperate with their archrival, the Danes. However, The Swedes are in the federal Europol this time, whilst the Brexit referendum left the Danes outside. Moreover, the case might be related to events of Norway as well as Sweden, China, Russia and even Belarus and North Korea.

This summary of the reported event is here slightly edited from Wikipedia: "Madsen was arrested and charged with negligent manslaughter after the sinking of the submarine UC3 Nautilus and the disappearance of the Swedish journalist Kim Wall. Madsen first claimed that he disembarked Wall on land at the tip of Refshaleøen on the night before the sinking. He later said she died on board in an accident and was buried at sea. Danish police say the submarine was deliberately sunk and contradicts Madsen's explanation. A human torso (body without head, legs and arms) was found on the coast with matching DNA to Kim Wall. It was stabbed multiple times and attached with metal. The charge was extended to 'improper interference with a corpse'. Madsen stated that she was accidentally killed when a hatch hit her head, causing a deadly skull fracture. Danish navy divers (with help from Swedish police) found the head and legs of Wall, along with a knife and pieces of her clothing, in bags at the bottom of the bay. There are no fractures to Wall's skull." Now the convicted denies to talk to the police anymore.

Still, the story is so absurd that it is most probably a cover up for a more comprehensive Underworld Game involving much more.

The two persons exposed in this Underworld Game are both rather controversial, - at least as described by the press. Here are some brief presentations.

- "Kim Wall grew up in south Sweden and went to school in Malmø, studied Economics & Political Science in London and Beijing. She graduated in journalism and international affairs in New York, got a Master's degree in international affairs from the School of International and Public Affairs. She worked as a freelance journalist and had her work published in The Guardian, The New York Times, Vice, Slate, Harper's Magazine and Time magazine. Topics included the new Chinatown in Uganda, Idi Amin's torture chambers in Uganda, Gibraltor, real-life 'vampires', and problems with restarting tourism in Haiti. She was awarded the Hansel Mieth Prize for Best Digital Reportage for 'Exodus', a multi-media report on climate change and nuclear weapons testing in the Marshall Islands." (Wikipedia) Berlinske newspaper writes that she also was engaged with North Korea and Sri Lanka, where she documented feminism in guerilla warfare, - also related to China and Haiti.
- Peter Madsen got the nickname Peter 'Raket' (Rocket) Madsen since he participated in all the start-ups of Danish amateur rocket organisations. He broke out of DARK (Dansk Amatør Raket Klub) and worked with the of the rocket Nexø 1. It was launched by the Dane island Bornholm that is at the coast of Sweden and in direct line to the Russian Kaliningrad. He was also an initiator of the making of the 3 private submarines Freya, Kraka and Nautilus. Submarines in the Baltic sea is a

controversial issue, though, and must have been alarming for most Baltic nation. After internal struggles in the organisation, he finally got users right to the sub-marine Nautilus. The submarine was deliberately sunk and Kim disappeared in the final trip.

Their previous engagements might be related to military para-organisations. Such 'parallel organisational apparatus' (POA) can be major Players in this psychosocial Game. The press and military are major POAs according to the 3rd International 21 conditions, which states "it is absolutely necessary to combine legal and illegal activity" "regardless of whether, at any given moment, the party as a whole is legal or illegal". (UU 2016.sept.23)

Intriguingly, even in such apparently obvious cases, there should at least be insisted on questions like, wasn't there anyone else involved? If so, per definition, the case is a conspiracy (i.e. two or more cooperates in an illegal plot.) In this case, there is much more to the story than summarized in Wikipedia. Here are some additional circumstances about the military activities in the region at that time.

- "Two months before, a Chinese naval group was engaged in a military exercise with the Russian Navy as part of the 'Joint Sea' series of maneuvers. The Chinese ships were active in the port of Baltiysk in the Russian Baltic Sea province of Kaliningrad. The task force included the Type 052D guided-missile destroyer Changsha, a frigate and a replenishment ship. The Chinese and Russians have held annual joint naval drills since 2012 to bolster military ties, including in contested settings like the South China Sea last year. 'Joint Sea' marked the first-time Chinese ships have drilled in the Baltic." (UPI)
- "(The annexed) Kaliningrad is like the Russian nuclear missile base at Cuba, - located to the Baltic sea, next to Sweden, Denmark, Belarus, Poland, Lithuanian and Ukraine. Historically, the nukes to Cuba in 1962 came from Kaliningrad and had free passage passed Sweden and Denmark. Some previous quotes from UU 2015.mars.20 relate to the issues of Kaliningrad and RAF." (UU 2017.juli.28) There is no knowledge if Russia's greatest submarine nuke-carrier, that participated in the 'Joint Sea' exercises, moved nukes in or out of Kaliningrad at the time.
 - "North Korean labor were engaged in building the newest Danish warship 'Lauge Koch' in Poland, - next to the Kaliningrad nuclear missile base. The Danish state have thereby indirectly paid to North Korea for military related top-secret services. The South Korean ambassador Jai-chul Choi in Denmark says that foreign labor is an important source to finance the North Korean nuclear and missile program." (DR news)
 - "Zapad 2017 was a joint strategic military exercise of the armed forces of Russia and Belarus. Formally, it lasted one week in September in Belarus, Kaliningrad and other Russian north-western areas. Belarus claimed there were fewer than 13000 personnel and thereby excluded OSCE's observers. However, West-European military analysts and officials cited the total number to be far larger. Concerns had been voiced by a number of NATO and Ukrainian officials over Russia's suspected ulterior motives and objectives in connection with the exercise." (Wikipedia) The exercise included an invasion of a fictive region called 'Veisnornia' between Belarus and Kaliningrad. Those joint exercises have been used for preparations for later military actions and invasions in national sovereign regions, such as Georgia and Ukraine.

The island Bornholm was a controversial asset in the ww2 and the cold war, because of its strategic position in the Baltic sea. Danes have their annual top-politician gathering there, called Folkemødet. Therefore, it is a deliberate political provocation when Russian war-planes simulates attacks on the island. (BT newspaper) Such Moves are influential on political discussions and decisions.

The departure of the submarine Nautilus, with Kim and Peter aboard, is well documented on pictures. The chosen place and scenarie did certainly make global political attentions. The harbor of Refshaleøen is located close to some kind of political 'Bermudian' triangle of The UN City (United Nations), The Norwegian Embassy (UD) and DIIS (Danish Institute for International Studies). The harbor to the Copenhagen-Oslo ferry (DFDS) is in the triangle. The embassy (UD), the DFDS ferry and a parallel harbor to the Gdansk/Poland ferry was moved to this area when the UN city was built some years before. (See UU 2012.jan.20). (The Gdansk ferry is ended now.) Anyways, the case is frequently reported in the global media as grotesque discoveries are fed into the press. Still, some additional information might be relevant, like:

- “The submarine seemed to almost collide with a freight ship two hours before it was reported missing, says an anonymous witness. It was completely dark and he saw it just because of the moonlight.” (DR news) That was about the time Kim Wall disappeared from the submarine.
- “A new agreement will give the Swedish police access to Danish DNA register in next month. They want to compare DNA with other Swedish cold cases. There are 120 Swedish cold cases and a few are similar with dismembered women.” (Berlinske news) Denmark has also a cold case where a Japanese tourist was dismembered in Denmark. The Norwegian police have already checked and found no match on his DNA.
- One Dane journalist insisted on investigating the case as sexual motivated. However, other journalists did not show such interest. Later, some reported that there were found links to ‘snuff videos’ (actual killings) on his computer. Yet, other people had access to that pc too.
- Madsen himself asked for psychiatric evaluations prior to the police hearing. This is the opposite attitude to for example ABB (ref UU 2017.juli.14), but it is not uncommon. One reason is that the forensic psychiatric court can overrule the civil court in hearing and judging. The charged person will get medications for a rehab treatment and might get reduced penalty for ‘being insane at the moment of the crime’. Furthermore, previous statements and further questioning can be annulled due to insanity. Such a forensic conclusion can be settling for many involved in the long run, also psychosocial Game players of Denials. That method is certainly used as Games by Dysfunctional organisations and POAs.
- The Russians insist on building their newest oil pipeline ‘North Stream 2’ on Danish sovereign territory, the Bornholm Island, next to Kaliningrad. It is a global issue since Trump (US) introduced sanction on such equipment, and Junker (EU) insists that Russian import also is restricted to EU IM law. Practically, it is quite unnecessary for Russia to involve Dane territory since the pipeline can continue in the international waters instead. Such Russian equipment on Dane territory, will probably also include certain additional products, services and people. However, the Moves in the Game do test the Danish LEJD powers.
- Blekinge is a southern Swedish region that is historically controversial for the Danes’ and Swedes’ rivalries. Moreover, during the coldwar, the name ‘Blekingegadebanden’ was labelled a fraction of the Dane RAF. “The Dane Blekingegadebanden was a RAF-dnk with Scandinavian relations to RAF-swe and RAF-nor. However, it turned GRAF with Gotfred Appel’s conversion from Stalinism to Maoism. By nature, such cells are determined to hinder strengthening of ‘rule by law’ with international cooperation like EUROJUST, EUROPOL and CEPOL, - with urban warlike means, - like Blekingegadebanden and all its related organizations and persons.” (UU 2017.sept.01)

One obvious possibility is that there might have been a third person in the submarine, hidden until striking at sea. The unconscious victim can have been transported to another ship during the night. There are certainly several POAs that have several questions and messages for contraversive freelance journalists

Many of the Swedish Cold Cases have one grotesque basis that is described in UU 2014.dec.19. “Another related Nordic phenomena of psychiatric organized crimes is well documented in the STV documentary ‘The woman behind Thomas Quick’ (Kvinnan bakom Thomas Quick) that is talked through in UU 2014.juli.18: “The Quick case lost all its fantastic attention with the disclosure that he was no mass murderer at all, but merely a childlike patient with free meals, housing, drugs and hypnosis under the psychiatric matriarch, Margit Norell. There seems to be some Oedipus-relations where life-long room-service was the reward. ‘Sweet old ladies’ are unassailable and can consequently be perfect executers of misdeeds, - even the worst thinkable. There is probably no better cover for such vast criminal acts, - like covering up for the actual massive murders.” An article talks through the cult around ‘Thomas Quick’ like this: “He admitted 39 murders (some in Norway) and was convicted for 8 that he did not even do. No technical evidences and no witnesses have ever linked him to any of the convicted murders. The trials lasted for years and cost 200 million kroner. The murders were made up by a desperate person that lied to get drugs, social relations and attention. He was supported by a cult of psychologists, doctors, police, prosecutors and layers, - that lied just as much, - or even more.”

“Still, there are several other inter-Nordic cases suggested to investigate further, like; the Scandinavian Star ferry fire, Arnfinn Nettet hospital murders, 22/7 bombing and massacre, the Halloween murder under IT

related hypnotic psychosis and several other cases. There are most probably similar cases in all the other Nordic countries too. (The infamous and unprofessional attempt by the forensic psychiatric to veto the 22/7 ABB trial is talked through in UU 2012.juni.22.)” Now it seems that all the cold cases from the ‘Thomas Quick’ Game is not merely Swedish and Norwegian, - but very much Danish too.

This Dane ‘para-military’ case might also relate to the Norwegian ‘Police vs Para-police’ case, since most of the drugs smuggled to Norway is transported via Denmark. The Norwegian police is already engaged to this Dane Rocket Madsen case, since they have checked the DNA of the convicted. The Europol will also most probably be involved in it all, since Sweden is a full federal member, - even though Denmark rejected the continuing of full membership.

This is good news for Norwegian, as well as Dane, Constitutional quality insurance of the LEJD Powers.

The Band ‘Bob Hund’ is presented in Extra UU1.

Nevertheless, the association to this song ‘The Rocket Machin’ (Raketmaskinen), is not merely the fatal scenarie in the ‘Rocket Madsen’ case, but rather that Sweden as well as Denmark is in direct line to the massive arsenal of nuclear missile base in the annexed Kaliningrad – the Baltic Cuba. Even the recent Russian and Chinese upgrades do not seem to bother ‘bob hund people’.

Extra UU1 – Bob Hund– Live at Hultsfred 2000

“Since the early ‘90s, the indie rock stalwarts in Bob Hund have been among the most popular acts in Sweden. The name bob hund originates from a cartoon dog named Bob, that led a very unlucky life, like some Pavlo’s dog or Laika. Their reputation for being a frantic and comic live act earned them a large crowd

of followers that helped carry them through the decades. Formed in 1991, Bob Hund ('Bob Dog') got their start in Stockholm playing left-field rock tunes in the vein of XTC, Pere Ubu, and Talking Heads, despite a major love for Kraftwerk. That electronic influence found its way into Bob Hund's ideas and arrangements, but would not surface in their sound until years into their career. In addition to inventive sonics, Öberg sings in Scanian (Skanska), a southern Swedish dialect, and the lyrics match the melodies by mixing comical and serious subject matter." (Allmusic)

Extra UU2 - The Bridge (Broen TV serie)

The TV-series 'The Bridge' (Broen) does in its exaggerated and stereotyped ways indicate some of the Dane-Swede 500 years of differences, conflicts and tensions – realized in some complex crime cases. Yet, the 'Rocket Madsen' case is as absurd as if taken from a rejected season of the TV series. In the series, though, the gender stereotypes are swapped for ratings sake.

Imperiet - Peace (Is it really peace that we want?)

2017.okt.06

Ukens Utvalgte

Now that the undercover cop has appealed too, the trial 'police vs para-police' might cause cascades of cold cases. That will involve the rest of the LEJD powers, - and eventually, the failed CdE Game of 2011-2013 with the Utøya massacre and the Government bombing. This syndrome is not about single persons, but about dysfunctional organisations from the Stalinists vs Trotskyists rivalries. Trotsky founded the Red Army and the 4th International before WW2. Stalin hunted Trotsky through 'the West' and finished him in Mexico. Still, the RAF (Red Army Faction) is a Trotskyist legacy. The BRAF vs RAF rivalries ignites sometimes in Trotsky's historical safe havens, – like Utøya.

The Trotskyists versus Stalinists rivalries are almost a 100 years old. Trotsky's 4th International is a contra-CdE Game against Lenin/Stalin's 3rd International's CdE Game towards the Tsardom in Russia. Still, there are multiple 4th degree Underworld Games at Trotsky's exile hosts, like Turkey, France, Norway and Mexico. Besides all the European look-alikes and wannabes, there are the numerous followers from mezzo-America like Ernesto 'Che' Guevara, Fidel Castro and Carlos 'the Jackal'. Some historical background from Wikipedia about the two Patriarchs is here adapted.

- "In 1929, Leon Trotsky was deported from the Soviet Union to his new exile in Turkey. Trotsky was also at risk from the many former White Army officers who had opposed the Lenin's Bolshevik Coup and was defeated by Trotsky and the Red Army. Trotsky was offered asylum in France in 1933 by Prime Minister Édouard Daladier. However, he was officially told that he was no longer welcome in France in 1935."
- "Trotsky applied to move to Norway and obtained permission from the Minister of Justice Lie. Trotsky and his wife were guest of Konrad Knudsen at Hønefoss, and spent over a year living at his house. However, the Nygaardsvold government began to show concern about Trotsky's actions, when the French media complained about Trotsky's role in encouraging the mass strikes in France in 1936. With pressure on the Norwegian authorities from the Stalin's government, Trotsky's asylum was made a political issue. The safe-house was burgled while Trotsky and his wife were out on a seashore trip with Knudsen and his wife. The information obtained in the burglary was used by the government to make claims against Trotsky."
- "The Russian press-apparatus TASS announced a discovery of a Trotskyist-Zinoviev's plot and that the 'Trial of the Sixteen' would soon start. They were all sentenced to death. Then the Norwegian Police

demanded that Trotsky signed new conditions for his residence, included no more political writings or interviews, and a police censorship. Trotsky refused and moved.”

- “The minister of Justice ordered that Trotsky and his wife were transferred to a farm in Hurum. Only Trotsky's lawyers and the Norwegian Labour Party (AP) Parliamentary leader were permitted to visit. Trotsky managed to smuggle out one letter, titled ‘The Moscow Confessions’. Trotsky and his wife were then deported from Norway to Mexico. Trotsky accused the Norwegian government for trying to prevent him from publicly voicing his strong opposition to the ‘Trial of the Sixteen’ and other show trials. He wrote: “In the course of my entire life — and I have lived through many things — was I persecuted with as much miserable cynicism as I was by the Norwegian Socialist government. For four months, these ministers, dripping with democratic hypocrisy, gripped me in a stranglehold to prevent me from protesting the greatest crime history may ever know.”

The life of this patriarch of the contra-revolutionary 4th International ended in mezz-America with the outbreak of WW2.

The origin of the ‘Trotsky versus Stalin’ rivalries, and the related Games of 4th International vs 3rd International, are elaborated in these Wikipedia quotes:

- “For fear of splitting the Communist movement, Trotsky initially opposed the idea of establishing parallel Communist parties or a parallel international Communist organization that would compete with the Third International. In mid-1933, after the Nazi takeover in Germany and the Cominterns response to it, he changed his mind. He said, that: An organization which was not roused by the thunder of fascism and which submits docilely to such outrageous acts of the bureaucracy demonstrates thereby that it is dead and that nothing can ever revive it.” “In all our subsequent work it is necessary to take as our point of departure the historical collapse of the official Communist International. In 1938, Trotsky and his supporters founded the Fourth International, which was intended to be a revolutionary and internationalist alternative to the Stalinist Comintern.” (Wikipedia)
- “Trotsky wrote prolifically in exile, penning several key works, including his History of the Russian Revolution (1930) and The Revolution Betrayed (1936), a critique of the Soviet Union under Stalinism. Trotsky argued that the Soviet state had become a ‘degenerated workers' state’ controlled by an undemocratic bureaucracy, which would eventually either be overthrown via a political revolution establishing a workers' democracy, or degenerate into a capitalist class.”

However, still contraversive to mention, it is a fact though, that the anti-Semitic duo, Stalin & Hitler, had a common arch-rival in the Jew Trotsky. Too often, their bonding Treaty, the Molotov–Ribbentrop Pact of 1939, is silenced and denied. It was crucial to Stalin in several ways, since the Nazified Germany gave the Soviets a battleship, 30 war planes, locomotives, tanks, explosive, chemical weapons, and access to bases. (UU 2016.juni.03) The state of denial about the joint Gulag/Holocaust cooperation is still dominating the press apparatus, - until the perestroika/glasnost is allowed to continue the process of enlightening.

Furthermore, the Norwegian national Party NS is said to be the responsible in ending Trotsky’s safe housing. However, the pre-war Games were complex and the information is still rather ulterior. Still, at that time, the conspiracy between Stalin and Hitler that was not yet formalized with the Molotov–Ribbentrop Pact in 1939. However, with present hindsight, it does explain why NS did the ‘dirty work’ for the Stalinists in Norway and the existence of a BRAF (Brown-Red Army Faction). Here are two translations from the Norwegian Wikipedia about the police and LO.

- “During the second world war, the Norwegian police cooperated to certain extent with the German occupation power. The Norwegian police was re-organized to into German pattern. The police department and the stats-police were established with (two) leaders that were members of NS. The policemen were encouraged to be members too. 30% became members of NS in 1942, which was more than any other public etat. The Norwegian police participated in persecution of outcaste minorities, like the deportation of Jews in 1943. Many policemen were skeptical to NS and Nazism and resisted the occupation power and its Nazi regime. The police had to investigate its own after ww2. 2200 of 4500 policemen were suspended, but half of them kept their jobs. Seven were executed for executing killings and torture.” (Wikipedia)

- “During WW2, the LO turned to Nazism in 1941. The execution of two persons after the ‘Milk strike’ (Melkestreiken) marked the Nazi takeover of LO. An illegal structure was maintained by some departments. 2600 LO members lost their lives.” (Wikipedia)

These BRAF relations are elaborated in UU 2014.nov.21. “The executions of the Norwegian national-socialistic leaders have probably not terminated the neo-Nazi-cultures in LO. It rather legitimated progressions for the next generation ‘the national-communists’. The Stalin-Hitler cooperation before ww2 is well documented with the Molotov–Ribbentrop Pact’ (1939-1941). Less known is the cooperation after ww2, where the national-socialists could convert to national-communists, - probably with some bindings and pay-backs.” “Originally in the 20’s, the supporters of the Moscow thesis were expelled from the ruling Arbeiderpartiet (AP) and formed their own national communist party (NKP). Since then, they have searched influence via LO instead, and LO has always demanded direct powers on AP in government.” As mentioned in UU 2014.juni.06 and UU 2013.aug.23, the whole story of the dominating political alliance AP/LO is not well known.

A most recent epic cold case is the failed CdE Game of 2011-2013. This ‘police vs para-police’ Underworld Game is linked with Trotsky’s 3 safe havens; Utøya, Hønefoss and Hurum. After WW2, the island Utøya became the annual joint gathering for the youth organisation of both AP (Labor Party) and LO (Labor Trade Federation). The annual grand gathering in 2011 is known as the Utøya massacre. Following, there was a trial towards a single person who proudly took the blame for it all, - both the massive massacre and the bombing of the Government building. There is no way he could have been alone in doing such a BRAF operation. (See UU 2012.mai.18 – UU 2012.Juli.20 and UU 2012.aug.24).

Still, a main reason for the police to bring the undercover cop to trial, was some of communication he had with the Underworld cultures at 2011. The police have decided to move on from the state of Denial to the state of Acceptance– in a public Court scenery. It takes enormous resources to keep the State of Denial going on, like state subsidized newspapers. It might end, though, with upcoming rematch of the ‘police vs para-police’ case in 2019.

Imperiet (the Empire) was a Swedish rock band from Stockholm between 1983 to 1988. Its original name ‘Rymdimperiet’ (The Space Empire) was taken from the Star Wars movie ‘The Empire Strikes Back’. It was a spin-off to the Swedish punk band, Ebba Grön. The band was successful in Scandinavia, but they also toured in the United States, Cuba, Central America and South America. They released their only English language album, called Imperiet in 1988 with translated versions of their songs. The album had an intensive promotional European tour, but was only popular in Sweden. This put an end to plans for an international career.

Imperiet is previously presented in UU 2016.juni.17. This song, ‘Peace (Is it really peace that we want?)’ was presented in a Swedish version in UU 2012.Juni.22 to the blogging to the ABB Trial of 2011.

The association to this song ‘Peace (Is it really peace that we want?)’ is that the lyrics could probably been written by Trotsky himself. Sweden is after all the Nordic arch-enemy of the Russian empire, ever since its founding in Moscow 500 years ago – the 3rd Rome – the empire. Yet, the question is most relevant for Sweden since they have been in peace for 200 years.

Extra UU - Imperiet - Live 85 concert

Actually, I saw their concert at Aker Brygge, when it was a ruined shipyard and before it became a modern shopping center. This concert, the video, also leave the impression that they were not exactly what they appeared to be. The leader is probably not in the Salvation Army. (UU 2012.Juni.22)

The association to this song 'Peace (Is it really peace that we want?)' is that the lyrics could probably been written by Trotsky himself. Sweden is after all the Nordic arch enemy of the Russian empire ever since its founding in Moscow 500 years ago – the 3rd Rome – the empire.

Imperiet is previously presented in UU 2016.juni.17. This song, 'Peace (Is it really peace that we want?)' was presented in a Swedish version in UU 2012.Juni.22 to the blogging to the ABB Trial of 2011.

Devo - Peek-A-Boo

2017.sept.29

Ukens Utvalgte

While waiting for the para-police to appeal the judgment, this focus is set on what is not legal, - the basics for the para-police and related POAs. Obviously, the LEJD police protect and promote civil legalities by 'rule by law', while the para-police protects and promotes POAs, such as International criminal organisations. The 'rule by law' is as obvious as told in novels, TV-series and media reports. However, laws, ethics and morals have changed fundamentally. Therefore, some misperceptions of the Legal realities have become mass-psychosis propagated by the para-press. Public servants, in good and deceiving faith, have become unaware or unwilling executors to the para-LEJD. However, the verdict in this judgment is very clear that such influences, of both physical and psychological activities and passivities, are violations of the Penalty law. Anyways, since this additional blogs to the P5Go theme is combined with a concert, - who represents the dysfunctionality of LEJD powers better than the band DEVO (DE-EVolution)?

The trial is a psychosocial Game as well as a Ritual Procedure. Actually, a classic Game is called 'Courtroom'. Now there are two scapegoats thrown into the arena as distractions from the major Pyramid Games of 'Parallel Organisational Apparatuses' (POA). Still, the major blog-theme is P5GO (the 5th Pyramid Game Over), which requires some reminders of some characteristics of Games. Here is a brief summary from UU 2017.sept.01. "The Pyramid Games are described in the initial UU 2016.mai.13. Pyramid Games are based on the illegal 'Pyramid scheme', 'Eight-ball' and 'Gifting circles'. 8 people are lured by one to 'invest' in illusions of repayments in a distant future, - not realizing that the Game is built to collapse and rather cause their ruin. The ethics to such Game masters are 'honesty is for suckers'. The 5 Pyramid Games in this UU theme are related to the 5 Internationals. Those 'suckers' are lured to contribute to domestic CCD (Colony Collapse Disorder) that weakens their prey nation enough to enable the main gains of CdE (Coup d' Etat).

Related sub-Games played by potential PROSA agents are of all categories, - especially Underworld Games and Sexual Games like; NIGYSOB (Now I've Got You, You Son of a Bitch) and Schlemiel, SWYMD (See What You Made Me Do), ITHY (I'm Only Trying to Help You), LPAFJ (Let's Pull A Fast one on Joey), LYAHF (Let's You and Him Fight), DAC&UAC (Devide&Conquer & Unite&Conquer), ISR (It Started with the Retribution), ABD (Attack is the Best Defense), Jante/TUD (The Ugly Duckling), TLM (Two Little Maids), BGGG (Bad Guy, Good Guy), RPPP (Robbing Pete to Pay Paul), ODAB (One's Death – Another's Bread) and the Russian BOOFY (Beat your Own and Others will Fear You). (UU 2014.sept.12.)" (UU 2016.juli.15) However, dysfunctional organisations are not about persons. Blame Games at scapegoats are symptoms of organisational dysfunctionality. Therefore, the focus is not set on the convicted persons but their organisations.

Basically, the free movement in the European Internal Market of People, Products, Services and Money is restricted from those that harms the public Health, Environment and Security. Illegal, are for example drugs and weapons, in addition to related bondage and payments. International criminal organisations promote such even with para-police and related POAs of the LEJD (Legal, Executive, Juridical and Democratic) powers. The restrictions are legally constituted with the EEA Law, Human Rights Law and Constitutional Laws and Penalty Law in Norway. This judgement towards the para-police even stated that public servant, like the convicted, are guilty due to both activities and passivities of both physical and psychological influences. (Note. The legality is also stated in the web site for the 'Treaty of the European Union' (TEU).)

Issues of the Norwegian Constitution and 'rule by law' are focused in several occasions in this 7 years of blogging. It was most recently talked through in UU 2017.sept.01 in relation to the P5GO (5th Pyramid Game Over). Some summaries indicate the relation to this trial:

- "Certainly, humans are the driving force for the state-machines. Therefore, previous employment of public servants are the reasons for the mismatch between the democratic Parliament and the Government. When the Laws are changed, the 'old' legal practices can become unlawful and punishable. The silencing state-conservatism is one reason for the high level of crimes in the public sector. The evidences are obvious, as said in UU 2013.sept.27: "The necessary improvements of management cultures in State and Communes is highlighted in the 22/7 Commissions Report: The leaders at all levels in the public sector need to systematic improve their own and the organizational fundamental attitude and cultures related to: recognition of risks, ability to execute orders, inter-departmental coordination, IT utilization and result-orientated leadership. (See UU 2013.aug.09.) "The present conditions do fail the quality of public production and services. Therefore, it is unconditionally necessary to re-employ the leaders' positions with unconditional clauses of legal loyalty, in order to ensure the hiring of leaders that are willing and able, - and not any more corrupted agents of comradery and other kinds of public crimes."
- "As well known for all the Parliamentary LEJD powers, the Legislative power (Stortinget) made the EEA Law and the Law of Competition in 1994. It changed the legal conditions considerably, - especially for public enterprises and the 3 parliamentary LEJ powers. In a sudden, both the non-public and the public oligarchies were outlawed. Their obligated adaption to legal behaviors is comprehensive, - which dominant oligarchs surely do not want. However, the mass-media and press do not mention legal prosecutions related to the EEA Law and the Penalty Law. The silencing states the impression that there are next to no legal prosecution in the public sector. In fact, it takes a lot of resources to prevent the LEJ from prosecuting. Still, it appears as being the state of the Nation" (yet, the solution to this problem is presented in the blog series about the present 4th industrial revolution possibility to automate the bureaucracies in the LEJD powers (See UU 2017.juli.21)" (UU 2011.juli.15 and UU 2013.nov.01)
- "One might call the year 1999 a democratic re-constituting contra-revolutionary. This is elaborated in the blog theme 'LifeQuality and fundamental theories' in UU 2013.feb.15. In fact, 'Menneskrettsloven' (the Human Rights Law) sets the citizens' rights above the state's. Certainly, there are civil limitations, but the citizens got undisputable rights for ownership, freedoms, security, privacy, family life, work, education, - as well as freedom for thoughts, conscience, religion, speech, and more. Public servants' violations of these rights are criminal acts according to the Penalty law and shall be prosecuted as such. In fact, in 2012, the Norwegian Constitutional Law's §2 was changed to include the Human Rights, which definitely makes the Human Right Law constitutional and superior to other Norwegian laws.

Furthermore, the text in the Constitutional Law was modernized in 2014 with present wordings instead of the old Dane 'dialect'."

The Juridical innovations that started more than 20 years ago has another epic break-through in this trial of 'Police vs para-police'. The Executive powers will change re-evolutionary, when the civil court actually states that 'rule by law' applies for cold-war POAs too. The 20 years of Juridical Denials, which promote the massive organized crimes, is finally cracking now. Consequently, some actors might turn to legal activities, some might face charges for their crimes and some might attempt to be Game Changers.

Thus, it has to be reminded in these additional P5GO blogs of 'Police vs para-Police': "The Norwegian LEJD powers have entered a collective state of shock. There is an all-over state of denials based on two opposite reasons; by the true LEJD powers and the para-LEJD powers. Furthermore, there are different stages of shock, dependent on the situations. Based on theories found in Wikipedia, the merged stages are here defined as: denial; acceptance and hope; grief and anger; diagnosis and conclusion; bargaining and settlements; treatment, healing and post-traumatic care. There are different kinds of denials too, like; denials of responsibility; denials of impact; denials of cycle; denials of awareness; and denial of denial. The previous stage of denial lasted for 100 years, since the 5D shift from P2 to P3, with the 3rd International's 21 Conditions. However, it cannot be denied anymore, and the civil LEJD have overruled the para-LEJD. This shock, that the Executive POAs are not protected by Juridical POAs anymore, creates a frustrated need to shift to other kinds of denials. The Underworld Gameplayers of all the POAs in the LEJD will initiate new sets of Underworld Games of P3, P4 and P5. These Games of 3rd degree can be rather dramatic and costly. Innocents will suffer, as they always do in Underworld Games. It might even be dragged into CdE Games of 4th degree, - like in '39 and '63." (UU 2017.sept.22)

Still, while waiting for the para-police to appeal, the Courtroom Game is already set to another round. The drug-dealer have appealed and a new round in court will start in 2019. His lawyer claims the reward should be higher for offering a policeman to the 'Prisoners' Dilemma' Game. Besides, there are several cold-cases about to be re-opened, since the Court concluded that the para-police provoked crimes and made arrests of rivals.

The band DEVO was originally formed as a 'practical joke' by some art-students. The name DEVO is short for De-evolution and indicates that human development is in reverse. They did not imagine being a band before they got support from David Bowie, Brian Eno and Warner Brothers. That support certainly 'leveled up' the quality of lyrics, music and production.

The association to the song 'Peek-A-Boo' is how Immature Games are played in secret services of both the Police and the para-police. The 'Police vs para-Police' Trial provide some 'Peeks'.

This live concert is about 30 years after their break-throughs.

Extra UU – Concerts Devo live

What band is more suited to present organisational dysfunctionality than DEVO? They were originally formed as a 'practical joke' by some art-students. The name DEVO is short for De-evolution and indicates that human development is in reverse. They did not imagine being a band before they got support from David Bowie, Brian Eno and Warner Brothers. That support certainly 'leveled up' the quality of lyrics, music and production.

"Devo's music and stage shows mingle kitsch science fiction themes, deadpan surrealist humor and mordantly satirical social commentary. The band had a No. 14 Billboard chart hit in 1980 with the single 'Whip It' and has maintained a cult following throughout its existence. Their often-disputatious pop songs feature unusual synthetic instrumentation and time signatures that have proven influential on subsequent popular music, particularly new wave, industrial, and alternative rock artists. Devo was also a pioneer of the music video, creating many memorable clips for the LaserDisc format, with "Whip It" getting heavy airplay in the early days of MTV." (Wikipedia)

Devo reunited for this remarkable performance in 1996 at Irvine Meadows, California. They proved that they actually are skilled musicians and can be professional clowns without silly clothing. Just to set the mood of the audience, - the concert starts with the sound of an alarm.

Devo Live 1980

<https://www.youtube.com/watch?v=-QlpcmNLQY>

Intriguingly, there was a spin-off called Devo 2.0 was created for Walt Disney Records with help from the original Devo. Child actors sang, danced and mimed playing along to songs. Some were actually credible musicians though. The lyrics were edited to make them more 'family friendly' – Disney-style. The editing removed much of the insinuation and irony typical of the Devo songs. In 'Freedom of Choice', the line "Freedom from choice is what you want" was changed to "Freedom of choice is what you want", and the line "he went in circles/till he dropped dead" became "he went in circles/till he dropped down". (Also see UU 2014.nov.14 and UU 2013.okt.11)

Radiohead – Creep

2017.sept.22

Ukens Utvalgte

The 'music-break' was brief, due to an extra ordinary judgement in Norway this week. Once again, the LEJD powers are exposed at a public trial and a scapegoat is sentenced. However, Mr. Jensen, do not accept the ruling and the assigned role. Consequently, the psychosocial Game 'Prisoners Dilemma' escalates and rocks the LEJD powers more. Heads of law, police and related actors, ask; how could the organised crimes of drugs, weapons and violence operate cloaked and unhindered for decades – inside the police itself? The

question is a challenge that is hereby accepted and taken. Therefore, the blog theme P5GO (5th Pyramid Game Over) is extended till the eve of 2018 with this Police vs Para-police trial.

First of all, such a question by such related actors is merely considered additional Moves in these psychosocial Games of ulterior nature. They are symptoms of dysfunctional organisations in a state of 'denial'. Furthermore, the dysfunctionality of the LEJD powers (Legal, Executive, Juridical and Democratic) is about organisations and not persons. Such 'finger pointing' at 'scapegoats' is just another symptom of their dysfunctionality and points back to the real causes. It must be very frustrating to major Game players, though, that the scape goat still goes free and actually appears in the civil press. Some factions of the POAs will probably act irrational and reveal some more of the Underworld Games' Players, Motives and Moves.

In brief, this hypothesis focus on the present 5D shift from P4 to P5 and the rivalries between the POAs. The battlefield is now the Juridical power of civil courts and not the para-courts. The LEJD's state of denial is already identified as the 5D shift to the 4th Pyramid Game (P4) in the CdE Game (Coup d' Etat) in Norway in 1963. The infiltrations by POAs (parallel organisation apparatuses) were overpowering and silenced by the para-press. The P4 ended in 2013 and the attempted regime shift of P5 started with the failed CdE Game during 2011-2013. These blogs will also scratch the surface of their alter-egos PROSA, the P3 BRAF, the P4 RAF and even the P5 GRAF.

The causes to the dysfunctional state in Norway was focused and summarized in UU 2017.sept.01. The intro says: "This 3rd blog before the NoExit election at 11/9, focuses on the influence the radio-drama 'Dickie Dick Dickens' had on the real Underworld Games towards the constitutional LEJD powers. This hypothesis is that the creation of the 'parallel organizational apparatuses' in the Parliamentary LEJD organisations was inspired by the broadcasts from the dominant radio station NRK. It might even have been the intention. The DDD scrips originated in Germany during the Cold War and tells how a petty thief became a dominant Underworld Gamer in a 'western' city. The numerous episodes can be interpreted as scrips on how-to fulfill the 21 Conditions of the 3rd International. Actually, the DDD scrips are like how they started, - 'the Stalin', 'the Jackal' and innumerable PROSA agents and related organisations. As for Norway, the focus is set on some major domestic crime cases, which turned out to be politically motivated and even International organized. The main aim for this blog-series 'P5GO' (the 5th Pyramid Game Over) is to prevent such International destructive organisations from doing such CdE Games at the 11/9 NoExit election, - as well as the following Gexit, Chexit and Lexit elections."

The Norwegian LEJD powers have entered a collective state of shock. There is an all-over state of denials based on two opposite reasons; by the true LEJD powers and the para-LEJD powers. Furthermore, there are different stages of shock, dependent on the situations. Based on theories found in Wikipedia, the merged stages are here defined as: denial; acceptance and hope; grief and anger; diagnosis and conclusion; bargaining and settlements; treatment, healing and post-traumatic care. There are different kinds of denials too, like; denials of responsibility; denials of impact; denials of cycle; denials of awareness; and denial of denial. The previous stage of denial lasted for 100 years, since the 5D shift from P2 to P3, with the 3rd International's 21 Conditions. However, it cannot be denied anymore, and the civil LEJD have overruled the para-LEJD. This shock, that the Executive POAs are not protected by Juridical POAs anymore, creates a frustrated need to shift to other kinds of denials. The Underworld Gameplayers of all the POAs in the LEJD will initiate new sets of Underworld Games of P3, P4 and P5. These Games of 3rd degree can be rather dramatic and costly. Innocents will suffer, as they always do in Underworld Games. It might even be dragged into CdE Games of 4th degree, - like in '39 and '63.

Dysfunctionality of organisations is a complex issue, - yet too important to deny. It was talked through in UU 2017.april.07: "Such a complex national dysfunctionality can be related to methods for 'family therapy' by escalating sociological science of dysfunctional families. A general description says: "Dysfunctional behavior is considered abnormal when it, causes some kind of undesirable behavior, according to the culture and has a physical cause of the central nerve system. However, such mental disorders of dysfunctionality describe processes in systems, - not individual people. There are five main criteria for dysfunctional abnormality; 1) statistical criterion 2) social criterion 3) personal discomfort 4) maladaptive

behavior, and 5) deviation from ideal.”

“In order to escalated the term ‘dysfunctional’, from family organizations to national organizations, the following words are substituted; ‘family’ with ‘nation’, ‘child’ or ‘family member’ with ‘citizen’, ‘adults’ and ‘parents’ with ‘authorities’ and ‘marriage’ with ‘organizational’. Thereby, the following paragraphs dysfunctional nations with psychosocial definitions.”

- “A dysfunctional nation is a nation in which conflict, misbehavior, and often citizen neglect or abuse on the part of individual authority occur continually and regularly, leading other members to accommodate such actions. Citizens sometimes grow up in such nations with the understanding that such an arrangement is normal. Dysfunctional nations are primarily a result of co-dependent authorities, and may also be affected by addictions, such as substance abuse (e.g., alcohol or drugs), or sometimes an untreated mass-psychosis and mass-neurosis (mental illness). Dysfunctional authorities may emulate or over-correct from their own dysfunctional authorities. In some cases, ‘immature’ authorities will allow the dominant authority to abuse their citizens.”
- “Some features are common to most dysfunctional nations: 1) Lack of empathy, understanding, and sensitivity towards certain citizens, while expressing extreme empathy or appeasement towards one or more members who have real or perceived ‘special needs’. 2) Denial (refusal to acknowledge abusive behavior, possibly believing that the situation is normal or even beneficial; also, known as the “elephant in the room.”). 3) Inadequate or missing boundaries for its Self (Ego-state) (e.g. tolerating inappropriate treatment from others, failing to express what is acceptable and unacceptable treatment, tolerance of physical, emotional or sexual abuse.) 4) Disrespect of others' boundaries (e.g. physical contact that other citizen dislikes; breaking important promises without just cause; purposefully violating a boundary another authority has expressed). 5) Extremes in conflict (either too much fighting or insufficient peaceful arguing between citizens). 6) Unequal or unfair treatment of one or more citizen due to their birth order, gender, age, national role, abilities, race, caste, etc. (may include frequent appeasement of citizen at the expense of others, or an uneven/inconsistent enforcement of rules).”
- “Though not universal, the following features are typical of dysfunctional nations; Abnormally high levels of jealousy or other controlling behaviors: 1) Conflict influenced by organizational status: Between separated authorities, usually related to, or arising from the breakup. 2) Conflict between authorities who remain dependent, often for the perceived ‘sake’ of the citizens, but whose division would in fact remove a detrimental influence on those citizens. 3) Authorities who wish to separate, but cannot due to financial, societal (including religious), or legal reasons. 4) Citizens afraid to talk (within or outside the nation) about what is happening at home, or are otherwise fearful of their nation. 5) Abnormal sexual behavior such as adultery, promiscuity, or incest. 6) Lack of time spent together, especially in recreational activities and social events (“We never do anything as a nation”). 7) National members (including citizens) who disown each other, or refuse to be seen together in public.”
- “List of unhealthy governing signs which could lead to a nations becoming dysfunctional: Unrealistic expectations, ridicule, Conditional love, Disrespect, Emotional intolerance, isolation, stifled speech, denial of an ‘inner life’, being under- or over-protective, apathy, belittling, shame, bitterness, hypocrisy, unforgiving, demonization, unbalance criticism, double standards, the absentee authority, unfulfilled projects, unrightfully redistribution, gender prejudice, sexual imbalance, emocratic policies, scapegoating, ‘tunnel visioning’, unbalance delegations, hinder mature participations, an ‘know-it-all’ attitude, forced participation against abilities, scrooge authority, heredity blaming, etc.” (ref. Wikipedia)

“Any nation should, and hopefully does, use such checklists for their own dysfunctions - and are, hopefully, willing and able to quality assure to proper functionality.”

This epic LEJD case, the ‘Police vs para-police’, will be thoroughly analyzed in with the concept of P5GO analysis. It concerns organisational dysfunctions and not any persons. However, some actors might be mentioned by name, due to their organisational function and not as persons. The timeline be about a 100 year, since 1905, when Norway regained its sovereignty of the Foreign Policy, - on paper. Focus will also be set on the CdE Games around 1913, 1939, 1963 and 2013.

Finally, this breaking judgment towards the para-police does also revoke several cold-cases that relate to the para-police Underworld Games. The minister of Justice has announced an independent investigation of the police, this time. Furthermore, just like DDD scripts, rivaling gangs were provoked to extremes by the para-police and sentenced. There were even executions in the gang-fights. Moreover, the thousands of civil casualties due to drug abuse, related crimes and traumas have not even entered the stage of realization, grief and anger. A hint is that the drug Mafioso started out as dealer at Ullern high school in the '70-80. This was 'SKAM' at the time of '21 Jump Street'.

Radiohead's debut single 'Creep' became a worldwide hit. The band is presented in Extra UU1. Johnny Depp features in this video version and the TV series '21 Jump Street'. It is presented in Extra UU2.

Extra UU1 - Live Radiohead – Live Glastonbury 2003

"Radiohead are an English rock band from 1985. Their debut single 'Creep' became a worldwide hit after the release of their debut album 'Pablo Honey'. The popularity and critical standing rose in the UK with the release of their second album, 'The Bends'. The third album, 'OK Computer', propelled them to international fame. They have released a total of 9 albums with great variety of music and themes and sold more than 30 million albums worldwide. Their work places highly in both listener polls and critics' lists of the best music of the 1990s and 2000s. In 2005, they were ranked 73rd in Rolling Stone's list of 'The Greatest Artists of All Time'; Jonny Greenwood (48th) and O'Brien (59th) were both included in Rolling Stone's list of greatest guitarists, and Yorke (66th) in their list of greatest singers. In 2009, Rolling Stone readers voted the group the second-best artist of the 2000s."

Extra UU2 – 21 Jump Street - Season 1 & 2 - Full Episodes

The Court haven't even started to look into the thousands of civil (borger) casualties due to drug abuse, related crimes and traumas, - not even entered the stage of realization, grief and anger. A hint is that the drug Mafioso started out as dealer at Ullern high school in the '70-80. This was 'SKAM' at the time of '21 Jump Street'.

"Johnny Depp became a popular teen idol during the late 1980s, when he starred as a police officer who goes on an undercover operation in a high school in the TV series 21 Jump Street, which premiered in 1987. These officers have especially youthful appearances, which allows them to pass for teenagers. Their assignments generally consist of undercover work in high schools and colleges, where they generally investigate drug trafficking and abuse. The show's plots cover issues such as alcoholism, hate crimes, drug abuse, homophobia, AIDS, child abuse and sexual promiscuity. Similarly, each problem is often solved by the end of the hour-long episode, giving an implicit moral about the impact of a particular activity. When the show originally aired, some episodes were followed immediately by public service announcements featuring cast members. Depp accepted this role to work with actor Frederic Forrest, who inspired him. Despite his success, Depp felt that the series 'forced him into the role of product' and later decided to appear only in films that he felt were right for him.

The association here is that it BGGG Games are hard to determine who rally is the Bad Guys – or Creeps.

Gorillaz – 'Humanz' live in Cologne (2017)

2017.sept.15

Ukens Utvalgte

The 50th additional "P5GO" blog was published last Friday. Therefore, the theme 'Music Break' takes over for a while. Still, there are some 'holes in the continuum' that might be filled in during 2017. Anyways, the first music break is a brand-new concert is by Gorillaz.

"Gorillaz are an English virtual band created in 1998. It consists of four animated fictional members that are and are not personas of any 'real life' musicians involved in the project. Their fictional universe is explored through the band's music videos, as well as a number of other short cartoons. In reality, Albarn is the only permanent musical contributor, and the music is often a collaboration between various musicians. Writers and critics have described their music as alternative rock, trip hop, alternative hip hop, electronica, indie, Britpop, dance-rock, rap rock, dub, reggae and pop."

"The band's 2001 debut album Gorillaz sold over seven million copies and earned them an entry in the Guinness Book of World Records as the Most Successful Virtual Band. It was nominated for the Mercury Prize in 2001, but the nomination was later withdrawn at the band's request. Their second studio album Demon Days (2005) went six times platinum in the UK and double platinum in the US. The band has won other awards, including one Grammy Award, two MTV Video Music Awards, an NME Award, three MTV Europe Music Awards, and have been nominated for nine Brit Awards. The band's third studio album, Plastic Beach, was released in March 2010. Their fourth studio album called The Fall was released in December 2010 as a free download for fan club members, then in April 2011 as a physical release. After a six-year break, Gorillaz announced their fifth studio album Humanz, which was released on 28 April 2017." (Wikipedia)

Extra UU – 'We Got The Power' with Jean-Michel Jarre

Gorillaz has entered a lighter attitude at their newest album. Apparently, so do major artists think too.

"Gorillaz brought out the big guns at Printworks London when they performed 'We Got The Power'. It was a performance to remember as they were joined on stage by Noel Gallagher, Jean-Michel Jarre and Savages lead vocalist Jehnny Beth - a definite highlight from the new album 'Humanz'."

Susanne Sundfør - Mitt Lille Land (Ole Paus - My Petty Land)

2017.sept.08

Ukens Utvalgte

This last blog before the 11/9 NoExit election focus on one single issue, since dominant Game players insist that such elections are simple as; yes vs no, red vs blue and left vs right. Taking that simple-minded 1D political model seriously, the ultimate choice is whether a political party is 'constitutional loyal' and do not promote 'constitutional crimes'. Such a choice is again deadly serious in the Eastern Europe, - yet silenced in the Western European press. That vital truth appears more honest in the eastern European nations, nowadays, where the anti-European forces have uncloaked themselves as hard-core Underworld Game players for the nova Russia. Therefore, the support by the western voters should be on parties that support them back - and their true and friendly neighbors, - in the European Union. In this blog, both the 3D and 1D political model are used to review the political parties and classify them as constitutional or not. In order to do so, after a theoretical introduction, there is a closer look into the constitutional attitudes the rivaling parties, a vote and vote-not list, and finally conclusions with some 5D reflections.

The fundamental stand to this NoExit election is based on the main ethics for these P5GO blogs. It is summarized in UU 2015.nov.06: "Europe is the cradle of democracy. This dogma is fundamental for any European nation. However, Europe has only 10% of the world's populations, and (Norway) merely 0.1%. Therefore, Europe is crucial to humanity and extra hard to defend. The Quality of Lives is as fundamental for democracy, nations and organizations, as for any person. This was talked through in UU 2015.april.10. And, finally; "LifeQuality is defined as: A person's totality of properties and potentials to satisfy stated and implied needs." The 'implied needs' relate to Maslow's Hierarchy of Needs and the 'stated needs' are similar to the 'Human Rights'. "Unfortunately, and evidently, anti-democratic nations oppose the Human Rights and Needs, sometimes aggressively with conning Underworld Games." Moreover, the unique Norwegian Constitution was focused in the previous UU 2017.sept.01 and related to its democratic elevation to its 200 years' anniversary. The very grave anti-thesis to this is the obsessions of the 3rd International's 21 Conditions - hosted in 'parallel organizational apparatuses'.

Several political parties and persons are dictated and obsessed to promote violations to most paragraphs in Norwegian Penalty Law, including terror and high treason, in order to Execute CdE (Coup d' Etat). The obligated bondage is dictated in the 3rd International's 21 Condition. (See link to Wikipedia.) After a century, the dictate is still addresses all 'simple worker, every woman worker, every soldier and peasant' to fight systematically and pitilessly the national civilians (bourgeoisie) of 'yellow trade union' and 'European unification' (the past League of Nations). The commands were made prior to the WW2, legitimized by the Molotov-Ribbentrop Pact, executed on European nations by the Stalin-Hitler conspiracy in WW2 and intensified in the Cold War from 'parallel organizational apparatus' within the parliamentary LEJD powers. However, the high treasonous Coup d' Etats in the Eastern European nations did not succeed in the western European nations. However, related organisations and persons are still obligated and obsessed to promote such political propaganda in national parliamentary elections, - like this NoExit 11/9. These organized

criminal obligations are focused and quoted in several blogs like UU 2017.aug.25, UU 2017.mars.10 and UU 2016.sept.09. The 3 first condition of the 3rd international summaries most about the international organised crimes towards any 'western' nation:

- C1 "All propaganda and agitation must bear a really communist character and correspond to the programme and decisions of the Communist International. All the party's press organs must be run by reliable communists who have proved their devotion to the cause of the proletariat. The dictatorship of the proletariat must not be treated simply as a current formula learnt off by heart. Propaganda for it must be carried out in such a way that its necessity is comprehensible to every simple worker, every woman worker, every soldier and peasant from the facts of their daily lives, which must be observed systematically by our press and used day by day." "The periodical and other press and all the party's publishing institutions must be subordinated to the party leadership, regardless of whether, at any given moment, the party as a whole is legal or illegal. The publishing houses must not be allowed to abuse their independence and pursue policies that do not entirely correspond to the policies of the party." "In the columns of the press, at public meetings, in the trades unions, in the co-operatives – wherever the members of the Communist International can gain admittance – it is necessary to brand not only the bourgeoisie but also its helpers, the reformists of every shade, systematically and pitilessly."
- C2: "Every organisation that wishes to affiliate to the Communist International must regularly and methodically remove reformists and centrists from every responsible post in the labour movement (party organisations, editorial boards, trades unions, parliamentary factions, co-operatives, local government) and replace them with tested communists, without worrying unduly about the fact that, particularly at first, ordinary workers from the masses will be replacing 'experienced' opportunists."
- C3: "In almost every country in Europe and America the class struggle is entering the phase of civil war. Under such conditions the communists can place no trust in bourgeois legality. They have the obligation of setting up a parallel organisational apparatus which, at the decisive moment, can assist the party to do its duty to the revolution. In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity."

"Although the original text names their subordinated 'communists', - there are options to name parties and participant something else. The abstract term PROSA (Pro-Russian Oligarch, Separatists and Anarchists) is used for the participants in this blog series called P5GO (the 5th Pyramid Game Over). Furthermore, their organisations have the abstract term BRAF, RAF and GRAF, which means Brown, Red and Green Army Factions." (UU 2017.aug.25)

Even now, political parties for 'worker, woman worker, soldiers and peasant etc., are infiltrated and manipulated to be 'parallel organisational apparatuses' in order to execute the 3rd International's obligations. Some of the Nova Russian goals are transformed to Norwegian political issues like:

- Weakening the Norwegian relation to the 'western' defense alliance NATO.
- Weakening the Norwegian constitutional relation to the EFTA and EEA Treaty with the EU.
- Maintaining the illegal and dominant soviet market models by peasant organisations.
- Protecting and promoting the illegal oligarchic dominance in the markets of the public sector.
- Preventing Norwegian oil production in the north that is considered to be future Nova Russian.
- Promote Gazprom market entrance by weakening energy competitors of diesel, nukes, etc.

When knowing the ulterior nature of such political Underworld Games, it is rather easy to spot the political parties that have become remote controlled apparatuses for high treasonous political activities.

Nevertheless, some explanation to the 3D political model is in place before diving too deep into the simple-minded 1D political model of the 3rd International. The following quotes are from blogs related the model to previous Norwegian and Dane elections. (UU 2017.aug.11, UU 2016.juli.01 and UU 2014.sept.12)

- "In such a 1D model, all parties are placed on a straight line between the two points Left and Right. It gives an impression that Throne and State are absolute opposites that all other parties have to relate to one of them, and that extremists always are beyond one of these two points (extreme Left and extreme Right). However, this 1D can be viewed in another way. If the two ends of the line are attached, you will see that the two extremist's groups are not opposites at all, but at the same area

at the circumference of a 2D circle. Left and Right extremists basically represent the same destructive anti-powers despite any 1D political relation. Nonetheless, a comprehensive model is not made by simply relating Right and Left to a single point. To build a 3D model, the next step is to let State and Throne represent their own axis in a 2D area. Besides, the two axes do have negative scales, where extremists consequently will place themselves as anti-parties on their rivals' negative scale." (UU 2017.aug.11)

- "Anyways, the 0D, 1D, 2D and 3D political models are still valid as earlier. However, it should be stressed that the ancient primitive political models, based on 0D and 1D, are declared obsolete due to inadequate foundation in political realities. Only Pyramid related politicians and mass-media still propagate such. Furthermore, the absurd geographically term 'The West', i.e. Europe and America, does not merely prove the 2D stone age illusions from Moscow's Comintern about 2D Flat Earth and flat Sky, but also insane political perspectives on humanity. The World is round – period. Calling a region west, east, north or south is as absurd anywhere in the world except for a fixed point of the source, like the Kremlin. Such ignorant arrogance merely proves how Bad/Destructive/Wrong the Illusions of the International Comintern are. Simple 0D, 1D and 2D will experience democratic event as 'ghosts in their machine' and act psychotic and paranoid toward it. 'The West', i.e. US and EU, unfortunately experience powerful paranoid Games like ABD (Attack is the Best Defense), LYAHF (Let's You and Him Fight), RPPP (Robbing Pete to Pay Paul) and DAC/UAC (Devide&Conquer/Unite&Conquer). Anyone sane left in that 0D system should free themselves before it collapses in itself. However, present generation civilians will probably be enlightened enough to run the Roma3 machine sanely." (Also see description of Games in UU 2014.aug.29)
- "The 3D political model, that is the basis for the LEJ model, was introduced to this theme in UU 2015.okt.16. "The 3D model is another tool to improve the perception of political Games. The 3D political model is a psychosocial version of the traditional 1D political model. It is described in UU 2015.juni.12 for Dane and Nor parties. Originally, 3D related to the parliamentary fundamentals Throne/State/Temple, but now rather relates to LEJ (Legislative, Executional and Judicial). "A 3D model gives different perceptions of the political world than today's 1D model. Organizations' names can be misleading. Confusing is that the Dane Venstre (Left) is like the Norwegian Høyre (Right), and that the Dane Radikale Venstre (RV) was a civil (bourgeoisie/borgere) party in Government, while the Norwegian RV (Rød Valgallianse) was a left-extremist failure. Furthermore, the 1D model shows several parties 'in the middle' while the 3D presents more descriptive relations. The Nor SP (Senterpartiet/farmers) is confusing, since it is not in the center of neither 1D, 2D nor 3D. Politically, SP moved from Throne to State and is now bound to State subsidies. KrF (Kristelig Folkeparti) relates more to Throne and State than Temple due to family policies and the State dominated Church (Statskirken). FrP/DF (Fremskrittspartiet/Dansk Folkeparti) was originally Throne oriented, with factions' hard rhetoric of anti-State. Rødt (Red) and EL (Enhedslisten) are extreme State parties that still find civil war 'necessary means' for their CdE (Coup d' Etat) ambitions. National socialists relate, as the name indicates, to State, but became dominated by the next generation, - national communists (after ww2)." (UU 2015.nov.06) (Note that the previous RV party is now reincarnated in the party Red (Rødt).)
- "Positioning organization in the 3D model can be done by using coordinates like (x,y,z) for L,E,J (originally: where Throne,State,Temple is (Th,St,Te)). General stereotyping in a scale from -10 to +10 can then have the following positions: Royalists (civilians -bourgeoisie/borgere)) (+10,0,0), Republicans (public servants) (0,+10,0), Theocrats (Judges) (0,0,+10), Left-extremists (-10,+10,-10), Right-extremists (+10,-10,-10), religious warriors (-10,-10,+10), UN (+5,+5,+5), hunters/farmers (0,0,0) etc. The size of the 3D item could represent Powers like Influence, money, members, etc. 'Democratic' is rather about general respect for others and true democrats should be position on all positive scales. Any negative numbers rather reveal bogus organizations that are not what they express." This is certainly not measured for Dane, Nordic or European nations. However, a fair assumption is that the average for LEJ can be set to (+5,+5,+5). However, the focus should not be set on an average, but rather at the extreme negative actors, that drags the quality of LEJ from +10 towards the negative."
- "Political organizations change over time. It shows in a 4D model, where 3D positions reveal movements over time. Terms like 'conservative' and 'radical' are no longer fixed positions in 3D,

but show stillness and movements in 4D. Organizations can even be relatively conservative or radical in timeframes. The organization, not party, LO is one of Norway's most conservative political organization, despite its extremely radical origin. LO's bond to AP (Arbeiderpartiet/Labor) makes it a powerful para-LEJ actor. (UU 2013.sept.20 and UU 2013.aug.23.) On the other hand, conservative organizations of the previous century can be relatively radical now, because they are in opposition instead of position. The 4D model will also show organization that come and go. Relations of short-lived extreme organizations might show as pulsing constants in the 4D model, like the Nor line of NKP, AKP, AKP-ML, RV and Rødt." As mentioned throughout this theme and especially in UU 2013.sept.20 and UU 2013.aug.23, there are powerful para-LEJ organization in Denmark, Norden and probably in all European nations. They are major Game player in national LEJ, since they are highly illegal according to national penalty law. However, the ulterior Moves becomes indirectly apparent during such vital decisions like this Dane referendum concerning European cooperation with EUROJUST, EUROPOL and CEPOL. Para-LEJ politicians uncloaked themselves by public indignation when head of Europol, Rob Wainwright, told some truths about the real consequences of a Dane opt-out from Europol." (UU 2015.okt.16) (Note that the 4D model was later named 3D+t, where time is considered a factor, not a dimension. The fourth Dimension was then dedicated the 4th Parliamentary power, - Democracy.)

Several parties call themselves 'centrum' and 'block independent' in the confusion that the simple-minded 1D political model cause. They relate to 'left' or 'right' in issues, not programs. Of the represented parties are: KrF, V, Sp and MDG.

There are 24 different political parties in Norway that the citizens can vote for in 11/9-2017. Still, only 1/3 are in the Parliament and thereby have Legislative powers. One reason is that there are some electoral rules and practices for qualifications for the small parties and bonuses for the qualified ones inside the Parliament. Another reason is that the press systematically silence them so the voters do not know of their existence and agendas. Anyways, this following list of parties shows names in English, Norwegian and the number of seats in Parliament: Labour Party (Arbeiderpartiet, AP) (55); Conservative Party (Høyre, H) (48); Progress Party (Fremskrittspartiet, FrP) (29); Christian Democratic Party (Kristelig Folkeparti, KrF) (10); Centre Party (Senterpartiet, SP) (10); Liberal Party (Venstre, V) (9); Socialist Left Party (Sosialistisk Venstreparti, SV) (7); Green Party (Miljøpartiet De Grønne, MPDG) (1); Red Party (Rødt, R) (0); The Christians (De Kristne) (0); Pensioners' Party (Pensjonistpartiet) (0); Pirate Party (Piratpartiet) (0); Coastal Party (Kystpartiet) (0); Democrats in Norway (Demokratene i Norge) (0); Christian Unity Party (Kristent Samlingsparti) (0); Liberal People's Party (Det Liberale Folkepartiet) (0); Communist Party of Norway (Norges Kommunistiske Parti) (0); and Hospital to Alta (Sykehus til Alta) (0).

The party's programs reveal whether the party support 3rd International propaganda and the present anti-western, pro-nova-Russian, politics. In brief, such parties appear to be; Demokratene, Alliansen, NKP, Kystpartiet, Samfunnspartiet, Rødt, De Grønne. Parties with programs that also appears considerably infiltrated and manipulated, appear to be; Partiet De Kristne, Piratpartiet, Feministisk Initiativ, Arbeiderpartiet, Sosialistisk venstreparti, Senterpartiet. The most constitutional loyal parties appear to be; Venstre and Høyre, while KRF and FrP appears to have slightly infiltrated candidates on single issues. The following is reflections on parties that more or less express negative to the Parliament's pro-European Constitution:

- Centre Party (SP) focus on farmers and relates apparently to the 3rd International's appeal to 'peasants'. Their supporters are heavily subsidized with 'state aid' that violates the EAA treaty and law. SP is an aggressive and obsessed party in EFTA related issues. SP simply declare itself as anti-EU and anti-EFTA with no realistic alternatives, simply because they cannot mention 'nova Russia'. SP became a historical success in the EU referendums. Now, SP attempts to repeat with help from some AP/LO hosted conspiracy.
- Socialist Left Party (SV) is also obligated to the 3rd international 21 condition, but appeals most to 'women workers', like social workers and bureaucrats. However, the attempted turnaround to Maoism by Solberg failed and left the party barely existing. (It was a parallel possess to the Dane SF.)
- Green Party (MPDG) is a new extreme green party that succeeded in a CdE in Oslo Town hall. Now, concealed with environmental arguments, it fights competitors to Gazprom like the Norwegian oil

production. MPDG fights the EU too, but wants to use EFTA as an apparatus to alter EU politics. MPDG do not favor any of the Prime Minister candidates and not propose anyone - yet.

- Communist Party of Norway (NKP) was formed before ww2 by excluded AP members that still were bond to the 3rd International and its 21 conditions. NKP is not represented in the Parliament, but manipulates LO considerably.
- Red Party (R) is this centuries continuation of NKP. They also promote the obligations of the 3rd International's 21 condition with younger and more charismatic persons.
- The Pirate Party main goals are freedom for IT piracy, a right to utilized others' intellectual properties and privacy from the authorities. They relate to the similar European parties that grew fast when Russia became aware that their PROSA agents use of IT was monitored in 'the west'.
- The Coastal Party is yet another anti-EFTA party that focus on fisher, especially in the northern regions at the Russian borders. The agriculture in the north is reputed for unlawful businesses and has high PROSA density.
- Christian Unity Party is anti-EU and arguments that 'it is not meant to be'. The Christian influence might be Russian orthodox as well as any other Christian faction.
- Demokratene (the democrats) main objective is to end the EEA Treaty and the Schengen Treaty and is against membership in the EU. Democrat in this sense is like DDR.
- Alliansen (the alliance) was registered in 2017 and financed by a free mansion that has the main objective to end the EEA Treaty and the Schengen Treaty. The name alliance is used by PROSA parties.
- Samfunnspartiet (the society party) are against EFTA and EU. If Norway joins the EU, the party will fight for northern Norway's independency. This promotes previous failed attempts to occupy the northern region Finnmark.
- Feministisk Initiativ (feminine initiative) originally promotes women rights and fights discrimination. Later, anti-racism became a main goal too. However, other anti-racism NGOs in Norway have been convicted for corruption by extreme organisations with 3rd International agenda.
- Labour Party (AP) is divided, but does formally defend the EEA Treaty with EFTA and EU. AP and LO are still interdependent. However, there are factions in LO from the party Rødt that tries to change the party by turning LO.
- Christian Democratic Party (KrF) supports the EEA treaty, but is against a EU membership.
- The Progress Party (FrP) has always silenced the EU issue, which indicates that it hosts hardcore PROSA candidates. There have been attempt to split the party, like the Dane former FrP. Now, their stand is clear that FrP favors the EEA treaty, but not EU membership.

It might seem like only the Conservative Party (H) and the Liberal Party (V) are most loyal to the constitutional law of EEA, while the 2 other 'borger' parties also are so, but has internal deviating factions. However, there are also minor parties not represented in Parliament, like Pensionistpartiet (the pensionists' party and Liberalistene (the Liberalist) that should be honored with representation in the Parliament.

It seems that the warning from the old AP patriarch Einar Gerhardsen in 1948 is still as valid, where warned in his 'Kråkerøy speech' about the 'internal enemy' in LO. Therefor a whole chapter from the previous blog UU 2017.sept.01 about the nature of Political Games are cited here: "Still, the major blog-theme is P5GO (the 5th Pyramid Game Over), which requires some reminder of the what Games are about. This is in certainly relevant for this DDD blog. Here is a brief summary from UU 2017.mai.26.

- "The Pyramid Games are described in the initial UU 2016.mai.13. Pyramid Games are based on the illegal 'Pyramid scheme', 'Eight-ball' and 'Gifting circles'. 8 people are lured by one to 'invest' in illusions of repayments in a distant future, - not realizing that the Game is built to collapse and rather cause their ruin. The ethics to such Game masters are 'honesty is for suckers'. The 5 Pyramid Games in this UU theme are related to the 5 Internationals. Those 'suckers' are lured to contribute to domestic CCD (Colony Collapse Disorder) that weakens their prey nation enough to enable the main gains of CdE (Coup d' Etat). Related sub-Games played by potential PROSA agents are of all categories, - especially Underworld Games and Sexual Games like; NIGYSOB (Now I've Got You, You Son of a Bitch) and Schlemiel, SWYMD (See What You Made Me Do), ITHY (I'm Only Trying to Help You), LPAFJ (Let's Pull A Fast one on Joey), LYAHF (Let's You and Him Fight), DAC&UAC (Devide&Conquer & Unite&Conquer), ISR (It Started with the Retribution), ABD (Attack is the Best Defense), Jante/TUD (The Ugly Duckling), TLM

(Two Little Maids), BGGG (Bad Guy, Good Guy), RPPP (Robbing Pete to Pay Paul), ODAB (One's Death – Another's Bread) and the Russian BOOFY (Beat your Own and Others will Fear You). (UU 2014.sept.12.)” (UU 2016.juli.15)

- “In Norden, LO (The Confederation of Trade Unions) is the International para-organization that is bound to the obligations of the high treason of the 3rd International, - the Moscow Thesis. LO’s 100 years of political dominance and related LEJ inabilities, proves the seriousness of Parliamentary corruption. However, after 100 years of corrupting CCD and incapable of doing the CdE, LO members should finally realize that they merely contribute to continuous negative BDW (Bad, Destructive and Wrong). ethics that never will realize their illusions of GCR (Good, Constructive and Right). Most probably are able to see that, but ignore it. They do not dare to risk the processes of a true democratic reform of their Union. They know very well from history the brutal consequences from the Game masters.”
- “History proves that such cleansings of loyal citizens (bourgeois), with radicalized workers, were extremely violent before, under and after the WW2. The death tolls were tens of millions of humans during the PROSA regimes of the puppet oligarchs like Lenin, Stalin, Hitler, Mao, Pol Pot etc. Several previous UU blogs concern LO cultures at CCD and CdE levels, for example: The unclinking of a Stalinist mass-psychopathic culture when overthrowing a matriarchal LO leader – the ‘Valla’ case (UU 2013.aug.30). The Stalinist cultural root of WW2 is still dominant in LO (see Wikipedia link under), and the TV documentary about the boy Selmer that was donated to Soviet Union and became an unwillingly spy. It also indicates the cloaking of thousands of STASI agents in Europe during the cold war (UU 2014.juli.04). More recent is the ‘Treholt’ Game LPAFJ (Let’s Pull A Fast one on Joey) as diversion to save other major PROSA agents (UU 2013.aug.30). The Game concept changed to SWYMD (See What You Made Me Do) in the massive organized CdE bomb and massacre in Norway five years ago today. The Judicial system proved that willingly scapegoats are more effective as diversion for the major PROSA agents (UU 2012.Juni.01), - until he also realizes he was no Nashi (Наши) hero, but just another 5th Pyramid Game ‘sucker’.”

“In brief, most public servants are unaware and unwillingly bond to the high treasonous 21 conditions to the 3rd International. The European parliaments are obliged to free them immediately. It is very possible with temporary ‘basic income’ and other means of IR4. (UU 2016.juli.22)”

The only highly probable Governmental coalition is the continuum bourgeois H/FrP with support of V/KrF. It will continue the parliamentary and governmental situations that the Norwegians have learned to know the last 4 years. However, this time, the negotiations between the 4 bourgeois parties will probably be much more experienced. Actually, minor changes for the parties in the parliament will not change the status. If V decides to join the government, it might even get majority in the parliament.

The only possible socialist coalition is AP, SP and maybe SV since AP do not want the extreme R and MPDG in government. However, SP have already warned the socialist coalition about deviating politics that will dived such a government. SP; does not merely want to shoot the wolves, but actually terminate them; will not increase the taxes as much as AP; wants to reverse the reform of the police; pay the farmers and communes more; not restrict the state aid for kindergartens; wants to reverse some reductions in the defense: and wants to return the management of hospitals to the regions. Most important, SV and SP wants to fight the EEA Treaty, whilst AP officially will support it. The anti-EEA movement is strongly supported by SV, R, MPDG and LO factions. However, AP and SP agrees on oil production and strong defense in the north, while SV and R takes a PROSA stand.

Still, the Federal Trade organisation LO is as powerful and influential as any political party. It might infiltrate in Underworld Games, now that their favorites seem to lose the race. Some clips are taken from previous Norwegian elections in blogs like UU 2014.juni.20 and UU 2017.april.21.

- “As mention in UU 2014.juni.13, the AP/LO dominated development in the public sectors for a century is obviously the main reason for the grave state of the nation. Just as oblivious, the AP/LO conspiracy is not fit to Execute the required changes that the 22/7 commission points out. As described in the theme ‘LifeQuality and Election Nor2013’ in UU 2013.sept.20: “The AP’s alter-ego, LO, has started Plan C ‘Basketak’ (The Tussle). Stoltenberg (AP PM) was massively deleted from AP’s election lists and is exposed for harsh interviews by the mass-media. LO do not have time for his Plan B ‘I still sitting here’.

With a simple T.A. (psychosocial transaction analysis) and seen from the LO/AP regime's side, - the 5D model indicates 3 alternatives for future scenarios. A; AP do not lose the democratic election after all (in 2013). B; AP takes over the Government after its collapse. C; LO dominates the Government after a collapse in the Legislative power (the Parliament/Stortinget). (The political 5D model is described in UU 2013.april.26)"

- "As known, the 5D scenarie A failed, because the Democracy had lost their faith in the Red-Green chaotic and unfaithful governing. The 5D scenarie B was not an option anymore in that parliamentary period due to the subsequent shift in leadership in AP. The AP PM candidate Stoltenberg got a relieving job as General secretary in NATO. Støre, the present AP PM candidate, got short-cuts to the AP leader position while all his rivals are systematically and effectively silenced. Strange, AP members might think, that this outsider simply just bought a membership to become Foreign minister. Not that strange, when knowing the flow of brand new oligarchs to the dominant political party. However, despite all the plutocratic money, Støre needs to gather support in AP and LO to survive. However, there are angry mumbling at the ground-floor. It seems like Grete Knudsen's book 'Basketak' (The Tussle) inspires to a decisive contra-revolutionary civil war in AP between the AP and the LO. The outcome is hopefully that Norway finally get a Social Democratic party, free from the dominant and remote controlled 3rd International, - like most of the other western civilizations."
- The comments at the time was: "There are some issues to this 5D scenario that can be explained like this. The Green-Red alliances is powerful in Norway, have been in previous AP/LO governments (Stoltenberg) and might return (Støre). Moscow related political parties have always opposed NATO and EU and would, if they could, cancel membership in both NATO and EFTA (EEA trade agreement with EU). Norway is a major oil & gas exporter to Europe and thereby a main competitor to Russian oil & gas export. Nova Russian ambitions seems to be control over Svalbard and mainland region Finnmark in order to gain control over major areas in the Arctic Sea. Thorium based fusion energy is theoretically possible in a distant future, but no option for the present energy market."

However, the new AP leader (Støre) is no traditional 'worker', but an oligarch with a fortune at almost 10 million Euros. Although he learned diplomacy in the ministry of foreign affair, he is having a hard time being accepted as replacement for the potential candidates for both AP and LO. The whole socialist alternative coalition will fall if Støre personally fails. The AP/LO internal rivalries for a new leader will be as self-destructive as their rivalries in the Parliament and Government. Now, LO factions seem to promote parliamentary CCD, since they cannot control the maturing democracy in AP.

By the way, like in most European elections, the secret police 'PST' says that themselves, the Ministry of Foreign Affairs (UD), the Defense and AP are hacked by the Russians. Furthermore, Norwegian and Russian citizens visiting Russia have been attempted and pressured to work as PROSAs. One consequence is that the ballots will be counted manually this year, like in the Dutch Nexit election.

The conclusion and advice to any voters in the 11/9 NoExit election is therefore to vote on true constitutional parties, that promote the democratic values and politics. Most of the political parties are infiltrated and manipulated to some extent by PROSA agents. However, the obvious PROSA parties should not get any votes from any true citizen. They are simply bond to the sociopathic 3rd International's 21 conditions that states "it is absolutely necessary to combine legal and illegal activity" "regardless of whether, at any given moment, the party as a whole is legal or illegal". That includes lies to the 'petty bourgeois' voters - like you.

Do not vote for; SP, SV, MPDG and definitely not Rødt. Even AP should not get votes since PROSAs manipulates the party via the federal trade organisation LO.

Rather vote on H, V or their related parties FrP and KrF. Likewise, minor and constitutionally loyal parties, like the Pensionists and the Liberalists seems to be, should also get the chance to be represented in the Parliament.

(Also, this is the 50th additional blog to the 12 blogs that formed the theme 'the 5th Pyramid. It started in UU 2016.mai.13 with description of the 5 Pyramid and concluded in UU.2016.sept.23. The 50 additional P5GO blogs (5th Pyramid Game Over) started in UU 2016.okt.28. However, there were 8 blogs of 'music break' from UU 2016.nov.18 to UU 2016.sept.30 before realizing that the White House CdE actually were going to happen. Therefore, there might be some ad hoc in the rest of this year 2017.)

Ole Paus Ole Christian Paus is a Norwegian troubadour in the Swedish-Norwegian ballad tradition, an author, a poet, and an actor. He is widely considered one of Norway's most popular singer-songwriters. He debuted as a singer-songwriter in 1970 and as an author the following year, after he was discovered by Alf Cranner and Alf Prøysen, respectively.

The song 'Mitt lille land' ('My Petty Land') is written in 1994 as a lyrical description of Norway. The song was originally written for a pro-EU organisation in connection with the Norwegian European Union membership referendum, 1994. The song gained strong popularity following the 2011 Norway attacks, which led to it being described by the media as 'the new national anthem.' The NRK memorial concert was named "Mitt lille land," and the concert opened with the song. The national memorial ceremony opened with the song, followed by a speech by King Harald V. On the Norwegian Constitution Day in 2012, the NRK broadcast was opened with the song.

The association to this song is how such simple poesy and tunes becomes the most valuable experience during vital events.

My petty land (translated lyrics)

My petty land, a small place with a handful of peace thrown out amongst plains and fjords

My petty land, where mountains high are planted between homes and humans and words

My petty land, where silence and dreams grow like echoes among scarce soils

My petty land, where seas touch mild and smooth like caresses from coast to coast

My petty land, where stars glides by and reveals the landscape before the hushing night

Extra UU – Parliamentarism for Dummies

Anyone can start a political party and become a Parliamentary representative. However, this democratic opportunity in ‘western’ civilizations can be abused, corrupted and infiltrated. This ‘not-to-do’ parody does actually present some basic education on how the parliamentary system works.

Stortingsvalg (tekstet). Hvordan oppstår politiske partier, hvordan havner de på Stortinget, og hva menes egentlig med «sperregrense»? Se film om den fiktive representanten Børge Vegheim, spilt av Bård Tufte Johansen.

Dickie Dick Dickens - Kampsangen

2017.sept.01

Ukens Utvalgte

This 3rd blog before the NoExit election at 11/9, focuses on the influence the radio-drama ‘Dickie Dick Dickens’ had on the real Underworld Games towards the constitutional LEJD powers. This hypothesis is that the creation of the ‘parallel organizational apparatuses’ in the Parliamentary LEJD organisations was

inspired by the broadcasts from the dominant radio station NRK. It might even have been the intention. The DDD scrips originated in Germany during the Cold War and tells how a petty thief became a dominant Underworld Gamer in a 'western' city. The numerous episodes can be interpreted as scripts on how-to fulfill the 21 Conditions of the 3rd International. Actually, the DDD scripts are like how they started, - 'the Stalin', 'the Jackal' and innumerable PROSA agents and related organisations. As for Norway, the focus is set on some major domestic crime cases, which turned out to be politically motivated and even International organized. The main aim for this blog-series 'P5GO' (the 5th Pyramid Game Over) is to prevent such International destructive organisations from doing such CdE Games at the 11/9 NoExit election, - as well as the following Gexit, Chexit and Lexit elections.

This blog follows up on the main concerns in the previous blog UU 2017.aug.25: "The AP/LO symbiosis dominated the Norwegian parliamentary powers (LEJD) during the coldwar - and still do. Subcultures of AP (workers' party) and LO (workers' federal union) were bond to the Soviet Union's 3rd International and its 21 conditions that violate 'western' Penalty laws in most respects, - including high treason. Still, few of the AP/LO conspiracy are penalized for the crimes, which proves the corruption of the Judicial powers too. This 'parallel organizational apparatus' within the LO/AP symbiosis is an evidence that concerns the international authorities of the rest of 'the west'. The manipulation by the international LO at the NoExit election on 11/9 should therefore be focused by any of member nations of EFTA, EU, ECtHR, NATO and US, as well as EU institutions like Europol, Eurojust, Cepol, CoA and OLAF. In order to argue that, this blog provides some elaborations on the history, after some introductions. However, most conclusions are in the relevant paragraph because they are based on previous blogs."

First some words about the previous parliamentary elections, of both Norway and Denmark. These are focused in several blogs, like UU 2014.juni.20, which is a concluding summary to the 200 years anniversary for the Norwegian Constitution. It is a thoroughly discussion of the new constitutional situation as well as opportunities and threats. Most chapters are translated from Norwegian for this occasion.

- "Norway made a unique constitutional fundament prior to its 200 years anniversary. Norway innovated the democratic obligation to its citizens by making the Human Right Law superior. (UN and ECHR Human Rights Treaties.) The challenge for this century, however, is still to have the Executive and Juridical powers to apprehend their obligations. Thereby, this blog provides the conclusion and focus on the past in order to evaluate the nations relation in the dawning century and millennium."
- "One might call the year 1999 a democratic re-constituting contra-revolutionary. This is elaborated in the blog theme 'LifeQuality and fundamental theories' in UU 2013.feb.15. In fact, 'Menneskrettsloven' (the Human Rights Law) sets the citizens' rights above the state's. Certainly, there are civil limitations, but the citizens got undisputable rights for ownership, freedoms, security, privacy, family life, work, education, - as well as freedom for thoughts, conscience, religion, speech, and more. Public servants' violations of these rights are criminal acts according to the Penalty law and shall be prosecuted as such. In fact, in 2012, the Norwegian Constitutional Law's §2 was changed to include the Human Rights, which definitely makes the Human Right Law constitutional and superior to other Norwegian laws. Furthermore, the text in the Constitutional Law was modernized in 2014 with present wordings instead of the old Dane 'dialect'."
- "A similar superior European obligation was made by the Legislative power (Stortinget) with the EEA Law (European Economic Area - EØS Loven). This issue was originally addressed in the blog UU 15.juli.2011 and in particular in UU 2013.nov.01: "As well known for all the Parliamentary LEJD powers, the Legislative power (Stortinget) made the EEA Law and the Law of Competition in 1994. It changed the legal conditions considerably, - especially for public enterprises and the 3 parliamentary LEJ powers. In a sudden, both the non-public and the public oligarchies were outlawed. Their obligated adaption to legal behaviors is comprehensive, - which dominant oligarchs surely do not want. However, the mass-media and press do not mention legal prosecutions related to the EEA Law and the Penalty Law. The silencing states the impression that there are next to no legal prosecution in the public sector. In fact, it takes a lot of resources to prevent the LEJ from prosecuting. Still, it appears as being the state of the Nation" (yet, the solution to this problem is presented in the blog series about the present 4th industrial revolution possibility to automate the bureaucracies in the LEJD powers (See UU 2017.juli.21))"

- “A main reason for the vast number of crimes in the public sector is due to dominant oligarchy, comradery and other kinds of corruption. That is mentioned in UU 2013.aug.23: “Despite this, ‘NRK Brennpunkt’ made a sensational documentary called ‘LO’s great comeback’ (2 parliamentary periods ago). It discovered that LO, the international federation of trade unions, paid the dominating political party AP 13 million kroner (2 million €) for illegal influence in the Executive powers. In return, AP gave LO a minister position, several board memberships in major enterprises and favorable State Aid for their customers. It was called ‘re-communalization’. All these gifts for LO’s profit violate several laws from the Legislative power. LO was in fact charged for corruption, but the case was dismissed, argued to be ‘incorrect formulated’. This 100 years old LO/AP conspiracy culture is previously focused. In brief, there are strong bonds to the 3rd International’s 21 conditions (the Moscow thesis).”
- “By ratifying the laws of Human Right and the European Economic Area, - the Legislative Parliament (Stortinget) made great responsibilities to the Executive Government, the State, the Communes, the Public enterprises and the rest of the public sector. Evidently, it does not function well at all. A main reason is that the Legislative court still is seriously traumatized by the war-crimes during and after the WW2. The Legislative traumas are focused in UU 24.aug.2012: Finally, there is a conclusion to the Terror-case, - 60 years behind bars. That is twice the time as the maximum penalty for terrorism. This extraordinary sentence hit only ‘The truth, the whole truth, and nothing but the truth’. The authorities classified most of the documentation from the ‘22/7 Commission’ (22. Juli kommissionen) and stored in a highly secured cell. In there, ‘The truth, the whole truth, and nothing but the truth’ is locked away so no one in the present civil society will ever be exposed to it. None of the related crimes to the 2011 CdE and Massacre will be charged until the expiring date. (This CdE-like terror-case has several important aspects that are focused in the series of blogs from UU 2012.mai.18 to UU 2012.juli.20.)”
- “However, the ‘22/7 Commission’ delivered a professionally conclusive verdict for the public employees in the Executive power. They simply have inadequate will and ability to prevent terrorism. Like nothing ever happened, the involved personnel are rewarded with well-paid and protected jobs in the public sector. They are ‘Untouchables’. The Norwegian Judicial power is certainly traumatized by World War 2 and still suffers. It is obvious, when comparing the verdicts for several crimes in Norway. The Judicial power cannot heal itself and need comprehensive help from allied nations to overcome these international organized crimes. A clear indication is the systematic hindrance of the ratification of the ‘Terror Law’ in 2005. The Executive power’s IT personal claims that the law cannot be implemented before 2016 due to technical reasons. Meanwhile, the number of terror-related cases escalates in Norway, - especially related to Syria and ISIL.”
- “Certainly, humans are the driving force for the state-machines. Therefore, previous employment of public servants are the reasons for the mismatch between the democratic Parliament and the Government. When the Laws are changed, the ‘old’ legal practices can become unlawful and punishable. The silencing state-conservatism is one reason for the high level of crimes in the public sector. The evidences are obvious, as said in UU 2013.sept.27: “The necessary improvements of management cultures in State and Communes is highlighted in the 22/7 Commissions Report: The leaders at all levels in the public sector need to systematic improve their own and the organizational fundamental attitude and cultures related to: recognition of risks, ability to execute orders, inter-departmental coordination, IT utilization and result-orientated leadership. (See UU 2013.aug.09.) “The present conditions do fail the quality of public production and services. Therefore, it is unconditionally necessary to re-employ the leaders’ positions with unconditional clauses of legal loyalty, in order to ensure the hiring of leaders that are willing and able, - and not any more corrupted agents of comradery and other kinds of public crimes.”

In this blog, the theory is that professional Underworld Game-players used conceptual scripts to build mafia-like and outlawed ‘parallel organizational apparatus’ within some nations LEJD powers. The dominant and massive broadcast of DDD via NRK must have been influential for any DDD ‘wannabe’ too - maybe not directly, but certainly indirectly.

The radio play about ‘Dickie Dick Dickens’ (DDD) is a symbiosis of other major mafia bosses prior to the World War 2, that replaced all rivals, became doctoral, infiltrate the LEJ powers and dominated the whole western societies. Anyways, this is how Wikipedia present the Play.

- “Dickie Dick Dickens is a satirical radio play that tells the story of his rise from simple pickpocket to gangster leader in Chicago. It was first produced in Germany in 1959 by Bayerischer Rundfunk that produced the last of its 51 episodes. Radio Bremen, Schweizer Radio DRS, Norwegian NRK and Swedish Sveriges Radio also made their own productions. It became particularly popular in Norway where it was voted the most popular radio play of all time in 2001. The writers, Rolf and Alexandra Becker, also published five books parallel with the production of the radio play.”
- “The plot is set in 1920s in Chicago and tells the story of Dickie Dick Dickens that evolves from a simple pickpocket to the ‘most dangerous man in Chicago's underworld’, ‘a shining star in the wonderful million city's gangster sky’. His chief opponent is fellow gangster leader Jim Cooper while his opponents in the police include Chief Sergeant Lionel McKenzie and Sergeant Hillbilly.”
- “An important part of the play is the two narrators who underline that the story is based on ‘countless partly dubious, partly non-existing sources’, which form the basis for an ‘in every detail truthful rendering’. Each episode ends with a cliffhanger, which works like a teaser for the next episode. Rolf Becker said in an interview that the play was inspired by American quasi-documentary crime series like *Dragnet* and some tendencies in film noir. Johannes Joner, who played Dickie Dick Dickens in a theater version, describes Dickie as a mixture of Al Capone and Arsène Lupin. Bayerischer Rundfunk also produced six episodes that featured Dickie Dick Dickens travelling in Europe.”

“The radio play Dickie Dick Dickens came to Norway when the instructor for NRK Radioteatret was introduced to it on a work visit to a German radio station. The Norwegian version had song and music in various styles including a song about Chicago with a male choir. Dickie Dick Dickens became immensely popular, when being broadcast in the early 1960s, when there only was a state monopoly of Radio broadcast. In 2001, listeners of NRK voted Dickie Dick Dickens the most popular radio play of all time. Sveriges Radio produced 36 episodes in 1966 and 1967.” Even though not played in the dominant Dane radio station ‘DR’, the play was probably known, since Danes can receive Norwegian and Swedish radio broadcasts and do understand the dialects when they want. For example, the Blekingegadbanden by Gotfred Appel’s seems rather influenced by DDD.

Still, the major blog-theme is P5GO (the 5th Pyramid Game Over), which requires some reminder of the what Games are about. This is certainly relevant for this DDD blog. Here is a brief summary from UU 2017.mai.26.

- “The Pyramid Games are described in the initial UU 2016.mai.13. Pyramid Games are based on the illegal ‘Pyramid scheme’, ‘Eight-ball’ and ‘Gifting circles’. 8 people are lured by one to ‘invest’ in illusions of repayments in a distant future, - not realizing that the Game is built to collapse and rather cause their ruin. The ethics to such Game masters are ‘honesty is for suckers’. The 5 Pyramid Games in this UU theme are related to the 5 Internationals. Those ‘suckers’ are lured to contribute to domestic CCD (Colony Collapse Disorder) that weakens their prey nation enough to enable the main gains of CdE (Coup d’ Etat). Related sub-Games played by potential PROSA agents are of all categories, - especially Underworld Games and Sexual Games like; NIGYSOB (Now I've Got You, You Son of a Bitch) and Schlemiel, SWYMD (See What You Made Me Do), ITHY (I'm Only Trying to Help You), LPAFJ (Let's Pull A Fast one on Joey), LYAHF (Let's You and Him Fight), DAC&UAC (Devide&Conquer & Unite&Conquer), ISR (It Started with the Retribution), ABD (Attack is the Best Defense), Jante/TUD (The Ugly Duckling), TLM (Two Little Maids), BGGG (Bad Guy, Good Guy), RPPP (Robbing Pete to Pay Paul), ODAB (One's Death – Another's Bread) and the Russian BOOFY (Beat your Own and Others will Fear You). (UU 2014.sept.12.)” (UU 2016.juli.15)
- “In Norden, LO (The Confederation of Trade Unions) is the International para-organization that is bound to the obligations of the high treason of the 3rd International, - the Moscow Thesis. LO's 100 years of political dominance and related LEJ inabilities, proves the seriousness of Parliamentary corruption. However, after 100 years of corrupting CCD and incapable of doing the CdE, LO members should finally realize that they merely contribute to continuous negative BDW (Bad, Destructive and Wrong). ethics that never will realize their illusions of GCR (Good, Constructive and Right). Most probably are able to see that, but ignore it. They do not dare to risk the processes of a true democratic reform of their Union. They know very well from history the brutal consequences from the Game masters.”
- History proves that such cleansings of loyal citizens (bourgeois), with radicalized workers, were extremely violent before, under and after the WW2. The death tolls were tens of millions of humans

during the PROSA regimes of the puppet oligarchs like Lenin, Stalin, Hitler, Mao, Pol Pot etc. Several previous UU blogs concern LO cultures at CCD and CdE levels, for example: The unclouing of a Stalinist mass-psychopathic culture when overthrowing a matriarchal LO leader – the ‘Valla’ case (UU 2013.aug.30). The Stalinazist cultural root of WW2 is still dominant in LO (see Wikipedia link under), and the TV documentary about the boy Selmer that was donated to Soviet Union and became an unwillingly spy. It also indicates the cloaking of thousands of STASI agents in Europe during the cold war (UU 2014.juli.04). More recent is the ‘Treholt’ Game LPAFJ (Let’s Pull A Fast one on Joey) as diversion to save other major PROSA agents (UU 2013.aug.30). The Game concept changed to SWYMD (See What You Made Me Do) in the massive organized CdE bomb and massacre in Norway five years ago today. The Judicial system proved that willingly scapegoats are more effective as diversion for the major PROSA agents (UU 2012.Juni.01), - until he also realizes he was no Nashi (Наши) hero, but just another 5th Pyramid Game ‘sucker’.”

In brief, most public servants are unaware and unwillingly bond to the high treasonous 21 conditions to the 3rd International. The European parliaments are obliged to free them immediately. It is very possible with temporary ‘basic income’ and other means of IR4. (UU 2016.juli.22)“

It is a historical fact that major International anti-heroes, like the Stalin, started out like DDD and that the Jackal continued the Games in DDR. There must have been thousands of less famous PROSA anti-heroes executing sociopathic deeds in ‘the west’, like the 3rd International 21 Conditions dictates. This is mentioned in several blogs like the following quotes:

- “The Man of Steel / Stalin, alias Ioseb Besarionis je Jūgašvili, was originally a local mafia boss in Caucasus that advanced to the chief of operations to the Bolsheviks. They financed the organization with bank robberies, kidnapping, extortions and murders. He was imprisoned and sent to Siberia seven times but was always set free. He had no military background and did not serve in ww1. The need for better reputations was arranged by starting the newspaper Pravda (Truth). Next, he took the nickname Stalin (Man of Steel) to propagate himself and his organization. Lenin said that Stalin was the right person to operate Soviet and posted him as general secretary. Soon Lenin got stroke and had to resign. Stalin continued Lenin’s merits with 10 times the execution of own citizens. Stalin simply made Moscow a mafia empire. Nevertheless, Stalin is now a ‘patriarch of mass-psychopathy’.” UU 2014.juni.06.
- “Less known, but more important, are relations indicated to Carlos the Jackal. It was mentioned in UU 2015.feb.20 concerning the GRAF attack at ‘Krudttønden’ in Copenhagen: “Historically, in 1968, Carlos opted for the Patrice Lumumba University in Moscow that was reputed as a notorious hotbed for recruiting foreign communists to the Soviet Union. He was expelled from the university in 1970 by disciplinary reasons, though. Then he travelled to Beirut and Lebanon, where he volunteered for the PFLP (Popular Front for the Liberation of Palestine) in 1970 and tried to establish his own organization with Syrians, Lebanese, and Germans. Carlos was also connected to the STASI that provided him with an office and safe houses in East Berlin, a support staff of 75, a serviced car, and allowed him to carry a pistol in public. The STASI files also show links to the KGB (today’s FSB). There is no public information if Carlos and Putin had relations when they both were with the KGB in East Germany. However, Carlos the Jackal was most certainly closely related to RAF-dnk.” (UU 2014.nov.21.) Anyways, the Jackal’s main objective was to train Arabs in Underworld urban warfare like any sociopathic attacks from pillaging and terror to mass-murder.”
- “It is as hard to analyze Kremlinology as Vaticanology. However, some were done based on the BBC documentary ‘Putin, Russia and The West’ in UU 2014.nov.07, UU 2014.nov.28, UU 2014.nov.21 and UU 2014.nov.14. It concerned the nova-Russian CdE Games in Georgia and Ukraine during the rejection of the puppet presidents and the following undercover wars in their regions. It leads to the hypothesis about PROSA (Pro-Russian Oligarchs, Separatists and Autonomes), - this century’s Underworld version of the ill-reputed coldwar RAF (Red Army Factions). PROSA stems from the ww2 Stalin/Hitler BRAF (Brown-Red Army Factions) alliance based on the Molotov–Ribbentrop Pact 1939-1941. It became GRAF (Green-Red Army Factions) in this century. As throughout the coldwar, most NATO and EU nations have such Underworld CdE separatist cells today with illegal agenda, - cloaked as legitimate opposition to national governments. The Dane Blekingegadebanden was a RAF-dnk with Scandinavian relations to RAF-swe and RAF-nor. However, it turned GRAF with Gotfred Appel’s conversion from Stalinism to Maoism. By nature, such cells are determined to hinder strengthening of ‘rule by law’ with

international cooperation like EUROJUST, EUROPOL and CEPOL, - with urban warlike means, - like Blekingegadebanden and all its related organizations and persons.”

Concluding that the DDD had similarities to the Underworld Gamers of the Internationals; and that similar scripts were popularised by NRK to make DDD the major underworld anti-hero in Norway during the Cold War; - it is quite intriguing to look into some major Underworld Games in coldwar Norway, as well the LO/AP para-organisation.

This year's 'Cappelen vs Jensen' trial, is a major drug mafia lawsuit with complex relation to other criminal cases in Norway. This, and the ABB lawsuit, show several aspects that indicate the existence of a 'para-police', the 'parallel organizational apparatus' of the 3rd International Conditions. Here is a summary, while waiting for the final sentence in the midst of September 2017.

- The Police's own 'special investigation unit' charged their own undercover policeman, Erik Jensen, for plotting towards the police with a major drug mafia in Norway. The police claims that he helped the drug smugglers with vital information and provided other kinds of support. The case grew to be about decades of large drug smuggling from the Netherlands, via Denmark to Norway. The hearings were held public on TV, like the 22/7 Utøya case. The sentence will fall in midst of September 2017.
- The hearings indicate that there is a large international criminal organisation behind, involving drugs, money, weapons and bondage. Most surprising, it concerns internal manipulation of the police force itself, - like there is some 'parallel organizational apparatus', - a para-police. The hearings also uncovered several other surprising aspects. Both the mafiosa and the undercover policeman, claimed they had secret agreements with police-authorities that provided immunity and that they thereby could overrule the court by not telling the judges the whole truth. One 'defender' even gave openly 'friendly regards' to Cappelen's family, which was taken as indirect threats towards them. Cappelen's escape-routes and contacts indicate that the mafia network stems from Asia, not Europe.
- Most alarming is one reason why the police's special force charged their own undercover policeman, though. They indicate that he sent secret messages to a criminal organisation during the 'ABB terror case'. An SMS message from the undercover policeman to the drug mafia on 2011.july.22 said something like 'no new challenges'. The police indicate that the undercover policeman also provided important messages to criminals during the double terror attacks on Norway, - the bombing of the Government building and the Massacre on the LO/AF youth organisation AUF. A police representative, Schilling, says: 'It is shocking that the undercover policeman prioritized the mafia over the dramatic handling of the double terror attack. The police also want to find out if the terrorist ABB operated all alone or if there were several other persons involved.' Actually, the undercover policeman became famous and got his special privileges, when busting the so-called 'A gang' and 'B gang' rivaleri in Oslo. Not so well known is that ABB was involved in the gang before the Oslo terror attacks at 22/7. There might have been relations.

