- «What Jung called ‘Collective synchronicity’, is more commonly called ‘herd mentality’. Jung gave it a deeper understanding and described it as ‘an independent (social) connection principle’, ‘a meaningful coincident’ and ‘an independent parallelism’. Jung claimed that the principle gave conclusive proof for his concept about archetypes and collective subconscious, because it described the controlling dynamics that substantiated the complete human experiences and history - socially, emotionally, psychologically and spiritually. In relation to Berne, Jung focused on interpersonal communications (Transaction Analysis – TA) that is most relevant to OverConscience. However, the source is at UnderConscience and Conscience levels. It includes communications directly from Drive and Belief by body-language and rituals.” (UU 2014.aug.22)
- “Concerning the 3x3 Superior-ID (S-I): Previously mentioned hypothesis of a Superior-ID, in addition to Freud’s Superior-Ego, seems strongly founded by Jung’s hypothesis about collective synchronizations and archetypes. Ideas of a Superior ID (S-I) was talked through in UU 2014.jan.10.” “In that relation, it seems rather clear that the previous century has been particularly controlled by collective unconscious ‘people’s movements’. It seems that the unpublished books (at that time) about the phenomena, was studied thoroughly after all somewhere. The most obvious ‘peoples movements’ seducing ‘isms’ were based on Marx socialist ideology (CD/OB) and Gurdjieff occult theology (OD/UB) (UU 2013.april.12). Jung and Berne’s theories are thereby well related to the extension of ID to Drive with the levels UD and OD.” (UU 2014.aug.22)
- “Jung was more concerned about ID (3x3 Drive) and Superior-Ego (Belief) than Freud. Jung developed 4 theoretical main areas: (1) The concept for introvert and extravert personalities that became the fundament for MBTI. (2) The complex UnderConscience core pattern of emotions, memories, perceptions and wishes. (3) The concept of the collective UnderConscience that is shared by all humans and includes archetypes. (4) Synchronicity for interpersonal relations at UnderConscience level. Jung seems to take the term psychology more serious than Freud did since it means something like ‘the logic about souls’. Jung became convinced that life has a spiritual purpose beyond material goals. Consequently, Jung influenced subjects like psychology, physiology, theology, philosophy, archeology and anthropology. He was an excellent writer, but many of his works were published after his death.” (UU 2014.aug.15)
- “It is quite possible to relate Jung’s theories to the upgraded 3x3 ego-state model (UU 2014.aug.08). Jung’s main areas can relate to 3x3 like; (1) introvert (CW), extravert (OW); (2) complex patterns (CD); archetypes (UD) and (4) synchronicity (OD). Jung’s theories about spirituality/psyche relates to the 3x3 level Belief where; spirituality/psyche – UB, religious conscience – CB and spiritual collective expressions – OB. The 3x3 model relates also well with Jung’s theories about UnderConscience (UD, UW and UB), in addition to collectivity and synchronicity (OD, OW and OB). However, individual conscience relates more to Freud by (CD, CW and CB).” (UU 2014.aug.15)

- “The S-I/S-E/S-D related Drive subcategories RainForest (RF), AnimalFarm (AF) and WildLife (WL) were talked through in UU 2015.feb.27. The inspiration to describe the nature of human ID is based on nature itself. (The subcategories were at the time called Game categories.)”
- “Belief in itself do not includes Games at all. However, there are Game categories of Belief played by Will, like there are classic Game categories of sexual (Id), social, and underworld of 3rd degree. Still, the deceiving ulterior and secret moves and goals in Games do most certainly include claims of Belief properties like wisdom, divinity and heritage. Yet, always keep in mind that there are ‘positive Games’ as well as ‘negative Games’. There are probably more Games related to Belief that suites the value-systems of GUR (Good/Use/Right) than BAW (Bad/Abuse/Wrong), - like the Christian and platonic virtues; belief, hope, love, wisdom, courage, moderation and justice. Why believe so? One way to see this is that most expressions in poetry and songs are emotionally good rather than bad, - most expressions of folk tales have rather useful moral than abusive, - and most religious mythologies do rather express philosophical righteous ethics than wrongful ones. At least – expressions of negative BAW Believes are to indicate directions, boundaries and goals. See what happens if you do the negative. Finally, impressions of beliefs might be adapted as intuitions of Belief and function like instincts of Drive.”
- “WoW (Well of Wisdom) is CB (Conscience Belief) subcategory and related to CW. The futile Game of striving for ‘all knowledge’ is doomed to fail, though. “The new Game category for Belief is WoW that relates to several archetypical myths. The mythological origin of WoW does not exclude Drive or Will. Quite on the contrary. As Jung explained, humans have collective archetypes that occasionally are expressed at UnderConscience level as symbols, dreams, ‘feelings’ etc. Such are often expressed collectively and synchronized via OverConscience in acts, art, science and myths. The most famous WoW Game is played out in the myth of the Garden of Eden. Atheists as well as theists should recognize these archetypical expressions as a vital collective Belief for Humanity. Basically, it is about humans’ LifeQuality, the freedom of Will and the strive for Wisdom. Furthermore, the Tree often symbolize age/continuity, generations, branches and gates between worlds. Yet, it was wrong of the prophet Moses to blame the prophet Adam’s woman for ‘the first sin’, deception and misery. Actually, since Moses’ existence is disputed and Adam is probable just mythical, the myth does most certainly not stem from God. Such unjust prejudice is BAW (Bad/Abuse/Wrong).” Anyways, similar WoW Games exist in most religious myths including the Egyptian, pre-Islamic, Greek, Roman, Norse mythologies and are simply adapted into the monotheistic mythologies as well.” (UU 2015.feb.20).
- “SET (Supreme Extra Terrestrial) is a CB (Conscience Belief) sub-category of Belief that relates to S-D (Superior-Devine). It is unique in the sense that it is ‘Superior’ to the classic ‘Superior-Ego’. This is where beliefs in extra-human divinities belongs, like God/Allah, gods, angels, jinns, and any intelligent divinities from any religion or myths. No living human, not even theocrats are of S-D. Merely beings transcended to a divine state belongs to this category of S-D. What and where that might be, is an eternal philosophical question for the living. Some mythological names are Heaven, Hell, Xanadu, Asgard, and utopia. However, no Temple, relic or symbol is of such properties and cannot ever be. GoT was mentioned in UU 2015.mars.06 to indicate the Will, not Belief, related social Game category ‘Games of Temples’. “GoT has its origin in Freud/Jung’s terms Superior-Ego, - as far as human logic applies. In fact, GoT is not about divinities, but logical believes in society’s superior powers. Even atheists play GoT of GUR/BAW value systems. OverConscience communications are essential for such socializations. In the beginning, there might have been value-systems of Constructive and Destructive (Use and Abuse) and even Good and Bad.”
- “UNO (Universal Natural Order) is a UB (UnderConscience Belief) sub-category of Drive that relates to S-I (Superior-ID). UNO is related to the subcategory UD/RF (RainForest) in the sense that both concerns the unknown realities of humans, nature and the universe. It is intriguing knowing that we spend 1/3 of our life sleeping, not conscience of what our brain works with all that time - but it does and it is important. However, even though RF represent all the unknown of Drive, that we might believe something about, the UNO embraces all the rest of the unknown Universe. This is by far the largest subcategory of all, when knowing there are over 10 million lifeforms on earth and believing there are millions of worlds with life in the universe. There seems to be no limits, since

scientists now philosophizes about multiverse and the cluster of galaxies and dark matter called Laniakea.”

This theoretical summary of the 3rd psychosocial model provides a background for the following talk through of Belief in the 5 Pyramid Games.

The Gimmicks of the Pyramid Games are not based on Belief, - but psychosocial deceptions of Games to acquire unrightfully Gain of pray actors. The 1st Pyramid Game was based on the Game categories of KoC and GoT, play by S-E towards S-I of the game categories RF, WL and AF. It shaped the delusions for the subsequent 2nd Pyramid that failed. That caused cascades of collapses in the European Thrones, the European confederations and triggered the WW1. The extraordinary 3rd Pyramid Game was the rice of States as superior-powers over Throne and Temple. The 4th Pyramid Game was played with the total State supremacy with massive Games of CCD and CdE and Genocides. The Gains and Gimmicks of this 5th Pyramid Game can be unclocked by focusing on some of the Patriarchs, Matriarchs and Authorities of the first Pyramid Games. The intro blog UU 2016.Mai.20 focus on that.

- “The 1st Pyramid Game relates mainly to events around 1863. There was a total regime-shift at the Dane Throne of Coup d’ Etat proportions. It happened exactly half a century after the Norwegian constitution (1814). The next year, 1864, Danes went to war on Germany with a certain massacre of their own (previous) ‘kings men’. UK prevented another ‘Napoleon War’ simply by refusing to join the fight. Simultaneously, an UK oligarch initiated the first International, - a vassal-like bondage of workers in order to start national civil wars called ‘class-fights’. These fatal events were interrelated to previous events and future plans. However, that anti-European war-Games failed and the European confederation continued for another 50 years. Still, the 1st Pyramid made a foundation to far worse Pyramids to come.”
- (UU 2016.mai.27) (UU 2015.aug.28) “To put it brief, there was a fierce rivalry between the widowed tsarina Maria/Dagmar (of Denmark) and her German tsarina in law Alexandra. This Game of the Throne was exploited by the Moscow State in a CdE, with help from the occult agent Rasputin. The whole world were eventually dragged into the war-Games, more commonly known as ww1, ww2 and ww3 (Coldwar). Russian secret services, historically known as the Oprichnina, last known as KGB and FSB, have most certainly been involved. No doubt that the tsarina was involved in imperial home-affair and most influential to imperial secret services. The serious claims that the young tsarina Alexandra was a German spy, not truly Russian orthodox and sexual unfaithful, were probably main reason for arresting the family and finally executing them. This, and related themes, are comprehensive and not very relevant for this issue. However, the psychosocial talk-through of Norden over a 500 years period starts with UU 2013.Mai.24, continues with UU 2014.mai.02 and continues as a theme from UU 2014.nov.07 to UU 2014.dec.05. Moreover, the psychosocial theory of Superior-Ego and Superior-ID is explained in UU 2014.jan.10 and UU 2015.mars.13. Still, it should not be surprising any more that Denmark has been in bondage by Russia since the collapse of the Nordic Union 500 years ago.”
- (UU 2014.mai.30) “Dagmar’s last meeting with Rasputin’ is an association to this UU. The song title ‘Messiah Ward’ hints to mental institutions. In other words, this is a different point of view on 1914, EWW1 and that century. With all the hinter sight in this century, it is easier to see the Moves, the Players and the Motives, in addition to see who really won and lost. The plot should be discovered after a hundred years, namely to convert Roma3 from Throne/Temple in St. Petersburg to State in Moscow.” “The rivalries of the past century is previously investigated in UU, especially in the Theme ‘LifeQuality and Empires’. Now, as the theme has reached 1914, it is built on the previous writings and with a different point of view. It certainly goes very wrong if one tries to explain insanity only with sanity. The two are not correlated and should not ever be presented as such. Unfortunately, exactly that happened after the unpredictable ‘Big Bang’ in 1908.”
- The 2nd Pyramid showed the relation to ancient occult mythology that influenced the fatal outcomes of ww1. Occult Beliefs were certainly abused in the 3rd Pyramid Game as well. “With theocratic consideration, a motivation for the EW can be occult interpretations of the Tunguska event in 1908. (UU 2016.mai.27). The formalized temples in Europe was protected against occult theocracies and protected the European empires and churches. However, with EW1 the whole system of Throne/Temples fell and opened up for figures like Rasputin, Gurdjieff and Hitler. The

apocalyptic 'John's Book of Revelation' laid Europe wide open for occult scripts like those that Nostradamus prophesies. 'The Revelation' tells about four doomsday horsemen and Nostradamus wrote about the doomsday dictator 'Hister'. The scripts are absolutely no divine prophesies, but rather scripts for psychotic sociopaths determined to cause civilizations' 'worst case scenarios'. The occult fundament lies in the old-Egyptian Osiris worship, where death and resurgence follows the cycles of the Sun. The great cycles are 2150 years at an average. They are called Age (Era) and follows the Sun's passage through the 12 zodiac constellations. Moses represented the Arian (goat), Jesus the Pisces (fishes) and occultists awaits the next, the Aquarius (water bearer). Aquarius' profile represents group-conscience, entertainment, self-expressions and dictatorship. The mini- mustache on Hitler might be inspired by the popular Chaplin and the movie 'The Dictator'. It should be problematic for the occultists that the Tunguska event happened 250 before the new age should enter. (UU 2013.juni.28 & UU 2012.dec.21.) Evidently, the occultists did not care about that."

- (Extra UU2 2016.juli.01) "In 1908 (the same year as the Tunguska explosion), Hermann Minkowski presented a paper consolidating the role of time as the fourth dimension of spacetime, the basis for Einstein's theories of special and general relativity. But the geometry of spacetime, being non-Euclidean, is profoundly different from that popularised by Hinton. The study of Minkowski space required new mathematics quite different from that of four-dimensional Euclidean space, and so developed along quite different lines. This separation was less clear in the popular imagination, with works of fiction and philosophy blurring the distinction."
- (UU 2016.juli.01) "The theories of 4 dimensional Space is hard to grasp, since it is invisible, controversial and hardly detectible - still. However, recent detections of gravity waves in Space do legitimate the theories. The Extra UU2 provide some scientific explanation about the 4th Space dimension – hyper-space." More about the true 4th Space Dimension and Hyper-Democracy in the next and final UU in this Theme 'The 5th Pyramid'.

The rise and failure of occult mass-psychosis after the 1st Pyramid, was the main reason for the global insanity of the 20th century. It was triggered by the unexpected and unexplainable Tunguska event in 1908. The introduction of a 4th space dimension opened up for occult Belief in para-beings from alternative 'worlds'. Anyways, major established Belief systems collapsed in the 'Western' world.

There should be no doubt, Royal girls and boys were played in Games of 4th degree by the rivaling State and Temple. Possibly, the youngsters were abused like some 'lab rats' in castle cages like the 'Winter Palace'. Situations might very well have been scripted and responses registered, in order to plan and cause future cascades of CCD, - ending up in some Global 'Dagmar Effect' (UU 2013.mai.17). The faith of Queen Maud of Norway indicates the upcoming Games. She probably had insight knowledge of the Games schemes when she went back to London. She was not accused for any crime, but seems to be killed, covered up as some surgery accident. That even probably turned on alarms in Norway for the up-coming CdE and invasion. (Ref Wikipedia)

- "Maud of Wales was Queen of Norway as spouse of King Haakon VII. She was the youngest daughter of the British king Edward VII and Alexandra of Denmark (sister of tsarina Dagmar). She was the first queen of Norway since 1380 who was not also queen of Denmark or Sweden." "In June 1905 the Norwegian parliament, the Storting, dissolved Norway's 91-year-old union with Sweden and voted to offer the throne to Prince Carl. Maud's membership of the British royal house had some part in why Carl was chosen. Following a plebiscite (referendum) Prince Carl accepted the Norwegian throne, taking the name of Haakon VII, while his young son took the name of Olav. King Haakon VII and Queen Maud were crowned at Nidaros Cathedral in Trondheim in 1906, that being the last coronation in Scandinavia."
- "Maud came to England for a visit in 1938. Initially she stayed at Sandringham, but then moved into a hotel in London's West End. She became ill and was taken to a nursing home, where an abdominal operation was performed. King Haakon immediately travelled from Norway to her bedside. Although she survived the surgery, Maud died unexpectedly of heart failure at Appleton House on 20 November 1938, six days before her 69th birthday (and on the 13th anniversary of her mother's death). Her body was returned to Norway. At her death, Queen Maud was the last surviving child of King Edward VII and Queen Alexandra."

Queen Maud is probably one of the greatest heroes for Norway. As a prey for the 3rd Pyramid Game, her alarm warned the throne, exposed the treasonous government and caused the stalinazist invasion fleet to be sunk. However, the following Coldwar history books, folkshool assimilation and propaganda mass media has covered it all up thoroughly. Such silenced 5D heroes does the difference between irreversible catastrophes and fixable disasters.

Matriarchs and Patriarchs, like Kings and Queens, should be enabled to let the next capable generation take over - peacefully. This was concluded in UU 2016.aug.12 concerning the UK Throne and Brexit.

- “The UK Queen is Head of State of the UK and 15 other Commonwealth realms. She is Britain's longest-reigning monarch at an age of 90 years. All respect for the deeds that has kept UK out of the European wars. However, personal aging and total conservatism seems not to handle the new realities of UK in this century well. Brexit proves that UKQ felt that their Asian affairs were more important than their European relations were. That is very wrong; seem from UK, EU, US and Pax Britannia. It does however please PROSA Separatists like PPP (Puppet President Putin). If so, the Game players do violate British laws of high Treason. In UK, the Penalty law protects the Throne against those who "compass, imagine, invent, devise, or intend ... to deprive the sovereign of the Crown ... to levy war against the sovereign ... by force or constraint to compel her to change her measures or counsels, or in order to put any force or constraint upon or in order to threaten or scare Parliament, .. to move or stir any foreigner to invade.” (UU 2016.juli.08) UK authorities are obliged to investigate PROSA Brexit Game players for possibly high treason towards the UK Crown.”
- “The UK Queen appears to be a major PROSA Separatist of Europe now, - unwillingly - by force and constraints to change her measures or counsels. It is not unfixable though, - yet unlikely, since it requires to realize that this century’s challenges for UK cannot be resolved by a past century’s Queen. UKQ can never reveal her Games, admit her faults or ask for help. However, the situation of this 5th Pyramid Game can very well compare to the eve of the 1st, 2nd, 3rd and 4th Pyramid Games. In this situation, - it is wise to step aside and let the next generation rule the UK Throne.”

A reminder from UU 2016.sept.02 that the true DNA line for royal heritage might have been altered in Games toward the Thrones. “Contrariwise, it is highly unlikely that The Masspsychopathy’ speared Tsarina Maria (alias Dagmar of Denmark) while executing all her royal emperor family and related. It is more likely that she was executed too, - and that one of Dagmar’s ‘doubles’ was put in her position as a remote controlled imposter. If so, this might have been discovered by DNA testing in the royal crypt in Denmark some years ago. Anyways, the body was surprisingly returned to Russia for a second and discrete funeral.” Wikipedia writes about royalty and abdication.

- “A royal family is the immediate family of a king or queen regnant, and sometimes his or her extended family. The term imperial family appropriately describes the family of an emperor or empress, and the term papal family describes the family of a pope, while the terms comital family, ducal family, grand ducal family, or princely family are more appropriate to describe the relatives of a reigning count, duke, grand duke, or prince.” “A monarch is the sovereign head of state in a monarchy. A monarch may exercise the highest authority and power in the state, or others may wield that power on behalf of the monarch. Typically a monarch either personally inherits the lawful right to exercise the state's sovereign rights (often referred to as the throne or the crown) or is selected by an established process from a family or cohort eligible to provide the nation's monarch. Alternatively, an individual may become monarch by conquest, acclamation or a combination of means. A monarch usually reigns for life or until abdication.” “If a young child is crowned the monarch, a Regent is often appointed to govern until the monarch reaches the requisite adult age to rule. Monarchs' actual powers vary from one monarchy to another and in different eras; on one extreme, they may be autocrats (absolute monarchy) wielding genuine sovereignty; on the other they may be ceremonial heads of state who exercise little or no power or only reserve powers, with actual authority vested in a parliament or other body (constitutional monarchy).”
- “The word abdication meaning to disown or renounce and resigning from any formal office, but it is applied especially to the supreme office of state. An elected or appointed official is said to resign rather than to abdicate.” “In certain cultures it is seen as a profound and shocking abandonment of

royal duty, and only occurred in the most extreme circumstances of political turmoil or violence. In the United Kingdom and the Commonwealth realms it is still seen in a particularly grave light, due to the abdication crisis of Edward VIII." "Hussein ibn Ali al-Hashimi, Sharif of Mecca abdicated the Kingdom of Hejaz in October 1924." "In recent decades, the monarchs or leaders of the Netherlands, Belgium, Luxembourg, the Vatican City state, Qatar, Cambodia, and Bhutan have abdicated as a result of old age. In the Netherlands, the last three monarchs Wilhelmina, Juliana, and Beatrix have all abdicated. In all three instances, this was done to pass the throne to the heir sooner." "In June 2014, King Juan Carlos of Spain announced his intent to abdicate in favor of his son, Felipe. Felipe took the throne as King Felipe VI in 2014."

With the present DNA technology and preservation of royal DNA in crypts, - it is relatively easy to quality ensure with facts the historical DNA line from the original to present royalties. Per definition, there were probably several 'Sexual Games' in the Thrones'. The heritage is important to quality assure, because most Constitutions depend on true inherited royalty. With all respect and sympathy, such words must be hard to comprehend for orthodox royalists, - however hopefully not so for the modern royalists of this century. It should be realized by all, though, that innovative and adaptive renewals are vital for a sound continuum for Thrones and Temples as well as States.

The Superior State power need to realize that their dominance is an unsound unbalance in the Parliamentary system. Their priority this century should be reduce their own Drive for power in order create sound balance of LEJD Parliamentary powers (Legal, Executive, Judicial & Democratic parliamentary powers). "Collective terms like mass-psychosis and double-moral (standards) are related to psychological terms like psychosis and schizophrenia." (UU 29.Juni.2012) Merely PROSA agents of the 3rd Pyramid Game want such unbalance in order to cause CCD and CdE, - and as obligated by the treasonous 21 Conditions of the 3rd International. The Democratic Parliaments of European nations need to realize they are obligation to the national Constitution and Rule by Law, - not the 21 Conditions of a potential invasion force. No single nation can resist such international organized crimes. The only solution for European nations is to cooperate in organizations like Europol, Eurojust and Cepol. In Denmark and Norway, the international criminal organizations have won the first round of the Game DAC (Divide & Conquer). Denmark and Norway, with the rest of the 'Western World' need to win the second round UAC (Unite & Conquer).

The Belief of Temples are in even more turbulent changes than the Thrones and States were in the previous centuries. No theocrat can hinder the all-changing destiny that every Age, Era and Testament has an 'expiring date'. The transition to a new Age/Era is at its dawn and will escalate throughout this century. It is based on a simple Egyptian astronomical illusion and is not different from what the Mayan 2012 showed out to be. Still, the Mayan theocracy was eliminated 1000 years ago and had no propaganda power in 2012. On the other hand, there were epic rivalries last Era/Age shift when Rome1 tried to unite with Egypt around year zero. The conflicts did not end, but escalated and climaxed after 1908 with the Tunguska event and the new theory of a 4th Space Dimension. Anyways, such worries are not concerning true Believers of the first philosophy, but all the occult diluted theocrats of the 2nd and 5th Pyramid Game. Such forces can very well be tamed, if uncloaked and healed in time. Such themes are talked through in particular in the UU Theme Charlie from UU 2015.jan.09 to UU 2015.april.10 and UU 2015.okt.09, - and this year's Easter mini-theme, UU 2016.mars.18 to UU 2016.april.01.

Talking heads was the only band to play at the theme, 'Det er noe galt i Norge - også'. (UU 08.juli.2011 to UU 19.aug.2011) It was based on a mini TV-series about 6 main political faults in Denmark. In the UU Theme – similar faults were related Norway. The Theme became a follow-up to UU 01.juli.2011 about the drug crimes towards the Stoltenberg family. Talking Heads and David Byrne also appears in UU 2013.aug.30, UU 2013.nov.29, UU 2014.april.11, UU 2015.feb.27 and UU 2015.nov.27.

The title 'Stop Making Sense', is the title of their final concert, expressing the logic throughout the whole concert. The nerdy and autistic character David Byrne has apparently ended up at a wrong place. It is an expression of complete normal insanity, for 'Making Sense' is the essence for the scenery and the music. There are advanced music and lyrics entertained with small acts of wrong things at the wrong places. Even

serious lyrics becomes funny. 'Burning Down the House', for example, hints to his name and the logical humor, like turning around '365 degrees'. That DVD should be experienced uninterrupted on a high quality multimedia, like PC with earphones. It is simply worth its low cost of 10 € and much more, although available free at the internet.

The song 'Mind' is excluded from the concert, - although a recording exists. The association is the diluted minds of Game Players of Mass Psychosis.

'Pyramid Game Over' provides 12 proposals to promote 'Western' Parliamentary Qualities. The 'P5GO10 – PROSA Technocracy', aims at the organized crimes towards the Western nations by abuse of Information Technologies (IT). PROSA Technocracy is this 5th Pyramid successor of the Cold War Bureaucracy. The present global mass-deployment of IT do cause irreversible global changes for humanity. The 5th Pyramid Game might cause irreversible damages. To discuss that, this blog will address the second dimension 'Will' of the 3rd psychosocial model, - in relation to such PROSA crimes in 'Western' nations. Initially, there is a theoretical introduction, then some points of view, and finally some suggestions. In brief, this is a continuum and the next level of all the previous blogs concerning IT. Moreover, these final triad of blogs is also about the potential healing a 500 years old Nordic Syndrome.

The sociopathy of the 5th Pyramid Game aims to cause dystopias, like the previous 4 Pyramid Games caused CCD (Colony Collapse Disorders) and World Wars. Therefore, it is important that 'Western' Parliamentary Democracies strengthen their superiority over technocracy. In order to enlighten the issues, this main focus is set on the criminal '21 Conditions of the 3rd Integrational'. This will show that the previous failed CdE (Coup d' Etat) -attempts are main reasons for present abuses of Information Technocracy in the Parliamentary System. All related organizations suffer from the corruption in economy, politics and legality, - as talked through in blogs like UU 2015.juni.05, UU 2015.juni.26, UU 2014.okt.17, UU 2013.nov.01 and UU 2013.sept.27.

The technocracy of this century represents the same counterpart in the democratic bourgeois citizens' struggle for self-realization. However, most philosophers agree that such powers should support the citizens against bondage and misery, although it sometimes turned out differently. Now, technocracy is a recognized term, yet still considered hypothetical as a political power. It must relate to other terms like bureaucracy, cyber and statesman. Taken from Wikipedia:

- "Bureaucracy is 'a body of non-elective government officials' or 'policy-making group'. Max Weber argued that bureaucracy constitutes the most efficient and rational way in which one can organize human activity were necessary to maintain order, maximize efficiency and eliminate favoritism. Still he also saw it as a threat to individual freedom with its rule-based and rational control. The word bureaucracy has developed negative, though, since growing too complex, inefficient and inflexible. The elimination of unnecessary bureaucracy has become a key concept in post-cold war managerial theory."
- "Technocracy is an organizational structure or system of governance where decision-makers are selected based on technological knowledge that are members of a powerful technical elites or a supremacy of technical experts. The role of money, economic values, and moralistic control mechanisms would be eliminated altogether". The selections of technocrats or bureaucrats are not democratic. Yet, a true technocrat cannot be influenced by party politics or other interest groups.
- "Cyber- is a term derived from the ancient Greek 'cybernetic,' meaning skilled in steering or governing. It is used in the terms like cyberspace, cyberlaw, cybercrime, cyberwarfare, cyberterrorism, cybersex, and cyberbullying. it is commonly used to describe policies and politics regarding computer systems and networks and many information technology industries."
- "The Statesman, Politicus, is a Socratic dialogue written by Plato. It is an attempt to make a definition of the 'statesman' as opposed to 'sophist or 'philosopher'. The statesman possesses the knowledge of how to rule justly and well and do so in the best interests of the citizens. However, most rulers give the appearance of such knowledge and are really sophists or imitators. The ideal of how one arrives at this knowledge of power is through social divisions."

All the philosophies of constitutional ruling are based on positive philosophies of GCR (Good, Constructive and Right) as opposed to negative philosophies of BDW (Bad, Destructive and Wrong). Yet, some prioritize one value-system over the others. Even Plato's personal trauma after a corrupted democratic referendum for execution of a colleague, did certainly set his focus in disfavor of democracy. Anyways, psychosocial

Games like the 5 Pyramid Game are definitely negative. Consequently, no true statesman, technocrat or bureaucrat can be submitted to political, Parties, Unions and Games.

Any 3rd Pyramid Gamer has disqualified themselves as true statesmen, bureaucrats or technocrats. They are rather sophists or imitators, - and even the negative counterparts. To document that, a summary of the Gimmicks of the 3rd Pyramid Game follows: "The Communist International, refer to the conditions, most of which were suggested by Vladimir Lenin, to the adhesion of the socialist parties to the Third International (Comintern) created in 1919. The conditions were formally adopted by the Second Congress of the Comintern in 1920. Some of the 21 Conditions were:"

- C1. "The dictatorship of the proletariat must not be treated simply as a current formula learnt off by heart. Propaganda for it must be carried out in such a way that its necessity is comprehensible to every simple worker, every woman worker, every soldier and peasant from the facts of their daily lives, which must be observed systematically by our press and used day by day." "The periodical and other press and all the party's publishing institutions must be subordinated to the party leadership, regardless of whether, at any given moment, the party as a whole is legal or illegal. The publishing houses must not be allowed to abuse their independence and pursue policies that do not entirely correspond to the policies of the party." "In the columns of the press, at public meetings, in the trades unions, in the co-operatives – wherever the members of the Communist International can gain admittance – it is necessary to brand not only the bourgeoisie but also its helpers, the reformists of every shade, systematically and pitilessly."
- C2. "Every organisation that wishes to affiliate to the Communist International must regularly and methodically remove reformists and centrists from every responsible post in the labour movement (party organisations, editorial boards, trades unions, parliamentary factions, co-operatives, local government) and replace them with tested communists, without worrying unduly about the fact that, particularly at first, ordinary workers from the masses will be replacing 'experienced' opportunists."
- C3. "In almost every country in Europe and America the class struggle is entering the phase of civil war. Under such conditions the communists can place no trust in bourgeois legality. They have the obligation of setting up a parallel organisational apparatus which, at the decisive moment, can assist the party to do its duty to the revolution. In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity."
- C18. "All the leading press organs of the parties in every country have the duty of printing all the important official documents of the Executive Committee of the Communist International."

There should no doubt left, that the Main Motive of the 3rd Pyramid Game was to organize CCD (Colony Collapse Disorder) on the "'Western' nations in order make hostile CdE (Coup d' Etat). With the Gulag colonialization program, workers were radicalized by 'Red Mafia' methods - in order to make bureaucratic schizophrenia with 'parallel apparatus' within the prey nations. International masspsychosis were propagated by national mass-media, like TV, papers, radio, tele companies and cultural events. Such were subsidized by the nations' own budgets and favored PROSA Oligarchs by regulations. All this is illegal and even treasonous by penalty laws, - executed by remote controlled Labour parties and Unions – like some avatars.

During the 5 Pyramid Games, the Information Technology (IT) has developed from 1) Pen, 2) Telegraph, 3) Telephone, 4) Television to 5) Computers. All these new technologies caused industrial revolutions that were abused by the para-Technocracy at their times, - inspired by concepts of parasite organizations. Therefore, some bits from previous blogs are relevant hints for the present and future Technocratic Games.

- (UU 2013.dec.13) «Originally, IBM's predecessor, CTR (Tabulating Machine Company) by and Hollerith, had relation to Russia and Tsar Nicolas II before WW1, as well as Stalina Automobile Plant and Germany before WW2. It is publically silenced that CTR/IBM was an active and important actor for both Soviet Union (SU) and Germany before WW2. IBM might also have got 'grandiose besserwisied' inspirations, re-valuations of ethics, 'half truths', imperial 'take-it-all-politics' and disfavours of democracy. However, Watson sr. and jr. are the patriarchs of IBM's with democratic tendencies. They represented the motto 'Think'. However, IBM became involved with the US

government and military during the cold war. That was probably controversial in relation to Russia. Stalin's close relation to Mao was further challenged with IBM's engagement in the Korean war. An internal cold war inside IBM might have developed by those strong external influences." The organizational Ego was about to split.

- "IBM bought massively IT patent rights after WW2 and got monopoly on most existing IT. They combined it to the total 360 system. IBM was convinced that the world needs merely 5 computer systems. The perception was probably that each empire only need one system each, - where IBM is central for them all. However, when the PC got considerable market shares, Watson Jr. was allowed to make an IBM Personal Computer (PC). They needed to outsource the development, though. Microsoft made the disk operating system (DOS) and Intel made the central processor unit (CPU). Later in the process, IBM terminated the cooperation, when they finally realized that they could not own others' Intellectual Properties in the OS or the CPU firmware. IBM's attempts to make similar products has caused cascades of fiascos, like the OS2, a world record of deficit on 5 Mrd\$, the Linux cloning and the sale of the whole Think technology to the Maoist empire."
- "The original patriarchal image of Watson is hardly the present organizational identity. Other dominating IBM forces fought hard against Intel and Microsoft, - and consequently Watson's democratic sympathies. Like IBM tries to influence the empires of the world, - the empires probably influence IBM's identity and split the enterprise's 'Personality'. However, the most fundamental property lies in IBM's name, an 'International Business Machine'. Other values are irrelevant, - like moral, ethics, justice, - when threatens its profit. Such higher ethical values are considered non-existing, if they don't comply with the calculator – the business machine."
- (UU 2013.okt.11) "How Norsk Data (ND) suddenly disappeared from the industry in the 90's is discreetly mentioned in UU 2013.okt.11. The discreetly is hereby annulled. The Game's Motive was clear; ND was sacrificed to give the market shares to IBM in the Norwegian public sector. I know this very well, since I was a key-person in Teledirektoratet's mercantile negotiations team for UNIX frame contracts. ND's new generation computers, Dolphin, had true UNIX technology that should guarantee a success domestically and abroad. IBM's OS version called AIX disqualified, because it was not as open as UNIX requires. Surprisingly, the mercantile and technically evaluations were overruled politically. ND was blocked out from Teledirektoratet without getting the vital 5 years frame-contract. The arguments were highly irrelevant and illegal. That TOL/TLM Game made a trend for the whole public sector and was the main reason for termination of ND." "The termination of ND is merely a symptom on para-activities in the Markets. LO has seats on most sides of negotiation tables for public procurements. The anti-European Market practice continues, even after ratification of 'Law for Public Procurement' in 1999."
- (UU 2015.nov.06) "Most alarming is the recent take-over of all IBM Intel Server in all NATO nations public and private sectors. (See UU 2014.nov.28.) Big Blue made Big Red by handing over the needed resources, network, servers and technology to execute considerable IT hacking, espionage, and info/money manipulations." NATO nations' public sectors do not seem to realize that most of their main IT systems are now legally in Chinese control too." Dane public IT shows serious indications that the social Superior Egos is on a destructive paths that might become irreversible. The whole LEJ might be involved." (UU 2014.dec.12)
- "It is most crucial to realize the sociopathic warlike 4th degree Games going on in the national IT & Tele enterprises, public ones as well as commercial ones. There are also evidently indications that Nor Tele sector is as abused as the Dane IT sector. Despite serious warnings from NATO allied, Telenor has let the Chinese anti-NATO Huawei massive installations of G4 mobile network. The equipment has all capacities for illegal monitoring, manipulation and other foreign secret services. When established, a concerned newspaper hired an independent security company that registered most serious unregistered monitoring of mobile communications in governmental, financial and industrial centers in the capital Oslo. The head of PST (Norwegian secret service, like Dane PET) denied any illegal activity and closed the case in 6 months. However, now the government has allocated 12 million Kr to fight illegal mobile monitoring. Now, a major corruption case causes major political scandals. The Telenor related company Vimpelton has been involved in heavy corruption in Uzbekistan for years. Nor Telenor and Dane TDC are apparently competitors in Denmark, but very close in reality. (See related links below.) This close relation TDC/Telenor relations to anti-NATO actors concerns America as well as

European nations, - just like the Moscow thesis does. Unsound psychosocial neuro-systems, like some S-E/S-I relations, might be on destructive paths that might become irreversible.”

Major Technocratic organizations in all ‘Western’ nations are definitely main targets for ‘setting up a parallel organizational apparatus’ (C3). There is no doubt that major national and international providers of IT, Tele and Media are infiltrated and manipulated, - like some data- virus and parasite infections. Enterprises’ deviating behaviors, from the ‘Western’ democratic morals, ethics and laws, do most certainly indicate such infiltrations. Just like T. Gondii is a natural reason for persons’ disorders, - organizational parasites most certainly do to. Society must deal with and cure both professionally.

Technocratic International IT Crimes escalates and are becoming too big for Western nations to handle individually. However, technically, such crimes are very easy to reduce to acceptable and legal levels. These issues has been addressed in several blogs, like:

- (UU 2013.okt.25) “IT crimes is a vast field that the 15 video-documentations in the Computer World - article provide some overview and insight to. Some circumstances are that; the search for hackers is too often outside the ‘firewall’, while it is often ‘an inside job’. In fact, ordinary IT supporters get full ‘administrator rights’ to the whole IT system, - and thereby get collective anonymous ‘administrators rights’ that includes full rights to read, change and delete any information in the whole IT system and any user’s data-files. However, upgrading the IT system to newer versions limits these rights to what is necessary for the ‘administrator’. Such restrictions can be the real reason for internal resistances towards modernizing of public IT – there are para-organizations within the enterprise. Furthermore, any citizen (in Denmark) has a public IT ID. However, the security by Java/Oracle is too often compromised that the security level for the citizens has become hazardous. It is symptomatic for such policies though, that the bank ID cards and CPR ID cards are without pictures and thereby not identifiable. All in all, as mentioned 20 years ago, it is alarming that the (Norwegian) Public department for economic crimes do not have a division for the public sector, - like public servants are some ‘untouchables’ to the Penalty Laws.”
- (UU 2014.mars.28) “Now, it is crucial that the NATO nations takes control over their own IT infrastructures. The timing have never been more critical and binding for the future. NATO considers now the threats of IT crimes larger than any other threats, - even larger than nuclear war. Some security methods are well known and should be deployed long ago, - like; an obligated use of advanced password procedures; using secure websites with https instead of merely http, controlled firewall rules; deployment and updates of antivirus and anti-spyware software; security clearance of IT personnel; limited IT ‘administrator’ rights and personally identifiable administrator acts.”
- (UU 2015.nov.06) “Sweden exposed a most alarming manipulating GdE Game that probably had been going on for decades in the Dane society’s ‘neuro-system’. Dane crises in the Executive power shows different indications. This was mentioned in UU 2014.nov.28: “The massive cybercrimes against the Police, Military, Tax-authorities Public health in CSC Denmark and IBM mainframes were executed by disloyal employees, remote computers in Pirate Bay and controlled from Asia. The delays in police investigation indicate massive organized crimes that also include employees in the Danish police force. Therefore, it is simply beyond any nativity to claim that this major operation was organized by two young sociopaths.” “Most alarming is the extensive use of the hackers’ favorite operating system - Linux. Anyhow, the ongoing trial in Denmark is most probably just the tip of an iceberg in all of the public sectors in all NATO nations.” (UU 2015.okt.23)
- (UU 2014.nov.28) “However, there were far more serious long term massive aftermaths. Although not apparently directly related, there are events and results that highly indicate so. Soon after Medvedev’s good-will tour (in US), there were massive exposes of so-called ‘whistle blowers’. Some of the most focused ones are: Bradley Manning who was convicted of violating the US Espionage Act that sentenced to 35 years in US prison. The Australian publisher and journalist Julian Assange, the editor-in-chief of the website WikiLeaks, which he co-founded after an earlier career in hacking and programming. Edward Snowden, a former system administrator for the CIA and a counterintelligence trainer at DIA that leaked masses of classified information from the NSA. Snowden is recently granted 3 years refuge in Russia and is offered Russian citizenship. Actually, it seems that he has been with SU all along and a citizenship will certainly label him with a history as another double agent. Anyways, even with the massive information about the global cyber wars, - the public knowledge is obviously merely

from scenes at the stage.” (Taken from the BBC documentary ‘Putin, Russia and The West’ in UU 2014.nov.07, UU 2014.nov.28, UU 2014.nov.21 and UU 2014.nov.14.)

- (UU 2016.spt.02) “China has now personal identity and medical records of all Danes. Quite alarming and almost unnoticed. Unencrypted data-files with 5 million CPR (central personal register) identities and related data from SSI (Statens Serum Institut) was delivered via ordinary mail to the Chinese Visa Authorities in Copenhagen. Any resident in Denmark gets a CPR even though they are not a citizen. The event was claimed to be an accident and that the data has never been entered. However, it is highly likely that some organizations related to the secret services of China (MSS) and Russia (FSB) do abuse the data in violations to the Legalities of European Human Rights. 5th Pyramid ‘suckers’ might claim otherwise and prevents further investigations and not get official insurance that China (and Russia) do not Danes CPR and health data.”

The technocracy, like the bureaucracy, is incapable to perceive human qualities of the bourgeois citizens. Each citizen’s LifeQuality is at risk and do cause human catastrophes when a republican State becomes dominant in the society. Some previous quotes about the preys, the citizen, the peasants and the worker focus on that.

- (UU 2016.juli.15) “The Pyramid Games are described in the initial UU 2016.mai.13. Pyramid Games are based on the illegal ‘Pyramid scheme’, ‘Eight-ball’ and ‘Gifting circles’. 8 people are lured by one to ‘invest’ in illusions of repayments in a distant future, - not realizing that the Game is built to collapse and rather cause their ruin. The ethics to such Game masters are ‘honesty is for suckers’. The 5 Pyramid Games in this UU theme are related to the 5 Internationals. Those ‘suckers’ are lured to contribute to domestic CCD (Colony Collapse Disorder) that weakens their prey nation enough to enable the main gains of CdE (Coup d’ Etat). Related sub-Games played by potential PROSA Pensioners are of all categories, - especially Underworld Games and Sexual Games like; NIGYSOB (Now I’ve Got You, You Son of a Bitch) and Schlemiel, SWYMD (See What You Made Me Do), ITHY (I’m Only Trying to Help You), LPAFJ (Let’s Pull A Fast one on Joey), LYAHF (Let’s You and Him Fight), DAC&UAC (Devide&Conquer & Unite&Conquer), ISR (It Started with the Retribution), ABD (Attack is the Best Defense), Jante/TUD (The Ugly Duckling), TLM (Two Little Maids), BGGG (Bad Guy, Good Guy), RPPP (Robbing Pete to Pay Paul), ODAB (One’s Death – Another’s Bread) and the Russian BOOFY (Beat your Own and Others will Fear You). (UU 2014.sept.12.)”
- “In Norden, LO (The Confederation of Trade Unions) is the International para-organization that is bound to the obligations of the high treason of the 3rd International, - the Moscow Thesis. LO’s 100 years of political dominance and related LEJ inabilities, proves the seriousness of Parliamentary corruption. However, after 100 years of corrupting CCD and incapable of doing the CdE, LO members should finally realize that they merely contribute to continuous negative BDW ethics that never will realize their illusions of GCR. Most probably are able to see that, but ignore it. They do not dare to risk the processes of a true democratic reform of their Union. They know very well from history the brutal consequences from the Game masters.”
- (UU 2016.juli.22) “History proves that such cleansings of loyal citizens (bourgeois), with radicalized workers, were extremely violent before, under and after the WW2. The death tolls were tens of millions humans during the PROSA regimes of the puppet oligarchs like Lenin, Stalin, Hitler, Mao, Pol Pot etc. Several previous UU blogs concern LO cultures at CCD and CdE levels, for example: The unclinking of a Stalinist mass-psychopathic culture when overthrowing a matriarchal LO leader – the ‘Valla’ case (UU 2013.aug.30). The Stalinist cultural root of WW2 is still dominant in LO (see Wikipedia link under), and the TV documentary about the boy Selmer that was donated to Soviet Union and became an unwillingly spy. It also indicates the cloaking of thousands of STASI agents in Europe during the cold war (UU 2014.juli.04). More recent is the ‘Treholt’ Game LPAFJ (Let’s Pull A Fast one on Joey) as diversion to save other major PROSA agents (UU 2013.aug.30). The Game concept changed to SWYMD (See What You Made Me Do) in the massive organized CdE bomb and massacre in Norway five years ago today. The Judicial system proved that willingly scapegoats are more effective as diversion for the major PROSA agents (UU 01.Juni.2012), - until he also realizes he was no Nashi (Наши) hero, but just another 5th Pyramid Game ‘sucker’.”

The 3³ model was described in UU 2016.sept.02 and further elaborated in the following quotes with focus on PROSA and RAF. The following paragraphs from UU 2015.mars.06 elaborates on this relation to the 'Will' Dimension and is taken from.

- "It was necessary to upgrade and extend the classic Freudian models to organizational levels in order to enable psychosocial analysis. The result is a joint Freud/Jung/Berne model called 3x3. This was further developed to the 3³ (i.e. 3x3x3) model. It is explained and used from UU 2015.juni.05 to UU 2015.juli.24 about the Danish parliamentary election. "The terms are developed from-via-to: Id-Child-Drive, Ego-Adult-Will and Superior Ego-Parent-Belief. A second dimension of conscience is added in order to merge Jung with Freud's 3-state; UnderConscience, Conscience and OverConscience. The third dimension contains of 3 subcategories of Drive, Will and Belief. These are interrelated via the conscience dimension. However, the subcategories are open for adaption and modifications to what is to be analyzed, for example persons, organizations, nations, empires or humanity. Furthermore, the subcategories are related to Game categories too, - which is not directly in the 3³ model. For example, sub-categories for Personal level is; Drive (Sulk, Nerd, Jerk), Belief (Matriarch, Authority, Patriarch), while Parliamentary relates to Will (Legislative, Executive and Judging (LEJ, - or LUD in Danish) and National/Imperial relates to Drive (Throne), Will (State) and Belief (Temple). A combination with collective Game categories were discussed in UU 2015.feb.27, UU 2015.mars.06 and UU 2015.mars.13 where: Drive (RF, AF and WL), Will (KoC, GdE and GoT) and Belief (UNO, WoW and SET)."
- "The merged 3x3 Game model does mostly apply to the social ego-state Will. Freud and Jung call it 'Ego', but Bern called it 'Adult'. This UU sets focus on three social Game categories of Will, namely KoC (King of the Castle), CdE (Coup d' Etat) and GoT (Games of Temples). Such a large theme needs an archetype to grasp the idea, - a simple stereotype like Napoleon. The main reason to focus on Games is the simple truth that everyone lies and deceives. This reality is underestimated and have serious consequences, - as the Charlie incident in Paris showed."
- "Alternatively, the social Game category 'Coup d' Etat' (CdE) should rather be called GdE (Games d' Etat) with CdE as its sub-Game category. The Game category 'Game d' Etat' (GdE) is defined by Gimmicks of States and related public sectors. The ancient Greek philosopher Plato is said to be the Patriarch of the Republican State. The State is rather timocratic and plutocratic (capital), autocratic/anocratic (dictator), and technocratic. State is somehow aristocratic though, because Plato thought the Republic should be run by a totalitarian elite of intelligent men without personal possessions, wife or children, in order to be objective. Nevertheless, State has developed via later versions of the classic Roma1 to today's empires (See UU 2014.april.25 and UU 2013.Mai.24). Most GdE are strictly ruled by Gimmicks of laws, regulations and procedures. They were simple and reasonable at start, but after 2500 years of political GdE, the Gimmicks have become too complex, contradicting and irrational for anyone to manage. The Gordian knots, the endless mazes and inconsistencies cause diluted needs for endless growth in order to maintenance the system. Consequently, no one fully understand the system anymore. The State-systems develop into a Belief-system, - rather similar to GoT."
- "Nevertheless, the focus on the original CdE deserves some explanations. There is a terminological reason for the focus on CdE (Coup d' Etat), because it was first used when writing about some European wars. It was first mentioned in UU 2014.juni.13, about Games of Coldwar factions like RAF in Europe. However, the term 'Coup d'etat' in relations to Games was first mentioned in relation to political evaluations after the Oslo 22/7-2011 bombing and massacres in UU 2013.aug.09. CdE was talked through as a 4th degree Game and a new Game category in relation to Napoleon. He is certainly an archetype of CdE Games, along with Julius Caesar, Ivan the terrible, and those mass-produced CdE despots in the previous century."
- (UU 2015.jan.09) "Ulterior RAFs and alike exist in most nations and have variations like BRAF and GRAF." The hypothesis of the present multiple RAFs is talk through several times and accumulated in UU 2014.juni.13. In brief, 'Red Army Factions', despite their extreme ulteriority, were disclosed in several European nations and probably exists in all. A RAF-dnk cell called 'Blekingegadbanden' was named after the disclosure of a weapon depot in Copenhagen. Besides, the hypothesis of RAF development is the pre-RAF as BRAF (brown-red), formed from the ww2 Stalin-Hitler alliance and

Postwar-Games (Molotov–Ribbentrop Pact in 1939). This century's RAF has become GRAF (green-red) where green as the color of Islam and do not symbolize of nature at all."

- (UU 2015.jan.09) "Pro-Russian Oligarch, Separatists and Autonom (PROSA) do not merely operate in Ukraine." "This is based on present media observations on how the neo-SU CdE Games are played, where there are hierarchies of RAF cells organized, yet manically denied like in 'Underworld' Games of mafia bosses. The executioner in Oslo, Paris and Copenhagen are displayed as Autonom, merely to disguise and protect the massively organized crimes behind."
- "A new Game BOOFY was discovered when analyzing today's Russian Games in UU 2014.nov.14: "A Russian proverb saying is "Beat your Own and Others will Fear You". Actually, it seems that an east-bloc Underworld Game 'BYOOWFY' of 3rd and 4th degree is identified. It seems to be legitimated in Roma3. Still, Putin does not seem to do the beating himself, but rather have someone else to do it, - like murky Oligarchs, street gangs, 'jugend', police, para-military or other ulterior secret services. That is simply the Game of LYAHF. The Game is however originally feminine and related to the rivalling tsarinas of the Winter Palace. (See UU 2014.mai.30.)"

Furthermore, surely, any Mafia plays Underworld Gamers on fear, kleptocracy and extortion. That goes for the PROSA Technocrats as well. Workers fear losing job and consequently ruin of families, homes and other fundamentals of LifeQuality.

- (UU 2015.mars.06) "The newfound Game BOOFY, based on a Russian proverb saying, "Beat your Own and Others will Fear You", seems far more widespread and fundamental than first realized. Although BOOFY was discovered in a CdE analysis, it is clearly tribal as in the Game category KoC of UW. It is based on Parents' punishing their Children and causing traumas, that later cause projections of not-OK transaction to others. Adults' experience of unexplained fear can stem from UW, which is related to UD and UB. These causes of personal fears can therefore be highly personal and different for anyone. A common, but negative solution, is the use of projections, which was mentioned in UU 2015.feb.20 "Emotionally, it seems that some outbursts of accumulated negativity are as necessary as flushing the toilet. It should however not be directed towards other people, but to sanitary systems. Furthermore, general expressions in misery might mistakenly be perceived as directed hatred and suppressed thoughts might need emotional outbursts to be relieved. Unfortunately, Hate is abused as means in Games. Games of Terror are unfortunately the reason for this UU Theme 'Charlie'."
- (UU 2016.juli.22) "However, true Parliamentary authorities must differ between willing and forced PROSA workers, when investigating such PROSA crimes. In fact, criminal law is stricter to public servants than to civilians. Yet, public servants are rarely sentenced for their crimes even though the scandals of low quality services and expenditures are far too high. It is proof though, of too much fraud and corruption, - like in mafia-dominated markets (UU 2015.okt.23). Most public laborers are forced by violent mafia organizations that are related to the so-called 'Red Mafia' (see video link). The threats of Underworld Games were talked through in the previous UU 2016.juli.15 'P5GO03 – PROSA Pension'. Although any member of a high treasonous organization can be guilty by association, there are exceptions, - like for civil criminal relation, - by supporting the true Parliamentary system to improve the LEJD Quality by unclocking the criminal 'parallel organisational apparatus' (C3)."
- (UU 2014.dec.19) "(Some) events can be related to the theories of S-E and S-I at an organizational level. There are Drive (ID/sexual) related Games at 3rd degree at play. This fits rather Jungian theories, because of his concerns about collective synchronization, archetypes and sub-conscience biological powers that can overrun reasoning and empathies."
- (UU 2013.okt.25) "Freudian stereotyping of IT actors was originally; IBM as 'Jerk/S-E/Patriarch', Microsoft as 'Nerd/Ego' and 'Users' as 'Sulk/S-E/Matriarch'. The IT world has developed on several areas though. The most obvious seems to be the democratization of IT. As mentioned in UU 2013.april.19, humanity seems to have passed its 3-years state, neuro-physically by the internet, and naturally can now develop its Ego, - self-realization. It is decisively important that destructive Games are not dominant as 5D scenarios (UU 2013.april.26)."
- "Some main points from the IT Rivalries are useable, since the theory is not particularly bound to time. Suppliers are particularly incapable to dominate CBA for procurement to Public Sector,

because they are subjective and single sided. One does not want some 'Rainman' as family counsel, even though he can improve the economy and functionalities."

Finally, these are attempts to sum up to some conclusive proposals, in addition to all the hints in this blog, in order to promote 'Western' democratic parliamentary nations during this phase of the 5th Pyramid Game:

- Laws are simply any society's operating system (OS). Realizing that the technocratic state machine is simply like a computer, - it is obvious that; it has many faults due to decay, outdateding and manipulations; that there are critical upgrades and fixes that can be deployed immediately; and that should have decades ago to reduce crimes. Knowing the warlike Games of IT industries in the public sectors, and the unsound organizational mentality behind, - it is obvious that the very same Games are played in all of LEJ (Legal, Executive and Judicial Parliamentary Powers). Much of the delays, incorrect and terminated ratifications of Parliamentary Law are obviously not due to technical errors, - but to PROSA Technocrats. It is all about protecting PROSA crimes and criminals, - as stated in the 21 Conditions of the 3rd International. The solution is simply, - Rule by Law.
- The term 'The 4th State Power' is a mass-propagated illusion. The real 4th Parliamentary power is Democracy, not technocracy and bureaucracy. That mass-psychopathy was a main reason for the genocidal warfare towards humanity in the previous century. Realizing that 5D history, it is obvious for anyone that Humans are above machines, - never the opposite. The solution is simply, - Rule by Human Right Laws.
- There are hyper-democratic solutions to the mass-propaganda and mass-psychosis of PROSA media, as stated in the 21 Conditions of the 3rd International. A cure for mass-psychosis is to disconnect from the mass-media of the 4th Pyramid Game, - i.e. state dominated para-media of TV, Radio and Papers. It is very simple to end the subscriptions. Next, use the computer and internet instead. Soon anyone realize what the world media offers this century. Have a look at the extra UU TED talks to get an idea of what the rest of the world talks about.
- What is the value in the criminal market for a citizen's personal identity, medical record and potential links to most personal data in society? Let us say the average is 1000 € pr. Dane. If so, the black market price for that delivery is about 5 billion €, - that is about 3 % of the Dane GDP. This obvious crime towards the whole Dane population is irreversible, - yet silenced, as if it was an unfortunate accident or unimportant. However, there is no doubt that this is a major IT Crime of the 5th Pyramid Game that definitely will compromise Dane citizens human rights, economy and security. This example merely indicate the tip of the iceberg of 5th Pyramid crimes towards 'Western' nations. Such will most certainly escalate in Denmark (and Norway), since the International Criminal Organizations won the Europol/Eurojust referendum in Denmark in 2015.dec.03.
- The Bureaucracy need innovation of technocracy. It is not that different from upgrading any IT system to virtual solutions. There are Return of Investments (ROI) in 2-3 years due to the savings from bounding maintenance costs of Oligarchs ineffective, expensive and faulty IT systems. Knowing very well that the Coldwar in the public sector was to double the numbers of employee, as para-organization, - it is about time to free all the resources from the Coldwar bondages. However, most important, even though Big Blue was pro-NATO once, - Big Red is now anti-Western and anti-democratic. There is no way that loyal public servants can ignore that vast security threats Big Red opposes. Therefore, Build new bureaucracies with today's technologies and migrate loyal public servants to the 'new buildings'.

Afterword. Some might wonder why it started, - this engagement in such issues expressed in this theme 'The Fifth Pyramid'. It is indicated in UU 2013.april.26 (translated to English): "... it should be mentioned that this theoretical part of the theme 'IT and LQ' is a continuum of the Master of Science Thesis from the Norwegian School of Management. The main objective for the study was to find the optimal solution for both public and private sectors in the European Internal Market. That was about 20 years ago when LO and IBM were highly influential at the institution. In order to get my thesis and MSc title recognized, I was asked to remove a chapter about industrial-political rivalries in the thesis. I had no real choice except do the self-censure and cloak the findings. A few years later, the European study was closed in Norway and sold to

Shanghai/China. Ever since, it has been impossible to work with my true profession in these 20 years, both in Norway and Denmark. However, the competency is maintained as a hobby, here as these blogs called UU". This UU Theme 'The 5th Pyramid' is an escalation of the never-ending story.

Kraftwerk was one of the first band to take robot music seriously. They lived into the role and made music that they thought robots would do in the future. The quality of the sound was far beyond what anyone else could. However, the lyrics and melodies were not that impressive. They were as without fantasy, - just like robots. At the time, there was hardly any pc. The pocket calculator was high tech. but finding Pi and all kinds of square roots was not exciting in the long run. The tech is certainly different now, with personal computers for all family members. Now, children learn to conquer virtual worlds before the even learn to write, they down- and uploads movies on the internet, and do not remember any telephone number, - not even to their own home. I can remember the first job and was impressed by a box on 1x1x1 meter that contained a disk with 10 MB. I even had to program by manual switches. That was the time when Kraftwerk was very futuristic and popular. The band is previously mentioned in UU 2011.feb.18 and UU 2013.okt.25

AURORA - I Went Too Far

2016.spt.02

Ukens Utvalgte

‘Pyramid Game Over’ provides 12 proposals for ‘Western’ Parliamentary Qualities. The ‘P5G009 –PROSA Psychocracy’, aims at the organized psychocratic crimes towards the Western ‘petty bourgeois’ citizens. Now, Oligarchs dominate the illegal drug markets and some subcultures of the legalized drug market of the public health sectors. These next 3 blogs will focus on the criminal ‘21 Conditions of the 3rd Integrational’ in relations to the 3[^]3 psychosocial model. This first blog will address the first dimension ‘Drive’ - i.e. ID. Initially, there is a theoretical prologue, then some points of view, and finally some suggestions in relation to this 5th Pyramid Game. In brief, this is a continuum and the next level of the blog ‘How-to Heal Dane Psychiatry’. Moreover, it is also about the potential healing a 500 years old Nordic Syndrome.

PROSA actors of 5th Pyramid Game abuse their corrupting subcultures in public sectors. The LEJ (Legal, Executive and Judging Parliamentary powers) are particular vulnerable, as documented by the Norwegian ‘22/7 Commissions report’. “The economic crimes of scandalous public projects and services are mentioned in UU 2013.nov.01. UU 2013.sept.27; describes the basic professional knowledge about qualitative governing, maintain and innovating public services; - in addition to the massive critique in the 22/7 Commission’s report.” (UU 2014.okt.17)

There is no reason to believe that the qualities of public sectors are better in other ‘Western’ states of Norden, Europe or America. The massive organized international drug crimes became evident when excluding the Russian athletes from the 2016 Olympics due to the drug-crimes in 2012. Similar plutocratic manipulations by PROSA Oligarchy in the public health services cause major corruptions and stimulates syndromes of CCD (Colony Collapse Disorders). The subcultures of the previous Pyramid Games have grown into networks of criminal organizations that legitimize globally plutocratic crimes towards the humanity of the Western world - and probably worldwide. Such organized crimes are punishable violations of European human rights and can cause; bondage instead of self-realization of bourgeois citizens; overruling the Judicial powers by the Forensic Psychiatry; and even promoting Beliefs in ancient occult para-beings by misinterpretations of psychiatric terms like ‘schizophrenia’, ‘paranoia’, ‘neurosis’ and ‘psychosis’.

Evidently, the 3rd Pyramid radicalization of the citizens to workers was extremely brutal, - psychological as well as physical. There were organized mass-murders by tens of millions ‘petty bourgeois’ civilians and

peasants in the cold-war Russia and Asia. A main reason for the legitimized 'cleansings' and genocides was the hostile takeover of western enterprise by the remote controlled state institutions. PROSA Oligarchs were favored via Unions' for exclusive trade deals, - just like mafias run the illegal drug markets. Only members of Labour parties and unions got jobs in the massive 're-purging' and 'cleansing' of workers in the public sectors. Although highly illegal, the cults of the '21 Conditions of the 3rd International' legitimated "no trust in bourgeois (democratic citizens) legality" and make "civil war" by "setting up a parallel organizational apparatus" to "do its duty to the revolution" (Coup d' Etat), and "combine legal and illegal activity." (Condition 3). The civil war propaganda should be "expound as forcefully as possible" "with every means at its disposal." (Condition 10) They "declared war on the whole bourgeois world, and the old official 'social-democratic' or 'socialist' parties (Condition 17) and must "cleanse the party systematically of the petty-bourgeois elements". (Condition 13) (See link hereunder for the full text.)

'The Psychocracy', is a term made to extend the terminology to more of the society's powers (-cracy). Terms like democracy and bureaucracy are well known in political discussions, while terms like 'plutocracy' and 'kleptocracy' are hardly used. Yet, the terminology had to extend with other social powers in order for fuller psychosocial evaluations. Those powers are important to uncloak, because their cloaking is the very nature of psychosocial destructive Games. "Violence grows in dark places." That goes for taboos of psychological violence as well as physical. This was theorized in Extra UU 2015.aug.28. "It is possible to make psychosocial relations and use prefixes like neuro, psyko, sosio, xeno, pedo, 'matro', 'patro' (...). Furthermore, it is possible to substitute the suffix 'cracy' (power) with mania, phobia, patia and philia". With such extended use, the terminology (...) is broadened to (f.ex.) Sophimania, Sophiphobia Sophipatia and Sophiphilia. Terms like Philosophical mania, or Sophimania, indicate the dangers within." (UU 2015.feb.20 and UU 2013.april.19)

Matriarchs and patriarchs do influence the ethics, norms and laws in organizations, nations and even international empires. As mentioned in UU 2016.juli.29. "Patriarchs of the 3rd Pyramid Game, like Lenin, Stalin, Hitler, Mao and Pol Pot, were thoroughly selected due to their proven personality disorders and criminal records. They all make top-score on the 'Psychopathy Checklist—revised' (PCL-R). (UU 2014.okt.17). These masspsychopaths were chosen to recruit likewise and execute the 21 Conditions of the 3rd International. Consequently, any 'Red Union' leader, male or female, were chosen, not democratic elected, because of their masspsychopathic and sociopathic nature. Apparently, their psychopathy seem both masculine and feminine, which is more manipulative, oligarchic and emotional. Frankly, looking beyond the dictators' mustaches and assumed sexuality, they appear rather feminine too." "The psychopathic population (ca 1%) is radicalized to PROSA executive agents by surprisingly ordinary means and measures. A single PROSA Separatist agent can cause a Bourgeois family to crumble to dysfunctionality in a generation by simple unnoticeable manipulations. The STASI method was to plant their agents as 'Cocos egg' in the prey organization - like spouses, deputies, delegates etc. The Agent Believed to be a hero in a 'pitiless war' towards European and American citizens – as mandatory according to Conditions C3, C10, C13 and C17. (Also see hereunder the video link to the TED talk: Hubertus Knabe: 'The dark secrets of a surveillance state' + the movie 'The Lives of Others'.)"

"Behind every great man there's a great woman" - is a well-known saying. That applies to the negative ethics of BDW as well as the positive GCR. Behind every matriarch or patriarch, there are organizations of all kinds and sizes. There are complex network of interacting deceiving actors with hidden agendas that are camouflaged. These are named PROSA (Pro-Russian Oligarch, Separatists and Anarchists) in the 5 psychosocial Pyramid Games. Such cloaked influences on international cultures Game player are often talked through - like in UU 2016.mai.27.

- "The mentality of historical oligarchs can become other persons' dominating Belief (S-E) - centuries later - and ultimately the organizations' pseudo identity. Stalin's extreme psychopathy, inherited from the Russian secret services of 'Oprichnina', was assimilated as the masspsychopathy of unions and parties, - and ultimately inherit as 'The Masspsychopathy'. This has to end with this 5th Pyramid Game - and surely can be escalated with 'hyper-democracy'. However, quite the reverse, the 100 years' war towards 'The West' is evidently intensifying globally towards some cascade of climaxes." (UU 2016.aug.05)

- “A diagnosis includes investigation of backgrounds, traumatic events and relations. In previous UUs, the modern psychosocial history stretches over 500 years in the Nordic region, - including Russia. However, such a complex issue can only provide some new discoveries and point of views. A thesis is that the present Dane psychosocial condition was initiated about 1864 with the Throne CdE and following mass-massacre of the previous king’s men at the German border. It peaked half a century later in 1914 with a similar procedure to the imperial Throne and following CdE (Coup d’ Etat) and mass-massacre of the emperor’s men. About 2014, - it has reached another historical shift that should be 5D analyzed with alternative future scenarios (UU 2014.nov.28). Anyways, the hypothesis is that the matriarch obsessions in the psychocratic industry’s OverConscience seems to stem from the apocalypse in the Winter Palace, centered around its sole survivor, - princess Dagmar of Denmark, alias Tsarina Maria of Russia. This hypothesis is elaborated based on previous writings, especially UU 2014.dec.19, UU 2014.aug.01, UU 2014.juli.18, UU 2014.jan.10, UU 2013.april.19 and UU 2013.april.12.” (UU 2015.aug.28)
- Contrariwise, it is highly unlikely that The Masspsychopathy’ speared Tsarina Maria (alias Dagmar of Denmark) while executing all her royal emperor family and related. It is more likely that she was executed too, - and that one of Dagmar’s ‘doubles’ was put in her position as a remote controlled imposter. If so, this might have been discovered by DNA testing in the royal crypt in Denmark some years ago. Anyways, the body was surprisingly returned to Russia for a second and discrete funeral.
- (UU 2015.okt.30) “There is an infamous failed attempt by psychiatrist to overrule the Court in the Norwegian terrorist case of 22/7 (UU 2014.nov.14). “There seems to be some alarming similarities to some ABB personal profiles. UU 2012.mai.18 to UU 2012.juli.20 followed the 22/7 trial about the CdE bomb and AUF massacre. During the trial, there were 2 contradicting psychiatric evaluation of his personality that caused serious distrust to the legal psychiatric system. The second psychiatric evaluation diagnosed ABB as not schizophrenic, delusional or psychotic, but rather with antisocial and narcissistic personality disorder, possibly Asperger and Tourette syndrome and some possibly paranoid psychosis. His lack of emotion, monotonous voice, ‘stone-face’ and peculiar smile was considered deliberate responses to his environment, indicating ulteriority, dishonesty, - or briefly, - a Game player. Furthermore, some psychiatrists seem political motivated Game players.” The 2 very different diagnosis by the Forensic psychiatrists left civil court questioning whether their organization themselves were like diluted, psychotic and schizophrenic. Anyhow, the civil judges had to dismiss the psychiatrists’ attempt to overrule the civil court and take the terrorist into their care. Yet again, - there is no reason to assume that Denmark is not subject to similar judicial crimes.”
- Another related Nordic phenomena of psychocratic organized crimes is well documented in the STV documentary ‘The woman behind Thomas Quick’ (Kvinnan bakom Thomas Quick). It is talked through in UU 2014.juli.18: “The Quick case lost all its fantastic attention with the disclosure that he was no mass murderer at all, but merely a childlike patient with free meals, housing, drugs and hypnosis under the psychiatric matriarch, Margit Norell. There seems to be some Oedipus-relations where life-long room-service was the reward. ‘Sweet old ladies’ are unassailable and can consequently be perfect executors of misdeeds, - even the worst thinkable. There are probably no better cover for such vast criminal acts, - like covering up for the actual massive murders.” An article talks through the cult around ‘Thomas Quick’ like this: “He admitted 39 murders (some in Norway) and was convicted for 8 that he did not even do. No technical evidences and no witnesses have ever linked him to any of the convicted murders. The trials lasted for years and cost 200 million kroner. The murders were made up by a desperate person that lied to get drugs, social relations and attention. He was supported by a cult of psychologists, doctors, police, prosecutors and layers, - that lied just as much, - or even more.”
- “There are several other inter-Nordic cases suggested to investigate further, like; the Scandinavian Star ferry fire, Arnfinn Nesset hospital murders, 22/7 bombing and massacre, the Halloween murder under IT related hypnotic psychosis and several other cases. There are most probably similar cases in all the other Nordic countries to. (The infamous and unprofessional attempt by the forensic psychiatric to veto the 22/7 ABB trial is talked through in UU 22.Juni.2012.)” (UU 2014.dec.19)

'The woman behind Thomas Quick' is presented like some Matriarchal Psychocrate with power beyond national LEJ (Legal, Executive and Judicial Parliamentary forces). She operated in plain sight like some International Superior-Ego, where the nations' LEJ were paralyzed, and the submissivees' IDs acted like immature Jerks, Nerds and Sulks. Traditional psychosocial models, like for family therapy, are far from sufficient for such criminal Psychocracy, - simply because the collective of psychocratic therapists is the main reason to the traumas and crimes. However, the 3^3 model should help a lot. A way to see this phenomena is that the Superior Psychocrate played Games of RainForest with drugs, Games of WildLife with Hypnosis and Games of AnimalFarm in LEJ institutions, - with herself at the top of the pecking order, above the flock of hens, the cockfights and the 'ugly ducklings'. Associations of Archetypical Memes could be the Matriarchal Hen (AF), The Black Widow Spider (WL) and some yet undiscovered narcotic flora (RF).

The Psychocracy of the 5th Pyramid is too much to cover in a mini-series of 3 blogs. Therefore, the following citations are picked to give some indications of the 3^3 psychosocial theory and previous talks related to The Psychocracy, - mostly from the summary in Extra UU 2015.aug.28.

- "It was necessary to upgrade and extend the classic Freudian models to organizational levels in order to enable psychosocial analysis. The result is a joint Freud/Jung/Berne model called 3x3. This was further developed to the 3^3 (i.e. 3x3x3) model. It is explained and used from UU 2015.juni.05 to UU 2015.juli.24 about the Danish parliamentary election. "The terms are developed from-via-to: Id-Child-Drive, Ego-Adult-Will and Superior Ego-Parent-Belief. A second dimension of conscience is added in order to merge Jung with Freud's 3-state; UnderConscience, Conscience and OverConscience. The third dimension contains of 3 subcategories of Drive, Will and Belief. These are interrelated via the conscience dimension. However, the subcategories are open for adaption and modifications to what is to be analyzed, for example persons, organizations, nations, empires or humanity. Furthermore, the subcategories are related to Game categories too, - which is not directly in the 3^3 model. For example, sub-categories for Personal level is; Drive (Sulk, Nerd, Jerk), Belief (Matriarch, Authority, Patriarch), while Parliamentary relates to Will (Legislative, Executive and Judging (LEJ, - or LUD in Danish) and National/Imperial relates to Drive (Throne), Will (State) and Belief (Temple). A combination with collective Game categories were discussed in UU 2015.feb.27, UU 2015.mars.06 and UU 2015.mars.13 where: Drive (RF, AF and WL), Will (KoC, GdE and GoT) and Belief (UNO, WoW and SET)." A main reason for the struggles between the 3 hyper-powers Throne, State and Temple, is that natural drugs cannot be patented. PROSA Oligarchs need national laws that makes natural drugs illegal and exclusive market domination for their patented synthesized drugs. Alternative psychological healing associated to Temple is also excluded from the public health market.
- (UU 2015.feb.27) "Dr. Eric Berne split the traditional ID into 2 kinds of 'Child' to relate to two kinds of Parents, namely Mother & Father. In an earlier UU 2014.aug.15, the ID was split into 3 to include Adult/Ego. The 3 IDs were named Sulk, Jerk and Nerd. These 3 ID relate to other individuals via their OverConscience in Game relations like; Sulk/Drive/WL, Jerk/Belief/RF and Nerd/Will/AF. (UU 2015.Jan.23) The Drive Game categories will relate to the conscious dimensions of UnderConscience (U), Conscience (C) and OverConscience (O) - like RF/UD, AF/CD and WL/OD. There are now 3 new socialpsychological Drive-related Game categories; AF (AnimalFarm), RF (RainForest) and WL (WildLife)."
- (UU 2016.juli.29) "The masspsychopathic ethics are like legitimation of Pavlov's cruel testing on dogs by starvation and electro-shock in the name of science. Such Coco Oedipus or Electra might exercise on the spouse's dogs and cats to become hostile towards humans, then advance to set family members up against each other, mislead public services by partial truths to unjust interference, provide and manipulate legal and illegal drugs, cause social intrigues, arranges crises at work, school etc. Psychosocial Games are basically of 1st-3rd degree and classic Sexual and Underworld Games; like NIGYSOB (Now I've Got You, You Son of a Bitch) and Schlemiel, SWYMD (See What You Made Me Do), ITHY (I'm Only Trying to Help You), LPAFJ (Let's Pull A Fast one on Joey), LYAHF (Let's You and Him Fight). (Games are further described in UU 2014.sept.12.) Additionally, the Game settings remind about the crime novel of Agatha Christie 'Ten Little Niggers'. Conclusive, a new Underworld Game of 3rd degree is hereby defined; TLN (Ten Little Niggers). Moreover concepts of Games was developments and adapted to the 3^3

Socialpsychological model. These anti- bourgeois Games suits mostly the new 3^3 Game category AF (Animal Farm). (UU 2015.feb.13).”

UU 2016.juni.24 “sums up the previous blogs with focus on BDW ethics (Bad, Destructive, Wrong) and the models LifeQuality, 3^3 sociopsychology and 5D scenarios. Before diving too deep into the ‘black hole’ (a term used to illustrate the properties of the core and sphere of the 5 Pyramids), it should be mentioned that the basic idea is that organizations, nations and empires can be psychoanalyzed like individual persons. The reason to the theory is described in UU 2015.aug.28 ‘How to heal Dane psychiatry’. Consequently, diagnosis as psychotic, neurotic, paranoid, manic, phobic etc. are as legitimate for organizations as persons, mainly because organizational cultures are founded on the personalities of matriarchs and patriarchs. The reasons to such unsound conditions are basically the same – immature Superior-Ego/Superior-ID relations.”

- “Nevertheless, the Psychocracy is probably amongst the strongest powers of all, - even in civilizations like the Dane. Therefore, the Psychocracy should be parliamentary supervised, like bureaucracy and democracy, and regulated to avoid civil damages. However, the very opposite seems to be true. Psychiatric organizations are the most secret, impenetrable and protectionistic of all.”
- “Moreover, drugs and hypnosis do certainly influence human nerves, perceptions, psyche and behaviors. This is abused in Drive-related Games like predators do to their prey: This was explained and criticized in UU 2014.dec.19. “The categories of drugs are; psychedelic drugs like LSD and mescaline (hallucinogens), euphoria drugs like hashish, paralyzing drugs like morphine and heroin, in addition to central-stimulating drugs like amphetamine and illegal designer drugs like XTC (dopamine), (which is counter-dosed with legal anti-dopamine by the institutional psychiatry).” Furthermore: “The uses and abuses (of hypnosis) are far more common than the public realize, simply because the victims do not realize what happens at all. In fact, that is the whole point of NLP (Neuro-linguistic programming) and Games.” To be direct - drug crimes are Games, - and so are most certainly NLP crimes too. It seems to be a social taboo, how the legal health system is abused by such illegal health crimes.”
- “Recent public cases are the illegal data-exchange of sensitive info to the drug industries with the DAMD database, the ‘brain damaged’ psychiatrist that continued prescribing drugs for years with institutional protection and the massive prescription of ‘Lykke piller’ (Happiness pills) and ADHD pills to minors (UU 2015.juli.03). Furthermore, there are also proof that Danish psychiatry do experiment with unclassified drugs on minors, do alter established psychiatric terminology and do reverse attitudes towards pre-Freudian sexism, - with the opposite gender-antipathy. However, the Psychocracy do counterattack, - just like some of its clients. The results speaks for itself, - the Psychocracy has become a master of international psychocratic Games.”
- “An outrageous experience is that the Dane doping industry abuses minors for illegal experimenting with enhancing drugs. Illegal sport’s drugs are definitely physical and psychological damaging to minors. Proven after-effects are symptoms similar to CBS (Charles Bonnet syndrome) where subconscious images appears in the conscience, which proves that there are damaged neurons in the brain. The crimes were covered up by public servants by blaming the minor for being psychotic, schizophrenic and paranoid. A teacher even suggested a year in psychiatry to ‘deal with the demon’. Such Jante-Games are psychological and sociological damaging in itself.”
- “Next, the Dane psychiatry prescribed non-approved Asian anti-psychotic drugs named Aripiprazole by Otsuka Pharmaceutical Company, related to the very same enterprise that produces the famous sports-drink Pocari Sweat. The Dane psychiatrist’s analysis of the minor concluded with all the most serious psychiatric terms in the book, a suspicious diagnosis that most certainly will indicate improvements at later time, - whether the drug works or not. However, the illegal psychiatric drug was substituted when the minor occasionally suffered from nose bleedings. These examples are definitely of organized crime towards minors in the public services. Anyhow, there should be no doubt to the seriousness of illegal drug industry in Danish sports, when the world-famous CSC bicycle teams was exposed in the report by ‘Anti Doping Danmark, ADD. These drug-related organized international crimes in Danish sports and psychiatry might very well be related.”
- Parent objection might be counter-argued with allegations of being a cause to minor’s misery. In general, Pyramid Game moves of quasi-forensic psychiatry is about disenfranchise the bourgeois

citizen. For example, unmasking symptoms like described in Condition 3 "setting up a parallel organizational apparatus" might be met with claims of paranoid. Rejecting propaganda of mass-psychosis might be met with claims of being psychotic. Human emotional reactions on long term collective mobbing might be met with claims of being neurotic. Contradicting public servants might be met with claims of being psychopathic. Hints and allegations of folkshool pedocracts are per definition unprofessional and surprisingly immature. (Some indications are in the Dane movie 'Jagten (The Hunt) & Jan Guilluo about the 'Bjugn' case of UU 2013.nov.15.) Forensic psychiatry disenfranchise can too easily be arranged in Sexual and Underworld Games.

- It becomes rather clear how the legitimized drug market of Christiania, the Oligarchic match fixing by synthetic sports-dopes and the corrupted market of legalized drugs in the public health sector, cooperates like an oligopoly, - PROSA Red Mafia style. Illegal Russian sports dopes are illegally tested on Dane athletes, just like citizens of Christiania have illegally become 'lab rats' for the powerful pharmacy and psychiatric enterprises. These synthetic sports dopes fries and shortcuts the preys' brain cells so images from the subconscious appears when conscience (like the Charles Bonnet syndrome). The PROSA Oligarch Game is cloaked by unprofessional investigation and quack claims of occult para-beings that are interpreted as paranoia. Expensive, unapproved and damaging drugs are prescribed and made the youngster a customer for life, - subsidized by directly to the criminal enterprise.
- The practice is similar to the billion euro fraud by Dane SKAT presented in the previous UU 2016.aug.26. "BK Medical is an example of the massive organized frauds via SKAT. The firm sold considerably overpriced medical equipment to Dane public health services. The difference in prices were sent to Caribbean tax havens where the oligarchs get paid - free for reporting and free for tax. The Russian medical firm will rather pay a fine than facing court, though. That is the plutocrat way of calculated risk and to settle spoils of war. This example demonstrate how PROSA Oligarchic plutocracy works in all of the Nordic public sector."
- China has now personal identity and medical records of all Danes. Quite alarming and almost unnoticed. Unencrypted data-files with 5 million CPR (central personal register) identities and related data from SSI (Statens Serum Institut) was delivered to the Chinese Visa Authorities in Copenhagen. Any resident in Denmark gets a CPR even though they are not citizens. The event was claimed to be an accident and that the data has never been entered. However, it is highly likely that some organizations related to the secret services of China (MSS) and Russia (FSB) do abuse the data in violations to the Legalities of European Human Rights. 5th Pyramid 'succers' might claim otherwise and prevents further investigations and not get official ensurance that China (and Russia) do not Danes CPR and health data.

There is no way to prove whether these illegal and hazardous 'uppers' and 'downers' drugs are used to trigger and manipulate the so-called 'Arabic Spring. However, the Russian sport dope do cause CBS effects that can be misinterpreted to be demons by occult organizations and schizophrenic by psychiatric cults. The Asian anti-schizophrenic unapproved drug got access via the Egyptian health authorities during the cascades of Arabic CdE Games. It was also illegally tested on Dane minors despite the documented negative side effects. The Asian nation North Korea do use illegal psycho-pharmacy on their populations to promote S-E/S-I cults (Superior-Ego/Superior-ID). Such unbalanced psychological states of mind are the very reason for mental disorders like psychosis (S-E), schizophrenia (Ego), neurosis (ID), - for organizations and nations as well as persons. Such nation-wide psychocratic manipulation of citizens can cause CCD (Colony Collapse Disorders) and consequently promote CdE (Coup d' Etat) in order to make remote controlled puppet states. However, such relations cannot be documented by individuals, but surely by organized investigating the information that already is available in hyperspace.

Simple conclusion to this vast theme does not exist. There will be final summaries and conclusions in the extra 12th blog around 'The 5th Pyramid'. However, some previous conclusive reflections do still hold.

- (Extra UU 2015.aug.28) "It all comes down to basic ethics of GCR (Good/Constructive/Right) and not BDW (Bad/Destructive/Wrong). This basic system of ethics is explained in UU 2015.juni.26. A main challenge for the democratic civilizations, in relation to occult psychiatry, is first of all to hinder BDW ethics. Unfortunately, international psychocratic crimes are capable to promote BDW by isms, attitudes and ideologies concealed as GCR mass-psychosis."

- UU 2016.juli.22) "In a hyper-democratic view, there are several new perspectives to consider. The violation of individuals' LifeQualities have relations to masses also. In individual psychological terms, it is identified as 'psychopathic', 'mass-psychopathic' and 'sociopathic'. Likewise, similar hyper-terms for cloaked para-organizations are 'the Psychopathy', 'the Mass-Psychopathy' and 'the Sociopathy'. PGO (Pyramid Game Over) gets much easier with such identification of the hyper-Game-players. It also gets easier to make anti-thesis to such Games of 4th degree, - like the war-declaration towards Europe and America. However, and most important, their Workers and Peasants are mostly innocent because they are violently forced to execute the crimes for their oligarchs. A reward for true Working-class heroes, that testifies and identifies the true criminals, - is forgiveness and fresh start in GO."

"As mentioned, 'How-to Heal Dane Psychiatry' is a challenge mentioned in the blogs How-to heal 'Dane psychiatry' Extra UU 2015.aug.28. The ultimate conclusion is obviously 'Tear down the Wall'." (UU 2016.juli.29)

Prologue. Some might wonder how this engagement started - in such issues expressed in this theme 'The Fifth Pyramid'. The blog UU 2014.dec.12 indicates. "Some Maoist related politicians, like the Danish 'Pompe & Pilt', argue that 'western nations' doped China with drugs and got them addicted in the 18th century. The argument promotes Underworld Games like Debtor to indirectly legitimize retribution by narcotic trade to the 'western world'. However, documented history says that: "Opium was first introduced to China by Turkish and Arab traders in the late 6th or early 7th century." ... " My personal and unfortunate encounter with a RAF related Chinese drug syndicate, have caused awareness of 'junkies' politics' Games and consequently civil misfortunes. This was first expressed in the UU 01.juli.2011 in sympathy for the Stoltenberg family."

'Pyramid Game Over' provides 12 proposals to promote 'Western' Parliamentary Qualities. 'P5GO08 – PROSA Plutocracy', aims to reduce organized international crimes towards the 'European Internal Market and SMEs. The European democratic market is vital for the liberation from the Pyramid Games. Still massive 'abuses of market dominance' indicate the level of corruptions in the Parliamentary powers (LEJ). The Dane 'rejection' of Europol & Eurojust in the referendum in 2015 is a clear indication. The international organized crime definitely won - Dexit like Brexit. As for sports, Game fixing is as possible in Parliamentary referendums and elections too. However, this blog set a focus on SME (Small and Medium Sized Enterprises) that are mostly made by freed 'bourgeois' citizens that thrive for prosperity. In this blog, - first there will be some theoretical aspects, next some summaries of previous relevant blogs and finally some proposals on howto increase the qualities of the European Nations.

First of all, «'Plutocracy' means 'wealth', and 'power'. It is a form of oligarchy and defines a society ruled or controlled by the small minority of the wealthiest citizens. Unlike systems such as democracy, capitalism, socialism or anarchism, plutocracy is not rooted in an established political philosophy. The concept of plutocracy may be advocated by the wealthy classes of a society in an indirect or surreptitious fashion, though the term itself is almost always used in a pejorative sense. The term plutocracy is generally used as a pejorative to describe or warn against an undesirable condition. Throughout history, political thinkers such as Winston Churchill, 19th-century French sociologist and historian Alexis de Tocqueville, 19th-century Spanish monarchist Juan Donoso Cortés and today Noam Chomsky have condemned plutocrats for ignoring their social responsibilities, using their power to serve their own purposes and thereby increasing poverty and nurturing class conflict, corrupting societies with greed and hedonism.» (Wikipedia.) Plutocracy is thereby also a form for PROSA Anarchy that relates to political 'ultra-liberalists' as described in UU
2016.aug.19.

Markets are anywhere that humans exchange products and services. No market or market '-cracy' (power) is ethical positive or negative. Markets are neutral in itself. Any market-powers can be positive or negative according to any societies' moral, ethics and law, - or Games' Gimmicks. European nations are democratic, - so are the European laws for its Internal Market. However, market dominance is vital for any oligarch. The market Gimmicks of the Pyramid Games are anti-democratic, evidently by the 21 Conditions of the 3rd International. (See link hereunder.) Stigmatically, the Markets of the 1st and 2nd Pyramid Games were Feudal, the 3rd Pyramid Anarchistic, State Oligarchic for the 4th Pyramid and is now, in this 5th Pyramid Game, the market rivalries appear Plutocratic (money wealth). All these Pyramid Market-powers contradict democracy based on European Human Rights and Internal Market.

Some fundamental views on the democratic societies and how the market works, were introduced in the document (to the Norwegian) "Proposals to the productivity commission" about "quality innovations of infrastructures based on this century's technical, legal and democratic potentials" ('Forslag til Produktivitets-kommisjonene' "Om kvalitative innovasjoner av infrastrukturer basert på dette århundres tekniske, juridiske og demokratiske potensialer). In this occasion, some basic descriptions are translated from Norwegian to English, with focus on quality, products, services, and infrastructures for public and non-public markets.

- “The terms ‘products’ and ‘services’ are fundamental for understanding of the concept of quality. Descriptions of products and services are abstract and meaningless without any qualitative characteristics. Therefore, it is vital to use the globally recognized definition of quality (ISO 8402-1986). It says: “Quality (is) the totality of features and characteristics of a product or service that bears its ability to satisfy stated or implied needs”. This is simply common sense put in system. Anyone can understand that. However, defining ‘stated needs’ and implied needs, and properties on products and services can be comprehensive and challenging, , but quite manageable with some experience.”
- “Any civilized society is dependent on qualitative products and services. The terms of quality are often misused though, like a use of the term ‘service’ implies some kind of positive quality.” Furthermore, “Immaterial and material products have very different qualitative properties. Services can be provided by others or simply as a self-services, which has very different legal perspectives.”
- “The main task of the public sector is to provides services to the citizens and the society. Therefore, wrong perception of service-qualities in the Executive Powers are fatal. Public servants and politicians need to understand what quality on services for health, transport, education really are.”
- “Public services are not fundamentally different from non-public services. In fact, different national public service suppliers provide differently.”
- “In the cold war (of the 4th Pyramid) the Parliamentary LEJ powers of the Northern European nations became dominated by Executive Powers of the State. It forced oligarchic monopoly on services of health, caretaking, education, transport, communication, mass media, research, pension, etc.”
- “Whoever the supplier is, the customers are protected by democratic laws that also public service providers are obligated to follow. Actually, the law is more restrict for public suppliers than others. A proper qualitative feedback system for qualitative corrections would most certainly improve the qualities. Actually, it is punishable for public servants to hinder the civilians’ rights for services. This is very well described in the national penalty laws.”
- “Self-services is a democratic solution in the sense that the citizens are provided the means necessary to service their needs themselves. The public Executive powers are obliged by law to provide sufficient infrastructure, information, resources etc. The faith that the citizens can and will service themselves, is now evident by looking at services concerning banking, internet-trade, transport, self-studies, social networks etc. The potentials for public self-services seems unlimited, - if the resources are made available.”
- “Products and services can be categorized in order to figure out what politics are constructive. Such a topology can differ between ‘necessary’ and ‘tradeable’ – or not. Then, it is easy to determine whether it should to be public or not public. For example, there should not be private monopoly on water and there should not be permanent collective homes in a democracy. Some products and services require markets for exchange, while some ‘market failures’ are because they cannot be priced and traded. On the other hand, there are ‘public failures’; like that financing by ‘forced collection’ makes discontent and resistance in the population. Furthermore, public spending is less efficient since human nature tends to feel less responsible for others’ resources than their own.”
- “Products and Services should therefore be divided into the four categories; 1. Collective/necessary is a Public responsibility, 2. Collective/unnecessary – are Public regulated and partial responsible, 3) Trade/necessary – is Public Controlled Market, 4) Trade/unnecessary – Commercial market for anyone. For example, categories can be; air/water=1, police=1, food=4, home=4, sports-arena=3, subway=3, bridges=1,2,3, roads=1,2,3,4. Some public products and services should get a ‘flying start’ by public subsidies and protected dominance in the market. When the infrastructure is constructed and market mature, the products can be moved from category 1) ‘public responsibility’ to categories like 2), 3), and 4), - as for telecom, mass media, education and railroads.
- However, such categorizations are simplified, because the differences of the phases of building, operations and maintenance for public infrastructure. Infrastructures are collective and by properties and the tasks has to be the public sectors responsibilities. On the other side, it can be rational to engage commercial enterprises in competition for construction, operations and maintenance.”

- “There are many kinds of infrastructures (IS) in any society. For example, there are IS for planes, bridges, broadband, canals, pools, electricity, oil, energy, waste, hospitals, lighthouses, dams, parks, ports, mass transport, public sector and public spaces.”

(Chapters about public organizations and cooperations, and IT, are excluded here.)

Wikipedia describes Oligarchy further. “Some models of imperfect competition were proposed: 1) The monopoly model, already considered by marginalist economists, describes a profit maximizing capitalist facing a market demand curve with no competitors, who may practice price discrimination. 2) Oligopoly is a market form in which a market or industry is dominated by a small number of sellers. The oldest model was the duopoly. 3) Monopolistic competition is a type of imperfect competition such that many producers sell products that are differentiated from one another (e.g. by branding or quality) and hence are not perfect substitutes.” Instead of oligarchic dominance, some solutions’ efficiencies might be found in excluding corrupt personnel, planning and reorganizing use of resources and infrastructures, get rid of old inefficient products and their expensive maintenance, etc.

SME (Small and Medium Sized Enterprises) are also fundamental for any democratic society. They are like the ‘underwoods’ to the ‘forests’ of societies’ ecological processes. Without SME, societies decay and corrupts in a few decades. Bourgeois’ SME are the realization of the very basic idea that any vassal was freed to farm, produce and service, - free from the decaying bondage of some feudal oligarchs. The idea is the basics of Magna Carta that evolved to the UN Human Right and the extended European Human Rights. In the European Internal Markets SME are protected from oligarchs’ market abuses by law. SMEs are even supported and promoted by international regulations and programs. This has been the issues in several bogs and the following is taken from UU 2015.okt.23 and UU 2015.okt.30.

- “The Constitutional Law, the Human Rights Law and the EEA Law are all superior in their areas and can be related to the Penalty Law. The article 30 and 34 of the EEA Law prohibits customs duties, discriminatory taxes and measures having equivalent effects. The rules of competition forbid undertakings’ abuse of market dominance, abuse of competition and discriminating agreements (art. 53 and 54). Public undertakings are regulated as well as the none-public ones (art. 59). Unfair competitive public state aid to undertakings are forbidden (art. 61) and social support shall not be paid directly to any undertakings, but directly to the citizen (art. 61a).” (UU 2013.okt.04.) This means that alternatives to public service providers of schools, transport, health etc. became legal 20 years ago. However, illegal public discriminations are still discriminating in the markets in favor of own undertakings, olicratic cartels and certain unions. A well-functioning parliamentary system would have prosecuted and settled this a long time ago.” (The EEA law in Norway is a ratification of the EU Maastricht Treaty of Competition and applies for all EU and EFTA nations).
- “The present government should initiate professional investigations by Riksrevisjonen (Office of auditors) and related according to the EEA Law. It is suspicious that Økokrim (Office of economic crime) do not have a section dedicated economic crimes in the public sector as it does for the private sector. Presumably there are hundreds of public mal-practices that should be legally prosecuted.” (UU 2013.nov.01.)” These laws to promote democratic markets are definitely anti-oligarchic.” (UU 2015.okt.23.)
- “Furthermore, the SMEs (small and medium sized enterprises) are 80% of the market in Norden. They are particularly important for democratic nations, very defenseless towards predatory oligarchic competition and has extraordinary legal protection and support in accordance to European Legislation. Furthermore, “The SMEs suffer from illegally ‘abuse of market dominances’. Besides, the EEA law obligates public protection and support to SMEs because the regional local societies will extinct if their SMBs suffers. The past 20 years’ growth of cartels in the primary industry is the main reason for the decay in local agriculture, stores and other SMBs (SMEs). Contrary to anti-European propaganda, the solution is to protect those by the EEA Law and not by SU inspired agricultural industrialization. The farmers do run their own SMBs.” However, with legal use of LOA (Lov om Offentlige Anskaffelser / Law of Public Procurement), the public sector’s enormous market would not be closed for SMBs. That would save a lot of them and consequently the fundament for regional cultures, - in addition to higher qualities and lower prices for the public purchases.”

- “Coldwar propaganda has created an illusion that the market consists of a public and a private market. How untrue. Dominating oligarch have no exclusive right to state aid and exclusions from the law, - like some mafia ‘untouchables’. Unfortunately, national SMEs are nearly cleansed out of the national market due to state-aid corruption, protection from prosecution and hostile dominance in the democratic markets. Consequently, deliveries of product and service to the civil population and public services have too high costs and too low qualities, - as stated in the OECD reports.”
- “The Norwegian Parliament signed the EEA Treaty (Maastricht) with EFTA and EU and ratified the EEA Law (EØS Loven). The Danish Parliament held a new referendum about the Lisbon Treaty with four opt-outs, which the democracy approved, even though some major riots by ‘anti-European autonomis’ were arranged. The four Dane opt-outs concerned cooperation about civil rights, state-finances and military, in addition to the police/judicial cooperation (Europol/Eurojust). These international legal commitments are scarcely honored, due to improper cooperation. The level of international crimes have now become major threats in both nations. Nevertheless, as talked through in UU 2015.juli.10, there is no doubt that Denmark has been legally obligated for over 20 years by the Treaty (TEU - Traktaten om Den Europæiske Union). Anyways, today, Finland and Sweden, which represent about 2/3 of the Nordic population and area, are fully member of the EU.” (UU 2015.okt.02.)
- The deliberate masspsychosis of legal obligations of public service sector is talked through in several UU blogs. Here are some summary quotes to the concluding blog to 5th pyramid in UU 2016.juni.17. “Oligarchic crimes towards European civilizations were discussed in a UU theme prior to the Dane Europol referendum (UU 2015.okt.16, UU 2015.okt.23, UU 2015.okt.30 & UU 2015.nov.06.) There is no doubt that the democratic European Internal Market has made oligarchic cold war business illegal. International criminal organizations fight the laws of Europe fiercely with any means disposal. As well-known now, international organized crime won the Dane Europol/Eurojust referendum in December 2015.”
- Public servants of the Executive power are obliged to execute orders from its Parliament/Government. If not doing so, they are to be prosecuted in accordance to the Penalty law by the Legislative power, - just like ‘bourgeois’ civilians. This obviously applies to legalities of this century too. As mentioned in UU 2015.juli.10, “There is no doubt that Denmark has be legally obligated for over 20 years by the Treaty (TEU - Traktaten om Den Europæiske Union).” Numerus of public servants have become criminal actors due to anti-European political actors’ misinformation within public sector. The dilemma is thoroughly talked through in UU 2014.okt.24 with similar focus on Norway’s relation to EU. “In 1994 the law-making Parliament ratified the EEA law concerning the European internal market instead of becoming a full member of EU. The new rules of competition caused considerable legal and commercial changes, - especially for the 3 constitutional powers; the Parliament (Legislative), the public sector and the legal system (LEJ). Suddenly, both private and public (oligarchic) cartel practices became illegal. The adaptations to legal practices are comprehensive, - which such dominant actors naturally resist. Today, 20 years later, there are just minor practical adaptations to the law. The media rarely seems to mention such illegalities and leaves the impression is that the law is practically neglected.” (UU 2013.nov.01)

Pyramid Gamers use the markets too. Generally, Wikipedia lists 5 types of markets; 1) Physical consumer markets, 2) Physical business markets, 3) Non-physical markets (like services and Intellectual products), 4) Financial markets and 5) Unauthorized and illegal markets. All these markets exist in both the public sector and non-public sector. In fact, the public sector dominated most of them in 3rd Pyramid worker states. However, 25 years ago, the European ‘Rules of Competition’ made traditional state oligarchic market activities ‘Unauthorized and illegal’. Furthermore, the nature of 5th Pyramid PROSA Oligarchs are very different from the 3rd. They rather seem to revert to some 1st Pyramid Feudal Aristocracy. Anyways, Wikipedia elaborates on the present PROSA Oligarchs.

- “The term Russian oligarch is used to describe wealthy businessmen of the former Soviet republics that rapidly accumulated their wealth during the era of Russian privatization in the aftermath of the dissolution of the Soviet Union in the 1990s. The failing Soviet state left the ownership of state assets contested, which allowed for informal deals with former USSR officials (mostly Russia and

Ukraine) as a means to acquire state property. Analysts have drawn comparisons between the current Russian system of oligarchs and the system of powerful Boyars that emerged in late-Medieval Muscovy." "The Russian oligarchs are business entrepreneurs who emerged under Mikhail Gorbachev (General Secretary 1985-1991) during his period of market liberalization." Note that the term 'liberalists' also is used for 'PROSA Anarchists' and relates to 'Western Liberal Political Parties and Folks movements in this 5th Pyramid Game (UU 2016.aug.19).

- "According to the financial news-agency Bloomberg L.P., Russia's wealthiest 25 individuals have collectively lost US\$230 billion (£146 billion) since July 2008. The fall in the oligarchs' wealth relates closely to the meltdown in Russia's stock market, as the RTS Index has lost 71% of its value due to the capital flight after the Russia/Georgia conflict of August 2008." "Billionaires in Russia and Ukraine have been particularly hard-hit by lenders seeking repayment on balloon loans in order to shore up their own balance sheets. Many oligarchs took out generous loans from Russian banks, bought shares, and then took out more loans from western banks against the value of these shares. One of the first to get hit by the global downturn was Oleg Deripaska, Russia's richest man at the time, who had a net worth of US\$28 billion in March 2008. As Deripaska borrowed money from western banks using shares in his companies as collateral, the collapse in share price forced him to sell holdings to satisfy the margin calls."
- (UU 2015.nov.06) "The second pillar, the Executive power, was discussed in UU 2015.okt.23 to set focus on apparent indications on dysfunctionalities. "The Dane Executive power is known as the 'Public Sector'. It is committed to provide products and services to Dane citizen and society as the Parliament and its Government order. A main reason to serious mismanages is obvious, - public servants are rarely investigated and put to trial according to the national penalty law. Some coldwar public servants are 'untouchables' to the Legal system." Furthermore, "The relations in Dane and Nordic societies become far more transparent when knowing the 100 years rise of the Red Mafia and the accordingly corruption of LEJ (Legislative/Executorial/Judicial powers). The public sector has cold war legacies that are not applicable, and even illegal, to this century's Denmark and Europe. The conditions and potentials of the nations are well documented in the OECD report 'Government at a Glance' and the Produktivitetskommissionens rapport (UU 2015.juni.05 and UU 2015.juni.26)."
- "Furthermore, Denmark and Norway seem to have some of the same fatal malfunctions in Police and Military as concluded by the Norwegian '22/7 Commissions report'. As talked through in UU 2014.okt.17. "The economic crimes of scandalous public projects and services are mentioned in UU 2013.nov.01. UU 2013.sept.27 describes the basic professional knowledge about qualitative governing, maintain and innovating public services, - in addition to the massive critique in the 22/7 Commission's report." For 3D political model, the para-LEJ organization LO is negative toward Dane LEJ and main reasons why the LEJ Quality score is beneath the acceptable for European nations."
- (UU 2016.juli.22) "However, LO is an Oligarchic Trade Mafia is built for violations of national laws of trade. The 21 conditions of the 3rd International contradicts the post-war trade laws of the European Internal Market. The LO crimes were exposed in the NRK documentary 'LO sitt store comeback' and unclocked the massive corruption of the PROSA Union and Party (Norwegian LO and AP) during the parliamentary electoral campaigns. LO bought illegal trade favors, law-violating regulations, and minister posts in the government – all for millions in cash (UU 2013.aug.23). Moreover, Dane LO shows that they do not pay any tax, have just a few underpaid employees and profits greatly on their members (UU 2015.okt.23)."
- Wikipedia elaborates: "Divide and rule (or divide and conquer) in politics and sociology is gaining and maintaining power by breaking up larger concentrations of power into pieces that individually have less power than the one implementing the strategy. The concept refers to a strategy that breaks up existing power structures, and especially prevents smaller power groups from linking up, causing rivalries and fomenting discord among the people." "Elements of this technique involve: Creating or encouraging divisions among the subjects to prevent alliances that could challenge the sovereign. Aiding and promoting those who are willing to cooperate with the sovereign. Fostering distrust and hostility between local rulers. Encouraging meaningless expenditures that reduce the capability for political and military spending. Historically, this strategy was used in many different ways by empires seeking to expand their territories. The concept is also mentioned as a strategy for

market action in economics to get the most out of the players in a competitive market.” (UU 2016.aug.12)

The results of this cold war DAC/UAC Pyramid Games can be seen that the Dane retail market. 90% of the Dane food market is dominated by two actors, the 3rd Pyramid's COOP (Norden) and a rivaling national feudal-like organization. This duopoly is homogeneous, cost-effective, but takes the highest prices on food in the EU. For example, a Norwegian discount enterprise is allowed to the Dane market, though, but sells no Norwegian products at all, - only the same products as the duopoly. This example of Dane consumer market is definitely the cultural norm, - and very opposite of the obliged Law of competition in the European Internal Market. However, it appears like the distribution network has the main corrupted plutocratic Game Players in the national duopolistic market.

There are many other large global markets that should be investigated, - like markets of IPR, energy, money, arms, drugs, humans etc. However, the focus here is set on SME vs Plutocracy. In this relation, the Tax authorities are fundamental for any society. However, it can be abused in Oligarchic Games to end SME competition. That is basically feudal Games to keep the peasants and workers in bondage instead of a natural develop to 'bourgeois' citizens. It is said that Denmark is probably the nation where it is easiest to start an SME. Any adult can register as CVR (Central Virksomhed/Enterprise Register) to pay VAT (Value Added Taxes). However, statistics show that Denmark also is the hardest place for SME to survive. Most get bankrupted in a few years, due to bureaucracy, cleptocracy and plutocracy. The powerful tax authority is a main reason, which occasionally confiscates despite the EU SME protections. Similar is the lack of IPR protections (Intellectual Property Rights) where the EU IPR referendum in 2013 did win through, despite hard opposition like at the Europol/Eurojust referendum. However, the market and authority practice have not improved accordingly, - not at all. Plutocratic piracy still rules, like the case of 'Pirate Bay vs CSC' proved (UU 2014.nov.28).

Dane Tax traditions are not the main issue here. However, some reminder of history do explain the present malpractices and global financial scandals involved. Taken from UU 2016.juni.24 and UU 2016.mai.13.

- “Tax and Treasures are definitely major sources of powers for states, nations and empires. The Russian bondage of Denmark for 500 years is definitely executed by taxation on most products, services, processes and citizens. ‘Follow the money’ has been a major statement by the capitalistic empire since the hand-over from the ‘Pirates of the 4th Crusade’ (UU 2016.feb.19). The Russian tax culture relates to all its CdE and might be related to the present ‘Panama Paper’ syndrome and the historical ‘Pirate’s Haven at the Virgin Islands’ (UU 2016.jan.29). Therefore, in order to promote Parliamentary Quality and prevent worst-case scenarios of The 5th Pyramid; - there has to be extra focus on cells of organized international crime, cloaked in the Dane Taxation institutions (SKAT), - not merely as organizational viruses and hackers, but manipulating parasites. (UU 2015.nov.06) These rather promote Games of pillaging, piracy and confiscation with abuse of Parliamentary powers, - which all are serious violations of the national Penalty law.”
- “Sub-cultures in SKAT seem to act like remote-controlled IT toxoplasma. It is a clear symptom for all the parliamentary powers in all the European nations. The para-organizations promoted in the 3rd Condition to the 3rd International and Pyramid Game is a Virtual Reality – real but virtual. Such International Organized Cyber Crimes of IT Parasites can only not be dealt with by isolated nations, but only with accordingly EU powers like EUROJUST, EUROPOL and CEPOL.”

However, note that these reminders are not directed towards Denmark or any other Nordic nation, - but a plutocratic empire imposing remote controlled thralldom on its vassal-states, to keep them ‘in place in the hierarchy’ and to hinder democratic evolving of vassals and workers to bourgeois citizens.

While writing, there are major plutocratic crimes revealed in the Dane tax-authority ‘SKAT’. The oligarchic war has been going on since the previous global financial plutocratic War Games from 2008. It was talked about in UU 2013.des.20 and UU 2014.april.04 (See the TV series ‘Financial Meltdown’). How could anyone be surprised by that plutocratic war, when it was the same procedures as in ‘The Great Depression’ in the 1929, - just before WW2, - at the eve of the 3rd Pyramid Game. “Follow the money”, - as the plutocrat Lenin said. However, this time is the eve of the 5th Pyramid Game with a different Gimmick. Radicalized vassals,

from peasants to workers of material products, were the main assets in the 3rd Pyramid Game. This time, in the 5th Pyramid Game, radicalize workers from the material to the immaterial industry are the main assets.

The so-called 'Panama Papers' unclocked a major plutocratic war depot for the 5th Pyramid Game. Wikipedia describes: "The Panama Papers are 11.5 million leaked documents that detail financial and attorney–client information for more than 214,488 offshore entities. The leaked documents were created by Panamanian law firm. The leaked documents illustrate how wealthy individuals and public officials are able to keep personal financial information private. While offshore business entities are often not illegal, reporters found that some of the shell corporations were used for illegal purposes, including fraud, kleptocracy, tax evasion, and evading international sanctions." However, one major 'Treasure Haven' related to the Panama firm was on the 'Virgin Islands' now British, prior Dane/Nor 'Pirate Haven' in the Caribbean. It was remote controlled from the newly declared Russian Empire by Peter the Great of St. Petersburg in 1720. (UU 2016.mars.11).

It is evident that some international plutocratic criminal organizations dominate and manipulate sub-cultures in SKAT, - like some untouchable mafia. Dane authorities appear helpless after Dexit and gives in repeatedly. Dane Tax authorities (SKAT) was commercialized in Russian media as 'Tax Haven' for Caribbean money laundry. SKAT made it easy to establish virtual firms in the Caribbean that are not obligated to document financial transactions. The remote virtual directors are merely someone signatures on papers and do not run the business at all. SKAT's plutocratic warfare escalated in 2013 when it was ordered to reorganize to provide more qualified leadership, with less ministerial and political influences. SKAT has gone through cascades of massive scandals since. It is simply a battlefield for Pyramid Games, where leaders and employees of different rivalries fight and fall in thousands. At this moment, organized plutocratic crimes related to Panama and Virgin Islands, for over 1,5 billion Euro are unclocked.

BK Medical is an example of the massive organized frauds via SKAT. The firm sold considerably overpriced medical equipment to Dane public health services. The difference in prices were sent to Caribbean tax havens where the oligarchs get paid - free for reporting and free for tax. The Russian medical firm will rather pay a fine than facing court, though. That is the plutocrat way of calculated risk and to settle spoils of war. This example demonstrate how PROSA Oligarchic plutocracy works in all of the Nordic public sector. Actually, it is a worldwide crime where African nations seem to suffer the most. This explain why the Nordic public sectors are overpriced, inefficient and provide services beneath acceptable qualities. It also explains why the hard political fight by coldwar, by PROSA Oligarchs of unions like LO, protect the monopoly and blocks SMEs alternative innovations. The markets of the Nordic public service sectors were simply taken over by international criminal Oligarchs during the cold war. Most alarming, national authorities are incapable to execute their 'rule by law'.

The conclusion and solution to Organized International Plutocratic Crimes is simple: "Rule by Law". However, it is quite challenging for single nations when the Mafia is remote controlled by an empire. How did America, Italia, China and even Russia fight the mafia infiltration? That is the same way the global Red Mafia should be dealt with. However, and most important, one should remember that most people involved are forced by fear. They are potential whistlers if offered security. Yet, no single nation is able to resist mafia corruption, - it has to be fought together, - with Europol, Eurojust and Cepol.

Flash and the Pan was an Australian new wave musical group (essentially an ongoing studio project) initiated during the late 1970s by Harry Vanda and George Young, both former members of The Easybeats. The duo's first success was their 1976 debut single 'Hey St. Peter' which reached number 5 in the Australian singles chart. The next single 'And the Band Played On (Down Among The Dead Men)' went one better and reached number 4 in Australia in 1977. Their eponymous debut album followed in 1978 with the single 'Walking in the Rain', originally the B side to 'Hey St. Peter'. The song was later covered by Grace Jones and released as the last single from her 'Nightclubbing' album. Her version's best success was reaching 34 in New Zealand. 'Waiting for a Train' the lead single from their third album 'Headlines' was their next success, reaching number 7 in the UK singles chart in 1983. The album would soon reach the Top 100 in the U.S.

despite the lack of a supporting tour. They released two more albums with some minor success in the U.K., but failed to make much impact due to the part-time nature of the project. (The group was also presented in UU 28.okt.2011.)

The association here is not merely their own experience as SME, - but any citizens that strive for being productive, but sadly extorted by others like oligarchic industry and tax authorities.

2016.aug.19

Ukens Utvalgte

'Pyramid Game Over' provides 12 proposals to promote 'Western' Parliamentary Qualities. 'P5GO07 – PROSA Anarchists', aims to reduce criminal activities towards the Democratic Parliamentary Systems. Such acts are violations of 'Western' Penalty laws as well as Human Right's laws – that do protect society as well

as its citizens. Although anarchy might be the most peaceful and democratic 'ism' of all, - Its childlike nativity makes anarchists abused in the cruelest ways. Despots of the Pyramid Games radicalize anarchists to become remote controlled terrorists, - of any gender, age and culture. This inhuman exploitation and terrorism of 'western' citizens and civilizations would be considerably reduced if the European 'Convention for the Protection of Human Rights and Fundamental Freedoms' was ratified to national laws - and actually executed as obligated by the Parliamentary Legislative, Executional and Judicial (LEJ) Powers. The Council of Europe (CoE) have also failed fatally to promote the Human Rights to the European Nations' Parliamentary Systems. However, in this blog, - first there will be some theoretical aspects of anarchy as Pyramid tactics and then some proposals on howto increase the qualities of European Nations and CoE accordingly.

In theory, anarchy might be the most peaceful and democratic political philosophy of all. "The word anarchy comes from ancient Greek words like 'without' and 'ruler, leader, authority.' Thus, the term refers to a person or society 'without leaders'." "Anarchy is the condition of a society, entity, group of people, or a single person that rejects illegitimate hierarchies. It originally meant leaderlessness, but in 1840, Pierre-Joseph Proudhon adopted the term to refer to a new political philosophy, anarchism, which advocates stateless societies based on voluntary associations. In practical terms, anarchy can refer to the curtailment or abolition of traditional forms of government." However, examples of anarchistic attempts of CCD (Collapse Colony Disorders) and CdE (Coup d' Etat) are: The English Civil War, The French Revolution, Jamaica 1720, Anarchy from the Russian Civil War, Spain 1936, Albania 1997 and Somalia 1991–2006." (Wikipedia)

Anarchists were legitimated as participants during the formation of the 1st International - and consequently the 1st Pyramid Game. Anarchists were radicalized to cause CCD (Colony Collapse Disorder) in European prey nations as preparation for the cascades of Russian CdE. "In Europe, a period of harsh reaction followed the widespread Revolutions of 1848. The next major phase of revolutionary activity began with the founding of IWA in 1864 (the International Workingmen's Association, the First International). IWA aimed at uniting left-wing socialist, communist, anarchist, and trade union organizations. IWA claimed to have 8 million members created the dividing myth of the working class and class struggle. Its first congress was held in 1866 in Geneva and collapsed in 1876 due to internal conflicts between socialist and anarchist factions." "Philosophers' rivalries caused internal conflict from the first congress. Mutualists opposed Marx's influence communism, statism, and parliamentary activities. The Parisian Proudhonians dominated claimed to be emissaries of Bonaparte, but were thrown out. Blanquism demanded that revolutions should be carried out by a small group of highly organized and secretive conspirators. Lenin's' conception of revolution was elitist and essentially 'Blanquist' although he renamed the Russian Bolshevism. Yet, they agreed that the bourgeoisie would gain if the proletarians and peasants fight only for concessions from the old regime. (Wikipedia) Consequently, all had to be thrown into the fight, except the Pyramid Game initiators like Lenin himself." (UU 2016.Mai.20)

PROSA Separatists uses their Anarchists to infiltrate and manipulate 'Bourgeois' Liberal parties that opposes the PROSA Oligarchs' state-protected dominant markets. "Left-wing market anarchism strongly affirm the classical liberal ideas of self-ownership and free markets. While maintaining that, taken to their logical conclusions, these ideas support strongly anti-corporatist, anti-hierarchical, pro-labor positions and anti-capitalism in economics and anti-imperialism in foreign policy." "Around the turn of the 21st century, anarchism grew in popularity and influence as part of the anti-war, anti-capitalist, and anti-globalisation movements. Anarchists became known for their involvement in protests against the meetings of the World Trade Organization (WTO), Group of Eight, and the World Economic Forum. Some anarchist factions at these protests engaged in rioting, property destruction, and violent confrontations with police. These actions were precipitated by ad hoc, leaderless, anonymous cadres known as black blocs; other organisational tactics pioneered in this time include security culture, affinity groups and the use of decentralised technologies such as the internet. A significant event of this period was the confrontations at WTO conference in Seattle in 1999."

Nowadays, political PROSA Anarchists infiltrate and manipulate organizations and parties labeled green, red, liberal, pirates, folks' movements, etc. However, the remote controlled activists and programs of the

Internationals' 21 Conditions are easily to recognized. Condition 3: "In almost every country in Europe and America the class struggle is entering the phase of civil war. They have the obligation of setting up a parallel organisational apparatus which, at the decisive moment, can assist the party to do its duty to the revolution. In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity."

In previous blogs, PROSA Anarchists are mostly described in relation to RAF of the 4th Pyramid Game. PROSA was first mentioned and defined in the UU theme 'Charlie'. (UU 2015.feb.20)

- (UU 2015.jan.09) "Ulterior RAFs and alike exist in most nations and have variations like BRAF and GRAF." The hypothesis of the present multiple RAFs is talk through several times and accumulated in UU 2014.juni.13. In brief, 'Red Army Factions', despite their extreme ulteriority, were disclosed in several European nations and probably exists in all. A RAF-dnk cell called 'Blekingegadebanden' was named after the disclosure of a weapon depot in Copenhagen. Besides, the hypothesis of RAF development is the pre-RAF as BRAF (brown-red), formed from the ww2 Stalin-Hitler alliance and Postwar-Games (Molotov–Ribbentrop Pact in 1939). This century's RAF has become GRAF (green-red) where green as the color of Islam and do not symbolize of nature at all."
- (UU 2013.aug.16) "(Blekingegadebanden) and their clones in Germany, Italy and Spain were extremely greedy, violent and social-psychopathic. They copied Stalin's actions prior to his carrier. The Danish leader Gotfred Apple converted from Stalinism to Maoism in the 60's and this meta-organization has certainly influence Denmark with maoistic secret services for half a century." "It is getting more transparent now that such terror-cells were concealed, but closely related, to the secret services of cold-war empires', - namely SU & US – Roma3 & Roma4. Furthermore, the western Nordic nation joined the NATO with US and all rejected SU in fear. (Armed revolutionary guerillas like IRA, ETA and FARC seem also to stem from the same concept as RAF.)"
- (UU 2015.jan.09) "Pro-Russian Oligarch, Separatists and Autonomes (PROSA) do not merely operate in Ukraine." "This is based on present media observations on how the neo-SU CdE Games are played, where there are hierarchies of RAF cells organized, yet manically denied like in 'Underworld' Games of mafia bosses. The executioner in Oslo, Paris and Copenhagen are displayed as Autonomes, merely to disguise and protect the massively organized crimes behind."
- (UU 2014.nov.21) "A most reputed RAF agent is called 'Carlos the Jackal' alias Ramírez Sánchez. He is currently in jail for double life-time in France for killing 11 people, injuring 150 and murdering of 3 agents. Historically, in 1968, Carlos opted for the Patrice Lumumba University in Moscow that was reputed as a notorious hotbed for recruiting foreign communists to the Soviet Union. He was expelled from the university in 1970 by disciplinary reasons, though. Then he travelled to Beirut and Lebanon, where he volunteered for the PFLP (Popular Front for the Liberation of Palestine) in 1970 and tried to establish his own organization with Syrians, Lebanese, and Germans. Carlos was also connected to the STASI that provided him with an office and safe houses in East Berlin, a support staff of 75, a serviced car, and allowed him to carry a pistol in public. The STASI files also show links to the KGB (today's FSB). There is no public information if Carlos and Putin had relations when they both were with the KGB in East Germany. However, Carlos the Jackal was most certainly closely related to RAF-dnk."
- (UU 2016.Mai.20) "The 1st Pyramid made the foundation of Workers Unions and Parties that have been very influential ever since. It also made the foundation of in-prison breeding to the powerful Red Mafia. Their anarchistic terrorists made the concept of urban suicide terrorists like RAF (Red Army Faction) and Islamic State (ISIL). However, even though the 1st Pyramid was designed to collapsed, it founded some underworld anti-European sub-cultures and oligarchs that prospered on international crime. The similarities between the 1st the other Pyramids are striking. The anarchists seem similar to the present suicide bombers, pro-Russians separatists and autonomes. Today's Oligarchs seem similar to the past's royal feudalists. Their working-class seems like their feudal vassals in bondage. Strikingly, merely UK and Norway still have working-class parties like Labour and Arbeiderpartiet. They refuse to rename to embrace democracy, as most other European socialist parties have."

There should be no doubt that the secret services of FSB and GRU are PROSA Anarchist organizations too. (UU 2014.juni.13 and UU 2015.okt.09.)

PROSA CCD attacks would most certainly lessen, and possibly end, if the ECHR (European Court of Human Rights) and CoE (Council of Europe) promoted their mission properly. Yet, by silence and inactivity, - sociopathy and masspsychopathy are promoted as terrorists 'human rights' instead of European nations' and citizens' rights to defend themselves. As mentioned in the previous UU 2016.aug.12.

"Additionally, Russia is a member of the European Human Rights Organization. Its name, Council of Europe (CoE), is mistakenly close to the European Council, the decision board for EU member states governments." "CoE was silent during the massive HR violations of the Russian warfare toward Ukraine. CoE do not encourage European nations to ratify the signed Human Rights conventions that includes exception for Nations' protection against sociopaths. A PROSA Separatist in a para-organization would operate no different."

- "To put it simple, the Human Rights is a global democratic 'One for All – All for One' declaration. The need for this was very well understood by most humans and nations after ww2, - due to all the inhuman doings and destructions of nations and civilizations. The UN fundamental inter-national obligations are stated in the UNC (United Nations Charter) where chapter VI provides the UN powers to investigate and mediate in international disputes. Chapter VII authorize international economic, diplomatic, and military sanctions and force to resolve disputes. The UDHR (Universal Declaration of Human Rights) is the foundation of the later ICCPR (International Covenant on Civil and Political Rights) and ICESCR (International Covenant on Economic, Social and Cultural Rights)." (UU 2015.feb.20 and UU 2014.sept.05)

The European nations' right to protect itself and its citizens are obvious. The 'Convention for the Protection of Human Rights and Fundamental Freedoms' says:

- ARTICLE 5; Right to liberty and security: "Everyone has the right to liberty and security of person. No one shall be deprived of his liberty save in the following cases and in accordance with a procedure prescribed by law."
- ARTICLE 10; Freedom of expression "2. The exercise of these freedoms, since it carries with it duties and responsibilities, may be subject to such formalities, conditions, restrictions or penalties as are prescribed by law and are necessary in a democratic society, in the interests of national security, territorial integrity or public safety, for the prevention of disorder or crime, for the protection of health or morals, for the protection of the reputation or rights of others, for preventing the disclosure of information received in confidence, or for maintaining the authority and impartiality of the judiciary."
- ARTICLE 11; Freedom of assembly and association "2. No restrictions shall be placed on the exercise of these rights other than such as are prescribed by law and are necessary in a democratic society in the interests of national security or public safety, for the prevention of disorder or crime, for the protection of health or morals or for the protection of the rights and freedoms of others. This Article shall not prevent the imposition of lawful restrictions on the exercise of these rights by members of the armed forces, of the police or of the administration of the State."
- ARTICLE 15; Derogation in time of emergency: "1. In time of war or other public emergency threatening the life of the nation any High Contracting Party may take measures derogating from its obligations under this Convention to the extent strictly required by the exigencies of the situation, provided that such measures are not inconsistent with its other obligations under international law."
- ARTICLE 16; Restrictions on political activity of aliens: "Nothing in Articles 10, 11 and 14 shall be regarded as preventing the High Contracting Parties from imposing restrictions on the political activity of aliens."
- ARTICLE 17; Prohibition of abuse of rights: "Nothing in this Convention may be interpreted as implying for any State, group or person any right to engage in any activity or perform any act aimed at the destruction of any of the rights and freedoms set forth herein or at their limitation to a greater extent than is provided for in the Convention."

All member states of the CoE are obligated to ratify this international convention to national law, superior to any national contradicting laws. Such NHRL (National Human Right Law), like the Norwegian 'Menneskerettsloven', are very easy to make for any national parliament, - still after half a century's intentionally delays. Such LEJ unlawfulness passivities can only be explained by fatal PROSA corruption in all the European prey nations' LEJ Powers. (See more about NHRL in UU 2016.juli.01.)

Anarchists, terrorists, hooligans, pirates, net-troll, autonomos, suicide bombers, activists etc. are the same kind of 'suckers', of the 1st, 2nd, 3rd, 4th and 5th Pyramid Games. The most fatal 'anarchistic terror attack' was 'The Shot in Sarajevo', - the execution if the Austrian emperor's son and his pregnant wife. All heirs of the emperor's Throne were executed. It was all done by a single youngster without any relations – the mass media and history books claims. This fatal 5D event triggered the WW1 in accordance with the 2nd International and the 2nd Pyramid Game. (See more in UU 2016.mai.27.) Seriously, - it was most certainly an act of European war, planed and triggered by the world's most powerful military forces, - even though the evidences might be gone in the war. Deceiving wars of propaganda is part of modern warfare and will be talk about in a future blog in this UU theme. Similar scapegoats and 'suckers' are many, - like the psychiatric case 'Thomas Quick'. That will be talked about in the next UU. Anyways, it is safe to say that these 'suckers' of the Pyramid Games are highly manipulated by extreme means.

According to the 3rd Condition of the 3rd international, PROSA agents; "have the obligation of setting up a parallel organisational apparatus which, at the decisive moment, can assist the party to do its duty to the revolution ... (and it is) .. necessary to combine legal and illegal activity." (C3) In organizational thinking, which are analogous to biology of organisms, PROSA agents are obliged to act like parasites. Such are programmed like para organisms inside the host organizations in order to cause CCD (Colony Collapse Disorder) as preparation to the CdE (Coup d' Etat). The issue has been mentioned in previous blogs. (UU 2016.juni.24)

- "Some final meta-philosophy concerning the humanity and its LQ (LifeQuality) is taken from UU 2014.aug.22 and UU 2014.dec.19: "Parasites cause another alarming manipulation of the UnderConscience Drive (UD). It sound more fantastic than hypnosis. However, to get the idea, it is recommended to see the TED video 'Ed Yong: 'Suicidal crickets, zombie roaches and other parasite tales'. It shows that collective synchronicity amongst animals are not always motivated by interpersonal socializations. In certain occasions, their UD is controlled by physical parasites that uses the hosts against their own good and to the parasites' gain. In any case, - such similar psychic activities for collective remote control of group synchronizations is certainly the situation documented in the previous century as so-called political 'folks' movements'."
- "No doubt, the folkshool, folkchurch, 'Confederation of Trade Unions' (LO) and folkmovements (folkeskolen, folkekirken, og folkebevegleser) are means indifferent to parasite remote controlled schizophrenia and psychoses, that ultimately can cause neuroses."
- "Theories of parasite activities can thereby cause rather intriguing thoughts in relation to IT (Information Technology). Data-viruses are well known and people show strong addictions to the net and all kinds of IT equipment. It is of cause quite natural according to Carl Jung's theories about social dependencies. How frustrating it is when the net is unavailable for the mobile, PC and TV. However, there can be more than simple data viruses that manipulate the information. Uncritical utilizations can cause manipulations of persons similar to hypnotic states and parasite activities. That might change the behavior un-consciously and against a person's will. Furthermore, biological IT implants are highly unusual – till now. But people have great tendencies towards self-medicating with psychotic drugs to alter the UnderConscience. Therefore, 'hypnotic' 'parasites' might be used as willingly if it becomes an option. IT dictionaries should include a new term 'data-parasite' in addition to 'data-virus'. Although not directly relevant for the yes/no referendum, - it is highly relevant for in-depth analysis of national political cultures thereafter."

Present anarchists depend on Information Technologies like computers, mobile phones and internet. Drugs, IT and hypnosis are used to radicalize youngsters to even commit murder, - as the 'Halloween murder' in Norway proves. (See link hereunder). This method was previously exposed in Denmark, proving an old 'cold case'. "The DR documentary 'Crimes under hypnosis' (Forbrytelse under Hypnose) and the relation to NLP

(Neuro-linguistic programming) is mentioned. (See also the related Derren Brown's TV episode 'The Assassin'.) Terms like mass-psychosis, brainwash and indoctrination can surely be related to such unsound S-E/S-I relations. Identifications of such ulterior and abstract organizations might be easier with use of metaphoric terms like 'The Psychopathy' and 'The Sociopathy', to relate their activities of mass-psychopathy and mass-sociopathy to the psychosocial Games. (UU 2013.april.19 and UU 2016.juni.24)" Anyone can nowadays act like an 'Avatar', willingly or not, by abuse of mobile phones as audiovisual tools for observation, manipulation and commanding, - not knowing, at all times, who are really on the other end of the hyper-space. A VR (virtual real) 'friend' might be a real manipulating tempter of Honeypot Games.

No doubt that 'The Pirate Bay' is a dedicated parasite organization in order to corrupt 'Western' IPR (intellectual property rights). As talked through in UU 2016.juni.24. "Dane crises in the Executive power shows different indications. This was mentioned in UU 2014.nov.28: "The massive cybercrimes against the Police, Military, Tax-authorities Public health in CSC Denmark and IBM mainframes were executed by disloyal employees, remote computers in Pirate Bay and controlled from Asia. The delays in police investigation indicate massive organized crimes that also include employees in the Danish police force. Therefore, it is simply beyond any nativity to claim that this major operation was organized by two young sociopaths." "Most alarming is the extensive use of the hackers' favorite operating system - Linux. Anyhow, the ongoing trial in Denmark is most probably just the tip of an iceberg in all of the public sectors in all NATO nations." Furthermore as mentioned in UU 2014.dec.12 "Most alarming is the recent take-over of all IBM Intel Server in all NATO nations public and private sectors. (See UU 2014.nov.28.) Big Blue made Big Red by handing over the needed resources, network, servers and technology to execute considerable IT hacking, espionage, and info/money manipulations." NATO nations' public sectors do not seem to realize that most of their main IT systems are now legally in Chinese control too." Dane public IT shows serious indications that the social Superior Egos is on a destructive path that might become irreversible. The whole LEJ might be involved."

Quite recently, the personal identity (CPR), including sensitive health data, of all 5 million Danes were 'accidentally' delivered to the Chinese visa authorities, - unencrypted and by mail. No wonder there are reports that Chinese computer hacking has reduced recently, - when all Dane citizens' central key information is probably now in use by Chinese secret service MSS and Russian FSB. They got direct access to most public databases now, with help from PROSA agents in the Dane public sector. Knowing very well that PPP was raised street gangs of Leningrad, - such sensitive personal information of European 'petty-bourgeois elements' (C13) are most certainly powerful means for processes to radicalize Dane citizens into unwilling anarchists. Red Mafia methods appear like cloaked Sexual and Underworld Games as; NIGYSOB (Now I've Got You, You Son of a Bitch) and Schlemiel, SWYMD (See What You Made Me Do), ITHY (I'm Only Trying to Help You), LPAFJ (Let's Pull A Fast one on Joey), LYAHF (Let's You and Him Fight), DAC&UAC (Devide&Conquer & Unite&Conquer), ISR (It Started with the Retribution), ABD (Attack is the Best Defense), Jante/TUD (The Ugly Duckling), TLM (Two Little Maids), BGGG (Bad Guy, Good Guy), RPPP (Robbing Pete to Pay Paul), ODAB (One's Death - Another's Bread) and the Russian BOOFY (Beat your Own and Others will Fear You). (Games are further described in UU 2014.sept.12.)

The integrated PROSA network was revealed by the GRAF 'Blekingegadebanden' and their relations to 'The Jackal'. No parts the Dane Parliamentary LEJ Powers are untouchable for such PROSA powers. As mentioned in the concluding UU 2016.juli.01. "However, focusing on anti-democratic cyber-crimes in Europe, the Hyper-parliamentary Europol and Eurojust are definitely the International cyber-crime fighters. The Pyramid Game became very apparent in the Dane Europol referendum in 2015.dec.03. The Dane example of international referendum fraud should be investigated by Europol and brought to the EU Court. Furthermore, Dane, Norwegian and any other EU/EFTA nations should have their laws quality ensured in accordance to EU innovations." Anyone can be made an PROSA Anarchist.

However, the conclusive proposals related to PROSA Anarchists must be the same for the other victims of such organized international crimes. "Treasonous PROSA activities should not be rewarded with pensions and other benefits. By penalty law, such benefits shall end and should never been allowed to start. Likewise, the processes to defuse the Italian Mafia should be a concept against other mafias." "Anyone can

be terrified of losing job, wages that is vital to support family, home and future. Most gives in to such mafia to save their wives, children and homes. However, the history throughout the Pyramid Games clearly and evidently proves that the Parliamentary LEJ is too corrupted for such 'glasnost', - even in Norden. Yet, humanity's evolvement do now provide hyper-democratic solutions." "Any citizens exploited by PROSA organizations have now the opportunity for hyper-democratic expressions. Any PROSA victim have the opportunity to explain themselves, to confess and alert about illegal PROSA corruption, - even anonymous. Anyone can write down their experiences, opinions and will. Anyone can uploaded it to hyperspace as documents to relevant web-cites in 'The Cloud'. Such 'whistlers' should not be punished, but rather protected and have their pensions and benefits revived for restart. International LEJ powers, and not merely national LEJ, should deal with the international criminal organizations." (UU 2016.juli.15)

The Ukulele Orchestra of Great Britain (UOGB) was founded in 1985 play and sing music from a variety of musical genres. They have performed in many places worldwide since, including New York's Carnegie Hall, the Sydney Opera House, London's Royal Albert Hall and Glastonbury Festival and has toured the USA, Canada, Japan, China, New Zealand, Australia, Germany, France, Belgium, Austria, Sweden, Finland, Estonia, Norway, Ireland and Great Britain.

High praise has been forthcoming from the press for live shows. Often the orchestra will provide advanced notice of an audience participation number. A typical UOGB concert comprises songs and instrumentals from a variety of musical genres: regulars include Kate Bush's "Wuthering Heights" reworked as a swinging jazz number, Ennio Morricone's theme to The Good, the Bad and the Ugly, Tchaikovsky's "Dance of the Sugar Plum Fairy", "Anarchy in the UK" performed in the style of Simon and Garfunkel, and the theme tune from Shaft. The Orchestra also compose and perform their own pieces, as well as arranging medleys - for example, David Bowie's "Life on Mars?" is melded with "My Way", "For Once in My Life", "Substitute", and more.

The Sex Pistols were an English punk rock band formed in London in 1975. They are considered one of the most influential acts in the history of popular music, having initiated a punk movement in the United Kingdom. Their concerts repeatedly faced difficulties with organizers and local authorities, and public appearances often ended in mayhem. Their 1977 single 'God Save the Queen', attacking social conformity and deference to the Crown, precipitated the 'last and greatest outbreak of pop-based moral pandemonium'.

'Anarchy in the U.K.' is number 56 on Rolling Stone magazine's list of the 500 Greatest Songs of All Time. The lyrics endorse a particularly sensational, violent concept of anarchy that reflected the pervasive sense of embittered anger, confusion, restlessness, economic frustration and social alienation which was being felt by a generation of disenfranchised youth amidst the declining economic situation and bland music scene of the mid-1970s. Sex Pistols manager Malcolm McLaren considered the song "a call to arms to the kids who believe that rock and roll was taken away from them. It's a statement of self-rule, of ultimate independence."

The association to this version of 'Anarchy in the UK' is the close relation of PROSA Oligarchs and PROSA Anarchists – singing along in the Royal Albert Hall.

Pink Floyd - The Division Bell / High Hopes

2016.aug.12

Ukens Utvalgte

'Pyramid Game Over' provides 12 suggestions to promote 'Western' Parliamentary Qualities. 'P5G006 – PROSA Separatists', aims to reduce their criminal activities towards the Democratic Parliamentary Systems during this 5th Pyramid Game. Per definition, Separatists encourage, aid and promote divisions, distrust and hostility towards parliamentary and local rulers. Such PROSA acts spans myriads of Games that violates 'Western' Penalty laws. However, PROSA might not be hierarchal, - with Separatists as a para middleclass. PPP is an evidence of that. Likewise, unwilling and unconscious Separatists might be head of empires like in nova-SU, UK and US. This will be discussed after some theoretical and historical introductions.

PROSA Separatists are obligated, according to the 21 Conditions of 3rd International, to cause CCD (Colony collapse disorder) in European and American states, - in order to cause and support CdE (Coup d' Etat). All the conditions are listed in the link under. The previous UU 2016.aug.05 quotes the most relevant Conditions that are similar for PROSA Oligarchs. Here is a brief summary of the PROSA obligations: C2; "...methodically remove reformists and centrists from every responsible post in the labour movement (party organisations, editorial boards, trades unions, parliamentary factions, co-operatives, local government) and replace them, ..." C3; "In almost every country in Europe and America the class struggle is entering the phase of civil war. They have the obligation of setting up a parallel organisational apparatus which, at the decisive moment, can assist the party to do its duty to the revolution. In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity." C13; "... cleanse the party systematically of the petty-bourgeois elements (loyal citizens)."

A main Game for PROSA Separatists is DAC/UAC (Divide&Conquer / Unite&Conquer). DAC is an ancient strategy used in most power-struggles. Therefore, DAC/UAC Games often consist of complex sets of other tactical Games like; LYAHF (Let's You And Him Fight), LPQOJ (Let's Pull a Quick One on Joe), TOL (Tuppen Og Lillemor / Jante / Two Small Maidens). Moreover, BGGG (Bad Guy – Good Guy) is used to create the masspsychopathic attitude of OK-NOK (we are OK – you are not OK), which somehow legitimize the Game RPPP (Robbing Pete to Pay Paul). Ethics of GCR are propagated as 'We Good – You Bad', 'We Constructive – You Destructive' and 'We Right – You Wrong'. Political PROSA Separatists insist that Parliamentary politics

are 1 Dimensional, like 'Left vs Right', 'Red vs Blue' and 'East vs West'. Ultimately, Games of divisions concerns Throne vs State vs Temple.

Wikipedia elaborates on the tactic: "Divide and rule (or divide and conquer) in politics and sociology is gaining and maintaining power by breaking up larger concentrations of power into pieces that individually have less power than the one implementing the strategy. The concept refers to a strategy that breaks up existing power structures, and especially prevents smaller power groups from linking up, causing rivalries and fomenting discord among the people." "Elements of this technique involve: Creating or encouraging divisions among the subjects to prevent alliances that could challenge the sovereign. Aiding and promoting those who are willing to cooperate with the sovereign. Fostering distrust and hostility between local rulers. Encouraging meaningless expenditures that reduce the capability for political and military spending. Historically, this strategy was used in many different ways by empires seeking to expand their territories. The concept is also mentioned as a strategy for market action in economics to get the most out of the players in a competitive market."

Games, like Secret Services plays, are per definition deliberately deceiving, always denied and are therefore hard to detect. However, the 3D+time model can uncloak such PROSA Separatists as 'red blinking dots' on the political map. "Political organizations changes over time. It appears in a 3D+t model, where the 3D political powers show movements over time. Terms like conservative and radical are not fixed positions in 3D, but shows stillness and movement. Organizations can even be relative conservative or radical over time. LO is probably the Norwegian government's most conservative organization despite its extreme-radical origins. On the other hand, conservative organizations of the previous century can be relatively radical now, because they are not in position, but opposition. The 3D+t model can also show organizations that comes and goes. Especially will the relation of short-lived extreme organization show to be pulsating constants in the model, like the series of the pro-Russian separatist parties NKP, AKP, AKP-ML, RV and Rødt." "Note that extreme anti-powers will show up on the negative scale on the opponents' axis. In this case they will position themselves with values (-10, +10, -10) where the axis's are Throne, State, Temple. Furthermore, the majority is not as exposed as in registered political parties. Most are secret hardcore Underworld Game-player of CdE." (UU 2014.juni.27)

Originally, the term PROSA derived from the Russian hostilities towards neighbor nations in order to found the Nova Russia Empire. See the BBC documentary 'Putin, Russia and The West' in UU 2014.nov.07, UU 2014.nov.28, UU 2014.nov.21 and UU 2014.nov.14. 'Pro-Russian Separatists' (PRS) was a new term by mass media on GRU (Russian secret army) that supported assaults on Ukraine regions. Still, "the borders and sovereignty of Georgia and Ukraine are crystal clear and can be looked up by anyone at the UN web-site. Today's Russia, with the FSB puppet president, have annexed 2 Georgian provinces, the Ukrainian region Crimea and have initiated supported and secretly executed warfare against several Ukrainian regions." "Russia 'invaded' with 250 trucks to East Ukraine on august 22th and called it humanitarian help." Typical PROSA Separatists are the outlaws 'Hells Angels wannabe' playing Russian werewolves on bikes. They were supporting PROSA warfare in Ukraine regions, posing with PPP, - proving they are 'You and Me Both'. PPP himself, was raised amongst the Leningrad mafia, learning Underworld Games, before recruited as FSB agent in east-Germany and placed in the Russian Presidents seat. Some clips from UU 2014.nov.21.

- "The episode 'Democracy threatens' shows how the Ukraine Orange peoples movement was sabotaged by PROSA in order to keep their puppet president. "The Orange campaign manager was called to a meeting with secret service officers that were close to Putin, but he would not cooperate." "The Orange leader Viktor was seriously poisoned with dioxin that would normally put him out of the campaign. The puppet president won despite several disputed happenings. However, the Supreme Court had to investigate the election, when both sides accused the opposite for swindle. The Orange won the new and monitored election."
- Consequently, "... president Putin was requested to leave the G20 meeting very early due to all the improper doings. Why do this at so high cost and so low success rate? 3 official main reasons stand out: 1. They need for land connection to the illegally annexed Crimea and the Black Sea. 2. To strengthen the rebelling Ukraine provinces for future annexations. 3. To challenge Ukraine, EU and NATO (for nationalistic support). They are likely reasons, - actually, there might be need to control

all the land areas around the Black Sea including Crimea, Greece, Cyprus, Syria and possibly Suez for unhindered access to the Pacific and China. However, - Game analysis indicate complex ulterior blurry motives that lies under the surface. It is necessary to look into its 500 year history of geopolitics, regional rivalries and obligations to the title 'Roma3'."

Additionally, Russia is a member of the European Human Rights Organization. Its name, Council of Europe (CoE), is mistakenly close to the European Council, the decision board for EU member states governments. The present leader of CoE has tight relations to LO and thereby the 3rd International, been leader of AUF, AP party leader, minister for foreign affairs and prime minister. He is reputed for political scandals, - however always somehow slips away, - leaving a political mess behind. As leader of the Nobel Peace prize committee, he personally provoked the Chinese revealingly so trade has suffered badly since then. China got a seat in the Arctic Board instead of EU, - as what seems a compensation. These provoking intrigues overshadows Dalai Lama's messages for HR and national sovereignty. He still provokes the Chinese as leader of the CoE, mistaken as EU, even though his mandate concerns merely Europe. On the other hand, CoE was silent during the massive HR violations of the Russian warfare toward Ukraine. CoE do not encourage European nations to ratify the signed Human Rights conventions that includes exception for protection against sociopaths. A PROSA Separatist in a para-organization would operate no different.

Norden has been most heavily exposed to the 3rd Pyramid Game, - in particular the DAC strategy Game and subordinated Game of division. A major reason is due to the international para-organization LO that has been a host for infiltration, manipulation and DAC Games. Taken from UU 2014.okt.31. "Anyways and finally about the 500 years old Nordic Union. The Nordic council is actually somehow like a Nordic union. It is however far from what it could be and should be. In 5D 3x3 relation, it is clearly a result of centuries of 4th degree DAC Games. A summary from UU 2013.mai.31 says: «The cold war is also called 'a balance of terror' between SU and US. Norden however, was not in balance, but terrorized mainly by Roma3. Today, one can still see that Norden is organizationally bound to Kaliningrad, Leningrad and Murmansk. These 3 cities are like a 'Baltic Cuba', KGB/FSB headquarter, and the Arctic nuclear test-site. Furthermore, there are direct ferry lines between Kaliningrad-Gdansk-Copenhagen-Oslo. Sweden and Finland have probably similar lines. Direct influence is shown by the increasing terror-flights towards the Nordic nations with Russian bombers made for nukes. It is done to recall memories of SU terror bombing of Bornholm in ww2, and the plans to make Copenhagen/Sjælland (Selandia) an 'East-Denmark', like East-Germany and East-Europe. This (OB) fear influences effectively the agenda and decisions in the Nordic Council of Ministers. Therefore, it is time to start rotating the housing of the Council, - like EU does. Consequently, Norden might finally come out of the Cold War freeze." The inefficiency of the Nordic council is a most evident example on manipulated para-organization. For example, it should be the most vital organization for the Nordic governments to solve the crises of 'immigration tsunamis' from the Arabic Spring countries. The council was paralyzed by PROSA Separatists, - as usual.

America is not the focus in this UU, although important to mention. The upcoming US presidential election was focused in the previous UU 2016.aug.05, since the cloaked 3rd Party candidate is so clearly a PROSA Oligarch sponsored into their rival's political party. That seems like a 4th degree DAC Game toward the US, with cascades of supporting Games. The Games are founded in the 3rd Pyramid Game, based on the 21 Conditions of 3rd International, in order to cause CCD (Colony collapse disorder) in European and American states.

However, Brexit is in focus in this UU and was an issue in the previous UU 2016.juli.08. No doubt that the main propagandists and PROSA Separatists were Boris and Nigel of 'Londongrad'. The video, "Last Week Tonight with John Oliver" exposed their Game well. European political leaders expressed; "Patriots don't resign when things get difficult." "Instead of developing the plan, they are leaving the boat." "UK has collapsed - politically, economically, monetarily and constitutionally, and you will have years ahead of you to get out of this mess". Some more quotes from UU 2016.juli.01 elaborates the ongoing Pyramid Game.

- "Brexit is a hyper Pyramid Game toward the British Parliament in order to cause CCD, CdE and eventually re-connect UK to Nova-Russia and nova-Mongolia. The most apparent PROSA attacks prior to the referendum at 23/6 were; football Game-fixing and money laundry, Muslim refugee tsunamis, red mafia attacks at English football supporters in Spain, assassin of a British member of

parliament in London and endless parroting Pravda by the mass media's and certain politicians like Boris Johnson. Soon after, England surprisingly lost in football EM. Losing soccer sounds extra humiliating in English. However, there have been considerably Chinese silent activities in the English Throne that are related to the Brexit Game. The encounters are described; "They were very rude to the ambassador," the Queen interjected. "They walked out on both of us," the ambassador added."

- "Therefore, Brexit seems most of all a joint Russian/Chinese attempt to divide Europe with threats and temptation of Asian trade, - like UK used to in the 'Commonwealth'. However, neither nova-Mongolia nor nova-Russia means no pity or mercy in this 5th Pyramid Game. As the annexation of Hong Kong, UK did not dare to utter any objections while nova-Mongolia took control, like they did CdE in Beijing in 1949." "Now, the Pacific/Atlantic trade will increase considerably with the expansion of the new Panama Canal. China needs UK as a harbor."
- "It will be interesting for UK and EU to see the results of the Australian election in 2016-07-02, the Hong Kong election in 2016-09-04 and the USA election in 2016-11-16. Previously China has taken a seat in the Arctic Council instead of EU. That is in Russia's interest. Anyways, a referendum is not legally bounding to the Parliament that does not have to leave the EU, especially if it was manipulated like some match-fixers in football."
- "The political systems of England and Norden are surprisingly correlated. England should compare the Political Games of Norway in the period of 2011-2013 with their own present political power-struggles in their Labour party. The Norwegian 'Arbeiderpartiet (AP), 'Labour Party', is unable to free itself from the 3rd Pyramid para-organization LO (The Confederation of Trade Unions')." "EFTA is a para-organization to EU. EFTA is highly dominated by Norway via LO influences and thereby the 3rd International of the Comintern, the Moscow Thesis. LO is basically still a 3rd Pyramid organization, as described in UU 2016.juni.03."

British history influence decisions and events during the Pyramid Games. No doubt, that Roma1 invaded and occupied Britain 2000 years ago. It roots deep in British UnderConscience, Conscience and OverConscience of their collective Drive, Will and Beliefs. (See 3^3 socialpsychological model in UU 2014.sept.12.) Even Dane/Nor invasions by Vikings influence today's collective opposition towards England by the Irish and Scottish peoples. Likewise, there must have been serious deals between Britain and Roma2 since Britain contributed massively to the Crusades. (UU 2016.mai.13) Less known is the 500 years British/Russian relations between Queen Elisabeth I and Tsar Ivan of Roma3 concerning trade and security (UU 2014.okt.31). Additionally, Britain was somehow on the sideline of the European wars, like the Napoleon wars, ww1 and ww2.

The 1st Pyramid Game is therefore relevant to the situation (UU 2014.okt.31). "The Danish princess Dagmar from Holstein was married into the Russian Throne in the Winter Palace, presumably as a compensation to the Danish losses in Russian war Games. As the last and surviving tsarina, her history is important to understand Norden in a 5D 3x3 view: "Dagmar's journeys were mainly to Crimea, Kiev, England and Denmark. Her favorite sister that was named Alexandra too (like her despised daughter in law from Germany). Her sister was married with Albert Edward of Wales that became King Edward VII. The 'mysterious' reason for believing that England would join the Schleswig-Holstein war against Germany in 1864, can be due to some fatal and faulty LYAHF Games with the Danish and Russian Thrones at stake. (It is a similar illusion exactly 50 years later when it was believed that England would be involved and try to save Tsar family in 1914). The two Danish princess-sisters have probably always played Games together as Child and Adult in the English, Russian and Danish houses. This again provides associations to the first tsar Ivan and his chaotic 'Court'. (UU 2013.Mai.24)" The princesses' obsessions seem to still influence royalties of the three thrones.

Also relevant for the Brexit event is that UK got the 'Pax Britannica', an exclusive right to dominate the Atlantic Sea. UK got it when 'the Concert of Europe' (Congress of Vienna) constituted in 1815 and secured peace and diplomacy for a hundred years in Europe. (UU 2013.feb.22 and UU 2013.juni.21). Britain became a sovereign trans-Atlantic force in-between Europe and America. However, Britain expanded to the Pacific Sea and prospered greatly on that trade. Yet, the British Empire crumbled during the cold war though. The

nova-Mongolian expansion in Asia squeezed UK to retreats. The annexed financial hub Hong Kong is now supported with Oligarchs of 'Londongrad' and contributed massively to the global financial crisis (UU 2014.dec.12). This 5th Pyramid Game has just started. The Beijing regime do not consider UKQ and her royalties any better than their own last emperor and supporters, - or Tsarina Dagmar's feudal empire.

The UK Queen is Head of State of the UK and 15 other Commonwealth realms. She is Britain's longest-reigning monarch at an age of 90 years. All respect for the deeds that has kept UK out of the European wars. However, personal aging and total conservatism seems not to handle the new realities of UK in this century well. Brexit proves that UKQ felt that their Asian affairs were more important than their European relations were. That is very wrong, seem from UK, EU, US and Pax Britannia. It does however please PROSA Separatists like PPP. If so, the Game players do violate British laws of high Treason. In UK, the Penalty law protects the Throne against those who "compass, imagine, invent, devise, or intend ... to deprive the sovereign of the Crown ... to levy war against the sovereign ... by force or constraint to compel her to change her measures or counsels, or in order to put any force or constraint upon or in order to threaten or scare Parliament, .. to move or stir any foreigner to invade." (UU 2016.juli.08) UK authorities are obliged to investigate PROSA Brexit Game players for possibly high treason towards the UK Crown.

The UK Queen appears to be a major PROSA Separatist of Europe now, - unwillingly - by force and constraints to change her measures or counsels. It is not unfixable though, - yet unlikely, since it requires to realize that this century's challenges for UK cannot be resolved by a past century's Queen. UKQ can never reveal her Games, admit her faults or ask for help. However, the situation of this 5th Pyramid Game can very well compare to the eve of the 1st, 2nd, 3rd and 4th Pyramid Games. In this situation, - it is wise to step aside and let the next generation rule the UK Throne. These words must be hard to comprehend for orthodox royalists, - however hopefully not so for the modern royalists of this century.

Pink Floyd were an English rock band formed in London that achieved international acclaim with their progressive and psychedelic music. Distinguished by their use of philosophical lyrics, sonic experimentation, extended compositions and elaborate live shows, they are one of the most commercially successful and influential groups in the history of popular music.

Pink Floyd were founded London in 1965 by Syd Barrett on guitar and lead vocals, Nick Mason on drums, Roger Waters on bass and vocals, and Richard Wright on keyboards and vocals. They gained popularity performing in London's underground music scene during the late 1960s, and under Barrett's leadership. Guitarist David Gilmour joined in December 1967; Barrett left in April 1968 due to deteriorating mental health. Waters became the band's primary lyricist and eventually their dominant songwriter, devising the concepts behind their albums *The Dark Side of the Moon* (1973), *Wish You Were Here* (1975), *Animals* (1977), *The Wall* (1979) and *The Final Cut* (1983). *The Dark Side of the Moon* and *The Wall* became two of the best-selling albums of all time. Wright left Pink Floyd in 1979, followed by Waters in 1985. Gilmour and Mason continued as Pink Floyd; Wright rejoined them. The three produced two more albums, *A Momentary Lapse of Reason* (1987) and *The Division Bell* (1994). Pink Floyd reunited with Waters in 2005 for a performance at the global awareness event Live 8, but Gilmour and Waters have no plans to reunite. Barrett died and Wright ten years ago.

"High Hopes" is composed by David Gilmour with lyrics by Gilmour and Polly Samson. Its lyrics speak of the things one may have gained and lost in life. Gilmour has said that the song is more about his early days than about the seeds of division supposedly planted in Pink Floyd's early days.

The association here, to 'The Division Bell' is Brexit and that neither Pink Floyd or UK can ever be the same. Pink Floyd - High Hopes [The Division Bell] (Album version) + Lyrics

‘Pyramid Game Over’ provides 12 suggestions to promote ‘Western’ Parliamentary Qualities. ‘P5GO05 – PROSA Oligarch’, aims to reduce criminal corruption in the Parliamentary Powers. Such acts are violations of ‘Western’ Penalty laws - everything from petty thefts to high treason. Oligarchs of the 5th Pyramid Game are the main puppets placed as ‘Kings of the Castles’ in order to execute the 21 Conditions of 3rd International. This UU sets focus on such moles that have earned their status as secret peer agents. As a final point, some thoughts are presented about the obviously main prize of this 5th Pyramid Game, - the Puppet Presidents (PP).

PROSA means ‘Pro-Russian Oligarch, Separatist and Anarchists’ in Pyramid Games. Wikipedia elaborates on oligarchs: “Oligarchy is a form of power structure .. with a small number of people .. by royalty, wealth, family ties, education, corporate, religious or military control. Oligarchies have often been tyrannical, relying on public obedience or oppression to exist.” “They drew lots from large groups of adult volunteers that pick selection technique for civil servants performing judicial, executive, and administrative functions. They even used lots for posts, such as judges and jurors in the political courts, which had the power to overrule the Assembly.” “The term Russian oligarch is used to describe wealthy businessmen of the former Soviet republics The failing Soviet state .. allowed for informal deals with former USSR officials as a means to acquire state property.” “A significant number of Russian oligarchs have bought homes in upscale sections of London in the United Kingdom, which has been called ‘Moscow on Thames’ and ‘Londongrad’.” “Post-Soviet business oligarchs include relatives or close associates of government officials, even government officials themselves, as well as criminal bosses ...” “Putin apparently engaged in a power-struggle with some oligarchs, reaching a "grand bargain" with them. This bargain allowed the oligarchs to maintain their powers, in exchange for their explicit support of – and alignment with – Putin's government.” The 5th Pyramid Oligarch are rather mafia businessmen than treasonous bureaucrats.

PROSA Oligarchs are thoroughly selected and tested to earn the most powerful positions in unions, parties and the rest of the European and American Parliamentary systems. It was treachery before and under WW2, during the Coldwar and is most definitely treasonous by Penalty laws in this century. Here are some examples of their obligations according to the 21 Conditions of 3rd International:

- C2; “... must regularly and methodically remove reformists and centrists from every responsible post in the labour movement (party organisations, editorial boards, trades unions, parliamentary factions, co-operatives, local government) and replace them with tested communists, ...”
- C3 “In almost every country in Europe and America the class struggle is entering the phase of civil war. They have the obligation of setting up a parallel organisational apparatus which, at the decisive moment, can assist the party to do its duty to the revolution. In every country where a

state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity.”

- C9; “... must systematically and persistently develop communist activities within the trades unions, workers’ and works councils, the consumer co-operatives and other mass workers’ organisations. ... necessary to organise communist cells ... obligation to expose everywhere the treachery of the social patriots and the vacillations of the 'centrists'. The communist cells must be completely subordinated to the party as a whole.”
- C11; “... parliamentary factions to review, to remove all unreliable elements from them and to subordinate these factions to the party leadership, not only in words but also in deeds, ...”
- C13; “.. undertake purges (re-registration) of the membership of their party organisations in order to cleanse the party systematically of the petty-bourgeois elements (loyal citizens) within it.”
- C21; “Those party members who fundamentally reject the conditions and Theses laid down by the Communist International are to be expelled from the party.”

These 21 Conditions documents that the PROSA Oligarchs’ corruption of ‘Western’ Parliamentary systems have been extensive in this 100 years’ war against ‘The West’, - by building high treasonous para-organizations in European and American parliamentary systems. In Norway, the party ‘Arbeiderpartiet’ (Labour) and the union ‘LO’ (The Confederation of Trade Unions) signed the ‘Moscow thesis’ in the ‘20’s. The bondage has never been mutually terminated, - although some local contra-referendum indicates so. Clearly, it is still the parties’ and unions’ main politic. The present 5th generation of PROSA Oligarchs seem to overrule national parliamentary systems on vital domains and events. They are still obligated to such crimes “systematically and pitilessly” with “legal and illegal activity” (C1).

Some previous blogs have touched several of these ‘political activities and passivities’ that are summarized in UU 2016.juni.10, UU 2016.juni.24 and UU 2016.juli.15. Although mainly about Nordic nations, it applies on most European nations and American states too.

- “The second pillar, the Executive power, was discussed in UU 2015.okt.23 to set focus on apparent indications on dysfunctionalities.” “The Dane Executive power is known as the ‘Public Sector’. It is committed to provide products and services to Dane citizen and society as the Parliament and its Government order. A main reason to serious mismanages is obvious, - public servants are rarely investigated and put to trial according to the national penalty law. Some coldwar public servants are ‘untouchables’ to the Legal system.” Furthermore, “The relations in Dane and Nordic societies become far more transparent when knowing the 100 years rise of the Red Mafia and the accordingly corruption of LEJ (Legislative/Executorial/Judicial powers). The public sector has cold war legacies that are not applicable, and even illegal, to this century’s Denmark and Europe.”
- “The conditions and potentials of the nations are well documented in the OECD report ‘Government at a Glance’ and the Produktivitetskommissionens rapport (UU 2015.juni.05 and UU 2015.juni.26). Furthermore, Denmark and Norway seem to have some of the same fatal malfunctions in Police and Military as concluded by the Norwegian ‘22/7 Commissions report’. As talked through in UU 2014.okt.17. “The economic crimes of scandalous public projects and services are mentioned in UU 2013.nov.01. UU 2013.sept.27 describes the basic professional knowledge about qualitative governing, maintain and innovating public services, - in addition to the massive critique in the 22/7 Commission’s report.” For 3D political model, the para-LEJ organization LO is negative toward Dane LEJ and main reasons why the LEJ Quality score is beneath the acceptable for European nations.”
- “The nature of crimes are far more comprehensive than the coldwar press indicates. As talked through in UU 2014.okt.24. “The article ‘Political corruption’ in Wikipedia mentions the infamous term ‘cleptocracy’. The word suits well to the terminology in UU 2013.april.19. “The article mentions several types of corruption like; extortion, comradeship, scandalizing, electoral cheating, fraud, ‘financial mess’, bribery and mafia activities. Global corruptions concern mainly drug-trafficking, human smuggling and whitewashing of money. The annual global political corruption is estimated to be about 1 trillion \$/year, the global GWP is about 70 trd \$/y and the Norwegian (and Dane) GNP is about 1 trd Kr/y. This means that the Norwegian (and Dane) political corruption is about 2% of the state’s budget, i.e. about 20 mrd kr/y. That suites the thumb-rule that there is an average of 2% disloyal employees (in most firms).” This also include terms like industrial espionage,

information thefts, sabotage, pillaging, manipulation, disinformation, prostitution, slavery, narcotics, weapons, robberies, terror, and tax-fraud.” (UU 2015.sept.25)

- “The PROSA Union bondage (Pro-Russian Oligarch, Separatist and Anarchists) is easy to undo in a well-functioning Parliamentary system - by simply enforcing national laws. However, in fact, such crimes are rather rewarded than hindered when Rule of law is prejudicial corrupted. Not merely the Executive public sector, but also the Judicial Parliamentary system appears corrupted by the 5 Pyramid Games. For example, International criminal organizations won the Dane Europol/Eurojust referendum in 2015 and thereby proved that their whole LEJ is corrupted (Legal, Executive, Judicial parliamentary powers). Originally, the PROSA crimes stem from Lenin’s 3rd International and its autocratic 21 Condition, - as CCD (Colony collapse disorder) preparation to WW2. The pact was made by certain treasonous Labour Organizations and political Parties, - like LO and AP (Arbeiderpartiet). These are still remote controlled by Russian Oligarchic Trade organizations that dominate trade in the public sector. The announced war-declaration on the ‘West’, i.e. Europe and America, will be re-activated if not rejected by true ‘working class heroes’ in the ‘Western’ democratic civilizations.”
- “Most employees in the public sector are forced into the 3rd Pyramid Labour Organization like LO, which counts for half the employees in the Nordic nations. Therefore, the 98% members in LO are bound by contract to treason against their own nations. Few members of LO realizes this sociopathic and criminal bondage, - and most who does and opposes that are punished in Games like the Russian BOOFY (Beat your Own and Others will Fear You). Opposing citizens are considered, at the best, as “(C17) ... social-democratic’ or ‘socialist’ parties that have betrayed the banner of the working class.”
- “However, it is a Stalinist mafia organization that uses all such methods for power and dominance against society as well as citizens. Anyone can be terrified of losing job, wages that is vital to support family, home and future. Most gives in to such mafia to save their wives, children and homes.”

The targets of PROSA oligarchs’ are surely powerful ministries like; Defence, Research, Finance, Food, Foreign Affairs, Health, Justice, Police, Military, Labor, Energy, Trade, Industry, Communications, etc. Most nations have also vital state controlled companies for; mail, trains, gamble, telecom, broadcast, energy, aircraft, banks etc. In addition, unions might control cooperation for: toll roads, energy, water, food, telecom, papers, etc. All to get PROSA Oligarchs are remote controlled to dominate the markets “systematically and pitilessly” with “legal and illegal activity” (C1).

National conditions and events seem very fragmented and unmanageable without any consistent model. The 3[^]3 socialpsychological Game models can be helpful to understand Games of PROSA Oligarchs. The models are simplified and suites most relations on personal, organizational and national levels. The following quotes are taken from comprehensive talks about the themes.

- “The Pyramid Game is not previously described as a psychosocial Game. It is, however, similar to other 3rd degree Underworld Games, - with potentials of 4th and even 5th degree. Pyramid might very well be a whole Game category that is common to other categories like KoC, GdE and GoT. Pyramid is commonly known by names like the ‘Pyramid scheme’, ‘Eight-ball’, ‘Airplane Game’ and ‘Gifting circles’. It is a Win-8xLose null-sum Game. The predator claims to have put money in the upper levels, while the recruited preys actually pay at the lowest level. The negative ethics for such Underworld Games are; ‘honesty is for suckers’ and ‘there is one born every minute’.” (UU 2016.mai.13)
- “The result is a joint Freud/Jung/Berne model called 3x3. This was further developed to the 3[^]3 (i.e. 3x3x3) model. It is explained and used from UU 2015.juni.05 to UU 2015.juli.24 about the Danish parliamentary election. “The terms are developed from-via-to: Id-Child-Drive, Ego-Adult-Will and Superior Ego-Parent-Belief. A second dimension of conscience is added in order to merge Jung with Freud’s 3-state; UnderConscience, Conscience and OverConscience. The third dimension contains of 3 subcategories of Drive, Will and Belief. These are interrelated via the conscience dimension. However, the subcategories are open for adaption and modifications to what is to be analyzed, for example persons, organizations, nations, empires or humanity. Furthermore, the subcategories are related to Game categories too, - which is not directly in the 3[^]3 model. For example, sub-categories for Personal level is; Drive (Sulk, Nerd, Jerk), Belief (Matriarch, Authority, Patriarch), while Parliamentary relates to

Will (Legislative, Executive and Judging (LEJ) and National/Imperial relates to Drive (Throne), Will (State) and Belief (Temple). A combination with collective Game categories were discussed in UU 2015.feb.27, UU 2015.mars.06 and UU 2015.mars.13 where: Drive (RF, AF and WL), Will (KoC, GdE and GoT) and Belief (UNO, WoW and SET).” However, the 3[^]3 model is too extensive to fully analyze Dan LEJ for this simple yes/no referendum. Some simple analysis will conclude this theme. It would however, be highly useful tool in the aftermaths order to heal Dane LEJ, like the suggestions on Howto heal Dane psychiatry in the Extra UU 2015.aug.28.” (UU 2015.nov.06)

- “More relevant for this UU’s Executive LEJ dimension is the next psychosocial ‘Will’ dimension. As initially explained in UU 2015.mars.06: “The merged 3x3 Game model does mostly apply to the social ego-state ‘Will’. Freud and Jung call it ‘Ego’, but Eric Bern called it ‘Adult’. This UU sets focus on three social Game categories of Will, namely KoC (King of the Castle), CdE (Coup d’ Etat) and GoT (Games of Temples). Such a large theme needs an archetype to grasp the idea, - a simple stereotype like Napoleon. The main reason to focus on Games is the simple truth that everyone lies and deceives. This reality is underestimated and have serious consequences, - as the Charlie incident in Paris showed.” “However, the most relevant Game category is rather called GdE (Games d’ Etat) that includes CdE and all the pre- and post-games related.” “Furthermore, “It was necessary to upgrade and extend the classic Freudian models to organizational levels in order to enable psychosocial analysis. The result is a joint Freud/Jung/Berne model called 3x3. This was further developed to the 3[^]3 (i.e. 3x3x3) model. It is explained and used from UU 2015.juni.05 to UU 2015.juli.24 about the Danish parliamentary election.” (UU 2015.nov.06)
- “The newfound Game BOOFY, based on a Russian proverb saying, “Beat your Own and Others will Fear You”, seems far more widespread and fundamental than first realized. Although BOOFY was discovered in a CdE analysis, it is clearly tribal as in the Game category KoC of UW. It is based on Parents’ punishing their Children and causing traumas, that later cause projections of not-OK transaction to others. Adults’ experience of unexplained fear can stem from UW, which is related to UD and UB. These causes of personal fears can therefore be highly personal and different for anyone. A common, but negative solution, is the use of projections, which was mentioned in UU 2015.feb.20” (UU 2015.mars.06)
- “Finally how the idea Superior-ID became: “The Oprichnina/Praetor is like a definition of psycho-social Games. The Actors and the Games are ulterior and concealed like the very nature of secret services. It is however, a problem if the democratic Quality of Life is not respected. It is serious if the organization consider itself as a Superior-Ego and individual as inferior. It is catastrophic, if it also inherited the properties of Ivan’s murky mentality as a collective obsession.” The theory of Superior-Id is talked through in UU 2014.jan.10 and the OD (OverConscience Drive) in UU 2014.aug.22.” (UU 2015.nov.06)

The mentality of historical oligarchs can become other persons’ dominating Belief (S-E) centuries later - and ultimately organizations pseudo identity. Stalin’s extreme psychopathy, inherited from the Russian secret services of ‘Oprichnina’, was assimilated as the masspsychopathy of unions and parties, - and ultimately inherit as ‘The Masspsychopathy’. This has to end with this 5th Pyramid Game - and surely can be escalated with hyper-democracy. However, quite the reverse, the 100 years’ war towards ‘The West’ is evidently intensifying globally towards some cascade of climaxes.

There must be hundreds of PROSA Oligarchs in each of the European and American states that has gone through the Pyramid processes of selection, bondage, cleansing. An indication is the documented network of STASI agents. Such Oligarchs might very well have reached a mentality as psychotic schizophrenics - with Belief that the inverted ethics of BDW (Bad, Destructive and Wrong) in their para-organizations is GCR, - like some ‘Manchurian Candidate’, - like some ‘agent Mitrokhin’, ‘agent Selmer’, ‘agent Breivik’, ‘agent Jackal. These thousands of criminal Oligarchs are seldom brought to justice, - like some untouchable mafia Godfathers and Godmothers. The reason is obvious; - the parliamentary judicial system is the most corrupted parliamentary organization of all. For example, the resent cleansing after the CdE ala Turk shows that just as many judges as soldiers were put in arrest for high treason. Alarmingly, there were no such contra-reformation in European nations after the cold war. The European nations’ para-judicial system are too powerful for any loyal national organization. Consequently, such international crimes has to be dealt with pan-European organizations like Europol and Eurojust. 3rd Pyramid Oligarchs are obliged to fight this “systematically and pitilessly” with “legal and illegal activity” (C1).

A CdE require a Puppet President candidate (PP) to step in after the CCD and CdE is executed by PROSA. The Dexit (Danes rejection of Europol/Eurojust), the Nexit (Netherlands rejection of Ukraine in EU), the Grexit (Greece rejection of legal control of state finances) are rather GdE (Games d' Etat), - like Games of CCD (Colony Collapse Disorders). Contrariwise, Georgia and Ukraine experienced democratic contra-CdE that removed the PROSA Puppet Presidents. Actually, Russia itself replaced its democratic selected president Boris with a secret service agent in 1999. (See UU 2016.juni.17 about Putin & the West). The internal struggle between FSB (police) and GRU (military) seems to show that CdE attempts are shifting from militant to political Games. Actually, the CdE attempt ala Turk, seems to be triggered by a 'false positive' signal, causing the para-military to start CdE without any oligarchic Puppet President in place. Now, the president has altered considerably, - in accordance with his new friend, - PPP (Puppet President Putin). It's a Game of TLM (Two Little Maids). (See UU 2014.sept.12 about Games.)

An 'US Puppet President' for FSB and 'a Commander in Chief' for GRU, is obviously the ultimately main prize in this 5th Pyramid Game. It is like planting a 'Coco's egg' in the White House. The CdE process started in 1999 and has reach its climax this year. One of its GdE, the Brexit, failed though, in the sense that the well-functioning UK Parliament rejected the Oligarch Boris of 'Londongrad' as unfit as prime minister. The EU and the UK also seem to handle the emocratic CCD attempts well. It did not influence the US election considerably either. However, the US '3rd Party' candidate, now the Republican candidate, appears as anti-western as any PROSA Oligarch of the 3rd Pyramid Game. His genuine personality is obviously like a narcissistic 'King of the Castle'. However, after elected as republican president candidate, his public appearances indicate seriously altering of goals, influences and perceptions. He is certainly under too hard pressures by sponsors, relatives and mass media. A peak from the opposite point of view helps to see it. Mitrokhin and Selmer indicated that radicalization was the preferred method for making PROSA agents, - like a Coco's egg, like a complex Electra Muse.

Prior to the Brexit referendum, - the UK queen asked 3 times for reasons to stay in EU.
Prior to the US election, Donald asked 3 times why he should not use nukes in war.
Have mercy – do not hand Donald the Red Button.

Catherine Mary Bush has a fascinating femininity beyond any man's understanding. Her special music, lyrics, and acts have made her world famous. She was only 19 years old when she debuted with 'Wuthering Heights', - and with a great immersion of the person. There have been 10 albums since then, where 3 got first place on 'UK Albums Chart' and 25 singles appeared on 'Top 40'. She also got the 'Brit Award for the best British female solo artist', a 'Novello price' and 3 Grammy Awards nominations. Most famous are songs like; 'Wuthering Heights', 'The Man with the Child in His Eyes', 'Running Up that Hill' and this 'King of the Mountain'. However, there are ten-folds other masterpieces on the albums for those who pursuits. Previously UU's songs presented Kate Bush with 'The tour of Life' UU 2015.aug.14, 'Cloud Bursting' UU 2014.april.04 and 'All the Love' UU 2014.feb.21.

The association here is oligarchs' narcissistic plutocracy that transforms glorious mountains to desert dunes.

'King of the Mountain' ('In the Hall of the Mountain King' / 'Dovregubbens Hall') is also the title of a well-known classical music piece by the Norwegian composer Edvard Grieg. It is used to the theater play 'Peer Gynt' by the author Henrik Ibsen. Peer profiles an ID person. Henrik's subsequent play 'Brandt' profiles an 'S-E' person. Both the characters' mental unbalances cause their own misery and doom – naturally.

'Pyramid Game Over' provides 12 suggestions to promote 'Western' Parliamentary Quality during this 5th Pyramid Game. 'P5GO04 – Bourgeois' (i.e. citizen, borger, pleb), aims to aid us from the organized crimes towards 'western' LifeQuality. ILO of the 2nd International was made to protect and promote 'workers' LQ from restarting the horrors of the WW1. The anti-thesis, the extraordinary 3rd International, was made to escalate PROSA activities and restart cascades of 'Western' CCD and CdE. The Nordic LO factions signed its 21 Conditions, had internal CdE and became anti-ILO para-organizations. Tens of millions 'bourgeois' were slayed, tenfold more were traumatized in the following WW2. The organized masspsychopathy of the Gulag colonialization programs used persistent oligarchs in the public services for cloaked assimilations for 100 years. Such CCD and CdE are still possible when allowing anti-democratic sociopathy violate human empathy and democratic defense. The present 5th Pyramid Gamers do reuse the concept of the 3rd Pyramid, - with the concept of 'same shit – new wrapping'.

LifeQuality is the vital fundament for organizations and nations, as well as any person. This was talked through in UU 2016.juli.01, UU 2015.april.10 and UU 2014.okt.17: "LifeQuality is defined as: A person's totality of properties and potentials to satisfy stated and implied needs." "Maslow's Hierarchy of 'implied needs' shows 5 main categories; Physical, Safety, Social, Respect and Self-realization." The 'stated needs' are similar to the 'Human Rights' concerning; private properties, self-determination, security, privacy, family, work, education, in addition to freedoms of thought, conscience, religion, expression and more.

Some conclusive quotes from UU 2015.mars.13 elaborates on human sanity. "If the moral, ethics and philosophies of LifeQuality should be put down to a single sentence, - it could be 'I'm OK – You're OK' (ref Thomas A. Harris). It is about tolerance to OK persons, as well as a recognition of oneself. Consequently, it is also about speaking out and making clear statements to 'not-OK' persons, organizations and nations." (UU 2014.sept.05) "A healthy human has a mature balance between these three (Id, Ego, Superior-Ego). Therefor it safe to say that the mental health reflects the personality – whether it is allowed to develop and free to self-realize. However, a suppressed Ego cause unbalance and becomes mental unhealthy, - in worst cases get mental illness and disorders." (UU 2015.mars.06) "In brief, the S-E (Superior-Ego) can be sub-categorized into Matriarch and Patriarch (and Authority), whilst the ID can be sub-categorized into Jerk, Sulk and Nerd." (UU 2013.mars.08) "Collective terms like mass-psychosis and double-moral (standards) are

related to psychological terms like psychosis and schizophrenia. Therefore, it is social vital not to promote unbalance between societies' Supremacies; Superior-Ego/Authorities, Ego/Organizations and ID/Emocracy. It is alarming that such unbalance from the 20th century's global wars are not balanced. The Law-giving and Judging State powers seems weak related to the States machine." (UU 29.Juni.2012)

Bourgeois/citizen/borger is the societies' self-awareness (Ego/Adult/Will) at macro-level. 3rd Pyramid Gameplayer determined themselves to terminate that 'middle-class' and consequently cause CCD (Colony Collapse Disorder) of massneuroses, masspsychosis and massschizophrenia. Most promoters of the 3rd Pyramid Game were probably not aware of such consequences, - believing the CCD and CdE should provide democracy, - from their anti-democrats.

Historically, the Bourgeois was the same that we all takes for granted as citizens in democratic 'western' societies today. We are called 'borger' in Scandinavian, 'bürger' in German and 'bourgeois' in French. Originally, bourgeois was per definition the middle class and legally defined class having the rights of citizenship and political rights in a city. They were privileged in the 12th century, compare to peasants outside the city. They formed 'The Magna Carta', which is the original of today's declarations of Human Rights. However, such citizens were called 'plebs' in the ancient Roma¹. Today, 'bourgeois' means any citizen in European nations. However, feudal oligarchs, platocratic statesmen and orthodox theocrats strongly opposed such liberated citizens, between themselves and their peasants/slaves/herds. Marx' re-defined such middle-classes to be 'private owners', rivals to the regimes, which should be degraded to urban peasants - called workers. The ism of Marx was perverted to ism of Lenin to legalize 4th degree anti-LEJ Games of 'take all - from all'.

'Yellow Trade Unions' are known as ILO of the 2nd International (the 2nd Pyramid Game). 'Red Trade Unions' of the 3rd International (the 3rd Pyramid Game) declared war on the bourgeois shortly after peace ended the WW1. "ILO (the International Labour Organization) is a United Nations agency with 187 member states. It is obligated to the UN Human Rights and deals with labour issues, particularly international labour standards, social protection, and work opportunities for all. ILO got the Nobel Peace Prize for improving peace among labors. ILO was established as an agency of the League of Nations following (the precursor to EU). World War I. The Socialist Second International was a decisive factor in their work. Between the WWs, 'The Amsterdam International' IFTU (The International Federation of Trade Unions) had close links to the 2nd International and was opposed by the Communist-controlled 'Red' Trade Unions. US dropped out of it in 1925 and the IFTU became European social democratic. Its primary activity was to lobby the League of Nations and national governments on behalf of ILO." (Ref. Wikipedia)

The 'red' Nordic LO factions host PROSA factions (Pro-Russian Oligarch, Separatist and Anarchists) of the 3rd Pyramid. It is still highly operative after 100 years of rivalries against ILO. 'Red Unions' are contractual bound to the 3rd International's 21 Conditions – 'the Moscow thesis'. Most such Red Union member are unknowingly obligated to violate the human rights of their fellow citizens and national penalty laws in order to server treasonous oligarchs and to cause CCD and CdE. Some of the Conditions says:

- C3 "In almost every country in Europe and America the class struggle is entering the phase of civil war. Under such conditions the communists can place no trust in bourgeois (democratic citizens) legality. They have the obligation of setting up a parallel organisational apparatus which, at the decisive moment, can assist the party to do its duty to the revolution. In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity."
- C10. "Every party belonging to the Communist International has the obligation to wage a stubborn struggle against the Amsterdam 'International' of yellow trade union organisations. It must expound as forcefully as possible among trades unionists the idea of the necessity of the break with the yellow Amsterdam International. It must support the International Association of Red Trades Unions affiliated to the Communist International, at present in the process of formation, with every means at its disposal."
- C13. "(...) undertake purges (re-registration) of the membership of their party organisations in order to cleanse the party systematically of the petty-bourgeois elements within it."

- C17. "... The Communist International has declared war on the whole bourgeois world and on all yellow social-democratic parties. The difference between the communist parties and the old official 'social-democratic' or 'socialist' parties that have betrayed the banner of the working class must be clear to every simple toiler."

Patriarchs of the 3rd Pyramid Game, like Lenin, Stalin, Hitler, Mao and Pol Pot, were thoroughly selected due to their proven personality disorders and criminal records. They all make top-score on the 'Psychopathy Checklist—revised' (PCL-R). (UU 2014.okt.17). These masspsychopaths were chosen to recruit likewise and execute the 21 Conditions of the 3rd International. Consequently, any Red Union leader, male or female, were chosen, not democratic elected, because of their masspsychopathic and sociopathic nature. Apparently, their psychopathy seem both masculine and feminine, which is more manipulative, oligarchic and emotional. Frankly, looking beyond the dictators' mustaches and assumed sexuality, they appear rather feminine too.

Anyways, taken from UU 2016.juni.24: "Citizens of 'western' prey-nations were assimilate by the Gulag colonialization programs. Remote Controlled state institutions and 'Red Mafia' grew to be the most powerful means for assimilation and radicalized the remote controlled oligarchic. (UU 2015.nov.06 UU 2015.okt.23). The Gulag colonialization programs have deployed anti-democratic cultures in order to deploy the Comintern conditions for CdE in European and American democracies throughout the 50 years of cold war. This hypothesis goes along with the hypothesis about PROSA, GRAF and GRU, as talked through in UU 2015.okt.09. In a psychosocial sense, the Gulag is a destructive Superior-ID, - and the European World Wars and the Russian Patriarch wars are evidences." However, all of them seems to have other people doing the terrors on the 'bourgeois' and 'yellow workers'.

The psychopathic population (ca 1%) is radicalized to PROSA executive agents by surprisingly ordinary means and measures. A single PROSA Separatist agent can cause a Bourgeois family to crumble to dysfunctionality in a generation by simple unnoticeable manipulations. The STASI method was to plant their agents as 'Cocos egg' in the prey organization - like spouses, deputies, delegates etc. The Agent Believed to be a hero in a 'pitiless war' towards European and American citizens – as mandatory according to Conditions C3, C10, C13 and C17. (Also see hereunder the video link to the TED talk: Hubertus Knabe: 'The dark secrets of a surveillance state' + the movie 'The Lives of Others'.)

The masspsychopathic ethics are like legitimation of Pavlov's cruel testing on dogs by starvation and electro-shock in the name of science. Such Coco Oedipus or Electra might exercise on the spouse's dogs and cats to become hostile towards humans, then advance to set family members up against each other, mislead public services by partial truths to unjust interference, provide and manipulate legal and illegal drugs, cause social intrigues, arranges crises at work, school etc. Psychosocial Games are basically of 1st-3rd degree and classic Sexual and Underworld Games; like NIGYSOB (Now I've Got You, You Son of a Bitch) and Schlemiel, SWYMD (See What You Made Me Do), ITHY (I'm Only Trying to Help You), LPAFJ (Let's Pull A Fast one on Joey), LYAHF (Let's You and Him Fight). (Games are further described in UU 2014.sept.12.) Additionally, the Game settings remind about the crime novel of Agatha Christie 'Ten Little Niggers'. Conclusively, a new Underworld Game of 3rd degree is hereby defined; TLN (Ten Little Niggers). Moreover concepts of Games was developments and adapted to the 3[^]3 Socialpsychological model. These anti-bourgeois Games suits mostly the new 3[^]3 Game category AF (Animal Farm). (UU 2015.feb.13).

Yet, such cruelty towards humans in the name of science is simply cover-ups for feeding their personal psychopathy, masspsychopathy and sociopathy. It is executed at society's micro-level, as a personal reward to the PROSA agents' personality disorder, - just like some Pavlov's underdogs. Still, the present spectacular PROSA attacks in European cities are two-fold and clearly show that the sociopathic PROSA Anarchists have to execute a political operation before having their personal masspsychopathy fed on the bourgeois. The preys of such spectacular demonstrations are mostly religious, like Christians, Jews and Muslims, - but of any age and gender. Consequently, the Games' masterminds are clearly atheists, not theists. Conclusively, the PROSA Separatist 'Coco Egg' inside a bourgeois family has probably already executed a cloaked PROSA operation to get such a reward as a prey family, organization or cult. According to the 21 Conditions of the

3rd Pyramid Game, - the original operation was probably damaging the 'western' LEJ (Legal, Executive and Judicial parliamentary powers). Such relations can be clues to investigations older massive crimes in the public sectors.

Howto stop the anti-Bourgeois masspsychopathy, then. PROSA agents know that they can operate and hide in confidence - due to secure bondage to Red Union oligarchs and Red Mafia anarchists. However, the original protectors are probably past away long ago. Now, PROSA agents might, as adults, have second thoughts since hyper-democracy provides truth far beyond the propaganda and realize that the euphoric masspsychosis of youth was just bait for Pyramid 'suckers'. They might be more open now to testify, convert and retribution. Lenin himself said; 'follow the money' for his 'search and destroy' tactics. Likewise, reverse identifications are just as straightforward. The secret PROSA agensts are most certainly 'Red Unionists' and anti 'Yellow Unionists'. Most certainly, people with 'take all from all' -politics ends up with lots of money and power themselves, well cloaked somewhere. Not merely in 5th Pyramid 'Panama accounts', but also in plain sights in public domains, as Party and Union position and with cloaked 'pirate' treasures and pensioners' deals. Such Anti-LEJD crimes by masspsychopaths should not be rewarded anymore, but dealt with according to national penalty law.

Hyper-democratic perspectives are much of the same as in the previous UU 2016.juli.22. "PGO (Pyramid Game Over) gets much easier with such identification of the hyper-Game-players. ... However, and most important, their Anarchists and Separatist are mostly innocent because they are violently forced to execute the crimes for their Oligarchs. A reward for converted 'whistlers', that testifies and identifies the true criminals, - is forgiveness and fresh start in GO."

Finally " ... any humans need and deserve a Global Human Right Law (GHRL). Also knowing that the UN do not have legal powers to make nations live up to their obligations, the path is multi-lateral NHRL. All NHRL (National Human Right Laws) should at least include UNC (United Nations Charter), the ICCPR (International Covenant on Civil and Political Rights) and the ICESCR (International Covenant on Economic, Social and Cultural Rights)." GHRL has a separate Facebook page and an Avaaz petition page, - however still very pacified." (UU 2014.okt.17 and UU 2015.april.10)

This song 'Everybody Hurts' is meant as a comfort for any bourgeois democratic citizen; man, woman and children; that suffering from the insane masspsychopathic processes of the Pyramid Gamers. The song was made by the group REM, though. The name of the band is short for 'Rapid Eye Movements'. It is a natural reaction of the eyes when 'falling asleep'. It is intriguing to know that we spend 1/3 of our lives at sleep and that we do not remember much from that UD 'ego-state'. However, sleep is vital for our LQ. Being tired, and lacking a good night's sleep can ruin the day for CW (Conscience Will). Even worse, sleeplessness can cause insanity, or at least similar interpretations of such a semi-UD (UnderConscience Drive) state. Unfortunately, sleeplessness is used as an effective form of torture to break individuals' Ego/Will. Anyways, dreams are important to Jung's theories because it gets access to the Under-conscience and can provide information about the psyche. However, interpretation of dreams are less emphasized in this century. (See more about these 3^3 theories in UU 2015.feb.27, UU 2015.mars.06 and UU 2015.mars.13.)
REM appears in UU 2014.okt.10 and UU 02.nov.2012.

The Corrs does an excellent presentation of REM's classic. They are an Irish band that combine pop rock with traditional Irish themes within their music. They have released six studio albums and numerous singles, which have reached platinum in many countries. They have been actively involved in philanthropic activities. They have performed in numerous charity concerts.

Marianne Faithfull - Working Class Hero

2016.juli.22

Ukens Utvalgte

‘Pyramid Game Over’ provides 12 suggestions to promote ‘Western’ Parliamentary Quality during this 5th Pyramid Game. ‘P5GO03 – PROSA Worker’ aims to aid citizens from the organized crimes, corruption and treasons in the public sector. The Nordic LO (The Confederation of Trade Unions) is still remote controlled and still have members violating national Penalty Laws in order to cause Coup d’ Etat. However, true ‘Working class heroes’ are not diluted by the masspsychotic isms and memes that degrade democratic citizen (bourgeois) to Oligarchs’ workers. True ‘Working class heroes’ promote Human Rights for positive LifeQuality (UU 2014.okt.17) - PROSA Unions suppresses it. In this century, true ‘Working class heroes’ can free each other by hyper-democracy. Just blow some whistles.

PROSA Unions are contractual bound to the 3rd International’s 21 Conditions. Most such Union member are unknowingly obligated to violate national penalty laws by treasonous conditions as the following.

- C2 “.. methodically remove reformists (democratic citizens) and centrists from every responsible post in the labour movement party, organisations, editorial boards, trades unions, parliamentary factions, co-operatives, local government and replace them with tested communists,..”
- C3 “In almost every country in Europe and America the class struggle is entering the phase of civil war. Under such conditions the communists can place no trust in bourgeois (democratic citizens) legality. They have the obligation of setting up a parallel organisational apparatus which, at the decisive moment, can assist the party to do its duty to the revolution. In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity.”
- C10 “... obligation to wage a stubborn struggle against the Amsterdam 'International' of yellow trade union organisations.” “It must support the International Association of Red Trades Unions affiliated to the Communist International, at present in the process of formation, with every means at its disposal.”
- C12: “... iron discipline reigns within it and if the party centre, sustained by the confidence of the party membership, is endowed with the fullest rights and authority and the most far-reaching powers.” (See link to all 21 Conditions below.)

Some consequences are the same for PROSA Workers and PROSA Pensioners as mentioned in the previous UU 2016.juli.15: "All members in LO are bound by contract to treason against their own nations. Few members of LO realizes this sociopathic and criminal bondage. Most who knows or opposes that, are punished in Games like the Russian BOOFY (Beat your Own and Others will Fear You)." "Anyone can be terrified of losing jobs and wages, which are vital to support their families, homes and future. Most gives in to such mafia terror to save their wives, children and homes." Others become true working class heroes.

History proves that such cleansings of loyal citizens (bourgeois), with radicalized workers, were extremely violent before, under and after the WW2. The death tolls were tens of millions humans during the PROSA regimes of the puppet oligarchs like Lenin, Stalin, Hitler, Mao, Pol Pot etc. Several previous UU blogs concern LO cultures at CCD and CdE levels, for example: The unclinking of a Stalinist mass-psychopathic culture when overthrowing a matriarchal LO leader – the 'Valla' case (UU 2013.aug.30). The Stalinist cultural root of WW2 is still dominant in LO (see Wikipedia link under), and the TV documentary about the boy Selmer that was donated to Soviet Union and became an unwillingly spy. It also indicates the cloaking of thousands of STASI agents in Europe during the cold war (UU 2014.juli.04). More recent is the 'Treholt' Game LPAFJ (Let's Pull A Fast one on Joey) as diversion to save other major PROSA agents (UU 2013.aug.30). The Game concept changed to SWYMD (See What You Made Me Do) in the massive organized CdE bomb and massacre in Norway five years ago today. The Judicial system proved that willingly scapegoats are more effective as diversion for the major PROSA agents (UU 01.Juni.2012), - until he also realizes he was no Nashi (Наши) hero, but just another 5th Pyramid Game 'sucker'.

However, LO is an Oligarchic Trade Mafia is built for violations of national laws of trade. The 21 conditions of the 3rd International contradicts the post-war trade laws of the European Internal Market. The LO crimes were exposed in the NRK documentary 'LO sitt store comeback' and unclinked the massive corruption of the PROSA Union and Party (Norwegian LO and AP) during the parliamentary electoral campaigns. LO bought illegal trade favors, law-violating regulations, and minister posts in the government – all for millions in cash (UU 2013.aug.23). Moreover, Dane LO shows that they do not pay any tax, have just a few underpaid employees and profits greatly on their members (UU 2015.okt.23). More about PROSA Oligarchs in a later UU.

However, true Parliamentary authorities must differ between willing and forced PROSA workers, when investigating such PROSA crimes. In fact, criminal law is stricter to public servants than to civilians. Yet, public servants are rarely sentenced for their crimes even though the scandals of low quality services and expenditures are far too high. It is proof though, of too much fraud and corruption, - like in mafia-dominated markets (UU 2015.okt.23). Most public laborers are forced by violent mafia organizations that are related to the so-called 'Red Mafia' (see video link). The threats of Underworld Games were talked through in the previous UU 2016.juli.15 'P5GO03 – PROSA Pension'. Although any member of a high treasonous organization can be guilty by association, there are exceptions, - like for civil criminal relation, - by supporting the true Parliamentary system to improve the LEJD Quality by unclinking the criminal 'parallel organisational apparatus' (C3).

PROSA workers cannot be allowed to work in the public sector anymore, - it is like letting a flock of wolfs servicing a zoo. There has to be a contra-revolution in the Parliamentary LEJ (Legal, Executive and Judicial parliamentary powers) to outweigh the infiltrations and manipulations of para-LEJ workers. The treasonous Condition 2 (C2) demands replacing loyal citizens with PROSA workers in parliamentary factions, co-operatives, local government. In a similar way, all present employees in public sector must read and confirm a letter informing their obligations as civil servants according to national penalty law. Examples on violations according to 3rd International Conditions should clarify some previous misinformation from PROSA Unions. Furthermore, a security clearances, in accordance to the Penalty law, must be signed by all employees in the public sector, - or else they actually choose to leave. Nevertheless, the public sector will manage very well even if PROSA unions cause massive removals. PROSA Unions' war declaration towards the Parliamentary system, by building para-organizations within, have during the cold war doubled the number of employees required to run the public sector. Besides, valuable information to uncloak the real

predators and preys of the Pyramid Games' will be revealed by their direct and indirect activities and passivities.

In a hyper-democratic view, there are several new perspectives to consider. The violation of individuals' LifeQualities have relations to masses also. In individual psychological terms, it is identified as 'psychopathic', 'mass-psychopathic' and 'sociopathic'. Likewise, similar hyper-terms for cloaked para-organizations are 'the Psychopathy', 'the Mass-Psychopathy' and 'the Sociopathy'. PGO (Pyramid Game Over) gets much easier with such identification of the hyper-Game-players. It also gets easier to make anti-thesis to such Games of 4th degree, - like the war-declaration towards Europe and America. However, and most important, their Workers and Peasants are mostly innocent because they are violently forced to execute the crimes for their oligarchs. A reward for true Working-class heroes, that testifies and identifies the true criminals, - is forgiveness and fresh start in GO.

Marianne Evelyn Gabriel Faithfull is an English singer, songwriter and actor that became a lead female artists during the "British Invasion" in the America. Her debut album and her film roles were commercial success. Most people probably know her for a romantic relationship with Mick Jagger though. However, her popularity was overshadowed by personal struggles when she suffered from drug addiction. She made a comeback with the album 'Broken English' and has made 21 album. She was nominated to Grammy for Best Female Rock Vocal Performance, is listed on VH1's '100 Greatest Women of Rock and Roll', got the World Lifetime Achievement Award and is awarded the Commandeur of the Ordre des Arts et des Lettres. However, Faithfull's version 'Working Class Hero' was probably political promoted, just like Lennon himself became a drugged political product. At some point, his schism probably had him react towards the PROSA, - and was executed – like some Kennedy. However, neither Marianne, Lennon nor Lenin was any true 'Working class hero', - but actors. Lennon is also mentioned in in relation to Bowies 'Young Americans' in Extra UU2 2014.nov.28.

Yazoo – Happy People

2016.juli.15

Ukens Utvalgte

'Pyramid Game Over' (PGO) provides 12 suggestions to promote 'Western' Parliamentary Quality in this period of the 5th Pyramid. This 'P5GO02 – PROSA Pension', aims to reduce rewards for treasonous crimes and consequently the draining of 'Western' nations for resources, wealth and innovations. Such Games of BDW (Bad, Destructive and Wrong ethics) can be terminated by hindering the Game-masters' looting by doing full public exposure of the corruption. Still, after 100 years, such crimes have become mass-psychotic Believes of being GCR (Good, Constructive or Right). Now, the corruption involves most affairs in the Oligarchic Public sector and is practically untouchable for the LEJ (Legal, Executive and Judicial parliamentary powers). Such should not be rewarded with PROSA Pensions (Pro-Russian Oligarch, Separatist and Anarchists), but rather be dealt with as crimes it is according to the Penalty Laws. Nevertheless, hyper-democracy, with cyber-tools like the internet, do now provide true democratic solutions that might break through that iron curtain.

The Pyramid Games are described in the initial UU 2016.mai.13. Pyramid Games are based on the illegal 'Pyramid scheme', 'Eight-ball' and 'Gifting circles'. 8 people are lured by one to 'invest' in illusions of repayments in a distant future, - not realizing that the Game is built to collapse and rather cause their ruin. The ethics to such Game masters are 'honesty is for suckers'. The 5 Pyramid Games in this UU theme are related to the 5 Internationals. Those 'suckers' are lured to contribute to domestic CCD (Colony Collapse Disorder) that weakens their prey nation enough to enable the main gains of CdE (Coup d' Etat). Related sub-Games played by potential PROSA Pensioners are of all categories, - especially Underworld Games and Sexual Games like; NIGYSOB (Now I've Got You, You Son of a Bitch) and Schlemiel, SWYMD (See What You Made Me Do), ITHY (I'm Only Trying to Help You), LPAFJ (Let's Pull A Fast one on Joey), LYAHF (Let's You and Him Fight), DAC&UAC (Devide&Conquer & Unite&Conquer), ISR (It Started with the Retribution), ABD (Attack is the Best Defense), Jante/TUD (The Ugly Duckling), TLM (Two Little Maids), BGGG (Bad Guy, Good Guy), RPPP (Robbing Pete to Pay Paul), ODAB (One's Death – Another's Bread) and the Russian BOOFY (Beat your Own and Others will Fear You). (UU 2014.sept.12.)

Their Suckers' Belief in bogus gains have changed during the period of the 5 Pyramid Games. The 1st and the 2nd Pyramid Games where based on Russian orthodox Christians that were cunningly promised rewards in Heaven after their death. The Game masters collected contributions and did not have to pay anything back. Sceptics and critics were threatened with confiscations, misery and threats of eternal punishment in Hell. That concept of fraud was ended by the massive organized atheism of the 3rd and 4th Pyramid Games. Instead, PROSA Pensions, in a far future, were promised in return for Pyramid war crimes like Underworld Games. Assimilated survivors in Europe did get pension, but far less than expected, since the West did not loot and mass-massacre its own citizens in the scales of Lenin and Stalin. Nevertheless, the 4th Pyramid was deployed to China and other Asian nations with CdE, confiscating and genocides at even larger scales. Now, the concept of the 1st and 2nd Pyramid PROSA Pension is deployed to the 'suckers' of the 5th Pyramid. Red-Green Believers of the political Islamism execute anarchistic mass-murder by committing suicide. Contradicting the Quran, they are brainwashed to Believe that suicide massacres are rewarded after death, with virgins, green cushions etc.

PROSA pensioners are obligated to treasonous sociopathic contracts like 'the 21 conditions' of the 3rd International. Concerning the mass-psychopathic demands towards their own citizens, it says in Condition 17. "The Communist International has declared war on the whole bourgeois (democratic citizen) world and on all yellow social-democratic parties (democratic Labor Unions). The difference between the communist parties and the old official 'social-democratic' or 'socialist' parties that have betrayed the banner of the working class must be clear to every simple toiler." C2. "Every organization that wishes to affiliate to the Communist International must regularly and methodically remove reformists and centrists from every

responsible post in the labour movement (party organisations, editorial boards, trades unions, parliamentary factions, co-operatives, local government) and replace them with tested communists, without worrying unduly about the fact that, particularly at first, ordinary workers from the masses will be replacing 'experienced' opportunists."

In Norden, LO (The Confederation of Trade Unions) is the International para-organization that is bound to the obligations of the high treason of the 3rd International, - the Moscow Thesis. LO's 100 years of political dominance and related LEJ inabilities, proves the seriousness of Parliamentary corruption. However, after 100 years of corrupting CCD and incapable of doing the CdE, LO members should finally realize that they merely contribute to continuous BDW that never will realize their illusions of GCR. Most probably are able to see that, but ignore it. They do not dare to risk the processes of a true democratic reform of their Union. They know very well from history the brutal consequences from the Game masters.

Furthermore, 2% of all employees are disloyal in the none-public sectors, - says a recognized thumb rule. (UU 2016.juni.24). The number is of course an uncertain average though. Yet, it is probably much higher in the Executive powers, because the public sector is a PROSA domain and therefore far less exposed to the Judicial parliamentary powers. Most employees in the public sector are forced into the 3rd Pyramid Labour Organization like LO, which counts for half the employees in the Nordic nations. Therefore, the 98% members in LO are bound by contract to treason against their own nations. Few members of LO realizes this sociopathic and criminal bondage, - and most who does and opposes that are punished in Games like the Russian BOOFY (Beat your Own and Others will Fear You). Opposing citizens are considered, at the best, as "(C17) ... social-democratic' or 'socialist' parties that have betrayed the banner of the working class". The 'pitiless' punishment is at the best minimized or removing of Pension and other welfare benefits, - leaving loyal citizens in ruin as an example for the rest.

Still, the Game Over (GO) is rather simple, - also for the treasonous rewarding system 'PROSA Pension'. Spot the PROSA (Pro-Russian Oligarch, Separatist and Anarchists) that are dedicated to the 21 treasonous conditions of the Internationals. Most are all somehow related to LO, - the remote controlled Central. C12: "In the present epoch of acute civil war the communist party will only be able to fulfil its duty if it is organised in as centralist a manner as possible, if iron discipline reigns within it and if the party centre, sustained by the confidence of the party membership, is endowed with the fullest rights and authority and the most far-reaching powers." National Penalty laws should be used as warning to PROSA Pensioners. Ending such Games can be done by removing the Gain, exposing the ulterior of the Game, arrange counter-moves, change the Gimmick and/or disable the Game players. However, the massive corruption in Nordic public sector is evident and proof the LEJ Quality is seriously corrupted, - even some judges. These issues will be followed up in next PGO UUs.

Treasonous PROSA activities should not be rewarded with pensions and other benefits. By penalty law, such benefits shall end and should never been allowed to start. Likewise, the processes to defuse the Italian Mafia should be a concept against other mafias like LO. However, it is a Stalinist mafia organization that uses all such methods for power and dominance against society as well as citizens. Anyone can be terrified of losing job, wages that is vital to support family, home and future. Most gives in to such mafia to save their wives, children and homes. However, the history throughout the Pyramid Games clearly and evidently proves that the Parliamentary LEJ is too corrupted for such 'glasnost', - even in Norden. Yet, humanity's evolvment do now provide hyper-democratic solutions.

Any citizens exploited by PROSA organizations have now the opportunity for hyper-democratic expressions. Any PROSA pensioners have the opportunity to explain themselves, to confess and alert about illegal PROSA corruption, - even anonymous. Anyone can write down their experiences, opinions and will. Anyone can uploaded it to hyperspace as documents to relevant web-cites in 'The Cloud'. Such 'whistlers' should not be punished, but rather protected and have their pensions and benefits revived for restart. International LEJ powers, and not merely national LEJ, should deal with the international criminal organizations. More about that in the next UUs.

Yazoo (Yaz) were a British synthpop duo, consisting of former Depeche Mode member Vince Clarke and Alison Moyet. The duo made two critically acclaimed albums, blending Clarke's synthesizer melodies with Moyet's blues- and soul-influenced vocals. They enjoyed worldwide success, particularly in their home country. The duo split acrimoniously in the spring of 1983. Clarke went on, via The Assembly, to form Erasure. Moyet embarked on a highly successful solo career. Yazoo's combination of electronic instrumentation and soulful female vocals has been cited as an influence on the house music scene that emerged in the mid-1980s. 25 years after splitting up, Clarke and Moyet reconciled and reformed Yazoo to play a successful tour and a pair briefly reunited to play three Yazoo songs at a music festival. (Yazoo appears in UU 2013.feb.08 and Erasure on UU 2013.okt.18, UU 2013.nov.08 and UU 2013.nov.01.)
The lyrics to this song speaks for itself.

Supertramp - Bloody Well Right

2016.juli.08

Ukens Utvalgte

Pyramid Game Over (PGO) is derived from the UU theme 'The 5th Pyramid' to provide 12 suggestions to increase Parliamentary Quality and to decrease corruption of 'Western' nations. This first, 'P5GO01 – PROSA Politicians', aims to reduce mass-psychotic propaganda that trigger CCD and CdE. Recent such events are the referendums; UK Brexit, Dane Europol/Eurojust and Dutch EU/Ukraine. Such HAR Games (Hit&Run) are numerous and more are announced, like; Nexit, Dexit, Frexit, Spexit, Grexit etc. These sociopathic CCD Games (Colony Collapse Disorder) aim to cause collapse of the European Union of nations, and thereby trigger another pan-European war like ww1 and ww2. The finally aim to the Pyramid Game is always the same, - cascades of CdE (Coup d' Etat).

Still, Europe is 'the cradle of democracy' and a global minority with merely 10% of the world population, - yet vital to a sane progress of humanity. The democratic struggle in Europe has gone on since the days of Roma1 and are evident these days. Ancient anti-democratic rivals are stronger and more experienced in sociopathic warfare. One tactic is to radicalize provincial 'pebs' (bourgeois/citizens) to do mass-psychotic propaganda in order to cause CCD (Colony Collapse Disorder) and consequently CdE (Coup d' Etat). The BDW ethic (Bad, Destructive and Wrong) is somehow legitimized by some perverted isms and logics like; that 'negative on negative somehow ends up positive'. Sociopathic residents are altered to PROSA (Pro-

Russian Oligarchs, Separatists and Anarchists) to cause BDW (Bad, Destructive and Wrong) in mass-psychotic Belief that they are doing GCR instead (Good, Constructive, and Right). That is ethics of warfare.

PROSA actors are bound to contracts of mass-psychosis like the 3rd of the 21 conditions to the 3rd International. It says; "In almost every country in Europe and America the class struggle is entering the phase of civil war. Under such conditions, the communists can place no trust in bourgeois (domestic citizens') legality. They have the obligation of setting up a parallel organizational apparatus which, at the decisive moment, can assist the party to do its duty to the revolution. In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity." Such disloyal obligations of 'illegal activity' classifies as Treason in most national penalty laws. A sound nation's LEJ (Legal, Executive and Judicial powers) detects, acts and judges on such treasonous activities. An invalid nation needs international support like the European confederal Union of nations. A nation that rejects such support is evidently gravely corrupted, dangerous for itself, its surroundings and its allied.

National Penalty Laws against Treason is the instrument for reactive counter-move to such Pyramid Games. Any Executive and Judicial parliamentary power are obliged to counter-act upon such Treason. Generally, treason is by law "the violation or betrayal of the loyalty a person owes his sovereign or his country, especially by attempting to overthrow the government is high treason". Oran's Dictionary of the Law (1983) defines treason as "...a citizen's actions to help a foreign government overthrow, make war against, or seriously injure the nation", "even if no foreign country is aiding or involved by such an endeavor." In UK, the law protects the Throne against "to compass, imagine, invent, devise, or intend ... to deprive the sovereign of the Crown ... to levy war against the sovereign ... by force or constraint to compel her to change her measures or counsels, or in order to put any force or constraint upon or in order to threaten or scare Parliament, .. to move or stir any foreigner to invade." There should be no doubt that international criminal organizations won the Dane Europol/Eurojust referendum. PROSA won the Dutch EU/Ukraine referendum and the Brexit, - all three due to massive disinformation by media, politicians and organizations.

These PROSA actors are hidden in plain sight, but rather easy to identify. Some even brags manically about it, - like some sponsored narcissist politicians. The concept, parroting Pravda, is similar in most nation. It is based on the International's 21 conditions, Kremlin's dictations and Puppet President Putin's appearances in mass-media. PROSA politicians avoid talks about real alternatives to the EU solutions because the sources it is ultimately Nova Russia. Instead, there are extreme negative accusations about the prey nations' constitution, leaders and politics. After the referendum, though, there is a HAR Game (Hit&Run), which means they all escape any Adult responsibility that their voters Believed they would take. However, the deeds are evidently treasonous by law towards their own Country, Constitution, Parliament and Government.

Who should initiate the counter attack on European parliaments? Most obvious the members of Parliament (MP), the parliament's chairpersons (presidents) and the constitutional security units. However, Members of the European Parliament (MEP) seem to react when national MPs fail. After Brexit, most European responsible leaders criticized the PROSA politicians as; "Patriots don't resign when things get difficult", "Instead of developing the plan, they are leaving the boat" and "That UK now has collapsed - politically, economically, monetarily and constitutionally, and you will have years ahead of you to get out of this mess". Furthermore, MEPs should initiate Europol and Eurojust to investigate PROSA politicians for CCD & CdE attempts by referendums in the Parliaments, in order to protect itself and its constitutions. Even PROSA politicians should be sentenced for treason even though too few have during the cold world war. That is a grave symptom for the LEJ quality.

No doubt that the Brexit promoters caused extreme damages to the UK. However, the Brexit seems to rather strengthen European Union's awareness, unity and cooperation against such future CCD attempts. The 5D scenario model can be useful when searching historical roots of the past and possible futures. Knowing well that all EU nations came from EFTA, some answers might be in the EFTA nations Norway,

Iceland, Switzerland and Lichtenstein. The NoExit events in Norway 2011-2013 included CdE by bombing the government building and massacre their youth. The Norwegian labor Union and Party symbiosis is very similar to the UK ones. In both, LEJ appear to have unacceptable low qualities for self-protection. Hyper-democracy with cyber-means might change that. (See concluding 5th Pyramid blog UU 2016.juli.01.)

The band Supertramp is often used in UU blogs, mostly due to both their lyrics and music. The song 'Bloody well right' hints to the abuses of the human rights of expression. The abuses are massive during European parliamentary democratic elections and referendums. Hopefully, this song might contribute to uncloak PROSA CCD projects like Brexit in the CdE program of the 5th Pyramid Game.

Beyond Games, there are ethics. The positive 3D system of ethics is; Good, Constructive and Right. These are fundamentals for civilizations' Quality of LEJ as well as LifeQuality. Game Over (GO), is anti-thesis to the war-Game against 'the cradle of democracy'. The focus of this final blog should merely conclude the theme 'The 5th Pyramid'. However, after serious re-thinking, Democracy is now included as the 4th Dimension to the LEJD model (Legal, Executive, Judicial & Democratic powers).

The 'true' 4th Dimension of Space is not time. However, 4D still includes time as a hyper-aspect as well as ether, mass and energy. This sudden appearance of hyper-democracy as the 4th Dimension enriches the political LEJD model with models of humanity like 3[^]3 sociology, LifeQuality and Games, - and thereby Freud/Jung psychosocial analysis and remedies. Finally, this concluding blog also is a teaser to a much more comprehensive and innovative future UU theme concerning Hyper-Democracy. Consequently, the Brexit event is considered an anti-LEJD symptom of 5th massive Pyramid hyper-Game towards the 'Western' democracies.

The theories of 4 dimensional Space is hard to grasp, since it is invisible, controversial and hardly detectible - still. However, recent detections of gravity waves in Space do legitimate the theories. The Extra UU2 provide some scientific explanation about the 4th Space dimension – hyper-space. Similar, hyper-existence with IT and Internet are certainly accepted as real in this century. HTTP (Hypertext Transfer Protocol) is

more used than other address nowadays. Influences of virtual hyperspace are exponential growing in every aspects of civilizations – and causes sudden unpredicted changes in LEJD. LEJD 5D scenario models become even more relevant to maintain and to innovate its quality, - as well as hinder CCD and CdE. Furthermore, Democracy is said to be the 4th Parliamentary Power. Yet, the 4th dimension have both positive and negative axis, - democracy and anti-democracy. For example, to call the state-subsidized media/press for the 4th State-power, is an anti-democratic Game Gimmick of deception and mass-psychosis. In fact the 1st (of the 21) Conditions of ‘the 3rd International’ – ‘the 3rd Comintern’, is a script on how-to make para-organizations to cause CCD (Colony Collapse Disorder) in prey-nations in order to execute high-treasonous CdE (Coup d’ Etat).

The term ‘Cyber’ has become the most used hyper-term in IT (Information Technology). ‘Cyber’ stems from ‘cybernetic’ that means ‘skilled in steering or governing’. Now it is mostly used in the terms cyberspace, cyberlaw, cybercrime, cyberwarfare, cyberterrorism, cybersex, and cyberbullying, etc. However, the term ‘Hyper’ is here not related to governing in particular, as in LEJ, but is rather related to the Democratic dimension. Hyper-democracy might appear by cyber-democratic means, though. Yet, hyper-democracy rather refers to the LQ (LifeQuality) of humanity at large scales. As Young talked about collective ID and Superior-Ego, the hyper-democracy exists independent of information technologies, - even without papyrus and pencil. Hyper-democracy exists in every single human as a holistic inter-relation.

The negative health aspects of the Pyramid Games were talked through in the previous UU 2016.juni.24. In brief, dominating Superior-Ego/Superior-ID relations in society, by undermining individuals’ Self (Ego), are highly unhealthy and cause mass-psychosis, mass-schizophrenia and mass-neurosis. This is abused to cause civil unrest, CCD and CdE. These terms can as well be adapted to the hyper-dimension as hyper-SE/hyper-ID (H-SE/H-ID) like; hyper-psychosis, hyper-schism, hyper-neurosis, hyper-phobia, hyper-mania and hyper-philialia. Furthermore, there are hyper-LEJD powers like hyper-aristocracy (elite), hyper-plutocracy (death), hyper-stratocracy (military), hyper-timocracy (capital), hyper-autocracy (machine), hyper-anocracy (dictator), hyper-democracy (people), hyper-theocracy (god), hyper-adhocracy (random), hyper-technocracy (science) etc. However, such ‘undetected’ hovering intangible entities, can be identified with meta-terms like; The Psychopathy, The Mass-psychopathy and The Sociopathy. They are in particular related to the 3rd Pyramid Game. Besides, such terms also relate to Jung’s theories of collective sense of Superior-Ego. See UU 2015.feb.20 and UU 2013.april.19 for further potentials by use of hyper-terms.

A reminder of what the 5 Pyramid Game seems appropriate now to conclude the theme. The other models of LQ, 3[^]3, 5D are summarized in UU 2016.mai.13 and theories were talked through in UU 2014.sept.12. The Most relevant UU Themes for ‘The 5th Pyramid’ are ‘LifeQuality’ (UU 2013.februar.01 - UU 2013.nov.29), ‘The Dane Europol vote (UU 2015.okt.02- UU 2015.nov.06) and ‘Tordenskjold Pirates’ (UU 2016.jan.08 - UU 2016.mars.11).

- (UU 2016.mai.13) “The Pyramid Game is not previously described as a psychosocial Game. It is, however, similar to other 3rd degree Underworld Games, - with potentials of 4th and even 5th degree. Pyramid might very well be a whole Game category that is common to other categories like KoC, GdE and GoT. Pyramid is commonly known by names like the ‘Pyramid scheme’, ‘Eight-ball’, ‘Airplane Game’ and ‘Gifting circles’. It is a Win-8xLose null-sum Game. The predator claims to have put money in the upper levels, while the recruited preys actually pay at the lowest level. The negative ethics for such Underworld Games are; ‘honesty is for suckers’ and ‘there is one born every minute’. Pyramid schemes are unsustainable and often illegal. A Pyramid scheme is also a business model that recruits members via a promise of payments or services for enrolling others into the scheme, rather than supplying investments or sale of products or services. They are doomed to collapse, since a 13th level requires more than the world population to participate. As recruiting multiplies, it becomes quickly impossible, and most members are unable to profit as promised. Pyramid schemes are said to have existed for at least a century in different guises. However, there is no reason to assume that ulterior Games have not existed earlier, - just because they were not discovered. Actually and per definition, cloaking and deceptions are the very nature of Games. Pyramid Games have probably existed in multiple disguises, ever since the golden age of the real pyramids. Anyways, Pyramid Games have caused national riots like 1997 Albania and 2008

Colombia in addition to economic ruins for citizens, banks, global trade, and political organizations. (Ref Wikipedia) In this theme, focus will be set on anti-parliamentarian Pyramids intended to cause CCD in order to execute CdE (Coup d' Etat)."

- (UU 2016.juni.24) "First, - a brief summary of the previous blogs. The core is as a 0th Pyramid and relates to Games of CCD (Colony Collapse Disorder) and CdE (Coup d' Etat) by; the Napoleon wars in Europe; the 1st Fatherland war of Russia; and the organization of the first confederal European union (the League of Nations) - 1813. The 1st Pyramid relates to 1863; the 1st International; the failed attempts to trigger European wars after the CdE/Throne in Denmark; and self-destructive war against Germany. The 2nd Pyramid relates to the 2nd International; 1913; the collapse of the second confederal union (Concert of Europe); and outbreak of ww1 in Europe that caused CdE in most European nations. The 3rd Pyramid relates to the extraordinary 3rd International; the 21 Conditions; the extraordinary mass-massacres; CCDs and CdEs in Europe and Russia. The 4th Pyramid relates to the 4th International; 1963; and the global terror-balance by cold and proxy wars. The 5th Pyramid relates to the attempts to re-organize to a 5th International; 2013; the 3rd Russian Fatherland war; the present CCDs and CdEs. The 'legitimized' International crimes of anti-democracy and anti-Parliamentarism concern new technologies of information, money, laws and mass media. However, since Moscow declared itself Roma3 by the theocracy about 1500, it is bond to heritages of Roma1 and Roma2; cultures of 'the Pirates of 4th Crusade', in addition to its ancient Muslim/Mongol relations. These appears very strong in times of crises, - like now – the eve of the 5th Pyramid Game."
- (UU 2015.nov.06) The most evident anti-European thesis is 'the Moscow-thesis', 'the International' – 'the 3rd Comintern'. "It was initiated with Lenin and the first European ww1, executed by Stalin and the second European ww2 and continued through the 50 years of coldwar towards European nations. The now published 21 Conditions proves the international crimes towards European (and American) parliamentary nations. "C1 In the columns of the press, at public meetings, in the trades unions, in the co-operatives – wherever the members of the Communist International can gain admittance – it is necessary to brand not only the bourgeoisie (civilians/borgere) but also its helpers, the reformists of every shade, systematically and pitilessly." "C3 "In almost every country in Europe and America the class struggle is entering the phase of civil war. Under such conditions, the communists can place no trust in bourgeois legality. They have the obligation of setting up a parallel organizational apparatus, which, at the decisive moment, can assist the party to do its duty to the revolution (CdE Game). In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity."

In brief, Pyramid Games are per definition 'built to fail' and should be completely self-destructive. The next Pyramid should eliminate the previous after done with the looting of their preys. However, the people, the preys, are not as unintelligent that the Game Player hopes and believes. Some surviving preys want their valuables back and might want retribution too. Therefore, very unhealthy aftermaths still runs from even the 0th Pyramid, and even from the beginning of civilization.

Generally, the cure, the treatment and the necessity, to reduce harm to themselves and the related, are basically the same as for group therapy. In comparison, the situation is similar to how society should deal with unsound mafia organizations to minimize the personal and societies traumas. It is a psychosocial Game of Game Over (GO). Still, the insight from outside 'the Black Hole's Event Horizon' is minimal, - just like for Vaticanology and Kremlinology (see previous UU 2016.juni.24). Yet, there is hope with general knowledge of human and organizational natures. Russia did the sound change by introducing democratic transparency with 'glasnost and perestroika' to end the cold war. However, Oprichnina disagreed and the democratic selected president was replaced with an FSB agent in 1999 - the Puppet President Putin. Then the 3rd Fatherland war and 5th Pyramid was initiated. The war against the West operates fully now in Oprichnina secret service style of 500 years tradition from the constitution of Roma3. Still, the Game Over is rather simple. Spot the PROSA (Pro-Russian Oligarch, Separatist and Anarchists) that are obligated to the 21 condition of the Internationals, Pravda propaganda, Putinized strategies and other anti-parliamentary expressions, activities and passivities. National Penalty laws should be used as warning or contra-activity.

GO (Game Over) is the very anti-thesis to any Game, including the five Pyramid Games. Ending Games can be done by removing the Gain, exposing the ulterior of the Game, arrange counter-moves, change the Gimmick and/or disable the Game players. How-to Heal 'Western' LEJD is mainly about how-to end the 5th Pyramid Game, and the 'zombies' of the previous Pyramids. 'How-to heal Dane LEJ' was talked through and summarized in UU 2015.nov.06.

- "Surely international criminal organizations fight Dane 'Rule of Law' with hardcore Underworld Games. Ignoring such and believing the ulterior political deceptions, is a final stage of losing oneself as person, organization and nation. However, these UUs concluding views are both political and cultural. In order to suggest 'Howto heal the Dane LEJ powers', the 3D LEJ model is extended to the 3x3D at nations' level. The model is a merged and innovative version of Freud and Jung theories, in addition to theories of LQ (LifeQuality), GCR (ethics) and 5D (scenarios)."
- The first pillar, the Legislative power (Lovgivende), was discussed in UU 2015.okt.16 to set focus on apparent indications on dysfunctionalities. "Estimates say that ca. 80% of the Dane voters want to stay with Europol. However, 3 parliamentary parties encourage Danes to reject that. Those parties and numbers of MPs are DF (Dansk Folkeparti = 37), LA (Liberal Alliance = 13) and EL (Enhedslisten = 14). That is 64 MPs out of 179, i.e. 35% of parliamentary votes. This indicates that several MPs already can be corrupted by 'smooth criminals' at the cost of their voters' trust. As mentioned in the introduction UU 2015.okt.02 "This extraordinary Dane referendum can be fatal for any nation in the European continent as well. In a worst-case scenario (5D), Denmark might become a 'Pirate Bay', a 'Kardemomme State', an 'Outlaw Haven' and an 'infected firewall'." "Consequently, it is legal for EUROJUST, EUROPOL and CEPOL to counter-fight criminal manipulations of the upcoming Dane referendum, - while Denmark still has valid treaties with the pan-European authorities." For 3D political model, the Dane parties DF, LA and EL are negative toward LEJ and main reasons why the LEJ Quality score is beneath the acceptable for European nations."
- The second pillar, the Executive power, (Udøvende) was discussed in UU 2015.okt.23 to set focus on apparent indications on dysfunctionalities. "The Dane Executive power is known as the 'Public Sector'. It is committed to provide products and services to Dane citizen and society as the Parliament and its Government order. A main reason to serious mismanages is obvious, - public servants are rarely investigated and put to trial according to the national penalty law. Some coldwar public servants are 'untouchables' to the Legal system." Furthermore, "The relations in Dane and Nordic societies become far more transparent when knowing the 100 years rise of the Red Mafia and the accordingly corruption of LEJ (Legislative/Executorial/Judicial powers). The public sector has cold war legacies that are not applicable, and even illegal, to this century's Denmark and Europe. The conditions and potentials of the nations are well documented in the OECD report 'Government at a Glance' and the Produktivitetskommissionens rapport (UU 2015.juni.05 and UU 2015.juni.26). Furthermore, Denmark and Norway seem to have some of the same fatal malfunctions in Police and Military as concluded by the Norwegian '22/7 Commissions report'. As talked through in UU 2014.okt.17. "The economic crimes of scandalous public projects and services are mentioned in UU 2013.nov.01. UU 2013.sept.27 describes the basic professional knowledge about qualitative governing, maintain and innovating public services, - in addition to the massive critique in the 22/7 Commission's report." For 3D political model, the para-LEJ organization LO is negative toward Dane LEJ and main reasons why the LEJ Quality score is beneath the acceptable for European nations.
- The third pillar, the Judicial power (Dømmende), was discussed in UU 2015.okt.30 to set focus on apparent indications on dysfunctionalities. "The parliamentary LEJ system (the Legislative/Executorial/Judicial powers) are obliged to Rule by Law. Thereby, it is criminal to cause improper ratification of Parliament's laws and regulations, improper execution in the public sector and improper arbitrating and judging in the courts. In fact, there is no valid argument for such illegalities, like putting the blame on lack of resources, information or money. Those arguments are, however, too often abused in relation to the Judicial system. An alarming indication of critical system faults is that no judge ever seems convicted despite all the criminal scandals in the public sector that the free press expose. Such indications are typical for Mafia organizations too. It indicates that the Judicial cultures can be worse than for public servants in the Executing power". "Confusion and misinterpretations about the legal system reduces the Judicial quality. It can cause

punishment of innocents and rewarding of criminals. Such misjudgments are object for national Penalty law, - even for the judges. Clearly, international criminal organizations need to target key-personnel in the legal system to make their business gainful and to avoid penalties." (UU 2015.okt.30.) For 3D political model, rivaling non-European unions are negative toward Dane LEJ and main reasons why the LEJ Quality score is beneath the acceptable for European nations.

- "Europe is the cradle of democracy." This dogma is fundamental for any European nation. However, Europe has only 10% of the world's populations, and Denmark merely 0.1%. Therefore, Europe is crucial to humanity and extra hard to defend. The Quality of Lives is as fundamental for democracy, nations and organizations, as for any person. This was talked through in UU 2015.april.10. "20 years ago, there was a realization that LifeQuality (LQ) was probably the most important word for any human. Consequently, it should be for human religion too. The LQ UU theme was blogged weekly for a year and developed to 4 sub-themes: 'Basic theory' (from UU 2013.feb.01), 'Empires' (UU 2013.mai.03), 'National', (UU 2013.aug.09) and 'Meta' (UU 2013.nov.08).
- "The final definition is in UU 2014.okt.17: "LifeQuality is defined as: A person's totality of properties and potentials to satisfy stated and implied needs." "Maslow's Hierarchy of Needs shows 5 main categories; Physical, Safety, Social, Respect and Self-realization." The 'stated needs' are similar to the 'Human Rights'. "The 193 UN member-states are obligated to secure their citizens' rights concerning; private properties, self-determination, security, privacy, family, work, education, in addition to freedoms of thought, conscience, religion, expression and more." Unfortunately, and evidently, anti-democratic nations opposes the Human Rights and Needs, sometimes aggressively with conning Underworld Games. Their need for self-defense is obvious, - even though opponents denies such existence, motives and actions."

The theme about 'the Dane Europol referendum' is merely one anti-parliamentary cyber-attack to the cascade of 5th Pyramid Games of CCD & CdE towards western parliamentary systems. Previous cyber-attacks have been towards Greece as part of PIGS nations (Portugal, Italia, Greece and Spain), as opposite of BRIC nations (Brazil, India, Russia and China). The most recent cyber-attack on western democracies are Brexit, - and there are already announce cascades of Dexit, Netix, Bexit and Fexit. The putinized puppets in the national parliaments are very recognizable as they are parroting Pravda. A main GO counter-move is therefore to exposes the putinized puppets and the 5th Pyramid Game.

Previously, democracy was not included in the 4D or 5D political models, due to the commonly propagated misunderstanding that Time is the 4th Dimension of Space. However, Time is still a factor that can be used on any the political models to illustrate developments over time. Anyways, the 0D, 1D, 2D and 3D political models are still valid as earlier. However, it should be stressed that the ancient primitive political models, based on 0D and 1D, are declared obsolete due to inadequate foundation in political realities. Only Pyramid related politicians and mass-media still propagate such. Furthermore, the absurd geographically term 'The West', i.e. Europe and America, does not merely prove the 2D stone age illusions from Moscow's Comintern about 2D Flat Earth and flat Sky, but also insane political perspectives on humanity. The World is round – period. Calling a region west, east, north or south is as absurd anywhere in the world except for a fixed point of the source, like the Kremlin. Such ignorant arrogance merely proves how Bad/Destructive/Wrong the Illusions of the International Comintern are. Simple 0D, 1D and 2D will experience democratic event as 'ghosts in their machine' and act psychotic and paranoid toward it. 'The West', i.e. US and EU, unfortunately experience powerful paranoid Games like ABD (Attack is the Best Defense), LYAHF (Let's You and Him Fight), RPPP (Robbing Pete to Pay Paul) and DAC/UAC (Devide&Conquer/Unite&Conquer). Anyone sane left in that 0D system should free themselves before it collapses in itself. However, present generation civilians will probably be enlightened enough to run the Roma3 machine sanely. (See description of Games in UU 2014.aug.29)

Brexit is a hyper Pyramid Game toward the British Parliament in order to cause CCD, CdE and eventually re-connect UK to Nova-Russia and nova-Mongolia. The most apparent PROSA attacks prior to the referendum at 23/6 were; football Game-fixing and money laundry, Muslim refugee tsunamis, red mafia attacks at English football supporters in Spain, assassin of a British member of parliament in London and endless parroting Pravda by the mass media's and certain politicians like Boris Johnson. Soon after, England

surprisingly lost in football EM. Loosing **soccer** sounds extra humiliating in English. However, there have been considerably Chinese silent activities in the English Throne that are related to the Brexit Game. The encounters are described; "They were very rude to the ambassador," the Queen interjected. "They walked out on both of us," the ambassador added." In 1997, Crown Prince Charles, described Chinese leaders as "appalling old waxworks".

Therefore, Brexit seems most of all a joint Russian/Chinese attempt to schiz Europe with threats and temptation of Asian trade, - like UK used to in the 'Commonwealth'. However, neither nova-Mongolia nor nova-Russia means no pity or mercy in this 5th Pyramid Game. As the annexation of Hong Kong, UK did not dare to utter any objections while nova-Mongolia took control, like they did CdE in Beijing in 1949.

Now, the Pacific/Atlantic trade will increase considerably with the expansion of the new Panama Canal. China needs UK as a harbor. Similar CCD Games goes on in Greece, and other Mediterranean nations, in order to establish a joint nova- Russia/Mongolia harbor in the Mediterranean side of the Suez Canal. Nevertheless, one should distinguish the Pacific inter-seas motives from other conflicts in order to minimize the damages of all the CCD Games going on in the Mediterranean region. (See UU 2013.juli.19, UU 2014.mars.07 & UU2015.mars.06 for Roma5/UA and UU 2013.aug.02 & UU 2015.mars.27 for UAE.) It will be interesting for UK and EU to see the results of the Australian election in 2016-07-02, the Hong Kong election in 2016-09-04 and the USA election in 2016-11-16. Previously China has taken a seat in the Artic Council instead of EU. That is in Russia's interest. Anyways, a referendum is not legally bounding to the Parliament that does not have to leave the EU, especially if it was manipulated like some match-fixers in football.

No need for panic - in 3rd sense, - emocratic mass-movements are of the collective Drive and Belief, - and the Will comes to its senses eventually. Thoughtless and spontaneous over-reactions are the most hazardous. However, Brexit might show out in the end to be a 5D hyper-Game of high treason to causes DAC on UK and UAC on EU. At least, EU should beware of the Games and act upon it. It will strengthen the EU. As mentioned in UU 2016.juni.17. "The main gain of the Pyramid Game is to cause collapse of EU, like the collapse of the 'League of Nations' to trigger WW1 and the collapse of the 'Concert of Europe' to trigger WW2. Basically, there are Oligarchs' Underworld Games where crimes of drugs/doping, slavery money laundry and weapons. Recent crises in Europe are as apparent as the fixed elections of the puppet presidents of Georgia, Ukraine and Russia. Other examples are; the Dutch vote that caused veto to Ukraine membership in the EU; the Greek monetary crises due to massive corruption from extreme left and right; the Dane Europol election where the international organized criminal won, the Turkish/EU Schengen cooperation boosted as political crises by certain media; the German internal refugee causing major LEJ instability and probably regime-shift; the PROSA riots related to football and referendum in Spain, France, Germany and Britain."

The political systems of England and Norden are surprisingly correlated. England should compare the Political Games of Norway in the period of 2011-2013 with their own present political power-struggles in their Labour party. The Norwegian 'Arbeiderpartiet (AP), 'Labour Party', is unable to free itself from the 3rd Pyramid para-organization LO (The Confederation of Trade Unions'). AP wants to become a social-democratic party, like in the rest of Norden, but LO corrupts and hinder their democratic development. The conflict increased for AP when joining a Red-Green political alliance in Government. The AP/LO schizophrenic condition climaxed in 2011.july.22 by blowing up the government building in Oslo and massacre their youth organization at Utøya. A single boy was caught and he bragged about taking all the 'blame' for both these highly advanced and coordinated CCD/CdE attempts. However, the Prime minister calmly resigned and had to let the seat to the oligarch Støre, while Stoltenberg himself got the seat in NATO as general secretary. Even though far-fetched, some indications of the UK situation and 5D events seem to be hinted in the movie 'Skyfall'. The conflict stems rather from the Throne than the State, although Labour is highly involved as a 3rd Pyramid para-organization. (UU 2013.des.06)

EFTA is a para-organization to EU with its EFTA court, the EFTA Commission (ESA), the EFTA Council. The EEA Treaty (European Economic Area) is practically the Maastricht Treaty between EU and EFTA. EFTA is highly dominated by Norway via LO influences and thereby the 3rd International of the Comintern, the

Moscow Thesis. LO is basically still a 3rd Pyramid organization, as described in UU 2016.juni.03. LO is bound to and operates as describe in Condition 3 to Lenin/Stalin's 3rd International, which says. "In almost every country in Europe and America the class struggle is entering the phase of civil war. Under such conditions, the communists can place no trust in bourgeois legality. They have the obligation of setting up a parallel organizational apparatus, which, at the decisive moment, can assist the party to do its duty to the revolution (CdE Game). In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity." There should be no doubt that EFTA can and will be abused to cause CCD and CdE in EU and thereby expand the 3rd Russian Fatherland War to Europe, just like before the 1st European WW and the 2nd. 5D scenarios considering 4D LEJD might provide vital points of views. Two previous articles might provide clues.

- (UU 2014.dec.05) "The Good Country Index shows that neither Russia nor China should dominate trade agreements. They are both about # 100 in the GCI. This is a reason why they both primarily uses force towards weaker parts to dominate them in unfair trade-relations. This is also a reason why it took so long for both Russia and China to be members of the global World Trade Organization (WTO) and get the General Agreement on Tariffs and Trade (GATT). In the recent years, the puppet president Putin has ruined all those achievements with further ulterior war Games towards the Georgian and Ukraine sovereign nations. Neo-SU has proved all too well to the world for unseeingly future that they are violators of the UNC and not to be trusted in neither war nor peace. In fact, SU1 and SU2 (Soviet Union and nova-SU) do constant trade-wars towards continents and nations like Europe, Norden and Norway."
- (UU 2013.nov.01) "Public servants of the Executive power are obliged to execute orders from its Parliament/Government. If not doing so, they are to be prosecuted in accordance to the Penalty law by the Legislative power, - just like 'bourgeois' civilians. This obviously applies to legalities of this century too. As mentioned in UU 2015.juli.10, "There is no doubt that Denmark has be legally obligated for over 20 years by the Treaty (TEU - Traktaten om Den Europæiske Union)." Numerus of public servants have become criminal actors due to anti-European political actors' misinformation within public sector. The dilemma is thoroughly talked through in UU 2014.okt.24 with similar focus on Norway's relation to EU. "In 1994 the law-making Parliament ratified the EEA law concerning the European internal market instead of becoming a full member of EU. The new rules of competition caused considerable legal and commercial changes, - especially for the 3 constitutional powers; the Parliament (Legislative), the public sector and the legal system (LEJ). Suddenly, both private and public (oligarchic) cartel practices became illegal. The adaptations to legal practices are comprehensive, - which such dominant actors naturally resist. Today, 20 years later, there are just minor practical adaptations to the law. The media rarely seems to mention such illegalities and leaves the impression is that the law is practically neglected."

This is important issues for Europol and Eurojust. Cyberwars are already highly relevant towards EU. In fact, these are European international hyper-organizations fighting PROSA in order to prevent abuse of hyper-democracy to cause the 3rd European collapse and 3rd European world war.

Finally, a controversial proposal global solution to secure the Democratic Dimension and LifeQuality. It is Parliamentary very simple, but shows out almost impossible due to low LEJ Quality. However, every nation in the UN should ratify the Human Rights to national Law, - as obliged half a century ago. The following citations talks through what NHRL and GHRL are about.

- (UU 2014.sept.12) "Anyways, altering global 3x3 4D Games is not an individual task. It can however be done by collective synchronized conscience of the Will. Knowing very well that global destructive Games of CdE will continue and have some peeks, it seems to be only one action such a humble individual can do: Attempt to kick-start a democratic mass-movement to realize a GHRL (Global Human Rights Law) by influence all united nations to finally ratify a complete NHRL (National Human Rights Law). It started last week but has yet no sign of taking off. However, this is my anti-thesis to Bad CdE Games in order to improve humanity's chance for a better LifeQuality."
- (UU 2014.okt.17) "LifeQuality is defined as: A person's totality of properties and potentials to satisfy stated and implied needs." "Maslow's Hierarchy of Needs shows 5 main categories; Physical, Safety, Social, Respect and Self-realization." The 'stated needs' are similar to the 'Human Rights'.

“The 193 UN member-states are obligated to secure their citizens’ rights concerning; private properties, self-determination, security, privacy, family, work, education, in addition to freedoms of thought, conscience, religion, expression and more.” Unfortunately, and evidently, anti-democratic nations opposes the Human Rights and Needs, sometimes aggressively with conning Underworld Games. Their need for self-defense is obvious, - even though opponents denies such existence, motives and actions.”

- (UU 2015.april.10) “Despite knowing that UN has not eliminated warfare of all kinds, the belief that UN’s collective conscience has prevented a nuclear ww3 lead to the conclusion that any humans need and deserve a Global Human Right Law (GHRL). Also knowing that the UN do not have legal powers to make nations live up to their obligations, the path is multi-lateral NHRL. “All NHRL (National Human Right Laws) should at least include UNC (United Nations Charter) that provides the UN powers to investigate and mediate in international disputes and authorizes international economic, diplomatic, and military sanctions and force to resolve the disputes, - as well as the ICCPR (International Covenant on Civil and Political Rights) and ICESCR (International Covenant on Economic, Social and Cultural Rights).” (UU 2014.okt.17) GHRL has a separate Facebook page and an Avaaz petition page, - however still very pacified.”

With this UU Theme ‘The 5th Pyramid’ and the introduction of Hyper-Democracy, the GHRL most certainly provide some innovative perspectives on how-to Heal LEJD and the QL of humanity. However, focusing on anti-democratic cyber-crimes in Europe, the Hyper-parliamentary Europol and Eurojust are definitely the International cyber-crime fighters. The Pyramid Game became very apparent in the Dane Europol referendum in 2015.dec.03. The Dane example of international referendum fraud should be investigated by Europol and brought to the EU Court. Furthermore, Dane, Norwegian and any other EU/EFTA nations should have their laws quality ensured in accordance to EU innovations.

Finally, something very different. Jon Bing wrote a book, hidden in the hyper-space of his computer, when he passed away. I am looking forward to read ‘Fremtidens fortid’ (The future’s past) when the situation is proper. Also, see the necrology at UU 2014.jan.24 b.

The Alan Parsons Project will complete this extra UU theme of upgrading models concerning LQ (LifeQuality). APP was basically a band consisting of Alan and Eric with several guest musicians. It was successful with several hits in the ‘80 and ‘90. Some albums were dedicated well-known books like ‘I Robot’ (UU 2011.mars.04) and ‘War of the Worlds’ (Extra UU2 2014.sept.12).

This UU is dedicated the song ‘Pyramania’ as a sarcastic comment to the bogus isms and mass-psychosis of the 5th Pyramid Game.

Extra UU1 - Genesis – Selling England by the Pound

Genesis is a favorite band from the youth. I got to know the original band about the period of 'Selling England by the Pound'. This is from the period when the original band was at the top of its success. It climaxed though with a hard schism for the band when Peter Gabriel had to leave due to internal conflicts about personal and collective interests and creativity. (See also UU 2010.aug.20.) Once I experienced the cover-band Musical Box live. Then I had to realize that we cannot experience the live concerts as they used to be, anymore. Some videos from long lost performances can be seen on internet though. However, also realizing that people gladly see a play by Shakespeare or a concert by Mozart, without them performing anymore, made me see the value of high quality cover bands. This might be an interesting industry in competition to the cyber industry of virtual realities. Despite all critics, - cover bands are real, - not merely virtually real.

Anyways, the association to this song is Brexit – of cause. The rest of the album does also somehow relate. Enjoy.

Extra UU2 – The fourth dimension of Space

"Comparatively, 4-dimensional space has an extra coordinate axis, orthogonal to the other three, which is usually labeled w . To describe the two additional cardinal directions, Charles Howard Hinton coined the terms *ana* and *kata*, from the Greek words meaning "up toward" and "down from", respectively. A position along the w axis can be called *spissitude*, as coined by Henry More."

"In 1908, Hermann Minkowski presented a paper consolidating the role of time as the fourth dimension of spacetime, the basis for Einstein's theories of special and general relativity. But the geometry of spacetime, being non-Euclidean, is profoundly different from that popularised by Hinton. The study of Minkowski space required new mathematics quite different from that of four-dimensional Euclidean space, and so developed along quite different lines. This separation was less clear in the popular imagination, with works of fiction and philosophy blurring the distinction, so in 1973 H. S. M. Coxeter felt compelled to write: Little, if anything, is gained by representing the fourth Euclidean dimension as time. In fact, this idea, so attractively developed by H. G. Wells in *The Time Machine*, has led such authors as John William Dunne (*An Experiment with Time*) into a serious misconception of the theory of Relativity. Minkowski's geometry of space-time is not Euclidean, and consequently has no connection with the present investigation."

Extra UU3 – Global Human Right Law (GHRL)

Every united nation should ratify a complete National Human Right Law (NHRL). Most nations have signed the UN HR conventions, but merely bits and pieces are yet ratified. Therefore, every member nation should have a NHRL in order to justify the Global Human Rights Law (GHRL). Such a legally valid ratification is surprisingly easy and quick to do. It happened in Norway in 1999.

The Human Rights are like a global 'One for All – All for One' declaration. The need for this became well understood by most humans and nations after ww2, - due to all the inhuman doings and destructions of nations and civilizations. Think about it, - it is now a 100 years since the world wars started. What would be the outcome with an operational UN and GHRL at that time? It probably prevented ww3. However, a national regime can suddenly turn bad to its citizens and neighbor nations. Everyone needs a protection against that and NHRL/GHRL is an insurance (1).

How to get your National Human Right Law (NHRL):

What You can do:

- Sing this petition to show your Members of Parliament (MP) that it is a call for action now.

What some positive MP should do:

- Some democratic MP should be convinced that a NHRL is morally, legally and nationally right.
- Gather the text from the UN conventions UNC, UDHR, ICCPR and ICESCR (2), and bind them together to a single booklet. (Additional signed conventions, amendments and protocols should be included.)
- Add an introduction page with paragraphs that put the NHRL above any conflicting law.
- Any MP can then propose in the Parliament that the NHRL should pass as national law.

This is how the ratification of the NHRL should happen:

- There will be a vote in the national parliament.
- MPs cannot morally decline the NHRL and expect to be re-elected by the citizens.
- Ergo, - a simple suggestion from one MP – and the nation should get its NHRL.

After the ratification:

- Have the results published.
- Inform the citizens of basic human rights.
- See to that the national law system actually follows up legally.

It works, - it happened in Norway with the NHRL 'Menneskerettsloven' in 1999.

(1) Almost all the 193 member states of the United Nations (UN) have committed to ratify the Human Rights into their national laws. The member-states are obligated to secure their citizens' rights concerning; private properties, self-determination, security, privacy, family, work, education, in addition to freedoms of thought, conscience, religion, expression and more. Even though the UN conventions seems inconsistent, the states are still obligated to be concrete and realize the rights.

(2) The UN fundamental inter-national obligations are stated in the UNC (United Nations Charter) where chapter VI provides the UN powers to investigate and mediate in international disputes. Chapter VII authorize international economic, diplomatic, and military sanctions and force to resolve the disputes. The UDHR (Universal Declaration of Human Rights) is the foundation of the later ICCPR (International Covenant on Civil and Political Rights) and ICESCR (International Covenant on Economic, Social and Cultural Rights). All this should be included in all NHRL.

David Bowie – Black Star

2016.juni.24

Ukens Utvalgte

Beyond Games, there are ethics. Games are mostly of the negative BDW (Bad, Destructive and Wrong) and Pyramid Games are even illegal in most Parliamentary LEJ (Legal, Executive, Judicial powers). This UU theme, 'The 5th Pyramid', has illustrated a Core and 5 Pyramids that is now assemble in a Sphere. Symbolically, it is a black star, or a black hole. It is, like Games, invisible to most – except for its Event Horizon. Its invisible gravity force sucks its preys, unwary until too late, towards its crunching Singularity. This symbol is clearly metaphorical to make awareness of such dangerous memes and its consequences. However, patterns of symptoms of such 'toxoplasmoses' in European referendums is now evident with yesterday's anti-EU event in UK. It is against all odds and appears just like the game fixing, sports doping, money laundry and PROSA violence in football. It is time for the counter Game - Game Over (GO) – with normal use of the Penalty Laws on the public servants for high treason. Europol should, for Europe's sake, initiate full investigation of the UK referendum, - or else the EU will be destroyed like its two predecessors that lead to the European ww1 and ww2.

Anyways, this second to the last blog concerns general murky sides of 'the 5 Pyramid Games'. It is sums up the previous blogs with focus on BDW ethics (Bad, Destructive, Wrong) and the models LifeQuality, 3rd sociopsychology and 5D scenarios. Before diving too deep into the black hole, it should be mentioned that the basic idea is that organizations, nations and empires can be psychoanalyzed like individual persons. The reason to the theory is described in UU 2015.aug.28 'How to heal Dane psychiatry'. Consequently, diagnosis as psychotic, neurotic, paranoid, manic, phobic etc. are as legitimate for organizations as persons, mainly because organizational cultures are founded on the personalities of matriarchs and patriarchs. The reasons to such unsound conditions are basically the same – immature Superior-Ego/Superior-ID relations.

First, - a brief summary of the previous blogs. The core is as a 0th Pyramid and relates to Games of CCD (Colony Collapse Disorder) and CdE (Coup d' Etat) by; the Napoleon wars in Europe; the 1st Fatherland war of Russia; and the organization of the first confederal European union (the League of Nations) - 1813. The 1st Pyramid relates to 1863; the 1st International; the failed attempts to trigger European wars after the CdE/Throne in Denmark; and self-destructive war against Germany. The 2nd Pyramid relates to the 2nd International; 1913; the collapse of the second confederal union (Concert of Europe); and outbreak of ww1 in Europe that caused CdE in most European nations. The 3rd Pyramid relates to the extraordinary 3rd International; the 21 Conditions; the extraordinary mass-massacres; CCDs and CdEs in Europe and Russia. The 4th Pyramid relates to the 4th International; 1963; and the global terror-balance by cold and proxy wars. The 5th Pyramid relates to the attempts to re-organize to a 5th International; 2013; the 3rd Russian

Fatherland war; the present CCDs and CdEs. The 'legitimized' International crimes of anti-democracy and anti-Parliamentarism concern new technologies of information, money, laws and mass media. However, since Moscow declared itself Roma3 by the theocracy about 1500, it is bond to heritages of Roma1 and Roma2; cultures of 'the Pirates of 4th Crusade', in addition to its ancient Muslim/Mongol relations. These appears very strong in times of crises, - like now – the eve of the 5th Pyramid Game.

This theme 'The 5th Pyramid' focus on politics, - although it concerns any aspects for LifeQuality in societies. A brief introduction of the 3[^]3 psychosocial model was presented in UU 2015.nov.06. "It was necessary to upgrade and extend the classic Freudian models to organizational levels in order to enable psychosocial analysis. The result is a joint Freud/Jung/Berne model called 3x3. This was further developed to the 3[^]3 (i.e. 3x3x3) model." It is explained and used from UU 2015.juni.05 to UU 2015.juli.24 about the recent Dane referendum and will be further used in the final blog.

However, once again, a reminder that the Global Games are far too comprehensive and complex for thoroughly explorations in these UU blogs. Still, the concept of the theme 'The 5th Pyramid' should provide some ideas along with the following quotations and translations from previous 6 years of UU blogging. In order to provide some sort of coherency, focus is set on the summary to the closing blog to the UU Theme prior to the Dane Europol/Eurojust referendum (UU 2015.okt.16, UU 2015.okt.23, UU 2015.okt.30 & UU 2015.nov.06.). In this concept, the Game is certainly a Pyramid and of the category GdE to promote CCD and eventually CdE. The referendum included decisive acts in a CCD Game against Denmark and Europe. Here are some quotations to conclude the murky side of the theme:

- "This closing UU blog concludes the Dane Europol referendum theme. Surely international criminal organizations fight Dane 'Rule of Law' with hardcore Underworld Games. Ignoring such and believing the ulterior political deceptions, is a final stage of losing oneself as person, organization and nation. However, these UUs concluding views are both political and cultural. In order to suggest 'How-to heal the Dane LEJ powers', the 3D LEJ model (the Legal, Executive and Judicial parliamentary powers) is extended to the 3x3D at nations' level. The model is a merged and innovative version of Freud and Jung theories, in addition to theories of LQ (LifeQuality), GUR (ethics) and 5D (scenarios). Nevertheless, this double UU will first provide some summaries of the political view; next present some psychosocial views and finally some overall concluding thoughts." Furthermore, "Europe is the cradle of democracy. This dogma is fundamental for any European nation. However, Europe has only 10% of the world's populations, and Denmark merely 0.1%. Therefore, Europe is crucial to humanity and extra hard to defend."
- The most evident anti-European thesis is 'the Moscow-thesis', 'the International' – 'the 3rd Comintern'. "It was initiated with Lenin and the first European ww1, executed by Stalin and the second European ww2 and continued through the 50 years of coldwar towards European nations. The now published 21 Conditions proves the international crimes towards European (and American) parliamentary nations. "C1 In the columns of the press, at public meetings, in the trades unions, in the co-operatives – wherever the members of the Communist International can gain admittance – it is necessary to brand not only the bourgeoisie (civilians/borgere) but also its helpers, the reformists of every shade, systematically and pitilessly." "C3 "In almost every country in Europe and America the class struggle is entering the phase of civil war. Under such conditions, the communists can place no trust in bourgeois legality. They have the obligation of setting up a parallel organizational apparatus, which, at the decisive moment, can assist the party to do its duty to the revolution (CdE Game). In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity."
- "However, yet again, such comprehensive model as 3[^]3D should not fully be used in such limited psychosocial issue as the ongoing Dane LEJ yes/no referendum. The focus is therefore set on 3x3D imperial S-E/S-I obsessions and the psychosocial damaging dysfunctions to itself and the related. As mentioned in UU 2014.okt.31 about the first realization when the S-E/S-I relation was discovered. "Finally how the idea Superior-ID became: "The Oprichnina/Praetor is like a definition of psycho-social Games. The Actors and the Games are ulterior and concealed like the very nature of secret services. It is however, a problem if the democratic Quality of Life is not respected. It is serious if the organization consider itself as a Superior-Ego and individual as inferior. It is catastrophic, if it also inherited the

properties of Ivan's murky mentality as a collective obsession." "Roma3's final annexations by Ivan and Oprichnina was terrible and led to the 'Novgorod massacre' in 1570. This also terminated the trade-route between the Baltic sea, Kiev and the Black Sea/Roma2." (UU 2014.mai.02 & UU 2014.nov.21.) In a psychosocial sense, the Moscow thesis is a destructive Superior-Ego, - and the European world wars and the Russian Patriarch wars are evidences."

- "Dane crises in the Executive power shows different indications. This was mentioned in UU 2014.nov.28: "The massive cybercrimes against the Police, Military, Tax-authorities Public health in CSC Denmark and IBM mainframes were executed by disloyal employees, remote computers in Pirate Bay and controlled from Asia. The delays in police investigation indicate massive organized crimes that also include employees in the Danish police force. Therefore, it is simply beyond any nativity to claim that this major operation was organized by two young sociopaths." "Most alarming is the extensive use of the hackers' favorite operating system - Linux. Anyhow, the ongoing trial in Denmark is most probably just the tip of an iceberg in all of the public sectors in all NATO nations." Furthermore as mentioned in UU 2014.dec.12 "Most alarming is the recent take-over of all IBM Intel Server in all NATO nations public and private sectors. (See UU 2014.nov.28.) Big Blue made Big Red by handing over the needed resources, network, servers and technology to execute considerable IT hacking, espionage, and info/money manipulations." NATO nations' public sectors do not seem to realize that most of their main IT systems are now legally in Chinese control too." Dane public IT shows serious indications that the social Superior Egos is on a destructive paths that might become irreversible. The whole LEJ might be involved."
- "Some final meta-philosophy concerning the humanity and its LQ (LifeQuality) is taken from UU 2014.aug.22 and UU 2014.dec.19: "Parasites cause another alarming manipulation of the UnderConscience Drive (UD). It sound more fantastic than hypnosis. However, to get the idea, it is recommended to see the TED video 'Ed Yong: 'Suicidal crickets, zombie roaches and other parasite tales'. It shows that collective synchronicity amongst animals are not always motivated by interpersonal socializations. In certain occasions, their UD is controlled by physical parasites that uses the hosts against their own good and to the parasites' gain. In any case, - such similar psychic activities for collective remote control of group synchronizations is certainly the situation documented in the previous century as so-called political 'folks' movements'."
- "Theories of parasite activities can thereby cause rather intriguing thoughts in relation to IT (Information Technology). Data-viruses are well known and people show strong addictions to the net and all kinds of IT equipment. It is of cause quite natural according to Carl Jung's theories about social dependencies. How frustrating it is when the net is unavailable for the mobile, PC and TV. However, there can be more than simple data viruses that manipulate the information. Uncritical utilizations can cause manipulations of persons similar to hypnotic states and parasite activities. That might change the behavior un-consciously and against a person's will. Furthermore, biological IT implants are highly unusual – till now. But people have great tendencies towards self-medicating with psychotic drugs to alter the UnderConscience. Therefore, 'hypnotic' 'parasites' might be used as willingly if it becomes an option. IT dictionaries should include a new term 'data-parasite' in addition to 'data-virus'. Although not directly relevant for the yes/no referendum, - it is highly relevant for in-depth analysis of national political cultures thereafter."
- "It is most crucial to realize the sociopathic warlike 4th degree Games going on in the national IT & Tele enterprises, public ones as well as commercial ones. There are also evidently indications that Nor Tele sector is as abused as the Dane IT sector. Despite serious warnings from NATO allied, Telenor has let the Chinese anti-NATO Huawei massive installations of G4 mobile network. The equipment has all capacities for illegal monitoring, manipulation and other foreign secret services. When established, a concerned newspaper hired an independent security company that registered most serious unregistered monitoring of mobile communications in governmental, financial and industrial centers in the capital Oslo. The head of PST (Norwegian secret service, like Dane PET) denied any illegal activity and closed the case in 6 months. However, now the government has allocated 12 million Kr to fight illegal mobile monitoring. Now, a major corruption case causes major political scandals. The Telenor related company Vimpelton has been involved in heavy corruption in Uzbekistan for years. Nor Telenor and Dane TDC are apparently competitors in Denmark, but very close in reality. This close relation TDC/Telenor relations to anti-NATO actors concerns America as well as European nations, - just like the

Moscow thesis does. Unsound psychosocial neuro-systems, like some S-E/S-I relations, might be on destructive paths that might become irreversible.”

International Criminal organizations won the Dane referendum of EUROJUST, EUROPOL and CEPOL. It should be investigated by these organizations if the referendum was corrupted like football Games with drugs, money and bondage by PROSA.

The Dane tax authorities ‘SKAT’, meaning ‘Treasure’, are too often seriously involved in criminal cases of fraud, mismanagement, corruption and scandalous IT investments, - especially in Games de Etat (GdE) with IT (UU 2014.mars.07 to UU 2014.april.04). Recently, the massive involvement by Skat in the ‘Panama cases’ has clear historical bonds to Russia Imperialism, Mongol ‘tax&terror’, Caribbean Pirate Bay (Virgin Islands), ‘the Pirates of the 4th Crusade’ and the Danish tax-castle Kronborg. The latter is the site for Shakespears ‘Hamlet’, the king of ‘tax madness’ and the infamous quote: «Something is rotten in the state of Denmark”.

- (UU 2015.sept.25) “The nature of crimes are far more comprehensive than the coldwar press indicates. As talked through in UU 2014.okt.24. “The article ‘Political corruption’ in Wikipedia mentions the infamous term ‘cleptocracy’. The word suits well to the terminology in UU 2013.april.19. “The article mentions several types of corruption like; extortion, comradeship, scandalizing, electoral cheating, fraud, ‘financial mess’, bribery and mafia activities. Global corruptions concern mainly drug-trafficking, human smuggling and whitewashing of money. The annual global political corruption is estimated to be about 1 trillion \$/year, the global GWP is about 70 trd \$/y and the Norwegian (and Dane) GNP is about 1 trd Kr/y. This means that the Norwegian (and Dane) political corruption is about 2% of the state’s budget, i.e. about 20 mrd kr/y. That suites the thumb-rule that there is an average of 2% disloyal employees (in most firms).” This also include terms like industrial espionage, information thefts, sabotage, pillaging, manipulation, disinformation, prostitution, slavery, narcotics, weapons, robberies, terror, and tax-fraud.”
- (UU 2016.mai.13) “Tax and Treasures are definitely major sources of powers for states, nations and empires. The Russian bondage of Demark for 500 years is definitely executed by taxation on most products, services, processes and citizens. ‘Follow the money’ has been a major statement by the capitalistic empire since the hand-over from the ‘Pirates of the 4th Crusade’ (UU 2016.feb.19). The Russian tax culture relates to all its CdE and might be related to the present ‘Panama Paper’ syndrome and the historical ‘Pirate’s Haven at the Virgin Islands’ (UU 2016.jan.29). Therefore, in order to promote Parliamentary Quality and prevent worst-case scenarios of The 5th Pyramid; - there has to be extra focus on cells of organized international crime, cloaked in the Dane Taxation institutions (Skat), - not merely as organizational viruses and hackers, but manipulating parasites. (UU 2015.nov.06) These rather promote Games of pillaging, piracy and confiscation with abuse of Parliamentary powers, - which all are serious violations of the national Penalty law.
- The core to this Theme is this definition of the Pyramid Games, i.e. ‘The Pyramid scheme’. In this UU theme, these 5 Pyramids relate to the scripts of the 5 imperial ‘International’ and related bondages, - like the real ulterior ‘puppet-state’ contract. Each Pyramid will be focused on Dane-Nor constitutional relations. However, these Pyramid Games are globally deployed and thereby a main concern for any nation in order to maintain its Parliamentary Quality. Most alarming, the Pyramid Games multiply and collapse by its own core, - like some organizational parasites. Pyramid schemes are ‘Built to Fail’ where a few Game initiators intentionally rips off citizens as well as societies. Therefore, a most recent alarming omen is that the International organized crime won the Dane Europol/Eurojust vote last year. They proved to be stronger than the Dane authorities and getting stronger. Therefor it is crucial for any citizen to realize that any economic, political and social Pyramid Game is illegal according to present Penalty laws. Hard-core Game-players, civilian and public servants, are involved in Pyramid Games that violates all paragraphs of the Penalty Law, including treason. This Pyramid Theme is therefore a continuation of the Europol Theme concluded in UU 2015.nov.06.
- SKAT, with the solemnly focus on collecting money, exposes very clearly the tendency of LEJ corruption, - just like the 21 Conditions of the 3rd International and SU Comintern and the hard-core criminal Stalin. “The international crimes in public sector are alarmingly high and might be larger than in non-public sectors. National penalty law demands thoroughly investigations of all well-exposed crimes in the public sector. However, it is an apparent fact that public servant seldom are

charged and put to court for any criminal scandals in the public sector. Yet, the law is even stricter to the trusted public servants than for civilians. Danes have not even ratified the EU, ECHR and UN legislations properly. The Dane court do even use outdated laws to alter proper judgements (ref UU 2014.okt.24). The only plausible reason is that all of LEJ (Legislative, Executive & Judicial powers) is fatally corrupted and have been that throughout the coldwar, - and still is in these post-coldwar decades. In fact, the post-ww2 trials did not include the SU related war crimes against European nations, but rather escalated the crimes during the coldwar. The LEJ was not repaired after the ww2, - and still is not. It appears like there might be a para-LEJ at work in both Denmark and Norway. If so, - the national LEJ is in the Game category GdE (Games d' Etat) prior to the Game CdE (Coup d' Etat), which relates to the most serious paragraphs in any nations' penalty law." (UU 2015.sept.25)

Sub-cultures in SKAT seem to act like remote-controlled IT toxoplasma. It is a clear symptom for all the parliamentary powers in all the European nations. The para-organizations promoted in the 3rd Condition to the 3rd International and Pyramid Game is a Virtual Reality – real but virtual. Such International organized Cyber Crimes of IT Parasites can only not be dealt with by isolated nations, but only with accordingly EU powers like EUROJUST, EUROPOL and CEPOL.

However, far worse is the ancient manipulation of the people, systematic formalized the 1st Condition to the 3rd International and Pyramid Games. "Members (of the 3rd International) ... can place no trust in bourgeois (the nations' loyal civilians') legality (and shall) brand bourgeoisie (civilians) and helpers systematically and pitilessly" The system is called Gulag and became internal 'Animal Farms' of mass-massacre in Russia and the Stalinazistic Germany. Citizens of prey-nations were assimilate by the Gulag colonialization program. The mass-psychopathic deeds were finally exposed in Russia, Germany, China and Asia, - after massive denials from the Comintern. Remote Controlled state institutions in 'the West' grew to be the most powerful means for assimilation and turned RC oligarchic. Following are some relevant quotes to elaborate.

- (UU 2015.nov.06) "The 100 years old Red Mafia was presented in a video-documentary in extra UU 2015.okt.23. The global Olicracy is founded on brutal mass-assimilations of Throne servants by the CdE State regime, the created the Thieves worlds in Gulag Camps that climaxed in the so-called Bitch Wars. The Gulag colonialization programs have deployed the anti-democratic cultures in order to deploy the Comintern conditions for CdE in European and American democracies throughout the 50 years of cold war. This hypothesis goes along with the hypothesis about PROSA, GRAF and GRU, as talked through in UU 2015.okt.09. Its Gimmick is basically an Underworld version of the classic NIGYSOB (Now I've Got You, You Son of a Bitch), and related classical games like Schlemiel, IFWY (If It Weren't For You), WAHM (Why does this Always Happen to Me?), SWYMD (See What You Made Me Do), UGMIT (You Got Me Into This), LHIT (Look How Hard I've Tried), ITHY (I'm Only Trying to Help You), LPAFJ (Let's Pull A Fast one on Joey), LYAHF (Let's You and Him Fight), RAPO 'Psychiatry' and 'Courtroom'. "Some (self-defined) new Games are: DAC&UAC (Devide&Conquer & Unite&Conquer), ISR (It Started with the Retribution), ABD (Attack is the Best Defense), Jante/TUD (The Ugly Duckling), TLM (Two Little Maids), BGGG (Bad Guy, Good Guy), RPPP (Robbing Pete to Pay Paul), ODAB (One's Death – Another's Bread) and the Russian BOOFY (Beat your Own and Others will Fear You) (UU 2014.sept.12.) In In a psychosocial sense, the Gulag is a destructive Superior-ID, - and the European world wars and the Russian Patriarch wars are evidences."

The blog UU 2014.dec.19 'The Whole of the Moon' goes deep into the psychosocial murky sides of the pedocratic assimilation programs, 'Gulag for Kids', realized in the Nordic Folkeskolen (Folkschool/ Volksschule). It does pinpoint some fundamental aspects of Superior-Ego to Superior-ID assimilations.

- "Another alarming incident is mentioned in UU 27.April.2012: "There were unrest in the class from the beginning. However, it was more unfortunate that a specialist pedagogue took over as teacher. Despite the charming and cheerful appearance, certain murkier sides appeared over time. The dominating matriarch's attitude towards boys appeared highly xenophobic. It turned out to be a fact that every year, a boy with foreign relations had to leave because of 'unaccepted behavior'. (However, it seemed more to be human reaction to inhuman treatment in organized psychopathy, commonly called 'mobbing' and 'Jante'.) It simply appeared as a process of National Socialism.

Thinking back, it is almost unbelievable that a teacher can dictate the school's leadership, psychologists, and parents and continue with such cleansing. The class room, this 'Dolls' House' was untouchable for outsiders. The systematic psychological violence towards the minors have probably caused lifelong traumas. Their families were also affected by the chain-reactions. It would have been so much better for so many people if that special pedagogue was sent to the psychologists and psychiatrist instead from the very beginning. However, the final outcome was for anyone to see, - when the class got too small and had to merge with the parallel class, which made some teachers redundant. Anyways, the TED talk by Ken Robinson 'How to escape education's death valley' is inspirational to how schools should develop this century."

- "These events can be related to the theories of S-E and S-I at an organizational level. There are Drive (ID/sexual) related Games at 3rd degree at play. This fits rather Jungian theories, because of his concerns about collective synchronization, archetypes and sub-conscience biological powers that can overrun reasoning and empathies. The personal xenophobic and androphobic Drive can be explained by women's lack of the Y chromosomes and biological phobic reactions towards men's biology. As a dominant matriarch in a class-room cell of minors, - the collective Superior-Ego can become autocratic. No questions asked and no objections tolerated, like in the Game-change from Schlemiel to NIGYSOB, and LYAHF. In fact, the UnderConscience Drive (UD) dominates with pure ID-related version of the Game BGGG (Bad Gene – Good Gene, - i.e. Y-chromosomes). (Games are described in UU 2014.nov.28.) However, 10 years in a class-room cell with a dominant matriarch, or patriarch, takes Games to an organizational level of S-I/S-E, - in collective versions of the Games of TLM/(TOL) and national variations like 'Jante', TUD (The Ugly Duckling) and other 'Animal Farm' related Games of S-I."
- "The S-E/S-I phenomena wasn't limited to that particular class-room. It seemed to be a well-established pedocratic subculture extending several public services in the commune. Such relations between micro and macro levels of social-psychological cultures are hard to realize, simply because such Games are per definition ulterior. However, a common cultural ground can be that the well documented Gulag colonializations programs was about massive assimilation, - including the Nordic nations. The collective folkschool during the cold-war was certainly perfect for such objections, - and probably formed by the State bureaucracy for that. A further comment is in UU 2014.okt.17: "However, - (the extremist policies) failed on grown-ups in the universities so they targeted 'the path of the least resistance', - the 'bourgeois' (plebs') children in the 'folkschool'. As mentioned, - with 12 years' experience from such cultures the systematic pedocratic abuses stem obviously from the post-68 generation's mass-psychopathic Drives. It includes skilled abuse of psychological pedocracy and psychiatric bureaucracy. Now they have become the oldest and most powerful generation in the system. The results have been very clear the past 12 year. Related issues to such sub-cultures in folkschool are criticized on general basis in UU 2014.juli.11 and UU 2014.aug.01."
- "'Organized insanity' in S-E/S-I relations for organizations' and nations' is talked through in UU 2014.jan.10 and UU 2013.april.12: "The Ennea(-gram)/NLP destructive potentials can hardly be worse than in relation to Freud/Berne psychosocial Game-analysis. It can function like a dominating and psychotic Superior-Ego that can transfer its psychosis to the client's S-E, make ID's neurosis and even split it's Ego. There are potentials for the whole spectrum of Berne's described Games, - especially LYAHF, NIGYSOB, Debitor, SWYMMMD, Courtroom, LHHIT, Schlemiel, WDYYB, Rapo, Uproar, HDYGOH, LPFOJ, IOTHY and certainly Psychiatry. The destructive results of such Ennea/NLP psychosocial Games in enterprises and governments most certainly gain their rivals and competitors most of all." Furthermore, the DR documentary 'Crimes under hypnosis' (Forbrytelse under Hypnose) and the relation to NLP is mentioned. (See also the related Derren Brown's 'The Assassin'.) Terms like mass-psychosis, brainwash and indoctrination can surely be related to such unsound S-E/S-I relations. Identifications of such ulterior and abstract organizations might be easier with use of metaphoric terms like 'The Psychopathy' and 'The Sociopathy', to relate their activities of mass-psychopathy and mass-sociopathy to the psychosocial Games. (UU 2013.april.19)"
- "The S-E/S-I theories of organizations can even be lifted to Global levels during centuries. The most outstanding example is the CdE Game in the Winter Palace in 1914, - the Dagmar Syndrome. It started as a simple TLM/(TOL) Game between the rivalling tsarinas from Germany and Denmark. This is the ultimate example that cloaking of ulterior Games can lead to unlimited cascades of

misdeeds and mischiefs, - like a snowball can cause an avalanche, - like a match can cause a forest fire and like the shot in Sarajevo. Here is a translated part of the talk-through in UU 2014.mai.30: “Dagmar’s last meeting with Rasputin’ is the association to this UU. The title of the song is ‘Messiah Ward’ (which hints to an asylum). In other words, this will be another point of view on 1914, EW1/WW1 and the rest of that century. With hindsight, it is easier to see the moves of the Games, the players and the motives, - and who really lost and won. The overall plot should be clear after a 100 years; (a CdE Game) to convert Roma3 from Throne/Temple in St. Petersburg to State in Moscow.” There are far less costly ways to do so.”

- (UU 2014.okt.31) “Dagmar’s journeys were mainly to Crimea, Kiev, England and Denmark. Her favorite sister that was named Alexandra too (like her despised daughter in law from Germany). Her sister was married with Albert Edward of Wales that became King Edward VII. The ‘mysterious’ reason for believing that England would join the Schleswig-Holstein war against Germany in 1864, can be due to some fatal and faulty LYAHF Games with the Danish and Russian Thrones at stake. (It is a similar illusion exactly 50 years later when it was believed that England would be involved and try to save Tsar family in 1914). The two Danish princess-sisters have probably always played Games together as Child and Adult in the English, Russian and Danish houses. This again provides associations to the first tsar Ivan and his chaotic ‘Court’ (see UU 2013.Mai.24).” It still seems to be a relevant for understanding Roma3 of today. Actually, it goes for all the ‘Doll’s Houses’ Games of Thrones, Temples and States of any Roma.”
- (UU 2014.okt.17) “The conservative obsession in LO to Stalin is evident in expressions, actions, silence and passivity. Their major gatherings still starts with obliged sing-along of ‘The International’, the Stalinism’s hymn, even though the Russians disbanded it as national hymn in shame of all Stalin’s misdeeds. The rhetoric is still violently destructive like some spoiled childish bully, - or retarded brute. Actually, their criticism of innovation and the lack of own constructive tasks are remarkable. Simple T.A. shows that it is basically an underworld version of the ‘Jante’ Game. In this sense the 3x3 ego-state model for organizations is highly relevant. No doubt, that Jungian collective synchronization of UnderConscience Drive is fundamental for the whole movement. On the other hand, there isn’t really much Will to talk about in LO because it is remote controlled. However, the OverConscience Belief (OB) is highly manipulated which through the decades changes anyone’s UnderConscience Belief (OB). Alarmingly, this is the symptoms of neurotic psychosis. Furthermore, the LO/AP symbiotic struggles highly indicates organizational schizophrenia. The traumas from the nazist-stalinist D&C/U&C Games in WW2 wasn’t settled and couldn’t be entirely suppressed. It seems to re-appear in new dramatic Games of unpredictable outcomes.”

No doubt, the folkshool, folkchurch, ‘Confederation of Trade Unions’ (LO) and folkmovements (folkeskolen, folkekirken, og folkebevegleser) are means indifferent to parasite remote controlled schizophrenia and psychoses, that ultimately cause neuroses.

Psychiatry deals with the legalized side of drugs, while mafia oligarchs deal with the illegal drugs. However, being in the same industry and have similar interests in products and services, - has caused unfortunately BDW Games in both organizations. These International Underworld Games does certainly affect LEJ negative. Civil society is well aware of the high level of crimes against humanity in public psychiatry, - however powerless toward the related Oligarchs of those Underworld Games. The methods are systematically used in Radicalization programs for PROSA (Pro-Russian Oligarch, Separatists and Autonomes). The following quotes are taken from UU 2015.aug.28 ‘Wrong’.

- “A personal outrageous experience is that the Dane doping industry abuses minors for illegal experimenting with enhancing drugs. Illegal sport’s drugs are definitely physical and psychological damaging to minors. Proven after-effects are symptoms similar to CBS (Charles Bonnet syndrome) where subconscious images appears in the conscience, which proves that there are damaged neurons in the brain. The crimes were covered up by public servants by blaming the minor for being psychotic. A teacher even suggested a year in psychiatry to ‘deal with the demon’. Such Jante-Games are psychological and sociological damaging in itself. Next, the Dane psychiatry prescribed non-approved Asian anti-psychotic drugs named Aripiprazole by Otsuka Pharmaceutical Company, related to the very same enterprise that produces the famous sports-drink Pocari Sweat. The Dane psychiatrist’s analysis

of the minor concluded with all the most serious psychiatric terms in the book, a suspicious diagnosis that most certainly will indicate improvements at later time, - whether the drug works or not. However, the illegal psychiatric drug was substituted when the minor occasionally suffered from nose bleedings. These examples are definitely of organized crime towards minors in the public services. Anyhow, there should be no doubt to the seriousness of illegal drug industry in Danish sports, when the world-famous CSC bicycle teams was exposed in the report by 'Anti Doping Danmark, ADD. These drug-related organized international crimes in Danish sports and psychiatry might very well be related."