Therefore, the para-police is not about single petty criminals that occasionally is charged by their own and might get some scape-goat's reward. On the contrary, the cases towards these individuals reveal much more about the ulterior Underworld Games and the Game Players that watches closely and indirectly arrange some moves. The related double Terror case toward Norway was summarized in UU 2017.juli.14 like this:

- "ABB, the executioner at Utøya, got his para-military training in Eastern Europe and got associated to such cultures. Related organizations were talked through in UU 2014.nov.14: "Nashi (Наши), the Putinized youth organization, turned unacceptable. Wikipedia says: "In 2012, the leader of Nashi announced that the movement would be dissolving in the near future, possibly to be replaced by a different organization. Media have compared it to the Soviet Komsomol or the Hitler Youth and called 'Putin jugend'." In a Nordic view, it is remarkable that Nashi flag is like a diagonal Danish one and the neo-Russian flag is like a diagonal Norwegian one. Although still emotionally controversial, it is now legitimated to relate Nashi to Nordic political youth organizations, - and AUF in particular. No doubt that AUF is strongly related to 'heads of state', the major political party, the labor organization (LO) and public sector." (UU 2015.mars.20)
- "The Norwegian Trial of the decade is certainly the 22/7-2011 case. It was really 2 very different extreme terror cases; the CdE by blowing up the Governmental Building, and the massacre of the

governments youth organization (AUF). The joint trial is focuses in UU 2012.mai.18 to UU 2012.Juli.20, and UU 2012.aug.24. The over- focus on ABB's reward, the massacre on innocent youths, did take all the attention from the CdE bombing. There is no proof at all that ABB bombed the building and that no-one else were involved. It rather seems that he part was taking the blame in court and that his layer saw to that no questions about any relations were asked. However, some para-military and para-police were involved making all police and military involvements major failures. Even the armed ferry was disabled and the police put in fragile rubber boats. Actually, saving of the surviving youth was done by civilians, - not the police or the military. The trial concluded that all relevant documentation is to be locked up in 60 years, ensuring that the public will merely know the mass-psychosis of the mass-media, as described in the 3rd International." (Translated from UU 2012.mai.25 and UU 2014.juli.18)

- "There is an infamous failed attempt by psychiatrist to overrule the Court in the Norwegian terrorist case of 22/7 (UU 2014.nov.14). "There seems to be some alarming similarities to some ABB personal profiles. UU 2012.mai.18 to UU 2012.juli.20 followed the 22/7 trial about the CdE bomb and AUF massacre. During the trial, there were 2 contradicting psychiatric evaluation of his personality that caused serious distrust to the legal psychiatric system. The second psychiatric evaluation diagnosed ABB as not schizophrenic, delusional or psychotic, but rather with antisocial and narcissistic personality disorder, possibly Asperger and Tourette syndrome and some possibly paranoid psychosis. His lack of emotion, monotonous voice, 'stone-face' and peculiar smile was considered deliberate responses to his environment, indicating ulteriority, dishonesty, - or briefly, - a Game player. Furthermore, some psychiatrists seem political motivated Game players." The 2 very different diagnosis by the Forensic psychiatrists left civil court questioning whether their organization themselves were like diluted, psychotic and schizophrenic. Anyhow, the civil judges had to dismiss the psychiatrists' attempt to overrule the civil court and take the terrorist into their care. Yet again, - there is no reason to assume that Denmark is not subject to similar judicial crimes." (UU 2015.okt.30)
- At first, the following might seem irrelevant, but will probably prove that the ABB case simply was a Move in a larger and encompassing Game. "Furthermore, the ongoing 'Jensen vs Cappelen' trial is particularly relevant when focusing on any 'Western' Executive para-police and Juridical para-court. Jensen was an undercover policeman against the north European drug mafia and its informant Cappelen. They used cloaked SMS messages, like Tweets are used these days. The trial is broadcasted daily by the internet-TV of the newspaper VG (see links). So far, both have claimed that they have secret agreements with parts of the police that protects certain people in both the police and the mafia. The statements expose that the police is highly infiltrated and manipulated by the mafia. The motive of both Cappelen is to discredit the policeman to reduce own sentence in that Game of Prisoners' Dilemma. His layer is very helpful in that. A spin-off case shows that Jensen blew the A-gang and B-gang, - probably to eliminate Cappelen's rivals. Nevertheless, ABB claimed that he was trained in 2003 by the leader (Shahid Rasool) of the A-gang (previously Young Guns) before the Utøya massacre on the Government's youth organization AUF. Therefore, both cases should be investigated by international police and military forces, like Europol and NATO, in order to learn more about how the para-police, para-military and para-court works during CdE attempts in any Western nation. Both the Red Mafia and the Rote Arme Faction have operated in Norway for a century, - as well as the rest of 'The West'." (UU 2017.feb.24)

"Taking all the blame for the bombing of the Government Building in the CdE Nor2011 is certainly considered heroic in Nashi and RAF cultures. It misleads the focus on the para-police, para-military and para-court. Moreover, the truth will not be exposed in 60 years, when all the involved have passed away unnoticed, - just like the CdE JFK1963."

Criminal related organisations cannot be allowed to get any parliamentary LEJ powers anymore, - especially not the Government. The manipulations were comprehensive and fatal during the previous centuries cold war. However, the corruptions can indeed be reduced in this century.

Therefore, - LO cannot be allowed to manipulate the LEJ powers via AP anymore. Its 100-year's corrupting reign has to end- and only the 4th Parliamentary power, the democracy, the voters, can choose to do that, - by not voting for any political party manipulated by LO.

The Norwegian version had song and music in various styles composed by Gunnar and Maj Sønstevoid, including a song about Chicago with a male choir. Dickie Dick Dickens was played by Frank Robert, and Jim Cooper by Jack Fjeldstad.

“Dickie Dick Dickens came to Norway when the instructor for NRK Radioteatret was introduced to the play on a work visit to a German radio station. The Norwegian version had song and music in various styles including a song about Chicago with a male choir. Being first broadcast in the early 1960s when Norway only had one radio station and television was not as widespread as today, Dickie Dick Dickens became immensely popular. According to Fredrik Wandrup in 2011, ‘when new episodes were sent the nation was as silent as after a gangster massacre’. In 2001, listeners of NRK voted Dickie Dick Dickens the most popular radio play of all time. Sveriges Radio produced 36 episodes in 1966 and 1967.”

The association to this blog is how the ‘DDD Wannabes’ in criminal political para-organisations might have hum along while acting accordingly.

Extra UU - Dickie Dick Dickens radio play-list

Here is a selection of the Norwegian version of the DDD play, all seasons and most episodes included.

“Dickie Dick Dickens came to Norway when the instructor for NRK Radioteatret was introduced to the play on a work visit to a German radio station. The Norwegian version had song and music in various styles including a song about Chicago with a male choir. Being first broadcast in the early 1960s when Norway only had one radio station and television was not as widespread as today, Dickie Dick Dickens became immensely popular.”

Dickie Dick Dickens is a satirical radio play by Rolf and Alexandra Becker. The play, which tells the story of Dickie Dick Dickens rise from simple pickpocket to gangster leader in Chicago, was first produced in Germany in 1959 51 episodes. Radio Bremen, Schweizer Radio DRS, Norwegian NRK and Swedish Sveriges Radio also made their own productions. It became particularly popular in Norway where it was voted the most popular radio play of all time in 2001.

Here are a selection of the Norwegian version of the DDD play.

Ketil Bjørnstad - Fy Faen, Det er morgen

2017.aug.25

Ukens Utvalgte

The AP/LO symbiosis dominated the Norwegian parliamentary powers (LEJD) during the coldwar - and still do. Subcultures of AP (workers' party) and LO (workers' federal union) were bond to the Soviet Union's 3rd International and its 21 conditions that violate 'western' Penalty laws in most respects, - including high treason. Still, few of the AP/LO conspiracy are penalized for the crimes, which proves the corruption of the Judicial powers too. This 'parallel organizational apparatus' within the LO/AP symbiosis is an evidence that concerns the international authorities of the rest of 'the west'. The manipulation by the international LO at the NoExit election on 11/9 should therefore be focused by any of member nations of EFTA, EU, ECtHR, NATO and US, as well as EU institutions like Europol, Eurojust, Cpol, CoA and OLAF. In order to argue that, this blog provides some elaborations on the history, after some introductions. However, most conclusions are in the relevant paragraph because they are based on previous blogs.

Moreover, this mini-series of blogs, 'NoExit' is part of the P5GO subtheme that also aims to end the 5th Pyramid cascade of Exit Games in the west. The previous blog UU 2017.aug.18 focused on abuse of EFTA for anti-western organized crimes. Consequently, the focus shifts to the 'parallel executive power' LO.

Also note that the definitions of conspiracy are: “Civil Conspiracy, an agreement between people to deceive, mislead, or defraud others of their legal rights or to gain an unfair advantage.” “Criminal conspiracy, an agreement between people to break the law in the future, in some cases having committed an act to further that agreement.” “Political conspiracy, an agreement between people with the goal of gaining political power or meeting a political objective.” “Hub-and-spoke conspiracy, a conspiracy in which one or more principal conspirators (the 'hub') enter into several similar agreements with others (the 'spokes') who know concerted action is contemplated, usually where the success of the concerted action depends on the participation of the other spokes.” This should not be mistaken for the term 'conspiracy theory', which actually can be a part of a conspiracy in itself. “A conspiracy theory is an explanation of an event or situation that invokes a conspiracy without warrant, generally one involving an illegal or harmful act carried out by government or other powerful actors. Conspiracy theories often produce hypotheses that contradict the prevailing understanding of history or simple facts. The term is a derogatory one.” (Wikipedia)

A focus in this P5GO series of blogs is international dysfunctionality, which per definition does not concern any personal 'blaming'. Dysfunctionality is organizational, not personal. Any persons involved in the LO/AP conspiracy is so due to bondage by hardcore international criminal organisations that penalize harder than democratic nation's Judicial power. That collective interlock of mutual bondage has not been resolved after

100 years, - and there are no immediate indications of any resolution either. As summarized in the previous UU 2017.aug.18:

- “LO is bound and operates as describe in Condition 3 to Lenin/Stalin’s 3rd International, which says: “In almost every country in Europe and America the class struggle is entering the phase of civil war. Under such conditions, the communists can place no trust in bourgeois legality. They have the obligation of setting up a parallel organizational apparatus, which, at the decisive moment, can assist the party to do its duty to the revolution. In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity.” There should be no doubt that EFTA can and will be abused to cause CCD and CdE in EU and thereby expand the 3rd Russian Fatherland War to Europe, just like before the 1st European WW and the 2nd. 5D scenarios considering 4D LEJD might provide vital points of views.” (UU 2016.juli.01) The NoExit election in Norway at 11/9 is therefore as relevant for Europol, Eurojust, Cepak, CoA and OLAF as any other national election of other EU member states since LO is an international federation. Anyone affected should and can contribute to prevent manipulation of ‘western’ ‘rule of law’, electoral fraud and ministerial corruptions.”

Although the original text names their subordinated ‘communists’, there are options to name parties and participant something else. In this blog series, the abstract term PROSA (Pro-Russian Oligarch, Separatists and Anarchists) is used for the participants. Furthermore, their organisations have the abstract term BRAF, RAF and GRAF, which means Brown, Red and Green Army Factions.

The 3rd International’s 21 conditions clearly violates the Human Rights for any worker. The blog ‘P5GO03 – PROSA Worker’ aimed to aid citizens from the organized crimes, corruption and treasons (especially) in the public sector. (UU 2016.juli.22) A few quotes show that:

- “However, true Parliamentary authorities must differ between willing and forced PROSA workers, when investigating such PROSA crimes. In fact, criminal law is stricter to public servants than to civilians. Yet, public servants are rarely sentenced for their crimes even though the scandals of low quality services and expenditures are far too high. It is proof though, of too much fraud and corruption, - like in mafia-dominated markets (UU 2015.okt.23). Most public laborers are forced by violent mafia organizations that are related to the so-called ‘Red Mafia’ (see video link). The threats of Underworld Games were talked through in the previous UU 2016.juli.15 ‘P5GO03 – PROSA Pension’. Although any member of a high treasonous organization can be guilty by association, there are exceptions, - like for civil criminal relation, - by supporting the true Parliamentary system to improve the LEJD Quality by unclocking the criminal ‘parallel organisational apparatus’ (C3).”
- “PROSA workers cannot be allowed to work in the public sector anymore, - it is like letting a flock of wolfs servicing a zoo. There has to be a contra-revolution in the Parliamentary LEJ (Legal, Executive and Judicial parliamentary powers) to outweigh the infiltrations and manipulations of para-LEJ workers. The treasonous Condition 2 (C2) demands replacing loyal citizens with PROSA workers in parliamentary factions, co-operatives, local government. In a similar way, all present employees in public sector must read and confirm a letter informing their obligations as civil servants according to national penalty law. Examples on violations according to 3rd International Conditions should clarify some previous misinformation from PROSA Unions. Furthermore, a security clearance, in accordance to the Penalty law, must be signed by all employees in the public sector, - or else they actually choose to leave. Nevertheless, the public sector will manage very well even if PROSA unions cause massive removals. PROSA Unions’ war declaration towards the Parliamentary system, by building para-organizations within, have during the cold war doubled the number of employees required to run the public sector. Besides, valuable information to unclock the real predators and preys of the Pyramid Games’ will be revealed by their direct and indirect activities and passivities.”

It should also be noted that labor unions, like LO, was original positive in human rights values, but unfortunately allowed themselves to be infiltrated and manipulated to be mass-neurotic, mass-psychotic and mass-schizophrenic. It is outdated unreparable, and needs substitution by some HR unions of this century.

“The cold war anti-democratic infiltration of the parliament and the government is more obvious in Norway than in Denmark. The AP/LO symbiosis has dominated the parliament, government and state for almost a

century. In fact, LO was Nazi and a main actor during the World War 2. LO has never faced trial for their war crimes like other conspirators. LO rather silently accepted the treasonous Nazis to convert to Leninism and Maoism. LO is not based on the Human Rights. Quite the contrary, LO fights other peoples' rights to join other labor unions and the freedom of speech, - like they are some kind of enemies. The main reason is that LO is sub-ordinated the 'Moscow thesis' (the 3rd Internationals' 21 Conditions) that is simply 'anti Human Rights'." Furthermore: "LO is named in English 'Confederation of Trade Unions' and therefor basically a republican trade organisation – not a real labor union. So are international mafias too that have oligarch 'godfathers' that rules their 'trade unions' with ulterior physical and psychological violence. For example, the Russian oligarch and friend of Putin, Vladimir Potanin, has about 15 billion € and dominates the Russian 'Iron & metal union'. That indicates that LO also conceals their real oligarchs behind façades of tired worker, other 'good people' in need, and naïve youngsters. The AP/LO symbiosis has made a dominance of trade in most of the public sector's service-production and its suppliers. It still is a soviet industrial trade-union, - despite that it has been illegal for 20 years according to the laws of European free-trade Treaties. LO is consequently the harshest rival towards the European democratic Internal Market, - and a particularly strong and active manipulator in Parliamentary elections." (UU 2015.juni.12 - translated from Norwegian)

Still, the political conspiracy remains, even though the workers, peasants and soldiers and their unions are abused by means of the 3rd International. The history of the infiltrating Underworld para-organisations within LO/AP is previously described in several blogs like UU 2015.okt.23:

- "The 21 condition of Third International (Comintern) was made in 1919. As mentioned in UU 2015.okt.16, this Moscow thesis have been fundamental for national communist parties (NKP/DKP and successor) and the Nordic Confederation of Trade Unions' (LO). The 21 Conditions of Admission to the Communist International were suggested by Vladimir Lenin and formally adopted by the Second Congress of the Comintern in 1920. In brief, it declares wars towards the nations of Europe and America, at democratic civilians (bourgeois), encourages no mercy to its enemies, demands legal and illegal actions to execute Coup d' Etat (CdE) and demands unconditional submission to Moscow. There is no indication that such trade unions (LO) or parties (...) have ever annulled the bondage and submissions to the Comintern of 1919. There is no reason to assume that the demanding conditions are not still in effect." Some more relevant quotes from the Comintern Conditions are:
- C3: "In almost every country in Europe and America the class struggle is entering the phase of civil war. Under such conditions, the communists can place no trust in bourgeois legality. They have the obligation of setting up a parallel organizational apparatus, which, at the decisive moment, can assist the party to do its duty to the revolution. In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity."
- C6: "no 'democratic' reorganisation of the League of Nations will be able to prevent new imperialist wars." (I.e. predecessor to UN and EU)
- C9: "Every party that wishes to belong to the Communist International must systematically and persistently develop communist activities within the trades unions, workers' and works councils, the consumer co-operatives and other mass workers' organizations. Within these organizations, it is necessary to organize communist cells, which are to win the trades unions etc. for the cause of communism by incessant and persistent work."
- C14: "Every party that wishes to belong to the Communist International has the obligation to give unconditional support to every soviet republic in its struggle against the forces of counter-revolution. The communist parties must carry out clear propaganda to prevent the transport of war material to the enemies of the soviet republics. They must also carry out legal or illegal propaganda, etc., with every means at their disposal among troops sent to stifle workers' republics."
- C17. "... The Communist International has declared war on the whole bourgeois world and on all yellow social-democratic parties. The difference between the communist parties and the old official 'social-democratic' or 'socialist' parties that have betrayed the banner of the working class must be clear to every simple toiler." In brief, - this International is simply a statement for 'International Crimes' that EUROJUST, EUROPOL and CEPOL fights.

In para-Executive practice: "There is no way that a small democratic nation can deal with imperial mafias. As mentioned in UU 2011.aug.26 and UU 2011.juli.29 in relation to the 22/7-2011 assaults in Norway. "This was coordinated terror attacks, not merely towards the Norwegian Government, but towards all of NATO, EFTA/EU and the UN. Therefore, NATO shall be involved in the investigation. Furthermore, the police cooperation of Schengen (+ EUROJUST, EUROPOL and CEPOL) are most relevant. Norway (and other Nordic countries) have great need for considerable assistance from NATO and EU, because it is now obvious that we cannot handle it ourselves when divided. Particularly alarming is LO political psychotic symbiosis with the governmental AP." It should be clear in this century that LO has been used as a remote-controlled para-LEJ, - and is about to be upgraded according to the Russian reorganizations in this century."

The mass-media is one of the most corrupted 'parallel organizational apparatus'. The true '4th Parliamentary power' – democracy, is silenced by dominating press, that is illegally subsidized from the Executive power's state aid. The 3rd International's Condition 1 and 18 is very clear on the mass-psychotic conspiracy.

- C1a "All propaganda and agitation must bear a really communist character and correspond to the programme and decisions of the Communist International. All the party's press organs must be run by reliable communists who have proved their devotion to the cause of the proletariat. The dictatorship of the proletariat must not be treated simply as a current formula learnt off by heart. Propaganda for it must be carried out in such a way that its necessity is comprehensible to every simple worker, every woman worker, every soldier and peasant from the facts of their daily lives, which must be observed systematically by our press and used day by day."
- C1b "The periodical and other press and all the party's publishing institutions must be subordinated to the party leadership, regardless of whether, at any given moment, the party as a whole is legal or illegal. The publishing houses must not be allowed to abuse their independence and pursue policies that do not entirely correspond to the policies of the party."
- C1c "In the columns of the press, at public meetings, in the trades unions, in the co-operatives – wherever the members of the Communist International can gain admittance – it is necessary to brand not only the bourgeoisie but also its helpers, the reformists of every shade, systematically and pitilessly."
- C18 "All the leading press organs of the parties in every country have the duty of printing all the important official documents of the Executive Committee of the Communist International."

There is evident that the Cold War mass-media is seriously infiltrated, manipulated and illegal subsidized by State Aid to hosts for such 'parallel organizational apparatus' – in order to cause 'western' CCD and CdE (Colony Collapse Disorder and high treasonous Coup d' Etat). It mostly failed in western European nations but damaged eastern European nations hard – and still do.

This pseudo-democratic 'parallel organisatoinal apparatus' seems to be designed to function like organic 'parasites'. They have dominated the mass-media and thereby disillusioned the true democracy for a century now. The concern is often addressed in these blogs, - sometimes rather innovative perspectives based on the 3[^]3 dimensional psychosocial model. This chapter is taken directly from the blog UU 2015.nov.06.

- "Some final meta-philosophy concerning the humanity and its LQ (LifeQuality) is taken from UU 2014.aug.22 and UU 2014.dec.19: "Parasites cause another alarming manipulation of the UnderConscience Drive (UD). It sounds more fantastic than hypnosis. However, to get the idea, it is recommended to see the TED video 'Ed Yong: 'Suicidal crickets, zombie roaches and other parasite tales'. It shows that collective synchronicity amongst animals are not always motivated by interpersonal socializations. In certain occasions, their UD is controlled by physical parasites that uses the hosts against their own good and to the parasites' gain. In any case, - such similar psychic activities for collective remote control of group synchronizations is certainly the situation documented in the previous century as so-called political 'folks' movements'."
- Furthermore: "Theories of parasite activities can thereby cause rather intriguing thoughts in relation to IT (Information Technology). Data-viruses are well known and people show strong addictions to the net and all kinds of IT equipment. It is of cause quite natural according to Carl Jung's theories about social dependencies. How frustrating it is when the net is unavailable for the mobile, PC and TV. However,

there can be more than simple data viruses that manipulate the information. Uncritical utilizations can cause manipulations of persons similar to hypnotic states and parasite activities. That might change the behavior un-consciously and against a person's will. Furthermore, biological IT implants are highly unusual – till now. But people have great tendencies towards self-medicating with psychotic drugs to alter the UnderConscience. Therefore, 'hypnotic' 'parasites' might be used as willingly if it becomes an option. IT dictionaries should include a new term 'data-parasite' in addition to 'data-virus'." Although not directly relevant for the yes/no referendum, - it is highly relevant for in-depth analysis of national political cultures thereafter.

- "Nevertheless, the TED talk 'Dan Dennett: Dangerous memes' puts the concern at a more cautious perspective than 'Ed Yong. The term 'memes' suits very well the theories of T.A., where any communication can be extracted to a minimum and cleansed for noise. It is like using digital technics and data analysis, in order to analyze the real meanings and communications. Similarly, there can be made M.A. (Memes Analysis) which can be used to analyze the real meanings and communications of ideologies and isms. (See UU 2013.nov.29 about isms). However, summing up Dan's concerns of dangerous memes, - he uses Ed's example of parasite controlled ants' brains, and continues: "Humans is the only specie that are willing to scarify their lives (and take others') for ideas, values, isms, religions etc. These are replicated and spread from person to person like software or viruses. There are well documented events in human history that such ideas have caused great misdeeds and miseries for humanity, - intended or not. We should be more aware about the dangerous memes now, in the global information technological age, because such dangerous memes can spread like computer viruses via internet and cause fatal harm. However, like it is pointless to hate HIV, - it is pointless to hate certain memes. We need to focus on understanding in order to find remedies, cures and immunities, - and simply figure out how to live with it without causing global psychotic-neurotic mass-reactions at S-E/S-I level – again and again." A most primitive such 'dangerous memes' is certainly the Red Flag that deliberately was made to provoke collective instinct subconscious like a bull in bullfighting.

A final suggestion to 3x3D political LEJ level in UU 2015.juni.19 is here translated from Norwegian. "The challenges are at the fundamental level. The Parliaments should agree on solutions to normalize society by comprehensive detachments from the coldwar collective obsessions and bondages. Thereby, the main challenge for any democratic parliament is to find together, promote democracy by uncovering and fight any anti-democratic Games. Consequently, focus should be set on 3 primary goals. Democrats should find together against anti-democrats despite any kind of party or ism. Parliamentarians should promote parliamentarism, even if it means judicial penalty consequences for anti-parliamentarians. The governments shall govern the Executive powers, - and not the opposite like some para-governments. The terror-cases in both Copenhagen and Oslo should be sufficient warning signals. Open communication and cooperation should help both parliaments considerably."

Surely, there are some dramatic CdE Games in Norway's political history. The Artic island "Svalbard was abused as the trigger for a Norwegian Coup d' Etat in 1963. It was the shift from the 3rd to the 4th Pyramid Game. Cold War history books over-focus on the climax at the SU/US Cuba crisis, though. However, there were considerable political aftermaths that are covered from focus in the Nordic region, - yet vital to get insight to the political crisis and shifts. As known, the bombing of the Norwegian governmental building in 2011, lead to the Stoltenberg's the governmental resign in 2013. Here are some related clips." (UU 2017.april.21)

- "The first 'blue' (none-socialist) parliamentary constellation was formed in Norway as a temporary necessity for the AP/LO symbiosis to shift their governmental regime in 1963. This was probably a tactic in a CdE Game due to the bondage to the 3rd International and its 21 conditions. (UU 2015.juni.12)
"The Kings Bay Affair (Kings Bay-saken) was a political issue in Norway that reached its apex in 1963 and brought down the government of Einar Gerhardsen and formed the basis for non-socialist coalition politics in Norway that persisted to the end of the 20th century. The affair was a dramatic episode in Norwegian history that portended the end of the Gerhardsen dynasty and the emergence of a more articulate and coherent political alternative in the non-socialist camp. It is also credited with galvanizing the radical socialist wing of Norwegian politics in time for the EU debate nine years later." (Wikipedia)
- "There were as fierce political rivalries between PM Stoltenberg and PM Jagland prior to 2013, as there was against PM Gerhardsen before 1963. (According to Vassily Mitrokhin Gerhardsen became a Soviet

intelligence operative during his visit to the USSR.) The Red-Green government had secret meetings without the PM Jagland that finally had to resign and Stoltenberg was appointed. As the leader of the Nobel Peace Prize committee, the prize was given to a Chinese dissident that caused Chinese diplomatic blockade of Norway for 6 years. Now, Jagland is set to lead The Council of Europe (ECHR) that too often are confused with the European Union (The European Council). Stoltenberg is now the General Secretary of NATO.”

- “The uncloaking of a Stalinist mass-psychopathic culture when overthrowing a matriarchal LO leader – the ‘Valla’ case (UU 2013.aug.30). The Stalinist cultural root of WW2 is still dominant in LO (see Wikipedia link under), and the TV documentary about the boy Selmer that was donated to Soviet Union and became an unwillingly spy. It also indicates the cloaking of thousands of STASI agents in Europe during the cold war (UU 2014.juli.04). More recent is the ‘Treholt’ Game LPAFJ (Let’s Pull A Fast one on Joey) as diversion to save other major PROSA agents (UU 2013.aug.30). The Game concept changed to SWYMD (See What You Made Me Do) in the massive organized CdE bomb and massacre in Norway five years ago today. The Judicial system proved that willingly scapegoats are more effective as diversion for the major PROSA agents (UU 01.Juni.2012), - until he also realizes he was no Nashi (Наши) hero, but just another 5th Pyramid Game ‘sucker’.” (UU 2016.juli.22)

These cases indicate that there are more to the political rivalries and stands that the campaign to the 11/9 NoExit elections. More about this in the next blogs.

“However, LO is an Oligarchic Trade Mafia that is built for violations of national laws of trade. The 21 conditions of the 3rd International contradicts the post-war trade laws of the European Internal Market. The LO crimes were exposed in the NRK documentary ‘LO sitt store comeback’ and uncloaked the massive corruption of the PROSA Union and Party (Norwegian LO and AP) during the parliamentary electoral campaigns. LO bought illegal trade favors, law-violating regulations, and minister posts in the government – all for millions in cash (UU 2013.aug.23). Moreover, Dane LO shows that they do not pay any tax, have just a few underpaid employees and profits greatly on their members” (UU 2015.okt.23).

- “The labor in the public sectors is of great concern in this blog theme about IR4. “Large enterprises fire masses of employees when automating the IR3 productions and services by IR4 means.” (UU 2017.mai.26) This is a main mantra related to the IRs. However, the bureaucracies of the public sectors are the most affected working places of all, due to central and decentral computer automations. Still, certain unions’ oligarchs will still abuse their powers at the cost of the workers, other citizens and the societies, - as usual. The parliamentary LEJ power need to be aware of their 3rd and 4th Pyramid Games in order to avoid those catastrophes in this 5th Pyramid Game. Here is some previous quote that touched upon the issues.” (UU 2017.juni.16)
- “Furthermore, 2% of all employees are disloyal in the none-public sectors, - says a recognized thumb rule. (UU 2016.juni.24). The number is an uncertain average, though. Still, it is probably much higher in the Executive powers, because the public sector is a PROSA domain and therefor far less exposed to the Judicial parliamentary powers. Most employees in the public sector are forced into the 3rd Pyramid Labour Organization like LO, which counts for half the employees in the Nordic nations. Therefore, the 98% members in LO are bound by contract to treason against their own nations. Few members of LO realizes this sociopathic and criminal bondage, - and most who does and opposes that, are punished in Games like the Russian BOOFY (Beat your Own and Others will Fear You). Opposing citizens are considered, at the best, as “(C17) ... social-democratic' or 'socialist' parties that have betrayed the banner of the working class”. The ‘pitiless’ punishment is at the best minimized or removing of Pension and other welfare benefits, - leaving loyal citizens in ruin as an example for the rest.” (ref. The 21 conditions of the 3rd International.)
- “Still, the Game Over (GO) is rather simple, - also for the treasonous rewarding system ‘PROSA Pension’. Spot the PROSA (Pro-Russian Oligarch, Separatist and Anarchists) that are dedicated to the 21 treasonous conditions of the Internationals. Most are all someway related to LO unions, - the remote controlled Central. C12: “In the present epoch of acute civil war the communist party will only be able to fulfil its duty if it is organised in as centralist a manner as possible, if iron discipline reigns within it and if the party center, sustained by the confidence of the party membership, is endowed with the fullest rights and authority and the most far-reaching powers.” National Penalty laws should be used as warning to PROSA Pensioners. Ending such Games can be done by removing the Gain, exposing the

ulterior of the Game, arrange counter-moves, change the Gimmick and/or disable the Game players. However, the massive corruption in Nordic public sector is evident and proof the LEJ Quality is seriously corrupted, - even some judges. These issues will be followed up in next PGO UUs.”

- “Any citizens exploited by PROSA organizations have now the opportunity for hyper-democratic expressions. Any PROSA pensioners have the opportunity to explain themselves, to confess and alert about illegal PROSA corruption, - even anonymous. Anyone can write down their experiences, opinions and will. Anyone can upload it to hyperspace as documents to relevant web-cites in ‘The Cloud’. Such ‘whistlers’ should not be punished, but rather protected and have their pensions and benefits revived for restart. International LEJ powers, and not merely national LEJ, should deal with the international criminal organizations.”

“The SU vs US Cold Wars caused over-staffing of ‘western’ public sectors. That was a kind of ‘5th colonists’ tactic to position bureaucratic warriors in the prey nations. However, the cold war is over, and those should be released and retire. It might be as many as half the public sectors’ staff. However, societies need these workers for the IR4 innovations. It is even less costly to give full them wages to let go of the costs of useless bureaucratic working places. The forced labor of the 3rd international can finally become independent democratic citizens too. The only solution to temporary unemployment is Basic Income, not labor unions’ corrupted handouts.”

The joint youth organisation of AP and LO is where most of the leaders are selected, trained and committed to the 100 years of political culture. Therefore, some historical 5D issues about AUF enlightens the AP/LO symbiosis as well.

- “It is very rare that the AP/LO regime is confronted by the Judicial power – the third parliamentary power. AP/LO were like ‘untouchables’ during the cold war. However, one trial did uncover parts of the massive corruption culture, the so-called AUF scandal of 1997. Originally, it was a minor corruption case in the joint LO/AP youth organisation. However, the defenders tried to clear the accused youth leader by proving that the corruption was culturally obligated and that no leader of AUF could ever hinder that. The argument included naming previous AUF leaders that proved themselves worthy to be leaders of AP and LO. The names included present high-ranking leaders. Not merely Trond Giske and Turid Birkeland was named, but also Thorbjørn Jagland, Jens Stoltenberg, Odvar Nordli, Bjørn Tore Godal, Ronald Bye, Sissel Rønbeck, Sigbjørn Johnsen and Kjell Opseth. The judges did not allow to call them to witness in the trial and the pro-EU leader had to take all the blame and go to jail. His forerunners, the pro-EU Birkeland was ‘frozen out’ of AP/LO and the anti-EU Giske got powerful minister posts by the AP/LO regime. Most of all, AP/LO proved that they are ‘untouchable’ from the civil court and thereby can continue and extend the corruptions.” (UU 2013.sept.20)
- “A skeleton in the LO/AP closet is the case concerning the case of Ola Teigen (1937–1970). He was a Norwegian politician for the Labour Party in the ‘60s. He served as a deputy representative to the Norwegian Parliament from Nordland during the term 1965–1969. On the local level, he was a member of Oslo city council during the term 1963–1967. From 1964 to 1969 he was the leader of the Workers’ Youth League (AUF). Ola Teigen was very successful and considered a ‘crown prince’ by AP. However, suddenly there were accusation that he received payment from the US CIA. Next, he was excluded, exiled and claimed to be mentally ill.” (Wikipedia) Still, it has never been proven that he actually committed suicide. AUF then took a turn to be anti NATO and anti EEC (EU).”
- “The Norwegian Trial of the decade is certainly the 22/7-2011 case. It was really 2 very different extreme terror cases; the CdE by blowing up the Governmental Building, and the massacre of the governments youth organization (AUF). The joint trial is focuses in UU 2012.mai.18 to UU 2012.Juli.20, and UU 2012.aug.24. The over-focus on ABB’s reward, the massacre on innocent youths, did take all the attention from the CdE bombing. There is no proof at all that ABB bombed the building and that no one else were involved. It rather seems that he part was taking the blame in court and that his layer saw to that no questions about any relations were asked. However, some para-military and para-police were involved making all police and military involvements major failures. Even the armed ferry was disabled and the police put in fragile rubber boats. Actually, saving of the surviving youth was done by civilians, - not the police or the military. The trial concluded that all relevant documentation is to be locked up in 60 years, ensuring that the public will merely know the mass-psychosis of the mass-media, as described in the 3rd International.” (UU 2012.mai.25, UU 2014.juli.18 and UU 2017.feb.24) It is quite

remarkable, though, that from the symbiosis LO/AP/AUF, - AP and AUF were extremely hurt while LO was not at all. LO is set completely out of focus in most respects.

- “Russia is a member of the European Human Rights Organization. Its name, Council of Europe (CoE), is mistakenly close to the European Council, the decision board for EU member states’ governments. The present leader of CoE has tight relations to LO and thereby the 3rd International, been leader of AUF, AP party leader, minister for foreign affairs and prime minister. He is reputed for political scandals, - however always somehow slips away, - leaving a political mess behind. As leader of the Nobel Peace prize committee, he personally provoked the Chinese revealingly so diplomacy and trade has suffered badly since. China got a seat in the Arctic Board instead of EU, - that seems like a compensation. These provoking intrigues overshadows Dalai Lama’s messages for Human Rights and national sovereignty. Jagland still provokes the Chinese as leader of the CoE, mistaken as EU, even though his mandate concerns merely Europe. On the other hand, CoE was silent during the massive HR violations of the Russian warfare toward Ukraine. CoE do not encourage European nations to ratify the signed Human Rights conventions that includes exception for protection against sociopaths. A PROSA Separatist in a para-organization would operate no different.” (UU 2016.aug.12)

Actually, AUF might be a major host for the ‘parallel organizational apparatus’. At least, the relation to the 3rd International 21 conditions is very clear. “As an organizational entity, AUF took its current form in April 1927 following the merger of Left Communist Youth League and Socialist Youth League of Norway corresponding with the merger of its parent parties after the conclusion of disputes over the "Twenty-one Conditions". Its ideology is social democracy and democratic socialism.” (Wikipedia)

A summarizing conclusion, related to this P5GO theme, is like in UU 2017.mai.26: “In Norden, LO (The Confederation of Trade Unions) is the International para-organization that is bound to the obligations of the high treason of the 3rd International, - the Moscow Thesis. LO’s 100 years of political dominance and related LEJ inabilities, proves the seriousness of Parliamentary corruption. However, after 100 years of corrupting CCD and incapable of doing the CdE, LO members should finally realize that they merely contribute to continuous negative BDW (Bad, Destructive and Wrong). ethics that never will realize their illusions of GCR (Good, Constructive and Right). Most probably are able to see that, but ignore it. They do not dare to risk the processes of a true democratic reform of their Union. They know very well from history the brutal consequences from the Game masters.”

If the AP/LO conspiracy, somehow, forms a Norwegian Government, - there are grave reasons for international western authorities to investigate and react in order to prevent the parallel organizational apparatus of the 3rd International from manipulating the EU via the EFTA. Already, the AP/LO conspiracy has lured thousands of public servants to violates national Penalty law for 20 years – and made them prosecutable. It is time to end those vicious Games now with joint contra-moves by full disclosure and Rule by Law. As mentioned in the introduction, the Noexit should be focused by any of member nations of EFTA, EU, ECtHR, NATO and US, as well as EU institutions like Europol, Eurojust, Cpol, CoA and OLAF.

“ ‘Leve Patagonia’ (‘Long live Patagonia’) is a musical work by Ketil Bjørnstad from 1978. It is written as a modern suite and tells stories from Hans Jæger and the Christiania bohemia. Bjørnstad showed a strong interest for and knowledge about the bohemia movement in Norway. Each song has a explanation that tells about the historical foundation. The album has a large historical personal gallery of some of Scandinavia’s best singers. The best-known song is ‘Sommernatt ved fjorden’ (Summer night by the fjord). This week’s chosen song is somewhat different, though. It is a harsh complaint by the unionized workers that do not favor the bohemians at all, since their all bound by the collective self-degrading cultures of Jante. The bohemians seem like some careless ‘petty bourgeois’ that finally will be dealt with. The tittle ‘Fy faen, det er morgen’ means something like ‘Goddamit, it is morning’.

Extra UU – LO and Nazism

The historical fact that International organisation 'LO' was a major Nazi power during the World War 2, is silenced by the dominant Cold War mass-media. However, such mass-media manipulations are pathetic with this century's internet. Nevertheless, the movie The Kings Choice (2016) (original tittle: The King's "No") provides some focus the BRAF Coup d' Etat that was executed - and indicates complex series of events. It tells that the German invasion fleet was sunk and all the men and equipment with it. It could not aid the '5th Colonists as planned. Consequently, LO had to step forward and do much of the CdE work in open, - especially in the Nazi para-police. At that time, Stalin and Hitler were conspirators, bond to the 'Ribbentrop-Molotov Pact' and the 3rd International's 21 conditions. The BRAF, the Brown-Red Arme Faction, fought on both sides to occupy parliamentary LEJD (Legal, Executive, Juridical & Democratic) powers.

Wikipedia says about the movie: "The King's Choice (Norwegian: Kongens nei) is a 2016 biographical war film. It is a co-production between Norway and Ireland, and was selected as the Norwegian entry for the Best Foreign Language Film at the 89th Academy Awards. The film is related to King Haakon VII's decision to support a continuation of fighting the German invasion forces rather than acceding to German demands and surrender Norway to Nazi Germany and the Norwegian collaborator Vidkun Quisling. The consequences of the government's refusal to surrender, and the king's support of that, were continued hostilities, the Norwegian royal family's dramatic escape from Norway, and the World War II involvement of Norway on the Allied side."

2017.aug.18

Ukens Utvalgte

The EFTA was re-constructed and became a parallel institution to the EU. However, EFTA might be abused if its LEJ quality is not properly ensured. The EFTA might even be a 'parallel organisation apparatus' like described in 'the 3rd Condition of the 3rd International'. There are grave indications of that. Therefore, any EEA nation of both EFTA and EU should prioritize investigations of the EFTA. The NoExit election in Norway at 11/9 might be as fatal for EFTA and EU as for Norway. In this blog, in order to argue that; first there are some facts from Wikipedia that is supplemented with comment and relations to previous blogs of the P5GO theme (the 5th Pyramid Game Over); next, there are some comments on how the EU should handle the EFTA to qualify its LEJ powers and; finally, some concluding summaries related to the Dane Dexit referendum. (Note that the Dane and Norwegian constitutions and cultures are comparable, so the Dane EU issues are used to indicate Norwegian EFTA issues.)

First, 2 paragraphs with general facts about the EFTA and its members from the Wikipedia. Next, some quotes related to EU and CoE is taken from blogs like UU 2015.okt.30 and UU 2016.juli.01.

- "The European Free Trade Association (EFTA) is a regional trade organisation and free trade area consisting of four European states: Iceland, Liechtenstein, Norway, and Switzerland. The organisation operates in parallel with the European Union (EU), and all four member states participate in the European single market." (Wikipedia)
- "Whilst the EFTA is not a customs union and member states have full rights to enter into bilateral third-country trade arrangements, it does have a coordinated trade policy. To participate in the EU's single market, Iceland, Liechtenstein, and Norway are parties to the Agreement on a European Economic Area (EEA), with compliances regulated by the EFTA Surveillance Authority and the EFTA Court. Switzerland has a set of bilateral agreements with the EU instead." "Since 1995, only two founding members remain: Norway and Switzerland. The other five, Austria, Denmark, Portugal, Sweden and the United Kingdom, have joined the EU in the intervening years." "Since Switzerland is not an EEA member, it does not participate in these institutions." (Wikipedia)
- "Even in the Judicial system itself, there are confusions about what European organizations and regulations really applies. Too few understand the roles and authorities, as they should. Some arguments used in the Dane referendum campaigns are in fact proofs of deliberately disinformation. However, as mentioned in UU 2015.okt.02, the Judicial situation is rather similar in Denmark and Norway, since Norway is related via EFTA to EU and Denmark directly to EU with 4 opt-outs. The legal framework of the EU treaties is basically the same for the parallel EFTA and EU organizations. The national parliaments have agreed that these treaties and regulations are as national laws."
- "In brief, The European Council (Det Europæiske Råd) of EU consist of each member nations' prime ministers that decides the pan-European policies. The Council of the European Union (Rådet for Den

Europæiske Union) consists of the EU nations' ministers and is the pan-European legislative power that decide the inter-European laws and regulations."

- "The Council of Europe (Europarådet) is not of EU at all. It rather relates to the United Nations (UN) and the 47 member states, includes Russia. The CoE includes the ECHR (European Court of Human Rights) that judges cases concerning the European versions of the Human Rights conventions (Den Europæiske Menneskerettighedskonvention)."
- "The EFTA (European Free Trade Association) is bound to the EU Maastricht treaty and have parallel institutions to the EU Commission, Court and Council. Most of the western European nation left EFTA and formed EU (former EEC). However, Norway stayed behind and became the dominant member of EFTA."
- "Last, but not least, there is the Nordic Council (Nordisk Råd) and the Nordic Council of Ministers (Nordisk Ministerråd) that should be a considerable international council for Nordic nations, - but it's definitely not. Although similar to EFTA, EU and ECHR organizations, - there are no Court to the Nordic Councils. That weakens their international cooperation, so the Nordic Councils appeared paralyzed during the cold war, and still are unable to function properly.

Norway is constitutionally the dominating power of EFTA, since Switzerland is not an EEA member and Lichtenstein and Iceland merely counts for 5% of the EEA population. However, that does not mean that far larger organisations do not infiltrate and manipulate the EFTA.

Wikipedia describes the EFTA institution and the EEA Treaty: "A Joint Committee consisting of the EEA States plus the European Commission (representing the EU) has the function of extending relevant EU law to the non EU members. An EEA Council meets twice yearly to govern the overall relationship between the EEA members. Rather than setting up pan-EEA institutions, the activities of the EEA are regulated by the EFTA Surveillance Authority and the EFTA Court. The EFTA Surveillance Authority and the EFTA Court regulate the activities of the EFTA members in respect of their obligations in the European Economic Area (EEA). (Wikipedia). The following paragraphs are from blogs like UU 2015.okt.23 and UU 2016.aug.26.

- "The EEA Law (is) superior in their areas and can be related to the Penalty Law. The article 30 and 34 of the EEA Law prohibits customs duties, discriminatory taxes and measures having equivalent effects. The rules of competition forbid undertakings' abuse of market dominance, abuse of competition and discriminating agreements (art. 53 and 54). Public undertakings are regulated as well as the non-public ones (art. 59). Unfair competitive public state aid to undertakings are forbidden (art. 61) and social support shall not be paid directly to any undertakings, but directly to the citizen (art. 61a)." (UU 2013.okt.04.) This means that alternatives to public service providers of schools, transport, health etc. became legal 20 years ago. However, illegal public discriminations are still discriminating in the markets in favor of own undertakings, oligarchic cartels and certain unions. A well-functioning parliamentary system would prosecute and settle this a long time ago."
- "Coldwar propaganda has created an illusion that the market consists of a public and a private market. How untrue. Dominating oligarch have no exclusive right to state aid and exclusions from the law, - like some mafia 'untouchables'. Unfortunately, national SMEs are nearly cleansed out of the national market due to state-aid corruption, protection from prosecution and hostile dominance in the democratic markets. Consequently, deliveries of product and service to the civil population and public services have too high costs and too low qualities, - as stated in the OECD reports."

"The public sector has cold war legacies that are not applicable, and even illegal, to this century's (...) Europe. The conditions and potentials of the nations are well documented in the OECD report 'Government at a Glance' and the Produktivitetskommissionens rapport". (UU 2015.juni.05 and UU 2015.juni.26)

The corrupted quality of the LEJ powers in the EFTA is often questioned by other LEJ powers. (LEJ: parliamentary Legislative, Executional and Judicial powers). This appears to be an untouchable area to the para-EU since it is not directly covered by national or EU LEJ powers. However, indications are clear when looking at the process of the Dane Europol and Eurojust referendum, - that was just another Exit Game.

- "The Norwegian Parliament signed the EEA Treaty (Maastricht) with EFTA and EU and ratified the EEA Law (EØS Loven). The Danish Parliament held a new referendum about the Lisbon Treaty with four opt-outs, which the democracy approved, even though some major riots by 'anti-European autonomys' were arranged. The four Dane opt-outs concerned cooperation about civil rights, state-finances and military,

in addition to the police/judicial cooperation (Europol/Eurojust). These international legal commitments are scarcely honored, due to improper cooperation. The level of international crimes has now become major threats in both nations. Nevertheless, as talked through in UU 2015.juli.10, there is no doubt that Denmark has been legally obligated for over 20 years by the Treaty (TEU - Traktaten om Den Europæiske Union). Anyways, today, Finland and Sweden, which represent about 2/3 of the Nordic population and area, are fully member of the EU." (UU 2015.okt.02.)

- "The deliberate masspsychosis of legal obligations of public service sector is talked through in several UU blogs. Here are some summary quotes to the concluding blog to 5th pyramid in UU 2016.juni.17". "Oligarchic crimes towards European civilizations were discussed in a UU theme prior to the Dane Europol referendum (UU 2015.okt.16, UU 2015.okt.23, UU 2015.okt.30 & UU 2015.nov.06.) There is no doubt that the democratic European Internal Market has made oligarchic cold war business illegal. International criminal organizations fight the laws of Europe fiercely with any means disposal. As well-known now, international organized crime won the Dane Europol/Eurojust referendum in December 2015."
- "Public servants of the Executive power are obliged to execute orders from its Parliament/Government. If not doing so, they are to be prosecuted in accordance to the Penalty law by the Legislative power, - just like 'bourgeois' civilians. This obviously applies to legalities of this century too." "There is no doubt that Denmark has been legally obligated for over 20 years by the Treaty (TEU - Traktaten om Den Europæiske Union)." Numerus of public servants have become criminal actors due to anti-European political actors' misinformation within public sector. The dilemma is thoroughly talked through in UU 2014.okt.24 with similar focus on Norway's relation to EU." (UU 2015.juli.10) "In 1994 the law-making Parliament ratified the EEA law concerning the European internal market instead of becoming a full member of EU. The new rules of competition caused considerable legal and commercial changes, - especially for the 3 constitutional powers; the Parliament (Legislative), the public sector and the legal system (LEJ). Suddenly, both private and public (oligarchic) cartel practices became illegal. The adaptations to legal practices are comprehensive, - which such dominant actors naturally resist. Today, 20 years later, there are just minor practical adaptations to the law. The media rarely seems to mention such illegalities and leaves the impression is that the law is practically neglected." (UU 2013.nov.01)

'Follow the money' is a saying that applies for EFTA corruption too. First, from Wikipedia about the finances of EFTA. "The EEA and Norway Grants are the financial contributions of Iceland, Liechtenstein and Norway to reduce social and economic disparities in Europe. They were established in conjunction with the 2004 enlargement of the European Economic Area (EEA), which brought together the EU, Iceland, Liechtenstein and Norway in the Internal Market. In the period from 2004 to 2009, €1.3 billion of project funding was made available for project funding in the 15 beneficiary states in Central and Southern Europe. The EEA and Norway Grants are administered by the Financial Mechanism Office, which is affiliated to the EFTA Secretariat in Brussels." (Wikipedia)

- There are however, clear indications about considerable fraud that is kept secret in Underworld Games of 3rd degree. The Norwegian EU-minister Frank Bakke-Jensen want to look into that. Norway pays 3 billion NOK/year to EU countries as a part of the EEA treaty. It is the Norwegian 'member fee' as a part of the trade agreement with the EU, says the minister. Iceland and Liechtenstein also participate. In the last 15 years, Norway has paid about 2 billion € to thousands of projects to 16 European countries. The money is intended to strengthen the civil societies in the countries and to improve the environment and health of the population. However, the newspaper Dagbladet has uncovered how the EEA means are stolen and abused – and that the spending is kept secret from the Norwegian public." (ref the Dagbladet article)
- "The present government should initiate professional investigations by Riksrevisjonen (Office of auditors) and related according to the EEA Law. It is suspicious that Økokrim (Office of economic crime) do not have a section dedicated economic crimes in the public sector as it does for the private sector. Presumably there are hundreds of public mal-practices that should be legally prosecuted." (UU 2013.nov.01.)" "These laws to promote democratic markets are definitely anti-oligarchic." (UU 2015.okt.23.)

The Court of Auditors and the European Anti Fraud Office (OLAF) should investigate the EFTA organisation, as well as the EU, in order to ensure the joint quality of LEJ powers.

- “The Court of Auditors is a professional external investigatory audit agency. The primary role of the court is to externally check if the budget of the European Union has been implemented correctly, in that EU funds have been spent legally and with sound management. In doing so, the court checks the paperwork of all persons handling any income or expenditure of the Union and carries out spot checks. The court is bound to report any problems in the Court's reports for the attention of other states and institutions, these reports include its general annual report as well as specific and special reports on certain bodies and issues. The Court's decision is the basis for the European Commission decisions; for example, when the Court found problems in the management of EU funds in the regions of England, the Commission suspended funds to those regions and prepared to fine those who did not come back up to acceptable standards. (Despite its name, the Court of Auditors has no judicial functions.)” (Wikipedia)
- “The European Anti Fraud Office (OLAF) is mandated by the European Union with protecting the financial interests of the European Union. Its tasks are three-fold; 1. to fight fraud affecting the EU budget; 2, investigate corruption by staff of the EU institutions and; 3, develop anti-fraud legislation and policies. OLAF achieves its mission by conducting, in full independence, internal and external investigations. It coordinates the activities of its anti-fraud partners in the Member States in the fight against fraud. OLAF supplies Member States with the necessary support and technical know-how to help them in their anti-fraud activities. It contributes to the design of the anti-fraud strategy of the European Union and takes the necessary initiatives to strengthen the relevant legislation. OLAF conducts administrative investigations. It has no judicial powers to oblige national law enforcement authorities to act on its follow-up recommendations.”

An alarming example is that an active spokesman and MEP from the Dane party DF is currently suspect and investigated by OLAF for abusing EU funds for anti-EU campaigns prior to the fatal Dexit.

Who should join the EFTA? “Between 1994 and 2011, EFTA memberships for Andorra, San Marino, Monaco, the Isle of Man, Turkey, Israel, Morocco, and other EU 'European Neighborhood Policy' partners were discussed.” (Wikipedia) The Exit Games against the EU influences the EFTA as well. Questions are risen whether Brexit and Dexit should lead to retreat from EU to EFTA. (UU 2016.juli.08) First, some more about the EFTA/EU international Legislative relations.

- “Shortly after, the Norwegian Parliament signed the EEA Treaty (Maastricht) with EFTA and EU and ratified the EEA Law (EØS Loven). The Danish Parliament held a new referendum about the Lisbon Treaty with four opt-outs, which the democracy approved, even though some major riots by ‘autonomis’ were arranged. The four Dane judicial opt-outs concerned cooperation about civil rights, state-finances and military, in addition to the police/judicial cooperation (Europol/Eurojust). These international legal commitments are scarcely honored, due to improper cooperation. The level of international crimes has now become major threats in both nations. Nevertheless, as talked through in UU 2015.juli.10, there is no doubt that Denmark has be legally obligated for over 20 years by the Treaty (TEU - Traktaten om Den Europæiske Union). Anyways, today, Finland and Sweden, which represent about 2/3 of the Nordic population and area, are fully member of the EU.” (UU 2015.sept.25)
- “No doubt that the Brexit promoters caused extreme damages to the UK. However, the Brexit seems to rather strengthen European Union’s awareness, unity and cooperation against such future CCD attempts (Colony collapse disorder). The 5D scenario model can be useful when searching historical roots of the past and possible futures. Knowing well that all EU nations came from EFTA, some answers might be in the EFTA nations Norway, Iceland, Switzerland and Lichtenstein. The NoExit events in Norway 2011-2013 included CdE by bombing the government building and massacre their youth. The Norwegian labor Union and Party symbiosis is very similar to the UK ones. In both, LEJ appear to have unacceptable low qualities for self-protection.”

A main conclusion is that the EFTA, with the EEA Treaty, should be the organisation for any Exit nations, whether they temporarily retreat from EU or applies for EU memberships. The EU Commission has published a White Paper for the future of Europe, ‘Avenues for unity for the EU at 27’. The proposed 5D scenarios are; 1, Carrying On; 2, Nothing but the Single Market; 3, Those Who Want More Do More; 4,

Doing Less More Efficiently; 5, Doing Much More Together. The EFTA is the 2nd scenario 'Nothing but the Single Market' that can be combined with EU's 3rd scenario 'Those Who Want More Do More'. Anyhow the 5D scenario, the LEJ powers of the EFTA need to be quality ensured by the 5 EU institutions.

Some final comments, with a P5GO perspective. The EFTA is schized and also a 'parallel organizational apparatus' of the 3rd International that is reconstructed and abused for anti-EU purposes. Some previous n this 'the 5th Pyramid theme can be related to EFTA as well as the EU and other 'western' organisations.

- "EFTA is a para-organization to EU with its EFTA court, the EFTA Commission (ESA), the EFTA Council. The EEA Treaty (European Economic Area) is practically the Maastricht Treaty between EU and EFTA. EFTA is highly dominated by Norway via LO (The Confederation of Trade Unions) influences and thereby the 3rd International of the Comintern, the Moscow Thesis. LO is basically still a 3rd Pyramid organization, as described in UU 2016.juni.03. LO is bound to and operates as describe in Condition 3 to Lenin/Stalin's 3rd International, which says. "In almost every country in Europe and America the class struggle is entering the phase of civil war. Under such conditions, the communists can place no trust in bourgeois legality. They have the obligation of setting up a parallel organizational apparatus, which, at the decisive moment, can assist the party to do its duty to the revolution (Coup d' Etat Game). In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity." There should be no doubt that EFTA can and will be abused to cause CCD and CdE in EU and thereby expand the 3rd Russian Fatherland War to Europe, just like before the 1st European WW and the 2nd. 5D scenarios considering 4D LEJD might provide vital points of views. Two previous articles might provide clues." (UU 2016.juli.01)
- "The integrated PROSA network was revealed by the GRAF 'Blekingegadebanden' and their relations to 'The Jackal' (and other Nordic GRAF). No parts the Dane Parliamentary LEJ Powers are untouchable for such PROSA powers. As mentioned in the concluding UU 2016.juli.01." "However, focusing on anti-democratic cyber-crimes in Europe, the Hyper-parliamentary Europol and Eurojust are definitely the International cyber-crime fighters. The Pyramid Game became very apparent in the Dane Europol referendum in 2015.dec.03. The Dane example of international referendum fraud should be investigated by Europol and brought to the EU Court. Furthermore, Dane, Norwegian and any other EU/EFTA nations should have their laws quality ensured in accordance to EU innovations." Anyone can be made an PROSA Anarchist." (UU 2016.aug.19)

Such a 'parallel organizational apparatus' could be abused to cause cascade of Pyramid Games within the EU, like the national Exit Games, in order to make the European Union collapse like its two forerunners; 'The League of Nations' and 'The Concert of Europe' (Congress of Vienna). Subsequently, it will probably cause a 3rd European world war.

Conclusively, the corruptions in Norway and Denmark are comparable since the nations have been political and cultural bound for centuries. Therefore, the blogs concerning the Dexit, the Dane rejection of the EU's Europol, Eurojust and Cepol, applies as well for Norway and EFTA. The Dexit was thoroughly analyzed in four blogs. Some of the conclusions, that also applies to Norway and EFTA, were:

- "It is a fact that international Criminals organizations fight Dane 'Rule of Law' with hardcore underworld Games. The introduction in UU 2015.okt.02 elaborated the concern." "There will be an extraordinary Dane vote concerning the European international Police and Judicial co-operation. 'Yes please', is the obvious rational respond for the great majority of civilized Danes. EUROJUST, EUROPOL and CEPOL are essential to protect themselves against the overwhelming international organized crime. However, powerful minorities of international criminal organizations do proactively oppose such hardening of law and order, - obviously. They will most certainly manipulate political campaigns in their cloaked ways. It might even appear as legitimate political oppositions by respected politicians. The outcome might even alter, if unaware of such ongoing psychosocial 'Underworld' Games." The following 3 UU talked through issues concerning the balance of the three constitutional Powers; the Legislative, the Executive and the Judicial powers (LEJ)." (UU 2015.nov.06)
- "There is no way that a small democratic nation can deal with imperial mafias. As mentioned in UU 2011.aug.26 and UU 2011.juli.29 in relation to the 22/7 assaults in Norway. "This was coordinated

terror attacks, not merely towards the Norwegian Government, but towards all of NATO, EFTA/EU and the UN. Therefore, NATO shall be involved in the investigation. Furthermore, the police cooperation of Schengen (+ EUROJUST, EUROPOL and CEPOL) are most relevant. Norway (and other Nordic countries) have great need for considerable assistance from NATO and EU, because it is now obvious that we cannot handle it ourselves when divided. Particularly alarming is LO political psychotic symbiosis with the governmental AP." "It should be clear in this century that LO has been used as a remote-controlled para-LEJ, - and is about to be upgraded according to the Russian reorganizations in this century." (UU 2015.okt.23)

- "This was mentioned in UU 2014.nov.28: "The massive cybercrimes against the Police, Military, Tax-authorities' Public health in CSC Denmark and IBM mainframes were executed by disloyal employees, remote computers in Pirate Bay and controlled from Asia. The delays in police investigation indicate massive organized crimes that also include employees in the Danish police force. Therefore, it is simply beyond any nativity to claim that this major operation was organized by two young sociopaths." "Most alarming is the extensive use of the hackers' favorite operating system - Linux. Anyhow, the ongoing trial in Denmark is most probably just the tip of an iceberg in all of the public sectors in all NATO nations." Furthermore, as mentioned in UU 2014.dec.12 "Most alarming is the recent take-over of all IBM Intel Server in all NATO nations public and private sectors. (See UU 2014.nov.28.) Big Blue made Big Red by handing over the needed resources, network, servers and technology to execute considerable IT hacking, espionage, and info/money manipulations." NATO nations' public sectors do not seem to realize that most of their main IT systems are now legally in Chinese control too." (UU 2015.okt.23)
- "A major Dane parliamentary Game shift happened when the previous DF leader became President of the Parliament. The following is translated from Norwegian in UU 2015.juli.24." "Now, when the dominant DF matriarch got the post as the president of the Parliament, - the upcoming Games in the Parliament becomes rather predictable. The Dane FrP fell and was divided when someone accused the leader (Glistrup) for tax-fraud, which got him arrested and jailed. DF seems to be managed like a folkschool class with 'real' Danes. (UU 2015.juli.03). It is like a Nashi (Наши) -culture that got a flag like a diagonal Dannebrog. LYAHF and Jante Games needs rivaling opponents, - and there are several aggressive candidates in the new Parliamentary to attack the minority Government. Then, the stage is set for a new-defined matriarchal Game 'Cockfight In the Henhouse' (CIH) from the new 3^3 Game category AF (Animal Farm) (UU 2014.sept.12). Likewise, more Games in the classical category 'Sexual Games' relates to 'A Dollhouse' (UU 2014.sept.12). However, the upcoming Europol Games will be played in all of LEJ, because the Executional and Judicial powers also do deviate from alternative agendas, - even though illegal." (UU 2015.okt.16)

All in all, Europol, Eurojust and Cepol, as well as the CoA and OLAF, have to be as active at the 'parallel organisational apparatus' EFTA as the EU. There is a major task ahead to stop the pandemic political corruption and prevent any EU CdE attempt. One major focus for the EU LEJD powers should be the upcoming NoExit parliamentary election on 11/9 2017. The outcome will significantly influence the EFTA, and indirectly the EU, for a very long time. It might even be a point of no return.

Bjørn Eidsvåg is a Norwegian singer/songwriter that has been a staple on the Nordic pop scene since the 1970s. he worked as both a solo artist and behind the scenes with other musicians. He is a graduate candidate of Theology and an ordained Lutheran minister that often references his Christian beliefs in his music. However, his lyrics are often open-minded, thought-provoking and critical of organized religion. He usually sings about ordinary people's challenges in their lives. He has released more than 25 albums and received the Norwegian music award the Spellemannsprisen at least three times.

The association to this song is consequences of improper authority quality assurance of the free movement of People, Products, Services and Money that violates the Health, Environment and Security. That could be servitude, drugs, violence and unfair debt.

Lyrics (translated from Norwegian to English for the occasion)

The only thing she ever wanted was a sunny day, a cloud-free sky.
A carefree hour with some good friend around,
Sober but dizzy - dizzy of joy of having peace.
That is not a lot to wish for, is it
Though she knows that takes something extraordinary
For now, that is not how life is.

This is not how it should be, this is not how it should go.
She dreamed of a much better time, a dream that never came true.
It all could be good if she got away
It never turned out that way, one hurts with too much betray.
(Chorus)

It hurts and the light is no friend.
It is safest in the dark with the curtains down
Not everything is good to see
It hurts when the light shows what is messed with
This is not how it should be, but the dark has a greedy lust
It is hard to recover, a childhood that was lost
For every effort, one is abandoned more.
(Chorus)

Extra UU – EFTA and other organisations

There is too little common knowledge about institutions like EFTA, Europol, Eurojust, Cepol, CoA and Olaf. A main reason is the mass-psychosis from anti-European campaigns prior to elections and referendums.

Here are some enlightening info videos, though.

Collideoscope - The Dukes Of Stratosphear

2017.aug.11

Ukens Utvalgte

There are at least 4 more European Exit Games in 2017 - the parliamentary elections in; Norway (Noexit), Germany (Gexit), Czechia (Chexit) and Luxemburg (Lexit). The campaigns will be just as manipulated as in the previous. There will be hardcore Underworld Gamers in the mass-media that aims to cause mass-neurosis, mass-psychosis and mass-schizophrenia. The Green movement is alternating from Islamism to Nashism. However, the Game-masters are still of the same GRAF and PROSA. Noexit is first to be exposed. It is therefore crucial to learn the Noexit Moves to plan the counter-moves to the following Exit Games. In this blog, the focus is set on the Games of the Red-Green conspiracy in order to maintenance and improve the 'western' LEJD Qualities - prior to those democratic parliamentary elections.

This focus is based on the 3D political model that was presented in blogs like UU 2014.sept.12. The extremists' riots are conspired like football hooligans. The supporters of 2 friendly rivaling teams are infiltrated by sociopathic agents. However, perceptions of the term 'conspiracy theory' should not be confused with true 'conspiracy'. The definition is: "Conspiracy: 1. An agreement to perform together an illegal, wrongful, or subversive act. 2. A group of conspirators. 3. Law An agreement between two or more persons to commit a crime or accomplish a legal purpose through illegal action. 4. A joining or acting together, as if by sinister design: a conspiracy of wind and tide that devastated coastal areas." (ref. thefreedictionary.com)

The LEJ model (Legislative/Executorial/Judicial) is based on the political 3D model. However, the simplest form of 1D model is consequently used in western mass-media. Here is an explanation from the same blog on what is wrong with the 1D model and how it is abused to promote extreme movements:

- "In such a 1D model, all parties are placed on a straight line between the two points Left and Right. It gives an impression that Throne and State are absolute opposites that all other parties have to relate to one of them, and that extremists always are beyond one of these two points (extreme Left and extreme Right). However, this 1D can be viewed in another way. If the two ends of the line are attached, you will see that the two extremist's groups are not opposites at all, but at the same area at the circumference of a 2D circle. Left and Right extremists basically represent the same destructive anti-powers despite any 1D political relation. Nonetheless, a comprehensive model is not made by simply relating Right and Left to a single point. To build a 3D model, the next step is to let State and Throne represent their own

axis in a 2D area. Besides, the two axes do have negative scales, where extremists consequently will place themselves as anti-parties on their rivals' negative scale." "The third dimension is the third axis represented by Temple. The chosen term might sound strange after a century of atheism. However, historically, religion is called 'the first philosophy' and relates to fundamental philosophies, ethics and legal systems."

The Green extreme faction in Norden is called the 'Nordic Resistance Movement' (NRM). The remote-controlled guerilla exposes the core of the anti-western politics that manipulates civilized parties. The NRM concept is similar to some 'red resistance movements' and RAF prior, during and after the WW2. However, it is by no mean Nordic, European or western, but abuses the names for ulterior camouflage. The movement is merely another Belarusian attempt to dysfunctionalized 'western' to their own standards - symbolized with their red-green flag. The NRM pinpoints the source of the corruption – that simply is Belarusian nashi. It rejects 'western' values like democracy, human rights and European international confederation and is compared with North Korea and located in the midst of Europe. (UU 2017.mai.05)

Some clippings from Wikipedia presents the 'Nordic Resistance Movement' (NRM). The movement has more in common with the 5th Pyramid Russian Nashi than the 3rd Pyramid German Nazi though.

- "The Nordic Resistance Movement is a Nordic Neo-Nashi movement that exists in Sweden, Finland, and Norway. It used to exist in Denmark as well until it was disbanded for inactivity in 2016, and was started as a band in Germany by the name of Nordfront. The former White Aryan Resistance (VAM) laid the foundation of the Swedish Resistance Movement founded in 1997. Later on, a similar Norwegian resistance movement was established. they became more militant in their rhetoric. The organization has a closed structure, a strong hierarchy and discipline. the Swedish branch of the organization announced it was being formed as a political party."
- "The Nordic Resistance Movement advocates an immediate stop to "mass immigration" to the Scandinavian countries, and as soon as possible implementing the repatriation of the majority of peoples that are not of North European descent from the Nordic countries or of closely related descent. It also advocates the eventual creation of one unified Nordic self-sufficient state with a common military, common currency and central bank. Mass media shall be owned exclusively by citizens of the new North. Domestic as well as foreign media that act and behave hostile towards the Nordic people, shall be banned. The Nordic state will introduce national military conscription and expand the military. All those who have completed service in the Nordic military service will keep their weapon and gear. Each citizen should be able to aid in the defense of the nation towards domestic as well as foreign enemies. Memberships in The European Union and other similar associations will immediately be terminated."

The schized Green movement appears in this 5th Pyramid Game, just like the Red movement of the 3rd Pyramid Game prior to the World War 2 and the ISIL movement. The popularized conspiracy calls themselves Red-Green and infiltrates several established parties and alliances to cause internal schisms. They trigger their Red and Green factions and cause civil discontent and unrest during the election campaigns. The Red-Green conspirators blame the political rivals for their own riots and present themselves as 'saviors' from such civil failures – with physical and mental violence.

The 'Nordic Resistance Movement' (NRM) is the same old pathetic ambitions to submit Norden in a Russian empire. It is as old as the Russian Great Nordic War at the 1700 and new as the world wars in the 1900. The destructions and failures are repeated every half century. This time, it is founded in GRAF and Nashi. The issue is often in focus in these blogs and here are some clippings.

- (UU 2016.mars.04) Wikipedia says, "Under Peter the Great, Russia was proclaimed an Empire in 1721 and became recognized as a world power. Ruling from 1682 to 1725, Peter defeated Sweden in the Great Northern War, forcing it to cede West Karelia and Ingria (two regions lost by Russia in the Time of Troubles), as well as Estland and Livland, securing Russia's access to the sea and sea trade. On the Baltic Sea Peter founded a new capital called Saint Petersburg, later known as Russia's "Window to Europe". Peter the Great's reforms brought considerable Western European cultural influences to Russia." Seen from Empire' perspective, Tordenskjold reputations hardly mattered, as long as the deeds promoted the outcome, - to weaken any other powers in the Baltics. Seen from Swedish and Danish perspectives,

- Tordenskjold might have appeared as a pro-Russian separatist, - in Dane uniform. Remembering very well the collapse of the Nordic (Kalmar) Union by Christina IV and Ivan the terrible, the Russian Great Nordic War could develop to be a cascade of Novgorod Massacres. (UU 2016.feb.19) It is, however, a common mistake for nationalists to be lured into acting as resourceful and successful pro-imperial separatists.

- (UU 2017.juli.14) “Nashi (Наши), the Putinized youth organization, turned unacceptable. Wikipedia says: “In 2012, the leader of Nashi announced that the movement would be dissolving in the near future, possibly to be replaced by a different organization. Media have compared it to the Soviet Komsomol or the Hitler Youth and called ‘Putin jugend’.” In a Nordic view, it is remarkable that Nashi flag is like a diagonal Danish one and the neo-Russian flag is like a diagonal Norwegian one.” (UU 2015.mars.20)
- “Geert Wilders played an alpha-male to a Nashi script. In this SPGO anti-thesis, he is of PROSA Separatist - supported by Oligarchs and activating the Anarchists. In this sexual/ID motivated variation of the LYAHF Game, the Dutch and Turks were set up to fight each other by a third and cloaked 3rd party. It is highly treasonous, though, when Geert Wilders proclaims that “the patriotic revolution continues” hinting to the upcoming Texit, Frexit and Gexit, as well as his homeland, Holland. The statement stems from the 3rd International, apparently adapted to the 5th. The attempts to cause riots and ‘social-patriot revolution’ was highly supported by the PPP’s newest best friend, the Caliph-wannabe. His apparently anti-Wilders diplomats tried to force through anti-European campaigns in Holland with extreme diplomatic threats, - just a few days before the election. That anti-democratic abuse of the European Human Right ‘Freedom of speech’, was exposed and hindered, though. Now, the puppet presidents of both Russia and Turkey have exposed themselves as desperate to avoid their destined 13th conflict and consequently another annexation of Crimea.” (UU 2017.mars.24 and UU 2017.mai.05)“
- “Frexit, might be an end, if Marine Le Pen wins and France falls into nashism. She is just another Putinized mass-product of mass-psychosis- like Geert Wilders. They are both paid to do Nashi propaganda in European nations. The Le Pen family is apparently well paid to take the Putinized Nashism to the French ultimate power, - the president. The end is to make France anti-western by taking France out of NATO, EU and initiate war towards France’s ‘western’ allied. Such a scenario is a re-run of the 0th Pyramid Game, - the French/Russian Napoleon wars - with a more masculine emperor-wannabe this time.” (UU 2016.juni.24 and UU 2014.mai.16)

GRAF is previously related to terrors of Islamism since its color is green. However, it is not truly religious at all. It is merely deceiving cloaks in hardcore underworld Games of 4th degree. Green is also the dominant color of the ‘Nordic Resistance Movement’ – as well as their main opponents, the Islamists. Their expressions are strikingly similar, as if of the same concept. Therefore, these previous quotes concerning ISIL are basically applicable for NRM as well. (UU 2017.juni.23 and UU 2016.sept.23)

- “Ulterior RAFs and alike exist in most nations and have variations like BRAF and GRAF.” The hypothesis of the present multiple RAFs is talk through several times and accumulated in UU 2014.juni.13. In brief, ‘Red Army Factions’, despite their extreme ulteriority, were disclosed in several European nations and probably exists in all. A RAF-dnk cell called ‘Blekingegadebanden’ was named after the disclosure of a weapon depot in Copenhagen. Besides, the hypothesis of RAF development is the pre-RAF as BRAF (brown-red), formed from the ww2 Stalin-Hitler alliance and postwar-Games. This century’s RAF has become GRAF (green-red) where green as the color of Islam and do not symbolize of nature at all. Furthermore, another bullet point said; “Pro-Russian Oligarch, Separatists and Autonomes (PROSA) do not merely operate in Ukraine.” This is based on present media observations on how the neo-SU CdE Games are played, where there are hierarchies of RAF cells organized, yet manically denied like in ‘Underworld’ Games of mafia bosses. The executioner in Oslo, Paris and Copenhagen are displayed as Autonomes, merely to disguise and protect the massively organized crimes behind.” (UU 2015.feb.20 and UU 2015.jan.09)
- “In response, ‘Western’ nations need to eliminate the Leninist anti-western heritages before the ongoing 5th Pyramid Game irreversibly renew the 4th Pyramid Games of the Cold war. (See the Comintern 21 Conditions and the 11 previous blogs.) There should be no doubt that the Dexit, Next, Grexit and Brexit were 5th Pyramid Games of CCD (Colony collapse disorder) and CdE (Coup d’ Etat).

Even the 18/9 Rexit, the Russian Exit from 'Western' collaboration, aligns with the same concept. This century's remote controlled Pro-Russian Oligarchs, Separatist and Anarchists (PROSA) are like the previous century's BRAF, RAF and GRAF. Cold War Puppet Presidents were voted away in European nations during the short period of 'glasnost and perestroika'. However, new ones seem to be positioned in Games of CCD and CdE. Some does not even seem to be aware that they actually are puppet presidents, - like PPP (Puppet President Putin). 'Democracy threatens' is the title of an episode of the TV series "Putin, Russia and the West". REXIT proves the paranoia of the Secret Services of the Oprichnina/Praetor." (UU 2016.juni.17)

- "Less known, but more important, are the relations indicated to the Carlos the Jackal. As mentioned in UU 2015.feb.20 concerning the GRAF attack at 'Krudttønden' in Copenhagen (where the French ambassador was attacked): "Historically, in 1968, Carlos opted for the Patrice Lumumba University in Moscow that was reputed as a notorious hotbed for recruiting foreign communists to the Soviet Union. He was expelled from the university in 1970 by disciplinary reasons, though. Then he travelled to Beirut and Lebanon, where he volunteered for the PFLP (Popular Front for the Liberation of Palestine) in 1970 and tried to establish his own organization with Syrians, Lebanese, and (East-) Germans. Carlos was also connected to the STASI that provided him with an office and safe houses in East Berlin, a support staff of 75, a serviced car, and allowed him to carry a pistol in public. The STASI files also show links to the KGB (today's FSB). There is no public information if Carlos and Putin had relations when they both were with the KGB in East Germany. However, Carlos the Jackal was most certainly closely related to RAF-dnk." (UU 2014.nov.21.) Anyways, the Jackal's main objective was to train Arabs in Underworld urban warfare like any sociopathic attacks from pillaging and terror to mass-murder." (UU 2016.juni.17)

'Carlos the Jackal' is a missing link that identifies the conspiracy between Red and Green remote-controlled factions. The Islamism green did cause a European collapse this time— now the nashism green are put on the stage of the Game.

Detailed LEJD analysis of the Norwegian (and Dane) political movements will be focused on future blogs. However, the 3D model LEJ is common and will be used on all the Exit Games. The model was summarized in UU 2015.nov.06.

- "The 3D political model, that is the basis for the LEJ model, was introduced to this theme in UU 2015.okt.16. "The 3D model is another tool to improve the perception of political Games. The 3D political model is a psychosocial version of the traditional 1D political model. It is described in UU 2015.juni.12 for Dane and Nor parties. Originally, 3D related to the parliamentary fundamentals Throne/State/Temple, but now rather relates to LEJ (Legislative/Executional/Judicial). "A 3D model gives different perceptions of the political world than today's 1D model. Organizations' names can be misleading. Confusing is that the Dane Venstre (Left) is like the Norwegian Høyre (Right), and that the Dane Radikale Venstre (RV) was a civil (bourgeoisie/borgere) party in Government, while the Norwegian RV (Rød Valgallianse) was a left-extremist failure. Furthermore, the 1D model shows several parties 'in the middle' while the 3D presents more descriptive relations. The Nor SP (Senterpartiet/farmers) is confusing, since it is not in the center of neither 1D, 2D nor 3D. Politically, SP moved from Throne to State and is now bound to State subsidies. KrF (Kristelig Folkeparti) relates more to Throne and State than Temple due to family policies and the State dominated Church (Statskirken). FrP/DF (Fremskrittspartiet/Dansk Folkeparti) was originally Throne oriented, with factions' hard rhetoric of anti-State. Rødt (Red) and EL (Enhedslisten) are extreme State parties that still find civil war 'necessary means' for their CdE (Coup d' Etat) ambitions. National socialists relate, as the name indicates, to State, but became dominated by the next generation, - national communists (after ww2)."
- "Positioning organization in the 3D model can be done by using coordinates like (x,y,z) for L,E,J (originally: where Throne,State,Temple is (Th,St,Te)). General stereotyping in a scale from -10 to +10 can then have the following positions: Royalists (civilians -bourgeoisie/borgere) (+10,0,0), Republicans (public servants) (0,+10,0), Theocrats (Judges) (0,0,+10), Left-extremists (-10,+10,-10), Right-extremists (+10,-10,-10), religious warriors (-10,-10,+10), UN (+5,+5,+5), hunters/farmers (0,0,0) etc. The size of the 3D item could represent Powers like Influence, money, members, etc. 'Democratic' is rather about general respect for others and true democrats should be position on all positive scales. Any negative numbers rather reveals bogus organizations that are not what they express." This is certainly not measured for Dane, Nordic or European nations. However, an fair assumption is that the average for

LEJ can be set to (+5,+5,+5). However, the focus should not be set on an average, but rather at the extreme negative actors, that drags the quality of LEJ from +10 towards the negative.

- “Political organizations change over time. It shows in a 4D model, where 3D positions reveals movements over time. Terms like ‘conservative’ and ‘radical’ are no longer fixed positions in 3D, but show stillness and movements in 4D. Organizations can even be relatively conservative or radical in timeframes. The organization, not party, LO is one of Norway’s most conservative political organization, despite its extremely radical origin. LO’s bond to AP (Arbeiderpartiet/Labor) makes it a powerful para-LEJ actor. (UU 2013.sept.20 and UU 2013.aug.23.) On the other hand, conservative organizations of the previous century can be relatively radical now, because they are in opposition instead of position. The 4D model will also show organization that come and go. Relations of short-lived extreme organizations might show as pulsing constants in the 4D model, like the Nor line of NKP, AKP, AKP-ML, RV and Rødt.” As mentioned throughout this theme and especially in UU 2013.sept.20 and UU 2013.aug.23, there are powerful para-LEJ organization in Denmark, Norden and probably in all European nations. They are major Game player in national LEJ, since they are highly illegal according to national penalty law. However, the ulterior Moves becomes indirectly apparent during such vital decisions like this Dane referendum concerning European cooperation with EUROJUST, EUROPOL and CEPOL. Para-LEJ politicians uncloaked themselves by public indignation when head of Europol, Rob Wainwright, told some truths about the real consequences of a Dane opt-out from Europol.” (UU 2015.okt.16,) (Note that this the model is later called 3D+t, since ‘time’ is not a dimension but a factor like energy and mass.)

“There are many kinds of electoral fraud, like; Electorate manipulation of demography, Disenfranchisement and Division of opposition support, Intimidation, Vote buying, Disinformation, Misleading or confusing ballot papers, Ballot stuffing, Misrecording of votes, Misuse of proxy votes, Destruction or invalidation of ballots, Tampering with electronic voting machines, Voter impersonation, and Artificial results.” (UU 2017.jan.13 and UU 2017.mars.24) PROSA of the 5th Pyramid Game seems to use conditions similar to the 3rd Pyramid Game.

- “Pyramid Games are based on the illegal ‘Pyramid scheme’, ‘Eight-ball’ and ‘Gifting circles’. 8 people are lured by one to ‘invest’ in illusions of repayments in a distant future, - not realizing that the Game is built to collapse and rather cause their ruin. The ethics to such Game masters are ‘honesty is for suckers’. The 5 Pyramid Games in this UU theme are related to the 5 Internationals. Those ‘suckers’ are lured to contribute to domestic CCD (Colony Collapse Disorder) that weakens their prey nation enough to enable the main gains of CdE (Coup d’ Etat). (About related sub-Games UU 2014.sept.12.)” (UU 2016.juli.15 & UU 2016.mai.13)
- “PROSA Separatists are obligated, according to the 21 Conditions of 3rd International, to cause CCD (Colony collapse disorder) in European and American states, - in order to cause and support CdE (Coup d’ Etat). All the conditions are listed in the link under. The previous UU 2016.aug.05 quotes the most relevant Conditions that are similar for PROSA Oligarchs. Here is a brief summary of the PROSA obligations: C2; “...methodically remove reformists and centrists from every responsible post in the labour movement (party organisations, editorial boards, trades unions, parliamentary factions, co-operatives, local government) and replace them, ...” C3; “In almost every country in Europe and America the class struggle is entering the phase of civil war. They have the obligation of setting up a parallel organisational apparatus which, at the decisive moment, can assist the party to do its duty to the revolution. In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity.” C6; “Every party that wishes to belong to the Communist International has the obligation to unmask not only open social-patriotism but also the insincerity and hypocrisy of social-pacifism, to show the workers systematically that, without the revolutionary overthrow of capitalism, no international court of arbitration, no agreement on the limitation of armaments, no ‘democratic’ reorganisation of the League of Nations will be able to prevent new imperialist wars.” C13; “.. cleanse the party systematically of the petty-bourgeois elements (loyal citizens).” (UU 2016.aug.12)

Still: “focusing on anti-democratic cyber-crimes in Europe, the Hyper-parliamentary Europol and Eurojust are definitely the International cyber-crime fighters. The Pyramid Game became very apparent in the Dane (anti-) Europol referendum in 2015.dec.03. The Dane example of international referendum fraud should be

investigated by Europol and brought to the EU Court. Furthermore, Dane, Norwegian and any other EU/EFTA nations should have their laws quality ensured in accordance to EU innovations.” (UU 2015.april.10)

The conclusion and solution to the anti-European conspiracies of Exit Games are still as relevant as in the conclusion of UU 2017.mars.24. “Democracy, and democratic elections, are fundamental to the European culture. Therefore, a main objective to European nations is to protect and promote sound elections without corruptions. This is obviously hard, when noticing the high level of daily political corruptions. However, that is not the main concern here and now with the series of anti-European Exit Games. (see UU 2014.okt.24, UU 2015.nov.06, UU 2014.okt.31).”

- “The federal Europol should realize that such electoral frauds are international crimes and within their mandate to investigate and to take counter-actions. If not realized with the openly interference of Turkish diplomats, it also was with the coordinated manipulation of the Austrian presidential re-vote and Italian constitutional referendum at 4 December 2016 and will be uncovered in the upcoming French and German elections.”
- “What is next, then? Even if the series of Exit Games are exposed and disabled, there certainly are other series of sub-Games to the 5th Pyramid. There are already indications and symptoms, which will be exposed in the following blogs to these 50 additional P5GO (The 5th Pyramid Game Over).”

Also see: www.skrindo.dk/blog

‘The Dukes of Stratosphear’ was presented in UU 2017.juni.16: “ ... was an English rock band formed in 1984. The Dukes were initially publicized by as a mysterious new act, modeled after psychedelic pop groups from the 1960s. However, they were actually a spin-off band by the famous band XTC that actually outsold their alter-ego band at that time. XTC were an English rock band emerged from the late 1970s punk and new wave explosions, later playing in a variety of styles that ranged from angular guitar riffs to elaborately arranged pop. They earned a devoted cult following. Some XTC's singles were ‘Making Plans for Nigel’, ‘Sgt. Rock (Is Going to Help Me)’ ‘Dear God’, ‘The Ballad of Peter Pumpkinhead’ and ‘Mayor of Simpleton’.”
The association to this song and blog is how both schized Green Movements, the Islamists and NRM are the very same kind They see themselves in a Collideascope as ‘Good Guys’ and mutually project their own ‘Bad Guys’ perception on the other.

Extra UU – Red-Green as a Right-Left conspiracy

John Cleese and John Oliver presents their views on political extremism. Such fires are taken out with water – and not with gasoline. It appears that Cleese has a general psychosocial sound view and that Oliver has a single sided attitude. If so, John Oliver is just another single-sided hooligan commentator.

Twenty One Pilots – Heathens

2017.aug.04

Ukens Utvalgte

There is a far deeper cultural origin to the Pexit process than presented in the previous blog UU 2017.juli.28. In fact, the ‘western’ world-wars were spin-offs from the Russian Fatherland wars and their final termination of the Prussia empire. It comprised i.a. Poland and Germany. However, the wars were also theocratic, where the Russian orthodoxy terminated the Gothic Christianity as well as their own Tsardom.

Still, Goth memes and archetypes pops up in cultures like some murky ghosts of a mysterious past. Such psychosocial phenomena of collective UnderConscience and OverConscience, will be evaluated here in order to reduce dysfunctional dilutions from the previous century. Therefore, there will be some presentations of Prussian and gothic cultures, related to the 3^3 psychosocial theories and the 5D scenario model, - as well as some talk-throughs about the 5 Pyramid Games.

It is a vast task to relate the Prussian empire and gothic religion to the P5GO theme (The 5th Pyramid Game Over). It is complex, the point of view is new and the information is suppressed. It is like peaking under a big Rubik's Cube that lies on the ground. However, some previous contraversive conclusion become clearer when viewing the Pyramid Games as basically a Russia vs Prussia rivalry. Their new German catholic tsarina was not wanted by the powers of the Russian Throne, State & Temple (Tr/St/Te). The cold-war demonizing became a spoil of war. A main task for the P5GO, however, is to end such Games by uncloaking the real History, Motives and Moves. In fact, as counterweight to cold war propaganda, such 5D history is actually already available on the internet for anyone at anytime.

Information of the suppressed Prussia and Goth cultures are easy to find in this century's internet. The following quotes about Prussia and related cities are basically found in Wikipedia.

- "Prussia was a historical state originating out of the Duchy of Prussia and the Margraviate of Brandenburg. For centuries, Prussia, successfully expanding its size by way of an unusually well-organised and effective army. Prussia, with its capital in Königsberg (Kaliningrad) and from 1701 in Berlin, shaped the history of Germany. In 1871, German states united to create the German Empire under Prussian leadership. In 1918, the monarchies were abolished and the nobility lost its political power during the German Revolution of 1918–19. The Kingdom of Prussia was thus abolished in favor of a republic—the Free State of Prussia, a state of Germany from 1918 until 1933."
- "From 1933, Prussia lost its independence as a result of the Prussian coup, when the Nazi regime was successfully establishing its Gleichschaltung laws in pursuit of a unitary state. With the end of the Nazi regime, the division of Germany into allied-occupation zones and the separation of its territories east of the Oder–Neisse line, which were incorporated into Poland and the Soviet Union, the State of Prussia ceased to exist de facto in 1945."
- "The term Prussian has often been used, especially outside of Germany, to emphasise the professionalism, aggressiveness, militarism and conservatism of the Junker class of landed aristocrats in the East who dominated first Prussia and then the German Empire."
- "In the 13th century, the Teutonic Knights—an organized Catholic medieval military order of German crusaders—conquered the lands inhabited by them. In 1308, the Teutonic Knights conquered the region of Pomerelia with Gdansk (Danzig). Their monastic state was mostly Germanised through immigration from central and western Germany and in the south, it was Polishised by settlers from Masovia. The Second Peace of Thorn (1466) split Prussia into the western Royal Prussia, a province of Poland, and the eastern part, from 1525 called the Duchy of Prussia, a fief of the Crown of Poland up to 1657. The union of Brandenburg and the Duchy of Prussia in 1618 led to the proclamation of the Kingdom of Prussia in 1701."
- "Prussia entered the ranks of the great powers, and exercised most influence in the 18th and 19th centuries. During the 18th century it had a major say in many international affairs under the reign of Frederick the Great. During the 19th century, Chancellor Otto von Bismarck united the German principalities into a 'Lesser Germany' which excluded the Austrian Empire."
- "At the Congress of Vienna (1814–15), which redrew the map of Europe following Napoleon's defeat, Prussia acquired a large section of north western Germany, including the coal-rich Ruhr. The country then grew rapidly in influence economically and politically, and became the core of the North German Confederation in 1867, and then of the German Empire in 1871. The Kingdom of Prussia was now so large and so dominant in the new Germany that Junkers and other Prussian élites identified more and more as Germans and less as Prussians."
- "The Kingdom ended in 1918. In the Weimar Republic, the state of Prussia lost nearly all of its legal and political importance following the 1932 coup led by Franz von Papen. East Prussia lost all of its German population after 1945, as Poland and the Soviet Union absorbed its territory and expelled most of its inhabitants."

- “Königsberg is the historical name for the present-day city of Kaliningrad. Originally a Sambian, or Old Prussian city, it later belonged to the monastic state of the Teutonic Knights, the Duchy of Prussia, the Kingdom of Prussia, the Russian Empire and Germany until 1946. After being largely destroyed and annexed by the Soviet Union, the city was renamed Kaliningrad. Few traces of the former Königsberg remain today. A Baltic port city, it successively became the capital of their monastic state, the Duchy of Prussia and East Prussia. Königsberg remained the coronation city of the Prussian monarchy, though the capital was moved to Berlin in 1701.” “The multicultural city Königsberg had also a profound influence on the Lithuanian and Polish cultures. The city was a publishing center of Lutheran literature. Königsberg was heavily damaged by Allied bombing in 1944 and during its siege in 1945. The city was captured and occupied by the Soviet Union. The territory's current legal status is unclear. Soviet administration, but did not mention an explicit right of annexation. In the Final Settlement Germany renounced all claim to it, but without specifically transferring its former title to any other party.”
- “Danzig/Gdansk is a Polish city on the Baltic coast. It is the capital of the Pomeranian Voivodeship, Poland's principal seaport and is also the center of the country's fourth-largest metropolitan area. With its origins as a Polish stronghold erected in the 980s. The city's history is complex, with periods of Polish rule, periods of Prussian or German rule, and periods of autonomy or self-rule as a ‘free city’. Between the world wars, the Free City of Danzig was in a customs union with Poland and was located between German East Prussia and the so-called Polish Corridor.” “Danzig lay in a disputed region between Poland and the Weimar Republic, and later Nazi Germany. The city's ambiguous political status was exploited, furthering tension between the two countries, which would ultimately culminate in the Invasion of Poland and the first clash of the Second World War just outside the city limits. In the 1980s, it would become the birthplace of the Solidarity movement, which played a major role in bringing an end to Communist rule in Poland and helped precipitate the collapse of the Eastern Bloc, the fall of the Berlin Wall and the dissolution of the Soviet Union.”
- “After the appointment of Hitler as the new chancellor and appoint Hermann Göring federal commissioner for the Prussian ministry of the interior. The Reichstag election of 1933 they did not achieve an absolute majority. A propaganda-film shows the Nazi Party to win over the Prussians and induce them to vote for the Enabling Act of 1933. Hitler himself became formally the governor of Prussia. His functions were exercised, however, by Hermann Göring as Prussian prime minister.” “The Prussian lands transferred to Poland after the Treaty of Versailles were re-annexed during World War II. However, most of this territory was not reintegrated back into Prussia but assigned to separate Gaus of Danzig-West Prussia and Wartheland.” “The Allied Control Council formally proclaimed the dissolution of Prussia. In the Soviet occupation zone, which became East Germany (DDR) in 1949. The areas east of the Soviet occupation zone, mainly Eastern Prussia, Western Prussia, and Silesia were handed over to Poland. This included Danzig, Königsberg, Breslau, and Stettin. In the West Germany (FRG), the former Prussian territories were divided up among North Rhine-Westphalia, Lower Saxony, Hesse, Rhineland-Palatinate and Schleswig-Holstein and later Württemberg-Baden and Württemberg-Hohenzollern.”

The Goths, are not that well described, though. Still, the cultures have been considerable for the Roma³ as well as Roma¹ and Roma². Here are some more quotes from Wikipedia.

- “The Goths were an East Germanic people, two branches, the Visigoths and the Ostrogoths, played an important role in the fall of the Western Roman Empire and the emergence of Medieval Europe. The Goths dominated a vast area, which extended all the way from the Danube to the Don, and from the Black Sea to the Baltic Sea.” “The extinct Gothic language was last spoken in Crimea in the 18th century by the Crimean Goths; the least-powerful, least-known, and almost paradoxically, the longest-lasting of the Gothic communities.”
- “Initially practicing Gothic paganism, the Goths were gradually converted to Arian Christianity in the course of the 4th Century as a result of the missionary activity by the Gothic bishop Wulfila, who devised a Gothic alphabet to translate the Wulfila Bible. During the 370s, converted Goths were subject to the Gothic persecution of Christians by the remaining pagan authorities of the Thervingi people. The Visigothic Kingdom in Hispania converted to Catholicism in the 7th Century. The Ostrogoths (and their remnants, the Crimean Goths) were closely connected to the Patriarchate of Constantinople from the 5th Century, and became fully incorporated under the Metropolitanate of Gothia from the 9th Century.”

- “The Teutonic Order (the Order of Brothers of the German House of Saint Mary) is a Catholic religious order and military order since 1200. It became purely religious since 1929, and still confers limited honorary knighthoods. The order was formed to aid Christians on their pilgrimages to the Holy Land and to establish hospitals. Its members have commonly been known as the Teutonic Knights, having a small voluntary and mercenary military membership, serving as a crusading military order for protection of Christians in the Holy Land and the Baltics during the Middle Ages.”
- “In the late 18th century, Gothic tribes who remained in the lands around the Black Sea, especially in Crimea - then known as Crimean Goths - were still mentioned as existing in the region and speaking a Crimean Gothic dialect, making them the last true Goths. The language is believed to have been spoken until as late as 1945. They are believed to have been assimilated by the Crimean Tartars. However, it was claimed that the Crimean Goths had survived to interbreed with German settlers in Crimea during the Third Reich and that German communities in Crimea constituted native peoples of that area.”
- “The goth subculture is a contemporary group of people within a culture who adopt fashion elements such as black clothing, dyed black hair, dark eyeliner, black fingernails and black period-styled clothing and a focus on gothic rock and a range of other music genres. It an offshoot of the post-punk genre. Its imagery and cultural proclivities indicate influences from the 19th century Gothic literature along with horror films. Styles of dress within the subculture range from deathrock, punk and Victorian styles, or combinations, pale face makeup and black hair.”

The goth subculture seems to be in such opposite contrast to the Goth Christianity, that it does not appear genuine at all. It rather seems to be popularized projections of pre-justice in Games of BGGG (Bad Guy – Good Guy).

The Belarus nation was focused in UU 2017.april.07 and Novgorod is a recurring issue in these blogs, like in UU 2017.juni.23. These are closely related to the Prussian and Gothic cultures as well. Some archetypical UnderConscience of humanity are as old as humanity itself. However, most memes, rituals, scripts are obvious when looking passed some barriers of overprotected taboos and masspsychois.

- “Another lost Nordic culture, from Novgorod, might have been stuck for a thousand years. Historically, the region and rivers was a vital link between the Baltic sea and the Black sea - between Norden and Constantinople. Today, Belarus dominates parts of that region. It is the hardest European nation to investigate and understand, since it is similar to political singularities like Cuba and North Korea. Now, the culture shows serious symptoms of dysfunctionality. However, any nation has dysfunctions of some kind, yet most are willing and able to recover. The intention of this blog is therefore not to disgrace any nation, but to focus on the term ‘dysfunctionality’ in order to provide terms for qualitative improvements. The method used - is to escalate the term from the smallest organizations, like families, to the largest, like nations. Thereby, terms of family therapy can provide some insight in howto improve the quality of nations. Though, as for families, a nation’s condition is influenced by related nations too.”
- “With the joint Moscow/Mongolian/Muslim peace-agreement, Roma3 executed brutal and effective anti-papal campaigns towards the Christians in the Baltic region and the Nordic union. “Ivan (the terrible) attacked the Baltic region brutally. The nations responded with raids, invasions and blockades. The Polish, Lithuanians, Swedes, Dutch and Germans were together in the resistance. Ivan accused that Novgorod could end up being catholic in a polish/Lithuanian alliance. The claim has no documented validation though. Roma3’s final annexations by Ivan and Oprichnina (Roma3 Secret Services) was terrible and led to the ‘Novgorod massacre’ in 1570. This also terminated the trade-route between the Baltic sea, Kiev and the Black Sea/Roma2.” (UU 2014.mai.02). It seems that control over the Baltic Sea was an obsession to Russian emperors. A trade route to the Atlantic Sea via Germany was also frequently terminated with wars at Holstein. It left the Danish castle Kronborg as the only passage regulated with taxes. (See also UU 2014.okt.31, UU 2014.mai.09, UU 2014.mai.02, UU 2013.Mai.24 and UU 2016.mai.13.)
- “The focus is therefore set on 3x3D imperial S-E/S-I obsessions and the psychosocial damaging dysfunctions to itself and the related. As mentioned in UU 2014.okt.31 about the first realization when the S-E/S-I relation was discovered. “Finally how the idea Superior-ID became: “The Oprichnina/Praetor is like a definition of psycho-social Games. The Actors and the Games are ulterior and concealed like the very nature of secret services. It is however, a problem if the democratic Quality of Life is not

respected. It is serious if the organization consider itself as a Superior-Ego and individual as inferior. It is catastrophic, if it also inherited the properties of Ivan's murky mentality as a collective obsession." The theory of Superior-Id is talked through in UU 2014.jan.10 and the OD (OverConscience Drive) in UU 2014.aug.22." (UU 2015.nov.06)

The 3^3 psychosocial model relates to issues of moral, ethics and laws. It is a core topic through this 6 years of weekly blogging. Here are some pinpoints from such 'first philosophies', primary taken from UU 2015.feb.20, UU 2015.jan.23, UU 2014.dec.19 and UU 2014.sept.05.

- "It is quite (psycho-) logical, since 'psyche' means 'soul' and therefore relates to a wide range of theologies, myths and believes. Religions are closely related to psychology and talked through in UU 2014.okt.10: "Religion is also called 'the first philosophy'. It concerns any major unanswered question and not merely the theological ones (UU 2013.des.27). Therefore, the 3x3 model's ego-state 'Belief' is a general substitute for Freud's Superior-Ego. This means that laws, ethics and rituals are included. Moreover, the 3x3 model adds the 3 levels; UnderConscience, Conscience and OverConscience (U, C and O) to the 3 classic ego-states Id/Drive, Ego/Will and Superior-Ego/Belief (D, W and B). Temporary key-words for the ego-state Belief are: UB; Intuition, obsessions, rituals, psychosis. CB; Philosophy, religion, politics, ethics. OB; [S-E] Traditions, rituals, superstitions, hypnosis (and memes)". The models are described in English in UU 2014.sept.12." Furthermore: "'Belief' is an extended substitute for Superior-Ego. The reason is that Jung's theories include 'religious psychology'. However, 3x3 Belief also includes any belief-system, like theories of anthropology and any science." (UU 2017.juli.14)
- 'Organized insanity' in S-E/S-I relations for organizations' and nations' is talked through in UU 2014.jan.10 and UU 2013.april.12: "The Ennea(-gram)/NLP destructive potentials can hardly be worse than in relation to Freud/Berne psychosocial Game-analysis. It can function like a dominating and psychotic Superior-Ego that can transfer its psychosis to the client's S-E, make ID's neurosis and even split it's Ego. There are potentials for the whole spectrum of Berne's described Games, - especially LYAHF, NIGYSOB, Debitor, SWYMMMD, Courtroom, LHHIT, Schlemiel, WDYYB, Rapo, Uproar, HDYGOH, LPFOJ, IOTHY and certainly Psychiatry. The destructive results of such Ennea/NLP psychosocial Games in enterprises and governments most certainly gain their rivals and competitors most of all." Furthermore, the DR documentary 'Crimes under hypnosis' (Forbrytelse under Hypnose) and the relation to NLP is mentioned. (See also the related Derren Brown's 'The Assassin'.) Terms like mass-psychosis, brainwash and indoctrination can surely be related to such unsound S-E/S-I relations. Identifications of such ulterior and abstract organizations might be easier with use of metaphoric terms like 'The Psychopathy' and 'The Sociopathy', to relate their activities of mass-psychopathy and mass-sociopathy to the psychosocial Games." (UU 2013.april.19)
- Furthermore: "The origin of the up-coming of 100 years' war in Europe is previously pointed to Moscow. Rasputin was merely a so-called 'useful idiot' – a brick in the Game." "Most revealing is the 'occult' parts of the Game. 'Agent' Rasputin was educated in religion, hypnosis and psychology, - was introduced to Persian mysticism, spiritualism and occultism in Kiev, got relations in Moscow and was at last positioned by the tsarina Alexandra in the Winter Palace. He functioned as her first-advisors in the war towards her home country Germany. This Game could only have fatale outcomes. There are more talk-through of such insanity in UU 2013.april.12 about Gurdjieff, the Enneagram and NLP. The DR2 documentary 'Crime under hypnosis' is talked through in UU 2012.Juli.13" Also see the other Derren's revealing videos of crimes, frauds and tricks done with hypnosis."

The 3^3 psychosocial model is comprehensive. Here are some in depth theoretical writings about the model. These quotes are mainly taken from UU 2017.april.14 and UU 2016.sept.16.

- "'Belief' is one of 3 dimensions in the 3^3 psychosocial model. Thus, Belief is related to the Freudian Superior-Ego and the Jungian collective 'OverConscience' and 'synchronization'. True Belief do not include Games at all, simply because Games are based on untruth. However, most belief-systems are abused by Gamers and projects their dishonesty on them. The following is from the UU 2016.sept.16 where the true Belief Game-categories WoW, SET and UNO are more fully described, - and related to Game categories of such untruth."
- "Belief in itself do not includes Games at all. However, there are Game categories of Belief are played by Will, like there are classic Game categories of sexual (Id), social, and underworld of 3rd degree. Still,

the deceiving ulterior and secret moves and goals in Games do most certainly include claims of Belief properties like wisdom, divinity and heritage. Yet, always keep in mind that there are 'positive Games' as well as 'negative Games'. There are probably more Games related to Belief that suites the value-systems of GUR (Good/Use/Right) than BAW (Bad/Abuse/Wrong), - like the Christian and platonic virtues; belief, hope, love, wisdom, courage, moderation and justice. Why believe so? One way to see this is that most expressions in poetry and songs are emotionally good rather than bad, - most expressions of folk tales have rather useful moral than abusive, - and most religious mythologies do rather express philosophical righteous ethics than wrongful ones. At least – expressions of negative BAW Believes are to indicate directions, boundaries and goals. See what happens if you do the negative. Finally, impressions of beliefs might be adapted as intuitions of Belief and function like instincts of Drive."

- "Jung was more concerned about ID (3x3 Drive) and Superior-Ego (Belief) than Freud. Jung developed 4 theoretical main areas: (1) The concept for introvert and extravert personalities that became the fundament for MBTI. (2) The complex UnderConscience core pattern of emotions, memories, perceptions and wishes. (3) The concept of the collective UnderConscience that is shared by all humans and includes archetypes. (4) Synchronicity for interpersonal relations at UnderConscience level. Jung seems to take the term psychology more serious than Freud did since it means something like 'the logic about souls'. Jung became convinced that life has a spiritual purpose beyond material goals. Consequently, Jung influenced subjects like psychology, physiology, theology, philosophy, archeology and anthropology. He was an excellent writer, but many of his works were published after his death." (UU 2014.aug.15)
- «What Jung called 'Collective synchronicity', is more commonly called 'herd mentality'. Jung gave it a deeper understanding and described it as 'an independent (social) connection principle', 'a meaningful coincident' and 'an independent parallelism'. Jung claimed that the principle gave conclusive proof for his concept about archetypes and collective subconscious, because it described the controlling dynamics that substantiated the complete human experiences and history - socially, emotionally, psychologically and spiritually. In relation to Berne, Jung focused on interpersonal communications (Transaction Analysis – TA) that is most relevant to OverConscience. However, the source is at UnderConscience and Conscience levels. It includes communications directly from Drive and Belief by body-language and rituals." (UU 2014.aug.22)
- "Concerning the 3x3 Superior-ID (S-I): Previously mentioned hypothesis of a Superior-ID, in addition to Freud's Superior-Ego, seems strongly founded by Jung's hypothesis about collective synchronizations and archetypes. Ideas of a Superior ID (S-I) was talked through in UU 2014.jan.10." "In that relation, it seems rather clear that the previous century has been particularly controlled by collective unconscious 'people's movements'. It seems that the unpublished books (at that time) about the phenomena, was studied thoroughly after all somewhere. The most obvious 'peoples' movements' seducing 'isms' were based on Marx socialist ideology (CD/OB) and Gurdjieff occult theology (OD/UB) (UU 2013.april.12). Jung and Berne's theories are thereby well related to the extension of ID to Drive with the levels UD and OD." (UU 2014.aug.22)
- "It is quite possible to relate Jung's theories to the upgraded 3x3 ego-state model (UU 2014.aug.08). Jung's main areas can relate to 3x3 like; (1) introvert (CW), extravert (OW); (2) complex patterns (CD); archetypes (UD) and (4) synchronicity (OD). Jung's theories about spirituality/psyche relates to the 3x3 level Belief where; spirituality/psyche – UB, religious conscience – CB and spiritual collective expressions – OB. The 3x3 model relates also well with Jung's theories about UnderConscience (UD, UW and UB), in addition to collectivity and synchronicity (OD, OW and OB). However, individual conscience relates more to Freud by (CD, CW and CB)." (UU 2014.aug.15)
- However, "The Belief dimension of the 3x3 model is different from Drive and Will. Freud and Jung called it 'Superior-Ego', while Berne called it 'Parent'. Belief concerns ideas of what we cannot possibly fully understand, yet need to know and trust. Here, focus is set on Belief in Supremacies like the S-E. The Superior-ID (S-I/Drive) was included 2 years ago. Now, the Superior-Devine (S-D/Belief), a new and third subcategory, is included to complete the model. However, with this completion of the theoretical part of this Charlie theme, the (previous) 3x3 model has become a 3^3 model, i.e. 3x3x3, because of the 3x subcategories in Drive, Will and Belief." (UU 2015.mars.13)

- “The social Game category ‘Games of Temples’ (GoT) relates to Belief that has its origin in Freud/Jung’s terms Superior-Ego, - as far as human logic applies. In fact, GoT is not about divinities, but logical believes in society’s superior powers. Even atheists play GoT of GUR value system (Good/Useful/Right). OverConscience communications are essentials for such socializations. In the beginning, there might have been value-systems of Constructive and Destructive (Use and Abuse) and even Good and Bad. However, through the centuries, the original reasons and feelings are gone with the deceased Matriarchs and Patriarchs, yet continued as social intuitions recalled with monuments and Rituals. The value system might turn into undisputable absolutes, - of what is Right and Wrong. In most cases such become Rituals, - which has no ulterior motives, but rather processes of socialization and assimilation. However, failed Ritualizations might cause Games of 2nd and 3rd degree. The long forgotten reasons of social behaviors might escalate to Games with hidden agendas, like BGGG (Bad Guy – Good Guy), or other Games of the category Life Games, Marital Games and Party Games. It might be motivated by phobic fear of the unknown and cause alienation. Even though GoT is far from democratic, it might become very much so in the sense that the adapted citizens promote the aristocratic values in Rituals and Games.” (UU 2015.mars.06)

The Fatherland wars in Russia are basically GoT/BGGG Games where the Prussian Goth’s were labeled ‘Bad Guys’ by the Russian Orthodoxy - that labelled themselves ‘Good Guys’ and ‘washed their hands’ while the atheistic State got totalitarian power.

The faith of the Prussian and Goth cultures was in fact sealed by the 1st Pyramid Game. The blog UU 2016.sept.16 focus on that in particular. The following is directly copied from that blog.

- “The Gimmicks of the Pyramid Games are not based on Belief, - but psychosocial deceptions of Games to acquire unrightfully Gain of pray actors. The 1st Pyramid Game was based on the Game categories of KoC and GoT, play by S-E towards S-I of the game categories RF (RainForest), WL (WildLife) and AF (AnimalFarm). It shaped the delusions for the subsequent 2nd Pyramid that failed. That caused cascades of collapses in the European Thrones, the European confederations and triggered the WW1. The extraordinary 3rd Pyramid Game was the rice of States as superior-powers over Throne and Temple. The 4th Pyramid Game was played with the total State supremacy with massive Games of CCD and CdE and Genocides. The Gains and Gimmicks of this 5th Pyramid Game can be uncloaked by focusing on some of the Patriarchs, Matriarchs and Authorities of the first Pyramid Games. The intro blog UU 2016.Mai.20 focus on that.”
- “The 1st Pyramid Game relates mainly to events around 1863. There was a total regime-shift at the Dane Throne of Coup d’ Etat proportions. It happened exactly half a century after the Norwegian constitution (1814). The next year, 1864, Danes went to war on Germany with a certain massacre of their own (previous) ‘king’s men’. UK prevented another ‘Napoleon War’ simply by refusing to join the fight. Simultaneously, an UK oligarch initiated the first International, - a vassal-like bondage of workers in order to start national civil wars called ‘class-fights’. These fatal events were interrelated to previous events and future plans. However, that anti-European war-Games failed and the European confederation continued for another 50 years. Still, the 1st Pyramid made a foundation to far worse Pyramids to come.”
- “To put it brief, there was a fierce rivalry between the widowed tsarina Maria/Dagmar (of Denmark) and her German tsarina in law Alexandra. This Game of the Throne was exploited by the Moscow State in a CdE, with help from the occult agent Rasputin. The whole world was eventually dragged into the war-Games, more commonly known as ww1, ww2 and ww3 (Coldwar). Russian secret services, historically known as the Oprichnina, last known as KGB and FSB, have most certainly been involved. No doubt that the tsarina was involved in imperial home-affair and most influential to imperial secret services. The serious claims that the young tsarina Alexandra was a German spy, not truly Russian orthodox and sexual unfaithful, were probably main reason for arresting the family and finally executing them. This, and related themes, are comprehensive and not very relevant for this issue. However, the psychosocial talk-through of Norden over a 500 years period starts with UU 2013.Mai.24, continues with UU 2014.mai.02 and continues as a theme from UU 2014.nov.07 to UU 2014.dec.05. Moreover, the psychosocial theory of Superior-Ego and Superior-ID is explained in UU 2014.jan.10 and UU 2015.mars.13. Still, it should not be surprising

any more that Denmark has been in bondage by Russia since the collapse of the Nordic Union 500 years ago.” (UU 2016.mai.27 and UU 2015.aug.28)

- “Dagmar’s last meeting with Rasputin’ is an association to this UU. The song title ‘Messiah Ward’ hints to mental institutions. In other words, this is a different point of view on 1914, EW1 and that century. With all the hinter sight in this century, it is easier to see the Moves, the Players and the Motives, in addition to see who really won and lost. The plot should be discovered after a hundred years, namely to convert Roma3 from Throne/Temple in St. Petersburg to State in Moscow.” “The rivalries of the past century are previously investigated in UU, especially in the Theme ‘LifeQuality and Empires’. Now, as the theme has reached 1914, it is built on the previous writings and with a different point of view. It certainly goes very wrong if one tries to explain insanity only with sanity. The two are not correlated and should not ever be presented as such. Unfortunately, exactly that happened after the unpredictable ‘Big Bang’ in 1908.” (UU 2014.mai.30)
- “The 2nd Pyramid showed the relation to ancient occult mythology that influenced the fatal outcomes of ww1. Occult Beliefs were certainly abused in the 3rd Pyramid Game as well. “With theocratic consideration, a motivation for the EW can be occult interpretations of the Tunguska event in 1908. (UU 2016.mai.27). The formalized temples in Europe was protected against occult theocracies and protected the European empires and churches. However, with EW1 the whole system of Throne/Temples fell and opened up for figures like Rasputin, Gurdjieff and Hitler. The apocalyptic ‘John’s Book of Revelation’ laid Europe wide open for occult scripts like those that Nostradamus prophesies. ‘The Revelation’ tells about four doomsdays horsemen and Nostradamus wrote about the doomsday dictator ‘Hister’. The scripts are absolutely no divine prophesies, but rather scripts for psychotic sociopaths determined to cause civilizations’ ‘worst case scenarios’. The occult fundament lies in the old-Egyptian Osiris worship, where death and resurgence follows the cycles of the Sun. The great cycles are 2150 years at an average. They are called Age (Era) and follows the Sun’s passage through the 12 zodiac constellations. Moses represented the Arian (goat), Jesus the Pisces (fishes) and occultists awaits the next, the Aquarius (water bearer). Aquarius’ profile represents group-conscience, entertainment, self-expressions and dictatorship. The mini- mustache on Hitler might be inspired by the popular Chaplin and the movie ‘The Dictator’. It should be problematic for the occultists that the Tunguska event happened 250 before the new age should enter. (UU 2013.juni.28 & UU 2012.dec.21.) Evidently, the occultists did not care about that.”
- “The rise and failure of occult mass-psychosis after the 1st Pyramid, was the main reason for the global insanity of the 20th century. It was triggered by the unexpected and unexplainable Tunguska event in 1908. The introduction of a 4th space dimension opened up for occult Belief in para-beings from alternative ‘worlds’. Anyways, major established Belief systems collapsed in the ‘Western’ world.”

By using the 3[^]3 and 5D model, it is possible to psychosocial analyze the fall of the Prussia empire, - like therapy is used on dysfunctional families and ‘fallen’ members. However, it will not be useful without some Game analysis too, because some truths are deliberately cloaked to conceal the real Motives, Moves and Gains. Furthermore, the Game-players might be hardcore and cause damages in defense, - as in Underworld Games and even Wars. I’ll leave it there, for now.

Anyways, there are certainly no conclusive answers now to such attempts to psychosocial analysis of the Prussian and gothic cultures, - yet. The results might even cause more questions than answers, though. Questions are revitalized like:

- What did really happen to all the Napoleon’s soldiers trapped beyond Belarus? (UU 2017.juni.23)
- Could the Teutonic Knights be involved in the so-called ‘the Pirates of the 4th Crusade’ that dysfunctionalized Roma2? The Goths did certainly destabilized Roma1. (UU 2017.april.28)
- Are archetypes like Batman some subcultural UnderConcient memes of the gothic religion?
- Was ‘Hister’ (alias Adolf Schicklgruber) just another ‘useful idiot’ - a infiltrated puppet to cause CCD (Colonial Collapse Disorder) and CdE (Coup d’ Etat)?
- How did the Tunguska event in 1908 influence the theocratic Moves in the 2nd Pyramid Game?
- How are 5D scenarios to the illegal annexation of Konigsberg and Crimea for this century?

- Will Russia manage re-establish psychosocial balance of Throne/State/Temple and then be able to heal itself?

Still, the main question is; Howto P5GO the Fatherland wars?

It is certainly about time to start healing now. The first phase is to move on from Denial to Recognition. The models of 5D history writing, 3^3 psychosocial analysis and P5GO 'Good Games' might be useful for that.

 Twenty One Pilots (TWENTY ØNE PILØTS) is an American musical duo from 2009. They have an even rarer that OMD is the band setting with one on drums and one on base. The duo rose to fame in the mid–2010s after several years of touring and independent releases. The duo achieved breakthrough success with their fourth album, which produced the successful singles 'Stressed Out' and 'Ride'. The single 'Heathens' recorded for the soundtrack of the film *Suicide Squad* that made the group the first alternative artist to have two concurrent top ten singles in the U.S. The duo also won a Grammy Award for Best Pop Duo/Group Performance.

The song 'Heathens' peaked at number two on the US Billboard Hot 100 and nominated for three Grammy Awards at the 59th annual awards ceremony. Various clips of *Suicide Squad* are played in the official music video. The film *Suicide Squad* takes place In the aftermath of Superman's death' The video won an award for Best Rock Video at the 2016 MTV Video Music Awards.

The association here is the Batman, after the 'all-American' Superman's death. Batman of Gotham city, is certainly a meme of a Goth knight, but also associated to the Russian secret military, - Spetsnaz/GRU, that has a bat as their logo. (UU 2017.feb.24) Btw. 21 must be a holy number since it is 1*3*7.

Extra UU – Prussian and Gothic cultures

The goth subculture seems to be in such opposite contrast to the Goth Christianity, that it does not appear genuine at all. It rather seems to be popularized projections of pre-justice in Games of GoT/BGGG (Games of Temples / Bad Guy, Good Guy). That is not truly religious, but rather atheistic. The video here are an attempt to enlighten in order to contradict such childlike projections like goth subculture.

8bit - The Trial (Pink Floyd cover)

2017.juli.28

Ukens Utvalgte

'The Pexit' process in Poland has become a constitutional international crisis - including Russia, Europe America and China. The political party 'Law and Justice' (PiS) dominates the Legislative power, the Executive power and tries to overrule the Judicial power. Critics say PiS alters the balance of parliamentary LEJ powers, while PiS says the Judicial power is already too corrupted. Still, the roots of the Pexit crisis is the Katyn massacres in WW2 and 2010. Now, Russia's largest nuclear submarine and 3 Chinese warships do war-exercises just outside Poland and the Russian nuclear base in Kaliningrad. Poland's voting power in the EU is also at risk. Consequently, Poland's president rejected 2 of 3 of the Legislative power's reform proposals. However, this Pexit Game is merely a symptom of a pan-European constitutional schism that the Cold War para-courts caused - and still do. In order to argue that, and after an introduction and before presenting some concluding scenarios, - this blog provides some elaborations on the history, theories and politics for this potential Pexit.

First of all, Poland has a long and violent history of massacres, invasions and wars. This psychosocial Pexit process involves many Move in an endless war-Game. It peaked with Ivan the Terrible, Napoleon and the Stalin/Hitler alliance. At the present, it is re-opened with the Russian massacres of the previous polish president and his associates in 2010. They were flying to honor the remains of Katyn massacre of WW2, but ended in another massacre themselves. Europe cannot heal and cannot settle until the protectors of the Cold War crimes are replaced. The LEJD powers in every European nation need similar normalization in this century. However, this Pexit process might initiate conceptual procedures to quality ensure the 'western' Judicial powers – and finally set judicial standards for other EU nations.

The parliamentary politics in Poland are extra ordinary. The Russian nuclear threats, the EU constitutional pressures, the US sanctions towards Russia and the Chinese warships do document so. The Moves are like a dystopic initiation to some Game of War of 4th degree, - like the movie 'The Day After'. What can provoke so many that seriously? First of all, there is the political party.

- "Law and Justice (PiS) is currently the largest party in the parliament, with 216 seats in the Sejm and 56 in the Senate. PiS is a national, conservative, catholic and democratic political party. It wants an anti-elitist movement, a cultural contra-revolution, a national and catholic cleansing of corruption. The main objection is to finally remove all the remains from the Soviet occupation in WW2 and the Cold War."
- "The Kaczyński identical twin brothers, Lech and Jarosław, founded PiS in 2001. The party won the 2005 election. Lech Kaczyński won the presidency while Jarosław served as Prime Minister. The party program is dominated by the Kaczyńskis' conservative and law and order agenda. The party has embraced economic interventionism, maintaining a socially conservative stance and moved towards the Catholic Church. The party is solidaristic, mildly Eurosceptic and member of the Alliance of Conservatives and Reformists in the European political party (ACRE)."

- “Jarosław Kaczyński has a Doctor of Law degree. He is the former Prime Minister of Poland and current Chairman of the Law and Justice party. His identical twin brother Lech Aleksander Kaczyński was a Polish lawyer and politician who served as the Mayor of Warsaw in 2002-2005, and as the President of Poland until 2010. Several leading members, including the president Lech Kaczyński, died in 2010 in a Polish Air Force jet under a landing attempt at Smolensk-North airport in Russia.”
- “Poland's judicial system is widely seen as slow and reforms are seen as necessary. ‘I'm absolutely a supporter of this reform, but a wise reform’, said the present Polish President Andrzej Duda. However, he has announced that he vetoes reform proposal 1 and 2. 1) The first reform proposal would require all Supreme Court judges to step down and gives the justice minister the power to decide who should stay on. 2) The second would give politicians control over who sits on the National Judiciary Council that nominates Supreme Court judges. 3) The third, and approved reform, gives the justice minister the right to select and dismiss judges in lower courts.”

“What happens next? PiS has a simple majority in the Sejm, but needs a three-fifths majority if it decides to reject President Duda's decision. It could theoretically achieve that with the support of a smaller party, Kukiz'15, but that is not seen as certain. A more likely step would be to spend the next weeks redrafting the two bills that the president has turned down and seek his approval.” Anyways, the process is merely halted and not ended.

Poland's foreign politics have been provoking towards Russia in the PiS period. Yet, Poland is not in conflict with the EU, NATO and US – quite the contrary. Here is a summary from Wikipedia.

- “Kaczyński noted that many of Poland's problems were related to the lack of energy security and this issue would have to be resolved to protect Polish interests. Strengthening ties with the United States while continuing to develop relations within the European Union are two main goals of Polish foreign affairs, as well as improving relations with France and Germany despite several problems in relations with Germany. Aside from those issues, his immediate goals were to develop tangible strategic partnership with Ukraine and greater co-operation with the Baltic states, Azerbaijan and Georgia. He was greatly admired in Israel, because he promoted educating Polish youth about the Holocaust. There was widespread grief in Israel over his death.”
- “In November 2006 in Helsinki, at a European Union—Russia meeting, Poland vetoed the launch of EU-Russia partnership talks due to a Russian ban on Polish meat and plant products imports.”
- “Following the military conflict between Russia and Georgia in 2008, Kaczyński provided the website of the President of Poland for dissemination of information for blocked by the Russian Federation Georgian internet portals.”
- “During a state visit to Serbia in 2009, Kaczyński said that the Polish government, on the basis of its constitutional competences, decided to recognize Kosovo and emphasized that he, as the President of the state, did not agree with that.”
- “Defense Minister Radosław Sikorski compared the planned Russia to Germany gas pipeline to the Ribbentrop-Molotov Pact and Foreign Minister Anna Fotyga stated that the pipeline was a threat to Poland's energy security.”
- “The president of the European Council Donald Tusk said that the Russian Nord Stream 2 pipeline is not in the EU's interests. The project is considered to violate the long-term declared strategy of the EU to diversify its gas supplies. A letter, signed by the leaders of nine EU countries, has been sent to the EC in March 2016, warning that the Nord Stream 2 project contradicts the European energy policy requirements that suppliers to the EU should not control the energy transmission assets, and that access to the energy infrastructure must be secured for non-consortium companies. A letter by John McCain and Marco Rubio to the EU also criticized the project in July 2016.”
- “An agreement to build Nord Stream 2 and a financing agreement was signed between Gazprom, Royal Dutch Shell, Uniper, OMV and Engie. The five companies will provide €950 million. a loan from the five companies will cover 50% of the project costs of €9.5 billion. The rest would be financed by Gazprom who remains the sole shareholder of Nord Stream 2. The joint venture was blocked by Poland. Furthermore, although the pipeline has received no formal approvals from Denmark, Sweden and Finland, it is scheduled to become operational in 2019–2020.”

The present conflict also concerns energy politics to Europe, that also includes US and NATO. The Gazprom pipeline seems too contraversive to be realized in this decade – and probably never at all. However, some

journalists of the mass-media rather present it as conflicts of EU vs Poland and US vs Poland. (See newspaper links at the end of the blog.)

Still, the Katyn massacres is a main focus for Poland. It caused traumas that are deeply rooted in their culture. This is personalized with the Kaczyński twin brothers in the dominating political party PiS. Wikipedia provides some more information that.

- “The Kaczyński brothers are sons of Rajmund (a veteran of the Warsaw Uprising) and Jadwiga (a philologist). The Warsaw Uprising was a major World War II operation by the Polish resistance Home Army to liberate Warsaw from German occupation. The uprising was timed to coincide with the Soviet Union's Red Army approaching the eastern suburbs of the city and the retreat of German forces. However, the Soviet advance stopped short, enabling the Germans to regroup and demolish the city while defeating the Polish resistance, which fought for 63 days with little outside support. The Uprising was the largest single military effort taken by any European resistance movement during World War II.”
- “The Katyn massacre was approved by the Soviet Politburo, including its leader, Joseph Stalin.” “Of the total killed, about 8000 were officers taken prisoner during the 1939 Soviet invasion of Poland, another 6000 were police officers, and the rest were arrested Polish intelligentsia that the Soviets deemed to be ‘intelligence agents, gendarmes, landowners, saboteurs, factory owners, lawyers, officials and priests’. The government of Nazi Germany announced the discovery of mass graves in the Katyn Forest in 1943. The USSR claimed the victims had been murdered by the Nazis in 1941, and continued to deny responsibility for the massacres until 1990, when it officially acknowledged and condemned the perpetration of the killings by the NKVD, as well as the subsequent cover-up by the Soviet government.”
- “On 10 April 2010, a Tupolev Tu-154M plane was carrying Lech Kaczyński, his wife Maria, and other members of a Polish delegation from Warsaw to commemorate the Katyn massacre of 1943. The plane crashed while approaching Smolensk Air Base in Russia. The governor of Smolensk Oblast confirmed to the Russia 24 news channel that there were no survivors. 96 people were killed in the crash, including many of Poland's highest military and civilian leaders.”

“The Russian President Dmitry Medvedev ordered a government commission to investigate the crash. Russia's Prime Minister, Vladimir Putin, was placed in charge of the investigation.” (See the video in the Extra UU about the investigation and the objections. Also note that, the secret military RAF/Spetsnaz was subordinated the secret police FSB/KGB while Putin was president and their top leader in 2010 (UU 2015.okt.09).

The cultural trauma of the Katyn massacre cannot be ignored, projected or disillusioned anymore. Yet, the war-crimes that triggered the WW2 towards all the European states is protected with the Cold War paracourts, assigned as spoil of wars, so the crimes could continue - safe from civil justice. There are certainly parallels between the Tupolev Tu-154M and the Malaysia Airlines Flight 17 MH17 over Ukraine. See the video Documentary in this week's Extra UU. The foundation of RAF operations is often elaborated in previous blogs, like the following:

- “It is as hard to analyze Kremlinology as Vaticanology. However, some were done based on the BBC documentary ‘Putin, Russia and The West’ in UU 2014.nov.07, UU 2014.nov.28, UU 2014.nov.21 and UU 2014.nov.14. It concerned the nova-Russian CdE Games in Georgia and Ukraine during the rejection of the puppet presidents and the following undercover wars in their regions. It leads to the hypothesis about PROSA (Pro-Russian Oligarchs, Separatists and Autonomes), - this century's Underworld version of the ill-reputed coldwar RAF (Red Army Factions). PROSA stems from the ww2 Stalin/Hitler BRAF (Brown-Red Army Factions) alliance based on the Molotov–Ribbentrop Pact 1939-1941. It became GRAF (Green-Red Army Factions) in this century. As throughout the coldwar, most NATO and EU nations have such Underworld CdE separatist cells today with illegal agenda, - cloaked as legitimate opposition to national governments. The Dane Blekingegadebanden was a RAF-dnk with Scandinavian relations to RAF-swe and RAF-nor. However, it turned GRAF with Gotfred Appel's conversion from Stalinism to Maoism. By nature, such cells are determined to hinder strengthening of ‘rule by law’ with international cooperation like EUROJUST, EUROPOL and CEPOL, - with urban warlike means, - like Blekingegadebanden and all its related organizations and persons.” There most certainly are RAF- POL too. (UU 2017.feb.24)

- “RAF (Red Army Faction) is highly relevant for the 4th Pyramid Game. Its foundation was made with the Leninist/Stalinist 3rd Pyramid. There was a Red-Brown cooperation until WW2, where the brown (Nazi) faction related to the 2nd Pyramid - and the Red (Leninist/Stalinist) faction to the 3rd. Both also relate to Trotsky’s Red Army. However, Stalin’s execution of Trotsky splintered RA into factions, - the Red Army Factions (RAF). In this sense, there was a BAF of the 2nd Pyramid before the RAF of the 3rd Pyramid. The two cooperated prior to WW2 to trigger all the CCD and CdE war Games. Nevertheless, like the saying, ‘the revolution kills its children’, the Red Factions flipped and became anti-Nazi at the end of WW2. Therefore, the 2nd Fatherland war Game was also about eliminating BRAF to become RAF in a brutal DAC/UAC Game. Clear indications are the Stalinism prior to WW2 and the Stalinists execution of Nazis (Nazi) after WW2. The massive system of Gulag camps was designed for the Red faction to eliminate their former allied Brown faction and all other opponents to the 21 conditions of the 3rd International. The politics became, ‘take all from all’. The camps also mass-produced subordinates to what became the so-called Red Mafia. (UU 2016.juni.10)
- “The 5th Pyramid Games of Oprichnina are different from the RAF Games of the 4th in the cold war and Stalin’s 3rd in WW2. A main aspect is that the FSB dominated GRU until 2013 that cause rivalry between FSB and GRU. It became apparent as proxy-wars in Ukraine and Syria, - and the PROSA shooting of the Malaysia airplane over Ukraine is an exposure of such Russian fragmented internal wars of the 3rd Roma. It must be quite alarming for civil Russians that Putin found it necessary to boost up his National Guard to become a regular domestic army.” (UU 2015.okt.09 and UU 2016.juni.17)

Basically: “A determination of the Parliamentary Quality is based on the term ‘LEJ quality’ that is based on the 3D political model, the 3^3 psychosocial model and the definition of LifeQuality. In brief, the model can be used to determine the balance between the LEJ powers (Legal/Executive/Judicial). The 4D model includes time as a factor and shows changes over time. The 5D model can be used to determine future scenarios as well as alternative historical dogmas and facts.” (UU 2015.nov.06 and UU 2017.feb.03)
 However, realizing that ‘time’ was not originally the 4th dimension, but a factor, the 4th dimension in the political model is dedicated Democracy, i.e. LEJD.

Now Russia has engaged China warships in Europe to prevent the unavoidable investigations of the two Katyn massacres. These quotes provide some insight to the Moves of the Game.

- “Russia said late on Tuesday that the war games it is conducting with the Chinese Navy in the Baltic Sea, which has become a zone of heightened tensions between Moscow and the West, do not pose a threat to anyone. The exercise is a sign of how closely Russia and China cooperate militarily and will be seen as a show of force by Moscow in an area where NATO and Russian aircraft often intercept one another. The Russian and Chinese ships, which set off from a Russian naval base near the Polish border, will practice shooting at naval and aerial targets, the defense ministry said. Other simulated tasks include inspecting a suspicious vessel, freeing a ship seized by pirates, and conducting a rescue and recovery operation at sea. The exercise, called ‘Sea Cooperation-2017’, follows similar ones held last year. More exercises of the same kind will be held in mid-September in the Sea of Japan and the Sea of Okhotsk, China’s state news agency Xinhua reported last month.” (Reuters)
- “Two of the world’s biggest nuclear-powered Navy vessels - battle cruiser ‘Pyotr Veliky’ and Typhoon-class sub ‘Dmitry Donskoy’, left Severomorsk on Monday. “TK-208 Dmitry Donskoy is the only remaining Typhoon-class submarine in operation. Six vessels of the 172-meter-long giant was originally built to assure the Soviet Union’s ability to respond to a nuclear attack with a powerful retaliation. Carrying 20 missiles and up to 200 nuclear warheads, the sub could stay hidden under the Arctic ice cap and assure a second-strike against the attacker. Due to her size, the Typhoon-class sub will have to sail in surface position through Storebælt, the strait between the two Danish islands of Fyn and Sjælland before entering into the Baltic Sea.” (The Independent Barents Observer)
- “A Chinese naval group is steaming to the Baltic Sea to engage in exercises with the Russian Navy as part of the ‘Joint Sea’ series of maneuvers. The Chinese ship’s destination is the port of Baltiysk in the Russian Baltic Sea province of Kaliningrad. The task force includes the Type 052D guided-missile destroyer Changsha, a frigate and a replenishment ship. The Chinese and Russia have held annual joint naval drills since 2012 to bolster military ties, including in contested settings like the South China Sea last year. ‘Joint Sea’ will mark the first-time Chinese ships have drilled in the Baltic.” (UPI)

Kaliningrad is like the Russian missile base at Cuba, - located to the Baltic sea and next to Belarus, Poland, Sweden, Denmark, Lithuanian and Ukraine. Actually, the nukes to Cuba in 1962 came from Kaliningrad. It is the most threatening place to northern Europe. Some previous quotes from UU 2015.mars.20 relate to the issues of Kaliningrad and RAF.

- “How might the next Charlie event be?” “Historically in Stockholm, the Prime Minister Olof Palme was executed in 1986. Although a public display, the Game was as ulterior and deceiving as the JFK execution in 1963. These two executions are however related in the sense that Palme supported Cuba, the Cuban missiles were shipped from Kaliningrad in the Baltic Sea, passed Sweden and Denmark unnoticed, and the catholic JFK got the Cuban missile crisis. Moreover, Palme himself was an active negotiator in a RAF-like bank robbery, where a ‘customer’ verbally attacked Palme’s reluctance and supported the robbers (UU 2014.juni.13). Legal (forensic) psychiatrists named this ‘the Stockholm syndrome’ to reduce the penalty for supporting criminals. Likewise, Minister Anna Lindh was executed in public by knife in Stockholm (2003). She was an outspoken support for Sweden to join EU and other controversial policies. Anyhow, Sweden became recently a member of EU and now works to join NATO’s collective defense towards Russian threats. That is extremely upsetting for domestic anti-NATO politicians. A two-phase Charlie event in Stockholm would have such regional political purpose and not some religious divine vendetta.”
- “According to the ulteriority of political Games, it is more likely that the true Game players are not the displayed ones, but rather resourceful and active opponents of the scapegoats’ appearances. Still, proving ‘secret service’ organizations involvements seems impossible despite all the indications. Yet, it is far less likely that Islam organizations are responsible than that Russian ones are the real Game players. Ulteriority, diversity, cover-ups, projections, is per Game definition the very nature of secret services. A major indication is that GRU was re-establishment in 2013, just before the annexation of the Ukrainian region Crimea and the war towards other Ukrainian regions. The goal of the Russian CdE Games is to make a corridor from Russia to the Black sea by annexation of Ukrainian regions. Therefore, the fears in Baltic nations are highly legitimated, - that Russia will go to any kind of wars to make corridors to the isolated major depots of military equipment in Kaliningrad. The Russians make very aggressive threats in the Baltic region with jet-fighters, bombers, submarines and secret agents. It seems to be 2nd phase assaults to test the nations’ reactions. The Lithuania President confirms that they are already under Russian cyber-attack to lower the defenses.”
- Moreover, some political Nordic relations were talked through in UU 2014.dec.12 like this: “The Nordic nations have their success despite SU closeness and infiltrations, - not because of it. Nordic relations are talked through in UU 2014.juli.25 and UU 2013.mai.31: “Even after the cold war, one can see that Nordisk Råd (the Nordic Council) is bound to Kaliningrad, Leningrad and Murmansk. These three cities were represented as “the Cuba of the Baltics” KGB/FSB, and the site for massive nuclear testing (See the previous UU 2014.dec.05). Furthermore, there are daily ferry connections between Kaliningrad-Gdansk-Copenhagen-Oslo. Sweden and Finland have probably similar indirect connections to Kaliningrad. More directly are the terror-flights with nuke-capable bombers against the member nations of the Nordic Counsel. That recalls memories of the terror-bombing of the Danish island Bornholm in ww2, and the threats to make Copenhagen/Sjælland (Zealand) to an East-Denmark like East-Germany.”

Starting nuclear war-Games outside Kaliningrad, even a cold one, is the most terrorizing political Move that Russia can possibly do to hinder the investigations of the Katyn massacres. All the northern European nations knows that too well. Poland did finally alter the parliamentary reform proposals though, - with support from EU and US. However, it might prove unwise in the long run to appear like some Rasputin Jr that re-assembles Mongolian hordes, like some Ivan with doomsday machines. Still, fair trials are civilized.

Is there a CdE in Poland? Not likely at all. Poland is very determined to the western alliances of EU, NATO and US – and not Russia or China. However, the Pexit Move in this P5GO (The 5th Pyramid Game Over) do appear so and sets of alarms in most involved nations. As a CdE Move, it might appear like failed Arbiter and Veto coups. However, PiS do not play Games, per definition, but operates by constitutional procedures and Law (Work). Therefore, the national Parliamentary powers has started a procedure that escalates the Quality insurance procedures to international levels of EU and NATO.

A federal Eurojust is just as important as the new federal Europol. The Pexit might trigger the necessary procedures in EU to create a pan-European Directive and procedures to quality ensure its member states Judicial Powers. The Pexit might even open for Eurojust to overrule, if national Judicial powers acts illegal. Furthermore, Europol might even be involved in eliminating organized crimes in the Judicial powers – even by judges. The determination to remove Stalinist mafia is not only in Poland, but a pan-European concern. This should also concern EU nations like Greece, Italy, France, Spain and England.

The solution was concluded in UU 2017.juni.23 about the Frexit. “An IR4-way to view a solution for proper Quality of LEJD, lies in the previously comparison of the Legislative power with a computers’ Operative Systems (UU 2017.mai.12). The analogue goes for computer bugs, computer viruses and computer parasites as well. Therefore, an efficient and realistic quality assurance for the Judicial powers will be to reconstruct and innovate the whole Judicial powers by means of virtual IT and automation. Besides, a success in healing the French Legislative power is particular important for the rest of the EU nations, since France is a dominant Juridical power for all of them. Still, the infectious bureaucratic system is pandemic and has been so throughout the cold-war. Such projects must involve all of the Quality of LEJD. The IR4 & SR4 (4th Industrial & Social Revolution) are the waves that can be utilized progressively for this and provide the power to surf it through. In conclusion, the major 5D events to come is not that unpredictable anymore, - when using relevant models for analysis.” The EU Commission should provide proper designs and applications for IR4 Judicial powers to all EU member states for free, - at least for all EU legislations, but also consolidations with national legislations.

Still, the escalation of Russian nuclear war-Games is most alarming to European nations, EU and NATO. The timing, the nukes, the Chinese involvement rises the diplomacies from Games of level 2 to potential level 4. The Move was probably just to distract ‘the west’ by some ‘false positive’ alarms. However, it was probably not the intention to set a main focus on Russian and Chinese intentions and means for the northern Europe. It has caused new questions that requires Pan-European answers: Do china install spyware in the Baltic sea? Is the Gazprom’s Stream 2 pipeline also hosting military equipment? Do they move nukes from Kaliningrad to the Pacific? Do China provide new weapon systems to Kaliningrad? Will Russia participate in simulated invitations of Taiwan in the future after all, - and will China participate in the Russian simulated invasions too? Does Chinese business involvements in Europe also include military agendas. What are the joint operations in Europe by the Chinese MSS and the new Russian MGB (Ministry for State Security)? When will China/Mongolia finally Move to reclaim Siberia? The Underworld Game KYFCYEC (Keep Your Friends Close, But Your Enemies Closer) seems to apply in the ‘Joint Sea’ maneuvers. Such questions are out of the bounds of this blog. However, it most certainly escalates the ambitions to create a confederal EU Defense.

The issues remain for later blogs though.

Pink Floyd is previously presented in blogs like UU 2016.aug.12, UU 2015.sept.04 and in UU 2012.Juli.20. “The song ‘The Trial’ centers on the main character, Pink, who having lived a life filled with emotional trauma and substance abuse has reached a critical psychological break. The very different arrangement of the song is because Bob Ezrin was strongly involved in the production, orchestral arrangement and music. It is the fulcrum on which Pink’s mental state balances. In the song, Pink is charged with ‘showing feelings of an almost human nature.’ This means that Pink has committed a crime against himself by actually attempting to interact with his fellow human beings, defying the mission towards self-isolation that defined much of his life. Through the course of the song, he is confronted by the primary influences of his life, - and a new character – the Judge. In Pink Floyd -- The Wall and the concert animations, the Judge is a giant worm for most of the song until his verse, at which point he transforms into a giant anthropomorphic body from the waist-down (bigger than the marching hammers in ‘Waiting for the Worms’), his face constructed from various elements of the buttocks and genitals. A prosecutor conducts the early portions, which consist of the antagonists explaining their actions, intercut with Pink’s refrains, ‘Crazy/Toys in the attic, I am crazy,/Truly gone fishing’ and ‘Crazy/Over the rainbow, I am crazy,/Bars in the window.’ The culmination of the trial is the judge’s sentence for Pink ‘to be exposed before your peers’ whereupon he orders Pink to ‘Tear down the wall!’ “

“Chiptune, also known as chip music or 8-bit music, is synthesized electronic music which is made for programmable sound generator (PSG) sound chips used in vintage computers, consoles, and arcade machines. The term also refers to tracker format music which intentionally sounds similar to older PSG-created music and music that combines PSG sounds with modern musical styles.”

The association here, to this 8bit version of Pink Floyd’s ‘The Trial’, is primitive the Cold War Judicial powers and para-Courts appears. It needs upgrade to the IR4 technology.

Extra UU - The Katyn massacres

The Katyn massacre is a cultural trauma that cannot be ignored, projected or disillusioned anymore. The war-crimes that triggered the WW2 towards all the European states is protected with the corrupted Cold War Judicial powers and para-court. These 3 videos will put the focus on the 2 Katyn massacres and supported with the similar case of the Air Crash Investigation of Malaysia Airlines Flight MH17 over Ukraine in 2015.

Muppets - Are we Human or are we Monsters (The Killers cover)

2017.juli.21

Ukens Utvalgte

The 'Global Human Rights Law' (GHRL) is the 10th and last issue to this subtheme about the ongoing 4th Industrial and Social Revolutions. GHRL is a formalized concept to implement the Human Rights that the united nations' Legal Powers signed for their citizens - half a century ago. Still, most of the obligations are dysfunctionalized in the parliamentary LEJD powers during the of Cold War – the 4th Pyramid Game. The quality of the nations' LEJD powers are illegally corrupted by such anti-HR powers - and consequently, the LifeQualities of the citizens too. Still, the GHRL is in align with the new UN global agreement called the 17 'Sustainable Development Goals' (SDG). Moreover, the effects 4th Industrial and Social Revolutions are already working and will influence the development of humans and nations, as well as the technologies. Ultimately, it all ends up in no less a struggle between the UN and some anti-UN - where the outcomes will irreversibly change humanity during this 5th Pyramid Game. In order to argue this, there will be some presentations of the GHRL, the 17 UN SDG, The Quality of LEJD and LifeQuality.

The Global Human Right Law (GHRL) and the LifeQuality (LQ) are presented several times in several blogs, - like UU 2017.mai.26: "Despite knowing that the UN has not eliminated warfare of all kinds, there is a valid Belief that the UN's collective conscience has prevented a nuclear ww3. This lead to the conclusion that any human needs and deserve a Global Human Right Law (GHRL). Also, knowing that the UN do not have the legal powers to make nations live up to their obligations, the path is to make multi-lateral NHRL. "All NHRL (National Human Right Laws) should at least include UNC (United Nations Charter) that provides the UN powers to investigate and mediate in international disputes and authorizes international economic, diplomatic, and military sanctions and force to resolve the disputes, - as well as the ICCPR (International Covenant on Civil and Political Rights) and ICESCR (International Covenant on Economic, Social and Cultural Rights)." (UU 2014.okt.17)

The appeal to GHRL action was published as a petition on the internet 3 years ago at Avaaz. There is also a Facebook page for GHRL. Soon there were a few, but quickly blocked after a Ukrainian signature during the Russian proxy warfare towards them. Not long ago, the number was reduced to the number 18, - which is a meme that sometimes is immaturely abused as a theocratic omen. Anyways, the message, rather than the signing, is the objective. Therefor the publication is hereby presented in full text. (Also see the links hereunder).

- Every united nation should ratify a complete National Human Right Law (NHRL). Most nations have signed the UN HR conventions, but merely bits and pieces are yet ratified. Therefore, every member nation should have a NHRL in order to justify the Global Human Rights Law (GHRL). Such a legally valid ratification is surprisingly easy and quick to do. It happened in Norway in 1999.
- The Human Rights are like a global 'One for All – All for One' declaration. The need for this became well understood by most humans and nations after ww2, - due to all the inhuman doings and destructions of nations and civilizations. Think about it, - it is now a 100 year since the world wars started. What would be the outcome with an operational UN and GHRL at that time? It probably prevented ww3. However, a national regime can suddenly turn bad to its citizens and neighbor nations. Everyone needs a protection against that and NHRL/GHRL is an insurance.

How to get your National Human Right Law (NHRL):

1. What You can do: Sing this petition to show your Members of Parliament (MP) that it is a call for action now.
2. What some positive MP should do: A) Some democratic MP should be convinced that a NHRL is morally, legally and nationally right. B) Gather the text from the UN conventions UNC, UDHR, ICCPR and ICESCR (2), and bind them together to a single booklet. (Additional signed conventions, amendments and protocols should be included.) C) Add an introduction page with paragraphs that put the NHRL

above any conflicting law. D) Any MP can then propose in the Parliament that the NHRL should pass as national law.

3. This is how the ratification of the NHRL should happen: A) There will be a vote in the national parliament. B) MPs cannot morally decline the NHRL and expect to be re-elected by the citizens. C) Ergo, - a simple suggestion from one MP – and the nation should get its NHRL.
4. After the ratification: A) Have the results published. B) Inform the citizens of basic human rights. C) See to that the national law system actually follows up legally.

It works, - it happened in Norway with the NHRL 'Menneskerettsloven' in 1999.

- Notes: (1) Almost all the 193 member states of the United Nations (UN) have committed to ratify the Human Rights into their national laws. The member-states are obligated to secure their citizens' rights concerning; private properties, self-determination, security, privacy, family, work, education, in addition to freedoms of thought, conscience, religion, expression and more. Even though the UN conventions seems inconsistent, the states are still obligated to be concrete and realize the rights. (2) The UN fundamental inter-national obligations are stated in the UNC (United Nations Charter) where chapter VI provides the UN powers to investigate and mediate in international disputes. Chapter VII authorize international economic, diplomatic, and military sanctions and force to resolve the disputes. The UDHR (Universal Declaration of Human Rights) is the foundation of the later ICCPR (International Covenant on Civil and Political Rights) and ICESCR (International Covenant on Economic, Social and Cultural Rights). All this should be included in all NHRL.

"A determination of the Parliamentary Quality is based on the term 'LEJ quality' that is based on the 3D political model, the 3[^]3 psychosocial model and the definition of LifeQuality. In brief, the model can be used to determine the balance between the LEJ powers (Legal/Executive/Juridical). The 4D model includes time as a factor and shows changes over time. The 5D model can be used to determine future scenarios as well as alternative historical dogmas and facts." (UU 2015.nov.06 and UU 2017.feb.03) However, realizing that 'time' was not originally the 4th dimension, but a factor, the 4th dimension in the political model is dedicated Democracy, i.e. LEJD.

"LifeQuality is defined as: A person's totality of properties and potentials to satisfy stated and implied needs." "Maslow's Hierarchy of Needs shows 5 main categories; Physical, Safety, Social, Respect and Self-realization." The 'stated needs' are similar to the 'Human Rights'. "The 193 UN member-states are obligated to secure their citizens' rights concerning; private properties, self-determination, security, privacy, family, work, education, in addition to freedoms of thought, conscience, religion, expression and more." Unfortunately, and evidently, anti-democratic nations oppose the Human Rights and Needs, sometimes aggressively with conning Underworld Games. Their need for self-defense is obvious, - even though opponents denies such existence, motives and actions." (UU 2014.okt.17)

The 17 UN Sustainable Development Goals (SDG) is the present joint agreement from all the united nations in order to heal humanity. It was presented in UU 2017.juli.07:

- "The 17 SDGs is the 2030 Agenda for Sustainable Development with 169 targets between them. Spearheaded by the United Nations through a deliberative process involving its 193 Member States, as well as global civil society, the goals are contained in paragraph 54 United Nations Resolution A/RES/70/1 of 2015. The Resolution is a broader intergovernmental agreement that acts as the Post 2015 Development Agenda (successor to the Millennium Development Goals). (ref Wikipedia and the SDG sites, see links hereunder.)"
- "The 17 UN Sustainable Development Goals (SDG) are a global vision for humanity signed by 193 heads of state, yet, everyone's responsibility: 1) End poverty in all its forms everywhere. 2) End hunger, achieve food security and improved nutrition and promote sustainable agriculture. 3) Ensure healthy lives and promote well-being for all at all ages. 4) Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all. 5) Achieve gender equality and empower all women and girls. 6) Ensure availability and sustainable management of water and sanitation for all. 7) Ensure access to affordable, reliable, sustainable and modern energy for all. 8) Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all. 9) Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation. 10)

Reduce inequality within and among countries. 11) Make cities and human settlements inclusive, safe, resilient and sustainable. 12) Ensure sustainable consumption and production patterns. 13) Take urgent action to combat climate change and its impacts. 14) Conserve and sustainably use the oceans, seas and marine resources for sustainable development. 15) Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss. 16) Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels. 17) Strengthen the means of implementation and revitalize the global partnership for sustainable development.”

All the 17 SDGs are in alignment with the GHRL, since both are based on the fundamental values of the UN obligations.

Universal Basic Income (UBI) is also a reasonable solution to the HR and SDG obligations of the united nations. The relation to GHRL was presented in UU 2017.mai.26 and UU 2016.juli.29.

- “Although focusing on how to realize Basic Income in Europe, the UBI (Universal Basic Income) is a global concept, related to the Universal Human Rights. This P5GO theme relates to the concept of GHRL (Global Human Rights Law.) that was presented in UU 2015.april.10 and slightly revised here.”
- “Most European nations do already have social security systems that pay enough for proper Basic Income, - some even pay more than that. However, the Quality of the Social Security Systems have become dysfunctional by cold war crimes. In order to fix those corrupted systems, the whole Executive Parliamentary power have to act in accordance to the valid legislations for state aid. Their IT systems have to be reconstructed by means of IR4 and Cloud services. However, virtual monetary systems, based on Block Chain technology, is the next issue in this in this theme.”
- Finally “ ... any humans need and deserve a Global Human Right Law (GHRL). Also knowing that the UN do not have legal powers to make nations live up to their obligations, the path is multi-lateral NHRL. All NHRL (National Human Right Laws) should at least include UNC (United Nations Charter), the ICCPR (International Covenant on Civil and Political Rights) and the ICESCR (International Covenant on Economic, Social and Cultural Rights).” GHRL has a separate Facebook page and an Avaaz petition page, - however still very pacified.” (UU 2014.okt.17 and UU 2015.april.10)

The Qualities of the LEJD powers (Legal, Executive, Juridical & Democratic) is a main concern in this UU Theme ‘The 5th Pyramid Game’. The following UU 2016.juli.01 elaborates on that.

- “Historically, the Bourgeois was the same that we all takes for granted as citizens in democratic ‘western’ societies today. We are called ‘borger’ in Scandinavian, ‘bürger’ in German and ‘bourgeois’ in French. Originally, bourgeois was per definition the middle class and legally defined class having the rights of citizenship and political rights in a city. They were privileged in the 12th century, compare to peasants outside the city. They formed ‘The Magna Carta’, which is the original of today’s declarations of Human Rights. However, such citizens were called ‘plebs’ in the ancient Roma1. Today, ‘bourgeois’ means any citizen in European nations. However, feudal oligarchs, platocratic statesmen and orthodox theocrats strongly opposed such liberated citizens, between themselves and their peasants/slaves/herds. Marx’ re-defined such middle-classes to be ‘private owners’, rivals to the regimes, which should be degraded to urban peasants - called workers. The ism of Marx was perverted to ism of Lenin to legalize 4th degree anti-LEJ Games of ‘take all - from all’.” (UU 2016.juli.29) The development of laws in 10000 years was; first ‘Statemen vs Citizen’ (Ancient); then ‘Citizen vs Citizen’ (Roma1); then ‘Citizen vs Statemen’ (Human Rights).
- “Finally, a controversial proposal global solution to secure the Democratic Dimension and LifeQuality. It is Parliamentary very simple, but shows out almost impossible due to low LEJ Quality. However, every nation in the UN should ratify the Human Rights to national Law, - as obliged half a century ago. The following citations talks through what NHRL and GHRL are about.”
- “Anyways, altering global 3x3 4D Games is not an individual task. It can however be done by collective synchronized conscience of the Will. Knowing very well that global destructive Games of CdE (Coup d’Etat) will continue and have some peeks, it seems to be only one action such a humble individual can do: Attempt to kick-start a democratic mass-movement to realize a GHRL (Global Human Rights Law) by influence all united nations to finally ratify a complete NHRL (National Human Rights Law). It started

last week but has yet no sign of taking off. However, this is my anti-thesis to Bad CdE Games in order to improve humanity's chance for a better LifeQuality." (UU 2014.sept.12)

- "Since the obligated activities of the 3rd International is illegal according to 'Western' penalty laws, - they had to be built parallel courts as well; in Labor unions for the workers so public servants did not face civil courts; in forensic psychiatric para-court that can veto the civil court and dismiss the case; and as well as doping the civil courts with 3rd Internationalists judges and civil servants. These corrupted para-courts are fully functional in this century too, - as the 3 Scandinavian cases will focus on." (UU 2017.juli.14)

The LEJD qualities of UN, as well as the 'western' EU and US, were dysfunctionalized as Cold War strategy as stated in the 3rd International's 21 Conditions (UU 2016.sept.23). This is a main concern in the blog theme 'The 5th Pyramid Game Over' (P5GO). Although not a main concern in the GHRL relation, the following lists of quotes touch upon some grave foundations. Any people are entitled GHRL, - including those that were bound and forced to do Cold War crimes due to the lack of implementing the Human Rights.

- "However, true Parliamentary authorities must differ between willing and forced PROSA workers, when investigating such PROSA crimes. In fact, criminal law is stricter to public servants than to civilians. Yet, public servants are rarely sentenced for their crimes even though the scandals of low quality services and expenditures are far too high. It is proof though, of too much fraud and corruption, - like in mafia-dominated markets (UU 2015.okt.23). Most public laborers are forced by violent mafia organizations that are related to the so-called 'Red Mafia' (see video link). The threats of Underworld Games were talked through in the previous UU 2016.juli.15 'P5GO03 – PROSA Pension'. Although any member of a high treasonous organization can be guilty by association, there are exceptions, - like for civil criminal relation, - by supporting the true Parliamentary system to improve the LEJD Quality by unclocking the criminal 'parallel organisational apparatus' (C3)." (UU 2016.juli.22)
- " 'Pyramid Game Over' provides 12 proposals to promote 'Western' parliamentary qualities. 'P5GO12 - Hyper-Democracy', aims to strengthen the 4th Parliamentary LEJD power, Democracy, to balance the Parliamentary powers. Europe continues its path as a confederal cradle of democracy. 'Nova Russia' took a U-turn towards autocratic feudalism when democracy deceased at REXIT 18/9. Their new MGB (Ministry for State Security) is like the Coldwar KGB and the Chinese MSS. Yet, in contrast, global Hyper-Democracy escalates as the 4th Parliamentary dimension. It will certainly cause unforeseen 5D events for the 3 superior powers; the Throne, the State and the Temple, as well as the 3 Parliamentary LEJ powers (Legal, Executive and Judicial). This is the final blog of this extended 'The 5th Pyramid' theme. In order to conclude, there will be a brief summary, then some theoretical pinpoints and finally some suggestion on how to pass this period of the 5th Pyramid Game." (UU 2016.sept.23)
- "There are hyper-democratic solutions to the mass-propaganda and mass-psychosis of PROSA media, as stated in the 21 Conditions of the 3rd International. A cure for mass-psychosis is to disconnect from the mass-media of the 4th Pyramid Game, - i.e. state dominated para-media of TV, Radio and Papers. It is very simple to end the subscriptions. Next, use the computer and internet instead. Soon anyone realize what the world media offers this century." (UU 2016.sept.09)
- "The term 'The 4th State Power' is a mass-propagated illusion. The real 4th Parliamentary power is Democracy, not technocracy and bureaucracy. That mass-psychopathy was a main reason for the genocidal warfare towards humanity in the previous century. Realizing that 5D history, it is obvious for anyone that Humans are above machines, - never the opposite. The solution is simply, - Rule by Human Right Laws." (UU 2016.sept.09) 'The part of the mass-media that claims to be 'the 4th State-power', is simply a para-organization that corrupts the information between the 4 true Parliamentary LEJD powers.

The new term 'Hyper-Democracy' appeared when realizing that the Democratic dimension of LEJD was revitalized by the 3rd IR and SR and elevates by the ongoing 4th IR and SR. This was a focus in UU 2016.juli.01, UU 2016.juli.22 and UU 2016.juli.29.

- "The term 'Cyber' has become the most used hyper-term in IT (Information Technology). 'Cyber' stems from 'cybernetic' that means 'skilled in steering or governing'. Now it is mostly used in the terms cyberspace, cyberlaw, cybercrime, cyberwarfare, cyberterrorism, cybersex, and cyberbullying, etc.

However, the term 'Hyper' is here not related to governing in particular, as in LEJ, but is rather related to the Democratic dimension. Hyper-democracy might appear by cyber-democratic means, though. Yet, hyper-democracy rather refers to the LQ (LifeQuality) of humanity at large scales. As Young talked about collective ID and Superior-Ego, the hyper-democracy exists independent of information technologies, - even without papyrus and pencil. Hyper-democracy exists in every single human as a holistic inter-relation."

- "The negative health aspects of the Pyramid Games were talked through in the previous UU 2016.juni.24. In brief, dominating Superior-Ego/Superior-ID relations in society, by undermining individuals' Self (Ego), are highly unhealthy and cause mass-psychosis, mass-schizophrenia and mass-neurosis. This is abused to cause civil unrest, CCD and CdE. These terms can as well be adapted to the hyper-dimension as hyper-SE/hyper-ID (H-SE/H-ID) like; hyper-psychosis, hyper-schism, hyper-neurosis, hyper-phobia, hyper-mania and hyper-philialia. Furthermore, there are hyper-LEJD powers like hyper-aristocracy (elite), hyper-plutocracy (death), hyper-stratocracy (military), hyper-timocracy (capital), hyper-autocracy (machine), hyper-anocracy (dictator), hyper-democracy (people), hyper-theocracy (god), hyper-adhocracy (random), hyper-technocracy (science) etc. However, such 'undetected' hovering intangible entities, can be identified with meta-terms like; The Psychopathy, The Mass-psychopathy and The Sociopathy. They are in particular related to the 3rd Pyramid Game. Besides, such terms also relate to Jung's theories of collective sense of Superior-Ego. See UU 2015.feb.20 and UU 2013.april.19 for further potentials by use of hyper-terms."
- "With this UU Theme 'The 5th Pyramid' and the introduction of Hyper-Democracy, the GHRL most certainly provide some innovative perspectives on how-to Heal LEJD and the QL of humanity. However, focusing on anti-democratic cyber-crimes in Europe, the Hyper-parliamentary Europol and Eurojust are definitely the International cyber-crime fighters. The Pyramid Game became very apparent in the Dane Europol referendum in 2015.dec.03. The Dane example of international referendum fraud should be investigated by Europol and brought to the EU Court. Furthermore, Dane, Norwegian and any other EU/EFTA nations should have their laws quality ensured in accordance to EU innovations."
- "'Pyramid Game Over' provides 12 suggestions to promote 'Western' Parliamentary Quality during this 5th Pyramid Game. 'P5GO03 – PROSA Worker' aims to aid citizens from the organized crimes, corruption and treasons in the public sector. The Nordic LO (The Confederation of Trade Unions) is still remote controlled and still have members violating national Penalty Laws in order to cause Coup d'Etat. However, true 'Working class heroes' are not diluted by the masspsychotic isms and memes that degrade democratic citizen (bourgeois) to Oligarchs' workers. True 'Working class heroes' promote Human Rights for positive LifeQuality (UU 2014.okt.17) - PROSA Unions suppresses it. In this century, true 'Working class heroes' can free each other by hyper-democracy. Just blow some whistles."
- "In a hyper-democratic view, there are several new perspectives to consider. The violation of individuals' LifeQualities have relations to masses also. In individual psychological terms, it is identified as 'psychopathic', 'mass-psychopathic' and 'sociopathic'. Likewise, similar hyper-terms for cloaked para-organizations are 'the Psychopathy', 'the Mass-Psychopathy' and 'the Sociopathy'. PGO (Pyramid Game Over) gets much easier with such identification of the hyper-Game-players. It also gets easier to make anti-thesis to such Games of 4th degree, - like the war-declaration towards Europe and America. However, and most important, their Workers and Peasants are mostly innocent because they are violently forced to execute the crimes for their oligarchs. A reward for true Working-class heroes, that testifies and identifies the true criminals, - is forgiveness and fresh start in GO."

Finally, - here is an indisputable conclusion about the LEJD Quality of all the united nations. The ratification, implementation, executing and judging concerning the obligated HR are documentations of any nations' levels of corruption, dysfunctionalities and mass-psychosis. The Anti-HR exists and is more powerful than all the powers of the UN, - or else the state of the nations would be far better. The LEJD quality of all the united nations are evidences of that. Said more directly than the UN can express, - the healing of that global dysfunctionality must be the main objective for the civilized humanity's existence and progress. The ongoing disrupting IR4 and IS4 will tip humanity to dystopian or utopian states – dependent on the healing processes expressed by the UN SDGs.

“Howto stop the anti-Bourgeois masspsychopathy, then. PROSA agents know that they can operate and hide in confidence - due to secure bondage to Red Union oligarchs and Red Mafia anarchists. However, the original protectors are probably past away long ago. Now, PROSA agents might, as adults, have second thoughts since hyper-democracy provides truth far beyond the propaganda and realize that the euphoric masspsychosis of youth was just bait for Pyramid ‘suckers’. They might be more open now to testify, convert and retribution. Lenin himself said; ‘follow the money’ for his ‘search and destroy’ tactics. Likewise, reverse identifications are just as straightforward. The secret PROSA agents are most certainly ‘Red Unionists’ and anti ‘Yellow Unionists’. Most certainly, people with ‘take all from all’ -politics ends up with lots of money and power themselves, well cloaked somewhere. Not merely in 5th Pyramid ‘Panama accounts’, but also in plain sights in public domains, as Party and Union position and with cloaked ‘pirate’ treasures and pensioners’ deals. Such Anti-LEJD crimes by masspsychopaths should not be rewarded anymore, but dealt with according to national penalty law.” (UU 2016.juli.29)

Consequently, the ‘parallel Courts apparatus’ and PROSA Judges of the 4th Pyramid Game are the fixated powers that have hindered fully ratification and implementation of any NHRL (National Human Rights Laws) and consequently a GHRL. Civil servants are protected from the civil courts despite the high level of crimes in the public sectors and towards the citizens. The only solutions to end this decay is to reconstruct the Juridical Power according to national penalty laws. It is now very possible with IR4 automation of the LEJD powers (UU 2017.juni.16) and by re-hiring of all publics servants with contracts referring to national penalty law (UU 2016.juli.22).

Still – a massive prosecutions of para judges will be controversial.

‘The Killers’ is an American rock band from in 2001. The name is taken from a logo on the bass drum of a fictitious band from the New Order song ‘Crystal’. The band has released four chart topping studio albums. The Killers are seen as one of the biggest rock bands of the 21st century, having sold an estimated 22 million records worldwide. They have also achieved worldwide success as a live band, performing in over 50 countries and on six continents.

The monsters are important in the Muppet world too. There are more than 100 monsters, and some well-known are Animal, the Cookie monsters and Uncle Deadly. Although funny and bad, they are important in pedology and psychosocial healing. This is for adults as well as children. Generally, the Muppets are an ensemble cast of puppet characters known for their self-aware, burlesque, and meta-referential style of variety-sketch comedy. The Muppets began appearing on Sesame Street in 1969
Disney media franchise that encompasses feature films, television series, music recordings, theme park attractions, print publications, merchandising, and other media works associated with the characters. Throughout their six decades of existence, the Muppets have been regarded as a staple of the entertainment industry and popular culture in the United States, receiving recognition from various cultural institutions and organizations, such as the American Film Institute, Academy of Motion Pictures Arts and Sciences, Library of Congress, and the Hollywood Walk of Fame.

Extra UU – the Global Human Rights Law (GHRL)

“Every united nation should ratify a complete National Human Right Law (NHRL). Most nations have signed the UN HR conventions, but merely bits and pieces are yet ratified. Therefore, every member nation should have a NHRL in order to justify the Global Human Rights Law (GHRL). Such a legally valid ratification is surprisingly easy and quick to do. It happened in Norway in 1999.”

“The Human Rights are like a global ‘One for All – All for One’ declaration. The need for this became well understood by most humans and nations after ww2, - due to all the inhuman doings and destructions of nations and civilizations. Think about it, - it is now a 100 year since the world wars started. What would be the outcome with an operational UN and GHRL at that time? It probably prevented ww3. However, a national regime can suddenly turn bad to its citizens and neighbor nations. Everyone needs a protection against that and NHRL/GHRL is an insurance.”

OMD - Genetic Engineering

2017.juli.14

Ukens Utvalgte

‘Genetic engineering’ is the 9th issue to this sub-theme of P5GO. This might be the most contraversive issue of the 4th Industrial and Social Revolutions, since it is said that the previous IR changed the way we do thing, while this IR4 will change the way we are. In order to focus on its hazards, - this blog relates to some recurring issues of the cold-war para-courts and the organized psychocratic abuses. Such grave criminal activities corrupt the Parliamentary LEJD powers that can path the way to CCD (Colony Collapse Disorder), National dysfunctionalities and even Dystopias. Therefore, this blog will focus on taboos and denials that hinder the necessary realizations to heal the LEJD Powers, - and ultimately ourselves. Furthermore, there will be some in-depth theoretical talk-throughs and presentation of 3 Scandinavian taboo cases of dysfunctional characters.

First of all, some explanation on what the 4th Industrial Revolution and the Genetic Engineering are:

- “The Fourth Industrial Revolution builds on the Digital Revolution, representing new ways in which technology becomes embedded within societies and even the human body. The Fourth Industrial Revolution is marked by emerging technology breakthroughs in a number of fields, including robotics,

artificial intelligence, nanotechnology, biotechnology, The Internet of Things, 3D printing and autonomous vehicles. The technologies have great potential to continue to connect billions more people to the web, drastically improve the efficiency of business and organizations and help regenerate the natural environment through better asset management.” (Wikipedia 4IR) UU 2017.mai.19

- “Genetic engineering techniques have been applied in numerous fields including research, agriculture, industrial biotechnology, and medicine.” “Genetic engineering, also called genetic modification, is the direct manipulation of an organism's genome using biotechnology. It is a set of technologies used to change the genetic makeup of cells, including the transfer of genes within and across species boundaries to produce improved or novel organisms. New DNA is obtained by either isolating and copying the genetic material of interest using molecular cloning methods or by artificially synthesizing the DNA. A construct is usually created and used to insert this DNA into the host organism. As well as inserting genes, the process can also be used to remove, or ‘knock out’, genes. The new DNA can be inserted randomly, or targeted to a specific part of the genome.”
- Biotechnology is the use of living systems and organisms to develop or make products, or ‘any technological application that uses biological systems, living organisms, or derivatives thereof, to make or modify products or processes for specific use”. “Depending on the tools and applications, it often overlaps with the (related) fields of bioengineering, biomedical engineering, biomanufacturing, molecular engineering, etc. For thousands of years, humankind has used biotechnology in agriculture, food production, and medicine.” (Wikipedia)

Still, para-courts of the 3rd Pyramid Game have jeopardized civil Laws, ethics and morals for a 100 year. The general reason of such corruption of the quality of the Judicial powers is described in previous blogs like these quotes:

- “(The 5) Internationals, refer to the (obligatory) conditions, most of which were suggested by Vladimir Lenin, to the adhesion of the socialist parties to the Third International (Comintern) created in 1919.” The 3rd condition says: “In almost every country in Europe and America the class struggle is entering the phase of civil war. Under such conditions the communists can place no trust in bourgeois (civilians) legality. They have the obligation of setting up a parallel organizational apparatus which, at the decisive moment, can assist the party to do its duty to the revolution. In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity.” Wikipedia has been able to publish the high treasonous conditions of the 3rd international. Similar conditions to the present 5th International (5th Pyramid Game) are obviously much more treasonous and destructive.)
- “With the Gulag colonialization program, workers were radicalized by ‘Red Mafia’ methods - in order to make bureaucratic schizophrenia with ‘parallel apparatus’ within the prey nations. International masspsychosis were propagated by national mass-media, like TV, papers, radio, tele companies and cultural events. Such were subsidized by the nations’ own budgets and favored PROSA Oligarchs by regulations. All this is illegal and even treasonous by penalty laws, - executed by remote controlled Labour parties and Unions – like some avatars.”
- “There was systematic political abuse of psychiatry in the Soviet Union, based on the interpretation of political opposition or dissent as a psychiatric problem. It was called "psychopathological mechanisms" of dissent. During the leadership of General Secretary Leonid Brezhnev, psychiatry was used to disable and remove from society political opponents (‘dissidents’) who openly expressed beliefs that contradicted the official dogma. The term ‘philosophical intoxication’, for instance, was widely applied to the mental disorders diagnosed when people disagreed with the country's Communist leaders and, by referring to the writings of the Founding Fathers of Marxism–Leninism—Karl Marx, Friedrich Engels, and Vladimir Lenin—made them the target of criticism. Article 58-10 of the Stalin-era Criminal Code, ‘Anti-Soviet agitation’, was to a considerable degree preserved in the new 1958 RSFSR Criminal Code as Article 70 ‘Anti-Soviet agitation and propaganda’. In 1967 a weaker law, Article 190-1 ‘Dissemination of fabrications known to be false, which defame the Soviet political and social system’, was added to the RSFSR Criminal Code. These laws were frequently applied in conjunction with the system of diagnosis for mental illness, developed by Academician Andrei Snezhnevsky. Together they established a framework within which non-standard beliefs could easily be defined as a criminal offence and the

basis, subsequently, for a psychiatric diagnosis.” (Wikipedia) Such psychocratic legislations seem to be hardened in present Nova Russia and certainly includes similar ‘Conditions of a 5th International’ too. Since the obligated activities of the 3rd International is illegal according to ‘Western’ penalty laws, - they had to be built parallel courts as well; in Labor unions for the workers so public servants did not face civil courts; in forensic psychiatric para-court that can veto the civil court and dismiss the case; and as well as doping the civil courts with 3rd Internationalists judges and civil servants. These corrupted para-courts are fully functional in this century too, - as the 3 Scandinavian cases will focus on.

Proper regulations of the biotechnological Revolution are required from the LEJD Powers in order to prevent some dysfunctional worst-case scenarios. Such issues of moral, ethics and laws have been in focus throughout this 6 years of weekly blogging. Here are some pinpoints from such ‘first philosophies’, primary taken from UU 2015.feb.20, UU 2015.jan.23, UU 2014.dec.19 and UU 2014.sept.05.

- “The universal ‘golden rule of ethics’ is like ‘you should do to others like you want them to do to you’. This ethical feedback-system is an excellent example of advanced moral philosophy. However, logically, there can be eight variances of the rule in positive/negative and passive/active modus. Surprisingly one will probably recognize variants that are unwanted realities.”
- “Simplifications of moral philosophy was talked through in UU 2013.mars.01: “One can sum up most philosophical values to be 3 incomparable value-systems of; Good, Useful and Right (GUR). The value ‘Good’ relates to personal feelings that cannot be inter-personal transferred. ‘Useful’ relates to social interactions, trade, enterprises etc. ‘Right’ is related to undisputable absolutes. Only oneself is the best to evaluate own moral. Terms like ‘no moral’ is an illusion, or merely an excuse to appear neutral. Anyone can evaluate an opinion or action according to the values; Good, Useful and Right, and even grade values to be GUr, gUr, guR etc. Alternatively, negative opposing values like; Bad, Abuse and Wrong (BAW) can be related. Humans can discuss own values with other persons and hopefully come to some understanding and agreements. It sounds trivial, - but that is how simple advanced, moral philosophy can be used by anyone. Then anyone should think more about their own values and dare to communicate with others about it.” An extension of the value-systems form ‘OK’ (Thomas Anthony Harris) to GUR, can surely be used for advance digital logic, like more advanced IT systems can.” (UU 2014.aug.22)
- “Philosophies about LifeQuality is also about moral and consequently moral philosophy, - ethics. It concerns standards for values, rules and attitudes. All the philosophies together from all times are obviously too comprehensive. However, they are also influenced by historical simplifications, contradictions, over-focus, exclusions and anti-democracy. Most present philosophers do not believe much in absolutes of morally ‘right’ and ‘wrong’, though. Consequently, ideas of punishment and rewards are accordingly adjusted. Moreover, the former philosophical believes in absolute determinism (faith) are mainly replaced with democratic philosophies concerning the ‘free will’. Consequently, humans should not be judged guilty for unfree or unconscious action and are not accountable for related punishment or rewards. Human emotions and spontaneity is now acknowledged as moral factors, despite the unpredictable consequences. For instance, the existence of Love and such moral influences are now recognized even though it cannot be scientifically proved or predicted. Emotions are vital feedback systems for survival because they are closely related to the life-sustaining heart. It might explain humanities great ability to survive the harshest conditions.” (UU 2013.mars.01)
- Anyways, - there were some kind of stone-age psychology and stone-age psychiatry at the times of the prophets. It is quite (psycho-) logical, since ‘psyche’ means ‘soul’ and therefore relates to a wide range of theologies, myths and believes. Religions are closely related to psychology and talked through in UU 2014.okt.10: “Religion is also called ‘the first philosophy’. It concerns any major unanswered question and not merely the theological ones (UU 2013.des.27). Therefore, the 3x3 model’s ego-state ‘Belief’ is a general substitute for Freud’s Superior-Ego. This means that laws, ethics and rituals are included. Moreover, the 3x3 model adds the 3 levels; UnderConscience, Conscience and OverConscience (U, C and O) to the 3 classic ego-states Id/Drive, Ego/Will and Superior-Ego/Belief (D, W and B). Temporary key-words for the ego-state Belief are: UB; Intuition, obsessions, rituals, psychosis. CB; Philosophy, religion, politics, ethics. OB; [S-E] Traditions, rituals, superstitions, hypnosis (and memes)”. The models are described in English in UU 2014.sept.12.” Furthermore: “‘Belief’ is an extended substitute for Superior-

Ego. The reason is that Jung's theories include 'religious psychology'. However, 3x3 Belief also includes any belief-system, like theories of anthropology and any science."

- Mental health is indeed highly relevant for organization, nations and empires as well as for individuals. This is argued in UU 2013.april.05. "So over to something quite normal, - 'normal madness'. Unfortunately, the mental health can be in such a condition that it is 'unprofessionally' called madness. Or even worse, - that state has become the collective norm of society, - 'normal madness'. Therefore, it is important to understand what professionals mean and what can be done to improve the condition, - even if the themes are considered taboo." "The term 'normal' has no qualitative meaning. 'Normal' can be good or bad, constructive or destructive and right or wrong. The norm just shows what is the average or most ethical legitimated". Furthermore, subconscious collective synchronous reactions can cause inhuman results, but might not be mean. Humans have some instincts like animals for protection, hunting, etc. Without entering moral philosophy, it is important to notice that instinctive reactions can happen before thinking and that the challenges are to use all 3 ego-states before acting. That goes for collectives too, - especially members of the deceiving anti-HR ones. (UU 2014.sept.12)
- "The LQ definition is based on the UN ISO 8402 definition of Quality of products and services. However, in LQ sense the 'implied needs' are as described in 'Maslow's Hierarchy of Need' and the 'Stated needs' are like the UN Human Rights. This makes a foundation for a comprehensive evaluation based on theories of psychology, moral-philosophy and sociology. Since Dr. Eric Berne showed that classic Freudian psychology can be related to interpersonal sociology, the theories were escalated to social relations in extended ways, - including Humanity as a whole (from UU 2013.feb.01)."
- The final definition of LifeQuality is based on the ISO 8402 definition of Quality and was presented in UU 2014.okt.17: "LifeQuality is defined as: A person's totality of properties and potentials to satisfy stated and implied needs." "Maslow's Hierarchy of Needs shows 5 main categories; Physical, Safety, Social, Respect and Self-realization." The 'stated needs' are similar to the 'Human Rights'. "The 193 UN member-states are obligated to secure their citizens' rights concerning; private properties, self-determination, security, privacy, family, work, education, in addition to freedoms of thought, conscience, religion, expression and more." (UU 2016.juli.01)

These innovative models of ethics are referred to in the following 3 Scandinavian cases, - yet they are not required for the evaluations of the cases.

The 3 alarming Scandinavian cases are presented here in order to highlight on the taboos of denials that hinders the realizations that are necessary to heal the LEJD Powers. The 3 cases are; 'The Swedish woman behind Thomas Quick that manipulated the civil courts of both Sweden and Norway'; 'The Dane psychiatric abuse of minors with drugs and psychocratic methodes' and 'The attempted coup by the forensic psychiatric court in the Norwegian terror cases of 22/7-2011'. (See more in the blog 'P5GO09 –PROSA Psychocracy' UU 2016.sept.02).

The first Scandinavian case concerns the STV documentary 'The woman behind Thomas Quick' (Kvinnan bakom Thomas Quick). It documents thoroughly some phenomena of psychocratic organized crimes that overrules all LEJD powers in any nation (UU 2014.juli.18). Also see the video documentary in the Extra UU.

- "The Quick case lost all its fantastic attention with the disclosure that he was no mass murderer at all, but merely a childlike patient with free meals, housing, drugs and hypnosis under the psychiatric matriarch, Margit Norell. There seems to be some Oedipus-relations where life-long room-service was the reward. 'Sweet old ladies' are unassailable and can consequently be perfect executors of misdeeds, - even the worst thinkable. There is probably no better cover for such vast criminal acts, - like covering up for the actual massive murders." An article talks through the cult around 'Thomas Quick' like this: "He admitted 39 murders (some in Norway) and was convicted for 8 that he did not even do. No technical evidences and no witnesses have ever linked him to any of the convicted murders. The trials lasted for years and cost 200 million kroner. The murders were made up by a desperate person that lied to get drugs, social relations and attention. He was supported by a cult of psychologists, doctors, police, prosecutors and layers, - that lied just as much, - or even more."
- 'The woman behind Thomas Quick' is presented like some Matriarchal Psychocrate with power beyond national LEJ (Legal, Executive and Judicial Parliamentary forces). She operated in plain sight like some International Superior-Ego, where the nations' LEJ were paralyzed, and the submissives' IDs acted like

immature Jerks, Nerds and Sulks. Traditional psychosocial models, like for family therapy, are far from sufficient for such criminal Psychocracy, - simply because the collective of psychocratic therapists is the main reason to the traumas and crimes. However, the 3^3 model should help a lot. A way to see these phenomena is that the Superior Psychocrate played Games of RainForest with drugs, Games of WildLife with Hypnosis and Games of AnimalFarm in LEJ institutions, - with herself at the top of the pecking order, above the flock of hens, the cockfights and the 'ugly ducklings'. Associations of Archetypical Memes could be the Matriarchal Hen (AF), The Black Widow Spider (WL) and some yet undiscovered narcotic flora (RF).

"There are several other inter-Nordic cases suggested to investigate further, like; the Scandinavian Star ferry fire, Arnfinn Nasset hospital murders, 22/7 bombing and massacre, the Halloween murder under IT related hypnotic psychosis and several other cases. There are most probably similar cases in all the other Nordic countries to. (The infamous and unprofessional attempt by the forensic psychiatric to veto the 22/7 ABB trial is talked through in UU 22.juni.2012." (UU 2014.dec.19)

Such a Scapegoat Game would probably work as well for the assassins of Olof Palme, - that probably was a wide-ranging and well-organized GRU operation.

The second Scandinavian case, concerns the massively organized abuse of minors in Dane child psychiatry. This is a recurring issue and will be so until the misdeeds are ended and retributed. The main reason for such continuous mass-cruelty towards minors is due to the powerful organizations in the illegal, the legal and the borderline drug industry, distribution and prescription. In brief, psychotic effects from the psychedelic drugs are deliberately faulty diagnosed as psychosis in order to protect the illegal drug market and sell drugs from the legalized multi-milliard pharmacy industry. This includes illegal long-term organized testing of new un-certified drugs on minors. As previously concluded: "Therefore, the Psychocracy should be parliamentary supervised, like the bureaucracy and the democracy, and regulated to avoid civil damages. However, the very opposite seems to be true. Psychiatric organizations are the most secret, impenetrable and protectionistic of all." Here are some pinpoints from pervious blogs.

- "Moreover, drugs and hypnosis do certainly influence human nerves, perceptions, psyche and behaviors. This is abused in Drive-related Games like predators do to their prey: This was explained and criticized in UU 2014.dec.19. "The categories of drugs are; psychedelic drugs like LSD and mescaline (hallucinogens), euphoria drugs like hashish, paralyzing drugs like morphine and heroin, in addition to central-stimulating drugs like amphetamine and illegal designer drugs like XTC (dopamine), (which is counter-dosed with legal anti-dopamine by the institutional psychiatry)." Furthermore: "The uses and abuses (of hypnosis) are far more common than the public realize, simply because the victims do not realize what happens at all. In fact, that is the whole point of NLP (Neuro-linguistic programming) and Games." To be direct - drug crimes are Games, - and so are most certainly NLP crimes too. It seems to be a social taboo, how the legal health system is abused by such illegal health crimes."
- "An outrageous experience is that the Dane doping industry abuses minors for illegal experimenting with enhancing drugs. Illegal sport's drugs are definitely physical and psychological damaging to minors. Proven after-effects are symptoms similar to CBS (Charles Bonnet syndrome) where subconscious images appear in the conscience, which proves that there are damaged neurons in the brain. The crimes were covered up by public servants by blaming the minor for being psychotic, schizophrenic and paranoid. A teacher even suggested a year in psychiatry to 'deal with the demon'. Such Jante-Games are psychological and sociological damaging in itself."
- "Next, the Dane psychiatry prescribed non-approved Asian anti-psychotic drugs named Aripiprazole by Otsuka Pharmaceutical Company, related to the very same enterprise that produces the famous sports-drink Pocari Sweat. The Dane psychiatrist's analysis of the minor concluded with all the most serious psychiatric terms in the book, a suspicious diagnosis that most certainly will indicate improvements at later time, - whether the drug works or not. However, the illegal psychiatric drug was substituted when the minor occasionally suffered from nose bleedings. These examples are definitely of organized crime towards minors in the public services. Anyhow, there should be no doubt to the seriousness of illegal drug industry in Danish sports, when the world-famous CSC bicycle teams was exposed in the report by 'Anti Doping Danmark, ADD. These drug-related organized international crimes in Danish sports and psychiatry might very well be related."

- (Bourgeois/Civilian) "Parent objection might be counter-argued with allegations of being a cause to minor's misery. In general, Pyramid Game moves of quasi-forensic psychiatry is about disenfranchise the bourgeois citizen. For example, unclocking symptoms like described in Condition 3 "setting up a parallel organizational apparatus" might be met with claims of paranoid. Rejecting propaganda of mass-psychosis might be met with claims of being psychotic. Human emotional reactions on long term collective mobbing might be met with claims of being neurotic. Contradicting public servants might be met with claims of being psychopathic. Hints and allegations of folkshool pedocracts are per definition unprofessional and surprisingly immature. (Some indications are in the Dane movie 'Jagten (The Hunt)' & Jan Guilluo about the 'Bjugn' case of UU 2013.nov.15.) Forensic psychiatry disenfranchise can too easily be arranged in Sexual and Underworld Games."
 - "It becomes rather clear how the legitimized drug market of Christiania, the Oligarchic match fixing by synthetic sports-dopes and the corrupted market of legalized drugs in the public health sector, cooperates like an oligopoly, - PROSA Red Mafia style. Illegal Russian sports dopes are illegally tested on Dane athletes, just like citizens of Christiania have illegally become 'lab rats' for the powerful pharmacy and psychiatric enterprises. These synthetic sports dopes fries and shortcuts the preys' brain cells so images from the subconscious appears when conscience (like the Charles Bonnet syndrome). The PROSA Oligarch Game is cloaked by unprofessional investigation and quack claims of occult para-beings that are interpreted as paranoia. Expensive, unapproved and damaging drugs are prescribed and made the youngster a customer for life, - subsidized by directly to the criminal enterprise."
 - The practice is similar to the billion euro fraud by Dane SKAT (the tax authority) presented in the previous UU 2016.aug.26. "BK Medical is an example of the massive organized frauds via SKAT. The firm sold considerably overpriced medical equipment to Dane public health services. The difference in prices were sent to Caribbean tax havens where the oligarchs get paid - free for reporting and free for tax. The Russian medical firm will rather pay a fine than facing court, though. That is the plutocrat way of calculated risk and to settle spoils of war. This example demonstrate how PROSA Oligarchic plutocracy works in all of the Nordic public sector."
 - "Recent public cases are the illegal data-exchange of sensitive info to the drug industries with the DAMD database, the 'brain damaged' psychiatrist that continued prescribing drugs for years with institutional protection and the massive prescription of 'Lykke piller' (Happiness pills) and ADHD pills to minors (UU 2015.juli.03). Furthermore, there are also proof that Danish psychiatry do experiment with unclassified drugs on minors, do alter established psychiatric terminology and do reverse attitudes towards pre-Freudian sexism, - with the opposite gender-antipathy. However, the Psychocracy do counterattack, - just like some of its clients. The results speak for itself, - the Psychocracy has become a master of international psychocratic Games."
 - "China has now personal identity and medical records of all Danes. Quite alarming and almost unnoticed. Unencrypted data-files with 5 million CPR (central personal register) identities and related data from SSI (Statens Serum Institut) was delivered to the Chinese Visa Authorities in Copenhagen. Any resident in Denmark gets a CPR even though they are not citizens. The event was claimed to be an accident and that the data has never been entered. However, it is highly likely that some organizations related to the secret services of China (MSS) and Russia (FSB) do abuse the data in violations to the Legalties of European Human Rights. 5th Pyramid 'succers' might claim otherwise and prevents further investigations and not get official insurance that China (and Russia) do not Danes CPR and health data."
- 'How to heal Dane psychiatry' is an issue presented in blogs like UU 2015.nov.06. "Consequently, diagnosis as psychotic, neurotic, paranoid, manic, phobic etc. are as legitimate for organizations as persons, mainly because organizational cultures are founded on the personalities of matriarchs and patriarchs. The reasons to such unsound conditions are basically the same – immature Superior-Ego/Superior-ID relations." Therefore, the psychosocial model can be used on unhealthy institutions as well as any family.

The 3rd Scandinavian case is the infamous and unprofessional attempt by the forensic psychiatric to veto the 22/7 ABB trial. It is talked through in blogs like UU 22.juni.2012 and UU 2014.dec.19.

- "ABB, the executioner at Utøya, got his para-military training in Eastern Europe and got associated to such cultures. Related organizations were talked through in UU 2014.nov.14: "Nashi (Наши), the Putinized youth organization, turned unacceptable. Wikipedia says: "In 2012, the leader of Nashi announced that the movement would be dissolving in the near future, possibly to be replaced by a

different organization. Media have compared it to the Soviet Komsomol or the Hitler Youth and called 'Putin jugend'." In a Nordic view, it is remarkable that Nashi flag is like a diagonal Danish one and the neo-Russian flag is like a diagonal Norwegian one. Although still emotionally controversial, it is now legitimate to relate Nashi to Nordic political youth organizations, - and AUF in particular. No doubt that AUF is strongly related to 'heads of state', the major political party, the labor organization (LO) and public sector." (UU 2015.mars.20)

- "The Norwegian Trial of the decade is certainly the 22/7-2011 case. It was really 2 very different extreme terror cases; the CdE by blowing up the Governmental Building, and the massacre of the governments youth organization (AUF). The joint trial is focuses in UU 2012.mai.18 to UU 2012.Juli.20, and UU 2012.aug.24. The over- focus on ABB's reward, the massacre on innocent youths, did take all the attention from the CdE bombing. There is no proof at all that ABB bombed the building and that no-one else were involved. It rather seems that he part was taking the blame in court and that his layer saw to that no questions about any relations were asked. However, some para-military and para-police were involved making all police and military involvements major failures. Even the armed ferry was disabled and the police put in fragile rubber boats. Actually, saving of the surviving youth was done by civilians, - not the police or the military. The trial concluded that all relevant documentation is to be locked up in 60 years, ensuring that the public will merely know the mass-psychosis of the mass-media, as described in the 3rd International." (Translated from UU 2012.mai.25 and UU 2014.juli.18)
- "There is an infamous failed attempt by psychiatrist to overrule the Court in the Norwegian terrorist case of 22/7 (UU 2014.nov.14). "There seems to be some alarming similarities to some ABB personal profiles. UU 2012.mai.18 to UU 2012.juli.20 followed the 22/7 trial about the CdE bomb and AUF massacre. During the trial, there were 2 contradicting psychiatric evaluation of his personality that caused serious distrust to the legal psychiatric system. The second psychiatric evaluation diagnosed ABB as not schizophrenic, delusional or psychotic, but rather with antisocial and narcissistic personality disorder, possibly Asperger and Tourette syndrome and some possibly paranoid psychosis. His lack of emotion, monotonous voice, 'stone-face' and peculiar smile was considered deliberate responses to his environment, indicating ulteriority, dishonesty, - or briefly, - a Game player. Furthermore, some psychiatrists seem political motivated Game players." The 2 very different diagnosis by the Forensic psychiatrists left civil court questioning whether their organization themselves were like diluted, psychotic and schizophrenic. Anyhow, the civil judges had to dismiss the psychiatrists' attempt to overrule the civil court and take the terrorist into their care. Yet again, - there is no reason to assume that Denmark is not subject to similar judicial crimes." (UU 2015.okt.30)
- At first, the following might seem irrelevant, but will probably prove that the ABB case simply was a Move in an larger and encompassing Game. "Furthermore, the ongoing 'Jensen vs Cappelen' trial is particularly relevant when focusing on any 'Western' Executive para-police and Juridical para-court. Jensen was an undercover policeman against the north European drug mafia and its informant Cappelen. They used cloaked SMS messages, like Tweets are used these days. The trial is broadcasted daily by the internet-TV of the newspaper VG (see links). So far, both have claimed that they have secret agreements with parts of the police that protects certain people in both the police and the mafia. The statements expose that the police is highly infiltrated and manipulated by the mafia. The motive of both Cappelen is to discredit the policeman to reduce own sentence in that Game of Prisoners' Dilemma. His layer is very helpful in that. A spin-off case shows that Jensen blew the A-gang and B-gang, - probably to eliminate Cappelen's rivals. Nevertheless, ABB claimed that he was trained in 2003 by the leader (Shahid Rasool) of the A-gang (previously Young Guns) before the Utøya massacre on the Government's youth organization AUF. Therefore, both cases should be investigated by international police and military forces, like Europol and NATO, in order to learn more about how the para-police, para-military and para-court works during CdE attempts in any Western nation. Both the Red Mafia and the Rote Arme Faction have operated in Norway for a century, - as well as the rest of 'The West'." (UU 2017.feb.24)

Taking all the blame for the bombing of the Government Building in CdE Nor2011 is certainly considered heroic in Nashi and RAF cultures. It misleads the focus on the para-police, para-military and para-court. Moreover, the truth will not be exposed in 60 years, when all the involved have passed away unnoticed, - just like the CdE JFK1963.

Surely, terms like 'Psychocracy' is taboo, feels repulsing and is intensively denied. Yet, the irrational emotion is a main reason for denials of its existence that hinders the necessary progress from denial to acceptance. Ultimately – it continues the western societies' dysfunctionalities of the 3rd Pyramid Game. Such mass-psychotic denials will be fatal for the outcomes of the 4th Industrial and Social Revolutions too. Let's talk like Adults about this.

Orchestral Manoeuvres in the Dark (OMD) was introduced in the previous UU 2017.juni.30. "OMD had an unusual concept with a vocal on bass and another on synth. The synth pop group were inspired by artists like Brian Eno and Kraftwerk. With the release of the first single 'Electricity', they were able to build a studio, which allowed them to record on four-track with four musicians." 'Genetic Engineering' released as the first single from their fourth studio album Dazzle Ships. The synthesized speech featured on the track is taken from a Speak & Spell, an educational electronic toy.

The critics of the contraversive song is diverse. It was praised as a 'soaring', 'enjoyable' single in a retrospective piece for AllMusic, asserting: 'Why it wasn't a hit remains a mystery.' Some noted that the song is not an attack on genetic engineering, as many assumed at the time. A critic stated: 'I was very positive about the subject.' 'People didn't listen to the lyrics... I think they automatically assumed it would be anti.'

The association here is two-folded, - one is the positive opportunities of innovated LifeQuality, - the other is the disastrous path of the manipulated cold-war LEJD powers of the 3rd Pyramid Game.

Extra UU - Genetic Engineering and psychocratic dysfunctionalities

It is said that the previous industrial revolutions changed how we do things, - and this 4th Industrial revolution will change the way we are. Serious ethical awareness is therefore required now, based on the knowledge of some fatal outcomes in the past. It might feel repulsive, but it is very necessary to talk like Adults about the abuses of the psychocratic para-courts. This STV documentary provides crucial evidence of the Psychocratic existence – and the denials. Following are some other important videos related to the Genetic engineering of the 4th Industrial and Social Revolutions.

OMD - Electricity

2017.juli.07

Ukens Utvalgte

The 'EMP Engine' is the 8th issue in this P5GO sub-theme. Energy conversion to electricity is important to the UN Goals for Sustainability, as it also is for the 4th Industrial and Social Revolutions. Such an issue is contraversive though, because the sustainable alternative is opposing the most powerful oligarchies in the world, - the shipping and the energy industries. Still, the electrification of ships is as realistic as for the cars. Yet, it also causes positive effects for; domestic productions for new sustainable industries; increased income to heal from the diesel pollutions; and can finances the 'basic income' to elevate education and prevent social unrests. All-in-all, it is very easy, sustainably and cost-efficient to do. In order to conclude so, there will be some theoretical talk-throughs concerning the EMP engine, the UN SDGs and EU IM regulations.