- "As initially mentioned, it all comes down to basic ethics of GCR (Good/Constructive/Right) and not BDW (Bad/Destructive/Wrong). This basic system of ethics is explained in UU 2015.juni.26. A main challenge for the democratic civilizations, in relation to occult psychiatry, is first of all to hinder BDW ethics. Unfortunately, international psychocratic crimes are capable to promote BDW by isms, attitudes and ideologies concealed as GCR mass-psychosis. Still in doubt? See Danish videos 'Børn af Christiania (The Children of Christiania)' and 'Fuckr md din hjrne (Fuckng wth your Brn)'."
- "The 3^3 psychosocial model should most certainly be interesting to use for analyzing the Dane psychocracy. However, such complexity of organizations and relations cannot possibly be done here and now. On the other hand, some thoughts might initiate imaginations: At imperial level, it seems that domains of psychocracy are mainly related as Throne/Drugs, State/Pills and Temple/Hypnosis. The past century has been State-dominated which caused criminalization of what their oligarchs cannot patent, - i.e. natural drugs. Furthermore, classic definition of schizophrenia is redefined to not include spirits and demons, but rather include extended terms of other psychosis to keep constant numbers of clients and market shares of pills."
- "Sexist psychiatry, like the Freudian and the Dane, are not legitimate in democratic civilizations in this century. General conclusions based on gender is unprofessional and should be disqualified as such. However, diagnosing extreme organizations might lead to single out one person that controls the Games, - male or female. As mentioned in UU 2014.dec.19 "One person's psychosis can undoubtedly be propagated to an entirely psychiatric organization – even nations. It is proven in STV documentary 'The woman behind Thomas Quick' (Kvinnan bakom Thomas Quick) that is talked through in UU 2014.juli.18: "The Quick case lost all its fantastic attention with the disclosure that he was no mass murderer at all, but merely a childlike patient with free meals, housing, drugs and hypnosis under the psychiatric matriarch. There seems to be some Oedipus-relations where life-long room service was the reward. ". "He admitted 39 murders (some in Norway) and was convicted for 8 that he did not even do. No technical evidences and no witnesses have ever linked him to any of the convicted murders. The trials lasted for years and cost 200 million kroner. The murders were made up by a desperate person that lied to get drugs, social relations and attention. He was supported by a cult of psychologists, doctors, police, prosecutors and layers, - that lied just as much, - or even more."
- "Is such organizational insane manipulation, like indoctrinating false memories, possible in Dane psychiatry too? Most certainly - yes. 'Organized insanity' in S-E/S-I relations for organizations and nations' is talked through in UU 2014.jan.10 and UU 2013.april.12: "The Enneagram/NLP destructive potentials can hardly be worse than in relation to Freud/Berne psychosocial Game-analysis. It can function like a dominating and psychotic Superior-Ego that can transfer its psychosis to the client's S-E, make ID's neurosis and even split its Ego. There are potentials for the whole spectrum of Berne's described Games, - especially LYAHF, NIGYSOB, Debitor, SWYMMD, Courtroom, LHHIT, Schlemiel, WDYYB, Rapo, Uproar, HDYGOH, LPFOJ, IOTHY and certainly Psychiatry. The destructive results of such Ennea/NLP psychosocial Games in enterprises and governments most certainly gain their rivals and competitors most of all." Furthermore, the DR documentary 'Crimes under hypnosis' (Forbrytelse under Hypnose) and the relation to NLP is mentioned. (See also the related Derren Brown's 'The Assassin'.) Terms like mass-psychosis, brainwash and indoctrination can surely be related to such unsound S-E/S-I relations. Identifications of such ulterior and abstract organizations might be easier with use of metaphoric terms like 'The Psychopathy' and 'The Sociopathy', to relate their activities of mass-psychopathy and mass-sociopathy to the psychosocial Games." (UU 2013.april.19)
- "How to heal the Dane Psychiatry? Tear down The Wall."

T. Gondii (*Toxoplasma Gondii*) is quite the opposite of T. Rex. Parasites in the human brain are quite common, though. Wikipedia says; "T. Gondii is a parasitic that causes the disease toxoplasmosis. Studies

estimate that 30–50% of the global population has been exposed to and may be chronically infected with *T. Gondii*." "It has been shown to alter the behavior of infected rodents in ways thought to increase the rodents' chances of being preyed upon by cats. Because cats are the only hosts within which *T. Gondii* can sexually reproduce to complete and begin its lifecycle. The rats wouldn't shy away from areas where cats live and would also be less able to escape should a cat try to prey on them." "A latent infection and has recently been associated with numerous subtle adverse or pathological behavioral alterations in humans. In infants, HIV/AIDS patients, and others with weakened immunity, infection can cause a serious and occasionally fatal illness, toxoplasmosis. A number of studies have suggested that subtle behavioral or personality changes may occur in infected humans, and infection with the parasite has recently been associated with a number of neurological disorders, particularly schizophrenia. Preliminary evidence suggests that *T. Gondii* infection can induce some of the same alterations in the human brain as those observed in mice."

As mentioned several times in this theme 'The 5th Pyramid', - theories of toxoplasmosis is highly relevant for 3[^]3 psychosocial analysis of the Games of CCD (Colony Collapse Disorder) and CdE (Coup d' Etat). Just yesterday, the results of the UK referendum were in favor of the Russian Kremlin, just like the Dutch referendum to exclude Ukraine from EU, - and the Dane referendum to exclude EUROPOL from Denmark. These European nations have in common a dominating elderly matriarch Thrones that historically were closely related to the Russian Throne 500 years ago, - as well as before and during the 1st and 2nd Russian Fatherland wars. There is no longer any doubt that the main gain of the Pyramid Games are a US Puppet President Trump. The PROSA 'toxoplasmoses' in European nations need urgently to be isolated and passified, - even though it means a generation shift in the European Thrones. The heir to the Thrones are probably far more capable of dealing with international challenges this century. 'Prince' Henrik of Denmark choses to go on 'pension'. It should be inspirational to all the elderly in the European thrones.

David Bowie – Blackstar (audio – video - lyrics)

'Blackstar', is a song by David Bowie. It was no hit and got only" # 61 on the UK Singles Chart. It is an art rock, jazztronica song with an "avant jazz sci-fi torch, inspired by Gregorian chant. In the middle section, the song turns from an acid house-ish style to a sax solo to a bluesy slow middle section. Bowie died of cancer two days after its release. His illness had previously been kept from the public. Co-producer Tony Visconti described the album as Bowie's intended swan song and a "parting gift" for his fans before his death.

David Bowie is often presented in these blogs, and lastly in UU 2016.april.08 as a necrology: "How are David Robert Jones these days? That might sound like an odd question knowing that David Bowie passed away by Cancer at 69. Yet, Ziggy Stardust passed in 1975, leaving David Bowie more alive than in a long time. The Ziggy character was definitely an alter ego created for public appearances. The inspirations might have been due to his dissimilar eyes, bisexuality and schizophrenic half-brother. However, all the extreme activities to become Jinn turned out to be life threatening for his real ego. One of them had to 'die'. Likewise, living as Bowie was hard too."

The association is not like the video and therefore not presented here. It is rather to the meme and lyrics that a dead black star reveal himself after an artistic lifetime being hidden in plain sight for everyone to see but not recognize.

Extra UU1 – The Queen, Ivan and Brexit

“Queen asks guests to give her three reasons why Britain should remain in Europe”. The challenge is taken; 1 Puppet President Putin fights it; 2 Puppet President Trump favours PPP and; 3 - well sometimes one needs to look at oneself to find the answer.

Queen Elizabeth I of England- relation to Russia

https://en.wikipedia.org/wiki/Elizabeth_I_of_England#Russia

Wikipedia: “Elizabeth continued to maintain the diplomatic relations with the Tsardom of Russia originally established by her deceased brother. She often wrote to Ivan IV ("Ivan the Terrible"), on amicable terms, though the Tsar was often annoyed by her focus on commerce rather than on the possibility of a military alliance. The Tsar even proposed to her once, and during his later reign, asked for a guarantee to be granted asylum in England should his rule be jeopardised. Upon Ivan's death, he was succeeded by his simple-minded son Feodor. Unlike his father, Feodor had no enthusiasm in maintaining exclusive trading rights with England. Feodor declared his kingdom open to all foreigners, and dismissed the English ambassador Sir Jerome Bowes, whose pomposity had been tolerated by the new Tsar's late father. Elizabeth sent a new ambassador, Dr. Giles Fletcher, to demand from the regent Boris Godunov that he convince the Tsar to reconsider. The negotiations failed, due to Fletcher addressing Feodor with two of his titles omitted. Elizabeth continued to appeal to Feodor in half appealing, half reproachful letters. She proposed an alliance, something which she had refused to do when offered one by Feodor's father, but was turned down.”

Extra UU2 - VDGG – The Undercover Man

Van Der Graaf Generator (VDGG) was presented in UU 2016.juni.03. “VDGG was one of those art-rock bands in the 70 with complex music and lyrics. Still, the VDGG lyrics are highly philosophical about humanity at universal level. Their style is not mainstream and made for whoever that is interested. The original concept was to organs, sax /clarinet and drums, - quite by the side of mainstream of guitar bands at that time. The lyrics are often of high philosophical reflections that are Inspiring. Peter Hammill voice swings between the very melodically to sometimes at the boarder of breaking. The name VDGG is taken from the machine that was used to prove that the fundamental Greek fundamental science was rather based on a Belief, - that atoms are unbreakable. That ‘scientific fact’ was proved wrong – and has been wrong Belief through the thousands of years. In the previous century, the traditional scientific Beliefs fell apart as new Beliefs were developed like the String theories, the Big Bang, and Multiple universe. Once again humanity is reminded that scientists’ mostly claims their Belief is absolute fact and seldom admit being wrong. This goes most certainly for the Believers in the isms of Pyramid Games as well. (Also see UU 2012.okt.05)”

‘Undercover Man’ by VDGG was one of the first songs presented in UU 2010.aug.13. The lyrics is about a person having the final confrontation with his alter-ego, - with the outcome ‘0-0’. The association to this

UU Theme 'The 5th Pyramid', is a similar confrontation the Russian Empire should do before starting the 3rd Fatherland war toward itself - and the ultimately consequences of own self-destructive insanity – and an Empire in urgent need for professional healing.

Imperiet - Du Ska Va President

2016.juni.17

Ukens Utvalgte

The 5th Pyramid Game counts from 2013 until it collapses as designed. Yet, there was a false start in 1999 when the Russian Oprichnina did a CdE by replacing the democratic elected president with a FSB agent. Still, the 3rd Comintern's 21 Conditions are the extreme fundament for high treason CdE Games in the prey states of Europe and America. However, internal Russian rivalries are escalating - with GRU and RAF liberation from FSB and the boosting of the National Guard, Oligarchs, Red Mafia and anarchistic Separatist. The schemes of the 5th Pyramid Game is to corrupt foreign LEJ (Legal, Executive and Judicial parliamentary powers) with media, law and money – to cause CCD and do CdE. For such a nova-feudal empire, such ambitions appears beyond psychosis and will probably cause an implosion and collapse to its own core. This time, the rest of the world should not be sucked into this internal '3rd Fatherland War'.

Nowadays, there are objective information on the internet about the 5 Internationals for the Comintern. Stalin's execution of the Red Army patriarch and his 4th 'counter International' caused other factions to try to alter the central Comintern too. The following summarizes attempts to organize a 5th international. "Trotskyist groups tried to form the 5th International with 'POUM' in Barcelona (1938), 'Quebracho' in Argentine (1941), Lyndon LaRouche (1965), Socialist Future (1994), LRCI (League for a Revolutionary Communist International) (2003), renamed to L5I (The League for the Fifth International). L5I has grown significantly since 2010 and stated that the 5th International will form in the near future. It has now sections in Austria, Britain, Czech Republic, Germany, Pakistan, Sweden, Venezuela, Latin America, the Caribbean, Sri Lanka, Bolivia, Chile, and the United States. Moreover, other groups claim to form the 5th international in New Zealand, Salvador, Nicaragua, Ecuador, Guatemala, Cuba, Australia, Portugal, Germany, and France." (Ref. Wikipedia)

In viewpoints of the 5th Pyramid Game, there are the same procedures as for the previous Pyramids. Anyone are potentials 'suckers' for another round of 'Pyramid schemes'. It is like a Game of RPPP (Robbing Pete to Pay Paul) were mass-psychosis are the payment for secret illegal services of treason. However, this time, the Oprichnina needed to rename and reorganize, in order not to be recognized. Suckers of '100 potential Vietnams' of the 4th Pyramid's RAF need alteration to GRAF to cover up previous Pyramid Games. There were attempts to boost economic triumph in BRIC (Brazil, India, Russia and China) and boost failure in PIGS (Portugal, Italia, Greece and Spain). However, according to the '21 Condition of the 3rd Comintern', the main prey is the 'West' (i.e. EU & US). Anyone sucked into Pyramid Games are destined to collapse with it. These attempts will be as fatal as for the previous Pyramid Games, if not exposed. For example, the key to understand the present terrors against Paris is by 'the Jackal'. Anarchists of the 1st Pyramid Game are basically the same as in the 5th. A main challenge is then to identify and defuse the cloaked 3rd party in such sub-Games related to LYAHF (Let's You And Him Fight).

However, once again, a reminder that the Global Games are far too comprehensive and complex for thoroughly explorations in these UU blogs. Still, the concept of the theme 'The 5th Pyramid' should provide some ideas along with the following quotations and translations from previous 6 years of UU blogging. Most of the following are based on UU Theme about the BBC documentary 'Putin, Russia and The West' in UU 2014.nov.07, UU 2014.nov.28, UU 2014.nov.21 and UU 2014.nov.14, - in addition to UU 2015.okt.09 that concerns GRU, GRAF and ISIL. A main 5D Event was the anti-glasnost/perestroika CdE in 1999, - probably by internal powers related to the ancient secret services of the Oprichnina from the reign of Ivan

the Terrible. Actually, Putin was like Lenin and Stalin - a criminal, raised by street-gangs of Leningrad before admitted as a KGB/FSB agent and became Russia's puppet president. Most alarming, - there are convincing examples that FSB and GRU uses the Red Mafia Factions as PROSA (Pro-Russian Oligarchs, Separatists and Autonom) in the new Imperial ambitions of a 'Nashi' and 'Nova Russia'. These are the real forces for the 5th Pyramid Game, - not some puppet democracy.

- (UU 2014.nov.07) "All in all, the first period was a tremendous success for Putin personally and the secret services. They were simply Taking Control, - like in a Game of CdE. Putin got powerful, the State got stable and stronger. On the other hand, - Russia got less democratic. The new Secret Services regime proved that they are anti-glasnost (anti-openness) and pro-perestroika (restructuring). Even KGB was renamed to FSB and closed down the outdated and exposed STASI organization in Eastern Europe. However, it didn't vanish, - it just innovated and moved."
- "There is no doubt that the neo-SU regime in Roma3 is a hard-core Game player of 4th degree. The simple fact that a secret agent was put in autocratic power says it all. The Secret Services are like the very definition of psychosocial Games (UU 2014.sept.12). A transparent example is that the democratic elected president Yeltsin surrendered himself to the new Secret Service organization. Even though the reason is a secret, it is highly likely that there were accusations related to national security (UU 2014.juni.13)."
- "It would be a grave mistake to over-focus on Putin personally in Game analyzing the organization, the empire, - Roma3. He is probably not in real power, but merely a marionette to publically execute some - pre-defined moves. Previous such peer-managers in SU were Stalin, Lenin and even (agent) Rasputin (UU 2014.mai.30)."
- "Identifying and profiling the true nature of the imperial secret organization is like doing Vaticanology and Kremlinology. Previously, it has been identified and described as the Praetor of Roma1, the Praetors (network) of Roma2 and the Oprichnina of Roma3 (UU 2014.mai.02 and UU 2013.Mai.24). Furthermore, Superior-Ego and Superior-ID (S-E & S-I) were described in UU 2014.jan.10. This theory is merged together in a joint Freudian and Jungian 3x3 egostates model. S-E and S-I are like the OverConscience of Belief and Drive (OB and OD), which means they can both influence collective synchronization, - like some 'peoples' movements'."
- There might be positive reasons for the State to take control over the Throne-like olicrates. Using the 3-state value system RCG (Right-Constructive-Good), which is related to 3x3 ego-states (Belief-Will-Drive), seems not to indicate major WDB (Wrong-Destructive-Bad) in the restructuring. It is actually a remarkable achievement. For example, more transparent, today's Roma1 mafia has a budget like the Norwegian GNP. The State and Temple do joint 'war on crime' by prosecutions, exposure and excommunications. Similar organized crimes should be looked into in Europe, Norden and Norway, since Russians are involved here too."
- (UU 2014.nov.21) "SU armed PRS in Georgia with weapons and upgraded the province's railroads. Meanwhile, Medvedev was democratically elected as new president and Putin was degraded to prime minister. However, there was a secret agreement that Medvedev was some kind of trainee without full powers. Georgia wanted to sign an international no-force treaty. However, US/NATO demanded Georgia to sign a no-force agreement with SU and US promised to stand by. Then Russian troops invaded a province, PRS snipers fired and SU military convoys invaded. Georgia was unable to call a cease-fire even with their president's appeal. PRS and Russia fires increases and Georgia was forced to respond. Medvedev then ordered an invasion of 'peacekeeping' troops."
- (UU 2014.nov.28) One source for recruiting agents is simply what one of the original critics of the BBC documentary says: "You don't need conspiracy theories to explain this (because in) the democratic West (there are always some) left wing and anti-American." However, as mentioned in the movie JFK, which was a basis for the ABB analysis (starting with UU 18.mai.2012), one of the exiled Cubans said in despair something like: "They only need to find one single personal weakness to abuse to get you into it." Now, unclocking of SU spies in 'the West' also reveals how they were tricked into it with ulterior Underworld and Sexual Games of Secret Services. A few headlines of the present domestic newspaper says: "Homosexuality, alcoholism, messy economy, and adultery is used by KGB as blackmail." However, the unique interview of the unwilling spy 'Selmer' in (UU 2014.juli.04) and the SU CdE attempts in Ukraine (UU 2014.nov.14) indicates far more extensive hardcore Underworld Games."

Nevertheless, being exposed to such Games for some time, it seems transparent the Putin is merely a marionette, 'Puppet President Putin', when playing macho and posing half naked, like some new alpha patriarch, - and riding a tri-cycle amongst some Hells Angels wannabe's werewolves, - promoting anarchistic PROSA sociopathy in European civilizations. However, to the civilized world, - the annexation of Crimea is a violation of UN treaties and the PROSA wars ruining the east Ukrainian regions are uncloaked as Nova-Russian proxy wars.

The 5th Pyramid Games of Oprichnina are different from the RAF Games of the 4th in the cold war and Stalin's 3rd in WW2. A main aspect is that the FSB dominated GRU until 2013 that cause rivalry between FSB and GRU. It is became apparent as proxy-wars in Ukraine and Syria, - and the PROSA shooting of the Malaysia airplane over Ukraine is an exposure of such Russian fragmented internal wars of the 3rd Roma. It must be quite alarming for civil Russians that Putin found it necessary to boost up his National Guard to become a regular domestic army. Nevertheless, these issues were talked through in previous blogs, - in UU 2015.okt.09 in particular.

- "There was a global Game-changer in 2013 when the Russian secret military organization GRU was freed from the FSB bonds, - at least got a longer leash. Russian policies and warfare have change since then. The use of FSB undercover separatist failed to rock national authorities and the world opinion discovered the plot before GRU could be invited to rescue the region by a FSB puppet president. Now, in Syria, it seems that GRU is set to full power, independent on FSB and cooperating with oligarchic warlords. However, just as important for Russia as the actual invasion, is that neither UN, EU nor NATO gets involved in Syria. The standard tactic seems to make their PROSA agents stirring up those nations with riots and GdE (Games d' Etat). The Dane Europol referendum is most certainly such an opportunity, to create a 'Pirate Bay', a 'Kardemomme State', an 'Outlaw Haven', 'an infected firewall out of control' - within the European Union."
- "Less known, yet most crucial, is the island Cyprus as emphasized in UU 2014.dec.12 "Now it is very transparent that there are 4th degree CdE Games in relation to African guerillas, 'the Arabic spring' and IS of the Middle East." As mentioned in UU 2014.nov.21 "However, less mysterious is the Syrian war with several Muslim groups with loads and loads of Russian weapons, traded by murky oligarch via Cyprus. Nevertheless, the newest actor in Muslim self-genocides is the so-called IS, alias ISIL alias ISIS. It does not seem to be true religious at all, but rather another nova-RAF, - Jackal style. In fact, the L in ISIL mean Levant that includes Jordan, Israel, Palestine, Lebanon, Cyprus an south Turkey, - which indicates that Israel is a long term goal. IS might as well mean 'Iblis State'." Furthermore, "Cyprus is a key-island and mentioned as a center for war-like trades of narcotics, money, human trafficking and weapons. (It makes associations to the 'Pirates of the 4th Crusade', see UU 2014.nov.28.) The island is strategically sited by the Suez Canal to the Pacific Ocean (Asia) and next to all the war-zones of Syria/Iraq/Iran, Albania/Kosovo, Turkey/Hellas, Palestine/Israel and 'Arabic spring nations' like Libya and Egypt. Cyprus is divided between Russia and EU; and functions like some cold-war Berlin outpost towards the Middle East. Consequently, it is mentioned several times in UU like: "The main Danish pseudo-scientific institution of the NLP and Enneagram is closely related to Cyprus and Russia. (UU 2013.des.20) Arne Treholt, a main SU spy for Iraq, works as a guide and consultant at Cyprus (UU 2013.aug.30). More about the relations to the Middle East can also be read in UU 2013.aug.02."
- (UU 2015.okt.23) The BBC / History video about the Russian Mafia documents that the so-called 'Red Mafia' that controls 40% of Russian economy, is the fastest growing, the most dangerous and operates at nation state levels. (See the Extra UU.) It also shows 100 years foundations to ww1 (the 2nd Pyramid Game), the imperial CdE (Coup d' Etat) and the mass assimilations in the SU Empire. However, there is no reason to ignore its cultural existence from Tsar Ivan's regime and the foundation of Roma3 and Oprichnina 500 years ago (UU 2015.okt.09). Anyways, in brief, the hardcore mafia of this century stems from several generations of Russians that survived the Russian revolution, ww1, Stalin's mass-terrors, ww2, Gulag concentration camps and colonialization programs, and the Russian contra revolutions of Perestroika and Glasnost. Now, in this century, the Red Mafia got an intuitive culture where 'Rule by Law', national border and democracy and not apply, - and where personal profit is their utmost value-system. There should be no doubt that EUROJUST, EUROPOL and CEPOL are considered main obstacles to the Red Mafia and are dealt with

as such - in their own ways. Most alarming, - there are convincing examples that FSB and GRU uses the Red Mafia Factions as PROSA in Imperial ambitions.”

- “Less known, but more important, are relations indicated to the Carlos the Jackal. As mentioned in UU 2015.feb.20 concerning the GRAF attack at ‘Krudttønden’ in Copenhagen: “Historically, in 1968, Carlos opted for the Patrice Lumumba University in Moscow that was reputed as a notorious hotbed for recruiting foreign communists to the Soviet Union. He was expelled from the university in 1970 by disciplinary reasons, though. Then he travelled to Beirut and Lebanon, where he volunteered for the PFLP (Popular Front for the Liberation of Palestine) in 1970 and tried to establish his own organization with Syrians, Lebanese, and (East-) Germans. Carlos was also connected to the STASI that provided him with an office and safe houses in East Berlin, a support staff of 75, a serviced car, and allowed him to carry a pistol in public. The STASI files also show links to the KGB (today's FSB). There is no public information if Carlos and Putin had relations when they both were with the KGB in East Germany. However, Carlos the Jackal was most certainly closely related to RAF-dnk.” (UU 2014.nov.21.) Anyways, the Jackal’s main objective was to train Arabs in Underworld urban warfare like any sociopathic attacks from pillaging and terror to mass-murder.”

The Jackal is sentenced to 2 times Lifetime in prison in Paris. This alpha patriarch of 4th degree Underworld Games is a global magnet for any GRAF. The imprisonment of the Jackal bursts PROSA mass-psychosis and promotes recruiting for the 5th Pyramid hardcore Game players. Remote controlled anarchist are therefore ordered to execute a two-fold actions, - 1 hit the prey nation for the GRAF, 2 personal reward like massacre on defenseless groups like Jews, women, children (AUF) etc.

PROSA attacks on Europe escalated after the liberation of GRU/RAF from Oprichnina’s FSB in 2013. The videos BBC documentary ‘Putin, Russia and The West’ and ‘Red Mafia’ indicates the relation to attacks on Europe. The main gain of the Pyramid Game is to cause collapse of EU, like the collapse of the ‘League of Nations’ to trigger WW1 and the collapse of the ‘Concert of Europe’ to trigger WW2. Basically, there are Oligarchs’ Underworld Games where crimes of drugs/doping, slavery money laundry and weapons. Recent crises in Europe are as apparent as the fixed elections of the puppet presidents of Georgia, Ukraine and Russia. Other examples are; the Dutch vote that caused veto to Ukraine membership in the EU; the Greek monetary crises due to massive corruption from extreme left and right; the Dane Europol election where the international organized criminal won, the Turkish/EU Schengen cooperation boosted as political crises by certain media; the German internal refugee causing major LEJ instability and probably regime-shift; the PROSA riots related to football and referendum in Spain, France, Germany and Britain.

Oligarchic crimes towards European civilizations were discussed in a UU theme prior to the Dane Europol referendum (UU 2015.okt.16, UU 2015.okt.23, UU 2015.okt.30 & UU 2015.nov.06.) There is no doubt that the democratic European Internal Market has made oligarchic cold war business illegal. International criminal organizations fight the laws of Europe fiercely with any means disposal. As well-known now, international organized crime won the Dane Europol/Eurojust referendum in December 2015. Here are some quotes prior to the vote.

- “Coldwar propaganda has created an illusion that the market consists of a public and a private market. How untrue. Dominating oligarch have no exclusive right to state aid and exclusions from the law, - like some mafia ‘untouchables’. Unfortunately, national SMEs are nearly cleansed out of the national market due to state-aid corruption, protection from prosecution and hostile dominance in the democratic markets. Consequently, deliveries of product and service to the civil population and public services have too high costs and too low qualities, - as stated in the OECD reports.”
- Public servants of the Executive power are obliged to execute orders from its Parliament/Government. If not doing so, they are to be prosecuted in accordance to the Penalty law by the Legislative power, - just like ‘bourgeois’ civilians. This obviously applies to legalities of this century too. As mentioned in UU 2015.juli.10, “There is no doubt that Denmark has be legally obligated for over 20 years by the Treaty (TEU - Traktaten om Den Europæiske Union).” Numerus of public servants have become criminal actors due to anti-European political actors’ misinformation within public sector. The dilemma is thoroughly talked through in UU 2014.okt.24 with similar focus on Norway’s relation to EU. “In 1994 the law-making Parliament ratified the EEA law concerning the

European internal market instead of becoming a full member of EU. The new rules of competition caused considerable legal and commercial changes, - especially for the 3 constitutional powers; the Parliament (Legislative), the public sector and the legal system (LEJ). Suddenly, both private and public (oligarchic) cartel practices became illegal. The adaptations to legal practices are comprehensive, - which such dominant actors naturally resist. Today, 20 years later, there are just minor practical adaptations to the law. The media rarely seems to mention such illegalities and leaves the impression is that the law is practically neglected." UU 2013.nov.01

- "Furthermore, and similar to Denmark: The Constitutional Law, the Human Rights Law and the EEA Law are all superior in their areas and can be related to the Penalty Law. The article 30 and 34 of the EEA Law prohibits customs duties, discriminatory taxes and measures having equivalent effects. The rules of competition forbid undertakings' abuse of market dominance, abuse of competition and discriminating agreements (art. 53 and 54). Public undertakings are regulated as well as the none-public ones (art. 59). Unfair competitive public state aid to undertakings are forbidden (art. 61) and social support shall not be paid directly to any undertakings, but directly to the citizen (art. 61a)." (UU 2013.okt.04.) This means that alternatives to public service providers of schools, transport, health etc. became legal 20 years ago. However, illegal public discriminations are still discriminating in the markets in favor of own undertakings, oligarchic cartels and certain unions. A well-functioning parliamentary system would prosecute and settle this a long time ago." Furthermore, "The present government should initiate professional investigations by Riksrevisjonen (Office of auditors) and related according to the EEA Law. It is suspicious that Økokrim (Office of economic crime) do not have a section dedicated economic crimes in the public sector as it does for the private sector. Presumably there are hundreds of public mal-practices that should be legally prosecuted." (UU 2013.nov.01.)" These laws to promote democratic markets are definitely anti-oligarchic." (UU 2015.okt.23.)

As mentioned about the 4th Pyramid, LO is an international oligarchic trade union (UU 2016.juni.10). The shift from 4th to 5th Pyramid regime is rather transparent with the regime-shift in AP (Arbeiderpartiet in Norway), triggered in 2011 and executed in 2013. Looking back as a domestic citizen, it is getting very hard to continue believing the mass-psychosis that the bombing of the Norwegian government in 2011 and the regime shift in 2013 is not PROSA and GRAF related in any way. It rather seems like some parallel to Norwegian CdE in 1963 (the Kings Bay event).

Concerning an US president Trump (extra UU 2016.juni.03). There should be no doubt that the main gain of the 5th Pyramid Game is to have a remote controlled puppet president in US too. There should be no doubt that the Russian bets are set on Trump. A narcissistic Pro-Russian Oligarch is always for sale to the highest bidder or to personal threats. The Russian Oprichnina will most certainly abuse such opportunities and cause US to act against US Will and to nova Russia benefits. It seems there is a '3rd Fatherland war' that Russia has started on itself. This time Europe, or any other proxy-battlefields, should not be lured into it in any way – and let it finish itself. Trump as president is a such a potential high risk for 'the West' to enter conflicts.

There is some comfort in Believing "Which does not kill us, makes us stronger." It should also cause some discouragement to the manic sociopathy of the Pyramid Games. However, that requires a minimum of intelligence, which seems to be vanished during collective self-lobotomy in periods of Ivan and Stalin. The next UU will continue this with presenting a mounting of the core, the pyramids and its sphere.

Imperiet (The Empire) was a Swedish rock band from Stockholm between 1983 to 1988. Its original name 'Rymdimperiet' (The Space Empire), was taken from the Star Wars movie The Empire Strikes Back. It was a spin-off to the Swedish punk band, Ebba Grön, with Joakim Thåström as front figure. They were joined by Christian Falk (bass) and Per Hågglund (sax, keyboards).

Imperiet was mainly successful in Scandinavia, but also toured in the United States, Cuba, Central America and South America., They released their only English language album, called Imperiet in 1988 with

translated versions of their some songs. The album had an intensive promotional European tour, but was only popular in Sweden. This put an end to plans for an international career. The association to these three songs, 'You're gonna be president', 'Peace (do you really want it)' and 'Crime of the Century', is puppet president like Putin and Trump.

The 4th Pyramid Game relates to the SU/US Cold-war and proxy wars in 1963-2013. The extraordinary 3rd International was made to terminate the previous two and the next. Trotsky opposed Stalin and was executed by secret agents in Mexico. Trotsky's Red Army splintered into factions, went rough in exile, and

became undercover agencies, like some praetor guards of Roma². Lenin's extreme '21 Conditions' spread like 'organizational toxoplasmoses' in prey nations' unions, media and parliaments' LEJ (Legal, Executive and Judicial powers) in order to cause CCD (Colony Collapse Disorder) and CdE (Coup d' Etat). The threat to trigger '100 Vietnam Wars' was very real indeed, as CCD was triggered in Eastern Europe, South America, Asia and African nations with Leninist memes. Most CdE collapsed - like Pyramid Games are designed to do. However, 'toxoplasmoses' can enter hibernating sleeping cells and later cause organizational AIDS (acquired immune deficiency syndrome). This description of the 4th Pyramid Game is therefore mainly to provide a theoretical fundament for the final 5th Pyramid Game in the next UU.

Now, the internet presents more objective information about the five Internationals (Comintern). "The 4th International was founded in 1938 by Leon Trotsky, in opposition to Stalinism. Trotsky considered **Comintern** to be irreformable and to have crossed over to counter-revolution under the control of a bureaucratic elite in the Soviet Union. Although it still exists, the fragmentation of Trotskyism has similarly resulted in the call for a fifth international." (Wikipedia) The ratification of the Nuclear Test Ban Treaty (NTBT) in 1963 was a main reason for the end of the 3rd Pyramid Game. However, the fear of nuclear war was as effective weapon in the cold diplomatic war.

As Pyramid Games, however, the Internationals (Comintern) are rather imperial mass-psychotic scripts, isms and memes for cascades of CdE Games in prey nations. As mentioned in the previous UU 2016.juni.03. "The Secret anti-national high treason Conditions of the 1st and 2nd International are still ulterior, - as in any Underground Game. However, the 21 Conditions of the 3rd International are now public at Wikipedia (See links below for the full text.) The (following) quotes from the conditions (C) documents the international high treason crimes towards 'Western' Parliamentary LEJ powers." (In addition to labor unions, political parties and media.) "Most of these conditions towards European (and American) citizens and states are high treasons and subject for the most serious paragraphs in any national penalty Law. There is only one explanation for the failed Legal counter-actions, - the Executive and Judicial systems were seriously corrupted - and still are."

RAF (Red Army Faction) is highly relevant for the 4th Pyramid Game. Its foundation was made with the Leninist/Stalinist 3rd Pyramid. There was a Red-Brown cooperation until ww2, where the brown (Nashi) faction related to the 2nd Pyramid - and the Red (Leninist/Stalinist) faction to the 3rd. Both also relate to Trotsky's Red Army. However, Stalin's execution of Trotsky splintered RA into factions, - the Red Army Factions (RAF). In this sense, there was a BAF of the 2nd Pyramid before the RAF of the 3rd Pyramid. The two cooperated prior to WW2 to trigger all the CCD and CdE war Games. Nevertheless, like the saying, 'the revolution kills its children', the Red Factions flipped and became anti-Nashi at the end of ww2. Therefore, the 2nd Fatherland war Game was also about eliminating BRAF to become RAF in a brutal DAC/UAC Game. Clear indications are the Stalinazism prior to WW2 and the Stalinists execution of Nazis (Nashi) after WW2. The massive system of Gulag camps was designed for the Red faction to eliminate their former allied Brown faction and all other opponents to the 21 conditions of the 3rd International. The politics became, 'take all from all'. The camps also mass-produced subordinates to what became the so-called Red Mafia. For example, condition C10 says, "Every party belonging to the Communist International has the obligation to wage a stubborn struggle against the Amsterdam 'International' of yellow trade union organisations. ..."

Once again, a reminder that the Global Games of the 20th century are far too comprehensive and complex for thoroughly explorations in these UU blogs. Still, the concept of the theme 'The 5th Pyramid' should provide some ideas along with the following quotations and translations from previous 5 years of UU blogging.

The Nordic Labor Union LO (Landsorganisasjonen) have been infiltrated and manipulated from Moscow for a century and founded on the 3rd International / Comintern. Consequently, Nordic LEJ are highly infiltrated and manipulated from Moscow for a century too. The following paragraph is translated from UU 2015.juni.12

- «The cold war anti-democratic infiltration of parliament and government is hidden in plain sight in Norway and Denmark. The AP/LO symbiosis of party/union has dominated the parliament, government and state in almost a century. LO was actually Nazi and a main actor during WW2. LO

has never been brought to justice with public trials for their war crimes. There were rather silently accepted conversion to Stalinism and Maoism. LO is not based on the Human Rights, but is rather a hard opponent towards liberty of organization and speech, - as if they were political enemies. LO is submitted the Moscow thesis (i.e. 3rd International and Comintern). They have named themselves 'Confederation of Trade Unions' that is rather republican than democratic. Likewise, international mafia has also oligarchic godfathers that rule their trade unions with cloaked physical and psychological violence. For example, the oligarch Vladimir Potanin of the Russian metal-industry, is a friend of Putin and is good for 13.5 billion \$. That indicates that LO covers the real oligarchs behind facades of tired workers, good people in need and naïve youngsters. The AP/LO symbiosis has caused trade dominance in most of the public service industry and for all their suppliers in a business model ala soviet union, - despite that it has been highly illegal for 20 years according to European laws. LO is therefore the hardest opponent to the European internal market, - and a dominant manipulator in parliamentary elections."

However, understanding organizational nature requires history beyond the recent generations. Some background for the 3rd Roma is summarized in UU 2014.okt.31. In brief, they are about the discovery of Superior-ID and relation to Superior-Ego.

- "There is probably a 'Superior-Ego' state to the development from Roma1 to Rome3. 'The Oprichnina' of Roma3, the secret State police, is a key indicator. Similar was in Roma1 too, called the 'Praetor Guard'. The term is also related to Roma2, but was considerably improved and advanced. Praetor in Roma2 was the Caesar's 'first minister'. Roma2 divided the empire into 4 main regions, each with a praetor. In that way the dividing was a fact and the outcome was like the Game DAC (Divide & Conquer). Some praetors of Roma2 were probably involved in the formation of Roma3 and initiated their strategies and operations. An opposing Tsar or Tsarina would merely be considered some annoying obstacles, - that can be removed. It is said that the tsar died of heart attack during a game of chess after the tsarina's death. Maybe so, - especially if he also saw the Oprichnina/Praetor real strategies and operations for the future Roma3."
- "The Oprichnina/Praetor is like a definition of psycho-social Games. The Actors and the Games are ulterior and concealed like the very nature of secret services. It is however a problem if the democratic Quality of Life is not respected. It is serious if the organization consider itself as a Superior-Ego and individual as inferior. It is catastrophic, if it also inherited the properties of Ivan's murky mentality as a collective obsession." The theory of Superior-Id is talked through in UU 2014.jan.10 and the OD (OverConscience Drive) in UU 2014.aug.22.

The following quotes relates to the cold wars of Norden. The Pyramid Game was mainly set in States' public sector in order to 'take all from all' and remote control the prey nations' LEJ (Legal, Executive and Judicial powers). The Temples' promise of 'rewards after death' did not work on the atheists of the State. The promise was rather set to distant future with state-pensions, - if loyal to the 21 conditions of the Russian Comintern. However, Pyramid Game Player knew very well that most Gains are gone long before that. The UU theme about the Dane Europol election discusses the corrupted Quality of LEJ in UU 2015.sept.25 to UU 2015.nov.06.

- "The second pillar, the Executive power, (Udøvende) was discussed in UU 2015.okt.23 to set focus on apparent indications on dysfunctionalities. "The Dane Executive power is known as the 'Public Sector'. It is committed to provide products and services to Dane citizen and society as the Parliament and its Government order. A main reason to serious mismanages is obvious, - public servants are rarely investigated and put to trial according to the national penalty law. Some coldwar public servants are 'untouchables' to the Legal system." Furthermore, "The relations in Dane and Nordic societies become far more transparent when knowing the 100 years rise of the Red Mafia and the accordingly corruption of LEJ (Legislative/Executorial/Judicial powers). The public sector has cold war legacies that are not applicable, and even illegal, to this century's Denmark and Europe. The conditions and potentials of the nations are well documented in the OECD report 'Government at a Glance' and the Produktivitetskommissionens rapport (UU 2015.juni.05 and UU 2015.juni.26). Furthermore, Denmark and Norway seem to have some of the same fatal malfunctions in Police and Military as concluded by the Norwegian '22/7 Commissions

report'. As talked through in UU 2014.okt.17. "The economic crimes of scandalous public projects and services are mentioned in UU 2013.nov.01. UU 2013.sept.27 describes the basic professional knowledge about qualitative governing, maintain and innovating public services, - in addition to the massive critique in the 22/7 Commission's report." For 3D political model, the para-LEJ organization LO is negative toward Dane LEJ and main reasons why the LEJ Quality score is beneath the acceptable for European nations."

Vassals of the Pyramid Games were to support the making of a para-LEJ and cause CCD for CdE.

- "The Cold War (ww3) was mostly about the empire's political rivalries. The United Nations, and all its nations' parliaments, were official arenas for the rivalries. Unofficially, secret services were organized in political parties, public and private undertakings, and by criminal organizations. A Danish terrorist cell of RAF (Red Army Faction) was finally discovered and called Blekingegadebanden ('The Blekinge street gang') (UU 2013.aug.16). They and their clones in Germany, Italy and Spain were extremely greedy, violent and social-psychopathic. They copied Stalin's actions prior to his carrier. The Danish leader Gotfred Apple converted from Stalinism to Maoism in the 60's and this meta-organization has certainly influence Denmark with maoistic secret services for half a century." "It is getting more transparent now that such terror-cells were concealed, but closely related, to the secret services of cold-war empires', - namely SU & US – Roma3 & Roma4. Furthermore, the western Nordic nation joined the NATO with US and all rejected SU in fear." (Armed revolutionary guerillas like IRA, ETA and FARC seem also to stem from the same concept as RAF.)
- "Anyways and finally about the 500 years old Nordic Union. The Nordic council is actually somehow like a Nordic union. It is however far from what it could be and should be. In 5D 3x3 relation, it is clearly a result of centuries of 4th degree DAC Games. A summary from UU 2013.mai.31 says: «The cold war is also called 'a balance of terror' between SU and US. Norden however, was not in balance, but terrorized mainly by Roma3. Today, one can still see that Norden is organizationally bound to Kaliningrad, Leningrad and Murmansk. These 3 cities are like a 'Baltic Cuba', KGB/FSB headquarter, and the Arctic nuclear test-site. Furthermore, there are direct ferry lines between Kaliningrad-Gdansk-Copenhagen-Oslo. Sweden and Finland have probably similar lines. Direct influence is shown by the increasing terror-flights towards the Nordic nations with Russian bombers made for nukes. It is done to recall memories of SU terror bombing of Bornholm in ww2, and the plans to make Copenhagen/Sjælland (Selandia) an 'East-Denmark', like East-Germany and East-Europe. This (OB) fear influences effectively the agenda and decisions in the Nordic Council of Ministers. Therefore, it is time to start rotating the housing of the Council, - like EU does. Consequently, Norden might finally come out of the Cold War freeze."

The following quotes from the previous UU focus on the RAF and relations to Unions and political parties. (UU 2014.okt.17.)

- "The cultures' realities might seem unbelievable from a civil democratic point of view. It contradicts all the sound morals, ethics and laws that any UN member should promote. However, that is the very foundation to such anti-HR cultures. It consider itself in war with weaker nations and permits any warlike means for the conquest. The concepts, arguments and activities were profoundly documented in the post '68 period with annexation of nations in Eastern Europe, Asia, Africa and South America. Some nations fulfilled the CdE, some didn't pass the massacre phases, some failed completely, but most nations worldwide merely suffered from the initial manipulations, destructions and deterioration caused by '5th colonists', pro-Russian separatist and myriads of related so-called 'useful idiots'. The vast majority of undermining preparations wasn't followed up by Moscow at all, but simply became 'sunk cost' on the victims' side. However, it seems that activist still believe or is bound to continuous sociopathic activities at major civic costs. See UU 2014.juni.13."
- "With today's information about the actors and events, it is obvious that such a massive anti-democratic, remotely controlled governing has been real for a century and still very much is. Even though the original declarations of 'armed civil wars' is lesser emphasized, such social-psychological hardcore Underworld Games are highly active today. Knowing that the real governor for AP/LO is

Moscow, - a lot of policies, events and misdeeds can be clearer by use of 3x3, 5D and LQ Game Analysis.”

The 4D political model is here presented and utilized for unclocking of the underworld CdE Gamer Players. (UU 2014.okt.17)

- “Political organizations changes over time. It can be shown in a 4D model, where the 3D powers show movements over time. Terms like conservative and radical are not fixed positions in 3D, but show stillness and movement. Organizations can even be relative conservative or radical over time. LO is probably the Norwegian government’s most conservative organization despite its extreme-radical origins. On the other hand, conservative organizations of the previous century can be relatively radical now, because they are not in position but opposition. The 4D model can also show organizations that comes and goes. Especially will the relation of short-lived extreme organization show to be pulsating constants in the 4D model, like the series of the pro-Russian separatist parties NKP, AKP, AKP-ML, RV, Rødt and MDG.» Note that extreme anti-powers will show up on the negative scale on the opponents’ axis. In this case they will position themselves with values (-10, +10, -10) where the axis’s are Throne, State, Temple. Furthermore, the majority is not as exposed as in registered political parties. Most are secret hardcore Underworld Game-player of CdE.”
- “(Analyzing the 3 Scandinavian LO factions) is like Kremlinology and Vaticanology, - the complexity and oddities of the internal Games are beyond anyone’s understanding, - even to themselves. Anyhow, the undisputed dominant ‘Superior-Ego’ to the LO cultures is Stalin. This ‘Man of Steel’, alias Ioseb Besarionis je Jūgašvili, is the archetype of Big Brother and makes top-score on most psychopath tests and indexes. He introduced mafia-methods to imperial-stat bureaucracy and caused definitively the worst crimes towards humanity world-wide. This is what LO insists submitting to, even though Russia itself rejected it in shame decades ago. Stalin is the very core of LO’s social-psychological profile, culture and archetype.”
- “The conservative obsession in LO to Stalin is evident in expressions, actions, silence and passivity. Their major gatherings still starts with obliged sing-along of ‘The Internationale’, the Stalinism’s hymn, even though the Russians disbanded it as national hymn in shame of all Stalin’s misdeeds. The rhetoric is still violently destructive like some spoiled childish bully, - or retarded brute. Actually, their criticism of innovation and the lack of own constructive tasks are remarkable. Simple T.A. shows that it is basically an underworld version of the ‘Jante’ Game. In this sense the 3x3 ego-state model for organizations is highly relevant. No doubt that Jungian collective synchronizations of UnderConscience Drive is fundamental for the whole movement. On the other hand, there isn’t really much Will to talk about in LO because it is remote controlled. However, the OverConscience Belief (OB) is highly manipulated which through the decades changes anyone’s UnderConscience Belief (OB). Alarmingly, this is the symptoms of neurotic psychosis. Furthermore, the LO/AP symbiotic struggles highly indicates organizational schizophrenia. The traumas from the nazist-stalinist D&C/U&C Games in WW2 wasn’t settled and couldn’t be entirely suppressed. It seems to re-appear in new dramatic Games of unpredictable outcomes.”

The following quotes are about the BRAF, RAF and GRAF and their development to the so-called PROSA (Pro-Russian Oligarch, Separatists and Autonomes) – and the relation to the psychosocial Games theories.

- (UU 2015.feb.20) “Ulterior RAFs and alike exist in most nations and have variations like BRAF and GRAF.” The hypothesis of the present multiple RAFs is talk through several times and accumulated in UU 2014.juni.13. In brief, ‘Red Army Factions’, despite their extreme ulteriority, were disclosed in several European nations and probably exists in all. A RAF-dnk cell called ‘Blekingegadebanden’ was named after the disclosure of a weapon depot in Copenhagen. Besides, the hypothesis of RAF development is the pre-RAF as BRAF (brown-red), formed from the WW2 Stalin-Hitler alliance and postwar-Games. This century’s RAF has become GRAF (green-red) where green as the color of Islam and do not symbolize of nature at all. Furthermore, another bullet point said; “Pro-Russian Oligarch, Separatists and Autonomes (PROSA) do not merely operate in Ukraine.” This is based on present media observations on how the neo-SU CdE Games are played, where there are hierarchies of RAF cells organized, yet manically denied like in ‘Underworld’ Games of mafia bosses. The

executioner in Oslo, Paris and Copenhagen are displayed as Autonomes, merely to disguise and protect the massively organized crimes behind.

- (UU 2015.nov.06) "The 100 years old Red Mafia was presented in a video-documentary in extra UU 2015.okt.23. The global Oligarchy is founded on brutal mass-assimilations of Throne servants by the CdE State regime, the created the Thieves worlds in Gulag Camps that climaxed in the so-called Bitch Wars. The Gulag colonialization programs have deployed the anti-democratic cultures in order to deploy the Comintern conditions for CdE in European and American democracies throughout the 50 years of cold war. This hypothesis goes along with the hypothesis about PROSA, GRAF and GRU, as talked through in UU 2015.okt.09. Its Gimmick is basically an Underworld version of the classic NIGYSOB (Now I've Got You, You Son of a Bitch), and related classical games like Schlemiel, IFWY (If It Weren't For You), WAHM (Why does this Always Happen to Me?), SWYMD (See What You Made Me Do), UGMIT (You Got Me Into This), LHIT (Look How Hard I've Tried), ITHY (I'm Only Trying to Help You), LPAFJ (Let's Pull A Fast one on Joey), LYAHF (Let's You and Him Fight), RAPO 'Psychiatry' and 'Courtroom'. "Some (self-defined) new Games are: DAC&UAC (Divide&Conquer & Unite&Conquer), ISR (It Started with the Retribution), ABD (Attack is the Best Defense), Jante/TUD (The Ugly Duckling), TLM (Two Little Maids), BGGG (Bad Guy, Good Guy), RPPP (Robbing Pete to Pay Paul), ODAB (One's Death – Another's Bread) and the Russian BOOFY (Beat your Own and Others will Fear You) (UU 2014.sept.12.) In In a psychosocial sense, the Gulag is a destructive Superior-ID, - and the European world wars and the Russian Patriarch wars are evidences."
- (UU 2014.juni.27 & UU 2014.juni.13) "RAF, LO and anti-democratic parties are all bricks in SU (3rd Pyramid) Games. A new socialpsychological Game called CdE (Coup d' Etat) was defined in 2014.juni.13 and described as: " , the history before ew1/ww1 and ew2/ww2 is described as staged public Games in the two previous UUs. Important 'cracies' (powers) suffered, like democracy, aristocracy and theocracy. Games in socialpsychological sense was introduced in UU 2013.mars.15 and based on the book 'Games People Play' by Eric Berne. New Games like TOL, DAC and DSITDEN were later introduced in UU 2013.mai.17 in the Theme 'LifeQuality and Empires'. Then it is relevant to define a new Game CdE (Coup d' Etat or simply Coup). CdE can be played against Throne and Temple and not merely against State. The Game CdE is closely related to LYAHF (Let's You and Him Fight) and DAC (Divide And Conquer). It is dramatic Gimmicks/rules, ulterior/hidden moves/actions and spoils/treasures places the Game in the 3rd and even 4th degree. Furthermore, the Game is paramount, and supported with several other Games in categories like 'underworld', 'party' and 'sexual'. A new collective ego-state called Superior-ID (S-I) is introduced in UU 2014.jan.10. Mass-psychotic S-E (Superior-Ego) Games seems to appeal to individual collective S-I like 'the mob' and 'movements' of so-called 'autonomes' and 'separatists'. DSITDEN (Jante) is a typical Game for S-I. S-E and S-I is particularly related to the original Roma1 and its Praetor Guard', Roma2's system of Praetors and Roma3 further development to Oprichnina (the secret police of Moscow)." The Game and the expectations SU S-E Drove on the 3 Scandinavian S-I LO, should be as violent as the Moscow processes in Russia against their own Throne, Temple and People. However, it failed in Norden, - so, no massacre – no CdE and no invasion – no gain from the Game. It stopped with the DAC Game without the UAC. DAC is still stuck as a DSITDEN (Jante) nemesis in Norden. (See for example UU 04.nov.2011.)"

The following translated quotes in relation to the EU and the UN.

- (UU 2014.juni.13) "SU threatened to trigger '100 Vietnams' if US follow up the UN decision to defend potential satellite states. With that, the SU revealed to have undermined 100 nations. Became evident with all the CdE Games in Easter Europe, South America, Africa and Asia. They were uncloaked as Moscow's RAF with memes of mass-psychopathic patriarchs like Lenin, Stalin, Mao and Pol Pot. Diverse CdE attempts proves that the motives were foreign robbery, threats, terror, genocides and extortion of resources – Stalin style. Local RAF cells were organized for marionette governments to invite SU's RA forces to 'save' the nation by annexation and invasion after the CCD revolts. However, just as obvious did most marionette government eventually collapse in contra revolutions."

- (UU 2013.juli.12) “The new start for Europe was miserable in the second half of the 100 years of EW (European wars in the 20th century.) Europe was a battlefield after the histories largest ruins, genocides and political double-terror from SU and US. The previous European diplomatic forum was destroyed; the ‘League of Nations’ by EW1 and the ‘Concert of Europe’ in EW2. In EW3, a new confederation started with the ‘Coal & Steel Union’ to secure energy, industry and defense in Western Europe. From there, the confederation developed to the EEC, the EFTA and the migration to the present confederal European Union (EU). At this time, the confederation succeeded with support and close relations to the UN (United Nations). The sovereign EU nations work together now with common Parliament, Government/Commission, Citizenship, social policies, free trade, finances, research, benefits of scale, judicial and police cooperation, defense etc. Furthermore, a main foundation for EU are the UN and CoE declarations of Human Rights.”

Finally, some quotes relates Moscow’s 500 years relation to the Mongols and to Asia.

- (UU 2016.mai.13) “Some pirates of the 4th Crusade caused a CdE (Coup d’ Etat) Game in the Christian Roma2 about 1200 AD. The mismanagement caused the decay, piracy, plagues and cascades of CdE in Europe. Eventually Roma2 fell about 1500. Roma3 was constituted in the relatively small Grand Duchy Moscow. A monk stated that “Roma2 has fallen and there should not be a Roma4”, - indicating that antichrist would be the reason for a fall of Roma3. It expanded with the Mongolian agreement and concept of tax & terror. The Nordic (Kalmar) union was split in a DAC Game when Denmark allied (with Russia) and Sweden joined the resistance after the Novgorod massacres about 1600.” (UU 2014.mai.02). However, Norway never recognized the illegal and humiliating annexation after Russia caused the split of the Nordic (Kalmar) Union, - but was too weakened to resist.”
- (UU 2014.juni.13 & UU 2013.juli.19) “Asia was reawaken by WW2. All the emperors of the European thrones fell in EW1. The Asian emperors fell in WW2. Roma3 converted the former Mongolia to a SU marionette state. Once again, a Mongolian invasion, - this time with Stalinist SU ideology and their marionette Mao as the alpha patriarch converted Beijing. The converting of China from Throne to State exceeded any previous record in systematic persecution and genocides. The ‘culture revolution’ was not for self-realization from UK, but rather assimilation to SU/Roma3 as the final goal. The ambition was probably to assimilate all of Asia. However, the failed invasion of Japan in WW2 hindered similar assimilation of other Asian nations. The UN Security Council decided that South Korea could be protected by UN nations like US, UK, Australia, Canada, Syd-Africa, Benelux, France, Syd-Africa etc. Other Asian nations also bought protection from SU indirect annexations by civil wars. The result was SU-US proxy-wars with fatal bombing against invasion forces in Korea and Vietnam. SU and US split Korea in two, - like Germany after WW2. Then there followed ceasefire without any peace treaty between North and South Korea for half a century.”

The 500 years of failed policies and wars toward Asia and the Mongols in particular, seemed to turn into victory by the second invasion of Beijing. Now, the outcome of the Russian industrial policies of ‘Mongol see – Mongol do’ on piracy copied wester technology is not yet concluded. Mongolia wants all of China and the rest of Asia to themselves. More about this in the 5th and final Pyramid Game.

The Comintern C3 dictations are very clear on building para-organizations in European and American states in order to commit high treason as CCD and CdE. Such para-parliaments are in 3[^]3 psychosocial sense ‘organizational toxoplasmosis.’ However, Underworld Games of Secret Services in Prey Nations relates to S-E abuse of S-I collective nature. The psychosocial dimension Drive (Superior-ID) and its three sub-categories; RainForest (RF), AnimalFarm (AF) and WildLife (WL). The inspiration to describe the nature of human ID is based on nature itself. (The subcategories were at that time called Game categories.) (UU 2015.mars.13)

- “The social subcategory WildLife (WL) relates to animal life in the open nature, as we know it. However, knowledge increases according to new discovery documentaries, which expands this category. Typical areas of WL are penetrable forests, savannas, plains, cultivated nature and even animal life in cities. It concerns Drive-Drive related interpersonal relations by biology, motoric physiology, instincts, neurology etc. WildLife has probably some ulterior Games at Drive/Drive

levels that includes hunting and camouflage. Nevertheless, most activities are not Games at UD level, due to the honesty of nature.”

- “The social subcategory AnimalFarm (AF) represents some structures and dominations by biological Conscience within species’ tribes. There are hierarchal organizations where older mammals dominant younger and where a single male might rule. Contrariwise, insects might have hives where queens dominate workers, drones, warriors and nurses. There are even highly inter-species relations that indicate dependencies and bondage. Besides, flocks of birds and fishes have synchronized collectives where single individuals rarely dominate. Nevertheless, birds and mammals might have fierce rivalries between male during mating. Nevertheless, natures’ non-verbal communication is rather advanced with odors, colors, behaviors, rituals etc.”
- “The social subcategory RainForest (RF) refers to the hidden wildlife that we do not quite know or might have some believes about. The beliefs in RF concerns ‘cure for cancer’ and ‘fountains of youth’ as well as deadly nature, - and even viruses of potential apocalyptical pandemics. However, no doubt that RF do hold rich flora and fauna including potential new medicines, trickster predators and preys, where camouflage, poison, paralyzing are used in Games.”
- Alarming in RF sense is issues of memes, CCD, AIDS and parasites. (UU 2014.dec.19) “Summing up Dan’s concerns of dangerous memes, - he uses Ed’s example of parasite controlled ants’ brains, and continues: “Humans is the only specie that are willing to scarify their lives (and take others’) for ideas, values, isms, religions etc. These are replicated and spread from person to person like software or viruses. There are well-documented events in human history that such ideas have caused great misdeeds and miseries for humanity, - intended or not. We should be more aware about the dangerous memes now, in the global information technological age, because such dangerous memes can spread like computer viruses via internet and cause fatal harm. However, like it is pointless to hate HIV, - it is pointless to hate certain memes. We need to focus on understanding in order to find remedies, cures and immunities, - and simply figure out how to live with it without causing global psychotic-neurotic mass-reactions at S-E/S-I level – again and again.” See the UU 2013.nov.29 for more talks about isms, memes and mass-psychosis.

This collection of informative fragments are not quite manageable - yet. Points of view will be presented in the two last UU of the theme ‘The 5th Pyramid’, - indicating that there are 3 more UU to conclude the theme. It will be done with a combined use of the models of LifeQuality, 3D ethics, 3D politics, 3[^]3 psychosociology, extended Games models and finally the 5D scenario model. In brief, it should be clear now that this is no conventional analysis – and neither will the conclusions be.

The group Tangerine Dream often appears in UU. Allmusic writes; "Without doubt, the recordings of Tangerine Dream have made the greatest impact on the widest variety of instrumental music during the 1980s and '90s". They always had a sound quality beyond most at their time. In the beginning, their instruments were as large telephone centrals, when computers were at that size. They played synth, - no sampled instruments, but real generated synth. Their productions were as creative. However, they never sang until this album. They have evolved though and are not what it used to be. In the beginning, there were three persons with each computer at the size of the walls. The music was synthetic, dreamy and with metaphoric titles and images. Now, that youngsters can carry a similar synth in a laptop, the band has also developed and adopted to the technology. In addition, they use traditional instruments and shows that they master them too. Now they sing!

The association is the rough RAF agents trying to interpret what they Belief is signals from Central. However, the central (brainsystem) does not work as intended due to out-ageing, decay, toxoplasmoses and CCD.

'Bent Cold Sidewalk' was first presented six years ago in UU 2010.mai.14. Here, they made lyrics and are singing. However, the lyrics were as abstract as the music. It makes them unique and innovative with mysterious lyrics. You stop, listen, reflects and remember. It is like something from a cult movie.

Extra UU 'The Americans' trailers and interview

"The TV series 'The Americans' was previously presented in Extra UU 2014.nov.28. It sets a believable focus on secret services work on personal levels. A brief summary is; "A pair of deep-cover Soviet spies masquerades as a typical DC couple whose children, neighbors, coworkers & friends are completely unaware of their activities. At home, they're the stereotypical parents of stereotypical kids; at work, they pose as travel agents; but at night, they weave a web of confidants, lovers, dupes, and historical figures from the Reagan-era Cold War. The startlingly realistic plot twists force the viewer to consider the real cost of an undeclared war, what it takes to protect one's beliefs, if it's worth it, and if it actually worked for either side."

The author of 'The Americans' worked for a while in the CIA and was intrigued how field agents combined daily life with such work. The series seems to be based on stories similar to the Mitrokhin cases. The agents were 'hidden in plain sight' and the methods used fits the Mitrokhin descriptions. (Based on this, there could be made a hundred TV-series called The Norwegians, The Danes, The Europeans etc.).

There are millions of Americans, Europeans, Scandinavians, Chinese, Africans, Arabs etc, hidden in plain sight – playing Games of the Pyramids.

Van Der Graaf Generator - Every Bloody Emperor

2016.juni.03

Ukens Utvalgte

The 3rd Pyramid Game relates to the preparation, execution and seizing in the 2nd Russian Fatherland war and WW2. The CCD (Colony Collapse Disorder) of the Russian Throne and Temple was iconized by Dagmar and Rasputin. Realizing that the Coup could not hold, an extreme extra-ordinary 3rd International was made global. Lenin was iconized as the alpha patriarch for the CCD and CdE attempts on Europe and American too - 'the West'. 'The 21 Conditions' were autocratic scripts to anyone bonded to the 3rd International, the 3rd Comintern, - the 3rd Pyramid Game. In brief, the altered 2nd International was a hard-core mafia dogma for anti-national high treason to corrupt any national Parliamentary Powers, - i.e. the Legal, Executive and Judging (LEJ). In 3[^]3 psychosocial view, the deployment of the 3rd Pyramid Game was clearly inspired by 'organizational toxoplasmosis' and 'balance of diplomatic terror'. That did not end with the next Pyramids, but was rather the main mean for them all.

The 1st Russian Fatherland war is the Napoleon wars in Europe that ended in 1813 (UU 2016.mai.20). The 2nd Russian Fatherland war was based on the 2nd International (UU 2016.mai.27). The 3rd International, and Pyramid Game, is really an hardening of the planned 50 years CdE project for the 2nd Fatherland war. It was a Coup within the Coup and not as originally agreed on. However, once again, there were unpredictable 5D events causing fatal historical shifts, - like Lenin's 3rd International. This time, 'the suckers' of the 1st and 2nd Pyramid Games were also on the termination lists, - in order to finalize the previous Pyramid Games. Lured into joining the Pyramids by illusions of great leaders of higher ethics, - the bondaged were probably more surprised than the sceptics to find that the very opposite kind of leaders were placed in their nations' regimes. Now there was no voluntary recruitment anymore, but worse bondage and misery than in the 1st Fatherland war.

Once again, a reminder that the Global Games of the 20th century are far too comprehensive and complex for thoroughly explorations in these UU blogs. Still, the concept of the theme 'The 5th Pyramid' should provide some ideas along with the following quotations and translations from previous 5 years of UU blogging:

(UU 2013.juni.28) "One should think that the EW Game (European War) was done with WW1. However, with today's hinter sights, we now know that the worst was yet to come. The frustrations of the stalemates with lose-lose results in the European battlefields, caused need for revenge and retributions. It became apparent that the occult 'prophetic' scripts were not fulfilled. 'False prophets' risked exposure and their followers could be sentenced in trials for war-crimes. Furthermore, there were some emperors left in Asia. After the EW1, there was once again big Ideas of new global order. A rematch, a EW2 seemed necessary to cover up the mess, - but it also required time for preparations, - a ceasefire." Stalin's mafia infiltrated Labor Unions, with support from Lenin, for Underworld Games of DAC/UAC to corrupt, European and American Parliamentary LUD Powers, as well as the Russian.

(UU 2013.mai.17) « Before WW1, the Russian Empire was about to convert to democracy and parliamentarism. However, Russian republican statesmen in Moscow could not allow such loss of their autocracy. Lenin and his brother had participated in the DAC Games towards the Russian social-democratic labor party. Lenin's brother was sentenced to death for his violent anarchistic activities. Lenin was exiled to Siberia, - but somehow managed to escape to Europe. Later, he was smuggled back to Russia in a sealed train wagon, - like some weapon of mass destruction. Lenin was no people's front figure at all, but a self-declared anti-democrat ("The Blanquism demanded that revolutions should be carried out by a small group of highly organized and secretive conspirators. Lenin's' conception of revolution was elitist and essentially 'Blanquist' although he renamed it the Russian Bolshevism." (UU 2016.Mai.20.). Lenin manic obsession was a personal vendetta and lust for revenge for the execution of his brother. The red flag was like a 'dangerous meme' for all the UnderConscience collective rage, - the violence and the Drive for blood revenge. The motives for the propagandized Pyramid ideology was not at all to 'take from the rich and give to the poor' - like Robin Hood. The motive was 'to take all from all' and 'exterminate all enemies'.

The Secret anti-national high treason Conditions of the 1st and 2nd International are still ulterior, - as in any Underground Game. However, the 21 Conditions of the 3rd International are now public at Wikipedia (See links below for the full text.) The following quotes from the conditions (C) documents the international high treason crimes towards 'Western' Parliamentary LEJ powers. (UU 2015.okt.30)

- C1 "In the columns of the press, at public meetings, in the trades unions, in the co-operatives – wherever the members of the Communist International can gain admittance – it is necessary to brand not only the bourgeoisie (civilians) but also its helpers, the reformists of every shade, systematically and pitilessly. "
- C2 "Every organisation that wishes to affiliate to the Communist International must regularly and methodically remove reformists and centrists from every responsible post in the labour movement party, organisations, editorial boards, trades unions, parliamentary factions, co-operatives, local government and replace them with tested communists, without worrying unduly about the fact that, particularly at first, ordinary workers from the masses will be replacing 'experienced' opportunists."

- C3 “In almost every country in Europe and America the class struggle is entering the phase of civil war. Under such conditions, the communists can place no trust in bourgeois (loyal civilians’) legality. They have the obligation of setting up a parallel organizational apparatus, which, at the decisive moment, can assist the party to do its duty to the revolution (CdE Game). In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity.”
- C11 “Parties that wish to belong to the Communist International have the obligation to subject the personal composition of their parliamentary factions to review, to remove all unreliable elements from them and to subordinate these factions to the party leadership, not only in words but also in deeds, by calling on every individual communist member of parliament to subordinate the whole of his activity to the interests of really revolutionary propaganda and agitation.”
- C12 “The parties belonging to the Communist International must be built on the basis of the principle of democratic centralism. In the present epoch of acute civil war the communist party will only be able to fulfil its duty if it is organised in as centralist a manner as possible, if iron discipline reigns within it and if the party centre, sustained by the confidence of the party membership, is endowed with the fullest rights and authority and the most far-reaching powers.”

Most of these conditions towards European citizens and nations are high treasons and subject for the most serious paragraphs in any national penalty Law. There is only one explanation for the failed Legal counter-actions, - the Executive and Judicial systems were seriously corrupted - and still are. The C3 dictations are very clear on building para-organizations in European and American nations in order to commit high treason as CCD and CdE. Such para-parliaments are in 3rd psychosocial sense ‘organizational toxoplasmosis’.

The 2nd Pyramid showed the relation to ancient occult mythology that influenced the fatal outcomes of ww1. Occult Beliefs were certainly abused in the 3rd Pyramid Game as well. “With theocratic consideration, a motivation for the EW can be occult interpretations of the Tunguska event in 1908. (UU 2016.05.27). The formalized temples in Europe was protected against occult theocracies and protected the European empires and churches. However, with EW1 the whole system of Throne/Temples fell and opened up for figures like Rasputin, Gurdjieff and Hitler. The apocalyptic ‘John’s Book of Revelation’ laid Europe wide open for occult scripts like those that Nostradamus prophesies. ‘The Revelation’ tells about four doomsdays horsemen and Nostradamus wrote about the doomsday dictator ‘Hister’. The scripts are absolutely no divine prophesies, but rather scripts for psychotic sociopaths determined to cause civilizations’ ‘worst case scenarios’. The occult fundament lies in the old-Egyptian Osiris worship, where death and resurgence follows the cycles of the Sun. The great cycles are 2150 years at an average. They are called Age (Era) and follows the Sun’s passage through the 12 zodiac constellations. Moses represented the Arian (goat), Jesus the Pisces (fishes) and occultists awaits the next, the Aquarius (water bearer). Aquarius’ profile represents group-conscience, entertainment, self-expressions and dictatorship. The mini- mustache on Hitler might be inspired by the popular Chaplin and the movie ‘The Dictator’. It should be problematic for the occultists that the Tunguska event happened 250 before the new age should enter.” (UU 2013.juni.28 & UU 2012.dec.21.) Evidently, the occultists did not care about that.

The following citations and translations are taken from (UU 2013.juni.28). They presents some considerable investigation of ww2 using the 3D political model:

- “Two figures are put in front in EW2 history writing. One was the ‘Man of steel’, alias Stalin, namely Ioseb Besarionis je Jūgašvili. He was originally a local mafia boss in Caucasus that advanced to be the Bolshevik chief of operations. They financed their operations with bank robbery, kidnapping, blackmail and murders. He was arrested and sent to Siberia seven times, but got freed every time. He had no military background since he was unfit for military service in WW1. His need to propagate a better image was done with making the newspaper Pravda (Truth) and named himself ‘the man of steel’ (Stalin). The autocratic Lenin promoted Stalin as the right man to run Soviet and made him as General Secretary. Soon Lenin retired and Stalin got dictatorial powers. Stalin escalated Lenin’s termination of Russian civilians by 10x. Stalin’s admiration for ‘Ivan the Cruel’ should give him the nickname ‘Stalin the Cruellest’ and even ‘of the third Roma’. Moscow, the 3rd Roma became a mafia-regime during the 3rd Pyramid Game.”

- “The other figure was ‘Hister’/Hitler, namely Adolf Schicklgruber. He moved from Austria to Germany and became the leader of the German National Socialistic Party. Adolf got Governmental powers with an election alliance with the German Stalinist National Communists. Soon after, the Parliament burned and Hitler was pointed dictator. Yet, he acted mostly like a Stalin’s ‘Mini Me’, - a Stalinist marionette. Considering the outcomes, Hitler was an effective substitute for Trotsky, the head of the Russian Red Army. SU (Soviet Union) toned down their critics of the Nazism and Fascism at that time. Their Belief was that western oligarchs would attack and destroy each other during crisis - and that Hitler and Mussolini could trigger the processes. A following SU invasion of Europe would be relatively easy. (The following describes some moves in the WW2 part of the 3rd Pyramid Game. (Note; SU = Soviet Union (Roma3), US=USA, Italy=Roma1, Hitler-Germany=Nazi/Nashi, ‘League of Nations’=EU.)”
- “EW2 started formally by Roma1 with their invasion of the Christian icon Ethiopia. It proved that ‘EU’ was not capable for collective defense of Europe (1935). Nazi and SU used the Spanish civil war to test new weapons and tactics (1936-39). Japan attacked China while SU occupied Mongolia, but both lost. China broke their treaty with Nazi and made a treaty with SU instead. Japan was convinced to focus on US in the Pacific instead (1937-38). Nazi and SU made a peace-treaty (Molotov–Ribbentrop Pact) in 1939. Nazi attacked Poland so SU could invade. SU took Nazi-side by threatening Finland. Nazi and SU were excluded from the EU, France and UK. Nazi declared war on them in return.”
- “Nazi and SU make trade treaty where Nazi gave SU a battleship, 30 war planes, locomotives, tanks, explosive, chemical weapons, and access to bases (1940). Nazi invaded Denmark and Norway to gain control to the Baltic and Atlantic seas. Sweden stayed neutral and out of conflict with the new Russian aggressions. Nazi planes bombed Dutch and Belgic ports. Roma1 invaded France and declared war on UK. SU invaded the Baltic Estonia, Latvia and Latvia - without Swedish protection. Nazi proposed a peace treaty with UK, but was rejected. Japan, Roma1 and Nazi made the Axe alliance. SU made peace with Japan to focus on attacking US instead (1941). Nazi believed US and SU would attack Germany on two fronts. Nazi attacks Ukrainian Kiev and Russian St. Petersburg (Throne) without considerable SU (State) defense. Japan attacks US and UK in the Pacific, inclusive Pearl Harbor and Hong Kong.”
- “The Axe states’ progress turned in 1942 with major losses for Japan and Nazi in their two-front wars. The Allied invaded Roma1 and France. US seized most of the Pacific islands. Japan emperor capitulated when US bombed Japan with nuclear bombs. SU and US invaded Nazi simultaneously. Europe was divided in east and west between SU and US forces. The ww2 sat world record in human losses and miseries. 70 million died and 50 million was civilians that died of illness, hunger, massacres, bombing and systematic genocides. The global UN and west-European EU were established to rather solve future differences by diplomacy.”

“There are some other 5D conclusions in addition to the chronological. Figural said, the pre-EU, ‘the League of Nations’ acted like a ‘Hen farm of headless Hens’. Germany and Japan were ‘voluntarily’ drawn into two-front wars. The unpredicted war against Japan delayed support from US to UK and the race for European domination. Nazi and SU war-machines rolled back and forth over Eastern Europe with large civilian losses and let the ruins be easy for SU to occupy. SU waited for the collapse and capitulation of Japan in order to invade them. Unpredictably, the Japanese emperor resigned and made a peace treaty with US instead. SU got considerable access to Nazi war-machines and they destroyed eastern European nations together. Therefore, it is not possible to prove whether Nazi or SU did the Blitz-wars towards Rotterdam, Warszawa and Finnmark etc. Hitler saluted ‘Das Dritte Reich’ (the third Reich), that probably is the Third Roma’ - not Germany Berlin, but Stalin’s Moscow. There is no reason to believe that the incompetent corporal, that media clown, was capable of making qualified strategic or operative decisions. However, his Stalinist comrades from the Red Army certainly could. Neither was that self-declared ‘Man of steel’. He did not even have any military experience at all and probably merely capable of terrorizing civilians at mass-psychopathic levels. Furthermore, Hitler saluted ‘the Arian race’, that certainly is from the Muslim Iran, - not the Christian Europe.’ ” (UU 2013.juni.28).

There are some further thoughts and conclusion, when knowing the ulterior fatalities of such 4th Degree Games. However, first, one needs to realize that deception is the foundation for Games like the Pyramid Schemes. Furthermore, such Underworld Games are based on ulterior motives and ethics like 'honesty is for suckers'. No offence to all the poor deceived vassals, workers and ideologists, but they are 'useful idiots' in the views of their Game Masters. Unrightfully Gains from preys are seized with decisive moves and expressions. The preys' gains are merely mass-psychoses. Still, Pyramid Games are designed to collapse in themselves and leave the preys in a Win-8xLose Game without a clue of what happened and illusions on who to blame. However, with the 3rd psychosocial model, - the 3rd Pyramid Game can be sociologically understandable. Here are some related quotes from UU blogs:

- (UU 2015.nov.06) "The 100 years old Red Mafia was presented in a video-documentary in extra UU 2015.okt.23. The global Olicracy (Oligarch Power) is founded on brutal mass-assimilations of Throne servants by the CdE State regime. It created the Thieves worlds in Gulag Camps that climaxed in the so-called Bitch Wars. The Gulag colonialization programs have deployed the anti-democratic cultures in order to deploy the Comintern conditions for CdE in European and American democracies throughout the 50 years of cold war. This hypothesis goes along with the hypothesis about PROSA, GRAF and GRU, as talked through in UU 2015.okt.09. Its Gimmick is basically an Underworld version of the classic NIGYSOB (Now I've Got You, You Son of a Bitch), and related classical games like Schlemiel, IFWY (If It Weren't For You), WAHM (Why does this Always Happen to Me?), SWYMD (See What You Made Me Do), UGMIT (You Got Me Into This), LHIT (Look How Hard I've Tried), ITHY (I'm Only Trying to Help You), LPAFJ (Let's Pull A Fast one on Joey), LYAHF (Let's You and Him Fight), RAPO 'Psychiatry' and 'Courtroom'. "Some (self-defined) new Games are: DAC&UAC (Devide&Conquer & Unite&Conquer), ISR (It Started with the Retribution), ABD (Attack is the Best Defense), Jante/TUD (The Ugly Duckling), TLM (Two Little Maids), BGGG (Bad Guy, Good Guy), RPPP (Robbing Pete to Pay Paul), ODAB (One's Death – Another's Bread) and the Russian BOOFY (Beat your Own and Others will Fear You) (UU 2014.sept.12.) In a psychosocial sense, the Gulag is a destructive Superior-ID, - and the European world wars and the Russian Patriarch wars are evidences." Organizational abuse of Superior-ID relates to the 3rd Drive dimension 'Animal Farm' which concern the collective extortion of individual humans and violates their rights and needs for LifeQuality. (UU 2015.feb.27)
- (UU 2014.dec.05) "A fundamental reason for the general skepticism towards SU (Soviet Union) activities and politics in the Arctic, is explained in UU 2011.aug.12: "For Norway, and the rest of the world, the destruction in Arctic is unbelievable all-embracing. The nuclear catastrophes in the 60's were massively silenced. However, now anyone can see and read about the SU detonations (nearly Novaya Zemlya) of 224 nuclear bombs, 265 megatons, with a blast-force 20,000 times the Hiroshima bomb, - or 100 times all the blast-force in ww2. It is similar to a totally destructive nuclear war in the North Pole region with accordingly radioactive pollution (and 'nuclear summer'). This is a major global concern and no merely an internal affair. The radioactive waste is spread with the winds and with the Atlantic and Pacific streams. There is also radioactive waste on the melting ice. All remaining life, like fish, polar bears, whales and seals were highly exposed. Attempts to tell about these circumstances was strongly opposed by the Secret Services (KGB/FSB). The Nikitin case about radioactive sub-marines were just scratched the surface before another phase of total censorship." However, - most destructive of them all was the ozone-blaster Tsar Bomba that alone had 10 times all the ww2 blast-force. No wonder that this place has the highest increase in warming and that the ice melts so rapidly." Nuclear weapon was not used in a WW3. UN prevented that, like EU prevented war between West and East Europe. However, there certainly were nuclear threats in diplomacies that caused CCD and CdE all around the world at the end of the 3rd Pyramid Game. The Cuban missile crises was played openly in the UN. All the other Games, though, all around the world, were ulterior as in Games.
- (UU 2014.juni.06) «As mentioned in UU 2010.okt.08: The alter ego of Adolf Schicklgruber is like copied from Nostradamus collection of 'prophesies from the 17th century. He wrote about 'Hister' in relation to some make-believe catastrophes and mention Germany in particular. It is alarming how easy it is to use an ancient 'prophesy' as a script, arrange it and then claim that it is prophesies come real. Adolf Hitler's breakthrough came when experiments with the drug LSD started. He had always a personal doping-doctor close. Slavophil speeches, with occult messages about Arian

overlords, shows that he felt related to very different cultures than the German. The great exit, by going up in flames, like some super Jinn, did not become as spectacular as intended though. Bombs of fire were used elsewhere. However, the world burned with that national-communism patriarch. Out of the ashes came RAF (Red Army Factions).” Organizational abuse of drugs relates to the 3rd Drive dimension ‘Rain Forest’ which concern the undiscovered natures of humanity (UU 2015.mars.13)

- (2014.dec.19) “Nevertheless, the TED talk ‘Dan Dennett: Dangerous memes’ puts the concern at a more cautious perspective than ‘Ed Yong. The term ‘memes’ suits very well the theories of T.A., where any communication can be extracted to a minimum and cleansed for noise. It is like using digital technics and data analysis, in order to analyze the real meanings and communications. Similarly, there can be made M.A. (Memos Analysis) which can be used to analyze the real meanings and communications of ideologies and isms.”
- “Summing up Dan’s concerns of dangerous memes, - he uses Ed’s example of parasite controlled ants’ brains, and continues: “Humans is the only specie that are willing to scarify their lives (and take others’) for ideas, values, isms, religions etc. These are replicated and spread from person to person like software or viruses. There are well-documented events in human history that such ideas have caused great misdeeds and miseries for humanity, - intended or not. We should be more aware about the dangerous memes now, in the global information technological age, because such dangerous memes can spread like computer viruses via internet and cause fatal harm. However, like it is pointless to hate HIV, - it is pointless to hate certain memes. We need to focus on understanding in order to find remedies, cures and immunities, - and simply figure out how to live with it without causing global psychotic-neurotic mass-reactions at S-E/S-I level – again and again.” See the UU 2013.nov.29 for more talks about isms, memes and mass-psychosis.

Although too early to draw conclusions to this theme ‘The Fifth Pyramid’, - some reflections on the 3rd Pyramid does. The failure of the two previous International failed, mainly because of conceptual failures. The hard-core 3rd Pyramid was made on the same concept and thereby also built to fail. However, doping regimes with manic extremist caused the obvious outcomes of CCD. After the 1st Pyramid, there were temporarily mass-psychotic delusions to overcome. Now, with Leninism and Stalinism, the self-lobotomisation in Russia, by terminating millions their own citizens, caused organizational mental invalidation that will take generations to overcome. That is, - if the condition is realized and the need for sound mental health is admitted. Imagine - letting a brain-surgeon operate himself is obviously no good idea at all. That should rather calls for a psychologist or psychiatrist – other than himself. Anyways, the global shock of the Tsar Bomba was a wake-up call for most of humanity. “This is insane”. Unfortunately, the following strategy of Iron Curtain and ‘The Wall’ proves the opposite. Their CCD spread like an organizational toxoplasmosis.

What to do then, - when there clearly is extreme escalating violent insane crimes going on in the neighborhood?

Van Der Graaf Generator (VDGG) was one of those art-rock bands in the 70 with complex music and lyrics. Still, the VDGG lyrics are highly philosophical about humanity at universal level. Their style is not mainstream and made for whoever that is interested. The original concept was to organs, sax /clarinet and drums, - quite by the side of mainstream of guitar bands at that time. The lyrics are often of high philosophical reflections that are Inspiring. Peter Hammill voice swings between the very melodically to sometimes at the boarder of breaking. The name VDGG is taken from the machine that was used to prove that the fundamental Greek fundamental science was rather based on a Belief, - that atoms are unbreakable. That ‘scientific fact’ was proved wrong – and has been wrong Belief through the thousands of years. In the previous century, the traditional scientific Beliefs fell apart as new Beliefs were developed like the String theories, the Big Bang, and Multiple universe. Once again humanity is reminded that scientists’ mostly claims their Belief is absolute fact and seldom admit being wrong. This goes most certainly for the Believers in the isms of Pyramid Games as well. (Also see UU 2012.okt.05)

Extra UU – Supertramp - Better days

UU 2016.jan.01 presented a sincere new year's wish: "Still, there is an alarming omen. One outcome in particular should not happen, because of the likely cascade of global fatalities." "This video, 'Better days' by Supertramp, is a warning against such 5D scenarios. Two theatrical demons lure a juvenile on a path concealed as illusions of 'better days'. However, as indicated in the video, that is just like another Stalinist Molotov–Ribbentrop pact. Puppet presidents, personalized as Trump and Putin might be tools for such mutual self-destruction, - with global consequences.

Queen - Killer Queen

2016.mai.27

Ukens Utvalgte

The 2nd Pyramid Game relates to events around 1913, - especially the following 2nd Russian Fatherland War and the European World War I. The constitution of the Second International caused cascades of CdE attempts (Coup d' Etat), including collapse of the European Congress System. The Pyramid Game did not only involve pro-Russian anarchists and workers, but also statesmen, oligarchs and royal 'cuckoo eggs'. Yet, the 2nd Pyramid Game collapsed too soon. Considering the outcomes, the main gain to the Game was for Moscow to regain its powers as the Eurasian empire, - Roma3, and had a CdE from the royal Winter Palace to the republican Moscow. However, there certainly were unpredictable 5D events causing fatal historical shifts and desperate use of ancient doomsdays weaponries against the new war machines and tactics. In its end, the destructions of the 2nd Pyramid Game led to some outcomes that no-one planned or wanted.

The 2nd Pyramid Game was publically constituted with the 2nd International in order to radicalize vassals to workers and anarchists. "There were 20 countries involved that continued the work of The Second International (1889–1916). The permanent executive and information body (ISB) was based in Brussels. Vladimir Ilyich Lenin was a member from 1905 and dissolved in 1916 during World War I. It did not maintain a unified front against the war as promised to its workers. Anarchism had in fact dominated the London Congress of the Second International. It has been argued that at some point that the Second International turned into a battleground over the issue of libertarian versus authoritarian socialism." (Wikipedia) The propagated Beliefs, Marxism and Leninism, became the mass-psychotic doctrines that proved most beneficial for the rivalries to come. Ideologies were made as the new drug. (Ref. Carl Marx; "Religion is the opium of the people".)

International pacts, gimmicks and scripts were public for an UnderConscient bondage of civilians to radicalize civilians to workers - the 'suckers' for the lower level of the Pyramid Scheme. However, the OverConscience bondages are not public to the prey nations' civilians and regimes. These are ulterior Games of treason at national level. Now, a 100 years later, with the released information about events, actions and expressions, - it is possible to make more reliable 5D historical scenarios of the Games. With all that hinter sight, it becomes clear, that the 1st and the 2nd Russian 'Fatherland wars' were primary arranged for an internal Russian CdE to Moscow/Roma3. The European nations were sucked into some imperial intrigues as tactical consequences to prevent support from Europe to the Russian Throne during the 2nd Pyramid Game.

Global Games of the 20th century are far too comprehensive and complex for thoroughly explorations in these UU blogs. Still, they were occasionally issues in the 5 years of UU blogging. Besides, the concept of theme 'The 5th Pyramid' is explained in UU 2016.mai.13 - and the background to 'the 1st Pyramid' is explained in UU 2016.mai.20. Therefore, the following quotations and translations from previous UU blogs are in the views of the 3[^]3 and 5D models, - and indicates that there are far more to the 2nd Pyramid Game than the 'Cold War' media exposed:

- (UU 2015.aug.28) "A diagnosis includes investigation of backgrounds, traumatic events and relations. In previous UUs, the modern psychosocial history stretches over 500 years in the Nordic region, - including Russia. However, such a complex issue can only provide some new discoveries and point of views. A thesis is that the present Dane psychosocial condition was initiated about 1864 with the Throne CdE and following mass-massacre of the previous king's men at the German border. It peaked half a century later in 1914 with a similar procedure to the imperial Throne and following CdE (Coup d' Etat) and mass-massacre of the emperor's men. About 2014, - it has reached another historical shift that should be 5D analyzed with alternative future scenarios (UU 2014.nov.28). Anyways, the hypothesis is that the matriarch obsessions in the psychocratic industry's OverConscience seems to stem from the apocalypse in the Winter Palace, centered around its sole survivor, - princess Dagmar of Denmark, alias Tsarina Maria of Russia. This hypothesis is elaborated based on previous writings, especially UU 2014.dec.19, UU 2014.aug.01, UU 2014.juli.18, UU 2014.jan.10, UU 2013.april.19 and UU 2013.april.12."
- (UU 2015.mai.22) "Tsarina Maria Fjodorovna, alias Dagmar, must have been vital to the outbreak of the wars in 1864 and 1914. She was the sole survivor when all her imperial family was executed during the Moscow's CdE. There are certainly motives that have become taboo for both Denmark and Russia. Central to the wars, she appears to have grown from some spoiled disillusioned youngster to a similar dominating matriarch in an even more dominating patriarchal orthodox culture. The Dane poet H. C. Andersen, who was closely related to the young Dagmar, is particularly known for children's' tales that promote immature mentality. The promoting of Andersen, on the cost of more intellectual poets, is an indication for OverConscience influence of national mentality in that direction." (See also the Extra UU and the rewriting of the tale 'The Emperor's New Clothes'.)
- (UU 2015.aug.28) "To put it brief, there was a fierce rivalry between the widowed tsarina Maria/Dagmar and her German tsarina in law Alexandra. This Game of the Throne was exploited by the Moscow State in a CdE, with help from the occult agent Rasputin. The whole world were eventually dragged into the war-Games, more commonly known as ww1, ww2 and ww3 (coldwar). Russian secret services, historically known as the Oprichnina, last known as KGB and FSB, have most certainly been involved. No doubt that the tsarina was involved in imperial home-affair and most influential to imperial secret services. The serious claims that the young tsarina Alexandra was a German spy, not truly Russian orthodox and sexual unfaithful, were probably main reason for arresting the family and finally executing them. This, and related themes, are comprehensive and not very relevant for this issue. However, the psychosocial talk-through of Norden over a 500 years period starts with UU 2013.Mai.24, continues with UU 2014.mai.02 and continues as a theme from UU 2014.nov.07 to UU 2014.dec.05. Moreover, the psychosocial theory of Superior-Ego and Superior-ID is explained in UU 2014.jan.10 and UU 2015.mars.13. Still, it should not be surprising any more that Denmark has been in bondage by Russia since the collapse of the Nordic Union 500 years ago."

- (2014.mai.30) “Even if the Tunguska event in 1908 legitimated occult theocrats to end all European emperors regimes, - the real ‘starting shot’ was in Sarajevo/Serbia’ in 1914. (UU 2013.juni.21.). A radicalized teenager shot the crown prince to the Austrian empirical Throne and his pregnant wife. It was clearly an execution organized by some perverted minds that push naïve youngsters before them - and that are too spineless to execute their own bestialities. Unfortunately, such manipulative radicalization of weakened minds is seen daily and increasing, - nowadays called autonomes, activists, hooligans, rebels, separatists, extremists, terrorists etc. Anyways, the European Congress System collapsed after 100 years of European peace. The following wars were industrialized with war-machines, since Europe had developed into industrialization. There were no quick resolutions with clear winners and losers of international wars anymore. There were never-ending stalemates of continuous warfare at their borderlines. Finally, B-weapons were used when not even C-weapons (chemical) could end the WW1. The weapon ‘Spanish flue’ exceeded the Mongolian/Muslim ‘Black Death’. The only way to end the new occult apocalyptic war against humanity was for all emperors to abdicate, - which they did. Then the Plague war against Europe suddenly stopped. Mass-psychotic scripts like ‘John’s revelation’ seemed fulfilled. However, there were more occult scrips left.”

The following citations relates to the fatal start of the previous century. They are more related to the theories of 3^3 social psychology, 5D scenarios and imperial Games:

- (UU 2014.okt.31) “The Danish princess Dagmar from Holstein was married into the Russian Throne in the Winter Palace, presumably as a compensation to the Danish losses in Russian war Games. As the last and surviving tsarina, her history is important to understand Norden in a 5D 3x3 view: “Dagmar’s journeys were mainly to Crimea, Kiev, England and Denmark. Her favorite sister that was named Alexandra too (like her despised daughter in law from Germany). Her sister was married with Albert Edward of Wales that became King Edward VII. The ‘mysterious’ reason for believing that England would join the Schleswig-Holstein war against Germany in 1864, can be due to some fatal and faulty LYAHF Games with the Danish and Russian Thrones at stake. (It is a similar illusion exactly 50 years later when it was believed that England would be involved and try to save Tsar family in 1914). The two Danish princess-sisters have probably always played Games together as Child and Adult in the English, Russian and Danish houses. This again provides associations to the first tsar Ivan and his chaotic ‘Court’ (see UU 2013.Mai.24).” It still seems to be a relevant for understanding Roma3 of today. Actually, it goes for all the ‘Doll’s Houses’ Games of Thrones, Temples and States of any Roma.”
- (UU 2014.dec.19) “The S-E/S-I theories (Superior-Ego/Superior-ID) of organizations can even be lifted to Global levels during centuries. The most outstanding example is the CdE Game in the Winter Palace in 1914, - the Dagmar Syndrome. It started as a simple TLM/TOL (Two Little Maidens) Game between the rivalling tsarinas from Germany and Denmark. This is the ultimate example that cloaking of ulterior Games can lead to unlimited cascades of misdeeds and mischiefs, - like a snowball can cause an avalanche, - like a match can cause a forest fire and like the shot in Sarajevo.”
- “1864 seems to appear as a variation of the Game LYAHF (Let’s You And Him Fight), called ‘Cockfight in the Henhouse’ (CiH a Game in the 3^3 sub-category: S-I/AF - Superior-ID/Animal-Farm). These circumstances is the theme in following blogs with the use of the modified psychosocial models 3^3, 5D scenario and extensions of the classic ‘Games People Play’. These are further developed from Freud and Jung’s theories, and adapted to an organizational level. (UU 2015.feb.27, UU 2015.mars.06 and UU 2015.mars.13.)”
- (UU 2014.mai.30) “Dagmar’s last meeting with Rasputin’ is an association to this UU. The song title ‘Messiah Ward’ hints to mental institutions. In other words, this is a different point of view on 1914, EWW1 and that century. With all the hinter sight in this century, it is easier to see the Moves, the Players and the Motives, in addition to see who really won and lost. The plot should be discovered after a hundred years, namely to convert Roma3 from Throne/Temple in St. Petersburg to State in Moscow.” “The rivalries of the past century is previously investigated in UU, especially in the Theme ‘LifeQuality and Empires’. Now, as the theme has reached 1914, it is built on the previous writings and with a different point of view. It certainly goes very wrong if one tries to

explain insanity only with sanity. The two are not correlated and should not ever be presented as such. Unfortunately, exactly that happened after the unpredictable 'Big Bang' in 1908."

- (UU 2013.juni.21) «The Tunguska event was an explosion over Siberia with powers of 1000 Hiroshima bombs and 1/3 of the Tsar Bomba. The flash was like seeing the Sun in the night sky over Asia and Europe (and even America) for several days. Such events are also considered crucial religious omens for great changes to come. At that time, most Thrones were related to Temples. The emperors probably searched for advices and answers to what that 'omen' could mean for their destiny, although the established theologies could not predict or explain that epic event. However, less reliable religious groups probably took the opportunity to alter the theocratic rivalries, found alternative explanations and made plans for all. Unfortunately, even occult apocalyptic insanity was allowed to replace sane reason and decisions."

Finally, some quotations are directly related to a fuller extent of the 3[^]3 model at theocratic level:

- (UU 2015.feb.13) "In relation to social-psychological 3x3 Game analysis, - such is not about Belief (Superior-Ego), but rather Drive (Superior-ID). There is an ancient war strategy called 'Breed Them Out' (BTO) that suits the Drive Game category AF (Animal Farm). No wonder polygamy and slavery was introduced. The men were sent to kill each other and their women became spoils of war. True theologies of Temples were abused by Thrones to gain access via OverConscience Belief (OB). Although Persian drugs probably was an effective secret weapon to cause 'dangerous memes', they probably did not know the Egyptian counter-weapon 'hypnosis', - at first. The combination can cause even more 'Dangerous Memes'. Some of the results can be read in the scripts of false prophecies. In other words, - post-stoneage warfare was far more advanced than commonly realized today. The results of humanity's damaged mental health indicate so. A main challenge is then to prevent psychotic apocalyptic Games to rise from 3rd to 4th level and again - and cause irreversible 5D damages. (Basic theories of Games are talked through in UU 2014.sept.12.)"
- (UU 2015.april.03) "Nevertheless, this never-ending Game of Osiris is basically not part of the 3[^]3 social psychological state Belief, but rather of Drive and Will. As mentioned in UU 2015.mars.13, the new 3[^]3 social sub-categories for the ego-state Belief are: UNO (Universal Natural Order) a UB (UnderConscience Belief) sub-category of Drive that relates to S-I (Superior-ID). WoW (Well of Wisdom) a CB (Conscience Belief) subcategory and related to CW (Conscience Will). SET (Supreme Extra Terrestrial) an OB (OverConscience Belief) sub-category of Belief that relates to S-D (Superior-Devine). However, even though the original intentions in Egypt was of true Belief in UNO and SET, the rivalries with pre-Islamic Persia turned out GoT (Games of Temple) and to CdC (Coup d' Castle), CdS (Coup d' State) and CdT (Coup d' Temple). True Belief was not the motive for neither Julius, Cleopatra, Antonius nor Augustus, - but rather a Game of BTO (Breed Them Out). The never-ending rematches have become retributive Oedipus and Electra obsessions. Some hints to present Osiris Games are about Seth related Games of Napoleon (UU 2014.mai.16) and Hitler/Stalin (UU 2014.dec.05). There seems also to have developed a Game that can be called 'Get Seth' that is related to the Game 'Genocide', which is rather an excuse to kill them all while hunting a single person."

Thereby, the unpredictable 5D event of 1908 altered the 2nd Pyramid Game of KoC, GdE and GoT to cause global cascades of CdC, CdS and CdT in Eurasia for a century. This was dramatically escalated during the 3rd Pyramid Game. That is the focus in the next blog.

Queen are a British rock band from 1970, starring Freddie Mercury (vocals, piano), Brian May (guitar), Roger Taylor (drums), and John Deacon (bass). Queen's earliest works were influenced by progressive rock, but shifted into conventional pop. Freddie eventually made a solo career and became a rock icon. Finally, he died of AIDS after coming out of the homophobic closet. The name Queen then got a different interpretation and attention.

'Killer Queen' was Queen's first big international hit and featured on their third album 'Sheer Heart Attack'. It is written by Freddie Mercury and is about a high-class call girl. It has been characterised as his piano-led paean to a Moët-quaffing courtesan. It has also been described by AllMusic as the true beginning of

Queen's "radio sound" and "recalls the cabaret songs of yesteryear, but also shows how Queen was fast becoming a master of power pop". Its 'sleazy Parisian imagery' allowed freer rein to Mercury's unique brand of rock theater.

The association to this UU is to any kind of queen that arrange ulterior Games of mass destruction.

Extra UU - 'The Empress' new cloths'

«Dagmar was the name of a young Dane princess that was married to the throne heir of the powerful Romanov tsar/emperor family in Russia. It was undoubtedly an arranged marriage since she also was engaged to his older brother till he suddenly died. H. C. Andersen, the famous Dane fairytale author, described Dagmar's departure from Denmark like this: "Yesterday, at the quay, while passing me by, she stopped and took me by the hand. My eyes were full of tears. What a poor child! Oh Lord, be kind and merciful to her! They say that there is a brilliant court in Saint Petersburg and the tsar's family is nice; still, she heads for an unfamiliar country, where people are different and religion is different and where she will have none of her former acquaintances by her side". This has inspired to a slight rewriting of his tale 'Keiserindens Nye Klæder' ('The Emperor's new cloths'). The minor adjustments provided a rather different point of view on Dagmar and her daughter in law's roles in the Winter Palace. (Extra UU 2013.mai.17).

Ukens Utvalgte

The 1st Pyramid Game relates mainly to events around 1863. There was a total regime-shift at the Dane Throne of Coup d' Etat proportions. It happened exactly half a century after the Norwegian constitution. The next year, 1864, Danes went to war on Germany with a certain massacre of their own (previous) 'kings men'. UK prevented another 'Napoleon War' simply by refusing to join the fight. Simultaneously, an UK oligarch initiated the first International, - a vassal-like bondage of workers in order to start national civil wars called 'class-fights'. These fatal events were interrelated to previous events and future plans. However, that anti-European war-Games failed and the European confederation continued for another 50 years. Still, the 1st Pyramid made a foundation to far worse Pyramids to come.

The first blog to this new UU Theme, 'The 5th Pyramid', provides descriptions and links the models and theories in use, - and a brief historical summary for Norden until 1813: "Pyramid is the newest discovered psychosocial Game and relates to the so-called 'Pyramid scheme'. The main concern here is the corruption of Parliamentary Quality. This is an unorthodox attempt to explain some ulterior reasons, - hidden in plain sight." "Therefore, with the intention of promoting Parliamentary Quality and prevent worst-case scenarios of The 5th Pyramid; - there has to be extra focus on cells of organized international crime." "In 1720, Peter the Great constituted the Russian Empire and secured domination of the Baltic and Nordic nations. St Petersburg, the new imperial capital became the "Window to Europe", as well as a rival to the original capital Moscow - as well as the Nemesis to any opposing nation."

The fatal year 1863 followed exactly half a century after the constitution of the new union of European nations. It was a vital and obvious consequence of the anti-European Napoleon wars. The warfare appears remote controlled and is considered the worst Global Games until then. The following two paragraphs provide brief summaries about this from UU 2014.okt.31.

- "In brief, the results of the napoleon wars were basically a grand slaughter of European royalists in the military, - especially those related to the French Throne. There is therefore reason to think that the result might have been the overall goal in that Game." "The consequences for Denmark were fatal when they tried to stay neutral till the end. They previously lost the old relation to Danzig (today's Gdansk) when Napoleon 'liberated' it. However, most notably was the French-Russian diplomatic relation and their demand to choose a side 'for us or against us'. England reacted when Denmark had to choose France, because of hostile relations to Germany and Holstein. The English feared that the Danish fleet was going to be used by Napoleon in an invasion of Ireland and then attack England from behind (like the vikings a thousand years earlier). The English fleet bombed the capital Copenhagen and captured the naval fleet in 1807. That was the beginning of Denmark's fall and Norway's rise. Sweden, that somehow opposed Russia and allied with France, landed anyhow on the victorious side." UU 2014.mai.16.
- "Nevertheless, the war was not settled yet. Russia took Finland from Sweden and Russia was considered a victim since Moscow was burned to the ground in 1812. Norway was considered a suitable compensation as a spoil of wars. However, Norway made its own sovereign constitution with English and German support and was recognized in Kiel Norway was liberated and avoided submission of Russia or Sweden. The treaty was signed by Denmark, England and Sweden at the congress of Vienna in 1814 (the new European confederation). However, Denmark got the Throne and Sweden the Foreign policies. Even with that, whatever futile and pathetic, - Napoleon returned in 1815 to undo the losses, but merely met his 'Waterloo.'" UU 2014.mai.16. That rises some images of 'jack in the box'. In social-psychological sense, Napoleon was probably not very influential, but rather highly influenced. In relation to Game theories, it is obvious that there was a global 4th degree CdE Game going on. It might even be a sub-sequence of the lost rivalries in US, which constituted half a century earlier. (UU 2013.juni.14.)

Napoleon political relations are mysterious. His lifeguard was an Islamic slave. The catholic Pope refused to crown Napoleon as emperor. Therefore, it is legitimate to ask if Napoleon was tricked into Moscow to be crowned a new Tsar by the Russian orthodox. He surely was close to the real Tsar in the Winter Palace (See the video in extra UU2). Anyways, in relation to Pyramid Underworld Games, the gimmicks are; 'honesty is for suckers & there is born one every minute'. Napoleon seems to represent a 4th Game degree 'sucker', where 'one is born every century'. In other words, the remote controlled cascade of CdE in European Thrones was a finally formalized concept for the 1st Pyramid Games and the 4 subsequent ones.

In Denmark in 1863, there was a complete royal regime-shift of CdE and revolutionary proportions. Simultaneously, Denmark made a fatal suicidal act of war-declaration towards Germany, following in 1864 to invade Germany with the obvious slaughter of 'the (previous) king's men'. The process is close to identical with the Napoleon republican CdE and slaughter of French loyal royalists, - as well as the neighboring European nations. However, Europeans remembered Napoleon Games all too well and were not lured into such a cascade of European wars this time. Some summaries from UU 2016.mars.11 elaborates the Game:

- “Denmark declared war against Germany in 1864, which is historically considered extremely unwise and self-destructive, - for the nation. (UU 2014.mai.23). 1814 was to Denmark no less than a Napoleonic ‘Killing Fields’. The argument was that it could cause UK to declare war on Germany, despite the European Treaties. However, the real reason might be that the royal branch of Frederick IV was replaced in a CdE/Throne with the more Russian loyal Christian IX (1863 - 1906). Growing up as a prince of Schleswig-Holstein-Sonderburg-Glücksburg, a junior branch of the House of Oldenburg which had ruled Denmark since 1448.” “Christian IX was originally not in the immediate line of succession to the Danish throne, but married his second cousin, Princess Louise of Hesse-Kassel to become king. However, in 1852, Christian IX was chosen as heir to the Danish monarchy in light of the expected extinction of the senior line of the House of Oldenburg. Upon the death of King Frederick VII of Denmark in 1863, Christian acceded to the throne as the first Danish monarch of the House of Glücksburg. The new king immensely unpopular due to the defeat and loss of the duchies of Schleswig, Holstein and Lauenburg. His reign were dominated by political disputes, as Denmark had only become a constitutional monarchy in 1849. There were disputes for of powers between the sovereign and parliament.” (Wikipedia)
- The attempt to start a new European war in 1864 failed because of European unity. Consequently, there was no collapse of the European confederation. The Concert of Europe, alias Vienna system of international relations, alias the Congress System after the Congress of Vienna, represented the balance of power in Europe from the end of the Napoleonic Wars (1815) to the World War I (1914). The main objective for the Russian Empire was to control Europe. In order to so, it was necessary to divide European nations by destroying this ‘European Union’ and cause cascades of wars between the nations. It failed in the 1st Pyramid Game.

The first International, the public constitution for a ‘workers and vassals union’, is merely a one page in addition to all the ulterior and illegal schemes, treaties and bondages for the prey nations. Such will be uncovered and related in later Pyramid blogs. Anyway, it started in UK at an oligarch’s production site. Some citations from Wikipedia highlights the events:

- In Europe, a period of harsh reaction followed the widespread Revolutions of 1848. The next major phase of revolutionary activity began with the founding of IWA in 1864 (the International Workingmen's Association, the First International). IWA aimed at uniting left-wing socialist, communist, anarchist, and trade union organizations. IWA claimed to have 8 million members created the dividing myth of the working class and class struggle. Its first congress was held in 1866 in Geneva and collapsed in 1876 due to internal conflicts between socialist and anarchist factions.
- Philosophers’ rivalries caused internal conflict from the first congress. Mutualists opposed Marx's influence communism, statism, and parliamentary activities. The Parisian Proudhonians dominated claimed to be emissaries of Bonaparte, but were thrown out. Blanquism demanded that revolutions should be carried out by a small group of highly organized and secretive conspirators. Lenin’s’ conception of revolution was elitist and essentially 'Blanquist' although he renamed the Russian Bolshevism. Yet, they agreed that the bourgeoisie (civilian middle-class) would gain if the proletarians and peasants fight only for concessions from the old regime. (Wikipedia) Consequently, all had to be thrown into the fight, except the Pyramid Game initiators like Lenin himself.

The constitution of the 1st International seems to become an anti-national system in order to cause anarchy and cascades of CdE in the European nations. Consequently, the European ‘Union’ should fall too. Surely, the propaganda of the ‘1st Comintern’ promoted re-distribution of wealth, innovations, prosperities and ideals, - like any national democratic party did. However, that rather suits the very definition of Pyramid Schemes and Games as well. The Game-masters, as in a Pyramid scheme, gave no guaranties to the workers, except that they had to pay at risk in advance, - with jobs, families and even death. Knowing the mafia-like brutality of the labor unions at that time, - their threats were probably more effective than the temptations, - rather the wipe than the carrot. It was not even a null-sum game, but guaranteed loss in enrolment in sabotage, corruption, murder and even civil war. The Game initiators were third parties in several Games like LYAHF (Let’s You and Him Fight), RPPP (Robbing Pete to Pay Paul) and DAC/UAC (Devide&Conquer/Unite&Conquer). (See Games in UU 2014.aug.29)

The 1st Pyramid made the foundation of Workers Unions and Parties that have been very influential ever since. It also made the foundation of in-prison breeding to the powerful Red Mafia. Their anarchistic terrorists made the concept of urban suicide terrorists like RAF (Red Army Faction) and Islamic State (ISIL). However, even though the 1st Pyramid was designed to collapse, it founded some underworld anti-European sub-cultures and oligarchs that prospered on international crime. The similarities between the 1st and the other Pyramids are striking. The anarchists seem similar to the present suicide bombers, pro-Russians separatists and autonomists. Today's Oligarchs seem similar to the past's royal feudalists. Their working-class seems like their feudal vassals in bondage. Strikingly, merely UK and Norway still have working-class parties like Labour and Arbeiderpartiet. They refuse to rename to embrace democracy, as most other European socialist parties have.

The royal CdE in Denmark in 1863 might seem unimportant and irrational to outsiders. However, it was probably remote controlled by the royal Russian Imperial Tsar. The new Dane king was not even directly heir to the throne, but became such by marrying his second cousin. Their six children married into some European Thrones, earning him the sobriquet "the father-in-law of Europe". Most current European monarchs are descended from him, including in Denmark, United Kingdom, Belgium, Norway, Romania, Spain, Luxembourg and Greece. No offence to any present royalties, but at the time of the 1st Pyramid, - it seems an OverConscience strategy to breed into most European Thrones – and breed out others in ancient feudal ways.

This all leads to a far deeper analysis of the nature of persons, organizations, nations, empires and even humanity. As mentioned in UU 2014.okt.31, about the first realization when the S-E/S-I relation was discovered. "The (Russian) Oprichnina/Praetor is like a definition of psycho-social Games. The Actors and the Games are ulterior and concealed like the very nature of secret services. It is however, a problem if the democratic Quality of Life is not respected. It is serious if the organization consider itself as a Superior-Ego and individual as inferior. It is catastrophic, if it also inherited the properties of Ivan's murky mentality as a collective obsession." (UU 2015.nov.06) "In relation to social-psychological 3x3 Game analysis, - such is not about Belief (Superior-Ego), but rather Drive (Superior-ID). There is an ancient war strategy called 'Breed Them Out' (BTO) that suits the Drive category AF (Animal Farm)." (UU 2015.feb.13)

'Lazarus' is the official music video by David Bowie was released just days before his death. According to Bowie's producer Tony Visconti, the lyrics and video of "Lazarus" and other songs on the album were intended to be a self-epitaph, a commentary on Bowie's own impending death. The video features Bowie lying on a death bed with a bandage and buttons sewn over his eyes, and finishes with Bowie retreating into a dark wardrobe, Bowie is wearing a diagonally striped suit referencing the back cover of the 1991 CD reissue of the Station to Station album, where he is pictured sitting on the floor drawing the Kabbalistic Tree of Life. The Tree of Life is also referenced in the Station to Station lyrics, a "magical movement from Kether to Malkuth".

The association to this UU is the Kings' self-epitaph to consequences of the five Pyramids.

His meteoric rise to military prominence begins with his victory over the Royalists in 1795, which is followed by campaigns in Italy and Egypt. He marries the young and capricious JOSEPHINE DE BEAUHARNAIS, the love of his life, who unfortunately cannot bear him any children. Napoleon intends to found an imperial dynasty, however, to strengthen his position. After divorcing Josephine, he marries the Austrian princess MARIE-LUISE, who gives birth to an imperial heir. In 1814 he is defeated in the Campaign of France, and is exiled to the island of Elba. Napoleon gathers all his strength one more time, however, returns to France and wins the hearts of its people again. With a new army he goes into battle against the Allies in 1815 at Waterloo." Ukens Utvalgte

This new UU theme, called 'The 5th Pyramid', starts to the Norwegian Constitution Day and ends after the Dane. The focus is on Nordic (Dane-Nor) Parliamentarism for the last 200 years'. 'Pyramid' is the newest discovered psychosocial Game and relates to the so-called 'Pyramid scheme'. The main concern here is the corruption of Parliamentary Quality. This is an unorthodox attempt to explain some ulterior reasons, - hidden in plain sight. Finally, concluding blogs will provide some suggestions to avoid some 5D 'Worst Case Scenarios' of CCD (Colony Collapse Disorder), - that degrade nations to colonies as preparation to CdE (Coup d' Etat). However fortunately, the 5th and final Pyramid is likely to collapse in itself and the rest with it, - with a little help of some 'Game Over' counter moves.

The core to this Theme is this definition of the Pyramid Games, i.e. 'The Pyramid scheme'. In this UU theme, these 5 Pyramids relate to the scripts of the 5 imperial 'Internationale' and related bondages, - like the real ulterior 'puppet-state' contract. Each Pyramid will be focused on Dane-Nor constitutional relations. However, these Pyramid Games are globally deployed and thereby a main concern for any nation in order to maintain its Parliamentary Quality. Most alarming, the Pyramid Games multiply and collapse by its own core, - like some organizational parasites. Pyramid schemes are 'Built to Fail' where a few Game initiators intentionally rips off citizens as well as societies. Therefore, a most recent alarming omen is that the International organized crime won the Dane Europol/Eurojust vote last year. They proved to be stronger than the Dane authorities and getting stronger. Therefore it is crucial for any citizen to realize that any economical, political and social Pyramid Game is illegal according to present Penalty laws. Hard-core Game-players, civilian and public servants, are involved in Pyramid Games that violates all paragraphs of the Penalty Law, including treason. This Pyramid Theme is therefore a continuation of the Europol Theme concluded in UU 2015.nov.06.

The Pyramid Game is not previously described as a psychosocial Game. It is, however, similar to other 3rd degree Underworld Games, - with potentials of 4th and even 5th degree. Pyramid might very well be a whole Game category that is common to other categories like KoC, GdE and GoT. Pyramid is commonly known by names like the 'Pyramid scheme', 'Eight-ball', 'Airplane Game' and 'Gifting circles'. It is a Win-8xLose null-sum Game. The predator claims to have put money in the upper levels, while the recruited preys actually pay at the lowest level. The negative ethics for such Underworld Games are; 'honesty is for suckers' and 'there is one born every minute'. Pyramid schemes are unsustainable and often illegal. A Pyramid scheme is also a business model that recruits members via a promise of payments or services for enrolling others into the scheme, rather than supplying investments or sale of products or services. They are doomed to collapse, since a 13th level requires more than the world population to participate. As recruiting multiplies, it becomes quickly impossible, and most members are unable to profit as promised. Pyramid schemes are said to have existed for at least a century in different guises. However, there is no reason to assume that ulterior Games have not existed earlier, - just because they were not discovered. Actually and per definition, cloaking and deceptions are the very nature of Games. Pyramid Games have probably existed in multiple disguises, ever since the golden age of the real pyramids. Anyways, Pyramid Games have caused national riots like 1997 Albania and 2008 Colombia in addition to economic ruins for citizens, banks, global trade, and political organizations. (Ref Wikipedia) In this theme, focus will be set on anti-parliamentarian Pyramids intended to cause CCD in order to execute CdE (Coup d' Etat).

Some models are required in order to investigate such a complex and comprehensive Game. Some suitable models are developed in the 5 years of UU blogging. (Note that these models are not official - yet.) The most relevant theories were talked through in UU 2014.sept.12.

- The consistent definition of "LifeQuality; A person's totality of properties and potentials to satisfy stated and implied needs."
- The 3D ethics model, promoting positive GCR (Good/Constructive/Right) rather than the negative BDW (Bad/Destructive/Wrong).
- The 3D political model that extends the simple 1D right-left political models with the constitutional LEJ (Legal/Executive/Judicial – LUD in Dane/Nor) or the political Throne/State/Temple dimensions.

- The 3³ (3*3*3) psychosocial model that is an extension of the simple Freudian 3D model for psychoanalysis and redefines the 'ego-states' to Drive, Will and Belief. It has additional dimensions for Jungian Conscience and Relations.
- The extended Game models that is based on Berne's 'Game People Play', extended with Games in Norden in this century. Game categories are related to the 3³ model and thereby 9 Game categories relating humanity's properties. Game degrees are extended from the 3rd inter-personal to the 4th inter-national and even the 5th global.
- 5D scenarios that are applicable for history writings, as well as future scenarios. (UU 2014.sept.12).
- Terminological additions by extended use of suffixes as; cracy, phobia, mania, pathy etc. (2015.juni.12)

Most relevant UU Themes for 'The 5th Pyramid' are 'LifeQuality' (UU 2013.februar.01 - UU 2013.nov.29), 'The Dane Europol vote (UU 2015.okt.02- UU 2015.nov.06) and 'Tordenskjold Pirates' (UU 2016.jan.08 - UU 2016.mars.11) that concerns the Caribbean piracy culture in the Russian Empire's 'Great Northern War'.

These 5 Pyramid Games will be related to the 5 'International' – 'the Cominterns' - and associated collective 'OverConscience' scripts (ref the 3³ model Belief dimension). Each Pyramid Game will be investigated in the 5 following UU subsequently from about 1863 to 2013, with this core starting at about 1813. That year, the Dane-Nor Constitution split due to the Napoleon CdE and War Games towards European nations and the burning of Roma3 (Moscow). However, that issue will be investigated in the next UU, - the first Pyramid Game.

Some previous 5D historical quotations set a somewhat fragmented foundation for previous blogs. This will appear more relevant and consistent as this Theme forms, - blog by blog.

- "The three Thrones of Norway, Denmark and Sweden formed a Nordic union (The Calmar union) about the 15th century for mutual collaborations and defense. At that time, Norway included Iceland, Greenland and the Faroe islands. Sweden included Finland. It was confederal and there were never any legal transfer of land to the union. It worked for a century until Moscow converted to Roma3. Sweden, with King Gustav Vasa, opposed the empire. Soon the Danish Throne declared single sided that Norway with Greenland, Iceland and Faroe Island was their provinces. However, that has never been legally recognized. The split of the Nordic union happened at the same time as Ivan's aggressive annexations and massacres on the continent. Relations of the events are therefor likely. The assumption is strengthened with the fact that the brother of King Frederik II of Denmark, Magnus of Holstein, was appointed by Tsar Ivan as king of Linovia (Estonia). Magnus also got a Russian army of 20,000 to conquer Swedish land that was part of the opposition towards Roma3. He even might have been tempted by the Danish Throne. However, the death of Tsar Ivan caused the abdication and expulsion of Mangnus from the Baltic regions." (UU 2014.okt.31)
- "Christian IV was a monarch of the German House of Oldenburg who ruled as king of Denmark-Norway from 1588 to 1648. He is frequently remembered as one of the most popular, ambitious, and proactive Danish kings, having initiated many reforms and projects. Christian IV obtained for his kingdom a level of stability and wealth that was virtually unmatched elsewhere in Europe. He engaged Denmark in numerous wars, most notably the Thirty Years' War (against the Pope) which devastated much of Germany, undermined the Danish economy, and cost Denmark some of its conquered territories. He renamed the Norwegian capital Oslo as Christiania after himself, a name used until 1925. Despite the reluctance of Rigsraadet (the national Council), Christian initiated a war with Sweden for the supremacy of the Baltic Sea. It was later known as the Kalmar War because its chief operation was the Danish capture of Kalmar, the eastern fortress of Sweden. However, despite Denmark's greater strength, the gains of the war were not decisive." (UU 2016.feb.19)
- Concerning the Scandinavian relations to Tsar Peter and Tsar Ivan: "Under Peter the Great, Russia was proclaimed an Empire in 1721 and became recognized as a world power. Ruling from 1682 to 1725, Peter defeated Sweden in the Great Northern War, forcing it to cede West Karelia and Ingria (two regions lost by Russia in the Time of Troubles), as well as Estland and Livland, securing Russia's access to the sea and sea trade. On the Baltic Sea, Peter founded a new capital called Saint Petersburg, later known as Russia's "Window to Europe". (UU 2016.feb.19) In other words, Russia's

ambition has ever since been to dominate all Nordic nations, not merely to exploit them with 'tax and terror' like Tsar Ivan. Denmark (Zealand) had a key position between the Baltic and Atlantic Seas, like Greece has between the Black and Mediterranean Seas. Any Dane regime was doomed to submit or die.

- Prior to this, "Some pirates of the 4th Crusade caused a CdE (Coup d'Etat) Game in the Christian Roma2 about 1200 AD. The mismanagement caused the decay, piracy, plagues and cascades of CdE in Europe. Eventually Roma2 fell about 1500. Roma3 was constituted in the relatively small Grand Duchy Moscow. A monk stated that "Roma2 has fallen and there should not be a Roma4", - indicating that antichrist would be the reason for a fall of Roma3. It expanded with the Mongolian agreement and concept of tax & terror. The Nordic (Kalmar) union was split in a DAC Game when Denmark allied (with Russia) and Sweden joined the resistance after the Novgorod massacres about 1600." (UU 2014.mai.02). However, Norway never recognized the illegal and humiliating annexation after Russia caused the split of the Nordic (Kalmar) Union, - but was too weakened to resist.
- "With the joint Moscow/Mongolian/Muslim peace-agreement, Roma3 executed brutal and effective anti-papal campaigns towards the Christians in the Baltic region and the Nordic union. "Ivan (the terrible) attacked the Baltic region brutally. The nations responded with raids, invasions and blockades. The Polish, Lithuanians, Swedes, Dutch and Germans were together in the resistance. Ivan accused that Novgorod could end up being catholic in a polish/Lithuanian alliance. The claim has no documented validation though. Roma3's final annexations by Ivan and Oprichnina (Roma3 Secret Services) was terrible and led to the 'Novgorod massacre' in 1570. This also terminated the trade-route between the Baltic sea, Kiev and the Black Sea/Roma2." (UU 2014.mai.02). It seems that control over the Baltic Sea was an obsession to Russian emperors. A trade route to the Atlantic Sea via Germany was also frequently terminated with wars at Holstein. It left the Danish castle Kronborg as the only passage regulated with taxes. This UNESCO heritage is also the site for Shakespears 'Hamlet' with the infamous quote: «Something is rotten in the state of Denmark". (See also UU 2014.okt.31 and UU 2014.mai.09, UU 2014.mai.02, UU 2013.Mai.24.)

Moscow's adaption of the Mongolian concept of 'tax and terror' was extended to naval taxation and blockade in the passage between the Atlantic and Baltic seas. Though, it was probably remote-controlled from the imperial Russia with its 'Window to Europe'." Therefore, the Dane insane 'King of taxes' in Hamlet was probably rather remote controlled by the Russian capitalistic mania, - and the figure might even be inspired by Tsar Ivan the Terrible himself.

Tax and Treasures are definitely major sources of powers for states, nations and empires. The Russian bondage of Demark for 500 years is definitely executed by taxation on most products, services, processes and citizens. 'Follow the money' has been a major statement by the capitalistic empire since the hand-over from the 'Pirates of the 4th Crusade' (UU 2016.feb.19). The Russian tax culture relates to all its CdE and might be related to the present 'Panama Paper' syndrome and the historical 'Pirate's Haven at the Virgin Islands' (UU 2016.jan.29). Therefore, in order to promote Parliamentary Quality and prevent worst-case scenarios of The 5th Pyramid; - there has to be extra focus on cells of organized international crime, cloaked in the Dane Taxation institutions (Skat), - not merely as organizational viruses and hackers, but manipulating parasites. (UU 2015.nov.06) These rather promote Games of pillaging, piracy and confiscation with abuse of Parliamentary powers, - which all are serious violations of the national Penalty law.

Peter Gabriel and David Bowie are two major actors often used in UU blogs. Peter's honoring of Bowie's 'Heroes' (of the Berlin Wall) is therefore an optimal start to this UU theme 'The 5th Pyramid'.

The Nasty Bits - Woman like You

2016.mai.06

Ukens Utvalgte

There are some minor issues in the Vinyl TV series that might become major in the following seasons. Apparently, the fictional pre-punk band 'The Nasty Bits' grew into a major part. One reason is that it shows how new music styles entered the changing market. However, the 70's caused major changes for many music styles and pre-punk seems over-focused in the first season. A reason is that Mick Jagger is a main drive force to the production. Therefore, there are speculations whether it is because of his son James Jagger fronted the Nasty bits, like he fronted the real British punk band Turbogeist. Anyhow and no offence, it is an interesting story and it is played well.

Drugs are obviously a part in a TV series about 'sex and drugs and rock&roll'. Vinyl also hints to relations to occult sub-cultures. The character Jamie Vine becomes the 'dope manager' to the record company Alibi, and will probably become a significant character in future seasons. It all makes associations to the mysterious 'White Witch' that some of the real rock stars encountered dramatically. Hendrix, Bolan, Bowie and Fripp were in particularly influence by 'The White Witch'. The Extra UU2 – goes deeper into her myths and indicates that the influence on Peter Gabriel eventually caused the traumatic split of the original Genesis.

Speculations about the so-called '27 Club' is not mentioned in the first season of Vinyl. However, an accidental murder case becomes important to the mafia's involvement in the music industry. Anyhow, the '27 Club' refers to a numerous artists that suddenly had tremendously success, became hard drug abusers and suddenly died at the age of 27. The speculations indicate that some rock stars signed 'Mephisto' contracts - like in Goethe's 'Faust' and relates to chapter 27 on 'How Doctor Faustus was asked a question concerning the stars that fall from heaven'.

The TV series Vinyl has definitely opened the lid to a Pandora's crypt. There are numerous of rumors of truths more fantastic than the public images.

Extra UU2 – The White Witch

The English actress Juno Temple plays Jamie Vine, the manager 'wanna-be' and lover to the Nasty Bits leader (James Jagger). She might very well develop to be something like the mysterious White Witch in NYC music industry. Anyhow, an article tell about some artists that encountered her and related happenings. Most information about it seems cloaked, except for this article; "Meet the mysterious 'white witch' who exorcised David Bowie's cocaine palace". Here are some citations.

- At his wit's end, Bowie reached out to Cherry Vanilla, a former employee of Bowie's management company MainMan, who witnessed much of this paranoid, debauched phase. Cherry Vanilla verified the connection between Bowie and a "white witch"—racial connotations aside, and those are by no means absent from this story either, but the term is intended to distinguish witches whose effects are "good" and "evil"—who would purify his living premises. "He had this whole thing about these black (witch) girls who were trying to get him to impregnate them to make a devil baby," says Vanilla. "He asked me to get him a white witch to take this curse off of him. He was serious, you know. And I actually knew somebody in New York who claimed she was a white witch. She was the only white witch I ever met. So I put him in touch with her. I don't know what ever happened to her. And I don't know if she removed the curse. I guess she did." "In June 1972, Fripp finished recording an album with a Wiccan journalist, called Walli Elmlark. The album was called The Cosmic Children. Side one consists of Fripp and Elmlark in conversation where she outlines her experiences and commitment to Wicca. On side two, she talks to DJ Jeff Dexter about cosmic children—spirits from other places who take physical forms such as Hendrix, Bolan, Bowie and Mike Gibbons, drummer with Badfinger. Talking to NME's Simon Stable, Fripp stated: "The function of the album is to reach out to the children like the drummer from Badfinger, I want to say; 'You're not nutty, you're not a freak because you can't relate to what's around you.'"
- "Wallie was known widely as the White Witch Of New York. Because of her contacts in the music industry, she had established quite an eclectic clientele for whom she would offer spiritual guidance, and occasional good luck or love spells, but always of a positive nature. She didn't dabble in black magick or even gris gris (a New Orleans form of "gray magick" that incorporates poppets and the use of talismans kept in a personal mojo bag). Walli was lively, imaginative, energetic, well spoken, and quite attractive in her flowing white garments complete with fashionable silver moon adornments. Oh did I forget to mention long black hair, complete with dyed green streak highlights? Indeed, Walli made a very bold fashion and occult statement wherever she went."
- "There is surprisingly little about Walli on the Internet, for someone who "made a very bold fashion statement," introduced Robert Fripp to the occult, and exorcised David Bowie's house, you would think her name would be a staple in rock and roll lore—but it doesn't appear to be the case. I couldn't find a picture of her, aside from the Bodē cartoon above, and the main thing she is known for on the Internet is her authorship of the Rock Raps book. I was unable to find Walli's obituary."

Peter Gabriel and the split from the original band Genesis, is not mentioned in Vinyl - yet. However, knowing the destructive and traumatic history, there seems to be some close relations to some White Witch too. It happened at the period of NYC performance of the final album 'The lamb lies down on Broadway'. Both Robert Fripp and Tony Levin from the divided 'King Crimson' helped Peter in this song about a woman that appears like a white shadow while he is asleep. In addition, Fripp contributed to David Bowies 'Ashes to Ashes' when his drug addiction became health threatening.

Peter Gabriel - White Shadow + Lyrics

<https://www.youtube.com/watch?v=CJrtA-shb7Y>

<http://www.metrolyrics.com/white-shadow-lyrics-peter-gabriel.html>

Wikipedia about the song 'White Shadow': "Peter Gabriel is the second solo album by the English rock musician Peter Gabriel, released in 1978. The album is the second of four with the same eponymous title. Guitarist Robert Fripp served as producer, whose influence on the album is evident in the use of 'Frippertronics' on the track "Exposure". The album did not sell as well as the first Peter Gabriel, but reached No. 10 on the UK charts. "Mother of Violence" was written by Peter and his first wife Jill Gabriel. This album is often referred to as Scratch, referring to the album cover by Hipgnosis. This album was originally intended as part of a loose trilogy with Robert Fripp's Exposure and Daryl Hall's Sacred Songs (all three albums were produced by Fripp)." Extra UU3 – The 27 Club

'The 27 Club' refers to a number of popular musicians who died at age 27, often as a result of drug and alcohol abuse, or violent means such as homicide or suicide. The number of musicians who have died at this age and the circumstances of many of those deaths have given rise to the idea that premature deaths at this age are unusually common. Brian Jones, Jimi Hendrix, Janis Joplin and Jim Morrison all died at the age of 27 between 1969 and 1971. At the time, the coincidence gave rise to some comment, but it was not until the death of Kurt Cobain, about two and a half decades later, that the idea of a "27 Club" began to catch on in public perception.

Occult conspiracy theories refers to the famous play "Goethe's Faust" from 300 years earlier: "In Faust's study, the poodle transforms into the devil (Mephistopheles). Faust makes an arrangement with the devil: the devil will do everything that Faust wants while he is here on Earth, and in exchange Faust will serve the devil in Hell. Faust's arrangement is that if he is pleased enough with anything the devil gives him that he wants to stay in that moment forever, then he will die in that moment." Anyhow, speculations are that some Faustian contracts with rock-stars ends and relates to Faust chapter 27 on 'How Doctor Faustus was asked a question concerning the stars that fall from heaven'.

Alice Cooper - Lady Is A Tramp (Good To See You Again 1973)

2016.april.29

Ukens Utvalgte

Vincent Furnier, alias Alice Cooper, appears in the Vinyl episode 3. He seems like a rather nice guy - yet have to live out some oddities to become AC at stage. However, he cunningly plays the inexperienced talent scout who tries to split the band get him signed. In their view, that is actually a real bad guy who deserves to be lured into their practical jokes. Their sense of humor and morality shows that their shock-rock was made to reflect societies murky sides, - not necessarily their own.

The group's first names were The Nash and The Spiders. They were particularly unpopular, because they made sulky songs about being unpopular. Eventually, the group got support from Frank Zappa and Warner Brothers. They related 'disliked' with 'evil' and changed from being victim to violator. They imagined such a mentality rather as a girl than a man - and renamed the band to Alice Cooper. However, someone had to personalize the band's image and pointed at the lead singer Vincent. Their 3rd album, 'Love it to Death' indicates the original concept of why and how Vincent became the alter ego. The album is even slightly religious, yet on the borderline to occultism though. The song 'Is it my body' is about spiritual possessions and the song 'Black Juju' is about the transition. The origin of the name Alice is rumored to some strange experience in a hut with some dedicated groupies and the mysterious 'white witch'. More about that in a later Vinyl UU.

The AC band made some quite artistic performances exploring the inner and murky self. They were inspired by characters like Mephisto, Dr. Mabuse, Mr. Hyde and Frankenstein. Vincent's other alter egos were a mental patient called Dwight Fry, an urban terrorist (first solo appearance) and a traumatized boy called Steven, which made the solo breakthrough in 'Welcome to my Nightmare. Absurdly, property rights came down to whether Vincent owned his alter ego Alice. That was settled friendly with the drummer and bassist, but not with the guitarists. Still, getting married and having a family, the original Steven theme was re-invented as solo artist in the album 'The Last Temptation', a story about a lost boy that finds salvation in Christianity.

This video 'The Lady is a Tramp' shows the bands burlesque self-irony in a classic slapstick movie. It is the introduction to their break-through concert in the shock-rock concept. It is from the DVD 'Good To See You Again, Alice Cooper'. Alice Cooper is previously used to underline UU Themes like in the extra UU2 2016.Feb.26 (pirates and cowboys), UU 2015.feb.06 and extra UU3 2015.mars.27 (Charlie/Paris-terror), UU 2014.juli.18 (occult psychiatry), UU 2011.april.22 (occult necrophilia) and UU 2016.jan.01 (Trumpism). Attempts to explain such phenomena can be related to UU Themes concerning the psychosocial 3[^]3 model's subcategory 'Drive/Rainforest', which concerns uncovered collective archetypes, phobias, manias, neurology and mass-synchronizations (UU 2015.feb.27).

Curiously, there have not ever been any real Alice Cooper band, with an evil girls as the front figure. It should be clear by now, Alice is a girl and not a man, - and certainly not anything like today's elderly rock star.

Extra UU1 – Documentaries and interviews

There are quite a few rumors about the band. These documentaries and interviews give several sides of a rather interesting history to a cultural phenomenon - that probably ended when their show included beating up a president Nixon look-alike, - as well as being warm-up band for the highly political John Lennon in NYC.

Extra UU3 – Vinyl – Alice Cooper 'Whispered Secrets'

Summary of the episode: "At a record producers' banquet honoring Maury Gold, Richie is embarrassed when the emcee, rival record exec Jackie Jervis, makes a joke about the failed German Polygram deal. Later, Maury and mob cohort Corrado Galasso pay a visit to American Century to probe a detective's recent inquiry, and Joe Corso drops by to pitch Richie a demo by his banquet date, Nora. As Richie cuts down his roster to free up money to sign and promote new artists, junior A&R rep Clark Morelle courts Alice Cooper in an attempt to sign him to a solo deal. Trying to find purpose in the suburbs, Devon turns to Warhol in hopes of raising funds to renovate a Greenwich barn that could house a displaced Russian ballet company. Approaching Lester about releasing some of his old blues demos, Richie reopens old wounds instead. The revamped Nasty Bits fail to win over Richie, prompting Jamie to change up their set list."

Elvis Presley - In Concert June 19, 1977 Omaha

2016.april.22

Ukens Utvalgte

Elvis appears in the Vinyl episode 'The king and I'. There are dialogues and events in the episode that indirectly hint to certain rumors. These are rather confirmed than explained. No doubt, that Elvis' earlier career is impressive, and so is the manager's. However, the decay of 'the King of Rock and Roll' to 'a drained cash cow in a luxury farm' seems to be due to the manager's obsessions rather than the Elvis'. The episode indicates, - by letting the manager Richie get sober, that the gambling addiction was the most damaging.

Historically, Elvis Aaron Presley is a most significant cultural icon of the previous century. He was an early popularizer of rockabilly, an up-tempo, backbeat-driven fusion of country music and rhythm & blues, combined colored music, - and energized interpretations sexually performance style. The religious and racial provocations made him enormously popular and controversial, and even a movie star. He made a highly profitable comeback in Las Vegas after the military service. However, several years of prescription drug abuse damaged his health severely, and caused his death in 1977 at the age of 42.

Elvis' manager, Colonel Thomas Andrew, defined the role of masterminding talent management. He controlled every facet of the Elvis life and had a ruthless devotion to his own financial gain by increasing the fee from the traditional 10 % to 50 %. Colonel's gambling addiction got out of hands, though. He owed the

Las Vegas Hilton \$30 million. He earned about \$100 million on Elvis, but his estate was barely worth \$1 million when he died. This is a main reason that Parker signed Presley to the Casino in '69. This bounded Elvis to never tour outside the Casino again and got him drug addicted. Colonel once said about managing Elvis, that even an elephant can be tamed, - knowing well that circus animals are fatally drugged.

Elvis wife Priscilla Presley and their daughter Lisa Marie Presley became devoted members of the [Church of Scientology](#) after Elvis death. The main reason was to promote the anti-psychiatry [front group](#) and the [Citizens Commission on Human Rights](#). They publicly expressed; "The psychotropic drugging of millions of children has to stop." (Btw, "How to Heal Dane Psychocracy" is talked through in the Extra UU 2015.aug.28.) Lisa even thought she could save 'The King of Pop', Michael Jackson, by marrying him, - yet gave up after a couple of years. No wonder there are many myths around 'The King'. There is a fair chance that the young Michael Jackson and Prince will eventually appear in Vinyl.

Extra UU3 – RIP Prince

This Extra UU is dedicated Prince Rogers Nelson that unexpected and unfortunately died yesterday at the age of 57. Representatives stated that he suffered from 'bad dehydration' and had been fighting 'influenzas' for several weeks. However, TMZ reported that he was treated for a drug overdose and left the hospital contrary to doctors' recommendation. This might seem like another musical royalty case.

Historically, Prince was renowned for his innovations, flamboyant stage presence, and his various vocal range. His music integrated a wide variety of styles, including funk, rock, R&B, soul, psychedelia and pop. His trademark of prominently sexual lyrics and incorporation of elements of funk, dance, and rock music. Prince wrote his first song at seven, but recorded several unsuccessful demo tapes at 19, before releasing his debut album that went platinum. His success continued in several phases. In 1984, he referred to his band as The Revolution and released the iconic Purple Rain. The Revolution disbanded and Prince released the double album Sign o' the Times in 1987 as a solo artist. He made band The New Power Generation in 1991. Next, he changed his stage name in 1993 to an unpronounceable symbol Prince, also known as the

'Love Symbol', which is similar to the Egyptian sign Ankh (life). In order to free himself from contractual obligations to Warner Brothers, he began releasing new albums at a faster pace. Finally, in 2000, he began referring to himself as 'Prince' again. Prince also wrote songs for and produced work by many other acts, often under pseudonyms.

Prince sold over 100 million records worldwide, making him one of the best-selling artists of all time. He won seven Grammy Awards, a Golden Globe Award, and an Academy Award. He was inducted into the Rock and Roll Hall of Fame in 2004, the first year of his eligibility. Rolling Stone ranked Prince at number 27 on its list of the 100 Greatest Artists of All Time.

Led Zeppelin - The Song Remains the Same

2016.april.15

Ukens Utvalgte

The legendary English rock band Led Zeppelin appeared in the first episode of the new TV series Vinyl. The band is widely considered one of the most successful, innovative, and influential rock groups in history. Its heavy, guitar-driven sound, rooted in blues and folksongs, has earned them recognition as one of the progenitors of heavy metal. These 'Whole Lotta Love' heathens combined heavy rock with flower power, - euphoria and psychedelia, which became surprisingly popular.

Suddenly, the band literally died. The drummer Bonham was found choked in vomit after heavy drinking, - and presumably a 'Whole Lotta Dope'. Nevertheless, the band could not substitute any of the unique members and dissolved itself. Later, Jimmy Page (guitar) and Robert Plant (lyrics) made their own solo careers. Led Zeppelin reunited in 2007 and made a video of the O2 concert 'Celebration Day' in 2012. (See Extra UU2.)

Curiously, Led Zeppelin is being sued these days for 'stealing' the opening to 'Stairway to Heaven' from the song 'Taurus' by the band Spirit. The accusation came just when the TV series Vinyl portrayed Led Zeppelin about some other legal issues. Mick Jagger, from another English band, is a co-creator to the TV-series and certainly influential. We can expect a whole lotta of digging up of 'what really happened' -stories. For example, Bonham appears in the first episode, which indicates that his, and the band's, fate is likely to be continued in future episodes. Maybe there will come a scene relating Led Zeppelin to the band Spirit and their song Taurus. Nevertheless, as occultism seems to be important in Vinyl, they might imagine that a possessive Taurician Spirit might be upset by a having its artwork stolen, heathenized and utilized. Led Zeppelin is previously presented in UU 2013.des.27 and Extra UU 2014.juni.13.

Plot description: "1973, New York City. Together with his partners, Richie Finestra, President of American Century Records, is on the verge of selling his struggling company to German Polygram, an impending distribution agreement with Led Zeppelin part of the package. But after an awkward encounter with Robert Plant, it's clear that the sale is in jeopardy."

The loss of the 'milking cow' causes the managers company serious financial crises. He has to search for new actors and re-invent their business. The TV series is like some rock & roll version of the TV series 'Mad Men'.

David Bowie - Live By Request (2002)

2016.april.08

Ukens Utvalgte

How are David Robert Jones these days? That might sound like an odd question knowing that David Bowie passed away by Cancer at 69. Yet, Ziggy Stardust passed in 1975, leaving David Bowie more alive than in a long time. The Ziggy character was definitely an alter ego created for public appearances. The inspirations might have been due to his dissimilar eyes, bisexuality and schizophrenic half-brother. However, all the extreme activities to become a Jinn, turned out to be life threatening for his real ego. One of them had to 'die'. Likewise, living as Bowie was hard too. Symbolically, in the video 'Lazarus', Jones crawled back in the closet.

The UU theme Pause-musikk restarts with reference to the TV series Vinyl and those musicians presented there. All the selections of multimedia speaks for it selves. But first, a personal concert at David's the top as himself.

JCS - Could we start again please?

2016.april.01

Ukens Utvalgte

This year's first Easter UU blog was about the JC prequel, the second about the JC climax and this final is about the sequel after Easter Day. However, these Game analysis of that epic Age-shift are rather historical than a religious, since the remains of the Piscean Testament grew into a political compromise. Besides, the Testaments' timeframes and properties are of zodiac occult astrology, i.e. entirely fictional based on illusions of the night sky. This time, it is essential to keep the focus on true and positive philosophies. Therefore, 'Could we start again please' seems to say it all, - about planning ultimate Games, stumbling at the first steps - with no Restart or Game Over option - except for tumbling downwards till the end of that Age and Era. Now, it is finally at its end.

The main objective is to appeal for more true Beliefs of 'first philosophies' to the forthcoming Aquarian Testament. A main concern is that theocrats most certainly will cause destructive Games this time too. The Old Aries Testament expired with the New Piscean Age about 30 BC. That is far from respected by using the N.T as an add-on to the O.T. Now, the Piscean Testament is about to expire since the Aquarian Age is presently at its eve. It is a fresh start. The O.T., N.T. and the Quran are not to be its add-ons, like previous Testaments neither are. However, most alarming is the extensive corruption of the present Testament.

There should be no denial that the unfortunate War of the Ages are due to misinterpretations, -deliberate and not. Those errors are not of any divinity, but from human Game players pretending to be divine messengers. Some quotes from previous blogs might highlight some reasons to start the Aquarian Testament independently of previous Testaments. “No one can know for certain what really happened and what is cover-up myths. Present information shows that there was a 4th degree epic Game with all major powers involved. Cleopatra initiated a theocratic merging of Etruscan, Roman, Greek and Egyptian religions with herself as the main goddess Isis. In brief, the Game failed because too many and too strong powers opposed. The rivalries are still far from settled and cannot be until more truths are included in professional Game analysis.” (UU 2016.mars.25)

The Bible versions were talked through in UU 2015.april.03. “The New Testament became an add-on to the Old Testament, - the Hebrew Bible. The Greek New Testament tells about the teachings and the person of Jesus and the first Christianity. Christians regard both the Old and New Testaments together as sacred script. N.T consists of 27 books, where the original texts were written in the 2 first centuries, generally in 'Alexandrian' and Byzantine Greek (330BC-600AD). N.T. consists of as letters from the Apostle Paul (early

2nd century) and the Canonical Gospels of Matthew, Mark, Luke, and John (late 2nd century as the Four Gospels). Over time, some disputed books, such as the Book of Revelation and the Minor Catholic (General) Epistles were absent. Other earlier works held to be Scripture were excluded from the New Testament, such as 1 Clement, the Shepherd of Hermas, and the Diatessaron. The Old Testament canon is not completely uniform among all major Christian groups like the Roman Catholics, Protestants, the Greek Orthodox Church, the Slavic Orthodox Churches, and the Armenian Orthodox Church.” (Ref Wikipedia) These Orthodox Churches are fundamental for the forming of the ‘imperial’ Russian Orthodox Church of the ‘3rd Rome’. (UU 2016.feb.19)

Furthermore, “The N.T. barely consists any original writing and none by Jesus at all. A main reason is the religious and ethnic genocides dedicated the Roman Jew Paulus. It might be the source to the Judas myth in N.T. As mentioned in UU 2015.mars.27, the main objective of Roma2 was to produce a theocratic compromise after the fall of Roma1, - not to tell the historical truth. Meanwhile, the theocracy of Roma2 developed a compromise consisting the Trinity of God, humans and spirit, in addition to herds of angels, symbolized with zodiac astrology, Egyptian Isis cults, and Etruscan pontifexes. Yet, (pre-islamic) Jinns were mostly excluded as evil demons. It all boiled down to a theological stew that anyone should accept. However, worshipers of pre-Islamic Jinn were probably not pleased. About 500 AD, the Quran was made as an alternative where Jinns and Angels were equal to humans.” (UU 2015.april.10)

From UU 2015.april.10. “The Quran became a major concern in the UU Theme ‘Charlie’, even though the diluted executors cannot be truly religious. The event led to the conclusion that the available versions of the Quran simply are blasphemous in themselves. It is written that the Prophet Abraham disobeyed God’s command to execute his wife’s adopted son due to contra-order by a (fallen) angel. The prophet Moses smashed God’s 10 commandments, which certainly is blasphemous. Prophet Adam disobeyed God in Eden and was expelled by God. Earlier, 1/3 of the angels in Heaven refused to bow for Adam and was expelled (fallen) from Heaven for that. After the Eden incident, the rest of the angels must have been expelled (fallen) for obeying the disobedient Adam too. Jinns are considered demons in N.T., but the rest of them must have followed their fellow angels in the miserable faith. Besides, in pre-Islamic Arabia amongst pagan Arabs, Allah was not considered the sole divinity, but having associates and companions, sons and daughters – a concept that was deleted under the process of Islamization. In Islam, Allah has become unique, the only deity, creator of the universe and omnipotent.” (UU 2015.jan.30)

The Persian pre-Islamists despised Alexander the Great and consequently Queen Cleopatra’s ambitions. Her Game was simply the pre-Islamists’ worst-case scenario. They had to terminate the Game at all costs. Taken from the UU Theme ‘Charlie’ UU 2015.feb.13. “It is uncertain if the Quran reference to Alexander the Great of Macedonia/Greece as ‘Dhul-Qarnayn’ (The Two-Horned One). However, he conquered both Persia and Egypt by simply beheading the Persian king. This was about 200 years after a Persian became Pharaoh of Egypt with the trickery tactic of using holy cats as hostages in battle. This event made the merging of the 3 imperial theologies, including Greek gods.”

The occult Enneagram is talked through in UU 2012.09.28, UU 2013.des.27 and UU 2014.juni.06: “Ennead is the Greek name for the Egyptian theological system consisting of 9 gods. It was practiced in Heliopolis (the Sun City). The theocracy was further vitalized by the Ptolemaic dynasty that stems from Alexander the Great’s army chief. The Ptolemaic dynasty was considered the Savior of Egypt and a royal divinity. The enneagram includes gods like Osiris, Isis and Seth, and their threesome drama that symbolized the Sun’s ‘death’, ‘resurrection’ and salvation. It is commonly known that the Sun’s return re-occurs every midwinter and Christmas. It is however almost unknown that its estimative climax occurs every 2150 year when the Sun itself enter a new star constellation, - a new Age. The new world Savior and King of Kings’ personality is bound to the astrological psychology for the Taurus (ox), Aries (goat), Phishes (fishes), and Aquarius (waterman) etc.” As mentioned in UU 02.nov.2012: “Moses represented the Aries, Jesus the Phishes and the ‘New Age’ occultists await the next coming candidate of Aquarius. The source is from Egyptian astrology according to the video ‘Religion Comes from Ancient Astrology and Sun Worship’.”

Cleopatra learned Egyptian and the sacred scripts on how-to become the goddess Isis and handle divine faith. In brief, the secret rituals had to be fulfilled, - and almost were. "The relation between the Christian Jesus and Egyptian Horus are described very well in the online video 'Religion Comes From Ancient Astrology and Sun Worship'. Horus was born on 25/12 by a virgin, there was a star in the east next to 3 kings. Horus was a teacher at age 12, 'baptized' at 30, had 12 disciples, performed miracles, named 'lamb of god', 'the light', was crucified, dead for 3 days and resurrected. Jesus is one of many variations of the myths. Jesus was born of a virgin on 25/12. Astrologically Sirius is the brightest star and east of 'Orion's belt' which symbolizes the three kings. 25/12 is the 'birth of 'god's sun' at winter solstice. 'Mary the virgin' is the constellation Virgo and she is symbolized with a wheat in 'House of Bread' at harvest. Bethlehem translated means 'House of Bread'. Furthermore, the Sun turns ('dies') on 22-24/12 under the southern Crux (cross) constellation. On the 25th the Sun turns and resurrects. Symbolized, the Sun is dead for 3 days, born again and resurrected. However, resurrections are ritually celebrated 3 month later, on 'spring equinox' 'Easter', when the Sun overpowers the darkness - the day becomes longer than the nights." (UU 2015.april.03)

"The biblical expression 'the whore of Babylon', seems to be dedicated Cleopatra by some republicans, Persians, Egyptians and Jews. It might have been Julius' Antonius' and Cleopatra's plan all along to invade Roma in a CdE Game. The execution of Julius in the Roman senate was a necessary part to fulfill the Osiris Ritual. However, who would gain the most besides Cleopatra? Marcus Antonius, - Cleopatra's lover and co-ruler to be. Nevertheless, since such a new Age Osiris Ritual, a Coup d' Throne, means a new royal family, - it also means mass genocide of all the previous related families and servants. This is evident in both G.T. and N.T. where mass-assassination of first-borns was executed in the Moses tribe, the pharaoh's empire, the Jews after the birth of Jesus, - and the Cleopatrian family tree. Finally, today's papacy conquered the most by merging Etruscan and Egyptian theocracies into today's Catholicism. The Pope was originally called Pontifex Maximus. (UU 2015.april.03) Still, the 'whore riding the beast' is clearly a metaphor for a bad guys' conspiracy at that time and place.

There were several dramatic moves by opposing players to terminate this theocratic Game. Nonetheless, - one natural event in particular became the main Game-changer. "Unpredictably, it all blew up. Vesuv the volcano destroyed Pompeii for all the Mediterraneans to see. Theologically, there were no more doubts; - Roma's unforgivable deeds were punished with united plagues from Hades, Pluto, Seth, Hel, and a horde of pre-Islamic demons. It was like the worst-case doomsdays prophecies were realized simultaneously. Consequently, Roma1 accepted the rise of the eastern, the Christian Roma, alias Constantinople, Byzantine, Miklagard and Istanbul." (UU 2014.april.25) "Rome1 fell probably due to global collective shifts in collective UnderConscience Belief (UB) that followed the eruption of the Vesuvius volcano and the elimination of Pompeii. There was a subsequent OverConscience Belief (OB) that split Roma in two and caused an irreversibly 5D shift in humanity's path of development." (UU 2014.okt.31) "(The Vestal Virgins) were probably the ancestors of today's nuns. They cultivated the sacred fire of Rome that could not go out. However, during the fall of Roma1 and rise of Roma2, the Christian emperor of Roma2 ordered in 394 AD the fire in Roma1 to die out. The Pontifex Maximus of Roma1, the Etruscan high priest and predecessor to the Pope, got into a deep theocratic crisis in the following trials. The vestal virgins became scapegoats and suffered punishments for failing the sacred task." (UU 2014.sept.26) The most holy Egyptian city Heliopolis was destroyed when roma1 fell and the vestal fire died. Yet, Roma2 was close to Greece and probably strongly influenced by Greek orthodoxy and Cleopatra cults.

Astrologists have specified the properties and Gimmicks for the 12 Zodiac, including the Taurus, the Aries, the Piscean and the upcoming Aquarius. These also indicates the potential theological conflicts for the Era change. In the Piscean Era, the previous Ox became symbol of greed and the Goat a symbol for evil. It is yet unknown what bad label fishes gets when the Era is over, - something fishy presumably.

"The Aquarian Testament can be drafted anytime by anyone. It is the recognition that is hard. Unfortunately, history shows that too many unqualified scripts are used. It is easy to see with today's insight on the real future of the past. Some properties on the Aquarian Age is commonly known since it is based on Zodiac astrology. "Astrologers believe the coming Age of the Aquarius affects mankind, possibly

by influencing the rise and fall of civilizations or cultural tendencies. Traditionally, Aquarius is associated with electricity, computers, flight, democracy, freedom, humanitarianism, Idealism, modernization, astrology, nervous disorders, rebellion, nonconformity, philanthropy, veracity, perseverance, humanity, and irresolution. Many astrologers consider the appearance of many of these Aquarian developments over the last few centuries indicative of the proximity of the Aquarian age. However, there is no agreement on the relationship of these recent Aquarian developments and the Age of Aquarius.” (UU 2015.april.10)

Relating this to the 3rd psychosocial model, it is rather clear that Games of Temples (GoT) are CdE Games of 4th degree (war) and have lasted for thousands of years. It involves all of the three meta-organizations Throne/State/Temple that are related to individuals’ 3x3 ego-states Drive/Will/Belief. Consequently, even though it appears simpler to focus on representative individuals, the organizational psycho-sociological Games are far from manageable. Actually, it is too complex for any individual or organization to understand and handle. The following quote from UU 2015.feb.06 will be very simplified to indicate points to a 4D analysis for 5D suggestions.

“A new AF Game (AnimalFarm game-category) can be defined in the same concept. Empirically, there seems to exist a 1st degree of Game called ‘Touch and Go’ (TAG). It can be elevated to 2nd ‘Hit and Run’ (HAR) and 3rd ‘Bomb and Transdent’ (BAT). There is even a 4th degree at meta-level that is ‘Apocalyptical’. As mentioned in UU 2012.nov.02: «Almost 90% of humanity believes in gods and half believe in God, Angels and Jinns. It is therefore social-psychologically vital that theocrats clearly express what is right and wrong in the writings. Lack of clearness will influence humans, humanity and society considerably in sinful ways. For example, ‘The Book of Revelation’ (The Apocalypse) that referred to John the Evangelist, is so full of evil insanity that it clearly is written by some seriously mentally disturbed persons. Nevertheless, that apocalyptic psychosis deviates in several ways from the other writings in the New Testament and does not belong amongst them. It has similarities to the occult of certain writings in the Old Testament.” Alarmingly, the main objective of The Apocalypse is that only 144000 humans shall survive that human genocide. Terrifyingly, humans are now able to execute such scripts for real. That needs to be taken care of in unorthodox ways of thinking and handling.”

How should humans relate soundly, then? “Firstly and most important, - although genetically more different from any kind of men, - man and woman can and should very well co-exist in mutual respectful agreement. It is quite possible; - the vast majority of humanity has proved it throughout all of our existence. They are simply sound families. However, some ‘dangerous’ memes of traumatized theocrats should not be allowed to overrule sanity and get away with blaming God/Allah for it. They need confrontations. It is however a hard nut to break. The prophet Jesus proved that with his life by forgiving misguided humans for their unintended sins. Yet, - even though there are doubts of his heritage, - there is no doubt about his democratic prophesy in the Quran. Such is needed to prevent another 4th degree Apocalyptical Game by another Hister wannabe (as from the scripts of the occult prophet Nostradamus).”

Anyhow, the considerations for a next Testament shall be of true religious philosophies and not some stone-aged rivalries of theocratic obsessions. These Games actually ends themselves since all Ages has expiring dates. Stressing and respecting the rules of the zodiac Games, is simply the solution to the Game Over. However, in favor or not, - there will be an Aquarian Testament and the Age and Era is at its dawn. Therefore, true religious actors should stress that this is not a Game, but rather Work and Rituals, in order to form positive philosophies. Far from being religious dedicated, one might mention that 3D philosophies of Good/Constructive/Right should opposed to Bad/Destructive/Wrong. Furthermore, the Testaments’ timespan of 2000 years is far too much. It should be dynamical revisions and versions in parallel with humanity’s development. That is crucial now that the humanity’s OverConscience escalates to yet unimaginable levels in this Age.

Could we start again please’ seems to say it all, about planning ultimate Games, stumbling at the first steps and with on restart or Game Over option except for tumbling downwards till the end of that particular Age and Era. This regretful hindsight of Mary and the 12 chosen should be wisdom for to the next Age and Testament formation. As mentioned, Transaction Analysis (T.A.) is fundamental to Game analysis (UU

2015.mars.06). The Game Transactions to this song are: Mary; 'My Game failed, I play Want Out'. Peter; 'We played Schlemiel, SWYMD (See What You Made Me Do) & 'Want Out'. 12 chosen; 'Our Game failed, we play 'Want Out' & SWYMD.' There are several related classical interpersonal Games. It will not be analyzed here, but some related hints are given in UU 2015.nov.06 like NIGYSOB (Now I've Got You, You Son of a Bitch), IFWY (If It Weren't For You), WAHM (Why does this Always Happen to Me?), SWYMD (See What You Made Me Do), UGMIT (You Got Me Into This), LHIT (Look How Hard I've Tried), ITHY (I'm Only Trying to Help You), LPAFJ (Let's Pull A Fast one on Joey), LYAHF (Let's You and Him Fight), RAPO 'Psychiatry' and 'Courtroom'. Some additional (self-defined) new Games are: DAC&UAC (Devide&Conquer & Unite&Conquer), ISR (It Started with the Retribution), ABD (Attack is the Best Defense), Jante/TUD (The Ugly Duckling), TLM (Two Little Maids), BGGG (Bad Guy, Good Guy), RPPP (Robbing Pete to Pay Paul), ODAB (One's Death – Another's Bread) and the Russian BOOFY (Beat your Own and Others will Fear You). A True religion is no Game though. Have a Nice New Age.

JCS - The Last Supper

2016.mars.25

Ukens Utvalgte

It is Easter time again - with the annual rituals and annual blogs. Last week's UU was about the prequel to Palm Sunday. This week is about the climax on Maundy Thursday. The scene to the Game is the gathering of JC and the 12 chosen ones for their Last Supper. With hindsight, we all know that the plot was to have JC arrested and executed. Considering the outcomes, it does not seem that they understood the prophecies and schemes very well. In fact, the New Piscean Testament does not include their original writings at all. No one can know for certain what really happened and not, - or if the myth is a cover-up. Present information shows that there was a 4th degree epic Game with all major powers involved. Cleopatra initiated a theocratic merging of Etruscan, Roman, Greek and Egyptian religions with herself as the main goddess Isis. In brief, the Game failed because too many and too strong powers opposed. The rivalries are still far from settled and cannot be until more truths are included in professional Game analysis. Some new information and interpretations from UU 2015.feb.13 highlight some aspects to this complex Game.

First of all, the main event was not some provincial dispute, but the astrological destined divine regime-shift in Egypt. Their main god, the Sun, left the constellation of the Arian (Goat) and entered the Phishes (Fishes), which called for a new king of all kings, a savior, - the next Egyptian Christ. Genuinely, there were internal theocratic rivalries between the Egyptian Temple and Throne - the orthodox Egyptians vs the Greek Ptolemaic dynasty. A summary is taken from UU 2015.feb.13. "Persia did finally conquer Egypt with the 'holy cats' tactic in battle in 500 BC. However, 200 years later, Alexander 'the Great' of Greece conquered both Persia and Egypt by simply beheading the Persian king. The Greek Ptolemaic dynasty became the Savior of Egypt and a royal divinity. Greeks modified the Egyptian astrology to the Enneagram for Games of KoC (King of the Castle) and GoT (Games of Temples)." Furthermore, "Cleopatra was a member of the Ptolemaic dynasty, a family of Macedonian Greek origin that ruled Egypt after Alexander the Great's death during the Hellenistic period. The Ptolemaic dynasty spoke Greek and refused to speak Egyptian. By contrast, Cleopatra did learn to speak Egyptian and represented herself as the reincarnation of an Egyptian goddess, Isis." (Wikipedia) Cleopatra ambition was undoubtedly to fulfill prophesy and rule the joint Egyptian/Roman/Greek empire as goddess. Learning Egyptian was not convincing for the Egyptians. Neither, Romans, Egyptians or Persians seemed to support that scheme, but rather play their own contra-Games.

Furthermore, "Egyptian theology was rather different. They were originally advanced astronomers and the theocracy used astronomy to predict the future of nature. However, astronomy was soon abused and astrology took over. Their intricate relationships shifted, - including the sun god Ra, the creator god Amun, and the mother goddess Isis. Horus represented kingship itself and the son of Ra, who ruled and regulated nature. The Pharaoh ruled and regulated society. The Egyptians had elaborate beliefs about death and the afterlife including life force Ka, the spirit Ba and the combined Akh. About 2000 BC, the Egyptians came to believe that everyone had a Ba and the possibility of a paradisiacal afterlife in the New Kingdom, - after the soul had to undergo a final judgment." (This is the period when Abraham and Sara encountered the Egyptian regime and the dawn of the new Egyptian Aries Era.) Moreover from UU 2015.april.03. "There are indisputable similarities between the Egyptian theology about Osiris, Isis and Horus and the epic story about Julius Caesar, Cleopatra and Caesarion. Just like the evil Seth cut up Osiris' body into fourteen pieces, Caesar was killed by multiple stab wounds. Cleopatra fled Rome and served as the protector of her son Caesarion much like Isis served a healer of the sickly Horus." The N.T. says that "the devil showed him all the kingdoms of the world and said, "I will give you all their authority and splendor, for it has been given to me, and I can give it to anyone I want to. So, if you worship me, it will all be yours." Such a temptation made sense being put forth to ex-Emperor Caesarion, but not for a poor ex-carpenter."

Nevertheless, more relevant for the 'new' Piscean Era is the 'old' Aries Era and Moses. "The books tell that Moses was adopted into the Egyptian royal family and raised by Egyptian royalists. He was the sole survivor after all newborn Hebrew boys were killed to avoid a prophesy of uprisings. However, Moses' tribe served as slaves for 300 years and were quite discontent about their faith. The slavery indicates that the Persians and the prophet Abraham failed in keeping the land. Moses might have been as a slave-master himself for his tribe. Prophesized or not, there were uprisings that included plagues, poisoning and child slaughter, including the Pharaoh's son (the 10 plagues of Egypt). The final tribal escape/exodus was violent with major casualties. The tribe escaped Egypt, crossed the Red Sea and settled in Canaan after 40 years, after Moses died." "The prophet Moses even smashed God's 10 commandments, which should be regarded an unforgivable sin and even blasphemy." However, there were reasons for Moses overreactions. The tribe did execute most disrespectful rituals concerning an ox (Taurus) rather than a goat (Aries), - which indicates that the people did not consider Moses as their 'Savior'." On the other hand, if still loyal, the simply did not understand the basics of the prophesy that the Sun passage through the constellations is reverse of the Moon's.

The Old Aries Testament tells about Abraham and Sara. "The prophet Abraham is an archetypical patriarch of the 3 monotheisms; Judaism, Christianity and Islamism. It is often talked about, like in UU 2015.jan.23, UU 2013.aug.02 and UU 2012.jan.13. In brief, Abraham was sent from Persia to rule some newly conquered land from Egypt about 2000 BC. (That was the time for the previous shift of Age/Era, from Taurus/ox to Aries/goat.) There was a royal reception in Egypt where Abraham brought Sarah. It is unclear what their goal was and what really happened, except that Sarah became sterile instead of pregnant. Back home, Abraham got his firstborn son Ishmael with the Egyptian 'slave' Hagar. Sarah expelled them and they might have returned to Egypt and formed a Persian-Egyptian family branch. Later stories of the prophets Moses and Jesus indicate such relations." The fundamentals to the conflict is mentioned in UU 2014.dec.19 and UU 2015.jan.30. "On the other hand, matriarchal power and Games should not be underestimated. There is truth in the saying 'Behind every great man there's a great woman'. Abraham's women definitely played LYAHF (Let's You And Him Fight) which has been going on for 4000 years – 200 generations – and still goes on. This is definitely a 4th degree Game in the meta-category AF (Animal Farm), where Drive biology overrules Will and Belief." If so, the major 'religious wars' are not fundamentally religious at all.

Despite historical events and situations, the JC myth and the Aries Testament is fundamental to the Piscean Testament. A summary of the JC myth is translated from UU 2010.des.10. «It happened in emperor Augustus days that Roma1 occupied Egypt, inclusive the present Jerusalem. The losers were the Persians in the Middle East, inclusive the present Iraq/Iran and Arabia. The Jew's ex-king Herod abdicated to keep his head. Emperor Augustus was tired of stories, like the one about Julius, Cleopatra and Caesarion, that was about to be named divine royalties and inherent the imperial alliance. There were comprehensive and effective hinder, to secure a republican Roma. Then three men came riding from the East. Some said they

were wise, others said they were kings. However, they brought a new and divine message. "There is a new king in this country!" The reactions were, as they should have added "Guess where he is". However, just like tales of miracle, JC survived the following mass slaughter of baby-boys. The gifts of gold, frankincense and myrrh might have been used to buy protection and escape. It is understandable that they did not hear about him in several decades. One can certainly wonder about the wise ones concern for the baby-boy. If it really was Son of God, its destiny was sealed without their interference. Their deed was an indirect cause to the massacre of all the other children. Today's disagreements in the region have not reduced. Quite on the contrary."

JC surely did not take any chances about picking a wrong zodiac sign this time. The mistakes of Moses' tribe of praying to the ox instead of the goat was not to be repeated. 12 disciples were selected, each representing the 12 zodiac signs and 12 tribes. They even selected the 13th sign, JC, to guaranty any match. UU 04.jan.2013 describes the 13th sign. "It is interesting to know that there actually was a 13th star constellation called 'the serpent-bearer' (Ophiuchus). It is special because it stretches over several 'houses' (constellations). The serpent holds other constellations together and influence them. It might also relate to the symbol Caduceus/medicine for Hermes (Mercury). Today, the number 13 is mostly associated with misfortune, like the 13th apostle Jesus. Astrologically, a 13th star constellation would disturb zodiac astrological predictions and prophecies."

The roman theocracy became underestimated after its fall. At the time and place, this fusion of Etruscan and Greek mythologies was probably the most advanced and powerful in that time and place. Roman gods might be comparable to Persian angels. In fact, Egyptian theology was about to be converted to Roman/Greek by Cleopatra and Julius schemes. Augustus, the 'son of god' and pontifex maximus, was not in favor of such theocratic compromise, though. He had his own Vestal virgin priestesses that represented the goddess of the hearth, and kept the roman eternal flame alive. "The Vestals became a powerful and influential force in the Roman state. When Sulla included the young Julius Caesar in his proscriptions, the Vestals interceded on Caesar's behalf and gained him pardon. Augustus included the Vestals in all major dedications and ceremonies. They were held in awe, and attributed certain magical powers." (Wikipedia)

The theocratic climax of the millennia, The Last Supper, should not be evaluated as such a 'failed garden party' as in JCS. As mentioned, Transaction Analysis (T.A.) are fundamental to Game analysis (UU 2015.mars.06). The setting in JCS 'The Last Supper' highlights the internal conflicts when the disciples realizes that they are destined to death and failure instead of glory. The T.A.s are: Apostles: "We deserve fame". JC to Apostles: "Consume me". JC to Peter: "Deny me". JC to Judas: "Betray me". Judas to JC: "Ok – I'll betray you". Apostle: "We are drugged and fameless". Judas to JC: "You betrayed us". JC to Apostles: "Now you sleep". JC to God: "Kill me". However, neither John nor Jesus managed to be executed in prophesized way, as Seth did to Osiris. It is likely that Julius was so, - either by religious Egyptians or, more likely, by their rivals to make the romans furious at the Egyptians. After all, powerful republicans banned the warlord Julius CdE on the Senate and feared the outcome of this self-proclaimed divine despot. Anyhow, the Game in Gethsemane did also go very wrong and brought war and hate rather than peace and love.

No doubt, the Game needs to end in a proper way – and should 2000 years ago.

JCS - Hosanna

2016.mars.18

Ukens Utvalgte

It is Easter time again - with the annual rituals and annual blogs. The epic ancient drama about JC must be the most complex, important and intriguing political Game of all, - because, viewing beyond the theologies, it is all about humans and their Games at personal and imperial levels. Therefore, the last weeks of JC's life will be evaluated as a psychosocial Game in accordance to the 3^3 model. Three scenes from the JCS opera set the focus on the prequel, the climax and the sequel, - i.e. Palm Sunday, Maundy Thursday and Easter Day.

The setting and interpretations to the Easter Game have been expressed for six years of weekly blogging. One summary of the plot is translated from UU 05.April.2012. "The political situation at the time and place was that the State, Thorne and Temple needed to get rid of Jesus, although he did not do anything illegal. The epic injustice climaxed when a Jewish crowd apparently sentenced him to death and the Romans did the execution. However, there were several intrigues and Games at play at the same time since all the major political powers were involved. The region of the event is in the interception between the empires of Persia, Egypt and Roma. Historically, it was their endless battlefield. Persia, Greece and Roma occasionally occupied Egypt. A new power at the stage, the Roman republic, got rid of their 'divine' Julius Caesar, Cleopatra and their firstborn son Caesarion about 30 BC. Consequently, Julius adoptive son Augustus was 'son of god' (divi filius) and became the sole ruler of the Roma/Egypt Empire. Caesarion, the other son of god and goddess, escaped after his parents' deaths. Thus, he was probably caught and executed in the roman way, by crucifixion." This historical drama is probably the background for the 'Piscean Testament'.

The Testaments requires some more clarification. JCS describes an eternal reoccurring astrological event based on the Sun rather in addition to the Moon. It is far slower though. As Easter is dated dependent on the Moon, the New Age of JC was determined by the same astrology for the Sun. The basic is the same zodiac astrology with the 12 signs of star-constellations, only in backwards order. "All Ages (Era) and 'Testaments' have expiration dates. The Old Testament expired 2000 years ago and replaced with The New Testament." "The previous Testaments should rather be called The Piscean Testament (N.T), The Arian Testament (O.T), The Taurean Testament (BC 4006-2006), The Geminian Testament (BC 6006-4006), The Cancerian Testament (BC 8006-6006) and The Leonian Testament (BC 10500-8000)." (UU 2015.april.10)

Still, even such an Era-transition should not be more dramatic than the Mayan 2012 AD shift of Age. Even though there were global occult speculation of apocalyptic proportion, - no such happened - of cause. The reason is simply because such an astrological shift is no different from a clock turns to another day or calendar turns to another year. Knowing this, - JC himself preached a natural and no-violent shift from the previous Age and next Age. Still, JC might be the most violently abused martyr - and the theocratic violations escalated in the millennia to come. It does not seem to be stoppable. That is alarming, because this Era is determined to end in the near the future.

However, in socialpsychological terminology, there was a clash of three major Gimmicks (rules) on Palm Sunday. The Pharisees stems from the joint Jewish and Muslin forefather Abraham that claimed a superior divine right to Egyptian domains. (UU 2013.des.27). The Roman republic conquered Egypt after being seriously traumatized by Julius/Cleopatra's CdE in Roma1. Egypt were in an Era transition and regime shift so the regimes particular vulnerable for CdE Games. All were very aware of the previous CdE Games that was clear in writing in the Old (Arian) Testament.

Transaction Analysis (T.A.) are fundamental to Game analysis (UU 2015.mars.06). The plot in JCS 'Hosanna' sets the political situation rather clear, with JC entrance in Jerusalem on Palm Sunday. The democracy wants a theocratic regime-shift from autocratic to democratic. Neither want to give in. The T.A.s are: Democracy to JC: "Love us". Theocracy to JC: "Retreat or die". Democracy to JC: "Fight for us". JC to Theocrats: "Resistance is futile". Democracy to JC: "Die for us". This simple TA shows there are more than two actors in this 3rd degree Game. The most relevant classic Game is LYAHF (Let's You And Him Fight), which is played at all 3 levels. The Game even evolves to 4th degree in the following Piscean Era. However,

there are some extended Game new definitions like DAC/UAC, when using the 3*3 and even 3^3 instead of the simple 3 model.

Finally, some explanations of socialpsychological Games seems necessary, since this epic Age shift is here defined as such. A summary is in UU 2015.feb.27. "Anyways, the basics of Games and the 3x3 model are explained in UU 2014.dec.19, UU 2014.sept.12 and UU 2014.aug.15. Some main points are; "Dr. Erik Berne developed the T.A. (Transaction Analysis) further in the book 'Games People Play'. Psychological Games are dishonest and ulterior per definition and occur amazingly often in real life. Berne explained about 60 general Games and how to eventually reduce the negative consequences by disclosing the hidden motives and the moves. Players use ulterior and false moves (Transactions) to get the gains/spoils. Berne also mentions classifications of Games based on the number of players, means, methods, instincts (ID), 'clinical level' (Ego) and psychodynamics. The Games can also be classified according to flexibility, endurance and intensity." (UU 2014.aug.29) However, most of the time is spent on other activities like Pasttimes, Rituals, Work, Withdrawal & Intimacy. (UU 2013.mars.15.)" Additionally from (UU 2015.mars.06). "The self-defined CdE (Coup de Etat) Game is clearly of 4th degree. However, with afterthoughts, the CdE term is so comprehensive that it has an own category of several Games. There can clearly be very complex relations of several underlying Games of all degrees, since such a kind of Game can cause revolutions, coups, wars etc. CdE is originally a national Game that can be executed locally, but also international organized. CdE can trigger several other Games like LYAHF, DAC&UAC, BGGG, RPPP and EDAB."

The rockopera JCS (Jesus Christ SuperStar) was the first and only vinyl record I ever had. The songs, lyrics and plots became a foundation for ways of thinking and probably a main reason for developing the 3^3 socialpsychological Game analysis. Tim Rise wrote the lyrics to JCS and the ex-ABBA's musical Chess. Originally, Deep Purple's Ian Gillian was JC exceptional voice. Actually, their album 'Made in Japan' was the second to own.

Captain T (John Franham - You're The Voice)

2016.mars.11

Ukens Utvalgte

Captain T is the extraordinary 9th Tordenskjold Pirate, - and a drink based on tea and rum. It is hovering perspectives on 500 years of Nordic history at imperial level. The ethics are based on positive civil GCR by use of 3^3 social positive Games. Ultimately, 5D-scenarios are used to indicate more proper pasts as well as GCR futures. In brief, Captain T is atypical, like an outcast of BDW Games, - changing to such Gimmicks in order to cause GCR shifts. (I.e. Positive GCR is Good/Constructive/Right. Negative BDW is Bad/Destructive/Wrong.)

5D scenarios are applicable for history writings, as well as future scenarios. (UU 2014.sept.12). For example, a brief citation from the internet/Wikipedia elevates the insight of the Russian Empire after its Great Nordic War from the Nordic cold-war propaganda. "The reign of Peter I's daughter Elizabeth in 1741–62 saw Russia's participation in the Seven Years' War (1756–63). During this conflict, Russia annexed East Prussia for a while and even took Berlin. However, upon Elisabeth's death, all these conquests were returned to the Kingdom of Prussia by pro-Prussian Peter III of Russia." "Catherine II ("the Great"), who ruled in 1762–96, presided over the Age of Russian Enlightenment. She extended Russian political control over the Polish-Lithuanian Commonwealth and incorporated most of its territories into Russia during the Partitions of Poland, pushing the Russian frontier westward into Central Europe. In the south, after successful Russo-

Turkish Wars against Ottoman Turkey, Catherine advanced Russia's boundary to the Black Sea, defeating the Crimean Khanate. As a result of victories over Qajar Iran through the Russo-Persian Wars, by the first half of the 19th century Russia also made significant territorial gains in Transcaucasia and the North Caucasus, forcing the latter to irrevocably cede what is nowadays Georgia, Dagestan, Azerbaijan and Armenia to Russia. This continued with Alexander I's (1801–25) wresting of Finland from the weakened kingdom of Sweden in 1809 and of Bessarabia from the Ottomans in 1812. At the same time, Russians colonized Alaska and even founded settlements in California, such as Fort Ross."

The following 8 summaries of related Nordic 500 years history are interpreted to suite this theme of Tordenskjold Pirates.

Some pirates of the 4th Crusade caused a CdE (Coup d'Etat) Game in the Christian Roma2 about 1200 AD. The mismanagement caused the decay, piracy, plagues and cascades of CdE in Europe. Eventually Roma2 fell about 1500. Roma3 was constituted in the relatively small Grand Duchy Moscow. A monk stated that "Roma2 has fallen and there should not be a Roma4", - indicating that antichrist would be the reason for a fall of Roma3. It expanded with the Mongolian agreement and concept of tax & terror. The Nordic (Kalmar) union was split in a DAC Game when Denmark allied and Sweden joined the resistance after the Novgorod massacres about 1600. (UU 2014.mai.02).

The Russian Great Nordic War was just another war against Sweden to regain the dominance of the Baltic region about 1700. Dan-Nor forces were withdrawn from the Caribbean to fight Sweden and a Nordic re-union. The withdrawal caused the Virgin Islands to decay into pirates' haven. Tsar Peter the Great moved the Russian capital from Moscow to St. Petersburg by the Baltic Sea and declared Russia an empire. Tordenskjold was a Dan-Nor naval officer with Caribbean naval experiences that became legendary in privateer-like attacks towards Sweden. However, he was humiliated and executed in a domestic political Game. (UU 2016.mars.04).

Meanwhile, Spain, England and France fought for dominance in America, with the Mexican Gulf as ports. The Coup d'Etat in France with a foreign marionette, soon involved most European nations in domestic wars. They had to withdraw their forces to fight the privateer-like Napoleon. (UU 2016.Feb.26) Finally, Roma3 was burned like Roma1 and the Dane fleet confiscated. Europe made the union 'The Congress of Vienna' that secured 100 years of peace and prosper in Europe (UU 2014.okt.31). Europe helped Norwegian to sovereignty and was re-constituted in 1814, - but without its former Island, Greenland, Faroe Islands and Virgin Islands, though.

Meanwhile, the confederal union of American states was symbolized with a flag in 1777 and soon constituted. Still, there was massive thrall trade from Africa, - also via the Virgin Islands. Some were trained as soldiers and probably intended for warfare in America. Slavery of Africans continued until 1848 even though abolished by European law in 1803. American federalists added a constitutional amendment that provided the 4 million African American citizenship in 1865. Legally, the federalists' State union confiscated the confederalists' private properties (thralls) as warfare permits. That tactic also caused CCD (Colony Collapse Disorder) to confederalists (UU 2015.juli.03). This might be the main reason why President Lincoln was publically executed, - like in a CdE Game.

Denmark declared war against Germany in 1864, which is historically considered extremely unwise and self-destructive. (UU 2014.mai.23). The argument was that it could cause UK to declare war on Germany, despite the European Treaties. However, the real reason might be that the royal branch of Frederick IV was replaced in a CdE/Throne with the more Russian loyal Christian IX (1863 - 1906). Napoleon proved that international battlefields are effective means for masse-execution of loyalists to the previous regime, - just like the guillotine was effective for mass-execution of their heads. The results of such 4th degree LYAHF Games were female dominant societies, - like in the Holberg plays. Furthermore, the arranged marriage of the Dane princess Dagmar to be Tsarina of Russia was obviously a part of the new Dane-Russian royal alliance. The new Dane royal family married into several European Thrones and got influential. Dagmar's favorite sister was married with Albert Edward of Wales that became King Edward VII sister to the UK

throne. (UU 2014.okt.31). Alexandra was also the name to Dagmar's despised daughter in law from Germany. Their rivalries escalated to 100 year of Fatherland Wars with mass-execution of the Tsar family and all its loyal citizens, - except for Dagmar herself, - somehow. The related Nille-Jante culture might be of the greatest Captain Passion of all, - with enneagram OverConscience (UU 2013.april.12) and Oprichnina capabilities like Margit (UU 2014.dec.19).

'The starting shot' in Sarajevo in 1914, and related Games, ensured the Russian Fatherland Wars, caused the collapse of 'the first European Union' (Congress of Vienna) and the self-destructive European WW1. A youngster was made to shoot some passengers in a redirected car, which happened to be the Crown Prince to the Austrian empire and his pregnant wife. Roma3 had an obvious motive for starting European Wars to distract Russian Throne's allied and hinder burning of Moscow again. Some central actors to the CdE Game were the monk-agent Rasputin, the Tsarina Dagmar (alias Maria Feodorovna) and Lenin's endless vendetta (UU 2014.mai.30). However, the stalemate in the European wars ended suddenly with the plague-war called the Spanish Flue. It probably originated in China/Mongolia, was cultivated in America and spread with pork meat to soldiers in Europe. European emperors abdicated and ended the plague-war in 1917. At that time, the Dane Virgin Islands were sold for only 25 mio. Dollars.

There are obvious similarities between the War Games involving with Napoléon Bonaparte, the schizophrenic occult product Hitler (alias Schicklgruber) and the Mafioso 'Man of Steel' Stalin (alias Ioseb Besarionis je Žuĝašvili). Stalin's mission was bound to Lenin's 21 conditions of the 3rd Comintern. The Molotov-Ribbentrop pact between Stalin and Hitler probably could not be signed without Hitler signing the 21 conditions first. In brief, Hitler acted like a Stalinist Game player. It became a far more effective warlord than Trotsky could ever be, because the CdE happened in advance. Therefore, in this theme's relation, they were like some Pirate Twins with the mutual mission to ruin Europe in accordance to the conditions of the third Comintern. The conditions obligates its members to warfare in the West (Europe and America), to terminate the 'bourgeoisie' civilians, to infiltrate labor unions, press and parliaments for the final Coup d'Etat. (See links hereunder.) However, WW2 also ended suddenly by unexpected weapons, but continued as global cold wars (WW3). A most serious war-Game was set at Cuba, which lies next to the former Pirate Bays of Nassau and Virgin Islands. Russia arranged a Cuban CdE and re-arranged its privateers for war-Games of the 5th degree. Several ships with nuclear warheads were shipped from the Russian Kaliningrad (former Prussian knights' city Königsberg), passed Zealand (Sjælland/Denmark), passed the Virgin Islands (former Dane-Nor) to Cuba. However, the deployment stopped with a secret deal to reduce US arms in Turkey (Muslim Roma2). US President Kennedy was publically executed soon after.

These 8 Tordenskjold Pirates were made to inspire exploring events and cultures in a milestone of Nordic History, namely the shift from Caribbean cultures to the Russian (Great) Nordic war. The eight Captains in this UU Theme represents: Mango, Dane-Nor Caribbean culture. Banana, thralldom. Coca, narcotics. Passion, pirates. Guanabana, UnderConscience Drive. Coco, OverConscience Believes. Lychee, chance and gamble. Karsk, Norwegian relations. Finally, Captain T is a hovering omnipresence like the Flying Dutchman tactic of Tordenskjold (UU 2016.mars.04).

An epilogue to this theme 'Tordenskjold Pirates' is not personal at all. It is rather organizational - based on the GUR ethics, 3^3 analysis, 5D scenarios and related Games like BGGG (Bad Guy Good Guy) and LYAHF (Let's You And Him Fight). Besides, the most important word of all, LifeQuality, do also apply for organizations, nations and empires. Yet, the theme's complexity and ulteriority cannot provide clear conclusions, but rather indicate relations to previous conclusions for sound mental health, as described in UU 2015.mars.13. It hopefully inspire to further explorations, though.

"If the moral, ethics and philosophies of LifeQuality (UU 2014.sept.05) should be put down to a single sentence, - it could be 'I'm OK - You're OK' (ref Thomas A. Harris). It is about tolerance to OK persons, as well as a recognition of oneself. Consequently, it is also about speaking out and making clear statements to 'not-OK' persons, organizations, nations and empires of Thrones, States and Temples. Next, there should be more awareness about destructive psychosocial Games in order to end them harmlessly (ref 'Games People Play' by Eric Berne)." Moreover in UU 2014.sept.05: "A healthy human has a mature balance between these

three (Id, Ego, Superior-Ego). Therefore it is safe to say that the mental health reflects the personality – whether it is allowed to develop and free to self-realize. However, a suppressed Ego causes unbalance and becomes mentally unhealthy, - in worst cases get mental illness and disorders.” (UU 2015.mars.06) “In brief, the S-E can be sub-categorized into Matriarch and Patriarch (and Authority), whilst the ID can be sub-categorized into Jerk, Sulk and Nerd.” (UU 2013.mars.08) “Collective terms like mass-psychosis and double-moral (standards) are related to psychological terms like psychosis and schizophrenia. Therefore, it is socially vital not to promote unbalance between societies’ Supremacies; Superior-Ego/Authorities, Ego/Organizations and ID/Emocracy. It is alarming that such unbalance from the 20th century’s global wars are not balanced. The Law-giving and Judging State powers seem weak related to the States machine.” (UU 2012.juni.29). In 3^3 psychosocial analysis, the terms are Drive (ID), Will (Ego) and Belief (Superior-Ego).

Yet, a simple way to ensure respect for any OK human, and change not-OK humans, is to realize the GHRL (Global Human Rights Law).

See link hereunder.

English Tea - and Rum, is here elevated to the Tordenskjold Pirate Captain T. Some inspiring facts about Tea are: “After water, it is the most widely consumed drink in the world. (One reason might be that tea contains small amounts of stimulants and xanthines similar to caffeine.) “There are many different types of tea, like Darjeeling and Chinese greens. The phrase herbal tea refers to infusions of fruit or herbs like steeped of rosehip, chamomile, or rooibos.”

“British drinkers preferred to add sugar and milk to black tea. In Britain and Ireland, tea was initially consumed as a luxury item on special occasions. The tax on tea caused the (American) Boston Tea Party that escalated into the American Revolution and the British trade deficit caused by the demand for Chinese tea eventually resulted in the Opium Wars. Tea was introduced into India by the British in an attempt to break the Chinese monopoly.”

“Tea originated in southwestern China, where it was used as a medicinal drink. Portuguese priests and merchants introduced it to the West during the 16th century. During the 17th century, drinking tea became fashionable among Britons, who started large-scale production and commercialization of the plant in India to bypass a Chinese monopoly at that time.” “Tea became a fashionable drink in The Hague in the Netherlands about 1600, and the Dutch introduced the drink to Germany, France and across the Atlantic to New Amsterdam (New York).”

See the links for receipts to drinks of Tea and Rum.

"You're the Voice" has an indirect relation to the Tordenskjold Pirates, because Australia was colonized with British outlaws, like Irish and Scottish, - just like the pirates in the Caribbean. This last UU song to this theme is Australian, - just like the previous UU 2016.mars.04. Furthermore, the next queen of Denmark is born Australian.

John Peter Farnham, is an English-born Australian pop singer. His solo single, "You're the Voice" is written by Andy Qunta, Keith Reid, Maggie Ryder and Chris Thompson. John Farnham recorded the song for his album Whispering Jack released in 1986. It peaked at No. 1 on the Australian singles charts and the top 10 in the UK and many continental European countries, as well as the top 20 in Canada, but rather poorly in the US. Farnham is recognized by honors and awards including Australian of the Year, Officer of the Order of Australia, and 19 ARIA Awards including his induction into the Hall of Fame. He was voted by TV Week readers as the 'King of Pop' from 1969 and five consecutive years.

Extra UU2 - Steve Harley - Death Trip

Steve Harley & Cockney Rebel is an old favorite and previously presented in UU 2010.juli.09, UU 2013.nov.08 and UU 2014.jan.17. It was an English glam rock band from the early 1970s and their music covers a range of styles from pop to progressive rock. Over the years, they have had five albums in the UK Albums Chart and twelve singles in the UK Singles Chart. Now Steve Harley's 40 years career has surely passed its peak. One can find a concert amongst the small announcements. Still, his peak in the career was when he got the leading role as 'The Phantom of the Opera'. That showed out to be only the video-hit that secured the finances for Andrew Lloyd Webber's rockopera. It became a tremendous success throughout the 80's – but without Steve Harley. That is how it is with Webber, like some Disney, that well known commercial exploitations of classics without intellectual property rights is.

He also made great ballads with very personal engagement for some mysterious person and strange situations. 'Sebastian' caught special interest in UU 2014.juli.18 and speculations of whether it was a

personalist analysis of the mind of Jack the Ripper. That even led to the alternative view on the events called 'The Infamous Practical Joke Theory'.

Anyways, this ballade "Death Trip" is not that famous but quite comparable as art. It is most relevant to the two previous centuries Imperial Pirate acts, - as well some thoughts to delve on in this century.

Captain Karsk (Men at Work - Land Down Under)

2016.mars.04

Ukens Utvalgte

Captain Karsk, is the 8th Tordenskjold Pirate, and a drink based on coffee - a Trondhjem specialty.

Therefor the focus is rather set on the piracy in the Baltic Sea than the Caribbean. Besides, the movie 'Tordenskjold and Kold' indicates that the Danes had Tordenskjold humiliated and executed, and that was not treated as a naval hero at all, - but rather a martyr. The reasons become clearer with this UU theme's previous blogs and views from 'down here at Zealand' (Sjælland). Captain Karsk is here a cultural reflection to some of the legends of Tordenskjold.

Tordenskjold naval ways in the Baltic Sea were similar to the ways of privateers and pirates used in the Caribbean during the Golden Age of Piracy. As mentioned in UU 2016.jan.29, he advanced from a 15 years old ships boy in the Trade Triangle at that time. Associations to the young Peter can be made to the teenager Jim Hawkins in the novel 'Treasure Island' (Extra UU3 2016.Feb.26). Not much is known about his deeds and experiences for the following 7 years. Anyways, in brief. "Tordenskjold is among the most famous national naval heroes in Denmark and Norway. He experienced an unusually rapid rise in rank and died when he was only 30 years old." "Wessel was already renowned for attacking any Swedish vessels regardless of the odds, and always enabled him to evade capture." "Peter Wessel rose to the rank of Vice-Admiral for his services in the Great Northern War against Sweden. He was ennobled as Peter Tordenskiold by King Frederick IV of Denmark in 1716. His greatest exploit came later that year, as he destroyed the supply fleet of Charles XII of Sweden at the Battle of Dynekilen." However, Danish admiralty opposed his promotions, charge him twice for criminal recklessness and had him transferred from Norwegian seas and to the Baltic Sea.

More detailed summary from Wikipedia: "His successes compelled the Swedes to post a reward for his capture, while his free and easy ways also won him enemies in the Danish navy, who deplored his almost privateer-like conduct." For example, in 1714, he encountered a frigate under English flag carrying 28 guns, which had been equipped in England for the Swedes. Tordenskjold was flying a Dutch flag, but he raised the

Danish flag when in shooting range. Both ships were badly damaged after around 14 hours of fighting. King Frederick IV of Denmark asked for the admiralty to court-martial Wessel for disclosing vital military information about his, but he was promoted to Captain instead. Moreover, Wessel considerably damaged the Swedes by cutting out their frigates and destroying their transports.” “During a battle at Kolberg, Wessel captured the Swedish Rear-Admiral Hans Wachtmeister as well as the frigate Vita Örn (White Eagle). He renamed it Hvide Ørn (Danish) and used it as his own flag ship (1715). When the Swedish king invaded Norway and laid siege to the fortress of Fredrikshald, Tordenskiold forced a retreat by pouncing upon the Swedish transport fleet that was laden with ammunition and other military stores. With two frigates and five smaller ships, he conquered or destroyed around 30 Swedish ships, with little damage to himself during the Battle of Dynekilen on 1716. For this, the Dane king ennobled him the name of Tordenskiold and promoted to Post-Captain, commanding the Kattegat squadron. Tordenskiold captured the Swedish fortress of Carlsten at Marstrand in 1719. The last feat of arms during the Great Northern War was Tordenskiold's partial destruction and partial capture of the Gothenburg squadron on 1719.”

There are clearly similarities in the activities for privateers in the Caribbean Golden age of Piracy and Tordenskiold's naval activities in the Great Nordic War. Tordenskiold got information from 'secret services' about the enemies before attacking. Tordenskiold boarded and hijacked ships and later used them against their own. He even 'kidnapped' a rear-admiral. Tordenskiold used 'neutral' Dutch flags to approach rivals before sneak attacking. One can only speculate if this tactic relates to the myths about the feared 'Flying Dutchman'. Surely, trusts between Dutch, Danes and Swedes were damaged too. Consequently, the Danes' and Swedes' naval authorities seemed to recognize privateers patterns and tried to stop Tordenskiold with legal means. Besides, a speculative myth is that Tordenskiold had fascinations in a seven-headed snake. This was probably to associate him with ultimate evil of biblical myths about the Leviathan. The real association is probably rather to his first ship Ormen (the serpent) - and that the Vikings had dragons heads in front of their ships. Some might even have interpreted Tordenskiold's name, Peter Wessel, – as Peter (the Great's) vessel.

There must have been an ulterior third power with a hidden agenda, if Tordenskiold was an enemy of the Swedes, but not fully loyal to Danes nor Norwegians. It becomes clearer when focusing on the Russian motives for the Baltic Sea. Wikipedia says, “Under Peter the Great, Russia was proclaimed an Empire in 1721 and became recognized as a world power. Ruling from 1682 to 1725, Peter defeated Sweden in the Great Northern War, forcing it to cede West Karelia and Ingria (two regions lost by Russia in the Time of Troubles), as well as Estland and Livland, securing Russia's access to the sea and sea trade. On the Baltic Sea Peter founded a new capital called Saint Petersburg, later known as Russia's "Window to Europe". Peter the Great's reforms brought considerable Western European cultural influences to Russia.” Seen from Empire' perspective, Tordenskiold reputations hardly mattered, as long as the deeds promoted the outcome, - to weaken any other powers in the Baltics. Seen from Swedish and Danish perspectives, - Tordenskiold might have appeared as a pro-Russian separatist, - in Dane uniform. Remembering very well the collapse of the Nordic (Kalmar) Union by Christina IV and Ivan the terrible, the Russian Great Nordic War could develop to be a cascade of Novgorod Massacres. (UU 2016.feb.19) It is, however, a common mistake for nationalists to be lured into acting as resourceful and successful pro-imperial separatists.

“The Great Northern War (1700–1721) was a conflict in which a coalition led by the Tsardom of Russia successfully contested the supremacy of the Swedish Empire in Central, Northern, and Eastern Europe. The initial leaders of the anti-Swedish alliance were Peter the Great of Russia, Frederick IV of Denmark–Norway and Augustus II the Strong of Saxony-Poland. Frederick IV and Augustus II were forced out of the alliance in 1700 and 1706 respectively, but rejoined it in 1709. George I of Brunswick-Lüneburg (Hanover) joined the coalition in 1714 for Hanover and in 1717 for Britain, and Frederick William I of Brandenburg-Prussia joined it in 1715.” “Peter made a temporary peace with the Ottoman Empire (Roma2) that allowed him to keep the captured fort of Azov, and turned his attention to Russian maritime supremacy. He sought to acquire control of the Baltic Sea, which had been taken by the Swedish Empire a half-century earlier. Peter declared war on Sweden, which was at the time led by King Charles XII. Sweden was also opposed by Denmark-Norway, Saxony, and the Polish-Lithuanian Commonwealth.” (Wikipedia). Russian warfare in Norden and the Baltics is thoroughly talk through in blogs related to UU 2016.feb.19. In fact, it is the very reason to

what is called 'The 400 Years Night' in Norden. It was initiated with the constitution of Roma³ by Ivan the Terrible a century earlier. With such perspectives, this is a milestone in a series of 4th degree LYAHF related Games of Warfare in the period between the collapse of the Nordic Union and the Napoleon Wars towards Europe. (UU 2016.Feb.26)

Norway never recognized the illegal and humiliating annexation after Russia caused the split of the Nordic (Kalmar) Union. There were resistance in all the 3 present and former capitals, Christiania (originally Oslo), Trondhjem (Tordenskjold) and Bergen (Holberg). A brief summary from UU 2015.mars.20. "Historically, Stockholm has status as a main capital of the Baltic Sea and relates to most Baltic powers. The Baltic Sea is like a Nordic Mediterranean that actually was linked to it via the Black Sea by rivers, and thereby Ukraine, Crimea, Constantinople/Roma². In brief, there are some historical milestones like, the housing the Nordic union (The Kalmar Union), the strong opposition against Russian Tsar Ivan (the terrible) and of the Moscow mass-annexation and massacres in the Novgorod region. The split between Denmark and Sweden in DAC/UAC Games still goes on. (UU 2014.okt.31). Tsar Peter (the Great) built a second capital in St. Petersburg (Throne/Temple), removed powers from Moscow (State) in 1714, which improved relations to Sweden and other Baltic nations (temporarily). However, all the major battles between Sweden, Denmark, Holland and Germany in Baltic nations, Schleswig/Holstein, region of Kronborg castle and Baltic Sea, indicates that Russia was not absent, but have been playing ulterior roles in most war Games (e.g. LYAHF) for 500 years."

The saying 'All's Fair in Love and War' certainly sets the Gimmick in privateers and pirates Games. Actually, this is a new discovered Game (AFILW). It adds to the new category of Pirate Games, which included privateers as pro-imperial separatists to pillage and plunder imperial rivals. This goes for all the Tordenskjold Pirates in this UU Theme. It also is relevant to the new movie 'Tordenskjold and Kold' that presents a very different perspective on the legend, than the public childlike songs and tales. The movie clearly indicates that Danes, as well as Swedes, lured the Norwegian into a Honeypot Game that caused his end. It is still uncertain though - what happened instead of that cover story about a swords duel in Germany. The movie indicates that a rival Swede poisoned him with wine. Anyways, the Dane and Swede authorities could not stop Tordenskjold, - therefor he was lured into a trap, - just like any privateer or pirate would do, - which proved themselves no better after all.

Anyways, being a Norwegian, born in Trondhjem, it is more probable that Tordenskjold was smarter than Kold and the related authorities - that Tordenskjold succeeded in his final disappearance act. If so, his story does not end with the duel cover-up story, but rather a change to a better life in incognito. This re-script bears great potentials for a TV-series like 'Black Sails'. In fact, the adventures of Captain Flint and Captain Morgan in the Caribbean are trivial compared with all the material presented in the UU Theme about Tordenskjold Pirates.

Karsk stems from the Old Norse word karskr that means 'sound and spry'. It is also called kaffekarsk, knikt, kaffeknikt and kaffedoktor. The drink is made of liquor (usually moonshine) and coffee (kaffe). A similar drink in Sweden is called kask, kaffekask or kaffegök, - in Finland, it is called kaffeplörö or kaffeblörö, - and in Denmark it is called kaffepunch. The mixture varies dependent to how strong it should be. Moonshine at 96% alcohol volume requires more coffee than liquor, but for legal liquor at 60%, the mixture is half of each. A traditional recipe is to put a coin in the cup, pour coffee until its invisible and the pour liquor until it is visible again. However, that is rather practical joke since the coin will not be visible. The color of the drink will hardly change until the cup is full. However, if still in doubt, the mixture can be varied with silver, copper and gold coins as well as white, brown and black rum. The drink can also be vaporized with a matchstick if the Karsk becomes to strong. However, the alcohol easily ignites in warm places, but hardly does in the cold wilderness of Norway. (Translated from Wikipedia)

In the spirit of Captain Karsk, rum, preferably Stroh Rum, should be in Captain Karsk rather than moonshine or vodka. However, coffee drinks comes in many variations that should be tried for more civilized versions of Captain Karsk. (See the links to recipes to drinks with rum and coffee.) Some might even be tempted to

brew dedicated rum to the Captain Karsk. Findings have been contradictory as to whether coffee has any specific health benefits, and results are similarly conflicting regarding the potentially harmful effects of coffee consumption. There is no significant Nutrition in coffee. However, it is slightly acidic and can have a stimulating effect on humans because of its caffeine content.

Some facts about the coffee might also be inspirial. "Coffee is one of the most popular drinks in the world. It can be prepared and presented in a variety of ways (e.g., espresso, cappuccino, cafe latte, etc.). It is usually served hot, although iced coffee is also served. It is a brewed drink prepared from roasted coffee beans, which are the seeds of berries from the Coffee plant. The plant is native to subtropical Africa and some islands in southern Asia. The plant was exported from Africa to countries around the world and coffee plants are now cultivated in over 70 countries, primarily in the equatorial regions of the Americas, Southeast Asia, India, and Africa." "Coffee had been introduced to Brazil in 1727, although its cultivation did not gather momentum until independence in 1822. In 1910-20, Brazil exported around 70% of the world's coffee, Colombia, Guatemala, and Venezuela, exported half of the remaining 30%, and Old World production accounted for less than 5% of world exports."

"Coffee was initially used for spiritual reasons. At least 1,100 years ago, traders brought coffee across the Red Sea into Arabia. Coffee drinking was prohibited by jurists and scholars (ulema) meeting in Mecca in 1511. Use in religious rites among the Sufi branch of Islam led to coffee's being put on trial in Mecca: it was accused of being a heretical substance. It was later prohibited in Ottoman Turkey. Ethiopian Orthodox Christians prohibited coffee, regarded as a Muslim drink. Its early association in Europe with rebellious political activities led to Charles II outlawing coffeehouses from January 1676. Frederick the Great banned it in Prussia in 1777 for nationalistic and economic reasons."

.....

'Land Down Under' is a song recorded by Australian rock band Men at Work. It was originally released in 1980 as the B-side to their first local single titled "Keypunch Operator". The early version of "Down Under" has a slightly different tempo and arrangement than the later Columbia release. The song went to number one in their home country of Australia and New Zealand, Canadian, United States, Denmark, Germany, Ireland, Italy and Switzerland, and was a top 10 hit in many other countries. It has become a popular and patriotic song in Australia."

"The term Down Under is a colloquialism which is variously construed to refer to Australia, New Zealand, and other countries in Australasia. The term comes from the fact that nearly all of these countries are in the Southern Hemisphere, 'below' many other countries on the globe. The famous Russian-born Australian boxing champion Kostya Tszyu was nicknamed "The Thunder from Down Under."

In this relation, Sjælland, the island of the Dane capital Copenhagen, is called Zealand in English. For a Norwegian, like Tordenskjold (Thundershield), 'down here', Zealand, is 'a land down under'. Furthermore, the next Dane queen comes from Australian.

Extra UU3 - Sons of the Desert - Tordenskjold

'Ørkenens Sønner' is a Danish comedian quartet that has entertained since 1991, but was recognized in 1997 with their third show. The basic concept is a loge and slightly inspired by the movie Sons of the Desert the literal translation of the movie's title. The comedy group uses the basic theme of a fraternal organization, and their stage costumes are identical to the ones used in the movie's organization. Even their theme song is a translation of the one from the movie. This gag about Tordenskjold is typical for their style.

Captain Lychee (Black Sails)

2016.Feb.26

Ukens Utvalgte

Captain Lychee, alias Captain Lucky, is the 7th Tordenskjold Pirate, - and a drink based on the lychee fruit. It represents the Will based on chance (lykke). Yet, pirates' enterprises are rather Underworld Games than honest Work. Their Gimmicks are like the Black Sails, a prequel to the novel Treasure Island. Their island Nassau is close by the Virgin Islands that became a Dan-nor pirates' bay. Tordenskjold sailed the Caribbean at that time and probably influenced by those cultures. However, this UU sets a much broader perspective as a prequel to the constitution of the American union of states and the ruin of European confederations. Lastly, there are some explanation to theories of psychosocial analysis of the Will and Games.

The rise and decay of the Dan-nor Virgin Islands was brought up in UU 2016.jan.22 and UU 2016.feb.05. The colonies were settled as outposts to the Triangle trade, - but became farms for slave trade and finally a pirates' bay. Danes' managers were replaced with Dutch when Tsar Peter declared Russia an empire and needed control over the Baltic Sea. There were also other 'mysterious faiths' for American colonies. For example, "the Roanoke Colony, also known as the Lost Colony, 16th-century attempt by Queen Elizabeth I to establish a permanent English settlement. The enterprise was originally financed and organized by Sir Humphrey Gilbert, who drowned in 1583 during an aborted attempt to colonize St. John's, Newfoundland." (Wikipedia) This can be related to the UK-Russia relationships at that time. Even earlier, the mentioned novel 'NewFound Land' (NFL1) takes place before the year 1000 and describes the 'mysterious' disappearing of the 'Greenland Colony'. (See the introduction in extra UU3 2016.jan.08.)

Similar 'faiths' in the New World are also described in UU 2013.juni.07 and UU 2013.juni.14 that was translated in UU 2016.feb.12. "The Columbus expeditions, 200 years before this Golden age of Piracy, lead to major invasions and ruin of the meso-American cultures. These invaders can be considered state-supported privateers – some kinds of land-based pirates. This was talked through in a previous Theme called 'LifeQuality and Empires' (UU 2013.juni.14). "The TV-series '500 Nations' shows clearly that there was a main objective to conquer the dominating Aztec culture in Mexico. The conquerors were probably recruited crusaders from the fallen Roma2 (Byzantine). 'The end justifies the means' and concepts of G.T. warfare towards similar pyramid builders in Egypt, - included methods like theocracy, betrayal, slavery and bacteriological warfare. In fact, most native died due to illness like smallpox, - a virus that even the medicine alcohol could not cure. The crusaders weakened most of the culture in meso- and west-America and introduced thralldom in pure SPQR style." Additionally, the previous mentioned novel 'NewFound Land' (NFL1) do concern the Mesoamerican cultures before the year 1000 and the fall of the Maya civilization. See links to '500 Nations' and the NFL1 chapter 4.1 Upload and the fall of Roma2 in previous UU 2016.feb.19 'Captain Coco'.

As mentioned, the Russian empire is founded on the ruins of Roma2, caused by the 'Pirates of the 4th Crusade - that was allied with UK and indirectly influential through the Dutch and the Danes. Moreover, "America is called a 'melting pot of cultures'. African, European, Asian and native 'Indian' influences are far greater than the Russian is. (...) The main point is to focus on the 'forgotten' influences of Roma3. In particular, the 'Russian-American Company' was an extended colonialization program in the 1800 and announced a 'gold rush' for recruitment. It was not successful, since most immigrants rather moved south to the more attractive California, - and even further. It seems so clear that both SU and US (Roma3 and

Roma4) were built from the ground at the same time. From now on, the conclusion is that the previous century SU and US were twin-empires Roma3 and Roma4, - based on the original Roma2 and Roma1.”

“The result of the 500 years process was that Spain dominated South-America, UK dominated US and France dominated Canada. One should think that Norden, rather than France, would dominate Canada, - but some other arrangements must have won through. One reason is naturally the split of the Nordic Union (Kalmar union) in the 1500s and the related unrest with Tsar Ivan and Roma3. Furthermore, the self-appointed emperor Napoleon set Europe in flames in 1792, when the US was constituted and ready for fight. European activities in America was consequently down prioritized and forces withdrawn. Roma4 (US) got a foothold and started the assimilation of north-American cultures.”

“When knowing the processes of Roma3 and Roma4, it is clear that the crusaders from Roma2 were used for cleansing prior to the assimilations and restrictions. Crusaders advanced during the century from knights to cavalries. It is however problematic that these holy crusaders probably involved revengeful and immoral looser from the ruins of the lost Roma2. Stories about Roma3 and Roma4 even gives an understanding why the Mongols and Muslims reacted so brutally towards Roma2.” It is clear as well that some pirates were empires’ privateers operating as black-ops in ulterior Underworld Games of 4th degree. In fact, such pillaging of rivals has no such limits as time, place, means or goals. Piracy can happen anywhere, anyhow and anytime.

With empire perspective on the rise of the new twin empires, Roma3 and Roma4, - it becomes clear that Napoleon was an empire’s Pirate with the sole purpose to destroy European nations like any other native culture. This was summarized in UU 2014.mai.16 and is translated here. “As mentioned in UU 2013.juni.14, the napoleon wars (EW0) might have been started to keep the continental Europe out of America when US/Roma4 was constituted and ready to be built. Anyhow the motives, that particular lieutenant, that child of the revolution, caused world record in deaths and destructions in Europe. It is not quite clear what goals and meaning was for that Stat’s self declared emperor, - others than to lead the Thrones’ loyal to the battlefields’ certain death. Surely, UK declared themselves in all alliances against Napoleon, but contributed only with a few soldiers. US, on the other hand, took Napoleons side in 1812-1814 during the invasion and burning of Moscow/Roma3. Napoleon himself declare innocence to the burning of Roma3, though. The human loss in Europe was about 5 million, where half were civilians. Consequently, ‘The Concert of Europe’ (Congress of Vienna) was constituted in 1815 and secured peace and diplomacy for a hundred years. (See UU 2013.feb.22). UK got the ‘Pax Britannica’, an exclusive right to dominate the Atlantic.” (UU 2013.juni.21) Norway regained its sovereignty, since Denmark became the scapegoat for this Russia-France war-Game of 4th degree. (UU 2014.mai.16)

The psychosocial 3[^]3 dimension Will was introduced UU 2015.mars.06. This focus is also set on Games in order to explain Captain Lychee. First an introduction. “The merged 3x3 Game model does mostly apply to the social ego-state Will. Freud and Jung call it ‘Ego’, but Bern called it ‘Adult’. This UU sets focus on three social Game categories of Will, namely KoC (King of the Castle), CdE (Coup d’ Etat) and GoT (Games of Temples). Such a large theme needs an archetype to grasp the idea, - a simple stereotype like Napoleon. The main reason to focus on Games is the simple truth that everyone lies and deceives.” (Note, CdE later became the Game Category GdE (Games d’ Etat) that includes pre- and post-Games to the Game CdE.) At national and imperial level, the 3[^]3 psychosocial dimension of Will relates to the 3 institutions Throne, State and Temple. These are also the 3D core for the 5D Scenario model.

Games are thoroughly described in UU 2015.mars.06 and do suite pirates’ profiles well. “The main reason to do Game analysis is explained in UU 2013.mars.15: “Humans are dishonest and ulterior by nature – this fact should not be denied. How many times a day humans lie, is not a main point. Still, there are serious consequences that too often are ignored in social and political relations. Then again, there are indeed some innocent physiological reasons that the brain automatically adjusts facts. Animals’ natural camouflage, scary behavior and sexual rituals indicate that there are natural reasons to some kinds of deceive. Yet, humans, as intelligent animals, have a far broader spectrum of lies. A classification counts 34 categories: Bad faith, Barefaced lie, Big lie, Bluffing, Bullshit, Butler lie, Contextual lie, Cover-up, Deflecting, Delusions,

Dismissal, Economical with the truth, Exaggeration, Fabrication, Fib, Fraud, Half-truth, Haystack answer, Honest lie, Jocular lie, Lie-to-children, Lying by omission, Lying in trade, Minimization, Misleading and dissembling, Noble lie, Omission, Pathological lie, Perjury, Polite lie, Puffery, Speaking with forked tongue, Weasel word & White lie. Anyhow, deceptions can be of positive or negative moral and not necessarily ethical rejectable. It is however important to have the system of Values (GUR) in order, when facing such."

The Eric Berne's Game theories were extended, like the Freudian 3 ego-state model was a merging to a 3x3 Freudian/Jungian. (See UU 2015.mars.06 for description of the classic Games.) It suites pirates' profiles in particular. "Some previously mentioned new (3^3) Games are: DAC&UAC (Divide&Conquer & Unite&Conquer) is a political Game of Will that is used to take control over collective groups. TLM (Two Little Maids) is a Drive Game for collectivization and can be prior to e.g. LYAHF. ISR (It Started with the Retribution) is used to start rivalries – without risking accusations of provocations and thereby support to the opponents. A similar clinical Drift motivated Game is supported by ABD (Attack is the Best form of Defense) where mutual paranoid rivals can have Belief dominated 'obsessions'. Jante is a collective synchronization Game related to TLM (TOL). BGGG (Bad Guy, Good Guy) is a Will Game in the classic category Underworld and especially effective in 3rd degree negotiations. RPPP (Robbing Pete to Pay Paul) is a political Underworld Will Game that is used as political election campaigns and finance politics. ODAB (One's the Death – Another's Bread) is a 3rd degree Underworld Will Game with lethal outcomes." "A new Game BOOFY was discovered when analyzing today's Russian Games in UU 2014.nov.14: "A Russian proverb saying is "Beat your Own and Others will Fear You". Actually, it seems that an east-bloc Underworld Game 'BYOOWFY' of 3rd and 4th degree is identified. It seems to be legitimated in Roma3." The Game is later renamed to BOOFY. The Game seems to be as common for pirates and secret services as well as modern mafias.

Napoleon is particular relevant to all the three categories KoC, GdE and GoT, because he played for supremacy of Thrones, States and Temples - altogether. As a climax, Napoleon crowned himself as emperor in the Temple with the Pope as passive witness. The epic ritualistic demonstration suites the deeds as an anti-papal, - which means that the Russian Orthodox Church probably was an ulterior Game player to Napoleon's anti-European warfare. Nevertheless, most Game analysis of Napoleon is done in relation to UU 2014.mai.16 in the Theme '1514-2014' that is about the political development in Norden and Europe in the 500 years period. An indication of the content is taken from UU 2014.okt.31 "In brief, the results of the napoleon wars were basically a grand slaughter of European royalists in the military, - especially those related to the French Throne. There is therefore reasons to think that the result might have been the overall goal in that Game. Anyhow, not only Moscow claimed the right to the heritage of Roma (UU 2014.mai.02), but also St. Petersburg, Austria, Germany, Italy and France, - like some Roma3b, 3c, 3d, 1b and 3e. Moreover, the Ottoman Empire was practically a Muslim Roma2b and an aggressive rival to them all. Notably is Napoleon's bodyguard Roustam Raza, alias Idzhahia, of particular interest (since Napoleon had alienated himself from mostly anyone else)." Which rather leads the focus to all the other actors in that grand Game of 4th degree, rather than that petty little remote marionette that did not even seem capable to slit a throat himself.

One general conclusion about Captain Lucky, or rather alias Captain Chaos, is that Pirates might appear in any position for dramatic Games of change. Napoleon is a most profound example that rivaling empires do place such BDW radicals in power to cause ruin from within. It is the very same phenomenon as for CCD (Colony Collaps Disorder) (see UU 2015.juli.03)

This leads to the final 8th pirate with focus on the previous century's global piracies.

The Captain Lychee drink relates to Will, Games and Chance. This recipe is also simple, - mix white rum, lychee juice and ice-cubes, - 1 to 4 for grape-wine ABV and 1 to 10 for beer ABV. (See links for more advanced Captains Lychee drinks.) Some more facts about the lychee fruit might be further inspirational. "Lychee is a tropical and subtropical fruit tree native to the Guangdong and Fujian provinces of China, and now cultivated in many parts of the world. The fresh fruit has a "delicate, whitish pulp" with a floral smell and a fragrant, sweet flavor. Since this perfume-like flavor is lost in the process of canning, the fruit is

usually eaten fresh. The outside of the fruit is covered by a pink-red, roughly textured rind that is inedible but easily removed to expose a layer of sweet, translucent white flesh.

The lychee has a history and cultivation going back to 2000 BC according to records in China. It was first described and introduced to the West in 1656 by a Polish Jesuit missionary. More recently in South Africa, Brazil, the Caribbean, Queensland, California and Florida.

On average, consuming nine peeled lychee fruits would meet an adult's daily vitamin C requirement but otherwise would supply little nutrient content. In traditional Chinese medicine, lychee is known as a fruit with "hot" properties. Dried lychees are often called lychee nuts, though they are not a real nut."

The TV series Black Sails received four nominations for Outstanding Main Title Theme Music, Outstanding Main Title Design, Outstanding Special Visual Effects in a Supporting Role and Outstanding Sound Editing for a Series at the 66th Primetime Creative Arts Emmy Awards. The series won Outstanding Special Visual Effects in a Supporting Role and Outstanding Sound Editing for a Series.

Bear McCreary says "For the instrumentation of Black Sails, I focused primarily on historically accurate sounds: a string quartet, rhythm guitar trio, percussion duo and various historical solo instruments. Most of this merry band have worked with me for the better part of a decade, and they too had to unlearn our old habits. For the first time, I relaxed my ruthless pursuit of rhythmic perfection and intonation precision, and asked them not to play "too perfectly." We had to completely redefine what it meant to play in tune. These intrepid musicians had the unenviable task of matching pitch against finicky ethnic guitars, exotic woodwinds, bagpipes, accordion and the wobbling wail of the hurdy gurdy."

Extra UU1 - 25 Most Feared Pirates To Ever Set Sail

"When most people think of piracy they probably think of skull and crossbones, eye patches, and wooden legs. While these would all certainly be true to some extent; at its core, piracy has always been about the plunder. If there were nothing to steal there would be no pirates. As it is, however, from centuries past to this very day pirates are alive and well on the high seas. These are the 25 most feared pirates to ever set sail."

Extra UU2 - Alice Cooper – Desperado

What is this association to pirates? Desperadoes might as well be stranded pirates that found horses more appropriate than ships and guns more suitable than swords and whiskey better than rum. Actually, the so-called Wild West suites the images of pirates very well. Here, such a desperado has gone to town.

"Vincent Furnier, alias Alice Cooper made several cabaret numbers where he dug deep into the inner and murky self. He came up with some quite artistic performances. Some characters were like Mephisto, Dr. Mabuse and Mr. Hyde. Later repertoires include figures like a traumatized boy (Steven), an urban terrorist

and a mental patient (Dwight Fry). The musical performance was quite professional due to support from Frank Zappa and the Warner Bros. However, taken out of its content and performed as a cheap rock concert, - it loses the original significance. This classic, Desperado, presents an assassin in the 'Wild West', not quite revealing who he was except for being a killer, a clown and a priest."

Extra UU3 – TV series - Black Sails S01E01

Black Sails is an American dramatic adventure television series set on New Providence Island and a prequel to Robert Louis Stevenson's novel Treasure Island. The series was created by Jonathan E. Steinberg and Robert Levine for Starz that debuted online for free on YouTube and other various streaming platform.

The plot is summarized as: "Set roughly two decades before the events of Treasure Island and during the Golden Age of Piracy, the feared Captain Flint brings on a younger crew member as they fight for the survival of New Providence Island. According to the first episode, "In 1715, West Indies, the pirates of New Providence Island threaten maritime trade in the region. The laws of every civilized nation declare them hostis humani generis; enemies of all mankind. In response, the pirates adhere to a doctrine of their own war against the world." Real life pirates that are fictionalized in the show include Anne Bonny, Benjamin Hornigold, Jack Rackham, Charles Vane, Ned Low, and Blackbeard."

"The plot of the first season focuses on the hunt for the Spanish treasure galleon Urca de Lima. At the beginning of the second season, the treasure from the Urca de Lima has been stranded on the shores of Florida with Spanish soldiers guarding it, but by the conclusion of the second season, the treasure has been taken by Jack Rackham and his crew and brought to New Providence Island. During the second series, the question of how and why Flint who was a navy officer and London gentleman, turned over to piracy, is asked. The gold of Urca de Lima is certainly not Flint's greatest secret."

Captain Flint's Pirate Bay, the island Nassau is the in the TV series, is close to the Virgin Islands that became a Dan-nor Pirates' Bay. Tordenskjold sailed the Caribbean at that time and was probably influenced by those cultures. Tordenskjold, - might therefor have been a Pirate of the Baltics – like Captain Morgan of the Caribbean.

Captain Coco (Ghost - Secular Haze)

2016.feb.19

Ukens Utvalgte

Captain Coco is the 6th Tordenskjold Pirate, - and a drink with coconut milk. It represents Belief in negative ethics rather than positive – rather BDW (bad/destructive/wrong) than GCR (good/constructive/right). It is as ancient as piracy itself and expresses that negative mythologies, ideologies or theologies justify the ends. One certain misdeed caused everlasting epic fatalities, - the raid at the Christian Rome by the Pirates of the 4th Crusade in 1200 AD. That Coup d'état enabled the Dark Ages of plagues in Europe, the joint Muslim/Mongol invasion in 1500 AD, the constitution of the 3rd Rome in Moscow, the mass inquisitions in Norden, the Golden Age of Piracy in America, and the Napoleon wars in western Europe. Therefore, with Captain Coco, there will be drawn a historic line from Roma2 with a focus on theocratic piracy in Norden.

A brief summary is in UU 2015.okt.09. "It helps to understand Roma3/Moscow and its heritage from Roma2 with understanding of the theocratic history." "There was a highly questionable constitution of Rome3 based on a monk's statement (UU 2014.mai.02)." "The crusades (of Roma2) were first arranged with

Roma1 State soldiers. European Thrones supported them, when the Muslim caliphate conquered Egypt, Jerusalem, Syria and other important middle-eastern regions. However, the fourth crusade was fatal. Some 'pirates of the fourth crusade' attacked the Christian Roma2 instead of the Muslim Egypt. Roma2 was plundered to ruins and could not rise again under the following chaos. The crusaders failed to administrate the city so decay and the final fall was unavoidable. The crusaders' actions and faiths are full of mystical Games. However, they might have known about Marco's tales and seen the coming Muslim/Mongol invasion, - or simply did the preparations. They might have wanted to save treasures and spread them to European temples and thrones prior to the joint Khan/Caliph attack. The 'Da Vinci Code' is merely one example of some dramatic Games at play." (UU 2014.april.25 and UU 2015.mars.27)

"The pirates handed over the coat of Arms of Roma2, 'the double headed eagle' to Moscow, a monk declared Moscow as the 3rd Roma and Ivan was titled Tsar/Caesar. The Duchy of Moscow grew rapidly by systematic invasions, tax and terror." The documentary in extra UU1 indicates that the French and Venetians were not to blame for the pirate's attack, but rather the Greek theocratic rivals. If so, the Russian orthodoxy is founded on Greek orthodoxy anti-papal piracy, - that hardly can be believed to be true Christian at all, - rather the opposite.

With the joint Moscow/Mongolian/Muslim peace-agreement, Roma3 executed brutal and effective anti-papal campaigns towards the Christians in the Baltic region and the Nordic union. "Ivan (the terrible) attacked the Baltic region brutally. The nations responded with raids, invasions and blockades. The Polish, Lithuanians, Swedes, Dutch and Germans were together in the resistance. Ivan accused that Novgorod could end up being catholic in a polish/Lithuanian alliance. The claim has no documented validation though. Roma3's final annexations by Ivan and Oprichnina was terrible and led to the 'Novgorod massacre' in 1570. This also terminated the trade-route between the Baltic sea, Kiev and the Black Sea/Roma2." (UU 2014.mai.02). It seems that control over the Baltic Sea was an obsession. A trade route to the Atlantic Sea via Germany was also frequently terminated with wars at Holstein. It left the Danish castle Kronborg as the only passage regulated with taxes. This UNESCO heritage is also the site for Shakespears 'Hamlet' with the infamous quote: «Something is rotten in the state of Denmark". (See also UU 2014.okt.31 and UU 2014.mai.09, UU 2014.mai.02, UU 2013.Mai.24.) The Mongolian 'tax and terror' was extended to naval taxation and blockade in the passage between the Atlantic and Baltic seas. However, it was remote probably remote-controlled from the imperial Russia.

The Dane king Christian IV was provided with extended powers when the Nordic (Kalmar) Union was schized and Sweden joined the resistance against Ivan. However, he was probably dependent on advisors since he was crowned king only 19 years old. Wikipedia elaborates. "Christian IV was a monarch of the German House of Oldenburg who ruled as king of Denmark-Norway from 1588 to 1648. He is frequently remembered as one of the most popular, ambitious, and proactive Danish kings, having initiated many reforms and projects. Christian IV obtained for his kingdom a level of stability and wealth that was virtually unmatched elsewhere in Europe. He engaged Denmark in numerous wars, most notably the Thirty Years' War (against the Pope) which devastated much of Germany, undermined the Danish economy, and cost Denmark some of its conquered territories. He renamed the Norwegian capital Oslo as Christiania after himself, a name used until 1925. Despite the reluctance of Rigsraadet, Christian initiated a war with Sweden for the supremacy of the Baltic Sea. It was later known as the Kalmar War because its chief operation was the Danish capture of Kalmar, the eastern fortress of Sweden. However, despite Denmark's greater strength, the gains of the war were not decisive." It is remarkably that the supreme legislative and executive power in Denmark 'Rigsraadet' was shortcut by Christian IV to Moscow's favor and took Denmark into war against its former allied. That act was simply a remote controlled piracy coup, like in Roma2 in 1200 AD.

The constitutional controversies of the schized Nordic Union is elaborated in UU 2014.okt.31. "The three Thrones of Norway, Denmark and Sweden formed a Nordic union (the Kalmar union) about the 15th century for mutual collaborations and defense. At that time, Norway included Iceland, Greenland and the Faroe islands. Sweden included Finland. It was confederal and there were never any legal transfer of land to the union. It worked for a century until Moscow converted to Roma3. Sweden, with King Gustav Vasa,

opposed the empire. Soon the Danish Throne declared single sided that Norway with Greenland, Iceland and Faroe Island was their provinces. However, that has never been legally recognized. The split of the Nordic union happened at the same time as Ivan's aggressive annexations and massacres on the continent. Relations of the events are therefore likely. The assumption is strengthened with the fact that the brother of King Frederik II of Denmark, Magnus of Holstein, was appointed by Tsar Ivan as king of Livonia (Estonia). Magnus also got a Russian army of 20,000 to conquer Swedish land that was part of the opposition towards Roma3. Magnus even might have been tempted by the Danish Throne. However, the death of Tsar Ivan caused the abdication and expulsion of Magnus from the Baltic regions." (UU 2013.mai.31)

"Cristian IV's personal obsession with witchcraft led to the public execution of some of his innocent subjects, leading to the greatest number of deaths in Denmark during the Burning Times." This is still a deep-rooted tradition in Denmark. The symbolic ritualistic Russian orthodoxy of burning of witches on Midsummer's eve, in Novgorod style, is strongly criticized in UU 2014.mai.09 and UU 2011.juni.24. Also from Wikipedia. "He now turned his attention to the Thirty Years' War in Germany in order to obtain control and securing the dominion of the northern seas; and to acquire the secularized German Archdiocese of Bremen and Prince-Bishopric of Verden. He took advantage of the alarm of the German Protestants to secure coadjutorship of the See of Bremen and at Verden. Hamburg was also induced to the Danish overlordship of Holstein."

Notably, in clerical patriarchal views, women, children and democracy are causes to decay and fatalities. Therefore, in anti-papal views, initiating Protestantism might just as well to cause self-destructive civic wars in the Papal domains. Besides, the conflicts of witch-hunts are often mistakenly related to Jews. Yet, the basic beliefs is in Jinns, which was called demons by Christians. Jinns are respected and central to Muslims, but seldom referred as causes to the religious conflicts. The inquisitions might as well be a Muslim initiated conflict executed in the Russian orthodox regime. Additionally, speculative yet intriguing, - Christian IV was certainly consider anti-papal and anti-Christian to Nordic peoples too. Therefore, if the 'Christi' is taken out of his name, the four remaining letters indicates what really was behind that schemes of restruction of Norden.

Another curious relations to Roma3 and the Atlantic, mentioned in UU 2014.okt.31). "Less known is the Russian-English relation that Ivan made with Queen Elisabeth I. England wanted a trade-alliance, while Russia wanted a defense-alliance. He was guaranteed asylum in England if his regime should fall. It was not used because Ivan suddenly died of heart-attack." For that reason, from time to time, UK politics still seems to honor this ancient Roma3 relation at critical moments, - somehow ulterior. If so, occasionally UK acts as a marionette state of the Russian empire, - just like Denmark.

Nevertheless, back to the Golden age of Piracy. As mentioned in the previous UU 2016.feb.12, - after Tordenskjolds death, Tsar Peter the Great declared Russia an empire, St. Petersburg the Capital and the Winter Palace the imperial resident. That shifted the empire powers from Moscow/Roma3 to the Baltic Sea. Wikipedia elaborates. "Peter the Great (1682–1725) had an agenda of radical modernization of Russian government, army, dress and manners. He made Russia a formidable political power. Peter was not religious and had a low regard for the Church, so he put it under tight governmental control. He replaced the Patriarch with a Holy Synod, which he controlled. The Tsar appointed all bishops." "Catherine the Great later in the 18th century seized most of the church lands, and put the priests on a small salary supplemented by fees for services such as baptism and marriage."

The vision of the Baltic Sea at the time might be associated to the Black Sea, with Denmark geographical position like the Turkish passage by Byzantine. Anyhow, the most successful emperors of modern Russia succeeded by domestically disabling the ghostly remains of Roma2, - namely the Russian Orthodox Church. The expansion of the empire succeeded by redirecting its brutal theocratic missions towards 'The West', - even with a backdoor through Alaska. The Russian term 'The West' indicates the Byzantine absurd illusion to the strategy. The world is not flat as the theocrats believed, - and they are no such center of such a world. Calling Europe and America 'The West' proves absurd for anyone outside such byzantinish 'Heaven on Earth' and its Gordian bureaucracy. Yet, the Russian empire cannot change that mass-psychotic obsessions

even if finally realized that it is completely wrong. Denial of realities and being completely wrong, maintains the obsolete powers.

“In the late 17th and early 18th centuries, the Russian Orthodox Church experienced a vast geographic expansion (elsewhere). Numerous financial and political incentives (as well as immunity from military service) were offered local political leaders who would convert to Orthodoxy, and bring their people with them.” “In the following two centuries, missionary efforts stretched out across Siberia into Alaska. Eminent people on that missionary effort included St. Innocent of Irkutsk and St. Herman of Alaska.” The pirates’ ‘clerical haze’ had proven extremely effective for converting civilizations to vassal-states. Imperial war-strategies of biological smallpox, logical ideologies, and Belief in mass-psychosis was strategically spread as first-phases to invasions. It is a simple strategy - actually. Like the constructive solution to the ‘Columbus egg’, it is a destructive solution placing a Cuckoo egg in the prey civilizations. Just put it there and wait until the plebes families are self-consumed intrigues of narcissism, envy, jealousy, carelessness and Jante. “One Flew Over the Cuckoo's Nest” – or rather – “A Cuckoo Flew Over One’s Nest”.

The psychosocial 3³ dimension Drive was introduced in the previous UU 2016.feb.12. In order to explain Captain Coco, the focus is set on Belief. First an introduction: “The most obvious reason for the relations between psychology and sociology is that many organizations are highly personified, - with dominating patriarchs and matriarchs. The list of political, religious and royal leaders is convincing. Other organizations, that are not that fixated on persons, have strong collective Superior-Ego expressed in ethics, laws and rituals.” (UU 2013.mars.22) Moreover, “The properties of the 3³ socialpsychological ego-state ‘Belief’ is not possible to fully describe. It is like the term ‘religion’, i.e. ‘The First Philosophy’, and includes fundamental questions about the beginnings, ends, the universe, life, omniscience, positivity and more. The questions of this magnitude are unanswerable, simply because the human comprehension is limited. Besides, Belief is not about knowing scientific facts at all, but rather a realization that the probability is about 50/50 for a belief to turn out true. (Hope concerns unlikely beliefs with about 10% probability to be proved true.) Consequently, claiming to know whether a divinity exist, or not exist, is just as false, and do not concern Belief at all, but rather Games of Will.” (2015.mars.13)

Likewise, “The Belief dimension of the 3x3 model is different from Drive and Will. Freud and Jung called it ‘Superior-Ego’, while Berne called it ‘Parent’. Belief concerns ideas of what we cannot possibly fully understand, yet need to know and trust. Here, focus is set on Belief in Supremacies like the S-E. The Superior-ID (S-I/Drive) was included 2 years ago.” “The Supremacy dimension is based on Freud’s classical psychological ‘ego-state’ Superior-Ego, - i.e. any overruling of human Will and Drive. It is hereby sub-categorized into S-I (Superior-ID), S-E (Superior-Ego) and S-D (Superior-Devine) in order to suite the 3³ psychosocial model. It does not concern theological or philosophical question of whether long gone ancestors, gods or other divinities exist, - but concerns the belief in, or denial of, such. Psychologically, it is valid since no one can deny the existence and importance of believes, - religious or not. Yet, subcategorizations of Belief cannot be as concrete as for Will or Drive, - like tangible terms on does not describe the intangible well. Besides, the values of Good/Use/Right (GUR) and Throne/State/Temple (Th/St/Te) are still relevant and is re-vitalized in this sense.” UU 2015.mars.13

Yet, the main concern to Pirate Empires like Roma3, was realized before developing the 3x3 and 3³ psychosocial models. “As mentioned in UU 2014.okt.31 about the first realization when the S-E/S-I relation was discovered.” Finally how the idea of a Superior-ID was realized. “The Oprichnina/Praetor is like a definition of psycho-social Games. The Actors and the Games are ulterior and concealed like the very nature of secret services. It is however, a problem if the democratic Quality of Life is not respected. It is serious if the organization consider itself as a Superior-Ego and individual as inferior. It is catastrophic, if it also inherited the properties of Ivan’s murky mentality as a collective obsession.” (UU 2015.nov.06) The Russian Oprichnina is the archetype of its S-E/S-I secret service, - which are nowadays called FSB/GRU.

“Identifying and profiling the true nature of the imperial secret organization is like doing Vaticanology and Kremlinology. Previously, it has been identified and described as the Praetor of Roma1, the Praetors (network) of Roma2 and the Oprichnina of Roma3 (UU 2014.nov.07, UU 2014.mai.02 and UU

2013.Mai.24).” “The S-E and S-I are like the OverConscience of Belief and Drive (OB and OD), which means that they can both influence collective synchronization, - like some ‘folks’ movements’.” Oprichnina is the S-E to S-I like privateers, like oligarchs, like pirates, - hovering prey-nations morals, laws and ethics. This lead to the next Captain Luche, concerning the constituting of Roma4 as well as the destruction of Europe.

The Captain Coco drink relates to Believes in BDW ethics. This recipe is also simple, - mix white rum, coco milk, ananas juice and ice-cubes, - 1 to 4 for grape-wine ABV and 1 to 10 for beer ABV. (See links for more advanced Captains Coco drinks.) Some more facts about the coco might be further inspirational.

Botanically, the coco is a drupe and not a nut. The spelling cocoanut is an archaic form of the word. The term is derived from the 16th-century Portuguese and Spanish word coco meaning "head" or "skull". It has spread across much of the tropics, probably aided in many cases by seafaring people. Specimens have been collected from the sea as far north as Norway. They have been found in the Caribbean and the Atlantic coasts of Africa and South America for less than 500 years, but evidence of their presence on the Pacific coast of South America predates Christopher Columbus's arrival in the Americas. Coconut milk has a total fat content of 24%.

The pineapple (*Ananas comosus*) is a tropical plant with edible multiple fruit consisting of coalesced berries, also called pineapples. Pineapples can be consumed fresh, cooked, juiced, or preserved. They are found in a wide array of cuisines. In addition to consumption, the pineapple leaves are used to produce the textile fiber piña in the Philippines. The fiber is also used as a component for wallpaper and other furnishings. In a 100 gram serving, raw pineapple is an excellent source of manganese (44% Daily Value (DV)) and vitamin C (58% DV), but otherwise contains no essential nutrients in significant content (table).

“Ghost is a Swedish heavy metal band from 2008. The Grammis-nominated album *Opus Eponymous* was widely praised and increased their popularity significantly. Their second album and major label debut *Infestissumam* debuted at number one in Sweden, and won the Grammis Award for Best Hard Rock/Metal Album. The third studio album, *Meliora* reached number one in their home country of Sweden and number eight in the United States.”

“Ghost is easily recognizable because of its eccentric on-stage presence. Five of the group's six members wear virtually identical, face-concealing costumes. The most distinguishable member is the vocalist, who wears a prosthetic face with skull face paint, appearing as what can be described as a "demonic anti-Pope". Each album cycle has brought about a change in the band's appearance. The vocalist is always portrayed as the same archetype character, but has slight appearance changes and even personality traits are altered from former versions. The band members' true identities are kept anonymous, as their actual names have not been publicly disclosed. The vocalist calls himself Papa Emeritus, and the musicians are referred to only as Nameless Ghouls.”

The association here is, as indicated by Captain Coco, more true expressions of anti-Christian and anti-Papal theocracies, - disguised as the opposite in psychosocial Games of 4th degree.

Extra UU3 – Movie Erasmus Montanus

The Ludvig Holbergs comedies were mentioned in UU 2016.jan.15 and UU 2016.feb.05. The stories are highly valued in Denmark, believing he was a Dane and that the comedies are about anyone else. Erasmus Montanus is the most analyzed comedy of all and is about the inherent failure to perceive new knowledge. This is closely related to the cultural Belief in the so-called 'Jante Law' that prevents anyone to advance.

Wikipedia says about the play, "Danish farmer's son Rasmus Berg has been given a costly education in Copenhagen, and when he returns, he speaks Latin to his parents, and Latinises his name as Erasmus Montanus. He wants to "dispute", and goes on to "prove" a number of absurdities, such as relying on argument from ignorance to prove that his mother is a rock. He is contrasted to his brother Jacob who is only interested in knowledge which is of practical application."

"His persistent arguing gets him into trouble with the parents of his fiancée Lisbet, who refuses the marriage until he stops claiming that the Earth is round. His fiancée begs him to retract his statements that the Earth revolves around the sun, but he refuses. After a village plot tricks him to enlist for military service and leave the city, he reconsiders and makes the retractions, allowing him to marry Lisbet."

Captain Guanabana (Carlos Santana - Black Magic Woman)

2016.feb.12

Ukens Utvalgte

Captain Guanabana, alias Captain Surprise, is the 5th Tordenskjold Pirate, - and a drink based on the fruit. It represents the uncovered and mysterious sides of nature - and how it influences persons and organizations to organized crime like piracy. The Guanabana is curious in the sense that it is claimed to be a cure for cancer as well as a cause to Parkinson's disease. The fruit is globally widespread and has over 20 names, which makes it hard to identify even though it is well known. Just like we do not understand the nature and all the consequences of uses and abuses, - this pirate's alias is Captain Surprise, - where the outcome is unpredictable. It might be male and female, - pirates and pirates, - good and bad.

The vitality of the rainforests in South America is indicated in Wikipedia. "40% to 75% of all biotic species are indigenous to the rainforests. It has been estimated that there may be many millions of species of plants, insects and microorganisms still undiscovered in tropical rainforests. Tropical rainforests have been called the "jewels of the Earth" and the "world's largest pharmacy", because over one quarter of natural medicines have been discovered there. Rainforests are also responsible for 28% of the world's oxygen turnover." "In nature, tropical rainforests are considered the world's medicine chest or world's largest pharmacy as 25% of Western pharmaceuticals are derived from ingredients found in tropical rainforests. Additionally, more than 2,000 plants from the tropical rainforests have been identified as having anti-cancer properties with 70% of those are found only in rainforests. There are additional potential to this medicine chest. Currently, only less than 1% of all species in rainforests have been analyzed for their medicinal value."

The ancient American cultures were also basis for several myths and mystics for the Europeans. "The Fountain of Youth is a spring that supposedly restores the youth of anyone who drinks or bathes in its waters. Tales of such a fountain have been recounted across the world for thousands of years." "The legend became particularly prominent in the 16th century. Ponce de León was searching for the Fountain of Youth when he traveled to what is now Florida in 1513." "El Dorado (the golden man) is the term used by Europeans to describe a mythical tribal chief of the Muisca native people of Colombia. The legends surrounding El Dorado changed over time, as it went from being a city, to a kingdom, and then finally an empire." "The most famous of these expeditions were led by Sir Walter Raleigh. In pursuit of the legend, Spanish conquistadors and numerous others searched Colombia, Venezuela, and parts of Guyana and northern Brazil for the city and its fabulous king. In the course of these explorations, much of northern South America, including the Amazon River, was mapped. By the beginning of the 19th century most people dismissed the existence of the city as a myth." "The Seven Cities of Gold is a myth that led to several expeditions by adventurers and conquistadors in the 16th century. According to legend, the seven cities of gold could be found in the Sonoran Desert in Arizona. See also: Cibola, City of the Caesars, El Dorado, Shambhala, Shangdu, Shangri-La, Sierra de la Plata and Quivira."

The Columbus expeditions, 200 years before this Golden age of Piracy, lead to major invasions and ruin of the meso-American cultures. These invaders can be considered state-supported privateers – some kinds of land-based pirates. This was talked through in a previous Theme called 'LifeQuality and Empires' (UU 2013.juni.14). "The TV-series '500 Nations' shows clearly that there was a main objective to conquer the dominating Aztec culture in Mexico. The conquerors were probably recruited crusaders from the fallen Roma2 (Byzantine). 'The end justifies the means' and memories of G.T. warfare towards similar pyramid builders in Egypt, - included methods like theocracy, betrayal, slavery and bacteriological warfare. In fact, most native died due to illness like smallpox, - a virus that even the medicine alcohol could not cure. The crusaders weakened most of the culture in meso- and west-America and introduced thralldom in pure SPQR style." Additionally, the previous mentioned novel 'NewFound Land' do concern the Mesoamerican cultures before the year 1000. See links to '500 Nations' and the NFL1 chapter 4.1 Upload.

The widespread nature of piracy is not well explained in psychosocial terms. Except for being taboo, the main reason seems to be that psychosocial models suffers from the psychocratic rivaling for mass-psychotic domains, - just like mythologies and ideologies. Anyways, the development of a merged Freud/Jung model, called 3x3, was presented in UU 2015.feb.27. "In order to adjust Freud's 3-states (model) to this century and social relations, the terms are developed from-via-to: ID-Child-Drive, Ego-Adult-Will and Superior Ego-

Parent-Belief. A new dimension of conscience is added in order to merge Jung with Freud's 3-state. The levels are; UnderConscience, Conscience and OverConscience (U, C and O)." "Jung was a mentee of Freud and advanced the theories of ID and S-E (Superior-Ego) based on collective archetypes, collective synchronizations, beliefs and symbols." "However, there must be 3 (sub-categories to each ego-state) to fill the organizational model of the states Drive, Will and Belief." "The Drive (Game) sub-category AnimalFarm (AF) was previously announced. The 2 others are now named WildLife (WL) and RainForest (RF)." These psychosocial sub-categories are associated to the psychopersonal ID sub-categories Jerk (AF), Nerd (WL) and Sulk (RF). Detailed properties of the 9 sub-categories are listed in UU 2014.sept.12.

"The social Game category WildLife (WL) relates to animal life in the open nature, as we know it. However, knowledge increases according to new discovery documentaries, which expands this category. Typical areas of WL are penetrable forests, savannas, plains, cultivated nature and even animal life in cities. It concerns Drive-Drive related interpersonal relations by biology, motoric physiology, instincts, neurology etc. Some WL collective phenomena are Predator vs Prey that was talked through in S-E/S-I (Superior-Ego / Superior-ID) relation and as genocides at empire level (UU 2014.jan.10). Another phenomenon is the collective mass suicides by lemmings and the flocks of mammals crossing a river they know are full of predators. WildLife has probably some ulterior Games at Drive/Drive levels that includes hunting and camouflage. However, most activities are not Games at UD level, due to the honesty of nature. Yet, humanity has adopted a large number of WL Games and plays them at 3x3 levels." The Drive sub-category WildLife (WL) might be the most relevant to piracy in general and Tordenskjold Pirates in particular. The shift of focus from psychopersonal to psychosocial analysis provides new dimensions of conscience about causes and consequence, - and hopefully remedies.

"The social Game category AnimalFarm (AF) was first mentioned in UU 2014.dec.19." (...) However, the term stems from dystopian novella 'Animal Farm' by George Orwell. (...) In social 3x3 sense, there are some structures and dominations by biological conscience within species' tribes. There are hierarchal organizations where older mammals dominant younger and where a single male might rule. Contrariwise, insects might have hives where queens dominate workers, drones, warriors and nurses. There are even highly inter-species relations that indicate dependencies and bondage. Besides, flocks of birds and fishes have synchronized collectives where single individuals rarely dominate. Nevertheless, birds and mammals might have fierce rivalries between male during mating. 1st degrees of 'Sexual' Games like LYAHF stems from such animal rivalries. Actually, most Games of 1st degree are Drive related. Humanoid primates can even play 1st degree of sophisticated Party Games and Underworld Games. In addition, as indicated, classrooms might have pecking orders like hen houses. Nevertheless, natures' non-verbal communication is rather advanced with odors, colors, behaviors, rituals etc." The Drive sub-category AnimalFarm (AF) is most relevant for the organized piracy havens of the Virgin Islands (see UU 2016.jan.22). Today, Zealand's (Sjælland's) natural nature is about 90% cultivated and meat-production is mainly industrial of pork and chicken. These are highly effective, but unnatural AnimalFarms, - and occasionally becomes breeding-farms of human plagues.

"The social (Game) category RainForest (RF) refers to the hidden wildlife that we do not quite know or might have some believes about. The beliefs in RF concerns 'cure for cancer' and 'fountains of youth' as well as deadly nature, - and even viruses of potential apocalyptical pandemics. However, no doubt that RF do hold rich flora and fauna including potential new medicines, trickster predators and preys, where camouflage, poison, paralyzing are used in Games. These are the basics of psychosocial Games, where ulterior motives, deceiving moves and taking spoils are essential. Human 'Honeypot' Games are certainly related to RF. Some previous talks in UU 2014.aug.22 are related to RF Games: "It sound more fantastic than hypnosis. However, to get the idea, it is recommended to see the TED video 'Ed Yong: 'Suicidal crickets, zombie roaches and other parasite tales'. It shows that collective synchronicity amongst animals are not always motivated by interpersonal socializations. In certain occasions, their UD are controlled by physical parasites that uses the hosts against their own good and to the parasites' gain. In any case, - such similar psychic activities for collective remote control of group synchronizations is certainly the situation documented in the previous century as so-called political 'folks' movements'." In regards to Captain Passion

(UU 2016.feb.05), - sexual biology is a cause to UnderConscience Sexual Games of the first degree. It is not bad luck, but the un-Conscience of some Drive factors can escalate to Games of higher degrees.

Paralyzing is most effective in RF flora and fauna, - as well as in humans' rivalries. The relation is further elaborated here. "Moreover, drugs and hypnosis do certainly influence human nerves, perceptions, psyche and behaviors. This is abused in Drive-related Games like predators do to their prey: This was explained and criticized in UU 2014.dec.19. "The categories of drugs are; psychedelic drugs like LSD and mescaline (hallucinogens), euphoria drugs like hashish, paralyzing drugs like morphine and heroin, in addition to central-stimulating drugs like amphetamine and illegal designer drugs like XTC (dopamine), (which is counter-dosed with legal anti-dopamine by the institutional psychiatry)." Furthermore: "The uses and abuses (of hypnosis) are far more common than the public realize, simply because the victims do not realize what happens at all. In fact, that is the whole point of NLP (Neuro-linguistic programming) and Games." To be direct - drug crimes are Games, - and so are most certainly NLP crimes too. It seems to be a social taboo, how the legal health system is abused by such illegal health crimes." This problem is elaborated and talked through in UU 2015.nov.06 and extra UU 2015.aug.28. The consequences of the present Dane psychocratic health-care is alarming, highly self-protective and needs healing.

There is a classic Game category called 'Underworld Games' that most certainly suites Tordenskjold Pirates. Actually, a new Game sub-category 'Pirate Games' is hereby introduced. This escalation of psychosocial Games provides tools to further investigate explain and possibly prevent the widespread and massive piracies of persons, organizations, nations and empires.

Anyways, what is Captain Surprise, - a solution or a disaster, - curing or harming? Ask any quacks, doctors, healers, shamans, psychiatrists, priests, witches, occultists, therapists and shrinks. We will never know for sure.

The Captain Guanabana drink relates to the curious jungles of South America. This recipe is also simple, - mix white rum, Guanabana juice and ice-cubes, - 1 to 4 for grape-wine ABV and 1 to 10 for beer ABV. (See links for more advanced Captains Passion drinks.) It is hard to find receipts for the fruit since it has 20-30 names like soursop, graviola, evo, mtomoko, anona, graviolo, corossol, kowosòl and pawpaw.

Some more fact about the fruit might be inspiring. "Guanabana is the fruit of *Annona muricata*, a broadleaf, flowering, evergreen tree native to Mexico, Cuba, Central America, the Caribbean islands northern South America and Africa. The flavor is a combination of strawberry and pineapple, with sour citrus flavor notes contrasting with an underlying creamy flavor reminiscent of coconut or banana. The fruit contains significant amounts of vitamin C, vitamin B1 and vitamin B2."

"Guanabana is widely promoted as an alternative cancer treatment. There is, however, no medical evidence that it is effective. The Memorial Sloan-Kettering Cancer Center cautions, "alkaloids extracted from graviola may cause neuronal dysfunction and degeneration leading to symptoms of Parkinson's disease". In 2010 the French food safety agency concluded that "it is not possible to confirm that the observed cases of atypical Parkinson syndrome (and are) calling for further study on potential risks to human health." "According to Cancer Research UK. "Many sites on the internet advertise and promote graviola capsules as a cancer cure, but none of them are supported by any reputable scientific cancer organisations" and "there is no evidence to show that graviola works as a cure for cancer" Similar conclusion is made by the Federal Trade Commission (USA) and the Cancer Research UK."

“Songs and sea shanties for pirates, sailors, fishermen and sea adventurers. I deliberately tried to stick to more serious pirate songs (is there such a thing as a serious pirate song??) and avoid most "kids' version" tracks, but I simply could not leave out some of the classics, like the Lazy Town song. Have fun with this list!”

Extra UU3 – film Hy Brasil Sinking

Erik the Viking, a comedy by Monty Python, was presented in the Extra UU3 2016.jan.15. The relation between the Vikings and Caribbean pirates are obvious in several ways. This time, the quest has reached the mythical island Hy Brasil. The wise woman Freya told him that one of the tasks was to acquire the Horn Resounding in the land of Hy Brasil. The etymology of the names Brasil and Hy Brasil is unknown, but believed to be a phantom island said to lie in the Atlantic Ocean west of Ireland. Despite the similarity, the name of the country Brazil has no connection to the mythical islands. That goes for the Viking myths of Zealand (Sjælland) too, which is said that the goddess Gefjun created the island Gylfaginning after she tricked the king of Sweden Gylfi. She removed a piece of land and transported it to Denmark, which became today's Zealand (Sjælland).

Hy Brazil is not like the Virgin Islands. However, even though not sinking, - it was certainly going down due to loss of support, denials and piracy. The relation to the present Captain Surprise is apparent, - as well as an introduction to the next Tordenskjold Pirate - Captain Coco.

Captain Passion (Shakespears Sister / Bob Marley - Could You Be Loved)

2016.feb.05

Ukens Utvalgte

Captain Passion is the 4th Tordenskjold Pirate, - and a drink based on the passion fruit. This captain is different misjudged in several ways since it is the female kind, - the piratess. Firstly, like the male pirates were bad luck and taboo amongst civilians and authorities, the piratesses were considered bad luck and taboo amongst most sailors, - including pirates. Besides, women do not expose their criminal ways and deeds like men do, but are rather cloaked, indirect and psychological. Moreover, pirate enterprising is complex and include land-based pirate activities too, - as found in harbors, pirate havens and bays, - that were women's domains. Lastly, there is a saying 'behind every great man there's a great woman', which certainly goes for the pirates too, - as spouses, lovers, employees and even piratesses like Captain Passion.

First, some general citations about piracy from Wikipedia. "Piracy is an act of robbery or criminal violence at sea. The earliest documented instances of piracy were in the 1400 BC in the Mediterranean. Those who engage in acts of piracy are called pirates. Predictable routes make opportunities for piracy, raiding and

privateering, - in similar ways as land based bandits. Privateers act under orders of a state with a legitimate form of war-like activity by outlaw freelancers. The term can include acts committed in the air, on land, on roads as well as at sea. Seaborne piracy against transport vessels estimated worldwide US\$16 billion per year in 2007)" In this sense, the term piracy applies most kind of raiding goods or money, including on trains, wagons, trucks and even planes, - and it is big business.

Concerning the piratess "While piracy was predominantly a male occupation, a minority of pirates were female. Female pirates, like other women in crime, faced gender and discrimination issues in both practicing this occupation and being punished for it. Pirates did not allow women onto their ships very often. In addition, women were often regarded as bad luck among pirates. It was feared that the male members of the crew would argue and fight over the women. On many ships, women (as well as young boys) were prohibited by the ship's contract, which all crewmembers were required to sign. Because of the resistance to allowing women on board, many female pirates did not identify themselves as such. Anne Bonny, for example, dressed and acted as a man while on Captain Calico Jack's ship. She and Mary Read, another female pirate, are often identified as being unique in this regard. However, many women dressed as men during the Golden Age of Piracy, in an effort to take advantage of the many rights, privileges, and freedoms that were exclusive to men."

The long tradition of piracy includes the Viking era. Most notable Norwegian female vikings are Rusila that fought against her brother Thrond for the thrones of both Denmark and Norway, - although it might be fictional and based on Ingean Ruadh (Red Maid) of Irish folklore. Stikla, the sister of Rusila, became a pirate to avoid marriage. Princess Sela, sister of king Koller of Jutland gave up the throne to become a pirate. Alvid, was the leader of a group of male and female pirates. The sea captains Wigbiorg died in battle, Hetha became queen of Zealand (Dane Sjælland) and Wisna that lost a hand in a duel. Elise Eskildsdotter was a noble who became a pirate to avenge the execution of her husband and operated outside the sea of the city of Bergen. Most notable piratess of in the golden age of piracy are Maria Lindsey, Maria Cobham, Ingela Gathenhielm, Anne Bonny, Mary Read, Mary Harvey, Mary Crickett, Flora Burn, Rachel Wall and Charlotte de Berry.

"Some women chose to marry pirates. These men were often very wealthy, but their wives tended not to gain wealth as a result of their marriages, as it was difficult for pirates to send home wages and booty earned overseas. These women's houses and establishments were often used as safe havens for pirates, who were considered enemies of all nations. Many women (and men) of the time were unable to perform the physically demanding tasks required of the crew." This fact, that piratesses mostly were housewives of some kind, leads back to the relation to Ludvig Holbergs comedies (UU 2016.jan.15). The stories are highly valued in Denmark, believing he was a Dane and that the comedies are about anyone else. The mentioned comedy 'Niels Klim's Underground Travels' described visiting a female regime and presents some moral philosophical aspect of that. However, the most known female character is Nille, which sets this focus on the piratess of the housewife caliber.

The Holberg comedies are based on his education in laws and ethics. A brief English presentation in Wikipedia says: "Jeppe på Bjerget (Jeppe of the Hill, or The Transformed Peasant) is a comedy by Ludvig Holberg from 1722. It has a special status in Danish theater. Playing Jeppe has a similar status to playing (Shakespeare's) Hamlet in English theater. The best known part is Jeppe's monolog, "Everybody says that Jeppe drinks, but nobody asks why Jeppe drinks", where the protagonist rationalizes his alcohol abuse as a sensible reaction to his miserable life." Such abuse and self-medication goes for any drug abuse as well. - escalated with the Triangle trade (UU 2016.jan.29). Just as relevant is a question could be "Everybody says Jeppe is a thrall, but no one asks what his real profession is". The reason for staying in the misery might be found in today's lyrics by Bob Marley, - presented by the Shakespeare Sisters in this UU.

Holberg pinpoints some important psychosocial issues. Jeppe is a peasant in the fictive province Bjerget at Zealand (Sjælland). He is the town's lowest ranking thrall that is humiliated and violated by his manager and his wife. He seeks comfort with self-medication by the local 'snaps-pusher', - which is just another round in the downwards spiral. Public plays rarely mention Nille's unfaithfulness although it is a main point

in the plot. One day, the baron and his servants decide to do a social experiment by manipulating Jeppe to believe he is the baron himself. Soon he alters to being despotic. He confiscates the baron's servants' gifts and payments, sentence the manager and children to death and initiates adultery with his wife. However, when back to his normal state, he soon enters the wicked circle of humiliation, self-medication and punishments. Still, this time, the baron realizes the causes to the consequences. His own lesson learned is that such sudden change will cause tyranny.

What to do, then? Considering some background, - Holberg came from Bergen which lost the capital status to Christiania (Oslo). Quite recently, he experienced the sudden and unexplained death of the naval hero Tordenskjold, who came from the first capital (Trondhjem). He might have made up his own mind about the present Dane regime that goes far beyond the comedy about Jeppe and Nille. Based on the comedy, one might think that the challenge was to change the cultural evolution from Homo erectus to Homo danus, - the submissive man, - like some Jeppe or Kold.

Anyways, in this UU, the focus is rather on Nille than Jeppe. No doubt, she was in serious frustration and stress about their unfair domestic situation. Soon the thrall's wife had to do the 'the oldest profession' and thereby became a 'frille' (sex-slave), in order to save the economy and household. However, there are two different reactions to such frustration, - violent extraversion or submissive introversion. Normally there are opposite gender reaction than in the play, but Holberg's view on Dane women's liberation is made comic. Moreover, the whip 'master Erik' is symbolic, since the male violence is rather physical and women's violence is rather mental. On the other hand, lack of love, might be as cruel as violence. Abuse of monogamy sex monopoly can cause unbearable frustrations, adultery, divorce and even rape. This is also a fundament of brothels and the breeding farms set up in Africa, America and even Asia.

Holmberg's comedy is a social criticism of the three social classes at the time, the thralldom, the middle-management and the superiors. Quite understandable, public presentation of a full-scale version of the comedy would not last for long. Consequently, it is made unclear what this well-educated Holberg really wanted the epilogue to tell. Yet, he discretely implies that they all are the same by putting Jeppe in all three roles. The final moral-philosophical statement from the 'baron' does not seem to be Dane or Dutch at all, - but rather of some new and higher authority, - like the newly declared Russian empire. The Russian orthodox patriarchal regime is fundamental in the Throne/Temple-alliance and oppose activities like the colonial Dane. The Dane thrall and piracy system in Africa and America would certainly soon suffer from CCD (Colony collapse disorder) if not handed over to the Dutch. They proved more effective in colonial management.

Holberg wrote the comedy just after the execution of Peter Wessel's and when Peter the Great declared Russia an empire. Dane management were from now on focused on the Baltic Sea and not the Atlantic. The Russian capital was moved from Moscow to St. Petersburg and the Winter Palaces became the tsar's and tsarina's resident. Such global re-arrangements caused opportunities and losses for several people and powers. Just as soon as that re-evolution started, - the planning for contra-revolution probably started too. With internet hindsight, it becomes clearer that new strategies were formed, - based on Moscow's cultural heritage initiated by the 'Pirates of the fourth Crusade' (UU 2014.april.25). A thought might have appeared - that the most effective mean for a contra-revolution would be to put a Dane royal piratess as tsarina in the Winter Palace.

The Captain Passion drink relates to the piratesses' of the Virgin Islands. This recipe is also simple, - mix white rum, passion juice and ice-cubes, - 1 to 4 for grape-wine ABV and 1 to 10 for beer ABV. (See links for more advanced Captains Passion drinks.)

Some more facts about the passion fruit might be inspiring. "Passiflora edulis is a vine species of passion flower that is native to Brazil, Paraguay and northern Argentina. The passion fruit is a pepo, a type of berry, round to oval, either yellow or dark purple at maturity, with a soft to firm, juicy interior filled with numerous seeds. It is cultivated commercially in tropical and subtropical areas for its sweet, seedy fruit and is widely grown in several countries of South America, Central America, the Caribbean, Africa, Southern

Asia, Vietnam, Israel, Australia, South Korea, Hawaii and the mainland United States. The passion fruit is so called because it is one of the many species of passion flower. Several distinct varieties of passion fruit with clearly differing exterior appearances exist.”

“In Australia and New Zealand, where it is called passionfruit, it is available commercially both fresh and tinned. It is added to fruit salads, and fresh fruit pulp or passion fruit sauce is commonly used in desserts, including as a topping for cakes and ice cream. It can be used in some alcoholic cocktails. It is even more widely used in for food and drinks in the South American Brazil, Colombia, Dominican Republic, Mexico, Paraguay, Peru, Puerto Rico and consequently Portugal.”

“The fresh passion fruit is highly nutritious and contains vitamin C (36%), dietary fiber (42%), B vitamins riboflavin (11%) and niacin (10%), iron (12%) and phosphorus (10%) in significant percentages of the Daily Value (right table). However, it is also very sensitive to several types of viruses, bacteria, - and fungus and thereby extra fragile, - like piratesses.”

Bob Marley and the Wailers were a Jamaican reggae band and, earlier, a ska vocalist group created by Bob Marley, Peter Tosh and Bunny Wailer. "Could You Be Loved" was released in 1980 on their last album Uprising and is included on Bob Marley & The Wailers greatest hits album Legend. In the middle of the song, background singers quote a verse from Bob Marley's first single "Judge Not": "The road of life is rocky; And you may stumble too. So while you point a finger, someone else is judging you".

Shakespears Sister is a pop-rock act, formed by Irish-born singer–songwriter Siobhan Fahey in 1988, and based in the United Kingdom. Initially, Shakespears Sister was Fahey by herself but, from 1989, the act became a duo with the addition of the American musician, Marcella Detroit. Together they released two Top 10 albums and a string of Top 40 hits.

Shakespears Sister was conceived as a solo project by Siobhan Fahey, who left the successful girl-group Bananarama in 1988 due to disillusionment with the group's musical direction. The name was adapted from the title of the song "Shakespeare's Sister" by The Smiths, which was in turn a reference to Virginia Woolf's work A Room of One's Own.

Extra UU2 – Playlist The Rogue Lady Song Collection

This is a very incomplete list I think. Recently, I've been playing with a lot of rogue/bandit/thief/gunner characters and I kept searching for good rogue songs, but it's awfully difficult to find any good ones. Anyway, so far these are my favorite female fighter/bandit/rogue etc songs. Lots of girl power songs, I guess, but then, they fit these characters quite well.

Extra UU3 – Ludvig Holberg's comedy: Jeppe på Bjerget

Jeppe på Bjerget (English: Jeppe on the mountain / The transferred peasant') is a comedy by Ludvig Holberg from 1722. It has a special status in Danish theater. Playing Jeppe has a similar status to playing Hamlet in English theater. The best known part is Jeppe's great monolog, "Everybody says that Jeppe drinks, but nobody asks why Jeppe drinks" (or dope), where the protagonist rationalizes his alcohol abuse as a sensible reaction to his miserable life." Such abuse and self-medication goes for any drug abuse as well. - escalated with the Triangle trade.

Captain Coca (The Andrews Sisters - Rum and Coca Cola)

2016.jan.29

Ukens Utvalgte

Capatin Coca is the third Tordenskjold Pirate – and a drink as well. The main association is the infamous trafficking of drugs between America, Africa and Europe. As mentioned, Tordenskjold started out as a ships boy on the Trade Triangle and must have been considerably influenced by the cultures, persons and events he encountered, - even the Caribbean pirates. The most mentioned commodities were cotton, sugar, bananas and thralls. Less mentioned are tobacco, weapons and rum. Merely mentioned is that today's massive drug-traffic started with the first shipments. Tobacco was imported from native America to high-society Europe. Marijuana was exported from Africa and became a foundation to the Caribbean relaxed Rastafari culture. The most valuable drugs of all, cocaine, is hardly mentioned at all, although already known to Europeans for over 100 years. This illegal trade seems to be as secret as the origin of the drink Coca Cola itself.

The Trade Triangle is described in Wikipedia. "The first leg of the triangle was from a European port to Africa, in which ships carried supplies for sale and trade, such as copper, cloth, trinkets, slave beads, guns and ammunition. When the ship arrived, its cargo would be sold or bartered for slaves. On the second leg, ships made the journey of the Middle Passage from Africa to the New World. Many slaves died of disease in the crowded holds of the slave ships. Once the ship reached the New World, enslaved survivors were sold in the Caribbean or the American colonies. The ships were then prepared to get them thoroughly cleaned, drained, and loaded with export goods for a return voyage. The third leg, to their homeport, from the West

Indies the main export cargoes were sugar, rum, and molasses; from Virginia, tobacco and hemp. The ship then returned to Europe to complete the triangle." Hemp is a commonly used term for high-growing industrial varieties of the cannabis plant and its products, like fiber, oil, and seed. Molasses, or black treacle, is a viscous by-product of the refining of sugarcane or sugar beets into sugar. Molasses might very well be the basis of the original secret Coca Cola syrup.

(Translated from UU 2013.Juli.26.) "The illegal side of the trade triangle (EU-AU-US) is still active, - now with narcotics. AU (African Union) has become one of the world's transit-lands for most kinds of narcotics. One can certainly ask if this is just of recent dates. It is however unlikely that the most valuable commodities from America to Europe was exclusively cotton and sugar. It is well known that cocaine always have existed, that it was widespread in America and probably tempted Europeans at that time as well as now. One can certainly ask if the 'bleeder illness' in the British, German and Russian thrones was merely genetic, or if it also was due to overconsumption of the south American 'wonder medicine' cocaine. The trade from Europe to Africa is neither fully described. It was weapons, used to ensure positions and resources on the African west coast and certainly at the American east-coast as well."

Coca Cola is the main ingredient for the drink Captain Coca. The history of its origin tell a lot about today's legal and illegal production and trade of drugs. "Coca-Cola is a carbonated soft drink and is often referred to simply as Coke, - a registered trademark. Originally intended as a patent medicine when it was invented in the late 19th century and became the dominant world soft-drink. The name refers to two of its original ingredients: kola nuts, a source of caffeine, and coca leaves. The current formula of Coca-Cola remains a trade secret, although a variety of reported recipes and experimental recreations have been published. Pemberton called for five ounces of coca leaf per gallon of syrup, a significant dose; in 1891, Candler claimed his formula (altered extensively from Pemberton's original) contained only a tenth of this amount. Coca-Cola once contained an estimated nine milligrams of cocaine per glass. In 1903, it was removed. After 1904, instead of using fresh leaves, Coca-Cola started using "spent" leaves – the leftovers of the cocaine-extraction process with trace levels of cocaine. Since then, Coca-Cola uses a cocaine-free coca leaf extract prepared at a Stepan Company plant in Maywood, New Jersey." "In the United States, the Stepan Company is the only manufacturing plant authorized by the Federal Government to import and process the coca plant, which it obtains mainly from Peru and, to a lesser extent, Bolivia. Besides producing the coca flavoring agent for Coca-Cola, the Stepan Company extracts cocaine from the coca leaves, which it sells to Mallinckrodt, a St. Louis, Missouri, pharmaceutical manufacturer that is the only company in the United States licensed to purify cocaine for medicinal use." "Long after the syrup had ceased to contain any significant amount of cocaine, in the southeastern U.S., "dope" remained a common colloquialism for Coca-Cola, and "dope-wagons" were trucks that transported it."

The history of coca is far older than for cola. "For over a thousand years South American indigenous peoples have chewed the leaves of *Erythroxylon coca*, a plant that contains vital nutrients as well as numerous alkaloids, including cocaine. The coca leaf was, and still is, chewed almost universally by some indigenous communities. The remains of coca leaves have been found with ancient Peruvian mummies, and pottery from the time period depicts humans with bulged cheeks, indicating the presence of something on which they are chewing. There is also evidence that these cultures used a mixture of coca leaves and saliva as an anesthetic for the performance of trepanation."

"When the Spanish arrived in South America, most at first ignored aboriginal claims that the leaf gave them strength and energy, and declared the practice of chewing it the work of the Devil. But after discovering that these claims were true, they legalized and taxed the leaf, taking 10% off the value of each crop. In 1569, Nicolás Monardes described the indigenous peoples' practice of chewing a mixture of tobacco and coca leaves to induce "great contentment. When they wished to make themselves drunk and out of judgment they chewed a mixture of tobacco and coca leaves which make them go as they were out of their wittes. In 1609, Padre Blas Valera wrote: Coca protects the body from many ailments, and our doctors use it in powdered form to reduce the swelling of wounds, to strengthen broken bones, to expel cold from the body or prevent it from entering, and to cure rotten wounds or sores that are full of maggots. And if it does

so much for outward ailments, will not its singular virtue have even greater effect in the entrails of those who eat it?"

Today, the Triangle trade of drugs is definitely illegal in most nations and states. As described in Wikipedia. "The beginning of the 21st century saw a drug use increase in North America and Europe, with a particularly increased demand for marijuana and cocaine. As a result, international organized crime syndicates such as the Sinaloa Cartel and 'Ndrangheta have increased cooperation among each other in order to facilitate trans-Atlantic drug trafficking. Another illicit drug with increased demand in Europe is hashish, which is generally smuggled from Morocco to Spain, where it is later exported to its final markets (mostly France and Western Europe)." Today's Mesoamerican/Caribbean drug-wars are expanding in Europe, since US started effective collaboration with the Mexican authorities and the European prices are twice on cocaine.

Copenhagen at Zealand (Sjælland) was also a major link between the Atlantic and Baltic seas and became the major Nordic port for the Triangle trade. The empirical city-state were thereby influenced of many Baltic cultures as well as Caribbean and African. The naval fortress 'Christiania' as well as the flagship Christianus Quintus, - was named after the imperial king Christian IV. However, the cold war policies converted this military stronghold to a 'pirate haven' for perverted versions of Caribbean Rasta cultures, with openly illegal drug trade and abuse, - mixed with political dilutions. National authoritative interferences seems symbolic and rather express acceptance or inferiority to the powerful gangs of drug pirates, - gangs on slippers and gangs on bikes.

The close relation to the Russian feudal empire is obvious. Tsar Peter the Great proclaimed Russia an Empire in 1721, the year after Tordenskjold died. St. Petersburg became the imperial capital and the dominant power of the Baltic Sea. Consequently, Denmark managed to restore control of the parts of Schleswig and Holstein at the German border in the Great Northern War. Denmark prospered greatly since it was allowed to trade rather freely. However, all the Triangle trade must have been remote controlled from Winter Palace. Looking at its spectacular appearance and the poor backland, there is no doubt that most the best from the New World was consumed in St. Petersburg.

The exaggerated consumption included the new wonder medicines, - like cocaine, marijuana and rum. Therefore, there are reasons to question if the nose bleedings amongst royalties was merely genetic or also consequences of overconsumption of 'untested medicines'. Cocaine, marihuana and rum were used as medicine at that time, but all of them are considered to cause serious physical and psychiatric damages today. This altered views in the pharma industry is alarming, both for all related people at that time, - as well as todays questionable medical treatments. How is the illegal and legal pharmacy piracy today? This issue will be talked through in the UU about Captain Guanabana, based blogs like UU 2016.jan.15, UU 2015.aug.28 and UU 2014.aug.01.

The Captain Coca drink relates to the pirates' Triangle trades. The recipe is basically like Cuba Libre, a mix of rum, coca cola, lemon and ice-cubes, - 1 to 4 for grape-wine ABV and 1 to 10 for beer ABV. (See links for more Captains Coca drinks.)

In addition to the previous description of coca, the lemon fruit itself has some history that might inspire. "The yellow fruit is used for primarily for its juice, which has both culinary and cleaning uses. It is about 5% citric acid. The distinctive sour taste of lemon juice makes it a key ingredient in drinks and foods such as lemonade and lemon meringue pie. The origin of the lemon is unknown, though probably first grown in India, Burma or China. A study of the genetic origin of the lemon reported it to be hybrid between bitter orange (sour orange) and citron. (Note that the hybrid lemon is often mistakenly called citron that is a large fragrant citrus fruit.)

"Lemons entered Europe near southern Italy no later than the first century AD, during the time of Ancient Rome and later to Persia and Iraq and Egypt around 700 AD. It was distributed widely throughout the Arab world and the Mediterranean region about 1000 AD. The first substantial cultivation of lemons in Europe began in Genoa in the middle of the 15th century and to the Americas in 1493 with Christopher Columbus.

Spanish conquest throughout the New World helped spread lemon seeds. It was mainly used as an ornamental plant and for medicine." "In 1747, James Lind's experiments on seamen suffering from scurvy involved adding lemon juice to their diets, though vitamin C was not yet known. Lemons are a rich source of vitamin C, providing 64% of the Daily Value in a 100 g serving (table). Other essential nutrients, however, have insignificant content." Citrus was definitely important nutrition at sea where vitamin C was scarce.

"Rum and Coca-Cola" was a popular calypso song and became a huge hit in 1945 for the Andrews Sisters, with ten weeks at the top of Billboard's U.S. Pop Singles chart. The song was published in the United States with Amsterdam listed as the lyricist and Jeri Sullavan and Paul Baron as musical composers. 'Lord Invader', the original writer of the lyrics, was furious about the abuse of his song and said: "I happened to see the G.I.s in the American social invasion in the West Indies, Trinidad. You know the girls used to get the candies and stuff like that, and they go to the canteens with the boys and so on, have fun. So I noticed since the G.I.s came over there, they really generally chase with soda, ordinary soda, but their chaser was Rum and Coke. They drink rum, and they like Coca-Cola as a chaser, so I studied that as an idea of a song." The Amsterdam's version strips the song of its social commentary. The Lord Invader version laments that U.S. soldiers are debauching local women, who "saw that the Yankees treat them nice / and they give them a better price." Its final stanza describes a newlywed couple whose marriage is ruined when "the bride run away with a soldier lad / and the stupid husband went staring mad." The Amsterdam version also hints that women are prostituting themselves, preserving the Lord Invader chorus that says, "Both mother and daughter / Working for the Yankee dollar.

Extra UU1 – Captain Teague & Sparrow

The tales of 'Captain Sparrow' are specular and famous. That the ways it goes with Disnifications of ancient folktales. However, the concept was well established before the acquisition. Johnny Depp's influenced of the character had to be continued even though there must have been considerable objections amongst the new owners. Depp started out in the TV-series 21 jump street where he played an undercover youth anti-drug police-agent. However, he had to become an addict in order to infiltrate the 'pirate' organization. Yet, the history behind Captain Sparrow is not clear, - except that he always seems continuously drunk and drugged, - presumably on Rum & Coca. Therefore, Depp's choice of father was Keith Richards. No man is more natural for that than this Rolling Stone.

Extra UU2 – Dane reggae

There is a considerable Dane reggae culture related to Christiania in Copenhagen. “Dane Caribbean music is dominated by Reggae music and Christiania culture, where even Bob Marley held a concert in 'Den Grå Hal'. However, the 'free-state' Christiania is mostly know for hippie cultures where illegal drugs are sold for a billion kroner annually at the 'pusher-street'. Despite the peaceful appearance, gangs like Hells Angels appears when the business is in trouble.” (Extra2 to UU 2016.jan.15).

This playlist relates more to the drug cultures, that rather promotes marihuana than cocaine.

Extra UU3 NFL1 chapter 4.2 – Teotihuacán (Coca)

The story NFL1 (NewFound Land) was introduced in the extra2 to UU 2016.jan.08. As mentioned, the Greenland colony traveled far, - actually as far as the Caribbean. They even were introduced to the Mesoamerican cultures and what is related to Captain Coca.

Chapter 4.2 Teotihuacán

“They both went to the king to pay him a visit the next day. They had to wait a long time again, but got their unofficial audience. There was a long time with small talks. Harald managed to hide his impatient for the king, but Thorvald knew. Eventually he turned the talks into the issue of the aqueduct. The king showed great interest. But the visitors showed sad faces. It seemed that the king was not surprised at all. He called for a servant and gave him an order. Meanwhile, he offered them some refreshing drink. The king smiled and nodded, as he was telling them something. He pointed at the sun and then the drink. They all nodded in understanding. The servant came with a branch of leaves. Coca, he said. He crushed a bit in their cups and took a sip of his own cup. The guest did the same. Soon they understood the problem and the solution. The workers did not merely need water. They needed coca in order to do the work properly. That was not merely a need, but also a required payment.”

Captain Banana (Harry Belafonte - Banana Boat Song)

2016.jan.22

Ukens Utvalgte

Captain Banana is the second Tordenskjold Pirate – and a drink. The main association is the infamous trafficking of thralls between America, Africa and Europe. As mentioned, Tordenskjold started out as a 15 years old ships boy on Christianus Quintus (Christian IV), a large 90 gun ship, that was used as a 'slave-ship' to the Caribbean. However, present public history over-focus on the African trafficking to the Virgin Islands, - despite the fact that the Arabians always have dominated that inhuman business. Similarly, that particular murky thralldom is called 'slavery' despite the fact that no Slavs were in bondage. Anyways, that illegal 'pirate' enterprise caused the whole Dan-nor colonial culture to literally go bananas.

Once again the article 'A Brief History of the Danish West Indies' is cited for historical backgrounds. “It had turned out that the (native) Indians were not suitable for the hard work in the plantations, and it was almost impossible to persuade Danes to go to the West Indies in order to work. Therefore, like in the rest of the Americas, Negro slaves were imported from Africa. The so-called Middle Passage from Africa across the Atlantic was terrifying to the slaves, conditions onboard were dreadful and the mortality high. (For example, the ship) Fredensborg took 265 Negro slaves onboard in Africa, 24 of whom died on route across the Atlantic. Conditions for the enslaved Africans in the West Indies were harsh.”

“Many slaves tried to escape from their masters into the bush, they went maroon. An everlasting source for anxiety among the white population was the imbalance between the number of free and the number of slaves. Thus, on Saint Thomas in 1725 there lived 324 whites as opposed to 4,490 blacks. The proportion was the same in Saint Jan (today’s St. John) where a slave rebellion took place in 1733. The small Danish garrison was killed together with many other whites, while many plantation buildings and sugar fields were burned or destroyed. Most of the rest of the white inhabitants fled from the island, which was under control of the slaves for almost a year, until they were killed or defeated and thereupon strongly punished. Although the slave trade was abolished in 1803, slavery itself was not abolished until 1848, after several mass slave escapes to the free British islands and an ensuing slave protest.”

“The Danish Virgin Islands were also used as a base for pirates. The British and Dutch settlers became the largest non-slave groups on the islands. Their languages predominated, so much so that the Danish government, in 1839, declared that slave children must attend school in the English language. The colony reached its largest population in the 1840–50s, after which an economic downturn increased emigration and the population dropped, a trend that continued until after the islands' purchase by the United States. The Danish West Indies had 34,000 inhabitants in 1880.”

It seems that the agenda for the Virgin Islands was altered to something that the Dane-Nor settlers would not be involved in. The business changed from farming animals to farming humans. These events also indicates why the calypso music and culture change to the rebellious reggae (see the previous UU 2016.jan.15).

Additionally, from Wikipedia. “Laws and regulations in the Danish West Indies were based on Denmark’s laws, but the local government was allowed to adapt them to match local conditions. For example, things like animals, land, and buildings were regulated according to Danish law, but Danish law did not regulate slavery. Slaves were treated as common property, and therefore did not necessitate specific laws. In 1733, differentiation between slaves and other property was implied by a regulation that stated that slaves had their own will and thus could behave inappropriately or be disobedient. The regulation also stated that the authorities were to punish slaves for participating in illegal activity, but many owners punished slaves on their own. There was a consensus that if the slaves were punished too hard or were malnourished, the slaves would start to rebel. In 1755, Frederick V of Denmark issued more new Regulations, in which slaves were guaranteed the right not to be separated from their children and the right to medical support during periods of illness or old age. However, the colonial government had the ability to amend laws and regulations according to local conditions, and thus the regulations were never enacted in the colony, on grounds that it was more disadvantageous than advantageous.”

“By 1778, it was estimated that the Danish were bringing about 3,000 Africans to the Danish West Indies yearly for enslavement. At the end eve of the 1800 the Danes had imported about 20 000 African Negroes leaving merely 1000 free blacks and 2000 whites on Saint Croix. When Denmark abolished slavery in 1848, many plantation owners wanted full reimbursement, on the grounds that their assets were damaged by the loss of the slaves, and by the fact that they would have to pay for labor in the future. The Danish government paid fifty dollars for every slave the plantation owners had owned and recognized that the slaves' release had caused a financial loss for the owners. However, the lives of the former slaves changed very little. Most were hired at the plantations where they had previously worked and were offered one-year contracts, a small hut, a little land and some money. As employees, former slaves were not plantation owners' responsibility and did not receive food from their employers.”

Trafficking and thralldom is a recurring issue in UU since it represent the very anti-thesis to the UU definition of LifeQuality (UU 2014.okt.17). «The Arabian ‘slave-trafficking’ in Africa was, and still is, comprehensive. The trafficking of slave to America was a fraction of all the Africa ‘slavery’ all together. At that time, the thrall trafficking included also over a million white Europeans, inclusive islandic people. White slavery was made possible with converted white Europeans as intermediaries. However, finally, in 1815, after the fall of the Napoleon regime, Europe (organization) banned slavery, and the liberation of Norway as a sovereign nation. Arabia, on the other hand, have never ended slavery.” (See UU 2013.Juli.26.)

The Dane movie 'The Gold Coast' illustrates several related issues. The Gold Coast at North West Africa, Ghana, is where Negro people were traded as thralls and exported to the Caribbean. There were the Gold Coast, the Slave Coast, the Pepper Coast (or Grain Coast) and the Ivory Coast. The involved nations were the British, Prussian/German, Dane-Nor, Dutch, Portuguese and the Swedes. The Danish Gold Coast was colonized under indirect rule by the Danish West India Company and later as a crown colony of the kingdom of Denmark-Norway. After the liberation of Norway as a sovereign state in 1814, the five Danish Gold Coast Territorial Settlements and forts were sold to the United Kingdom in 1850."

The movie is a masterpiece in several ways (Extra UU1). The mood is like the movies 'Apocalypse now' without the modern warfare. Europe banned slavery and Danes want to convert to farming. Yet, appearance and reality was not the same. Some aspects at the Gold Coast were probably relevant for the Virgin Islands in the Caribbean too, - like: Religious conversion was prioritized as high as work training. Thralls were considered properties like any animal and claimed that they could not feel pain. There were considerable tribal rivalries and sabotages at the farms. Slavery continued as organized crime after the European ban. Negros were trained in modern warfare and used as soldiers. Rivals might have figured that St. Jan turned out to be an inter-racial breeding farm for soldier to the imminent imperial wars of America. Present Dutch policies on the issue is evidently in South Africa, - racial domination and no interbreeding for hybrids.

'Paradise Lost' is an image from the movie "1492: Conquest of Paradise". The history of Dan-Nor Virgin Islands make similar images. Still, such hindsight is not to adopt the Dan-Nor Jante mentality (i.e. 'you shall not think you are better than us'). Still, the project failed in fatal ways that seem to be due to disrespect for pan-European laws, wishful thinking and mismanagement. It seems that the Dane-Nor settlers disapproved the change in priorities - and played social-psychological Games like 'Want Out'. As cited, some turn of events are apparently: It was hard to get the Danes to run the colonies. The Dutch and Brits became the managing majority. The Virgin Islands eventually became some Pirates' bays in the Caribbean. On the other hand, as mentioned in the introduction, - this is similar to the attitude, the Games and the outcomes of the recent Dane rejection of the Europol/Eurojust cooperation with the other European nations. With hindsight, it seems obvious that there were far larger powers' schemes at work in the Caribbean Virgin Islands and Norden, - as well as Europe and America.

The Captain Banana drink relates to the African-Caribbean cultures, - a summer drink for leisure and relaxation - after a hard day's work. The recipe is simple, - mix white rum, banana juice and ice-cubes, - 1 to 4 for grape-wine ABV and 1 to 10 for beer ABV. (See links for more advanced Captains Banana drinks.) Some facts about the rich history of bananas might inspire. "The banana is a fruit, botanically a berry and variable in size, firmness and the color green, yellow, red, purple, or brown. Most commercialized bananas are seedless and usually soft, sweet, dessert bananas In the Americas and Europe. Southeast Asia has far more kinds and they are grown in at least 107 countries, - primarily for the fruit, but also to make fiber, wine and beer. Bananas were first cultivated in Asia about 5000 BCE, about 1000 BCE in Madagascar and widespread in Africa about 1000 AD mainly by Muslims. The Christian Cyprus cultivated banana in 1500 AD and was brought to America soon after. Bananas are an excellent source of vitamin B6 and contain moderate amounts of vitamin C, manganese and dietary fiber. Ripe bananas can contain serotonin, dopamine and norepinephrine." If this isn't inspiring, - try the 9 ways to peel bananas.

Harold George "Harry" Belafanti, jr. is an American singer, songwriter, actor, social activist, - and one of the most successful Caribbean American pop stars in history. His breakthrough album Calypso (1956) is the first million selling album by a single artist. Belafonte is famous for singing "The Banana Boat Song", with its signature lyric "Day-O". Belafonte was an early supporter of the Civil Rights Movement in the 1950s and '60s, and one of Martin Luther King, Jr.'s confidants. Throughout his career, he has been an advocate for political and humanitarian causes, such as the anti-apartheid movement and USA for Africa. Belafonte has been a UNICEF Goodwill Ambassador since 1987, has won three Grammy Awards, the Kennedy Center Honors, the National Medal of Arts and the Jean Hersholt Humanitarian Award.

Extra UU1 'The Gold Coast' trailer

'The Gold Coast' is like the African port to the slave trafficking to America and Dan-Nor Virgin islands.

"In 1836 the Danish romantic visionary Wulff travels to Africa to create plantations on the Gold Coast, but his best intentions and belief is soon confronted with a harsh reality dominated by slave trade and unbelievable brutality. The Gold Coast (Guldkysten), is a dense and visceral exploration of a dark time in European history, namely the Danish involvement in the slave trade on the African coast during the 1830s. Undoubtedly a politically charged affair, this film is also an intense portrait of obsession and individual morality."

Extra UU2 Natasja - Op med ho'det

Natasja Saad, alias Dou T' and Little T, was a Danish rapper and reggae singer. While rather successful in Denmark, her vocals on a popular reggae fusion remix of "Calabria" gained her worldwide fame and a number one spot on Billboard's Hot Dance Airplay chart six months after her death in a car accident in Spanish Town, Saint Catherine, Jamaica. The accident was as a considerable loss for Denmark's music and entertainment world, because she still stood before a career. Natasja is buried at Copenhagen's cemetery for artistic and pioneering personalities, like H.C. Andersen, Søren Kierkegaard and Niels Bohr.

Extra UU3 Muppets in the Navy

No doubt, the ill reputation of ancient Nordic culture still entertains. It is a complex issue including the discovery of America, concurring of land, theocratic assimilation of both Islam and Christianity. It is almost like an ancient relation to Captain Banana and the murky enterprises of thrall trafficking. The Muppet show prioritized the issue and put extra efforts into this video. An interpretation of this video is that all slave-traders are swine, - including the Norse, Christian, Jewish or Muslim.

The Muppets associates that trafficking to military recruiting or drafting. It seems that anything goes 'muppetizing', - just like that the original song 'In the NAVY' actually promotes massive homosexual recruiting to the American Navy.

Captain Mango (David Lewis Luong - Relaxing Summer)

2016.jan.15

Ukens Utvalgte

Captain Mango is the first Tordenskjold Pirate to be introduced. The association is the Caribbean cultures, as we might know it. The 350 years Dan-Nor Caribbean cultures have not vanished, even though the islands were sold a century ago. The cultures still exist in several ways, however evolved, integrated and even assimilated. As inspiration, this week's music theme of Caribbean relates to mango drinks, relaxation, privacy, and even rebellions, - like some Dane reggae.

This first of the eight pirates will set the focus on some cultural roots from the Dan-Nor Caribbean cultures, - and how that relate to the concept of Tordenskjold Pirates. The following citations are based on the article 'A Brief History of the Danish West Indies, 1666-1917', - where term 'Danes' should refer to the Dane-Nor union at that time. "In the wake of Netherlanders, Englishmen and Frenchmen, the Danes started sailing to the Caribbean. At the beginning as crew members onboard foreign vessels, but from the 1640s under the Danish flag. The Danes were particularly interested in the island of Saint Thomas which was not expressly claimed by any other European nation and which was favoured by an excellent natural harbour."

"The Danes settled Saint Thomas in 1666. After one-and-a-half year, the surviving Danes gave up their plans and temporarily left the island. However, Dane activities became effective in 1671, when the Royal Chartered Danish West India and Guinea Company was founded. The Company was given a royal charter, granting it a national monopoly as well as several other favors. The Danes occupied Saint Thomas, built Fort Christian to protect the natural harbour and the town Charlotte Amalie. Efforts centered on the founding of plantations of tobacco, sugar and cotton, and to establish of trade links. Allotment of land attracted people of various nationalities. In 1688 there were 338 free inhabitants and 392 were slaves, while 45 % were Dutch and 13 % Danes. Immigration was relatively high due to the socially tolerant and politically neutral Danish West Indies." It might not be relevant, but 1666 is the year that the British capital London was burned.

"Denmark stayed neutral during the many great wars, especially the Revolutionary and Napoleonic Wars. The harbour of Charlotte Amalie was opened to ships of all nations. The island became a commercial center for goods from all over the region. However, Denmark became involved in war with Great Britain and the three islands were occupied by the British in 1801-02 and 1807-15 without any military resistance. In belated response, the Dane soldiers increased to 400, in addition to the local burgher militia. However, the colony did not handle economic balance and got serious problems since the Company's insistence that all trade was handled by its own personnel and ships." There was a permanent tension between GB and Danes even though these events happened the century before and after 1700. Intriguingly, the Dane and English flags are made opposite, - and the meaning of the letter 'I' is also defined quite opposite (i.e. 'me' in English and 'you' in Danish). Furthermore, it seems that the Danes and the Dutch were not as independent as history indicates, but rather contractors for larger powers.

In the early 1700, there were tactical and strategic positioning and arms races towards the American civil war and revolution, as well as the European napoleon wars. This indicates some reasons for growths, conflicts and even piracy. In fact, pirates were hired like 'soldiers of fortune' to pillage and sabotage rivals' bases, trade and cultures. Therefore, it is understandable that there were unrest, uprisings, and immigrations, since most people were foreign thralls and workers. They probably were not treated as

expected and occasionally tempted by rivals' crews. The ill-reputed Dane Jante culture might have originated at St Jan, - i.e. present St. John. (This culture is often talked through in the previous UU 2014.juli.11, UU 2014.aug.01 and UU 2015.feb.27.) In this relation, the reggae culture and music of 1960 promotes resistance, uprising and drugs. However, the culture is probably far older than the music.

Anyways, - the expression 'Tordenskjold Pirates' (Tordenskjolds Pirater) is derived from one of his most reputed cons (confidence tricks) called 'Tordenskjolds Soldiers' (Tordenskjolds Soldater). The myth says that he, in order to make an impressive scene, ordered his small number of soldiers to parade in town. However, the soldiers went several rounds and made the illusion that they were far more soldiers than true. It is unknown if this was typical pirate-con in the Caribbean, though. Anyways, the story is quite in the spirit of Holberg's comedies.

Danes consider Holberg a Dane, but he came from the second Norwegian capital, Bergen. He had clear outsider's views on Dane culture, which mostly reach through to the Danes as comedies. "Ludvig Holberg, Baron of Holberg (1684 –1754) was a writer, essayist, philosopher, historian and playwright born in Bergen, Norway, during the time of the Dano-Norwegian double monarchy, who spent most of his adult life in Denmark. He was influenced by Humanism, the Enlightenment and the Baroque. Holberg is considered the founder of modern Danish and Norwegian literature, and is best known for the comedies. Holberg's works about natural and common law were widely read by many Danish law students over two hundred years. His rich output of comedies during the middle period was shaped by his role as house dramatist at Denmark's first public theater, opened in Copenhagen in 1721."

Although never being to the Caribbean, Holberg certainly traveled much and encountered various cultures. The comedy 'Niels Klim's Underground Travels' is not amongst the famous, but it is like a utopian version of 'Alice in Wonderland'. "During the course of the book, Klim vividly chronicles the culture of the Potuans, their religion, their way of life and the many different countries located on Nazar. He is appalled by the fact that men and women are equal and share the same kind of jobs, so he files a suggestion to the Lord of Potu to remove women from higher positions in society. His suggestion is poorly received and he is sentenced to be exiled to the inner rim of the Earth's crust. There he becomes familiar with a country inhabited by sentient monkeys, and after a few years he becomes emperor of the land of Quama, inhabited by the only creatures in the Underworld that look like humans."

This comedy was probably made in response to traditional attitudes towards genders and races. It probably caused contraversive debates and responses, - even as far away as the Caribbean islands. The issue of women's equality was far less controversial in Norden than in catholic southern Europe, women had to run the domestic affairs when their men traveled. Consequently, women could be domestically more powerful than men. Such arrangements were settled before Christianity and was partly normalized after the 30 years catholic/protestant war. On the other hand, some other cultures were far more integrated and less hostile toward other races, - and did not call them 'monkeys'.

Holberg should rather be honored as a philosopher than a comedian, and Tordenskjold should have trained sabre fencing as well as gun fighting. The two, a pen and a sword, might turn out as torches under altered circumstances, like this UU Theme's meme indicates. Such philosophical metaphors will be a part of the adventures of the remaining seven Tordenskjold Pirates too. They might get some human qualities too, even though labelled outlaws. For 'outlaw' is a relative term, - dependent on who's regime dominate the area at the given time. Focus will also be set on main dilemmas to all the Drives, Wills and Beliefs of the rivaling cultures, laws and ethics. The complex Caribbean situations made it impossible for anyone to practice values of Good, Constructive and Right. Consequently, BGGG Games (Bad Guy Good Guy) seem to be the destined outcome, - as for Captain Morgen who was a pirate to the Spain before he became the governor of Jamaica. (Games are described in UU 2014.sept.12. The 3x3 model and the relation of Belief (B) to Will (W) and Drive (D) is described in UU 2014.dec.19. The Values system GCR (Good/Constructive/Right) is described in UU 2015.mars.06 and UU 2013.mars.15.)

There was no democracy, as we know it, on the Virgin Islands at that time. The majorities were always thralls in the uncivilized colonies and they were under tough territorial rivalries. Consequently, there was unrest and sometimes riots or exoduses. The great varieties of Caribbean music shows this in some common expressions, to their masters, to slow down and relax, - as well as the Reggae certainly promote threats of riots.

Anyhow, the Columbus expedition in 1492, named the Virgin Islands. The reason for such naming could be Catholics' honor to St. Mary. However, in most cases, eventually, destiny cause loss of such. With today's hindsight, 'virginity lost' is a proper metaphor in so many ways. Even a provincial ships-boy on such an unexpended expeditions could not ever be the same when returned, - neither other adventures, like some Tordenskjold Pirates, - like Monty Python's Eric the Viking (see extra UU3)

The Captain Mango drink is associated to cultures of Caribbean music, - a summer drink for Leisure and relaxation. The recipe is simple, - mix white rum, mango juice and ice-cubes, - 1 to 4 for grape-wine ABV and 1 to 10 for beer ABV. Some facts about the mango might inspire. "The mango is a juicy stone fruit (drupe) belonging to the genus *Mangifera*, consisting of numerous tropical fruiting trees, cultivated mostly for edible fruit. Mango is used to make juices, smoothies, ice cream, fruit bars, raspados, aguas frescas, pies, and sweet chili sauce, or mixed with chamoy, a sweet and spicy chili paste. It is popular on a stick dipped in hot chili powder and salt or as a main ingredient in fresh fruit combinations. In Central America, mango is either eaten green mixed with salt, vinegar, black pepper, and hot sauce, or ripe in various forms. Toasted and ground pumpkin seed (pepita) with lime and salt are eaten with green mangoes. Fresh mango contains a variety of nutrients, but only vitamin C and folate are in significant amounts. The mango is native to South Asia, from where it has been distributed worldwide to become one of the most cultivated fruits in the tropics. The center of diversity of the *Mangifera* genus is in India."

The Caribbean music genres are diverse. They are each syntheses of African, European, Indian and Indigenous influences, largely created by descendants of African slaves (see Afro-Caribbean music), along with contributions from other communities (such as Indo-Caribbean music). Some of the styles to gain wide popularity outside of the Caribbean include bouyon, cadence-lypso, calypso, compas, jing ping, punta, reggae, reggaeton, soca, and zouk. Caribbean is also related to Central American and South American music. The complex deep origins of Caribbean music are best understood with knowledge of Western Hemisphere colonial immigration patterns, human trafficking patterns, the resulting melting pot of people each of its nations and territories, and thus resulting influx of original musical influences.

These original tunes are composed and recorded by David Lewis Luong, Australia.

Extra UU2 Dane Reggae

Reggae originated in Jamaica in the late 1960s. Strongly influenced by traditional mento and calypso music, as well as American jazz and rhythm and blues, especially the New Orleans R&B practiced by Fats Domino and Allen Toussaint, and evolved out of the earlier genres ska and rocksteady.

Reggae is noted for its tradition of social criticism in its lyrics, although many reggae songs discuss lighter, more personal subjects, such as love and socializing. Some reggae lyrics attempt to raise the political consciousness of the audience, such as by criticizing materialism, or by informing the listener about controversial subjects such as Apartheid. Many reggae songs promote the use of cannabis considered a sacrament in the Rastafari movement.

Dane Caribbean music is dominated by Reggae music and Christiania culture, where even Bob Marley held a concert in 'Den Grå Hal'. However, the 'free-state' Christiania is mostly know for hippie cultures where illegal drugs are sold for a billion kroner annually at the 'pusher-street'. Despite the peaceful appearance, gangs like Hells Angels appears when the business is in trouble.

Most known Dane reggae artists are Tredie Tilstand, Bass and Trouble, Slo Down and Bliglad, Natasja, Lil' Kaka, Gnags, Blunt, Bikstok Røgsystem and Von Dü.

Extra UU3 – Norce influences

Holberg did not write a comedy about the adventures of Caribbean Virgin Islands. He probably would if one of his journeys went in that direction. However, NFL1 was mentioned in the previous Extra UU 2016.jan.08 and concerns similar expeditions to America before the year 1000. The citation hereunder is about a Dan-nor couple that tries to settle at Greenland, - like a lot probably tried to settle on the Virgin Islands 700 years later.

Monty Python has even made a comedy movie about far reaching expeditions of that time, called 'Eric the Viking'. Wonder if the following NFL chapter could be adapted to Python-like Tordenskjold comedy. Hm.

Erik The Viking - Initial scene

<https://www.youtube.com/watch?v=sGrDHI0orKE>

Taken from NFL1 – chapter 1.2 'Verify':

"Once back on the farm, Dan went to do his daily routines. At their farm, they had built a main house and a barn. They had several animals like cows, sheep, and chicken. Overall, they were rather wealthy due to the things they brought from Denmark, and what his wife Ann had inherited from Norway. When they decided to leave, they were promised transport to a new land where the sun does not set. They were tempted by such wonderful nature. There were also growing problems at home that they wanted to put behind. True enough; the sun does not set in the summer at Greenland. But in the autumn they noticed that it does not last. In the winter, they realized the sun does not rise at all. That was typical native trick at his overcrowded island, she said. That winter was awfully hard. They almost lost a child to the cold. Ann never forgave that

and did certainly not think of going back to his homeland. Loki Island, she called it. Now they had settled and would rather figure out how to manage in this new environment.”

Kaptein Sabeltann - Sjørøverne kommer (The Pirates are coming)

2016.jan.08

Ukens Utvalgte

This new theme, Tordenskjold Pirates, is a series of blogs about some cloudy sides of the Nordic cultural heritages. Historically, this is inspired by the fact that the legendary Tordenskjold started out as a ship's boy in the Caribbean in the golden age of Nordic trade and piracy. The suggestion of such pirates originated from an idea of eight different drinks of rum and Caribbean fruits, - each representing different captains' personalities and circumstances. Further intriguing is that Tordenskjold is regarded as a naval hero in Denmark, a pirate in Sweden and an amusing conman in Norway. These weekly blogs for 3 months will thereby attempt to investigate that further - and the idea will develop along with multimedia inspirations. Nonetheless, the naive and childlike amusements of pirates' tales, like Sabertooth, Pippi and Tordenskjold, will set the mode, - rather in British Monty Python style though.

Some historical facts from Wikipedia sets some basic scenes to this UU theme. “Explorers (mainly Norwegians), scientists, merchants (mainly Danish) and settlers from Denmark–Norway took possession of the Danish West Indies (present-day U.S. Virgin Islands) in the late 17th and early 18th centuries. Denmark started colonies on St. Thomas in 1665 and St. John in 1683 (though control of the latter was disputed with Great Britain until 1718), and purchased St. Croix from France in 1733. During the 18th century, the Virgin Islands in the Caribbean Sea were divided into two territorial units, one British and the other Dano-Norwegian. The Dano-Norwegian islands were run by the Danish West India and Guinea Company until 1755, when the Dano-Norwegian king bought them out.” These provincial Dane-Nor cultures are almost forgotten since the islands were sold to USA as a conclusion for the 1st World War. Even though, 350 years of Nordic-Caribbean cultural heritages do exist on both in Scandinavia and America. More about that in the next UU Captain Mango.

“Born in Trondhjem in Norway, Peter Wessel was a wild, unruly lad who gave his pious parents much trouble, eventually stowing away on a ship heading for Copenhagen in 1704. In Copenhagen, he unsuccessfully sought to become a navy cadet. He befriended the king's chaplain Dr Peder Jespersen who sent Wessel on a voyage to the West Indies, and finally procured for him a vacant cadetship. After further voyages, this time to the East Indies, Wessel was appointed Second Lieutenant in the Royal Danish-Norwegian Navy on July 7, 1711, and went on to serve on the frigate Postillion. While on Postillion, he befriended Norwegian admiral baron Waldemar Løvendal, who was the first to recognize the young man's potential as a naval officer. Løvendal soon made Peter Wessel the captain of the 4-gun sloop Ormen (HMS Serpent).” “His greatest exploit came later that year, as he destroyed the supply fleet of Charles XII of Sweden at the Battle of Dynekilen. In 1720, he was killed in a duel. In Denmark and Norway he is among the most famous national naval heroes. He experienced an unusually rapid rise in rank and died when he was only 30 years old.” It will be interesting to see the upcoming movie ‘Tordenskjold and Kold’ and how the Danes now portrays the character and the events. (See the Extra UU3.)

“The classic era of piracy in the Caribbean lasted from circa 1650 until the mid-1720s. By 1650, France, England and the United Provinces began to develop their colonial empires. This involved considerable seaborne trade, and a general economic improvement: there was money to be made—or stolen—and

much of it traveled by ship. Shipping traffic between Africa, the Caribbean, and Europe began to soar in the 18th century, a model that was known as triangular trade, and was a rich target for piracy." "Trade ships sailed from Europe to the African coast, trading manufactured goods and weapons in exchange for slaves. The traders would then sail to the Caribbean to sell the slaves, and return to Europe with goods such as sugar, tobacco and cocoa. Another triangular trade saw ships carry raw materials, preserved cod, and rum to Europe, where a portion of the cargo would be sold for manufactured goods, which (along with the remainder of the original load) were transported to the Caribbean, where they were exchanged for sugar and molasses, which (with some manufactured articles) were borne to New England. Ships in the triangular trade made money at each stop." This trade will be talked through in the two UUs Captain Banana and Captain Coca.

There are reasons why rum was vital to the Caribbean pirates – and there still are expressions like “drink to your health”. “... the Plague included a series of religious, social and economic upheavals, which had profound effects on the course of European history. The Black Death was one of the most devastating pandemics in human history, peaking in Europe between 1347 and 1350 with 30–95 percent of the entire population killed. It reduced world population from an estimated 450 million to between 350 and 375 million in the 14th century. It took 150 and in some areas more than 250 years for Europe's population to recover.” “From the perspective of the survivors, however, the impact was much more benign, for their labor was in higher demand. Hilton has argued that those English peasants who survived found their situation to be much improved. For English peasants the fifteenth century was a golden age of prosperity and new opportunities. Land was plentiful, wages high, and serfdom had all but disappeared. A century later, as population growth resumed, the peasants again faced deprivation and famine.” A novel about this period is drafted and has the work title NFL2. See the Extra UU about the novel Newfound Land (NFL1).

“The practice of alchemy as medicine, previously considered to be normal for most doctors, slowly began to wane as the citizenry began to realise that it seldom affected the progress of the epidemic and that some of the potions and ‘cures’ used by many alchemists only served to worsen the condition of the sick. Distilled spirit, originally made by alchemists, was commonly applied as a remedy for the Black Death, and, as a result, the consumption of spirits in Europe rose dramatically after the plague.” No doubt, the Mesoamerican vegetation is rich and provide numerous exotic plants that provides vital vitamins and natural health products. There might even be potential cures and remedies to discover. More about that in the UU Captain Guanabana.

The Rum’s high trade-value was because it was a remedy to the plagues. “Rum is a distilled alcoholic beverage made from sugarcane byproducts, such as molasses, or directly from sugarcane juice, by a process of fermentation and distillation. The distillate, a clear liquid, is then usually aged in oak barrels. The majority of the world's rum production occurs in the Caribbean and Latin America.” “Rum plays a part in the culture of most islands of the West Indies as well as in The Maritimes and Newfoundland. This beverage has famous associations with the Royal Navy (where it was mixed with water or beer to make grog) and piracy (where it was consumed as bumbo). Rum has also served as a popular medium of economic exchange, used to help fund enterprises such as slavery (see Triangular trade), organized crime, and military insurgencies (e.g., the American Revolution and Australia's Rum Rebellion).” Most likely, the Nordic people made rum at that time too, - or at least it should be a production of Nordic rum today. More about that in the UU Captain Karsk.

“The precursors to rum date back to antiquity. Development of fermented drinks produced from sugarcane juice is believed to have first occurred either in ancient India or in China, and to have spread from there. An example of such an early drink is brum. Produced by the Malay people, brum dates back thousands of years. Marco Polo also recorded a 14th-century account of a "very good wine of sugar" that was offered to him in the area that became modern-day Iran.” “The first distillation of rum took place on the sugarcane plantations of the Caribbean in the 17th century. Plantation slaves first discovered molasses, a byproduct of the sugar refining process, could be fermented into alcohol. Later, distillation of these alcoholic byproducts concentrated the alcohol and removed impurities, producing the first true rums. Tradition suggests rum first originated on the island of Barbados. However, in the decade of the 1620s, rum production was

recorded in Brazil. A liquid identified as rum has been found in a tin bottle found on the Swedish warship Vasa, which sank in 1628." "A 1651 document from Barbados stated, "The chief fuddling they make in the island is Rumbullion, alias Kill-Divil, and this is made of sugar canes distilled, a hot, hellish, and terrible liquor." Some historical piracy roots will be talked through in UU Captain Chaos (multi-juice).

All the exotic Caribbean fruits provided natural vitamins and nourishments that pirates missed at sea. Therefore, the Tordenskjold Pirates, i.e. the drinks, combined with the alchemists' rum, do provide a large variety of health beverages, - much more healthy than beers, grape wines and simple liquor. The eight captain drinks will be presented in the eight following UUs. Hopefully, they will be a welcoming substitute to the present dominating and dull beverage cultures.

As mentioned in the introduction, this idea will develop with by further readings and writings about historical, present and future outlaw influences to on the Nordic cultures. There is a red thread linking history to present cultures that we do not seem recognize ourselves. For example, the fact that the Danes recently rejected future cooperation with the European police and legal systems indicates that there is such an ancient cultural heritage at a collective OverConscience level that set in by intuition. In order to investigate such phenomena, the theme will be influenced by the models of LQ (LifeQuality), 3^3 psychosocial analysis, 5D scenarios and the ethical system of GCR (good/constructive/right).

Captain Sabertooth seems to be more representative for Tordenskjold Pirates than most official Tordenskiold play. "Captain Sabertooth (in Norwegian Kaptein Sabeltann) is the name of a long running series that centers around the eponymous pirate Captain Sabertooth. The series comprises several stage plays, theatrical films, a television series, cartoons, and books, all of which are aimed at small children. The first play, Captain Sabertooth and the Treasure in Luna Bay, was first performed in Kristiansand Zoo and Amusement Park in Norway. The play's success was so great that was followed up with another stage plays. The music of which won Formoe a national Spellemann prize. The film Captain Sabertooth and the Treasure of Lama Rama cost USD 6,600,000, the most expensive children's film."

A new Dane movie 'Tordenskjold & Kold' has premiere in 2016.jan.28. The trailer indicates that it basically is like the old movies, but more up to today's Dane trends with modern wit and social-realism. The plot seems to mainly concern his final days in Scandinavia and not related to the Caribbean though. Anyways, we will see in February.

Extra UU2, Pippi Calzelunghe - Il tesoro di zio Fabian

'Pippi in the South Seas' is a 1948 sequel to Astrid Lindgren's classic children's books, Pippi Longstocking and Pippi Goes on Board. It is set sometime after the events of the original book and centers around Pippi's further misadventures and experiences, and the main protagonist's theory that the reason for her father's mysterious disappearance that he was hailed as king of an island of natives is confirmed as true. It made a Swedish movie in 1970 and was released in the USA in 1975."

Extra UU3 NewFound Land

A novel about plagues in America in the 900's was called NewFound Land (NFL). It is published on the internet, - free for anyone to read. The introduction explains the setting like this. "Greenland is the world's largest island. It is sited in the North Atlantic Ocean between Iceland and Canada. Iceland is geologically a part of both Europe and America. It is where the continental plates meet. They are drifting apart though, sometimes causing dramatic events. - Greenland was settled by Scandinavian and British people. There were colonies with thousands of individuals. A thousand years ago, they suddenly disappeared. It is unknown what happened. - In this fictional story, they go west and find more than imaginable."

A follow-up is drafted and has the work-title NFL2. It is about a voyage from Iceland, via France to America about the year 1350. However, the mission changes dramatically and extends to the Mongolian occupied Beijing in order to stop the European invasion and the plague-wars. NFL2 is not finished since NFL1 was no commercial success. However, this UU theme 'Tordenskjolds Pirates' might be the basis for another follow-up, a NFL3, a prelude to the constitution of USA.

Supertramp – Better Days

2016.jan.01

Ukens Utvalgte

A true wish for a good year to anyone on this very first New Year's Day. The past one was a bit hard though - in certain ways. That should give hope for things to get better. Still, there is an alarming omen. One outcome in particular should not happen, because of the likely cascade of global fatalities. No pro-Russian oligarch should be president, - especially not a narcissistic one. Alarming is that the Puppet President Putin promotes Trump, - and vice versa. The US do not want to become nova-SU puppet states and should uncloak that pro-Russian oligarch and all his associates.

A main objective to the Kremlin's PPP is greater oil income that requires dominance over the Arabian competitors, dominance of the oil-rich Chinese border-region that requires Chinese distraction towards US,

and dominance over EU policies that requires cascades of pro-Russian uprisings. The narcissistic Trump, parroting Putin's Nashi (Наши) politics, will soon be lured into such conflicts, - like another Bush.

This video, 'Better days' by Supertramp, is a warning against such 5D scenarios. Two theatrical demons lure a juvenile on a path concealed as illusions of 'better days'. However, as indicated in the video, that is just like another stalinazistic Molotov–Ribbentrop pact. Puppet presidents, personalized as Trump and Putin might be tools for such mutual self-destruction, - with global consequences.

Johnny "J.R." Cash var en amerikansk sanger, gitarist, tekstforfatter, skuespiller og forfatter som er bredt anerkjent som en av de mest innflytelsesrike musikere i det forrige århundre. Han er betegnet som selve personifiseringen av country musikk. Selv om han er mest kjent som et Country ikon, fyller hans spekter også rock&roll, blues, og gospel.

Cash er kjent for sin dype, rolige bass-baryton stemme, bandets distinktive lyd, rebelsk og ydmyk fremtreden og hans klesvei som ga tilnavnet "The Man in Black». Mye av hans musikk handlet om sorg, moralske problem og frelse. Kjente sanger er "I Walk the Line", "Folsom Prison Blues", "Ring of Fire", "Get Rhythm" og "Man in Black", men også humoristiske sanger som "One Piece at a Time", "A Boy Named Sue"; "Jackson" "Hey, Porter" og "Rock Island Line".

Han har mottatt flere Country Music Association Awards, Grammys og andre utmerkelser.

Mangfoldigheten vises ved hans representasjon i hele 4 Music halls of Fame: Nashville Songwriters Hall of Fame, Country Music Hall of Fame, Rock and Roll Hall of Fame og Memphis Music Hall of Fame.

Johnny Cash var vert for CBS årlige Christmas special i 1970. Det kan ha gitt mersmak for bade artist og publikum. I alle tilfelle ble denne familiens juleshow lavet i 1977. Det gir et mere personlig bilde av hans historie og familie.

Enya, alias Eithne Ní Bhraonáin, er en verdenskjent irsk sangerinne, musiker og tekstforfatter. Hun begynte sin karriere i familiens band, men ville heller være solo-artist. Hun ble anerkjent for sin musikk til en BBC serie om kelterne i 1986. Deretter utgav hun albumet 'Watermark' som ga henne en internasjonal karriere. Hun ble kjent for sitt utpregede lydbilde med sin karakteristiske folkemusikk, stemmebruk, spirituell gjenklang, bruk av synthesizere, - og fremførersel på 10 språk.

Hennes suksess varer stadig, med 80 millioner solgte album og hvor 'Without Rain' alene har solgt 15 millioner kopier. Albumet 'The Memory Of Trees' nådde Top Ten i US, UK, Tyskland og Australia. Hun ble kåret som verden bestselgende kvinne i 2001 og er Irlands bestselgende solo-artist. Hun har fått 4 Grammy Awards og en Academy Award nominasjon.

Enyas julekonsert blir dermed preget av keltisk kultur. Hennes kjærlighet til livet og naturen er faktisk grunnlaget for nordeuropeiske juletradisjoner og passer også godt som adventskonsert. Men det er tydelig at hun ønsker å gi total opplevelser hvor visjoner og sanser er inkludert, - noe som foreløpig ikke lar seg gjøre på konsert.

Sting, alias Gordon Matthew Thomas Sumner, er en engelsk musiker, vokalist, sangskriver, multi-instrumentalist, skuespiller og filantropist. Han var vokalist og bassist for bandet Police før sin egen solo karriere. Han og Police har tilsammen mottatt bl.a. 16 Grammy Awards, 3 Brit Awards, 1 Emmy, 3 Academy Award nominasjoner og Sting er kåret til en av de beste artister av VH1, Q magazine og Paste.

Sting har utviklet seg personlig den siste tiden, - uavhengig av bands gruppetenkning og platebransjens kommersialisering. Han behøver simpelthen ikke lave alt det man tror andre vil ha, men er i den heldige situasjon at han kan presentere sin kunst der han vil på sin måte. Denne ukes julekonsert har dermed mere et menneskelig aspekt, enn det religiøse. Tradisjonelt handler jo julen nettopp om mennesker med lys i mørket og varme i kulden. Faktisk er den nord-europeiske juletradisjon langt mere fundamental enn xmas.

Talking Heads – Stop making sense – Live 1984

Ukens Utvalgte

Temaet Pausemusikk presenterer nå konserter man gjerne skulle sett. Hensikten er at noen forhåpentlig støtter artistene ved å gå til konsertene og kjøper musikken.

'Stop Making Sense' er avslutnings-konserten for bandet 'Talking Heads'. Det var en av de mest banebrytende band i sin tid. Deres bruk av musikk, scene og tekst gjorde dem eksepsjonelle. Denne konsert viser bandets utvikling fra start til slutt, - fra enmannsband, via fullt band, til fusjon av to hele band, samt snev av adskillelse underveis. Fremførelsen er en to timers fest - spekket med humor, intelligens, fascinerende poesi og musikk, - og ikke minst fengende sceneshow. Det er filmatisk kvalitet hele veien igjennom. Aldri får man se lignende igjen, for bandet ble oppløst like etter. Tittelen 'Stop Making Sense' i seg selv er karakteristisk for forestillingen, - da EQ ikke betinger IQ.

Talking Heads er ofte brukt i UU temaer og hendelser. Bandet var nærmest et husorkester å regne i UU temaet 'Det er noe galt i Norge - også' (UU 2011.juli.08 til UU 2011.aug.19), samt grunnlag for analyse av 22/7 (UU 2012.Mai.25) og 3^3 modellen (UU 2015.feb.27).

EODM (Eagles of Death Metal) - Lowlands 2012 concert

2015.nov.20

Ukens Utvalgte

Temaet Pausemusikk presenterer nå konserter man gjerne skulle sett. Hensikten er at noen forhåpentlig støtter artistene ved å gå til konsertene og kjøper musikken.

Bandet EODM var ukjent for meg før forrige weekend, - selv om de har holdt flere konserter i nærheten.

Men etter enda et angrep på Paris avlyses deres etterfølgende konserter, - også i Danmark og Norge.

Derfor gir UU en anledning til å se deres konsert allikevel, samt en hit de har lavet. Skjønt, deres konserter blir antagelig aldri igjen hva de engang var. De ser endog ut til å bruke forkortelsen på bandets navn oftere.

EODM (Eagles of Death Metal) er et amerikansk rock band fra 1998 som kombinerer sound av musikk stilene, - 'bluegrass' og 'metal'. Jesse Hughes and Josh Homme (fra Queens of the Stone Age's) er bandets faste medlemmer. Men Jesse er frontfiguren da Josh sjelden har anledning til å opptre live. Resten av bandet er temmelig varierende. EODM er ikke noe 'death metal' band overhodet. Ideen til navnet ble til da de spilte fra stykke av det polske band Vader i sin bluegrass stil. Homes kalte Vader "The Eagles of Death Metal" og tok siden det navn for å antyde den fusjonerte musikk stil. Mange band prøver tilsvarende fusjoner og kan få hits med cover-versjoner av ever-greens, - så som det russisk inspirerte Laibach sin cover av Opus sin 'Life is Life' (UU 23.sept.2011).

UU temaet Pausemusikk er ikke for kommentarer til hendelser som attentatet i Paris 2015.nov.13. Men det kan nevnes at tilsvarende ble omstendig omtalt i UU temaet 'Charlie' i UU 2015.jan.09 til UU 2015.april.10, samt UU 2015.okt.09.

Joe Jackson at l'Olympia, Paris - 2012

2015.nov.13

Ukens Utvalgte

Temaet Pausemusikk gjenstarter med presentasjoner av konserter man gjerne skulle sett. Hensikten er at noen forhåpentlig støtter artistene ved å kjøpe deres musikk og går til deres konserter.

Joe Jackson er en fremragende musiker og tekstforfatter med meningers mot, - men han fortjener noe mere oppmerksomhet. I løpet av sin 35 års karriere har han produsert 19 album og fått 5 Grammy nominasjoner. Denne konsert viser at også han aldres, men modnes og blir bedre med tiden.

David Ian Jackson fikk tilnavnet 'Joe' fordi han som barn lignet på 'Joe 90', - en dukke i en britisk sci-fi TV-serie. Han var født i England, bodde en stund i New York og flyttet til Berlin. Han var visst inspirert av artister som Elvis Costello og Graham Parker. Sangen 'Is She Really Going Out with Him' ble en umiddelbar suksess hvorpå han gikk inn i en 'New Wave' periode. Se konserten i ekstra UU2. Nå er stilen mere pop-jazz og tidvis klassisk. Selv ble jeg oppmerksom på artisten med albumet 'Beat Crazy' fra 1980. Den er fremdeles en favoritt.

Han var gift en gang, men betegner ekteskapet som en ulykke, - omtrent som Elton John sin affære. Det tema videreføres i Ekstra UU1. Videre har Joe skrevet en autobiografi i 1999 kalt 'A Cure For Gravity', men livet som pop stjerne mener han ikke er noe å skrive noe om.

For øvrig er Joe Jackson presentert i Joe Jackson - Crime Don't Pay (3) UU 2015.okt.23 med 'Crime dont pay', som er et enestående underholdende musikalsk stykke med tekst i typisk intelligent og ærlig sarkasme, - samt med en nydelig cover versjon av 'Fools in Love' i UU 2011.april.01.

Her er tre musikkstykker om hans forhold og legning. Antagelig har hans meningers mot kostet en del av potensiell publisitet og karriere. 'Steppin' Out' handler om å omsider bli ærlig ovenfor seg selv og andre, - selv om det er upopulært. 'One to One' handler om mislykket pro-forma par-forhold mellom to homofile kvinne og mann. 'Fit' er et forsvar for de transseksuelle, som er aller lavest på rangstigen - og som selv homofile kan komme til å sjikanere. Den slags irettesettende kritikk er knapt nok populært hos noen og kna slå hardt tilbake. Et ekstraordinært motsatt tilfelle finnes allikevel - den nylige avstemning for Conchita Wurst i Eurovision 2014.

This closing UU blog concludes the Dane Europol referendum theme. Surely international criminal organizations fight Dane 'Rule of Law' with hardcore Underworld Games. Ignoring such and believing the ulterior political deceptions, is a final stage of losing oneself as person, organization and nation. However, these UUs concluding views are both political and cultural. In order to suggest 'Howto heal the Dane LEJ powers', the 3D LEJ model is extended to the 3x3D at nations' level. The model is a merged and innovative version of Freud and Jung theories, in addition to theories of LQ (LifeQuality), GUR (ethics) and 5D (scenarios). Nevertheless, this double UU will first provide some summaries of the political view; next present some psychosocial views and finally some overall concluding thoughts.

It is a fact that international Criminals organizations fight Dane 'Rule of Law' with hardcore underworld Games. The introduction in UU 2015.okt.02 elaborated the concern. "There will be an extraordinary Dane vote concerning the European international Police and Judicial co-operation. 'Yes please', is the obvious rational respond for the great majority of civilized Danes. EUROJUST, EUROPOL and CEPOL are essential to protect themselves against the overwhelming international organized crime. However, powerful minorities of international criminal organizations do proactively oppose such hardening of law and order, - obviously. They will most certainly manipulate political campaigns in their cloaked ways. It might even appear as legitimate political oppositions by respected politicians. The outcome might even alter, if unaware of such ongoing psychosocial 'Underworld' Games." The following 3 UU talked through issues concerning the balance of the three constitutional Powers; the Legislative, the Executive and the Judicial powers (LEJ).

The 3D political model, that is the basis for the LEJ model, was introduced to this theme in UU 2015.okt.16. "The 3D model is another tool to improve the perception of political Games. The 3D political model is a psychosocial version of the traditional 1D political model. It is described in UU 2015.juni.12 for Dane and Nor parties. Originally, 3D related to the parliamentary fundamentals Throne/State/Temple, but now rather relates to LEJ (Legislative/Executorial/Judicial). "A 3D model gives different perceptions of the political world than today's 1D model. Organizations' names can be misleading. Confusing is that the Dane Venstre (Left) is like the Norwegian Høyre (Right), and that the Dane Radikale Venstre (RV) was a civil (bourgeoisie/borgere) party in Government, while the Norwegian RV (Rød Valgallianse) was a left-extremist failure. Furthermore, the 1D model shows several parties 'in the middle' while the 3D presents more descriptive relations. The Nor SP (Senterpartiet/farmers) is confusing, since it is not in the center of neither 1D, 2D nor 3D. Politically, SP moved from Throne to State and is now bound to State subsidies. KrF (Kristelig Folkeparti) relates more to Throne and State than Temple due to family policies and the State dominated Church (Statskirken). FrP/DF (Fremskrittspartiet/Dansk Folkeparti) was originally Throne oriented, with factions' hard rhetoric of anti-State. Rødt (Red) and EL (Enhedslisten) are extreme State parties that still find civil war 'necessary means' for their CdE (Coup d'Etat) ambitions. National socialists relate, as the name indicates, to State, but became dominated by the next generation, - national communists (after ww2)."

Furthermore, from the UU 2014.sept.12 about political Games, - here slightly modified to LEJ. "Positioning organization in the 3D model can be done by using coordinates like (x,y,z) for L,E,J (originally: where

Throne,State,Temple is (Th,St,Te)). General stereotyping in a scale from -10 to +10 can then have the following positions: Royalists (civilians -bourgeoisie/borgere)) (+10,0,0), Republicans (public servants) (0,+10,0), Theocrats (Judges) (0,0,+10), Left-extremists (-10,+10,-10), Right-extremists (+10,-10,-10), religious warriors (-10,-10,+10), UN (+5,+5,+5), hunters/farmers (0,0,0) etc. The size of the 3D item could represent Powers like Influence, money, members, etc. 'Democratic' is rather about general respect for others and true democrats should be position on all positive scales. Any negative numbers rather reveals bogus organizations that are not what they express." This is certainly not measured for Dane, Nordic or European nations. However, an fair assumption is that the average for LEJ can be set to (+5,+5,+5). However, the focus should not be set on an average, but rather at the extreme negative actors, that drags the quality of LEJ from +10 towards the negative.

Moreover, from UU 2015.okt.16, "Political organizations change over time. It shows in a 4D model, where 3D positions reveals movements over time. Terms like 'conservative' and 'radical' are no longer fixed positions in 3D, but show stillness and movements in 4D. Organizations can even be relatively conservative or radical in timeframes. The organization, not party, LO is one of Norway's most conservative political organization, despite its extremely radical origin. LO's bond to AP (Arbeiderpartiet/Labor) makes it a powerful para-LEJ actor. (UU 2013.sept.20 and UU 2013.aug.23.) On the other hand, conservative organizations of the previous century can be relatively radical now, because they are in opposition instead of position. The 4D model will also show organization that come and go. Relations of short-lived extreme organizations might show as pulsing constants in the 4D model, like the Nor line of NKP, AKP, AKP-ML, RV and Rødt." As mentioned throughout this theme and especially in UU 2013.sept.20 and UU 2013.aug.23, there are powerful para-LEJ organization in Denmark, Norden and probably in all European nations. They are major Game player in national LEJ, since they are highly illegal according to national penalty law. However, the ulterior Moves becomes indirectly apparent during such vital decisions like this Dane referendum concerning European cooperation with EUROJUST, EUROPOL and CEPOL. Para-LEJ politicians uncloaked themselves by public indignation when head of Europol, Rob Wainwright, told some truths about the real consequences of a Dane opt-out from Europol.

The first pillar, the Legislative power (Lovgivende), was discussed in UU 2015.okt.16 to set focus on apparent indications on dysfunctionalities. "Estimates say that ca. 80% of the Dane voters want to stay with Europol. However, 3 parliamentary parties encourage Danes to reject that. Those parties and numbers of MPs are DF (Dansk Folkeparti = 37), LA (Liberal Alliance = 13) and EL (Enhedslisten = 14). That is 64 MPs out of 179, i.e. 35% of parliamentary votes. This indicates that several MPs already can be corrupted by 'smooth criminals' at the cost of their voters' trust. As mentioned in the introduction UU 2015.okt.02 "This extraordinary Dane referendum can be fatal for any nation in the European continent as well. In a worst-case scenario (5D), Denmark might become a 'Pirate Bay', a 'Kardemomme State', an 'Outlaw Haven' and an 'infected firewall'." "Consequently, it is legal for EUROJUST, EUROPOL and CEPOL to counter-fight criminal manipulations of the upcoming Dane referendum, - while Denmark still has valid treaties with the pan-European authorities." For 3D political model, the Dane parties DF, LA and EL are negative toward LEJ and main reasons why the LEJ Quality score is beneath the acceptable for European nations.

The second pillar, the Executive power, (Udøvende) was discussed in UU 2015.okt.23 to set focus on apparent indications on dysfunctionalities. "The Dane Executive power is known as the 'Public Sector'. It is committed to provide products and services to Dane citizen and society as the Parliament and its Government order. A main reason to serious mismanages is obvious, - public servants are rarely investigated and put to trial according to the national penalty law. Some coldwar public servants are 'untouchables' to the Legal system." Furthermore, "The relations in Dane and Nordic societies become far more transparent when knowing the 100 years rise of the Red Mafia and the accordingly corruption of LEJ (Legislative/Executorial/Judicial powers). The public sector has cold war legacies that are not applicable, and even illegal, to this century's Denmark and Europe. The conditions and potentials of the nations are well documented in the OECD report 'Government at a Glance' and the Produktivitetskommissionens rapport (UU 2015.juni.05 and UU 2015.juni.26). Furthermore, Denmark and Norway seem to have some of the same fatal malfunctions in Police and Military as concluded by the Norwegian '22/7 Commissions report'. As talked through in UU 2014.okt.17. "The economic crimes of scandalous public projects and

services are mentioned in UU 2013.nov.01. UU 2013.sept.27 describes the basic professional knowledge about qualitative governing, maintain and innovating public services, - in addition to the massive critique in the 22/7 Commission's report." For 3D political model, the para-LEJ organization LO is negative toward Dane LEJ and main reasons why the LEJ Quality score is beneath the acceptable for European nations.

The third pillar, the Judicial power (Dømmende), was discussed in UU 2015.okt.30 to set focus on apparent indications on dysfunctionalities. "The parliamentary LEJ system (the Legislative/Executorial/Judicial powers) are obliged to Rule by Law. Thereby, it is criminal to cause improper ratification of Parliament's laws and regulations, improper execution in the public sector and improper arbitrating and judging in the courts. In fact, there is no valid argument for such illegalities, like putting the blame on lack of resources, information or money. Those arguments are, however, too often abused in relation to the Judicial system. An alarming indication of critical system faults is that no judge ever seems convicted despite all the criminal scandals in the public sector that the free press expose. Such indications are typical for Mafia organizations too. It indicates that the Judicial cultures can be worse than for public servants in the Executing power". "Confusion and misinterpretations about the legal system reduces the Judicial quality. It can cause punishment of innocents and rewarding of criminals. Such misjudgments are object for national Penalty law, - even for the judges. Clearly, international criminal organizations need to target key-personnel in the legal system to make their business gainful and to avoid penalties." (UU 2015.okt.30.) For 3D political model, rivaling non-European unions are negative toward Dane LEJ and main reasons why the LEJ Quality score is beneath the acceptable for European nations.

"Europe is the cradle of democracy." This dogma is fundamental for any European nation. However, Europe has only 10% of the world's populations, and Denmark merely 0.1%. Therefore, Europe is crucial to humanity and extra hard to defend. The Quality of Lives is as fundamental for democracy, nations and organizations, as for any person. This was talked through in UU 2015.april.10. "20 years ago, there was a realization that LifeQuality (LQ) was probably the most important word for any human. Consequently, it should be for human religion too. The LQ UU theme was blogged weekly for a year and developed to 4 sub-themes: 'Basic theory' (from UU 2013.feb.01), 'Empires' (UU 2013.mai.03), 'National', (UU 2013.aug.09) and 'Meta' (UU 2013.nov.08). The final definition is in UU 2014.okt.17: "LifeQuality is defined as: A person's totality of properties and potentials to satisfy stated and implied needs." "Maslow's Hierarchy of Needs shows 5 main categories; Physical, Safety, Social, Respect and Self-realization." The 'stated needs' are similar to the 'Human Rights'. "The 193 UN member-states are obligated to secure their citizens' rights concerning; private properties, self-determination, security, privacy, family, work, education, in addition to freedoms of thought, conscience, religion, expression and more." Unfortunately, and evidently, anti-democratic nations opposes the Human Rights and Needs, sometimes aggressively with conning Underworld Games. Their need for self-defense is obvious, - even though opponents denies such existence, motives and actions.

The most evident anti-European thesis is 'the Moscow-thesis', 'the International' – 'the 3rd Comintern'. "It was initiated with Lenin and the first European ww1, executed by Stalin and the second European ww2 and continued through the 50 years of coldwar towards European nations. The now published 21 Conditions proves the international crimes towards European (and American) parliamentary nations. "C1 In the columns of the press, at public meetings, in the trades unions, in the co-operatives – wherever the members of the Communist International can gain admittance – it is necessary to brand not only the bourgeoisie (civilians/borgere) but also its helpers, the reformists of every shade, systematically and pitilessly." "C3 "In almost every country in Europe and America the class struggle is entering the phase of civil war. Under such conditions, the communists can place no trust in bourgeois legality. They have the obligation of setting up a parallel organizational apparatus, which, at the decisive moment, can assist the party to do its duty to the revolution (CdE Game). In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity." (UU 2015.okt.30.)

The imperial sociopathic process was talked through in UU 2014.okt.31. "The Man of Steel / Stalin, alias Ioseb Besarionis je Jūgāšvili, was originally a local mafia boss in Caucasus that advanced to the chief of

operations to the Bolsheviks. They financed the organization with bank robberies, kidnapping, extortions and murders. He was imprisoned and sent to Siberia seven times but was always set free. He had no military background and did not serve in WW1. The need for better reputations was arranged by starting the newspaper Pravda (Truth). Next he took the nickname Stalin (Man of Steel) to propagate himself and his organization. Lenin said that Stalin was the right person to operate Soviet and posted him as general secretary. Soon Lenin got stroke and had to resign. Stalin continued Lenin's merits with 10 times the execution of own citizens. Stalin simply made Moscow a mafia empire. Nevertheless, Stalin is now a 'patriarch of mass-psychopathy'." UU 2014.juni.06. These genocides of tens of millions of their own citizens were presumably simply to ensure loyalty to the new State regime instead of the previous Throne regime as part of the CdE Game. Brute logic might be that killing and brutalizing is most effective. However terminating the previous elite is like lobotomizing oneself as a society. The retardation and traumas take centuries to psycho-socially heal, - if ever possible at all."

This 100 years imperial war towards European democratic citizens has far from ended. In fact, historically, the origin of this manic obsession can be traced to the first Roma (Roma1) and beyond. As summarized in UU 2015.okt.09. "Even lesser known is the cultural legacy Moscow think it has to Roma2 and those rivalries in the region - UU 2015.mars.27: "It helps to understand Roma3/Moscow and its heritage from Roma2 with understanding of the theocratic history. The following (one out of) three paragraphs provides translated summaries from UU 2014.april.25. "There was a highly questionable constitution of Rome3 based on a monk's statement (UU 2014.mai.02)." Furthermore, "The crusades (of Roma2) were first arranged with Roma1 State soldiers. European Thrones supported them, when the Muslim caliphate conquered Egypt, Jerusalem, Syria and other important middle-eastern regions. However, the fourth crusade was fatal. Some 'pirates of the fourth crusade' (P4C) attacked the Christian Roma2 instead of the Muslim Egypt. Roma2 was plundered to ruins and could not rise again under the following chaos. The crusaders failed to administrate the city so decay and the final fall was unavoidable. The crusaders' actions and faiths are full of mystical Games. However, they might have known about Marco's tales and seen the coming Muslim/Mongol invasion, - or simply did the preparations. They might have wanted to save treasures and spread them to European temples and thrones prior to the joint Khan/Caliph attack. The 'Da Vinci Code' is merely one example of some dramatic Games at play." (UU 2014.april.25) The pirates handed over the coat of Arms of Roma2, 'the double headed eagle' to Moscow, a monk declared Moscow as the 3rd Roma and Ivan was titled Tsar/Caesar. The Duchy of Moscow grew rapidly by systematic invasions, tax and terror." That legacy seems to be a recurring obsession to Moscow. However, in 3x3 social-psychiatric terms, the obsession has rather properties like mass-psychosis.

However, yet again, such comprehensive model as 3^3D should not fully be used in such limited psychosocial issue as the ongoing Dane LEJ yes/no referendum. The focus is therefore set on 3x3D imperial S-E/S-I obsessions and the psychosocial damaging dysfunctions to itself and the related. As mentioned in UU 2014.okt.31 about the first realization when the S-E/S-I relation was discovered. "Finally how the idea Superior-ID became: "The Oprichnina/Praetor is like a definition of psycho-social Games. The Actors and the Games are ulterior and concealed like the very nature of secret services. It is however, a problem if the democratic Quality of Life is not respected. It is serious if the organization consider itself as a Superior-Ego and individual as inferior. It is catastrophic, if it also inherited the properties of Ivan's murky mentality as a collective obsession." The theory of Superior-ID is talked through in UU 2014.jan.10 and the OD (OverConscience Drive) in UU 2014.aug.22."Furthermore, "Ivan (the terrible) attacked the Baltic region brutally. The nations responded with raids, invasions and blockades. The Polish, Lithuanians, Swedes, Dutch and Germans were together in the resistance. Ivan accused that Novgorod could end up being catholic in a polish/Lithuanian alliance. The claim has no documented validation though. Roma3's final annexations by Ivan and Oprichnina was terrible and led to the 'Novgorod massacre' in 1570. This also terminated the trade-route between the Baltic sea, Kiev and the Black Sea/Roma2." (UU 2014.mai.02 & UU 2014.nov.21.) In a psychosocial sense, the Moscow thesis is a destructive Superior-Ego, - and the European world wars and the Russian Patriarch wars are evidences.

The 100 years old Red Mafia was presented in a video-documentary in extra UU 2015.okt.23. The global Olicracy is founded on brutal mass-assimilations of Throne servants by the CdE State regime, the created

the Thieves worlds in Gulag Camps that climaxed in the so-called Bitch Wars. The Gulag colonialization programs have deployed the anti-democratic cultures in order to deploy the Comintern conditions for CdE in European and American democracies throughout the 50 years of cold war. This hypothesis goes along with the hypothesis about PROSA, GRAF and GRU, as talked through in UU 2015.okt.09. Its Gimmick is basically an Underworld version of the classic NIGYSOB (Now I've Got You, You Son of a Bitch), and related classical games like Schlemiel, IFWY (If It Weren't For You), WAHM (Why does this Always Happen to Me?), SWYMD (See What You Made Me Do), UGMIT (You Got Me Into This), LHIT (Look How Hard I've Tried), ITHY (I'm Only Trying to Help You), LPAFJ (Let's Pull A Fast one on Joey), LYAHF (Let's You and Him Fight), RAPO 'Psychiatry' and 'Courtroom'. "Some (self-defined) new Games are: DAC&UAC (Devide&Conquer & Unite&Conquer), ISR (It Started with the Retribution), ABD (Attack is the Best Defense), Jante/TUD (The Ugly Duckling), TLM (Two Little Maids), BGGG (Bad Guy, Good Guy), RPPP (Robbing Pete to Pay Paul), ODAB (One's Death – Another's Bread) and the Russian BOOFY (Beat your Own and Others will Fear You) (UU 2014.sept.12.) In In a psychosocial sense, the Gulag is a destructive Superior-ID, - and the European world wars and the Russian Patriarch wars are evidences.

The development of the 3rd dimension, from 3x3D to 3[^]3D, came when realizing that there has to be a Jungian S-I like there is a Freudian S-E. The following paragraphs summaries of the relations between the 3[^]3D socialpsychological model and the 3x3D political LEJ model, i.e. Judicial power in UU 2015.okt.30, Executive power in UU 2015.okt.23 and Legislative power in UU 2015.okt.16.

(The Judicial dimension) As mentioned in UU 2015.mars.13. "The Belief dimension of the 3x3 model is different from Drive and Will. Freud and Jung called it 'Superior-Ego', while Berne called it 'Parent'. Belief concerns ideas of what we cannot possibly fully understand, yet need to know and trust. Here, focus is set on Belief in Supremacies like the S-E. The Superior-ID (S-I/Drive) was included 2 years ago. Now, the Superior-Devine (S-D/Belief), a new and third subcategory, is included to complete the model. However, (...), the (previous) 3x3 model has become a 3[^]3 model, i.e. 3x3x3, because of the 3x subcategories in Drive, Will and Belief." Furthermore, "The Supremacy dimension is based on Freud's classical psychological 'ego-state' Superior-Ego, - i.e. any overruling of human Will and Drive. It is hereby sub-categorized into S-I (Superior-ID), S-E (Superior-Ego) and S-D (Superior-Devine) in order to suite the 3[^]3 psychosocial model. It does not concern theological or philosophical question of whether long gone ancestors, gods or other divinities exist, - but concerns the belief in, or denial of, such. Psychologically, it is valid since no one can deny the existence and importance of believes, - religious or not. Yet, subcategorizations of Belief cannot be as concrete as for Will or Drive, - like tangible terms on does not describe the intangible well. Besides, the values of Good/Use/Right (GUR) and Throne/State/Temple (Th/St/Te) are still relevant and is re-vitalized in this sense." Furthermore "As mentioned in UU 2015.mars.13, the new 3[^]3 social (GAME) sub-categories for the ego-state Belief are: UNO (Universal Natural Order) a UB (UnderConscience Belief) sub-category of Drive that relates to S-I (Superior-ID). WoW (Well of Wisdom) a CB (Conscience Belief) subcategory and related to CW (Conscience Will). SET (Supreme Extra Terrestrial) an OB (OverConscience Belief) sub-category of Belief that relates to S-D (Superior-Devine)." (UU 2015.april.03)

(The Executive Dimension) Furthermore "More relevant for this UU's Executive LEJ dimension is the next psychosocial 'Will' dimension. As initially explained in UU 2015.mars.06: "The merged 3x3 Game model does mostly apply to the social ego-state 'Will'. Freud and Jung call it 'Ego', but Eric Bern called it 'Adult'. This UU sets focus on three social Game categories of Will, namely KoC (King of the Castle), CdE (Coup d' Etat) and GoT (Games of Temples). Such a large theme needs an archetype to grasp the idea, - a simple stereotype like Napoleon. The main reason to focus on Games is the simple truth that everyone lies and deceives. This reality is underestimated and have serious consequences, - as the Charlie incident in Paris showed." However, the most relevant Game category is rather called GdE (Games d' Etat) that includes CdE and all the pre- and post-games related. (In relation to this second psychoanalysis of Dane LEJ, the 3[^]3 Game categories should rather be related as: KoC – relates to the Parliament and Government and all the games in there. (UU 2015.okt.16) GdE – relates to the public sector that has been talked through in this UU. GoT – relates to all the believes, especially Platonic beliefs in the State and related isms. ('Isms' are talked through in UU 2013.nov.29.)

(The Legislative dimension) "Such Games as CiH (Cockfight In the Henhouse) are from the 3^3 (3x3x3 dimensional) socialpsychological model (UU 2014.sept.12), - a completely redefined categorization of Games. It includes Jungian worlds of humanity's nature that is far from fully explored. However, in brief, the 3^3 Game categories were related to the basic socialpsychological ego-states Drive (previously ID/Child) as AnnimalFarm (AF), WildLife (WL) and RainForest (RF) (UU 2015.feb.27). However, - although the 3^3 Game categories are relevant for societies, the simpler Berne 3D Game categories are more relevant for LEJ Game analysis." Nevertheless, Drive is very relevant for the Red Mafia. The Gulag colonialization programs has been a breeder for Red Mafia cultures and become a global S-I in every European and American nations and states (ref. the Comintern's 21 conditions).

Then, the main question is; How-to Heal LEJ? The challenge has several resemblance to the Extra UU 2015.aug.28. "How to heal the Dane psychiatry? This sincere question rises after seeing the TED Talk 'How do we heal medicine?' The speaker pinpoints some problems, challenges and solutions for the health industry in general. That certainly applies to the Dane psychiatric industry too, - which seems to be trapped in its own rivalries of pre-Freudian obsessions and illusions. A collective organization can conceal, deceive and project, like resourceful psychotic clients can, - especially when it is autocratic, alienated and a major drug supplier. Anyhow the psychiatric diagnostics, - it all should be founded on basic ethics like GCR (Good/Constructive/Right) and not BDW (Bad/Destructive/Wrong)."

Furthermore, "It was necessary to upgrade and extend the classic Freudian models to organizational levels in order to enable psychosocial analysis. The result is a joint Freud/Jung/Berne model called 3x3. This was further developed to the 3^3 (i.e. 3x3x3) model. It is explained and used from UU 2015.juni.05 to UU 2015.juli.24 about the Danish parliamentary election. "The terms are developed from-via-to: Id-Child-Drive, Ego-Adult-Will and Superior Ego-Parent-Belief. A second dimension of conscience is added in order to merge Jung with Freud's 3-state; UnderConscience, Conscience and OverConscience. The third dimension contains of 3 subcategories of Drive, Will and Belief. These are interrelated via the conscience dimension. However, the subcategories are open for adaption and modifications to what is to be analyzed, for example persons, organizations, nations, empires or humanity. Furthermore, the subcategories are related to Game categories too, - which is not directly in the 3^3 model. For example, sub-categories for Personal level is; Drive (Sulk, Nerd, Jerk), Belief (Matriarch, Authority, Patriarch), while Parliamentary relates to Will (Legislative, Executive and Judging (LEJ, - or LUD in Danish) and National/Imperial relates to Drive (Throne), Will (State) and Belief (Temple). A combination with collective Game categories were discussed in UU 2015.feb.27, UU 2015.mars.06 and UU 2015.mars.13 where: Drive (RF, AF and WL), Will (KoC, GdE and GoT) and Belief (UNO, WoW and SET)." However, the 3^3 model is too extensive to fully analyze Dan LEJ for this simple yes/no referendum. Some simple analysis will conclude this theme. It would however, be highly useful tool in the aftermaths order to heal Dane LEJ, like the suggestions on Howto heal Dane psychiatry in the Extra UU 2015.aug.28.

Concerning organizational health. "Is such organizational insane manipulation, like indoctrinating false memories, possible in Dane psychiatry too? Most certainly - yes. 'Organized insanity' in S-E/S-I relations for organizations and nations' is talked through in UU 2014.jan.10 and UU 2013.april.12: "It can function like a dominating and psychotic Superior-Ego that can transfer its psychosis to the client's S-E, make ID's neurosis and even split its Ego. There are potentials for the whole spectrum of Berne's described Games, - especially LYAHF, NIGYSOB, Debitor, SWYMMD, Courtroom, LHHIT, Schlemiel, WDYYB, Rapo, Uproar, HDYGOH, LPFOJ, IOTHY and certainly Psychiatry." Furthermore "Terms like mass-psychosis, brainwash and indoctrination can surely be related to such unsound S-E/S-I relations. Identifications of such ulterior and abstract organizations might be easier with use of metaphoric terms like 'The Psychopathy' and 'The Sociopathy', to relate their activities of mass-psychopathy and mass-sociopathy to the psychosocial Games." (UU 2013.april.19)"

Concerning obsessive S-E/S-I domination. "A diagnosis includes investigation of backgrounds, traumatic events and relations. In previous UUs, the modern psychosocial history stretches over 500 years in the Nordic region, - including Russia. However, such a complex issue can only provide some new discoveries and point of views. A thesis is that the present Dane psychosocial condition was initiated about 1864 with

the Throne CdE and following mass-massacre of the previous king's men at the German border. It peaked half a century later in 1914 with a similar procedure to the imperial Throne and following CdE (Coup d' Etat) and mass-massacre of the emperor's men. About 2014, - it has reached another historical shift that should be 5D analyzed with alternative future scenarios (UU 2014.nov.28). Anyways, the hypothesis is that the matriarch obsessions in the psychocratic industry's OverConscience seems to stem from the apocalypse in the Winter Palace, centered around its sole survivor, - princess Dagmar of Denmark, alias Tsarina Maria of Russia. This hypothesis is elaborated based on previous writings, especially UU 2014.dec.19, UU 2014.aug.01, UU 2014.juli.18, UU 2014.jan.10, UU 2013.april.19 and UU 2013.april.12."

Furthermore, from UU 2014.dec.19 "The S-E/S-I theories of organizations can even be lifted to Global levels during centuries. The most outstanding example is the CdE Game in the Winter Palace in 1914, - the Dagmar Syndrome. It started as a simple TLM/(TOL) Game between the rivalling tsarinas from Germany and Denmark. This is the ultimate example that cloaking of ulterior Games can lead to unlimited cascades of misdeeds and mischiefs, - like a snowball can cause an avalanche, - like a match can cause a forest fire and like the shot in Sarajevo. Here is a translated part of the talk-through in UU 2014.mai.30: "Dagmar's last meeting with Rasputin' is the association to this UU. The title of the song is 'Messiah Ward' (which hints to an asylum). In other words, this will be another point of view on 1914, EW1/WW1 and the rest of that century. With hindsight, it is easier to see the moves of the Games, the players and the motives, - and who really lost and won. The overall plot should be clear after 100 years; (a CdE Game) to convert Roma3 from Throne/Temple in St. Petersburg to State in Moscow." There are far less costly ways to do so."

Basic philosophies about self-realization applies to organizations as well as persons. "Plato's allegory of the Cave suits the psychocracy in particular. (See video hereunder.) In brief, the tale is that some people are bond in a cave looking at a curtain that reflects 2D grey shadows of the real world outside. They come to descriptions, definitions and conclusions on how the real world must be. However, when a visitor from the real world explains the reality he actually lives in, - there is no understanding, but collective agreement to reject or change the visitor. Taking the allegory to the present, - psychocrates would use drugs, pills or hypnosis, dependent on their dominating regime; Throne, State or Temple." "The 3^3 psychosocial model should most certainly be interesting to use for analyzing the Dane psychocracy. However, such complexity of organizations and relations cannot possibly be done here and now. On the other hand, some thoughts might initiate imaginations: At imperial level, it seems that domains of psychocracy are mainly related as Throne/Drugs, State/Pills and Temple/Hypnosis. The past century has been State-dominated which caused criminalization of what their oligarchs cannot patent, - i.e. natural drugs. Furthermore, classic definition of schizophrenia is redefined to not include spirits and demons, but rather include extended terms of other psychosis to keep constant numbers of clients and market shares of pills." These issue are related to the 3^3 Game category Drive RF (Rain Forrest), though, that involves the unknown nature's influences. It is not considered relevant for this Yes/No LEJ analysis.

LEJ is about the Laws, - and Laws are like some societies' Operating System. It is practically not any harder to upgrade national Laws than organizational operating system. Obstacles are mostly due to destructive Games by political and commercial actors with alternative agendas. To elaborate that, the following is translated from the necrology written to Jon Bing in UU 2014.jan.24 b. "As Lovdata writes: "Jon Bing will be remembered for a lot in the Norwegian society. He will always be remembered as the visionary 'Rettsinformatikeren' (Rights-informatician) and 'teknologijuristen' (techno-lawyer), had imagination far beyond what we ever could." Hopefully, the judicial environment will in time realize that laws and regulations are not any different from being society's operating system (OS) and should be revised and upgraded just as effectively when required. Anti-democrats' phobic relation to the Human Right Law (Menneskerettsloven) shall not be dominating in democracies. Bing's book 'Personværn i fare' ('Persons' protection in danger') provided highly visionary alerts about tendencies in IT & Tele, like the 'electronic traces' that can be misinterpreted and abused against innocents. This is, by the way, is the basic idea to UU themes like LifeQuality, Games and 3^3D." Bing's visions certainly emphasized the importance of making the social Superior Egos sound before destructive paths becomes irreversible.

Furthermore, as mentioned in UU 2015.okt.23, Sweden exposed a most alarming manipulating GdE Game that probably had been going on for decades in the Dane society's 'neuro-system'. "Dane crises in the Executive power shows different indications. This was mentioned in UU 2014.nov.28: "The massive cybercrimes against the Police, Military, Tax-authorities Public health in CSC Denmark and IBM mainframes were executed by disloyal employees, remote computers in Pirate Bay and controlled from Asia. The delays in police investigation indicate massive organized crimes that also include employees in the Danish police force. Therefore, it is simply beyond any nativity to claim that this major operation was organized by two young sociopaths." "Most alarming is the extensive use of the hackers' favorite operating system - Linux. Anyhow, the ongoing trial in Denmark is most probably just the tip of an iceberg in all of the public sectors in all NATO nations." Furthermore as mentioned in UU 2014.dec.12 "Most alarming is the recent take-over of all IBM Intel Server in all NATO nations public and private sectors. (See UU 2014.nov.28.) Big Blue made Big Red by handing over the needed resources, network, servers and technology to execute considerable IT hacking, espionage, and info/money manipulations." NATO nations' public sectors do not seem to realize that most of their main IT systems are now legally in Chinese control too." Dane public IT shows serious indications that the social Superior Egos is on a destructive paths that might become irreversible. The whole LEJ might be involved.

It is most crucial to realize the sociopathic warlike 4th degree Games going on in the national IT & Tele enterprises, public ones as well as commercial ones. There are also evidently indications that Nor Tele sector is as abused as the Dane IT sector. Despite serious warnings from NATO allied, Telenor has let the Chinese anti-NATO Huawei massive installations of G4 mobile network. The equipment has all capacities for illegal monitoring, manipulation and other foreign secret services. When established, a concerned newspaper hired an independent security company that registered most serious unregistered monitoring of mobile communications in governmental, financial and industrial centers in the capital Oslo. The head of PST (Norwegian secret service, like Dane PET) denied any illegal activity and closed the case in 6 months. However, now the government has allocated 12 million Kr to fight illegal mobile monitoring. Now, a major corruption case causes major political scandals. The Telenor related company Vimpelton has been involved in heavy corruption in Uzbekistan for years. Nor Telenor and Dane TDC are apparently competitors in Denmark, but very close in reality. (See related links below.) This close relation TDC/Telenor relations to anti-NATO actors concerns America as well as European nations, - just like the Moscow thesis does. Unsound psychosocial neuro-systems, like some S-E/S-I relations, might be on destructive paths that might become irreversible.

Some final meta-philosophy concerning the humanity and its LQ (LifeQuality) is taken from UU 2014.aug.22 and UU 2014.dec.19 ('Waterboys – The Whole of the Moon'): "Parasites cause another alarming manipulation of the UnderConscience Drive (UD). It sound more fantastic than hypnosis. However, to get the idea, it is recommended to see the TED video 'Ed Yong: 'Suicidal crickets, zombie roaches and other parasite tales'. It shows that collective synchronicity amongst animals are not always motivated by interpersonal socializations. In certain occasions, their UD is controlled by physical parasites that uses the hosts against their own good and to the parasites' gain. In any case, - such similar psychic activities for collective remote control of group synchronizations is certainly the situation documented in the previous century as so-called political 'folks' movements'."

Furthermore: "Theories of parasite activities can thereby cause rather intriguing thoughts in relation to IT (Information Technology). Data-viruses are well known and people show strong addictions to the net and all kinds of IT equipment. It is of cause quite natural according to Carl Jung's theories about social dependencies. How frustrating it is when the net is unavailable for the mobile, PC and TV. However, there can be more than simple data viruses that manipulate the information. Uncritical utilizations can cause manipulations of persons similar to hypnotic states and parasite activities. That might change the behavior un-consciously and against a person's will. Furthermore, biological IT implants are highly unusual – till now. But people have great tendencies towards self-medicating with psychotic drugs to alter the UnderConscience. Therefore, 'hypnotic' 'parasites' might be used as willingly if it becomes an option. IT dictionaries should include a new term 'data-parasite' in addition to 'data-virus'." Although not directly

relevant for the yes/no referendum, - it is highly relevant for in-depth analysis of national political cultures thereafter.

“Nevertheless, the TED talk ‘Dan Dennett: Dangerous memes’ puts the concern at a more cautious perspective than ‘Ed Yong. The term ‘memes’ suits very well the theories of T.A., where any communication can be extracted to a minimum and cleansed for noise. It is like using digital technics and data analysis, in order to analyze the real meanings and communications. Similarly, there can be made M.A. (Memes Analysis) which can be used to analyze the real meanings and communications of ideologies and isms. (See UU 2013.nov.29 about isms). However, summing up Dan’s concerns of dangerous memes, - he uses Ed’s example of parasite controlled ants’ brains, and continues: “Humans is the only specie that are willing to scarify their lives (and take others’) for ideas, values, isms, religions etc. These are replicated and spread from person to person like software or viruses. There are well documented events in human history that such ideas have caused great misdeeds and miseries for humanity, - intended or not. We should be more aware about the dangerous memes now, in the global information technological age, because such dangerous memes can spread like computer viruses via internet and cause fatal harm. However, like it is pointless to hate HIV, - it is pointless to hate certain memes. We need to focus on understanding in order to find remedies, cures and immunities, - and simply figure out how to live with it without causing global psychotic-neurotic mass-reactions at S-E/S-I level – again and again.” A most primitive such ‘dangerous memes’ is certainly the Red Flag that deliberately was made to provoke collective instinct subconscious like a bull in bullfighting.

A final suggestion to 3x3D political LEJ level in UU 2015.juni.19 is translated from Norwegian. “The challenges are at the fundamental level. The Parliaments should agree on solutions to normalize society by comprehensive detachment from the coldwar collective obsessions and bondages. Thereby, the main challenge for any democratic parliament is to find together, promote democracy by uncovering and fight any anti-democratic Games. Consequently, focus should be set on 3 primary goals. Democrats should find together against anti-democrats despite any kind of party or ism. Parliamentarians should promote parliamentarism, even if it means judicial penalty consequences for anti-parliamentarians. The governments shall govern the Executive powers, - and not the opposite like some para-governments. The terror-cases in both Copenhagen and Oslo should be sufficient warning signals. Open communication and cooperation should help both parliaments considerably.”

Sparks is a favorite band from my youth. The American duo consists of the two brothers Ron and Russel. Their music has often intelligent, sophisticated and biting text and a personal theatrical performance with stereotypical contrasts between the two very different brothers. They got great success and cult status in several countries. They left their band-concept in the late 70s and renewed as a newwave/synth duo with the cooperation with George Moroder. They have change their stiles and performance and been in front of the modern artful pop music. They have influenced other band and artists like Kurt Cobain, Cait Brennan, Dax Riggs, Franz Ferdinand, Morrissey, Arcade Fire, MGMT, Sonic Youth, Panda Bear, Ramones, Duran Duran, Björk, Depeche Mode, New Order, Def Leppard, Faith No More, Pixies, Ween, Will Sheff of Okkervil River, Mark Burgess of The Chameleons, The Human League, ABBA, Paul McCartney of They Might Be Giants. Personally, I would add Erasure, Petshop Boys, Eurythmics, Underworld, and lots of 'boys bands' and most in the DJ genre.

FFS (Franz Ferdinand and Sparks) is a merged super group formed by Scottish indie rock band Franz Ferdinand and American rock-pop band Sparks. The group's eponymous debut studio album in 2014. Sparks played in Copenhagen Tivoli with FF this summer after 20 year of absence. Sparks is recently presented in UU 2015.aug.07 and in UU 2011.juni.03 as a critique to the Copenhagen environment conference in 2011. The association to ‘Johnny Delusional’ is related to the fact that human qualities like love and hate, mania and phobia, seems insane and irrelevant for nerdy psychiatrists. Unfortunately, LEJ, seems to suffer from the very same delusional lack of empathic qualities.

Extra UU1 - True Faith

This double-UU consists of a political and a social part. This video 'True Faith' by 'New Order' represents the political part. The video is by the French choreograph Philippe Decouflé that is most famous for the spectacular OL ceremony in Paris in 1992. In this UU relation, the video is a brilliant artistic presentation of LEJ dysfunctionalities. The surrealistic video provides ideas of bad management based on bad T.A (psychosocial Transaction Analysis).

Two opponents start out by beating each other, which is as intelligent as if they were beating themselves.

That goes for parliamentary rivalries Games like CiH as well. There is a supervisor, an analytic a controller, a communicator and a task force. However, - after its all over, they must be left with a single question, - what happened? (This video is previously presented in UU 2013.mars.22.)

Extra UU2 - Foundation – Trailer

I must have been slightly influenced by the masterpiece Foundation, - like so many other. The story concerns the collapse of an empire and how exiled psychohistorians influence events to minimize the damages. Starwars is a simply spin-off of this epic saga 'Foundation', like Terminator is a spin-off of Battlestar Galactica, - that is a spin-off of Starwars. Isaac Asimov was probably influence by his own history, since his family escaped Russia during the SU CdE in 1914 and he grew up in US.

As mentioned in UU 2015.april.10 "(The creation of the Foundation series) required futuristic imaginary skills beyond other individuals. Reasonable collective philosophical abilities might be enabled this century (with the global IT & Tele resources). Such is imagined in the epic saga by Isaac Asimov called 'Foundation' that concerns what is called 'Psychohistory'. The hypothesis is that it might be possible to predict the socialpsychological outcomes for large masses over long time, - even though individual psychohistory is impossible to predict. Most fortunately, the Foundation is now to finally to be filmed as a TV series on HBO this year.

The 5D model was inspired by that science fiction to realize maps of alternative social-political futures and pasts. The model is explained in UU 2014.sept.12. It is integrated with the 3^3 model (UU 2015.mars.13) and is based on theories of Freud and Jung. It is not fully developed yet though and can of cause be

modified to several uses. However, the main purpose is to evaluate false history to find truths and imagine alternative future options.”

Chess (Björn Skifs) - The Arbiter

2015.okt.30

Ukens Utvalgte

The Judicial power is the legal system. It ensure the Parliamentary system's quality of LEJ, the Balance of Powers and Rule by Law. EUROJUST is therefore crucial to the Dane referendum to fight international crime. However, the Judicial power is the most secretive and thereby vulnerable to international crime and corruption. There is practically no democratic insight and revision control of its quality, - whether they do their job or not, - or the opposite. This UU will focus on Legal systems of Denmark, Norway, Norden and Europe in order to set focus on the potentials and alarming issues.

The parliamentary LEJ system (the Legislative/Executorial/Judicial powers) are obliged to Rule by Law. Thereby, it is criminal to cause improper ratification of Parliament's laws and regulations, improper execution in the public sector and improper arbitrating and judging in the courts. In fact, there is no valid argument for such illegalities, like putting the blame on lack of resources, information or money. Those arguments are, however, too often abused in relation to the Judicial system. An alarming indication of critical system faults is that no judge ever seems convicted despite all the criminal scandals in the public sector that the free press expose. Such indications are typical for Mafia organizations too. It indicates that the Judicial cultures can be worse than for public servants in the Executing power (UU 2015.okt.23).

Confusion and misinterpretations about the legal system reduces the Judicial quality. It can cause punishment of innocents and rewarding of criminals. Such misjudgments are object for national Penalty law, - even for the judges. Clearly, international criminal organizations need to target key-personnel in the legal system to make their business gainful and to avoid penalties. Unfortunately, there are many legal sources to choose from, when legal confusion is an objective. The Judicial quality is at stake, when considering the all the malpractices, misinterpretations, wrongful activities and passivities.

Even in the Judicial system itself, there are confusions about what European organizations and regulations really applies. Too few understand the roles and authorities, as they should. Some arguments used in the Dane referendum campaigns are in fact proofs of deliberately disinformation. However, as mentioned in UU 2015.okt.02, the Judicial situation is rather similar in Denmark and Norway, since Norway is related via EFTA to EU and Denmark directly to EU with 4 opt-outs. The legal framework of the EU treaties are basically the same for the parallel EFTA and EU organizations. The national parliaments have agreed that these treaties and regulations are as national laws. This has been previously talked through and the following paragraphs are some translated points and summaries of that. (See links below too.)

In brief, The European Council (Det Europæiske Råd) of EU consist of each member nations' prime ministers that decides the pan-European policies. The Council of the European Union (Rådet for Den Europæiske Union) consists of the EU nations' ministers and is the pan-European legislative power that decide the inter-European laws and regulations. However, The Council of Europe (Europarådet) is not of EU at all. It rather relates to the United Nations (UN) and the 47 member states, includes Russia. The CoE includes the ECHR (European Court of Human Rights) that judges cases concerning the European versions of the Human Rights conventions (Den Europæiske Menneskerettighedskonvention). The EFTA (European Free Trade Association) is bond to the EU Maastricht treaty and have parallel institutions to the EU Commission, Court and Council. Most of the western European nation left EFTA and formed EU (former EEC). However, Norway stayed behind and became the dominant member of EFTA. Last, but not least, there is the Nordic Council (Nordisk Råd) and the Nordic Council of Ministers (Nordisk Ministerråd) that should be a considerable international council for Nordic nations, - but it's definitely not. Although similar to EFTA, EU

and ECHR organizations, - there are no Court to the Nordic Councils. That weakens their international cooperation, so the Nordic Councils appeared paralyzed during the cold war, and still are unable to function properly.

First, some more about the EFTA/EU international Legislative relations. "The Norwegian Parliament signed the EEA Treaty (Maastricht) with EFTA and EU and ratified the EEA Law (EØS Loven). The Danish Parliament held a new referendum about the Lisbon Treaty with four opt-outs, which the democracy approved, even though some major riots by 'anti-European autonomes' were arranged. The four Dane opt-outs concerned cooperation about civil rights, state-finances and military, in addition to the police/judicial cooperation (Europol/Eurojust). These international legal commitments are scarcely honored, due to improper cooperation. The level of international crimes have now become major threats in both nations. Nevertheless, as talked through in UU 2015.juli.10, there is no doubt that Denmark has been legally obligated for over 20 years by the Treaty (TEU - Traktaten om Den Europæiske Union). Anyways, today, Finland and Sweden, which represent about 2/3 of the Nordic population and area, are fully member of the EU." (UU 2015.okt.02.)

Furthermore, and similar to Denmark: "The Constitutional Law, the Human Rights Law and the EEA Law are all superior in their areas and can be related to the Penalty Law. The article 30 and 34 of the EEA Law prohibits customs duties, discriminatory taxes and measures having equivalent effects. The rules of competition forbid undertakings' abuse of market dominance, abuse of competition and discriminating agreements (art. 53 and 54). Public undertakings are regulated as well as the none-public ones (art. 59). Unfair competitive public state aid to undertakings are forbidden (art. 61) and social support shall not be paid directly to any undertakings, but directly to the citizen (art. 61a)." (UU 2013.okt.04.) This means that alternatives to public service providers of schools, transport, health etc. became legal 20 years ago. However, illegal public discriminations are still discriminating in the markets in favor of own undertakings, olicratic cartels and certain unions. A well-functioning parliamentary system would prosecuted and settled this a long time ago." Furthermore, "The present government should initiate professional investigations by Riksrevisjonen (Office of auditors) and related according to the EEA Law. It is suspicious that Økokrim (Office of economic crime) do not have a section dedicated economic crimes in the public sector as it does for the private sector. Presumably there are hundreds of public mal-practices that should be legally prosecuted." (UU 2013.nov.01.)" These laws to promote democratic markets are definitely anti-oligarchic." (UU 2015.okt.23.)

Moreover from UU 2015.juli.10. "Norwegian criminal situations in the executive and judicial power shows further indications that similar still exists in Denmark, - concealed as (psychosocial) Games. Since Norway has ratified the Human Rights as a separate Law and ratified human rights in the constitutional law, the Legislative power has put pressure on the Executive power to judge accordingly. Protest comes from in form of political expressions with critical questions and debates about the legality and ethics concerning the human rights, while (political) Islamists salute and encourage terror towards Norway and Norwegians. Judges has interpreted the 'freedom of speech' without concerns to the clear ECHR exceptions for protection of society and humans. In a recent trial, a speaker of terror was found not guilty by an uninformed people's court, where after the states-prosecutor did not dear to appeal to the supreme court. The obvious wrong judgement might be a faulty reference for future judges. The attitude in the court can be related to the fact that the ratification of a new terror-law has been postponed for 10 years, - argued in a public IT scandal. Consequently, the 22/7 terrorist got his sentence reduced from 30 to 21 years in jail. (UU 2012.aug.24) Likewise, the EFTA court criticizes the Executive powers in Norway for deliberately delay reaction towards financing and money laundering. The next step for the parliament is that they will point out the judges in the prime court where now the LO/AP party membership are proved to affects their judging outcomes. (See previous theme about public IT scandals in UU 2014.mars.07 to UU 2014.april.04.)"

Likewise, in Denmark, indications appear sometimes clear about the lack of trials towards public crimes and directly wrong judging and procedures. As mentioned, "Another recent case proves the illegal and improper ratification of human rights in Dane law. In a recent case, a journalist based his information on information from the national security police PET and wrote that a scientist served (illegally) KGB/FSB. The

point in this case is that the judging was deliberately based on outdated texts in the Constitutional law (Grundloven) and not the legal binding European human rights convention, - that secure the nation against social damaging abuse of 'the freedom of speech', - and that relates to the penalty law." "When the national police and court appear that corrupt, there is critical need for international cooperation with Europol." It is crucial for the nations' security that organized crime are not allowed to corrupt political actors to the Europol/Eurojust referendum, - like the red-green government of crises did before the Greek Euro-referendum." (UU 2015.juli.10.)

Moreover, some political Nordic relations were talked through in UU 2014.dec.12 like this: "The Nordic nations have their success despite SU closeness and infiltrations, - not because of it. Some Nordic relations are talked through in UU 2014.juli.25 and UU 2013.mai.31: "Even after the cold war, one can see that Nordisk Råd (the Nordic Council) is bound to Kaliningrad, Leningrad and Murmansk. These three cities were represented as "the Cuba of the Baltics" KGB/FSB homebase, and the site for massive nuclear testing (See UU 2014.dec.05). Furthermore, there are daily ferry connections between Kaliningrad-Gdansk-Copenhagen-Oslo. Sweden and Finland have probably similar indirect connections to Kaliningrad. More directly are the terror-flights with nuke-capable bombers against the member nations of the Nordic Council. That recalls memories of the terror-bombing of the Danish island Bornholm in ww2, and the threats to make Copenhagen/Sjælland (Zealand) to an East-Denmark like East-Germany." UU 2015.mai.29. However, Dane coldwar politics and cultural changes indicates similarities to coldwar Berlin.

Psychiatrist overruling of civil penalty Law is certainly controversial in the Nordic nations. ('Forensic psychiatry' (Rettspsykiatri) is a sub-specialty of psychiatry that relates to criminology.) UU 2015.aug.28 and UU 2014.dec.19 describes how organized psychiatrist illegally overruled national courts on grand scale. "One person's psychosis can undoubtedly be propagated to an entirely psychiatric organization – even nations. It is proven in STV documentary 'The woman behind Thomas Quick' (Kvinnan bakom Thomas Quick) that is talked through in UU 2014.juli.18: "The Quick case lost all its fantastic attention with the disclosure that he was no mass murderer at all, but merely a childlike patient with free meals, housing, drugs and hypnosis under the psychiatric matriarch. There seems to be some Oedipus-relations where life-long room service was the reward." "He admitted 39 murders (some in Norway) and was convicted for 8 that he did not even do. No technical evidences and no witnesses have ever linked him to any of the convicted murders. The trials lasted for years and cost 200 million kroner. The murders were made up by a desperate person that lied to get drugs, social relations and attention. He was supported by a cult of psychologists, doctors, police, prosecutors and layers, - that lied just as much, - or even more." There is no reason to assume that Denmark is not subject to similar judicial crimes as Sweden and Norway.

There is an infamous failed attempt by psychiatrist to overrule the Court in the Norwegian terrorist case of 22/7 (UU 2014.nov.14). "There seems to be some alarming similarities to some ABB personal profiles. UU 2012.mai.18 to UU 2012.juli.20 followed the 22/7 trial about the CdE bomb and AUF massacre. During the trial, there were 2 contradicting psychiatric evaluation of his personality that caused serious distrust to the legal psychiatric system. The second psychiatric evaluation diagnosed ABB as not schizophrenic, delusional or psychotic, but rather with antisocial and narcissistic personality disorder, possibly Asperger and Tourette syndrome and some possibly paranoid psychosis. His lack of emotion, monotonous voice, 'stone-face' and peculiar smile was considered deliberate responses to his environment, indicating ulteriority, dishonesty, - or briefly, - a Game player. Furthermore, some psychiatrists seem political motivated Game players." The 2 very different diagnosis by the Forensic psychiatrists left civil court questioning whether their organization themselves were like diluted, psychotic and schizophrenic. Anyhow, the civil judges had to dismiss the psychiatrists' attempt to overrule the civil court and take the terrorist into their care. Yet again, - there is no reason to assume that Denmark is not subject to similar judicial crimes.

A main reason for corruptions of European Judicial powers is of cause the anti-thesis, 'the Moscow-thesis', 'the International' – 'the 3rd Comintern'. (This was mentioned in the previous UU 2015.okt.23 about corruption of the Executive Power / the public sector.) It was initiated with Lenin and the first European ww1, executed by Stalin and the second European ww2 and continued through the 50 years of coldwar towards European nations. Some more quotes from the conditions (C.) proves the international crimes

towards European parliamentary LEJs. "C1 In the columns of the press, at public meetings, in the trades unions, in the co-operatives – wherever the members of the Communist International can gain admittance – it is necessary to brand not only the bourgeoisie (civilians/borgere) but also its helpers, the reformists of every shade, systematically and pitilessly." "C3 "In almost every country in Europe and America the class struggle is entering the phase of civil war. Under such conditions the communists can place no trust in bourgeois legality. They have the obligation of setting up a parallel organisational apparatus which, at the decisive moment, can assist the party to do its duty to the revolution (CdE Game). In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity." "C12, The parties belonging to the Communist International must be built on the basis of the principle of democratic centralism. In the present epoch of acute civil war the communist party will only be able to fulfil its duty if it is organised in as centralist a manner as possible, if iron discipline reigns within it and if the party centre, sustained by the confidence of the party membership, is endowed with the fullest rights and authority and the most far-reaching powers." Most of these conditions towards European citizens and nations are high treasons and subject for the most serious paragraphs in any national penalty Law. However, none seems ever convicted by Dane or Norwegian Legal systems. There is only one explanation for that, - the Judicial systems are seriously corrupted.

The inefficiency of the Council of Europe (Europarådet), which should promote European human rights, is highly influenced by the dominant member Russia. The present General Secretary might very well cause Chinese hostilities towards EU as he did to Norway. He is rather disrespected for political fatalities and being posted to central and powerful positions. The LO general secretary publically called him 'his boy', when being a candidate as prime minister. He was positioned as general secretary in the Nobel Peace committee after being prime minister and president of parliament in Norway. Prior to that, the Dalai Lama was a well-reputed peace prizewinner because of his peaceful handling of the hostile Chinese occupation of their land. However, the new general secretary gave the price to a Chinese convicted dissident that made the Chinese react towards the Nobel committee. However, the hostilities were re-directed towards Norway and the Norwegians instead, - at high diplomatic and economic costs that are not yet normalized. Later, as general secretary Council of Europe, he was responsible for all the delays and mismanage while Russia invaded Ukrainian territories and killed thousands. However, soon after, his personal vendetta toward the Chinese was repeated, making statements related to his fatalities in the Nobel Peace committee. He knows very well that ECHR applies to Europeans only and do not apply in other continents like China and that he is in no title to try to annul a Chinese 'fair trial'. Furthermore, he knows very well that the name 'Council of Europe' is too often confused with EU. This repetition of fatality seems to be an attempt to trigger another Game of LYAHF (Let's You and Him Fight), between Europe and China, - like the previous between Norway and China. However, such Games have a cloaked third actor that triggers it. All the general secretary's previous relations and fatalities points to Russia via LO.

There are several fatale politicians that are put in vital position to mismanage European nations believing in the 'Moscow anti-thesis'. Such psychosocial war-like Games of 4th degree has been going on for a hundred years (1914-2014). Basically, it is GdE (Games d' Etat) to prepare the CdE (Coup d' Etat) by '5th colonists' pillaging to weaken the European democratic nations, - as the 3rd Comintern still requires of its pro-Russian separatist. However, a 100 years of pillaging, corruptions, manipulations and wars should be proof enough that it all is merely destructive and based on sociopathy, - and that the ideologies and isms are illegitimate arguments for sociopaths to keep going on for generations. There should be no doubt about the fundamental reasons, like explained in UU 2015.okt.09 about FSB/GRU and UU 2014.juni.13 about PROSA.

Such organizational psychology cannot be explained by traditional social psychology because the models are too limited. Therefor the 3^3 model was made, - and it is continuously innovating. As mentioned in UU 2015.mars.13. "The Belief dimension of the 3x3 model is different from Drive and Will. Freud and Jung called it 'Superior-Ego', while Berne called it 'Parent'. Belief concerns ideas of what we cannot possibly fully understand, yet need to know and trust. Here, focus is set on Belief in Supremacies like the S-E. The Superior-ID (S-I/Drive) was included 2 years ago. Now, the Superior-Devine (S-D/Belief), a new and third

subcategory, is included to complete the model. However, (...), the (previous) 3x3 model has become a 3^3 model, i.e. 3x3x3, because of the 3x subcategories in Drive, Will and Belief."

"The Supremacy dimension is based on Freud's classical psychological 'ego-state' Superior-Ego, - i.e. any overruling of human Will and Drive. It is hereby sub-categorized into S-I (Superior-ID), S-E (Superior-Ego) and S-D (Superior-Devine) in order to suite the 3^3 psychosocial model. It does not concern theological or philosophical question of whether long gone ancestors, gods or other divinities exist, - but concerns the belief in, or denial of, such. Psychologically, it is valid since no one can deny the existence and importance of believes, - religious or not. Yet, subcategorizations of Belief cannot be as concrete as for Will or Drive, - like tangible terms on does not describe the intangible well. Besides, the values of Good/Use/Right (GUR) and Throne/State/Temple (Th/St/Te) are still relevant and is re-vitalized in this sense." Furthermore "As mentioned in UU 2015.mars.13, the new 3^3 social sub-categories for the ego-state Belief are: UNO (Universal Natural Order) a UB (UnderConscience Belief) sub-category of Drive that relates to S-I (Superior-ID). WoW (Well of Wisdom) a CB (Conscience Belief) subcategory and related to CW (Conscience Will). SET (Supreme Extra Terrestrial) an OB (OverConscience Belief) sub-category of Belief that relates to S-D (Superior-Devine)." (UU 2015.april.03)

However, the association to the Extra UU2 and this theme is that mistakes in real life can be due to obsessions of Games like Chess, - because reality is far from as simple as chess strategy. Stumbling after a couple of moves, when reality hits the plan, should make one reconsider the introvert perceptions of reality, do a Game Over and Restart, instead of delusional tumbling down destructive paths for a hundred years. Problems escalates exponential for each step.

Chess is a musical by Benny Andersson and Björn Ulvaeus, formerly of ABBA. The lyrics are by Tim Rice that made the lyrics to 'Jesus Christ Superstar' with Andrew Lloyd Webber. The story of Chess involves a politically driven, coldwar chess tournament between two US and SU grandmasters. Although the characters were not intended to represent any real individuals, they were loosely based on Bobby Fischer Viktor Korchnoi and Anatoly Karpov, - and the stage is inspired by the historic world championship at Iceland in 1972.

An arbiter is a person or object having the power of judging and determining, or ordaining, without control, - one whose power of deciding and governing is not limited. In this musical, the arbiter is a coldly objective, no-nonsense referee of the championship tournament and also the president of the International Chess Federation. (Chess was also in UU 2015.mars.06.)

However, the association to this UU theme is the faults in real life an obsession of Games like Chess can cause, - because reality is far from as simple as chess strategy. Stumbling after a couple of moves, when reality hits the plan, should make one reconsider the introvert perceptions of reality, do a Game Over and Restart, instead of delusional tumbling down destructive paths for a hundred years. Problems escalates exponential for each step.

Extra UU1 - Crossing Lines Season 3 trailer

It is hard to compress the conflicts and consequences of organized crime in Europe. The TV-series Crossing Lines gives interesting insight in an entertaining way, - like other criminal TV-series. However, this TV-series is not about Europol and Eurojust, but some similar fictional organizations that fight international crimes in Europe.

The TV series is available on Netflix, - that can be seen free in a month's time.

Extra UU2 - Nobody's (on nobody's) side

The consequences of judicial triangle affairs might very well be anarchy, - a fortunate arena for international criminal organizations. In Chess, there is an unsettling triangle love affair like the psychosocial Game LYAHF.

However, the association to the Extra UU2 and this theme is that mistakes in real life can be due to obsessions of Games like Chess, - because reality is far from as simple as chess strategy. Stumbling after a couple of moves, when reality hits the plan, should make one reconsider the introvert perceptions of reality, do a Game Over and Restart, instead of delusional tumbling down destructive paths for a hundred years. Joe Jackson - Crime Don't Pay (3)

2015.oct.23

Ukens Utvalgte

The Danish Executive power is known as the 'Public Sector'. It is committed to provide products and services to Danish citizens and society as the Parliament and its Government order. A main reason serious mismanagement is obvious, - public servants are rarely investigated and put to trial according to the national penalty law. Some cold-war public servants are 'untouchables' to the legal system. There is a saying 'Crime Don't Pay', - that should apply for all. However, evidently, the international criminal organizations are the main opponents to Danish cooperation with EUROJUST, EUROPOL and CEPOL, - and the resistance amongst civil servants is relatively high prior to the upcoming opt-in referendum.

International criminal organizations are 'Game players' by nature and psychosocial definition, - i.e. they have hidden agendas, do ulterior 'moves' to get unrightfully benefits - often at others' costs. In brief, according to Eric Berne, the fundamental attitude of Underworld Game-players says it all; 'honesty is for

suckers'. (Games are explained in UU 2014.sept.12.) 'Underworld Games' was mentioned in the previous UU 2015.okt.16. "The article 'Political corruption' mentions several types of corruption like; extortion, comradeship, scandalizing, electoral cheating, fraud, 'financial mess', bribery and mafia activities. Global corruptions concern mainly drug-trafficking, human smuggling and whitewashing of money. The annual global political corruption is estimated to be about 1 trillion \$/year, the global GWP is about 70 trillion \$/y and the Norwegian (and Dane) GNP is about 1 trillion Kr/y. This means that the Norwegian (and Dane) political corruption is about 2% of the state's budget, i.e. about 20 milliard kr/y." Furthermore, "A classification (of deceptions) counts 34 categories. Bad faith, Barefaced lie, Big lie, Bluffing, Bullshit, Butler lie, Contextual lie, Cover-up, Deflecting, Delusions, Dismissal, Economical with the truth, Exaggeration, Fabrication, Fib, Fraud, Half-truth, Haystack answer, Honest lie, Jocose lie, Lie-to-children, Lying by omission, Lying in trade, Minimization, Misleading and dissembling, Noble lie, Omission, Pathological lie, Perjury, Polite lie, Puffery, Speaking with forked tongue, Weasel word & White lie."

Although silenced, there are serious indications of relatively high criminal activities in the public sector, - in the parliamentary Executive power. One deceiving misinterpretation is the CPI factor that is used as 'proof' of a low level of corruption in the Nordic nations. However, CPI means 'Corruption Perceptions Index', which tells the realized level of corruption – not the actual level. A low CPI might as well mean that the corruption is high and the perception of it is low (UU 2014.okt.24). CPI statistics are used as political arguments to not increase investigation of corruption.

Mafia - is a general term to identify and recognize international organized crime. Mafias are the main opponents to Parliamentary 'Rule by Law'. Such stereotyping is necessary for Game analyzing, - and to move focus from all those scapegoats and suckers that are scarified as 'expendables'. This focus will be set on the so-called 'Red Mafia' that is well documented in this post-coldwar century. It is the most powerful and widespread culture, has targeted European nations for a 100 years and is still highly political. However, this focus is not to forget all the other relevant mafias like the Italian, Albanian, Armenian, American, African, Asian etc.

The BBC / History video about the Russian Mafia documents that the so-called 'Red Mafia' that controls 40% of Russian economy, is the fastest growing, the most dangerous and operates at nation state levels. (See the Extra UU.) It also shows 100 years foundations to ww1, the imperial CdE (Coup d' Etat) and the mass assimilations in the SU Empire. However, there is no reason to ignore its cultural existence from Tsar Ivan's regime and the foundation of Roma³ and Oprichnina 500 years ago (UU 2015.okt.09). Anyways, in brief, the hardcore mafia of this century stems from several generations of Russians that survived the Russian revolution, ww1, Stalin's mass-terrors, ww2, Gulag concentration camps and colonialization programs, and the Russian contra revolutions of Perestroika and Glasnost. Now, in this century, the Red Mafia got an intuitive culture where 'Rule by Law', national border and democracy and not apply, - and where personal profit is their utmost value-system. There should be no doubt that EUROJUST, EUROPOL and CEPOL are considered main obstacles to the Red Mafia and are dealt with as such - in their own ways. Most alarming, - there are convincing examples that FSB and GRU uses the Red Mafia Factions as PROSA in Imperial ambitions. (See the UU Theme base on the BBC documentary 'Putin, Russia and The West' in UU 2014.nov.07, UU 2014.nov.28, UU 2014.nov.21 and UU 2014.nov.14.). Actually, Putin was raised by street-gangs of Leningrad before admitted as a KGB/FSB agent and the puppet president in 1999.

The relations in Dane and Nordic societies become far more transparent when knowing the 100 years rise of the Red Mafia and the accordingly corruption of LEJ (Legislative/Executorial/Judicial powers). The public sector has cold war legacies that are not applicable, and even illegal, to this century's Denmark and Europe. The conditions and potentials of the nations are well documented in the OECD report 'Government at a Glance' and the Produktivitetskommissionens rapport (UU 2015.juni.05 and UU 2015.juni.26). Furthermore, Denmark and Norway seem to have some of the same fatal malfunctions in Police and Military as concluded by the Norwegian '22/7 Commissions report'. As talked through in UU 2014.okt.17. "The economic crimes of scandalous public projects and services are mentioned in UU 2013.nov.01. UU 2013.sept.27 describes the basic professional knowledge about qualitative governing, maintain and innovating public services, - in addition to the massive critique in the 22/7 Commission's report. It says that

“Leaders at all levels in the public sector (need to) systematic work to improve personal and organizational basic attitudes and culture concerning; risk acknowledgement, fulfillment, cooperation, IT-usage and result-oriented leadership.’ (See UU 2013.aug.09.) This is how harsh such a formal criticism can be and clearly indicates that the public sector is fundamentally malfunctioning. Even worse, it doesn’t show serious signs of improvement since the 3 years has passed.” In fact, a recent joint police and military anti-terror exercise ‘Gemini’ proved no improvements since the terror attacks in 22/7 towards the Government and concluded that all the participants would have died. This also proves that far greater forces than the national ones are at Play, - and that the corruption of the national police and military forces cannot reach acceptable qualities without international cooperation and support, - in this UU relation - the EUROJUST, EUROPOL and CEPOL.

Public servants of the Executive power are obliged to execute orders from its Parliament/Government. If not doing so, they are to be prosecuted in accordance to the Penalty law by the Legislative power, - just like ‘bourgeois’ civilians. This obviously applies to legalities of this century too. As mentioned in UU 2015.juli.10, “There is no doubt that Denmark has be legally obligated for over 20 years by the Treaty (TEU - Traktaten om Den Europæiske Union).” Numerus of public servants have become criminal actors due to anti-European political actors’ misinformation within public sector. The dilemma is thoroughly talked through in UU 2014.okt.24 with similar focus on Norway’s relation to EU. “In 1994 the law-making Parliament ratified the EEA law concerning the European internal market instead of becoming a full member of EU. The new rules of competition caused considerable legal and commercial changes, - especially for the 3 constitutional powers; the Parliament (Legislative), the public sector and the legal system (LEJ). Suddenly, both private and public (oligarchic) cartel practices became illegal. The adaptations to legal practices are comprehensive, - which such dominant actors naturally resist. Today, 20 years later, there are just minor practical adaptations to the law. The media rarely seems to mention such illegalities and leaves the impression is that the law is practically neglected.” UU 2013.nov.01

Furthermore, and similar to Denmark: “The Constitutional Law, the Human Rights Law and the EEA Law are all superior in their areas and can be related to the Penalty Law. The article 30 and 34 of the EEA Law prohibits customs duties, discriminatory taxes and measures having equivalent effects. The rules of competition forbid undertakings’ abuse of market dominance, abuse of competition and discriminating agreements (art. 53 and 54). Public undertakings are regulated as well as the none-public ones (art. 59). Unfair competitive public state aid to undertakings are forbidden (art. 61) and social support shall not be paid directly to any undertakings, but directly to the citizen (art. 61a).” (UU 2013.okt.04.) This means that alternatives to public service providers of schools, transport, health etc. became legal 20 years ago. However, illegal public discriminations are still discriminating in the markets in favor of own undertakings, oligarchic cartels and certain unions. A well-functioning parliamentary system would prosecuted and settled this a long time ago.” Furthermore, “The present government should initiate professional investigations by Riksrevisjonen (Office of auditors) and related according to the EEA Law. It is suspicious that Økokrim (Office of economic crime) do not have a section dedicated economic crimes in the public sector as it does for the private sector. Presumably there are hundreds of public mal-practices that should be legally prosecuted.” (UU 2013.nov.01.)” These laws to promote democratic markets and are definitely anti-oligarchic. Consequently, Russian oligarchs are main opponents to the European Internal Market, - even though not saying so openly.

Furthermore, the SMEs (small and medium sized enterprises) are 80% of the market in Norden. They are particularly important for democratic nations, very defenseless towards predatory oligarchic competition and has extraordinary legal protection and support in accordance to European Legislation. Furthermore, “The SMEs suffer from illegally ‘abuse of market dominances’. Besides, the EEA law obligates public protection and support to SMEs because the regional local societies will extinct if their SMBs suffers. The past 20 years growth of cartels in the primary industry is the main reason for the decay in local agriculture, stores and other SMBs. Contrary to anti-European propaganda, the solution is to protect those by the EEA Law and not by SU inspired agricultural industrialization. The farmers do run their own SMBs.” However, with legal use of LOA, the public sector’s enormous market would not be closed for SMBs. That would save a lot of them and consequently the fundament for regional cultures, - in addition to higher qualities and lower prices for the public purchases.”

Coldwar propaganda has created an illusion that the market consists of a public and a private market. How untrue. Dominating oligarch have no exclusive right to state aid and exclusions from the law, - like some mafia 'untouchables'. Unfortunately, national SMEs are nearly cleansed out of the national market due to state-aid corruption, protection from prosecution and hostile dominance in the democratic markets. Consequently, deliveries of product and service to the civil population and public services have too high costs and too low qualities, - as stated in the OECD reports.

Most of the abuse of public services pin-points to one single organization,- the Nordic federal trade union – LO (Lands Organisasjonen). It was established during the WW1 with clear intentions and missions according to the Comintern. The NRK documentary 'LO sitt store comeback' (UU 2013.aug.23) proves that LO still corrupts LEJ in most aspects. "LO gave Arbeiderpartiet (AP) 13 million kroner for mutual benefits. In return, AP assigned ministry post, several board memberships in state dominated enterprises, altered regulations for social benefits and privacy, and introduce a so-called 're-communalization' in the city Trondheim. All these gifts are beneficial for LO and contradicts several laws. LO was indeed taken to the Court for corruption, but the case was dismissed due to arguments of 'inaccurate formulations.'" Furthermore, The Dane LO was discussed during the previous parliamentary election in UU 2011.Okt.14. "LO is not what they claim to be. It is a large capitalistic multinational enterprise with unrestrained greed for power and profit. It utilizes thousands of low-waged personnel for unpaid work in others' companies and departments. The rewards are alternative favors that is unregistered and not taxed. The economic key numbers of Dane LO are clear; the enterprise equity is as high as 655.6 million kr, there are only 148 paid employees, the annual result is calculated to be -17.3 million kr so LO do not pay any tax to Denmark. Corrupted employees in companies are 'helped' into positions, - especially with high power and low responsibility. Disloyalty towards the employer and loyalty to LO is unconditional. During the coldwar, LO got their agents on most sides of the negotiation-tables in public sector. However, LO is founded on the Comintern and remote controlled. Consequently, LO agents in the Executive Power (public sector) are to execute orders of the Comintern, - and rewarded or punished for the results in Red Mafia ways.

The 21 condition of Third International (Comintern) was made in 1919. As mentioned in the previous UU 2015.okt.16, this Moscow thesis have been fundamental for national communist parties (NKP/DKP and successor) and the Nordic Confederation of Trade Unions' (LO). The 21 Conditions of Admission to the Communist International were suggested by Vladimir Lenin and formally adopted by the Second Congress of the Comintern in 1920. In brief, it declare wars towards the nations of Europe and America, at democratic civilians (bourgeois), encourages no mercy to its enemies, demands legal and illegal actions to execute Coup d' Etat (CdE) and demands unconditional submission to Moscow. There is no indication that such trade unions (LO) or parties (EL/Rødt) have ever annulled the bondage and submissions to the Comintern of 1919. There is no reason to assume that the demanding conditions are not still in effect.

Some quotes from the Comintern are: "Condition 3 (C3): In almost every country in Europe and America the class struggle is entering the phase of civil war. Under such conditions, the communists can place no trust in bourgeois legality. They have the obligation of setting up a parallel organizational apparatus, which, at the decisive moment, can assist the party to do its duty to the revolution. In every country where a state of siege or emergency laws deprive the communists of the opportunity of carrying on all their work legally, it is absolutely necessary to combine legal and illegal activity." C6: "no 'democratic' reorganisation of the League of Nations will be able to prevent new imperialist wars." (i.e. predecessor to UN and EU) C9: "Every party that wishes to belong to the Communist International must systematically and persistently develop communist activities within the trades unions, workers' and works councils, the consumer co-operatives and other mass workers' organizations. Within these organizations, it is necessary to organize communist cells, which are to win the trades unions etc. for the cause of communism by incessant and persistent work." C14: "Every party that wishes to belong to the Communist International has the obligation to give unconditional support to every soviet republic in its struggle against the forces of counter-revolution. The communist parties must carry out clear propaganda to prevent the transport of war material to the enemies of the soviet republics. They must also carry out legal or illegal propaganda, etc., with every means at their disposal among troops sent to stifle workers' republics." C17. "... The Communist International has

declared war on the whole bourgeois world and on all yellow social-democratic parties. The difference between the communist parties and the old official 'social-democratic' or 'socialist' parties that have betrayed the banner of the working class must be clear to every simple toiler." In brief, - this International is simply a statement for 'International Crimes' that EUROJUST, EUROPOL and CEPOL fights.

There is no way that a small democratic nation can deal with imperial mafias. As mentioned in UU 2011.aug.26 and UU 2011.juli.29 in relation to the 22/7 assaults in Norway. "This was coordinated terror attacks, not merely towards the Norwegian Government, but towards all of NATO, EFTA/EU and the UN. Therefore, NATO shall be involved in the investigation. Furthermore, the police cooperation of Schengen (+ EUROJUST, EUROPOL and CEPOL) are most relevant. Norway (and other Nordic countries) have great need for considerable assistance from NATO and EU, because it is now obvious that we cannot handle it ourselves when divided. Particularly alarming is LO political psychotic symbiosis with the governmental AP." It should be clear in this century that LO has been used as a remote-controlled para-LEJ, - and is about to be upgraded according to the Russian reorganizations in this century.

Dane crises in the Executive power shows different indications. Some were talked through as the Pirate Bay vs CSC cases in UU 2015.feb.20. "It is necessary to control public data systems in order to execute CdE crimes. Such has not been proven in Norway, though highly indicated in many ways, - e.g. the delays in modernizing terror laws, the major failed IT projects, the obvious corruptions in investments, the failing communications, investigations and action. However, massive and long-lasting cyber-crimes has been uncovered in the Danish police. This was mentioned in UU 2014.nov.28: "The massive cybercrimes against the Police, Military, Tax-authorities Public health in CSC Denmark and IBM mainframes were executed by disloyal employees, remote computers in Pirate Bay and controlled from Asia. The delays in police investigation indicate massive organized crimes that also include employees in the Danish police force. Therefore, it is simply beyond any nativity to claim that this major operation was organized by two young sociopaths." "Most alarming is the extensive use of the hackers' favorite operating system - Linux. Anyhow, the ongoing trial in Denmark is most probably just the tip of an iceberg in all of the public sectors in all NATO nations." Furthermore as mentioned in UU 2014.dec.12 "Most alarming is the recent take-over of all IBM Intel Server in all NATO nations public and private sectors. (See UU 2014.nov.28.) Big Blue made Big Red by handing over the needed resources, network, servers and technology to execute considerable IT hacking, espionage, and info/money manipulations." NATO nations' public sectors do not seem to realize that most of their main IT systems are now legally in Chinese control too."

It seems to be useful and necessary to repeat a summary of Games in this UU LEJ Theme. "This summary of defined Games from UU 2015.aug.28 might be helpful. "Criminal Games are mainly of the category Underworld, but can include categories like Life Games, Marital Games, Party Games, Sexual Games, Consulting Room Games and even Good Games'. These are often mentioned in UU and summarized in UU 2015.mars.06. "Some classic Games are. YDYB (Why Don't You, Yes But), IFWY (If It Weren't For You), WAHM (Why does this Always Happen to Me?), SWYMD (See What You Made Me Do), UGMIT (You Got Me Into This), LHIT (Look How Hard I've Tried), ITHY (I'm Only Trying to Help You), LPAFJ (Let's Pull A Fast one on Joey), NIGYSOB (Now I've Got You, You Son of a Bitch), LYAHF (Let's You and Him Fight), RAPO 'Psychiatry' and 'Courtroom'. A complete list of Berne's classic Games is talked through in his book 'Games People Play' that is now free on the internet. "Some (self-defined) new Games are: DAC&UAC (Devide&Conquer & Unite&Conquer), ISR (It Started with the Retribution), ABD (Attack is the Best Defense), Jante/TUD (The Ugly Duckling), TLM (Two Little Maids), BGGG (Bad Guy, Good Guy), RPPP (Robbing Pete to Pay Paul), ODAB (One's Death – Another's Bread) and the Russian BOOFY (Beat your Own and Others will Fear You), in addition to the new in extra UU 2015.okt.09, PPP Parroting Pravda Propaganda. Psychosocial Games are in general described in UU 2014.sept.12."

There was a note about the Drive dimension in the previous UU 2015.okt.16 that will be talked through in the last UU of this Theme. "Such Games as CiH are from the 3^3 (3x3x3 dimensional) socialpsychological model (UU 2014.sept.12), - a completely redefined categorization of Games. It includes Jungian worlds of humanity's nature that is far from fully explored. However, in brief, the 3^3 Game categories were related to the basic socialpsychological ego-states Drive (previously ID/Child) as AnnimalFarm (AF), WildLife (WL)

and RainForest (RF) (UU 2015.feb.27). However, - although the 3^3 Game categories are relevant for societies, the simpler Berne 3D Game categories are more relevant for LEJ Game analysis." Nevertheless, Drive is very relevant for the Red Mafia. The Gulag colonialization programs has been a breeder for Red Mafia cultures and become a global S-I in every European and American nations and states (ref. the Comintern's 21 conditions.)

More relevant for this UU's Executive LEJ dimension is the next psychosocial 'Will' dimension. As initially explained in UU 2015.mars.06: "The merged 3x3 Game model does mostly apply to the social ego-state 'Will'. Freud and Jung call it 'Ego', but Eric Bern called it 'Adult'. This UU sets focus on three social Game categories of Will, namely KoC (King of the Castle), CdE (Coup d' Etat) and GoT (Games of Temples). Such a large theme needs an archetype to grasp the idea, - a simple stereotype like Napoleon. The main reason to focus on Games is the simple truth that everyone lies and deceives. This reality is underestimated and have serious consequences, - as the Charlie incident in Paris showed." However, the most relevant Game category is rather called GdE (Games d' Etat) that includes CdE and all the pre- and post-games related.

In relation to this second psychoanalysis of Dane LEJ, the 3^3 Game categories should rather be related as: KoC – relates to the Parliament and Government and all the games in there. (UU 2015.okt.16) GdE – relates to the public sector that has been talked through in this UU. GoT – relates to all the believes, especially Platonic beliefs in the State and related isms. (See 'isms' in UU 2013.nov.29.)

Joe Jackson – 'Crime Don't Pay' has been used twice before and specially with focus on LO in UU 2013.aug.23. The title is certainly sarcastic. The song starts with some instrumental dramatic mafia introduction, followed by a quick dialog between a robber and a robbed. One is left in wonder on how much is true is really in the saying. The second part of the song is merely instrumental, - but descriptive as well. An amateur has obviously found an organ and tries to harmonize with the band. The organist has apparently everything left to learn, but is learning, - well guided and supported by rhythms and tunes from the band. The pianist whirls around the organist and pulls him in more harmonic directions. It is a pity though, that the producer faded them out before they completed the masterpiece.

Michael Jackson - Smooth Criminal

2015.okt.16

Ukens Utvalgte

The Dane Parliament (Folketinget) is the sovereign Legislate power that propose, accept or reject national laws and regulations. Its Government ensures the Quality of the Executive and Judicial powers, - whether they do their job or not. Since the quality of LEJ is so critical for Danes, the 3 following UU will analyze the LEJ Quality in order to pinpoint obstacles to Dane cooperation with other European nations in fighting international crime and corruption. Finally, a last UU will conclude why Danes should vote 'Yes please' and not be fooled by 'Smooth Criminals' to reject EUROJUST, EUROPOL and CEPOL.

International criminal organizations are definitely the main enemies to a well-functional Danish Government, Police and Legal system. The ulterior silencing of that obvious fact indicates how manipulated the societies already are. As mentioned in UU 2015.okt.02: "(LEJ) are bound to the Parliamentary principles of 'division of powers' and the 'rule by law', which are maintained by the Police and Legal systems. Most vital to any civilization is their Penalty laws that prevents and removes the most damaging crimes in society. The European nations that signed the International legal agreements of EU, ECHR and UN decades ago should immediately ratify and execute them as national law. However, - political and criminal corruption have certainly been influential and corrupting. Dane LEJ needs strengthening by international cooperation, - in order to maintain their civil democracy."

Parliamentary democracy is fragile and can be naïve. However, democracy is the only way to secure 'common sense' as a political factor in the LEJ System. Without 'common sense', the LEJ powers will sooner or later become alien and unsound, - corrupted and decay, - and finally collapse, - probably in a Coup d'Etat (CdE Game). It might be hard to realize how much hardcore Game players can influence political actors in- and outside the Parliament. However, international criminal organizations can be like mafias of several kinds, - like the Italian mafia, the American mafia, the Russian mafia, Chinese mafia and lots of more. These can be extremely violent, - physiologically, psychologically and even politically. Such do not prioritize Danish democracy, parliamentary or laws, - but are rather anti- such. Therefore, it is necessary for all the democratic citizens to realize that a single nation cannot ever counter-fight international crime, - and should never reject their fellow international crime-fighters. Rejecting such help is surely self-destructive and crime-promoting.

Furthermore “The article ‘Political corruption’ mentions several types of corruption like; extortion, comradeship, scandalizing, electoral cheating, fraud, ‘financial mess’, bribery and mafia activities. Global corruptions concern mainly drug-trafficking, human smuggling and whitewashing of money. The annual global political corruption is estimated to be about 1 trillion \$/year, the global GWP is about 70 trillion \$/y and the Norwegian (and Dane) GNP is about 1 trillion Kr/y. This means that the Norwegian (and Dane) political corruption is about 2% of the state’s budget, i.e. about 20 milliard kr/y. That suites the thumb-rule that there is an average of 2% disloyal employees (in most firms).” This also include terms like industrial espionage, information thefts, sabotage, pillaging, manipulation, disinformation, prostitution, slavery, narcotics, weapons, robberies, terror, and tax-fraud.” Corruption is per psychosocial definition Games, due to the hidden agendas to gain at other’s costs. (See the detailed descriptions of Games in UU 2014.sept.12.)

There are sociopolitical model that can uncover some of the ‘Underworld’ Games at play, - the hardcore Games that hinder the Dane authorities to fight domestic crimes. It is based on the well-known truth that humans are dishonest and ulterior by nature – and that denying that fact merely exposes a Game at play. “A classification counts 34 categories. Bad faith, Barefaced lie, Big lie, Bluffing, Bullshit, Butler lie, Contextual lie, Cover-up, Deflecting, Delusions, Dismissal, Economical with the truth, Exaggeration, Fabrication, Fib, Fraud, Half-truth, Haystack answer, Honest lie, Jocose lie, Lie-to-children, Lying by omission, Lying in trade, Minimization, Misleading and dissembling, Noble lie, Omission, Pathological lie, Perjury, Polite lie, Puffery, Speaking with forked tongue, Weasel word & White lie. Anyhow, deceptions can be of positive or negative moral and not necessarily ethical rejectable. It is however important to have system of Values like GCR (Good/Constructive/Right) in order, when facing such.” (UU 2015.mars.06 and UU 2013.mars.15) This can certainly be analyzed as psychosocial Games as described in UU 2014.sept.12.

This summary of defined Games from UU 2015.aug.28 might be helpful. “Criminal Games are mainly of the category Underworld, but can include categories like Life Games, Marital Games, Party Games, Sexual Games, Consulting Room Games and even Good Games’. These are often mentioned in UU and summarized in UU 2015.mars.06. “Some classic Games are. YDYB (Why Don't You, Yes But), IFWY (If It Weren't For You), WAHM (Why does this Always Happen to Me?), SWYMD (See What You Made Me Do), UGMIT (You Got Me Into This), LHIT (Look How Hard I've Tried), ITHY (I'm Only Trying to Help You), LPAFJ (Let's Pull A Fast one on Joey), NIGYSOB (Now I've Got You, You Son of a Bitch), LYAHF (Let's You and Him Fight), RAPO ‘Psychiatry’ and ‘Courtroom’. A complete list of Berne’s classic Games is talked through in his book ‘Games People Play’ that is now free on the internet. “Some (self-defined) new Games are: DAC&UAC (Devide&Conquer & Unite&Conquer), ISR (It Started with the Retribution), ABD (Attack is the Best Defense), Jante/TUD (The Ugly Duckling), TLM (Two Little Maids), BGGG (Bad Guy, Good Guy), RPPP (Robbing Pete to Pay Paul), ODAB (One’s Death – Another’s Bread) and the Russian BOOFY (Beat your Own and Others will Fear You), in addition to the new in extra UU 2015.okt.09, PPP Parroting Pravda Propaganda. Psychosocial Games are in general described in UU 2014.sept.12.”

The 3D model is another tool to improve the perception of political Games. The 3D political model is a psychosocial version of the traditional 1D political model. It is described in UU 2015.juni.12 for Dane and Nor parties. Originally, 3D was related to the parliamentary fundamentals Throne/State/Temple, but is now rather related to LEJ (Legislative/Executorial/Judicial). “A 3D model gives different perceptions of the political world than today’s 1D model. Organizations’ names can be misleading. Confusing is that the Dane Venstre (Left) is like the Norwegian Høyre (Right), and that the Dane Radikale Venstre (RV) was a civil (borgerlig) party in Government, while the Norwegian RV (Rød Valgallianse) was a left-extremist failure. Furthermore, the 1D model shows several parties ‘in the middle’ while the 3D presents more descriptive relations. The Nor SP (Senterpartiet/farmers) is confusing, since it is not in the center of neither 1D, 2D nor 3D. Politically, SP moved from Throne to State and is now bound to State subsidies. KrF (Kristelig Folkeparti) relates more to Throne and State than Temple due to family policies and the State dominated Church (Statskirken). FrP/DF (Fremskrittspartiet/Dansk Folkeparti) was originally Throne oriented, with factions’ hard rhetoric of anti-State. Rødt (Red) and EL (Enhedslisten) are extreme State parties that still find civil war ‘necessary means’ for their CdE (Coup d’ Etat) ambitions. National socialists relate, as the name indicates, to State, but became dominated by the next generation, - national communists (after ww2).”

Furthermore, “Political organizations changes over time. It shows in a 4D model, where 3D positions reveals movements over time. Terms like ‘conservative’ and ‘radical’ are no longer fixed positions in 3D, but show stillness and movements in 4D. Organizations can even be relatively conservative or radical in timeframes. The organization, not party, LO is one of Norway’s most conservative political organization, despite its extremely radical origin. LO’s bond to AP (Arbeiderpartiet/Labor) makes it a powerful para-LEJ actor. (UU 2013.sept.20 and UU 2013.aug.23.) On the other hand, conservative organizations of the previous century can be relatively radical now, because they are in opposition instead of position. The 4D model will also show organization that come and go. Relations of short-lived extreme organizations might show as pulsing constants in the 4D model, like the Nor line of NKP, AKP, AKP-ML, RV and Rødt.”

Estimates say that ca. 80% of the Dane voters want to stay with Europol. However, 3 parliamentary parties encourage Danes to reject that. Those parties and numbers of MPs are DF (Dansk Folkeparti = 37), LA (Liberal Alliance = 13) and EL (Enhedslisten = 14). That is 64 MPs out of 179, i.e. 35% of parliamentary votes. This indicates that several MPs already can be corrupted by ‘smooth criminals’ at the cost of their voters’ trust. As mentioned in the introduction UU 2015.okt.02 “This extraordinary Dane referendum can be fatal for any nation in the European continent as well. In a worst-case scenario (5D), Denmark might become a ‘Pirate Bay’, a ‘Kardemomme State’, an ‘Outlaw Haven’ and an ‘infected firewall’.” “Consequently, it is legal for EUROJUST, EUROPOL and CEPOL to counter-fight criminal manipulations of the upcoming Dane referendum, - while Denmark still has valid treaties with the pan-European authorities.

Therefore, the focus is set on the 3 parties that appears to be manipulated by international crime. The parties were described in UU 2015.juni.12 prior to the 2015 election in Denmark. Some of the following writings of EL and DF are translation of previous Norwegian comments from UU 2015.juni.12. Still, even though clear indications of crimes cannot be proved, some Duck analysis will do for now. I. e. “If it looks like a duck, swims like a duck, and quacks like a duck, then it probably is a duck.”

“EL (Enhedslisten) represents another 4D pulse in the constant series from DKP (Danmarks Kommunistiske Parti). DKP’s origin is bound to the 21 conditions of the 100 years old Moscow Thesis, with dictatorial state-capitalism, Stalinism and collective assimilation of Dane citizens. EL got their first success as anti-Europeans to the referendum of the EU Maastricht treaty, concerning democratic and anti-oligarchic regulations of the European Internal Market. The dogmatic success made EL an unreliable supporting party to social-democratic (SD) governments. (Later, the anti-European concept was used by Nor SP (Senterpartiet/bondepartiet), but SP did not tell its voters that its origin was similar to Dane EL (DKP/NKP)). EL’s main politics are anti-European and they use environmental arguments as veto in the Parliament. EL sometimes threatens to overthrow the Government although they claim to support it. EL influenced SF (Socialistisk Folkeparti) considerably, and gained greatly on SF’s loss of voters, after SF promises were proven unrealistic. (The Norwegian SV suffered the same faith in a similar same political Game.) Now, the old Stalinists front-figures are replaced with ‘sexy girls’ that evade debates about violent CdE and anti-democratic state-capitalism. On the other hand, today, EL is more complex than simple Stalinism, - because they have to please all their political factions like Trotskyism, Maoism and Islamism (UU 2014.juni.13).” EL main argument against EUROJUST, EUROPOL and CEPOL are unrealistic alternative opt-ins. EL plays DAC Games of confusion on the Dane citizens and points to Norwegian useless opt-outs, just like their Norwegian comrades in LO do.

DF (Dansk Folkeparti), on the other hand, is believed to be a Dane civic (borgerlig) party in a traditional 1D political perspective. The 3D and 4D models, however, will reveal that the party is no longer like its origin. This ulterior change is most recently talked through in UU 2015.juni.12. «DF (Dansk Folkeparti) is seemingly on the other side of the red-blue blocks (i.e. outer blue). DF was originally FrP (Fremskridspartiet), but was split in a PROSA-like DAC/UAC Game. Dane oligarchs in the public sector reacted hard on the newcomer’s judicial attack on State’s abuse of undemocratic dominance. State oligarchs responded by jailing the FrP leader in a questionable tax trial. Later, the FrP secretary divided the party to the matriarchal Dansk Folkeparti (DF). A similar CdE attempt was tried in 1995 at the Nor FrP, with extreme-nationalism similar to Nashi (Наши), the so-called ‘Putin Jugend’ (UU 2014.nov.14).

Today, Dane DF exposes strong anti-European and anti-Muslimism fundamentals, while the Nor FrP dare not talk about EU at all. The differences between Dane DF and Nor FrP was clearly expressed after the terror case in Oslo, where the Stoltenberg Government building was blow up and their youth organization was massacred (UU 2011.aug.05). "After the terror-attack on its Government, The Norwegian parliament agreed to moderate political expression during the national crisis. Then, this Dane 'Tante Jante' in a premature puberty-mentality, dare to criticize Norwegian politicians to "compromise the freedom of speech" and to "be without a political spine". These outbursts did not influence Norwegian policies, - but rather raised questions of what the DF Game is, who is really talking and what the ulterior motives are. Later, the matriarch leader retired and her most prominent anti-European candidate was exiled to the EU Parliament. However, during Dane national political milestones, the exiled DF candidate appears in Denmark as an over-subsidized propagandist with messages like 'Parroting Putin Propaganda (PPP)'. Slogans like 'More Denmark – less EU' seems also to refer to Denmark as a nova-Russian state (ref UU 2015.juli.24). Recently, the DF campaign against European patent-protection failed, - and did uncover present true bonds for some DF candidates. In relation to the 4D model, both Dane DF and Nor FrP are definitely moving from Throne to State (none-European), - with occasionally CdE attempts. However, a main difference is that Nor FrP joined the Government, while Dane DF disappointed their voters by immaturely rejected the invitation to govern. (That would probably cost a lot of votes if announced before the election.)

LA (Liberal Alliance) surprised a lot when they flipped from accept to reject the Europol/Eurojust opt-ins. That was announced right after the parliamentary election and after rejecting to join the Government. (That would probably cause loss of votes, if announced before the election.) This major 4D shift reveals alternative dominance of unknown origin. LA is no longer like its public image and the reason is secret. However, as for EL and DF, some 'duck testing' might help. One possible reason might be that party is lured to believe that they might gain extra votes like Nor SP, Dane EL and SF by simply propagate 'No' without any intellectual, legal and ethical debate. Anyways, LA now propagates European Free Trade without Legal control of oligarchs, which can cause public and non-public market predators to ruin the democratic markets. Furthermore, LA actually accept Bitcoin as payment for party membership, which definitely associates them to Shanghai-like trade, internet piracy and other illegal market activities. In contrast, LA now demands an in-depth re-investigation of the Government's previous engagement in the 'Middle East'. That used to be EL way to hurt Dane Governments. Such Blame-Games are highly irrelevant for the upcoming referendum and will surely disturb the campaigns and the Government's daily work. LA simply contribute to EL's never-ending CdE Games. Howto expose the new LA Games? As usual, "follow the money", - or rather in this case "follow the Bitcoins".

A major Dane parliamentary Game shift happened when the previous DF leader became President of the Parliament. The following is translated from Norwegian in UU 2015.juli.24. "Now, when the dominant DF matriarch got the post as the president of the Parliament, - the upcoming Games in the Parliament becomes rather predictable. The Dane FrP fell and was divided when someone accused the leader (Glistrup) for tax-fraud, which got him arrested and jailed. DF seems to be managed like a folkschool class with 'real' Danes. (UU 2015.juli.03). It is like a Nashi (Наши) -culture that got a flag like a diagonal Dannebrog. LYAHF and Jante Games needs rivaling opponents, - and there are several aggressive candidates in the new Parliamentary to attack the minority Government. Then, the stage is set for a new-defined matriarchal Game 'Cockfight In the Henhouse' (CIH) from the new 3^3 Game category AF (Animal Farm) (UU 2014.sept.12). Likewise, more Games in the classical category 'Sexual Games' relates to 'A Dollhouse' (UU 2014.sept.12). However, the upcoming Europol Games will be played in all of LEJ, because the Executorial and Judicial powers also do deviate from alternative agendas, - even though illegal.

(Note: Such Games as CiH are from the 3^3 (3x3x3 dimensional) socialpsychological model (UU 2014.sept.12), - a completely redefined categorization of Games. It includes Jungian worlds of humanity's nature that is far from fully explored. However, in brief, the 3^3 Game categories were related to the basic socialpsychological ego-states Drive (previously ID/Child) as AnnimalFarm (AF), WildLife (WL) and RainForest (RF) (UU 2015.feb.27). However, - although the 3^3 Game categories are relevant for societies, the simpler Berne 3D Game categories are more relevant for LEJ Game analysis.)

Michael Jackson needs no introduction, although his image will change after he suddenly altered status from being a living legend. His too early passing has altered the Blame Games from pointing at him to pointing at related, paparazzi and fortune hunters. Actually, the hit 'Billie Jean' was made in defense of the first RAPO Game charges. He probably did not realize how true this video was to his real life. Michael Jackson was definitely constantly surrendered by Smooth Criminals. Who saw that in time?

During the Norwegian parliament election, there were 3 extra UU about political 'ghosts' in 3 major political parties. The Extra UU 2013.okt.04 talked about Nor FrP and especially the deceased Fridjof Frank Gundersen. He was their legally alibi and highly influential as a backbencher for FrP politics. He was probably the main reason why FrP never was willing to express their true opinion towards Europe and EU. However, - it should not be that hard to realize why and what oligarchic relation hides in the closets.

It is hard to compresence the conflicts and consequences of organized crime in Europe. The TV-series Crossing Lines gives interesting insight in an entertaining way, - like other criminal TV-series. However, this TV-series is not about Europol and Eurojust, but some similar fictional organizations that fights international crimes in Europe.

The TV series is available on Netflix, - that can be seen free in a months' time.

Meatloaf – Bat out of Hell

2015.okt.09

Ukens Utvalgte

Extraordinary events influence the extraordinary Dane referendum. However, policies about the sudden mass-migration from 'Arab-spring' nations are not related to the Europol/Eurojust vote, although some might argue so. This extraordinary UU concerns fundamental causes to these human and political tragedies, - and indicate why a metaphor about 'bats and bikes' is used. It is evident that the 'human tsunami' started when the disreputable Red Army returned in the Arab world. Their failed Afghan war seems to be repeating in a most dangerous warzone. That causes mass-panic and is bad news to almost anyone.

Russia have now officially gone to full-scale war in Syria. UN nations speculate on what their motives really are, since hidden agendas and public denials seems to be normal FSB war-tactics. It is as hard to analyzed Kremlinology as Vaticanology. However, some observations pinpoint some obvious reasons and motives for this long-planned long-term engagement. First of all, - Russia's existence and well-being depends on oil & gas export. It is 70% of their total export and employ half a million people in Rosneft and Gazprom. The failed CdE attempts in Ukrainian regions and the UN sanctions caused Russian economic setback to coldwar level. Seemingly incapable to improve their own competences in the energy market leaves only the option to weaken the competitors in the market to keep own position. Another motive is that the Moscow-Beijing alliances requires an effective trade route between Russia and China. China want a new Silk-road and Russia wants corridors to the Pacific sea via Ukraine, the Black sea, the eastern Mediterranean Sea, the Suez channel and the Red sea, - and lots of bordering land-areas. Consequently, a main objective is now to weaken the beaten and very upset Muslims in the neighboring regions like Kazakhstan, Tadjikistan, Armenia, Kirgizstan and Uzbekistan. The new tactic seems to be to move the conflicts to a single proxy-war in the distant Arabian Peninsula.

However, Syria did not fall like other 'Arabian spring' nations in the cascade of CdE (Coup d' Etat). Russia have been an allied for at least 40 years and their oligarchs have armed Syria via Cyprus for decades. The regime became highly robust. However, President Assad rejected a major weapons deal including heavy anti-air defense of SA15 & SA22. Russia then declared the Syrian president unwanted, like so many puppet presidents worldwide before him. Russia changed side and gave support to Syrian separatists in order to trigger a CdE. Somehow, a new faction of Syrian separatist became highly skilled in guerilla warfare, finance, organization, extortion, robbery and recruited extremists worldwide to reestablish a Caliphate. NATO became involved because of some blitz attacks in their capitals. (This became a theme 'Charlie' UU 2015.jan.09 to UU 2015.april.10.) However, NATO targeted the major separatist organization IS (alias ISIL alias ISIS) that definitely weakened the hard-core separatist organization IS. The UN proposed help to civil Syrians, but is blocked by Russia and China in the UN Security Council. Now, Russia have finally deployed the anti-air defense in Syria that certainly will protect IS from NATO attacks. Consequently, some speculates if parts of IS really are Russian agents. Furthermore, the fact that neither SU2, China nor SA (Saudi Arabia) helps the Syrian refugees, and veto the UN help, - tells most about the motives and involvements in this war Game of fourth degree.

It is as hard to analyze Kremlinology as Vaticanology. However, some were done based on the BBC documentary 'Putin, Russia and The West' in UU 2014.nov.07, UU 2014.nov.28, UU 2014.nov.21 and UU 2014.nov.14. It concerned the nova-Russian CdE Games in Georgia and Ukraine during the rejection of the puppet presidents and the following undercover wars in their regions. It lead to the hypothesis about PROSA (Pro-Russian Oligarchs, Separatists and Autonomes), - this century's Underworld version of the ill-reputed coldwar RAF (Red Army Factions). PROSA stems from the ww2 Stalin/Hitler BRAF (Brown-Red Army Factions) alliance based on the Molotov-Ribbentrop Pact 1939-1941. It became GRAF (Green-Red Army Factions) in this century. As throughout the coldwar, most NATO and EU nations have such Underworld CdE separatist cells today with illegal agenda, - cloaked as legitimate opposition to national governments. The Dane Blekingegadebanden was a RAF-dnk with Scandinavian relations to RAF-swe and RAF-nor. However, it turned GRAF with Gotfred Appel's conversion from Stalinism to Maoism. By nature, such cell are determined to hinder strengthening of 'rule by law' with international cooperation like EUROJUST, EUROPOL and CEPOL, - with urban warlike means, - like Blekingegadebanden and all its related organizations and persons.

Less known, but more important, are relations indicated to the Carlos the Jackal. It was mentioned in UU 2015.feb.20 concerning the GRAF attack at 'Krudttønden' in Copenhagen: "Historically, in 1968, Carlos opted for the Patrice Lumumba University in Moscow that was reputed as a notorious hotbed for recruiting foreign communists to the Soviet Union. He was expelled from the university in 1970 by disciplinary reasons, though. Then he travelled to Beirut and Lebanon, where he volunteered for the PFLP (Popular Front for the Liberation of Palestine) in 1970 and tried to establish his own organization with Syrians, Lebanese, and Germans. Carlos was also connected to the STASI that provided him with an office and safe houses in East Berlin, a support staff of 75, a serviced car, and allowed him to carry a pistol in public. The STASI files also show links to the KGB (today's FSB). There is no public information if Carlos and Putin had relations when they both were with the KGB in East Germany. However, Carlos the Jackal was most certainly closely related to RAF-dnk." (UU 2014.nov.21.) Anyways, the Jackal's main objective was to train Arabs in Underworld urban warfare like any sociopathic attacks from pillaging and terror to mass-murder.

Less known, yet most crucial, is the island Cyprus as emphasized in UU 2014.dec.12 "Now it is very transparent that there are 4th degree CdE Games in relation to African guerillas, 'the Arabic spring' and IS of the Middle East." As mentioned in UU 2014.nov.21 "However, less mysterious is the Syrian war with several Muslim groups with loads and loads of Russian weapons, traded by murky oligarch via Cyprus. Nevertheless, the newest actor in Muslim self-genocides is the so-called IS, alias ISIL alias ISIS. It does not seem to be true religious at all, but rather another neo-RAF, - Jackal style. In fact, the L in ISIL mean Levant that includes Jordan, Israel, Palestine, Lebanon, Cyprus and south Turkey, - which indicates that Israel is a long term goal. IS might as well mean 'Iblis State'." Furthermore, "Cyprus is a key-island and mentioned as a center for war-like trades of narcotics, money, human trafficking and weapons. (It makes associations to the 'Pirates of the 4th Crusade', see UU 2014.nov.28.) The island is strategically sited by the Suez Canal to the Pacific Ocean (Asia) and next to all the war-zones of Syria/Iraq/Iran, Albania/Kosovo, Turkey/Hellas, Palestine/Israel and 'Arabic spring nations' like Libya and Egypt. Cyprus is divided between Russia and EU and functions like some cold-war Berlin outpost towards the Middle East. Consequently, it is mentioned several times in UU like: "The main Danish pseudo-scientific institution of the NLP and Enneagram is closely related to Cyprus and Russia. (UU 2013.des.20) Arne Treholt, a main SU spy for Iraq, works as a guide and consultant at Cyprus (UU 2013.aug.30). More about the relations to the Middle East can also be read in UU 2013.aug.02.

Even lesser known is the cultural legacy Moscow think it has to Roma2 and those rivalries in the region - UU 2015.mars.27: "It helps to understand Roma3/Moscow and its heritage from Roma2 with understanding of the theocratic history. The following (one out of) three paragraphs provides translated summaries from UU 2014.april.25. "There was a highly questionable constitution of Rome3 based on a monk's statement (UU 2014.mai.02)." Furthermore, "The crusades (of Roma2) were first arranged with Roma1 State soldiers. European Thrones supported them, when the Muslim caliphate conquered Egypt, Jerusalem, Syria and other important middle-eastern regions. However, the fourth crusade was fatal. Some 'pirates of the fourth crusade' attacked the Christian Roma2 instead of the Muslim Egypt. Roma2 was plundered to ruins and could not rise again under the following chaos. The crusaders failed to administrate the city so decay and the final fall was unavoidable. The crusaders' actions and faiths are full of mystical Games. However, they might have known about Marco's tales and seen the coming Muslim/Mongol invasion, - or simply did the preparations. They might have wanted to save treasures and spread them to European temples and thrones prior to the joint Khan/Caliph attack. The 'Da Vinci Code' is merely one example of some dramatic Games at play." (UU 2014.april.25) The pirates handed over the coat of Arms of Roma2, 'the double headed eagle' to Moscow, a monk declared Moscow as the 3rd Roma and Ivan was titled Tsar/Caesar. The Duchy of Moscow grew rapidly by systematic invasions, tax and terror.

Today, the human flood from the 'Arabian spring' zones can be explained with the 3[^]3 psychosocial models. Vivid images can be that all kinds of life are fleeing out of the forest from thundering roars and falling trees. "It's back". Nevertheless, - most relevant is the association to the 3x3 model concerning S-E/S-I (Superior-Ego/Superior-ID). The idea was realized in UU 2014.okt.31. "The Oprichnina/Praetor (the origin of the Russian and Constantinople's secret services) is like a definition of psycho-social Games. The Actors and the Games are ulterior and concealed like the very nature of secret services. It is however, a problem if the

democratic Quality of Life is not respected. It is serious if the organization consider itself as a Superior-Ego and individual as inferior. It is catastrophic, if it also inherited the properties of Ivan's murky mentality as a collective obsession." The theory of Superior-Id is talked through in UU 2014.jan.10 and the OD (OverConscience Drive) in UU 2014.aug.22." Furthermore, it is mainly explained in UU 2014.jan.10 and extended to the 3^3 model in UU 2015.feb.27 with the (ID dimension) Drive/Animal-Farm Game category. The related concern is in brief "S-I stems from the primitive stages in human development and is the life-force, the will to survive and even love and hate. It is the 'animal' within us, controlled by the 'lizard brain'." (See definition of LifeQuality in UU 2015.juni.26).

The prospects of 3^3 analytic discoveries is indicated in UU 2015.feb.20: "The collective life-force consists of every individual personal life-force." "A most alarming 4th degree Drive related social Game is 'Genocide', like inquisitions, all those 'Killing Fields' and world wars. It is hard to explain, but should be possible with this 3x3 model with the distinctions of the 3 Drive characters represented with WL, AF and RF. However, there was a philosophical talk in UU 2014.jan.10 in relation to S-E/S-I (Belief/Drive) that pinpoints the ethical dilemma with multi-dimensional social psychology. "When asked if the Predator/S-I is evil, the answer is generally 'no'. It is like carrion eaters that instinctively do a necessity for the balance of nature. The predator/S-I do not distinct between consumption of dead or living preys, even if we as emotional humans can see the preys' sufferings and get empathical and ethical. That is a human quality that is rather alien to the ID based nature. When a fox can execute a massacre in a hen farm, it is because its ID has gone ecstatic in an unnatural environment, - and the predator has no mental stop-button. However, - human have that stop-button and should use it." The UN should be enabled too overrule War Games of mass murderer.

Previously, a 4th degree Game of war were called 'Genocide' and 'Honeygot'. However, it might seem that an IS Game can be of a new definition called 'AGH' (Assembled Genocide Honeygot). Furthermore, - T.A. (Transaction Analysis) of what Kremlin says, do and don't, indicates the myriad of Games at Play. T.A. - like; "Do you now realize what you have done?" is SWYMD & YGMIT, and "We will destroy IS like Hitler" is BGGG & ITHY. Likewise, the most apparent classic Kremlin-Games nowadays seems to be: IFWY (If It Weren't For You), SWYMD (See What You Made Me Do), YGMIT (You Got Me Into This), LHIT (Look How Hard I've Tried), ITHY (I'm Only Trying to Help You), Debtor, LPAFJ (Let's Pull A Fast one on Joey), NIGYSOB (Now I've Got You, You Son of a Bitch) and LYAHF (Let's You and Him Fight), in addition to the self-defined 3^3 Games: DAC&UAC (Devide&Conquer & Unite&Conquer), ISR (It Started with the Retribution), ABD (Attack is the Best Defense), BGGG (Bad Guy, Good Guy), RPPP (Robbing Pete to Pay Paul), ODAB (One's Death - Another's Bread) and the Russian BOOFY (Beat your Own and Others will Fear You). Psychosocial Games are in general described in UU 2014.sept.12 and summarized in UU 2015.mars.06.

There was a global Game-changer in 2013 when the Russian secret military organization GRU was freed from the FSB bonds, - at least got a longer leash. (GRU has a Bat as their image.) Russian policies and warfare have change since then. The use of FSB undercover separatist failed to rock national authorities and the world opinion discovered the plot before GRU could be invited to rescue the region by a FSB puppet president. Now, in Syria, it seems that GRU is set to full power, independent on FSB and cooperating with oligarchic warlords. However, just as important for Russia as the actual invasion, is that neither UN, EU nor NATO gets involved in Syria. The standard tactic seems to make their PROSA agents stirring up those nations with riots and GdE. The Dane Europol referendum is most certainly such an opportunity, to create a 'Pirate Bay', a 'Kardemomme State', an 'Outlaw Haven', 'an infected firewall out of control' - within the European Union.

Michael Lee Aday is an American musician and actor called Meat Loaf. He is noted for the 'Bat Out of Hell' trilogy that sold more than 43 million copies worldwide, 14 times platinum album. He stayed on the charts for over nine years, making it one of the bestselling albums of all time, a Grammy Award for Best Solo Rock Vocal Performance, Brit Award for Best selling album and single and has appeared in over 50 movies and television shows. The first collaboration was with the composer Jim Steinman. He had an appreciation of Richard Wagner, Phil Spector, Bruce Springsteen and The Who. The album developed from a musical,

Neverland, a sci-fi update of Peter Pan, which Steinman wrote for a workshop in 1974. Steinman began to develop the song as part of a seven-song set they wanted to record as an album. The phrase "Bat Out of Hell" can be traced back to the Greek playwright Aristophanes' 414 B.C. with the work titled 'The Birds'. It is believed to be the first reference to a bat out of Hell.

The associations to this UU is that the Russian secret army GRU has chosen a Bat in their symbol.

Furthermore, Putin riding on a motor-tricycle amongst the MCC 'The night wolves' (i.e. like some Russian Hell's Angels') makes vivid scenes in media, - in addition to their declared loyalty to FSB, GRU, Pro-Russian Separatists, Nashi (Наши) and Stalin.

A brand new Norwegian TV-series called 'Occupied' (Okkupert) had premiere last weekend. The public presentation is "In the near future, Norway is occupied by Russia on behalf of the European Union, due to the fact that the newly elected environmental friendly Norwegian government has stopped the oil- and gas-production in the North Sea." In the first episode, the Prime Minister is kidnapped and convinced by a EU commissioner and a Nordic PM that their options are; production or occupation. However, both happens. There are some issues to this 5D scenario that can be explained like this. The Green-Red alliances is powerful in Norway, have been in previous AP/LO governments (Stoltenberg) and might return (Støre). Moscow related political parties have always opposed NATO and EU and would, if they could, cancel membership in both NATO and EFTA (EEA trade agreement with EU). Norway is a major oil & gas exporter to Europe and thereby a main competitor to Russian oil & gas export. Nova Russian ambitions seems to be control over Svalbard and mainland region Finnmark in order to gain control over major areas in the Arctic Sea. Thorium based fusion energy is theoretically possible in a distant future, but no option for the present energy market.

The scenario is based on the brown-red political occupations of the Nordic nations in ww2 that were quite different in the nations. Sweden cut a double-deal without military occupation. Denmark's surrender after 2 hours was due to bureaucratic delay. Finland fought the Russian invasion and thereby the expansion to Finnmark/Norway. Island was under Denmark, but was liberated after the ww2. Norway sunk the warship Blücher with the main invasion force that gave the Throne and government time to escape. The police and

LO became BRAF and the major domestic forces for the occupation. (See also UU 08.Juni.2012 about writing of the historian Roy Vega.)

Hybrid proxy-wars seem to be the kind of global warfare nowadays. Like in the TV-series 'Occupied', invasions are well prepared by separatists. However, hybrid proxy-wars are probably as old as warfare itself. Invasions, CdE and occupations are rather about seizing power than destroying rivals. Apparently, autonom separatist seems gain PROSA greatly. Wasn't ABB just another one - after all? (UU 2012.mai.18 - UU 2012.Juli.06 + UU 24 aug.2012.)

Puppets Parroting Pravda (PPP) seems to be a never-ending political Game. Although cloaked as domestic arguments, the origin reveals itself with absurd and shortsighted terminology. The use of the terms like 'the East' for Asia and 'The West' for Europe and Amerika, is absurd outside the Russian 'iron curtain', - and Kremlin in particular. Enlightened people in the rest of the world knows very well that terms like east, west, north and south are relative and that it is absurd to use on any nation or continent. Political use of terms like 'The West' and 'The Middle-east' reveals the origin as Propaganda.

The newspaper Pravda is available in English on internet and do clearly reveal who do domestic PPP Games in any political argument.

Ane Brun - Do You Remember

2015.sept.25

Ukens Utvalgte

There will be an extraordinary Dane vote concerning the European international Police and Judicial co-operation. 'Yes please', is the obvious rational respond for the great majority of civilized Danes. EUROJUST, EUROPOL and CEPOL are essential to protect themselves against the overwhelming international organized crime. However, powerful minorities of international criminal organizations do proactively oppose such hardening of law and order, - obviously. They will most certainly manipulate political campaigns in their cloaked ways. It might even appear as legitimate political oppositions by respected politicians. The outcome might even alter, if unaware of such ongoing psychosocial 'Underworld' Games.

This extraordinary Dane referendum can be fatal for any nation in the European continent as well. In a worst-case scenario (5D), Denmark might become a 'Pirate Bay', a 'Kardemomme State', an 'Outlaw Haven', within the European Union. Metaphorically, the Dane legal system might operate as an infected firewall, out of control. The previously mentioned 'CSC vs Pirate Bay' -case clearly shows the long-term potential irreversible damages for European civilizations (UU 2015.juni.05). Therefore, it is legal for EUROJUST, EUROPOL and CEPOL to counter-fight criminal manipulations of the upcoming Dane referendum, - while Denmark still has valid treaties with the pan-European authorities.

Denmark, Ireland and UK, have various opt-outs (forbehold) from the Police and Judicial Cooperation Provisions that were incorporated into EU law with the Amsterdam Treaty. Denmark was granted some favors that ends in 2016, but Danes can now choose to opt-in on Criminal, Civil, Family and Commercial law, in addition to police and legal cooperation (annex to Protocol 22 to the Lisbon Treaty). The Dane referendum is about accepting 22 of the 33 directives in order to secure police cooperation and civil legal rights. The opt-in model will allow Denmark to participate in the existing JHA-legislation and any future legislation in this area. Migration policies are not included in the package, - even though it seems to be promoted as a major campaign issue by the opposition.

This UU theme will set a foundation to the following psychosocial analysis of the political Games to come. Some theoretical explanations are necessary though. First of all, the 3³ model is explained in UU 2014.sept.12. In brief and in this relation, the 3D model is adapted to European parliamentary systems with the three constitutional Powers; the Legislative, the Executive and the Judicial powers (LEJ). That is similar to the Danish and Norwegian: LUD ('Lovgivende', 'Udøvende' and 'Dømmende'). Moreover, the Parliament is similar to the Legislative power, the public sector is similar to the Executive power and the court is similar to the Judicial power. These are bound to the Parliamentary principles of 'division of power' and the 'rule by law', which are maintained by the Police and Legal systems. Utmost vital to any civilization is that their Penalty laws that prevents and removes the most damaging crimes to society. The European nations that signed the International legal agreements of EU, ECHR and UN decades ago, should immediately ratify, and execute them as national law. However, - political and criminal corruption have certainly been influential. Dane LEJ needs strengthening by international cooperation, - in order to maintain their civil democracy.

Historically, the collapse of the Nordic Union happened when the Roma³ was formed half a millennium ago. Even the CdE (Coup d'Etat) in Roma¹ and Roma² are fundamentally relevant to the upcoming Dane referendum (UU 2014.okt.31). More relevant is the European nations' migration from EFTA to EEC in the '70s that Norden could not make. However, both the Danish and Norwegian democratic Parliaments were in great favor to join EEC (EU) and free themselves from the coldwar bounds to SU and US (UU 2014.dec.05). Somehow, someone demanded a democratic advisory referendum prior to the Parliamentary signing of the Maastricht Treaty. The computerized referendum showed a minor disapproval in both Denmark and Norway. The results were claimed to overrule the Parliament's majority and rejection of the EEC Treaty.

Shortly after, the Norwegian Parliament signed the EEA Treaty (Maastricht) with EFTA and EU and ratified the EEA Law (EØS Loven). The Danish Parliament held a new referendum about the Lisbon Treaty with four opt-outs, which the democracy approved, even though some major riots by 'autonomis' were arranged. The four Dane judicial opt-outs concerned cooperation about civil rights, state-finances and military, in addition to the police/judicial cooperation (Europol/Eurojust). These international legal commitments are scarcely honored, due to improper cooperation. The level of international crimes have now become major threats in both nations. Nevertheless, as talked through in UU 2015.juli.10, there is no doubt that Denmark has been legally obligated for over 20 years by the Treaty (TEU - Traktaten om Den Europæiske Union). Anyways, today, Finland and Sweden, which represent about 2/3 of the Nordic population and area, are fully member of the EU.

The nature of crimes are far more comprehensive than the coldwar press indicates. As talked through in UU 2014.okt.24. "The article 'Political corruption' in Wikipedia mentions the infamous term 'cleptocracy'. The word suits well to the terminology in UU 2013.april.19. "The article mentions several types of corruption like; extortion, comradeship, scandalizing, electoral cheating, fraud, 'financial mess', bribery and mafia activities. Global corruptions concern mainly drug-trafficking, human smuggling and whitewashing of money. The annual global political corruption is estimated to be about 1 trillion \$/year, the global GWP is about 70 trd \$/y and the Norwegian (and Dane) GNP is about 1 trd Kr/y. This means that the Norwegian (and Dane) political corruption is about 2% of the state's budget, i.e. about 20 mrd kr/y. That suits the thumb-rule that there is an average of 2% disloyal employees (in most firms)." This also include terms like industrial espionage, information thefts, sabotage, pillaging, manipulation, disinformation, prostitution, slavery, narcotics, weapons, robberies, terror, and tax-fraud.

The extended 3³ sociopolitical model can be used to disclose some of the 'Underworld' Games at play that hinder the Dane authorities to fight domestic crimes. It is based on the well-known truth that humans are dishonest and ulterior by nature – and that denying that fact merely reveals dishonesty. "A classification counts 34 categories: Bad faith, Barefaced lie, Big lie, Bluffing, Bullshit, Butler lie, Contextual lie, Cover-up, Deflecting, Delusions, Dismissal, Economical with the truth, Exaggeration, Fabrication, Fib, Fraud, Half-truth, Haystack answer, Honest lie, Jocose lie, Lie-to-children, Lying by omission, Lying in trade, Minimization, Misleading and dissembling, Noble lie, Omission, Pathological lie, Perjury, Polite lie, Puffery, Speaking with forked tongue, Weasel word & White lie. Anyhow, deceptions can be of positive or negative

moral and not necessarily ethical rejectable. It is however important to have system of Values like GCR (Good/Constructive/Right) in order, when facing such." (UU 2015.mars.06 and UU 2013.mars.15) This can certainly be analyzed as psychosocial Games as described in UU 2014.sept.12.

The international crimes in public sector are alarmingly high and might be larger than in non-public sectors. National penalty law demands thoroughly investigations of all well-exposed crimes in the public sector. However, it is an apparent fact that public servant seldom are charged and put to court for any criminal scandals in the public sector. Yet, the law is even stricter to the trusted public servants than for civilians. Danes have not even ratified the EU, ECHR and UN legislations properly. The Dane court do even use outdated laws to alter proper judgements (ref UU 2014.okt.24). The only plausible reason is that all of LEJ (Legislative, Executive & Judicial powers) is fatally corrupted and have been that throughout the coldwar, - and still is in these post-coldwar decades. In fact, the post-ww2 trials did not include the SU related war-crimes against European nations, but rather escalated the crimes during the coldwar. The LEJ was not repaired after the ww2, - and still is not. It appears like there might be a para-LEJ at work in both Denmark and Norway. If so, - the national LEJ is in the Game category GdE (Games d' Etat) prior to the Game CdE (Coup d' Etat), which relates to the most serious paragraphs in any nations' penalty law. This will be analyzed in the following UUs.

Ane Brun is a Norwegian international songwriter and guitarist with a lilting vocals, theatrical arrangements and delicate indie folk craft. She has recorded eight albums including a live DVD. She is honored with Spellemannprisen, Alarmprisen Gammleng-prisen, is nominated to a MTV Music Award, and honored by the national TV stations in Norway and Sweden. The music videos for 'Words', 'One', 'Worship' and 'Do You Remember' is from the short film titled 'ONE'. The album should release in 2010, but was delayed when she was asked to sing "Don't Give Up" on Peter Gabriel's New Blood tour (UU 2015.sept.18.)

This UU association to this video is about some femme fatale revenge for some historical misdeeds by an authoritarian patriarch.

It is hard to compress the conflicts and consequences of organized crime in Europe. The TV-series Crossing Lines gives interesting insight in an entertaining way, - like other criminal TV-series. The TV series is available on Netflix, - that can be seen free in a month's time. (UU 2015.juli.03.)

Beranek – Live 1985

2015.Sept.25

Ukens Utvalgte

Temaet Pausemusikk presenterer nå konserter man gjerne skulle ha sett. Hensikten er at noen forhåpentlig støtter artistene ved å kjøpe deres musikk og går på deres konserter. Med disse 2 mini konserter er denne UU pause slutt.

Espen Beranek Holm lavet en hit med 'boom & punchline' i 1981. Det var etter en periode som visesanger i 'Studio Klive' med Martin Nygaard og faderlig opphav fra jazz og NRK. Nyere inspirasjoner kom fra artister som The Residents, Kraftwerk, Yes, King Crimson og Genesis, hvoretter visegitar ble erstattet med synthesizere, trommemaskiner og elgitarer.

Beranek debuterte med albumet 'Sound Of Danger' i 1981 og oppfølgeren 'X-Ray' (1983) gav Spellemannprisen. Senere kom 'Trigger' (1984), 'Daylight In The Dark' (1986), 'The Red File' (1988), men med 'Tacoma Bridge' (1994) ble den karriere avsluttet. Alternativt musikalsk levebrød fantes hos NRK og Else Michlet sitt politiske satireprogram 'Hallo i Uken'. 20 år senere gjøres nå comeback med albumet 'One Day' (2013).

På 80-tallet ble det gjort mange konserter i Norge med fullt band, - samt turneer til Stockholm, Hamburg, Amsterdam, London og New York. Bandet bestod av noen bekjente fra den tid, Arne Berggren (trommer) og Bernt Biberg (bass), samt Pål Ribbu (gitar, synth) og Anders Sevaldson (synth) og tidvis vokal av Anne Danielsen og Ingeborg Magerøy. En rekke andre artister har også bidratt.

Som nevnt i UU 2013.sept.06 ble ikke suksess tilsvarende talentet og innsatsen. Som for så mange andre artister kan det skyldes for stort indre og ytre press. Men det kan være at tungsindig kaldkrigs-tema i tidligere periode ikke helt kunne erstattes med et Grease inspirert sjarme. I alle tilfelle, - samle-albumet 'Vintage Tapes' fra perioden gir et godt gjenhør fra perioden.

Peter Gabriel - A Real World Tour

2015.sept.18

Ukens Utvalgte

Temaet Pausemusikk presenterer nå konserter man gjerne skulle ha sett. Hensikten er at noen forhåpentlig støtter artistene ved å kjøpe deres musikk og går på deres konserter.

Peter Brian Gabriel var frontfigur i bandet Genesis og har en hovedære for dets enorme suksess. Men som mange andre band klarerte de ikke å holde sammen mot indre og ytre press. Den noe egenrådige Peter vakte mere oppmerksomhet enn øvrige medlemmer likte. Han måtte forlate bandet da han (for) selvstendig skrev teksten til det legendariske dobbelt-albumet 'The Lamb Lies Down on Broadway'. De 3 gjenværende Genesis medlemmer har siden surfet suksessen, mens Peter måtte bygge seg opp på nytt.

Peter Gabriel er en av de absolutt mest innflytelsesrike kulturpersoner for den humanistiske utvikling i UU. Spesielt er hans musikk og lyrikk brukt under utarbeidelsen av LifeQuality definisjonen og den 3x3 sosialpsykologiske modell. Tidligere referanser til Peter Gabriel er UU 2014.sept.05 'Mercy Street', UU 2014.aug.29 'Games Without Frontiers', UU 2014.aug.22 'Digging In The Dirt', UU 2014.aug.15 'Secret World', UU 2014.aug.08 'Signal to Noise', UU 2013.Juli.26 'Biko', UU 2013.mars.15 'Come Talk To Me' og UU 2013.mars.08 'Growing Up Live'.

Som erstatning for fans av klassisk Genesis, har et kanadisk cover-band 'The Musikal Box' fått lisens til å gjenskape de originale Genesis konserter. Det var med en viss skepsis jeg dro til deres konsert. Men, med ettertanke kan man godt se et Shakespeare teaterstykk og akseptere at William Shakespeare selv ikke kommer på scenen mere. Derfor bør man venne seg til tanken at legendariske konserter gjenskapes av lisensierte cover-bands og faktisk bli bedre enn originalen. Dette kan bli en stor industri. Se UU 2010.aug.20

Det finnes mange live videoer med Peter Gabriel på internett. Den 20 år gamle 'A Real World Tour' er fra hans topp i sin solo-karrieren. Det er en fryd å se utviklingen i konsertens tema og den allsidige bruk av den spesielle scene. Særlig godt er avslutningsnummeret 'Secret World' på så mange måter og viser hvor kreativt multi-media kan utnyttes. Som vanlig har han med seg den trofaste bassist Tony Levin fra King Crimson. For øvrig var Peter Gabriel den første til å utføre 'Stagediving' under en fremførelse av Genesis 'The Knife', - en fundamental demonstrasjon av tillitt til mennesker.

Peter Gabriel var personlig nedslått etter å måtte forlate Genesis. Det falt visst naturlig å starte noe helt personlig og innovativt i fra bunnen av. Så bygget han en ny karakter basert på figuren Real i fra sitt siste lyriske verk 'The Lamb lies down on Broadway'. Real sin spesielle skjebne, som vraket artist på Broadway, forklarer også de noe spesielle karakter-fremstillinger i de første soloalbum. Det synes for øvrig en viss sammenheng mellom hans musikk bidrag til filmene 'Birdy' og 'City of Angels', samt temaet om Broadways kulturblokkade mot Hollywood så vel som England, i filmen 'Birdman (The Unexpected Virtue of Ignorance)', som har hinter til Michael Keaton sin fortid i rollen som Batman.)

Catherine Mary Bush synes å ha en feminitet hinsides en manns forstand. Fasinerende. Hennes spesielle musikk-, sang- og scene-stil har gjort henne til en verdensberømt komponist, lyriker og artist. Hun var kun 19 år da hun debuterte med 'Wuthering Heights' og den store innlevelse i personen og fremførelsen. Siden er det blitt til 10 album, hvor 3 fikk førsteplass på UK Albums Chart og 25 singler kom på top 40. Dessuten har hun Brit Award for beste britiske kvinnelige solokunstner, en Novello-pris og er nominert til tre Grammy Awards.

Tidligere nevnt er den storslagne video-film 'Cloud Bursting' i UU 2014.april.04, med Donald Sutherland i en hovedrolle og Terry Gilliam som produsent. I UU 2014.feb.21 presenteres 'All the Love' som er en nostalgisk favoritt som går langt inn i hjertet.

Ukens Utvalgte

Temaet Pausemusikk gir nå konserter man gjerne skulle ha sett. Hensikten er å henvise til publiserte konserter og håpe noen vil støtte artistene og kjøpe deres musikk.

Pink Floyd og den legendariske The Wall er flere ganger nevnt i UU og Extra UU 2015.aug28 avsluttet med forslaget 'Tear down The Wall'. Albumet førte til bandets splitt og uforsonlighet mellom Roger Waters og David Gilmour. Skismaet kan i grunnen skyldes skjebnen og behandlingen av tidligere vokalist Syd Barret, som ble etterlatt på et asyl mens bandet tok av (UU 2014.juli.11).

'In the Flesh' er den første konsert etter bandets lange inaktivitet, - symptomatisk nok med et 'surrogat band' uten øvrige Pink Floyd medlemmer. Men her er det virkelig mange gode musikere som spiller både Pink Floyds og Waters egen musikk. Særlig bemerkelsesverdig er gitarist/sangeren som kunne vært en surrogat for Syd Barret, hvis han fikk utvikle seg. Denne konsert var en unik historisk begivenhet jeg dessverre ikke fikk sett 'in the flesh'. Hans album 'Radio Kaos' er for øvrig nevnt i UU 2013.mars.01. Siden har Waters fremført multimedia versjoner av The Wall (UU 20.Juli.2012).

Utover Barret er det også litt av Waters selv i The Wall historien. Han mistet sin far i ww2 og er preget av det. Historien er et forsøk på å forklare hvordan en simpel trubadur kan bli en hardcore Nashi (Наши) (UU 2014.nov.14). Et av de mest åpenbare svar er for mye 'sex & drugs & rock&roll'. Men en dypere årsak ligger i det å ikke bli helt fri fra den mentale navlestreng, mor/barn symbiosen, - og dermed innvikles i underutviklinger i stedet for å utvikle sin selvstendige personlighet (Se om LQ i UU 2014.sept.05). Mamma-staten er ikke bedre enn Pappa-staten.

Depeche Mode – Singles Tour 1998

Temaet Pausemusikk gir nå konserter man gjerne skulle ha sett. Det er selvfølgelig betenkelig med streaming og IPR, men hensikten er at noen forhåpentlig vil støtte artistene og kjøpe deres musikk.

Depeche Mode er ofte omtalt i UU og her er deres hit-singler samlet i en Live konsert. Det må være som et eneste stort karaokeshow i ren 'Husker du' -stil. Men en skulle gjerne vært til stede i de tidligste tider, - for den viktigste person forlot bandet allerede etter første album. Vince Clarke var desidert synth gurun som gav bandet sitt fundament. Clark har siden vært 'musikeren' i Yazoo, The Assembly og Erasure, og har samarbeidet med band som Blancmange, Heaven 17 og The Human League. Men han forlot Depeche Mode med begrunnelsen at han fikk «discomfort at the direction the band were taking». Det ble da også markert ved de to senere plate-cover som ble symbolisert med sigd og hammer.

How to heal the Dane psychiatry? This sincere question rises after seeing the TED Talk 'How do we heal medicine?' The speaker pinpoints some problems, challenges and solutions for the health industry in general. That certainly applies to the Dane psychiatric industry too, - which seems to be trapped in its own rivalries of pre-Freudian obsessions and illusions. A collective organization can conceal, deceive and project, like resourceful psychotic clients can, - especially when it is autocratic, alienated and a major drug supplier. Anyhow the psychiatric diagnostics, - it all should be founded on basic ethics like GCR (Good/Constructive/Right) and not BDW (Bad/Destructive/Wrong).

Some brief points from the TED Talk are: "The health services lack holistic visions and an organization based on LifeQuality (LQ). Doctors rather try to find symptoms that suit their competences than the patient's real needs. The use of coordinated 'check lists' caused reduction of incorrect diagnosis, incorrect treatments, deaths and reduced costs by 1/3. The pharmacy industry manipulates the health personnel and clients by merely publishing positive test-results, - even when the negative ones are more." Moreover, as commonly known, - psychotic and neurotic narcotics, and hypnosis, can cause experiences similar to psychosis." (UU 2014.aug.01) Unprofessional psychiatric diagnoses, mistaking drug-effects and hypnosis for psychosis, do cause faulty cures that can worsen the clients' health.

Seen from a clinical perspective, a psychosocial analysis of the Dane psychiatric industry should be most welcome by the industry itself. However, based on observations, the client-organization rather seems to determinedly resist by deliberately evade qualitative analysis on critical issues. If so, higher authorities should use force in order to reduce its damages on itself and society. Still, some issues are rather of criminology than psychiatry, which indicates that organized crime is involved. Generally, international crimes mainly concerns drugs, money, bondage and weapons (UU 2014.dec.12 and UU 2014.juni.13). Criminal persons and organizations are therefore Game-players per definition, where psychology and psychiatry are merely means in their Games.

Criminal Games are mainly of the category Underworld, but can include categories like Life Games, Marital Games, Party Games, Sexual Games, Consulting Room Games and even Good Games'. These are often mentioned in UU and summarized in UU 2015.mars.06. "Some classic Games are: YDYB (Why Don't You, Yes But), IFWY (If It Weren't For You), WAHM (Why does this Always Happen to Me?), SWYMD (See What You Made Me Do), UGMIT (You Got Me Into This), LHIT (Look How Hard I've Tried), ITHY (I'm Only Trying to Help You), LPAFJ (Let's Pull A Fast one on Joey), NIGYSOB (Now I've Got You, You Son of a Bitch), LYAHF (Let's You and Him Fight), RAPO 'Psychiatry' and 'Courtroom'. A complete list of Berne's classic Games are talked through in his book 'Games People Play' that is now free on the internet. "Some (self-defined) new Games are: DAC&UAC (Devide&Conquer & Unite&Conquer), ISR (It Started with the Retribution), ABD (Attack is the Best Defense), Jante/TUD (The Ugly Duckling), TLM (Two Little Maids), BGGG (Bad Guy, Good Guy), RPPP (Robbing Pete to Pay Paul), ODAB (One's Death – Another's Bread) and the Russian BOOFY (Beat your Own and Others will Fear You). Psychosocial Games are in general described in UU 2014.sept.12.

Nevertheless, the psychocracy is probably amongst the strongest powers of all, - even in civilizations like the Dane. Therefore, the psychocracy should be parliamentary supervised, like bureaucracy and democracy, and regulated to avoid civil damages. However, the very opposite seems to be true. Psychiatric organizations are the most secret, impenetrable and protectionistic of all. Recent public cases are the illegal data-exchange of sensitive info to the drug industries with the DAMD database, the 'brain damaged' psychiatrist that continued prescribing drugs for years with institutional protection and the massive prescription of 'Lykke piller' (Happiness pills) and ADHD pills to minors (UU 2015.juli.03). Furthermore, there are also proof that Danish psychiatry do experiment with unclassified drugs on minors, do alter established psychiatric terminology and do reverse attitudes towards pre-Freudian sexism, - with the opposite gender-antipathy. However, the psychocracy do counterattack, - just like some of its clients. The results speaks for itself, - the psychocracy has become a master of international psychocratic Games.

A diagnosis includes investigation of backgrounds, traumatic events and relations. In previous UUs, the modern psychosocial history stretches over 500 years in the Nordic region, - including Russia. However, such a complex issue can only provide some new discoveries and point of views. A thesis is that the present

Dane psychosocial condition was initiated about 1864 with the Throne CdE and following mass-massacre of the previous king's men at the German border. It peaked half a century later in 1914 with a similar procedure to the imperial Throne and following CdE (Coup d' Etat) and mass-massacre of the emperor's men. About 2014, - it has reached another historical shift that should be 5D analyzed with alternative future scenarios (UU 2014.nov.28). Anyways, the hypothesis is that the matriarch obsessions in the psychocratic industry's OverConscience seems to stem from the apocalypse in the Winter Palace, centered around its sole survivor, - princess Dagmar of Denmark, alias Tsarina Maria of Russia. This hypothesis is elaborated based on previous writings, especially UU 2014.dec.19, UU 2014.aug.01, UU 2014.juli.18, UU 2014.jan.10, UU 2013.april.19 and UU 2013.april.12.

To put it brief, there was a fierce rivalry between the widowed tsarina Maria/Dagmar and her German tsarina in law Alexandra. This Game of the Throne was exploited by the Moscow State in a CdE, with help from the occult agent Rasputin. The whole world were eventually dragged into the war-Games, more commonly known as ww1, ww2 and ww3 (coldwar). Russian secret services, historically known as the Oprichnina, last known as KGB and FSB, have most certainly been involved. No doubt that the tsarina was involved in imperial home-affair and most influential to imperial secret services. The serious claims that the young tsarina Alexandra was a German spy, not truly Russian orthodox and sexual unfaithful, were probably main reason for arresting the family and finally executing them. This, and related themes, are comprehensive and not very relevant for this issue. However, the psychosocial talk-through of Norden over a 500 years period starts with UU 2013.Mai.24, continues with UU 2014.mai.02 and continues as a theme from UU 2014.nov.07 to UU 2014.dec.05. Moreover, the psychosocial theory of Superior-Ego and Superior-ID is explained in UU 2014.jan.10 and UU 2015.mars.13. Still, it should not be surprising any more that Denmark has been in bondage by Russia since the collapse of the Nordic Union 500 years ago.

In psychohistorical views, the psychocratic patriarch vs matriarch Games shifted in early in the 20th century, - just prior to ww1. The very fundament of enlightened psychology started with Sigmund Freud, 'the patriarch of psychoanalysis', who used dialogues with the clients. However, one fatal theoretical conclusion was that sexualities (ID) caused envious Electra/Oedipus complexes (child vs parent) and homosexuality (men vs women). The statement was dedicated Freudian psychology that "elimination of clitoral sexuality is a necessary precondition for the development of femininity, since it is immature and masculine in its nature." Such patriarchal sexist psychotic obsession seems occult and did cause major causalities to the democratic civilizations. However, further developments of psychology and psychiatry neutralized such believes after ww2. Psychiatry evolved in accordance to human rights and human decency.

Nevertheless, and most alarming, the present Dane psychiatry reverses present psychology toward pre-ww1 level by postulating anti-thesis similar to "a cause to minor's psychotic condition can be due to 'elder men' (not women)". Thereby, the Dane psychiatric industry deliberately propagandizes the collective OverConscience with sexist superstitions. That do initiate rivalries in civil core families causing psychosocial conflicts, traumas and schisms. Such mass-psychotic dogmas suits the description of Games like LYAHF, DAC, and BOOFY. Btw, the divorce-rate in Denmark is beyond average. Furthermore, their listing of 'mania' as causes for psychosis is far too blurry. Such information should at least be specific of what kind of manias are and are not. If so, they should also mention other related prefixes and suffixes. Some examples are mentioned in UU 2015.feb.20 and UU 2013.april.19. "It is possible to make socialpsychological relations and use prefixes like neuro, psyko, sosio, xeno, pedo, 'matro', 'patro' (...). Furthermore, it is possible to substitute the suffix 'cracy' (power) with mania, phobia, patia and philia". With such extended use, the terminology (...) is broadened to (f.ex.) Sophimania, Sophiphobia Sophipatia and Sophiphilia. Terms like Philosophical mania, or Sophimania, indicate the dangers within."

Plato's allegory of the Cave suits the psychocracy in particular. (See video hereunder.) In brief, the tale is that some people are bound in a cave looking at a curtain that reflects 2D grey shadows of the real world outside. They come to descriptions, definitions and conclusions on how the real world must be. However, when a visitor from the real world explains the reality he actually lives in, - there is no understanding, but collective agreement to reject or change the visitor. Taking the allegory to the present, - psychocrates would use drugs, pills or hypnosis, dependent on their dominating regime; Throne, State or Temple.

Moreover, using sexist imagination on the cave allegory, some might percept shadows like some male jurassic dino lurking and grumping out there in the reality, - very eager to get the minor back to its natural life.

It was necessary to upgrade and extend the classic Freudian models to organizational levels in order to enable psychosocial analysis. The result is a joint Freud/Jung/Berne model called 3x3. This was further developed to the 3^{^3} (i.e. 3x3x3) model. It is explained and used from UU 2015.juni.05 to UU 2015.juli.24 about the Danish parliamentary election. "The terms are developed from-via-to: Id-Child-Drive, Ego-Adult-Will and Superior Ego-Parent-Belief. A second dimension of conscience is added in order to merge Jung with Freud's 3-state; UnderConscience, Conscience and OverConscience. The third dimension contains of 3 subcategories of Drive, Will and Belief. These are interrelated via the conscience dimension. However, the subcategories are open for adaption and modifications to what is to be analyzed, for example persons, organizations, nations, empires or humanity. Furthermore, the subcategories are related to Game categories too, - which is not directly in the 3^{^3} model. For example, sub-categories for Personal level is; Drive (Sulk, Nerd, Jerk), Belief (Matriarch, Authority, Patriarch), while Parliamentary relates to Will (Legislative, Executive and Judging (LEJ, - or LUD in Danish) and National/Imperial relates to Drive (Throne), Will (State) and Belief (Temple). A combination with collective Game categories were discussed in UU 2015.feb.27, UU 2015.mars.06 and UU 2015.mars.13 where: Drive (RF, AF and WL), Will (KoC, GdE and GoT) and Belief (UNO, WoW and SET).

The 3^{^3} psychosocial model should most certainly be interesting to use for analyzing the Dane psychocracy. However, such complexity of organizations and relations cannot possibly be done here and now. On the other hand, some thoughts might initiate imaginations: At imperial level, it seems that domains of psychocracy are mainly related as Throne/Drugs, State/Pills and Temple/Hypnosis. The past century has been State-dominated which caused criminalization of what their oligarchs cannot patent, - i.e. natural drugs. Furthermore, classic definition of schizophrenia is redefined to not include spirits and demons, but rather include extended terms of other psychosis to keep constant numbers of clients and market shares of pills.

Sexist psychiatry, like the Freudian and the Dane, are not legitimate in democratic civilizations in this century. General conclusions based on gender is unprofessional and should be disqualified as such. However, diagnosing extreme organizations might lead to single out one person that controls the Games, - male or female. As mentioned in UU 2014.dec.19 "One person's psychosis can undoubtedly be propagated to an entirely psychiatric organization – even nations. It is proven in STV documentary 'The woman behind Thomas Quick' (Kvinnan bakom Thomas Quick) that is talked through in UU 2014.juli.18: "The Quick case lost all its fantastic attention with the disclosure that he was no mass murderer at all, but merely a childlike patient with free meals, housing, drugs and hypnosis under the psychiatric matriarch. There seems to be some Oedipus-relations where life-long room service was the reward. 'He admitted 39 murders (some in Norway) and was convicted for 8 that he did not even do. No technical evidences and no witnesses have ever linked him to any of the convicted murders. The trials lasted for years and cost 200 million kroner. The murders were made up by a desperate person that lied to get drugs, social relations and attention. He was supported by a cult of psychologists, doctors, police, prosecutors and layers, - that lied just as much, - or even more."

Is such organizational insane manipulation, like indoctrinating false memories, possible in Dane psychiatry too? Most certainly - yes. 'Organized insanity' in S-E/S-I relations for organizations and nations' is talked through in UU 2014.jan.10 and UU 2013.april.12: "The Enneagram/NLP destructive potentials can hardly be worse than in relation to Freud/Berne psychosocial Game-analysis. It can function like a dominating and psychotic Superior-Ego that can transfer its psychosis to the client's S-E, make ID's neurosis and even split its Ego. There are potentials for the whole spectrum of Berne's described Games, - especially LYAHF, NIGYSOB, Debitor, SWYMMMD, Courtroom, LHHIT, Schlemiel, WDYYB, Rapo, Uproar, HDYGOH, LPFOJ, IOTHY and certainly Psychiatry. The destructive results of such Ennea/NLP psychosocial Games in enterprises and governments most certainly gain their rivals and competitors most of all." Furthermore, the DR documentary 'Crimes under hypnosis' (Forbrytelse under Hypnose) and the relation to NLP is mentioned.

(See also the related Derren Brown's 'The Assassin'.) Terms like mass-psychosis, brainwash and indoctrination can surely be related to such unsound S-E/S-I relations. Identifications of such ulterior and abstract organizations might be easier with use of metaphoric terms like 'The Psychopathy' and 'The Sociopathy', to relate their activities of mass-psychopathy and mass-sociopathy to the psychosocial Games." (UU 2013.april.19)

A personal outrageous experience is that the Dane doping industry abuses minors for illegal experimenting with enhancing drugs. Illegal sport's drugs are definitely physical and psychological damaging to minors. Proven after-effects are symptoms similar to CBS (Charles Bonnet syndrome) where subconscious images appears in the conscience, which proves that there are damaged neurons in the brain. The crimes were covered up by public servants by blaming the minor for being psychotic. A teacher even suggested a year in psychiatry to 'deal with the demon'. Such Jante-Games are psychological and sociological damaging in itself. Next, the Dane psychiatry prescribed non-approved Asian anti-psychotic drugs named Aripiprazole by Otsuka Pharmaceutical Company, related to the very same enterprise that produces the famous sports-drink Pocari Sweat. The Dane psychiatrist's analysis of the minor concluded with all the most serious psychiatric terms in the book, a suspicious diagnosis that most certainly will indicate improvements at later time, - whether the drug works or not. However, the illegal psychiatric drug was substituted when the minor occasionally suffered from nose bleedings. These examples are definitely of organized crime towards minors in the public services. Anyhow, there should be no doubt to the seriousness of illegal drug industry in Danish sports, when the world-famous CSC bicycle teams was exposed in the report by 'Anti Doping Danmark, ADD. These drug-related organized international crimes in Danish sports and psychiatry might very well be related.

As initially mentioned, it all comes down to basic ethics of GCR (Good/Constructive/Right) and not BDW (Bad/Destructive/Wrong). This basic system of ethics is explained in UU 2015.juni.26. A main challenge for the democratic civilizations, in relation to occult psychiatry, is first of all to hinder BDW ethics. Unfortunately, international psychocratic crimes are capable to promote BDW by isms, attitudes and ideologies concealed as GCR mass-psychosis. Still in doubt? See Danish videos 'Børn af Christiania (The Children of Christiania)' and 'Fuckr md din hjrne (Fuckng wth your Brn)'.

How to heal the Dane Psychiatry?
Tear down The Wall.

Depeche Mode is often used in UU, - like later today in the ordinary UU 2015.aug.28 that present a hit-single concert. However, this song 'Wrong' is an ethical anti-thesis BDW (Bad/Destructive/Wrong) and dedicated in particular to the Dane psychocracy. The lyrics is of an unfortunate man that is manipulated to believe that his misfortune is due to superstitious faith. The video shows the real situations and consequences, - quite metaphorical of cause.

Extra UU1 - Børn af Christiania

Just recently, the Dane national TV made a documentary about the drug promoting community right in the center of the capital Copenhagen. There should be no doubt that the Dane authorities are bound and that superior forces overrules Danish objections to the ongoing crimes. There is only one power large enough paralyze Dane authorities in such a way for so long. Overall – this is a testimonial about the state of the legal system, - probably for other major areas too. Follow the money.

The public announcement says about the documentary: "For the first time, the children that grew up in the hippie community Christiania tells how their childhood really was. They confront their parents with the unpleasant experiences and taboos that have been covered up throughout Christiania's history."

The place is previously described in UU 2014.dec.19: "Furthermore, drugs are sold in criminal environments and thereby naturally cause crimes. Hashish is 'doped' with amphetamine and thereby increase the addiction to the most dangerous 'psychotic' drugs. Consequently, there is an unintended interaction between the illegal and legal drug markets. Patients that are introduced to drugs in the legal health-services can get addicted and get contacted by the illegal drug-market thereafter."

Jan Hellessøe is a Dane expert on psychological manipulation. He has entertained and manipulated the DR audience for half a year with his TV shows. Somehow, this TV series provides awareness about the manipulations that have always been going on in societies, - even in the ancient Egyptian Stone Age civilizations millennia ago.

Previously mentioned, in UU 2014.dec.19: "The Danish and English hypnotists Jeppe Schjøtz and Derren Brown clearly warn and demonstrate how hypnotic crimes are done. This was summed up in UU 2014.nov.28: "Even hypnosis technics like NLP (Neuro-linguistic programming) suggestions and questioning are used, - in addition to inducing false memories and perceptions. These abuses have escalated and are mentioned in UU 2014.aug.01, UU 2013.april.12 and UU 2011.juli.08. The uses and abuses are far more common than the public realize, simply because the victims do not realize what happens at all. In fact, that is the whole point of NLP and Games. In Denmark, NLP is wide-spread as training programs, also for leaders, in the public and private sector. In politics, such skills can probably be found amongst so-called spin-doctors. NLP is even merged with the occult Enneagram in the so-called 'NLP Huset' in Demark. If still in doubt about NLP, see the Derren Brown videos provided below." All the cases of NLP abuse in Denmark seems not to be included in psychological and psychiatric diagnosis as social causes, - despite all the documentation and warnings from professionals. Consequently there must be a high rate of faulty diagnosis, treatments and violations of HR and LQ."

Anja Garbarek - Live 2007

2015.aug.21

Ukens Utvalgte

Temaet Pausemusikk gir nå konserter som man gjerne skulle ha sett. Det er selvfølgelig betenkeligheter med streaming og IPR, men hensikten er at noen forhåpentlig vil støtte artistene og kjøpe deres musikk.

Anja Garbarek er en norsk komponist, tekstforfatter og sangerinne, som debuterte med albumet 'Velkommen inn'. Hun er datter av den verdensberømte saksofonist Jan Garbarek er inspirert av bl.a. Tom Waits, Laurie Anderson, Meredith Monk, Ninja Tunes og The Residents.

Albumet 'Balloon Mood' overrasket og begeistret i Storbritannia. Men plateselskapet ville ikke å promotere platen, - hvilket spolerte gjennombruddet. 'Smiling & Waving' fikk særlig gode kritikker og ble lavet med assistanse fra musikklegender som Steven Wilson, Robert Wyatt, Richard Barbieri, Steve Jansen og Mark Hollis. Det siste albumet 'Briefly Shaking' fra 1996 fortsatte kvaliteten og ble kjent for videoen 'The Last Trick'.

Det er en sjeldenhet å se henne opptre live, - så denne opptagelsen er unik. Dessverre er åpningen dempet med dagslys og biltrafikk, men allikevel viser fremførelsen en kunstner i verdensklassen.

Det meste av Anjas kunst er unike kvalitative uttrykk fra en kunstner-sjel sine mange positive og negative innlevelser. Det kan tolkes som at musikk og tekster tidvis sterke artistiske uttrykk mot destruktive sider ved norsk psykiatrisk industri. Dette utdrag av sangen 'Pickin' Up Pieces' synes å være et kraftig uttrykk imot tvangsmedisinering, - eller dagens psykokratiske praksis, - 'frivillige tvang'.

Tom Petty & The Heartbreakers Live from Gatorville

UU temaet Pausemusikk gir konserter man gjerne skulle ha sett, men ikke fikk anledning. Det er selvfølgelig betenkelig med streaming og IPR, men her er hensikten å vise gode konserter og håpe at noen vil kjøpe fullkvalitets artistenes musikk.

'Tom Petty and the Heartbreakers' har holdt på i 30 år og er et av verdens mest-selgende band med mer enn 80 millioner album. Tross interesse har jeg aldri hatt noe album og ikke sett noen konsert. Men her er altså muligheten å se deres store 30 år jubileums konsert. Så blir det fest i aften.

Musikalsk var bandet i den såkalte 'Heartland rock movement' med stjerner som Bruce Springsteen and Bob Seger. Sjangere er såkalt 'synthesiser basert popmusikk' og relatert til 'Synthpop' and 'New Romanticism'. Det skal bli spennende å se på konserten om det stemmer. Noen kan kanskje gjenkjenne hits som 'American Girl', 'Breakdown', 'The Waiting', 'Learning to Fly', 'Refugee' og 'Mary Jane's Last Dance'. For øvrig har Tom, - som Prince, hatt særlige besværligheter med musikkindustrien og kontrakter. Men Heartbreakers publiserer noe av sin musikk gratis på nettet i motsetning til Prince sin temmelig rigide politikk.

UU temaet Pausemusikk gir konserter som man gjerne skulle ha sett, men ikke fikk anledning. Det er selvfølgelig betenkeligheter med streaming og IPR, men her er hensikten å vise gode konserter og håpe at noen vil kjøpe fullkvalitets artistenes musikk.

Sparks er en favoritt fra ungdommen. Dessverre er kvaliteten på denne konsert ikke helt god, men den viser bandet på sitt beste. Dessuten, kvaliteten er ikke verre enn den man kan oppleve med dårlig billett. Den amerikanske duo fra 1971 består av brødrene Ron og Russel. Deres musikk har ofte intelligent, sofistikerte og bitende tekster og en personlig teatralisk opptreden med stereotypiske kontraster mellom brødrene.

De fikk stor suksess i flere land og kultstatus. I slutten av 70 tallet samarbeidet de med Geoge Moroder. Sparks fornyet seg som en newwave/synth duo og forlot det tradisjonelle band oppsett. De har ofte endret stil og opptreden og holdt bandet foran i moderne kunstnerisk pop musikk.

Sparks har påvirket andre band og artister som Kurt Cobain, Cait Brennan, Dax Riggs, Franz Ferdinand, Morrissey, Arcade Fire, MGMT, Sonic Youth, Panda Bear, Ramones, Duran Duran, Björk, Depeche Mode, New Order, Def Leppard, Faith No More, Pixies, Ween, Will Sheff of Okkervil River, Mark Burgess of The Chameleons, The Human League, ABBA, Paul McCartney of They Might Be Giants. - Selv vil jeg klart tillegge Erasure, Petshop Boys, Eurythmics, Underworld, mengder av 'boys bands' og det meste av dj sjangeren. Sparks ble også spilt til en kritikk av miljøkonferansen i København (UU 2011.juni.03)

Det er selvfølgelig betenkeligheter med streaming og IPR, men her er hensikten å vise gode konserter og håpe at noen vil kjøpe fullkvalitets artistenes musikk. Først ut er et Hollandsk favoritt band fra 30 år tilbake. Gruppen var ufortjent ukjente selv om de kunne måle seg med de store engelske og amerikanske band, - og faktisk spilte sammen med Jimi Hendrix, Led Zeppelin, Procol Harum, Eric Clapton, Santana, King Crimson, The Doobie Brothers, Rush, .38 Special, Kiss Aerosmith og The Who.

Denne konsert er fra perioden etter Moontan albumet. Jeg hadde en kopi og den ble spilt ofte. Særlig likte jeg de større nummer hvor de har lengere instrumental jamming på gang, så som Vanilla Queen (fra 35:00).

Golden Earring sin trommesolo i 'Radar Love' Moontan ble særlig godt likt. For øvrig gjorde trommissen seg bemerket ved å avslutte konserter med å hoppe over trommesettet ved hjelp av en katapult. Så ser det ut til at det inspirerte unge hollendere. Her er en nyere opptreden, dog uten katapult, hjulpet av 1000 trommisser.

Ukens Utvalgte

Resten av året, frem til Europol valget, blir særlig viktig for Danmark. Politiske Spill i perioden blir avgjørende for Danmark sin fremtid som en pålitelig parlamentarisk rettsstat i Europa. Men spørsmål og konsekvenser er langt mere omfattende enn simple ja/nei svar antyder. Dette er ikke noe gresk Euro-valg om gjeldssanering, skjønt deres krise skyldes massiv offentlig kriminalitet. Dette siste av 8 UU gir noen grunnleggende og overordnede syn til det danske parlamentsvalg ved 3³ modellen. Omfanget strekkes langt og bredt og relateres til noen menneskelige syn på historiske røtter. Mangt er skrevet tidligere i UU med utradisjonelle syn på sakene, - så dette blir kun noen relaterte fraksjoner. Til sist kommer noen parlamentariske vurdering av de kommende Europol Spill.

Først noen hovedpoeng fra modellene for å holde på retninger, rammer og sammenhenger: Hovedsaken for parlamentariske demokrati er selvfølgelig å fremme kvaliteten på LUD (Lovgivende, Utøvende og Dømmende makter) (UU 2015.juli.10). Livskvalitet relateres til Maslows behovshierarki og Menneskerettighetene (UU 2015.juni.26). Tilsvarende kvalitet gjelder selvfølgelig for organisasjoner og nasjoner så vel som personer (UU 2015.juli.03). Freud og Jung sin klassiske 3-tilstandsmodell (S-E, Ego, ID) ble utviklet via 3x3 til 3³ (3x3x3) for sosialpsykologisk anvendelse på organisasjoner og nasjoner. De 3³ tilstander kalles Drift/Vilje/Tro, hver med 3 underkategorier RF/AF/WL, KoC/GdE/GoT og UNO/WoW/SET, samt de 3 nivåene Underbevisst/Bevisst/Overbevisst. Moralfilosofiske verdier samles i de usammenlignbare positive verdier GKR (Godt/Konstruktivt/Rett) og negative ODG (Ondt/Destruktivt/Galt) (UU 2015.juni.19).

Fundamentale 'statsmenn' definerer politikk som det en-dimensjonale 'blå blok' og 'rød blok'. Men parlamentarismen bør relateres til 3D, så som LUD, som kan uttrykkes over tid ved 4D. 5D scenarier kan laves for alternative beskrivelser av fortid, nåtid og fremtid (UU 2015.juni.12). Til sist, sosialpsykologiske Spill er pr definisjon uredelige aktiviteter eller passiviteter for å oppnå ufortjente gevinster. Positive Spill er win-win og GKR, mens negative Spill er ODG og lose-win med negativ sum.

5D scenarie-modeller bør laves som alternativ kaldkrigs-historie, fordi etterkrigs-historier skrives ensidig av 'seierherrer' og propaganderes i politiske BGGG (Bad Guy Good Guy) Spill. Pervertert informasjonskvalitet kan gi tilsvarende samfunnskvalitet. Spesielt viktig er det å bli minnet om den selvfølgelighet at kaldkrig også er krig og tilsvarende Destruktivt. Det er direkte Galt å trenere ratifisering av sivile lover som borgernes menneskerettigheter ovenfor Stat, Trone og Tempel. Uten juridisk immunitet fra Utøvende og Dømmende makter kan Ondskap settes i system hvor betegnelser som psykopatiet og sosiopatiet blir beskrivende (UU 2015.juni.12). Med modeller tilsvarende S-E/S-I (Superior-Ego/Superior-ID) kan deler av sivilisasjoner få tendenser tilsvarende 'Trelletopia', - og stadig innvikles til den retning. Avgjørende viktig blir dermed for flertallet å gjenoppdage sivilisasjonens fundament, tilstand og forutsetninger. Det blir dermed nødvendig å minimere massepsykoser og samfunnsskadelige feil fra LUD. Hvis ikke kan samfunnskonssekvenser bli tilsvarende ASPD (Antisocial personality disorder), AIDS (Acquired Immune Deficiency Syndrome) og CCD (Colony collapse disorder) (UU 2015.juli.03).

S-I/S-E misforhold kan sosialpsykologisk analyseres for storsamfunnets barndom med 3[^]3 modellen. Dermed kan årsaker finnes til eventuelle tabubelagte psykoser, nevroses og schizofreni for dagens samfunn. Følgende inntrykk av årsaker er basert på internett informasjon kan gi kan gi relaterte fragmenter til 5D historieskrivning. I tidligere UU er det flere ganger nevnt at de nordiske nasjoner etablerte et fellesskap og samarbeide for 500 år siden, kalt Kalmarunionen. Den nordiske union ble splittet i stridigheter som har overlevd i våre sinn som xenofobiske illusjoner siden den gang. Hovedårsaken grunnes i DAC/UAC Spill ved etableringen av det tredje Roma med Tsar Ivan (UU 2014.mai.02). Roma3 ble selvutnevnt etter at Roma2 falt for en muslimsk invasjon. Mindre kjent er forhistorien med de såkalte 'Pirates of the fourth Crusade' som plyndret sitt eget 'Kristne Roma'. Etter kollapsen havnet Roma2 sitt våpenskjold 'Den tohodede ørn' i en lille innlandsregion, hvor Moskva ble erklært 'det tredje Roma' og prinsen utnevnt til keiser (tsar) av en russiskortodoks munk (UU 2014.nov.28).

Angivelig skal moskovittene ha stoppet den fremrykning av mongolsk 'toll og terror' fra øst. Men det er mere sannsynlig at tsaren i stedet ble den mongolske khan sin regionale lakei, siden Ivan selv videreførte den terror til Norden, hvor Novgorod massakren er ble ekstremt grusom. Hans tilnavn ble endret fra 'Great' til 'Terrible'. (For øvrig antydes at galskapen er forevige i Shakespears Hamlet ved danske tollerborgen Kronborg - UU 2014.mai.09.) Mongolene endelige mål var å henrette den romersk-katolske pave, antagelig pga av omtalen av dem i 'Johannes Åpenbaring', - men de avbrøt invasjonene pga et hjemlig Trone skifte. I alle tilfelle, den nordiske union ble splittet for evig da Sverige gikk mot tsaren og Danmark gikk med (UU 2013.juli.19). De fleste etterfølgende kriger i Norden er basert på Roma3 imperialisme, selv om den historieskriving er sterkt nedtonet under den kalde krig, - som Roma3 dominerte i Norden. For øvrig finnes det ingen legal eller legitim grunn for at Norge, Island, Grønland og Færøyene ble underlagt Roma3 indirekte via den danske Trone.

Ubalanse mellom S-E/Ego/ID er årsaker til personlige mentale forstyrrelser. Det må dermed gjelde organisasjoner, nasjoner og imperier så vel som personer. Superior-ID først nevnt i UU 2013.Mai.24 og UU 2013.juli.05, på nivå for 'Overbevisst Drift': «Det er sannsynligvis en overordnet sammenheng i utviklingen fra Roma1 til 3. Roma3 sitt 'Oprichnina', det hemmelige Statspoliti, er en nøkkelindikator for S-I. Tilsvarende organisasjon fantes i Roma1 også, - da kalt 'Praetor Guard'. Begrepet finnes også i sammenheng med Roma2, men da betydelig videreutviklet. Praetor i Roma2 var keiserens 'første minister'. Roma2 delte imperiet i 4 hovedregioner med hver sin Praetor.» «I den sammenheng synes det så tydelig at det forrige århundret har vært styrt av kollektivt ubevisst synkroniserte 'folkebevegelser'. Det synes som den tids upubliserte bøker fra Jung om temaet allikevel var grundig studert og realisert. De mest åpenbare 'folkeforførelser' i mellomkrigstiden var ved Lenins sosialistiske ideologi (BD/OT) og Gurdjieff okkulte teologi (OD/UT) (UU 2013.april.12).» Det okkulte Enneagrammet er særlig fremmet i Danmarks ledelses-

kurser og kritisert i bl.a. UU 2013.april.12. Den kalde krigs KGB og dagens FSB er arvesynden etter Oprichnina'. For eksempel har ikke Russland hatt noen demokratisk valgt president i dette århundre, fordi Oprichnina plasserte sin agent i president-stolen. (Putin anså Medvedev som 'trainee'.)

Danmark er, som alle andre nasjoner, preget av Tro om sin kulturarv. Deres særegen Drift og Vilje har Spill, Ritualer, Aktiviteter og Passiviteter samt Relasjoner. Den særlige relasjon til Russland i 500 år er fremdeles pregende, selvom den historieskrivning er nedtonet. I UU 2014.juli.25 er det nevnt at: «Et vesentlig fundamentet for Nordens Trelletoia ligger i (tsarina) Dagmar sin skjebne og virke forut for ww1 i 1914 (UU 2013.mai.17). Som imperiets største matriark var hun selvfølgelig særlig innflytelsesrik på hele den nordiske kultur. Men Nordens trelbindingen til Roma3 skjedde allerede ved Ivan (den grusomme) sin DAC/UAC Spill på den nordisk union og allianser via danskekongens Frederik II sin bror Magnus av Holstein (UU 2014.mai.02).» Videre i UU 2015.juli.03: "Kulturopphavet til 'Dukkehjems-kulturen' er selvfølgelig fra den traumatiserte Dagmar i Vinterpalasset. Det sosialpsykologiske trauma kom i 3 faser, - 1814, 1864 og 1914» (UU 2015.mai.22). Videre kan man godt si at den kaldekrig startet omtrent 1964 da Kubakrisen beviste at menneskeheten faktisk har kollektiv etisk blokkering mot global atomkrig. JFK stoppet dette 5. grads Spill med en hemmelig US-SU avtale om å nedruste US sin tyrkiske base. JFK ble deretter åpenlyst henrettet (UU 18.mai.2012). Dessuten - besynderlig nok synes dansker å helt ha fortrenget at alle Dagsmars etterkommere ble brutalt henrettet i et CdE Spill og at millioner av lojale torturert, plyndret og massakrert i verdenshistoriens verste 4. grads Genocide Spill.

Russlands sin tredje Fedrelandskrig (Patriot krig) startet omtrent i 2014, da de hemmelige politi-tjenester FSB mistet 'Superior' makt over de hemmelige militærtjenester GRU i 2013. Siden konseptet for ww3 var urealistisk og førte til Fedrelandskrigen v.2.3 (kaldekrig), blir denne nye v.3.1 også noe helt annet enn vi tror i dag. Ett er allikevel sikkert, - Roma3 stopper aldri forberedelser i europeiske nasjoner innen Spill kategorien GdE (Games d' Etat) for endelig klimaks i Spillet CdE (Coup d' Etat). Noe er konstant og noe er videreutviklet siden Roma2 Predators og Roma3 Oprichnina'. Som omtalt i UU 2015.juli.03 «Begrepet PROSA er globalt og angår også Danmark. Faktisk ble hypotesen basert på danske sosialpolitiske Spill. Det ble gjenopptatt i forbindelse med 7/1, 14/2 og et hypotetisk 21/3 terror-angrep (UU 2015.mars.20): "A new term was made to substantiate the new secret war-like organizations, - PROSA (Pro-Russian Oligarchs, Separatists and Autonomes). Ulterior RAFs and alike exist in most nations and have variations like BRAF (Brown-Red Army Faction) and GRAF (Green-Red Army Faction). The hypothesis of the present multiple RAFs is talk through several times and accumulated in UU 2014.juni.13. In brief, 'Red Army Factions', despite their extreme ulteriority, were disclosed in several European nations and probably exists in all. A RAF-dnk cell called 'Blekingegadebanden' was named after the disclosure of a weapon depot in Copenhagen. Besides, the hypothesis of RAF development is the pre-RAF as BRAF (brown-red), formed from the ww2 Stalin-Hitler alliance and postwar-Games. This century's RAF has become GRAF (green-red) where green as the color of Islam and do not symbolize of nature at all. Pro-Russian Oligarch, Separatists and Autonomes (PROSA) do not merely operate in Ukraine." This is based on present media observations on how the neo-SU CdE Games are played, where there are hierarchies of RAF cells organized, yet manically denied like in 'Underworld' Games of mafia bosses. The executioner in Oslo, Paris and Copenhagen are displayed as Autonomes, merely to disguise and protect the massively organized crimes behind." UU 2015.feb.20.

2015.mars.20 "However, secret services have to be exposed in order to make proper 5D analysis: "A most reputed RAF agent is called 'Carlos the Jackal' alias Ramírez Sánchez. He is currently in jail for double life-time in France for killing 11 people, injuring 150 and murdering of 3 agents. Historically, in 1968, Carlos opted for the Patrice Lumumba University in Moscow that was reputed as a notorious hotbed for recruiting foreign communists to the Soviet Union. He was expelled from the university in 1970 by disciplinary reasons, though. Then he travelled to Beirut and Lebanon, where he volunteered for the PFLP (Popular Front for the Liberation of Palestine) in 1970 and tried to establish his own organization with Syrians, Lebanese, and Germans. Carlos was also connected to the STASI that provided him with an office and safe houses in East Berlin, a support staff of 75, a serviced car, and allowed him to carry a pistol in public. The STASI files also show links to the KGB (today's FSB). There is no public information if Carlos and Putin had relations when they both were with the KGB in East Germany. However, Carlos the Jackal was most

certainly closely related to RAF-dnk." UU 2014.nov.21." Videre kan man se at FSB bruker mange undergrunns 'predators' for å destabilisere 'prey nations' forut for CdE. Et tydelige eksempel er Putin sin offisielle gjensidige støtte til de russiske 'Hells Angels' kalt 'Natteulvene'. For øvrig er GRU sitt emblem en flaggermus og Stalin hadde sine kvinnelige selvmords flygere kalt 'Stalins Hekser'. I alle tilfelle, alskens 5. kolonister av både BRAF og GRAF er etablert i et halvt århundre, - under hele den kalde krig (Fedrelandskrigen v 2.3).

Den nye mongolsk-russiske allianse er velkjent med konvertering av Mongolia til kommunisme før ww2 og den andre mongolske invasjon av Beijing etter ww2. Men Kina har aldri akseptert underkastelse for Russland selv om de inngår aldri så mange GRAF vennskaps-avtaler ala BRAF (Molotov-Ribbentrop Pact 1939-1941). På et tidspunkt vil det russisk-mongolske TOL (Tuppen & Lillemor) Spill (UU 2015.mars.27) vende som det russisk-tyske før ww2 (UU 2013.juni.28) og det russisk-franske før 1814 (UU 2014.mai.16). Men dette århundre vil antagelig få et globalt GRAF oppgjør som det forrige BRAF oppgjør etter ww2, hvor tidligere stalinazistiske allierte dolket hverandre i ryggen i Undergrunns-Spill som ABD (Attack is the Best form of Defense), BGGG (Bad Guy, Good Guy), RPPP (Robbing Pete to Pay Paul), ODAB (One's Death – Another's Bread), HAR (Hit&Run) og BOOFY (Beat your Own and Others will Fear You). Det vil igjen få tilsvarende konsekvenser for Danmark sin hel-gardering med å Spille på begge sider. Avgjørende viktig er om Danmark kan håndtere alle de massive forberedelser til CdE Spillet som allerede er gjort. I denne åpenbare kritiske situasjoner er løsningen å samarbeide med sine gode naboer, - ikke å bli overkjørt av russisk og kinesisk politiske Spill.

I forrige UU 2015.juli.10 nevnes den massive tyveri og manipulering av statens data via Pirate Bay, - de mangelfulle juridiske ratifiseringer av borger rettigheter, statsforpliktelse og europeiske samarbeide, - samt rettsapparatets gale dommer i alvorlige offentlig kriminalitet. Dette forsterkes ved den kinesisk overtagelse av IBM og Telenor/TDC sine domener for IT og Tele i Danmark og Norge. Det vil selvfølgelig ende ut i alvorlige konsekvenser ved NATO vs Kina Cyber kriger. Den virkelighet vokser daglig selvom 'den fjerde statsmakt' nedtoner det hele. (Se eget tema om offentlige IT skandaler i UU 2014.mars.07 til UU 2014.april.04.)

Den fjerde statsmakt vil fremvise noen trekk fra noen Europol Spill i Parlamentet og mot Regjeringen. Men det er avgjørende viktig for Danmark å holde fokus på de virkelige Spillerne og deres virkelige motiver, gimmicks og Spill. Spill kategorien GdE fra 3^3 BV (Bevisst Vilje) ble omtalt i UU 2015.mars.06: «Alternatively, the social Game category 'Coup d' Etat' (CdE) should rather be called GdE (Games d' Etat) with CdE as its sub-Game category. The Game category 'Game d' Etat' (GdE) is defined by Gimmicks of States and related public sectors. The ancient Greek philosopher Plato is said to be the Patriarch of the Republican State. The State is rather timocratic and plutocratic (capital), autocratic/anocratic (dictator), and technocratic. State is somehow aristocratic though, because Plato thought the Republic should be run by a totalitarian elite of intelligent men without personal possessions, wife or children, in order to be objective. Nevertheless, State has developed via later versions of the classic Roma1 to today's empires (See UU 2014.april.25 and UU 2013.Mai.24). Most GdE are strictly ruled by Gimmicks of laws, regulations and procedures. They were simple and reasonable at start, but after 2500 years of political GdE, the Gimmicks have become too complex, contradicting and irrational for anyone to manage. The Gordian knots, the endless mazes and inconsistencies cause diluted needs for endless growth in order to maintenance the system. Consequently, no one fully understand the system anymore. The State-systems develop into a Belief-system, - rather similar to GoT." Det bør dermed ikke være noen tvil om at aktører tilsvarende Arnold fra TV serien 'Yes (prime) minister' bør være i søkelyset frem mot det danske Europol valg. Statssekretæren Humprey er heller kun en selv-god 'nyttig idiot' i det store Spill. (Se Ekstra UU 2015.juli.10 og UU 2015.juni.26).

Ja til Europol - er det selvfølgelig og eneste riktige valg for Danmark. Russere vet det, Kinesere vet det og alle dansker vet det innerst inne. Men igjen ser det ut til at Danmark vil legge seg flat for to fjerne imperier i stedet for samarbeide med sine nærmeste allierte. Igjen vil imperiene bryte sine intensjonsavtaler og igjen ende ut i strid. Følgelig havner Danmark igjen i et 'undergrunns' Did-Dnt Spill (Damned-if-I-Do-Damned-if-I-Don't), - som ender ut i 'lose-lose' i stedet for win-win, - så som grekernes forvirring med 'Honey pot' Spill

fra Russland og Kina forut deres Eurovalg 2015. Så det igjen duket for anti-europeisk folkeavstemning i Danmark. Sist gang valgte folket Ja til EU, men PROSA arrangerte voldsomme opptøyer allikevel, - så som de gjorde i Ukraina i fjor og Hellas i år.

For øvrig, etter 100 års dominans i LUD og offentligsektor bør ingen være i tvil om at LO er PROSA. Det vises langt tydeligere i det norske LO enn den danske med sin 100 års historie fra 'Commie' i ww1, Nazi i ww2, Stasi i kalde krig og nå Nashi (Наши) (UU 2015.juli.10), - samt Spill-relaterte kjøp av regjeringsposisjoner, korruperte halvoffentlige forretninger, arrangert hyring og firing av andres arbeidsplasser og innsidehandel av andres forretningsanliggende. Spillene begrenses antagelig ikke som para-parlament, men i det hele spekteret av para-LUD (Lovgivende, Utøvende og Dømmende makter).

Det er 3 anti-Europol partier som opptrer som S-I underlagt S-E. Enhetslisten (EL) er hardcore stalinister selv om nova-putinisme image er fornyet med 'sexy piger'. SF (og norske SV) konverterte som RAF-dnk fra stalinisme til maoisme, tapte sine stalinistiske støtter, var utroverdige for kineserne og falt dermed som noen skinnfeller. DF fraksjoner tenderer i retning av russisk Nashi kultur og anti-europeisk putinisme. Når så DF sin dominerende matriark er utpekt som parlamentets president, - blir Spill i Parlamentet temmelig forutsigelige. Danske FrP falt og ble splittet da noen anga partiets leder til Skat, som i sin tur fikk ham arrestert og fengslet. DF synes å være ledet som en folkeskole klasse med sosialiserte 'riktige' dansker. (UU 2015.juli.03) Det er som en Nashi kultur med flagg som et diagonalt dannebrog. LYAHF og Jante Spill behøver rivaliserende motstandere og det finnes mange kamplystne det nye parlament med en liten mindretalls-regjering. Så er det duket for det ny-definerte Spill 'Hanekamp i Hønsegård' (HiH) i Spill kategorien AF (Animal Farm) i UU 2015.juli.03. Førøvrig kan det forventes mengder av Spill innen den klassiske kategori 'sexual games' som relateres til 'Et Dukkehjem' i Vinterpalasset. (UU 2014.sept.12) Men de kommende Europol Spill vil utspilles i hele LUD fordi både Utøvende eller Dømmende makt bedriver også alternativ politikk, - tross tydelige forbud.

Europol Spillet vil bli enda et UU tema senere på året når valget nærmer seg.

Som i UU 2015.juni.26 velges gruppen Supertramp, som ble sponset av en hollandsk millionær. Som nevnt Danmark er nært knyttet Holland, - så vel som Russland. Gruppens album gjorde det virkelig godt og faktisk bedre enn singler på hit-lister. Med denne UU 'Cannonball' faller tanker hen til den skjeve politiske utvikling man har kontinentalt og nasjonalt. Viktig er derfor å bli av med ismer basert på politiske primater som Plato, - og ikke minst alle disse kaldkrigs ismer for 0-dimensjonale et-parti system.

Supertramp ble splittet og deres fremføringer beskyttes fra nettet. Men denne 'Cannonball' har ønsker de tydeligvis å markedsføre gratis.

Føljetongen til den nyvalgte statsminister Hacker avsluttes her. Denne gang kommer statsministeren til å benekte avlytting i parlamentet fordi det er særdeles hemmelige tjenester, - også ovenfor en statsminister. Statssjefen Humphrey blir nødt til å hjelpe statsministeren med argumenter for at saken ikke skal utvikle seg offentlig.

(Forøvrig bør det dermed ikke være noen tvil om at aktører tilsvarende Arnold fra TV serien 'Yes (prime) minister' bør være i søkelyset frem mot det danske Europol valg. 2015.juli.10

Ukens Utvalgte

Parlamentet er definitivt den Lovgivende makt og dets regjering skal sørge for at Utøvende og Dømmende makter gjør sin jobb – hverken mere eller mindre. De tre kalles LUD i 3^{^3} modell. I UU 2015.juni.05 ble alvorlige kvalitetsforringelser i systemet omtalt. Nå, med analyser på den siste sosio-tilstand 'Tro' (Superior), blir disse tabu-temaer belyst og gir kontroversielle konklusjoner. Kort sagt har alt dette enkle forklaringer. Danmark, nordiske og europeiske land, er fremdeles underkastet et Superior-Ego/Superior-ID forhold fra det forrige århundrets kalde krig. Faktisk er opphavet til de samfunnsskadelige misforhold 500 år gammelt, - fra den gang Tsar Ivan ekspanderte Roma³ imperiet mot Norden. Men mere om det i den siste UU om Danmarks parlamentsvalg i 2015.

Utvilsomt er hver person, organisasjon og nasjon regulert av sine S-E, - ved Tro på etikk, logikk og lover. Det er nødvendige overstyringer for å fungere som en personlig helhet og i samfunn med andre. Men det kan bli motsatt hvis S-E preges av mangler eller feil på grunn av foreldelse, misoppfattelser eller løgner. Verdisystem som GKR (God/Konstruktiv/Rett) må kontinuerlig oppdateres for å ikke bli ODG (Ondt/Destruktiv/Galt). Vi er der nå, - i denne post-kaldekrig hvor rester av forrige århundres ODG fremdeles er en hoved-ingredienser i LUD. Men igjen, - det blir nødvendig å bruke noen avsnitt på oppsummeringer av teorien for å anvende 3^{^3} modellen videre på den danske parlamentariske system. I hovedsak er det følgende direkte oversettelser fra UU 2015.mars.13:

«Dimensjonen Tro i 3^{^3} modellen er forskjellig fra Drift og Vilje. Freud og Jung kalte det 'Superior-Ego', men Berne kalte det 'Foreldre'. 3^{^3} Tro er inntrykk om hva vi umulig kan fullt ut forstå, men allikevel behøver å vite og stole på. Her er fokus på Tro på Superior-dimensjonen, så som det klassiske S-E. Superior-ID (S-I/Drift) ble inkludert i modellen for 2 år siden. Nå er Superior-Devine (S-D/Tro) en ny og tredje underkategori av Tro som fullfører modellen. Med denne siste del har 3x3 modellen blitt en 3^{^3} modell ('tre i tredje' eller 3x3x3) med de 3x underkategorier i tilstandene Drift, Vilje og Tro." Den filosofiske egenskap i dimensjonen Tro indikerer omtrentlig 50/50 sjanse for at troen viser seg sann, - eller feil. Dermed er det avgjørende viktig at Tro kontinuerlig oppdateres i forhold til nyoppdagede realiteter for å ikke bli rituelle masse-psykoser av ODG.

"Superior dimensjonen er basert på Freuds klassiske psykologiske tilstand Superior-Ego, - som er enhver overstyring av menneskets Vilje og Drift. Superior-dimensjonen er hermed underkategorisert i S-I (Superior-ID), S-E (Superior-Ego) og S-D (Superior-Devine) for å passe den 3^{^3} sosialpsykologiske modell. Det handler ikke om teologiske eller filosofiske spørsmål om avdøde forfedre, guder eller andre 'overnaturlige' eksistenser, - men det handler om tro og vantro. Tilstanden Superior-Devine er psykologisk legitim fordi ingen kan benekte eksistensen og viktigheten av enhver Tro. Allikevel, under-kategoriene av Tro kan ikke bli så konkret som Vilje og Drift, - slik som håndgripelig ord ikke kan fullt ut beskrive det uhåndgripelige. Dessuten, etiske verdi-system om Godt/Nyttig/Rett (GNR) og dimensjoner som Trone/Stat/Tempel (Tr/St/Te) er fremdeles relevant og er re-vitalisert i denne forstand." I sosiale systemer fokuseres heller på verdien 'konstruktiv' (GKR) enn (personlig) 'nytte'.

«Dimensjonen Tro inkluderer ikke Spill. Allikevel er det Spill kategorier innen Tro som blir Spilt fra dimensjonen Vilje. Det finnes klassiske Spill kategorier for seksuelle Spill (ID), samt sosiale og undergrunns (Ego) Spill av tredje grad. De forførende og skjulte trekk og mål i Spill kan baseres på påstander om egen Tro på sin visdom, guddommelighet eller arv. I alle tilfelle, - det finne både positive og negative Spill. Det er antagelig flere GKR Spill relatert til Tro enn ODG. Eksempler er de kristne og platonske verdi-system: tro, håp, kjærlighet, visdom, mot, moderasjon og rettferdighet. Hvorfor tro dette? En måte å anskue det på er

at de fleste uttrykk innen poesi og sanger er heller emosjonelt gode enn onde, - de fleste uttrykk fra folkeeventyr har heller konstruktiv moral enn destruktiv, - og de fleste religiøse mytologier uttrykker heller filosofisk rettferdighet enn det gale. I det minste – uttrykk om negative ODG Tro er til for å angi motsatte retning, grenser og mål. Med bruk av TA (transaksjons analyse) blir uttrykket: «Se hvor galt det går hvis du velger det negative». Dessuten, inntrykk kan bli adaptert som en intuisjon av Tro og fungere tilsvarende instinkter i Drift» For å overskue de massive potensialer for innen 'Superior' dimensjonen har de tre kategorier S-I, S-E og S-D fått sine Spill kategorier UNO, WoW og SET. Disse kan Spilles fra Vilje og Drift.

«UNO (Universal Natural Order) er en UT (Underbevisst Tro) som relateres til 'klassisk' Superior-ID (S-I) og til underkategorien UD/RF (Underbevisst Drift / RainForest). Begge angår de ukjente realiteter av mennesket, naturen og universet. Dette store ukjente område indikeres ved at vi bruker 1/3 av våre liv til å sove, ubevisst om hva våre hjerner arbeider med hele den tid. Men det er viktig for vår bevissthet og livskvalitet. Uten tilstrekkelig søvn går det galt. Allikevel, selv om RF representerer alt det ukjente i Drift som vi kan ha Tro om, omfatter UNO resten av det ukjente univers også. Dette er den absolutt største underkategori, når vi så vet det er over 10 millioner livsformer på Jorden og mener det er millioner av verdener med liv i universet. Det synes ikke være noen grense, siden vitenskapen nå filosoferer om multivers og klaser av galakser og mørk masse, - kalt Laniakea.» Uten å bli for omfattende og usaklig skal det allikevel holdes fast ved at det ukjente er langt større enn det kjente, - og bør respekteres tilsvarende.

«WoW (Well of Wisdom) er en BT (Bevisst Tro) og relateres til BV (Bevisst Vilje). Den håpløse streben etter 'allvitende' er dømt til å mislykkes, når man ikke erkjenner at selv viten innebærer betydelig andel usikkerhet og Tro. «Det mytologiske opphav til WoW ekskluderer ikke Drift eller Vilje, - tvert imot. WoW relateres til flere arketyperiske myter. Som Jung forklarte, har mennesker kollektive arketyper som tidvis blir uttrykt på underbevisst nivå som symboler, drømmer og følelser. Slike er ofte uttrykt kollektivt og synkronisert via OverBevissthet i handlinger, kunst, vitenskap og myter. Det mest kjente WoW Spill er myten om 'Edens Have'. Ateister, så vel som teister, bør anerkjenne disse arketyperiske uttrykk som vital kollektiv Tro for menneskeheten. De er grunnleggende om menneskers Livskvalitet, viljes-frihet og streben etter visdom. Videre er Treet ofte symbol for alder/kontinuitet, generasjoner, grener og gater mellom verdener. Allikevel, var det galt av profeten Moses å beskyldte profeten Adam sin kvinne for 'den første synd', forførelse og evige tragedier. Dessuten stammer mytene neppe fra Gud siden Moses sin eksistens er omdiskutert og Adam er sannsynligvis kun en mytisk arketype. Den slags urettferdige fordommer er ODG. Tilsvarende WoW Spill eksisterer i de fleste religiøse myter, - inkludert egyptiske, pre-islamske, greske, romerske, nordiske mytologier er simpelthen likedan adoptert in i de monoteistiske mytologier (UU 2015.feb.20).» Til WoW hører også alle ideologier og ismer (UU 2013.nov.29). Det er særdeles viktig innen parlamentarisk politikk å erkjenne at politisk Tro har omtrent 50/50 sjanse for å være gale og at det massivt misbrukes til politiske Spill. Således er de foreldede 'arvesynder' fra den politiske primat Platon langt fra noen relevant ideologisk fundament i dag.

«SET (Supreme Extra Terrestrial) er et OT (Overbevisst Tro) og relateres til S-D (Superior-Devine). Denne er unikt fordi den er 'Superior' over det klassiske 'Superior-Ego'. Her hører tro på overmenneskelige guddommeligheter til, - så som Gud/Allah, guder, engler, jinns og hvilkensomhelst intelligent guddommelighet fra enhver religion eller myte. Underkategorien begrenses ved at ingen levende mennesker, ikke engang teokrater, tilhører S-D. Kun tro på vesener som er transendent til guddommelig tilstand hører hertil. Hva og hvor de kan være, er et evig filosofisk spørsmål for mennesker som aldri kan besvares, - selvom teokrater kan hevde det motsatte i sine SET Spill. Noen mytologier nevner steder som Himmelen, Helvete, Xanadu, Asgard og Utopia. Men, intet Tempel, relikvie eller symbol har den slags egenskaper og vil aldri få det.»

GoT ble nevnt i forrige UU 2015.juli.03 for å indikere at Vilje, men ikke Tro, relateres til Spill kategorien 'Games of Temples'. «GoT har sitt opphav i Freud/Jung sitt begrep Superior-Ego, - så langt som menneskelig logikk strekker. Faktisk handler ikke GoT om guddommeligheter, men logisk Tro på samfunnets overordnede makter. Selv ateister spiller GoT om GKR/ODG verdi-system. Overbevisst kommunikasjon er essensielt for slik sosialisering. Det var kanskje i begynnelsen valide verdssystem for Godt og Ondt, det Konstruktive og Destruktive, samt Rett og Galt. Men dessverre blir opphavet glemt eller pervertert gjennom

århundrer med 3. og 4 grads Spill. Faktisk tenderer mennesker til å frykte det de ikke forstår og reagerer negativt for sikkerhets skyld. Det er en stor utfordring med usikkerheten inkludert i Tro.» Selv innen parlamentaristiske systemer brukes SET Spill. Tradisjonelt i Norden er Kristendommen brukt siden Trone/Tempel allianser ble splittet av Stat. Men i dette århundre har neo-monoteister blitt brukt tilsvarende det forrige århundres anarkister (UU 2014.juni.13). Det rød-brune BRAF er skiftet ut med det rød-grønne (GRAF).

Det danske Parlament er en demokratisk valgt 'Superior' samfunnsmakt som styrer sammen med de to andre LUD makter (Lovgivende, Utøvende og Dømmende). Noen forutsetninger for et sunt samfunn er reelt demokrati, balanse mellom LUD maktene og at de alle gjør sin jobb, - hverken mere eller mindre. En hovedårsak til tidligere nevnte feil og mangler kan tilbakeføres til hensynsløse rivaliseringer, sosiopatisk politikk, samt kriger - inklusive den kalde krig. Mindre åpenbart er allikevel alle de tusenårige foreldede og feilaktige kollektive tvangstanker på 'arve-synd' nivå, - og ikke minst - alle de uavsluttede politiske Spill som synes å være spøke som 'Gjengangere' i enhver parti-politisk rivalisering. Det er naturlignok urealistisk å tro at noe enkeltmenneske kan fatte omfanget og helheten av systemet, - det ville være å utsette seg for et WoW selvbedrag. På den annen side er det utvilsomt en mengde av ODG tilstander å påpeke for å føre dem nærmere GKR (Godt/Konstruktivt/Rett). I en 4D modell vil det tilsvare å få beveget LUD nærmere sine respektive positive verdier (UU 2015.juni.26).

Danske og norske Utøvende og Lovgivende makter svikter tidvis kritisk sine forpliktelser ovenfor Lovgivende makt og demokratiet. Faktisk er flere forhold så kriminelle at Straffeloven skal anvendes, - men kaldkrigs CdE Spill synes å ha paralyisert systemet. Tidligere i UU 2015.juni.05 ble noen danske forhold nevnt: «Det er overhode ingen tvil om Danmark i 20 år har hatt juridiske forpliktelser ved Traktaten om Den Europæiske Union (TEU) (Maastricht-traktaten), - tilsvarende den norske ratifiserte EØS Loven. Som nevnt: «Lovens konkurranseregler forbyr virksomheters misbruk av markedsdominans, ulovlig konkurransevridning og diskriminerende avtaler (art. 53 og 54). Offentlige virksomheter stilles vel så strengere krav som andre (art. 59). Videre er konkurransevridende statsstøtte til virksomheter forbudt (art.61) og sosial støtte skal ikke gis direkte til noen virksomhet, men til den enkelte borger (art.61a). Dette betyr at kontantstøtten (dansk kontanthjælp) er den lovlige form for sosial støtte og at den skal anvendes for alle borgertjenester. Borgerne skal selv kunne velge mellom kvalifiserte leverandører og ingen kvalifiserte leverandører skal utestenges fra markedet. Regjeringen skal reagere på den slags ulovlig misbruk av Statsstøtte for å ikke gjøre seg medskyldig.» (UU 2013.okt.04) Denne 20 årig kontinuerlig massive økonomiske kriminalitet i offentlig sektor beviser at den oligarkisk kriminalitet er mektige enn de Lovgivende, Utøvende og Dømmende samfunnsmakter til sammen.

Indikasjoner fremkommer tidvis tydelig ved manglende rettsaker mot offentlig kriminalitet samt direkte gale domsavsigelser og prosedyrer. Som nevnt: «Et annet nylig tilfelle beviser den illegalt mangelfulle ratifisering av menneskerettighetene i dansk lov. Saken var at en journalist baserte seg på informasjonen fra sikkerhetspolitiet PET og skrev at en forsker tjente (illegalt) KGB/FSB. Poenget i dette tilfellet er at domsavgjørelsen ble bevisst basert på en foreldet tekst i Grundloven og ikke den juridisk bindende Europeiske Menneskerettskonvensjon, som sikrer nasjonen mot samfunnsskadelig misbruk av ytringsfriheten og henviser til straffeloven.» «Når nasjonalt politi og rettsvesen virker såpass korrupt, blir et internasjonalt politi-samarbeide med andre europeiske nasjoner avgjørende viktig. Danmark bør prioritere å gjenvinne tillitt til Europas internasjonale politi mot den internasjonale kriminalitet ved Europol.» Så blir det avgjørende viktig for rikets sikkerhet at organiserte kriminalitet ikke får korrupere politiske aktører til det danske Europol-valg, - så som den rød-grønne krise-regjering gjorde til det greske Euro-valg.

Norske kriminelle forhold i Utøvende og Dømmende makter gir ytterligere indikasjoner på at tilsvarende eksisterer fremdeles i Danmark, - skjult med Spill. Siden Norge har ratifisert Menneskerettighetene i en særlig lov og innskrevet MR i Grunnloven, har den Lovgivende makt presset den Utøvende til å dømme tilsvarende. Protester kommer fra politiske ytterligheter med kritiske spørsmål og debatter om menneskerettighetenes legalitet og etikk. Samtidig er flere islamister tiltalt for hyldest og oppfordringer av terror mot Norge og nordmenn. Dommere har tolket ytringsfrihet uten hensyn til ECHR unntak for beskyttelse av samfunnet og mennesker. I et nylig tilfelle ble en terror-talsmann frifunnet av en uopplyst

lagmannsrett hvorpå en statsadvokaten ikke våger å anke til høyesterett. Den åpenbart gale dom hevdes å bli rettspraksis for fremtiden. Rettsapparatets holdning kan godt ses i sammenheng med at oppdateringen av Straffeloven ble trenert i ti år for et IT produkt som aldri ble levert, - samt kaskader av usaklige bortforklaringer. Det førte blant annet at 22/7 terroristen fikk redusert dom fra 30 til 21 års fengsel. (UU 24.aug.2012) Så er det saktens legitimt å spørre om det har sammenhenger og at ABB var BRAF og PROSA i et 4. grads CdE Spill (UU 2014.juni.13). Selv EFTA domstolen refser Norges Utøvende makt for å trenere reaksjoner mot terroristers finansiering og hvitvasking av penger i Norge. Neste trekk til Parlamentet er at de selv får utnevne høyesterettsdommere siden dommernes 'partibok' er bevislig avgjørende for hvordan de dømmer. (Se eget tema om offentlige IT skandaler i UU 2014.mars.07 til UU 2014.april.04.)

Det kan være Moskva selv er i ferd med å endre sin egen kalde krigs S-E/S-I trelldom, selvom nordiske eller europeiske nasjoner ikke selv klarer å fri seg fra det. Med en oligarkisk FSB agent i presidentstolen er Tro skiftet og systemet gjennomgår reformer på kontra-revolusjonært nivå. Moskva ser ut til å kopiere Kinas endring fra stalinistisk/maoistisk Tro på statskapitalismen til sitt såkalte 'et land, to system'. Følgelig omlegges hele det forrige århundres STASI-nett til dagens oligarkiske industri orientering. Det vises tydelig ved de nære relasjoner mellom presidenten og storkapitalistiske oligarker. Moskva har følgelig tilsynelatende skiftet sin støtte innen nordiske partier.

Derfor kan danske SF og norske SV sin fatale fall de siste årene indikere at grunn-støtten er nær sagt forsvunnet. SF og SV var nærmest identiske med sine tradisjonelle relasjon til Sovjet Unionen og trelbinding til Moskva-tesene. En hovedårsak til svikten kan være at SF og SV dreiet sin Tro fra stalinisme til maoisme i stedet for Novorossiya sin oligarkisme. Den tidligere norske SV leder har tydelig uttrykk sitt Tro-skifte med sin bok. Hans UD makker i regjeringsperioden har heller seilt opp som leder for nye AP/LO etter Stoltenbergs fall. I alle tilfelle, det er et faktum at SF og SV tapte støtte som regjeringsparti. På den annen side er det sannsynlig av opprustningen av FSB også gjelder deres utenlandske agenter. Så bør FSB Spillet være selvforklarende, - Kina øker støtten sine maoistiske agenter, mens Russland øker støtten til potensielle PROSA innen offentlig og private virksomheter. Kanskje mest bekymrende, - det kan føre til moderne allianser mellom illojale offentlige og private oligarker.

I Norge er en FrP politiker kommet i PST (norske PET) sitt søkelys to ganger med kraftige advarsler mot gjentakende omgang med Russlands ambassade og etterretningsoffiserer. Politikeren sier offentlig at det ikke er noe alvorlig i kontaktene, - men uttrykker også bekymring for sin ukrainske svigermor. PST og EOS (parlamentets overvåkningsgruppe) advarer til stadig offentlig i media sine bekymringer om hvordan politikere blir offer for russisk utpressing. Uansett Tro-skifte fortsetter metoder som stalinistiske Undergrunns Spill som de klassiske 'Cops and Robbers', 'How Do You Get Out of Here' og 'Let us Pull a Fast One on Joey', - samt alle øvrige Spill som er nevnt i UU 2015.juli.03.

Det kan også indikere at FSB nå setter sine ressurser inn mot nordiske potensielle oligarker i 'blå blok' i tillegg til den tradisjonelle 'rød blok'. Kina med sitt 'et land, to system' er antagelig også privatkapitalistisk orientert. Dermed er antagelig danske DF også blitt særlig aktuelt for FSB rekrutering. Det rimer også godt med hypotesen om PROSA (Pro-Russian Oligarch, Separatists and Autonomes) som er basert på hypotesen om utvikling av nasjonale RAF fra BRAF til GRAF. Uansett denne enfoldige 1D politiske modell med 2 blokker, - det rekrutteres der det egner seg best. Det desidert beste marked for PROSA-rekrutering er selvfølgelig den 'null-dimensjonale' LO. Siden mafiaen er politisk fargeblind rekrutteres den som rekrutteres kan, - for å bli dets såkalte 'nyttige idiot'. Historisk vises det så tydelig med LO sin historie fra 'Commie' i ww1, Nazi i ww2, Stasi i kalde krig og nå Nashi (Наши), - eller uttrykt i PROSA begrep; RAF, BRAF og GRAF. Norsk LO har alltid vært et para-parlament og har trelbundet AP i regjeringposisjon. Følgelig kunne LUD delvis fjernstyres og rekrutteringer fortsette inn i Utøvende og Dømmende makter. (UU 2013.aug.23) LO er stadig en 'untouchable' stalinistisk mafia som vokser. Kun internasjonalt politi-samarbeide kan håndtere internasjonale organisasjoner. Siden dansk og norsk parlamentarisme er så ens, - har Danmark sannsynligvis et para-parlament også, - bare ikke så åpenlyst brautende som norsk LO.

I Danmark markerer både ytre 'blå blok' så vel som ytre 'rød blok' seg stadig med argumenter i forhold til Europa, - som Moskva har offentliggjort på forhånd. Sitatene kan leses på den engelske versjonen av

Pravda på internettet. Man kan forvente tilsvarende argumenter mot dansk politisamarbeidet 'Europol' tilsvarende EL og DF argumenter mot det greske Euro samarbeide: "(DF) havde gerne set, at Grækenland i stedet havde valgt at træde ud af Euro-samarbejdet." "(EL) Det er et nederlag – ikke bare for grækerne, men også dem, som troede det var muligt med en progressiv udvikling indenfor Euroen og EU." Nå har greske rød-brune sympatisører trukket på gatene og startet voldelige opprør i PROSA stil mot parlamentets vedtak av Euro-avtalen. Det minner om dengang det danske folk og parlamentet stemte ja til Maastricht avtalen med EU. Straks ble det organiserte voldelige gateoptøyer i PROSA-stil bland det fredelige danske folk. Det var den synlige delen av den organiserte anti-demokratiske kriminalitet. Den usynlige del av PROSA-aktiviteter er selvfølgelig lang mere massivt organisert kriminalitet mot Danmarks gjensidig forpliktende samarbeide med EU nasjonene.

«Klarer det danske parlament gjøre sin plikt ovenfor demokratiet og borgerne ved å avkriminalisere sin offentlig forvaltning og følgelig redusere den massivt samfunnsskadelige korrupsjon? Det er foreslått flere ganger for Norge å etablere en 'Økokrim avdeling for offentlig sektor' (UU 2013.aug.23). Det har ikke skjedd på de 20 år. Årsakene er selvforklarende, - politi som rettsvesen er også korrupert. Noen danske indikasjoner er: Krudttønne saken i Danmark viser tydelig at politiet ble manipulert og deres reaksjoner testes og registreres (UU 2015.feb.20). Videre viser CSC vs Pirate Bay saken at offentlig IT er gjennomhakkert og utenfor parlamentets og regjeringens kontroll (UU 2014.mars.14).» Igjen, - tilsvarende vil det danske parlament og regjering ha nytte av å lese om den norske 22/7 kommisjonens konklusjoner og manglende oppfølging. Det vil være stor nytt for begge både den norske og danske regjering å opprette et samarbeide for de felles problem begge parlament har med sine Utøvende og Dømmende makter. Dette er de nærmest gjensidig forpliktende til for sine respektive rikers sikkerhet, - annet vil være forsømmelse. Når de så er kommet i gang, kan de jo også ta tak i sine Produktivitets rapporter, OECD rapporter og frihandelsavtaler for å finne ut av hvordan de respektive offentlige interne- og borger-tjenester enkelt kan gjøres adskillig bedre og billigere. Man kan starte med å forhandle ut urimelige oligarker. Det hardeste blir antagelig å omorganisere korrupte offentlig ansatte. Det blir høyt Spill av ukjente dimensjoner. (Se norske omtaler i UU 2014.juni.20, UU 2014.juli.04 og UU 2014.juni.27)

Med tanke om positive GKR verdier får en Tro at all den offentlige kriminalitet skyldes S-E/S-I tvangssituasjoner, Tro på desillusjonerende ismer, lovforklninger og religiøsiteter, - samt mangelfulle evner. På den annen side, i forhold til ansatte i ikke-offentlig sektor behandles offentlige ansatte som 'untouchables' tilsvarende praksis i mafia regimer ala stalinismen. Det behøves kun en hånd for å telle fengsling av offentlige kriminelle det siste tiår, - mens ikke-offentlige omtales daglig i 'den fjerde statsmakt'. Men hensikten her er ikke å få fengslet dem, - det er ikke engang plass. Men et Parlament og Regjering med Tro på Rettssamfunnet bør i det minste informere enhver offentlig ansatt om relevans i Straffeloven, samt europeiske konkurranseregler og menneskerettigheter. Innsamling av Troskaps erklæringer fra enhver offentlig ansatt kan særdeles enkelt og hurtig gjøres med deres IT systemer.

Spleen United er enda et dansk synth band med en rekke favoritter. Gruppen ble etablert i Århus I 2002 og har utgitt albumene Godspeed into the Mainstream, Neanderthal og School of Euphoria. Et døgn gjorde de det stunt å spille fra solnedgang til solnedgang. Men i 2013 ble det annonsert at de ikke vil spille sammen mere, dog uten å ha formelt oppløst gruppen. Denne sangen '66' fra albumet Neanderthal gir assosiasjoner til de mere primitive sider ved menneskehetens utvikling som dessverre for ofte gir seg uttrykk i politiske Spill. Således er de foreldede 'arvesynder' fra den politiske primat Platon langt fra noen relevant ideologisk fundament i dag.

WhoMadeWho - Running Man & The Sun 'Brighter' Album

2015.juli.03

Ukens Utvalgte

Selv med det hurtige skifte i parlament og regjering er ikke valg-dramatikken over for i år. Regjeringen har annonsert en folkeavstemning om «EU rettsforbeholdet». Dermed er det duket for et halvt år med Spill mot LUD med umiskjennelig anti-europeisk agenda fra internasjonalt organiserte kriminelle, - fordi politisamarbeidet Europol truer deres eksistens. Det kan forventes 'greske' tilstander under valgkamper med tilsvarende skjulte Spillere i og utenfor Danmark. Prosessen vil belaste kvaliteten på ordinære LUD aktiviteter (Lovgivende, Utøvende og Dømmende), fordi noen hardcore kriminelle Spillere også er sosiopatisk disponert og i permanent stillingskrig mot statsborgerne, demokratiet og parlamentarismen.

Hovedtema denne gang er 'Vilje' – den andre tilstand i den 3^3 sosialpsykologiske modell. Work (Arbeid) burde være den eneste aktivitet i LUD, men politiske Spill synes overveldende i denne periode. Det tyder på at alternative Viljer med alternative agendaer influerer skadelig sterkt. Tilsvarende klassisk mentalhygiene tyder det på at andre Superior-Ego (Tro) forsøker å minimere nasjonens LUD sitt Ego (Vilje) ved å overeksponere dets ID (Drift). Den type ubalanse er kritisk usunt for en selv og sine omgivelser, - ikke kun psykologisk, men også sosialpsykologisk – på nasjonalt nivå (UU 2014.juli.25).

Allikevel forblir det viktigste spørsmål om Parlamentet og Regjeringen klarer å realisere selvfølgelighetene fra OECD og Produktivitetskommisjonen sine anbefalinger, - til Danmarks eget beste. Disse tema ble gjennomdiskutert da Norge sto for regjeringsskiftet til blå-blå regjering i 2013 (UU 2015.juni.05, UU 2014.juni.27 og UU 2013.okt.04). Danmark og Norge er så ens at det meste av omtaler til norske blå-blå regjering kan gjenbrukes på danske mini-blå regjering og blå-rød parlament. Det bør også gjentas i denne sammenheng at GNP (GDP) ikke er et optimalt mål for samfunnets verdier. Faktisk advarte Simon Kuznets, økonomen som utviklet de første omfattende sett av mål for nasjonal inntekt, mot ensidig bruk av GNP i avsnittet "Uses and Abuses of National Income Measurements".

Nyere typer mål finnes, så som GCI (UU 2014.dec.12). "The GCI (Good Country Index) is a composite statistic of 35 data points that are mostly generated by the United Nations (UN). The data points are combined into a common measure that ranks the seven categories; Science and Technology, Culture, International Peace and Security, World Order, Planet and Climate, Prosperity and Equality, Health and Wellbeing. The extend value system from 'rich' to 'good' was made because of unexpected side effect of the globalization. Problems that once were local, now have worldwide consequences. However, nations still operate too independently, as if they do not quite realize their inter-dependencies." "The scores of GCI might surprise. Nine of the top 10 countries are in Western Europe, where 4 are of the 5 Nordic nations. (Iceland is #17 due to the global financial crises.) An explanation can be the European balance between Supply & Demand, whilst SU over-focused on Supply and US on Demand. Besides, Norden was not as damaged in the previous century's war as the rest of Europe. Other relevant rankings are that US = #21, Russia = #95 and China = #107." Forøvrig er GCI interessant i forhold til verdisystemet GNR (Godt/Nyttig/Rett) (UU 2014.sept.12).»

Men igjen, - det blir nødvendig å bruke noen avsnitt med oppsummeringer av teorien for å anvende 3^3 modellen til den danske parlamentarisme. I hovedsak er det følgende direkte oversettelser fra UU 2015.mars.06, hvor teorien ble utvidet i forbindelse med UU temaet Charlie. I LUD sammenheng kan de 3 nevnte Spill-kategorier av Vilje erstattes: 'King of the Castle' (KoC) -> Games in Forum (GoF), Coup d'Etat (CdE) -> State of Games (SoG) og Games of Temple (GoT) -> Courtyard Games (CG). Oversettelsen av avsnittene lyder:

«Ego tilstanden Ego/Voksen/Vilje er hovedsakelig om bevisst tenkning og selv-realisering. Som nevnt i UU 2014.sept.12: "informasjonskvaliteten er essensiell for modellene. Det vil være en alarmerende, forførende og korrupperende illusjon å tro at noen forteller 'den hele og fulle sannhet'. Uansett, - Vilje er ikke delt i 3 underkategorier som ID/Barn/Drift/Trone var, - og er fundamentalt forskjellig fra S-E/Foreldre/Tro/Tempel. Men, det er visse mange måter å utpeke forskjellige typer logikk, så som fysiologi/teknologi/psykologi, eller ved modenhet av Drift/Vilje/Tro, eller nivå av realiseringer som UnderBevisst/Bevisst/OverBevisst, eller seksualitet som hankjønn/hunkjønn/intetkjønn etc. De massive potensialer er fremdeles uoppdaget. Derfor er det følgende forsøk hovedsakelig med fokus på sosialpsykologiske områder for Trone, Stat og Tempel, - navnlig Spill kategorier KoC, CdE/GdE og Got.» For det mere moderne parlamentarismen, er Spill-kategorier bli innen LUD makter (Lovgivende/Utøvende/Dømmende) foreløpig kalt 'Games in Forum' (GoF), 'State of Games' (SoG) og 'Courtyard Games (CG)'.

«Den sosiale Spill Kategori 'King of the Castle' (KoC) relateres til stammer med genetiske relasjoner, som familier, klaner og andre nettverk av relatives. Denne kategori har eksister for alle mennesker i all tid, selv for foreldreløse. Selv om andre nettverk øker med internett, øker stamme nettverk også fordi det er enklere å gjenskape kontakt med fjerne slektinger på ytre familie-tres grener. Allikevel, i 3x3 Vilje tilstanden, er det kollektive UnderBevissthet Vilje som intuisjon, oppvekst, og selv genetiske likheter som skaper lignende tankemåter. UV er på et vis forbundet med UD og UT. Derfor er KoC Spill høyst motivert av UnderBevisst faktorer som ble nevnt i Drift kategorien WildLife, - men eskalert til 2. og 3 grad. Konger og Dronninger er definitivt eldre Patriarker og Matriarker, som dominerer yngre og rivaliserer med andre 'stammer' – hvis ikke de ble inngiftet. Den sosiale infrastruktur er dermed heller aristokratisk, olikratisk, stratokratisk og endog demokratisk for å oppnå befolkningens støtte og dermed unngå revolusjoner. Disse Konger & Dronninger må alltid være forberedt på å beskytte sin Trone for eksterne og interne rivalerier. Status Quo kan fremmes med hierarkiske posisjoneringer, fordelaktige Gimmiks og visse belønninger og avstraffelser. Det meste av Bernes Spill er relatert til familie-terapi og angår KoC siden dets fundament er familier.» Som nevnt, i parlamentarisk sammenheng kan dimensjonen 'King of the Castle' (KoC) erstattes med -> Games in Forum (GiF). Dermed er politiske grupperinger, som partier, NGO og organisasjoner, mere relevante enn stammer.

«Alternativt burde den sosiale Spill kategori 'Coup d'Etat' (CdE) heller kalles GdE (Games d'Etat) med CdE som en underkategori av Spill. Spill Kategorien Games d'Etat (GdE) er definert ved Gimmiker fra Stat og relateres til offentlig sektor. Oldtidens greske filosof Plato er sagt å være Patriarken for den Republikanske Stat. Stat er heller timokratisk og plutokratisk (kapital), autokratisk/anokratisk (diktatur) og teknokratisk, - for å ikke glemme byråkratisk. Stat er på et vis aristokratisk også, fordi Plato mente Stat burde styres av en totalitær elite av intelligente menn uten personlige eiendeler, koner eller barn, for å være objektive. Uansett, Stat har utviklet seg via senere versjoner av det klassiske Roma¹ til dagens imperier (UU 2014.april.25 and UU 2013.Mai.24). De fleste GdE er strengt regulert av Gimmiks av Loven, reguleringer og prosedyrer. De var enkle og fornuftige i begynnelsen, men etter 2500 år med politiske GdE, er Gimmiks blitt for komplekse, selvmotsigende og irrasjonelle for noen å kunne følge. Den gordiske knuter, de endeløse labyrinter og uoverensstemmelser fører til desillusjonert behov for endeløs vekst for å vedlikeholde systemet. Konsekvensen er at ingen fullt ut forstår systemet mere. Stats-systemet er innviklet til et Tro-system som heller ligner GoT.» Som nevnt, i parlamentarisk sammenheng kan dimensjonen 'Coup d'Etat' (CdE) -> State of Games (SoG). Dermed dekkes alle offentlige aktører innen Stat, kommune og institusjoner etc.

«Den sosiale Spill kategori 'Games of Temples' (GoT) relateres til Tro som har sitt opphav i Freud/Jungs begrep Superior-Ego, - for så langt menneskelig logikk og forstand rekker. Faktisk, GoT handler ikke om helligdommer, men om logisk tro på samfunnets Superior makter. Selv ateister spiller GoT om GNR verdi-system (Godt/Nyttig/Rett). OverBevisst kommunikasjon er essensielt for den slags sosialiseringer. I begynnelsen, kan det ha vært verdisystem for Konstruktiv og Destruktiv (Bruk og Misbruk) og endog Godt og Ondt. Men gjennom århundrer har den opprinnelige fornuft og følelser forsvunnet med de døde Matriarker og Patriarker, men allikevel fortsatt som sosial intuisjon gjenskapt ved monumenter og Ritualer. Verdisystemene kan ha blitt til udiskutable absolutter, - om hva som er rett og galt. I de fleste tilfelle blir det til Ritualer, - som har ingen skjulte motiver, men heller prosesser for sosialisering og assimilering. Men

forfeilet Ritualiseringer kan føre til Spill av 2. og 3. grad. De for lengst glemte årsaker for sosial oppførsel kan eskalere til Spill med skjult agenda, - som BGGG og andre Spill innen kategorien Livs Spill, Ekteskaps Spill og Selskaps Spill. Det kan bli motivert av fobisk frukt for det ukjente og forårsake fremmedgjøring. Selv om GoT er langt fra demokratisk, har det allikevel blitt så i den forstand at adapterte borgere fremmer de aristokratiske Ritualer og Spill.» Som nevnt, i parlamentarisk sammenheng kan dimensjonen Games of Temple (GoT) -> Courtyard Games (CG). Dermed dekkes alt innen forpliktende internasjonale avtaler, nasjonal lovgivning og Gimmiks/Etikk.

Tidligere er de fleste Spill er omtalt i UU 2015.juni.19 «Oversatte og modifiserte kategorier kan være: Livsstils Spill, Ekteskaps Spill, Selskaps Spill, Seksuelle Spill, Undergrunns Spill, Terapi Spill og Gode Spill. Kategoriene kan godt utvides og tilpasses dette århundres virkeligheter og 3x3 modellen. Eksempelvis vil kategorien 'seksuel' heller relateres til Drift, 'selskap' til Tro og 'terapi' til Vilje. Av klassiske Spill er tidligere omtalt: YDYG (Why Don't You, Yes But), IFWY (If It Weren't For You), WAHM (Why does this Always Happen to Me?), SWYMD (See What You Made Me Do), UGMIT (You Got Me Into This), LHIT (Look How Hard I've Tried), ITHY (I'm Only Trying to Help You), LPAFJ (Let's Pull A Fast one on Joey), NIGYSOB (Now I've Got You, You Son of a Bitch), LYAHF (Let's You and Him Fight), RAPO 'Psychiatry' og 'Courtroom'. En fullstendig liste av Berns klassiske Spill kan ses i hans bok 'Games People Play' som er gratis på internettet.»

«Nye Spill har også vært hensiktsmessig å definere etter omstendigheter. I tidligere UU er disse omtalt: DAC&UAC (Devide&Conquer & Unite&Conquer) er et politiske Vilje Spill som brukes til å ta dominans over kollektive grupper. TOL (Tuppen & Lillemor) er et Drift Spill i kollektivisering og kan være foranledningen til f.eks. LYAHF. ISR (It Started with the Retribution) ... synes å være særlig anvendt for å starte rivaliseringer - uten å risikere beskyldninger om provokasjon og tilhørende støtte til motparten. Tilsvarende klinisk Drift motivert Spill understøttes av ABF (Angrep er det Beste Forsvar) hvor gjensidig paranoide rivaler kan ha Tro dominert 'tvangstanker'. DSITDEN (Du Skal Ikke Tro Du Er Noe – eller 'Jante') er et kollektivt synkroniserings Spill i slekt med TOL. BGGG (Bad Guy, Good Guy) er et Vilje Spill i kategorien Underworld og særlig effektivt i 3. grads forhandlinger. RPPP (Robbing Pete to Pay Paul) er et politisk Underworld Vilje Spill som anvendes i valglofter og finanspolitikk. EDAB (Ens Død en Annens Brød) er 3 grads Underworld Vilje Spill med dødelige utfall. Som man ser, er det relativt enkelt å definere reelle sosialpsykologiske Spill, når man har fått tak i Bernes Spill-teori. Men i de senere år er det mest omtalte selvdefinerte Spill CdE (Coup d' Etat, eller Kupp). Dette Spillet er så dramatisk og omfattende at bør plasseres som en egen kategori og få en ny og høyere grad.»

Stadig flere Spill identifiseres, så som denne under analyse av TV serien 'Putin, Russia and The West' (UU 2014.nov.14). Et særdeles viktig forhold til Russlands Undergrunns-Spill PROSA Spill ble omtalt i UU 2015.mars.06: «Det nylig funnet Spill BOOFY, basert på det russiske ordtak «Beat your Own and Others will Fear You», ser ut til å være langt mere utbredt og fundamentalt enn først erkjent. Selv om BOOFY ble oppdaget i en CdE analyse, er det klart et Stamme orientert som i Spill kategorien KoC av UV. Spillet baseres på Foreldres avstraffelse av Barn og skaper trauma, som senere skaper projeksjoner av ikke-OK transaksjoner mot andre. Foreldre erfaringer med uforklarlig frykt kan stammer fra UV, som er relatert til UD og UT. Disse årsaker til personlig frukt kan derfor være høyst personlige og forskjellige for enhver. En felles, men negative løsning, er ved bruk av projeksjoner, Som omtalt i UU 2015.feb.20 «Emosjonelt, ser det ut til at noen utbrudd av akkumulert negativitet er så nødvendig som å flushe toalettet. Det burde do ikke rettes mot andre folk, men mot et sanitets system. Videre, generelle uttrykk i elendighet kan feilaktig blir oppfattet som direkte hatefullt og fortrenge tanker kan behøve emosjonelle utbrudd som utløsning. Uheldigvis, hate er misbrukt som middel i Spill. Spill av Terror er dessverre årsaken til dette UU temaet Charlie.»

«Uansett, fokus på det originale CdE fortjener noe forklaring. Det er en terminologisk grunn for den fokus på CdE (Coup d' Etat), fordi det var først brukt til skriverier om noen europeiske kriger. Det ble først nevnt i UU 2014.juni.13, om Spill av kaldkrigs faksjoner som RAF i Europa. Men begrepet Coup d' Etat in forbindelse med Spill var først nevnt i forbindelse med politiske evalueringer etter Oslo 22/7-2011 bombing og massakre i UU 2013.aug.09. CdE ble gjennomdrøftet som en 4. grads Spill og et ny Spill kategori i

forbindelse med Napoleon. Han er absolutt en arketype for CdE Spill, sammen med Julius Caesar, Ivan den Grusomme og de masse-produserte CdE despoter i det forrige århundre.»

«Napoleon er spesielt relevant for alle tre kategorier KoC, GdE og GoT, fordi han spilte for overmakt i Troner, Stater og Templer – til sammen. Som klimaks, kronet Napoleon seg selv som keiser i Templet med Paven som passivt vitne. Men, de fleste Spill analyser av Napoleon er gjort i forbindelse med UU 2014.mai.16 i temaet 1514-2014 om politiske utvikling i Norden og Europa i 500 års perioden. En indikasjon på innholdet er tatt fra UU 2014.okt.31 “Kort sagt var resultatet av Napoleons krigene en massiv slakt av europeiske royalister i militæret, - spesielt relatert til den franske Trone. Det er derfor grunn til å tro at resultatet kan ha vært det egentlige overordnede mål i Spillet. Uansett, ikke bare Moskva krevde retten til arven etter Roma (UU 2014.mai.02), men også St. Petersburg, Østerrike, Tyskland, Italia og Frankrike, - som noen Roma3b, 3c, 3d, 1b og 3e. Videre, the Ottomanske Imperiet var praktisk talt et muslimsk Roma2b og en aggressiv rival til dem alle. Spesielt interessant er Napoleons livvakt Roustam Raza, alias Idzhahia (siden Napoleon hadde fremmedgjort seg selv fra nesten alle og enhver).»

Avgjørende for Danmarks ‘Vilje’ og ‘Arbeide’ blir hvordan LUD Spill mestres frem til nyttår. 5D analyser kan gjøres basert på denne ukes greske valg og alskens relaterte Spill. For Europa er demokratiets opphav, selv om et Hellas kan kalles demokratiets vugge. Det nylige folkeavstemning slo Hellas tilbake til vuggestadiet, hvor begrepet ‘potteskårs demokrati’ oppstod. Den arketypiske historien er at filosofen Sokrates ble dødsdømt i en kvasi-demokratisk avstemning med potteskår som avstemming-sedler. Han var beskylt av den oligarkiske mafia for å forderve ungdommen med etiske filosofi. Saksinformasjon, stemmekontroll og optelling var selvfølgelig høyst tvilsomt til dette Spill for et politisk mord. Så traumatisk var det greske potteskårs-valg at Plato viet sitt liv til å beskrive, i dialogform for sikkerhets skyld, Stat som den suverene makt, samt sin forakt for demokratiet (UU 2013.mars.22). Den platokratiske illusjon om menneskets natur har preget statsmenn og statsmakter i årtusener - og særlig i forrige århundre med den andre russiske Fedrelandskrig mot Trone, Tempel og demokrati.

Dagens greske rød-brune regjering gjenopptok den oligarkiske tradisjon med kvasi-demokratiske folkeavstemninger for å projisere sitt ansvar på folket. I januar var et sterkt demokratisk og anti-europeisk folkeavstemning hvor rød-brun anti-europeisk Nashi (Наша)-propaganda dominerte. Regjeringen ble dannet av en nasjonal-sosialistisk koalisjon med det marxistiske Syriza og det nasjonalistiske Independent Greeks. Massemedia fremmer massivt denne 1D politiske modell, ved å omtale ‘rød og blå blok’, samt ‘høyre og venstre side’. Den enfoldige modell egnest selvfølgelig ikke til avsløring av politiske Spill, - tvert imot å skjule og fremme dem. Kritikken av den 1D modellen ble beskrevet i UU 2015.juni.12: «Det gir et inntrykk av at Trone og Stat er absolutte motsetninger, at ethvert parti kan relatere seg til en av disse to, samt at ekstremister alltid er 2 motsatte grupperinger utenfor H (blå) eller V (rød). Hvis man i stedet forbandt endene i denne 1D modellen, ville man få en sirkel og se at ekstremister er de samme destruktive anti-krefter uansett politisk tilhørighet. Men løsningen er ikke å sammenkoble H (blå) og V (rød) til et punkt. Et steg på veien er at Trone og Stat representerer hver sin akse i en 2D flate. Dermed kan de fleste parti representere noe av både Stat og Trone i flaten mellom deres akser. Dessuten, - aksene har også negative skalaer, hvor ekstremister følger vil vises som anti-partier på motstanderens negative akse.» 3D gir mulighet for langt mere omfattende politiske analyser over tid og med alternative scenarier. Her følger noen forhold til det greske EU valg om Euro som kan prege det kommende danske EU valg Europol.