The EMP engine is presented in a video at the website CloudMaps and YouTube. Here is a brief summary of the presentation: "The EMP engine is a hybrid upgrade of the diesel and gasoline engine to an electric engine, where the explosive pulses are substituted with Electro Magnetic Pulses (EMP). Such an upgrade in the shipping industry will considerably improve the transport, the economy and the environment. There is significant difference between the two kinds of engines. A 4-stroke diesel/gasoline engine is only 20% energy-efficient and utilizes only one of the 4 strokes. The same function can be made by magnetism that utilizes each stroke and is therefore 4 times as efficient. Also, the electric engines are 3 times as energy-efficient than the gasoline engines. This makes the EMP engine about 10 times as efficient. Moreover, the energy source to the EMP engine is free if utilized from sustainable sources like solar, wind or wave energy. Maybe most important, the electric engines do not pollute at all – neither CO₂ (carbon-di-oxides) nor NO_x or SO_x (Nitrogen-oxides and Sulphur-oxides from diesel). Further pinpoints from the presentation are:

- The Shipping industry do already take some advantage of solar and wind power for electricity production. For example; freight ships use solar panels to produce free and clean energy for electric equipment; some ships decks are covered with solar panels; Mærsk utilizes turbine towers for generating free electric energy; and there are plans to build electrical power-plants in open seas that converts solar, wind and wave energies to electricity.
- Magnets and solar panels are strong enough to replace the present diesel and gasoline engines: An average diesel engine on a ship produces about 300 horsepower, i.e. 200 KW. The world's largest diesel engine produces 109 000 horsepower from 14 cylinders. The VOLAR-e electric car produces 1000 horsepower from 4 electric motors. A rooftop PV (photovoltaic) power station produces 20-100 KW (kilowatts). An Electro Magnet with 20 KW can lift 1000 Kg.
- There is a huge market for energy, economy and health related to shipping. Their global energy use is 10% of World GDP, i.e. 5 Terra € and 100 000 TWh (2014). The transportation uses 20% of all energy worldwide. Shipping now accounts for 90% of the global trade by volume.
- The shipping is by far the biggest transport polluter in the world: The world's 90 000 vessels burn ca 370 million tons of fuel per year emitting 20 million tons of Sulphur Oxides (SO_x). That equates to 260 times more Sulphur Oxides being emitted by ships than the worlds entire car fleet. A large container ship emits cancer and asthma-causing pollutants like 50 million cars. (See next paragraph for the whole article.)
- Based on this, approximately calculations say that; converting 10% of the combustion engines to EMP-engines can cause Global reduction of -2% energy consumption and -2% greenhouse emission. European reduction of; Green emission -0.15%; energy savings -150 TWh; economic savings; -7.5 000 million €.

- The STEP analysis, that was presented in UU 2017.juni.09, can be used for EMP engines too. These are some STEP factors for innovating ships' diesel engines to EMP engines: Social opportunities; get cleaner environment, better health, more jobs during the 4th industrial revolution. Technological opportunities; growth in clean energy-production, better management of shipping with IT. Economic opportunities; impose environmental taxes on diesel ships, more cost-efficient energy utilization. Political opportunities; getting closer to the environmental goals, defend domestic labor and industry.
- The Rivals of the Market were also presented and can be used for the EMP engines too. These are some factors for innovating ship diesel engines to EMP engines: Dominant market actors; cannot or will not innovate. 'Threats' from new products; free energy for EMP engines. Suppliers of diesel and gasoline; oil/diesel industry that fight against clean and free alternative energy. The Customer that buy the goods; customers want inexpensive and clean transport of their goods." Still, note that the ship owner are the main winners in innovating to EMP engines. The RoI (return of investments) will be big after a few years, when there is no cost of energy or environmental taxes.

Still, there are much more into this innovative EMP engine than presented in this blog. First of all, this simplified version of the EMP engine is the basis of a patent application about an EMP system with much broader utilizations. Next, the EMP engine should be 3D printed by the shipyard industry as a clone in non-magnetic materials in order to substitute the metallic diesel/gasoline engines. The cloned EMP engines' cabinets should be modular so it is easy to replace the originals. The electric power source should have backup with generators. Surplus energy productions should be stored in accumulators. The EMP engines will have great potentials in fine-tuning of frequency, amplitudes and wave-forms for max power utilization and synchronizations. Other devices and instruments on the ships will gain by a fully electric and computer driven infrastructure on the ships. Finally, even though the commercial break-through for el-car was delayed throughout the previous century, the break-through for the EMP ship engine should come simultaneously with the el-cars, - in this 4th Industrial Revolution.

The gravity of shipping pollution is far too unknown to the authorities and the public. Therefore, here is the whole article from cited. (Ref article: New Atlas / The Guardian: "Big polluters: one massive container ship equals 50 million cars").

- "The Guardian has reported on new research showing that in one year, a single large container ship can emit cancer and asthma-causing pollutants equivalent to that of 50 million cars. The low grade bunker fuel used by the worlds 90,000 cargo ships contains up to 2,000 times the amount of sulfur compared to diesel fuel used in automobiles. The recent boom in the global trade of manufactured goods has also resulted in a new breed of super sized container ship which consume fuel not by the gallons, but by tons per hour, and shipping now accounts for 90% of global trade by volume.
- The title of world's largest container ship is actually held by eight identical ships owned by Danish shipping line Mærsk. All eight ships are 1300ft (397.7m) long and can carry 15,200 shipping containers around the globe at a steady 25.5 knots (47.2 km/h, 29.3 mph). The only thing limiting the size of these ships is the Suezmax standard, which is the term used to define the largest ships capable of transiting the Suez Canal fully loaded. These ships far surpass the Panamax standard (ships that can fit through the Panama Canal), which is limited to ships capable of carrying 5,000 shipping containers.
- Not only are shipbuilders resetting the world record for size on a regular basis but so are the diesel engines that propel them. One of the eight longest container ships in the world, the 1,300 ft Emma Mærsk also has the world's largest reciprocating engine. At five storeys tall and weighing 2300 tonnes, this 14 cylinder turbocharged two-stroke monster puts out 84.4 MW (114,800 hp) - up to 90MW when the motor's waste heat recovery system is taken into account. These mammoth engines consume approx. 16 tons of fuel per hour or 380 tons per day while at sea.
- In international waters ship emissions remains one of the least regulated parts of our global transportation system. The fuel used in ships is waste oil, basically what is left over after the crude oil refining process. It is the same as asphalt and is so thick that when cold it can be walked upon. It's the cheapest and most polluting fuel available and the world's 90,000 ships chew through an astonishing 7.29 million barrels of it each day, or more than 84% of all exported oil production from Saudi Arabia, the world's largest oil exporter.
- Shipping is by far the biggest transport polluter in the world. There are 760 million cars in the world today emitting approx 78,599 tons of Sulphur Oxides (SOx) annually. The world's 90,000 vessels burn

approx 370 million tons of fuel per year emitting 20 million tons of Sulphur Oxides. That equates to 260 times more Sulphur Oxides being emitted by ships than the worlds entire car fleet. One large ship alone can generate approx 5,200 tonnes of sulphur oxide pollution in a year, meaning that 15 of the largest ships now emit as much SOx as the world's 760 million cars.

- South Korea's STX shipyard says it has designed a ship to carry 22,000 shipping containers that would be 450 meters long and there are already 3,693 new ship builds on the books for ocean going vessels over 150 meters in length due over the next three years. The amount of air pollution just these new ships will put out when launched is equal to having another 29 billion cars on the roads.
- The UN's International Maritime Organisation (IMO) released a report in 2007 saying a 10% reduction in fuel burning was possible on existing ships and 30-40% possible for new ships but the technology is largely unused, as the regulations are largely voluntary.
- Oddly enough there is never any mention of alternative power sources such as nuclear power. Nuclear marine propulsion has been in widespread naval use for over 50 years starting in 1955. There are 150 ships in operation that use nuclear propulsion with most being submarines, although they range from ice breakers to aircraft carriers. A Nimitz class supercarrier has more than twice as much power (240,000 hp, 208 MW) as the largest container ship diesel engines ever built and is capable of continuously operating for 20 years without refueling (some French Rubis-class submarines can go 30 years between refueling). The U.S. Navy has accumulated over 5,400 "reactor years" of accident-free experience, and operates more than 80 nuclear-powered ships.
- Airborne pollution from these giant diesel engines has been linked to sickness in coastal residents near busy shipping lanes. Up to 60,000 premature deaths a year worldwide are said to be as a result of particulate matter emissions from ocean-going ship engines. The IMO, which regulates shipping for 168 member nations, last October enacted new mandatory standards for phasing in cleaner engine fuel. By 2020, sulphur in marine fuel must be reduced by 90% although this new distilled fuel may be double the price of current low grade fuels."

(Paul Evans, via: Guardian.co.uk. See this link for an informative overview of global shipping emissions from Glenn Klith Andersen.)

The United Nations' Sustainable Development Goals are well in alignment with the upgrade to EMP engines. "The 17 SDGs is the 2030 Agenda for Sustainable Development with 169 targets between them. Spearheaded by the United Nations through a deliberative process involving its 193 Member States, as well as global civil society, the goals are contained in paragraph 54 United Nations Resolution A/RES/70/1 of 2015. The Resolution is a broader intergovernmental agreement that acts as the Post 2015 Development Agenda (successor to the Millennium Development Goals). (ref Wikipedia and the SDG sites, see links hereunder.)

"The 17 UN Sustainable Development Goals (SDG) are a global vision for humanity signed by 193 heads of state, yet, everyone's responsibility: 1) End poverty in all its forms everywhere. 2) End hunger, achieve food security and improved nutrition and promote sustainable agriculture. 3) Ensure healthy lives and promote well-being for all at all ages. 4) Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all. 5) Achieve gender equality and empower all women and girls. 6) Ensure availability and sustainable management of water and sanitation for all. 7) Ensure access to affordable, reliable, sustainable and modern energy for all. 8) Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all. 9) Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation. 10) Reduce inequality within and among countries. 11) Make cities and human settlements inclusive, safe, resilient and sustainable. 12) Ensure sustainable consumption and production patterns. 13) Take urgent action to combat climate change and its impacts. 14) Conserve and sustainably use the oceans, seas and marine resources for sustainable development. 15) Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss. 16) Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels. 17) Strengthen the means of implementation and revitalize the global partnership for sustainable development."

Upgrading ships with EMP engines are directly alignment with the UN SDG; 7 energies, 9 industrializations, 13 climates, 14 marine resources, 15 terrestrial ecosystems. It can also cause positive indirect effects on the rest of the SDGs. Also note that the 17 UN SDGs covers a lot more than merely climate change from CO₂, but health damage caused by NO_x and SO_x pollutions as well.

The Dane shipping enterprise Mærsk (Maersk) is particularly mentioned in the article from New Atlas / The Guardian. There are several aspects that make Mærsk interesting to this issue. The Dane government has developed close relations to Chinese trade. Mærsk will be a major importer of MIC2025 products to the EU through the extended Panama Canal. Denmark, the Faroe Islands and Greenland might rather become outposts for imported goods since the Dexit excluded full federal membership with the Europol and the Eurojust. Most alarming though, is the major crypto attack at Mærsk fright system last week, covered up as a simple ransom-ware case. Yet, it made the whole logistic system paralyzed. No-one knew what the thousands of containers contained anymore. However, that fatal directed attack was no ordinary ransom crime, but rather appears like a Big Red guerilla-attack from the inside. Therefore, there should be no doubt that European authorities of border control, police, court and even defense need to be closely involved in such movement of goods, - that might not qualify for the EU restrictions for Health, Environment and Security.

Redistribution of welfare is a main topic in social revolutions. That is so for this 4th RS as for the 3 previous ones. The simple reason is that the Industrial Revolutions cause major improvements and redistributions that has to be balance in order to avoid massive miseries, desperations and riots. There are already some important suggestions debated about redistributions in this 4th Industrial and Social Revolutions:

- Tax on robots: "Leaders of the industrial and scientific communities think that, to offset the social costs created by automation's displacement effects, either robots should pay income tax, or their owners should pay a tax for replacing a worker with a robot. And this 'robot tax' should be used to finance a universal basic income or guaranteed living wage. Bill Gates (former Microsoft) said the solution to the problem is simple, the government should start taxing robots i.e. make the robot owners cough up the money needed to re-establish the defunct workforce. However, the EU Commissioner Andrus Ansip, tasked with bringing Europe to the digital age, says no."
- "Basic income is a 200-year-old political issue in 'the West'. (See the Ted Talk in this Extra UU.) It is not like the extreme isms abused to cause CCD and CdE as in the previous Pyramid Games. Even major high-tech celebrities say it has to be done. Elon Musk (Tesla Motors) says that automation will force governments to Introduce Universal Basic Income (UBI). There are 3 traditional claims against Basic Income. 1) That it is too expensive. Yet the social costs of poverty are higher. 2) People will not work if not forced to. On the contrary, most people want to self-realize, be social and contribute. 3) It is politically too complicated. True, this is most certainly serious a challenge, since UBI has actually has been a legal Human Rights obligation for all United Nations for 50 years - and in the EU for 20 years due to competition rules of State Aid. (See UU 2014.okt.17 about LQ, UN, EU, HR)" (UU 2017.mai.19)
- Tax on imported robot products. 'The West' will be overflowed by cheap robotic mass-produced products from the 'Made in China 2025' strategy (MIC2025). Robot productions outside the European Internal Market cannot be taxed like its own producers inside the EU IM. Therefore, the same Robot Tax has to be applied on EU import in order not to discriminate and suffocate the domestic producers. Such import tax should be used to promote EU domestic productions according to EU strategies. (MIC2025 was talked through in UU 2017.mai.19.)
- Pollution tax on Shipping. The EU should impose same pollution tax on ships entering the European Union, as on any other vehicles in the EU. This is directly in alignment with the UN Sustainable Development Goals; 7 energies, 9 industrializations, 13 climates, 14 marine resources and 15 terrestrial ecosystems, - indirectly with the rest. Such a pollution tax will improve the fatal problems that: "A single large container ship can emit cancer and asthma-causing pollutants equivalent to that of 50 million cars." "The worlds 90 000 cargo ships contain up to 2 000 times the amount of sulfur compared to diesel fuel used in automobiles." "Shipping now accounts for 90% of global trade by volume". The shipping industry can certainly afford to pay for they health damaging and will even gain a lot in the long run by innovating to EMP engines.

For the nations of the European Union, the gains are huge and pains are minimal for a massive EMP engine innovation and these tax redistributions of wealth, - although competitors might claim otherwise.

Only the confederal EU, not the single European nations, is strong enough to deal with the dominant global actors of shipping and energy. Therefore, only a EU directive, promoting clean European energy, can force the polluting shipping industry to change in accordance with the UN SDG and EU IM. Still, from this position, the attempts here is to free this knowledge via the hyperspace – like this publication – that provide some technical solutions and sustainable arguments for immediate upgrading diesel engines to EMP engines. Then, any market actor in the shipping industry can realize the EMP engines. Such an innovation can revoke the declined European shipyard industry, - and provide the ships with free and clean energy instead of expensive and polluting. Just spread the idea and do the Start-Ups.

Orchestral Manoeuvres in the Dark (OMD) was introduced in the previous UU 2017.juni.30. “OMD had an unusual concept with a vocal on bass and another on synth. The synth pop group were inspired by artists like Brian Eno and Kraftwerk. With the release of the first single ‘Electricity’, they were able to build a studio, which allowed them to record on four-track with four musicians.”

The association to this blog is the electrification of energy consumption, - especially in shipping with the EMP Engine.

Extra UU – EMP engines for Shipping

The EMP engine is presented in a video at the website CloudMaps and YouTube. A brief summary of the presentation says: “The EMP engine is a hybrid upgrade of the diesel and gasoline engines to electric engines, where the explosive pulses are substituted with Electro Magnetic Pulses (EMP). Such an upgrade in the shipping industry will considerably improve the transport, the economy and the environment.

Here are some related videos to the issue.

Orchestral Manoeuvres in the Dark (OMD) - Telegraph

2017.juni.30

Ukens Utvalgte

'Hyper Services' is the 7th issue in this P5GO sub-theme. The 4th Industrial and Social Revolutions provide new types of products and services with elevating qualities. This 'new' term 'hyper-service' is a theoretical attempt to accumulate related terms that are advancing like a syndrome. These IR4 hyper-services can enable the positive visions of a SR4 for elevated LifeQualities. Dysfunctional public sectors, however, that do not regulate the markets properly, will indirectly promote anarchism and dystopia. Therefore, after an introduction, and before some concluding remarks, the term 'hyper services' will be talked through, based on previous blogs about infrastructural service qualities.

First of all, the Greek word 'hyper' simply means 'above' and is synonym to the Latin 'superior' (i.e. 'super'). For internet computing, 'hypertext' refers to 'hyperlink' and is well known as 'http addresses'. Similarly, hyper-services are linked services at a higher level. They are linked via the internet, - as 'Cloud Services' and Apps (applications). Citizens of this century do already know such services very well and are dependent on them. Such hyper-services are used daily for searching, selecting, ordering and utilizing products and services. Some most common hyper-services are made for traveling, communicating, shopping, banking, etc. Yet, the rapid developments of new hyper-services will influence the market and their actors substantially during these IR4 and SR4.

'XaaS' is an abbreviation that stems from virtual computing. It means '(X: product) as a Service'. Cloud computing by virtualization of hardware is enabled by 'Infrastructure as a Service' (IaaS), 'Platform as a Service' (PaaS), 'Software as a Service' (SaaS), 'Security as a Service' (SECaaS) and more. Adding such XaaS levels to the hardware made standardizations and re-arranging easy, - just like the internet became manageable by adding http and URL addresses to the net-cards. Now, hardware is as easy to reconfigure as software. XaaS made virtually 'Hardware as a Software', like virtual machines, virtual memory, virtual disks, virtual networks etc. Consequently, there is a rapid replacement of the outdated IR3 hardware with IR4 hardware, - also due to Moore's law that says the efficiency is doubled every second year. The total reconstruction of IR4 IT is made in completely new and sustainable datacenter at remote locations, - not in overcrowded cities.

Furthermore, the term XaaS is extended in new fields like; Content as a Service (CaaS), Data as a Service (DaaS), Database as a Service (DBaaS), Desktop as a Service, Energy Storage as a Service (ESaaS), Function as a Service, Games as a Service (GaaS), IT as a Service, Logging as a Service (LaaS), Mobile backend as a Service, Monitoring as a Service, Network as a service (NaaS), Payments as a Service, Recovery as a Service, Robot as a Service, Search as a Service, Security as a Service, Storage as a Service, and more. This syndrome of making 'Product as a Service' seems limitless. It certainly lifts the services to another Level. Such a hyper-syndrome also applies to the production and services that indirectly utilizes the IT.

The 4th Service Industrial Revolution was introduced in the previous extra UU 2017.juni.23. "The association to this blog is the IR4 solution 'Transportation as a Service' (TaaS) and 'Mobility-as-a-Service' (MaaS). The concept makes a shift from personally owned transportation to mobility solutions as a service. It combines transportation services of public and private providers based on the travel needs. Users can pay per trip or a monthly fee for persons or goods. There are numerous innovative new mobility service providers involving ride-sharing, e-hailing, bike-sharing, car-sharing and 'pop-up' buses. MaaS will escalate since self-driving cars are expected to become cheaper. There are multiple modes of transport for seamless trip chains, with bookings and payments managed collectively for all parts of the transport. Travel-planning typically show several transport combinations so the user can choose based on cost, time, and convenience. It is expected that apps will work user friendly in most cities and nations." A well-known TaaS is the service provider Über that competes with traditional Taxi service providers. However, true TaaS and MaaS have no limits in vessels or locations. True TaaS and MaaS provides all options and variations for traveling from A to B.

Furthermore, the fundamentals of the IR4 was described in UU 2017.mai.19: "The Fourth Industrial Revolution builds on the Digital Revolution, representing new ways in which technology becomes embedded within societies and even the human body. The Fourth Industrial Revolution is marked by emerging technology breakthroughs in a number of fields, including robotics, artificial intelligence, nanotechnology, biotechnology, The Internet of Things, 3D printing and autonomous vehicles. The technologies have great potential to continue to connect billions more people to the web, drastically improve the efficiency of business and organizations and help regenerate the natural environment through better asset management." All the new IR4 Hyper-Services will most certainly concern much more than innovative ways of transport, communication and production.

Still, some fundamental understanding of the 'quality of products and services', is necessary in order to understand the next levels of IR4 Hyper-Services. This was in-depth focused in several earlier blogs. Here are some bullet points taken from UU 2016.aug.26 to support that theoretical fundament:

- "The terms 'products' and 'services' are fundamental for understanding of the concept of quality. Descriptions of products and services are abstract and meaningless without any qualitative characteristics. Therefore, it is vital to use the globally recognized definition of quality (ISO 8402-1986). It says: "Quality (is) the totality of features and characteristics of a product or service that bears its ability to satisfy stated or implied needs". This is simply common sense put in system. Anyone can understand that. However, defining 'stated needs' and 'implied needs', and properties on products and services can be comprehensive and challenging, but quite manageable with some experience."
- "Any civilized society is dependent on qualitative products and services. The terms of quality are often misused though, like a use of the term 'service' implies some kind of positive quality." Furthermore, "Immaterial and material products have very different qualitative properties. Services can be provided by others or simply as a self-service, which has very different legal perspectives." Software, music, literature, movies etc. are immaterial products, and not services.
- "The main task of the public sector is to provides services to the citizens and the society. Therefore, wrong perception of service-qualities in the Executive Powers are fatal. Public servants and politicians need to understand what quality on services for health, transport, education really is."
- "Self-services is a democratic solution in the sense that the citizens are provided the means necessary to service their needs themselves. The public Executive powers are obliged by law to provide sufficient infrastructure, information, resources etc. The faith that the citizens can and will service themselves, is now evident by looking at services concerning banking, internet-trade, transport, self-studies, social networks etc. The potentials for public self-services seems unlimited, - if the resources are made available."
- "Products and services can be categorized in order to figure out what politics are constructive. Such a topology can differ between 'necessary' and 'tradeable' – or not. Then, it is easy to determine whether it should to be public or not public. For example, there should not be private monopoly on water and there should not be permanent collective homes in a democracy. Some products and services require markets for exchange, while some 'market failures' are because they cannot be priced and traded. On the other hand, there are 'public failures'; like that financing by 'forced collection' makes discontent

and resistance in the population. Furthermore, public spending is less efficient since human nature tends to feel less responsible for others' resources than their own."

- "Products and Services should therefore be divided into the four categories; 1. Collective/necessary is a Public responsibility, 2. Collective/unnecessary – are Public regulated and partial responsible, 3) Trade/necessary – is Public Controlled Market, 4) Trade/unnecessary – Commercial market for anyone. For example, categories can be; air/water=1, police=1, food=4, home=4, sports-arena=3, subway=3, bridges=1,2,3, roads=1,2,3,4. Some public products and services should get a 'flying start' by public subsidies and protected dominance in the market. When the infrastructure is constructed and market mature, the products can be moved from category 1) 'public responsibility' to categories like 2), 3), and 4), - as for telecom, mass media, education and railroads.
- However, such categorizations are simplified, because the differences of the phases of building, operations and maintenance for public infrastructure. Infrastructures are collective and by properties and the tasks has to be the public sectors responsibilities. On the other side, it can be rational to engage commercial enterprises in competition for construction, operations and maintenance."
- "There are many kinds of infrastructures (IS) in any society. For example, there are IS for planes, bridges, broadband, canals, pools, electricity, oil, energy, waste, hospitals, lighthouses, dams, parks, ports, mass transport, public sector and public spaces."

Public hyper-services are also based on qualities of products and services according to the ISO definition and the regulations of the EU Internal Market. (See UU 2017.juni.09.) Therefore, a main challenge for the public sectors is to innovate the infrastructure services according to the concepts of IaaS, PaaS, SaaS, SECaaS, as well as the other XaaS. Public services that could and should innovate as IR4 hyper-services involves infrastructures for; Energy aaS, Transport aaS, Emergency aaS, Security aaS, Police aaS, Defense aaS, Finance aaS, Communication aaS, Education aaS, Healthcare aaS, Welfare aaS, Subsidies aaS, Jurisdiction aaS, Governance aaS, Citizenship aaS, Broadcast aaS, Information aaS, Housing aaS, Food aaS, Waste management aaS, Water supply aaS etc.

How-to have public servants implement high-qualitative public hyper-services? Now, that is a major struggle that is already started and will go on for the next decades. Yet, the greatest cold-war casualties, the public sector, is made dysfunctional unable to heal itself (UU 2017.juni.16). 'The Frexit contra-revolution' was talked through in the previous UU 2017.juni.23, where the new regime certainly takes the challenges. However, so-called investment scandals for innovations in the public sector are due to public servants' mismanagements, and even organized crimes. Some are made bound to outdated hardware junkyards, believing they cannot be free of the extreme cost-inefficiency. Consequently, the money for innovative re-investments are wasted. Methods for healing the dysfunctionalized public sectors were talked through in UU 2017.juni.16.

The cold-war cultures of IR3 made public services oligarchic and highly corrupted. Therefore, the 'western' LEJD powers (Legal, Executive, Juridical & Democratic) need to systematically and determined enter to win the rivalries, in order to regain control of their market of public services. The public sectors should embrace, utilize and develop hyper-services by IR4 means. Therefore, necessary innovations of public services must go through processes similar to IT in this century, independent of those political warzones. The cold-war must end in the public sectors too. The IR4 provides the means and can be done with technocratic 'rule by law' and realization of the P5GO (the 5th Pyramid Game Over).

The synth pop group Orchestral Manoeuvres in the Dark formed in the late '70s by Paul Humphreys and Andy McCluskey. They were inspired by Brian Eno and Kraftwerk. A vocal on bass and one on synth was an unusual concept for a band. They released its first single 'Electricity' and were able to built a studio, which allowed them to record on four-track with four musicians. The Top Ten single 'Enola Gay' made a breakthrough. The band's albums 'Architecture & Morality', 'Dazzle Ships' and 'Junk Culture' found the band experimenting with its sound, resulting in several U.K. hit singles. Though, 'The Pacific Age' was popular only in America. Shortly after its release, only McCluskey continued with the band. OMD released 'Liberator' in 1993, and had a full-blown reunion and touring with a full-album performance of 'Architecture & Morality', followed up with the album 'History of Modern'.

The association to this blog is the perceptions and reactions to the IR1 technology 'Telegraph', as it was for the IR2 Telephone and IR3 Computer. Now such instinctive barriers are for the 3D VR too.

Vanessa Paradis - Joe Le Taxi

2017.juni.23

Ukens Utvalgte

'The Frexit contra-revolution' is the 6th issue in this P5GO sub-theme. The attempted anti-EU Coup d' Etat failed and backfired. It caused an absolute pro-EU regime. The brand-new French regime is like an entrepreneurial project-organization for a total Constitutional make-over. The goals are to re-functionalize the 5th Republic, to innovate France to this 4th Industrial & Social Revolutions (IR4 & SR4) and to fully integrate France and the European Union. In order to do so, the Government will acquire bureaucratic powers from the Parliament by a so- so-called 'ordonnances'. They can even declare Martial law, if considered necessary. In relation to this blog theme, 'The 5th Pyramid', the traditional definitions of CdE (Coup d' Etat) are challenged. Therefore, for the arguments sake, after an introduction and before some concluding remarks, - this blog provides some elaborations on the theories, history and realities for this reversed Frexit.

The new French regime seems to be in alignment with the introduction to the previous blog. "Those (cold-war) bureaucratic systems are unfixable in their current states, and evidently unable to heal themselves. The public sectors have to be re-designed and re-build completely, in order to meet this century's

qualitative requirements and needs. The dysfunctionalized public sectors is a main reason why the 'Western' civilizations do not reach their intentions and goals, but rather goes through self-destructive crisis. Still, this can be fixed in a decade, if the opportunities are handled well." France, and Paris in particular, will go through the innovations of the IR4 and SR4. In this blog series, it is related to the so-called 5th Pyramid Game Over (P5GO). (UU 2017.juni.16)

Is there actually a French revolution going on? Maybe, - the President announced that to the campaign 'La République En Marche!' and his book 'Revolution'. First of all, the party did not even exist two years ago and did not even have representatives in the Parliament. Its representatives are rather from the non-public sectors and the politics are rather like some European entrepreneurship than parliamentary rivals. The traditional parties of the cold-war period are practically whipped out of the parliament. Rather than a political party, 'La République En Marche!' is a brand-new project organization that completely dominates the presidency, the government and the parliament. The government will probably acquire some bureaucratic powers from the parliament by a so-called ordonnance. Surely France found a cure against the parliamentarian 'Acquired Immunodeficiency Syndrome'. The system turned the nation from anti-EU to pro-EU. With this, France will execute the policies in this eve of the 4th Industrial & Social Revolution. There should be no doubt that France will utilize it to the fullest extent with a main focus on the Euro and infrastructure. In brief, revolutions do not have to be violent or dramatic. The IR4 & SR4 can be executed as innovative projects at national scale.

However, although won by democratic means, the likely outcomes of this French revolution are yet too early to predict. The simplified categorization of CdE (UU 2017.jan.27) is here elaborated from Wikipedia. Still, the revolution is not a CdE, but rather a preventive contra-CdE. "A coup d'état, literally 'hit of state', putsch or overthrow, is the illegal and open annexation of a state by elites within the state apparatus. Three types of CdE are identified as: 1) Breakthrough coups, 2) Arbiter coups; and Veto coups." It is considered successful when power is held for at least seven days. A 2016 study categorizes coups into four possible outcomes; 1) Failed coup. 2) No regime change. Such as when a leader is illegally shuffled out of power without changing the identity of the group in power or the rules for governing. 3) Replacement of incumbent dictatorship with another. 4) Ouster of the dictatorship followed by democratization. The Brexit, Dexit, Nexit, Grexit are Veto CdE with no regime changes." The 'La République En Marche! Revolution' can develop towards a CdE of category 4, - a replacement of the dysfunctional LEJ followed by democratization (D). (LEJD: Legal, Executive, Judicial and Democratic powers.)

Some brief background information to the new actors of this French 5D revolution is taken from Wikipedia.

- The political party 'La République En Marche! (The Republic Forward!) is centrist and liberal. It was founded in 2016 by Emmanuel Macron. The party runs by candidates of the 2017 legislative elections, including members of the Democratic Movement, dissidents from the Socialist Party, the Republicans and minor parties. It won an overwhelming majority, becoming the country's largest party. Macron considers En Marche! to be a progressive movement.
- Emmanuel Jean-Michel Frédéric Macron is a former Minister of Economy, Industry and Digital Affairs and investment banker. The president is also an ex officio co-prince of Andorra. He studied philosophy at Paris Nanterre University, completed a Master's of Public Affairs at Sciences Po. He worked as an Inspector of Finances, then became an investment banker at Rothschild & Cie Banque. Macron was a member of the Socialist Party for 3 years. He was appointed Minister of Economy, Industry and Digital Affairs, where he pushed through business-friendly reforms. Macron became the youngest President in the history of France. He appointed mayor Édouard Philippe to be Prime Minister.
- 577 members were elected to the 15th National Assembly of the French 5th Republic. The changes of seats in the Parliament were; La République En Marche! (REM) 0 -> 350; Republicans (LR) 229 -> 136; Socialist Party (PS) 331 -> 45; National Front (FN) 2 -> 8; la France insoumise (FI) 0 -> 17; French Communist Party (PCF) 7 -> 10; (and the rest got 11 seats). REM have 60% of the seats in the Parliament and a clear majority. However, REM won mostly because the other parties lost their supporters. Merely 44% voted to the final parliamentary election.
- Intriguingly, Andorra might be an influence on Macron. It is a landlocked microstate lying in the Pyrenees mountains between France and Spain. It was created under a charter in 988 and the present

principality was formed in 1278. Andorra is the sixth-smallest nation in Europe. It is not a member of the European Union, but has the Euro as the official currency. The Bishop of Urgell (Joan Enric Vives Sicília) and the President of France (Emmanuel Macron) serve as Andorra's Co-Princes, following the transfer of the Count of Foix's claims to the Crown of France and, thence, to the President of the French Republic. Even though the co-prince no longer does the ritual by paying 6 chickens, 6 cheeses and 6 hams to the Spanish bishop, there might be other middle ages symbolism for the French co-prince at the age of 39 and elected on 18th June. Spain might also be influenced for more qualitative LEJD powers. The spirit and the logic of the 5th republic is settling in France with 'La République En Marche'. It is a union of the royal and republican form of parliamentarism. There were several changes when de Gaulle and his 5th republic seized the power; the colonialization was reduced; the economy improved; and the culture was re-vitalized. However, the cold-war block rivalries in the parliament made the 5th republic dysfunctional. That is a main reason for the present state of France.

There are ancient relations to consider for the superior power of the Throne, State and Temple. Some are even strongly related to Norden. Although not main issues here, such have been focused in previous blogs. (UU 2017.mai.05)

- "Ingeborg Valdemardatter af Novgorod (1175–1236) became the queen of France, but was locked away. She was a daughter of Valdemar I of Denmark and Sofia of Minsk. She was renamed Isambour and marriage to Philip II of France after the death his first wife Isabelle of Hainaut/Belgium. However, the king left his queen after the wedding night and imprisoned her. A French council declared the marriage void, but the Dane delegation convinced Pope Celestine III otherwise. Philip re-married with Agnes of Merania, a German heiress, even though the pope prohibited that. King Philip motives for the marriages were obviously money, royal alliances and military support. (The name Ingeborg relates to the goddess Ing (Frej) and borg, i.e. protection, castle. The name Valdemar is a Germanized version of Russian Slavonic name Vladimir. It means 'renowned ruler'. They were probably Russian orthodox and not Catholics.)"
- "There are also similarities to the situation of the 13th century's Dane Queen in France and the present 'King of Denmark'. The French-born Henri de Laborde de Monpezat was married to the crown-princess Margrethe. When she became queen of Denmark, Henrik was denied the title 'king'. He lost the public respect and was constantly humiliated by the mass-media. This is apparently a psychosocial immature Game of revenge for the French intrigues related to Queen Isambour (Ingeborg Valdemardatter) - 800 earlier. Similar classic Games are Jante, TUD (The Ugly Duckling) and TLM (Two Little Maids). (Anyways, this blog is not about such deliberate post-war dysfunctionalities of the European Thrones. Such issues can be read about in UU 2017.april.07.)"

The superior powers of French Throne, State and Temple are rather integrated and complex, even though the Republican State dominates now. An example is that the president in France also became a co-prince of Andorra, along with a bishop.

Some previous French revolutions became epic. The French Napoleon made a Coup d'Etat in a rather peaceful manner. He even declared himself an emperor, without violence, when the pope refused to do so. However, the warfare towards Europe was catastrophic. That 5D event of European history involved and influenced Norden significantly too, even for the present conditions. The following paragraphs from UU 2014.okt.31 provide some brief summaries about this.

- "In brief, the results of the napoleon wars were basically a grand slaughter of European royalists in the military, - especially those related to the French Throne. There is therefore reason to think that the result might have been the overall goal in that Game." "The consequences for Denmark were fatal when they tried to stay neutral till the end. They previously lost the old relation to Danzig (today's Gdansk) when Napoleon 'liberated' it. However, most notably was the French-Russian diplomatic relation and their demand to choose a side 'for us or against us'. England reacted when Denmark had to choose France, because of hostile relations to Germany and Holstein. The English feared that the Danish fleet was going to be used by Napoleon in an invasion of Ireland and then attack England from behind (like the vikings a thousand years earlier). The English fleet bombed the capital Copenhagen and captured the naval fleet in 1807. That was the beginning of Denmark's fall and Norway's rise. Sweden,

that somehow opposed Russia and allied with France, landed anyhow on the victorious side.” (UU 2014.mai.16)

- “Nevertheless, the war was not settled yet. Russia took Finland from Sweden and Russia was considered a victim since Moscow was burned to the ground in 1812. Norway was considered a suitable compensation as a spoil of wars. However, Norway made its own sovereign constitution with English and German support and was recognized in Kiel. Norway was liberated and avoided submission of Russia or Sweden. The treaty was signed by Denmark, England and Sweden at the congress of Vienna in 1814 (the new European confederation). However, Denmark got the Throne and Sweden the Foreign policies. Even with that, whatever futile and pathetic, - Napoleon returned in 1815 to undo the losses, but merely met his ‘Waterloo’.” UU 2014.mai.16. That rises some images of ‘jack in the box’. In social-psychological sense, Napoleon was probably not very influential, but rather highly influenced. In relation to Game theories, it is obvious that there was a global 4th degree CdE Game going on. It might even be a sub-sequence of the lost rivalries in US, which constituted half a century earlier.” (UU 2013.juni.14.)
- “Napoleon political relations are mysterious. His lifeguard was an Islamic slave. The catholic Pope refused to crown Napoleon as emperor. Therefore, it is legitimate to ask if Napoleon was tricked into Moscow to be crowned a new Tsar by the Russian orthodox. He surely was close to the real Tsar in the Winter Palace (See the video in extra UU2). Anyways, in relation to Pyramid Underworld Games, the gimmicks are; ‘honesty is for suckers & there is born one every minute’. Napoleon seems to represents a 4th Game degree ‘sucker’, where ‘one is born every century’. In other words, the remote controlled cascade of CdE in European Thrones was a finally formalized concept for the 1st Pyramid Games and the 4 subsequent ones.” Another 5D historical question could be: What did really happen to all the French soldiers trapped beyond Belarus?

No matter how focused the ‘En March’ project is on ‘the republic’, - this 5D event in the European development will highly involve the Thrones and Temples as well as the States. The psychosocial model of Drive, Will and Belief are relevant for such analysis. Here is a brief summary of the models involved (UU 2017.april.07). “The combined 5D & 3[^]3 model was explained in the previous 7+12 EU related blogs (UU 2016.sept.23) “All the 19 blogs also relate to the theories presented in the introduction blog of UU 2016.mai.13. They are explained in UU 2014.sept.12 as; a consistent definition of “LifeQuality; a 3D ethics model, a 3D ethical system of GCR (Good/Constructive/Right); a 3D political model relating to the constitutional LEJ powers (Legal/Executive/Juridical); a 3[^]3 (3*3*3) psychosocial model of Drive, Will and Belief; an extended psychosocial Game models; a 5D scenario model for past as well as future (UU 2014.sept.12); and extended terminology by extended use of suffixes. (UU 2015.juni.12).”

Still, the historic French-Russian relations are more obvious. Macron and Putin had a joint press conference in celebrating that Tsar Pyotr (Peter) declared Russia an empire 300 years ago and made plans in France. The conference was not for the massive warfare towards Norden though, but rather an opportunity to settle some common interests and differences for this century. Most of the present conflicts are aftermaths to the mutual paranoid SU vs US cold-war crimes. Putin did also indirectly get some clear warnings against Russian mass-psychotic propaganda and national computer manipulations. Now, National Front pays dearly for the dilutions and corruptions. The Russian creditors will certainly figure out some way to collect, even though the debtor is broke. Anyways, the war against ‘the West’ is a recurring issue in this 6 years of blogging. Here are a few related pinpoints:

- “The intention of this blog is to set focus on some cyber issues in the eve of this 4th Industrial Revolution. In order to do so, several previous summaries are quoted about the abuse of technocratic dysfunctionalities. Focus is mainly set on; The resent removal of the US FBI Head; This 5th Pyramid Game and its relation to the 3rd International’s 21 Conditions; The Quality of LEJ (Legal, Executive and Judicial Parliamentary Powers) and; The radicalizations of the IT industries. This is vital now, since the world war of secret services became official in 2017.1.1.” (UU 2017.mai.12)
- “Most fortunately, the Western nations have entered the phase of perceiving such realities, - after the first phase of shocks and denials of their dysfunctional state. Now, it is time to deal with the realities, even though preventive maintenance might hurt some. Still, one major technocratic fact has been denied too long; - that ‘Big Red’ is not ‘Big Blue’, - but quite the contrary. Such mass-psychotic dilution

and fatal consequences have been pinpointed for years, yet still in a denial phase. Now the traumas in the Western US, EU and NATO Constitutions are real and evident.”

- “However, true Parliamentary authorities must differ between willing and forced PROSA workers, when investigating such PROSA crimes. In fact, criminal law is stricter to public servants than to civilians. Yet, public servants are rarely sentenced for their crimes even though the scandals of low quality services and expenditures are far too high. It is proof though, of too much fraud and corruption, - like in mafia-dominated markets (UU 2015.okt.23). Most public laborers are forced by violent mafia organizations that are related to the so-called ‘Red Mafia’ (see video link). The threats of Underworld Games were talked through in the previous UU 2016.juli.15 ‘P5GO03 – PROSA Pension’. Although any member of a high treasonous organization can be guilty by association, there are exceptions, - like for civil criminal relation, - by supporting the true Parliamentary system to improve the LEJD Quality by unclocking the criminal ‘parallel organizational apparatus’ (C3).” (UU 2016.juli.22)
- “RAF and PROSA were mentioned as ‘bullet points’ in the start of this UU theme ‘Charlie’ (UU 2015.jan.09), saying: “Ulterior RAFs and alike exist in most nations and have variations like BRAF and GRAF.” The hypothesis of the present multiple RAFs is talk through several times and accumulated in UU 2014.juni.13. In brief, ‘Red Army Factions’, despite their extreme ulteriority, were disclosed in several European nations and probably exists in all. A RAF-dnk cell called ‘Blekingegadebanden’ was named after the disclosure of a weapon depot in Copenhagen. Besides, the hypothesis of RAF development is the pre-RAF as BRAF (brown-red), formed from the ww2 Stalin-Hitler alliance and postwar-Games. This century’s RAF has become GRAF (green-red) where green as the color of Islam and do not symbolize of nature at all. Furthermore, another bullet point said; “Pro-Russian Oligarch, Separatists and Autonomes (PROSA) do not merely operate in Ukraine.” This is based on present media observations on how the neo-SU CdE Games are played, where there are hierarchies of RAF cells organized, yet manically denied like in ‘Underworld’ Games of mafia bosses. The executioner in Oslo, Paris and Copenhagen are displayed as Autonomes, merely to disguise and protect the massively organized crimes behind.” (UU 2015.feb.20)
- “Less known, but more important, are the relations indicated to the Carlos the Jackal. As mentioned in UU 2015.feb.20 concerning the GRAF attack at ‘Krudttønden’ in Copenhagen (where the French ambassador was attacked): “Historically, in 1968, Carlos opted for the Patrice Lumumba University in Moscow that was reputed as a notorious hotbed for recruiting foreign communists to the Soviet Union. He was expelled from the university in 1970 by disciplinary reasons, though. Then he travelled to Beirut and Lebanon, where he volunteered for the PFLP (Popular Front for the Liberation of Palestine) in 1970 and tried to establish his own organization with Syrians, Lebanese, and (East-) Germans. Carlos was also connected to the STASI that provided him with an office and safe houses in East Berlin, a support staff of 75, a serviced car, and allowed him to carry a pistol in public. The STASI files also show links to the KGB (today's FSB). There is no public information if Carlos and Putin had relations when they both were with the KGB in East Germany. However, Carlos the Jackal was most certainly closely related to RAF-dnk.” (UU 2014.nov.21.) Anyways, the Jackal’s main objective was to train Arabs in Underworld urban warfare like any sociopathic attacks from pillaging and terror to mass-murder.” (UU 2016.juni.17)
- “The Jackal is sentenced to 2 times Lifetime in prison in Paris. This alpha patriarch of 4th degree Underworld Games is a global magnet for any GRAF. The imprisonment of the Jackal bursts PROSA mass-psychosis and promotes recruiting for the 5th Pyramid hardcore Game players. Remote controlled anarchists are therefore ordered to execute a two-fold actions, - 1 hit the prey nation for the GRAF, 2 personal reward like massacre on defenseless groups like Jews, women, children (AUF) etc.”
- “The Nexit, the ‘Coup d’ Etat’ Game, failed. Netherland’s parliament proved itself immune and democratic. The Nexit Game had one single purpose, - to divide Holland from its union of European nations, - leaving it an easy prey. The anti-western campaign-script was Nashi propaganda (Наши/Ours). The European authorities are now very aware of such Pyramid Games of emocratic and technocratic match-fixing. Now, there are proper anti-theses to fight such international electoral crimes. The unclocking of such a treasonous Game-concept applies to the upcoming Texit, Frexit and Gexit the previous Brexit, Dexit, Grexit, Uexit, Amexit, as well as the attempted Spexit, Itexit and Auxit. In the spirit of the Nexit alpha-dog, this blog is adapted to the level of that kind of ethics.” (UU 2017.mars.24)

Merely 8% of the French workers is in labor unions. Yet, merely 2% is sufficient to operate some PROSA RAF organizations. Such are positioned tactically in the infrastructures. They can relatively easy cause major damages to the France by disabling planes, trains, busses, ports, etc. This is Jackal RAF guerilla tactic, where sociopathic destruction and terror are used as negotiation means. Why Paris? Since the alpha-Jackal is imprisoned in Paris, the under-dogs concentrate their actions there.

Surely, there is a true purpose to restore the original intentions of the 5th Republic with this entrepreneurial project called 'La République En Marche'. This time, teamwork and integration with Europe is a foundation. The Legislative and Executive powers were acquired. However, the cold-war Judicial power is still as powerful and corrupt as in the cold-war. No nation can impose 'rule by law' and fight a 'parallel organizational apparatuses' in the public sector, if the Judicial powers are corrupted by international criminal organizations at 'high treasonous' level. Crimes will continue until the para-police and para-courts cannot guarantee protection anymore.

An IR4-way to view a solution for proper Quality of LEJD, lies in the previously comparison of the Legislative power with a computers' Operative Systems (UU 2017.mai.12). The analogue goes for computer bugs, computer viruses and computer parasites as well. Therefore, an efficient and realistic quality assurance for the Judicial powers will be to reconstruct and innovate the whole Judicial powers by means of virtual IT and automation. Besides, a success in healing the French Legislative power is particular important for the rest of the EU nations, since France is a dominant Juridical power for all of them. Still, the infectious bureaucratic system is pandemic and has been so throughout the cold-war. Such projects must involve all of the Quality of LEJD. The IR4 & SR4 are the waves that can be utilized progressively for this and provide the power to surf it through.

In conclusion, the major 5D events to come is not that unpredictable anymore, - when using relevant models for analysis.

Vanessa Paradis was discovered on the TV show L'École des fans in 1980. Her first single was not a hit, but paved the way for the song 'Joe le Taxi'. She was only 14 years old. It became a #1 in France for 14 weeks and reached #3 in the UK, which is highly unusually for a song in French. Later, she worked with her boyfriend Lenny Kravitz in the US 192. Since 1998, Paradis has been in a relationship with the Johnny Depp. They are not married, but have a daughter, Lily-Rose Melody Depp, and a son, John Christopher 'Jack'" Depp III.

The association to this blog is the IR4 solution 'Transportation as a Service' (TaaS) and 'Mobility-as-a-Service' (MaaS). The concept makes a shift from personally owned transportation to mobility solutions as a service. It combines transportation services of public and private providers based on the travel needs. Users can pay per trip or a monthly fee for persons or goods. There are numerous innovative new mobility service providers involving ride-sharing, e-hailing, bike-sharing, car-sharing and 'pop-up' buses. MaaS will escalate since self-driving cars are expected to become cheaper. There are multiple modes of transport for seamless trip chains, with bookings and payments managed collectively for all parts of the transport. Travel-planning typically show several transport combinations so the user can choose based on cost, time, and convenience. It is expected that apps will work user friendly in most cities and nations. Transportation as a Service

The Dukes Of Stratosphear - The Mole From The Ministry

2017.juni.16

Ukens Utvalgte

'Automated public services' is the 4th issue in this sub-theme of P5GO. The bureaucracies of the public sectors are the most obvious to automate in this ongoing 4th Industrial Revolution (IR4). It is criticized for being over-dimensioned, outdated, corrupted and dysfunctional. It is even a battleground for destructive political Games, - mostly due to the mutual paranoid cold wars of US vs SU. Those bureaucratic systems are unfixable in their current states, and evidently unable to heal themselves. The public sectors have to be re-designed and re-build completely, in order to meet this century's qualitative requirements and needs. The dysfunctionalized public sectors is a main reason why the 'Western' civilizations do not reach their intentions and goals, but rather goes through self-destructive crisis. Still, this can be fixed in a decade, if the opportunities are handled well. Therefore, for the arguments sake, after an introduction and before some concluding remarks, - this blog provides some rather harsh examples and arguments concerning the present legal systems, tax authorities, education, health and labor oligarchs.

Such a total re-structuring of the public sectors might seem impossible, when mentally bound to the physical state of the previous century. Yet, proprietarian hardware does not restrict IT anymore. This century's IT is built with means of virtual reality and rapidly develops towards mixed realities. Just imagine, if the public sector was built in this century from scratch - and was not bound to the previous century of World Wars. How would the design be? That question is as complex as it is important to hold on to - in this eve of this 4th industrial revolution. There might be as many answers as there are influential politicians, - which are far too many. Yet, the infrastructure to the public sectors should be made with the IKT of this century, - not like the telegraph networks. The working places will not be in gigantic, cubic buildings, - but in IT Clouds. It will rather be designed as wireless and multilingual, than local pavements and corridors. Visualizations are even heading from 2D to 3D. The present bureaucracies are simply not physical at all. The IR4 bureaucracies are rather technocratic than bureaucratic. Yet most important, they will serve their societies and citizens better, - instead of some corrupted oligarchs in-between.

Some visions on how the citizens services should be, is translated from UU 2015.juni.05. "The legally obligated 'state aid of social character' (TEU article 107), can easily be realized without technical obstacles. The obstacles are rather due to political corruptions, though. This was a focus for Norway in UU 2013.okt.04 and for Denmark in (this) UU 2015.juni.05. "Such Financial state aid services are like 'basic income' and are not more advanced than the IT systems in banks, insurance companies and other markets for trade. The public sectors just need some registers of what money the citizens can use on which providers of services for health, transport, education, pension etc. The money does not even need to be directed to the citizens' bank accounts, as long as the citizens can select the services and the providers. Such financial systems can even use virtual money and Block-Chains technology (UU 2017.mai.26). Still, transactions can be done directly to the citizens' bank account for household expenditures. However, such systems require a public user account, similar to the banks' customers' accounts, in order to execute the state aid legally. Such solutions are elegantly realized in some nations and should be made in all the European nations. Still, the main obstacles are due to anti-democratic and anti-European crimes in the public sectors."

The IR4 was described in UU 2017.mai.19, like this: "The Fourth Industrial Revolution is marked by emerging technology breakthroughs in a number of fields, including robotics, artificial intelligence, nanotechnology, biotechnology, The Internet of Things, 3D printing and autonomous vehicles. the technologies have great potential to continue to connect billions more people to the web, drastically improve the efficiency of business and organizations and help regenerate the natural environment through better asset management." (Wikipedia)

Bureaucratic innovations are talked through in several blogs concerning politics and technologies. Some related quotes from UU 2017.mai.12 are:

- "(The bureaucracies') Laws are simply any society's operating system (OS). When realizing that the technocratic state-machine is like a computer, - it is obvious that; it has many faults due to decay, is outdated and manipulated; that there are critical upgrades and fixes that can be deployed immediately; and that should have been done decades ago to reduce crimes. Knowing the warlike Games of IT industries in the public sectors, and the unsound organizational mentality behind, - it is obvious that the very same Games are played in all of LEJ powers (Legal, Executive and Judicial Parliamentary). Much of the delays, incorrect and terminated ratifications of Parliamentary Laws are obviously not due to technical errors, - but to PROSA Technocrats. It is all about protecting PROSA crimes and criminals, - as stated in the 21 Conditions of the 3rd International. The solution is simply to, - Rule by Law." (PROSA; Pro-Russian Oligarch, Separatist and Anarchists.) (See UU 2016.juli.08 to UU 2016.aug.19)
- "The Bureaucracy need innovation by technocracy. It is not that different from upgrading any IT system to virtual solutions. There will be Return of Investments (RoI) in 2-3 years, - due to the savings from bounding maintenance costs of ineffective, expensive and faulty IT systems. Knowing very well that the cold war in the public sector did double the numbers of employee, as para-organizations, - it is about time to free all the resources from those cold war bondages. However, most important, even though Big Blue was pro-NATO once, - Big Red is now anti-Western and anti-democratic. There is no way that loyal public servants can ignore that vast security threats that the Big Red makes. Therefore, build new bureaucracies with today's technologies and migrate loyal public servants to the 'new buildings'."

Freeing the large bureaucratic buildings in central cities, does in itself provide important opportunities of modernizing those cities by IR4 means. The total make-over of factories of the IR2 to modern facilities is inspirational for IR4 innovation of cities, - when the massive buildings of the public sectors are no longer needed for that purpose. (This is not an issue in this blog, but future blogs.)

Such systematically innovations of the bureaucracies need serious analysis, models and project plans. The business models in the previous UU 2017.juni.09 are as relevant for the public sectors as the non-public sectors.

- "The SWOT model (Strength, Weakness, Opportunities & Threats) is well-known for analysis of one's own enterprise and the Rivals in the Market. It is often used for business- and cost-benefit analysis.

However, one should note that the CBA (Cost-Benefit Analysis) can be made for both measurable and non-measurable values. Yet, such a 2D projection complicates a single-sided basis for decisions that economists prefer. Also, the analysis should include in-depth risk analysis, that includes even more uncertainties in the decision document.”

- “The PEST-analysis provides further in-depth to the OT (Opportunity-Threats) factors of the SWOT analysis. PEST adds on; Political, Economic, Social and Technological factors. It is especially important for any analysis of products and services related to the public sectors, since the Political and Social factors can be corruptive. A simple SWOT analysis uncovers merely half the truth. The PEST analysis is highly relevant for political decisions too, - and makes the CBA more abstract and complicated. For example, the PEST analysis includes factors like ‘custom satisfaction’ that can be indicated with ‘Smilys’. Ironically, some economics prefers the negative abbreviation PEST rather than the innovative STEP. Yet, it is highly recommendable for IR4 Enterprises to focus on STEP for any innovation. Moreover, important documents for decisions, like politicalized budgets, are interesting for PEST analysis, Transaction Analysis (TA) and Games analysis - like the P5GO. If not, related politicized Games and the outcomes can be too confusing.”
- “All these innovations are per definition Projects. These projects must be planned, managed and executed professionally. A complete introduction of qualitative projects management models, like PRINCE2, is required. All these catastrophic public projects, (like the Norwegian Mongstad and Dane SKAT), proves that the projects are out of control. There is only one explanation to this, - the projects are highly corrupted and there are powerful criminal organizations involved. A requirement for qualitative project management is that there is a business analysis that clearly describes the objectives, the scope, the price, the timetables, the resources and the qualities. The business foundation can be made by SWOT and STEP/PEST analysis and cost-benefit analysis etc. The projects must be managed as an organization with progress- and deviation-reports, in addition to formal acceptances of the projects phases. The planning also includes evaluations of the participants’ will and ability to make the projects succeed. PRINCE2 model can very well be combined with other more dynamic models like SCRUM, since work will be delegated to the executive teams. The governments, should not approve any project without proper business decision documents and project plans.” (UU 2013.dec.13)

Actually, according to penalty laws, it is a most serious criminal act by public servants, to approve public projects without qualitative analysis, plans and contracts.

The present IT investments in the public sectors are dominated by organized crimes. All the massive ‘IT scandals throughout the cold war are clear evidences that the criminal organizations are more powerful than the public sectors. Such organized international IT crimes have been talked through in several blogs. Dane Skat, is merely a symptom for the whole public sector, not merely in Denmark, but any nation in ‘the West’. The main reason is the Pyramid Games as described in this blog theme.

- The Dane SKAT (the Danish Customs and Tax Administration) is at an unrecoverable state after the Dexit, - where Denmark left the EU’s Europol and Eurojust. That Dexit is a warning to any European nations of what not do. The Dane parliamentary system have not been able to fight the massive corruption by international organized crime after leaving the European police and justice cooperation. Denmark have been swindled for billions of Euros for decades. Therefore, the government simply have decided to end their own Tax institutions - and will build a new.
- Here is a translation of an article about the termination of SKAT. “The Prime Minister says, ‘enough is enough’. The tolerance is now used up. Even the majority of citizens have lost their trust in SKAT. That is the reason why the government terminates the organization and makes several new ones in a completely different structure. The reason is due to the many and costly scandals that keeps on in SKAT. Quite recent crimes are; the billions ‘kroner’ that have been paid to international criminals; the dysfunctional IT system for tax payments; the IT scandals that cripples their economy and quality, the illegal evaluations of private properties; and the over-taxation of Dane citizens. Instead of a gigantic central institution with 26 fragmented divisions, there will be seven new decentralized divisions with clear responsibilities. The new system should reduce bureaucracy.”

The Dane tax culture might be hard to realize, when censoring its 500 years old culture. Therefore, here are some quotes touching that:

- “The ‘Panama Papers’ are obviously related to the plutocratic Underworld Games of the 5th Pyramid Game. It must be quite surprising for the US, that the Dane history and culture relates closely to the Virgin Islands in the Mexican Gulf, - and not as such a social-democratic utopia, as indicated in the US Democrats’ campaign. Essentially, Zealand (Copenhagen/Denmark) has a 500 years’ tradition as a Russian Vassal State. “Tax and Treasures are definitely major sources of powers for states, nations and empires. The Russian bondage of Demark for 500 years is definitely executed by taxation on most products, services, processes and citizens. ‘Follow the money’ has been a major statement by the capitalistic empire since the hand-over from the ‘Pirates of the 4th Crusade’ (UU 2016.feb.19).
- The Russian tax culture relates to all its CdE and might be related to the present ‘Panama Paper’ syndrome and the historical ‘Pirate’s Haven at the Virgin Islands’ (UU 2016.jan.29). Therefore, in order to promote Parliamentary Quality and prevent worst-case scenarios of the 5th Pyramid; - there has to be extra focus on cells of organized international crime, cloaked in the Dane Taxation institutions (SKAT), - not merely as organizational viruses and hackers, but manipulating parasites. (UU 2015.nov.06) These rather promote Games of pillaging, piracy and confiscation with abuse of Parliamentary powers, - which all are serious violations of the national Penalty law.” (UU 2016.juni.24). Dane SKAT (tax authority) also acts like this century’s ‘Pirate’s Haven’ for plutocratic piracy. Actually, SKAT procedures have been vital for international tax crimes since Christian IV and the Tax Haven ‘Kronborg’.” (UU 2017.feb.17)

The saying ‘follow the money’ indicates that the Tax bureaucracies are the most obvious place to investigate, prosecute and judge organized crimes towards any civilizations. It has to be pulled up with the root.

Automation of the health sector has already begun. The public health sector has obviously major potential in increased LifeQuality and public cost-efficiency. This issue has been focused in several blogs too, with the themes: How-to heal the health sector and Howto heal the Dane child-psychiatry. The tools mentioned in the TED talk would also be a useful in order to heal any public LEJ powers.” (UU 2015.nov.06, extra UU 2015.aug.28 and UU 2016.aug.05.)

- “Some brief points form the TED Talk (How do we heal medicine?) are: “The health services lack holistic visions and an organization based on LifeQuality (LQ). Doctors rather try to find symptoms that suit their competences than the patient’s real needs. The use of coordinated ‘check lists’ caused reduction of incorrect diagnosis, incorrect treatments, deaths and reduced costs by 1/3. The pharmacy industry manipulates the health personnel and clients by merely publishing positive test-results, - even when the negative ones are more.” (UU 2014.dec.19)
- (UU 2015.aug.28) “How to heal the Dane psychiatry? This sincere question rises after seeing the TED Talk ‘How do we heal medicine?’ The speaker pinpoints some problems, challenges and solutions for the health industry in general. That certainly applies to the Dane psychiatric industry too, - which seems to be trapped in its own rivalries of pre-Freudian obsessions and illusions. A collective organization can conceal, deceive and project, like resourceful psychotic clients can, - especially when it is autocratic, alienated and a major drug supplier.” “Moreover, as commonly known, - psychotic and neurotic narcotics, and hypnosis, can cause experiences similar to psychosis.” (UU 2014.aug.01) Unprofessional psychiatric diagnoses, mistaking drug-effects and hypnosis for psychosis, do cause faulty cures that can worsen the clients’ health.”
- (UU 2017.mai.05) “Evidently, Dane minors get illegal drugs and sports-dope that damage their central neural systems. Based on occult psychotic pedocrats, the Dane child psychiatry diagnose their drug-influenced behavior as psychosis and neurosis, - like it is the child’s own personality, - ‘their own freaky faults’. (Such faulty diagnosis are main reasons for their alienation, depressions and suicide attempts.) Next, the billion-dollar pharmacy industry get lifelong zombified minor clients that get addicted to expensive and damaging drugs. Such long-time mental rapes of minors’ minds must be amongst the worst thinkable kind of violation. (Also see UU 2016.spt.02, UU 2016.juni.24, UU 2015.aug.28, UU 2015.juli.03 and UU 2015.mars.27)”

Quite frankly, Dane child psychiatric institutions are seriously dysfunctional - and therefor harms Dane minors, - believing the opposite. The Dane child psychiatrists know very well, that the first critical phase to heal, is to get out of the state of denial and enter the state of acceptance of the realities. They should practice that on their own organization first, - in order to heal themselves and then hopefully others. So

here is a challenge: There is no reason to believe that Dane child psychiatry is any better than for example the Belarusian or North Korean. Please prove me wrong, - in a public discussion in democratic media.

The whole education system is based on the 200 years old Victorian bureaucratic model, when the UK needed to standardize and centralize the remote-controlled provinces of their global empire. The IT machines were humans – educated in bureaucracy. That was about the time of the 1st Industrial revolution (IR1). The bureaucratization of minors in folkschools is still based on that concept, - based on laws, obsessions and corruption. However, the IR3 and IR4 provides means to far better education systems. Here are some quotes from previous critical blogs that touch upon that:

- “The S-E/S-I phenomena (Superior-Ego/Superior-ID) is not limited to any particular class-room. It seemed to be a well-established pedocratic subculture extending several public services in the commune. Such relations between micro and macro levels of social-psychological cultures are hard to realize, simply because such Games are per definition ulterior. However, a common cultural ground can be that the well documented Gulag colonializations programs was about massive assimilation, - including the Nordic nations. The collective folkschool during the cold-war was certainly perfect for such objections, - and probably formed by the State bureaucracy for that.”
- “A further comment is in UU 2014.okt.17: “However, - (the extremist policies) failed on grown-ups in the universities so they targeted ‘the path of the least resistance’, - the ‘bourgeois’ (plebs’) children in the ‘folkschool’. As mentioned, - with 12 years’ experience from such cultures, the systematic pedocratic abuses stem obviously from the post-68 generation’s mass-psychopathic Drives. It includes skilled abuse of psychological pedocracy and psychiatric bureaucracy. Now they have become the oldest and most powerful generation in the system. The results have been very clear the past 12 years. Related issues to such sub-cultures in folkschool are criticized on general basis in UU 2014.juli.11 and UU 2014.aug.01.” (UU 2016.juni.24)
- “The blog UU 2014.dec.19 goes deep into the psychosocial murky sides of the pedocratic assimilation programs, ‘Gulag for Kids’, realized in the Nordic Folkeskolen (Folkschool/ Volksschule). It does pinpoint some fundamental aspects of Superior-Ego to Superior-ID assimilations.”

Also see the TED Talk ‘Ken Robinson: How to escape education's Death Valley’ – in the Extra UU.

The labor in the public sectors is of great concern in this blog theme about IR4. “Large enterprises fire masses of employees when automating the IR3 productions and services by IR4 means.” (UU 2017.mai.26) This is a main mantra related to the IRs. However, the bureaucracies of the public sectors are the most affected working places of all, due to central and decentral computer automations. Still, certain unions’ oligarchs will still abuse their powers at the cost of the workers, other citizens and the societies, - as usual. The parliamentary LEJ power need to be aware of their 3rd and 4th Pyramid Games in order to avoid those catastrophes in this 5th Pyramid Game. Here is some previous quote that touched upon the issues.

- “Furthermore, 2% of all employees are disloyal in the none-public sectors, - says a recognized thumb rule. (UU 2016.juni.24). The number is an uncertain average, though. Still, it is probably much higher in the Executive powers, because the public sector is a PROSA domain and therefor far less exposed to the Judicial parliamentary powers. Most employees in the public sector are forced into the 3rd Pyramid Labour Organization like LO, which counts for half the employees in the Nordic nations. Therefore, the 98% members in LO are bound by contract to treason against their own nations. Few members of LO realizes this sociopathic and criminal bondage, - and most who does and opposes that, are punished in Games like the Russian BOOFY (Beat your Own and Others will Fear You). Opposing citizens are considered, at the best, as “(C17) ... social-democratic' or 'socialist' parties that have betrayed the banner of the working class”. The ‘pitiless’ punishment is at the best minimized or removing of Pension and other welfare benefits, - leaving loyal citizens in ruin as an example for the rest.” (ref. The 21 conditions of the 3rd International.)
- “Still, the Game Over (GO) is rather simple, - also for the treasonous rewarding system ‘PROSA Pension’. Spot the PROSA (Pro-Russian Oligarch, Separatist and Anarchists) that are dedicated to the 21 treasonous conditions of the Internationals. Most are all someway related to LO unions, - the remote controlled Central. C12: “In the present epoch of acute civil war the communist party will only be able to fulfil its duty if it is organised in as centralist a manner as possible, if iron discipline reigns within it and if the party centre, sustained by the confidence of the party membership, is endowed with the

fullest rights and authority and the most far-reaching powers.” National Penalty laws should be used as warning to PROSA Pensioners. Ending such Games can be done by removing the Gain, exposing the ulterior of the Game, arrange counter-moves, change the Gimmick and/or disable the Game players. However, the massive corruption in Nordic public sector is evident and proof the LEJ Quality is seriously corrupted, - even some judges. These issues will be followed up in next PGO UUs.”

- “Any citizens exploited by PROSA organizations have now the opportunity for hyper-democratic expressions. Any PROSA pensioners have the opportunity to explain themselves, to confess and alert about illegal PROSA corruption, - even anonymous. Anyone can write down their experiences, opinions and will. Anyone can upload it to hyperspace as documents to relevant web-cites in ‘The Cloud’. Such ‘whistlers’ should not be punished, but rather protected and have their pensions and benefits revived for restart. International LEJ powers, and not merely national LEJ, should deal with the international criminal organizations.”

The SU vs US Cold Wars caused over-staffing of ‘western’ public sectors. That was a kind of ‘5th colonists’ tactic to position bureaucratic warriors in the prey nations. However, the cold war is over, and those should be released and retire. It might be as many as half the public sectors’ staff. However, societies need these workers for the IR4 innovations. It is even less costly to give full them wages to let go of the costs of useless bureaucratic working places. The forced labor of the 3rd international can finally become independent democratic citizens too. The only solution to temporary unemployment is Basic Income, not labor unions’ corrupted handouts.

No civilization can maintain the SU vs US cold war for long. The costs and decays will certainly cause a self-destructive CCD (Colony Collapse Disorder) in the long run. Half a century is far more than ‘a long run’. Therefore, the IR4 automation will cause major innovations in the public sector, as well as possibly reduce the number of employees to the half, - despite PROSA Oligarchs obsessions of the IR2 and IR3. This sub-theme ‘P5GO’ provide advices on howto minimize the destructive GdE (Games d’ Etat). Meanwhile, loyal public servants should realize that they face the same innovative challenges as the none-public sector. Such issues are focused in this sub-theme of blogs concerning IR4 in the P5GO. (from UU 2017.mai.19 ->) The future innovative potentials of the public sectors will be investigated further in the following blogs.

Finally, the European governments should rather consult their own EU Commission concerning the IR4 and their public sectors. Unfortunately, some own national bureaucracies are as trust-worthy as Dane SKAT in these matters.

‘The Dukes of Stratosphear’ was an English rock band formed in 1984. The Dukes were initially publicized by as a mysterious new act, modeled after psychedelic pop groups from the 1960s. However, they were actually a spin-off band by the famous band XTC that actually outsold their alter-ego band at that time. XTC were an English rock band emerged from the late 1970s punk and new wave explosions, later playing in a variety of styles that ranged from angular guitar riffs to elaborately arranged pop. They earned a devoted cult following. Some XTC's singles were ‘Making Plans for Nigel’, ‘Sgt. Rock (Is Going to Help Me)’ ‘Dear God’, ‘The Ballad of Peter Pumpkinhead’ and ‘Mayor of Simpleton’.

The association to this song and blog is the public sectors, - that sometimes appear like some doped, psychedelic and dysfunctionalized ‘cold war’ casualties, - that can no longer heal themselves.

Extra UU- Automated public services'

Unfortunately, there are just a few videos on the issues of 'Automating public services' in the 4th Industrial Revolution. That is most unfortunate for the masses of public servants. They are misled by censorship from their bureaucratic oligarch of the Cold War. Yet, the changes in the public sectors are like the changes in the non-public sectors. Anyone should see some of these videos to get some ideas of their very own future.

Ukens Utvalgte

'SME Disruptive Innovations' is the third issue in this sub-theme of P5GO. The ongoing 4th Industrial Revolution cause changes to Small Enterprises as well as Large and dominant ones - of both the public and the non-public sectors. Large enterprises fire masses of employees when automating the IR3 productions and services by IR4 means. In contrast, SMEs hire to make innovations that the unfit enterprises cannot, or will not. Still, there are uneven rivalries in the markets, especially because some Parliamentary powers are too corrupted and have become too dysfunctional. State aids and legal protection for SMEs are mishandled and do suffocate the helpless and maturing SMEs. In this relation, a particular focus is set on the Dexit too. The Dexit is an important and unique example of how any 'Western' nation should not do in order to resist organized international crime and to prevent dysfunctionality and chain-reactions of CCD (Colony Collapse Disorder). Therefore, for the arguments sake, this blog provides some rather profound references to some theoretical arguments, after an introduction and before some concluding remarks.

What are SME? First of all, most firms start up as micro business. Some are even started by ambitious unemployed, post-graduates and drop-out students. There are several famous examples of that during the IR3, where some 'IT nerds' disrupted some dominant enterprises by simply introducing the innovative products and services into the existing market rivalries. Most SMEs did not make it, though. Previously, there was a single definition of SME (Small and Medium sized Business) for the millions of very different businesses. The EU definition of SME changed in 2003. Now there are 3 categories of sized, based on number of employees, and economic turnover and balance: Micro; < 10, ≤ € 2 M, ≤ € 2 M. Small: < 50, ≤ € 10 M, ≤ € 10 M. Medium: < 250, ≤ € 50 M, ≤ € 43 M. The main focus in this blog is firstly on the smallest firms as start-ups. Actually, even a single citizen, with nothing but a VAT ID, is a micro enterprise. There are millions of them, and the number is growing rapidly during this IR4.

What is a Disruptive Innovation, then? "It is an innovation that creates a new market and value network and eventually disrupts an existing market and value network, displacing established market leading firms, products and alliances with a significant societal impact. Not all innovations are disruptive, even if they are

revolutionary. For example, the first automobiles in the late 19th century were not a disruptive innovation, because early automobiles were expensive luxury items that did not disrupt the market for horse-drawn vehicles. The market for transportation essentially remained intact until the debut of the lower-priced Ford Model T in 1908. The mass-produced automobile was a disruptive innovation, because it changed the transportation market, whereas the first thirty years of automobiles did not."

Furthermore: "Disruptive innovations tend to be produced by outsiders and entrepreneurs, rather than existing market-leading companies. The business environment of market leaders does not allow them to pursue disruptive innovations when they first arise, because they are not profitable enough at first and because their development can take scarce resources away from sustaining innovations (which are needed to compete against current competition). A disruptive process can take longer to develop than by the conventional approach and the risk associated to it is higher than the other more incremental or evolutionary forms of innovations, but once it is deployed in the market, it achieves a much faster penetration and higher degree of impact on the established markets." "Beyond business and economics disruptive innovations can also be considered to disrupt complex systems, only including economic and business-related aspects." (Wikipedia)

In contrast, negative 'Distortions' are too often deliberately mistaken for the positive Disruptive Innovations. Arguments might be like the unspecific 'make a change'. Such ulterior Moves are of psychosocial Games. Related to IRs, they are called 'Pyramid Games'. The anti-thesis is called P5GO (the 5th Pyramid Game Over) and is the main theme of these 50 blogs. In brief, the positive 'Disruptive Innovations' of the industrial revolutions are abuse to cause 'Distortions' in order to cause CCD, CdE and even WW on prey nations. As introduced to UU 2017.juni.02 about 'Virtual money': "We also know that Game Player of the 3rd and 4th Pyramid Games lured citizens in distress into civil wars, believing that the Game Players ever would pay back as promised. Consequently, the public social services are organized by such oligarchic criminals that systematically violate international laws and human rights, - quite the opposite of their public images. Yet, this is easy to fix by proper and sound use of IR4 technocracy, bureaucracy and democracy. The Pyramid Games in Industrial and Social Revolutions are talked through in UU 2017.juni.02.

The IR4 was talked through in UU 2017.mai.19. In brief: "The Fourth Industrial Revolution (IR4) builds on the Digital Revolution, representing new ways in which technology becomes embedded within societies and even the human body. The Fourth Industrial Revolution is marked by emerging technology breakthroughs in a number of fields, including robotics, artificial intelligence, nanotechnology, biotechnology, The Internet of Things, 3D printing and autonomous vehicles. The technologies have great potential to continue to connect billions more people to the web, drastically improve the efficiency of business and organizations and help regenerate the natural environment through better asset management.". The blog also provides talk-throughs on the strategies of Germany 'Industrie 4.0', the China 'Made in China 2025' (MIC2025) and the European Union policies."

Micro and Small enterprises have been a main concern in several blogs. The most recent is from UU 2017.mai.26: "The oligarchic abuse of market dominance during the IR3, in both public and non-public enterprises, is a main reason for the present dysfunctional, corrupted and criminal abuse of 'state aid of social character'. This is a basis for a new and yet unpublished website, called CloudMaps/EM. The following shows a draft.

- "Most European nations are part of the European Internal Market, - and their parliamentary relation is solid. All the nations have agreed to some obligations to give, - in order to get their rightful goods from the community. Unfortunately, the obligations are illegally undermined in 30 years by international organized crime. The European nations lose millions of Euros each day and billions annually. Financial problems for public services, citizens' rights and companies' deficits would be easily solved, if the public authorities turn more legal. The legal obligations are in the Treaty of the European Union. The national ratifications are unfortunately not correctly ratified into law and practice on important issues. However, there are no legal obstacles to end such illegalities. The Treaty is superior to any obsolete, misguiding and missing national laws and practices."
- A legal Law of Competition, according to the Treaty's articles will cause:
 1. Opening for Small Enterprises to the huge public market (106).

2. Reduction of abusive oligarchic treaties and practices in the public market (101-109).
3. Reduction of market-distorting abuses by state-aid to suppliers of the public sectors (107).
4. Re-distributing state aids to the citizens from the oligarchic actors (107).
5. Prohibition of customs duties and charges having equivalent effects (30).

(Use <ctrl+f> to search to the article in the Treaty.)

- “State Aid, having a social character, must be given to the consumers and not suppliers or producers. ‘Basic Income’ is such State Aid, having a social character. It concerns most payments for public services of health, transport, education, housing, caring, etc. All these aids shall be paid directly to the citizen, like payments as pensions, unemployment benefits, wage subsidies, housing assistance, day care, child support services etc. Consequently, it is illegal when public servants give the citizens’ aid directly to public or private suppliers and producers.”
- “The legal foundation to this argument is in the Treaty on European Union Section 2 Aids granted by States, Article 107 (ex Article 87 TEC). “1. Save as otherwise provided in the Treaties, any aid granted by a Member State or through State resources in any form whatsoever which distorts or threatens to distort competition by favoring certain undertakings or the production of certain goods shall, in so far as it affects trade between Member States, be incompatible with the internal market. 2. The following shall be compatible with the internal market: (a) aid having a social character, granted to individual consumers, provided that such aid is granted without discrimination related to the origin of the products concerned; ...”

(This web-site will soon be used to promote SMEs in Europe. The draft can be found at cloudmaps/em.)

SMEs was in focus in a blog theme concerning the Dexit (Dane Exit from Europol/Eurojust). It was summarized in UU 2016.aug.26 and here are some relevant quotes:

- “SME (Small and Medium Sized Enterprises) are also fundamental for any democratic society. They are like the ‘underwoods’ to the ‘forests’ of societies’ ecological processes. Without SME, societies decay and corrupts in a few decades. Bourgeois’ SME are the realization of the very basic idea that any vassal was freed to farm, produce and service, - free from the decaying bondage of some feudal oligarchs. The idea is the basics of Magna Carta that evolved to the UN Human Right and the extended European Human Rights. In the European Internal Markets SME are protected from oligarchs’ market abuses by law. SMEs are even supported and promoted by international regulations and programs. This has been the issues in several bogs and the following is taken from UU 2015.okt.23 and UU 2015.okt.30.”
- “Furthermore, the SMEs are 80% of the market in Norden. They are particularly important for democratic nations, very defenseless towards predatory oligarchic competition and has extraordinary legal protection and support in accordance to European Legislation. Furthermore, “The SMEs suffer from illegally ‘abuse of market dominances’. Besides, the EEA law obligates public protection and support to SMEs because the regional local societies will extinct if their SMBs suffers. The past 20 years’ growth of cartels in the primary industry is the main reason for the decay in local agriculture, stores and other SMEs. Contrary to anti-European propaganda, the solution is to protect those by the EEA Law and not by SU inspired agricultural industrialization. The farmers do run their own SMBs.” However, with legal use of (Law of Public Procurement), the public sector’s enormous market would not be closed for SMEs. That would save a lot of them and consequently the fundament for regional cultures, - in addition to higher qualities and lower prices for the public purchases.”
- “Coldwar propaganda has created an illusion that the market consists of a public and a private market. How untrue. Dominating oligarch have no exclusive right to state aid and exclusions from the law, - like some mafia ‘untouchables’. Unfortunately, national SMEs are nearly cleansed out of the national marked due to state-aid corruption, protection from prosecution and hostile dominance in the democratic markets. Consequently, deliveries of product and service to the civil population and public services have too high costs and too low qualities, - as stated in the OECD reports.”
- “The deliberate masspsychosis of legal obligations of public service sector is talked through in several UU blogs. Here are some summary quotes to the concluding blog to 5th pyramid in UU 2016.juni.17. “Oligarchic crimes towards European civilizations were discussed in a UU theme prior to the Dane Europol referendum (UU 2015.okt.16, UU 2015.okt.23, UU 2015.okt.30 & UU 2015.nov.06.) There is no doubt that the democratic European Internal Market has made oligarchic cold war business illegal. International criminal organizations fight the laws of Europe fiercely with any means disposal. As well-

known now, international organized crime won the Dane Europol/Eurojust referendum in December 2015.”

- “The focus here is set on SME vs Plutocracy. In this relation, the Tax authorities are fundamental for any society. However, it can be abused in Oligarchic Games to end SME competition. That is basically feudal Games to keep the peasants and workers in bondage instead of a natural develop to ‘bourgeois’ citizens. It is said that Denmark is probably the nation where it is easiest to start an SME. Any adult can register as CVR (Central Virksomhed/Enterprise Register) to pay VAT (Value Added Taxes). However, statistics show that Denmark also is the hardest place for SME to survive. Most get bankrupted in a few years, due to bureaucracy, kleptocracy and plutocracy. The powerful tax authority is a main reason, which occasionally confiscates despite the EU SME protections. (UU 2014.nov.28).”

The Dexit, the rejection of Europol and Eurojust, makes Denmark a Pirate Bay for international organized crimes in the EU Internal Market. The massive crimes of SKAT is one obvious example oligarchic preying on SMEs. (UU 2017.feb.17) In fact, the TEU is rewritten in Dane law to make a legitimated illusion that the Executive and Legislative Parliamentary power allows such crimes.

IR4 SMEs are Game Changer in both the public and non-public markets. Therefore, this section from UU 2013.okt.18 is translated to English for the occasion.

- “Highly relevant for SMEs, during IR4 and P5GO, is the models of Michael E. Porter. They illustrate basic relations for industrial excellence, - strategically, operative and innovative. Variations of the Value Chains provide important insight for the Quality of Products and Services. The combination of value chains also provides insight in how to focus on the core production, in additional to optional ‘outsourcing’ of resource-consuming support like accounting, finance, IT, logistics, consultations.”
- “A well-known Porter model is ‘the 5 forces’ that illustrates the 5 rivaling market powers. In the center of them all is the Market. Such rivalries exist in any kind of markets, - not merely in the democratic, but also the markets of public and none-public monopolies and oligarchies. Critics of the democratic market by State-monopolists’ is therefore merely moves in psychosocial Games in order to maintain or strengthen the unrightfully market dominance. It is tactics to build market barriers by anxious actors. The TEU regulations for the European Internal Market are superior to such dominant and abusive market actors. the Executive parliamentary powers are legally obligated to enforce them to the full extents.”
- “The 4 other powers of the Market are: The Suppliers, that typically provide the Products and Services to the rivals in the Market. The Customers that have increased powers since the Market democratizations. The New Competitors in the market that includes the IR4 SMEs as well as (the new) global enterprises. New technologies that enables the innovative Products and Services of the IR4. The rivalries can sometimes be rather dramatic (especially during IRs and SRs). The well-established actors in the Market will promote the barriers towards the new Rivals, while the new Rivals will try to overcome them. The model provides a simple presentation of the realities that too many actors too often ignores. On the other hand, the simplicity of the model does not concern other important factors, though.”
- “The SWOT model (Strength, Weakness, Opportunities & Threats) is well-known for analysis of one’s own enterprise and the Rivals in the Market. It is often used for business- and cost-benefit analysis. However, one should note that the CBA (Cost-Benefit Analysis) can be made for both measurable and non-measurable values. Yet, such a 2D projection complicates a single-sided basis for decisions that economists prefer. Also, the analysis should include in-depth risk analysis, that includes even more uncertainties in the decision document.”
- “The PEST-analysis provides further in-depth to the OT (Opportunity-Threats) factors of the SWOT analysis. PEST adds on; Political, Economic, Social and Technological factors. It is especially important for any analysis of products and services related to the public sectors, since the Political and Social factors can be corruptive. A simple SWOT analysis uncovers merely half the truth. The PEST analysis is highly relevant for political decisions too, - and makes the CBA more abstract and complicated. For example, the PEST analysis includes factors like ‘custom satisfaction’ that can be indicated with ‘Smilys’. Ironically, some economics prefers the negative abbreviation PEST rather than the innovative STEP. Yet, it is highly recommendable for IR4 SMEs to focus on STEP for any innovation. Moreover, important documents for decisions, like politicalized budgets, are interesting

for PEST analysis, Transaction Analysis (TA) and Games analysis - like the P5GO. If not, related politicized Games and the outcomes can be too confusing and.

SMEs do not have the 'economy of scale' and do not have proper internal support for common services like; administration, accounting, marketing, HR, IT, financing etc. Therefore, SMEs are dependent on inter-SME networking and outsourcing of such supporting services between each other. This is impossible if there is no such network infrastructure in place. Healthy nations promote such infrastructures for SMEs and corrupted public services prevents it. The EU Commission should promote such much more to its member states much more effectively, - like the program 'Entrepreneurship and Small and medium-sized enterprises (SMEs)'. The DG should react much more effective to all the obvious violations of the relevant rules for competition and state aid towards SMEs. This is critical and alarmin now, in the eve of the 4th Industrial Revolution. (See most business models for enterprises at quickmba.com.)

Conclusively, a main objective to this IR4 is to learn from the previous industrial and social revolutions in order to not repeat the mistakes in this fourth time around. First of all, it is necessary to change from the collective states of denial to recognizing the present reality, - that the SMEs are fundamentally vital to 'western' societies' existence, quality and soundness. Most SMEs start up as micro enterprises to enable the long term positive outcomes for society and industry. Therefore, 'SME Disruptive Innovations', in both public and non-public sectors, are positive for societies as well as the industries. Furthermore, this time, in order to avoid social catastrophes, the national Parliamentary powers have to enforce the rules of competition for the European Internal Market in rightful favor of the SMEs. Moreover, they need to reconstruct the existing systems for social aid to include Basic Income in order to avoid riots of desperate unemployed citizens, - as in the previous IRs. There have to be public supported alternative for inter-SME financial services like crowd funding, to avoid financial preying on SMEs. Most important though, international organized crimes in the EU IM must not be allowed to distort the innovations by corrupted civil servants of the Legislative, Executive and Judicial (LEJ) Parliamentary powers. Actually, the fourth Parliamentary power, the true democracy (not the press), might interfere considerably by IR4 means of hyper-democracy this time (UU 2016.juli.01).

"Dire Straits were a British rock band that formed in Deptford, London, in 1977 by Mark Knopfler (lead vocals and lead guitar), his younger brother David Knopfler (rhythm guitar and backing vocals), John Illsley (bass guitar and backing vocals), and Pick Withers (drums and percussion). Dire Straits' sound drew from a variety of musical influences, including jazz, folk, and blues, and came closest to beat music within the context of rock and roll. Despite the prominence of punk rock during the band's early years, their stripped-down sound contrasted with punk, demonstrating a more 'rootsy' influence that emerged from pub rock. Many of Dire Straits' compositions were melancholic." "They became one of the world's most commercially successful bands, with worldwide record sales of over 100 million. Dire Straits won four Grammy Awards, three Brit Awards—winning Best British Group twice, two MTV Video Music Awards, and various other music awards"

"The song 'Money for Nothing' is a single by British rock band Dire Straits. The song's lyrics, considered controversial at the time of the song's release, are written from the point of view of a working-class man watching music videos and commenting on what he sees. The song featured a guest appearance by Sting singing background vocals, "I want my MTV" line, followed with his own brand signature 'Don't Stand So Close to Me'. Consequently, MTV promoted the video and made it an even greater commercial hit." Mark Knopfler described the writing of the song as: "The character is a guy who works in the hardware department. I borrowed a bit of paper and started to write the song down in the store. I wanted to use a lot of the language that the real guy actually used when I heard him, because it was more real."

Ironically, in this video, the IR3 Worker did get his message global by 4 of them, though.

However, see the live concert too, that shows the true qualities of this exceptional 3rd IR band.

The association to this blog is that even music bands are micro enterprises that went through all the Industrial revolutions, - from the start when troubadours got electricity. There were certainly major disruptions during the IR3, when synthesized bands out-conquered guitar bands. Now, with IR4, the changes will certainly take another leap with DJs and their virtual multi-media studio – these one-man

bands that can out-conquer most classic orchestra.

Extra UU - SME Disruptive Innovations in the IR4

Here are some videos related to SME Disruptive Innovations in the IR4:

“A disruptive innovation is an innovation that creates a new market and value network and eventually disrupts an existing market and value network, displacing established market leading firms, products and alliances with a significant societal impact.” “the IR4 (The Fourth Industrial Revolution) builds on the Digital Revolution, representing new ways in which technology becomes embedded within societies and even the human body. IR4 is marked by emerging technology breakthroughs in a number of fields, including robotics, artificial intelligence, nanotechnology, biotechnology, The Internet of Things, 3D printing and autonomous vehicles.”

Pet Shop Boys - Opportunities (Let's Make Lots of Money)

2017.juni.02

Ukens Utvalgte

'Virtual money' is the second issue in this sub-theme of P5GO. This 4th Industrial Revolution has already started and cause changes to man, machine and societies. We learned a lot about the previous' outcomes and should respond more sensible this time. 'Virtual Money' is a Game Changer, because it alters its very own properties, from being a material to be immaterial. In this fragile state of transcending, money will be abused in attempts for CCD, CdE and even WW, - like the financial crises in America and Europe prior to WW2. Still, inexpensive, decentralized and secure financial systems can easily be implement in time by sound use of IR4 technocracy, bureaucracy and democracy. Most interesting, though, is that major barriers to the monetary IR4 seems rather to be mental than technical. In order to argue all this, this blog provides a rather profound reference to the theoretical arguments, after an introduction and before some concluding remarks.

It might seem strange - these visions of changes that the virtualization and democratization of money will cause. It might help though, to recall the changes caused by the digitalization and virtualization of material products during the previous IR3. Virtual money will also cause some short and long terms changes in the IR4 – rather different though. Still, during the IR3, supplies of material products were also altered to selfservice of immaterial products, - like ordering things via the internet. Some actors in the markets were not willing or able to fit in to the new realities in time, - regretfully.

It is like money transcends its properties from matter to energy, which makes some untraditional points of view for the financial sectors. Some properties of Virtual Money are comparable to energy that is potential (stored) or kinetic (transferred). Also, current electricity has the speed of light in the opposite direction of the flow of (material) electrons. In fact, neither information nor money has any size, weight or mass, even though material container and carriers might. Also, money has no value, cost or resistance in itself. Promoting exchange of products and services is the objective, money is simply a mean to make it done. Therefore, money should not be material, it should transcend to energy, in order to flow unhindered.

Now, in this time of IR4, a trustworthy democratization of the banking and financing systems is enabled by 'block-chain' technology. It is like a financial Linux systems, - free for anyone, free from oligarchic middlemen and free from central bank systems. True democratic monetary systems can be made for anyone for free. In fact, it is so easy to make that even I personally can make it in 1 hour fully operational at the cost of 100 euro/month. Such a Ethereum Blockchain system is hosted at Azure cloud services and consists of 3 Linux servers, 2 storages, network, etc. It is free for anyone to use with a free add-in application on a Google browser. More advanced features can be added and might cost extra.

Still, trade of products and services is as fundamental as communication. There have always been trade between any humans too, - long before any money existed. The introduction of material money certainly leveled up trade and society, though. Here are some related descriptions from Wikipedia:

- "Money is any item or verifiable record that is generally accepted as payment for goods and services and repayment of debts in a particular country or socio-economic context, or is easily converted to such a form. The main functions of money are: a medium of exchange; a unit of account; a store of value; and, sometimes, a standard of deferred payment. Any item or verifiable record that fulfills these functions can be considered as money." "Fiat money, like any check or note of debt, is without use value as a physical commodity. It derives its value by being declared by a government to be payment within the boundaries of the country." "The money supply of a country consists of currency (banknotes and coins) and bank money records. Bank money forms by far the largest part of broad money in developed countries."

- Also: “The major desirable properties that money should have include;(1) a numeraire (i.e. valued); (2) a means of exchange; (3) a store of value and; (4) a source of liquidity. Furthermore, money should be easy to transport, identify, durable, easily divisible, hard to counterfeit and easy to store.” (ref. freeconhelp.com)
- “Virtual currency (virtual money) is a type of unregulated, digital money, which is issued and usually controlled by its developers, and used and accepted among the members of a specific virtual community. Moreover “... not by public authority, but is accepted by natural or legal persons” (the European Banking Authority). “A medium of exchange that operates like a currency in some environments, but does not have all the attributes of real currency with no legal tender status in any jurisdiction” (The Financial Crimes Enforcement Network (FinCEN)).
- “Blockchains are secure by design and are an example of a distributed computing system with high fault tolerance. Decentralized consensus makes blockchains suitable for (trade and basic income as well as other) recording of events, medical records, and other records management activities, identity management, transaction processing, and documenting provenance. By design, blockchains are inherently resistant to modification of the data. Once recorded, the data in any given block cannot be altered retro-actively without the alteration of all subsequent blocks and the collusion of the network. Functionally, a blockchain can serve as ‘an open, distributed register that can record transactions between two parties efficiently and in a verifiable and permanent way. The invention of the Blockchain for Bitcoin made it the first digital currency to solve the double spending problem, without the use of a trusted authority or central server. The bitcoin design has been the inspiration for other applications.”
- “Bitcoin is the first decentralized digital currency. Trust in the currency is based on the ‘transaction register which is cryptographically verified, and jointly maintained by the currency's users’. The Bitcoin Foundation claims that bitcoin was ‘designed to be fully decentralized with miners operating in all countries, and no individual having control over the network’, and that bitcoin is ‘as virtual as the credit cards and online banking networks people use every day’.” “According to a Forbes journalist, ‘bitcoin mining has become increasingly centralized’, and a group of European cryptologic researchers have questioned, if bitcoin is indeed a decentralized currency. To improve bitcoin's decentralization, they suggest to encourage fully decentralized mining pools, allow only 1 vote per bitcoin client, and to increase transparency in decision making.”

The blockchain technology is as important for the democratization of money as the internet websites is for common knowledge. However, quite alarming aspects of abuse of IT are talked through in UU 2017.mai.12.

There are several kinds for virtualized money and financing. Most are attached to national authorities, even though the currency might not be national (e.g. the confederal Euro).

- “Mastercard is an American multinational financial services corporation, that process payments between the merchants’ banks or other banks and credit unions. It is owned by the more than 25000 financial institutions that issue its branded cards.”
- “VISA is an American multinational financial service that facilitates electronic funds transfers throughout by credit cards and debit cards. Visa does not issue cards, extend credit or set rates and fees for consumers; but provides financial institutions with Visa-branded payment products that they then use to offer credit, debit, prepaid and cash-access programs to their customers.”
- “China UnionPay (CUP) is a financial services corporation in association for China's banking card industry, operating under the approval of the People's Bank of China. CUP provides bank card services and a major card scheme in mainland China. It is also the only interbank network in China that links all the ATMs of all banks throughout the country. It is also an EFTPOS network, the largest card payment organization in the world, based on payment transactions, schemes and number of cards issued. It also offers mobile and online payments.”
- “Nets is a Nordic-based provider of payments, cards and information services. The customers are banks, businesses, merchants and the public sector. They offer secured front-end and back-end solutions for banks and non-banks in northern Europe. Teller handles the acquiring of national and international payment cards, primarily in the Nordic market, such as Dankort, Visa, MasterCard, American Express, JCB and China UnionPay.” (Dane banks shortcut Nets for mobile payments.)

- “PayPal is one of the world's largest Internet payment companies. It is a payment processor for online vendors, auction sites and other commercial users. It became a wholly owned by eBay in 2002. PayPal moves over \$228 billion in 30 currencies across more than 190 nations, generating a total revenue of \$8 billion.” (Elon Musk was a co-founder, but sold out to finance Tesla and SpaceX.)
- “Crowdfunding is an alternative finance by of funding a project or venture by raising monetary contributions from many people. More than 34 billion \$ was raised this way Globally in 2015. Although the concept can also be executed through mail-order subscriptions, benefit events, and other methods, it is now often performed via Internet-mediated registries. This modern crowdfunding model is generally based on three types of actors: the project initiator who proposes the idea and/or project to be funded, individuals or groups who support the idea, and a moderating organization (the "platform") that brings the parties together to launch the idea.”

The free movement of money in EU’s Internal Market is based on the TEU (Treaty of the European Union). The removal of barriers to trade does not need to be expensive, but very benefitable. The technology is here already, yet hindered by dominant market actors. 2% of GDP is made by such oligarchic middlemen. That is much too much. Anyways, here are some brief description of the EU monetary systems, mostly from Wikipedia.

- “The Eurozone is a monetary union of 19 of the 28 of the EU member states that have adopted the euro (€) as their common currency and sole legal tender. The other 9 members use national currencies, but most are going to join in. The Eurosystem is the monetary authority of the Eurozone. The ECB is governed by a president and a board of the heads of national central banks. The ECB sets the monetary policy of the zone.”
- “The Euro (€) is the official currency of the Eurozone and officially used by the EU institutions, some EU nations and other European countries. About 550 million people in Europe and worldwide uses Euro daily. It is the second largest reserve currency and the second most traded currency in the world with more than €1.109 billion in circulation. Physical Euro coins and banknotes entered into circulation on 2002 replaced some former national currencies.”
- “The primary objective of the ECB (European Central Bank) is to maintain price stability within the Eurozone (TEU article 127). The ECB has only one primary objective for price stability (inflation of under 2%), but this objective has never been defined in statutory law. The HICP target can be termed ad-hoc. The ECB administers the monetary policy of the Eurozone and one of the seven institutions listed in the TEU. The capital stock of the bank is owned by the central banks of all the 28 EU member states. The ECB has a capital is €11 billion held by the national central banks of the member states as shareholders. Its basic tasks, are to set and implement the monetary policy for the Eurozone, to conduct foreign exchange operations, to take care of the foreign reserves of the European System of Central Banks and operation of the financial market infrastructure under the TARGET2 payments system.”
- “The SEPA (Single Euro Payments Area) is a payment-integration initiative of the EU for simplification of bank transfers denominated in Euro. SEPA consists of the member states EU and EFTA. The SEPA is a self-regulatory initiative by the European banking sector represented in the European Payments Council, which defines the harmonization of payment products, infrastructures and technical standards. The PSD provides the legal framework within all payment service providers must operate. SEPA guarantees that euro payments are received within a guaranteed time, and banks are not allowed to make any deductions of the amount transferred, introduced by a regulation in year 2001. This is relevant for countries which do not use the Euro too.”
- “Since late 2009, the Euro has been immersed in the European sovereign-debt crisis which has led to the creation of the European Financial Stability Facility. concerns raised over Greek debt and Spain's troubled banking sector.”

Virtual money has most certainly become a powerful mean related to this P5GO theme (5th Pyramid Game Over). It is already abused in plutocratic warfare towards ‘the West’. The multi-national confederation is attacked by means of virtual money in several ways, - especially towards the Eurozone in order to cause dysfunctionality and thereby CCD (colony collapse disorder), CdE (Coup d’ Etats) and even WW (world wars). Serious mistakes are done instead of defense - and it does not seem to be fixed yet. In order to fix those corrupted systems, the whole inter-governmental Executive Parliamentary powers have to act

coordinated and in accordance to the valid legislations of TEU, - not just talk and write about it. Europe, 'the cradle of democracy' needs to be more functional – not dysfunctional.

No matter the politics and constitutions, the IR4 escalates new means like the virtual money, crowdfunding and democratic payments for trade. Quite alarming is that some 'dark markets' adapt and abuse the systems much faster than national and confederal constitutions are willing or able to do. Some corrupted servants even promote such dysfunctionalities.

Will the Euro become central, de-central or democratic? The answer is yes to all, because the Euro is transcending to virtuality too. It is centralized with the ECB, yet confederal decentralized with the national banks. There are high qualitative data-encryptions involved, so block-chain is not required. It might be useful in a hybrid banking system though. Such a combination of Euro and block-chain currency will be the solution to quickly implement and realize solutions for Basic Income. (See UU 2017.mai.26.) In brief, the Euro is, - and will transcendence further towards being an international hyper-currency. This will be elaborated in the next UU blog.

"Pet Shop Boys are an English electronic pop duo, from London. They have sold more than 50 million records worldwide and are listed as the most successful duo in UK music history by The Guinness Book of Records. Three-time Brit Award winners and six-time Grammy nominees, since 1985 they have achieved 42 Top 30 singles and 22 Top 10 hits in the UK Singles Chart, including the song Opportunities (Let's Make Lots of Money)".

The association for the song to this blog is somewhat similar to the explanation of the quotes about the lyrics:

"The song 'Opportunities (Let's Make Lots of Money)' is written from the perspective of a man who describes himself as being intellectual and educated. The lyrics are addressed towards another character, identified as having 'looks' and brawn', and who is invited to join the song's protagonist in a scheme to 'make lots of money'. Tennant has made it clear, however, that the schemes are doomed to failure. The punchline of the 'joke' of the song, he says, is that 'the people in it are not going to make any money'. The band have attributed the cynicism of the song, in part, to the punk rock attitudes of the period. The meaning of the lyric is taken at face value by some listeners, and this subsequent interpretation of the song as a materialistic anthem receives mixed reactions."

However, the ironical critics are kind of backfiring if replacing the word 'money' with the more relevant word 'music'. The duo most certainly took the opportunity in the industrial revolution of music, where skillful musicians suffered unnecessarily by some predatorian music industry. (The band was also presented in UU 2014.nov.28.)

Ukens Utvalgte

‘Basic Income’ is the first issue in this IR4 sub-theme of P5GO. Even though the 4th Industrial Revolution is basically technological, the previous IRs caused social revolutions that were abused in Games of CdE (Coup d’ Etat). This IR4 has already started and cause changes to man, machine and societies. We learned a lot about the previous outcomes and should respond more intelligent this time. ‘Basic income’ is definitely preventive to CCD, CdE and WW. We also know that Game Player of the 3rd and 4th Pyramid Games lured citizens in distress into civil wars, believing that the Game Players ever would pay back as promised. Consequently, the public social services are organized by such oligarchic criminals that systematically violate international laws and human rights, - quite the opposite of their public images. Yet, this is easy to fix by proper and sound use of IR4 technocracy, bureaucracy and democracy. In order to argue this, this blog provides a rather profound reference to the theoretical arguments, after the introduction and before some concluding remarks.

Political philosophies, like the right to a basic income to satisfy the basic needs, are as old as civilization itself. It is the very foundation of any family. Similar social systems are adopted into larger organizations of Thrones, States and Temples, - simply because the systems are made mankind’s image. Most apparent, during crises of war and force majeure, humans organize free supplies for food (meal-ticket), housing (hospice), other rations, collective transport, etc. However, previous management systems were too primitive for such complex situations. They were remote and central driven via oligarchic and standardized logistics. Those management systems were seriously dysfunctional and caused corruptions, crimes and crises. Similar cold-war systems of the 4th Pyramid Game are still dominating most civil state-aid systems

concerning food, housing, transport, schooling, health-care, pension etc. Most fortunately, those inherited dysfunctionalities can be fixed with means of the 'Industry 4.0'.

Now, the technical IR4 is about to cause similar social changes, like the previous IRs did. Yet, we know that the peoples in such temporary existential crises will not tolerate to be ignored and will organize in riots to survive and provide proper LQ for themselves and their related. There is no valid moral, rational or ethical reason to hinder its usage. Such reasoning is fundamental, but not a main focus in this blog, though. The psychosocial model used in the P5GO theme was summarized in UU 2016.sept.23. "They are explained in UU 2014.sept.12 as; a consistent definition of "LifeQuality; a 3D ethics model, a 3D ethical system of GCR (Good/Constructive/Right); a 3D political model relating to the constitutional LEJ powers (Legal/Executive/Juridical); a 3^3 (3*3*3) psychosocial model of Drive, Will and Belief; an extended psychosocial Game models; a 5D scenario model for past as well as future (UU 2014.sept.12); and extended terminology by extended use of suffixes. (UU 2015.juni.12)."

The previous blog (UU 2017.mai.19) introduced this issue in this way. "Even major high-tech celebrities say it has to be done. Elon Musk (Tesla) says that automation will force governments to Introduce Universal Basic Income (UBI). Bill Gates (Microsoft) says that the productions' robots should pay tax like the workers they replaced to finance the required re-schooling and LifeQuality. There are 3 traditional claims against Basic Income. 1) That it is too expensive. Yet the social costs of poverty are higher. 2) People will not work if not forced to. On the contrary, most people want to self-realize, be social and contribute. 3) It is politically too complicated. True, this is most certainly serious a challenge, since UBI has actually been a legal Human Rights obligation for all United Nations for 50 years - and in the EU for 20 years due to competition rules of State Aid. (See UU 2014.okt.17 about LQ, UN, EU, HR)

Generally, Wikipedia says that: "A basic income (Citizen's Income) is a social security where all citizens receive an unconditional sum of money, from a public institution in addition to any income received from elsewhere. Basic income systems, which are financed by the profits of publicly owned enterprises, are major components in many proposed models of market socialism. Basic income schemes have also been promoted within the context of capitalist systems, where they would be financed through various forms of taxation." "Similar proposals for 'capital grants provided at the age of majority' date to Thomas Paine's Agrarian Justice of 1795, there paired with asset-based egalitarianism. The phrase 'social dividend' was commonly used as a synonym for basic income in the English-speaking world before 1986, after which the phrase 'basic income' gained widespread currency. Prominent advocates of the concept include Rutger Bregman, André Gorz, Ailsa McKay, Guy Standing, Karl Widerquist, Hillel Steiner, Peter Vallentyne, Philippe Van Parijs and Milton Friedman."

In contrast: "A commission of the German parliament discussed basic income in 2013 (in response to the challenges discovered by 'Industry 4.0'). They concluded that it is 'unrealizable' because: 1) It would cause a significant decrease in the motivation to work among citizens, with unpredictable consequences for the national economy. 2) It would require a complete restructuring of the taxation, social insurance and pension systems, which will cost a significant amount of money. 3) The current system of social help in Germany is regarded more effective because it's more personalized: the amount of help provided is not fixed and depends on the financial situation of the person; for some socially vulnerable groups the basic income could be insufficient. 4) It would cause a vast increase in immigration. 5) It would cause a rise in the shadow economy. 6) The corresponding rise of taxes would cause more inequality: higher taxes would translate into higher prices of everyday products, harming the finances of poor people. 7) No viable way to finance basic income in Germany was found."

Such arguments based on a IR3 mentality are dominating the evaluations of basic income. However, IR4 provides solutions to such outdated mental barriers.

That 'East' German commission was simply very wrong in claiming that 'Basic Income' is 'unrealizable' in this century. In contrast, a main argument is as follows: Now that the majority of humans live in the cities, they no longer have any means or rights to grow or hunt their own food, find themselves housing or other basic needs that nature provided for free. During the IRs, when work and income is removed from them, -

they are practically trapped in an 'urban cage'. Therefore, there has to be alternatives to satisfy the basic needs to maintain proper LifeQuality. This problem is not merely about preventing self-destructive uprisings, or the international legal obligations. This is simply to prevent civilizations' dysfunctionality and decay into CCD (Colony Collapse Disorder).

Yet, Europe is a forerunner for Basic Income. " 'Europe is the cradle of democracy.' This dogma is fundamental for any European nation. However, Europe has only 10% of the world's populations (). Therefore, Europe is crucial to humanity and extra hard to defend. The Quality of Lives is as fundamental for democracy, nations and organizations, as for any person. Unfortunately, and evidently, anti-democratic nations oppose the Human Rights and Needs, sometimes aggressively with conning Underworld Games. Their need for self-defense is obvious, - even though opponents denies such existence, motives and actions." (UU 2015.april.10)

The term LifeQuality is fundamental for Basic Income, because it includes terms of Human Needs and Human Rights. The final definition is based on the ISO 8402 definition of Quality and was presented in UU 2014.okt.17: "LifeQuality is defined as: A person's totality of properties and potentials to satisfy stated and implied needs." "Maslow's Hierarchy of Needs shows 5 main categories; Physical, Safety, Social, Respect and Self-realization." The 'stated needs' are similar to the 'Human Rights'. "The 193 UN member-states are obligated to secure their citizens' rights concerning; private properties, self-determination, security, privacy, family, work, education, in addition to freedoms of thought, conscience, religion, expression and more." (UU 2016.juli.01)

The oligarchic abuse of market dominance during the IR3, in both public and non-public enterprises, is a main reason for the present dysfunctional, corrupted and criminal abuse of 'state aid of social character'. This is a basis for a new and yet unpublished website, called CloudMaps/EM. The following shows a draft.

- "Most European nations are part of the European Internal Market, - and their parliamentary relation is solid. All the nations have agreed to some obligations to give, - in order to get their rightful goods from the community. Unfortunately, the obligations are illegally undermined in 30 years by international organized crime. The European nations lose millions of Euros each day and billions annually. Financial problems for public services, citizens' rights and companies' deficits would be easily solved, if the public authorities turn more legal. The legal obligations are in the Treaty of the European Union. The national ratifications are unfortunately not correctly ratified into law and practice on important issues. However, there are no legal obstacles to end such illegalities. The Treaty is superior to any obsolete, misguiding and missing national laws and practices."
- A legal Law of Competition, according to the Treaty's articles will cause:
 6. Opening for Small Enterprises to the huge public market (106).
 7. Reduction of abusive oligarchic treaties and practices in the public market (101-109).
 8. Reduction of market-distorting abuses by state-aid to suppliers of the public sectors (107).
 9. Re-distributing state aids to the citizens from the oligarchic actors (107).
 10. Prohibition of customs duties and charges having equivalent effects (30).

(Use <ctrl+f> to search to the article in the Treaty.)

- "State Aid, having a social character, must be given to the consumers and not suppliers or producers. 'Basic Income' is such State Aid, having a social character. It concerns most payments for public services of health, transport, education, housing, caring, etc. All these aids shall be paid directly to the citizen, like payments as pensions, unemployment benefits, wage subsidies, housing assistance, day care, child support services etc. Consequently, it is illegal when public servants give the citizens' aid directly to public or private suppliers and producers."
- "The legal foundation to this argument is in the Treaty on European Union Section 2 Aids granted by States, Article 107 (ex Article 87 TEC). "1. Save as otherwise provided in the Treaties, any aid granted by a Member State or through State resources in any form whatsoever which distorts or threatens to distort competition by favoring certain undertakings or the production of certain goods shall, in so far as it affects trade between Member States, be incompatible with the internal market. 2. The following shall be compatible with the internal market: (a) aid having a social character, granted to individual

consumers, provided that such aid is granted without discrimination related to the origin of the products concerned; ...”

This web-site might soon be used to promote Basic Income in Europe.

Furthermore, the following paragraphs relate to OECD, TEU as well as Dane and Norwegian documents about their public sectors. This applies to any nation in the EU Internal Market, though. They are summarized in blogs like UU 2016.juni.17, UU 2016.juli.01 and UU 2016.aug.26.

- “Public servants of the Executive power are obliged to execute orders from its Parliament and Government. If not doing so, they are to be prosecuted in accordance to the Penalty law by the Legislative power, - just like ‘bourgeois’ civilians. This obviously applies to legalities of this century too. As mentioned in UU 2015.juli.10, “There is no doubt that Denmark (or any other EU nation) has been legally obligated for over 20 years by the TEU (Treaty on European Union).” (Norway, and any other nations to the European Internal Market, has similar over-national legislation as the EEA Treaty between EU and EFTA.)
- “The second pillar, the Executive power, () was discussed in UU 2015.okt.23 to set focus on apparent indications on dysfunctionalities. “The () Executive power is known as the ‘Public Sector’. It is committed to provide products and services to () citizen and society as the Parliament and its Government order. A main reason to serious mismanages is obvious, - public servants are rarely investigated and put to trial according to the national penalty law. Some coldwar public servants are ‘untouchables’ to the Legal system.” Furthermore, “The relations in (European) societies become far more transparent when knowing the 100 years rise of the Red Mafia and the accordingly corruption of LEJ (Legislative/Executorial/Judicial powers). The public sector has cold war legacies that are not applicable, and even illegal, to this century’s () Europe. The conditions and potentials of the nations are well documented in the OECD report 'Government at a Glance' and the Produktivitetskommissionens rapport”. (UU 2015.juni.05 and UU 2015.juni.26)
- “The third pillar, the Judicial power (), was discussed in UU 2015.okt.30 to set focus on apparent indications on dysfunctionalities. “The parliamentary LEJ system (the Legislative/Executorial/Judicial powers) are obliged to Rule by Law. Thereby, it is criminal to cause improper ratification of Parliament’s laws and regulations, improper execution in the public sector and improper arbitrating and judging in the courts. In fact, there is no valid argument for such illegalities, like putting the blame on lack of resources, information or money. Those arguments are, however, too often abused in relation to the Judicial system. An alarming indication of critical system faults is that no judge ever seems convicted despite all the criminal scandals in the public sector that the free press expose. Such indications are typical for Mafia organizations too. It indicates that the Judicial cultures can be worse than for public servants in the Executing power”.
- “Confusion and misinterpretations about the legal system reduces the Judicial quality. It can cause punishment of innocents and rewarding of criminals. Such misjudgments are object for national Penalty law, - even for the judges. Clearly, international criminal organizations need to target key-personnel in the legal system to make their business gainful and to avoid penalties.” (UU 2015.okt.30.) “For 3D political model, rivaling non-European unions are negative toward (European) LEJ and main reasons why the LEJ Quality score is beneath the acceptable for European nations.”
- “It is crucial to distinct between the image of a ‘trusted union agent’ and the true nature of (the Labor Union). A main task is to sell other people’s work to its own customers/members. Consequently, labor with alternative Will or incompetence are hired in enterprises, - especially in the public sectors. This has several negative consequences for employees, leaders, firms and society.” (UU 2014.okt.17.) “Anyone can be terrified of losing job, wages that is vital to support family, home and future. Most gives in to such mafia to save their wives, children and homes. However, the history throughout the Pyramid Games clearly and evidently proves that the Parliamentary LEJ is too corrupted for such ‘glasnost’, - even in (Europe). Yet, humanity’s evolvment do now provide hyper-democratic solutions.” “Any citizens exploited by PROSA organizations have now the opportunity for hyper-democratic expressions. Any PROSA victim have the opportunity to explain themselves, to confess and alert about illegal PROSA corruption, - even anonymous. Anyone can write down their experiences, opinions and will. Anyone can uploaded it to hyperspace as documents to relevant web-cites in ‘The Cloud’. Such ‘whistlers’ should not be punished, but rather protected and have their pensions and benefits revived for restart.

International LEJ powers, and not merely national LEJ, should deal with the international criminal organizations.” (UU 2014.dec.05, UU 2016.juli.15 and UU 2016.aug.19)

In order to argue against the barriers to basic income, a whole section is taken from a previous blog about the technocratic dilemma in UU 2016.sept.09.

“The technocracy, like the bureaucracy, is incapable to perceive human qualities of the bourgeois citizens. Each citizen’s LifeQuality is at risk and do cause human catastrophes when a republican State becomes dominant in the society. Some previous quotes about the preys, the citizen, the peasants and the worker focus on that.

- “The Pyramid Games are described in the initial UU 2016.mai.13. Pyramid Games are based on the illegal ‘Pyramid scheme’, ‘Eight-ball’ and ‘Gifting circles’. 8 people are lured by one to ‘invest’ in illusions of repayments in a distant future, - not realizing that the Game is built to collapse and rather cause their ruin. The ethics to such Game masters are ‘honesty is for suckers’. The 5 Pyramid Games in this UU theme are related to the 5 Internationals. Those ‘suckers’ are lured to contribute to domestic CCD (Colony Collapse Disorder) that weakens their prey nation enough to enable the main gains of CdE (Coup d’ Etat). Related sub-Games played by potential PROSA Pensioners are of all categories, - especially Underworld Games and Sexual Games like; NIGYSOB (Now I've Got You, You Son of a Bitch) and Schlemiel, SWYMD (See What You Made Me Do), ITHY (I'm Only Trying to Help You), LPAFJ (Let's Pull A Fast one on Joey), LYAHF (Let's You and Him Fight), DAC&UAC (Devide&Conquer & Unite&Conquer), ISR (It Started with the Retribution), ABD (Attack is the Best Defense), Jante/TUD (The Ugly Duckling), TLM (Two Little Maids), BGGG (Bad Guy, Good Guy), RPPP (Robbing Pete to Pay Paul), ODAB (One's Death – Another’s Bread) and the Russian BOOFY (Beat your Own and Others will Fear You). (UU 2014.sept.12.)” (UU 2016.juli.15)
- “In Norden, LO (The Confederation of Trade Unions) is the International para-organization that is bound to the obligations of the high treason of the 3rd International, - the Moscow Thesis. LO’s 100 years of political dominance and related LEJ inabilities, proves the seriousness of Parliamentary corruption. However, after 100 years of corrupting CCD and incapable of doing the CdE, LO members should finally realize that they merely contribute to continuous negative BDW (Bad, Destructive and Wrong). ethics that never will realize their illusions of GCR (Good, Constructive and Right). Most probably are able to see that, but ignore it. They do not dare to risk the processes of a true democratic reform of their Union. They know very well from history the brutal consequences from the Game masters.”
- History proves that such cleansings of loyal citizens (bourgeois), with radicalized workers, were extremely violent before, under and after the WW2. The death tolls were tens of millions of humans during the PROSA regimes of the puppet oligarchs like Lenin, Stalin, Hitler, Mao, Pol Pot etc. Several previous UU blogs concern LO cultures at CCD and CdE levels, for example: The unclinking of a Stalinist mass-psychopathic culture when overthrowing a matriarchal LO leader – the ‘Valla’ case (UU 2013.aug.30). The Stalinazist cultural root of WW2 is still dominant in LO (see Wikipedia link under), and the TV documentary about the boy Selmer that was donated to Soviet Union and became an unwillingly spy. It also indicates the cloaking of thousands of STASI agents in Europe during the cold war (UU 2014.juli.04). More recent is the ‘Treholt’ Game LPAFJ (Let's Pull A Fast one on Joey) as diversion to save other major PROSA agents (UU 2013.aug.30). The Game concept changed to SWYMD (See What You Made Me Do) in the massive organized CdE bomb and massacre in Norway five years ago today. The Judicial system proved that willingly scapegoats are more effective as diversion for the major PROSA agents (UU 01.Juni.2012), - until he also realizes he was no Nashi (Наши) hero, but just another 5th Pyramid Game ‘sucker’.”

In brief, most public servants are unaware and unwillingly bond to the high treasonous 21 conditions to the 3rd International. The European parliaments are obliged to free them immediately. It is very possible with temporary ‘basic income’ and other means of IR4. (UU 2016.juli.22)“

Although focusing on howto realize Basic Income in Europe, the UBI (Universal Basic Income) is a global concept, related to the Universal Human Rights. This P5GO theme relates to the concept of GHRL (Global Human Rights Law.) that was presented in UU 2015.april.10 and slightly revised here.

- “Despite knowing that the UN has not eliminated warfare of all kinds, there is a valid Belief that the UN’s collective conscience has prevented a nuclear ww3. This lead to the conclusion that any human

needs and deserve a Global Human Right Law (GHRL). Also, knowing that the UN do not have the legal powers to make nations live up to their obligations, the path is to make multi-lateral NHRL. "All NHRL (National Human Right Laws) should at least include UNC (United Nations Charter) that provides the UN powers to investigate and mediate in international disputes and authorizes international economic, diplomatic, and military sanctions and force to resolve the disputes, - as well as the ICCPR (International Covenant on Civil and Political Rights) and ICESCR (International Covenant on Economic, Social and Cultural Rights)." (UU 2014.okt.17) GHRL has a Facebook page and an Avaaz petition page." However, the petition was disabled years ago when a Ukrainian citizen signed.

- "With this UU Theme, 'The 5th Pyramid' and the introduction of Hyper-Democracy, the GHRL most certainly provide some innovative perspectives on how-to Heal LEJD and the QL of humanity. However, focusing on anti-democratic cyber-crimes in Europe, the Hyper-parliamentary Europol and Eurojust are definitely the International cyber-crime fighters. The Pyramid Game became very apparent in the Dane (anti-) Europol referendum in 2015.dec.03. The Dane example of international referendum fraud should be investigated by Europol and brought to the EU Court. Furthermore, Dane, Norwegian and any other EU/EFTA nations should have their laws quality ensured in accordance to EU innovations."

Most European nations do already have social security systems that pay enough for proper Basic Income, - some even pay more than that. However, the Quality of the Social Security Systems have become dysfunctional by cold war crimes. In order to fix those corrupted systems, the whole Executive Parliamentary power have to act in accordance to the valid legislations for state aid. Their IT systems have to be reconstructed by means of IR4 and Cloud services. However, virtual monetary systems, based on Block Chain technology, is the next issue in this in this theme.

Conclusive, it is evident that the ongoing 4th Industrial Revolution is the most comprehensive IR and will cause social revolutions of accordingly magnitude, - critically, if not managed properly. Cold war arguments against the human needs, rights and care are means of propaganda warfare to maximize CCD, enabling Pyramid Games of CdE and finally prey on the democratic citizens and cavillations. The truth is evident, humans have, throughout history of humankind, proved themselves exceptionally willing and able be humane, in all the positive aspects. In brief, the means of this 'Industry 4.0' can and must be managed GCR (Good/Constructive/Right) in time - this time. In this blog theme - this is called the P5GO (The 5th Pyramid Game Over).

Eminem, alias Marshall Bruce Mathers III, is an American rapper, record producer and actor. He is one of the world's best-selling artists and Rolling Stone ranked him 83rd on its list of 100 Greatest Artists of All Time. He starred in the hip hop film '8 Mile', which won the Academy Award for Best Original Song, for 'Lose Yourself', becoming the first rap artist to win the award.

The association to this blog is the obvious realities millions of caring humans will be exposed to during this 4th Industrial Revolution. In the movie '8 Mile', Eminem is a sympatric father in Detroit that is at the collapse after the success of the 3rd Industrial revolution. Against all odds, he succeeds as a 'white nigger' after a long struggle against inhuman conditions, - and thereby enable himself to support the family, friends and related. Still, some senseless traumas cannot ever be healed.

Extra UU - basic income (Citizen's Income)

“A basic income (Citizen's Income) is a social security where all citizens receive an unconditional sum of money, from a public institution in addition to any income received from elsewhere.” (Wikipedia)

Here are some TED Talk videos explaining the idea. Lots of other videos can be found on the internet.

Why we should give everyone a basic income | Rutger Bregman | TEDxMaastricht

Mr. Robot - Theme songs

2017.mai.19

Ukens Utvalgte

The 4th Industrial Revolution (IR4) has started. It will be more comprehensive than the previous 3. We learned a lot about their effects, - and the do's and don'ts. Still, the overall outcomes of IRs are positive. The peoples appreciate the industrial innovations and most could not live without them. However, there were destructive political Games causing unnecessary unrest, unjust and destructions. Such are called Pyramid Games. The ongoing 5th Pyramid Game started in parallel to the ongoing 4th industrial Revolution. This time, the negative sides can be minimized – dependent on how well this 5th Pyramid Game is handled. This blog is made to uncover some issues concerning this, - and the start of a new sub-theme about 'IR4 P5GO'.

First of all, there are some technological introduction to the 4 industrial revolutions in the Wikipedia:

- (IR1) “The First Industrial Revolution took place from the 18th to 19th centuries in Europe and America. It was a period when mostly agrarian, rural societies became industrial and urban. The iron and textile industries, along with the development of the steam engine, played central roles in the Industrial Revolution.”
- (IR2) “The Second Industrial Revolution took place between 1870 and 1914, just before World War I. It was a period of growth for pre-existing industries and expansion of new ones, such as steel, oil and electricity, and used electric power to create mass production. Major technological advances during this period included the telephone, light bulb, phonograph and the internal combustion engine.”
- (IR3) “The Third Industrial Revolution, or the Digital Revolution, refers to the advancement of technology from analog electronic and mechanical devices to the digital technology available today. The era started during the 1980s and is ongoing. Advancements during the Third Industrial Revolution include the personal computer, the internet, and information and communications technology (ICT).”
- (IR4) “The Fourth Industrial Revolution builds on the Digital Revolution, representing new ways in which technology becomes embedded within societies and even the human body. The Fourth Industrial Revolution is marked by emerging technology breakthroughs in a number of fields, including robotics, artificial intelligence, nanotechnology, biotechnology, The Internet of Things, 3D printing and

autonomous vehicles. (Klaus Schwab, says that the technologies have great potential to continue to connect billions more people to the web, drastically improve the efficiency of business and organizations and help regenerate the natural environment through better asset management.)”

‘Industrie 4.0’ is the term from a German governmental high-tech strategy to promote the computerization of manufacturing. The strategy concerns; the current trend of automation and data exchange in manufacturing technologies that includes cyber-physical systems; the Internet of things; and cloud computing. Some major challenges were identified as: IT security issues, which are greatly aggravated by the inherent need to open up those previously closed production shops. Reliability and stability needed for critical machine-to-machine communication (M2M), including very short and stable latency times. Need to maintain the integrity of production processes. Need to avoid any IT complications, as those would cause expensive production outages. Need to protect industrial knowhow (contained also in the control files for the industrial automation gear). Lack of adequate skill-sets to expedite the march towards fourth industrial revolution. Threat of redundancy of the corporate IT department. General reluctance to change by stakeholders. Loss of many jobs to automatic processes and IT-controlled processes, especially for lower educated parts of society.

The Chinese government’s strategy for IR4 is called ‘Made in China 2025’ (MIC2025). The Center for Strategic and International Studies (CSIS) writes: "MIC2025 is an initiative to comprehensively upgrade Chinese industry direct inspiration from Germany's ‘Industry 4.0’ plan. The Chinese effort is far broader and more challenging. MIC2025 has clear principles, goals, tools, and sector focus. Its guiding principles are to have manufacturing be innovation-driven, emphasize quality over quantity, achieve green development, optimize the structure of Chinese industry, and nurture human talent. Although the goal is to upgrade industry writ large, the plan highlights 10 priority sectors: 1) New advanced information technology; 2) Automated machine tools & robotics; 3) Aerospace and aeronautical equipment; 4) Maritime equipment and high-tech shipping; 5) Modern rail transport equipment; 6) New-energy vehicles and equipment; 7) Power equipment; 8) Agricultural equipment; 9) New materials; and 10) Biopharma and advanced medical products.”

The ‘Nova-Russia’ (SU2) do not seem to be able handle the challenges that the IR4 brings. Apparently, it has not handled any IR well. In fact, the IR2 caused the so-called SU revolution and consequently the world wars. (UU 2016.juni.03) They gained some major technological advantages due to espionage in the IR3, though. However, the rest of the world is rather aware of such organized piracies now – and do counter moves. An ironic example is the SU copy of the US Space Shuttle ‘Buran’, that was grounded from the start due to deliberate design faults for SU spies to take. Now, SU cannot catch up on European, American and Asian creativity and mass-production. The main strategy is apparently cyber sabotage on rivals in order to not fall too far behind. Such a devolution has become a hazardous mental case to humanity and might cause global havoc in this century too. This will certainly be issues in future blogs.

The US is now in a very hazardous state due to the PPT (Puppet President Trump). No doubt that the US has been the technological leader in the IR3. There are also some indications that the trends are continuing. However, there are considerable warnings about economic deficits, brain drain and political dilutions. This year’s handling the President Trump case will determine how the US develops in this century. There is an ongoing 5D shift with uncertain outcomes. The US might as well go through the same processes in this century as SU did the previous century. The US will still be in focus during this 1 year of the ‘P5GO’ theme.

AU, the African Union, is the most unpredictable continent of all (UU 2013.Juli.26). AU is not a main concern in this UU theme. However, it might be more in focus, since its development concerns all neighboring continents, - which simply is the whole world. Africa was not that involved in the previous Industrial Revolutions. However, it seems that the Chinese are exporting their ‘Made in China 2025’ projects to AU at large scale. This might become a social and technological shock with several fatal outcomes. AU might be the arena for IR4 proxy wars. This might be issues in later blogs.

The EU's political handling of IR4 issues is the most interesting and relevant for this theme P5GO. The EU LEJD (Legal, Executive, Judicial and Democratic) powers are established now and should be able to handle this IR4 better than its 2 predecessors handled the IR2 and IR3. The EU Parliament is mature now, the EU Commission delegates its powers and focus on new initiatives, and the EU Council's states leaders are becoming aware of some the threats of the 5th Pyramid Games. 'The cradle of democracy', Europe, do take the concerns most seriously. The European Treaties become more inclusive to European Human rights. This might be the one issue that prevents Europe in being lured into Pyramids Games - like in the of the past century.

- A European Parliament briefing 'Industry 4.0, Digitalisation for productivity and growth', says: "Industry 4.0 is expected to have a major effect on global economies. Industry 4.0 can deliver estimated annual efficiency gains in manufacturing of between 6% and 8%. The Boston Consulting Group predicts that in Germany alone, Industry 4.0 will contribute 1% per year to GDP over ten years, creating up to 390 000 jobs. Globally, one expert estimates that investment on the Industrial Internet will grow from US\$20 billion in 2012 to more than US\$500 billion in 2020 (albeit with slower growth after that date), and that value added will surge from \$US23 billion in 2012 to US\$1.3 trillion in 2020."
- A EU Commission document 'Industry 4.0' analysis thoroughly issues like: CURRENT POLICIES; Rationale for intervention, EU level, Member State level, Gaps in policy. ASSESSMENT; Key benefits and drawbacks, Business results and expected impacts – will it work?, Where public sector support could add value The type of support. RECOMMENDATIONS; Refined policies, New policies, in addition to providing Case Studies and Overview of Digital Manufacturing Initiatives.

The EU handling of the IR4 will be a main issue in these blogs.

'Basic income' is a contraversive and pressing political issue these days. It is necessary to prevent desperations, uprising and civil war. Such miseries was abused in IR2 and IR3 by what is now known as 'the Red Mafia' (UU 2017.feb.24). However, basic income is a 200-year-old political issue in 'the West'. (See the Ted Talk 'Why we should give everyone a basic income' in this Extra UU.) It is not like the extreme isms abused to cause CCD and CdE as in the previous Pyramid Games. Even major high-tech celebrities says it has to be done. Elon Musk (Tesla) says that automation will force governments to Introduce Universal Basic Income (UBI). Bill Gates (Microsoft) says that the productions' robots should pay tax like the workers they replaced to finance the required re-schooling and LifeQuality. There are 3 traditional claims against Basic Income. 1) That it is too expensive. Yet the social costs of poverty are higher. 2) People will not work if not forced to. On the contrary, most people want to self-realize, be social and contribute. 3) It is politically too complicated. True, this is most certainly serious a challenge, since UBI has actually has been a legal Human Rights obligation for all United Nations for 50 years - and in the EU for 20 years due to competition rules of State Aid. (See UU 2014.okt.17 about LQ, UN, EU, HR)

"All we need to agree on - is where we do not want to end" is a rather wise conclusion by a Dane minister. As a European, looking back at the previous century, most answers are in the previous century's 3rd and 4th Pyramid Games. Most agree on not repeating that, being intelligent and learn by those mistakes. However, still, there are Pyramid Games. The anti-thesis for this century is the P5GO (5th Pyramid Game Over) and the related models described in UU 2015.mars.13. This is the start of a new sub-theme 'IR4 P5GO' that will continue in the following blogs.

'Mr. Robot' is an American drama–thriller television series. The series follows Elliot Alderson, a young man living in New York City, who works at the cyber security company Allsafe as a security engineer. Constantly struggling with social anxiety disorder, dissociative identity disorder and clinical depression, Elliot's thought process seems heavily influenced by paranoia and delusion. He connects to people by hacking them, which often leads him to act as a cyber-vigilante. He is recruited by a mysterious insurrectionary anarchist known as Mr. Robot and joins his team of hacktivists known as fsociety. One of their missions is to cancel all consumer debt by destroying the data of one of the largest corporations in the world, E Corp (which Elliot perceives as Evil Corp), which also happens to be Allsafe's biggest client.

The pilot premiered on multiple online and video on demand services and the series was renewed for a second season before the first season premiered on USA Network. Mr. Robot has received critical acclaim

and has been nominated for and won multiple awards, including the Golden Globe for Best Television Drama Series and was recognized with a Peabody Award, received six Emmy nominations and Malek winning for Outstanding Lead Actor in a Drama Series.

The association to this blog about IR4, is the abuse of unfortunate youngsters by all means to cause CCD (Colony Collapse Disorder).

Music is used extensively in the Mr. Robot TV series. Here is a playlist of:

Mr. Robot Soundtrack - Season 1 & Season 2 Best Songs

<https://www.youtube.com/watch?v=SAqEdpWxRTk&list=RDSAqEdpWxRTk>

00:00 Mr. Robot - Main theme song [Extended version]

06:11 Maxence Cyrin - Where Is My Mind (Pixies Piano Cover)

08:56 Schoolboy Q - Hell Of A Night

13:29 Love On A Real Train - Tangerine Dream

17:26 FKA twigs - Two Weeks

21:33 Zack Hemsey - Nice To Meet Me

27:51 Lupe Fiasco - Daydreamin' (Feat. Jill Scott)

31:46 Phil Collins - Take me home

37:38 Saint Saviour - This Ain't No Hymn

42:17 Public Image Ltd - The Order Of Death

47:09 Dusty Springfield - You don't have to say you love me

50:00 Kraftwerk - The Hall of Mirrors

57:47 The Moth & The Flame - Les Deux Love Orchestra

Extra UU – 4th Industrial Revolution – IR4 Videos

Here are some videos about the IR4:

“IR4 (The Fourth Industrial Revolution) builds on the Digital Revolution, representing new ways in which technology becomes embedded within societies and even the human body. IR4 is marked by emerging technology breakthroughs in a number of fields, including robotics, artificial intelligence, nanotechnology, biotechnology, The Internet of Things, 3D printing and autonomous vehicles.”

Lene Lovich - The Night (Frankie Valli and The Four Seasons Cover)

2017.mai.12

Ukens Utvalgte

The Quality of the Constitution is fundamental to any civilization. The recent outcomes of Brexit, Nexit and Frexit indicates that the 5D shift in the Parliamentary systems must be thoroughly evaluated. Moreover, the removal of the US FBI head indicates the existence of a para-FBI within the US. Most fortunately, the Western nations have entered the phase of perceiving such realities, - after the first phase of shocks and denials of their dysfunctional state. Now, it is time to deal with the realities, even though preventive maintenance might hurt some. Still, one major technocratic fact has been denied too long; - that 'Big Red' is not 'Big Blue', - but quite the contrary. Such mass-psychotic dilution and fatal consequences have been pinpointed for years, yet still in a denial phase. Now the traumas in the Western US, EU and NATO Constitutions are real and evident.

The intention of this blog is to set focus on some cyber issues in the eve of this 4th Industrial Revolution. In order to do so, several previous summaries are quoted about the abuse of technocratic dysfunctions. Focus is mainly set on; The recent removal of the US FBI Head; This 5th Pyramid Game and its relation to the 3rd International's Conditions; The Quality of LEJ (Legal, Executive and Judicial Parliamentary Powers) and; The radicalizations of the IT industries. This is vital now, since the world war of secret services became official in 2017.1.1.

First of all, the removing of US FBI head was a desperate move in a CdE Game that is about to fail. The sole purpose is to hinder the US's own Secret Services to investigate any Russian meddling in the US election; the Russian associations in White House, and the remote-controlled President of US. The president did not even inform the FBI head, James Comey, that was fired, but let the mass-media spread a gossip. This is secret services indeed, - yet apparently not by any US organization. Three heads are removed earlier; chief federal prosecutors Sally Yates, because she followed the Justice Department instructions rather than the President's contradicting immigration order; chief of federal law enforcement officer Preet Bharara due to compromising contacts with foreign agents, and; first national security advisor Michael Flynn for misinforming the vice president Mike Pence about the Russian communications.

The Moves are evident, - when knowing this is really a CdE Game, - where the ethics are based on the saying; 'Honesty is for suckers'. The NY Times and CNN writes: "Days before he was fired, James asked the Justice Department for more resources to accelerate the investigation of Russian interference in the US presidential election." "The Senate's pressures did force a potential showdown of the investigations by the President's administration. It appeared unlikely that the Justice Department or the White House would do so, though. However, the officials of the President's and other administrations' have demanded the investigations of them to end." "Still, the White House denies that removing the FBI head is related to the investigations. The Justice Department spokeswoman even said that the FBI chief's request was 'totally false', - without elaborating further on that." Comey himself writes about his removal; "To all: I have long believed that a President can fire an FBI Director for any reason, or for no reason at all." "The American people should see the FBI as a rock of competence, honesty, and independence." "My hope is that you will continue to live our values and the mission of protecting the American people and upholding the Constitution."

In brief, there seems to be a full scale internal war between all the US LEJ powers now. The dysfunctionality imposed on the FBI is as controversial and corrupted as the 'Saturday Night Massacre' when President Richard Nixon's terminated Archibald Cox that investigated the Watergate scandal. However, such Games are not about persons, but about organizations, - highly dysfunctional such. The most obvious explanations for such self-damaging acts are that there certainly is a fully operational Para-FBI within the US Constitution. Such an anti-FBI is probably remote-controlled by the FBI most powerful rivals, - like the new Russian MGB (Ministry for State Security) and its Chinese role-model MSS. (UU 2016.sept.23 & UU 2014.nov.28) Anyways, there is no doubt that this is organized crime of High Treason. The question is then

whether the quality of US Constitution includes proper immunity to hinder the a scenario like '5D-2 – RAF White House' that is described in UU 2017.feb.24 (See the series of 6 US CdE scenarios in UU2017.feb.10 to UU 2017.march.17).

France was exposed to massive cyber-attacks in its most critical phase of their President Election too. Wikipedia writes: "A report published on 25 April by the Japan-based security firm Trend Micro alleged that a group of hackers was targeting the (President candidate) Macron's campaign. The group, known as 'Pawn Storm', better known as 'Fancy Bear and 'APT28' (Advanced Persistent Threats), is believed to be linked to the Russian state, and was responsible for previous attacks, including on TV5Monde in April and the Bundestag in May 2015. In particular, the group attempted a phishing operation, registering four domains strongly resembling those actually used by En Marche! (Macron's campaign), of which three were domiciled in Ukraine and one in France." The Russian secret cyber services probably hoped to alter the French president election with compromising information, and indirectly favoring the anti-EU and anti-NATO candidate, Le Pen. However, Macron's staff anticipated such a repetition of the attacks on the US President election. The French counter-fought the cyber-attacks successfully. The new French president (Macron) will probably engage the Europol and the European Parliament for preventive measures against such international crimes against any European parliamentary system.

The Information Technology (IT) and Cyber powers was the main focus in the blog is called the 'P5G010 – PROSA Technocracy' (UU 2016.sept.09). At that time, the theme was related to the EU and thereby those 12 blogs. However, it is the very similar and fundamental problem for NATO, EU and US. Here are some quotes from the blog that can be related to the 50 additional blogs about to the US and 'the West in general'.

- "The sociopathy of the 5th Pyramid Game aims to cause dysfunctionalities (dystopia), like the previous 4 Pyramid Games caused CCD (Colony Collapse Disorders) and World Wars. Therefore, it is important that 'Western' Parliamentary Democracies strengthen their superiority over technocracy. In order to enlighten the issues, this main focus is set on the criminal '21 Conditions of the 3rd International'. This will show that the previous failed CdE (Coup d'Etat) -attempts are main reasons for present abuses of Information Technocracy in the Parliamentary System. All related organizations suffer from the corruption in economy, politics and legality, - as talked through in blogs like UU 2015.juni.05, UU 2015.juni.26, UU 2014.okt.17, UU 2013.nov.01 and UU 2013.sept.27."
- "(The 5) Internationals, refer to the (obligatory) conditions, most of which were suggested by Vladimir Lenin, to the adhesion of the socialist parties to the Third International (Comintern) created in 1919." The 3rd condition says: "In almost every country in Europe and America the class struggle is entering the phase of civil war. Under such conditions the communists can place no trust in bourgeois legality. They have the obligation of setting up a parallel organizational apparatus which, at the decisive moment, can assist the party to do its duty to the revolution. In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity." Wikipedia has been able to publish the high treasonous conditions of the 3rd international. Similar conditions to the present 5th International (5th Pyramid Game) are obviously much more treasonous and destructive.)
- "With the Gulag colonialization program, workers were radicalized by 'Red Mafia' methods - in order to make bureaucratic schizophrenia with 'parallel apparatus' within the prey nations. International masspsychosis were propagated by national mass-media, like TV, papers, radio, tele companies and cultural events. Such were subsidized by the nations' own budgets and favored PROSA Oligarchs by regulations. All this is illegal and even treasonous by penalty laws, - executed by remote controlled Labour parties and Unions – like some avatars."
- "During the 5 Pyramid Games, the Information Technology (IT) has developed from 1) Pen, 2) Telegraph, 3) Telephone, 4) Television to 5) Computers. All these new technologies caused industrial revolutions that were abused by the para-Technocracy at their times, - inspired by concepts of parasite organizations. Therefore, some bits from previous blogs are relevant hints for the present and future Technocratic Games."
- "Originally, IBM's predecessor, CTR (Tabulating Machine Company) by and Hollerith, had relation to Russia and Tsar Nicolas II before WW1, as well as Stalina Automobile Plant and Germany before WW2.

It is publicly silenced that CTR/IBM was an active and important actor for both Soviet Union (SU) and Germany before WW2. IBM might also have got 'grandiose besserwisser' inspirations, re-valuations of ethics, 'half truths', imperial 'take-it-all-politics' and disfavours of democracy. However, Watson Sr. and Jr. are the patriarchs of IBM's with democratic tendencies. They represented the motto 'Think'. However, IBM became involved with the US government and military during the cold war. That was probably controversial in relation to Russia. Stalin's close relation to Mao was further challenged with IBM's engagement in the Korean war. An internal cold war inside IBM might have developed by those strong external influences." The organizational Ego was about to split." (UU 2013.dec.13) However, no one should Think that the present IBM brand Watson has anything to do with the previous democratic values of Watson Sr. and Jr.

- "Most alarming is the recent take-over of all IBM Intel Server in all NATO nations public and private sectors. (See UU 2014.nov.28.) Big Blue made Big Red by handing over the needed resources, network, servers and technology to execute considerable IT hacking, espionage, and info/money manipulations." NATO nations' public sectors do not seem to realize that most of their main IT systems are now legally in Chinese control too." Dane public IT shows serious indications that the social Superior Egos is on a destructive paths that might become irreversible. The whole LEJ might be involved." (UU 2015.nov.06 & UU 2014.dec.12) An example of IBM anti-democratic is the evident abuse of Lotus Notes. It was 'built to fail' by not using the architectures of 'relation databases', but dysfunctional catalogues. However, IBM bought Lotus and used it aggressively toward Microsoft democratic technologies, - very aware that the enterprises and users taking the bait eventually became dependent on IBM's technological dysfunctions and their 'international business machine'.
- "It is most crucial to realize the sociopathic warlike 4th degree Games going on in the national IT & Tele enterprises, public ones as well as commercial ones. There are also evidently indications that Nor Tele sector is as abused as the Dane IT sector. Despite serious warnings from NATO allied, Telenor has let the Chinese anti-NATO Huawei massive installations of G4 mobile network. The equipment has all capacities for illegal monitoring, manipulation and other foreign secret services. When established, a concerned newspaper hired an independent security company that registered most serious unregistered monitoring of mobile communications in governmental, financial and industrial centers in the capital Oslo. The head of PST (Norwegian secret service, like Dane PET) denied any illegal activity and closed the case in 6 months. However, now the government has allocated 12 million Kr to fight illegal mobile monitoring. Now, a major corruption case causes major political scandals. The Telenor related company Vimpelton has been involved in heavy corruption in Uzbekistan for years. Nor Telenor and Dane TDC are apparently competitors in Denmark, but very close in reality. (See related links below.) This close relation TDC/Telenor relations to anti-NATO actors concerns America as well as European nations, - just like the Moscow thesis does. Unsound psychosocial neuro-systems, like some S-E/S-I relations, might be on destructive paths that might become irreversible."
- "However, true Parliamentary authorities must differ between willing and forced PROSA workers, when investigating such PROSA crimes. In fact, criminal law is stricter to public servants than to civilians. Yet, public servants are rarely sentenced for their crimes even though the scandals of low quality services and expenditures are far too high. It is proof though, of too much fraud and corruption, - like in mafia-dominated markets (UU 2015.okt.23). Most public laborers are forced by violent mafia organizations that are related to the so-called 'Red Mafia' (see video link). The threats of Underworld Games were talked through in the previous UU 2016.juli.15 'P5G003 – PROSA Pension'. Although any member of a high treasonous organization can be guilty by association, there are exceptions, - like for civil criminal relation, - by supporting the true Parliamentary system to improve the LEJD Quality by unclinking the criminal 'parallel organizational apparatus' (C3)." (UU 2016.juli.22)
- "IT crimes is a vast field that the 15 video-documentations in the Computer World -article provide some overview and insight to. Some circumstances are that; the search for hackers is too often outside the 'firewall', while it is often 'an inside job'. In fact, ordinary IT supporters get full 'administrator rights' to the whole IT system, - and thereby get collective anonymous 'administrators rights' that includes full rights to read, change and delete any information in the whole IT system and any user's data-files. However, upgrading the IT system to newer versions limits these rights to what is necessary for the 'administrator'. Such restrictions can be the real reason for internal resistances towards modernizing of public IT – there are para-organizations within the enterprise. Furthermore, any citizen (in Denmark)

has a public IT ID. However, the security by Java/Oracle is too often compromised that the security level for the citizens has become hazardous. It is symptomatic for such policies though, that the bank ID cards and CPR ID cards are without pictures and thereby not identifiable. All in all, as mentioned 20 years ago, it is alarming that the (Norwegian) Public department for economic crimes do not have a division for the public sector, - like public servants are some 'untouchables' to the Penalty Laws." (UU 2013.okt.25)

- "China has now the personal identity and medical records of all Danes. Quite alarming and almost unnoticed. Unencrypted data-files with 5 million CPR (central personal register) identities and related data from SSI (Statens Serum Institut) was delivered via ordinary mail to the Chinese Visa Authorities in Copenhagen. Any resident in Denmark gets a CPR even though they are not a citizen. The event was claimed to be an accident and that the data has never been entered. However, it is highly likely that some organizations related to the secret services of China (MSS) and Russia (FSB) do abuse the data in violations to the Legalities of European Human Rights. 5th Pyramid 'suckers' might claim otherwise and prevents further investigations and not get official insurance that China (and Russia) do not Danes CPR and health data." (UU 2016.sept.02)
- "Now, it is crucial that the NATO nations takes control over their own IT infrastructures. The timing has never been more critical and binding for the future. NATO considers now the threats of IT crimes larger than any other threats, - even larger than nuclear war. Some security methods are well known and should be deployed long ago, - like; an obligated use of advanced password procedures; using secure websites with https instead of merely http, controlled firewall rules; deployment and updates of antivirus and anti-spyware software; security clearance of IT personnel; limited IT 'administrator' rights and personally identifiable administrator acts." (UU 2014.mars.28)
- "However, there were far more serious long term massive aftermaths. Although not apparently directly related, there are events and results that highly indicate so. Soon after Medvedev's good-will tour (in US), there were massive exposes of so-called 'whistle blowers'. Some of the most focused ones are: Bradley Manning who was convicted of violating the US Espionage Act that sentenced to 35 years in US prison. The Australian publisher and journalist Julian Assange, the editor-in-chief of the website WikiLeaks, which he co-founded after an earlier career in hacking and programming. Edward Snowden, a former system administrator for the CIA and a counterintelligence trainer at DIA that leaked masses of classified information from the NSA. Snowden is recently granted 3 years refuge in Russia and is offered Russian citizenship. Actually, it seems that he has been with SU all along and a citizenship will certainly label him with a history as another double agent. Anyways, even with the massive information about the global cyber wars, - the public knowledge is obviously merely from scenes at the stage." (Taken from the BBC documentary 'Putin, Russia and The West' in UU 2014.nov.07, UU 2014.nov.28, UU 2014.nov.21 and UU 2014.nov.14.)

Now that England is Moved into the Brexit Game, the English Human IT Rights are in jeopardy, by rejecting the EU regulations of the GDPR (General Data Protection Regulation). Like some cyber finance center in London is called 'Londongrad' (UU 2016.aug.12), - just as murky are some IT datacenters in London. The video 'From Rio to Roskilde' in the Extra UU, indicates the actual potential of massive abuse of personal data. The mobile users did not know they were in IBM's Big Brother processes with their datacenter in the IT Haven of London, - just like a '1984'.

Furthermore, these are attempts to sum up to some conclusive proposals, in addition to all the hints in this blog, in order to promote 'Western' democratic parliamentary nations during this phase of the 5th Pyramid Game:

- "Laws are simply any society's operating system (OS). Realizing that the technocratic state machine is simply like a computer, - it is obvious that; it has many faults due to decay, outdateding and manipulations; that there are critical upgrades and fixes that can be deployed immediately; and that should have decades ago to reduce crimes. Knowing the warlike Games of IT industries in the public sectors, and the unsound organizational mentality behind, - it is obvious that the very same Games are played in all of LEJ (Legal, Executive and Judicial Parliamentary Powers). Much of the delays, incorrect and terminated ratifications of Parliamentary Law are obviously not due to

- technical errors, - but to PROSA Technocrats. It is all about protecting PROSA crimes and criminals, - as stated in the 21 Conditions of the 3rd International. The solution is simply, - Rule by Law.”
- “The term ‘The 4th State Power’ is a mass-propagated illusion. The real 4th Parliamentary power is Democracy, not technocracy and bureaucracy. That mass-psychopathy was a main reason for the genocidal warfare towards humanity in the previous century. Realizing that 5D history, it is obvious for anyone that Humans are above machines, - never the opposite. The solution is simply, - Rule by Human Right Laws.”
 - “There are hyper-democratic solutions to the mass-propaganda and mass-psychosis of PROSA media, as stated in the 21 Conditions of the 3rd International. A cure for mass-psychosis is to disconnect from the mass-media of the 4th Pyramid Game, - i.e. state dominated para-media of TV, Radio and Papers. It is very simple to end the subscriptions. Next, use the computer and internet instead. Soon anyone realize what the world media offers this century. Have a look at the extra UU TED talks to get an idea of what the rest of the world talks about.”
 - “The Bureaucracy need innovation of technocracy. It is not that different from upgrading any IT system to virtual solutions. There are Return of Investments (RoI) in 2-3 years due to the savings from bounding maintenance costs of Oligarchs ineffective, expensive and faulty IT systems. Knowing very well that the Coldwar in the public sector was to double the numbers of employee, as para-organization, - it is about time to free all the resources from the Coldwar bondages. However, most important, even though Big Blue was pro-NATO once, - Big Red is now anti-Western and anti-democratic. There is no way that loyal public servants can ignore that vast security threats Big Red opposes. Therefore, build new bureaucracies with today’s technologies and migrate loyal public servants to the ‘new buildings’.”

The Global war of Secret Services became evident in 2017. The goals are to deliberately cause dysfunctionalities on the rivals; the means are ‘dark nets’ of Cyber IT; the concept is ‘the 21 condition of the 3rd International’ and; the methods are Underworld Games – Jackal Style. Here, in this series of blogs, - it is called the 5th Pyramid Game and the anti-thesis is called P5GO (5th Pyramid Game Over). This is a cloudy war of mutual traumatizing of empires, nations, organizations and individual humans. We can do better than that, - even during the 4th Industrial Revolution. It is rather easy, though. We all know how-to. Just use common democratic sense, the professional knowledge about sound LifeQuality and proper healing organizational dysfunctionality.

 “ ‘The Night’ is a song by Frankie Valli and The Four Seasons that was originally released in 1972. Although it failed to chart when first released, it became a popular track on the northern soul circuit, which led to a successful UK re-release in the spring of 1975, when it reached no. 7 on the Official Chart. The song sees Frankie Valli pleading with a girl that he admires to resist the advances of another guy.

Valli cited this song as an example of a song that should have been a big hit on first release, but didn't chart due to poor promotion by the MoWest label.”

Lene Lovich honor the song ‘The Night’ with a cover version. She is another artist that is undeservingly unknown, even though many can recognize the songs like ‘Lucky Number’ and ‘I think we’re alone now’. She is not Russian, even though her cloths might seem so. The inspiration might come from her father that came from Serbia, a nation that was dominated by SU at that time. Her name is short for Lili-Marlene Premilovich. Her theme about travels and freedom stems probably from her earlier years in US and UK. She has a life-long experience in theaters, movies and music. Besides her life-mate since she was 13, Les Chappel, she worked with the artists Thomas Dolby, Nina Hagen, Erasure – and surprisingly for VDGG fans, - Peter Hammil and Judge Smith.

The association to this song is that some second thought might appear in some Manhattan Tower these days.

Ukens Utvalgte

‘Nashism’ or not ‘nashism’ - that is the question to the French president election this Sunday. Similar decisions have hunted the Europeans during the centuries of Pyramid Games, - and long before that. ‘The ghost of the nashi queen’ was a meme mentioned in a recent blog. That is taken further in this blog to discover the origin of such an archetype. This focus is set on the 1000 years old intrigues between France, Denmark and Belarus, - i.e. Novgorod and Normandie. In fact, there are even older biblical references in Adams and Abrahams wives. That influence the collective Conscience Will by OverConscience Belief and UnderConscience Drive. Such can be argued that; although occult personifications might not have existed, - the Belief in them is very real and do influence the powers of States and Thrones as well as Temples.

History books relate mainly to nations and persons. Therefore, this blog about archetypal memes relates to them too. Still, there are good reasons to do some historical 5D scenarios for those collective perceptions. The French and Danes had important relations several times through the history, mostly with

fatal outcomes, though. Relations can be dated as far back as the 13th century. However, Dane history writings was single-sided at that time. Today's Danes' names have different origin, like the royal names. In fact, those events were dominated by the Novgorod region, - the present Belarus. For example, the present Dane name Valdemar was originally the Russian Vladimir – and the present Dane name Margit means pearl in Arabian. To pursuit that, here are some brief descriptions of the matriarchs and patriarch of that time.

- Valdemar is a Germanized version of Russian Slavonic name Vladimir. It means 'renowned ruler' (fame" + power). It was introduced into Scandinavia by the 12th-century Danish king Valdemar. Vladimir may refer to: Valdemar den Store, Valdemar Sejr, Valdemar 3., Bishop Valdemar, Duke Valdemar, Valdemars wall and Valdemars castle.
- Valdemar I of Denmark, (Valdemar the Great, Valdemar den Store), was King of Denmark (1146-1182). He was the son of (Knut) Canute Lavard, a chivalrous and popular Danish prince, who was the eldest son of Eric I of Denmark. Valdemar's father was murdered by Magnus the Strong days before the birth of Valdemar. His mother, Ingeborg of Kiev, daughter of Mstislav I of Kiev and Christina Ingesdotter of Sweden, named him after her grandfather, Vladimir Monomakh of Kiev. When Valdemar was fifteen years old, King Erik III Lamb abdicated and a civil war erupted. Later, Sweyn hosted a great banquet for the three kings Canute, Absalon and Valdemar. The two other were killed and Valdemar became the sole king of Denmark, whilst his friend Absalon became bishop, probably not roman catholic, though. The present perception of history was merely written by their friend Saxo.
- Sophia of Minsk was a Danish medieval queen to King Valdemar. Her father was probably Volodar (Vladimir the holy) of Minsk that united the Belarusian principalities of Minsk, Polots and Hrodna under his military rule. Sophia was the half-sister of Canute V of Denmark and was betrothed to Valdemar to form an alliance between Denmark and Sweden. She was promised 1/8 of Canute's estates, but was not old enough to marry yet. Sophia is described as beautiful, dominant and cruel, since she murdered Valdemar's mistress Tove in a sauna, injured his sister Kirsten and was widowed in 1182. Later, she became a landgravine of Thuringia/Germany.
- Ingeborg Valdemardatter af Novgorod (1175–1236) became the queen of France, but was locked away. She was a daughter of Valdemar I of Denmark and Sofia of Minsk. She was renamed Isambour and marriage to Philip II of France after the death his first wife Isabelle of Hainaut/Belgium. However, the king left his queen after the wedding night and imprisoned her. A French council declared the marriage void, but the Dane delegation convinced Pope Celestine III otherwise. Philip re-married with Agnes of Merania, a German heiress, even though the pope prohibited that. King Philip motives for the marriages were obviously money, royal alliances and military support. (The name Ingeborg relates to the goddess Ing (Frej) and borg, i.e. protection, castle.)
- Margaret is a female first name, originally derived from Persian 'morvared' meaning pearl or flower. Other spelling variations are French (Marguerite) and Latin (Margarita) from Greek Margarites. Margaret has been an English name since the 11th century, and remained popular throughout the Middle Ages. Margaret has a large number of diminutive forms in many different languages, for example queen Margrete 1 and 2 of Denmark.

Just by knowing the conquerors' real names, their superior-powers of Thrones, States and Temples can be discovered. Aware of this, it seems obvious that Denmark, like the rest of the Baltic region at that time, experienced invading powers, working from within and cloaked as domestic cultures. If so, the forces at that time were driven by ideas similar to the present Nashism (Наши/Ours).

Even the origin of the Dane flag, Dannebrog, is questioned these days. The ongoing Dane TV-series 'Danmarks Historie' (History of Denmark) changes the Danes the perceptions of Dane history, - even the story of the most valued relic. Dannebrog is believed to be the eldest national flag there is. There are basically three historical sources to that legendary campaign by the Dane king Valdemar II (Vladimir II) against Estonia. The legend says that the Danes were nearly defeated when a lamb-skin banner depicting a white cross fell from the sky and miraculously lead to a Danish victory. This superstitious story is obviously a cover-up. An undocumented version from the new Dane TV-series claims that a similar flag was used in Germany at that time. Therefore, the Estonians might have recognized the flag as friendly. If so, king Vlademir succeeded in an ambush by abusing a false flag.

There are also similarities to the situation of the 13th century's Dane Queen in France and the present 'King of Denmark'. The French-born Henri de Laborde de Monpezat was married to the crown-princess Margrethe. When she became queen of Denmark, Henrik was denied the title 'king'. He lost the public respect and was constantly humiliated by the mass-media. This is apparently a psychosocial immature Game of revenge for the French intrigues related to Queen Isambour (Ingeborg Valdemardatter) - 800 earlier. Similar classic Games are Jante, TUD (The Ugly Duckling) and TLM (Two Little Maids). (Anyways, this blog is not about such deliberate post-war dysfunctionalities of the European Thrones. Such issues can be read about in UU 2017.april.07.)

ROC, the Russian Orthodox Church, was most certainly a superior power in the 13th century. It played Games of DAC/UAC (Divide&Conquer/Unite&Conquer) towards at the Russian, Dane and French Thrones, as well as the Roman Catholic Temples. The Superior powers in Europe was altered at that time. The State, as in Roma1 was disabled. The Temple, as in Roma2, was dysfunctional after the riots by 'the Pirates of the 4th Crusade'. The Thrones were divided and weakened. Some clips from Wikipedia sets the relations.

- "The Christianization of the Rus' people is supposed to have begun in the 860s and was the first stage in the process of Christianization of the East Slavs which continued well into the 11th century. Despite its historical and cultural significance, records detailing the event are frustratingly hard to come by, and it seems to have been forgotten by the time of Vladimir's Baptism of Kiev in the 980s."
- "While Russia lay under Mongol rule from the 13th (Genghis Khan's army entered Russia in 1220s) through the 15th century, the Russian church enjoyed a favored position, obtaining immunity from taxation in 1270. This period saw a remarkable growth of monasticism."
- "In the 13th century, the fragile unity of Kievan Rus' disintegrated due to nomadic incursions from Asia, which climaxed with the Mongol sacking of Kiev (1240), leaving a geopolitical vacuum in the region. The East Slavs splintered into a number of independent and competing principalities. Due to military conquest and dynastic marriages the West Ruthenian (Belarusian) principalities were acquired by the expanding Lithuania, beginning with the rule of Lithuanian King Mindaugas (1240–63)."

It is apparent that the ROC let the Mongols pass through Russia and into Europe, - like some hordes of biblical proportions. Also, the Mongolian concept of 'tax & terror' seems to be a mean of ROC christening in the Nordic region. However, the conversion of heathens by sword is the very same way used by Muslim janissaries at that time, - as well as the present extremists of Islamism. If so, modern occult archetypes of angels and demons related to the Quran might have been temporarily abused in the wars towards the ethnic Nordic peoples. Anyways, - the expression 'the end justifies the means' goes for Nashism too. Though, misinterpretations of 'end' and 'mean' can be fatal in biblical terms.

Archetypes are fundamental and might be identified in original tales and scripts. One previous blog says: "The prophet Abraham is an archetypical patriarch for the 3 monotheisms; Judaism, Christianity and Islamism. It is often talked about, like in UU 2015.jan.23, UU 2013.aug.02 and UU 2012.jan.13. In brief, Abraham was sent from Persia to rule some newly conquered land from Egypt about 2000 BC. (That was the time for the previous shift of Age/Era, from Taurus/ox to Aries/goat.) There was a royal reception in Egypt where Abraham brought Sarah. It is unclear what their goal was and what really happened, except that Sarah became sterile instead of pregnant. Back home, Abraham got his firstborn son Ishmael with the Egyptian 'slave' Hagar. Sarah expelled them and they might have returned to Egypt and formed a Persian-Egyptian family branch. Later stories of the prophets Moses and Jesus indicate such relations." The fundamentals to the conflict is mentioned in UU 2014.dec.19, UU 2015.jan.30 and 2017.april.14.

Occult archetypes should most certainly appear in the biblical beginning too, the Genesis. The pantheism of the time had lots of gods, prophets and mythological beings. Most scripts did not pass into the Old Testament and were definitely excluded from the New Testament. Most of these are found in the pre-Islamic occultism, though - and still referred to in the Quran, like Djinn and Angels of various kinds. Some are even worshiped, although considered demons. A most archetypical such is Lilith.

- Lilith (translated as 'night creatures', 'night monster', 'night hag', or 'screech owl') is a figure in related to the Old Testament and was developed in the Babylonian Talmud (3-500 AD). The archetype derives partly from a class of female demons in ancient Mesopotamian religion. The occult mythology says that

Lilith was made of the same soil as Adam and was his first wife – before Eve. In the 13th-century writings, Lilith coupled with the archangel Samael. She left Adam after she refused to become subservient to him. She could not return to the Garden of Eden, - that she probably considered her home place. The resulting Lilith legend continues to serve as source material in modern Western culture, literature, occultism, fantasy, and horror.

- Samael ('Venom, Poison and Blindness of God) is an important archangel in Talmudic and post-Talmudic lore. He is an accuser, seducer, destroyer and said to be the angel of death and tempts people to sin. Samael has been regarded as both good and evil. According to The Ascension of Moses, Samael is also mentioned as chief angel of the fifth heaven and commander of two million angels such as the chief of other Satans. (That test of Moses in Heaven led to the fall of 1/3 of the angels, since they could not comply to the claims that God made Adam superior to them.)
- The Greek Lamia is related to Lilith. Lamia bore the title 'child killer' and was feared for her malevolence, like Lilith. She has different conflicting origins and is described as having a human upper body from the waist up and a serpentine body from the waist down. Hera slew all of Lamia's children (except Scylla) in anger that Lamia slept with her husband, Zeus. The grief caused Lamia to turn into a monster that took revenge on mothers by stealing their children and devouring them. Lamia had a vicious sexual appetite that matched her cannibalistic appetite for children. She was notorious for being a vampire spirit and loved sucking men's blood. Her gift was the 'mark of a Sibyl', a gift of second sight. These were figures in the Roman, Russian and Greek orthodox occultism too. Their exclusive right to 'forgive sins' is a powerful mean in order to make someone do the 'sinful jobs' to achieve 'the end (that justifies the means'.

The influences of the archetypical Lilith, the femme fatale, are considerable to all the Pyramids Games in 'the West' during these past centuries. Some previous blogs, relate to the nashi cults.

- "Hypothetically, there is a 'Ghost of the Nashi Queen' - collectively funded in the biological Drive, the striving Will and the obsessive Belief. Such an archetype is exposed in theocratic matriarchs like Sarah and Cleopatra. It can also be related to this themes of 'The 5th Pyramid'. At the present, - there are political movements related to the so-called 'Putin Jugend'. The Nashi movements (Наша/Ours) is compared with Soviet Komsomol or the Hitler Youth (UU 2017.feb.24 and Wikipedia). Most 'Western' nations experience electoral fraud and CdE attempts by such cross-subsidized nova-nashi parties. The 3^3 psychosocial nature appears to be characterized by Game-categories of Drive/Animal-Farm, Will/King-Of-the-Castle and Belief/Game-of-Temples. The 'Ghost of the Nashi Queen' is not related to the true Belief in Superior-ID, Superior-Ego or Superior-Devine, - but rather the Game categories WoW (Well of Wisdom / Conscience Belief), SET (Supreme Extra Terrestrial / Conscience Belief) or UNO (Universal Natural Order / UnderConscience Belief). It is played never-ending destructive Games, believing that it promotes its own offspring. Figural, it is like some over-aged dysfunctional hen in a henhouse of Drive/AF, - playing a version of LYAHF (Let's You And Him Fight), called 'Cockfight in the Henhouse'" (CiH). (UU 2016.mai.27 and UU2017.april.14)
- "Nashi, the Putinized youth organization, turned unacceptable. Wikipedia says: "In 2012, the leader of Nashi announced that the movement would be dissolving in the near future, possibly to be replaced by a different organization. He stated that the movement had been 'compromised' during the recent presidential election. In 2008, the movement was divided into groups: Nashi-2.0, Steel, All Houses, Nasha Victory and other. Critics have compared it to the Soviet Komsomol or the Hitler Youth and dubbed as Putin jugend." In a Nordic view, it is remarkable that Nashi flag is like a diagonal Danish one and the neo-Russian flag is like a diagonal Norwegian one." (UU 2014.nov.14 and UU 2017.mars.24)
- "The Nexit, the 'Coup d' Etat' Game, failed. Netherland's parliament proved itself immune and democratic. The Nexit Game had one single purpose, - to divide Holland from its union of European nations, - leaving it an easy prey. The anti-western campaign-script was Nashi propaganda (Наша/Ours). The European authorities are now very aware of such Pyramid Games of emocratic and technocratic match-fixing. Now, there are proper anti-theses to fight such international electoral crimes. The unclouking of such a treasonous Game-concept applies to the upcoming Texit, Frexit and Gexit the previous Brexit, Dexit, Grexit, Uexit, Amexit, as well as the attempted Spexit,

Itexit and Auxit. In the spirit of the Nexit alpha-dog, this blog is adapted to the level of that kind of ethics." (UU 2017.mars.24)

- "Geert Wilders played an alpha-male to a Nashi script. In this 5PGO anti-thesis, he is of PROSA Separatist - supported by Oligarchs and activating the Anarchists. In this sexual/ID motivated variation of the LYAHF Game, the Dutch and Turks were set up to fight each other by a third and cloaked 3rd party. It is highly treasonous, though, when Geert Wilders proclaims that "the patriotic revolution continues" hinting to the upcoming Texit, Frexit and Gexit, as well as his homeland, Holland. The statement stems from the 3rd International, apparently adapted to the 5th. The attempts to cause riots and 'social-patriot revolution' was highly supported by the PPP's newest best friend, the Caliph-wannabe. His apparently anti-Wilders diplomats tried to force through anti-European campaigns in Holland with extreme diplomatic threats, - just a few days before the election. That anti-democratic abuse of the European Human Right 'Freedom of speech', was exposed and hindered, though. Now, the puppet presidents of both Russia and Turkey have exposed themselves as desperate to avoid their destined 13th conflict and consequently another annexation of Crimea." (UU 2017.mars.24)
- "It is evident that the PPE (Puppet President Erdogan) is played in Games by the PPP (Puppet President Putin). Although PPE gather support from Muslims in conflict with parties of nashism in Europe, the political messages are towards the European Leaders, even though they have sacrificed a lot to minimize racial and religious conflicts. The escalated conflicts towards Europe during the referendums were that; the Turkish mass-media intensified personal conflicts with Europeans daily; the new regime will legalize death penalty in contrary to the basic human rights; and the constitutional alternations are directly in violence with Turkey's membership in the ECHR. The Turkish government insisted on doing Turkish campaign in the Netherlands just a few days before the Dutch parliamentary election, which probably would have caused riot and promoted the domestic nashi party. The mass-media escalated expressions from Erdogan that he called several European leaders for 'Nazis', although the Dutch authorities actually prevented such racial riots. Erdogan also have proposed a referendum to end the negotiations with the European Union. The PPE even parroted the PPP by calling the Netherlands a 'banana republic', just like PPP did towards US when exposed to the US electoral fraud." (UU 2017.april.28)

Like in the Medieval Period, the present Belarusian influences on French politics are outdated and should be exposed for what it really is. The intentions have never been in French favor. The aftermath of this President election in France is an obvious occasion to do so – Frexit or not. Belarus is seriously unhealthy, underdeveloped and called 'the last dictatorship in Europe' (2017.april.07). It is even the sole European nation, not to recognize the European Human Rights. It makes itself comparable to North Korea. Even though Belarus might have been impressive once, some hundred years ago, it is by no mean inspirational to any nation now. Belarus is ultimately dysfunctional. Its cloaked Games of political manipulations are harmful to itself and anyone involved. Civilized nations should be particularly aware of the Belarusian political manipulations, just like the North Korean, and act accordingly.

Frexit, might be an end, if Marine Le Pen wins and France falls into nashism. She is just another Putinized mass-product of mass-psychosis- like Geert Wilders. They are both paid to do Nashi propaganda in European nations. The Le Pen family is apparently well paid to take the Putinized Nashism to the French ultimate power, - the president. The end is to make France anti-western by taking France out of NATO, EU and initiate war towards France's 'western' allied. Such a scenario is a re-run of the 0th Pyramid Game, - the French/Russian Napoleon wars - with a more masculine emperor-wannabe this time. (UU 2016.juni.24 and UU 2014.mai.16)

However, it does not really matter who becomes president. The European constitutional eyes are directed to France now. The European States will return the influences and interferences, - for the sake of humanity and democracy. Actually, it would be most interesting if Le Pen became president. She has so clearly, so many times, exposed herself as high treasonous. Even though the president might stay above the laws, - the corrupted associates would certainly be dealt with. Le Pen has set the spot-light on them all. They are all exposed now and will suffer in the upcoming anti-thesis of the P5GO (5th Pyramid Game Over). It will be

particularly interesting to see how qualified and capable the constitutional immune systems of France, EU, NATO and CoE really are.

Lastly, there must be reasons why there are archetypes of such ultimate evil, - like the Lamia and Lilith. Fortunately, for most people, such is merely horror entertainment - pure fantasy. However, if related to very real Belarusian/Dane/French societies, - it must be the occult ignorance in child psychiatry. Evidently, Dane minors get illegal drugs and sports-dope that damage their central neural systems. Based on occult psychotic pedocrats, the Dane child psychiatry diagnose their drug-influenced behavior as psychosis and neurosis, - like it is their own personality, - their own freaky faults. Next, the billion-dollar pharmacy industry get lifelong zombified minor clients that get addicted to expensive and damaging drugs. Such long-time mental rapes of minors' minds must be amongst the worst thinkable kind of violation. A Lamia is an archetypical meme for such kind child psychiatry. (Also see UU 2016.spt.02, UU 2016.juni.24, UU 2015.aug.28, UU 2015.juli.03 and UU 2015.mars.27)

The band Genesis is presented in this week's Extra UU

Genesis - Lilywhite Lilith

Extra UU – Genesis - The Lamia

The split of Genesis was traumatic for the band, Peter Gabriel and their fans. It happened in the period of making this double-album and to a Broadway play. However, the name Genesis was given a very different meaning when focusing on Lilith and Lamia. Finally, the original band Genesis ended and will never be united. In fact, Peter's loss of a child in the process was too much.

Still, there are other ways to enjoy the art. This professional video 'the Lamia' seems to be made to the Genesis lyrics. There are certainly great potentials in new-tech video productions to original music of the past. Furthermore, cover-bands like 'Musical Box', are licensed to reproduce the original concerts. Enjoy. Ironically, - no-one expects to see Shakespeare appear in his plays anymore. Yet, the plays are better performed than ever, - that goes for ended rock bands too. (Also see UU 2016.mai.06 & UU 2012.feb.03)

King Crimson - Cadence and Cascade

2017.april.28

Ukens Utvalgte

Turkey passed its 2nd phase of CdE (Coup d'Etat) this month. It was a scenery, covered up like democratic referendum, in order to elevate a democratic Prime Minister to an autocratic President. The 1st CdE phase was a scenery too, played out as an attempted military coup, in order to legitimizing a marshal law and autocratic purging of the parliamentary powers. The 3rd phase will probably be to re-create the theocratic Caliphate like the annexed Turkey in 1517–1924. However, such Games of Temples (GoT) are not of true religious Belief, but rather blasphemous Games d'Etat (GdE). In facts, Turkey appears to be just another 'prey nation' in a cascade of political CdE - like the rest of the NATO nations experience in these days of the 5th Pyramid. Similar to Greece and Italy, - Turkey has a historic foundation of millennia that has to be considered when making future 5D scenarios.

The 2nd Roma, the present Turkey, is a recurring topic in these blogs. It has become more relevant than ever during this UU theme 'The 5th Pyramid'. Still, the Caliphate was, and still is, as 'anti-western' and anti-democratic as it can possibly can be. It contests 'western' parliamentary foundations by claiming the man-made perception of Islam, like the Sharia law, is superior to any parliamentary constitution. In fact, the so-called IS (Islamic State) was originally named ISIL (Islamic State of Iraq and the Levant), which includes the south Turkey as well as Syria. Therefore, there should be no doubt by now that the present anti-constitutional processes in Turkey is a remote controlled CdE Game in order to convert Turkey to a nova Caliphate after the fall of IS in Syria.

The issues of 'The 5th Pyramid' and the nova caliphate is certainly too comprehensive to put in some blogs. However, here are some previous quotes to set some perspective relation. These first three subsections elaborate on the present CdE Games in Turkey.

- "The Turkish CdE attempt at 2016.07.15 is particularly interesting and should be investigated further, since it seems to be a Game within a Game. The 'failed breakthrough CdE' seems to be unmotivated triggered, as if the soldiers reacted to a 'false positive'. They were not supported by any alternative regime at all, like they were walking into a trap. Furthermore, the cleansing in afterwards seemed very well prepared and organized. Russia, that was a fierce enemy of Turkey before the CdE Game, became suddenly a close friend to the NATO nation Turkey. US was even accused for being involved in the CdE attempt. Russia was then allowed to arm the annexed Crimea without their objections. Anyways, who fooled the CdE para-organization in the Turkish army to attack their own government, - will remain a secret." (UU 2017.jan.27 and UU 2016.sept.23)
- "Less known, yet most crucial, is the island Cyprus as emphasized in UU 2014.dec.12 "Now it is very transparent that there are 4th degree CdE Games in relation to African guerillas, 'the Arabic spring' and IS of the Middle East." As mentioned in UU 2014.nov.21 "However, less mysterious is the Syrian war with several Muslim groups with loads and loads of Russian weapons, traded by murky oligarch via Cyprus. Nevertheless, the newest actor in Muslim self-genocides is the so-called IS, alias ISIL alias ISIS. It does not seem to be true religious at all, but rather another nova-RAF, - Jackal style. In fact, the L in ISIL mean Levant that includes Jordan, Israel, Palestine, Lebanon, Cyprus a south Turkey, - which indicates that Israel is a long-term goal. IS might as well mean 'Iblis State'." Furthermore, "Cyprus is a key-island and mentioned as a center for war-like trades of narcotics, money, human trafficking and weapons. (It makes associations to the 'Pirates of the 4th Crusade', see UU 2014.nov.28.) The island is strategically sited by the Suez Canal to the Pacific Ocean (Asia) and next to all the war-zones of Syria/Iraq/Iran, Albania/Kosovo, Turkey/Hellas, Palestine/Israel and 'Arabic spring nations' like Libya and Egypt. Cyprus is divided between Russia and EU; and functions like some cold-war Berlin outpost towards the Middle East." (UU 2016.juni.17 and UU 2015.okt.09)
- "Syria did not fall like other 'Arabian spring' nations in the cascade of CdE (Coup d'Etat). Russia have been an allied for at least 40 years and their oligarchs have armed Syria via Cyprus for decades. The

regime became highly robust. However, President Assad rejected a major weapons deal including heavy anti-air defense of SA15 & SA22. Russia then declared the Syrian president unwanted, like so many puppet presidents worldwide before him. Russia changed side and gave support to Syrian separatists in order to trigger a CdE. Somehow, a new faction of Syrian separatist became highly skilled in guerilla warfare, finance, organization, extortion, robbery and recruited extremists worldwide to reestablish a Caliphate. NATO became involved because of some blitz attacks in their capitals. (This became a theme 'Charlie' UU 2015.jan.09 to UU 2015.april.10.) However, NATO targeted the major separatist organization IS (alias ISIL alias ISIS) that definitely weakened the hard-core separatist organization IS. The UN proposed help to civil Syrians, but is blocked by Russia and China in the UN Security Council. Now, Russia have finally deployed the anti-air defense in Syria that certainly will protect IS from NATO attacks. Consequently, some speculates if parts of IS really are Russian agents. Furthermore, the fact that neither SU2, China nor SA (Saudi Arabia) helps the Syrian refugees, and veto the UN help, - tells most about the motives and involvements in this war Game of fourth degree." (UU 2015.okt.09)

Still, the Russian air defense system could not prevent the recent US attack on a chemical depot in a Syrian air-base. The failure of the Russian air-defense system was rather covered by accusations of diplomatic breaches, though.

However, historical perspectives are necessary to get a grip on the main objectives of this Game of the millennia. The present moves are not surprising, when doing a simple 4D analysis. Here are some subsections from previous blogs.

- "The foundation of a dominant occult variations of Christianity was constituted 500 years ago, as 'the 3rd Rome'. The phenomenon is talked through in several blogs like UU 2016.april.01, UU 2014.nov.28 and UU 2013.mai.31. In brief, the CdE Game, that radicalized the Christian capital to a Muslim Caliphate, was organized by some 'Pirates of the 4th Crusade'. The historical 5D event caused the decay and collapse of the 2nd Rome that later fell for the joint Mongol/Muslim annexation. Shortly after, some monk declared the minor dutchy Moscow as the 3rd Rome. The 'nova orthodoxy' proclaimed that there will not be a 4th Rome, because only the 'anti-Christ' could make the 3rd Rome fall. Ironically, such a Monty Python argument applies as well for the Russian orthodoxy in making a 3rd Rome, - proving that such ignorant idiocy is dangerously close to pure evil." (UU 2016.dec.23)
- "Catherine II ('the Great') ruled in 1762–96, presided over the Age of Russian Enlightenment. She extended Russian political control over the Polish-Lithuanian Commonwealth and incorporated most of its territories into Russia during the Partitions of Poland, pushing the Russian frontier westward into Central Europe. In the south, after successful Russo-Turkish Wars against Ottoman Turkey, Catherine advanced Russia's boundary to the Black Sea, defeating the Crimean Khanate. As a result of victories over Qajar Iran through the Russo-Persian Wars, by the first half of the 19th century Russia also made significant territorial gains in Transcaucasia and the North Caucasus, forcing the latter to irrevocably cede what is nowadays Georgia, Dagestan, Azerbaijan and Armenia to Russia." (UU 2016.mars.11)
- "The Ottoman (Sunni) Caliphate became the de facto leaders, representative of the Islamic world and defender of the Holy Cities of Mecca and Medina. Starting with annexation of Edirne, the empire grew to Anatolia, most of the Middle East, North Africa, the Caucasus, Constantinople (Roma2b), and deep into Eastern Europe." (Ref Wikipedia). Moreover, from UU 2014.dec.12: "Large-scale assimilation programs were set in motion after the Muslims invaded Roma2 (UU 2014.april.25). The Muslim got 10% tax while the Christians got 50%. Most infamous is the Janissaries (i.e. 'new soldier'), an elite corps of slaves recruited from young Christian boys. The number of Janissaries grew to 49000 at the most and they fought other Christians in Europe brutally. However ironically is the massive increase of Janissaries (music) corps in the Nordic folk-schools and LO (SU related oligarch trade union) during the Cold War. Too few seem to know the real history and missions, though." (UU 2014.jan.10 and UU 2015.jan.30) The current relation to neo-Roma3, neo-Mongolia and neo-Persia is daily in the news, although slightly different." (UU 2015.mars.27)
- "A caliphate is a form of Islamic government led by a caliph, a person considered a political and religious successor to the prophet Muhammad and a leader of the entire Muslim community. After Rashidun, the successor of Mohamed, there were many inherited monarchies that claimed to be caliphates. The Sunni branch claim that a Caliph should be elected by Muslims or their representatives.

The Shia branch claims a Caliph should be an Imam and Muhammad's direct descendants. ISIS declared itself a Caliphate in 2014, but is not accepted by any country at all." (Ref Wikipedia).

"Conclusive, an Imam might be a despotic caliph wannabe and intent to annex the residential nation, overthrow its government, annul the national law and take autocratic powers over the State, Throne and Temple. This is napoleonism (UU 2014.mai.16) and janissarism (UU 2014.jan.10) that violate the most serious paragraphs of any national penal law. Hesitation by authorities to act on the law is violations of the penalty law too." (UU 2015.mars.27) Likewise, a remote-controlled puppet president is necessary to trigger and promote the CCD (Colony Collapse disorder). Blaming God or Allah for own misdeeds is blasphemous and should be dealt with by true Believers – if anyone left.

Infiltrations with corrupted Puppet Presidents, of highly questionable mental states, are unfortunately methods too frequently abused. Puppet presidents have the thing in common that they are mentally unfit and remote controlled. Such are most commonly called 'useful idiots' in Pyramid Games with the ethic 'honesty is for suckers'. The processes of removing the PPT, also applies to puppet presidents like PPP, PPE and PPK (i.e. Trump, Putin, Erdogan and Kim). Alternatively, in order for the Parliamentary system to survive, they have to diagnose and solve the presidential situation in time. The democratic powers in the US seems to be able to start the process in time, - a bit too late though. Here are some relevant quotes.

- "Mental health experts claimed the President Trump was 'paranoid and delusional', and said it is their 'ethical responsibility' to warn the American public about the 'dangers' Mr. Trump's psychological state poses to the country. 'Worse than just being a liar or a narcissist, also he is paranoid, delusional and grandiose thinking. He proved that to the country the first day he was President', says Dr. Gartner, who is also a founding member of Duty to Warn, an organization of several dozen mental health professionals. James Gilligan, a psychiatrist and professor: 'I've worked with murderers and rapists. You don't have to be an expert on dangerousness or spend fifty years studying it like I have, in order to know how dangerous this man is.'"
- "Dr Gartner started an online petition earlier this year on calling for Mr. Trump to be removed from office, which claims that he is 'psychologically incapable of competently discharging the duties of President'. The petition has so far garnered more than 41,000 signatures. It states: 'We, the undersigned mental health professionals (), believe in our professional judgment that Donald Trump manifests a serious mental illness that renders him psychologically incapable of competently discharging the duties of President of the United States. And we respectfully request he be removed from office, according to article 4 of the 25th amendment to the Constitution, which states that the president will be replaced if he is 'unable to discharge the powers and duties of his office'."
- North Korean state media warned on about a nuclear attack on the United States at any sign of aggression. An U.S. Navy strike group steamed toward the western Pacific. President Donald Trump described as an 'armada'." "Trump, who has urged China to do more to rein in its impoverished ally and neighbor, said in a tweet that North Korea was 'looking for trouble' and the United States would 'solve the problem' with or without Beijing's help." "Tension has escalated sharply on the Korean peninsula in concerns that reclusive North Korea may soon conduct a sixth nuclear test and after Washington said it was diverting an aircraft carrier toward the Korean peninsula to show force."

Such attempt to trigger Korean nuclear war is certainly not in NATO or Asian interest. The massive infiltrations on PPT via PPP is now evident. However, related manipulations in the PPP, PPT and PPE trinity is also discovering. "On March 24, 2017, former Director of the CIA James Woolsey said that Flynn, while working for the Trump presidential campaign, attended a meeting with top Turkish government ministers to abduct Fethullah Gulen and get him to Turkey without going through the U.S. extradition legal process. Gulen is an opponent of the Erdogan regime and has been accused by the regime of plotting the 2016 Turkish coup d'état attempt." (Wikipedia)

There are serious indications that the self-made Puppet President Erdogan (PPE), have serious mental disorders too, - just like the PPT and the PPP. Here are some resent clippings with references to links below.

- "The American news publication Foreign Policy (FP) has described Erdoganism as an ideology fundamentally based on a cult of personality forming around Erdoğan and refers to it as a form of populist authoritarianism similar to that of Putinism in Russia. FP also describes the glorification of the Ottoman Empire (Ottomanism), Islamism, suspicion of western political intervention in the Middle East,

the rejection of Kemalism and the confinement of the democratic process to elections only as the key attributes of Erdoğanism.”

- Einar Wigen, at the Institute for cultural studies (institutt for kulturstudier) says; “I think that Erdogan’s tries to make a line between his Turkey and the rest of the world, in order to gather support before the referendum. I think the constitutional changes are vital to Erdogan, because they formalize the powers he has already ‘stolen’ and do execute. He seems to be in ‘survival modus’ now, because he risks being jailed if he loses the referendum. In the short run, he is willing to sacrifice the relations between Turkey and ‘the West’ to ensure his powers.”
- “So far, more than 35,000 citizens are arrested and 80,000 removed from their official jobs during the marshal law that Prime Minister Erdogan issued. The present Secretary General of the Council of Europe, Torbjørn Jagland, visited the opposition leader and the leader of the Turkish constitutional court. The all though they would get support according to the European Human Right Convention, even though the meetings were arranged after only one day of preparations. The counter-part, the Turkish foreign minister Mevlüt Çavuşoğlu, called Jagland the day before and he consider the support to Erdogan’s government as extremely important to them.” In contrary to the CoE, the general secretary Jagland have left the impression that; the Erdogan government has immunity during crimes under an unnecessary marshal law; that changing the constitutional law alters legality on previous governmental crimes; and that upgrading the prime minister to president will annul the former PM’s crimes towards humanity.
- The Council of Europe, in contrary to its General Secretary, published the ‘Proposed constitutional amendments in Turkey would be a “dangerous step backwards” for democracy’. Initially, it says: “The Council of Europe’s constitutional law experts, the Venice Commission, warn against a one-person regime in Turkey in a definitive, as-adopted, opinion on proposed constitutional amendments to be put to a referendum next month.” “The Venice Commission warns that by removing necessary checks and balances, the amendments would not follow the model of a democratic presidential system based on the separation of powers, and instead would risk degeneration into an authoritarian presidential system.” “Turkey’s parliament approved the amendments to be put to referendum, when several deputies from the second largest opposition party were in jail. The vote for approving the amendments was cast in breach of secret ballot, casting doubt on the genuine nature of support for reform and on the personal nature of the deputies’ vote.” (See link hereunder for the whole text.)
- The 2nd CdE phase is also discovered as a hoax. “The overall voting results to the constitutional changes was at average as yes = 59.1% and no = 40.9%. However, the foreign votes from Turks counted yes = 62.2% and no = 37.8.” (Wikipedia) (Note that, datafiles of foreign votes are known as particular vulnerable for anti-democratic hacking from organizations like ‘Cozy Bear’ and ‘Fancy Bear’.) “Turkish President Recep Erdogan has dismissed criticisms of the vote, saying foreign observers should ‘know their place’. The foreign ministry said that foreign monitors lacked objectivity and impartiality.” “The pro-Kurdish opposition Peoples' Democratic Party said it presented complaints about unstamped ballots affecting 3 million voters, - more than twice the margin of Erdogan's victory.” Furthermore, “up to 2.5 million votes could have been manipulated, says foreign observer. Council of Europe’s Alev Korun questions result as Erdogan wins mandate to enforce greater presidential powers.” “Turkish authorities are not cooperating with efforts to investigate claims of possible election fraud, according to a senior official in the Organization for Security and Cooperation in Europe (OSCE), which conducted a separate monitoring mission.” (The Independence) However, Turkey will not accept the warning from the Council of Europe in these serous anti-democratic issues. On the contrary, Turkey tells OSSE to ‘know their place’ when proposing to investigate the claims of organized electoral fraud. Consequently, the CoE sets extra focus on the development in Turkey whilst Erdogan characterized that as ‘illegitimate’ (hopefully without the help of its general secretary). (See link hereunder for sources.)

It is evident that the PPE is played in Games by the PPP. Although PPE gather support from Muslims in conflict with parties of nashism in Europe, the political messages are towards the European Leaders, even though they have sacrificed a lot to minimize racial and religious conflicts. The escalated conflicts towards Europe during the referendums were that; the Turkish mass-media intensified personal conflicts with Europeans daily; the new regime will legalize death penalty in contrary to the basic human rights; and the constitutional alternations are directly in violence with Turkey’s membership in the ECHR. The Turkish

government insisted on doing Turkish campaign in the Netherlands just a few days before the Dutch parliamentary election, which probably would have caused riot and promoted the domestic nashi party. The mass-media escalated expressions from Erdogan that he called several European leaders for 'Nazis', although the Dutch authorities actually prevented such racial riots. Erdogan also have proposed a referendum to end the negotiations with the European Union. The PPE even parroted the PPP by calling the Netherlands a 'banana republic', just like PPP did towards US when exposed to the US electoral fraud.

The present Turkey was originally called 'the second Rome' and 'the Christian Rome'. Therefore, it can be interesting to reflect the on the development in relation to the 5 present State empires that were suggested in UU 2013.mai.03 – UU 2013.juli.12. A brief (meta) T.A. analysis might be that; Roma3 wants Roma4 out of Roma2 in order to re-open the trade-routes with Roma5. This nova Marco Polo drama is not any less intriguing than the previous. Most of all, Roma3 plays desperate Games of 'Want Out' towards the destined 13th conflict of Roma2 vs Roma3. The 'human tsunamis' towards Roma3 is tried to be re-directed towards Roma1 instead. However, the PPP Game is discovered and counter-moves are taken.

In comparison to the US CdE Scenarios, - the US seems now to be able to stop its PPT at '5D-0 Contra-CdE' (UU 2017.feb.10 – UU 2017.march.17). Turkey and PPE have passed an equivalence to the '5D-2 – RAF White House' (UU 2017.feb.24) and their 2nd CdE phase do escalate towards an equivalence to the scenario '5D-3 – PRUSA 'the Peoples Republic of USA'' (UU 2017.mars.03). Anyways, similar analogies of 5D P5GO scenarios can be related to most nations involved in CdE Games.

What happens in Turkey now? First of all, the 7 days has passed, so the 'Arbiter coup' is per definition a 'success' (UU 2017.jan.27) Turkey has now an anti-ECHR constitution – in the same concept as Belarus (UU 2017.april.07). Therefor the next step will probably be a major cleansing of accused supporters to the exiled rival. That is simply another BGGG Game (Bad Guy – Good Guy) of the 4rd degree (civic war). The PPE will do such illegal cleansing of Turkish citizens since the altered law appears legal. Any objections will be violently silenced, like in other dysfunctional autocracies. Still, Belarus represents Roma3, not Roma2, and is autocratic Russian orthodox, - which makes such relations highly anti-Islamic, heretic and blasphemous.

What might happen next in Turkey? There are a few 5D scenarios for the 3rd CdE phase in Turkey. There might be a counter CdE, where democracy and the relations to European human rights are re-established; the defense alliance with NATO is normalized; and there is a clear a rejection towards caliph-wannabes and other remote controlled puppet presidents. Another 5D scenario is a real military coup like in Egypt with permanent marshal law instead of a civil parliamentarian constitution. One more 5D scenario is that Erdogan will be replaced with another caliph-wannabe when all the dirty work of the first 'scape goat' is done. No matter the scenario, the present caliph wannabe is merely a remote-controlled puppet president and will be replaced, - either he fails or he succeeds.

Anyways, all the damages on the outside world is not mentioned here. Yet, the situation is as when the Christian Roma intended to make 'Heaven on Earth' in Constantinople and caused 'Hell on Earth' on most of the real world outside its walls. (UU 2014.april.25)

King Crimson is an English rock band formed in London in 1968. The band has undergone numerous formations throughout its history of which 21 musicians have been members. Robert Fripp is the only consistent member of the group and is considered the band's leader and driving force. The band was seminal in the progressive rock genre in its first five years with its standard of instrumentation and complex song structures. Their debut album, 'In the Court of the Crimson King', remains its most successful and influential, with its elements of jazz, classical, and experimental music. Fripp disbanded the group in 1974. In 1981, King Crimson reformed with a change in musical direction which lasted for three years, resulting in the trio of albums. Following a decade-long pause, Fripp revived the group in 1994. Since then several musicians have pursued aspects of the band's work and approaches through a series of related bands collectively referred to as ProjeKtCs. In 2000, the band reunited once more. In 2009 the band undertook a tour to celebrate their 40th Anniversary and continue to perform live in various capacities.

Fripp recorded the second album with the Giles brothers, Collins, and Keith Tippett as guest musicians. The group considered hiring Elton John to be the singer, but decided against the idea. Lake then agreed to sing on the album except on "Cadence and Cascade", which is sung by Fripp's friend Gordon Haskell, as a guest vocal. King Crimson's also appears in UU 2013.Mai.24 and UU 2014.mai.02. The bassist Tony Levin has played with Peter Gabriel ever since his split from Genesis.

The association between the song and this blog is the cascades of cadences related to Games of CCD and CdE. Yet, the lyrics can certainly be interpreted in many ways, though.

King Crimson, and cascade, Greg Lake guide vocal.

Extra UU – The Coup d' Etat in the Christian Rome

The fall of Roma2 is a recurring issue in these blogs. The CdE and conversion of the Christian Rome to an Islamic Caliphate was in focus in UU 2014.april.25 and UU 2016.feb.19. Here is a collection of relevant videos:

Björk - Mutual Core

2017.april.21

Ukens Utvalgte

Another ancient Nordic culture is still preserved at Iceland in the Arctic region. The island itself is truly a merger of Europe and America since it rose from the volcanic ridge of their continental plates. The Arctic nature has surprised humanity before - and will again - especially if provoked. MAD violations can once again alter it irreversibly, like during the Soviet's paranoid nuclear warfare towards the Arctic nature in 1963. The UN had to stop the SU insanity of being a threat to humanity as well as itself. Yet, half a century later, the damage on the globe's freezer backfires and became an irreversible global warming. Now, like that shift from the 3rd Pyramid Game to the 4th in 1963, the ongoing shift to the 5th Pyramid Game in 2013 shows even more alarming symptoms of dysfunctional mass-psychosis - that spreads at the speed of mass-media. The Arctic region is once again the stage for global geopolitical rivalries. This time, nova-China, as well as nova-SU and nova-US, are positioning themselves for another unpredictable climax at the Arctic Ocean.

Although, apparently 'status quo' in the Arctic, the diplomatic rivalries and military positioning are escalating towards a determined climax. Some quotes from Wikipedia gives insight to the situation.

- "Arctic cooperation and politics are coordinated via the Arctic Council, of US, Canada, Iceland, Norway, Sweden, Finland, Russia, and Denmark (including Greenland and the Faroe Islands) and to a lesser extent of UK, Germany, EU, China, NGOs, UN and NATO. Every Arctic nation is concerned about sovereignty and defense, resource development, shipping routes, and environmental protection. There is remarkable conformity of stated policy directives among Arctic nations. However, US has not ratified of the UNCLOS (United Nations Convention on the Law of the Sea) and thereby the territorial claims are not harmonized concerning the Lomonosov Ridge, the Northwest Passage, shipping, tourism and resource development. The issues escalate while the ice melts and will be ice-free summer in about 10 years.
- "Russia, Canada, Norway and Denmark rival over land, politics and resources in the Arctic. However, Russia claims more than the UN accept and use military aggression." "Modern Russian territorial claims to the Arctic date officially back to 1926 (i.e. Lenin's 3rd International). The first maritime boundary between Russia and Norway, was signed in 1957, but both countries made continental shelf claims in the 1960s." Then Stalin's massive nuking of the Arctic started.
- "Today Russia says that its military units specifically trained for Arctic combat. Russian Defense Minister Anatoly Serdyukov announced plans for the creation of two brigades that would be stationed in the Arctic. Russia's Arctic policy statement, approved by President Medvedev, called for the establishment of improved military forces in the Arctic to "ensure military security and strengthening the existing border guards." Navy commander Admiral Vladimir Vysotsky said: "We are observing the penetration of a host of states which . . . are advancing their interests very intensively, in every possible way, in particular China," and that Russia will "not give up a single inch" in the Arctic. (China has the largest foreign embassy in Reykjavik, anticipating Iceland becoming an important transshipment hub. An ice-free Trans-Arctic shipping routes could shorten distances between northern Europe and northern China by 4,000 nautical miles and reduce shipping times two weeks.)
- "In 2007, Russia planted a flag on the Arctic Ocean seafloor beneath the North Pole while performing research to substantiate its claim to an extended continental shelf. Other nations perceived it to be a symbolic land claim. Russia's current Arctic policy is contained in the document "Basics of Russian Federation State Policy for the Arctic Through 2020 and Beyond" signed by Russian President (now Prime Minister) Medvedev."

Just to discover some of the Arctic history, - the SU mass-paranoia during the Stalin period caused their mass-nuking of the Arctic nature at a scale of total-destruction - initiating a so-called 'Nuclear Summer'. One explanation for the insanity can be that their radars could not distinguish between whales and submarines - and Stalin concluded that 'attack is the best defense'. Consequently, they nuked lots of whales in desperate paranoia - and later blaming the whale-hunters for the whales' near-extinction. The insanity led to the UN doctrine 'MAD' (Mutually Assured Destruction). This issue is recurring in these blogs,

since all the cold-war mass-media's mass-psychosis hinder humanity to focus on the real causes and problem to the global warming and nuclear toxicities.