Tripas ble statsminister i år etter et demokratisk følsomt valg som appellerte til det sosialpsykologiske Drift fremfor Vilje. Krisen var skapt av en korrump Stat som nektet å følge edruelige økonomiske retningslinjer iht Euro samarbeidet. Regjeringen plasserte dermed Hellas på nivå med Zimbabwe, Somalia og Sudan i misligholdte lån. Den rød-brune Regjering reiste hurtig til Moskva og forhandlet Hellas sin fremtid. På den tid var Novorossiia-illusjonen fremdeles troverdig etter annekteringen av Krim og undergrunns krigføring mot andre Ukrainske regioner. Tripas er dermed sannsynligvis enda en ‘puppet president’ som har solgt sin nasjon til Moskva, - tilsvarende tidligere presidenter av Georgia and Ukraina. Det tema er omtalt i UU 2014.nov.14 som gir 3x3 analyser basert på tv dokumentaren ‘Putin, Russia and The West’. En hovedkonklusjon er at Putin selv er en ‘puppet president’ siden denne FSB agent ble utpekt da Russlands siste president overraskende trakk seg i 1999. Den greske finansminister Varoufakis betegner seg selv som

'libertarian Marxist fra barndommen av. Hans hovedsak var tydeligvis å saboterte den økonomiske hjelp fra IMF og EU. Han var en hovedårsak til forhandlingskrisene. Han trakk seg selv som Finansminister selv om han 'vant' folkeavstemningen. Etter dette 4. grads HAR Spill (Hit&Run) kan han neppe kalle seg en 'gresk mann' igjen, - med platonske etiske verdier som «Visdom, Mot, Moderasjon og Rettferdighet» (UU 2013.mars.01). Han var heller som en forvirret ungdom introdusert verdens eldste yrke som politisk middel. Neste karrieresteg må for lengst være planlagt i Moskva i assosiasjon med Novorossiia oligarker som lurker i Middelhavs-regionen, som noen strandede 'Pirats of the Fourth Crusade' (UU 2015.mars.27).

Splittelse av greske borgere var antagelig hovedmotivet til den rød-brune puppet-regjering for å kjøre DAC Spill (Divide&Conquer) på det greske demokrati. Folkeavstemningen er treffende betegnet en parodi blant annet fordi; konkrete forslag ikke eksisterer, saksgrunnlaget krever profesjonalitet for å forstå, velgerne fikk for kort tid å tenke, spørsmålsstillingen var ledende, og det var særdeles uklart om konsekvensene for både 'ja' og 'nei'. Videre tyder reaksjonene på at den rød-brune regjering forventet omvendt resultat. De advarte mot gate-opprør og terror fra sine ekstreme sympatisører. Etter valget var Putin hurtig på telefonen til Tripas og ville diskutere de neste trekk i Spillet. På den annen side vil gjerne alle europeiske og verdens utlånere gjerne finne ut av hva regjering egentlig vil i stedet for å betale tilbake sine lån.

Dette greske valg ble allikevel ikke noe tilsvarende CdE spillet mot det illegalt annekterte Krim. Det tilsvarende FSB Spill mot Hellas gikk fatalt galt da verdens øyne nå er fokuserte. Russland klarer ikke å bygge sin passasje fra Moskva, via Svartehavet, Suez kanalen, Rødehavet og Stillehavet. Russland kan ikke bestikke Hellas regjering mere på grunn av sin selvforskyldte økonomiske krise. Eventuelle alternativ er kommunistiske Kina eller muslimske Midtøsten. Den slags rød-grønn allianse vil Grekere neppe binde seg til. Traumaene er for sterke fra den muslimske invasjon av 'det kristne Roma' og det Ottomanske kalifat (UU 2015.mars.27).

Men Hellas er da særdeles besværlig å mestre, selv for platokratiske statsmenn. Hellas har vært en geopolitisk nøkkelposisjon i tusener av år. Faktisk er den greske ur-kultur for alskens middelhavs politiske intriger med Pandoras bokser, trojanske hester og alskens mytologiske arketyper. Nå - i den globaliserte verden er de politiske intriger løftet enda et nivå, som omtalt i UU 2015.mars.27: "Since the second Mongolian invasion of Beijing after ww2, there are growing Moscow/Beijing alliances. A main goal is to make a passage between the empires, which requires control of the Black Sea and the Red Sea, - and land areas like Crimea, Turkey, Greece, Cyprus, Egypt, Syria, Saudi Arabia, Yemen and related regions. Recent news indicates that the new GRU/Spetsnaz must have been involved from 2013 in Ukraine annexation of Crimea and warfare in Donetsk and Luhansk, in addition to Moldavian 'separatist' uprisings and possibly annexation of two Georgian provinces in 2008. The regional forces is called PROSA (Pro-Russian Oligarchs, Separatists and Autonom) like the former national RAF (Red Army Factions) (UU 2015.feb.20). However, all this is merely to get access to the Black Sea. The means and involvements to get access to the Red Sea involves most likely similar sociopolitical Games. Some indications were in UU 2014.nov.21: "Anyways, in addition to the mysterious cascade of CdE called 'Arabian Spring' there are very ulterior 4th degree CdE Game player at stage. However, less mysterious is the Syrian war with several Muslim groups with loads and loads of Russian weapons, traded by murky Olicrates via Cyprus."

Begrepet PROSA er globalt og angår også Danmark. Faktisk ble hypotesen basert på danske sosialpolitiske Spill. Det ble gjenopptatt i forbindelse med 7/1, 14/2 og et hypotetisk 21/3 terror-angrep (UU 2015.mars.20): "A new term was made to substantiate the new secret war-like organizations, - PROSA (Pro-Russian Oligarchs, Separatists and Autonom). Ulterior RAFs and alike exist in most nations and have variations like BRAF and GRAF. The hypothesis of the present multiple RAFs is talk through several times and accumulated in UU 2014.juni.13. In brief, 'Red Army Factions', despite their extreme ulteriority, were disclosed in several European nations and probably exists in all. A RAF-dnk cell called 'Blekingegadebanden' was named after the disclosure of a weapon depot in Copenhagen. Besides, the hypothesis of RAF development is the pre-RAF as BRAF (brown-red), formed from the ww2 Stalin-Hitler alliance and postwar-Games. This century's RAF has become GRAF (green-red) where green as the color of Islam and do not symbolize of nature at all. Pro-Russian Oligarch, Separatists and Autonom (PROSA) do not merely operate in Ukraine." This is based on present media observations on how the neo-SU CdE Games are played, where

there are hierarchies of RAF cells organized, yet manically denied like in 'Underworld' Games of mafia bosses. The executioner in Oslo, Paris and Copenhagen are displayed as Autonomis, merely to disguise and protect the massively organized crimes behind." UU 2015.feb.20

Med 5D analyse kan det greske Euro valg brukes som Scenarier for det kommende danske Europol valg. (5D 3x3 Spill analyser er forklart i UU 2014.sept.12.) Det er mange paralleller mellom EU prosessene for Hellas og Danmark. Men mer viktig enn det nåværende Euro-valg er antagelig CdE Spillene som førte til det fatale regjerings-skiftet i januar. Det kan gi forhåndsvarsler på de kommende 3^3 Vilje relaterte Spill av typene GiF (Games in Forum), SoG (State of Games) og CG (Courtyard Games). De originale Spill typer er beskrevet i UU 2014.aug.29 og etterfølgende. 5D analyse er avgjørende viktig for Danmark i år for å unngå uopprettelige greske tragedier og ruin. I hovedtrekk kan hovedpoeng være å: Kartlegg virkelig politisk standpunkt uansett historie, navn og argumenter. Kartlegg motiv, spillere og deres uredelige Spill for å kunne terminere Spillene. Spill kan simpelthen termineres ved å være ærlig og oppriktig, siden Spill baseres på uredelighet, skjulte trekk og å ta andres gevinster. I denne periode frem til nyttår vil det handle om å avsløre tilslørt svik mot rettssamfunnet og rikets sikkerhet.

Som nevnt, - hvis Europol samarbeidet termineres blir Danmark en magnet og fristed for all organisert kriminalitet i Europa og relaterte miljøer. Mektige kriminelle oligarker vil selvfølgelig påvirke politiske partier, organisasjoner og media ved sosialpsykologiske Spill, - tilslørt som legitim politikk. Dessuten, - kriminelle aktører bruker selvfølgelig kriminelle metoder for å få sin egen Vilje. Den mini-blå Venstre regjering blir dermed hovedmålet for massive angrep for å svekke rettssamfunnet uopprettelig.

WhoMadeWho er et band fra København med eksperimentel pop. De hadde debut i 2005 men fikk gjennombruddet i 2009 med albumet The Plot. Dette er også et av Danmarks favorittband. Assosiasjonen til denne dobbelt video går til alle forsøk på å forbedre Livskvalitet på personlig og organisatorisk nivå. I denne noe burliske dobbelthistorie går det heller ikke som tenkt, - heller tvert imot. Enda en utfordring å finne ut av.

Denne ukes episode av 'Yes, Prime Minister' handler om Statsministerens forhold til Europa. Hans planer for UK i EU blir forhindret. Politiske Spill om dominans blir skjult som diplomatisk høflighet.

Det er vanskelig å forstå omfanget og konsekvensen av organisert kriminalitet i Europa. Interessante og spennende indikasjoner gis på en god måte med TV serien Crossing Lines. Riktignok handler ikke serien om Europol, men en annen organisasjon mot internasjonal kriminalitet. TV serien vises blant annet på Netflix.

Ukens Utvalgte

Det ble en overraskende hurtig mini-blå regjering. Venstre besluttet på fredag, lavet regjering i helgen og konstituerte på mandag. Det tyder på at regjeringen heller vil fokusere på å regjere (Work) enn på Spill (Games) i parlamentet. Dermed er et interessant fundamentet for 3[^]3 sosialpolitiske analyser lavet. Man kan allerede si at de får ekstra store utfordringer i alle de 3 samfunnsmakter LUD, samt media. Dermed blir også ID relaterte analyser aktuelt. Det kan lyde merkelig, men ID er langt mere fundamental for menneskers egenskaper og oppførsel enn Freuds psykoanalyse belyste. Hans etterfølger Jung derimot, gjorde mange fundamentale oppdagelser og innrømmelser. Derfor, som nevnt i forrige UU 2015.juni.26, «Menneskeheten har skapt sitt samfunn i sitt bilde for å bedre sin tilværelse. Dermed er enhver person sin Livskvalitet et fundament for demokratiet.» Men igjen, først blir det nødvendig med en teoretisk oppsummering for å beskrive og rådgi den for det nye danske parlament.

3[^]3 (tre i tredje, 3x3x3) modellen er basert på Freuds '3 ego state' og Jungs utvidelser. 3[^]3 er anvendelig på menneske, organisasjoner, nasjoner og menneskeheten som helhet. Basert på Jung, og dels Freud, ble en ny dimensjon for bevissthetsnivå introdusert i 3x3 modellen. Ytterligere årsaker til oppdeling og restrukturering var blant annet at senere psykologer splittet S-E i Foreldre som Matriark og Patriark og følgelig ble ID delt i tilsvarende Barn som 'Sulk' og 'Jerk'. I 3x3 kom en tredje ID kalt 'Nerd', som relaterer seg til Ego tilstanden. Videre antydes en Superior-ID, som relaterer seg til ID som Freuds Superior-Ego relateres til Ego. For å samle det hele ble alle 3 tilstander delt i 3 og dannet 3[^]3 modellen. Forhåpentlig er denne prototype tilstrekkelig nå til å brukes til betydelige analyser, samt videreutvikling av 3D og Spill modellene. For øvrig ble den sosialpsykologiske modell 3[^]3 grunnleggende forklart i UU 2014.aug.08.

ID er sterkt relatert til Livskvalitet ved de grunnleggende Fysiske behov, Sikkerhet og Sosial tilhørighet (ref. Maslow). ID-relaterte behov støttes også av Menneskerettigheter. Freuds ID ble betegnet Drift i 3x3 og åpner for Jungs videreutvikling av Freuds teorier. Som nevnt i UU 2015.juni.19 og UU 2014.aug.15. «Jung var mere opptatt av ID og Superior-Ego. (Drift og Tro i 3x3 modellen). Jung utviklet 4 teoretiske hovedområder: (1) Konsept for innadvendte og utadvendte personligheter, som ble fundamentet for MBTI (Meyer-Briggs Type Indikatorer). (2) Det komplekse ubevisst kjernemønster av følelser, minner, persepsjoner og ønsker. (3) Konseptet for den kollektive ubevissthet som deles av alle mennesker og inkluderer Arketyper. (4) Synkronitet for interpersonlige relasjoner på UnderBevisst nivå. Man kan si at Jung tok ordet psykologi mere seriøst enn Freud da det faktisk betyr noe som 'lære om sjelen'. Jung ble selv overbevisst at livet har en åndelig hensikt utover materielle mål. Følgelig har Jung influert fag som psykologi, fysiologi, teologi, filosofi, arkeologi og antropologi.» MBTI kan også relateres til 3x3 fordi den Jungs teorier og Freuds 3-state. Følgelig er 3x3 en helhetlig sosialpsykologisk modell som også åpner for underbevisste og overbevisste realiteter.» 3x3 modellen åpner følgelig for flere dimensjoner utover Freuds psykoanalyse. For politikk blir kollektive ID-relaterte UnderBevisst særdeles relevant, - selv om det synes mindre åpenbart.

Mangler og feil i kollektivt ID er vesentlig på mange måter. Noen basale eksempler er bl.a. at ur-mennesket følte naturlignok sterkt behov for fett og salt, - noe som fører til helseskadelig overkonsum nå som tilgangen er stor. Massekonsum-industrien utnytter den slags manglende kontroll over Drift på bekostning av personer og samfunn. Nå for tiden settes fokus på biers CCD (Colony Collapse Disorder) hvor kjemikalier og parasitter utrydder hele kulturer. Men ifølge Paul Stamets er årsaken at biers tilgang til sopp med pensilin er fjernet under kultivering av naturen. Det kan enkelt kureres på naturlig vis. Tilsvarende kollektive ID behov finnes sannsynligvis hos mennesket også. Menneskers kollektiv Drift har store potensialer for forbedringer, men er dessverre utsatt for politisk misbruk til personers og samfunnets skade. Særlig bekymrende er sosialpsykologisk skadelige S-E/S-I forhold, - disse 'gordiske knuter' av 'mentale navlestrenger'. Eksempelvis har den massive doping med narkotika i kjernefamilier under 68 generasjonen ekstremt skadelige. Det var enn krigføring i grenseland til forbudet mot ABC våpen (atom, biological, chemical), - antagelig for å gjøre borgerskapet psykotisk tilsvarende CCD, og følgelig skape borgerkriger for CdE Spill. De massive samfunnskader er langt fra kurert i dagens samfunn, - men demokratiet er stadig utsatt for farlig (S-I) Drift-relatert krigføring. Den slags Spill må avsløres ved kvalitativ diagnose for å kureres. 3[^]3, 5D og Spill modellene kan forbedre den slags sosialpsykologiske diagnostiseringer, - ved fornuftig bruk.

De åpenbare forskjeller ved kjønn er ikke inkludert i 3³ modellen. Som nevnt i UU 2014.aug.08 «En logisk kuriositet ved 'sannhetstabeller' tilsier at det kan finnes 4 kjønns-variasjon selvom det finnes 2 kjønn. De er intetkjønn (før og etter kjønnsmoden alder), hankjønn, hunkjønn og tvekjønn. Disse mindre omtalte kjønnslige variasjoner kan ha langt større psykososiale innvirkninger enn omtalt. Puberteten er som kjent dramatisk Spill-drivende, men overgangsalderen er antagelig lang mere tilsvarende influerende. Videre ble globale Spill om 'Kjønnskamp' særlig fremmet i den kalde krigs siste krampetreknings. Det hadde betydelige politiske 5D konsekvenser for verdenspolitikken (utover DAC Spilletets hensikt).»

De etterfølgende avsnitt er direkte oversettelser fra beskrivelsene på engelsk i UU 2015.feb.27. Faktisk er ikke dette skrevet tidligere på norsk (eller dansk) og dermed innovativt for anledningen til det danske parlamentsvalg.

Innledningsvis presenteres den nye dimensjon fra 3x3 til 3³. (Ordet underkategori erstatter spill-kategori.) «Først ut er Drift ego-state, - den utvidede ID/Barn tilstand. Drift sin underkategori AnimalFarm (AF) er tidligere antydning, men det må være 3 underkategorier for å utfylle den organisatoriske modell for tilstandene Drift, Vilje og Tro. De to andre vil bli kalt Wildlife (WL) og RainForest (RF).» «For å tilpasse Freuds 3-tilstander til dette århundre og sosiale relasjoner, er begrepene utviklet fra-via-til: ID-Barn-Drift, Ego-Voksen-Vilje og SuperiorEgo-Foreldre-Tro. En ny dimensjon av bevisstheter er tidligere tillagt 3x3 modellen for å samle Jung og Freuds 3-tilstander. Nivåene er; UnderBevisst, Bevisst og OverBevisst (U, B, O).»

«Eric Berne delte det tradisjonelle ID i 2 typer 'Barn' for å relater til de to S-E typer foreldre, Mor & Far. I tidligere UU 2014.aug.15 ble ID delt i 3 for å inkludere Voksen/Ego. De tre ID kategorier ble kalt Sulk, Jerk og Nerd. Disse tre ID relaterer seg til andre personer via deres OverBevissthet (OB) i Spill sammenheng som; Sulk/Drift/RF, Jerk/Tro/WL og Nerd/Vilje/AF (UU 2015.Jan.23). Drift relaterer seg til bevisstheter ved UnderBevissthet (U), Bevissthet (B) og OverBevissthet (O) – som RF/UD; AF/BD og WL/OD. Det er nå 3 nye sosialpsykologiske Drift-relaterte under-kategorier; AF (AnimalFarm), RF (RainForest) and WL (WildLife).» (Det er noen korrigeringer på betegnelser og relasjoner fra nevnte UU.) Med et fundament på plass kan menneskehetens kollektive ID kategorier antydes nærmere. Dette er illustrative fremstillinger som indikerer at mennesket og menneskeheten er nært tilknyttet naturen og er mere omfattende en Vilje og Tro. Det blir nødvendig å inndele det sosiale ID i underkategorier innen flora og fauna for å beholde en viss oversikt.

«Den sosiale Drift underkategori Wildlife (WL) relateres til dyrs liv i åpen natur, - som vi kjenner det. Men denne kategori vokser fordi nye oppdagelser og kunnskap øker. Typiske områder for WL er tilgjengelige skoger, savanner, jorder, kultivert natur og selv dyrs byliv. Det handler om interpersonelle relasjoner som biologi, motorisk fysiologi, instinkter, nevrologi etc. Noen WL kollektive fenomener er 'rovdyr vs byttedyr' (Predator vs Prey), som ble omtalt i S-E/S-I relasjon som utrensninger (genocide) på imperie nivå (UU 2014.jan.10). Et annet fenomen er masse-selv mord som flokker av lemmer utfører, samt flokker av pattedyr som krysser en elv de vet er fulle av rovdyr. Wildlife har antagelig noen skjulte Spill på UD (Underbevisst Drift) nivå, tross naturens ærlighet. Mennesker har adoptert en stor mengde WL Spill av første grad og Spiller dem på 2. og 3. grad. Særlig bekymrende utviklingen i Spill av den nye globale 4. grad» Selv om dyr har sosiale egenskaper har det ikke på nivå av det menneskelige potensialer, - på godt og ondt. I WL er ikke hoved-aktivitetene Spill, men heller Arbeid, Tidsfordriv, Ritualer, Tilbaketrekning og Intimitet. Likeledes har menneskelige samfunn en mengde Drift relaterte Ritualer. Typiske eksempler er selvfølgelig Julen, som er basert på midtvinters Osiris kultur og tilpasset dagens nordiske forhold (UU 2015.feb.13). Midtsommer skulle man tro handlet primært om lys og varme, - men symbolsk heksebrenning ala Novogorod er blitt et forventet kollektivt 'Jante' ritual. (UU 2014.mai.09). I skrivende stund pågår Roskilde festivalen, som til de grader er et massivt kollektivt synkronisert Drift Ritual, med alskens Intimitet og Tidsfordriv.

«Den sosiale under-kategori AnimalFarm (AF) ble først nevnt i UU 2014.dec.19 som en kritikk av dansk folkeskole, som preger ethvert dansk barns mentalitet, - på godt og ondt. "10 år i en klasseroms-celle med en dominant matriark, eller patriark, løfter Spill til et organisatorisk nivå av S-I/S-E, - i en kollektiv versjon av

Spillet TOL (Tuppen&Lillemor / TLM (Two Little Maidens) og en nasjonal variant som 'Jante', DGE (Den Grimme Elling / TUD (The Ugly Duckling) og andre 'Animal Farm' relaterte Spill av S-I. Men, begrepet AF stammer fra dystopiet i novellen 'Animal Farm' av George Orwell. Han var en sosialdemokrat som advarte mot den voksende Stalinisme ved å skrive i fabelsk form. I 3x3 forstand er det noen strukturer og dominanser ved den biologisk bevissthet innen arters stammer. Det er hierarki organisasjoner hvor eldre pattedyr dominerer yngre og hvor en enkelt han regjerer. På den annen side, insekter kan ha bol hvor dronningen dominerer arbeidere, droner, krigere og pleiere. Det finnes selv betydelige inter-arts relasjoner som indikerer avhengighet og trelldom. Dessuten, en flokk fugler og stim av fisk har synkroniserte kollektiver hvor enkelte individer sjeldent dominerer. Uansett, fugler og pattedyr kan ha aggressive rivaleri mellom hanner under parringstid. Første grad av 'seksuelle' (Drift) Spill, som LYAHF stammer fra den slags rivaleri. Faktisk, relaterer de fleste Spill til 1. grad Drift og stammer dermed fra ID. Humanoide primater kan til og med Spille 1. grad av sofistikerte Party Spill og Undergrunns Spill. Videre, som indikert, klasserom kan ha hakke-ordener som i hønsehus. Uansett, naturens nonverbal kommunikasjon er temmelig avansert med lukter, farger, oppførsel, ritualer etc.»

Offentlige sosiale tjenestesektor som folkeskolen er dominerende Matriarkalsk. Dermed er Jante Spill som DGE nærmere LYAHF Spill variant som kan kalles 'Hanekamp i Hønsegård' med etikken 'alle mot en'. Erfaringsvis kan det være en særdeles brutal sosialisering og assimilering etter Gullags kolonialisering konsept. Etter et halvt århundre kald krig er konseptet adaptert i samfunnet som noe normalt. En kan saktens velge karrierevei med evig roomservice som matriarkatets tøffelhet, mot visse gjenytelser som fremmer nasjonal-sosialistisk politikk i offentlig regi. Det blir en selvpleiende klientkultur hvor alle er avhengige av å pleie hverandre på forskjellige vis. Problematisk er enhver borger blir avhengig av sosialsystemet og kan ikke klare seg på egenhånd, - eller Selvrealiseres iht Maslows behovshierarki. Systemet tilsvarer heller til en videreutvikling av Danmark som en russisk vasallstat med Nashi (Наши) kultur, - inklusive alle dets skyggesider (UU 2014.nov.14).

«Den sosiale under-kategori RainForest (RF) refererer til det skjulte WildLife som vi ikke kjenner eller vi kan tro noe om. Tro om RF kan være 'kur mot kreft' og 'ungdomskilder' såvel som dødelig natur, - og virus med potensiell apokalyptisk pandemi. Uansett, - ingen tvil at RF har en rik flora og fauna, som inkluderer potensielt nye medisiner, 'trikster' rovdyr og byttedyr, hvor kamuflasje, gift og paralysering er brukt i 1. grads Spill. Dette er fundamentet for psykososiale Spill, hvor skjulte motiv, forførende trekk og bytte er essensielt. Menneskelige 'Honningkrukke' Spill er klart relatert til RF, hvor offerets Drift fristes i en felle. Tidligere omtaler i UU 2014.aug.22 er også relater til RF Spill: "Det kan lyde mere fantastisk en hypnose, - men for å få tak i ideen anbefales det å se TED videoer som 'Ed Yong: 'Suicidal crickets, zombie roaches and other parasite tales'. Den viser at kollektiv synkronisering ibland dyr ikke alltid er motivert av interpersonell sosialisering. I noen tilfeller er deres UD (Underbevisst Drift) kontrollert av fysiske parasitter som bruker 'verten' mot deres eget gode og til parasittens gevinst. Uansett, - denslags likheter med psykiske aktiviteter for kollektiv fjern-kontroll av gruppe-synkronisering er vel dokumentert I det forrige århundres såkalte politiske 'folkebevegelser'.» Dette kollektive sosialpsykologiske fenomen er overdrevet og underrapportert i dansk sosialpolitikk, - hvilket førte til følgende omtale:

«Narkotika og hypnose påvirker utvilsomt menneskers nerver, oppfattelser, psyke og oppførsel. Den slags er misbrukt i Drift-relaterte Spill som for rovdyr og deres offer. Dette ble forklart og kritisert i UU 2014.dec.19. «Kategorier av narkotiske stoffer er; psykedeliske stoffer som LSD og meskalin og meskalin (hallusinogens), eufori stoffer som hasj, paralyserende stoffer som morfin og heroin, i tillegg til sentral-stimulerende stoffer som amfetamin og illegale stoffer som XTC (dopaminer), som er mot-dopet med legale anti-dopaminer av det institusjonelle psykiatri.» «Bruk og misbruk (av hypnose) er langt mere vanlig en offisielt erkjent, ganske enkelt fordi ofrene ikke kan oppfatte hva som skjer I det hele tatt. Faktisk, - det er hele poenget med NLP (Neuro-linguistic programming) og Spill." "For å være direkte – både narkotika og NLP forbrytelser er grovt kriminelle 'undergrunns' Spill. Temaet ser ut til å være et sosialt tabu, - hvordan det legale helse-system blir misbrukt for den slags illegale helse kriminalitet.» Et fundamentalt samfunnsproblem er hvordan psykiatrien beskytter sine egne åpenbart kriminelle aktører. Det meste blir skjult for offentligheten under dekke av taushetsløfte, - men særdeles avslørende for kulturen er DR sine reportasjer om den såkalte 'hjerneskadet psykiater' som tross Sunnhetsstyrelsens årelange kunnskap fikk

fortsatt behandlet hundrevis pasienter og massivt utskrev harde medikamenter ved feildiagnoser og feilbehandlinger. Men den massive oppfølging i DR synes heller være motivert av å felle en minister enn å bedre psykiatrien. Vel så opprørende er de ulovlig innsamlede data i DAMD-databasen hvor en privat legeförening delte personfølsomme pasientdata til medisinalindustrien.

Det er høyst kritisable forhold mellom det legale og illegale narkotika marked i Danmark, - selv om det forties og bortforklares i sosialpolitiske Spill (UU 2014.aug.01). Velkjent er den illegale legitimering av harde narkotika i Christiania markedet, - den dominerende danske medisin-industri som stadig behøver å teste nye produkter på borgere, samt psykiatikeres overdrevne doseringer på mindreårige med anti-depressive 'lykke-piller', anti-hyperaktiv ADHD piller. I tillegg kommer doping midler som kan 'brenne av' nervebaner i hjernen og forårsake sanseforstyrrelser. Symptomer danske barn viser i folkeskolen er ikke nødvendigvis psykiatriske, men normale depresjoner, forsøk på selvrealisering, manier, fobier, pubertetens endringer i biologien og ikke minst helt normale sosiale misforståelser. Årsaker til unormal oppførsel kan like godt være høyst menneskelige reaksjoner på umenneskelig behandling, så som 10 år med AF Spill i en klassecelle.

Ignoranse, arroganse og fordommer kan føre til høyst tvilsom diagnose-kvalitet av pedagoger, psykologer og i psykiatrien. Eksempelvis stilles en initierende diagnose med usannsynlig mange psykiatriske symptomer, - som ved senere kvalitativ diagnose kan indikere at kuren virket, - tross ingen reell virkning. Nå vil også asiatisk medisinindustri ha del i det store danske doping-marked. Etter introduksjon i Egypt foreskrives nå pillen Aripiprazole til mindreårige dansker før det er offisielt ferdigtestet og godkjent. Foreløpig er det påvist mange alvorlige bieffekter på voksne. Aripiprazole produceres av Otsuka Pharmaceutical Company og er etablert i Asia og Egypt. Konsernet er mest kjent for sin populære sportsdrikk Pocari Sweat som skal sendes opp med en SpaceX raket i oktober 2015 og bli det første produkt som er markedsført på månen. Vanvittig. Så er det all grunn til å kvalitativt diagnostere dansk psykiatri på organisatorisk nivå med henblikk på behandling for egen og andres fremtidige Livskvalitet. Drift manipuleres uforstandig så menneskelige 'Colony Collapse Disorder' kan skje. Men tiltaket må igangsettes på regjeringnivå da internasjonalt organisert kriminalitet innen legale, legitimerede og illegale psykofarmaka er involvert. For øvrig anbefales TED talk: "Atul Gawande: How do we heal medicine?" som er omtalt i UU 2014.aug.01.

Følgende svenske dokumentasjon sannsynliggjør hvilke samfunnsproblem Danmarks helsesektor står ovenfor. Med RF (RainForest) Spill-analyse kan sosialpolitiske Spill avdekkes ytterligere. Svensk rettspsykiatri ble avslørt som arena for massepsykotisk produksjon av en fiktiv massemorder for å dekke over 39 virkelige mord. Det er omtalt i UU 2014.dec.19 på engelsk og UU 2014.juli.18 på norsk. Kort oppsummert lavet STV dokumentaren: "Kvinnan bakom Thomas Quick" på YouTube og er beskrevet i Söndagskrönika: «Han har erkänt 39 mord och dömts för åtta men inte begått ett enda. Ingen teknisk bevisning och inga vittnen har någonsin kunnat binda Sture Bergwall till något av de mord han har erkänt. Rättegångarna mot "seriemördaren" som kallade sig Thomas Quick har pågått i årtal fram till domarna mellan 1994 och 2001 och kostat skattebetalarna minst 200 miljoner kronor. Morden var rena påhitt av en desperat människa som ljög för att få droger, tillhörighet och uppmärksamhet. Han backades upp av ett gäng psykologer, läkare, poliser, åklagare och advokater som ljög lika mycket som han själv – eller mer." "Kretsen kring den falske seriemördaren utgjorde en sekt. Allt de sa och gjorde styrdes av att de var troende. Vad värre är: när Sture Bergwall började tala sanning fortsätter sekten kring honom att ljuga. Och åtta mördare går fria. Sex olika tingsrätter lät sig luras av den falske "seriemördaren" och sekten kring honom. Kvinnan i sektens centrum är en psykoanalytiker vid namn Margit Norell, född Quensel (1914-2005). En doldis som knappt har publicerat någonting men ändå i decennier varit ett slags guru för den svenska psykoanalysen. Hon är okänd så till den grad att det bara finns en enda arkivbild på henne, och den är från 1943. Hennes hemsnickrade teoribyggelse går ut på vi lite till mans går omkring med traumatiska minnen av incest och andra sexuella övergrepp som vi utsatts för i späda ålder – minnen som är så hemskt att vi har trängt bort dem ur medvetandet och alltså inte vet om dem. "

"Det massive rettspsykiatriske bedrag lykkes i å sabotere rettssamfunnets etterforskning av en mengde mordsaker i Skandinavia. Dette er den virkelig store kriminalsaken, - ikke den masse-opphetede

skrønehistorie av en bortskjemt doping-klient via 'den 4. statsmakt'. Utfordringen blir følgelig å gi full internasjonal gransking av denslags 'cover-up' kriminal-saker. Videre vil det antagelig avsløre den virkelige sammenheng i de fleste av mordsakene. Konseptet er avslørt som bevisst organisert psykiatriske feil-diagnoser og feil-behandlinger. Det er med andre ord sosial-psykologiske Spill av 4. grad, som beskrevet i UU 2013.mai.17. Det går under hovedkategorien 'Sexual Games' for å dekke over de virkelig internasjonale Spill i kategorien 'Under World Games'. Men som nevnt, det kan hele være del av en ny kategori 4 grads Spill som CdE på internasjonalt nivå (UU 2014.juni.13). Mest viktig av alt, dette er høyst sannsynlig ikke det eneste tilfellet den slags massive dekk-historier om fiktive masse-mordere, men mønsteret for å dekke over organisert kriminalitet over særdeles lang tid.»

Grunnen til at tilsvarende ikke er avslørt i Danmark kan jo indikere at det ikke finnes den slags ukultur, - men langt mere sannsynlig er at dansk politisk psykiatri styres av mer dyktige Spillere. For øvrig avslørte norsk rettspsykiatri seg som særdeles urealistiske og klønete ved forsøk på å ta veto i ABB saken av 22/7 (UU 2012.Juli.06). Nå er det heller blitt omfattende kritisk gjennomgang av forsømmelser i Statens beredskap og barnevernet. Så bør det vurderes om politiets sikkerhetstjeneste bør settes på kriminaletterforskning av de mest alvorlige psykiatriske kriminalsaker i offentlig sektor, - i Sverige, Danmark og Norge.

Men, - temaet er jo Parlamentsvalget, - som skal relateres til denne omfattende grunnteori om sosialpsykologisk Drift. Som nevnt skjedde regjeringsdannelsen overraskende hurtig og effektivt. Fundamentet for både regjering og parlament falt på plass før noen fikk sjansen til å Spille sine etterlengtede Spill i parlamentet. Situasjonen nå er at kun et parti styrer regjering, - hvilket gjør den konsentrert, men svak i forhold til parlamentet. Det er dermed avgjørende viktig for regjeringen å unngå alle de fataliteter som politiske rivaler i parlamentet vil skape. Regjeringen kan behøve samarbeide med eksterne likesinnede i Europa for å realisere OECD tiltak. Videre vil antagelig noen betydelige Drift krefter i Stat og øvrig offentlig sektor prøve å hemme regjeringen, - så den Lovgivende makt ikke får endret Utøvende makt i retning av det demokratisk valgte flertall. Til sist har Dømmende makt også visse prioriteringer og metoder, - som man tydelig kan se ved rettsaken som felte Glistrup og Fremskrittspartiet. Som regjering for den Lovgivende makt blir det dermed avgjørende viktig å forstå loven og bruke dets styrker til formålet. Høyst bemerkelsesverdig er at kommende leder for parlamentet var den som desidert tjente størst på danske FrP sitt fall. Det vil være for naivt å tro at det ikke er en sammenheng og at flere tilsvarende Drift-motiverte Spill ikke vil skje i Parlamentet mot Regjeringen. Så får man se om parlamentet ledet som en folkeskoleklasse i fremtiden.

DF sin ansvar-aversjon har skuffet dets velgere og overrasket andre. Der er selvfølgelig naturlig årsaker som kan enkelt belyses med 3^3 modellen og særlig Tro/Drift bindinger (S-E/S-I – Foreldre/Barn). Rett folkelig sagt er DF fostret opp med klassisk freudiansk Matriark/Barn relasjoner, hvor Voksen-verdenens selvrealisering og ansvar under frihet virker avskrekkende. Valget kan bli å forbli lykkelig uansvarlig i en Mamma-Stat. UnderBevisst synes Ideal-samfunnet å være et xenofobisk Trelletopeia fra voggestue via folkeskole, offentlig tjeneste til tidlig pensjonstilværelse. Den slags er kalt 'husmor-kommunisme' her nede. Kulturopphavet til 'dukkehjems-kulturen' er selvfølgelig fra den traumatiserte Dagmar i Vinterpalasset. Det sosialpsykologiske trauma kom i 3 faser, - 1814, 1864 og 1914 (UU 2015.mai.22). Sett som Superior-ID handlet fasene om S-I Spill 'Genocide', hvor europeisk mannlig adel ble massakrert på europeiske slagmarker under Napoleonskrigene (UU 2015.mai.22). I 1864 var det Troneskifte i Danmark med tilsvarende behov for eliminering av forrige Trones undersåtter. I 1914 ble Dagmars keiserfamilie henrettet, samt masse-utryddelser av Trone og Tempel sine tilhengere ved kriger, straffeleire og rettsoppgjør. Det ble gjort tydelig på stor-europeisk arena at 'får man ansvar, så får man også skylden'. Den traumatiske fobi synes å være en del av DF sin Drift, som kan endres med sosialpsykologisk terapi. Så kan kanskje samfunnet også bli av med all den xenofobisk projisering på folkeskolens uskyldige barn.

Regjeringsskiftet var et interessant skue med 3^3 modellen. Det handler om å få innplassert kvalitetssikrede ministre som i sin tur skal se til at offentlige ansatte er vel så kvalifisert som Utøvende makt for demokratiet. Danmark har et heldags TV-show med rituelle overrekkelser i de fleste departement for de fleste ministere. Den 'blå' ettparti regjering behøver naturlignok færre departement enn den avgående

'røde' 3-2 parti-regjering, så omorganiseringene blir store. De aller fleste ministere gjør en dannet og hyggelig overrekkelse. Særlig var statsministerne profesjonelle. Men dansk UD er som norsk UD, en bastion for særlig alternativ politikk. UD er en svingdør hvor mere utenrikspolitikk kommer inn enn ut. Den avgående minister brukte all sin danske høflighet og jante-humor for å mistenkeliggjøre og nedverdige den påtroppende minister. Det var så tydelig med ønsker om å undergrave status for fremtidig å felle ministeren på økonomi, handelspolitikk eller politiske preferanser. Den slags UD politikk er karakterisert i ekstra UU 2015.mai.29, 'Yes Prime Minister' 'A Victory for Democracy'.

For øvrig nedla Venstre Irak kommisjonen umiddelbart. Det ble utvilsomt gjort gale ting i forbindelse med 9/11 og den påfølgende krig. Men massakren i WTC skjedde rett utenfor FN bygningen og fikk følgelig hele verdens toppledelse til å føle den slags Superior-ID terror. Det er forståelig at USA reagerte spontant og fikk NATO og FN med seg, selv om politiske argumenter kan lyde annerledes. Sett fra kollektivt Drift nivå var Spillet tilsvarende å smadre et vepsebøl, en maurtue eller trække i pirajaers yngleplass. Kollektive Drift reaksjonene er vel så selvfølgelige som planlagte. Spillet er LYAHF (Let's You And Him Fight) med en skjult tredjepart som arrangerte striden og fikk indirekte gevinst. Dette er et moderne eksempel på hvordan instinktivt kollektivt ID med RF og WL utnyttes av AF. Opphavet blir avslørt når så danske stalinistiske partier samtidig vil felle tidligere og pågående borgerlige Statsministere. Men denne sak er global og bør etterforskes på omfattende globalt nivå og ikke lokale CdE Driftige parlamentarikere med uredelige Spill planer.

Regjeringens eldste minister forventet ikke et comeback. Han er spesielt opptatt av nordisk samarbeide og fremmer nytten av nordisk forsvars-samarbeide, - så som Stoltenberg etter 22/7. Derfor ble han i forrige periode utsatt for det groveste og tydeligste eksempel på hvordan danske journalister koordinerer organisert psykopati utlukkende for å skade en ministers politikk. I ren jante-stil, som den grimme elling, ble han usaklig avbrutt i en julefest kun for å ha kamera direkte på seg mens journalisten uthalte tiden med meningsløsheter. Til sist reagerte ministeren menneskelig, på drengers vis, og ble vred. Nå skal det sies at dansk pedokrati tilsier at Sulk-reaksjoner belønnes og Jerk-reaksjoner straffes. At 'piger bliver ked af det' belønnes og at 'drengene bliver vred af det' straffes. Tv opptaket av ministeren, som omsider var så menneskelig og ble rasende, ble massivt publisert i medier, på youtube og kollektivt latterliggjort på ekte Superior-ID vis. Målet ble oppnådd ved å svekke en samlet nordisk politikk. Igjen – hvem tror de tjener på det? Skjønt, neppe annet enn 'idiotisk ondskap' i Jante-stil ble resultatet av den ID relaterte 'fjerde statsmakt'. Nordisk politikk på S-I nivå er nærmere omtalt i UU 2014.juli.25.

'The Zookeeper's Boy' med danske Mew setter assosiasjoner til Drift og 1864. Med bruk av 3^3 analyser kan man hurtig belyse de underliggende Drift-relaterte sosialpsykologier som førte til utryddelsen (genocide) av 6000 danske menn i 'kongens klær'. Teksten er dog lekende og drømmende til de mere instrumentalt harde realiteter. Mew (Mjau) er en art-rock gruppe som har høstet særlig annerkjennelse og status. Selv har de uttrykt at de er i såkalt 'indie stadium' – en blanding av 'følelser og tanker. De dannet bandet på østkanten, noe som er status område i motsetning til Norge. I 2003 vant de priser for årets album og årets beste band på Danish Music Critics Award Show. Selvom forbilder tydeligvis er som Genesis, Yes, - savnes det virkelige solo-musikere som kan utfylle med instrumental partier.

Ekstra UU

Denne ukes episode av 'Yes, Prime Minister' handler om maktforholdet og integriteten mellom regjeringssjef og departementssjef. Man kan få et inntrykk at den offisielle nøkkel-overrekkelse i danske

ministerier på mandag har noen skjult hensikter, agendaer og Spill. I denne episode har departementssjefen en kopi av regjeringssjefens nøkkel som blir vanskelig å konfiskere.

2015.juni.26

Ukens Utvalgte

Menneskeheten har skapt sitt samfunn i sitt bilde for å bedre sin tilværelse. Dermed er enhver person sin Livskvalitet et fundament for demokratiet. Samfunnets kvalitet formes av viten om sin verdi, historie, tilstand og ikke minst ambisjoner om fremtiden. Dette UU blir et vendepunkt mellom omtale av modellen 3x3 før valget og 3^3 etterfølgende. Det vil handle om definisjonen Livskvalitet (LifeQuality) og den etiske 5D scenarie modell, samt den sammenheng de har til Spill teorier. I en demokratisk parlamentarisme er fundamentet og visjonene særlig klare. Utfordringen er å få utøvende makt til å utøve nettopp det, - og den dømmende makt til å dømme rettfærdig lover og regler. LQ og 5D modellene kan dermed bli nyttige for å fremme kvalitativ samfunnsstyring. Igjen blir konseptet at tidligere teoretiske UU oppsummeres for å gi grunnlaget til de etterfølgende vurderinger av Danmarks parlamentariske historie, tilstand og fremtid.

Som nevnt er ikke Livskvalitet inkludert i 3D modellen selv om modellen faktisk er basert på livskvalitative faktorer innen sosialpsykologi. Demokratisk livskvalitet er simpelthen en forutsetning for siviliserte demokratier og parlamentarismen. Dermed behøves en forståelse av Livskvalitet for å forstå demokratiske samfunnsmodeller. Etter et års skriverier om ordet ble det oppsummert i UU 2014.Jan.31: «Som nevnt anses 'Livskvalitet' å være Menneskehetens viktigste ord. I mangel av en globalt anerkjent definisjon ble det i undertemaet 'Grunnteorier' definert til å være: «Livskvalitet er en persons helhet av egenskaper og potensialer for å tilfredsstille uttrykte og underforståtte behov». Den er bygget på ISO 8402 sin kvalitetsdefinisjon og assosiert til Menneskerettighetene og Maslows Behovs-pyramide. Dermed var grunnlaget til en omfattende omtale mulig med utgangspunkt i psykologi, verdier og moral. Siden dr. Eric Berne har vist at klassisk psykologi kan anvendes på sosialpsykologi, ble teorier videreført til sosiale sammenhenger i den mest omfattende forstand, - inklusive Menneskeheten som helhet. (F.o.m. UU 2013.feb.01.)» På engelske kalles Livskvalitet 'Quality of Life'. I UU er det lavet en unik engelsk definisjon basert på ISO standarden. "LifeQuality is a person's totality of properties and potentials to satisfy stated and implied needs." Det bør merkes at det utmerkede engelske ordet 'properties' ikke har tilsvarende betydning på norsk (egenskaper) og at oppfattelsen av Livskvalitet og Lifequality kan bli noe forskjellig. Faktisk vil forskjellige kulturelle opphav gi forskjellige oppfattelser selv om det anvendes kun en ens engelsk definisjon.

Ethvert menneske har behov som strekker seg fra det livsviktige til det utviklende. Til LQ definisjonen er det valgt å fokusere på Maslows behovshierarki for å sette fokus på de mest vesentlige behov. Senest i UU 2014.okt.17 var det omtalt, men opprinnelig i starten av filosoferingen om begrepet Livskvalitets i UU 2013.feb.08. «'Maslows Behovspyramide' viser enkelt de 5 hovedkategorier: Fysiske, Trygghet, Sosiale, Respekt og Selvrealisering. I demokratiske sivilisasjoner er Selvrealisering den allmenne selvfølge for ethvert modent menneske.» «Et hovedpoeng er at en person behøver å få dekket de grunnleggende behov, som Sikkerhet, for å kunne fremme høyere behov som Selvrealisering.» «De virkelige behov kan komme i skyggen av skapte behov, politiske Spill og overtro. Det er dog en selvfølge i et demokrati at enhver skal kunne tilfredsstille sine personlige behov, - så sant det ikke går ut over andre. På den annen side har samfunnet hverken tid, ressurser eller rett til å omfordele feilaktig. Det er en særdeles ansvarstvingende oppgave som krever høy profesjonalitet, moral og rettfærdighet. Det primære mål for oppgaven må derfor være å fremme enkle men fornuftige mål for hver enkelt borgers livskvalitet. Mål for tid og penger er sekundært.» Selv demokratiske parlament tenderer til å overfokusere på det simple verdisystem GNP (Gross National Product). Men som alle vet med seg selv, verdsetter en selv langt mere enn hva som utelukkende kan måles med penger, - det er jo tross alt kun et middel for målbare transaksjoner og ikke kvalitative resultat.

Videre i samme UU: «Behovet Selvrealisering er i utgangspunktet egoistisk. Følgelig er et visst nivå av egoisme overordnet viktig i en demokratisk sivilisasjon. Antidemokrater motstrider dette med argumentasjon i en halv sannhet om at egoisme er usosialt, - ordet 'ego' tilføres negative betydninger. Men en Selvrealisering kan ikke skje uten betydelig bidrag til det underliggende Fysiske behovet Sosiale Relasjoner. Videre kan profesjonell Selvrealisering berike samfunnet med vitenskap, kunst og lærdom. Derimot republikanske, føydale eller teokratiske diktatur (3D uten demokrati) kan ikke eksistere uten systematisk nedbryting av borgernes selvrealisering, - fortrinnsvis ved å undertrykke de underliggende behov. Trelldom skapes ved blokkering av Selvrealisering.» Følgelig er dystopiet 'Trelletopia' meget omtalt (UU 2014.aug.01) og vil være en dunkel side av 3^3 modellen så vel som 3x3 modellen.

I UU 2013.februar.15 omtales LQ i relasjon til HR (Human Rights). «Menneskerettighetene er utvilsomt de 'uttrykte behov' i definisjonen av Livskvalitet. De er som behovene i Maslows Behovspyramide. Det forsterkes ved at kvalitetsdefinisjoner ofte relaterer 'behov' til 'krav eller spesifikasjoner'. Menneskerettighetene er nettopp slike 'krav eller spesifikasjoner' for de menneskelige behov. Nærmest alle de 193 medlemsstatene i de Forente Nasjoner (FN - UN/United Nations) har forpliktet seg til å ratifisere menneskerettighetene i sin nasjonale lovgivning. Statene har forpliktet seg til å sikre sine borgeres rettigheter angående; eiendom, selvbestemmelse, sikkerhet, privatliv, familieliv, arbeid, utdanning, samt å sikre friheter for tanke, samvittighet, religion, ytring og mer. Selv om UN konvensjonene er unyanserte, er statene forpliktet til å konkretisere og realisere rettighetene med tilhørende offentlige tjenester. Dessverre er det stedvis stor avstand mellom teori og praksis – mellom lovgivning og offentlig lovlidighet. Forklaringen er historisk.»

«I den republikanske stats årtuseners eksistens, er det kun i det siste halve århundrede at statsmenn er såpass juridisk forpliktet til statsborgerne. Historisk sett er rettsutviklingen så: Oldtiden; stat-vs-borger, Romerriket; borger-vs-borger og Opplysningstiden; borger-vs-stat. Sistnevnte heter Naturretten og ble realisert ved FN's Menneskerettskonvensjoner ('The Universal Declaration of Human Rights' (UDHR), 'International Covenant on Civil and Political Rights' (ICCPR) og 'International Covenant on Economic, Social and Cultural Rights' (ICESCR)). Siden har det kommet til en rekke protokoller med særlige spesifiseringer av rettigheter. Senere har regionale organisasjoner spesifisert rettighetene, så som ECHR (European Court of Human Rights) i Europa.» I debatter oppstår sås det tvil om hvilke konvensjon og lov som er overordnet. Det er juridisk sett ingen tvil om at ECHR er overordnet ICCPR og ICESCR og at de alle er overordnet motstridende nasjonale lover og regler. Et parlament kan ikke bryte internasjonale avtaler med motstridende lover eller fortolkninger. Dermed blir det såkalte 'ytringsansvar' for å beskytte samfunnet overordnet individuell 'ytringsfrihet'. Anti-demokrater synes å kjøpe politiske aktører, advokater og dommere som illegitimt og ulovlig endrer offentlig utøvelse og dommer med PROSA-aktige resultat (UU 2015.juni.12).

Norge har ratifisert menneskerettighetene i Grunnlovens §2 og med Menneskerettsloven. De er selvfølgelig relatert til Straffeloven, - hvor selv dommere kan dømmes iht § 110. Enhver forent nasjon burde ha ratifisert menneskerettighetene for flere tiår siden, men få har fullført forpliktelsen. Prosessen er særdeles enkel og beskrevet som NHRL og GHRL. «Juridisk og parlamentarisk sett er ratifiseringsprosessen særdeles enkel. En parlamentariker skal bare foreslå at konvensjonene som helhet skal godkjennes som nasjonal lov. Demokratiske lovgivende parlamenter kan ikke nedstemme forslaget og overleve. Ergo, - et enkelt forslag fra en enkelt parlamentariker – og nasjonen får sin "Menneskerettslov". Således fikk nordmenn den juridisk overordnede Menneskerettsloven ved århundreskiftet. Menneskerettsloven begrenser følgelig statens urett mot statsborgerne angående; eiendom, selvbestemmelse, sikkerhet, privatliv, familieliv, arbeid, utdanning, samt å sikrer friheter for tanke, samvittighet, religion, ytring og mer. Statsmenns brudd på Menneskerettsloven kan relateres til Straffeloven og rettsforfølges.» UU 2014.okt.17.

I forrige UU 2015.juni.19 ble det etiske verdi-system GNR omtalt: «Da 3x3 ego-state modellen var utformet, ble det nødvendig å oppsummere det hele i relasjon til definisjonen av Livskvalitet, den utvidede psykoanalyse med Freud og Jungs, Bernes sosialpsykologiske Spill teorier, de politiske 3D/4D/5D modeller, samt etikkens verdisystem GNR (Godt/Nyttig/Rett).» «Kort sagt er det en god mental helse når det er balanse mellom de 3 Ego-states; S-E, Ego og Id.» (UU 2013.april.05.) «Man kan godt oppsummere de fleste

(moralfilosofiske) verdisystemer til å omhandle 3 usammenlignbare verdier; Godt, Nyttig og Rett. Verdien 'Godt' er relatert til personlige følelser, som ikke kan overføres til andre personer. 'Nyttig' er relatert til sosial omsetning som konstruksjoner og handel. 'Rett' er relatert til udiskutable absolutter. Enhver er selv den beste bedømmer av sin egen Moral.» «Så kan man jo antyde relative verdier som; GNR, gNr, gnR osv. Alternativt kan man vurdere de negativt motsvarende verdier; Ondt, Destruktivt og Galt.»

Demokratisk sett gir det derfor mere mening med samfunn-vurderinger etter verdisystemet Godt, Nyttig og Rett. For parlamentarisk vurdering i 3D vil de tre samfunnsmakter gi mere mening som Lovgivende, Utøvende og Dømmende (LUD) i stedet for det historisk institusjonelle Trone, Stat og Temple. Uansett kategorisering av dimensjoner handler det fremdeles å tilstrebe en positiv balanse mellom de tre. Dermed blir det avgjørende viktig for ethvert parlamentarisk system å få kartlagt sitt eget LUD i 3D GNR system. Sett at GNR tilsvarende XYZ akser i 3D, skal det ideelt være verdier; L (10,0,0), U (0,10,0) og D (0,0,10). Ved kartlegging av kort historie vil man hypotetisk sett finne verdier som L (6,3,1), U (1,6,3) og D (3,1,6). I så fall betyr det at alle tre påvirker illegalt og illegitimt utover sitt mandat og ikke oppfyller alle sine egne forpliktelser. Årsakene kan være mange og elementær sosialpsykologi, som ved 3x3 og 3^3 modellene, kan gi stor hjelp for diagnose, vaksine og kur. Sistnevnte vil bli gjennomgått i de tre neste UU med avslutning i et etterfølgende UU.

Allikevel, noe kan saktens sies, nå som Danmarks parlament er i den andre fase i regjeringdannelse. Det blir antagelig fire 'dronningerunder' over fire uker. En hovedårsak til såpass ineffektiv prosess skyldes naturligvis fiksering på den misledende 1D politisk modell. Historisk sett ble Parlamentarismen konstruert med opphav i et 2 parti system (1D). Enten vant det ene parti eller så den vant det andre, - som dominerte både parlament og regjering i 4 år. Men i dagens demokratiske pluralisme, med omtrent 10 partier, får ikke et eneste parti flertall. Derfor er 'løftebrudd' kompromissets pris i flere-parti og mindretalls regjeringer. 80% oppfyllelse av løfter bør anses som en bragd og ikke noen nederlag som fortjener straff ved neste parlamentsvalg. Demokratiet vil redde sin nødvendige tillitt hvis bebreidende skyld for diplomatiets fellesgode blir avslørt som politisk uredlig Spill. Den kortsiktige følelse av gevinst ved å ramme motstandere med skyldfølelse er samfunnsskadelige i lengden. Dessuten kan utskiftning av politiske kandidater bli nødvendig når partier går i regjering, fordi man har ikke nødvendigvis GNR lederegenskaper, selv om man er karismatisk.

En flertallsregjering er umulig i Danmark fordi de 4 partier gikk til valg på uforenlige valgløfter. Sannsynligvis er kun en mindretalls-regjering med 2 blå partier i regjering forenelig. De 2 andre blå partier vil forhåpentlig støtte regjeringen i opp mot 80% av deres politikk, som den norske parlament har fungert i snart to år. Særdeles utfordrende er at opposisjonen AP/LO er nå samlet om ny statsministerkandidat og 'Basketak' Spillet er i sin tredje fase av det tredje scenarie, - CdE (Coup d' Etat). Den slags foregår ikke ved fysisk vold i dette århundre, - men med likeså brutal sosialpsykologisk vold, - skult som parlamentarisk politikk. De 2 støttepartier i Norge fristes og ristes av AP/LO til å skifte farge på regjeringens kjernesaker. Det kan slite regjeringen i to, så AP/LO igjen kan ta regjeringens posisjonene, - så Stat igjen blir fri for den Lovgiverens makt og dermed kan utøve sitt virke etter en alternativ agenda. For Danmarks kommende regjering og parlament er det dermed avgjørende viktig at deres diplomatiske kompromiss i dag blir avgjørende for deres egen eksistens og den demokratiske parlamentarisme i den kommende 4 års periode.

Som nevnt blir en hovedutfordring å kartlegge LUD ubalansen for samfunnets sosialpsykologisk velvære sin skyld. Når så ubalansen er avdekket kan man saktens prøve å finne ut av hvem som virkelig er anti-LUD Spillere for å terminere de destruktive Spill. Fundamentalt for det lovgivende parlament er selvfølgelig et ratifisert, implementert og operativt lovverk. Tilstanden er som nevnt høyst kritisk og illegalt i forhold til internasjonalt forpliktende avtaler, som menneskerettigheter iht FN og ECHR, samt demokratisk statsstøtte, anti-oligarkisk markeds-dominans og forpliktelser for offentlige tjenester iht TEU traktaten. (UU 2015.juni.05)

Teknisk og juridisk kan loven anses som en vital del av samfunnets Operativ System, tilsvarende IT systemer. Dermed kan lover fra den lovgivende makt vel så enkelt oppdateres i Utøvende og Dømmende makt. Manglende kvalitet og forsinkelser skyldes bevisst trenering av Utøvende og Dømmende makter.

Årsaker og krefter involvert i hele LUD gjøres særlig tydelig i rettsaken CSC vs Pirate Bay, som ble omtalt i UU 2015.mars.20. "The massive cybercrimes against the Police, Military, Tax-authorities Public health in CSC Denmark and IBM mainframes were executed by disloyal employees, remote computers in Pirate Bay and controlled from Asia. The delays in police investigation indicate massive organized crimes that also include employees in the Danish police force. Therefore, it is simply beyond any nativity to claim that this major operation was organized by two young sociopaths." "Most alarming is the extensive use of the hackers' favorite operating system - Linux. Anyhow, the ongoing trial in Denmark is most probably just the tip of an iceberg in all of the public sectors in all NATO nations." "In fact, the Danish police hindered the investigations for 11 months and actions were taken only after several serious warnings from the Swedish police force, since the Pirate Bay founder was Swedish. According to the prosecution, there were copied personal information from the Danish police's criminal registers, drivers' license register and the EU police register (Schengen) about international criminals in Europe. To top it all, the access to 10,000 police officers' password and email was copied via Pirate Bay to Asia. (UU 2015.feb.20)" Tilsvarende er ikke avslørt i Norge, sterke indikasjoner er at terror-lovgivningen hemmes ved trening av ratifiseringer, samt illegale fortolkninger og dommer om menneskerettigheter.

Selv om gjennomsnittet kan bli positivt på LUD modellen, kan avvik tyde på at faksjoner er anti-GNR. Dermed bør L, U og D fremstilles i hver sine 3D og med fremstillinger av GNR for departementer, avdelinger og andre organisasjoner. Så vil det forhåpentlig avdekke hvem som undergraver. Dessuten finnes det betydelige aktører utenfor det parlamentariske system som kan være sterkt influerende. Tragikomisk, men masse-medier kaller seg selv for 'den fjerde statsmakt', - som om journalister betrakter seg selv som hele demokratiet og tilsvarende samfunnsmakt. Journalister skal ikke være menings-makere, men 'journalføre' hendelser og uttalelser. Problematisk er journalisters tendenser til samfunnsskadelig desinformering. Tidligere er den oligarkiske og konføderale handelsunionen LO omtalt i UU 2015.juni.12, hvor symbiosen AP/LO har dominert LUD i ww2 og den kalde krig. Forøvrig finnes det en mengde andre virksomheter, NGO og personer som kan påvirke LUD fra forpliktende aktiviteter. Om ikke så tydelig som i Norge, - tyder meget på at dansk LO tradisjonelt har sterk symbiose med 'røde partier'. Men Russland er fundamentalt endret til det oligarkiske og søker antagelig nå tilsvarende symbioser i 'blå blok'.

Et tilsynelatende stridsområdet for de to største 'blå' partier er DF sitt løfte om 'rød' politikk, som 0,8% vekst i offentlig sektor. 'Blå' politikk er maksimum '0%'. Statskapitalister vurderer sin velferd ut fra GNP, så løftet er ikke primært for demokratiets velvære, men for statsmenns velvære, - hvilket kan være motstridende. Dermed ligger løsninger i å fokusere på kvalitativ vekst fremfor statskapitalistisk. Dessuten, BNP (brutto nasjonal produkt) kan enkelt økes ved å avhende unødvendig og u hensiktsmessige offentlige materielt og immaterielt eie. OECD og Produktivitetskommisjonen har helt klare analyser og anbefalinger for hvordan offentlig sektor kan få langt over 0,8% vekst. Potensialene ligger allerede klare, men det betinger ubetinget vilje for å finne realistiske kompromiss. Så skal bare regjeringen med parlamentets støtte se til at utøvende makt realiserer det hele. (UU 2013.okt.04 og UU 2014.juni.27)

Det kan bli særlig nyttig å anvende 5D scenarie modeller. De ble forklart i UU 2013.april.26: «En 5D variant av (4D) modellen er ikke så merkelig som det kan lyde. Det handler i hovedsak om å lave parallelle fremstillinger for alternative scenarier. Historiske valg og 'tilfeldigheter' har endret utviklingen, - men hva hvis andre ting (i virkeligheten) skjedde eller vil skje? Med 5D kan man fremstille alternative scenarier til fortiden og fremtiden, for så å prøve ut om alternative hendelser, handlinger og konsekvenser er, eller ville vært, fordelaktige.» Dagens oppfattelse av fortidens hendelser er betinget av 'seierherrers rett til å skrive historien'. Dermed er det viktig å kvalitetssikre historien basert på nye informasjonen ved internett-tilgang og Big Data. Allmenn kunnskapen om etterkrigshistorien er sannsynligvis sterkt preget av Spillenes 'seierherrer' og simpelthen enda et trekk i selve Spillet for å oppnå gevinster og fordeler.

Med fokus på dagens politiske situasjon vil det være aktuelt å spørre: Hvordan ville politikken utviklet seg i Norge hvis det ble oppdaget en tilsvarende 'CSC vs Pirate Bay' sak med etterfølgende rettsak? Hvordan ville Danmarks politikk utviklet seg hvis deres regjeringsbygg ble sprengt og med etterfølgende 22/7 kommisjons rapport? Dessuten har Russiske FSB blitt særlig aktiv til å verve kontakter i norsk 'blå blok', - nå som en FSB oligark er plassert i president stolen. Videre har maoister så vel som stalinister konvertert til oligarkisme og

Spiller vel så mye på 'blå' aktører som 'røde'. Dessuten, Norges blå-blå regjering har 2 års erfaring som kan være nyttig for den kommende danske blå-blå regjering. Den slags 5D scenarier om hypotetiske 'parallele verdenen' kan være nyttige for fremtidig planlegning. Verken Norge eller Danmark er unike politiske arenaer.

Sosialpsykologiske Spill-analyser er vel så relevant for 5D modeller. I Danmark synes det tydelig at Statens organ Skat brukes til politiske Spill for å ramme parlamentarikere som vil fremme borgere på Stat sin bekostning. Eksempelvis ble Glistrup (FrP sin grunnlegger) fengslet ved anklager fra Skat så partiet opphørte. Videre var begge årets statsminister-kandidater anklaget via journalister for uregelmessigheter iht Skat. Ærlig talt er det ingen tvil om at Skat systematisk brukes for å ramme demokratiets viktigste aktører. Spillene er såpass menneskelig umodne at forklaringer ligger på ID nivå, - med stereotypene Jerk, Nerd og Sulk (UU 2014.aug.08). Rekken av Spill avdekkes ved NIGYSOB (Now I've Got You, You Son of a Bitch). Nerd har angivelig gjentagende provosert og lokal Gimmik tilsier at Jerk legitimeres straffesanksjoner. Foranledningen er spillet Schlemiel hvor Jerk tålmodig lar Nerd teste grenser inntil overreaksjon legitimeres. Men i et såpass omfattende miljø er det heller et tre-parts Spill enn et to-parts Spill. Spillet LYAHF (Let's You and Him Fight) er ID relatert og har en skjult tredjepart som arrangerer kampen for å ta av med vinneren og taperens verdier. Gevinsten i disse danske Skat Spill er utvilsomt Statsminister-stolen og plasserer dermed Spillet i kategorien CdE (Coup d' Etat). Bekymringen er at 'uskyldige' 1 grads Spill er eskalert til 3. grad med potensialer for 4. grad (UU 2014.juni.13). Det er også tydelig at borgerlig 'blå' politikk rammes, så de skjulte LYAHF spillere relateres til 'rød blok'. Slik kan man lett resonere seg videre når elementære sosialpsykologiske Spill er blitt velkjente. Dagens episode av Yes (prime) minister er særlig relevant.

En 5D diagnose kan videre brukes for å finne alternative trekk for å terminere den slags destruktive Spill. Løsninger ligger i å enten avsløre Spillet og Spillerne, - eller gjøre klart at gevinsten er uopnåelig ved Spill. Alternativ kan tydeliggjøres at 'vi gidder ikke den slags barnlige spill mere'. I det neste UU vil ID relaterte Spill bli mere omstendelig omtalt i den sosialpsykologiske modellen 3^3.

Danmark er nært knyttet Holland, så vel som Russland. Dermed faller assosiasjoner til gruppen Supertramp. Gruppen ble realisert med sponning av en hollandsk millionær. Han ga de to vidt forskjellige musikere Roger Hodgson og Rick Davies finansiell sjanse til å sammen skape ny musikk. Deres album gjorde det virkelig godt og faktisk bedre enn singler på hit lister. Med denne UU 'Hide in Your Shell' fra albumet 'Crisis, what crisis?' faller tanker hen til UU 2015.mai.22 om 1864 og tsarina Dagmar, - samt UU 2014.mai.30 med undertittel 'Dagmars siste møte med Rasputin',- under oppstarten til 'Den andre Fedrelandskrig. Historien gjentar periodisk fordi imperiet definitivt lider av noen sosialpsykologiske mangler og sykdommer. Agent Putin ble i 1999 utpekt som marionett president og fremmer stadig en tredje fedrelandskrig, - eller 'patriot krig' som det kalles i dette århundre. For øvrig var hollandsk forbindelse til Russland ved Peter den Store. I dag er Russlands assosiasjon til Holland heller symbolisert ved MH17.

Supertramp ble splittet og deres fremføringer beskyttes fra nettet. Her har dog ex medlemmet gjort en fremragende opptreden.

Ekstra UU

Denne ukes episode handler om overgangen fra 'Yes Minister' til 'Yes Prime Minister'. Det er store rokader på gang siden statsministeren trekker seg. Men det fører til en kjedereaksjon av rokader i statsforvaltningen også. Et gjengående tema er en sannsynlig 'muldvarp' i systemet, - som ikke blir avslørt i serien. Men det synes sannsynlig at Arnold er en overordnet konspirator som sjef for et administrasjonsdepartement. I denne episode behøver han å sikre sin avgang og en verdig etterfølger.

Ukens Utvalgte

Det danske demokrati har valgt blant de utvalgte parti-kandidater til sitt Parlament. Disse skal fremme parlamentarismen, demokratiet og lovlidighet. Dermed er faktisk partiprogram og valgløfter underordnede tilbud som kan være ugyldige og umulige, - hvis det strider med internasjonale avtaler, lover og parlamentet. Dessuten, den tildels uregjerlige staten gjør politikk tidvis for besværlig. Så kan 3x3 og 3D Spill analyser bli viktige for å bedre overblikket på hva som skjer med de såkalte 'kabaler' og 'stoleleger' om posisjoner i parlamentet og regjeringen.

Dagen i dag startet med nyheter om en helt ny parlamentarisk situasjon. 'Rød blok' forlater regjeringen og statsministeren forlater partiposten. Radikale Venstre (ex-regjering) ble splittet i to (RV & Alternativet) og finner ikke seg selv. Enhetslisten sugde velgermajoriteten ut av SF som er blitt like ubetydelig som det norske SV. DF (ex-FrP) er det største 'blå blok' parti, men vil ikke ha regjeringsansvar. Blå blok sin Statsministerkandidat er ikke fra det største parti, men i et betydelig redusert Venstre. De 4 'blå blok' partier har parlamentsflertall og skal forme regjering. Resultatet kan bli tilsvarende tidligere norske borgerlige koalisjoner, - uten FrP/DF. Men - altså, - våger fremdeles ikke det største 'blå' partiet seg ut av sin politiske pubertet og konfirmeres med regjeringsansvar? Det er i så fall et klassisk 3x3 sosialpsykologisk tilfelle med påtrengende behov for terapi, selvrealisering og voksenopplæring. Dessuten, - 'para-parlamentet' LO er frustrert, - nå som deres demokratiske alibi SocialDemokratene er utenfor kontroll over regjeringen. Stat kan bli utsatt for parlamentarisk kontroll og styring. Det dansk parlament kan bli som det norske, - hvor AP/LO sitt 'Basketak Spill' allerede i gang med fase B. Uansett, - foreløpig vet man ikke utfallet i verken Danmark eller Norge, - men noen antagelser kan kvalifiseres med av 3x3.

De pågående politiske Spill i parlamentet er til dels ubegripelig kompliserte. Demokratiet får kun se 'spill for galleriet' via den fjerde statsmakt, - massemediene. Partiene har for så vidt vært åpne om sine motiver med publiserte partiprogram og uttalte ambisjoner. Men posisjonspartier må kutte og endre løfter i diplomatisk kompromiss. Opposisjonspartier vil prøve å gjennomtvinge noen kjernesaker på regjeringens bekostning. Dessuten, opposisjonen kan ønske revansj mot demokratiets valg av deres motstandere. Alle disse Spill bak scenen kan avdekkes og forklares, men det behøves inngående modeller. Her følger forsøk på beskrive noen innovative modeller og anvendelsen av dem.

Da 3x3 ego-state modellen var utformet, ble det nødvendig å oppsummere det hele i relasjon til definisjonen av Livskvalitet, den utvidede psykoanalyse med Freud og Jungs, Bernes sosialpsykologiske Spill teorier, de politiske 3D/4D/5D modeller, samt etikkens verdisystem GNR (Godt/Nyttig/Rett). Det hele er omtalt fra UU 2014.aug.08 til UU 2014.aug.29. Det hele skal selvfølgelig ikke gjentas her, men noe må gjentas for å gi et visst grunnlag og legitimering av den etterfølgende sosialpsykologiske analyser og omtaler.

Gjennombruddet ble erkjent i UU 2014.aug.08: «Senere er det flere ganger antydnet at Freud sin 3-stat modellen ikke er tilstrekkelig til å forklare kollektive sammenhenger. Heller ikke Bernes utvidelser med interaktiv 3-stat og T.A. er tilstrekkelig for større sosiale sammenheng. Dessuten indikerer tilstanden Superior-Ego at det finnes ekstra-personale innflytelser.» « - hvis både Ego og Id er fundamentale intra-personlige faktorer burde også Id ha et eksternt 'superior' faktor. Dermed har et 'Superior-Id' (S-I) blitt nevnt og endog analysert omstendelige i flere anledninger. S-I ble omtalt spesielt i UU 2014.jan.10.» «Med en eller to 'superior' tilstander antydes det at hver 3-stat har minst 2 nivåer. «Med utdanning innen logikk, anvendes dermed modeller for 'sannhetstabeller' og hoppes direkte til en inndeling av hver 3-stat i 3 nivåer. 3-state modellen går dermed over fra å være 1-dimensjonal til 2D. På freudiansk latin ville de hete super, norm, sub. Med Berns fokus på familie-terapi og alminneliggjøring vil de på norsk kalles; OverBevisst, Bevisst og UnderBevisst. Superior-Id må dermed få en 'normal' betegnelse som tilsvarer 'autoritet'. Men

siden det nå dekkes av dimensjonen Bevisst, velges det å gi de tidligere S-E/Parent, Ego/Adult, Id/Child, nye betegnelser for egenskapene; Tro, Vilje og Drift.” Heretter er Freuds 3-state psykoanalytiske modell oppgradert til 3x3-stat modellen.

Dermed åpnes det for lærlingen Jung sin utvidede teorier om Id og S-E i UU 2014.aug.15. «Jung var mere opptatt av ID og Superior-Ego. (De kalles Drift og Tro i 3x3 modellen). Jung utviklet 4 teoretiske hovedområder: (1) Konsept for innadvendte og utadvendte personligheter, som ble et fundament for MBTI. (2) Det komplekse ubevisst kjernemønster av følelser, minner, persepsjoner og ønsker. (3) Konseptet for den kollektive ubevissthets som deles av alle mennesker og inkluderer Arketyper. (4) Synkronitet for interpersonlige relasjoner på UnderBevisst nivå. Man kan si at Jung tok ordet psykologi mere seriøst enn Freud da det faktisk betyr noe som 'lære om sjelen'. Jung ble selv overbevisst at livet har en åndelig hensikt utover materielle mål. Følgelig har Jung influert fag som psykologi, fysiologi, teologi, filosofi, arkeologi og antropologi.» Dermed kan også MBTI (Meyer-Briggs Type Indikatorer) relateres til 3x3 fordi den bygger på Jungs teorier. Dessuten kan selvfølgelig Freuds 3-state relateres til MBTI 3-state da deres teorier er relaterte. Følgelig er 3x3 en helhetlig sosialpsykologisk modell som åpner for underbevisste og overbevisste realiteter.

Den etiske verdi-modell GNR (Godt/Nyttig/Rett) ble relatert til 3x3 i UU 2014.aug.22 som grunnlag for utvidede Spill teorier. En hovedgrunn er at Spill pr definisjon er uredelighet og følgelig et moralfilosofisk problem,- særlig i forhold til politikk. «Målsettingen for deres analyser er jo å oppnå holdningen 'jeg er OK – du er OK' (ref. Thomas A Harris). Kort sagt er det en god mental helse når det er balanse mellom de 3 Ego-states; S-E, Ego og Id.» (UU 2013.april.05.) «Man kan godt oppsummere de fleste (moralfilosofiske) verdisystemer til å omhandle 3 usammenlignbare verdier; Godt, Nyttig og Rett. Verdien 'Godt' er relatert til personlige følelser, som ikke kan overføres til andre personer. 'Nyttig' er relatert til sosial omsetning som konstruksjoner og handel. 'Rett' er relatert til udiskutable absolutter. Enhver er selv den beste bedømmer av sin egen Moral. Begrepet 'ingen moral' er en illusjon, eller er en unnskyldning for å fremstå nøytralt. Enhver kan verdsette en mening eller en handling i forhold til verdiene; God, Nyttig og Riktig. Så kan man jo antyde relative verdier som; GNR, gNr, gnR osv. Alternativt kan man vurdere de negativt motsvarende verdier; Ondt, Destruktivt og Galt. Videre kan man saktens diskutere sine verdier med andre og endog forhåpentlig bli enige om noe. Det lyder banalt, - men så enkelt kan avansert Moralfilosofi anvendes av enhver. Så skal man bare tenke over det og våge å samtale med andre om det.» En utvidelse av verdi-systemer fra 'OK' til 'God, Nyttig og Rett' kan saktens like fullt anvende digital logikk, så som mere avanserte IT system kan.» (UU 2013.mars.01) Det er allikevel viktig å merke seg at Bern nevner 5 andre kategoriske måter å bruke sin tid, Tidsfordriv, Ritualer, Tilbaketrekning og Intimitet, samt Arbeid som burde være hovedfokus for parlament, regjering og stat.

Men dessverre, det er langt fra så enkelt som å forstå den elementære logikk for verdier og kommunikasjoner, av den enkle grunn som er forsøkt beskrevet i UU 2013.mars.15: «Mennesker lyver. Hvor mange ganger man lyver daglig er ikke hovedsaken. Det er dog et faktum med konsekvenser man for ofte overser i sosiale, og ikke minst politiske, sammenheng. Der er naturlignok uskyldige fysiologiske årsaker til at hjernen automatisk korrigerer fakta. Dyrs naturlige kamuflasje, avskrekkende opptreden og seksuale ritual indikerer at det er noe fundamentalt naturlig ved noen typer av bedrag. Men mennesket, som 'intelligente dyr', har et langt større spekter av bedrag. En klassifisering teller 28 typer bedrag som; konseptuelle løgner, bløff, nød-løgn, overdrivelse, oppdikning, halve sannheter, unngåelser, løgn til barn, empatiske løgner, svindel, bevist feilbeskrivelse, høflighets løgner, hvite løgner, m.m. Bedrag kan dermed være av god eller dårlig moral og ikke nødvendigvis etisk forkastelig. Det er dog viktig å ha sitt eget verdisystem i orden, når en forholder seg til sine egne eller andres bedrag. Et helt uskyldig eksempel er at følelsen av ufrihet kan grunne i et selvbedrag om at en kan gjøre urealistiske ting.» Bedrag vil bli omtalt mere inngående i de neste UU da det er en hovedingrediens i alle sosialpsykologiske Spill.

Berne sine sosialpsykologisk Spill teorier får følgelig tilsvarende 3x3 oppgradering da de også baseres på Jungs videreutvikling av Freuds tri-state modell. Dette er omtalt i UU 2014.aug.29. Tidligere ble de ca 60 definerte Spill utvidet med noen situasjonsbetingede og særnordiske Spill. «Berne kategoriserte Spill avhengig av omstendigheter. De klassiske kategorier er: 'Life Games, Marital Games, Party Games, Sexual

Games, Underworld Games, Consulting Room Games & Good Games'. Oversatte og modifiserte kategorier kan være: Livsstils Spill, Ekteskaps Spill, Selskaps Spill, Seksuelle Spill, Undergrunns Spill, Terapi Spill og Gode Spill. Kategoriene kan godt utvides og tilpasses dette århundres virkeligheter og 3x3 modellen. Eksempelvis vil kategorien 'seksuel' heller relateres til Drift, 'selskap' til Tro og 'terapi' til Vilje. Av klassiske Spill er tidligere omtalt: YDYB (Why Don't You, Yes But), IFWY (If It Weren't For You), WAHM (Why does this Always Happen to Me?), SWYMD (See What You Made Me Do), UGMIT (You Got Me Into This), LHIT (Look How Hard I've Tried), ITHY (I'm Only Trying to Help You), LPAFJ (Let's Pull A Fast one on Joey), NIGYSOB (Now I've Got You, You Son of a Bitch), LYAHF (Let's You and Him Fight), RAPO 'Psychiatry' og 'Courtroom'. En fullstendig liste av Berns klassiske Spill kan ses i hans bok 'Games People Play' som er gratis på internettet.»

«Nye Spill har også vært hensiktsmessig å definere etter omstendigheter. I tidligere UU er disse omtalt: DAC&UAC (Devide&Conquer & Unite&Conquer) er et politiske Vilje Spill som brukes til å ta dominans over kollektive grupper. TOL (Tuppen & Lillemor) er et Drift Spill i kollektivisering og kan være foranledningen til f.eks. LYAHF. ISR (It Started with the Retribution) ... synes å være særlig anvendt for å starte rivaliseringer - uten å risikere beskyldninger om provokasjon og tilhørende støtte til motparten. Tilsvarende klinisk Drift motivert Spill understøttes av ABF (Angrep er det Beste Forsvar) hvor gjensidig paranoide rivaler kan ha Tro dominert 'tvangstanker'. DSITDEN (Du Skal Ikke Tro Du Er Noe - eller 'Jante') er et kollektivt synkroniserings Spill i slekt med TOL. BGGG (Bad Guy, Good Guy) er et Vilje Spill i kategorien Underworld og særlig effektivt i 3. grads forhandlinger. RPPP (Robbing Pete to Pay Paul) er et politisk Underworld Vilje Spill som anvendes i valglofter og finanspolitikk. EDAB (Ens Død en Annens Brød) er 3 grads Underworld Vilje Spill med dødelige utfall. Som man ser, er det relativt enkelt å definere reelle sosialpsykologiske Spill, når man har fått tak i Bernes Spill-teori. Men i de senere år er det mest omtalte selvdefinerte Spill CdE (Coup d' Etat, eller Kupp). Dette Spillet er så dramatisk og omfattende at bør plasseres som en egen kategori og få en ny og høyere grad.» Dette er også gjort med den videre utvikling av 3x3 modellen til 3^3 (3x3x3), som blir fundamentet for de etterfølgende UU.

Danske og norske parlamentsvalg er direkte sammenlignbare, tross små nyanser. Prosessene mot norske og danske FrP er overbevisende eksempler, selv om Spill fra kupp forsøk (CdE) ble forskjellige. Det viser tydelig at planlegging og utfallet av politiske Spill har overveldende mange usikkerheter og uforutsette faktorer som vil avgjøre utfallet. Dessuten, - mon tro om ikke dagens utfall i det danske folketing er mest på grunn av egne forfeilede Spill i 'rød blokk'.

For nylig truet norsk FrP sin stortingsgruppe å felle FrP koalisjonsregjering på en innvandrer sak initiert av AP/LO i parlamentet. Det er en ny milepel i 'Basketak Spillet', etter at Stoltenberg bokstavelig talt ble bombet ut av regjeringsbygget i en PROSA lignende aksjon. Opphavet grunner selvfølgelig i revansj-iver etter forrige parlamentsvalg. «Som nevnt (i forrige UU 2014.juni.20) har AP/LO dominert utviklingen av offentlig sektor i et århundre og er følgelig hovedansvarlig for tilstanden. Like sikkert er at AP/LO ikke er skikket til å gjennomføre de absolutt nødvendige endringer som 22/7 kommisjonen påpeker. Som beskrevet i temaet Livskvalitet & Valg Nor2013 i UU 2013.sept.20: «AP sitt alter-Ego, LO, har startet Plan C 'Basketak' (Ref bok av AP politiker Grete Knudsen). Stoltenberg ble massivt strøket fra AP's valglister og får karriere-kritiske interview i media. LO har neppe tid og tålmodighet for Stoltenbergs Plan B 'Jeg er jo her'.» «Med enkel T.A. (Transaksjons Analyse) og sett fra AP/LO regimets side, gir 5D modellen 3 alternative Scenarier: A: AP vil ikke tape det demokratiske valg. B: AP får Regjeringen etter en Borgerlig kollaps. C: LO dominerer Regjeringen etter et Parlamentarisk kollaps.» Disse 3 alternative scenarier er mere dyppående beskrevet i UU 2013.sept.20 og ytterligere eksemplifisert i UU 2014.sept.12. Danske 'Basketak Spill' i parlamentet (Folketinget) etter folkeavstemningen vil foregå kontinuerlig og ha enkelte '5D' skift i dansk samfunnsutvikling. (Mere om 5D scenarier i neste UU.)

Uten 3x3 eller 3D modell ble den forrige danske regjeringsdannelsen kritisk omtalt. Utgangspunktet var at SD kandidaten som finansminister fikk veto av sikkerhetstjenesten PET, - basert på rykter og indisier. Dette, samt minner om CdE av danske FrP førte til et mini-tema 'Trippel-Glistrup' i UU 2012.Feb.17 - 2012.mars.16. Kort oppsummert blir 3 ministre med særdeles tvilsom bakgrunn og kompetanse omtalt. I ettertid trakk SF seg fra regjeringen og ble redusert til det ubetydelige, - tilsvarende SV i Norge. Dessuten

kom Saas Larsen inn i regjeringen etter PET sin innrømmelse av gal blokkering av den mest kompetente finansminister-kandidat. De siste års kritikker av enkelte PET&PST sakshåndteringer nasjonalt og internasjonalt tyder sterkt på at PET&PST er infiltrert og manipulert av 'hemmelige tjenester'. Det som definisjonen av Spill. Det hele styrker teorien om ekstern 3x3 Superior-Ego/Superior-ID (S-E/S-I) manipulasjon ala Foreldre/Barn i klassisk freudiansk sosialpsykologi. Modellen for S-E (Patriark, Matriark, Formynder) og S-I (Jerk, Sulk, Nerd) er nærmere forklart i UU 2014.jan.10, som deler av den komplette 3x3 modell. Naturlignok er dette også basis for 3^3 modellen vil bli anvendt på de etterfølgende UU.

3 fremtredende politiske organisasjoner beveger seg bekymrende nære kanten av de dunkle usunne sider av S-E/S-I. (Se UU 2014.jan.10 for inngående omtal av S-E/S-I.) DF ser ut til å innvikle seg i en dagmarsk (UU 2015.mai.22) mor/barn symbiose med separasjonsangst i stedet for å utvikle en myndig selvrealisering i regjering. Enhetslisten har utviklet seg fra noen døtre av 'Pippi Rødstrømpe', men vil neppe få lov av det patriarkalske Moskva til å bli mere enn noen politisk teenager rebeller og 'jailbaits'. LO er evig trellbundet av sin underkastelse til moskvatesene, - om ikke juridisk så ved kollektivt UnderBevisste tvangstanker. Som nevnt i forrige UU, ser det nå ut som LO anser enkelte i DF som indirekte talsmenn for dets oligarkiske handelsdominans. Men Liberal Alliance er SMB/SMV partiet i Danmark, ikke DF, Venstre eller Konservative. LA bør være spesielt oppmerksom på at LO er anti-SMV og har 100 års erfaring med bekjempelse av sine fiender på fatalt vis (se forrige UU 2015.juni.12).

Hovedutfordringer for dansk nasjonal politikk er ikke % på skat og statsbudsjett (finanslov), offentlig vekstnivå eller særlig skattelette for LO's kunder. Utfordringene er på fundamentalt plan. Parlamentet bør enes om løsninger for å normalisere samfunnet ved omfattende løsrivelse fra kalde krigs kollektive tvangstanker og tvangssituasjoner. Dermed er hovedutfordringen for enhver demokratisk parlamentariker å finne sammen for å fremme demokratiet ved å avsløre og bekjempe anti-demokratiske Spill. Dermed bør 3 formål være overordnet: Demokrater bør finne sammen mot anti-demokrater uansett parti og valgprogram. Parlamentarikere bør fremme parlamentarismen selv om det betyr lovens konsekvenser for anti-parlamentarikere. Regjeringen skal regjere staten og ikke omvendt. Terror-aksjonene i både København og Oslo bør være tilstrekkelige varsler. Samtale og samarbeide vil hjelpe begge parlamenter betydelig.

Det danske band VETO er fremdeles 'husorkester' og presenterer den tredje og siste sang. 'You say yes, I say yes' hincer til den påbegynte 'stoleleg' hvor plasseringer i parlamentet og regjering skal avgjøres. Assosiasjoner går til såkalte 'yes men', 'nikkedukker' og marionetter – uten selvrealiserte verdier. Det er en tilstanden inntil de overskytende representanter er vippet ut av Spillet og stolene er fordelt. Men så begynner real-politikken. I forrige danske parlamentsperiode tror jeg alle ministre ble flyttet rundt flere ganger. Velgerne endte ikke opp med de opprinnelig valgte ministre. Men det kan kanskje være OK, hvis første runde Spill ikke tjente parlamentarismen.

Ekstra UU

Den britiske TV-serie 'Yes (Prime) Minister' er fast innslag til dette UU tema om Danmarks parlamentsvalg. De belyser rivaliseringene mellom parlamentets Regjering og Staten særdeles treffende med riktig god engelsk humor. Denne episode 'The Devil You Know' viser at det kan være særdeles dramatisk for involverte under forhandlinger om fordeling av ministerposter. Minister Jim Hacker merker særlig usikkerhetens påkjenning mens statsmannen Sir Humphrey Appleby tar det demokratiske Spill med stor ro, - så lenge statsmenn trekker i trådene uten selv å bli berørt.

Ukens Utvalgte

Danmarks parlamentsvalg er ikke mellom noen rød eller blå blokk. Den politiske modell er den simple 1 dimensjonale fra den kalde krig. Hvis allikevel den slags 1D skal brukes, blir det mere relevant for demokratiske sivilisasjoner å fravelge anti-demokrater. 1D modellen ble videreutviklet til 3D i UU 2013.april.26. Til dette valget blir 3D modellen brukt til å belyse hva de politiske partier og kandidater er og ikke er. Hovedkonklusjonen blir selvfølgelig å fravelge tilsørt sosiopati av ymse sort, - som kan skyldes villedelse, politiske spill, trellbinding og endog en smule arrogant ignoranse av velgerne selv. Mer om det i de 3 UU etter valget med bruk av 3³ og spill modellene. I denne UU blir det først beskrevet en god del teori for å legitimere bruken av 3D modellen. Til sist blir det noe relatert omtale av de enkelte partier.

En innovativ renovering av politisk terminologi til dagens virkelighet ble nødvendig. Her er en kort oppsummert fra UU 2013.april.19: «De greske oldtidsbegreper om makt (cracy) var omtrent; aristocracy (elite), plutocracy (øde), stratocracy (militær), timocracy (kapitalist), autocracy (diktator), anocracy (diktatur), democracy (folk), theocracy (gud), adhococracy (tilfeldig), technocracy (vitenskap). Man kan saktens gjøre sosiopsykologiske koblinger og bruke forstavelser (prefix) som; neuro, psyko, sosio, xeno, pedo, 'matro', 'patro', 'ego', (ref. 3x ID; 'jerko', 'nerdo', 'sulko'). Videre kan man i stedet for endelsen (suffix) 'cracy' (makt) bruke ord som; mani, fobi, pati og fili». «Ovenstående kombinasjoner kan da få metafysiske begrep som; psykopatiet, psykomaniet, psykofobiet, psykofiliet, psykokratiet, eller; patrepatiet, patremaniet, patrefobiet, patrefiliet, patrekratiet eller; sosiopatiet, sosiomaniet, sosiofobiet, sosiofiliet, sosiokratiet osv. Den slags filosofiske personifisering av det ukjente skal man selvfølgelig være forsiktig med å anvende. Det kan føre til massepsykotiske misforståelser om eksistens av noe fiktivt. Så galt har det jo så ofte gått innen religionsfilosofi, hvor det har endt med å bokstavelig talt 'å male fanden på veggen eller 'å se spøkelses på høylust dag'.»

Den politiske 3D modell er grunnleggende beskrevet i UU 2013.april.26 og brukt flere ganger etterfølgende, - særlig til det forrige norske parlamentsvalg (UU 2013.aug.09 til UU 2013.okt.11). Modellen ble utformet på grunnlag av norsk parlamentarisme, men er vel så anvendelig for ethvert politisk system, - også dansk parlamentarisme. De følgende 5 avsnitt bør gi en grunnleggende forståelse av relevans, nødvendigheten og anvendeligheten av den politiske 3D modell for dagens demokratiske parlamentarismer.

«Man skulle tro det ikke finnes noe simplere enn et 1 dimensjonalt politisk kart, men tragikomisk nok er OD tenkelig. (Ideen om 0-tallets og 0-dimensjonen omtales i (det forrige) UU 2013.april.19.) En eksistens basert på et eneste punkt er selvfølgelig ingen realitet, men det kan være teoretisk nyttig. Tragisk nok tilstrebet desillusjonerte filosofer realiseringen ved ettparti-systemer i det 20 århundre. 'Nerdokratier' vokste uhemmet på ruinene av borgerkriger og masseutryddelser av statsborgere. Dette kan forbli den dominerende maktfaktor, inntil mere realistiske politiske kart blir kjent og allment.»

«De to punkter, Høyre og Venstre (blå og rød blokk), er anvendelige for en 3D modell også. Opprinnelig representerte Høyre (blå) Tronens makt og Venstre (rød) den voksende Stats makt. (1D modellen er et par århundre gammel og tilsvarende enfoldig.) Maktskiftet i Norden skyldes demokratisering ved allmenn stemmerett, samt Statens sosiale garantier til velgerne på Tronens bekostning. I 1D modellen plasseres alle politiske partier på en rett linje mellom punktene H (blå) og V (rød). Det gir et inntrykk av at Trone og Stat er absolutte motsetninger, at ethvert parti kan relatere seg til en av disse to, samt at ekstremister alltid er 2 motsatte grupperinger utenfor H (blå) eller V (rød). Hvis man i stedet forbandt endene i denne 1D modellen, ville man få en sirkel og se at ekstremister er de samme destruktive anti-krefter uansett politisk tilhørighet. Men løsningen er ikke å sammenkoble H (blå) og V (rød) til et punkt. Et steg på veien er at Trone og Stat representerer hver sin akse i en 2D flate. Dermed kan de fleste parti representere noe av både Stat og Trone i flaten mellom deres akser. Dessuten, - aksene har også negative skalaer, hvor ekstremister følgelig vil vises som anti-partier på motstanderens negative akse.»

«Den tredje dimensjon vil følgelig være en tredje akse, representert ved Tempel. Det lyder kanskje merkelig etter et ateistisk århundre, men tradisjonelt kalles religion 'den første filosofi'. Hertil tilhører grunnleggende filosofi, etikk, og rettssystemer. Dermed kan man få en 3D parlamentarisk modell som er kategorisk relatert til Freud/Bernes (og Jungs) psykososiale teori om menneskers 'Ego-states'. Hensikten er å kunne anvende den viten og dets modeller for sunn mentalhelse på nasjonens overordnede politiske systemer. Man kan saktens finne andre assosiasjoner, men her vil utgangspunktet være: 1) Superior-Ego/Formynder/Tempel, 2) Ego/Organisasjon/Stat og 3) Id/Familie/Trone. En sunn nasjon vil tilstrebe en balanse mellom de 3 dimensjoner. Disse kan også forholde seg til de 3 nevnte verdisystemer 1) Rett-Galt, 2) Konstruktivt-Destruktivt og 3) Godt-Ondt. Dermed behøver man ikke å bygge noe nytt parlamentarisk system for å kunne anvende modellen og tilhørende sosialpsykologi. Det er bare å plassere de selvsamme politiske partier, NGO'er og andre maktfaktorer inn i 3D modellen.»

“En 3D modell vil gi andre oppfattelser av den politiske verden enn dagens 1D modell. Dessuten kan organisasjoners navn kan være misvisende. Forvirrende er at danske Venstre tilsvare norske Høyre, samt at danske Radikale Venstre (RV) er et borgerlig parti i regjering, mens det norske RV (Rød Valgallianse) var en ekstremistisk fiasko. Videre har 1D modellen en rekke partier 'i midten' som vil omplasseres mere beskrivende i 3D. Norske SP (Senter Partiet / bonde partiet) er villedende, da det ikke er i sentrum av hverken 1D, 2D eller 3D. Politisk har SP beveget seg fra Trone til Stat og er trellbundet med stats-subsidier. KrF (Kristelig Folkeparti) hører mere til Trone og Stat enn Tempel pga familiepolitikken og Statskirken. FrP/DF (Fremskrittspartiet / Dansk Folkeparti) er Trone-orientert, med fraksjoners kraftige retorikk om anti-Stat. Mest ekstreme er Stats-partiene Rødt (norsk) og EL (danske Enhedslisten) da de fremdeles fremmer borgerkrig som 'nødvendig' middel for sine maktambisjoner. NasjonalSosialister tilhører, som navnet tilsier, Statspartier men er slått ut av neste generasjon, - NasjonalKommunistene.»

“Politiske organisasjoner forandrer seg over tid. Det kan fremstilles i en 4D modell hvor 3D modellen viser bevegelser over tid. Begreper som 'konservativ' og 'radikal' er ikke bestemte plasseringer i 3D, men vises som stillstand og bevegelse. Organisasjoner kan endog være relativt konservative eller radikale over tid. Antagelig er LO den norske regjeringens mest konservative organisasjon til tross for dets ekstrem-radikale opphav. På den annen side vil 'konservative' organisasjoner fra det forrige århundre være relativt radikale nå, siden de er i sterkt opposisjon. 4D modellen vil også kunne vise organisasjoner som kommer og går. Spesielt vil sammenhengen av kortvarige ekstreme organisasjoner vises å være pulserende konstanter i 3D modellen, så som rekken NKP, AKP, AKP-ML, RV og Rødt.»

Konseptet PROSA (Pro-Russian Oligarchs, Separatists and Autonomes) ble revitalisert i Extra UU 2015.feb.20. under terror-angrepet på 'Krudttønden' i København. PROSA er et 'para-system' til nasjonale parlament som forbereder CdE Spillet (Coup d' Etat) med anti-nasjonale og anti-demokratiske 'hemmelige tjenester'. "RAF and PROSA were mentioned as 'bullet points' in the start of this UU theme 'Charlie' (UU 2015.jan.09), saying: "Ulterior RAFs and alike exist in most nations and have variations like BRAF and GRAF." "The hypothesis of the present multiple RAFs is talked through several times and accumulated in UU 2014.juni.13. In brief, 'Red Army Factions', despite their extreme ulteriority, were disclosed in several European nations and probably exists in all. A RAF-dnk cell called 'Blekingegadebanden' was named after the disclosure of a weapon depot in Copenhagen (and kind of projected the focus to Sweden/Blekinge). Besides, the hypothesis of RAF development is the pre-RAF as BRAF (brown-red), formed from the ww2 Stalin-Hitler alliance and postwar-Games. This century's RAF has become GRAF (green-red) where green as the color of Islam and do not symbolize of nature at all. Furthermore, another bullet point said; "Pro-Russian Oligarch, Separatists and Autonomes (PROSA) do not merely operate in Ukraine." This is based on present media observations on how the neo-SU (Novorossiia/New Russia) CdE Games are played, where there are hierarchies of RAF cells organized, yet manically denied like in 'Underworld' Games of mafia bosses. The executioner in Oslo, Paris and Copenhagen are displayed as Autonomes, merely to disguise and protect the massively organized crimes behind." Forrige UU 2015.juni.05 omtalte det øverste PROSA nivå av 'Oligarker'. Denne UU setter dermed mere fokus på mellom-nivået, - organiserte Pro-Russiske Separatister, - tilslørt som danske politiske aktører.

Enhedslisten (EL) representerer en tilsvarende pulserende konstant i rekken fra DKP (NKP) i en 4D politiske modell. Danmarks Kommunistiske Parti (DKP) var bolsjevikisk med diktatorisk statskapitalisme, stalinisme og kollektiv assimilering av borgerne. EL fikk sin første suksess som kompromissløs anti-europeisk til EU valget om Maastricht-traktaten om det europeiske indre marked. Valg-suksessen gjorde følgelig EL til et upålitelig støtteparti for sosialistiske regjeringer. (Tilsvarende anti-europeisk konsept ble samtidig anvendt på norske SP (Senterpartiet/bondepartiet), men SP fortiet at opphavet var tilsvarende danske EL – DKP/NKP.) EL sin hoved-politikk er anti-europeisk og de bruker miljø-argumenter som veto. De truer stadig med å styrte regjeringen de angivelig støtter. EL har sterkt influert SF og har tjent mest på SF sin velgerflukten etter alle svik av sine velgere. Nå er partiets gamle stalinistiske frontfigurer skiftet ut med 'sexy piger', som prøver å avverge omtale om voldelig statskupp og anti-demokratisk diktatur. På den annen side er EL i dag mere kompleks enn rendyrket stalinisme i dag, - da de blir nødt til å tilfredsstille alle sine fraksjoner fra trotskisme, maoisme til islamisme (UU 2014.juni.13).

Den kalde krigs anti-demokratiske infiltrasjon av parlament og regjering ses tydeligere i Norge enn i Danmark. AP/LO symbiosen har dominert parlament, regjering og stat i nesten et århundre. Faktisk var LO nazistisk og en hovedaktør under hele den andre verdenskrig. LO har aldri ryddet opp med et offentlig landssvik-oppgjør, men heller stilltiende tillatt konvertering til leninisme og maoisme. LO er ikke basert på menneskerettighetene, men tvert imot bekjemper andres rettigheter som foreningsfrihet og ytringsfrihet, - som om de var politiske fiender. LO er underkastet Moskvatesene, de kaller seg på engelsk 'Confederation of Trade Unions' og de er en hovedsakelig en republikansk handels organisasjon. Tilsvarende er internasjonale mafiaer også med oligarkiske gudfedre som styrer sine fagforeninger med skjult fysisk og psykisk vold. Eksempelvis er den russiske 'jern og metal' oligark og venn av Putin, Vladimir Potanin, god for 117 milliarder kroner. Det indikerer at LO skjuler sine virkelige oligarker bak fasader av slitne arbeidere, godfolk i nød og naiv ungdom. AP/LO symbiosen har sørget for handelsdominans i det meste av all offentlig tjeneste-produksjon og alle underleverandører i modell av sovjetisk handels-union, - til tross for at det har vært grovt ulovlig i 20 år i henhold til forpliktende europeiske handelstraktater. LO er naturlig nok den hardeste rival mot det europeisk demokratiske indre marked, - og er en særdeles sterk og aktiv manipulator i parlamentsvalg.

Norsk LO kjøpte åpenlyst politiske prioriteringer og ministerposter fra AP ifølge NRK Bennispunkt repotasjen 'LO sitt store comeback' (UU 2013.aug.23). «LO ga Arbeiderpartiet 13 millioner kroner mot gjenytelser. Til gjengjeld gav AP til LO en ministerpost, flere styreverv i statsbedrifter, endret økonomisk politikk for 'sykelønn' og 'privatisering', samt særlig politikk for 're-kommunalisering' i Trondhjem. Alle disse gaver er til LO sin fordel og strider mot flere av lovene som Stortinget har vedtatt. LO ble faktisk anmeldt for korrupsjon den gang, men saken ble henlagt pga en unøyaktig formulering.» Dansk LO omtalt til forrige parlamentsvalg i UU 14.okt.2011 «LO er ikke hva de utgir seg for. Det er en storkapitalistisk multinasjonal virksomhet med uhemmet makt- og profittbegjær. Det utnytter tusener av lavtlønnede til sort gratisarbeid i andres virksomheter. Belønning går utenom selvangivelse med kameratslige gjenytelser. Danske LO's økonomiske nøkkeltall er tydelige; konsernets egenkapital er på hele 655,6 millioner kroner, det er kun 148 betalte ansatte, årsresultatet angis til -17,3 millioner kroner og følgelig betaler ikke LO noen skatt. Deres grunnleggende verdier er egen makt og kapital. Fundamentet ble grunnlagt av mafiabossen Stalin, som så potensielle kjedereaksjoner av statskupp ved infiltrasjon av nasjoners arbeiderorganisasjoner. Siden dengang har LO vært en kynisk maktorganisasjon som anvender både fysisk og psykisk vold. Korrupt inkompetanse plasseres i beslutningsprosesser på begge sider av forhandlingsbordet. Motivet er ikke medlemmenes eller andre statsborgeres velferd. Argumenter som solidaritet, velferd, likelønn, brukes fordi de er profitable.» Relatert til 4D modellen er LO en særdeles sterk (SU) Stat konstant og følgelig anti Trone og Tempel.

Dansk Folkeparti er tilsynelatende på den andre side av rød-blå blokk. DF var opprinnelig FrP men ble separert i et PROSA-aktig DAC/UAC Spill. I Danmark reagerte offentlige oligarker voldsomt på FrP sitt juridisk angrep på offentlig misbruk av udemokratisk dominans. Statlige oligarker svarte med fengsling av FrP lederen i en skatte sak. Senere ble FrP splittet til det matriarkalske Dansk Folkeparti. Tilsvarende ble forsøkt i 1995 på norsk FrP med ekstrem-nasjonalisme tilsvarende Nashi (Наши)/'Putin jugend' (UU 2014.nov.14). Nå våger ikke Norsk FrP tale om EU, men dansk DF markerer sterke anti-europeiske og anti-

muslimske grunnholdninger. Særlig tydelig ble forskjeller mellom DF og FrP ble uttrykt i forbindelse med terror saken i Oslo (UU 2011.aug.05). «Det norske Parlamentet har etter terror-angrepet på sin Regjering fornuftig nok avtalt å moderere politiske uttalelser i denne nasjonale krise. Så våger denne danske Tante Jante i sin vesle-voksne pubertets-mentalitet å kritisere norske politikere for å “gå på kompromiss med ytringsfriheten”, samt å være “uden rygrad”. Den ‘dagmarske’ retorikk forsvant med lederen og med forvisning av den mest fremtredende anti-europeer til EU parlamentet. Dog er han tydelige selektivt oversubsidiert med budskap tilsvarende ‘Parroting Putin’ under PROSA invasjonene i Ukraina. Relatert til 4D modellen prøver stadig fraksjoner i DF og FrP å flytte partiene fra Trone til Stat, - tidvis med kupp forsøk.

Anti-parlamentariske PROSA-aktige aktiviteter er ikke begrenset til fremtredende partier som EL, DF og SF. Som nevnt handler det om politiske Spill hvor skjult uredelighet er hovedingredienser, - som ved ‘hemmelige tjenester’. Dermed blir organisasjoner som beskrevet i Mitrokhin arkivet særlig aktuelt. “Notes in the Mitrokhin Archive claim that more than half of the SU weapons are based on US designs, that the KGB tapped Henry Kissinger's telephone when he was US Secretary of State, and had spies in place in almost all US defense contractor facilities. In France, some 35 senior politicians were alleged to have worked for the KGB during the Cold War. In West Germany, the KGB was said to have infiltrated the major political parties, the judiciary, and the police. Large-scale sabotage preparations were supposedly made against the US, Canada and elsewhere in case of war, including hidden weapons caches; several have been removed or destroyed by police per Mitrokhin's information.” One can only conclude that RAF in US and Canada exist. Actually, which nation hasn't one?» (UU 2014.nov.28) “The Mitrokhin-archive reveals that Moscow with KGB greatly financed and manipulated the anti-Europe campaigns.” (UU 2014.dec.05)

Hvor kristne er egentlig såkalte kristne politiske partier. DF og FrP synes heller å bruke kristendom som konfrontasjon mot muslimer enn å være virkelig religiøse. Tilsvarende er det dessverre helt legitimt å spørre om norske Kristelig Folkeparti (KrF) og danske Kristendemokraterne (KD). KGB agenten Mitrokhin avslørte “The book describes establishing the "Moscow Patriarchate" on order from Stalin in 1943 as a front organization for the NKVD, and later, for the KGB (and assumingly today's FSB). All key positions in the Church, including bishops, were approved by the Ideological Department of CPSU and by the KGB.” Såkalte kristne organisasjoner er dokumentert infiltrert av KGB/FSB. Denslags ukristelig infiltrasjon er langt enklere i politiske partier enn i kirkesamfunn. Tilsvarende er islamistiske organisasjoner i Norden sannsynligvis infiltrert av FSB og PROSA-lignende undergrunns organisasjoner. I 3D modellen har noen kristelige organisasjoner og partier gjort et stort sprang fra Trone/Tempel til Stat ved KGB/FSB infiltrasjon.

Begrepene ‘konservativ’ (og ‘radikal’) er som nevnt i 4D modellen høyst relative begreper da aktørers og samfunnets tilstand endres over tid. Hva er dermed konservativt for Danmark? Det Konservative Folkeparti (KF) lyder som en ny-tradisjonell blanding ved at de valgte det sosialistiske begrep ‘folkeparti’. Partiprogrammet fremstilles som et familieorientert parti, men den nye lederen har fremstått som homoseksuell. (Dette er selvfølgelig kun nevnt for å vise kontraster og ingen kritikk av noens legning.) En egyptisk muslim med eget muslimsk DR program er blitt en fremstående partimedlem. Et partirepresentant fikk hentydninger til ‘verdens eldste yrke’ etter et særdeles utringet festantrekk. Konservativt i Danmark vil også kunne være russisk føydalisme fra Tsarina Maria Fjodorovna, alias danske prinsesse Dagmar (UU 2015.mai.22). I 4D modellen vil KF vise seg å bevege seg fra Trone til Stat og Tempel i dette århundre. Så burde kanskje partiets medlemmer undre seg mere enn andre velgerne over hva KF virkelig er i dag, - og blir i nær fremtid.

Den simple 1D modellen om rød og blå blokk er hverken dansk, norsk eller europeisk. Den er likeså enfoldig som begrepet om ‘Vesten og Østen’. Vi her i Europa er selvfølgelig ikke til vest for oss selv. Begrepet stammer fra den navlebeskuende betraktning at Europa er vest og Asia er øst for Moskva. Den verdensforestillingen er absurd og meningsløs i resten av verdenen. Så blir det særdeles avslørende at begrepene Vesten og Østen er blitt dogmatisk terminologi i dominerende andeler av TV, radio og aviser. Dermed er det vel så tydelig at anti-europeiske journalister stort sett har bedrevet ‘Parroting Pravda’ og ikke for sin egen nasjon. En kan jo bare kikke på den engelske internett versjon av Pravda og sammenligne med hjemlige politiske reportasjer. Det er få originale tanker å spore hos noen av dem.

En unik Rød-Blå regjering ble formet i forrige danske parlamentsvalg, - hvis man skal holde seg til standardisert 1D politiske fremstillinger. I Norge er det dannet en unik blå-blå regjering fordi FrP til sist ble tolerert i regjerings posisjon. Den første blå konstellasjon i Norge oppsto for øvrig som en midlertidig nødvendighet for AP/LO å skifte sin egen regjering etter Kings Bay krisen på Svalbard i 1963. Dansk SF erfarte prisen for velgerbedrag for regjeringsmakt. Det spørres så om norsk FrP erfarer det samme til neste valg. Men i alle tilfelle skal man ikke se bort fra at DF (ex-FrP) kan bli med i en dansk blå-blå regjering i år. Så er det heller ikke umulig at EL blir regjeringsmedlem som SF ble i fjor. Både DF og EL behøver nå en 'konfirmasjon' til de voksnes rekke i posisjon for å fri parlamentet fra opposisjonell 'teenager' politikk. Så får virkeligheten avgjøre om partiene er 'liv laga'. En tredje unike koalisjon ville være blå-rød regjering med de dominerende V og SD. Utenkelig - utfra kald-krigs tvangstanker, - men siden parlamentet skal representere all interesser til felles gode, - burde det være mulig for de mest demokratiske partier å forme koalisjon mot de mer eller mindre udemokratiske. Et splittet parlament klarer ikke å utføre sine forpliktelser ovenfor borgerne og den dominerende Stat.

Det fundamentale 3D verdisystem (Godt/Ondt, Konstruktivt/Destruktivt og Rett/Galt) vil dog være mere relevant for demokratiet enn overordnede maktstrukturer som Trone, Stat og Tempel. Den politiske 3D modell har ikke demokrati som en faktor fordi demokratiet er en selvfølgelig forutsetning for europeiske sivilisasjoner. Men uansett hva enkelte mener om de enkelte moralske verdier eller politiske systemer, er en balanse mellom de 3 dimensjoner en forutsetning for sunn 'mentalitet' for nasjoner så vel som personer. Den type Freud/Jung psykososial analyse vil bli inngående omtalt i de 3 UU om 3^3 modellen.

Det danske band VETO er fremdeles 'husorkester' til denne før-valgs omtale det danske parlamentsvalg. Sangen 'You Can't Afford It (we're taking everything back)' henter denne gang til demokratiske reaksjoner på halvt århundres dominans av stat-makt på borgernes demokrati sin bekostning. Samfunnet bør av hensyn til kollektiv mentalitet tilstrebe en større balanse mellom de tre fundamentale verdi-system; Godt/Ondt – Konstruktivt/Destruktivt – Rett/Galt.

Ekstra UU

Den britiske TV-serie 'Yes (Prime) Minister' er faste innslag til dette UU tema om det Danmarks parlamentsvalg. De belyser rivaliseringene mellom parlamentets Regjering og Staten særdeles treffende med riktig god engelsk humor. Denne episode 'The Compassionate Society' handler om politiske spill fra Ministry of Health, hvor første prioriteten selvfølgelig er deres egen velferd. Det handler om rivaliseringer om ressurser til statsansatte, innvandrere og pleietrengende. Staten og fagforeningen klarer det politikken kunststykke å slå to fluer i en smekk med helt andre resultat en tiltenkt, - ala Støre.

VETO - Built To Fail

2015.juni.05

Ukens Utvalgte

Så er det parlamentsvalg i Danmark igjen - og dermed et UU tema som for 4 år siden (UU 17.Feb.2012 til UU 16.Mars.2012). Den gang ble det gitt råd og kritikk til noen partier og ministre. Denne gang blir fokus på rivaliseringen mellom det demokratiske Parlament og den olikratiske Stat, - som også fremstilles så humoristisk i TV serien 'Yes, (Prime) Minister'. Utgangspunkt blir også den dansk-russiske kulturarv og

dagens felles nordiske utfordringer. Valgkampen i år er lagt under den store Distortion festival som har et klimaks på Grunnlovsdagen, - og valgdato er satt til 18/6. Dermed blir disse 3 første før-valg UU tilsvarende musikalsk preget med det danske band VETO. De neste 3 etter-valg UU blir relatert til de utvidede sosialpsykologiske teorier om 3^3, samt Spill teorier og 5D scenarier.

I denne første UU tas det fatt i det demokratiske problem, som når anti-demokrater graver dypt etter små bilagsfeil hos en statsministerkandidat og insinuerer skatte-bedrag mot den andre. Tilsvarende legitimeres det her til dyptgående omtaler av de store statlige bedrag med organisert offentlig kriminalitet. Uten stemmerett, men med en stemme, vil ikke denslags 'kampfiksing' i massemedia og illusjonerete virkelighetsbeskrivelser overskygge kritikk av de store strukturelle feil og utfordringer nasjonen Danmark virkelig har.

Dansker skal aldri fortrenge og forvrengte at Danmark er en sivilisert demokratisk nasjon i Europa, - blant likesinnede venner. Danmark er ikke en russisk vasallstat ala 1864-1914 (UU 2015.mai.29). Med denne selvfølgelige konstatering burde det være unødvendig å minne om at enhver kan komme til å 'si noe og gjøre noe helt annet'. I Danmark er Folketinget (parlamentet) nasjonens lovgivende makt. Det er kriminelt av stat, kommune og andre offentlige instanser å bryte dets lover, desinformere om dem og endog omskrive dem. Igjen og helt konkret, - Danmark er ikke en russisk oligarkisk vasallstat, men et fullverdig og forpliktende medlem av det indre europeiske marked. Danmark har aldri vært del i det forfeilede indre marked til Sovjet Unionen og vil aldri underlegges dets rester i illusjonen om Novorossiya (New Russia). En hovedutfordring for det kommende parlament, regjering og forvaltning blir dermed å bekjempe den organiserte offentlige kriminalitet – som beviselig er blitt inngående korrumperende.

Som nevnt i UU 2013.okt.04: «Det er avgjørende viktig å forbedre de offentlige tjenesteleveranser, når OECD (Organization for Economic Cooperation and Development) så 'diplomatisk' påpeker det. Generelt sier OECD i rapporten 'Government at a Glance' at norske (og danske) offentlig tjenesteleveranser ytes med overbemanning, overtid og overprising. Det tyder på dels uprofesjonelle tjenesteleveranser, - som igjen skyldes uprofesjonell forretningspraksis. Dette fortjener ikke borgerne. Dyptgående og omfattende endringer er nødvendig nå.» (UU 2014.juni.27). Både Danmark og Norge har etablert Produktivitetskommissjoner med systematisk gjennomgang av potensielle innovasjoner. De ga tydelige konklusjoner til regjeringene for å realisere det OECD påpeker som nødvendig. Så blir det så åpenbart når anti-krefter propagerer det motsatte som desillusjonert politikk innen sosialtjenester, skatt, miljø, pedagogikk osv.

Grove eksempel på den slags illegal legitimering er omskrivninger og omfortolkninger av internasjonalt forpliktende lover. Danmark har inngått forpliktende avtaler med øvrige europeiske nasjoner som skriftsrett gjengis i den norske EØS Loven (EEA / Maastricht traktatens konkurranseregler - se lovdata.no.) Kort sagt: «Lovens konkurranseregler forbyr virksomheters misbruk av markedsdominans, ulovlig konkurransevridning og diskriminerende avtaler (art. 53 og 54). Offentlige virksomheter stilles vel så strengere krav som andre (art. 59). Videre er konkurransevridende statsstøtte til virksomheter forbudt (art.61) og sosial støtte skal ikke gis direkte til noen virksomhet, men til den enkelte borger (art.61a). Dette betyr at kontantstøtten (dansk kontanthjelp) er den lovlige form for sosial støtte og at den skal anvendes for alle borgertjenester. Borgerne skal selv kunne velge mellom kvalifiserte leverandører og ingen kvalifiserte leverandører skal utestenges fra markedet. Regjeringen skal reagere på den slags ulovlig misbruk av Statsstøtte for å ikke gjøre seg medskyldig.» (UU 2013.okt.04)

Det er overhodet ingen tvil om Danmarks juridiske forpliktelser tilsvarende EØS loven. En artikkel i wikipedia skriver: «Traktaten om Den Europæiske Union (TEU) ofte kaldet Maastricht-traktaten var en traktat, der blev indgået i Maastricht i 1991 mellem medlemslandene i det daværende EF og underskrevet 7. februar 1992. Traktaten trådte i kraft 1. november 1993, efter at Danmark først havde nedstemt den ved en folkeafstemning og derefter vedtog den sammen med Edinburgh-protokollen ved endnu en afstemning. Traktaten består af 53 artikler og omdannede EF til den Europæiske Union (EU).»

Den danske webside 'Folketingets EU-Oplysning' er bevisst misvisende ved å skrive: «(Landene skal følge EU's fælles regler, og det gør Danmark også.) Men på det principielle plan er der uenighed om, hvor langt Danmark er forpligtet til at følge EU's fælles regler. Fra en dansk synsvinkel står EU's regler f.eks. ikke over grundloven. Set fra EU-rettens synsvinkel er alle nationale regler underordnede de fælles EU-regler – uanset om den nationale regel er en almindelig lov eller en grundlov.» Med andre ord – illegal 'dansk synsvinkel' legitimerer internasjonale lovbrudd. Videre publiserer Konkurranseloven retsinformation.dk, som i praksis er en grov omskrivning av de lov-forpliktende europeiske Konkurranseregler. Konkurranseloven sier i §11a at "Konkurrenserådet kan udstede påbud om, at "(ulovlig statsubsidiering) skal bringes til ophør eller skal tilbagebetales" - samt at den slags korrupsjon «forældes 5 år efter». Den slags annullering rettslige reaksjoner på illegal statsstøtte er selvfølgelig også kriminelt. Videre nevnes det ikke at statsstøtte skal gis direkte til borgeren (kontanthjælp) og ikke til offentlige eller private virksomheter. Olikratiske leverandører til offentlig forvaltning profiterer stort og illegalt på kriminaliteten. Videre nevnes ikke at offentlige virksomheter har vel så strenge vilkår mot misbruk av dominerende markedsposisjon en ikke-offentlige virksomheter. Alternative leverandører blir således massivt utsatt for «misbruk av markedsdominans, ulovlig konkurransevridning og diskriminerende avtaler».

Den lovpålagte 'kontanthjælp til borgerne' kan for øvrig enkelt realiseres uten reelle forhindringer. Barrierene er kun politiske illegale. Dette var omtalt for Norge i UU 2013.okt.04 og er likeledes for Danmark. «Finansielle tjenester for statsstøtte til borgere (kontanthjælp) bør ikke være mere avansert enn hva banker, forsikringsselskap og butikker bruker av IT løsninger. Forvaltningen behøver kun noen register over hvilke penger borgerne kan bruke på hvilke tjenesteleverandører innen helse, transport, skole, pensjon etc. Pengene behøver ikke gå direkte til borgerens bankkonto så lenge de selv får velge leverandør og tjeneste. For 'kontanthjælp' til husholdning kan transaksjonene gjøres direkte til borgerens bankkonto. Systemet for å realisere lovlig statsstøtte betinger en offentlig borgerkonto så som banker har kundekonto. Dette er løst elegant i andre Nasjoner.» Forhindringer mot den legale borgerlig kontanthjælp oppstår ved anti-demokratiske og anti-europeiske offentlig kriminalitet i Danmark, Norden og Europa for øvrig.

Europas Konkurranseregler er demokratiske og anti-olikratiske. Det kreves enorme ressurser å desinformere og manipulere rettssystemet så inngående mot dette. Det kan neppe forklares med annet enn omfattende og langvarig organisert internasjonal kriminalitet i den offentlige forvaltning. Faktisk stammer det den halvt århundrede lange kalde krig mot Sovjet Unionen (1). Dette er tidligere omtalt i forbindelse med 'Corruption Perceptions Index' (CPI) i UU 2013.april.26 og UU 2013.aug.23. "Artikkelen 'Political corruption' omtaler også det ukjente begrepet 'kleptocracy'. Ordet passer godt til terminologien i (forrige) UU 2013.april.19. Videre nevner artikkelen forskjellige typer korrupsjon, så som; utpressing, kameraderi, 'vennetjenester', skandalisering, valgfusk, økomisk 'rot', bestikkelser, donasjoner og mafiametoder. Globalt sett handler korrupsjon hovedsakelig om narkotikahandel, menneskesmugling og hvitvasking av penger. Den årlige globale politiske korrupsjon anslås å være 1 Trillion \$/år, mens det globale GWP er ca. 70 Trd \$/år og norsk (og dansk) GNP er ca. 1 Trd Kr/år. Det tilsier at norsk (og dansk) politisk korrupsjon er omtrent 2% av Statsbudsjettet, dvs. ca. 20 Mrd kr/år. Det rimer godt med tommelfingerregelen at kommersielle virksomheter har en andel illojale ansatte på 2%. Lav score på CPI kan tyde på at korrupsjon er av typer som statistikk ikke oppfanger eller at korrupsjon skjules godt. (CPI indikerer kun en persepsjon og ikke nødvendigvis virkeligheten.) Det er ingen grunn til å anta offentlig sektor har mindre enn 2% korrupsjon. Korrupsjonen øker ved fortelser og følgelig forderver samfunnet tilsvarende. Rettsapparatet skal følge loven og reagere like rettferdig i offentlig som kommersiell sektor.»

Et annet nylig tilfelle beviser den illegalt mangelfulle ratifisering av menneskerettighetene i dansk lov. En journalist og historiker har gått igjennom alle instanser i dansk rett og endte med at høyesteret annullerte og reverserte en dom. Saken var at en journalist baserte seg på informasjonen fra sikkerhetspolitiet PET og skrev at en forsker tjente KGB/FSB. Poenget i dette tilfellet er at domsavgjørelsen var basert på en foreldet tekst i grunnloven og ikke den juridisk bindende europeiske menneskerettskonvensjon. Den oppdatering har betydelige unntak mot samfunnsskadelig misbruk av ytringsfriheten: «Da udøvelsen af disse frihedsrettigheder medfører pligter og ansvar, kan den underkastes sådanne formaliteter, betingelser, restriktioner eller straffebestemmelser, som er foreskrevet ved lov og er nødvendige i et demokratisk samfund af hensyn til den nationale sikkerhed, territorial integritet eller offentlig tryghed, for at forebygge

uorden eller forbrydelse, for at beskytte sundheden eller sædeligheden, for at beskytte andres gode navn og rygte eller rettigheder, for at forhindre udsprelse af fortrolige oplysninger, eller for at sikre domsmagtens autoritet og upartiskhed.” (Artikel 10, Stk. 2) Journalisten vil ta saken videre til den europeiske menneskerettighetsdomstol for å overprøve dansk høyesteret. Men med Jagland som generalsekretær kan prosessen og resultatet allerede sannsynliggjøres.

En artikkel i Wikipedia poengterer misforholdet mellom grunnloven og internasjonal lov ved at: «Denne artikkel (10) (i den Den Europæiske Menneskerettighetskonvention) er væsentlig mere omfattende end den tilsvarende i grundloven. Den kan siges at svare til en mere moderne opfattelse af ytringsfrihed, end man havde forudset i grundloven af 1849, og den er samtidig udtryk for en fælles opfattelse af begrebet ytringsfrihed, som det anvendes i de vestlige demokratier. Denne konvention blev 29. april 1992 del af dansk lov, og er derfor direkte anvendelig i Danmark. For fastlæggelse af ytringsfrihedens grænser har konventionen i dag større betydning end grundlovens bestemmelse.” Dermed er det et alvorligt juridisk problem i hele retssystemet når forældede og primitive formuleringer i f.eks. grundlover anvendes illegalt som veto mot de internasjonale forpliktelser. Selv dommere kan handle illegalt og rammes av Straffeloven.

Folketinget og Regjeringen har en hovedoppgave i å bekjempe offentlig korrupsjon og kriminalitet. Det spiller ingen rolle hvilket parti, hvilken ideologi, hvilken farge eller hvilken side de folkevalgte representerer. Enhver parlamentariker og minister er spesielt forpliktet ved straffeloven og kan ellers utsette seg selv for bøter og fengsel. Antagelig har Danmark samme problem som Norge. «22/7 kommisjonen (konkluderer) nødvendigheten av at: «Ledere på alle nivåer i forvaltningen systematisk arbeider med å styrke sine egne og organisasjonenes grunnleggende holdninger og kultur knyttet til; Risikoerkjennelse, Gjennomføringsevne, Samhandling, (IT) IKT-utnyttelse og Resultatorientert lederskap.» For å si det rett ut på 'godt norsk': Dette er den ultimative kritikk av norsk forvaltning om manglende evne og vilje til å gjøre det nødvendigste selv når nøden er størst.» (UU 2014.juni.27) 22/7 Rapporten er et grundig forarbeide for Danmark også. Men dessverre, - norsk offentlig oligarki har selv etter 22/7 bombeangrepet og massakren fremdeles dominerende 'maktsposisjon' over det demokratisk valgte parlament og regjering.

Kan det danske parlament gjøre sin plikt ovenfor demokratiet og borgerne ved å avkriminalisere forvaltningen og redusere den samfunnsskadelige korrupsjon? Det er foreslått flere ganger for Norge å etablere en 'Økokrim avdeling for offentlig sektor' (UU 2013.aug.23). Det har ikke skjedd på de 20 år. Årsakene er selvfølgelig, - politi som rettsvesen er også korrumpert. Noen indikasjoner er: Krudttønde saken i Danmark viser tydelig at politiet ble manipulert og deres reaksjoner testes og registreres (UU 2015.feb.20). Videre viser CSC Danmark saken at offentlig IT er gjennomhakkert og utenfor parlamentets og regjeringens kontroll (UU 2014.mars.14). Novorossiys sine grensekrenkninger med bombefly og diplomatiske trusler om atomkrig beviser de sanne hensikter og metoder (UU 2014.juli.25). NATO er følgelig den eneste sanne venn i nøden. Dermed er så det tydelig at Danmark har særlig behov for å internasjonalt politi og rettsvesen for alle typer offentlig kriminalitet.

Når nasjonalt politi og rettsvesen er såpass korrumpert, er det eneste håpet et internasjonalt samarbeide med andre europeiske nasjoner. Danmark bør prioritere å gjenvinne tillitt til Europas internasjonalt politi mot internasjonalt kriminalitet – Europol. - Men våger Europol samarbeide med danske myndigheter etter CSC/Pirate-Bay saken (UU 2014.nov.28) og den nylige KGB/FSB høyesteret sin dom? Den selvfølgelige løsningen er å vedta internasjonalt forpliktende avtaler som nasjonale lover uten manipulert tekst – tilsvarende de norske Menneskerettsloven og EØS loven.

'Built to fail' med 'VETO' åpnet valg-snakke for 4 år siden også i UU 07.okt.2011. Deres synth rock hører jeg meget. De er nok mitt danske favorittband. Så passer da også navn og tittel til anledningen. Denne gang blir det 3 Live nummer før valg og konstituering. Denne tittelen 'Built to fail' er her hintet til den oligarkiske stat etter de forfeilede '68 CdE i den kalde krigens. Dets '5 kolonist' tvangstanker om destruksjon før konstruksjon nådde kun halvveis.

til dette tema om Danmarks parlamentsvalg, vil presentere en episode av den britiske TV serie 'Yes (Prime Minister)'. Denne episode 'Doing The Honours' handler om politiske spill mellom stat og regjeringen. Den borgerlige statsministeren er oppgitt over ineffektivitet og høye offentlige utgifter. Det virker håpløst inntil ideen om resultatorientert belønning kommer frem, - men kompromisset blir alltid noe annet en tenkt.

Stanley Jacobsen - Skigardsvise

2015.mai.29

Ukens Utvalgte

Denne tredje og siste UU til Grunnlovsdagen dedikeres den ny-klassiske 'Skigardsvise'. Teksten er tankevekkende og indikerer at for sterke nasjonale grunnlover kan også være usunt i lengden. Lover kan fremme isolasjon og fremmedgjøring fra resten av menneskeheten. Sosialpsykologisk sett, er det like nødvendig for en nasjon som for en person å balansere selvrealisering og sosialisering. For lite eller for mye av det ene eller det andre er direkte usunt og forverrende. Teksten nevner at 'en skigard' kan være som en landegrense, et stengsel i ens indre sinn, - en fordom, et skille, uvisshet, misunnelse, aversjon, sjalusi, hat og endog en krig.

Norges behov i 1814, med gjenvinning av sin selvstendighet, var naturlignok å sikre integritet og selvrealisering med en sterk nasjonal lov. Det var antagelig en stor fordel at Norge ble fri for all verdens utenrikspolitiske intriger etter Napoleonskrigene. Det 'nøytrale' Sverige var i en 'utenriks union' med Norge etter sine stridigheter med Russland frem til 1905. Norge ville faktisk være godt forberedt til normale utenriks omstendigheter i den optimistiske fredstid. Men så startet Russland sin andre Fedrelandskrig i 1914 med alle dets konsekvenser for verdenen i et århundre. Selvom Danmark fikk visse fordeler i EW1, ble både Danmark og Norge særlig utsatt i EW2. EW3, den kalde krig som varte i et århundre, endte ut med en eneste stor 'skigard' igjennom Europa. Fremdeles synes tidvis at Norsk UD ikke har kontroll over utenrikspolitikken og man kan saktens undres om Norge noensinne har hatt det. Selv store merkelige og uløste kriminalsaker, som Orderud, Breivik og Treholt har sterke relasjoner til norsk UD personell.

Norge har fornyet Grunnloven flere ganger og fikk i 2014 en tilpassing til dette århundre. Som i 1814, er 2014 Grunnloven relativt moderne og demokratisk. Den inkluderer menneskerettighetene,

Menneskerettighetsloven og nordmenns europeiske friheter ved EØS-loven (UU 2014.okt.17). Dessverre er ikke juridisk praksis tilsvarende og rettsvesenet kan fremstå særlig ignorant og arrogant, - som om kaldkrigs skigarder fremdeles står som en 'juridisk berlinmur'. Denslags juridiske illegalitet kan neppe forklares med annet en opphav i den anti-demokratiske og anti-europeiske politikk. Den utøvende Stat og den dømmende Rett følger ikke opp påbud fra det demokratisk valgte og lovgivende Parlament (Stortinget). Det er som å bli stående 'helt på jordet', selvom 'skigardene' for lengste er til nedfalls og sunket sammen.

Flere sider ved norsk og dansk politikk er omtalt ved deres forrige parlamentsvalg. Potensialer i norsk politikk ble særlig nevnt i UU 2013.okt.04 og UU 2013.okt.11. Dette gjelder selvfølgelig for danskene og øvrige europeere. Men kaldkrigs skigard mentalitet tar generasjoner å overkomme. Dette skyldes kollektive mentale barrierer som nevnt i forrige UU 2015.mai.22. Skigardsvisa er helt klart en metafor for sub-kategorien Superior-ID / Animal Farm (S-I/AF) til den utvidede 3^3 sosialpsykologiske modell (UU 2015.feb.27). En hovedutfordring er dermed at folkeskoler slutter med 'Parroting Pravda', kollektiv Gulag-mentalitet og tilsvarende sosialisering (UU 2013.nov.15). Som nevnt i forrige uke, «I'd rather go blind, rather go deaf, dumb, ignorant and wrong», - som de tre vise aper symboliserer.

Stanley Jacobsen er en visesanger og låtskriver og samarbeidet med forfatteren Ingvar Moe. Stanley er særlig kjent for sine sanger «Skigardsvise» og «Imorgon, imorgon». I 6 år var han trubadur og visesanger på heltid. Nå er Han er utdannet og arbeider som sivilagronom, samt daglig leder for Ungt Entreprenørskap, avdeling Telemark.

Skigardsvise tekst (oversatt fra nova-norsk til bokmål)

Helt inni skogen - der står en skigard, mosegrodd og grå
Den er til nedfalls og sunket sammen
Men som et minnesmerke der den står
En gang var dette et viktig stengsel
Som vernet åkeren mot kvegets tråkk
Men en skigard kan'ke vare evig vet du
Kan aldri vare evig

En gammel skigard - som står og vitner om forsvunnet tid
Det er en saga om gammel storhet
Kamp mot naturen, kamp som er forbi
Nå blir det kjempet på andre fronter
Men nye skigarder, - det har vi likevel
En skigard kan ikke vare evig vet du
Kan aldri vare evig

Hva er en skigard? En skigard er så mye merkelig:

En rad med stokker - satt som et gjerde
Eller et stengsel i (det) ditt (indre) sinn
En gammel fordom, et raseskille
Hat og misunning og (eller) aversjon
En skigard kan ikke vare evig vet du
Kan aldri vare evig

Hvor du så snur deg, det er en skigard mellom før og nå
En skigard er som en landegrense
En skigard (er et) (stengsel for de) stenger mot no'n få
Et hat i hjertet, et klasseskille

En sjalusi, en uvisshet, en krig
En skigard kan ikke vare evig vet du
Kan aldri vare evig

Har du en skigard? Å ja du har nok en, for alle har
En ting en gjerne vil stenge ute
En ting en ikke vil vise frem
Men disse stengsler trengs ikke vare
En skigard kan (du) klatres - om du vil
En skigard kan ikke vare evig vet du
Kan aldri vare evig

Som en overgang til neste UU tema om Danmarks parlamentsvalg, vil hver UU fremover ha en episode av den britiske serie 'Yes (Prime) Minister'. Denne episode 'A Victory for Democracy' som handler om politiske spill fra Ministry of Foreign Affairs (Utenriks departementet / UD). Som nevnt har store, merkelige og uløste kriminalsaker, som Orderud, Breivik og Treholt, sterke relasjoner til norsk UD. Nordisk sett, vises tilsvarende tendenser og politisk apati seg for Ministerrådet og Nordisk Råd (UU 2014.juli.25). Det indikerer at alle 5 nordiske nasjoner lider av samme politiske korrupsjon og at det har et opphav (se forrige UU 2015.mai.22).

Matchstick Sun - I'd rather go blind

2015.mai.22

Ukens Utvalgte

«I'd rather go blind» er en favoritt fra den norske gruppen Matchstick Sun. Gjennom tanker om de ukjente historie bak de nordiske konstitusjoner. Teksten er antagelig inspirert av det 'memes' om 'De tre vise aper', - samt Moskva som stadig forbereder en tredje 'Fedrelandskrig'. I så hensende er året 1864 traumatisk for Danmark. Det ble et feilslått forsøk på revansj etter 1814 og ledet antagelig til 1914 ved startskuddet til Russlands andre Fedrelandskrig. Noen utradisjonelle synspunkter om historien kan for øvrig finnes i UU temaet '1514-1814-1914-2014' i UU 2014.mai.02 til UU 2014.des.19.

Danmark fikk en ny konge med en ny slektstavle i 1863. Prinsesse Dagmar ble forlovet til arveprinsen i Russlands keiserrike. Det var åpenbart et arrangert giftemål siden hun ble gift med broren i stedet da kronprinsen plutselig døde. Følgelig innebar det geopolitiske avtaler for imperiet og nordiske nasjoner. Det synes som ambisjoner fra Tsar Ivans ekspansjon på 1500-tallet og fallet av den Nordiske Union skulle gjenopplives. (UU 2013.Mai.24). En avtale var tilsynelatende at Danmark skulle få gjenerobre Slesvig fra Tyskland. Regionen ble tapt i 1813 etter Russlands første Fedrelandskrig mot Napoleon, hvor Norge gjenvant selvstendigheten imot Russlands, Frankerrikets og Danmarks vilje. Den ferske danske konge ble innbilt at England ville følge Danmark til krig mot Tyskland. Den vanvittige tanke oppsto antagelig i Vinterpalasset - 'Et Dukkehjem'. Katastrofen var selvfølgelig ikke Dagmars skyld, men som tsarina ble hun antagelig brukt av imperiet til geopolitiske og kulturelle Spill i et halvt århundre.

Tsarina Maria Fjodorovna, alias Dagmar, må allikevel ha vært avgjørende viktig forut for krigsutbruddene i 1864 og 1914. Hun ble den eneste overlevende da hele hennes keiserlige familie ble henrettet under

Moskvas statskupp. Dette har selvfølgelig en årsak og er et tabubelagt trauma for både Russland og Danmark. (Noe uortodokse omtaler finnes i UU 2014.mai.30 og relaterte UU.) Uansett kriger, så må hun ha vokst ut fra en borkjemt desillusjonert ungdom til en likeledes dominerende matriark under en langt mere dominerende patriarkalsk kultur. Den danske poet H. C. Andersens, som var nært knyttet unge Dagmar, er særlig kjent for eventyr som fremmer barnlig mentalitet. Andersens fremhevelse foran andre forfattere er en indikasjon på bevisst påvirkning av nasjonal mentalitet i den retning. (Se tidligere omtaler i UU 2013.mai.17, samt dets ekstra UU med omskrivning av eventyret til 'Keiserindens nye Klæder'.)

Det synes tydelig at imperiet ville ha de nordiske nasjoner som sine føydale vasall-stater, - og har aldri gitt opp, - tross all utroverdighet og alle patetiske CdE forsøk. CdE (Coup d' Etat) Spill forutsetter betydelig svekkelse av nasjoners myndigheter, selvstendighet og bevissthet før selve kuppet. Enhver vet godt at europeiske siviliserte demokratier betinger parlamentarisme, menneskerettigheter, fredelige naboer med konstruktive avtaler, solide ordensmakter, infrastruktur, troverdige medier osv. Så blir det så tydelig med opphavet og intensjonene til de sosiopatiske antipatier som fordrer dette, - skult som politikk og pedagogikk og endog poesi og psykiatri. Kaldkrigs-samfunnet dyrket frem sosialklienter. Faktum er at avhengighet ved forlenget mentalt mor/barn-symbiose kan gi de alvorligste psykiatriske diagnoser og bør derfor ikke fremmes kulturelt for mye, - heller ikke på nasjonalt eller imperialt nivå. (Se UU 2014.aug.01.) Sosialisering med jantekulturer er kun et symptom; «(Du/Jeg) Vi skal ikke tro (du/jeg) vi er noe».

I 1864 relasjon synes det hele å fremstå som en variant av LYAHF (Let's You And Him Fight) Spillet, som kan kalles 'Hanekamp i Hønsegård' (3^3 sub-kategori: S-I/AF - Superior-ID/Animal-Farm). Disse omstendigheter vil bli tema i noen kommende UU med anvendelse av de modifiserte sosialpsykologiske modeller 3^3, 5D scenarier og utvidelsen av de klassiske 'Games People Play'. Disse er videreutvikling av Freud & Jungs teorier, samt tilpasning til organisatoriske nivå. (UU 2015.feb.27, UU 2015.mars.06 og UU 2015.mars.13.)

Matchstick Sun var et norsk rockeband fra Oslo på 80-tallet. De fikk kontrakt med BMG og ga ut to plater Flowerground og Itchy Bitchy. Bandet fikk Spellemannprisen 1989 som årets nykommer. Ivar Eidem vant siden Spellemannprisen 1996 for sin solodebut. Opprinnelig er 'Matchstick Sun' symbolet til Hjelpstikkefondet som hjalp blinde barn. Nå bedrer de levekårene for unge, eldre og handicappede. I anledningen kan symbolet også refereres til H.C. Andersens historie om 'Fyrstikkpiken'. Videre antas «I'd rather go blind" å referere til 'De tre vise aper' som er et memes for «see no evil, hear no evil, speak no evil". Teksten er en sterk kritikk av de store militærparader i Moskva, som viser evne og vilje til å starte 'Fedrelandskriger' igjen, - tross benektelse for nettopp dette.

Tekst "I'd rather go blind"

If memory serves me right, I saw you the other night. You were washing your hands in Moscow
If memory serves me right, you were preparing a paperless fight with shimmering steel in the air
If memory serves you right, you saw me the other night. I was watching your arms in Moscow
If memory serves you right, preparing your sleepless nights of shimmering steel in the air.

You said the war was over, the Era has begun.

But what you tell us is your lullabies of paradise

But I can see that lie

I'd rather go blind, rather go deaf, dumb, ignorant and wrong

I'd rather go blind, rather go deaf and dumb and wrong, - ignorant, but I will be strong

If memory serves you right, I saw you the other night; you were Washington's eyes in Moscow
You were (hovering over) the show, I know that you want to go, with the shimmering steel in the air.

Alan Parsons – Chomolungma

Ukens Utvalgte

«Evig og tro til Dovre faller» er et norsk ordtak. Så skjelver Mount Everest (Chomolungma). Hovedstaden Kathmandu er flyttet noen meter og selve fjellet har sunket litt. Uansett, - hverken Everest eller Dovre vil noensinne falle, - og det handler om å være evig og tro uansett. Det er kun et ordtak for en livsverdi.

Norge hadde 200 års Grunnlovs jubileum i fjor. Konstitusjonen har endret seg betydelig med menneskerettighetene i Grunnloven og nye lover som Menneskerettsloven og den europeiske frihandelslov (EEA). Få synes å merke noe til dette på kort sikt. Men i dette århundre, med de langt flere informasjonen, er det på tide med mere realistiske historier om de forrige århundre. Dette er omtalt i Temaet '1514-1814-1914-2014' i UU 2014.mai.02 til UU 2014.des.19.

Chomolungma er navnet som Tibetanerne selv ga fjellet. Det betyr noe som 'Gudinne Mor til fjell'. Navnet var på et kart i Paris i 1733, men George Everest ville ha sitt eget navn. The Royal Geographical Society endret derfor navnet i 1865 og dermed tror de fleste at navnet betyr 'evig hvile'. Likeledes, Dovregubben er ukjent for de fleste, selv om dette musikkstykket er berømt.

Allan Parson er tidligere brukt i UU 2011.mars.04 og UU 2014.sept.12. Hans Prosjekter er ofte basert på kjente verker, hvor han skriver noe personaktig musikk og lyrikk om temaet. Fremføringen gjøres av mer eller mindre kjente artister. Konseptet fungerer som Disneyfisering av klassiske romaner, - det er billig og selger godt. Men resultater er ofte fengende og imponerende.

Denne sang 'Chomolungma' er fra albumet 'A Valid Path' og dedikert nepalernes eget Dovre fjell.

Dette er den siste video i mini-temaet 'Lyd & Visjon' med Animusic. Men selv om animasjonen er fasinerende, viser denne video en skrekkens visjon om musikk-maskiner i et tempel.

Templer er så avgjort steder for 'Sound & Vision'. De bør alltid brukes med de ypperste ressurser for å inspirere til positiv filosofi. Nå som menneskeheten vet adskillig mere om visjoner og illusjoner, bør det

utprøves ved uttrykk utover ord, kor og pumpeorgel. Synthesizede visjoner er oppløftende virkemidler som templer klart bør anvende og videreutvikle utover ordinære forestillinger.

Synthesizere hører absolutt til dagen templer, men anerkjennes dessverre ikke. Det var nok topp moderne med pumpeorgel for århundre siden, men utviklingen har løpt fra teologer også her.

Religion kalles 'den første filosofi'. Templer burde derfor være først og fremst med fremstillinger av 'Sound & Vision'. Filosofier er tross alt studier av generelle og fundamentale gåter om realiteter, eksistens, kunnskap, verdier, tanker, identitet, språk osv. Religiøs filosofi omhandler dermed fundamentale spørsmål om begynnelse og slutt, universet, uendelighet, allvitenskap og allmektighet, liv, positivitet og meget mere.

Spørsmål av disse størrelser er ubesvarlige, simpelthen fordi menneskehetens fatteevne er begrenset.

Dessuten, Tro er ikke vitenskap, men har heller en 50/50 sjans for å eventuelt vise seg sant med tiden.

Religiøse tema er ofte omtalt i UU og kan spores opp fra UU 2015.april.10.

Thomas Dolby deltok i prosjektet 'The Gate to Mind's Eye' i slutten av sin karriere. Dette er et av de mest filosofisk imponerende verket han har laget. Noe i den retning burde templers 'Sound & Vision' være.

De musikalske prestasjoner kan komme litt i bakgrunnen i disse fantastiske videoer. En blir fascinert av ballspillet, selv om en vet det hele er computer animert. Det minner om den slags rullebaner en bygger som barn og som en kan finne på tekniske museer. Men som sagt, - musikken er vel så fascinerende som visjonen. Her er virkelig funky strengeinstrumenter og jazzy xylofoner på gang. Og så er det ingen tekst eller vokalist som forstyrrer 'Sound & Vision'.

Her presenteres personene bak Animusic. Det kan faktisk ta hele 4 måneder å lage en video og er en lang og variert prosess. Så er det respektfullt at musikken til de forskjellige videoer viser et så vidt spekter av musikk-stiler av høy kvalitet.

'Takt uten Tone' blir for ensidig om trommer, når bruken blir så avansert som denne 'Lyd & Visjon' video viser. Det store lydspekteret er nærmest som toner for ordinære instrumenter å regne.

På 80-tallet utbredte tromme-maskinen frykt blant trommeslagere. Foreninger krevde at trommeslager skulle være til stede og få betalt selvom trommemaskiner ble brukt. Trommis-makt er historisk, fordi de var så nært knyttet til militæret. Drummerboys ble omsider voksne og innflytelsesrike. Det kan se ut til å ha virket på et vis, siden trommeslagere fremdeles er viktige band-medlem tross automatisering. Trommemaskiner har omsider blitt et viktig verktøy for trening og komposisjon - til gagn for alle. Denne video viser neppe hva trommeslagere fryktet. Det er faktisk virkelige trommeslagere som laver Lyd selv om Visjon er noe helt annet. Den egenutviklede programvare ANIMUSIC-studio får de animerte trommeslagere til å reagere på MIDI signaler fra de reelle trommeslagere. Det virker ekte.

'Sound & Vision' blir enda en kategori innen temaet 'Pause Musikk', - sammen med 'Da trubadurer fikk elektrisitet' etc.

Det Mekaniske Piano må være et forbilde til denne fremstilling av en mekanisk gitar. Ukjent om en sådan reelt finnes, - men virtuelt fungerer det tydeligvis godt. Faktisk burde det være mulig å realisere siden piano og gitar har sitt samme opphav i harpen.

Virtuell visualisering gjør ens visjoner mere forståelige og kan føre til flere realiseringer av nye ideer.

Hvorfor er denne video så fascinerende? Antagelig fordi det visualiserer noe riktig og viktig vi innerst inne føler. Flere eksempler på originale 'Lyd & Visjoner' vil følge i de kommende UU.

Animusic har spesialisert seg på 3D visualisering av MIDI-basert musikk. Først er de animerte modeller lavet og så programmert til å faktisk følge den musikk som er komponert. Det gir en mere realistisk fremstilling enn andre animasjoner hvor 'tegninger' kun imiterer bevegelser.

Genesis - After the Ordeal

2015.april.10

Ukens Utvalgte

Closing this Charlie theme is to prepare a proper closure of the present Age. All Ages and 'Testaments' have expiration dates. The Old Testament expired 2000 years ago and was replaced with The New Testament.

N.T. and Quran will be replaced by an 'Aquarian Testament' in 2150. However, the transition starts in 2060 and some claim we are already there. Anyways, - this is a unique opportunity to improve and orchestrate human perceptions of values, visions and missions for the millennia to come. This conclusive UU will finalize the reasoning for termination of Islamism's aggressions. Yet, all the thinking has turned the focus to a

meta-view beyond first impressions of this UU theme. Peaks of theories of LQ, 3[^]3, 5D and GHRL will be presented for how the future Testament might be.

There is no drama involved in such a slow transition to a new Age and another Testament. 'Old' and 'New' are meaningless titles for the Ages Testaments, though. Since the Ages are based on zodiac astrology, the previous Testaments should rather be called The Piscean Testament (N.T), The Arian Testament (O.T), The Taurean Testament (BC 4006-2006), The Geminian Testament (BC 6006-4006), The Cancerian Testament (BC 8006-6006) and The Leonian Testament (BC 10500-8000). The recurring upgrade of the writings are innovative and necessary, because increasing knowledge should replace the beliefs that are proved wrong. Values, visions and missions must be adjusted according to new perceptions of realities, - even divinities.

There is no need to go berserk in theocratic warfare based on adjusted foundations and perceptions. The Mayans did not go berserk in their 2012 Age transition, and we should not prove ourselves less civilized. However, there are some fatal biblical mistranslations that 'the end of the Age' is deliberately changed to 'the end of the World'. Still, that is just as childish as all the doomsdays mass-psychosis about 2012. On the other hand, it would be naïve to believe that certain theocrats will not promote war. These Piscean and Arian Ages has 4000 years proof of that. This is a main reason why the Aquarian Testament should not involve Games of GoT and KoC like the previous Ages did. (UU 2015.april.03) It should have a prevention built in like the UN charters have.

The Quran became a major concern in this UU Theme 'Charlie', even though the diluted executors cannot be truly religious. The event led to the conclusion that the available versions of the Quran simply are blasphemous in themselves. It is written that the Prophet Abraham disobeyed God's command to execute his wife's adopted son due to contra-order by a (fallen) angel. The prophet Moses smashed God's 10 commandments, which certainly is blasphemous. Prophet Adam disobeyed God in Eden and was expelled by God. Earlier, 1/3 of the angels in Heaven refused to bow for Adam and was expelled (fallen) from Heaven for that. After the Eden incident, the rest of the angels must have been expelled (fallen) for obeying the disobedient Adam too. Jinns are considered demons in N.T., but the rest of them must have followed their fellow angels in the miserable faith. Besides, "In pre-Islamic Arabia amongst pagan Arabs, Allah was not considered the sole divinity, but having associates and companions, sons and daughters – a concept that was deleted under the process of Islamization. In Islam, Allah has become unique, the only deity, creator of the universe and omnipotent." (UU 2015.jan.30) It is self-evident that the present copies are not like the original, but rather manipulated by sinners, fallen angels, demon jinn or whatever they should be named.

The Quran is not a recognized add-on to the Piscean Testament. As mentioned in UU 2015.mars.27: "The ambition in Roma2 was to build 'Heaven on Earth'. The emperors were promoted to be God's representatives. The theocracy of Roma2 developed a compromise consisting the Trinity of God, humans and spirit, in addition to herds of angels, symbolized with zodiac astrology, Egyptian Isis cults, and Etruscan pontifexes. Yet, Jinns were mostly excluded as evil demons. It all boiled down to a theological stew that anyone should accept." Outside 'Heaven on Earth', in the polytheistic Arabia, there were written some 'alternative testament' including fallen angels and demon Jinns from the failed conquer of Egypt. None of those writings was accepted to the Piscean Testament for obvious reasons. However, 'The Book of Revelation' (The Apocalypse) was added later on like some 'Trojan Horse'. The Mongols were provoked by the cruel punishment for nonbelievers like themselves. Mongols/Muslims formed a joint mission to storm the gates of 'Heaven on Earth' to prevent such misdeeds. They got unexpected help when Roma2 was plundered and seized by 'The Pirates of the fourth Crusade'. They did not manage the city and it became easy to invade. (UU 2014.april.25) Besides, the pirates handed over the coat of Arms of Roma2, 'the double headed eagle' to Moscow, a monk declared Moscow as the 3rd Roma and Ivan was titled Tsar/Caesar. (UU 2013.Mai.24)

Astrologers' interpretations of astronomy is occasionally criticized in UU. Those are certainly not prophecies, but rather guidance for focus areas. It is briefly described as: "The Age of Pisces is mainly of Monotheism and Spirituality, especially characterized by Christianity age. Pisces is associated with the

continuous research of humanity about the truth hidden behind what is perceived by five senses, which corresponds with the mysteries associated with Christ's life. Also like with the previous transition into the Age of Aries, the people were reluctant to evolve into the new thinking of the transitioning age symbolized by the Passion of Christ narrative." (Ref Wikipedia) Monotheism did somehow work in the sense that half of humanity worship one God and not several. There are rather different perceptions of that one God, though. It is hard to say whether people are more spiritual these days, but there must be more collective awareness due to extended population and communication capabilities. Self-awareness and humanity has grown the last 500 years and has become fundamental after the world wars. A most important human quality is the will and ability to forgive those who truly wants to undo wrong. This qualitative feedback of humanism is necessary for Good/Constructive/Right value-systems and progression. Jesus died trying under false accusations of blasphemy.

The Aquarian Testament can be drafted anytime by anyone. It is the recognition that is hard. Unfortunately, history shows that too many unqualified scripts are used. It is easy to see with today's insight on the real future of the past. Some properties on the Aquarian Age is commonly known since it is based on Zodiac astrology. "Astrologers believe the coming Age of the Aquarius affects mankind, possibly by influencing the rise and fall of civilizations or cultural tendencies. Traditionally, Aquarius is associated with electricity, computers, flight, democracy, freedom, humanitarianism, Idealism, modernization, astrology, nervous disorders, rebellion, nonconformity, philanthropy, veracity, perseverance, humanity, and irresolution. Many astrologers consider the appearance of many of these Aquarian developments over the last few centuries indicative of the proximity of the Aquarian age. However, there is no agreement on the relationship of these recent Aquarian developments and the Age of Aquarius." (Ref Wikipedia)

Most of the mentioned astrological properties is as general as any astrological fortuneteller could name. Surely associations to 'electricity, computers and flight' is not ancient or divine at all, - but rather added on lately to preserve some kind of credibility. Zodiac astrology is like any fortune telling occult myths like tarot, enneagram and other fortunetelling tools. However, it can be used as an entertaining and engaging way to set focus on some vital aspects of human Values, visions and missions. It has somehow worked in the past and should not be discarded, - just modified and revealed for what it is and not. Following is some previous mentioned theories about Belief, LifeQuality and Moral philosophy and GHRL.

The theories of Belief was developed significantly in this UU theme: "The Superior-Devine (S-D) is the most complex by far. The properties of the 3[^]3 (3x3x3) social psychological ego-state 'Belief' is not possible to fully describe. It is like the term 'religion', i.e. 'The First Philosophy', and includes fundamental questions about the beginnings, ends, the universe, life, omniscience, positivity and more. The questions of this magnitude are unanswerable, simply because the human comprehension is limited. Besides, Belief is not about knowing scientific facts at all, but rather a realization that the probability is about 50/50 for a belief to turn out true. (Hope concerns unlikely beliefs with about 10% probability to be proved true.) Consequently, claiming to know whether a divinity exist, or not exist, is just as false, and do not concern Belief at all, but rather Games of Will. Such ulterior Games of false Belief are unfortunately common and can be dramatic, as the Charlie Game in Paris 7/1 and Copenhagen 14/2 indicates." "The Belief dimension of the 3x3 model is different from Drive and Will. Freud and Jung called it 'Superior-Ego', while Berne called it 'Parent'. Belief concerns ideas of what we cannot possibly fully understand, yet need to know and trust. Here (in this UU theme 'Charlie', the) focus is set on Belief in Supremacies like the S-E. The Superior-ID (S-I/Drive) was included 2 years ago. Now, the Superior-Devine (S-D/Belief), a new and third subcategory, is included to complete the model. However, with this completion of the theoretical part of this Charlie theme, the (previous) 3x3 model has become a 3[^]3 model, i.e. 3x3x3, because of the 3x subcategories in Drive, Will and Belief." (UU 2015.mars.13)

Moral philosophy is essential and summarized in UU 2015.mars.06. "If the moral, ethics and philosophies of LifeQuality should be put down to a single sentence, - it could be 'I'm OK – You're OK' (ref Thomas A. Harris). It is about tolerance to OK persons, as well as a recognition of oneself. Consequently, it is also about speaking out and making clear statements to 'not-OK' persons, organizations and nations. Next, there should be more awareness about destructive psychosocial Games in order to end them harmlessly

(ref 'Games People Play' by Eric Berne)." Moreover in UU 2014.sept.05: "A healthy human has a mature balance between these three (Id, Ego, Superior-Ego). Therefore it is safe to say that the mental health reflects the personality – whether it is allowed to develop and free to self-realize. However, a suppressed Ego causes unbalance and becomes mentally unhealthy, - in worst cases get mental illness and disorders."

20 years ago, there was a realization that LifeQuality was probably the most important word for any human. Consequently, it should be for human religion too. The LQ UU theme was blogged weekly for a year and developed to 4 sub-themes: 'Basic theory' (from UU 2013.feb.01), 'Empires' (UU 2013.mai.03), 'National', (UU 2013.aug.09) and 'Meta' (UU 2013.nov.08). The final definition is in UU 2014.okt.17: "LifeQuality is defined as: A person's totality of properties and potentials to satisfy stated and implied needs." "Maslow's Hierarchy of Needs shows 5 main categories; Physical, Safety, Social, Respect and Self-realization." The 'stated needs' are similar to the 'Human Rights'. "The 193 UN member-states are obligated to secure their citizens' rights concerning; private properties, self-determination, security, privacy, family, work, education, in addition to freedoms of thought, conscience, religion, expression and more."

Despite knowing that UN has not eliminated warfare of all kinds, the belief that UN's collective conscience has prevented a nuclear ww3 led to the conclusion that any humans need and deserve a Global Human Right Law (GHRL). Also knowing that the UN do not have legal powers to make nations live up to their obligations, the path is multi-lateral NHRL. "All NHRL (National Human Right Laws) should at least include UNC (United Nations Charter) that provides the UN powers to investigate and mediate in international disputes and authorizes international economic, diplomatic, and military sanctions and force to resolve the disputes, - as well as the ICCPR (International Covenant on Civil and Political Rights) and ICESCR (International Covenant on Economic, Social and Cultural Rights)." (UU 2014.okt.17) GHRL has a separate Facebook page and an Avaaz petition page, - however still very pacified.

A quite intriguing opportunity of a new Age is to adjust measures of time. The previous transition to the Piscean Age altered months from 10 to 12, reset the annual counting to zero and marked Julius and Augustus as divine as Roman gods. The zodiac division of time causes constantly difficulties and error compared to universal standardized scientific measures. Days divided into 24-, 60- and 10-number systems is as absurd as astrology itself. 2x10 hours/day, 100 min/h and 100 sec/h is more manageable. Moreover, it is confusing to divide a year into 12 times 28 or 30 or 31 days. Even 'The International Fixed Calendar' of 13 months á 28d/4w is more manageable. Another interesting suggestion from Isaac Asimov simply excludes the moon from the calendar and uses 4 seasons of 91 days each. The simple fact that the earth, sun and moon do not follow any standard numeric systems cause need for periodic adjustments. (UU 2013. jan.04) Moreover, this BC/AD has merely Piscean relevance and do not concern humanity as a whole much. It should be considered to find a starting-year that relevant for the start of human civilization and reset at 2150 to that.

Focus on water, is a main meme for the Aquarian Age. Water should be promoted in any positive ways. Firstly, we are 65% water ourselves, we come from water and is vitally dependent on water. Sufficient, clean water is the very basic for human LQ and will be most vital when we reach 12 billion at the Age shift. However, we have not discovered most Earth area as believed, because 2/3 is undiscovered under the seas. Discovering, exploring and cultivating the water-worlds will require more than an Aquarian Age. Furthermore, real space explorations seem to be taking off and a main component in space is water – mostly frozen though. However, life is seeded, not created on earth which means that comets are potential carriers of lifeforms of any kind, and any planet or moon are possibly seeded too. Most intriguing might be that new rounds of seeding are yet to come and how do we deal with new 'God's creation, - here or in the solar neighborhood. Anyhow, we simply cannot visit another solar system in the Aquarian Age either, - just send some drones with sensors. (The Theme 'Accidental Genesis 2' is in UU 2012.aug.31 to UU 2012.dec.28)

Humanity grows and is at the state like a 3 years old infant. (UU 2014.april.04) The association is based on the tremendous growths in individuals, the telecom, computing and big-data utilizations. The figure of speech is meant to help ourselves realize that even though we personally might have reached adulthood, -

humanity has not and goes through tremendous inner changes we ourselves long ago forgot. Most vital, there are ongoing and upcoming opportunities, challenges and dangers of crucial outcomes. We can, if we will, influence the outcomes. The changes humanity goes through is when an infant's neural system finally is developed, the senses fully connects to the brain and ability to sense, think and response is possible. We adults know it is important what is done and not. The outcomes are influenced on how we help or not. However, there is no adult humanity yet. What to do about that for the millennia to come? A global language that anyone understand is required. Any nation – any school could agree on that and start teaching right now.

Realizing prospect of an Aquarian Testament was a personal mind changer just some days ago. It might be so for others too. The Testament's quality depends highly on the first abstract drafts. Quite understandable, it will take a lot of time and information to think such through. Imagine humanity's state in 3000 AD is necessary to pass halfway. What will be important and not, lies within futurologists and not ambitious rivals of Thrones, States and Temples. There will also be rivalries toward the Aquarians, like there were between Pisceans, Arians and Taureans. Their psychosocial Games might escalate from 4th degree (war) to 5th degree (apocalypse). Elementary acknowledgement of basic human social psychology should be preventions enough to reduce to 3rd degree.

In order to make Testament applicable for 2000 years, there is required futuristic imaginary skills beyond any individual. Reasonable Collective philosophical will might be enabled this century. Such is imagined in the epic saga by Isaac Asimov called 'Foundation' and is called 'Psychohistory'. The hypothesis is that it might be possible to predict the socialpsychological outcomes for large masses over long time, - even though individual psychohistory is impossible. Most fortunately, the Foundation is now to finally be filmed as a TV series on HBO this year. The 5D model was inspired by that science fiction to realize maps of alternative social-political futures and pasts. It is explained in UU 2014.sept.12. It is integrated with the 3[^]3 model (UU 2015.mars.13) that is based on theories of Freud and Jung. It is not fully developed yet and can of cause be modified to several uses. However, the main purpose is to evaluate false history to find truths and imagine alternative future options.

5D futures and pasts have been issues in UU for years and can be read about of those who search. The 3[^]3 5D model will be prepared for a separate UU theme called 'The Aquarian Testament'. For now, the most urgent 5D task is to realize GHRL.

Finally, not to forget a basic question for this UU Theme 'Charlie'.

Qui est Charlie? (Who is Charlie?) It is not a person, but a collective conscience (Je suis Charlie). Archetypes are like Chaplin. The social psychology of Charlie was like a childlike Nerd (Id) opposing the Parent (Superior-Ego) in a dual-Game Schlemiel (provocation) - NIGYYSOB (Now I've Got You, You Son Of a Bitch). God damn it.

Do not shoot (or crucify) humanity's messengers – and blame God for it.

That is blasphemy.

Genesis is a favorite band from the youth. I got to know the original band about the period of 'Selling England by the Pound'. This instrumental masterpiece 'After the Ordeal' shows what art-rock is. The title indicates that it is time to heal from the traumas and improve. Do not repeat mistakes too often, - that is idiocy. Do not escalate repeating mistakes – that is pure evil.

Most of the original Genesis albums are now available on YouTube for anyone to enjoy.

John Foxx is one of the talents that at a point in time falls from his band and starts anew for himself. He was the front figure of Ultravox when the foundation for a breakthrough was made. Then, he wants to do it all by himself, - with real synth sound. He made several impressive pop-rock albums with original music, sound and lyrics. However, he never got the breakthrough he deserved. Then he made a very different double-album called 'Cathedral Oceans'. It sound like meditation music. Frankly – I have not heard it all even though owning a copy. However, as futuristic as he is, - it suits well to the idea of an Aquarian Testament. All we now need are gills, - not wings. I would have put 'An Ocean We Can Breathe' first if there was an ok video and lyrics available.

SAGA is a Canadian art-rock group that had its break-through in the 80'. The band is most known for the early works where the members showed their special instrumental talents and even sometimes switched instruments with each other. This song is done entirely by the keyboardist, - the playing, the singing and even the clarinet part. The lyrics is a reminder, - a future peak at our present from our past. The answer is obvious, - yes, there are regrets. We are not collectively suicidal, but want an OK LQ.

The New Testament is 500 years beyond the Quran. This video shows an ironic way of what has become of some Christian 'Imams' and what can be expected of future Islamism Imams, - Calif wannabe. The person in the video uses Jesus as his product. Some future Imams might use Muhammed as their money and pleasure machine too. Just substitute 'Jesus' with 'Allah' in the lyrics. No surprise - history repeating. It can all be a fishy business, while gone fishing.

Such critics are not blasphemy, but probably heresy towards certain blasphemous theocrats. Such critics are not blasphemy, but probably heresy towards certain blasphemous theocrats.

Jesus Christ Superstar - John Nineteen: Forty-One

Ukens Utvalgte:

'The greatest crime mystery of all' at Easter's Good Friday is a main UU topic every year. However, this time, the mysteries of the past are revealed to set the focus on challenges for the coming century. In order to do so, a new Game called 'Osiris' is introduced. The spoiler is, that this archetypical 4th degree Will Game is not of true Belief, but of KoC (King of the Castle), where the father Osiris is scarified to crown Isis' new son Horus. However, 4000 years ago, the Game turn out to be chaotic never-ending rivalries of CdE (Coup d' Etat) and GoT (Game of Temples). The Charlie event of Paris 7/1 is a simple indication of the quasi-religious never-ending warfare.

There are mixed feelings and attitudes in breaking these ancient truths. It is like telling the truth about Santa Clause before Xmas. No offence, - this is not about spoiling good ritual traditions, but telling mentally

Adults in time to take adult responsibility. Like Christian adults know that Xmas is a mix of several beliefs, - it is time to realize that the second part of the ritual, Easter, is just as mixed up. Both are influenced by astrological clockwise phases, by human rivalries and by Belief in Superior-Devine deities. Nevertheless, as St. Clause is a myth, Horus is too (UU 2015.mars.06). However, the two previous shifts of Ages turned out to be 4th degree Games of warfare and might elevate to 5th degree in next century's Age shift. Social Adult ego-states, not Superior-Ego/Child, is required to handle those unavoidable rivalries. Psychosocial Game analysis based on realities are necessary to minimize negative effects of the inevitable next Age. It might even be turned to Good Games. The following will reveal several unorthodox views on biblical history. Then it will be put in context of 3^3 Games. The conclusions will come in the final UU in this Charlie Theme.

The European Christian culture started with the reset of years to zero and by adjusting the calendar months to the zodiac 12-system. As mentioned in UU 2015.feb.13: "There are some astonishing astronomical measures and maps the pyramid-people made at both continents (Africa and America). The Egyptians pointed out that the Sun seems to turn on 21/12 and rise again on 24/12. The Egyptians figured that before each Era/Age (2150 years) the three stars in the Orion's belt, and Sirius, points to the Sun's 'resurrection' in a new star constellation. Before Moses' Age, there were the Taurus (ox), the Aries (ram) for Abraham/Moses, the Phishes for Jesus and there will be an Aquarius (waterman) about the year 2150 AD." However, the year for the Age shift is uncertain because of the long time of an Age, the uneven sizes of the constellations and the unclear borders between them. The year 2150 AD is the best estimation, but numbers between 2062 and 2680 are proposed. The tool used in Greco/Egyptian astronomy is the zodiac cross. The Earth passes 12 signs/constellations in a year; there are four seasons and 12 moon phases. Astrologers personified the constellations with properties of nature, humans and gods. Sun is the center, as an additional symbol. The Sun's resurrection through all the zodiac astrological signs take about 25,920 years. Egyptian monuments show that they have worshiped this for at least 10,000 year.

The astrology became such an obsession to the Egyptian that they literally made images of Heaven on Earth and considered them as inter-related. The three Great Pyramid of Giza were constructed to mirror the three stars in the constellation Orion's belt. They were built about 2550 BC, as a preparation to the Sun entering the new Age Aries (ram). The city Heliopolis 'Sun city' was sited close to today's Cairo by the Nile. Thereby the Orion's belt, Sirius and the Sun was cited in relation to the Milky Way (the Nile). Heliopolis, that was the chief cult center of Ra (the Sun god), was seen as the first being and the originator of the Ennead, consisting gods like Shu and Tefnut, Geb and Nut, Osiris, Set, Isis and Nephthys.

"The Osiris myth is the most elaborate and influential story in ancient Egyptian mythology. It concerns the murder of the god Osiris, a primeval king of Egypt, and its consequences. Osiris's murderer, his brother Set, takes his throne. Meanwhile, Osiris's wife Isis restores her husband's body, allowing him to later conceive a son with her. The remainder of the story focuses on Horus, the product of the union of Isis and Osiris, who is at first a vulnerable child protected by his mother. Their violent conflicts end with Horus's triumph, which restores order to Egypt after Set's unrighteous reign and finally Osiris' resurrection. The myth, with its complex symbolism, is essential to the Egyptian conceptions of kingship and succession, conflict between order and disorder and death and the afterlife." (Ref Wikipedia) However, Abraham and Moses irreversibly disrupted the Osiris Rituals when Persia tried to conquer Egypt with Games of KoC and GoT. It went completely out of anyone's control, when entering the Age of the Phishes in year zero. It became a CdE rivalry between Egypt, Persia and Roma that escalated instead of settling.

Isis is the main winner in the Ritual script, - if the resurrect of Osiris fails. The Isis deity survived as the origin of Christian Mary the virgin and 'Madonna and Child'. As mentioned in UU 2015.mars.27: "Isis is the main goddess from the polytheistic pantheon of Egypt. She was first worshiped in ancient Egyptian religion and later throughout the Roman Empire and the greater Greco-Roman world. Isis is still widely worshiped by many pagans in diverse religious contexts." "Isis was worshipped as the ideal mother and wife as well as the patroness of nature and magic. She was the friend of slaves, sinners, artisans and the downtrodden, but she also listened to the prayers of the wealthy, maidens, aristocrats and rulers. Isis is often depicted as the mother of Horus, the falcon-headed deity associated with kings and kingship. Theologically, Isis was the first daughter of Geb, god of the Earth, and Nut, goddess of the Sky. She married her brother, Osiris, and

she conceived Horus with him. Isis was instrumental in the resurrection of Osiris when he was murdered by Set. This myth became important during the Greco-Roman period (of Roma1).” The Isis cults are thereby closely related to occult mythology, astrology and the Enneagram. “Additionally, the popular topic of Isis suckling her son Horus lived on in a Christianized context as the popular image of Mary suckling her infant son Jesus from the fifth century onward.”

“Set and Horus were often contrasted in art to represent opposite principles, such as good and evil, intellect and instinct, the calm and the sensible, the ‘silent one’ and the impulsive, and so on. One description of these two characters calls them the Horus-type and the Set-type. Yet the two gods were often treated as part of a harmonious whole and some cults worshipped them together. Both Isis and Nephthys were seen as protectors of the dead in the afterlife, because of their protection and restoration of Osiris's body. Isis, as Horus's mother, was also the mother of every king according to royal ideology, and kings were said to have nursed at her breast as a symbol of their divine legitimacy.” (Ref Wikipedia) The Osiris myth started in Egypt about 3000 BC and the story and symbols are still preserved as drawing on the walls of Luxor.

A brief summary of the Bible versions: “The New Testament is an add-on to the Old Testament, - the Hebrew Bible. The Greek New Testament discusses the teachings and person of Jesus and the first Christianity. Christians regard both the Old and New Testaments together as sacred scripture. N.T consists of 27 books, where the original texts were written in the 2 first centuries, generally in ‘Alexandrian’ and Byzantine Greek (330BC-600AD). N.T. consists of as letters from the Apostle Paul (early 2nd century) and the Canonical Gospels of Matthew, Mark, Luke, and John (late 2nd century as the Four Gospels). Over time, some disputed books, such as the Book of Revelation and the Minor Catholic (General) Epistles were absent. Other works earlier held to be Scripture were excluded from the New Testament, such as 1 Clement, the Shepherd of Hermas, and the Diatessaron. The Old Testament canon is not completely uniform among all major Christian groups like the Roman Catholics, Protestants, the Greek Orthodox Church, the Slavic Orthodox Churches, and the Armenian Orthodox Church.” (Ref Wikipedia) The N.T. does barely consist of any original writing and none of Jesus at all. A main reason is the religious and ethnic genocides dedicated the Roman Jew Paulus. It might be the source to the Judas myth in N.T. As mentioned in UU 2015.mars.27, the main objective of Roma2 was to produce a theocratic compromise after the fall of Roma1, - not to tell the historical truth. “Meanwhile, the theocracy of Roma2 developed a compromise consisting the Trinity of God, humans and spirit, in addition to herds of angels, symbolized with zodiac astrology, Egyptian Isis cults, and Etruscan pontifexes. Yet, Jinns were mostly excluded as evil demons. It all boiled down to a theological stew that anyone should accept.” However, pre-Islamic Jinn worshipers were probably not pleased.

The Old Testament tells about Persian attempt to CdE (Coup de ‘Etat) like KoC (King of the Castle) Games in new GoT (Games of Temples) concepts. It might be called CdT (Coup de Temple). Some background for Persia/Egyptian rivalries are from UU 2015.feb.13: “The prophet Abraham is an archetypical patriarch of the 3 monotheisms; Judaism, Christianity and Islamism. In brief, Abraham was sent from Persia (Mesopotamia) to rule some newly conquered land from Egypt about 2000 BC. There was a royal reception in Egypt where Abraham brought Sarah. It is unclear what their goal was and what really happened, except that Sarah became sterile instead of pregnant. Back home, Abraham got his firstborn son Ishmael with the Egyptian ‘slave’ Hagar. Sarah expelled them and they might have returned to Egypt and formed a Persian-Egyptian family branch. However, the person Moses and the events are disputed when compared to other writings at that time.” “Moses is the main prophet of the Old Testament and important to the Torah, New Testament and the Quran. It is however not certain that Moses was a single person, when he lived between 1300-1600 BC or that he even existed. Nevertheless, the books tell that Moses was adopted into the Egyptian royal family and raised by Egyptian royalists. He was the sole survivor after all newborn Hebrew boys were killed to avoid prophesies of uprisings. However, Moses’ tribe served as slaves for 300 years and were quite discontent about their faith. Prophesized or not, there were uprisings that included plagues, poisoning and child slaughter, including the Pharaoh’s son (the 10 plagues of Egypt). UU 2015.feb.13.

Persia did finally conquer Egypt with the 'holy cats' tactic in battle in 500 BC (UU 2015.feb.13). However, 200 years later, Alexander 'the Great' of Greece conquered both Persia and Egypt by simply beheading the Persian king. The Greek Ptolemaic dynasty was considered the Savior of Egypt and a royal divinity. Greeks modified the Egyptian astrology to the Enneagram for KoC and GoT Games.

The relation between the Christian Jesus and Egyptian Horus are described very well in the online video 'Religion Comes From Ancient Astrology and Sun Worship' (see video link below): Horus was born on 25/12 by a virgin, there was a star in the east next to 3 kings. Horus was a teacher at age 12, 'baptized' at 30, had 12 disciples, performed miracles, named 'lamb of god', 'the light', was crucified, dead for 3 days and resurrected. Jesus is one of many variations of the myths. Jesus was born of a virgin on 25/12. Astrologically Sirius is the brightest star and east of 'Orion's belt' which symbolizes the three kings. 25/12 is the 'birth of god's sun' at winter solstice. 'Mary the virgin' is the constellation Virgo and she is symbolized with a wheat in 'House of Bread' at harvest. Bethlehem translated means 'House of Bread'. Furthermore, the Sun turns ('dies') on 22-24/12 under the southern Crux (cross) constellation. On the 25th the Sun turns and resurrects. Symbolized, the Sun is dead for 3 days, born again and resurrected. However, resurrections are ritually celebrated 3 month later, on 'spring equinox' 'Easter', when the Sun overpowers the darkness - the day becomes longer than the nights.

Furthermore from the video: "Some symbolic references to the zodiac Age Phishes is that Jesus fed the people with 5 loaves of bread and 2 fishes. Fishermen followed him to catch more 'fishes'. He refers to a man with a picture of water (Age Aquarius), when asked who to follow when he was gone. Moreover, the O.T. myths of Moses are directly taken from Egyptian mythology where Sargon sailed on the river and was adopted to the royal family. The 'Book of Dead' tells about the Egyptian lawgiver Misis. All in all, - the Bible adopted most Egyptian myths about; final judgment, virgin impregnation (by the god Neth), virgin birth, resurrection, crucifixion, ark of covenant, circumcision, the 'Savior', holy communion, the Great Flood, Easter, Christmas and the Passover. However, there is a widespread and grave falsely translation of 'the end of the Age' to 'end of the world'." This fatal mistranslation is used in apocalyptic self-destructive text like 'The Book of Revelation' (The Apocalypse) by John the Evangelist. Nevertheless, to Muslims, Jesus is a bringer of scripture and was born of a virgin, but neither the Son of God nor the victim of crucifixion. However, Muslims believe Jesus was physically raised into the Heavens by God. Judaism rejects the Christian and Islamic belief that Jesus was the awaited Messiah, arguing that he did not fulfill all the Messianic prophecies in the Tanakh.

Cleopatra of the Greek/Macedonian Ptolemaic dynasty, was the queen of Egypt when a new Age was about to start. She was obsessed by strengthen the powers by revitalize the Egyptian/Greek alliances. For her, the only way was to play out the Osiris Game and have an heir with Roma's self-proclaimed emperor Julius Caesar. On the other hand, to this round of a new Age, there were hard opponents in Persia, Egypt, Greece and Roma. Who did what and not, will forever be uncertain, but some main events are essential.

"Caesarion, 'little Caesar' or Ptolemy Caesar, was the last king of the Ptolemaic dynasty of Egypt, who reigned jointly with his mother Cleopatra VII of Egypt from 44 to 30 BC as the sole pharaoh. Cleopatra insisted that he was the son of Julius Caesar, but Caesar did not officially acknowledge him. However, Julius may have allowed the use his name. Cleopatra hoped that her son would eventually succeed his father as the head of the Roman Republic as well as Egypt. Cleopatra and Caesarion were Caesar's guests in Rome for two years, but had to escape to Egypt when Julius was ritually executed. Caesarion was named co-ruler by his mother at the age of three, with Cleopatra keeping all actual authority to herself. Cleopatra compared her relationship to her son with Isis and Horus." (Ref Wikipedia.)

"Marcus Antonius became Cleopra's husband after Julius' execution. He continued to grant various eastern lands and titles to Caesarion and to his own three children with Cleopatra. Caesarion was proclaimed a god, son of god and "King of Kings" in 34 BC. This grandiose title was 'unprecedented in the Roman relationships' and could be seen as threatening the 'greatness' of the Roma. Antony declared Caesarion to be Caesar's true son and heir. It was most threatening to Octavian/Augustus who's power was based on his status as Julius Caesar's grandnephew and adopted son. Caesarion disappeared in 34 BC, but reappeared 30

BC when Augustus invaded Egypt and searched for him. Augustus captured the city of Alexandria and officially annexed Egypt to the Roman Republic. It is unclear why and how Antony and Cleopatra died, but Augustus was the sole winner of it all. The causes of the children's deaths is also unclear due to missing documentations. A likely explanation is that Caesarion's guardians were lured by false promises of mercy into returning Caesarion to Alexandria to take the kingdom. (Ref Wikipedia.)

Some more interesting info is found in an article called 'Caesarion: The Greatest Story Never Told': "The 'Caesar's Comet' was known to ancient writers as the Sidus Iulium ("Julian Star") or Caesaris astrum ("Star of Caesar"). The bright, daylight-visible comet appeared during the festival Ludi Victoriae Caesaris on 44 BC, four months after the assassination of Julius Caesar. (Julius was titled god after his death.) The comet was then believed to be the soul of Caesar." (Note that comets' return is predictable for skilled astronomers.) "There are indisputable similarities between the Egyptian theology about Osiris, Isis and Horus and the epic story about Julius Caesar, Cleopatra and Caesarion. Just like the evil Seth cut up Osiris' body into fourteen pieces, Caesar was killed by multiple stab wounds. Cleopatra fled Rome and served as the protector of her son Caesarion much like Isis served a healer of the sickly Horus." The N.T. says that "the devil showed him all the kingdoms of the world and said, 'I will give you all their authority and splendor, for it has been given to me, and I can give it to anyone I want to. So, if you worship me, it will all be yours.'" Such a temptation made sense being put forth to ex-Emperor Caesarion, but not for a poor ex-carpenter." (If so, 'the devil' was probably Augustus that made a final offer to Caesarion for settlement.) "Similar to Isis, Cleopatra was said to possess great curative powers and healing wisdom learned within the Egyptian Mystery Schools. Horus was such a sickly child that it was only through his mother's restorative powers that he, not only survived, but thrived throughout his reign as god of the king and sky throughout ancient Egypt. Cleopatra probably schooled Caesarion in the same healing practices and disciplines." "Caesarion had a younger twin brother and sister Alexander Helios (Sun) and Cleopatra Selene (Moon). Alexander was also known as Didymus or Thomas (which means 'the twin')." The twins' names 'Sun' and 'Moon' was certainly given suite the prophesy.

Some previous personal comments are translated from UU 2013.des.27. "It might seem that the republican State Roma1 wanted to get rid of any (foreign) theocracy as a consequence of Julius Caesar's flirt with Egyptian religion. In fact, Julius was a revolutionary warlord that seized emperor power by invading Roma and do a coup d'état. He got a son Caesarion (Horus) with the Egyptian/Greek queen Cleopatra (Isis), that would be the sole heir of a united Roman/Egyptian empire. Consequently, the republican senate would be submissive to Egyptian theocracy (and a superior theocratic power against the pre-Islamic Persia). The new 2150 years New Age of Phishes would start with a united regime with Julius as a divine supremacy, - he thought. However, it is quite unlikely that he knew the whole Osiris myth, - the part where he is destined to be chopped up in 14 pieces by Seth and replaced by his son Horus. (However, Augustus probably did, since he was educated in theology..) Cleopatra tried the same with Antonius, when the Game failed with Julius. Emperor Augustus, the adopted son of Julius, was most likely responsible for the execution of the Cleopatra's family and secured his own position as an autocratic dominance of both Roma and Egypt. The Osiris cult was terminated by Roma2 about year 600 AD, right after the fall of Roma1 and the new Christian Roma2. Nevertheless, - Christianity is basically Osiris theology in the Age of the Phishes."

Some more comments seem to be valid. The biblical expression 'the whore of Babylon', seems to be dedicated Cleopatra by some republicans, Persians, Egyptians and Jews. It might have been Julius' Antonius' and Cleopatra's plan all along to invade Roma in a CdE Game. The execution of Julius in the Roman senate was a necessary part to fulfill the Osiris Ritual. However, who would gain the most besides Cleopatra? Marcus Antonius, - Cleopatra's lover and co-ruler to be. Nevertheless, since such a new Age Osiris Ritual, a Coup d' Throne, means a new royal family, - it also means mass genocide of all the previous related families and servants. This is evident in both G.T. and N.T. where mass-assassination of first-borns was executed in the Moses tribe, the pharaoh's empire, the Jews after the birth of Jesus, - and the Cleopatrian family tree. Finally, today's papacy conquered the most by merging Etruscan and Egyptian theocracies into today's Catholicism. The Pope was originally called Pontifex Maximus.

Neither State, Throne nor Temple could accept this new 'son of god' and 'king of kings'. They would risk losing all to powers to something very uncertain. However, none could punish him, because no wrong was done. Even so, the execution was fulfilled by the State, with the other's silent acceptance. Anyways, Good Friday is and will be the theocratic absolute climax. Related to this Osiris Game, there are several other psychosocial Games at play simultaneously, like IFWY (If It Weren't For You), WAHM (Why does this Always Happen to Me?), SWYMD (See What You Made Me Do), UGMIT (You Got Me Into This), LHIT (Look How Hard I've Tried), ITHY (I'm Only Trying to Help You), RAPO og LYAHF (Let's You and Him Fight). The short version is that it started with the Game Schlemiel (provocation) and ends with NIGYYSOB (Now I've Got You, You Son Of a Bitch). (UU 2012.april.05 and UU 2013.mars.29) Some other newly defined Games are ODAB (One's Death Another's Bread), DAC&UAC (Devide&Conquer & Unite&Conquer), TLM (Two Little Maids), ISR (It Started with the Retribution), ABD (Attack is the Best form of Defense), BGGG (Bad Guy, Good Guy), RPPP (Robbing Pete to Pay Paul), ODAB (One's Death – Another's Bread) and BYOOWFY (Beat your Own and Others will Fear You). (2015.mars.06)

Nevertheless, this never-ending Game of Osiris is basically not part of the 3^3 social psychological state Belief, but rather of Drive and Will. As mentioned in UU 2015.mars.13, the new 3^3 social sub-categories for the ego-state Belief are: UNO (Universal Natural Order) a UB (UnderConscience Belief) sub-category of Drive that relates to S-I (Superior-ID). WoW (Well of Wisdom) a CB (Conscience Belief) subcategory and related to CW (Conscience Will). SET (Supreme Extra Terrestrial) an OB (OverConscience Belief) sub-category of Belief that relates to S-D (Superior-Devine). However, even though the original intentions in Egypt was of true Belief in UNO and SET, the rivalries with pre-Islamic Persia turned out GoT (Games of Temple) and to CdC (Coup d' Castle), CdS (Coup d' State) and CdT (Coup d' Temple). True Belief was not the motive for neither Julius, Cleopatra, Antonius nor Augustus, - but rather a Game of BTO (Breed Them Out). The never-ending rematches have become retributive Oedipus and Electra obsessions. Some hints to present Osiris Games are about Seth related Games of Napoleon (UU 2014.mai.16) and Hitler/Stalin (UU 2014.dec.05). There seems also to have developed a Game that can be called 'Get Seth' that is related to the Game 'Genocide', which is rather an excuse to kill them all while hunting a single person.

'Witch hunts' seem to be a spin-off Game of Osiris, and especially cults of Cleopatra. It is a test to prove the possession of healing power as claimed by Isis or Horus. It is a Damned-if-I-Do-Damned-if-I-Don't (Did-Dnt) Game. The victim is exposed for lethal danger like poisoning, crucifixion, drowning, burning etc. If the victim cannot heal oneself - it dies. If it can heal oneself, it is executed for witchcraft. That is probably what happened to the Cleopatra's, Julius's, and Romanov's families. However, a most fatal misinterpretation of the coming New Age happened in the Winter Palace after the 1908 Tunguska event. The following Osiris Games ended the tsar family's reign after 300 years. It started about 250 years too early. See UU 2014.mai.30 called 'Messiah Ward' / 'Tsarina Dagmar's last meeting with Agent Rasputin'.

Jesus Christ Superstar is the very first album I had, - and must have heard it 100 times – at least. The text is written by Tim Rise, as well as the lyrics to the ABBA musical Chess. The N.T. text of John 19:41 is: "Now in the place where he was crucified there was a garden, and in the garden a new tomb in which no one had yet been laid." That is a vital part of the Osiris Games, - finally RIP.

Monty Python's Life of Brian is a 1979 British comedy film starring and written by the comedy group Monty Python. It tells the story of Brian Cohen, a young man who is born on the same day as, and next door to, Jesus Christ and is subsequently mistaken for the Messiah. The film contains themes of religious satire that were controversial at the time of its release, drawing accusations of blasphemy and protests from some religious groups. Some countries, including Ireland and Norway, banned its showing, with a few of these bans lasting decades. The filmmakers used such notoriety to benefit their marketing campaign, with posters in Sweden reading 'So funny, it was banned in Norway!' The film received a 96% 'Fresh' rating on Rotten Tomatoes with the consensus 'One of the more cutting-edge films of the 1970s, this religious farce from the classic comedy troupe is as poignant as it is funny and satirical', and it was named "greatest comedy film of all time" by several magazines and television networks.

Iznogoud – I Wannabe Caliph instead of the Caliph

2015.mars.27

Ukens Utvalgte

It is time for a movie called 'Life of Brian 2', - a sequel about self-misguided followers. The simple fact that ISIS is the main Egyptian goddess and a main opponent to Islam provides enough ideas for a Charlie-style script. Besides, the French cartoon Iznogoud, a Caliph Wannabe, has some IS related magazines, movies and songs. Still, knowing the real 'Killing Fields' of Maoism, Monty Python might not be able to make a comedy concerning the 'Killing Fields' of Islamism. Interesting enough, no threats or fatwas have ever reached those cartoonists, - simply because such actors are not considered divine at all. A Caliph Wannabe of ISIS, - what a blasphemous practical joke.

Just to get the basics straight: "A caliphate is a form of Islamic government led by a caliph, a person considered a political and religious successor to the prophet Muhammad and a leader of the entire Muslim community. After Rashidun, the successor of Mohamed, there were many inherited monarchies that claimed to be caliphates. The Sunni branch claim that a Caliph should be elected by Muslims or their representatives. The Shia branch claims a Caliph should be an Imam and Muhammad's direct descendants. ISIS declared itself a Caliphate in 2014, but is not accepted by any country at all." (Ref Wikipedia). Conclusive, any Imam is a despotic caliph wannabe and intent to annex the residential nation, overthrow its government, annul the national law and take autocratic powers over the State, Throne and Temple. This is napoleonism (UU 2014.mai.16) and janissarism (UU 2014.jan.10) that violate the most serious paragraphs of any national penal law. Hesitation by authorities to act on the law is violations of the penalty law too.

On the other hand: "Isis is the main goddess from the polytheistic pantheon of Egypt. She was first worshiped in ancient Egyptian religion and later throughout the Roman Empire and the greater Greco-Roman world. Isis is still widely worshiped by many pagans in diverse religious contexts." "Isis was worshipped as the ideal mother and wife as well as the patroness of nature and magic. She was the friend of slaves, sinners, artisans and the downtrodden, but she also listened to the prayers of the wealthy, maidens, aristocrats and rulers. Isis is often depicted as the mother of Horus, the falcon-headed deity associated with kings and kingship. Theologically, Isis was the first daughter of Geb, god of the Earth, and Nut, goddess of the Sky. She married her brother, Osiris, and she conceived Horus with him. Isis was instrumental in the resurrection of Osiris when he was murdered by Set. This myth became important during the Greco-Roman period (of Roma1)." The Isis cults are thereby closely related to occult mythology and astrology related to the Enneagram. "Additionally, the popular topic of Isis suckling her son Horus lived on in a Christianized context as the popular image of Mary suckling her infant son Jesus from the fifth century onward."

It helps to understand Roma3/Moscow and its heritage from Roma2 to understand the theocratic history. The following three paragraphs provides translated summaries from UU 2014.april.25. "There was a highly questionable constitution of Rome3 based on a monk's statement (UU 2014.mai.02). Theocratically, Roma1 fell due to loss of collective faith after the Vesuv apocalyptic destruction of Pompeii. It caused collective belief that all divine evils joined forces to punish Roma1. There was a theocratic revolution from roman pantheism to Christian monotheism. The ambition in Roma2 was to build 'Heaven on Earth' and the emperors were promoted to be God's representatives, but became consumed with own narcissism. Meanwhile an even more self-centered generation of monotheistic Islam grew in Persia. The Caliphate was extremely expansive and aggressive. Consequently, the real world outside Roma2's 'Heaven on Earth' became the 'dark middle ages'. The wars of plagues ruled for 300 years with following civil wars, hunger, anarchy and white slave trade. The crusades were as devastating and ruining for the Christian Europe as the Islam Persia. Meanwhile, the theocracy of Roma2 developed a compromise consisting the Trinity of God, humans and spirit, in addition to herds of angels, symbolized with zodiac astrology, Egyptian Isis cults, and Etruscan pontifexes. Yet, Jinns were mostly excluded as evil demons. It all boiled down to a theological stew that anyone should accept."

"Marco Polo was far more important to the fall of Roma2 than common history tells. The Mongolians occupied Beijing in 1213 and Marco was in a group of European observers, counselors, priests for Kublai Khan for decades. They provided in-depth knowledge about European societies, religion, technologies, weapons and warfare. Marco even told about powerful persians that produced 'assassins' of kidnaped and drugged men. Finally, Marco became free when escorting a Chinese princess to a Persian prince for marriage. The journey was fatal for Marco and the crew. However, finally he reached home to Venice, but was arrested for treason. His stories were written by a cell mate." (UU 2013.juli.19.) Besides, the Chinese were bonded by opium from 'the middle east' about 1001 years ago, long before some Europeans became involved in some Asian drug-traffic.

"The crusades were first arranged with Roma1 State soldiers. European Thrones supported them, when the Muslim caliphate conquered Egypt, Jerusalem, Syria and other important middle-eastern regions. However, the fourth crusade was fatal. Some 'pirates of the fourth crusade' attacked the Christian Roma2 instead of the Muslim Egypt. Roma2 was plundered to ruins and could not rise again under the following chaos. The crusaders failed to administrate the city so decay and the final fall was unavoidable. The crusaders' actions and faiths are full of mystical Games. However, they might have known about Marco's tales and seen the coming Muslim/Mongol invasion, - or simply did the preparations. They might have wanted to save treasures and spread them to European temples and thrones prior to the joint Khan/Caliph attack. The 'Da Vinci Code' is merely one example of some dramatic Games at play." (UU 2014.april.25)

"The Ottoman (Sunni) Caliphate became the de facto leaders, representative of the Islamic world and defender of the Holy Cities of Mecca and Medina. Starting with annexation of Edirne, the empire grew to Anatolia, most of the Middle East, North Africa, the Caucasus, Constantinople (Roma2b), and deep into Eastern Europe." (Ref Wikipedia). Moreover from UU 2014.dec.12: "Large-scale assimilation programs were set in motion after the Muslims invaded Roma2 (UU 2014.april.25). The Muslim got 10% tax while the Christians got 50%. Most infamous is the Janissaries (i.e. 'new soldier'), an elite corps of slaves recruited from young Christian boys. The number of Janissaries grew to 49000 at the most and hey fought other Christians in Europe brutally. However ironically is the massive increase of Janissaries (music) corps in the Nordic folk-schools and LO (SU related oligarch trade union) during the Cold War. Too few seem to know the real history and missions, though." (UU 2014.jan.10.) (UU 2015.jan.30) The current relation to neo-Roma3, neo-Mongolia and neo-Persia is daily in the news, although slightly different.

Maybe the most alarming aspect of 4th degree sociopolitical Games, are the willingness to alter and abuse peoples psyche with drugs and NLP (Neuro-linguistic programming). As mentioned above, the Egyptian Isis cults are closely related to occult mythology and astrology associated to the Enneagram and the occultism of Gurdjieff (UU 2013.april.12). Such abuses are talked through in UU 2014.aug.01, UU 2014.dec.19 and will be further discussed in the future. However, legal anti-psychotic drugs (anti-dopamine) might cause need

for illegal drugs (dopamine like XTC). The public psychiatry services can therefore unintentionally be main promoters for the illegal drug-market. There were probably extensive use of psychotic drugs like hashish and heroin, - and synthesized euphoric drugs during the cascade of CdE riots in the so-called 'Arabian spring'. It is therefore alarming that the Asian Otsuka Pharmaceutical Company established in Egypt (only) with the anti-psychotic drug Aripiprazole for treatment of schizophrenia and bipolar disorders. The enterprise is most famous for its 'Lunar Dream Capsule Project' where their popular sports drink Pocari Sweat will be launched with SpaceX rocket in October 2015 and the first product marketed on the Moon, - La Luna. The project indicates delusional megalomania at organizational level. Furthermore, the highly alarming abuses of drug industry's corrupt approval procedures are criticized in the TED talks: Atul Gawande, 'How do we heal medicine?' and Ben Goldacre, 'What doctors don't know about the drugs they prescribe' (see links hereunder). Aripiprazole is now tested on minors in Denmark despite all registered side effects on adults.

Since the second Mongolian invasion of Beijing after ww2, there are growing Moscow/Beijing alliances. A main goal is to make a passage between the empires, which requires control of the Black Sea and the Red Sea, - and land areas like Crimea, Turkey, Greece, Cyprus, Egypt, Syria, Saudi Arabia, Yemen and related regions. Recent news indicates that the new GRU/Spetsnaz must have been involved from 2013 in Ukraine annexation of Crimea and warfare in Donetsk and Luhansk, in addition to Moldavian 'separatist' uprisings and possibly annexation of two Georgian provinces in 2008. The regional forces is called PROSA (Pro-Russian Oligarchs, Separatists and Autonomes) like the former national RAF (Red Army Factions) (UU 2015.feb.20). However, all this is merely to get access to the Black Sea. The means and involvements to get access to the Red Sea involves most likely similar sociopolitical Games. Some indications were in UU 2014.nov.21: "Anyways, in addition to the mysterious cascade of CdE called 'Arabian Spring' there are very ulterior 4th degree CdE Game player at stage. However, less mysterious is the Syrian war with several Muslim groups with loads and loads of Russian weapons, traded by murky Olicrates via Cyprus. Nevertheless, the newest actor in Muslim self-genocides is the so-called IS, alias ISIL alias ISIS. It does not seem to be true religious at all, but rather another neo-RAF, - Jackal style. In fact, the L in ISIL mean Levant that includes Jordan, Israel, Palestine, Lebanon, Cyprus an south Turkey, - which indicates that Israel is a long term goal." Note that SU started the anti-Muslim war in Afghanistan and somehow managed to hand it over to US. (See UU 2014.nov.21).

The relation to Islamism was mentioned in UU 2015.feb.20, and talked through in UU 2014.juni.13. "In brief, 'Red Army Factions', despite their extreme ulteriority, were disclosed in several European nations and probably exists in all. Besides, the hypothesis of RAF development is the pre-RAF as BRAF (brown-red), formed from the ww2 Stalin-Hitler alliance and postwar-Games. This century's RAF has become GRAF (green-red) where green as the color of Islam and do not symbolize of nature at all. Pro-Russian Oligarch, Separatists and Autonomes (PROSA) do not merely operate in Ukraine." This is based on present media observations on how the neo-SU CdE Games are played, where there are hierarchies of RAF cells organized, yet manically denied like in 'Underworld' Games of mafia bosses. The executioner in Oslo, Paris and Copenhagen are displayed as Autonomes, merely to disguise and protect the massively organized crimes behind." It is important to note that Islamism is a political ideology and not a religious theology. In addition, Sufism is a political ideology as well and not pre-Islamic religious. In that sense, IS might as well mean 'Iblis State', and thereby relate to political ideology of Iblisism, - like Satanism.

However, Saudi Arabia is also a main prize for ISIS. Now, with the annexations of the neighbor Yemen is a critical phase. Briefly about the two nations: "The Kingdom of Saudi Arabia is the largest Arab state by land area. It is the only nation with both a Red Sea coast and a Persian Gulf coast. Ibn Saud founded it in 1932 and The House of Saud has since been an absolute monarchy governed along Islamic lines. It holds the two holiest places in Islam, the Holy Mosques in Mecca and Medina. There are 20 million Saudi nationals and 8 million foreigners. Saudi Arabia is the world's dominant oil producer and exporter, and controls the world's second largest hydrocarbon reserves. It is the only Arab country to be part of the G-20 major economies. Saudi Arabia was the world's second largest arms importer (where Saab in Sweden is a controversial one)."

“Yemen has been in a state of political crisis since 2011 and in 2014 the National Dialogue Conference was disrupted by conflicts between the Houthis and Islah, as well as the al-Qaeda uprisings. The Houthis took over Yemeni capital Sana'a and the parliament, forcing the President to escape the country. The Houthis declared themselves in control of the government what the UN decries as a coup d'état (CdE Game).” (Ref Wikipedia).

Furthermore, “The United Nations holds ISIL responsible for human rights abuses and war crimes, and Amnesty International has reported ethnic cleansing by the group on a "historic scale". ISIS has been designated as a terrorist organization by the United Nations. Over 60 countries are directly or indirectly waging war against ISIL.” Don't China, Mongolia and North Korea join the civilized nations against anti-UN terrorist group, - and why is that? The new GRAF seems more related to Maoism than Stalinism, i.e. a new Mongol and Muslim alliance like the days of Marco Polo and the fall of the Christian Rome (Roma2). History seems to be repeating after half a millennium.

There are increasing uses and abuses of information technologies (IT). The Charlie events proves that. The executors could not have out-smartened the national police without well-organized high-tech support from foreign secret services, - even within the national public services. Therefore, it is in place with a reminder from the previous UU 2015.03.20 about a hypothetical Charlie event called '21/3 Stockholm' based on experiences from '14/2 Copenhagen' and '7/1 Paris'. “The massive cybercrimes against the Police, Military, Tax-authorities Public health in CSC Denmark and IBM mainframes were executed by disloyal employees, remote computers in Pirate Bay and controlled from Asia. The delays in police investigation indicate massive organized crimes that also include employees in the Danish police force. Therefore, it is simply beyond any nativity to claim that this major operation was organized by two young sociopaths.”

“Most alarming is the extensive use of the hackers' favorite operating system - Linux. Anyhow, the ongoing trial in Denmark is most probably just the tip of an iceberg in all of the public sectors in all NATO nations.” “In fact, the Danish police hindered the investigations for 11 months and actions were taken only after several serious warnings from the Swedish police force, since the Pirate Bay founder was Swedish. According to the prosecution, there were copied personal information from the Danish police's criminal registers, drivers' license register and the EU police register (Schengen) about international criminals in Europe. To top it all, the access to 10,000 police officers' password and email was copied via Pirate Bay to Asia.” (UU 2015.feb.20) Further reading about how Big Blue turned Big Red is talked through in the series UU 2014.mars.14 UU 2014.mars.21, UU 2014.mars.28 and UU 2014.april.04.

Then again, knowing Moscow/Beijing ambitions to control the Red Sea, some rather ulterior influences, relations and positioning are notable. “It is alarming that the AU (African Union's) head quarter (AUCC), that cost 200 million dollars, is not finance and built by Africans themselves, but was a 'gift' from the Chinese Maoistic states regime in 2012. It is not located central in Africa, but located in Ethiopia, next to Red Sea, Yemen and Saudi Arabia. China probably run the Head Quarter's IT as well. AU should as quickly as possible find alternative solution for the location in order to become their masters of their own house.” (UU 2014.dec.12.) Now there are plans to build a brand new 'administrative' capital of Egypt. That is probably needed and have great potentials for elevating Egypt to the present urban, national and intergovernmental cultures. However, the Egyptians should be very alarmed about the cascades of the of riots called 'Arabian Spring'. It does not seem to be some occasionally local events caused by some hyper-emotional locals, but rather international organized cascades of CdE Games, - Charlie style. Therefore, controlling a new high tech Egyptian capital will be as dominating as controlling a new high tech AU headquarter (AUCC) next to Yemen and Saudi Arabia. Do not take another neo-GRAF bait.

When knowing that the Charlie executioners in 'Paris 7/1' identified themselves as Al-Qaeda in Yemen, - there cannot be real doubt that the CdE Game of Yemen is ISIS related GRAF-like Games. Some of the Games' grand prizes are 4th degree CdE in Egypt and Saudi Arabia. However, there was a new-defined Game of 4th degree called 'Genocide' in UU 2015.feb.27, - which has potentials for the hypothetical 5th degree Games. It has previously been played out globally with Gimmicks based on Marxism, Stalinism and Maoism. Now the Game Genocide is played out through the passage from Crimea to Yemen with Gimmicks of

Islamism. Besides, no doubt that the new alliance of Boko Haram in west Africa and ISIS indicates that the whole continent of Africa is the main prize for neo-GRAF, - probably with abuse of African Unions high tech tenant head quarter (AUCC) next to Yemen. The African Union (AU) needs United Nation's (UN) help in this critical phase of their development. The United Arab Emirates (UAE) seems to manage now, when realized the gravity and are about to gather global support, - with UN's help. (UU 2013.aug.02)

All in all, the worst case 5D scenario is the hypothetical 5th degree of sociopolitical Games covering humanity's self-genocide – as scripted in insane prophets' apocalypses. However, we are not such 'lemmings' and must prevent such dilutive actions in time. There are clear indications that GRAF-like LYAHF (Let's You and Him Fight) Genocide Games can get out of control and get global. The only preventive solution is to end such Games are to expose the ulterior actors, remove the spoils of war and clearly state 'Game Over Now', - before it is too late.

Restart.

Iznogoud (Is no good) is a French comics series featuring an eponymous character. His sole aim in life is to overthrow the Caliph and take his place. This is expressed in his famous catch-phrase, "I want to become Caliph instead of the Caliph" ("je veux devenir calife à la place du calife"). The stories have been translated into several languages and the title has been adapted to animated and live-action film. Goscinny's taste for sharp satirical writing keeps the repetitive format of the stories constantly fresh, making Iznogoud one of the most popular anti-heroes in the French comic strip world. Goscinny's skills with puns, made famous in Astérix, is also evident in Iznogoud.

'The Killing Fields' is the soundtrack album for the British drama film of the same name based on the experiences of two journalists in the (Maoism) Khmer Rouge regime in Cambodia. It is the 10th record album by Mike Oldfield and the only full-length film score written by him. The music was orchestrated by David Bedford. The Killing Fields will be re-released in a deluxe edition format in 2015, as per all previous albums which were originally released on the Virgin label.

Danielle Dax was presented in Extra UU 2015.feb.13. She is an English performer whose mysterious and experimental work reflected the strong influence of biblical mysticism and Middle Eastern musical textures. In relation to this UU, the association is the occult spin-offs from the processes of merging polytheisms into monotheisms. She had success with the album Inky Bloaters and Dark Adapted Eye. A dominant influence on her work was Marc Bolan whose cryptic lyrics and ear for a fuzz guitar. This song 'Fizzling human bomb' could also suite misguided ISIS assassins, - especially when she relates to occult ancient Egyptian mythologies.

Vincent Furnier, alias Alice Cooper was presented in UU 2015.feb.06. He made several cabaret numbers where he dug deep into the inner and murky self. He came up with some quite artistic performances. Some characters were like Mephisto, Dr. Mabuse and Mr. Hyde. Later repertoires include figures like a traumatized boy (Steven), an urban terrorist and a mental patient (Dwight Fry). The musical performance was quite professional due to support from Frank Zappa and the Warner Bros. However, taken out of its content and performed as a cheap rock concert, - it loses the original significance. This classic, Desperado, presents an assassin in the 'Wild West', not quite revealing who he was except for being a killer, a clown and a priest. However unfortunate, it is timeless and independent of ideology, theology and anthropology. It certainly suits ISIS as well.

The 5D scenario model is unchanged although the 3x3 elevated to 3³ (i.e. 3x3x3). The combined 5D and 3³ model for sociopolitical scenarios is however raised accordingly. They will be used in the following UUs for Charlie related analysis. A likely assumption is that one more Charlie event, like in Paris 7/1 and Copenhagen 14/2, will soon follow. Good as any guess of where and when is Stockholm 21/3. Still, as stated, none is religious, but cover-ups for larger CdE Games of 4th degree. If not there and then, such a 3³ 5D future scenario might uncover important aspects anywhere to consider to reduce the negative and increase the positive.

First, some summaries about the 5D sociopolitical model. The 5D 3³ model can provide new points of views on historical, present and future scenarios. To build a 3D model, the political powers are related to the classic dimensions Throne, State and Temple (Th, St, Te). The 3 axes have both scales of positive (pro-power) and negative (anti-power). Alternatively, the axes can represent ethical value-systems like GUR (Good/Useful/Right) and negative BAW (Bad/Abuse/Wrong). The positioning of political organizations in the 3D cube might show alternative perceptions of the political realities. There might be deceiving names, - e.g. anti-democrats call themselves democrats, atheists call themselves religious, imperialists call themselves nationalists, royalists are of rivaling thrones, conservatists promoting radical retributions etc. However, LifeQuality and democracy are not included in the 3D model, but could be applied in a separate 3³ model. Anyhow, the 4D shows historical developments over time and the 5D shows alternative 4D scenarios. The 5D scenarios of the past can uncover deceiving public history writings based on warlike propoganda instead of newer and more reliable information. Future negative 5D scenarios might be alarming, which can call for action to reduce negative outcomes. The novel '1984' is such an example. (UU 2014.sept.12.)

A 5D scenario 'Stockholm 21/3' is based on the assumption that more 'Charlie' events are planned and might be executed. An alternative reasoning might be based on influences by cultures of the Winter Palace, the 'Dolls House' in St. Petersburg, like so many previous 4th degree Games (UU 2014.mai.30 and UU 2014.dec.19). Time and place might as well be based on simple numerological belief that 21/3 follows 7/1 and 14/2, - and that geographically an Orion's Belt -like line can be drawn between Paris, Copenhagen and Stockholm – or other nearby capitals. Alternatively, Prague could form a pyramidal triangle. Anyhow, Persian/Egyptian occultisms, simple diluted ideologies and theologies are previously abused in such ways to legitimate sociopathic Games. Peculiarly, today there was a fascinating natural event – a total eclipse of the Sun by the Moon in the Arctic region. This is accompanied by a halo of green aurora of northern light around the polar circle. However, BAW theocrats, with some astronomical knowledge, have too often abused such natural events to prophesize Games of WoW (Well of Wisdom) for own gains and rivals losses. (See previous UU 2015.mars.13 for the 3³ psycho-social model.)

Historically, Stockholm has status as a main capital of the Baltic Sea and relates to most Baltic powers. The Baltic Sea is like a Nordic Mediterranean that actually was linked to it via the Black Sea by rivers, and thereby Ukraine, Crimea, Constantinople/Roma2. In brief, there are some historical milestones like, the housing the Nordic union (The Calmar Union), the strong opposition against Russian Tsar Ivan (the terrible) and of the Moscow mass-annexation and massacres in the Novgorod region. The split between Denmark and Sweden in DAC/UAC Games that still goes on. (UU 2014.okt.31). Tsar Peter (the Great) built a second capital in St. Petersburg (Throne/Temple), removed powers from Moscow (State) in 1714, which improved relations to Sweden and other Baltic nations. However, all the major battles between Sweden, Denmark, Holland and Germany in Baltic nations, Schleswig/Holstein, region of Kronborg castle and Baltic Sea, indicates that Russia was not absent, but have been playing ulterior roles in most war Games (e.g. LYAHF) for 500 years.

Mapping Russia in a 3D model is hard these days, because of controversial changes in domestic and foreign policies. Kremlinology can be as hard as Vaticanology. There are myriads of Games going on behind the 'iron-curtain' that is not for public display. However, the four episodes BBC documentary 'Putin, Russia and The West' were analyzed in UU 2014.nov.07, UU 2014.nov.28, UU 2014.nov.21 and UU 2014.nov.14.

Moreover, some political Nordic relations were talked through in UU 2014.dec.12 like this: "The Nordic nations have their success despite SU closeness and infiltrations, - not because of it. Nordic relations are talked through in UU 2014.juli.25 and UU 2013.mai.31: "Even after the cold war, one can see that Nordisk Råd (the Nordic Council) is bound to Kaliningrad, Leningrad and Murmansk. These three cities were represented as "the Cuba of the Baltics" KGB/FSB, and the site for massive nuclear testing (See the previous UU 2014.dec.05). Furthermore, there are daily ferry connections between Kaliningrad-Gdansk-Copenhagen-Oslo. Sweden and Finland have probably similar indirect connections to Kaliningrad. More directly are the terror-flights with nuke-capable bombers against the member nations of the Nordic Council. That recalls memories of the terror-bombing of the Danish island Bornholm in ww2, and the threats to make Copenhagen/Sjælland (Selandia) to an East-Denmark like East-Germany."

Historically, using a 4D model, Roma3 was established 500 years ago, - after the fall of Roma2, Constantinople. Prince Ivan of the Grand Duchy of Moscow became emperor (Tsar/Caesar) Ivan. Moscow was declared Roma3 by a monk, and the secret police developed from collective praetors to Oprichnina. 500 years ago, Roma3 was not powerful, but balanced (3,3,3), i.e. Throne, State and Temple. (Please that these numbers far from empirical but rather simple assumptions to indicate changes over time.) The powers increased (5,5,5) during some centuries due to agreements and cooperation. However, moving the capital to St. Petersburg was a CdE changing powers more like (8,3,5). The Tsar lost power to the Russian Orthodox Church with agent Rasputin prior to ww1 (8,3,2). The CdE in 1914 and contra-revolution moved powers back to Moscow and cleansing in 20th century caused neo-Roma3 to be (-5,8,-5).

In brief, the CdE of 1990 re-empowered Throne-like powers towards (5,6,3). Olicrates (Throne) were freed with president Gorbatsjov and his Glasnost (openness) and Perestroika (restructuring). Olicrates were empowered with the anti-State Yeltsin. However, the FSB made a silent CdE in 1999 by having president Yeltsin 'abdicated' and put their FSB agent Putin in the seat (3,8,3). President Putin is definitely still FSB/KGB and have strengthened State's power. Nevertheless, Putin took oil olicrates properties and empowered other olicrates instead. Now Russia has the largest number of billionaires in the world, - that all are somehow political too. Even the Russian Orthodox Church got more power with Putin. Today's rating might be something like (5,8,2). Today it seems that Roma3 are under hard stress and the FSB President's disappearances from daily public display is alarming. Today, Russia's (Th,St,Te) position is changed to merely a question mark.

How could Russian 5D models of past and future be? That is out of bond for this UU. However, a main concern is that FSB and GRU are most likely involved with 'secret services' and Games in Georgia, Moldavia, Ukraine, EU and Nordic & Baltic nations. Concerning Charlie 1, 2 and 3, they are probably involved somehow in that too. Therefor this hypothetic Charlie event Stockholm 21/3 will go further in analysis than public media does on Charlie 1 and 2. Positively, some unfortunate sociopathic BAW might be hindered and minimized in order to improve GUR and democratic LifeQualitative in the future.

This 5D Scenario 'Stockholm 21/3' is based on public information from the Oslo, Paris and Copenhagen events. Some similarities and ulteriorities stick out. 1) All attacks were organized in two phases, i.e. a) the CdE blitz attack, - and b) the mass-massacre. The well-organized first phase of CdE are clearly internationally political organized with infiltrated and manipulated domestic police forces. The second phase is rather a personal reward for the executer with minimal police interference. 2) One person is presented to the public, as an autonom that did all the work that really require powerful organizations. 3) The police and military hindered themselves in doing the extraordinary police work. 4) The executers are quasi-religious manipulated with extreme isms. 5) However, most fortunate, civilized parliaments and civic democracies hindered attempts to cause following retributive uprisings by public peaceful rituals. There were no CdE uprisings like by the '68 generations caused in Paris, Prague, Copenhagen etc.

How might the next Charlie event be? One can assume that the number 3 is used symbolically and this will be the final in this series. However, it might be planned as a climax, especially after the failures in Copenhagen 14/2. Historically in Stockholm, the Prime Minister Olof Palme was executed in 1986. Although a public display, the Game was as ulterior and deceiving as the JFK execution in 1963. These two executions

are however related in the sense that Palme supported Cuba, the Cuban missiles were shipped from Kaliningrad in the Baltic Sea, passed Sweden and Denmark unnoticed, and the catholic JFK got the Cuban missile crisis. Moreover, Palme himself was an active negotiator in a RAF-like bank robbery, where a 'customer' verbally attacked Palme's reluctance and supported the robbers (UU 2014.juni.13). Legal (forensic) psychiatrists named this 'the Stockholm syndrome' to reduce the penalty for supporting criminals. Likewise, Minister Anna Lindh was executed publically by knife in Stockholm (2003). She was an outspoken support for Sweden to join EU and other controversial policies. Anyhow, Sweden became recently a member of EU and now works to join NATO's collective defense towards Russian threats. That is extremely upsetting for domestic anti-NATO politicians. A two phase Charlie event in Stockholm would have such regional political purpose and not some religious divine vendetta.

The first phase will rather be like Oslo than Paris, i.e. a spectacular CdE ritual that will mark the history books like Palme, JFK and the Oslo bombing did. The longterm message will not be quasi-religious like 'my god is insulted', even though it might seem so at first. The message will be directed towards political unions like SU, EU, US and even a potential Nordic Union. Anyways, the real assassins will probably not be caught, but rather some national voluntary scapegoat, as for Palme, Lindh and JFK. The real support organization will again be able to prepare, monitor, manipulate the operation in addition to pack up, clear track, and escape out of the country again. Such a major operation cannot possibly be executed by a single 'autonom', but requires a major secret Game playing organization like neo-GRU that was re-established in 2013. However and most fortunate, the final outcome of such unintelligent Game playing will probably be opposite of the intended. Just like the SU tried to scare Denmark and Norway with terror in the 50's, - the result was that the nations were scared into NATO, - not from it.

The second phase of a hypothetical Stockholm 21/7 event will be a massacre as reward for the scapegoat and executioner of the first CdE phase. A related worst case scenario is the Utøya massacre, where the executioner got lots of under-covered support. The police and military were hindered and misled before, under and after the massacre. (This is talked through in UU 18.mai.2012 to UU 20.Juli.2012 and UU 2012.aug.24.) Furthermore, Oslo happened in 22/7/2011 when GRU was placed under ordinary military, by FSB/Putin, which can explain the differences in actions from Paris and Copenhagen. However, in Stockholm 21/3, it might as well be arranged in a marked place, a restaurant or shopping mall. It might be disguised as religious by quasi-religious isms, like Islamism, Christianity or Judaism, - as the previous Charlie events. Since the executioner at Utøya was not shot but arrested, any cover-up stories in the media did not hold at all. No one believes that he was related to some Knight Templar, masons, Nazi, fascist, European, or anti-Muslim organizations. All those deceiving cover-up stories are uncovered and proved false. This major mistake, of not killing the scapegoat, provides clues to uncover the real Game players' motives. The real motives are simply the opposite of the deceiving scapegoat's claims, - i.e. anti-democratic anti-Christian and anti-European.

ABB, the executioner at Utøya, got his para-military training in Eastern Europe and got associated to such cultures. Related organizations were talked through in UU 2014.nov.14: "Nashi (Наши), the Putinized youth organization, turned unacceptable. Wikipedia says: "In 2012, the leader of Nashi announced that the movement would be dissolving in the near future, possibly to be replaced by a different organization. Media have compared it to the Soviet Komsomol or the Hitler Youth and called 'Putin jugend'." In a Nordic view, it is remarkable that Nashi flag is like a diagonal Danish one and the neo-Russian flag is like a diagonal Norwegian one. Although still emotionally controversial, it is now legitimate to relate Nashi to Nordic political youth organizations, - and AUF in particular. No doubt that AUF is strongly related to 'heads of state', the major political party, the labor organization (LO) and public sector." St. Petersburg (former Leningrad), Putin's hometown, is just across the waters of Stockholm and cultures are certainly mutually influenced. Nashi-like organizations seems to flourish in Sweden. A recent article says that Russian media contacted Le Pens Front National, Dansk Folkeparti and Sverigedemokraterna and other 'right wing' parties to complain about EU 'bureaucratic monster' immigrations, homosexuality, western decay in order to support the message that traditional Russia is a stabile contrast to unstable and liberal west." No doubt that a main candidate from DF was heavily subsidized in the previous EU election. Considering the policies,

subcultures of the Norwegian FrP, Sp, SV and AUF are most probably likewise corrupted. Anyhow, it is easy to discover, since the arguments are mainly parroting Pravda's English version at the internet.

According to the ulteriority of political Games, it is more likely that the true Game players are not the displayed ones, but rather resourceful and active opponents of the scapegoats' appearances. Still, proving 'secret service' organizations involvements seems impossible despite all the indications. Yet, it is far less likely that Islam organizations are responsible than that Russian ones are the real Game players. Ulteriority, diversity, cover-ups, projections, is per Game definition the very nature of secret services. A major indication is that GRU was re-establishment in 2013, just before the annexation of the Ukrainian region Crimea and the war towards other Ukrainian regions. The goal of the Russian CdE Games is to make a corridor from Russia to the Black sea by annexation of Ukrainian regions. Therefore, the fears in Baltic nations are highly legitimated, - that Russia will go to any kind of wars to make corridors to the isolated major depots of military equipment in Kaliningrad. The Russians make very aggressive threats in the Baltic region with jet-fighters, bombers, submarines and secret agents. It seems to be 2nd phase assaults to test the nations' reactions. The Lithuania President confirms that they are already under Russian cyber-attack to lower the defenses.

However, secret services have to be exposed in order to make proper 5D analysis. These following 4 paragraphs should set some focus on the real Games at play: "A most reputed RAF agent is called 'Carlos the Jackal' alias Ramírez Sánchez. He is currently in jail for double life-time in France for killing 11 people, injuring 150 and murdering of 3 agents. Historically, in 1968, Carlos opted for the Patrice Lumumba University in Moscow that was reputed as a notorious hotbed for recruiting foreign communists to the Soviet Union. He was expelled from the university in 1970 by disciplinary reasons, though. Then he travelled to Beirut and Lebanon, where he volunteered for the PFLP (Popular Front for the Liberation of Palestine) in 1970 and tried to establish his own organization with Syrians, Lebanese, and Germans. Carlos was also connected to the STASI that provided him with an office and safe houses in East Berlin, a support staff of 75, a serviced car, and allowed him to carry a pistol in public. The STASI files also show links to the KGB (today's FSB). There is no public information if Carlos and Putin had relations when they both were with the KGB in East Germany. However, Carlos the Jackal was most certainly closely related to RAF-dnk." UU 2014.nov.21.

"RAF (Rote Armee Faction) became reputed as a sociopathic civil war cells in western nations. RAF was designed after the Stalin concept from his past as a Mafia boss in SU/Caucasus. The leader of the Danish RAF (Blekingegadebanden), Gotfred Appel converted from Stalinism to Maoism. Consequently, the RAF-dnk is related to the Beijing regime, even though it was indirectly controlled from SU. The attempt to kidnap (millionaire's son) 'Jörn Rausing' was a cooperation with RAF-nor and RAF-swe. It is uncertain if the detection shows that the Danes were more people or simply more clumsy. Besides, the extent of Moscow and Beijing cells (RAF-rus and RAF-chn) is uncertain, but likely significant and timely fatale. For example, the RAF-dnk brothers Weimann were consultants and installed computer-systems for the Police and Ministry of Foreign Affairs. They got confidential access and were responsible for the maintenance that includes access to read, copy and manipulate data. At the same time, the youngest made the so-called 'Jew-register', supposedly for the related organization PFLP. UU 2014.juni.13 and UU 2013.juli.01.

"The massive cybercrimes against the Police, Military, Tax-authorities Public health in CSC Denmark and IBM mainframes were executed by disloyal employees, remote computers in Pirate Bay and controlled from Asia. The delays in police investigation indicate massive organized crimes that also include employees in the Danish police force. Therefore, it is simply beyond any nativity to claim that this major operation was organized by two young sociopaths." "Most alarming is the extensive use of the hackers' favorite operating system - Linux. Anyhow, the ongoing trial in Denmark is most probably just the tip of an iceberg in all of the public sectors in all NATO nations." "In fact, the Danish police hindered the investigations for 11 months and actions were taken only after several serious warnings from the Swedish police force, since the Pirate Bay founder was Swedish. According to the prosecution, there were copied personal information from the Danish police's criminal registers, drivers' license register and the EU police register (Schengen) about

international criminals in Europe. To top it all, the access to 10,000 police officers' password and email was copied via Pirate Bay to Asia." (UU 2015.feb.20)

"A new term was made to substantiate the new secret war-like organizations, - PROSA (Pro-Russian Oligarchs, Separatists and Autonomes). Ulterior RAFs and alike exist in most nations and have variations like BRAF and GRAF. The hypothesis of the present multiple RAFs is talk through several times and accumulated in UU 2014.juni.13. In brief, 'Red Army Factions', despite their extreme ulteriority, were disclosed in several European nations and probably exists in all. A RAF-dnk cell called 'Blekingegadebanden' was named after the disclosure of a weapon depot in Copenhagen. Besides, the hypothesis of RAF development is the pre-RAF as BRAF (brown-red), formed from the ww2 Stalin-Hitler alliance and postwar-Games. This century's RAF has become GRAF (green-red) where green as the color of Islam and do not symbolize of nature at all. Pro-Russian Oligarch, Separatists and Autonomes (PROSA) do not merely operate in Ukraine." This is based on present media observations on how the neo-SU CdE Games are played, where there are hierarchies of RAF cells organized, yet manically denied like in 'Underworld' Games of mafia bosses. The executioner in Oslo, Paris and Copenhagen are displayed as Autonomes, merely to disguise and protect the massively organized crimes behind." UU 2015.feb.20

However, all the CdE Games in neighboring regions might rather be spin-offs to the most ulterior core – that is so obvious that it appears as a black hole. Just like in 1915, the 2015 external LYAHF rivalries are initiated to prevent external influences and attacks, - because a major imperial CdE has become inevitable. This is a turning point of no return, - where major irreversible mistakes might happen – or might be avoided. It is a desperate transaction and memes for Putin to publically announce that he was willing to use nuclear weapons during the Crimea annexation. That did not happen. However, the message for the future is that Russia consider using nuclear weapons for annexation in the Baltic and Artic regions. Alternatively, it might be a cryptic message (Game Transaction) that he is poised by nukes like other FSB agents before him. The FSB president has been removed from public display for unusually long periods of time. A main question is then if FSB is abdicated by GRU, and what Games should now have game-over and re-start.

Lustans Lakejer were from Stockholm. The band's name means 'Lackeys of Lust' and the song's title means 'The Cold covers the City'. The association is the new cold war that seems to be rising. The text tells a story about a man that sees the cold and want to find comforting shelter, - but also knows it is wrong, - possibly unfaithful. Lustans Lakejer was a successful new-wave in the 80's. They got the producer Richard Barbieri and were therefor inspired by the sound of Japan with David Sylvian. The singer Johan Kinde have been the constant of the band during the unions and divisions. Now he sometimes acts alone.

As indicated, occult methods of numerology, astrology, enneagram and more, are abused in sociopolitical Games. This video, song and lyrics 'The dark is rising' by Mercury Rev is a highly qualitative piece of art in that direction. It was previously presented in UU 2011.jan.28. I was so fortunate to see them playing live in den Haag. They do not have many concerts, but intriguingly enough, for Denmark, they chose a tavern at Bornholm to do so.

Anyways, primitive astrology, without proper astronomy, could cause socialpsychological destructive dilutions like Isaac Asimov tries to explain and warn about in the Science Fiction analogy 'Night Fall'. A total eclipse will cause darkness and show all stars at daytime. That might cause anxiety like mass-claustrophobia and following collective destructive reactions.

Hard to imagine such ways of thinking, but trying to imagine that Paris, Copenhagen and Stockholm, or other nearby capitals, could be similar to the Egyptian line of pyramids in the Giza Necropolis that imitates

the 3 stars of Orion's belt. However, they point at the place where the sun will rise (Heliopolis) in a new constellation for a new age. The time is determined by the star Sirius when it is in line with the Sun on 22/12 in about 2150 and entering the constellation Aquarius. However, analogue, the site will be nearby Novaya Zemlya, where the tsar bomba, the worlds largest a-bomb was detonated. Such is definitely not divine miracles. Neither was the Tunguska event in 1908.

Tomas Di Leva sings, in Swedish, the classic Talking Heads song 'Heaven'. It is a kind of childlike nerdy perception of what might be after life on Earth. No prejudice, no grand rewards, but rather simple self-centered comfort – forever. However, - the Quran does definitely not support suicides, by bombing, at all, - quite the contrary. Do not get fooled by anti-theocrats to the opposite.

Thomas Dolby - The Flat Earth

2015.mars.13

Ukens Utvalgte

The Belief dimension of the 3x3 model is different from Drive and Will. Freud and Jung called it 'Superior-Ego', while Berne called it 'Parent'. Belief concerns ideas of what we cannot possibly fully understand, yet need to know and trust. Here, focus is set on Belief in Supremacies like the S-E. The Superior-ID (S-I/Drive) was included 2 years ago. Now, the Superior-Devine (S-D/Belief), a new and third subcategory, is included to complete the model. However, with this completion of the theoretical part of this Charlie theme, the (previous) 3x3 model has become a 3^3 model, i.e. 3x3x3, because of the 3x subcategories in Drive, Will and Belief.

The Supremacy dimension is based on Freud's classical psychological 'ego-state' Superior-Ego, - i.e. any overruling of human Will and Drive. It is hereby sub-categorized into S-I (Superior-ID), S-E (Superior-Ego) and S-D (Superior-Devine) in order to suite the 3^3 psychosocial model. It does not concern theological or philosophical question of whether long gone ancestors, gods or other divinities exist, - but concerns the belief in, or denial of, such. Psychologically, it is valid since no one can deny the existence and importance of believes, - religious or not. Yet, subcategorizations of Belief cannot be as concrete as for Will or Drive, - like tangible terms on does not describe the intangible well. Besides, the values of Good/Use/Right (GUR) and Throne/State/Temple (Th/St/Te) are still relevant and is re-vitalized in this sense.

The classic Superior-Ego (S-E) is the least difficult one to describe, since Freudian theories have been formally recognized and practices for a century. S-E has been a recurring subject in several UU themes during the 4 years of blogging, even though not yet realized at the time. Therefor the following texts are mostly translated summaries to illustrate the basis and directions the modelling has taken. First an introduction: "The most obvious reason for the relations between psychology and sociology is that many organizations are highly personified, - with dominating patriarchs and matriarchs. The list of political, religious and royal leaders is convincing. Other organizations, that are not that fixated on persons, have strong collective Superior-Ego expressed in ethics, laws and rituals. The stats-machine is highly logical-rational, while health, welfare and pedagogy is strongly influenced by ID mentality." (UU 2013.mars.22)

"If the moral, ethics and philosophies of LifeQuality (UU 2014.sept.05) should be put down to a single sentence, - it could be 'I'm OK – You're OK' (ref Thomas A. Harris). It is about tolerance to OK persons, as well as a recognition of oneself. Consequently, it is also about speaking out and making clear statements to 'not-OK' persons, organizations and nations. Next, there should be more awareness about destructive

psychosocial Games in order to end them harmlessly (ref 'Games People Play' by Eric Berne)." Moreover in UU 2014.sept.05: "A healthy human has a mature balance between these three (Id, Ego, Superior-Ego). Therefore it safe to say that the mental health reflects the personality – whether it is allowed to develop and free to self-realize. However, a suppressed Ego cause unbalance and becomes mental unhealthy, - in worst cases get mental illness and disorders." (UU 2015.mars.06)

"In brief, the S-E can be sub-categorized into Matriarch and Patriarch (and Authority), whilst the ID can be sub-categorized into Jerk, Sulk and Nerd." (UU 2013.mars.08) "Collective terms like mass-psychosis and double-moral (standards) are related to psychological terms like psychosis and schizophrenia. Therefore, it is social vital not to promote unbalance between societies' Supremacies; Superior-Ego/Authorities, Ego/Organizations and ID/Emocracy. It is alarming that such unbalance from the 20th century's global wars are not balanced. The Law-giving and Judging State powers seems weak related to the States machine." (UU 29.Juni.2012)

"When comparing the Republic (State) with present organizations, the military seems most relevant, - that has a dominating Patriarch-Jerk relation. On the other side is health- and social-care strongly Matriarch-Sulk systems, that consequently grow with the State. (Plato himself represents Nerd-Ego relation.) Together, they form an unsound social-psychological system, because both are interlocked in Parent-Child conditions. The Mama-State and the Papa-State can probably not develop to Adult-Adult relations in a democratic sense. The challenge is to find a third party to help them transform into A-A conditions. The solutions might be to further develop States to democratic nations, including the three regimes; State, Throne and Temple. Categorical and related to theories of 'Ego-states', the societies-regimes can be; S-E/Authorities, Ego/Organizations and ID/Emocracies. Furthermore, regimes can also relate to; S-E/Temple, Ego/State and ID/Throne. A sound nation has a balance of the three, as a person has. Consequently, the humanity as a whole can be considered likewise, which makes the UN role vital. The United Nations is obliged to international conflict management, which means there exists models for international conflict resolutions that can improve collective mental health." (UU 2013.mars.22)

The relation of Belief (B) to Will (W) and Drive (D) is described in UU 2014.dec.19 and UU 2014.sept.12 along with the 3x3 model - including UnderConscience (U), Conscience (C), and OverConscience (O). However, the model at the time has not yet included the 3x sub-categorizations, which is now called the 3^3 model. "Some keywords and relations to the 3x3 ego-states (Will) are; 7, UB; Intuition, obsessions, rituals, psychosis. 8, CB; Philosophy, religion, politics, ethics. 9, OB; [S-E] Traditions, rituals, superstitions, memes, hypnosis. OverConscience Drive and Will can relate to Belief with: 3, OD; {S-I} Senses, belonging, empathy, dependence, culture, social needs. 6, OW; (P) Sympathy, strategy, moral, visions. Finally, UnderConscience Drive and Will can relate to Belief with: 1, UD; [ID] Life-force, biology, DNA, nerves, sex, gender, feelings, instincts, dreams. 4, UW; (C) Ideas, habits, mania, phobia, autism, diverse personality." However, the 3^3 model has a closer inter-personal relation at the UnderConscience dimension, i.e., S-I/KoC/RF, S-E/GdE/AF and S-D/GoT/WL. Following is some translated summaries of relevant theories of Jung that was a mentee of Freud.

«What Jung called 'Collective synchronicity', is more commonly called 'herd mentality'. Jung gave it a deeper understanding and described it as 'an independent (social) connection principle', 'a meaningful coincident' and 'an independent parallelism'. Jung claimed that the principle gave conclusive proof for his concept about archetypes and collective subconscious, because it described the controlling dynamics that substantiated the complete human experiences and history - socially, emotionally, psychologically and spiritually. In relation to Berne, Jung focused on interpersonal communications (Transaction Analysis – TA) that is most relevant to OverConscience. However, the source is at UnderConscience and Conscience levels. It includes communications directly from Drive and Belief by body-language and rituals." (UU 2014.aug.22)

Concerning the 3x3 Superior-ID (S-I): "Previously mentioned hypothesis of a Superior-ID, in addition to Freud's Superior-Ego, seems strongly founded by Jung's hypothesis about collective synchronizations and archetypes. Ideas of a Superior ID (S-I) was talked through in UU 2014.jan.10." "In that relation, it seems rather clear that the previous century has been particularly controlled by collective unconscious 'people's

movements'. It seems that the unpublished books (at that time) about the phenomena, was studied thoroughly after all somewhere. The most obvious 'peoples movements' seducing 'isms' were based on Marx socialist ideology (CD/OB) and Gurdjieff occult theology (OD/UB) (UU 2013.april.12). Jung and Berne's theories are thereby well related to the extension of ID to Drive with the levels UD and OD." (UU 2014.aug.22)

"Jung was more concerned about ID (3x3 Drive) and Superior-Ego (Belief) than Freud. Jung developed 4 theoretical main areas: (1) The concept for introvert and extravert personalities that became the fundament for MBTI. (2) The complex UnderConscience core pattern of emotions, memories, perceptions and wishes. (3) The concept of the collective UnderConscience that is shared by all humans and includes archetypes. (4) Synchronicity for interpersonal relations at UnderConscience level. Jung seems to take the term psychology more serious than Freud did since it means something like 'the logic about souls'. Jung became convinced that life has a spiritual purpose beyond material goals. Consequently, Jung influenced subjects like psychology, physiology, theology, philosophy, archeology and anthropology. He was an excellent writer, but many of his works were published after his death." (UU 2014.aug.15)

"It is quite possible to relate Jung's theories to the upgraded 3x3 ego-state model (UU 2014.aug.08). Jung's main areas can relate to 3x3 like; (1) introvert (CW), extravert (OW); (2) complex patterns (CD); archetypes (UD) and (4) synchronicity (OD). Jung's theories about spirituality/psyche relates to the 3x3 level Belief where; spirituality/psyche – UB, religious conscience – CB and spiritual collective expressions – OB. The 3x3 model relates also well with Jung's theories about UnderConscience (UD, UW and UB), in addition to collectivity and synchronicity (OD, OW and OB). However, individual conscience relates more to Freud by (CD, CW and CB)." (UU 2014.aug.15)

The S-I/S-E/S-D related Drive subcategories RainForest (RF), AnimalFarm (AF) and WildLife (WL) were talked through in UU 2015.feb.27. The inspiration to describe the nature of human ID is based on nature itself. (The subcategories were at the time called Game categories.)

"The social subcategory WildLife (WL) relates to animal life in the open nature, as we know it. However, knowledge increases according to new discovery documentaries, which expands this category. Typical areas of WL are penetrable forests, savannas, plains, cultivated nature and even animal life in cities. It concerns Drive-Drive related interpersonal relations by biology, motoric physiology, instincts, neurology etc. WildLife has probably some ulterior Games at Drive/Drive levels that includes hunting and camouflage. Nevertheless, most activities are not Games at UD level, due to the honesty of nature."

"The social subcategory AnimalFarm (AF) represents some structures and dominations by biological Conscience within species' tribes. There are hierarchal organizations where older mammals dominant younger and where a single male might rule. Contrariwise, insects might have hives where queens dominate workers, drones, warriors and nurses. There are even highly inter-species relations that indicate dependencies and bondage. Besides, flocks of birds and fishes have synchronized collectives where single individuals rarely dominate. Nevertheless, birds and mammals might have fierce rivalries between male during mating. Nevertheless, natures' non-verbal communication is rather advanced with odors, colors, behaviors, rituals etc."

"The social subcategory RainForest (RF) refers to the hidden wildlife that we do not quite know or might have some believes about. The beliefs in RF concerns 'cure for cancer' and 'fountains of youth' as well as deadly nature, - and even viruses of potential apocalyptical pandemics. However, no doubt that RF do hold rich flora and fauna including potential new medicines, trickster predators and preys, where camouflage, poison, paralyzing are used in Games."

The Superior-Devine (S-D) is the most complex by far. The properties of the 3^3 socialpsychological ego-state 'Belief' is not possible to fully describe. It is like the term 'religion', i.e. 'The First Philosophy', and includes fundamental questions about the beginnings, ends, the universe, life, omniscience, positivity and more. The questions of this magnitude are unanswerable, simply because the human comprehension is limited. Besides, Belief is not about knowing scientific facts at all, but rather a realization that the probability is about 50/50 for a belief to turn out true. (Hope concerns unlikely beliefs with about 10% probability to be proved true.) Consequently, claiming to know whether a divinity exist, or not exist, is just

as false, and do not concern Belief at all, but rather Games of Will. Such ulterior Games of false Belief are unfortunately common and can be dramatic, as the Charlie Game in Paris 7/1 and Copenhagen 14/2 indicates.

There must be 3 subcategories of Belief to relate to the subcategories of Drive and Will. Apparently many beliefs actually stems from Conscience of our own nature of Drive and from the reasoning in Will. However, it is uncertain how many subcategories there might be, what properties are relevant and what they should be called. However, It is better to be honest about the uncertainty of the 3^3 model and open for sound philosophical re-evaluation, - a qualitative feedback-system. Even classic scientific dogmas goes through such total re-evaluation in search for more qualified theories like string theories, multi-universe (ref UU 2012.okt.12), dark matter and energy (UU 2012.okt.05), new math of Mandelbrot/Fractals (UU 2012.dec.07) and other new sciences. Actually most kind of science seem to be re-evaluated this century due to the massive enlightening by global interconnection and Big Data (UU 2014.jan.17). Such re-evaluations are even more relevant for religious beliefs than scientifically beliefs. (Ref the Theme Accidental Genesis 2 (AG2) from UU 2012.aug.31 to UU 2013.jan.04.)

Belief in itself do not includes Games at all. However, there are Game categories of Belief played by Will, like there are classic Game categories of sexual (Id), social, and underworld of 3rd degree. Still, the deceiving ulterior and secret moves and goals in Games do most certainly include claims of Belief properties like wisdom, divinity and heritage. Yet, always keep in mind that there are 'positive Games' as well as 'negative Games'. There are probably more Games related to Belief that suites the value-systems of GUR (Good/Use/Right) than BAW (Bad/Abuse/Wrong), - like the Christian and platonic virtues; belief, hope, love, wisdom, courage, moderation and justice. Why believe so? One way to see this is that most expressions in poetry and songs are emotionally good rather than bad, - most expressions of folk tales have rather useful moral than abusive, - and most religious mythologies do rather express philosophical righteous ethics than wrongful ones. At least – expressions of negative BAW Believes are to indicate directions, boundaries and goals. See what happens if you do the negative. Finally, impressions of beliefs might be adapted as intuitions of Belief and function like instincts of Drive.

WoW (Well of Wisdom) is CB (Conscience Belief) subcategory and related to CW. The futile Game of striving for 'all knowledge' is doomed to fail, though. "The new Game category for Belief is WoW that relates to several archetypical myths. The mythological origin of WoW does not exclude Drive or Will. Quite on the contrary. As Jung explained, humans have collective archetypes that occasionally are expressed at UnderConscience level as symbols, dreams, 'feelings' etc. Such are often expressed collectively and synchronized via OverConscience in acts, art, science and myths. The most famous WoW Game is played out in the myth of the Garden of Eden. Atheists as well as theists should recognize these archetypical expressions as a vital collective Belief for Humanity. Basically, it is about humans' LifeQuality, the freedom of Will and the strive for Wisdom. Furthermore, the Tree often symbolize age/continuity, generations, branches and gates between worlds. Yet, it was wrong of the prophet Moses to blame the prophet Adam's woman for 'the first sin', deception and misery. Actually, since Moses' existence is disputed and Adam is probable just mythical, the myth does most certainly not stem from God. Such unjust prejustice is BAW (Bad/Abuse/Wrong)." Anyways, similar WoW Games exist in most religious myths including the Egyptian, pre-Islamic, Greek, Roman, Norse mythologies and are simply adapted into the monotheistic mythologies as well." (UU 2015.feb.20).

SET (Supreme Extra Terrestrial) is a CB (Conscience Belief) sub-category of Belief that relates to S-D (Superior-Devine). It is unique in the sense that it is 'Superior' to the classic 'Superior-Ego'. This is where beliefs in extra-human divinities belongs, like God/Allah, gods, angels, jinns, and any intelligent divinities from any religion or myths. No living human, not even theocrats are of S-D. Merely beings transcended to a divine state belongs to this category of S-D. What and where that might be, is an eternal philosophical question for the living. Some mythological names are Heaven, Hell, Xanadu, Asgard, and utopia. However, no Temple, relic or symbol is of such properties and cannot ever be. GoT was mentioned in UU 2015.mars.06 to indicate the Will, not Belief, related social Game category 'Games of Temples'. "GoT has its origin in Freud/Jung's terms Superior-Ego, - as far as human logic applies. In fact, GoT is not about divinities,

but logical believes in society's superior powers. Even atheists play GoT of GUR/BAW value systems. OverConscience communications are essential for such socializations. In the beginning, there might have been value-systems of Constructive and Destructive (Use and Abuse) and even Good and Bad." Actually, humans tend to fear what they do not understand and react negative, which is a challenge to the uncertain nature of Belief. Moreover, SET includes what called (space-) aliens (E.T.) that was talks about in UU 2012.nov.30 of the Theme Accidental Genesis 2 SETI.

UNO (Universal Natural Order) is a UB (UnderConscience Belief) sub-category of Drive that relates to S-I (Superior-ID). UNO is related to the subcategory UD/RF (RainForest) in the sense that both concerns the unknown realities of humans, nature and the universe. It is intriguing knowing that we spend 1/3 of our life sleeping, not conscience of what our brain works with all that time - but it does and it is important. However, even though RF represent all the unknown of Drive, that we might believe something about, the UNO embraces all the rest of the unknown Universe. This is by far the largest subcategory of all, when knowing there are over 10 million lifeforms on earth and believing there are millions of worlds with life in the universe. There seems to be no limits, since scientists now philosophizes about multiverse and the cluster of galaxies and dark matter called Laniakea.

UNO related themes were talked through in the Theme Accidental Genesis 2 (AG2) - in particular UU 2014.jan.24 and UU 2012.nov.09. This week's extra UU links to the National Geographic Documentary Inside the Milky Way that provides present human perspectives of astronomy. There are also several other links to interesting videos, articles and pictures from AG2. In brief some changes for ancient Beliefs are: Life was not created on Earth, but rather seeded by icy comets. The radius of our own solar system is now estimated to about 1 light-year (ca 60000 AU), the distance to Pluto is at about 60 AU, and our solar system is mainly completely dark, which clearly proves we know almost nothing about it – like as for the perceptions about the seas and sky 2000 years ago. The Big Bang theory is mainly theocratic supported as a new version of the creation myth and 'Let there be light'. Variations of 'The Steady State' theory is still valid. 'Big Bang Bogus' might as well be just another 'Flat Earth – Flat Universe' dogma. All the present pictures of exo-planets are based on a single dot or slight disturbance in stars' gravity. They certainly exist, - though we do not know anything of their properties. There is absolutely no reason to all the fantastic drawings of exo-planets, which rather indicates the false Belief and WoW Games for descriptions of divinities. Astrology is based on very wrong assumption about the astronomical realities, - so is the predictions and advices based such occult dilutions. The astrological assumptions of Orion, Sirius, the Sun and other zodiac astrology and enneagram are very wrong and merely tools for hardcore 4th degree Games of WoW. It is however fascinating to know that Orion's left shoulder, the star Beetlejuice, is 560 times the size of our Sun and about to go super-nova. Orion's right knee is a triple star system. The 'sword task' (or whatever) is a nebula where new stars are constantly produced.

Btw, since this is Friday the 13th, the UU 2015.feb.13 and UU 2013.jan.04 might be interesting to read. Such superstitions, and 'dangerous memes', are indirectly relevant for the upcoming UUs to conclude this Theme about the Charlie event.

Thomas Dolby title song from the album 'The flat Earth' concludes this theoretical part of the 'Charlie' Theme. The 3 chosen song should show that he was far more than a synthesizer nerd at the peak of his career.

Prefab Sprout was actually produced by Thomas Dolby, which is a main reason for the sound quality. This very short song 'All Boys believe Anything', gives an intriguing 'Transaction to Analyze' about saying it all

with nearly nothing. However, the follow up song 'The Ice maiden' gives some associations to H. C. Andersen's fairytale 'The Ice queen', and the Winter Palace (UU 2014.mai.30 'The messiah ward').

Extra UU (OB)

'Childlike Faith In Childhood's End' by Van der Graaf Generator was previously presented in UU 2012.okt.05. VDGG was one of those art-rock band with complex music and lyrics. I suspect them to criticize the epic story 'Childhood's End' by Arthur C. Clarke, that was his break through before '2001: A Space Odyssey.' There are several UU in this relation that bring up interesting issues. However, even heavy stuff, the VDGG lyrics are highly philosophical about humanity at universal level. A story spoiler is that 'Childhood's End' is really about humanity transcending to another existence, - and the end as humanity as we know it. This is a biblical theme and used in several philosophical science fiction stories.

10cc - I Wanna Rule The World

2015.mars.06

Ukens Utvalgte

The merged 3x3 Game model does mostly apply to the social ego-state Will. Freud and Jung call it 'Ego', but Bern called it 'Adult'. This UU sets focus on three social Game categories of Will, namely KoC (King of the Castle), CdE (Coup d'Etat) and GoT (Games of Temples). Such a large theme needs an archetype to grasp the idea, - a simple stereotype like Napoleon. The main reason to focus on Games is the simple truth that everyone lies and deceives. This reality is underestimated and have serious consequences, - as the Charlie incident in Paris showed.

Firstly, - before going into the negative sides of Games. I did write about the single word LifeQuality for a year, and still think it is the most important word of all (starting in UU 2013.feb.01). Although it is a big theme, these picks indicate some main points: "If the moral, ethics and philosophies of LifeQuality should be put down to a single sentence, it could be 'I'm OK – You're OK' (ref Thomas A. Harris). It is about tolerance to OK persons, as well as a recognition of oneself. Consequently, it is also about making clear statements to 'not-OK' persons, organizations and nations. Next, there should be more awareness about destructive Games in order to end them harmlessly (ref 'Games People Play' by Eric Berne)." Furthermore in UU 2014.sept.05: "A healthy human has a mature balance between these three (Id, Ego, Superior-Ego). Therefore it safe to say that the mental health reflects the personality – whether it is allowed to develop and free to self-realize. However, a suppressed Ego cause unbalance and becomes mental unhealthy, - in worst cases get mental illness and disorders." "The MBTI (Meyer Briggs Type Indicators) and TA (Transaction Analysis) models can be combined to a unified model for personalities and communications. This is rather practical since psychologists seem to be somewhat fragmented and contradictive."

The main reason to do Game analysis is explained in UU 2013.mars.15: "Humans are dishonest and ulterior by nature – this fact should not be denied. How many times a day humans lie, is not a main point. Still, there are serious consequences that too often are ignored in social and political relations. Then again, there are indeed some innocent physiological reasons that the brain automatically adjusts facts. Animals' natural camouflage, scary behavior and sexual rituals indicate that there are natural reasons to some kinds of deceive. Yet, humans, as intelligent animals, have a far broader spectrum of lies. A classification counts 34 categories: Bad faith, Barefaced lie, Big lie, Bluffing, Bullshit, Butler lie, Contextual lie, Cover-up, Deflecting, Delusions, Dismissal, Economical with the truth, Exaggeration, Fabrication, Fib, Fraud, Half-truth, Haystack answer, Honest lie, Jocose lie, Lie-to-children, Lying by omission, Lying in trade, Minimization, Misleading and dissembling, Noble lie, Omission, Pathological lie, Perjury, Polite lie, Puffery, Speaking with forked tongue, Weasel word & White lie. Anyhow, deceptions can be of positive or negative moral and not necessarily ethical rejectable. It is however important to have the system of Values (GUR) in order, when facing such."

The lists of psychosocial Games are endless considering the number any human plays. Berne build a general fundament based on Jung and Freud theories and used familiar terms. Some basics are mentioned in the previous UU 2015.feb.27, but of the most is described in UU 2014.aug.29: "Berne categorized Games dependent on the circumstances. They are Life Games, Marital Games, Party Games, Sexual Games, Underworld Games, Consulting Room Games and Good Games'. Some classic Games previously mentioned are: YDYB (Why Don't You, Yes But), IFWY (If It Weren't For You), WAHM (Why does this Always Happen to Me?), SWYMD (See What You Made Me Do), UGMIT (You Got Me Into This), LHIT (Look How Hard I've

Tried), ITHY (I'm Only Trying to Help You), LPAFJ (Let's Pull A Fast one on Joey), NIGYSOB (Now I've Got You, You Son of a Bitch), LYAHF (Let's You and Him Fight), RAPO 'Psychiatry' and 'Courtroom'. A complete list of Berne's classic Games are talked through in his book 'Games People Play' that is now free on the internet."

The Bernian Game theories were extended, like the Freudian 3 ego-state model was merge to a 3x3 Freudian/Jungian. "Some previously mentioned new Games are: DAC&UAC (Devide&Conquer & Unite&Conquer) is a political Game of Will that is used to take control over collective groups. TLM (Two Little Maids) is a Drive Game for collectivization and can be prior to e.g. LYAHF. ISR (It Started with the Retribution) is used to start rivalries – without risking accusations of provocations and thereby support to the opponents. A similar clinical Drift motivated Game is supported by ABD (Attack is the Best form of Defense) where mutual paranoid rivals can have Belief dominated 'obsessions'. Jante is a collective synchronization Game related to TLM (TOL). BGGG (Bad Guy, Good Guy) is a Will Game in the classic category Underworld and especially effective in 3rd degree negotiations. RPPP (Robbing Pete to Pay Paul) is a political Underworld Will Game that is used as political election campaigns and finance politics. ODAB (One's the Death – Another's Bread) is a 3rd degree Underworld Will Game with lethal outcomes."

A new Game BOOFY was discovered when analyzing today's Russian Games in UU 2014.nov.14: "A Russian proverb saying is "Beat your Own and Others will Fear You". Actually, it seems that an east-bloc Underworld Game 'BYOOWFY' of 3rd and 4th degree is identified. It seems to be legitimated in Roma3. Still, Putin does not seem to do the beating himself, but rather have someone else to do it, - like murky olicrates, street gangs, 'jugend', police, para-military or other ulterior secret services. That is simply the Game of LYAHF. The Game is however originally feminine and related to the rivalling tsarinas of the Winter Palace. (See UU 2014.mai.30.)"

Anyhow: "It is relatively simple to define real socialpsychological Games, when knowing Berne's Game model. However, Berne did define some Good Games too, like Busman's Holiday, Cavalier, Happy to Help, Homely Sage and They'll Be Glad They Knew Me. Moreover, Bad Games can be turned into Good Games, e.g.: LYAH(Fight) inverted to LYAH(Create) and NIGYSOB to NIHYSOD (Now I'll Help You, You Son of a Dame). Positive ethics can of course be transferred to CdE Games as well. Games should rather be GGGG (Good Guy – Good Guy), HPPP (Helping Pete and Pay Paul), DAC&UAC (Devide&Construct & Unite&Construct) and OBAB (One's Bread - Another's Bread too). Moreover, ending destructive Games can simply be done by uncovering the Games and the Players – and/or making the Spoils hopelessly unachievable." (UU 2014.sept.12 and UU 2014.aug.29.)

Yet, the most mentioned self-defined Game is CdE (Coup d' Etat). This Game is so comprehensive and dramatic that it got its own category and lead to a new and higher degree. As mentioned in UU 2014.juni.13: "Berne defined 3 degrees of Games. In brief they are: 1st degree; Games that are socially acceptable in the players' social environment and Gimmick (House-rules). 2nd degree; Games that does not cause permanent or unrecoverable damages, but as the Players rather would hide from the surroundings. 3rd degree; Games with permanent results that can end up at the doctor, in court or in the graveyard. Moreover, a 4th degree of Games is mentioned, with social permanent and dramatic consequences, like in a State coup, revolution or war." However, Coups can be executed to all the three civil powers; Throne, State and Temple. Therefore, CdE is revised and modified in this talk through.

Furthermore, "The self-defined CdE Game is clearly of 4th degree. However, with afterthoughts, the CdE term is so comprehensive that it has an own category of several Games. There can clearly be very complex relations of several underlying Games of all degrees, since such a kind of Game can cause revolutions, coups, wars etc. CdE is originally a national Game that can be executed locally, but also international organized. CdE can trigger several other Games like LYAHF, DAC&UAC, BGGG, RPPP and EDAB." Besides, in this UU Theme 'Charlie', a fundamental Game of 4 degrees was uncovered in UU 2015.feb.06: "A new (Drive) AF Game can be defined in the same concept. Empirically, there seems to exist a 1st degree of Game called 'Touch and Go' (TAG). It can be escalated to 2nd 'Hit and Run' (HAR) and 3rd 'Bomb and Transcendence' (BAT). There is even a 4th degree at meta-level that is 'Apocalyptic'."

Anyways, back to the new Game categories. As mentioned in the previous UU 2015.feb.27, Jung was a mentee of Freud and advanced the theories of Ego based on collective archetypes, collective synchronizations, beliefs and symbols." Keywords and relations to the 3x3 ego-states (Will) are; 4, UW; (Child) Ideas, habits, mania, phobia, autism, diverse personality. 5, CW; [Ego] (Adult) thoughts, knowledge, logic, self-realization, perception. 6, OW; (Parent) Sympathy, strategy, moral, visions. OverConscience Drive and Belief can relate to Will with 3, OD; {Superior-ID} Senses, belonging, empathy, dependence, culture, social needs. 9, OB; [Superior-Ego] Traditions, rituals, superstitions, memes, hypnosis. However, thinking more about it, all the personal UnderConscience of Drive, Will and Belief can be interrelated for any individual."

The state Ego/Adult/Will/State is mainly about conscience thinking and self-realization. Therefore, as mentioned in UU 2014.sept.12: "The Information Quality is essential to the models. Believing anyone does know 'the whole truth' is an alarming, deceiving and corrupting illusion." Anyhow, Will is not divided into 3 sub-states as ID/Child/Drive/Throne was, - and is fundamental different from S-E/Parent/Belief/Temple too. However, there are certainly many ways to distinct different kinds of logic, like by; physiology/technology/psychology, or by maturity of Drive/Will/Belief, or levels of realizations like UnderConscience/Conscience/OverConscience, or sexuality as male/female/ non-gender etc. The massive potentials are yet undiscovered. Therefore, the following attempt is mainly focused on the socialpsychological arenas of Throne, State and Temple, - namely the Games categories KoC, CdE/GdE and GoT.

The social Game category 'King of the Castle' (KoC) relates to the tribal ones of genetic relations, like families, clans and other network of relatives. This category has existed for all humans at all times, even for orphans. Although other networks increase with the internet, the tribal ones do too because it is easier to recover relations to long gone branches of the family trees. However, in the 3x3 Will state, there are collective UnderConscience wills like intuitions, upbringing, and even genetic similarities that makes similar ways of thinking. UW is somehow connected to UD and UB. Therefor KoC Games are highly motivated by UD factors mentioned in the Game category WildLife, yet escalated to the 2nd and 3rd degree. Kings and Queens are definitely elderly Patriarchs and Matriarchs, that dominant the younger and rival other 'tribes' - if not married into them. The social infrastructure is thereby rather aristocratic, oligarchic, stratocratic and even democratic to gain public support. The King&Queen must always be prepared to protect their Throne from external and internal rivalries. Status Quo can be promoted with hierarchal positions, favorable Gimmicks and certain rewards and punishments. Most of Berne's Games are related to families and applies for the KoC since its vey fundament are families.

Alternatively, the social Game category 'Coup d' Etat' (CdE) should rather be called GdE (Games d' Etat) with CdE as its sub-Game category. The Game category 'Game d' Etat' (GdE) is defined by Gimmicks of States and related public sectors. The ancient Greek philosopher Plato is said to be the Patriarch of the Republican State. The State is rather timocratic and plutocratic (capital), autocratic/anocratic (dictator), and technocratic. State is somehow aristocratic though, because Plato thought the Republic should be run by a totalitarian elite of intelligent men without personal possessions, wife or children, in order to be objective. Nevertheless, State has developed via later versions of the classic Roma1 to today's empires (See UU 2014.april.25 and UU 2013.Mai.24). Most GdE are strictly ruled by Gimmicks of laws, regulations and procedures. They were simple and reasonable at start, but after 2500 years of political GdE, the Gimmicks have become too complex, contradicting and irrational for anyone to manage. The Gordian knots, the endless mazes and inconsistencies cause diluted needs for endless growth in order to maintenance the system. Consequently, no one fully understand the system anymore. The State-systems develop into a Belief-system, - rather similar to GoT.

The social Game category 'Games of Temples' (GoT) relates to Belief that has its origin in Freud/Jung's terms Superior-Ego, - as far as human logic applies. In fact, GoT is not about divinities, but logical believes in society's superior powers. Even atheists play GoT of GUR value system (Good/Useful/Right). OverConscience communications are essentials for such socializations. In the beginning, there might have been value-systems of Constructive and Destructive (Use and Abuse) and even Good and Bad. However, through the

centuries, the original reasons and feelings are gone with the deceased Matriarchs and Patriarchs, yet continued as social intuitions recalled with monuments and Rituals. The value system might turn into undisputable absolutes, - of what is Right and Wrong. In most cases such become Rituals, - which has no ulterior motives, but rather processes of socialization and assimilation. However, failed Ritualizations might cause Games of 2nd and 3rd degree. The long forgotten reasons of social behaviors might escalate to Games with hidden agendas, like BGGG, or other Games of the category Life Games, Marital Games and Party Games. It might be motivated by phobic fear of the unknown and cause alienation. Even though GoT is far from democratic, it might become very much so in the sense that the adapted citizens promote the aristocratic values in Rituals and Games.

Nevertheless, the focus on the original CdE deserves some explanations. There is a terminological reason for the focus on CdE (Coup d'Etat), because it was first used when writing about some European wars. It was first mentioned in UU 2014.juni.13, about Games of coldwar factions like RAF in Europe. However, the term 'Coup d'etat' in relations to Games was first mentioned in relation to political evaluations after the Oslo 22/7-2011 bombing and massacres in UU 2013.aug.09. CdE was talked through as a 4th degree Game and a new Game category in relation to Napoleon. He is certainly an archetype of CdE Games, along with Julius Caesar, Ivan the terrible, and those mass-produced CdE despots in the previous century.

Napoleon is particular relevant to all the three categories KoC, GdE and GoT, because he played for supremacy of Thrones, States and Temples - altogether. As a climax, Napoleon crowned himself as emperor in the Temple with the Pope as passive witness. However, most Game analysis of Napoleon is done in relation to UU 2014.mai.16 in the Theme 1514-2014 about political development in Norden and Europe in the 500 years period. An indication of the content is cut from UU 2014.okt.31 "In brief, the results of the napoleon wars were basically a grand slaughter of European royalists in the military, - especially those related to the French Throne. There is therefor reason to think that the result might have been the overall goal in that Game. Anyhow, not only Moscow claimed the right to the heritage of Roma (UU 2014.mai.02), but also St. Petersburg, Austria, Germany, Italy and France, - like some Roma3b, 3c, 3d, 1b and 3e. Moreover, the Ottoman Empire was practically a Muslim Roma2b and an aggressive rival to them all. Notably is Napoleon's bodyguard Roustam Raza, alias Idzhahia, of particular interest (since Napoleon had alienated himself from mostly anyone else)."

The newfound Game BOOFY, based on a Russian proverb saying, "Beat your Own and Others will Fear You", seems far more widespread and fundamental than first realized. Although BOOFY was discovered in a CdE analysis, it is clearly tribal as in the Game category KoC of UW. It is based on Parents' punishing their Children and causing traumas, that later cause projections of not-OK transaction to others. Adults' experience of unexplained fear can stem from UW, which is related to UD and UB. These causes of personal fears can therefore be highly personal and different for anyone. A common, but negative solution, is the use of projections, which was mentioned in UU 2015.feb.20 "Emotionally, it seems that some outbursts of accumulated negativity are as necessary as flushing the toilet. It should however not be directed towards other people, but to sanitary systems. Furthermore, general expressions in misery might mistakenly be perceived as directed hatred and suppressed thoughts might need emotional outbursts to be relieved. Unfortunately, Hate is abused as means in Games. Games of Terror are unfortunately the reason for this UU Theme 'Charlie'."

10cc is presented several times in UU because of their entertaining lyrics and great musical variations. This satiric, but honest text is about over-blown Egos, - Superior-Ego wannabes, like Napoleon, Ivan, Schicklgruber, Ioseb, Ivanovich, Mao, Kim, Gotfred and countless more.

Extra UU CdE (CW)

The musical Chess seems underestimated. This song 'Pity the Child' makes associations to CW and a Nerdy Child growing up to be an Adult. This is a personal self-biography and psycho-analysis on how a loveless childhood made him grow into an Ego-centric conqueror by pure logic of Will. The game Chess was not very

popular and rather uncommon at that time. However, today, most Children play far more advance games on their computers and even learn howto conquer the world before they learn to read and write. Btw - seems like the authors of the third season of 'House of Cards' know this rock-opera well.

Extra UU KoC (UW)

This is a sequel to the previous extra UU associated to the UD/RF Game category. This song 'I Scare Myself' by Thomas Dolby, is as poetical and musical intriguing as the previous. Fears about the outside stems often from the UnderConscience inside. Realizing that, is a first step to end ones fears with CW and might even stop projection of scary fears to others.

Extra UU GoT (OW)

Like in the previous UU and since OW is represented with the main UU theme, - this extra UU about OW presents a TV series about Napoleon. The sagas of this neo-archetype character has been inspirational to the development of the CdE Game category, which again lead to the 3x3 psychosocial model and thereby this extended Game model of Drive, Will and Belief.

The extended 3x3 Game model will be talked through these four next weeks to complete its fundament. First out is the Drive ego-state, - the extended ID/Child state. The Drive Game category AnimalFarm (AF) was previously announced. However, there must be 3 categories in all to fill the organizational model of the states Drive, Will and Belief. The 2 others are now named WildLife (WL) and RainForest (RF).

Freud underestimated ID, but his mentee Jung emphasized it. ID is further vitalized in the merged 3x3 model and called Drive. ID's importance is evident in archetypical sayings like "Life will find a way (to survive and evolve)". There are more indication of ID's vitality. Humans might even 'de-extinct' lifeforms by cloning techniques in this century. New theories indicate that humans are probably hybrids of several humanoids that has somehow continued their heritage in our genes despite extinction of their own species. Other parts of nature, like fungus, might even come from alien worlds by comets. (UU Theme Accidental Genesis 2 in UU 2013.jan.24). Archetypical sayings like "you are what you eat – eat well" certainly reminds that we are products of nature and our environments. Consequently, we are dependent on and highly influenced by nature. Therefore, in order to understand ourselves better, the Drive egostate need a broader and deeper part in socialpsychological analysis. Most of the 3x3 related theories are translated and explained in UU 2014.sept.12 and the next 4 paragraphs pinpoint the basics.

"In order to adjust Freud's 3-states to this century and social relations, the terms are developed from-via-to: Id-Child-Drive, Ego-Adult-Will and Superior Ego-Parent-Belief. A new dimension of conscience is added in order to merge Jung with Freud's 3-state. The levels are; UnderConscience, Conscience and OverConscience (U, C and O)."

"Jung was a mentee of Freud and advanced the theories of ID and S-E (Superior-Ego) based on collective archetypes, collective synchronizations, beliefs and symbols." "Keywords and relations to the 3x3 ego-states (Drive) are 1; UD; [ID] Life-force, biology, DNA, nerves, sex, gender, feelings, instincts, dreams. 2; CD; Preferences, joy, anger, biological selections for primary needs. 3; OD; {S-I} Senses, belonging, empathy, dependence, culture, social needs. Furthermore, OverConscience Will and Belief can relate to Drive with; 6, OW; (P) Sympathy, strategy, moral, visions. 9, OB; [S-E] Traditions, rituals, superstitions, memes, hypnosis"

"An upgrade (from classic Freudian personal 3-state model) to (organizational) 3x3 model should be more distinguishing in what is the organizations inner UnderConscience nature, the logic of Conscious and the obsessions of OverConscience. The main (civil) forces and value-systems that relates to the ego-states are; Belief/Temple/Right, Will/State/Useful and Drive/Throne/Good."

Love as a vital factor and introduced in the previous UU 2015.feb.20. "Love at Drive states is mentioned several times, especially related to biological reactions and Games of 'Sexual' and 'Animal Farm' (AF) categories. However, the idea was extended to organization level when first trying to explain Superior-ID (S-I) in UU 2014.aug.15: "S-I stems from the primitive stages in human development and is the life-force, the will to survive and even love and hate. It is the 'animal' within us, controlled by the 'lizard brain'." "The collective life-force consists of every individual personal life-force."

A curiosity that a logical 'tables of truth' can reveal is that there should be 4 variations of the genders, even though there are merely 2 sexes. They are; non-sexual (before and after sexual age), male, female and androgynous. Actually, all these exists and might have more influence on individuals and social psyche than the cold-war 'battle of the sexes'. Grown-ups know that the sexual puberty is a dramatic Game-driver, but the coming menopause is probably more influential on civil events and outcomes (UU 2014.aug.08). Moreover, considering the human male Y-chromosome, logically, there might be two additional genders to the xx female and xy male. An alternative male yx might be similar to xy in practice, even though the human males differ a lot. However, a hypothetical yy gender could be more male than male and even non-sexual.

Anyways, the basics of Games and the 3x3 model are explained in UU 2014.dec.19, UU 2014.sept.12 and UU 2014.aug.15. Some main points are; "Dr. Erik Berne developed the T.A. (Transaction Analysis) further in the book 'Games People Play'. Psychological Games are dishonest and ulterior per definition and occur amazingly often in real life. Berne explained about 60 general Games and how to eventually reduce the negative consequences by disclosing the hidden motives and the moves. Players use ulterior and false moves (Transactions) to get the gains/spoils. Berne also mentions classifications of Games based on the number of players, means, methods, instincts (ID), 'clinical level' (Ego) and psychodynamics. The Games can also be classified according to flexibility, endurance and intensity." (UU 2014.aug.29) However, most of the time is spent on other activities like Pasttimes, Rituals, Work, Withdrawal & Intimacy." (UU 2013.mars.15.)

Berne split the traditional ID into 2 kinds of 'Child' to relate to two kinds of Parents, namely Mother & Father. In an earlier UU 2014.aug.15, the ID was split into 3 to include Adult/Ego. The 3 IDs were named Sulk, Jerk and Nerd. These 3 ID relate to other individuals via their OverConscience in Game relations like; Sulk/Drive/WL, Jerk/Belief/RF and Nerd/Will/AF. (UU 2015.Jan.23) The Drive Game categories will relate to the conscious dimensions of UnderConscience (U), Conscience (C) and OverConscience (O) - like RF/UD, AF/CD and WL/OD. There are now 3 new socialpsychological Drive-related Game categories; AF (AnimalFarm), RF (RainForest) and WL (WildLife). These will develop during the writings, - but here is a start:

The social Game category WildLife (WL) relates to animal life in the open nature, as we know it. However, knowledge increases according to new discovery documentaries, which expands this category. Typical areas of WL are penetrable forests, savannas, plains, cultivated nature and even animal life in cities. It concerns Drive-Drive related interpersonal relations by biology, motoric physiology, instincts, neurology etc. Some WL collective phenomena are Predator vs Prey that was talked through in S-E/S-I relation and as genocides at empire level (UU 2014.jan.10). Another phenomenon is the collective mass suicides by lemmings and the

flocks of mammals crossing a river they know are full of predators. Wildlife has probably some ulterior Games at Drive/Drive levels that includes hunting and camouflage. However, most activities are not Games at UD level, due to the honesty of nature. Yet, humanity has adopted a large number of WL Games and plays them at 3x3 levels.

The social Game category AnimalFarm (AF) was first mentioned in UU 2014.dec.19 in a critique about public schools. "10 years in a class-room cell with a dominant matriarch, or patriarch, takes Games to an organizational level of S-I/S-E, - in collective versions of the Games of TLM (Two Little Maidens) and national variations like 'Jante', TUD (The Ugly Duckling) and other 'Animal Farm' related Games of S-I." However, the term stems from dystopian novella 'Animal Farm' by George Orwell. He was a social democrat who warned about the expanding Stalinism by writing in fable form. In social 3x3 sense, there are some structures and dominations by biological conscience within species' tribes. There are hierarchal organizations where older mammals dominant younger and where a single male might rule. Contrariwise, insects might have hives where queens dominate workers, drones, warriors and nurses. There are even highly inter-species relations that indicate dependencies and bondage. Besides, flocks of birds and fishes have synchronized collectives where single individuals rarely dominate. Nevertheless, birds and mammals might have fierce rivalries between male during mating. 1st degrees of 'Sexual' Games like LYAHF stems from such animal rivalries. Actually, most Games are of 1st degree are Drive related. Humanoid primates can even play 1st degree of sophisticated Party Games and Underworld Games. In addition, as indicated, classrooms might have pecking orders like hen houses. Nevertheless, natures' non-verbal communication is rather advanced with odors, colors, behaviors, rituals etc.

The social Game category RainForest (RF) refers to the hidden wildlife that we do not quite know or might have some beliefs about. The beliefs in RF concerns 'cure for cancer' and 'fountains of youth' as well as deadly nature, - and even viruses of potential apocalyptical pandemics. However, no doubt that RF do hold rich flora and fauna including potential new medicines, trickster predators and preys, where camouflage, poison, paralyzing are used in Games. These are the basics of psychosocial Games, where ulterior motives, deceiving moves and taking spoils are essential. Human 'Honey-pot' Games are certainly related to RF. Some previous talks in UU 2014.aug.22 are related to RF Games: "It sound more fantastic than hypnosis. However, to get the idea, it is recommended to see the TED video 'Ed Yong: 'Suicidal crickets, zombie roaches and other parasite tales'. It shows that collective synchronicity amongst animals are not always motivated by interpersonal socializations. In certain occasions, their UD are controlled by physical parasites that uses the hosts against their own good and to the parasites' gain. In any case, - such similar psychic activities for collective remote control of group synchronizations is certainly the situation documented in the previous century as so-called political 'folks' movements'."

Moreover, drugs and hypnosis do certainly influence human nerves, perceptions, psyche and behaviors. This is abused in Drive-related Games like predators do to their prey: This was explained and criticized in UU 2014.dec.19. "The categories of drugs are; psychedelic drugs like LSD and mescaline (hallucinogens), euphoria drugs like hashish, paralyzing drugs like morphine and heroin, in addition to central-stimulating drugs like amphetamine and illegal designer drugs like XTC (dopamine), (which is counter-dosed with legal anti-dopamine by the institutional psychiatry)." Furthermore: "The uses and abuses (of hypnosis) are far more common than the public realize, simply because the victims do not realize what happens at all. In fact, that is the whole point of NLP (Neuro-linguistic programming) and Games." To be direct - drug crimes are Games, - and so are most certainly NLP crimes too. It seems to be a social taboo, how the legal health system is abused by such illegal health crimes.