- "The destruction in Arctic is unbelievable all-embracing. The nuclear catastrophes in the 60's was massively silenced. However, now anyone can see and read about the SU detonations (nearby Novaya Zemlya) of 224 nuclear bombs, 265 megatons, with a blast-force 20,000 times the Hiroshima bomb, - or 100 times all the blast-force in ww2. It is similar to a totally destructive nuclear war in the North Pole region with accordingly radioactive pollution (and 'nuclear summer'). This is a major global concern and no merely an internal affair. The radioactive waste is spread with the winds and with the Atlantic and Pacific streams. There is also radioactive waste on the melting ice. All remaining life, like fish, polar bears, whales and seals were highly exposed. Attempts to tell about these circumstances was strongly opposed by the Secret Services. The Nikitin case about radioactive sub-marines were just scratched the surface before another phase of total censorship."
- "However, - most destructive of them all was the ozone-blaster Tsar Bomba that alone had 10 times all the ww2 blast-force. No wonder that this place has the highest increase in warming and that the ice melts so rapidly." (UU 2011.aug.12 and UU 2014.dec.05)
- Now, half a century later, with the constant increased UV radiation, the polar-ice has finally become so porous that it rapidly melts to water and the temperature increases by 2 degree Celsius each year. The UV degradation of the polar ice has been going on for 50 years, although we see the results of the rapid melting now.
- Did none of the Soviets underwater nukes affect the volcanic Gakkel Ridge or Lomonosov Ridge? Such is hard to prove and will most certainly be political denied anyway, - like all the other cold-war-crimes. However, underwater nuking in the Arctic is like nuking the 'Ring of Fire', the volcanic belt in the Pacific. Nuking an underwater volcano would probably trigger volcanic eruptions – causing additional heat to the Arctic ice from beneath. However, the water-pressure at deep-sea volcanos holds any spectacular eruptions in check, leaking merely the extreme heat.
- Svalbard inhabitants have expressed concerns about the secret SU and Russian activities on the islands. Norway is sovereign according to the Svalbard Treaty of 1920, but do allow foreign nations to do research and some utilizations like coal mining. However, the Russian mines have caught fire several times, a plane with Ukraine workers crash-landed and sometimes they appear with their nuclear ice-breakers, nuclear submarines and floating nuclear powerplants. Just recently, the Russian vice-prime minister Dmitri Rogozin landed illegally on Svalbard and expressed aggressive ambitions - just like he did prior to the illegal annexation of the Ukrainian Crimea.

The threat of MAD violations altered considerably the European parliamentary systems of Legal, Executive and Judicial powers. Political parties and people's movements promoted 'no (proper) defense' in fear of Soviet MAD violence. All these altered policies paved the path for corrupted actors in all the Parliamentary powers. The effects of 1963 are still very influential in 2013 politics.

Svalbard was abused as the trigger for a Norwegian Coup d' Etat in 1963. It was the shift from the 3rd to the 4th Pyramid Game. Cold War history books over-focus on the climax at the SU/US Cuba crisis, though. However, there were considerable political aftermaths that are covered from focus in the Nordic region, - yet vital to get insight to the political crisis and shifts. As known, the bombing of the Norwegian governmental building in 2011, lead to the Stoltenberg's the governmental resign in 2013. Here are some related clips.

- "The first 'blue' (none-socialist) parliamentary constellation was formed in Norway as a temporary necessity for the AP/LO symbiosis to shift their governmental regime in 1963. This was probably a tactic in a CdE Game due to the bondage to the 3rd International and its 21 conditions. (UU 2015.juni.12)
"The Kings Bay Affair (Kings Bay-saken) was a political issue in Norway that reached its apex in 1963 and brought down the government of Einar Gerhardsen and formed the basis for non-socialist coalition politics in Norway that persisted to the end of the 20th century. The affair was a dramatic episode in Norwegian history that portended the end of the Gerhardsen dynasty and the emergence of a more articulate and coherent political alternative in the non-socialist camp. It is also credited with galvanizing the radical socialist wing of Norwegian politics in time for the EU debate nine years later." "The non-socialist cabinet formed by John Lyng of the Conservative Party of Norway was the first non-Labour government in Norway since World War II, but lasted for only a few weeks, its initial declaration not

surviving a vote of no-confidence from the Labour Party and Sosialistisk Folkeparti.” “He also served as the second President of the Nordic Council in 1954.” (Wikipedia)

- “The Norwegian Trial of the decade is certainly the 22/7-2011 case. It was really 2 very different extreme terror cases; the CdE by blowing up the Governmental Building, and the massacre of the governments youth organization (AUF). The joint trial is focuses in UU 2012.mai.18 to UU 2012.Juli.20, and UU 2012.aug.24. The over-focus on ABB’s reward, the massacre on innocent youths, did take all the attention from the CdE bombing. There is no proof at all that ABB bombed the building and that no one else were involved. It rather seems that he part was taking the blame in court and that his layer saw to that no questions about any relations were asked. However, some para-military and para-police were involved making all police and military involvements major failures. Even the armed ferry was disabled and the police put in fragile rubber boats. Actually, saving of the surviving youth was done by civilians, - not the police or the military. The trial concluded that all relevant documentation is to be locked up in 60 year, ensuring that the public will merely know the mass-psychosis of the mass-media, as described in the 3rd International.” (UU 2012.mai.25, UU 2014.juli.18 and UU 2017.feb.24)
- The phenomenon ‘Selmer’, is mentioned several times. “More personalized is the story about the 15 years old boy called Selmer. He was a ‘given’ to the SU Empire to be educated for espionage in Norway. It is a rare documentary form NRK Spekter (‘Spionprogrammet Norge ikke fikk se’ / The espionage documentary that Norwegians did get to see’), especially because it was illegitimated hindered by the media state-monopoly NRK for 30-40 years. The documentary provides a human description on how an unwilling person gets to promote state-terror and how hard it can be to get out of the thralldom. The story also tells about the permanent fear that SU was going to nuke Norwegian cities and how the U2 plane probably was ‘taken down’. One can certainly have doubt to some of Selmer’s sayings, like the travels to the capital Oslo was merely to party and that he knew no other spies. Eventually, Selmer war convicted for treason by the State, but was also pardoned by the Throne. All-in-all, the documentary is an example on the massive thrall-bondage of innocent minors for unwilling server a destructive empire” (UU 2013.juli.05 and UU 2014.juli.04)
- “Additionally, Russia is a member of the European Human Rights Organization. Its name, Council of Europe (CoE), is mistakenly close to the European Council, the decision board for EU member states’ governments. The present leader of CoE has tight relations to LO and thereby the 3rd International, been leader of AUF, AP party leader, minister for foreign affairs and prime minister. He is reputed for political scandals, - however always somehow slips away, - leaving a political mess behind. As leader of the Nobel Peace prize committee, he personally provoked the Chinese revealingly so diplomacy and trade has suffered badly since. China got a seat in the Arctic Board instead of EU, - that seems like a compensation. These provoking intrigues overshadows Dalai Lama’s messages for Human Rights and national sovereignty. Jagland still provokes the Chinese as leader of the CoE, mistaken as EU, even though his mandate concerns merely Europe. On the other hand, CoE was silent during the massive HR violations of the Russian warfare toward Ukraine. CoE do not encourage European nations to ratify the signed Human Rights conventions that includes exception for protection against sociopaths. A PROSA Separatist in a para-organization would operate no different.” (UU 2016.aug.12)
- “The Norwegian oil production is vital for Europa’s needs, independence and security. However, political trade-related environmental arguments are abused to hinder that. As mentioned in UU 2013.sept.20: “The gigantic competitor to European energy-supplies, Gazprom, do already test-drilling in the Arctic region. Norway should be concerned about this gigantic competitor that already is far on the way with alternative gas-supplies by pipes via Danish islands to Europe, in addition to the Russian gas-agreement that caused the imprisoning of the former elected president (Yulia Tymoshenko) in Ukraine.” (See also UU 2014.dec.05 and UU 17.Feb.2012.)”
- “The Norwegian government did the opposite reaction when Chinese officials made threats after the NGO Nobel committee honored an imprisoned Chinese humanist. (The Danish government denied any involvement when threatened by Muslim extremists under the Mohammad crises that was caused by the newspaper Jyllandsposten.) The Norwegian government gave into threats and unreasonable demands, like giving China observer status in the Arctic counsel instead of EU. Furthermore, China wants special rights from Denmark for mining on Greenland with extreme social dumping. Obviously, the Danish government is also under unreasonable pressure from China. However, globally, there are

much more at stake, like a creation of a Chinese outpost in the NATO region, mining for uranium and a free port to the Northwest Passage – the future shortcut for Asia and EU.” (UU 2013.juli.19)

There were as fierce political rivalries between PM Stoltenberg and PM Jagland prior to 2013, as there was against PM Gerhardsen before 1963. (According to Vassily Mitrokhin Gerhardsen became a Soviet intelligence operative during his visit to the USSR.) The Red-Green government had secret meetings without the PM Jagland that finally had to resign and Stoltenberg was appointed. As the leader of the Nobel Peace Prize committee, the prize was given to a Chinese dissident that caused Chinese diplomatic blockade of Norway for 6 years. Now, Jagland is set to lead The Council of Europe (ECHR) that too often are confused with the European Union (The European Council). Stoltenberg is now the General Secretary of NATO.

A worst-case scenario for future Russian-Norwegian relations is set in the TV-series Occupied. It was focused in extra UU 2015.okt.09.

- The public presentation is: “In the near future, Norway is occupied by Russia on behalf of the European Union, due to the fact that the newly elected environmental friendly Norwegian government has stopped the oil- and gas-production in the North Sea.” In the first episode, the Prime Minister is kidnapped and convinced by a EU commissioner and a Nordic PM that their options are; production or occupation. However, both happens.
- The comments at the time was: “There are some issues to this 5D scenario that can be explained like this. The Green-Red alliances is powerful in Norway, have been in previous AP/LO governments (Stoltenberg) and might return (Støre). Moscow related political parties have always opposed NATO and EU and would, if they could, cancel membership in both NATO and EFTA (EEA trade agreement with EU). Norway is a major oil & gas exporter to Europe and thereby a main competitor to Russian oil & gas export. Nova Russian ambitions seems to be control over Svalbard and mainland region Finnmark in order to gain control over major areas in the Arctic Sea. Thorium based fusion energy is theoretically possible in a distant future, but no option for the present energy market.”
- “The scenario is based on the brown-red political occupations of the Nordic nations in ww2 that were quite different in the nations. Sweden cut a double-deal without military occupation. Denmark’s surrender after 2 hours was due to bureaucratic delay. Finland fought the Russian invasion and thereby the expansion to Finnmark/Norway. Island was under Denmark, but was liberated after the ww2. Norway sunk the warship Blücher with the main invasion force that gave the Throne and government time to escape. The police and LO became BRAF and the major domestic forces for the occupation. (See also UU 08.Juni.2012 about writing of the historian Roy Vega.)”

There can be made innumerable scenarios to an Arctic climax. This rivaleri will probably not be settled in this century either.

A rather different 5D hypothesis, though, is that Beijing Mongols will reclaim Siberia. There are several indications that a joint China/Mongolia eventually will do so, when they feel strong enough.

- The Mongolian empire included Siberia, but was annexed by the Russian empire about 1700.
- The Mongols have occupied Beijing and invaded China twice, in 1238 and 1949.
- China strives to get in position in the Northwest passage, however the Northeast is the closest one.
- Siberia is a most valuable and geopolitical area to control for Mongolia and China.
- Siberia also has direct access to the borders of both Canada and USA as well as Russia.

A nova-Mongolian annexation of Siberia would certainly shift the Russian focus from the ‘North-west’ to the ‘North-east’ passage of the Arctic ocean.

- Nova SU cannot fight on the two fronts in the Arctic and have to focus on either ‘West’ or ‘East’.
- Svalbard is the ‘red line’, not to be crossed, in the view of NATO, America, Europe and Canada.

How will nova-Russia react when realizing that its imperial propaganda is too unreal, - in fact psychotic? Will Russia once again enter a collective imperial alter-ego of MAD violations in the Arctic – like a Pyramid Game of 5th degree? If so, they will not be able to trigger another 5th Pyramid Game of 4th degree in the Pacific between the ‘East’ and the ‘West’, even though these girly Games of Putin of LYAHF are tempting to both Kim and Trump. Consequently, the nova-Russia might rather implode.

"Björk Guðmundsdóttir is an Icelandic singer, songwriter, producer, DJ, and actress. Over her four-decade career, she has developed an eclectic musical style that draws on a wide range of influences and genres spanning electronic, pop, experimental, classical, trip hop, IDM, and avant-garde styles. She initially became known as the lead singer of the alternative rock band The Sugarcubes (that sound a bit like the B52's – UU 2016.dec.09)."

"Several of Björk's albums have reached the top 20 on the Billboard 200 chart, the most recent being her 2015 album Vulnicura. Björk has had 30 singles reach the top 40 on pop charts around the world, with 22 top 40 hits in the UK. She is reported to have sold between 20 and 40 million records worldwide as of 2015. She has received consistent critical praise for her innovative vocal and compositional approaches, musical experimentation, and art direction; She has been ranked twenty-ninth in VH1's "The 100 Greatest Women in Music", eighth in MTV's "22 Greatest Voices in Music", sixtieth in Rolling Stone's "100 Greatest Singers of All Time". Björk has won five BRIT Awards, four MTV Video Music Awards, one MOJO Award, three UK Music Video Awards, 21 Icelandic Music Awards and, in 2010, the Polar Music Prize from the Royal Swedish Academy of Music in recognition of her "deeply personal music and lyrics, her precise arrangements and her unique voice." She has also been nominated for 14 Grammy Awards, one Academy Award, and two Golden Globe Awards. In 2015, the singer was included in Time Magazine's list of the 100 most influential people in the world. She won the Best Actress Award at the 2000 Cannes Film Festival for her performance in the film *Dancer in the Dark*. A full-scale retrospective exhibition dedicated to Björk was held at the Museum of Modern Art in 2015."

The association here is for Russia to not execute MAD violations on the Arctic again, - even though the 5th Pyramid shift might be hard. Furthermore, Björk also takes the 3^3 model to the innermost level of Drive, almost beneath RF (Rain Forest), to the core of Mother Earth itself. (UU 2015.feb.27)

For the Chinese, - understanding Björk is understanding the arctic region, - even though perceived provoking with her declared sympathy to the Tibetan people. (UU 2011.nov.11)

Vivaldi - Four Seasons / Spring - Sinfonity electric guitar orchestra

2017.april.14

Ukens Utvalgte

Every year at this time, is the seasonal shift from winter to spring. This astronomical milestone is simply due to the Earth's speed and tilt - related to the Sun. The astrological meme for the four seasons is the 'Sun cross' – that is used and abused in Ages. The astrological ritual 'Easter' includes the Moon. These are scientific facts we all know for sure. Yet, Easter's Good Friday is a vital Ritual and Meme in this Belief systems including the whole Solar system, the Galaxy and the Universe - in all times. Still, our calendars relate to the Earth only - and are irrelevant elsewhere. Belief includes so much more than truth though, - yet far less too.

However strange as it might sound - this blog relates the Easter to the UU theme '5th Pyramid Game Over'. In brief, this blog argues that the GoT P5GO (Games of Temples - 5th Pyramid Game Over) happens now, because the Old, the New and the Quran Testaments are expiring in this century. Moreover, blasphemous theocrats should be rejected in time this time, when providing the next Age's Aquarian Testament. In order to support such conclusions, some previous theoretical and historical talks are presented first.

Belief is a recurring issue in these blogs and was described most recent in UU 2016.sept.16. "The theories of Belief was developed significantly in the UU 2015.mars.13: "The Superior-Devine (S-D) is the most complex by far. The properties of the 3[^]3 (3x3x3) social psychological ego-state 'Belief' is not possible to fully describe. It is like the term 'religion', i.e. 'The First Philosophy', and includes fundamental questions about the beginnings, ends, the universe, life, omniscience, positivity and more. The questions of this magnitude are unanswerable, simply because the human comprehension is limited. Besides, Belief is not about knowing scientific facts at all, but rather a realization that the probability is about 50/50 for a belief to turn out true. (Hope concerns unlikely beliefs with about 10% probability to be proved true.) Consequently, claiming to know whether a divinity exist, or not exist, is just as false, and do not concern Belief at all, but rather Games of Will. Such ulterior Games of false Belief are unfortunately common and can be dramatic, as the Charlie Game in Paris 7/1 and Copenhagen 14/2 indicates." (UU 2015.april.10)

'Belief' is one of 3 dimensions in the 3[^]3 psychosocial model. Thus, Belief is related to the Freudian Superior-Ego and the Jungian collective 'OverConscience' and 'synchronization'. True Belief do not include Games at all, simply because Games are based on untruth. However, most belief-systems are abused by Gamers and projects their dishonesty on them. The following is from the UU 2016.sept.16 where the true Belief Game-categories WoW, SET and UNO are more fully described, - and related to Game categories of such untruth.

- "Belief in itself do not includes Games at all. However, there are Game categories of Belief are played by Will, like there are classic Game categories of sexual (Id), social, and underworld of 3rd degree. Still, the deceiving ulterior and secret moves and goals in Games do most certainly include claims of Belief properties like wisdom, divinity and heritage. Yet, always keep in mind that there are 'positive Games' as well as 'negative Games'. There are probably more Games related to Belief that suites the value-systems of GUR (Good/Use/Right) than BAW (Bad/Abuse/Wrong), - like the Christian and platonic virtues; belief, hope, love, wisdom, courage, moderation and justice. Why believe so? One way to see this is that most expressions in poetry and songs are emotionally good rather than bad, - most expressions of folk tales have rather useful moral than abusive, - and most religious mythologies do rather express philosophical righteous ethics than wrongful ones. At least – expressions of negative BAW Believes are to indicate directions, boundaries and goals. See what happens if you do the negative. Finally, impressions of beliefs might be adapted as intuitions of Belief and function like instincts of Drive."
- "WoW (Well of Wisdom) is CB (Conscience Belief) subcategory and related to CW. The futile Game of striving for 'all knowledge' is doomed to fail, though. "The new Game category for Belief is WoW that relates to several archetypical myths. The mythological origin of WoW does not exclude Drive or Will. Quite on the contrary. As Jung explained, humans have collective archetypes that occasionally are expressed at UnderConscience level as symbols, dreams, 'feelings' etc. Such are often expressed collectively and synchronized via OverConscience in acts, art, science and myths. The most famous WoW Game is played out in the myth of the Garden of Eden. Atheists as well as theists should recognize these archetypical expressions as a vital collective Belief for Humanity. Basically, it is about humans' LifeQuality, the freedom of Will and the strive for Wisdom. Furthermore, the Tree often symbolize age/continuity, generations, branches and gates between worlds. Yet, it was wrong of the prophet Moses to blame the prophet Adam's woman for 'the first sin', deception and misery. Actually, since Moses' existence is disputed and Adam is probable just mythical, the myth does most certainly not stem from God. Such unjust prejudice is BAW (Bad/Abuse/Wrong)." Anyways, similar WoW Games exist in most religious myths including the Egyptian, pre-Islamic, Greek, Roman, Norse mythologies and are simply adapted into the monotheistic mythologies as well." (UU 2015.feb.20).
- "SET (Supreme Extra Terrestrial) is a CB (Conscience Belief) sub-category of Belief that relates to S-D (Superior-Devine). It is unique in the sense that it is 'Superior' to the classic 'Superior-Ego'. This is where beliefs in extra-human divinities belongs, like God/Allah, gods, angels, jinns, and any intelligent divinities from any religion or myths. No living human, not even theocrats are of S-D. Merely beings transcended to a divine state belongs to this category of S-D. What and where that might be, is an eternal philosophical question for the living. Some mythological names are Heaven, Hell, Xanadu, Asgard, and utopia. However, no Temple, relic or symbol is of such properties and cannot ever be. GoT was mentioned in UU 2015.mars.06 to indicate the Will, not Belief, related social Game category 'Games of Temples'. "GoT has its origin in Freud/Jung's terms Superior-Ego, - as far as human logic applies. In fact, GoT is not about divinities, but logical believes in society's superior powers. Even atheists play GoT of GUR/BAW value systems. OverConscience communications are essential for such socializations. In the beginning, there might have been value-systems of Constructive and Destructive (Use and Abuse) and even Good and Bad."
- "UNO (Universal Natural Order) is a UB (UnderConscience Belief) sub-category of Drive that relates to S-I (Superior-ID). UNO is related to the subcategory UD/RF (RainForest) in the sense that both concerns the unknown realities of humans, nature and the universe. It is intriguing knowing that we spend 1/3 of our life sleeping, not conscience of what our brain works with all that time - but it does and it is important. However, even though RF represent all the unknown of Drive, that we might believe something about, the UNO embraces all the rest of the unknown Universe. This is by far the largest subcategory of all, when knowing there are over 10 million lifeforms on earth and believing there are millions of worlds with life in the universe. There seems to be no limits, since scientists now philosophizes about multiverse and the cluster of galaxies and dark matter called Laniakea."

Note that some description might still be unclear since when developing the 3^3 theories, there was not clear distinctions between Belief sub-categories (S-D, S-E and S-I) and Game-categories (UNO, SET and WoW).

Destructive theocratic Games have ruined true writings of true Belief. What's left are mostly fragments of diverse qualities - wrapped up in mass-psychosis. The present versions are mostly damaged spoils from thousands of years of theocratic war-Games. Some previous talks might catch interests related to the theocratic Games that abuses true Belief of WoW, SET and UNO.

- A brief summary of the Bible versions: "The New Testament is an add-on to the Old Testament, - the Hebrew Bible. The Greek New Testament discusses the teachings and person of Jesus and the first Christianity. Christians regard both the Old and New Testaments together as sacred scripture. N.T consists of 27 books, where the original texts were written in the 2 first centuries, generally in 'Alexandrian' and Byzantine Greek (330BC-600AD). N.T. consists of as letters from the Apostle Paul (early 2nd century) and the Canonical Gospels of Matthew, Mark, Luke, and John (late 2nd century as the Four Gospels). Over time, some disputed books, such as the Book of Revelation and the Minor Catholic (General) Epistles were absent. Other works earlier held to be Scripture were excluded from the New Testament, such as 1 Clement, the Shepherd of Hermas, and the Diatessaron. The Old Testament canon is not completely uniform among all major Christian groups like the Roman Catholics, Protestants, the Greek Orthodox Church, the Slavic Orthodox Churches, and the Armenian Orthodox Church." (Ref Wikipedia and UU 2015.april.03)

- "The N.T. does barely consist of any original writing and none of Jesus at all. A main reason is the religious and ethnic genocides dedicated the Roman Jew Paulus. It might be the source to the Judas myth in N.T. As mentioned in UU 2015.mars.27, the main objective of Roma2 was to produce a theocratic compromise after the fall of Roma1, - not to tell the historical truth." "Meanwhile, the theocracy of Roma2 developed a compromise consisting the Trinity of God, humans and spirit, in addition to herds of angels, symbolized with zodiac astrology, Egyptian Isis cults, and Etruscan pontifexes. Yet, Jinns were mostly excluded as evil demons. It all boiled down to a theological stew that anyone should accept." However, pre-Islamic Jinn worshipers were probably not pleased.

- The Quran is not a recognized add-on to the Piscean Testament (N.T). As mentioned in UU 2015.mars.27: "The ambition in Roma2 was to build 'Heaven on Earth'. The emperors were promoted to be God's representatives. The theocracy of Roma2 developed a compromise consisting the Trinity of God, humans and spirit, in addition to herds of angels, symbolized with zodiac astrology, Egyptian Isis cults, and Etruscan pontifexes. Yet, Jinns were mostly excluded as evil demons. It all boiled down to a theological stew that anyone should accept." Outside 'Heaven on Earth', in the polytheistic Arabia, there were written some 'alternative testament' including fallen angels and demon Jinns from the failed conquer of Egypt. None of those writings was accepted to the Piscean Testament for obvious reasons. However, 'The Book of Revelation' (The Apocalypse) was added later on like some 'Trojan Horse'. The Mongols were provoked by the cruel punishment for nonbelievers like themselves. Mongols/Muslims formed a joint mission to storm the gates of 'Heaven on Earth' to prevent such misdeeds. They got unexpected help when Roma2 was plundered and seized by 'The Pirates of the fourth Crusade'. They did not manage the city and it became easy to invade. (UU 2014.april.25) Besides, the pirates handed over the coat of Arms of Roma2, 'the double headed eagle' to Moscow, a monk declared Moscow as the 3rd Roma and Ivan was titled Tsar/Caesar. (UU 2013.Mai.24 and UU 2015.april.10)

Cults of the 3 Testaments played GoT till most divine content was ruined. The 1st and the 3rd agreed to disable the 2nd. The 3rd played to replace the 2nd whilst the 1st played to extend its own time limit at year zero. The result is a combined OT and NT vs Quran. However, all 3 Testaments are now expiring in the present Solar shift to the New Era – the New Age.

In polytheistic and pantheistic Beliefs, Human abilities have been stereotype as heroes, superheroes and gods to illustrate human qualities, profiles, characteristics etc. these have become archetypes of Theocratic games. The Persian Abraham and Sara are such archetypes. Their matriarchal and patriarchal Super-Egos are dominating for the monotheistic cults of G.T, N.T and Quran. This is talked through in UU 2015.april.03.

- “The Old Testament tells about Persian attempt to CdE (Coup de ‘Etat) like KoC (King of the Castle) Games in new GoT (Games of Temples) concepts. It might be called CdT (Coup de Temple). Some background for Persia/Egyptian rivalries are from UU 2015.feb.13.
- “The prophet Abraham is an archetypical patriarch of the 3 monotheisms; Judaism, Christianity and Islamism. It is often talked about, like in UU 2015.jan.23, UU 2013.aug.02 and UU 2012.jan.13. In brief, Abraham was sent from Persia to rule some newly conquered land from Egypt about 2000 BC. (That was the time for the previous shift of Age/Era, from Taurus/ox to Aries/goat.) There was a royal reception in Egypt where Abraham brought Sarah. It is unclear what their goal was and what really happened, except that Sarah became sterile instead of pregnant. Back home, Abraham got his firstborn son Ishmael with the Egyptian ‘slave’ Hagar. Sarah expelled them and they might have returned to Egypt and formed a Persian-Egyptian family branch. Later stories of the prophets Moses and Jesus indicate such relations.” The fundamentals to the conflict is mentioned in UU 2014.dec.19 and UU 2015.jan.30.
- Moses is also an archetypical patriarch. “Moses is the main prophet of the Old Testament and important to the Torah, New Testament and the Quran. It is however not certain that Moses was a single person, when he lived between 1300-1600 BC or that he even existed. Nevertheless, the books tell that Moses was adopted into the Egyptian royal family and raised by Egyptian royalists. He was the sole survivor after all newborn Hebrew boys were killed to avoid prophesies of uprisings. However, Moses’ tribe served as slaves for 300 years and were quite discontent about their faith. Prophesized or not, there were uprisings that included plagues, poisoning and child slaughter, including the Pharaoh’s son (the 10 plagues of Egypt). (UU 2015.feb.13.)”
- “Persia did finally conquer Egypt with the ‘holy cats’ tactic in battle in 500 BC (UU 2015.feb.13). However, 200 years later, Alexander ‘the Great’ of Greece conquered both Persia and Egypt by simply beheading the Persian king. The Greek Ptolemaic dynasty was considered the Savior of Egypt and a royal divinity. Greeks modified the Egyptian astrology to the Enneagram for KoC (King of the Castle) and GoT (Games of Temples) Games.”
- Two other archetypical matriarch and patriarch are Cleopatra and Julius. Their son Caesarion could have been heir to the joint Egypt/Rome empire around the year zero. Though, such an Egyptian Testament is altered to the unrecognizable. This is talked through in UU 2015.april.03. “Caesarion, ‘little Caesar’ or Ptolemy Caesar, was the last king of the Ptolemaic dynasty of Egypt, who reigned jointly with his mother Cleopatra VII of Egypt from 44 to 30 BC as the sole pharaoh. Cleopatra insisted that he was the son of Julius Caesar, but Caesar did not officially acknowledge him. However, Julius may have allowed the use his name. Cleopatra hoped that her son would eventually succeed his father as the head of the Roman Republic as well as Egypt. Cleopatra and Caesarion were Caesar’s guests in Rome for two years, but had to escape to Egypt when Julius was ritually executed. Caesarion was named co-ruler by his mother at the age of three, with Cleopatra keeping all actual authority to herself. Cleopatra compared her relationship to her son with Isis and Horus.” (Ref Wikipedia.)

The Old and the New Testaments are the two latest in a long series of Egyptian Testaments that tells who and how to rule Egypt. The Quran was made to substitute the N.T. The UU 2016.april.01 focus on the theological reasons.

- “The relation between the Christian Jesus and Egyptian Horus are described very well in the online video ‘Religion Comes From Ancient Astrology and Sun Worship’ (see video link below): Horus was born on 25/12 by a virgin, there was a star in the east next to 3 kings. Horus was a teacher at age 12, ‘baptized’ at 30, had 12 disciples, performed miracles, named ‘lamb of god’, ‘the light’, was crucified, dead for 3 days and resurrected. Jesus is one of many variations of the myths. Jesus was born of a virgin on 25/12. Astrologically Sirius is the brightest star and east of ‘Orion’s belt’ which symbolizes the three kings. 25/12 is the ‘birth of ‘god’s sun’ at winter solstice. ‘Mary the virgin’ is the constellation Virgo and she is symbolized with a wheat in ‘House of Bread’ at harvest. Bethlehem translated means ‘House of Bread’. Furthermore, the Sun turns (‘dies’) on 22-24/12 under the southern Crux (cross) constellation. On the 25th the Sun turns and resurrects. Symbolized, the Sun is dead for 3 days, born again and resurrected. However, resurrections are ritually celebrated 3 month later, on ‘spring equinox’ ‘Easter’, when the Sun overpowers the darkness - the day becomes longer than the nights.”
- Furthermore from the video: “Some symbolic references to the zodiac Age Phishes is that Jesus fed the people with 5 loaves of bread and 2 fishes. Fishermen followed him to catch more ‘fishes’. He

refers to a man with a picture of water (Age Aquarius), when asked who to follow when he was gone. Moreover, the O.T. myths of Moses are directly taken from Egyptian mythology where Sargon sailed on the river and was adopted to the royal family. The 'Book of Dead' tells about the Egyptian lawgiver Misis. All in all, - the Bible adopted most Egyptian myths about; final judgment, virgin impregnation (by the god Neth), virgin birth, resurrection, crucifixion, ark of covenant, circumcision, the 'Savior', holy communion, the Great Flood, Easter, Christmas and the Passover. However, there is a widespread and grave falsely translation of 'the end of the Age' to 'end of the world'." This fatal mistranslation is used in apocalyptical self-destructive text like 'The Book of Revelation' (The Apocalypse) by John the Evangelist. Nevertheless, to Muslims, Jesus is a bringer of scripture and was born of a virgin, but neither the Son of God nor the victim of crucifixion. However, Muslims believe Jesus was physically raised into the Heavens by God. Judaism rejects the Christian and Islamic belief that Jesus was the awaited Messiah, arguing that he did not fulfill all the Messianic prophecies in the Tanakh.

The previous Solar Age-shift should be positive, not negative, GoT (Games of Temples). However, inter-imperial wars made it the worst thinkable GoT, namely Games of the 5th Degree, Apocalypse. That is not a P5GO – even though blasphemous theocrats express so.

- (UU 2016.april.01) "A new AF Game (AnimalFarm game-category) can be defined in the same concept. Empirically, there seems to exist a 1st degree of Game called 'Touch and Go' (TAG). It can be elevated to 2nd 'Hit and Run' (HAR) and 3rd 'Bomb and Transdent' (BAT). There is even a 4th degree at meta-level that is 'Apocalyptical'."
- «Almost 90% of humanity believes in gods and half believe in God, Angels and Jinns. It is therefore social-psychologically vital that theocrats clearly express what is right and wrong in the writings. Lack of clearness will influence humans, humanity and society considerably in sinful ways. For example, 'The Book of Revelation' (The Apocalypse) that referred to John the Evangelist, is so full of evil insanity that it clearly is written by some seriously mentally disturbed persons. Nevertheless, that apocalyptic psychosis deviates in several ways from the other writings in the New Testament and does not belong amongst them. It has similarities to the occult of certain writings in the Old Testament." Alarmingly, the main objective of The Apocalypse is that only 144000 humans shall survive that human genocide. Terrifyingly, humans are now able to execute such scripts for real. That needs to be taken care of in unorthodox ways of thinking and handling." (UU 2012.nov.02)
- (UU 2015.april.10) The Quran is not a recognized add-on (or substitute) to the Piscean Testament. As mentioned in UU 2015.mars.27. "The ambition in Roma2 was to build 'Heaven on Earth'. The emperors were promoted to be God's representatives. The theocracy of Roma2 developed a compromise consisting the Trinity of God, humans and spirit, in addition to herds of angels, symbolized with zodiac astrology, Egyptian Isis cults, and Etruscan pontifexes. Yet, Jinns were mostly excluded as evil demons. It all boiled down to a theological stew that anyone should accept." Outside 'Heaven on Earth', in the polytheistic Arabia, there were written some 'alternative testament' including fallen angels and demon Jinns from the failed conquer of Egypt. None of those writings was accepted to the Piscean Testament for obvious reasons."
- "However, 'The Book of Revelation' (The Apocalypse) was added later on like some 'Trojan Horse'. The Mongols were provoked by the cruel punishment for nonbelievers like themselves. Mongols/Muslims formed a joint mission to storm the gates of 'Heaven on Earth' to prevent such misdeeds. They got unexpected help when Roma2 was plundered and seized by 'The Pirates of the fourth Crusade'. They did not manage the city and it became easy to invade. (UU 2014.april.25) Besides, the pirates handed over the coat of Arms of Roma2, 'the double headed eagle' to Moscow, a monk declared Moscow as the 3rd Roma and Ivan was titled Tsar/Caesar. (UU 2013.Mai.24)
- Furthermore: "Marco Polo was probably far more important to the faith of Roma2 than history indicates. Briefly summarized from the video tells that Marco belonged to a large group of Mediterranean people. They served Kublai Khan for decades as 'observers', 'counselors', 'priests' etc. The Mongols had previously conquered Beijing, the capital of China, in 1213. The Khan got in-depth knowledge about European society, religion, technology, weapons and warfare. The Mongols reaction and rage towards Roma2, after reading 'John's Revelation', can be understandable, - if they were pointed out as the Bad Guys. Eventually, the khan released Marco and his men for a final service, - to escort a Chinese princess

to a Persian prince for an arranged marriage. The journey was fatal and Marco was one of the few survivors that arrived Venetia. He was imprisoned, but his tales were written by an inmate.” (UU 2014.okt.31)

- “The burning of London is a historical disaster that illustrates the apocalyptic processes. A comet appeared at the sky in 1664. Such events are considered omens for coming catastrophes in occult prophecies. Soon after, a plague breaks out in London and becomes an unstoppable pandemic. Then, London is burned to the ground in 1666. Associations to ‘John’s revelation’ and speculations about the number 666 can be abused to legitimize some divine penalty. It might relate to the burning of Nero’s Roma¹, and Ivan’s Roma³. Apocalyptic omens were not yet exposed as occult. Instead, John’s Revelation were considered divine facts, like occult memes such as ‘the beast’, ‘the whore of Babylon’, ‘the four horsemen’, ‘the seven seals’, and the number 666.” (Translated, see more at UU 2014.jan.03 and UU 2014.mai.09.)

- “Is such organizational insane manipulation, like indoctrinating false memories, possible in () psychiatry too? Most certainly - yes. ‘Organized insanity’ in S-E/S-I relations for organizations and nations’ is talked through in UU 2014.jan.10 and UU 2013.april.12: “The Enneagram/NLP destructive potentials can hardly be worse than in relation to Freud/Berne psychosocial Game-analysis. It can function like a dominating and psychotic Superior-Ego that can transfer its psychosis to the client’s S-E, make ID’s neurosis and even split its Ego. There are potentials for the whole spectrum of Berne’s described Games, - especially LYAHF, NIGYSOB, Debitor, SWYMMD, Courtroom, LHHIT, Schlemiel, WDYYB, Rapo, Uproar, HDYGOH, LPFOJ, IOTHY and certainly Psychiatry. The destructive results of such Ennea/NLP psychosocial Games in enterprises and governments most certainly gain their rivals and competitors most of all.”

- “Furthermore, the DR documentary ‘Crimes under hypnosis’ (Forbrytelse under Hypnose) and the relation to NLP is mentioned. (See also the related Derren Brown’s ‘The Assassin’.) Terms like mass-psychosis, brainwash and indoctrination can surely be related to such unsound S-E/S-I relations. Identifications of such ulterior and abstract organizations might be easier with use of metaphoric terms like ‘The Psychopathy’ and ‘The Sociopathy’, to relate their activities of mass-psychopathy and mass-sociopathy to the psychosocial Games.” (UU 2013.april.19 and UU 2016.juni.24)

- (UU 2016.april.01) “The biblical expression ‘The Whore of Babylon’, seems to be dedicated Cleopatra by some republicans, Persians, Egyptians and Jews. It might have been Julius’ Antonius’ and Cleopatra’s plan all along to invade Roma in a CdE Game. The execution of Julius in the Roman senate was a necessary part to fulfill the Osiris Ritual. However, who would gain the most besides Cleopatra? Marcus Antonius, - Cleopatra’s lover and co-ruler to be. Nevertheless, since such a new Age Osiris Ritual, a Coup d’ Throne, means a new royal family, - it also means mass genocide of all the previous related families and servants. This is evident in both G.T. and N.T. where mass-assassination of first-borns was executed in the Moses tribe, the pharaoh’s empire, the Jews after the birth of Jesus, - and the Cleopatrian family tree. Finally, today’s papacy conquered the most by merging Etruscan and Egyptian theocracies into today’s Catholicism. The Pope was originally called Pontifex Maximus. (UU 2015.april.03) Still, the ‘whore riding the beast’ is clearly a metaphor for a bad guys’ conspiracy at that time and place.

- The video ‘The Religion of 666’ explains the real meaning of that meme. (See extra UU.) It is simply a check sum for the 36 Babylonian houses and their polytheistic gods. In brief, Babylonian astronomy divided the night and day in 2x6 ‘houses’ and 3 room each, which makes $2*6*3=36$. The check-sum for adding all number from 1 to 36 makes the sum 666. Therefore, the number was used to warn about Arabian theocrats without being exposed as heretics or blasphemous. Yet, ignorance has made the meme the worst thinkable and still is. Such mass-psychosis and mass-neurosis are also reasons why religious war-Games reach the level 4 and possibly level 5.

A most recent example; “36 ISIS persons were killed by the ‘mother of all bombs’” is a global press message on this ‘Good Friday’. Yet, there is no way they can have counted the bodies. This mass-media Transaction is a GoT move of 4th degree. Playing with such memes to regain position and power is too hazardous to be allowed to progress uncontrolled by humanity.

Game analysis is about unmasking hidden actors too. “On the other hand, matriarchal power and Games should not be underestimated. There is truth in the saying ‘Behind every great man there’s a great woman’. Abraham’s women definitely played LYAHF (Let’s You And Him Fight) which has been going on for 4000 years – 200 generations – and still goes on. This is definitely a 4th degree Game in the meta-category AF

(Animal Farm), where Drive biology overrules Will and Belief." If so, the major 'religious wars' are not fundamentally religious at all." (UU 2016.mars.25)

Hypothetically, there is a 'Ghost of the Nashi Queen' - collectively funded in the biological Drive, the striving Will and the obsessive Belief. Such an archetype is exposed in theocratic matriarchs like Sara and Cleopatra. It can also be related to this themes of 'The 5th Pyramid'. At the present, - there are political movements related to the so-called 'Putin Jugend'. The Nashi movements (Наши/Ours) is compared with Soviet Komsomol or the Hitler Youth (UU 2017.feb.24 and Wikipedia). Most 'Western' nations experience electoral fraud and CdE attempts by such cross-subsidized nova-nashi parties. The 3^3 psychosocial nature appears to be characterized by Game-categories of Drive/Animal-Farm, Will/King-Of-the-Castle and Belief/Game-of-Temples. The 'Ghost of the Nashi Queen' is not related to the true Belief in Superior-ID, Superior-Ego or Superior-Devine, - but rather the Game categories KoC (King of the Castle), GdE (Games d'Etat) and GoT (Games of Temples)." It is played never-ending destructive Games, believing that it promotes its own offspring. Figural, it is like some over-aged dysfunctional hen in a henhouse of Drive/AF, - playing a version of LYAHF (Let's You And Him Fight), called 'Cockfight in the Henhouse' (CiH). (UU 2016.mai.27)

A positive P5GO of GoT is simple and is destined. The NT expires now along with the Quran due to the Solar calendar's entrance in a new Era – a new Age. The GT was already outdated 2000 years ago. There is no legitimate reason to restart the Games. This is a final Game Over – with some kind of stalemate. If there will an Aquarian Testament, - humanity knows far better than to be lured by some blasphemous theocrat this time.

Ever thought it is great, when guitar band invite too many friends to play their epic guitar solo? Ever thought that classic orchestras should be electrified too? Ever thought that the vast masses of classic symphonies must be the treasure at the end of the rainbow for guitar-players'? The solution seems to be to do it the Spanish way, - to form an 'Electric Guitar Orchestra', - like Sinfonity. It is the world's first electric guitar orchestra. By the way, there are several young girls that do impressive guitar playing. See the additional video of Laura.

"Antonio Lucio Vivaldi was an Italian Baroque composer, virtuoso violinist, teacher and cleric. Born in Venice, he is recognized as one of the greatest Baroque composers, and his influence during his lifetime was widespread across Europe. He composed many instrumental concertos, for the violin and a variety of other instruments, as well as sacred choral works and more than forty operas. His best-known work is a series of violin concertos known as The Four Seasons."

"Many of his compositions were written for the female music ensemble of the Ospedale della Pietà, a home for abandoned children where Vivaldi (who had been ordained as a Catholic priest) was employed from 1703 to 1715 and from 1723 to 1740. Vivaldi also had some success with expensive stagings of his operas in Venice, Mantua and Vienna. After meeting the Emperor Charles VI, Vivaldi moved to Vienna, hoping for preferment. However, the Emperor died soon after Vivaldi's arrival, and Vivaldi himself died less than a year later in poverty."

Di Leva - Vi har bara varandra

2017.april.07

Ukens Utvalgte

Another lost Nordic culture, from Novgorod, might have been stuck for a thousand years. Historically, the region and rivers was a vital link between the Baltic sea and the Black sea - between Norden and Constantinople. Today, Belarus dominates parts of that region. It is the hardest European nation to investigate and understand, since it is similar to political singularities like Cuba and North Korea. Now, the culture shows serious symptoms of dysfunctionality. However, any nation has dysfunctions of some kind, yet most are willing and able to recover. The intention of this blog is therefore not to disgrace any nation, but to focus on the term 'dysfunctionality' in order to provide terms for qualitative improvements. The method used - is to escalate the term from the smallest organizations, like families, to the largest, like nations. Thereby, terms of family therapy can provide some insight in howto improve the quality of nations. Though, as for families, a nation's condition is influenced by related nations too.

Belarus has become an 'alienated' and 'anti-European' nation - located in the midst of continental Europe. It is completely sealed and have become a patriarchal regime that do not even recognize the European Human Rights. No matter the system, no nation is entitled to hinder the international community to help their citizens, when a nuclear disaster wastes its people and its civilization. "About 70% of the radiation from neighboring Ukraine's 1986 Chernobyl nuclear disaster entered Belarusian territory, and about a fifth of Belarusian land was affected by radiation fallout". Actually, the firemen poured water on the Russian nuclear plant, which escalated the radioactive fall-out on both Belarus and Ukraine. This event alone proves that Belarus suffers from the most serious conditions of national dysfunctionality, - even though the public image might show otherwise.

A similar event in a similar state, like North Korea or Cuba, would have caused a global media-storm and massive global aid. However, Belarus is clearly silenced by much stronger forces, - like a superior dysfunctional family or cult. Questions of 'why' and 'who' do involve the capitals of Moscow and Kiev as well as Minsk itself. In fact, there have always been the trilogy of Ukraine, Russia and Belarus, struggling for being the 3rd Rome, - after the Muslim raids on the 2nd Rome and after the Mongol raids on Europe. None of the three can be healed separately. It is like a dysfunctional family of dominant matriarch, patriarch and child - or - Id, Ego, Super-ego - or - Drive, Will and Belief - that needs urgent family therapy by external sound and professional support - in order to realize that all three needs to balance their states - together.

Some historical background on Belarus might better the focus:

- "Belarus is a landlocked country in Eastern Europe bordered by Russia, Ukraine, Poland, Lithuania and Latvia. Poland, Lithuania and Russian have controlled the lands of Belarus through the history. Originally, Belarus became a political capital, a bishopric and the controller of vassal territories among Baltics in the West. The city's Cathedral of the Holy Wisdom (1044-66), remains a symbol of this independent-mindedness. Rivaling churches of the same name in Novgorod and Kiev, referring to the original Hagia Sophia in Constantinople and hence to claims of imperial prestige, authority and sovereignty. In the 13th century, the fragile unity of Kievan Rus' disintegrated due to nomadic incursions from Asia, which climaxed with the Mongol sacking of Kiev (1240), leaving a geopolitical vacuum in the region." "Between the 9th and 12th centuries, the northern Belarus emerged as the dominant center of power."

- Novgorod is a recurring issue in these blogs. “With the joint Moscow/Mongolian/Muslim peace-agreement, Roma3 executed brutal and effective anti-papal campaigns towards the Christians in the Baltic region and the Nordic union. “Ivan (the terrible) attacked the Baltic region brutally. The nations responded with raids, invasions and blockades. The Polish, Lithuanians, Swedes, Dutch and Germans were together in the resistance. Ivan accused that Novgorod could end up being catholic in a polish/Lithuanian alliance. The claim has no documented validation though. Roma3’s final annexations by Ivan and Oprichnina (Roma3 Secret Services) was terrible and led to the ‘Novgorod massacre’ in 1570. This also terminated the trade-route between the Baltic sea, Kiev and the Black Sea/Roma2.” (UU 2014.mai.02). It seems that control over the Baltic Sea was an obsession to Russian emperors. A trade route to the Atlantic Sea via Germany was also frequently terminated with wars at Holstein. It left the Danish castle Kronborg as the only passage regulated with taxes. This UNESCO heritage is also the site for Shakespears ‘Hamlet’ with the infamous quote: «Something is rotten in the state of Denmark”. (See also UU 2014.okt.31, UU 2014.mai.09, UU 2014.mai.02, UU 2013.Mai.24 and UU 2016.mai.13.)
- Furthermore, Napoleon was somehow convinced in Poland to invade Moscow, which unexplainably burned to the ground on their arrival. The retreating France army was sneak-attacked one by one, like predators’ attack flock of prey, until most of the France soldiers died or disappeared. (UU 2014.mai.16)
- The Swedes invaded the regions as late as the 18th century. “When his army surrendered, Charles XII of Sweden and a few soldiers escaped to Ottoman territory (former capital Constantinople), founding a colony in front of Bender, Moldova (Black Sea). Peter I demanded Charles's eviction, and when the sultan refused. Peter decided to force it by invading the Ottoman Empire. Peter's army was trapped by an Ottoman army at the Pruth river. Peter managed to negotiate a retreat, making a few territorial concessions and promising to withdraw his forces from the Holy Roman Empire as well as allowing Charles's return to Sweden. These terms were laid out in the Treaty of Adrianople (1713). Charles showed no interest in returning, established a provisional court in his colony, and sought to persuade the sultan to engage in an Ottoman-Swedish assault on Russia. The sultan put an end to the generous hospitality granted and had the king arrested in what became known as the "kalabalik" in 1713. Charles was then confined at Timurtash and Demotika; later he abandoned his hopes for an Ottoman front and returned to Sweden in a 14-day ride.” (See Wikipedia link) The Eastern Vikings or Novgorod and Sweden has certainly populated the regions for a 1000 year, including Crimea.
- “Belarus declared independence in 1917 after the execution of the Russian tsar family. It became a founding constituent of Soviet Union (SU) in 1922, lost half its territory to Poland, but got it back in WW2. Belarus lost 1/3 of its population and 1/2 its economic resources. It became a founding member of the United Nations in 1945, along with the SU and Ukraine. Belarus declared their sovereignty in 1990 when SU collapsed and declared its independence in 1991. Belarus and Russia signed a treaty for greater cooperation in 2000, when president Yeltsin was replaced with the former KGB agent Putin. There were hints of forming a Union State.” Although not public, Belarus is certainly a political influential on the global area.
- Belarus is labeled ‘Europe's last dictatorship’ with Alexander Lukashenko as president since 1994. He continued a number of Soviet-era policies, such as state ownership of large sections of the economy, yet slightly less despotic than China, Cuba, Laos, Vietnam and North Korea. Belarus' Democracy Index rating was the lowest in Europe until 2014, when Russia dropped lower. The country is labelled as ‘not free’ by Freedom House, ‘repressed’ in the Index of Economic Freedom, and it is rated as the worst country for press freedom in Europe in the 2013–14. ‘Reporters Without Borders’ ranks Belarus 157th out of 180 nations. It is the only European country to retain capital punishment in both law and practice.”
- Some further info: “Over 70% of Belarus's population of 9.49 million resides in urban areas. More than 80% of the population is ethnic Belarusian. The primary religion in the country is Eastern Orthodox Christianity. Minsk is the capital and most populous city. Belarus is 40% is forested and its strongest economic sectors are service industries and manufacturing.”

Belarus is obviously in a deep dysfunctional crisis, like the most serious conditions of dysfunctional families. The natio is also a health risk for the other nations too. Apparently, the nation cannot heal itself and needs urgent external help - even though its authorities are unable to admit it.

Such a complex national dysfunctionality can be related to methods for 'family therapy' by escalating sociological science of dysfunctional families. A general description says: "Dysfunctional behavior is considered abnormal when it, causes some kind of undesirable behavior, according to the culture and has a physical cause of the central nerve system. However, such mental disorders of dysfunctionality describe processes in systems, - not individual people. There are five main criteria for dysfunctional abnormality; 1) statistical criterion 2) social criterion 3) personal discomfort 4) maladaptive behavior, and 5) deviation from ideal."

In order to escalate the term 'dysfunctional', from family organizations to national organizations, the following words are substituted; 'family' with 'nation', 'child' or 'family member' with 'citizen', 'adults' and 'parents' with 'authorities' and 'marriage' with 'organizational'. Thereby, the following paragraphs describe dysfunctional nations with psychosocial definitions.

- "A dysfunctional nation is a nation in which conflict, misbehavior, and often citizen neglect or abuse on the part of individual authority occur continually and regularly, leading other members to accommodate such actions. Citizens sometimes grow up in such nations with the understanding that such an arrangement is normal. Dysfunctional nations are primarily a result of co-dependent authorities, and may also be affected by addictions, such as substance abuse (e.g., alcohol or drugs), or sometimes an untreated mass-psychosis and mass-neurosis (mental illness). Dysfunctional authorities may emulate or over-correct from their own dysfunctional authorities. In some cases, "child-like" authorities will allow the dominant authority to abuse their citizens."
- "Some features are common to most dysfunctional nations: 1) Lack of empathy, understanding, and sensitivity towards certain citizens, while expressing extreme empathy or appeasement towards one or more members who have real or perceived 'special needs'. 2) Denial (refusal to acknowledge abusive behavior, possibly believing that the situation is normal or even beneficial; also, known as the "elephant in the room."). 3) Inadequate or missing boundaries for its Self (Ego-state) (e.g. tolerating inappropriate treatment from others, failing to express what is acceptable and unacceptable treatment, tolerance of physical, emotional or sexual abuse.) 4) Disrespect of others' boundaries (e.g. physical contact that other citizen dislikes; breaking important promises without just cause; purposefully violating a boundary another authority has expressed). 5) Extremes in conflict (either too much fighting or insufficient peaceful arguing between citizens). 6) Unequal or unfair treatment of one or more citizen due to their birth order, gender, age, national role, abilities, race, caste, etc. (may include frequent appeasement of citizen at the expense of others, or an uneven/inconsistent enforcement of rules)."
- "Though not universal, the following features are typical of dysfunctional nations; Abnormally high levels of jealousy or other controlling behaviors: 1) Conflict influenced by organizational status: Between separated authorities, usually related to, or arising from the breakup. 2) Conflict between authorities who remain dependent, often for the perceived 'sake' of the citizens, but whose division would in fact remove a detrimental influence on those citizens. 3) Authorities who wish to separate, but cannot due to financial, societal (including religious), or legal reasons. 4) Citizens afraid to talk (within or outside the nation) about what is happening at home, or are otherwise fearful of their nation. 5) Abnormal sexual behavior such as adultery, promiscuity, or incest. 6) Lack of time spent together, especially in recreational activities and social events ("We never do anything as a nation "). 7) National members (including citizens) who disown each other, or refuse to be seen together in public."
- "List of unhealthy governing signs which could lead to a nations becoming dysfunctional: Unrealistic expectations, ridicule, Conditional love, Disrespect, Emotional intolerance, isolation, stifled speech, denial of an 'inner life', being under- or over-protective, apathy, belittling, shame, bitterness, hypocrisy, unforgiving, demonization, unbalance criticism, double standards, the absentee authority, unfulfilled projects, unrightfully redistribution, gender prejudice, sexual imbalance, emocratic policies, scapegoating, 'tunnel visioning', unbalance delegations, hinder mature participations, an 'know-it-all' attitude, forced participation against abilities, scrooge authority, heredity blaming, etc." (ref. Wikipedia)

Any nation should, and hopefully does, use such checklists for their own dysfunctionalities - and are, hopefully, willing and able to quality assure to proper functionality.

Games are per definitions based on dysfunctional conditions. "(UU 2016.juli.15) "The Pyramid Games are described in the initial UU 2016.mai.13. Pyramid Games are based on the illegal 'Pyramid scheme', 'Eight-ball' and 'Gifting circles'. 8 people are lured by one to 'invest' in illusions of repayments in a distant future, - not realizing that the Game is built to collapse and rather cause their ruin. The ethics to such Game masters are 'honesty is for suckers'. The 5 Pyramid Games in this UU theme are related to the 5 Internationals. Those 'suckers' are lured to contribute to domestic CCD (Colony Collapse Disorder) that weakens their prey nation enough to enable the main gains of CdE (Coup d' Etat). Related sub-Games played by potential PROSA Pensioners are of all categories, - especially Underworld Games and Sexual Games like; NIGYSOB (Now I've Got You, You Son of a Bitch) and Schlemiel, SWYMD (See What You Made Me Do), ITHY (I'm Only Trying to Help You), LPAFJ (Let's Pull A Fast one on Joey), LYAHF (Let's You and Him Fight), DAC&UAC (Devide&Conquer & Unite&Conquer), ISR (It Started with the Retribution), ABD (Attack is the Best Defense), Jante/TUD (The Ugly Duckling), TLM (Two Little Maids), BGGG (Bad Guy, Good Guy), RPPP (Robbing Pete to Pay Paul), ODAB (One's Death – Another's Bread) and the Russian BOOFY (Beat your Own and Others will Fear You). (UU 2014.sept.12.)" Most classic Games describes inter-personal dysfunctionalities. These can certainly be applied to inter-national dysfunctionalities as well.

Now, there might be a major 5D shift in the Russia/Belarus/Ukraine relations. The Belarus patriarchal President held a world-record breaking speech that even exceeded Cuba's former dictator Castro. The speech was mainly addressed to the changes in Russian politics and in particular towards president Putin. President Lukashenko was furious and claimed that Putin is out of control and that the high level of corruption in Russia will break down their relations. The four main issues in the speech were: 1) The Russians want border control despite agreement on open borders. 2) The Russians jeopardies their oil energy agreement. 3) There is a trade-war between them and the Russian food-inspectors will be arrested, prosecuted and jailed they enter Minsk again. 4) Lukashenko was furious at the Putin-Trump relation on the cost of Belarus. He simple called Putin stupid in getting Trump elected, because he does not think that the Americans are as stupid as Putin believes. (The 5D scenario model for past as well as future is explained in blogs like UU 2014.sept.12 and UU 2017.feb.03.)

The trinity Games of Russia/Belarus/Ukraine have symptoms of facing a CCD (Colony Collapse Disorder). All three seem to realize that there is dysfunctional crisis between them. Lukashenko's speech is like a Move in the classic psychosocial Game Schlemiel (Rebel). Putin is addressed like some simple pickpocket from Leningrad. The psychosocial 'transaction' (T.A) indicates a shift to the classic Game NIGYSOB (Now I've Got You, You Son of a Bitch). Civil unrests are rising. In Minsk, there are now open riots and public arrests of protesters toward the so-called 'Parasite Tax'. (That is the opposite of the European 'Basic Income'.) Such a riot is as extraordinary as if there were riots in North Korea or Cuba. Minsk will never be the same after this Gdansk symptom. Furthermore, the unrests also increase in Russia, like the coordinated 99 riots on 2017.march.26. Most serious of all - the Russian proxy-wars towards Ukraine cannot ever end.

'Belarusology' should be as relevant as 'Kremlinology' and 'Vaticanology'. There are numerous of intriguing issues to analyze, even though most are concealed from the public common sense. The un-coverable symptoms are sufficient to start some 'Duck analysis' ("If it looks like a duck, swims like a duck, and quacks like a duck, then it probably is a duck") and Black Box analysis (determine the characters of the inside by analyzing the difference of input and output), Transaction Analysis (determining the real content of inter-national communications), LifeQuality analysis (based on human need and human rights), LEJD Quality analysis (determine the level of balance to the Legal, Executive, Judicial & Democratic powers), Quality of the GUR ethical system (Good/Constructive/Right), Game analysis (like the series of P5GO Games) and the 3^3D psychosocial model. (See UU 2016.sept.23 as theoretical references to most.)

However, most relevant and intriguing is the massive potentials to test out the 3^3D psychosocial model. It is the most recent, and most relevant to these 50 additional P5GO (The 5th Pyramid Game Over). The theory was described in UU 2016.sept.16. "It was necessary to upgrade and extend the classic Freudian models to organizational levels in order to enable psychosocial analysis. The result is a joint Freud/Jung/Berne model called 3x3. This was further developed to the 3^3 (i.e. 3x3x3) model. It is explained and used from UU 2015.juni.05 to UU 2015.juli.24 about (a) parliamentary election. "The terms are developed from-via-to: Id-

Child-Drive, Ego-Adult-Will and Superior Ego-Parent-Belief. A second dimension of conscience is added in order to merge Jung with Freud's 3-state; UnderConscience, Conscience and OverConscience. The third dimension contains of 3 subcategories of Drive, Will and Belief. These are interrelated via the conscience dimension. However, the subcategories are open for adaption and modifications to what is to be analyzed, for example persons, organizations, nations, empires or humanity. Furthermore, the subcategories are related to Game categories too, - which is not directly in the 3^3 model. For example, sub-categories for Personal level is; Drive (Sulk, Nerd, Jerk), Belief (Matriarch, Authority, Patriarch), while Parliamentary relates to Will (Legislative, Executive and Judging (LEJ) and National/Imperial relates to Drive (Throne), Will (State) and Belief (Temple). A combination with collective Game categories were discussed in UU 2015.feb.27, UU 2015.mars.06 and UU 2015.mars.13 where: Drive (RF, AF and WL), Will (KoC, GdE and GoT) and Belief (UNO, WoW and SET)."

Finally - a direct relation to this theme of 'P5GO'. Isn't there some truth in the movie 'The Expert' (see the Extra UU), that such 'Parallel Organizational Apparatus' do exist, like it is described in the 3rd International's condition 3', in order to export 'parasite organizations' into some 'host nations' - and cause their CCD (Colony Collapse Disorder) and thereby enable CdE (Coup d' Etat)? If so, there are mass-produced dysfunctional organizations, like weapons of mass-destructions, in most of the 200 United Nations in the world. Such hosts are not even aware of their condition. If so, counter-fighting organizational dysfunctions should be as highly prioritized as other health issues by the UN. Ironically - no wonder that the dysfunctional trinity of Russia/Belarus/Ukraine are seriously dysfunctional, - when having domestic leaks of their home-grown 'parasites' - artificially grown in an unsafe lab - like some unsafe nuclear reactor.

Di Leva is a strange Swedish multi-artist. He is certainly a skilled, songwriter, composer and performer. His appearances are well planned to lower the audience defenses, open up for impressions and finally change their minds. In this video, Di Leva appears like some new age jester with alien relations. He and his blindfolded army marches naively into a camouflaged battlefield. The association here is how a soldier of 'dysfunctopia', located in some radioactive swamps, might perceive himself in his alienated UnderConscience of Drive, Will and Belief.

Allmusic: "Growing up in the medium-sized town of Gävle, Thomas Magnusson took on his mother's maiden name, Di Leva, thus creating one of Sweden's most peculiar stage personalities. Mixing an extremely flowery and theatrical stage show with smart and inventive pop, Di Leva soon won the hearts of critics. Musically, he borrowed airy synthesized harmonies from new age music, lyrical skill from singer/songwriters, and effective choruses from mainstream pop. But his new age-inspired message of kindness and universal love also spurred negative reactions, from people dismissing him as silly or fake to actual fights at concerts. Conservative religious groups also had a hard time accepting lyrics like "Everyone is Jesus." At the end of the '90s, his first big creative period seemed to be over, but record sales were still on the rise and Di Leva's mainstream appeal was growing."

"After going to Loch Ness to find inspiration and record background sounds, Di Leva returned to record Rymdblomma (Spaceflower), his best-selling album during the 20th century and the one that meant a definite breakthrough to a wider audience. Noll was slightly more difficult and, after that, Di Leva started to record his first album with lyrics in English. At first, everything worked smoothly in the international market as Naked Number One climbed onto the American Billboard charts, but his following albums were less successful. Di Leva's English albums aren't seen as his strongest ones, but at home his popularity was still on the rise. When the collection För Sverige i Rymden was released in 1999, it climbed to the top of the Swedish charts and the album's sole new song, the "Knocking on Heavens Door"-flavored "Miraklet," was a major hit. The following tour was just as successful and, in 2000, Di Leva released a new album in Swedish called Älska."

Di Leva - Vi har bara varandra

https://www.youtube.com/watch?v=KH_kDfdwf8A

Lyrics in Swedish and English.

<http://www.songlyrics.com/thomas-di-leva/vi-har-bara-varandra-lyrics/>

The fishes swim in the water. The birds makes love behind the moss. The rats crawl in the ground.

So, why not land, open the hatch and climb out?

./ . We have only each other ./ .

Everything is in the egg. The apple is not forbidden. The wolves howl in the storm.

So, why not land, open the hatch and climb out?

./ . We have only each other ./ .

We are all leaves on the same tree. Part of the happening. There is a place where all goes.

There is a meeting in every hope.

./ . We have only each other ./ .

Extra UU - The experts – trailer - John Travolta

‘Parallel organizational apparatus’ can be as large as towns. This comedy, ‘The experts’, is somehow a background movie to the TV series ‘The Americans’ (Extra UU 2016.juni.10). The location for this movie is Russia, - but could as well be Belarus.

“Two hip nightclub owners from New York City, Travis and Wendell are drugged and kidnapped and taken to the Soviet Union, as ‘experts’ on the ‘American lifestyle’ with the intention of teaching KGB agents to be hip like Americans. They think they have arrived in Nebraska to open the nightclub. Travis and Wendell are relocated to the phony ‘Indian Springs’, which is actually located in the southeastern edge of the USSR. It is populated by Russians trainees who speak and act American, to learn to infiltrate the US. However, the agents are stuck in in the 1950s.” (Wikipedia)

A-Ha & Kygo - Take On Me

2017.mars.31

Ukens Utvalgte

Today, the Virgin Islands celebrate their 100th Transition day. Norway celebrated the 200th anniversary for a similar liberation in 2014. The relation to the Virgin Islands, Greenland, Iceland and Faroe islands was lost

as a cost for the liberation, though. Yet, we all became vassal-states when Tsar Pyotr declared Russia an empire and started a massive warfare in Norden - 300 years ago. Consequently, the Scandinavian support to the Caribbean was withdrawn and there were no real compensations in the extended Dutch mandate. Still, all the cultures of the Virgin Islands suffered from the following piracy, riots, anarchy and dysfunctionality. However, that might be changed to the better – if we really want to.

This extra-ordinary blog might seem strange in the theme 'The 5th Pyramid'. Still, there are bonds that link the past, present and future events together. The present Transatlantic CdE Games originated with the 500 years old rivalries for the new and promised land – the Americas. The new Empire's capital, Saint Petersburg (former Leningrad), was also called 'the window to Europe'. The Virgin Islands were probably the outposts and binoculars to the rest of the west, the Americas. However, the intention of this blog is to re-evaluate the Scandinavian-Caribbean relations after the CCD (Colony Collapse Disorder) and face the opportunities we have for this century. Nevertheless – as usual – the blog is related to the UU themes 'The 5th Pyramid' as well as a previous theme called 'Tordenskjold's Pirates'.

'Tordenskjold's Pirater' (Thundershield's Pirates) was the name of a blog Theme with focus on the Virgin Islands (UU 2016.jan.08 - UU 2016.mars.11). It was based on the story that the legendary Danish/Norwegian naval 'hero' actually sailed to the Virgin Islands in the early 1700 – as a 15 years old ships boy. He returned 20 years later and must have been highly influenced by the 'Golden age of Pirates' in the Caribbean. He certainly acted like one in the Danish Royal Marine. Reading and writing about the Caribbean-Scandinavian cultures became rather intriguing. It also became clear that the Scandinavians still are rather influenced by it - beyond that the fatigue cold-war history books propagate. The concluding blog presents some summaries that should be considered points of interest based on rediscovered information in Wikipedia:

- "These 8 Tordenskjold Pirates were made to inspire exploring events and cultures in a milestone of Nordic History, namely the shift from Caribbean cultures to the Russian (Great) Nordic war. The eight Captains in this UU Theme represents: Mango, Dane-Nor Caribbean culture. Banana, thralldom. Coca, narcotics. Passion, piratesses. Guanabana, UnderConscience Drive. Coco, OverConscience Believes. Lychee, chance and gamble. Karsk, Norwegian relations. Finally, Captain T is a hovering omnipresence like the Flying Dutchman tactic of Tordenskjold (UU 2016.mars.04)." (Each blog also provides recipes on drinks based on the ingrediencies and Rum.)
- "The Russian Great Nordic War was just another war against Sweden to regain the dominance of the Baltic region about 1700. Dan-Nor forces were withdrawn from the Caribbean to fight Sweden and a Nordic re-union. The withdrawal caused the Virgin Islands to decay into pirates' haven. Tsar Peter the Great moved the Russian capital from Moscow to St. Petersburg by the Baltic Sea and declared Russia an empire. Tordenskjold was a Dan-Nor naval officer with Caribbean naval experiences that became legendary in privateer-like attacks towards Sweden. However, he was humiliated and executed in a domestic political Game. (UU 2016.mars.04)."
- "Meanwhile, Spain, England and France fought for dominance in America, with the Mexican Gulf as ports. The Coup d' Etat in France with a foreign marionette, soon involved most European nations in domestic wars. They had to withdraw their forces to fight the privateer-like Napoleon. (UU 2016.Feb.26) Finally, Roma3 (Moscow) was burned like Roma1 (Rome) and the Dane fleet confiscated. Europe made the union 'The Congress of Vienna' that secured 100 years of peace and prosper in Europe (UU 2014.okt.31). Europe helped the Norwegians to sovereignty and was re-constituted in 1814, - but without its former Island, Greenland, Faroe Islands and Virgin Islands, though."
- "Meanwhile, the confederal union of American states was symbolized with a flag in 1777 and soon constituted. Still, there was massive thrall trade from Africa, - also via the Virgin Islands. Some were trained as soldiers and probably intended for warfare in America. Slavery of Africans continued until 1848 even though abolished by European law in 1803. American federalists added a constitutional amendment that provided the 4 million African American citizenship in 1865. Legally, the federalists' State union confiscated the confederalists' private properties (thralls) as warfare permits. That tactic also caused CCD (Colony Collapse Disorder) to confederalists (UU 2015.juli.03). This might be the main reason why President Lincoln was publicly executed, - like in a CdE Game."

- “Denmark declared war against Germany in 1864, which is historically considered extremely unwise and self-destructive. (UU 2014.mai.23). The argument was that it could cause UK to declare war on Germany, despite the European Treaties. However, the real reason might be that the royal branch of Frederick IV was replaced in a CdE/Throne with the more Russian loyal Christian IX (1863 - 1906). Napoleon proved that international battlefields are effective means for masse-execution of loyalists to the previous regime, - just like the guillotine was effective for mass-execution of their heads.”

“An epilogue to this theme ‘Tordenskjold Pirates’ is that it is not personal at all. It is rather organizational - based on the GUR (Good/Useful/Right) ethics, the 3^3 analysis, 5D scenarios and related Games like BGGG (Bad Guy Good Guy) and LYAHF (Let’s You And Him Fight). Besides, the most important word of all, LifeQuality, do also apply for organizations, nations and empires. Yet, the theme’s complexity and ulteriority cannot provide clear conclusions, but rather indicate relations to previous conclusions for sound mental health, as described in UU 2015.mars.13. It hopefully inspires to further explorations, though.”

Sufferings, unjust and blame are recurring issues for peoples and nations being abused in the inter-imperial warfare. We all suffered greatly – Scandinavians did too. We were all slaves and thralls somehow, which the following warfare towards ‘the West’ certainly proves. We had to break free from the insanity – even at the cost of losing all provinces. Now, we are all liberated, - free from the Empire’s self-destructive ‘Jante’ culture. Still, for fairness sake, no-one should be blamed or ashamed for something someone might have done to others - centuries ago. Such blame-games causes ‘negative spirals’. A positive approach is to make a better future together in mutual respect. Those who truly want to end slavery, though, should focus on the slave-culture that still flourish in Africa. The extorting Arabian business is - and always have been, the reason for the inhuman abuses. It is still, 200 years after the ‘Western’ abolished the slavery and started to fight back. Now, Norway has ratified a ‘Human Rights Law’ and linked it the human rights declaration in the Constitutional law. However, we still fight mentally the paralyzing legacy of the ‘Jante’ culture – the collective mass-psychosis of ‘I am not-OK – You are not-OK’ - that was made to make and maintain dysfunctionality to subordinates. Nordic cultures still suffer from it - and still fights it. Yet, it is vital to move on past the dysfunctional effects of the past, in order to form a well functional culture for this century.

The prosperities are as great as ever the Virgin Islands and Scandinavia. There are great potentials and synergy effects in a re-establish associations culturally, commercially and socially. After all, neither Norway or Denmark are what they were 200 years ago. It was probably harder to run a business then, - than it is today. In fact, Norway was became very poor nation 200 year ago – after the liberation. Now, it ranks very high on measures like the Good County Index (GCI) (UU 2014.dec.05) and tops the World Happiness Report (extra UU2). We did manage to liberate our nations and our minds. Surely, the Virgin Islands can prosper too. A mutual understanding of history and potentials might help.

This brief summary is based on Wikipedia and might set some other points of view:

“The Danes annexed the uninhabited islands St. Thomas and St. John in late 1600 and later bought St. Croix from France. Soon after, the King of Denmark-Norway assumed direct control of the three islands. Britain occupied the islands twice during the Napoleonic Wars, though. The intention of colonization was to utilize the profitable triangular trade, involving firearms, manufactured goods and labor, including the Arabian slave markets in Africa. The ‘Western’ abolishment of slavery caused the South American economy to collapse, including the Virgin Islands. A sale of the unprofitable islands was proposed in the Dane parliament in 1852. The islands were sold as a consequence of WW1 for 25 million dollars to the US in 1917.” “The general conditions improved after WW2 with increased tourism after the blockade of the neighbor island Cuba. Industry boosted in Saint Croix due to the Harvey Aluminum Company and the Hess Oil Refinery.” “Today, it is a modern American society with 110,000 inhabitants, only half of whom are native born Virgin Islanders. They elect their own governor and has a local senate and a delegate to Congress.” “There is a Scandinavian heritage of old buildings such as forts, churches, town houses, sugar mills and plantation houses that are still standing in good shape. Some streets and inhabitants still have Scandinavian names. Both the Danes and the Norwegians have certainly cultural heritages in the Caribbean.”

Still, the Virgin Islands struggles now. "In mid-February 2017, the Virgin Islands was facing a financial crisis due to a high debt level of \$2 billion and a structural budget deficit of \$110 million. The government introduced a 'sin tax' bill that would introduce or increase taxes on rum, beer, tobacco products and sugary drinks, as well as internet purchases and timeshare unit owners. The governor issued an order that restricted the use of government-owned properties, suspended wage negotiations, froze non-essential travel compensations and suspended wage increases." A main reason to the recent economic crisis is that: "Hovensa Refinery had to pay a \$5.3 million penalty for Clean Air Act violations in 2011. Consequently, the refinery was closed." The Virgin Islands do not gain as much from the cruise tourism anymore, since the ships are self-provided and the tourist do not spend much money on the Islands. Also, there is a proposal to substitute the previous refinery with an offshore natural gas pipeline to connect Puerto Rico and the Virgin Islands. Besides, Cuba is now re-open and attracts more cruise ships and tourists. Alarming though, is that the 300 years old contained Jante-culture might be released like a pandemic in the Caribbean again.

The Scandinavian nations developed their industries and societies in the previous century. That can be prosperous for both the Virgin Islands and Scandinavia nations as well. Actually, the 3 Scandinavian cultures are rather different in several ways. Norway is mostly to the primary sector (agriculture at sea), Sweden is mostly to the secondary (industry) and the Danes to the mainly to the third (services). There are assumingly differences between Thomas, John and Croix too. Anyways, a Caribbean-Scandinavian collaborations could be realized with; tourism, air lines, shipping, cruises, oil industry, farming, sea farming, aqua culture, wind-and wave-power, public services etc. Personally, I would like to see a TV series 'Thundershields' Pirates' – like the TV series 'Black Sails' – more historical and less violent, though.

These proposals are certainly not about buying back the Virgin Islands. Still, it would be interesting to know if there are some option clauses in the Treaty of the Danish West Indies. However, being sovereign and developed via the United Nations, Norway has now the international responsibility of regions of Svalbard (Arctic) and Queen Maud's Land (Antarctic). These international regions are open for multi-national scientific organizations. The possibilities of international enterprising at the Virgin Islands are even more prosperous. Let's start talking.

A-ha is a Norwegian band that rose to fame during the mid-1980s and continued global success in the 1990s and 2000s. Their debut album peaked at number one in Norway, number 2 in the UK, and number 15 on the US Billboard album chart; yielded two international number-one singles. 'Take On Me' and 'The Sun Always Shines on TV'; and earned the band a Grammy Award nomination as Best New Artist. They took a break when their 5th studio album failed a commercial. Following a performance at the Nobel Peace Prize Concert in 1998, A-ha returned to the studio and recorded their 6th album. Their 9th album returned the band to the UK top 5. The band split after a worldwide tour in 2010. A-ha officially announced its participation at Rock In Rio 2015 to celebrated 30 years for both the band and the event. Their 10th studio album was released in 2015.

A-ha sold more than 100 million records worldwide. In less than a year the band earned an estimated 500 million Norwegian Kroner from concert tickets, merchandise and the release of a greatest hits album, making them one of the 40–50 largest grossing bands in the world. They shocked the international entertainment press by drawing an audience of 198,000 at Rio's Maracanã Stadium.

KYGO (Kyrre Gørvell-Dahll) is a Norwegian DJ, record producer, songwriter and musician. He garnered international attention with his remix of the track "I See Fire" by Ed Sheeran. He got 50-400 million plays on several songs like the single 'Firestone' and was on several international charts. His debut studio album is called Cloud Nine. Kygo made history at the 2016 Rio Olympics, when he became the first house music producer to perform at an Olympics closing ceremony.

Extra UU2 – 2017 World Happiness Report

The Sustainable Development Solutions Network (SDSN) was commissioned by UN Secretary-General in 2012 to mobilize scientific and technical expertise from academia, civil society, and the private sector to support practical problem solving for sustainable development at local, national, and global scales. The SDSN operates national and regional networks of knowledge institutions, solution-focused thematic networks, and is building SDG Academy, an online university for sustainable development. The World Happiness Report was written by a group of independent experts acting in their personal capacities. Any views expressed in this report do not necessarily reflect the views of any organization, agency or program of the United Nations. However, the UN report says that:

“Norway has jumped from 4th place in 2016 to 1st place this year, followed by Denmark, Iceland and Switzerland in a tightly packed bunch. All of the top four countries rank highly on all the main factors found to support happiness: caring, freedom, generosity, honesty, health, income and good governance. Their averages are so close that small changes can re-order the rankings from year to year. Norway moves to the top of the ranking despite weaker oil prices. It is sometimes said that Norway achieves and maintains its high happiness not because of its oil wealth, but in spite of it. By choosing to produce its oil slowly, and investing the proceeds for the future rather than spending them in the present, Norway has insulated itself from the boom and bust cycle of many other resource-rich economies. To do this successfully requires high levels of mutual trust, shared purpose, generosity and good governance, all factors that help to keep Norway and other top countries where they are in the happiness rankings.

All of the other countries in the top ten also have high values in all six of the key variables used to explain happiness differences among countries and through time – income, healthy life expectancy, having someone to count on in times of trouble, generosity, freedom and trust, with the latter measured by the absence of corruption in business and government. Here too there has been some shuffling of ranks among closely grouped countries, with this year’s rankings placing Finland in 5th place, followed by the

Netherlands, Canada, New Zealand, and Australia and Sweden tied for the 9th position, having the same 2014-2016 score to three decimals.”

Golden earring - Twilight zone

2017.mars.24

Ukens Utvalgte

The Nexit, the ‘Coup d’ Etat’ Game, failed. Netherland’s parliament proved itself immune and democratic. The Nexit Game had one single purpose, - to divide Holland from its union of European nations, - leaving it an easy prey. The anti-western campaign-script was Nashi propaganda (Наши/Ours). The European authorities are now very aware of such Pyramid Games of emocratic and technocratic match-fixing. Now, there are proper anti-theses to fight such international electoral crimes. The unclocking of such a treasonous Game-concept applies to the upcoming Texit, Frexit and Gexit the previous Brexit, Dexit, Grexit, Uexit, Amexit, as well as the attempted Spexit, Itexit and Auxit. In the spirit of the Nexit alpha-dog, this blog is adapted to the level of that kind of ethics.

Here is a brief, and slightly remarked, summary of his profile. “Geert Wilders is the founder and leader of the Party for Freedom (PVV). Despite the name, it appears as a personal movement with the two main objectives - anti-EU and anti-ECHR - nicely wrapped up in Dutch freedom culture. The PVV rejects parliamentary teamwork except for an anti-EU group in the European Parliament – that consists of; Belgium - Flemish Interest (VB), France - National Front (FN), Germany - Alternative for Germany (AfD), Italy - Northern League (LN), Netherlands - Party for Freedom (PVV), Poland – Congress of the New Right (KNP), Romania – Independent, and United Kingdom - Independent.” “Historically, Geert is a half Indonesian growing up at the German border. He bleaches his hair to appear like an ‘Arian wannabe’. The Radio Netherlands calls him ‘the most famous bleach-blond since Marilyn Monroe’. He was raised a Roman Catholic, but claims to be agnostic, which is rejected by both the Catholics and the protestants. He seems inspired by his many travels to Israel and neighboring Arab countries.” “Two suspected attackers were accused of planning to murder Wilders and a fellow MP, Ayaan Hirsi Ali. Since then, from 2004, Geert have been protected by armed bodyguards, is constantly accompanied by six police officers, lives in a state-provided bulletproof safe house, got a panic room, is driven in an armored police vehicle, wears a bulletproof vest and meet his second wife Krisztina once a week. They will not have children under such conditions.” (Wikipedia)

However, there is an unfortunate widespread masspsychosis that it is a human right to degrade society or other people.’ The Convention for the Protection of Human Rights and Fundamental Freedoms’ clearly forbid such and states in ‘article 10 Freedom of expression’: “The exercise of these freedoms, since it carries with it duties and responsibilities, may be subject to such formalities, conditions, restrictions or penalties as are prescribed by law and are necessary in a democratic society, in the interests of national security, territorial integrity or public safety, for the prevention of disorder or crime, for the protection of health or morals, for the protection of the reputation or rights of others, for preventing the disclosure of information received in confidence, or for maintaining the authority and impartiality of the judiciary.” Geert Wilders has no more right to extraordinary security than other MPs or his indirect victims. Furthermore, all this extraordinary security arrangements could to easily be abused by a ‘parallel organizational apparatus’ for electoral fraud, drug smuggling, money laundry and other anti-constitutional activities, - as described in the 3rd International.

The P5GO (5th Pyramid Game Over) is the anti-thesis to this Theme ‘The 5th Pyramid’ - that started in UU 2016.mai.13. Games are per definition ulterior moves (deceiving frauds) to get an unrightfully gain. The anti-thesis is mainly to expose the Games, the gamers, their motives and make proper counter-moves. Anti-games, like these ‘Game Over’, are simply about not to play along. However, the Games, Gamers and Gains have to be discovered and exposed. to this series of anti-western Exit Games, the main objective is to spot

the PROSA (Pro-Russian Oligarch, Separatist and Anarchists) that are obligated to the Condition of the Internationals, the Nashi propaganda, the Putinized strategies and other anti-parliamentary expressions, activities and passivities. Information of National Penalty laws can be used as preventive contra-activity.

The cascade of Pyramid Games, like the Exit Games, are organized to make the European Union collapse like its two forerunners 'The League of Nations' and 'The Concert of Europe' (Congress of Vienna). The Nexit Game failed due to a solid Dutch parliamentary immune system. An additional reason is probably that the Europol has become federal and the Headquarter is located in Holland. They also had also two early warnings; 1) PROSA agents shot down the Dutch civil airplane over Ukraine and 2) the electoral fraud in Holland against Ukraine membership in the EU. The Pyramid Games of Electoral fraud is focused in previous blogs, like this.

- "Pyramid Games are based on the illegal 'Pyramid scheme', 'Eight-ball' and 'Gifting circles'. 8 people are lured by one to 'invest' in illusions of repayments in a distant future, - not realizing that the Game is built to collapse and rather cause their ruin. The ethics to such Game masters are 'honesty is for suckers'. The 5 Pyramid Games in this UU theme are related to the 5 Internationals. Those 'suckers' are lured to contribute to domestic CCD (Colony Collapse Disorder) that weakens their prey nation enough to enable the main gains of CdE (Coup d' Etat). (About related sub-Games UU 2014.sept.12.)" (UU 2016.juli.15 & UU 2016.mai.13)
- "There are many kinds of electoral fraud, like; Electorate manipulation of demography, Disenfranchisement and Division of opposition support, Intimidation, Vote buying, Disinformation, Misleading or confusing ballot papers, Ballot stuffing, Misrecording of votes, Misuse of proxy votes, Destruction or invalidation of ballots, Tampering with electronic voting machines, Voter impersonation, and Artificial results." (UU 2017.jan.13)
- Wikipedia elaborates on the tactics like the Exit Games: "Divide and rule (or divide and conquer) in politics and sociology is gaining and maintaining power by breaking up larger concentrations of power into pieces that individually have less power than the one implementing the strategy. The concept refers to a strategy that breaks up existing power structures, and especially prevents smaller power groups from linking up, causing rivalries and fomenting discord among the people." "Elements of this technique involve: Creating or encouraging divisions among the subjects to prevent alliances that could challenge the sovereign. Aiding and promoting those who are willing to cooperate with the sovereign. Fostering distrust and hostility between local rulers. Encouraging meaningless expenditures that reduce the capability for political and military spending. Historically, this strategy was used in many different ways by empires seeking to expand their territories. The concept is also mentioned as a strategy for market action in economics to get the most out of the players in a competitive market."
- "PROSA Separatists are obligated, according to the 21 Conditions of 3rd International, to cause CCD (Colony collapse disorder) in European and American states, - in order to cause and support CdE (Coup d' Etat). All the conditions are listed in the link under. The previous UU 2016.aug.05 quotes the most relevant Conditions that are similar for PROSA Oligarchs. Here is a brief summary of the PROSA obligations: C2; "...methodically remove reformists and centrists from every responsible post in the labour movement (party organisations, editorial boards, trades unions, parliamentary factions, co-operatives, local government) and replace them, ..." C3; "In almost every country in Europe and America the class struggle is entering the phase of civil war. They have the obligation of setting up a parallel organisational apparatus which, at the decisive moment, can assist the party to do its duty to the revolution. In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity." C6; "Every party that wishes to belong to the Communist International has the obligation to unmask not only open social-patriotism but also the insincerity and hypocrisy of social-pacifism, to show the workers systematically that, without the revolutionary overthrow of capitalism, no international court of arbitration, no agreement on the limitation of armaments, no 'democratic' reorganisation of the League of Nations will be able to prevent new imperialist wars." C13; "... cleanse the party systematically of the petty-bourgeois elements (loyal citizens)." (UU 2016.aug.12)
- "A main Game for PROSA Separatists is DAC/UAC (Divide&Conquer / Unite&Conquer). DAC is an ancient strategy used in most power-struggles. Therefore, DAC/UAC Games often consist of complex sets of other tactical Games like; LYAHF (Let's You And Him Fight), LPQOJ (Let's Pull a Quick One on

Joe), TOL (Tuppen Og Lillemor / Jante / Two Small Maidens). Moreover, BGGG (Bad Guy – Good Guy) is used to create the masspsychopathic attitude of OK-NOK (we are OK – you are not OK), which somehow legitimize the Game RPPP (Robbing Pete to Pay Paul). Ethics of GCR are propagated as ‘We Good – You Bad’, ‘We Constructive – You Destructive’ and ‘We Right – You Wrong’. Political PROSA Separatists insist that Parliamentary politics are 1 Dimensional, like ‘Left vs Right’, ‘Red vs Blue’ and ‘East vs West’. Ultimately, Games of divisions concerns Throne vs State vs Temple.”

- Wikipedia categorizes CdE: “A coup d'état, literally ‘hit of state’, putsch or overthrow, is the illegal and open annexation of a state by elites within the state apparatus. It is considered successful when power is held for at least seven days. A 2016 study categorizes coups into four possible outcomes; 1) Failed coup; 2) No regime change; 3) Dictatorship swap; and 4) Democratization. Three types of CdE are identified as: 1) Breakthrough coups, 2) Arbiter coups; and Veto coups.” The Brexit, Dexit, Nexit, Grexit are Veto CdE with no regime changes.” (UU 2017.jan.27)

As a Coup d'Etat, the Nexit was attempted as 2) No regime shift 1) Veto coup. However, it turned out to be a Failed Coup.

Geert Wilders played an alpha-male to a Nashi script. In this 5PGO anti-thesis, he is of PROSA Separatist - supported by Oligarchs and activating the Anarchists. In this sexual/ID motivated variation of the LYAHF Game, the Dutch and Turks were set up to fight each other by a third and cloaked 3rd party. It is highly treasonous, though, when Geert Wilders proclaims that “the patriotic revolution continues” hinting to the upcoming Texit, Frexit and Gexit, as well as his homeland, Holland. The statement stems from the 3rd International, apparently adapted to the 5th. The attempts to cause riots and ‘social-patriot revolution’ was highly supported by the PPP’s newest best friend, the Caliph-wannabe. His apparently anti-Wilders diplomats tried to force through anti-European campaigns in Holland with extreme diplomatic threats, - just a few days before the election. That anti-democratic abuse of the European Human Right ‘Freedom of speech’, was exposed and hindered, though. Now, the puppet presidents of both Russia and Turkey have exposed themselves as desperate to avoid their destined 13th conflict and consequently another annexation of Crimea.

The PROSA product, Geert Wilders, is not unique. Such Nashi products have been cultivated through all the 5 Pyramid Games, - and even before that. A most infamous such ‘alpha sucker’ has been a recurring issue in these blogs. These quotes are meant as a 5D warning on how far such Pyramid Games can go, if Europe proves itself not immune.

- «The alter ego of Adolf Schicklgruber is like copied from Nostradamus collection of ‘prophesies from the 17th century. He wrote about ‘Hister’ in relation to some make-believe catastrophes and mention Germany in particular. It is alarming how easy it is to use an ancient ‘prophesy’ as a script, arrange it and then claim that it is prophesies come real. Adolf Hitler’s breakthrough came when experiments with the drug LSD started. He had always a personal doping-doctor close. Slavophil speeches, with occult messages about Arian overlords, shows that he felt related to very different cultures than the German.” (UU 2016.juni.03, UU 2015.mars.13, UU 2014.juni.06 and UU 2010.okt.08)
- “Hister/Hitler, alias Adolf Schicklgruber, moved from Austria to Germany and became the leader of the Nation Socialist Party. Adolf got governmental power due to an electoral alliance with the Stalinists. The Parliament was burned to the ground and Hitler was promoted to dictator soon after the electoral victory. There are reasons to consider this strong the Nazi-Stalin alliance as an important part of the WW Game, - from start to end. Hitler seems to be Stalin’s ‘Mini-Me’, a Stalinist marionette in the rival’s board. In this view, he was an effective replacement for the founder of the Red Army, - Trotsky. The reason that SU stopped to criticize Nazism and fascism in public, was the belief that they would attack and destroy each other, and that Hitler (and Mussolini) merely were triggers to the processes. That would open for a following Soviet invasion of Europe.” It should leave no doubt that world wars were a cascade of CdE Games gone out of control and with humanities worst outcomes till now.” (UU 2014.okt.31)
- “Nashi, the Putinized youth organization, turned unacceptable. Wikipedia says: “In 2012, the leader of Nashi announced that the movement would be dissolving in the near future, possibly to be replaced by a different organization. He stated that the movement had been ‘compromised’ during

the recent presidential election. In 2008, the movement was divided into groups: Nashi-2.0, Steel, All Houses, Nasha Victory and other. Critics have compared it to the Soviet Komsomol or the Hitler Youth and dubbed as Putin jugend.” In a Nordic view, it is remarkable that Nashi flag is like a diagonal Danish one and the neo-Russian flag is like a diagonal Norwegian one. (UU 2014.nov.14)

The European political immune system seems to hold, but has certainly several areas of improvements. It would be helpful to realize that the past centuries anti-European Pyramid Games are not European and should not be adopted as such, even though some dilutive propaganda says so. These LYAHF Games include a cloaked third party, waiting to collect the spoils after triggered the rivalries.

Democracy, and democratic elections, are fundamental to the European culture. Therefore, a main objective to European nations is to protect and promote sound elections without corruptions. This is obviously hard, when noticing the high level of daily political corruptions. However, that is not the main concern here and now with the series of anti-European Exit Games. (see UU 2014.okt.24, UU 2015.nov.06, UU 2014.okt.31).

The federal Europol should realize that such electoral frauds are international crimes and within their mandate to investigate and to take counter-actions. If not realized with the openly interference of Turkish diplomats, it also was with the coordinated manipulation of the Austrian presidential re-vote and Italian constitutional referendum at 4 December 2016 and will be uncovered in the upcoming French and German elections.

What is next, then? Even if the series of Exit Games are exposed and disabled, there certainly are other series of sub-Games to the 5th Pyramid. There are already indications and symptoms, which will be exposed in the following blogs to these 50 additional P5GO (The 5th Pyramid Game Over).

Golden Earring is probably the most famous Dutch rock band. They were presented with a full concert in UU 2015.juli.31. The review is here translated from Norwegian. “The UU theme ‘Music Break’ presents a series of concerts that someone might like to see, but did not get the chance. There are certainly some concerns about such promotion in relations to streaming and IPR. However, the objective here is to promote concerts in hope that someone actually will buy the full quality music from the artists as well as promoting it. The first band out, is a Dutch favorite from 30 years ago. Like so many others, they were unfairly unknown, even though they measured up with most of the famous English and American bands. In fact, they played with Jimi Hendrix, Led Zeppelin, Procol Harum, Eric Clapton, Santana, King Crimson, The Doobie Brothers, Rush, .38 Special, Kiss Aerosmith and The Who. This concert is from the period after the Moontan album. I especially liked their greater works with long instrumental jamming, like in the ‘Vanilla Queen.’”

This song, ‘Twilight zone’ relates to the previous blog concerning the Manhattan Transfer and their song ‘Twilight Zone’. Amusing that New York used to be named New Amsterdam.

Tears For Fears - Mad World

2017.march.17

Ukens Utvalgte

This ultimate scenario, '5D-5 – The un-UN' focus on the process of un-uniting the United Nations. In this scenario, the new domination in the UN Security Council, including PRUSA, is able to issue global Martial Laws. It is parallel to the '1984' dystopia with the 3 superstates Oceania (Americas), Eurasia (Russia/Europe) and Eastasia (Mongolia). It does not focus on the annexation of UK or the main character Winston, though. In this scenario, the UN powers reverse to its state to the year 1948, when novel was written. The UN Martial Law might legitimize the use of nukes and mass-retributions, executed in proxy nations related to the Pacific, the Arctic and the Arabian. Anyways, the intention to these dystopic 5D scenarios is to promote some P5GO (5th Pyramid Game Over), though. This 5D-5 scenario also links the 3^3D psychosocial model to the superior-states' powers. Anyhow the future structure, - the 3^3, and related models, can be used to improve the quality of Lives, organizations, nations, empires and even humanity itself.

The dystopic global order of '1984' is described in Wikipedia: "The Theory and Practice of Oligarchical Collectivism by Emmanuel Goldstein, reveal that after the Second World War, the United Kingdom fell to civil war and then was absorbed into Oceania. Simultaneously, the USSR conquered mainland Europe and established the second superstate of Eurasia. The third superstate, Eastasia, comprises the regions of Eastern/Southeastern Asia. The three superstates wage continuous war for the remaining unconquered lands of the world, forming and breaking alliances as is convenient. Winston remembers the Atomic Wars fought in Europe, western Russia and North America. It is unclear to him what occurred first: the Party's victory in the civil war, the US annexation of the British Empire or the war in which Colchester was bombed." (The 1984 was also a mini-theme in the UU 2010.okt.29 to UU 2010.nov.12.) However, the reality is that the UN is the reason why wars have been moderated and why there was no global nuclear war. Also, the EU is the reason why there have not been European wars in the same period. These to 'western' international organizations prevented further Pyramid War Games of the 3rd and the 4th International. The UN and EU is the guarantee towards future 5th Pyramid war Games of the 5th International.

The introduction to this 5D-5 scenario was: "What 5D scenarios can be made for this CdE US2017? First of all, there is always the 'null scenario' with no considerable changes. However, this Amexit Game proves most likely to cause multiple responses and rise the Game to the 3rd degree (damage) - and even the 4th degree (war). Such a condition is far too complex to analyze here, if not focused on the main actors' real motives. Yet, it will still be impossible to predict all the cascades of fatalities of their failures and projections. However, in this UU theme 'the 5th Pyramid Game Over', the main focus is the 5th International of 'Putinism' (see UU 2016.sept.23). "(5D-3) Imperial Governments of US, SU and UA (United Asia – UU 2013.juli.19) "The three empires dominate the UN Security Council and thereby act as a global LEJ." "The West' is split and confused and cannot defend territorial aggressions from Asia and Russia. Wars evolves in Ukraine, Turkey, Svalbard and Hawaii." "5D-5: The UN LEJ system collapse and humanity is set back to the state of 1948 (1984). Consequently, there are global anarchy and wars. Humanity has entered a state of Superior-Ego/Superior-ID domination, which is the unsound mental state and dangerous for itself and any others (UU 2015.feb.27 to UU 2015.mars.13 and UU 2016.juni.03).

The progress of the Super-states' powers can be illustrated in a 3D+ political LEJ model (Legal, Executive, and Juridical powers). However, there is a hyper-shift to the systems at this phase, at the Game's borderline between the 4th degree (war) and the 5th. The dominating superior-states collapse into constitutional singularities. The UN system suffers from organizational 'acquired immune deficiency syndrome' (AIDS). Consequently, the global martial law of the UN Security Council overrules the UN conventions UNC (United Nations Charter), UDHR (Universal Declaration of Human Rights), ICCPR (International Covenant on Civil and Political Rights) and ICESCR (International Covenant on Economic, Social and Cultural Rights). The dysfunctional UN cause cascades of CCD (Colony Collapse Disorder) to the member nations of the UN General Assembly. The UN collapses like its two 'Western' forerunners, 'The League of Nations' and 'The Concert of Europe' (Congress of Vienna), - that were dysfunctionalized prior to the 2nd and 3rd Pyramid Game, - the 2nd and 3rd International, - the WW1 and WW2. (UU 2016.juni.24)

In this ultimate scenario, the 3D model hyper-shifts from the Parliamentarism of LEJ (Legal, Executive, Judicial powers) to the TST (Throne, State, Temple powers). The TST are the fundamental powers of parliamentarism, when the alliance of Throne and Temple dominated over the State power. For example, European nations like the British, Dane, Norwegian, Swedish, Greek, Spanish and Dutch do have influential Thrones. Furthermore, nations like Italy, Israel, Russia, Turkey, Iran and Saudi Arabia do have dominating Temples as well. There might be considerable system-shifts in some of them, especially in Turkey with the puppet president's theocratic ambitions. However, the confusion and split of the Thorne/Temple-alliance, after the occult interpretations of the Tunguska event in 1908 (UU 2016.mai.27), made the republican states able to regain dominance. The previous century of world wars altered most nations' powers and are now out of balance. Any TST powers do, however, include all the LEJ powers, though, even in theocratic despotism. Moreover, in this scenario, when the 3 superpowers divide into the 3 Global powers of Throne, State and Temple, there is a new start in a new 3D model and the powers might reset to (0,0,0). There are potentials for new sets of scenarios, - innumerable actually. It might be a strange idea, when most peoples are used to dominating states.

The 3D LEJ model was made to elevate the present simple 1D model that was collectively propagated in the mass-media like some mass-psychosis during the previous century of world wars. The 1D model seems to be made to promote myriads of LYAHF Games in the 'Western' democratic parliaments, - simply to trigger CCD (Colony Collapse Disorder). Anyways, the psychosocial 3D model is based on the psychological models of Freud and Jung in order to promote sound and sane civilizations. The 3[^]3 model is thoroughly explained in UU 2015.mars.13 and adapted the 5th Pyramid Game in UU 2016.sept.16. These two paragraphs summarize some basics of the 3[^]3 model.