A most alarming 4th degree Drive related social Game is 'Genocide', like inquisitions, all those 'Killing Fields' and world wars. It is hard to explain, but should be possible with this 3x3 model with the distinctions of the 3 Drive characters represented with WL, AF and RF. However, there was a philosophical talk in UU 2014.jan.10 in relation to S-E/S-I (Belief/Drive) that pinpoints the ethical dilemma with multi-dimensional social psychology. "When asked if the Predator/S-I is evil, the answer is generally 'no'. It is like carrion eaters that instinctively do a necessity for the balance of nature. The predator/S-I do not distinct between consumption of dead or living preys, even if we as emotional humans can see the preys' sufferings and get

empathical and ethical. That is a human quality that is rather alien to the ID based nature. When a fox can execute a massacre in a hen farm, it is because its ID has gone ecstatic in an unnatural environment, - and the predator has no mental stop-button. However, - human have that stop-button and should use it. Anyways, the S-E responsibilities of the relation will be talked through in two weeks.

David Byrne continued his success after the split of the legendary band 'Talking Heads'. This song 'Don't Fence me in' is a cover that originally was made by Cole Porter and Robert Fletcher in 1934. The video makes a good association for the Game category AnimalFarm. The video seems inspired by two previous Talking Heads videos 'Wild, Wild Life' and 'Nothing but Flowers', which altogether makes association to the three Drive Game categories; AF (AnimalFarm), WL (WildLife) and RF (RainForest).

Pete Murphy – Strange kind of love

2015.feb.20

Ukens Utvalgte

This UU was dedicate philosophies of Love. However, like this UU theme 'Charlie' started, - Valentine's Day in Copenhagen was perverted by similar misdeeds. That will not change this original subject though, but there will be an unrestricted critique in the 'Extra UU'. Still, the repeating terror proves the need for talks about what Love really is, hoping some incapable can realize it too, - even though the greatest prophet of them all - tried and died.

The positive human inter-relations are vital for humanity's LifeQuality, progress and even existence. Love is one of the most serious aspects of human life, even though occasionally ridiculed and scientifically ignored.

Philosophies of Love in this UU relates to the merged Freud/Jung 3x3 social-psychological model in order to point out some the necessities of emotional, sympathetic and philosophical Love. First, three previous translated writings on the subject is selected and translated. Then theories of Love will then be talked through in relation to the social-psychological ego-states Drive, Will and Belief.

“Philosophy concerns indeed the great fundamental questions about realities, existence, knowledge, values, sense, reasoning, thoughts, language and more. Religion is called ‘The First Philosophy’ and includes fundamental questions about the beginnings, ends, the universe, life, omniscience, positivity and more. The questions of this magnitude are unanswerable, simply because the human comprehension is limited. Moreover, the Temple (Christian) values are; Belief, Hope and Love, while State (Plato) values are wisdom, courage, moderation and justice. The universal ‘golden rule of ethics’ is like ‘you should do to others like you want them to do to you’. This ethical feedback-system is an excellent example of advanced moral philosophy. However, logically, there can be eight variances of the rule in positive/negative and passive/active modus. Surprisingly one will probably recognize variants that are unwanted realities.” (UU 2013.mars.01)

“Simplifications of moral philosophy was talked through in UU 2013.mars.01: “One can sum up most philosophical values to be 3 incomparable value-systems of; Good, Useful and Right (GUR). The value ‘Good’ relates to personal feelings that cannot be inter-personal transferred. ‘Useful’ relates to social interactions, trade, enterprises etc. ‘Right’ is related to undisputable absolutes. Only oneself is the best to evaluate own moral. Terms like ‘no moral’ is an illusion, or merely an excuse to appear neutral. Anyone can evaluate an opinion or action according to the values; Good, Useful and Right, and even grade values to be GUr, gUr, guR etc. Alternatively, negative opposing values like; Bad, Abuse and Wrong (BAW) can be related. Humans can discuss own values with other persons and hopefully come to some understanding and agreements. It sounds trivial, - but that is how simple advanced, moral philosophy can be used by anyone. Then anyone should think more about their own values and dare to communicate with others about it.” An extension of the value-systems form ‘OK’ (Thomas Anthony Harris) to GUR, can surely be used for advance digital logic, like more advanced IT systems can.” (UU 2014.aug.22)

“Philosophies about LifeQuality is also about moral and consequently moral philosophy, - ethics. It concerns standards for values, rules and attitudes. All the philosophies together from all times are obviously too comprehensive. However, they are also influenced by historical simplifications, contradictions, over-focus, exclusions and anti-democracy. Most present philosophers do not believe much in absolutes of morally ‘right’ and ‘wrong’, though. Consequently, ideas of punishment and rewards are accordingly adjusted. Moreover, the former philosophical believes in absolute determinism (faith) are mainly replaced with democratic philosophies concerning the ‘free will’. Consequently, humans should not be judged guilty for unfree or unconscious action and are not accountable for related punishment or rewards. Human emotions and spontaneity is now acknowledged as moral factors, despite the unpredictable consequences. For instance, the existence of Love and such moral influences are now recognized even though it cannot be scientifically proved or predicted. Emotions are vital feedback systems for survival because they are closely related to the life-sustaining heart. It might explain humanities great ability to survive the harshest conditions.” (UU 2013.mars.01)

Love is not included as a factor in the social-psychological 3x3 model, mainly because the phenomena is not quite logically explainable yet. However, rather unscientifically, this ‘x-factor’, this ‘fifth element’ this ‘insanity’ is vital for human life and behavior. Most people know the changes personally as (biological) puberty experiences. However, in relation to the 3x3 model, there are such puberty and adulthood for all the ego-states of 3x3, - not merely personal, but collectively at organizational level and for humanity as a whole. This hypothesis is not yet thought through and cannot be talked through here either. Anyhow, here is a start:

Love at Drive states is mentioned several times, especially related to biological reactions and Games of ‘Sexual’ and ‘Animal Farm’ (AF) categories. However, the thoughts were extended to organization level when first trying to explain Superior-Id in UU 2014.aug.15: “S-I stems from the primitive stages in human

development and is the life-force, the will to survive and even love and hate. It is the 'animal' within us, controlled by the 'lizard brain' and also collectively described as the 'beast' and 'monster'. Such terms about humans are used in public debates and not invented here." "The collective life-force consists of every individual personal life-force. A quote from the movie 'Jurassic Park' seems to be eternally true: "Life will find a way" (to survive and develop). However, that was written in relation to some very negative chapters in human history. On the contrary, - the Love for flora and fauna is evident for most human behavior.

Love at Will states is the most ignored one. The reason is that Will is dominated by kinds of logic, - including psychology (logics for the soul). It is said to be cynical, but rather appears so for objectivity's sake. Personal emotions are not prioritized. Freud, who formulated the original ego-states (Superior-Ego, Ego and Id) seems to lack abilities of Love, or simply excluded Love at S-E and Id states as irrelevant or insanity. Anyhow, it seems clear that he was possessed with 'Love' for his own logic - the psychology. There is an urge that men (Y-chromosomes) seem to have, - or maybe there is an envious Drive for incapability to give biological birth. This Love, this obsession, for creative thinking, has caused real inventions as own properties. In fact, Intellectual Property Law is now global.

Love at Belief states is a greater concern than realized. Actually, this whole UU theme 'Charlie' is based on this ego state. The existence of Love in Belief is very evident with all the religious movements. However, the Belief ego-state do include belief in anthropologies and logics (science) as well as divinities. Yet, there is an admirable honesty in religious belief, because they actually admit it is a belief. On the other hand, scientists' belief in own science are too often presented as absolute truth, - without proper proofs. Love for deceptions are dangerously close to psychosis. Anyways, Belief concerns 50/50 probability of truth, while hope is not probable and knowledge is rather certain.

Horrible acts can be motivated by Love. It is recognizable how a person desperately in love might harm oneself, the loved one and even society. Too much Love is simply unhealthy and can be traumatic. There are numerous expressions of negative sides of Love in music, expressions and art. Such goes for Love relation to Will and Belief as well as Drive. However ulterior, - it will be discovered by use of extended terms as explained in UU 2013.april.19 "It is possible to make socialpsychological relations and use prefixes like neuro, psyko, sosio, xeno, pedo, 'matro', 'patro', 'ego', 'jerko', 'nerdo', 'sulko'. Furthermore, it is possible to substitute the suffix 'cracy' (power) with mania, phobia, patia and philia". With such extended use, the terminology of Belief is broadened to Sophimania, Sophiphobia Sophipatia and Sophiphilia. Terms like Philosophical mania, or Sophimania, indicates the danger within. This will be further talked through in a later UU dedicated Games of Belief. However, it is as evident that sociophilia, like Marxism, can be as harming as pedophilia at national level. (The extra UU highly indicates so.)

The original intention was not to write about Hate, but rather most aspects of Love. However, that did not work, after the Copenhagen 14/2 event, - so here are some thoughts. Love and Hate are generally recognized as opposite emotions of positive/negative, construction/destruction, connection/disconnection etc. However, Hate can have positive outcomes as Love can have negative sides, in the sense that disconnection might be necessary for new connections and destruction of the old might be necessary to give room for new constructions. Older generations should give room for new generations to evolve in time by peaceful means to avoid hateful and destructive events. Emotionally, it seems that some outbursts of accumulated negativity are as necessary as flushing the toilet. It should however not be directed towards other people, but to sanitary systems. Furthermore, general expressions in misery might mistakenly be perceived as directed hatred and suppressed thoughts might need emotional outbursts to be relieved. Unfortunately, Hate is abused as means in Games. Games of Terror are unfortunately the reason for this UU Theme 'Charlie'. It is alarming that such Love and Hate can get completely out of control collectively in 4th degree Games with unrecoverable and irreversible outcomes. However, the terrorists' acts seems not to be based on true Hate (UD), but hypnotic phobic memes (OB) planted with NLP (Neuro-linguistic programming). (See more at UU 2014.aug.01.)

'Conscience' concerns three levels of the second dimension in the 3x3 model. (The model is explained in UU 2014.sept.12.) Love relates to UnderConscience in not explainable ways like biology (UD), ideas (UW) and

dogmas (UB). Love at OverConscience level are basically expressions, transmissions and influences. E.g. prophets claim to be divine influenced (OB), social gatherings are basically communicable (OW) and intimacy and sexual acts are interrelated (OD).

Maturity does not merely concern biology. The Drive puberty is evidently and the changes of mind are explain by such UD changes. However, maturity concerning Will and Belief is not that evident and evolves in stages after the Drive maturity phase. Hypothetically, the maturities might be reached about the ages of 20 for Drive (sexual), 40 for Will (platonically) and 60 for Belief (philosophical). Yet there is no doubt that influences and developments starts long before, as an infant loves its parents. There can be rather complex inter-relation of these during growth, - just like we all have experienced Drive puberty changes.

A new Game category for Belief was announced earlier in this UU theme 'Charlie'. The new Game categories CdE (Coup d' Etat) for Will and AF (Animal Farm) for Drive has been talked through in UU 2014.nov.28 and UU 2015.jan.30. The new Game category for Belief is WoW (Well of Wisdom) that relates to several archetypical myths. The mythological origin of WoW does not exclude Drive or Will. Quite on the contrary. As Jung explained, humans have collective archetypes that occasionally are expressed at UnderConscience level as symbols, dreams, 'feelings' etc. Such are often expressed collectively and synchronized via OverConscience in acts, art, science and myths.

The most famous WoW Games are expressed in the myth of Garden of Eden. Atheists as well as theists should recognize this archetypical expression as a vital collective Belief for Humanity. Basically, it is about humans' LifeQuality, the freedom of Will and the strive for Wisdom. Furthermore, the Tree often symbolized age/continuity, generations, branches and gates between worlds. However, it was wrong of the prophet Moses to blame the Prophet Adam's woman for 'the first sin', deception and misery. Actually, since Moses' existence is disputed and Adam is probable just mythical, the myth does most certainly not stem from God. Such unjust prejudice is of BAW (Bad/Abuse/Wrong). It is crucial to stop such theocratic lies and psychosis, - for human Love's sake.

Finally, taken from; UU 2015.feb.06; "Some 'dangerous' memes of traumatized theocrats should not be allowed to overrule sanity and get away with blaming God/Allah for it. They need confrontations. It is however a hard nut to break. The prophet Jesus proved that with his life by forgiving misguided humans for their unintended sins. Yet, - even though there are doubts of his heritage, - there is no doubt about his democratic prophesy in the Quran." Obviously, since the Christian church has practiced forgiving for 2000 years, and is as powerful as ever, - it is obvious that God/Allah do not reject such forgiveness, but rather support it.

Peter Murphy is often presented in UU. He was a cult figure in the band Bauhaus. In the later solo career, he evolved his status with music from light pop to heavy ballads with complex vocal and lyrics of metaphorical and religious kind. The album 'Love Hysteria' and 'Deep' with the song 'A Strange Kind of Love' was made at the top of his career. They are strong albums from his most creative period. It went downwards with the next album 'Holy Smoke'. At a time, this catholic was suspected to have converted to Islam. He denied the claims and said he just recognized Sufism. Anyways, the poetry of 'A Strange Kind of Love' suits this UU Theme well: "This is no terror ground or place for the rage. No broken hearts, white wash lies. Just a taste for the truth - perfect taste, choice and meaning. A look into your eyes."

My Bloody Valentine - Don't ask why

2015.feb.20

Extra UU

Not a main point, but I lost the appetite for a wonderful Valentines dinner when the news hit about the 'Charlie' massacre attempts in Copenhagen 14/2. This extra UU is devoted to uncover the real Game at play of who, how and its anti-thesis. It should be clear by now that such misdeeds, and all the related, are acts of war and treason. They will eventually be treated as such. No dilution of ideology, theology or anthropology overrules that.

Straight to the conclusions. There is going on multiple Games of the CdE (Coup d' Etat) category. They are Will-related of 4th degree (war), but involves all the 3x3 ego-states Drive, Will and Belief. The massacres in Europe and IS are basically of AF (Animal Farm), but however diversions for pre-CdE Games by testing routines, reactions and disloyalties of Public Services like the Police. The main Game is LYAHF (Let's You And Him Fight) that has a third and ulterior actor who makes the two other parts fight until one is beaten and the Spoils can be collected. At ego-state Belief, it is not a real rivalry of Muslims, Jews, Catholics and Protestants. Atheists might gain relatively by theists mutual self-destruction. In fact, the Game seems rather to be an extended re-play of the CdE attempts in European nations by the so-called '68 generation.

There are reasons to think the meta-Game is an atheistic CdE, when focusing on certain events in relation. The massacres in Oslo, Paris and Copenhagen appeared to be executed by single autonomous persons with quasi-religious motives. However, there is no evidence that a single person did multiple massacres although one person was publically identified. Such major operations, planning and cover-ups requires large amounts of resources, people, money, time and Game playing at international level. The major hindrance to such crimes in civilized nations is obviously the police. Such crimes are impossible to execute unless the police itself is considerably infiltrated and manipulated. Therefore the police in Norway, Denmark and France are proved to be so by the terror acts. The evidences are hidden in plain sight for the whole world to see and investigate. Failure to do so, indicates that the legal and political systems are just as manipulated as the police. There are some single indications that links it all, and more, together. Some of this is talked through in previous UU about the Jackal, GRAF and Pirate Bay.

'Dangerous Memes' (UU 2015.feb.13) lives on in organizations and their related. A most relevant source for such 'Belief' relations and networks were mentioned in UU 2014.nov.21. "A most reputed RAF agent is called 'Carlos the Jackal' alias Ramírez Sánchez. He is currently in jail for double lifetime in France for killing 11 people, injuring 150 and murdering of three agents. Historically, in 1968, Carlos opted for the Patrice Lumumba University in Moscow that was reputed as a notorious hotbed for recruiting foreign communists to the Soviet Union. He was expelled from the university in 1970 by disciplinary reasons, though. Then he travelled to Beirut and Lebanon, where he volunteered for the PFLP (Popular Front for the Liberation of Palestine) in 1970 and tried to establish his own organization with Syrians, Lebanese, and Germans. Carlos was also connected to the STASI that provided him with an office and safe houses in East Berlin, a support staff of 75, a serviced car, and allowed him to carry a pistol in public. The STASI files also show links to the KGB (today's FSB). There is no public information if Carlos and Putin had relations when they both were with the KGB in East Germany. However, Carlos the Jackal was most certainly closely related to RAF-dnk."

Belief concerns ideologies as well as theologies. Cascades of ideological CdE Games were doped with harmful ideological memes in '68, - like outcries for armed revolutions and massacres of civilians. The same concept goes with theology as well (UU 2014.nov.21). "Anyways, in addition to the mysterious cascade of CdE called 'Arabian Spring' there is a very ulterior 4th degree CdE Game player at stage. However, less mysterious is the Syrian war with several Muslim groups with loads and loads of Russian weapons, traded by murky Olicrates via Cyprus. Nevertheless, the newest actor in Muslim self-genocides is the so-called IS, alias ISIL alias ISIS. It does not seem to be true religious at all, but rather another neo-RAF, - Jackal style. In fact, the L in ISIL mean Levant that includes Jordan, Israel, Palestine, Lebanon, Cyprus and south Turkey, - which indicates that Israel is a long term goal."

RAF and PROSA were mentioned as 'bullet points' in the start of this UU theme 'Charlie' (UU 2015.jan.09), saying: "Ulterior RAFs and alike exist in most nations and have variations like BRAF and GRAF." The hypothesis of the present multiple RAFs is talk through several times and accumulated in UU 2014.juni.13. In brief, 'Red Army Factions', despite their extreme ulteriority, were disclosed in several European nations and probably exists in all. A RAF-dnk cell called 'Blekingegadebanden' was named after the disclosure of a weapon depot in Copenhagen. Besides, the hypothesis of RAF development is the pre-RAF as BRAF (brown-red), formed from the ww2 Stalin-Hitler alliance and postwar-Games. This century's RAF has become GRAF (green-red) where green as the color of Islam and do not symbolize of nature at all. Furthermore, another bullet point said; "Pro-Russian Oligarch, Separatists and Autonom (PROSA) do not merely operate in Ukraine." This is based on present media observations on how the neo-SU CdE Games are played, where there are hierarchies of RAF cells organized, yet manically denied like in 'Underworld' Games of mafia bosses. The executioner in Oslo, Paris and Copenhagen are displayed as Autonom, merely to disguise and protect the massively organized crimes behind.

The Norwegian police were seriously manipulated during the Oslo massacres. The infiltrations and manipulations of public sector were directly causes to the extent of killings and destructions. The condition has not improved despite investigations, critics and political decisions. This is talked through in the UU Theme "Terror rettsaken i Norge" in UU 18.mai.2012 to UU 20.Juli.2012 and UU 2012.aug.24.)

It is necessary to control public data systems in order to execute CdE crimes. Such has not been proven in Norway, though highly indicated in many ways, - e.g. the delays in modernizing terror laws, the major failed IT projects, the obvious corruptions in investments, the failing communications, investigations and action. However, massive and long-lasting cyber-crimes has been uncovered in the Danish police. This was mentioned in UU 2014.nov.28: "The massive cybercrimes against the Police, Military, Tax-authorities Public health in CSC Denmark and IBM mainframes were executed by disloyal employees, remote computers in Pirate Bay and controlled from Asia. The delays in police investigation indicate massive organized crimes that also include employees in the Danish police force. Therefore, it is simply beyond any nativity to claim that this major operation was organized by two young sociopaths." "Most alarming is the extensive use of the hackers' favorite operating system - Linux. Anyhow, the ongoing trial in Denmark is most probably just the tip of an iceberg in all of the public sectors in all NATO nations."

Furthermore: "In fact, the Danish police hindered the investigations for 11 months and actions were taken only after several serious warnings from the Swedish police force, since the Pirate Bay founder was Swedish. According to the prosecution, there were copied personal information from the Danish police's criminal registers, drivers' license register and the EU police register (Schengen) about international criminals in Europe. To top it all, the access to 10,000 police officers' password and email was copied via Pirate Bay to Asia. By experience it seems reasonable to advice the two major IT providers that Microsoft Denmark might be as infiltrated as CSC Denmark, - and that IBM Denmark cannot play on all sides anymore and needs to choose NATO or not - before it all backfires." This refer to the warning in UU 2014.nov.28: "Now it is real. The 'Big Red' faction has acquired 'Big Blue' IT customers including the majority of mainframes in the NATO nations. IBM sold to Lenovo their control over Intel technology, some software, personnel and customers, including major IT systems in public sectors." "Knowing all too well that the ongoing global cyber-wars between NATO, Russia and China has gone too far, - the security needs immediate massive upgrade. The most secure solution for Intel processors is to upgrade to Windows 2008 or 2012 operating system." It might even be beneficial to get rid of the old, ineffective and expensive IT systems and substitute it with new efficient, inexpensive, secure systems.

It was the Swedish police, not the Danish police, who shot at the terrorist in Copenhagen, according to Swedish newspapers. However, Danish police were very present with officers from PST, PET and the local police. The debate at 'Krudttønden' had three main speaker, not merely the Swedish cartoonist. The Ukrainian Inna Shevchenko, the Polish Agnieszka Kolek and the French ambassador were also present. These were obviously meant to be massacred as well. All involved of the misdeeds are therefore accomplice to attempted murder on a foreign diplomat. It highly indicate that the first massacre attempt was political motivated, - not theological. The second massacre attempt seems to fit the terrorists' personal

agenda though. He was obsessed by the Israel-Palestine conflict, he often expressed his hatred towards Jews and was a reputed Thai boxer. He was heavily armed to execute a massacre of Jews at a ceremony. Two Danish police officers at the site did not stop the terrorist, but a civilian Jew did, - with his own life. Moreover, police reported that guns malfunctioned and the bulletproofed vests were hard to get in time. There will probably be more reports of critical malfunctions, - especially if Denmark officially asks Sweden and Europe for assistance. Norway and France should do the same.

Such 'Dangerous Memes' are possessed with brainwashing in prisons too. Drugs and probably hypnosis technics like NLP (Neuro-linguistic programming) are used. (UU 2014.aug.22.) Such should be characterized as 'mental rape', where phobic hate is planted and projections directed towards opponents like Jews, civilians and democrats. In that way, the deal seems to be that the first massacre was on command of PROSA while the second massacre was a personal reward.

'Remote controlled Jackal memes' is an alarming thought. Although probably not quite so, - some of it is highly possible and probably true. The terrorist in Copenhagen certainly changed behavior in prison before the attacks. The terrorist in Oslo change behavior in Eastern Europe camps before the attacks. Europe's anti-terror chief Gilles de Kerchove has strongly warned about the radicalizations processes in prisons. There is certainly organized brainwash programs at work. The conditions are there, - including psychotic drugs.

'My Bloody Valentine' redefined what noise meant within the context of pop songwriting, like the Velvet Underground, Sonic Youth, and the Jesus and Mary Chain before them. Frankly, I chose this band because their name suits the situation. The song 'Don't ask why' also somehow suites, while the video is actually less disturbing than most. However, that also is descriptive for the event and situation.

Goo Goo Dolls – Iris (2)

2015.feb.13

Ukens Utvalgte

Some prophets stand out in the Quran and the Bible, - like Adam, Abraham and Moses. However, at that time, there were a no monotheisms, but a polytheistic myriad of gods, prophets, angels, jinns – that merged from the 3 rivaling theocracies of Persia, Egypt and Europe. A focus on a few prophets and empires is necessary to avoid overwhelming of myths, beliefs and lies. The focus is on ancient Egyptian theocracy and the rivalries with the pre-Islamic Persia. In fact, theocratic fatalities clearly show the need for in-depths social-psychological analysis at organizational level. Consequently, some following comments are quite unorthodox, - however, not blasphemous although it might be considered heretical.

About 4000 years ago, the expansions of the neighboring stone-age empires of Persia and Egypt overlapped. Their cultures were too alien and primitive for peaceful interrelations. Disagreements and misunderstandings became rivalries over lands, resources and peoples. Open wars of Thrones' armies did not settle the differences either. Neither did the Persian and Egyptian Temples' ulterior Games. The true religious philosophies were re-designed and became means for war Games of the 4th degree. For example, a tale of the ethics at play is described about the Persians capture of Pelusium from the Egyptians. The Egyptians regarded cats as sacred and would not injure them on any account. The Egyptian Polyaeus claims that the Persian Cambyses had his men carry the sacred animals in front of them under the attack. The Egyptians did not dare to shoot in fear of wounding the animals. Pelusium was stormed successfully, Egypt became the possession of Persia and Cambyses II became Egypt's Pharaoh and its twenty-seven dynasty in 500 BC.

The prophet Abraham is an archetypical patriarch of the 3 monotheisms; Judaism, Christianity and Islamism. It is often talked about, like in UU 2015.jan.23, UU 2013.aug.02 and UU 2012.jan.13. In brief, Abraham was sent from Persia to rule some newly concurred land from Egypt about 2000 BC. There was a royal reception in Egypt where Abraham brought Sarah. It is unclear what their goal was and what really happened, except that Sarah became sterile instead of pregnant. Back home, Abraham got his firstborn son Ishmael with the Egyptian 'slave' Hagar. Sarah expelled them and they might have returned to Egypt and formed a Persian-Egyptian family branch. Later stories of the prophets Moses and Jesus indicate such relations. However, the person Moses and the events are disputed when compared to other writings at that time. Nevertheless, theological Belief is not merely verifiable facts, but open for interpretations.

Moses is the main prophet of the Old Testament and important to the Torah, New Testament and the Quran. The Books of Moses tell the Creation myth 6000 years ago, the relations to Egypt, the migration and the journey until the people of Israel reached Promised Land of Canaan. Even though the tales are extensive and contradicted, - some main points are mythological important to the monotheisms. It is however not certain that Moses was a single person, or even existed.

Nevertheless, the books tell that Moses was adopted into the Egyptian royal family and raised by Egyptian royalists. He was the sole survivor after all newborn Hebrew boys were killed to avoid a prophesy of uprisings. However, Moses' tribe served as slaves for 300 years and were quite discontent about their faith. The slavery indicates that the Persians and the prophet Abraham failed in keeping the land. Moses might have been as a slave-master himself for his tribe. Prophesized or not, there were uprisings that included plagues, poisoning and child slaughter, including the Pharaoh's son (the 10 plagues of Egypt). The final tribal escape/exodus was violent with major casualties. The tribe escaped Egypt, crossed the Red Sea and settled in Canaan after 40 years, after Moses died.

Most particular is the nature of the self-proclaimed lord, and later god, God and universal creator. At the time there were no monotheism, but several rivaling theocrats promoting their personal supreme gods. The Persian polytheism consisted of angels, jinns and prophets, - as is in today's Islam. As mentioned in UU 2015.Jan.23 "The prophet Moses seems to be more influenced by a jinn than an angel. The appearance of the God's messenger, the Lord, is of smokeless fire, a desert wind and has a wrathful temperament. The prophet Moses even smashed God's 10 commandments, which should be regarded an unforgivable sin and even blasphemy." However, there were reasons for Moses overreactions. The tribe did execute most disrespectful rituals concerning an ox rather than a goat, - which indicates that the people did not consider Moses as their 'Savior'. However, using social-psychological Game analysis, it seems rather clear that the main objective of Persia, Abraham and Moses was to conquer Egypt with theocracy. Persian theocrats did not mean this minor jinn to become a supreme god, - only a temporarily Egyptian god in order to execute a CdE (Will Game category 'Coup d' Etat).

Some elaborations are found at Wikipedia. "Yahweh was the national god of the Iron Age kingdoms of Israel and Judah. The earliest reference to a deity called "Yahweh" appears in Egyptian texts of the 13th century BC. In the oldest biblical literature of that time, Yahweh is a typical ancient Near Eastern "divine

warrior" who leads the heavenly army against Israel's enemies. He and Israel are bound by a covenant under which Yahweh will protect Israel and, in turn, Israel will not worship other gods. At a later period, Yahweh functioned as the dynastic cult and the god of the royal house, with the royal courts promoting him as the supreme god over all others in the pantheon (polytheism). Over time, Yahwism became increasingly intolerant of rivals, and the royal court and temple promoted Yahweh as the god of the entire cosmos, possessing all the positive qualities previously attributed to the other gods and goddesses. Towards the end of the Babylonian exile, 600 BC, the very existence of foreign gods was denied, and Yahweh was proclaimed as the creator of the cosmos and the true god of all the world. In modern Judaism, it is replaced in reading with the word Adonai, meaning Lord, and is understood to be God's proper name and to denote his mercy."

Egyptian theology, however, was rather different from the pre-Islamic. They were originally advanced astronomers and the theocracy used astronomy to predict the future of nature. However, astronomy was soon abused and astrology took over. The Pharaoh king was believed to be descended from the gods and acted as the intermediary between his people and the gods. The details of religious belief changed over time as the importance of particular gods rose and declined. Their intricate relationships shifted, - including the sun god Ra, the creator god Amun, and the mother goddess Isis. Horus represented kingship itself and the son of Ra, who ruled and regulated nature. The Pharaoh ruled and regulated society. The Egyptians had elaborate beliefs about death and the afterlife including life force Ka, the spirit Ba and the combined Akh. About 2000 BC, the Egyptians came to believe that everyone had a Ba and the possibility of a paradisiacal afterlife in the New Kingdom, - after the soul had to undergo a final judgment.

It is uncertain if the Quran reference to Alexander the Great of Macedonia/Greece as 'Dhul-Qarnayn' (*The Two-Horned One*). However, he conquered both Persia and Egypt by simply beheading the Persian king. This was about 200 years after a Persian became Pharaoh of Egypt with the trickery tactic of using holy cats as hostages in battle. This event made the merging of the 3 imperial theologies, including Greek gods. It is talked through in UU 2012.09.28, UU 2013.des.27 and UU 2014.juni.06: "Ennead is the Greek name for the Egyptian theological system consisting of 9 gods. It was practiced in Heliopolis (the Sun City). The theocracy was further vitalized by the Ptolemaic dynasty that stems from Alexander the Great's army chief. The Ptolemaic dynasty was considered the Savior of Egypt and a royal divinity. The enneagram includes gods like Osiris, Isis and Set, and their threesome drama that symbolized the Sun's 'death', 'resurrection' and salvation. It is commonly known that the Sun's return re-occurs every midwinter and Christmas. It is however almost unknown that its estimative climax occurs every 2150 year when the Sun itself enter a new star constellation, - a new Age. The new world Savior and King of Kings' personality is bound to the astrological psychology for the Taurus (ox), Aries (goat), Phishes (fishes), and Aquarius (waterman) etc." As mentioned in UU 02.nov.2012: "Moses represented the Aries, Jesus the Phishes and the 'New Age' occultists await the next coming candidate of Aquarius. The source is from Egyptian astrology according to the video 'Religion Comes from Ancient Astrology and Sun Worship'." (See video link hereunder.)

What is true belief then? This UU has mainly been about un-true Belief in a philosophical sense. True Belief will be talked through in a later UU in this theme dedicated 'Charlie' and the Paris event of 7/1. Nevertheless, for sanity's sake, - there was not developed theocratic tyrannies based on folktales of Robin Hood, Santa Claus, Elves, Peter Pan or Superman. Neither should be done with folktales about angels and demons. However, done is done, - but should be reversed.

In relation to social-psychological 3x3 Game analysis, - such is not about Belief (Superior-Ego), but rather Drive (Superior-ID). There is an ancient war strategy called 'Breed Them Out' (BTO) that suits the Drive category AF (Animal Farm). No wonder polygamy and slavery was introduced. The men were sent to kill each other and their women became spoils of war. True theology of Temples were abused by Thrones to gain access via OverConscience Belief (OB). Although Persian drugs probably was an effective secret weapon to cause 'dangerous memes', they probably did not know the Egyptian counter-weapon 'hypnosis', - at first. The combination can cause even more 'Dangerous Memes'. Some of the results can be read in the scripts of false prophesies. In other words, - post-stoneage warfare was far more advanced than commonly realized today. The results of humanity's damaged mental health indicate so. A main challenge is then to

prevent psychotic apocalyptic Games to rise from 3rd to 4th level and again cause irreversible 5D damages. (Basic theories of Games are talked through in UU 2014.sept.12.)

Post Script: Since it is Friday the 13th today, some previous comments of UU 04.jan.2013 about the number 13 is translated: "It is interesting to know that there actually was a 13th star constellation called 'the serpent-bearer' (Ophiuchus). It is special because it stretches over several 'houses' (constellations) and is thereby considered major (or minor). The serpent holds other constellations together and influence them. It might also relate to the symbol Caduceus/medicine for Hermes (Mercury). Today, the number 13 is mostly associated with misfortune, like the 13th apostle Jesus. Astrologically, a 13th star constellation would disturb zodiac astrological predictions and prophesies." (See also the fascinating song 'Astrologen' in Extra UU 2015.Jan.23.)

The song 'Iris' with the Goo Goo Dolls is a visually and musically masterpiece. Iris is a Greek goddess that might relate to the Ptolemaic dynasty of Egypt and the goddess Isis. Anyhow that interpretation, the lyrics provides an exercise in trying to understand the psychology of divine myths, - that most certainly exists even though such creature might not. The song is previously presented in UU 2010.sept.10 and extra UU 21.dec.2012. The translated comment is: "There are some astonishing astronomical measures and maps the pyramid-people made at both continents (Africa and America). The Egyptians pointed out that the sun seems to set on 21/12 and rise 24/12. The Egyptians figured out that before each Era/Age (2150 years) the three stars in the Orion's belt, and Sirius, points to the 'resurrection' in a new star constellation. Before Moses' Age, there were the Taurus (ox), the Aries (ram) for Moses, and the Fishes for Jesus and there will be an Aquarius (waterman) about the year 2150 AD. In other words, there will be no New Age this century and no call for such apocalyptic genocides. (See video link hereunder.)

Taking the liberty of impulsive associations, - it is quite imaginable with a 4000 years old basket rather than a present boat. The band Madness formed in 1976, but had their breakthrough 10 years later. They had several hits and became most popular for a while. At some time, some political extremists figured the band's outfit was inappropriate to their ideological beliefs. Games were set in motion and finally split the band.

Danielle Dax is an English performer whose mysterious and experimental work reflected the strong influence of biblical mysticism and Middle Eastern musical textures. In relation to this UU, the association is the occult spin-offs from the processes of merging polytheisms into monotheisms. When her original band Lemon Kittens' split 1982, Dax mounted a solo career. She had success with the album Inky Bloaters and

Dark Adapted Eye. A dominant influence on her work was Marc Bolan whose cryptic lyrics and ear for a fuzz guitar. 'Big Hollow Man' is as excellent a revamp and updating of the classic T. As there is a Christian saying; 'Like the devils read the Bible' – there should be a Muslim saying 'Like the demons read the Quran'. Like anything, - human nature can be abused for death and misery rather than LifeQuality. The prophets writings can be abused as well, - and an Islamic State (IS) can too easily convert to an Iblis State. Since the Quran is written to jinns as well as humans and angels, - it is dedicated demons too. Then it becomes humanity's own obligation to know, detect and react when positive values of GCR (Good/Constructive/Right) turns negative BDW (Bad/Destructive/Wrong) and threatens all.

Because nothing is ever written by God/Allah directly to humans, - all writings rely on the prophets' and messengers' ability and will to deliver flawless citations. However, there is a vast chance for errors in replicating, translations and interpretations. 'Prophet and messenger' are key terms frequently used in Islam to describe the numerous divinely inspired men who claimed to convey God's message to humanity. These men include Adam, Noah, Abraham, Moses, Aaron, John, Jesus and Muhammad. Yet, Islamic men forbid women into their divine domain, which cause a too single-sided influence on the communications. None of them is perfect and women might fill up some of their deficiencies.

The actual differences between a prophet and an apostle/messenger provoke debate among Muslim scholars that cause divisive interpretations of the writings. Muslims believe that over 124000 prophets were sent to humanity and the jinn. The Quran also speaks of the Prophet Jesus's disciples, but does not mention their names. However, Muslim exegesis and Quran commentary does and includes John among the disciples. An old tradition, which involves the legend of Habib the Carpenter, mentions that John was one of the three disciples sent to Antioch to preach to the people there.

It is well known that the some of the prophets' writings are the cruelest inhuman statements publically allowed. In fact, as Satan/Iblis tempted Jesus, other prophets certainly were too, - some probably without detection. No one have proved otherwise. However, with a focus on positive LifeQuality, based on human needs and rights, this UU will not go into the details of those cruelties, but rather focus on consequences of the H.R. violations.

An extreme method of 'reward or punishment' is by 'virgins or flogging'. In fact, stone-age inhumanity like public stoning, flogging, amputation and beheading is promoted on internet and blasphemously blaming God/Allah for it. Contrariwise, - virgins are made slaves due to their religious belief in God. That is crimes, which can be judged to mutilation, torture or death penalty according to [Sharia law](#). The enslaved virgins' Human Rights are violated in no better way than the Ariel Castro case in US, the Fritzl case in Belgium or any other abusive pimps. Such misinterpretations are the deceivers' guide to adultery.

Any Islam leader know very well that suicide is a sin according to the Quran, Allah and Muhammad. The Quran forbids it by stating, "do not kill or destroy yourself". The hadiths also states that suicide is unlawful and a sin. Yet, like some Iblis servants, certain Islamic theocrats deceive and persuade their cult members

to commit suicide to massacre other innocent humans. However, by doing so, the theocrats will probably return to the Hell they came from. Furthermore, just for the argument sake: Consider that there could be a reward of 40 virgins in an after-life. However, life after death is not physical so sex and mating is impossible. There would be no physical love, but rather the responsibility to 40 virgins nagging eternally about their misfortune. That would surely be hellish.

There is going on social-psychological Games in the meta-category Animal Farm (AF). Some are closely related to the category Sexual Games (ID), - like the LYAHF - Let's You and Him Fight (UU 2015.jan.30). Ironically, rivals beating each other might as well beat themselves to achieve the same outcome. However, the LYAHF Game has an ulterior 3rd party that makes the two fight to finally run off with the winner and the spoils of the looser. It is a win-win-lose Game. Basically, the 1st degree of LYAHF is animalish, like when two males fight over a flock of females to breed. However, such an UnderConscience Drive (ID) is biological and overruns Will (Ego). The biological cause is that females smell blooming pollen of plants in the spring, their hormones automatically produces estrogen hormones that triggers male testosterone hormones and the Drive to fight for reproduction and survival (UU 2014.jan.10). However, this biological phenomenon is abused logically in 2nd and socially in 3rd degrees of the Game. The Abraham family affairs show how complex that can be over 200 generations (UU 2015.Jan.23). The Islam State, as an Temple/State OverConscience Belief (Superior-Ego), clearly abuses this natural Drive with OverConscience Drive manipulations (Superior-ID), when girls are made cheering men to massacre rivals in the most beastly and cowardly ways. The executors imagine 40 virgins as the possible spoil. Unfortunately, certain prophets clearly state that this collective archetype of stone-age sexual Games have always been abused in this way.

A new AF Game can be defined in the same concept. Empirically, there seems to exist a 1st degree of Game called 'Touch and Go' (TAG). It can be elevated to 2nd 'Hit and Run' (HAR) and 3rd 'Bomb and Transdent' (BAT). There is even a 4th degree at meta-level that is 'Apocalyptical'. As mentioned in UU 2012.nov.02: «Almost 90% of humanity believes in gods and half believe in God, Angels and Jinns. It is therefore social-psychologically vital that theocrats clearly express what is right and wrong in the writings. Lack of clearness will influence humans, humanity and society considerably in sinful ways. For example, 'The Book of Revelation' (The Apocalypse) that referred to John the Evangelist, is so full of evil insanity that it clearly is written by some seriously mentally disturbed persons, - possibly possessed by jinns. Nevertheless, that apocalyptic psychosis deviates in several ways from the other writings in the New Testament and does not belong amongst them. It has similarities to the occult of certain writings in the Old Testament.” Alarmingly, the main objective of The Apocalypse is that only 144000 humans shall survive that human genocide. Terrifyingly, humans are now able to execute such scripts for real. That needs to be taken care of in unorthodox ways of thinking and handling.

A hypothesis in UU 2013.juni.28 indicates that such attempts is already tried out, - hidden in plain sight: “Theologically, a motivation for EW1 (WW1) might stem from occult interpretations of the Tunguska event in 1908. No one could rationally or theologically explain the explosion that was 1000 times the Hiroshima bomb and noticed globally (Ref UU 2013.juni.21). The formal powers of theocracies in Europe was a protection towards occult theocracies and safeguarded the Thrones and Temples. With EW1, the whole Throne/Temple structure fell and opened up for occult deceiving figures like Rasputin, Gurdjieff and Hitler. The apocalyptical script of John the evangelist opened up for occult scripts from Nostradamus collection of 'prophesies'. John tells about 4 doomsdays' horsemen and Nostradamus tells about a doomsday dictator called 'Hister'. However, the scripts are absolutely no divine prophesies at all. They are scripts for psychotic sociopaths that want to execute civilizations' 'worst-case scenario', preferably merely on rivals' territories.

Anyhow, back to the basics, - how should humans relate soundly? Firstly and most important, - although genetically more different from any kind of men, - man and woman can and should very well co-exist in mutual respectful agreement. It is quite possible; - the vast majority of humanity has proved it throughout all of our existence. They are simply sound families. However, some 'dangerous' memes of traumatized theocrats should not be allowed to overrule sanity and get away with blaming God/Allah for it. They need confrontations. It is however a hard nut to break. The prophet Jesus proved that with his life by forgiving misguided humans for their unintended sins. Yet, - even though there are doubts of his heritage, - there is

no doubt about his democratic prophesy in the Quran. Such is needed to prevent another 4th degree Apocalyptical Game by another Hister wannabe.

Vincent Furnier, alias Alice Cooper, made several cabaret numbers where he dug deep into the inner and murky self. He came up with some quite artistic performances. Some characters were like Mephisto, Dr. Mabuse and Mr. Hyde. Later repertoires include figures like a traumatized boy (Steven), an urban terrorist and a mental patient (Dwight Fry). The musical performance was quite professional due to support from Frank Zappa and the Warner Bros. However, taken out of its content and performed as a cheap rock concert, - it loses the original significance. This UU 'Pick up the bones' presents a defensive victim of evil brutality. The album's title song 'Brutal Planet' presents a rather offensive and honest view, which would be silenced if it was directed towards certain theocrats. The very early album 'Love it to death' presents some reasons of how and why Vincent became Alice. The album is even somewhat religious. The song 'Is it my body' is a riddling about possessions and the song Black Juju is a theatrical story of the transition of the Christian Vincent to the alter ego Alice by drugs and hypnosis. Originally, Black Juju is an African voodoo used to protect against slavers' evil. Musically, it sound a bit like The Doors and is probably inspired by them.

Gary Numan – Pure

2015.jan.30

Ukens Utvalgte

Purity is an utmost theological value and required of women at an almost inhuman level. Still, neither humans, angels nor jinns are pure or free of sins. None was created all-knowing or almighty. Still, the Quran is made by man, angel and djinn with no woman involved. They are in power while human women and slaves are made inferior. Religiously real or not – clearly there is an urgent need for social-psychological therapy of family concepts at organizational and cultural level. There have been 'family' violence and traumas at large scale for 4000 years – through 200 generations, - starting with the Prophet Abraham's family affairs.

Slavery of humans is highly promoted in the Quran. Wikipedia writes that: "Slaves are mentioned in at least twenty-nine verses of the Quran. Women's rights were severely limiting for slave women who accepted Islam and women who refused to accept Islam. The Quran recognizes the basic inequality between master and women slave, between free women and slave women, as well as their unequal rights. According to Muslim theologians, it has been lawful for male masters to have sexual relations with female captives and slaves without her consent; the purchase of female slaves for sex was lawful from the perspective of Islamic law, and this was a motive for the purchase of slaves throughout Islamic history." Frankly, that ethics of providing (non-Muslim) virgins as reward and promoting sex-slaves is certainly pimping.

Both the Old Testament and Quran refer to the same O.T. prophets that promote inhumanity like torture, terror and massacres. Such is banned and criminalized in most civilized cultures in accordance to the obligations of the Human Rights conventions. However, extreme Islam sub-cultures abuse the prophets' verses to promote personal powers with terror, - and dare blaming God for it. For example: Boko Haram began kidnapping large numbers of girls and young women for sexual use. IS (Islamic State) has taken as many as 2000-7000 women and children captive, selling and distributing them as sexual slaves and virgins were given to commanders as sexual slaves. A prominent Saudi cleric, Shaikh Saad Al-Buraik, recently urged Palestinians to do exactly that with Jews. Most Muslim scholars found the practice inconsistent with Quranic morality though. However, Shaykh Saleh Al-Fawzan issued a fatwa claiming that slavery is a part of Islam and jihad. He attacked Muslim scholars who said otherwise.

The Arabian slave trade in Africa has been extensive since the days of Abraham, - and still is. The relative short period of slave trade to America 200 years ago was a fraction of this. At that time, the Arabian slave trade also included a million white Europeans, - also from Norden. It was made possible with converted Europeans as middlemen. However, Arabia never stopped the slave trade. (UU 2013.Juli.26). One can question if some that tales of plagues in that period were cover-ups for kidnapping Europeans for slavery. Anyways, after the Muslims invaded Roma2 (UU 2014.april.25), large-scale assimilation programs were set in motion, such as the Muslim got 10% tax while the Christians got 50%. Most infamous is the Janissaries (i.e. 'new soldier'), an elite corps of slaves recruited from young Christian boys. They fought the Christians in Europe brutally. The number of Janissaries grew to 49000 at the most. However ironically is the massive increase of Janissaries (music) corps in the Nordic folk-schools and LO (trade union) during the Cold War. No one seems to know the real history and missions, though. (UU 2014.jan.10.)

A reason for the diluted misinterpretations of the word Allah/God seems to stem from before the Quran: "In pre-Islamic Arabia amongst pagan Arabs, Allah was not considered the sole divinity, having associates and companions, sons and daughters – a concept that was deleted under the process of Islamization. In Islam, the name Allah is the supreme and all-comprehensive divine name, and all other divine names are believed to refer back to Allah. In Islam, Allah is unique, the only Deity, creator of the universe and omnipotent. Arab Christians, however, use terms like Allāh al-Ab, meaning 'God the Father'. There are both similarities and differences between the concept of God as portrayed in the Quran and the Hebrew Bible." (Ref Wikipedia.) Still, it is uncertain how much of the pre-Islamic pagan concept have influenced the ancient prophets and today's followers, since they also were 'pre-Islamic' without knowing it at the time.

Human Rights societies hardly realize the scale and consequences of the theocratic sexual abuse of women. However, Norwegians were alarmed by the so-called Marte case that caused a global web-storm in a week. The psychosocial Game at play was clearly 'RAPO': A Norwegian Christian woman and a Muslim man had sex in Dubai. It is unclear if it was voluntary or not. However, she reported rape to the local police. The girl withdrew the charge after warnings from some locals. Then the police jailed her for two years for false acquisitions, having sex with a married man and alcohol consumption. The Norwegian UD (Foreign Ministry) kept silent in four months until the media was informed. The global democracy protested with web-petition that caused diplomatic and commercial penalties for Dubai. The Emirate/Throne pardoned both, so the economic sanctions stopped and the case was silenced again. UU 2013.aug.02.

Believable or not, - there are some ethical/legal background for this: "In Islam, sexual intercourse between a Muslim woman and any man to whom she is not married is zina, a religious crime. This includes extramarital sex, premarital sex and rape. It is listed as a hadd crime, i.e. a crime against God (murder of a Muslim; theft of a Muslim's property. Zina; consumption of alcohol or other intoxicants; and apostasy). The punishment in Islam for unlawful sex is fixed at a 100-lash public flogging, or stoning to death. Accusing anyone of sex crime or rape, without proper witnesses, is also a hadd crime." "Zina cannot be alleged by any woman or man without four male Muslim eyewitnesses or without confession in court by the man who committed zina. This sharia requirement of four eyewitnesses severely limits a woman's ability to press rape charges, a crime often committed without eyewitnesses. Sex with a non-Muslim slave women is not considered adultery. This principle of religious crime only applies for unlawful sex between free Muslim

men and free Muslim women.” (Ref Wikipedia.) Consequently, the man would get free, even if there was rape, because raping a Christian is considered legal in such interpretations.

The Marte-case is surely an example of what is called social psychological RAPO Games of 3rd degree according to Eric Berne’s theories. It is also used as a foundation for the 3x3 Game category called AF (Animal Farm) that is built on the category ‘Sexual Games’. The Games are basically ID-driven like in Freudian psychology - and are extended in the 3x3 model to include Jungian social psychology. Furthermore, taken from UU 2014.dec.19: “‘Organized Insanity’ in S-E/S-I (Superior-Ego/Superior-ID) relations for organizations’ and nations’ is talked through in UU 2014.jan.10 and UU 2013.april.12: “The destructive potentials (of modern occultism) can hardly be worse than in relation to Freud/Berne psychosocial Game-analysis. It can function like a dominating and psychotic Superior-Ego that can transfer its psychosis to the client’s S-E, make ID’s neurosis and even split it’s Ego. There are potentials for the whole spectrum of Berne’s described Games, - especially LYAHF, NIGYSOB, Debtor, SWYMMMD, Courtroom, LHHIT, Schlemiel, WDYYB, Rapo, Uproar, HDYGOH, LPFOJ, IOTHY and certainly Psychiatry.”

‘Quite normal insanity’ is a transliterated term that was talked through in UU 2013.april.05. “Unfortunately, the state of the mental health can be so troublesome that it unprofessionally is called ‘madness’. Even worse, the condition might develop to a collective norm in the society, - ‘quite normal insanity’. Therefore, it is important to understand what the professionals mean and what can be done to improve the state, - even if the theme is taboo. As indicated, the collective pressure on individual humans can be the direct cause to psychological crises. It might happen when the national State (Temple or Throne) takes on the role as a dominating Superior-Ego, - as a Mama- or Papa-State (Temple or Throne). In addition to the personal sufferings, it can cause mass psychoses, double-morality and mass-neurosis that explodes in uprisings. This has been seen in so many autocracies, - that rise and fall in orgies of violence. It is however less likely to happen if the society is based on the respect for democratic LifeQuality.”

The Muslim male attitude towards women stems from the archetypical memes of the Eden incident, described by the prophet Moses. As mentioned in the previous UU 2015.jan.22 and UU 2015.jan.15: “All angels are fallen in the sense that even those that bowed for Adam had to face the consequences that Prophet Adam disobeyed God in the Garden of Eden. A second fall of the rest of the angels are unnoticed, though. However, a woman and a jinn, in the form of a snake, were left with the blame.” It is a curious tale in many ways, though. Anyways, the Jews became slaves in Egypt, which they escaped with the prophet Moses and God’s help. Neither Jews nor God are certainly do not favor slavery, but rather fights it. The Prophet Jesus forgave sins and practically freed humans from their bondage. Christian priests continue forgiving sins in Jesus place. Who is then in favor of enslaving humans, when prophets and God oppose it? Theologically, - it must be fallen angels and jinns, - those who influenced the prophet Muhammad with making the Quran.

On the other hand, matriarchal power and Games should not be underestimated. There is truth in the saying ‘Behind every great man there’s a great woman’. Abraham’s women definitely played LYAHF (Let’s You And Him Fight) which has been going on for 4000 years – 200 generations – and still goes on. This is definitely a 4th degree Game in the meta-category AF (Animal Farm), where Drive biology overrules Will and Belief. Such themes were talked through in a summary in UU 2014.dec.19. It touches upon issues about ‘Dagmar’s last meeting with Rasputin’ (UU 2014.mai.30), the Jante-culture promoted with pedocracy in Nordic Folk schools (UU 2013.nov.15 and UU 2012.April.27) and generally about Superior-Ego Patriarch/Matriarch in UU 2014.jan.10. A consequence of the theocratic Patriarchal abuse over Matriarchs is that some matriarchs manipulate the boys and girls into their Will to alter the Games. The next generations of patriarchs becomes altered – and confused, - believing they are in power. Furthermore, the internal gynocratic pecking order is certainly fundamental for the Jante Gimmick (UU 2014.aug.01). Anyways, at organizational level, - it all points to the most serious social-psychological conclusions and that theocracy is of urgent need for professional healing.

Gary Numan is mostly known for hits like ‘Are 'Friends' Electric?’, ‘The Park’ and ‘Cars’ in the early 1980s. He was rather innovative with the use of synthesizers and his vocal. His lyrics are rather alien and he

became so to the audience. In this century, the style is more classic hard rock. The album Pure was a follow-up on Exile, where the lyrics are openly hard critics of Christian (and related monotheistic) dogmas. The lyrics indicates that he had some very bad experiences with theocrats and finally flipped. The song Sacrifice expresses the extreme attitude towards women in extreme pre-Islamic cultures – what is seldom admitted, but clearly expressed otherwise.

"Fighter" by Christina Aguilera is from the album Stripped. It is musically inspired by band Guns N' Roses' song "November Rain". Lyrically, Aguilera kind of thanks a man doing wrong to her for making her strong. Aguilera told about the lyrics that there was a very chaotic and abusive home, where she did not feel safe. In school, Aguilera was picked on and alienated because of her musical passion. However, it made her become smarter and stronger. The writing process of 'Fighter' began during her promotion for her debut album in 1999, when she was a part of the big craze pop phenomenon when making the debut hit 'Genie In A Bottle' (jinn). A later, song called 'Army of Me,' is sort of a 'Fighter 2.0.'

Medina - Velkommen Til Medina

2015.Jan.23

Ukens Utvalgte

Medina is the burial place of the Islamic prophet Muhammad and the second holiest city in Islam. A Danish singer took the name Medina by advice of a numerologist. The erotic appearance has been controversial and upsetting to some local Muslims, - not as much as the infamous cartoons though. Anyways, Islam is not like the patriarchal rigid theology that men of Sharia law claims. The Muslim women are not as inferior that some theocrats claim and want. Actually, the Quran is written to jinns (spirits/demons) as well as humans and angels.

There are three recognized versions of the monotheistic belief; the Jewish, the Cristian and the Muslim. More than half of the world population believe in the religions that include belief in angels and demons. Consequently, the majority believe in the presence and influence of (at least) two other intelligence lifeforms that are older and probably more advanced than we are. None of them is exclusively good or bad though. Consequently, the term 'monotheism' is not quite correct. They are rather pantheistic, since they are mixed up with several Mediterranean polytheisms of Egypt, Persia and Europe. Still, there are several pre-Islamic demi-gods kept in the O.T., N.T. and Quran that still dominate some pantheistic sub-cultures (UU 2012.Mars.30).

Wikipedia seems quite honest, objective and enlightened concerning religions. Here is a summary about the jinns/spirits/demons: "In Islamic theology, jinn are said to be creatures with free will, made from smokeless fire by God/Allah. They are frequently mentioned in the Quran. Surah 72 is named after a jinn and has a passage about them. The Quran also mentions that Muhammad was a prophet to both "humanity and the jinn". Jinns are usually invisible to humans, but humans do appear clearly to them. Jinns will also be judged by God and be sent to Paradise or Hell according to their deeds." "The social organization of the jinn community also has kings, courts of law, weddings and other rituals. One common belief in Muslim lore lists five distinct orders of demons. 'Abd Allāh ibn Mas'ūd, who was by Muhammad when the jinn came to hear his recitation of the Quran, described them as resembling like vultures, snakes, demons, dragons or human form to mislead and destroy. Jinns are even believed to possess, manipulate and command humans." Since an angel dictated the Quran to a human and jinns were involved, - it is reasonable to ask if demons were involved in the editing of the Quran too.

As mentioned in the previous UU 2015.jan.15, all angels are fallen in the sense that even those that bowed for Adam had to face the consequences that Prophet Adam disobeyed God in the Garden of Eden. A second fall of the rest of the angels are unnoticed, though. However, a woman and a jinn, in the form of a snake, were left with the blame. Even the prophet Moses seems to be more influenced by a jinn than an angel, since the appearance of the God's messenger, the Lord, is of smokeless fire, a desert wind and has a wrathful temperament. The prophet Moses even smashed God's 10 commandments, which should be regarded an unforgivable sin and even blasphemy. Gabriel/Muhammad called Jesus a prophet and not 'son of God'. However, theologically, the appearance of angels at his birth indicates that he might have been a Nephilim. Neither angels, humans nor jinns are much in favor of such 'offsprings' of the 'sons of God' and the 'daughters of men', which ones were by the hundreds (O.T. Genesis 6:4). Anyways, Jesus was executed due to claims of blasphemy. Neither Jews nor Muslims recognize his divine Christian status. Neither Gabriel nor jinns do either, since the Quran is recognized by them too.

Most archetypical and influential is the patriarchal prophet Abraham, - and his three rivaling women. They gave birth to ancestors of the three monotheist versions. Abraham left the region of today's Iran/Iraq and claimed land in the warzone between Egypt and Arabia. He claimed that (the only) God gave it to him. He got his firstborn son Ishmael with the Egyptian Hagar. His second son Isaak was adopted by Sarah from some angels and became the Jewish ancestor. Finally, Abraham married Keturah and got six sons that became the ancestors of the Muslim tribes. (Ref UU 2013.aug.02 & UU 2011.april.15.)

Some basics of the Games at play are: Sarah's relation to Abraham is uncertain, except that she was presented as his sister to the Egyptian regime. Sarah became sterile and jealous with Hagar and had them cast out to the wastelands. Sarah adopted Isaak as her own son from two unnamed angels. However, Abraham claimed that God commanded him to execute Isaak, which was contra-dictated by an unnamed angel. The Testament of Isaac mention the archangel Michael, though. Finally, Abraham married to Keturah and got a large family. Since then, in 4000 years, the most violent and destructive Games of war have been referred to these culture and events. It has spread worldwide and does not seem to adopt any kind of peaceful settlement. The Charlie massacre in Paris 7/1 is a reminder of that.

Anyways, - there were some kind of stone-age psychology and stone-age psychiatry at the times of the prophets. It is quite (psycho-) logical, since 'psyche' means 'soul' and therefore relates to a wide range of theologies, myths and believes. Religions are closely related to psychology and talked through in UU 2014.okt.10: "Religion is also called 'the first philosophy'. It concerns any major unanswered question and not merely the theological ones (UU 2013.des.27). Therefore, the 3x3 model's ego-state 'Belief' is a general substitute for Freud's Superior-Ego. This means that laws, ethics and rituals are included. Moreover, the 3x3 model adds the 3 levels; UnderConscience, Conscience and OverConscience (U, C and O) to the 3 classic ego-states Id/Drive, Ego/Will and Superior-Ego/Belief (D, W and B). Temporary key-words for the ego-state Belief are: UB; Intuition, obsessions, rituals, psychosis. CB; Philosophy, religion, politics, ethics. OB; [S-E] Traditions, rituals, superstitions, hypnosis (and memes)". The models are described in English in UU 2014.sept.12." Furthermore: "'Belief' is an extended substitute for Superior-Ego. The reason is that Jung's

theories include 'religious psychology'. However, 3x3 Belief also includes any belief-system, like theories of anthropology and any science."

Religion is not merely fundamental for psychology, but consequently to psychiatry as well. Uses and abuses of drugs has always been highly related to psychiatry. Plants are older than humans and psychotic drugs are especially grown in the middle-east regions, where the monotheisms were made. As talked through in UU 2014.aug.01 and UU 2014.dec.19: "Hallucinations/psychosis occurs mostly by poisoning or brain damage. Damages can be caused by Alzheimer, brain tumor, Parkinson and syphilis. Poisoning can be caused by narcotic hallucinogen drugs or lack of vitamin B. In brief, the categories of drugs are; psychedelic drugs like LSD and mescaline (hallucinogens), euphoria drugs like hashish, paralyzing drugs like morphine and heroin, in addition to central-stimulating drugs like amphetamine and illegal designer drugs like XTC (dopamine), (which is counter-dosed with legal anti-dopamine by the institutional psychiatry)."

As mentioned in UU 2014.dec.19: "A related question pops up. What could be most archetypical memes of all humanity? – The rivalries of Abraham's three women and the horoscopic Belief in the Ages? (See UU 2013.des.27)" The answer in this UU Theme 'Charlie' is a definitive YES. The following UU until Easter will take a more social-psychological turn.

In Freudian psychology, an analysis will focus on unsound S-E/Id relations caused by suppression of the personality/soul (Ego). In social psychology, like family therapy, the analysis will focus on dominating parents representing S-E like patriarchy/matriarchy, and uncontrolled ulterior growth of child-like drives like Jerk/Nerd/Sulk. The 3x3 model at organizational level will focus on the same, however extended to the states called Belief and Drive. Furthermore, the Drive-related social-psychological Game LYAHF (Let's You And Him Fight) is clearly still at play after 4000 years, lately with Charlie in Paris.

The erotic song "Welcome to Medina" indicates a permanent conflict of our (Jungian) 'Secret Worlds' (UU 2014.aug.15) that should not be suppressed, projected or punished by deluded Superior-Egos.

As mentioned, Medina got her artistic name from a numerologist. That reminds of UU 2012.sept.28 where occult dilemmas of astrology, numerology and enneagram were talked through. A person found his matching love by astrology in the song 'Astrologen' by Magnus Ugla. However, he had to break up when he switched from astrology to numerology that predicted opposite faith for them. The ironic text indicates the fundamental complications the occult based pantheisms really are. Astronomers have tried to describe our solar system for thousands of years. They were powerful pseudo-scientists and closely related to the theocracy. At that time they 'knew' the Universe was as flat as the earth and that planets, meteorites and comets were wandering stars and presumably angels. Maps of stars and planets got childlike figurative drawings with deterministic symbols, that were abused to predict faiths and control other people. The horoscopes were misleading and primitive maps and completely useless, - at the best. However, occult astrology, based on pre-Islamic demi-gods, is still important for decision maker, - that causes wrong and even destructive decisions.

Cat Stevens - Wild World

2015.jan.16

Ukens Utvalgte

Cat Stevens converted and became Yusuf Islam. This famous song 'Wild World' was made as warnings to a young runaway girl. Nowadays, converting youth need such warnings about the growing wild sides of the Muslim world. A few but powerful theocrats promote anti-human misdeeds and dare blaming God for it. Like the true prophets rejected temptations of ulterior evil, - any true believer should reject Iblis in any appearance, deception or command. The wild world holds world-records in slave-trade, abuse of psychotic narcotics, hypnosis and other human rights violations. This UU is an escalation of Yusuf's warning for the converting people. With this, a new UU theme 'Charlie' is started – in a spirit of GHRL (see UU 2014.okt.17).

There are needs for proper definitions to understand what is right and wrong, like there are need for proper maps in new worlds. A main basis of the theocratic crimes is based on deliberate abuse of the word 'blasphemy'. Firstly, "a prophet is (merely) a human who is claimed to be contacted by the supernatural or the divine, and to speak for them." "The Quran identifies a number of 'Prophets of Islam', including Ibrahim (Abraham), Musa (Moses), Isa (Jesus) and even Adem (Adam)." "Prophecy is claimed in many cultures like Judaism, Christianity, Islam, Ancient Greece and Zoroastrianism. There must be thousands of prophets of all qualities. Muslims do not consider the prophets Adam, Abraham, Moses and Jesus as 'perfect' and should not claim such for Muhammad either. (This paragraph is mostly from Wikipedia and the rest is mostly translated from UU 2013.aug.02.)

The archangel Gabriel is claimed to have dictated the Quran from God/Allah via himself and then via the prophet Mohammed. However, it cannot possibly be perfect, since neither humans, angels nor djinns are capable to fully understand God, - far from it. Faults, errors and misinterpretations in the prophets' scripts are therefore certain. Besides, an archangel like Gabriel is of a lower rank in the hierarchy of angels, without proper insight of God's 'big picture'. Besides, any angel's liability is as questionable as for djinns, since the scripts say that 1/3 of the angels were cast from Heaven for disobeying God's command concerning Adam. The remaining angels' belief is also questionable, since the prophet Moses wrote that God expelled Adam from Paradise due to direct disobedience towards God.

"Blasphemy is the act of insulting, contempt or disrespect to God. Blasphemy concerns only God and does not apply for humans, angels or djinns. However, - heresy does. Heresy is any provoking belief or theory that strongly differs from the established beliefs, teachings or rituals. 'Heresy' is particularly used in reference to Christianity, Judaism, Islam and even Marxism. The difference between blasphemy and heresy was enlightened in the prophet Jesus dispute with Jewish theocrats. Jesus said, "Your sins are forgiven" and was accused of blasphemy, with the argument that only God can forgive sins (Matthew 9:2)". Blasphemous or not, - heresy indeed, since the prophet Jesus opposed the previous prophets' interpretations of God. Anyways, questioning any prophet's reliability is not blasphemous, but quite the opposite. Heresy is necessary for quality insurance of God's true messages – to avoid real blasphemy.

The main sources of the Sharia law are the Quran and the Sunna. The Quran claims to be dictated from God via Gabriel and Muhammad. Sunna, on the other hand, is Mohammed's own (human) interpretations and exemplifications. Sunna is strongly influenced by the Old Testament of Jewish prophets and later theocrats' interpretations in the Torah. Therefore the Sharia and Torah is rather similar, while Christian humanism contrasts much of the older prophets' interpretations. Anyways, O.T., N.T. and Quran say that everyone will be held responsible directly to God. Consequently, no theocrat can execute prejudice punishment for blasphemy, even if some stone-age prophet in wartimes might have expressed so. Slavery, death penalty and terror seem to be human commands during wartimes. For example, the scripts do tell about cases when God/Allah's counterpart seduced prophets. Clearly not all temptations were discovered and rejected by all the prophets.

Now it seems as risky to criticize Muslim theocrats, as it was to criticize Christian theocrats during the inquisition and the democratic Reformation to 'Protestantism'. Anti-democratic dictatorial theocrats seem desperate to keep powers over God's peoples. Crimes in God's name happen when theocrats judge Heresy for blasphemy, - like they were God themselves. Fatwas argued in blasphemy is blasphemy in itself because the issuers have put themselves in God's place and execute prejudice in contradiction with the G.T., N.T. and Quran.

Unfortunately, false prophets, theocrats and preachers get away with their crimes toward humans and humanity. Blaming God for own misinterpretations is no excuse at all. We are responsible ourselves to deal with such deceptions and crimes like for any other crime towards humans and humanity. True believers should treat such in sound social-psychological ways. The humanity of the Human Rights is not contradicting God. No theocrat's interpretations should be allowed to overrule that.

As mentioned, a new UU theme 'Charlie' is started and will run weekly until Easter. This will be in the spirit of GLHR and especially with respect for the freedom of religion and expression (UU 2014.okt.17). However, the sudden and beastly violation of Charlie has emphasized the necessity for the models of 3x3, LQ and Games in order to turn this minor 5D event and to avoid major ones in this century. As mentioned in the previous UU 2015.jan.09, this concerns in particular humanity's 3x3 OB (OverConscience Belief) and UD (UnderConscience Drive). Moreover, the event has made an opportunity to further develop the theories of the new categories of 4th degrees meta-Games. The Will-related Game category CdE was talked through in UU 2014.sept.12 and 2014.okt.10 to 2014.dec.19. A Drive-related Game category AF (Animal Farm) was mentioned in UU 2014.dec.19. The third 3x3 meta-Game category is Belief-related and might be called something not yet realized.

Yusuf Islam, alias Cat Stevens, is a British singer-songwriter, multi-instrumentalist, humanitarian, and education philanthropist. While on holiday in Morocco, Stevens was intrigued by what was explained to him as 'music for God'. In 1976, Stevens nearly drowned and shouted: "Oh God! If you save me I will work for you." This brush with death intensified his long-held quest for spiritual truth. Stevens' brother brought him a copy of the Quran as a birthday gift from a trip to Jerusalem and began his transition to Islam.

Simon & Garfunkel – Sound of Silence

2015.jan.09

Ukens Utvalgte

'Sound of Silence' by Simon & Garfunkel has a rather fascinating story. Now, after the 7/1 Paris event, it is easier to understand what it means. It all touches our UD (Underconscient Drive) and OB (Overconscience Belief).

Simon & Garfunkel, alias Tom and Jerry, alias Kane & Garr, were two Jewish boys from New York, finding astonishing harmony and poetry of their inner self. The song 'Sound of Silence' is generally considered a classic folk rock song, - however out of that time, style and content. Today known as one of the greatest hits of all times, - yet started out as a failure and actually ended the duo for a while. However, the producer remixed the song without the boys' knowledge and got it airplayed. They re-united when the song hit Billboard Hot 100 in 1965. Now BMI has named it the 18th most performed song of the 20th century, it ranked #156 on Rolling Stone's list of all time, and is stated 'culturally, historically, or aesthetically important' in the (US) Library of Congress. There are more than 30 cover versions and it is used in films like The Graduate and The Watchmen (see the previous UU 2015.jan.02).

The title 'Sound of Silence' might appear absurd – logically. Even the opening line 'Hello darkness, my old friend' was mocked at early live performances by some that did not bother to listen to it all, - not understanding that the lyrics were about the likes of themselves. The song's origin and basis is unclear, but has been related to the assassination of the democratic catholic JFK. Simon said it is about turning the lights off to concentrate on sound. Garfunkel indicated that it is about the inability to communicate in any form, - disabling intimacy and love.

The lyrics' message is about the obvious truth that humanity will communicate, - even if silenced. Humans have visions that stays and grows, - even if silenced. Even though neo(n) gods, false prophets and followers can make humans bow and pray, some inherited properties remains. Even if silenced, isolated and abused in the dark, - humans have their inner life and will continue to talk to 'old friends' – in visions, memories and thoughts. That cannot be silenced.

There are aspects to the poesy that relates to the 3x3 model too (UU 2014.sept.12). The song strongly appeals to our inner Drive and our collective UnderConscience (UD). It also appeals to our UnderConscience Belief (UB) of justices, - to express values of GCR (Good/Constructive/Right). The song in itself appeals to our OverConscience of both OD and OB, - even though a state of terror might temporarily silence such expressions. Today, the internet provides the modern version of 'writings on the wall of subways and tenants halls'. The Human Rights are the main target of such inhuman conditions, - and GHRL (Global Human Rights Law) is a very anti-thesis that can be realized by NRHL (National Human Rights Law) of all obligated united nations (See UU 2014.okt.17).

The importance of the song 'Sound of Silence' became clearer by the beastly attack on Charlie in Paris in 7/1. This UU had originally more artistic intentions that was altered by the evil idiocy. In response, this extra UU will summarize and relate previous socio-psychological writings about such organizational insanity:

- Social-psychology analysis is applicable to organizations as well as persons, - including its insanity. (UU 2014.dec.19)
- The 3x3 ego-stat model is a merged Freudian/Jungian model and adapted to organizations. (UU 2014.sept.12)
- Political Games of 'CdE' category indicates relations of JFK and Oslo 22/7, - and now Paris 7/1 (UU 2014.nov.28).
- GHRL is a major 5D security for this century that should and can be realized by ratification by all the united nations NHRL (UU 2014.okt.17)
- Carlos the Jackal was a KGB agent that promoted an anti-Jewish Palestine state and terror in Paris (UU 2014.nov.21)
- Ulterior RAFs and alike exist in most nations and has variations like BRAF and GRAF. (UU 2014.juni.13)

Related to the 7/1 Paris event, there are some points to make:

- The 7/1 Paris event has similarities to the 22/7 Oslo event that should be investigated as such.
- Theology, ideology and anthropology is abused for the same kind of mass-psychopathic crimes.
- IS might as well stand for 'Iblis State' as 'Islam State'.
- Red, Brown, Green Army Factions are not opposites, but simply 'Same Shit in New Wrappings'
- Freedom of Expressions include Responsibilities as well, although anti-HR reactions are crimes.
- Pro-Russian Oligarch, Separatists and Autonomes (PROSA) do not merely operate in Ukraine.

(22/7 in Oslo is talked through from UU 18.mai.2012 to UU 06.Juli.2012 and UU 24.aug.2012.)

Bob Dylan - The times they are a changing - Watchmen soundtrack

2015.jan.02

Ukens Utvalgte

The New Year's Eve 2015 is merely a milestone and reminder that our existence are always in change. Bob Dylan's evergreen became rather curious as a theme song to the sci-fi tale 'Watchmen'. It is an astonishing post-modern cold war fiction and individual crime-fighters' decay and fall. It is also about the time when the '68 generation arose and favored songs like this. However, - now the lyrics backfires. That generation has now grown to be the ones criticized, - these fatal promoters of cold-war politics disguised as social conscience. They need to be set aside as well because their ideal are outdated and a fatal 5D risk. It is as dangerous in this century as the previous. Changing – yet repeating in another turn of the clock.

The movie received polarized reactions for several reasons. Firstly, the cold war is a highly controversial theme where the official public versions are highly protected. Next, such a metaphorical version do include highly unlikely and symbolic events that are not meant to be taken literally. It will seem absurd to those who are not able or willing to do so. Finally, the filming of the story was called a 'developers hell' due to all the problems they experienced. The final movie did not get the qualities as intended.

Anyways, the movie presents several interesting aspects in relation to the 3x3 and 5D model as well. Firstly, it can be quite interesting to relate the stereotyped characters to the MBTI model, which is based on Jung's theories. Moreover, the 3x3 model, that is a merging of Jung and Freud, provides properties for collective Drives and Beliefs. Lastly, the stereotyped characters of such 'super-hero' stories are not that different from the any polytheistic demigods, angels or demons, - the ancient collective archetypes. (UU 2014.sept.12 & UU 2014.aug.15).

The Pogues Featuring Kirsty MacColl - Fairytale Of New York

2014.dec.26

Ukens Utvalgte

This UU theme '1514-2014' can be finalized with a Xmas metaphor: - There is a vital gift for everyone that has not been delivered quite properly yet. It is like it might have been dropped off by some trees in some forests somewhere. Like a certain pine tree needle in a forest, it cannot be found unless properly re-delivered and realized as it originally should. The global Human Rights (HR) are anyone's birth gift to secure the basic needs and thereby anyone's basic level of LifeQuality (LQ). The LQ of the whole Humanity's depends on it too. Therefore, the virtual GHRL (Global Human Rights Law) turned out as a focal point for this UU theme.

A lot is written since the start of this theme. Here is a brief summary: It started with an untraditional historical view on the 500 years period and with focus on Norden in relation to Roma 1, 2 and 3 (UU 2014.april.25 - UU 2014.juni.13). Next, the focus was set on Norwegian circumstances in relation to the constitutional 200 year anniversary (UU 2014.juni.20 - UU 2014.juli.04). Then, there was simply a musical break to re-think in UU 2014.sept.19 – UU 2014.okt.10. Next, it was time to provide some extended

theories of social psychology, like the 3x3 ego-state model, the 3D, 4D and 5D political models and some new Game theories (UU 2014.juli.11 – UU 2014.sept.12). From there, the writings were in English and UU 2014.okt.17 – UU 2014.okt.31 were basically summaries of the theories. The next 4 UU provided practical use of the models in relation to the TV documentary 'Putin, Russia and The West' (UU 2014.nov.07 – UU 2014.nov.28). Finally, UU 2014.dec.05 – UU 2014.dec.19 makes attempts to escalate the theories to a meta-level in order to conclude in this final UU of the year.

A main conclusion is the vital importance for all the united nations to use the UN related GCI (Good Country Index) for their innovations in this century. The Norden countries score rather high on the GCI, which states that they do a lot right and should continue with their courses (UU 2014.dec.12). A main reason is that their innovations are based on a mix of the supply- and demand- policies of the cold-war blocks SU-US, - in addition to the focus on the global human rights. It is evident that legalities based on the UN conventions do work well and should be applied in most nations for their own good. Consequently, the so-called NHRL (National Human Right Law) should be ratified in every united nation, - as obligated by signing the conventions half a century ago. NHRL is actually ratified as supreme law in Norway as the 'Menneskerettsloven'. The process is easy and is described at the websites at Avaaz, Facebook and Tweeter. Actually, the ratification is virtually similar to deploying an upgrade to society's operating system. All the resistance stems basically from illegal actors and activities. The GHRL, on the other hand, is merely a manifest that can virtually be realized by ratification of NHRL in most united nations.

Why is GHRL and GCI so important? First of all, this century will be crucial for the development and existence of Humanity. We cannot risk repeating our history of bestialities of our collective S-E/S-I anymore. GHRL is the human security to the Humanity and GCI is the nations' guidance for sane development. There is a valid prediction that the humanity will grow to 12 Billion individual in the year 2100 and thereby stabilize the population. (UU 2014.sept.12). Such a global population can most certainly manage and prosper with new technology and advanced knowledge. There is in other words no need to repeat the beastly massacres of the previous centuries. No more should anyone be fooled with 'dangerous memes' disguised as GCR (Good/Constructive/Right) theologies, ideologies or anthropologies. In fact, with today's big data, histories should be qualitative re-written to reveal the covered wrongdoing of the past, in order to make GCR 5D scenarios for this century (UU 2014.sept.12).

Metaphorically, - humanity as a whole became autonomous in the 1800's with industrialization, developed its neural system in the 1900's with internet and will in this century get conscience with big data and mass computing. In this sense, - like for any other minor, - there are certain conditions, goals and frameworks that should be clear in order not to inflict fatal harm to itself. However, such philosophies are beyond this theme and might be picked up in another UU theme called AG3.

Even though Ireland is the 'goodest country' (GCI), there certainly are misfortunes and challenges – like this song indicates. It goes for Dublin and Nyhavn as well as New York. The Pogues is a Celtic punk band from UK and Ireland, formed in 1982 and fronted by Shane MacGowan. The band reached international prominence in the 1990s, reformed in early 2000 and still plays their old songs on occasions. Despite its burlesque text, the song has reached the UK top twenty eleven times, is certified platinum, was three times voted the best Christmas song of all time and is the most-played Christmas song of the 21st century in UK. Even the band's name is rather murky since Pogue is a pejorative military slang for non-combat, staff, - but can also mean "kiss my arse". It can even be a sexual insult in gay culture in Irish. In brief, Shane was original from the punk culture that most certainly forms the most unfortunate of any nation.

This UU is basically a renewed and finally summary of the 3x3 theories, with a main focus on the so-called S-E and S-I. There is an overall positive message, despite the serious issues addressed. It is like a doctor's diagnosis that might be positive or not, but anyways provide better long-term solution by short time cures. However, in this case, - it seems that the psychocratic health system itself is in need for qualitative diagnosis, cures and democratization, - an elevation to 2014 from 1514, – and even millenniums before.

The quality of public health services is talked through in TED where the speaker addresses several unacceptable circumstances and provides solutions. This is just as relevant for the public psychiatric services. As cited from UU 2014.aug.01 and UU 2014.juni.27: "A main point is according to the OECD that Norden, Norway and Denmark in particular, have overpricing, overuse of man-hours and relatively low results. Therefore, concerned people should see the TED Talk by Atul Gawande 'How do we heal medicine?' Some brief points are that: The most expensive solutions are not necessarily the best. The whole health system face the same fundamental challenges, so there is all reasons to listen and learn from the most innovative professionals. The health services lack holistic visions based on LifeQuality (LQ). Doctors rather try to find symptoms that suit their competences than the patient's real needs. The health services are put together like when building a car with the most expensive parts, - which doesn't function as intended and is more expensive than a new one. The use of coordinated 'check lists' caused reduction of incorrect diagnosis, incorrect treatments, deaths and cost reductions by 1/3. The pharmacy industry manipulates the health personnel and clients by merely publishing positive test-results, - even when they are fewer than the negative ones."

When there are such massive faults in the psychiatric health sectors, - why isn't it made acceptable a long time ago? Wrong diagnosis cause wrong treatment that might worsen the conditions. Wrong diagnosis can even be deliberately abused to legitimate and legalize anti-democratic disempowerment and exploitation. The reason can very well be that the psychiatric industry suffer from the same 'diseases' they are set to heal. In brief, the public psychocracy might be too obsessed by 'obsolete Believes', alienation from society's realities, and be manipulated by game players of the pharmacy industries and political factions. The psychiatric industry has simply become very capital dependent and needs a given number of clients in order to keep its powers. The industry has to make a need for their services, - by making clients if necessary. The dilemma that a psychotic person do not necessarily realize the condition, goes for organizations too, including the psychocratic bureaucracy. Besides, the ulterior lack of open debate and improvements highly indicate such a condition.

An analogy says that psychiatric diagnosis is like using stethoscope on computer to figure out what happens inside. Anyways, this UU merely provides an attempt to initiate a social-psychological diagnosis of the public psychocracy at organizational level in order to indicate possibly remedies, cures and 5D turns. The theoretical foundation for an approach was indicated in the previous UU 2014.dec.12: "If there is a Freudian ego-state S-E, there has to be a Jungian S-I as well. This merging led to a restructuring called the 3x3 ego-state model. The 3x3 ego-state micro-model is adaptable to macro models for organization, nations and empires at global level.

It is described in UU 2014.sept.12: "The 3x3 state model provides in that way 9 states that are; (UD) Underconscious/Drive, (CD) Conscious/Drive, (OD) Overconscious/Drive, (UW) Underconscious/Will, (CW) Conscious/Will, Overconscious/Will, (UB) Underconscious/Belief, (CB) Conscious/Belief and (OB) Overconscious/Belief. These are related to Freud's and Berne's states as shown in the following table: Parentheses marks: [Freud] in square. (Berne) in bowed and {S-I}. (Note that S-I is a self-defined state and explained in UU 2014.jan.10.) Freudian states spread out diagonally from Underconscious to Overconscious, while Berne focuses on conscience. Keywords and relations to the 3x3 ego-states are:

1. UD; [ID] Life-force, biology, DNA, nerves, sex, gender, feelings, instincts, dreams.
2. CD; Preferences, joy, anger, biological selections for primary needs.
3. OD; {S-I} Senses, belonging, empathy, dependence, culture, social needs.
4. UW; (C) Ideas, habits, mania, phobia, autism, diverse personality
5. CW; [Ego] (A) thoughts, knowledge, logic, self-realization, perception
6. OW; (P) Sympathy, strategy, moral, visions
7. UB; Intuition, obsessions, rituals, psychosis
8. CB; Philosophy, religion, politics, ethics
9. OB; [S-E] Traditions, rituals, superstitions, memes, hypnosis"

Psychological and psychiatric conditions can stem from personal and/or social causes. The psychocratic services seem to over-focus on personal explanations although the social and external explanations seem far more relevant. As commonly known, - experiences similar to psychosis can be caused by narcotics and hypnosis. The health authorities' lack of registrations of abuse of harder drugs, can simply be that the drugs are mixed with hashish and drinks and thereby consumed without awareness of the manipulation. This might not be discovered in interviews and diagnosis of the client since it is unethical, illegal and might be unknown. Moreover, 'practical jokes' by hypnosis can most certainly cause 'psychotic' experiences of any kind. Diagnosis in relation to the social environments can uncover such alternative chains of causes and be crucial for the diagnostic quality and conclusions.

As talked through in UU 2014.aug.01: "Hallucinations/psychosis occurs mostly by poisoning or brain damage. Damages can be caused by Alzheimer, brain tumor, Parkinson and syphilis. Poisoning can be caused by narcotic hallucinogen drugs or lack of vitamin B. In brief, the categories of drugs are; psychedelic drugs like LSD and mescaline (hallucinogens), euphoria drugs like hashish, paralyzing drugs like morphine and heroin, in addition to central-stimulating drugs like amphetamine and designer drugs like XTC (dopamine). For example, hashish psychosis are now tripled in Denmark. A main reason is that illegal trade is that it is practically legitimized by the authorities at places like Christiania. Furthermore, drugs are sold in criminal environments and thereby naturally cause crimes. Hashish is 'doped' with amphetamine and thereby increase the addiction to the most dangerous 'psychotic' drugs. Consequently, there is an unintended interaction between the illegal and legal drug markets. Patients that are introduced to drugs in the legal health-services can get addicted and get contacted by the illegal drug-market thereafter."

The Danish and English hypnotists Jeppe Schjøtz and Derren Brown clearly warn and demonstrate how hypnotic crimes are done. This was summed up in UU 2014.nov.28: "Even hypnosis technics like NLP (Neuro-linguistic programming) suggestions and questioning are used, - in addition to inducing false memories and perceptions. These abuses have escalated and are mentioned in UU 2014.aug.01, UU 2013.april.12 and UU 08.juli.2011. The uses and abuses are far more common than the public realize, simply because the victims do not realize what happens at all. In fact, that is the whole point of NLP and Games. In Denmark, NLP is wide-spread as training programs, also for leaders, in the public and private sector. In politics, such skills can probably be found amongst so-called spin-doctors. NLP is even merged with the occult Enneagram in the so-called 'NLP Huset' in Demark. If still in doubt about NLP, see the Derren Brown videos provided below." All the cases of NLP abuse in Denmark seems not to be included in psychological and psychiatric diagnosis as social causes, - despite all the documentation and warnings from professionals. Consequently there must be a high rate of faulty diagnosis, treatments and violations of HR and LQ.

In order to explain the S-E/S-I relation at a micro-level, it is necessary to talk through some concrete examples of the present socialization. The vast majority of the Nordic citizens goes through a 10 years socialization program called 'folkschool' (folkeskolen). This has been talked through several times and summed up in UU 2014.juli.11 "There are of course basically positive experiences for children and adults in both the Norwegian and the Danish folkschools. However, there are some experiences where certain pedocrates seem to lack basic sense for democracy." (UU 2013.nov.15 and UU 2012.April.27): "Despite any children's human right for education, some pedagogues use a domestic 'veto power' by disqualification ('ikke utdannelses parat'). However, it clearly shows that there are massive violations of the pupils Human Rights for education, when pedocrates 'disqualified' 1366 pupils in 2012, even though they were allowed to gymnasium after all. The reason and the motive is not on the pupils or the gymnasium, but the pedocrates in the folkschools. The collective egoism indicates that 1 year wage of 1 folkschool pedagogue is more worth for them than 10 pupils' and a gymnasium teacher's."

Another alarming incident is mentioned in UU 27.April.2012: "There were unrest in the class from the beginning. However, it was more unfortunate that a specialist pedagogue took over as teacher. Despite the charming and cheerful appearance, certain murkier sides appeared over time. The dominating matriarch's attitude towards boys appeared highly xenophobic. It turned out to be a fact that every year, a boy with foreign relations had to leave because of 'unaccepted behavior'. (However, it seemed more to be human reaction to inhuman treatment in organized psychopathy, commonly called 'mobbing' and 'Jante'.) It simply appeared as a process of National Socialism. Thinking back, it is almost unbelievable that a teacher can dictate the school's leadership, psychologists, and parents and continue with such cleansing. The class room, this 'Dolls' House' was untouchable for outsiders. The systematic psychological violence towards the minors have probably caused lifelong traumas. Their families were also affected by the chain-reactions. It would have been so much better for so many people if that special pedagogue was sent to the psychologists and psychiatrist instead from the very beginning. However, the final outcome was for anyone to see, - when the class got too small and had to merge with the parallel class, which made some teachers redundant. Anyways, the TED talk by Ken Robinson 'How to escape education's death valley' is inspirational to how schools should develop this century.

These events can be related to the theories of S-E and S-I at an organizational level. There are Drive (ID/sexual) related Games at 3rd degree at play. This fits rather Jungian theories, because of his concerns about collective synchronization, archetypes and sub-conscience biological powers that can overrun reasoning and empathies. The personal xenophobic and androphobic Drive can be explained by women's lack of the Y chromosomes and biological phobic reactions towards men's biology. As a dominant matriarch in a class-room cell of minors, - the collective Superior-Ego can become autocratic. No questions asked and no objections tolerated, like in the Game-change from Schlemiel to NIGYSOB, and LYAHF. In fact, the UnderConscience Drive (UD) dominates with pure ID-related version of the Game BGGG (Bad Gene – Good Gene, - i.e. Y-chromosomes). (Games are described in UU 2014.nov.28.) However, 10 years in a class-room cell with a dominant matriarch, or patriarch, takes Games to an organizational level of S-I/S-E, - in collective versions of the Games of TLM/(TOL) and national variations like 'Jante', TUD (The Ugly Duckling) and other 'Animal Farm' related Games of S-I.

The S-E/S-I phenomena wasn't limited to that particular class-room. It seemed to be a well-established pedocratic subculture extending several public services in the commune. Such relations between micro and macro levels of social-psychological cultures are hard to realize, simply because such Games are per definition ulterior. However, a common cultural ground can be that the well documented Gulag colonializations programs was about massive assimilation, - including the Nordic nations. The collective folkschool during the cold-war was certainly perfect for such objections, - and probably formed by the State bureaucracy for that. A further comment is in UU 2014.okt.17: "However, - (the extremist policies) failed on grown-ups in the universities so they targeted 'the path of the least resistance', - the 'bourgeois' (plebs') children in the 'folkschool'. As mentioned, - with 12 years' experience from such cultures the systematic pedocratic abuses stem obviously from the post-68 generation's mass-psychopathic Drives. It includes skilled abuse of psychological pedocracy and psychiatric bureaucracy. Now they have become the oldest and most powerful generation in the system. The results have been very clear the past 12 year. Related

issues to such sub-cultures in folkschool are criticized on general basis in UU 2014.juli.11 and UU 2014.aug.01.”

‘Organized insanity’ in S-E/S-I relations for organizations’ and nations’ is talked through in UU 2014.jan.10 and UU 2013.april.12: “The Ennea(-gram)/NLP destructive potentials can hardly be worse than in relation to Freud/Berne psychosocial Game-analysis. It can function like a dominating and psychotic Superior-Ego that can transfer its psychosis to the client’s S-E, make ID’s neurosis and even split it’s Ego. There are potentials for the whole spectrum of Berne’s described Games, - especially LYAHF, NIGYSOB, Debitor, SWYMMMD, Courtroom, LHHIT, Schlemiel, WDYYB, Rapo, Uproar, HDYGOH, LPFOJ, IOTHY and certainly Psychiatry. The destructive results of such Ennea/NLP psychosocial Games in enterprises and governments most certainly gain their rivals and competitors most of all.” Furthermore, the DR documentary ‘Crimes under hypnosis’ (Forbrytelse under Hypnose) and the relation to NLP is mentioned. (See also the related Derren Brown’s ‘The Assassin’.) Terms like mass-psychosis, brainwash and indoctrination can surely be related to such unsound S-E/S-I relations. Identifications of such ulterior and abstract organizations might be easier with use of metaphoric terms like ‘The Psychopathy’ and ‘The Sociopathy’, to relate their activities of mass-psychopathy and mass-sociopathy to the psychosocial Games.” (UU 2013.april.19)

The S-E/S-I theories of organizations can even be lifted to Global levels during centuries. The most outstanding example is the CdE Game in the Winter Palace in 1914, - the Dagmar Syndrome. It started as a simple TLM/(TOL) Game between the rivalling tsarinas from Germany and Denmark. This is the ultimate example that cloaking of ulterior Games can lead to unlimited cascades of misdeeds and mischiefs, - like a snowball can cause an avalanche, - like a match can cause a forest fire and like the shot in Sarajevo. Here is a translated part of the talk-through in UU 2014.mai.30: “‘Dagmar’s last meeting with Rasputin’ is the association to this UU. The title of the song is ‘Messiah Ward’ (which hints to an asylum). In other words, this will be another point of view on 1914, EW1/WW1 and the rest of that century. With hindsight, it is easier to see the moves of the Games, the players and the motives, - and who really lost and won. The overall plot should be clear after a 100 years; (a CdE Game) to convert Roma3 from Throne/Temple in St. Petersburg to State in Moscow.” There are far less costly ways to do so.

Furthermore: “The origin of the up-coming of 100 years’ war in Europe is previously pointed to Moscow. Rasputin was merely a so-called ‘useful idiot’ – a brick in the Game.” “Most revealing is the ‘occult’ parts of the Game. ‘Agent’ Rasputin was educated in religion, hypnosis and psychology, - was introduced to Persian mysticism, spiritualism and occultism in Kiev, got relations in Moscow and was at last positioned by the tsarina Alexandra in the Winter Palace. He functioned as her first-advisors in the war towards her home country Germany. This Game could only have fatale outcomes. There are more talk-through of such insanity in UU 2013.april.12 about Gurdjieff, the Enneagram and NLP. The DR2 documentary ‘Crime under hypnosis’ is talked through in UU 2012.Juli.13” Also see the other Derren’s revealing videos of crimes, frauds and tricks done with hypnosis.

Another related Nordic phenomena of psychiatric organized crimes is well documented in the STV documentary ‘The woman behind Thomas Quick’ (Kvinnan bakom Thomas Quick) that is talked through in UU 2014.juli.18: “The Quick case lost all its fantastic attention with the disclosure that he was no mass murderer at all, but merely a childlike patient with free meals, housing, drugs and hypnosis under the psychiatric matriarch, Margit Norell. There seems to be some Oedipus-relations where life-long room-service was the reward. ‘Sweet old ladies’ are unassailable and can consequently be perfect executors of misdeeds, - even the worst thinkable. There are probably no better cover for such vast criminal acts, - like covering up for the actual massive murders.” An article talks through the cult around ‘Thomas Quick’ like this: “He admitted 39 murders (some in Norway) and was convicted for 8 that he did not even do. No technical evidences and no witnesses have ever linked him to any of the convicted murders. The trials lasted for years and cost 200 million kroner. The murders were made up by a desperate person that lied to get drugs, social relations and attention. He was supported by a cult of psychologists, doctors, police, prosecutors and layers, - that lied just as much, - or even more.” There are several other inter-Nordic cases suggested to investigate further, like; the Scandinavian Star ferry fire, Arnfinn Nasset hospital murders, 22/7 bombing and massacre, the Halloween murder under IT related hypnotic psychosis and several other

cases. There are most probably similar cases in all the other Nordic countries too. (The infamous and unprofessional attempt by the forensic psychiatric to veto the 22/7 ABB trial is talked through in UU 22.Juni.2012.)

Finally, the Quick case is a well-documented case that proves once and for all that there actually are ulterior sub-organizations abusing the court, the police and the health services of psychology and psychiatry. Any denial is simply another brick in the Game, - even though hard to believe, - even at one's own closest social environment at micro-level. Anyhow anyone's perception so far, - the well documented fact of such ulterior sub-cultures will hereby be escalated to macro-level. This is talked through in UU 2014.nov.07: "Identifying and profiling the true nature of the imperial secret organization is like doing Vaticanology and Kremlinology. Previously, it has been identified and described as the Praetor of Roma1, the Praetors (network) of Roma2 and the Oprichnina of Roma3 (UU 2014.mai.02 and UU 2013.Mai.24). Furthermore, Superior-Ego and Superior-ID (S-E/S-I) were described in UU 2014.jan.10. This theory is merged together in a joint Freudian and Jungian 3x3 ego-states model. The S-E and S-I are like the OverConscience of Belief and Drive (OB and OD), which means that they can both influence collective synchronization, - like some 'folks' movements'." Anyways, a rather controversial, but enlightening, TED talk explains how ordinary people can become executors of a system based on anti-values of BDW (Bad/Destructive/Wrong), Philip Zimbardo: 'The psychology of evil'.

Escalating further from organizational level, the models of 3x3 and 5D should even apply at a meta-level, - Humanity as a whole, globally and through all times. (By the way, UU 2014.juli.25 even suggest Scandinavian social metaphors with Denmark as matriarchic, Sweden as patriarchic and the relatively young Norway as Child.) This is of course highly philosophical and should not be mixed with organizational theories too much. It is not a rivaling religion, but rather an attempt to draw the bigger pictures with some kind of milestones, guidelines and borders. However, meanwhile, there is a related subject that seems to have growing concern amongst anthropological philosophers. It was mentioned in UU 2014.aug.22: "Parasites cause another alarming manipulation of the UnderConscience Drive (UD). It sounds more fantastic than hypnosis. However, to get the idea, it is recommended to see the TED video 'Ed Yong: 'Suicidal crickets, zombie roaches and other parasite tales'. It shows that collective synchronicity amongst animals are not always motivated by interpersonal socializations. In certain occasions, their UD is controlled by physical parasites that uses the hosts against their own good and to the parasites' gain. In any case, - such similar psychic activities for collective remote control of group synchronizations is certainly the situation documented in the previous century as so-called political 'folks' movements'."

Furthermore: "Theories of parasite activities can thereby cause rather intriguing thoughts in relation to IT (Information Technology). Data-viruses are well known and people show strong addictions to the net and all kinds of IT equipment. It is of course quite natural according to Carl Jung's theories about social dependencies. How frustrating it is when the net is unavailable for the mobile, PC and TV. However, there can be more than simple data viruses that manipulate the information. Uncritical utilizations can cause manipulations of persons similar to hypnotic states and parasite activities. That might change the behavior unconsciously and against a person's will. Furthermore, biological IT implants are highly unusual - till now. But people have great tendencies towards self-medicating with psychotic drugs to alter the UnderConscience. Therefore, 'hypnotic' 'parasites' might be used as willingly if it becomes an option. IT dictionaries should include a new term 'data-parasite' in addition to 'data-virus'."

Nevertheless, the TED talk 'Dan Dennett: Dangerous memes' puts the concern at a more cautious perspective than 'Ed Yong. The term 'memes' suits very well the theories of T.A., where any communication can be extracted to a minimum and cleansed for noise. It is like using digital technics and data analysis, in order to analyze the real meanings and communications. Similarly, there can be made M.A. (Memes Analysis) which can be used to analyze the real meanings and communications of ideologies and isms. (See UU 2013.nov.29 about isms). However, summing up Dan's concerns of dangerous memes, - he uses Ed's example of parasite controlled ants' brains, and continues: "Humans is the only specie that are willing to sacrifice their lives (and take others') for ideas, values, isms, religions etc. These are replicated and spread from person to person like software or viruses. There are well documented events in human history that

such ideas have caused great misdeeds and miseries for humanity, - intended or not. We should be more aware about the dangerous memes now, in the global information technological age, because such dangerous memes can spread like computer viruses via internet and cause fatal harm. However, like it is pointless to hate HIV, - it is pointless to hate certain memes. We need to focus on understanding in order to find remedies, cures and immunities, - and simply figure out how to live with it without causing global psychotic-neurotic mass-reactions at S-E/S-I level – again and again.

Now, since it is close to x-mast, a related question pops up. What could be most archetypical memes of all humanity? – The rivalries of Abraham's 3 women and the horoscopic Belief in the Ages? (See UU 2013.des.27)

The Waterboys was formed in 1983 by Mike Scott with musicians from Scotland, Ireland and England. The band has played several styles, but mostly a mix of Celtic folk music with rock and roll. "The Whole of the Moon" is a single from the album 'This Is the Sea'. It was not a big success, only making the lower ends of the chart. The subject of the lyrics has inspired speculations but is a tribute to inspirational figures like Prince, himself and from the novel 'Winter's Tale'. Each line describes his own perspective and immediate contrasts to the song's subject like "I saw the crescent / You saw the whole of the moon". The origin of the band's name 'the Waterboys' might be associated to 'Aquarius', the next astrological sign for the 'new age'. However, it seems rather obvious that 'the moon' is used as a metaphor for 'la luna' and the poetic mysticism associated with lunacy. The lyrics might even be drug-related. Most famous such association is Pink Floyd's 'The Dark Side of the Moon' where each song is related to some dark side of lunacy. This song was also chosen in the trilogy UU 2012.aug.03.

2014.dec.12

Ukens Utvalgte

2014 is about to end, - and so is this UU theme about Norden in 1514-2014. In order to sum up at a national and continental level, some bigger pictures are provided by use of the 'Good Country Index'. The GCI measures far more values than economic wealth, which puts Norden and Europe at the top ratings. This extended view of nations' qualities and values will therefore be talked through in this UU, - and related to the models of GCR, LQ, 3x3 and 5D.

The GCI (Good Country Index) is a composite statistic of 35 data points that are mostly generated by the United Nations (UN). The data points are combined into a common measure that ranks the seven categories; Science and Technology, Culture, International Peace and Security, World Order, Planet and Climate, Prosperity and Equality, Health and Wellbeing. The extend value system from 'rich' to 'good' was made because of unexpected side effect of the globalization. Problems that once were local, now have worldwide consequences. However, nations still operate too independently, as if they do not quite realize their inter-dependencies. (See the video and web-site below.)

The scores of GCI might surprise. Nine of the top 10 countries are in Western Europe, where 4 are of the 5 Nordic nations. (Iceland is #17 due to the global financial crises.) An explanation can be the European balance between Supply & Demand, whilst SU over-focused on Supply and US on Demand. Besides, Norden was not as damaged in the previous century's war as the rest of Europe. Other relevant rankings are that US = #21, Russia = #95 and China = #107. The GCI do inspire to see national values from different views. Even economy can be characterized as global pandemics at times, but even if we got the required information there are serious lack of actions. As the speaker says; one explanations can be that there are so-called 'social psychopaths' in power. Taking that further, such actually starts, maintains and take use of sociopathic means like cyber-, financial- and geopolitical- Games of 4th degree (War). Another explanations is that there simply are social malfunctions caused by corrupting organizations. Even though the European nations are much smaller and more manageable, - the (confederal) EU nations get the 'goodest' score overall. It proves that HR/LQ based democracy do work.

The GCI is interesting in relation to the value-system called GCR (Good/Constructive/Right) (UU 2014.sept.12). GCI and GCR are practically compatible and supplementary. The approximation is close enough to be virtually similar. Originally, the GCR was related to the 3 Freudian ego-states at individual and social levels. However, the GCR advanced to the 3D political axis in relations to the political meta-systems;

Throne/State/Temple. Besides, the three axis has negative as well as positive scales, which can de-cloak anti-forces of civilizations, - like CdE Game-players.

All the GCI factors are closely related to the definition of LifeQuality (LQ) since they relate to the Human Needs of the Maslow hierarchy; Physical, Safety, Social, Respect and Self-realization. Furthermore, like LQ, all the GCI factors are related to UN HR treaties the UNC (United Nations Charter), the ICCPR (International Covenant on Civil and Political Rights) and the ICESCR (International Covenant on Economic, Social and Cultural Rights) (UU 2014.okt.17). LQ is directly related to true political democracy and consequently the conditions for individual and social mental health.

Finally, the 3x3 ego-state model is also closely related to the GCI, simply because any national culture and politics can be directly related to human social-psychology. The 3x3 model is explained in UU 2014.okt.24. It is based on Freud's ego-state model and combined with Jungian ones. A reason for adding 3 levels of conscience is that the traditional Freudian is too limited and the Jungian social and collective natures of organizations provide such. The theoretical break-through came with the realization that there has to be a 'superior-ID' as there is a 'Superior-Ego' state. However, this will be discussed further in the final UU of this theme. Furthermore, the 3x3 model is well adapted to Erik Berne's theories of socio-psychological T.A. and Games.

A main question for this UU theme will then be: What puts Russia and China in such a miserable position in the Good Country Index? First of all, the GCI is based on UN criteria for personal, national and global concerns. Both empires' low score simply shows the lack of dedications to LQ based HR and to global welfare. Historically, a 5D cause of this is that they both suffered greatly from the self-inflicted CdE Game of 1914, - the brutal powershift from Throne to State. However, somehow it was believed that such a social 'self-lobotomizing' by massacring tens of millions of their own human resources would improve society. These worst crimes toward humanity are still unsettled without proper trials and still continues as destructive meta-Games. The self-destructive Stalinist psyche was spread like a mental pandemic from Moscow (Roma3) via Mongolia to Beijing - and lots of other prey nations.

Although a rather personal break, there are reasons to my awareness of such negative political powers. Reasons based on LO/SU and their anti-HR were talked through in the previous UU 2014.dec.05. Next, 20 years ago, I rented an apartment owned by a Chinese organization. Payment was cash and the contract was simple. During a French friend's wedding in the US, there was a major drug razzia related to the restaurant (primo May 1991 in Kirkeveien 51 in Oslo). The owners and employees were arrested and expelled. Returning home and reading the newspapers, I decided to end the contract, but stay there for the 3 months that I had paid for in advance. However, the owners did not realize that the payment was not a deposit and posted a letter threatening to 'drive me out'. I suppose there was need for scapegoats for the self-inflicted miseries of drug-addicted paranoia at organizational level. Anyways, for nearly 25 years now, Stalinist/Maoist-related incidents have made life hard and unfortunate, - also for closely related ones.

On the other hand, with 25 years of such firsthand experiences of political Underworld Gameplayers, it has become very easy to spot such ulterior RAF related Games. Consequently it has become an inflicted and unwanted life- task to figure out why and how such 'low GCI' powers can continue to spread its negative values and misdeeds at individual, organization and national levels. In a sense, the reason is quite simple though, - since it is basically the very anti-thesis of UN - turning up-side-down the values of LifeQuality, Human Rights and ethics of Good/Constructive/Right (GCR). The methods that seemingly legitimize such goals of civil warfare, are the corrupting crimes of drugs, human trafficking, money laundering and weapons trade. The very basics of RAF is recruited by domestic sociopaths believing to be national or international socialists. Recruiting is rather done by converting domestics with illusions, extortion, comradeship, scandals, fraud, debts, bribery and other means of Underworld Games. Foreigners tend to draw too much suspicion.

Some Maoist related politicians, like the Danish 'Pompel & Pilt', argue that 'western nations' doped China with drugs and got them addicted in the 18th century. The argument promotes Underworld Games like

Debtor to indirectly legitimize retribution by narcotic trade to the 'western world'. However, documented history says that: "Opium was first introduced to China by Turkish and Arab traders in the late 6th or early 7th century." "By 1729 it had become such a problem that the Yung-cheng emperor prohibited the sale and smoking opium." Therefore, there were clearly well established domestic illegal drug cartels when the distribution was outsourced to free-lancers. "The traffic that developed in the 18th and 19th centuries in which Western nations, mostly Great Britain, exported opium grown in India and sold it to China." My personal and unfortunate encounter with a RAF related Chinese drug syndicate, have caused awareness of 'junkies' politics' Games and consequently civil misfortunes. This was first expressed in the UU 01.juli.2011 in sympathy for the Stoltenberg family.

It is hard to document Underworld secret services by international organized crime. Yet, - information about crimes of drugs, human trafficking, cyber warfare, corruption etc. are now much better documented and becomes evident. In order to substantiate and relate such, the abstract organizations are logically categorized, related and identified as variations of some uncloaked RAF (Rote Armee Faction). As mentioned in UU 2014.juni.13, there are probably RAF in most nations and RAF-rus and RAF-chn cooperate closely. Relations from RAF-dnk to RAF-chn is clear since the leader Gotfred Appel converted from Stalinism to Maoism in the 60'. Furthermore, there is still the relation with the STASI/KGB agent 'the Carlos the Jackal', and the newer-ending war against Jews, - covered and legitimized with the organization PFLP. The RAF entities were talked through in UU 2014.nov.21. They are now extended with the entities PRO and PRS (Pro Russian Oligarch and Separatists) according to the present sociopathic crimes in Ukraine.

However, for this century, a 'dark adapted eye' should also see the re-organizations and the re-cloaking of the RAFs. Furthermore, the theoretical BAF (Braun Armee Faction) was talked through in UU 06.Juli.2012 during the ABB trial. This is based on the ww2 Underworld Games of war and particularly related to the color brown and National Socialism. Not much is mentioned in post-war history books about the close cooperation of Stalin and Hitler before ww2 with the 'Molotov-Ribbentrop Pact (1939-1941), the Stalinist cooperation in LO during the war and the conversion of National Socialists to Stalinists after ww2. This red-brown alliances during ww2 is called BRAF (Braune-Rote Armee Faction). (UU 15.Juni.2012 and UU 2014.nov.21.)

Green is a rising political colored faction. It seems to be highly ulterior like its forerunners. Green factions use political arguments of 'environment'. Somehow the term and color is associated with the nature. However, that is not quite true, since the 'environment' per definition is "the sum total of what is around something or someone". Thereby the environment can be anything except for oneself. Consequently there are arguments for work environment, social environment, other persons and nations, and the globe in addition to the nature. In brief, political arguments about the 'environment' is also abused as abstract counter-arguments that corrupts political discussions and can even gather veto powers against vital issues. A most evident example is Gazprom corruption of environmental organizations to slow down Norwegian competitor to the Arctic region. However, such 'light green' political factions are merely at 2nd and 3rd degree political Game players.

Far more alarming is the 'dark green' political factions. As known, green is also the color of Islam. Quasi-religious extremists abuse the relation of political and religious influences. Having identified the natures of RAF and BAF, it appears obvious that ulterior war-like organizations of GAF (Green Army Factions) are developed since the eve of this century. Islamic organizations are infiltrated and manipulated like Christians were in the previous century. Now it is very transparent that there are 4th degree CdE Games in relation to African guerillas, 'the Arabic spring' and IS of the Middle East. As mentioned in UU 2014.nov.21 "However, less mysterious is the Syrian war with several Muslim groups with loads and loads of Russian weapons, traded by murky oligarch via Cyprus. Nevertheless, the newest actor in Muslim self-genocides is the so-called IS, alias ISIL alias ISIS. It does not seem to be true religious at all, but rather another neo-RAF, - Jackal style. In fact, the L in ISIL mean Levant that includes Jordan, Israel, Palestine, Lebanon, Cyprus an south Turkey, - which indicates that Israel is a long term goal. IS might as well mean 'Iblis State'."

Cyprus is a key-island and mentioned as a center for war-like trades of narcotics, money, human trafficking and weapons. (It makes associations to the 'Pirates of the 4th Crusade', see UU 2014.nov.28.) The island is strategically sited by the Suez Canal to the Pacific Ocean (Asia) and next to all the war-zones of Syria/Iraq/Iran, Albania/Kosovo, Turkey/Hellas, Palestine/Israel and 'Arabic spring nations' like Libya and Egypt. Cyprus is divided between Russia and EU and functions like some cold-war Berlin outpost towards the Middle-East. Consequently it is mentioned several times like: "The main Danish pseudo-scientific institution of the NLP and Enneagram is closely related to Cyprus and Russia. (UU 2013.des.20) Arne Treholt, a main SU spy for Iraq, works as a guide and consultant at Cyprus (UU 2013.aug.30). More about the relations to the Middle East can also be read in UU 2013.aug.02.

North-Korea has taken the role as a main opponent toward UN and US in the Asian region. No doubt that the nation is played by a joint Russian/Chinese interest towards the request of Asian sovereign nations for protection against the unstable aggressor. This is talked through in UU 2013.juli.19: "The UN security council decided (in the 60's) that South Korea could get support from UN nations like US, UK, Australia, Canada, Benelux, France and South-Africa. Several other Asian nations bought protection from US towards SU indirectly invasions and civil wars." "North-Korea continued to mass-produce SU weapons for half a century and isolated itself to improve mass-destructions. Now, the republic is edgy with ticking weapon depots, - in a state of collective psychotic-neurotic crisis. This Chinese alter-ego is the largest threat towards itself, its environment and the entire humanity." "There is a simple solution to such problems, - in theory. North-Korea must be free from the SU restraints. Next, it needs to get real civilized conditions via UN to transform the industry and culture, to finally re-unite with its true alter-ego, - South Korea, - and then the rest of Asia. Neo-SU needs to realize the sunk-cost of the war-investments. Yet, neither China nor SU seem to be capable of 'loosing face/mask'." However, nukes seems merely to be a symbolic threat, because they probably have very limited abilities since the missile-parts merely are brought from Cuba via the Panama Canal. North-Korea is a very aggressive cyber worrier state with tight Chinese relations.

China is a major concern and was talked through in UU 2013.juli.19: "The SU/Roma3 assimilation of China has caused exponential economic growth. But the Party has not fulfilled the promises of socialism at all. Half the farmers had their lands confiscated while created a super-rich elite, basically related to corrupt party bureaucrats. The growth is visibly based on pirate copying of 'western' industries, cities, technology, culture, finance - as well as IT. China is simply an Asian Pirate Bay empire. Its superior competitively is based on extreme 'social dumping' and illegal stat-subsiding. Furthermore, the handover of the Hong Kong financial-machine to China can now be used for continental investments, but can also be abused in global financial Warfare. It is therefore highly alarming that IBM sold ThinkPad, including technology, employees and customer to the Chinese State. (Most alarming is the recent take-over of all IBM Intel Server in all NATO nations public and private sectors. See UU 2014.nov.28.) Big Blue made Big Red by handing over the needed resources, network, servers and technology to execute considerable IT hacking, espionage, and info/money manipulations." NATO nations' public sectors do not seem to realize that most of their main IT systems are now legally in Chinese control too.

The Nordic nations have their success despite SU closeness and infiltrations, - not because of it. Nordic relations are talked through in UU 2014.juli.25 and UU 2013.mai.31: "Even after the cold war, one can see that Nordisk Råd (the Nordic Council) is bound to Kaliningrad, Leningrad and Murmansk. These three cities were represented as "the Cuba of the Baltics" KGB/FSB, and the site for massive nuclear testing (See the previous UU 2014.dec.05). Furthermore, there are daily ferry connections between Kaliningrad-Gdansk-Copenhagen-Oslo. Sweden and Finland have probably similar indirect connections to Kaliningrad. More directly are the terror-flights with nuke-capable bombers against the member nations of the Nordic Council. That recalls memories of the terror-bombing of the Danish island Bornholm in ww2, and the threats to make Copenhagen/Sjælland (Selandia) to an East-Denmark like East-Germany. (It seems realized with political pre-CdE related Games though.) The imposed fear influences effectively the agendas and decisions in the Nordic Council of Ministers. Therefore, the Councils should rotated the hosting like the EU does".

All in all, the Good Country Index, shows clearly to the Nordic Nations that they basically should hold on to their polices, hold together and keep the positive relations to the rest of European nations. (Domestic policies and qualities of products and services are talked through in UU 2013.okt.04.) The GCI also clearly shows that the Nordic countries should protect themselves from the massive negative influences of neo-SU and China, - in addition to some negative sides related to the US. Ulterior fake organizations, related to 'RAF, BAF, BRAF, GAF and future GRAF, can be revealed in order to end their sociopathic Games, - by use of models like 3x3, LQ, 5D and GCR. Actually, we all know what should be done and not – but somehow feel inadequate to do our part. I'd be happy to help.

The English band Japan had their breakthrough in the 80's. They made remarkable innovative songs. Japan also made some hits that were played at discotheques, but they were artistically way beyond the rest. At a time there were personal differences and the band split. David Sylvian came well out of it as a serious musician with a broad relationship with several well reputed artists. An exciting spin-off, with the Bauhaus' vocalist Pete Murphy, was called Dali's car. Ironically, it didn't go well. This week's selected "Visions of China" is almost unmentioned in relation to Japan. It might be that the Maoist critic was considered political incorrect in musical milieus. It has previously been selected in UU 02.Mars.2012.

Being a sci-fi fan, this classic rock-opera based on H. G. Wells, makes associations. Even though 'War of the Worlds' had other concerns, it does indeed recall concerns about the escalating 'cyber-war of the worlds'. The book was originally written in 1898, two years after the electric genius Nikola Tesla suggested to make contact with Mars by radio. Wells was inspired by a UK genocide in Australia with superior technologies, and the new theories of Darwin. Wells then imagined that aliens might be superior to humans and just as hostile. This is the original to most sci-fi invasion stories. Most known, however, is the dramatic live radio-version during the cold-war. 'The Red Planet' made associations to 'The Red Empire' and triggered collective fears of what might come next after the nuclear technology. Anyhow, the story might have caused social-psychological positive effects, like sympathy for the victims and collaboration towards common challenges and threats, - in addition to an openness to unexpected solutions.

(See the interesting video below about Well's personality and works.)

The Jeff Wayne's Musical version of The War of the Worlds is a 1978 concept album retelling the story. It features the actor Richard Burton, and musicians like Justin Hayward (of The Moody Blues), Chris Thompson (of Manfred Mann), Phil Lynott (of Thin Lizzy), Julie Covington and David Essex. Its format is progressive rock and string orchestra, using narration and themes to carry the story via melodic lyrics that express the feelings of the characters. The two-disc album remains a bestseller, having sold millions of records around the world, and is the 39th bestselling album of all time in the UK. It has since spawned multiple versions of the album, video games, DVDs, and live tours.

Thomas Dolby - One Of Our Submarines

2014.dec.05

Ukens Utvalgte

After the 4 analysis of the BBC TV series, and still related to Norden/Norway 2014, there are certainly more aspects to consider. The recent Russian 5D turn seems to go from geopolitical war to trade-war, since the UN member nations response according to the UNC (United Nations Charter). However, such inter-continental trade-wars are ancient and have been going on in Norden since the Union 500 years ago. Still, there seems to be remarkable constants and properties concealed as new arguments in the Games of trade-policies. This UU will talk through some aspects of trade-alliances to get some different views. Still an association is like the lyrics of this weeks selected song – a missing and damaging sub-marine.

First of all, Norden, Norway included, is a fully member of the European Internal Market. Strangely enough, the main challenges is to realize this reality and act upon it. A unique and fundamental aspect for the European market is democracy and human rights. This is in accordance with the definition of LifeQuality where the individual needs are essential (ref UU 2014.sept.05). Furthermore, the European democratic market is strictly regulated by 'the rule of law'. This is an anti-thesis to SU1 autocratic and SU2 oligopolistic market dominations. None is, or will ever be, in some Eurasian trade-market. In fact it is not even clear what such a Eurasian deal is or what it might become, - except that its powers are not democratic. It rather seems to be just another geopolitical diluted ideology to acquire land and capital.

There are several rivaling inter-continental trade-unions. Russia promotes a Eurasian trade-agreement for east-European nations as an alternative to EU. It is not quite clear who would be a member of it. Nationalists and irredentists want to form a Greater Russia to retake territories of the former Soviet Union and the Russian Empire. Neo-Eurasianism is an idea after the collapse of SU1 that Russia is culturally closer to Asia than to Europe. The Eurasian Economic Community originated from the CIS in 2000, a Customs Union of Belarus, Kazakhstan and Russia. However, no Russian Treaty includes China or (western) Europe. In fact, east European nations struggle hard to get out of trade unions of SU1. The wars towards Georgia and Ukraine in UU 2014.nov.21 shows the true motives and natures all too well.

The Good Country Index shows that neither Russia nor China should dominate trade agreements. They are both about # 100 in the GCI. This is a reason why they both primarily uses force towards weaker parts to dominate them in unfair trade-relations. This is also a reason why it took so long for both Russia and China to be members of the global World Trade Organization (WTO) and get the General Agreement on Tariffs and Trade (GATT). In the recent years, the puppet president Putin has ruined all those achievements with further ulterior war Games towards the Georgian and Ukraine sovereign nations. Neo-SU has proved all too well to the world for unseeingly future that they are violators of the UNC and not to be trusted in neither war nor peace. In fact SU1 and SU2 do constant trade-wars towards continents and nations like Europe, Norden and Norway.

SU has been highly involved in European trade and national democratic elections. By experiences, the European peoples and nations do not trust them, because of the past century of wars, massacres, invasions and infiltrations. The losses are countless. However, - still the markets are highly manipulated by ulterior political Games. Actually, it is rather easy to spot it these days of the information society. As mentioned several times, one can only look at the English version of Pravda at internet, read about Mitrokhin, STASI, FSB, etc. in Wikipedia or google any other relevant key-words. On the other hand, it is also too easy to get distracted by the Games and forget what it is really about.

Far more relevant, important and realistic than Eurasia is the attempt to make an US-EU trade relation called TTIP (Transatlantic Trade and Investment Partnership). The TTIP is a proposed free trade agreement

between EU and US. Documents show three broad areas; market access, specific regulation, broader rules and principles and modes of co-operation. US considers the TTIP a companion agreement to the Trans-Pacific Partnership (Asia). Proponents say the agreement would result in multilateral economic growth, while critics say it would increase corporate power and make it more difficult for governments to regulate markets for public benefit. Anyhow, the TTIP agreement might be finalized in the near future.

The European Trade agreement, where Norway by law is a fully member, regulates the four freedoms of movements for; labor, services, products and capital, - as well as the three exception for HRM (Health, Security and Environment). This is talked through in UU 2014.okt.24 and some main points are: "In 1994 the law-making parliament ratified the EEA law concerning the European internal market instead of becoming a full member of EU. Today, 20 years later, there are just minor practical adaptations to the law." "The Constitutional Law, the Human Rights Law and the EEA Law are all superior in their areas and can be related to the Penalty Law. The EEA law clearly prohibits customs duties, discriminatory taxes and measures having equivalent effects, abuse of market dominance, discriminating agreements, and public undertakings are regulated as well. Unfair competitive public state aid to undertakings are forbidden. Social support shall not be paid directly to any undertakings, but directly to the citizens. This means that alternative providers to public service providers of schools, transport, health etc. became legal 20 years ago. However, illegal public discriminations are still widespread in the markets in favor of own undertakings, oligopolistic cartels and certain unions."

Furthermore: "The public sector and the Government are responsible for the legal regulation of the market. Practices, however, indicate that there is not proper will and ability to legally regulate the collective resources and undertakings." "80% of the Nordic undertakings are 'Small and Medium sized (SME/SMB) that suffer from abuse from the enormous public market dominances', - which is highly illegal according to LOA (Lov om Offentlige Anskaffelser). Illegal activities and in-actions by public servants can be personally prosecuted according to the Penalty Law (Straffeloven)."

A most serious political explanation to the massive public crimes of trade is talked through in UU 2013.august.16: "Can all the political parties be trusted in relation to Europe? The EU election clearly indicates 'No' for all the so-called mid-parties, SP, SV, V and KrF. Even though it is honest to be hard-core opponent and argue against European internal market, - it is directly dishonest and can be criminal when the parties knew very well that the EEA treaty would be signed and ratified by the parliament anyway, - without any citizens referendum. The parties gained lots of votes by arguing against the 'four freedoms', that they knew would be ratified with the EEA agreement anyway. The EEA law (EØS loven) has since 1994 been law and will not be annulled even though some politicians sometimes claim so. When the faith was sealed in advance, and the politicians knew that, it is so clearly that the massive anti-European propaganda simply had anti-European motives - far beyond the voters' interests. The propaganda still sits in major parts of the democracy as some diluted obsessions." This major mass-corruption becomes very clear now, - 20 years later. The Mitrokhin-archive reveals that Moscow with KGB greatly financed and manipulated the anti-Europe campaigns. It also explains why the EEA law is violated daily for 20 years, - and that the crimes keeps on every single day without legal reaction according to 'rule of law'. In that sense, the most serious parts of the penalty law is applicable.

The major actor in the Scandinavian market LO, is most relevant for Trade agreements. LO-nor, LO-dnk and LO-swe, are not Labor organizations like ILO (The International Labor Organization) that is a United Nations agency dealing with labor issues according to the Human Rights. The 3 Scandinavian LO do not truly relate to UN HR but are Trade organizations for oligarchies that have the labor as an asset for dominant business capitalism. It is most effectively done by oligarchies tightly merge with political parties preferably in governmental positions. In fact, LO fights against UN HR on several occasions. The 3 Scandinavian LOs are collective branches and remote controlled from Moscow according to the Moscow thesis from the Stalin period. (See also UU 2013.sept.20, UU 2013.aug.23.)

The Danish annual report clarifies myths and truths about all the LOs in UU 14.okt.2011: "LO is not what they appear to be. LO is a big capitalistic multinational enterprise with unrestrained desire for profit. It

abuses thousands of low waged people as unpaid labor in others' enterprises. Their services avoid the tax system by comradely ulterior agreements. The Danish LO economic key-numbers are clear: the enterprise's equity is 656 million kroner, there are only 148 paid employees, the annual profit is -17.3 mill kr and therefor LO pays no taxes. Their basic values-system is clearly its own capital and power, - not the peoples. As mentioned, the fundament of LO was made by the mafia boss Stalin that saw a cascade of CdE Games by infiltration of the national labor-organizations. Since then, LO has been a cynical bureaucratic organization that uses both physical and psychological violence, - in addition to putting corrupt and incompetent members in other firms' decision-processes at both sides of the negotiation table. Their main motive is not the members or other citizens' welfare. The argument about solidarity, welfare, and equal payment, is used because it's profitable to do so." Clearly, LO is no Human Rights organization at all, - quite the opposite at times.

There is a relation to the previous UU about sub-cultures' preparation for organized CdE crimes. It all points directly to the LO historical phases in 1914-2014. The Stalinism phase in ww2, the cold war relation to RAF-nor, RAF-dnk and RAF-swe, - and the Maoist conversions are talked through in UU 2014.nov.21 and UU 2014.nov.14. It might be hard to see these circumstances. Therefor some chapters from a dedicated UU 2013.sept.27 is translated in the following 4 chapters to tell how it actually works on micro-level, for individual human being of the system:

"Previously, there have been given strong warnings towards LO hidden agendas and infiltrations of AP governments. It is important to know this because the strong anti-cultures to the Parliament and Government oppose the necessary re-organizations of the public sector. It is crucial to distinct between the image of a 'trusted union agent' and the true nature of LO. A main task is to sell other peoples work to its own customers/members. Consequently, labor with alternative Will or incompetence are hired in enterprises, - especially in the public sectors. This has several negative consequences for employees, leaders, firms and society. Generally, the negative consequences becomes rather clear to see if a pilot was substituted with a mechanic, a nurse with a doctor, or a handyman with an architect. Likewise, it is understandable when LO dopes an organization with incompetent leaders where their main motive is that they have paid LO and stated an alternative loyalty. Soon the LO agents get dependent on extra 'helpers' and need teams with alternative loyalties, - and scapegoats to blame. Soon too many employees are hired to compensate for the LO agents. Such an unqualified leader will feel threatened by employees with proper skills and might start destructive Games like 'Robinson' (King of the Hill) to keep the position. (See UU 2013.mars.15.) The result of such cultures in the public sector can be read in the 22/7 Commission's Report. (UU 2014.okt.17.)

"It might be hard to believe how LO works as a labors' mafia, - if it is not personally experienced. The experiences is from Teledirektoratet (state directory of telecommunications) at a main national telecom-center. Any fresh educated engineer is soon confronted with a LO agent ('trusted man' (tillitts-mann) as they call themselves). Everyone is expected to be recruited as a member. The message was simple: 'Pay (be a member of LO), because it pays off the next time you apply for a job.' Naive, it might be, in the belief that any worker have the UN Human Rights for equality even in LO dominated public sectors. The experience is, however, that LO needs to set examples on how bad it goes for an employee that do not pay them. The term 'service age' practically meant how long LO was paid, not the employments duration. The term 'solidarity' merely meant loyalty to LO that could be the opposite of the company and its employees. The 'Jante' culture is simply organized psychopathy (mobbing), where labeling, rumoring, and discrimination are legitimated methods to unify the collective. With that critiques given, - the single employee is not to blame when a mafia threatens their family's foundation for existence by job, wages and career, - knowing that it all can be crushed if one dares to oppose LO."

"A dramatic example on LO contempt towards the 'freedom of organization' became publically clear in Denmark. There was a tavern in Vejle (Vejle Kro) that was dissatisfied with LO/3F. Therefor they changed to the union 'Christian employer organization'. LO reacted with blockade of the tavern so both suppliers and customers were hindered. The illegalities were called 'sympathy strike' by LO and thereby the police felt prohibited to interference. As planned, the blockade caused serious economic problems that could lead to

bankruptcy. However, the medias' public attention kept LO still for a while. Then, one evening, the manager was knock unconscious and the tavern partly burned. LO was quick to charge the manager for the fire and for insurance fraud, with the argument that their security cameras had not registered anyone but the manager. After a long investigation, police annulled the charge, but the case is still very difficult for the firm and the manager. This case shows clearly that LO still is dominated by the 'ghost' of its Stalin culture that puts itself over the legal system and democratic ethics. (See also UU 2013.juli.05.)

By experience, LO's objective is not to contribute positive to working places, - they merely re-distribute the employers' resources for their own profit. In Teledirektoratet, the official leader was put completely aside and LO agents dominated with the alternative loyalties. The government and parliament had no control over its vital directory. Later, in Statskonsult/AD, there was an analysis that showed that only 1/3 of the workforce was required to do the job. The required rationalizations of the public sector can feel like dramatic threats to those involved, - if not converted to inclusive and innovative productivity. That is the kind of fear LO strongly promotes with symbolic fists and uproar about razing their market. It is therefore necessary to take a closer look at what LO motives really are in profit, disloyalties and power, - and act on their Games."

More generally at national levels, - it seems like Russia and China has some ulterior mutual agreement to support each other's expansive geo-politics. China helps Russia in Norden and the Arctic regions, while Russia helps China in Asia. China tried to buy land in Greenland, Iceland and Svalbard. Note that some small land areas include rights for large ocean areas. These areas are particularly important for Russia's ambitions to expand in the northern regions, - but not so much for China. China on the other hand wants control over Asian lands like Tibet, Taiwan, Korea, Japan etc. In this relation and as mentioned in UU 2014.juni.13, the Danish RAF leader Gotfred Appel converted from Stalinism to Maoism in the 60. 'Red Army' (SU and China, have thereby) influenced the Danish intelligence work considerably in half a century. Consequently, strange events in Danish politics like China's manipulation of the global environment conference, Chinese temptations of major investments in Denmark, Chinese rights before the neighbor EU in the Arctic counsel, and the Chinese proposal for extreme social dumping for uranium mining in Greenland (see also UU 2012.Mars.02and UU 2014.mars.14.)

The Norwegian oil production is vital for Europa's needs, independence and security. However, political trade-related environmental arguments are abused to hinder that. As mentioned in UU 2013.sept.20: "The gigantic competitor to European energy-supplies, Gazprom, do already test-drilling in the Arctic region. Norway should be concerned about this gigantic competitor that already is far on the way with alternative gas-supplies by pipes via Danish islands to Europe, in addition to the Russian gas-agreement that caused the imprisoning of the former elected president (Yulia Tymoshenko) in Ukraine (See also UU 17.Feb.2012)." Furthermore in UU 2013.juli.19: "The Norwegian government did the opposite reaction when Chinese officials made threats after the NGO Nobel committee honored an imprisoned Chinese humanist. (The Danish government denied any involvement when threatened by Muslim extremists under the Mohammad crises that was caused by the newspaper Jyllandsposten.) The Norwegian government gave into threats and unreasonable demands, like giving China observer status in the Arctic counsel instead of EU. Furthermore, China wants special rights from Denmark for mining on Greenland with extreme social dumping. Obviously, the Danish government is also under unreasonable pressure from China. However, globally, there are much more at stake, like a creation of a Chinese outpost in the NATO region, mining for uranium and a free port to the Northwest Passage – the future shortcut for Asia and EU."

A fundamental reason for the general skepticism towards SU activities and politics in the Arctic, is explained in UU 12.aug.2011: "For Norway, and the rest of the world, the destruction in Arctic is unbelievable all-embracing. The nuclear catastrophes in the 60's were massively silenced. However, now anyone can see and read about the SU detonations (nearby Novaya Zemlya) of 224 nuclear bombs, 265 megatons, with a blast-force 20,000 times the Hiroshima bomb, - or 100 times all the blast-force in ww2. It is similar to a totally destructive nuclear war in the North Pole region with accordingly radioactive pollution (and 'nuclear summer'). This is a major global concern and no merely an internal affair. The radioactive waste is spread with the winds and with the Atlantic and Pacific streams. There is also radioactive waste on the melting ice.

All remaining life, like fish, polar bears, whales and seals were highly exposed. Attempts to tell about these circumstances was strongly opposed by the Secret Services. The Nikitin case about radioactive sub-marines were just scratched the surface before another phase of total censorship." However, - most destructive of them all was the ozone-blaster Tsar Bomba that alone had 10 times all the ww2 blast-force. No wonder that this place has the highest increase in warming and that the ice melts so rapidly.

All in all, - personal and general experience, - in the song there is a damaged and missing submarine that leaks radioactivity. It makes associations to the ulterior RAF sub-cultures playing Underworld Games at high costs in the democratic civilizations of Europe. The real objections are of the sub-marine forgotten and probably not relevant anymore, - like some sub-cultures of lost sociopaths of RAF origin, like some LO cultures of in Teledirektoratet and CSC Denmark vs Pirate Bay (ref previous UU 2014.nov.28.).

Thomas Dolby has been selected several times in UU. He had several innovative songs in the top of his career. This song 'One of our Submarines' is a synth-pop classic and inspired of the atmosphere of the cold war. It makes one think that it still is as relevant today as then, - even in the near future. One can be overwhelmed of circumstances at a much higher level than the personal. Thomas has some political texts as well as an Englishman that also is concerned about Europe and the arctic region.

A relation UK-SU? That goes all the way back to the tsar Ivan and Queen Elisabeth I.

Pet Shop Boys - Go West (2)

2014.nov.28

Ukens Utvalgte

This last episode of the BBC documentary 'Putin, Russia and The West' has the optimistic title 'New Start'. Since then, the realities of repeating history have hit hard. The previous episode 'War' seems rather to be the real 5D turn. However, there was a positive and optimistic period with Medvedev as President which was rather differing to Putin's. This UU will talk through the episode to investigate the development in relation to Games and the 5D and 3x3 models.

Wikipedia sum up "New Start" like this: "After Barack Obama was elected President of the United States in November 2008, the Russian president Dmitri Medvedev attempted to improve Russia–United States relations." The rest of this UU will provide some elaborations to the content, - followed by some comments and analysis. There will be special focus on 3x3, 5D and Game theories:

- US and SU got new presidents. There was a completely new setting after the Bush/Putin reign. Medvedev's first move was however to continue the previous attitude and threatened US because of nukes in Poland. Obama said he wanted a world without nukes and stopped the rockets plans in Europe. Obama invited himself to SU and Medvedev accepted. They had open talks. Putin appeared alienated and said he do not like to be set aside. Obama decided to deal with only Medvedev in the future. Two notable relations are that Putin do not speak English while Medvedev is skilled, and that Putin had a secret deal with Medvedev to run together for one period only, which made time to change the election law.
- The new deals for arms control and inspectors had bureaucratic difficulties despite the understandings between Obama and Medvedev. Putin changed things and hindered some issues. The deadline passed and ended with no right to inspect nukes. However, during the environment summit in Copenhagen in 2009, Obama and Medvedev had discussions on nukes that went well. The new presidents' diplomacies finally paid off despite the obstacles.
- Oil prices fell and hit Russian economy hard, but Putin said that structural change is impossible. It proved that the previous SU success was mostly due to increased oil income and not the governance. Businesses collapsed and Putin threatened factory owners while there were civil distress. Medvedev disagreed and wanted Russia to be a dynamic high tech civilization, which requires democracy and equality to the law. A HR lawyer and a NGO journalist was shot by nationalistic skinheads, - like some other 3 years earlier. Putin said their work was insignificant while Medvedev gave them sincere condolences.
- US informed SU about a new secret Iran nuke facility and wanted SU to cancel a billion dollar arms deal with Iran. Medvedev wanted SU in WTO to escalate businesses. He was invited to US in return to consider potential business prospects. Medvedev, who is a 'computer geek', wanted to make his own Silicon Valley project and visited Washington and many IT enterprises in Silicon Valley. (There were obstacles, but the Russian Federation has been a member of WTO since 2012.)
- 1000 Russians went to US to fulfill their dreams. Several became secret agents for SU in US. US did not want a scandal before Medvedev's visit. Soon after the visit, some SU spies were revealed and expelled. However, some were treated like heroes in SU, assumingly due to SU Secret Services.
- A new presidential election campaign started in SU. Now they were not the dynamic duo anymore, but hard rivals. Putin was more popular and appeled with nationalistic symbol, posing and statements. Medvedev could not match the media-shows, but got popular by firing some corrupt bureaucrats under PM Putin. In return the imprisoned oil oligarch was put in new rounds in court, supported with Putin public allegations. He got 7 more years in prison that proved that Medvedev cannot provide HR/democratic rule of law. He lost votes, withdraw and asked his supporters to vote for Putin. They swapped roles back again.

Putin has newly stated that he will not be president for life, which is more alarming than comforting since it can mean '10-20 more year'. Recent history shows that rule by democracy law has been seriously undermined and wars have escalated during that reign. Furthermore, the warning against 'colored revolutions' is a warning against east-European democratic contra-revolutions as opposition to SU2 as well

as SU1. Europe and US has now become very careful around the neo-SU, - not knowing what is up in all the cloaked sleeves. Germany's Merkel has expressed that "he is not in touch with reality" and 'Glasnost' Gorbatsjov has expressed that "in Putin's head, there is only God above him".

The differences and rivalries between the democratic elected Medvedev and the FSB installed agent Putin becomes transparent with the BBC documentary and recent information. They seem to represent differences like; democracy/bureaucracy, extravert/introvert, glasnost/secretcy, reforms/traditions, innovation/stagnation and Human Rights/State's Rights. The opposites might indicate the cracks that seem to tear this temporary neo-SU apart. Anyhow, it seems rather clear that neither president Medvedev nor Putin have ever been in real control, - even though the public media indicates so. There are far more actors and organizations that play their parts behind the scenes.

However, the two presidents seem to be set up in traditional Russian psycho-sociological Games. The original CdE Game started when the crown-prince Ivan of Moscow was selected as the coming tsar of Roma3. That was just after Roma2 was plundered by 'The Pirates of the fourth Crusade' and handed over its coat of Arms, 'the double headed eagle' to Moscow (UU 2013.Mai.24). This CdE Game is of 4th degree (war) and have lasted for half a millennium. It involves all of the three meta-organizations Throne/State/Temple that are related to individuals' 3x3 ego-states Drive/Will/Belief. Consequently, even though it appears simpler to focus on representative individuals, the organizational psycho-sociological Games are far from manageable. Actually, it is too complex for any individual or organization to understand and handle. Anyways, the following will be very simplified to indicate points to a 4D analysis for 5D suggestions.

All the complex sub-Games are related to one single meta-Game called CdE (Coup d' Etat). It seems that history somehow repeats on the 100 years anniversary of 1914 and the most fatal CdE of them all in the Winter Palace. The overall CdE Game's motive is that Oprichnina, the collective of Praetors, wants to regain autocracy as under the puppet head-of-state Stalin, - like Ivan before him. Now there is the puppet president Putin that is raised in its system. However, its main rival is not 'western' organizations, but internal democratic organizations, and the feared internal PRO, PRS and RAF-rus (Pro-Russian Olicrates & Separatist, and Red Army Faction) that can cause a so-called 'colored revolution', that simply is a rematch of the counter-revolution of Glasnost. The complexity of the CdE sub-Games shows indications of all mentioned in UU 2014.sept.12: LYAHF (Let's You and Him Fight), BGGG (Bad Guy – Good Guy), TLM/(TOL) ('Two Little Maids' / ('Tuppen og Lillemor'), DAC & UAC (Devide&Conquer & Unite&Conquer), OBD (Offense is the Best Defense), ISR (It Started with the Retribution), EDAB (One's Death Another's Bread) and RPPP (Robbing Pete to Pay Paul). However, the traditional Games at personal level seem also to be played, like: YDYG (Why Don't You, Yes But), IFWY (If It Weren't For You), WAHM (Why does this Always Happen to Me?), SWYMD (See What You Made Me Do), UGMIT (You Got Me Into This), LHIT (Look How Hard I've Tried), ITHY (I'm Only Trying to Help You), LPFJ (Let's Pull A Fast one on Joey), NIGYSOB (Now I've Got You, You Son of a Bitch), RAPO, 'Psychiatry' and 'Courtroom'."

Most obvious Games at play are: BGGG, where US/EU or KGB/FSB is labelled Bad. TLM is about two girls' rivalries over a playground (like the tsarinas Dagmar & Alexandra in the Palaces before ww1). TLM often leads to 'sexual driven' rivalry Games of LYAHF that usually have fatal outcomes. The obvious relations of Games between individuals and organizations is not that simple to explain. However, since certain organizations are dominated by certain ego-states, some stereotyped relations are that; organizations of Thrones will tend to play by 3x3 Drive, - Stat organizations will tend to play by 3x3 Will, - and Temple organizations will tend to play by 3x3 Belief. However note that organizations are not that stereotyped in reality as in theory, - like there might be families ruling certain States organization, Temple can be dominated by State (like the Nordic State-churches) and Thrones can have puppet kings and really is run by its bureaucratic court, - or eliminated as organization and substituted by powerful aristocratic families. (More detailed description about 3x3 and Games is in UU 2014.sept.12.)

Nevertheless the theory, - history seems to be that Obama's invitation of president Medvedev to US was a major diplomatic success for a new SU-US relation, - in a democratic sense. However, no matter the

intentions for the US Tour, there had to be some follow up in SU. This is Oprichnina's playground. Putin is formed by and destined to the Secret Services which has Oprichnina as its organizational archetype and patriarch/matriarch. It stems from the collective of Praetors of Roma² and acts like a substitute to any head of state (Caesar/Tsar). The main properties of the secret state-police are ulterior Games that can overrule democratic ethics, laws and morals. Therefore, the Gimmicks (rules of the Game) of the Secret Services are timely quite opposite of the civilized diplomatic ones. It was most certainly triggered when SU spies were publically revealed and expelled from US after Medvedev's good-will visit. Some were publically received in SU as heroes. Medvedev's counterparts were probably promoters of that dividing gesture.

However, there were far more serious long term massive aftermaths. Although not apparently directly related, there are events and results that highly indicate so. Soon after Medvedev's good-will tour, there were massive exposes of so-called 'whistle blowers'. Some of the most focused ones are: Bradley Manning who was convicted of violating the US Espionage Act that sentenced to 35 years in US prison. The Australian publisher and journalist Julian Assange, the editor-in-chief of the website WikiLeaks, which he co-founded after an earlier career in hacking and programming. Edward Snowden, a former system administrator for the CIA and a counterintelligence trainer at DIA that leaked masses of classified information from the NSA. Snowden is recently granted 3 years refuge in Russia and is offered Russian citizenship. Actually, it seems that he has been with SU all along and a citizenship will certainly label him with a history as another double-agent. Anyways, even with the massive information about the global cyber wars, - the public knowledge is obviously merely from scenes at the stage.

The Mitrokhin archives were mentioned in the previous UU 2014.nov.21. Still, like with the re-cloaking of the STASI archives, not much is revealed, except that there certainly is much more to reveal, - somewhere. A brief summary from Wikipedia say: "Notes in the Mitrokhin Archive claim that more than half of the SU weapons are based on US designs, that the KGB tapped Henry Kissinger's telephone when he was US Secretary of State, and had spies in place in almost all US defense contractor facilities. In France, some 35 senior politicians were alleged to have worked for the KGB during the Cold War. In West Germany, the KGB was said to have infiltrated the major political parties, the judiciary, and the police. Large-scale sabotage preparations were supposedly made against the US, Canada and elsewhere in case of war, including hidden weapons caches; several have been removed or destroyed by police per Mitrokhin's information. The book describes establishing the "Moscow Patriarchate" on order from Stalin in 1943 as a front organization for the NKVD, and later, for the KGB (and assumingly today's FSB). All key positions in the Church, including bishops, were approved by the Ideological Department of CPSU and by the KGB." One can only conclude that RAF in US and Canada exist. Actually, which nation hasn't one?

One source for recruiting agents is simply what one of the original critics of the BBC documentary says: "You don't need conspiracy theories to explain this (because in) the democratic West (there are always some) left wing and anti-American." However, as mentioned in the movie JFK, which was a basis for the ABB analysis (starting with UU 18.mai.2012), one of the exiled Cubans said in despair something like: "They only need to find one single personal weakness to abuse to get you into it." Now, unclocking of SU spies in 'the West' also reveals how they were tricked into it with ulterior Underworld and Sexual Games of Secret Services. A few headlines of the present domestic newspaper says: "Homosexuality, alcoholism, messy economy, and adultery is used by KGB as blackmail." However, the unique interview of the unwilling spy 'Selmer' in (UU 2014.juli.04) and the SU CdE attempts in Ukraine (UU 2014.nov.14) indicates far more extensive hardcore Underworld Games.

Today, there is certainly rather drugs than alcohol, in addition to abuse of multimedia from mobile phones and computers. It is simply available anywhere at anytime to anyone. Even hypnosis technics like NLP (Neuro-linguistic programming) suggestions and questioning are used, - in addition to inducing false memories and perceptions. These abuses have escalated and are mentioned in UU 2014.aug.01, UU 2013.april.12 and UU 08.juli.2011. The uses and abuses are far more common than the public realize, simply because the victims do not realize what happens at all. In fact, that is the whole point of NLP and Games. In Denmark, NLP is well reputed as training programs, also for leaders, in the public and private sector. In politics, such skills can probably be found amongst so-called spin-doctors. NLP is even merged

with the occult Enneagram in the so-called 'NLP Huset' in Demark. If still in doubt about NLP, see the Derren Brown video provided below.

The TV series 'The Americans' sets a believable focus on secret services work on personal levels. A brief summary is: "A pair of deep-cover Soviet spies masquerades as a typical DC couple whose children, neighbors, coworkers & friends are completely unaware of their activities. At home, they're the stereotypical parents of stereotypical kids; at work, they pose as travel agents; but at night, they weave a web of confidants, lovers, dupes, and historical figures from the Reagan-era Cold War. The startlingly realistic plot twists force the viewer to consider the real cost of an undeclared war, what it takes to protect one's beliefs, if it's worth it, and if it actually worked for either side." The author of 'The Americans' worked for a while in the CIA and was intrigued how field agents combined daily life with such work. The series seems to be based on stories similar to the Mitrokhin cases. The agents were 'hidden in plain sight' and the methods used fits the Mitrokhin descriptions. (Based on this, there could be made a hundred TV-series called The Norwegians, The Danes, The Europeans etc.) The next season will focus on how Christian churches were infiltrated, manipulated and used by 'atheists' for secret services. Maybe a future season will show the same for abuse of today's Islamic organizations. There should not be any doubt that extreme such now have become a global threat to LifeQuality for anyone.

'Big Red', a 'Big Blue' faction, is probably the most alarming 5D scenario thinkable for the NATO nations. Yet, despite 20 years of warnings after my Master graduation, - it just recently happened. No wonder that the cyber-wars have escalated and is out of control with no proper defense. The following clips are taken from some personally published postings: "Now it is real. The 'Big Red' faction has acquired 'Big Blue' IT customers including the majority of mainframes in the NATO nations. IBM sold to Lenovo their control over Intel technology, some software, personnel and customers, including major IT systems in public sectors." "Knowing all too well that the ongoing global cyber-wars between NATO, Russia and China has gone too far, - the security needs immediate massive upgrade. The most secure solution for Intel processors is to upgrade to Windows 2008 or 2012 operating system. Such security projects need holistic security models, implementations and guardians as the vital asset it is. All personnel involved should be NATO loyal and certainly not related to any NATO's rivals." "This warning might sound too harsh to see, - at least the results of today's major scandals indicates such attitudes." Related warnings have been talked through in UU 2013.des.06 to UU 2013.des.20 and UU 2014.mars.07 to UU 2014.april.04 and initially in UU 2013.juli.19.

However, IT espionage and sabotage has been going on in the public sector's IT since the beginning. CSC Denmark is a particular relevant such site. Originally there was the Datacentralen in 1959 that provided IT services for the public sectors, communes, police, military, health etc. However, there were parliamentary distrust to its operations that caused outsourcing and selling 75% of the shares to CSC in US/NATO. The first director was previously a consultant from IBM because it all basically ran on IBM mainframes. Soon the critics turned and there was expressed considerably political concerns that sensitive data could end up in US, like previous concerns was about SU. Hard conflicts was initiated via the labor union PROSA. Finally, in 2009, the union was ordered by the court not to interfere in work and negotiations for national security reasons.

As mentioned in UU 2014.nov.21, the "RAF-dnk brothers Weimann were consultants and installed computer-systems for the Police and Ministry of Foreign Affairs. They got confidential access and were responsible for the maintenance that includes access to read, copy and manipulate data." It means that RAF-dnk has been highly influential in Datacentralen/CSC all along, which explains the allegations against NATO/US influence. There are clear connections between RAF-dnk and today's neo-RAF via IBM machines. After rejecting Microsoft Operating System (Windows), IBM made their Intel-based computers highly available for Linux Operating Systems. As the 'international business machine' IBM really is, - the only reason that mattered was that Linux is free, which could increase IBM profit. However, there is a high cost and risk in the lack of security of this highly manipulatively OS. In fact, North Korea has made a Macintosh 'lookalike' based on Linux OS, called Red Star OS, that can practically run on every IBM based Lenovo computer. North Korea has also foreign computer sites that most certainly can be used in cyber warfare. Their alleged nukes are probably not the main threats towards US and NATO.

Moreover from the published postings: "The massive cybercrimes against the Police, Military, Tax-authorities Public health in CSC Denmark and IBM mainframes, were executed by disloyal employees, remote computers in Pirate Bay and controlled from Asia. The delays in police investigation indicate massive organized crimes that also include employees in the Danish police force. Therefore, it is simply beyond any nativity to claim that this major operation was organized (merely) by two young sociopaths. Unfortunately, I personally know all too well how hard and costly it is to be loyal in such organized psychopathic criminal cultures." In fact, the Danish police hindered investigations for 11 months and actions were taken only after several serious warnings from the Swedish police force, since the Pirate Bay founder was Swedish. According to the prosecution there were copied personal information from the Danish police's criminal registers, drivers' license register and the EU police register (Schengen) about international criminals in Europe. To top it all, the access to 10,000 police officers' password and email was copied via Pirate Bay to Asia. By experience it seems reasonable to advice the two major IT providers that Microsoft should realized that Microsoft Denmark might be as infiltrated as CSC Denmark, - and that IBM Denmark cannot play on all sides anymore and needs to choose NATO or not - before it all backfires.

Although, not as well documented as the manipulations of Danish public IT, there are certainly many indications on major cybercrimes in Norway too. As mentioned in UU 2014.okt.24 and UU 2013.okt.25, there are huge differences between public sector's perceptions and reality in public IT spending, objectives, qualities and corruption. The state of police, military and health services have been constantly criticized for a decade without seemingly improvements. Most of this became valid public criticism after the 22/7 terror attacks (see UU 08.Juni.2012). Even the anti-terror law, where the Parliament increased the maximum penalty to 30 years, is delayed several years due to 'computer issues'. Even the Constitution was ratified without the Parliaments modification in the final 'nynorsk' (New Norwegian) version. It seems too obvious that the Norwegian public sectors suffers from the same kinds of manipulations as in the case of 'CSC Denmark vs Pirate Bay'.

Finally from UU 2013.des.06: "By the way, the secret services are not that secret anymore, since they are published on Wikipedia like this: foreign/domestic/military/IT-Tele: US: CIA/FBI/DIA/NSA, SU/Russia: SVR/FSB/GRU/Spetsvyaz, UK: SIS/MI5/DI/GCHQ and China: MSS/MSS/MID/SIGINT." However, most alarming is that hypnotic techniques like NLP (Neuro-linguistic programming) for suggestions and questioning, can be used to get passwords, confidential information and even have employees' to do things unconsciously against their Will. Actually, that is nothing new, - that kind of 'programming' can be traced back to the start of civilization itself.

This video 'Go West' by Pet Shop Boys was used in UU 2013.mai.03, which is an exception to a personal rule not to repeat the choices. However, history's repeating, - especially here. Anyways, the duo 'Pet Shop Boys' is by the way particularly productive and has Guinness record as the most successful music duo in the UK history. The video 'Go West' is special in several ways. This disco hit by Village People were turned inside-out, around and ended in something not even imaginable by most. Note that the animations were far ahead at that time. Originally, it was an expression in the 70' to make San Francisco a 'gay utopia'. In this video US is invaded by a SU gay army, - as if a hetro army isn't alarming enough. Here the dynamic duo of Roma3 enter Roma4 in their dream-world.

Extra UU 2

This extra UU presents a unique and quite interesting version of David Bowie's 'Young Americans'. It is an introduction to free-stream of the TV-series 'The Americans'. This was the turning-point for Bowie when the drugs-abuse took over and his talents became fumbling and his career tumbling. And John, - it seems that RAF-us didn't like his democratic appeal in New York much. He left like some JFK.

Billy Joel - We Didn't Start the Fire

2014.nov.21

Ukens Utvalgte

All the united nations have stated borders for anyone to see at the UN web-site. Just as undisputable is the UNC (United Nations Charter), based on the ethics 'one for all – all for one'. Nearly all 200 nations have signed this to allow peaceful measures to pressure and stop violators. No truthful united nation goes to war despite the UNC. However, if so, all other nations are obliged to use force as the last option to prevent war. This UU will talk through the 3 chapter 'War' to investigate the development in relation to Games and the 5D and 3x3 models.

Wikipedia sum up chapter 3 'War' of the documentary 'Putin, Russia and The West' like this: "In August 2008, the Russia–Georgia war broke out. This episode discusses the political implications of this conflict for Russia's relationship with the West." Following there are some elaborations to the content, - followed by some comments and analysis. There will be special focus on Game theories and cold war history.

- Georgia arrested SU spies and publicly humiliated them. Putin warned that US support will not be sufficient. Later, Putin obviously did not want to meet the young afro-am woman as US foreign minister. Finally he stated clearly to tell the president that "I will do what I need to do". Diplomacy was practically cut.
- Poland requested US rockets for defense, but SU said they were placed there for offence. Putin proposed a new rocket strategy and Bush trusted him, - yet there was no real agreement. On the other hand, US informed SU that Iran can reach SU with nukes in a short while. Some US diplomats made proposals without political support and achieved further Distrust.
- Putin warned Georgia again that actions can back-fire. Both US and SU warned that US and EU is too remote to help. Pro-Russian separatists (PRS) in two Georgian provinces rebelled in armed conflicts. Georgia bought more US weapons and applied for NATO membership. US supported, but Merkel from East Germany indicated no. Merkel proposed an 8 month MAP period (membership action plan) conditioned no armed conflicts with SU.
- SU armed PRS in Georgia with weapons and upgraded the province's railroads. Meanwhile, Medvedjev was democratically elected as new president and Putin was degraded to prime minister. However, there was a secret agreement that Medvedjev was some kind of trainee without full powers. Georgia wanted to sign an international no-force treaty. However, US/NATO demanded Georgia to sign a no-force agreement with SU and US promised to stand by. Then Russian troops invaded a province, PRS snipers fired and SU military convoys invaded. Georgia was unable to call a cease-fire even with their president's appeal. PRS and Russia fires increases and Georgia was forced to respond. Medvedjev then ordered an invasion of 'peacekeeping' troops.
- Putin ordered full military invasion and war to destroy the Georgian army. SU demanded that the democratic elected Georgian president had to go (which is a definite CdE move). US broke the secret negotiations and informed the UN GA. SU then broke US diplomacy trust. SU and France negotiated and convinced Georgia to let the 2 provinces go. US lost trust in Georgia. However, the 2 provinces 'independence' got about 1% support in UN and is practically not legal.

Unfortunately, it seems necessary to stress that there is no doubt about any united nations' borders, regions and sovereignty, - and there is no doubt that all other united nations are obligated to help any violated nation against an aggressor. As mentioned in UU 2014.sept.05: "To put it simple, the Human Rights is a global democratic 'One for All – All for One' declaration. The need for this was very well understood by most humans and nations after ww2, - due to all the inhuman doings and destructions of nations and civilizations. The UN fundamental inter-national obligations are stated in the UNC (United Nations Charter) where chapter VI provides the UN powers to investigate and mediate in international disputes. Chapter VII authorize international economic, diplomatic, and military sanctions and force to resolve disputes. The UDHR (Universal Declaration of Human Rights) is the foundation of the later ICCPR (International Covenant on Civil and Political Rights) and ICESCR (International Covenant on Economic, Social and Cultural Rights)."

The borders and sovereignty of Georgia and Ukraine are crystal clear and can be looked up by anyone at the UN web-site. Today's Russia, with the FSB puppet president, have annexed 2 Georgian provinces, the Ukrainian region Crimea and have initiated, supported and secretly executed warfare against several Ukrainian regions. Till now the casualties are: Ukraine; killed 1,152–2,085, wounded 4,079, missing 400, captured 1,942. SU2 militants; killed 1,044, captured 300–1,200. SU2 soldiers; killed 200–300, wounded 450, captured 10. In addition, an airliner full of civilians is shot down and official OSSE inspectors have been kidnapped to prevent civilized elections. Moreover, Russia 'invaded' with 250 trucks to East Ukraine on august 22th and called it humanitarian help. In the same way, the annexations of eastern European nations in the previous century are not legal or valid, but results of fatal war crimes, - even though the responsible managed to hinder an international trail.

These are clearly a preparation phases before well planned invasions of Ukraine regions. Wars do not seem to be declared anymore, but rather denied. It is just the same procedures as for Georgia and for lots of other European nations in the previous century. On the other hand, the truth is made rather clear when promoting Novorossiia («New Russia») to the 'pro-Russian separatists'. Yet, it is as fuzzy as the previous definitions of Russia, Moscow and the Soviet Union. Historical maps show that there have never been any legal acknowledgement like today's ambitions. For example, the Grand Duchy of Moscow was a relatively small area under Tsar Ivan at the time of the constitution of Roma3, 500 years ago. It did not include Ukraine/Russia, or the lands nearby the Black Sea or the Baltic Sea (Norden). Actually, Ukraine was the land originally called Russia by Roma2, - not Moscow/Roma3.

There are lots of theories of why today's Russia constantly do aggressive invasions of the neighbors' regions, - despite the massive protests and insignificant support from some 'friends'. The re-creation of cold wars has made serious diplomatic, economic and civil situations since the election in 2012. For example, president Putin was requested to leave the G20 meeting very early due to all the improper doings. Why do this at so high cost and so low success rate? 3 official main reasons stand out: 1. They need for land connection to the illegally annexed Crimea and the Black Sea. 2. To strengthen the rebelling Ukraine provinces for future annexations. 3. To challenge Ukraine, EU and NATO (for nationalistic support). They are likely reasons, - actually, there might be need to control all the land areas around the Black Sea including Crimea, Greece, Cyprus, Syria and possibly Suez for unhindered access to the Pacific and China. However, - Game analysis, indicate complex ulterior blurry motives that lies under the surface. It is necessary to look into its 500 year history of geo-politics, regional rivalries and obligations to the title 'Roma3'.

The Roma3 CdE Games are dependent on disloyal hard-core Game-players in the targeted nations. Such were uncovered as RAF (Red Army Faction) during the cold war. This is talked through in UU 2014.juni.13: "However, most destructive of all were the indicated 100 RAFs with urban Stalinist mafia-guerillas. The following vast damages cannot be measured or documented. They can however be made probable by general knowledge of the costs of sociopathic civil wars. These damages are probably far larger than all the human and material known damages during the ww2." In related writings, there have been attempts to label these highly secret and ulterior urban "fifth column" armies. Yet, ulterior organizations will not ever allow identification. Anyways, in order to do so, the hypothesis is that there have to be RAFs in most of the united nations since the Roma3 ambition was global 'revolution' and submission. In other words, there were 100-200 RAFs like RAF-rus, RAF-chn, RAF-deu, RAF-esp, RAF-ita. For Norway, there is now necessary to talk about the new Moscow aggressions. 22/7 (П) proves that. The next 3 paragraphs will focus on some historical relations and the likely hypothesis that each Nordic nation have RAF sub-cultures in LO (Landsorganisationen).

This issue has been addressed indirectly several times and is merged and focused in UU 2014.juni.27: "On the other hand, 'conservative' organizations from the previous century might be rather radical now, since they are in opposition to the government. The 4D model can also show that certain organizations comes and goes. The relation of short-lived extreme organizations might appear to be pulsating constants in the 3D model, like the series of NKP, AKP, AKP-ML, RV and Rødt. A more recent oddity revealed during the Danish EP (European Parliament) election. The most profiled DF (Danish Folksparty) candidate promoted strong anti-European arguments, rather similar to Putin's during the Ukrainian contra-revolution, the annexation of Crimea and Nashi (Наши)-talks. It might indicate that Moscow has found new political relation in Europe and that the past century's loyalties will not be honored in this century." A main reason is of cause that no Nordic CdE with Roma3 submission was executed as promised. All the RAF/PRS just made a lot of noise, decay and misery, - but did not fulfill their CdE obligations to Moscow. Now the PRO and PRS of the 68-generation feed on the system, expecting prioritized public services and pensions, - like some Stalinized spoiled bullies.

There are lots of new information on RAF agents with the so-called Mitrokhin archives. Still, as for the re-cloaking of the STASI archives, there is not much revealed except that there certainly is much more to reveal. However, it's obvious that Moscow/Roma3 heavily financed and supported CdE sub-Games in the

previous century and expected payback by total submissions as satellite-states. Therefore a well-documented, but highly denied hypothesis, is the existence of Stalinism. The origin of the AP/LO dominating power in Norway is talked through in UU 2014.juni.13 and UU 2013.aug.30: "Wikipedia documents that LO was Nazi for 4 years during the ww2 and was consequently the major promoter of the invasion in Norway. 'Youngstorget' became the center of power with the main police-office and the LO-building side-by-side. The main network for Nazi intelligence and activities was at most working places in the public sector. Books of history does unfortunately not tell the 'whole truth' about what this terror-regime that caused un-recoverable damages to society. Documents are still locked down and unavailable for the public."

"The executions of the Norwegian national-socialistic leaders has probably not terminated the neo-Nazi-cultures in LO. It rather legitimated progressions for the next generation 'the national-communists'. The Stalin-Hitler cooperation before ww2 is well documented with the Molotov-Ribbentrop Pact' (1939-1941). Less known is the cooperation after ww2, where the national-socialists could convert to national-communists, - probably with some bindings and pay-backs." "Originally in the 20's, the supporters of the Moscow thesis were expelled from the ruling Arbeiderpartiet (AP) and formed their own national communist party (NKP). Since then, they have searched influence via LO instead, and LO has always demanded direct powers on AP in government." As mentioned in UU 2014.juni.06 and UU 2013.aug.23, the whole story of the dominating political alliance AP/LO is not well known in Norway, Norden or rest of the world.

Globally, the main hypothesis for this century is that RAFs are now converting to PRS (Pro-Russian Separatists) organizations like KGB converted to FSB. As mentioned in the previous UU 2014.nov.14. "Glasnost (openness) and Perestroika (restructuring) was the final fall of STASI, the Ministry for State Security, in the annexed East Germany. STASI had over 91,000 employees, 15,000 military and 173,000 informants/spies – about 2.5% of the population. Anyhow the statistics, 2% infiltration is an indication and a 'thumb-rule' that probably goes for the Nordic countries too. The STASI faction gives an indication of how the original Oprichnina has developed the past 500 years. It also gives an indication on how Praetor/Oprichnina has developed and become after 2000 years."

A most reputed RAF agent is called 'Carlos the Jackal' alias Ramírez Sánchez. He is currently in jail for double life-time in France for killing 11 people, injuring 150 and murdering of 3 agents. Historically, in 1968, Carlos opted for the Patrice Lumumba University in Moscow that was reputed as a notorious hotbed for recruiting foreign communists to the Soviet Union. He was expelled from the university in 1970 by disciplinary reasons, though. Then he travelled to Beirut and Lebanon, where he volunteered for the PFLP (Popular Front for the Liberation of Palestine) in 1970 and tried to establish his own organization with Syrians, Lebanese, and Germans. Carlos was also connected to the STASI that provided him with an office and safe houses in East Berlin, a support staff of 75, a serviced car, and allowed him to carry a pistol in public. The STASI files also show links to the KGB (today's FSB). There is no public information if Carlos and Putin had relations when they both were with the KGB in East Germany. However, Carlos the Jackal was most certainly closely related to RAF-dnk.

RAF-dnk is talked through in UU 2014.juni.13 and UU 2013.juli.1: "RAF (Rote Armee Faction) became reputed as a sociopathic civil war cells in western nations. RAF was designed after the Stalin concept from his past as a Mafia boss in SU/Caucasus. The leader of the Danish RAF (Blekingegadebanden), Gotfred Appel converted from Stalinism to Maoism. Consequently the RAF-dnk is related to the Beijing regime, even though it was indirectly controlled from SU. The attempt to kidnap (millionaire's son) 'Jörn Rausing' was a cooperation with RAF-nor and RAF-swe. It is uncertain if the detection shows that the Danes were more people or simply more clumsy. Besides, the extent of Moscow and Beijing cells (RAF-rus and RAF-chn) is uncertain, but likely significant and timely fatale. For example, the RAF-dnk brothers Weimann were consultants and installed computer-systems for the Police and Ministry of Foreign Affairs. They got confidential access and were responsible for the maintenance that includes access to read, copy and manipulate data. At the same time, the youngest made the so-called 'Jew-register', supposedly for the related organization PFLP.

The historical SU terms like KGB, STASI and RAF need adaptations to the 21st century SU2, - just like KGB converted to FSB. However, RAF2 or neo-RAF, would probably not be adapted terms in the media, since today's terms seem more neutral, remote and individual. For example, a decade ago, such the agents and related mobs were called 'autonom's to shield their real sponsors when exercising in demonstrations and football matches. Today's terms are 'Oligarchs' and 'pro-Russian separatist'. In this way, today's RAF2 consists of PRO and PRS (Pro-Russian Oligarches and Separatists.) There are most probably many such sleeping cells, neo-RAFs, in all 'western' nations. (See UU 2014.juni.13.) However, the cold war global revolution failed, - of course it did when Roma3 relied on the worst kind of sociopaths they could convert behind the rivals' lines. The main idea might have been to make temporary BDW (Bad/Destructive/Wrong) values in the prey nation to simplify a CdE, - during an arranged general strike. However, it is beyond nativity to believe that forcing mass-psychopaths like some Stalin wanna-be's into power could ever make any positive results. That is simply a sociopathic Game with no care for the damages induced on other nations, organizations and persons.

Neo-Oprichnina had their century and now it is gone. However, it is rather transparent that this reality is not quite realized for the hardest core of sociopathic 4th degree CdE Game players. Some sub-Games of CdE, like LYAHF, TLM and DAC&UAC show that there can be a third ulterior global Game player. (Other CdE related Games are BGGG, OBD, ISR, EDAB and RPPP.) Actually, global 4th degree Games includes massive numbers of Players and otherwise involved. It is obvious to see from the scenes from last G20 meeting. US, French, German and Canadians made clear expressions, - and there were 20 actors at national level there.

However, there are other events that appears too absurd in the public media. There must be some more ulterior Game players behind the scenes. Strange are events like the 2 Malaysian airplanes where PRS and Putin got the blame for the second one. The PRS aggressions in the area are too provocative for US, SU or EU to be initiated by themselves. It makes one think about the 2 arch-enemies of Roma3 that apparently have not publically got involved yet.

One main rival of Roma3/Oprichnina was originally the Mongolian empire (UU 2013.juli.19). Maybe not quite related, but remember the Albanian invasion of Kosovo that was supported by a NATO fleet close to Cyprus? - where a building full of Chinese spies were bombed? They are often omnipresent - hiding in plain sight. Other reminders appear. 500 years ago, Tsar Ivan's main objective was to stop the Mongolian terror of invasion, violence and taxes. Somehow it stopped and a deal was done. However, it seems that Ivan with Oprichnina used the same Mongolian way of terror to annex western regions like Novgorod, Ukraine/Russia, Baltic States and caused the Nordic Union to collapse. Besides, there was a fatal Russo-Japanese war just prior to ww1 that simply was interrupted before finished. Mongolia was converted to Stalinism just before ww2. After ww2 there was a Maoist/invasion of China, which practically made China a mongolized Stalinist state. However, the Chinese and the Mongolians do not recognize Roma3 as their superiors. Now that Roma5 seems to outmatch Roma3, there are certainly very hard Games at play at empire level.

Another arch-rival of Roma3/Oprichnina is the Muslims empire that caused the fall of Roma2 and foundation of the Ottoman Empire instead. Much of this is talked through in UU 2014.april.25. One main objective for Roma2 was to control the Black Sea and the related land areas. Roma3 did not fully follow up on that. Especially the important Crimea was controlled by the Muslims even though the tsar bought some privileges for a period. Stalin, however, is reputed for his cruel massacres of Muslims and Mongolians at Crimea. Anyways, the SU managed to push the Muslims' wars back to the Middle East with the Afghanistan and Chechnya wars, even though US took over after 9/11. (See previous UU 2014.nov.14. And the UAE (United Arab Emirates) was talked through in UU 2013.aug.02 due to a Norwegian HR case.)

Anyways, in addition to the mysterious cascade of CdE called 'Arabian Spring' there is a very ulterior 4th degree CdE Game player at stage. However, less mysterious is the Syrian war with several Muslim groups with loads and loads of Russian weapons, traded by murky Oligarches via Cyprus. Nevertheless, the newest actor in Muslim self-genocides is the so-called IS, alias ISIL alias ISIS. It does not seem to be true religious at

all, but rather another neo-RAF, - Jackal style. In fact, the L in ISIL mean Levant that includes Jordan, Israel, Palestine, Lebanon, Cyprus and south Turkey, - which indicates that Israel is a long term goal. IS might as well mean 'Iblis State'.

"We Didn't Start the Fire" is a song by Billy Joel. Its lyrics include brief, rapid-fire allusions to more than 100 headline events between 1949 and 1989. The concept is rather 'Bob Dyl-ish'. The song was a #1 hit in the US and Billy is one of the best-selling artists of all time. The music video chronicles a middle-class married couple and their goal of the American Dream. It is full of symbols of the unrestrained social times during the cold war. The singer acts as an unseen but omnipresent observer, - like some secret service agent. Then the question is: "If 'we' didn't start the fire - who did?" 'Who are those 'we' anyways?' Possibly 'we' are any 4th degree global Game-players of Roma1, 2, 3, 4, 5 – and several other nations and organizations.

Мы не начинали огонь

Было всегда горят

Так было превращение мира

Мы не начинали огонь

Но когда мы пошли

Он по-прежнему будет гореть дальше и дальше и дальше и дальше

И так далее и так далее ...

Нет, мы не зажечь ее

Но мы старались с ней бороться

由於世界上已轉向

我們沒有開始火
但是，當我們走了

DeVo 2.0 - Freedom Of Choice

2014.nov.14

Ukens Utvalgte

'Democracy Threatens' is the second part of the documentary 'Putin, Russia and The West'. Still, the 5D political model does not include democracy, which makes the LQ (LifeQuality) definition an important addition. Basically, LQ is based on Human Needs and Rights. Quite alarming is that the documentary then might as well be called 'LifeQuality Threatens Neo-Russia'. It seems to revert to the former SU (Soviet Union) – like a SU 2.0 - like a childlike empire in social-psychological sense. This UU therefore present a talk-through on such views on its 5D political shift of this century.

Wikipedia is brief about the documentary and writes: "This episode focuses on the 2004 Ukrainian presidential election, the subsequent Orange Revolution, and Russia's involvement in it." The 1 hour documentary reveals several important aspects of today's 'Putin, Russia and Ukraine'. As we now very well know, this has become a major concern globally and can set humanity back to a cold war of ulterior political Games. Most alarming, - they certainly know what they are doing, the risk they expose on their neighbors and the possible fatal outcomes. These 5D events seem to be repeating symptoms of history and are in fact intentional. However, the 'Game board' has changed considerably and the outcomes cannot be predicted as before.

Here are some personal summaries about 'Democracy Threatens', followed by some comments:

- Putin initiated several campaigns against certain enemies. The old case about the UK 'spy rock' was re-publicized as scandalous news. The reports did not tell anything about what the electronic content do, - and quite frankly, it seems silly that the MI6 would label such a secret device with something like 'made in UK'. The problem with such claims is that no secret service can diplomatically or legally deny or confirm it. Nevertheless, the public campaign was domestically effective to justify the anti-democratic law and get support for the upcoming democratic election.
- Putin claimed that Islamists, Arabs and "you name it" were establishing in Georgia 3 years after Russia conquered Chechnya. That argument of preventive self-defense was supposed to legitimize an attack. Georgia had become an ineffective and corrupt post-SU state and could not deal with it. US had a relation Georgia, offered to help military and was accepted. The following pro-democratic protests and demanded the President removed. SU accepted an election, but demanded to keep the president. Still, a new president was elected. The following overstated use of US and EU flags and anthems alarmed both US and SU. It was obviously a deliberate provocation towards SU.

- US wanted Ukraine in NATO, but SU rejected since it is important for their oil-pipelines and marine base. The 'Orange' democratic movement became increasingly popular due to the discontent with the SU puppet president and the bureaucratic corruption. SU supported a new puppet president and made several hindrances to the Orange campaigns. The Orange campaign manager was called to a meeting with secret service officers that were close to Putin, but he would not cooperate.
- The Orange leader Viktor was seriously poisoned with dioxin that would normally put him out of the campaign. However, the democracy responded in sympathy and extra votes. The puppet president won despite several disputed happenings. However, the Supreme Court had to investigate the election, when both sides accused the opposite for swindle. The Orange won the new and monitored election.
- The 'Democracy Threats' in Georgia and Ukraine turned Russia more dictatorial. The voting rules were changed to secure State's position and power. A former FSB agent in England was poisoned by radioactivity and died. Consequently, MI6 stopped working with SU secret services.
- 'Nashi' (Наши) was a youth organization where Putin and Medvedev got personally involved in political and moral talks about national and social patriotism. It was soon called "Youth Democratic Anti-Fascist Movement" and "Ours!" Nashi declared itself to be a democratic, anti-fascist, and anti-'oligarchic-capitalist' movement. It was also encouraged by senior figures in the Russian Presidential administration. There was also issued a new law forbidding foreign support to international NGO's for human rights.
- By late 2007, Nashi had grown to 120,000 members aged 17 to 25. Some Nashi fractions started harassment actions towards business men on their way to work. Other more hardcore violent organizations found legitimated support to terrorize and even murder opponents.

Democracy is fundamental for anyone's LifeQuality (LQ). As defined in UU 2014.okt.17, LQ is based on Human Needs and Rights. Basically the needs relate to; Physical, Safety, Social, Respect and Self-realization. The Rights relate to; private properties, self-determination, security, privacy, family, work, education, freedoms of thought, conscience, religion, expression and more. Democratic individual power to self-realize is vital for the LQ of society as well. No central power can possibly understand and influence human individuals optimal. This is also the reason why public services need constantly innovation. (See UU 2014.okt.24.)

Anti-democratism is simply based on faulty childlike illusions and obsessions like narcissism, oedipus/electra complexes, psychosis, mania, phobia, etc. All in all, in Freudian sense, the reason for the mental disorder is dominating (external) S-E (3x3 Belief) forcing an inferior Ego (3x3 Will). (See UU 2014.juli.18.) This psycho-sociological theory can be extended to organizations, nations and empires as well. It explains why LQ based democracy is vital for the quality of any society and why anti-democracy cause decay and degeneration. Neo-Russia, SU 2.0, shows increasingly symptoms of such a 'devolution'. Roma3/Moscow seems to re-establish the anti-democratic natures of its ancestors Roma2 and Roma1 with anti-democracy as a prioritized political power.

Little is known of what became of organized crime of today's Roma3. It is legitimate to ask: How did the neo-Oprichnina handle the other oligarchs and what do they do today? As mentioned in UU 2013.april.26, most typical organized international crimes are about money laundry, trafficking, and drugs. Weapons and war could be included to that list. There are serious indications that some actors moved to Cyprus and have been influential in the growth of the 'Arabic spring', - the cascading Games of CdE in the Middle East and North Africa. Syria is indeed involved with such war-crimes with extended use of Russian weapons. In the end, - conflicts in oil-producing regions cause increased income for the competitors, - including Russia.

The documentary tells how the secret and public services of Roma3 treated former puppet states like Georgia and Ukraine. Controlling the puppet heads of states seems to be an overall goal at all cost. The means and methods seemed unlimited, which includes extortion, bully elections, fixed ballots, manipulations, terror and even murder. All in all, these actions have written Oprichnina/FSB all over. There are good reasons to professionally re-evaluate the political national security for all the European nations, especially the Nordic ones. Take a look at the English version of Pravda at the internet and compare the arguments with the domestic political parties' arguments. Some stand out clear as puppet politicians and

puppet parties. Relevant political issues are particularly influencing European free trade, security, money, energy, defense, civil rights, environment, public income and spending, migration, etc.

Last week, there was the 25 anniversary for the fall of the Berlin Wall. It was a major 5D political turn, caused by Glasnost (openness) and Perestroika (restructuring). Most of all, it was the final fall of STASI, the Ministry for State Security, in the annexed East Germany. STASI had over 91,000 employees, 15,000 military and 173,000 informants/spies – about 2.5% of the population. Anyhow the statistics, 2% infiltration is an indication and a 'thumb-rule' that probably goes for the Nordic countries too. The STASI faction gives an indication of how the original Oprichnina has developed the past 500 years. It also gives an indication on how Praetor/Oprichnina has developed and become after 2000 years. However, it is not a main issue in this UU yet. Meanwhile, related are; UU 2014.mai.02 about the original Oprichnina, UU 2014.juli.04 about Selmer the Norwegian forced teenager spy and the stalinazism, UU 2014.juli.25 about the nature of a 'dystopian Thralltopia' and UU 2014.juni.13 about the modern RAF (Red Army Factions).

Putin served for 16 years in East Germany and was trained as a professional agent during the fall and dissolvent of STASI. It makes Oprichnina/STASI most important to understand what Games are to come. That single battle over STASI in the US-SU cold war Game of secret services ended 1-0. It was a temporary victory and retributions are yet to see. Putin witnessed and sensed how the once so respected organization fell in humble misery, - leaving traumatized exposures at the battle-field. He saw how the exposures to public enlighten harmed millions of KGB/Oprichnina agents, - and how the ulterior anti-LQ empire crumbled and dissolved. Yet, the opened archives have not been opened to the concerned public at all, - just 'some distracting bones to chew on'. The archives are most probably digitalized, moved and converted for use in this century's cyber-wars with new alliances and new victims. This is far from settled with some symbolic fall of a wall. It takes generations for such major Game-shifts. Meanwhile, - it is all re-arranged for the next global psycho-social Games at empire level.

Public profiles on Putin that reveals his personality, are scarce. However, some is public like that; his family was poor in Leningrad, his father served in the navy and his mother even cooked for Lenin. Somehow, Vladimir Putin won a car and used it personally despite his family's needs. In some way he also managed well in the hard criminal gangs of Leningrad. There is a Russian proverb saying "Beat your own and others will fear you". Actually, it seems that an east-bloc underworld Game 'BYOOWFY' of 3rd and 4th degree is identified. It seems to be legitimated in Roma3. Still, Putin doesn't seem to do the beating himself, but rather have someone else to do it, - like murky olicrates, street gangs, 'jugend', police, para-military or other ulterior secret services. That is simply the Game of LYAHF. The Game is however originally feminine and related to the rivalling tsarinas of the Winter Palace. (See UU 2014.mai.30.)

Putin is simply the greatest puppet president of them all. It is obvious, since the main objective of foreign policy is to control their 'head of state'. Then it must certainly be most important to control its own head of State. Since Roma3, neo-Russia, is run by secret services, the understanding of the ulterior Games is necessary. Some social-psychological Games are talked through in UU 2014.sept.12. "Classic and new Games in the new CdE category can be; LYAHF (Let's You and Him Fight), BGGG (Bad Guy – Good Guy), TOL/TLM ('Tuppen & Lillemor' i.e. 'Two Little Maids'), DAC & UAC (Devide&Conquer & Unite&Conquer), OBD (Offense is the Best Defense), ISR (It Started with the Retribution), EDAB (One's Death Another's Bread) and RPPP (Robbing Pete to Pay Paul)." In general, ending destructive Games can simply be done by uncovering the Games and the Players – and/or making the Spoils hopelessly unachievable.

Nashi, the Putinized youth organization, turned unacceptable. Wikipedia says: "In 2012, the leader of Nashi announced that the movement would be dissolving in the near future, possibly to be replaced by a different organization. He stated that the movement had been 'compromised' during the recent presidential election. In 2008, the movement was divided into groups: Nashi-2.0, Steel, All Houses, Nasha Victory and other. Critics have compared it to the Soviet Komsomol or the Hitler Youth and dubbed as Putin jugend." In a Nordic view, it is remarkable that Nashi flag is like a diagonal Danish one and the neo-Russian flag is like a diagonal Norwegian one.

Although still emotional controversial, it is now legitimate to relate Nashi to Nordic political youth organizations, - and AUF in particular. No doubt that AUF is strongly related to 'heads of state', the major political party, the labor organization (LO) and public sector. AUF, like Nashi, do also harassments to opponents, 'oligarchs' and democratic citizens (plebs, 'borgere', bourgeois) in particular. However, AUF have been open to let other ethnic groups to power, - which is rather controversial under the surface in their related organizations.

This comparison might be political and emotional provocative, since it is about hardcore 4th degree Games of a new and near relation. Nevertheless, this is deliberately done as a clear warning: Do not open such a political 5D path. There seems to be some alarming similarities to some ABB personal profiles. UU 18.mai.2012 to UU 20.Juli.2012 followed the 22/7 trial about the CdE bomb and AUF massacre. During the trial, there were 2 contradicting psychiatric evaluation of his personality that caused serious distrust to the legal psychiatric system. The second psychiatric evaluation diagnosed ABB as not schizophrenic, delusional or psychotic, but rather with antisocial and narcissistic personality disorder, possibly Asperger and Tourette syndrome and some possibly paranoid psychosis. His lack of emotion, monotonous voice, 'stone-face' and peculiar smile was considered deliberate responses to his environment, indicating ulteriority, dishonesty, - or briefly, - a Game player. Furthermore, some psychiatrists seem political motivated Game players. See also the talk through of the 'Thomas Quick case' in UU 2014.juli.18.

As questioned in UU 2014.okt.17: "What organizations can and will see through such a massive operation, with unhindered executions, leaving too few trials and overruling a national legal systems? 'Follow the money' - and follow the footprints. ABB appears like a 'pro-Russian separatist'-wannabe." Actually, - seeing how it works in Ukraine, - he appears to be a well-trained pro-Russian separatist. Some memory refreshments should be in place: He had conflicts with the national authorities, joined violent street gangs, was unfit for military training but joined paramilitary training camps in Eastern Europe. Held several secret meetings with Underworld Game players. Got illegal supplies unnoticed despite monitoring systems. Most important, the bomber has never been identified and it is unlikely that a single person was all alone about both the bombing and the massacre.

Comparing ABB with pro-Russian stated values, ideology and myths leaves few doubts where it stems from. If still in doubt, take a look at English version of Pravda on internet once more. Finally, ABB's obsessions of some knights Templar could stem from the 4th crusade that plundered Roma2 before the Muslim invasion and constitution of Roma3 in Moscow. (See UU 2014.okt.31.) There are most probably many such sleeping cells, neo-RAF, in all 'western' nations. (See UU 2014.juni.13.) More about that in the next chapter of the documentary.

Devo 2.0 was created for Walt Disney Records with help from the original Devo. Child actors sang, danced and mimed playing along to songs. Some were actually credible musicians though. The lyrics were edited to make them more 'family friendly' - Disney-style. The editing removed much of the insinuation and irony typical of the Devo songs. In 'Freedom of Choice', the line "Freedom from choice is what you want" was changed to "Freedom of choice is what you want", and the line "he went in circles/till he dropped dead" became "he went in circles/till he dropped down".

The original band DEVO and 'Gates of Steel' was selected in UU 2013.okt.11 to the talk through about SU Stalinism. The band was originally formed as a practical joke by some art students. The name DEVO is short for De-evolution and indicates that human development has become reversed. They did not imagine being a band before they got support from David Bowie, Warner Brothers and Brian Eno. The main message in the song 'Gates of Steel' is that humans are humans and constructions are constructions, - even though the real life 'Devo' called himself 'man of steel' or Stalin. Now, with Devo 2.0, the new puppet president appears like some teenage ulterior Game player with 4th degree consequences in a 5D political model.

Ukens Utvalgte:

Roma3 of 2014 is not like the previous, - it seems. It is, however, as challenging as before to diagnose. Such is called Kremlinology and is basically like Vaticanology, where public communication is in the uncommon Latin and by smoke-signals on selection-days. Similarly, Russian and gun-smoke is not the only expressions to analyze. In the next 4 UU, the models of 3x3, 5D, Games, LQ in addition to the documentary 'Putin, Russia and The West', will be used to get some views on what happens and should happen in relations to Norden.

'Putin, Russia and the West' is a four-part BBC documentary from 2012 about the relations between Vladimir Putin's Russia and the West. (West in Russian sense means EU and US that is west of Moscow.) The series won a Peabody Award in 2012 because it; "exposes and explains history as process, as something made with choices rather than something to be recalled and described." However, there are also some negative critics like: "No-one tells anything from Putin's inner circle, the so-called siloviki" (politicians from the security or military services). "(It is) nothing less than a party political broadcast for Putin and his United Russia party." "Putin's anti-democratic crusade largely being a legitimate reaction to the hostile policies of the West, especially the United States". Nevertheless the critics, - the series gives structure and drive for the 3x3, 5D and Game analysis.

This first part is called "Taking Control". A public summary at Wikipedia says: "(The) newly elected President of the United States George W. Bush famously declared in June 2001 that he had looked Putin in the eye and 'got a sense of his soul'. It is revealed that on the same occasion, Putin had given Bush a prophetic warning about Pakistan, Afghanistan and the Taliban." "This episode looks at Putin's relationship with Russia's oligarchs, particularly vis-a-vis Russia's oil supplies, ultimately leading to the arrest."

Here are some personal summaries about the first episode: 'Taking Control', followed by some comments.

- The documentary do not go into the former 10 years and the inevitable contra-revolution to 1914. Mikhail Gorbatsjov was the last SU leader and ended the Stalin period by initiating Glasnost (openness) and Perestroika (restructuring). The elected president Boris Yeltsin made that happen by liberal democratic laws and forced the previous autocratic regime to leave. However, Yeltsin could not control the cascading effects in society and seemed to lose control.
- Unexpectedly, Yeltsin resigned and pointed at Vladimir Putin as the Acting President. Putin was positioned symbolically on the very first day of the new millennium. Previously, Putin was an officer in the KGB (now FSB). He was a specialist in counter-intelligence for 16 years in East Germany and might therefor be related to STASI. He got into politics in St Petersburg (Leningrad) in 1991 and moved to Moscow to join President Boris Yeltsin's administration in 1996. 4 years later, the secret services ended democracy by use of Putin and regained control of the State.

- The capitalist State needed new capital. In that sense it seemed necessary to confiscate capital from some oligarchs of the 'private sector'. In brief, there is oligarchy when society is dominated by the small minority of the wealthiest citizens, - hereby called oligarchs. A Russian (private) oligarch is almost synonym to non-state businesses. They acquired huge wealth fast from State-capital in Russia and former SU satellite States in the 90'.
- Some oligarchs were invited to business-meetings with Putin. The State oil company Rosneft was minor and inferior at that time. An oligarch claimed that the corruption of State bureaucrats was 10% of GDP. Putin claimed they were just as corrupt, which legitimized investigations. The State took their capital with law regulations, prosecution, exiling and arrests. The State also hindered democracy movements and foreign relations. All in all, the State regained control of vital properties like the law, media, energy, minerals etc. This conflict between oligarchs and the State is still very tense, - and has probably been so for 100 years since the Game of CdE (Coup d' Etat) from Throne to State in 1914.
- Both the US and SU lost their main enemy when the cold-war ended in 1990. Both had large war-related enterprises for military, weapons, diplomats, agents, spies etc. The US president George W. Bush wanted to expel SU secret agents, but could not due to their new and 'friendly' relations. In fact more secret agents were added since they were uncovered in EU during the 'glasnost' of STASI.
- Both US and SU were designed for global war-fare and needed new focus for that. There was even a question of joint military alliance in NATO, but that was too controversy. They made new strategies and agreed to cooperate when needed. (In this relation, this 'neo-Russia' can be referred to as neo-SU or simply SU.)
- The US & SU found a new shared enemy in the theocratic and oil-dominant Middle East. The failed SU wars towards Muslims in Chechnya/Caucasus and Afghanistan were humiliating and weakening. SU wanted US in a joint warfare. Putin's 'prophetic warning' to Bush was realized with 9/11. Then SU granted immediately access for US on their SU air-bases to bomb Iraq. The captured Islamists were sent to the SU satellite-State Cuba for imprisonment and interrogations.
- The new US-SU agreement didn't last long though. Putin had Germany and France to vote against the Iraq wars in the UN. That made a serious diplomatic division on US-EU, - like in the Game DOC (Divide & Conquer). Anyways, US went to war on terror in the Temple-related Middle East. Consequently the oil price rose and the SU State got rich due to increased oil-taxes and confiscated oil-resources. US, as a major oil consumer, had to pay the increased prices. The state's oil-company Rosneft acquired others' oil fields and got powerful.
- Even though Chechnya was a military failure under Yeltsin and success under Putin, the Muslims were not settled at all. The Chechens/Caucasian took hostages in a Moscow theatre and demanded Putin's resignation. Clearly there is no tolerance for such since the state wiped out all with an unknown poisonous gas, including all hostages. (Curiously, Stalin was a Caucasian too, - and did terrorize Russia in similar ways. However, the State seems to have changed the point of view on such domestic activities now.)

All in all, the first period was a tremendous success for Putin personally and the secret services. They were simply Taking Control, - like in a Game of CdE. Putin got powerful, the State got stable and stronger. On the other hand, - Russia got less democratic. The new Secret Services regime proved that they are anti-glasnost (anti-openness) and pro-perestroika (restructuring). Even KGB was renamed to FSB and closed down the outdated and exposed STASI organization in Eastern Europe. However, it didn't vanish, - it just innovated and moved.

There is no doubt that the neo-SU regime in Roma3 is a hard-core Game player of 4th degree. The simple fact that a secret agent was put in autocratic power says it all. The Secret Services are like the very definition of psycho-social Games (UU 2014.sept.12). A transparent example is that the democratic elected president Yeltsin surrendered himself to the new Secret Service organization. Even though the reason is a secret, it is highly likely that there were accusations related to national security (UU 2014.juni.13).

It would be a grave mistake to over-focus on Putin personally in Game analyzing the organization, the empire, - Roma3. He is probably not in real power, but merely a marionette to publically execute some pre-

defined moves. Previous such peer-managers in SU were Stalin, Lenin and even (agent) Rasputin (UU 2014.mai.30).

Identifying and profiling the true nature of the imperial secret organization is like doing Vaticanology and Kremlinology. Previously, it has been identified and described as the Praetor of Roma¹, the Praetors (network) of Roma² and the Oprichnina of Roma³ (UU 2014.mai.02 and UU 2013.Mai.24). Furthermore, Superior-Ego and Superior-ID (S-E & S-I) were described in UU 2014.jan.10. This theory is merged together in a joint Freudian and Jungian 3x3 egostates model. S-E and S-I are like the OverConscience of Belief and Drive (OB and OD), which means they can both influence collective synchronization, - like some 'peoples' movements'.

There might be positive reasons for the State to take control over the Throne-like olicrates. Using the 3-state value system RCG (Right-Constructive-Good), which is related to 3x3 ego-states (Belief-Will-Drive), seems not to indicate major WDB (Wrong-Destructive-Bad) in the restructuring. It is actually a remarkable achievement. For example, more transparent, today's Roma¹ mafia has a budget like the Norwegian GNP. The State and Temple do joint 'war on crime' by prosecutions, exposure and excommunications. Similar organized crimes should be looked into in Europe, Norden and Norway, since Russians are involved here too.

The new US-SU trust was founded on that: 'Bush got a sense of Putin's soul' and that: "a prophetic warning about the Taliban.' This has some religious references, - including occult djinns and demons. It might very well be that the religious Bush was deliberately influenced to believe there were divine forces at play. He probably also wanted to finish the Iraq war that was started in his father's period. The secret services accusations that Iraq was responsibility for 9/11 has never been proved and is still highly questionable. This is the major Game-shift of this century where the war in the middle-east were handed over from SU to US.

Concluding the first chapter "Taking Control", - the Secret Services did execute a Game of CdE by getting their agent Putin as Head of State. Strangely enough, viewed through the media, it might look like some well executed project - a kind of 'Project CdE'. It is a reminder of some other critics of the BBC series: "FSB (neo-KGB) used the (Spy-Rock and) BBC film to resurrect old propaganda just when mass demonstrations are going on in Moscow before the presidential election". Secret Services (like UK MI6) can neither confirm nor deny such accusations, which gives the accuser a great advantage. How common such Games seem to be for Roma³ with revolutions, CdE, bully elections, puppet presidents and annexations. That is vital to remember in Norden too.

The band The Leningrad Cowboys was made in a bar in 1986 as a joke on the declining powers of the [Soviet Union](#) (SU). The band is from Finland and frequently perform rock and roll covers. Their trademark is exaggerated pompadour hairstyles and long pointy shoes. To top it all, they also performs with a Russian military band. This song 'Leningrad' is inspired by the Finnish psyche that is influenced by the dark sides of SU after invasions. Billy Joel, being an American, has a more sympatric tale, though. Now, which one suites the youngster Vladimir Putin of Leningrad the most? Maybe a bit of both. Then he was a small boy in the streets of Leningrad with gangsters, seeing how it was and thinking what to do about it.

Propellerheads / Shirley Bassye – History Repeating

2014.okt.31

Ukens Utvalgte

The past cannot be changed, simply because 'done is done'. However, the quality of history-telling can and should. Single-sided, censored, misguiding and cryptic tales, disguised as historical fact are now exposed for what it really is, - with the democratic access to information. Fragments getting clearer, new pieces are discovered and misguiding tales are supplemented with facts. It's transparent now that the 500 years history of the Nordic Union is highly related to Roma3. This UU is therefore mainly some translated summaries to indicate milestones and trends in a 5D 3x3 historical survey. The models are described in UU 2014.sept.12.

There is, however, a much longer history to Roma3, - over 2000 years. Roma3 is not mentioned much in the cold-war history books. Yet, the interest grew while writing the UU theme 'LifeQuality and Empires'. Nevertheless, the 5D 3x3 models provide new points of view on historical events. Here is just a 'taste' of what the following will do to formal history tales: Rome1 fell probably due to global collective shifts in collective UnderConscience Belief (UB) that followed the eruption of the Vesuvius volcano and the elimination of Pompeii. There was a subsequent OverConscience Belief (OB) that split Roma in two and caused an irreversibly 5D shift in humanity's path of development. (Ref UU 2014.april.25)

Furthermore: "Marco Polo was probably far more important to the faith of Roma2 than history indicates. Briefly summarized from the video tells that Marco belonged to a large group of Mediterranean people. They served Kublai Khan for decades as 'observers', 'counselors', 'priests' etc. The Mongols had previously conquered Beijing, the capital of China, in 1213. The Khan got in-depth knowledge about European society, religion, technology, weapons and warfare. The Mongols reaction and rage towards Roma2, after reading 'John's Revelation', can be understandable, - if they were pointed out as the Bad Guys. Eventually, the khan released Marco and his men for a final service, - to escort a Chinese princess to a Persian prince for an arrange marriage. The journey was fatal and Marco was one of the few survivors that arrived Venetia. He was imprisoned, but his tales were written by an inmate."

"The crusades were disreputable. The first ones were arranged by the theocratic regime of Roma2 with roman soldiers. The crusades were later reinforced by European Thrones, since Roma2 was considered a shield against Muslim invasions. The Muslim theocracy conquered Egypt, Jerusalem, Syria and other important regions in the Middle-East. Three crusades were arranged towards the expansion. But the fourth crusade was fatal when Roma2 was attacked instead of the Muslim Egypt. The capital was plundered to ruin. The crusaders did not administer the city and finally left the ruins to the returning theocracy." This is also a major historical 5D shift and a complex 4th degree global Game including Thrones, States and

Temples. Tale of the event and following Games are too shadowy and mystified though. It should however, be possible to get a more realistic understanding of humanity's nature with proper use of historical 5D analysis.

“Moscow was a small and underdeveloped region at 1500, mostly due to Mongol-Tatar plundering, taxes and ruling. Kiev was the Russian capital at that time. It is not clear how Moscow became the 3rd Roma, but some milestones are that; Ivan III (the Great) conquered a Mongolian city and relieved Moscow from taxes and terror, - and that he married a princess from Roma2. He probably used the title Tsar/Caesar on occasions. More formally; in 1510, the Russian monk Philotheus (Filofey) declared that: "Two Romas have fallen. The third stands. And there will be no fourth. No one shall replace your Christian Tsardom'." (UU 2014.mai.02) No doubt, this statement is another 5D historical event.

“Even though that monk identified Moscow as the land and not merely the city, the maps show that Moscow was a rather limited area compared to later claims. Moreover, the constitution is without legality since the regimes of neither Roma1 nor Roma2 have ever supported it. It is simply not sufficient to single sidedly declare independence of Roma2 and take its coat of Arms, ‘the double headed eagle’. It might even be plundered by the ‘fourth crusade’ and acquired by piracy.” Not directly related to Norden at the time, however relevant is that America was (re-)discovered at the time. The settlements and expansion certainly seems to be executed by ex-crusaders as well. It is called Roma4 talked through in UU 2013.juni.14.

“Ivan IV Vasilyevich (the Great) was a crown prince of Moscow at that time. He was appointed as Cesar/tsar of all-Russia and got a role like Julius Caesar of Roma1. There was formed a strong alliance of Throne and Temple. In the beginning, the republican State had a minor role. The Russian Temple declared independence of Roma2 in protest to a settlement in Firenze. Not surprisingly, there were suddenly far more marriage proposals for Ivan, which must have led to countless complex TOL Games (TLM – Two Little Maidens) in the Court of the King. Finally Anastasia Romanova was the chosen one. She became a well reputed tsarina that influenced Ivan's decisions considerably. However, the Tsardom was highly exposed to external as well as internal powers. The early death of the tsarina was suspicious and Tsar Ivan accused his opponents.” (UU 2013.Mai.24) This was probably a start for an unsound CB development (Conscience Belief) of the Russian Throne.

“There are some other curious relations to Roma3. Less known is the Russian-English relation that Ivan made with Queen Elisabeth I. England wanted a trade-alliance, while Russia wanted a defense-alliance. He was guaranteed asylum in England if his regime should fall. It was not used because Ivan suddenly died of heart-attack. Moreover, the last Romanov tsar-family had a daughter called Anastasia. There were speculations after ww1 if she survived and had rights to the Throne. It is however more likely that the rumors refer to that Moscow should resume the cultural heritage after the original tsarina Anastasia.” Furthermore, knowing the nature of Games, it seems that the ‘conquering’ of the ‘Russian Mongols’ included some unofficial agreements where the peace most certainly had a high price. These 5D events can explain the close relations of Moscow and Beijing today, as well as some happening in-between, like the CdE in Mongolia and Beijing.

“There is probably a ‘Superior-Ego’ state to the development from Roma1 to 3. ‘The Oprichnina’ of Roma3, the secret State police, is a key indicator. Similar was in Roma1 too, called the ‘Praetor Guard’. The term is also related to Roma2, but was considerably improved and advanced. Praetor in Roma2 was the Caesar's ‘first minister’. Roma2 divided the empire into 4 main regions, each with a praetor. In that way the dividing was a fact and the outcome was like the Game DAC (Divide & Conquer). Some praetors of Roma2 were probably involved in the formation of Roma3 and initiated their strategies and operations. An opposing Tsar or Tsarina would merely be considered some annoying obstacles, - that can be removed. It is said that the tsar died of heart attack during a game of chess after the tsarina's death. Maybe so, - especially if he also saw the Oprichnina/Praetor real strategies and operations for the future Roma3.”

Finally how the idea Superior-ID became: “The Oprichnina/Praetor is like a definition of psycho-social Games. The Actors and the Games are ulterior and concealed like the very nature of secret services. It is

however a problem if the democratic Quality of Life is not respected. It is serious if the organization consider itself as a Superior-Ego and individual as inferior. It is catastrophic, if it also inherited the properties of Ivan's murky mentality as a collective obsession." The theory of Superior-Id is talked through in UU 2014.jan.10 and the OD (OverConscience Drive) in UU 2014.aug.22.

Ivan (the terrible) attacked the Baltic region brutally. The nations responded with raids, invasions and blockades. The Polish, Lithuanians, Swedes, Dutch and Germans were together in the resistance. Ivan accused that Novgorod could end up being catholic in a polish/Lithuanian alliance. The claim has no documented validation though. Roma3's final annexations by Ivan and Oprichnina was terrible and led to the 'Novgorod massacre' in 1570. This also terminated the trade-route between the Baltic sea, Kiev and the Black Sea/Roma2." (UU 2014.mai.02). It seems that control over the Baltic Sea was an obsession. A trade route to the Atlantic Sea via Germany was also frequently terminated with wars at Holstein. It left the Danish castle Kronborg as the only passage regulated with taxes. This UNESCO heritage is also the site for Shakespears 'Hamlet' with the infamous quote: «Something is rotten in the state of Denmark". (UU 2014.mai.09.)

"The three Thrones of Norway, Denmark and Sweden formed a Nordic union (The Calmar union) about the 15th century for mutual collaborations and defense. At that time, Norway included Iceland, Greenland and the Faroe islands. Sweden included Finland. It was confederal and there were never any legal transfer of land to the union. It worked for a century until Moscow converted to Roma3. Sweden, with King Gustav Vasa, opposed the empire. Soon the Danish Throne declared single sided that Norway with Greenland, Iceland and Faroe Island was their provinces. However, that has never been legally recognized. The split of the Nordic union happened at the same time as Ivan's aggressive annexations and massacres on the continent. Relations of the events are therefor likely. The assumption is strengthened with the fact that the brother of King Frederik II of Denmark, Magnus of Holstein, was appointed by Tsar Ivan as king of Linovia (Estonia). Magnus also got a Russian army of 20,000 to conquer Swedish land that was part of the opposition towards Roma3. He even might have been tempted by the Danish Throne. However, the death of Tsar Ivan caused the abdication and expulsion of Mangnus from the Baltic regions." (UU 2013.mai.31)

"Moscow, the third Roma, was in shock when Tsar Peter 'the Great' moved the regime to St. Petersburg. The relation did not improve with suspicion that Tsar Alexander's diplomacy might have caused the burning of Moscow in 1812. Moscow wanted the power back and could not wish for more than the fall of the Throne in St. Petersburg. Moscow's republicans were probably just as annoyed by all the European Thrones. They might have thought something like: "How did the first Roma fall?" With its previous relation to Roma1, there might have been conspiracy discussions about the faith of Julius Caesar and Cleopatra. Nevertheless, Moscow was built on the merits of Ivan 'the terrible'." UU 2014.mai.30. It seems like it developed into a UB (UnderConscience Belief) in Imperial 3x3 ego-state.

"In brief, the results of the napoleon wars were basically a grand slaughter of European royalists in the military, - especially those related to the French Throne. There is therefor reason to think that the result might have been the overall goal in that Game. Anyhow, not only Moscow claimed the right to the heritage of Roma (UU 2014.mai.02), but also St. Petersburg, Austria, Germany, Italy and France, - like some Roma3b, 3c, 3d, 1b and 3e. Moreover, the Ottoman Empire was practically a Muslim Roma2b and an aggressive rival to them all. Notably is Napoleon's bodyguard Roustam Raza, alias Idzhahia, of particular interest. He was originally an Armenian, kidnapped as a child, sold as a slave to the ottomans and a gift to Napoleon from the sheik of Cairo. He protected Napoleon from a local plague outbreak in Egypt and became a close and trusted person." Besides Peter the Great had a close relation to Holland which in their turn managed fleets in several Baltic sea-battles between Sweden and Denmark. The Tsarina Catherine is also called 'the Great' for several reasons. Most of all, she proved that women can be successful rulers like the English Elisabeth I, - even in the highly patriarchal Roma3.

"Norden was considerably involved in the napoleon wars, even though it is not mentioned in the TV series 'Napoleon (2002)' or elsewhere. The consequences for Denmark were fatal when they tried to stay neutral till the end. They previously lost the old relation to Danzig (today's Gdansk) when Napoleon 'liberated' it.

However, most notably was the French-Russian diplomatic relation and their demand to choose a side 'for us or against us'. England reacted when Denmark had to choose France, because of hostile relations to Germany and Holstein. The English feared that the Danish fleet was going to be used by Napoleon in an invasion of Ireland and then attack England from behind (like a millennium before). The English fleet bombed the capital Copenhagen and captured the naval fleet in 1807. That was the beginning of Denmark's fall and Norway's rise. Sweden, that somehow opposed Russia and allied with France, landed anyhow on the victorious side." UU 2014.mai.16.

"Nevertheless, the war was not settled yet. Russia took Finland from Sweden and Russia was considered a victim since Moscow was burned to the ground in 1812. Norway was considered a suitable compensation as a spoil of wars. However, Norway made its own sovereign constitution with English and German support and was recognized in Kiel. Norway was liberated and avoided submission of Russia or Sweden. The treaty was signed by Denmark, England and Sweden at the congress of Vienna in 1814. However, Denmark got the Throne and Sweden the Foreign policies. Even with that, whatever futile and pathetic, - Napoleon returned in 1815 to undo the losses, but merely met his 'Waterloo'." UU 2014.mai.16. That rises some images of 'jack in the box'. In social-psychological sense, Napoleon was probably not very influential but rather highly influenced. In relation to Game theories, it is obvious that there was a global 4th degree CdE Game going on. It might even be a sub-sequence of the lost rivalries in US which constituted half a century earlier. UU 2013.juni.14.

"50 years later, Denmark was again lured into a futile war. DR (Danish Radio/TV) has recently made a big TV drama about the Schleswig-Holstein war with Germany in 1864. Earlier, Denmark had the three German principals Slesvig, Holstein and Lauenborg. The Prussian minister-president Bismarck ruled the region according to international treaties in London. However, in 1863, Denmark re-claimed Schleswig-Holstein. In fact, that was a violation of international law and declaration of war. Denmark expected support from England, which indicates some major diplomatic deceptions. It certainly looks like another 4th degree Game of LYAHF (Let's You and Him Fight) like during the Napoleon/Russian War-Games exactly half a century earlier." UU 2014.mai.23

"The Games in the Winter Palace, this 'Doll's House', is talked through in UU 2013.mai.17 with some Nordic variations: "Another Game can be DAC (Divide and Conquer). The Game is closely related to LYAHF (Lets You and Him Fight), but DAC has one winner and two losers. The Game is rather related to organizations and nations though. Rasputin played DAC, as a marionette for others. Another kind of Game is arc-Nordic and can be named DSITDEN (Du Skal Ikke Tro Du Er Noe (You Should Not Think You're Someone) – or namely; 'Jante'). It is a collective Game of 'All against One'. One honest motive can be to get harmony, but the Game can certainly be abused and has therefor 3 degrees of outcome. Collective genocide can be a fatal one. It seems like the Game Jante is spread from Roma3 to Norden throughout the centuries." UU 2014.mai.30. However, most relevant is probably (the new self-defined) 4th degree Game called CdE (Coup d' Etat) is mentioned several times like in UU 2014.sept.12 and UU 2014.aug.29. It will certainly be taken up in the following UUs.

The Danish princess Dagmar from Holstein was married into the Russian Throne in the Winter Palace, presumably as a compensation to the Danish losses in Russian war Games. As the last and surviving tsarina, her history is important to understand Norden in a 5D 3x3 view: "Dagmar's journeys were mainly to Crimea, Kiev, England and Denmark. Her favorite sister that was named Alexandra too (like her despised daughter in law from Germany). Her sister was married with Albert Edward of Wales that became King Edward VII. The 'mysterious' reason for believing that England would join the Schleswig-Holstein war against Germany in 1864, can be due to some fatal and faulty LYAHF Games with the Danish and Russian Thrones at stake. (It is a similar illusion exactly 50 years later when it was believed that England would be involved and try to save Tsar family in 1914). The two Danish princess-sisters have probably always played Games together as Child and Adult in the English, Russian and Danish houses. This again provides associations to the first tsar Ivan and his chaotic 'Court' (see UU 2013.Mai.24)." It still seems to be a relevant for understanding Roma3 of today. Actually, it goes for all the 'Doll's Houses' Games of Thrones, Temples and States of any Roma.

EW2 (European part of ww2) has been talked through in several UU. Two infamous characters are highly relevant for 5D 3x3 analysis. Their collective archetypes are fundamental to social-psychological understand how Games of ww can happen. Likewise, it is important to note that the cold war history tales are not quite reliable as sources for historical facts. History writing is a spoil of wars. They are mentioned in several UU and summarized in UU 2013.juni.28:

“The Man of Steel / Stalin, alias Ioseb Besarionis je Ĵuĝašvili, was originally a local mafia boss in Caucasus that advanced to the chief of operations to the Bolsheviks. They financed the organization with bank robberies, kidnapping, extortions and murders. He was imprisoned and sent to Siberia seven times but was always set free. He had no military background and did not serve in ww1. The need for better reputations was arranged by starting the newspaper Pravda (Truth). Next he took the nickname Stalin (Man of Steel) to propagate himself and his organization. Lenin said that Stalin was the right person to operate Soviet and posted him as general secretary. Soon Lenin got stroke and had to resign. Stalin continued Lenin’s merits with 10 times the execution of own citizens. Stalin simply made Moscow a mafia empire. Nevertheless, Stalin is now a ‘patriarch of mass-psychopathy’.” UU 2014.juni.06. These genocides of tens of millions of their own citizens were presumably simply to ensure loyalty to the new State regime instead of the previous Throne regime as part of the CdE Game. Brute logic might be that killing and brutalizing is most effective. However terminating the previous elite is like lobotomizing oneself as a society. The retardation and traumas take centuries to psycho-socially heal, - if ever possible at all.

“The other figure (was) Hister/Hitler, alias Adolf Schicklgruber. He moved from Austria to Germany and became the leader of the Nation Socialist Party. Adolf got governmental power due to an electoral alliance with the Stalinists. The Parliament was burned to the ground and Hitler was promoted to dictator soon after the electoral victory. There are reasons to consider this strong the Nazi-Stalin alliance as an important part of the WW Game, - from start to end. Hitler seems to be Stalin’s ‘Mini-Me’, a Stalinist marionette in the rival’s board. In this view, he was an effective replacement for the founder of the Red Army, - Trotsky. The reason that SU stopped to criticize Nazism and fascism publically, was the belief that they would attack and destroy each other, and that Hitler (and Mussolini) merely were triggers to the processes. That would open for a following Soviet invasion of Europe.” It should leave no doubt that world wars was a cascade of CdE Games gone out of control and with humanities worst outcomes till now.

“The Cold War (ww3) was mostly about the empire’s political rivalries. The United Nations, and all its nations’ parliaments, were official arenas for the rivalries. Unofficially, secret services were organized in political parties, public and private undertakings, and by criminal organizations. A Danish terrorist cell of RAF (Red Army Faction) was finally discovered and called Blekingegadebanden (‘The Blekinge street gang’) (UU 2013.aug.16). They and their clones in Germany, Italy and Spain were extremely greedy, violent and social-psychopathic. They copied Stalin’s actions prior to his carrier. The Danish leader Gotfred Apple converted from Stalinism to Maoism in the 60’s and this meta-organization has certainly influence Denmark with maoistic secret services for half a century. It seems rather clear that the strange outcomes in Danish politics; for example the Chinese behavior at the environmental conference, that China got precedence before Europe in the Artic council, and the political acceptance of extreme social dumping in possible mining at Greenland.” UU 2013.des.06. It is getting more transparent now that such terror-cells were concealed, but closely related, to the secret services of cold-war empires’, - namely SU & US – Roma3 & Roma4. Furthermore, the western Nordic nation joined the NATO with US and all rejected SU in fear.

Using the 5D 3x3 on historical tales can lead to rather unorthodox explanations and conclusions. As mentioned in the introduction of this UU, the geographical and mental shift of Roma1 to Roma2 would probably not happen at that time without the apocalyptical natural disaster of a volcano. A split, a power-shift and all the consequences might have happened in another 5D and led to a rather different history and situation than today. There have probably been lots of other historical 5D event throughout history that might have caused quite different 5D outcomes than our collective history Belief tells. Anyways, - using 5D on the previous century led to a re-discovery of a major natural ‘apolyptic’ event just prior to ww1, - namely the Tunguska event. It happened during the Roma3 war against China in 1908. No one could

rationaly explain this explosion that was 1000 times the Hiroshima bomb which could be noticed globally. The war against the Mongol-Tatar failed, the Russians retreated and major changes were to happen in the Winter Palace of Roma3. (Ref UU 2013.juni.21.)

Looking a century back and a century forward with 3x3 5D view, this extract sums up a major concern: "A hypothesis is then that the apocalyptical ew/ww started 200 years too early according to Egyptian astrology. A benefit of this mistake is that this upcoming New Age Game is already exposed so there is now time to prevent the real Game in the next century. Basically, there are 2 main factors that can prevent social-psychological Games. One is to discover the motives and moves. The next is to remove the motivation by removing the Goal/Spoils. To remove the Spoils is to make a 'Game Over' by letting this current Age/Era of the Pisces end as it astrologically will do around 2150. Next, there is need to persuade the collective OverConscience Belief (OB) that there is no need to start a new round of Ennead based Age/Era for the Aquarius. The fundament for that Belief is simply an astrological 2D illusion Belief about stars and planets. This misunderstanding is hyped with mass-psychotic soap-opera scripts based on Egyptian stone-age theocracy and concealed Osiris apocalyptic cults. Such false prophets should be de-cloaked and hindered discretely and not given the chance to stir up more apocalyptical intrigues." UU 2014.jan.03

Anyways and finally about the 500 years old Nordic Union. The Nordic council is actually somehow like a Nordic union. It is however far from what it could be and should be. In 5D 3x3 relation, it is clearly a result of centuries of 4th degree DAC Games. A summary from UU 2013.mai.31 says: «The cold war is also called 'a balance of terror' between SU and US. Norden however, was not in balance, but terrorized mainly by Roma3. Today, one can still see that Norden is organizationally bound to Kaliningrad, Leningrad and Murmansk. These 3 cities are like a 'Baltic Cuba', KGB/FSB headquarter, and the Arctic nuclear test-site. Furthermore, there are direct ferry lines between Kaliningrad-Gdansk-Copenhagen-Oslo. Sweden and Finland have probably similar lines. Direct influence is shown by the increasing terror-flights towards the Nordic nations with Russian bombers made for nukes. It is done to recall memories of SU terror bombing of Bornholm in ww2, and the plans to make Copenhagen/Sjælland (Selandia) an 'East-Denmark', like East-Germany and East-Europe. This (OB) fear influences effectively the agenda and decisions in the Nordic Council of Ministers. Therefore, it is time to start rotating the housing of the Council, - like EU does. Consequently, Norden might finally come out of the Cold War freeze."

'History Repeating' is chosen mainly because of its lyrics. However, Shirley Bassey's vocal is remarkably strong and suits well such 'James Bond' music. In this UU sense, with a 500 years' summary of Norden, it seems rather clear that the history is actually repeating over and over again. However, we could be better prepared for this next round.

Propellerheads was a British big beat musical ensemble, formed in 1995 and made up of electronic producers Will White and Alex Gifford. The term propellerhead is slang for a nerd they thought it would be the perfect name for their band. They previously worked with the James Bond composer David Arnold on the Bond tribute album Shaken and Stirred. The track 'History Repeating' is a fusion of several different styles of big beat, breakbeat and jazz combined with the powerful vocals of Shirley Bassey.

The Nordic nations, Norway included, are closely integrated with Europe, - mainly since the start of the Nordic union 500 years ago. Despite external rivaling causing internal diversities in periods, the fundamentals in culture, knowledge and agreements does not leave any doubt. Passing confusions about the history,

mainly due to post-war version, should not corrupt anyone's conscience anymore. Yet, there are symptoms. In this UU, a 'National (Life-)Quality' will be talked through with extended use of the 3x3 'ego-state' model on the Norwegian parliamentary system in Nordic and European relations.

The use of the 3x3 ego-state models on organizations and nations is initially talked through in UU 2014.aug.08 and continued in the following. The collective human nature at organizational and national levels are not the same as for individuals. However, some kinds of relations should apply since organizations and nations basically consists of persons, collective and inter-personal relations. Nonetheless, the focus will be on the parliamentary legal system as a Freudian Superior-Ego state. 'Belief' is the social-psychological term in the new 3x3 model, which combines Freudian and Jungian theories. 'Belief' will be the substitute for Superior-Ego at national level even though it might seem strange.

The 3x3 ego-state Belief has 3 levels of Conscience. These relate to the parliamentary legal system as; UnderConscience (UB) = Lawmaking Parliament, Conscience (CB) = Executing State and OverConscience (OB) = Judging legal systems. These parliamentary ego-states are extended with regulations, organizations, institutions, communes etc. The basic foundation for the parliamentary systems are legally bound to international laws and regulations like inter-governmental treaties, trade agreements, human rights and several agreements for exchanging knowledge, resources, diplomacy, work, security etc. In this sense, the nation-state has become less self-governing and more collaborating. To put it in Freud/Berne's terminology; the 'Child' has become less ego-centric and demanding with the growth of 'Parent' and given room for 'Adult' development.

The parliamentary system has a built-in Quality Assurance feedback-system that should do qualitative corrections automatically. Obviously, the parliamentary Belief system should be based on the 3 value-systems called Right/Constructive/Good, - and not Wrong/Destructive/Bad. The differences in opinions becomes somewhat clearer when it comes to important parliamentary decisions like elections, law making and budget negotiations. Nevertheless, these disagreements are normally due to different preferences and priorities within the 3 value systems. That is OK. That is how the parliamentary democracy works and no-one should claim that such difference in opinions and priorities are negative.

However, it happens that negative, corrupting or destructive laws and regulations do get adapted by the system. It might happen in relation to crises and hardcore political Games like CdE. The aim of the CdE Games is to corrupt and weaken the state before the coup. The symptoms of corrupted national states should be rather clear for external professionals, - just like psychologists and psychiatrists can diagnose individual humans. Some symptoms might be overprotection, nervous reactions, obsessions, illusions, dual 'personalities' like contradicting ethics, inconsequent behavior, dishonest appearance and actions etc. However, a more common reason for abnormal expressions can be due to concealed hardcore underworld games. For example, when a mafia of organized crimes threatens some parents, they might react 'strange' in order to live up to their obligations to the minors. The same applies for nations as well. Consequently, it can be quite reasonable why someone acts different than stated or expected when knowing the social-psychological Games at play.

As mentioned, - the (ego-) state of nations can be diagnosed. The state of the Norwegian nation will therefore be so according to its own parliamentary law making, the legal conscience and the legalities of its actions and expressions. Having an MSc degree on Norway's international constitutional relations to Europe in particular, it is appropriate to focus on that. The following 6 paragraphs are basically translations and summaries of previously description of the true legality of Norway in relation to most European nations.

"In 1994 the law-making parliament ratified the EEA law concerning the European internal market instead of becoming a full member of EU. The new rules of competition caused considerable legal and commercial changes, - especially for the 3 constitutional powers; the parliament, the public sector and the legal system. Suddenly, both private and public cartel practices became illegal. The adaptations to legal practices are comprehensive, - which such dominant actors naturally resist. Today, 20 years later, there are just minor

practical adaptations to the law. The media rarely seems to mention such illegalities and leaves the impression is that the law is practically neglected.” (UU 2013.nov.01.)

“The Constitutional Law, the Human Rights Law and the EEA Law are all superior in their areas and can be related to the Penalty Law. The article 30 and 34 of the EEA Law prohibits customs duties, discriminatory taxes and measures having equivalent effects. The rules of competition forbid undertakings’ abuse of market dominance, abuse of competition and discriminating agreements (art. 53 and 54). Public undertakings are regulated as well as the non-public ones (art. 59). Unfair competitive public state aid to undertakings are forbidden (art. 61) and social support shall not be paid directly to any undertakings, but directly to the citizen (art. 61a).” (UU 2013.okt.04.) This means that alternatives to public service providers of schools, transport, health etc. became legal 20 years ago. However, illegal public discriminations are still discriminating in the markets in favor of own undertakings, oligocratic cartels and certain unions. A well-functioning parliamentary system would prosecute and settle this a long time ago.

“The public sector and the Government are responsible for the legal regulation of the market. Practices however, indicate that there is not proper will and ability to legally regulate the collective resources and undertakings. Sometimes the results get anarchistic, like for the chaotic disasters caused by floods from water reservoirs of power suppliers. Similar negations are obvious in the two Mongstad projects in the oil markets where the project management seem to be delegated to some anti-powers of the EEA Law. The present government should initiate professional investigations by Riksrevisjonen (Office of auditors) and related according to the EEA Law. It is suspicious that Økokrim (Office of economic crime) do not have a section dedicated economic crimes in the public sector as it does for the private sector. Presumably there are hundreds of public mal-practices that should be legally prosecuted.” (UU 2013.nov.01.)

Furthermore: “80% of the Nordic undertakings are ‘Small and Medium sized (SME/SMB). These suffer from illegally ‘abuse of market dominances’. Besides, the EEA law obligates public protection and support to SMEs because the regional local societies will extinct if their SMBs suffers. The past 20 years growth of cartels in the primary industry is the main reason for the decay in local agriculture, stores and other SMBs. Contrary to anti-European propaganda, the solution is to protect those by the EEA Law and not by SU inspired agricultural industrialization. The farmers do run their own SMBs.” However, with legal use of LOA, the public sector’s enormous market would not be closed for SMBs. That would save a lot of them and consequently the fundament for regional cultures, - in addition to higher qualities and lower prices for the public purchases.

“The public sector is legally obligated to the Law of Public Purchases (Lov om Offentlige Anskaffelser – LOA). The law is related to the EEA Law and the rules of competition. The public servants are obligated to LOA and irregularities can be personally prosecuted according to the Penalty Law (Straffeloven). The past 20 years of public IT (IKT) procurement and projects indicate massive illegalities and organized crime (see UU 2013.aug.23 and 2013.sept.27). Malpractices might be due to arguments related to the WTO/GATT treaties, - that practically do not have the EEA Law’s protection against abusive cartels. How scandalous, but there is no proper tracks over public IT expenditures. SSB (Statens Sentral Byrå) assumes that 1/3 of the Norwegian IT expenditures are public, i.e. 75 mrd kr/year. Assumptions from Administrasjons Departementet (AD) was 1/10 of this. The costs for maintenance are by experience higher. In comparison, Sweden can document that less than 10% of the public IT investments are done according to the law for public tenders, and that outsourcing can cause 30-50% efficiency.” (UU 2013.okt.25.)

The article ‘Political corruption’ mentions the infamous term ‘cleptocracy’. The word suits well to the terminology in UU 2013.april.19. “The article mentions several types of corruption like; extortion, comradeship, scandalizing, electoral cheating, fraud, ‘financial mess’, bribery and mafia activities. Global corruptions concern mainly drug-trafficking, human smuggling and whitewashing of money. The annual global political corruption is estimated to be about 1 trillion \$/year, the global GWP is about 70 trd \$/y and the Norwegian GNP is about 1 trd Kr/y. This means that the Norwegian political corruption is about 2% of the state’s budget, i.e. about 20 mrd kr/y. That suites the thumb-rule that there is an average of 2% disloyal employees.”

Furthermore: "The Norwegian low score on CPI (Corruption Perceptions Index) can indicate that there are some types of corruptions the statistics do not discover or that the corruption is well concealed. There is no reason to assume that the public corruption is less than 2%." (UU 2013.april.26.) However, even though global crimes didn't use to concern national politics, - the concealed political agendas do appear as such in certain political parties more frequently. National political crimes seems more like the other types like; comradery, espionage, sabotage and other sorts of sociopathic corruption. This includes selling important jobs, primary in public sector, to underqualified employees with alternative loyalties.

In addition, frequent headlines in papers are: "Corruption in EU costs 895 billion kr/y. How is the Norwegian 14 EEA billion used? 46 corruption cases discovered in 3 years, most are concealed. The technology counsels give the police the character 'Failed'. The problems are not to discover crime, but the investigations and prosecution. Norway violates the EEA agreement in spirit and letter, says EU parliament trade committee. Brussels is tired of Norwegian arrogance. Riksrevisjonen is now tired of the recurring institutions of social security, military and police. PST-data about thousands of people has to be re-evaluated due to data errors. Criminals infiltrate the public sector. PST warns against Russian spies. (The legal system) releases criminals and rejects criminal charges. The Norwegian police is amongst the world's most expensive, but least effective. There are more organized crime, but fewer are caught. Norway tries to push out Danish cheese with custom duty at 277%. The minister of agricultural says that the industry is like a communistic system where the public sector regulates everything". (The articles are mostly linked to Norwegian papers.)

A Diagnosis of the Norwegian parliamentary legal system, could indicate that it is alarmingly corrupted. The past 20 years with failures in knowledge and executions according to the EEA law's obligations are well documented. Furthermore, the 22/7 (terrorist) report documents thoroughly how unprofessional the public administration and leadership really is, and that it have not improved much since then (see UU 20141017). The violations of international is read daily in the news, but are seldom reported as such. All in all, the Super-Ego Belief shows too big differences of what the legality really is (UB), what it actually does (CB) and what it expresses (OB). Psychologically, the diagnosis could therefor very well be; obsessive delusional and mal-functional due to motoric/neural disorders. On the other hand, it might not be the client, but its relations that are the reasons. Other external supra-national powers are highly influential at S-E/Belief level. Like a highly manipulated person probably is quite sane despite the diagnoses, - national malfunctions can be due to concealed super-national manipulations. Like for individuals, social-psychological conditions are due to both heredity and environment. Therefore, new information about international history is important.

History is now much better documented than what was collective communicated by the state monopolies in the post ww2 cold war. Now it is clearer that the parliamentary corruptions have been permanent and critical in the past 100 years. There are some interesting historical 5D milestones in the 1914-2014 period. The outbreak of ww1/ew1 and the CdE in Roma3 in 1914 also collapsed the European predecessor to UN and opened for Roma3 infiltration via its separatist organizations (ref UU 2013.feb.22). 1944 and the outbreak of ew2/ww2 and 4th degree Underworld CdE Games between several 'socialist' factions, including national-socialists (ref UU 2012.juni.08.). 1994 with the EEA Law re-connected Norway to the European nations. 2014 shows alarming obsessions of recreating a 'neo-Russia' by annexation of European nations. This is a major 5D milestone that can have several scenarios.

A present 5D legal factor is whether the Norwegian parliamentary system has sufficient conscience, ability and will to realize a healthy S-E Belief in time. An overall conscience of legally bounds to UN, EU/EEA and NATO is crucial to get out of the cold-war schizophrenic SU-US delusion and for collaboration with allies in future global rivalries. It is also critical in actions, expressions and judgment to leave no doubt that the nations are not a stalinist puppet states that can be remote controlled via sub-cultures. Just as important as the deluded obsessions of the past, - is to not get deluded obsessions about the future. There are several allied nations and international organizations that are able and willing to help. In order to get a grip and

positive development, all Norway has to do is to reach out and get the share of all the European resources, projects, information, professional advisories etc. that the nation has paid for via EEA to EU.

A 5D crime factor is if the judging and executing powers are willing and able to reduce crime enough, - including the organized crime in the public sector. It is well documented and discussed in 2014.juni.13 that Stalin was no real statesman at all, but the most brutal mafia boss ever in the position as supreme commander of an empire. It is like if Al Capone became the US president, - a catastrophe to civilizations as any sane person can see clearly. All the crimes of terrorism, vandalism, robberies, and murders were legitimized for pro-Russian separatist sub-cultures. This dystopian role-model is still a major patriarch to such cultures. It is therefore crucial how the nations relate and act towards related criminal organizations and persons before the consequences get too destructive and irreversible. There are legitimate and legal reasons to why the Ukrainian government let 1 million corrupt public servants go after getting rid of the puppet president. No civilized nation should be alien to necessary innovations.

The band The Editors was unknown to me until I saw this video. It gives several association. First of all, the band's name brings thoughts about the necessary qualitative re-writing of censored history in order to plan better for the future. Next, Papillon is a butterfly and probably a pet name for the writer's girl, which he is trying to comfort in a harsh situation. Furthermore, a 'butterfly effect' is an expression to an idea and philosophy that one change in a butterfly's flight can cause a cascade of changes globally. Moreover, - running from or to what - alone - together - alone - disappear - in faded colors like black & white. "It kicks like a sleep twitch". That's 3x3 5D poetry - indeed.

The Editors is an English post-punk band that was formed in 2002 by Tom, Russell, Ed, Justin and Elliott. They are compared to bands like Echo & the Bunnymen, Joy Division, Interpol, The Chameleons, U2 and R.E.M. The album got number one on the UK Albums Chart. The single 'Papillon' got top position in Belgium and was certified Gold. The Editors have so far released two platinum studio albums, and four in total, with several million combined sales.

Muse – Uprising

2014.okt.17

Ukens Utvalgte

The very basic for positive LifeQuality (LQ) is based on the Humane Needs and the supporting Human Rights. Realizing that 20 years ago, a formal proposal to ratify a 'Human Right Law' was delivered to the Government via a minister of parliament (MP). Quite honest, it came as a surprise when the NHRL 'Menneskerettsloven' passed in 1999. Legally, the most human democratic law ever, made the dawn of the millennium to come. However, - certain organizations disregards and fights the law fiercely, - knowing very well that some of their traditional practices have now become 'organized crime'.

Unfortunately, I have to be personal in the following to explain why and how such anti-LQ sub-cultures still dominates. I am simply a living proof of 20 years in exile-like conditions and prevented from professional work. For the time being, this is an attempt to describe how anti-LQ continues at personal, organizational, national and imperial levels. The UUs to come will therefore set such LQ focus with use of the 3x3 and 5D models and extended Game analyses.

The history and reason for all the civilized world-leaders to sign the Human Rights is described in UU 2013.juli.05. The concept of the NHRL (National Human Rights Law) is described in UU 2014.sept.05. In brief it is a Global 'One for All – All for One' agreement to prevent sociopathic mass-psychopaths to cause human disasters again, - and to secure anyone's basic LQ. The LQ concept is further developed from my 20 years old MSc Thesis 'IT&QL'. The NHRL, LQ, Human Needs and Rights are talked over in UU 2014.sept.05.

In summary: "Maslow's Hierarchy of Needs shows 5 main categories; Physical, Safety, Social, Respect and Self-realization." LifeQuality is defined as; "a person's totality of properties and potentials to satisfy stated and implied needs." "The 193 UN member-states are obligated to secure their citizens' rights concerning; private properties, self-determination, security, privacy, family, work, education, in addition to freedoms of thought, conscience, religion, expression and more." "All NHRL should at least include UNC (United Nations Charter) that provides the UN powers to investigate and mediate in international disputes and authorizes international economic, diplomatic, and military sanctions and force to resolve the disputes, - as well as the ICCPR (International Covenant on Civil and Political Rights) and ICESCR (International Covenant on Economic, Social and Cultural Rights). European nations should include the Charters of ECHR like the Norwegian NHRL has.

Unfortunately we were forced to leave Norway due to bureaucratic abuse shortly after the NHRL ratification. This paragraph simply lists the unjust we suffered by anti-HR subcultures abusing the public services. It is not meant as complains, but it is a firsthand testimony that such massive organized abuse and crimes are international and prevents civilized progress: Despite reasons, I lost my job in the LO dominated Televerket/Telenor even though the new MSc education was highly needed. European collaborating work became completely suppressed and hindered even though the EEA law clearly states that such is illegal. My business had to shut down and private properties were forced to sale due to repeatedly false taxations. It was annulled shortly after the shutdowns. Our family had soon to leave the country due to personal exhaustions. Our car was illegally confiscated by 100% illegal custom duty concealed as 'registration fee'. Labor unions arranged unfortunate situations and results and do blame opponents until they get fired. Unemployment benefits from the tax-payment were blocked by the unions due to secret minor fees and deals. Tax-authorities issued false penalty fees that causes serious financial crises. Pension savings were lost due to the financial crisis. Tax authorities forced detail investigation of private economy with references to criminal law, despite no legal reason. All in all, - our Danish/Norwegian core family would not have made it without spending some inherited money.

Some of the issues were formally complained to the ECHR. After 2 years on hold, it was annulled and maculated by some temporary clerk's claim of incorrect procedures. The whole process is well documented and was once published on the internet. Anyways, without doing any accounting, it must be safe to say that our losses in properties, prosperities, jobs etc. counts for millions. The issues mentioned does not count for the last 10 years. The main reason for staying low is the need to protect the minors from certain sub-cultures. It also seems that millions of families worldwide goes through similar abuses due to inefficient HR legalities. The losses in civil societies seem unmeasurable.

One might think that public organized crime can't be that bad or doesn't concern oneself or others. Trying to convince otherwise will take the rest of the year to talk through. However, it is really obvious and daily well documented that the world wars made organized crime one of the greatest public powers. Some evident examples are the fact the supreme laws "Menneskerettsloven" (NHRL), EEA Law (European Economic Area agreement) seems totally neglected in their 15 and 20 years of existence. Basically the laws forbid organized public crimes and are supported by the Constitutional Law (Grunnloven) and Criminal Law (Straffeloven). The results are hidden in plain sight. The economic crimes of scandalous public projects and services are mentioned in UU 2013.nov.01. UU 2013.sept.27 describes the basic professional knowledge about governing, maintain and innovating public services, - in addition to the massive critique in the 22/7 Commission's report. It says that "Leaders at all levels in the public sector (need to) systematic work to improve personal and organizational basic attitudes and culture concerning; risk acknowledgement, fulfillment, cooperation, IT-usage and result-oriented leadership." (See UU 2013.aug.09.) This is how harsh

such a formal criticism can be and clearly indicates that the public sector is fundamentally malfunctioning. Even worse, it doesn't show serious signs of improvement since the 3 years has passed.

There are hypothesis that are hard to realize and acknowledge. There is clearly considerably organized crime within the legal system. The legal corruption makes the above mentioned issues possible and real. There is a simple explanation to this. Much of the traumatic wrongdoings in the previous century is not settled, reconciled and corrected, - in fact they are concealed, maintained and has built up a fierce immune system. It is simply well hidden in plain sight. However, today's information systems and internet provides the necessary information to correct the previous century's post-war propaganda with historical facts. The 5D model can be useful to realize the true history of our past.

Personal experience of today's Nordic bureaucracies stems from post-ww1 cultures. It is the very organizational Drive. The reason has now become clear with access to previously concealed information. Today, it is obvious that the infiltration, manipulation and assimilation of labor unions were seriously damaging personally, organizationally and nationally. This is talked through in UU 2013.aug.23, UU 2013.aug.30 and UU 2013.juli.05. In brief, the none-parliamentary labor union LO has dominated the governing Labor Party (AP) and public sector for a century. In 1923 AP submitted formally to the Moscow thesis in a concealed CdE Game. Formally, AP single-sided annulled the agreement, but that has never been confirmed by Moscow or LO. Even the declaration that AP became 'revisionist' instead of 'revolutionist' doesn't change the submission to the extremely violent empire. Still the final goal was to become a marionette government that promotes, infiltrates and manipulates, for a final annexation of the nation.

The cultures' realities might seem unbelievable from a civil democratic point of view. It contradicts all the sound morals, ethics and laws that any UN member should promote. However, that is the very foundation to such anti-HR cultures. It consider itself in war with weaker nations and permits any warlike means for the conquest. The concepts, arguments and activities were profoundly documented in the post '68 period with annexation of nations in Eastern Europe, Asia, Africa and South America. Some nations fulfilled the CdE, some didn't pass the massacre phases, some failed completely, but most nations worldwide merely suffered from the initial manipulations, destructions and deterioration caused by '5th colonists', pro-Russian separatist and myriads of related so-called 'useful idiots'. The vast majority of undermining preparations wasn't followed up by Moscow at all, but simply became 'sunk cost' on the victims' side. However, it seems that activist still believe or is bound to continuous sociopathic activities at major civic costs. See UU 2014.juni.13.

Pro-Russian activists at that time were called communists of several kinds. They seemed to fight each other more fiercely than external opponents. What-ever the temporary label, - no doubt that most places of power was considered potential targets. The 3 constitutional powers, the Legal system, the Parliament and the Government/State/Communes were obvious in addition to centrals of mass communications. Except for the obvious NRK and Televerket, it included the institutions of education, like 'the folks' school' (folkeskolen) and the universities. Moscow supported the extreme propaganda that certain parties and narcissistic persons promoted. The unconditional support to masse-psychopathic patriarchs like Lenin, Stalin, Mao and Pol Pot did merely prove their anti-HR nature. That's the kind of personalities they forced into power.

However it failed on grown-ups in the universities so they targeted 'the path of the least resistance', - the 'bourgeois' (plebs') children in the 'folks school'. As mentioned, - with 12 years' experience from such cultures the systematic pedocratic abuses stem obviously from the post-68 generation's mass-psychopathic Drives. It includes skilled abuse of psychological pedocracy and psychiatric bureaucracy. Now they have become the oldest and most powerful generation in the system. The results have been very clear the past 12 year. Related issues to such sub-cultures in 'the folks school' (folkeskolen) are criticized on general basis in UU 2014.juli.11 and UU 2014.aug.01.

With today's information about the actors and events, it is obvious that such a massive anti-democratic, remotely controlled governing has been real for a century and still very much is. Even though the original

declarations of 'armed civil wars' is lesser emphasized, such social-psychological hardcore Underworld Games are highly active today. Knowing that the real governor for AP/LO is Moscow, - a lot of policies, events and misdeeds can be clearer by use of 3x3, 5D and LQ Game Analysis.

The 'blinking dots' in the 4D political model is highly relevant to this. In brief the basic 3 dimensions of the model relates to the powers of Stat, Throne and Temple, as explained in UU 2014.sept.12. More concrete, the UU 2014.juni.27 says: "Political organizations changes over time. It can be shown in a 4D model, where the 3D powers show movements over time. Terms like conservative and radical is not fixed positions in 3D, but shows stillness and movement. Organizations can even be relative conservative or radical over time. LO is probably the Norwegian government's most conservative organization despite its extreme-radical origins. On the other hand, conservative organizations of the previous century can be relatively radical now, because they are not in position but opposition. The 4D model can also show organizations that comes and goes. Especially will the relation of short-lived extreme organization show to be pulsating constants in the 4D model, like the series of the pro-Russian separatist parties NKP, AKP, AKP-ML, RV and Rødt.» Note that extreme anti-powers will show up on the negative scale on the opponents' axis. In this case they will position themselves with values (-10, +10, -10) where the axis's are Throne, State, Temple. Furthermore, the majority is not as exposed as in registered political parties. Most are secret hardcore Underworld Game-player of CdE.

Anyways, the 3 Scandinavian LO factions are the most public organizations representing those sub-cultures. No doubt, I, as a dedicated promoter of NHRL and GHRL, have been considered an opponent for 30 years. All the related exile-like situations have also caused progress in understanding the culture and to find alternative explanations. It like Kremlinology and Vaticanology, - the complexity and oddities of the internal Games are beyond anyone's understanding, - even to themselves. Anyhow, the undisputed dominant 'Superior-Ego' to the LO cultures is Stalin. This 'Man of Steel', alias Ioseb Besarionis je Južašvili, is the archetype of Big Brother and makes top-score on most psychopath tests and indexes. He introduced mafia-methods to imperial-stat bureaucracy and caused definitively the worst crimes towards humanity world-wide. This is what LO insists submitting to, even though Russia itself rejected it in shame decades ago. Stalin is the very core of LO's social-psychological profile, culture and archetype.

The conservative obsession in LO to Stalin is evident in expressions, actions, silence and passivity. Their major gatherings still starts with obliged sing-along of 'The Internationale', the Stalinism's hymn, even though the Russians disbanded it as national hymn in shame of all Stalin's misdeeds. The rhetoric is still violently destructive like some spoiled childish bully, - or retarded brute. Actually, their criticism of innovation and the lack of own constructive tasks are remarkable. Simple T.A. shows that it is basically an underworld version of the 'Jante' Game. In this sense the 3x3 ego-state model for organizations is highly relevant. No doubt that Jungian collective synchronizations of UnderConscience Drive is fundamental for the whole movement. On the other hand, there isn't really much Will to talk about in LO because it is remote controlled. However, the OverConscience Belief (OB) is highly manipulated which through the decades changes anyone's UnderConscience Belief (OB). Alarmingly, this is the symptoms of neurotic psychosis. Furthermore, the LO/AP symbiotic struggles highly indicates organizational schizophrenia. The traumas from the nazist-stalinist D&C/U&C Games in WW2 wasn't settled and couldn't be entirely suppressed. It seems to re-appear in new dramatic Games of unpredictable outcomes.

Ever wondered why Norway is so alienated to Europe, why the legal system is so remote and why most 'extreme Left' arguments can be read in the English 'Pravda' on internet? It shouldn't be too surprising that the main reason is that the AP/LO commitments to the Moscow Thesis still dominates their sub-cultures. How to end this after half a century of 'cold war'? I think most such hard-core politicians very well know that the final cut to the AP/LO bound happened three years ago. The CdE attempt and massacre on parts of the AP/LO youth on 22/7-2011 did certainly set a 5D change of path. There is no way back to what it ever was. The whole incident is commented at the day in UU 22.juli.2011, during the trial in UU 18.mai.2012 to UU 20.juli.2012 and after the judgment in UU 24.aug.2012. There were several attempts to explain the complex events during the trial, but the vast majority of issues stayed unresolved due to the secrets of the Games. However, the recent year's events elsewhere in Europa has uncovered a surprising, but likely,

hypothesis. The main question still is: What organizations can and will see through such a massive operation, with unhindered executions, leaving too few trials and overruling a national legal systems? "Follow the money" - and follow the footprints. ABB appears like a 'pro-Russian separatist'-wannabe.

The lyrics and the video of 'Uprising' speaks for itself in this UU relation. It is not our own civilization to we should oppose and fight to get proper LQ. It is the remote controlled forces of destruction.

The three childhood friends Matthew, Christopher and Dominic formed the band Muse in 1994. They have been quite famous and won an MTV Video Music Award in the category of Best Special Effects for this video "Uprising". In addition they have Mercury Prize nomination, third place finish in the NME Albums of the Year, five MTV Europe Music Awards, six Q Awards, eight NME Awards, two Brit Awards—winning "Best British Live Act" twice, an MTV Video Music Award, four Kerrang! Awards, an American Music Award and been nominated for five Grammy Awards, of which they won Best Rock Album for The Resistance. Muse have sold over 15 million albums.

REM - Losing My Religion

2014.okt.10

Ukens Utvalgte

Just a final break to reflect before continuing the 3x3 & 5D modeling for the 1514-2014 theme. Religion is now a fully valid aspect in the 3x3 ego-state model with 'Belief' as a substitute for S-E. The reason is that Jung's theories include 'religious psychology'. It is quite (psycho-) logical, since 'psyche' mean 'soul' and therefore relates to a wide range of theologies, myths and believes. However, 3x3 Belief also includes any belief-system, like theories of anthropology and any science. Therefore, REM 'Losing my religion' is in this sense related to any belief-system, - political as well.

Religion is also called 'the first philosophy'. It concerns any major unanswered question and not merely the theological ones. (UU 2013.des.27.) Therefore, the 3x3 model's ego-state 'Belief' is a general substitute for Freud's Superior-Ego. This means that laws, ethics and rituals are included. Moreover, the 3x3 model adds the 3 levels; UnderConscience, Conscience and OverConscience (U, C and O) to the 3 classic ego-states Id/Drive, Ego/Will and Superior-Ego/Belief (D, W and B). Temporary key-words for the ego-state Belief are: UB; Intuition, obsessions, rituals, psychosis. CB; Philosophy, religion, politics, ethics. OB; [S-E] Traditions, rituals, superstitions, hypnosis". The models are described in English in UU 2014.sept.12.

In this sense, Belief relates to all of the ego-states Id/Child, Ego/Adult and S-E/Parent, - since there can be uncertainties and beliefs about logical and natural concerns too. In a TA (Transaction Analysis) viewpoint, communications can stem from a person's CB expressed via OB and received by another person's OD to possibly be adapted by the CD and even UD. Believes, which are not quite qualified explanations, are used as temporary solutions for uncertainties. Therefore, it is important for anyone to realize that their belief is

not knowledge. Besides, our dogmatic or faulty beliefs should be open for corrections, innovations and even invalidations.

No-one can possibly understand it all, not anything close, not even those who claims to be related to some divinity, ideal or genius. No prophet have ever proved to be any superior Truthsayer. For example, the Oracle of Delphi, with all the unclear answers, became politically corrupt and disastrous damaging. This goes as well for any theology, ideology and anthropology. Fixed minds on Superior-Ego Believes can develop personal and organizational psychoses. The only cure is to realize and accept that any belief has a high level of uncertainty and therefor often have faults. Consequently, willingness to change one's own Belief should be a pre-condition to enter any belief-system of theology, ideology and anthropology.

Political Beliefs, like ideologies, are talked over in UU 2013.nov.29: "Isms are used to explain ideas, politics and theologies. They are used to influence attitudes and actions. They are made, social-psychologically said, as S-E to establish collective norms and ideals. However, there are now myriads of isms that provide overwhelming inconsistency and confusion. Furthermore, they are more influenced by abstract philosophies than concrete solutions." In UU 2013.april.19 the suffix '-cracy' (power) is reasoned in relation to LifeQuality and social-psychological Games. "There are several well-known terms like theocracy, bureaucracy and democracy. Put together with known prefixes, some new terms of powers reveal, like psychocracy, sociocracy and pedocracy." "Anyways, the mentioned Games relates more concrete to cracies than isms. One can therefore speculate if there isn't some hidden Games behind any political idea or ism, - that their objectives isn't always like presented."

Religious believes are talked over in UU 2013mars29 and UU 30.Mars.2012: "Since more than half the human population acknowledge the monotheistic religions, they consequently believe in life after death, souls, angels and spirits." "Historically, there have been always rivalries in the Mediterranean areas, - in the intersection between the 3 empires in the Middle-east, North-Africa and South-Europe. These 3 were irreconcilable in language, culture, ethnicity and religions." The rivalry seems eternal and they still highly influence most present major collective Beliefs. Religious Beliefs in E.T. is also argued. "The monotheistic belief is that God created (at least) 3 intelligent life forms; Humans, Angels and Djinnns. The latter is also called spirits or demons, which is a life form without a body, - a form of energy. Therefore philosophies about possibly human life after the death (of the body), is as a soul or spirit." Furthermore, religious philosophies includes intermating between the species, which makes that psychology highly complex and controversial.

Our archetypes are internal and stems from UD (UnderConscience Drive). These have every so often been mistaken for divinities that should however be external and come via OB (OverConscience Believes). Nevertheless, the term 'anthropology' is highly relevant to the ego-state Drive (Id). Anthropology is defined as; "the study of humans', past and present, that draws and builds upon knowledge from the social sciences and biological sciences, as well as the humanities and the natural sciences." The definition and models for LifeQuality are therefor also essentials to anthropologies. (See UU 2014.sept.05.) The term 'ethnology' originally means 'nation' and is a relevant branch because it concerns the characteristics of different peoples and the relationship between them. Ethnology is therefore most relevant to organizational, national and imperial social-psychology.

CdE Games will be in focus in the continuation of the UU theme '1514-2014'. Consequently, collective Belief-Shifts are too. There have been several 4th degree CdE Games throughout history like in Rome, Egypt, Beijing, Washington, Paris, Vienna and Iran. However, most profound and documented is the Russian CdE Games throughout the 20th century, - from Throne/Temple in the Winter Palace to State in Moscow. There was a massive organized collective Belief-Shift from ethnological/theological to ideological. The methods included persuasion, bribery, threats, torture, hypnosis, assimilation, massacres and wars. Somehow the conquering regime believed that all humanity would submit to their ideals. They really believed they could cause a chain-reaction of global neo-dogmatic Belief-Shift in every national states, - by temporary abuse of anti-civilized means. How desperate, how ignorant and how psychotic to believe that human nature is that simple, - and that similar to animals and machines? A main concern of this century

has to be to terminate the sociopathic devastation, stop the vast corruption and restore the civilizations and its citizens LQ. Challenging indeed, when they still have an OverConscience that destruction is for some greater good. Anyways, 5D scenarios based on LQ and 3x3 models will be in focus for 2014-2114.

The name of the band 'REM' is short for 'Rapid Eye Movements'. It is a natural reaction of the eyes when 'falling asleep'. It is intriguing to know that we spend 1/3 of our lives at sleep and that we don't remember much from that UD 'ego-state'. However, sleep is vital for our LQ. Being tired, and lacking a good night's sleep can ruin the day for CW. Even worse, sleeplessness can cause insanity, or at least similar interpretations of such a semi-UD state. Unfortunately sleeplessness is used as an effective form of torture to break individuals' Ego/Will. Anyways, dreams are important to Jung's theories because it gets access to the Under-conscience and can provide information about the psyche. However, interpretation of dreams are less emphasized in this century.

The lyrics in 'Losing My Religion' is about confusion and despair. It is more about loss of Belief than any 'first philosophy'. "Life is bigger than you and you are not me." It's about doubt in social psychoses and potential new realizations. "I've said too much – haven't said enough, I've said enough". It is also about negative social reactions to the alienation. "That's me in the corner, in the spotlight, losing my religion." Trying to live up to unreachable ideal Believes can cause feelings of inadequacy and thereby inferiority: "Trying to keep an eye on you, like a hurt, lost and blinded fool." Hopeless interpretations intensify the confusion: "I thought I heard you laughing, I thought I heard you sing, I think I thought I saw you try." However, as a true REM, he sings "That was just a dream".

The video tells as much as the lyrics. His body-language is restless and confused. There are scenes with philosophical and religious motives. A fallen angel appears like a weakened human, mocked and martyred. Atheists are sceptic but tries to make iron wings. (A somehow related REM presentation appears in UU 02.nov.2012.)

Pet Shop Boys It's A Sin + Lyrics

'Losing my religion' can be a consequence of cleric homo-phobia. Both REM and PSB have expressed issues about that. In that sense, the two songs aren't about religion at all, but rather about heresy towards such intolerance. It's important not to mistaking heresy towards clerics for blasphemy. Patriarchs and Matriarchs tends to do that.

Eagles - Hotel California

2014.okt.03

Ukens Utvalgte

Still need some time to gather points of views for the 3x3 and 5D models. Meanwhile, another favorite oldie pops up from the deep. I suppose most have heard 'Hotel California' by The Eagles. Yet, few know the lyrics well and fewer reflects on the meanings. Once again, Jungian perspectives are intriguing for fumbling around in this collectively shared poetry. Summing up the reflections, - the song might as well been called 'Hotel Transylvania'. Here is why.

The lyric is described as; "a surrealistic tale in which a weary traveler checks into a luxury hotel. At first the hotel appears inviting and tempting, but it turns out to be a nightmarish place. The song is an allegory

about hedonism self-destruction, and greed." Although it provides lots of images, events and impressions, put together in a tale, it is a rather straight forward story, - about social Games like 'Want Out' (HDYGOH).

Hedonism was talked over in UU 2014.juli.25, argued that a dystopia is depend on collective Beliefs that it is a utopia. This can be done by extensive social use of monitoring, force, drugs and psychocracy. The dystopian utopia came to be called Thralltopia. The arguments continued in the following UU 2014.aug.01 about drugs and psychiatry. Anyways, the story takes place after 1969 that hints to the '68 generation. Originally there were massive democratic protests against SU invasions, annexations and assimilations of eastern European nations. Instead, the movement turned out to be massive protests against US/NATO/UN interference of the Asian invasions, - lead by hippies drugged on cannabis, LSD, and mushrooms that alter the consciousness. In 1969 the Woodstock festival changed and founded the culture forever. The song's lyrics therefor refers to cultures of 1969 and 'colitis', which is a jargon for marijuana.

The landlady in Hotel California is rich and powerful. She is 'Tiffany twisted' which hints to an obsession of the jewelry shop Tiffanies. She has expensive Mercedes that hints to Janis Joplin's song "Mercedes Benz". However, the text says 'bends', not Bentz that hints to the DCS illness after diving too deep for too long. She also has lot of young lovers that dances to remember or forget. 'Sweet summer sweat' and 'dance' might hint to sex hormones and acts. 'The mirror in the ceiling' certainly do.

Frequent discussions concerns the text: "So I called up the captain. 'Please bring me my wine'. He said, 'We haven't had that spirit here since 1969.'" Henley got tired of being confronted that wine isn't a spirit. He said the line has little or nothing to do with alcoholic beverages. "It's a sociopolitical statement." Other reflections might be relevant, like that the word 'spirit' probably refers to the term for collective attitude, archetypes, cultural values etc. In the hotel, the spirit from before '69, presumably traditional American, is now none-existing. There are different norms and values that rather relates to the political '68 generation and Woodstock cultures of '69. By the way, 'captain' is a nickname for some kind of waiter - and the Eagle is a symbols of the traditional constitutional America.

Another intriguing reflection requires a minor re-writing. It would make more sense if it said: 'Please bring me the wine', where 'the wine' sounds like 'divine'. In such, the lyrics also touch upon what Jung describes as 'the psychologization of religion". Divinity is described as: "The state of things that come from a supernatural power or deity, such as a god, or spirit beings. Divine things are regarded as eternal and based in truth, while material things are regarded as ephemeral and based in illusion. Such things that may qualify as 'divine' are apparitions, visions, prophecies, miracles, and in some views also the soul."

Anyways, the reply indicates that both the preferences to drugs and spirituality has change considerably at the hotel. Any divine preferences from before '68 seems gone and replaced by 'the beast'. That is another archetype that opposes divinities. The lyrics goes: "And in the master's chambers, they gathered for the feast. They stab it with their steely knives, but they just can't kill the beast." The small detail that the knives were 'steely' hints to the band 'Steely Dan'. They were characterized as "the perfect musical antiheroes for the seventies - often with sarcastic lyricists, having written cerebral, wry and eccentric songs about drugs, love affairs, and crime". Anyhow, the polite advice in the hotel is to "bring your alibis", hinting to playing Underworld Games.

California is world famous for several reasons and associated to 'Golden Dreams'. Originally it was called The Golden State during the 'Gold Rush'. The hype attracted people from all over the world, - also the neighboring Chinese forced labor and Russian exiled aristocracy. (Ref UU 2013.juni.07.) There are many other associations; the state's flower California poppy shine goldish, the Golden Gate bridge, Hollywood, Los Angeles, Las Vegas, Beverly Hills, Silicon Valley, Disney Land and more. Summing up it is like a Grand Honey Pot that attracts irresistibly, but might get you stuck and addicted. Michael Jackson and related cultures and events are examples for that. "Relax, said the night man. We are programmed to receive. You can check-out any time you like, but you can never leave."

The name California is commonly believed to derive from a fictional paradise of black amazons and ruled by Queen Calafia. She was a pagan who was convinced to raise an army of women warriors and sail away from California to join a Muslim battle against Christians who were defending Constantinople (Roma2). In this sense California might be related to the word 'caliphate', originally established by the Islamic prophet Muhammad and now claimed to be rebuilt by IS. The future will show whether that State is of Islam or Iblis. "I heard the mission bell and I was thinking to myself, this could be Heaven or this could be Hell".

All the relations and reflections the story provides - sums up in a simple substitute of one key word: "And still those voices are calling from far away. Wake you up in the middle of the night just to hear them say: Welcome to the Hotel Transylvania". That might be what the inner Drive of the collective UnderConscience reveals. There is a darker imaginary archetype that triggers fear and aware, - sometimes reasonably. Therefore this song fascinates, thrills and is a hit. Nevertheless, there are such 'hotels' all over the world and certainly in most major cities. It might even be any kind of organization.

The catchy melody, might be more famous for the second and instrumental part. Although not very technically advanced, the guitar solos are ranked as one of the best of all time by readers of Guitarist magazine and as 8th on Guitar Magazine's Top 100 Guitar Solos. The Eagles also won the Grammy Award for Record of the Year, got Platinum by the RIAA and is rated the 49 Greatest Songs of All Time. Curiously the song was originally made in E minor but was re-recorded in B minor since it was the right key for the singer. There are several other minor details to notice in the song, for example the tambourine that sounds like a rattlesnake in the prelude.

Procol Harum / Annie Lennox - Whiter Shade of Pale

2014.sept.26

Ukens Utvalgte

There is still need for a break before continuing the UU theme '1514-2014', that will be based on the LQ, 3x3 and 5D models. It takes time to shift to such point of views, - shift the focus from the Freudian conscious logic to Jungian perceptions of the inner human nature.

Meanwhile, an old favorite by Procol Harum is proper for setting the view. 'A Whiter Shade of Pale' was their debut single and reached # 1 in several countries. It is the most publicly played song in the last 75 years in the UK. It has a Bach-derived instrumental melody, soulful vocals, and quite astounding lyrics. The story behind it is that Keith Reid at a party overheard someone saying to a woman "You've turned a whiter shade of pale". The phrase stuck in his mind and triggered a series of visions.

The lyrics show examples of what Jungian psychology describes. It appeals to our common sense of feelings, intuitions, visions and archetypes. Keith said: "It's sort of a film, really, trying to conjure up mood and tell a story. It is about a relationship. There is characters and there is a location, and there is a journey. You get the sound of the room and the feel of the room and the smell of the room. But certainly there's a journey going on, it's not a collection of lines just stuck together. It has a thread running through it. I feel with songs that you are given a piece of the puzzle, the inspiration or whatever. In this case, I had that title, 'Whiter Shade of Pale,' and I thought there is a song here. And it's making up the puzzle that fits the piece you've got. You fill out the picture, you find the rest of the picture that that piece fits into." Following up on that description, there are some interesting visions that can be explained in this way:

The basic situation is that a scandalous tale is told and it shocks the involved. The couple's interactions was like an elegant dance but shifts to some 'circus acts' - or from fandango to cartwheels. 'The Millers Tale' might refer to a comedy by Geoffrey Chaucer's Canterbury in the late 14th century where an elderly religious man has a young and attractive wife. He has no clue of her love triangle with two rivaling young men. The comedy is scandalous and burlesque and have some hints about a corrupt religion and naïve

followers. The lyric even hints to playing cards, like the occult tarot, to explain the situation. However, images of events prior the fall of Roman theology seems essential to the theme.

The phrase "sixteen vestal virgins" is mysterious due to absence of information and relations to other images. Vestals were the priestesses of Vesta, the goddess of the hearth and purity in the ancient Rome. Their protection of good virtues was fundamental to the continuance and security of Roma1. They were free from social obligations, to marry and to bear children. They were probably the ancestors of today's nuns. They cultivated the sacred fire of Rome that could not go out. However, during the fall of Roma1 and rise of Roma2, the Christian emperor of Roma2 ordered in 394 AD the fire in Roma1 to be extinguished. The Pontifex Maximus of Roma1, the Etruscan high priest and predecessor to the Pope, got into a deep theocratic crisis in the following trials. The vestal virgins became scapegoats and suffered punishments for failing the sacred task. 'A Whiter Shade of Pale' hints therefor to serious shocks about the falling of virtues, collective archetypes and the empire itself.

The number of vestal virgins has been discussed since the release. Historically, there were 2 vestal virgins that increased to 6 at the most. There were 12 novices, but never 16 virgins though. On the other hand, it can be an indication to the age of the virgin in the lyrics, - 16 years old. Anyhow, she was leaving for the coast, which can set an image that she was crossing the big unknown to change her life in a foreign land. However, this is a beauty of poesy, it does not have to be factual or logically correct. It also illustrates a main point of extending the 3-state factual model to a combined Freudian/Jungian 3x3 model that embraces the perceptions of human nature.

'The mermaid' (sea girl) is mythological and therefor stems from the deeper common sub-consciousness archetypes. Both Neptune and the mermaids represents powers of the deep dark unknown of the seas. Mermaids are today mostly symbols of beauty, kindness and mystery, like the Disney and Disney ones. However, in Roman/Greek seafarers' mythologies, there were several different types of aquatic humanoids. Sirens were dangerous and yet beautiful creatures, portrayed as femme fatale. They lured nearby sailors to collide on the rocky coast of their islands with their enchanting music and voices. Romans related sirens as the daughters of Phorcys who is a god of the hidden dangers of the deep seas. In Jungian view, they could represent murky femme fatale UnderConscience.

Neptune is the Roman god of the Seas, like an offspring from a matrimony between Heaven and Earth. Neptune is often presented as a mythological patriarch, like a king. The relatively uncontroversial Roman image can be caused by the vestal principles in Roma1. However, the Greek counterpart (of Roma0), the god Poseidon, was much wilder and dramatic in nature. He had many lovers and offsprings. Therefor the phrase 'The mermaid who took Neptune for a ride' would make more sense if it was 'The siren who took Poseidon for a ride'. Imaginative, it could mean something like; a lustful love-affair that caused fatal disasters, - and that someone eventually ended up with shock and got a 'Whiter Shade of Pale'.

Annie Lennox' video is a personal interpretation of the present social drama. She said in an interview: "Whiter Shade of Pale is a song that went right to my bones the first time I heard it. When I enter a song, I'm exploring its bones, its sinews. Every aspect and I make a shape of my own within it. I know I'm talking in a funny, abstract language here ... but I'm just trying to describe what it's like to enter into a song and be transported by it." The video is artistically convincing in showing the music industry as a circus arena losing control to emotions by some 'Miller's tale'. There are trained horses, penguin waiters, passionate dancers and a diplomatic clown. Lennox herself, like a trained circus bear, seems very tired, assumingly after a tray of drinks, or whatever they feed them.

In reality, the lyrics first verse seems to describe an inner experience from the band's breakthrough in an early live performance. The members had too much to drink, felt sick while the crowd demanded too much of them. The art-rock band shifted to simple rock & roll. Backstage, the crew and groupies continued the party where adultery assumingly took place. However, 'feeling seasick', seeing their art turn out to a backstage Dionysus/Bacchus party must have given archetypal associations to the fall of Roma1.

However, there must have been some final counter-action in the Games with some occult play cards, since 'I took her by the looking glass and forced her to agree'.

Anyways, early Roman histories was brought up in the '1514-2014' theme in UU 2014.april.25 - and the following. It hypothesises a much deeper and dramatic natural cause to the moral fall of Roma1, - an event that was far more traumatic than the Seas and Heavens could have caused. It certainly changed the collective Underconscious of Drive, Will and Belief (3x3: UD, UW and UB) of humankind for millennia.

Manfred Mann's Earth Band - Question

2014.sept.19

Ukens Utvalgte

It is time for a break after the final writings about the 'Basic Theories' of LQ, 3x3 and 5D. There is a need to realize what is actually done and find new relations to the theme '1514-2014'. Those coming blogs will be restructured according to the renewed models. Besides, the ideas of GHRL (Global Human Rights Law) is started at the FB site and Avaaz petition site. Next, it should be set in motion.

Meanwhile, there are lots of questions and really no expectations for straight answers. Therefor an oldie of an evergreen by Manfred Mann's Earth Band is a comforting reminder. Although that gets one thinking even more about being 'confused at a higher level' after becoming a MSc. You won't get answers, you won't find answers, - and you probably need to make them yourself.

Manfred Mann's Earth Band is an English rock band formed by the South African musician Manfred Mann. He started in the 1960s had several hits like "The Mighty Quinn". Since 1971, the Earth Band has continued to perform and to tour. Till now, there has been 18 former members which makes the band performance rather varied through time. The Earth Band combines a stylistic progressive rock with Mann's jazz-influenced Moog synthesizer. Most of their music is very melodic and is performed by very skilled musicians. The lyrics is also well written, - like this about 'Questions'. However, Manfred do not sing himself, but plays behind his wall of synthesizers.

Allan parson – We Play the Game

2014.sept.12

Ukens Utvalgte

This is the last UU in the series about LifeQuality and the upgrade of related models. This will basically merge the 3x3 and 5D models to provide one for global social-psychological Game-analysis. The 5D 3x3 model can provide new point of views on historical, present and future scenarios. First, there is a translated

summary of the 3-state version of the 5D model. Next the 3x3 model, that basically merge Jungian and Freudian theories, will be used in relation to the 3D, 4D and 5D models. Some afterthoughts and an action to continue the UU theme '1514-2014' will also be presented.

The original 5D model was mentioned in several previous UU and was summarized in UU 2013.april.26. Most of the following quotations are translations from native language to English: "Most people might think that there cannot be any simpler than a 1D political model. However, tragically a 0D political model is imaginable. (Ideas of the number 0 and 0D is presented in UU 2013.april.19.) The existence of merely one single point is not real, but can be useful in theory. Tragically, some disillusioned philosophers and ideologists strived to realize single-party systems in the previous century. Such 'nerdyocracies' grew uncontrolled on the ruins of their civil wars, mass destructions and genocides. Alarmingly, in some places it is the dominating power still, until more realistic political models are realized and deployed."

Note that the arguments at that time were a part of a regional political discussion and might appear controversial. "However, the two political points, Left and Right (i.e. like Labor and Republic – which is generally presented as a 1D model) are practical for a 3D model too. Historically the (Norwegian) party Right represented the Throne and was placed at the right side in parliament, while Left represented the State and was placed to the left. The powershift from the Throne to the State arose due to extended democratic voting rights and guaranteed social benefits to the new voters." (The social-psychological Game is a 3rd degree Underground like the 'self-defined' RPPP (Robbing Pete to Pay Paul.)

"In such a 1D model, all parties are placed on a straight line between the two points Left and Right. It gives an impression that Throne and State are absolute opposites that all other parties have to relate to one of them, and that extremists always are beyond one of these two points (extreme Left and extreme Right). However, this 1D can be viewed in another way. If the two ends of the line are attached, you will see that the two extremist's groups are not opposites at all, but at the same area at the circumference of a 2D circle. Left and Right extremists basically represents the same destructive anti-powers despite any 1D political relation. Nonetheless, a comprehensive model is not made by simply relating Right and Left to a single point. To build a 3D model, the next step is to let State and Throne represent their own axis in a 2D area. Besides, the two axes do have negative scales, where extremists consequently will place themselves as anti-parties on their rivals' negative scale."

"The third dimension is the third axis represented by Temple. The chosen term might sound strange after a century of atheism. However, historically, religion is called 'the first philosophy' and relates to fundamental philosophies, ethics and legal systems. It was chosen to fit to Freud/Berne's psychosocial theories about the 3 human 'ego-states'. The ambition is to use such knowledge and models to related the concepts of LifeQuality to (organizations', empires' and) nations' political systems. However, certainly other terms can be used for the 3 dimensions. Nevertheless, in this 3D model the basis will be the 3 mentioned value-systems; 1) Good-Bad, 2) Constructive-Destructive and 3) Right-Wrong (which are related to the axes; Throne, State and Temple). In this way, there is no need to change any parliamentary system to use this model and the related social psychology. The very same political parties, NGOs and powerful organizations can be placed in the 3D model as well as the 1D model."

Originally there were some stereotyping of national political parties in UU 2013.april.26. Here is just some general summaries. Positioning political organizations in a 3D model can provide alternative perceptions of the political realities. Even the name of organizations can be misleading, like some anti-democratic parties call themselves democratic. Moreover, the positioning in a 1D model shows that several parties 'in the middle' really belong to another dimension. Some parties are misplaced because of their deceiving arguments that covers their real nature. Positioning organization in the 3D model can be done by using coordinates like (x,y,z) where Throne,State, Temple is (Th,St,Te). General stereotyping in a scale from -10 to +10 can then have the following positions: Royalists (+10,0,0), Republicans (0,+10,0), Theocrats (0,0,+10), Left-extremists (-10,+10,-10), Right-extremists (+10,-10,-10), religious warriors (-10,-10,+10), UN (+5,+5,+5), hunters/farmers (0,0,0) etc. The size of the 3D item could represent Powers like Influence, money, members, etc. 'Democratic' is rather about general respect for others and true democrats should be

position on all positive scales. Any negative numbers rather reveals bogus organizations that are not what they express.

Relating the 3x3 ego-states to this 3D model is simpler prior to introducing the time-dimension of the 4D and 5D. Basically this was lightly mentioned in the previous UU 2014.sept.05 about LifeQuality. 3x3 was first explained in UU 2014.aug.08. There is even a picture showing the interrelated 3x3 states. Basically, to adjust Freud's (and Berne's) 3-states to this century and social relations, the terms are developed from-via-to: Id-Child-Drive, Ego-Adult-Will and SuperiorEgo-Parent-Belief. A new dimension of conscience is added in order to merge Jung with Freud's 3-state. The levels are; UnderConscience, Conscience and OverConscience (U, C and O). Note that Jung was a mentee of Freud and further developed theories of Id and S-E based on collective archetypes, subconscious synchronizations, beliefs and symbols. (Also note that translations from 'Bevisst' to 'Conscious', 'Vilje' to 'Will' and 'Tro' to 'Belief' changes the abbreviations.)

"The 3x3 state model provides in that way 9 states that are; (UD) Underconscious/Drive, (CD) Conscious/Drive, (OD) Overconscious/Drive, (UW) Underconscious/Will, (CW) Conscious/Will, Overconscious/Will, (UB) Underconscious/Belief, (CB) Conscious/Belief and (OB) Overconscious/Belief. These are related to Freud's and Berne's states as shown in the following table. Parentheses marks: [Freud] in square. (Berne) in bowed and {S-I}. (Note that S-I is a self-defined state and explained in UU 2014.jan.10.) Freudian states spread out diagonally from Underconscious to Overconscious, while Berne focuses on conscience. Keywords and relations to the 3x3 ego-states are:

1. UD; [ID] Life-force, biology, DNA, nerves, sex, gender, feelings, instincts, dreams.
2. CD; Preferences, joy, anger, biological selections for primary needs.
3. OD; {S-I} Senses, belonging, empathy, dependence, culture, social needs.
4. UW; (C) Ideas, habits, mania, phobia, autism, diverse personality
5. CW; [Ego] (A) thoughts, knowledge, logic, self-realization, perception
6. OW; (P) Sympathy, strategy, moral, visions
7. UB; Intuition, obsessions, rituals, psychosis
8. CB; Philosophy, religion, politics, ethics
9. OB; [S-E] Traditions, rituals, superstitions, hypnosis"

The MBTI can be used on organizations in 3x3 relations. It is an extended and stereo-typing based on Jung's theories. The following is translated from UU 2014.aug.29 about 3x3 Games and hereby re-written to organizations instead of persons. "As mentioned in UU 2014.aug.15, the MBTI has a relation between Freudian and Jungian theories. Consequently, there are relations to modern models like Berne's T.A., Ego-states and (Harris' OK-OK), as well as Meyer Briggs Type Indicators (MBTI). It can extend all Berne's social-psychological Game-models considerably. Consequently 3x3 Game theories can be far more comprehensive than the classical Berne ones. MBTI can make it easier to understand how an organization plays and going to play, by understanding what kind of organization Type it is."

"Organizations will play different depended on whether they are; 'Thinking or Feeling' (T-F), 'Sensing or Intuitive' (S-N), 'Extravert or Introvert' (E-I), or 'Judging or Perceptive' (J-P). Stereotyping of organizations makes approximate conclusions, though. However, MBTI can very well indicate that an IN organization rather will refer to its own ethics and plan, CW (Conscience/Will), rather than play openly against other organizations collective emotions, OD (Overconscience/Drive). Moreover, a TJ organization is rather driven by own inner ethics, CB (Conscience/Belief), than others emotional drive, OD (Overconscience/Drive). MBTI can also indicate that an organization in deed want to play rather than pull out to other way of time-consumption (i.e. Rituals, Work, Pastime, Intimacy or Withdrawal)." Also note the warning that comes with MBTI, - no Type is better or superior to any other, - MBTI is used to understand our differences in order to better relate and cooperate.