- "If the moral, ethics and philosophies of LifeQuality should be put down to a single sentence, - it could be 'I'm OK – You're OK' (ref Thomas A. Harris). It is about tolerance to OK persons, as well as a recognition of oneself. Consequently, it is also about speaking out and making clear statements to 'not-OK' persons, organizations and nations." (UU 2014.sept.05) "A healthy human has a mature balance between these three (Id, Ego, Superior-Ego). Therefore it safe to say that the mental health reflects the personality – whether it is allowed to develop and free to self-realize. However, a suppressed Ego cause unbalance and becomes mental unhealthy, - in worst cases get mental illness and disorders." (UU 2015.mars.06) "In brief, the S-E (Superior-Ego) can be sub-categorized into Matriarch and Patriarch (and Authority), whilst the ID can be sub-categorized into Jerk, Sulk and Nerd." (UU 2013.mars.08) "Collective terms like mass-psychosis and double-moral (standards) are related to psychological terms like psychosis and schizophrenia. Therefore, it is social vital not to promote unbalance between societies' Supremacies; Superior-Ego/Authorities, Ego/Organizations and ID/Emocracy. It is alarming that such unbalance from the 20th century's global wars are not balanced. The Law-giving and Judging State powers seems weak related to the States machine." (UU 29.Juni.2012) Bourgeois/citizen/borger is the societies' self-awareness (Ego/Adult/Will) at macro-level. 3rd Pyramid Gameplayer determined themselves to terminate that 'middle-class' and consequently cause CCD (Colony Collapse Disorder) of massneuroses, masspsychosis and massschizophrenia. Most promoters of the 3rd Pyramid Game were probably not aware of such consequences, - believing the CCD and CdE should provide democracy, - from their anti-democrats."

- “The Belief of the 5 Pyramid Games was the foundation for the previous century sociopathic warfare in Norden, Europe and the rest of the world. Far less dilutions and far more sanity is vital to have ideas of what to do and not. That 5D change can only come with realizing the insanity of the previous Pyramid Games and use of sound mentality on plans for this century. The 5th Pyramid Game can only be stopped by unclocking deceptive Beliefs in mass-psychotic propaganda. This last blog of 3 mini theme (the 3D Drive/Will/Belief) adds some unorthodox suggestions to the previous ones. However, in brief, a new century requires a generation’s renewal in all European Thrones, as well as States and Temples. All the ‘Minotaur labyrinths of deceptive Games’ are negative spirals of BDW (Bad, Destructive and Wrong). (The positive 3D ethics is GCR (Good, Constructive and Right)). ‘Game Over’ is the only improving solution to negative Games. The following pinpoints the BDW Belief in the State Superior-power during the 3rd and 4th Pyramid Game.”

The basics of the 3^3D ‘ego-states’ Drive/Will/Belief (i.e. psychosocial adaption of ID/Ego/Super-Ego) is described in the blogs UU 2015.feb.27, UU 2015.mars.06 & UU 2015.mars.13. Furthermore, Democracy is not directly included in the 3D political model. However, LifeQuality is a distinct issue thoroughly integrated in most perspectives and related to the 4th Dimension of hyper-democracy. (UU 2016.juli.01)

The 1D political model is ‘made to fail’, to arrange LYAHF Games, to cause parliamentary dysfunctionalities, to cause CCD, like some ‘5th columnists that prepare the prey-nation for the CdE of the 5th Pyramid Game. The 3^3D political model is adapted and suited to diagnose and improve empires and unions as well as core families. It is a immense challenge that is certainly not done yet. However, some kind of empires’ surveying was suggested in the UU sub-category ‘LifeQuality and Empires’ (UU 2013.juni.14). In brief, and based on the first Roman empire, - 5 present State empires were suggested in UU 2013.mai.03 – UU 2013.juli.12, which includes AU / African Union (UU 2013.Juli.26) and UA / United Asia (UU 2013.juli.19). However, the ‘Charlie event’ caused another UU theme with focus on empires of Temples, like UAE / United Arabic Emirates (UU 2013.aug.02). The latter indicates that a nova Kalifate is in serious reconstruction after the demolishing of the GRAF oriented ‘Islamic State’. Now, it is re-establishing elsewhere. Russia tries to avoide the destined 13th Russian/Turkish conflict. Such a 5D series of scenarios should be focused on the origin of the 5 Romas, that are related to; Roma1/EU, Roma2/Ottoman, Roma3/Moscow, Roma4/US and Roma5/Asia. Anyways, it might be useful to figure out what 5D scenarios might be for some potential Coup d’ US, Coup d’ SU, Coup d’ AU, Coup d’ UA, Coup d’ EU, Coup d’ UE as well as this scenario ‘5D-5 of Coup d’ UN. Not quite relevant, but mentionable, is that continents like Australia and Antarctica is not included yet.

The final question is then; is a UN CdE Game legitimized in the 5th Pyramid Game? Yes, because the 5th International is based on the 3rd International. It certainly includes some kind of ‘First we take Manhattan, then we take Berlin’ (i.e. first the UN, then the EU. See UU 2016.nov.18). The 6th Condition of the 3rd International clearly states: “Every party that wishes to belong to the Communist International has the obligation to unmask not only open social-patriotism but also the insincerity and hypocrisy of social-pacifisms, to show the workers systematically that, without the revolutionary overthrow of capitalism, no international court of arbitration, no agreement on the limitation of armaments, no ‘democratic’ reorganization of the League of Nations will be able to prevent new imperialist wars.” The ‘League of Nations’ was indeed dysfunctionalized and its unbalanced powers could not prevent the cascades of LYAHF Games of World War 2. The United Nations is its successor. The UN Head Quarter is sited at Manhattan, close to the former WTC towers of 9/11 and the ‘parallel organizational apparatus’ - WTF tower of 11/9.

Symptoms of disrupting the power of balance in the UN HQ should be very carefully monitored. Contingency plans should be quality ensured. For example, some symptoms might be the Russian UN ambassador Vitaly Churkin sudden death and that US considers quitting UN Human Rights Council. The ‘Big Apple’, ‘The city that never sleeps’ should not host the UN HQ at a single place, but there should be several backups, like there are two EU Parliaments.

 ‘Shout’ by ‘Tears for Fears’ was actually the first blog that some sociopolitical content in addition to presenting a selected song. It was an appeal as a concerned citizen to not accept the drug mafia abuse of the Stoltenberg family. Such extortions political figureheads are too destructive and too frequent to be

ignored. That was a personal breakthrough to use the UU blogs for social concerns as well as entertainment and art. The comment to the band at the time is translated as: "Tears for Fears' have made several good songs, although their instrumental performances are not too skilled. However, it sounds very well with repeating good melodies and choruses. They got lyrics, melodies and sound on their side. (UU 2011.juli.01) Wikipedia says: "Tears for Fears were initially associated with the new wave synthesizer bands of the early 1980s, but later branched out into mainstream rock and pop, which led to international chart success. They were part of the MTV-driven Second British Invasion of the US. They achieved platinum-selling album and reached number one on the UK Albums Chart and Billboard 200 for 'Shout' and 'Everybody Wants to Rule the World'. Smith and Orzabal parted company in 1991 and re-formed in 2000 and released an album of new material. Tears for Fears have sold over 30 million albums worldwide." "Nevertheless, 'Mad World' gave the duo their first taste of success that reached no. 3 in the UK. "Mad World" has since been covered by various artists, most notably by Michael Andrews and Gary Jules for the soundtrack of the film Donnie Darko. This version was a UK number one hit and won Orzabal his second Ivor Novello Award in 2003." The association between the Scenario and the song speaks for itself.

Extra UU - TV series - Jericho

"Jericho is an American post-apocalyptic action-drama television series, which centers on the residents of the fictional city of Jericho, Kansas, in the aftermath of a limited nuclear attack on 23 major cities in the contiguous United States. The show was produced by CBS Paramount Network Television and Junction Entertainment, with executive producers Jon Turteltaub, Stephen Chbosky, and Carol Barbee. It was shown in more than 30 countries."

"Jericho was canceled after its first full season, because of poor ratings. A fan campaign persuaded the network to bring the show back for another season, of seven episodes, after which it was canceled again. In November 2008, TV Guide reported that The CW would air repeats of Jericho to replace the canceled series Valentine. In 2007, Jericho was ranked #11 on TV Guide's Top Cult Shows Ever. In 2009, plans were announced for a feature film based on the series and a continuation of the Jericho storylines in a comic-book series 'Jericho Season 3: Civil War'. IDW Publishing released a new comic-book series for Season 4 2012." (Wikipedia)

Muse – Time is running out

2017.mars.10

Ukens Utvalgte

This 5th scenario, '5D-4 – OTAN', continues where the US Parliamentary immune-system failed, the PPT issues a Martial Law to hinder his replacement and the Western defense alliance NATO might be split in

two. The para-police and -military have cleansed the Democrat and Republican 'elite' and formed an oligarchic 3rd Party with another remote-controlled emperor. There are no Trump, Pence or Bannon anymore, due to a PRUSA Gulag program. The 5th Pyramid Game escalates like the 3rd Pyramid Game of Leninism and Stalinism did. The Great American Wall hinders Western influence from Canada as well as South America. In this scenario, the Western defense alliance NATO might flip to OTAN, the anti-itself, - after annulling the Trade-alliances with Asia, Europe and the rest of the Americas. Anyways, the intention to these dystopic 5D scenarios is to promote some P5GO (5th Pyramid Game Over). Moreover, some previous in-depth historical and theoretical quotes are used in order to describe that.

The introduction to the 5D-4 scenario was: "What 5D scenarios can be made for this CdE US2017? First of all, there is always the 'null scenario' with no considerable changes. However, this Amexit Game proves most likely to cause multiple responses and rise the Game to the 3rd degree (damage) - and even the 4th degree (war). Such a condition is far too complex to analyze here, if not focused on the main actors' real motives. Yet, it will still be impossible to predict all the cascades of fatalities of their failures and projections. However, in this UU theme 'the 5th Pyramid Game Over', the main focus is the 5th International of 'Putinism' (see UU 2016.sept.23). "(5D-3) Imperial Governments of US, SU and UA (United Asia – UU 2013.juli.19) are adapted and integrated. Rivalries are settled by proxy wars on prey nations like in the cold war. The three empires dominate the UN Security Council and thereby act as a global LEJ." "In the 5th Scenario, '5D-4 – OTAN', the West' is split and confused and cannot defend territorial aggressions from Asia and Russia. Wars evolves in Ukraine, Turkey, Svalbard and Hawaii. The continuum of previous Pyramid Games might end in SU final annexations of Europe, like in the novel '1984'. (UU 2017.feb.03).

The progress of the LEJ powers can be illustrated in a 3D+t political LEJ model (Legal, Executive, and Juridical powers). It was initially set to the powers (+5,+5,+5) in 5D-0. In the scenario 5D-1, the PPT (Puppet President Trump) disabled the US Legislative and Juridical powers to (0,-5,0). In 5D-2, the Martial Law enabled the para-police and para-military powers to drop the powers to (0,-10,0). In 5D-3, The cleansing continues in all the LEJ powers and drops them to (-5,-10,-5). The PRUSA (Peoples Republic of USA) is constituted to 2018 like the USSR (Union of Soviet Socialist Republics) to 1918, - the century before. In 5D-4, the zero-party system is complete and PRUSA has entered a political singularity at (-10,+10,-10). It crushed its own parliamentary system completely. Now it reverse NATO to OTAN and infects its defense alias as well. The 'parallel organizational apparatus', the organizational alter-ego OTAN, fights its host and the host fights back, until it is no sovereign global power anymore.

Martial Law is the most effective mean to paralyze the LUD powers of Parliamentarism. "Martial law is the imposition of the highest-ranking military officer as the military governor or as the head of the government, thus removing all power from the previous executive, legislative, and judicial branches of government. It is usually imposed temporarily when the government or civilian authorities fail to function effectively." "Martial law can be used by governments to enforce their rule over the public. Such incidents may occur after a Coup d' Etat (CdE Game); when threatened by democratic protest; to suppress political opposition, to fight revolts or natural disasters, at occupations, annexations or other conflicts. Examples of this form of military rule include post World War II reconstruction in Germany and Japan as well as the Southern Reconstruction following the U.S. Civil War." "Typically, the imposition of martial law accompanies restriction; the suspension of civil law, civil rights, and habeas corpus; and the application or extension of military law or military justice to civilians. Civilians defying martial law may be subjected to military tribunal (court-martial)." (Ref. Wikipedia)

"The martial law concept in the US is closely tied with the right of habeas corpus, the supervision of law enforcement by the Judiciary Power, that martial law suspends. The US Constitution states, "The Privilege of the Writ of Habeas Corpus shall not be suspended, unless when in Cases of Rebellion or Invasion the public Safety may require it." "Throughout United States history, there are several examples of the imposition of martial law, aside from that during the Civil War. There have been many instances of the use of the military within the borders of the United States, for example: The American Revolution (Boston Tea Party), New Orleans, (1812), Ex parte Milligan (1863), The Great Chicago Fire (1871), Coeur d'Alene, Idaho, (1892), San Francisco earthquake (1906), Colorado Coalfield War (1914), West Virginia Coal Wars (1920–

1921), San Francisco, California, (1934), The Territory of Hawaii (1939-1945) and Freedom Riders (1961).” (Ref. Wikipedia) Therefore, a 2018 scenario with PRUSA under Martial Law is likely to escalate in NATO with arranged attacks and falsified blame towards Asia, Arabia, Europe or Arctic related nations. The US President has less restricted powers over foreign affairs, which means it is easier to cause global military intrigues than domestic. Such an OTAN scenario is of the 4th degree Game (war) and potential the 5th.

What is NATO, then? The ‘Western nations’ formed The North Atlantic Treaty Organization (NATO) after the WW2 on ethics like ‘one for all & all for one’ in order to prevent further annexations, invasions and mass-massacres by the SU. Now, NATO has 28 members and 15 associated states. Three of the member states are members in the UN Security Council and have Veto power and nukes. Article 5 of the North Atlantic Treaty require member states to the aid any member state that is subject to an armed attack. It was invoked for the first and only time after the 9/11. NATO has operated a range of additional roles since then, like trainings in Iraq, assisting counter-piracy and imposing no-fly zone over Libya. Article 4 has recently been invoked five times for consultation amongst the NATO members.

The North Atlantic have been vital to ‘the West’ for 500 years, ever since the Americas was rediscovered. These 2 quotes sat that focus. “Less known is the Russian-English relation that Ivan made with Queen Elisabeth I. England wanted a trade-alliance, while Russia wanted a defense-alliance. He was guaranteed asylum in England if his regime should fall. It was not used because Ivan suddenly died of heart-attack.” (UU 2016.feb.19 & UU 2014.okt.31.) “Also, relevant for the Brexit (and Amexit) event is that UK got the ‘Pax Britannica’, an exclusive right to dominate the Atlantic Sea. UK got it when ‘the Concert of Europe’ (Congress of Vienna) constituted in 1815 and secured peace and diplomacy for a hundred years in Europe. (UU 2013.feb.22 & UU 2013.juni.21). Britain became a sovereign trans-Atlantic force in-between Europe and America.” (UU 2016.aug.12)

The 9/11 event activated latent powers in NATO. The 11/9 might also have escalated NATO to a different level of global warfare. The cyberwarfare of secret services escalated considerably before 2017, after activating double agents like Snowden and Assange, as well as para-organization WikiLeaks. Therefore, it is alarming that the US President appears to be a most negative spokesman towards NATO integrity, cooperation and unity. Fake news and propaganda have spread from Pravda, via RT TV to Trumpish Tweets. Deliberate doubts about the relationship between the European states and the United States is flooded with discredits towards the NATO defense abilities. The claims from own republican senators, like John McCain (Arizona) and Lindsey Graham (South-Carolina), that the acting President’s staff works towards the interests of the US, are well founded.

“Make America great again” is an ambiguous expression since US is merely a fraction of the Americas’ landmass (i.e. South-America, US and Canada). It is even ridicules propaganda when building a great wall towards south America and causing great isolation towards Canada. That propaganda is unlikely pro-American at all. Isolating the US is to make it far less great than ever. Such diluted mass-psychosis in the mass media are like a red-thread in actions, - like the ending US trade treaties with allies in Asia, Australia, Europa, Mexico and Canada.

“The most evident anti-Americas thesis is ‘the Moscow-thesis’, ‘the International’ – ‘the 3rd Comintern’. “It was initiated with Lenin and the first European ww1, executed by Stalin and the second European ww2 and continued through the 50 years of cold war towards European nations. The recent published 21 Conditions proves the international crimes towards America and the rest of the West. These conditions of the 3rd International Pyramid Game seems as relevant to the 5th. The following quotes from the conditions are as relevant to US today as the rest of the Americas and Europe.

C1. “... Propaganda for it must be carried out in such a way that its necessity is comprehensible to every simple worker, every woman worker, every soldier and peasant from the facts of their daily lives, which must be observed systematically by our press and used day by day.”

C3. “In almost every country in Europe and America the class struggle is entering the phase of civil war. Under such conditions the communists can place no trust in bourgeois (civil citizen) legality. They have the obligation of setting up a parallel organisational apparatus which, at the decisive moment, can assist the

party to do its duty to the revolution. In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity.“

C12. “The parties belonging to the Communist International must be built on the basis of the principle of democratic centralism. In the present epoch of acute civil war the communist party will only be able to fulfil its duty if it is organised in as centralist a manner as possible, if iron discipline reigns within it and if the party centre, sustained by the confidence of the party membership, is endowed with the fullest rights and authority and the most far-reaching powers.“

C14. “Every party that wishes to belong to the Communist International has the obligation to give unconditional support to every soviet republic in its struggle against the forces of counter-revolution. The communist parties must carry out clear propaganda to prevent the transport of war material to the enemies of the soviet republics. They must also carry out legal or illegal propaganda, etc., with every means at their disposal among troops sent to stifle workers’ republics.“

C16. “All decisions of the Congresses of the Communist International and decisions of its Executive Committee are binding on all parties belonging to the Communist International. The Communist International, acting under conditions of the most acute civil war, must be built in a far more centralist manner than was the case with the Second International. (The 2nd Pyramid Game).“

C17. “... The Communist International has declared war on the whole bourgeois world and on all yellow social-democratic parties. The difference between the communist parties and the old official 'social-democratic' or 'socialist' parties that have betrayed the banner of the working class must be clear to every simple toiler. “

The SU-US Cyber-war started before 2017. The PPT and PPP are in the midst of a LYAHF Cyber-Game of the 4th degree (Let’s You and Him Fight). Both the PPT and PPP are compromised and both Imperial Republics might collapse. Neither are what the mass-psychoses of the mass-medias expose anymore. For example, before the presidential run, Trump called Russia the biggest problem and geopolitical foe of US. Now, as the US President, the PPT is flipped and propagates for the SU and against the US. The reason has probably to do with family affairs and bondage to the so-called ‘Red Mafia’ (UU 2015.okt.23). His Ego seems unable to accept losses and will play manically Pyramid Games with other people’s valuables and values until disabled.

In this OTAN Scenario, the phase of the US civil war is complete and leaves the PRUSA in a dystopic futuristic ‘1984’ State with a permanent martial law. The ‘Colony Collapse Disorder’ (CCD) is about to spread like a ‘Acquired Immune Deficiency Syndrome’ (AIDS) to the rest of ‘the West’. The ‘Trojan Horses’, the anti-NATO, the OTAN, might have been uploaded like a virus, but rather function like a cybernetic parasite. Such issues have been touched upon in blogs concerning ‘Big Red’ (UU 2014.april.04, UU 2014.nov.28 & UU 2016.juni.24) and will be focused on in later blogs in this 5th Pyramid theme.

Still, the main concern here is how do NATO heal itself from the schizophrenic state and the LYAHF Games against OTAN? If the US implodes to a political singularity, like SU did a century before, the EU is the only ally that truly will help, - if it manages to enable itself in time. Such issues are basically not mainly of technocracy, plutocracy and bureaucracy though, but rather about psychocracy, democracy and – Believe it or not – theocracy. Such issues of 3[^] social psychology will be the focus later on this theme. Meanwhile, some blogs do present the fundamental theories in the blogs UU 2015.feb.27, UU 2015.mars.06 & UU 2015.mars.13.

The band Muse is previously presented in UU 2016.Nov.04. “Muse has become rather famous the recent years due to their extraordinary talents. However, that is not the main reason for being selected for this last ‘Music Break’ concert before the USA President election. The band became somewhat more interesting when reading what Muses are, - and that CIA calls Melania Trump ‘the Muse’. More about that in the Extra UU.”

“Muse are an English rock band. They released their debut album, ‘Showbiz’ in 1999, using falsetto and a melancholic alternative rock style. ‘Origin of Symmetry’ expanded their sound and got a reputation for

energetic live performances. 'Absolution' saw further classical influence and was the first of five consecutive UK number one albums. 'Black Holes and Revelations' incorporated electronic and pop elements that was influenced by Depeche Mode. 'The Resistance' and 'The 2nd Law' explored themes of government oppression and civil uprising. 'Drones' was a concept album about drone warfare and returned to a harder rock sound."

The association to this song 'Time Is Running' is the alter-egos OTAN vs NATO just like Woman vs Man, Matriarch vs Patriarch, that can cause CCD (Colony Collapse Disorder) - if not immune to the hosted 'Acquired Immune Deficiency Syndrome' (AIDS).

Extra UU - Computer Game Run-through- Red Alert

Scenarios similar to '5D-4 – OTAN', are well known in certain computer gaming communities and global tournaments, - like some virtual Olympic Games. Youngsters nowadays learn to conquer virtual foes with the utmost lethal weapons and means. 'Red Alert' is a set of 5D scenarios where the players choose sides and campaign. This run-through video is like an interactive TV movie with multiple scenarios where the SU conquers the US. The series of Games are like seasons in a TV-series and each campaign like episodes. Every single move the players do, have potential 'butterfly effects' with unforeseen consequences. There are innumerable alternative 5D scenarios to this single run-through.

That certainly gives some reflections about the next computer generation's perceptions on real and virtual realities. On the other hand, computer simulations on virtual warfare can hopefully be satisfactory substitutes for real world warfare in the future. After all, real wars are unnecessary.

"Command & Conquer: Red Alert 2 is a real-time strategy video game. It picks up at the conclusion of the Allied campaign of the first game. Its expansion is Command & Conquer: Yuri's Revenge. Red Alert 2 contains two playable factions, the Soviets and the Allies. The single player campaign is structured in an alternate-ending mode as opposed to a progressive story mode. Red Alert 2 was a commercial and critical success, receiving an 86% from GameRankings."

“The Soviet storyline begins with the player being briefed by Premier Alexander Romanov about the upcoming Soviet invasion of the U.S. The Commander leads an invasion into Washington, D.C. and destroys the Pentagon. Another Soviet invasion is launched into Florida to destroy the American fleet, which was threatening the Soviet invasion of East Coast. Even though the Commander is almost fully responsible for these victories, all the credit goes to the top Soviet commander, General Vladimir. While Vladimir is in Moscow celebrating, Yuri recommends that the player capture New York City with a Psychic Beacon, a device that can mind-control the people of entire cities. The player follows Yuri's advice, and launches an offensive into New York City. After capturing the Allied battle lab/research facility, at the World Trade Center, the Soviets deploy their Psychic Beacon and the entire population of the city falls under Soviet control.”

Red Alert 2: Soviet Campaign (play time: 1:10:36)

The TV series Occupied

There will be a second season of the Norwegian TV series Occupied (Okkupert). It was far more well received abroad than in the homeland. In that 5D scenario, US has withdrawn from NATO, leaving Norway a defenseless prey to the neo SU. The first season was presented like this in the in Extra UU1 2015.okt.09.

Roger Waters - Radio K.A.O.S. / Home

2017.mars.03

Ukens Utvalgte

This 4th scenario is '5D-3 – PRUSA (the Peoples Republic of USA)'. It continues where the US Parliamentary immune-system failed and the PPT issues a Martial Law to hinder his replacement. The para-police and -military start a well-prepared cleansing of Democrats and Republican, accused of disloyalty. Now the 3rd Party candidate appears as a PRUSA Executioner to the 5th Pyramid Game, - like Lenin and Stalin did in the 3rd Pyramid Game. The CdE US2017 has become like the CdE SU1917 and the SU 3rd International is adapted to the US 5th International version. Anyways, the intention to these dystopic 5D scenarios is to promote some P5GO (5th Pyramid Game Over). Moreover, some previous in-depth historical and theoretical quotes are used in order to describe that.

The introduction to the 5D-3 scenario was: "What 5D scenarios can be made for this CdE US2017? First of all, there is always the 'null scenario' with no considerable changes. However, this Amexit Game proves most likely to cause multiple responses and rise the Game to the 3rd degree (damage) - and even the 4th degree (war). Such a condition is far too complex to analyze here, if not focused on the main actors' real motives. Yet, it will still be impossible to predict all the cascades of fatalities of their failures and projections. However, in this UU theme 'the 5th Pyramid Game Over', the main focus is the 5th International of 'Putinism' (see UU 2016.sept.23)." "5D-3: PRUSA (Peoples Republic of USA) in the concept of the 3rd Pyramid Games (3rd International). Imperial Governments of US, SU and UA (United Asia – UU 2013.juli.19) are adapted and integrated. Rivalries are settled by proxy wars on prey nations like in the cold war. The three empires dominate the UN Security Council and thereby act as a global LEJ." (UU 2017.feb.03).

The progress of LEJ powers can be illustrated in a 3D+t political LEJ model (Legal, Executive, and Juridical powers). It was initially set to the powers (+5,+5,+5). In the scenario 5D-1, the PPT (Puppet President Trump) disabled the US Legislative and Juridical powers to (0,-5,0). In 5D-2, the Martial Law enabled the para-police and para-military powers to drop the powers to (0,-10,0). In 5D-3, The cleansing continues in all the LEJ powers and drops them to (-5,-10,-5). The PRUSA (Peoples Republic of USA) is constituted to 2018 like the USSR (Union of Soviet Socialist Republics) to 1918, - the century before.

Just recently, President Trump did a surprisingly appealing speech to the US Congress this week. Even a democrat said that “this wasn’t one of his crazier speeches, but at some point, he’s actually got to follow through and do the things he’s talking about.” There was apparently no Steve Bannon in the script this time. They both knew that it would be very unwise to enter ‘The ‘Lion’s Cage’ with losers’ approach of parroting PPP or Bannon again. The Legislative Congress would be alarmed by such alter-Egos’ exposure. They knew that the Congress would respond with playing the Game ABD (Attack is the Best Defense) before proper defense is in place. The speech was simply ‘Same Thing – New Wrapping’. The PPT acted just as professional as the Republican actors before him, - like Ronald Reagan, Clint Eastwood and Arnold Schwarzenegger, - discreetly reading out loud every word on the screen. Still, the PPT managed to blame Obama for the info-leaks to Putin as well as discrediting the US Secret Services even more. This might cause some kind of legitimation to start the political cleansing of US loyalists in the Executive powers.

The speech seems full of memes, like making the American Great (Wall) - again. Messages were also dedicated the First Lady’s networks. For example, the car industry is the very symbol for the past centuries greatness and the present decay. Yet, the President focused on the MC industry instead. In his previous intimate talks with their representatives, they even offered him a ride, - just like PPP did with the Russian ‘Night Wolves’ before they became undercover GRU soldiers in the invaded Ukraine. To match that, the PPT would have to ride with the Hells Angels. Although successful propaganda in SU, such scenes would make self-destructive memes in the US. Anyways, the relations are there. For example, the PPT’s father-in-law, Viktor Knavs, is one of the few dedicated communists of the former Yugoslavia that collapsed when the pro-Russian Marshal Tito died. Viktor is in the bikers’ business and related to such networks with related services. (UU 2016.juni.17, UU 2015.okt.09 and UU 2016.Nov.04)

This 5th Pyramid Game is a Putinist version of the Leninist 3rd Pyramid Game, that was mainly executed by the successor Stalin. The realization of PRUSA is parallel to the Leninist USSR (Union of Soviet Socialist Republics), where personal bloodlust and mental disorders were not hindered to become imperial state of mind. It was a well-prepared mass-execution of millions of loyalists to the previous regime. Following are some previous quotes that relates the SU 1918 to the US 2018.

- “The most evident anti-European thesis is ‘the Moscow-thesis’, ‘the International’ – ‘the 3rd Comintern’. “It was initiated with Lenin and the first European ww1, executed by Stalin and the second European ww2 and continued through the 50 years of cold war towards European nations. The now published 21 Conditions proves the international crimes towards European (and American) parliamentary nations. “C1 In the columns of the press, at public meetings, in the trades unions, in the co-operatives – wherever the members of the Communist International can gain admittance – it is necessary to brand not only the bourgeoisie (civilians/borgere) but also its helpers, the reformists of every shade, systematically and pitilessly.” “C3 “In almost every country in Europe and America the class struggle is entering the phase of civil war. Under such conditions, the communists can place no trust in bourgeois legality. They have the obligation of setting up a parallel organizational apparatus, which, at the decisive moment, can assist the party to do its duty to the revolution (CdE Game). In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity.” (UU 2015.okt.30.)
- “Although too early to draw conclusions to this theme ‘The Fifth Pyramid’, - some reflections on the 3rd Pyramid does. The failure of the two previous International failed, mainly because of conceptual failures. The hard-core 3rd Pyramid was made on the same concept and thereby also built to fail. However, doping regimes with manic extremist caused the obvious outcomes of CCD (Colony Collapse Disorder). After the 1st Pyramid, there were temporarily mass-psychotic delusions to overcome. Now, with Leninism and Stalinism, the self-lobotomisation in Russia, by terminating millions their own citizens, caused organizational mental invalidation that will take generations to overcome. That is, - if the condition is realized and the need for sound mental health is admitted.

Imagine - letting a brain-surgeon operate himself is obviously no good idea at all. That should rather call for a psychologist or psychiatrist – other than himself. Anyways, the global shock of the Tsar Bomba was a wake-up call for most of humanity. “This is insane”. Unfortunately, the following strategy of Iron Curtain and ‘The Wall’ proves the opposite. Their CCD spread like an organizational toxoplasmosis.” (UU 2016.juni.03)

- “Concerning an US president Trump (extra UU 2016.juni.03). There should be no doubt that the main gain of the 5th Pyramid Game is to have a remote controlled puppet president in US too. There should be no doubt that the Russian bets are set on Trump. A narcissistic Pro-Russian Oligarch is always for sale to the highest bidder or to personal threats. The Russian Oprichnina (the original Russian secret state services) will most certainly abuse such opportunities and cause US to act against US Will and to nova Russia benefits. It seems there is a ‘3rd Fatherland war’ that Russia has started on itself. This time Europe, or any other proxy-battlefields, should not be lured into it in any way – and let it finish itself. Trump as president is a such a potential high risk for ‘the West’ to enter conflicts.” (UU 2016.juni.17)
- The imperial sociopathic process was talked through in UU 2014.okt.31. “The Man of Steel / Stalin, alias Ioseb Besarionis je Jūgašvili, was originally a local mafia boss in Caucasus that advanced to the chief of operations to the Bolsheviks. They financed the organization with bank robberies, kidnapping, extortions and murders. He was imprisoned and sent to Siberia seven times but was always set free. He had no military background and did not serve in ww1. The need for better reputations was arranged by starting the newspaper Pravda (Truth). Next he took the nickname Stalin (Man of Steel) to propagate himself and his organization. Lenin said that Stalin was the right person to operate Soviet and posted him as general secretary. Soon Lenin got stroke and had to resign. Stalin continued Lenin’s merits with 10 times the execution of own citizens. Stalin simply made Moscow a mafia empire. Nevertheless, Stalin is now a ‘patriarch of mass-psychopathy’.” UU 2014.juni.06. These genocides of tens of millions of their own citizens were presumably simply to ensure loyalty to the new State regime instead of the previous Throne regime as part of the CdE Game. Brute logic might be that killing and brutalizing is most effective. However terminating the previous elite is like lobotomizing oneself as a society. The retardation and traumas take centuries to psycho-socially heal, - if ever possible at all.”(UU 2015.nov.06)

Just as the applauded speech to the Congress, - all this is also the ‘Same Thing – New Wrapping’ - US2018 as SU1918.

There might not mass massacres in the PRUSA like it was in the USSR. Anyways, the SU Gulag colonialization program, and their so-called ‘free settlements’ in US, will be re-vitalized in this PRUSA scenario. It might concern 3 million citizens (UU 2017.feb.03). Although named differently, the US Gulag is a key resource to the scenario. That culture was in focused when writing about the Norwegian Gulag branch called LO. (Landsorganisasjone / the national organization) The translation is: “LO is founded on such civil-war culture (as the 3rd International’s 3rd Condition). LO is parallel to the Soviet labor-camp system ‘Gulag’ and its colonialization program for so-called ‘exile settlements’ (ссылное поселение). LO even do self-censorship on their hymn ‘The International’ concerning resisting the extortion of labor by the Executive (state) powers. Even though Russia itself abandoned the hymn as national anthem, LO still holds on to it and proves itself incapable of adapting to their workers’ present realities, - as democrated citizens. LO is simply unable to free itself for the Russian patriarchal manias of the Cold War.” (UU 2011.jan.14) Also note the relation of LO to WW2 Nazism (Nashi, Наши), AUF (the Utøya massacre) and AP (the Labor party that is supported by the para-organization LO). (UU 2016.juli.22) Furthermore, LO dominates half the labor in Scandinavia and is closely related to the Gulag off-spring Red Mafia (UU 2017.feb.24.)

PTT appeals to all the exiled and abandoned Gulag workers in the US, - knowing very well that their collective mass-psychosis is as for LO and that it can be triggered for collective synchronized emocratic uproars, - just like in SU1917. However, knowing that the ethics of the Pyramid Games are “Honesty is for

suckers” – the democracy has a task to enlighten the workers to avoid such CCD (Colony Collapse Disorder). (UU 2014.sept.12.)

“Is Trump a kind of Manchurian Candidate?” This question is raised too often to be ignored. There is a long list of indications presented in UU 2017.feb.10. Several classifies as High Treason that powerful republicans as well as Democrat express. This issue is further presented as the original movie in this week’s Extra UU. However, the Manchurian Candidate has become a meme that can be related to memes of Trojan Horses, Brutus, T. Gondii and Zombies. It is a common move in Games of CdE and in particular the 5th Pyramid Game, - as well as the previous ones.

The next 5D scenario outscapes from PRUSA to OTAN.

Radio K.A.O.S. is the second of Roger Waters three solo-album after the division from Pink Floyd. The album is a story that could be a continuous of the ‘The Wall’ and ‘The Final Cut’. The climax is about a false alarm about WW3. The radio station K.A.O.S. works well as the scene for the story based on several meaningless and chaotic anecdotes, poured out of the powerful mass-media. However, there are lots of Rogers own musical and political expressions.

The association here is that Steve Bannon also hosted a radio show called Breitbart News Daily.

Extra UU - The Manchurian Candidate

"Is Trump a kind of Manchurian Candidate?" This question is raised too often to be ignored. This is an undiscovered concern in these 50 additional P5GO blogs (The 5th Pyramid Game Over).

"The Manchurian Candidate (1959), by Richard Condon, is a political thriller novel about the son of a prominent U.S. political family who is brainwashed into being an unwitting assassin for a Communist conspiracy. The novel has been adapted twice into a feature film by the same title, in 1962 and again in 2004." TV series like Homeland, that is based on the Israeli series 'Prisoners of War' (Hatufim / "Abductees). Plot summary: "Major Bennett Marco, Sergeant Raymond Shaw, and the rest of their infantry platoon are captured during the Korean War in 1952. They are taken to Manchuria, and are brainwashed to believe that Shaw saved their lives in combat – for which Congress awards him the Medal of Honor. Years after the war, Marco, now back in the United States working as an intelligence officer, begins suffering the recurring nightmare of Shaw murdering two of his comrades, all while clinically observed by Chinese and Soviet intelligence officials. When Marco learns that another soldier from the platoon also has been suffering the same nightmare, he sets to uncover the mystery and its meaning.

It is revealed that the Communists have been using Shaw as a sleeper agent, a guiltless assassin subconsciously activated by seeing the "Queen of Diamonds" playing card while playing solitaire. Provoked by the appearance of the card, he obeys orders which he then forgets. Shaw's KGB handler is his domineering mother Eleanor, a ruthless power broker working with the Communists to execute a "palace coup d'état" to quietly overthrow the U.S. government, with her husband, McCarthy-esque Senator Johnny Iselin, as a puppet dictator.

Marco discovers the trigger of the "Queen of Diamonds" and meets with Shaw at the Central Park Zoo shortly before the party's national convention. He uses the card to interrogate Shaw as to his final plan; Shaw is to shoot the presidential candidate during the convention in order to win overwhelming support for Senator Iselin, the vice-presidential candidate, and the dictatorial powers he'll request following the assassination. Marco reprograms Shaw, although the reader is unsure until the final pages if it worked. At the convention, Shaw instead shoots his mother and Senator Iselin. Marco is the first of the authorities to reach Shaw's sniper nest just after Shaw kills himself."

Is unconscious assassin under hypnosis possible? There are documented proof by professional hypnotists. This is focused on blogs like UU 2015.aug.28, UU 2014.dec.19 and UU 2013.april.19. The issue will be related to the CdE US2016 when this sub-theme is completed.

The Manchurian Candidate - opening scene

Derren Brown: The Assassin (under hypnosis)

<https://www.youtube.com/watch?v=90xfZJQzAhc>

Ramstein – Sonne

2017.feb.24

Ukens Utvalgte

This third scenario '5D-2 – RAF White House' continues the 5D-1, where the US Parliamentary immune-system failed. Para-police and para-military are engaged like some RAF (Red Army Faction) in order to prevent the substitution of the President. The PPT issues a Martial Law to fight a fake CdE, - just like the 'Coup ala Tyrk 2016'. The Legislative and Juridical powers are disabled and the PPT gets Emperor Executive powers. Then a well-prepared cleansing of both Democrats and Republicans starts.

Anyways, the intention to these 5D scenarios is to promote P5GO (5th Pyramid Game Over). Besides, some previous in-depth historical and theoretical quotes are used in order to describe that.

The 5D-2 introduction was:" What 5D scenarios can be made for this CdE US2017? First of all, there is always the 'null scenario' with no considerable changes. However, this Amexit Game proves most likely to cause multiple responses and rise the Game to the 3rd degree (damage) - and even the 4th degree (war).

Such a condition is far too complex to analyze here, if not focused on the main actors' real motives. Yet, it will still be impossible to predict all the cascades of fatalities of their failures and projections. However, in this UU theme 'the 5th Pyramid Game Over', the main focus is the 5th International of 'Putinism' (see UU 2016.sept.23). "5D-2: A federal CdE is executed by para-military - like Putin's national guard. There is a civil war where the Constitution and Human Rights are 'temporarily' set aside. US no more dominate global politics due to massive domestic unrest." (UU 2017.feb.03).

The 3D+t political LEJ model (Legal, Executive, and Juridical powers) was initially set to the powers (+5,+5,+5). In scenario 5D-1, the increased President's anti-parliamentary powers disabled the Legislative and Juridical powers to (0,-5,0). In this 5D-2 scenario, the Executing power issues a president order to overrule civil law with a Martial Law. The powers drop to (0,-10,0) by para-police and para-military in accordance to the 3rd Condition of 3rd International; "parallel organizational apparatus which, at the decisive moment, can assist the party to do its duty to the revolution". That 3rd Pyramid Game is adapted to this 5th Pyramid Game. Red is US Republican color as well as the 'Red Army Faction' (RAF) and the Red Mafia. This 5th Pyramid Game's scenario is basically like the numerous military coups in South America during the 4th Pyramid Game, - the Cold War (see list Wikipedia). Ironically, the SU PPP asked publicly if also US had become a so-called Banana Republic. He certainly knew his own answer before presenting the question.

The main trigger to this 5D-2 scenario is when the Republican Party attempts to replace the 3rd Party candidate PPT with their true candidate, the Vice President Mike Pence. This scheme is well known and basis for the 5D-0 scenario. However, the plutocratic powers of PPT and the related Red Mafia will most certainly not accept such sunk cost or respect the US Constitutional Gimmicks. The 5th Pyramid Game players at the PPT team are in place already and more are pouring in. For example, Michael Flynn, the national security adviser to President Trump, resigned late Monday over revelations about his potentially illegal contacts with the Russian ambassador to the US. More relevant is Steve Bannon that is called 'the de facto-president'. He made PPT make extreme promises during the campaign that most people thought was fake to get more votes. But Bannon insists on delivery on those promises. He is angry with the so-called 'global elite' and promotes increasing domestic rebellions and say that Europe can only be 'saved' with armed conflicts, - probably meaning that goes for the US as well. That is parroting Lenin and Stalin of the 3rd Pyramid Game. That is playing the 4th degree (war) Games of ISR (It Started with the Retribution) and ABD (Attack is the Best Defense). That legitimizes armed Coup d' Etat in the White House to Execute PPT's murkiest expressions.

RAF (Red Army Faction) has been the focus in these 6 years of blogging and some can be related to this CdE US2017. The relation to the WTF Tower (World Trump Finance) was focused in the previous UU 2015.okt.23. "Anyways, in brief, the hardcore mafia of this century stems from several generations of Russians that survived the Russian revolution, ww1, Stalin's mass-terrors, ww2, Gulag concentration camps and colonialization programs, and the Russian contra revolutions of Perestroika and Glasnost. Now, in this century, the Red Mafia got an intuitive culture where 'Rule by Law', national border and democracy does not apply, - and where personal profit is their utmost value-system." Moreover, the two following paragraphs focus on the SU paramilitary in European 'West' (UU 2015.okt.09).

- "It is as hard to analyze Kremlinology as Vaticanology. However, some were done based on the BBC documentary 'Putin, Russia and The West' in UU 2014.nov.07, UU 2014.nov.28, UU 2014.nov.21 and UU 2014.nov.14. It concerned the nova-Russian CdE Games in Georgia and Ukraine during the rejection of the puppet presidents and the following undercover wars in their regions. It lead to the hypothesis about PROSA (Pro-Russian Oligarchs, Separatists and Autonomes), - this century's Underworld version of the ill-reputed coldwar RAF (Red Army Factions). PROSA stems from the ww2 Stalin/Hitler BRAF (Brown-Red Army Factions) alliance based on the Molotov-Ribbentrop Pact 1939-1941. It became GRAF (Green-Red Army Factions)

in this century. As throughout the coldwar, most NATO and EU nations have such Underworld CdE separatist cells today with illegal agenda, - cloaked as legitimate opposition to national governments. The Dane Blekingegadebanden was a RAF-dnk with Scandinavian relations to RAF-swe and RAF-nor. However, it turned GRAF with Gotfred Appel's conversion from Stalinism to Maoism. By nature, such cell are determined to hinder strengthening of 'rule by law' with international cooperation like EUROJUST, EUROPOL and CEPOL, - with urban warlike means, - like Blekingegadebanden and all its related organizations and persons."

- "Less known, but more important, are relations indicated to Carlos the Jackal. It was mentioned in UU 2015.feb.20 concerning the GRAF attack at 'Krudttønden' in Copenhagen: "Historically, in 1968, Carlos opted for the Patrice Lumumba University in Moscow that was reputed as a notorious hotbed for recruiting foreign communists to the Soviet Union. He was expelled from the university in 1970 by disciplinary reasons, though. Then he travelled to Beirut and Lebanon, where he volunteered for the PFLP (Popular Front for the Liberation of Palestine) in 1970 and tried to establish his own organization with Syrians, Lebanese, and Germans. Carlos was also connected to the STASI that provided him with an office and safe houses in East Berlin, a support staff of 75, a serviced car, and allowed him to carry a pistol in public. The STASI files also show links to the KGB (today's FSB). There is no public information if Carlos and Putin had relations when they both were with the KGB in East Germany. However, Carlos the Jackal was most certainly closely related to RAF-dnk." (UU 2014.nov.21.) Anyways, the Jackal's main objective was to train Arabs in Underworld urban warfare like any sociopathic attacks from pillaging and terror to mass-murder."

Things have changed in Russia since then. FSB dominated GRU until 2013. Now PPP dominates the new Executive power FSS (Ministry of State Security) and strengthens his National Guard.

South American states are amongst the most infiltrated and manipulated by GRU controlled Red Mafia and Red Army Factions. The reason is obvious, the 3rd condition to the 3rd international dictates: "In almost every country in Europe and America the class struggle is entering the phase of civil war. Under such conditions the communists can place no trust in bourgeois legality. They have the obligation of setting up a parallel organisational apparatus which, at the decisive moment, can assist the party to do its duty to the revolution. In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity." There is no doubt that US is the main 'Banana Republic' in the 5th International view. This is not previously focused in these blogs. However, European BRAF, RAF and GRAF as well as PROSA, applies to all the West, America as well as Europe. The list of south American para-military coups is extreme. (see the list of CdE hereunder.)

Control over Mexican trafficking seems to be an obsession for PPT, - and the Red Mafia. The two-way traffic of illegal money, drugs, weapons and workers is also a proxy-war between the SU & US. For example, Stalin had Trotsky executed in Mexico. Furthermore, the extension of the Panama channel will cause major changes in Pacific-Atlantic trade and 'Western' markets. Anyways, a recent major setback for the mafias was that the 2016 Nobel Peace Prize was awarded to the President of Colombia Juan Manuel Santos "for his resolute efforts to bring the country's more than 50-year-long civil war to an end, a war that has cost the lives of at least 220,000 Colombians and displaced close to six million people." That was a disaster for the drug-mafias in Mesoamerica. Most unfortunate, the leader of the Nobel committee passed away soon after.

There are some parallel events in Norway, that might not seem relevant to the CdE US2017. However, the concept of 3rd Pyramid Game is global and RAF has adapted differently in western cultures. These are some leads to consider.

- “ABB, the executioner at Utøya, got his para-military training in Eastern Europe and got associated to such cultures. Related organizations were talked through in UU 2014.nov.14: “Nashi (Наши), the Putinized youth organization, turned unacceptable. Wikipedia says: “In 2012, the leader of Nashi announced that the movement would be dissolving in the near future, possibly to be replaced by a different organization. Media have compared it to the Soviet Komsomol or the Hitler Youth and called ‘Putin jugend’.” In a Nordic view, it is remarkable that Nashi flag is like a diagonal Danish one and the neo-Russian flag is like a diagonal Norwegian one. Although still emotionally controversial, it is now legitimate to relate Nashi to Nordic political youth organizations, - and AUF in particular. No doubt that AUF is strongly related to ‘heads of state’, the major political party, the labor organization (LO) and public sector.” St. Petersburg (former Leningrad), Putin’s hometown, is just across the waters of Stockholm and cultures are certainly mutually influenced. Nashi-like organizations seems to flourish in Sweden. A recent article says that Russian media contacted Le Pens Front National, Dansk Folkeparti and Sverigedemokraterna and other ‘right wing’ parties to complain about EU ‘bureaucratic monster’ immigrations, homosexuality, western decay in order to support the message that traditional Russia is a stabile contrast to unstable and liberal west.” No doubt that a main candidate from DF was heavily subsidized in the previous EU election. Considering the policies, subcultures of the Norwegian FrP, Sp, SV and AUF are most probably likewise corrupted. Anyhow, it is easy to discover, since the arguments are mainly parroting Pravda’s English version at the internet. (UU 2015.mars.20)
- “The Norwegian Trial of the decade is certainly the 22/7-2011 case. It was really 2 very different extreme terror cases; the CdE by blowing up the Governmental Building, and the massacre of the governments youth organization (AUF). The joint trial is focuses in UU 2012.mai.18 to UU 2012.Juli.20, and UU 2012.aug.24. the over- focus on ABB’s reward, the massacre on innocent youths, did take all the attention from the CdE bombing. There is no proof at all that ABB bombed the building and that no-one else were involved. It rather seems that he part was taking the blame in court and that his layer saw to that no questions about any relations were asked. However, some para-military and para-police were involved making all police and military involvements major failures. Even the armed ferry was disabled and the police put in fragile rubber boats. Actually, saving of the surviving youth was done by civilians, - not the police or the military. The trial concluded that all relevant documentation is to be locked up in 60 year, ensuring that the public will merely know the mass-psychosis of the mass-media, as described in the 3rd International.” (Translated from UU 2012.mai.25 and UU 2014.juli.18)

Taking all the blame for the bombing of the Government Building in CdE Nor2011 is certainly considered heroic in Nashi and RAF cultures. It mislead the focus on the para-police, para-military and para-court that will not be exposed in 60 years, when all the involved have passed away unnoticed, - just like the CdE JFK1963.

Furthermore, the ongoing ‘Jensen vs Cappelen’ trial is particularly relevant when focusing on any ‘Western’ Executive para-police and Juridical para-court. Jensen was an undercover policeman against the north European drug mafia and its informant Cappelen. They used cloaked SMS messages, like Tweets are used these days. The trial is broadcasted daily by the internet-TV of the newspaper VG (see links). So far, both have claimed that they have secret agreements with parts of the police that protects certain people in both the police and the mafia. The statements expose that the police is highly infiltrated and manipulated by the mafia. The motive of both Cappelen is to discredit the policeman to reduce own sentence in that Game of Prisoners’ Dilemma. His layer is very helpful in that. A spin-off case shows that Jensen blew the the A-gang and B-gang, - probably to eliminate Cappelen’s rivals. Nevertheless, ABB claimed that he was trained in 2003 by the leader (Shahid Rasool) of the A-gang (previously Young Guns) before the Utøya massacre on the Government’s youth organization AUF. Therefore, both cases should be investigated by international police and military forces, like Europol and NATO, in order to learn more about how the para-police, para-

military and para-court works during CdE attempts in any Western nation. Both the Red Mafia and the Rote Arme Faction have operated in Norway for a century, - as well as the rest of 'The West'.

This scenario '5D-2 – RAF White House' is initially a possible self-defensive move for the PPT to protect his position as President. It is planned like the CdE Turk2016. However, there should be no doubt that PPT's chief strategist, Steve Bannon, is very able and willing to exploit such a CdE crisis to execute an alternative agenda. That is the next scenario '5D-3: PRUSA (Peoples Republic of USA)'.

The band Rammstein is previously selected to blogs concerning RAF. The band took the name of a German town with ww2 traumas and a NATO air-base. They often present an east German view on 'the West', violence and sexism. However, despite their image, there is some honesty, quality and professionalism to their music, image and productions. This video presents their image on American extortion of hardworking Germans. Previously, RAF are represented with the Rammstein video Ich Will (UU 2014.juni.13). As an introduction, Engel, about some fallen angel-child of the post proxy wars in divided Germany (UU 2014.juni.06).

The association here is the mass-psychosis projections on how 'The West' threat the hard-working people, like the band members present themselves. The use of East-German language stresses that it stems from a cold-war STASI nation, though. Game analysis is a lot about seeing through what really is the motive for the message.

Extra UU – TV series 24, Season 7 - Military Coup in White House

The main trigger to this 5D-2 scenario is when the Republican Party attempts to replace the 3rd Party candidate PPT with their true candidate, the Vice President Mike Pence. The strategist Bannon then set off the 'Red Alert'.

The TV series 24, season 7 is about a military Coup in the White House. Here is a recap:

"24 is an American action thriller television series that spanned 192 episodes over eight seasons. The series begins with Bauer working for the Los Angeles-based Counter Terrorist Unit, in which he is a highly proficient agent with an "ends justify the means" approach, regardless of the perceived morality of some of his actions. Throughout the series most of the main plot elements unfold like a political thriller. A typical plot has Bauer racing against the clock as he attempts to thwart multiple terrorist plots, including presidential assassination attempts, weapons of mass destruction detonations, bioterrorism, cyber-attacks, as well as conspiracies which deal with government and corporate corruption.

In this seventh season, Bauer is on trial for alleged crimes he committed while working for CTU. Senator Blaine Mayer has disbanded CTU and strengthened the policies of Allison Taylor's administration against torture. Bauer is brought into another counter-terrorist operation when FBI agent Renee Walker interrupts the hearing to tell him about an imminent threat."

"Day/season 7 can be divided into four main acts: A warlord breaches a government firewall and attempts to cause massive damage, then tries to manipulate the President by kidnapping relatives. A unit of soldiers invades the White House and takes the President hostage. Mercenaries acquire a prion weapon and threaten to deploy it on major American cities. An agent steals the last canister of the pathogen to cause a pandemic outbreak."

Thomas Dolby – Nuvogue

2017.feb.17

Ukens Utvalgte

'5D-1 – The WTF Tower' is the second scenario to the Coup d' Etat US2017. It shows an alternative future where the US Parliamentary immune-system fails in restoring proper LEJ Quality and cannot heal itself in time. The WTF Tower (World Trump Finance) elevates as an anti-wester 'parallel organizational apparatus' to the White House, - and the PPT acts like a remote-controlled Emperor instead of a Federal Prime Minister. This scenario continues the negative trend of the 5D-0 scenario by paralyzing the Legislative power with mass-psychosis, engaging treasonous staff and advisors to the Executive power, and overload the Juridical power with conflicting President orders. The 5D-1 Coup d' Etat (CdE) can be categorized as a 'dictatorship veto coup' (UU 2017.jan.27). Still, the intention to these 5D scenarios is to promote P5GO (5th Pyramid Game Over). Besides, some previous in-depth historical and theoretical quotes are used in order to describe that.

The 5D-1 introduction was:" What 5D scenarios can be made for this CdE US2017? First of all, there is always the 'null scenario' with no considerable changes. However, this Amexit Game proves most likely to cause multiple responses and rise the Game to the 3rd degree (damage) - and even the 4th degree (war). Such a condition is far too complex to analyze here, if not focused on the main actors' real motives. Yet, it will still be impossible to predict all the cascades of fatalities of their failures and projections. However, in this UU theme 'the 5th Pyramid' Game Over', the main focus is the 5th International of 'Putinism' (see UU 2016.sept.23). The following list merely indicate some 5D scenarios for this CdE US2017." "5D-1: The US LEJ powers shift so the President's Executive power dominates the Legal and Juridical powers. Cascades of domestic President orders radicalize both public and private sector in a redistributive null-sum Game." (UU 2017.feb.03).

The 3D+ political LEJ model (Legal, Executive, and Juridical power) is initially set to powers (+5,+5,+5) at 2017.01.01. The increasing Presidential anti-powers drops the Executive to (+5,-5,+5). Finally, Executive disables the Legislative and Juridical powers to (0,-5,0). This 5D-1 scenario indicates that the Executing power has become a so-called "parallel organizational apparatus which, at the decisive moment, can assist the party to do its duty to the revolution" - as clearly stated in the 3rd Condition of 3rd International. Treasonous advisors become like Trojan Horses to the Executive power, the loads of conflicting President orders are like hacker attacks causing 'Denial of Service' at the Juridical power, and the diluting tweets and media overloads are like mass-psychosis to the Legislative power. The Senate and the Courts becomes paralyzed, while the WTF Tower becomes a beacon for remote controlling the White House.

What powers do a real US President have? The US President is like a federal Prime Minister, not an Emperor. The President is the head of the Executive powers and controlled by the Legislative and the Juridical powers. In brief, the Constitution of the United States says about the president powers:

- The Executive powers are obligated to execute the President's orders.
- The President has access to nuclear weapons, but needs approval from the Defense Minister.
- The President can veto proposals from the Legislative powers of the Congress.
- The President selects judges to the Juridical powers, but need the Legislative Senate's approval.
- The President has extended powers on foreign politics, but shall inform Congress in advance.
- The President can make and end International treaties, with approval from the Congress.

The intense abuse of these powers was listed in the previous blog 5D-0 (UU 2017.feb.10). Such an ABD Game (Attack is the Best Defense) might have meant to knock out the US LEJ powers. However, this 5D-1 scenario will follow a hypothesis that the PPT continues the path of 'anti-western' actions. Moreover, the PPT will obviously not run for a second period in this HAR Game (Hit & Run). The delayed Democracy's fury of misled voters has no effect on the PPT, that practices the Pyramid Gamers ethics 'Honesty is for suckers'. It should also be alarming that the PPT is overconfident in threatening to prosecute opponents, even judges, - like if the Juridical powers are seriously corrupted.

The blog 'P5GO11 - Mass-psychoses' (UU 2016.sept.16) focuses on deliberate abuse of mass-media to cause CCD (Colony Collapse Disorder) to enable a CdE (Coup d' Etat). Both the PPT (Puppet President Trump) & the PPP (Puppet President Putin) act like they are in bondage to the mass-media, as described in the 3rd International's Condition 1. "The dictatorship of the proletariat must not be treated simply as a current formula learnt off by heart. Propaganda for it must be carried out in such a way that its necessity is comprehensible to every simple worker, every woman worker, every soldier and peasant from the facts of their daily lives, which must be observed systematically by our press and used day by day." "The periodical and other press and all the party's publishing institutions must be subordinated to the party leadership, regardless of whether, at any given moment, the party as a whole is legal or illegal." The FSB warfare towards 'the West' is now so alarming during the Brexit and Amexit, that it has become a highest priority for cyber defenses of the US and EU military and police. (The upgrade and adaption from the 3rd Pyramid to the 5th Pyramid Games is described in UU 2016.sept.23. The electoral fraud to the CdE US2017 is focused in UU 2017.jan.13.)

However, a main concern related to the 5th Pyramid Game is the long-term mass-psychosis on humanity caused by the propaganda promoting the electoral frauds in SU, EU and US. The effects of extreme isms go for politics as well as religions. The 3^3 psychosocial model is an extended combination of Freud and Jung's theories. It can be used as an extension to escalate the 5D LEJ scenarios of past and future events. A brief summary indicates the potentials. "In brief, the S-E (Superior-Ego) can be sub-categorized into Matriarch and Patriarch (and Authority), whilst the ID can be sub-categorized into Jerk, Sulk and Nerd." (UU 2013.mars.08) "Collective terms like mass-psychosis and double-moral (standards) are related to psychological terms like psychosis and schizophrenia. Therefore, it is social vital not to promote unbalance

between societies' Supremacies; Superior-Ego/Authorities, Ego/Organizations and ID/Emocracy. It is alarming that such unbalance from the 20th century's global wars are not balanced. The Law-giving and Judging State powers seems weak related to the States machine." (UU 29.Juni.2012) The combined 3[^]3 & 5D model is a foundation to these blogs in the whole '5th Pyramid theme and will most probably be used to psycho-analyses the real origins, traumas and remedies.

The WTF Tower (World Trump Finance) at Manhattan is a term that started the UU 2016.dec.16. The relation between the fall of the 3 WTC Towers at 9/11 and the rise of the WTF Tower at 11/9 are mentioned in several subsequent blogs. It seems that the 9/11 event is dominated by mass-psychotic (3[^]3) Belief, like shown in the video documentaries like "9/11 - Anatomy of a Great Deception". If so, there are anti-US powers well established in the US and at operating inside the US secret services FBI, NSA and CIA. Snowden and Manner are not 'lone wolves', but supported by 100 years old 'parallel organizational apparatus' from within. Such a historical 5D event is mass-psychotic and dangerous to the 'western' civilizations' existence. The plutocratic 3rd Party PPT promotes a next phase, following the fall of the 3 WTC Towers at 9/11 and its subsequent global plutocratic warfare.

Furthermore, from 2012, "there is global economic crisis – and the mass media stress that. Who on earth can be surprised by this? Any politician has seen the development for a decade. Symbolically, it was the starting-gun for the process was by the fall of the two (3) Towers – WTC. Since then, lots of planes with layers have reached Washington too. The world trade has been in financial wars since then. It seems trivial to mention, though, but the deregulations and unrestrained loaning policies can destroy any economy. Anyone knows, from personal experience, that pay-day finally comes and spending too much is to using up ones' own future. Even though some managed to outrun their bills, they do not disappear, but are handed to innocents that cannot take anymore." "The video documentary «Financial Meltdown» last for 3 hours. It is worth seeing. The prequel to today's crisis are the same as in the 30's (when the 3rd Pyramid Game started). Republican plutocrats arranged deregulated loans and allowed massive unsecured loans in addition to the massive outsourcing of production, work and valuables to China. When the bobble eventually cracked, the state aids were handed to banks of piracy, - not the bourgeois citizens or firms. The tragedies were massive. It is obvious that the Pyramid Game was well arranged between republican senators, layers and plutocrats in advance. This is organized crime at the highest level, - and they are more powerful than the Juridical powers. Drugs, prostitution and corruption were means in the Game. What in the world can have both republicans and democrats continuing this self-destructive Game? The answer is obvious – a much greater threat toward national security." (Translated from UU 2012.jan.27).

Symptoms of present anti-constitutional activities of PPT and the WTF Tower were listed in the 5D-0 Scenario The list was, in brief; "Widespread distrust by the republicans, provoking illegal counteractions, DAC (Divide & Conquer) Games towards the US allies, favoring US rivals, causing dysfunctionality to the Executive powers, massive spamming of diluting tweets, threatening opponents with trials and firings, causing brain-drain in domestic IT industry, planning a 'Festung US' towards Mexico, weakening NATO alliances, promoting Russian aggression in Europe, promoting diversion of European union, making hostility in the Pacific ocean, promoting a global financial war, criticizing own secret services FBI, NSA and CIA while endorsing Putin and FSB, promote mass-psychotic terms like 'alternative facts', promoting dilutional deregulations, strengthening military while reducing civil services, engage US in ill-prepared warfare in Yemen and provoking Iran." (UU 2017.feb.10)

The 5th Pyramid Game players are hidden in plain sight. This was focused in UU 2015.okt.23. "The BBC / History video about the Russian Mafia documents that the so-called 'Red Mafia' that controls 40% of Russian economy, is the fastest growing, the most dangerous and operates at nation state levels. (See video documentary.) It also shows the 100 years old foundations to ww1, the imperial CdE (Coup d' Etat) and the mass assimilations in the SU Empire. However, there is no reason to ignore its cultural existence from Tsar

Ivan's regime and the foundation of Roma3 and Oprichnina (secret state service) 500 years ago (UU 2015.okt.09). Anyways, in brief, the hardcore mafia of this century stems from several generations of Russians that survived the Russian revolution, ww1, Stalin's mass-terrors, ww2, Gulag concentration camps and colonialization programs, and the Russian contra revolutions of Perestroika and Glasnost. Now, in this century, the Red Mafia got an intuitive culture where 'Rule by Law', national border and democracy do not apply, - and where personal profit is their utmost value-system. (There should be no doubt that EUROJUST, EUROPOL and CEPOL are considered main obstacles to the Red Mafia and are dealt with as such - in their own ways.) Most alarming, - there are convincing examples that FSB and GRU uses the Red Mafia Factions as PROSA in Imperial ambitions. (See the UU Theme base on the BBC documentary 'Putin, Russia and The West' in UU 2014.nov.07, UU 2014.nov.28, UU 2014.nov.21 and UU 2014.nov.14.). Actually, Putin was raised by street-gangs of Leningrad before admitted as a KGB/FSB agent and the puppet president in 1999."

The 'Panama Papers' are obviously related to the plutocratic Underworld Games of the 5th Pyramid Game. It must be quite surprising for the US, that the Dane history and culture relates closely to the Virgin Islands in the Mexican Gulf, - and not as such a social-democratic utopia, as indicated in the US Democrats' campaign. Essentially, Zealand has a 500 years' tradition as a Russian Vassal State. "Tax and Treasures are definitely major sources of powers for states, nations and empires. The Russian bondage of Demark for 500 years is definitely executed by taxation on most products, services, processes and citizens. 'Follow the money' has been a major statement by the capitalistic empire since the hand-over from the 'Pirates of the 4th Crusade' (UU 2016.feb.19). The Russian tax culture relates to all its CdE and might be related to the present 'Panama Paper' syndrome and the historical 'Pirate's Haven at the Virgin Islands' (UU 2016.jan.29). Therefore, in order to promote Parliamentary Quality and prevent worst-case scenarios of The 5th Pyramid; - there has to be extra focus on cells of organized international crime, cloaked in the Dane Taxation institutions (SKAT), - not merely as organizational viruses and hackers, but manipulating parasites. (UU 2015.nov.06) These rather promote Games of pillaging, piracy and confiscation with abuse of Parliamentary powers, - which all are serious violations of the national Penalty law." (UU 2016.juni.24). Dane SKAT (tax authority) acts also like this century's 'Pirate's Haven' for plutocratic piracy. Actually, SKAT procedures have been vital for international tax crimes since Christian IV and the Tax Haven 'Kronborg'.

Anyways, the conclusion in the introduction still applies for this 5D-1 scenario: "One way to GO (Game Over) is not to play along with those hardcore sociopathic Game players. A start is to realize that actually Brexit began as a practical joke – and still is. Such scams, ala Monty Python & John Cleese, will stop when the oligarchic mass-psychosis, projected via the mass-media, are revealed and judged for what they really are – organized sociopathy. America and Europe need to strengthen their bonds to minimize this 5th Pyramid War-Game towards the democratic parliamentarism of 'the West'." (UU 2017.jan.06)

Yet, this 5D-1 scenario might lead to the next week's scenario – 5D-2 – 'Para-military CdE'.

Thomas Dolby is selected several times in these blogs. He had several innovative songs in his career. He has some political texts as well as an Englishman that also is concerned about Europe and America. He participated in a project called 'The Gate to Mind's Eye' at the end of his careers, This song 'Nuvogue' is a kind of general bird vie of the US / SU rivalries of the cold war. In the lyrics, the names Joe and George refers to US and SU. The aliases are also used in the song 'Eastern Block' (UU 2013.juli.12). It uncertain if Sally represents Jackie though.

Extra UU – The TV series - House of Cards

House of Cards is an American political web-TV series and an adaptation of the BBC's mini-series. Originally, it was about the UK but is set to present-day Washington. It is the story of Frank Underwood in the Democrat's party. After being passed over for appointment as Secretary of State, he initiates an elaborate plan to get himself into a position of greater power, aided by his wife, Claire. The series deals primarily with themes of ruthless pragmatism, manipulation and power.

House of Cards has received positive reviews and several award nominations. It is the first original online-only web television series to receive major Emmy nominations. The show also earned eight Golden Globe Award nominations, with Wright winning for Best Actress – Television Series Drama in 2014 and Spacey winning for Best Actor – Television Series Drama in 2015.

In the upcoming 5th Season, Frank and Clair dominates the White House and found that terror is the most powerful mean in politics. The introduction of the season certainly gives hints to Games of anti US Constitutional and childlike Games with Jerk/Sulk/Nerd mentality. (see UU 2015.nov.06)

The TV series 'House of Cards' is originally a 1990 British political television drama in four episodes, set after the end of Margaret Thatcher's tenure as Prime Minister of the United Kingdom. It was televised by the BBC in 1990, to critical and popular acclaim. Andrew Davies adapted the story from a novel written by Michael Dobbs, a former Chief of Staff at Conservative Party headquarters. Neville Teller also dramatised Dobbs's novel for BBC World Service in 1996, and it had two television sequels (To Play the King and The Final Cut). In 2013, the serial and the Dobbs novel were the basis for a US adaptation set in Washington, D.C., commissioned and released by Netflix.

Steen Jørgensen – Democracy (Leonard Cohen cover)

2017.feb.10

Ukens Utvalgte

The previous blog introduced 6 alternative 5D scenarios to the Coup d' Etat US2017. This first scenario, '5D-0 Contra-CdE', shows an alternative future where the US LEJ system uses proper quality corrections to heal itself in time. This scenario is based on the prediction that the Republican party planned to beat the Democrats' with the puppet president Trump (PPT) and then replace him with their real republican vice-president within a year. Consequently, a counter CdE was planned as well as the CdE US2017. Anyways, it is highly likely that Trump will be replaced very soon. His immature behavior did not change in the White House, but has rather escalated to global fatalities as well as domestic ones. There is no more question if he will be removed, but how and by who.

The 5D-0 intro was: "What 5D scenarios can be made for this CdE US2017? First of all, there is always the 'null scenario' with no considerable changes. However, this Amexit Game proves most likely to cause multiple responses and rise the Game to the 3rd degree (damage) - and even the 4th degree (war). Such a condition is far too complex to analyze here, if not focused on the main actors' real motives. Yet, it will still be impossible to predict all the cascades of fatalities of their failures and projections. However, in this UU theme 'the 5th Pyramid' Game Over', the main focus is the 5th International of 'Putinism' (see UU 2016.sept.23). The following list merely indicate some 5D scenarios for this CdE US2017." "5D-0: The White House CdE is prevented by the domestic LEJ immunity and is reversed by replacing the PPT and associates before the damages gets considerable and irreversible. Nova SU gets a hard time in continuing their domestic and foreign rivalries." (UU 2017.feb.03)

Using the 3D+t political LEJ model (Legal, Executive, and Juridical power), it is initially set to powers (+5,+5,+5), then with increasing Presidential anti-powers to a climax (+5,-5,+5) and finally corrected back to (+5,+5,+5) by a sound parliamentary system. This 'Contra-CdE' scenario, indicates that the Executing power has become a so-called "parallel organizational apparatus which, at the decisive moment, can assist the party to do its duty to the revolution" - as clearly stated in the 3rd Condition of 3rd International. However, the LEJ powers will eventually replace the 'PPT parallel apparatus' and reverse the CdE during this year. This 5D scenario is already probable, because the US LEJ powers show escalating symptoms of dysfunctionality and unrest. There are accusations of high treason, inter-continental treaties are annulled, most global powers are provoked towards the US and the 'western' allies do not trust PPT any more than PPP.

The most obvious reasons to replace the PPT might not be the most preferable, - in the 'Western' view. "For example, in 1999, the former president Clinton was found not guilty of 'obstruction of justice' (lying) and in 1974 president Nixon resigned during the process to avoid sentenced for the Watergate event. Likewise, and very soon, the PPT will also be in such psychosocial Games of 'Courtroom' and 'Want out'. Then, the scope of the CdE Game will be too narrow and must be expanded to the 3^3 Game category 'GdE' (Games d' Etat) (UU 2015.mars.06). Anyways, here are some optional issues for the upcoming GdE in order to remove the PPT.

- Powerful republicans state that they need to take their Party back from the unreliable Trump.
- The President annuls the US's trade treaties with Canada, Mexico, Asia and EU.
- The US Executive powers resists a President order and thereby shows symptoms of dysfunctionality.
- The President threatens his Executive power and fires leaders for disloyalty to the orders.
- A federal judge blocked the president's immigration order and several states follows that. The supreme court nominee Gorsuch says that Trump's attacks on judiciary are 'demoralizing'. The federal court

dismisses the Presidents appeal since he cannot prove that anyone from the banned countries have made acts of terror in the US. The Juridical power has overruled the President.

- Almost a 100 major IT firms in the US reconsider jobs in US due to the President order.
- Russian aggression towards Ukraine increased due to PPT disloyal statements concerning NATO. The Serbian/Albanian conflict escalate in Kosovo due to the same statements. NATO appears fragile.
- The Australia-US relation (in the Pacific ocean) is seriously set-back by the president's phone call.
- The President repeatedly provoke China and jeopardize the US-China peace and trade agreements.
- Major nations worry that the downscaling of the Dodd-Frank-law will cause a global financial war.
- SU indirectly admit the cyber warfare towards US election, by arresting heads of FSB cyber dept. North Korea, a Chinese puppet-state, also fires the head of cyber warfare.
- Use of 'alternative facts' to mass-media indicates organizational mass-psychosis.
- The President's goal to reduce regulations by 75% indicates serious dilutions about the bureaucracy.
- The President support to England's separatists and is compared to England's pre-ww2 politics.
- US is politically split in two, - Democrats consider illegal responses to an unconstitutional President.
- The strengthening of US military appears personally motivated - just like the strengthening of Putin's national guard. The PPT first military action proved to be unprofessional influenced and caused civil and personnel casualties in Yemen. The President has also caused further increased unrest in the Arabian region due to the contradicting blockade of Iran.
- The Pope states that the President's order is not of Christian ethics. (What religion then?)

Still, Games are per definition ulterior, motives and agendas are hidden and actions are deceptive (UU 2016.juli.01). Therefore, a main objective to figure out the P5GO is to uncover the real motives behind this CdE US2017.

The plutocratic 3rd Party's PPT is almost too obvious to analyze. The psychotherapist Johns Hopkins has even published the diagnosis 'malignant narcissists'. He did that despite the professions 'Goldwater Rule', because it is so obvious that he is extremely dangerous to most nations and peoples. As Psychology Today notes, "Malignant Narcissists will go to great lengths to achieve their aim. They can be intelligent, high functioning (hold an important job for example) soft-spoken, charming, tearful/seemingly emotional, gracious, well-mannered, kind and have the ability to form relationships. They may lie, falsely accuse, dramatize, smear, cheat, steal, manipulate, accuse, blame or twist to get what they want and feel justified in doing so. Because they are entitled, egocentric and desperate, they do not experience it as wrong." Furthermore, some of the characteristics of a Malignant Narcissists include: Anti-social behavior, Sadism, Aggressiveness, Paranoia, Grandiosity, Entitled, Regressed, Manipulative, Destructive, Egocentric, Use of projection, Lack of conscience, Narcissistic. Hillary Clinton called it first by warning that Trump is "temperamentally unfit". Trump then promised on the presidential debate to jail her if he became president. No further proof to the diagnosis should be necessary.

Trump plays mostly the classic sexual LYAHF Game, where he arranges two rivals to fight and plans to run off with some of the spoils. This is a negative-sum win-lose-lose Game. In the WTF Tower, there is always 'business as usual', even if papa has a temporary office elsewhere. However, these Games are no longer as easy as to beat a beaten wrestler outside the ring, or HAR (hit & run) on his own bankrupt casino or whitewashing drug money with diamonds. Powerful and dysfunctional persons can too easy escalate a 1st degree Game to the 3rd degree. When out of hand, it can escalate further to the 4th degree. PPT has already declared that he will not consider any future terror attack in US will as his responsibility, but his opponents' in the constitutional LEJ powers. (See more about psychosocial Games in UU 2014.sept.12).

Trump's personal sexual Games have escalated to global Pyramid Games of 4th degree (UU 2016.mai.13). The utmost concern should be the major Underworld Game-master of the 5th Pyramid Game, - not merely their puppets. This means that their means are rather threats than rewards. Having said all that, the major

executive Game players are probably state controlled mafia and secret services. Then a main puppet master is uncovered, the PPP's Red Mafia (See UU 2015.okt.23 and link hereunder). The main question after this 5D-0 Scenario is then; after PPT is removed, who gets control of the US LEJ?

Steen Jørgensen is a Dane singer, writer, actor and best known as vocalist for the band 'Sort Sol' (Black Sun), originally a punk band. In 1998 he debuted with a jazz album and got Dane Grammy in 1999. Sort Sol is a Dane pioneer rock band. The name was taken in the early 1980s. It is named after a nature phenomenon, where huge bird flocks gather in the sky and appear to block out the sun.
"Cohen spoke at length about 'Democracy' admitting that he wrote 60 verses for it: This was when the Berlin Wall came down and everyone was saying democracy is coming to the east. And I was like that gloomy fellow who always turns up at a party to ruin the orgy or something. And I said, "I don't think it's going to happen that way. I don't think this is such a good idea. I think a lot of suffering will be the consequence of this wall coming down." But then I asked myself, "Where is democracy really coming?" And it was the U.S.A....So while everyone was rejoicing, I thought it wasn't going to be like that, euphoric, the honeymoon. So it was these world events that occasioned the song. And also the love of America. Because I think the irony of America is transcendent in the song. It's not an ironic song. It's a song of deep intimacy and affirmation of the experiment of democracy in this country. That this is really where the experiment is unfolding. This is really where the races confront one another, where the classes, where the genders, where even the sexual orientations confront one another. This is the real laboratory of democracy."
The song, 'Democracy is coming to the USA' was certainly not played at 11/9 (2016) either. I actually saw this cover performance and was impressed. (Also see the Cover tributes UU 2016.nov.18).

Extra UU – The West Wing - Best Moments

"The West Wing is an American serial political drama television series. It is set primarily in the West Wing of the White House, where the Oval Office and offices of presidential senior staff are located. The series started in 1999 for 7 years and has been broadcast by many networks in several other countries.

The West Wing received acclaim from critics, as well as praise from political science professors and former White House staffers. It won 3 Golden Globe Awards and 26 Emmy Awards, including the award for Outstanding Drama Series. While critics often praised The West Wing for its writing, others faulted the show as unrealistically optimistic and sentimental."

Beatles cover - Back in the USSR

2017.feb.03

Ukens Utvalgte

Any Coup d' Etat is High Treason by any criminal law. Obviously, all 'Western' nations' criminal laws are undisputable about the ultimate crime towards their Constitutions. The CdE US2017 Game demonstrates its magnitude in manpower, resources, money and mass-delusions. Let's say that a simple thumb rule is true, which says that the organizational disloyalty is 2% at average. If so, in 2016, the spending for the CdE US2017 might have been 0.5 trillion \$ and involving 3 mill citizens. In 2017, it might become 100%, if the ongoing P5GO is not played well. The 'Western' defensive counter-acts should not be based on the simple 1D political model, because the results will be as simple. In order to widen the perspectives, these P5GO blogs will demonstrate the models of LEJ Quality and 5D scenarios.

'High Treason' is now a hot topic in the free 'Western' mass-media. The newspaper The Independent wrote before the election: "A law professor and former senior State Department official says that there are four ways Donald Trump could be guilty of treason: (1) He is trying to solidify the political standing before the electoral college vote, which is set to happen on Monday December 19. (2) He wants to undermine the US intelligence agencies that conducted the investigation so that he may intimidate them or shape them to fit his own agendas. (3) He's testing US intelligence agencies to see how far he can push back against their investigations or findings. (4) He could be covering up any possible involvement or knowledge he or his team had in regards to the Russian cyberattack." In 1999, the former president Clinton was found not guilty of 'obstruction of justice' (lying) and in 1974 president Nixon resigned during the process. At some point of time, PPT will also be in such psychosocial LEJ Games of 'Courtroom' and 'Want out'. However, then the CdE Game definition will be too limiting. The escalation will require expansion of the model with the 3^3 Game category 'GdE' (Games d' Etat) (UU 2015.mars.06).

Treason is clearly a main subject in any penalty law. High Treason is the ultimate crime towards any Constitution, Parliament, - and 'Western' democracy. This subject was focused in UU 2016.juli.08. "National Penalty Laws against Treason is the instrument for reactive counter-move to such Pyramid Games. Any Executive and Juridicial parliamentary power are obliged to counter-act upon such Treason. Generally, treason is by law "the violation or betrayal of the loyalty a person owes his sovereign or his country, especially by attempting to overthrow the government is high treason". Oran's Dictionary of the Law (1983) defines treason as "...a citizen's actions to help a foreign government overthrow, make war against, or seriously injure the nation", "even if no foreign country is aiding or involved by such an endeavor." In UK, the law protects the Throne against "to compass, imagine, invent, devise, or intend ... to deprive the sovereign of the Crown ... to levy war against the sovereign ... by force or constraint to compel her to change her measures or counsels, or in order to put any force or constraint upon or in order to threaten or scare Parliament, .. to move or stir any foreigner to invade." "There should be no doubt that international criminal organizations won the Dane Europol/Eurojust referendum (Dexit). PROSA (Pro-Russian Oligarchs, Separatists and Anarchists) won the Dutch EU/Ukraine referendum (Nexit) and the Brexit, - all three due to massive disinformation by media, politicians and organizations."

The combined 5D & 3[^]3 model was explained in the previous 7+12 EU related blogs (UU 2016.sept.23) "All the 19 blogs also relate to the theories presented in the introduction blog of UU 2016.mai.13. They are explained in UU 2014.sept.12 as; a consistent definition of "LifeQuality; a 3D ethics model, a 3D ethical system of GCR (Good/Constructive/Right); a 3D political model relating to the constitutional LEJ powers (Legal/Executive/Juridical); a 3[^]3 (3*3*3) psychosocial model of Drive, Will and Belief; an extended psychosocial Game models; a 5D scenario model for past as well as future (UU 2014.sept.12); and extended terminology by extended use of suffixes. (UU 2015.juni.12)."

"Determination of the Parliamentary Quality is based on the term 'LEJ quality' that is based on the 3D political model, the 3[^]3 psychosocial model and the definition of LifeQuality. In brief, the model can be used to determine the balance between the LEJ powers (Legal/Executive/Juridical). The 4D model includes time as a factor and shows changes over time. The 5D model can be used to determine future scenarios as well as alternative historical dogmas and facts." (UU 2015.nov.06)

The balance of US LEJ powers was certainly challenged this week, after the White House CdE US2017. (See UU 2017.jan.27.) The Executing President has shifted Game mode to offence, from defensive Games like 'ISR (It Started with the Retribution) and ABD (Attack is the Best Defense). The Constitution's LEJ powers are currently under stress-test with 18 controversial President Orders. The President even fired the defiant acting attorney general for "disloyalty to the department" while very aware that the legality of his order is highly disputed in all the LEJ powers. Consequently, there is made a Constitutional confusion of whether the US military must obey illegal orders from the President. Such fundamental and alarming questions arises because the President behaves like a 3rd Party plutocrat. Allies in 'the West' now clearly alarms the US that such controversial foreign orders will cause division, powerlessness and possible war. The present US President need to be reminded that a President is like a federal Prime Minister and not any Emperor.

Furthermore, a summary from the newspaper Aftenposten sets some further perspectives on the Games imposed at the US LEJ powers. "The US president's executive powers shall be held in check by the Court's Legal powers. Yet, the President tests these boundaries. He issued 18 President orders (memorandum) – instructions that in practice can be as powerful as laws. There are two fundamental rules for president orders, they must be within the president's mandate and must not contradict the Constitutional law. Professor Cooper from Portland University claims that the US President breaks both. He says that the language in the orders also uncovers that the orders have not gone through a hearing or been consulted by legal experts. There are therefore questions of who are consulted and have evaluated the orders. According to Politico, several orders are written by the highly controversial consultants Steve Bannon and Stephen Miller, that have now become political advisors in the White House. This seriously rocks the confidence to fundamental values in USA and the political legitimacy." This bureaucratic war-declaration towards the President's own Executive power might be a symptom on an unhealthy LEJ System the needs proper response to avoid its own CCD (Colony Collapse Disorder).

What 5D scenarios can be made for this CdE US2017? First of all, there is always the 'null scenario' with no considerable changes. However, this Amexit Game proves most likely to cause multiple responses and rise the Game to the 3rd degree (damage) - and even the 4th degree (war). Such a condition is far too complex to analyze here, if not focused on the main actors' real motives. Yet, it will still be impossible to predict all the cascades of fatalities of their failures and projections. However, in this UU theme 'the 5th Pyramid' Game Over', the main focus is the 5th International of 'Putinism' (see UU 2016.sept.23). The following list merely indicate some 5D scenarios for this CdE US2017.

- 5D-0: The White House CdE is prevented by the domestic LEJ immunity and is reversed by replacing the PPT and associates before the damages gets considerable and irreversible. Nova SU gets a hard time in continuing their domestic and foreign rivalries.

- 5D-1: The US LEJ powers shift so the President's Executive power dominates the Legal and Juridical powers. Cascades of domestic President orders radicalize both public and private sector in a redistributive null-sum Game.
- 5D-2: A federal CdE is executed by para-military - like Putin's national guard. There is a civil war where the Constitution and Human Rights are 'temporarily' set aside. US no more dominate global politics due to massive domestic unrest.
- 5D-3: PRUSA (Peoples Republic of USA) in the concept of the 3rd Pyramid Games (3rd International). Imperial Governments of US, SU and UA (United Asia – UU 2013.juli.19) are adapted and integrated. Rivalries are settled by proxy wars on prey nations like in the cold war. The three empires dominate the UN Security Council and thereby act as a global LEJ.
- 5D-4: NATO lost a DAC&UAC Game. 'The West' is split and confused and cannot defend territorial aggressions from Asia and Russia. Wars in Ukraine, Turkey, Svalbard and Hawaii. The continuum of previous Pyramid Games might end in SU final annexations of Europe, like in the novel '1984'.
- 5D-5: The UN LEJ system collapse and humanity is set back to the state of 1948 (1984). Consequently, there are global anarchy and wars. Humanity as has entered a state of Superior-Ego/Superior-ID domination, which is the unsound mental state and dangerous for itself and any others (UU 2015.feb.27 to UU 2015.mars.13 and UU 2016.juni.03).

Anyhow these listed examples of 5D scenarios, the 5D LEJ model can be used on any organization at any time, - not merely the ongoing Amexit attempt. For the other half of the 'West', it should be interesting to do likewise for the Rexit, Brexit, Dexit, Nexit, Grexit and the upcoming European Nexit2, Frexit and Gexit. The challenge is to maneuver in the global psychosocial Games in order to minimize the damages and promote organizational human sanity.

 The Putin Olympics of Russia was spectacular indeed. In this video, Beatles was used to hype the event. However, soon after, Russia was globally banned due to the massive Game fixing with drug abuse. Still remembering the '60's, when the Russian female athletes looked like MC bikers on steroid, it shows a cultural attitude towards 'fair play'.

Nevertheless, this song 'Back in the USSR' certainly made the first suspicion on who really promoted the band and who really change them so radically. Suddenly they were singing: "Ukraine girls really knock me out. They leave the 'West' behind. And Moscow girls make me sing and shout. That Georgia's always on my mind." That was half a century before Moscow invaded and annexed Georgia and Ukraine.

Historically, and in kind of 5D sense, the Beatles was at first a simple 'Bier Stube' band in the post-war and occupied Berlin. The band might as well have been manipulated by the east-German Stasi. The true schismatic alteration was revealed when The Beatles became the world's largest promoter of illegal psychedelic drugs in the 'West'. That had unmeasurable damages to the sanity of millions of young 'western' bourgeois citizens. The band's unproportionable success was most of all due to over-exposure in the mass-media.

Lennon ended up in Manhattan NYC. Soon he dressed and spoke like some RAF agent. However, still actually caring for the working class, he was assassinated in a curious way - just like another JFK. (UU 2016.juli.22.)

Extra UU

MTV's Saturday Night Live did frequently satire on the US President election. However, parodying Trump is now less frequent now, when he became their president. On the other hand, the SU president Putin seems out of reach, - until SNL realizes their own jokes, - and those jokes are just as risky.

Vladimir Putin Cold Open – SNL

Sid Vicious - My Way

2017.jan.27

Ukens Utvalgte

The inauguration dance was to 'My Way', a song from someone facing 'the final curtain'. Yet, puppet presidents, like other republican actors, are paid to perform acts, nothing more and nothing less. Still, there are links in the puppets' strings - as that ventriloquist waltz shows. Today, a week after, the Coup d' Etat is in effect, per definition. The question now is rather, what kind of CdE is it, what are the possible outcomes, and for how long? In brief, the CdE US2017 indicates an 'arbiter coup' with 'no regime change' for less than a year. However, such classic stereotyping is too simple, the 'Etat' is too complex and its relations too comprehensive. Likewise, the classic 1D political model is too simple for the current Pyramid Game, because it covers the 3rd party's Game players of LYAHF (Let's You and Him Fight). Therefore, in order to discover such, this 50 blogs' extension to the 5th Pyramid theme will link the 3[^]3 psychosocial analysis to the 5D political model. (The 5D model is explained in UU 2014.sept.12. It is integrated with the 3[^]3 model UU 2015.mars.13.)

CdE (Coup d' Etat) is a Game category to the Pyramid Games. It is summarized for this theme in UU 2016.sept.23. "There will be many more 5th Pyramid Games of CCD and CdE in the 'Western world', both of violent GRAF terrorist attacks and BRAF 'hooligan' attacks, in addition to political referendum attacks - like Brexit. Wikipedia categorizes CdE: "A coup d'état, literally 'hit of state', putsch or overthrow, is the illegal and open annexation of a state by elites within the state apparatus. It is considered successful when power is held for at least seven days. A 2016 study categorizes coups into four possible outcomes; 1) Failed coup; 2) No regime change; 3) Dictatorship swap; and 4) Democratization. Three types of CdE are identified as: 1) Breakthrough coups, 2) Arbiter coups; and Veto coups." The Brexit, Dexit, Nexit, Grexit are Veto CdE with no regime changes."

The present US2017 CdE is successful per Huntington's definition. On the other hand, Allan Lichtman predicted both the Democrat's failure and that the Republican will replace Trump with Pence in a year. (UU 2017.jan.20). Still, such a swap does not change the fact that the Republicans' rival, the Democrats, failed because of electoral fraud, caused by some kind of 3rd party. That still classifies as a Coup d' Etat. Furthermore, PPT's powers will cause irreversible changes to US status, relations, politics and staffing. These changes are of magnitudes of a 'White House Coup de Etat'.

Moreover, the US2017 CdE is highly influenced by the Arbiter CdE of SU1999, where president Yeltsin was exiled and replaced with the FSB agent Putin (PPP). Similarly, the US 3rd Party candidate stated allegations that did invalidate the only rival. PPT did also encourage PPP to do massive cyberattacks towards the party of the sitting US President. Her husband, that was a former US President, was also removed by mass media allegation of a highly unpolitical issues. These methods indicate that the present PPT might also be exiled within a year by PPP 'kompromat', after weakening the US powers by alternative treaty signings.

The recent 'failed coup' in Turkey also indicates a 5th Pyramid CdE Game with unexpected 5D effects. "The Turkish CdE attempt at 2016.07.15 is particularly interesting and should be investigated further, since it seems to be a Game within a Game. The 'failed breakthrough CdE' seems to be unmotivated triggered, as if the soldiers reacted to a 'false positive'. They were not supported by any alternative regime at all, like they were walking into a trap. Furthermore, the cleansing afterwards seemed very well prepared and organized. Russia, that was a fierce enemy of Turkey before the CdE Game, became suddenly a close friend to the NATO nation Turkey. US was even accused for being involved in the CdE attempt. Russia was then allowed to arm the annexed Crimea without their objections. Anyways, who fooled the CdE para-organization in the Turkish army to attack their own government, - will remain a secret." (UU 2016.sept.23) Since then, PPP complained in his 'State of the nation speech' that the Turkish president, Erdogan, did not take his advices during the post-coup. There are also serious allegations, that it was a staged coup to clean out supporters to the president's rival, Gülen. Some even compares it to the coup attempt to the Reichstag fire in 1933. This supports the 5D hypothesis that Coup d' Etats are of concepts of psychosocial Games. (See the link of CdE by nations, hereunder.)

The main force behind the US2017 CdE seems rather to be bureaucratic than plutocratic. PPT's money is here merely a bureaucratic mean to get alternative treaties signed. It might seem remote, but the bureaucrats of Kremlin will never forget the traumas that president Yeltsin caused, especially when using a tank in the 'Storming of the (SU) White House' in 1993. A UK Bamm-Bamm Boris and a US Bamm-Bamm Trump, might simply be a payback for a SU Bamm-Bamm Yeltsin. PPP blames UK and US for that (UU 2014.nov.07). Neither, will SU forget 'Clinton's war toward Serbia' after president Tito - and the following Albanian invasion of Kosovo.

The Sex Pistols was an English punk rock band in London. They initiated the punk movement in the UK, and inspired punk rock, thrash metal and alternative rock musicians. The band provoked controversies that the mass-media used politically. "God Save the Queen", attacked the UK Crown by calling it fascist. They toured in US and caused unrest. Rotten left in 78, but the band continued.

Sid Vicious, alias John Beverly, alias John Simon Ritchie, was the bass guitarist in Sex Pistols. Later he appeared as a lead vocalist, also performing three cover songs (including 'My Way'). He and his manager Nancy Spungen entered a destructive codependent relationship based on drug abuse. Vicious was charged for murdering Spungen, but was released on bail. Later, he was arrested for assaulting Patti Smith's brother. As a settlement, he underwent drug rehabilitation, but died of heroin anyway before any trial. There are however, still some 'zombie' appearances of 'The Great Rock 'n' Roll Swindle'.

The relation here is synergy of the Vicious' and PTT's versions of 'My Way'. Yet, different dress code of Donald and Vicious, they somehow resemble similar omens. The lyrics is written as a final monologue of someone that is about to die. Like Vicious 'Grande Final' in the video, it might sound morbid when PPT states; "I do solemnly swear that I will faithfully execute the Office of President of the United State". The PROSA Anarchist were in focus in UU 2016.aug.19.

The Prodigy - Firestarter

2017.jan.20

Ukens Utvalgte

Today, might be a 5D shift of the century. The US parliamentary system proved itself unable to prevent a Coup d' Etat of their White House. A remote controlled plutocratic oligarch has passed the constitutional procedures and defenses. Apparently, the US constitution suffers from 'acquired immune deficiency syndrome' that can cause its own 'colony collapse disorder'. Anyways, such an analogy is typical for the theories and models of this theme 'The 5th Pyramid' - and will be the main concern in these 50 additional P5GO blogs (The 5th Pyramid Game Over). (UU 2017.jan.06.)

This blog focus on the psychosocial archetype 'Firestarter' that the band Prodigy projected at the US with its hit 20 years ago. Although a different dress-code, the Prodigy projects an image that have become grim meme to millions. However, believing that Trump is still a true American is like believing that Prodigy's meme is real. Yet, it can still be proved wrong by proper use of parliamentary self-protection. Still, per definition, a CdE becomes successful when the position is held for a week. It appears a mystery, though, why the Conservative party stays paralyzed like a prey for so long. Hopefully, the ritual is just a trap that snap to "let all the poisons that lurk in the mud hatch out". (UU 2016.sept.23)

"Donald Trump is not a legitimate president", seems to be a fast-growing opinion. Michael Moore elaborates on John Lewis arguments:

1. The fact that 3 million more Americans voted for Hillary than for Trump (proves a faulty system).
 2. Trump is not well and needs help. He has serious mental disorders and is unfit to hold office.
 3. The Russians interfered with the election to get him elected. Even Trump admits as much now.
 4. The FBI Director interference helped to shift the balance to the FBI's preferred candidate, Trump.
 5. Trump nominated one of the world most powerful (oligarch) as the Secretary of State.
 6. Trump committed felonies, including hiding the tax returns, and thereby probably major tax fraud.
- (See link below for the full text.)

When realizing that there probably is an illegal coup, and not a legal inauguration, there should not be too many surprises of what come with this temporary occupation. There have been cascades of omens presented through official and unofficial election campaign for a year. Here is a shortlist:

- Repeatedly provoking the One-China politics that is fundamental for US-China peace and trade.
- Provoking North-Korea that threatens to respond with nuking the 50th US state - Hawaii.
- Threatening NATO partners by opposing the 'one-for-all' ethics of the NATO Treaty's as well as the UN Charter (UNC). Several comments weaken the defenses and are rather Russian than 'Western'.
- Contradicting himself by supporting Russian annexations of the UN recognized Ukrainian Crimea.
- Supporting European separatists' parties, that are finance by Russian oligarchs and promotes Putin's national-socialistic politics called Nashi (Наши / Ours).
- Promoting a 'Festung US' with a Wall towards Mexico. Everybody knows that it is just another 'mass-psychotic make-believe', since everyone knows that no-one will pay for it.
- Offending the US secret services of FBI and CIA and favor SU FSB agent Putin in serious accusations like, election rigging, anti-US cyber hacks, extortions by lawsuits and leaks of classified information.
- Continuously twittering with highly unsecure network against very serious warnings. (Such messages are easy to manipulate used for 'coded leaks'. Trump could not admit it, if it has been abused.)
- Health-care breakdown by anti-Obamacare. (This is also a major setback for the obligated, yet not ratified, UN Treaty ICESCR (International Covenant on Economic, Social and Cultural Rights).)
- (A list too long about sexist, racist and narcissic outburst that contradict western democratic values.)
- (A list too long to mention about family affairs that are too 'kompromat' for a proper president.)

In addition, there are certain issues focused on in previously UU blogs.

- A flip-flop in Arabian warfare that will make the region and responses even more dangerous.
- Playing 'Divide & Conquer' on Europe, like Russia did before WW2 (the 3rd Pyramid / International)
- Taking China's attention away from the disputed Russian border by creating Asian/Pacific intrigues.
- Un-supporting NATO, when Turkey turns despotic and away from NATO and towards Russia.
- Un-supporting Europe and 'the west' when Russia starts proxy wars and annexes in Black Sea region.
- Trump declared, at the presidential debate, that Hillary Clinton would be in jail if he got president. (If he really believed in being president, it was a fool's Game of DOOM (Digging One's Own Morgue.)

(See UU 2014.okt.31, UU 2014.juni.13, UU 2015.okt.09, UU 2016.juni.10).

One of the few analysts that predicted the Democrats' failure, Allan Lichtman, also predicted that Trump will hold the office no more than one year. The reasoning is that the Republicans will get rid of Trump, in favor for vice president Mike Pence, when they have seized control of the White House and before Trump can do too much damages. However, as a European, the advice is rather to abort this desperate Fool's Game within a week, - before the Coup d' Etat is per definition a success for very powerful and ruthless rivals of the US. (See the TV series, 'Putin, Russia and The West' in UU 2014.nov.07, UU 2014.nov.28, UU 2014.nov.21 and UU 2014.nov.14.)

In 'the 5th Pyramid' perspective – this is the 3rd Pyramid script modified to the 5th Pyramid in the US. Therefore, a major goal for this 5th Pyramid Game is probably to have the president signing a new kind of 'Molotov-Ribbentrop pact' between US-SU, like between SU and the Nazi party did in 1939. The national-socialist phenomena, here called stalinazism, is previously focused several times in these blogs and will most certainly be the basis for the coming blogs about the PPT & PPP alliance, here called Trumputin. The intention here is simply to use 5D modelling in order to, hopefully, reduces the damages by these puppet Firestarters. (see UU 2013.juni.28)

The Prodigy is an English electronic group from Essex. They are credited as pioneers of the big beat genre, along with The Chemical Brothers, Fatboy Slim, The Crystal Method, which achieved mainstream popularity in the 90's and 20's. The band sold over 30 million records worldwide, and won numerous music awards during their career, including two Brit Awards for Best British Dance Act, three MTV Video Music Awards, two Kerrang! Awards, five MTV Europe Music Awards, and two Grammy Awards nominations. The group's genre of music uses various styles ranging from rave, hardcore techno, electro-industrial, jungle and breakbeat and big beat, adding punk vocal elements in later times.