Still the 4D and 5D model will keep the 3 axes Throne, State and Temple. The reason is simply that 5D relates to a holistic fixed model, while 3x3 relates to organizations of humans with social-psychological natures and changes. The main differences of the combined models is in how to perceive that organizations' nature, expressions, inter-relations and short-run changes. For example, there can be

Underconscious relations between matriarchs of Throne, State and Temple even though they Overconscious appear very different. Likewise, there can be Overconscious relations between patriarchs of the Throne, State and Temple, as well as Conscience between youth of the same 3D axes. An upgrade to 3x3 should be more distinctive in what is the organizations inner Underconscious nature, the logic of Conscious and the obsessions of Overconscious, as well as whether the main forces are based on Temple/Belief/Right, State/Will/Use or Throne/Drive/Good. Furthermore, terms of organizations' powers/'-cracies' are highly relevant but not quite adjusted yet. In the 3D relation, terms of Powers could be: Archeocratic, Republicratic and Theocratic. (See UU 2013.april.19 for more terms.)

The 4D model is simply 3D+Time that shows the organisations' changes in time. In the long run, there are several ways that political organizations might change. For example terms like 'conservative' and 'radical' are not fixed positions in the 3D model, but show stillness and movements. They can even be relative conservative or radical over time and be different if they are in position or opposition. 4D can also show short-lived organizations that come and go and reveal their relations. For example, short-lived extreme organization can appear as pulsating constants at the negative scale of an axis which can indicate that they are merely cover-ups for destructive acts towards opposing Throne-, State- or Temple- related organizations.

The original idea of the 5D model was first explained in UU 2013.april.19. "For the time being, I choose to understand that the science now indirectly admit that they do not know what the atoms 'building blocks' really are. The Einstein-Bohr conflict stays unsolved. Moreover I choose to understand that the new theories of (Space+Time) with 11 dimensions is because of a public scientific recognition that causalities and freedoms of choice do influence and can cause alternative '5th dimensions'. Consequently every event can have alternative outcomes that can have alternatives too. This makes ideas about alternative 4D realities in a 5th dimension. These alternatives are also called universes that can theoretically exist in an alternative 5D, i.e. $5D + 5D = 10D$. The zeroth dimension on the other hand, is an idea (merely theoretical and not real) that embrace philosophies about balances where all elements are present and compensates each other in a null-sum. The 0D is as important for the philosophy as the number 0 is for mathematics."

There was some afterthoughts about the potentials of a political 5D theory in the closing UU 2014.Jan.31 of LifeQuality. "Basically, 5D concerns 'what-if' analysis. 'What-if' questions can be of anything and is often themes in philosophical Science Fiction. (Related to the sub-theme about LQ and Empires) One can indeed ask controversial questions like: What-if Roma2 did not fall for a muslim theocracy? What-if Tsar Ivan did not divide the Nordic Union? What-if the Tunguska event in 1908 triggered ew/ww by causing mythical reasoning for the shots in 1914? What-if German stalinists didn't bomb Rotterdam despite the contra-order? What-if the UN didn't work after ww2? What-if Kennedy didn't get a death sentence? What-if the Ural-asteroid in 2013 entered half a century earlier, - or some minutes later? What-if ? Someone should also ask such 'what-if' 5D question for this century and prepare for eventualities."

Furthermore, even more controversial, one should, for the quality of history sake, also question dominating public historical dogmas. Alternative 'truths' can be discovered by 3x3 5D mapping of the main organizations, expressions and events at the time. Next, knowing that all humans, including any organizations, also were dishonest Game players, and that the winners usually dictates the public memory by history writings, the present public truth can be deceiving 5D historical tales. For example, we now know that; the books of Moses are far from reliable, the Earth is not flat nor the center of the universe, kings and queens are not divine, empires changes and that all humanity should be legally protected by Human Rights. Moreover, some other vital historical events are probably suppressed. Previously mentioned are: The imperial rivalries concerning the Roma/Egypt alliance and heritage to that 'new age' of Pisces (UU 2013mars29). Napoleon's strong influence from Egypt and the Winter Palace and the turn of strategies thereafter (UU 2014.mai.16). The unknown deals and 'understandings' of the ww2 aftermath by Stalin/Roosevelt/Churchill (UU 2013.juli.05). What-if ?

Historical perceptions are most certainly deterministic for our future decisions. Unfortunately misinterpretations of the past can lead to unfortunately future priorities and actions. Some future

perspectives are previously mentioned in UU 2014.jan.17. Some are: The exponential population growth will probably stagnate at 10-12 billion people by the year 2100 due to global family planning. Therefore 5D scenarios involving dramatic 5th degree war-Games will cause much worse ends. The 5 Romas will probably complete and be inter-related in global relations. Unsound social-psychological Games will cause 5th degree outcomes that might be irreversible in addition to cause civic disasters (UU 2013.nov.08). The UN did probably prevent a nuclear ww3. Even though UN seems inefficient and should go through serious re-organization, - it is and always will be humanity's best guaranty towards inhumanities (UU 2013.juli.05). Anyways, no one can ever tell or know 'the truth, the whole truth and nothing but the truth'. That is merely the legal and theocratic systems' projection of a public image (OB).

"The Information Quality is essential to the models. Believing anyone does know 'the whole truth' is an alarming, deceiving and corrupting illusion. Therefore, dealing with all the public psychoses are probably the most vital tasks for humanity's future. Psychotic missuses of 3x3 5D can do more Bad/Destructive/Wrong than Good/Constructive/Right. As mentioned in UU 2014.sept.05: "The 5D can provide alternative future scenarios. Alternative historical scenarios can also be important, since we very well know that any human is deceiving by nature and that some probably already have altered public history considerably. The perceptions of the past might not be qualitative sufficient for future solutions."

The video from the UU 2014.jan.17, 'Don't panic — The Facts About Population', shows in a convincing way how the global social development was in the previous half-century, - despite the common belief. It also reveals that scientists' perception was worse than guessing would be. It proves that some public dis-information dominates, which can be traced to old schoolbooks and modern media. The situation is critical social-psychologically. (See also the link to a new TED talk by Rosling 'How not to be ignorant about the world'.) Furthermore, there is a TED talk that is excluded even from the TED talk official playlist, but fortunately available on YouTube. "The Science Delusion" by Rupert Sheldrake is well worth the 20 minutes view. He lists 10 present scientific dogmas that he thinks should be reconsidered, and explains the dogmas about constants of 'the speed of light', 'gravity' and 'mass*energy', and that human conscience probably is not merely bound to the brain. Additionally, there should be more serious discussions about what might to be some 'Big Bang Bogus' and is becoming another dogma. At least it makes one think seeing the video about Laniakea – a new perception of our universe. See the video-link below.

Mental health is indeed highly relevant for organization, nations and empires as well as for individuals. This is argued in UU 2013.april.05. "So over to something quite normal, - 'normal madness'. Unfortunately, the mental health can be in such a condition that it is 'unprofessionally' called madness. Or even worse, - that state has become the collective norm of society, - 'normal madness'. Therefore, it is important to understand what professionals mean and what can be done to improve the condition, - even if the themes are considered taboo." "The term 'normal' has no qualitative meaning. 'Normal' can be good or bad, constructive or destructive and right or wrong. The norm just shows what is the average or most ethical legitimated". Furthermore, subconscious collective synchronous reactions can cause inhuman results, but might not be mean. Humans have some instincts like animals for protection, hunting, etc. Without entering moral philosophy, it is important to notice that instinctive reactions can happen before thinking and that the challenges is to use all 3 ego-states before acting. That goes for collectives too, - especially members of the deceiving anti-HR ones.

About mental health relations to the 3x3 model: "In summary, there is a good mental health when there is balance between the 3 ego-states: S-E, Ego and Id (i.e. 3x3: Belief, Will and Drive). A personality is in critical condition if Will is shrunk or overlapped by dominated Belief and/or Drive. A dominating Belief with obsessions can develop psychosis. A dominating Drive can develop neurosis as oversensitive reactions. A threatened Will can search for escapes and develop an alter-ego, - become schizophrenic. However, this must not be confused with the many roles most adults have in their daily life." This should apply to organizations, nations and empires as well as persons. Since theories of Jung has been included in the 3x3 model, there are some new conditions to consider in relation to sanity. Archetypes, Underconscious and Overconscious, as well as collective synchronization are not insane. Human nature and instincts might seem irrational and even insane at times. However, knowing a person's trauma, immune-system's reaction,

related archetypes, convictions etc. might help to see the sanity in 'insane' appearances. Dancing to music, laughing to memories and seeing patterns beyond most peoples' perception is not insane at all – quite the contrary.

Organized insane crime is argued in UU 2013.april.12: "It is alarming how crimes of disillusion (like mass-psychoanalysis and -hypnosis) can influence persons and organizations by pseudo-scientific methods. Rivalry of enterprises, politicians and nations can in a way legitimize misdeeds by buying such services. However, every employee is dependent of the job and its income to secure a certain LifeQuality for themselves and their related. A corrupt HR employee can thereby blackmail employees to disloyalty and even to crime. A corrupt or sociopathic employee can even create social psychological Games causing losses and damages for both personnel and enterprises." Such conditions do certainly apply to organizations, nations and empires in a 3x3 5D model too.

Finally, the previous UU 2014.sept.05 about LQ did present some afterthoughts. "Merging Freud and Jung to a single model, and relating it to present theories, seems right and generates some re-thinking about psychology, sociology and humanity. Linking and adapting it to Berne's theories of 'Games People Play', does provide yet undiscovered ideas of how it all works and some vital 'do and don't'." Now that the 3x3 5D model is described, - what should be done with it? As mentioned in UU 2014.aug.29, negative Games can be turned positive. This is a major challenge that can have unforeseen comprehensive effects to our future.

The new self-defined category CdE Games are thoroughly described in UU 2014.aug.29. The 4th degree Games of CdE can be played at Throne and Temple as well as State. There are lots of historical descriptions of 4th degree Games, usually with a matriarch or patriarch as leader. However, in most cases, the real Gameplayers will rather be disguised, highly influential and deceiving. Therefore, most obvious historical Games should be investigated with fresh points of view based on the 'Big Data' that the present IT provides. Nevertheless, mentioned events and personalities of Games are for example: Abraham/Sarah, Julius/Cleopatra, Jesus, Napoleon, Ivan, Stalin/Hitler, Dagmar/Rasputin and lots of lots of more. Classic and new Games in the new CdE category can be; LYAHF (Let's You and Him Fight), (Bad Guy – Good Guy), TOL ('Tuppen & Lillemor' translated to 'I Don't Want To Play In Your Yard', 'Playmate' and 'Two Little Maids'), DAC&UAC (Devide&Conquer & Unite&Conquer), BGGG (Bad Guy – Good Guy), OBD (Offense is the Best Defense), ISR (It Started with the Retribution), EDAB (One's Death Another's Bread) and RPPP (Robbing Pete to Pay Paul).

However, Berne did define some Good Games too, like Busman's Holiday, Cavalier, Happy to Help, Homely Sage and They'll Be Glad They Knew Me. Moreover, Bad Games can be turned into Good Games, for example: LYAH(Fight) inverted to LYAH(Create) and NIGYSOB to NIHYSOD (Now I'll Help You, You Son of a Dame). Positive ethics can of course be transferred to CdE Games as well. Games should rather be: GGGG (Good Guy – Good Guy), HPPP (Helping Pete and Pay Paul), DAC&UAC (Devide&Construct & Unite&Construct) and OBAB (One's Bread - Another's Bread too). Moreover, ending destructive Games can simply be done by uncovering the Games and the Players – and/or making the Spoils hopelessly unachievable.

Anyways, altering global 3x3 4D Games is not an individual task. It can however be done by collective synchronized conscience of Will. Knowing very well that global destructive Games of CdE will continue and have some peeks, it seems to be only one action such a humble individual can do: Attempt to kick-start a democratic mass-movement to realize a GHRL (Global Human Rights Law) by influence all united nations to finally ratify a complete NHRL (National Human Rights Law). It started last week but has yet no sign of taking off. However, this is my anti-thesis to Bad CdE Games in order to improve humanity's chance for a better LifeQuality.

The Alan Parsons Project will complete this extra UU theme of upgrading models concerning LQ (LifeQuality) instead of another PG song. APP was basically a band consisting of Alan and Eric with several guest musicians. It was successful with several hits in the '80 and '90. Some albums were dedicated well

known books like 'I Robot' and 'War of the Worlds'. This UU is dedicated the song 'We Play the Game' from the album 'A Valid Path'. Further comments seems unnecessary since the lyrics says a lot.

Peter Gabriel – Mercy Street

2014.sept.05

Ukens Utvalgte

This 'Week Selected' concerns one of humanities most vital word, LifeQuality. This definition of LQ relates to the Human Needs and Human Rights. Most nations have signed the UN HR conventions, but merely bits and pieces are yet ratified and realized. Therefore, this UU will provide some deeper clarifications of what LQ means, - followed up with some suggestions on how-to realize the Global Human Rights Law (GHRL). Think about it, - it is 100 years since the world wars started. What could have been the outcome with a fully operational UN and GHRL? It probably prevented ww3.

This definition of LQ was originally developed 20 years ago during the MSc studies. The following is basically an English translation of several UU, starting with UU 2014.Jan.31: "LQ was defined at that time due to non-consistent definition of 'Quality of Life (QL)'. The final definition is:

"LifeQuality is a person's totality of properties and potentials to satisfy stated and implied needs."

"The LQ definition is based on the UN ISO 8402 definition of Quality of products and services. However, in LQ sense the 'implied needs' are as described in 'Maslow's Hierarchy of Need' and the 'Stated needs' are like the UN Human Rights. This makes a foundation for a comprehensive evaluation based on theories of psychology, moral-philosophy and sociology. Since Dr. Eric Berne showed that classic Freudian psychology can be related to interpersonal sociology, the theories were escalated to social relations in extended ways, - including Humanity as a whole (from UU 2013.feb.01)."

The UU theme LifeQuality was blogged weekly in UU for a year. The theme was divided into 4 sub-themes. The first 'Basic theory' concerned theories of Maslow, Freud, Berne, Meyer-Briggs, Harris, Human Rights and Quality - and concluded the definition. Recently, this has been extended with a 3x3 ego-state model, merging Freudian and Jungian theories. The 2nd sub-theme was called 'LifeQuality and Empires' and dealt with an extended view of the Roman and related empires, the UN and some future perspectives (from UU 2013.mai.03). The 3rd subtheme concerned the national ongoing parliament election and related LQ to politics and quality of public services in particular (from UU 2013.aug.09). The 4th subtheme 'Meta'

provided some overall perspectives and views about future aspects for the humanity (from UU 2013.nov.08).”

5 years after the MSc thesis, the Human Right Law (Menneskerettsloven) was made in Norway. Still I think my influence had something to do with the initiative and result. The Ratification to a National Human Right Law (NHRL) was legally valid and surprisingly easy, quickly and free of political Games. Basically the law is a collection of the signed HR conventions in both English and native language, with some introducing paragraph that puts the law prior to any conflicting laws.

Now 15 years later, there will be a global democratic petition for all the united nations to ratify fully National Human Right Laws (NHRL) in order to unite to a consistent Global Human Right Law (GHRL). Assumingly, the UN support this, since the UN consider the HR conventions as global laws since a certain number of nations ratified them. It seems that the only way to form a GHRL as intended is that every national parliament pass their own unified NHRL. (See the appeal for petition below.)

To put it simple, the Human Rights is a global democratic ‘One for All – All for One’ declaration. The need for this was very well understood by most humans and nations after ww2, - due to all the inhuman doings and destructions of nations and civilizations. The UN fundamental inter-national obligations are stated in the UNC (United Nations Charter) where chapter VI provides the UN powers to investigate and mediate in international disputes. Chapter VII authorize international economic, diplomatic, and military sanctions and force to resolve disputes. The UDHR (Universal Declaration of Human Rights) is the foundation of the later ICCPR (International Covenant on Civil and Political Rights) and ICESCR (International Covenant on Economic, Social and Cultural Rights). All this should be included in all NHRL.

More detailed description of the HR and LQ is translated from UU 2013.feb.15: “Almost all the 193 member states of the United Nations (UN) have committed to ratify the Human Rights into their national laws. The member-states are obligated to secure their citizens’ rights concerning; private properties, self-determination, security, privacy, family, work, education, in addition to freedoms of thought, conscience, religion, expression and more. Even though the UN conventions seems inconsistent, the states are still obligated to be concrete and realize the rights.”

“Unfortunately, there are big gaps between theory and practice – between law and public legality. The reasons are historical.” “Only in the last half century of the thousands of years with republic states, - the statesmen have been legally obligated to its citizens. Historically, the legal development can be seen in 3 phases: In Ancient times; state-vs-citizen. Roman Empire; citizen-vs-citizen. The age of Enlightening; citizen-vs-state. The latter is called ‘natural law’ and was finally realized with the UN charters. The HR has also been supplemented with some regional conventions for European, American African and more, in addition to some specific conventions, amendments and protocols.” These should of course be added to any relevant NHRL.

“Legally and parliamentary, the ratification process is simple. One Parliament Member (PM) can suggest in Parliament that the HR conventions as a whole should be made a national Human Right law (NHRL). PMs, the democratic elected lawmakers, cannot really morally decline such a suggestion and expect to be re-elected. Ergo, - a simple suggestion from one PM – and the nation should get their NHRL – at last. This is how the Norwegians got their NHRL in 1999. Such a NHRL will limit the states’ injustice towards their citizens. Statesmen’s violation of NHRL can be related to the national criminal law and persecuted. Hardcore statesmen might oppose such a development. However, recently, the Norwegian constitution (Grunnlov) was modified to include HR, which puts the NHRL in an undisputable superior legal position.”

More detailed descriptions of the Human Needs and LQ are translated from UU 2013.feb.08: “The Human Needs are the main factor of LifeQuality. Maslow’s Hierarchy of Needs shows 5 main categories of needs; Physical, Safety, Social, Respect and Self-realization.” “Abraham Maslow’s main work ‘Motivation and Personality’ promotes the understanding that the human nature is basically good, but also that unfortunate

life situations will make life painful and potential destructive. Furthermore, a person need to cover certain fundamental needs, like security, to satisfy higher needs like self-realization.”

“The need for Self-realization can be considered ego-centric, though. Consequently a certain level of egoism is necessary in democratic civilizations. Anti-democrats oppose this with half-true arguments that egoism is unsocial, - and give the psychological term ‘Ego’ a negative interpretation. However, self-realization cannot be without considerable support to other needs; the physical ones, security, social relations and respect. Consequently, professional self-realization can enrich society with science, art and knowledge. History is the proof of that. In contrary, republicatic, aristocratic or theocratic dictatorships cannot exist without systematic breakdown of the citizens’ self-realization, - primarily by suppressing the citizens underlying needs. Such illegal thrallldom is made and maintained by systematic and consistent suppression of human needs and rights.”

“The human Life-force is vital for the LifeQuality. Its power seems to be underestimated in the previous centuries’ extreme wars, massacre and psychological abuse. Despite all this, the human quantity and quality has grown exponential. Humanity seems to strengthen by hardship despite all those traumatic misfortunes. However, now it should be enough historical proof that destructive despots are basically destructive, - despite all ‘clever’ political Games. They are dangerous to their surroundings as well as to themselves and should be made harmless in time, - just like healthy civilizations reacts to mentally ill persons. This is a global responsibility and must be arranged through the UN. A way can be to use elementary clinical social psychology extended to organization and nations.” (UU 2014.Jan.31.)

“If the moral, ethics and philosophies of LifeQuality should be put down to a single sentence, it could be ‘I’m OK – You’re OK’ (ref Thomas A. Harris). It is mainly about tolerance to OK persons, as well as a recognition of oneself. Consequently, it is also about clearly stating it to ‘not-OK’ persons, organizations and nations. Next, there should be more awareness about destructive Games in order to end them harmlessly (ref ‘Games People Play’ by Eric Berne).”

A 3x3 ego-states model was recently developed (UU 2014.aug.08 – UU 2014.aug.29). The reason is that social-psychology is vital to any human individual. The 3x3 (ego-states) model is based on Freud’s 3-state models, Berne’s upgrading to family therapy and social Games, Meyer-Briggs Type Indicator and a recently adaptations of Jung basic theories of sub-consciousness, archetypes and social relations. Basically the Freudian 3 ego-states model is developed from->via->to: Id->Child->Drive, Ego->Adult->Will and Superior-Ego->Parent->Belief. The second dimension to the 3 states are: Sub-conscience, Conscience, Over-conscience.

Finally, the 5D model will be adapted to the 3x3 model in the next UU. To put it simple, the 5D model provides a political version of the 3 state model with stereo-typing like: Id->Throne, Ego->State and S-E->Temple. The 3 dimensions can be related to a xyz axis-system. Actors can then be mapped in a 3D presentation. The 4D is Time which can show historical developments. The 5D can provide alternative future scenarios. Alternative historical scenarios might also be important, since we very well know that humans are deceiving by nature and probably already have altered public history considerably. Past perceptions might not be best for future solutions.

Merging Freud and Jung to a single model, and relating it to modern theories, seems right and generates some re-thinking about psychology, sociology and humanity. Linking and adapting it to Berne’s theories of ‘Games People Play’, does provide yet undiscovered ideas of how it all works and some vital ‘do and don’t’. Anyways, 3x3 and 5D might be much more than a single person can develop, - and possibly misuse can do harm. However, there is one single to-do task that seems vitally important and easy to start: A global democratic petition for a GHRL by realizing all the nations NHRL. It just started.

Peter Gabriel has been the ‘Week Selected’ for these 5 UU about upgrading of LQ and related theories. Although he has been presented several times in Norwegian, an English presentation seems unnecessary. This song ‘Mercy Street’ is a favorite both poetic and musically. It makes one think and realize that it all is

about humans and how fragile anyone can be. Some basic underlying protections are needed – like the HR. Furthermore, the whole concert seems to prove that Freudian theories is far from adequate to relate to social phenomena like the artists, the crew and the crowd create and experience. Jungian theories about symbols, archetypes and sub-consciousness synching are as important and is extended in the 3x3 model.

Peter Gabriel - Games Without Frontiers

2014.aug.29

Ukens Utvalgte

Sosialpsykologiske Spill er ofte brukt i UU til å forklare politiske hendelser. Men Bernes 'klassiske' Spill er mest for 2 personer og relatert til Freud og ikke Jung. Spill-teorier behøver derfor tilpasninger til 3x3 modellen også. Dermed gir denne UU en oppsummering, relatering og oppgradering av Bernes Spill teorier.

Berne baserte sine teorier om sosialpsykologiske Spill på Freuds 3-state modell og Psykoanalysen. Dette er ofte omtalt og spesielt i UU 2013.mars.15: «Dr. Erik Berne videreutviklet teorien om T.A. (Transaksjons Analysen) i boken 'Games People Play'. I den bok beskrives en rekke generelle psykologiske Spill (Games), som alle er uærlige pr definisjon og forekommer forbløffende ofte i virkeligheten. I boken beskrives et 60 talls Spill og hvordan man eventuelt kan få avverget de negative konsekvenser ved avsløring av de egentlige motiver og trekk. I disse psykologiske Spill brukes skjulte og falske trekk (Transaksjoner) for å oppnå en gevinst.» Berne nevnte også forskjellige klassifiseringer av Spill basert på; antall spillere, brukte midler, instinktive (Id), 'klinisk' (Ego) og 'psykodynamikk'. Spillere kan også klassifiseres på fleksibilitet, utholdenhet og intensitet. Disse klassifiseringer er også relevante for 3x3 modellen.

En del andre omstendigheter er verdt å merke seg i forhold til Spill. Det er kun 1 av 6 definerte måter å bruke tiden. De opprinnelige 3 og senere 2 ekstra er; Tidsfordriv, Ritualer, Arbeid, Tilbaketrekning og Intimitet. For Spill er dessuten Gimmicks', 'kulturen regler' avgjørende viktige. 'Uetiske' trekk i Spill kan sosialt legitimeres hvis en part avviker fra lokal gimmik. Eksempelvis kan det være legitimt å rane en turist, pine en kjetter eller utføre 'practical jokes' mot andre. Siden uærlighet er pr definisjon en forutsetning for Spill, er menneskes iboende bedragerske natur vesentlig. Som nevnt i UU 2013.mars.15, lyver enhver

gjennomsnittlig 2 ganger daglig, - og det er definert omtrent 28 klassifikasjoner løgner og bedrag. Med andre ord, potensialer for Spill ligger i oss alle daglig.

Som nevnt i UU 2014.aug.15 har MBTI en sammenheng mellom Freuds og Jungs teorier. Følgelig er det også sammenhenger i mere moderne modeller som Bernes T.A og OK-OK modeller, samt Meyer Briggs Type Indikatører (MBTI). Det kan utvide hele Bernes sosialpsykologiske Spill-modeller betydelig. Her blir følgelig en konklusjon at 3x3 Spill teorier kan være langt mere omfattende enn Bernes klassiske. En vil bedre kunne forstå hvordan en person spiller og vil spille, ved å forstå hvilke person-type den tilhører og ikke. Forskjellige personer vil spille forskjellig avhengig om de er; 'Tenkende eller Følende' (T-F), 'Sansende eller Intuitive' (S-N), 'Utadvendt eller Innadvendt' (E-I), samt 'Dømmende eller Perseptiv' (J-P). Kategorisk stereotyping fører selvfølgelig til omtrentlige konklusjoner. Men MBTI kan godt indikere at en IN person heller vil referere til sin indre moral og planlegge enn å spille opp mot andres kollektive følelser. Videre vil en TJ person heller styres av egen rettferdighetssans enn SF sin emosjonelle relasjoner. MBTI vil også kunne indikere om en person faktisk ønsker å spille eller helst trekker seg ut i andre tidsaktiviteter.

Berne kategoriserte Spill avhengig av omstendigheter. De klassiske kategorier er: 'Life Games, Marital Games, Party Games, Sexual Games, Underworld Games, Consulting Room Games & Good Games'. Oversatte og modifiserte kategorier kan være: Livsstils Spill, Ekteskaps Spill, Selskaps Spill, Seksuelle Spill, Undergrunns Spill, Terapi Spill og Gode Spill. Kategoriene kan godt utvides og tilpasses dette århundres virkeligheter og 3x3 modellen. Eksempelvis vil kategorien 'seksuel' heller relateres til Drift, 'selskap' til Tro og 'terapi' til Vilje. Av klassiske Spill er tidligere omtalt: YDYG (Why Don't You, Yes But), IFWY (If It Weren't For You), WAHM (Why does this Always Happen to Me?), SWYMD (See What You Made Me Do), UGMIT (You Got Me Into This), LHIT (Look How Hard I've Tried), ITHY (I'm Only Trying to Help You), LPAFJ (Let's Pull A Fast one on Joey), NIGYSOB (Now I've Got You, You Son of a Bitch), LYAHF (Let's You and Him Fight), RAPO 'Psychiatry' og 'Courtroom'. En fullstendig liste av Bernes klassiske Spill kan ses i hans bok 'Games People Play' som er gratis på internettet. (Se links herunder.)

Nye Spill har også vært hensiktsmessig å definere etter omstendigheter. I tidligere UU er disse omtalt: DAC&UAC (Devide&Conquer & Unite&Conquer) er et politiske Vilje Spill som brukes til å ta dominans over kollektive grupper. TOL (Tuppen & Lillemor) er et Drift Spill i kollektivisering og kan være foranledningen til f.eks. LYAHF. ISR (It Started with the Retribution) er ikke tidligere omtalt i UU, men synes å være særlig anvendt for å starte rivaliseringer - uten å risikere beskyldninger om provokasjon og tilhørende støtte til motparten. Tilsvarende klinisk Drift motivert Spill understøttes av ABF (Angrep er det Beste Forsvar) hvor gjensidig paranoide rivaler kan ha Tro dominert 'tvangstanker'. DSITDEN (Du Skal Ikke Tro Du Er Noe - eller 'Jante') er et kollektivt synkroniserings Spill i slekt med TOL. BGGG (Bad Guy, Good Guy) er et Vilje Spill i kategorien Underworld og særlig effektivt i 3. grads forhandlinger. RPPP (Robbing Pete to Pay Paul) er et politisk Underworld Vilje Spill som anvendes i valgløfter og finanspolitikk. EDAB (Ens Død en Annens Brød) er 3 grads Underworld Vilje Spill med dødelige utfall. Som man ser, er det relativt enkelt å definere reelle sosialpsykologiske Spill, når man har fått tak i Bernes Spill-teori. Men i de senere år er det mest omtalte selvdefinerte Spill CdE (Coup d' Etat, eller Kupp). Dette Spillet er så dramatisk og omfattende at bør plasseres som en egen kategori og få en ny og høyere grad.

Berne definerte 3 grader av Spill. Lettere oversatt er de: 1. grad; Spill som er sosialt akseptabelt i spillerens sosiale omkrets og gimmik. 2. grad; Spill som ikke volder permanente eller uopprettelige skader, men som spillere helst vil skjule fra omgivelsene. 3. grad; Spill med permanente resultater som kan ende hos legen, i rettsalen eller i graven. I tillegg er det i ettertiden antydnet en 4. grad av Spill, som har samfunnsmessige permanente og dramatiske konsekvenser, så som i statskupp, revolusjoner og krig. (Se UU 2014.juni.13.) Det selvdefinerte CdE Spill er helt klart av 4. grad. Med ettertanke synes bruk av CdE begrepet så omfattende at det heller er tale om en egen kategori av flere Spill. Når den slags Spill kan omfatte revolusjoner, statskupp, kriger og tilsvarende, sier det seg selv at kan være en særdeles kompleks sammenfletning av flere underliggende Spill av alle grader. CdE er i utgangspunktet et nasjonalt Spill, men kan være lokalt organisatorisk og internasjonalt motivet. CdE kan være trigget fra mangfoldige andre Spill som det klassiske LYAHF, samt ny-definerte DAC&UAC, BGGG, RPPP og EDAB.

5D modellen vil bli spesielt omtalt om 2 UU. Men allikevel er det relevant å gi indikasjoner for å vise hvordan 3x3 Spill teori kan utvides til 4. grads globale Spill. Som nevnt om 5D teorien i UU 2013.april.26, kan en Freuds tri-state modell med Matriark, Myndighet og Patriark, relateres til nasjonale regime-typer som Trone, Stat og Tempel. Disse 3 kan representere xyz-akser i en 3 dimensjonal modell. De kan igjen relateres til 3x3; Drift, Vilje og Tro. 4D kan vise utviklingen med dimensjonen Tid og 5D vil kunne vise alternative Scenarier. Spill kategorien CdE kan spilles mot Trone og Tempel og ikke kun Stat. Eksempelvis kronet Napoleon seg selv med Tempelets Pave som tilskuer etter å ha gjort Statskupp (Coup d' Etat) i sin egen nasjon og senere felte flere Troner ved krig mot europeiske nasjoner. Videre gjennomgikk Napoleon en utvikling fra Statsmann, anti-Tempel keiser til slektskap i flere Troner. Denne kontinentale hendelse er så tydelig Patriarkalsk fundamentert at relasjonen mellom personlig og internasjonal psyko-analyse er utvilsom. Tilsvarende har de tusener av samfunnsledere i menneskehetens historie preget nåtidens regime-kulturer ved '3x3 Tro' i Trone, Stat og Tempel. Dermed kan en med sikkerhet si at 3x3 T.A og Spill-analyse kan anvendes på global-politiske forhold.

Kron-eksemplet på komplekse og omfattende CdE Spill er flere ganger nevnt ved rivaliseringen mellom de 2 siste tsarina forut for ww1. (Se UU 2014.mai.30 og UU 2013.mai.17.) Deres TOL og Jante Spill i Vinterpalasset utviklet seg til en verdensomfattende kjedereaksjon av CdE Spill. Til sammenligning var Napoleon relativt åpen om sine motiver, så mange av hans handlinger passer ikke til definisjonen av Spill, men heller (destruktivt) Arbeid. Andre aktører var mindre åpne om motiver og følgelig antagelig langt større Spill-aktører. En forklaring er at spillere vil ikke bare skjule sine motiver og handlinger, men også skjule seg selv ved å ikke ta fremtredende roller. I alle tilfelle, - de europeiske kriger i de foregående århundre er særdeles viktige hendelser for å forstå 4 grads Spill i CdE kategorien. Derfor, når det er Spill-teoretiske sammenhenger i de tidligere århundres verdenskriger, - så bør det også komme på tale om en 5. grad av Spill som angår menneskeheten som helhet. Dette er særdeles viktig da tilsvarende 5. grads CdE Spill kan bli avgjørende for menneskehetens fremtid med nåtidens teknologi. Men det vil bli nærmere omtalt i siste UU i dette tema 'Livskvalitet Grunnteori' om 5D modellen.

3x3 modellen endrer ikke så mye i forhold til T.A. og Spill. Hovedsakelig handler jo Spill om interaksjoner med bedrageriske behov og gevinster. I utgangspunktet er 3x3 modellen bygget på Freuds 3-state modellen og beholder Freud/Berne konseptet. Hoved-forskjellen ved 3x3 er at de 3 tilstander (D, V og T) har hver fått 3 nivåer (U, B og O). Men allikevel vil det bety langt større variasjoner og nyanseringer av Transaksjoner. Motivene kan nå tydeligere vises fra UnderBevisst nivå for Drift, Vilje og Tro (UD, UV og UT). Videre vil Transaksjonene komme tydeligere fra OverBevisst nivå (OD, OV og OT). Siden alle Transaksjoner i 3x3 modellen skjer via disse, kan det innebære en utvidelse av Transaksjoner fra 1 til 3 tilstander (states), hvor biologisk/fysiske (OD), samt 'kulturelle/åndelige' (OT) transaksjoner er inkludert. Eksempelvis kan OD transaksjoner være motivert av lyster og OT transaksjoner kan være motivert av tvangstanker.

3x3 modellen viser også at Bevissthet kan eksistere i alle de 3 tilstander; BD, BV og BT. Det kan være en uvant tanke, hvilket poengterer nettopp at Bevissthet ikke er begrenset til kun tanker fra Viljen. Følgelig blir en hypotese at sosialpsykologiske Spill kan 'drives' 'bevisst' fra det biologisk Drift og fra det 'åndelige' Tro. Dette trekker dermed hele 3x3 modellen enda et stykke dypere inn i Jungs teorier om menneskets psyke, underbevissthet og åndelighet. Eksempelvis er det en 'bevisst' biologisk motivasjon under alle seksuelle Spill som kan ende ut i forening og formering til menneskehetens gode. Videre er det 'plantet' mengder av 'skal – skal ikke' etikk i oss fra spedbarns alderen som blir 'skjebnesvangert' over-styrende for aktiviteter og passiviteter, tross Viljer og Drifter. Over-logiske psykologer kan følgelig ha problemer med å erkjenne denne variant av det filosofiske dogme; 'jeg er, selv når jeg ikke tenker'.

De fleste definerte Spill synes å ha negativ moral og etikk. Men det er et fokus fra Berne fordi han engasjerte seg mere med klinisk sosialpsykologiske problem enn forebygging og rettledning. Tross alt definerte han også en kategori 'Gode Spill'. Som eksempel nevner Berne gode Spill som; Busman's Holiday, Cavalier, Happy to Help, Homely Sage & They'll Be Glad They Knew Me. Det kan godt være det potensielt er mange flere positive Spill en negative. De kan saktens omtales meget mere fordi mennesker er grunnleggende gode og konstruktive, hvis de ikke selv blir påført overveldende mye negativitet og blir nødt til å avlaste seg selv ved å projisere på andre. For å finne de positive Spill blir man naturligvis nødt til å ta

utgangspunkt i positivitet. Her oppfordres NGO veldedighets-organisasjoner å definere sine positive Spill utfra sin etikk og erfaringer.

Gevinster er målet i ethvert Spill. Faktisk er Spills anti-tese å fjerne gevinsten eller avsløre uærligheten. Men det er ikke hensiktsmessig å stoppe ethvert Spill ved total ærlighet fordi det finnes mengder av positive Spill som bør spilles. Igjen må det appelleres til de positive verdier, moraler og etikker. Dessuten, alle slags Spill kan defineres ved utfallet i å tape eller å vinne. Dermed bør en søke Spill av typen win-win og ikke '0 sum' som egentlig er 'win-loose'. Win-win-loose, som i LYAHF, heller er ikke akseptabelt selv om det er flere vinnere enn tapere. Helt ekstremt av slagsen er Syndebukk Spill DSITDEN (Jante) med 'multi-win - one-loose'. Denslags flertalls-diktatur er ikke akseptabelt ifølge dette århundres globalt juridisk forpliktende Menneskerettigheter. Det viser også at Jung sine kollektive synkroniseringer ikke nødvendigvis er positive eller nødvendige, selv om de har opphav i vår ens UnderBevisste Drift (UD). Ei heller er manier og fobier som er manifestert ved Arketyper, selv om de kan stamme fra vår årtusener gamle kultur-arv. Teologisk sagt er ikke arvesynder positive selv om vi Underbevisst spiller med dem.

Hva bør så fundamentet til positive Spill være? Det vises til tidligere omtale i forrige UU av den forenklete etiske modell GNR (Godt/Nyttig/Rett), den bernske grunnholdning 'I=OK, You=OK', samt positive versjoner av Etikens Gyldne regel (se UU 2013.mars.01). Tilsvarende er spillere advart mot å endevende positiv moral til negativ. Man kan saktens invertere negative Spill til positive. Eksempelvis kan LYAH(Fight) inverteres til LYAH(Create), anti-Jante fra DSITDEN til DSTDEN, NIGYSOB til NIHYSOD (Now I'll Help You, You Son of a Dame). Den positive etikk kan selvfølgelig også tilføres CdE Spill. Dette vil bli nærmere omtalt i den siste UU i dette undertema 'Livskvalitet Grunnteori' som vil handle om 5D modellen og meta-Spill. Men først vil det neste UU handle om LifeQuality, - med ny tilpasset engelsk definisjon av menneskehetens viktigste ord.

Peter Gabriels 'Games Without Frontiers' er fra hans tidlige periode som solo-artist. Det var en hard tid etter splitten fra Genesis som preger musikken, videoer, platecover og opptreden. Dette musikk-stykket var temmelig progressivt for sin tid hvor han tross alt befri seg fra de kunstneriske bånd Genesis kollektivet påla. Dessuten korer selveste Kate Bush med. Sangen 'Dont give up' viser for øvrig et intimt forhold mellom de to, noe som førte til spekulasjoner. Men allikevel, personlig ment, virker det som 'Games Without Frontiers' godt kunne ha fått et par ekstra kvalitets-runder for tekst, komposisjon og instrumentbruk. Faktisk hadde en mindre eksperimentell og mere klassisk Gabriel versjon gjort seg. Teksten i sangen hinner tydelig til barnslige Spill i Voksen-verden med 4. grads konsekvenser. Opprinnelig er tittel og tekst inspirert av en tv-serie på 60-70 tallet om uredelige rivaliseringer mellom byer fra forskjellige land. Teksten 'It's a Knockout' er den engelske tittel på en senere og mere underholdene tv-serie. Det ble avsluttet i 1987 med 'Its a royal knockout', - et stjernespekket show med royale teamledere og berømte kunstnere.

Peter Gabriel - Digging In The Dirt

2014.aug.22

Ukens Utvalgte:

Eric Berne moderniserte Freuds 3-state modell til et familie-terapeutisk språk, og til interpersonlig kommunikasjon. T.A. ble allment forståelig. Men i denne globale informasjonsalder, bør også disse oppgraderes til dette århundres potensialer og fra kaldkrigs celle-kulturer. Dermed vil også denne UU bli en oppsummering, relatering og oppgradering av Bernes teorier.

Kommunikasjonen (Transaksjoner) er kun et middel for interpersonlighet, - så som penger er for vare- og tjeneste-handel. Hovedsaken er derfor ikke selve kommunikasjonen, men hvordan en har det med seg selv, med andre og hvordan en egentlig ønsker det skal bli. Ved å dele enhver kommunikasjon ned i de minste tenkelige transaksjoner kan en lettere fokusere på kjernene i uoverskuelige hav av informasjon. Berne kaller dette Transaksjons Analyse (TA). Det minste 'signal' var inspirert av digitalteknikken og ble definert som 'OK'. Individet ble Jeg (I) og Du/Dere (You). Dermed er den optimale sosiale tilstand 'Jeg er OK, Du/Dere er OK'. Men dessverre, den slags allmenn tilfredshet er lang fra alltid realiteten og åpner følgelig for mange utfordringer.

Som hjelp kan en faktisk dermed supplere T.A. med avansert digitalteknikk som 'sannhetstabeller' og boolean algebra. I UU 2014.aug.01 er det prøvd å utvide Bernes digitaliserte verdisystem og oldtidens komplekse. Det handler om moralfilosofi og etikk. Som nevnt i UU 2013.des.06 baseres sunn sosial-psykologi på at: «De positive grunnholdninger er (som nevnt) 'Du er OK – Jeg er OK'. Den evige Etikdens Gyldne Regel sier, 'du skal gjøre mot andre som du vil de skal mot deg'. Alt dette kan dessverre endevendes ved anti-demokrati, Jantelover og pervertert moralfilosofi for etikk, politikk og teologi.» Videre i UU 2013.mars.01: «Denne etiske feedback-regel er et utmerket eksempel på avansert moralfilosofi. Logisk sett kan man lave 8 varianter av regelen i positiv/negativ og passiv/aktiv modus. Oppsiktsvekkende nok, vil man antagelig gjenkjenne varianter som uønskede realiteter.» Faktisk er noen av de varianter nettopp hva man daglig kan se praktiseres i grimme nyhetssendinger. Det ser ut til at de kollektivt tenkes og realiseres selv om de ikke sies offentlig.

Forenkling av moralfilosofi i barnsk ånd ble beskrevet i UU 2013.mars.01: «Så omsider til den praktiske anvendelse av all denne Moralfilosofi. Man kan godt oppsummere de fleste verdisystemer til å omhandle 3 usammenlignbare verdier; Godt, Nyttig og Rett. Verdien 'Godt' er relatert til personlige følelser, som ikke kan overføres til andre personer. 'Nyttig' er relatert til sosial omsetning som konstruksjoner og handel. 'Rett' er relatert til udiskutable absolutter. Enhver er selv den beste bedømmer av sin egen Moral. Begrepet 'ingen moral' er en illusjon, eller er en unnskyldning for å fremstå nøytralt. Enhver kan verdsette en mening eller en handling i forhold til verdiene; God, Nyttig og Riktig. Så kan man jo antyde relative verdier som; GNr, gNr, gnR osv. Alternativt kan man vurdere de negativt motsvarende verdier; Ondt, Destruktivt og Galt. Videre kan man saktens diskutere sine verdier med andre og endog forhåpentlig bli enige om noe. Det lyder banalt, - men så enkelt kan avansert Moralfilosofi anvendes av enhver. Så skal man bare tenke over det og våge å samtale med andre om det.» En utvidelse av verdi-systemer fra 'OK' til 'God, Nyttig og Rett' kan saktens like fullt anvende digital logikk, så som mere avanserte IT system kan.

Men dessverre, det er langt fra så enkelt som å forstå den elementære logikk for verdier og kommunikasjoner, av den enkle grunn som er forsøkt beskrevet i UU 2013.mars.15: «Mennesker lyver. Hvor mange ganger man lyver daglig er ikke hovedsaken. Det er dog et faktum med konsekvenser man for ofte overser i sosiale, og ikke minst politiske, sammenheng. Der er naturlignok uskyldige fysiologiske årsaker til at hjernen automatisk korrigerer fakta. Dyrs naturlige kamuflasje, avskrekkende opptreden og seksuale ritual indikerer at det er noe fundamentalt naturlig ved noen typer av bedrag. Men mennesket, som 'intelligente dyr', har et langt større spekter av bedrag. En klassifisering teller 28 typer bedrag som; konseptuelle løgner, bløff, nød-løgn, overdrivelse, oppdiktning, halve sannheter, unngåelser, løgn til barn, empatiske løgner, svindel, bevist feilbeskrivelse, høflighets løgner, hvite løgner, m.m. Bedrag kan dermed være av god eller dårlig moral og ikke nødvendigvis etisk forkastelig. Det er dog viktig å ha sitt eget verdisystem i orden, når en forholder seg til sine egne eller andres bedrag. Et helt uskyldig eksempel er at følelsen av ufrihet kan grunne i et selvbedrag om at en kan gjøre urealistiske ting.» Bedrag vil bli omtalt mere inngående i neste UU da det er en hovedingrediens i alle sosialpsykologiske Spill.

3x3 modellen ble presentert i UU 2014.aug.08. Denne 2D modell består av tilstandene Tro, Vilje, Drift, som tilsvarer Freuds 'S-E, Ego og Id' eller 'Bernes Foreldre, Voksen og Barn'. Deres andre dimensjon er nivåene OverBevisst, Bevisst og UnderBevisst. OverBevisst er det utadvendte nivå hvor all interpersonlige holdning vises og Transaksjoner skjer. Dermed gir 3x3 modellen interaktivitet via OT, OV og OD. Disse nivåer er ikke ferdig beskrevet enda, men har foreløpig fått disse nøkkel-ord: OD; {Superior-ID} Sanser, tilhørigheter, empati, avhengighet, kulturelt, sosiale behov. OV; (Parent) Sympati, strategi, moral, visjoner. OT; [Superior-Ego] Tradisjon, ritual, overtro, hypnose. I interpersonlige relasjoner kan flere 3x3 figurer representere de aktuelle personer, hvor relevante OverBevisst og Bevisst nivåer kan overlape hverandre. Rent illustrativt kan en så også tilpasse størrelsen av Tilstandene og overlappinger for å illustrere hvilke tilstand som inter-relaterer og hvor meget. Dette er selvfølgelig ikke noen måltall eller absolutt faktisk fremstilling, men det kan gi fremstillinger om intimitet, dominans, dialog, 'synkronisering', trossfellesskap etc.

På godt norsk kalles Jung sin 'kollektiv synkronitet' for 'flokk mentalitet'. Men Jung ga det en dypere forståelse og beskrev det som 'et uavhengig (sosialt) forbindelses prinsipp', 'en meningsfull tilfeldighet' og 'en uavhengig parallellisme'. Jung mente at prinsippet ga det konkluderende bevis for hans konsept om Arketyper og kollektiv ubevissthet, fordi det beskrev den styrende dynamikk som underbygger hele menneskehetens opplevelser og historie; sosialt, emosjonelt, psykologiske og åndelig. Han gikk så langt som å prøve å relatere teorien til Niels Bohr sin kvantemekanikk uten at det førte til noe særlig. Relatert til Berne, så fokuserer Jung på interpersonlig kommunikasjon og er dermed mest relatert til 3x3 modellens OverBevisst relasjoner. Men opphavet ligger på UnderBevisst og Bevisst nivå. Således inkluderes også kommunikasjoner direkte fra Drift og Tro ved f.eks. kroppsspråk og ritualer. Som en kuriositet kan man godt forestille seg at Isaac Asimov var inspirert av Jung da han skrev bok-serien 'Foundation' om 'Psychohistory'.

Tidligere nevnte hypotese om et Superior-ID, i tillegg til Freuds Superior-Ego, synes sterkt fundamentert ved Jungs hypoteser om kollektiv synkronisering og Arketyper. Som nevnt: «I UU 2014.jan.10 ble egne tanker om et Superior ID (S-I) omtalt. Etter å ha lest mere om Jungs teorier viser det seg ganske så sammenfallende. I forrige UU ble S-I dermed relatert til 3x3 modellen og Drift ved UD, BD og OD. Grunnleggende psykologiske teorier ble omtalt i UU 2013.mars.08 og UU 2013.mars.22. Videre nevnes i forrige UU: «I den sammenheng synes det så tydelig at det forrige århundret har vært særdeles styrt av kollektivt ubevisst synkroniserte 'folkebevegelser'. Det synes som den tids upubliserte bøker fra Jung om temaet allikevel var grundig studert og realisert. De mest åpenbare 'folkeforførelser' i mellomkrigstiden var ved Lenins sosialistiske ideologi (BD/OT) og Gurdjieff okkulte teologi (OD/UT) (UU 2013.april.12).» Jung og Bernes teorier er dermed godt relatert til utvidelsen av ID til Drift med nivåene UD og OD.

Tidligere er T.A. forsøkt å relateres til utvidede sosial forhold som for store organisasjoner, nasjoner, imperier og menneskeheten. Som nevnt i UU 2013.mars.22: «Det eksisterer altså modeller for internasjonal konflikthåndtering som kan forbedre kollektive mentalhelse. Kategorisk og relatert til teorien om 'ego-states', kan samfunns-regimer være; S-E/Formynder, Ego/Organisasjon og Id/Emokrati. I øvrig kan regimer også relateres til: S-E/Tempel, Ego/Stat og Id/Trone. En sunn nasjon vil ha balanse mellom de 3. Følgelig bør man også kunne betrakte hele menneskeheten tilsvarende. Så har de Forenede Nasjoner meget å arbeide med fremover.» Tilsvarende vil relasjoner i 3x3 modellen bli: Tro/Tempel, Vilje/Stat og Drift/Trone. De relaterte begreper virker selvfølgelig noe søkt i forhold til tidligere oppfattelser av ordene. Men som sagt er relasjonene lavet for å assosiere kjente ting for å danne nye 'metafysiske' oppfattelser. Alle tre, Tempel, Stat og Trone har 'tro' i den forstand at de ikke kan vitenskapelig bevise alle sine OverBevisninger. Likeledes kan ikke eventuelle opponenter motbevise OverBevisningen. Begrepet er valgt for å poengtere at selv om en gruppering påstår et dogme er sant, - kan andre oppfatte det som tro eller bedrag. 3x3 modellen er i utgangspunktet objektiv og tar ikke partisk side ved kontroversiell T.A.

'Hypnose fremheves også i 3x3 modellen som interpersonlig kommunikasjon. Det er en OT/OD diktering som kortslutter den hypnotiserte sitt BD, BV og BT for å manipulere UD, UV og UT. Metoden har vært praktisert i tusener av år og dokumenter fra Egypt i 1552 f.Kr. Men kunnskapen er fremdeles nærmest tabu for demokratiet. Dette er særlig alarmerende i forhold til psykokratiet, da utbredelsen av hypnose-taktikker har avgjørende innflytelse på mange av deres klienter. Spesielt alarmerende er utbredelsen av NLP (Neuro-Linguistic Programming) i kvasi-vitenskapelige miljø. NLP og det okkulte Osiris inspirerte Enneagram

praktiseres i sammenheng. Det kan være vanskelig å tro hvor effektivt og enkelt det er for manipulatorer, - inntil man ser noen britiske TV program med Derren Brown. Spesielt anbefales å se videoen under 'How To Convert An Atheist'. Enhver hypnotisør vil naturligvis prøve å fraskrive seg sitt ansvar ved å projisere skyld på den hypnotiserte. Argumentet at hypnotisører ikke gir kommandoer, men kun gir forslag 'suggestions' og at den hypnotiserte egentlig ønsket å utføre handlingen allikevel, - holder ikke moralsk, etisk eller juridisk. Det er oppsiktsvekkende at ingen hypnotisører synes å være rettsforfulgt og straffedømt selv om utbredelsen er omfattende og alvorlig. Resten av verdenen burde informere befolkningen tilsvarende UK ved Derren Brown for å minimere de aller alvorligste 'mentale voldtekter' og de uoversiktlige sosialpsykologiske følgeskader.

Parasitter er en annen oppsiktsvekkende manipulering av UnderBevisst Drift (UD). Det lyder mere fantastisk enn hypnose. Så anbefales det å se TED video under av Ed Yong: 'Suicidal crickets, zombie roaches and other parasite tales'. Den viser at kollektiv synkronitet hos dyr ikke alltid er motivert av interpersonlig sosialisering, men ved organisk infiltrasjon mot deres UD. I mange tilfeller styres det av fysiske parasitter som bruker verter mot sitt eget beste og for til parasittens fortjeneste. Til sist antyder Ed at 1/3 av menneskeheten har parasitt celler i seg som kan være årsak til handlings-avvik. I alle tilfelle, - tilsvarende psykisk aktiviteter for kollektiv fjernstyring av gruppe-synkroniteter er da visselig omstendelig dokumentert i det forrige århundre ved såkalte 'folkebevegelser'.

Teorier om parasitt-aktiviteter kan dermed gi ganske så betenkelige betraktninger i forhold til IT. Velkjent er såkalte data-virus. Mennesker viser sterke avhengigheter til nettet og følgelig alskens IT utstyr. Hvor frustrert blir en ikke når nettet er utilgjengelig for mobiltelefon, PC og TV? Det er selvfølgelig helt naturlig sett i forhold til Jungs teorier om sosiale avhengigheter. Men det kan dermed være forhold utover simple datavirus som manipulerer informasjonen. Ukritisk bruk kan føre til manipulasjoner av personer tilsvarende hypnosetilstander og parasitt-aktiviteter, - at en endrer adferd Ubevisst mot egen Vilje. Videre er biologiske IT implantater høyst uvanlig – foreløpig. Men mennesker har store tendenser til å selvmedisinere seg med psykotiske stoffer for å alternere sin UnderBevissthet. Det er godt mulig at 'hypnotiserende' 'parasitter' blir frivillig brukt hvis man får muligheten til det. IT ordbøker burde inkludere et nytt begrep 'data-parasitt' i tillegg til 'data-virus'.

Peter Gabriel sin video 'Digging in the Dirt' er ikke særlig hyggelig. Det viser dessverre tendenser til mørkere sider av interpersonligheter. I tekst og video vises dog en anger og ønske om hjelp mot ens egen Drift ved UD, UV og UT mørke sider. Det kan overstyre ens Bevisste Vilje og Tro. Det åpnes dermed for neste UU som vil handle om sosialpsykologiske Spill.

Peter Gabriel – Secret World

2014.aug.15

Ukens Utvalgte:

Det blir nødvendig å omtale Jung så vel som Freud for å tilpasse 3x3 modellen, - for deres teorier er supplerende og ikke ekskluderende. Jung sine teorier om det UnderBevisste er særlig relatert til ID og følgelig 3x3 Drift. Dermed har vår biologi langt større betydning for sosialpsykologien enn den 100 årig

freudianske psykoanalyse tilsier. I denne UU gjøres et forsøk på oppsummering, relatering og oppgradering av Jungs teorier.

Sigmund Freud kalte Carl Gustav Jung «sin adopterte eldste sønn, sin kronprins og etterkommer». Men som så ofte går en innovativ mentee i andre retninger enn sin mentor. Tross deres grunnleggende enigheter, tok Jung betydelig avstand. Den største uenighet stammer fra deres forskjellige konsept for det ubevisste. Jung anså Freuds teori som ufullstendig, unødvendig negativ, og at undertrykte følelser og lyster ble avvist som irrelevante avvik. Holdningen kan skyldes den tids victorianske tabu. Jung var enig med Freud sin modell om det ubevisste, som Jung kalte 'det personlig ubevisste'. Men han omtaler også en langt dypere type, - den kollektive ubevissthet. Her holder Jungs skulte 'Arketyper' til, som kan komme til uttrykk i drømmer, symboler og mytologier. Faktisk nevnte Freud også et kollektivt nivå av fysisk funksjonalitet, men anså det som utenfor psyken. Tross uenigheter, kan man ikke skape en helhetlige forståelse av psykoanalysen uten å inkludere både Freud og Jung.

Jung var mere opptatt av ID og Superior-Ego. (De kalles Drift og Tro i 3x3 modellen). Jung utviklet 4 teoretiske hovedområder: (1) Konsept for innadvendte og utadvendte personligheter, som ble et fundament for MBTI. (2) Det komplekse ubevisst kjernemønster av følelser, minner, persepsjoner og ønsker. (3) Konseptet for den kollektive ubevissthet som deles av alle mennesker og inkluderer Arketyper. (4) Synkronitet for interpersonlige relasjoner på UnderBevisst nivå. Man kan si at Jung tok ordet psykologi mere seriøst enn Freud da det faktisk betyr noe som 'lære om sjelen'. Jung ble selv overbevisst at livet har en åndelig hensikt utover materielle mål. Følgelig har Jung influert fag som psykologi, fysiologi, teologi, filosofi, arkeologi og antropologi. Han var en fremragende forfatter, men mange verker ble publisert etter hans død.

Det er godt mulig å relatere Jung sine teorier til den oppgraderte 3x3 ego-state modell. Se forrige UU. Jung sine 'hovedområdene' relateres til 3x3 som; (1) Innadvendte (BV), utadvendt (OV); (2) kompleks mønster (BD); (3) Arketyper (UD) og (4) Synkronitet (OD). Jung sine teorier om åndelighet/psyke relateres til 3x3 nivået 'Tro' hvor; åndelighet/psyke - UT, religiøs bevissthet - BT og rituelle kollektive uttrykk - OT. 3x3 modellen passer også godt med Jungs teorier om underbevissthet (UD, UV og UT), samt kollektivitet og synkronitet (OD, OV og OT). Individuell bevissthet hører mere til Freud ved (BD, BV og BT).

Meyer og Briggs videreutviklet Jungs Type Indikatorer til MBTI. Det er omtalt i UU 2013.mars.08 og UU 2013.mars.15. Hensikten er å få et overblikk over mennesketypers forskjeller og likheter. 'Dimensjoner' av Typer er den 'Tenkende-Følende' (T-F), den 'Sansende-Intuitive' (S-N), 'Utadvendt-Innadvendt' (E-I) og 'Dømmende-Perseptiv' (J-P). Disse 4 dimensjoner kan gi 16 mulige kombinasjoner og dermed 16 forskjellige Typer av personligheter. Når så gjøres, bør også merke seg de tydelige advarsler om at ingen av disse 'Stereotyper' er bedre enn andre, at mennesker er ikke så kategoriske og statiske som kartlegginger kan indikere, at virkelige personligheter er langt mere varierte enn disse stereotyper, samt at personer utvikler seg og kan endre sine MBTI. Det finnes mengder av sosiale miljøer på internettet som engasjerer seg i dette. Det er rett interessant og fornøytelig å se videoer om MBTI og TypeTalk på Youtube.

De 16 Typer er gitt navn av David W. Keirsey, som dessverre er for sterkt relatert til forretningsverdenen. Men de gir en pekepinn. Kort oppsummert er de relasjoner: ISTJ = Inspector, ISFJ = Protector INFJ = Counselor, INTJ = Mastermind, ISTP = Crafter, ISFP = Composer, INFP = Healer, INTP = Architect, ESTP = Promoter, ESFP = Performer, ENFP = Champion, ENTP = Inventor, ESTJ = Supervisor, ESFJ = Provider, ENFJ = Teacher og ENTJ = Fieldmarshal. Men igjen, - man skal være særlig forsiktig med å 'putte mennesker i bås'. Dessuten, - en naturlig født type bør ikke tvinges igjennom skoler og jobb som noe en ikke er og aldri blir. Det fører kun dårlig livskvalitet, dårlig profesjon og dårlige sosiale forhold. Dette burde gi et tydelig signal om at 10 år sosialisering i standardiserte folkeskoler og yrkesmessig byråkratisering er galt og hører ikke hjemme i dette århundre, - selv om det ble det stats-dominerende kaldkrigs konseptet.

Som nevnt kan MBTI og TA modellene kombineres. Dermed får man en sammenhengende modell for personligheter og kommunikasjon basert på både Freud og Jung. Dette er særdeles anvendelig da psykologer ofte synes uforenlige og tildels selvmotsigende. Som nevnt i forrige UU ligger selve nøkkelen i

Bernes modifiserte oppdeling av Foreldre (S-E) i Mor, (Formynder) og Far, - samt Barn i 'Sulk, Nerd og Jerk'. Disse kategorier kan relateres til MBTI (indikatorer) som for eksempel hvis: Person1 = INFJ; Parent(Fe), Adult(Ni), Child(Ti). Person2=ENTP; Parent(Ti), Adult(Ne), Child(Fe). De to personer vil ha en ikke-Voksen dialog fordi Person1 sitt S-E vil appellere til Person2 sitt ID ved Fe (Følelser), mens Person2 sitt S-E vil appellere til Person1 ved sitt ID Ti (Thinking/logikk).

I en oppgradert 3x3 modellen foregår all dialogen på OverBevisst nivå fra Drift, Vilje eller Tro. Men Person1 prøver å påvirke fra sine Bevisst/Drift (BD) i en (følsom) OD-OD dialog. Person2 responderer fra sitt Bevisst/Viten (BV) og prøver en (logisk) OV-OV dialog. Resultatet blir en kryssdialog OD-OV hvor overfølsomme uttrykk og kald logisk argumentasjon heller skaper frustrasjon og splitt enn forståelse og samvær. Ifølge Berne(Freud) sin T.A. bør personene prøve å kommunisere sammen på Adult-Adult (Ego-Ego) nivå. Men i 3x3 modellen åpnes det for positive kommunikasjoner på alle 3 tilstander; Drift, Vilje og Tro, - via OverBevisst nivå. Man kan med andre ord like godt bli ens ved følelser eller tro, som ved viten. Et diplomatisk kompromiss vil være å først enes ved følelser og deretter enes ved viten. 3x3 modellen er dermed ikke bundet til Bernes populariserte familie-begreper som kan virke nedlatende, ved at følelser oppfattes som 'barnlige' og myndighet som 'veslevoksente'. I 3x3 anerkjennes det at alle har alltid indre følelser, samt tro om det man ikke kan vite. Kort sagt, interpersonlige relasjoner kan fungere vel så positivt ved følelser og ritualer, som ved dialog.

I alle tilfelle gir Freud/Jung relasjoner muligheter til å fri personer og organisasjoner fra det okkulte pseudo-vitenskapelige Enneagram. MBTI er langt mere profesjonell enn det en-dimensjonale og statiske Enneagram. «Man kan gå veien via Belbin's forsøk på å gi Enneagrammet 2 dimensjoner og videre ta spranget til MBTI. Felles dimensjon for dem er 'Innadvendt-Utadvendt'. Men det vil være best å springe det hele over og ta direkte tak i MBTI og TA modellene.» Se UU 2013.mars.08 og kritikk i UU 2012.12.21. Dette er faktisk særlig viktig da uprofesjonelle 'psykologer' kombinerer Enneagrammet med NLP (Neuro Linguistic Programming), som i praksis er sterkt kritiserte pseudo-vitenskapelig hypnose-taktikk.

Kroppsspråk er følgelig mere relevant for TA med relasjon til Jung. Det finnes flere former for nonverbal kommunikasjon, hvor fysiske handlinger kan gi hint om intensjoner, følelser og sinnstilstander ved holdninger, handlinger, ansiktsuttrykk, øyebevegelser, aggresjon, oppmerksomhet, kjedsommelighet, avslappethet, glede, fornøyelighet og beruselse. Kroppsspråk kan variere i forskjellige kulturer og har universelt anerkjente handlinger, men det kan også være sosial influert og innlært. Siden kroppsspråk kan avsløre mye om følelser og meninger brukes det aktivt innen en rekke profesjoner og er viktig for å finne samlivs partnere, for familiesamvær og barnepleie. Kroppsspåklige signaler gis på bevisst og ubevisst nivå. Men dets sannhets-verdi er nedtonet fordi man kan lære å bedra med non-verbale uttrykk så vel som med verbale løgner. Løgnedetektorer kan bedras. Videre inndeles Interpersonlig nonverbal kommunikasjon i komfort soner som offentlig 3-7m, sosial 1-3m, personlig 1m og intim. Noe tilsvarende kan relateres for 3x3 OverBevisst nivå for offentlig og sosial sone, Bevisst til personlig sone og UnderBevisst til intimt sone.

Freudiansk psykoanalyse er preget av fundamentale mangler da vesentlig ID og S-E informasjon blir ignorert. Den biologiske og mentale interpersonlige (UnderBevisst) signalering er langt mere omfattende enn de interpersonlige (OverBevisst) signaler andre kan oppfatte. Analyse basert på informasjonsmangel gir selvfølgelig mangelfull diagnose og behandling, - og i tilfeller feildiagnose og feilbehandling. Jung nevner som eksempel at en IN person har et betydelig UnderBevisst indre liv og relaterer ofte til sine Arketyper, - noe som er særlig besværlig for psykologer å oppfatte. Videre har ikke en brilliant psykolog med autistiske tendenser forutsetning til å forstå kjærlighet selv om det er avgjørende for alle normale menneskers reaksjoner, prioriteringer, uttrykk og handlinger. Matriarkalske psykologers diagnose av gutter i puberteten kan også gå galt, da de selv ikke har y-kromosomer og er følgelig ignorante om den maskuline UnderBevisste Drift og dets transformasjon fra gutt til mann. Videre ble det også antydnet i forrige UU at 'kjønn' kunne være en tredje dimensjon til 3x3 modellen, men det blir liggende inntil videre. I alle tilfelle, - selvfølgelig påvirker biologien alle menneskers psyke avgjørende.

Logisk sett kan betydningen av lukter, musikk og symboler bli behandlet som irrelevante. Det virker som freudianske psykologer har skubbet bort hele denne dimensjon i ren frustrasjon over egen utilstrekkelighet.

Men for klienter eksisterer selvfølgelig denne virkelighet også. Det handler om menneskers mest intime og hemmelige liv med Spill som er uvedkomment for fremmede. Reaksjoner på blomster, sjokolade og poesi kan oppfattes som uforklarlig, nevrotisk og psykotisk av en aseksuell person, - tross viten om sanser og biologiske relasjoner ved kjønnshormoner. Tilsvarende kan misoppfattes når en egentlig prøver å forsørge sine barn, stille egen sult, redde sitt eget liv, samt ved forsvar og angrep. Når man så vet hvor avansert og ubehøvlet naturen er, så kan en også se at menneskers Drift har tatt meget fra dyre-verdenen angående rov, bytte, jakt, kamuflasje, taktikker, paralysering, forgiftning, snylting, bedrag etc. Dessuten, som om virkeligheten ikke var komplisert nok; - man vet godt at vår hjerne er programmert til å fordreie virkeligheter for å logisk tilpasse oppfattelser, - som ved synsbedrag. Men selv kroppen kan bedra ved det biologiske nervesystem, som ved fantom-smerter, kroniske smerter og CBS.

I UU 2014.jan.10 ble egne tanker om et Superior ID (S-I) omtalt. Etter å ha lest mere om Jungs teorier viser det seg ganske så sammenfallende. I forrige UU ble S-I dermed relatert til 3x3 modellen og Drift ved UD, BD og OD. Grunnleggende psykologiske teorier ble omtalt i UU 2013.mars.08 og UU 2013.mars.22: «I undertemaet 'Livskvalitet og Imperier' ble begrepet Superior-Ego (S-E) særlig viktig for å forklare de kollektive 'Overbevisstheter'. Men tilsvarende ID-relaterte kollektive 'Underbevisste' instinkter synes å mangle i Freud/Berne sin sosialpsykologi. Det ble flere ganger antydnet eksistensen av Superior-ID (S-I). S-I svarer til de kollektive instinkter for Voksne Mennesker. Det er sterkt følelsesstyrt ved hjerte og nerver, ufornuftig og blottet for S-E hemninger. S-I stammer fra primitive stadier i menneskets utviklingen og er livskraften, overlevelsesviljen og endog kjærlighet og hat. Det er 'dyret i oss', styrt av 'øglehjernen' og kollektivt beskrevet som 'bestet' og 'monsteret'. Den slags begrep om mennesket er brukt i samfunnsdebatter og er ikke funnet på her i UU.» «Som nevnt, - hvis man skal fokusere Superior-ID til et grunnleggende allment begrep er det Menneskehetens 'Livskraft'. Denne kollektive Livskraft består av hvert eneste enkelt-mennesket sin personlige Livskraft.» Et sitat fra filmen 'Jurassic Park' synes evig sant: «Life will find a way».

Videre ble Superior-ID først nevnt i UU 2013.Mai.24 og UU 2013.juli.05, men på nivå for 'Overbevisst Drift': «Det er sannsynligvis en overordnet sammenheng i utviklingen fra Roma1 til 3. Roma3 sitt 'Oprichnina', det hemmelige Statspoliti, er en nøkkelindikator. Tilsvarende organisasjon fantes i Roma1 også, - da kalt 'Praetor Guard'. Begrepet finnes også i sammenheng med Roma2, men da betydelig videreutviklet. Praetor i Roma2 var keiserens 'første minister'. Roma2 delte imperiet i 4 hovedregioner med hver sin praetor.» I den sammenheng synes det så tydelig at det forrige århundret har vært særdeles styrt av kollektivt ubevisst synkroniserte 'folkebevegelser'. Det synes som den tids upubliserte bøker fra Jung om temaet allikevel var grundig studert og realisert. De mest åpenbare 'folkeforførelser' i mellomkrigstiden var ved Lenins sosialistiske ideologi (BD/OT) og Gurdjieff okkulte teologi (OD/UT) (UU 2013.april.12).

Selv om 'Jungiansk' kunnskap antagelig er så gammel som sivilisasjonene selv, har denslags psykokratisk misbruk nå blitt global og angår alle. Som nevnt i UU 2014.jan.10: «Målsettingen for Siviliserte Demokratier sin kollektive mental-helse er dermed å fri enhver Statsborger fra S-E/S-I Trelldom. Grunnen er selvfølgelig at dette er forutsetningen for sunn mentalhelse for Menneskeheten - og at den består av alle enkelt-Mennesker tilsammen.» (I 3x3 modellen vil det hete OT/OD Trelldom.)

Peter Gabriel fortsetter med musikalske bidrag til dette tilleggs-tema for å oppgradere Freud og Jungs modeller. Til Jungs Drift orienterte teorier passer denne live-fremførelse av 'Secret World'. Peter er antagelig en IN (Inadvendt iNtuitiv) Type som har lært den harde vei å opptre ES (Utadvendt Sensitiv). Resultatet er at han ved musikk, poesi og symboler klarer å uttrykke sitt Intime UnderBevisste Drift ved kollektiv synkronisering i en konserthall. Noe veldig riktig må det være, siden så mange mennesker reiser så langt, betaler så meget og uttrykker sine begeistringene så intenst. Han henter frem noen Arketyper hos de fleste, fra deres hemmelige verden i UnderBevisst Drift. Det deles Intimt ved Bevisst Drift ved kollektiv synkronisering via hans personlige og deres kollektive OverBevisst Drift. Man kan jo sjekke med seg selv når man ser denne fremførelsen.

Peter Gabriel - Signal to Noise

2014.aug.08

Ukens Utvalgte:

Så blir det en måneds tenkepause. Det er nødvendig å oppgradere de sosialpsykologiske modeller til kommende utvidelser av teamets omfang. Først ut er en oppgradering av Freuds 3-stat modell. Den er opprinnelig lavet for enkelt-personer og ikke sosiale inter-relasjoner som for organisasjoner, nasjoner eller menneskeheten som helhet. I de etterfølgende UU oppgraderes også modeller for sosialpsykologiske Spill-teorier, den politiske 5D modellen og definisjonen av LifeQuality, - på engelsk. Dette blir følgelig en avhopper fra temaet 1514-2014 til temaet Livskvalitet Grunnteori.

I tema om Livskvalitet Grunnteori blir klassisk psykologi av Freud og Jung beskrevet generelt (UU 2013.mars.08). Videre blir forklaringer på de moderne versjoner av Eric Berne og Meyer-Briggs omtalt. Til sammen gir det en rimelig almen forståelig fremstilling av elementær psykologi og sosiale relasjoner. Transaksjons-Analysen (TA) hjelper med å forstå hva som virkelig uttrykkes, selv om ord og handlinger kan være misvisende og uforståelige (UU 2013.mars.15).

Som nevnt i MSc Thesis for 20 år siden, ble disse modeller noe modifisert, fordi oppstilling S-E/Ego/Id ikke gir et helhetlig integrert bilde (UU 2013.feb.01). Tri-stat modellen viser heller ikke at det kan være relasjoner mellom S-E og Id, - hvilket er åpenbart galt. Derfor ble de 3 tilstander heller fremstilt som 3 integrerte sirkler i en 'tre-kant' med dels overlapping. Modellen relateres også til 3-tilstands modellen for etiske verdssystemer som kan være; Godt, Nyttig og Rett. Videre relateres modellen til organisatorisk nivå som: S-E/Tempel, Ego/Stat og Id/Trone (UU 2013.mars.22).

Senere er det flere ganger antydnet at Freud sin 3-stat modellen ikke er tilstrekkelig til å forklare kollektive sammenhenger. Heller ikke Bernes utvidelser med interaktiv 3-stat og T.A. er tilstrekkelig for større sosiale sammenheng. Dessuten indikerer tilstanden Superior-Ego at det finnes ekstra-personale innflytelser. Modellen er simpelthen ikke konsistent med den ekstra-personlige faktor i stedet for en tredje intra-personlige tilstand. På den annen side gir S-E en indikasjon på at det burde være 3 intra-personlige faktorer som også har ekstra-personlige sammenheng. Dessuten, - hvis både Ego og Id er fundamentale intra-personlige faktorer burde også Id ha et eksternt 'superior' faktor. Dermed har et 'Superior-Id' (S-I) blitt nevnt og endog analysert omstendelige i flere anledninger. S-I ble omtalt spesielt i UU 2014.jan.10.

Med en eller to 'superior' tilstander antydes det at hver 3-stat har minst 2 nivåer. Med utdanning innen logikk, anvendes dermed modeller for 'sannhetstabeller' og hoppes direkte til en inndeling av hver 3-stat i 3 nivåer. 3-state modellen går dermed over fra å være 1-dimensjonal til 2D. På freudiansk latin ville de hete super, norm, sub. Med bernsk fokus på familie-terapi og alminneliggjøring vil de på norsk kalles; OverBevisst, Bevisst og UnderBevisst. Superior-Id må dermed få en 'normal' betegnelse som tilsvarer 'autoritet'. Men siden det nå dekkes av dimensjonen Bevisst, velges det å gi de tidligere S-E/Parent, Ego/Adult, Id/Child, nye betegnelser for egenskapene; Tro, Vilje og Drift. Dermed vil tidligere betegnelser erstattes således: S-E=OT, Parent=OV, S-I=OD, Ego=Voksen=BV, Child=UV og ID=UD.

3x3-stat modellen gir følgelig 9 tilstander som er; (UD) Underbevisst/Drift, (BD) Bevisst/Drift, (OD) Overbevisst/Drift, (UV) Underbevisst/Vilje, (BV) Bevisst/Vilje, (OV) Overbevisst/Vilje, (UT)

Underbevisst/Tro, (BT) Bevisst/Tro og (OT) Overbevisst/Tro. Disse relaterer seg til Freud og Berne sine tilstander som vist i tabellen under. Parentesene markerer: [Freud] i firkant. (Berne) i buet og {S-I} i hake. Freuds tilstander sprer seg diagonalt fra underbevisst til overbevisst, mens Berne fokuserer på bevissthet.

Bevissthet/Tilstand	(D) Drift	(V) Vilje	(T) Tro
(O) OverBevisst	{Superior-Id}	(Parent)	[Superior-Ego]
(B) Bevisst		[Ego] (Adult)	
(U) UnderBevisst	[ID]	(Child)	

Hver av disse 9 tilstander har egenskaper som foreløpig ikke er presist definerte. Men de 9 Tilstander kan antydes med følgende nøkkelord for egenskaper.

#	Ts	Tilstand	Egenskaper
1	UD	Underbevisst/Drift	[ID] Livskraften, biologi, DNA, nerver, kjønn, følelser, instinkt, drømmer
2	BD	Bevisst/Drift	Preferanse, glede, sinne, biologiske seleksjoner for primærbehov
3	OD	Overbevisst/Drift	{S-I} Sanser, tilhørigheter, empati, avhengighet, kulturelt, sosiale behov
4	UV	Underbevisst/Vilje	(C) Ideer, vaner, mani, fobi, autisme, person-spaltning
5	BV	Bevisst/ Vilje	[Ego] (A) Tanker, fornuft, logikk, selvrealisering, persepsjon
6	OV	Overbevisst/ Vilje	(P) Sympati, strategi, moral, visjoner
7	UT	Underbevisst/Tro	Intuisjon, tvangstanker, ritual, psykose
8	BT	Bevisst/Tro	Filosofi, religion, politikk, etikk
9	OT	Overbevisst/Tro	[S-E] Tradisjon, ritual, overtro, hypnose

1. UD; [ID] Livskraften, biologi, DNA, nerver, kjønn, følelser, instinkt, drømmer
2. BD; Preferanse, glede, sinne, biologiske seleksjoner for primærbehov
3. OD; {S-I} Sanser, tilhørigheter, empati, avhengighet, kulturelt, sosiale behov
4. UV; (C) Ideer, vaner, mani, fobi, autisme, person-spaltning
5. BV; [Ego] (A) Tanker, fornuft, logikk, selvrealisering, persepsjon
6. OV; (P) Sympati, strategi, moral, visjoner
7. UT; Intuisjon, tvangstanker, ritual, psykose
8. BT; Filosofi, religion, politikk, etikk
9. OT; [S-E] Tradisjon, ritual, overtro, hypnose

Oppgraderingen av den psykologiske 3-tilstands modell fra intrapersonlig til interpersonlig krever naturlignok noen modifiseringer. Men disse innovasjoner er langt fra ferdig tilpasset enda. Det vil ta lang tid med flere endringer ettersom omfanget utvikles. Dessuten vil det gi mange uforutsette forhold som må tilpasses etterhvert. Her er noen umiddelbare tanker om den oppgraderte versjon.

- Seksualitet er en særlig sterkt faktor både i Freuds psykoanalyse og Bernes Spill-analyse. Seksualitet fremheves spesielt i Id/Drift (UD), men blir i kjønnsmoden alder spesielt BD. Siden seksualitet er interpersonlig, blir OD særlig sterkt i perioder og påvirker både ens egne og andres Vilje og Tro via OV og OT. Det er dessuten store genetiske forskjeller mellom menn og kvinner ved forskjellige, men gjensidige tiltrekkende kjønns hormoner. Dessuten har kun menn Y-kromosomer, som ytterligere poengterer at kjønn er en avgjørende forskjellige på mange måter. Kanskje bør det behandles som en tredje dimensjon i en 3x3x3 Tilstands modell.
- En logisk kuriositet ved 'sannhetstabeller' tilsier at det kan finnes 4 kjønns-variasjon selvom det finnes 2 kjønn. De er intetkjønn (før og etter kjønnsmoden alder), hankjønn, hunkjønn og tvekjønn. Disse mindre omtalte kjønnslike variasjoner kan ha langt større psykososiale innvirkninger enn omtalt. Puberteten er som kjent dramatisk Spill-drivende, men overgangsalderen er antagelig lang mere tilsvarende influerende. Videre ble globale Spill om 'Kjønnskamp' særlig fremmet i den kalde krigs siste krampetreknings. Det hadde betydelige politiske 5D konsekvenser for verdenspolitikken.
- Psykoanalysen har satt en overdreven tillitt til 'Ego' og nærmest fremstiller det som ideal tilstanden for mental sunnhet. Dermed begår 'vitenskapen' en kardinalfeil mot forhold ved S-E og Id. Grunnen er selvfølgelig at psykologiens patriarker Freud og Berne var noen 'Nerds' med overdreven tillitt til egen person og forstand. Så bør man ikke helt glemme at autisme hører til UV og kan være styrende for den slags tilstander.

- Man vet godt at vår hjerne er programmert til å fordreie virkeligheter, - angivelig for å logisk tilpasse seg bedre. Det er så normalt at ethvert menneske er bedragerisk av natur og lyver daglig (UU 2013.mars.15). Men igjen, hovedpoenget her er å fremme sunnhet ved større grad å finne balanser i anvendelse av modellene som balanse i praksis for personer, organisasjoner og nasjoner.
- Begrepet 'Tro' er kanskje ikke den beste erstatning for Superior-Ego/Foreldre i 3x3 modellen. Men for å finne et felles begrep til S-E, S-Id, samt et ukjent Myndighets-begrep, har tanker om kulturell, vitenskapelig og teologisk 'Tro' blitt gjeldende. Det overtar begrepet for de dominerende 'regler' man holder seg til for personlig og sosial eksistens. Det kan være relatert til kulturen (Id), fornuften (Ego) og omverdenen (Superior). Begrepet Tro er en virkelighetsoppfattelse som antas å være 50% realistisk. Tro ligger midt imellom 'viten og håp'.

Den inter-relaterte 3-state modell gir anledning til å uttrykke og analysere forhold matematisk ved mengdelære. Man skal selvfølgelig være særdeles varsom mot å overdrive 'nerdy' matematiske konklusjoner. Allikevel kan for eksempel følgende uttrykkes: Psykotisk; OT > BV U BD. Nevrotisk; UD > OD U VD. Hypnotisk; OT > BT. (UU 2013.april.12). I alle tilfelle gjøres betydelige kartlegginger av personlige og sosial tilstander. Forhåpentligvis kan feildiagnoser og feilbehandlinger reduseres betydelig ved å holde seg til elementær matematisk logikk også.

Disse 3x3 tilstander kan være overlappende som S-E, Ego og Id kan. Men siden de nå har 3 nivåer hver kan overlappinger bli mere nyanserte. En person kan ha OT (Overbevisst Tro) som overlapper BV (Bevisst Vilje), mens en annen person kan ha BT (Bevisst Tro) som overlapper BD (Bevisst Drift).

3-stat modellen er oppgradert for å bedre relateres til andre modeller også. Det er en utfordrende innovasjon som behøver tid til kvalitative modifiseringer. I forhold til Bernes TA (Transaksjons Analyse) og Freuds psykoanalyse (UU 2013mars.29) burde det være så godt som ferdig, fordi fundamentet er bevart. Nivået OverBevisst har den interpersonale relasjoner. Således kan Tro, Vilje og Drift utføre Transaksjoner som kan Analyseres, via nivået OverBevisst. Via det nivå kan også Transaksjoner komme fra Bevisst og UnderBevisst. Eksempelvis kan høyst interpersonale følelser komme til uttrykk via OD, men ikke via OV eller OT. Videre kan visjoner formidles fra UV via OV til andre personers OV med tale og skrift. Ideologiske, teologiske eller kulturell etikk videreformidles massivt via kollektive OT. Alle disse Transaksjoner kan analyseres ved Bernes TA og anvendes videre til hans sosialpsykologiske Spill Analyser.

Relasjonen til Jung og MBTI er særlig utfordrende. Men relasjonen 3x3 stat er viktig da det til sammen skaper en helhetlig modell og ikke adskilt på disse to tilsynelatende rivaler. En sammenheng er allikevel beskrevet i UU 2013.mars.08. Selve nøkkelen ligger dermed i Bernes modifiserte oppdeling av Foreldre (S-E) i Mor, (Formynder), Far, - samt Barn i 'Sulk, Nerd, Jerk'. Disse kategorier kan relateres til MBTI (indikatorer)

som for eksempel: INFJ; Parent/Fe, Adult(Ni) og Child(Ti) og ENTP; Parent(Ti), Adult(Ne) og Child(Fe). Freud og Jung sine modeller har så absolutt relasjoner som også kan oppgraderes til meta-nivå.

Peter Gabriel er valgt til de musikalske bidrag til dette tilleggs-tema for å oppgradere Freud og Jungs modeller. Han er ofte brukt her i UU og særlig i relasjon til sosialpsykologiske tema. Noen ytterligere og gjentagende presentasjon er derfor unødvendig. Det vises heller til de tidligere UU med ham. Denne fremførselen på konserten 'Growing Up' med stykket 'Signal to Noise' er det avsluttende budskap til den formidable konsert. Om man vil trene seg på disse oppgraderinger av sosialpsykologiske teorier og 3x3 modellen, kan man godt teste seg på denne konsert-opplevelsen. Transaksjonene fra konserten gir mengder av inntrykk på OverBevisst nivå for Drift, Vilje og Tro. Så kan man finne ut hvordan det aktiverer ens personlige Bevisst nivå for Drift, Vilje og Tro, samt hvordan ens UnderBevissthet også engasjeres for Drift, Vilje og Tro. Det kan være jazz-foten svinger i takt og man får visjoner. Det kan endog være at en selv sender ut noen Overbevisst Transaksjoner fra Drift, Vilje og Tro.

Fallulah - Out Of It (2)

2014.aug.01

Ukens Utvalgte:

Den danske TV-serie 'Lykke' synes amputert. Den stjernespekkede 'depresjonskomedie' om dansk sosialrealisme aktualiserte sosialpolitikk med mesterlig humor. Serien avsluttet med flere anti-klimaks fordi 2 episoder manglet, - tilsynelatende. Dermed ble ikke historiens tråder samlet og konkludert. Serien handlet om viktige tema som sosialpolitikk, overdrevet medisiner, organisert kriminalitet og andre hverdagslige livskvalitative forhold. Mange påstartede verdi-historier endte ut i det tomme rom og ble hengende som ubehandlet.

Sesong 1 hadde 10 episoder, men sesong 2 fikk kun 8. Den siste publiserte episode fylte kun noen huller og samlet noen tråder om det episode 18, 19 og 20 kunne ha vært. Det synes som krav til omskriving og forhånds-sensur ble så omfattende at episodene ikke var realiserbare. I alle tilfelle, nettopp den slags 'blanke ark' er jo en gave til enhver som ønsker å bruke sitt kreative engagement på å fortsette og konkludere disse viktige tema. Langt bedre grunnlag enn et mesterverk som 'Lykke' kan knapt ønskes. Men som Fallulah sin kjenningsvideo 'Out Of It' har en dunkel original video, vil denne UU heller baseres på det modus.

Den offisielle presentasjon av 'Lykke' er: «Serien handler om de 25-årige tvillinger, Lykke og Thomas, der i første del af serien har mistet begge deres forældre. Den ene forsøger at finde lykken gennem karrieren og den anden gennem kærligheden. Her viser det sig, at forældrene ikke er døde, men har arbejdet som plastikkirurger i Mellemøsten.» Lykke klatrer hurtig opp i et dansk medisinal-firma Sanafortis. Hun blir kynisk og vil fremme deres anti-depressive piller for enhver pris. Problematisk blir den gjensidige benektete kjærlighet til dr. Assing. Han er sterkt kritisk til lykke-pillene og særlig til butikk-salg av dem. Lykkes foreldre hadde en fortid i Blekingegadebanden (RAF-dk, se UU 2014.juni.13) og blir avslørt av en tidligere RAF-kollega, bosatt i byens koloni-have. Claus, en revisor, forelsker seg blindt i en ukrainsk aupair og får problemer med ekteskapet og pikens mafia-familie. For øvrig flippet direktøren totalt over som okkult shaman, men viser et kompromiss i avslutning. Men som nevnt, det må ha skjedd dramatiske ting som synes helt fjernet fra manus og 2 episoder. Hermed følger noe forslag:

Situasjonen i Danmark er at piller mot smerte og allergi selges i ordinære butikker, kiosker og bensinstasjoner, sammen med alkohol med 16 års grense. Filmens alvorlige tema handler om hva som kan

skje hvis sterke medisiner som anti-depressive lykke-piller også blir reseptfritt 'håndkjøp'. Hovedsakelig synes moralen i manus å være for naturlig livskvalitet, samt å stå imot den dominerende industri, politikk, organisert kriminalitet og enkelte konsumentgrupper. Videre er København, som antydnet i forrige UU, et sentralisert metropol med mange gamle miljøer og tradisjoner som kan være spesielle. Særlig er tradisjonelle og dels skjulte bindinger til Russland og 'nova-russiske' elementer som RAF-dk (Blekingegadebanden) med 'øst-europeisk' mafia. Alt kan influere 'nordisk' medisin-industri.

I tv-serien bygges desperasjoner opp til episode 18, - spesielt hos Claus, RAF-agenten og markedsfører Flemming. Claus har erfart lykkepillenes bi-effekter som manisk-depressivt, euforisk og dels psykotisk. RAF-agenten sverger hevn etter dårlig behandling av Lykkes foreldre. Lykke og Flemming behøver suksess for å beholde karrieren. Assing er fremdeles imot godkjennelsen for håndsalg. Dermed blir forslaget til episode 8, 9 og 10 at: Den neo-russia mafia presser Claus til å bryte inn og stjele formelen til Lykke-pillen. RAF-agenten sniker seg med og vil sende hele produksjonen i kloakken som personlig hevn. Ved et håndgemeng går hele produksjonen i drikkevannet i stedet. Episode 18 vil følgelig handle om alt det vanvittige byens beboere opplever i manisk euforisk lykke. Episode 19 vil handle om alt det vanvittige beboerne opplever i desillusjonerte fobiske depresjoner. Siste og 20. episode blir omtrent som den opprinnelige episode 18 med giftemål, ny bedriftsfilosofi og gjenforeninger med naturlig livskvalitet.

Som nevnt i forrige UU om Trelletoopia, så er hedonisk lykke en forutsetning for dystopier. Det tilslører virkeligheten og fremstiller dystopiet som et utopi. I dystopiet 'Brave New World' kaltes lykkepillen 'Soma' og var et sterkt vanedannende narkotika. Stoffet var både obligatorisk og et folkekrav fra de avhengige trelles. Tilsvarende kunne bli utfallet i Lykke med håndkjøp av lykkepiller. Utfallet av annet medisinsk overforbruk kan bli tilsvarende. Tilsynelatende 'positive' langtids-effekter er; myndigheters 'gode' presseoppslag, produsenters 'gode' regnskapsbøker og sosialvesenets 'gode' statistikker. Men så ses det helt bort fra sammenhengen ved at stadig flere friske personer får bivirkninger, kan bli stemplet 'psykisk syke' og overført helt andre 'avdelinger' utenfor statistikk og omtale. Eksempelvis er depresjoner diagnostisert i Danmark på hele 15%. Den gjeldende hypotese er at signalstoffer som noradrenalin og serotonin i hjernen behøver medisinindustriens antidepressiva for balanse. Omtrent 3 ganger så mange københavnere blir innlagt enn f.eks. i Ringkøbing Amt. Der er dermed høyst tvilsomt at 'depresjonen' skyldes arvelige faktorer. Det skyldes mere sannsynlige tabubelagte jante-kulturer fra folkeskoler, samt bieffekter av selvmedisinering (UU 2014.juli.11).

Teorien sier at hallusinasjoner/psykoser oppstår oftest ved forgiftning eller hjerneskode. Skade kan skyldes sykdom som alzheimers, hjernesvulst, parkinson og syfilis. Forgiftning kan være påført ved narkotisk hallusinogene stoffer eller mangel av b-vitamin. Eksempelvis er antall hasj-psykoser 3 doblet i Danmark. En hovedårsak er at det illegale salg er nærmest legitimert ved steder som Christiania. Dessuten selges narkotika utelukkende i kriminelle miljøer som naturlignok medfører kriminalitet. Hasj kan 'dopes' med amfetamin og dermed føre til avhengighet av de farligste 'psykotiske' stoffer. Således fungerer et utilsiktet samspill mellom det legale og det illegale narkotika-marked. Pasienter som introduseres til narkotika i den legale helsetjeneste kan få mer-smak og bli oppsøkt av det illegale narkotikamarked etter endt behandling. Som nevnt i UU 13.Juli.2012. «Tankene faller dermed hen til hvordan medisiner, eller narkotika, kan påvirke sanser, tanker og følelser. Dette kan forklare noe om hvordan helt normale mennesker kan utvikles til ekstremister.» (Eller hvilke som helst normale mennesker kan således gjøres psykotiske i en periode.) «Narkotikaproblemet er godt kjent. Kort sagt er kategorier; psykedeliske stoffer som LSD og meskalin (hallusinogener), euforiserende stoffer som hasj, bedøvende stoffer som morfin og heroin, samt sentralstimulerende stoffer som amfetamin og designerdrugs som ecstasy.»

Hypnotisk manipulering av personer har desillusjonerende effekter tilsvarende psykoser. Selv 'practical jokes' og 'drilling' imellom ungdom kan mislede ignorante pedokrater og psykokrater. Alarmerende er den kollektive fortid fra psykiatrien om dette. Denslags overbeskyttelse av kollegaer har selvfølgelig særdeles alvorlige konsekvenser, - spesielt innen feildiagnostisering, feilbehandling, medisinsk overforbruk, frihetsberøvelse og kriminalitets-beskyttelse. Som nevnt i forrige omtale av Lykke i UU 13.Juli.2012: «Hypnose er i Danmark en salgbar tjeneste som andre kirurgiske inngrep som rotfylling, fettsuging og silikonbryst. Uvitende personer kan hypnotiseres til sinnstilstander tilsvarende hat, forelskelse og umoral, -

og utføre spionasje, tyveri, utroskap og vold. Videre kan det skapes sinnstilstander tilsvarende mani, fobi, depresjon, psykose og schizofreni. Hypnotisører kan kortsluttet offerets vilje og moral, dets psykologiske Ego, og styre dets Id som et eksternt S-E. Begreper som psykopati og mental voldtekt kan brukes om denslags. Kombinasjoner av mindre hendelser kan tilsammen utgjøre store og alvorlige saker.»

Videre om hypnotisk manipulering: «Dette er forhold som kan sette nytt fokus på 'merkelige og uforklarlige' kriminalsaker. Dessuten, narkotika kan gjøre brukere langt mere mottagelig og avhengig. Det kan være nære sammenhenger med legal eller illegal medisiner og hypnose.» Dermed kan det seksuelle sosialpsykologiske Spill RAPO utvides til psykokratisk RAPO, - en anklage om, eller faktisk utført, 'psykisk voldtekt' ved hypnotisk manipulering. Det anbefales å se de listede video playlists av profesjonelle hypnotisører som Jeppe Schjøtz, Derren Brown og Marc Savard. Demonstrasjonene er særdeles oppsiktsvekkende.

Sosialpsykologiske Spill er ofte omtalt fordi det er forklaringen på rett mange kulturelle utfordringer. I denne sammenheng oppsummeres det meste av mental sunnhet i UU 2014.juli.11, UU 2014.juli.04, og spesielt UU 2013.des.06. Sunn sosial-psykologi baseres på at: «De positive grunnholdninger er (som nevnt) 'Du er OK – Jeg er OK'. Positivitet bygger på verdisystemer som: Godt, Nyttig og Rett. Den evige Etikens Gyldne Regel sier, 'du skal gjøre mot andre som du vil de skal mot deg'. Alt dette kan dessverre endevendes ved anti-demokrati, Jantelover og pervertert moralfilosofi for etikk, politikk og teologi. (UU 2013.mars.08 og UU 2013.mars.15) Videre er det en god del sannhet i begrepet 'Helt normal galskap', som enkelt kan forklares ved erkjennelsen at vi ikke er perfekte (UU 2013.april.05). På den annen side kan det dessverre misbrukes i organisert galskap så som omtalt i UU 2013.april.12». «Med andre ord, og kort sagt, er det en god mental helse når det er balanse mellom de 3 Ego-states; S-E, Ego og Id. Hvis Ego krympes eller overlappes av S-E og/eller Id, er ens personlighet kritisk utsatt. Med et dominerende S-E, som påførte tvangstanker, kan man utvikle psykoser. Med et dominerende Id kan man utvikle nevrosener, - overfølsomme reaksjoner. Et truet Ego kan søke nødløsninger i å utvikle alter-Ego, - bli schizofrent.»

Usunn mental-helse skyldes derfor langt mere miljø enn arv, så som annen sykdom skyldes smitte fra andre personer. Som nevnt i UU 2014.juni.06 om usunne aktører: «Det betinger naturlignok at elementære menneskelige kvaliteter som Godt/Nyttig/Rett er som deres personlige 'sorte hull', - ikke-eksisterende moraler. Dette oppkonstruerte sosial-psykologiske misforhold med S-E/S-I og med undertrykking av borgernes Ego/Selvbevissthet, er oppskriften på hvordan skape enhver type mental, sosial og global psykisk sykdom.» Videre i UU 2014.jan.10 om sosialisering ved Jante Spill: «Metoden er simpel. Primær-behovet for sosial omgang fratras inntil påkrevd handling, holdning og erklæring er gitt. Den kollektive overmakt er mest utholdende og vinner (nesten) alltid i dette organiserte Jante Spill i hakke-kylling modell.»

Den som ikke kan eller vil gi slipp på sin selvbevissthet og egenverdi, kan heller ikke passe i kollektivet. Et alternativ kan følgelig bli å erklære det unormale som 'galt' og sende personen til 'psyko-maskinen', - det byråkratiske psykiatri. Det kan bli en særdeles effektiv munnkurv på det avvikende mangfold. Kulturelt kan man se opphavet og vedlikeholdet av 'syndebukk' ritualer i hele Danmark årlig. Midtsommer-feiring er nesten like populært som jule- og påske-ritualene. Det er tydeligvis et kollektivt krav at bålet skal ha en dukke utkledt som et menneske og med såkalte 'heksehyl' i seg. Alle 'hygger' med mat og drikke. Noen steder kan folket være med til ildspåsettingen. Dette årlige ritual opprettholder den kollektive jante-etikk fra tsar Ivans dager, som antagelig har russisk-ortodokst opphav fra Novgorod-prosessene (2014.mai.09). Men det vil være vel så vanskelig å få jante-kulturen ut av folkeskolen som å avskaffe rituell heksebrenning midtsommersaften. Til det behøves åpen og ærlig dialog om grimme kollektive tabu-tema.

Juridisk kan uprofesjonelle psykiatikere forårsake urettmessig frihetsberøvelse av pasienter. Kritikken av subkulturer innen rettspsykiatrien er særlig omtalt i UU 2014.juli.18 (Quick-saken). Norsk straffelov (og antagelig øvrige nordiske lover) har unntak for utilregnelighet for psykotiske personer (§ 20). Dermed kan en person utsettes for tvangs-medisiner og annen tvangs-behandling. Danmark har EU-rekord hvor 1/5 av pasientene blir behandlet ved tvang, men det skal nå reduseres med 20% etter avsløringer om grov feilbehandling. På den annen side kan kriminelle pedagoger, psykologer og psykiatikere straffes med 3 års fengsel for frihetsberøvelse av pasienter (§ 254). Dessverre vil det være særdeles besværlig og slitsomt å

beskytte barn mot den slags organisert kriminalitet. Allikevel, - fremdeles minnes at en ungdoms-venninne (angivelig) ble dopet, mulig hypnotisert, voldtatt og endte i psykiatrien, - antagelig for å ikke bli trodd om virkelige hendelser. Den slags erfaringer gjør det til en til en livsoppgave å forsvare sine barn mot kriminell psykokrati med de muligheter man har.

Så ble det dessverre aktuelt å minne om familien Stoltenberg sin kamp mot illegale, legitimerte og legale narkotika-aktører. Nini forlot oss i skrivende stund. I UU 2011.juli.01 nevnes at: «Thorvald Stoltenberg, og hans kone, er foreldre til 3 barn. Narkomafiaen har tatt deres yngste datter som gissel, helt siden hennes ungdom. De er også foreldre til den norske statsminister. Trellbundet av å være politisk korrekt, er denne tidligere Utenriksminister, Jugoslavias fredsforhandler og høytstående FN representant. Hans rop om hjelp har i årtier blitt misoppfattet politisk, fortiet eller fordreid.» Ortodokse og patriarkalske statsmenn er anti-demokrater og er følgelig imot demokratisk parlamentarisme. En effektiv kontroll av parlamentarikere kan være å ta deres barn, slektninger eller venner som trellbundne gisler. Temaet er tabu og staten har dominerende kontroll over helsetjenestene. Slik vil det vedvare inntil en demokratisering av helsetjenestene realiseres.

Det er vanskelig å finne reelle saker å sammenligne med, da de gjemmes, glemmes og fortrenses i trelletopier. Allikevel, det finnes eksempler som kan gi antydninger om omfanget. Langt mere tabubelagt enn familien Stoltenberg er behandlingen av den dansk-norske familien Hamsun. Faren var nobelpris vinner i litteratur, men berømmelsen som 'nasjonalt symbol' ble politisk turbulent under og etter ww2. Dette Norges-historiens verste CdE Spill kan forklares som et rød-brunt slutt-oppgjør hvor Hamsun ble en brikke i Spillet. Noen av hans holdninger og uttrykk var riktignok kritikkverdige, men det er fremdeles stor strid om hvilke offisielle historieskrivninger som er sanne og hvilke som fremdeles er desinformativ krigs-propaganda. Etter en prosess i psykiatrien, under 'frivillig tvang', måtte han frikjennes. Prosessen ble rettmessig sterkt kritisert. I ettertid får man inntrykk av at det egentlig var en politisk hardcore prosess i RAF stil. Men det var dermed ingen arvelige årsaker til at barna skulle gjennomgå psykiatiske prosesser i Danmark eller Norge. Behandlingen minner heller om de ekstremt inhumane RAF prosessene mot de uskyldige 'tyskertøser' og deres barn. Det var simpelthen en masse-mishandling av kvinner og barn etter Gulag-konseptet. For øvrig er det lavet et særdeles godt filmatisert drama 'Hamsun' fra 1996, hvor svensken Max von Sydow spiller faren og danske Ghita Nørby spiller moren.

Hva bør så gjøres med helsetjenestene? Jeg har hverken dybdekunnskap eller gjennomslag for noe så komplisert og omfattende. Men noen innovative forslag er nevnt i UU 2014.juni.27. Et hovedpoeng er ifølge OECD at Norden, og spesielt Norge og Danmark, har overpris, overtidsforbruk og dårlige resultater. Det anbefales å se de utvalgte TED Talks som er nevnt herunder. Noen korte poeng fra TED er at: Dyrest er ikke nødvendigvis best. Hele helsesektoren står ovenfor samme fundamentale problemer, så det er all grunn til å lære av de innovativt lærde. Helsetjenester mangler helhetsvisjoner på livskvalitativt grunnlag. Leger prøver helst å finne symptomer som passer deres egen kompetanse i stedet for pasientens virkelige problem. Helsetjenestene fungerer som om man skulle skru sammen verdens dyreste bildeler til en bil, - som følgelig ikke fungerer til hensikten og får meget høy pris. Innføring av samkjørte 'sjekklister' har ført til reduksjoner av feildiagnoser, feilbehandlinger, dødsfall og kostnader med 1/3. Medisinindustrien manipulerer helsepersonell og klienter ved å kun publisere positive test-resultat, - selv om de kan være i mindretall. Skadene og kostnadene i helsesektoren er følgelig tilsvarende gale. Alt dette gjelder selvfølgelig også for psykologien og psykiatrien.

Fallulah er en dansk-rumensk sangskriver og vokalist. Hun brøt igjennom med singlen "Out of It", som er temasangen til DR sin TV-serie 'Lykke'. Den original video til DR, som ble brukt i UU 2012.juli.13, er virkelig gjennomarbeidet på mange nivå. Men denne UU sin offisielle video er enda mere verdt å se. Den er en særdeles velgjort beretning og har en humoristisk undertone tross det dunkle tema. Bakom tekst og fremføring ligger en dystopisk-psykotisk musikk versjon av utopiet Lykke. Det hun 'drømmer' synes forårsaket av søvnløshet og våken drømmetilstand om fantasi-historier. Hallusinerende stoffer er medvirkende. Videoen ble fjernet fra Youtube, men finnes fremdeles på Vimeo.

Dalbello - Gonna Get Close To You

2014.juli.25

Ukens Utvalgte:

Trelletoopia er et fiktivt idealsamfunn basert på trelldom. Tilsvarende er beskrevet som avskrekkende dystopier, hvor 1984 med Big Brother er særlig kjent. De nordiske modeller med Big Mother illusjoner synes nå å appellere mere til det kollektive ID (Superior-Id). Men som romanen 1984 hadde preventive effekter på samfunnsutviklingen, burde også et 2014 Trelletoopia kunne rette på ubalanser fra det forrige århundre.

Fortidens fremtidsvisjoner viser seg ofte mangelfulle - naturlignok. 1984 har 30 års jubileum i år, men ble skrevet rett etter ww2. Den gang ga den tydelige advarsel om hvordan vi ikke ønsket den kommende globalisering. Det dystopi er tidligere omtalt flere ganger som i UU 2010.okt.29, UU 2010.nov.05 og UU 2010.nov.12. Denne UU vil for balansens skyld heller sette fokus på Big Mother -samfunnet som et sosiofikt dystopi. Fiktive forhold som i The Wall (UU 20.Juli.2012) og reelle forhold som ved (tsarina) Dagmar (UU 2014.mai.30) influerer naturlignok disse skriverier. Inspirerende er også andre dystopier som; Brave New World, Fahrenheit 451, Brazil, A Clockwork Orange, The Matrix, Mad Max, samt mangfoldige fra TV serier som Star Gate og Star Trek. For øvrig er flere forfattere og historier omtalt til Jon Bing sin bortgang i UU UU2014.jan.24 b.

Generelt sett beskrives utopier som ideer om positive idealsamfunn og er følgelig urealistiske. Tilsvarende er dystopier den negative motsetning. Men allikevel, begge kan ha noen realiteter i tid og steder for samfunn og personer. Dessuten kan de beskrive mål og retninger for samfunns-utviklingen. Generelt sett betegnes dystopier som overfladiske og basert på hedoniske (lykke) verdier, hvor virkelighetsoppfattelser tilslører virkeligheter. Politisk sett er dystopier ofte regjert brutalt, fanatisk, idealistisk og har grunnleggende system-feil. Økonomisk har de minimalt demokrati i praksis. Det er dominerende kontroll av stat, troner eller tempel ved sentralstyrt planøkonomi, kooperativer forretninger eller anti-plutokrati. Sosialt sett er det ubalanse med fåtalls- 'kratier' eller fremmedgjøring med byråkratier. Reelt demokrati er minimert med splittelser i klasser, religion, raser, ideologier etc. Ofte er familier splittet med surrogat S-E i stat/trone/tempel. I 1984 blir barn trent som spioner og angivere mot foreldre (ekstra UU 2013.sept.20). Religiøst er det ofte ekstreme teokratier eller ateokratier, som krever 'blind tro' på vedtatt religion eller vitenskap. Mennesket personlighet utsettes for Spill som DAC og UAC (Unite & Conquire) og det er langt mere 'pisk enn gulrot' ved fysisk og/eller psykisk vold. Naturen er ofte fremmedgjort ved urbanisering, men dystopier kan også skyldes at mennesket har mistet kontroll over den.

Selvfølgelig er ingen virkelige samfunn dystopi eller utopi, selv om samfunns-aktører kan betegne seg selv som nærmest feilfrie og rivaler som det motsatte. Menneskehetens mest ekstreme sådanne var i den kalde krigen mellom SU og US og deres øst- og vest-blokker av nasjoner, - samt proxy-nasjoner. Mye av den tids propaganda er fremdeles dagens kollektive S-E med utopiske og dystopiske illusjoner. Den slags T.A. 'Vi er OK – de er ikke OK' på samfunnets S-E nivå, skaper negative spiraler som ender ut i 'Vi er (heller) ikke-OK' på alle sider. Destruktive S-I kollektiver skaper store behov for projisering, selv-medisinering og virkelighetsflukt. Denne kollektive mentale pandemi fordrer kort sagt livskvaliteten på personlig, nasjonalt og globalt nivå. Den kollektive eksistensielle krise når på et tidspunkt sitt bristepunkt og klimaks i massiv selvødeleggelse. Disse kan misbrukes til CdE Spill av rivaler i såkalte revolusjoner. Det samlede tap overgår de enkeltes gevinst selv om vinnere vil fremstille det omvendt. Destruksjon er simpelthen destruktivt og ikke konstruktivt. Men nå har vi sjansen til korreksjoner, - for i dette århundredes informasjonsalder kan enhver lett gjennomskue den slags bedrag i både fortid og nåtid (UU 2013.aug.16).

For å trekke illusjonene om utopier og dystopier til virkelighetens verden, relateres denne UU spesielt til de tre forrige UU. Det bør være ærlig å innrømme at den type illusjoner nettopp er hovedsaken i kaldkrigs propaganda. Dermed er våre kollektive tvangstanker (S-E) fremdeles sterkt preget av de illusjoner. Se bare hvordan den 4. statsmakt nå iherdig prøver å gjenopplive illusjonen om SU vs US rivalisering i ren 1984 stil. Det er massive forsøk på å starte nye runder med globale LYAHF Spill. Så er det virkelig sannhet i ordtaket at 'vold er den inkompetentes siste maktmiddel'. Det er da kun en egen falitt-erklæring fra aktører. Det gjør intet bedre når volden er psykisk og skjult i sosialpsykologiske Spill. Det var bare vanskeligere å avsløre og bevise.

De tre forrige UU har handlet om: Gutten Helmer som ble offergave til SU og gjennomgikk massiv hjernevask for å bli agent mot Norge og NATO (UU 2014.juli.04). Skandinaviske folkeskoler med 10 år

kollektiv sosialisering- og assimilering-program av alle barn (UU 2014.juli.18). Quick-saken om psykokraten Margit som massivt plantet falske voldelige hukommelser i personer for å sabotere rettssamfunnet med sine RAPO Spill, - og for å få dyrket sin personlige grandiose narsissisme (UU 2014.juli.11). Et nytt begrep 'mental navlestreng' ble introdusert for å forklare den livslange avhengighet matriarker kan skape til barn for å sikre sin fremtid. I praksis forsterkes barnets S-E/Id ubalanse og forhindrer utvikling av dets Ego/selvstendighet. Hertil hører utopiske belønninger som 'livslang roomservice', hvor barnet forblir avhengig av 'Foreldre' som alltid vil utføre sosial-tjenester som å lave mat, rydde og handle. Man frarøves det ansvar og ressurser som hører til ens myndighet. Erfaringsvis synes dansk pedokrati å ha gått alt for langt i masseproduksjon av den slags sosialklienter. Det har gått helt galt når kompetente borgerne ikke får klare seg selv, - eller vikles inn i systemet hovedsakelig for å skape sysselsetting. De fleste kjenner til det, hvor en rotes inn i ressurs-krevende offentlige labyrinter og gordiske knuter av Spill som ender ut i intet eller negativt resultat. Motivet for Spillene kan ha T.A. som «jo mindre hver ansatt laver, jo flere kan bli ansatt (og betale LO kontingent)», «jo mindre kompetent og effektivt, jo flere må ansettes» og «lediggang er roten til alt ondt, - så meningsløs sysselsetting er (tross alt) godt». Intelligente sosiopater kan følgelig utnytte den slags system-feil til motparters fordel.

Et vesentlig fundamentet for Nordens Trelletopia ligger i (tsarina) Dagmar sin skjebne og virke forut for ww1 i 1914 (UU 2013.mai.17). Som imperiets største matriark var hun selvfølgelig særlig innflytelsesrik på hele den nordiske kultur. Men Nordens trelbindingen til Roma3 skjedde allerede ved Ivan (den grusomme) sin splitt av den nordisk union og allianser via danskekongens Frederik II sin bror Magnus av Holstein (UU 2014.mai.02). Disse milepeler antyder sammenhenger. Videre kan Nordens forhold til Roma kort oppsummert: Det opprinnelige Roma1 startet kampanjer for å kolonialisere og trelbinde Norden for 2000 år siden. For 500 år siden kom gjennombruddet med Roma3/Moskva og kollaps av den nordiske Kalmarunionen. For 100 år siden ble den danske tsarina Dagmar en dominerende aktør i 'dukkehjemmet' Vinterpalasset. For 50 år siden ble hele befolkninger systematiske sosialisert via voggestuer, folkeskoler, ungdomsorganisasjoner og spesielt LO. LO sine meritter er ofte omtalt som i UU 2013.okt.18, UU 2013.sept.27, UU 2013.aug.23 og UU 29. april 2011.

Hovedårsaken til SU sin massive degenerering av omverden var selvfølgelig for å beholde egen posisjonen som imperiets S-E tross sin selvforskyldte degenerering. Den 300 år gamle Trone/Tempel allianse ved den slavofile Romanov familien ble felt etter alle svigermor vs svigerdatter rivaliseringer i Vinterpalasset. Alle Spillene og konsekvenser fra den danske svigermor og tyske svigerdatter, ble for meget for svikefulle teokrater. De ble med til CdE Spillet med sin agent Rasputin og dannet Stat/Tempel allianse i stedet. Men for å beholde makten ble det ansett nødvendig å assimilere eller massakrere Tronens lojale borgerskap. Siden Tronen ikke maktet å innføre demokrati for vasaller/treller før CdE, ble heller ideer om Trelletopia massivt indoktrinert til folkemassene. Men siden regimet valgte menneskehetens verste massepsykopat 'Stalin' som formell leder, ble selvfølgelig resultatet masse-ødeleggelse av samfunnets ressurser og særlig de menneskelige ressurser. Følgelig ble det ansett som nødvendig å skape tilsvarende trelletopisk pandemi i hele omverdenen for at rivaler ikke skulle bli overlegne. Det forrige århundres globale fordervelse ble ustoppelig i et århundre. Det ateistiske imperiet lovet (andres) jobb og pensjon i stedet for lønn etter døden i Himmelen, - hvilket var et tiltalende salgsargument.

Hvordan massivt gjennomføre degenerering av den store majoritet av menneskeheten? For å finne svaret, kan jo bare se på Roma3 sitt 500 årig historie og spesielt SU sitt 100 årig historie. Med tydelig definisjon og omtale om Livskvalitet, - er det alarmerende simpelt å definere det motsatte. Når man så vet at det er omtrent 10 ganger enklere å destruere enn å konstruere, vil kollektiver av masse-psykopater ha kortvarig, men formidabel egosentrisk suksess i å forårsake forskjeller. Selv trusler om den slags terror kan i seg selv være tilstrekkelig for å få makt og sin vilje. Det betinger naturlignok at elementære menneskelige kvaliteter som Godt/Nyttig/Rett er som deres personlige 'sorte hull', - ikke-eksisterende moraler. Dette oppkonstruerte sosial-psykologiske misforhold med S-E/S-I og med undertrykking av borgernes Ego/Selvbevissthet, er oppskriften på hvordan skape enhver type mental, sosial og global psykisk sykdom (UU 2014.juni.06). Tilsvarende er den sikre måte å kriminalisere borgere, ved at lave mengder av motstridende, irrasjonelle og ukjente lover. Så kan selv den beste person arresteres, tiltales og straffes.

Den nye Stat/Tempel alliansen hadde alle menneske-typer, - også homofile byråkrater og pedofile teokrater. Rendyrkede patriarker kunne tydeligvis enes om at kvinner og barn er destruktive av natur, eller i beste fall potensielle ideal-treller. Denne patriark-patriark allianse ble høyst sannsynlig dannet lenge før selve CdE Spillet i 1914. Dermed har antagelig de 2 tsarinaer fått betydelig hjelp i å brygge opp intriger seg imellom. Ikke minst har agent Rasputin vært en avgjørende trelle for både Stat og Tempel for å felle Tronen. I alle tilfelle, - konseptet for global implementering av ens egne 'autonome separatister' forutsetter CdE Spill ved rekruttering av korrupte masse-psykopater som agenter. Underbyggende Spill i kategoriene 'Underworld' og 'Sexual' kunne spilles alt etter personlige, sosiale og politiske forhold. Komplekst og uoversiktlig er det, - men i alle tilfelle handler det om å degenerer selvkjørende borgere til S-E avhengige ID av typene Sulk, Nerd eller Jerk (se UU 2013.mars.08). Patriark, Matriark eller Formynder S-E bruker det kollektive S-I til assimileringsspill av typen TOL, DAC/UAC, Jante og LYAHF mot individer (UU 2014.jan.10). Metoden er simpel. Primær-behovet for sosial omgang fratras inntil påkrevd handling, holdning og erklæring er gitt. Den kollektive overmakt er mest utholdende og vinner (nesten) alltid i dette organiserte Jante Spill i hakke-kylling modell. Selvfølgelig hender også utilsiktede fatale utfall til tider. Men de ekstreme konsekvenser fra Spillene i Vinterpalasset i ww1 var allikevel langt fra utilsiktet. De var nøye planlagt i mangfoldige år i et overordnet CdE Spill.

Det forrige århundres prosjekt med å implementere et globalt Trelletopia er umulig å dokumentere. De åpenbare årsaker er at den type globale sosial-psykologiske Spill er per definisjon uredlige og tilslørte, - selv om de formelt kan betegnes som hemmelige tjenester for rikets sikkerhet. Men det er ikke nødvendig med all byråkratisk kverulering når avgjørende kjensgjerninger, sosial-psykologiske profiler og dårlig skjulte agenda er blitt allment kjent via internettet. Et hovedpoeng i denne sammenheng er at Statsmann Stalin jaktet og henrettet grunnleggeren av SU sin Røde Arme. Det ble dannet Red Army Faction (RAF) i potensielle satellitt stater. Med tidligere trusler fra SU om at US vil møte «100 Vietnams» røper at det fantes minst 100 RAF allerede for et halvt århundre siden. Siden annektering av samtlige europeiske nasjoner var et hovedmål for SU, ble det følgelig bygget RAF i alle nordiske og europeiske nasjoner. Armeer kan som kjent bestå av urban guerilla, 5. kolonister, sabotører, etterretning, 'lyttere og kikkere', manipulatorer, dobbelt-agenter osv. STASI, KGB og GRU var selvfølgelig modell og kommando for alle disse nasjonale RAF med betydelig overvåking og rapportering. For å identifisere den slags skal man bare kikke på den engelske internet-versjon av Pravda og sammenligne med offisielle uttrykk fra nasjonale organisasjoner. Så vet man godt hvor penger, løfter og krav kommer fra og hvorfor.

København er blitt Nordens hovedstad. Årsaken er at byen huser det Nordisk (parlaments-) Råd og Nordens (regjeringers) Ministerråd. København har også for nylig fått en 'United Nation City', har (betinget) medlemskap i den Europeiske Union og fungerer som transitland for øvrige nordiske land og omverdenen. På den annen side er disse institusjoner og relasjoner bemerkelsesverdig ineffektive og anonyme, - sett i forhold til de all-nordiske interesser om behov for omfattende samarbeide. Dansk passivitet har historiske årsaker og kan ikke bebreides borgerne. København har vært særdeles hardt utsatt i internasjonale konflikter. Det har ikke med dansker selv å gjøre, men er simpelthen konsekvenser av den viktige posisjon nasjonen har som proppen i passasjen mellom Atlanterhavet og Østersjøen (UU 2013.mai.31). Under tsar Ivan sin splitt av den nordiske union kom Danmark i store slag med Sverige. Toller-borgen Kronborg ble naturlignok ofte utsatt av illsinte forbigående. England terrorbombet København og kapret flåten i frykt for misbruk av Napoleon. Nazistene truet med terrorbombing av København hvis de ikke kapitulerte umiddelbart. SU truet tilsvarende etter ww2 og demonstrerte med terrorbombing av Bornholm. Den slags historie skaper beslutnings- og ansvarsvegring, xenofobi og påfallende hyppige hygge-ritualer. For øvrig ble Sjælland/Selandia invadert av SU for en kort periode, men de trakk det uniformerte militæret ut etter å ha inngått en ukjent avtale. Derimot fikk særdeles aktive SU separatister hurtig midler og posisjoner. De fikk dominere kulturen på alle nivå under hele den kalde krigen. Selv RAF cellen 'Blekingegadebanden' synes å få terrorisere Danmark på stalinistisk vis uhindret av politi og militær.

Som nevnt i UU 2013.mai.31: «Selv etter den kalde krigen kan man se at Nordisk Råd er bundet til Kaliningrad, Leningrad og Murmansk. De byer var henholdsvis representert som 'Østersjøens Cuba', KGB/FSB, samt test-område for massiv atombombing. Videre er det daglig fergeforbindelse mellom Kaliningrad-Gdansk-København-Oslo. Sverige og Finland har antagelig tilsvarende indirekte forbindelser til

Kaliningrad. Mere markant og tydelig er de direkte terror-flyvninger mot Nordisk Ministerråds medlemsland med bombefly for atombombinger. Denslags vekker minner om SU terrorbombing av Bornholm i WW2, samt truslene om å gjøre København/Sjælland (Selandia) til et Øst-Danmark, tilsvarende Øst-Tyskland og Øst-Europa. Frykten påvirker effektivt dagsorden og beslutninger i Nordisk Ministerråd. Derfor er det på høy tid med rotering av Nordisk Ministerråd (til andre land), som man har rotering av Europas Ministerråd.» Man kan frykte tilsvarende forhold vil ramme FN Byen i København som ligger ved den felles kai for Oslo og Gdansk fergene, - og hvor Norges ambassade nå er flyttet nærmere.

Når så danske media poengterer at Danmark er det lykkeligste land, - vitner det mest om definisjoner om de hedoniske (lykke) karakteristikker for dystopier. Holdningen om å 'hygge for enhver pris' forhindrer all den nødvendige konstruktiv kritikk som er forutsetninger for enhver forbedring og krisehåndtering. Dermed gir de indikasjoner om god grunn til å kikke under symptomene, under isbergets overflate, under de tilslørte masker og se på hva som egentlig er der. Det kan være resultater av et overnasjonalt forfeilet trelletpisk eksperiment etter ww2, hvor utopiske virkelighets-oppfattelser skapes for å tilsløre dystopiske virkeligheter.

Etter 12 års tilstedeværelse, og ikke assimilert av dansk folkeskole, ses samfunnet lettere fra andre sider. Etter et halvt århundre med SU influert sosialisering fremstår det matriarkalske pedokrati som overnasjonalt dominerende, selv om forretningsverdenen har få kvinnelige sjefer. (Ordtaket sier: «Bak enhver stor mann, står en sterk kvinne.») Det vises heller i Stat sin forvokste offentlig sektor, Tronen og til dels Tempelet (folkekirken). Man seiler igjennom systemet fra vogge til grav. Økonomisk trelletpisk nivå er særlig høyt da skatt og avgifter til sammen i praksis tilsvarer et nivå på 70-80%. Resten er knapt nok til de fundamentale menneskerettigheter som bosted, mat osv. Denne Nordens hovedstad har tilsynelatende utviklet et høyt xenofobisk nivå og er sub-politisk sterkt isolert fra sine nordiske og europeiske naboer. Det holdes et våkent øye med alt og alle, - som en etterlevning av kaldkrigs overvåking i SU og US program. Til gjengjeld er man garantert 'livslang roomservice' hvis man overhode orker den slags trelletpisk livskvalitet. Danske borgere, kvinner som menn, ville i dagens demokratiske samfunn ha langt bedre av å råde mere over sine penger, myndighet og ressurser, - for å få utvikle seg livskvalitativt.

For balansens skyld skal det nevnes at Norge lider av de samme trelletpiske ubalanser og behøver like omfattende samfunns-innovasjoner. Dette gjelder sikker Sverige også, samt de øvrige nordiske land. En lille kuriositet i denne sammenheng. I tidligere skrivelser har jeg antydnet at freudiansk psykoanalyse kan brukes på organisasjoner og nasjoner, så vel som personer. Med uhemmet stereotyping vil man kunne komme til at forskjellene på de skandinaviske kulturer kan indikere kategorier som Sverige/Patriark/Jerk, Norge/Ego/Nerd og Danmark/Matriark/Sulk. Dette har selvfølgelig ikke med hverken svensker, nordmenn eller dansker å gjøre, - men kan tydeliggjøre nasjonale-kulturelle forskjeller i preferanser, kommunikasjon og behov. Følgelig kan elementær T.A. og Spill-teori kan være nyttige for å løse alle utfordringer etter det forrige århundres trauma. Det ville være virkelig interessant å gå videre med.

Men viktigst av alt: - Trelldom er forbudt ifølge FN's menneskerettigheter som nasjonene har juridisk overnasjonalt forpliktet seg til.

Dalbello (Lisa Dal Bello) har engelsk/italienske foreldre og bor i Canada. Hennes talent som sanger ble oppdaget allerede som 11 åring og hun fikk sponset opplæring da hun var 13 (selv om hun løy på alderen). Som 17 åring utga hun sitt eget album og vant prisen som den mest lovende kvinnelige vokalist. Det tredje album 'whomanfoursays' (human forces) fikk gjennombruddet og ble produsert av selveste Mick Ronson. (Han er kjent som gitarist for David Bowie og Mott the Hopples.) Den duo lavet et særdeles progressivt og sterkt album, som mest kan ligne en krysning av Yazoo og Alanis Morissette- eller Eurytmics. Albumet har mange sterke sanger som 'Devious Nature', 'She Pretends', 'Cardinal Sin' og 'Path of Least Resistance'. Men denne 'Gonna Get Close to You' passer spesielt godt til denne UU.

Trelletpiske trubadurer er sterkt subsidiert ved stats-media. Hver gang deres sang spilles av politiske meningsfeller klinger pengene i trubadurens kasse. Norden fikk rett mange av dem under den kalde krig, - dels fordi de mente hva de sang, men også fordi budskapet garanterte inntekter, jobb og berømmelse. Tre av de mest utpregede presenteres her med tekster: Kim surfer alene på gruppen Gasolin sin suksess og tjener stort på å romantisere nød og elendighet i et Trelletopia. Halvdan har Norgesrekord i subsidiering via statskanaler da denne kjærlighetsvisen egentlig er uhemmet partipolitisk propaganda og sprer xenofobisk antipatier ved å stemple borgerlige statsborgere som skrekken selv. Björn romantiserer de menneskelige tragedier hans meningsfeller påførte fattige håpefulle på andre siden av verden, - hvor en pike blir propagandert som lokkemiddel for ungdom inn i dødelige konflikter.

Alice Cooper - The Black Widow

2014.juli.18

Ukens Utvalgte:

Quick-saken mistet all sin fantastiske oppmerksomhet ved avsløringen at han overhodet ikke var noen masse-morder, men en barnlig pasient med fri kost, losji, dop og hypnose under en psykokratisk matriark. 'Søte gamle damer' er uangripelige og følgelig perfekte utøvere av ugjerninger, - selv de verst tenkelige. Det finnes neppe noen bedre kamuflasje for de virkelig store kriminal-saker, - som den å dekke over alle de faktiske mord som virkelig har skjedd. Denne UU blir en omfattende omtale om hvordan rettspsykiatrien misbrukes for å manipulere det sivile rettsvesenet og følgelig fremmer de virkelig alvorlige kriminalsaker, - som godt kan ha sammenhenger.

STV lavet TV dokumentaren: "Kvinnan bakom Thomas Quick". Den finnes på YouTube med link herunder og bør absolutt ses i denne sammenheng. I bladet Söndagskrönika oppsummeres i artikkelen 'Sekten kring Thomas Quick': «Han har erkänt 39 mord och dömts för åtta men inte begått ett enda. Ingen teknisk bevisning och inga vittnen har någonsin kunnat binda Sture Bergwall till något av de mord han har erkänt. Rättegångarna mot "seriemördaren" som kallade sig Thomas Quick har pågått i årtal fram till domarna mellan 1994 och 2001 och kostat skattebetalarna minst 200 miljoner kronor. Morden var rena påhitt av en desperat människa som ljög för att få droger, tillhörighet och uppmärksamhet. Han backades upp av ett gäng psykologer, läkare, poliser, åklagare och advokater som ljög lika mycket som han själv – eller mer."

Videre: "Kretsen kring den falske seriemördaren utgjorde en sekt. Allt de sa och gjorde styrdes av att de var troende. Vad värre är: när Sture Bergwall började tala sanning fortsätter sekten kring honom att ljuga. Och åtta mördare går fria. Sex olika tingsrätter lät sig luras av den falske "seriemördaren" och sekten kring honom. Kvinnan i sektens centrum är en psykoanalytiker vid namn Margit Norell, född Quensel (1914-2005). En doldis som knappt har publicerat någonting men ändå i decennier varit ett slags guru för den svenska psykoanalysen. Hon är okänd så till den grad att det bara finns en enda arkivbild på henne, och den är från 1943. Hennes hemsnickrade teoribygge går ut på vi lite till mans går omkring med traumatiska minnen av incest och andra sexuella övergrep som vi utsatts för i späda ålder – minnen som är så hemska

att vi har trängt bort dem ur medvetandet och alltså inte vet om dem." Artikkelen har så videre mere detaljer om 'kultens' involverte.

Dette massive rettspsykiatriske bedrag lykkes i å sabotere rettssamfunnets etterforskning av en mengde mordsaker i Skandinavia. Dette er den virkelig store kriminalsaken, - ikke den masse-opphetede skrønehistorie av en bortskjemt doping-klient via 'den 4. statsmakt'. Utfordringen blir følgelig å gi full internasjonal gransking av denslags 'cover-up' kriminal-saker. Videre vil det antagelig avsløre den virkelige sammenheng i de fleste av mordsakene. Konseptet er avslørt som organisert psykiatriske feil-diagnoser og feil-behandlinger. Det er med andre ord sosial-psykologiske Spill av 4. grad, som beskrevet i UU 2013.mai.17. Det går under hovedkategorien 'Sexual Games' for å dekke over de virkelig internasjonale Spill i kategorien 'Under World Games'. Men som nevnt kan det hele være del av en ny kategori 4 grads Spill som CdE på internasjonalt nivå (UU 2014.juni.13). Mest viktig av alt, det var høyst sannsynlig ikke det eneste tilfellet den slags massive dekk-historier om fiktive masse-mordere, men mønsteret for å dekke over organisert kriminalitet som har særdeles lang tid.

Til gjengjeld kan man tillate seg med noe hobby psyko-analyse av Margit/Sture (alias Thomas Quick). Klassisk freudiansk teori er noe feilaktig betegnet som kvinnefiendtlig. Misforståelsen ligger i at langt flere kvinner på hans tid ikke fikk utviklet sitt Ego som mange menn. De ble derfor oftere offer for S-E/Id ubalanse, med påfølgende nevroses, psykosers og endog schizofreni. Dessuten behøvde matriarker å sikre sin stand til pensjonsalderen, hvor svigerdøtre kunne komme til å rivalisere om hennes plass i huset (Tronen). En naturlig strategi vil være å sikre sine barns avhengighet og lojalitet ved å skape og vedlikeholde en 'mental navlestreng' mellom mor og barn – mellom S-E og Id. Det forutsetter at morens barn ikke får utviklet sitt eget Ego, men adopterer matriarkens dominans som barnets eget Superior-Ego. Matriarker, og endog Patriarker, med sterk sosiofili kan utvikles til kulturens meta-matriarker. Det kan endog utvikles et kollektiv av individuelle Id, som er tidligere er omtalt som Superior-Id, - den kollektive 'øglehjernen' (Se UU 2014.jan.10). Tilsynelatende er Patriarker mere ekstroverte og matriarker mere introverte, som i ordtaket 'bak enhver stor mann står en sterk kvinne'. Hun opptrer mere skjult og er følgelig mere til å spille sosialpsykologiske Spill og er ekspert på å forstå og manipulere de fleste sine Id.

Margit synes nettopp å være et tilfelle av S-E/Id ubalanse som projiserte det med 'falske erindringer'. Spesielt hadde hun sterke manisk-frigide forhold til seksualitet og fobisk i forhold til menn. Videre var hun unektelig sterkt psykopatisk da hun manipulerte Sture med falske voldelige erindringer og sterkt sosiopatisk da hun visseilig saboterte rettssamfunnet og rettsvesenet med å fordekke massiv voldskriminalitet i både Sverige og Norge. Sture på sin side kan betegnes som et frivillig offer da han ble belønnet med 'livslang roomservice', fri dop, trygge omgivelser og mengder av oppmerksomhet. De to bygget en 'mental navlestreng' imellom seg. Men Margit sin manipulasjon satte Sture i nevrotiske, psykotiske og schizofrene tilstander. Han synes etter hvert å tro sine egne løgner og falske erindringer. Det utviklet seg tydeligvis et ødipus-kompleks hos Sture og andre ovenfor matriarken Margit, som ernærte sin grandiose narsissisme. Hun var som 'øglehjernenens hønemor' i sin kult. I øvrig synes hun å lide av sterk realitetsbrist da hun trodde sine egne og Stures løgner tross alle sterke advarsler fra sine teoretiske forbilder mot å skape falske minner. For Margit personlig ble 4. grads RAPO middelet og målet som overgikk alt og alle andres følgeskader.

Så et lille sidesprang: Når så dansk folkeskole ble omtalt i forrige UU, faller flere tanker på erfaring fra lignende pedokrati. I hovedtrekk finnes mange spesielle hendelser, prosesser og uttrykk. De gir klart inntrykk av at det finnes subkulturer innen folkeskolen som fungerer tilsvarende. Det er for så vidt naturlig og ok, - så lenge det ikke går utover barns livskvalitet, menneskerettigheter og rettssamfunnet. Men de nevnte prosesser i UU 2013.nov.15 og UU 2012.April.27 bryter dette og har klare tegn på å være uoffisielle psykososiale Spill med alternative agendaer. Når man også vet at relativt mange danske folkeskolebarn blir sendt via psykiatrien på alarmerende høyt pillebruk, er det særlig aktuelt med kriminaletterforskning av de groveste tilfeller som helhet og på nasjonalt nivå. Det er langt fra umulig at tilsvarende 'Margit kulter' finnes i Danmark, - særlig når man har så markante okkulte Enneagram-kulter innen ledelses-miljø (UU 2013.april.12). Dessuten, (tsarina) Dagmar-kulter (UU 2014.mai.30) har som nevnt selvfølgelig influert dansk S-E betydelig fra det forrige århundre, selvom den siden av historien ikke fremmes særlig etter det fatale ww1.

Som nevnt i UU 08.juli.2011 lavet DR2 en omfattende bevisførsel om såkalt 'Kriminell Hypnose'. Siden temaet er nærmest tabu i Norge, fremmes dette følgelig fordi massiv ignoranse om den virkelighet gjør nordmenn særlig ubeskyttet og forsvarsløse. Den såkalte Quick-saken er utvilsomt massivt internasjonalt organisert hypnose-kriminalitet hvor Sverige, Norge og kanskje Danmark var involvert. Saken har alle tegn på å være sosial-psykologiske spill av 4 grad. Mest alarmerende er at politiet og rettsapparatet så tydelig ble massivt manipulert til å virke mot sin egen hensikt. Bevisførsel mot den slags kan fremstå absurd, selv om de fleste innerst inne forstår så godt at det er noe fundamentalt galt i hele prosessen og konklusjonene. Så er det all grunn til å gjenoppta flere store 'masse-mord' saker med henblikk på overordnede 'konspirasjoner'. Ja, - faktisk våger jeg å bruke det høyst relevante ord, selv om det fornædres i nettopp den slags saker.

Nå kan det jo nevnes at jeg tilstreber å 'se saker fra de andre sider', 'bakom scenen' og med erkjennelse at alle mennesker er bedragerske av natur, - noen dyktigere enn andre. For eksempel rotet jeg meg inn i en debatt med såkalte Rippologer, som prøver å løse 'Jack the Ripper' saken fra 1888. Dette er tidligere omtalt i UU 2010.juli.02 (?) med sangen 'Sebastian' av Steve Harley. Teksten kan være en sterkt personskildring av en sådan person. Men med min 'Infamous Practical Joke Theory' gåes det bakom scenen og betrakter hele Spillet med alle dets involverte, - ikke kun en fiktiv aktør med burlesk karakter. Som nevnt: «Utgangspunktet for tankegangen var at kirurger på den tid behøvde lik å trene på. Det ble oftest lavstatus mennesker, så som avdøde prostituerte. Kirurgien var sterkt kritisert av religiøse og følgelig gravkjørerne. Den teorien går simpelthen ut på at lik-kjørerne, på vei fra kirurgien til Whitechapel gravplass, dumpet likene i byen for å vise hva som foregikk i legevitenenskapens lukkede kamre. De mystiske og groteske begivenheter førte til mange spekulasjoner, men ingen ville innrømme noe. Synderen ble ikke funnet, fordi det fantes ikke noen sådan synder.» I tillegg kan navnet ha vært en hint om at 'Union Jack' er en 'Ripper', - altså nasjonen og ikke en person. Nåh, - Steve for ha meg unnskyldt for en uhemmet fortolkning av hans mesterverk 'Sebastian'. Se for øvrig ekstra UU som gir enda en interessant person beskrivelse relatert til denne UU. Så til virkelig 'masse-mord' saker i Norge.

I nesten 30 år forble Arnfinn Nesset utkårede til Norges største masse-morder. Skjønt han har alltid benektet straffeskyld og lever nå inkognito i frihet. Han var tidligere sykepleier i Sør-Trøndelag og ble i 1983 dømt for å ha drept 22 mennesker på om lag 20 år. Pasientene fikk det åndedrettslammende medikamentet Curare. Siden Nesset alltid har benektet straffeskyld er motivene for drapene heller aldri blitt belyst. Det er med andre ord en sak hvor rett mange personer kunne vært involvert med mange individuelle motiver. Noen mord kunne endog være motivert til å fortie mulig avsløring fra sengeliggende vitner. Men diskresjonen ble umulig å tilsløre i lengden. En enkelt person ble dermed tiltalt for alle drap og motivene ble aldri etterforsket, selv om tiltalte har preg av å være en 'syndebukk' med kvantumsrabatt for andre mordere. Med dagens kjennskap til Quick-saken og organisert 'plantning av falske minner' er det absolutt relevant å gjenoppta saken med henblikk på organisert kriminalitet, selv om Nesset saken for lengst er foreldet.

Skandinavian Star saken fra 1990 er den mest omfattende skandinaviske massakre. 159 sivile personer omkom i en påsatt brann på skipet i skandinavisk farvann. Dermed ble etterforskningen delt mellom Norge, Sverige og Danmark. Det høyst kritikk-verdige samarbeide mellom landenes politi og rettsvesen har ført til lang tids krav om gjenopptagelse. Det skal visstnok gjøres før 25 års fristen utgår. Kort oppsummert synes 'ulykken' å være: En liten brann utenfor en lugar startet kl 01.45 og ble slukket hurtig. Det tok oppmerksomheten fra den store brannen startet kl 02.00 hvor kun personale har adgang. Det var åpnet for ventilasjoner flere steder så brannen bredte seg særdeles hurtig. Maling på lugarveggene utskilte CO og blåsyre som bedøvet og drepte sovende og flyktende. Alarmer, branndører, ventilasjoner, redningsveier og redningsbåter fungerte langt fra forsvarlig. Etter 'ulykken' ble en dansk statsborger hurtig utpekt som brannstifteren av norsk politi. Siden han døde i brannen ble saken også hurtig henlagt. Ifølge vitner sier brannsjefen at enkelt av besetningen forhindret slukningsarbeidet. Til sammen er det felt særdeles knusende dom over norsk politi sin rapport i saken. Den siste gjenopptagelsen blir uten kron-vitnet maskinsjefen, da han kort etter kunngjøringen døde i Florida.

Den altomfattende rettsak i Norge i dette århundre er selvfølgelig 22/7-2011. Det er i realiteten 2 vidt forskjellige ekstreme aksjoner ved sprengning av regjeringsbygningen og massakren i en forsvarsløse politisk ungdomsorganisasjon. Den felles rettsaken mot en enkelt tiltalt ble omstendelig omtalt under rettssaken i UU 2012.mai.18 til UU 2012.Juli.20, samt UU 2012.aug.24. Flere overordnede ting bemerkes i ettertid og i sammenheng med de andre nevnt saker. Det finnes overhode ingen bevis på at ingen andre enn ABB var involvert, samt ingen holdbare indisier fra tiltalte om at han selv faktisk sprengte regjeringsbygget. Dessuten, til massakren på Utøya ble ABB fraktet av en pansret båt full av våpen og hvor et militær kjøretøy ble observert i nærheten. Skipet fraktet AUF lederen hurtig fra øya og 'strandet' hvorpå båten ble tømt. Denne pansrede båt og helikopter ble gjort utilgjengelig for politiet så deres redningsaksjon ble forsinket og feilet. Politiets overbelastede gummibåt ville ha druknet dem straks, hvis de kom innenfor ABB sin skuddlinje.

All vesentlig dokumentasjon og rapporter om 22/7 sakene er låst ned for 60 år. En kvalitativ gjenopptagelse av sakene er således gjort umulig. Prosessene minner meget om JFK saken, som utvilsomt er den kalde krigs største CdE spill (se UU 2012.mai.25). Mest interessant, og relatert til avsløringene i Quick-saken, er rettspsykiatrikeres maniske og klønete forsøk på å overta saken før det sivile rettsapparatet fikk fullført dommen. Fiaskoen forhindret at ABB skulle fremstilles som et alter-ego ala Thomas Quick. Dermed kan ikke ABB med psykiatrisk behandling bedra seg selv, sine pleiere og sivilisasjonen tilsvarende Sture. Med tiden kan ABB kanskje kunne fortelle den hele og fulle og reelle sannhet med redelige journalisters hjelp. På den annen side kan det hurtig bli for sent. ECHR har fastslått at langvarig isolasjon kan anses som umenneskelig behandling. Dermed sannsynliggjøres at de 1100 dager i isolasjon kan påføre ABB alvorlige psykiske lidelser. Rettspsykiatriske vet godt at det føre til at han blir overført til rettspsykiatrisk varetekt allikevel, - tross den sivile retts dom.

Det skjedde flere betenkelige dødsfall før og etter 22/7-2011. Mest bemerkelig var VGs utmerkede politiske redaktør Olav Versto sitt uforklarlige dødsfall ved sin båt. Tilsvarende rammet også FrP sin nåværende finansminister Siv Jensen som 'nesten-ulykke'. Men etter attentatet synes aviser å referere til mengder av tilsynelatende tilfeldige mord-saker. Det mest bemerkelsesverdige var den såkalte Halloween drapssaken etter dommen mot ABB. En 23 årig gutt hadde to episoder med hasj og hallusinasjoner om demoner i seg selv. Den tredje gang hadde han lest religiøse skrifter på pc, våknet opp og drepte sin venn i desillusjon. Under rettssaken konkluderte først rettspsykiatrikerne at han var tilregnelig til sivil dom, men senere, temmelig utilregnelig, ombestemte rettspsykiatrikerne seg. Dermed slapp den tiltalte 16 år fengselsstraff og kom i rettspsykiatrisk varetekt i stedet. Det blir antagelig langt kortere og lukket for utvidede kritiske spørsmål om hele saken. Sett fra en annen side: Rettspsykiatrien omgjorde rettspraksis etter ABB saken og tok tilbake sin hevd på å overkjøre den sivile domstol med veto for egen interesse. Men prosessen mot tiltalte var åpenbart basert på okkult narkohypnose og 'belønner' terroraksjoner relatert til demoner/djinns. Tilsvarende finnes visstnok kun i okkulte sub-kulturer og ekstreme islamske teokrati.

Følgelig er det særdeles viktig at sivilisasjonens pilar, rettssamfunnet får fungere normalt. Det skal ikke fungere som en 'lukket avdeling' under rettspsykiatrikeres kontroll med veto rett og fritak fra innsyn og kvalitets-sikring. Det er alt for høy risiko for at usunne rettspsykiatriske aktører i så fall kan åpne svingdøren begge veier og endre den sivile rett til sitt eget bilde. Faktisk er rettsapparatet i utgangspunktet særdeles sterkt dominert av S-E kultur som kan skape sosiale usunne S-E/ID-kulturer. Dermed bør den demokratiske og Lovgivende makt, Stortinget/parlamentet, være sin rolle, sitt ansvar og sin makt bevisst og ta sin dominerende funksjon som samfunnets Ego ovenfor samfunnets kollektive S-E og S-I. Men det er en særlig utfordring å løsne den kollektivt 'mentale navlestreng' mellom kulturers S-E og S-I. Siden det viser seg å være felles-nordiske utfordringer faller også tanker over til problemstillinger som fremstilt i TV serien 'Broen', hvor et offer lå delt på grensen mellom Danmark og Sverige.

'Underworld' Spillet LPFOJ (Let's Pull a Fast One on Joey) av første grad er ofte brukt som uskyldige 'practiacal jokes' i Jante kulturer. I dette UU sin sammenheng er det tale om 4. grads LPFOJ for å dekke over organisert internasjonal kriminalitet som kan være relatert til Spillet CdE og EW/WW. Sture, Nesset, 'maskinsjefen', ABB, 'Halloween', samt Helmer (UU 2014.juli.04) kan være nettopp den type Joeys. Videre, med utgangspunkt i JFK-saken/Oswald kan listen være langt lengere enn 'serial killers - disputed cases' (se

link under). Quick-saken har til de grader bevist eksistensen av 4. grads LPFOJ, - tross ekstremt besværlig bevisførsel. Spillet synes også i stor grad å kjøres mot politi, rettsvesen og militæret i Norden. Det er internasjonalt organisert kriminalitet, dels tilslørt som 'hemmelige tjenester' for 'rikets sikkerhet'. Det er derfor avgjørende viktig med tilsvarende anti-teser og anti-Spill fra det internasjonale rettsvesen for å bevare den siviliserte demokratiske konstitusjon.

Vincent Furnier sitt første alter-ego kalles Alice Cooper. Det begynte med gruppen Nash som var upopulær, - antagelig fordi de sang triste sanger om å være upopulære. Gruppen fikk omsider støtte hos Frank Zappa og Warner Brothers. De koblet tanker om 'mislikt' med 'ond' og forestilte seg en sådan person mere som en kvinne enn en mann. Vincent ble Alice. Det tredje album 'Love it to Death' viser det originale konseptet, som tydelige viser okkulte dilemma. Temaet ble gjenopptatt som helhet i albumet 'The Last Temptation', som handler om en lille gutts fortapelse og omvendelse. Denne video 'Steven' er fra en mellom-periode når det originale bandet var splittet. Det var usikkerheter om Vincent faktisk eide sitt alter-ego, så han lavet et nytt, - Steven. En krise senere skapte han et tredje alter-ego, en Mr. Hyde aktig person. Men her er altså en miks av Alice og gutten Steven, som utsettes for ingen ringere enn Vincent Price, stemmen til Michael Jackson's Thriller. Sosial-psykologisk kan det ses som Id sitt forhold til dominante S-E Patriark og Matriark. Se også fortsettelsen i videoene 'Steven', samt 'Cleanst by Fire' fra albumet 'The Last Temptation'.

Ekstra UU

Vincent Furnier har mengder av sanger som handler om traumatisert barndom, - ofte med karakteren Steven. Men Steve Harley er en langt mere dyktig poetisk person-skildrer. Han sang for øvrig den første video til rock-operaen 'The Phantom of the Opera', men ble skiftet ut etter suksessen som ga forestillingen den nødvendige finansiering. Den fantastiske fremføring av 'Sebastian' og fortolkninger om 'Jack the Ripper' er nevnt i denne UU. I denne ekstra UU fremstilles en figur hvor en matriark/ødipus-symbiose har gått altfor langt. Slutten av stykke indikerer da også en selvdestruksjon av symbiosen.

Roger Waters - Another Brick In The Wall (Live at Berlin)

2014.juli.11

Ukens Utvalgte:

Med nesten et halvt århundres erfaring med folkeskoler er det på tide med noen evalueringer. En hovedkonklusjon er at systemet ikke tilhører dette århundre. Dagens demokratiske informasjonssamfunn gjør institusjon-skolen uhensiktsmessig. De unge kan nå befris fra de kalde krigs sosialiseringprogram og heller utvikles til statsborgere med bedret livskvalitet. Det er dessverre avgjørende viktig at loven brukes til å umiddelbart starte reorganisering til nye modeller. Dette innovasjonsprosjektet burde vært startet for 20 år siden og vel fullført nå. Snakkerier om skole-reformer er dermed langt fra tilstrekkelig, - samfunnet behøver omfattende restruktureringer innen all kunnskapsformidling nå.

Som antydnet i forrige UU, og spesielt nevnt i UU 2013.des.06, baseres sunn sosial-psykologi på at: «De positive grunnholdninger er (som nevnt) 'Du er OK – Jeg er OK'. Positivitet bygger på verdisystemer som: Godt, Nyttig og Rett. Den evige Etikens Gyldne Regel sier, 'du skal gjøre mot andre som du vil de skal mot deg'. Alt dette kan dessverre endevendes ved anti-demokrati, Jantelover og pervertert moralfilosofi for etikk, politikk og teologi. (UU 2013.mars.08 og UU 2013.mars.15) Videre er det en god del sannhet i begrepet 'Helt normal galskap', som enkelt kan forklares ved erkjennelsen at vi ikke er perfekte (UU 2013.april.05). På den annen side kan det dessverre misbrukes i organisert galskap så som omtalt i UU 2013.april.12». «Med andre ord, og kort sagt, er det en god mental helse når det er balanse mellom de 3 Ego-states; S-E, Ego og Id. Hvis Ego krympes eller overlappes av S-E og/eller Id, er ens personlighet kritisk utsatt. Med et dominerende S-E, som påførte tvangstanker, kan man utvikle psykoser. Med et dominerende Id kan man utvikle nevrosener, - overfølsomme reaksjoner. Et truet Ego kan søke nødløsninger i å utvikle alter-Ego, - bli schizofrent.» Usunn mental-helse skyldes derfor langt mere miljø enn arv, så som annen sykdom skyldes smitte fra andre.

Definisjonen for Livskvalitet ble basert på UN's ISO standard og konkludert i UU 2013.nov.08 med at: «Livskvalitet er en persons helhet av egenskaper og potensialer for å tilfredsstillte uttrykte og underforståtte behov». «Behov» er nøkkelordet og baseres på Maslow behovsteori. «Uttrykte behov» (Krav) baseres på FN's Menneskerettigheter. Siden 'Selvrealisering' er menneskets overordnede Behov, relateres psykososial teorier basert på Freud og Jung. Teoriene er popularisert og videreutviklet av Berne og Meyer-Briggs. Til sist sannsynliggjøres det at Organisasjoner, Nasjoner og Menneskeheten som helhet, kan og bør vurderes iht. Livskvalitet. (Se f.o.m. UU 2013.februar.01.)» Videre er 'Livskraften' hos enkeltmennesket avgjørende viktig for Livskvaliteten. Livskraften kan dessverre alt for enkelt ødelegges ved psykopatisk sosialisering og assimilering.

Livskvalitet stilles i sterk kontrast fra kaldkrigs sosialisering og assimilering av borgere. Allikevel ble den type anti-sosiale kulturer sterkt fremmet på 60-tallet. Det er udiskutabelt at universitetsmiljø i Norden og Europa ble sterkt utsatt for RAF relaterte kulturer med psykisk vold i fremfor fysisk vold. De fremmet jo ekstremt voldelig skremsels-propaganda. Det synes å være basert på Gulag koloniserings-program for provinser og forhånds-assimilering i potensielle satellittstater. De kulturer er omtalt i UU 2014.juli.04, UU 2014.juni.13 og UU 2014.juni.06. Kort sagt er det hele forberedelse til Spillet CdE (Coup d'Etat). Disse ekstrem-narsissistiske '68 med Ødipus & Elektra-komplekser, tilslørt som sosiale kollektive helter, kunne ikke skjule sin skrekkblandede fryd over masse-psykopatiske patriarker som Lenin, Stalin, Mao og Pol Pot. Så bør det da heller ikke være tvil om denne kollektive mentale pandemi ble rotfestet og spredde seg relativt uforhindret fra universitetsmiljøet, til offentlig sektor og spesielt målbevisst til folkeskolen.

De små barn, disse blivende statsborgere, er særdeles lett påvirkelige. De blir nærmest forsvarsløse mot den organiserte S-E innflytelse og dominans, særlig i et lukket klasserom over en 10 års periode. S-E utvikler celler av S-I kulturer (se UU 2014.jan.10). Derfor er det avgjørende viktig at hver eneste celle, skoleklasse, ikke får utvikle anti-menneskeretts-kulturer med uopprettelige massive skader på personer og samfunn. Men nettopp dette preger ekstreme sub-kulturer av pedokrater i folkeskolene. Den såkalte 68 generasjonen fra universitetene ble i stor grad pedagoger og pedokrater i folkeskoler. Nå er faktisk 68'erne den eldste og mest dominerende generasjon folkeskolene. Hensikten til det anti-demokratiske regimet er dermed ikke primært å utvikle borgernes livskvalitet ved selvrealisering, - tvert imot.

Opplyste og intelligente borgere anses heller som en trussel mot satellitt-stater og de regimer. Dermed er prosessen psykopatisk trellbinding med asosialisering ved TOL og Jante Spill. Prosessen kan bli særlig effektive når pedokrater selv har traumatiske psyke med sterke behov for projisering. Barna blir et naturlig miste-motstands-vei. Skoleklasser kan bli som 'hønse-gårder' med hønemor, hakke-kyllinger, hane-far og ex-rivaliserende broilere. Dermed blir skjermede klasserom den nødvendige forutsetning for dyrking av Superior-Ego / Superior-Id hvor den såkalte 'øgle-hjernen' dominerer. Som noe 'sosiofili' og 'psykisk pedofili' kan de mindreårige bli forsvarsløse mot psykiske overgripere. Dermed er det avgjørende viktig med særlige psykologisk og psykiatrisk re-evaluering av alle pedagoger. Selvsagt skal ikke traumatiserte, sosiopatiske, psykopatiske, samt fysiske eller psykiske pedofile pedagoger, få slippes løs i 'hønsegården'. En effektiv hurtigløsning kan være å førtids-pensjonere skadelige 68'ere.

Det er selvfølgelig stort sett positive erfaringer som barn og foreldre i både norske og danske folkeskoler. Allikevel er noen erfaringer hvor enkelte pedokrater synes å ha mistet forstanden for demokrati. Det er så alarmerende at det gjentas her (se UU 2013.nov.15 og UU 2012.April.27): «Tross ethvert barns menneskerett til utdanning misbruker folkeskolens pedagoger 'veto-rett' ved diskvalifisering ('ikke utdannelses parat'). Men når pedokrater 'diskvalifiserte' 1366 elever, som allikevel ble godkjent til opptak av gymnasiet i 2012, er det massive brudd mot menneskerettigheter dokumentert. Tallet er selvsagt langt høyere med de som ikke orket ekstrarunder mot overmakten. Dette beviser at prosessene er politiserte Jante Spill i praksis. Utvalgte elever stemples urettmessig: 'Du ikke skal tro de er noe (for gymnaset)'. Årsaken og motivet ligger tydeligvis ikke hos elevene eller gymnaset, men hos folkeskolens pedokrater. Profitt-motivet er sannsynligvis at 10 elever med 1 års strafferunde gir 1 ekstra pedokrats arbeide (i stedet for gymnaslærer). Den kollektive egoisme tilsier at en pedokrats årslønn er mere verdt en 10 elevers og 1 gymnaslærer.

Et annet eksempel er nevnt: «Det var en særdeles spesiell spesialpedagog som arrangerte Spill og fikk sparket en gutt i året, primært de med utenlandske røtter. Kort oppsummert synes konseptet å stemme med Spillet LYAHF (Let's You And Him Fight). Det matriarkalske pedokrati synes å belønne feminine reaksjoner og straffe maskuline, - dvs det er akseptabelt å bli 'ked af det', men ikke å bli 'vred af det'. En erfaren og målbevisst pedokrat kan enkelt 'vippe barn av pinnen' følelsesmessig og deretter henvise til skolepsykologer for uakseptabel reaksjon. Det synes at den patriarkalske folkeskole, med fysisk vold ved spanskrør, er overtatt av matriarkatet, med psykisk sosial vold.» En matriarks 'øgle-hjerne/Id' styrer mentale 'nebb og klør', - også i sosial-psykologiske Spill.

Spesielle spesialpedagoger misbruker erfaringsvis psykiatri-byråkratiet som personlig makt-middel i sosial-psykologiske Spill. Som foreldre havner man hurtig i sosiale konflikter og utfrysning hvis sterke matriarker i Jante Spill føler seg konfrontert. Det aktiveres utvilsomt et kollektivt nettverk og kultur av 'hønse-mødre' hvis prosesser for utfrysning, mobbing og asosialisering blir bemerket. Det kan ende ut i en rekke møter med mangfoldige avdelinger med psykologer som tydeligvis ikke finner diagnoser i samsvarer med pedokraters uprofesjonelle påstander. Man blir kasteball for projiserende avdelinger. Følgelig kan det være en forklaring til hvorfor Danmark har særlig høyt nivå av anti-depressive 'lykke-piller', anti-hyperaktiv medisin ADHD, stempling som 'psykisk syke', alkoholkonsum, narkotika og skilsmisser. Det hele fungerer som masse-psykopatisk anti-borgerlig assimilering. Dessuten er som nevnt hypnose ren underholdning i Danmark hvor selv ungdom kan lære 'psykotiske' hypnose-triks via YouTube. Den slags er omtalt i UU 08.juli.2011. Videre har den store danske medisin-industri behov for høy offentlig omsetning og mange 'forsøkskaniner'. Konseptet ble tilsynelatende testet ut på grønlendere før dansker, hvor depresjons- og selvmords-rate var høy. Det gir noen særlig sosial-psykologiske betraktninger om de sær-rettigheter det maoistiske Kina blir gitt for Grønland ved bl.a. uran-utvinning, sosial dumping og planer om arbeider-bordeller. For øvrig er temaet og TV serien Lykke omtalt i UU 13.Juli.2012 og vil bli gjenopptatt i et senere UU.

Tross all positivitet i forbindelse med folkeskolen, sitter en igjen med et klart inntrykk at folkeskolen har betydelige system-feil fra det forrige århundre, - og at det ikke selv har evne eller vilje til å nødvendig forbedringer. Pedokraters kollektive egoisme overgår barns menneskerett til nåtidens utdanningsbehov. Barn har så mye realistisk og relevant å lære og har ikke tid til alle de ideologiske sosialisering-dogma. Nye

undervisningsformer er mye diskutert utenfor statsmonopoliserte media. Det anbefales sterkt å se for eksempel de foredrag fra TED videoer under, - samt alt annet man finner interessant. Kort sagt må man lære av hvordan barn og ungdom engasjert lærer i dag. Det er mye ved IT, sosiale media, foredrag på TV, interaktive øvelser og samarbeide i grupper. Elever med særlige høye eller lave evner på enkelte områder kan nå enkelt få sine spesial-sydde undervisnings opplegg. Dette vil koste mindre – ikke mere. Som nevnt sier OECD at Norden, og spesielt Norge og Danmark, har overpris, overtidsforbruk og særlig dårlige resultater. Men offentlig sektor må ikke gå i 'IBM'-fella flere ganger. Man blir bedratt av 'Business Machinen' og trelldes til noe dyrt og dårlig i lengden. Dessuten har de nå definitivt blitt av med din demokratiske subkultur. Se UU 2014.april.04 og tidligere relaterte.

Gjennomslaget for en Innovativ folkeskole i Norge, Norden og øvrige Europa ligger i den overordnede lovgivning/traktat om Konkurransereglene. EU og EFTA nasjoner er lovpliktige til å gi 'skolepengene' til de skoler som foreldre og barn velger. Det er med andre ord ulovlig av offentlige myndigheter å forfordel enkelte skoler, så som offentlige på bekostning av alternative skoler. I UU 2013.okt.04 er det forklart om nødvendige innovasjoner innen offentlig produksjons og tjeneste-leveranser og hvordan det lovmessig skulle ha vært påbegynt for 20 år siden. Straffeloven burde selvfølgelig anvendes mot korruperte offentlige tjenestemenns omfordelinger. Kriminaliteten skyldes hovedsakelig omstendigheter som er beskrevet i UU 2013.sept.20 og om NRK's Brennpunkt 'LO sitt store comeback'. (Se UU 2013.aug.23.)

Med lovlig bruk av loven, vil følgelig innovative skoler kunne få utvikle undervisning tilpasset dagens muligheter og behov. På sikt vil naturlignok foreldre og barn velge de typer skoler og offentlige skoler vil omsider tilpasset seg dagens nivå. Det handler ikke nødvendigvis om endret eierstruktur, men om avmonopolisere statsdominante kaldkrigs kulturers behov. Man kan godt se for seg utvikling til 50% offentlige folkeskoler, 50% Livskvalitativ praktisk utvikling, samt den nødvendig opplæring og trening i å bli en myndig og ansvarlig borger i samfunnet. Fjernundervisning til de beste kilder kan gi ressurser til andre viktigere skoletiltak.

De legendariske konsert 'The Wall' ble stoppet med gruppen Pink Floyd sin splitt. Historien er tilegnet den tidligere vokalist Syd Barret som stadig fjernet seg mentalt fra både publikum og band. Til sist ble han etterlatt på en institusjon. Roger Waters fikk gjenopptatt konsertene i anledning nedrivningen av SU/Moskva sin schizofreni-fremmede mur i Berlin. Denne UU 'Another Brick In The Wall' er selvfølgelig spesielt dedikert det anti-demokratiske pedokratiet i folkeskolen med håp om dette århundres demokratisk kontra-revolusjon etter 68'ernes feilslåtte og massivt fordervelse av sivilisasjonens fundament, - barna og skolen.

Fremføringen 'Live in Berlin' ble et historisk konsert med mange gjestartister som Rick Danko, Levon Helm and Garth Hudson of The Band, The Hooters, Van Morrison, Sinéad O'Connor, Marianne Faithfull, Scorpions, Joni Mitchell, Paul Carrack, Bryan Adams, Albert Finney, Jerry Hall, Tim Curry and Ute Lemper. Cyndi Lauper og Thomas Dolby er gjeste artister for denne fremførelse.

Ekstra UU

Denne ekstra UU, 'Next' med Alex Harvey, er en gammel favoritt fra den tid. Egentlig er det en cover-versjon av Jacques Brel sin 'Au Suivant'. Den skotske Alexander James Harvey var artist i 30 år og legendarisk kult aktør med musikalske talent. Hans live opptreden var som teatralisk kabaret. Jacques Brel, er en høyst anerkjent komponist og artist. Han anses som en mester av stilen og har influert artister som David Bowie, Alex Harvey, Leonard Cohen, Marc Almond and Rod McKuen. Den selvlærte gitaristen Alistair Macdonald "Zal" Cleminson oppnådde også en kultstatus med sitt klovnekostyme og egne plater. Han spilte også for bandet Nazareth.

Teksten beskriver egentlig traumatiske opplevelser i kollektiv 'bordell tjenester' for unge soldater. Den slags praktiserte ikke de norske militæret – selvfølgelig. Allikevel kommer frem minner om folkeskolens gymnastikk, vaksiner og helseundersøkelser (hvor en klassekamerat ble fratatt en testikkel) og tannlegen (som boret uten vann eller bedøvelse og ga oss plomber med kvikksølv). Vi satt skrekkslagne i klasserommet og ventet på at døren skulle åpnes og det ble sagt «Next».

Sosioatiske RAF kulturer ble erfaringsvis etablert i andre organisasjoner enn folkeskolen. Fremdeles husker jeg med gru hvordan unge 68'ere trenet til Spillet CdE på KUFM. Som unge speidere og med godtroende foreldre ble vi med humor og hygge sakte utsatt for speiderens anti-teser i praksis. Som 14 åringer ble vi sosialisert til å drikke, røyke, stjele, se pornofilmer, samt «å være aldri berett» og «aldri gjøre gode gjerninger». Helt ærlig, - med ettertanke som ansvarlig foreldre, - ville jeg maksimere ressurser for å stoppe den slags masse-psykopati mot mine barn. Hadde ikke kulturen vært så massivt infiltrert i mange samfunnslag, hadde antagelig mine venner, som nå er døde, narkomane, sex-misbrukt, innlagt eller fengslet, - sluppet unna i tide. Jeg er endog usikker på hvordan jeg hadde reagert om jeg møtte noen av de masse-psykopater ansikt-til-ansikt i dag.

Mange organiserte ungdomskulturer går hinsides det ekstreme. Uten å gå for mye i detaljer, - peker det meste mot roten til det meste. Hele pedokratiet er uløselig bundet til LO med nærmest frivillig tvangsmedlemskap av pedokrater. Fremdyrkingen av alle tilsvarende kulturer skjer selvfølgelig via AP/LO sin felles ungdomsorganisasjon AUF. Inntrykk om hvor omfattende, dypt og ekstremt det hele går indikeres ved 22 juli 2011. Det var i høyeste grad et rød-brunt intern oppgjør.

DeLillos - Hjernen er alene

2014.juli.04

Ukens Utvalgte:

Hva vi ønsker og hva vi gjør, bunner i hvordan vi tenker. Som nevnt er betydelige 'arvesynder' slept med fra det forrige århundre. De skal selvfølgelig endres, men det kan være vanskelig å se hvordan. Selmer og Spillet CdE velges derfor som eksempel til forklaringsmodell. For det er høyst sannsynlig tusener av tilsvarende skjebner i Norge og Norden som behøver hjelp til å fri seg fra den destruktive trelldom. Det handler kort sagt om å hjelpe hverandre ut av irrasjonelle tvangstanker og angst. Dette mini-tema blir en fortsettelse fra forrige UU og noen UU fremover.

Fenomenet Selmer er nevnt flere ganger og spesielt i UU 2013.juli.05: «Mere personifisert er historien om den 15 årig gutt 'Selmer'. Han ble en offergave til SU Imperiet for å opplæres til spionasje i Norge. Det er en sjeldenhet av en dokumentar fra NRK Spekter ('Spionprogrammet Norge ikke fikk se', se link under), særlig fordi den ble ulegitimert forhindret av statsmonopolet NRK i 30-40 år. Historien gir en menneskelig beskrivelse om hvordan en ufrivillig person kan fremme Stats-terror og hvor hardt det kan være å komme seg ut av trellebindingen. Historien forteller også om den permanente frykt for at SU skulle 'nuke' norske byer og hvordan U2 flyet sannsynligvis ble 'skutt ned'. Man kan selvsagt tvile på enkelte av Selmers uttalelser, så som at hans reiser til Oslo var kun for å feste og at han ikke kjente noen andre spioner. Til sist

ble Selmer dømt av Stat for forræderi, men ble også benådet av Tronen. Alt-i-alt dokumenteres et eksempel på den massive trellebinding av uskyldige borgere for å ufrivillig tjene et destruktivt Imperie.»

Selmer opererte under det SU-US paranoide klimaks med Cuba og U-2 krisene. Etter 'hjernevask' - programmet i SU, nære Finnmark, visste han godt hva SU var i stand til. Han var antagelig vitne til SU sin fiktive og massive atomkrig ved Nordpolen. Som nevnt i UU 2013.juli.05: «SU detonerte 224 atombomber, med sprengkraft 100 ganger all sprengkraft i WW2. Det tilsvarer en totalutslettende atomkrig i Nordpol-området og forårsaket følgelig en såkalt 'Nuclear Summer'. Tsar bomba, som ble detonert i ozonlaget, var 10 ganger større enn all WW2 sprengkraft tilsammen.» Som nevnt i forrige UU anså SU Norge som sin nordlige vollgrav mot Atlanterhavet. Finland/Finnmark ble ansett som SU sine territorier med rett til okkupasjon og annektering. NATO ble følgelig ansett som en hovedtrussel med potensiell invasjon via nord-området. Men den gjensidige paranoia synes å ha passert enhver sikkerhets-foranstaltning. Det var en reell fare for gjensidig selvutslettelse.

Med den kunnskap var Selmer en av de få nordmenn som visste hva den kalde krig kunne lede til. Når han selv satte opp radio-utstyr og rapporterte til SU visste han utmerket godt at han selv ville bli medansvarlig for en eventuell 'nuking' av Bodø, som var en base for U-2 flyet. Dessuten ble han etter sin ungdom klar over at SU sin hovedfiende ikke var de forhatte nazister mere, men NATO og følgelig Norge. Han innså antagelig bedraget han var indoktrinert med, hvilken terrorisert trelldom han var innviklet i og at SU var den største trussel mot Norge og verden forøvrig. Så han avslørte seg for de norske myndigheter ved påfallende klønete handlinger med radioutstyret. Han ble arrestert og måtte forklare seg. Dermed var han antagelig langt mere heroisk enn NRK og myndighetene fremstiller han.

Sunn psykologi er beskrevet i UU 2013.mars.08 og sunn sosiologi i 2013.mars.15. Videre er normal galskap beskrevet i 2013.april.05 og destruktiv galskap i 2013.april.12. Det er hevet over enhver tvil at Selmer ble systematisk utsatt for det siste. Tilsvarende nevnes i UU 2014.juni.06: SU Gulag sine 50 arbeiderleire, over 400 arbeiderkolonier, med 14 millioner fanger, 6 millioner deporterte, 5 millioner korttidsfanger, samt at 1-10 million borgere døde der. Langt flere fikk selvfølgelig alvorlige psykiske trauma. Videre omtales SU sin sosiale psyke som: «Dette kan anses som en mental pandemi med opphav i Stalins psyke. Hvis noen skulle være i tvil om mentaliteten, kan man simpelthen lese litt om Stalin og psykopati på wikipedia. Hurtig ser man at Stalin ville få topp-score på psykopati-tester.» Dette system var Selmer et offer for. Riktignok finnes ikke det systemet i dag i den form, men man kan godt se tilsvarende arvesynd i det Mao-stalinistiske Kina, muslimske teokratier og andre nyere diktatur. Men selvom Selmer klarte å bryte seg ut av situasjonen er det fremdeles tusenvis som ikke makter det. Mange behøver hjelp, men reell hjelp kommer tydeligvis ikke fra egne myndigheter.

Selmer var fastlåst i flere Spill. «Spill i sosialpsykologisk forstand ble nevnt i forrige UU og introdusert i UU 2013.mars.15 og baseres på boken 'Games People Play' av Eric Berne. Nye selvdefinerte Spill ble introdusert i UU 2013.mai.17. Som tidligere nevnt er såkalte 'hemmelige tjenester' simpelthen Spill og deres eksistensgrunnlag. I Selmer sitt tilfelle gjelder spesielt Spill i kategoriene 'Underworld Games' (Cops and Robbers, How Do You Get Out of Here og Let's Pull a Fast One on Joey) og 'Life Games' (Alcoholic, Debtor, Kick Me, Now I've Got You, You Son of a Bitch og See What You Made Me Do). Men disse Spill var spin-offs i de store SU-US Spillene CdE (Coup d' Etat). CdE er i nær slekt med LYAHF (Let's You and Him Fight) og DAC (Divide And Conquer). I alle tilfelle, Selmer gjorde det eneste rette med anti-tesen, - å avsløre Spillet og fjerne Gevinsten. Riktignok var ikke motivet så edelt, - han innså at et ww3 kunne bli menneskehetens Game-Over. Han fant ut at den største sjansen for å redde livet var å hoppe av til motparten, - sine egne. Så viste det seg at behandlingen av norske myndigheter var langt fra så grusom som indoktrineringen tilsa, - tvert imot. (Spillet CdE vil bli spesielt omtalt i et senere UU, som et 4 grads Spill med 3 varianter for Stat, Trone og Tempel.)

Steven Spielberg planlegger en film om spionflyet U-2 med Tom Hanks i en viktig rolle. Den offisielle historien er at flyet ble skutt ned over SU på flyturen fra Pakistan til Bodø. Selmer, som var indirekte involvert, gav en annen versjon enn den offisielle historien. I følge ham plasserte 2 SU agenter en tidsinnstilt bombe i halepartiet. Hvis sant, avslører denne lille detalj særdeles viktige korreksjoner til den

allmenne virkelighetsoppfattelse. Det ene er at agenter som Selmer relativt enkelt kunne skaffe ytterst hemmelig informasjon om motpartens planer. Dessuten opererer SU agenter internt på US baser relativt fritt med taktisk sabotasje. En konklusjon blir at man ikke helt vet hva som er sant og usant i kald-krigs dekk-historier fra både SU og US. De publiserte jo begge usanne dekkhistorier i U-2 saken. Hemmelige tjenester og hemmelige agenter er jo nettopp uredelige og spiller Spill. Det blir spennende å se om Spielberg vil skape en mere realistisk versjon av virkeligheten. Det ville gjøre filmen langt mere sensasjonell og spennende. Kanskje viktigst av alt; Selmers avsløring av seg selv som RAF agent i Norge gir også tydelige indikasjoner på tilsvarende i flere andre land. Som antydning i UU 2014.juni.13 eksisterer RAF (Red Army Faction) i mere enn 100 land og selvsagt i alle de nordiske og europeiske.

Selmer sin hovedoppgave var visst å avkrefte desinfo om NATO sine aktiviteter. Hvordan klarte han så å få tak i troverdig info? Han forteller at RAF agenter skulle prøve å få viktige posisjoner i politiet og militæret, eller gifte seg inn i familier med sånne. Dermed er en betydelig infiltrering i NATO og politiet høyst sannsynlig. Men Selmer selv var ikke gift eller ansatt. Dermed leder heller tankene over til DR2 programmet "Forbrydelse under Hypnose" i UU 08.juli.2011. Videre omtales SU sin agent Rasputin sine hypnotiske meritter i UU 2014.mai.30. Det er forøvrig særlig bekymrende at kriminell hypnose er nærmest tabu i Norge, fordi ignoransen selvfølgelig fremmer nettopp det. Men i alle tilfelle, det antydning at Selmer var opplært i hypnose, og kan følgelig enkelt ha fått detaljerte info om U-2 flyets ruteplan fra Afghanistan til Bodø direkte fra betrodde, men hypnotisert militær personell. Det er nesten grenseløst hva trenede RAF agenter kan få ut av uvitende personell og uten noen spor av hendelsene.

Dermed er egentlig de virkelige konspirasjoner i Selmer-saken relatert til SU, NRK, AP/LO regjeringer, forsvaret og politiet. Dette holdes fremdeles skjult og er antagelig fremdeles aktuelt. RAF infiltrasjonen i militæret og politiet kan også forklare hvorfor de gjorde så mange utrolig åpenbare feil i forbindelse med bombeattentatet og massakren den 22 juli 2011. Se UU 08.Juni.2012 og UU 15.Juni.2012. I forrige UU nevnes den rød-brune allianse i ww2 kalt 'stalinazismen'. Som nevnt gikk de røde hardt inn for utryddelse av de brune noen år senere ved omfattende DAC og TOL Spill. Nå er det en rød-rød allianse som tydelig vises med utveksling av gjensidige hemmelige tjenester mellom Kina i Nord-området og Russland i Stillehavet. Norge har vært særdeles hardt utsatt med SU politikk utført av Kina. Kina selv har selvfølgelig ikke tilsvarende ambisjoner i Nord-atlanteren, - men det har SU i høyeste grad. Videre har 'de grønne', som også er islam sin farge, vært særlig sympatiske ovenfor potensielle terrorister. Det vises tydelig nå med våpen-trening i Syria og ISIL. Så får man et omfattende inntrykk av hvor enormt viktig '22 juli kommisjonens' rapport er for rikets sikkerhet.

Langt flere RAF agenter i Norge burde gjøre som Selmer. Alle disse trellbundne, truede og relativt uskyldige RAF agenter burde få trygghet til å bryte Spillet med garanti for en trygg og diskret arrestasjon og etterfølgende beskyttelse. Men når de så vet hvor infiltrert militæret og politiet er, gis de ikke særlige reelle sjanser. Stat er tydeligvis ikke til å stole på og Tempel er underlagt Stat. Det er kun Tronen som har vist seg lojal når nøden er størst, så som ww2 og 22/7 saken. Det var jo Tronen som ga Selmer betinget benådning.

Tronen burde lave et betinget amnesti-program for dagens potensielt avhoppede RAF agenter. Betingelsen er selvfølgelig utvilsom lojalitet i henhold til Straffeloven og Menneskerettsloven. Selv ufrivillige RAF agenter er potensielt destruktive. Det er derfor høyst ønskelig sett fra nasjonens, og ikke minst Tronens, sikkerhet. Dessuten er jo Kongen den øverste militære myndighet og har dermed evnen og viljen til å minimere RAF infiltrasjonen. Kronprinsen, den neste konge, synes å ha tilstrekkelig etikk og sunnhet på plass til å kunne ta den rolle. Det er for øvrig håp hos kronprinsen i Danmark og kronprinsessen i Sverige også. De kan forhåpentlig løfte Skandinavia ut av dette kalde-krigs mareritt.

Denne UU 'Hjernen er alene' er en spesiell favoritt, selv om den handler om fortvilet angst. Valget er i sympati for alle de ufrivillige RAF agents skjebne i Spillet HDYGOH og tanken det innebærer. Gruppen DeLillos har for øvrig en lang liste av særdeles gode norske sanger.

I et interview med Lars Lillo Stenberg skrives i tidsskrift for Norsk Psykologforening: «Tittelsporet ble skrevet allerede da han var 18 år, rett etter at moren døde. Det var et veldig hardt slag for meg, hun var en meget viktig person i mitt liv. Jeg dro alene til familiehytta på Kjerringvik, men opplevde at det kjente nå var

blitt kaldt og goldt. Familiens faste stupeplass var bare et svaberg, totalt umenneskelig, et resultat av en fjern istid. Over tid vil mennesket forsvinne og ingen vil lenger gjenkjenne stupeplassen vår som en stupeplass. En slik opplevelse var det som gjorde at jeg skrev «Hjernen er alene», forteller Lars Lillo.» «Stenberg forteller at en programleder i NRK leverte alle tekstene fra plata til en psykolog, uten å si hvem de kom fra. Psykologen anbefalte at tekstforfatteren tok kontakt for å bli behandlet. Han opplevde at det lå kompliserte depresjoner under. På spørsmål om han selv var deprimert, svarer Stenberg at det vel går an å hente fram depressive stemninger hos de fleste. Han kaller det en forutsetning for det kreative uttrykket i Norden.»

Ekstra UU

Det finnes mange versjoner av DeLillos 'Hjernen er alene', men denne prestasjon av 'Elg' er helt eksepsjonell. Det er en sterk innlevelse som gir sterke assosiasjoner til Selmers psyke, da han omsider innså det mulige utfall av CdE Spillet han som ufrivillig RAF agent var viklet inn i. Fremføringen er som en Munch versjon av Selmer, som 'Skriket', som etter å ha sett Tsar Bomba og blitt truet med tilsvarende for sin barndomsby.

Øivind Elgenes (Elg) gjør en særdeles sterk og personlig fremførelse i ren Joe Cocker stil. Bandets kunstneriske prestasjon, samt fortolkning faller neste i skyggen av personskildringen. Men det er vel så profesjonelt. Sangen er etterfulgt av to særlig berørte personer; Lars Lillo-Stenberg og Alexander Rybak. Dagbladet anmelder stykket så her: «Elg legger hver eneste centimeter av sin lange kropp inn i denne tolkningen av DeLillos' kanskje viktigste låt. En sår og melankolsk sang blir forvandlet til mektig rock med et vanvittig trøkk, der Elg utnytter sitt stemmepotensial til fulle til han går i ett med sangen. Jeg får en slags følelse av at dette må være temasangen til en rockopera om ensomhet. Temaet blir enda større når det framføres på denne måten, av en artist som gir så mye av seg sjøl at han blir andpusten og ser ut til å bli både fysisk og psykisk sliten! Det blir for sterkt for Rybak, som blir satt ut og gjemmer hodet i hendene. Lars veit ikke helt hva han skal si.»

Som en lille ekstra-ekstra UU vises her opera fremførelsen av stykket. Til sist, - ute i mørke, kan man godt høre at det er riktig mange hjerner alene. Det blir som gruppen Police sin 'Message in a Bottle', hvor man til sist innser at man slettes ikke er mere alene enn det man tror.

Arild Nyquist og Terje Wiik - Vaffelekspert

2014.juni.27

Ukens Utvalgte:

For denne ny-gamle nasjon med en demokratisk innovativ konstitusjon, må en bare spørre gjentatte ganger: Hva gjør vi så? Det er langt mere enn vaffeleksperter her selv om Nordens søsken synes å ha

kommet enda lenger. Denne UU blir følgelig en omtale av forrige århundres arvesynder og dette århundres potensialer. De faktiske forhold baseres på 22/7 kommisjonens rapport og den kommende Produktivitets-kommisjonens rapport.

Som nevnt i forrige UU konkluderer 22/7 kommisjonen nødvendigheten av at: «Ledere på alle nivåer i forvaltningen systematisk arbeider med å styrke sine egne og organisasjonenes grunnleggende holdninger og kultur knyttet til; Risikoerkjennelse, Gjennomføringsevne, Samhandling, IKT-utnyttelse og Resultatorientert lederskap.» For å si det rett ut på 'godt norsk': Dette er den ultimative kritikk av norsk forvaltning om manglende evne og vilje til å gjøre det nødvendigste selv når nøden er størst. Tilstanden er ikke forbedret av AP/LO regimet før, under eller etter ww2 – tvert imot. Derfor er det avgjørende viktig at AP/LO ikke dominerer det folkevalgte Parlamentets beslutning, og Regjeringens ansvar, til å gjenreise forvaltningen fra det forrige århundres øder. Denne kritikk er tidligere omtalt i UU tema Livskvalitet og Valget og spesielt i UU 2013.aug.09 til UU 2013.okt.18.

De norske rapporter er i samsvar med OECD sine rapporter. Den nye norske regjering har allerede relatert seg til OECD (Organization for Economic Cooperation and Development). Som nevnt i UU 2013.okt.04: «Det er avgjørende viktig å forbedre de Offentlige Tjenesteleveranser, når OECD så 'diplomatisk' påpeker det. Generelt sier OECD i rapporten 'Government at a Glance' at norske Offentlig Tjenesteleveranser ytes med overbemanning, overtid og overprising. Det tyder på dels uprofesjonelle Tjenesteleveranser, - som igjen skyldes uprofesjonell Forretningspraksis. Dette fortjener ikke Borgerne. Dyptgående og omfattende endringer er nødvendig nå.» Det er selvfølgelig mange andre statistikker som viser hvordan Norge er i forhold til andre nasjoner. Goodcountry.org gir innsiktsfulle og interaktive fremvisninger. Norge, sammen med de andre nordiske land gjør det relativt godt, men man bør merke seg at Norge er relativt dårlig på vitenskap og helse og særlig fremme på miljø. Konklusjoner blir selvfølgelig at vi behøver å forsterke offentlige helse- og undervisnings-tjenester og kan godt nedtone politisk overfokus på miljø-argumenter.

Det er godt at Norge også har etablert en Produktivitetskomisjon med systematisk gjennomgang av potensielle innovasjoner. Regjeringen inviterte borgerne til innspill, - hvilket jeg gjorde i et 14 siders dokument. Tema og formuleringer ble naturlig nok særlig objektivt og diplomatisk formulert. Kort oppsummert omtaler dokumentet 'Kvalitative innovasjoner av infrastrukturer basert på dette århundres tekniske, juridiske og demokratiske potensialer'. Det gir generell teori om produkt- og tjeneste-kvalitet, naturlige fordelinger av offentlige og kommersielle ansvar, omtale av alle typer infrastrukturer og særlig fokus på IT, hvordan europeiske nasjoner samarbeider om løsninger, generelt om innovative samarbeid mellom offentlig og privat sektor, nødvendigheter innen menneskelige ressurser og omorganisering, kvalitativ prosjektstyring og forhandling, samt om de naturlige samarbeidspartnere for Norge. (Se link Produktivitetskomisjonen - forslag VGS.pdf.)

Spesielt gis forslag om et Borgerdepartement og samling av offentlig og privat næring i et felles Næringsdepartement med hvert sitt direktorat. Dette omtales i UU 2013.sept.27 og ga et grunnlag som til forslaget til produktivitets-kommisjonen. «OECD skriver med rette at antall Departementer bør reduseres. Dessuten indikerer den nye Regjering at Departementene bør restruktureres. Noen Departementer ligger alltid fast, mens kompromiss- og 'Hummer og Kanari'-departement godt kan fjernes eller konsolideres.» «Vi bør selvfølgelig beholde: (1. Statsministerens kontor), 2. Finansdepartementet, 3. Utenriksdepartementet, 4. Forsvarsdepartementet, 5. Justis- og beredskapsdepartementet og 6. Kommunal- og regionaldepartementet og 7. Administrasjonsdepartementet. AD bør rendyrkes så 'Kirke' blir et Direktorat og flyttes. 'Beredskaps' delen flyttes fra 8. JD til 9. FoD. Under 10. NHD kan følgende omdannes til Direktorat: 'Fiskeri- og kyst', 'Landbruks- og mat', 'Miljøvern', 'Samferdsel' og 'Energi', samt nyopprettelse av et Direktorat for 'Offentlige Virksomheter'. Kanskje viktigst av alt, - det burde opprettes et nytt 'Borgerdepartement' hvor følgende omdannes til Direktorat: 'Arbeid', 'Kultur', 'Kunnskap', Helse- og omsorg' og 'Barne-, likestillings- og inkludering'.»

Dokumentet "Erfaringer fra Danmarks Produktivitetskommission" ligger allerede tilgjengelig på nettet. Man kan forvente lignende konklusjoner i den kommende norske versjon fordi utfordringene har samme opphav. Danskene konkluderer at; produktiviteten er for lav og at konsekvenser blir relativt lave inntekter,

høyer etterspørsel, men mindre leveranser og at det blir nødvendig å fremme tjeneste-næring fremfor industri. Effektiviseringspotensialet i offentlig sektor er ca. 10% og anbefalte tiltak er skjerpet konkurranse ved lovgivning, deregulert marked og mål på offentlige ytelser. Det bør stilles større krav til lærerutdanning med gjennomgripende ettersyn av ungdomsutdanningen. Offentlig sektor bør produsere resultatorienterte borger-tjenester, delegere ansvar, levere info om resultater, gi belønning relatert til resultater og kvalitetssikre ved ekstern revisjon. Kanskje viktigst av alt, - offentlige ledere skal holdes ansvarlige for sine resultater så som andre ledere i samfunnet.

Hvordan offentlig sektor innviklet seg så ineffektivitet i det forrige århundre, har selvfølgelig direkte sammenheng med de dominerende krigskulturer før, under og etter ww2. Offentlig sektor var i den andre halvdel av århundret et kald-krigs slagmark og det ble ansett som normalt og dels akseptert. Enkelte subkulturer legitimerte og fremmet organisert kriminalitet ved stalinistiske mafia-kulturer. I den kalde krigen utviklet norske RAF celler seg til anti-nasjonale kaldkrigs-guerilla med overnasjonal lojalitet til Moskvasesene. Autonome rød-brune RAF celler overskred Straffelovens rammer under SU regimets beskyttelse i påvente av deres varslede invasjon, - som andre europeiske nasjoner ble utsatt for. Samfunnsskadelige aksjoner, opprør og misbruk av streiker skapte mistillit til samfunnstopper for å utskifte dem med moskvafille aktører. Nasjonal illojalitet rangerte høyere enn kompetanser fordi okkupasjonsmakten ville være diktatorisk. Men invasjonen kom aldri og samfunnsskadene var selvfølgelig kun til det destruktive. Nå er det skapt en notorisk aggressiv arbeiderkultur uten erindring om dets destruktive opphav. Derfor behøves det inngående interne revurderinger av holdningene til denne stalinistiske mafia-kultur. Se RAF-LO omtale i UU 2014.juni.13.

Med det sprengkraftige dokument fra 22/7 kommisjonen, og dets slakt av offentlig forvaltning, er det gjort tydelig for hele verden at dette går ikke lenger. Videre viser de etterfølgende år at arbeidskulturer i offentlig sektor overhode ikke har evne eller vilje til å gjøre de åpenbart nødvendige forbedringer. Det skal finnes måter å redde nasjonen, selv om mafia-kulturen intuitivt vil protestere og motarbeide. Ansvar for aktiviteter og passiviteter blir avgjørende viktig. Som man reagerer ovenfor privat sektor skal man selvfølgelig også reagere ovenfor den offentlig sektor – med det folkevalgte demokratisk parlamentets lovgivning. Straffeloven angår spesielt reaksjoner på offentlig kriminalitet. Det er derfor helt nødvendig å skape en slagkraftig avdeling for Offentlig sektor av Økokrim, som faktisk vil og kan avkriminalisere forvaltningen. Se også 2013.aug.23.

Norges var kun en brikke i det forrige århundres globale geopolitiske Spill. Det ble kort sagt påført en anti-tese, en negativ kollektiv mentalitet, i forhold til samfunnets stabilitet, produktivitet, åpenhet og demokrati. Da Roma3/Moskva konverterte imperiet fra Trone/Tempel til Stat visste de selvfølgelig at sine napoleonske borgerkriger kunne utsette Moskva for invasjon igjen. Dermed var det nødvendig å lave en 'kinesisk mur' rundt SU som inkluderte og lammet Europa. Begrepet 'Festung Europa' lyder dermed heller som en delegert oppgave til tyske stalinister for å blokkere UK og US ute fra redningsaksjoner i Europa. Denne forklaring kan understøttes av 'Molotov–Ribbentrop Pact' hvor den rød-brune allianse kan betegnes stalinazisme. Europeere var naturlignok for en alliert støtte fra UK og US, - så det schizofrene Nazi-tyskland endte ut i to-fronts krig mot UK og SU.

Uansett krigshistoriske detaljer, - mentaliteten at Norge er den nordlige ytre vollgrav for Moskva, sitter brent fast som en underbevist kollektive tvangstanke. Følgelig er norske sub-politiske RAF kulturer for barrierer og imot effektive infrastrukturer, åpenhet og demokrati. I dette århundres åpne globalisering er den slags fobiske tvangstanker ikke så rent lite latterlige. For å komme ut av hemningene, må det behandles som personlige traumatiske fobier. Man skal hjelpe hverandre med å overkomme irrasjonell angst. Dette blir et hovedtema i neste UU.

Dermed er det nødvendig med bedre forståelse for politiske holdninger, motiver og Spill. Dagens politiske kart og utvikling er villedende. Forslag til 4D og 5D modeller omtales teoretisk i UU 2013.april.19. «En 3D modell vil gi andre oppfattelser av den politiske verden enn dagens 1D modell. Dessuten kan organisasjoners navn kan være misvisende. Forvirrende er at danske Venstre tilsvarer norske Høyre, samt at danske Radikale Venstre (RV) er et borgerlig parti i regjering, mens det norske RV (Rød Valgallianse) var

en ekstremistisk fiasko. Videre har 1D modellen en rekke partier 'i midten' som vil omplasseres mere beskrivende i 3D. Norske SP (Senter Partiet) er villedende, da det ikke er i sentrum av hverken 1D, 2D eller 3D. Politisk har SP beveget seg fra Trone til Stat og er trellbundet med stats-subsidier. KrF hører mere til Trone og Stat enn Tempel pga familiepolitikken og Statskirken. FrP/DF (Dansk Folkeparti) er Trone-orientert, med fraksjoners kraftige retorikk om anti-Stat. Mest ekstreme er Stats-partiene Rødt og EL (danske Enhetslisten) da de fremdeles fremmer borgerkrig som 'nødvendig' middel for sine maktambisjoner. Nasjonal Sosialister tilhører, som navnet tilsier, Statspartier men er slått ut av neste generasjon, - Nasjonal Kommunistene.»

Mere praktisk omtales modellen ved at: «Politiske organisasjoner forandrer seg over tid. Det kan fremstilles i en 4D modell hvor 3D modellen viser bevegelser over tid. Begreper som 'konservativ' og 'radikal' er ikke bestemte plasseringer i 3D, men vises som stillstand og bevegelse. Organisasjoner kan endog være relativt konservative eller radikale over tid. Antagelig er LO den norske regjeringens mest konservative organisasjon til tross for dets ekstrem-radikale opphav. På den annen side vil 'konservative' organisasjoner fra det forrige århundre være relativt radikale nå, siden de er i sterkt opposisjon. 4D modellen vil også kunne vise organisasjoner som kommer og går. Spesielt vil sammenhengen av kortvarige ekstreme organisasjoner vises å være pulserende konstanter i 3D modellen, så som rekken NKP, AKP, AKP-ML, RV og Rødt.» En nyere kuriositet ble åpenbar under Danmarks valg til Europa Parlamentet. Den mest profilerte DF kandidat fremsto særlig anti-europeisk og hadde argumenter i samsvar med Putin sine under det Ukrainske regjeringsskifte og Moskvas annektering av Krim. Det kan tyde på at Moskva finner helt nye politiske relasjoner i Europa og at det forrige århundrets lojaliteter ikke vil bli overholdt i dette århundre.

RAF, LO og anti-demokratiske partier er alle brikker i SU Spill. I UU 2014.juni.13 ble det definert et nytt sosialpsykologisk Spill kalt CdE (Coup d' Etat) og beskrives således: «I de to foregående UU beskrives foranledningene til ew1/ww1 og ew2/ww2 som Spill for galleriet. Viktige kratier ble utsatt, så som demokratiet, aristokratiet og teokratiet. Spill i sosialpsykologisk forstand ble introdusert i UU 2013.mars.15 og baseres på boken 'Games People Play' av Eric Berne. Nye Spill som TOL, DAC og DSITDEN ble senere introdusert i UU 2013.mai.17 under temaet 'Livskvalitet og Imperier'. I denne sammenheng blir det naturlig å definere et nytt Spill CdE (Coup d' Etat, eller Kupp). Kupp kan Spilles mot Trone, Tempel og ikke nødvendigvis Stat. Spillet CdE er i nær slekt med LYAHF (Let's You and Him Fight) og DAC (Divide And Conquer). Dets dramatiske gimmicks/regler, ulterior/skjulte, moves/trekk og spoils/gevinster plasserer Spillet i 3. eller endog en 4. grad. Videre er Spillet overordnet, så det kan understøttes av de fleste andre Spill i alle kategorier som 'underworld', 'party' og 'sexual'. I UU 2014.jan.10 introduseres også omsider et nytt kollektiv Ego-state kalt Superior-ID (S-I). Masse-psykotiske S-E (Superior-Ego) Spill synes derfor å appellere til individers kollektive S-I som 'mobben' og 'bevegelser' hos såkalte 'autonomer' og 'separatister'. DSITDEN (Jante) er et typisk Spill for S-I. S-E og S-I blir spesielt relatert til det opprinnelige Roma1 sine Praetor Guard', Roma2 sitt system av Praedors og Roma3 sin videreutvikling til Oprichnina (Moskvas hemmelige politi).» Spillet og forventningene SU S-E kjørte med de 3 skandinaviske S-I LO skulle i utgangspunktet være like voldsomme som Moskva selv gjorde mot sin Trone, Tempel og Folket. Det feilet i Norden, - så - ingen massakre - intet Statskupp ga ingen invasjon - ingen belønning. Det ble med DAC (Divide & Conquer) Spillet, som fremdeles henger som et DSITDEN (Jante) nemesis over Norden, - det ses særlig på apatien i Nordisk Råd og Ministerråd. (Se bl.a. UU 04.nov.2011.)

Det forrige århundrets stalinister forventet et comeback fra SU når deres tidligere allierte nazister var ryddet av veien. «I'll be back.» I mellomtiden satset stalinister på den angivelig 'rette hest' og gjorde de forberedelser som kunne gjøres uten å straffes. Det ble bygget handelsimperier ved kooperativer som simpelthen tok den totale markedsdominans på flere kommersielle områder. (Den slags misbruk av markedsdominans er i høyeste grad ulovlig i globale og kontinentale handelsavtaler. Se UU 2013.okt.18 om rivalisering i markedet.) Til gjengjeld ble aktører lovet bedre arbeid, kameratslig nettverk og ekstra pensjon - på bekostning av de 'ideologisk vantrø'. Det må heller sies at en liten kjerne av såkalte pamper har fått det meste på bekostning av de fleste. Dessuten, den midlertidige omtale av Oljefondet som (LO's) Pensjonsfond ser nå ut til å bli kalt et miljøfond av AP. Som de røde sviktet de brune i forrige århundre, ser det ut til at de grønne vil svikte de røde i dette århundre. Det kan bli vel så dramatisk denne gang. Putin er

mere opptatt av oligarker enn arbeidere. Det skal bli virkelig interessant med kremlinologiske betraktninger på røyk-signaler fra AP/LO fremover.

Uansett hvordan det politiske kart kan fremstilles, - det skal overhode ikke være tvil om at rettssamfunnet skal fungere minst like effektivt mot offentlig sektor som mot kommersiell sektor. I UU 2013.april.26, UU 2013.aug.23 og UU 2013.des.06 omtales bedrag og korrupsjon: «CPI (Corruption Perceptions Index) viser hvor godt samfunnet oppfatter korrupsjonen. Feilaktig er det fremstilt i media at Norge har lav korrupsjon, når CPI sier at oppfattelsen (perception) er lav. Det er derfor spesielt stor grunn til å etterforske korrupsjonen i Norge, - spesielt i offentlig sektor. Det er sterkt behov for et 'Økokrim – avdeling offentlige virksomheter'.» «Kleptokratiet ble nevnt i forrige UU og er relativt ufarlig, selv om den offentlige økonomiske korrupsjon sannsynligvis er på ca. 2% av BNP, 20 Mrd kr/år. Overraskelsen over bedrageriets størrelse kan skyldes medvirkende feiltolkninger i pressen av begrepet CPI. Det er med gyldig grunn at Borgerne anser politikere som spesielt uærlige. Politiske organisert kriminalitet er overbeskyttet av Rettsvesenet og gjør dem nesten 'untouchable'. Utelukkende rekrutteringsprosessen til Parlament og Regjering via politiske partier har alvorlige svakheter, - som svekker deres kvalitet. Det blir selvfølgelig alvorlige konsekvenser også.»

Symptomene er tydelige. Norsk offentlig forvaltning er overordnet preget av mafia-regimer tilsvarende de italienske, amerikanske og ikke minst den globale mafia-patriark Stalin. Den svake norske forvaltning ble massivt infiltrert i det forrige århundre. 22/7 kommisjonens rapport viser tydelig at organisert offentlig kriminalitet er nå et kritisk samfunnsproblem. Det vil bli en hard kamp å avkriminalisere norsk offentlig forvaltning, men det er absolutt nødvendig. Så bør man kikke på hvordan US ble kvitt sine mafia-bander i mellomkrigstiden, hvordan den italienske stat omsider kriminaliserte sin mafia og at paven nå ekskommuniserer dem. Men andre metoder må til, for kjernen til Norges problem er endret med atter en modernisering av Oprichnina/Praetor og nettverk av oligarker. (Se UU 2014.mai.02.) Det tales nå om et SU v2 og vil bli omtalt i et senere UU.

Arild Nyquist og Terje Wiik ble en kult-duo i Norge på 80 tallet. Terje kom fra bandet Veslefrikk og innledet samarbeide med Arild. Deres særegne stil på albumene Epleslang og Tomme Bord var tidvis seriøse, humoristiske og lett burleske. Faktisk kan man sammenligne konseptet med band som Erasure og Pet Shop Boys i den forstand at det var en musiker og en vokalist. Den slags samarbeide mellom 2 spesielle talent har vist seg ofte særlig suksessfulle. Men denne UU er valgt spesielt pga av teksten og fremføringen. Det er en særdeles god musikalsk og poetisk prestasjon om sjarmerende ignoranse og hygge. Men det er også en langsiktig skygge-side over denne dansk-norske 'hygge-for-enhver-pris'-mentalitet. På et tidspunkt går det over til det norske begrepet 'å hygge seg i hjel'. Vi er der nå og skal selvsagt ut av det Igjen.

Jan Eggum - Kor e alle helter hen

2014.juni.20

Ukens Utvalgte:

Frem til 200 års jubileet i 2014 har Norge lavet et unikt konstitusjonelt fundament. Med den overordnede Menneskerettsloven av 1999 stiller vi langt fremme med demokratiske forpliktelser til borgerne i forhold til UN og ECHR (de Forenede Nasjoner og den Europeiske Menneskerettighetsdomstol). Utfordringen i dette århundre er å realisere disse forpliktelser. Denne UU blir dermed en avslutning av fokus på fortiden for å omtale nasjonens forhold ved dette gryende århundre og årtusen.

En kan gå så langt som å kalle 1999 for en demokratisk 'kontra-revolusjonær' re-konstituering. Dette er utdypet i UU 2013.feb.15 under temaet Livskvalitet og Grunnteori. Faktisk er Menneskerettsloven overordnet annen lov og setter borgeres rettigheter over Stat. Selvfølgelig er det siviliserte begrensninger, men borgerne har fått ukrenkelige rettigheter for; eiendom, selvbestemmelse, sikkerhet, privatliv, familieliv, arbeid, utdanning, samt friheter for tanke, samvittighet, religion, ytring og mer. Statsmenns brudd på Menneskerettsloven kan rettsforfølges ved Straffeloven. I 2012 ble Norges Grunnlov §2 endret til

å inkludere Menneskerettighetene hvilket plasserer Menneskerettsloven definitivt over alle andre norske lover. Videre ble Grunnloven i 2014 modernisert med 2 tidsriktige versjoner på bokmål og nynorsk i stedet for foreldet 'dansk riksmål'.

En tilsvarende overordnede europeiske forpliktelse ble vedtatt av Stortinget med EØS Loven. Det er opprinnelig omtalt i UU 15.juli.2011 og spesielt i UU 2013.nov.01: «Som kjent vedtok det Lovgivende Stortinget EØS Loven og Konkurransereglene i 1994. Bedriftsøkonomisk sett kan Konkurransereglene føre til betydelige juridiske og forretningsmessige endringer, - særlig for de 3 Statsmakter. Plutselig ble både privat og offentlig kartell-virksomhet ulovlig. Tilpassing til lovlydighet ville bli omfattende, - noe dominerende aktører naturligvis ikke ønsker. Tilstanden i dag, 20 år senere, er uten bemerkelsesverdig tilpasning til Loven. Mediene omtaler ikke strafferettslige forfølgelser iht. EØS Loven og Straffeloven. En får inntrykk av at det ikke praktiseres.» Det skal faktisk store ressurser til for å forhindre lovlydighet og rettsforfølgelse. Rettssamfunnet burde fungere 'pr automatikk'.

En hovedårsak til den omfattende organiserte kriminalitet ved kartell-virksomhet, kameraderi og korrupsjon er omtalt i UU 2013.aug.23: «Allikevel gjorde NRK Brennpunkt en oppsiktsvekkende reportasje kalt 'LOs store comeback' ved forrige Parlamentsvalg. Her avsløres at LO, dette NGO (Non Governmental Organisation), ga Arbeiderpartiet 13 millioner kroner mot gjenytelser. Til gjengjeld gav AP til LO en ministerpost, flere styreverv i statsbedrifter, endret økonomisk politikk for 'sykelønn' og 'privatisering', samt særlig politikk for 're-kommunalisering' i Trondhjem. Alle disse gaver er til LO sin fordel og strider mot flere av lovene som Stortinget har vedtatt. LO ble faktisk anmeldt for korrupsjon den gang, men saken ble henlagt pga en unøyaktig formulering.» Denne 100 årige LO/AP kultur ble omtalt i forrige UU med sterke hentydninger til dets stalinistiske opphav med Moskvatesene og RAF relasjoner fra ww2.

Det Lovgivende Stortinget har påført seg store forpliktelser for at de utøvende Regjering, Stat, Kommuner og øvrig offentlig sektor følger Menneskerettsloven og EØS loven. Foreløpig kan man trygt konstatere at det ikke fungerer. En hovedårsak er at den Dømmende Domstolen synes å være alvorlig krigsskadd. Det er kommentert under temaet 'Terror Rettsaken i Norge' er spesielt omtalt i UU 24.aug.2012 således: «Så har omsider dommen falt i Terror-saken, - 60 år bak lås og slå. Det er dobbelt så lenge som maksimalstraff for grov terrorisme. Den grensesprengende hårde straff rammet kun 'Den hele og fulle Sannhet'. Myndigheten har hemmeligstemplet det meste av dokumentasjonen til '22. juli-kommisjon' og lagret det i et bombesikkert rom. Der skal 'Den hele og fulle Sannhet' ligge isolert, gjemt og glemt så ingen skal bli utsatt for den.» Det UU tema ble skrevet fortløpende under rettsaken og berører mange saker som burde vært mere belyst. Nysgjerrige får heller kikke på UU 2012.mai.18 til UU 2012.juli.20.

Videre nevnes at: «'22. juli-kommisjonen' leverte en særdeles profesjonelt begrunnet dom over ansatte i statsmaktene sine manglende evne og vilje til å forhindre terrorisme. Som om ingenting har skjedd, blir de absolutt fleste involverte stadig belønnet med godt beskyttet og godt betalt jobb. 'The Untouchables'.» «Det norske rettsvesen er utvilsomt fremdeles alvorlig krigsskadd og lider. Det er tydelig når man sammenligner faktiske straffeutmålinger for forskjellige rettsaker i Norge. Rettsstatens trauma er avslørende i denne rettssak. Den kan ikke helbrede seg selv. Det norske Rettssamfunnet behøver omfattende hjelp utenlands.» Et tydelig eksempel er den systematisk treneringen av ratifisering av Terror loven som ble vedtatt i 2005. Statens IT ansvarlige påstår lovendringen ikke kan implementeres før 2016 av tekniske grunner. I mellomtiden stiger antall globale terror-relaterte saker i Norge, - spesielt i forhold til Syria og ISIL.

De oppsiktsvekkende uintelligente Spill fra Rettspsykiatrien omtales spesielt i UU 06.Juli.2012 og UU 22.Juni.2012 således: «Riktignok var det juridisk nødvendig med en psykisk vurdering av tiltalte. En psykotisk person er ikke strafferettslig, men skal umyndiggjøres og overføres til tvunget psykisk helsevern. Terrorhandlingene tyder på at det er noe alvorlig traumatisk i aktørens psyke. Derfor ble det lavet 2 rapporter om det. Rapport 1 konkluderer at ABB er paranoid og schizofren. Men disse konklusjonene forutsetter at han var helt alene om det hele og at han ikke er en terrorist. Rapport 2 baseres på 3 ukers døgnkontinuerlig observasjon med 18 fagpersoner. Ingen observerte tegn på psykose. De to rapporter er motstridende. Rettspsykiatrien har dermed selv ødelagt sin troverdighet og fremstår tilsvarende;

virkelighetsfjern, psykotisk og schizofren.» Etter ABB saken kan ikke rettspsykiatere så enkelt annullere sivile straffesaker ved å kreve 'veto' med denslags pseudovitenskaplige Spill. Dermed blir det ikke fullt så enkelt for terror-organisasjoner å skjule sin medskyldighet i lukkede psykiatriske avdelinger.

Utvilsomt er vi selv, menneskene, drivkraften til Statsmaskiner. Derfor er de tidligere ansettelse av offentlige tjenestemenn skyld i misforholdet til det folkevalgte Storting og Regjering. Når Loven er endret kan 'gammel' rettspraksis ha blitt ulovlig og straffbart. Den stilltiende stats-konservatisme kan være en forklaring. I alle tilfelle er det nødvendig med en fundamental re-organisering av hele den norske offentlig sektor. Beviset er tydelig, som omtalt i UU 2013.sept.27: «Nødvendig forbedring av Leder-kulturene i Stat og Kommune påpekes så ettertrykkelig i 22/7 Kommisjonens rapporten, med at: Ledere på alle nivåer i forvaltningen systematisk arbeider med å styrke sine egne og organisasjonenes grunnleggende holdninger og kultur knyttet til; Risikoerkjennelse, Gjennomføringsevne, Samhandling, IKT-utnyttelse og Resultatorientert lederskap.» (Se UU 2013.aug.09.) Dagens tilstand går følgelig utover kvaliteten på offentlige produksjon og tjenesteleveranser. Derfor blir det absolutt nødvendig å gjenutlyse lederstillingen for å sikre kvalitative ansettelse uten 'kameraderi' og annen type korrupsjon.»

Som nevnt i forrige UU har AP/LO dominert utviklingen av offentlig sektor i et århundre og er følgelig hovedansvarlig for tilstanden. Like sikkert er at AP/LO ikke er skikket til å gjennomføre de absolutt nødvendige endringer som 22/7 kommisjonen påpeker. Som beskrevet i temaet Livskvalitet & Valg Nor2013 i UU 2013.sept.20: «AP sitt alter-Ego, LO, har startet Plan C 'Basketak'. Stoltenberg ble massivt strøket fra AP's valglistene og får karriere-kritiske intervjuer i media. LO har neppe tid og tålmodighet for Stoltenbergs Plan B 'Jeg er jo her'.» «Med enkel T.A. og sett fra AP/LO regimets side, gir 5D modellen 3 alternative Scenarier: A: AP vil ikke tape det demokratiske valg. B: AP får Regjeringen etter en Borgerlig kollaps. C: LO dominerer Regjeringen etter et Parlamentarisk kollaps.» (Den nevnte politiske 5D modell omtales i UU 2013.april.26.)

Som kjent feilet Scenarie A fordi den RødGrønne Regjering sviktet demokratiets tillitt og tapte massivt ved parlamentsvalget. Med Lederskiftet i AP er heller ikke scenarie B aktuelt i denne regjeringsperiode. Statsministerkandidaten Stoltenberg fikk en 'befriende' jobb som Generalsekretær i NATO. Støre er geleidet inn som ny AP leder hvor alle tidligere motkandidater er pasifisert og fortiet. Besynderlig, vil man tenke om denne 'outsider' som kjøpte AP partibok for å bli Utenriksminister. Ikke særlig besynderlig når man i pressen i år er blitt så oppmerksom på andre oligarker. Men tross all kapital, - Støre behøver å samle tillitt i AP og LO for å overleve - og det ulmer i 'grasrota'. Det synes som om Grete Knutsen sin bok 'Basketak' inspirerer til en avgjørende kontrarevolusjonær borgerkrig i AP mellom AP og LO. Utfallet blir forhåpentlig at Norge omsider får et Sosialdemokratisk parti, så som de fleste andre europeiske sivilisasjoner.

Jan Eggum startet i 1975 og er en av Norges mest kjente artister. Han karakteriseres som et 'ansikt for melankolien'. Tekster er velskrevne og ofte samfunnskritiske med humoristiske sider. Opprinnelig begynte han som pubsanger i London og livnærte seg i to år med å skrive på engelsk. Flere av hans album har solgt til gullplate og han har fått en rekke priser og utmerkelse, blant annet 6 Spellemannpriser og hedersprisen i 2011. Mest populær er han kanskje som en av de fire Gitarkameratene. Dagens UU er en særlig reflekterende samfunnspolitisk oppsummering for post-68'ere. Her fremfører han live med 'barn som revolusjonen ikke spiste'. Luften siver ut av den oppblåste røde ballong for hvert generasjons-skifte, - og den grønne ballong synes også ganske dvask nå.

Rammstein – Ich Will

2014.juni.13

Ukens Utvalgte:

'Den Kalde Krig' var i praksis ww3 og varte et halvt århundre. Dagens generasjoner har ikke opplevd annet og anser, besynderlig nok, den tilslørte vold som normal. Det er i så fall 'helt normal galskap' hvor ww3 angivelig aldri skjedde. Denne UU blir dermed en utradisjonell og uoffisiell fremstilling av hendelser og situasjoner som belyser noen sider ved dette. For anledningen defineres også et nytt Spill 'CdE'.

Kort oppsummert var SU-US krigen riktignok også en kjølig byråkrati-krig. Men i Asia gikk det i høyeste grad hett for seg. SU-US utførte såkalte proxy-kriger hos andre nasjoner. De ville simpelthen ikke å møte hverandre direkte på noen slagmark. Deres atomkriger ble utkjempet mot imaginære fiender i ørkener, på Arktis og mindre bebodde områder. Men mest destruktivt av det hele var antagelig 'de 100 RAF' (Red Army Faction) med urban stalinistisk mafia-guerilla. Sivilisasjoners enorme følgeskader kan ikke måles eller dokumenteres. De kan kun sannsynliggjøres med at sosiopatisk masse-psykopati, som borgerkriger, er destruktivt. Antagelig er disse tap langt større i verdi enn ww2 menneskelige og materielle tap. Hensikten til en arme har da alltid vært destruksjon. Dette UU blir med andre ord utradisjonelle fokus på noen sider av ww3 som angivelig ikke skjedde.

Som nevnt i forrige UU: «Alt om alt - hvis Rett skulle være Rett, - så skulle SU/Stalin også stilles for krigsrett med omfattende krav om krigsskade-erstatninger i Øst-Europa. Grunnen understrekes av Stalins etterfølger Khrushchev sin kritikk av Stalins ekstreme og massive forbrytelser mot sivilisasjoner og menneskeheten. Men rettsforfølgelse ville selvfølgelig blitt blokkert av SU sin urettmessige veto-rett i UN/Sikkerhetsrådet.» Konsekvensen var at det stalinistiske mafia-byråkrati ekspanderte globalt uten UN innblanding og førte til en kaskade av kupp-forsøk i svekkede nasjoner. Konsept ble klonet til enhver nasjon i dekke av sosial-psykotiske ideologier som marxist-leninisme. Det tydeliggjøres spesielt i '68 kulturene med absurde voldsforherligelse og tilslørte selvforherligelse. Argumentene stemte overhodet ikke med motivene.

I de to foregående UU beskrives foranledningene til ew1/ww1 og ew2/ww2 som Spill for galleriet. Viktige kratier ble utsatt, så som demokratiet, aristokratiet og teokratiet. Spill i sosialpsykologisk forstand ble introdusert i UU 2013.mars.15 og baseres på boken 'Games People Play' av Eric Berne. Nye Spill som TOL, DAC og DSITDEN ble senere introdusert i UU 2013.mai.17 under temaet 'Livskvalitet og Imperier'. I denne sammenheng blir det naturlig å definere et nytt Spill CdE (Coup d' Etat, eller Kupp). Kupp kan Spilles mot Trone, Tempel og ikke nødvendigvis Stat. Spillet CdE er i nær slekt med LYAHF (Let's You and Him Fight) og DAC (Divide And Conquer). Dets dramatiske gimmicks/regler, ulterior/skjulte, moves/trekk og spoils/gevinster plasserer Spillet i 3. eller endog en 4. grad. Videre er Spillet overordnet, så det kan understøttes av de fleste andre Spill i alle kategorier som 'underworld', 'party' og 'sexual'. I UU 2014.jan.10 introduseres også omsider et nytt kollektiv Ego-state kalt Superior-ID (S-I). Masse-psykotiske S-E (Superior-Ego) Spill synes derfor å appellere til individers kollektive S-I som 'mobben' og 'bevegelser' hos såkalte 'autonomer' og 'separatister'. DSITDEN (Jante) er et typisk Spill for S-I. S-E og S-I blir spesielt relatert til det opprinnelige Roma1 sine Praetor Guard', Roma2 sitt system av Praedors og Roma3 sin videreutvikling til Oprichnina (Moskvas hemmelige politi).

I UU 2013.april.12 omtales bevisst organiserte destruktive Spill. I denne sammenheng blir det så åpenbart at nettopp det har skjedd massivt med RAF i ww3. Ideologier synes å baseres på 'suksessen' ved misbruk av okkulte teokratier i ew1 og ew2. Alle disse RAF motiv var nettopp å destabilisere andre nasjoner hvor 'målet helliger midlene'. Siden boken 'Games People Play' kom ut på '60-tallet og er bygget på psykologiens patriark 'Freud', har den høyst sannsynlig blitt brukt asosialt for å fremme Spillenes usunne 'teser' i stedet for de sunne 'anti-teser'. Spillere kan således enkelt identifiseres som ekstrem-propagandister av Roma3 sin sosiopatiske patriark Stalin. Det overordnede motiv var simpelthen 'ta alt'. Trekkene i Spillet var å forene og organisere nasjonens undertrykte sosiopater og psykopater, legitimere destruksjon av samfunnets konstitusjoner og regimer ved å starte borgerkriger, samt å inndra all kapital til en felles pott i Stat som 'Skatt'. Herfra vil det være særdeles enkelt for Moskvas RA å tilby rednings-aksjon til sin RAF marionett-regjering. Rekonstituering ved Moskva-tesene gav så Moskva total styring med konstitusjonen, kapitalen og demokratiet. I de fleste tilfeller kom ikke prosessene lengere enn til de innledende destruksjonsfaser. Den kaldkrigs tilstand er mere eller mindre i de fleste nasjoner nå blitt permanent 'normalisert' i offentlige sektor med fortrenge årsaker. Noen nasjoner utviklet seg allikevel fullt ut til globale sosiopatier og ble ute av Menneskehetens kontroll. Det positive er at de på et tidspunkt kollapser

som alle destabiliserte satellittstater før dem. Det negative er all destruksjon sosiopatier forårsaker før den tid.

Det danske Red Army Faction (RAF-dnk) er omtalt flere ganger og spesielt i UU 2013.juli.19: "RAF (rote armee faction) gjorde seg beryktet som sosiopatiske borgerkrigs-celler i vestlige nasjoner. RAF ble konstruert etter Stalins konsept fra sin fortid som mafia-boss i SU/Kaukasus. Lederen av det danske RAF (Blekingegadebanden), Gotfred Appel, konverterte fra stalinisme til maoisme. Følgelig er RAF-dnk relatert til Beijing regimet, selv om det fremdeles indirekte styres av SU. Videre viser kidnappingsforsøket av 'Jörn Rausing' et samarbeide med RAF-nor og RAF-swe. Det er uvisst om avsløringen viser at danskene var flere, mere aktive eller simpelthen mere klønede. Videre er omfanget av Moskvas og Beijings celler (RAF-rus og RAF-chn) uvisst, men sannsynligvis betydelige og tidvis fatale. Eksempelvis vites at de danske RAF brødre Weimann var konsulenter og installerte datasystem hos politiet og i Utenriksdepartementet. De fikk fortrolig adgang og hadde ansvaret for vedlikeholdet, som i praksis betyr adgang til å lese, kopiere og manipulere data. Samtidig lavet yngstemann det såkalte 'jødekartotek', antageligvis på oppdrag fra det palestinsk-muslimske PFLP/DFLP."

SU truet med å starte '100 Vietnams' hvis US fortsatt fulgte UN sin avgjørelse og forsvarte potensielle satellitt-stater. Det sannsynliggjør at SU hadde organisert destabiliserende undergrunns armeer i minst 100 nasjoner. Det vises også tydelig med alle stalinistiske CdE Spill i Øst-Europa, Syd-Amerika, Afrika og Asia. De avslørte seg som Moskva sine RAF ved såkalte 'kommunistiske' symboler og masse-psykopatiske patriarker som Lenin, Stalin, Mao og Pol Pot. Videre har vellykkede og mislykkede statskupp bevist at motivet var destabilisering ved ran, trusler, terror, folkemord og utmagring av ressurser. Lokale RAF dannet så marionett-regjeringer og inviterte SU sine RA styrker til å 'redde' nasjonen ved annektering og invasjon. Men like selvfølgelig kollapset mange marionett-regjeringer i en kontra-revolusjoner etter en relativt kort stund.

På den annen side foregikk det regelrett atomkriger i US ørkener og Nordpolen ved SU på 60 tallet. Begrensninger mot globale atomkriger ligger i UN doktrinet 'MAD' (Mutually Assured Destruction). Men det var ikke fritt for at paranoia tok overhånd i polarområdet hvor hval antagelig ble misoppfattet som invaderende ubåter. Som nevnt i UU 2013.juli.05: «For Nord-Europa var det mest fryktinngytende med de omfattende 'prøve-sprengninger' av atombomber i SU Nordpol-områder ved Novaya Zemlya og tidligere Novgorod. Disse ble hovedsakelig demonstrert for politiske beslutningstagere og ikke for mediene og borgerne. SU detonerte 224 atombomber, med sprengkraft 100 ganger all sprengkraft i WW2. Det tilsvarer en totalutslettende atomkrig i Nordpol-området og forårsaket følgelig en såkalt 'Nuclear Summer'. Tsar bomba, som ble detonert i ozonlaget, var 10 ganger større enn all WW2 sprengkraft tilsammen. Nå, etter 50 års økt UV-stråling, er polarisen så porøs at den hurtig smelter til vann og varmen øker 2 grader pr år. Dette er antagelig hovedkilden til dagens globale oppvarming. Det er forøvrig lite troverdig at radioaktivitet i Nord-Norge skyldes Tsjernobyl og ikke Tsar Bomba.» US sitt Hiroshima var ikke det eneste stedet med menneskelige ofre. Eksperimenter på langtidsvirkning av radioaktivitet foregikk blant annet i SU byen Znamenka/Kazakhstan. Dokumentasjoner finnes nå på internettet. Videre blir kartlegging av de enorme utbredelser av langtidsskader fra SU sin atomkrig på Arktis stadig massivt motarbeidet. Ødeleggelsene med SU sin atom-reaktor i Tsjernobyl/Ukraina har demonstrativt avskrekket verden mot innblanding i SU sin energipolitikk.

Europa og Norden er også ofte omtalt, - særlig i UU tema Livskvalitet og Imperier. Her oppsummerer noen utdrag fra UU 2013.juli.12. «For Europa var utgangspunktet elendig i denne andre halvdel av den 100 års EW. Europa var en slagmark med verdenshistoriens største ruiner, menneskedrap og politisk dobbelt-terror fra SU og US.» «Europeerne ville ikke bli satellittstater av hverken SU eller US. Deres systemfeil var sterkt motiverende for å danne det alternative EU. Kort sagt var tanken å bruke det beste av de SU og US systemene og utelate feilene. Det kan synes som om SU & US er bygd på modeller for 'Supply & Demand'. Problemet er at disse to fungerer i sammenheng, men ikke fungerer adskilt.» «SU og US sine politiske systemer var nærmest konstruert som motsetninger. Deres fiendskapen var maksimal.»

Videre nevnes i den samme UU: «SU sitt mål med EW2 var tydelig å erobre hele Europa, - et mål som fortsatte i EW3, - men da med kald politisk krig istedenfor atomkrig. Plan B var å degenerere europeiske nasjoner ved korrupte statsforvaltning i Stalin-modell. Stalin innførte sine mafia-metoder i SU sitt Statsbyråkrati, som var preget av Roma1 sitt 'Cloak & Dagger' og Roma3 'Ivan den Grusomme'. Til byråkrati-krigene mot europeiske nasjoner ble det opprettet SU organisasjoner som STASI, RAF og KGB. En rekke vest-europeiske organisasjoner ble infiltrert og manipulert til å tjene fremmede makter, skjult som demokratisk sosialpolitikk. I dag dokumenteres det fra SU sin egen Glasnost politikk hva de fleste demokratiske borgere hele tiden har visst og påpekt. Millioner av korrupte offentlig ansatte tjente fremmede makter via tusener av celler relatert til SU organisasjoner. De gjør det sannsynligvis under tvangssituasjoner eller påført ignoranse og ikke av fri vilje. Prosessene er antydnet i videoen om Selmer i UU 2012.Feb.24.» (En bortført 15 åring norsk gutt som ble trent opp som spion for SU.)

Den samme prosess ble klonet inn i Norden. Dermed er tidligere beskrivelser om RAF prosessene mot Norge, med noe nasjonalkulturell tilpasning, vel så relevante for de øvrige nordiske land. Opphavet synes å stamme fra Gulag koloniseringsprogram (UU 2013.juli.05). Et ord 'Stalinazismen' er beskrivende og antydes i blant annet UU 2013.aug.30: «Henrettelser av sine nasjonalsosialistiske ledere har neppe ført til utryddelser av nazi-kulturer i LO. Det ga heller en legitimitet til fremgang for arvtagerne, nasjonalkommunistene. Stalin-Hitler sitt rød-brune samarbeide før WW2 er dokumentert ved 'Molotov-Ribbentrop Pact' (1939-1941). Mindre kjent er samarbeidet etter WW2 hvor nasjonalsosialister kunne konvertere til nasjonalkommunister, - antagelig mot visse gjenytelser.»

Som nevnt i forrige UU og UU 2013.aug.23 er ikke hele historien om det dominerende politiske AP/LO særlig fortalt i Norge, Norden eller verden forøvrig. Nyere objektiv info på internettet gir et betydelig mere omfattende bilde enn norske varianter av presse-støttet Pravda. Videre nevnes i UU 2013.aug.30 at; «på 20-tallet ble tilhengere av Stalins Moskvateser forvist fra Arbeiderpartiet til et eget nasjonalkommunistisk parti (NKP). I tillegg ble det Sosialdemokratiske partiet utskilt av DNA/AP. Senere fant sosialdemokratene tilbake, men ble oppslukt så AP mistet betegnelsen 'demokratisk'. 'Kommunister' har dog alltid søkt innflytelse via LO, - og LO har alltid krevd direkte innflytelse i AP Regjeringer.»

Videre omtales AP/LO sitt opphav til sin dominerende makt i Norge (UU 2013.aug.30): 'Under teppet', eller på wikipedia, kan man nå lese at LO var nazistisk i 4 år under WW2 og følgelig en hovedkraft for invasjonsstyrken i Norge. Youngstorget ble maktens sentrum med Politi-bygget og LO-bygget. Spesielt må LO-nettverket på arbeidsplasser i offentlig og privat sektor ha vært en hovedkilde for nazistisk etterretning og aktiviteter. Historiebøkene viser dessverre ikke 'den hele sannhet' om hva dette terror-regimet utførte av uopprettelige skader på samfunnet. Dokumenter er fremdeles nedlåst. Henrettelser av sine nasjonalsosialistiske ledere har neppe ført til utryddelser av nazi-kulturer i LO. Det ga heller en legitimitet til fremgang for arvtagerne, nasjonalkommunistene." Med dette bør det ikke være noen tvil om eksistensen av RAF-LO. Hvorvidt AP noen gang klarer å fri seg og videreutvikle seg til et SosialDemokratisk parti er fremdeles høyst usikkert. Dette beviser mest av alt hvor omfattende og hardt maktgrepet til RAF-nor kan være.

RAF-chn i Kina forårsaket de mest omfattende stalinistiske prosesser i ww3. Assimileringen av Kina til en SU satellitt-stat topper desidert listen over organisert kriminalitet mot menneskeheten. Stalinismen ble kalt Maoisme og ble det nye 'opium for folket'. Russisk forakt mot asiatene og kriger mot dem toppet seg ved staliniseringen av ur-fienden Mongolia. Med assimilerte mongolerne var Asias sentrum, Beijing, klar for Roma3/Moskva sitt 500 års etterlengtede coup d 'etat og masse-assimilering.

Tidligere omtaler finnes spesielt i UU 2013.juli.19 Ultravox - White China: «Asia ble igjen vekket ved WW2. Alle europeiske Troners keisere falt i EW1. De asiatiske keisere falt i WW2. Tidligere var Mongolia konvertert av Roma3 til en SU marionett-Stat. Igjen ble Beijing konvertert av en mongolsk invasjon, denne gang med stalinistisk SU ideologi og Mao som førende marionett. Kinas konvertering fra Trone til Stat overgikk alle tidligere systematiske menneskeforfølgelse og massedrap. Kultur-revolusjonen var neppe for kinesisk selvrealisering fra UK, - men heller med SU/Roma3 assimilering som endelig mål. Antagelig var SU sin plan å assimilere hele Asia, men den feilslåtte invasjonsplan av Japan i WW2 begrenset tilsvarende

assimilering av de øvrige asiatiske nasjoner. Dessuten besluttet FN Sikkerhetsråd at Syd-Korea kunne beskyttet seg med støtte fra UN nasjoner som US, UK, Australia, Canada, Syd-Afrika, Benelux, Frankrike, Syd-Afrika m.m. Flere asiatiske nasjoner kjøpte følgelig beskyttelse av US mot SU sine indirekte invasjoner og borgerkriger. Det ble en SU-US proxy-krig med de fatale teppebombinger mot invasjonsstyrker i Korea og Vietnam. Korea ble splittet i to mellom SU og US, - som Tyskland etter WW2. Så fulgte våpenhvile uten fredsavtale mellom Nord og Syd Korea i et halvt århundre.»

Det er ikke usannsynlig at RAF-prk, RAF-chn, RAF-pak, RAF-mng eller RAF-vnm vil omsider forårsake en asiatiske atomkrig i dette århundre. Vi vet nå at det smugles atom-våpen fra Cuba til Nord-Korea. Så vites også utmerket godt at det har pågått lenge og hvem som står bak og hvorfor. Våpenspredningen kan følgelig ha skjedd mange ganger til hvilket som helst RAF celle og ikke kun til RAF-prk og RAF-chn. Men det er også gode sjanser for at UN kan begrense galskapen så som UN forhindret US-SU atomkrig i ww3. Dystert - ja, - så kan kanskje dette worst-case scenariet starte noen alternative scenarier allerede nå.

Igen velges Rammstein som UU fordi deres kontroversielle videoer og sanger er spesielt illustrerende for tidens UU tema. I denne 'kortfilm' presenteres en gruppe som kan assosieres til et av de 100 Red Army Faction (RAF). Her fremstilles også et av gislene en del av gruppen. Så faller tanker på det fatale bankrøveri i Sverige hvor statsminister Olof Palme prøvde å forhandle. Saken er opphavet til det såkalte 'Stockholms syndromet', med hypotesen at gisler kan skifte lojalitet under krisen og dermed få formildet straff i forhold til de faktiske handlinger. (Denne sang var tidligere brukt som ekstra 'b-side' til UU 2014.mars.14.)

Ekstra UU

Som nevnt refereres Godzilla myten poetisk til RAF-chn i ekstra UU 25.marts.2011. Spesielt god er denne instrumental versjonen av Led Zeppelin (Jimmy Page) – Kashmir (Instrumental). Denne Puff's sang ved 'Come with me'-versjonen henter mot 'godzillisering' av originalen.

Dessuten er Godzilla myten spesielt aktuell nå med en ny utgave av filmen. Den er visstnok langt sterkere relateres til S-I (Superior-ID) og mytens opprinnelse. Som nevnt i den UU: «Man kan forstå hvordan japanske myter oppstår, som den om Godzilla. Beliggenheten har særlige naturgitte konsekvenser. Der er jordskjelv, tsunamier, vulkaner, pest og tyfoner. Temmelig vanskelig å forklare, må det ha vært i krisetider. Enklere og mere spennende er monster-historier. Titaner, Godzillas og Aliens har det samme opphav og sosiale funksjon.

I tillegg til tilbakevendende naturkatastrofer, har Japan vært utsatt for invasjoner. Det er den andre siden av Godzilla myten. Katastrofer som er menneskeskapte. Monsteret kommer inn fra havet, ser ut som en drage og fjern-styres. Inspirasjonen kan godt stamme fra Gobi-ørkenens forstenede dinosaurskjelett.»

Rammstein - Engel

2014.juni.06

Ukens Utvalgte:

Det var ikke slutt med ew1. Det ble heller en planleggende pause til neste fase; ew2/ww2. Igjen, med nåtidens info sannsynliggjøres her at en Hister figur ble skapt etter Nostradamus skript og plassert som en Rasputin i Berlin. Som i forrige UU forklares dermed krigens galskap med fokus på galskap, så vel som vitenskap. For tross alt, sett fra Roma3/Moskva, må bedrageren 'agent Rasputin' ha vært en så stor suksess og at gjentagelse fristet. Men så skulle de virkelig harde skripts på bordet, - denne gang med engler, demoner og total apokalypse.

Det forrige århundres ew/ww (Europakrig/verdenskrig) er tidligere omtalt i temaet 'Livskvalitet og Imperier' (UU 2013.mai.03). Sosial mental sunnhet er omtalt i UU temaet 'Livskvalitet Grunn teori' (UU 2013.februar.01). Når så dette UU er kommet til 1944 (ew2/ww2) blir det igjen forsøkt å se hendelsene fra andre vinkler og basert på nåtidens info. Som nevnt i UU 2013.juni.28: «Frustrasjoner over uavgjorte og tap-tap resultater (i ew1/ww1) ga behov for revansj og ekstraomganger. Det synes også som om noen okkulte 'profetiske' skripts ikke var fullført. 'Falske profeter' risikerte avsløring og at deres troende kunne bli stevnet for krigsforbrytelser. Dessuten var det fremdeles noen keisere tilbake i Asia. Etter ew1 kom det igjen store tanker om ny global verdensorden. En omkamp, en ww2 synes nødvendig, - men det behøvdes tid til forberedelser, - en våpenhvile - en mellomkrigstid.»

Moskva dannet SU (Sovjet Union) i et forsøk på å samles tross den uopprettelig splittelse av Trone/Tempel/Stat. Uansett om det var noen legitimitet i konverteringen av regimet, - så kan det selvfølgelig kun gå galt hvis metoden baseres på 'idiotisk ondskap' og 'målet helliger midlene'. Det er som en oppskrift på apokalyptisk sosiopati. Som nevnt for første gang i UU 2013.mars.22 kan disse naturlige samfunnskrefter kollektivt representere menneskesinnets S-E/Ego/Id, - med samme konsekvenser på samfunn som enkeltpersoner. Tilsvarende kan kollektiv mentalitet få alle psykiske trauma som enkeltpersoner, - så som masse-psykoser, masse-nevroser, masse-paranoia, kollektivt schizofreni etc.

I UU 2013.juli.05 nevnes at: «Gulag hette SU sin organisasjonen for arbeidsleirer i perioden 1930-50. Programmet var langt mere omfattende og organisert enn hva man kjenner fra Nazi-kulturen og dens 'Arbeit macht frei'. Faktisk var flere av Nazi-leirene i SU område og følgelig organisert av dem. Det var over 50 arbeiderleire, over 400 arbeiderkolonier, med 14 millioner fanger, 6 millioner deporterte og 5 millioner korttidsfanger. 1-10 million borgere døde der.» Dette kan anses som en mental pandemi med opphav i Stalins psyke. Hvis noen skulle være i tvil om mentaliteten, kan man simpelthen lese litt om Stalin og psykopati på wikipedia. Hurtig ser man at Stalin ville få topp-score på psykopati-tester. Gulag realiserte en bevist politikk for å utrenske Moskva Stat sine rivaler i Trone og Tempel, så som Roma3/Moskva sine Oprichnina/Praetor 400 år tidligere. Se UU 2014.mai.02.

Allerede i 20 årene må Moskva har erkjent situasjonen, - at det var ingen vei tilbake og at SU var blitt paranoid schizofrent og selvdestruktivt. Massepsykotiske ideologier ala tyskeren Marx viste ikke tegn på realisme eller tillitt for borgerne. Kommunismen dugde ikke for sivilisert Statsstyring. Innrømmelsen ligger latent i betegnelsen USSR (Union of Soviet Socialist Republics), som overhode ikke nevner kommunisme. Men Marx ideologi egnet seg godt for å ta alt fra alle og gjøre Statsmenn til de ultimative statskapitalister. Dessuten var Europa i ferd med å re-konstituere seg med den neste internasjonale Union kalt 'League of Nations'. Moskva/Roma3 kunne med andre ord kollapse, bli invadert og okkupert av Europa for sikkerhets skyld. Et alternativ, sett fra Roma3, var å starte 2 kriger igjen. SU sin egen innenriks borgerkrig 'Fedrelandskrigen' mot enhver opponent til Stat, - en kopi av Napoleons borgerkrig. Den andre krig, - ww2, som egentlig var ew2 og destruksjon av den nye europeiske union. Til det behøvdes visse forberedelser og uforutsigelige tiltak.

Kollaps av statsfinanser fører ofte til regimeskifter. Således var mellomkrigstiden en periode for omfattende verdenskriger med utgangspunkt i US/NY. I all etertid bør det ikke være noen tvil om at prosessen som førte til den store depresjon i US, og relaterte nasjoner, var planlagt og målbevisst. Argumenter om hemningsløs kapitalistisk frihet er hverken demokratisk eller politisk forsvarlig. Det er heller oppskriften på hvordan borgerkrig kan startes hos rivaliserende nasjoner. Utplyndrede og maktesløse borgere reagerer med vold. Alarmerende nok for vår tid, ble prosessen gjentatt i en 10-års periode (Se UU 27.jan.2012). Europa var bedre forberedt denne gang.

Massiv utrenskning av egne borgere forutsetter omfattende sentrale personregister. Oldhistorisk sett gjennomførte Roma1 det ved keiser Augustus etter henrettelsen av keiser Julius og innføring av diktatorisk republikk. Mindre omtalt er det gryende århundres IT system kalt hullkortmaskiner som var forgjengeren til dagen IT. Som nevnt i UU 2013.dec.13 hadde hullkortmaskinen ved CTR og Hollerith relasjoner til Russland ved Tsar Nicholas II før ww1, samt ved Stalina Automobile Plant og Tyskland før ww2. Det sannsynliggjør at maskinene ble brukt til omfattende personregistering. CTR ble senere til IBM.

Den Røde Hær (Red Army) var naturlignok avgjørende viktig for SU. Like viktig var dets sjef Davidovitj Trotskij. Var han Moskva-tro eller ville han forårsake kontra-revolusjon? Ville han selv kopiere Julius Cæsar med forfall for Roma3 som for Roma1? Uansett spørsmål og svar ble det besluttet at han skulle elimineres. Etter en lengere periode i eksil, blant annet i et 'safe house' i Hønefoss/Norge, ble han lokket tilbake til New York via Mexico. Der ble han slått i hjel med en is-hakke. Den Røde Arme var blitt av med sitt personifiserte opphav og inntok helt andre former etter utradisjonelle skripts.

Stalin ble valgt til diktator for sine ekstreme egenskaper. Personen er så sosialpsykologisk interessant at han er nevnt mangfoldige ganger UU, - og sist i UU 2013.juni.28: «'Stålmannen'/Stalin (alias Ioseb Besarionis je Žugašvili) var opprinnelig en lokal mafiaboss som avanserte til bolsjevikenes operasjonssjef i Kaukasus. De finansierte organisasjonen ved bankran, kidnapping, utpressing og drap. Han ble fanget og sendt til Sibir syv ganger, men slapp fri hver gang. Han hadde ingen militær bakgrunn fordi han slapp militæret i ww1, angivelig på grunn av en dårlig arm. Behovet for bedre omtale ble ordnet med å lage den dominerende avisen Pravda (Sannhet). Så tok han sitt alias Stalin (Stålmannen) for å propagandere seg selv og organisasjonen. Lenin mente at Stalin var den rette person til å styre Sovjet og tilsatte han som generalsekretær. Straks fikk Lenin slag og måtte trekke seg. Stalin fortsatte Lenins meritter og sto for 10-doblet henrettelsen av egne borgere. Moskva fikk med Stalin et mafia-regime. Hans beundring av 'Ivan den Grusomme' burde gi ham tilnavnet 'Stalin den Grusomme' og endog 'av det tredje Roma'.» Stalin ble således den ubestridte 'Masse-psykopatiets Patriark'.

I samme UU, som hovedsakelig er en historisk gjennomgang av ww1/ww2, nevnes selvfølgelig: «den andre figur (var) Hister/Hitler alias Adolf Schicklgruber. Han flyttet fra Østeriket til Tyskland og ble leder av det Nasjonal Sosialistiske parti. Adolf fikk regjeringsmakt ved en valgallianse med de Stalinistiske Nasjonal Kommuniste. Straks etter valgseieren ble Parlamentet brent og fremmet Hitler til diktator. Det er dermed god grunn til å spørre hvor sterk den tyske Nazi-Stalinist alliansen var og hvor meget som var 'Spill for galleriet'. Tidvis synes Hitler å opptre som en Stalins 'Mini-Me', en stalinistisk marionett i rivalens styre og en effektive erstatning for den Røde Armes grunnlegger Trotskij. SU sin nedtoning av kritikken mot nazismen og fascismen var begrunnet i troen at vestlige kapitalisters skjebne var å angripe og ødelegge hverandre, og at Hitler kun startet prosessen. En etterfølgende Sovjetisk invasjon av Europa ble ansett som relativt enkelt.»

Det er ingen grunn til å tro at Hitler ble plassert som diktator på grunn av positive leder-egenskaper. Den korporal hadde heller egenskaper som marionett, skuespiller og illusjonist. Det synes heller som tyske stalinister sørget for å valgseieren, nedbrenningen av parlamentet, utnevnelse som diktator og den store militære gavepakke fra Tyskland til Russland ved Molotov–Ribbentrop Pact (1939-1941). Det er sannsynlig at Hitler ble stalinist under ww2, enten han ville eller forsto det selv. Desillusjoner og irrasjonelle handlinger skyldes antagelig all den narkotika ha ble daglig påført av leger. Man kan endog mistenke hans omgangskrets å huse noen tilsvarende 'agent Rasputin'.

Som nevnt i UU 2010.okt.08: «Adolf Schicklgruber sitt alter ego er som klipt ut av Nostradamus' samlede 'profetier' fra 1600 tallet. Han skrev om 'Hister' i forbindelse med noen oppdiktede katastrofer og nevner Tyskland spesielt. Det er da bekymrende hvor enkelt det er å ta en gammel 'profeti', iscenesette deler av den og påstå at spådommen er gått i oppfyllelse. Adolf Hitlers gjennombrudd var på den tiden man startet eksperimenter med LSD. Han var da også ledsaget av en personlig doping-doktor. Slavofile taler, med okkulte undertoner, om Arisk overherredømme, viser at han følte tilhørighet til helt andre steder og kulturer enn Tyskland. Den Grande Exit, ved å gå opp i flammer som en eller annen Super Genie, ble ikke så teatralsk allikevel. Men som Nasjonal-Kommunismens patriark har verdenshistorien blitt brennmerket. Ut av asken kom også RAF.» I denne UU fremmes hypotesen at RAF (Rote Armee Faction) allerede ble etablert ved Trotskij's henrettelse og plassering av Hitler som øverste militære kommandant for Tyskland, - tross den åpenbare inkompetansen korporalen hadde. Hitler synes 'fjernstyrt' med alternative agendaer.

Fenomenet Hister omtales i UU 2014.jan.03: «Som nevnt er vår teologi egentlig bygget på egyptisk astrologi med overgangen i Æra/Åge fra er Steinbukken til Fiskene. Vi er fremdeles preget av alle etter-Spillene om

'verden herredømme'. Den neste overgang til Æra/Åge Vannmannen/Aquarius skal skje rundt år 2150. Revansjen EW2/WW2, etter keisernes fall, ble arrangert med plassering av 'dødsplaneten' Pluto i okkulte horoskop, samt iscenesettelse av 'Hister' fra skriptet Nostradamus 'spådommer'.»

Videre er fenomenet Hister nevnt i UU 2013.juni.28: «Det apokalyptiske 'Johannes Åpenbaring' åpnet for okkulte skrifter fra Nostradamus samlede 'profetier'. I J.Å. står skriptet om de 4 dommedags ryttere og i Nostradamus står skriptene om dommedags-diktatoren 'Hister'. Skriftene er absolutt ikke noen gudommelige profetier, - men skript for psykotiske sosiopater som vil realisere sivilisasjoners 'worst-case scenario'. Det okkulte fundament ligger i old-egyptisk Osiris tilbedelse, hvor død og gjenoppstandelse følger Solens sykluser. De store sykluser på ca. 2150 år heter 'Age' og følger Solens gang igjennom de 12 stjernetegn. Moses representerte Steinbukken, Jesus representerer Fiskene og 'New Age' okkultister venter den kommende representant for 'Vannmannen/Aquarius'. Denne horoskoptype er stemplet ved gruppebevissthet, underholdning, selvuttrykk og diktatorer. Herfra stammer antagelig Chaplin-barten på Hitler. Problematisk er dog at Tunguska hendelsen kom minst 250 år for tidlig ifølge horoskopene. (Se mere i UU 21.des.2012.)» Gurdjieff gjenbruk av Enneagrammet i mellomkrigstiden er sterkt relatert til dette, se UU 2013.april.12.

LSD er et naturprodukt med egenskaper som fleinsopp. Nyere narkotika fra naturen har derfor tusener av år gammel kunnskap om bruk og misbruk. Så viste man også utmerket godt hvor ødeleggende det kan være for personer så vel som organisasjoner. Nyere studier viser at et helt maur-kollektiv kan utryddes ved at en enkelt maur, infisert av sopp, hvis den ikke fjernes. (Se video under.) Alle mordforsøk tyskere i desperasjon gjorde for å bli kvitt Hitler, sies alle å mislykkes, - ifølge krigspropagandaen. På den annen side, diktatorer skaffer seg dobbeltgjengere for å avlaste seg selv og avverge mordforsøk. Selv kvinner og barn kan kle seg ut som denne 'Chaplin-lookalike'. Så kan man simpelthen ikke vite om Adolf Schicklgruber ble uskadeliggjort i for eksempel Operasjon Valkyrie og at enda en dobbeltgjenger tok over rollen som Hitler.

Noe mere fragmenterte oppsummeringer finnes i UU 2012.Juni.15 «Nazi og SU krigsmaskiner valset frem og tilbake over Øst-Europa med store sivile tap og lot ruinene bli enkelt for SU å okkupere. SU ventet på kapitulering av Japan for så å invadere, men keiserens abdisering gjorde invasjon uaktuelt. SU fikk og brukte Nazi krigsmaskiner. Dermed kan det ikke bevises om Nazi eller SU sto for Blitz-kriger mot f.eks. Rotterdam, Warszawa og Finnmark. Hitler hyllet 'Das Dritte Reich, 'Det Tredje Rike', som antagelig var 'Det Tredje Roma' – ikke Tysklands Berlin, men Stalins Moskva. Det er ingen grunn til å tro at denne fiasko av en korporal, denne media-klovn, selv var i stand til å ta kvalifiserte strategiske eller operative beslutninger, - men det kunne saktens hans stalinistiske kamerater fra den Røde Arme. Videre hyllet Hitler 'den ariske rase', som visse stammer fra det muslimske Iran, - ikke det kristne Europa.»

Så igjen, for å ikke glemme Norden og Norge helt. Ingen nordiske nasjoner kan beskyldes for gale handlinger i ew2, - selv om enkeltpersoner og organisasjoner definitivt gjorde galt. Det var overstyringer av nasjoner hvor involvering ville gjøre vondt verre. Danmark var vitne til Nazi forhandlingen om kapitulasjon med Nederland som gikk helt galt. Nederland kapitulerte i tide og bombeflyene fikk ordre fra tysk militære om å returner uten å bombe havnebyen Rotterdam. 1/3 av flyene ignorerte ordren og bombet byen allikevel. Antagelig var det allerede dannet et 'Rote Armee Faction' (RAF) av tyske stalinister. Danmark fikk samme ultimatum. Tidligere (UK) terrorbombing av København i 1807 førte til en hurtig kapitulasjon denne gang. Sverige fikk muligheten å stå helt utenom krigen, hvilket var en fordel for mange, - spesielt Norge og krigsflyktninger.

Norge ble trukket inn i krigen pga av noen tåpelige provokasjoner på vestkysten. Samlet sett er ikke krigshistoriene i Norge særlig flatterende og vil bli nærmere omtalt i neste UU. Mere kan leses i UU 2012.Juni.08 som er en del av UU temaet om 22/7 - ABB rettssaken. Dessuten har Roma3 siden Tsar Ivans dager ønsket landområdet Finland/Finnmark for kontroll over nordområdet og Arktis. Finland sto imot under Vinterkrigen mot Stalins SU. Dermed ble nazister og stalinister to sider av samme sak og ugjerninger, som igjen sloss sammen i to-fronts krig mot regionen Finland/Finnmark. Island kom positivt ut av ew1 i 1918 som (betinget) suveren stat og etter ew2 i 1945 gjenvant de sin frihet fra Danmark, - som Norge gjorde i 1814. I avslutningen av krigen ble den danske øy Bornholm terrorbombet av SU og

Sjælland/København ble militært invadert via Tyskland. Det var en periode som om Danmark ble delt i øst og vest, - som Tyskland. Krigsoppgjøret gjorde allikevel at Danmark ble fri for militær okkupasjon, - men lokale stalinister ble forsterket.

Japan, som Tyskland, så ut til å frivillig sette seg i to-fronts kriger. Mongolia var allerede stalinisert og ventet med ekspansjonen sydovert til Beijing. SU ventet med flåten utenfor Japan og forventet på en like enkel invasjon som av Øst-Europa. Så smalt det igjen i regionen som i 1908 over Tunguska. Kun 1/1000 i effekt, men avskrekkende sett på nært hold over en sivilisasjon. Det ble stopp-signalet for denne fase av galskapen. Japans keiser kapitulerte under dette nye A-våpen, som europeiske keisere i ww1 med B- og C-våpen. SU kunne ikke invitere seg selv til Japans 'rednings-aksjon' og annektering, da internasjonale fredsavtaler allerede var ordnet. Kinas keiser satt foreløpig fredelig tilbake. Denne gang ble alle parter skremt til et globalt forhandlingsbord og lavet den tredje versjon av en internasjonal union, - United Nations. Så skulle man endelig tro det ville bli fred å få. Det ble inngått globale avtaler om begrensninger for hva nasjoner kan gjøre mot hverandre og mot sine borger. Men hva er vel mere naturlig enn et halvt år med terror-balanse når menneskeheten ypperste masse-psykopat blir utpekt som seier-herre og får dominere i FN sitt Sikkerhetsråd?

Den tyske gruppe Rammstein har særdeles kontroversielle sanger og videoer. De tok navnet etter en tysk by, med minne om byens ekstremt harde, og til dels unødvendig, brannbombing i ww2. Derfor gruppens beryktede fakir-show på konserter og kritikk av både US og SU. Denne live fremførelsen er i grotesk mellom-krigs kabaret stil, som minner noe om hva subkulturer i Berlin lavet før ww1 og ww2. De falske Engle-barna oppunder taket har en ublid skjebne og den demoniske kvinne har kontroll. Det er en syndens bule som til sist naturlig nok blir fakirisert i demonisk Rammstein stil. En liten kuriositet er et 'Slangebæreren' (Ophiuchus) er det overordnede og 13. stjernetegn i okkult astrologi, se UU 04.januar.2013.

Rammstein har også lavet musikkstykket 'Seemann', som her fremføres av den finske cello-gruppe Apocalyptica og den tyske (operette-) vokalist Nina Hagen. Handlingen i videoen er en annen enn i originalen. Her fremstår Nina som en mannevond Sirene og dominerer Fyrtårnet, - hvilket er et vesentlig symbol i ekstrem-sosialistisk propaganda. Mer illustrativt slukkes Fyrtårnet når det behøves mest, - og fellen klapper sammen. I den originale video til Rammstein handler det om, vanvittig tvangsarbeid,

håpløshet og en båt øyensynlig med pest om bord. Det er en symbolikk som passer bedre til forrige UU og pest-krigen Spanskesyken.

Nick Cave and the Bad Seeds - Messiah Ward

2014.mai.30

Ukens Utvalgte:

'Dagmars siste møte med Rasputin' er assosiasjonen til denne UU. Sangens tittel 'Messiah Ward' betyr omtrent 'Profeters 6. avd.'. Det blir med andre ord en annen synsvinkel for omtale av 1914, EW1 og resten av århundret. Med all etterpåklokskap i dette århundre kan en lettere se trekkene i Spillene, spillere og motiver, samt se hvem som virkelig vant og tapte. Etter 100 år burde det overordnede plot være tydelig: Å konvertere Roma3 fra Trone/Tempel i St. Petersburg til Stat i Moskva.

Det forrige århundrets rivaliseringer er tidligere omtalt UU, - spesielt under temaet 'Livskvalitet og Imperier'. Nå som dette tema har nådd 1914, blir det bygget på de tidligere skrivelser med en annen synsvinkel. For det går helt galt hvis man utelukkende prøver å forklare galskap med vitenskap. De to skulle jo helst ikke være sammenfallende. Men dessverre, - nettopp det skjedde etter det uforutsigelige 'BigBang' i 1908. Som nevnt i UU 2013.juni.21 var «Tunguska hendelsen en eksplosjon over Sibir med styrke tilsvarende 1000 ganger Hiroshima bomben. Lysstyrken opplevdes tilsvarende solens og nattehimmelen over Asia og Europa (og Amerika) berettes å lyse i flere døgn. Den slags hendelser er tidligere tatt som avgjørende religiøse tegn på store forandringer. Alle Troner var den gang nært knyttet til Templer. De keiserlige søkte antagelig svar på hva 'tegnet' betød for deres skjebner. Videre har antagelig mindre seriøse religiøse grupperinger funnet alternative forklaringer og planer.» Den gang kunne ingen forutsi eller forklare denne tilsynelatende episke hendelse. Selv okkult apokalyptisk galskap ble tydeligvis grunnlag for årsaksbeskrivelser og beslutninger.

Men først, for å ikke glemme Norge helt, så var det en relativt stille i en 100 års periode fra 1814. Det var vekst og velstand i Europa, Norge fikk utvikle seg selv, mens andre slikket sine sår fra Napoleonskrigene. Helt problematisk var det allikevel ikke i Norge, siden selvstendighet medførte ansvarlighet for egen velstand og utvikling. Etter '500 årnsnatten' var det lite tilbake og mye å gjøre. Norge var en fattig nasjon med alvorlig usikkerhet om fremtiden og eksistens. Europa hadde i 1815 etablert en forgjenger til FN kalt 'The Concert of Europe' (the Congress of Vienna). UU 2013.februar.22. Omsider, i 1905 fikk Norge tilbake utenrikspolitikken ved å oppløse den norsk-svenske personalunionen og ble i praksis en fullverdig nasjon med internasjonal støtte. Dermed synes det trygt å stå på egne ben og etablere internasjonale relasjoner. Etter en folkeavstemming ble den danske prins Carl kåret til konge og tok navnet Haakon VII. Forbindelsen til den danske trone kan ha vært avgjørende for at Norge ikke ble innviklet i ew1/ww1.

Som nevnt er det nærmest ukjent i Norge at den siste tsarina/keiserinne sin svigermor var dansk. Dette forhold og ww1 omtales omstendelig i UU 2013.mai.17 og gir grunnlaget for dette UU. Det var utvilsomt et arrangert ekteskap mellom Russlands og Danmarks Troner, siden tronarvingens og forlovedens død ikke forhindre henne i å bli gift med den neste i arverekken istedet. Prinsesse Dagmar av Schleswig-Holstein ble omdøpt til tsarina Maria Feodorovna av Russland. Sønnen, den siste tsar Nicholas II, giftet seg med den tyske prinsesse Alexandra mot svigermor og svigerfars vilje. De var sterkt anti-tyske etter krigen om å snarveien til Atlanterhavet via Schleswig-Holstein. Den siste tsarina ble aldri akseptert av Tronen, Tempelet eller folket/Staten. Hvis man så kan bli litt poetisk og relatere til Dagmars forbindelser til H.C. Andersen, så var Alexandra den 'Grimme Elling' og 'hakkekyllingen i hønsehuset', Dukkehjemmet, Vinterpalasset. I praksis dominerte Dagmar/Maria Russland etter sin manns tidlige død. Hun var sterkt dominerende over sønnen Tsar Nicholas II og som 'enke tsarina' ble tsarina Alexandra umyndiggjort og tilsidesatt. Kort sagt, synes det som svigermor helst ønsket at svigerdatteren aldri var kommet og helst forsvant hurtigst mulig.

Moskva, det 3. Roma, var forferdet da tsar Peter 'den store' flyttet regimet til St. Petersburg 200 år tidligere. Det ble heller ikke bedre da Tsar Alexander sitt diplomati med Napoleon førte til nedbrenningen av Moskva i 1812. Mest av alt ønsket Moskva makten tilbake og kunne neppe ønske noe mere enn Tronens forfall. Moskva var antagelig likeså lei av alle Europas Troner. Så kan det ha vært tenkt: Hvordan falt det første Roma? Med sine tidligere relasjoner til Roma¹ kan planer ha vært diskutert, basert på Julius sin skjebne. Dessuten var jo Moskva sin suksess bygget på meritene til Ivan 'den grusomme (og gale)'.

Rasputin er jokeren i Spillet. Han var en særdeles dyktig bedrager, som fikk Messiah renomme. Som nevnt; «Rasputin reiste for anledningen fra Sibir og ble tsarinas mest betrodde rådgiver. Tidligere oppsøkte han okkulte miljøer i Middelhavsområdet. Rasputin var hypnotisør, med påståtte evner som psykisk medium, et guddommelig talerør og en helbreder. Han arbeidet seg sakte og sikkert inn til tsarinaen, fikk flyttet krigsplaner inn i Vinterpalasset og bestemte at tsaren selv skulle delta i krigene. Da krigene selvfølgelig gikk galt, ble Russland urolig og gav tsarfamilien skylden. Når Rasputins offisielt i Moskva deklarererte at Russlands styres av hans manndom, kunne ikke tsarfamilien overleve ryktene. Det ble for meget med spekulasjoner om en 'Lille-Rasputin' som Russlands keiser, samt at tsarinaen kunne være en tysk spion.»

Rasputins virkelige religiøsitet er usikker. Han kunne like godt ha vært en ateistisk bedrager. At han angivelig skal ha helbredet tronarvingen med bønn fra Sibir, tyder også på at det var flere personer med som manipulerte inne i Vinterpalasset. Rasputin kan derfor også ha vært en syndebukk for å skjule andre aktører. Men evnen hadde han, - eksempelvis gjorde en prins et klønede forsøk på å forgifte Rasputin med arsenikk. Grunnet til at han ikke døde av de mange-dobbelte doser og pistolskudd – skyldes neppe guddommelig innblanding, men heller hans evne til å bedra andres oppfattelser ved hypnose. Men de virkelige skuddene utenfor Vinterpalasset kunne Rasputin selvsagt ikke overleve. Hvis så Rasputin var blitt en agent, var det selvsagt ikke for Tyskland, men for Moskva under arrestasjonen. Skuddene på Rasputin ville bli starsskuddet for 'tsarfamiliens død' ifølge 'agent' Rasputin sien egne brev.

Spillene i Vinterpalasset, dette 'Dukkehem', omtales i UU 2013.mai.17 med noen nordisk tilpassede Spill-varianter: «Et annet Spill kan være DAC (Divide And Conquer / Splitt Og Hersk). Spillet er nært i slekt med LYAHF (Lets You And Him Fight), men DAC har en vinner og to tapere. Spillet er dog mest relatert til organisasjoner eller nasjoner. Rasputin spilte DAC, som en marionett for andre. Et tredje spill er ur-nordisk og kan hete DSITDEN (Du Skal Ikke Tro Du Er Noe – eller kort sagt; 'Jante'). Det er et kollektivt 'alle mot en' - Spill. Et redelig motiv kan være å oppnå enighet. Men dette Spill kan selvfølgelig misbrukes og har også 3 grader av utfall. Kollektive utryddelser kan bli en fatal konsekvens. Det kan se ut som Jante Spillet er eksportert fra Roma³ til Norden i århundrer.» Dagmars reiser var hovedsakelig til Krim, Kiev, England og Danmark. Hennes favoritt søster, som også hette Alexandra, var gift med Albert Edward av Wales som ble kong Edward VII. Grunnen til at man trodde England ville blandes inn i Schleswig-Holstein krigen mot Tyskland i 1864 og gjøre redningsaksjon for tsar-familien i 1917, kan skyldes fatale og feilslåtte LYAHF Spill med Danmark og Russland som innsats. Disse to danske prinsesse-søstre har høyst sannsynlig alltid spilt Spill sammen (Played Games) som Barn og Voksen i de engelske, russiske og danske hus. Det igjen gir assosiasjoner til den første tsar Ivan og hans kaotiske 'Court', se UU 2013.Mai.24.

Uansett om Tunguska-hendelsen i 1908 ga okkulte teokrater legitimitet til felle alle verdens keisere, betegnes utvilsomt 'startskuddet i Sarajevo/Serbia' i 1914 som starten på den århundre lange Europakrig. (UU 2013.juni.21.) En manipulert teenager skjøt Østerikets trone-arving og gravide kone. Det var utvilsomt et organisert henrettelse arrangert av noen ynkelige menneskesinn som skubber naive tenårere foran seg og som ikke selv våger å ta ansvar for sin egen bestialitet. Tilsvarende manipulering ser man daglig, nå tilslørt som 'autonome' aktivister, hooligans, opprørere og separatister. I alle tilfelle ble Europas internasjonale forum destruert med påfølgende start av Europa- og verdens-krigen. Siden menneskeheten var videreutviklet gjennom industrialiseringen etter Napoleonskrigene, ble også krigen industrialisert med krigsmaskiner. Men det ble ingen hurtig avgjort krig med klare vinnere. Det ble uavgjort med flere års stillingskriger. Da C-våpen (chemicals) ikke tvang noen til å gi seg, ble B-våpen (bacterial) introdusert, - mere kjent som 'Spanskesyken', en pestkrig som overgikk den mongolsk/muslimske 'Black Death'. Den eneste måte å avslutte den okkulte apokalyptiske trussel mot menneskeheten var at alle Europas keisere

abdiserte, - hvilket de gjorde. Pesten ble stoppet så. Skript som 'Johannes Åpenbaring' synes gjennomført. Men det var flere okkulte skripts tilbake.

Dagmars sosiale arv stammer fra hennes rolle før, under og etter ew1/ww1. Hennes dominerende rolle er nærmest fortiet i offentliggjort historie-beskrivelser. Sant nok var hun kun en brikke i langt større Spill enn det hun selv spilte i Vinterpalasset. Dagmar/Maria ville jo kun av med sin tyske svigerdatter Alexandra. Resultatet ble århundrets verdenskrig med menneskehetens mest omfattende utrenskninger, - inklusive hennes egen familie og venner, samt noen titalls millioner. Denne 'teenager pige' som ble giftet inn i tsar-familien ble utnyttet og manipulert i et globalpolitiske Spill. Besynderlig nok levde hun fredelig livet ut i Danmark, mens familien og andre russiske royalister ble massakrert. Danmark må ha vært omsvermet av aktive venner og fiender da hun faktisk fremdeles var 'dowager empress'.

Når man så, med all etterpåklokskap, er klar over hennes negative holdninger og metoder, bør man også bli av med den sosial-psykologiske arv hun returnerte til Danmark. Hun var vel så fjernt fra dagens sosial-demokratiske kultur man kan bli. I hennes syn var antagelig Nordens nasjoner noen potensielt russiske vasallstater. Arven, - det dominerende martialske jante-pedokrati, med fundamental nasjonal-sosialisme, har dominert dansk kultur i det forrige århundre. Det er nå rotfestet og anses som normalt, - spesielt igjennom Folkeskolen. Dansker bør derfor 'manne seg opp' og slippe til sosial-psykologisk normalisering i henhold til anerkjente modeller. (Se UU tema Livskvalitet Grunnteori f.o.m. UU 2013.februar.01 t.o.m. UU 2013.april.26.)

Opphavet til den påfølgende 100 års Europakrig er tidligere henvist til Moskva. Rasputin var også kun 'en nyttig idiot' - en brikke i Spillet. Allikevel, Spilletts tilslørte 'bak-menn og kvinner' kan selv ha blitt rammet av de etterfølgende kjedereaksjoner av nasjonal-sosialistiske paranoide utrenskninger. Det var anarkistisk og ikke sosialistisk. I alle tilfelle, resultatene tyder på at Spilletts motiv var; anti-europeisk, anti-demokratisk, anti-royalt og ateistisk. Videre var start og slutt av Spillet målbevisst definert ved henrettelsen av de Østeriske og Russiske Troners arverekkefølge. Mest avslørende er de okkulte anvendelser i Spillet. 'Agent' Rasputin fikk opplæring i religion, hypnose og psykologi, ble introdusert til persisk mystisisme, spiritualisme og okkultisme i Kiev, fikk relasjoner i Moskva og til sist plassert ved tsarina Alexandra i Vinterpalasset. Han fungerte som hennes første-rådgiver i krigen mot hennes hjemland Tyskland. Det kunne jo kun gå galt. Flere omtaler om den slags galskap finnes i UU 2013.april.12 om Gurdjieff, Enneagrammet og NLP (Neuro Linguistic Programming). I UU 2012.Juli.13 omtales DR2 dokumenterte avsløring av «Forbrydelse under Hypnose».

Denne UU's tittel 'Messiah Ward' betyr noe som 'Den psykiatrisk avdeling for profeter'. Nick Cave (and the Bad Seeds) er en særegen australsk musiker og poet med kultstatus. Hans spesialitet er poetiske beskrivelser av ublide skjebner. I denne UU taler tydeligvis den innsatte til en nært bekjent kvinne. Han er tydelig opptatt av astrologi og innflytelse av stjerner, planeter og månen. Hans problem er at 'stjernene er revet ned og månene er lukket bort og får ikke lyse'. Han kan ikke fungere som 'messiah' mere, prøver å finne mening med det hele med besøkernes hjelp, mens stjernene angivelig prøver å reorganisere seg. I astrologisk/poetisk sammenheng er stjerner og planter (vandrestjerner) symboler for engler, og månen er ofte assosiert med galskap. Han gjentar flere ganger at de nå bærer ut de døde. Det gir assosiasjon til større pest-kriger. Den besøkende kvinne har antagelig allerede hørt om Spanskekyken i Europa og er i ferd med å erkjenne utfallet av det hele. Alt gikk galt og alt er tapt.

Janet Jackson – Rhythm Nation 1814

2014.mai.23

Ukens Utvalgte:

1814 blir kalt 'mirakelåret' og var det store historiske vendepunkt for Norge. Etter 500-årsnatten fikk nasjonen atter mulighet til å fri seg og reise seg igjen. Det var hast om å lave Grunnloven for det var kun en liten periode før tapere og vinnere fra Napoleonskrigene kom til annen enighet. Derfor ble Norges Grunnlov en av de korteste, mest radikale og hurtigst konstituerte.

Kort oppsummert tok forhandlingene kun 6 uker og Stortinget (parlamentet) skulle møtes kun noen få uker hvert tredje år. Symptomatisk nok ble Nord-Norge fraværende pga forsinkelser. (Russland har for øvrig alltid vært interessert i Finnmark etter anekteringen av Finland.) Utkastet hadde mer enn 300 paragrafer, men ble hurtig redusert til 110. Parlamentet fikk et 2-kammer system med Odelstinget og Lagtinget. Den tids demokrati betød stemmerett til 40 % av mennene over 25 år. I starten var det naturlignok to fraksjoner i Parlamentet, - Unionspartiet og Selvstendighetspartiet.

Kjernen i Grunnloven er folkesuverenitet, maktfordeling og menneskerettigheter. Blant de viktigste inspiratorer var John Locke om enkeltindividenes liv, frihet og eiendom, Jean-Jacques Rousseau om folkesuverenitetsprinsippet, Charles Montesquieu om maktfordelingsprinsippet med de 3 'statsmakter', samt den amerikanske revolusjon i 1776 om maktfordelingsprinsippet og den franske revolusjon i 1789 hvor Staten felte Tronen. Men selvom norsk historieskrivning fremmer nasjonal frihetskamp, betegnet andre nasjoner det som et opprør som forstyrret den internasjonale rettsorden. I nåtiden er Norges Grunnloven allikevel av de eldste, mest konservative og endog av tvilsom legalitet fordi revisjonene i 1905 og 1940 ikke helt fulgte Grunnloven. Mere om det i de neste UU.

Det ble straks krig med Sverige, som allikevel ville ha noe land. Siden all adel var utradert under 500-årsnatten, ble Norges konger av svensk og dansk slekt. Det forklarer også hvorfor nordmenn heller ville av med Tronens aristokrati og ga Statsmakt på revolusjonært nivå. Rivaliseringer om Tronen var heftig da det var den tradisjonelt hadde mest makt. Norge fikk dermed 3 konger i løpet av et år. Karl den 13. ble opprinnelig valgt til Norges nye konge. Da han døde i 1818, ble kronprinsen Karl Johan kongen av Sverige og Norge. Christian Frederik endte som Danmarks siste diktatoriske konge. Men deres rivalisering var forgjeves da nordmenn reduserte Tronens makt med den nye Grunnlov. Heldigvis ble norsk utenrikspolitikk styrt av Sverige så vi slapp for alskens internasjonale intriger på den tid. Det gav fred i landet.

Både Tempelet og Tronen fikk redusert sin makt til fordel for Staten. Som nevnt i UU 2014.mai.09 var hovedstaden tidligere flyttet fra det katolske Trondhjem til det Hanseatiske Bergen og dermed reduserte geistlig innflytelse. Men det var stor frykt for at teokrater skulle felle konstitusjonen. Derfor, som enhver nasjon i dag ved de forenede nasjoner (FN/UN), har traktatene klare preventive reaksjoner mot anti-nasjonal politikk. Grunnloven fikk derfor en streng formulering som i dag ville være i strid mot menneskerettigheter. Men, som globale terrorgrupper i dag misbruker Koranen til nådeløs krig mot 'vantro' nasjoner, ble Bibelen på den tid misbrukt av tilsvarende grupperinger. Historisk var Norge blitt redusert fra en betydelig nasjon til svak provins, - og gjentakelser skulle forhindres med Grunnloven. Paragraf 2 forbød følgelig adgang til nasjonen for (apokalyptiske) jesuitter og jøder, samt tatere (mongolsk/muslimsk fra Krim) og 'munkeordener' (ala Ivan/Philotheus).

Danmark ble atter rotet inn i et katastrofalt tap et halvt århundre etter 'tapet' av Norge. DR laver nå en stor TV-dramaserie om Schleswig-Holstein krigen mot Tyskland i 1864. Tidligere inkluderte Danmark de tre tyske fyrstedømmer Slesvig, Holstein og Lauenborg. Den prøyssiske ministerpresident Bismarck rådet over området ifølge de internasjonale avtaler fra London etter Treårskrigen. Men Danskene erklærte i 1863 at de aktet å ta tilbake Schleswig-Holstein. Det var en krigserklæring som brøt internasjonal lov. Danmark forventet Englands hjelp, hvilket var absurd. Krigen ble selvfølgelig enda et katastrofalt tap for Danmark. Så kan man saktens undres om danskene igjen ble forledet av diplomatisk bedrag. Det minner om enda et LYAHF Spill (Let's You And Him Fight) tilsvarende skjebnen i Napoleonskrigene.

Dernest kan man saktens forestille seg at det arrangerte giftemålet i 1884 med prinsesse Dagmar av Schleswig-Holstein inn i den russiske tsar-familien var en kompensasjon for alle tap Danmark led i forbindelse med russisk diplomati. I alle tilfelle ble det særdeles fatalt, - ikke kun for Danmark og Russland, men hele verden i et helt århundre. Ikke det at en lille teenager-pige var årsaken til intrigene, men kan ha blitt utnyttet kynisk av rivaler i og utenfor Vinterpalasset. Dette er omtalt spesielt i UU 2013.mai.17 og vil bli nærmere omtalt i det neste UU.

Som nevnt i forrige UU har hverken Norden, Europa eller verden for øvrig fått fullstendig reorganisert seg etter krigen på 1800 og 1900 tallet. Noen grenser på kartet fungerer overhodet ikke. Norge har dermed en ganske unik konstitusjonell historie som bør være interessant for alle involverte nasjoner i dagens FN. Faktisk angår det mengder av nasjoner i Øst-Europa (se UU 2013.februar.22), AU (Afrikan Union, se UU 2013.Juli.26) og ikke minst UA (potensielt fremtidige Union of Asia', se UU 2013.juli.19). Skjønt, - den norske Menneskerettsloven er i dag et vesentlig fundament i dagens konstitusjon og godt integrert med Grunnloven.

Janet Jackson sitt album 'Rhythm Nation 1814' er hennes fjerde studio album. Hun insisterte på at temaet skulle handle om sosial rettferdighet. Hun fikk med dyktige produsenter og komponister, men har også selv bidratt betydelig. Albumet var en stor suksess og fikk førsteplass på Billboard, i Australia, Japan og New Zealand, 6 ganger platina av RIAA, solgte 14 millioner eksemplarer og er blant de 500 beste av Rolling Stone magasin. Videoen fikk Grammy Awards. Stilen i videoen synes samkjørt med sin bror Michael på den tid og understreker dermed alvoret med militant fremføring. Det er usikkert om den nye stil provoserte frem de ufine oppførsler de ble utsatt for. Det kan også ha vært reaksjoner på deres brudd med Jehovas Vitner. For Janet er tallet 1814 tvetydig. Bokstavene R og N er de 18. og 14. bokstaver i alfabetet. Men den mere saklige versjon er at hun tenkte 'Nasjon og Musikk' og fant ut at Francis Scott Key skrev nasjonal sangen '[The Star-Spangled Banner](#)' i 1814. Det samme år som den norske Grunnlov ble laget. Det passer dermed godt til denne UU.

Tchaikovsky - Overture 1812 - Prelude til 1814

2014.mai.16

Ukens Utvalgte:

Norge gjenvant sin selvstendighet i 1814. Foranledningen var ikke noen selvstendighetskamp, men et utfall av Europas Nemesis - Napoleon. Faktisk var nedbrenningen av Roma³, Moskva, dråpen som fikk abdisert denne 'keiser wanna-be'. For å omtale noe så kompleks som foranledningen til Norges re-konstituering, holdes det fast i noe simpelt, - Napoleons historie. Som en ekstra UU er det derfor vedlagt links til den 6 timer filmen Napoleon fra 2002.

Napoleon var et produkt av det franske Coup d' Etat, - Statens blodige revolusjon og påfølgende terror-regime som utrensket Tronens royalister. Napoleon kom fra den fransk-italienske øy Korsika. Han var en liten gutt med særlig matematiske evner. På militærakademiet ble han mobbet og utviklet antagelig et stort mindreverdighets-kompleks. Det militære gjennombrudd fikk han ved en særdeles blodig slakt av opprørte borgere som truet med kontra-revolusjon. Dernest fikk han kommando over den italienske hær og lov til å invadere Egypt for å blokkere Englands handelsvei til Asia. Det var en fiasko fordi England var overlegen på havene. Men personlig ervervet Napoleon kunnskaper om Roma¹ imperiet. Napoleon sitt konsept synes å bli en kopi av Julius Cesar og å skape et nytt Roma.

I Paris inngikk Napoleon en allianse med noe tilsvarende Romas Praetors/Oprichnina. I filmen er det personifisert ved John Malkovich (utenriks) og Gérard Depardieu (politistaten). Straks arrangerte de et coup d' etat under påstand om vold i 'Direktoratet' og krav om å beskyttet det. Diktaturet ble dannet med Napoleons som 'first consul' og løfte om uselviske planer. Med dannelsen av en uslåelig Grande Armée på 2-600.000 mann, ble overraskelses-angrep på Europas regimer hurtig til seire. Dernest avslørtes han sine virkelige ambisjoner om å bli 'Europas keiser'. Napoleon kronet seg selv i 1804, med Paven som 'gissel-vitne' for å forhindre avkristning av imperiet.

Det var mange kvinner i Napoleons liv som påvirket han selv og hendelsene betraktelig. Hans kone Joséphine de Beauharnais var 6 år eldre og utfylte antagelig hans 'Ødipus' behov etter sin mors adskillelse. Hun var enke etter å vitne mot sin mann under revolusjonen. Hun ble keiserinne, men de fikk ingen arving sammen. Napoleon fikk sin førstefødte sønn med en polsk adelig kvinne Maria Walewska. På den tid hette hovedstaden Danzig og hadde tidligere et nært forhold til Danmark. Mor og barn ble aldri offisielt anerkjent, men hun fikk overtalt Napoleon til å fri og forsvare Polen mot Russland. Mest kjent er den østeriske hertuginne Marie Louise som ble keiserinne av Frankrike og mor til Napoleons arving. Da Østeriket krevde kapitulasjon og abdisering vant de i konstitusjonelt det franske keiserriket. For øvrig gikk det rykter om flere kvinner og barn, men de kunne aldri bli anerkjent. En elskerinne i Egypt ble kalt 'Cleopatra', så en kan undres om Napoleon ble introdusert til Osiris kulter (se UU 2014.april.18).

Norden var betydelig involvert i Napoleons-krigene, selv om det ikke nevnes i filmen og nevnes lite i Norge. Danmark sin skjebne ble ublid, da de prøvde å hevde nøytralitet i det lengste. En forhold er den gamle relasjon til Danzig (dagens Gdansk) som ble 'frigjort' av Napoleon. Men mest viktig var den fransk-russiske diplomatiske relasjon og krav om å velge side 'for oss eller mot oss'. Da Danmark måtte velge Napoleon pga. anstrengt forhold til Tyskland, reagerte England. De fryktet at den danske flåte ville bli brukt av Napoleon til invasjon av Irland og utsettes for 'bakholdsangrep'. I 1807 seilet den engelske flåte inn til København, terrorbombet byen og kapret hele den danske flåte. Dette var begynnelsen på dansk nedgang og norsk oppgang. Sverige derimot har alltid sloss mot Russland og ble med i de siste allianser mot Napoleon. De havnet til sist på seierherrenes side.

Men siden Russland tok Finland fra Sverige, og Russland ble ansett som et offer for krigene, måtte annen kompensasjon finnes. Norge ble ansett som passelig offer-gave. Som kjent, med engelsk og tysk hjelp ble en egen norsk konstitusjon lavet og anerkjent i Kiel. I 1814 ble Norge frigjort ved en konstitusjonell finte som forhindre landet i å bli et erstatningsbetaling til Russland eller Sverige. Ved Wienerkongressen i 1814 underskrev Danmark med Storbritannia og Sverige traktaten. I 1815 returnerte Napoleon for å gjenvinne det tapte, - men møtte sitt 'Waterloo'.

Kort sagt var resultatene av Napoleons-krigene hovedsakelig en slakt av Europas royalister i militæret, - spesielt de franske. Så er det grunn til å tro at resultatet egentlig var det overordnede mål i dette Spill. Det var jo ikke kun Moskva som hevdet rett til arven som Roma (UU 2014.mai.02), men også St. Petersburg,

Østeriket, Tyskland Italia og Frankrike, som noen Roma3b, 3c, 3d, 1b og 3e. Så skal man heller ikke glemme at det Ottomanske riket i praksis var et muslimsk Roma2b og en aggressiv rival til dem alle. I den henseende er Napoleons livvakt Roustam Raza, alias Idzhahia, særlig interessant. Han var opprinnelig fra Armenia, ble kidnappet som barn, solgt som slave til tyrkerne og gitt til Napoleon som gave fra sjeiken av Cairo under oppholdet i Egypt. Han var antagelig Napoleons nærmeste og mest betrodde person.

Et par andre omstendigheter er relevante, selv om de kan virke fjerne i både tid og sted. Tidligere UU 2013.juni.14 omtaler dannelsen av Roma4 i Amerika. På Napoleons tid hadde allerede US konstituert seg. Mest av alt sloss US for å bli av med alskens plagsomme europeere som briter, franskmenn, spanjoler og hollendere. Det var derfor særdeles beleilig at disse begynte å sloss mot hverandre i sitt eget kontinent i stedet. Så blir det legitimt å spørre om hvilken rolle US og UK spilte i denne franske selv-destruksjon i kontinental-Europa. I UU 2013.Mai.24 nevnes også det nære forhold dronning Elizabeth I og Ivan hadde ved dannelsen av Roma3, - hvilket ikke utelukker relasjoner under Napoleons-krigene.

Relatert til nåtiden, er Napoleons-krigene ikke helt overstått, - hverken i Norden eller Europa. Faktisk ble hele verden berørt fordi europeiske nasjoner hadde kolonier over hele verdenen. Spesielt i dag ser man godt hvordan Moskva/Roma3 stadig Spiller ut mot re-konstituerte satellitt-stater. Videre kan man også se tilsvarende antydninger med Irland og Skottland sine forsøk på løsrivelse fra UK, Belgias skjøre dobbelthet og ikke minst Danmarks oppløsning av tidligere norske regioner som Island, Grønland og Færøyene. Men noen ny Romas Nemesis skal ikke få slippe løs i vår tid, - ikk'?

Nedbrenningen av Roma3 er ikke særlig nevnt i den kalde krigs folkeopplysning. Russerne selv foretrekker den emosjonelt heroiske fremstilling ved '1812 Overturen'. Filmen og beretninger viser at russere gjorde intet for å forhindre invasjonen, men heller provoserte den frem ved å true 'Napoleons' Danzig og 'lokke' ham etter seg hele veien til Moskva. Det var ingen motstand mot invasjonen og byen ble brent angivelig uten Napoleon ordre. Siden Statens Moskva og Tronens St. Petersburg var rivaler, samt at Tsar Alexander var diplomatisk med Napoleon, kan tsaren selv ha vært en hovedaktør til det sosialpsykologiske Spill LYAHF (Let's You And Him Fight). Tsaren var da heller ikke ærlig med løfter til Napoleon om fredsforhandlinger med Østeriket.

Apocalyptica - Life Burns (2)

2014.mai.09

Ukens Utvalgte:

'400 årsnatten' kaller Nordmenn perioden frem til re-konstitueringen i 1814. Men man burde utvide til '500 årsnatten', som startet med den mongolsk/muslimske motoffensiv mot Roma på 1300 tallet. Dette rammet

Europa, Norden og Norge hardt. Norge var med andre ord i særdeles dårlig forfatning innen tiltredelsen av Nordens union. Men selv om fokus hovedsakelig er på Norge i dette UU tema, er ikke dette noen bebreidelser av naboland. Vi alle var i 'samme båt', utsatt for DAC Spill (Divide & Conquer) og tapte.

Den mørke middelalder i Europa er tidligere nevnt i UU 2014.april.25. Forholdene kom ikke av skjebnen eller tilfeldigheter, men var konsekvenser av en langvarig strategisk krigføring mot Roma sine aggresjoner. 150 år etter at mongolene invaderte og okkuperte Beijing startet en bakteriologisk krigføring via handelsskip og Krim halv-øyen. Dette var totalt overraskende og ukjent for europeere. Forsvar fantes ikke og resulterte i massiv ødeleggelse av sivilisasjoner. Opp mot 50% (200 millioner) av sivil-befolkningen døde på grusomt vis. De sosial-psykologiske følgeskader mot samfunn kan ha vært vel så katastrofale. Dette omtales i DR Tema 'Pest over Europa' og 'Hvit slavehandel' (se links under).

Massebrenning av infiserte ting og hus har rent kliniske årsaker fordi sykdommer forsvinner. Men i den periode startet også massehenrettelser ved å brenne levende mennesker. Den type ritualer er langt eldre enn den europeiske middelalder. Historiske beretninger fra før kristendommen finnes fra: Babylon 1800BC, Egypt 1900BC, Assyria 800BC, G.T. 600BC og Nord-Afrika 300BC. Etter kristendommen er: Roma1 100AD, Roma2 300AD, Baltikum/Østersjøen 1200AD, Roma1b/3b 1200AD, Spania/Portugal 1400AD, Roma2b/Ottomansk 1600AD og Marokko 1800AD. Metoden har ikke opprinnelse i Europa eller kristendommen, men i pre-muslimske kulturer. Eksempelvis skal mange tilhengere av Muhammeds rival (Tulayha ibn Khuwaylid ibn Nawfal al-Asad) blitt brent levende som straff. Videre skal konvertitter fra islam til kristendom ha blitt brent levende under det ottomanske imperiet (Roma2b).

Det synes som brenning av levende 'vantro' i inkvisisjoner er influert av Gammel Testamentet og Koranen. Nye Testamentet fremmer ikke denslags bestialiteter (med unntak av 'ekstra bilaget' 'Johannes Åpenbaring' som åpenbart ikke tilhører N.T.) Den fasinasjon av 'vesener av ild' synes heller å tilhøre Koranen og pre-muslimske positive forhold til Jinns/Djinns. I kristendommen omtales disse som demoner. Man kan derfor anta at det kristne teokrati var manipulert av rivaliserende teokratier. I Europas mørke middelalder utviklet det seg til metodiske heksejakter og nedbrenning av hele landsbyer. Disse organiserte massakre skal kostet ca. 50 000 mennesker livet i en 300 års periode. Det er allikevel langt mindre enn pestkrigenes ofre.

Nedbrenningen av London er en historisk katastrofe som illustrerer de apokalyptiske prosesser. I 1664 kom 'tilfeldigvis' en komet til syne på himmelen. Denslags tolkes som 'varsler' om kommende katastrofer i okkulte profetier. Straks etter brer pesten seg i London og blir ustoppelig. I året 1666 blir London brent til grunnen. Assosiasjoner til Johannes Åpenbaring og spekulasjoner om tallet 666 kan liksom legitimere hendelser som 'Guds straff'. Assosiasjoner faller også på nedbrenning av Nero sitt Roma1 og Ivan 'den grusomme' sitt Roma3. Okkulte apokalyptiske 'varsler' var ikke dengang så åpenbare for allmenn skue. Men J.Å. har tydelige henvisninger til 'dyret', 'skjøgen' og de 4 ryttere med hver sine 'landeplager'. Roma2 derimot, ble aldri brent ned. Det ble invadert. Så kan man saktens ha lov til å undres over eventuelle sammenhenger. (Se UU 2014.jan.03 for flere omtaler.)

Selv Norge, som ligger langt utenfor naturlige smitteveier, ble hardt utsatt rundt 1350. Halve befolkningen døde, mange bygder ble øde, inntekter falt ca. 80% og adelen falt fra 600 til 200 familier. Riksrådet ble oppløst i 1537 og selvstendigheten ebbet ut. Kongeslekten ble inngiftet med den svenske i 1319, den danske i 1380 og døde helt ut i 1387. Dermed gikk Norge inn i den nordiske union i 1397. Etter unionen, i 1537, ble kirken og Nidaros/Trondhjem underlagt kongen i København. (Det katolske Trondhjem mistet for øvrig hovedstad-tittelen til hansastaden Bergen rundt år 1100. Rundt 1300 ble Oslo omdøpt til Christiania (etter Christian IV) og ble landets tredje hovedstad.) Tiden mellom 1570 og 1721 var preget av høye skatter som følge av langvarige kriger mellom Danmark og Sverige. Etter Kalmarkrigen ble Nord-Norge inkludert i Norge (1613). Kriger førte til tap av Jemtland og Herjedalen (1645), samt Båhuslen (1658). Men i 1660 gjorde kongen statskupp, oppløste det danske riksrådet og innførte kongelig enevelde. Den forfatning varte til 1814, - til Norges re-konstituering.

Toller-galskap i dansk/russisk regi er eviggjort i Shakespears 'Hamlet' med sitatet «Something is rotten in the state of Denmark». Historien har 500 års-jubileum i år og er opprinnelig tillagt slottet Kronborg, - ved Øresundet mellom Atlanterhavet og Østersjøen (Baltic Sea). Den strategiske posisjon muliggjorde fortolling av alle passerende skip og bygging av det overdådige slottet Kronborg. (Det ble med i 'UNESCO's World Heritage Sites list' i år 2000). Som noen strandede pirater tre-doblet de tollene ved å vurdere varenes verdi i stedet for å telle skip enkeltvis. Det muliggjorde Ivans Nero-politikk ved blokkering av allierte støtte-skip og finansiering av krigene. Men til sist fikk Europa nok. Hollenderne reagerte med å seile en armada tvers igjennom, svenskene ranet slottet og engelskmenn nektet simpelthen å betale. Til sist tvang en internasjonal traktat tolleriet til opphør.

Dette understreker viktigheten av Østersjøen. 'The Baltic Sea' kan anses som Nordens Middelhavet eller Svartehavet. Som nevnt, svenskene allierte seg med polakker, litauere, hollendere og tyskere i forsvaret mot Ivan 'den grusomme' sine angrep mot Østersjø-landene. Det var enorme sjøslag såvel som slag på landområder. Et eksempel er slaget ved Øresund (Battle of the Sound 1658) hvor dansker med 41 skip og 1413 kanoner kjempet mot svensker med 45 skip og 1838 kanoner. Det kan også bemerkes at både Peter og Catherina ('de store') den gang hadde bygd St. Petersburg og flyttet hovedstaden fra Moskva til Østersjøen. (Disse presenteres godt i videoen fra forrige UU: '10/16 Engineering An Empire: Russia'.) Videre omtales handels-triangelen (Europa-Afrika-Amerika) sin betydningen i UU 2013.Juli.26. Handelen hadde antagelig langt større verdier i lasten enn bomull og slaver, som for eksempel våpen og narkotika. Handelen gikk også via Østersjøen og plasserer dermed regionen som viktig for verdensbegivenhetene på den tid.

Så skulle man tro at all ondskap var oppbrukt på Europa. Men i all etterpåklokskap vet man at det er en evig gjentakende prosess. Langt mere effektive i destruksjoner ble disse små menn med store kompleks, - som tross dårlig skjult propaganda er personifiserte 'anti-Europa' og 'anti-Norden'.

'Life Burns' med gruppen Apocalyptica er tidligere brukt i en kritikk av danske midtsommers ritualer i UU 2010.juni.25. Som senere nevnt stammer ritualene sannsynligvis fra Ivan den Grusomme sitt Roma3, Roma1 med keiser Nero, samt katolske inkvisitorer. Her fremfører de tre finske cellister en unik og bemerkelsesverdig video med gjesteartisten Lauri Ylönen fra The Rasmus. Gruppen fikk faktisk fremføre dette stykket på familie-programmet Melodi Grand Prix da Finland var vert - dengang naturlignok uten tekst og bilde. Det skal også bemerkes at de, tross navn, tross renommé, og tross denne omtale, har flere gode videoer med og uten vel anerkjente gjesteartister, så som i UU 2013.aug.02.

Om det så skulle være noe interesse for en eventyr-roman om tidligere oppdagelse av Amerika rundt år 1000, - så ligger et utkast tilgjengelig på internett. Den heter 'NewFound Land' og går langt lengere enn offisielle historiebøker. Den er fritt å lese, men ikke å kopiere. Merk at den aldri har vært til gjennomlesning av andre og kan være noe preget av det.

King Crimson - Epitaph

2014.mai.02

Ukens Utvalgte:

Årstallet 1514 er valgt for å markere et 500 års fundament til 2014 jubileet. Det var den tid da Nordens Union kollapset og Moskva konstituerte seg som Roma3. Sivilisasjoner er preget av det, - i vår tid mere enn noen gang. Den kalde-krigs folkeopplysning har store huller og er blitt tendensiøs. Derfor er en hel UU dedikert noen fundamentale årsaker som burde inngå som allmennviten, selvom bakgrunner kan være noe sprukne.

Moskva var en liten og tilbakestående region på 1500 tallet. Kiev var den russiske hovedstad. Det er utydelig når og hvordan Moskva ble anerkjent som Roma3, men et par milepeler var da Ivan III (the Great) beseiret en mongolsk by og befrikk Moskva fra skatter og terror, samt at han giftet seg med en prinsesse fra Roma2. Han brukte visst en tsar/keiser tittel i den periode. Mere formelt skal den russiske munk Philotheus (Filofey) ha vært i 1510 ovenfor sønnen Vasili III med å erklære: "Two Romes have fallen. The third stands. And there will be no fourth. No one shall replace your Christian Tsardom!"

Men selvom denne munk identifiserte Moskva med landet og ikke kun byen, viser kartet et særdeles begrenset område i forhold til etter-historiens hevd. Dessuten, den konstituering er blottet for legalitet siden ingen myndighet for Roma1 eller Roma2 har gitt noen støtte. Det er forøvrig ikke tilstrekkelig å erklære seg uavhengig av Roma2 og ta dets riksvåpen, 'den dobbelthodet ørn'. Den kan ha vært plyndret av 'det fjerde korstog' og ervervet som et heleri-objekt (se forrige UU).

Sønnen Vasili III stilte sterkere og hadde antagelig et nært samarbeide med den regionale Praetor fra Roma2. Nødvendige ressurser og informasjoner ble tilgjengelig for massiv ekspansjon. Vasili annekterte Pskov i 1510, Volokolamsk i 1513, Krim i 1519, Ryazan i 1521 og Novgorod-Seversky i 1522. Men Krim ble solgt tilbake til den mongolske Khan litt senere. Særlig viktig for historien er at den Nordiske Union 'Kalmar unionen' kollapset i denne sammenheng, - i 1923. Sannsynligvis var unionens indre stridigheter direkte relatert til Roma3 sine aktiviteter. For øvrig ba Vasili om å bli munk før sin død. Historien forteller ikke om munken Philotheus avga erklæringen i Vasilis periode som tsar eller munk. Uansett virker det som internt kameraderi.

Ivan IV, sønn av Vasili III, ble tsar i Moskva etter at Roma2 falt for den muslimsk/mongolske invasjon. Tittelen medførte naturlignok forstørrede forpliktelser og forsterkninger fra Praetorer fra Roma2. De dannet organisasjonen 'Oprichnina', det hemmelige politi, som bedrev overvåking, arrestasjoner og henrettelser. Regimet var nådeløst for å erobre et eur-asisk imperie fra Sibir til Norden. Det kan synes som Ivan/Oprichnina realiserte arven fra Roma1 ved Nero/Paulus-alliansen med kristenforfølgelser. Beretninger tyder på at brutaliteten kan sammenlignes med romerske, mongolske og muslimske metoder til sammen, da de skal ha brukt tortur ved lemlestelser, brenning og koking av levende mennesker. Kort sagt, Ivan IV er fremdeles på 'Top 10' listen over menneskehetens verste diktatorer.

Det kan være mange årsaker at tsar Ivan valgte ekstrem vold og terror som middel. Et kan være lærdommen at romersk, mongolsk og muslimsk brutalitet førte til ekspansjon, mens Roma2 sin pasifisme

førte til forfall. Et annet er at Roma3 fikk forsterkninger fra Roma2 som antagelig var bitre og hevnløst etter fallet. Den mest kjente årsak er tsar Ivan sin sviktende psyke. Han hadde irrasjonelle utbrudd og tilfeller av mental sykdom på nivå med keiser Nero og Caligula. Dessuten, et selvbedrag om å være Guds utvalgte, hindrer livsviktig korrigerende selvkritikk mot egne feil. Han ble betegnet Ivan 'the Terrible' i motsetning til sin forfar Ivan 'the Great'. UU 2013.Mai.24 i temaet 'Livskvalitet og Imperier' omtaler begynnelsen av Roma3 spesielt. (Der kan det være noe mix-up på Ivan III og IV.)

Som nevnt i UU 2013.mai.31: «Novgorod var opprinnelig den nordvestlige region i Russland. Senere ble byen Novgorod en særlig viktig havneby i elveveien mellom Norden/Østersjøen og Middelhavet. Det gikk igjennom Hviterussland (Belarus) og Ukraina, hvor Kiev også ble en viktig hovedstad og knutepunkt. Den nye region vokste naturlignok og naboregioner som Hansastater fant god nytte av elveveien til Middelhavet. Følgelig ble det viktig for Roma3 å kontrollere disse områder som Roma2 hadde relasjoner med.»

Ivan sine angrep var som nevnt særdeles bestialske. Regionen reagerte med raids, invasjoner og blokader sjøveien. Polakker, litauere, svensker, hollendere og tyskere var med i denne motstand. Imperiets reaksjoner ble grusomme og endte ut i Ivan og Oprichnina sin 'Novgorod massakre' i 1570. Ivan sine anklager var at Novgorod kunne komme i katolsk og polsk/litauiske allianse, men dette har ingen dokumentert holdbarhet. Handelsforbindelsen mellom Østersjøen, Kiev og Svartehavet/Roma2 ble dermed så godt som terminert.

Kalmar (latin Calmari) var et særlig egnet sted for sentralt forsvarsverk av Østersjø-regionen og ble hovedsetet for den nordiske union – Kalmar unionen. Denne Nordens union var allerede splittet i 1523 under tsar Vasili III. Unionen klarte ikke å bli solid fundamentert før indre stridigheter førte til dets kollaps. Spesielt var Sverige kritisk til Danmark sine stadige kriger mot Tyskland i Holstein regionen. For Sverige og øvrige Østersjø-nasjoner var den region særlig viktig for handel og industri. Det var dermed uenighet om Norden burde prioritere krig mot Tyskland eller forsvar av Norden. Det førte til at Sverige trakk seg ut og unionen ble oppløst.

Den etterfølgende konstituering har overhode ingen legalitet. Norge gikk inn i unionen med Island, Grønland og Færøyene i år 1397. En sivilisert re-konstituering skulle selvfølgelig ha likestilt Norge og Danmark i den nye union. Danmarks annektering av Norge og tilhørende regioner var illegal og minner mest om Russlands øvrige annekteringer, - den gang som i nåtiden. Dessuten, Danmark hadde ikke ressurser og evner til å styre unionen alene. Derfor er det naivt til å tro at dannelsen av den 'dansk-norske' union skjedde uten Moskva sin regi og påvirkninger. Som nevnt i UU2013.mai.31: «Dette understrekes med det faktum at kong Frederik II sin bror, Magnus av Holstein, ble utpekt av Tsar Ivan (IV – den Grusomme) som konge av Linovia (Estonia) i 1570. Han kan ha fått ambisjoner for den danske Trone også, da den eneste barriere var hans bror. Magnus fikk en russisk hær på 20.000 for å erobre svenske områder som da var del av motstandsbevegelsen mot Roma3. Men med tsar Ivan sin død måtte Magnus abdisere og Danmark ble uønsket i Baltikum.»

Det er på ingen måte en kritikk av dansker, svensker eller andre nordiske personer. Skjebnesvanger plassering på kartet og ringvirkninger av global politikk har tvunget personer og nasjoner til fatale 'med-oss eller mot-oss' valg. Dermed er splittelsen av Nordens union vel så viktig å kjenne til som Norges re-konstituering i 1814. Men forestillingen om at Norge noensinne har vært underlagt Danmark er simpelthen usann og tyder heller på historieløshet, internasjonal umodenhet og 'Jante mentalitet'.

Det skjedde selvfølgelig langt flere viktige ting i verdenen som følge av Roma2 sitt fall. Østeriket, Tyskland og Italia hevdet også sin rett til å være Romerrikets arvtagere. (Se UU 2013.feb.22 og relaterte). Langt mindre kjent er sammenhengen mellom fallet av Roma2 og (gjen)oppdagelsen av Amerika. UU 2013.juni.14 omtaler dette. Som nevnt kan det være bitre korsfarere fra Roma2 som bekjempet meso-amerikanske imperier som Mayas og Aztekere. De trodde de var i India og kalte dem indianere. Det er så mange slående likheter mellom Columbus og Marco Polo sine 'oppdagelser' av Asia/India og Amerika at hendelsene kan ha sammenhenger. En virkelig spennende hypotese vil være at Roma2 sine korsfarere planla et koordinert to-

fronts angrep på Khan/keiseren via Sibir og Ost-India. Men de sistnevnte bommet uansett med et kontinents avstand. Videre kan en teoretisere om Moskva og allierte Praetors var en del av okkupasjonsplanen av Roma2. Det var jo nære forhold mellom Moskva og mongolene på den tid. 'Follow the money'. Til sist, - i dette århundre har det mongolsk-okkuperte Beijing tilsynelatende utviklet seg til et 'Roma5' (se UU 2013.juli.19).

'Epitaph' (RIP påskrift) av bandet King Crimson ble brukt som en 'b-side' til 'The Court of the Crimson King' i UU 2013.Mai.24. Denne UU er en fortsettelse med Nordisk relasjon og med reflekterende skepsis til utviklingen etter Roma2 og 'dets røde konger'. Som nevnt ble gruppen dannet i '68 og var av de virkelige store innen 'art rock'. Det legendariske debut album 'In the Court of the Crimson King' er betegnet som blues-basert rock, blandet med jazz og klassiske symfoniske elementer. Albumet relaterer seg til band som Pink Floyd, Genesis, Yes, King Crimson, ELP, Jethro Tull, Mike Oldfield, Moody Blues og Van der Graf Generator. De opprinnelige medlemmer var Robert Fripp, Bill Bruford, Adrian Belew, hvor Fripp ble bandets konstant. Senere perioder inkluderte bassisten Tony Levin, kjent fra Peter Gabriel.

Genesis – Dance on a Volcano

2014.april.25

Ukens Utvalgte:

For å forstå Nordens historie de siste 500 år må man også kjenne til Roma3 og dets opphav fra Roma2. For tross alt er konstitueringen kun basert på en russiske munk sin erklæring: "Two Romes have fallen. The third stands. And there will be no fourth. No one shall replace your Christian Tsardom!". Men det er grunn til å betvile legaliteten og legitimiteten i den slags konstituering.

Roma2 kunne ikke bli bygget uten Roma1 sitt forfall. I 200 år hadde Pax Roma (Pax Augustus) styrt imperiet stabilt og uten tilsvarende rivaler. De rivaliserende teokratier, som den persiske polyteisme og den egyptiske panteisme, var beseiret. De monoteistiske sekter var overkjørt ved utslettelsen av Jerusalem rundt år 68. Riktignok var det noe uro og spekulasjoner om jordskjelvet i storbyen Pompeii i år 62, men etterfølgende års stillhet dempet alle dommedags-profetier som Guds straff over Roma.

Så smalt det. Vulkanen Vesuv la Pompeii øde til hele Middelhavets skue. Teologisk sett var det ingen tvil mere, - Romas utilgivelige gjerninger ble straffet med forenede pinsler fra Hades, Pluto, Set, Hel, samt en hærske av pre-islamske demoner. (Se video under.) Det var som de verste dommedags-profetier ble realisert samtidig. Roma1 mistet tillitt og tro på seg selv. Et helt nytt alternativ måtte skapes – Roma2. Roma1 anerkjente dermed oppbyggingen av det østre-, det kristne Roma, Konstantinopel, Bysantin, Miklagard og Istanbul, som det heter i dag.

Den teokratiske revolusjon og skisma fungerte de første århundre med forende romerske og greske ressurser. Ambisjonen var å bygge 'Himmelen på Jorden' og forhøyet de keiserlige til Guds representanter. Med tiden ble de så oppslukt av selvgodhet at intet annet kunne være bedre, klokere og mektigere enn dem selv. Samtidig vokste en enda mere selvsentrert generasjon monoteisme frem i Persia. De var ekspansive og aggressive. Snart var viktige områder som Egypt, Jerusalem og Syria erobret fra Romerriket. Romerne mistet følgelig leveranser av viktige råvarer som hvete og oliven. De måtte vende nordover for ressurser og tilla seg en mere europeisk stil i mat, klær osv. Til gjengjeld ekspanderte imperiet ved massiv katedral-bygging nordover i stedet for militære erobringer. Kiev var tydelig utvalgt som en nært relatert by. Videoen under gir en 3,5 timers introduksjon til byens 1000 års historie. Utover det er det flere andre forhold av særlig interesse.

Verdenen utenfor Roma2 sin 'Himmel på Jorden' er mere kjent som 'den mørke middelalder'. Det var bokstavelig talt et mørkt kapittel og et stort hull i europeisk historie. Det er som om det apokalyptiske vanvidd i Johannes Åpenbaring ble tatt seriøst og realisert. Pestkriger herjet i 300 år med påfølgende borgerkriger, sult, anarkier og hvit slavehandel. (Se DR dokumentarer under.) I tillegg var Korstogene utmagrende og ødeleggende for både det kristne Europa så vel som det muslimske Persia.

Imens utviklet teokratiet i Roma2 seg til et kompromiss av alt fra tidens teologier. Resultatet ble en tre-enighet bestående av Gud, menneske og ånd, en hærske av engler, symbolisert med zodiac astrologi, egyptisk Osiris kulter, samt etruskisk pontifexer. Det ble en teologisk lapskaus som enhver skulle kunne like. I tillegg ble det Nye Testamentet tillagt det apokalyptiske Johannes Åpenbaring. Som nevnt i UU 2012.nov.02 : «Eksempelvis er Johannes Åpenbaring så full av ondskapsfull galskap at det må være skrevet av alvorlig mentalt forstyrrede personer. Denne psykose avviker på flere måter fra de andre skrifter i N.T. og hører følgelig ikke hjemme der, - men antagelig G.T.»

Hvis hensikten hadde vært 'rent kristent' ville N.T. hatt 12 evangelier, ett av hver disippel/stjernetegn og Jesus som det altomfattende trettende. Men som nevnt i forrige UU førte Paulus/Nero sin sensur og omskrivning til dagens versjon av N.T. I ettertid synes det som om det ble lavet en dreining fra det mytologisk 'riktige' stjernetegn/æra/age 'Fiskene', representert ved Peter, til 'Jomfruen' representert ved Maria. Videre førte uenigheten mellom muslimer og kristne bilder av geistlige til det såkalte 'icon clasm', om hvorvidt himmelske vesener overhodet kunne avbildes. Kristne tegnet portretter mens muslimer visket dem ut. Den stridighet foregår intenst fremdeles, - så som 'Mohammed krisen' viser.

Marco Polo var antagelig langt viktigere for Roma2 sin skjebne en historien tilskriver. Videoen under gir et innblikk i årsakene. Kort oppsummert tilhørte han en stor gruppe personer fra middelhavsområdet av 'observatører', 'rådgivere', 'prester' osv for Kublai Khan i flere tiår. Mongolene hadde tidligere erobret Kinas hovedstad Beijing i år 1213. Khan ervervet således inngående kunnskaper om europeisk samfunn, religion, teknologi og ikke minst våpen og krigføring. Mongolenes reaksjoner over å lese 'Johannes Åpenbaring' blir således særdeles forståelige. Marco berettet endog om en mektig perser som produserte 'assassins' ved å dope og trene kidnappede menn. Khanen slapp til sist Marco sitt følge fri mot å frakte en kinesisk prinsesse til en persisk prins for et arrangert giftemål. Reisen ble fatal og Marco var en av de få som kom frem til Venedig. Han ble fengslet og hans beretninger ble nedskrevet av en medfange. Se andre omtaler om Kina i UU 2013.juli.19.

Korstogene er særlig beryktede. De ble først arrangert av teokratiet i Roma2 med romerske soldater. Korstogene ble også supplert av europeiske Troner, da Roma2 ble ansett som et 'skjold' mot muslimske invasjon. Det muslimske teokrati erobret Egypt, Jerusalem, Syria og andre viktige mellom-østlige

regioner. Tre korstog ble satt inn mot ekspansjonen. Men det fjerde korstog gikk skjebnesvangert galt da Roma2 ble angrepet i stedet for det muslimske Egypt. Roma2 ble plyndret til ruin og klarte ikke å komme seg etter det påfølgende kaos. Korsfarerne kunne ikke administrere byen og etterlot restene til det returnerte teokrati.

I et år ble det forhandlet om støtte og kompromiss mellom Roma1 og Roma2. Kort sagt fantes ingen realistisk løsning og Roma2 ble et lett bytte for den muslimske invasjon. Dagens Istanbul har kun noen rester av det historiske 1000-års riket. Roma1 overtok rollen som teokratisk senter med Vatikanet.

Korsfarerens opptreden og skjebne er som kjent full av mystikk. Men det kan være de visste hvilken skjebne Roma2 hadde påført seg selv ved Marco Polos beretninger i Venedig. Det kan være de 'reddet' skattene før de ville bli plyndret av en mongolsk/muslimsk invasjon. Så ble skattene spredt i europeiske Templer og Troner. 'Da Vinci koden' er kun et av mange eksempler på den slags mystisk dramatik.

Relasjoner til Roma2 sin historie og dagens globale situasjon er flere. Kina, Persia og Roma3/Moskva er nærmest integrert og daglig i nyhetsbildet. Selvom verden og menneskeheten endres hurtig, har imperier en konservatisme som gjør at egenskaper, viljer og evner forblir tilnærmet de samme. Man kan også se gjentakende trender og ane hemmelige motiver, Spill og avtaler. Så kan en jo prøve å forstå - og viktigst av alt - lære for å unngå de mest fatale feil fra fortiden. Det finnes alltid bedre løsninger.

Genesis er et favorittband helt fra ungdommen av. Jeg ble kjent med det originale band omtrent på 'Selling England by the Pound' -perioden. Dette mesterstykket 'Dance on a Volcano/Los Endos' gir allikevel delte følelser. Det var den gang Genesis var i et særdeles hardt skisma som endte med at den unike frontfigur Peter Gabriel måtte forlate bandet. Selv mener jeg Genesis aldri har reist seg kvalitativt, selvom de fikk kommersiell suksess. På den annen side har Gabriel fått skape kunst han neppe ville få til i Genesis-kollektivet. Jesus Christ Superstar 2000 - Simon Zealotes / Poor Jerusalem

2014.april.18

Ukens Utvalgte:

Hvert år faller en UU på Langfredag. Denne ultimative påske-krim om justis-mordet omtales ofte med religiøse betraktninger. Men tidens hendelser og UU Tema dreier fokus til politiske rivaliseringer for imperier vs nasjoner vs personer. Rock-operaaen JCS gir en tidsnøytral fremstilling av den evige Stat/Trone/Tempel-rivalisering i et skjæringspunkt mellom imperiene Roma, Egypt og Persia. Den situasjon synes evig og global, for det er så mange slående likheter ved Roma1, Roma2 og Roma3. En skal bare kikke bak scenene. Denne ekstra påske-UU blir dermed en introduksjon til Temaet '1514–1814-1914–2014' for å bedre kunne forstå et fundament til dagens utfordringer i Norden.

Påskeritualet er antagelig så gammelt som menneskeheten selv, for det er opprinnelig basert på vårjevndøgnet. Det er den tid når liv våkner av vinterdvalen og nytt liv blir til. Et kvartal tidligere markeres midtvinter og nyttår fordi solen tilsynelatende returnerer igjen. Faktisk er oldtidens egyptiske astrologi et fundament for mange varianter av religioner om fødsel, død og gjenoppstandelse. Ifølge videoen: 'Religion Comes From Ancient Astrology and Sun Worship' gjelder det også for de tre monoteismer. Se video-link under og UU Tema 'Jul, Påske og Midtsommer' f.o.m. UU 2010.10.10.

Denne video fra filmen JCS 2000 gir tydelige inntrykk av motsetninger blant Jesus 12 disipler, som representerer de 12 stammer og 12 stjernetegn. Inspirert av filmen, og fritt fra egne minner, kan aktørers plott oppsummeres til at: Simon var en voldelig opprører mot Roma. Peter benektet Jesus offentlig og ble forgjengeren til Romas teokratiske overhode. 'Tvileren' Thomas betvilte Marias møte med Jesus etter korsfestelsen. Judas solgte Jesus til fariseerne og følgelig til romerne. Evangelisten Paulus var fariseer og ikke en av de 12 disipler. Johannes åpenbaring er neppe skrevet på Jesu tid, men hører antagelig til GT. 'Riddermyter' skal ha det til at Maria Magdalena var gravid med Jesus. For øvrig var det tusenvis av opprørere mot Roma fra alle de okkuperte regioner og mange korsfestede. Mest illustrativ og kjent er vel tegneserien om 'Asterix og Obelix'.

På makro-nivå var Jesus leder for en opprørsk fraksjon som utfordret de tre imperiers rivaliseringer mellom Stat/Trone/Tempel. Det kan oppsummeres at: Simon provoserte Staten, Judas var Tempelets agent og Maria ønsket antagelig en Trone-arving. Men hverken Stat, Tempel eller Trone så noen fremtid for Jesus og ønsket ham bort. Med noen finurlige juridiske Spill ble justismordet fullbrakt ved henrettelsen utført av Staten. Minst tilsynelatende og mest sannsynlig sto keiseren av Roma1 bak det hele. Augustus, alias Octavius, var adoptivsonn av Julius Cesar og indirekte 'sønn av gud' da Julius ble gude-erklært. For øvrig ble Jesus henrettet etter Augustus tid, under keiser Tiberius, som igjen ble etterfulgt av keiser Nero.

Paulus sto for det desidert største svik mot kristne jøder. Paulus var ikke blant Jesus betrodde disipler, men en fariseer og følgelig motstander. Som både jødisk og romersk statsborger kunne han arrangere en rekke forfølgelser og utrenskninger. Senere konverterte han etter en angivelig åpenbaring, etablerte noen titalls kirke-menigheter og sto for halvdelen av skriftene i NT. De er derfor sannsynligvis preget av feil og mangler. Til sist måtte han stå for retten i Roma anklaget for voldelige handlinger mot kristne jøder. Men keiser Nero skal ha sørget for straffefrihet. Det burde ikke forundre da Nero renomme er kjent. I all etterpåklokskap kan det virke som Paulus sin konvertering kun var et Spill for å effektivisere termineringene. Paulus var simpelthen Nero sin mann, hans høyre hand, som skapte et teokratisk para-nettverk for sine egne agenter. Det er derfor særdeles vanskelig å forstå at Paulus anses som et kristent fundament, da han så åpenbart var det motsatte.

Det kan virke som den republikanske Stat i Roma1 ville helt av med alt teokrati som følge av keiser Julius sin flirt med den egyptisk Osiris religion. Tross alt var Julius en opprørsk hærfører som tok makten ved invasjon

av Roma og et coup d'état. Han fikk en sønn Cæsarion (Horus) med den egyptiske dronning Cleopatra (Iris), som dermed ville bli enearving av et forent romersk/egyptisk imperie. Følgelig ville Senatet bli underlagt egyptisk teokrati. Dermed ville den nye 2150 års æra (New Age) 'Fiskene' starte med et helt nytt forenet regime med Julius selv som gudommelig overhode, - trodde han. Men han kan ikke ha kjent til hele Osiris myten, - den del hvor han lemlestes av Set og blir erstattet av sønnen Horus. Da Spillet mislykket, prøvde Cleopatra det samme Spill med Antonius, hvorpå begge angivelig tok selvmord. Keiser Augustus, adoptivsønn av Julius, sto antagelig for terminering av de alle og sikret sin posisjon og Romas dominans. Osiris kulten ble terminert av Roma2 rundt år 600, rett etter at Roma1 sitt fall. (Se også UU 2013.des.27)

Men selvom hele Julius-Claudius dynastiet mistet makten, var det ikke til å forhindre at Roma ble splittet til et teokratisk alter-ego. Ei heller kunne det kristne Roma2 motstå den muslimske invasjon tross mengder av korstog i persisk dominerte områder. Til sist var det faktisk ikke en republikaner, men en russisk munk Philotheus som utnevnte Moskva til Roma3 ved å erklære: "Two Romes have fallen. The third stands. And there will be no fourth. No one shall replace your Christian Tsardom!". Men det er all grunn til å spørre om legaliteten i den slags konstituering.

Når så Roma 1, 2 og 3 var imot egyptisk/persisk teokrati, virker det forunderlig at nettopp teokratiet er avgjørende viktig og sentralt for Roma-statenes konstitusjon. Tross alle påskeritualer synes ikke imperiene å virkelig leve opp til Jesu liv og lære. Det er også all grunn til å spørre om redeligheten i politiske utspill fra dagens Roma3, særlig med en agent for 'hemmelige tjenester' ved Tronen.

Talking Heads – Home - This must be the place (Naïve song)

2014.april.11

Ukens Utvalgte:

Tidens tema er 200 års jubileet for Norge som en selvstendig nasjon. Dette er viktig og interessant for mange nasjoner og personer. Tittelen 1514-1814-1914-2014 indikerer at omfanget for temaet er hele Norden i en 500 års periode, - fra en nordisk union til en nordisk konføderal re-union. For vi har fått en ekstra anledning i år til å løfte blikket og fremme vår fremtidige utvikling.

Temaet vil bli spesielt omtalt i en rekke UU frem til høsten. Det blir hovedsakelig 4 milepeler; årene 1514, 1814, 1914 og 2014. Selvfølgelig skjedde mange ting, mange ganger og over lange perioder. Det første årstallet 1514 er noe søkt valgt da prosessen som førte til splittelsen av Nordens Union har årtuseners forhistorie som omfatter hele nord-vest Europa. Videre er det et historisk sort hull tilsvarende Europas mørke middelalder i de etterfølgende 300 år. Men i alle tilfelle gir milepelene noen ankerpunkt underveis i denne ambisiøse og uforutsigelige reise innom kjente og ukjente sider av historien. Dessuten vil dette

relativt omfattende UU tema forankres spesielt til de tidligere UU tema om «Livskvalitet og Imperier» UU 2013.mai.03 - 2013.aug.02 og «D'e no' galt i No'e o's'» UU 15.juli.2011 – UU 26.aug.2011.

1514 er som nevnt et tilnærmet årstall. Den Nordiske Union eksisterte i perioden 1397-1523 og inkluderte Norge, Sverige, Danmark, Island, Grønland, Færøyene, samt noe av Finland og andre Østersjøiske regioner. Rundt året 1450 falt 'det andre Roma' og Moskva ble selv-erklært 'det tredje Roma' i 1510. Det gjenoppstandne imperiet var fast besluttet på å samle hele nordlige Eurasia til et nytt og bestående Romerriket. Prins Ivan ble tsar/keiser og ble senere omtalt som 'den grusomme', - spesielt etter krigen mot Norden. Grunnen til at den nordiske union ble splittet er lite omtalt, men det bør ikke forundre noen at det var akkurat hva Moskva ønsket.

1814, den 17 Mai, er formelt Grunnlovsdagen for Norge etter 300 års annektering. Riktignok er 1812 Europas historiske år da Napoleon kapitulerte og krigs-oppgjøret startet. Mindre kjent er at Russland krevde Norge som krigserstatning etter at Napoleon brant Moskva. Norges selvstendighet skyltes en opprørske konstitusjon, som endte med nasjonal selvstendighet, selvom utenrikspolitikken ble under svensk administrasjon. Først i 1905 ble Norge utenrikspolitikken tilbake.

1914 er i år en 100-års markering for hvordan europeisk samvær overhode ikke skal være. Skuddet i Sarajevo startet en uunngåelig og masseødeleggende 100-års prosess som forandret Europa fra rivaliserende imperier til en konføderal union. Skriveriene i dette UU tema om 100-års perioden vil ikke bli bundet av kald-krigs historiebøker. Det anses heller som en lettelse å knapt ha bestått historieundervisningen i folkeskolen. En kan dermed lettere avlæres så historisk informasjon fra internettet lettere kan tilegnes.

2014 er starten på fremtidens utviklings-fase for dette århundre og årtusen. Det består av en bunke blanke ark. Etter selve grunnlovsfeiringen i år vil dette UU tema belyses med spesielt henblikk på Norge som en velvoksen nasjon i en nordisk region. Til dette behøver Norge å 'manne seg opp' og ta del som en likeverdig nasjon i nordiske, europeiske og globale organisasjoner. De er alle samlet i Nordens hovedstad – København. De venter.

Norden har vært så splittet i dette halve årtusen at få erkjenner de overbevisende potensialer ved nært nordisk samarbeide. Illustrativt nok er Nordens samlede BNP større enn Russland sitt, det samlede forsvar er større enn noen annen europeisk nasjon og det er enorme synergi-effekter ved å benytte nasjonenes ressurser bedre. Til sammen har vi det hele vi behøver og kan egentlig alt om hvordan det bør brukes. En hovedutfordring for Nordens folk blir dermed å overvinne de sosial-psykologiske barrierer plantet ved fallet av den nordiske union for 500 år siden.

Talking Heads var nærmest som husorkester å regne i UU temaet «D'e no' galt i No'e o's'». Dermed er det bare rimelig at de får åpne denne nye omfattende videreføring '1514-2014'. Den hjemlige atmosfære bandet skaper på 'Home' passer godt til undertitlene 'This must be the place' og 'Naive Song'. Personlig foretrekker jeg en stol fremfor en lampe.

Det er erfaringsvis belastende for norsk-danske ekteskap at en person alltid er 'dømt til' å være uten statsborgerskap i det land de jobber, skatter og bor. Det er så åpenbart galt for både norske og danske statsborgere, - noe som de fleste europeiske nasjoner har rettet opp. De følgelige diskrimineringer er et symptom på et lang mere dyptgående og omfattende samfunnsproblem med 500 års opphav.

Kate Bush – Cloud Bursting

2014.april.04

Ukens Utvalgte:

'Skyen' er det nye 'buzzword' og abstrakte meta-ord for IT-tjenester via internett. En skal liksom ikke å vite hvem, hvor og hvordan ens informasjon behandles. For borgere i demokratiske sivilisasjoner er dette 'need to know' og fundamentalt juridisk, etisk og moralsk sett. Aktører i Skyen skal selvfølgelig være synlige og pålitelige. Hvis dette svikter risikerer man igjen å utsette menneskeheten for humanitære tragedier. Denne UU er en ekstra add-on spesielt relatert til det foregående Tema om Big Blue og IT-fraksjonen 'Big Red'.

Skyer kommer i alskens farver og dynamiske fasonger. Enhver er allerede kjent med 'Public Cloud' tjenester som LinkedIn, Facebook, Youtube, sosiale media, offentlige 'web-steder', nettbankene osv. Med IBM sitt salg av all sin 'Intel-teknologi' til Kina, bør NATO-nasjoner være spesielt vare for de voksende 'Big Blue Cloud' og 'Big Red Cloud'. Dessuten, som nevnt i forrige UU, synes Microsoft HR å være kritisk manipulert i markeds-krigene, - noe som ga utslag omdøping av markeds personer til 'evangelister', alternativ HR med det okkulte Enneagram og betegnelsen 'Azure' til sin Sky. Derfor bør store kunder, og særlig offentlig sektor, av sikkerhetsmessige og økonomiske årsaker heller lave sine egne 'Private Clouds'.

Som nevnt i UU 2014.mars.21 er det relativt hurtig, sikkert og billig for store kunder å lave sine 'Private Skyer' ved virtualisering, migrering og konsolidering av sine IT resurser. Virksomheter med over 10 servere eller 25 brukere bør absolutt gjøre å dette. Man kan regne med nytteeffekter opp til 10x i forhold til 10 år gammel teknologi. Mindre virksomheter bør heller vurdere å leie resurser av Sky-leverandører. Men i alle tilfelle bør man ikke falle for 'gratis' tjenester. Erfaringer tilsier at billig er ekstra dyrt i lengden og at gratis er enda dyrere. Hva er så prisen; - uakseptabel sikkerhet, data-tap, ansvarsløshet, data-manipulering, utilgjengelighet, manglende hjelp i nøden?

Skyer byr på fordeler og ulemper. En betydelig ulempe er at man blir avhengig av et kvalitativt telenett. Hele virksomheten kan bli handlingslammet hvis nettet svikter. Dessuten har man ikke samme kontroll med sentralsystemer i 'Public Clouds'. Sikkerhet for nett og 'outsorced' servere er en ny risiko-faktor. Spørsmål etter alle de publiserte offentlige etterretnings-skandaler bør være: Kan vi stole på leverandøren? Hvem styrer egentlig bakom Skyen? Fortjener de vår tillitt? Hva skjer med alle kopiene av våre data? Dette er 'need-to-know'-spørsmål. Når det i tillegg er betydlige kritikk på sikkerheten ved Big Red Cloud, med kinesiske Huawei nettverk og Lenovo servere, er det alene grunn nok til å velge andre nett-leverandører enn Telenor og TDC. (UU 2014.mars.14). Videre er der generelt en usikkerhet ved anvendelse av internet browsere. Eksempelvis fristes brukere å gå fra en relativt sikker browser fordi man blir midlertidig blokkert for funksjonalitet. Alle konsekvenser bør seriøst vurderes. Kritikk av sikkerheten ved danske NemID og Java/Oracle burde ha omfattende konsekvenser for offentlige 'Public Clouds'.

Globale cyber-kriger er nå hverdagen for oss alle. Denslags kan virke overveldende uoversiktlig og håpløst. Men tross alt, bakom Skyene er det 'menneske over maskin' og mennesket er fremdeles menneskelig. Etterretning, hemlige tjenester og tilhørende krigføring har eksistert i tusener av år og har ikke endret seg fundamentalt. Det er også en type 'verdens eldste yrke'. Det er likevel urealistisk å prøve å gi noe helhetsbilde av kompleksiteten, selvom visse indikasjoner finnes. Begrepet 'Pirat-virksomhet' er omskrevet av journalister til 'deling' og skal liksom ufarliggjøre 'Pirat Bay' sine omfattende datahacking hos CSC og deres kunder som Politiet, skatte-etaten, helsesektoren osv. Forhistorier til Lenovos sitt kjøp av IBM er ukjente, men hele sannheten kan umulig være offisiell enda. Globale finanskriser er styrt ved aksje-robotter i Skyer og kommer i perioder som annet uvær. Disse hadde ikke skjedd ved elementære sikkerhetstiltak. Hong Kong børsen er for lengst dominert av 'Big Red' og 'Bit Coin' vil sannsynligvis forårsake langt større finanskriser enn foreløpig sett (UU 2012.jan.27).

Som nevnt i UU temaet 'Livskvalitet og Imperier' kan etterretnings-organisasjoner og hemlige tjenester spores helt tilbake til Roma1 og frem til i dag. Dette er et omfattende område som er spesielt omtalt i UU 2013.Mai.24 og UU 2013.juli.19). En relatert hypotese blir at Roma1 og katolisismens overlevelse skyldes et omfattende etterretning-system ved 'skrifting' hvor menigheten beretter hemligheter og teokratiet etterretter. Av de grimme historiske utslag er 'inkvisisjonen' og 30 års krigen med 'reformasjonen' av det

totalitære teokrati. Men det katolske etterretnings-systemet er nok heller en arv fra Roma¹ sin Stat enn Tempel. Nå synes den tredje generasjons monoteisme å ta i bruk skytjenester for terror. Tilsvarende gjelder det forrige århundres kartlegging av europeiske borgere ved SU sitt STASI-arkiv. Etter et halvt århundre ble de illegale arkiver åpnet, men det var overraskende få offentlige avsløringer av agentene. Arkivene ble neppe slettet, men informasjonen må ha vært fristende verdifulle for flere statlige informasjon-systemer. Så kan man saktens undres om dagens etterretnings-skandaler ikke er relatert til nettopp disse STASI arkiver. Antydninger i pressen er mange. Generelt sett er meta-forhold så ubeskrivelige at man blir nødt til å introdusere meta-begreper som 'sosiopatiet' og 'psykopatiet' (UU 2013.april.19). . Dessuten er antagelig informasjonskvaliteten i denslags registre så elendig at 'psykotiske' er mest betegnende. I så fall er relaterte 'hemmelige tjenester' av samfunnets største trusler.

En helt annen side av IT-utviklingen var buzz-ordet fra det forrige århundre; 'Virtual Reality' (VR). Til det fulgte en hel sci-fi kultur kalt cyber-punk, som beskrev dystotopier etter usivilisert IT utviklinger. En post-modern sådan er TV-serien Caprica (UU 2011.mars.18). Forøvrig ble en rekke sci-fi genre beskrevet i minneordene til Jon Bings bortgang i UU2014.jan.24 b. I alle tilfelle, - VR er alarmerende nære beskrivelser av psykosier. Følgelig kan VR, rusmidler og isolasjon til sammen forårsake kritiske psykiatriske tilstander. Med Internett og Skyer kan denslags sentralstyres, koordineres og massedistribueres. Dette århundre vil få midler til masse-psykotisering av Menneskeheten ved forledende 'Big Data'. Hvis man så antar at Menneskeheten ved fullføring av sitt nuerosystem 'Internett' nå er tilsvarende et barn i 3 års alderen, - blir det særdeles kritisk at massepsykotisering ikke får skje igjen (UU 2013.april.19). Det er viktigere enn noen gang at elemetær menneskelig fornuft dominerer Skyer og de Himmelske IT herligheter i det skjulte. Man kan jo minne seg om at Skyenes IT faktisk ikke er plassert i himmelen, men på og under jorden.

Til sist i disse meta-betraktninger om IT utviklingen, - man bør seriøst analysere globale utviklings-muligheter og vurdere alternative tiltak. Generelt sett er dette omtalt som 5D scenarie i UU 2013.april.26. De er ikke mere mystiske enn alternative utviklinger i 4D rom+tid. Men skissering av avgjørende hendelser, ala 'Skynet', vil vise at noen globale reguleringer på FN nivå er nødvendige nå. Dessuten, når forrige århundres IT fundament IBM nå gjennomgår et dualistisk skisma, bør deres egen virkelighetsoppfattelse om menneskeheten behov for kun 5 datasystemer tas seriøst. Det vil skje skisma til 5 forskjellige IT 'personligheter'. Når så IBM definitivt har eliminert sitt eget patriakalske fundament Watson ved adskillelse fra PC og øvrig Intel-teknologi, kan de ikke lenger kalle sin Jeopardy-maskin for Watson. HAL er mere nærliggende (UU 2013.dec.13).

Kate Bush er flere ganger brukt her i UU. I tillegg til å være et særlig musikalsk talent, viser hun seg som en god skuespiller. Det skal faktisk noe til å få lave sin musikk video med selveste Donald Sutherland og produsenten Terry Gilliam. Så er det jo heller som en kortfilm å regne. Teksten og handlingen er inspirert av «A Book of Dreams». Den noe enkle musikk-tekst er blitt til en estetisk dramatisering av postmoderne teknologi. Den kan ytterligere relateres til fremtidens utfordringer av samme opphav. Historisk sett burde man forsøke å se helheter da enkelt-aktører ble passivisert en etter en. Det gjelder såvel for fremtiden som for fortiden.

Ekstra UU

Det blir en ekstra UU her på slutten. Kate Bush fremfører i 'The Big Sky' sine høyst personlige forestillinger om alt som kan være bakom skyene i den store himmelen. Det er en engasjerende, glad, inspirerende og befriende forestilling som bekrefter at det alt om alt handler om mennesker og ikke maskiner.

Rick Wakeman, Tony Levin & Billy Sherwood - Crime Of The Century

2014.mars.28

Ukens Utvalgte:

Demokratiske sivilisasjoner gir store muligheter til sine myndige borgere. Voksne mennesker behandles som Voksen/Ego og ikke som Barn/Id. Men valgfriheter betinger selvfølgelig valgansvar – også innen IT. Vi står alle ovenfor episke indirekte valg om vi virkelig aksepterer diktatorisk IT teknokrati eller er villige til å betale prisen for siviliserte IT ressurser - og til hvilken pris? Faktisk vil offentlig sektor tjene og spare store penger på å modernisere samfunnets IT, hvis de oppfører seg som den stor-kunde de er - og ikke leverandørers 'godteposer'.

I forrige UU ble nødvendigheten av et omfattende offentlige program/prosjekt for IT migrering og visualisering omtalt. Kort oppsummert kan en i dag få 10x nytteeffekt fremfor 10 år gammel IT. Det er enda flere kost/nytte-forhold (c/b) enn de nevnte. Sannsynligvis har en mengde av de foreldede servere mindre kapasiteter enn dagens bærbare PC, som kan ha 4 cpu, 16 GB Ram og 1 TB harddisk for under 10.000 kr. Desktops er billigere og kan romme mere. Dagens vedlikeholdskostnader kan overgå prisen for nyinvesteringer og dermed forhindre innovasjonene. Videre kan virtualiserte servere i dag krypes til en enkelt fil og følgelig flyttes til andre system på under en time, hvilket gir et kvantesprang i muligheter for rekonstruksjoner. Dessuten finnes det antagelig enorme mengder av unødvendig dubletter av data, hvor dagen OperativSystem enkelt kan redusere diskforbruket til en brøkdel, - samt at prinsippet JBOD (Just a Bunch Of Disks) er langt billigere og mere effektive enn alternativer til disk/tape-produsenters lukkede og kostbare SAN (Storage Area Networks). Til sist, nå kan VoIP (Voice over IP) brukes på Mobiltelefon så vel som PC ved f.eks. Skype og Lync, - hvilket gjør at mobiltelefoni og telekonferanser blir praktisk talt gratis ved bruk av internettet. For dominerende leverandører står enorme verdier på Spill og de vil naturlig nok motarbeide denslags valgfriheter for kunder.

Nå er det definitivt tiden for at NATO nasjoner selv tar kontroll over sine IT infrastrukturer. Tidspunktet har aldri vært mere kritisk og valgene blir bindende for fremtiden. Truslene fra IT kriminalitet er blitt NATO nasjonenes største trusler, - større enn atom-krig. Noen sikkerhets-tiltak er vel kjente og burde tvangs-innføres, - så som 'avansert' passord prosedyrer, sikre nettsteder ved https i stedet for http, kontrollerte firewall-styring, utbredelse av oppdaterte antivirus og anti-spyware program, sikkerhetsklarering av driftspersonell, begrensede IT 'administrator' rettigheter og personlig identifiserbare administrator handlinger.

Verken Big Blue eller Big Red synes å etterlever tilstrekkelig de demokratiske sivilisasjoners verdier, etikk og rettssamfunn. Deres forretnings-filosofi er ikke basert på demokratiske prinsipper som 'kunden har alltid rett'. 'Internasjonale business maskiner' sine verdisystem er hovedsakelig på den andre side av 'man-maskin' dilemmaet. Derfor skal kundene, fremfor leverandørene, sette premissene og gjøre valgene. Eksempelvis skal ikke pris-dump fra sosial-dump prioriteres over demokratisk sikkerhet og funksjonalitet. 'Man-maskin'-filosofi er for øvrig omstendelig omtalt i UU Tema Android (UU 2011.feb.11 - UU 2011.mars.18). En annen side av saken er at SW produsenten Microsoft naturlig nok er særlig utsatt for markeds-krigføring av store HW produsenter. Det synes særlig godt på den interne HR politikk i Microsoft Danmark, som er dreiet til det okkulte Enneagrammet i stedet for profesjonell HR. Nå går hele Microsoft igjennom en verdensomfattende re-organisering. Se UU 2013.april.12

Trenering av nødvendige tiltak i offentlig sektor er suspekter og skal etterforskes i henhold til Straffeloven. Men også borgerne har ansvar for sine egne aktiviteter og passiviteter. Man skal selv velge sunne produkter og tjenester – og det gjelder selvfølgelig også innen IT. Generelt sett er ikke IT sikkerhet særlig annerledes enn sikkerhet for hjem, ferdseil og omtale. Man lar ikke vilt fremmede slippe inn i sitt private og ta styringen. Et stort ansvar for sikkerhets-informasjon hviler på offentlige tjenester, - men vi skal selv velge fornuftig. Hvis ikke gjør vi oss selv til medskyldige i 'The Crime of the Century'.

'Spy vs Spy' er forsidebildet/banneret for dette UU tema om IT&QL. Tegneserien fikk gjennombrudd i MAD Magazine. Forfatteren hadde opplevd hvordan US og SU spioner opererte i Cuba før revolusjonen og lagde en rekke 'stripes' om det. Det er ingen tvil at 'hemmelige tjenester' er omfattende selv om de naturlig nok er tilslørte. Men det er nok av indikasjoner ved at STASI og RAF hadde nært samarbeide, president Putin ble innsatt som president av KGB, samt masse-lekkasjer av 'hemmelige tjenester' ved WikiLeaks og Snowden. Det gir indikasjoner om et 'skisme-skifte' fra den 'kalde krig'. Men selv om noen har fått 'game over', fortsetter Spillene videre på andre måter. Å tro at SU Putin noen gang vil være noe annet enn en KGB agent er som å tro at US Reagan noen gang var noe annet enn en skuespiller. Allikevel – det er ingen grunn til å tro at avsløringer vil redusere organisert kriminalitet tilslørt som legitime 'hemmelige tjenester'. Omfanget er forsøkt antydning i bl.a. UU 2013.des.20.

Som tidligere omtalt er 'hemmelige tjenester' pr definisjon sosial-psykologiske Spill og skal behandles tilsvarende. Grunnleggende teori om sosial-psykologiske Spill er tidligere omtalt spesielt i UU 2013.mars.15. For Spill tilsvarende 'Big Blue vs Big Red', relateres hele undertemaet om 'Livskvalitet og Imperier' fra UU 2013.mai.03 til UU 2013.aug.02. Kort sagt beskrives Spill som en rekke uredelige aktiviteter og uttrykk for å ta en gevinst på andres bekostning. Eric Berne beskrev en rekke Spill i boken 'Games People Play'. I denne relasjon kunne det hete 'Games Agents Play' med spesiell relevans til kategorien Underworld Games, som 'Cops and Robbers' (C&R), 'How Do You Get Out of Here' (HDYGOH) og 'Let's Pull A Fast One On Joey' (LPAFOOJ). Men tilsynelatende er alle definerte Spill anvendt i 'Spy vs Spy', og enda flere utover de selvdefinerte GGBG, DAC, TOL, RPPP og EDAB. Poenget for demokratiske borgere er å være oppmerksom på alle disse bedrag, trusler og fristelser, - for så å motstå eller eventuelt avsløre dem før det er for sent. Dette gjelder spesielt for IT personell i offentlig og privat sektor.

Snowden-saken vil utvilsomt bestå i historien som isbryter på den kalde krigen. Men det er alt for tidlig å ha faste meninger om utfall og skyld. Selv her vet vi lite om hvilke ytterligere informasjon som er lekket til motparter og hvordan de vil bli misbrukt. Man får heller kikke på de TED Talks under hvor Snowden og NSA får uttale seg separat. Allikevel står noen bekymringer tilbake. Det bør nå være akseptabelt å si at terroraksjonene den 22. juli 2011 mot Norge ikke ville være mulig med elementær IT sikkerhet. Det gjelder også all annen IT kriminalitet verden forøvrig i all fremtid.

Det er en usedvanlig samling artister som fremfører klassikeren til gruppen Supertramp. Rick Wakeman og Billy Sherwood stammer fra supergruppen Yes og Tony Levin er fast bassist for King Crimson og Peter Gabriel. Selv om det er en særdeles god versjon disse store musikere presenterer, ville jeg helst ha med den originale studioversjonen, fordi den stemning i instrumentalpartiet langt overgår Wakemans solospill. Første tredel av stykket er en dramatisert avsløring av bakmennene til 'Crime of the Century'. Resten er et instrumental parti til stor ettertanke. Sant nok, - vi kan selv forme vårt samfunns IT-verden ved selv å bruke vårt valgansvar fornuftig.

Depeche Mode - Leave In Silence

2014.mars.21

Ukens Utvalgte:

En masse-migrering av datasystemer fra 'Big Red' kan realiseres hurtig, sikkert og billig. Gjør som 'Big Blue', - bli kvitt IBM teknologien. Intel-teknologien de bruker er åpen og tilsvarende leveres av mange HW produsenter. Man er overhode ikke låst fast og valgmulighetene for nye sikre dataanlegg er mange. Videre gir migrering ved virtualisering mangfoldige muligheter for innovasjon, besparelser og effektivisering av foreldet teknologi og dyre vedlikeholds-avtaler. I denne UU følger oppskrifter på hvordan masse-migreringen kan startes umiddelbart.

NATO nasjonene bør planlegge masse-migreringen som 'Program', - dvs. mange ensartede prosjekter. Disse migrerings-program bør utformes iht. Prince2 konseptet for prosjekt-styring. Andre 'Prosjekt Offentlig sektor' er generelt omtalt i UU 2013.okt.04. Videre er begrepet kvalitet for produkter og tjenester vesentlig i Prince2 og spesielt omtalt i UU 2013.feb.01. Konseptet er nødvendig for å planlegge, utføre og oppfølge såpass omfattende og dyptgående program/prosjekter på profesjonelt vis. Hvis ikke kan det, som nevnt i forrige UU, ryke ut i korrupte Mongstad-aktige prosjekter og som alle de suspekke 'investeringer' for IKT i offentlig sektor.

Program/prosjekt baseres på et forretningsdokument (Business Case). Utfra et strategiske 'abstrakt' beskrives tydelig formål, mål, leveranse, kvaliteter, omkostninger, tid, ressurser, organisering, faser, etc. Strategien/politikken er alltid utgangspunktet og kan utformes fra en enkel SWOT analyse (Strength, Weakness, Opportunities, Threats). Svakheter og Trusler vil være hovedårsaken til migrerings-programmet. Disse kan videre utdypes i den mindre kjente PEST analysen (Politics, Economy, Social, Technology). Politikk og Teknologi vil være hovedårsaken til masse-migreringen fra Big Red. (Se mere i 2013.des.20 og 2013.dec.13).

Teknologien som ble solgt fra IBM til Lenovo for 2,3 milliarder dollar omfatter IBMs System x-, BladeCenter- og Flex-systemer, x86-basert Flex integrerte systemer, NeXtScale og iDataPlex-servere og tilhørende programvare. Den globale server omsetning er omtrent 50 mrd \$/år. IBM og HP hadde 1/3 hver av verdensmarkedet hver etterfulgt av Dell med det halve, samt andre aktører som Oracle (Sun), Cisco og Fujitsu. Men rivaliseringer endrer markedsandeler hurtig og Lenovo forventes å bli særlig aggressiv på pris, da produksjonsprisen kan reduseres tilsvarende den sosial dumping. Big Red blir antagelig hurtig verdensdominerende på Intel Server teknologi hvis kunder prioriterer pris over sikkerhet og lojalitet.

Selv om det uomtvistelige motiv for masse-migrering er NATO sikkerhet, vil det også bli en lønnsom affære. Med anvendelse av kost-nytte analyser (C/B) vil det hurtig vise seg at kostnadene for dagens foreldet kapasitet, energibruk, vedlikehold og leverandør-avtaler ikke er forsvarlig i forhold til dagens IT løsninger. Kort sagt vil ny-investeringer kunne betales med noen års besparte driftskostnader. Videre vil oppgradering av teknologien gi betydelige innovasjoner innen effektivisering, rasjonalisering, økonomisering, sikkerhet, tilgjengelighet og informasjons utnyttelse. Med virtualiseringer under migreringen vil det kunne oppnås kvantesprang innen de samme, samt positive synergier som muligheter for konsolideringer av systemer, dynamisk bruk av cpu, disker og memory, automatisk energibesparelser, samt en befriende opprydning i alt det gamle IT rot. Big Blue har således gitt NATO nasjoner en utilsiktet incitament for å realisere dagens potensialer ved at de skapte sitt alter ego - Big Red.

Big Red HW er skrudd sammen av deler fra andre produsenter. PC og servere består av CPU fra Intel og AMD, samt eksempelvis memory fra Kingston, harddisker fra Seagate, etc. Servernes standard-komponenter kan derfor lett skrus fra hverandre og settes sammen i servere fra andre HW leverandører. Noen komponenter bør kasseres fordi de av sikkerhetsmessige eller økonomiske grunner ikke er forsvarlig å gjenbruke. Resten, som cpu, memory og harddisker kan re-konfigureres som komponenter i nye og større 'pools' av HW ressurser, - kalt 'Fabric'. 'Fabric' ressurser er tilgjengelig for virtuelle datasenter og kan særdeles fleksibelt og effektivt re-organiseres til virtuelle 'Skyer' av datasystemer, - skreddersydd til behov og formål.

Virtualisering er absolutt dagens løsning for de fleste store data-system. Enkelt forklart er virtualisering å konvertere et helt HW/SW system til kun SW i en eneste datafil, kalt virtuell harddisk. Illustrativt sagt, kan i dag en USB memory-stikk romme en hel virtualisert server. Alle virtualiserte systemer kan samles i større HW system og dermed utnytte de felles HW resurser langt mere rasjonelt enn isolerte HW systemer. Siden Big Red baseres på Intel CPU, som alltid har sterkest relasjon til Microsoft Operativ System, blir det selvfølgelig å anvende Microsoft produkter til virtualiseringen. Dessuten har Microsoft nå blitt den desidert beste og billigste løsning, selv om VMware var det for noen år siden. Til virtualisering brukes dermed Hyper-V for servere og mindre system, RDC/VDI for PC virtualisering, samt System Center med Virtual Machine Manager for datahaller og 'Fabrics' til å lave sine 'Private Clouds'.

For øvrig er System Center en komplett pakke for styring av store datasentre, med produkter for HW konfigurering, monitorering, virtuelle 'private & public clouds', backup, ITIL tjenester, automatisering, samt Big Data Business Intelligens (BI). Videre kan man styre bl.a. VMware, IBM, Linux m.fl. System Center er kort sagt blitt helt overlegen VMware, da de tilbyr det samme og meget mere til lavere pris. Dessuten er Windows Server 2012 konstruert for virtualisering og har fått særlig innovative løsninger for disk storage, nettverk, cluster-administrasjon, web-tjenester, sikkerhet m.m. Det finnes også en gratisversjon Windows Hyper-V server med noe redusert funksjonalitet. Dessuten kan man lave lab miljø på sin PC fordi Hyper-V finnes også på Windows 8.

Når så tradisjonelle HW servere er virtualisert til SW, har en oppnådd et kvantesprang av effektive muligheter som utnyttelse av cpu/mem/disker etter faktiske behov, konsolidering ved forening og samkjøring av systemer, automatisk energibesparelser, ryddige virtuelle nettverk og meget mer. Dessuten kan man langt enklere utvikle og teste systemer da kloning av servere er så enkelt som å kopiere annen SW. En kan også leie virtuelle kapasiteter tilsvarende data-servere hos leverandører i Skyen etter behov og betaling etter bruk. Alle problemstilling ved HW planlegging, forsinkelser, montering, installering, spesialisering og testing er dermed ikke kundens problem mer, da utbyder leverer straks via nettet etter 'pay-by-use'.

Flere andre IBM system kan også konverteres og migreres. Mange kunder ønsker å flytte fra IBM Lotus IKT til Microsoft Office IKT. Det er forståelig da Lotus kun var noe IBM overilt kjøpte til konkurranse mot Microsoft. Men de forsto ikke arkitekturens mangler og de eskalerende problem det medfører. Konvertering fra Lotus til Office er gjort besværlig, men uavhengige leverandører tilbyr løsninger. En konvertering til Office blir en betydelig overgang for brukerne, men mest fordi de løftes til et overlegent IKT system som er tilpasset dagens behov for funksjonalitet, mobilitet, tilgjengelighet og sikkerhet. Eksempelvis er nå Excel klargjort for særdeles enkel utnyttelse av 'Big Data' med 'Power Pivot', 'Power View' og 'Power BI' (med SharePoint Office 365).

Big Blue flørtet med Linux operativ system etter sin OS2 fiasko, simpelthen fordi det er gratis og kan øke HW profitt tilsvarende. Den høye sikkerhetsrisiko ved freeware uten noen ansvarlige ble sterkt nedtonet. Følgeskadene på de datasystemer er ukjente. Offentlige ansatte derimot har lovbundet ansvar for konsekvensene og bør selvfølgelig spesielt re-evaluere alle sine Linux system. Linux system er enkle å virtualisere og kan sannsynligvis også enkelt migrere til pålitelige operativsystem. Videre er jo tidligere Big Blue Think PCer overtatt av Big Red og representerer dermed en potensiell sikkerhetsrisiko som selv Stortingsrepresentanter er utsatt for. Det kan være for besværlig å diagnostisere de skjulte partisjoner, all spesiell programvarer og alle data. Derfor er det enkleste og tryggeste å reformatere harddiskene helt, re-installere med sikkerhetsklarert OS versjoner, samt slette all uvedkommende og ukjent SW og partisjoner. Dette kan gjøres effektivt og problemfritt med en profesjonell IT avdeling.

Storage ved harddisker og tapestasjoner er en betydelig inntektskilde for HW leverandører. Forbruket øker eksplosivt og krav til sikkerhetskopier mangedobler forbruket og omkostningene. Microsoft, som er en SW produsent, har ikke HW motiv og startet sin karriere med nettopp å lave DOS (Disk Operating System) for IBM på Intel teknologi. Den siste versjonen Windows Server 2012 har revolusjonerende løsninger for å restrukturere storage hvor kundene kan spare store beløp på redusert kapasitet, samt økt hurtighet og fleksibilitet. Tradisjonelle HW leverandører frykter tap av profitt og sørger for at dette forblir relativt ukjent

for kundene. Spesielt besværlig er det å migrere fra IBM Tivoli backup som binder kundene til høye utgifter. Men man kan saktens migrere ut av Tivoli også. Videre lanserer Microsoft konseptet 'Cluster-in-a-box' i samarbeide med nyere HW leverandører som bruker den billigere Windows 2012 Storage Server. De leverer totale 'fail-over' storage system med store kapasiteter til særdeles lav pris.

Depeche Mode er ofte brukt her i UU, ganske enkelt fordi de har så mange gode videoer. Denne er en favoritt fra da jeg først oppdaget gruppen. Det var da de slo igjennom. Riktignok var det etter at Vince Clarke forlot dem, men gruppen lærte tydeligvis mye før den tid. 'Leave In Silence' er valgt på grunn av tittelen og teksten. Assosiasjonen er selvfølgelig en oppfordring til alle de migrerings program NATO nasjonene bør gjøre i forhold til Big Red. Det er ingen tvil mere, - 'Leave in silence' – og gjør det nå.

Nick Cave and the Bad Seeds - Red Right Hand

2014.mars.14

Ukens Utvalgte:

'Big Blue' har vært kallenavnet for IBM i lang tid. Nå, med den tydelige adskillelse og overtagelse kan den kinesisk IBM fraksjon godt kalles 'Big Red'. Denne er ikke som det tradisjonelle NATO-lojale IBM og bør sikkerhets-vurderes helt på nytt. Som en starthjelp omtales her historikk, erfaringer og visjoner om kritiske forhold til den Intel-baserte Lenovo/IBM server-serie. Dette vil være avgjørende for mange kunder, - særlig innen NATO-nasjoners offentlig sektorer som politi, militær, finans, helse, parlament, stat, kommune etc.

Som nevnt i forrige UU har IBM en lang historie fra det stalinistiske SU, som nå, via Mongolia, er utviklet til det maoistiske Kina. En tilsvarende utvikling skjedde i det danske RAF – 'Red Army Faction'. (Se også UU 2013.august.16 og UU 2013.des.06.) De og deres søster-celler i Tyskland, Italia og Spania fremsto som ekstremt grådige og voldelige. De praktiserte som Stalin i begynnelsen av hans mafia-karriere. Den danske RAF leder Gotfred Appel konverterte fra stalinisme til maoisme på 60 tallet. Moder-organisasjonen 'Red Army' har følgelig påvirket Danmark med etterretning i et halvt århundre. Så kan man se merkelige utslag i dansk politikk som Kinas manipulering av den global miljøkonferanse, Kinas løfter om milliardinvesteringer i Danmark, Kinas særrettigheter foran EU i Arktisk Råd, samt Kinas forslag om ekstrem sosial dumping for urandrift på Grønland. (Se også UU 02.Mars.2012.) Videre synes RAF Fraksjonen å være Skandinavisk da kidnappingsforsøket av 'Jörn Rausing' var et samarbeide med svenske og norske RAF agenter.

Et avgjørende forhold til IT og RAF er at brødre Weimann var konsulenter og installerte datasystemer hos politiet og i Utenriksdepartementet. De fikk fortrolig adgang og hadde ansvaret for vedlikehold, som i praksis betyr adgang til å lese, kopiere og manipulere data. RAF sin infiltrasjon og manipulasjon var sannsynligvis årsaker til at deres forbrytelser ikke ble avslørt. Når så skandinavisk politisamarbeid synes å være tilbakestående i forhold til RAF, kan det skyldes nettopp de lokale RAF og moder-organisasjonen sine aktiviteter. Mediene får naturligvis kun lov til å 'skrape toppen av isfjellet' da den slags blir tilsørt som 'hemmelige tjenester'.

Det kjempes hardt og tidvis uredelig om samfunnets viktigste maktmidler – penger og informasjon. Disse oppbevares ikke lenger i noe hvelv, bevoktet av væpnede vakter. De er digitaliserte og oppbevares i sentrale dataanlegg. 'Datacentralen' hette det danske statlige selskap som opprinnelig betjente sentrale offentlige etater innen helse, politi, skat osv. Mange av systemene kjører på IBM maskiner. Driften av disse systemer var under sterk politisk kritikk, så staten valgte å selge selskapet til det amerikanske CSC. Interne statlige rivaliseringer om makt og penger ble dermed løftet til internasjonalt nivå. Tidvis rapporterer media fra de viktige IT slagmarker. CSC Danmark har tydeligvis opplevd særdeles harde slag om maktmidlene.

Erfaringsvis er fagorganisasjonen Prosa av de hardeste aktørene i CSC indre Spill. (Se UU 09.Mars.2012.) De bruker hard 'politikk' for alternativ agenda med rekrutering av likesinnede i avgjørende posisjoner. Organisasjonenes aktiviteter er simpelthen organisert psykopati på 'Robinson'-nivå, hvor ansatte felles en etter en. Der er en permanent strid om arbeidsliv og –død, samt svindel og trusler om personlig konkurs ved arbeidsledighet. Makta rår og flår. Etter 5 måneders taktisk streik ble Prosa fradømt forhandlingsrett med CSC, noe som i seg selv er særdeles oppsiktsvekkende. Dermed var forhåpentligvis 5 måneders destruktive konsekvenser for drift og utvikling av offentlige datasystemer slutt, - trodde man den gang.

For nylig ble en 20-årig danske fengslet for deltagelse i et gigantisk tyveri av personfølsomme opplysninger hos CSC Danmark. Den 28-årige svenske Gottfrid Svartholm Warg fra 'Pirat Bay' er også tiltalt, men han har hele tiden fått tale med sine 'venner'. De to er tiltalt for å ha kopiert personfølsomme opplysninger fra politiets registre, kriminalregistret, kjørekortregistret, Schengens info om etterlyste personer i Europa, samt skaffet seg adgang til 10.000 tjenestemenns passord og e-mail-konti. Politiet og CSC oppdaget angivelig hackerangrebet først 11 måneder etter IT-indbruddet i april 2012. Det er ukjent hvor informasjonen er videresendt og hvordan den er misbrukt. Men den vedvarende og massive kriminalitet fra Datacentralens dager, har selvfølgelig langt større organisering bak seg en hva et par unge 'nyttige idioter' og 'syndebukker' tilsier. Kriminaliteten kan tydelige ses i sammenheng med de nevnte Blekingegadebandens politi-konsulenter og følgelig både det stalinistiske og maoistiske RAF. Det skal også nevnes, til PROSA sitt forsvar, at LO dominerer og styrer arbeidskonflikter og at PROSA neppe er noe mere enn ivrig 'underdog' i Spillet. De 3 skandinavisk LO er de som virkelig har relasjonene, kulturen, motivasjonen og midlene til å være bindeleddet mellom sentrale RA og nasjonale RAF.

Nå prøver IBM å selge sin Intel server-teknologi, deres ansatte og kundene til Lenovo. Selskapet har den kinesiske stat som betydelig med-eier, som selvfølgelig setter betingelser og agendaer til Lenovo. Når en så vet at det kommunistiske Kina nekter å signere de politiske Menneskerettighetene, at de har en felles etterretningsorganisasjon MSS for egne borgere og verdens befolkning forøvrig, at staten bedriver omfattende global datakriminalitet, samt at tele-produsenten Huawei bedriver omfattende overvåkning i utlandet, - ja, så er det for naivt å ignorere muligheten for at 'Big Red' vil bli en betydelig fare for enhver NATO-nasjons sikkerhet. Videre er det simpelthen hinsides naivt at de stats-dominerte teleselskaper TDC og Telenor får ukritisk påføre NATO-nasjoner tvilsom Huawei teknologi.

Jeg vet det er for tidlig å omtale ABB-saken som tidenes 'barneverns-sak'. Det skal fremdeles en kollektivt mental re-orientering til hvor det omsider innses at det var et hevngjengerrig Barn/Id og ikke en organisasjon som angrep regjeringen, AP og AUF. Etterfølgende avslørte '22/7 kommisjonen' en omfattende svikt i norsk offentlig sikkerhet, som var årsaker til at terror-aksjonene fikk skje. Rapporten påpeker fremtidige krav om at: 'Ledere på alle nivåer i forvaltningen systematisk arbeider med å styrke sine egne og organisasjonenes grunnleggende holdninger og kultur knyttet til; Risikoenkjennelse, Gjennomføringsevne, Samhandling, IKT-utnyttelse og Resultatorientert lederskap.' Videre finnes det ikke oversikt over offentlige IT utgifter. SSB (Statens Sentral Byrå) antyder at 1/3 av Norges IT investeringer er offentlige, dvs. 75 mrd kr/år. Anslag fra Administrasjonssiden (AD) var på 1/10 av dette. Kostnadene til vedlikeholdskontrakter er erfaringsvis større. I Sverige dokumenteres at under 10% IT investeringer følger lov om anbudsutbydelse, samt at outsourcing kan effektivisere IT-virksomheten med 30-50 %. Så kan man få sterkt inntrykk at 'RAF konsulenter' er godt etablert i norsk IT forvaltning også. (Se UU 2013.okt.25 og UU 2013.sept.27.)

Edward Snowden er antagelig tidenes mest borgerlige 'spion' og 'varsler'. I debatt-videoen er hans forklaring at han hadde gitt ed på å forsvare US konstitusjonen og så at US massivt brøt den. Dermed anså han seg forpliktet til å informere borgerne så de kan beskytte seg selv mot offentlig ansattes kriminalitet. Samfunnsproblemet oppsto da alle pengene til sikkerhet ble styrt fra kryptering for beskyttelse til hacking av kommunikasjon. Dernest ble penger i stedet brukt på enorme datahaller. Man kan jo forestille seg hvem som profiterte på de enorme HW (feil)investeringer. Så er det ikke kun Intel prosessorer, - men alle de datadisker med sensitive opplysninger som er i fare for datakriminalitet på internasjonalt nivå. I alle tilfelle, NATO-nasjoner ønsker ikke noen 'Big Red' overtagelse av dette driftspersonell, utstyr eller data, - selv om de engang var en lojal 'Big Blue'. Det er enkle løsninger for dette, som blir omtalt i neste UU.

Den australske Nick Cave har mange sanger med dyster realisme og poesi. Sangen 'Red Right Hand' fra albumet 'Let Love In' beskriver en av mange stakkars personer som stadig prøver, tross alt press, å motstå fristelser for hva de innerst inne vet er galt. Når ens egne svikter skapes situasjoner som 'lojalitetens pris' 'lojalitetens straff'. Det har de ikke fortjent – tvert imot.

Den tyske gruppe Rammstein har særdeles kontroversielle sanger og videoer. De tok navnet etter en tysk by som ble ekstremt hardt, og unødvendig, rammet av brannbomber i WW2. Derfor gruppens beryktede fakir-show på konserter og kritikk av både US og SU. I denne 'kortfilm' presenteres en gruppe som kan assosieres til Rote Armee Fraktion (RAF). Her er et av gislene en del av gruppen. Så faller tanker på det fatale bankrøveri i Sverige hvor statsminister Olof Palme prøvde å forhandle. Saken er opphavet til det såkalte 'Stockholms syndromet', med hypotesen at gisler kan skifte lojalitet under krisen og dermed få formildet straff i forhold til de faktiske handlinger.

T'Pau - China In Your Hand

2014.mars.07

Ukens Utvalgte:

IBM vil selge sin Intel-server-teknologi til Kina. Intensjonen er at kunder og ansatte også selges, - som da IBM solgte Think PC serien. Tenk, - en NATO-rival kjøper kontroll over NATO-lands IT-fundament. Denslags krever tilsvarende oppmerksomhet og reaksjoner, selvom det nærmest forties i media, - som om det er en legitim 'hemmelig tjeneste'. I 4 UU fremover vil denne alarmerende 'takeover' omtales for å forklare hvordan dette kan skje, hvilke trusler NATO-nasjonene kan påføres og hvilke nødløsninger som umiddelbart bør iverksettes.

Disse 4 UU blir en naturlig fortsettelse av de 3 kronikker fra UU 2013.des.06. Kort oppsummert har jeg erfart i 25 år at det er noe alvorlig galt med IBM. Det kritiserte jeg etter å ha vitnet hvordan IBM i nær relasjon med LO og Teledirektoratet fikk blokkert Norsk Data (ND) fra norsk offentlig sektor og overtok deres markeds-dominans. Personlig ble arbeidssituasjonen besværlig, og tidvis ekstrem, da ND sin 'døds-årsak' skulle forties. Nå gjøres en tilsvarende prosess på globalt nivå mot NATO-nasjoner. Holdningen her blir derfor å tydeliggjøre viktigheten av å revurdere IBM med hensyn på 'rikets sikkerhet'. Vel vitende at denslags budskap er kontroversielt omtales det allikevel fordi andre neppe kan og våger. Erfaringsvis er det tilsvarende advarselen om invasjon av Ukraina, - det ble omskrevet til en latterliggjøring av Palin i media og deretter massivt fortiet.

Historisk sett var IBM sin forgjenger CTR aktiv i Russland før revolusjonen og WW1 (UU 2013.dec.13). IBM var spesielt aktiv i den kalde krigen på statlig nivå, - ikke kun for US, men også i SU. Dermed vil det være for naivt å tro at innflytelser ikke gikk begge veier, - at IBM ikke ble infiltrert og manipulert av SU og at de noensinne har sluppet grepet. Eksempelvis er ND-saken en tilsvarende indikasjon. Det ble startet fatale rykter og mistenkeligjøring om at ND sin gave-maskin til det Litauens universitet ble brukt for å kortslutte

Moskva. Røde lamper lyste antagelig, - for i den kalde krigen var det særdeles besværlig å eksportere teknologi til NATO sine motparter. Selv om SU gjerne ville kjøpe og IBM gjerne ville selge, forhindret forsvarsalliansen den slags handel. Nå har IBM omsider brutt igjennom ved forsinket og indirekte salg via SU sin etterkommer, - det totalitære kommunist-imperiet Kina, - og de er langt mere aggressiv på ervervelse av NATO-landenes teknologi med tildels tvilsomme metoder. Kina er spesielt omtalt i temaet 'Livskvalitet og Imperier' UU 2013.juli.19.

Det finnes en intern rivalisering i IBM om hva de skal være og ikke. Spesielt kontroversielt var Watson sine demokratisering-prosjekter ved Think PC og samarbeide med Intel og Microsoft. På grunn av interne rivaliseringer feilet denne PC-satsningen for IBM mens det ble en formidabel suksess i verdenen utenfor. Ved salg av IBM's Think PC og Intel-Servere forsvinner Watson-faktor helt. IBM er også kjent for holdningen om at verden behøver kun 5 maskiner-systemer. I praksis var antagelig tanken at kun 5 verdens-imperier skulle ha computer-systemer, - ikke befolkningen. Følgelig har IBM utviklet skismer som skapte store forskjeller på IBM, IBM og IBM. De satser på å være den dominerende IT leverandør til alle verdensmakter, men er ikke lengere spesielt lojal mot noen. Derimot blir kundene avhengig av IBM. Tross alt, de er hva de kaller seg, en internasjonal business maskin, - hverken mere eller mindre - og med alt det innebærer.

Globale cyber-kriger er i høy grad virkeligheten i dag. Man får tidvis kjennskap til 'toppene av isfjellene' angående rivaliseringer, spionasje, kapringer, sabotasjer og diplomatiske slag, samt piratkopiering, kloning og 'reverse engineering'. Så er det alarmerende at det allikevel skrives relativt meget i mediene. Isbergene må være virkelig store. En får bare ikke noe tydelig bildet av hvem som er for eller mot en mere – om det bare er noen guttestreker eller rekognosering før større slag.

Uansett bør en ufravikelig holdning gjelde for kunder, - man holder seg til dem man kan stole på. Man selger ikke sin sikkerhet til en motpart for noen kroner og særlig ikke hvis prisreduksjoner skyldes sosial dumping. Når så allikevel ens nærmeste betrodde selger ens sikkerhet, integritet og lojalitet til en motpart, - blir en simpelthen nødt til å umiddelbart erkjenne hva som har skjedd og reagere tilsvarende på den nye virkelighet, - selv om forrige generasjon var en tiltrodd venn. For det er ikke primært Intel-teknologien som har salgets verdi, men leverandørens kunder og avhengigheten de har til HW, SW, data og leverandørens personell.

Offentlig sektor i NATO-land er forpliktet til en umiddelbar revurdering av sin IBM teknologi med hensyn til 'rikets sikkerhet'. Faktisk vil det være straffbart for offentlige tjenestemenn å ignorere eller trenere dette. Andre kommersielle kunder innen f.eks. finans, handel og forskning er naturlig nok ikke tilsvarende juridisk bundet, men bør allikevel vurdere den nye IT-situasjon i henhold til sin sikkerhets-strategi.

Heldigvis er det ikke tekniske barrierer mot å migrere programvare og data til andre Intelbaserte HW leverandører. Faktisk kan en masse-migrering fra Intelbasert IBM teknologi bli særdeles lønnsomt ved virtualisering av systemer og migrering til andre leverandørers virtuelle hosts som kan kjøre intel-baserte servere og tilhørende programvare. Det er ingen grunn til å vente. Gjør som IBM – bli kvitt IBM teknologien. For selv om CFIUS (Committee on Foreign Investment in the United States) skulle forhindre salget til Lenovo, har IBM så tydelig uttrykt at de ikke mere er spesielt NATO lojale mere.

'China in your hand' med det britiske band T'Pau kommer fra deres debut album 'Bridge Of Spies'. De lavde en rekke hits på 80-tallet som ikke minst skyltes vokalisten Carol Decker. Selvom bandet splittet på 90-tallet kan man fremdeles se Carol opptre. Bandets navn er ikke kinesisk selvom det kan lyde så. Det stammer fra en Star Trek figur. Videre handler sangen neppe om Kina, men heller om porselen. Uansett, - sangen, bandet og albumet gir passende assosiasjoner til starten av denne neste del av UU Tema IT&QL.

Lynyrd Skynyrd - Free Bird

2014.feb.28

Ukens Utvalgte:

Lynyrd Skynyrd er et ekte sydstats-band og markerer det i melodier, tekster og opptreden. Gruppen var særlig populære på 70-tallet, men mistet noe fundamentalt da 3 musikere døde i en fly-ulykke. Gruppen har spesielt to signatur melodier. "Sweet Home Alabama" er et svar til Neil Young sin kritiske "Southern Man". "Free Bird" kan oppfattes som en rotfestet sørstatlig kritikk av det føderale system fremfor det konføderale. Så med denne UU er pausemusikken over og åpner for et tema relatert til nettopp den slags US skisme.

Igen kommer Tub'a til unnsetning og presenterer hvordan Lynyrd Skynyrd fremførte "Free Bird" som et fulltallig band. Man kan lett forstå at det er den instrumentale halvdel av sangen som er legendarisk.

Kate Bush - All the Love

2014.feb.21

Ukens Utvalgte:

Hetro menn, stinne av Y-kromosomer og testosteron, har også kjærlighet et sted der inne. Om ikke 'forbudte farger', så finnes det rikelig med restriksjoner som 'big boys dont cry', mot 'kyss og klapp og klem' og patriarkalsk symbolikk. Allikevel, kvinner og barn, som Kate og gutten, uttrykker emosjonelt hva en kan finne dypt der inne hvis man søker.

Catherine Bush debuterte så ung som 19 år og gjorde et stort inntrykk med sin personlige og teatraliske stil. Mest kjent er sanger som 'Wuthering Heights', 'The Man with the Child in His Eyes', 'Running Up that Hill' og 'King of the Mountain', men man kan finne flere titalls godbiter hvis man hører igjennom albumene. Allikevel, - denne simple og nostalgiske sang, 'All the Love', setter størst inntrykk. 'Død' i denne sammenheng er naturlignok 'følelser'.

David Sylvian & Sakamoto - Forbidden Colors

2014.feb.14

Ukens Utvalgte:

Så er det OL igjen. Som spesielt sports-uinterisert merkes heller andre omstendigheter. Det er jo en global begivenhet som omfatter mangt og mange og det er blitt medie-furore om seksuell legning i anledningen. Som tilhenger av Menneskerettighetene må man bare respektere alle uskadelige personligheter og friheter, - så lenge de ikke skader andres. Mange artister har avvik og i mange tilfeller gjør det dem til nettopp de spesielle talenter de er. Det viser denne sang med David Sylvian & Ryuichi Sakamoto så tydelig. For øvrig var det musikken til filmen 'Merry Christmas Mr. Lawrence' med David Bowie og Sakamoto i hovedroller.

baksiden:

Det er også en særdeles mørk bakside av saken. Det vises så tydelig i denne sterke scene-opptreden. Sarte sjeler anbefales ikke å se videoen. Men temaet brukes politisk av aktører med uedle hensikter, som mishandling og projisering. Eksempelvis er ikke Putins forbud mot propaganda en støtte til mishandlere, men heller å beskytte mishandlede. Han sa: "We haven't banned anything, and we're not grabbing anyone off the streets. [Gays and lesbians] can be entirely at ease, but leave the kids alone please." Man kan forestille seg hvilken markedsføringsverdi parader har for mishandlere, - så som karneval opptog i Rio kan være.

Voldtekt og mishandling av unge menn blir massivt fortiet i massemedia. Disse ofre har vanskeligere med å fortelle, pga mistenkliggjøring, fordømmelse og håpløshet. Det er en indirekte årsak til omfanget.

Rammstein fremstiller her hemningsløst en mørkere side, - forakten for enkeltmennesker og demokratiet som helhet. Overdrevet, - ja, - men tidvis en nødvendig oppvekker.

John Miles - Music was my first love

2014.feb.07

Ukens Utvalgte:

Så er det tid for pausemusikk, - etter et års kontinuerlig skriverier om et eneste ord. 'Music was my first love' med John Miles var virkelig en av de første store musikk-opplevelser. Den ble selvfølgelig en internasjonal hit på slutten av 70 tallet. Den gang hadde jeg kun en simpel kassettpiller som ga en heller dårlig lyd kvalitet. Så er det virkelig gledelig å kunne få se og høre hvordan det egentlig var den gang. Man kan også godt høre at Allan Parson har vært med på produksjonen.

Limahl - The Neverending Story

2014.Jan.31

Ukens Utvalgte:

Dette er den siste UU i denne et-årige omtale av et ordet 'Livskvalitet'. Skjønt, - det handler om en evig og kontinuelig prosess for dette 'Menneskehetens viktigste ord'. Det er jo fundamentalt i alles Liv. Når så dette teoretiske fundament er lagt, kan det brukes i hverdagen for nettopp å bedre sitt eget og andres Livskvalitet.

Som avslutning i dette UU Tema kommer her en kort oppsummering av hovedpoenger, noen utvalgte konklusjoner, samt noen avsluttende Meta-betraktninger. Ukens utvalgte melodi er forøvrig godt overveid da 'eventyret' har mange særdeles gode metaforer om viktigheten av forestillingsevnen, tro, håp, Livs-verdier og - ikke minst - Selvrealisering.

Som nevnt anses 'Livskvalitet' å være Menneskehetens viktigste ord. I mangel av en globalt anerkjent definisjon ble det i undertemaet 'Grunnteorier' definert til å være: «Livskvalitet er en persons helhet av egenskaper og potensialer for å tilfredsstille uttrykte og underforståtte behov». Den er bygget på ISO 8402 sin kvalitetsdefinisjon og assosiert til Menneskerettene og Maslows Behovs-pyramide. Dermed var grunnlaget til en omfattende omtale mulig med utgangspunkt i psykologi, verdier og moral. Siden dr. Eric Berne har vist at klassisk psykologi kan anvendes på sosialpsykologi, ble teorier videreført til sosiale sammenhenger i den mest omfattende forstand, - inklusive Menneskeheten som helhet. (F.o.m. UU 2013.feb.01.)

I undertemaet om 'Imperier' ble historiske sammenheng fra Roma¹ til i dag forsøkt forklart i global-sosial sammenheng. Spesielt ble det fokusert på FN/UN, dets forhistorie, tilstand og utfordringer. Denne Union anses å være helt avgjørende for Menneskehetens positive utvikling det siste halve århundre. Et hovedpoeng var naturlignok at ikke kun Nasjoner, men Imperier som er de faste medlem av Sikkerhetsrådet, alltid har eksisterer og vil antagelig alltid gjøre det, - selv om de kaller seg Nasjoner i FN. Det foreslås noen endringer da dagens FN konstitusjon. Den er et resultat av WW2 og passer ikke helt for fremtidige verdensbilder. (F.o.m. UU 2013.mai.03.)

Noe tilfeldig ble neste undertema 'Valget' på grunn av det norske Parlamentsvalg og tilhørende valgkamp. Omtale av valget ble basert på Livskvalitet og Imperier/Nasjoner. Det ga en ganske unik synsvinkel Parlamentarismen og dets prosesser. Interessen for Nasjonens sunnhet ble følgelig hevet over politiske aktørers utspill. Men det ble nok noen personlige responser på politiske Spill også, med frittalende syn og kommentarer. Resultatet med en blå-blå Regjering anses som nødvendig for å dreie samfunnsutviklingen til demokratisk Statsborgerlig utvikling, - hvilket naturlignok betyr avbalansering av Statlig kaldkrigs-dominans. (F.o.m. UU 2013.aug.09.)

Dette siste undertema 'Meta' var ment å gi det hele et 'fugleperspektiv'. Det må allikevel innrømmes at Menneskets begrensede fatte-evne naturlignok begrenser resultatene. Dermed har skriviene heller vært preget av noen sporadiske metaforiske fraksjoner som kan gi inntrykk av visse overordnede anskuelser. Igjen ble enkelte UU også påvirket av tidens tilfeldigheter, - særlig i forhold til IT. Men det er kommet til noen nevneverdige saker, som fortjener noen siste betraktninger. Interesserte får heller lese disse ukentlige kronikker fra feb.2013 til idag. (F.o.m. UU 2013.nov.08.)

Hvis Livskvalitetens moral, etikk og filosofi skulle reduseres til en enkelt setning, kunne det være 'Jeg er OK – du er OK' (se boken av Thomas A Harris). Det handler naturlignok mest om toleranse til OK personer, men også enhver anerkjennelse av seg selv. Så handler det selvfølgelig også om å si tydelig ifra om 'ikke-OK' handlinger/passiviteter og uttalelser/fortielser. Det neste ville være å bli mere oppmerksom på, og avbryte, alle de destruktive Spill (ref 'Games People Play' av dr Eric Berne). Særlig viktig er å bruke teoriene på nivå av Organisasjoner, Nasjoner og Imperier. Dermed kommer man ikke utenom elementær sosialpsykologi. Hvis et Spill kan nevnes som avgjørende viktig å endelig avslutte, - så er det Abrahams 'familie-feide' og Sarahs LYAHF Spill. Det har i løpet av årtusener utviklet seg til globale teokratiske kriger med apokalyptiske skripts. Menneskehistorien gir tydelige antydninger om dets konsekvenser og utfordringer. Videre er det i UU 2014.jan.10 sannsynliggjort at det finnes et Superior-ID, som det finnes et Superior-Ego. Dets natur, drifter og begrensninger er vesentlig å relatere til klassisk sosialpsykologi for bedre forståelse av Menneskehetens videreutvikling.

Det gir mål og mening for dette århundrets global-politikk at den globale befolkning vil stabiliseres på 10-12 mrd i år 2100. Det er ikke fare for at 'befolkningsekspløsjonen' fører til globalt overforbruk og katastrofer. Vi klarer dette godt, men har utfordringer i samarbeide og fordeling. Ei heller er det behov for ekstreme tiltak for befolkningsreduksjoner. Fokus bør være å se til at alle kan forsyne seg med grunnleggende Behov for sunt vann, luft, mat, info, moral osv.

5D teorier ble omtalt f.o.m. UU 2013.april.19. Det handler om mulige alternative utviklinger i tradisjonell 3D+tid modeller. De 3 dimensjoner kan være så mangt utover '3D rom'. På den tid var det interessant å se det hele i et sosialpsykologisk S-E/Ego/Id forhold. Men generelt sett handler 5D om 'what-if' analyser. 'Hva-hvis' kan være så mangt og opptar særlig filosofisk Sci-Fi. Man kan saktens stille spørsmål som: Hva-hvis Roma2 ikke falt for muslimsk teokrati? Hva-hvis Tsar Ivan ikke felte den nordiske Kalmar Unionen? Hva-hvis Tunguska hendelsen i 1908 ikke triggert EW/WW ved startskuddet i 1914? Hva-hvis tyske stalinister ikke bombet Rotterdam tross kontra-ordren? Hva-hvis FN ikke fungerte etter WW2? Hva-hvis Kennedy ikke fikk en dødsdom? Hva-hvis Ural-asteroiden i 2013 kom et halvt århundre tidligere eller noen minutter senere? Hva-hvis ... ? Man bør selvfølgelig kunne stille tilsvarende 'hva-hvis' 5D spørsmål for dette århundre og forberede eventualiteter.

Statsborgernes historiekunnskap stammer fra stats-dominerte skoler, media og yrkesliv. Nå blir det forrige århundres oppfattelser massivt revidert ved Internett, 'Big data' og nye medier. Som nevnt er det betydelige sannheter i ordtak som 'i krig er sannheten det første og største offer', og 'historieskrivning er seierherrens privilegium'. Dermed er det kun en ting man kan med sikkerhet si om vår kollektive historiekunnskap, - den er ikke 'den hele og fulle sannhet' og sannsynligvis full av bedrag. Derfor bør Skoler, media og statsinstitusjoner tilpasse seg de nye virkelighets-oppfattelser uten flere treneringer. Allikevel, med alskens Internett, Skyer og Big-Data er det likefullt mulig å bedra, som beskrevet i UU 2013.mars.15. Fordelen nå er at global demokratisk kontroll, uten et global-totalitært regime, begrenser kollektive bedrag til kort tid i begrensede områder. Apokalyptiske S-E/S-I despoter nå har langt mindre sjanse for å skape globale katastrofer. Åpenheten gir håp for den avgjørende viktige utvikling av Menneskeheten dette århundre.

En hypotese, som kun ble antydnet, handler om at det på Imperie-nivå tilsynelatende skjer 'Ego-state Regime-swap'. Det blir naturlignok søkt å prøve å relatere 5 Imperiers utvikling over en 2000 års periode, som i UU2013.april.19. Det vil inneholde unøyaktigheter, avvik og feil. Allikevel, som en illustrativ 'modell' er det spennende å teste elementær sosial-psykologi på de '5 Roma', som relateres til dagens EU, US, SU, AU og UA (se UU 2013.mai.03). Begreps-relasjonene var S-E/Tempel, Ego/Stat, Id/Trone - som kan plasseres i en 3D modell med utvikling over 4D med Tid. I så fall, vil man se at Imperier har hatt relativt hurtige regime-skift mellom 3D-aksene i perioder. Det har skjedd ved 'coup d'etat', revolusjoner, reformer, assassinasjoner, kriger etc. Kan man i så fall se mønster, faser, kaskader og relasjoner? Vel, - man beveger seg i så fall godt over i Isaac Asimov sin Sci-Fi serie 'Foundation' og ideen om 'Psychohistory'. Hypotesen er at man kan sannsynliggjøre Menneskehetens utvikling i fremtid, selv om man ikke kan forutsi enkeltmenneskers utvikling. Formålet er å forutse kritiske historiske hendelser og krise-minimere disse.

Livskraften hos enkeltmennesket er avgjørende viktig for Livskvaliteten. Den synes undervurdert i det forrige århundre med ekstreme regimer, kriger, massakre og 'hjerne-vask'. Tross dette har Menneskehetens kvantitet og kvalitet vokst eksponentielt. Tross alle traumatiske skjebner synes Menneskeheten å styrkes i motgang også. Men allikevel, - det burde nå være tilstrekkelig historiske bevis for at destruktive despoter er skadelige, - uansett hvor snedige politiske Spill er arrangert for anledningen. De er en fare for omgivelsene så vel som seg selv og skal uskadeliggjøres i tide, - tilsvarende en sivilisasjon gjør med psykisk syke personer. Det er et globalt felles-ansvar og skal skje via FN. En fremgangsmåte kan være å anvende elementær klinisk sosialpsykologi på organisasjons-nivå, hvor internasjonal umyndiggjøring er en konsekvens. Bare en ikke går i alle disse Spills feller og 'retter baker for smed'. I alle tilfelle, - uansett hva som skjer, - Menneskeheten vil 'Live Well and Prosper'.
Ha et godt århundre.

Dagens UU, 'The Neverending Story' er tatt fra boken og filmen med samme navn. Den handler ikke bare om evige gjentakelser, - men mest av alt om viktigheten av forestillingsevnen, tro, håp og Livs-verdier. Den vekker ungdomsminner som godt kan relateres til hele dette tema på Meta-nivå. Det kan virke noe 'barnlig' å avslutte med referanse til et 'eventyr', men så bør en heller se filmen og se at det er et omfattende moderne folke-eventyr med mange fundamentale verdier. Det angår også Barnet i voksne mennesker. Ja, - så skal det jo nevnes at sangen er riktig fengende og godt fremført av Limahl.

Symphony of Science - The Greatest Show on Earth

2014.jan.24

Ukens Utvalgte:

Filosofier om Livet er evige og bør ikke forveksles med absolutt vitenskap. Definisjoner og forklaringer er vage av den simple årsak at vår fatte-evne er begrenset. Allikevel kan en godt filosofere over sitt eget, andres og Menneskehetens Liv. Videre kan en også filosofere over alle de livsformer som finnes her, fantes her og som sikkert finnes andre steder i Universet.

Denne lille spin-off UU er trigget av den forrige ekstra UU og det tidligere Tema kalt 'Accidental Genesis 2' (AG2). Den var en re-tenking av et utkast til romanen AG(1). Den ble et forsøk på å forene skapelses- og utviklings-teorier og er skrevet i Sci-Fi format. I UU bloggen AG2 omtales Livsfilosofier spesielt i Intro UU 2012.aug.31, Spiralarmen UU 2012.okt.19, Livsformer UU 2012.nov.09 og SETI UU 2012.nov.30. Begrepet 'Space Ship Earth' er lånt av Arthur C. Clarke og betegnende for noen hypoteser som kom ut av AG2. Her er et par utdrag fra Temaet:

Introduksjonen om reisen gjennom Melkeveiens Spiralarmen er basert på det faktum at Solen/Jorden seiler rundt vår galaksen og igjennom Spiralarmene på 200-500 mill år. UU 2012.okt.19: «Det er en direkte sammenheng mellom livets utvikling på Jorden og planetens ferd igjennom Melkeveiens Spiralarmen. Utviklingen har gått i faser og ikke så lineært som Darwinister tror. Jorden har fått tilført mengder av masse, vann og organisk stoff av hver Spiralarm. Videre er det ikke sannsynlig at alt dette er skapt her på Jorden, som Kreasjonister hevder. Det er mer sannsynlig at Jorden simpelthen blir 'sådd' periodevis i sin ferd igjennom Spiralarmene. Det er og forblir en ubeviselig tro at noe som helst har sin opprinnelse i vårt eget Solsystem.» I tillegg har Spiralarmenes massive mengder av Helium og Hydrogen antagelig tilført 'drivstoff' til Solen periodevis. Vår Sol har dermed ikke en fastsatt levetid som alle disse 'tom tank' teorier tilsier.

Introduksjonen til hypotesen om Jordens mangfoldige Livsformer lyder i UU 2012.nov.09: «Det finnes høyst sannsynlig utallige varianter av liv på mengder av planeter i vår galakse Melkeveien. Som tidligere nevnt har Jorden sannsynligvis vært 'sådd' med organisk stoff i flere omganger på sine reiser rundt galaksen. Dette har sannsynligvis skjedd på exoplaneter også, men da med all den materie som ikke havnet her. Vi har ikke mulighet for å finne ut hvordan virkeligheten er, men sannsynligheter er grenseløse.» Videre kan det nevnes at Jordens livsformer er kommet i fire bølger som tilsvarer passeringen av de fire Spiralarmen. Følgelig synes Livsformers kategorier å være planter, insekter, landdyr og havdyr. Humanoider, som mennesker og aper, adskiller seg med spesiell effektivt neuromønster i hjernen, som gir mulighet for unike hjerneaktivitet. Av disse er Menneskets hjerne desidert størst og alene om forestillingsevnen og avansert læring. Se Ted link under.

Når så 99% av alle jordiske Livsformer er utdødd og det antas å være 30.000 Livsformer i dag, betyr det at Jorden kan ha hatt 3 mill forskjellige Livsformer. Antall Livsformer i vår galaksen er følgelig utallig. Faktisk

kan det fremdeles være langt flere nedfrossede Livsformer i vår eget Solsystem som i Kuiper beltet, Oort skyen, på kometer, planeter og måner, samt Jordens Antarktis. I alle tilfelle, de periodiske organiske 'eksplosjoner' av Livsformer og utslettinger, meteor-bombardement, istider og radioaktiviteter kan forklares med det faktum at Jorden/Solen farer igjennom vår galakses Spiralarm.

Så er det spesielt interessant å se hvor langt Mennesket er kommet i 'de-extinction' prosjekter. Det handler om å gjenskape utdødde dyrearter, - som faktisk er delvis vellykket. I første omgang handler det om å rette på dårlig samvittighet for arter Mennesket selv har utryddet. Men teoretisk kan man godt gjenskape eldre utdødde arter som mammuten. I teorien er det også mulig å realisere gjenskapelser som i Sci-Fi filmen Jurassic Park. Men, - det er i så fall tilnærmede hybrider da fullstendig DNA materiell neppe finnes. Se BigThink video med Michio Kaku.

I forrige UU hevder Rosling at menneskehetens befolkning vil flate ut på 10-12 mrd i år 2100. Innen den tid vil Mennesket også ha utvidet livslengden betydelig. Utskifting av defekte organer skjer oftere da organ-donasjon blir stadig mere effektivt, og nye kunstige organer utvikles videre. Øvrig Livsforlengende medisiner forbedres også. Spesielt interessant er presentasjonen av Alan Russell: 'The potential of regenerative medicine', hvor kroppens evne til selvhelbredelse omtales. Dermed styrkes troen på at biologi vil bli av de viktigste vitenskap i dette århundre. På den annen side, - Paul Root Wolpe: 'It's time to question bio-engineering' viser at genmanipulasjon av dyr nå inkluderer kloning, hjernekontroll og organproduksjon. Det er som realisering av Arthur C. Clarkes visjon om BIOTS (biological robots). Så bør man våge å stille spørsmål om hvor langt Mennesket vil gå med gen-manipulering av dyrs DNA for å gi Mennesket forsterkede egenskaper. Det vil antagelig bli argumentert som en nødvendighet for å tilpasse Mennesket til romkolonier i vårt eget Solsystem.

Ukens Utvalgte musikk har jeg ikke annet forhold til enn at det ble brukt i UU Temaet AG2. Tidligere har mer eller mindre kjente personer vært 'samlet' og 'mikset' inn i melodier, men 'Symphony of Science' tar tak i personer med virkelig mening. Noen av de største vitenskapsmenn får presentert sine hovedpoeng på en poetisk og fengende måte. For anledning Temaet om livets utvikling på Jorden går Ukens Utvalgte til: Symphony of Science - The Greatest Show on Earth!

The September When – Nightflight

2014.jan.24 b

Ukens Utvalgte ekstra:

Det blir en ekstra UU i anledning Jon Bing sin bortgang. Han var en betydelig inspirasjon for meg innen IT-jus og Science Fiction for 30 siden. Jeg fikk ved noen anledninger snakket med ham i U2 og hjemme på Kampen, - men alt for lite. Denne UU vil ikke handle spesielt om personen, utover å nevne ham som et godt menneske i sentrum av særlig kontroversielle og viktige saker. Dessverre synes han å bli nedtonet de

etterfølgende ti-år, omvendt proporsjonalt med Statsborgernes behov for nettopp den innflytelse om rettsinformatikk.

For 30 år siden arbeidet jeg med IT og jus for Teledirektoratet og opplevde eliminasjonen av Norsk Data (se UU 2013.des.20). Det førte til en sterk interesse for jus, etikk og forretning, - og valget å videreutdanne meg i de retninger. Ved tidligere samtaler med Bing ble jeg overraskende klar over at internasjonal jus er i praksis nærmest tilfeldig og tilsynelatende anarkistisk i mangel av fungerende globale retts-system. Videre fikk jeg forståelse av de avgjørende forskjeller mellom materielle og immaterielle rettigheter og hvordan det vil endre oppfattelser fundamentalt. (Se UU 2013.okt.25).

Rett nok, som Lovdata skriver: "Jon Bing vil bli husket for mye i norsk samfunnsliv. I Lovdata vil han alltid være den visjonære rettsinformatikeren eller «teknologijuristen» som så lengere fram enn det vi andre klarte." Forhåpentlig vil de juridiske miljø på sikt også innse at lover og regler ikke er særlig mere en samfunnets operativsystem (OS) og bør revideres og oppgraderes like effektivt når nødvendig. Anti-demokraters fobiske forhold til Menneskerettsloven skal ikke dominere i demokratier. Bings bok 'Personvern i faresonen' ga en høyst visjonære oppvekker om utviklings-tendenser innen IT. Spesielt merket jeg meg omtalen om hvor simple 'elektorniske spor' er og hvor enkelt det kan misfortolkes og misbrukes mot uskyldige. Det er for øvrig en grunntanke for hele dette UU Tema om Livskvalitet og særlig i relasjonen til 'Games People Play' i UU 2013.mars.08 og videre frem til omtale av suspekt IT overvåkning i UU 2013.des.06. På den annen side synes Bing selv å utsettes for negative innflytelser på 90-tallet som relatert seg til UiO og AKP. Det kan også ha en sammenheng av de nevnte nedleggelse av samfunns-viktige MSc studier på Handelshøyskolen BI (UU 2013.nov.01). Det kan være hans godhet ikke var nok til å stå imot de krefter han ønsket å beskytte alle oss andre imot. Hvor var vi?

Bing, sammen med Bringsvær, gav Norge et kvantesprang inn i seriøs Science Fiction (Sci Fi). Den mest kjente TV produksjon var «Blindpassasjer», - opprinnelig «Hvem av oss er den drepte?». Historien kan beskrives som en Sherlock Holmes versjon av 'Alien' og 'Terminator'. Selv husker jeg spesielt en annen TV produksjon «Kodémus» av Bringsværd om 'Lillebror', som i motsetning til '1984 Storebror' handlet om avhengighet til mobil-pad. Vi er i dag utvilsomt på vei i den retning. For øvrig ble genren Cyberpunk lavet på den tiden om IT dystopier som filmen i 'Johnny Mnemonic'. Sci-Fi genren er omfattende omtalt i UU Tema Android (UU 2011.feb.11 - UU 2011.mars.18).

Det er lavet en TV serie kalt 'Prophets of Science Fiction' som gir dyptgående presentasjon av forfattere. Dessverre er de blitt borte fra YouTube, men noen kan finnes på Vimeo. Links finnes under. Her følger en kort oppsummering: Mary Shelly skrev boken 'Frankenstein', som er langt mere filosofisk og omfattende enn filmene. Philip K. Dick sine 'Bladerunner', 'Total Recall' og 'Minority Report' er særlig tankevekkende. H.G. Wells stilte spørsmål som 'hva gjør vi med vitenskapen' og kjent for 'Time Machine', 'War of the Worlds' og 'Brave new World'. Arthur C. Clarke er omtalt her flere ganger tidligere og da spesielt 2001-3001 serien (se f.eks. UU 2012.dec.07). Isaak Asimov var superproduktiv og lavet grunnlaget for historier om Roboter og Galaktiske Imperier (se UU 2011.mars.04). Jules verne var ikke kun særlig visjonær, men tidvis langt mere dunkel enn han er kjent for, spesielt med visjoner om forrige århundres kommende krigføring. Robert Heinlein var særlig politisk kontroversiell om 'tanke-kontroll' og kjent for 'Starship Troopers' og 'Stranger in a Strange World'. George Lukas sine visjoners unikhet har nesten druknet i Star Wars suksess. Forunderlig er allikevel at Sci-Fi forfattere sjeldent omtalte Internettet og den type utvikling i forrige århundre. Man kan undres over hvilke deler av vitenskapen som utelates i dette århundre. 'Neuromancer' av William Gibson er et bud.

Et par gamle Sci-Fi klassikere stiller fremdeles i særklasse og bør få verdige reproduksjoner. 'The Forbidden Planet' (originalt 'The Fatal Planet') er langt mere gjennomtenkt og seriøs enn man skulle tro. Manus er basert på William Shakespeares 'The Tempest' om en trollmann som fikk nærmest allmektige evner. Filmen er skrevet rett etter WW2 og atom-kappløpet. Den gir klar advarsel om at selv de mest fornuftig mennesker har et ID som tidvis vil overstyre fornuften, - 'The ID Monster'. (ID skulle opprinnelig ikke visualiseres, men filmselskapet ønsket det av kommersielle grunner.) Selv skrev jeg hypotesen om 'Superior ID' i UU

2014.jan.10. Men en stor forskjell er at i filmen handler det om en enkelt-persons forsterkede ID, mens hypotesen i dette UU omhandler et kollektivt koordinert ID av en gruppe mennesker.

I ettertid har jeg også blitt oppmerksom på en annen klassiker 'When Worlds Collide' fra 1951. Selv om jeg ikke kjente til filmen da jeg forsøkte å skrive 'Accidental Genesis', er det utvilsomt likheter mellom den 'rough planet' i AG og den 'rough star' i filmen. Antagelig er jeg dermed sporet over i tankebaner om det faktum at vår egen Sol faktisk er en sådan 'rough star', - at vi selv er den løse kanon som farer igjennom stabile systemer. Dette omtales i det vide og det brede i UU Tema 'Accidental Genesis 2' og i det etterfølgende UU.

Morten Abel var den eneste artist jeg kunne se på Bing sin FB profil. Dermed får den norske gruppen 'September When' spille en passende sang til denne ekstra UU. Gruppen lavde mange gode popsanger, så lenge de klarte å holde sammen. Morten Abel fortsatte suksessen på egenhånd.

Steve Harley and Cockney Rebel - Understand

2014.jan.17

Ukens Utvalgte:

Kunnskap, og følgelig Information, er avgjørende viktig for ens Livskvalitet. Selv de fleste oldtids-filosofier var enige om at positiv kunnskap er en forutsetning for positiv moral, positive gjerninger og et positivt Liv. I nyere sosial-psykologi handler det om å få utviklet sin Selvbevissthet, sitt Voksne 'ego-state'. Dermed blir Informasjonskvalitet et av de konkluderende UU for denne et-års omtale av ordet Livskvalitet. Dessuten, det forrige århundres Kalde Krig har lavet enorme forbedringspotensialer for dette nye århundre og årtusen.

Som nevnt i UU 2013.april.26: «Informasjons-kvaliteten er avgjørende for (modellens) anvendelighet. Videoen fra (forrige) UU 2013.april.19, 'Den beste statistikk du noensinne har sett', viser utmerket godt hvordan den globale sosiale utvikling har vært det siste halve århundre. Avslørende nok var vitenskapens

virkelighetsoppfattelse dårligere enn hva ren gjetning ville tilsi. Det beviser at den offentlig desinformasjon dominerer. Sosialpsykologisk sett er situasjonen særdeles kritisk. Politiske rivaliseringer har i det lange løp vært mere destruktiv enn konstruktiv og vil forårsake gale beslutninger basert på gal info og gale antagelser. Derfor blir det viktigste å overvinne samfunnets massepsykoser og fremme sunn viten og sunn fornuft. Tross alt er jo etiske verdier viktigst, - det som er; Rett, Konstruktivt og Godt.» I den UU nevnes spesielt Plato sin analogi om hulemenneskene som kun ser skygge-Spill på lerretet og ikke virkeligheten. Den analogi er blitt langt mere aktuell i denne IT-alder.

‘Informasjons-kvalitet’ er som øvrige kvalitetsbegreper, et allment ukjent begrep. Inngående beskrivelser finnes på Wikipedia og her er et hurtig oversatt sammendrag: Definisjonen av InformasjonsKvalitet kan ses i de 4 dimensjoner: 1. Grunnlag (nøyaktighet, objektivitet, troverdighet og omdømme), 2. Sammenheng; (relevans, verdiskapende, tidsriktighet, fullstendighet og mengde), 3. Representasjon; (fortolkelig, format, sammenheng og kompatibilitet) og 4. Tilgjengelighet; (tilgang, adgang og sikkerhet). Disse 4 dimensjoner har kvalitets-metrikk som er; kontrollbarhet, dekningsområde, komposisjon/organisering, objektivitet, integritet, omfang, ekthet, unikhet, tidsriktighet og gjenskaplighet. Dermed stilles det omfattende krav for å kunne hevde at ens informasjon har akseptabel kvalitet. Massemedier som TV, radio og aviser fremstår særdeles uprofesjonelt, - særlig i politiske sammenheng. Dessverre må man kunne si at allmenn informasjonen, og følgelig allmennkunnskapen, er overraskende tvilsom i mange tilfelle.

En årsak kan være omfattende politisk korrupsjon av InformasjonsKvaliteten. En annen årsak er systematisk blokkering av de store datakilder og bevisst misvisende kollektiv folkeopplysning. Resultatet, tiltenkt eller ei, er at det fremmer usunne S-E/S-I forhold i den kollektive mental-helse. Det er helt nødvendig å reformere de Kald-krigs Stats-dominerte Nasjoner ved demokratisering av ‘folkeopplysningen’. Til nå har Demokratiet krevd og fått gjennomført demokratisering av TV, radio og aviser med alternativer Leverandører. Løsningen for demokratiserende sivilisasjoner er følgelig i neste omgang å frigi kvalitetsinformasjonen og fremme kvalitative presentasjoner. Det er nødvendig å reduserte Statsdominans ved endring av finansiering og lov-regulering for å tilgjengeliggjøre alternative informasjonskilder via internettet. ‘Big Data’ synes å bli det nye trend-ord etter ‘Skyen’ og ‘Internett’. Det handler om de enorme mengder av data som finnes i Nasjoner, FN og andre organisasjoner, - de hav av ressursen ‘data’ som kan fremstilles til viktig informasjon for alle. ‘Big Data’ synes nå å fremmes som kommersielle Produkter. Men utfordringer ligger i å få det som Offentlige Tjenester og ved Selvbetjening (se UU 2013.okt.04).

Det meste av dagens fremstillinger er lavet på primitivt vis ved 1D tekst eller 2D tabeller. Nå er det langt enklere å lave kart med 3D+Tid enn man har trodd. Hans Rosling sin fremstilling er faktisk 4D+ idet der er 2D + Tid + Størrelse/farge. Dessuten kan man utvide med adskillig flere dimensjoner hvis flere kart og tabeller forbindes. FN og dets fleste Nasjoner har enorme offentlig Big Data kilder. Det er ingen tekniske barrierer mot å lave ‘Business Intelligens’ løsninger på offentlig ‘Big Data’, så som Rosling gjorde av FN data. Hvis man for eksempel har Microsoft Excel 2013 tilgjengelig, kan man gratis installere PowerPivot og PowerView som lar enhver lave tilsvarende presentasjon, - også for internettet. Offentlig sektor burde derfor bruke noen av sine enorme ressurser til å lave og tilgjengeliggjøre tilsvarende fremstillinger på alle relevante områder for sine Statsborgere.

‘DON’T PANIC — The Facts About Population’ er tittelen på Rosling sin nye versjon av foredraget. En endring er at ignoransen representeres her ved UK i stedet for nobelprisvinnere og hans svenske studenter. Det nye og interessante er fremstillingen av verdens befolkningsvekst. Konklusjonen er at veksten vil flate ut ved år 2100 på 10-12 mrd Mennesker. Årsaken er at 2-barns politikken er blitt en global realitet. Dermed er det avgjørende viktig for Menneskeheten at illusjonen om fortsatt befolknings-eksplasjon nedtones. Det antall Mennesker kan saktens forsørges på fredelig vis i relativt sunne miljøer. Det er stabilitet i sikte og det er ingen grunn til dramatiske ideer om befolkningsreduksjoner, som ved globale EDAB Spill (Ens Død - en Annens Brød). Den slags skal ikke gjentas i dette århundre. Videre kan man forestille seg hvilke andre viktige konklusjoner man finne, hvis andre typer informasjoner blir allment tilgjengelig og fremstilt vel så godt.

Det kan laves utallige varianter av kart av forskjellig kvalitet. Det antydes ved TED sin foredrags serie 'Adventures in mapping (10 talks)'. Det tales bl.a. om fornuftige kart, virtuelle verdener og geo-politikk, samt kart for sykdom, katastrofer, hjernen, ideer og fremtiden. Når en så kjenner til hvor avanserte simuleringer i kommersielle strategi-spill har vært i årtier, er det åpenbart at tilsvarende programmer finnes basert på virkelighetens data. Problem-stillinger handler dermed mere om 'Spillerne' kan skjelle mellom virkelighet og simulering, samt avatarer og Mennesker. En annen side av saken er å kvitte seg med alle villedende kart som vi tar som absolutte sannheter i dag. Vel så humoristisk som tankevekkende er scenen 'Why are we changing maps?' fra TV-serien 'West Wing'. Uten å trekke temaet for langt, kan det nevnes at kart også kan anvendes metaforisk. Det kan være nyttige så lenge en tydelige informerer om dets kvaliteter. En særlig fascinerende film heter 'Cloud Atlas'. Den handler selvfølgelig ikke om noe kart over skyene, men er en visjon om at tilsynelatende fragmenterte hendelser kan ha sammenhenger og gjentakelser over generasjoner. Filmen 'The Golden Compass' derimot, er okkult-religiøs og antyder at man sannelig behøver et 'kompass' hvis man roter seg bort i teologien.

Hvorfor da så mye desinformasjon i alskens fremstillinger? En side av saken er som nevnt at hverken Mennesket eller Menneskeheten er, eller vil noen gang bli, Allvitende. Dette faktum bunner i evige filosofier fra oldtiden og dannet fundamentet for hele denne diskusjon om ordet Livskvalitet. Kunnskap er en forutsetning, men mennesket oppfattelses-evne er meget begrenset. Dermed må en erkjenne at vi alltid vil leve med illusjoner, misoppfattelser og selvbedrag. Derfor står det stor respekt av dem som innrømmer at en faktisk tror og ikke påstår at sin tro er viten. Det forhold at Mennesket er bedragerisk av natur, ble omstendig omtalt i UU 2013.mars.15. Videre omtales kollektive bedrag i UU 2013.april.26 med hentydning om at 'politisk korrupsjon' ikke bør forbli et tabu-tema. Utover politisk bedrag henvises det også til artikkelen om 'kleptocracy' og systematisk villedning av CPI (Corruption Perceptions Index). Som nevnt; «Rettsapparatet skal følge loven og reagere like rettferdig i offentlig som kommersiell sektor».

Årsaker til den omfattende bevisste desinformasjon er besværlig å forklare uten å samtidig provosere. Det er enklere å illustrere det faktum at desinformasjon eksisterer, tross alle gode hensikter. For å si det først som sist, det etterfølgende er ikke blasfemisk, selv om det kan kalles kjettersk. Det er viktig at kritikk av tvilsomme teokrater ikke stemples som noen kritikk av Gud. Tvert imot. Dermed gis det her full støtte til kritikken om at Gamle Testamentet (GT) åpenbart er full av løgn og bedrag, som antagelig skyldes den arrogante ignoranse å påstå at sin tro er viten. GT er tross alt en stenalder-teologi lavet for analfabeter i kollektivt krise og krig. Følgelig har GT det tilsvarende nivå av InformasjonsKvaliteten. Det er simpelthen ikke sant at Jorden ble skapt på 6 dager, at Jorden kun er 6000 år gammel, at alt Jordisk liv ble skapt her osv. Videre kan man da ikke tro at Moses var Guds utvalgte, da Moses visse smadret Guds 10 Bud og sier sin stamfar Adam ble kastet ut av Paradis av Gud. Dessuten denne selvutnevnte 'Herren' som Moses følger, fremstår ved 'ild uten røyk', et ukontrollert temperament og synes å ha egenskaper som en Djinn. Til tross for at de aller fleste i vår tids kunnskap vet at GT har usannheter, er det Teokrati blitt så rotfestet i tusener år at folk flest aksepterer bedraget for å beholde sine kollektive relasjoner og ikke utsettes for ekstreme BGGG Spill (Bad Guy – Good Guy). Det sammen gjelder de nyere GT-relaterte massepsykosier om 'Flat Jord & Flat Himmel' og Jorden som Solsystemet og Universets sentrum. Det nyeste er det store 'Big Bang' Bedraget som flytter Moses' 'Bli Lys'-dogmet til hva vi foreløpig tror er Universets sentrum. Tilsvarende kollektive S-E/S-I forhold, teologiske, politiske og kulturelle, er årsaker til at Menneskeheten stadig hemmes i sin utvikling til Voksen 'ego-state'. Mere ærlighet vil gjøre Menneskeheten godt.

Staten tok eneretten til grunnopplæring av fremtidens Statsborgere. Det tilhørende ansvar har store konsekvenser for Samfunnets tilstand. Allmennkunnskapen i 'den vestlige verden' er følgelig blitt sterkt nedadgående. Indikasjoner i tidligere i UU viser at forsømmelsen er vedvarende uten evne og vilje til akseptabel forbedring (se UU 27.April.2012 og UU 2013.nov.15). Nordiske pedokrater synes å være langt sterkere motivert av egen makt og profitt enn elevenes kvalitative utvikling. Derfor er det helt nødvendig med massiv gjennomføring av demokratisering av Folkeskolen tilsvarende som med Statlige TV, radio og aviser. Læring i praksis og ved internett gjør behovet for tradisjonell Folkeskoleundervisning til en brøkdel av dagens nivå. Folkeskolen er også en demotiverende 'tidstyv' i forhold til alle seriøse tilbud på internettet. Dessuten, barn og ungdom skal beskyttes mot ukvalifiserte Folkeskolelærere med anti-demokratisk agenda og Spill. Man kan jo ta en kikk på hva familiefaren Bill Gates mener om saken i TED videoen under.

Tilsvarende bør man ikke falle i IBM's tilbud og feller som erfaringsvis blir særdeles dyrt og dårlig over tid. (Se UU 2013.des.06, UU 2013.des.013 og UU 2013.des.20).

Steve Harley er for meg en kjær favoritt. Det har kommet masse av god musikk og tekster i hans 40 årige karriere. Han er endog enda aktiv og kan ses på turne, hvis man følger med i de små annonser. Albumet 'Timeless Flight' kunne vært toppen av karrieren, men ble heller nedturen. Hans topp i karrieren var nok da han fikk hovedrollen som 'The Phantom of the Opera'. Men det var kun den video-hit som sikret finansgrunnlaget til Andrew Lloyd Webber sin rockopera. Det ble en formidabel suksess som har kjørt sikkert siden 80 tallet, - men uten Steve Harley. Det er dessverre sånn med Webber som Disney, at kjente klassikere uten opphavsrett kommersialiseres uhemmet. Denne UU 'Understand' er en ukjent stykke i et ukjent album. Ikke desto mindre en av de kjæreste melodiest, tekstmessig og ikke minst den orgel-solo som var rent moderne på den tid.

Laurie Anderson - O Superman

2014.jan.10

Ukens Utvalgte:

Superior-ID (S-I) er et hypotetisk Meta-begrep som ble til i denne 1-årige drøftelse av LivsKvalitet. S-I fyller et hull i klassisk Freud/Berne sosial-psykologi. Forenklet sagt er S-I Menneskehetens LivsKraft, - på godt og ondt. I denne UU gjøres et forsøk på å samle og plassere begrepet til den etablerte teori, så det kan anvendes i de sammenhenger.

Den grunnleggende psykologiske teori er omtalt i UU 2013.mars.08 og 2013.mars.22. Kort sagt betyr 'psykologi' noe som 'studie av sjelen' og er i Freud/Berne begreper: ID/Barnet, Ego/Voksen og Superior-Ego/Foreldre. Med Berne sine begreper ble det enklere å se at Barn først utvikler sitt ID, så skaper Foreldre dets S-E, og at man som Voksen utvikler sitt Ego/Selvbevissthet. Et sunt menneske har en balanse mellom de 3 'Ego-states'. Berne videreutviklet teorien til inter-personlige relasjoner og sosialpsykologiske Spill. Dermed ble det i disse UU fremmet at teoriene gjelder for Organisasjoner og Nasjoner så vel som Personer, - samt at S-E kan fungere for Menneskeheten som helhet ved moralfilosofi om verdier, etikk, lover og ritualer. Med ettertanke, - når de tradisjonelle begreper overføres fra personlig til sosial psykologi, kan det bli fornuftig å bruke begrepene 'Underbevisst', 'Bevisst' & 'Overbevisst' på person-nivå i stedet for de klassisk freudianske 'Superior-Ego', 'Ego' & 'ID'.

I undertemaet 'Livskvalitet og Imperier' ble begrepet Superior-Ego (S-E) særlig viktig for å forklare de kollektive 'Overbevisstheter'. Men tilsvarende ID-relaterte kollektive 'Underbevisste' instinkter synes å mangle i Freud/Berne sin sosialpsykologi. Det ble flere ganger antydnet eksistensen av Superior-ID (S-I). S-I svarer til de kollektive instinkter for Voksne Mennesker. Det er sterkt følelsesstyrt ved hjerte og nerver, ufornuftig og blottet for S-E hemninger. S-I stammer fra primitive stadier i Menneskets utviklingen og er Livskraften, overlevelsesviljen og endog kjærlighet og hat. Det er 'dyret i oss', styrt av 'øglehjernen' og kollektivt beskrevet som 'bestet' og 'monsteret'. Den slags begrep om Mennesket er brukt i samfunnsdebatter og er ikke funnet på her i UU. Men disse abstrakte og 'løse' begreper blir med S-I forbundet til klassisk psykologi. Dermed kan man enklere se fenomenet i sosialklinisk sammenheng og følgelig bruke sosialpsykologiske analyser for å finne fornuftige løsninger for Menneskeheten beste potensialer og alvorligste tendenser.

Som nevnt, - hvis man skal fokusere Superior-ID til et grunnleggende allment begrep er det Menneskehetens 'Livskraft'. Denne kollektive Livskraft består av hvert eneste enkelt-mennesket sin personlige Livskraft. Man kan forøvrig anta det kan finnes positive og negative kollektive synergier av Livskrefter. Sikkert er at enkeltmennesker eller kollektiver kan føle distanse til andre kollektiver og individer. Dermed kan S-I bli Underbevisst selvdestruktivt. S-E kan være tilsvarende Overbevisst destruktiv mot andre. Enkeltmennesker kan oppleve Depresjoner, som i realiteten er tap av Livskraft. Selvmedlidenhet, Selvmedisinering eller Selvmord kan bli utfallet. Denne destruktive symbiose av S-E/S-I er flere ganger omtalt ved Spillet Jante (DSITDEN) som har det autonome OK-NOK Gimmick for Trelle-kollektiver. Igjennom kollektive Voggestuer, Folkeskoler, Folkeparti, Folkekirker osv., utvikles OK-NOK fra 'Du skal ikke tro du er noe' via 'Jeg skal ikke tro jeg er noe' til 'Vi skal ikke tro vi er noe'. Følgelig blir selvstendighet redusert til et kollektivt minste felles multiplum. Prosessen er erfaringsvis særlig tydelig i Danmark hvor det tilsynelatende er utviklet et særlig sterkt dagmarsk pedokrati etter fallet av Roma3 sin Trone.

Superior-ID ble først nevnt i UU 2013.Mai.24 og UU 2013.juli.05 i forholdet til fallet av Roma2 og etableringen av Roma3 på 1500 tallet. Det er med god grunn at Tsar Ivan ble kalt 'den grusomme'. Men han sto selvfølgelig ikke for alle Imperiets ugjerninger selv. Imperiebyggingen ble hovedsakelig planlagt og utført av eksil-imperialister fra Roma1 og Roma2. Tilsvarende gjelder for gjenreisningen av Roma3 på 1900-tallet og Stalins bestialske meritter. Det var en kollektiv prosess med Stalins psyke som referanse og S-I. Statens S-E vendte S-I mot Tronen og dets lojale i sitt coup d' Etat. Midler var røde faner så kollektivet 'så rødt', aggressive massepropaganda og synkroniser opptog anført av Roma2-inspirerte Janitsjar. Den etterfølgende massive innføring av skandinaviske janitsjar-korps er velkjent fra kaldkrigs Folkeskole og LO. Dermed er det god grunn til å anta at Skandinavisk S-I er sterkt påvirket av Roma2 Ottomansk S-E så vel som fra Stalins Roma3.

Fenomenet S-I kan spores fra Roma3, til Roma2 og tilbake til Roma1. Faktisk kan det spores videre tilbake til Roma0/Athen og Ptolemai dynastiet som influerte Egypts Ennead. Som nevnt i forrige UU slo dette tilbake mot Roma1 sin Republikk/Stat rundt år 0. Den opprinnelige omtale i UU 2013.Mai.24 er for øvrig god nok: «Det er sannsynligvis en overordnet sammenheng i utviklingen fra Roma1 til 3. Roma3 sitt 'Oprichnina', det hemmelige Statspoliti, er en nøkkelindikator. Tilsvarende organisasjon fantes i Roma1 også, - da kalt 'Praetor Guard'. Begrepet finnes også i sammenheng med Roma2, men da betydelig videreutviklet. Praetor i Roma2 var keiserens 'første minister'. Roma2 delte imperiet i 4 hovedregioner med hver sin praetor. Dermed ble splittingen et faktum og resultatet ble som i Spillet DAC (Divide And Conquer). Roma2 sine Praetors har sannsynligvis blitt med til dannelsen av Roma3 og iverksatt sine strategier og operasjoner. I forhold til psykososiale Spill er Oprichnina/Praetor nærmest som en definisjon. Identiteten og Spillene forblir allment skjult fordi det er hemmelige organisasjoner iboende egenskap. Problematisk er det dog, hvis Demokratiets Livskvalitet ikke respekteres. Alvorlig er det, hvis organisasjonen anser seg som et Superior-Ego og enkelt-mennesker som mindreverdige. Katastrofalt er det, hvis deler av organisasjonen opererer som et Superior-ID, - som en overmenneskelig 'Predator' og har tilpasset seg egenskaper fra dyreverdenen. Ubeskrivelig er det, hvis det også har arvet Ivans mørke mentalitet som en kollektiv tvangstanke.» Ved ettertanke siden den UU; - Menneskehetens historiske dunkle sider eksister selvfølgelig som Superior-ID like fullt som Superior-Ego.

Til Bernes sosialpsykologiske Spill-teorier relaterer ID seg spesielt til kategorien 'Sexual Games', og kan føre til andre kategorier som 'Underworld Games'. Skjønt, siden S-I er en utvidelse av klassisk Freud/Berne modell, kan det for ordens skyld laves en ny kategori Spill 'ID Games'. I alle tilfelle er det vesentlig at ID-Spill hovedsakelig er biologisk instinktivt motivert. Eksempelvis er Spillet LYAHF (Let's You And Him Fight) Motivert som dyrs parrings-Ritualer. Man kan forestille seg tiur, hjorter og 'black widow'. ID påvirkes sesongvis sterkt av naturens pollen som trigger de kvinnelige og mannlige kjønnshormoner østrogen og testosteron, som i sin tur trigger Spill som LYAHF. En kan dermed godt innse at Bevisstheten (Ego) ikke styrer aktivitetene, - hverken for Mennesker eller dyr. Tilsvarende gjelder når en prøver å forsørge sine avkom, stille egen sult, redde sitt eget liv, samt ved forsvar og angrep. Når man så vet hvor avansert og ubehøvlet naturen er, så kan en også se at Mennesker har tatt meget fra dyre-verdenen angående rov, bytte, jakt, kamuflasje, taktikker, paralysering, forgiftning, snylting, bedrag etc. Videre har Mennesker antagelig alltid vært imponert over sykronisert samspill i flokker, stimer og tuer. Kollektive så vel som individuelle S-I prosesser er utvilsomt influert 'Naturlig'.

Ekstremt er det når S-E kollektiver anvender primitive dyre-eksperimenter som grunnlag for å manipulere Menneskers S-I kollektiv. Pavlo sine eksperimenter med hunder er velkjent innen ID psykologi-teorier. En mengde eksperimenter med dyr ble utført for å påvise klassiske forutsetninger for respons. Eksempelvis ga Pavlo sine hunder daglige elektroshock og påviste at deres reaksjoner reduserte over tid, men også at de kunne overreagere hvis de ble utsatt for overbelastning. Det er virkelig bekymrende at S-E personer med autistiske tendenser kan konkludere at man dermed kan styre og endre Borgeres reaksjoner tilsvarende, - at man kan arrangere kollektive S-I overreaksjoner ved å overbelaste Borgerne og endog styre reaksjonen mot Rivaler. I alle tilfelle, - dette århundres S-E holdninger og handlinger er antagelig sterkt påvirket EW/WW Trauma forårsaket ved berserker S-I kollektiv. For etterkrigstiden kan en hypotese være at S-I 'Ødipus & Elektra komplekser' har betydelig innflytelse på dagens ismer, ideologier og Gimmiks og kan være manipulert på person-nivå for å fremme egne politiske Spill. Sosial-populistiske krav tilsvarende 'livslang room-service' kan forklares med familie-uavhengig Ødipus/Elektra-symbiose for organisert 'gjøk-unge'-politikk.

Så kan en saktens spørre om Predator/S-I er ond. Generelt sett er svaret nei. Tilsvarende åtseldyr gjør de instinktivt en nødvendig del for naturbalansen. Selv om vi som følelsesmennesker kan se offerets lidelser, ser ikke Predator/S-I forskjell på konsum av 'levende' planter og byttedyr. Om en rev kan gjøre et massakre i en hønsegård, så er det fordi dets ID har gått i ekstase har ingen stopp-knapp. Praetor/S-E derimot har evner og viljer til å få gjort Godt/Ondt, Konstruktivt/Destruktivt og Rett/Galt. Så når en 'Ødipus' arrangerer tilsvarende med hunder og sin onkel kan det ikke forklares med naturlig ID/Predator, men med et S-E/Praetor planlagt Spill. Skjønt intet Menneske er allvitende eller allmektig og kan følgelig unntaksvis ikke forstå alle Meta-konsekvenser av sine aktiviteter og passiviteter. Men ansvarlig, - det er en.

Begrep som 'Idiotisk Ondskap' er følgelig et filosofisk verdispørsmål. Ondskap i seg selv betinger 'Fri Vilje'. Det er ikke Trellden, men dens 'Herre' som er ansvarlig for konsekvensen av dens ordre. På den annen side, hvis en påberoper seg 'idioti', som ved 'svekkede sjelsevner', utsetter en sin Frihet og oppfordrer til umyndiggjøring av seg selv. 'Nyttige idioter' var et begrep brukt av ekstreme S-E kollektivistiske Statsborgere i politisk trelldom under den Kalde Krigen. Tilsvarende teokratisk eksempel er misfortolkning av Jesu utsagn 'La de små barna komme til meg', som om meningen er at Voksne mennesker skal underkaste seg S-E teokrater til S-I-nivå for å komme til Himmelen. Den slags psykososiale Spill bør ikke tollereres mere. Politisk eller religiøst, - holdningen stammer fra en S-E/Praetor eller tilsvarende 'wannabe'. Dermed er det ikke den 'trellebundne', men 'trellebinderen' som er relevant for inngående sosialpsykologisk analyse og konsekvenser.

Relevant for S-E og S-I blir også begrepet 'Helt normal galskap'. For å fremme sunn Livskvalitet er det avgjørende viktig å ikke overse allskens S-E og S-I Spill. Som nevnt er i følge Freud dominerende S-E og ID helseskadelig for enkelt-mennesket. Tilsvarende er naturlignok dominerende S-E og S-I forhold kollektivt skadelig for Organisasjoner, Nasjoner og Menneskeheten. Følgelig gjelder også som omtalt i UU 2013.april.05 om 'Normal galskap': «kollektivt press på enkeltmennesket (kan) være direkte årsak til

psykiske kriser. Det skjer spesielt hvor Nasjonalstaten påtar seg rollen som dominerende Superior-Ego, som Mamma- eller Pappa-stat. Janteloven er som nevnt konstruert for formålet. Utover alle de personlige lidelser, kan resultatene bli massepsykoser, dobbeltmoral og massenevroser som eksploderer i opptøyer. Det har man sett i så mange diktaturer, - som oppstår og faller i voldsorgier. Denslags skjer neppe hvis samfunnet baseres på respekt for demokratisk Livskvalitet. Ergo blir det et hovedpoeng å fremme individuell Livskvalitet for Samfunnet og Menneskehetens skyld.»

Videre er 'Organisert galskap' omtalt i UU 2013.april.12. Det er også relevant for Organisasjoner, Nasjoner og Menneskehetens S-E/S-I forhold: «Ennea(-grammet)/NLP sine destruktive potensialer kan knapt nok verre tenkes i forhold til Freud/Berne psykososiale Spill-analyser. Det kan fungere som et dominerende og psykotisk Superior-Ego, som kan overføre sine psykoser til klientenes S-E, skape ID's nevroses og endog splitte deres Ego. Her ligger potensialer for hele spekteret av Bernes beskrevne Spill, - spesielt LYAHF, NIGYSOB, Debitor, SWYMMD, Courtroom, LHHIT, Schlemiel, WDYYB, Rapo, Uproar, HDYGOH, LPFOJ, IOTHY og selvfølgelig Psychiatry. Resultater av sådanne Ennead/NLP psykososiale Spill på virksomheter og regjeringer, kan kun gavne deres rivaler og konkurrenter.» Videre ble det i den UU vist til tidligere omtale av DR sin dokumentar 'Forbrytelse under Hypnose' og følgelig relasjonen til NLP (Neuro Linguistic Programming). Begreper som massepsykose, hjernevask og indoktrinering kan utvilsomt relateres til usunne S-E/S-I forhold. Man kan endog starte metaforisk identifikasjon av sådanne skjulte og abstrakte Organisasjoner med tidligere omtalte begreper som Psykopatiet og Sosiopatiet ved deres aktiviteter som massepsykopati og massesosiopati, samt de tilsvarende sosialpsykologiske Spill. Skjønt 'Red John' var en hard nøtt å knekke (Ref TV-serien 'The Mentalist').

Målsettingen for Siviliserte Demokratier sin kollektive mental-helse er dermed å fri enhver Statsborger fra S-E/S-I Trelldom. Grunnen er selvfølgelig at dette er forutsetningen for sunn mentalhelse for Menneskeheten - og at den består av alle enkelt-Mennesker tilsammen. I forhold til begrepet Livskvalitet, - så er Menneskerettighetene et fundament som forbyr Trelldom. Kun Bevisste Voksne enkeltmennesker i samarbeide kan overvinne destruktive Overbevisst/Underbevisst Spill. Det gjøres ved Bevisst avsløring av Spillene, Spillerne, samt fjerning av Motivasjonene.

'O Superman' med Laurie Anderson stilte i sin tid i en særklasse tekstmessig, melodios og ved fremførelse. Fremføringens dekker simpelhet over hvor gjennomtenkt og avansert det hele er. Utgangspunktet er arien 'Ô Souverain, ô juge, ô père' fra 1885 samt operaen Le jongleur de Notre-Dame fra 1902. Tekstmessig kommer hun i tale med et Superior-Ego som gir indikasjoner om dets verdier og motiver og med hentydninger til forholdet US vs. UAE (Persia). Stykket er kontroversielt og Anderson stoppet fremføringen av den, inntil Lou Reed oppfordret til en samlet opptreden etter 9/11.

B-side:

Fremføring av et Superior-ID stiller ikke på hit-lister. Dets grimme natur virker frastøtende og gjemmes helst bort. Den kristne Vincent Furnier, alias Alice Cooper, har allikevel lavet en flere kabaret-stykker hvor han har gravd dypt i sitt indre og kommet frem med rett kunstneriske fremføringer. Tross dets foraktelige fremstilling som 'Sick Things' er det basert på dypt ærlig stykke som kan måle seg med skikkelser som Mephisto/Faust og Dr. Mabuse. Av nyere relevante drama kan sangen relatere seg til TV-serien om psykiatrikeren 'Hannibal' med danske Mads Mikkelsen i hovedrollen. Personen i sangen har distansert seg såpass at andre Mennesker omtales som Ting/Things og som sine syke offer. Musikalsk er det heller ingen dårlig prestasjon. Men tatt ut av sammenhengen og mikset med teatralisk horror-show mister den sin egenverdi.

C-side:

Denne ekstra UU er en god fremføring av Ego/Personligheten i forhold til Superior-Ego og Superior-ID. Igjen har Peter Murphy en særdeles godt melodi og reflektert tekst. Den passer godt, - særlig den underliggende Bevissthet at det eksisterer noe S-I lignende, som man heller får forholde seg best til for å overleve.

Peter Murphy - Time Has Nothing To Do With It

2014.jan.03

Ukens Utvalgte:

2014 er et stort jubileumsår av to grunner. Det er 200 år siden Norge gjenvant sin selvstendighet og ble en Nasjon, - og det er 100 år siden EW/WW startet. Det er dermed god grunn til å se fremover av nasjonale, nordiske, europeiske og globale årsaker. Men først bør man se tilbake på historien med kritiske blikk for å ikke gjenta feil i fremtiden. Samtidig bør en merke seg at årene 2012 og 2013 selvfølgelig ikke ble noen 'okkulte' katastrofe-år tross astrologiske fantasier. (Se UU 02.nov.2012 og UU 04.jan.2013.)

Som omtalt i forrige UU er dette det siste århundre før et nytt Age/Æra. Så er det god grunn til å ta forholdsregler for å ikke gjenta de katastrofale konsekvenser for Menneskeheten i de forrige 2 årtusener. Som nevnt er vår teologi egentlig bygget på egyptisk astrologi med overgangen i Æra/Age fra stjernetegnene Stenbukken til Fiskene. Vi er fremdeles preget av alle etter-Spillene om 'verden herredømme'. Den neste overgang til Æra/Age Vannmannen/Aquarius skal skje rundt år 2150. Men som nevnt i UU 21.dec.2012 startet antagelig de 'profeterete' intriger 200 år for tidlig, i år 1914, med 'Startskuddet i Sarajevo'. Dette sannsynliggjøres med Tunguska hendelsen i år 1908 som antagelig ble okkult misfortolket. De etterfølgende vanvittige Spill gikk selvfølgelig forferdelig galt og den fastlåste stillingskrig i EW1/WW1 ble avsluttet med pestkrigen 'Spanskesyken'. Revansjen EW2/WW2, etter keiserens fall, ble arrangert med plassering av 'dødsplaneten' Pluto i okkulte horoskop, samt iscenesettelse av 'Hister' fra skriptet Nostradamus 'spådommer'.

En hypotese er altså at det apokalyptiske EW/WW startet 200 år for tidlig i forhold til egyptisk astrologi. Fordelen med feilen er at dette New Age/Æra Spill er allerede avslørt så man får tid til å forhindre det virkelige Spill i neste århundre. I utgangspunktet er det 2 hovedsaker som skal til for å forhindre sosialpsykologiske Spill. Det ene er å avsløre Motivet og Trekkene. Det neste er å fjerne Motivasjonen ved å fjerne Gevinsten. Å fjerne Gevinsten er å lave et 'Game Over' ved å la det innværende Fiskenes Æra stille og rolig avslutte som det skal astrologisk sett. Så skal det overbevises med sunn Mentalhelse at det ikke finnes noe grunnlag for å startet noe nytt Ennead basert Age/Æra for Vannmannen. Fundamentet for den 'tro' er simpelthen en astrologisk illusjon basert på 2D forestillinger om stjerner og planeter. Den åpenbare misoppfattelse er 'hypet' opp med et massepsykotisk såpeopera-skript basert på egyptisk stenalder-mytilogi. Falske profeter skal avsløres stille og rolig og ikke få anledning til å skape flere apokalyptiske

intriger. Det er på tide å gå i dybden på det globalt arrangerte Spill hvor det skapes en ny 'Hister wannabe' i Nord Korea og drømmen om en asiatisk atomkrig.

Sist, men ikke minst for Nordmenn, - er dette 200 års jubileet for Norges selvstendighet. Det er godt at myndigheter i Norge og Danmark ser positivt på forholdet og vil markere det. Men allikevel, dessverre anser noen det som fordelaktig med fortsatt Skandinavisk splittelse og 'utfrysing'. Den slags negativisme mot Norden skal ikke få fortie eller forhindre den positive utvikling. Tvert imot, det skal fremheves at de Nordiske Nasjoner kan samarbeide på Voksent-Voksent nivå i stedet for Foreldre-Barn nivå.

Norges selvstendighet berører faktisk alle de siviliserte Forende Nasjoner positivt, - i Norden, i Europa og i Verden som helhet. Norge har en 1000 års historie som er meget interessant og lærerik for de fleste Nasjoner. Dessverre står Nordmenn fremdeles i en situasjoner med unormal isolasjon fra nabo-landene. Årsaken er tilsynelatende, men usannsynligvis, av egen fri vilje. Årsaken er heller ved tvilsomme politiske omstendigheter og Spill. Jubileet er derfor en stor sjanse for Nordmenn til å vitalisere betydningen av sameksistens, tross fjernstyrt utenrikspolitikk.

I UU 2013.mars.22 fremmes tesen at en kan bruke modeller for sosial psykoanalyse på organisasjoner og Nasjoner så vel som personer. Det konkretiseres i forholdet mellom Norden og det Russiske Trone i UU 2013.mai.17, samt i forhold til dagen Russiske Stat i UU 2013.mai.31. Begrunnelsen er at dominerende Matriarker og Patriarker hadde Superior-Ego roller over sine 'Provinser' og skapte Foreldre-Barn relasjoner som i Freud/Berne psykologi. Videre er den 500 årige Skandinaviske historie fra Kalmar Unionens splittelse sterkt preget av mangfoldige sosialpsykologiske Spill. For anledningen ble det definert noen sær-nordiske Spill som TOL (Tuppen & Lillemor), DSITDEN (Du Skal Ikke Tro Du Er Noe – eller 'Jante'), BGGG (Bad Guy – Good Guy) og DAC (Devide & Conquer). Skal man så gå videre og metaforisk tildele kulturelle tendenser til de tre Skandinaviske land, kan det være Patriark/Sverige, Matriark/Danmark og Barn/Norge, hvor det overnasjonale formynderi ved Roma3/Tsar-Ivan kjøpte et hardcore DAC Spill på Kalmar Unionen med psykososial resultater tilsvarende en hard skilsmisse. Fremdeles preges Danmark og Sverige av splittelsen. Siden Norge ble Myndig for 200 år siden, skal Nasjonen behandles som en Voksen og selvfølgelig opptre som en Voksen selv. Det gjøres ikke ved narsistisk nasjonalisme, men ved å oppføre seg som man normalt gjør i større selskap, internasjonale virksomheter eller endog Nordisk Ministerråd.

Det siste århundres EW (UU 2013.juni.21) har vært spesielt traumatisk uten noen profesjonell etterbehandling ved internasjonal terapi. 2014 er en døråpner for Nordisk helbred og ny gjenforening. Den 500 årige historie har uløste og uforsonede tilstander som alle vil tjene på at blir behandlet profesjonelt. Høyst sannsynlig vil eksterne ressurser fra internasjonale organisasjoner i Europa og FN være nødvendige initiatorer og mediatorer. Nordisk Ministerråd skal bare si ifra at vi nå er blitt modne. En gevinst vil selvfølgelig være å få slutt på alle DAC, BGGG, TOL og DSITDEN Spillene. Videre kan en ane de potensielle synergi-effekter ved å betrakte de 3 Skandinaviske land stereotypisk som; Norge/primærnæring/ressurser, Sverige/sekundærnæring/produksjon og Danmark/tertiærnæring/tjenester. Disse tre til sammen danner et helhetlig samfunnsgrunnlag hvor samarbeide vil utløse nødvendige og betydelige synergi-effekter for alle.

Peter Murphy er blitt en gjenganger her i UU. Han var som nevnt en kultfigur fra gruppen Bauhaus. I sin solokariere markerte han seg med stykker fra lettere pop til tunge ballader med kompleks vokal og lyrikk av metaforisk og religiøs karakter. Albumet 'Love Hysteria' ble toppen av karrieren. Det er et sterkt album fra hans mest kreative periode. På et tidspunkt ble denne katolikk mistenkt for å ha konvertert til Islam. Han avviste påstandene med at det kun var en anerkjennelse av Sufisme.

I alle tilfelle, - tiden er en forledende faktor har disse okkulte Ennead horoskoper så tydelig vist.

Led Zeppelin - Stairway to Heaven

2013.des.27

Ukens Utvalgte:

Barnetro og Jule-evangeliet er godt kjent fra folkeskolen og konfirmasjon. Den sitter i folket som en kollektivt 'S-E bevissthet'. 'Voksentro' burde heller være den tro ethvert Voksent menneske har. 'Den første filosofi' kalles religioner og omhandler de grunnleggende spørsmål og tanker om start og slutt for liv, verden og universet, samt moralfilosofi. Men det er galt når barnetro ukritisk fremmes som dogmatiske sannheter og viten. Den slags er ikke Voksentro, men indoktrinering av barnlig ignoranse. Såpass direkte tale er nødvendig, da religion skal være sannhetssøkende og åpen for all den sannhet vi evner å forholde oss til.

Nordiske Jule-ritualer er tradisjonelt en hyldest til Solens gjenkomst og naturens gjenopplivelse. Nærmest ukjent er at de nyere Kristne ritualer er personifiserte versjoner av det samme. (Se video-serien 'Religion Comes From Ancient Astrology and Sun Worship'.) Dette er tidligere omtalt i UU tema 'Jul, Påske og Midtsommer' og spesielt i UU 2013.aug.02 og UU 2013mars29. Det egyptiske opphav til Kristendommen finnes i 'Ennead'. Heri ligger kjernen i det kollektivt Rituelle Spill, som gikk så forferdelig galt for 2000 år siden. Jule-evangeliet har et med andre ord et opphav som er langt mere omfattende, dyptgående og dramatisk enn NT beretter.

Ennead er den greske betegnelse for det egyptiske teologiske system av 9 guddommeligheter. Det ble praktisert i Heliopolis (Solbyen). Teokratiet ble ytterligere vitalisert ved Ptolemaic dynastiet, som stammet fra Alexander den store sin hærfører og hersker av Egypt. Da Grekerne tok den Persiske Trone fulgte det okkuperte Egypt med. Hærføreren Ptolemaic ble ansett som Egypts 'Frelser' og en kongelig guddom. Til Enneagrammet hører også guddommelighetene Osiris, Isis og Set, samt deres trekant-dramaet som symboliserer Solens 'død', 'gjenoppstandelse' og frelse. Allment kjent er at ritualet gjentas hvert år ved Vintersolverv og Disablot. Nesten ukjent er dets ultimative klimaks hvert 2150 år når Solen selv entrer et nytt Stjernetegn, en ny Æra, et nytt 'Age'. Den nye verdens Frelser og Kongenes Konge sin person er bundet til astrologisk psykologi for Tyren, Bukken, Fiskene, Vannmannen osv.

Datidens herskere visste utmerket godt hva som var på gang i det egyptiske teokrati. Her kom en mulighet til å ta verdensherredømmet ved å realisere Ennead skriptet. På den annen siden ønsket Rivaler neppe en egyptisk suksess. Dessuten var de gresk/romerske, samt norrøne, gudommer tilsvarende de egyptiske, som Osiris/Zeus/Jupiter/Odin, Iris/Aphrodite/Venus/Freya, Set/Hades/Pluto/Loke. Så hva skjedde egentlig bakom Juleevangeliet? - vil en med Voksentro spørre. Tross all viten og fremstillinger vil man selvfølgelig ikke finne et altomfattende svar, men vil få innblikk i de ultimative Spill for Menneskeheten.

En alternativ informasjons-kilde er TV-serien 'Rome'. Tross fysisk, psykisk og seksuell vold gir den et Voksent syn den teokratiske rivalisering. Kort beskrevet tok Julius republikken Roma1 ved et Coup d' etat og ble diktator. Konverteringen var først fra Stat til Trone og dernest til Tempel. Cæsarion var den førstefødte sønn av Julius Cesar og dronning Cleopatra. Han var følgelig enearving til et forent Roma og Egypt. Disse tre oppfylte til sammen Ennead skriftene om Osiris, Iris og sønnen Horus. Julius henrettelse i Senatet, skulle gjøre Cæsarion til keiserlig konge over Roma/Egypt. Marcus Antonius, var et nytt keiser potensiale og ble far til Cleopatras nye barn Alexander Helios (Sol) og Cleopatra Selene (Måne). Da Antonius døde var første del av den egyptiske profeti igjen oppfylt. Men Julius sin adoptivsønn Augustus og den republikanske Stat ønsket ikke noe kongelige teokrati ved Trone/Tempel. Augustus beleiret Cleopatras resident i Alexandria hvorpå hun angivelig valgte et rituellet selvmord fremfor offentlig henrettelse i Roma.

Her slutter TV serien 'Rome' tilsynelatende 2 episoder for tidlig fordi første sesong har 12 episoder og andre har 10. Cleopatras tre barn er fremdeles i live i Roma. Annen historisk dokumentasjon viser at de døde unge og av ukjente årsaker. Det ville også være interessant å se noen forbindelser fra serien til den faktiske teokratisering ved Roma1 og 2, opphavet til forbannelsen av den Julianske familie, samt utviklingen

av Pontifex Maximus til Pave, - noe som gjør kristendommen til en blanding av egyptisk, babylonsk og etruskisk teologi. Det er for øvrig god plass til mangfoldige ekstra sesonger av 'Rome'. I øvrig kan det neppe betviles at den bibelske betegnelse 'Babylons skjøge' var tiltenkt Cleopatra.

GT gir beskrivelser av Persia/Babylon sin krigføring mot Egypt i tusener år, - med falne engler, demoner, narkotika og en rekke landeplager. Dette felles old-historiske kultur-fundament stammer fra forfaren Abraham. Han reiste fra dagens Iran/Irak og tok hevd på et stykke okkupert land i krigssonen mellom Egypt og Persia, - og hevdet at selveste Gud gav det til ham. Derfra fungerte han som en teokratisk gerilja-leder. Hans førstefødte sønn var med en Egypter, hans andre var adoptert av 'engler/budbringere' og ble jødernes forfar. Resten av barna var med den 3. kvinne og ekteskapelige kone. Disse ble forfedre til de pre-muslimske stammer. Etterfølgeren Moses ble adoptert av faraoens datter i Egypt, men Moses og hans folk måtte forlate Imperiet under frivillig tvang. En relasjon til Ennead vises da Moses smadret Guds 10 Bud fordi hans folk igjen ville tilbe det forrige Æra Tyren, mens han selv fremmet den etterfølgende Stenbukken. Forøvrig handler NT om overgangen fra Æra/Age Stenbukken til Fiskene.

Kristne var opprinnelig en jødisk subkultur, som hevdet Frelseren var en av dem selv. Forut for Jesus var døperen Johannes en potensielt ny Jødernes Konge. Tronen var dog allerede solid besatt av Herodes. Dokumentaren 'Herod the Great' og serien 'Rome' viser at Herodes ikke var noen rettmessig arving til jødernes Tronen. Han fikk makt ved å inngå en korrump avtale med Roma for gjensidige interesser. Dermed fikk Herodes æren for romerske tiltak, byggverk, byen Caesaria og Tempelet. Men da han tilba romerske guder og avlivet rivaliserende jøder mistet han respekt. Når det så ryktes at 3 pre-muslimsk 'konger' velsignet 'en nyfødt ekte jødernes konge' skal Herodes ha befalt massive barnedrap for å sikre sin Trone. NT skriver dog at mor og sønn flyktet til Egypt. Ved Jesu tilbakekomst 30 år senere skal Herodes ha henrettet Jesu forgjenger Johannes ved halshugging. Romerne henrettet Jesus ved korsfestelse, da Herodes angivelig hadde abdisert.

Selv om den mytologiske essens i NT er bevart, synes det mest å være en særdeles detaljert beskrivelse om irrelevante personer på irrelevante steder til irrelevant tid. Dette understøttes særlig fordi ingen av de involverte tror på den historie, - hverken Egyptere, Jøder, Muslimer eller Romere. Den Kristen-Jul vi i Norden kjenner fungerer i praksis som en barnlig cargo-kultur med gavedryss om man følger visse Ritualer. Men det er intet galt i sådan Juletradisjon. Den kan endog være særlig positivt sosialiserende. Bekymrende er det likevel at den okkulte Ennead kulter ligger skjult i teologiens undergrunn og kan vekkes til live i narsistisk LYAHF Spill. I temaet 'Livskvalitet og Imperier' streifes det innovent hendelser og motiver som kan ha forårsaket EW og WW. Menneskeheten bør være særdeles oppmerksom på at denslags katastrofale vanvittigheter ikke får gjenta seg. (UU 2013.feb.22, UU 2013.juni.21, UU 2013.juni.28.)

Det er som nevnt både positive og negative sider ved at mennesket bedragerisk av natur (UU 2013.mars.15 og UU 2013.april.05.) En type bedrag er dedikert Barn og barnetroen er preget av det. Men Voksentro skal være langt mere basert på sannheter. Hvis man prøver å oppsummere den monoteistiske historie de siste 2000 år ser man at det var alt for mange store negative konsekvenser. De psykososiale Spill har eskalert og er fremdeles omfattende. Årsaken til problemene er ikke religion i seg selv, men at primitive og apokalyptiske teokratier så lett kan misbrukes. Igjen, som mange ganger tidligere, vil begivenheten at Solen tilsynelatende entrer neste stjernetegnet, bli misbrukt teokratisk.

Når man så vet at religion alltid vil eksistere, uansett teisme og ateisme, bør man heller fokusere på Menneskeheten som helhet. Et formål frem til neste Æra/Age om ca 150 år, vil være å ikke gjenta disse stenalderske Ennead Ritualer og Spill. Denslags destruktive intriger på globalt nivå vil ha langt mer fatale ettervirkninger denne gang.

Stairway to Heaven fra 1971 er fremdeles utpekt som en av tidenes beste rock-ballader. Det skyldes ikke minst dens fengende musikk, den personlig mystisk tekst og den avanserte utvikling. Det ligger noe Cleopatralsk over det hele. Så skal man heller ikke legge skjult på at Robert Plan sin 'Jens Pikenes'-fremtoning har fungert særlig tiltrekkende. Han er dog en særlig begavet artist som har prøvd mange musikkstiler og er fremdeles ettertraktet til festivaler.

10cc - The Wall Street Shuffle

2013.des.20

Ukens Utvalgte:

IBM lavet sin egen CPU kalt Gekko. Det samme navn har anti-helten Gordon Gekko i filmen Wall Street. Felles er at de begge er 'Business Machines' og kan være konstruktive i avgrenset omfang. Men når moral som «Greed is Good» påføres sivilisasjonen, blir det nødvendig med «deactivation» av Gekko så vel som HAL. For IBM er som nevnt akkurat hva de selv kaller seg, - en «Business Machine», - og 'International' uten spesiell nasjonal lojalitet til f.eks. US. Gordon Gekko holder dog en kontra-tale etter 8 år i fengsel i oppfølgeren «Money Never Sleeps».

Som nevnt i etterordet i UU 2013.april.26 ble min Master Thesis krevd selvsensurert for 20 år siden. Den handlet om IT og QL (Livskvalitet). Kapittelet om Industriell Rivalisering ble krevd fjernet for at jeg skulle få MSc tittelen godkjent. Tross ettergivelse og selv-sensur har det vært særdeles besværlig med arbeide i LO og IBM relaterte kulturer siden dengang. På grunn av vedvarende 'null nåde' blir derfor denne UU dedikert noen av de sensurerte hovedpoeng, så som fra UU 27.jan.2012 om Finanskrisen, samt essensen av hele dette 1 års UU tema om Livskvalitet (QL). Dessuten, etter omstendigheten løftes omtalen et par nivå.

Hvordan Norsk Data (ND) plutselig ble 'borte' fra industrien på 90-tallet nevnes diskret i UU 2013.okt.11. Diskresjonen er herved opphevet. Motivet var klart, ND ble ofret for å gi dets markedsandeler til IBM i norsk offentlig sektor. Dette vet jeg utmerket godt da jeg selv var en i Teledirektoratets merkantile forhandlingsgruppe for UNIX rammeavtalen. ND sin nye Dolphin med ekte UNIX teknologi ville garantert blitt en suksess innenlands og utenlands. Overraskende ble ND blokkerte av Teledirektoratet uten å få den livsviktige 5 års rammeavtale. Begrunnelsen var særdeles usaklig og ulovlig. Utfrysningen ble trendsettende for hele offentlig sektor og var årsaken til at ND døde hen. Som nevnt i forrige UU var IBM en aktiv aktør i Moskva da det ryktes at en ND testmaskin i Litauen kunne frakoble satellitstaten. En LO 'tillitsmann' ble så nektet adgang til ND sine styremøter, - men for sent til å rette opp skader. LO sitter som nevnt på de fleste sider av forhandlingsbordene i offentlig sektor. Denslags praksis synes å fortsette, selv etter at Norge fikk 'Lov om offentlig anskaffelser' i 1999.

Et fundament for Thesen er 3D verdi-konseptet GNR (Godt, Nyttig, Riktig), som beskrevet i UU 2013.mars.01. Men som antydnet kan det teoretisk eksistere et anti-GNR, kalt ODG (Ondt, Destruktivt og Galt). Dessverre synes teorien å være praktisert. Det kommer til syne ved resultater av Spill, - særlig innen politikk og markeds-rivalisering, - eller den ultimative kombinasjon – Krig. Dermed kan en også forstå at det eksisterer 'negative økonomier' som legitimerer destruksjon av Rivaler for egen eksistens og gevinst. Spill

vil typisk være LYAHF (Let's You And Him Fight), EDAB (Ens Død en Annens Brød), DOC (Devide & Concure) og særlig Spill innen kategorien 'Underworld Games'. Videre kan det gå emosjoner i Spill hvor 10x gjengjeldelse på de forhatte føles Godt og Rettferdig. Dermed eskaleres Rivaliseringer til Vendetta-nivåer.

Innen politikken er man godt kjent med ordtaket 'Robbing Pete to Pay Paul'. Det ble også definert som et Spill (RPPP) i UU 2013.okt.04. Sosialøkonomisk er det praktisert ved en utvidelse med en ekstra Dimensjon på 'Cost-Benefit', til 'Din kost - Min nytte'. Det legitimeres og forsterkes ved påføring av holdningen 'OK-NOK' (Vi er ok – De er ikke ok) og dermed å anse andres tap som akseptable og tidvis fordelaktig. Når en så kan anta at destruksjon er 10x mere effektivt enn konstruksjon, kan styrkeforhold endres 10x mere ved å destruere Rivalens verdier enn å skape egne verdier.

Dunkle sider av Markedsføring er definert som krigføring (se UU 2013.okt.25 og quickmba). Etter IBM sitt engasjement i Koreakrigen er dette utvilsomt en realitet i deres Markeder. Konsekvensene ved global krigføring i Markedet kan være vel så alvorlige som Nasjonalstaters Internasjonale kriger, hvor verdisystemer for Moral, Etikk og Rettferdighet midlertidig devalueres. Uten sivilisert Demokratisk Etikk kan aggressiv Markeds-krigføring startes ved argumentasjoner som 'angrep er det beste forsvar', 'this town ain't big enough for both of us', 'frykten er mitt våpen' og 'bedre føre var enn etter snar'. Kombinert med hemmelige tjenester og argumentert i 'Rikets sikkerhet' kan det gis fritt spillerom for Menneskehetens verste kandidater. Dette har forrige århundre så tydelig vist. Det gjelder selvfølgelig så vel for Imperier i industrien som i Stats-Imperier. En skal bare ikke glemme at 'Kald Krig' er mere 'hemmelig' og bedragerisk, samt mindre synlig og sporbart.

Et positivt 5D (UU 2013.april.19) utviklings-skift innen IT industrien vises i videoen under. Det er historisk øyeblikk da HW/SW/CPU fusjonerte i et prosjekt for å skape Menneskehetens PC. Etter interne IBM rivaliseringer og splitting av prosjektet har IBM funnet fortjeneste i anti-demokratisk ineffektivitet. Man kan faktisk ta mere penger ut av Kunder ved å gi mindre. Sempel Transaksjons-Analyse (TA) viser at argumenter er: 'Dere får 50% (på dobbelt pris)', 'Den (første) er gratis', 'Take-it or Take-it', 'How Do You Get Out of Here? ("Want Out")'. Denne OK-NOK holdning til Kunder hemmer Menneskehetens Livskvalitet og utvikling. Offentlige tjenestemenn, som LO agenter, tendenserer til å akseptere overpriser fordi det er atskillig enklere å overforbruke andres penger enn sine egne. Denne svakhet som Keynes beskrev, utnytter IBM og har fått et symbiotiske forhold til offentlig sektor. Dessuten, LO agenter og medlemmer synes å være innbilt at deres jobb er avhengig av IBM sin foreldede IT og dyre vedlikeholdsavtaler. Dermed blir et desillusjonert LO en avgjørende forsvarer av overforbruk og underutvikling i så vel finansiell som offentlig sektor. Dette er også en del av forklaring på at det er gjennomsnittlig 2% illojale medarbeidere i virksomheter.

Produkt-utviklingen de siste 20 år tyder på at IBM ikke er en teknologisk foregangsvirksomhet tross alle sine forskningssentre. I stedet har IBM kjøpt PWC (PricewaterhouseCoopers) for industrianalyse av andre, samt de middelmådige produkter Lotus (IKT) og Tivoli (backup). Sistnevnte sikrer særdeles dyre vedlikeholdsavtaler for mangfoldig duplisering av data på avleggs og ineffektive disk og tapes. Siden IBM mistet fremtidens 'Disk Operating System' ved utfrysing av Microsoft, er Kunder trellbundet til IBM's egen 'low-tech'. Ved samarbeide med MS ville IBM sine Kunder få kvantesprang innen effektivisering, rasjonalisering, økonomisering, sikkerhet, tilgjengelighet og informasjons utnyttelse. Kunder bør være særdeles skeptiske til den slags Produsenter som konsekvent fortier sikkerhetsproblemer på sine IT produkter når man vet hvor massivt alle utsettes, - se f.eks. alle Microsoft omtaler og tiltak.

IBM sine kunder kan faktisk kreve Intel/Microsoft teknologi og dermed åpne døren til effektiviser med Windows Server for storage/backup, nettverk, sikkerhet, samt virtualisering og dermed dynamisk og rasjonell utnyttelse av disk/cpu/memory. Eventuelt kan de avansere med System Center for total kontroll over hele datasentre. Videre vil Kundene få anledning til å oppgradere fra det tilbakestående Lotus (IKT) til Office (IKT), som dekker nærmest alle IKT Behov. Eksempelvis gir nå Excel gratis avansert 'Data Mining' og 'Business Intelligens' med produktene 'Power Pivot' og 'Power View'. Men i stedet for å markedsføre de positive synergi-effekter ved Microsoft integrasjon har de sterkt IBM-dominerte Lotus og Linux kulturer kjørt massive anti-kampanjer mot Microsoft. Det gavnet neppe IBM i lengden, men avslørte dets misbruk av subkulturer.

På meta-nivå synes ikke IBM-MS rivaliseringen å være hovedsaken, men heller en arena for langt eldre, dyptgående og omfattende rivaliseringer. I forrige UU ble det nevnt at det er umulig å dokumentarisk analysere IBM på samme måte som det er umulig på Vatikanet. Dette realterer seg også til UU 2013.mars.22 hvor tesen at en kan psykoanalysere organisasjoner så vel som personer. Et mere relevant begrep ville likevel være 'Kremlologi', - en etablert politisk analyse av maktforholdene i den øverste ledelsen i lukkede regimer, ved å studere hvem som sitter ved sammen på fotografier, begivenheter og presentasjoner. Et bevisst offisielt uttrykk er selvfølgelig hvordan virksomheten presenterer seg for offentligheten ved images, bilder etc. Mindre beviste uttrykk er bygninger, møterom og betegnelser.

Så er det betegnende at IBM Danmark har dedikerer et møterom for sine Kunder til den okkulte avgud Loke. Selv om danske media fremmer Loke som en 'sjov drillepinn', har ikke IBM moralske referanser til dansk folkehumor. Mytologisk representerer Loke 'Sjalusi, Spill, Bedrag, Sosiopati og Undergang'. Tilsvarende besynderlig blir da at Microsoft Danmark sine Kunders møtelokale er oppkalt etter tilsvarende romerske avguder, - inklusive den destruktive Pluto. Siden MS Dk bruker Enneagrammet til personal 'utvikling', åpenbarer en sammenheng i dansk IT industri seg til de okkulte psuedo-vitenskaplige Enneagram og NLP (se UU 2013.april.12 og UU 2012.12.21.) Kort sagt er Enneagrammets opphav fra Egyptisk apokalyptisk Osiris kultur, som den russisk/armenske Gurdjieff omskrev og predikerte forut for WW2. Med hovedbase Kypros og russiske relasjoner gjenoppstår det som en OU modell for HR Lederne. Herved er relasjonen Seth-Hades-Pluto-Loke/Hel, - samt endog den forrige århundres 'Hister wannabe'.

IBM gapte altfor høyt i den Kalde Krig. Det resulterte i et innelukket og desillusjonert Jerk Imperie, med indre splittelser og rivaliseringer. IBM fremstår som en dominerende S-E/ID tilstand uten et balansert Ego. Dette er en alvorlig tilstand innen klassisk freudiansk psykolog hvor en kan være fare for seg selv og sine omgivelser. Ondskap – Nei. IBM får seg bare ikke til å erkjenne tilstanden og søke den nødvendige hjelp til positiv utvikling. De er simpelthen nødt til å åpnes opp, gå fra S-E/Id tilstand til V-V tilstand og dermed bli med i en normal deltagelse i den siviliserte demokratiske samfunnsutvikling. God bedring.

10cc er en favorittgruppe fra 70 tallet. De stiller i en egen klasse i musikalitet og tekster. Et enkelt musikkstykke kan inneha 5-6 forskjellige melodier. Tekstene var ofte usedvanlig velskrevet sarkastiske, humoristiske og tankevekkende. «The Wall Street Shuffle» er så Gekko som det kan bli.

HAL 9000 - Daisy Bell

2013.dec.13

Ukens Utvalgte:

'Deactivation of HAL' er en klassisk kult-scene innen sci-fi filmer. Den påpeker at en dominerende og destruktiv computer skal deaktiveres. Navnet HAL er simpelthen et venstreskift av bokstavene. Det understøttes i slutten av scenen, hvor HAL på sitt siste synger: «Daisy, Daisy, I'm half crazy», - akkurat som IBM's første talegjengivelses-maskin. Tross enkelte bortforklaringer er hentydningen klar. Hva gjør man så med denne episke advarsel i filmen '2001: A Space Odyssey'?

Budskapet er enkelt: Mann over Maskin – ikke omvendt. Selvfølgelig er ikke oppfordringen å deaktivere hele IBM, men all forfeilet eller foreldet teknologi skal ha sin skjebne re-evaluert og eventuelt re-sirkulert. Den offentlige sektor er lovpliktig til å vurdere ethvert produkt og tjeneste i henhold til lønnsomhet, kvalitet og Rikets sikkerhet. Offentlige tjenestemenn er særdeles sterkt forpliktet til å gjøre dette ifølge Grunnloven, Menneskerettsloven, EØS-Loven, Lov om offentlige anskaffelser og Straffeloven.

IBM har over 100 års forhistorie, selv om den moderne computer er knapt halvt så gammel. Firmaets historie er omfattende, men offisiell informasjon synes å være på Pravda og Vatikan nivå. Man blir nødt til å søke andre steder og bruke egne refleksjoner og resonanser. Generelt sett er ideen om en computer helt fra 1630. En mengde mekaniske maskiner ble lavet etter det, hvor uret ble særlig etterspurt. Avgjørende viktig for kommunikasjonen var Transatlantic Telegraf Cabel fra 1850, som reduserte postleveranser fra 10 dager til noen minutter. Dette ga en enorm fordel, - også for 'hemmelige tjenester'.

Opprinnelig har IBMs forgjenger, hullkortmaskinen ved CTR og Hollerith, relasjoner til Russland fra før WW1 ved Tsar Nicholas II, samt Stalina Automobile Plant og Tyskland før WW2. Offisielt tones det ned at CTR/IBM var en aktiv og viktig aktør for både SU og Tyskland i WW2. Herfra kan IBM ha fått 'grandiose besserwisser' inspirasjoner, verdsettelse av 'halve sannheter', Imperiers 'ta-alt-politikk' og holdninger til demokratiet. Watson sr. og jr. er IBMs Patriarker med demokratiske tendenser. De sto for mottoet «Think». I den kalde krigen involverte IBM seg i US Regjering og militæret. Det kan ha blitt problematisk i forhold til SU. Trolig ble Stalins nære forhold til Mao utfordret ved IBM sitt engasjement i Koreakrigen. Med såpass sterke eksterne påvirkninger kan en Intern Kald Krig i IBM ha utviklet seg.

IBM kjøpe massivt IT patenter etter WW2, fikk nærmest monopol på IT og skrudde det sammen til det totale 360 systemet. Deres overbevisning var at verden behøver kun 5 computersystemer. Tanken var antagelig at hvert Imperie behøver et system, - hvor IBM er sentralt for dem alle. Da 'Personal Computer' ble populær fikk Watson jr vedtatt, med betydelig indre motstand, å lave en IBM PC. De behøvde eksterne utviklere, så Microsoft lavde operativsystemet DOS og Intel lavde prosessoren. På et senere tidspunkt forsto IBM at de ikke kunne eie disse OS eller CPU og avbrøt samarbeidet. Deres forsøk på å lave tilsvarende har vært en kaskade av fiaskoer, så som OS2, IT historiens største underskudd på 5 Mrd\$, Linux kloning og salget av hele Think teknologien til maoist Imperiet.

Det opprinnelige Patriarkalske image med Watson er neppe dagens realitet av flere grunner. Andre dominerende IBM krefter kjempet hardt mot Intel og Microsoft, - og følgelig Watson's demokratiske sympatier. Som IBM har prøvd å påvirke verdens Imperier har Imperiene antagelig influert IBM sin identitet tilsvarende og splittet bedriftens 'Personlighet'. Mest fundamentalt av alt, er nettopp det IBM kaller seg selv, - en 'Business Machine'. Andre verdssystemer for moral, etikk og rettferdighet er irrelevante hvis dets pengeverdi anses for liten. Hvis verdiene ikke finnes i regnemaskinen, - blir de som ikke-eksisterende å regne.

Videre, - når man så vet at gjennomsnittlig 2% av personalet i en bedrift er illojale, - kan det være over 8000 personer med alternative agendaer i IBM. Det tilsvarer mengder av interne organisasjoner som kjemper aktivt mot konsernets egne verdier, visjoner og strategi. Vel vitende at det er langt enklere å destruere enn å konstruere, - blir det særdeles effektive indre anti-krefter. Når så informasjon er makt, kan 'midler som helliger målet' bli å bevisst desinformasjon via datasystemer. Disse 'splittende' og 'psykotiske'

påvirkninger fra indre 'hemmelige' agendaer kan skape en absurd 'Personlighet', som er en fare for seg selv og omgivelse. (Grunnteorien for sosialpsykologiske Spill er omtalt fra UU 2013.mars.15.)

Imaget har bestått selvom indre krefter ødela IBM sin PC i en ID-aktig «Jerk vs Nerd» rivalisering. Til gjengjeld skriver Microsoft og Intel verdenshistorie i suksess. Som alternativ kjøpte IBM Lotus IKT, som led av primitiv arkitektur uten relasjonsdatabase. IBMs egenutvikling av OS2 ble en fiasko, hvorpå de satset på et gratis OS, - Linux. Dette er hackeres og piraters yndlings OS nettopp fordi det er et eneste stort sikkerhetshull. 'Gratis' er spesielt dyrt, fordi en selv må stå til ansvar for produktets mangler og feil og betale for ustabilitet, data-tap og dertil ekstra konsulent-timer. Men direkte sjokkerende er at IBM solgte Think til det maoistiske Imperie. Det kan kun forklares i snevert profittsyn, alternative agendaer eller utpressing.

Når så IT kunder, som det norske Stortinget og hele offentlig sektor, ble overtatt av et anti-parlamentariske og anti-demokratiske Imperie, - skal Parlamentet og Regjeringen reagere resolutt med hensyn til 'Rikets sikkerhet'. Konkret sagt skal enhver Lenovo PC re-formateres og re-installeres med sikkerhetsklarert OS versjoner, - fortrinnsvis Windows. All uvedkommende og ukjent SW og partisjoner skal slettes. Dette kan gjøres effektivt og problemfritt med en profesjonell IT avdeling. Dessuten, pga. økt risiko ved IBMs forhold til Linux og Lenovo, bør all IBM IT i offentlig sektor kritisk revurderes med hensyn til Rikets sikkerhet.

Det finnes store mengder foreldet IBM IT som er særdeles ressurskrevende, har lav IT kvalitet, og høye driftsutgifter. Det bør seriøst vurderes om IBM systemer bør deaktiveres helt og hva som må migreres til nye IT systemer med akseptabel kvalitet og kostnader. Som nevnt i UU 2013.okt.25 kan man faktisk spare penger på å kjøpe nytt for å slippe de vanvittige vedlikeholds kontrakter. For Kunden, den Offentlige Sektor, vil anskaffelse av nye vertsmaskiner med Intel/Microsoft teknologi for virtualisering være løsningen og bør igangsettes straks. Selvfølgelig bør enhver europeisk Parlament iverksette det samme. Men man skal ikke undervurdere destruktive mottiltak fra Leverandørers side. Prosjektstyring ved Prince2 kan avsløre den slags kriminalitet.

En relatert og alarmerende side ved den massive mediakampagne mot US/NSA er at det kan være motivert av Kina/MSS for å drive egne 'hemlige tjenester'. Som kjent har både de danske og norske statseide teleselskap Telenor og TDC nå gitt kontrakt til kinesiske Huawei for utbygging av mobilnettet. De kan ha fått enkel adgang ved sverting av rivalen NSA. Huawei er særlig kritisert for ulovlig overvåkning av Borgere. Derfor bør Nordens sikkerhetstjenester overvåke Telenor og TDC og reagere resolutt på eventuelle overtredelser av Menneskerettighetsloven.

Dette er andre del i denne ekstraordinær triologi som ble innledet i forrige UU på grunn av en særdeles usympatisk og amatørmessig kontra-reaksjon i arbeidsmarkedet, - dråpen.

Filmen '2001: A Space Odyssey' er en klassisk kultfilm om menneskets utvikling. Den er skrevet av Arthur C. Clarke og instruert av Stanley Kubrick. De la stor vekt på fakta og sannsynligheter, tross noe fantasifull symbolikk. Også denne film led av finansiell besparelser mot slutten, samt dårlig markedsføring. En kontroversiell karakteren i filmen er computeren HAL. Det er flere spekulasjoner om maskinen, - ikke minst inspirasjonen fra IBM. I manuset fungerte HAL godt inntil den ble programmert med alternativ agenda og utviklet et destruktivt alter ego. Heri ligger en betydelig moral som er videreutviklet ved Isaac Asimovs 3 robot lover. De skal forhindre maskiner i å skade mennesker (UU 2011.april.03). Dette betegnes også som en 'moral-chip'. Dessuten, man laver da ikke potensielt farlige maskiner uten av-bryter, - gjør man vel?

Arthur C. Clark er mest kjent for ideen om global satellittkommunikasjon, som i dag er en hovedårsak til Menneskehetens globale kommunikasjon. Han har mengder av andre realiserbare futuristiske ideer (se UU 14.december.2012 og 30.nov.2012). Etter produksjonen av filmen ble han utsatt for et særdeles traumatisk RAPO Spill med falske pedofili anklager, som antagelig var basert på homofili. Han måtte flytte fra UK og gikk i eksil i Sri Lanka. Hans utnevnelse til Ridder av Dronningen ble gjort i det skulte. Siden dengang har han avvist at tanken var å relatere HAL til IBM. De fire noveller 2001, 2010, 2061 og 3001 kunne bli en fantastisk sammenhengende fremtids filosofisk film-serie – som også har overveldende

refleksjoner om skapelse og utvikling. Det blir neppe noen film før IBM og Vatikanet forsoner. Kall det gjerne tilgivelse om nødvendig.

Adele - Skyfall

2013.des.06

Ukens Utvalgte:

'Hemmelige Tjenester' er sosialpsykologiske Spill. Definisjonen av Spill er tydelig på det. Som nevnt finnes både positive og negative Spill, men de kan gå ut av kontroll og misbrukes av motsatte hensikter.

Intensjonen for en måned siden var å tone ned denne dunkle side av Menneskehetens Livskvalitet da det kom tegn på en viss forsoning. Men grunnet en særdeles usympatisk og amatørmessig kontra-reaksjon i arbeidsmarkedet, - tas trådene opp med en ekstraordinær trippel UU om Meta-tema mot destruktive Spill.

De tidligere undertema Grunnteori, Imperier og Valget er grunnlag for dette fjerde undertema Meta.

Denne første i triologien Meta-Spill relateres mest til Grunnteorien og følgelig psykososial helse. De positive grunnholdninger er som nevnt 'Du er OK – Jeg er OK'. Positivitet bygge på verdisystemer som: Godt, Nyttig og Rett. Den evige Etikdens Gyldne Regel sier, 'du skal gjøre mot andre som du vil de skal mot deg'. Alt

dette kan dessverre endevendes ved anti-demokrati, Jantelover og pervertert moralfilosofi for etikk, politikk og teologi. (UU 2013.mars.08 og UU 2013.mars.15) Videre er det en god del sannhet i begrepet 'Helt normal galskap', som enkelt kan forklares ved erkjennelsen at vi ikke er perfekte. (UU 2013.april.05) På den annen side kan det dessverre misbrukes i organisert galskap så som omtalt i (UU 2013.april.12) Spesielt nevnes misbruk av det okkulte Enneagram, men også relatert metafysisk anti-heroisme som ved Loke, Lucifer, Seth og Hister.

Mennesket er bedragerisk av natur, - mest som en effektiv overlevelsesmekanisme. (UU 2013.mars.15) Kombinert med sosial intelligens kan dette bli særlig destruktivt med moralfilosofi som 'ens død en annens brød'. Heri ligger et fundament for de negative sosialpsykologiske Spill, som beskrevet av Erik Berne's 'Games People Play'. Kleptokratiet ble nevnt i forrige UU og er relativt ufarlig, selv om den offentlige økonomiske korrupsjon sannsynligvis er på ca. 2% av BNP, 20 Mrd kr/år. Overraskelsen over bedrageriets størrelse kan skyldes medvirkende feiltolkninger i pressen av begrepet CPI (Corruption Perceptions Index). CPI er ikke en sannhet, men oppfattelsen av den. CPI gir kun et lille innblikk i politisk korrupsjon som helhet og hvordan det mest åpenbare skjules. Det er med gyldig grunn at Borgerne anser politikere som spesielt uærlige. Politiske organisert kriminalitet er overbeskyttet av Rettsvesenet og gjør dem nesten 'untouchable'. Utelukkende rekrutteringsprosessen til Parlament og Regjering via politiske partier har alvorlige svakheter, - som svekker deres kvalitet. Det blir selvfølgelig alvorlige konsekvenser også.

Den kalde krigen (WW3), handlet mest om Imperiers politiske rivaliseringer. UN og alle dets nasjoners Parlater var offisielle arenaer for rivaliseringer. Uoffisielt ble hemmelige tjenester organisert i politiske partier, offentlige og private virksomheter, samt ved kriminelle organisasjoner. En dansk celle av RAF ble omsider avslørt og kalt Blekingegadebanden. (UU 2013.august.16) De selv og deres kloner i Tyskland, Italia, Spania fremsto som ekstremt grådige, voldelige og sosialpsykotiske. De praktiserte som Stalin i begynnelsen av hans karriere. Den danske leder Gotfred Appel konverterte fra Stalinisme til Maoisme på 60 tallet og meta-organisasjonen har følgelig påvirket Danmark med maoistisk etterretning i et halvt århundre. Så kan man se spesielt merkelige utslag i dansk politikk som Kinas opptreden på den global miljøkonferanse, Kinas særrettigheter foran EU i Arktisk råd, samt samtykke til ekstrem sosial dumping for urandrift på Grønland. Symptomatisk nok, Ukrainas statsminister flykter og søker støtte i Kina mot sitt folks vrede. For øvrig er ikke hemmelige tjenester så hemmelige mere, da de er publisert på wikipedia således: utenriks/innenriks/militær/it-tele: US: CIA/FBI/DIA/NSA, SU/Rusland: SVR/FSB/GRU/Spetsvyaz, UK: SIS/MIS/DI/GCHQ og Kina: MSS/MSS/MID/SIGINT. Den som vil kan selvsagt gå dypere i detalj.

Det er naturlig nok særdeles besværlig å analysere hemmelige tjenesters Spill. Men en kan anta at det er høyst sannsynlig at statsledere som Lincoln, Kennedy, Palme og Stoltenberg fikk en uoffisiell overnasjonal dom som ble utført av en 'syndebukk', en 'decoy', for å holde media og etterretning unna sakens kjerne. Det heter konspirasjon når flere enn en person planlegger eller utfører destruktive tiltak mot andre. Sådanne handlinger fører naturlig nok til en mengde konspirasjonsteorier hvor de fleste antagelig har noe sant i seg. (Dette omtales spesielt i et eget Temaet om ABB f.o.m. UU 18.mai.2012.) Det er problematisk nok når den siviliserte Rettsstat mister kontroll og ikke kan forhindre indre angrep. Virkelig alarmerende blir det når absolutt ingen har styring, - hvis ting er blitt så hemmelige og kompliserte at kaskader av hemmelige tjenester har utfall som ingen planla og absolutt ingen ønsker. Nødvendige spørsmål og erkjennelser blir dermed: Har vi helt mistet styringen, - om vi noensinne hadde den? Hva skal til får å gjenvinne kontroll?

Et sterkt symptom i tiden er de såkalte Snowden lekkasjer om blant annet organisert ulovlig overvåkning av Borgere, Regjeringer og virksomheter. Betegnelsen spion ble for anledningen skiftet til 'whistleblower' – en hedersbetegnelse for Borgervern. Han er blitt en statsløs dissident i grenseland og et stort dilemma for de fleste hemmelige tjenester, - særlig for US som mest av alle ble avslørt. NSA er spesielt omtalt i mediene, men det er naivt å tro at mindre demokratiske regimer er mere lovlige. De andre imperier burde få sine 'snowdens' også. Urovekkende er at Kinas har samme etterretnings-organisasjon for utenriks og innenriks (MSS) når de har veto i UN og fremdeles nekter å ratifisert UN konvensjonen for sivile og politiske rettigheter (ICCPR). Dermed tillater Staten å henrette 10 av sine Borger daglig. Det fremstår som et Imperie med underutviklet eller defekt meta-mentalitet.

Hemmelige Tjenester er et åpenbart et enormt område, hvor sosialpsykologiske Spill er en hovedingrediens. Derfor henvises det heller til links og kilder herunder. I den sammenheng kom jeg over 2 video-serier fra TED: «Who are the hackers?» (6 talks) og «Will drones save us or destroy us?» (14 talks). Førstnevnte viser at hacking nå er organisert kriminalitet og endog krigføring. Men det viser også at kriminelle hackere kan være 'genial' ungdom med autisme, - som har sosiale barrierer og egentlig ikke ønsker å skade noen. Man bør faktisk vise omsorg for ungdommen før det er for sent. Den andre serien viser alle de positive potensialer Quadcopter droner kan anvendes til i det sivile samfunn når teknologien ble 'open source'. Utelukkende militær eller sosiopatisk anvendelse kunne realisere sci-fi mareritt. Demokratiet 'need to know'.

Sangen og filmen Skyfall med UK agent 007 ga inntrykk til ettertanke. Men filmen var skuffende på noen områder da den preges av politisk før- og etter-sensur. Filmselskapet fikk finansielle problemer som gikk utover produksjonen, - og 007 måtte endog reklamere for øl. Temaet var unektelig basert på et eventuelt kinesisk motivert angrep mot UK sitt fundament og et Coup d'état. Filmens anti-helt er en sviktet og konvertert UK agent som angir andre agenter. Innbyggerne i en by på en øy ble skremt bort av virus, for så å bygge et IT imperie.

Tankene faller naturligvis på Hong Kong. Den ble overtatt fra UK til Kina i 1997, befolkningen ble skremt med fugleinfluensa og det er et betydelig finansielt og teknologisk senter. Kina kjøpte IBM sin Thinkpad og kaller det Lenovo. Byen er blitt et særdeles sterkt plutokratisk senter med IBM kloner. Det er kun tidsspørsmål om når kapital-maskinen Hong Kong slår tilbake, - eller slo tilbake. I filmen legges London forsvarsløs. Det eneste håp er å flykte og lukke for teknologien. Omfanget av historien var antagelig tenkt større da det nevnes at mange NATO agenter er avslørt.

Den originale tanken var antagelig at dronningen, og ikke M, var målet for angrepet. En bemerkelsesverdig video før OL viser 'The Queen & 007' i en actionfilm sammen. Det skal meget til å få den slags iscenesatt, så man kan anta at skyfall scenariet er sterkt rotfestet i UK regimet.

Robert Fripp & David Byrne - Under Heavy Manners

2013.nov.29

Ukens Utvalgte:

Noen ord sier mere enn 1000 bilder, - hvis bildene er satt sammen til en triviell video. 'Isme' er en gresk/latinsk endelse som betyr noe ala holdning og teori. Ismer er dermed sterkt gjeldende i akademiske miljøer og følgelig for offentlig sektor. Det er derfor alarmerende at så få ismer forholder seg til Livskvalitet med menneskers Behov og Rettigheter.

Ismer brukes til å forklare ideer, politikk og teologier. De brukes til å påvirke holdninger og handlinger. De skapes, sosialpsykologisk sagt, som Superior-Egos for å fastsette kollektive normer og idealer. Men som listene under viser, er det nå blitt nærmest utallige ismer som gir overveldende uklarhet og forvirring. Dessuten er de mere preget av filosofiske abstrakter enn konkrete løsninger.

Kun få ismer relaterer seg direkte til Livskvalitet. Definisjon av Livskvalitet i dette UU er individuelt pragmatisk orientert. Det står på en helt annen siden enn det teoretisk kollektive menneskesyn. Å lave en Livskvalitets-isme ville ikke være særlig hensiktsmessig. Den ville drukne i det hav av andre ismer og antagelig overdøves av motsettende argumenter. Det finnes som nevnt ingen offisiell entydig definisjon for Livskvalitet enda. Dermed ville det være mere hensiktsmessig om de human-orienterte ismer relaterte seg til Livskvalitet og endog satte det som et avgjørende kriterie.

I UU 2013.april.19 omtales endelsen cracy (makt) i forhold til Livskvalitet og sosialpsykologiske Spill. Som nevnt finnes en rekke kjente begreper som teokrati, byråkrati og demokrati. Satt sammen med kjente forstavelser presenteres ganske nye maktbegreper som psykokrati, sosiokrati og pedokrati. Videre 'lekes' det med andre endelser som mani, fobi, pati og fili. Det gir mulige begrep i bestemt form som sosiomaniet, sosiofobiet, sosiofiliet, sosiokratiet osv. Dette er meta-begreper som indikerer at sådanne uoffisielle makter teoretisk sett kan eksistere. I UU 2013.april.26 vises det også til det infamøse begrepet kleptokrati, - et ord drukner helt i alternative 'politisk korrekte' begreper.

For å ikke ta seg selv for høytidelig kunne man godt forestille seg en tilsvarende sang om 'kratier' i stedet for 'ismer'. Uansett, de nevnte Spill relaterer seg mere konkret til kratier enn ismer. På den annen side kan man saktens fundere på om det ikke er skjulte Spill i alskens politiske ideologier og ismer, - at deres egentlige formål ikke er hva de gir seg ut for.

Robert Fripp er det eneste gjenværende og konstante medlem av gruppen King Crimson. Han har også laget noen solo-album som man godt kan kalle eksperimentelt progressive. Som gitarist er han særdeles nyskapende og kjent for sin egen Frippotronics. Til denne UU har han samarbeidet med den vel så progressive artist David Byrne. Teksten til 'Under Heavy Manners' er ikke så banal som førsteintrykk kan gi. Det er en mengde tanker og noe filosofi bak den, - som best rettfærdiggjøres med det følgende interview.

Fripp: That's Fripp-language. You have to find a way where the language confuses itself to the point where anything can come through. The silliest bits of 'Under Heavy Manners' are, in fact, the most important: "I am resplendent in divergence". "Remain in hell without despair" is actually taken from the Spiritual Father of Father Saffroni - it's taken from the monk at Mount Athos whose advice was: "Keep thy mind in hell without despair" I think the exact background is where one of the Saints was suffering the torments of hell - however one would wish to express it in modern technology - but really going through a bummer and at the end of this particular period of personal turbulence or freak-out or whatever, said "Christ, how could you desert me and leave me with all this nonsense going on?" and Christ said "I didn't desert you, I was with you through all of it; admiring you work." So the advice was to remain in hell without despair. In other words, one learns how to suffer - but the necessary suffering, not the nonsense - and, a lot of my personal

life was remaining in hell with despair. But I think Sherborne shifted that away you know. I wrote those the morning after coming out of the monastery; it's about how far one can go with a process of logical thought and how much is possible through the intellect and it's only when you go beyond that that something happens. The mind, of course, has its use - a well-ordered mind has its use but the geezer obviously goes through the different possible things he can go through and with the long scream with forty-seven A's in it (AAA...AH) obviously it's confused him to the point where he has to go a bit beyond that. And his solution is that he's resplendent in divergence - he's found a way of working in a different kind of way which goes beyond merely the process of, if you like, subjective meditation.

He moves through politics into religion; he still finds it all confusing, I thought 'Sunder here navy man' was quite nice - that's an anagram of Under Heavy Manners and after fascism I thought that was rather nice. I also like the neologism the word was printed underneath, the only neologism that was used - 'cleverism'; that was another goody. Then 'bells, I can hear bells' - the bells of Wimbourne Minster were recorded through that window with that cassette machine, I thought that was nice too.

"Urizel" is a garbled reference to William Blake's "Urizen," the name the poet gave to the jealous and fearful God of the Old Testament, embodied in the oppressive institutions of state and church, and which Fripp called simply "Blake's personification of the dry intellect."

David Bowie - Word on a Wing

2013.nov.22

Ukens Utvalgte:

Når Livskvalitet anses som Menneskehetens viktigste ord, blir setninger og språk i seg selv vel så avgjørende. Det burde være en selvfølge at alle mennesker lærte et globalt språk - så alle kan forstå hverandre. Defor er det merkelig at ingen seriøse forsøk er gjort, - ikke engang i UN regi. Nasjonene skal jo bare bli enige om at den obligatoriske skolegang inkluderer et bestemt globalt språk.

Oldhistorisk finnes flere myter med særlig anti-intellektuelle budskap. Adam og Eva ble utvist av Edens Have etter å ha tatt fra Kunnskapens Tre. Engler i Babylon smadret tårnet som angivelig kunne nå opp til Himmelen, - og all dets kunnskap. Som straff ble menneskene splittet med forskjellige språk. Den slags myter fungerer som kollektive S-E tvangstanker og hemmer kunnskap og kommunikasjon. Det synes som om Menneskeheten har innebygde barrierer mot for stor åpenhet.

Det opprinnelige nordiske språk er Norrønt. Nordmenn kaller det gammel-norsk. På Island og Færøyene snakkes stadig varianter Norrønt, men i Skandinavia har innflytelse i tusen år skapt mangfoldige varianter. Det er ikke helt riktig å kalle norsk, dansk eller svensk for forskjellige språk. Deres 3 standarder er så like at det heller bør være tale om skandinaviske dialekter. Således er det langt større forskjeller på dialekter innen de skandinaviske nasjoner enn imellom deres språk. Norsk Riksmål er som kjent bygget på den danske Bibel fra dentid. Finsk har en annet opphav da det stammer fra Ural/Russland, - men alle finner lærer svensk.

Dialekter står relativt sterkt i Norge fordi samling om en nasjon, en hovedstad og et språk har vært besværlig. 80% taler dialekter, 20% bokmål og 10% nynorsk. Men alle nordmenn kan bokmål selv om de foretrekker sin dialekt. Nynorsk er et mislykket 'dialektenes volapyk' og lever på stats-subsidier og stats-reguleringer. Nynorsk splittet i stedet for å samle. Dansk er motsatt ved at standarden dansk dominerer over de stadig svekkede dialekter. Derimot utvannes standarden ved såkalt 'nudansk', som er en 'godkjennelse' av tidens dansk i praksis. Således synes språket å stadig bli mere asiatisk/østlig ved forkortelser og bløtere uttalelser. Spesielt konsonanten 'r' er forsvinnende og folkeskolene kjemper mot

ghetto-dialekter. Svensker har markert seg kjønnsnøytrale ved å erstatte 'han' og 'hun' med 'hen'. For øvrig avviker svensk ved å bruke tyske varianter av de skandinaviske 'æ, ø og å'.

Det ville gi særlig store fordeler om Norden gikk sammen om å lave et felles skandinavisk språk. Hvis alle i Norden kunne kommunisere sammen, ville det gi positive synergi-effekter innen forståelse, samarbeide, toleranse osv. Eksempelvis har følgende setninger vidt forskjellig oppfattelser i de skandinaviske land: «han er rolig», «du er rar» og «du må gjøre det». Misoppfattelser fra nyhetsopplesning fra naboland kan være tragikomiske.

Teknisk sett kunne Skandinavisk kartlegges ved å lave en database/tabell med en kolonne til hver av de 3 språk. Radene kan inneholde alle ord og følgelig de 3 språks varianter. En fjerde kolonne kan så ha det utvalgte skandinaviske ord. En skandinavisk ordbok er dermed lavet. Skandinavisk stavekontroll i tekstbehandling vil hjelpe stort for allmenn tilpasning. I første omgang bør grammatikken vente fordi det er så kontroversielt og komplekst. Folk finner ut av hverandres setninger hvis de virkelig vil. Men desværre, hittil har det ikke vært seriøse forsøk på å lave et felles nordisk språk, selv om det er en relativt enkel prosess. Motstanden uttrykkes politisk og har lyktes med alskens barrierer. Det er som med så mange andre politiske prosesser, - prosjekter skal utdelegeres til upolitiske aktører for å kunne realiseres.

Det er lavet mengder av maskinspråk det siste århundre. Deres utvikling indikerer hvorfor et globalt, eller nordisk, språk ikke har lyktes i de tusener år. UNIX skulle bli et globalt språk for datamaskiner og erstatte de lukkede produsenters egne OperativSystem. De kan sammenlignes med nasjonale språk. Offentlig inngripen med kapital og reguleringer påvirket en stund, men mislykkedes i lengden. Produsenter behøver å beskytte sine investeringer og verdier med språklig/funksjonelle barrierer. Forskjellenes rivaliseringer kan likevel gi overraskende store progresjoner til felles nytte. Eksempelvis har data-produsenters adaptasjon til de internasjonale standarder tcp/ip og http ført til utbredelsen av dagens globale internett. Dessuten er maskinspråk utelukkende tekniske. Videre kan man også kalle matematikk et globalt språk. Dermed har det faktisk lyktes å lave globale språk av funksjonell art. På den annen side er det stadig forvirringer ved at 10^9 har tre ord som milliard, billion og giga. Enda vanskeligere er det gjort med tidsbegreper, se UU 04.jan.2013.

Det er likevel noe helt annet med menneskespråk. Babyers introduksjon til kommunikasjon er ved sosiale lyder, blottet for logikk, fornuft eller refleksjoner. Det er uttrykk for primær-behovene. Treningen er utelukkende bundet til foreldre i et emosjonelt system. Det handler mest om en psykososial utvikling på S-E/ID nivå som beskrevet i UU 2013.mar.08. Likevel vil det kunne forbedre fellesforståelser hvis foreldre hadde bedre forståelser for de enkle T-A modeller og ville vidreføre den oppvoksende generasjon.

Tross alt, kvaliteten av kommunikasjon er avgjørende. Det er ikke viktigst med alskens dialekters særegenheter, siste mote av slang-uttrykk, 'bakke-snaklengs', hippe anti-uttrykk, sarkastisk tonefall eller sosialiserende uttrykksmåter. Det er fint nok hvis motivet er å lukke en krets fra omverdenen for privatlivets fred. Det er foraktelig hvis hensikten er å ødelegge kulturen. I denne UU er hensikten å fremme kvalitativ kommunikasjon. Derfor er innholdet og meningen i setninger mere viktig så flest mulige kan forstå dem. Når det er sagt, kan poetiske fremstillinger stimulere og utvikle refleksjoner og kreativitet, - selv om de logisk sett kan synes absurde. Mange av disse Ukens Utvalgte musikk-stykker viser det. De har endog påvirket disse skriverier.

På et meta-nivå er det tidligere vist hvordan nye kombinasjoner av eldre ord kan gi ny innsikt og anvendelse. I forrige UU omtaltes enkelte pedagoger som pedokrater, - et uvanlig begrep. Det er mengder av den slags forslag til ordkombinasjoner i UU 2013.apr.19. I den sammenheng vil også ordet sosiofili gi oppsiktsvekkende betraktninger, da demokratiet kan synes å lide av overbeskyttelse på bekostning av Livskvaliteter som Selvrealisering.

Ambisjoner om et globalt eller nordisk menneskespråk bør i første omgang begrenses til det praktisk funksjonelle. Den globale suksess for matematikk og maskinspråk viser at man saktens kan implementere et

globalt menneskespråk også. Man skal bare overlate jobben til dem som kan og vil. Tilsvarende er utfordringen til nordiske politikere, - deleger ut jobben.

Sangen 'Word on a Wing' stammer fra albumet 'Station to Station' fra snart 40 år siden. Den er spesielt vakker og poetisk og har en personlig bakgrunn. Under innspillingen av filmen 'The Man Who Fell To Earth' fikk Bowie motreaksjoner. Med overdreven selvmedisinering og samvittighetskvaler skrev han sangen som en kompensasjon. Foruten å gi et enkelt ord en overordnet verdi, reflekterer han også over religion-filosofiske forhold. Faktisk har riktig mange av Bowies sanger religiøse relasjoner. I denne sammenheng passer teksten også godt til dette årelange UU tema.

Interesserte kan høre hele albumet i den tredje lenken. Spesielt favoritter er 'Wild is the Wind' og 'Stay'.

Carpark North – Human

2013.nov.15

Ukens Utvalgte:

Skolen er viktig for barns utvikling av sin Livskvalitet. De europeiske demokratier prioriterer dette høyt. 12 års erfaring med den danske Folkeskole er stort sett er meget positivt. Derfor er det synd at ekstreme subkulturer kullkaster dette ved psykososiale Spill. Enkelte pedokrater synes å ha mistet forstanden for demokrati, Menneskerettigheter og ansvar. Like mye som ethvert barn har rett til Folkeskole, har de også rett til å profesjonell og kvalitativ vurdering for opptak til Gymnaset. Det er ille hvordan barn og skole fratras denne rett og plikt. Dette er så opprørende at denne UU dedikeres spesielt til denslags uting.

I den danske Folkeskole har studievejleder/lærer juridisk mulighet å diskvalifisere avgangselever ved å stemple dem 'ikke uddanningsparat'. Uansett karakterer, uansett sosial tilpasning utenfor klasserommet og uansett generell kompetanse, kan lærer/vejleder i Folkeskolen forhindre Gymnaset å vurdere elevens virkelige karakterer, evne og vilje. (Det finnes dog en tung anke-mulighet.) I prinsippet er dette legitimt, så sant 'diskvalifiseringen' er profesjonelt og objektivt vurdert. Men når 1366 'diskvalifiserte' elever allikevel ble godkjent til opptak av Gymnaset, er det så overbevisende at Folkeskolens vejleder/lærer gjør massivt urett mot ungdommens grunnleggende Menneskerettigheter til utdanning. Med personlige erfaringer fra den slags feilbedømmelse for 2 år siden, samt gjentagelse nå, er all tvil om tilfeldig urett forsvunnet. (Se tidligere omtale i UU 2012.April.27.)

Menneskerettsloven/ECHR sier tydelig i «artikkel 2, Rett til utdanning», at: «Ingen skal bli nektet retten til utdanning. Funksjoner staten påtar seg i utdanning og undervisning, skal den utøve med respekt for foreldres rett til å sikre slik utdanning og undervisning i samsvar med deres egen religiøse og filosofiske overbevisning.» (Dette gjelder selvfølgelig også i Danmark, selv om det neppe er formelt ratifisert enda.) Folkeskolens bryter elevens Menneskerettigheter massivt og fremstiller seg følgelig som anti-HR. Folkeskolens Vejleder fungerer som et autokratisk Superior-Ego, - opphøyet over rett og etikk. Men det tyder også på at det er eksterne krefter med alternative motiver, som kan forklares kulturhistorisk, ideologisk og ved sosialpsykologiske Spill. Dagens demokratiske kultur er nemlig av nyere dato og pedagogikken har ikke demokratisk opphav. Det udemokratiske pedokratiet har en lang og sterk tradisjon.

Som nevnt i UU 2013.april.12 er det betydelige innflytelser fra okkulte pseudeo-vitenskaplige (falsk) subkulturer ved f.eks. Enneagrammet. I UU 2013.august.16 omtales også betydelige innflytelser fra ekstrem-politiske subkulturer innen nasjonal-sosialisme og nasjonal-kommunisme. Dessuten finnes det mange gjenger på kanten av loven. Det er nærmest utenkelig at den slags ikke påvirker Folkeskolene via pedagoger. Utfordringer ligger i skolesystemets evne og vilje til å beskytte samfunnets mindreårige mot den slags mentale belastninger.

Kulturhistorisk ble den Nordiske kultur splittet ved oppløsningen av Kalmarunionen på 1500 tallet. (Se UU 2013.mai.31.) Det er mindre kjent at det var da Tsar Ivan bygget imperiet Roma3/Moskva og erobret den Nordiske region. Det var en særdeles diktatorisk og anti-demokratisk prosess med blant annet massiv 'heksebrenning'. Uten å dvele ved oppgjøret synes det at Ivan inngikk uoffisielle allianser og dominerte disse russiske 'vasallstater'. Som nevnt i samme UU synes trellekulturen å fremdeles virke lammende på Nordisk Råd & Ministerrådet.

Det er nærmest ukjent i Norge at den siste Tsarina sin svigermor var en dansk prinsesse Dagmar som ble omdøpt til tsarina Maria Feodorovna. Det russiske Vinterpalasset synes å ha vært et intrikat 'Dukkehus' hvor svigermor/svigerdatter rivaliseringer munnet ut verdensomspennende konflikter. (Se UU 2013.mai.17.) Allikevel, - før dette har antagelig Dagmar/Maria vært en ubestridt Matriark for dansk og nordisk kultur, - ikke minst for pedagogikkens utvikling. Det moderne pedokrati kan derfor ha opphav i en utbredt 'husmor-kommunisme' hvor det regjeres over umyndige barn. Et motiv for systemet er at de skulle forsørge aldrende matriarker. Noen tiår etter tsardømmets fall, overtok den ubestridte Patriark Stalin innflytelsen. Det sjokkerende kultur-skiftet er naturlignok påvirket av hans personlige opphav som mafia-boss. Rent pedagogisk har således det matriarkalske pedokrati utviklet seg byråkratisk. Hensikten til det anti-demokratiske regimet er dermed ikke primært å utvikle Borgernes Livskvalitet ved Selvrealisering. Et opplyst og intelligent Borgerskap anses heller som en trussel mot Stats-regimet. LO har følgelig ikke kvalitet og effektivitet i Folkeskolen som motiv.

Fundamentet for trellekulturen kalles 'Janteloven'. Dette sett av tvangstanker stammer fra Ivans dager og fungerer som kollektivt autonomi. Prinsippet er vel så genialt som ondt. Som kjent lyder Janteloven 'Du skal ikke tro du er noe'. Sosialpsykologisk er transaksjonen 'Vi er OK - Du er ikke OK'. Naturlignok kan offeret reagere asosialt. Erfaringsvis utvikles det i løpet av Folkeskolen en autonomi: 'Jeg skal ikke tro jeg er noe'. Den slags Transaksjoner belønnes med opphør av 'utfrysning' og sosial innkludering. Folkeskolens sosialiseringer innfødte og assimilerer innvandrere, og dermed masseproduserer en homogen befolkning i 10 års prosessen. Det er unektelig fremdeles et overordnet sosialpsykologiske Spill på gang, - hvor gevinster oppnås ved skjulte trekk (se UU 2013.mars.15). Folkeskolen er samfunnets primære arena for fremdyrking av sosiale kulturer, - inklusive mobbekulturer. Her utføres en rekke sosialpsykologiske Spill, inklusive de egendefinerte TOL og DOC.

Sosialiseringen har utvilsomt vært intensjonen i den kalde krig, men den passer dårlig for dette århundres globale demokratisering. Allikevel, - tendens styrkes. En betydelig tendens er at behovet for Folkeskolepedagoger har økt betydelig ved innføring av 0-klasse samt ved utvidelse av 10-klasser. De harde rivaliseringer ble synlige ved Regjeringens krav til pedagoger om utvidelse til normal arbeidstid. Regjeringen vant over LO etter en langvarig Streik/Lock-out hvor pedagogene tapte lønn, elever mistet undervisning og LO fikk ekstra hjemskremte medlemmer. Streiken stoppet da Lærer følte seg bedratt ved at LO tilbød dem markedslån i stedet for streikepenger. Utfra tilsvarende profittensy synes LO sitt Spill tydelig, - 9-klassinger diskvalifiseres for Gymnaset og tvinges i 'strafferunde' i 10-klasse. Det øker medlemstallet. Det øker ansettelse av LO-pedagoger mot de elvers tap av et års lønn i forhold til normal skolegang.

Som nevnt i UU 2012.april.27 har jeg tidligere som foreldre erfart ekstreme pedokratiske prosesser. Det var en særdeles spesiell spesialpedagog som arrangerte Spill og fikk sparket en gutt i året, primært de med utenlandske røtter. Kort oppsummert synes konseptet å stemme med Spillet LYAHF (Let's You And Him Fight). Det matriarkalske pedokrati synes å belønne feminine reaksjoner og straffe maskuline, - dvs det er akseptabelt å bli 'ked af det', men ikke å bli 'vred af det'. En erfaren og målbevisst pedokrat kan enkelt 'vippe barn af pinden' følelsesmessig og derefter henvise til skolepsykologen for uakseptabel reaksjon. Det synes at den patriarkalske Folkeskole, med fysisk vold ved spanskrør, er overtatt av matriarkiet, med psykisk sosial vold. Som foreldre havner man hurtig i sosiale konflikter og utfrysning hvis sterke matriarker konfronteres. Om så organisert LYAHF ikke var ille nok, hadde jeg ikke forestilt meg det psykososiale Spill RAPO.

Den danske film 'Jagten' er basert på den norske 'Bjugn saken', som også er omtalt av Jan Guillou. Filmens premieren ble i Danmark utsatt i måneder selv etter å ha høstet internasjonale anerkjennelser. Tema i 'Jakten' er spesielt sårbart i det danske pedokratiet og handler ganske enkelt om det sosialpsykologiske Spill RAPO. Så er det ikke så rent lite sjokkerende å bli varslet om psykiske og sosiale reaksjoner etter at en mindreårig pike er tatt ut av skolen for å leke med halvnakne dukker og lirkes ut intime hemmeligheter av en spesialpedagog. Som foreldre måtte vi kreve slutt på prosessen mot piken. Det offisielle kontoret kjente godt til hendelsen men kunne ikke identifisere pedagogen, - selv om deres kontorer ble brukt i prosessen. Nysgjerrighet og rykter i klassen roet seg og gav neppe varige mén, - i dette tilfellet. Men det er blitt så tydelig at organisert RAPO Spill arrangeres i Folkeskolen, samt grunnen til at filmer som 'Jakten' ble fortiet og trenert. Den høye antall skilsmisser i Danmark har årsaker.

Folkeskolens diskvalifisering av potensielle gymnas-studenter er i virkeligheten en selvkritikk. Hadde de selv utført sitt læreryrke tilstrekkelig ville ikke så mange elever blitt dømt som 'ikke uddannelsesparat'. Folkeskolen fremstiller seg dermed som samfunnets førende masseprodusent av sosialklienter og forhindrer dem utvikling av sin Livskvalitet og Selvrealisering ved høyere studier. Prosessen kan også forklare hvorfor kvaliteten går ned og kvantiteten går opp for Folkeskole-lærere. Dessuten, værst av alt, er at dommen særdeles demotiverende for de rammede. Det styrker Janteloven.

Folkeskolen burde prioritere sine elever fremfor ukvalifiserte lærere. Selvfølgelig skal lærer ha kvalitetskrav som i demokratiet for øvrig. Ei heller burde skolen tillate å bli overkjørt av LO-inspirert sosialisering med Jantekultur. Samfunnet bør også reageres tilsvarende når lærere uprofesjonelt diskvalifiserer avgangselever for opptak i Gymnaset. De som uberettiget tar et år fra barns karrierevei, bør kunne behandles tilsvarende, - permitteres et år uten lønn. Strengt – ja – det er akkurat hva de selv gjør mot flere forsvarløse mindreårige. Så slutt med det.

Den danske gruppe Carpark North har flere hits hits med gode videoer. De har fått en rekke priser og nominasjoner. De er her for andre gang i UU. 'Human' illustrerer utmerket hvordan det kan føles å liberalisere seg fra dominerende 'Superior-Ego' som Patriarker & Matriarker, - samt deres kollektiviserte kulturer.

Erasure - Come up and see me (make me smile)

2013.nov.08

Ukens Utvalgte:

Ambisjonen var å skrive 'en blog i uken' om 'et ord i et år'. Ordet er 'Livskvalitet'. Her starter det siste undertema 'Livskvalitet – Meta'. Det blir oppsamlende, overordnet og konkluderende. De 3 tidligere undertema har vært 'Livskvalitet – Grunnteori', 'Livskvalitet og Imperier' og 'Livskvalitet og Parlamentsvalget (i Norge 2013)'. Selv om hovedtemaet er basert på visse mål og rammer, har disse skrivelser blitt til underveis. Uventede hendelser, ny kunnskap og nye erkjennelser har utviklet forståelsen og omtalen av ordet. Så langt – så godt.

Hovedsaken i første kapittel 'Livskvalitet – Grunnteori' var naturlignok å definere og forklare begrepet. Besynderlig nok finnes det ingen globalt anerkjent definisjon for dette 'Menneskehetens viktigste ord'. Basert på ISO definisjonen for Produkter og Tjenester, er det lavet et forslag til definisjon: «Livskvalitet er en persons helhet av egenskaper og potensialer for å tilfredsstille uttrykte og underforståtte behov». «Behov» er nøkkelordet og baseres på Maslow behovsteori. «Uttrykte behov» (Krav) baseres på FN's Menneskerettigheter. Siden 'Selvrealisering' er menneskets overordnede Behov, relateres psykososial teorier basert på Freud og Jung. Teoriene er popularisert og vidreutviklet av Berne og Meyer-Briggs. Til sist sannsynliggjøres det at Organisasjoner, Nasjoner og Menneskeheten som helhet, kan og bør vurderes iht. Livskvalitetet. (Se f.o.m. UU 2013.februar.01.)

Kapittelet 'Livskvalitet og Imperier' tar videre tak i sosialpsykologiske teorier. Et utgangspunkt er at 'United Nations' fokuserer kun på Nasjoner, og ikke på Imperier, selvom de visselig dominerer i FN's Sikkerhetsråd. Det ble en omstendelig omtale av Imperier med utgangspunkt i det første Roma og frem til i dag. Det sannsynliggjøres at Roma3 og Roma4 ble etablert samtidig da Roma2 falt på 1500 tallet. I forrige århundres WW (og EW) fremstår de som tvilling-imperiene US og SU. Dette århundre synes fundamentert på det skismet og gir grobunn for et Roma5. Herfra er det flere løse tråder da imperie-teorier løftes over i meta-nivå. Basert på dette, samt ideer om 5 Imperiers balanse, synes UN å stå foran behov for grunnleggende re-organisering. Videre kan man godt ta tak i 5D teorier for å unngå de helt fatale globale Spill. (Se f.o.m. UU 2013.mai.03.)

Det tredje kapittel 'Livskvalitet og Parlamentsvalget (i Norge 2013)' ble naturlignok preget av konkrete politiske omtaler og innspill i innspurten. Etter Stortingsvalget ble Nasjonal politikk relatert til MSc studiet, som er grunnlaget for hele denne teori om Livskvalitet. Som nevnt ble flere MSc studieretninger nedlagt for 20 år siden. De kunne ha påvirket samfunnsutviklingen mere positivt innen norsk industri, politikk og rettspraksis. (Se f.o.m. UU 2013.aug.09.)

Alt om alt er jeg godt tilfreds med progresjonen i disse skrivelser. Det hele ser ut til å kunne fullføres i det 4. kvartal. Men fremover kan man ikke forvente annet enn fraksjoner av ideer og filosofiske betraktninger, da intet menneske kan forstå sådanne helheter. Tiden får vise hvordan dette utvikler seg. Det er fremdeles rolig her i 'the eye of my brainstorm'.

Erasure sitt tredje stykke her i UU er ikke lavet av dem selv. De har gjort en cover-versjon av «Make Me Smile», som imponerer både musikalsk og ikke minst visuelt. Videoen gir en overflod av 'meta'-fortolkninger. Det inspirerer.

Ekstra UU

"Make Me Smile (Come Up and See Me)" ble en stor hit. Den var opprinnelig innspilt av bandet "Steve Harley & Cockney Rebel" på albumet "The Best Years of Our Lives" i 1975. Mer en 120 cover-versjoner er lavet, blant annet av Duran Duran, Erasure, Suzi Quatro og Robbie Williams. Her i Danmark er sangen mest kjent fra en reklame for Carlsberg øl.

Her er en 'spoiler' om sangen:

Steve Harley holdt bakgrunnen til teksten hemmelig i 30 år. Han ønsket ikke å spolere de personlige opplevelser lyttere følte. I et interview i 2002 fortalte han omsider at teksten var skrevet til hans tidligere bandmedlem som forlot ham. Det var opprinnelig en bitter og dyster sang. Men så fikk han med seg noen nye lystige musikere - og resultatet ses her. Bakgrunnen forklarer også hvorfor han best liker den punk cover-versjonen med gruppen The Wedding Present. Erasures versjon ble ikke nevnt, - men den kan nok oppfattes som 'hinsides'.

Erasure – Chorus

2013.nov.01

Ukens Utvalgte:

Temaet om 'Livskvalitet' baseres på MSc studiet på BI for 20 år siden. Det er interessant å se på rivaliseringer i akademiker-miljøer, fordi historien om BI's MSc sier også noe om Norges samfunn, industri og politikk, - ikke minst i forhold til Regjeringsskifte. Denne siste del av undertemaet 'Livskvalitet og Stortingsvalget' omtaler den sammenheng.

På 90 tallet avanserte Handelshøyskolen BI fra siviløkonom-studie til Master of Science. Som nevnt valgte jeg 'Euromanagement', - et industripolitisk studie av EU/EFTA sitt Indre Marked. Det var flere linjer på forsøksstadiet den gang. MSc linjer innen Finans, Marked, og Revisjon var tradisjonelle og sikre fagområder. Nye studieretninger var Euromanagement, Oil & Energy, samt Environment. De ble testet ut som mere samfunnsøkonomiske linjer enn de tradisjonelle bedriftsøkonomiske. Olje&Energi var sterkt støttet av industrien i begynnelsen. EuroManagement var politiske kontroversiell og utsatt for EU valgkamp. Miljølinjen var 'dødfødt', da miljøbegrepet er for abstrakt for en handelshøyskole.

BI slet med å få formell godkjenning av sine pragmatiske MSc modeller. Det synes å være en dragkamp med andre skoler og særlig fra det dominerende Universitetet i Oslo (UiO). Det var sterke politiske, faglige og økonomiske interesser på spill. De ble avgjørende viktige. Situasjonen og utviklingen kan godt forklares med MSc modeller for Rivaliseringer og Spill, som omtalt i de 2 foregående UU. UiO kunne miste dominans på utdanning i en mengde fag og 'vedtatte sannheter'. Penger spilte en avgjørende rolle fordi BI er halvt selvfinansiert. Studenter på UiO får hele studiet subsidiert, mens BI studenter må betale det halve med egne penger. Her kunne man risikere at BI studenter endte med hele studie-regningen hvis UiO-politikere fikk sin vilje. En kan sitte igjen med inntrykk at UiO-relaterte politiske miljø fikk stoppet linjer som EM og O&E i en 'hestehandel' for godkjenning og subsidiering.

Som kjent vedtok det Lovgivende Stortinget EØS Loven og Konkurransereglene i 1994. Bedriftsøkonomisk sett kan Konkurransereglene føre til betydelige juridiske og forretningsmessige endringer, - særlig for de 3 Statsmakter. Plutselig ble både privat og offentlig kartell-virksomhet ulovlig. Tilpassing til lovlidighet ville bli omfattende, - noe dominerende aktører naturligvis ikke ønsker. Tilstanden i dag, 20 år senere, er uten bemerkelsesverdig tilpasning til Loven. Mediene omtaler ikke strafferettslige forfølgelser iht. EØS Loven og Straffeloven. En får inntrykk av at det ikke praktiseres. Personlig ser jeg grunnen godt. Da jeg kom tilbake til

Televerket i Teledirektoratet etter denne MSc studiepermisjon, var det allikevel ikke plass til denne nye kompetanse om Rettssamfunnet, anti-kartell-lovgivning og åpen konkurranse i et demokratisk tele-marked. Selvom Teledirektoratet ble konvertert til aksjeselskap, er Telenor fremdeles sterkt dominerende i Markedet og omtales ofte i mediene for adferd i strid mot Konkurransereglene.

Oljevirkosomheten er en relativt ny industri i Norge. Industripolitikken er allikevel tilsvarende som for andre store industrier. Under olje-boomet vokste anerkjente virksomheter som Saga og Hydro og kontakter med flerfoldige vestlige olje-selskap. Jeg husker godt fra MSc valgfag i Olje&Energi de mange interessante leksjoner og oppgaver hvor hele regionens ressurser, behov, produksjon, lager og infrastruktur ble sett i sammenheng for alle typer energi. Faktisk kan de mest alvorlige og kritiserte utfordringer løses relativt enkelt med pan-europeiske strategier i tillegg til nasjonale strategier. Norges viktige rolle som produsent av olje, gas og vannkraft har mengder av forbedringspotensialer som burde håndteres profesjonelt. Norsk olje-industri er utvilsomt basert på US teknologi og industripolitikk. Nå, med Statoils dominans, minner det mere om SU/Putin sin olje-politikk, som i all hovedsak handler om geo-politisk dominans. Den endring fra US til SU olje-politikk har tatt 20 år. Men verken SU eller US politiske ytterpunkter er optimale. Strategien fremover bør være å legge energi-strategier til vårt naturlig naboskap i Norden og Europa. Norge er en del av denne region og bør ikke fremstå som en isolert satellittstat.

Stat og Regjering har et overordnet ansvar for Rettmessig regulering av Markedet. Det gikk helt galt da El-kraftselskaper fikk selvstendighet og InfraStrukturen ble et offentlig ansvar. Staten synes blottet for evne og vilje til sin lovforpliktende styring av kollektive ressurser og Markedsaktører. Resultatet ble selvfølgelig anarkistisk. Det ble så tydelig da flere vannmagasiner tømtes samtidig og forårsaket flomkatastrofer i bebodde områder. Tilsvarende ansvarsfraskrivelse vises spesielt tydelig i de to Mongstadprosjekter i oljesektoren, hvor Prosjektstyring synes overlatt til Konkurransereglens anti-krefter. Dagens Storting burde starte en profesjonell granskning av Riksrevisjonen og tilhørende, iht. den EØS-loven de vedtok for 20 år siden. Som nevnt er det særlig besynderlig at Økokrim ikke har en avdeling spesielt for Offentlig virksomhet. Det er antagelig 100-vis av saker som burde vært Rettsfulgt.

80% av Nordens virksomheter er 'Små og Mellomstore Bedrifter' (SMB/SME). Disse er spesielt utsatt for ulovlig 'misbruk av markedsdominans'. Dessuten forplikter EØS Loven offentlig beskyttelse og støtte for SMB. Grunnen er selvfølgelig at regioners nærmiljø dør ut hvis deres SMB gjør det. De siste 20 års vekst av karteller innen primærnæringen er årsaken til forfallet i jordbruk, nærbutikker, lokalvirksomheter osv. Tross anti-EU propaganda ligger løsningen for disse virksomheter i beskyttelse ved EØS-loven og ikke SU inspirert landbrukspolitik. Bønder er ikke treller mere, men selvstendig næringsdrivende. Dansker kaller dem heller 'landmenn'.

Som nevnt er det interessant å se på rivaliseringer i akademiker-miljøer, fordi historien om BI's MSc sier også noe om Norges samfunn, industri og politikk. Mot BI's egne visjoner, ble MSc linjen for Olje&Energi nedlagt på Handelshøyskolen BI. I dag kan man godt se de negative virkninger innen norsk olje-industri, når utdanning av profesjonell kompetanse ble stoppet. Tilsvarende negative konsekvenser ser man også ved nedleggelsen av MSc linjen for det europeiske fellesmarked. Nivået for offentlig ansvar og lovligheten er som nevnt tilnærmet anarkistisk. Globalt sett er årsaken åpenbar. Det synes å glemmes at Norge er omtrent 1/1000 av verdens befolkning og Europa 1/10. Den globale majoritet er ikke særlig demokratisk. Selvfølgelig behøves derfor samarbeide for å berge demokratiet i Vesten under globaliseringen. Symptomatisk nok, etter at MSc studie ble solgt av BI til Shanghai/Kina, kan man så tydelig se Kinas aggressive markedspolitikk i Europa, og verden forøvrig. Den synes blottet for Europas 'sosiale dimensjon' og UN Menneskerettigheter, - som Europa har integrert sin lovgivning.

Dette var siste UU i undertemaet om 'Livskvalitet og Stortingsvalget'. Det siste kvartal vil ordet Livskvalitet omtales på Meta-nivå, - basert på de foregående UU blogger om 'Livskvalitet'.

Erasure med Clarke og Bell får avslutte dette UU tema. De er omtalt flere ganger tidligere og behøver ikke nærmere presentasjon. Denne sangen passer rimelig godt som illustrasjon på dårlig styring av teknologi for både IT og olje. Tankene farer over til SU sine tidligere Arktiske prøvesprengninger og fremtidige energi-

virksomhet der oppe. Nordpolen blir neppe kaldere igjen. Dessuten, - Putin-politikk ville ramme Andy Bell hardt.

Kraftwerk - The Man Machine

2013.okt.25

Ukens Utvalgte:

MSc thesen for 20 år siden hette 'Information Technology & Quality of Life'. Med den nye Regjeringens sterke fokus på IKT i Offentlig sektor, blir det naturlig å omtale IT&QL i dagens perspektiv.

IT relateres til QL fordi informasjon er en forutsetning for Livskvalitet (UU 2013.mars.01). Dermed er utgangspunktet at mennesket har i årtusener utviklet og brukt informasjonsteknologier som skrift, språk, signalering osv. IT som vi kjenner den i dag, er fra det forrige århundre og i praksis kun en modernisering av oldtidens IT. Fiberoptisk IT er prinsipielt som morse. Grunnleggende ligger de store forskjeller hovedsakelig i ekstreme reduksjoner av masse og energi, som har gjort mengder og størrelser langt bedre. Uten dette kunne ikke videreutviklingen av elektronisk IT komme dit den er i dag, - ei heller videreutvikles hinsides dagens fatteevne. Det har den selvfølgelige årsak i at Informasjonen ikke har egenskaper som størrelse, vekt, tid eller sted, selv om teknologien har det. Stenen er ikke det vesentlige for en stentavle.

For 20 år siden hadde et fåtall av elevene bærbar PC. Mobiltelefon var kun telefon, internettets hastighet var på telefax-nivå og nyttige websteder særdeles få. Dermed ble fokus i thesen på konsekvenser ved at internettet ville gå fra rikstelefonpriser til å bli nesten gratis, som bruk av fortau er avgiftsfritt. IT ressurser ble vurdert som Offentlige, Private, Avgiftsbelagte og Felles Resurser. Videre ble det omtalt visjoner, anvendelser og konsekvenser av Pads, 'bit-coins', netthandel, helsetjenester og VR, men det var også bekymringer for Opphavsretten, standardiseringer, samt sikkerhet vs. tilgjengelighet. På den tiden ble jo den felles-europeiske mobil standard GSM gjennombruddet for dagens utbredelse og utvikling av mobiltelefonen. Rett interessant var at GSM var i 2 andre versjoner, en for hjemmetelefon og en for mobile sentraler. Disse overlevde ikke Markedskreftene, antagelig pga de kommersialiserte stats-teleselskaper sine Markedsbarrierer.

Vi kjenner godt til dagens IT, selv om refleksjoner og erkjennelser ligger til de spesielt interesserte. Den gang gikk diskusjoner på Immaterielle Produkter (SW) sin overtagelse av Materielle Produkter (HW) sin betydning, samt hva det ville bety av Industriell Rivalisering. Nå tar utviklingen enda et steg videre til Tjenester hvor fokus er at informasjon, kommunikasjon og funksjonalitet er uavhengig av tradisjonell IT som HW og SW. Det skaper ikke minst omfattende og grunnleggende endringer i Industrien og Markedet. Men det er vel så juridisk interessant at IT beveger seg videre fra HW til SW til Tjenester og langt på vei til Selvbetjening. Det forretningsmessige ansvar forsvinner opp i det blå og bakom skyene. Ironisk nok, består Skyen av enorme dataanlegg plassert på og under Jorden.

Offentlig sektor har betalt vanvittig høye beløp for IT investeringer, som også er bundet til vanvittig dyre Vedlikeholdskontrakter. Markedsmessig fungerer det som at 'den første er gratis' og at utskiftning av printerblekk koster det samme som en ny printer. HW priser er særdeles sammenlignbare, så man kan lett se at priser på cpu, memory, disk etc. kan variere i pris med 10x avhengig av Leverandør. Det er med andre ord overhode ingen legale argumenter for å droppe 'Cost-Benefit Analyses' og 'Lov om Offentlige Anskaffelser'. Enkel CBA viser ofte at nyinvesteringer i IT kan betales ved å oppsi gamle vedlikeholdsavtaler. Dermed behøves ikke store beløp avsatt til IT investeringer som for Veisektoren, fordi rasjonelle reduksjoner av vedlikeholdsutgifter kan dekke investeringene i løpet av et år eller to. Det blir et 'null-sum Spill'. Vedlikeholds-leverandører skremmer naturlig nok Kunder med usannsynlig Risiko. LO ansatte skremmes med opphør av deres jobb. Den slags halve sannheter om utviklingen baseres på forutsetningen at noe opphører for at nytt skal anvendes. Løsningen er selvfølgelig at ansatte også skal få videreutvikle seg med det nye. Det er fremdeles bruk for alle.

Offentlig sektor skal følge Lov om Offentlige Anskaffelser (LOA). Den relaterer seg til Konkurransereglene i EØS Loven. Dette er spesielt forpliktende for offentlig ansatte og lovbrudd er straffbart iht. Straffeloven. De siste 20 års offentlig IKT-historie vitner om massive lovbrudd, som gir overbevisende indikasjoner på organisert kriminalitet (se også UU 2013.aug.23 og 2013.sept.27). Feil kan ha skjedd med argument i bruk av WTO/GATT avtalen i stedet, - som praktisk talt ikke har EØS Lovens beskyttelse mot Kartellvirksomhet. Skandaløst nok er det ingen oversikt over Offentlige IT utgifter. SSB (Statens Sentral Byrå) antyder at 1/3 av Norges IT investeringer er Offentlige, dvs. 75 mrd kr/år. Anslag fra Administrasjons Departementet (AD) var på 1/10 av dette. Kostnadene til Vedlikeholdskontrakter er erfaringsvis større. I Sverige dokumenteres at under 10% IT investeringer følger lov om anbudsutbydelse, samt at outsourcing kan effektivisere IT-virksomheten med 30-50 %.

Som nevnt har IT utviklingen kommet til et fundamentalt skifte, - i det minste virtuelt – da virtualiseringen av HW gir det SW egenskaper. Det er mengder av interessante betraktninger om dette, men ikke minst er det avgjørende viktige potensialer for Innovativ rasjonalisering av Offentlig IT. Tekniske og økonomiske barrierer er nå nede og kan enkelt overkommes. Offentlig sektor kan spare titalls milliarder kroner i året ved å iverksette virtualisering av sin IT, - forutsatt profesjonell Prosjekt-styring. Dernest kan omfattende rasjonaliseringer realiseres ved migrering, konsolidering, oppgradering, utfasing og andre tiltak. Om ikke CBA argumenter overbeviser alle, kan man alltid argumentere med at Virtualisering også kalles 'Grønn IT' fordi energibesparingen kan redusere CO2 utslipp. Motsatt dette synes Statoil å fristes av samme feil som så mange før dem, - å outsource sin Informasjons Teknologi til Asia. Den type konklusjoner viser så tydelig at alternativer, risici og ukvantiserbare verdier ikke er profesjonelt vurdert og fører til alvorlige Strategiske avvik, - som om Rivaler har innflytelse i Ledelsen. Det er ikke outsourcingen, men virtualisering og fjernadministrasjon som er effektivt.

Sikkerheten for offentlig IT er antagelig ikke bedre stilt en økonomien. Antagelsen understøttes av vurderinger etter '22 Juli Kommisjonens Rapport' som påpeker behovet at: 'Ledere på alle nivåer i forvaltningen systematisk arbeider med å styrke sine egne og organisasjonenes grunnleggende holdninger og kultur knyttet til; Risikoerkjennelse, Gjennomføringsevne, Samhandling, IKT-utnyttelse og Resultatorientert lederskap.'

IT kriminalitet er et enormt område og de 15 video-dokumenterer i CW-artikkelen gir gode innblikk i problematikker. Et par ekstra forhold kan dog godt nevnes. Alt for ofte kikkles det ut av huset i søken etter hackere. Alt for lite kjent er at helt alminnelige supportere på IT anlegget får 'administrators rettigheter' og følgelig mulighet for innsyn, endring og sletting av enhver informasjon. Men oppgradering til nyere versjoner begrenser de friheter. Det kan også forklare organisert intern motstand mot modernisering av offentlig IKT. Et helt annet forhold er at i Danmark har enhver Borger offentlig IT ID, tilsvarende nettbank Tjenester. Men sikkerheten ved Java/Oracle er så ofte utsatt at man ikke kjenner Borgernes sikkerhetsstatus mere. Det er da også symptomatisk at danske bankkort og cpr-kort (offentlig identifikasjon) konsekvent er uten bilde. Alt om alt, - som nevnt for 20 år siden, er det særdeles oppsiktsvekkende at Økokrim fremdeles ikke har en avdeling for økonomisk kriminalitet i Offentlig sektor, - som om de skulle være hevet over Loven.

Som nevnt i forrige UU var thesens kapittel 'sosialpsykologiske analyser av Industripolitisk Rivalisering' av såpass interesse at den ble krevet selvsensurert bort. Allikevel er det fremdeles oppsiktsvekkende mange spennende analyser man kan gjøres utfra de teorier som allerede er presentert i dette UU temaet om 'Livskvalitet'. 'Grunnteorien' er i UU løftet videre til 'Imperier' og 'Nasjoner', men opprinnelig handlet thesen om 'IT industrien'. Naturlignok blir teorien, modellene og konklusjoner mye av det samme, selv om IT-virkosheter har et begrenset område i forhold til Personer, Organisasjoner og Menneskeheten. Grunnen er åpenbar, - Personer har skapt Organisasjoner i sitt bilde.

Det vises heller tilbake til tidligere UU enn å gjenta samme type omtaler spesielt for IT industrien. Noen grunnleggende konklusjoner kan dog presiseres og modifiseres etter teoriens 20 års 'eksil'. Freudiansk stereotyping av IT aktører var opprinnelig; IBM som 'Jerk/S-E/Patriark', Microsoft som 'Nerd/Ego' og 'Brukere' som 'Sulk/S-E/Matriark'. Siden den tid har IT verdenen utviklet seg vesentlig på flere områder. Mest fremtredende synes Demokratiseringen av IT. Som omtalt i UU 2013.april.19, anses Menneskeheten å ha passert 3 års stadiet, neurofysiologisk sett ved Internettet, og kan naturlignok nå utvikle sitt Ego – Selvrealisere seg. Avgjørende viktig er at destruktive Spill ikke får bli avgjørende som alternative 5D scenarier (UU 2013.april.26).

Noen hovedpoeng fra IT Rivaliseringen kan en allikevel ta med seg, da teorien ikke er spesielt tidsbestemt. Leverandører er spesielt uegnet til styring av CBA til Offentlig sektor fordi de er subjektive og ensidige. Man ønsker ikke 'Rainman' som familierådgiver, selvom det kan forbedrer familieøkonomien og enkelte funksjoner. Når man også husker ND/IBM skjebnen fra forrige UU, samt at Teledirektoratet behandlet ND's arvtageren Dolphin som et offer fra filmen 'Wall Street', - kan man ikke lenger hevde ignoransens og naivitetsens uskyld i Offentlig Sektor. Videre beskriver Markedsteorier også 'krigføring' hvor alt har en prislapp, - selv ansatte, konkurrenter, ministre, velferden og Rikets sikkerhet. Om man så ikke vil tro at det også eksisterer 'negative økonomier' derute, bør en i det minste erkjenne at 'din kost – min nytte' gir særdeles gode Rol og CBA. Bruk av 'andres penger' er irrelevant i CBA, - en særlig tankevekker for Offentlige ansvarlige.

Gruppen Kraftwerk er tidligere omtalt i UU 2011.feb.18 og kan godt gjentas:

Kraftwerk var av de første band som tok robotmusikk seriøst. De levde seg inn i rollen og lavet musikk som de mente roboter engang vil gjøre. Lydens kvalitet var langt over hva andre skapte. Men tekst og melodier var ikke imponerende. Det var så fantasiløst som en kan forvente av roboter.

På den tid fantes knapt noen PC. Lommekalkulatorer var hightech. Men var da ikke særlig spennende i lengden å finne Pi og alskens kvadratrøtter. Det er andre tider nå, med Personlige Computer til hvert familiemedlem. Nå lærer barn å erobre en virtuell verden før de lærer å skrive, de laster filmer opp og ned på internettet, og husker knapt et eneste telefon nummer, - ikke det hjem engang. Jeg husker fra min første jobb at jeg ble imponert over en kasse på 1x1x1 meter som inneholdt en harddisk på hele 10 MB. Faktisk var jeg utsatt for programmering med manuelle brytere. Det var på den tiden Kraftwerk var enormt futuristisk og populær.

Erasure - Drama

2013.okt.18

Ukens Utvalgte:

Omsider omtales kapittelet som ble ufrivillig selvsensurert bort i MSc Thesen om 'IT og Livskvalitet'. Det handlet om sosialpsykologiske analyser av Industripolitisk Rivalisering. Nå er det en solid basis for Spill-analyser siden RG Regjeringen valgte en Rituell avgang ved et forkastelig Statsbudsjett. Utgangspunktet her blir PEST analysen og relasjon til andre modeller.

Michael E. Porter har lavet en rekke modeller for å enkelt illustrere sammenhenger for industriell optimalisering (excellence), - Strategisk, Operativt og Innovativt. Variasjoner av 'Verdikjeden' (Value Chain) gir særlig innsikt for tidligere omtale av Produkt- og Tjeneste-Kvalitet. Kombinasjoner av Verdikjeder gir også god innsikt i hvordan man kan fokusere på sin Kjerne-Produksjon, samt eventuell 'Outsourcing' av resurs-krevende støttefunksjoner som regnskap/finans, IT, logistikk, rådgivning etc.

En vel så kjent Porter modell er de '5 Forces' om de 5 rivaliserende Markedskrefter. Senter av rivaliseringer foregår naturlig nok i Markedet. Den slags Rivalisering foregår i ethvert Marked, - ikke kun i det demokratiske, men også i Markedene til Statlige og Private Monopoler og Oligopoler. Statsmonopolisters utskjelling av det demokratiske Marked er derfor kun Spill for å beholde eller styrke sin urettmessige

Markedsdominans. Det er simpelthen barriere-bygging av nervøse aktører. EØS Loven er overordnet den slags Markedsaktører og skal brukes mot den slags i et Rettsamfunn.

De 4 andre krefter er: 'Leverandører' som typisk leverer Produkter og Tjenester til Rivaler i Markedet. 'Kunder' har fått et betydelig større styrke ved juridisk demokratisering og Krav til offentlige Tjenester. 'Nye Konkurrenter' på Markedet blir stadig flere etter IT revolusjonen, globaliseringen og demokratiseringen. 'Ny Teknologi' endrer betydelig egen og Rivalers evner, samt Produkter og Tjenester. Dette blir tidvis dramatisk. Etablerte Aktører i Markedet vil fremme Barrierer mot nye Rivaler mens nye Rivaler vil prøve å overkomme disse. Modellen gir en enkel virkelighetsbeskrivelse som altfor mange Aktører glemmer alt for ofte. Men selvsagt, modellen tar ikke nok hensyn til andre viktige faktorer.

SWOT (Strength, Weakness, Opportunities & Threats) er en godt kjent modell for analyse av seg selv og Rivaler i Markedet. Den er ofte brukt til Forretnings- og Kost/Nytte Analyser. En skal dog merke seg at CBA kan laves med både målbare og ikke-målbare Verdier. Men en sådan 2D fremstilling gir ikke det entydige beslutningsgrunnlag økonomer foretrekker. Dessuten skal en grundig CBA også inneholde dyptgående Risiko-analyser, som gir beslutningsdokumenter enda flere usikkerheter.

PEST-analysen fordypes i SWOTs OT-faktorer som; Political, Economic, Sosial og Technological. PEST er absolutt nødvendig ved enhver analyse for Produkter og Tjenester i Offentlig sektor, da Politiske og Sosiale faktorer kan være avgjørende. En ren SWOT analyse belyser derfor omtrent halve sannheter. PEST er høyst relevant som politiske beslutningsgrunnlag, men kan gjøre de konkrete CBA mere abstrakte. PEST tar f.eks. hensyn til 'Tilfredsstillelse' som kan uttrykkes ved 'Smilies'. Så kan man godt forstå hvorfor økonomer bruker betegnelsen 'PEST-analyser', fremfor 'STEP-analyser'. Parlamentarikeres fremleggelse av Statsbudsjett, og andre viktige beslutninger, kan være interessante å betrakte ved analyser av PEST, Transaksjoner (TA) og Spill. Hendelsene er forvirrende og mange kommentatorer prøver å forklare egentlige Motiv og Mål ved bruk av TA.

Den avtroppende RG Regjering la frem et forkastelig Statsbudsjett, - i den forstand at de visste like godt som alle andre at det ville bli forkastet av Stortingsflertallet hurtigst mulig. Budsjettforslaget er med andre ord ikke helt seriøst ment, men også et Spill for Galleriet. Finansministerens presentasjon var dermed mest av alt en nekrolog. Men det er noen hovedsaker som ikke skal få bli brukt som destruktive Spill ovenfor det virkelige Statsbudsjett som fremlegges om noen uker. Politiske korrekte journalister, som har en pressestøtte å forsvare, kaller disse sosialpsykologiske Spill for 'snubletråder'. Her følger mindre politisk korrekte vurderinger av RG Regjeringens avskjeds-budsjett:

1. Oljefondet er ikke LO sitt pensjonsfond. Det selvbedrag har LO kjøpt av AP. Dette kan visst ikke nevnes ofte nok og ingen skal tåle den slags antydninger fra noen Minister. (UU 2013.sept.20.) Som nevnt er AP/LO sin såkalte 'samrøre' i praksis så nære politiske korrupsjon politikken kan bli. (UU 2013.aug.23). Som det internasjonale forretningsimperiet LO faktisk er, - skal de selvsagt utbetale pensjonspengene til sine egne Kunder og ikke ta fra Samfunnets felleskasse. Oljefondet er for alle. Dessuten fremmer LO privatkonsum for sine Kunder, - på bekostning av samfunnsnødvendige investeringer fra Oljefondet og motsatt sitt politiske Image. Spillet er særdeles uredelig.
2. LO presser også frem mere skattefradrag til sine kunder. I praksis profitterer LO indirekte på skattefradragene da de tydeligvis øker medlemsprisen tilsvarende. All illusjon om at LO fremmer sosial rettferdighet ved skatter faller med dette Spill. Det er tydelig at dette er en av gjenytelsene LO krever av AP for kontante betalinger, samt at de krever en LO-lojale Finansministere. Hva er ikke et Regjeringsskifte verdt i denne sammenheng? Disse 2 LO saker kan overprøves iht. EØS Loven og Straffeloven.
3. Det er tragisk hvordan avtroppende Undervisningsminister misbruker Statsbudsjettet for å projisere sin skyld for studenters økonomi. Hun vet like godt som alle andre at de enorme pengeløfter til studentene vil bli forkastet av Stortingsflertallet. Studenter blir selvfølgelig skuffet, men vil forhåpentligvis være Voksne nok til å ikke overføre skylden til den nye Regjering. Hele Spillet skaper intet positivt, men kun frustrasjon, skuffelse og ingen bedret studentsituasjon. Dette

- dramatiske LYAHF Spillet skaper 'Loose-Loose-Loose' og sprenger grenser for Spill-teorien, da det tross alt defineres utfra visse fornuftige rammer.
4. Mongstad Prosjektet er ikke kun en økonomiske svindel for milliarder i flere Statsbudsjett, men mest av alt en politisk svindel mot Borgerne for å vinne egen Regjeringsmakt til forrige og denne Stortingsperiode. Spesielt SV sin miljø-retorikk hentet støtte fra naive Borgere. Regjeringen erkjente feilen før Stortingsvalget, men AP sin Riksrevisor hemmeligholdt avgjørelsen om å terminere Prosjektet til etter Stortingsvalget. Følgelig gjenvant SV naive velgere i den misforståelse at deres miljøpolitikk var mere enn et samfunnsøkonomisk bedrag. Dermed holdt SV seg over sperregrensen på 4% og fikk urettmessig bonus på 5 utjevningsmandater på andre partiers bekostning.
 5. Uttalelsen 'Et mere Rettferdig Samfunn' burde relateres til Rettssamfunnet og betinger at Lovene fremmes og følges. Men som nevnt i UU 2013.okt.04 er Menneskerettsloven og EØS-Loven forsømt av RG Regjeringen. De burde heller si de har vært mere Etisk og Moralsk, - skjønt det ville jo være subjektivt sett fra et mindretall. Problemet i formulering skyldes at de ikke våger å si som sant er, - at RG Regjeringen har gjort Norge til 'et mere Sosialistisk Samfunn', - når alle andre Sosialist-Stater valgte å snu ved århundreskiftet.

Regjeringer har tross alt felles interesse i positiv Samfunnstyring – selv om fortolkninger og prioriteringer avviker fra Parti til Parti. Den nye BB Regjering har allerede uttrykt at Statsbudsjettet vil ha følgende PEST tiltak som: 1. Stoppe sløsing i offentlig sektor, 2. Gjøre det mindre "lønnsomt" å være syk, 3. Reformere subsidier til primærnæringen, 4. Legg om U-hjelpen, og 5. Skap en pensjonsreform i offentlig sektor. Dessuten skal det nok gjøres noe med kostnader i oljesektoren som betegnet som eksplosive.

Selv om Norge, Danmark eller Sverige ikke er med i Europas Økonomiske og Monetære Union, bør enhver Nasjon ha noen edrulige rammer og betingelser for sine Statsbudsjett og Finanser. Finansielle problemer som Europa opplever i dag skyldes at de ikke ble enige om en fornuftig felles finansstyring for 20 år siden. Sempel PEST analyse vil vise at apatiet også skyldes politisk korrupsjon, parlametarisk umodenhet og media-show. Dagens kriser gir Finanspolitisk legitimitet til forbedring, men forsømmelsene er unødvendig kostbare å rette opp. Danmark og Sverige har vært nødt til å 'sette næring etter tæring'. Norge er sikret med store oljeinntekter, men alikevel er InfraStrukturer massivt forsømt og offentlige kostnader uforholdsmessige høye. Det tyder på at Regjeringen har store utfordringer i å innføre profesjonell finansplanlegging og kontroll. Når det er sagt, er det da tydelig at hverken US eller SU er ideelle modeller for sunn økonomi, - ei heller kombinasjonene Kina eksperimenterer med. Industriell rivalisering fra de kanter er antagelig hovedårsaker til at norsk økonomi er gått av sporet. Mer om den slags i neste UU.

Vince Clarke er en synth guru fra Depeche Mode, Yazoo og The Assembly. Han har også samarbeidet med band som Blancmange, Heaven 17 og The Human League. Til sist ble duoen Erasure det endelige band hvor han står for musikk og lyrikk og Andy Bell står for sang og lyrikk. Denne video er en favoritt. Alt det avfall man dynges ned med fra politiske 'psychological dramas' symboliseres her med ren og fargerik plast. Det ville jo være rett ubehagelig å delta i en video hvor man skulle dynges med metaforer for alskens oratorisk avfall.

Devo - Gates of Steel

2013.okt.11

Ukens Utvalgte:

Kvalitativ InfraStruktur er nødvendig for samfunns velstand og eksistens og det er enhver Regjerings ansvar. Den kritikkverdige tilstand i Norge har flere årsaker, - ikke minst geografiske. Men den massive forsømmelse har også politiske årsaker. Nå er det avgjørende viktig å tilsidesette negative politiske kulturer for å kunne realisere de nødvendige forbedringer av samfunnets Infrastrukturer.

Infrastrukturer er kollektive av natur så oppgaver kan ikke løses av Privat sektor alene. Infrastrukturene blir overbelastet av '8/5 samfunnet'. Det er særdeles ineffektivt å overbelaste IS kl 0800 og 1600 på hverdager. Det globale '24/7 samfunnet' er langt mere rasjonelt da det ikke krever overdimensjoneringer for korte overbelastninger. Betydningen av tvangstanker fra primær og sekundær-næringenes behov, samt bønnetider, bør revurderes til dette århundres Behov. Innovative alternativ kan vise seg å bli enkle, rimelige og effektive. Uløste Behov kan endog få helt nye løsninger ved f.eks. IT. (Se også omtale i UU 11.mai.2012.)

Infrastrukturen til tog er sørgelig underprioritert i forhold til bil og fly. Det ses så tydelig i Danmark. Motorveier mellom byer er laget med dobbelt- og trippelspor i begge retninger. Det kjører en jevn strøm av trailere på motorveiene. Ved siden kan det ligge et enkelt togspor i hver retning, hvor godstog er et sjeldent syn. Når man ser rekken av trailere, kan man godt forestille seg at disse containere kunne vært fraktet på togets godsvogner istedet. Men tross politiske argumenter viser realpolitikken så tydelig at er godstog sterkt underprioritert. Over lang tid vises også at de politiske argumenter om satsning på kollektivtrafikk er usanne. Pengene til IS er innkrevd mangfoldige ganger, - men Statens investeringer er ikke tilsvarende.

Det finnes en mengde typer Infrastrukturer i samfunnet. Eksempler er IS for fly, broer, bredbånd, kanaler, dammer, elektrisitet, olje, energi, avfall, hospitaler, fyrtårn, demninger, parker, havner, massetransport, offentlig sektor og offentlige rom, skoler, tog, kloakk, kritisk avfall, telekom, vann, avløp og annet. Det finnes omfattende oversikter over europeiske og norsk infrastruktur - selv på Wikipedia. Infrastrukturer er naturlig nok en hovedprioritet for alle europeiske nasjoner. Det er lavet oversikter, politikker og planer som er lett tilgjengelig og særlig nyttige. Dessuten, EIB gir særlig gunstige AAA lån til nasjoner som vil gjøre fornuftige utbygginger til felles nytte. Her vil Norge faktisk stille sterkt via EFTA fordi landet faktisk er 40% Europas Atlanterhavskyst, har et betydelig areal, regnes som periferi og har grenser til hele Norden.

Kvalitative Forretningsanalyser og anbud iht. 'Lov om offentlige anskaffelser' er forutsetninger og forpliktelser for investeringer i Infrastrukturer. Kostnader til vedlikeholds-tjenester skal inkluderes i beregningene. Fornuftige investeringer betaler seg over tid, men behøver oftest et visst lånebeløp. Norge har ingen reelle problem med finansiering, da Oljefondet er på 4.600 mrd kroner og har AAA status. Problemerkene er politiske motargumenter av høyst varierende Kvalitet. Egentlig er kost/nytte-analyser (CBA) kun tale om sunn fornuft satt i system, så som Prosjektstyringer som nevnt i forrige UU. Her også, kan man finne mengder av enkel informasjon om dette på internettet, ved f.eks. wikipedia.org, quickmba.com og lovdata.no.

Hvorfor i all verden er det da så mange gale og trenerende investeringer i Offentlig sektor? Denslags vil ikke skje hvis prosesser styres med tilstrekkelig Evne og Vilje til Riktige/Nyttige/Gode investeringer. En politisk ukorrekt forklaring er at Kaldkrigs regimet kan være hemmet av geopolitiske tvangstanker om Norges rolle i

US-SU rivaliseringen. Med fugleperspektiv kan Norge synes som en vollgrav og en mur for det SU dominerte Norden. Hensikten med denslags forsvarsverk er å hemme mobilitet mot eventuelle invasionsstyrker. Kombinert med alternative forsvars-scenarier fra Novaya Zemlya kan fryktelige tvangstanker om Rikets sikkerhet resultere i blokkering for moderne Infrastrukturer, - for sikkerhets skyld. Dermed synes det nå nødvendig med en ny åpen dialog med naboland og allierte om irrelevante og urasjonelle barrierer. Konstruktive samtaler kan åpne for at Norge får utbygge sine Infrastrukturer tilsvarende den naturlige geografiske sammenheng for Norden. (Se også UU 2013.juli.05.)

En annen kaldkrigs-barriere var Rammeavtaler i Offentlig sektor. Ekskluderende Rammeavtaler kan være i strid med dagens 'Lov om offentlige anskaffelser' og følge ulovlig og straffbart. Et eksempel på samfunnskader Rammeavtaler kan gi, er hvordan Norsk Data ble ekskludert og følgelig ruinert. Det var på 90-tallet, før EØS Loven, at Teledirektoratet utlyste 5 års Rammeavtale på ½ mrd kroner for det åpne UNIX operativsystem. Tidligere var offentlige anskaffelser omtrent likt fordelt mellom ND og IBM. Men ingen av dem brukte UNIX. IBM lavet en avvikende versjon kalt AIX. ND sin Sintran var lukket, så de lavet en ny generasjon UNIX maskiner kalt Dolphin. Plutselig gikk det rykter om at ND sin gave-maskin til det Litauens universitet ble brukt til å kortslutte Moskva. LO agenten i ND fikk presseoppslag om at han ikke fikk delta i ND sine styremøte. Deretter godkjente ikke Teledirektoratet ND's Sintran eller UNIX maskiner i Rammeavtalen. Den trendsettende eksklusjonen fra Offentlig sektor ga ND ingen håp om overlevelse da inntektene stoppet. ND måtte lukke og det særdeles heldige IBM fikk ND sin markedsandel.

Selv, - som kritisk vitne til prosessen, har arbeidsmarkedet siden den gang vært særdeles besværlig. Nå, etter 30 år, bør man selvfølgelig fremdeles tillate seg å spørre om det kan ha vært Spill på gang i dette 'Ens Død - en Annens Brød'. Man kan saktens definere et nytt Spill kalt EDAB i kategorien 'Underworld Games'. Norske produsenter er avhengige av Rettferdig behandling fra Offentlig sektor.

La så historie være historie, så man kan bruke erfaringer til fremtidig fornuftige valg. Når en vet hva en ½ mrd kroners Rammeavtale gjorde mot ND, så anta at 100 mrd i kontrakter fra det planlagte Vei-selskapet vil endre Norges Tjeneste og Produksjon betydelig. Dette er et så enormt beløp at både Offentlig og Privat sektor, i og utenfor Norge vil delta, - både som åpne aktører og ved skjulte Spill. Dette handler om hard-core Industriell Rivalisering, som blir nærmere omtalt i neste UU.

På den annen side, som tidligere nevnt kan oljeplattformer tett på Finnmark/Finland/SU anses som en geopolitisk provokasjon. Man skal derfor fremdeles 'Trø varsomt' selv om 'Bjørnen sover'. Ukraina og Georgia erfarte Putins reaksjoner tidligere i dette århundre. Men med felles forståelse om positive hensikter for Infrastrukturer kan mangt åpne seg, - og besynderlige Spill opphøre, - så som miljø-aksjoner, standhaftig skigard-sitting, kommunal-politiske trening, - eller endog nasjonale katastrofer.

Bandet Devo ble lavet som en spøk av noen kunst-studenter på Kent State University. Devo er en forkortelse for De-evolution hvor det antydes at menneskehetens utvikling er på retur. De så ikke for seg et band før de fikk støtte fra David Bowie, Warner Brothers og Brian Eno. Tross bandets vanvittige ideer er musikken faktisk rimelig godt komponert og produsert, - selv om tittelsangen kan bli for mye. En av deres beste sanger er denne 'Gates of Steel'. Teksten er noe uklar da de blander inn merkverdigheter om menneskets utvikling og religion. Dog er hovedbudskapet godt nok at mennesker er mennesker og konstruksjoner er konstruksjoner, - selvom en virkelighetens Devo kalte seg selv 'Stålmannen'.

Devo - Gates of Steel + Lyrics

Ekstra UU – spøkels

Dette er den tredje og siste av disse ekstra UU om politiske Spøkels. Naturlignok faller valget på Høyre denne gang. Som Parlamentets eldste parti er Høyre av de mest hjemsoekte av foreldede Superior-Ego-aktige tvangstanker. Kultur-tradisjonene er naturlignok gamle, da Partiet er en videreføring av det føydale Kongeriket. Tronen står fremdeles sterkt da dets myndighet er nedskrevet i Grunnloven og fordi Norge er et Konstitusjonelt Monarki.

Men Tronen er ikke så gammel eller så norsk som man skulle tro. Faktisk er arverekkefølgen en gren av den danske Trone siden prins Carl ble tilsatt som norsk konge og fikk navnet Haakon VII. Tidligere norske kongerekker og adel forsvant under dansk herredømme etter Kalmarunionen fall.

Dermed er det igjen relevant med de tidligere UU 2013.mai.17, UU 2013.mai.24 og UU 2013.mai.31, fra temaet 'Livskvalitet og Imperier'. Der omtales forhold rundt dannelsen og opphøret av de Tre Skandinaviske Troners Union 'Kalmarunionen' på 1500 tallet. Som nevnt skjedde splittingen av Unionen på Tsar Ivans sin tid. Bror til Danmarks kong Frederik II, Magnus av Holstein, samarbeidet nært med Ivan sine aggresjoner mot Norden. Han feilet. Men Norge og dets Island, Grønland og Færøyene ble illegalt annektert til Danmark, - for ingen sådan avtale om overgivelse er underskrevet. Dessuten, den danskfødte tsarina Dagmar (Maria Feodorovna) har antagelig gitt langt større innflytelse på Norden enn historiebøkene antyder.