The association to this blog is a PROSA separatists. See the UU 2016.aug.12 for fully description. The Game's 'suckers' are made to believe that they will harvest some 'spoils of war' from the Game DAC. ('Divide and Conquer, i.e. splitting a prey nations in two 'anti-each-other' -factions that are setup to clash in a 'civil war' and cause their own CCD (Colony Collapse Disorder) - and thereby enable a CdE Game (Coup d'Etat).

Alice Cooper – Elected

2017.jan.13

Ukens Utvalgte

The ongoing Coup d'Etat towards the White House is like the song 'Elected' by A.C. The horror-rock artist certainly made a horrifying campaign. That theatrical scene was a practical joke, though. The present President-elect is such a 3rd Party candidate that the lyrics describes, - like an occult script. Trump is neither a Republican or Democrat, although both parties were infiltrated on the way. Originally, he was an Independent candidate, a so-called 3rd Party candidate, an outsider to the constitutional two-party system. Such a joker can be anyone, - even a plutocratic oligarch that sells anything to the highest bidder. Such a candidate, 'of lust, greed and glory', is no true politician and certainly not of presidential qualities. Trump is only in it for the money, - for fortune or by threats.

UU 2016.aug.05 focus on Oligarchs. "Pyramid Game Over provides 12 suggestions to promote 'Western' Parliamentary Qualities. 'P5GO05 –PROSA Oligarch', aims to reduce criminal corruption in the Parliamentary Powers. Such acts are violations of 'Western' Penalty laws - everything from petty thefts to high treason. Oligarchs of the 5th Pyramid Game are the main puppets placed as 'Kings of the Castles' in order to execute the 21 Conditions of 3rd International. This UU sets focus on such moles that have earned their status as secret peer agents. As a final point, some thoughts are presented about the obviously main prize of this 5th Pyramid Game, - the Puppet Presidents (PP)." (PROSA is short for 'Pro-Russian Oligarch, Separatist and Anarchists'.)

"PROSA Oligarchs are thoroughly selected and tested to earn the most powerful positions in unions, parties and the rest of the European and American Parliamentary systems. It was treachery before and under

WW2, during the Coldwar and is most definitely treasonous by Penalty laws in this century. Here are some examples of their obligations according to the 21 Conditions of 3rd International: C3 "In almost every country in Europe and America the class struggle is entering the phase of civil war. They have the obligation of setting up a parallel organisational apparatus which, at the decisive moment, can assist the party to do its duty to the revolution. In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity." C11; "... parliamentary factions to review, to remove all unreliable elements from them and to subordinate these factions to the party leadership, not only in words but also in deeds, ..."

(That Extra UU contained an adaption of the 3rd International to the 5th, by replacing 'communist' with 'putinist'. There are certainly some revelations, when re-reading it. However, the hypothetic 5th International text was disabled on FB, but is still available on the blog site.)

"These 21 Conditions documents that the PROSA Oligarchs' corruption of 'Western' Parliamentary systems have been extensive in this 100 years' war against 'The West', - by building high treasonous para-organizations in European and American parliamentary systems." "The present 5th generation of PROSA Oligarchs seem to overrule national parliamentary systems on vital domains and events. They are still obligated to such crimes "systematically and pitilessly" with "legal and illegal activity" (C3)."

"The Pyramid Games are described in the initial UU 2016.mai.13. "Pyramid Games are based on the illegal 'Pyramid scheme', 'Eight-ball' and 'Gifting circles'. 8 people are lured by one to 'invest' in illusions of repayments in a distant future, - not realizing that the Game is built to collapse and rather cause their ruin. The ethics to such Game masters are 'honesty is for suckers'. The 5 Pyramid Games in this UU theme are related to the 5 Internationals. Those 'suckers' are lured to contribute to domestic CCD (Colony Collapse Disorder) that weakens their prey nation enough to enable the main gains of CdE (Coup d' Etat). (About related sub-Games UU 2014.sept.12.)" (UU 2016.juli.15)

Belarus, rather than Russia, should be in focus when identifying the real 5th Pyramid Game-players, - because Russia adapts to the Belarus, not vice versa. PPP & PPT act like some puppets of an Oprichnina legacy. The Rexit (Russian Exit) was focused in UU 2016.sept.23. "The 18/9 Russian plebiscite demonstrated the Secret Services well. Voting was openly monitored and the urban oppositions' participation was scared down to 1/3. The average participation was merely 48%, even though aided with collective methods as carousels and cruises, where oligarchs and officers pickup and monitor their subordinates' voting. An internet video even shows an unaware clerk submitting numerous voting bills. Actually, the election is per definition a kind of CdE Game. However, normally, constitutions require over 50 % majority to be elected as a president. Similarly, that should apply for the participation rate. The Russian participation, including all the illegal votes, was less than half. Maybe the Russian vote should be annulled, like the presidential elections has been in Austria (2016), Ukraine (2004) and South Ossetia (2011). However, the REXIT seems rather to follow the concept of the staged referendum in Crimea to apparently legitimate the illegal annexation, the massive football match-fixing and the doping of OL athletes. Overall, - the concept is ancient like the manipulated Greek plebiscite that got Plato's philosopher friend executed."

All the 'western' states and nations of America and Europe are now aware of the massive electoral frauds and corruptions of their democracies. There are many kinds of electoral fraud, like; Electorate manipulation of demography, Disenfranchisement and Division of opposition support, Intimidation, Vote buying, Disinformation, Misleading or confusing ballot papers, Ballot stuffing, Misrecording of votes, Misuse of proxy votes, Destruction or invalidation of ballots, Tampering with electronic voting machines, Voter impersonation, and Artificial results.

However, such criminal corruptions can be prevented by; Mores, Secret ballot, Transparency, Statistical indicators, Prosecution, Voting machine integrity.

(See the link to Wikipedia for details and the concluding UU 2016.sept.23.)

What can be expected from a parroting PPT?

Most of the masspsychotic projections that comes out of RT TV.

The association to the song Elected by A.C. is most certainly the '3rd Party' candidate's infiltration and manipulation of the both the Democrats and the Republicans. Third party of what? Here is the ending lyrics of the song that is faded. "And if I am elected I promise the formation of a new party, a third party, the wild party. I know we have problems. We got problems right here in Central City. We have problems on the North, South, East and West, New York City, Saint Louis, Philadelphia, Los Angeles, Detroit, Chicago. Everybody has problems and personally, I don't care."
(‘Elected’ was the Extra UU 2016.jan.01, to the New Year’s omen in 2016.)

Supertramp - Crime of the century

2017.jan.06

Ukens Utvalgte

Last year's first blog was a wish and a warning against the unlikely, - that the 3rd Party's oligarch will be put in the US President seat. In 2 weeks, that omen will come true. The PPT (Puppet President Trump) is going to be a remote-controlled puppet – just like the PPP (Puppet President Putin) of Oprichnina. (UU

2016.jan.01)

This plutocratic CdE was announced at 11/9, - like the bureaucratic CdE of SU in 1999. Such a Coup d' Etat is per definition successful if the position is held for more than a week. February will therefor show if the 5th Pyramid cyberwar towards 'the West' is official - if there actually will be an annexation the most vital property in US – the White House in 2017, - like the CdE of the Winter Palace in 1917.

The main aim of this UU Theme, 'The 5th Pyramid', is to reduce the societal damages that the US CdE will cause America and Europe, - i.e. 'the West' in the 3rd International's diluted war-declaration. The focus will be on positive Parliamentary-, Democracy- and Life-Quality - and thereby also on the negative sociopathic and mass-psychopathic Games with ethics of BDW (Bad/Destructive/Wrong). Most theories are partly summarized in UU 2015.nov.06, concerning the Dexit.

To sum up so far, the theme started with UU 2016.mai.13; the theory is summarized in UU 2016.juli.01; and the European 12 additional blogs are summarized in UU 2016.sept.23. The theme was meant to end there, but continued as Extra UUs to weekly live concerts, - when realizing that the omen was about to get real. The theme is therefore extended for a year, one blog for each star in the US flag. The 5D scenarios and events will be commented weekly.

Such a jumping jack puppet, causing cascades of unpredictable intrigues, even before taking office, - will cause ad-hoc blogs as well as the planned ones. Still, - the future 5D events are not entirely unpredictable, when using the models related to the P5-GO (5th Pyramid - Game Over). The puppets of the 5th Pyramid Game act to scripts from the 5th version of the 3rd International's 21 conditions, - Condition # 3 in particular. The full text is available at Wikipedia for anyone to read (See UU 2016.sept.23 and link below). In brief, this 5th wave of 'War against the West' is basically to make cascade of collapses to the nations of Europe and states of US - like done prior to ww1, ww2 and ww3 (the cold war).

The 'parallel organisational apparatus', have become powerful enough to cause hostile infiltration and manipulation of 'western' nations. Related EU CCD (Colony Collapse Disorder), there are the Brexit, Dexit, Nexit, Grexit and Spexit, topped by the Russian Rexit (2016) and the American Amexit (2017). These high treasonous 5D events are of global concern and should be dealt with the United Nations – in order to prevent their total collapse - an Unexit. Most unfortunate, - the Security Council is already paralyzed.

One way to GO (Game Over) is not to play along with those hardcore sociopathic Game players. A start is to realize that actually Brexit began as a practical joke – and still is. Such scams, ala Monty Python & John Cleese, will stop when the oligarchic mass-psychosis, projected via the mass-media, are revealed and judged for what they really are – organized sociopathy. America and Europe need to strengthen their bonds to minimize this 5th Pyramid war-Game towards the democratic parliamentarism of 'the West'. NATO needs to realize that cyber-war, terror-acts and electoral fraud towards NATO nations is in their mandate too, - especially when the Commander in Chief (the President) trusts the SU president, FSB, GRU and Red Army, more US's own 'organisational apparatus'.

The association to the song 'Crime Of The Century' is certainly the electoral frauds that legitimized the plutocratic CdE of US at 11/9. It also relates to the 'Crime of the Era', at the year 0, mentioned in the previous Extra UU 2016.dec.30. The shockwaves of that historical 5D event do still return as political tsunamis. This one might crack a dam.

Extra UU - The man who slept through 2016

Brexit is a practical joke – ala Monty Python & John Cleese. It is about time to get real now. It is time to end this ‘silly walk’ through Underworld Games of LPAFJ (Let’s Pull A Fast one on Joey), HDYGOH’ (How Do You Get Out of Here) (Want Out). It seems to be founded on a failed French-English inter-parliamentary negotiation tactic of ‘Take it or leave it’. It was a Game, never meant to actually leave the fellow Europeans. The only solution to minimize the damages of such a failure is to exclude all MPs involved, as soon as possible. However, as hinted in this video, the second ‘Blair Project’ is to do a UK CdE. There are numerous alternative outcomes to such Sucker Games of the 5th Pyramid.

Man who slept through 2016 finds out everything he missed <https://www.youtube.com/watch?v=CSWJq-jUTMc>

The Bangles - Return to Bangleonia concert (2000)

2016.dec.30

Ukens Utvalgte

The Bangles is an all-female pop-rock band from Los Angeles. The hit ‘Walk Like an Egyptian’ relates to this New Year and Xmas, as well as the theme ‘the 5th Pyramid’. More about that in this week’s Extra UU. But first a presentation of The Bangles and the concert.

The band was originally named the Bangs. They had to change though, since a New York- group was called the same. The Bangles combined the chiming riffs and catchy melodies of British Invasion guitar pop with some of the energy of New Wave. The critical success came with their self-titled debut EP and full-length album ‘All Over the Place’. The popular success came once they polished their sound, added some synthesizers, and deviated slightly from their trademark jangling guitar hooks. The album climbed to number 80 on the American charts, which got them to radios, MTV and gave them strong reviews.

Their second album, ‘Different Light’, was preceded by the colorful, neo-psychedelic single "Manic Monday" that was written by Prince under the pseudonym Christopher. ‘Walk Like an Egyptian’ was another major hit, spending four weeks at number one in America. ‘In Your Room’ the album's lead single, made it to number five, and the ballad ‘Eternal Flame’ became the group's second number one single.

However, the Bangles did not stay together long after selling to platinum. The band members divided into different careers in the early 90. Still, the bandmembers drifted back together and teamed up for the first time in nearly a decade to record a song for the second Austin Powers film. The band were regularly touring and were playing some big shows in the following years, like this concert.

The Bangles: Return to Bangleonia (Live Concert 2000) + lyrics

<https://www.youtube.com/watch?v=peSRbbRex0Y>

<http://www.azlyrics.com/b/bangles.html>

1. Hazy Shade of Winter 00:00
2. Live 03:03
3. If She Knew what she wants 06:18
4. Between the Two 10:15
5. The Rain Song 13:46
6. Manic Monday 17:25
7. Here Right Now 21:17
8. September Gurls 24:54
9. Going Down to Liverpool 28:06
10. I will take care of you 32:08
11. Get the girl 36:28

12. In Your Room 39:45
13. Stealing Rosemary 43:11
14. Angels Don't Fall in Love 46:56
15. Hero takes a Fall 50:26
16. Walk like an Egyptian 56:10
17. Pushin' too hard 1:00:15
18. Eternal Flame 1:05:15

Extra UU – Bangles - Walk like an Egyptian

Xmas, New Year and Easter are major annual rituals for the epic 'Crime of the Era'. Egyptian astrologists have determined shifts of Ages every 2160 years, - that cause dramatic Pyramid Games of CdE. Consequently, a main hypothesis is that the Christ of year 0 was Caesarion, the firstborn son of Cleopatra and Julius; that Julius did a military CdE (Coup d' Etat) in Roma1; and that Julius was sacrificed in an Osiris ritual and dumped in the Forum. Still, Roma1 fell half a millennium later, when the Vesta Virgins could not maintain 'the eternal flame' of Roma1 anymore. Such 'conspiracy theories' are talked through twice a year, in addition to other related theocratic events. However, in 'the 5th Pyramid' sense, such crimes are called psychosocial Underworld Games of 4th degree. See more in UU 2016.sept.16, UU 2016.april.01, UU 2015.april.10, UU 2015.feb.13, UU 2014.dec.19 and UU 2014.mai.30.

The theme 'The 5th Pyramid' is extended for a year, due to the unexpected 5D event, - the US CdE. One focus will be the global butterfly-effects, initiated like tragicomic soap-opera scenes from the WTF Tower at Manhattan, - like some Dagmar-effects of the Winter Palace; like some Cleopatra-effects of Heliopolis.

Tom Waits – In the Neighborhood

2016.dec.23

Ukens Utvalgte

Thomas Alan Waits is an American singer, songwriter, composer, and actor that expose the harder sides of life in delicate ways. One Xmas meme is about compassion to such. However, the song 'In the Neighborhood' shows that it is a permanent situation to a lot, - which also related to the '5th Pyramid' theme. More about that in this week's extra UU. But first some presentation of Tom Waits and the concert.

"Waits has a distinctive voice, described as sounding like 'it was soaked in a vat of bourbon, left hanging in the smokehouse for a few months, and then taken outside and run over with a car'. With this trademark growl, his incorporation of pre-rock music styles such as blues, jazz, and vaudeville, and experimental tendencies verging on industrial music, Waits has built up a distinctive musical persona. He has worked as a composer for movies and musicals and has acted in supporting roles in films, including Paradise Alley and Bram Stoker's Dracula. He also starred in Jim Jarmusch's film Down by Law. He was nominated for an Academy Award for his soundtrack work on One from the Heart."

"Waits' lyrics frequently present atmospheric portraits of grotesque, often seedy characters and places, although he has also shown a penchant for more conventional ballads. He has a cult following and has influenced subsequent songwriters despite having little radio or music video support. His songs are best-

known through cover versions by more commercial artists: 'Jersey Girl', performed by Bruce Springsteen, 'Ol' '55', by the Eagles, and 'Downtown Train', by Rod Stewart. Although Waits' albums have met with mixed commercial success in his native United States, they have occasionally achieved gold album sales status in other countries. He has been nominated for a number of major music awards and has won Grammy Awards for two albums, Bone Machine and Mule Variations. Waits was inducted into the Rock and Roll Hall of Fame in 2011. He is also included among the 2010 list of Rolling Stone's 100 Greatest Singers, as well as the 2015 list of Rolling Stone's 100 Greatest Songwriters of All Time.' Waits lives in California, with his wife and their three children."

Wikipedia.

Tom Waits Live - No Visitors After Midnight (and lyrics)

Extra UU - Tom Waits -- In the Neighborhood

Tom Waits exposes the hashier sides of lives. The song 'In the Neighborhood' was often played at the video-channels, when they broke the TV oligarchies in the 80's. It was certainly no commercial hit, but did probably appeal to producers and fellow artists at the time. Nevertheless, the following words concerning '3^3 Drive, Will and Belief' relates to the US extension of the UU theme '5th Pyramid - Game Over' (P5GO).

One traditional Xmas meme is about compassion to such - once a year, - in some kind social rituals of psychosocial Games like GGBG and ITHY. Yet, the song shows that the situation doesn't merely concern the Xmas Eve and some Salvation Armies. It is the permanent state of LifeQuality for a lot.

This video also awakes some 20 years old memories of organized underworld Games by the 'Red Mafia' faction in Telenor. The experiences as a young family with the firstborn struggling for basic human needs

and rights, ended in an exodus for exile in Denmark. Another Xmas meme reveals every year, - about young family forced to leave for to Egypt 2000 years earlier.

It is evident, - Telenor hosts 'parallel organisational apparatus' as described in the '21 conditions of the 3rd International' and has become a stinking rich dysfunctional oligarchy because of that. Such hosts, like Telenor, TDC, CSC and 'Big Red', are described in several blogs like UU 2016.juni.24, UU 2015.nov.06 and UU 2014.dec.12. The ongoing Pyramid Games of CdE in Telenor was not meant to be publicly exposed for what it really is. Yet it did in 2016, - and will continue to do so in 2017.

The foundation of a dominant occult variations of Christianity was constituted 500 years ago, as 'the 3rd Rome'. The phenomena is talked through in several blogs like UU 2016.april.01, UU 2014.nov.28 and UU 2013.mai.31. In brief, the CdE Game, that radicalized the Christian capital to a Muslim Kalifate, was organized by some 'Pirates of the 4th Crusade'. The historical 5D event caused the decay and collapse of the 2nd Rome that later fell for the joint Mongol/Muslim annexation. Shortly after, some monk declared the minor dutchy Moscow as the 3rd Rome. The 'nova orthodoxy' proclaimed that there will not be a 4th Rome, because only the 'anti-Christ' could make the 3rd Rome fall. Ironically, such a Monty Python argument applies as well for the Russian orthodoxy in making a 3rd Rome, - proving that such ignorant idiocy is dangerously close to pure evil.

Ray Parker Jr. – Playlist (Ghostbusters)

2016.dec.16

Ukens Utvalgte

Ray Parker Jr. and the monster-hit Ghostbusters, relates to the unexpected rise of a WTF tower at 11/9 in Manhattan. More about that in the extra UU, but first a portrayal of the artist, his band and the jamming seminar video.

Parker started out as a teenaged session guitarist. He soon became well known and played behind the Temptations, Stevie Wonder, the Spinners, Gladys Knight & the Pips and other Motown acts. He also played on Wonder's albums and on sides by Leon Haywood and Barry White. He worked with Motown producer Clarence Paul on Ronnie McNeir's debut and appeared on Uptown Saturday Night.

He decided to become a recording artist and his first LP 'Raydio' went gold and #8 on R&B. Several hits followed, but 'Ghostbuster' became real a monster-hit.

There just a few live recordings with Ray Parker Jr. However, the unique recording from his jam seminar should be interesting for musicians.

Extra UU – Ghostbusters

The phenomenon 'Ghostbusters' awakens some associations to the monster-hit movie. – like association the fall of the WTC towers in 9/11 and the rise of a WTF tower in 11/9 at Manhattan. Anyways, about the movie and the song.

"Ghostbusters was one of Parker's biggest hits and best-loved songs. Initially it was submitted for the background score of the Dan Aykroyd/Harold Ramis/Bill Murray/Ernie Hudson comedy. The music video is one of the most star-studded videos ever made. However, Huey Lewis sued Columbia Pictures and Ray Parker Jr. for copyright infringement, claiming that 'Ghostbusters' was a rip-off of his hit, 'I Want a New Drug.' Lewis received an out-of-court settlement. Later, Parker filed a suit against Lewis for breaching the secrecy settlement.

Here is a plot-spoiler to the original Ghostbuster movie: "3 Parapsychologists are called to investigate the ghost of a dead librarian. Therefor the trio establish a paranormal investigation and elimination service known as 'Ghostbusters'. They develop high-tech equipment capable of capturing ghosts and open their business in a disused, run-down firehouse. As paranormal activity increases in New York City, they hire a fourth member to cope with demand." "Dana is demonically possessed by Zuul, which declares itself the 'Gatekeeper', and Louis by a similar demon, the 'Keymaster'. Both demons speak of the coming of the destructive Gozer and the release of the imprisoned ghosts. The Ghostbusters learn that mad doctor and cult leader claimed humanity was too sick to survive after World War I, designed the building as a gateway to summon Gozer and bring about the end of the world. After reaching the roof of Dana's building, the Ghostbusters are unable to prevent the arrival of Gozer, who appears in the form of a woman. However, the Ghostbusters cross their proton pack energy streams and fire them against Gozer's portal and terminates it all."

Wikipedia provides some other perspectives of 'ghosts'. "In folklore, a ghost (sometimes known as a spectre or specter, phantom, apparition, spirit, spook, or haunt) is the soul or spirit of a dead person or animal that can appear to the living." "According to the Gallup Poll News Service, belief in haunted houses, ghosts, communication with the dead, and witches had an especially steep increase over the 1990s. A 2005 Gallup poll found that about 32 % of Americans believe in ghosts." Note that over 80% of the humanity is religious and believe in ghostlike beings. However, psychological explanations of ghost are not physical or external. "Nietzsche argued that people generally wear prudent masks in company; but that an alternative strategy for social interaction is to present oneself as an absence, as a social ghost – "One reaches out for us but gets no hold of us" – something later echoed (if in a less positive way) by Carl Jung. Nick Harkaway considered that we all carry a host of ghosts in our heads, in the form of impressions of past acquaintances – ghosts that represent our maps of other people in the world: our reference points." "Object relations theory sees our personalities as formed by splitting off aspects of ourselves we find incompatible; whereupon we may be haunted in later life by such ghosts of our alternate selves." Furthermore, "A ghost is a term used to describe the artificial intelligence of a machine in the anime title Ghost in the Shell and likewise in the episode Ghost in the Machine (The X-Files)."

The main theme 'The 5th Pyramid – Game Over' is based on the 3[^]3 psychosocial model. In that sense, ghosts relate to the UnderConscience Drive and OverConscience Belief. The model is summarized in P5-GO blog UU 2016.sept.16, and is connected to the several blogs in the development of the theory about 2 years earlier.

The B-52's - Live In Dortmund 1983

2016.dec.09

Ukens Utvalgte

This Week's Selected, The B-52's, relates to the previous focus at the 11/9 Manhattan events. But first, a portrayal of the band and their concerts.

"The B-52's are rooted in 1960s rock and roll and combined it with genres ranging from new wave, post-punk, pop and rock with dance-friendly rhythms. The band formed in 1976 for an unplanned musical jam session in Athens, Georgia, - a hotbed for alternative music. That was, after sharing a tropical Flamingo volcano drink at a Chinese restaurant. Next, they played their first concert at a Valentine's Day party for their friends. The bandmembers had little or no previous musical experience, and performed most of their earliest shows with taped guitar and percussion accompaniment.

"The band's name comes from a particular hairdo resembling the nose cone of the aircraft B-52. Keith said that he had a dream one night and heard someone whisper in his ear that the name of the band was 'the B-52s'."

"Hoping to expand their musical approach, the B-52s recruited friend and fan David Byrne (Talking Heads) to produce their third album. He emphasized a darker, funkier sound and minimized Ricky Wilson's guitar and the group's playful side. By all accounts, the bandmembers and their record labels were not happy with the results. Byrne and the B-52s walked away from the project, and six completed tracks were released as an EP, 1982's Mesopotamia." Some resemblance between B-52s and Talking Heads seem obvious, like the critique in 'Life During Wartime', the synths and the maximized 'Jerk Suite'.

"After Wilson's death in 1985, the band found it impossible to promote the new album and spent the next several years on break. The B-52s finally returned with the album Cosmic Thing, which became their most commercially successful effort to date, including the party smash 'Love Shack', 'Roam' and 'Deadbeat Club'. They became more famous with a live-action feature The Flintstones and toured periodically."

Extra UU – Rock Lobster

This extra UU continues the 50 additional stars of P5-GO (5th Pyramid – Game Over) - and the 11/9 events causing the rise of the Trump Tower at Manhattan. Essential to keep in mind, is that oligarchs sell most anything to the highest bidder. An annulment of TPP is definitely a high prize for China, as well as the long-term fatalities for other Asian nations, - and US itself. Nevertheless, first about the song.

"The B-52's first single, Rock Lobster was an underground success. There are also two earlier versions of the song. After gaining confidence to venture into a recording studio, the B-52s pressed up a few thousand copies of the single which became a modest hit on the alternative rock circuit. The band soon traveled to New York City, playing their first paying gig at the famed rock club Max's Kansas City. Later appearances at CBGB brought the group to the attention of the New York press. Island founder Chris Blackwell flew the band to the Bahamas, where they quickly recorded their self-titled debut album, a collection of manic, bizarre, and eminently danceable songs that scored an underground club hit with a reworked version of Rock Lobster."

The song 'Rock Lobster' does appear absurd at first. Its lyrics include nonsensical lines about a beach party and excited outbursts about real or imagined marine animals accompanied by absurd, fictional noises attributed to them and the chorus consists of the words 'Rock Lobster!' However, the video is rather well planned when knowing some about circumstances, performances and icons used.

The song also had some cultural impacts. "John Lennon, whose post-Beatles music career had been on break for nearly 5 years while he helped raise his son Sean, was prompted to record again after hearing Rock Lobster. According to Lennon, "it sounds just like Ono's music, so I said to myself, 'It's time to get out the old axe and wake the wife up!' His return to the studio led to the release of Double Fantasy. At a 2002 B-52's concert in New York, Yoko Ono joined them onstage for the performance of this song. The song also appears in the TV-series Family Guy, The Story of Brenda Q and in the movie The Pirates Who Don't Do Anything. Even early Commodore Amiga 500 units had 'B52/ROCK LOBSTER' etched on the main circuit board."

Anyways, the main association in this xUU is the zodiac sign Cancer and its number 69. These memes appear in numerous association in unexplainable events, like popstars' sudden death at 69 (Extra UU3 2016.mai.06), 68-movements/pre-69 (UU 2014.okt.03), and even Hillary's present age at the US democracy's unpredictable collapse. There seems to be mythical occult influences related to the zodiac change of Age/Era. Some quotes from Wikipedia shows the relation between lobsters and occult mythology. "Astacus and Cammarus appear in various classic writers, while it is called Nepa in Cicero's De Finibus and the works of Columella, Plautus, and Varro; all of these words signify crab, lobster, or scorpion." "Athanasius Kircher said that in Coptic Egypt it was Κλάρια (Klaria), the Bestia seu Statio Typhonis (the Power of Darkness). Jérôme Lalande identified this with Anubis, one of the Egyptian divinities commonly associated with Sirius."

Weather Report - 1976 Montreux Jazz Festival

2016.des.02

Ukens Utvalgte

This 'Week's Selected', Weather Report, relates to the previous' UU's focus on The Manhattan Transfer's vocal version of 'Bird Land'. See more in this week's Extra UU. But here, a portrayal of the legendary band and their concert.

"Weather Report was an American jazz fusion band of the 1970s and early 1980s. The band was initially led by the Austrian-born keyboard player Joe Zawinul, the American saxophonist Wayne Shorter and Czech bassist Miroslav Vitouš. Due to creative and financial disagreements Vitouš left the band after a few years. Zawinul took increasing control and steered the band towards a more funk, R&B oriented sound. Other prominent members at various points in the band's lifespan included bassists Alphonso Johnson, Jaco Pastorius and Victor Bailey; and drummers/percussionists Peter Erskine, Alex Acuña, Airto Moreira and Chester Thompson."

"Alongside Miles Davis's electric bands, the Mahavishnu Orchestra, Return to Forever, and Headhunters, Weather Report is considered to be one of the pre-eminent early jazz fusion bands. As a continuous working unit, Weather Report outlasted all of its contemporaries despite, or perhaps because of, frequent changes of personnel, with a career lasting sixteen years."

Extra UU – Weather Report - Heavy Weather / Birdland

This extra UU continues the 50 P5GO and relates to the previous 'Twilight Zone' by Manhattan Transfer' and the fatal 11/9. Still, just as famous is their vocal version of Birdland. "Birdland is a jazz-fusion instrumental composition written by keyboardist Joe Zawinul of Weather Report. The piece made its debut on Weather Report's 1977 studio album, Heavy Weather. With "Birdland" at the helm of the album, the song received awards, as well as ranking high on Billboard charts. Birdland that served as a tribute to the New York City jazz club on 52nd street that housed many famous jazz musicians. The song was also named in honor of the man after whom the club was named, Charlie Parker, the 'Bird' himself. It was this club, which he frequented almost daily, that inspired Zawinul to write the song."

The association in this UU is the heavy weathers forming round the Trump Tower at Manhattan. There is no predictable weather report to all the all the upcoming political quacks, masspsychotic floods, or shitstorm – in this rise and fall of a puppet president. "Let's rather talk about the weather" is too often abused as disruption to political vital talks.

The Manhattan Transfer - Vocalese Live 1986

2016.nov.25

Ukens Utvalgte

This 'Week's Selected', 'The Manhattan Transfer', relates to the previous' UU's focus on 'First we take Manhattan'. See more in this week's Extra UU. But first a portrayal of the legendary quartet and their concert.

"The Manhattan Transfer is an American a cappella, jazz fusion/pop music group founded in 1969 in New York City and still active in the 2010s. There have been two editions of the group, with Tim Hauser being the only person to be part of both. The first group consisted of Hauser, Erin Dickins, Marty Nelson, Pat Rosalia and Gene Pistilli. The second version of the group, formed in 1973, consisted of Hauser, Alan Paul, Janis Siegel and Laurel Massé. In 1978, after Massé was badly injured in a car accident, she was replaced by Cheryl Bentyne. The group's long-time pianist, Yaron Gershovsky, accompanied the group on tour and

served as music director. Trist Curless from the Los Angeles a cappella group m-pact became a permanent member in October 2014 following Hauser's death."

"The group won various Grammy Awards in the 1980s. The group won its first Grammys in 1980 for their cover of Weather Report's 'Birdland'. Their recording earned them their first Grammy Award for Best Jazz Fusion Performance and the group's first Grammy Award for Best Vocal Arrangement for Two or More Voices, to Janis Siegel for her arrangement of the song. Their cover of 'The Boy from New York City', won them the Grammy Award for Best Pop Performance by a Duo or Group with Vocal, and 'Until I Met You (Corner Pocket)' earned them a Grammy for Best Jazz Performance, Duo or Group. In 1982, the group won another Grammy for its rendition of 'Route 66'. In 1985, the group won Grammys in two categories: Best Jazz Vocal Performance, Duo or Group, and Best Arrangement for Voices. The group was inducted into the Vocal Group Hall of Fame in 1998." (ref. Wikipedia)

Extra UU – The Manhattan Transfer - Twilight zone [Twilight tone]

This extra UU is a continuum of the 50 P5GO and relates to the previous UU 'First we take Manhattan'. Leonard Cohen had a surprising accident and sudden death at home just 2 days before 11/9. Nevertheless, The Manhattan Transfer album, Extensions, earned the group their second U.S. popular music success, as it included the hit 'Twilight Zone/Twilight Tone'. It is a tribute to the 1960's television series The Twilight Zone. The track also reached the Top 30 in the UK, where the group continued to make several appearances on popular television shows."

"The Twilight Zone is an American television anthology series created by Rod Serling. The episodes are in various genres, including psychological horror, fantasy, science fiction, suspense, and psychological thriller; and often conclude with a macabre or unexpected twist, and usually with a moral. Throughout the [1950s](#),

Serling established himself as one of the most popular names in television. His most vocal complaints concerned censorship, which was frequently practiced by sponsors and networks."

"Manhattan is often described as the cultural and financial capital of the world and hosts the United Nations Headquarters. Anchored by Wall Street in the Financial District of Lower Manhattan, New York City has been called both the most economically powerful city and the leading financial center of the world, and Manhattan is home to the world's two largest stock exchanges by total market capitalization: the New York Stock Exchange and NASDAQ. Many multinational media conglomerates are based in the borough."

The association to The Twilight Zone and Manhattan is that the Trump Tower is sited there. Manhattan and New York will be a setting for some following extra UU concerning the continuum of the UU Theme 'The fifth Pyramid' that started with UU 2016.mai.13, the 12 P5GO (The 5th Pyramid – Game Over) that started with UU2016.juli.08 and the 50 P5GO that started with UU 2016.sept.30.

The Manhattan Transfer [Twilight zone] [Twilight tone]

Leonard Cohen - Cover tributes

2016.nov.18

Ukens Utvalgte

Another star has gone supernova this year. How sad and intriguing. This week's playlist of covers indicates how much-appreciated Cohen is, though. One song in particular would have been played a lot on 11/9 if his passing had not been kept secret. That is rather the issue of this week's extra UU, while this is a tribute to the artist. The following quotes are from his 'cultural impact and themes' rather than listing all his rewards and records:

Writing for AllMusic, critic Bruce Eder assessed Cohen's overall career in popular music by asserting that "[he is] one of the most fascinating and enigmatic ... singer/songwriters of the late '60s ... Second only to Bob Dylan (and perhaps Paul Simon), he commands the attention of critics and younger musicians more firmly than any other musical figure from the 1960s who continued to work in the 21st century." The Academy of American Poets commented more broadly, stating that "Cohen's successful blending of poetry, fiction, and music is made most clear in *Stranger Music: Selected Poems and Songs*, published in 1993... while it may seem to some that Leonard Cohen departed from the literary in pursuit of the musical, his fans continue to embrace him as a Renaissance man who straddles the elusive artistic borderlines."

Themes of political and social justice also recur in Cohen's work, especially in later albums. In "Democracy", he both acknowledges political problems and celebrates the hopes of reformers: "from the wars against disorder/ from the sirens night and day/ from the fires of the homeless/ from the ashes of the gay/ Democracy is coming to the USA." He made the observation in "Tower of Song" that "the rich have got their channels in the bedrooms of the poor/ And there's a mighty judgment coming." In the title track of *The Future* he recasts this prophecy on a pacifist note: "I've seen the nations rise and fall/ .../ But love's the only engine of survival." In "Anthem", he promises that "the killers in high places [who] say their prayers out loud/ [are] gonna hear from me."

War is an enduring theme of Cohen's work that—in his earlier songs and early life—he approached ambivalently. Challenged in 1974 over his serious demeanor in concerts and the military salutes he ended them with, Cohen remarked, "I sing serious songs, and I'm serious onstage because I couldn't do it any other way...I don't consider myself a civilian. I consider myself a soldier, and that's the way soldiers salute."

It is a beautiful thing for us to be so deeply interested in each other. You have to write about something. Women stand for the objective world for a man, and they stand for the thing that you're not. And that's what you always reach for in a song.

Deeply moved by encounters with Israeli and Arab soldiers, he left the country to write "Lover Lover Lover". This song has been interpreted as a personal renunciation of armed conflict, and ends with the hope his song will serve a listener as "a shield against the enemy". He would later remark, "'Lover, Lover, Lover' was born over there; the whole world has its eyes riveted on this tragic and complex conflict. Then again, I am faithful to certain ideas, inevitably. I hope that those of which I am in favour will gain." Asked which side he supported in the Arab-Israeli conflict, Cohen responded, "I don't want to speak of wars or sides ... Personal process is one thing, it's blood, it's the identification one feels with their roots and their origins. The militarism I practice as a person and a writer is another thing.... I don't wish to speak about war."

"Cohen is mentioned in the Nirvana song "Pennyroyal Tea" from the band's 1993 release, In Utero. Kurt Cobain wrote, "Give me a Leonard Cohen afterworld/ So I can sigh eternally." Cohen, after Cobain's suicide, was quoted as saying "I'm sorry I couldn't have spoken to the young man. I see a lot of people at the Zen Centre, who have gone through drugs and found a way out that is not just Sunday school. There are always alternatives, and I might have been able to lay something on him." He is also mentioned in the lyrics of songs by Mercury Rev and Marillion."

Extra UU – Jennifer Warnes - First we take Manhattan (first version)

"Leonard Cohen died during his sleep following a fall in the middle of the night on Nov. 7," Mr. Kory said in a statement. "The death was sudden, unexpected and peaceful." (N.Y. Times) Cohen died the day before USA 'plebian referendum' that ended with surprising Red party's takeover of the White House at 11/9. Yet, the announcement of Cohen's death was postponed till after the 'election machine' stated the unexpected result that predetermines unpredictable alterations of USA politics. First, both President candidates took Manhattan. Next, they raced to take the White House.

"First We Take Manhattan is a song written by Leonard Cohen. It was originally recorded by Jennifer Warnes on her 1986 album Famous Blue Raincoat, which consisted entirely of songs written or co-written by Cohen. He explained in a backstage interview: "I think it means exactly what it says. It is a terrorist song. I think it's a response to terrorism. There's something about terrorism that I've always admired. The fact that there are no alibis or no compromises. That position is always very attractive. I don't like it when it's manifested on the physical plane - I don't really enjoy the terrorist activities – but Psychic Terrorism. I remember there was a great poem by Irving Layton that I once read, I'll give you a paraphrase of it. It was

'well, you guys blow up an occasional airline and kill a few children here and there', he says. 'But our terrorists, Jesus, Freud, Marx, Einstein. The whole world is still quaking.'"

"The music video for Warnes' version of First We Take Manhattan was directed by Paula Walker. Filmed in New York City, the video features Stevie Ray Vaughan playing his weathered "Number One" guitar (with its distinctive "SRV" logo) on the Brooklyn Bridge. Cohen also appears with Warnes in the video. Leonard Cohen's own version of 'First We Take Manhattan' had additional verses and was released on his album I'm Your Man. On his 1988 tour, Cohen introduced the new, funk-influenced arrangement. Cohen's studio recording plays over the closing credits of the 2009 film Watchmen."

"R.E.M. contributed a cover for the Cohen tribute album I'm Your Fan. Joe Cocker covered it on his album No Ordinary World. Warren Zevon, citing Cohen as one of his favorite songwriters, performed the song on tour in support of the Mr. Bad Example album accompanied by Odds. Other artists to cover the song include Show of Hands, Von Thronstahl, Cookies 'N' Beans, Do Not Forsake Me Oh My Darling, Boris Grebenshchikov, Yasmine, Sirenia, Maxx Klaxon, Tyskarna från Lund, Enrique Morente, Spikeyapples, and Widespread Panic." (Ref Wikipedia)

Jennifer Warnes: First We Take Manhattan + Lyrics

<https://www.youtube.com/watch?v=W0rZ2CPCYBQ>

<http://www.azlyrics.com/lyrics/leonardcohen/firstwetakemanhattan.html>

The song 'First We Take Manhattan*' is previously presented in UU 2012.juni.15 and UU 2010.okt.08.

Trentemøller Koncert fra Roskilde Festival 2014

2016.nov.11

Ukens Utvalgte

"The Danish electronic musician Anders Trentemøller was initially known for releasing deep house and minimal techno 12"s. He has continually expanded his sound with his ambitious full-lengths as well as his live shows, which often incorporate a full band. Based in Copenhagen, he made his debut in 1997, DJ'ing the local club circuit and occasionally performing live. After a self-imposed hiatus spanning several years, he returned with his own productions, which quickly grabbed the ear of the then red-hot Naked Music house music label. His debut EP (released in 2003) was well received and won praise from DJs in all electronic music genres. This led to a series of 12" singles on such labels as Audiomatique and Tic Tac Toe before Trentemøller found a home on Germany's esteemed Poker Flat, where he released a series of critically acclaimed singles."

"His ambitious, moody double-disc album The Last Resort was released in 2006 on Poker Flat. The album featured an increased usage of non-electronic instruments, as well as many downtempo and ambient tracks, and it received much critical acclaim. In 2007, Audiomatique released The Trentemøller Chronicles, a double CD retrospective of his non-album work up to that point, including tracks from singles and EPs as well as remixes for Robyn, Moby, and the Knife. Also in 2007, Trentemøller assembled his first live band and performed in the United States for the first time, as well as several European festivals. In 2009, HFN released Trentemøller's Harbour Boat Trips 01: Copenhagen, a mix that primarily contained indie rock and folk rather than electronic music."

"Into the Great Wide Yonder, issued on Trentemøller's In My Room label, followed in 2010 and was even more removed from the dancefloor than his first full-length. He continued his successful touring schedule, with his live band featuring up to seven members. Reworked/Remixed, a double CD collecting further remixes released since The Trentemøller Chronicles, arrived in 2011, as did Trentemøller's installment of the LateNightTales compilation series. These releases were followed by 2013's Lost, a song-oriented indie rock-influenced effort that featured guest appearances from Jana Hunter, Marie Fisker, and slowcore group Low. A remixed version of the album, Lost Reworks, appeared in 2014. Fixion, Trentemøller's fourth studio

album, followed in 2016 and continued in a similar vein, with its heavily post-punk-influenced lead single "River in Me" featuring vocals from Savages' Jehnny Beth." Ref. AllMusic.com.

Extra UU – Røyksopp - What Else Is There (Trentemoller Remix)

Merely some secret services knew that 9/11 was coming. Merely some secret services knew that 11/9 was coming. The attacks at the city of UN HQ came too sudden to avoid emocratic reactions of war. The Red Alert minimized the attack on the NATO HQ though. The attack on US Parliament did not happen when having proper time prevent it. However, hordes of PROSA, like some 5th colonists, followed. This time, 15 years later, - this recurrent Red Alert has to be dealt with professionally as the global UN issue it is. There are sufficient experiences now to know what to do and not – in time.

The association to this second 911 event is referred to the lyrics: "I was given just one wish", - which cannot be un-wished when finally realizing some unconsidered 5D consequences.

Muse - The 2nd Law, Live at Rome Olympic Stadium

2016.Nov.04

Ukens Utvalgte

Muse has become rather famous the resent years due to their extraordinary talents. However, that is not the main reason for being selected for this last 'Music Break' concert before the USA President election. The band became somewhat more interesting when reading what Muses are, - and that CIA calls Meliana Trump 'the Muse'. More about that in the Extra UU.

Muse are an English rock band. They released their debut album, 'Showbiz' in 1999, using falsetto and a melancholic alternative rock style. 'Origin of Symmetry' expanded their sound and got a reputation for energetic live performances. 'Absolution' saw further classical influence and was the first of five consecutive UK number one albums. 'Black Holes and Revelations' incorporated electronic and pop elements that was influenced by Depeche Mode. 'The Resistance' and 'The 2nd Law' explored themes of government oppression and civil uprising. 'Drones' was a concept album about drone warfare and returned to a harder rock sound.

Muse have won numerous awards, including two Grammy Awards, winning the Grammys for Best Rock Album for The Resistance and Drones, two Brit Awards, winning Best British Live Act twice, five MTV Europe Music Awards and eight NME Awards. They have sold over 20 million albums worldwide.

This week's concert is from their fourth live album, 'Live at Rome Olympic Stadium on CD/DVD and CD/Blu-ray formats'. The album contains the band's performance at Rome's Stadio Olimpico on 6 July 2013, in front of over 60,000 people; it was the first concert filmed in 4K format. The concert was a part of the Unsustainable Tour, Muse's mid-2013 tour of Europe. The film had theatrical screenings in 20 cities worldwide.

Extra UU - Muse Madness

Before talking about Melania 'the Muse', some words about the song 'Madness'. The single and music video, was released in 2012. It reached #1 in the UK Albums Chart and #2 on the US Billboard 200. The song earned a nomination in the Best Rock Song category and the album itself was nominated for the Best Rock Album at the 55th Grammy Awards. According to NME, the song 'Madness' draws influences from Queen's 'I Want to Break Free', George Michael's 'Faith' and some instrumental elements of his other hit 'I Want Your Sex'. Bellamy stated that the song started as a personal reflection after a fight realize that she was right. He also stated the song was the band's attempt to strip down the sound of the album. This video was a collaboration with director Mandler, who previously directed the music video for 'Neutron Star Collision'.

Mythologically, Wikipedia writes, "The Muses are the inspirational goddesses of literature, science, and the arts in Greek mythology. They were considered the source of the knowledge embodied in the poetry, lyric songs, and myths that were related orally for centuries in these ancient cultures. They were later adopted by the Romans as a part of their pantheon. In current English usage, "muse" can refer in general to a person who inspires an artist, writer, or musician."

The epic President election in USA, the next week, was the issue of this year's very first UU 2016.jan.01, stressing that Donald Trump must not be President for the sake of global wellbeing. During the campaigns, there have been serious enquiries of why the Oligarch Trump, this Third Party candidate, became very intimate with the Democrats and then finally becomes the president dominating candidate for the Conservative party. The secret financial sponsors seem to be kept even as secret than secret services of FSB and CIA. However, Donald Trump is a businessman that is destined to sell almost anything to the highest bidder, as well as buying to the lowest price. Probably knowing that he cannot be president, by now, due to obvious national security reasons, he rather use the presidential campaign like some journalist TV RT (Russia Today).

The Trumps are as trustworthy as the following journalists' writings. The Daily Mail wrote, "She's his 'Muse'! Melania Trump's Secret Service code name revealed (and it is a match for The Donald's 'Mogul'). (She) is known to the United States Secret Service on the campaign trail as 'Muse.'" Metro.co writes, "Donald Trump's father-in-law (Viktor Knavs) is a communist who looks exactly like him. Somehow, OTT Republican candidate Donald Trump ended up married to a woman whose dad was a registered member of the Communist party. And not only is Melania Trump's dad left-wing, he also looks eerily similar to The Donald." What FSB got on CIA is probably related to the double agent Snowden as well as Assange.

The UU theme 'The 5th Pyramid' hinted to this 5D event in UU 2016.aug.05. "Mitrokhin and Selmer indicated that radicalization was the preferred method for making PROSA (Pro Russian Oligarchs, Separatists & Anarchists) agents, - like a Coco's egg, like a complex Electra Muse." The Electra complex is the female variant of the infamous Oedipus complex. The whole Trump family seems dragged into a Gordian knot of psychosocial Games of the Sexual category.

This 4th degree Political Game seems to have gone so far that some dramatic global outcomes seem inevitable. This can very well be a 5D event of the 5th Pyramid (UU 2016.sept.23).

Editors - Live at Best Kept Secret 2016

2016.okt.28

Ukens Utvalgte

I am taking a chance here, presenting Editors in this theme 'Music Break', - for I do not know them. I fell for their video 'Papillion' two years ago, - as presented in the Extra UU. That is the only song I have heard from them. However, this concert looks good I am looking forward to this Friday Night Live.

Biographically and discography, Editors is an English rock band, previously known as 'Pilot, The Pride and Snowfield'. They released two platinum studio albums, five in total, with several million sales. Their debut album 'The Back Room' received a Mercury Prize nomination. 'An End Has a Start' went to number 1 in the UK Album Chart and earned the band a Brit Awards nomination for best British Band. It also spawned another Top 10 hit single. 'In This Light and on This Evening' went straight to number 1 in the UK Album Chart. 'The Weight of Your Love', followed by self-produced 'In Dream' in 2015.

Editors have consistently enjoyed sold-out tours and numerous headlining festival slots. Their brand of dark indie rock is commonly compared to the sound of bands such as Echo & the Bunnymen, Joy Division, Interpol, The Chameleons and U2.

Extra UU Editors – Papillon + Lyrics

UU 2014.okt.24: “The band ‘Editors’ was unknown to me until I saw this video. It gives several association. First of all, the band’s name brings thoughts about the necessary qualitative re-writing of censored history in order to plan better for the future. Next, Papillion is a butterfly and probably a pet name for the writer’s girl, which he is trying to comfort in a harsh situation. Furthermore, a ‘butterfly effect’ is an expression to an idea and philosophy that one change in a butterfly’s flight can cause a cascade of changes globally. Moreover, - running from or to what - alone – together – alone – disappear - in faded colors like black & white. “It kicks like a sleep twitch”. That’s 3x3 5D poetry - indeed.”

(The 5D theory is first mentioned in UU 2013.april.19 in Norwegian. The 3x3 psychosocial model was extended to 3^3 (i.e. $3 \times 3 \times 3$) was first mentioned in UU 2014.aug.08, elaborated in UU 2015.mars.13.)

Bob Dyland – 50 covers

2016.okt.21

Ukens Utvalgte

Bob Dylan is awarded to the Nobel Prize in Literature, as the first songwriter ever. Therefore, in honor of his works, 50 cover productions are presented. The Prize is “in the field of literature the most outstanding work in an ideal direction”. However, it is not clear if Dylan accepts the reward, because, until this date, the Nobel Committee has given up reaching him, while critics indicate an abusive political agenda. Nevertheless, he has been most influential in music and culture for half a century.

Initially, Robert Allen Zimmerman, alias Bob Dylan, was inspired by musicians like Little Richard and of Woody Guthrie, Robert Johnson and Hank Williams. During his career, he amplified and personalized several musical genres, like traditions of folk, blues, country, gospel, rock and roll, rockabilly and even jazz. He performs with guitar, keyboards, and harmonica. Much of his celebrated works date from the 1960s, though, when his songs chronicled social unrest. Early songs became anthems for the American civil rights and anti-war movements. Dylan's lyrics incorporate a wide range of political, social, philosophical, and literary influences.

He is one of the best-selling artists of all time with more than 100 million sold records. He received numerous awards including eleven Grammy Awards, a Golden Globe Award and an Academy Award. Dylan has been inducted into the Rock and Roll Hall of Fame, Minnesota Music Hall of Fame, Nashville Songwriters Hall of Fame and Songwriters Hall of Fame. The Pulitzer Prize jury in 2008 awarded him a special citation for "his profound impact on popular music and American culture, marked by lyrical compositions of extraordinary poetic power." Dylan has also published six books of drawings and paintings.

With all respect for Bob Dylan works, he appears bothered by the Nobel Prize for literature, - like Obama still says that he still do not understand why he got the Nobel's Peace Prize. Apropos, Dylan received the Presidential Medal of Freedom from President Barack Obama in May 2012. Notably, Nobel prizes are previously abused in political propaganda, like for Hamsun and Xiaobo. It might be a main reason this time too. See more about this in the Extra UU.

Lyrics Bob Dylan

<http://www.metrolyrics.com/bob-dylan-lyrics.html>

Extra UU - Frank Zappa – Flakes (with Bob Dylan parody)

Frank Zappa is a more humorous, hardcore and modern protest singer than Dylan. Zappa's concerns in injustice is his ill-treatment by union workers, - here called flakes. 'Flake' is a diverse word though, but applies here to the "slang, primarily in US, for an eccentric, crazy, or unreliable person". A 'Dylan sound-alike' contribution in the song is actually rather good, if not insulted by any Dylan parody.

If so allowed to critically analyze Dylan, as he did to so many others, this is with reference to the UU theme 'The 5th Pyramid' and the 3[^]3 psychosocial Game model: The Game Player Dylan suits the personality of the (Freudian) ego-state Drive (Id) and the sub-category Sulk. The OverConscience mode is OK-NOK (I am OK, You are Not OK). Dylan appeals to the (Jungian) collective sense of ethics by blaming Superior-Ego individuals for being BDW (Bad-Destructive-Wrong) and appeals to the masses' collective moral sense of being GCR (Good-Constructive-Right). He operates at the Conscience level and communicate to the (Jungian) collective under-conscience emotions, archetypes and synchronization.

Some classical Games are played, like SWYMD (See What You Made Me Do), ITHY (I'm Only Trying to Help You), LYAHF (Let's You and Him Fight) and Schlemiel (Rebel) that get caught in the Game NIGYSOB (Now I've Got You, You Son of a Bitch). Some related self-defined Games are: ISR (It Started with the Retribution), ABD (Attack is the Best Defense), Jante/TUD (The Ugly Duckling), TLM (Two Little Maids), BGGG (Bad Guy, Good Guy) and RPPP (Robbing Pete to Pay Paul). Dr. Eric Berne's Games are further described in UU 2014.sept.12.

Dylan's 'nobel writings' seldom express real emotions, empathies, or ethics. Dylan even converted from Judaism to Christianity, blaming Rock & Roll to get forgiveness by the Superiorities. Contrariwise, he might be honest about being just a poetic observer and reporter, not able to realize being abused by some extreme PROSA organizations of the 3rd and 4th Pyramid (UU 2016.juni.10).

Underworld – Barbara Barbara Live UK 2016

2016.okt.14

Ukens Utvalgte

Underworld became one of the most crucial electronic acts of the 1990s with their synthesis of old and new. The duo Hyde and Smith finally hit it big after recruiting a young DJ Darren Emerson to add the sound of techno and trance. Their traditional pop style was dumped in favor of Hyde's particular vocals and surreal wordplay. Underworld treated techno as the dominant force instead of adding small elements of techno to a basically pop or rock formula. In 1992, the trio debuted with two singles, 'Dirty'/'Minneapolis' and 'Bigmouth'/'Eclipse'. 'Rez' and 'MMM...Skyscraper I Love You' caused a minor sensation in the dance community. Their debut album, *Dubnobasswithmyheadman*, was praised by many critics.

The triple-CD 1992–2012 featured previously unreleased collaborations with Brian Eno, Tiësto, and Mark Knight & D. Ramirez. Following, Hyde also collaborated with Brian Eno that recalled the pioneering work with Talking Heads and David Byrne during the '70s and '80s. In 2016, they returned with new music and a new label for the album 'Barbara Barbara, We Face a Shining Future'. Underworld also had their own graphic design company Tomato - responsible for commercials from Nike, Sony, Adidas and Pepsi – in addition to remixing work for Depeche Mode, Björk, St. Etienne, Sven Väth, Simply Red, and Leftfield.

The association here is the issues of the so-called Underworld Game Category that is talked through in the UU Theme 'The 5th Pyramid' (UU 2016.mai.13 – UU 2016.sept.23). However, the plays of actors on stage should not be confused with real Game player's of such hardcore psychosocial games.

Extra UU - Freur

The roots of the band Underworld go back to the dawn of the 1980s, when Hyde and Smith formed a new wave band called Freur. The group released 'Doot-Doot' in 1983 and 'Get Us Out of Here' two years later. 'Doot-Doot' charted at # 59 on the UK Singles Chart. The band released five further tracks after "Doot-Doot", between 1983 and 1985: "Matters of the Heart", "Runaway", "Riders in the Night", "The Devil and Darkness" and "Look in the Back for Answers". All failed to dent the UK chart and the band disintegrated. Hyde worked on guitar sessions for Debbie Harry and Prince, then reunited with Smith in 1988 to form an industrial-funk band called Underworld.

Røyksopp & Robyn – Monument + playlist

2016.okt.07

Ukens Utvalgte

Following up the theme 'Music Break', Røyksopp & Robyn is presented as a unique Scandinavian collaboration, - the Norwegian electronic music duo Røyksopp and Swedish artist Robyn. The 'Do It Again Tour 2014' featured shows in Europe and North America. The background is that Robyn collaborated with them as early as 2009, - and returned to work on new music with Røyksopp in early 2013, after her 'Body Talk Tour'. There were generally positive reviews from music critics, who praised its music as flawlessly-produced and adventurous. The song 'Do It Again' reached number three in Norway and number 20 in the United Kingdom, while becoming the first number-one album on Billboard's Dance/Electronic Albums chart for both artists. The song 'Monument' is not promoted as a hit, although chosen for this presentation.

The band Røyksopp consists of Berge and Brundtland that were introduced to each other through mutual friends. After experimenting with different genres of electronic music, the band solidified their place in the electronica scene with their 2001 debut album, 'Melody A.M.'. The band makes use of various genres, like ambient, house music and synthpop. They gained critical acclaim and popular success around the world. To date, Røyksopp has been nominated for one Grammy Award, won seven Spellemannprisen awards, performed worldwide tours, and produced albums which have topped the charts in several countries, including four consecutive number-one albums in their native Norway. Btw, the word Røyksopp is a stylized version of the Norwegian word for the puffball mushroom. The band has stated that the word could also evoke the mushroom cloud resulting from an atomic blast.

Robyn (Robin Miriam Carlsson) is a Swedish singer, songwriter and record producer. Her debut album 'Robyn Is Here' spawned two Billboard Hot 100 top 10 hit singles. Robyn returned to international success with her fourth album Robyn, which earned her critical acclaim and a Grammy Award nomination. She released a trilogy in 2010 of three mini albums of the Body Talk series. The albums received widespread critical acclaim, three Grammy Award nominations and produced three top 10 hits. Robyn followed up with the release of two collaboration EPs 'Do It Again' (2014) and 'Love Is Free' (2015).

Billy Mackenzie/Associates - Strasbourg Square

2016.sept.30

Ukens Utvalgte

It is time for a 'Music Break' again, - after 3 months of continuous writings about the theme 'The 5th Pyramid'. 'Strasbourg Square' provides associations to the 12 last blogs of the theme though. The association relates to the European parliament in Strasbourg. The German sounding name indicates the rivalries in the area that too many people have suffered. It is also reflected in the lyrics. Unfortunately, Billy passed away some years ago and was rather unknown for his career. The early album 'Sulk' of the Scottish duo Associates' (Billy Mackenzie and Alan Rankine) was particularly innovative with Billy's unique voice and Alan's music compositions. The second to the last album 'Wild and Lonely' is a favorite, but also indicated a sad end to the career.

50 more P5GO stars – Index

2016.sept.24

Ukens Utvalgte P5GO Index

The continuum of 50 more stars did in fact start without any pause. The issues of '5th Pyramid Game Over' escalated due to the unlikely outcome of the US presidential election at 11/9. As mentioned in the afterword of UU 2016.sept.23. "This extended blogging of 12 stars does hint to Europe. The other 'western' continent is America. At some point of time, not now, there might be further extension of 50 more blogs relating to the US vs SU rivalries in this period of the 5th Pyramid Game."

However, the following 50 blogs will not be in-depth theoretical explanations like the previous, - but rather brief reflection as the extraordinary 5D aftermath develops. It will last a year. Each blog will mainly be musical presentation, - followed with a P5GO blog as extra UU.

Following is a listing of links to those blogs.

UU 2016.sept.30 - Billy Mackenzie/Associates - Strasbourg Square

UU 2016.okt.07 - Røyksopp & Robyn – Monument + playlist

UU 2016.okt.14 - Underworld – Barbara Barbara Live UK 2016

UU 2016.okt.21 - Bob Dyland – 50 covers

UU 2016.okt.28 - Editors - Live at Best Kept Secret 2016

UU 2016.Nov.04 - Muse - The 2nd Law, Live at Rome Olympic Stadium

UU 2016.nov.11 - Trentemøller - Roskilde Festival 2014

UU 2016.nov.18 - Leonard Cohen - Cover tributes

David Bowie – We are the Dead (2)

2016.sept.23

Ukens Utvalgte

'Pyramid Game Over' provides 12 proposals to promote 'Western' parliamentary qualities. 'P5G012 - Hyper-Democracy', aims to strengthen the 4th Parliamentary LEJD power, Democracy, to balance the Parliamentary powers. Europe continues its path as a confederal cradle of democracy. 'Nova Russia' took a U-turn towards autocratic feudalism when democracy deceased at REXIT 18/9. Their new MGB (Ministry for State Security) is like the Coldwar KGB and the Chinese MSS. Yet, in contrast, global Hyper-Democracy escalates as the 4th Parliamentary dimension. It will certainly cause unforeseen 5D events for the 3 superior powers; the Throne, the State and the Temple, as well as the 3 Parliamentary LEJ powers (Legal, Executive and Judicial). This is the final blog of this extended 'The 5th Pyramid' theme. In order to conclude, there will be a brief summary, then some theoretical pinpoints and finally some suggestion on how to pass this period of the 5th Pyramid Game.

This UU theme, 'The 5th Pyramid', was made to explore the nature of the psychosocial Game. The uncloaking of the war-declaration from the Comintern towards European and American states became fundamental. The first 7 blogs built the 5 triangles on a core and was finally encircled. The 5 triangles represent 5 Pyramid Games of half a century periods; 1813-1863, 1863-1913, 1913-1963, 1963-2013 and 2013-2063. The complete meme is a black star on a core and with a sphere. However, on completion, there was an association of a 'black hole' with its 'event horizon'. Moreover, images of the 4th Space dimension was related to the 4th Parliamentary power, Democracy. It also revealed an idea of the 4th dimension, hyper-democracy, as a potential parliamentary power at play. Then, the blogging could not end with these new revelations. Therefore, 12 additional blogs representing 12 enlightened stars encircling the event horizon of the all-consuming black hole. In brief, each blogs proposes solutions to the 12 issues; 1) Politicians, 2) Pensions, 3) Workers, 4) Bourgeois, 5) Oligarchs, 6) Separatists, 7) Anarchists, 8) Plutocracy, 9) Psychocracy, 10) Technocracy, 11) Belief, and finally, 12) Hyper-Democracy. (Please, note that the main objective is to encourage own thinking and that the writings are merely spin-off products.)

All the 19 blogs also relates to the theories presented in the introduction blog of UU 2016.mai.13. They are explained in UU 2014.sept.12 as; a consistent definition of "LifeQuality; a 3D ethics model, a 3D ethical system of GCR (Good/Constructive/Right); a 3D political model relating to the constitutional LEJ powers (Legal/Executive/Juridical); a 3[^]3 (3*3*3) psychosocial model of Drive, Will and Belief; an extended psychosocial Game models; a 5D scenario model for past as well as future (UU 2014.sept.12); and extended terminology by extended use of suffixes. (UU 2015.juni.12).

Nevertheless, a new hypothesis in this final blog is that the Russian democracy deceased by the REXIT, - the quasi-referendum at 2016-09-18. It seems similar to the plebiscite arranged to legitimize the CdE annexation of the Ukrainian Crimea. It has become like a 'Black Sea Cuba'. Russian Secret Services are now recreating the Coldwar KGB, STASI and RAF by making the superior MGB (Ministry for State Security). It is remaking the Coldwar of 1963 - as well as revitalizing the Leninism of 1913. A fully uncloaking of the 5th Pyramid Game is yet too early, though. Kremlinology is as hard as Vaticanology.

However, history is certainly repeating. Clues of such nova conservatism can be done by using 5D history analysis for 5D scenarios. In order to do so, the dictations of the '21 Conditions of the Third International (Comintern)' is here slightly modified for this century, by simply substitute the word 'Communism' with 'Putinism', - just like 'Leninism' was used to legitimize the cold war crimes. The modified text provides ideas of what a 'Putinism' can be. Possible cloaked Gimmicks of the 5th Pyramid Game is thereby pointed out. The following is an extraordinary exemplification of what to come for the 'Western World', i.e. Europe and America.

- Condition 1.1: "All propaganda and agitation must bear a really Putinist character and correspond to the programme and decisions of the Putinist International. All the party's press organs must be run by reliable Putinists who have proved their devotion to the cause of the proletariat. The dictatorship of the proletariat must not be treated simply as a current formula learnt off by heart. Propaganda for it must be carried out in such a way that its necessity is comprehensible to every simple worker, every woman worker, every soldier and peasant from the facts of their daily lives, which must be observed systematically by our press and used day by day."

See all the modified full text in Extra UU2, exposing 'Putinism' instead of 'Leninism' and 'Communism'.

The Comintern is not of GCR ethics (Good, Constructive and Right). However, extended measures of positive nations is possible and is actually done: "The GCI (Good Country Index) is a composite statistic of 35 data points that are mostly generated by the United Nations (UN). The data points are combined into a common measure that ranks the seven categories; Science and Technology, Culture, International Peace and Security, World Order, Planet and Climate, Prosperity and Equality, Health and Wellbeing. The extend value system from 'rich' to 'good' was made because of unexpected side effect of the globalization. Problems that once were local, now have worldwide consequences. However, nations still operate too independently, as if they do not quite realize their inter-dependencies." "The scores of GCI might surprise. Nine of the top 10 countries are in Western Europe, where 4 are of the 5 Nordic nations. (Iceland is #17 due to the global financial crises.) An explanation can be the European balance between Supply & Demand, whilst SU over-focused on Supply and US on Demand. Besides, Norden was not as damaged in the previous century's war as the rest of Europe. Other relevant rankings are that US = #21, Russia = #95 and China = #107." (UU 2014.dec.12) Russia should rather be positive influenced by 'The West' than project negative influence toward it.

The 18/9 Russian plebiscite demonstrated the Secret Services well. Voting was openly monitored and the urban oppositions' participation was scared down to 1/3. The average participation was merely 48%, even though aided with collective methods as carousels and cruises, where oligarchs and officers pickup and monitor their subordinates' voting. An internet video even shows an unaware clerk submitting numerous voting bills. Actually, the election is per definition a kind of CdE Game. However, normally, constitutions require over 50 % majority to be elected as a president. Similarly, that should apply for the participation rate. The Russian participation, including all the illegal votes, was less than half. Maybe the Russian vote should be annulled, like the presidential elections has been in Austria (2016), Ukraine (2004) and South Ossetia (2011). However, the REXIT seems rather to follow the concept of the staged referendum in Crimea to apparently legitimate the illegal annexation, the massive football match-fixing and the doping of OL athletes. Overall, - the concept is ancient like the manipulated Greek plebiscite that got Plato's philosopher friend executed.

In response, 'Western' nations need to eliminate the Leninist anti-western heritages before the ongoing 5th Pyramid Game irreversibly renew the 4th Pyramid Games of the Cold war. (See the Comintern 21 Conditions and the 11 previous blogs.) There should be no doubt that the Dexit, Nexit, Grexit and Brexit were 5th Pyramid Games of CCD (Colony collapse disorder) and CdE (Coup d'Etat). Even the 18/9 Rexit, the Russian Exit from 'Western' collaboration, aligns with the same concept. This century's remote controlled Pro-Russian Oligarchs, Separatist and Anarchists (PROSA) are like the previous century's BRAF, RAF and GRAF. Cold War Puppet Presidents were voted away in European nations during the short period of 'glasnost and perestroika'. However, new ones seem to be positioned in Games of CCD and CdE. Some does not even seem to be aware that they actually are puppet presidents, - like PPP (Puppet President Putin). 'Democracy threatens' is the title of an episode of the TV series "Putin, Russia and the West". REXIT proves the paranoia of the Secret Services of the Oprichnina/Praetor (UU 2016.juni.17).

There will be many more 5th Pyramid Games of CCD and CdE in the 'Western world', both of violent GRAF terrorist attacks and BRAF 'hooligan' attacks, in addition to political referendum attacks - like Brexit. Wikipedia categorizes CdE: "A coup d'état, literally 'hit of state', putsch or overthrow, is the illegal and open annexation of a state by elites within the state apparatus. It is considered successful when power is held for at least seven days. A 2016 study categorizes coups into four possible outcomes; 1) Failed coup; 2) No regime change; 3) dictatorship swap; and 4) democratization. Three types of CdE are identified as: 1) Breakthrough coups, 2) Arbiter coups; and Veto CdE." The Brexit, Dexit, Nexit, Grexit are Veto CdE with no regime changes.

Moreover, the Turkish CdE attempt at 2016.07.15 is particularly interesting and should be investigated further, since it seems to be a Game within a Game. The 'failed breakthrough CdE' seems to be unmotivated triggered, as if the soldiers reacted to a 'false positive'. They were not supported by any alternative regime at all, like they were walking into a trap. Furthermore, the cleansing afterwards

seemed very well prepared and organized. Russia, that was a fierce enemy of Turkey before the CdE Game, became suddenly a close friend to the NATO nation Turkey. US was even accused for being involved in the CdE attempt. Russia was then allowed to arm the annexed Crimea without their objections. Anyways, who fooled the CdE para-organization in the Turkish army to attack their own government, - will remain a secret.

Taking 3rd psychosocial analysis seriously, it should be possible, and professionally recommendable, to use means of 'family therapy' on the Moscow tribe. The cultural history of Moscow determines what it does in this period of the 5th Pyramid Game. Some clips from previous blogs indicates points of view throughout this blogging:

- "Finally, some quotes relates Moscow's 500 years relation to the Mongols and to Asia." (UU 2016.mai.13) "Some pirates of the 4th Crusade caused a CdE (Coup d' Etat) Game in the Christian Roma2 about 1200 AD. The mismanagement caused the decay, piracy, plagues and cascades of CdE in Europe. Eventually Roma2 fell about 1500. Roma3 was constituted in the relatively small Grand Duchy Moscow. A monk stated that "Roma2 has fallen and there should not be a Roma4", - indicating that antichrist would be the reason for a fall of Roma3. It expanded with the Mongolian agreement and concept of tax & terror. The Nordic (Kalmar) union was split in a DAC Game when Denmark allied (with Russia) and Sweden joined the resistance after the Novgorod massacres about 1600." (UU 2014.mai.02). However, Norway never recognized the illegal and humiliating annexation after Russia caused the split of the Nordic (Kalmar) Union, - but was too weakened to resist." (UU 2016.juni.10)
- "Ivan IV Vasilyevich (the Great) was a crown prince of Moscow at that time. He was appointed as Cesar/tsar of all-Russia and got a role like Julius Caesar of Roma1. There was formed a strong alliance of Throne and Temple. In the beginning, the republican State had a minor role. The Russian Temple declared independence of Roma2 in protest to a settlement in Firenze. Not surprisingly, there were suddenly far more marriage proposals for Ivan, which must have led to countless complex TOL Games (TLM – Two Little Maidens) in the Court of the King. Finally Anastasia Romanova was the chosen one. She became a well reputed tsarina that influenced Ivan's decisions considerably. However, the Tsardom was highly exposed to external as well as internal powers. The early death of the tsarina was suspicious and Tsar Ivan accused his opponents." (UU 2013.Mai.24) This was probably a start for an unsound CB development (Conscience Belief) of the Russian Throne. (UU 2014.okt.31)
- "There should be no doubt, Royal girls and boys were played in Games of 4th degree by the rivaling State and Temple. Possibly, the youngsters were abused like some 'lab rats' in castle cages like the 'Winter Palace'. Situations might very well have been scripted and responses registered, in order to plan and cause future cascades of CCD, - ending up in some Global 'Dagmar Effect' (UU 2013.mai.17). The faith of Queen Maud of Norway indicates the upcoming Games. She probably had insight knowledge of the Games schemes when she went back to London. She was not accused for any crime, but seems to be killed, covered up as some surgery accident. That even probably turned on alarms in Norway for the up-coming CdE and invasion. (Ref Wikipedia)" (UU 2014.okt.31)

Without going to deep into the vastly complex psychosociology, - Thrones are still the major arenas for those rivalries - and they are revitalized in this 5th Pyramid Game of Putinism. Neighboring nations should not be too involved - and get dragged into such never-ending Games in the Court of Crimson Kings. (UU 2014.mai.02)

No doubt, the 500 years of history proves that the tribe is a danger to itself and its surroundings. Therefore, the world society is obligated to help healing, before irreversible harm happens to its members and its neighbors. It is too much to go into what approaches might be positive. Dealing with international criminal organizations influenced by 'Red Mafia' and 'Gulag', should be comparable to how some nations deal with their national mafia. Such issues are talked though in the previous 3 blogs; UU 2016.sept.02 UU 2016.sept.09 and UU 2016.sept.16. "Finally how the idea Superior-ID became: "The Oprichnina/Praetor is like a definition of psycho-social Games. The Actors and the Games are ulterior and concealed like the very nature of secret services. It is however, a problem if the democratic Quality of Life is not respected. It is serious if the organization consider itself as a Superior-Ego and individual as inferior. It is catastrophic, if it

also inherited the properties of Ivan's murky mentality as a collective obsession." The theory of Superior-Id is talked through in UU 2014.jan.10 and the OD (OverConscience Drive) in UU 2014.aug.22." (UU 2015.nov.06) Unfortunately, the 3rd Pyramid Game made the "inherited the properties of Ivan's murky mentality as a collective obsession". That must not be repeated in this century of the 5th Pyramid Game. However, theoretically, it is as easy as adapting the attitude "I am OK – You are OK". (UU 2016.juli.29)

Hyper-Democracy is as real as virtual reality is. Surely, everyone knows how a slogan, a meme and a picture can influence the demos (people) and cause mass-movements. Politician, in particular, uses this in their campaigns before referendums. Now, that the global neuro-system for humanity is almost developed, there will be radical enlightening, communications and inter-actions. There will be consequences too. Everyone knows, however, positive pro-activity seems too few and too late. The idea was blogged before calling it Hyper-Democracy: "Humanity grows and is at the state like a 3 years old infant. (UU 2014.april.04) The association is based on the tremendous growths in individuals, the telecom, computing and big-data utilizations. The figure of speech is meant to help ourselves realized that even though we personally might have reached adulthood, - humanity has not and it goes through tremendous inner changes we ourselves long ago forgot. Most vital, there are ongoing and upcoming opportunities, challenges and dangers of crucial outcomes. We can, if we will, influence the outcomes. The changes humanity goes through is when an infant's neural system finally is developed, the senses fully connects to the brain and ability to sense, think and response is possible. We adults know it is important what is done and not. The outcomes are influenced on how we help or not. However, there is no adult humanity yet. What to do about that for the millennia to come? A global language that anyone understand is required. Any nation – any school could agree on that and start teaching right now." (UU 2015.april.10) Also see UU 2016.juli.01 for talks about theories of the 4th Space Dimension.

All in all, democracy is democracy, as real, as virtual as hyper. The traumatized Plato, the developed a demo-phobia, might provide a positive democratic contribution after all. Do quality-ensure plebiscites (referendums) against Pyramid Game Players. Annul obviously manipulated referendums and re-do the elections if right in a Parliamentary Democracy.

Finally, the model of superior powers called Throne, State and Temple are made to relate to the 3[^]3 psychosocial dimensions of Drive, Will and Belief, which again relates to the theories of Freud & Jung psychoanalysis. That means that the models apply to humanity as a single species. Not to dive too deep into that, but there are very different challenges, when humanity's development is like infants at 3-5 years old, - with no parents. Anyways, there seems to be clockwise patterns for continental empires states of believes. For example Russia has the previous centuries been dominated by; 1500 Temple/Roma2, 1600 State/Oprichnina, 1700 Throne/Peter, 1800 Temple/royal and 1900 State/SU. Following that line, Russia, in this century, will be dominated by the PPP Oligarchy and the next century will be dominated by a nova-orthodoxy Temple in the predicted Eve of a New Age/Era. There seems to be some clockwise patterns for the empires of the other 4 continents too, - and are synchronizing.

Afterword. This extended blogging of 12 stars does hint to Europe. The other 'western' continent is America. At some point of time, not now, there might be further extension of 50 more blogs relating to the US vs SU rivalries in this period of the 5th Pyramid Game.

David Bowie - We Are the Dead

David Bowie's requiem, 'Black Star' has been a thread to this UU Theme 'the 5th Pyramid'. It is therefore proper to end it with the masterpiece 'We are the Dead'. The song is taken from the album 'Diamond Dogs' and is the first of 4 songs written to the novel '1984'. This one is from the scene, after getting the fatal 'I Love You' note and realizing that their 'sex crime' will be a death sentence. The theme of 1984 is mentioned several times in blogs and this song was previous presented in UU 2010.okt.29.

The novels '1984' and 'Animal Farm' are the inspiration to the Drive Game category AF (Animal Farm). It is describe in UU 2015.feb.27. They are also the inspiration to the dystopian term 'Trelletoopia', where the

'people' in bondage Believe their dystopia is an utopia. (UU 2014.aug.01, UU 2014.nov.14 and UU 2015.juli.03)

Extra UU1, A very rude Bourgeois

Monty Python swaps roles of the French and English in this sketch. The English occupied French 'bourg' (castles) in France. French theocrats tried to negotiate, but was mocked. Soldiers tried to invade, but were bombarded. Jean d' arch tried to crusade, but was burned alive. Anyhow, peasants outside the 'borg' were envious of their mates inside, called Bourgeois (in French). The 3rd international is all about this jealousy and about swapping places. The 5th might be about being in or out of empires 'borgs' – being citizens (bourgeois).

French Taunter - Monty Python and the Holy Grail

<https://www.youtube.com/watch?v=A8yjNbcKkNY>

The French do not share such English Monty Python humor. OMD (Orchestral Manouvers in the Dark) made a synth song about Jeanne D'Arc, 'The Maid of Orleans'. This extended double version of the song is mixed with the movie of the same name. Surely the English protestants and French catholics sees the same story differently, - which must have pleased the Russian orthodox in this LYAHF & TLM Game.

OMD - Maid of Orleans

Extra UU2, The 5th Putinist International

In order to highlight the continuous obligation from the 3rd Pyramid to the 5th, the word 'communist' is substituted with Putinist. Here is the full modified text of the 21 Obligations to members of the Third International (Comintern):

"The Putinist International, refer to the conditions, most of which were suggested by Vladimir Lenin, to the adhesion of the socialist parties to the Third International (Comintern) created in 1919. The conditions were formally adopted by the Second Congress of the Comintern in 1920. The conditions were:

1). - All propaganda and agitation must bear a really Putinist character and correspond to the programme and decisions of the Putinist International. All the party's press organs must be run by reliable Putinists who

have proved their devotion to the cause of the proletariat. The dictatorship of the proletariat must not be treated simply as a current formula learnt off by heart. Propaganda for it must be carried out in such a way that its necessity is comprehensible to every simple worker, every woman worker, every soldier and peasant from the facts of their daily lives, which must be observed systematically by our press and used day by day.

The periodical and other press and all the party's publishing institutions must be subordinated to the party leadership, regardless of whether, at any given moment, the party as a whole is legal or illegal. The publishing houses must not be allowed to abuse their independence and pursue policies that do not entirely correspond to the policies of the party.

In the columns of the press, at public meetings, in the trades unions, in the co-operatives – wherever the members of the Putinist International can gain admittance – it is necessary to brand not only the bourgeoisie but also its helpers, the reformists of every shade, systematically and pitilessly.

2). - Every organisation that wishes to affiliate to the Putinist International must regularly and methodically remove reformists and centrists from every responsible post in the labour movement (party organisations, editorial boards, trades unions, parliamentary factions, co-operatives, local government) and replace them with tested Putinists, without worrying unduly about the fact that, particularly at first, ordinary workers from the masses will be replacing 'experienced' opportunists.

3). - In almost every country in Europe and America the class struggle is entering the phase of civil war. Under such conditions the Putinists can place no trust in bourgeois legality. They have the obligation of setting up a parallel organisational apparatus which, at the decisive moment, can assist the party to do its duty to the revolution. In every country where a state of siege or emergency laws deprive the Putinists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity.

4). - The duty of propagating Putinist ideas includes the special obligation of forceful and systematic propaganda in the army. Where this agitation is interrupted by emergency laws it must be continued illegally. Refusal to carry out such work would be tantamount to a betrayal of revolutionary duty and would be incompatible with membership of the Putinist International.

5). - Systematic and methodical agitation is necessary in the countryside. The working class will not be able to win if it does not have the backing of the rural proletariat and at least a part of the poorest peasants, and if it does not secure the neutrality of at least a part of the rest of the rural population through its policies. Putinist work in the countryside is taking on enormous importance at the moment. It must be carried out principally with the help of revolutionary Putinist workers of the town and country who have connections with the countryside. To refuse to carry this work out, or to entrust it to unreliable, semi-reformist hands, is tantamount to renouncing the proletarian revolution.

6). - Every party that wishes to belong to the Putinist International has the obligation to unmask not only open social-patriotism but also the insincerity and hypocrisy of social-pacifism, to show the workers systematically that, without the revolutionary overthrow of capitalism, no international court of arbitration, no agreement on the limitation of armaments, no 'democratic' reorganisation of the League of Nations will be able to prevent new imperialist wars.

7). - The parties that wish to belong to the Putinist International have the obligation of recognising the necessity of a complete break with reformism and 'centrist' politics and of spreading this break among the widest possible circles of their party members. Consistent Putinist politics are impossible without this. The Putinist International unconditionally and categorically demands the carrying out of this break in the shortest possible time. The Putinist International cannot tolerate a situation where notorious opportunists, as represented by Turati, Modigliani, Kautsky, Hilferding, Hillquit, Longuet, MacDonald, etc., have the right to pass as members of the Putinist International. This could only lead to the Putinist International becoming something very similar to the wreck of the Second International.

8). - A particularly marked and clear attitude on the question of the colonies and oppressed nations is necessary on the part of the Putinist parties of those countries whose bourgeoisies are in possession of colonies and oppress other nations. Every party that wishes to belong to the Putinist International has the obligation of exposing the dodges of its 'own' imperialists in the colonies, of supporting every liberation movement in the colonies not only in words but in deeds, of demanding that their imperialist compatriots should be thrown out of the colonies, of cultivating in the hearts of the workers in their own country a truly fraternal relationship to the working population in the colonies and to the oppressed nations, and of

carrying out systematic propaganda among their own country's troops against any oppression of colonial peoples.

9). - Every party that wishes to belong to the Putinist International must systematically and persistently develop Putinist activities within the trades unions, workers' and works councils, the consumer co-operatives and other mass workers' organisations. Within these organisations it is necessary to organise Putinist cells which are to win the trades unions etc. for the cause of communism by incessant and persistent work. In their daily work the cells have the obligation to expose everywhere the treachery of the social patriots and the vacillations of the 'centrists'. The Putinist cells must be completely subordinated to the party as a whole.

10). - Every party belonging to the Putinist International has the obligation to wage a stubborn struggle against the Amsterdam 'International' of yellow trade union organisations. It must expound as forcefully as possible among trades unionists the idea of the necessity of the break with the yellow Amsterdam International. It must support the International Association of Red Trades Unions affiliated to the Putinist International, at present in the process of formation, with every means at its disposal.

11). - Parties that wish to belong to the Putinist International have the obligation to subject the personal composition of their parliamentary factions to review, to remove all unreliable elements from them and to subordinate these factions to the party leadership, not only in words but also in deeds, by calling on every individual Putinist member of parliament to subordinate the whole of his activity to the interests of really revolutionary propaganda and agitation.

12). - The parties belonging to the Putinist International must be built on the basis of the principle of democratic centralism. In the present epoch of acute civil war the Putinist party will only be able to fulfil its duty if it is organised in as centralist a manner as possible, if iron discipline reigns within it and if the party centre, sustained by the confidence of the party membership, is endowed with the fullest rights and authority and the most far-reaching powers.

13). - The Putinist parties of those countries in which the Putinists can carry out their work legally must from time to time undertake purges (re-registration) of the membership of their party organisations in order to cleanse the party systematically of the petty-bourgeois elements within it.

14). - Every party that wishes to belong to the Putinist International has the obligation to give unconditional support to every soviet republic in its struggle against the forces of counter-revolution. The Putinist parties must carry out clear propaganda to prevent the transport of war material to the enemies of the soviet republics. They must also carry out legal or illegal propaganda, etc., with every means at their disposal among troops sent to stifle workers' republics.

15). - Parties that have still retained their old social democratic programmes have the obligation of changing those programmes as quickly as possible and working out a new Putinist programme corresponding to the particular conditions in the country and in accordance with the decisions of the Putinist International.

As a rule the programme of every party belonging to the Putinist International must be ratified by a regular Congress of the Putinist International or by the Executive Committee. Should the Executive Committee of the Putinist International reject a party's programme, the party in question has the right of appeal to the Congress of the Putinist International.

16). - All decisions of the Congresses of the Putinist International and decisions of its Executive Committee are binding on all parties belonging to the Putinist International. The Putinist International, acting under conditions of the most acute civil war, must be built in a far more centralist manner than was the case with the Second International. In the process the Putinist International and its Executive Committee must, of course, in the whole of its activity, take into account the differing conditions under which the individual parties have to fight and work, and only take generally binding decisions in cases where such decisions are possible.

17). - In this connection all those parties that wish to belong to the Putinist International must change their names. Every party that wishes to belong to the Putinist International must bear the name Putinist Party of this or that country (Section of the Putinist International). The question of the name is not formal, but a highly political question of great importance. The Putinist International has declared war on the whole bourgeois world and on all yellow social-democratic parties. The difference between the Putinist parties and the old official 'social-democratic' or 'socialist' parties that have betrayed the banner of the working class must be clear to every simple toiler.

- 18). - All the leading press organs of the parties in every country have the duty of printing all the important official documents of the Executive Committee of the Putinist International.
- 19). - All parties that belong to the Putinist International or have submitted an application for membership have the duty of calling a special congress as soon as possible, and in no case later than four months after the Second Congress of the Putinist International, in order to check all these conditions. In this connection all party centres must see that the decisions of the Second Congress are known to all their local organisations.
- 20). - Those parties that now wish to enter the Putinist International but have not yet radically altered their previous tactics must, before they join the Putinist International, see to it that no less than two thirds of the central committee and of all their most important central institutions consist of comrades who even before the Second Congress of the Putinist International spoke out unambiguously in public in favour of the entry of the party into the Putinist International. Exceptions may be permitted with the agreement of the Executive Committee of the Putinist International. The Executive Committee of the Putinist International also has the right to make exceptions in relation to the representatives of the centrist tendency mentioned in paragraph 7.
- 21). - Those party members who fundamentally reject the conditions and Theses laid down by the Putinist International are to be expelled from the party.”

In the same way, the 1st could be substituted with Royalist, the 2nd with Clerks and the 4th with Bureaucrats. (The original text is taken from Wikipedia https://en.wikipedia.org/wiki/Twenty-one_Conditions)

Talking Heads – Mind

2016.sept.16

Ukens Utvalgte

‘Pyramid Game Over’ provides 12 proposals to promote ‘Western’ Parliamentary Qualities. The ‘P5GO11 – Mass-psychoses’, aims at the propagated dilutions against the ‘Western’ nations by abuse of isms and mass-media. Such collective ‘Belief’ was founded in the 1st Pyramid Game, but altered by the 3rd - and should end with this 5th. The global shifts in those mass-dilutions involve all the 3 Superior-powers of Throne, State and Temple. Their Belief in morals, ethics and philosophies are now shifting in this eve of this millennium and shift of Era/Age. In order to discuss such in this blog, there is an extended theoretical talk through, including some points of view, and finally some suggestions. In brief, this is a continuum and the next level of all the previous blogs concerning Belief. Still, this final triad of blogs is also about the potential healing a 500 years old Nordic Syndrome.

The Belief of the 5 Pyramid Games was the foundation for the previous century sociopathic warfare in Norden, Europe and the rest of the world. Far less dilutions and far more sanity is vital to have ideas of what to do and not. That 5D change can only come with realizing the insanity of the previous Pyramid Games and use of sound mentality on plans for this century. The 5th Pyramid Game can only be stopped by unclocking deceptive Beliefs in mass-psychotic propaganda. This last blog of 3 mini theme adds some unorthodox suggestions to the previous ones. However, in brief, a new century requires a generation’s renewal in all European Thrones, as well as States and Temples. All the ‘Minotaur labyrinths of deceptive Games’ are negative spirals of BDW (Bad, Destructive and Wrong). ‘Game Over’ is the only improving solution to negative Games. The following pinpoints the BDW (Bad, Destructive & Wrong) Belief in the State Superior-power during the 3rd and 4th Pyramid Game.

The 21 conditions of Third International, is an uncloaked statement from the treasonous Statesmen to their submitted workers, peasants and soldiers. Propaganda in mass media is a main obligation. Although this statement of the 3rd Pyramid Game is finally published on internet, almost a century later, it is of a concept for all the 5 Pyramid Games for all the 3 superior-powers; Throne, State and Temple. Therefor the following citations is conceptual for any of these regimes throughout the 200 years period of Pyramid Games. To document the Belief in the Gimmicks of the Pyramid Games, the following quotes parts of the Third International (Comintern) of the Second Congress of the Comintern in 1920:

- C1. "The dictatorship of the proletariat must not be treated simply as a current formula learnt off by heart. Propaganda for it must be carried out in such a way that its necessity is comprehensible to every simple worker, every woman worker, every soldier and peasant from the facts of their daily lives, which must be observed systematically by our press and used day by day." "The periodical and other press and all the party's publishing institutions must be subordinated to the party leadership, regardless of whether, at any given moment, the party as a whole is legal or illegal."
- C3. "In almost every country in Europe and America the class struggle is entering the phase of civil war." "They have the obligation of setting up a parallel organisational apparatus which, at the decisive moment, can assist the party to do its duty to the revolution. In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity."
- C18. "All the leading press organs of the parties in every country have the duty of printing all the important official documents of the Executive Committee of the Communist International."

This Concept of corrupting propaganda is a main mean for Pyramid Games of CCD (Colony Collapse Disorder) and its 200 years of anti-European warfare.

'Belief' is the 3rd 'ego state' Dimension in the 3[^]3 psychosocial model. In brief, it is the social equivalent to the personal 'Superior-Ego' and the tribal 'Parent'. However, before elaborating on that, there are some definition from Wikipedia:

- "Belief is the state of mind in which a person thinks something to be the case, with or without there being empirical evidence" "... a mental representation of an attitude positively oriented towards the likelihood of something being true." "In the context of Ancient Greek thought, there is: pistis 'trust' and 'confidence', and doxa 'opinion' and 'acceptance'. The English word 'orthodoxy' derives from doxa." "Mainstream psychology and related disciplines have traditionally treated belief as building blocks of conscious thought. Beliefs are sometimes divided into core beliefs (that are actively thought about) and dispositional beliefs (that may be ascribed to someone who has not thought about the issue). This has important implications for understanding the neuropsychology and neuroscience of belief. If the concept of belief is incoherent, then any attempt to find the underlying neural processes that support it will fail."
- "Delusion arises when the truth value of the form is clearly nil. Delusions are defined as beliefs in psychiatric diagnostic criteria. However, the majority of mental health professionals and researchers treat delusions as if they were genuine beliefs. In epistemology, philosophers use the term "belief" to refer to personal attitudes associated with true or false ideas and concepts."

The Belief of State is Pistis 'trust' and 'confidence' and the Belief of Temple is orthodoxy 'opinion' and 'acceptance'. These two Beliefs have been main rivals for millennia of the past and will be forever. The 3rd Pyramid Game did definitely propagate deceiving 'dispositional beliefs' from State to the vassals of the Temple and Throne, in order to assimilate them to workers and soldiers. How to deal with such in the future, without 4th degree Games of Genocide? That is a question.

In the 3[^]3 psychosocial model 'Belief' is extensions of classic mainstream theology, psychology and psychiatry. The following is taken from the extended summary to the UU Theme 'Charlie' from UU 2015.mars.13.

- (UU 2015.april.10) "The theories of Belief was developed significantly in the UU 2015.mars.13: "The Superior-Devine (S-D) is the most complex by far. The properties of the 3[^]3 (3x3x3) social psychological ego-state 'Belief' is not possible to fully describe. It is like the term 'religion', i.e. 'The First Philosophy', and includes fundamental questions about the beginnings, ends, the universe, life, omniscience, positivity and more. The questions of this magnitude are unanswerable, simply because the human comprehension is limited. Besides, Belief is not about knowing scientific facts at all, but rather a realization that the probability is about 50/50 for a belief to turn out true. (Hope concerns unlikely beliefs with about 10% probability to be proved true.) Consequently, claiming to know whether a divinity exist, or not exist, is just as false, and do not concern Belief at all, but rather Games of Will. Such ulterior Games of false Belief are unfortunately common and can be dramatic, as the Charlie Game in Paris 7/1 and Copenhagen 14/2 indicates."

- “The Belief dimension of the 3x3 model is different from Drive and Will. Freud and Jung called it ‘Superior-Ego’, while Berne called it ‘Parent’. Belief concerns ideas of what we cannot possibly fully understand, yet need to know and trust. Here (in this UU theme ‘Charlie’, the) focus is set on Belief in Supremacies like the S-E. The Superior-ID (S-I/Drive) was included 2 years ago. Now, the Superior-Devine (S-D/Belief), a new and third subcategory, is included to complete the model. However, with this completion of the theoretical part of this Charlie theme, the (previous) 3x3 model has become a 3³ model, i.e. 3x3x3, because of the 3x subcategories in Drive, Will and Belief.”
- The Supremacy dimension is based on Freud’s classical psychological ‘ego-state’ Superior-Ego, - i.e. any overruling of human Will and Drive. It is hereby sub-categorized into S-I (Superior-ID), S-E (Superior-Ego) and S-D (Superior-Devine) in order to suite the 3³ psychosocial model. It does not concern theological or philosophical question of whether long gone ancestors, gods or other divinities exist, - but concerns the belief in, or denial of, such. Psychologically, it is valid since no one can deny the existence and importance of believes, - religious or not. Yet, subcategorizations of Belief cannot be as concrete as for Will or Drive, - like tangible terms does not describe the intangible well. Besides, the values of Good/Use/Right (GUR) and Throne/State/Temple (Th/St/Te) are still relevant and is re-vitalized in this sense.”
- The classic Superior-Ego (S-E) is the least difficult one to describe, since Freudian theories have been formally recognized and practices for a century. S-E has been a recurring subject in several UU themes during the 4 years of blogging, even though not yet realized at the time. Therefor the following texts are mostly translated summaries to illustrate the basis and directions the modelling has taken. First an introduction: “The most obvious reason for the relations between psychology and sociology is that many organizations are highly personified, - with dominating patriarchs and matriarchs. The list of political, religious and royal leaders is convincing. Other organizations, that are not that fixated on persons, have strong collective Superior-Ego expressed in ethics, laws and rituals. The stats-machine is highly logical-rational, while health, welfare and pedagogy is strongly influenced by ID mentality.” (UU 2013.mars.22)
- “If the moral, ethics and philosophies of LifeQuality (UU 2014.sept.05) should be put down to a single sentence, - it could be ‘I’m OK – You’re OK’ (ref Thomas A. Harris). It is about tolerance to OK persons, as well as a recognition of oneself. Consequently, it is also about speaking out and making clear statements to ‘not-OK’ persons, organizations and nations. Next, there should be more awareness about destructive psychosocial Games in order to end them harmlessly (ref ‘Games People Play’ by Eric Berne).” Moreover in UU 2014.sept.05: “A healthy human has a mature balance between these three (Id, Ego, Superior-Ego). Therefor it safe to say that the mental health reflects the personality – whether it is allowed to develop and free to self-realize. However, a suppressed Ego cause unbalance and becomes mental unhealthy, - in worst cases get mental illness and disorders.” (UU 2015.mars.06)
- “In brief, the S-E can be sub-categorized into Matriarch and Patriarch (and Authority), whilst the ID can be sub-categorized into Jerk, Sulk and Nerd.” (UU 2013.mars.08) “Collective terms like mass-psychosis and double-moral (standards) are related to psychological terms like psychosis and schizophrenia. Therefore, it is social vital not to promote unbalance between societies’ Supremacies; Superior-Ego/Authorities, Ego/Organizations and ID/Emocracy. It is alarming that such unbalance from the 20th century’s global wars are not balanced. The Law-giving and Judging State powers seems weak related to the States machine.” (UU 29.Juni.2012)
- “When comparing the Republic (State) with present organizations, the military seems most relevant, - that has a dominating Patriarch-Jerk relation. On the other side is health- and social-care strongly Matriarch-Sulk systems, that consequently grow with the State. (Plato himself represents Nerd-Ego relation.) Together, they form an unsound social-psychological system, because both are interlocked in Parent-Child conditions. The Mama-State and the Papa-State can probably not develop to Adult-Adult relations in a democratic sense. The challenge is to find a third party to help them transform into A-A conditions. The solutions might be to further develop States to democratic nations, including the three regimes; State, Throne and Temple. Categorical and related to theories of ‘Ego-states’, the societies-regimes can be; S-E/Authorities, Ego/Organizations and ID/Emocracies. Furthermore, regimes can also relate to; S-E/Temple, Ego/State and ID/Throne. A sound nation has

a balance of the three, as a person has. Consequently, the humanity as a whole can be considered likewise, which makes the UN role vital. The United Nations is obliged to international conflict management, which means there exists models for international conflict resolutions that can improve collective mental health.” (UU 2013.mars.22)

- The relation of Belief (B) to Will (W) and Drive (D) is described in UU 2014.dec.19 and UU 2014.sept.12 along with the 3x3 model - including UnderConscience (U), Conscience (C), and OverConscience (O). However, the model at the time has not yet included the 3x sub-categorizations, which is now called the 3³ model. “Some keywords and relations to the 3x3 ego-states (Will) are; 7, UB; Intuition, obsessions, rituals, psychosis. 8, CB; Philosophy, religion, politics, ethics. 9, OB; [S-E] Traditions, rituals, superstitions, memes, hypnosis. OverConscience Drive and Will can relate to Belief with: 3, OD; {S-I} Senses, belonging, empathy, dependence, culture, social needs. 6, OW; (P) Sympathy, strategy, moral, visions. Finally, UnderConscience Drive and Will can relate to Belief with: 1, UD; [ID] Life-force, biology, DNA, nerves, sex, gender, feelings, instincts, dreams. 4, UW; (C) Ideas, habits, mania, phobia, autism, diverse personality.” However, the 3³ model has a closer inter-personal relation at the UnderConscience dimension, i.e., S-I/KoC/RF, S-E/GdE/AF and S-D/GoT/WL. Following is some translated summaries of relevant theories of Jung that was a mentee of Freud.”