Frykten fra Ivans dager har vært effektive for Stalins og Putins politikk. Den synes dominerende for Nordisk Ministerråds Evne og Vilje i København. Tilsvarende politiske apati synes dermed å stamme fra Roma3 på 1500 tallet og har fra Ivans keiserlige Trone befestet seg i de nordiske Troner. Høyre, som Tronens parti, er naturlignok påvirket. Det spøker som i Shakespears skuespill Hamlet, hvor handling utspiller seg på det danske slott Kronborg (Elsinore) ved sundet mellom Nordsjøen og Østersjøen. Spesielt engelskmennene foraktet dette toller-imperiet som finansierte en rekke mere og mindre kritiserte ekspansjoner.

Dagens Danmark er noe helt annet enn fra dentid. For det første er Tronens familie representert fra flere nasjoner som Frankrike, Sverige, Australia og Kina. Danmark er et halvhjertet medlem av Europa med sine 4 unntak. København er nå forbundet med broer, samt annen utmerket infrastruktur, - men også et transittland som bekymrer Sverige. På mange områder er Danmark som et Nordens senter har fått utvikle seg i århundre. Her er det selvfølgelig meget å lære, - så får man selv velge hva som er verdt å ta med seg. Kommuniaksjon til Borgerne – også de utenfor Norge – har store forbedringspotensialer.

For partiet Høyre sin del vil det være viktig å innse også de negative sider ved konservatismen. Det er ikke alt man bør bevare for enhver pris, - aller minst en 'syvende far i huset'. Aller helst bør man være Innovativ i den forstand at man forbedrer de positive verdier for et relativt ungt Borgerlig parti.

Depeche Mode ble et særdeles suksessfull synth-band med rundt 50 sanger og 13 album på UK charts. De har solgt over 100 millioner kopier. Denne ekstra UU 'Ghost' har jeg aldri hørt eller sett før. Men så velges det når temaet er overordnet musikken. Jeg var endog skeptisk til å koble den til det konservative Høyre. På den annen side passer den godt, når man innser hva kultur-opphavet også har vært. Kunsten blir da å selvstendig vurdere hva som er verdt å bevare og hva som absolutt kan skrotes. Men man skal ikke se seg blind på forhold som at den danske Christiania-kultur er eksportert til norske Christiania (Oslo).

Placebo - Song To Say Goodbye

2013.okt.04

Ukens Utvalgte:

Det åpnes for betydelige Innovasjoner innen Offentlig Produksjons og Tjeneste-leveranser. Det gjøres utvilsomt meget godt idag, men de store forbedringspotensialer skal prioritere. Det er til det beste for personer, organisasjoner og Nasjonen å lave et helhetlig innovativt Program; 'Prosjekt Offentlig Sektor'.

Offentlig sektor er Nasjonens største leverandør av Tjenester til Samfunn og Borgere. Følgelig er dets Evne og Vilje til Tjenestekvalitet avgjørende viktig. Mange Tjenester er direkt bundet til Grunnloven og Menneskerettsloven, men er noe abstrakt beskrevet og uten Kvalitets-spesifikasjoner. På den annen side er Livskvalitet definert i dette UU Tema med konkretiserte Krav og Behov, - dvs. juridiske rettigheter og menneskelige behov (jfr. Maslow, se uu UU 2013.feb.08.) Med en Demokratisk synsvinkel er Tjenestenes Kvalitet det primære og midlene følgelig sekundært. Det er følgelig ulovlig å forhindre kompetente Tjenesteleverandører å gi Borgere rettmessige Tjenester til akseptabel Kvalitet, Pris og Tid. Faktisk kan Straffeloven anvendes mot lovstridige offentlige ansatte, så som Loven brukes mot lovstridige Borgere.

Det er avgjørende viktig å forbedre de Offentlige Tjenesteleveranser, når OECD så 'diplomatisk' påpeker det. Generelt sier OECD i rapporten 'Government at a Glance' at norske Offentlig Tjenesteleveranser ydes med overbemanning, overtid og overprising. Det tyder på dels uprofessionelle Tjenesteleveranser, - som igjen skyldes uprofessionel Forretningspraksis. Dette fortjener ikke Borgerne. Dyptgående og omfattende endringer er nødvendig nå.

Offentlige Tjenesteleveranser er ikke grunnleggende annerledes enn Private Tjenesteleveranser. Faktisk er de fleste Tjenesteleveranser løst forskjellig av forskjellige aktører i forskjellige land. (Se rapporten «Digitizing Public Services in Europe».) I Norge har offentlige virksomheter i høy grad fått enerett og monopoler som Tjenesteleverandør, - støttet av Myndigheter og Rettsvesen. Det gjelder Tjenester for helse, omsorg, utdanning, matproduksjon, transport, kommunikasjon, media, forsikring, pensjon og mer. Men retten til Reklamasjon gjelder selvfølgelig også for Offentlige Tjenester og Produkter. Det er straffbart

å forhindre Borgere sine rettmessige Tjenester fra alternative Leverandører, hvis en Offentlig Tjenesteleverandør groft forsømmer sin plikt og enerett. Det store flertall av Borgere forstår dette godt når de selv blir sviktet og forbys alternative løsninger.

Det er ikke noe galt med Lovene. Grunnloven, Menneskerettsloven og EØS-loven er overordnet alle andre Lover på sine områder og kan relateres til Straffeloven. EØS-Lovens Konkurranseregler forbyr virksomheters misbruk av markedsdominans, ulovlig konkurransevridning og diskriminerende avtaler (art. 53 og 54). Offentlige virksomheter stilles vel så strengere krav som andre (art. 59). Videre er konkurransevridende Statsstøtte til virksomheter forbudt (art.61) og Sosial støtte skal ikke gis direkte til noen virksomhet, men til den enkelte Borger (art.61a). Dette betyr at Kontantstøtten er den lovlige form for sosial støtte og at den skal anvendes for alle Borgertjenester. Borgerne skal selv kunne velge mellom kvalifiserte leverandører og ingen kvalifiserte leverandører skal utestenges fra markedet. Regjeringen skal reagere på den slags ulovlig misbruk av Statsstøtte for å ikke gjøre seg medskyldig.

Finansielle tjenester for Statsstøtte til Borgere bør ikke være mere avansert en hva banker, forsikringsselskap og butikker bruker av IT løsninger. Forvaltningen behøver kun noen register over hvilke penger Borgerne kan bruke på hvilke Tjenesteleverandører innen for eksempel helse, transport, skole, pensjon etc. Pengene behøver ikke gå direkte til Borgerens bankkonto så lenge de selv får velge Leverandør og Tjeneste. For 'Kontantstøtte' til husholdning kan transaksjonene gjøres direkte til Borgerens bankkonto. Systemet for å realisere lovlig Statsstøtte betinger en offentlig Borgerkonto så som banker har kundekonto. Dette er løst elegant i andre Nasjoner.

Til tjenestebegrepet finnes også 'Selfservice', - eller Selvbetjening på godt norsk. Utvidet Selvbetjening er Demokratiserende i den forstand at Borgeren får mulighet for å realisere sine Behov selv. Statens plikt for den slags Tjenester er å sørge for tilgang til tilstrekkelig infrastruktur, informasjon, ressurser etc. Tillitten til at Borgerne Kan og Vil betjene seg selv, bør nå være tilstrekke ved å se på Tjenester innen bank, internethandel, drivstoff, selvstudier, sosiale nett etc. Potensialene for Offentlig Selvbetjening synes ubegrenset hvis ressursene er tilrettelagt. Borgerne er jo Voksne mennesker, som hemmes av 'Nanny samfunn' med politiske Spill tilsvarende ordtaket 'Robbing Peter to pay Paul'. Et sådan RPPP Spill er ikke definert av dr. Eric Berne, men vil være i kategorien 'Underworld Games'.

Innovasjon er en hovedsak for disse Prosjekt Offentlig Sektor. På norsk brukes definisjoner om å skape noe nytt, - men det er ikke selve poenget her. Derfor kan en med fordel bruke en engelske definisjon som sier: "Innovation is the application of better solutions that meet new requirements, inarticulate needs, or existing market needs. This is accomplished through more effective products, processes, services, technologies, or ideas that are readily available to markets, governments and society." Så handler det heller om å gjøre offentlige Tjenester bedre uten nødvendigvis nye investeringer, - selv om Leverandører vil hevde det motsatte. Man kan også spare enorme beløp på å avskaffe unødvendige vedlikeholdsutgifter, som f.eks foreldet Informasjons Teknologi. Det finnes mengder av bedre løsninger med det man allerede har, spesielt innen IT. Man kan forestille seg en mengde innovative løsninger for offentlige Helsetjenester hvor klientens fysiske tilstedeværelse ikke alltid er nødvendig. Effektivitet handler jo også om Klienters Tid, Penger, og Ressursbruk, samt deres belastninger.

Alle disse Innovasjoner er per definisjon Prosjekter. Disse Prosjekter skal planlegges, styres og avsluttes profesjonelt. Til det behøves gjennomgående innføring av en Prosjektstyringsmodell som PRINCE2 eller tilsvarende. Alle disse katastrofale offentlige prosjekter, som Mongstad, viser så tydelig at prosjektene er ute av de ansvarliges kontroll, - og dermed er korruperte. Man kan endog forestille seg organisert svindel. En forutsetning for Kvalitativ Prosjektstyring er et Forretningsdokument som setter klare beskrivelser for Formål, Omfang, Pris, Tid, Resurser og Kvalitet. Forretningsgrunnlaget kan laves med SWOT og STEP/PEST analyser, samt Kost/Nytte-Analyser osv. Prosjekter styres som en Organisasjon med fremdrifts og avviksrapportering, samt formelle godkjenninger av fasene. Planlegging innbefatter også vurdering av aktørers Evne og Vilje til Prosjektets suksess. PRINCE2 kan for øvrig godt kombineres med dynamiske prosjektmodeller som SCRUM da dette delegeres til de utøvende Teams. Regjeringen bør med andre ord ikke godkjenne Prosjekter uten solide Forretningsdokument og Prosjektplaner.

Som nevnt er hele ideen med dette UU Tema om Livskvalitet basert på MSc Thesen om 'Livskvalitet og IT'. BI's MSc Program var lavet for å finne det beste i Offentlig og Privat sektor for å kombinere det til en optimal løsning for alle. Desværre ble programmet lukket i Norge og solgt til Shanghai, - hvilket også indikerer en årsak til utvikling av forretningsforståelse i begge land. Nå, 20 år senere, uten å ha hatt sjanser til å arbeide med Temaet, er et år viet til å gå i dybden på ordet 'Livskvalitet' på hobbybasis.

Gruppen Placebo ble dannet på 90 tallet og er litt skotsk-svensk-amerikansk. De ble med på Britpop-bølgen sammen med andre band som Blur og Oasis. Placebo hadde noen androgyne fremtoninger som gjorde dem beryktet. Denne UU er ikke videre kjent, men videoen fasinerte meg da 'drengen' viste den for meg. Assosiasjonene her går naturlignok til de Behov for hjelp man kan få og ikke minst hvordan pårørende også behøver støtte.

Ekstra UU – spøkels

Det blir en ekstra trippel 'Ghost' som oppfølging til forrige ekstra UU. Etter omtalen av V og KrF faller valget naturlignok på FrP denne gang. Selv et så ungt Parti er nå bundet av et organisatorisk Superior-Ego aktive Parti-spøkels. Det er personlighet som har preget Partiets tankegang og hjem søker mentaliteten med foreldede tvangs-tanker. Det handler selvfølgelig om «Fri' og Frank Gundersen».

FFG var FrP sitt akademiske alibi og tidvis Hagens Alter Ego. Etter å ha meldt seg ut av Statskirken og Høyre, gikk han til topps i FrP. Hans doktoravhandling handlet om 'Statlige handelsmonopoler og EF' og gav ham en særposisjon for uttalelser og handlinger om dette, samt adgang til mangfoldige nettverk og innflytelser. Wikipedia skriver at han foreleste for UiO og Handelshøyskolen i Bergen, men det forundrer at Handelshøyskolen BI ikke er nevnt da han ofte foreleste der - også for meg.

Når man ser FrP sitt ambivalente forhold og tidvise EU fobi, kan man saktens undres over FFG sin innflytelse på FrP sin politikk. Det er nærmest umulig å forstå hvorfor FrP ikke ble et markant EØS Parti. Norge har den overordnede EØS Loven som de-regulerer Marked og Statsstyring tilsvarende FrP partiprogram. Dagens angst for EØS Loven kan neppe forklares med annet en tvangstanker fra en gjenganger med tvilsom lojalitet.

SV var mest av alt frustrert over FFG. De konfronterte han stadig med hans deltagelser i kommunist-kongresser i Sovjet Unionen i 50-60 tallet. I 2006 innrømmet han dette med antydninger om etterretnings oppdrag som antagelig dekkes under 'Nasjonens sikkerhet'. Men den største dispuTT var med CIH som mente FFG hadde alternative lojaliteter. Det munnet ut i FFG sitt forsøk på å splitte FrP ved migrering til Det Liberale Folkepartiet, som i sin tid ble splittet ut av Venstre i 1989. En gjentagelsen av prosessen mot Dansk Fremskrittspartiet og Glistrup lykkes ikke i Norge. Men alle disse 'Loose-Loose' TOL og DAC Spill førte til at ingen av dem noensinne fikk Regjeringsmakt. Tidvis synes Spill i Partiet også å være LYAHF og hardcore RAPO, hvilket kan involvere flere parter. I alle tilfelle har FFG Spillene relasjoner langt utover Partiets interesser.

Dagens frykt for FrP, som enkelte politiske aktører uttrykker, er unyanserte. Det er grunn til å tro at FrP-fobien har opphav i FFG kulturen og at han kunne bli en betydelig Minister. Som avslørt agent i S.U., ekstrem innvanderfiendtlig og egosentrisk liberal, visste ingen hvor de hadde ham. I alle tilfelle, - dette forsvant med den Kalde Krigen og er nå mest noen ubevisste tvangstanker. Dagens FrP kan med fordel ta et eget internt oppgjør med fortidens bindinger til kultur-historien for å danne ny Regjeringskultur.

WhoMadeWho - I Lost My Voice

2013.sept.27

Ukens Utvalgte:

Norge står foran tidenes omorganisering. OECD skriver at vi bør redusere antall Departementer. Kommende Regjering sier kommuner skal fusjonere og at Offentlige Virksomheter kan få endrede betingelser. Selv Stortingets mandatfordeling bør revurderes etter Mongstad skandalen. Uansett hvor omfattende det blir, må det legges stor vekt på ansettelses-prosesser da personell og ledelse er samfunnets viktigste ressurser. I denne UU fokuseres det på Livskvalitet-begrepet for Person, Organisasjon og Nasjon som beskrevet i temaet Livskvalitet og Grunnteori.

OECD (Organisation for Geonomi Co-operation and Development) skriver med rette at antall Departementer bør reduseres. Dessuten indikerer den nye Regjering at Departementene bør restruktureres. Noen Departementer ligger alltid fast, mens kompromiss- og 'Hummer og Kanari'-departement godt kan fjernes eller konsolideres. Det virker enkelt på kartet, men her er det tale om omfattende og krevende restruktureringer for tusener av ansatte og millioner av Borgere.

Med en rask blick på dagens Departementer ser man hurtig potensialer for endringer. Vi bør selvfølgelig beholde: (1. Statsministerens kontor), 2. Finansdepartementet, 3. Utenriksdepartementet, 4. Forsvarsdepartementet, 5. Justis- og beredskapsdepartementet og 6. Kommunal- og regionaldepartementet og 7. Administrasjonsdepartementet. AD bør rendyrkes så 'Kirke' blir et Direktorat og flyttes. 'Beredskaps' delen flyttes fra 8. JD til 9. FoD. Under 10. NHD kan følgende omdannes til Direkatorater: 'Fiskeri- og kyst', 'Landbruks- og mat', 'Miljøvern', 'Samferdsel' og 'Energi', samt nyopprettelse av et Direktorat for 'Offentlige Virksomheter'. Kanskje viktigst av alt, - det burde opprettes et nytt 'Borgerdepartement' hvor følgende omdannes til Direkatorater: 'Arbeid', 'Kultur', 'Kunnskap', Helse- og omsorg' og 'Barne-, likestillings- og inkludering'.

Stortingsflertallet er enige i en omfattende restrukturering av Kommunesektoren. Hvorvidt Fylkeskommuner fjernes avhenger av Partiene i Regjeringen, men mange Kommuner skal fusjoneres for å få stordriftsfordeler som gavner Samfunnet og Borgerne. De fleste avanserte sivilisasjoner arbeider stadig med tilsvarende prosjekter. Flere nærliggende Nasjoner har kommet adskillig lengere enn Norge, simpelthen av påtrengende nødvendighet og av nye muligheter, - særlig de teknologiske. Danmark har kommet langt og burde være til inspirasjon for Norge. Man skal bare være spesielt oppmerksom på at alle endringer betyr maktendring for personer. Noen får mindre og andre får mere, - selvom totalen blir 'Win-Win'. Men den naturlige og personlige motstand som oppstår skal ikke få dominere og forhindre den totale samfunnsgevinst.

Alt om alt går det mot et eneste stort 'Prosjekt Offentlig Sektor', hvor Demokrati og Statsborgere skal få bedre betingelser. Det er flere fordeler med en sådan total re-organisering for tilpasning til dette århundre. Grunnleggende er begrepet 'Kvalitet'. Man kan med fordel ta tak i de begreper som diskutert i UU Tema 'Livskvalitet - Grunnteori'. Definisjonen er jo bygget på ISO (International Standardisation Organisation) sin definisjonen om Kvalitet for Produkter og Tjenester. Det er perfekt, da Offentlig sektor i stor grad gjør Tjeneste-leveranser.

Re-organisering gir også en unik sjanse til å ansatte rett person på rett plass. Nødvendig forbedring av Leder-kulturene i Stat og Kommune påpekes så ettertrykkelig i 22/7 Kommisjonens rapporten, med at: 'Ledere på alle nivåer i forvaltningen systematisk arbeider med å styrke sine egne og organisasjonenes grunnleggende holdninger og kultur knyttet til; Risikoerkjennelse, Gjennomføringsevne, Samhandling, IKT-utnyttelse og Resultatorientert lederskap.' (Se UU 2013.aug.09.) Dagens tilstand går følgelig utover Kvaliteten på Offentlige Produksjon og Tjenesteleveranser. Derfor blir det absolutt nødvendig å gjenutlyse lederstillingen for å sikre kvalitative ansettelsener uten 'kameraderi' og annen type korrupsjon.

Det er helt avgjørende at den Borgerlige Regjering tar kontroll over prosessene for OU (Organisasjons Utvikling) og særlig ansettelsesprosedyrene. Det blir antagelig nødvendig å engasjere upolitiske og nøytralt profesjonelle HR konsulenter (Human Resource). Man kan med fordel bruke det resurs-sterke nettverket som Norge betaler for i EFTA/EU regi, OECD etc. Her finnes mengder av profesjonelle kompetanser som gjerne hjelper Norge med erfaringer, råd og prosesser. Videre kan Offentlig sektor med stor fordel lære av Privat sektor om Kvalitet på Produkt og Tjenesteleveranser. Det er faktisk ikke så vanskelig å ta til seg og implementere helt ordinær MBA kompetanse. Det meste er gratis og enkelt tilgjengelig på nettsted som quickmba.com. Der forklares enkelt alt fra Strategi til Operativt og selvsagt HR. Et hovedpoeng er å sikre at man får mellomledere med Evne og Vilje til å realisere Strategien, - eller Politikken som det heter for Regjeringer. (Se UU 2013.mars.08.)

Tidligere er det sterkt advart mot LO sine skjulte agendaer og infiltrering av AP Regjeringer. Det er særdeles viktig å kjenne til dette fordi det er den sterkeste anti-kultur Storting og Regjering vil møte i re-

organiseringen av Offentlig Sektor. Det er avgjørende viktig å forstå forskjell på 'Tillitsmanns Image' og Forretningsimperiets natur. En hovedgeskeft er at LO selger andres arbeidsplasser til sine kunder/medlemmer. Konsekvensen er at virksomheter, særlig i det politiserte Offentlig Sektor, besettes med mellomledere som har alternative viljer, eller mangler nødvendige evner. Dette har flere negative konsekvenser for ansatte, ledelse og virksomheter. Generelt sett er det forståelig at det går virkelig galt for en virksomhet hvis man bytter plass for mekanikker og pilot, eller sykepleier og lege, eller handyman og arkitekt. Tilsvarende går det galt når LO presser inn ledere hvor hovedkriteriet er at de har betalt LO og avgitt alternativ lojalitet. Den slags inkompetente LO agenter blir avhengig av 'reperatører' og behøver alternativt lojalt team, - samt syndebukker. Man må hurtig ansette flere personer da det er mangler i ansattes kompetanser. En kvalifisert leder vil også føle seg truet av underordnede med høyere kompetanser og antagelig starte destruktive Spill ala 'Robinson' for å beholde posisjonen. (Se UU 2013.mars.15.) Resultatene kan man se av 22/7 Kommisjonens Rapport.

Det kan være vanskelig å tro hvordan LO fungerer som en arbeidsmafia, hvis man ikke selv har opplevd det. Erfaringer var i fra Teledirektoratet på et sentralt kommunikasjonscenter for Samfunnet. Som nyutdannet ingeniør ble en hurtig konfrontert med den lokale 'Tillitsmann', - som disse LO agenter kalles. Alle skulle 'verves'. Budskapet var enkelt: «Betal (meld deg inn i LO) – det lønner seg neste gang du skal søke jobb». Naivt kan man si i ettertid å mene arbeidstakere hadde likerett fra arbeidsgiver og at Menneskerettigheter som organisasjonsfrihet også gjelder i Staten. Erfaringen er at LO behøver å statuere å eksemplere på hvor galt det kan gå for dem som ikke betaler. Begrepet 'ansiennitet' betød kun hvor lang tid en hadde betalt LO og ikke hvor lang tid man hadde arbeidet for bedriften. Begrepet 'Solidarisk' betød kun alternativ LO-lojalitet, som ofte var motsatt av bedriftens. Jantekulturen er simpelthen organisert psykopati/mobbing, hvor sverting, baktaling og diskriminering anses som legitimerede metoder for å rense opp i kollektivet. Når det er sagt, kan den enkelt ansatte neppe bebreides, når en mafia truer dens og familiens eksistensgrunnlag ved jobb, lønn og karriere, - og vet det hele kan bli smadret hvis en våger å si 'Nei til LO'. Alt om alt er arbeidstagerne truet av massivt organisert kriminalitet.

Et dramatisk eksempel på LO sin forakt for Menneskerettigheten 'Organisasjonsfrihet', har utspilt seg så tydelig i Danmark. Kort sagt var en Kro i Vejle misfornøyd med organisasjonen LO/3F. Derfor skiftet de over til organisasjon 'Kristelig Arbejdsgiverforening'. LO reagerte med blokade av kroen så leverandører og gjester ble forhindret ved maktmisbruk. Ulovlighetene ble kalt Sympatiststreik og liksom diskvalifiserte Politiet. Som planlagt førte det til økonomiske problemer og mulig konkurs. Det ble medieoppmerksomhet som holdt LO stille en stund. Så en kveld ble forpakteren slått ned og kroen dels nedbrent. LO var hurtig ute med å anmelde forpakteren for brannstiftelse og forsikringssvindel, med begrunnelse at deres overvåkningskamera ikke hadde registrert noen andre enn forpakteren. Politiet frafalt siktelsen i fjor, men saken er fremdeles belastende for kroen og forpakteren. Dette viser så tydelig at LO fremdeles har kulturen fra Stalin-mafiaen i seg, og hever seg langt over Rettssamfunnet og Demokratisk etikk. Det er ikke annet å vente fra LO i Norge fremover, i langt mere lysskye aksjoner. (Se også UU 2013.juli.05.)

Erfaringsvis tilfører LO faktisk ikke selv noe positivt til arbeidsplassen, - de redistribuerer kun arbeidsgivers ressurser for egen profitt. I Teledirektoratet var den offisielle leder satt helt ut av Spill og LO-agenter dominerte med alternative lojaliteter. Regjeringer og Stortinget hadde ikke kontroll over sitt eget Direktorat. Senere, i Statskonsult/AD, ble det gjort en analyse som viste at kun 1/3 ansatte var nødvendig for å drifte Teledirektoratet. Kontroversielt – ja – det kan være kun halvdelen var på 'sysselsettingstiltak'. En tilsvarende rasjonalisering, hvor mere produktiv arbeidsplasser skapes, kan oppleves som dramatiske trusler. Den slags frykt vil erfaringsvis LO fyre kraftig oppunder, med knyttede never og opprop om rasering av deres marked. Så skal man bare kikke litt ekstra på hva LO sine profitt-motiv er i saken og tale åpent om det.

Til sammenligning opplever en lagt mere moderne IT bedrift i privat sektor tilsvarende nødvendige reorganiseringer. Microsoft står ovenfor tidenes restrukturering. Aksjonærer og kunder, tilsvarende Borgerne i Offentlig sammenheng, finner seg ikke i løftebrudd og vanstyre mere. Eksempelvis kan Offentlige virksomheter bli umyndiggjort ved å 'settes under administrasjon', så som Oslo ble på 90 tallet. Tilsvarende er betydelige aksjeposter midlertidig solgt fra Microsoft til et 're-organisering' virksomhet. Det er

naturlig nok nødvendig for å gi tilstrekkelig myndighet for å hjelpe den skadede virksomhet på rett kjølig. Tilsvarende tiltak bør anvendes på Offentlige Tjeneste og Produksjons-leverandører. Sett dem under administrasjon inntil en eksternt tiltrodd virksomhet har gjennomført de nødvendige re-organiseringer. Men for all del - ikke bli involvert i psuedo-vitenskaplige konsulenter for Enneagram og NLP (Se UU 2013.april.12.)

Regjeringen har også sin omorganisering på gang siden det utvilsomt blir et Regjeringsskifte medio Oktober. Det er for tidlig å si noe om Ministerposter foreløpig. På den annen side ble Regjeringsskiftet i Danmark omstendig omtalt for 2 år siden. Et undertema ble kalt en 'Trippel Glistrup' og er omtalt i UU 17.Feb.2012 - UU 16.Mars.2012. Den politiske situasjon var noe annen da de skiftet fra en Blå Venstre-dominert Regjering til Rød-Blå SosialDemokratisk dominert Regjering. Men allikevel omtales en del generelle forhold som den kommende norske Regjering godt kan ta til seg. 'Trippel Glistrup' i den sammenheng tok utgangspunkt i den politiske motiverte arrestasjon av en partileder. Likeledes omtales 3 potensielt rettsstridige danske Ministre.

Den danske gruppe WhoMadeWho må ikke forveksles med den australske sang med samme tittel. Den danske gruppe er rimelig godt kjent og laver mange interessante stykker. Gruppen består av 3 musikere fra forskjellige musikkmiljøer som Jazz, House og Rock. 'I Lost My Voice' ble en hit og bør høres helt ut, selv om den har en dårlig video. Se heller på noe annet eller simpelthen lytt til musikken. Assosiasjonen til denne UU er hvor man har noen hemligheter og ikke kommer helt til ord, - eller at man simpelthen har diskvalifisert seg selv fra å si noe mer.

Ekstra UU - Spøkels

Det spøker i de fleste Partier. Partiveteraner fra generasjoner tilbake kan ikke la vær med å forstyrre nye ledes konstruktive prosesser. Sist fremstår de tidligere Venstre ledere Sponheim og Dørum, som minner mest om Pompel og Pilt fra den Kalde Krigens Sort/Hvit Barne-TV. Den duo frykter det Borgerlige FrP og følgelig advarer mot en solid Borgerlig flertalls-Regjering. Hvem i all verden bør høre på sådan knirk fra sofakroken? Det var de selv som ikke kunne få seg til å samarbeide med Hagen. Disse to, Sponheim og Dørum, er årsaken til at Venstre er det minste borgerlige Parti i Norge mens Venstre i Danmark er det største. Som noen Tuppen & Lillemor har de sabotert ethvert Borgelig flertalls-Regjering med sine TOL Spill. Hvor ligger egentlig deres største lojalitet – til sine Borgerlige velgere eller til AP/LO sin Statsubsidiering, - hvor det tas med ene handa for å gi med den andre? Hadde man ikke trodd bedre, - så virker det nærliggende at de er trellebundet av AP/LO Statsstøtte. 'Så mye hadde jeg – så mye ga jeg bort – så mye fikk jeg igjen'.

Dagens ledere i Venstre og KrF må bevise at de er Voksne nok til å ta egne avgjørelse for dette århundredes Borgerlige konstallasjoner. Tvangstankene fra forfedres intriger kan bli for sterke for nye potensielle samarbeid med politisk likesinnede. Hvis så lederne av Venstre og KrF diskvalifiserer seg selv for Borgerlig flertallregjering, - har lederne også diskvalifiserte seg selv fra å lede Borgerlige partier på velgernes vegne. Dette vil deres velgere huske særdeles godt ved neste valg. De bør vurdere å stille sine plasser til rådighet, så Partiene kan skaffe nye Partiledere som kan og vil samarbeide med den Borgerlig Regjering om et par år. For forhandlinger handler om å alltid søke etter bedre alternativ, - som kanskje kan realiseres på et senere tidspunkt. H og KrF har vist seg Voksne nok for vidreutvikling.

Når så kritikken av Venstres 'Ghosts' er gitt, - skal man ikke helt glemme KrF. Når de så i disse ekstra-omganger topper sine lister med SP krav, er det så tydelig at de ikke ønsker Regjeringsansvar. Det skapes umulige situasjoner med ilagt håndvask. Man skal ikke helt glemme KrF sitt eget behov for eksorsisme. Disse grupper av eldre anonyme motstandere kan innholde okultister, ateister og andre mørkemenn, for alt vi vet.

Gruppen Japan med vokalisten David Sylvian er tidliger presentert i UU. Gruppen stilte i en helt egen kunstnerisk sfære på 80 tallet. Det er ikke noen tradisjonell 'new wave' som fremføres. Denne sangen 'Ghost' er også vist for et par år siden i en litt slettere fremførelse. Her tror jeg faktisk Ryuichi Sakamoto er bagrunnsmusikker.

Assosiasjonen denne gang er selvfølgelig til alle de Kaldkrigs spøkelser som herjer i Parlamentets Partier. De skremmer vannet av sine etterfølgere med sine fordømmer og tomme trusler. Frykten er deres våpen – Apati er dets resultat.

John Foxx – The Hidden Man

2013.sept.20

Ukens Utvalgte:

AP sitt alter-Ego, LO, har startet Plan C 'Basketak'. Stoltenberg ble massivt strøket fra AP's valglister og får karriere-kritiske interview i media. LO har neppe tid og tålmodighet for Stoltenbergs Plan B 'Jeg er jo her'. Disse AP/LO Scenarier A, B og C er som skapt for den politiske 5D modell. Det må bare testes.

Med enkel T.A. og sett fra AP/LO regimets side, gir 5D modellen 3 alternative Scenarier: A: AP vil ikke tape det demokratiske valg. B: AP får Regjeringen etter en Borgerlig kollaps. C: LO dominerer Regjeringen etter et Parlamentarisk kollaps. Scenarie A viser utviklingen over tid frem til valgresultatet, men med alvorlig reduserte Ressurser og Posisjoner, fordi Plan A feilet og Regjeringsmakten mistes. Scenarie B og C vil vises i en 5D modell som 2 alternative 4D utviklingsforløp for fremtiden.

For dem som kan fremstille den slags grafikk, vil det antagelig være interessant å gi Organisasjoner størrelser for faktorer som Ressurser, Kapital, Posisjoner, Medlemsmasse etc. De 3 grunn-dimensjoner burde få grunnfargene Rød, Blått og Gult. Dog er en normal farve-forvirring siden Stat tok fargen Rødt før EW og fremstiller seg som emosjonell. Farvene burde være Blå/Stat, Rød/Trone, Gul/Tempel.

Det er usannsynlig at det solide Borgerlige flertall i Parlamentet kollapse av seg selv. Deres evne og vilje er for sterkt til det. For at AP/LO-regimet skal kunne realisere plan B og/eller C, blir det nødvendig med betydelige parlamentariske manipulasjoner. Det er allerede i gang. I media ser man daglige Trekk i de sosialpsykologiske Spill mot Regjeringsforhandlingene. Derfor var det taktisk fornuftig av de Borgerlige å ansette en solid mediekommunikator.

Plan B blir eventuelt et resultat av forarbeidet til Plan C 'Basketak'. C er sterkest motivert av LO da boken 'Basketak' tydelig uttrykker mistillit til AP's Stoltenberg som Statsminister, og fremmer alternative kandidater som Giske og Jagland. Men boken i seg selv ga en utilsiktet konsekvens ved at partiet AP mistet stemmer og Regjeringsgrunnlaget. Denslags manglende innsikt kan skyldes at 'Basketak' er langt fra noen sjakk-manual. Den stiller seg heller i kategorier som rugby, hvor formålet glemmes under emosjonelt opphissede Trekk.

Giske er den mest sannsynlige LO kandidat, da tidligere kandidater er utbrent av politiske Spill. Den LO influerte boken 'Basketak' uttrykker tydelig mistillit til Statsminister Stoltenberg og hans støttespiller Støre. LO/Hågensen sin Jagland får neppe noe solid comeback, da han tidligere kun har fungert som pause-fyll mellom AP's egne Statsministere. Dessuten har Jagland brukt ettertiden til å hisset på seg Solheim og en milliard kinesere. Gerhardsen og familiemedlemmer ble parkert i Oslo og har demonstrert sine virkelige evner og vilje der. Tilsvarende ble Reiulf utbrent og forkastet, og har diskvalifisert seg selv ved selvbiografien 'Maktkamp'. Mange andre kandidater finnes naturlig nok, men ingen er særlig fremtredende.

LO har dyrket frem Giske siden AUF perioden. Som Jagland var LO/Hågensen 'boy' (gutten), ble Giske tilsvarende for LO/Flåthen. Denne LO-leder beseiret Valla og sto for 'LO sitt store comeback'. (Se UU 2013.aug.23 og NRK's Brennpunkt.) I all hovedsak besto politikken i å motarbeide EØS Lovens forbud mot diskriminering, samt misbruk av markeds-dominans og statsstøtte. LO sitt eget handelsimperie utnytter ulovlighetene grovt, spesielt etter sin 're-kommunalisering' i Trondhjem. Det er neppe av fri vilje at Giske er Ministeren med flest skandaler. Men alle de kameraderi-saker, som Entra, Telenor og Kongsberg, gir indikasjoner om særdeles uparlamentarisk adferd. Noen oppslag i aviser betegner Giske som Superminister for alle de Departementer man har vært i. Tilsvarende logikk gjelder i såfall for Komite-deltager Børge Vegheim i forrige UU's videoserie om Stortinget. Det er ikke antallet, men kvaliteten av arbeidet som teller. Giske er simpelthen ikke AP's, men dets alter-ego LO, sin Statsministerkandidat.

Det er ytterst sjeldent at AP/LO regimet konfronteres av Rettsapparatet, - den Tredje Statsmakt. AP/LO sin kaldkrigshistorie er som 'The Untouchables'. En rettssak kom tett på å avdekke den iboende korrupsjonskultur, - i den såkalte 'Workers' Youth League membership scandal', eller sagt på norsk - 'AUF saken' i 1997. Egentlig var det avsløringer av en mindre økonomisk svindelsak i AP/LO regimets ungdomsorganisasjon AUF. Forsvareren ville sannsynliggjøre at AUF-leder Hornslie's eget utsagn om at han svindlet under press fra tidligere AUF ledere Giske og Birkeland, - samt at den slags svindel var akseptert i kulturen. Vitnelisten inkluderte bl.a. Thorbjørn Jagland, Jens Stoltenberg, Odvar Nordli, Bjørn Tore Godal, Ronald Bye, Sissel Rønbeck, Sigbjørn Johnsen og Kjell Opseth. Men dommeren annullerte vitneavhørene. De pro-EU AUF'ere Hornslie og Birkeland ble ofret med fengsel og utfrysning. Den anti-EU Giske fikk en betydelig karriere i AP/LO-regimet med viktige Ministerposter. Mest av alt, - regimet fikk stadfestet at det er virkelig blitt 'Untouchable' og har utviklet politikken deretter. Hva kan man så slippe unna med? Det viser den siste 8 års Regjeringsperiode.

Plan B/C Spillet til AP/LO regimet er nå i den forberedende fase. Trekkene skal pr definisjon tjene Spillenes skjulte Motiver og Gevinster. Regjeringsskifter kan være dramatiske og er en naturlig del av Parlamentarismen. Men tidligere destruktive Spill har ført til Parlamentariske kriser, 'Coup d'Etat', og

betydelige Samfunnskader. Stortingets kontroll-organer skal være samlet om å forhindre det verste og minimere det ille. Avisene er nå spekket med parti-politiske utspill. Noen synes å være på kanten av det Konstitusjonelle, Parlamentariske og Juridisk akseptable. Det holder ikke med noen partipolitisk 'tak for sist'-moral for den slags 'snubletråder' og 'råtne egg' av 'pur jævelskap' og 'litt morro'. Ikke engang Hågensk 'Hælvetes spetakkel' er akseptabelt. Parlamentet skal reagere på denslags.

Her er noen eksempler på Trekk og mulige Antiteser:

1. AP vil fremlegge et Statsbudsjett i Oktober og alle vet vil bli nedstemt av det Borgerlige Stortingsflertall. Dette er det dramatiske Spill AP har valgt for Regjeringskiftet. Budgettet blir derfor formet som politiske Trekk til Plan B/C – en Borgerlig Regjeringskollaps. Eksempelvis har AP lekket hemmeligheter om skattelettelser de selv er imot, - antagelig for å fremstå fristende for Sentrumpartier. På den annen side holder AP Finansminister budgettets tallgrunnlag hemmelig for den kommende Regjering, så de ikke kan lave et mest mulig realistisk alternativt Statsbudget. En Antitese til Spillet vil være Voksen samfunnsdialog som reduserer falske BG-GG Gevinster i Spillet, samt at Stortinget reagerer på mulig kvalitetsreduksjon av beslutningsgrunnlaget sitt.
2. Utenlandske media har fått et særdeles usympatisk bilde av det kommende Regjeringsparti FrP, mens i Norge er dette BG Image uskadeliggjort ved etisk samfunnsdialog. Tidligere UD Minister Støre mistenkes for å ha spredt sine antipatier utenlands. Det er i øvrig uvisst med hans eget forhold til parter i Palistinakonflikten. Den nye UD Minister Barth Eide er lite hjelpsom for å korrigere omverdenens omdømmet av Nordmenn og den påtroppende Regjering. En Antitese vil være å la UD Ministerenes Spill tale for seg selv. Partiet har allerede holdt en overbevisende internasjonal pressekonferanse og bør gjøre tilsvarende med påtroppende UD Minister. På den annen side bør det ikke nevnes offentlig at Trekkene synes å være en avledning fra det faktum at ABB kom fra en AP UD familie og ble håndtert av AP sosialpolitikk. AP/LO/AUF har ikke gjennomgått alle faser av sin psykososiale krise og er fremdeles i Bearbeidelsesfasen. Den blir alvorlig forstyrret av Maktkamper og Basketak.
3. Oljeutvinning er avgjørende viktig for Nasjonen. Partipolitisk er det stilt veto-ultimatum, - selv mot objektiv utredning av konsekvenser og potensialer i Nord-Norge. Spillet Trekk er velkjent effektivt fra EU-valget i 1994, hvor Sp sa 'Nei, Nei og atter Nei' - uten noen intelligent diskusjon, men med emokratiske fordommer. Partiets Gevinst ble enorm med intravinøs Statstøtt. Samfunnet derimot lider fremdeles av massepsykotiske fordommer mot sine nabonasjoner. Tilsvarende Trekk gjøres nå mot Olje-utvinning i Nord-Norge. Igjen er mot-argumentene utilstrekkelige, så miljø-argumenter misbrukes med usannsynlige og umålbare konsekvenser. Dessuten misbrukes oljepolitikken i politiske forhandlinger for å tvinge igjennom helt andre politiske saker, samt som middel for destruktive Spill DAC, TOL og LYAHF. Eksempelvis sier LO's Giske at han går mot, mens LO sier det frykter at Borgerlig Regjering vil gå imot. Som Antitese bør det ses utover nasjonal-sosialistiske verdensbilder. Den gigantiske konkurrent til Europeisk energi-leveranse heter Gazprom og prøvborer allerede i Arktisk område. Norge burde være særdeles oppmerksomme på at denne gigantiske konkurrent allerede er langt på vei med alternativ gas-leveranse med rør via danske øyer til Europa, samt den russiske gas-avtale som fikk Ukrainas eks-president fengslet (se UU 17.Feb.2012).
4. Norges nødvendig utbygging av infrastruktur må finansieres av Oljefondet. Det er nærmest ubeskrivelig hvor forsømt Norges veinett er. Nasjonen har ikke engang motorveier mellom hovedbyene Oslo, Trondhjem og Bergen. Man blir nesten målløs av å høre fantastiske anti-argumenter mot den slags nødvendig infrastruktur. Men saken er enkel, - invester i nødvendig infrastruktur med Oljefondet. Motargumentene er diletantisk propaganda. Det synes ikke engang nødvendig å gå over utover Handlings-regelen (4%, 120 mrd/år) for å realisere utbygging og det forsømte vedlikehold. Eventuelt nødvendig mer-investeringer kan saktens moralsk og økonomisk forsvares med tidligere års underforbruk. En Antitese til Spillet er å gjøre noen misforståelser klare: Oljefondet er ikke LO sitt Pensjonsfond. Det selvbedraget har de kun kjøpt av AP.

Som nevnt vil en politisk 5D modell simpelthen være 3D modellen med historiske bevegelser (4D) og alternative Scenarier (5D). Historikken vil bli avgjørende for AP/LO scenariene B og C. Som antydnet handler alle disse Basketak og Maktkamper mest om interne rivaliseringer; LO vs AP. Det meste man merker av

Trekkene er dermed fraksjoners posisjoneringer, avledninger, projiseringer, samt noen spontane emosjonelle reaksjoner. Omverdenen skal bare passe på å ikke bli dratt inn i alle disse interne Basketak.

Men, - så kan det være at en ekstern, uforutsett og nedtonet begivenhet endrer fokus på problemets kjerne. Det Ukrainske Parlament har besluttet å inngå assosieringsavtale med EU fremfor SU/Russland. 'Europas Kornkammer' synes å ha tatt en Voksen beslutning tross psykososial Foreldre dominans, - etter en erkjennelse at Demokratiet er for manipulert med ID reaksjoner. Skjønt, - Norge gjorde tilsvarende etter EU avstemmingen da Parlamentet vedtok EØS-Loven. 20 år senere har fremdeles Lovlydigheten i Offentlig forvaltning korrupte og anarkistiske tendenser. Som i Ukraina har Norge politiske WW2 Trauma og WW3 Tvangstanker, - særlig angående geopolitikk for infrastruktur, produksjon og utenrikspolitikk. Så blir det tale om virkelig store og eldgamle Spill, som beskrevet i UU Tema 'Livskvalitet & Imperier' f.o.m.2013.mai.03.

John Foxx er en av de talent som på et tidspunkt faller fra sitt band og starter på nytt for seg selv. Han var frontfigur i Ultravox da grunnlaget for gjennombruddet var lagt. Så gjør han det heller selv, med ekte synth-lyd. 'The Golden Section'-perioden skulle bli hans gjennombrudd med et eget nytt liveband. Albumet stiller således i særklasse. Men han lykkes dessverre ikke. I øvrig stiller hans tekster seg et godt stykke på siden av mainstream med åndelige steder, bygninger og mennesker. Denne 'Hidden Man' er dermed ikke nødvendigvis en 'undercover' politiker, men noe mere mystisk.

Ekstra UU:

Gruppen Pulp er brukt et par ganger tidligere i UU, men er ikke særlig omtalt. På sett og vis minner gruppen om et engelsk 'Talking Heads' uten humor. Det er godt ment, for jeg setter stor pris på det meste de lager, selv om enkelte synes han er for sær. Her er også frontfiguren, Jarvis Cocker, avgjørende for bandets prestasjoner og eksistens. Mest kjent er gruppen for deres hit 'Common People' som kan virke sjarmerende og humoristisk, selv om Travis neppe mente det slik. Denne UU 'I Spy' er direkte usympatisk, men fanger allikevel med sin fremførsel, poesi, dramatik og ubehøvlede ærlighet. Assosiasjonen er til alle de politiske aktører med Spill bakom 'fiendens' linjer. Noen sympatiske tanker går til den ufrivillige spion Selmer, som beskrevet i UU 2013.juli.05.

The September When - Can I Trust You

2013.sept.13

Ukens Utvalgte:

Statsborgerne valgte et blå-rødt Parlament med noen spredte fargepletter. Det vil borgerne ha og det skal de få i et demokratisk Rettssamfunn. Ingen anti-parlamentarisk skal forhindre dette ved ukonstitusjonelle Spill. Fremover vil UU dermed fremme valget kvalitativt til Regjeringsskiftet skjer.

Med folkets røst kan man endelig si at det uparlamentariske LO forlater den norske Regjering. Men det er allerede varslet revansj mot Demokratiet på forskjellig måter. Derfor blir det spesielt viktig å minimere den type innflytelse på Stortinget og Regjering i fremtiden.

Som nevnt er Stortinget/Parlamentets valgt av Demokratiet for å representere Statsborgerne interesser. Dermed kan de foreslå Lovendringer, Statsbudsjett og Ministre til Regjeringen. Ikke minst skal Parlamentet kontrollere at Regjeringen faktisk gjør sin jobb, og ikke noe annet. Systemet er dessverre ofte presentert som noe kjedelig, - men se heller de 4 opplysende videoene under. Her er også hint om hva som virkelig kan gå galt. Humoristisk sett antydningenes behov for revurdering av tradisjonelle Spill i Stortinget. Seriøst sett gir 22/7 Kommisjonens Rapport en mengde konkrete og alvorlige påpekninger om feil som har vært, som fortsatt er og som vil bli samfunnsskadelig i fremtiden. Videre må det påminnes at offentlig sektor antagelig har et korrupsjonsnivå på minimum 2%, 20 Mrd/Kr i året. Korrupte er selvfølgelig interessert i å beholde 'fordelene' og villige til at dets pris betales (se UU 2013.april.26).

Spillet om Regjeringsdannelse er begynt. Historisk har mengder av folkevalgte Ministre og Regjeringer blitt felt i destruktive politiske Spill. Dette Regjeringsskiftet oppleves så dramatisk for LO/AP regimet at flere Scenarier for kaos og fall er allerede indikert. AP/LO minner hyppig om fallene for de borgerlige Regjeringer Willoch (1986), Syse (1990) og Bondevik (2000). AP/LO regimet skal så liksom redde situasjonen som det eneste Regjerings-alternativ. Spillet fremstilles som en skjebnesvanger heroisk saga med 'Good Guys - Bad Guys' (GG-BG). Psykososialt heter Spillet LYAHF (Let's You And Him Fight) og det Scriptet har en mengde relaterte Spill. (Politiske Spill er omtalt i tidligere UU om bl.a. Valget og Teorien.)

Den såkalte 'Fjerde Statsmakt' er Demokratiet, Statsborgerne, Folket – det er ikke Mediene som aviser, radio, TV og andre uparlamentariske meningsmakere. Avisen VG hadde en utmerket politisk redaktør Olav Versto, som mistet livet rett før det 'Coup d'etat'-forsøket den 22/7-2011. Enkelte artikler tyder på at avisen nå ikke driver kun journalistikk, men partipolitisk propaganda og manipulering. Rett før Stortingsvalget ble det publisert et falskt oppslag med 'krigstyper' at eks-leder Hagen gjør opprør mot FrP leder Jensen. Det påvirket antagelig Stortingsvalget og er nå innklagd til PFU (Pressens Faglige Utvalg). Nå, under Regjeringsforhandlingene, hevder avisen at 'folket' ønsker en mindretallsregjering uten FrP, -

begrunnet i avisens egne 'para-parlamentariske folkeavstemning'. Ved enkel TA (Transaksjons Analyse) ser man at disse 'budskap' antagelig er bestilt av parlamentarismens motstandere. Det kan tyde på at sterke anti-parlamentariske krefter igjen manipulerer Stortinget konstitusjonelle Regjeringsdannelse. I såfall bør det være av interesse for Stortinget kontroll-organ (EOS).

Mere tilslørte signaleffekter kan også finnes ved TA. Det sies å være 0,1 % sjanse for at Norges tognett lammes. Det skjedde allikevel straks etter Demokratiets valgresultat og midt i rushtrafikken. Årsaken var at et nettkort på en computer i Trondhjem mistet forbindelsen. (Den slags banaliteter skjer også i 'de 1000 hjem' med internetledninger. Men det fikses hurtig.) Det er med andre ord 99,9% sjanse for at krisen ikke var tilfeldig, men hadde høyst menneskelige årsaker. Hendelsen har utvilsomt gitt et sterkt inntrykk på underbevisstheten hos Statsborgerne og politiske aktører. Regjeringsskiftet ble i folkets underbevisst forbundet med kaos i nødnettet og det offentlig transportsystem. Mere alvorlig er eventuelle relasjoner til alle de 'uheldige omstendigheter' som til sammen muliggjorde Regjeringensbombingen og AUF massakren den 22/7. Det ville være besynderlig om OES ikke ser etter mulige sammenhenger.

Særdeles oppsiktsvekkende er de avsløringene av tellesystemet for Borgernes valgstemmer. Dette er jo hele fundamentet for Konstitusjonen, Parlamentet og Demokratiet. Den rød-grønne Minister har i ukevis bagatelisert feilene i systemet. Tross alle forsikringer før valget opplevde Oslo alvorlige kriser under valgnatten og resultatene er visst ikke fullstendige enda. Dessuten er forhåndstemmer makulert pga forsinkelser av Posten. Videre ble det dokumentert at flere stemmeurner ikke var plomberte i valglokalene. Norge må jo fremstilles som et primitivt diktatur, når så OSSE (Organisasjonen for sikkerhet og samarbeid i Europa) i tillegg kritiserer Norge for å ikke ha en nøytral klageinstans, men at Stortinget skal være 'Bukken og havresekken'.

AP/LO regimet har allerede fristet KrF flere ganger fra flere hold. Man kan tydelig se at KrF allerede har valgt konfliktlinjen i Regjeringsforhandlingene med ultimatum og sterke antipatier. Med 'nestor' Bondevik sine utspill, synes det å være en skjebnesvanger tvangstanke at Regjeringen skal falle som en 'Bondvik-Regjering'. Men et Parlamentarisk ærlig og konstruktivt trekk vil være å avklare sin holdning i innledningsfasen for å ikke kompliserer forhandlingene ytterligere. En borgerlig Regjeringen behøver nemlig ikke KrF, - de er kun invitert av gode intensjoner. Det vil være usympatisk av KrF å trekke det ekte borgerlige parti Venstre med seg og dermed skape en svakere mindretallsregjering. Venstre, derimot, vil ha godt av å se til Venstre i Danmark for inspirasjon. Med uærlige Spill vil KrF risikerer å bli misbrukt av AP/LO regimet som noen Peter, Paulus og Ischariot - og bli husket som et parti som skaffet Krekar sitt Regjerings-ønske.

KrF er ikke noe Sentrumparti, - hverken i en 1D eller en 3D modell. Det er kun en illusjon i et utflatet politisk landskap. De var ikke opprinnelig mellom dimensjonene Stat og Trone, men stammet fra dimensjonen Tempel. Troen gir utslag i valgprogram som presenterer dem mere kristne enn Kristus, - i hvert fall for alkohol, sex og familie. Politikken forandret seg drastisk da Stat tok Tempel ved dannelse av Statskirken i 1814. Siden har Kirken vært trellbundet av kapitaldonasjoner via Statsbudsjettet. KrF ble dannet i 1933 som en politisk motkraft, men synes å tape maktkampen mot Statskapitalen. Motivasjonen blir så tydelig når KrF første utspill til ministerposter ble krav om Finansdepartementet.

Som en anekdote synes i øvrig monoteisters forhold til Lov å være særdeles besynderlig. Moses er en felles patriark i Bibelen og Koranen. Han er fundamental for kristen tro, etikk og rettferdighetssans. Det sies at Gud ga noen stentavler med 10 Lover direkte til Moses. Men det første han gjør når han så møter sitt folk, er å demonstrativt smadre disse Guds 10 Bud. Hvordan i all verden kan da noen tro at KrF har respekt for noen som helst lov? Videre kan man tillate seg å spørre om de gjenfunnene deler av Stentavlene ble satt sammen riktig. Spesielt viktig er ordet 'ikke'. Det burde ikke vært nødvendig med et nulte bud 'Thy shall not smash these Commandments'. KrF sitt forhold til nasjonens Konstitusjon og Lover er uavklart, som det er for andre monoteister også.

I ytterste konsekvens er kristne usedvanlig selvgode og fordømmende av andre, - et menneskesyn som er på kanten av Menneskerettighetene. Det slår tidvis alvorlig galt ut har historien vist. Videre bør det seriøst

overveies om de strenge alkoholrestriksjoner fører indirekte til økt narkotikaforbruk i Norge, fordi borgerne har et visst behov for 'selvmedisinering' og vil finne alternativ. Alkohol holder tross alt Borgerne på rett side av Loven og har kjente virkninger. Det kan bli avgjørende for Samfunnet hvordan KrF velger å spille Spillet 'Want Out' som respons på andres 'How Do You Get Out of Here'. Deres troverdig og ære står på spill.

Enkeltpartier er selvfølgelig ikke alene om alskens utfall, - heller ikke Regjeringens skjebne. Dette Parlament, dette Storting, er nasjonens fremste Forum for sosialpsykologiske Spill og er skapt til det formålet. Innsatsene, prestisjen, motivene er her av Samfunnets høyeste. Spillenes omfang og kompleksitets er langt utover de 60 Spill som dr. Berne beskriver i 'Games People Play'. I tillegg har jeg nevnt de hypotetiske DAC, TOL og GG-BG, samt kombinasjoner med andre Spill.

Alt om alt er det avgjørende viktig at det skal reageres effektivt i tide på destruktive Spill. Det skal overhode ikke tolleres brudd på Parlamentarismens positive spilleregler. Konstitusjonen, Rettssamfunnet og demokratiet har overordnet prioritet. Det skal holdes overvåkent blick på aktørers aktiviteter og passiviteter fremover.

Den norske gruppen 'September When' var særdeles dyktige og lavde flere gode album. Det skyldes ikke minst vokalisten Morten Abel, som valgte å gå solo etter en stund. Denne UU ble brukt for 2 år siden som en 'pausemusikk', men gjenbrukes her da den den passer så godt. Sangen 'Can I Trust You' hadde ikke en egen video, så denne 'collage' får holde. Teksten handler om en seiletur, en kaptein og værforhold, - hvor det avgjørende er pålitelighet. Det kan assosieres til så mange personer, omstendigheter og situasjoner i politikken.

Ekstra kommentar:

Tradisjonell undervisning om Stortinget har ikke særlig interesse i Demokratiet. Det har Bård Tufte Johansen endevendt. Selvom den Parlamentariker han spiller er ekstremt vanvittig, gir videoene en rimelig god forståelse om: Stortingsvalg, Lovbehandling, Budsjettbehandling og Stortingsrepresentantens hverdag. Den har også en god porsjon historisk virkelighet med seg.

Beranek - Scenes on a screen

2013.sept.06

Ukens Utvalgte:

Selvsagt bør ingen statsborger stemme på anti-borgerlig partier. Partiet Rødt er ærlig om sin antipati, men LO/AP regimet er ikke. Når sådanne er fravalgt, kan velgeren måle verdier, fordeler og ideer for resten. Med fornuftige stemmer kan samfunnet få et demokratisk og parlamentarisk Storting og Regjering. Men man skal bare ikke tro at noe partiprogram er 100% realiserbart fordi ingen parti har Stortingsflertall og er følgelig nødt til å gå på kompromiss med andre partier for å danne en Regjering.

Hovedtemaet for dette år er som nevnt ordet 'Livskvalitet'. Alle disse skriveriet handler kun om 'Et ord i et år'. Definisjonen for 'Livskvalitet' finnes i første del 'Livskvalitet Grunnteori'. Det bygges på begrepene for Kvalitet, Behov og Rettigheter. Det ypperste behov er 'Selvrealisering' og Menneskerettighetene er fra FN og ECHR, som er nedfelt i Norges Grunnloven og Menneskerettsloven. Interesserte kan lese mere om dette i UU 2013.februar.01 til UU 2013.april.26.

UU etter valget vil derfor handle om hva de kommende Storting, Regjering, Domstoler og Demokratiet bør gjøre for å fremme en konstitusjonell offentlig forvaltning i et demokratisk Rettssamfunn.

Beranek var en særdeles talentfull norsk artist på 80 tallet. Mest kjent er han for den første hit-singel, som dessverre overskygget de etterfølgende produksjoner. Det ble ikke den velfortjente suksess. Alternativ levebrød fantes hos NRK Førde/Michelet sitt dårlig tilslørte politiske satireprogram 'Hallo i Uken'. Nå gjør Beranek comeback og gjenutgivelser samt lovende nyproduksjoner. I vente av comeback albumet kan man mimre til tidligere utgivelser fra samlealbumet 'Vintage Tapes'. Denne UU gir visse tanker om at Stortingsvalget også er gjentagelser selvom det presenteres nyheter. Synd at lyd kvaliteten på Youtube ikke er så god.

'Matchstick Sun' er også et norsk favorittband fra den tid. Helst ville jeg finne deres 'I'd rather go blind'. Det er en mindre kommersiell sang, men desto mer heroisk ærlig. Den ble en av de siste de lavet før oppløsningen av bandet. Denne - 'It's just a matter' er dog noe mere oppløftende og passer godt til innspurten av valget.

Anja Garbarek er enda et barn av en jazz-musikker og kunstnerisk anlagt. Hun fikk dessverre noen perioder med psykisk ubalanse og ble vippet ut til tider. På den annen side er det antagelig en årsak til at mye av

hennes musikk er eksepsjonelt god. En gjengangertema er inhuman institusjonell behandling, - sett fra en lille pike. Denne UU 'The Last Trick', er av de lysere sanger og videoer i hennes karriere.

Talking Heads - Once In A Lifetime

2013.aug.30

Ukens Utvalgte:

Arbeiderpartiet har en fremragende statsministerkandidat som har fått patriark status, - så som matriarken Gro før han. Men problemet er alle intriger og tikkende 'basketak' i AP/LO regimet - rett under denne propp og fasade. Partiets hundreårige historie preges av motsetninger, splittelser, personstrider, bitterhet og revansj. AP er med andre ord det mest ustabile og kaotiske Regjerings alternativ. Regimet er til tider en fare for seg selv og sine omgivelser.

Den 'rødgrønne' Regjering ble ikke utelukkende konstruert av partiene AP/SV/SP, men med stor innflytelse fra LO leder Gerd-Liv Valla. Den rødgrønne Regjering fikk særdeles mangelfulle evner og vilje til Parlamentarisk styring. Stortinget/Parlamentet virker kortslettet. LO-lederen hadde den gang et særdeles negativt forhold til statsminister Stoltenberg. Det skyldes antagelig hennes ekstreme politisk fundament. Som nevnt i forrige UU, på 20-tallet ble tilhengere av Stalins Moskvateser forvist fra Arbeiderpartiet til et eget nasjonalkommunistisk parti (NKP). I tillegg ble det Sosialdemokratiske partiet utskilt av DNA/AP. Senere fant sosialdemokratene tilbake, men ble oppslukt så AP mistet betegnelsen 'demokratisk'. 'Kommunister' har dog alltid søkt innflytelse via LO, - og LO har alltid krevd direkte innflytelse i AP Regjeringer.

Hvis AP får Regjeringsmakt igjen, er det allikevel usikkert om Stoltenberg sitter hele 4 års perioden. Er det 50/50 sjanse? En grunn til usikkerheten er at AP/LO regimet ofte har styrtet både egne og andres ministere. Hvem skal i så fall overta som Statsminister? Noen navn på 'kronprinsler' i AP er nevnt: Jonas Gahr Støre (Stoltenbergs), Trond Giske (LO), Raymond Johansen (SV), Helga Pedersen (AP), Torgeir Micaelsen (ung) og Hadia Tajik (yngre). I tillegg har man også familien Gerhardssen som via Oslo og LO ofte titter frem og Steen har fremdeles betydelig indirekte innflytelse. Man skal heller ikke avvise mulighet for gjenbruk av Jagland. Ingen av disse kandidater har i nærheten av Stoltenbergs samlende tillitt i AP. Alle disse representerer 'kaos' som langt overgår en eventuelt borgerlig Regjerings-koalisjon.

Mer alvorlig enn alle de splittende uenigheter i AP/LO regimet, er deres 100 årig historie med bitre strider. Maktkamper er langt fra er avsluttet og forsonet. De akkumuleres, får synnergi-effekter - og er på nivå langt over borgerlige smålige dragkamper. Grete Knudsens (AP) sin utgivelse av boken 'Basketak', midt i valgkampen, beviser for alle hvilke potensielle politiske intriger AP regimet stadig utsetter seg selv og samfunnet for. Valla (LO) støtter Grete sin bok som går hard ut mot Statsminister Stoltenberg og minister Støre. Samtidig fremmes de LO relaterte Jagland og Giske som alternative Statsministre.

Sosialpsykologisk sett, er 'Basketak' et avgjørende trekk i det kjønnsmotiverte Spill LYAHF. Det er av 2. grad og har potensialer for oppgradering. Boken nevnes naturlignok i sammenheng med boken 'Maktkamp' hvor den LO relaterte Reiulf Steen angrep AP matriarken Gro Harlem Brundtland. Den bok rammet mest ham selv, men Gro ble tvunget ut av Regjeringen etter 'Nei til EU' og benådning av den spiondømte Arne Treholt. Jagland ble Statsminister en kort periode inntil AP valgte Jens Stoltenberg i stedet. Finansminister Per Kleppe er kanskje den mest nykter forfatter i sin selvbiografi, hvor han skriver om indre årsaker til AP sitt forfall. Han skriver at Statsminister Nordli og Partileder Steen «begge var for syke til å lede partiet på en tilfredsstillende måte.» Steen lekket dessuten interne sensitive informasjon via en møbelhandler på Jessheim.

AP/LO regimet ønsket å feie 'Treholt-saken' 'under et teppe', - men han dukker stadig frem fra alskens skap. Treholt har innrømmet meget, men aldri spionasje for SU mot Norges sikkerhet. Skjønt PST/POT reagerte ikke før FBI/US la frem beviser etter hans N.Y.C. opphold. Flere forhold kan tyde på at AP/LO regimet fant det nødvendig å ofre en syndebykk som lokkedue og avledning for andre agenter. Treholts stadige forsøk på renvasking synes å vekke den kollektive samvittighet i AP/LO, samt frykt for avdekking andre ting som er 'feid under tepper' og 'dyttet inn i skap'. Særlig hardt virket fordømmelsen fra hans mentor Statsminister Jens Evensen, som sammenlignet Treholt med Vidkun Quisling. Evensen var faktisk med til å dømme nazisten til døden. Som det utfryste sorte får i ulveklær, er Treholt nå vekselvis i Moskva, Kypros og Norge og driver angivelig med finanser, turister og annet. Kypros er kjent som ferie-øy med beliggenhet utenfor, Palestina/Israel, Syria/Irak/Iran, Albania/Kosovo, Tyrkia/Hellas, Egypt osv, - samt baser for alskens russisk mafia. Hvis ikke AP/LO lavet en russisk agent før dommen, så har de i det minste lavet en etterpå.

'Under teppet', eller på wikipedia, kan man nå lese at LO var nazistisk i 4 år under WW2 og følgelig en hovedkraft for invasionsstyrken i Norge. Yungstorget ble maktens sentrum med Politi-bygget og LO-bygget. Spesielt må LO-nettverket på arbeidsplasser i offentlig og privat sektor ha vært en hovedkilde for nazistisk etterretning og aktiviteter. Historiebøkene viser dessverre ikke 'den hele sannhet' om hva dette terror-regimet utførte av uopprettelige skader på samfunnet. Dokumenter er fremdeles nedlåst. Henrettelser av sine nasjonalsosialistiske ledere har neppe ført til utryddelser av nazi-kulturer i LO. Det ga heller en legitimitet til fremgang for arvtagerne, nasjonalkommunistene. Stalin-Hitler sitt rød-brune samarbeide før WW2 er dokumentert ved 'Molotov-Ribbentrop Pact' (1939-1941). Mindre kjent er samarbeidet etter WW2 hvor nasjonalsosialister kunne konvertere til nasjonalkommunister, - antagelig mot visse gjenytelser.

Dette er en særdeles betent del av LO kulturen som neppe lar seg fortrenge eller projisere på borgerlige partimotstandere, - selv om det kan føles så. Tidvis dukker den kollektive dårlige samvittighet frem i mediene, - så som behandlingen av 'tapernes' kvinner og barn, 'tyskertøsene'. Media stoppes tydeligvis hurtig hver gang det nevnes. Når så LO tidvis maner til oppgjør mot 'høyre-ekstremister' er det vel så mye for interne maktkamper, for at 'venstre-ekstremister' skal få oppmerksomhet og styrke sin posisjon i regimet. Det er dog viktig for demokratiet å vite at dette heller er projiseringer enn berettiget kritikk. (Se tidligere omtale i UU 15.Juni.2012 og UU 2013.juni.28.)

Et annet inntrykk man kan få av AP/LO regimet er i filmen 'Kronprinsen', - om LO/AP sin felles ungdomsorganisasjon AUF. Filmen er skrevet og regissert av Pål Bang Hansen. Han fikk tydeligvis livslang kontrakt som eneste filmkommentator i Einar Førdes mediemonopol NRK. Historien handler om en virkelig person Ola Teigen, som var ansett som 'kronprins' i AUF i 1965-69. Manuset forteller at han oppdaget at CIA infiltrerte AUF under dekke av demokrati, - samt at 'Kronprinsen' ble utfrosset og tok selvmord. Bang Hansen sin historieskriving har nok noen sannheter om uønsket politiske innflytelser. Men det bør ikke dekke over at hele AP/LO/AUF regimets 100 årig historie synes å være et eneste stort 'kræmmermarked' for alskens politisk korrupsjon. Filmen i seg selv er en sterk indikasjon på at politiske krefter med antipatier lavet særdeles sterke påvirkninger i miljøet for '68 generasjonen. Et motsatt tilfelle er den urettmessige tilbakeholdelse av TV programmet om Selmer: NRK Spekter - Spionprogrammet Norge ikke fikk se. (Se UU 2013.juli.05.)

Tidligere er det nevnt at psykologiske vurderinger kan brukes på organisasjoner tilsvarende for personer. Hvis man da kan bruke begrepet 'schizofren' på en organisasjon, så er AP den mest ledende kandidat i norsk politikk. Hovedsakelig skyldes det naturlignok den såkalte 'samrøre-politikk' som AP og LO praktiserer. Den enes Ego vet ikke hva andre alter-Ego har på gang. Tilsvarende er begrepet massepsykoser ofte brukt om kollektivets virkelighetsoppfattelser via A-pressen. Dessuten er LO sine tidvis emosjonelle agitasjon, med knyttnever, klassekamp og vold, symptomer på manisk-depressiv og tidvis nevrotisk kultur. Derfor har antagelig de fleste AP/LO kriser opphav i egen kultur og ikke eksternt, - selv om problemene projiseres som om det var eksternt politikk. Tidvis eksploderer det bare, - noe som kan være til betydelig fare for AP selv og sine omgivelser.

Alle prognoser tyder på at de fleste statsborgerne velger borgerlige parlamentarikere denne gang. Avhengig av borgernes valg, kan partiene begynne å finne Regjeringsgrunnlaget etter valget, - ikke før. Høyst sannsynlig vil AP/LO regimet innlede rivaliseringer straks etter valgresultatet den 10/9. Det vil oppfattes som et startskudd for neste fase, - en revansj mot demokratiet. Sannsynligvis vil det ikke-borgerlige AP/LO regimet prøve å felle den regjering innen 1-2 år. Siden den type Regjering-overtagelse ikke er demokratisk og ikke behøver folkets tillitt, kan en ganske annen kandidat enn patriarken Stoltenberg fremmes av AP/LO regimet. Sannsynligheten for LO sine Giske eller Jagland er stor. Dette er de plan B og C som AP ikke vil tale om før valget. Grunnen er sannsynligvis frykt for massiv stemme-flukt, - og det er i så fall vel begrunnet.

Langvarig maktbegjær er fordervende. Rent parlamentarisk og demokratisk sett, vil det være langt bedre om AP prioriterer sitt eget behov for rekreasjon, leger sine sår, avslutter de inntil 100 år gamle intriger og simpelthen transformerer seg til et Sosialdemokratisk parti. Det er nettopp hva som burde ha skjedd for nesten 100 år siden da Det norske Arbeiderpartiet fusjonerte med sitt tidligere utspring 'Norges Sosialdemokratiske Arbeiderparti'. AP bør nå søke hjelp av andre Sosialdemokratiske partier i Skandinavia, og eventuelt Europa, til den nødvendige rekreasjon og transformasjon. Det ville bli en vinn-vinn situasjon for demokratiet og partiet.

Uansett, Stoltenberg vil kunne bli en riktig stor leder uansett hvor han jobber. Norge mister ikke Jens om AP/LO regimet taper Regjeringsmakten.

'Talking Heads' er ofte brukt her i UU og omtalt adskillige ganger. I Temaet «D'e no' galt i No'e o's'» var de som husorkester å regne (se UU 2011.07.01). 'Once In A Lifetime' er en klassiker og særdeles betegnende for gruppens nye stil før deres formidable konsert 'Stop Making Sense'. Personbeskrivelsen og videoen er ikke myntet på noen spesiell minister eller byråkrat. Det er heller ikke hensikten denne Ukens Utvalgte. Videoen er et kunstnerisk uttrykk for det stress og refleksjoner enhver i overbelastede situasjoner kan føle. Siste setning i teksten er visst tatt fra piloten av Enola Guy.

Joe Jackson - Crime don't pay

2013.aug.23

Ukens Utvalgte:

Uansett hvem statsborgerne velger til Parlamentet/Stortinget og Regjering, så skal ingen NGO snike seg inn med bestikkelser, politisk press eller hevd på ukonstitusjonell 'rett'. Kort sagt: LO skal aldri i Regjeringen igjen. Den såkalte politiske 'samrøre' mellom AP&LO er den indirekte årsak til den uakseptable holdning og kultur i offentlig sektor som '22. juli-kommisjonen' kritiserer i NOU 2012: 14. Den kommende Regjering, uansett farge, skal derfor starte med å fjerne uvedkommende fra offentlig sektor og realisere sunn parlamentarisk fornuft. Stortinget skal sørge for at Regjeringen faktisk gjør sin jobb.

Denne direkte kritikk av LO er nødvendig, selv om den kan virke hard i forhold til deres selvbilde. Nå er det nødvendig å avdekke forhold bakom fasaden og Spill for galleriet. LO har gjort mye for å få sterk innflytelse på mediene. Dermed finnes lite informasjon om organisasjonens virkelige politikk og virke. Allikevel gjorde NRK Brennpunkt en oppsiktsvekkende reportasje kalt 'LOs store comeback' ved forrige Parlamentsvalg. Her avsløres at LO, dette NGO (Non Governmental Organisation), ga Arbeiderpartiet 13 millioner kroner mot gjenytelser. Til gjengjeld gav AP til LO en ministerpost, flere styreverv i statsbedrifter, endret økonomisk politikk for 'sykelønn' og 'privatisering', samt særlig politikk for 're-kommunalisering' i Trondhjem. Alle disse gaver er til LO sin fordel og strider mot flere av lovene som Stortinget har vedtatt. LO ble faktisk anmeldt for korrupsjon den gang, men saken ble henlagt pga en unøyaktig formulering.

I år gir LO igjen adskillige millioner til AP mot skriftlige garantier om økonomiske fordeler og innflytelse. Et kjent eksempel er at AP igjen har lovet skattefradrag for fagforeningskontingent, så LO sine kunder subsidieres av alle andre skattebetalere. Det er å kjøpe valgstemmer siden det gir en direkte økonomisk motivasjon for LO kunder å stemme på AP. Men kun 41% av LO kundene stemmer på AP. LO skulle heller redusert prisen på sine tjenester til sine kunder.

LO sin organisasjon i Danmark er utsatt for mere åpenhet enn LO i Norge. Det tydeliggjør at LO er langt fra hva de utgir seg for. Det er en storkapitalistisk multinasjonal virksomhet med sterke makt- og profittbegjær. Det utnytter tusener av lavtlønnede til sort gratisarbeid i andres virksomheter. Belønninger går utenom selvangivelse med kameratslige gjenytelser. Danske LO sine økonomiske nøkkeltall for 2011 er tydelige; konsernets egenkapital var på hele 655,6 millioner kroner, det var kun 148 betalte ansatte, årsresultatet angis til -17,3 millioner kroner og følgelig betaler ikke LO skatt til samfunnet. (Se omtale UU 14.okt.2011 Parlamentsvalg i Danmark 2011.)

Det er ingen grunn til å tro at norsk LO avviker særlig fra dansk LO. De er lavet av samme fundament og deres formål er ens. Også LO Norge sine verdier baseres på eget begjær for makt og kapital. Dermed er et hovedmotiv for LO er å styrke og forsvare kollektiviseringen, - også i det profittgivende kommersielle marked. Her eier og styrer LO massive cooperative virksomheter. LO er sterkt imot det demokratiske markedet og følgelig imot konkurranseregler fordi EØS loven forbyr deres markedsdominans, og konkurransevridende avtaler.

Mere alvorlig er antagelig LO sin manipulering av ansettelsesprosesser, - spesielt i offentlige virksomheter. Betalende og lojale kunder av LO får urettmessige fortrinn i ansettelsesprosesser. Konsekvensen er at inkompetente og illojale personer fremmes foran kvalifiserte jobb-søkere. Særdeles kritisk er at LO får sine 'agenter' plassert i beslutningsprosesser på begge sider av forhandlingsbord. Manipulasjoner er ikke til å unngå. Prosessen har pågått i hele den Kalde Krig og konsekvenser kan leses i '22. juli-kommisjonen' rapport 'NOU 2012: 14'.

Kulturhistorisk er LO sitt dominerende Superior-Ego mest preget av patriarken Stalin (Stålmannen), alias Ioseb Besarionis je Jūgašvili. Han var opprinnelig en lokal mafiaboss i Kaukasus som avanserte til bolsjevikenes operasjonssjef. De finansierte organisasjonen ved bankran, kidnapping, utpressing og drap. Positiv omtale ble ordnet med å lage den dominerende avisen Pravda (Sannhet). Stalin fortsatte merittene til Lenins Moskvateser og sto for 10-doblet henrettelsen av egne borgere. Imperiet fikk med Stalin et mafia-regime i stedet for Parlamentarisme. Moskvatesene, som LO & AP adopterte på 20-tallet, har forpliktet dem til å forberede Norge til å bli en satellitt-stat. AP hevder at de omgjorde sitt vedtaket, men noen gjensidig aksept for utmeldelse er aldri bekreftet. Dette er antagelig fundamentet til den såkalte 'samrøre' som binder LO til AP, - som om LO var en para-Regjering til AP.

Som en konsekvens av LO sine forpliktelser til Moskva, er LO sin 100 årig arbeiderkultur preget av med indre selvjustis og voldelige tendenser, - uttrykt ved knyttnever, kampbegrep og aggresjon. Men dets skjulte indre natur ble avslørt i den såkalte 'Valla saken'. Den dominerende LO matriark Valla utfordret patriarkatet så en åpen konfrontasjon var uunngåelig. Beskyldninger og bekreftelser om psykopati i organisasjonen var hyppig fra flere hold. (Se artikkel under.) Det er så tydelig at LO sin kultur er bygget før Menneskerettigheten kom - og at Moskvatesene overhodet ikke tar den slags hensyn. Dermed er ikke LO sitt kulturgrunnlag forenlig med Menneskerettigheter, elementær psykologisk sunnhet og Livskvalitet, - tvert imot – LO er konstruert for å skape og fullføre borgerkriger.

Psykososiale Spill innad i LO må være et livsstudie i seg selv. Med det myriader av motiver, agendaer, splittende etikk, selvjustis og overflod av makt og penger, blir LO som et mini-vatikan i praksis. Man kan stå utenfor å vente på (røyk)signaler etter interne person-rivaliseringer. Forenklet sett synes et hoved-trekk til Spillene å baseres på 'Good Guy – Bad Guy' holdninger, hvor LO ser seg selv som samfunnets absolutte godhet. 'Gimmick' blir så; 'enten er du med oss, eller mot oss'. Siden LO kulturen er bygget på sovjetiske myter om arbeidere, klassekamp og revolusjon, - legitimerer og fremmer LO fremdeles borgerkriger i Norge hvor 'målet helliger midlene'. Kollektivets massepsykose fortier at det i praksis reduserer hele folket fra statsborger-status til arbeideres trelldom, - nettopp hva de i utgangspunktet sier å være imot. Ei heller forklares at 'ondt på ondt' ikke er godt, men dobbelt-ondt, - og følgelig ultimativt destruktivt.

For siviliserte borgere synes det uforståelig at menneskemasser kan forvandles som det faktiske skjedde i Stalins imperie. Den teorie er ikke et hovedpoeng her og nå, - men allikevel nevnes hypotesen om et psykologisk Superior-ID tilsvarende det anerkjente Superior-Ego. (Se omtale i UU 2013.Mai.24 og 2013.juli.05.)

Som anti-parlamentarisk NGO tilhører LO den kategori som fremmer en OD politisk virkelighetsoppfattelse, - dvs det skal eksistere kun et politisk parti, - et punkt på kartet. Deres massepsykose sier at i dag finnes 2 punkt, Høyre/Trone og Venstre/Stat, hvor målet er å eliminere det ene, - den borgerlige. I 'UU 2013.april.26 Livskvalitet – teori' beskrives en alternativ politisk 3D modell. I den modellen vil LO plassere seg som anti-Trone, anti-Tempel, pro-Stat. For å se LO og parti-relasjoner, blir man nødt til å se modellen over tid, - den fjerde dimensjon, - 4D. Dermed vil man se at på LO sitt politiske ståsted i 3D modellen har direkte sammenhengen av kortvarige blink fra ekstreme organisasjoner som tids-rekken NKP, AKP, AKP-ML, RV og Rødt, - samt en rekke tilsvarende NGO. Videre i den UU nevnes CPI (Corruption Perceptions Index) som viser hvor godt samfunnet oppfatter korrupsjonen. Feilaktig er det fremstilt i media at Norge har lav korrupsjon, når CPI sier at oppfattelsen (perception) er lav. Det er derfor spesielt stor grunn til å etterforske korrupsjonen i Norge, - spesielt i offentlig sektor. Det er sterkt behov for et 'Økokrim – avdeling offentlige virksomheter'.

Som nevnt innledningsvis er det særdeles viktig at LO, eller andre NGO, ikke noensinne får urettmessig innflytelse på Regjeringen igjen. Siden AP selv ikke klarer å fri seg fra LO, må velgerne sørge for at AP ikke får tilstrekkelige stemmer til å danne Regjering denne gang. Hvis det allikevel skjer, blir Stortinget nødt til å bruke sine konstitusjonelle og juridiske midler for å kontrollere Regjeringen og isolere den fra para-Regjeringen LO.

Joe Jackson leverer her et spesielt imponerende musikalsk stykke. Tittel 'Crime don't pay' er sarkastisk. Musikken starter dramatiske med noen mafia-strofer. Deretter kommer en hurtig dialog mellom en røver og en røvet. Man blir sittende tilbake med undring om sannhetsverdien i ordtaket. Den andre halvdel er rent instrumental, men vel så fortellende. En amatør har tydeligvis funnet et orgel og prøver seg med det harmoniserte band. Organisten har tilsynelatende alt å lære, - men han lærer, - godt ledet og støttet av bandets takt og tone. Pianisten svirrer rundt organisten og trekker han inn i mere harmoniske veier. Eneste nedtur i stykket er at produsenten valgte å 'fade' det ut før de ble ferdige. Selv kan jeg ikke la være å assosiere hele stykket til AP sitt forhold til LO og forhåpentlig videreutvikling av AP til et virkelig SosialDemokratisk Parti.

Bob Hund - Nu är det väl revolution på gång?

2013.august.16

Ukens Utvalgte:

SV og SP har vært nødvendige støtteparti for AP/LO regimets Regjering. Men alliansen holder ikke til neste periode da de har skapt store problemer for seg selv, Regjeringen og Nasjonen. Dessuten er SV sin eksistens usikker da de gjenværende sympatisører er så få at SV kan bli utestengt fra Stortinget.

Partiene SV (Sosialistisk Venstre) og SP (Senter Partiet) har historie som ekstrem-populistiske i den forstand at populære ønskedrømmer markedsføres som realistisk politikk. Konseptet er som kopiert fra reklamebransjen, hvor det spekuleres uhemmet i utnyttelse av ID instinkter og S-E intuisjoner. Den type politisk markedsføringsplan fungerer på valgdagen og omtrent halve regjeringsperioden. Deretter oppdager velgerne at valgløfter ikke blir innfridd. Velgerne svikter når bedraget blir åpenbart. Tilsvarende selvbedrag ble kopiert til det danske søsterpartiet SF (Sosialistisk Folkeparti). I ettertid har nesten alle deres partimedlemmer tapt med unntak av parti-ledere og deres nærmeste. (Se omtal i UU 2012.okt.28, tema 'Parlamentsvalg i Danmark 2011'.) Nå er det på tide at norske velgere avslører denslags demokratiske bedrag før valget, - og ikke etter.

SP sin suksess strekker seg så langt tilbake som EU valget for 20 år siden. Rent maktpolitisk var konseptet genialt, ved å kun si 'nei, nei og atter nei'. Ingen intelligens, ingen forstand, ingen etikk, ingen strategi - var nødvendig for den kompromissløse standhaftighet. Originalt var det ikke, - siden forhandlingstaktikken 'Take-it or Leave-it' er en velkjent effektivt 'ja/nei' taktikk. Men på sikt ble SP velgerne de største offer fordi partiets vekst ga adgang for anti-demokratiske stalinister og maoister. Spesielt problematisk for den demokratiske primærnæring i Norge er den cooperative kollektivisering som realiserer den anti-borgerlige 'ta-alt' stalinisme. Prosessen har pågått effektivt under hele 'den kalde krigen' hvor sentralstyrte korporasjoner med 'elefantsyke' stadig utmagrer gårdsdrift og nærbutikker. Partiet har gradvis konvertert fra stalinismens 'ta-alt' politikk til maoismens 'gi-intet' politikk. Se bare på Sovjets og Kinas landbrukspolitikk, - så ser man hvor det cooperative SP regimet fører hen.

Under EU valget var SV programforpliktet til å fremstå tilsynelatende intelligent med sine akademiske referanse. På den annen side var den dynamiske duo Solheim & Halvorsen engasjert til å trekke partiet

frem fra de 'museums-imaget', som i praksis betød 'stalinismen'. Strategien ble usedvanlig populær da duoen propaganderte alle de 'Luftslott og Venteboller' den yngre generasjon så sterkt ønsket å høre. Men hverken SP eller SV nevnte at deres nye fundament var maoismen.

Solheim er sentral for SV og Regjeringens meritter. Det er uvisst hvordan forholdet til Støre var, men de to fremstår i ettertidens som utenrikspolitikken 'Knoll & Tott'. Følgelig ble Solheim kastet ut av Regjeringen og partiet, mens Støre ble flyttet fra Utenriksdepartementet til Helsedepartementet. Aldri har lignende skjedd i norsk utenrikspolitikk, - men hvis Tamilene får sin vilje, stilles de to for retten i Sri Lanka. Solheim har etterfølgende 'krøpet ut av skapet' og presentert seg som en hardcore maoist med en uhemmet hyllest til verdenshistoriens mest brutale diktatur. Det tydeliggjør de skjulte motiver og Spill som har pågått i hele hans politiske karriere mot partiet, Regjeringen og demokratiet. Når man så vet at danske RAF (Rote Arme Faction) sin grunnlegger, Gotfred Appel, konverterte fra stalinisme til maoisme, blir SV sine relasjoner og konvertering vel så tydelig. Det blir også langt mere tydelig hvordan 633 mrd kroner, over et halvt statsbudsjett, kunne forsvinne fra Oljefondet med SV som Finansminister, samt at den selsamme Kunnskapsminister degenerering av ungdommens utdanning. Nordmenn fortjener å få SV under sperregrensen og ut av Stortinget. Det vil bedre sjansene for rekreasjoner i neste regjeringsperiode.

Kan man stole på hva partiene sier og lover? Dette er avgjørende for enhver velger å vite. En stor politisk sak viser så tydelige svaret er et definitivt 'NEI' for alle 'mellompartiene'; SP, SV, V og Krf. Det er ærlig nok å være bastant EU motstander og argumentere mot deltagelse i Europas 'Indre Marked'. Men det er direkte uredelig og til dels løgnaktig når de politiske ledere så godt visste at EØS avtalen ville bli signert og ratifisert av Stortinget uansett, - uten folkeavstemming. Avgjørende for 'nei-partiene' sin suksess var argumenter mot 'de fire friheter', som de visste likevel ville bli realisert med EØS avtalen. EØS loven har følgelig vært overordnet lov i Norge siden 1994, og den vil ikke bli opphevet selv om noen politikere tidvis propaganderte om det. Når så skjebnen på forhånd var 'forseglet' og politikkerne visste det, blir det så tydelig at den massive anti-europeiske propaganda simpelthen hadde anti-europeiske motiv, - langt utover nordmenns interesser. Propagandaen sitter fremdeles i store deler av demokratiet som tvangstanker. Til det kommende Sttingsvalg vil det derfor være naivt å gi 'mellompartier' sin støtte igjen.

Danmarks parlamentsvalg ble også omtalt i UU for 2 år siden. Etter en rekke nederlag har det oppstått en politisk duo 'Ellemann & Lykkeitofte'. De minner om de sær-norske 'Pompel og Pilt', - en traumatiserende barne-TV serie fra '68. Skjønt må det innrømmes at tålmodighet og toleranse til duoen er oppbrukt til rettfærdig vurdering av deres uendelige snakkerier. Dog merket jeg det gjentagende argument hvor skylden for kinesernes store opiumsmisbruk gis til europeere. Argumentet brukes politisk for å gi maoister fordeler i Europa som en slags kompensasjon. Den type politiske korrupsjon blir så tydelig når man vet at kineserne ble avhengig av opium for 1000 år siden da de fikk kontakt med opiumsdyrkerne i Midtøsten. Det skjedde hundrevis av år før Marco Polo seilet dithen. Dessuten, når europeere selv lider under arabisk narkotika, faller sløret for den slags 'junkie-politikk'. Dermed blir det særdeles besynderlig når den nye helseminister foreslår legalisering av heroinmisbruk i Norge. (Relaterte UU ble begynnelsen til en omfattende Tema fra 01.juli.2011 «D'e no' galt i No'e o's'»). I øvrig er ministerens politisk tilhørighet et mysterie, da han fikk UD minister jobben mot å betale for et AP medlemskap.

Hva representerer den Rød-Grønne Regjering egentlig? Hva skjules bak denne farge-symbolikk? Fargen Rødt er utvilsomt lånt fra stalinismen og maoismen. Nedtonet i valgkamper er at disse ideologiene er sterkt anti-parlamentariske, anti-borgerlige og følgelig anti-demokratiske. En Rød republikansk Regjering vil derfor heller se til at Staten kontrollerer Regjeringen enn at Stortinget kontrollerer Regjeringen. Den andre fargen 'Grønn' sies å representere Miljø. Miljøpolitikk har en lang historie, men det skjedde et globalt terminologisk skifte på 70 tallet da Naturpolitikk ble nedtonet til fordel for Miljøpolitikk. Dagens miljøpolitikk inkluderer angivelig naturen, som er symbolisert ved fargen 'Grønn'. Miljøet er ikke spesielt grønt.

Det er 2 betenkeligheter ved dette skiftet. Miljø-begrepet kan pr definisjon inkludere absolutt alt utenom en selv. Miljøbegrepet blir således sosialt sett synonymt med 'alt og ingenting' og følgelig uegnet for realpolitikk. En hovedårsak til at Naturen har tapt de siste årtier er antagelig at konkret Naturpolitikk er

nedtonet til fordel for abstrakt Miljøpolitikk. Følgelig har en ny aktør, 'Miljøpartiet De Grønne', skapt forargelse hos 'sentrumspartiene', simpelthen fordi deres miljøpolitikk blir seriøst utfordret. Velgere får innblikk i hvilke verbale bedrag de tidligere er forledet med. En annen betenkelighet er at fargen Grønn representerer også teokratisk politikk, - ved Islam og hva det representerer. Siden Miljøbegrepet er så unyansert, kan Grønn politikk naturlignok utelukkende handle om religionspolitikk for enkelte grupperinger.

Kort sagt, - aldri mere bør noe så politisk uærlig og abstrakt som Rød-Grønn symbolikk få erstatte realpolitikken. Vel så politisk uredelig er det å kalle seg Sentrumspartier eller Sentrumsblokker i en 1D politisk modell. Den politiske verdene er langt mere omfattende. Se mere om dette i tidligere omtale i av 3D politikk i UU 2013.april.26 om 'LivsKvalitet – Grunnteori'.

Den svenske gruppen 'bob hund' har fått priser som beste 'live band' og for 'beste lyrik'. Denne UU viser hvorfor. Gruppen har fengende musikk, god lyrikk og fremstiller en sjarmerende ærlig naivitet. Det hender tekstene har politiske undertoner, så som denne revolusjonens 'wannabe' fremstilles. Gruppen er en av de få som fungerer i både Sverige og Danmark, da skånsk dialekt anses som svensk av dansker og dansk av svensker. Så får begge parter liksom bekreftet hvordan det står til med intelligensen på andre siden av Øresund. I øvrig er dette fenomen utbredt i Norge også.

Carpark North - Transparent & Glasslike

2013.aug.09

Ukens Utvalgte:

Det er Parlamentsvalg i Norge den 9/9. UU fremover vil dermed handle om LivsKvalitet og Nasjonen. Når et så psykologisk 'Voksent' valg skal tas, - må en anse den 2 årig 'sørgeperiode' etter 22/7-2011 for å være

avsluttet, - så fremtidens realiteter kan vurderes objektivt. Norge er i et avgjørende skisma, - et skifte fra forrige århundres kaldkrigs-regime til et opplyst og demokratisk århundre. Nå kan man ikke behandle statsborgere som arbeidere og demokratiet som sentralstyrt mere.

I Norge har '22.juli-kommisjonen' lavet en rapport om Rikets tilstand og nødvendige forandringer. Rapporten er basert på det inneværende regimets aktiviteter og passiviteter - før, under og etter dette 'Coup d'etat' og massakren på ungdomsorganisasjonen. Kort, og politisk ukorrekt sagt, har AP/LO regimet sviktet borgerne, samfunnet og statsmaktene i særdeles alvorlig grad. Dermed er det avgjørende viktig for statsborgerne at AP/LO regimet ikke tar Regjeringsmakt over Norge igjen. Men, siden regimet ikke selv får seg til å gå, - blir borgerne nødt til å be andre overta ved å stemme alternativt til Stortingsvalget.

Enhver folkevalgt til Stortinget og Regjeringen har et særdeles krevende ansvar som Nasjonalforsamling. Deres viktigste oppgaver for Stortinget er; 'å vedta (samt forsvare og fremme) lover, bestemme statens budsjett og kontrollere Regjeringen'. De har et særlig ansvar for å ikke la seg manipulere. Særdeles problematisk er dermed denne NGO LO (Non-Governmental Organisation / LandsOrganisasjonen) sin hevd på være integrert med Arbeiderpartiet og følgelig deres virke i Stortinget og Regjeringen. Dette er en ytterst uparlamentarisk, ukonstitusjonell, uansvarlig og udemokratisk praksis som har pågått i et halvt århundre for lenge.

Arbeiderpartiet har i lang tid behøvd å videreutvikle seg organisatorisk til 'Voksen', - til et Sosial-Demokratisk parti. Det har de fleste tilsvarende partier i andre demokratiske nasjoner gjort. Denslags organisasjonsutvikling kan ta et ti-år, - avhengig av erkjennelser, barrierer og tvangstanker. Mest av alt behøver AP å fri seg fra LO sin kapital og tvang. Det blir en omfattende prosess som betinger frihet fra Regjeringsansvar av flere grunner.

En hovedgrunn ligger i 'Rapport fra 22. juli-kommisjonen (NOU 2012: 14)'. Rapporten sier: 'Den grundige gjennomgang har fått kommisjonen til å konkludere slik:

- Angrepet på regjeringskvartalet 22/7 kunne ha vært forhindret gjennom effektiv iverksettelse av allerede vedtatte sikringstiltak.
- Myndighetenes evne til å beskytte menneskene på Utøya sviktet. En raskere politiaksjon var reelt mulig. Gjerningsmannen kunne ha vært stanset tidligere 22/7.
- Flere sikrings- og beredskapstiltak for å vanskeliggjøre nye angrep og redusere skadevirkningene burde ha vært iverksatt 22/7.
- Helse- og redningsarbeidet ivaretok de skadde og pårørende i akutfasen på en god måte.
- Regjeringens kommunikasjon til befolkningen var god. Departementene maktet å videreføre sitt arbeid på tross av skadene.
- Med en bedre arbeidsmetodikk og et bredere fokus kunne PST ha kommet på sporet av gjerningsmannen før 22/7. Kommisjonen har likevel ikke grunnlag for å si at PST dermed kunne og burde ha avverget angrepene.'

Videre er Kommisjonens viktigste anbefaling at: 'Ledere på alle nivåer i forvaltningen systematisk arbeider med å styrke sine egne og organisasjonenes grunnleggende holdninger og kultur knyttet til; Risikoerkjennelse, Gjennomføringsevne, Samhandling, IKT-utnyttelse og Resultatorientert lederskap.'

Rapporten gir en særdeles sterk dom over AP/LO regimets evne og vilje til å regjere ansvarlig. Dessuten viser rapporten kun 'toppen av et isfjell' da vesentlige deler av grunnlagsmaterialet er nedlåst og skjult for offentligheten i 60 år fremover. Følgelig handler det kommende Stortingsvalget primært om å velge et Storting og en Regjering som kan og vil forsvare og fremme Parlamentarismen, Samfunnet og Borgerne. Det kan overhode ikke gjøres med LO sitt tilslørte kulturopphav.

Valgkamper utspiller seg dessverre ofte som politisk reklamekampanjer og 'Spill for galleriet'. De gjøres til verbale rugby kamper. Igjen kan man forvente 'emokratiske' klimaks nære valgdagen for at våre spontane ID-følelser skal overstyre fornuften. Verdt en stemme, er heller de kandidater og parti som fremmer realistiske planer for kvalitative leveranser til Nasjonen, samfunnet og borgerne. Dette vil bli nærmere

omtalt under valgkampen og relateres til tidligere UU (2013.april.26) om Livskvalitet Teori, - med politisk 3D modell, tilhørigheter og organisatorisk sosialpsykologi.

Carpark North er en kjent gruppe i Danmark. Trioen har levert en rekke hits med gode videoer og har fått en rekke priser og nominasjoner. Teksten til 'Transparent & Glasslike' handler om et parforhold i oppbrudd. I denne sammenheng er assosiasjonen hva AP spesielt, og borgerne generelt, bør erkjenne om LO sitt kulturopphav for å ta et endelig og avsluttende oppgjør med det.

Kommentar:

Den danske gruppen 'Carpark North' har mange gode sanger – og her er enda en. 'Human' illustrerer utmerket hvordan det kan føles å liberalisere seg fra dominerende 'Superior-Ego' som Patriarker & Matriarker, - samt deres kollektiviserte kulturer.

Forhåpentlig kan personer og organisasjoner omsider fri seg fra det forrige århundres WW kaldkrigskulturer.

Apocalyptica - Faraway Vol. 2

2013.aug.02

Ukens Utvalgte:

Denne siste UU om Livskvalitet & Imperier var ikke planlagt. Men den skandaløse passivitet av norsk UD mot en norsk statsborger i UAE, vekker tanker om hva de konstante kjerneproblem er. For når menneskelige behov og rettigheter er definert som fundamentet for Livskvalitet, - blir 'anti-HR' forkledd som religion et fundamentalt problem.

United Arabic Emirates (UAE) er en lille union på utkanten av den arabiske halvøy. Den består av 7 'kongedømmer'/Troner, har omtrent 5 millioner borgere, har enorme oljereserver og et relativt høyt lønnsnivå. Dubai er den absolutt største by med en tredel av befolkningen. Føderasjonens konstitusjon fremmer menneskerettigheter som likhet, frihet, sivilisert rett osv. På den annen side har alle emirater/Troner et eget islamsk teokratisk/Tempel rettsapparat, som refererer til islams Koranen og Sharia lov. Problematisk for sivilisasjonen er at de er skapt av stenalder-kulturer i krig og er følgelig sterkt preget av det. Stening til døden for utroskap (zina) er et eksempel. Dubai/UAE viser kun litt av den fundamentale juridiske schizofreni som Islam påfører i arabiske land og Nord-AU.

Litt uortodoks religionshistorie kan belyse den teokratiske inkonsekvens. Patriarken Abraham er sentral for de 3 versjoner av monoteismen; Jødedommen, Kristendommen og Islam. Dette felles old-historiske kultur-fundament stammer fra ham. Abraham kom fra dagens Iran/Irak og tok hevd på et stykke land i

krigssonene mellom Egypt og Arabia, - og hevdet at selveste Gud gav ham det. Hans førstefødte sønn var med en egypter, hans andre var adoptert av engler (jødenes forfar) og resten av barna var med den 3 kvinne og ekteskapelige kone. Barna ble forfedre til de muslimske stammer.

Det er flere etisk besynderligheter i GT skriftene. Et er at Gud angivelig ba Abraham drepe adoptiv sønnen, men adlød heller en engels kontra-ordre. Hvis så, - er fundamentet til GT, NT og Koranen bygd på ugudelig adferd. Videre sies erkeengelen Gabriel å ha dikterte 'profeten' Mohammeds Koranen. Men hverken profeter, engler eller djinns er i stand til å fullstendig forstå Gud, så mangler, feil og misforståelser i skriftene er garantert. Videre er en erkeengel ingen toppsjef i engle-hiearkiet, men er heller en 'mellom-leder' uten det store overblikk. Dessuten sier skriftene at 1/3 av englene utvist fra Himmelen for angivelige å ikke lystre Guds befaling i forhold til Adam. Dette er en særs besynderlig beretning siden skriftene også sier at selveste Gud kastet Adam ut av Paradis pga lovbrudd.

Egypt har vekselvis vært okkupert av Arabia og Europa. Grekere/Roma0 tok Persias/Arabias Trone og følgelig det okkuperte Egypt. Egyptisk astrologisk religion (zodiac) (se UU 21.des.2012) kan gi erobrere av Tronen en 'Frelser' status. Foreningen mellom Egypt og Roma1 ved Cleopatra og Julius sitt barn Cesarion ville passet astrologisk (se UU 05.April.2012). Men teokratiske konflikter ødela det og skapte istedet NT varianten av den nye Age sin konge av stjernetegnet Fiskene/Pisces. Siden det nå er kun et par århundre til Solen går inn i stjernetegnet Vannmannen, forberedes mottagelsen av neste Age konge for stjernetegnet Vannmannen/Aquarius. Dette vil gi en overlegen teokratisk posisjon til vinnerne av slaget, men desværre for menneskeheten, - tilhørende monoteistiske skrifter er nådeløst apokalyptiske.

Det sies visst å være omtrent så risikabelt å kritisere muslimske teokrater i dag som det var å kritisere kristne teokrater under reformasjonen, - dannelsen av den demokratiske 'protestantismen'. Misforståelser ligger i at islamske teokrater ikke skiller mellom kjetteri (kritikk av teokrater) og blasfemi (kritikk av Gud/Allah). Dermed kan kritikere av blasfemiske teokrater risikere Sharia straff. Riktignok er det ikke dødsstraff i Koranen for blasfemi, men teokraters egne lover, Sunnah, utøver allikevel den slags dødsstraff i Guds og Allahs navn i såkalte Fatwa, - hvilket er maktmisbruk som antagelig er straffbart iht Koranen.

Sharia lovens to hovedkilder er Koranen og Sunnah. Koranen antas å hovedsakelig være diktert av erkeengelen Gabriel. Sunnah er Muhammeds egne eksemplifiseringer og er også preget av jødenes GT/Torrah. Derfor er Sharia loven og GT/Torrah så ens, mens NT/egyptisk/kristne humanisme står i sterk kontrast til disse. I alle tilfelle, GT, NT og Koranen sier alle at man skal stå til ansvar for Gud. Følgelig kan ikke teokrater tillate seg selv-justis, selv om en oldtids profet angivelig skal ha skrevet det. Slaveri og dødsstraff ved stening, eller 100 piskeslag, for utroskap synes heller å komme andre kilder. Eksempelvis forteller jo skriftene ofte om de ganger profeter oppdaget at de ble forført av Gud/Allah's motparter.

Den såkalte Marte-saken vakte enorm global oppmerksomhet i løpet av en uke. Det psykososiale Spillet i er helt klart av typen 'RAPO' og ikke tidligere omtalt i dette UU tema. Det var sex mellom 2 to personer (EU og AU/UAE), hvor det er uklart om det var frivillig eller ei. Voldtekt meldes til UAE politi. Koranen/Tempel sier straff er skal være steining til døden for ham og tortur ved 100 piskeslag for henne. Piken overtales til å trekke anmeldelsen av UAE-menn. UAE-politi anser dermed første anklage som falsk og gir piken 1-2 år fengsel for 'falsk forklaring', sex og alkohol. Norske UD fortier saken i 4 måneder inntil saken omtales i EU media. Det globale demokrati protesterer voldsomt og forårsaker betydelige diplomatiske og kommersielle konsekvenser for Dubai. UAE emirat/Trone benåder begge så det hele kan forties igjen. Denne lille 'Dagmar-effekt' (se UU 2013.mai.17) gir særlig bekymringer for hva 'Det muslimske brorskap', og relaterte politiske aktører, har gang i.

'Det muslimske brorskap' ble etablert før WW2 og er drivkraften til den såkalte 'Arabiske vår'. Siden 'brorskapet' tilsynelatende ikke har en sentral ledelse, kan det selvfølgelig allikevel styres av skjulte aktører. Grunnleggeren Hassan al-Banna sitt erklærte mål er å etablere et imperie fra Spania til Indonesia, - dvs, inklusive AU, EU, UAE, halve SU og Asia, men ikke UA eller US. Formålet er å innføre Koranen og Sunnah lov som den eneste referanse til for familier, individer, samfunn og Stater. 'Brorskapets' trosbekjennelse er at; 'Allah er objektiv, Koranen er lov, profeten er deres leder, Jihad er deres vei og døden for Allah er den

høyeste ambisjon. Siden islams farve er grønn, kan dette også kalles 'grønn politikk'. 'Folkebevegelsen' bruker politisk vold og er angivelig ansvarlig for mordet på Egypts statsminister og for etableringen av Hamas for å konvertere Palestina til Islam. Følgelig er dette 'muslimske brorskap' forbudt ved lov i Russland som terror-organisasjon. Videre har Dubais politisjef har anklaget organisasjonen for å prøve å kuppe UAE regjeringen og omtaler dem som islamske diktatorer.

Den såkalte 'Arabiske vår' er en kaskade av islamske 'coup d'état'-forsøk av 'brorskapet' i hele beltet av Nord-AU og Nord-arabiske nasjoner. Denne arabiske vår-yr er blitt til eskalerende borgerkriger på andre året, - uten tegn til fredelige initiativ. Krigshistorisk er dette kun en gjentakelse av de muslimske invasjonene i Afrika ved Maurerne for over 1000 år siden. Etter at kristne spanjoler drev Maurerne ut av Spania igjen, kom den muslimsk/mongolske invasjon av Roma². Det 'arabiske forår' er ikke et tilfeldig folkeopprør for menneskerettigheter, men arrangert massekonvertering av AU & EAU nasjoner til anti-HR Tempel regimer. Det er så spekket med harde psykososiale spill at man skal passe godt på å ikke bli trukket inn som et offer i Spillet 'Lets Pull a Fast One on Joey' (Se Spill i UU 2013.mars.15).

US og SU har betydelige proxy-kriger i den arabiske verdenen også. Etter WW2 ble visse arabiske land erkjent kompensasjon og fordeler under krigsoppgjøret av UK/US/SU i Teheran-konferansen i Iran. Det synes å ha med olje-leveranser å gjøre. Ingen visste vel da at Irans Trone ville kuppes av et ekstremt Tempel regime. SU startet senere invasjonen av Afghanistan, mens US forsynte opprørere med våpen. SU trakk seg omsider tilbake, men US og UN ble trukket inn ved WTC angrepet i NY, - like ved UN's hovedkvarter. Dermed har det utviklet seg til en global og grenseløs religions krig.

Sett fra EU side er øyen Kypros (Cypern) avgjørende viktig for AU og UAE forhold, - også fordi Kypros ligger forran Suez kanalen som er bindeleddet mellom Middelhavet, Rødehavet, Stillehavet og Atlanterhavet. Øyen er EU medlem, men de okkuperte nordlige deler er adskilt med UN fredsstyrker, - som Israel/Palestina var. Okkupasjonen angis i dag å være Tyrkisk, men har opphav i ottomansk muslimsk/Roma². Kypros er et transittland for SU mafias penge, våpen og narkotikatraffikk. EU/Kypros mottiltak har tydelig irritert subkulturer siden Treholt selv står frem i media og kritiserer EU. Videre rammer dette de omtalte Enneagram/NLP aktører (se UU 2013.april.12), og andre Stasi/Gru agenter. NRK sitt reportasje om den ufrivillige SU agent 'Selmer' bør aldri glemmes (se UU 2013.juli.05). Har man ikke tidligere vært oppmerksom på potensielle konsekvenser ved skandinaviske RAF subkulturers samarbeid, så kikk nærmere på Kypros. Aldri skal man slutte å spørre: Hvordan i all verden kunne et 'coup d'état'-forsøk og politisk ungdoms-massakre skje i Norge i fredstid?

Statoil sitt engagement i AU-Arabia synes å bli vel så betydelige som UD/NORAD sine aktiviteter. Det tas sikkert store forbehold og forsiktighet for å utvide engagement til såpass politisk risikable marked som er kontrollert av AU og UAE. Med all etterpåklokskap kan man allikevel undres over hvordan Statoil kunne rammes så hardt som i terror-angrepet mot gassproduksjonsanlegget i Amenas i Algeria ved Libya. Eller hvordan UD u-hjelp til Somalia og Eritrea kan bli klaget til UN Sikkerhetsråd om skjulte kommersielle motiver for Statoil, - samt sabelrasling om betydelige 'uroligheter'. Selvom 'Marte-saken' synes ubetydelig på personnivå, er den særdeles viktig for å forstå HR kulturkonflikter på globalt nivå. UD har et spesielt ansvar for å profesjonelt håndtere potensielle 'Dagmar-effekter' på tidlig tidspunkt. Så skal det bli særdeles utfordrende etter Norges kommende parlamentsvalg å rydde opp etter blant annet fortidens 'Knoll og Tott'-ministre.

En finsk Cello trio har spesialisert seg på heavy rock. Tross det dystre navnet Apocalyptica, har de noen særdeles gode stykker. Særlig har de vært omhyggelige med å finne gode gjeste-vokalister. Dette stykket, og særlig videoen, gir assosiasjoner om at man bør overveie nøye, flere ganger, før man eventuelt begir seg ut på risikable oppdrag 'far away', - så vel som hotel, som oljebransjen. Man skal heller ikke være helt fremmed for at det hele kan hovedsakelig er et Spill satt i scene.

Ekstra UU kommentar:

Som nevnt ble denne ekstra UU om 'Livskvalitet & Imperier' skrevet på grunn av de seneste aktuelle UD/HR hendelser. Denne sangen av Associates er særdeles kunstnerisk og beskriver så levende de tilsvarende svik UD og AP/LO regimet representerer for Menneskerettsloven, - ikke bare i egen regjering og ungdomsorganisasjon, men også for norske borgere i utlandet. Den såkalte Marte-saken viser så tydelig at UD sin passivitet førte til at offeret urettmessig måtte sone straff i umenneskelige forhold. Det var på tross av UD, og ikke på grunn av UD, at det globale demokrati sørget for reaksjoner og benådning. Dog kan man gi UD halvt rett i at kvinner skal ikke være bekymret for å anmelde voldtekt under Sharia lov, - ihvertfall så lenge AP/LO ikke har regjeringsmakt.

Peter Gabriel – Biko

2013.Juli.26

Ukens Utvalgte:

Afrika er verdens nest største kontinentet, har 20% av landjorden, enormt rikt på ressurser, menneskehetens opphav og har 15% av verdensbefolkningen. AU (African Union) ble dannet i 2002 og inkluderer 54 av de 55 nasjoner. AU har et Parlament (Pan-African Parliament), en Menneskeretts Kommisjon (African Commission on Human and Peoples' Rights), et felles økonomisk system (African Economic Community), samt et Styre (African Union Government) med Lovgivende, Utøvende og Dømmende organer. Så er det besynderlig at AU og Afrikas utvikling er så lite omtalt i mediene, - hvor det heller vises befolkningskriser eller dyreprogram. Det er noe alvorlig galt mellom virkeligheter og fremstillinger, - som neppe er tilfeldig.

Old-historisk kan man si at Egypten var Afrikas mektige stenalder-imperie og langt foran andre sivilisasjoner. Veksten skapte naturlignok nye kontakter og relasjoner. Men på et tidspunkt ble forskjellene uoverkommelige og stridighetene med nabo-imperier i Arabia og Europa tok overhånd. Rundt år 0, det nye Age, sto Arabia/Tempel, Egypt/Trone og Roma/Stat opp mot hverandre. De kunne ikke eksistere i egne lukkede verdner mere. Skjæringspunktet mellom de tre makter er en permanent slagmark. Det titusen årige Imperiet i Egypt falt med stenalderen. Siden har Afrika aldri vært samlet, - om man så kan si at det noensinne har vært det.

Mest omtalt i historiebøker er den europeiske kolonitid i Afrika. Den angis som årsaken til Afrikas underutvikling som nasjoner. Hovedsakelig var kolonistene UK, Frankrike og Holland. Deres aktiviteter var antagelig sammenlignbart med kolonialiseringen av Amerika. Men Afrika er et større kontinent med en lang

historie og mange naboer. Utviklingen har derfor flere årsaker. Hovedårsaken finner man naturligvis i 1900-tallets WW og kollaps av andre imperier og nasjoner, - samt veksten av andre.

Opprinnelig kom den store europeiske interessen for Afrika som en indirekte følge av gjenoppgagelsen av Amerika. Skipsfarten fulgte havstrømmen som gikk fra nordvest Afrikas kyst til Mexicos gulf. Tilbake fulgte Golfstrømmen enten tilbake til Afrika eller forbi UK og Norge. Således ble skipsnasjonene Danmark/Norge involvert i handelstriangelen Afrika-Amerika-Europa. Selv Tordenskjold, den norsk-danske nasjonalhelt og pirat, var med. Det betyr også at Russland var involvert allerede da. En grell side av handelen var slaveskipene. Riktignok var, og fortsatt er, arabisk slavehandel i Afrika omfattende. Frakten av slaver til Amerika var en brøkdel av all afrikansk slavehandel. På den tiden inkluderte slavehandelen også over en million hvite europeere, inklusive Islendirer. Hvit slavehandel ble mulig med konverterte europeere som mellommenn. Men omsider, i 1815, etter Napoleons regimet sitt fall i EW0, vedtok Europa avskaffelse av slaveri, samtidig med frigivelsen av Norges som en selvstendig nasjon. Men Arabia har aldri opphevet slavehandelen.

Den illegale side av Handels-triangelen (EU-AU-US) holdes fremdeles i live, - nå med narkotika. AU er blitt et av verdens transitt-land for de fleste typer narkotika. Så kan man saktens spørre om narkotikahandelen kun er av nyere dato. Det er da usannsynlig at de mest verdifulle varer fra Amerika til Europa utelukkende var bomull og sukker. Det vites jo at kokain alltid har eksistert, at det var utbredt i Amerika og fristet antagelig europeere den gang som nå. Så kan man jo tillate seg å spørre om 'bløder-sykdommene' i de engelske, tyske og russiske Troner kun var genetiske, eller om det ikke også skyldes overforbruk av det nye syd-amerikanske 'vidunder-stoffet' kokain. Varene i den tredje del av handelsruten, fra Europa til Afrika, er heller ikke særlig omtalt. Det var våpen, som ble brukt for å sikre posisjoner og ressurser på Afrikas vestkyst, samt Amerikas øst-kyst.

Efter WW2 ble Afrikanske nasjoner systematisk de-kolonialisert fra EU. I dag er de fleste afrikanske nasjoner blitt republikanske Stater med president-system. Men kun et fåtall nasjoner har oppnådd permanente demokratiske regjeringer. AU består av særdeles ustabile nasjoner, som er stadig mere stabiliserende. Til sammenligning var det i perioden 1960-80 ca 70 Statskupp og 13 president-mord. Årsaken til ustabilitetene var selvfølgelig SU-US proxy-kriger i WW3. Eksempelvis sies at hungersnøden i Ethiopia økte ved SU sin politiske nødhjelp. Fremdeles får nord-afrikanske stater SU militær 'hjelp' og sentral- og syd-Afrika får US og Fransk 'hjelp'.

U-hjelp i EW3 handlet stort sett om pengeoverføringer fra Stater via organisasjoner til utvalgte grupper i Afrika. Politisering av u-hjelp i seg selv indikerer betydelig korrupsjon. I dag kan man se at mislighold av norsk u-hjelp er i 150 av 309 saker, hvorav 35 mill kr av 30 mrd, 1 promille, er tilbakebetalt, - samt at ytterst sjeldent får kriminaliteten rettslige konsekvenser. Dermed er avsløringen av den danske RAF celle sin 'u-hjelp' til PFLP (Folkefronten til Palestinas Befrielse) ved penge, våpen, narkotika og menneskehandel, kun en indikasjon på en rekke omfattende skjult og politisert u-hjelps kriminalitet. Flere afrikanske Stater sliter fremdeles med konsekvensen av Stats-ekstremistisk u-hjelp. Det er derfor særdeles viktig at Økokrim etterforsker Utenriks Departementet og organisasjoner som NORAD, - med eventuell rettsforfølgelse etter Straffeloven, - så som med rette er gjort mot organisasjonen 'SOS Rasisme'. AUs nasjoner behøver selvfølgelig ikke Stats-prosjekter basert på SU satellitt-Stat modeller. Det er like selvfølgelig i AU som i resten av verdenen.

De aller fleste nasjoner i AU har forlatt total Statsstyring og innført blandingsøkonomi med betydelig suksess. Investeringene øker og nasjonene finner løsninger på egne premisser. Dette enormt rike kontinentet har alle potensialer. Dessuten får nasjonene den fordel å springe direkte over det forrige århundres tunge industrialisering/sekundærnæring, fra jordbruk/primærnæring til tjenester/tertiærnæring. De kan starte oppbygning med hjelp av moderne IT og mobiltelefoner, - så som Island. Hvis man virkelig ønsker å hjelpe Afrikanske nasjoner, så skal man heller lytte til den nye generasjon afrikanerne i TED foredragene; 'Cheetahs vs. Hippos' & 'A new look at Afrika'. Nasjoner behøver selv-realisering - ikke Superior-Ego styre. 'Utviklingshjelp' går feilaktig til organisasjoner, korrupte Stater og feil-investeringer. Regjeringer er blitt fiendtlige til privat sektor, - og det er destruktivt for nasjoners demokratiske

fundament. Stats-styrt 'utviklings-hjelp' har skapt avhengigheter og redusert Afrika til 'sosial-klienter' (ID/Sulk) i marionett-stater (S-E/Ma). Faktisk har EU, og andre Unioner, meget å lære om den slags korrupsjon og behøver å erkjenne at de selv lider av det. EU kan hjelpe AU frem til egen selvhjelp.

Starten av dette århundre byr på betydelige positive potensialer for AU. På den annen side er det selvfølgelig noen nye trusler også. Det er alarmerende besynderlig at AU hovedkvarter (AUCC) ikke er finansiert og bygget av afrikanere selv, - men er en gave i 2012 fra Kinas maoistiske Statsregime. De styrer garantert dets IT også. Er det da underlig at AU politikk i stadig større grad favoriserer Kina? AU bør hurtigst mulig finne alternative lokaler for å bli 'Herre i Eget Hus'. En annen ny trussel er 'Den Arabiske Vår' i Nord-afrikanske nasjoner. Disse kaskader av revolusjoner antydte en kort varighet, men er nå på det andre året og fremdeles på sitt verste i borger-kriger. Teokratisk sett er Afrika delt i to, - kristne i syd og muslimer i nord. AU bør for all del unngå de dårlig skulte kvasi-teokratisk krigs-Spill det her legges opp til. Religion, Menneskerettigheter og andre arabiske tema, er blitt så aktuelle at et ekstra UU i denne delen om 'Livskvalitet og Imperier' vil avsluttes med afrikas mektige nabo UAE (United Arab Emirates).

Peter Gabriel har flere ganger vært med i UU. En presentasjoner av ham er derfor unødvendig. Som ufrivillig soloartist fant han helt nye veier innen kunsten. Helt unntaksvis lavet han denne klart politiske protest-sang for afrikaneres menneskerettigheter. På den tid var det omfattende globale krefter på gang for å demokratisere det sydafrikanske regimet. I dag burde mange andre afrikanske nasjoner få tilsvarende oppmerksomhet og oppvekkelse. 30 år senere fremfører Gabriel stykke hos David Letterman med en klassisk versjon og i et anerkjent gobalt media. En generell versjon av sangen kan saken gjenbrukes på dagens anti-demokratiske regimer i Afrika, - eller enda viktigere, - for alle de eliminerte kinesiske menneskerettighets forskjempere.

Ultravox - White China

2013.juli.19

Ukens Utvalgte:

UA (Union of Asian) er en fiktiv betegnelse til dette UU tema. Det er en forestilling om at det asiatiske kontinent også vil finne felles grunn som unionene i de andre kontinenter, - en gang i neste halvdel av dette

århundre. Lignende UA er offisielt foreslått, men ikke besluttet. For enkelthets skyld vil hovedfokus her være på Kina som et Roma5.

Europeiske historiske relasjoner til Asia er langt eldre og omfattende enn folkeopplysningen sier. Det finnes dokumenterte møter, handel, ambassader og slag med Roma1 før år 0. Forbindelser gikk landveien og sjøveien fra Rødehavet ved dagens Suez kanal. Det finnes også beretninger om en 100 manns romersk legion som ble fanget og bosatt nære mongolsk område. I alle tilfelle, kan militær kunnskap være overført og tilpasset. Kina skal endog selv ha seilt store fraktskip langs kysten til Rødehavet/Afrika og hentet varer og kunnskap. Etter det muret Kina seg inn i århundre i den tro at de dermed visste og hadde alt.

Sist gang Europa merket utviklingen fra den andre siden av jorden, var da mongolske khans/keisere invaderte. Som omtalt i UU 2013.mai.24, har antagelig Marco Polos 'opdagelse' av Kina, samt muslimske relasjoner, trigget de katastrofale kriger mot Roma2 og 3. På 1200 tallet vandret mongolene ned fra fjellene til Beijing og okkuperte den kinesiske hovedstad. Invasjonen var simpel og ligner Roma1 taktikk. De kringsatte byen og røvet alle som ville inn eller ut. Byens avanserte forsvarsmekanismer kunne ikke beskytte innbyggerne mot hverandres egne sult-reaksjoner. Likeledes var mongolske invasjoner i Midtøsten og Europa vel så simple og effektive, men også særdeles kyniske og grusomme. Invasjonene stoppet kun fordi ledere måtte returnere til den sentrale Trone da khanen døde. Det var tid for maktskifte og alle ville ha sitt. Mongoler-imperiet var spesielt relatert til den muslimske invasjon av Roma2 på 1500 tallet. Det påvirket følgelig plasseringen av Roma3 i Moskva, samt valg av Ivan som tsar (se UU 2013.Mai.24).

Asia ble igjen vekket ved WW2. Alle europeiske Troners keisere falt i EW1. De asiatiske keisere falt i WW2. Tidligere var Mongolia konvertert av Roma3 til en SU marionett-Stat. Igjen ble Beijing konvertert av en mongolsk invasjon, denne gang med stalinistisk SU ideologi og Mao som førende marionett. Kinas konvertering fra Trone til Stat overgikk alle tidligere systematiske menneskeforfølgelse og massedrap. Kultur-revolusjonen var neppe for kinesisk selvrealisering fra UK, - men heller med SU/Roma3 assimilering som endelig mål. Antagelig var SU sin plan å assimilere hele Asia, men den feilslåtte invasjonsplan av Japan i WW2 begrenset tilsvarende assimilering av de øvrige asiatiske nasjoner. Dessuten besluttet FN Sikkerhetsråd at Syd-Korea kunne beskyttet seg med støtte fra UN nasjoner som US, UK, Australia, Canada, Syd-Afrika, Benelux, Frankrike, Syd-Afrika m.m. Flere asiatiske nasjoner kjøpte følgelig beskyttelse av US mot SU sine indirekte invasjoner og borgerkriger. Det ble en SU-US proxy-krig med de fatale teppebombinger mot invasjonsstyrker i Korea og Vietnam. Korea ble splittet i to mellom SU og US, - som Tyskland etter WW2. Så fulgte våpenhvile uten fredsavtale mellom Nord og Syd Korea i et halvt århundre.

Nord-Korea fortsatte følgelig å masseprodusere SU våpen i et halvt århundre og isolerte seg i perfeksjonering av masseødeleggelser. Nå er republikken på bristepunktet med et tikkende våpenlager, - i en kollektiv psykotisk-nevrotisk krise. Dette Kinas alter-ego er verdens desiderte største trussel mot seg selv, mot sine omgivelser og følgelig mot hele menneskeheten. Nord-Korea har tross offisielle uttalelser nære relasjoner til Kina og dets trusler mot Tibet, Taiwan, Syd-Korea, Japan og andre nabo-områder. Nord-Korea har således meget til felles med Stalins relasjoner til det nasjonal-sosialistiske regimet i EW2.

Det finnes en enkel løsning på den slags problem, - i teorien. Nord-Korea skal simpelthen frigis fra SU tvang. Dernest skal de få reelle siviliserte betingelser via UN til å omlegge industri og kultur, for endelig og forenes med sitt alter-ego, - Syd-Korea, samt resten av Asia. I praksis skal SU gi avkall på den halvt århundre trellebinding og erkjenne sitt 'sunk cost' av invasjonsforberedelser og militære investeringer. Grunnleggende problematisk er at hverken SU eller Kina har mentalitet til å 'tape ansikt/maske' på det vis. Så dette psykososiale Spill med menneskeheten som innsats, denne mentalt Gordiske knute, denne S-E/S-I arvesynd, - kan bli hele Asias Nemesis.

SU/Roma3 sin assimilering av Kinas har gitt eksponentiell økonomisk vekst. Men Partiet har overhode ikke realisert løfte om sosialisme. Halvparten av bøndene er fratatt sin jord mens det vokser frem en super-rik elite som hovedsakelig er relatert til parti-topper. Veksten er åpenbart grunnlagt på pirat-kopiering av industri, by-utvikling, teknologi, kultur og finans, - så vel som IT programvare. Kina er et asiatisk 'Pirat Bay' - imperie. Den overlegne konkurranse-evne skyldes hovedsakelig ekstrem 'sosial dumping' og illegal stats-

subsidering. Videre ga overdragelsen av Hong Kong en finansmaskin til Kina som kan brukes til kontinentale investeringer, men også misbrukes i globale finans-kriger. Det er derfor særdeles betenkelig at IBM solgte Thinkpad, med teknologi, ansatte og kunder (som det norske Parlament) til den kinesiske Stat. Det ga Imperiet de nødvendige ressurser, nettverk og teknologi til å bedrive betydelige IT hacking, spionasje og info/penge manipulering. (I den sammenheng vises det til UU 2013.april.26 om Handelshøyskolen BI sitt salg av mitt masterstudie til Shanghai.) Så kan man saktens tillate seg å spørre om lojaliteten er nærmest SU eller US. Dessuten, når SU antagelig har 'gitt bort' industrihemmeligheter av enorme verdier til Kina, er det selvfølgelig mot betydelige gjenytelser. Hva er de, - og hva er konsekvensen av å angre på disse hemmelige avtaler?

RAF (rote arme Faction) gjorde seg beryktet som sosiopatiske borgerkrigs-celler i vestlige nasjoner. RAF ble konstruert etter Stalins konsept fra sin fortid som mafia-boss i SU/Kaukasus. Lederen av det danske RAF/Blekingegadebanden, Gotfred Appel, konverterte fra stalinisme til maoisme. Følgelig er den dansk RAF relatert til Beijing regimet, selv om det fremdeles indirekte styres av SU. Videre viser kidnappingsforsøket av 'Jörn Rausing' et samarbeide med svenske og norske RAF celler. Det er uvisst om avsløringen viser at danskene var flere, mere aktive eller simpelthen mere klønede. Videre er omfanget av Moskvas og Beijings RAF celler uvisst, men sannsynligvis betydelige og tidvis fatale. Eksempelvis vites at de danske RAF brødre Weimann var konsulenter og installerte datasystem hos politiet og i Utenriksdepartementet. De fikk fortrolig adgang og hadde ansvaret for vedlikeholdet, som i praksis betyr adgang til å lese, kopiere og manipulere data. Samtidig lavet yngstemann det såkalte 'jødekartotek', antageligvis på oppdrag fra det palestinsk-muslimske PFLP/DFLP.

Kina har feilaktig og utilbørlig avpresset den norske Regjering. Årsaken skal være at Nobelkomiteen ga Nobels fredspris til den kinesiske humanisten Liu Xiaobo. Han har kritisert regimet, som ikke har ratifisert UN Menneskerettighets konvensjonene ICCPR og ICESCR, og følgelig tillater seg bestialske borgerforfølgelser, utpresninger og over 10 henrettelser daglig. Til tross for at Nobelkomiteen ikke er noe norsk statsanliggende, tillater Kina seg å avpresse regjeringen politisk med begrunnelse i at Fredsprisen influerer kinesiske indre anliggende. Til sammenligning prøvde muslimske ekstremister å gi den danske Regjering skyld for kjetterske 'Muhammed tegninger' i en dansk avis. De ble selvfølgelig kategorisk avvist fordi aviser ikke styres av demokratiske Stater.

Den norske Regjeringes motsatte reaksjon er særdeles besynderlig og kritikkverdigg. Regjeringen har latt seg true og ettergitt urimelige krav, som å gi Kina observatørstatus i Arktisk Råd i stedet for EU, som faktisk tilhører regionen. Videre vil Kina ha særrettigheter av Danmark for gruvedrift på Grønland med ekstrem sosial dumping. Utvilsomt er den danske regjering under utilbørlig press fra Kina, med trusler og fristelse på 16 mrd kroner i handelsavtaler. Men globalt sett står langt mere på spill, så som kinesisk etablering av utpost i NATO område, utvinning av uran, samt frihavn til Nordvest passasjen – den nye snarveien UA-EU. Alarmerende er avsløringen at SU/Cuba smugler atomvåpen til Nord-Korea via US/Panama-kanalen. Tidligere ble atomvåpen smuglet fra SU/Kaliningrad til SU/Cuba via danske farvann. Et kinesisk 'Cuba' i NATO-området blir en trussel mot hele UN. Derfor bør det nå være viktig å overprøve dansk rett til Grønland basert på ervervelsen etter Kalmarunionen (se UU 2013.mai.31) og UN Sikkerhetsråd.

Et langt mere positivt potensiale ligger i neste generasjon danske Trone-arvinger. Kronprinsen er gift med en australier som vil bli Danmarks dronning. Hans bror var gift med en kineser fra Hong Kong og er fremdeles indirekte knyttet med deres barn. Den danske Trone har dermed fundamentert grunnlaget for et betydelig forhold mellom Norden/EU og det kommende UA (Union of Asia). Videre har den danske handelsflåte betydelige langtids planer om varetransport med UA. Verdenshandel er en positiv nødvendighet under tydelige rammer med forutsetninger og formål, som spesifisert av UN, EU og WTO. Den danske Trone kan bli et sunt alternativ til de ekstreme danske Stats forbindelser via danske RAF.

Et scenarie er en kinesisk vekst og fall i første halvdel av dette århundre, som blir grunnlaget for en dannelse av et UA i den neste halvdel. En hovedgrunn til antagelsen av fallet er at Kina er fundamentert på mongolsk stalinisme, - noe som har vist seg ekstremt kynisk, xenofobisk og narsissistisk. I såfall, på et tidspunkt oppnår veksten sin metning og virkelighetserkjennelser blir nødvendige. Men denne 'ikke tape

ansikt' -kulturen blokkerer for nødvendige innrømmelser. Alternativet kan bli projiseringer av skyld og kollektivt selvdestruerende mot-reaksjoner. Dette worst-case scenariet svarer til forrige århundres SU taktikk med Stalin-nazi allianser i Tyskland. I dagens Asia er Nord-Korea konstruert for tilsvarende apokalyptiske formål, - og presset ut på et nevrotisk bristepunkt. Det er alarmerende for naboer som US, SU, India og Pakistan, som allerede er i alarmberedskap med sine egne atomvåpen.

For å avverge dette LYAHF Spill, er det avgjørende viktig at UN observerer, influerer og eventuelt reagerer i tide for å minimere Asias påtvungne selvdestruksjon. Løsningen er å fri Asia fra Stalins/Ivans tvangstanker om å kopiere Moskvas/Roma3 til et Beijings/Roma5. Kina og Nord-Korea må overvinne sitt innmurede xenofobi og delta i UN's siviliserte verdenssamfunn. Det avgjørende steget for selvrealiseringer er derfor at Kina ratifiserer UN konvensjonene for Menneskerettigheter; ICCPR og ICESCR, så siviliserte diplomatiske forhandlinger med nabonasjoner blir mulig. Herfra kan antagelig et kontinentalt UA (Union for Asia) fundamenteres i samsvar med resten av verdenen i UN.

Gruppen Ultravox ble presentert tidligere i dette UU tema med sangen Vienna. Den er prisbelønnet og har underliggende politiske hentydninger til starten av EW1. Denne Ukens Utvalgte er langt mere politisk tydelig og handler om Kinas utvikling og tilstand. Tittelen 'White China', og særlig videoen, viser tydelig hvor langt SU assimileringen av Kina har gått. Spørsmålet er bare om Kina kan se seg selv i speilet, uten fortrenghninger og uten å 'tape ansikt'. Stings sang for et par UU siden kunne godt i denne sammenheng lyde: 'I hope the asians love their children too'.

Kommentar:

10cc er også flere ganger brukt på grunn av deres særdeles underholdende tekster, - og ikke minst deres store musikalske variasjon. Den satiriske, men også ærlige tekst, er en lille hurtig psykoanalyse av overoppblåste Ego som Schicklgruber, Ioseb, Ivanovich, Mao, Kim, Gotfred, m.m.fl.

Thomas Dolby - Eastern Bloc

2013.juli.12

Ukens Utvalgte:

'Den kalde krig' er Europas EW3. Som nevnt er det særdeles besynderlig at en sådan 50 års krigssituasjon oppfattes som en allment normale livssituasjon. Det skyldes ikke minst Statsmaktens tilstand og påvirkning, især fra SU. De fleste europeisk demokratiske Parlater har allikevel klart å samlet krefter i en post-EW2 Union for å gjeninnføre demokratiske styringsverktøy i sine nasjonalstater.

For Europa var utgangspunktet elendig i denne andre halvdel av den 100 årig EW. Europa var en slagmark med verdenshistoriens største ruiner, menneskedrap og politisk dobbelt-terror fra SU og US. De tidligere europeiske diplomatiske forum var destruert; 'League of Nations' av EW1 og 'Concert of Europe' av EW2. I EW3 startet et nytt samarbeidet med Kull og Stål Union for å sikre energi, industri og forsvar i Vest-Europa. Derfra utviklet samarbeidet seg til EEC, og dernest EFTA migrasjon til dagens konføderale European Union (EU). Denne gang lykkes samarbeidet med United Nations som støtte og modell. EU er den UN verdensdel som nærmest lever opp til UN avtaler og intensjoner. De suverene EU-nasjoner samarbeider nå om felles Parlament, Regjering/kommisjon, Borgerskap, Sosialpolitikk, Frihandel, Finansstyring, Forskning, Stordriftsfordeler, Rettsikkerhet, Politi og Forsvar m.m. Videre er det nære tilknytning til Menneskerettsdomstolen i ECHR og Frihandels organet EFTA, som Norge er medlem av.

Europeerne ville ikke bli satellittstater av hverken SU eller US. Deres systemfeil var sterkt motiverende for å danne det alternative EU. Kort sagt var tanken å bruke det beste av de SU og US systemene og utelate feilene. Det kan synes som om SU & US er bygd på modeller for 'Supply & Demand'. Problemet er at disse to funksjoner i sammenheng, men ikke fungerer adskilt. Enkelt sagt skal et sunt samfunn ha en fleksibel balanse mellom individuell og kollektiv styring, ikke det ene uten det andre. SU er ekstremt Statsstyrt blir ineffektivt fordi mennesket sløser mer med andres penger enn sine egne, samt at pengeinnkreving skjer demotiverende ved tvang og trussel om straff. Samfunnet fremmer S-E og ID-Sulk/Jerk relasjoner. US er ekstremt personstyrt og er ineffektivt da rasjonelle kollektive investeringer, som infrastruktur, ikke kan finansieres uten ressurskrevende brukerbetaling. Samfunnet fremmer også S-E ved ID-Nerds relasjoner. Den mest alvorlige systemfeil er allikevel at SU og US ikke ratifiserte UN fundamentale Menneskerettigheter ved henholdsvis ICCPR og ICESCR. UN/Sikkerhetsrådet burde ikke ha medlemmer med veto-rett til noen som ikke selv anerkjente og respekterte UN fundamentet.

Ved inngangen til EW3 var Europa i verst tenkelige sosial-psykologisk krise. Den kollektive mentale situasjon tilsvarer påtvunget schizofreni av SU og US, psykotisk-nevrose ved SU-US dominerte S-E mot EU ID, samt manisk-depresjon ved seiers-rus og taps-sorg. Klinisk psykologi tilsier at offeret skal fri seg fra de dominerende S-E og bygge opp sitt eget Ego igjen. I praksis er dette hva oppbygningen av EU er. Internasjonalt samarbeide må arrangeres for å ikke bli utsatt for 'Splitt og Hersk' Spill mere. Man skal simpelthen bli enige med sine nabo-nasjoner om felles spilleregler, samarbeide og fredelige løsninger. Det viktigste av alt, tross imperiers og nasjoners rivaliseringer, - er selvfølgelig at menneskelige mennesker skal lede nasjonene. En person er ikke mere eller mindre OK fordi det er underlagt et dårlig sted, tid og regime. Personens Verdier og Moral er avgjørende. Derfor blir det så avgjørende viktig å fokusere på det Rette/Konstruktive/Gode i enhver person eller organisasjon, - uansett skjebnebesatt situasjon.

SU og US sine politiske systemer var nærmest konstruert som motsetninger. Deres fiendskapen var maksimal. Slagmarken Europa sin situasjonen før EW3 viser tydelig resultatet av de psykososiale Spill LYAHF (Lets You And Him Fight) og DAC (Divide And Conquer). Europa ble ruinert av Stalin/Hitler alliansen og ble følgelig splittet mellom SU og US/UK. Selv hjelpepakker som US/Marshallhelp var en del av Spillet om EU da et formål var å flytte avhengighet fra SU til US. De spilte det sosialpsykologiske Spillet 'Debitor', med de gevinster det avkaster. Videre kan SU-US skisma av EU minne sterkt om Spillet som TOL (Tuppen & Lillemor), hvor to teenagers vennskap plutselig blir til fiendskap for så å gjendanne vennskap under nye 'Gimmics'/Spilleregler. Alle disse påtvungne krigs-spill i EW3 hadde allikevel uoversiktlig absurde Spilleregler, da det kan synes som en salig blanding av Sjakk, Monopol, Poker, Rugby osv.

Alt om alt - hvis Rett skulle være Rett, - så skulle SU/Stalin også stilles for krigsrett med omfattende krav om krigsskade-erstatninger i Øst-Europa. Grunnen understrekes av Stalins etterfølger Khrushchev sin kritikk av Stalins ekstreme og massive forbrytelser mot sivilisasjoner og menneskeheten. Men rettsforfølgelse ville selvfølgelig blitt blokkert av SU sin urettmessige veto-rett i UN/Sikkerhetsrådet.

SU sitt mål med EW2 var tydelig å erobre hele Europa, - et mål som fortsatte i EW3, - men da med kald politisk krig istedenfor atomkrig. Plan B var å degenerere europeiske nasjoner ved korrupte statsforvaltning i Stalin-modell. Stalin innførte sine mafia-metoder i SU sitt Statsbyråkrati, som var preget av Roma1 sitt

'Cloak & Dagger' og Roma3 'Ivan den Grusomme'. Til byråkrati-krigene mot europeiske nasjoner ble det opprettet SU organisasjoner som STASI, RAF og KGB. En rekke vest-europeiske organisasjoner ble infiltrert og manipulert til å tjene fremmede makter, skjult som demokratisk sosialpolitikk. I dag dokumenteres det fra SU sin egen Glasnost politikk hva de fleste demokratiske borgere hele tiden har visst og påpekt. Millioner av korrupte offentlig ansatte tjente fremmede makter via tusener av celler relatert til SU organisasjoner. De gjør det sannsynligvis under tvangssituasjoner eller påført ignoranse og ikke av fri vilje. Prosessene er antydnet i videoen om Selmer i forrige UU.

Hvordan kan man så fri de masser av Spill-ofre i offentlig forvaltning for så å fri nasjonene fra sosiopatiske Spill? Vel – Norge klarer overhode ikke denslags alene, - viste terrorhandlingen av 22. juli 2011. EU nasjonene har i samarbeide tatt opp kampen mot de 3600 internasjonale kriminelle organisasjoner/celler i Europa. Norske Statspartier er påfallende avvisende til samarbeide med nabo-nasjonene om dette. Her er roten til problemet.

Thomas Dolby har noen politiske tekster og er som engelskmann også opptatt av Europa. Her er oppfølgeren til 'Europa and the Pirate Twins', med 'Eastern Bloc' fra albumet 'Astronauts & Heretics'. Denne gangen handler det om Berlinmurens fall. Navnene 'Joey' and 'Georgie' refererer til presidentene av henholdsvis SU og US. Det er en særdeles fengende sang som ikke minst skyldes gitaristen Eddie Van Halen. Etter dette albumet svant suksessen. Nå, etter 20, prøver Dolby å gjøre 'comeback'.

Kommentar:

'Ode to Joy' er EU sin hymne. Det er ikke sikkert at Disney's Muppet-team visste sammenhengen da de lavet denne versjon. Illustrerende er den da på mange måder. Et Nerdy team vil lave en harmoniserende konsert etter beste evne. Det går da også riktig godt intil et lille uhell skjer. Panikken sprer seg og det hele faller sammen i en kaskade av uhell. Gamlegutta, som noen 'Joey & Georgie', sitter på sidelinjen finner det hele underholdende. De vil gjerne se det igjen.

Sting – Russians

2013.juli.05

Ukens Utvalgte:

'Den kalde krig' var i realiteten WW3 og fortsettelsen av WW1 & 2. Men Spillet var fundamentalt endret idet FN var etablert som menneskehetens beskytter, en global Forum og forsvarsallianse med erkjennelsen at 'varm krig' gir tap-tap resultat. Det er allikevel særlig betenkelig at denne 'kalde krig' oppfattes som den normale livssituasjon av det store flertall. Skjønt, frykten for denne globale dobbelt-terror, kalt terror-balanse, sitter i en som i filmen 'The Day After'.

Den nye fremstilling av verdensordenen var simpel. Den besto av 1., 2. og 3. 'verden' og 2 globale forsvarsallianser US/NATO og SU/Warszawapakten. De delte Europa imellom seg. Det globale Forum UN ble opprettet, med nasjonene i Underhuset/G.A. og Imperiene i Overhuset/Sikkerhetsrådet. Nasjoner fikk stemmerett og Imperier fikk vetorett. For første gang i menneskehistorien ble globale rettigheter for borger-vs-stat realisert ved Menneskerettskonvensjonene. Det var allikevel mange globale 'juridiske smutthull' og FN var kun et politisk Forum uten noe reelt Rettsapparat. Systemet binder de lovlidige mens forbrytere slipper unna. (FN/UN er nærmere beskrevet i UU 2013.feb.15.)

Efter WW2 ble i praksis verden delt mellom de 'Big Three'; SU/Stalin, US/Roosevelt og UK/Churchill, selv om det var ingen FN mandat for denslags deling av krigsbytter. Det var da også betydelige 'huller', 'overlapp' og 'urimeligheter' FN konvensjonene, som verdenen fremdeles sliter med. Selve begrepet 'kalde krig' stammer kun fra George Orwell betegnelse av SU-UK krigsretorikk etter WW2. Selvom atommakter ikke våget å slåss direkte mot hverandre med dommedagsvåpen, var WW3 langt fra 'kald' i den øvrige verden. For avgrensningens skyld handler denne UU om WW3 i Øst- og Vest-Europa og følgelig primært med SU påvirkninger. Verdensdelen EU, AU og kommende UA vil omtales i de påfølgende UU.

SU opptrådte uhemmet grådig med sin 'ta alt'-politikk, sin selvforherligende ideologi og ustoppelige prosess for å trellebinde enhver nasjon. Inspirert av 'Ivan – den grusomme' ble 'Stalin – den grusomste' historiens desidert mest voldsomme forbryter mot menneskeheten (Se UU 2013.Mai.24). Denne head-hunted mafia-boss fikk integrert sin lederstil i byråkratiet, som i sin tur formet Stats-regimets filosofi, strategi og operative taktikk. På det tidspunkt kunne regimet bare se sin egen suksess og påførte således sin egen voldelige 'revolusjon' på svakere nasjoner. FN traktatene kunne ikke forhindre den slags indirekte invasjon og krigsforbrytelser fordi det fremsto som nasjonens indre anliggende.

Gulag hette SU sin organisasjonen for arbeidsleirer i perioden 1930-50. Programmet var langt mere omfattende og organisert enn hva man kjenner fra Nazi-kulturen og dens 'Arbeit macht frei'. Faktisk var flere av Nazi-leirene i SU område og følgelig organisert av dem. Det var over 50 arbeiderleire, over 400 arbeiderkolonier, med 14 millioner fanger, 6 millioner deporterte og 5 millioner korttidsfanger. 1-10 million borgere døde der.

SU Gulag hadde også et omfattende koloni-program for å sosialisere satellitt-stater. LO i Norge og Skandinavia er klart bygget på Gulag arbeider-organisasjonen. I LO sitt 100 årige eksistens er infiltrasjonen av Norges parlamentarisme og statsmakter omfattende. Videre var organisasjoner som RAF (Rote Arme Faction) og STASI betydelige for spionasje, infiltrasjon, manipulasjon og sabotasje og særdeles destruktive for europeiske nasjoner. Den skandinaviske RAF celle, tilsvarende øst-tyske Baader-Meinhof celle, ble offisielt kjent som den danske Blekingegadebanden. Disse gir indikasjoner om den skjulte og omfattende undergrunns krigføring i ren stalinistisk mafia-stil.

For Nord-Europa var det mest fryktingytende de omfattende 'prøve-sprengninger' av atombomber i SU nordpol-områder ved Novaya Zemlya og tidligere Novgorod. Disse ble hovedsakelig demonstrert for politiske beslutningstagere og ikke for mediene og borgerne. SU detonerte 224 atombomber, med sprengkraft 100 ganger all sprengkraft i WW2. Det tilsvarer en totalutslettende atomkrig i Nordpol-området og forårsaket følgelig en såkalt 'Nuclear Summer'. Tsar bomba, som ble detonert i ozonlaget, var 10 ganger større enn all WW2 sprengkraft tilsammen. Nå, etter 50 års økt UV-stråling, er polarisen så porøs at den hurtig smelter til vann og varmen øker 2 grader pr år. Dette er antagelig hovedkilden til dagens globale oppvarming. Det er forøvrig lite troverdig at radioaktivitet i Nord-Norge skyldes Tsjernobyl og ikke Tsar Bomba.

Mere personifisert er historien om den 15 årige gutt 'Selmer'. Han ble en offergave til SU Imperiet for å opplæres til spionasje i Norge. Det er en sjeldenhet av en dokumentar fra NRK Spekter, særlig fordi den ble ulegitimert forhindret av statsmonopolet NRK i 30-40 år. Historien gir en menneskelig beskrivelse om hvordan en ufrivillig person kan fremme Stats-terror og hvor hardt det kan være å komme seg ut av trellebindingen. Historien forteller også om den permanente frykt for at SU skulle 'nuke' norske byer og hvordan U2 flyet sannsynligvis ble 'skutt ned'. Man kan selvsagt tvile på enkelte av Selmers uttalelser, så

som at hans reiser til Oslo var kun for å feste og at han ikke kjente noen andre spioner. Til sist ble Selmer dømt av Stat for forræderi, men ble også benådet av Tronen. Alt-i-alt dokumenteres et eksempel på den massive trellebinding av uskyldige borgere for å ufrivillig tjene et destruktivt Imperie. Dette er et eksempel på Gulag globale koloniserings-program. Følgelig har AP/LO regimet sannsynligvis vært truet og fungert som en marionett-regjering for SU på vesentlige områder.

På et tidspunkt vendte SU regimets sin unisone hyllest av Stalin. Han var allerede død hjerteattakk, -så som Ivan og Lenin før han. Khrushchev ble det nye Stats-leder for SU imperiet. På Partiets 20. kongress sjokkerte han de indoktrinerte med kritikk av Stalins forbrytelsene og annonserte kampanjen for 'de-stalinisering' i SU. Følgelig ble det viktig med utadvendte distraksjoner for å kunne rette på interne feil ubemerket. 'Jernteppet' lettet på sløret og denne 'Festung SU' åpnet for offisiell utenrikspolitikk. Khrushchev sjokkerte så verden med sin tidligere intern retorikk, så som uttalelsen i Polen: "Whether you like it or not, history is on our side. We will bury you" og til Mao at: "Berlin is the testicles of the West. Every time I want to make the West scream, I squeeze on Berlin", samt uttalelser at US atom-missiler var overlegne.

All denne SU-US spenninger og Proxy-kriger kan oppsummeres til: Berlin blokaden (1948–1949), Korea krigen (1950–1953), Suez krisen (1956), Berlin krisen 1961, Cuban krisen (1962), Vietnam krigen (1959–1975), Oktober-krigen (1973), SU-Afghanistan krigen (1979–1989), SU nedskyting sivilt koreansk fly (1983), og NATO øvelsen i 1983. Konflikter ble uttrykt ved militære allianser, strategiske forhåndslagre, utvidet støtte til Proxy-land, spionasje, massepropaganda, våpenkappløp, forhandling med nøytrale land, idrettsarrangement, teknologisk rivalisering og romkappløp. Rivaliseringer ble utspilt i 3. verdens land som Syd-Amerika, Afrika, Mellem-Østen og Asia.

På et tidspunkt tvang virkelighetene seg igjennom hos SU regimet. Det ble åpenbart at 'idiotisk ondskap' gir tilsvarende resultater. Deres eget Imperie og Satellittstater var avfolket, torturert og demoralisert. 100 år med forvitrende ideologiske massepsykosier, nådde til sist de innerste partipolitiske sirkler. På et tidspunkt, om ikke ennå, må det erkjennes at destruksjon er destruktivt og ikke konstruktivt, samt at grunnen til all denne selvdestruksjonen var et simpelt feilslått prosjekt for å konvertere Imperiet fra Trone/Tempel til Stat. Som en irreversibel kjedereaksjon, som atombomber, destruerte imperiet seg selv og sine satellittstater.

Til etterord må det sies at historieskriving kan ikke bli helt riktig eller ukontroversielt. Dette får heller leses som et forsøk på å gi nye synsvinkler utfra all den nye informasjon internettet presenterer. Fremdeles er allikevel ordet 'Livskvalitet' fundamentet for temaet, selv om Imperier og menneskehetens rivaliseringer synes å overskygge enkeltmennesker. Det skal nok ta seg opp i det andre halvår av temaet.

Et hovedpoeng er allikevel at Stalin er en veldokumentert personifisering av det som omtales som S-E/Praetor – S-I/Predator i UU 2013.Mai.24 og de etterfølgende. Kort sagt løftes Freud/Berne sine teorier om S-E og ID til kollektivt nivå og kan dermed fungerer som 'overmenneskelige' krefter. S-E er for så vidt allerede definert i psykologien, men i denne sammenheng spesielt relatert til Roma Imperier og deres skjulte nestkommanderende Praetor. Denne Superior-Ego behøver en utøvende ID, - her kalt Superior-Id, som relaterer seg til hjernens kollektive underbevissthet, - 'øglehjernen', - Predator. Dette er med andre ord et forsøk på å forklare hvordan menneskeheten tidvis kan opptre som om de delte en felles psyko-sosioapatisk mentalitet på Stalin-nivå. Man kan jo selv sjekke hans psyke, - Stalin ville topp-score på de fleste punkter i Cleckley sjekklister for psykopati.

Artisten Sting var opprinnelig fra 3-manns gruppen 'Police'. Gruppen var influert av punk, reggae, og jazz og hadde en rekke hits og priser i sin tid. Sting valgte senere å opptre som solo-artist. Sangen 'Russians' er bygget direkte SU Khrushchev sine trusler med en utslettende atom-krig. Som den humanist Sting fremstår, har han noen menneskelige betraktninger sett fra flere sider.

Legendarisk er SU Khrushchev sin protest i FN/UN, hvor han sjokkerer hele verden med sin teatraliske demonstrasjon og gir en forsmak til hele GA om ABC våpen. Symbolsk nok er det kun ved å ta av sin sko og avdekke sine sokkers odør. Men skremt – det ble verdenen. Frank Zappa har sine beretninger om tilsvarende ufrivillig terror.

Peter Murphy – Cascade

2013.juni.28

Ukens Utvalgte:

Den andre verdenskrig, WW2, er det ypperste menneskeheten har påført seg selv av destruktiv galskap.

Det var ingen vinnere, - kun tapere. Selvinnbilte vinnere har tapt forstanden, selvom en kan ha følt

galskapens lykkerus. Dette er kontroversielle ord, - men det er sannelig på tide å betrakte verdenskrigen ut fra sosialpsykologiske sunnhetsbegreper. Følgende fugleperspektiv fra en slagmark gir tilsvarende kritikk av foranledninger og konsekvenser.

Man skulle tro EW Spillet var ferdig med WW1, - men som kjent var det verste i vente. Frustrasjoner over uavgjorte og tap-tap resultater ga behov for revansj og ekstraomganger. Det synes også som om noen okkulte 'profetiske' skripts ikke var fullført. 'Falske profeter' risikerte avsløring og at deres troende kunne bli stevnet for krigsforbrytelser. Dessuten var det fremdeles noen keisere tilbake i Asia. Etter EW1 kom det igjen store tanker om ny global verdensorden. En omkamp, en WW2 synes nødvendig, - men det behøvdes tid til forberedelser, – en våpenhvile - en mellomkrigstid.

'Mellomkrigstiden' 1918-1938 hadde vidt forskjellige utviklinger i US, SU og det gryende EU. US promoterte 'Free Enterprise' uten stats-regulering, mens SU tvangsinnførte statsstyrt Enterprise. Naturlignok fikk de begge økonomiske kriser da 'for lite' er så ille som 'for meget' angående ressurser, reguleringer, tid og penger. Demokratiet tapte i begge disse ekstrem-republikker, - i US ved konkurser og i SU ved konfiskeringer. SU gjennomgikk en unik 'revolusjon' ved gjenreisning av Roma3 i Moskva. I praksis

konverterte Trone/Tempel imperiet til en ny republikansk Stat. Klassekamp til et klasseløst samfunn betød i praksis å trellbinde eller avrette borgere/pleber som kunne være lojale til det forrige regimet. Til denslags utrenskende borgerkrig behøvde statsfigurer som er blottet for vesentlige menneskelige kvaliteter.

To figurer fremstår særlig sentralt i EW2. Den ene var 'Stålmannen'/Stalin alias Ioseb Besarionis je Žugašvili. Han var opprinnelig en lokal mafiaboss som avanserte til bolsjevikenes operasjonssjef i Kaukasus. De finansierte organisasjonen ved bankran, kidnapping, utpressing og drap. Han ble faget og sendt til Sibir syv ganger, men slapp fri hver gang. Han hadde ingen militær bakgrunn fordi han slapp militæret i WW1, angivelig på grunn av en dårlig arm. Behovet for bedre omtale ble ordnet med å lage den dominerende avisen Pravda (Sannhet). Så tok han sitt alias Stalin (Stålmannen) for å propagandere seg selv og organisasjonen. Lenin mente at Stalin var den rette person til å styre Sovjet og tilsatte han som generalsekretær. Straks fikk Lenin slag og måtte trekke seg. Stalin fortsatte Lenins meritter og sto for 10-doblet henrettelsen av egne borgere. Moskva fikk med Stalin et mafia-regime. Hans beundring av 'Ivan den Grusomme' burde gi ham tilnavnet 'Stalin den Grusomste' og endog 'av det tredje Roma'.

Den andre figur var 'Hister'/Hitler alias Adolf Schicklgruber. Han flyttet fra Østeriket til Tyskland og ble leder av det Nasjonal Sosialistiske parti. Adolf fikk regjeringsmakt ved en valgallianse med de Stalinistiske Nasjonal Kommuniste. Straks etter valgseieren ble Parlamentet brent og fremmet Hitler til diktator. Det er dermed god grunn til å spørre hvor sterk den tyske Nazi-Stalinist alliansen var og hvor meget som var 'Spill for galleriet'. Tidvis synes Hitler å opptre som en Stalins 'Mini-Me', en stalinistisk marionett i rivalens styre og en effektive erstatning for den Røde Armes grunnlegger Trotskij. SU sin nedtoning av kritikken mot nazismen og fascismen var begrunnet i troen at vestlige kapitalisters skjebne var å angripe og ødelegge hverandre, og at Hitler kun startet prosessen. En etterfølgende Sovjetisk invasjon av Europa ble ansett som relativt enkelt. I de følgende trekk i WW2 Spillet omtales for sammenhengens skyld; Italia=Roma1, Hitler-Tyskland=Nazi, 'League of Nations' =EU.

EW2 startet formelt med at det kristen ikon Etiopia ble invadert av Roma1. Det beviste at 'EU' var uegnet for et felles europeisk forsvar (1935). Nazi og SU brukte den spanske borgerkrig for å teste sine nye våpen og taktikker (1936-39). Japan angrep Kina og det SU-okkuperte Mongolia, men tapte på begge. Kina brøt avtalen med Nazi og inngikk avtale med SU. Japan ble overtalt til å fokusere på US i Stillehavet i stedet. (1937-38). Nazi og SU inngikk en ikke-angreps-avtale (Molotov–Ribbentrop Pact) i 1939. Nazi angrep Polen så SU kunne invaderte. SU tok Nazi side ved å true Finland, hvorefter de begge ble utestengt av EU av Frankrike og UK. Nazi erklærte så krig mot dem.

Nazi og SU inngår handelsavtale og Nazi ga SU gaver som krigsskip, 30 jager og bombefly, lokomotiver, tanks, eksplosiver og kjemiske våpen, samt adgang til baser. (1940). Nazi invaderer Danmark og Norge for kontroll av Østersjøen og Nord-Atlanteren. Sverige forblir nøytral. Nederlands, Belgias og Norges havnebyer blir bombet av Nazi fly. Roma1 invaderer Frankrike og erklærer krig mot UK. SU invaderer Østersjøens Estonia, Latvia and Litauen. Nazi tilbyr fred med UK mot å ikke ødelegge dem, - UK avviser. Japan, Roma1 og Nazi inngår Axe alliansen. SU inngår fred med Japan så de kan angripe US i stedet (1941). Nazi mener US og SU vil samlet angripe Nazi. Deretter angriper Nazi Kiev og St. Petersburg uten betydelig SU forsvar. Japan angriper US og UK i Stillehavet, inklusive Pearl Harbor og Hong Kong.

Axe statenes fremgang snudde i 1942 da Japan og Nazi tapte stort på sine to-fronts kriger. De allierte invaderte Roma1 og Frankrike. US tok så de fleste Stillehavsøyer. Den japanske keiser kapitulerte da US bombet Japan med atomvåpen. Til sist ble Nazi invaderte SU og US samtidig. Europa ble delt i øst og vest mellom SU og US. Tapene i WW2 var verdenshistoriens største med 70 millioner. De 50 millioner sivile døde av sykdom, sult, massakre, bombing og systematiske folkemord. Det globale FN og Vest-Europas EU ble etablert for at heller løse kriser diplomatisk.

Utover den kronologiske oppsummering kan en trekke noen konklusjoner om EW2: Billedlig sagt ble 'The League of Nations' ikke mere enn en samling hønsegårder med hodeløse haner. Tyskland og Japan havnet 'frivillig' i to-fronts-kriger. Den overraskende krig mot Japan forsinket kraftig US sin støtte til UK, samt racet om restene av EU. Nazi og SU krigsmaskiner valset frem og tilbake over Øst-Europa med store sivile tap og

lot ruinene bli enkelt for SU å okkupere. SU ventet på kapitulering av Japan for så å invadere, men keiserens abdisering gjorde invasjon uaktuelt. SU fikk og brukte Nazi krigsmaskiner. Dermed kan det ikke bevises om Nazi eller SU sto for Blitz-kriger mot f.eks. Rotterdam, Warszawa og Finnmark. Hitler hyllet 'Das Dritte Reich', 'Det Tredje Rike', som antagelig var 'Det Tredje Roma' – ikke Tysklands Berlin, men Stalins Moskva. Det er ingen grunn til å tro at denne fiasko av en korporal, denne media-klovn, selv var i stand til å ta kvalifiserte strategiske eller operative beslutninger, - men det kunne saktens hans stalinistiske kamerater fra den Røde Arme. Videre hyllet Hitler 'den ariske rase', som visselig stammer fra det muslimske Iran, - ikke det kristne Europa.

Teokratisk sett, kan en motivasjon for EW være okkulte fortolkninger av Tunguska hendelsen i 1908 (se forrige UU). De formaliserte Templer i Europa var en beskyttelse mot okkult teokrati og sikret ved de europeiske keiserdømmer og kirkesamfunn. Med EW1 falt hele Trone/Tempel strukturen og åpnet for figurer som Rasputin, Gurdjieff og Hitler. Det apokalyptiske 'Johannes Åpenbaring' åpnet for okkulte skrifter fra Nostradamus samlede 'profetier'. I J.Å. står skriptet om de 4 dommedags ryttere og i Nostradamus står skriptene om dommedags-diktatoren 'Hister'. Skriftene er absolutt ikke noen gudommelige profetier, - men skript for psykotiske sosiopater som vil realisere sivilisasjoners 'worst-case scenario'. Det okkulte fundament ligger i old-egyptisk Osiris tilbedelse, hvor død og gjenoppstandelse følger Solens sykluser. De store sykluser på ca 2150 år heter 'Age' og følger Solens gang igjennom de 12 stjernetegn. Moses representerte Stenbukken, Jesus representerer Fiskene og 'New Age' okkultister venter den kommende representant for 'Vannmannen/Aquarius'. Denne horoskoptype er stemplet ved gruppebevissthet, underholdning, selvuttrykk og diktatorer. Herfra stammer antagelig Chaplin-barten på Hitler. Problematiske er dog at Tunguska hendelsen kom minst 250 år for tidlig ifølge horoskopene. (Se mere i UU 21.des.2012.)

Denne UU er igjen med Peter Murphy, som opprinnelig var en kultfigur fra gruppen Bauhaus. I sin etterfølgende solokarriere markerte han seg med stykker fra lettere pop til tunge ballader med kompleks vokal og lyrikk av metaforisk og religiøs karakter. I denne sangen 'Cascade' er teksten hovedsaken, hvor han beskriver noen 'metafysiske' dunkle krefter, - som et kollektiv av Jinns. Opphavet kan ha med at Peter i en periode var fascinert av Iransk Sufisme, men uten å konvertere fra katolsk til Islam. Han avviste anklager med at han kun ga anerkjennelse. Denne UU kan godt være et uttrykk for nettopp dette.

Depeche Mode - The Sun and the Rainfall

2013.juni.21

Ukens Utvalgte:

Verdenskrigene, WW1 og WW2, var i realiteten en europeisk borgerkrig fra 1914 til 1945, - skal man tro noen kilder. Kontroversielt, ja, men det gir mening å se det i sammenheng. Helhetsinntrykk blir klarere enn med mediers 'swapping' fra 'action' til 'action'. Sett fra europeisk side, vil det derfor være mere opplysende å kalle Napoleonskrigene for EW0, WW1 for EW1, WW2 for EW2 og 'den kalde krigen' for EW3. Samlet sett er de EW.

Som nevnt i forrige UU kan Napoleonskrigene (EW0) være startet for å holde kontinental-Europa unna Amerika da US/Roma4 ble konstituert og skulle bygges. Uansett motiv, denne særegne løytnant, dette barn

av revolusjonen, forårsaket verdensrekord i død og ødeleggelser i Europa. Det er uklart hva mål og mening var for denne Statens selvutnevnte keiser, - annet enn å lede Tronenes lojale ut på slagmarkens sikre død. Riktignok var UK med i alle allianser mot Napoleon, men deltok med relativt få soldater. US derimot, tok Napoleons side i 1812-1814 under invasjonen og nedbrenning Moskva/Roma3. Selv bedyrte Napoleon sin uskyld i brannen. Mennesketapene i Europa ble rundt 5 millioner hvor omtrent halvparten var sivile borgere. Følgelig ble 'The Concert of Europe' (Congress of Vienna) etablert i 1815 som sikret fred ved diplomati. (Se også UU 2013.feb.22). UK fikk 'Pax Britannica', en eksklusiv råderett over Atlanterhavet.

Eksakt 100 år senere gikk startskuddet i Sarajevo for EW1. Det ble angivelig utløst ved en diplomatisk krise da Østerrikes keiserdømme ga Serbias Trone et ultimatum. Arvingen til keiserriket ble så skutt i Serbia og skylden plassert. Konflikten utviklet seg til å bli Troner (Central Powers) vs Stater (Allied). Selv om den nye industrialiseringen ble brukt til 'krigsmaskineri', ble allikevel gass og ild avgjørende for stillstand i skyttergraver. Krigs-Spillene gikk fra 'vinn-tap' til uavgjort - 'tap-tap'. 20 millioner europeere døde og det internasjonale forum 'Congress of Vienna' ble oppløst. Mest avgjørende for Tronenes abdiseringer var pestkrig mot Europa, - kalt Spanskekyken. Det villedende navnet ble til fordi spanske media varslet om hva som kom Atlanteren. Andre europeiske medier ignorerte spredningen. Tapstallene er usikre, men det antas at 50 millioner europeere ble drept og 20-50 millioner flere døde i kolonier og land rundt i verdenen.

Det var 3 keisere i Europa før EW1, samt en tyrkisk keiser i Roma2 og den aktive Paven i Roma1. EW1 sluttet da alle keiserne gikk av og den russiske keiserfamilien overga seg til det gjenreiste Roma3 i Moskva. De gikk under frivillig tvang, angivelig til en rettfærdig rettsprosess om forhold omtalt i UU 2013.mai.17. Dog var den nye republikanske Stat i Moskva hverken demokratisk eller rettfærdig. Imperiet ble lukket for omverdenen og startet i stedet borgerkrig og utrensning av Tronens 'pleber/borgere' og assimilering av vasaller/treller. Overordnet sett handlet 'revolusjonen' om å konvertere imperiet fra Trone til Stat, - øyensynlig til enhver pris. 'The League of Nations' ble dannet i Europa for å igjen løse uenigheter på diplomatisk maner. I Europa vokste nasjonalismen da alle behøvde å gjenreise sine nasjoner. Tyskland ble spesielt hardt straffet med krigserstatninger som langt overgikk normalen. De følte seg urettfærdig behandlet.

Et helt annet forhold, som kan ha påvirket holdninger før EW1, er den såkalte Tunguska hendelsen. I 1908 skjedde en eksplosjon over Sibir med styrke tilsvarende 1000 ganger Hiroshima bomben. Lysstyrken opplevdes tilsvarende solens og nattehimmelen over Asia og Europa (og sikkert Amerika) berettes å lyse i flere døgn. Den slags hendelser er tidligere tatt som avgjørende religiøse tegn på store forandringer. Alle Troner var den gang nært knyttet til Templer. De keiserlige søkte antagelig svar på hva 'tegnet' betød for deres skjebner. Videre har antagelig mindre seriøse religiøse grupperinger funnet alternative forklaringer og planer. Tronene synes å ha mistet støtten fra de offisielle kristne Templer og sto alene i kampen mot de revolusjonære Stater. Okkulte personer som Rasputin og Gurdjieff fikk mere oppmerksomhet enn normalt fordi de kom med svar på det ingen kunne vite. Det forrige århundres hendelser kan således være vel så religiøst motivert som ideologisk.

Depeche Mode ble et særdeles suksessfull synth-band med rundt 50 sanger og 13 album på UK charts. Bandet har solgt over 100 millioner album. Til deres debut album var selveste Vince Clarke med. Men de to neste album, 'A Broken Frame' & 'Construction Time Again', var i en annen stil. I ettertid kan man se på platecoverne at det var en planlagt sammenheng med politiske undertoner. Dette er kanskje en forklaring på hvorfor Vince fikk «discomfort at the direction the band were taking», og forlot bandet. I alle tilfelle, bandet uttrykte mange tilsvarende holdninger og fikk betydelig støtte til sin enorme popularitet. Det skal dog sies at uttrykkene er heller poetiske personifiseringer av reelle situasjoner enn fanatisk partipropaganda. Tekstene har menneskelige fokus på mennesker satt i system.

Saga - Humble Stance

2013.juni.14

Ukens Utvalgte:

Helhetlig objektiv info om imperiebygging er naturligvis utilgjengelig, - mest fordi det er for omfattende, kontroversielt og kjedelig for allmennheten. Det er dog nødvendig med en viss kjennskap til fortidens prosesser for å være forberedt til de kommende. Erfaringsvis kan menneskers og menneskehetens omkostninger bli unødvendig høye.

Motpolene Roma 3 & Roma 4 hadde i det forrige århundre motsatte forhold til åpenhet om informasjon. Dermed er info om deres parallelle prosesser langt mere tilgjengelig for US enn SU. Med allmenninteressens hensyn tas det her utgangspunkt i dokumentaren '500 Nations'. Det er en 6 timers dokumentar om hvordan de '500 indianer nasjoner' ble til 50 Stater i løpet av 500 år. Beretningene er fra de innfødte og er troverdig dokumentert, - selv om ensidigheten ikke gir et fullstendig bilde. Man bør derfor ikke falle for allskens politiske Spill med projisering og tilsløring av skyld. Man kan med fordel se alle 8 episoder sammenhengende for å få helhetsinntrykk. Et hovedpoeng i denne UU er dog å holde fast i hypotesen om eksistensen til S-E/Praetor som en tilslørt nestkommanderende, tidvis med alternativ agenda, og reell påvirkning av S-I/Predator.

'500 Nations' viser tydelig at det var et hovedmotiv å beseire den dominerende Aztec kulturen i Mexico. Erobrerne var sannsynligvis rekruterte korsfarere fra det falne Roma2. 'Målet helliger midler' og minner om G.T. krigføring mot tilsvarende pyramidebyggere i Egypt, - inklusive metoder som teokrati, bedrag, slaveri og bakteriologisk krigføring. Faktisk døde flest innfødte av nye sykdommer som kopper, - en virus som ikke engang medisinen alkohol kurerer. 'Korsfarerne' svekket det meste av kulturene i mellom- og vest-amerika og innførte trelldom i ren SPQR stil.

UK var den første til å kolonialisere øst-US med New England. I begynnelsen fant innfødte og innvandrere sameksisten og samarbeide. Men strenge G.T. teokratiske krav utløste kulturkollisjoner og opprør. Det eskalerte senere utover kontinentet. Psykososialt, synes Spillet LYAHF (Let's You And Him Fight) å være hyppig. Innfødte stammer ble vekselvis med i allianser med UK, Frankrike, og senere US, for hver gang å bli etterlatt i slaget av den sviktende allierte. '500 Nations' viser tydelige tendenser om organisert bedrag som; brutte fredsavtaler, samling til massakre, aggressiv presseomtale, falske anklager, militant assimilering, tvangsflytting og korrupte velferdssystem. I praksis var det kun to utfall av prosessen; assimilering i US eller asyl i Canada, - men de fleste døde i prosessene.

Den 500 års prosess endte med at Spania dominerte Syd-Amerika, UK dominerte US og Frankrike dominerte Canada. Geopolitisk skulle man tro at Nord-Europa ville markere seg ovenfor Canada, - men det skjedde ikke. En årsak er naturlig nok splittingen av Kalmarunionen på 1500 tallet og tilhørende stridigheter mot Tsar Ivan og Roma3. Dessuten satte den selvutnevnte keiser Napoleon Europa i brann i 1792, da US ble konstituert og kampklar. Europeiske aktiviteter i Amerika ble følgelig nedprioritert og styrker tilbaketrukket. Roma4 fikk fotfeste og startet siste fase av assimileringen av nord-amerikanske kulturer. Herfra stammer de fleste 'vill vest' historier en kjenner fra underholdningsbransjen, - men '500 Nations' gir naturlig nok et helt annet fokus på hendelsene.

Sett med fokus på menneskers og menneskehetens Livskvalitet er en viktig lærdom at de fleste parter er uskyldige i den slags fatale psykososial Spill, som krig og annen stridighet er. De aller fleste 'innfødte' og 'innvandrere' var gode mennesker med gode hensikter, og som antagelig hadde funnet gode løsninger av seg selv. Dette kan understøttes av at innfødte og innvandrere antagelig ikke var så forskjellige som

folkeopplysningen antyder. Som nevnt i forrige UU er sannsynligvis Nord-Amerika oppdaget flere ganger av Europeere i århundrer før 1500 tallet. Se bare på bildene av 'indianernes' utseende, - dessuten, - rød ansiktsmaling blir ekstra mørkt på sort-hvit bilder.

Den teokratiske påstand at innfødte mangler 'sjel', og dermed legitimerer trelledom, har trekk av blasfemisk ondskap. 'Indianerne' synes heller å ha en etisk religiøsitet som langt overgår 'korsfarerne' i 'Vestindia', Mexico og California. Det samme kan man anta om sivile i Nord-Europas Novgorod og Norden. Bemerkelsesverdig er også at; selvom kulturen først ankom Mellom-Amerika fra Spania, har antagelig innflytelse vært betydelige fra Roma3, UK og endog Napoleons 'keiserrike'. Så som 'alle veier fører til Rom', fører de naturligvis også derfra, - om de så møtes igjen andre steder på kloden i nye Roma.

Når man så ser på prosessene til Roma3 og Roma4, er det tydelig at korsfarere fra Roma2 ble brukt til utrenskninger forut for assimilering og restrukturering. Korsfarere avanserte i løpet av århundrene fra riddere til kavaleri. Problematisk ble det at disse 'hellige krigere' antagelig besto av de mislykkede, hevntørstige og lavmoralske rester fra det tapte Roma2. Beretninger fra Roma3 og Roma4 gir endog en viss forståelse for hvorfor mongolere og muslimer reagert så voldsomt mot Roma2. Det hele bunner i indre stridigheter om de tre generasjoner monoteisme, - som igjen bunner i Abrahams familiefæder for nesten 4000 år siden, - arketypen til den teokratiske versjon av Spillet LYAHF. Med all respekt for alskens religioner, - den slags 'arvesynder' bør ikke få forkludre menneskehetens vidreutvikling.

SAGA er en canadisk art-rock gruppe som slo igjennom på 80 tallet med sitt debut album og denne UU's 'Humble Stance'. Gruppen er mest kjente for sine tidligste verk hvor de demonstrerte sine spesielle musikalske evner. Dette stykket har først en tradisjonell poetisk halvdel, og så den musikalske halvdel som overgår de fleste bands prestasjoner. Noe særegen er dette stykket da vokalisten tar over bassgitaren og bassisten hjelper på keyboards. 'Humble Stance' sin tilsynelatende kyniske tekst beskriver den harde realitet for mange, som heller burde få vite sannheter enn å få fortelser og bedrag. Så kan man heller forme sin egen fremtidige Livskvalitet, - eller sagt med populærpsykologiske ord; - bli 'Voksen'.

Lene Lovich - Home is Where the Heart is

Ukens Utvalgte:

Det er en bold hypotese at byggingen av imperiene US & SU startet samtidig på 1500 tallet - da tvilling-imperiene Roma 1&2 omsider falt. Historieundervisning har jo helt andre fokus. Allikevel, nå har det blitt tilgjengelig med mengder av informasjoner som antyder sammenhenger. Som Tsar Ivan erobret Novgorod i vest ble også Sibir i øst erobret. Imperiet har dermed vært en nær nabo til Nord-Amerika siden 1500 tallet. Denne relasjon har sannsynligvis vært betydelig i et halvt tusen år.

Andre relasjoner er langt eldre. Det åpenbare faktum at Columbus ble møtt av innfødte er et 100% sikkert bevis på at Amerika ble oppdaget før 1500 tallet. Spørsmålet er ikke om, men når dette skjedde. Svaret er at Amerika er oppdaget mangfoldige ganger av mange folkeslag fra flere retninger. De eldste anerkjente menneskefunn stammer fra vest og er 40.000 og 12.000 år gamle. Millioner av år tidligere vandret dinosaurer over det isbelagte Beringstredet, - mellom kontinentene Eurasia og Amerika, mellom dagens Sibir og Alaska. Når så mennesket erkjennes å være over 200.000 år, samt at humanoide arter er over 2

millioner år, har vandringer antagelige vært utallige selv om rester av deres bosetninger er forsvunnet. Thor Heyerdal beviste med RA-båtene at egyptiske pyramidebyggere kan ha kolonialisert Mellom-Amerika for tusener år siden. Videre beviste han med Kon-Tiki at syd-amerikanere sannsynligvis befolket de polynesiske øyer i Stillehavet.

Det er også godt bevist at nordiske folk bosatte Island, Grønland og Newfoundland. Således kan de også ha bragt innfødte fra Nord-Amerika til Grønland. Hvorvidt reisene gikk videre vest og sør i Amerika er ikke bevist. Det diskuteres dog om 'runestenen' i Kensington/Minesota er ekte. Videre diskuteres stadig opphavet til gudene Quetzalcoatl (Aztec) og Viracochas (Inca), da de tilsynelatende har europeisk utseende. Det er endog dokumenterte beretninger om møter med 'hvite indianere' flere steder på det amerikanske kontinent. I alle tilfelle, disse gjenfundne beviser, dokumentasjoner og indikasjoner, viser at gjenoppdagelsen av Amerika i 1491 kan ha vært basert på forhåndsviten. I så fall bør 'oppdagelsen' heller anses som et formelt startskudd for kolonialisering og imperie-bygging.

US flagget har UK opphav og ble gjort offisielt på det symbolske årstall 1777. Det er interessant å se utviklingen av flagget. Opprinnelig var det 13 striper for de 13 UK kolonier og 13 stjerner i en 'canton', for de 13 US stater. Bemerkelsesverdig nok er EU flagg tilsvarende den 'canton' i det opprinnelige US flagg. Videre er US konstitusjonen's 'Bill of Rights' basert på den franske 'Declaration of Human and Civic Rights' fra 1793. De tilsvarer UN konvensjonen om politiske rettigheter (ICCPR). US fundamentet er, med andre ord, hovedsakelig europeisk.

Som nevnt hadde Tsar Ivan et nært forhold til UK Dronning Elizabeth I, med forsvars og handelsallianser. Det var på 1500 tallet, da Roma3 ble påstartet og Amerika ble offisielt oppdaget. Diplomati ble dog brutt med Ivans hjerteattakk. UK har følgelig vært nært knyttet til begge imperiebygginger fra starten av. Det finnes endog antydninger om kong Arthur av Camelot sine relasjoner til Roma1 - 1000 år før dette – da Roma1 falt. Filmen 'The Last Legion' fremstiller Arthur som i slekt med dens siste keiserfamilie.

Mindre omtalt er Roma3 sin innflytelse på imperiebyggingen av US. Sibir ble også erobret av Roma3 og den region strekker seg til helt ut til Beringstredet. Det er kun 80 km bredt og delt på midten av to russiske øyer, 'Diomedes'. Det er så kort avstand at man sannsynligvis kan bygge broforbindelse mellom Sibir og Alaska. Roma3 tok Alaska på 1600 tallet og anså dette som sin provins. Først i 1867 ble Alaska solgt til US, for 7,2 million dollar. Besynderlig er det at Canada ikke var del av den transaksjon, da den har øyensynlig en naturlig geografisk tilhørighet som Canadas vestlige provins. British Columbia, som skiller Alaska fra de øvrige US stater, falt dog hurtig fra UK til Canada. Alaska ble en US stat i 1912, rett før WW1, rett før avrettelsen av den siste tsar-familie og gjenreisningen av Roma3 i Moskva. Grensen mellom US og SU ble således definitivt lukket.

Amerika er en 'smeltedigel' av mange kulturer. Afrikansk, europeisk, asiatisk og ikke minst 'innfødt indiansk' innflytelse er langt større enn den russiske. Det er ikke poenget i denne UU. Hovedpoenget er å belyse den 'glemte' innflytelse fra Roma3. Spesielt hadde 'Russian-American Company' et utvidet koloniserings program på 1800 tallet og annonserte gullrush for rekrutering. Det var ikke vellykket, da de fleste fant det heller mer attraktivt å flytte sydover til California, - og endog videre. Det synes så tydelig at US er, som SU, bygget opp fra grunnen samtidig. Herfra konkluderer jeg at disse 20. århundredes SU og US var tvilling-imperiene Roma3 og Roma4, - basert på de opprinnelige Roma2 og Roma1.

Lene Lovich er enda en artist som er ufortjent ukjent, selvom mange kan gjenkjenne coverversjoner av sanger som 'Lucky Number' og 'I think we're alone now'. Hun er ikke russisk selv om klesdrakent og 'soundet' kan virke så. Inspirasjonen kan komme fra hennes far som kom fra Serbia, som den gang var dominert av SU. Hennes tema om reiser og frihet kommer antagelig fra hennes oppvekst i US og og UK. Navnet er ekte nok, som en forkortelse for Lili-Marlene Premilovich. Hun har et langt artistliv med teater, film og musikk. Utover hennes livsledsager Les Chappel, har hun samarbeidet med artister som Thomas Dolby, Nina Hagen, Erasure – og overraskende for VDGG kjennere, - Peter Hammil og Judge Smith. Uansett opphav og intensjoner til melodiene, - her er det valgt 3 nummer for å illustrere hva de kunne ha følt og opplevd, de som flyktende fra Roma3, via Sibir og Alaska, til Amerika.

Tangerine Dream - Kiev Mission

2013.mai.31

Ukens Utvalgte:

Østersjøen/Baltikum sin betydning for Norden var som Middelhavet for Europa. Det er et uvant fokus for nordmenn som lever mot Atlanterhavet, men ikke for det meste av Nord-Europa. Elveveiene bandt Middelhavet og Østersjøen sammen som en snarvei og en bakdør. Følgelig er Norden tradisjonelt langt mere knyttet til Sentral- og Øst-Europa enn folkeopplysningen tilsa. Det var før denne tid med fly, tog og telefon, som har redusert betydningen av sjøen og elvene. Det er dog overaskende hvor sterkt underbevisste kulturelle holdninger sitter. Man kan jo reflektere litt over farger og mønstre i flaggene til Sverige, Ukraina og Europa.

For 500 år siden var det ikke nasjonsgrenser som i dag. Man kan heller tale om multikulturelle regioner og kongedømmer. Novgorod var opprinnelig den nordvestlige region i Russland, men byen Novgorod ble en særlig viktig havneby. Den nye regionen vokste naturlignok og naboregioner, som Hansastater, fant god nytte av elveveien til Middelhavet. Følgelig ble det viktig for Roma³ å kontrollere disse områder som Roma² hadde relasjoner med. Tsar Ivans massakre i Novgorod flyttet på strategiske punkter og man revurderte deretter. Elveveien mellom Norden/Østersjøen og Middelhavet gikk også igjennom Hviterussland (Belarus) og Ukraina, hvor Kiev ble en viktig hovedstad. I dag, holdes de nasjoner fremdeles hard i tøylene ved terror-politikk. Fra den senere tid kjenner man godt til forgiftning av statsminister Victor Yushchenko, arrestasjonen av statsminister Julia Timosjenko, samt de suspekt klønete foranledninger til atomkatastrofen i Tsjernobyl.

Rundt 1400 dannet de tre Troner i Norge, Danmark og Sverige en nordisk union (Kalmarunionen) for å styrke samarbeidet og stå sammen imot rivaler. Historisk var det en diplomatisk prestasjon da de nordiske indre stridigheter var store. Norge inkluderte på den tiden Island, Grønland og Færøyene, og Sverige inkluderte Finland. Det var et konføderalt samarbeide, men det var aldri noen juridisk overgivelse av land til unionen. Det fungerte i omtrent 100 år inntil Moskva konverterte til Roma³. Sverige, med kong Gustav Vasa inngikk i motstanden mot Imperiet. Den danske Trone erklærte så ensidig at Norge, med Grønland, Island og Færøyene, var sin provins. Det har selvfølgelig aldri vært juridisk anerkjent. Splittingen av denne Nordens Union skjedde samtidig med Tsar Ivans aggressive erobringer og massakre på kontinentet. Det er derfor nærliggende å se hendelsene i sammenheng. Dette understrekes med det faktum at kong Frederik II sin bror, Magnus av Holstein, ble utpekt av Tsar Ivan som konge av Linovia (Estonia). Han kan ha fått ambisjoner for den danske Trone også, da den eneste barriere var hans bror. Magnus fikk en russisk hær på

20.000 for å erobre svenske områder som da var del av motstandsbevegelsen mot Roma3. Men med Tsar Ivans død måtte Magnus abdisere og Danmark ble uønsket i Baltikum.

Dagens Nordisk Råd og Nordisk Ministerråd er opprinnelig en gjenoppbygning av den nordiske union fra 500 år tidligere. I dag er denne union for økonomisk og politisk samarbeide, men en kan tydelig merke kulturarven på godt og vondt. Unionens resultater preges av å være som beskrevet i Wesensteens sketsj 'Norsk Supperåd'. Det er som om Rådet lider under et permanent resultat av Spillet DAC (Divide & Conquer), en organisert apati og hvor Rådet er mere splittende enn samlende. Frykt for terror, Maslow-pyramidens og Livskvalitetens grunnleggende behov, synes å være den kollektivt kulturelle tvangstanke fra 1500 tallet.

Den kalde krigen er betegnet som en terrorbalanse mellom SU og US. Men Norden var ikke utsatt for noen balanse, kun dobbelt terror, hvor det gjenreiste Roma3 dominerer. Selv etter den kalde krigen kan man se at Nordisk Råd er bundet til Kaliningrad, Leningrad og Murmansk. De byer var henholdsvis representert som 'Østersjøens Cuba', KGB/FSB, samt test-område for massiv atombombing. Videre er det daglig fergeforbindelse mellom Kaliningrad-Gdansk-København-Oslo. Sverige og Finland har antagelig tilsvarende indirekte forbindelser til Kaliningrad. Mere markant og tydelig er de direkte terror-flyvninger mot Nordisk Ministerråds medlemsland med bombefly for atomladninger. Denslags vekker minner om SU terrorbombing av Bornholm i WW2, samt truslene om å gjøre København/Sjælland (Selandia) til et Øst-Danmark, tilsvarende Øst-Tyskland og Øst-Europa. Frykten påvirker effektivt dagsorden og beslutninger i Nordisk Ministerråd. Derfor er det på høy tid med rotering av Nordisk Ministerråd, som man har rotering av Europas Ministerråd. Følgelig stivner ikke Norden i dette Danmarks 'halve kongerike', denne propp i Østersjøens flaskehals og denne Tsar Ivans vasallstat.

Det lyder kanskje vel sterkt, - men det må ikke misforståes til å være en kritikk av Danmark eller andre nordiske nasjoner. Skjebnesvanger plassering på kartet og ringvirkninger av global politikk har tvunget personer og nasjoner til fatale 'med-oss eller mot-oss' valg. Den slags Spill-manøvre har eksistensielle konsekvenser med fatale tap, så moralen kan bli undertrykket. Utdringer i dette århundre er dermed å oppgradere virkelighetsoppfattelser til dagens virkelighet. Massepsykotiske tvangstanker fra den kalde krigen synes å dominere fremstillinger og beslutninger. Om så 'Frykten er et våpen', så skal det ikke glemmes at frykt er en personlig psykisk tilstand og ikke noen virkelighet. Frykt er en illusjon skapt av terror-politikk fra den såkalte 'terror-balansen'. Således, kan man sannelig få inntrykk av at Roma3 sitt kollektive Praetor/Predator desværre er effektivt.

Det er kanskje søkt å sammenligne psyken for personer og nasjoner, - men allikevel noen betraktninger: En terrorisert person, eller familie, behøver hjelp utenfra for å komme ut av tvangssituasjonen. Når så er gjort gjenstår et betydelig arbeide for å bli av med fortidens frykt og tvangstanker. De behøver sikkerhet mot terroristen for å ikke falle tilbake til et selvdestruerende Jante Spill. Når det er sagt, - så kan en undres over hvordan den halvt århundre lange WW3 (Kalde Krigen) egentlig var, selvom de fleste av oss aldri har opplevd annet. Internettet slår sprekker i lerretet i Platons hule så skyggspillene blir tydeligere.

Gruppen Tangerine Dream er mye brukt her i UU. Dette må dog sies å være en unik opptagelse, fra mellomperioden etter gruppen var for abstrakt til de ble for kommersielle. Gruppen har dog alltid hatt en lyd kvalitet som overgår samtidens. Stykket 'Kiev Mission' er her fremført så originalt som mulig, - endog med noe så sjeldent som tekst på russisk. Man kan se bruken av deres tradisjonelle synthesizere som var store som bygninger. Første del av stykket åpner med massiv støy, som den beryktede Kiev senderen. Deretter får man høre hva 'Kiev mission' kan ha vært. Til slutt presteres et nydelig 'pling-plong' stykke til ettertanke. Når man så ser oversettelsen av teksten, kan man få et inntrykk at det ikke nødvendigvis var av ond hensikt, men kan ha vært et uttrykk for et ønske om positiv sameksistens og utvikling. Følgende link gir også to unike helaftens konsert med det moderne Tangerine Dream. Det inkluderer det meste av instrumenter. Selv en gitar-duell er med.

King Crimson – court of the crimson king

2013.Mai.24

Ukens Utvalgte:

I tidligere UU omtales forhistorier til Roma1 og Roma2. Her omtales forhistorier til Roma3, samt forhold til Norden. Dagens internett er opplysende i forhold til det forrige århundres 'folkeopplysning' til den OD arbeiderklasse. Folkeskolens historiepensum synes mest å være 'need to know' for oss utenfor 'jernteppet'.

Som nevnt ble Moskva utpekt som 'det tredje Roma' etter at 'det kristne Roma' falt for en muslimsk/mongolske invasjon rundt 1450. Det ble naturligvis en overordnet prioritet å sikre Roma3 sitt fundament, så det aldri skulle bli nødvendig med 'et fjerde Roma'. Hva kunne man lære av de tidligere feil og suksess, og hvordan burde det nye Roma designes? Dette var nok spørsmål som engasjerte mange forskjellige krefter med vidt forskjellige motiver. Russland hadde særdeles mange kulturer på den tid, som nå skulle underlegges, forenes og assimileres om nødvendig. Man kan jo forestille seg forsamlingen i forgården (the court) til den kommende 'konge over alle konger' og 'utøver av Guds vilje'.

Ivan IV Vasilyevich var kronprins i Moskva på den tiden. Han ble naturligvis utnevnt til keiser/tsar over hele Russland og fikk en rolle tilsvarende Julius Cesar av Roma1. Det ble en sterk allianse og posisjonering av Trone og Tempel. Stat hadde en mindre rolle i begynnelsen. Det russiske Tempel erklærte seg uavhengig av Roma2 i protest mot et forlik i Firenze. Deretter tok Russland det bysantinske riksvåpen, - den dobbelthodete ørn. For Ivan var det usedvanlig mange giftelystne piker. Man kan knapt forestille seg kompleksiteten av dette TOL Spill. Omsider ble Anastasia Romanovna den utkårede. Hun var en vel ansett tsarina og påvirket antagelig Ivans beslutninger betydelig. Men tsardømmet var naturligvis utsatt for sterke krefter internt og eksternt. Tsarinaens tidlige død ved forgiftning var mistenkelig og Tsar Ivan beskyldte sine motstandere. Det er dog ikke paranoid å føle seg forfulgt når man faktisk er det.

Det sies at Ivan var standhaftig, intelligent og en dyktig diplomat, men også at han hadde irrasjonelle utbrudd og tilfeller av mental sykdom. Anastasia sin død forsterket dette og tsarens politikk ble sterkt

endret og preget av hevn og brutalitet. En sådan krisesituasjon er naturlignok for meget for et enkelt hode, så diktatorisk myndighet ble delegert. Når feil og konsekvensene øker, øker også stress og nevrotiske reaksjoner, - som igjen skaper feil. Snart ble hans betegnelse 'grozny' omfortolket fra 'formidable' til 'terrible'. Tanker om henrettelsen av den demokratiske filosof Sokrates og hans forgjenger Julius Cesar, kan ha vært avgjørende for Tsarens aggressive politiske skifte. Stat fikk makt i henhold til 'politi over politikk'. Organisasjonen 'Oprichnina' ble opprettet som Roma3 sitt hemmelige politi. De sørget for overvåking, arrestasjoner og henrettelser i imperiet. Selvom organisasjonen ble offisielt oppløst etter 14 år, har tilsvarende 'politistat' vært operativt for etterfølgende autokrater som Peter, Lenin og Stalin. Sannsynligvis har den aldri opphørt, men kun skiftet sted, navn og personale.

Det var en rekke voldsomme kriger i imperiet for å erobre Sibir i øst og Novgorod i nord-vest, samt å holde grensene i syd mot khans. Sentralt var en fatal konsekvens at Moskva brant ned med sine innbyggere. I forhold til Norden og Europa var regionen Novgorod spesielt aktuell. Opprinnelig var det en vikingby ved elveveien mellom Østersjøen og Svartehavet. Det er flere beretninger om nordiske relasjoner for 1000 år siden med Middelhavet, Roma2 og endog Jerusalem. Regionen reagerte på Imperiets ekspansjoner med raids, invasjoner og blokader sjøveien. Polakker, litauere, svensker, hollendere og tyskere var med i denne motstand. Imperiets reaksjoner ble voldsomme og endte ut i den såkalte Novgorod massakren. Således kan det se ut som den tradisjonelle heksebrenning og annen tortur av 'vantro' i Norden heller har opphav i Russisk-ortodoks Statspoliti enn det Romersk-katolsk Tempel. I alle tilfelle, det blir mere fokus på Norden i neste UU.

Det er også verdt å nevne noen andre bemerkelsesverdige forhold til Roma3. Mindre kjent er det russisk-engelske forhold som Ivan skapte med dronning Elizabeth I. Englands ønsket en handelsallianse, mens Russlands ønsket en forsvarsallianse. Ivan ble garantert asyl i England hvis hans regime skulle falle. Denne garanti ble ikke aktuell for Ivan døde av hjerteattakk. Denne garanti så ut til å svikte også for den siste tsar og hans familie i WW1, da de ønsket hjelp fra England. Videre hadde den siste Romanov tsar-familie en datter kalt Anastasia. Det var spekulasjoner etter WW1 om at hun overlevde og var arveberettiget. Men det er mere sannsynlig at ryktene refererer til ønske om at Moskva skulle gjenoppta den kulturelle arv fra den opprinnelige tsarina Anastasia.

Til etterord: Det er sannsynligvis en overordnet sammenheng i utviklingen fra Roma1 til 3. Roma3 sitt 'Oprichnina', det hemmelige Statspoliti, er en nøkkelindikator. Tilsvarende organisasjon fantes i Roma1 også, - da kalt 'Praetor Guard'. Begrepet finnes også i sammenheng med Roma2, men da betydelig videreutviklet. Praetor i Roma2 var keiserens 'første minister'. Roma2 delte imperiet i 4 hovedregioner med hver sin praetor. Dermed ble splittingen et faktum og resultatet ble som i Spillet DAC (Divide And Conquer). Roma2 sine praetors har sannsynligvis blitt med til dannelsen av Roma3 og iverksatt sine strategier og operasjoner. En opposisjonell Tsar eller Tsarina ville anses som uønskede hindringer, - som kan fjernes. Etter Tsarinaens død, skrives det at Tsar Ivan å døde av hjerteattakk i en omgang sjakk. Kanskje det, hvis han også fikk se Oprichnina/Praetor sine strategier og operasjoner for Roma3. I forhold til psykososiale Spill er Oprichnina/Praetor nærmest som en definisjon. Identiteten og Spillene forblir allment skjult fordi det er hemmelige organisasjoner iboende egenskap. Problematisk er det dog, hvis demokratiets Livskvalitet ikke respekteres. Alvorlig er det, hvis organisasjonen anser seg som et Superior-Ego og enkelt-mennesker som mindreverdige. Katastrofalt er det, hvis deler av organisasjonen opererer som et Superior-Id, - som en overmenneskelig 'Predator' og har tilpasset seg egenskaper fra dyreverdenen. Ubeskrivelig er det, hvis det også har arvet Ivans mørke mentalitet som en kollektiv tvangstanke.

Den engelske gruppen King Crimson ble dannet i '68 og var av de virkelige store innen art rock. Det legendariske debut album 'In the Court of the Crimson King' er betegnet som blues-basert rock, blandet med jazz og klassiske symfoniske elementer. Albumet relaterer seg til band som Pink Floyd, Genesis, Yes, King Crimson, ELP, Jethro Tull, Mike Oldfield, Moody Blues og Van der Graf Generator. De opprinnelige medlemmer var Robert Fripp, Bill Bruford, Adrian Belew, hvor Fripp ble bandets konstant. Senere perioder inkluderte bassisten Tony Levin, kjent fra Peter Gabriel. Til denne UU kan man forestille forsamlingen til Ivans forgård den første perioden. Stykket Epitath passer til det sammen, - på et senere tidspunkt.

John Foxx - Systems of Romance

2013.mai.17

Ukens Utvalgte:

Som nevnt er det mulig å bruke analyser for person på organisasjoner. Således kan selv de mektigste imperier ses fra ganske andre sider. Man skulle tro at det mest 'uskyldige' menneske, et lille pikebarn, ikke kunne bli en hovedperson til menneskehetens mest dramatiske rivaliseringer og omveltninger. Men som en 'sommerfugl-effekt' ga 'Dagmar-effekten' globale konsekvenser for menneskehetens Livskvalitet i 100 år.

Dagmar hette en ung dansk prinsesse, som ble giftet med tronarvingen til den mektige Romanov tsar/keiser-familie i Russland. Det var utvilsomt et arrangert ekteskap da hun også var forlovet med storebroren til han døde. H.C. Andersen, den danske eventyrforfatter, beskrev Dagmar's avskjed med Danmark så her: "Yesterday, at the quay, while passing me by, she stopped and took me by the hand. My eyes were full of tears. What a poor child! Oh Lord, be kind and merciful to her! They say that there is a brilliant court in Saint Petersburg and the tsar's family is nice; still, she heads for an unfamiliar country, where people are different and religion is different and where she will have none of her former acquaintances by her side". Dette har inspirert meg til å omskrive hans eventyr til: 'Keiserinnens nye klæder'. Den lille omskriving gir en ganske annen synsvinkel på Dagmar og hennes svigerdatters betydning. (Se kommentaren under).

Dagmar var prinsesse av Schleswig-Holstein hvilket har en sterk anti-tysk kultur. Det var under den fransk-danske allianse i Napoleons-krigene at regionen ble tapt til Tyskland, samt at Norge fikk igjen sin frihet ved krigsoppgjøret i Kiel-avtalene. Dagen i dag, den 17. mai, er for øvrig Norges nasjonaldag og feires markant over hele landet. Russlands Trone støttet også Napoleon, så inngiftet av Dagmar kan ha vært en kompensasjon for tapene Danmark led. Dog heter det også i folkeeventyrene 'prinsessen og det halve kongeriket', hvilket gir betenkeligheter. Uansett forløpet, Dagmar ble omdøpt til Maria Feodorovna, konverterte til det Russisk-ortodokse Tempel og ble tsarina/keiserinne og mor til den siste russiske Tsar/keiser. Særlig problematisk var at Dagmars svigerdatter Alix/Alexandra var tysk og nølte med konvertering fra det protestantiske Tempel. Den nye tsarinaen var således uønsket av både Trone og Tempel. Svigerdatter ble forfulgt av onde tunger og store ulykker. Alix beskrev miljøet som tidvis ondt og fikk visst noen nevrotiske reaksjoner. Populariteten sank, forakten økte og familien ble isolert. Men noe støtte behøvde hun, så alternativ teokrati synes fortrøstningsfullt.

'Stat' så mulighet for statskupp med følgende gjenreise av Moskva som imperiets republikk. 100 år tidligere ble Moskva brent. Tronens allierte, Napoleon, bedyret sin uskyld tross invasjon av byen. Uansett, Roma3 var igjen operativ og benyttet anledningen med splittelse av Trone og Tempel, samt fremmedgjøring av Tsarina. På den tid, før WW1, hadde Europa 4 potensielle Roma3 (Russland, Tyskland, Østeriket og Italia) med hver sin keiser (hvis man kan regne Paven for det). Alle hadde motiver for Russlands fremtid, men ingen ønsket det fatale utfall. Det hele er et uoverskuelig komplisert system av

sosialpsykologiske Spill med millioner av aktører i over 100 år. Siden Spill er i sin natur 'uredelige' og 'sannheten er krigers største offer', vil jeg heller fremheve to aktører som spilte spesielle roller for statskuppet i Russland, - en fra innsiden og en fra utsiden.

Rasputin reiste for anledningen fra Sibir og ble tsarinas mest betrodde rådgiver. Tidligere oppsøkte han okkulte miljø i Middelhavsområdet, tilsvarende beskrivelsen i UU 21.december.2012. Rasputin kan ha vært en forgjenger til Gurdjieff. Rasputin var hypnotisør, med påståtte evner som psykisk medium, et gudommelig talerør og en helbreder. Han arbeidet seg sakte og sikkert inn til tsarinaen, fikk flyttet krigsplaner inn i Vinterpalasset og bestemte at tsaren selv skulle delta i krigene. Da krigene selvfølgelig gikk galt, ble Russland urolig og gav tsarfamilien skylden. Når Rasputins offisielt i Moskva deklarerer at Russlands styres av hans manndom, kunne ikke tsarfamilien overleve ryktene. Det ble for meget med spekulasjoner om en 'Lille-Rasputin' som Russlands keiser, samt at tsarinaen kunne være en tysk spion.

Russland var før WW1 i ferd med å konvertere til demokrati, men statsmenn kan ikke tillate den slags umyndiggjøring av seg selv. Lenin og hans bror deltok i splittingen av det russiske sosial-demokratiske arbeiderparti. Storebror ble dømt til døden for sine aktiviteter. Lenin flyktet til Europa etter en eksil i Sibir. Forrut for Statskuppet ble Lenin smuglet tilbake til Russland i en forseglet togvogn, - som et masseødeleggelsesvåpen. Som anti-demokrat var ikke Lenin noen folkets frontfigur, men besatt av personlig vendetta for hans brors henrettelse. Den røde fane var som et symbol for raseriet, volden og blodhevn. Motivet for den propaganderte ideologi var ikke bare 'å ta fra de rike og gi til de fattige', - motivet var å utrydde de lojale til Trone og Tempel i en borgerkrig, samt å dele deres utbytte.

Det russiske 'Vinterpalasset', dette 'Dukkehuset', var scenen for mange sosialpsykologiske Spill. Denslags har pågått i Roma3 siden Tsar Ivans dager, - 400 år tidligere. For anledningen, og med nordisk perspektiv, fristes det dermed å definere 3 nye Spill. Det første Spillet er TOL, - 'Tuppen Og Lillemor', som i den norske barnesang. Det er beskrivende for Dagmar/Marias Spill mot Alix/Alexandra. Det er som to damer med mentalitet på 'fjortis'/teenager nivå som spiller sine intriger opp mot hverandre uten hensyn til konsekvenser for omgivelsene. Det er skjulte, seksualmotiverte rivaliseringer om revir, makt og annerkjennelser. Hensikten med Spillet er ikke nødvendigvis motpartens tap, men en splittende krise som middel for å endre scenen til spillerens fordel. 'Gimmicks', 'husets regler' er avgjørende viktige i Spillet og Alexandra tok dem ikke til seg tydelig nok i tide. TOL har også 3 grader hvor utfallet med WW1 sprengte grensene for høyeste grad. En annen liten kuriositet i Spillene er at Alix fikk samme navn som Dagmars nærmeste søster Alexandra, - noe som kunne forvirre viktige kommunikasjoner.

Et annet Spill kan være DAC (Divide And Conquer / Splitt Og Hersk). Spillet er nært i slekt med LYAHF, men DAC har en vinner og to tapere. Spillet er dog mest relatert til organisasjoner eller nasjoner. Rasputin spilte DAC, som en marionett for andre. Et tredje spill er ur-nordisk og kan hete DSITDEN (Du Skal Ikke Tro Du Er Noe – eller kort sagt; 'Jante'). Det er et kollektivt 'alle mot en' -Spill. Et redelig motiv kan være å oppnå enighet. Men dette Spill kan selvfølgelig misbrukes og har også 3 grader av utfall. Kollektive utryddelser kan bli en fatal konsekvens. Det kan se ut som Jante Spillet er eksportert fra Roma3 til Norden i århundrer. Mere om dette i de neste UU med mere fokus på Livskvalitet i Russlands historie.

Med ettertanke om det hele: Det handler ikke om et par ondskapsfulle piker og deres skyld i de påfølgende Spill WW 1-2-3. De, og andre aktører, var nærmest 'skjebnesvangre' brikker i større rekker av foranledende Spill. Maria og Alexandra var som ID/Sulk og Rasputin og Lenin som ID/Jerks. Men det overordnede motivet var å konvertere Imperiet fra Trone til Stat. Som nevnt er det mulig å beskrive tilsvarende 'egostates' som metaforiske Superior-Egos tilsvarende Matriark og Patriark. Skjønt Freud/Berne modellen synes å mangle en tredje S-E, den aseksuelle 'Foreldre' til ID/Nerd. Denne 'skjulte' og 'metaforiske' S-E har vært hovedaktør i det forrige århundres mange omveltninger som har endt med Stats samfunnsdominans. For å beskrive dette ligger det nærliggende med et tilslørt ord: 'Platocrat'. Siden dagens politiske Spill baseres på et århundre gamle misoppfattelser, er det et poeng å avdekke fortiden for å korrigere fremtidige feiltagelser. Men om fortiden; - gjort er gjort, og kan ikke omgjøres.

John Foxx har vært presentert her i UU flere ganger. Denne sangen er ikke en spesiell hit, men teksten passer særlig godt til denne kronikk. Opprinnelig ble sangen lavet da han var vokalist i Ultravox. Etter studioversjonen følger også en unik live-opptreden fra da John faktisk hadde et eget band.

Keiserindens nye Klæder John Foxx – Put on Your Dress

For mange Aar siden levede en Keiserinde, som holdt saa uhyre meget af smukke nye Klæder, at hun gav alle sine Penge ud for ret at blive pyntet. Hun brød sig ikke om sine Soldater, brød sig ei om Comedie eller om at kjøre i Skoven, uden alene for at vise sine nye Klæder. Hun havde en Kjole for hver Time paa Dagen, og ligesom man siger om en Drotning, hun er i Raadet, saa sagde man altid her: "Keiserinden er i Garderoben!" -

I den store Stad, hvor hun boede, gik det meget fornøieligt til, hver Dag kom der mange Fremmede, een Dag kom der to Bedragere; de gave sig ud for at være Vævere og sagde, at de forstode at væve det deiligste Tøi, man kunde tænke sig. Ikke alene Farverne og Mønstret var noget usædvanligt smukt, men de Klæder, som blev syede af Tøiet, havde den forunderlige Egenskab at de blev usynlige for ethvert Menneske, som ikke due i sit Embede, eller ogsaa var utilladelig dum.

"Det var jo nogle deilige Klæder," tænkte Keiserinden; "ved at have dem paa, kunde jeg komme efter, hvilke Mænd i mit Rige der ikke due til det Embede de have, jeg kan kjende de kloge fra de dumme! ja det Tøi maa strax væves til mig!" og hun gav de to Bedragere mange Penge paa Haanden, for at de skulde begynde paa deres Arbeide.

De satte ogsaa to Væverstole op, lode som om de arbeidede, men de havde ikke det mindste paa Væven. Rask væk forlangte de den fineste Silke, og det prægtigste Guld; det puttede de i deres egen Pose og arbeidede med de tomme Væve, og det til langt ud paa Natten.

"Nu gad jeg nok vide, hvor vidt de ere med Tøiet!" tænkte Keiserinden, men hun var ordentligt lidt underlig om Hjertet ved at tænke paa, at den, som var dum, eller slet passede til sit Embede, ikke kunde see det, nu troede hun nok, at hun ikke behøvede at være bange for sig selv, men hun vilde dog sende nogen først for at see, hvorledes det stod sig. Alle Mennesker i hele Byen vidste, hvilken forunderlig Kraft Tøiet havde, og alle vare bejærlige efter at see, hvor daarlig eller dum hendes Naboe var.

"Jeg vil sende min gamle ærlige Minister hen til Væverne!" tænkte Keiserinden, "han kan bedst see, hvorledes Tøiet tager sig ud, for han har Forstand, og ingen passer sit Embede bedre end han!" -

Nu gik den gamle skikkelige Minister ind i Salen, hvor de to Bedragere sad og arbejdede med de tomme Væve. "Gud bevar' os!" tænkte den gamle Minister og spilede Øinene op! "jeg kan jo ikke se noget!" Men det sagde han ikke.

Begge Bedragere bad ham være saa god at træde nærmere og spurgte, om det ikke var et smukt Mønster og deilige Farver. Saa pegede de paa den tomme Væv, og den stakkels gamle Minister blev ved at spile Øinene op, men han kunde ikke see noget, for der var ingen Ting. "Herre Gud!" tænkte han, "skulde jeg være dum! Det har jeg aldrig troet, og det maa ingen Mennesker vide! skulde jeg ikke due til mit Embede? Nei det gaaer ikke an, at jeg fortæller, jeg ikke kan see Tøiet!"

"Naa, de siger ikke noget om det!" sagde den ene, som vævede!

"O det er nydeligt! ganske allerkjæreste!" sagde den gamle Minister og saae igjennem sine Brillen, "dette Mønster og disse Farver! - ja, jeg skal sige Keiserinden, at det behager mig særdeles!"

"Naa det fornøier os!" sagde begge Væverne, og nu nævnede de Farverne ved Navn og det sælsomme Mønster. Den gamle Minister hørte godt efter, for at han kunde sige det samme, naar han kom hjem til Keiserinden, og det gjorde han.

Nu forlangte Bedragerne flere Penge, mere Silke og Guld, det skulde de bruge til Vævning. De stak Alt i deres egne Lommer, paa Væven kom ikke en Trevl, men de bleve ved, som før, at væve paa den tomme Væv.

Keiserinden sendte snart igjen en anden skikkelig Embedsmand hen for at see, hvorledes det gik med Vævningen, og om Tøiet snart var færdigt. Det gik ham ligesom den anden, han saae og saae, men da der ikke var noget uden de tomme Væve, kunde hun ingen Ting see.

"Ja, er det ikke et smukt Stykke Tøi!" sagde begge Bedragerne og viste og forklarede det deilige Mønster, som der slet ikke var.

"Dum er jeg ikke!" tænkte Manden, "det er altsaa mit gode Embede, jeg ikke duer til? Det var løierligt nok! men det maa man ikke lade sig mærke med!" og saa roste han Tøiet, han ikke saae, og forsikrede dem sin Glæde over de skjønne Couleurer og det deilige Mønster. "Ja det er ganske allerkjæreste!" sagde han til Keiserinden.

Alle Mennesker i Byen talte om det prægtige Tøi.

Nu vilde da Keiserinden selv see det, medens det endnu var paa Væven. Med en heel Skare af udsøgte Mænd, mellem hvilke de to gamle skikkelige Embedsmænd vare, som før havde været der, gik hun hen til begge de listige Bedragere, der nu vævede af alle Kræfter, men uden Trevl eller Traad.

"Ja er det ikke magnifique!" sagde begge de skikkelige Embedsmænd. "Vil deres Majestæt see, hvilket Mønster, hvilke Farver!" og saa pegede de paa den tomme Væv, thi de troede, de andre vistnok kunde see Tøiet.

"Hvad for noget!" tænkte Keiserinden, "jeg seer ingen Ting! det er jo forfærdeligt! er jeg dum? duer jeg ikke til at være Keiserinde? Det var det skrækkeligste, som kunde arrivere mig! "O det er meget smukt!" sagde Keiserinden, "det har mit allerhøieste Bifald!" og hun nikkede tilfreds og betragtede den tomme Væv; hun vilde ikke sige, at hun ingen Ting kunde see. Hele Følget, hun havde med sig, saae og saae, men fik ikke mere ud af det, end alle de Andre, men de sagde ligesom Keiserinden, "o det er meget smukt!" og de raadede ham at tage disse nye, prægtige Klæder paa første Gang, ved den store Procession, som forestod. "Det er magnifique! nysseligt, excellent!" gik det fra Mund til Mund, og man var allesammen saa inderligt

fornøjede dermed. Keiserinden gav hver af Bedragerne et Ridderkors til at hænge i Knaphullet og Titel af Vævejunkere.

Hele Natten før den Formiddag Processionen skulde være, sad Bedragerne oppe og havde over sexten Lys tændte. Folk kunde see, de havde travlt med at faae Keiserindens nye Klæder færdige. De lode, som de toge Tøiet af Væven, de klippede i Luften med store Saxe, de syede med Syenaal uden Traad og sagde tilsidst: "see nu er Klæderne færdige!"

Keiserinden, med sine fornemste Cavalerer, kom selv derhen og begge Bedragerne løftede den ene Arm i Veiret ligesom om de holdt noget og sagde: "see her er Beenklæderne! her er Kjolen! her Kappen!" og saaledes videre fort. "Det er saa let, som Spindelvæv! man skulde troe man havde ingen Ting paa Kroppen, men det er just Dyden ved det!"

"Ja!" sagde alle Cavalererne, men de kunde ingen Ting see, for der var ikke noget.

"Vil nu deres keiserlige Majestæt allernaadigst behage at tage deres Klæder af!" sagde Bedragerne, "saa skal vi give dem de nye paa, herhenne foran det store Speil!"

Keiserinden lagde alle sine Klæder, og Bedragerne bare sig ad, ligesom om de gave ham hvert Stykke af de nye, der skulde være syede, og Keiserinden vendte og dreiede sig for Speilet.

"Gud hvor de klæde godt! hvor de sidde deiligt!" sagde de allesammen. "Hvilket Mønster! hvilke Farver! det er en kostbar Dragt!" -

"Uden for staae de med Thronhimlen, som skal bæres over deres Majestæt i Processionen!" sagde Overceremonimesteren.

"Ja jeg er jo istand!" sagde Keiserinden. "Sidder det ikke godt?" og saa vendte hun sig nok engang for Speilet! for det skulde nu lade ligesom om hun ret betragtede sin Stads.

Kammerherrerne, som skulde bære Slæbet, famlede med Hænderne hen ad Gulvet, ligesom om de toge Slæbet op, de gik og holdt i Luften, de turde ikke lade sig mærke med, at de ingenting kunde see.

Saa gik Keiserinden i Processionen under den deilige Thronhimmel og alle Mennesker paa Gaden og i Vinduerne sagde: "Gud hvor Keiserindens nye Klæder ere mageløse! hvilket deiligt Slæb hun har paa Kjolen! hvor den sidder velsignet!" Ingen vilde lade sig mærke med, at han intet saae, for saa havde han jo ikke duet i sit Embede, eller været meget dum. Ingen af Keiserindens Klæder havde gjort saadan Lykke.

"Men hun har jo ikke noget paa," sagde et lille Barn. "Herre Gud, hør den Uskyldiges Røst," sagde Faderen; og den Ene hvidskede til den Anden, hvad Barnet sagde.

"Men hun har jo ikke noget paa," raabte tilsidst hele Folket. Det krøb i Keiserinden, thi hun syntes, de havde Ret, men hun tænkte som saa: "nu maa jeg holde Processionen ud". Og Kammerherrerne gik og bar paa Slæbet, som der slet ikke var.

Thomas Dolby - Europa And The Pirate Twins

2013.Mai.10

Ukens Utvalgte:

Europa er utviklet lengst til å bli en union av demokratiske nasjoner, - selvom det er kun i begynnelsen. Europa er med rette omtalt som demokratiets vugge - fordi borgernes rettigheter settes høyt. Europa er opphavet til konføderasjoner av siviliserte nasjoner og FN's grunnlag (se UU 2013.02.22). Det er derfor avgjørende viktig for menneskehetens utvikling at dette samarbeidet ikke blir destruert igjen. Det ville i så fall sette menneskehetens Livskvalitet tilbake til nivå fra menneskehetens mørke perioder. Denne UU gir dermed et grunnlaget for mere omfattende omtaler senere i temaet.

Europa regnes som en av verdens syv kontinenter. Området er historisk regnet som betydelig større enn i dag, med grenser i vest ved Island og Eurasia's kontinentalplate, syd ved Middelhavet, øst ved Uralfjellene, samt Nordpolen. Til nå er registreringer av homoider en million år gamle og bosetninger er fra 7000 f.Kr. Grekere omtalte Europa som sivilisasjon i år 600 f.Kr. Roma1 okkuperte områder opp til dagens Storbritannia og Tyskland, dog aldri Norden. Tross alle invasjoner, kriger og diktaturer, har mangfoldet i de europeiske kulturer alltid overlevd.

Som nevnt i forrige UU, ble Roma-imperiet splittet i to, - hvoretter det nye teokratiske alter-ego gradvis overtok kontrollen over det rasjonelle Roma1. Man kan si at Roma utviklet schizofreni på den tid og var i permanent krig med det teokratiske Midtøsten. De store kriger om Roma2 gikk også hardt utover Europa. Det er lite å finne om europeisk historie som er eldre enn 1000 år, - fra 'den mørke middelalder'. Det er som et traumatisk kollektivt hukommelsestap. Allikevel, - om ikke historiepensum i folkeskolen er særlig informativt, kan man saktens finne informasjon på internettet og reflektere selv.

Efter Marko Polo sitt gjennombrudd til Kina ble en dør til Asia åpnet, - en svingdør som slår begge veier. Forbindelsene var antagelig fruktbart i begynnelsen, men noe gikk alvorlig galt. Spesielt ble mongolske keisere/Khans rasende på Paven og ville praktisere sine avlivningsmetoder på ham. Det var stadige mongolske invasjoner og imperiet fikk verdensrekord i utbredelse. Videre ble Europa utsatt for pest som beviselig stammer fra Asia. 1/3 av Europas befolkning døde av de 100 pestutbrudd. Men allikevel, når det engang er konkludert at Livskvalitet er mere betinget av psykisk enn fysisk helse, er narkotika-invasjoner fra Midtøsten enda mere skadelige. Det vites at regionen er hovedprodusent av psykedeliske narkotika som heroin og hasj. Følgelig er regionen opphavet av religioner av mere og mindre psykedelisk og okkult art. Men adskillig verre enn narkorus for en narkoman er de abstinenser og desperasjoner når leveransen svikter. Det ekstremt psykedeliske og apokalyptiske skript 'Johannes Åpenbaring' er et eksempel på denslags mentale tilstand og er det ypperste av vanvittig ondskap mot menneskeheten. Dette okkulte skript ble feilaktig innkludert i det Nye Testamentet i Roma2 sin storhet. Man bør ikke forundres over at de 'vantro' mongolere ble vrede på Paven og ønsket tilsvarende hevn.

Omsider falt Roma2 for mongolsk/muslimske kanoner og Roma3 ble utpekt i Moskva. Så fikk vest og sentral-Europa omsider ro til å bygge nasjoner, - hovedsakelig regjert av Troner og Templer. Den republikansk Stat var lite verdsatt etter Roma1. Opplysningstiden førte naturlignok til store samfunnsmessige fremskritt. Allmenn fokus på vitenskap, Selvrealisering og Menneskerettigheter (Naturretten) ga selvfølgelig forbedringer og velstand for folk flest. Det var naturlignok sosiale forskjeller og urett i starten, men utviklingen gikk sakte og sikkert til det vi i dag kjenner som Europas siviliserte demokratier.

Men så skjer det katastrofale – igjen og igjen. Det gjentar seg som dårlige såpe-opera script. På et tidspunkt blir en person, med alvorlig kritisk psyke, plassert som et Super-Nasjonalt S-E. Europa har lidd under Napoleon, Rasputin, Hitler og Stalin, - og de umenneskelige destruksjoner og massakre. Siden vi nå vet at denslags gjentar i historien, vil utfordringer bli å fordomsfritt finne årsaker og mottiltak for å minimere fremtidige ødeleggelser av sivilisasjoner. Noen erkjennelser kan man starte med; så som at det simpelthen er krigføring mot rivaler som i praksis er organisert sosiopati og masse-psykopati, samt at hendelsesforløpet er langt mere omfattende enn en 'syndebukk' tilsier. For bedre historisk innsikt kan ordtak som 'sannheten er krigers første offer' og 'historien skrives av seierherrer' være tankevekkende. Analyser av de sosio-psykologiske Spill, basert på Freud/Berne, kan avdekke og redusere disse ultimative Spill, -kalt Krig.

Thomas Dolby er flere ganger presentert her i UU. Han lavde riktig mange gode sanger i sin storhetstid. Denne UU, 'Europa And The Pirate Twins', stammer fra debut albumet 'The Golden Age of Wireless'. Sangen betegnes som en synth-pop klassiker og er inspirert av atmosfæren fra WW2. Den gir et inntrykk av at avstanden til den tid ikke er så fjern allikevel, samt at en kan bli overveldet av forhold på langt større nivå enn de personlige. I øvrig har visst Thomas lagt inn noen erindringer fra noe barndomskjærlighet.

Pet Shop Boys - Go West

2013.mai.03

Ukens Utvalgte:

De Forende Nasjoner (FN/UN) har naturligvis fokus på nasjoner. Mindre omtalt er de 'Forende Imperier'. Så som imperier har dominert kontinenter og regioner i tusener av år, skjer det samme i UN. Betegnelsen imperie ble dog kraftig nedtonet etter WW2. Deres pseudonym 'nasjon' gir inntrykk av en 'ikke-eksistens'. Men imperier er selvfølgelig fortsatt dominerende i verdenspolitikken og fungerer som nasjoners Superior-Ego. FN sitt 'Overhus' heter Sikkerhetsrådet og styrer Nasjons-Unionens Spill. Dermed er det avgjørende viktig å forstå dem for å forstå FN sine aktiviteter og passiviteter.

Imperier beskrives historisk i Langfredagens UU og dagens FN system beskrives i UU 2013.02.22. I dag er naturlignok imperier ikke som oldtidens imperier, så som Midtøstens Babylon, Nordafrikanske Egypt, de Mellomamerikanske, Asias Mongolia eller Syd-Europas Roma. En hypotese kan dog være at oldtidens 'falne' imperier er ikke forsvunnet, men kun har flyttet, blitt forandret og har endret navn. Historisk sett fra Europa, er Roma imperiet det mest nærliggende. Det hadde sin topp rundt år 0, da det Egyptiske imperiet nullstilte kalenderen av teokratiske årsaker. Trone/Tempel imperiet med Julius/Cleopatra falt for det republikanske Stats-imperiet.

Det varte kun 300 år før Roma-staten ble splittet og det teokratiske Constantinopel oppsto. Dette tvilling-imperiet var et besynderlig teokrati, skrudd sammen av monoteistiske ideer fra restene av Egypt og Babylon. Dette '2. Roma' besto i et årtusen, men falt omsider for den muslimske invasjon. Den revolusjonerende nye bruk av våpen, kanoner, kan være et resultat av Marco Polos gjennombrudd til det mongolsk/Ming dominerte Asia, samt deres forhold til det voksende muslimske imperie. Efterfølgende ble det tredje Roma utpekt i dagens Moskva med Ivan som keiser/tsar. Dog har Østeriket, Tyskland og Italia også krevd den tittel, men de falt alle i WW 1 og 2. Det tredje Roma's dominerende 'kratier' var i først som Tempel, så som Trone ved Romanov familien, og i 20 århundre som Stat. Mindre belyst er at samtidig ble den offisielle oppdagelsen av Amerika bekjentgjort og at den tidkrevende imperiebyggingen i Nord-Amerika startet. Det 20. århundre er derfor preget av tvilling-imperiets rivaliseringer, med WW1, WW2 og det kalde 'WW3'. Europa ble delt mellom SU & US imperiene, karakterisert som; Supply & Demand, Matriark & Patriark, Innadventd & Utadventd, samt Dømmende & Sansende.

FN sitt grunnlag er som nevnt sterkt preget verdenskrigene og den gryende kaldkrigs-kultur. På den tid ble verden omtalt som 3 hoved-deler; US (Amerika/NATO), SU (Sovjet/Warszawapakten), samt den mindre spesifiserte 'Tredje verden'. I FN sitt 'Overhus', Sikkerhetsrådet, sitter nå 5 faste medlemmer med veto-rett. I praksis blokkeres enhver kontroversiell sak. Dette overnasjonale Superior-Ego har store mangler da de preges av foreldede tvangstanker om oldtidens imperie-styring. Assosiasjoner til 'Den syvende far i huset'

er nærliggende. Nødvendige restruktureringer vil ikke skje fordi et imperie vil alltid bruke sin veto til egen fordel. Således er ikke FN i stand til å kurere seg selv ut av sin S-E/ID tilstand. EU lider for øvrig av lignende veto-blokkering av egenutviklingen. Finner EU en diplomatisk løsning på denne 'stalemate', så finnes det antagelig en løsning for FN også.

Man skal dog erkjenne at imperier alltid vil eksistere og at de har andre karakterer enn nasjoner. Imperier (empires) er naturlignok empiriske. Det kan være en positiv prosess hvor alt innsamles til vurdering hvorpå den beste løsning finnes og implementeres. Problematisk er dog korrupte imperier hvor alle goder tas og det kun restene gis tilbake. Destruktive og gale imperier er katastrofale. Det handler derfor om å ha en positiv sameksistere i virkelighetens verden, selvom de ikke alltid helt forstår eller tolererer hverandres forskjeller. De har meget å lære om hverandre til alles gode, - ikke minst at deres felles fundament er og blir Menneskeheten. Dette århundre er spesielt utfordrende fordi globaliseringen så sterkt påvirkes av ny informasjon, kommunikasjon, teknologi og samhandel, samt menneskers massive og hurtige bevegelighet. Mest avgjørende kan bli de nye muligheter for verdenshavene, da imperier har særlige geopolitiske manier.

Som nevnt mener jeg FN's Overhus burde bestå av US (Amerika), SU (Eurasia/Russland), EU (Europa), AU (Afrika) og det fremtidige 'UA' (Asia). Sistnevnte sin utvikling er avgjørende viktig for Menneskeheten da fremtids-scenarier innebærer alt innen fremgang og tilbakeslag. Sannelig kunne noen 'parlamentariske' 5D analyser på FN-nivå være særdeles oppsiktsvekkende.

1000 bilder sier mere enn 1000 ord. Det viser denne Pet Shop Boys video i særklasse. Village People sin disco-hit ble endevendt med denne visuelle tankevekker om gamle imperialisters gamle drømmer. Opprinnelig var 'Go West' et uttrykk på 70-tallet for å gjøre San Francisco til et 'gay utopia'. I denne video sitt 'utopia' blir hele US invadert av en sådan SU hær, - som om en hetro-hær ikke er avskrekkende nok. Duoen 'Pet Shop Boys' er i øvrig særlig produktive og har Guinness rekord som den mest suksessfulle musikk-duo i UK sin musikk historie.

Cock Robin - The Promise You Made

2013.april.26

Ukens Utvalgte:

Parlamentet har overtatt som nasjonalforsamling etter oldtidens republikanske Forum. For å fremme kvalitativ nasjonalstyring, bør parlamentariske modeller relateres til Livskvalitet. Samfunnet er jo til for statsborgerne og ikke statsmaskiner. De teknokratiske illusjoner er så tydelige ved fremstillinger av den partipolitiske verden som 1 dimensjonal, - en linje mellom to punkter fra Høyre til Venstre. Men den multi-politiske virkelighet er langt mere komplisert. Fremstillinger kan med fordel utvides til en 3D modell.

Man skulle tro det ikke finnes noe simplere enn et 1 dimensjonalt politisk kart, men tragikomisk nok er OD tenkelig. (Ideen om 0-tallets og 0-dimensjonen omtales i det forrige UU.) En eksistens basert på et eneste punkt er selvfølgelig ingen realitet, men det kan være teoretisk nyttig. Tragisk nok tilstrebet desillusjonerte filosofer realiseringen ved ettparti-systemer i det 20 århundre. 'Nerdokratier' vokste uhemmet på ruinene av borgerkriger og masseutryddelser av statsborgere. Dette kan forbli den dominerende maktfaktor, inntil mere realistiske politiske kart blir kjent og allment.

De to punkter, Høyre og Venstre, er anvendelige for en 3D modell også. Opprinnelig representerte Høyre Tronens makt og Venstre den voksende Stats makt. (1D modellen er et par århundre gammel og tilsvarende enfoldig.) Maktskiftet i Norden skyldes demokratisering ved allmenn stemmerett, samt Statens sosiale garantier til velgerne på Tronens bekostning. I 1D modellen plasseres alle politiske partier på en rett linje mellom punktene H og V. Det gir et inntrykk av at Trone og Stat er absolutte motsetninger, at ethvert parti kan relatere seg til en av disse to, samt at ekstremister alltid er 2 motsatte grupperinger utenfor H eller V. Hvis man istedet forbandt endene i denne 1D modellen, ville man få en sirkel og se at ekstremister er de samme destruktive anti-krefter uansett politisk tilhørighet. Men løsningen er ikke å sammenkoble Høyre og Venstre til et punkt. Et steg på veien er at Trone og Stat representerer hver sin akse i en 2D flate. Dermed kan de fleste parti representere noe av både Stat og Trone i flaten mellom deres akser. Dessuten, - aksene har også negative skalaer, hvor ekstremister følgelig vil vises som anti-partier på motstanderens negative akse.

Den tredje dimensjon vil følgelig være en tredje akse, representert ved Tempel. Det lyder kanskje merkelig etter et ateistisk århundre, men tradisjonelt kalles religion 'den første filosofi'. Hertil tilhører grunnleggende filosofi, etikk, og rettssystemer. Dermed kan man få en 3D parlamentarisk modell som er kategorisk relatert til Freud/Bernes psykososiale teori om menneskers 'Ego-states'. Hensikten er å kunne anvende den viten og dets modeller for sunn mentalhelse på nasjonens overordnede politiske systemer. Man kan sagtens finne andre assosiasjoner, men her vil utgangspunktet være: 1) Superior-Ego/Formynder/Tempel, 2) Ego/Organisasjon/Stat og 3) Id/Familie/Trone. En sunn nasjon vil tilstrebe en balanse mellom de 3 dimensjoner. Disse kan også forholde seg til de 3 nevnte verdssystemer 1) Rett-Galt, 2) Konstruktivt-Destruktivt og 3) Godt-Ondt. Dermed behøver man ikke å bygge noe nytt parlamentarisk system for å kunne anvende modellen og tilhørende sosialpsykologi. Det er bare å plassere de selsamme politiske partier, NGO'er og andre maktfaktorer inn i 3D modellen.

En 3D modell vil gi andre oppfattelser av den politiske verden enn dagens 1D modell. Dessuten kan organisasjoners navn kan være misvisende. Forvirrende er at danske Venstre tilsvarer norske Høyre, samt at danske Radikale Venstre (RV) er et borgerlig parti i regjering, mens det norske RV (Rød Valgallianse) var en ekstremistisk fiasko. Videre har 1D modellen en rekke partier 'i midten' som vil omplasseres mere beskrivende i 3D. Norske SP (Senter Partiet) er villedende, da det ikke er i sentrum av hverken 1D, 2D eller 3D. Politisk har SP beveget seg fra Trone til Stat og er trellebundet med stats-subsidier. KrF hører mere til Trone og Stat enn Tempel pga familiepolitikken og Statskirken. FrP/DF (Dansk Folkeparti) er Trone-orientert, med fraksjoners kraftige retorikk om anti-Stat. Mest ekstreme er Stats-partiene Rødt og EL (danske EnhetsListen) da de fremdeles fremmer borgerkrig som 'nødvendig' middel for sine maktambisjoner. NasjonalSosialister tilhører, som navnet tilsier, Statspartier men er slått ut av neste generasjon, - NasjonalKommunistene.

Politiske organisasjoner forandrer seg over tid. Det kan fremstilles i en 4D modell hvor 3D modellen viser bevegelser over tid. Begreper som 'konservativ' og 'radikal' er ikke bestemte plasseringer i 3D, men vises som stillstand og bevegelse. Organisasjoner kan endog være relativt konservative eller radikale over tid. Antagelig er LO den norske regjeringens mest konservative organisasjon til tross for dets ekstrem-radikale opphav. På den annen side vil 'konservative' organisasjoner fra det forrige århundre være relativt radikale nå, siden de er i sterkt opposisjon. 4D modellen vil også kunne vise organisasjoner som kommer og går. Spesielt vil sammenhengen av kortvarige ekstreme organisasjoner vises å være pulserende konstanter i 3D modellen, så som rekken NKP, AKP, AKP-ML, RV og Rødt.

En 5D variant av modellen er ikke så merkelig som det kan lyde. Det handler i hovedsak om å lave parallelle fremstillinger for alternative scenarier. Historiske valg og 'tilfeldigheter' har endret utviklingen, - men hva hvis andre ting skjedde eller vil skje? Med 5D kan man fremstille alternative scenarier til fortiden og fremtiden, for så å prøve ut om alternative hendelser, handlinger og konsekvenser er, eller ville vært, fordelaktige. (Men alle disse fantasifulle spekulasjoner om faktisk eksistens av 'parallelle univers' bør bli liggende i fantasiverdenen). Typiske alternative hendelser kunne være om statslederens overlevelse og død,

statskupp, naturkatastrofer, masseutryddelser, invasjon, lovendringer, etc. Spesielt for Norge kunne 5D scenarier laves over aktiviteter og passiviteter i forhold til terrorsaken av 2011.07.22.

Som nevnt i forrige UU er naturfysikere i babelsk forvirring da deres simple atommodell bokstavelig talt er knust i tusen biter. De tror ikke mere på modellen vi alle har fått inndoktrinert, - den med protoner, elektroner og nøytroner. Nå bygges nye komplekse modeller basert på den minst tenkelige enhet 'Plancks konstant'. Derfra modelleres tusenvis av forskjellige 'strenger' som vibrerer. Tilsvarende bør det til parlamentariske modeller erkjennes at organisasjoner består av personer, tusener av dem, som alle har sine personligheter. OD, 1D og 2D modeller kan ikke håndtere det mangfold. 3D modellen har også begrensninger, - for menneskeheten består av milliarder av individer - ikke kun tusener. Dermed bør ikke noen form for politisk 'krati' innbille seg at de kan detalj-regulere statsborgerne i et S-E/Id forhold. Voksne myndige mennesker skal behandles som de selvstendig og ansvarlig Voksne de faktisk er. Forsøk på annet er simpelthen barnslig og 'vesle-voksent'.

Informasjons-kvaliteten er avgjørende for modellens anvendelighet. Videoen fra forrige UU, 'Den bedste statistik du nogensinde har sett', viser utmerket hvordan den globale sosiale utvikling har vært det siste halve århundre. Avslørende nok var vitenskapens virkelighetsoppfattelse dårligere enn hva ren gjetning ville tilsi. Det beviser at den offentlig desinformasjon dominerer. Situasjonen er særdeles kritisk sosialpsykologisk sett. Politiske rivaliseringer har i det lange løp vært mere destruktiv enn konstruktiv og vil forårsake gale beslutninger basert på gal info og gale antagelser. Derfor blir det viktigste å overvinne samfunnets massepsykoser og fremme sunn viten og sunn fornuft. Tross alt er jo etiske verdier viktigst, - det som er; Rett, Konstruktivt og Godt.

Politikere og 'den 4. statsmakt' har et lavt troverdighets renomme i demokratiet. Hovedårsaken ligger i at mennesket er bedragerisk av natur (se UU 2013.mars.15). Det politiske system har ikke utviklet kvalitetssikring som fremmer fakta fremfor illusjoner. Selv bruktbilhandlere, illusjonister og reklamebransjen er sterkere regulert med rettslige konsekvenser. Våger man snart å avdekke det politiske tabu-tema 'politisk korrupsjon'? Vitenskapelig sett er korrupsjon i organisasjoner normalt, så som erosjon er for materiell. Så det behøves et visst tilsyn og vedlikeholdelse for å minimere følgeskader. Men på anti-sidene av 3D modellen ligger potensialer for bevisst korrupsjon for egen vinning eller for andres tap. Begrep som infiltrasjon, manipulasjon og korrupsjon er langt fra unormalt i politiske organisasjoner.

Artikkelen 'Political corruption' omtaler også det ukjente begrepet 'kleptocracy'. Ordet passer godt til terminologien i forrige UU. Videre nevner artikkelen forskjellige typer korrupsjon, så som; utpressing, kameraderi, 'vennetjenester', skandalisering, valgfusk, økomisk 'rot', bestikkelser, donasjoner og mafiametoder. Globalt sett handler korrupsjon hovedsakling om narkotikahandel, menneskesmugling og hvitvasking av penger. Den årlige globale politiske korrupsjon anslås å være 1 Trillion \$/år, mens det globale GWP er ca. 70 Trd \$/år og norsk GNP er ca. 1 Trd Kr/år. Det tilsier at norsk politisk korrupsjon er omtrent 2% av Statsbudsjettet, dvs. ca. 20 Mrd kr/år. Det rimer godt med tommelfinger-regelen at kommersielle virksomheter har en andel illojale ansatte på 2%. Lav score på CPI (Corruption Perceptions Index) kan tyde på at korrupsjon er av typer som statistikk ikke oppfanger eller at korrupsjon skjules godt. Det er ingen grunn til å anta offentlig sektor har mindre enn 2% korrupsjon. Korrupsjonen øker ved fortelser og følgelig fordrer samfunnet tilsvarende. Borgerne fortjener ikke et samfunn basert på 'Three Wise Monkey'. Rettapparatet skal følge loven og reagere like rettfærdig i offentlig som kommersiell sektor.

Som et etterord, når denne teoretiske del av temaet går mot slutten, skal det nevnes at dette er en videreføring av Master of Science Thesis fra Handelshøyskolen BI. Det var for snart 20 år siden og LO/IBM hadde en betydelig innflytelse på den tiden. Jeg ble bedt om å fjerne kapittelet om industripolitisk rivalisering basert på ovenstående teorier for å få godkjent min Thesis og MSc tittel. Jeg fikk ikke noe reelt valg. Få år senere ble studieretningen nedlagt i Norge og solgt til Shanghai. IBM's Thinkpad ble også solgt til det Maoistiske Kina, med tilhørende teknologi, ansatte og kunder, - som inkluderer det norske parlamentet 'Stortinget'. Det har vært umulig å få arbeide med denne Europeiske Master utdanning i disse 20 år. Kompetansen vedlikeholdes som hobby, som disse kronikker kalt 'UU'.

Cock Robin er oppkalt etter boken 'The Marriage of Cock Robin and Jenny Wren'. Sangduoen Peter Kingsbery and Anna LaCazio har noen særegne stemmer og musikk som fenger godt. Denne US New Wave gruppe har dessverre fått ufortjent lite oppmerksomhet i sin karriere. 'The Promise You Made' ble en stor hit i Europa, men ble ikke så godt mottatt i USA. Gruppen er fremdeles aktiv og kan ses på turneer. I denne UU kan teksten assosieres til de tidligere og fremtidige valgløfter, samt det kommende parlamentsvalget i Norge.

Paul Simon - The Boy In The Bubble (days of miracle and wonder)

2013.april.19

Ukens Utvalgte:

Det ble naturlignok mest religiøst og lite metaforisk på Langfredagens UU. Her vil det avbalanseres med en fokus på at menneskeheten er noe langt større enn noe enkeltmenneske kan forstå. Ateist eller ei, man behøver ikke å starte en helt ny filosofi om menneskeheten. En kan låne av det som allerede er utviklet igjennom de tusener av år. Men som nevnt, den slags metafysisk filosofi blir noe helt annet i dag, siden informasjon og kommunikasjon har tatt flere kvantesprang i utviklingen. Illustrativt sagt, vi har i dag realisert evner, midler og muligheter som ble ansett som uopnåelige eller guddommelige for oldtidens filosofer.

Det er gjort mange forsøk på å illustrere hvordan kvantesprang i realiteter og virkelighetsoppfattelser kan oppleves. Filmen 'Flatland' herunder er et forsøk på forklare hvordan 2-dimensjonale vesner ville oppleve 3D hendelser. Dette er relevant å reflektere over, siden dette århundre startet med en babelsk forvirring hos vitenskapsmenn fordi deres myter faller som fluer for ny viten. Splitting av (de udelelige) atomer, avsløringer av universets mangfold, global utveksling og fri informasjon forårsaker fundamentale re-orienteringer innen mange deler av vitenskapen. Fysikken handler nå om 11 dimensjoner, ikke kun de 4. Og ærlig talt finner jeg ikke ut av hvor mange elementær partikler vitenskapen mener atomkjerner nå har, utover at det kan være tusener. Den slags er vanskelig å forstå, selv når man dykker ned i informasjons-havet.

Likefullt er en viss forståelse nødvendig for beslutninger om den fremtidige virkeligheter. Til sammenligning, vi vet det går galt å stole på spåkoner og heksedoktorer, selvom det var normalt for noen århundrede siden. Skjønt, - ny strengteori og tilhørende dimensjoner sies å åpne for teorier om parallelle univers, hvor en kan oppleve 'Flatland' lignende fenomen. TV-serien 'Fringe' filosoferer uhemmet over denslags. Disse nye ideer om nye dimensjoner kan dermed medføre nye desillusjoner og endog anti-intellektuelle spekulasjoner. 'New Age' bevegelser og lignende vil garantert utnytte dette skamløst.

Så velger jeg å foreløpig forstå det slik at vitenskapen nå indirekte innrømmer at de ikke vet hva atomkjerner er oppbygd av. Einstein-Bohr konflikten forble uløslig. Videre velger jeg å forstå dette med de 11 dimensjoner slik at vitenskapen nå anerkjenner tilfeldigheter og valgfrihet som en ekstra faktor, - den 5 dimensjon. Dermed kan enhver hendelse ha alternative utfall som igjen kan ha alternativer. Dette skaper ideer om alternative 4D virkeligheter i en 5. dimensjon. Disse alternativer kalles også univers. Disse alternative univers eksisterer også i et alternativt 5D univers – til sammen 10D, dvs 5D + 5D. Den nulte

dimensjon derimot, er en ide som oppfanger filosofier om balanser ved at alle elementer er tilstede og utligner hverandre. Den nulte dimensjon er like viktig for filosofien som tallet null er for matematikken.

Det er spennende å se de utvalgte videoer om universet og dimensjoner herunder. Spesielt opplysende er videoen 'The Universe in a Nutshell' som gir en underholdende fremstilling av fysikkens utvikling til nå, samt de fundamentale endringer og utfordringer de står ovenfor. Videre er TED videoen: 'Den bedste statistik du nogensinde har set' særdeles oppsiktsvekkende, spesielt fordi den avslører at den sosiale desinformasjon er massiv og at informasjonen er gjort utilgjengelig i sentrale databaser. Det er som fabelen om Platons hule-mennesker, med den lille vri at de opplyste utenfor laver skyggebilder på skjermen. For de mest kunnskapshungrige hobby-filosofier, vil kanskje TED video serien; 'What does the future look like?', interessere spesielt.

Begreper om mennesker og samfunn er sterkt preget av gresk kriserammet politikk, - særlig Plato's fundamentale beskrivelse av Republikken/Staten. Den termologi var sikkert imponerende i oldtiden, men det holder ikke mål i dagens globale informasjonssamfunn. Det er nødvendig å modernisere og tilpasse terminologien til dagens virkelighet for å kunne samtale og samhandle for felles interesser og goder. Nye begrep kan være som nye dimensjoner i politisk filosofi. Derfor gjør jeg her noen forsøk på forslag til en terminologi-utvikling. De greske oldtidsbegreper om makt (cracy) var omtrent; aristocracy (elite), plutocracy (øde), stratocracy (militær), timocracy (kapitalist), autocracy (diktator), anocracy (diktatur), democracy (folk), theocracy (gud), adhococracy (tilfeldig), technocracy (vitenskap). Man kan saktens gjøre sosiopsykologiske koblinger og bruke forstavelser (prefix) som; neuro, psyko, sosio, xeno, pedo, 'matro', 'patro', 'ego', 'jerko', 'nerdo', 'sulko'. Videre kan man i stedet for endelsen (suffix) 'cracy' (makt) bruke ord som; mani, fobi, pati og fili. Eksempelvis kan man da si at Plato var demofob, teknofil, og en anokratisk patroktrat. Litt humoristisk og søkt blir dog noen kombinasjoner.

Det kan være uoverskuelig å påpeke de forhold som globalisering og menneskehetens utvikling byr på. Videre har flere grupperinger ønske om å forbli ukjente eller anonyme. Allikevel er det nødvendig med karakteristikk og tilhørende terminologier for å kunne kommunisere og eventuelt evaluere løsninger på overordnede forhold. Dermed kan det også være fornuftig å innføre metafysiske begreper i bestemt form. Ovenstående kombinasjoner kan da få metafysiske begrep som; psykopatiet, psykomaniet, psykofobiet, psykofiliet, psykokratiet, eller; patropatiet, patromaniet, patrofobiet, patrofiliet, patroktratiet eller; sosiopatiet, sosiomaniet, sosiofobiet, sosiofiliet, sosiokratiet osv. Den slags filosofiske personifisering av det ukjente skal man selvfølgelig være forsiktig med å anvende. Det kan føre til massepsykotiske misforståelser om eksistens av noe fiktivt. Så galt har det jo så ofte gått innen religionsfilosofi, hvor det har endt med å bokstavelig talt 'å male fanden på veggen eller 'å se spøkelses på høylyst dag'.

Allikevel, - man bør ikke være opphengt i oldtids-gresk, eller latin, for å omtale krefter i samfunnet. Det går fint å anvende kreative kombinasjoner av dagens ord får å finne passende begreper for å beskrive nåtidens og fremtidens samfunnsforhold. Hovedsaken er jo å kunne identifisere og omtale forhold og symptomer for å unngå de helt store feil, som fører til irreversible steg i gal retning. Formålet skal fremdeles være å kunne reagere positivt i tide. Med tiden kan det bli mere naturlig å bruke morsmålet på det samme i stedet for gresk og latin. Ord som 'kunskapsfrykt' kan godt erstatte 'fobisofi', men det lyder vel litt merkelig med fremmedkjærlighet fremfor xenofili.

Men også i ettertanke, - det synes grenseløst hva Nerdokratiet skal slippe løs av filosofiske 'Butterfly' effekter bare fordi det nå må innrømmes at atomenes fundament fremdeles er ukjent og at demokratiets valgfrihet skal erkjennes.

Paul Simon er en av de store levende legender som musiker, sanger og komponist. Han startet ut i en duo med Garfunkel som lavde flerfoldige hits som 'The Sound of Silence', 'Mrs. Robinson', and 'Bridge Over Troubled Water'. Han har en anerkjent karriere med blant annet 12 Grammy, 'Lifetime Achievement Award' og doktorgrad i musikk. Hans syvende soloalbum 'Graceland' var sterkt inspirert av Sydafrikansk musikk. Denne UU 'The Boy In The Bubble' finner jeg spesielt fengende og tankevekkende, - selv om teksten ikke sier så mye. Så husker jeg at den politiske blokkade av det xenofobe apartheid regimet førte til

den gale beslutning å blokkere Paul Simons konsert i Sydafrika. Det får en til å tenke at blokkader som maktpolitikk har omfattende konsekvenser og kan virke mot sin hensikt.

David Bowie Cat People (Putting Out The Fire)

2013.april.12

Ukens Utvalgte:

Forrige UU handlet om uforskyldt 'normal galskap'. Men det er alarmerende hvordan det kan bevisst påføres ved pseudo/falske-vitenskapelige metoder. Kombinasjonen av Ennea-grammet og NLP (Neuro Linguistic Programming) er utbredt i Danmark. Disse metoder har langt fra den profesjonalitet som presenteres av dets leverandører. Ved å kikke litt utover egenreklamen faller fundamentet sammen. Metodene kan forderve personalpolitikken der det anvendes.

Enneagrammet er omtalt i UU 2012.12.21. Den russisk-ortodokse armener George Ivanovich Gurdjieff tok tak i den egyptiske Osiris tilbedelse. Han holdt opphavet hemmelig og fremmet dette oldtidens okkulte enneagram som noe nytt. Gurdjieff utpekte seg selv som den spirituelle leder og den eneste som kunne forstå 'sannheten'. Denne primitive astrologiske modell ble brukt til å stereotype mennesker og for å skipte og 'forutsi' deres 'skjebner'. Potensialet for misbruk er stort da fundamentet er særdeles mangelfullt og feilaktig. Denne primitive modellen kan relativt enkelt misbrukes til å påføre massepsykotiske tvangstanker og følgelig arrangere psykososiale Spill. Eksempelvis er denne okkulte

mystikk antagelig opphavet til den nasjonalsosialistiske ariske rasisme i mellomkrigstiden, samt sterkt påvirket av nåtidens muslimske sufisme.

NLP (Neuro Linguistic Programming) er også en pseudo/falsk-vitenskapelig metode som er avvist av profesjonelle. Den såkalte 'quack factor' er meget høy. NLP kombineres med Enneagrammet av enkelte utøvere. Det er dog forståelig at hardere metoder anses nødvendig for gjennomslag av Ennea-grammet. 'Neuro' handler om 'forståelse' av hjernens nevrologiske psykologi. 'Linguistic' handler om språket som middel for å kommunisere holdninger. 'Programming' handler om hypnose-teknikker for å omprogrammere virkelighets-oppfattelser. NLP er adoptert av enkelte hypnotisører og anvendes på kommersielle virksomheter og regjeringer. Dermed faller NLP under den skepsis i UU 08.juli.2011 og 13.juli.2012, hvor uprofesjonell og kriminell bruk av hypnose kritiseres.

Norge har et overbeskyttet forhold til hypnosetjenester, da det stort sett er ulovlig og kriminelt. I Danmark selges det dog som andre helsetjenester som rotfylling, fettsuging og silikonbryster. DR2 har laget et TV program som heter "Forbrytelse under Hypnose", hvor nettopp dette sannsynliggjøres. Uvitende personer kan faktisk hypnotiseres til midlertidig hat, forelskelse og umoral, - samt spionasje, tyveri og vold. Ugjerninger kan fremprovoseres med sinnstilstander tilsvarende mani, depresjon, nevrose, psykose og schizofreni. Kombinasjoner av mindre hendelser kan tilsammen utgjøre store og alvorlige saker. Hypnotisører hevder dog uskyld for den hypnotisertes handlinger med den påstand om at de kun gir forslag ('suggestion') og ikke ordre. Men NLP er pr. definisjon 'programming' og medfører derfor tilsvarende ansvar. Dette har selvfølgelig juridiske konsekvenser.

Kombinasjonen av Ennea-grammet og NLP fremmes spesielt ved Makani Academy og NLP Huset i København. Ved å kikke litt lengere enn deres egne internettsider, ser en godt at grunnleggerne har base på Kypros og styrer det nordiske miljø derfra. Kypros er forøvrig nylig blitt særlig kjent for å være et skatteparadis for den russiske mafias hvitvasking av penger. 'Akademiet' tilbyr sertifiseringer fra ICTA (International Coach & Trainer Association) som Master, Coach og Practitioner. På ICTA sin hjemmeside ser man at dette ikke er profesjonelt anerkjent, men bare er noe ekteparet selv har laget sammen med en russer. Videre betegner grunnleggeren seg som soldat og spirituell shaman.

Både NLP og Enneagrammet er listet som pseudovitenskap. Kombinasjonen er som Scientologikirken og Kabbalah tilsammen. Metodene er med andre ord beviselig bedrageri vitenskapelig sett. Hver for seg er modellene noe enhver bør holde seg unna for mentalhelses skyld. Til sammenligning, - amatørers og profesjonelles hacking av computere er langt mindre alvorlig og skadelig enn amatørers og profesjonelles hacking av menneskehjernen. Vi vet minimalt om hjernen i forhold til computere og tilsvarende skadeverk er langt mere alvorlig. Det kan ikke advares kraftig nok mot den slags innprogrammering av tvangstanker om okkulte skript og politisk grumsete undertoner. Selv Danmark, etter all sin erfaring med destruktiv okkulte hypnose, burde strafferettslig forfølge den slags med hensyn til sin egen samfunns kollektive mentalhelse.

Ennea/NLP sine destruktive potensialer kan knapt nok verre tenkes i forhold til Freud/Berne psykososiale Spill-analyser. Det kan fungere som et dominerende og psykotisk Superior-Ego, som kan overføre sine psykoser til klientenes S-E, skape ID's nevroses og endog splitte deres Ego. Her ligger potensialer for hele spekteret av Bernes beskrevne Spill, - spesielt LYAHF, NIGYSOB, Debtor, SWYMMMD, Courtroom, LHHIT, Schlemiel, WDYYB, Rapo, Uproar, HDYGOH, LPFOJ, IOTHY og selvfølgelig Psychiatry. Resultater av sådanne Ennea/NLP psykososiale Spill på virksomheter og regjeringer, kan kun gavne deres rivaler og konkurrenter.

Det lyder kanskje overdrevet, men avpressing av personell er reelt nok. Ennea/NLP sies å være utbredt i offentlig sektor, regjeringer og betydelige hos enkelte kommersielle aktører innen IT, medisiner og offentlig informasjon. Rivaliserende virksomheter, politikere, nasjoner kan kjøpe disse tjenester og liksom legitimere ugjerninger. Enhver arbeidstager er avhengig av sin jobb og tilhørende inntekter for å sikre seg og sine en viss Livskvalitet. En korrumpert HR ansatt kan dermed utpresse andre ansatte til illojalitet og endog kriminalitet. En korrumpert eller sosiopatisk ansatt kan endog skape sosio-psykologiske Spill med betydelige skader for både personell og virksomheter. Videre vites det godt at internasjonal organisert kriminalitet

nettopp avpresser mengder av ansatte i flere organisasjoner for å gjennomføre større forbrytelser. Sensitiv persondata i disse Ennea/NLP databaser kan misbrukes, særlig når organisasjoner er internasjonale og utenfor nasjonal lovgivning. Dermed bør det være i interesse for rikets sikkerhet å kvalitetssikre personalavdelingens HR prosesser mot eventuelle manipulasjoner.

David Bowie er en gjenganger her i UU. 'Putting out Fire' ble lavet av Bowie og selveste Giorgio Moroder. Det var også kjenningsmelodien til filmen 'Cat People' og ble selvfølgelig en stor hit på sin tid. Teksten er noe gåtefull og gir assosiasjoner til mystikk, samt om å gjøre vondt verre ved å helle bensin på bålet. For øvrig har Bowie faktisk et grønt og et blått øye. De kan sikkert også bli røde til tider.

David Bowie - Cat People (Putting Out The Fire) with Lyrics

<http://www.youtube.com/watch?v=kj28soFeG18>

Alt dette uønskede engagement og avsløring av Enneagram/NLP gir også assosiasjoner til en legende innen satirisk rock. Ennea/NLP er bekymrende enkelt å misbruke for å endre virkelighetsoppfattelser ved fordreining ord. Tilsvarende misoppfattelser av Zappa's sang gir dog treffende assosiasjoner for resultat og forløsning.

Gnarls Barkley - Crazy

2013.april.05

Ukens Utvalgte:

Så over til noe helt normalt; - 'helt normal galskap'. Dessverre kan det være så dårlig med mentalhelsen at det 'uprofesjonelt' kalles 'galskap'. Eller enda verre, - tilstanden kan ha blitt den kollektive norm i samfunnet, - 'helt normal galskap'. Derfor er det så viktig å forstå hva de profesjonelle mener og hva man kan gjøre for å bedre tilstanden, - selv om temaet kan være tabu.

Ordet 'normal' har ingen kvalitativ betydning. 'Normalt' kan være godt eller ondt, konstruktivt eller destruktivt og rett eller galt. Normalen viser kun hva som er gjennomsnittet eller mest etisk legitimt. Ord som 'gal', 'sprø' og 'skrullete' hører ikke til den kliniske terminologi. Det er uprofesjonelle begreper brukt av ignorante. Tilsvarende er det med engelske ord som 'crazy', 'nuts' eller 'mad'. Eksempelvis var det i tidligere kulturer helt normalt å støtte tortur og henrettelser, å tro på nisser og djevler, samt å praktisere all verdens tilsynelatende absurde ritualer. I en annen tid eller et annet sted kan det samme anses som den

reneste galskap. Videre er det faktisk helt unormalt å være særdeles mentalt sunn, - så som det er helt unormalt å være spesielt intelligent. Disse personer kan dog få psykiske reaksjoner, - ikke på grunn av sine egenskaper, men på grunn av andres intolerante reaksjoner.

MBTI forholder seg ikke til begreper som normal, intelligens eller helse. Det sier kun noe om hvilke personlighets Typer man tenderer til. Derimot er mentalhelsen et hovedområde for Freud og Bernes modeller om 'Ego-states'. Målsettingen for deres analyser er jo å oppnå holdningen 'jeg er OK – du er OK'. Kort sagt er det en god mental helse når det er balanse mellom de 3 Ego-states; S-E, Ego og Id. Hvis Ego krympes eller overlappes av S-E og/eller Id, er ens personlighet kritisk utsatt. Med et dominerende S-E, som påførte tvangstanker, kan man utvikle psykoser. Med et dominerende Id kan man utvikle nevroses, - overfølsomme reaksjoner. Et truet Ego kan søke nødløsninger i å utvikle alter-Ego, - bli schizofrent. Dette skal selvsagt ikke forveksles med alle de roller voksne har; som foreldre, ektefelle, nabo, arbeidstaker, sjef, etc. Disse roller i forskjellige situasjoner krever naturlignok forskjellige væremåter. Man har visse normer, etikk og 'Gimmicks' man skal opptre i henhold til.

Vi har alle våre fobier og manier som kan gi unormale reaksjoner og handlinger. Det er ikke galskap, selv om det kan virke så på andre. Videre er mennesket selvbedragerisk av natur (som omtalt for 3 UU siden). Det kan indikere at psykoser kan være nevropsykologisk normalt. Eksempelvis kan 'håpløse' situasjoner få oss til å gi alt for å overkomme kriser, selv om det oftest går galt. Dessuten kan et stort søvnunderskudd føre til drømmetilstander mens man er våken, samt overfølsomme reaksjoner, da S-E og Ego er utmattede og svake. Dette kan også gi psykose- og nevrose-lignende tilstander. Det er dog ingen behov for psykiatrisk behandling, men derimot behov for mindre stress og en god natts søvn. Når det er sagt, kan en selvfølgelig ha fysiske sanseforstyrrende abnormiteter, som skaper desillusjoner. Sannsynligvis er ikke alle sanseintrykk ens hos alle. Man har avvik fra normene på alle de fem sanser, -som man har avvik fra andre personlige egenskaper. Det kan avhjelpes profesjonelt. Eksempelvis er ikke en fargeblind sjåfør potensielt sosiopatisk – han skal bare lære trafikklysenes plassering i stedet for farger.

Som antydnet, kan kollektivt press på enkeltmennesket være direkte årsak til psykiske kriser. Det skjer spesielt hvor nasjonalstaten påtar seg rollen som dominerende Superior-Ego, som Mamma- eller Pappa-stat. Janteloven er som nevnt konstruert for formålet. Utover alle de personlige lidelser, kan resultatene bli massepsykoser, dobbeltmoral og massenevroses som eksploderer i opptøyer. Det har man sett i så mange diktaturer, - som oppstår og faller i voldsorgier. Denslags skjer neppe hvis samfunnet baseres på respekt for demokratisk Livskvalitet. Ergo blir det et hovedpoeng å fremme individuell Livskvalitet for samfunnet og menneskehetens skyld. Antagelig blir dette århundredes største utfordring å minimere skadeomfanget etter det voksende asiatiske nasjonal-sosialistiske imperie.

John Cleese er 'gjesteforeleser' i denne UU. Han har en livslang erfaring med galskap og har gjort det til sitt levebrød i underholdningsbransjen. Det startet naturlignok som en presserende hobby. Den lille Nerd ble utviklet fra en Matriark-dominert Sulk. Således tjente han flere formuer som ble oppbrukt av eks-koner og psykologer. Konsultasjoner hos psykologen Robin Skynner utviklet seg til et særlig fruktbart samarbeide. Selv hadde jeg glede av den humoristiske populær-psykologiske bok 'Life – How to survive it'. Cleese har blitt en særlig anerkjent foredragsholder for næringslivet. (Se videoer under.) Men man skal ha sans for den engelske humor. Norge er relatert til kulturen ved massiv utvandring til England og Amerika. Humoren fungerer ikke like godt i beltet Russland, Danmark, Frankrike. De nasjonale 'Gimmicks' er forskjellige. (Mærk at Tub'a har fått en stygg tedens til å stoppe videoer før de er ferdige, for så å redusere den viste totaltid på videoen. Bruk F5 da Cleese ofte har noen poeng til sist som er verdt å få med seg.)

Gnarls Barkley og Seal har begge laget hver sine hits som heter 'Crazy'. Begge er så gode at det var vanskelig å velge en. Dog er det ikke schizofrent å velge dem begge. Seal har det mest fengende refreng og absolutt den beste produksjon, - som ingen ringere enn Trevor Horn sto for. Gnarl's sin tekst har en betydelig innsikt som taler best for seg selv. Derfor ble dens tekstversjon valgt. I øvrig viser videoen varianter av Rorschach test hvor ens spontane reaksjoner på non-figurative bilder skal røpe ens sinnstilstand.

Van Der Graaf Generator – Wondering

2013mars29

Ukens Utvalgte:

Tema, tiden og skjebnen har gitt en dreining av denne UU. Langfredag kan ikke overses og den handler utvilsomt om Livskvalitet etter døden. Denne UU kan saktens omhandle metafysikk og religionsfilosofi, når de selvpålagte grenser for temaet er tidligere overskredet. Det er faktisk meget relevant da mere enn halvdelen av menneskeheten tilkjenner seg de monoteistiske religioner, og følgelig tror på liv etter døden, sjeler, engler og ånder.

Historisk sett, har det alltid vært stridigheter i Middelhavsområdet, - i skjæringspunktet mellom de 3 imperier i Midt-Østen, Nord-Afrika og Syd-Europa. Disse tre var praktisk talt uforenlig i språk, kultur, etnisitet og religion. Allikevel har religionene i løpet av titusen år smeltet sammen til noe tilsynelatende enhetlig. Kristendommen er følgelig en blanding av egyptisk, babylonsk og etruskisk teologi. Et fundament er den egyptiske astrologi og den okkult Osiris religion. Et annet er de babylonske engler og demoner samt Abrahams monoteistiske 'korstog' mot Egypt. Det tredje er det etruskiske prestestyret, hvor Pontifex Maximus ble romersk yppersteprest og forgjengeren til Paven. Datidens teokrater hadde ingen forestilling om dagens viten om solsystemer, galakser og universet. Dagens forestillinger om en universell guddommelighet er langt utover datidens teologisk fatteevne. Dagens monoteismer er i praksis et panteistiske kompromiss, hvor mengder av guddommeligheter er bevart.

Sosiologisk sett plasserer teokratiet seg i Foreldrene-roller som Patriark og Matriark. Menighetene påføres Barne-roller som Jerk og Sulk. Patriarker dikterer hva som er Rett og Galt, og Matriarker om hva som er Godt og Ondt. Demokratisk sett er dette utgangspunktet for usunne sosiologiske konstellasjoner. Det gir lite rom for mental utvikling av Voksen/Ego. Følgelig gjør Nerd tidvis gjør opprør, så som Jesus og Luther. Konsekvensene kan bli Psyko-Sosiale Spill med dramatiske utfall.

Spill-teoretisk er Påskeevangeliet særdeles interessant. Hverken Stat, Trone eller Tempel kunne aksepterte denne nye 'sønn av gud' og 'kongenes konge'. De ville jo alle tape sin samfunnsmyndighet til noe ukjent. Men ingen av disse myndigheter kunne straffe ham, fordi han ikke gjorde noe galt. Like fullt, henrettelsen ble fullført av Staten, med de andres stilltiende aksept. Evangelistene tilskriver historien til Jesus, men antagelige handler det om Cesarion, sønn av Julius og Cleopatra, og enearving om det forente Egyptisk/Romerske imperiet, og med tilhørende royale og guddommelige titler. (Se UU 05.April.2012.) I alle tilfelle, Langfredag er og forblir teokratiets absolutte klimaks. Her en mengde sosio-psykologiske Spill på gang samtidig, - så som; YDYB (Why Don't You, Yes But), IFWY (If It Weren't For You), WAHM (Why does this Always Happen to Me?), SWYMD (See What You Made Me Do), UGMIT (You Got Me Into This), LHIT (Look How Hard I've Tried), ITHY (I'm Only Trying to Help You), RAPO og LYAHF (Let's You and Him Fight). Den korte versjonen er at det starter med Spillet Schlemiel (provokatøren) og ender med NIGYYSOB (Now I've Got You, You Son Of a Bitch). Se gjerne utvalget av filmer herunder for selv å prøve ut noen psyko-, transaksjons- og spill-analyser.

Filosofier om Liv etter døden handler egentlig om transmigrasjon av sjeler fra en kropp til noen, eller noe, annet, - uten at livet opphører. Dette er tema har vært belyst religiøst i UU i 30.Mars.2012 og som diverse E.T. i 30.Nov.2012. Monoteistisk sett har Gud skapt 3 intelligente livsformer, Mennesket, Engler og Djinn. Sistnevnte kalles også ånd eller demon. Det er en livsform av energi som ikke har sin egen kropp. Spørsmål om det finnes menneskelig liv etter kroppens død, vil dermed være sjelelig eller åndelig. Herfra stammer også alle historier om spøkelses, ånder og annet fredløst godtfolk som hverken passer i Himmelen eller Helvete. Livskvalitet etter døden angår følgelig ikke Maslows fysiske behov, men har antagelig noe med energi å gjøre. Sjelers rettigheter i Himmelen eller Helvete kan føre til fornøyelige betraktninger, da det er så stereotyp. Men som i virkelighetens verden kan praksis være langt fra løfter. Eksempelvis er Engler kategorisk delt om synet på Mennesker. De er ikke noen 'englebarn' alle sammen og 1/3 har 'falt' fra Himmelen. En masse-migrering til deres Himmelen kan være vel så problematisk som Jordisk masse migrasjon og asylpolitikk i praksis.

Igen faller valget på Gruppen Van der Graaf Generator. De passer godt til tema om høyere filosofiske betraktninger. De er også godt omtalt flere ganger tidligere. Denne UU har en relativt enkel tekst, som dog gir noen ureligjøre betraktninger om metafysisk gjenkomst. De to påfølgende ekstra-nummer har betydelig dypere tanker.

New Order - True Faith

2013.mars.22

Ukens Utvalgte:

Som antydnet i videoen 'Games' i forrige UU, kan T.A. og Spill-analyse anvendes på organisasjoner og internasjonale forhold. Det er da også naturlig siden T.A. handler om mennesker uansett hvor store og kompliserte organisasjonene er. Mennesket har lavet dem 'i sitt bilde'.

Den mest åpenbare grunn til relasjonen er at mange organisasjoner er sterkt personifiserte, - med dominerende patriarker og matriarker. Listen av politiske, religiøse og royale ledere er overbevisende. Andre organisasjoner, som ikke er så personfikserte, har allikevel sterke kollektive Superior-Ego som uttrykkes i etikk, lover og ritualer. Statsmaskinen er ekstremt logisk-rasjonell, mens helse, velferd og pedagogikk er sterkt preget av Id mentalitet.

Han var neppe klar over det, denne politiske primat Plato, da han konstruerte den virtuelle maskinen, kalt 'The Republic' (Staten) for over 2000 år siden. Staten ble lavet i et kriserammet Hellas som en nødløsning for unntakstilstanden. I Platons idealsamfunn er han og likesinnede filosofer tilsatt som overherrer, mens samfunnets kvinner og menn er umyndiggjorte treller. Disse sørger for at samfunnet produserer, mens statsregimet tar det hele og gir kun det nødvendige tilbake. Statsprofitt er maksimert. Regimet er ikke mere interessert i borgerne enn en bonde er for sine nytte dyr og nytteplanter. Denne tragiske designerfeil bunner i Platons personlige traumatiske opplevelse av et korrupert demokrati. Statsmaskinens iboende anti-demokrati er blitt politikens overordnede tvangstanke, som fremdeles preger det republikanske statsstyre.

Hvis Republikken skal sammenlignes med nåtidens organisasjoner, vil militæret være mest nærliggende, - som har et dominerende Patriark-Jerk forhold. Det er ikke tilfeldig at ord som 'kunstverk' og 'kraftverk' har en allmenn positiv oppfattelse, mens ordet 'hærverk' er motsatt. På den annen side er helse- og sosialvesenet et sterkt Matriark-Sulk system, som naturlignok vokser i takt med statsstyret. (Plato selv representerer Nerd-Ego.) Til sammen danner de to et usunt sosio-psykologisk system, idet de begge er fastlåst i Foreldre-Barn tilstander. Mamma-staten og Pappa-staten klarer neppe å videreutvikle seg til Voksen-Voksen relasjoner i demokratisk forstand. utfordringer er å finne en tredjepart for å hjelpe dem over i V-V tilstander. Løsninger kan ligge i å videreutvikle stater til demokratiske nasjoner inklusive de tre regimer; stat, trone og tempel. De Forenede Nasjoner har jo forpliktet seg til internasjonal konflikthåndtering.

Det eksisterer altså modeller for internasjonal konflikthåndtering som kan forbedre kollektive mentalhelser. Kategorisk og reletert til teorien om 'ego-states', kan samfunns-regimer være; S-E/Formynder, Ego/Organisasjon og Id/Emokrati. I øvrig kan regimer også relateres til: S-E/Tempel, Ego/Stat og Id/Trone. En sunn nasjon vil ha balanse mellom de 3. Følgelig bør man også kunne betrakte hele menneskeheten tilsvarende. Så har de Forenede Nasjoner meget å arbeide med fremover.

Menneskeheten har nådd et radikalt nytt stadie i sin historie, - at en profesjonell 3. part blir den internasjonale konfliktløser med målsetting om OK nasjonale mentalhelser. Kanskje, i løpet av dette århundrede når vi et globalt sivilisert samfunn, uten periodevis total-ødeleggende Spill som krig. Men det krever noen utradisjonelle tanker og erkjennelser. Menneskeheten er selvfølgelig større, mere avansert og mere vitende enn noen person kan bli. Menneskeheten er som et S-E for hvert enkeltmenneske. Dermed er ikke forholdet 'mann-maskin' den store bekymring. Mennesket har jo lavet maskiner 'i sitt bilde'. Maskiner er kun noen nye maktmidler som også kan misbrukes. Til sammenligning; kjøkkenet er et nødvendig, men farlig sted – særlig for barn. Alikevel klarer kjernefamilier å anvende det til alles fordel uten alvorlige konflikter og skader.

Menneskehetens fysiske tilstand er under utvikling og er faktisk underutviklet. Det har selvfølgelig med at menneskeheten først nå bygger sitt globale neural nettverk, - internettet. Dette skjer etter en eksponentiell vekst av individer. Sammenlignet med en person, er den utviklingen på 3 år stadiet når sentralnervesystemet, hjernen, har bygd sitt nerve-nettverk mellom alle hjernecellene. Den Voksne ego-tilstand kan derpå starte sin utvikling. Med det stadiet kommer mengder av nye oppfattelser, erkjennelser og stadige revurderinger. Dog kan menneskehetens utvikling være en helt annen enn individets, da vi enda ikke vet hva menneskeheten er eller blir. Reaksjonene på dette stadiet er avgjørende viktige. Det er ingen gode eller dårlige Foreldre til å styre eller støtte. Alt vi har er en felles skjebne, som vi faktisk kan gjøre noe

med. Denslagt er dog alt for omfattende til å forstå eller forklare. Se gjerne talerne i TED video serie: The global power shift (9 talks).

Her passer 'True Faith' med gruppen New Order særedeles godt. Den ble sluppet i 1987 og rangerte høyt på flere lister. Spesielt ble videoen lovprist. Den er koreografert av Philippe Decouflé, som også sto for Frankrikets spektakulære OL seremonier i 1992. Melodi og tekst er også i særklasse og har blitt gjenspekt av en mengde cover-versjoner. Teksten er dog en smule sensurert da en setning om dop som selvmedisinering ble byttet ut. Teksten mister noe av sin mening, men det var nødvendig for å få gjennomslag i massemedia. Det er en surrealistiske video om dårlig styring og T.A. To rivaler starter ut med å slå på hverandre. Det er like intelligent og har samme resultat som om de sto og slo på seg selv. Der er en supervisor, en analytiker, en kontroller, en kommunikator og en taskforce. Men alikevel – man sitter til siste igjen med et eneste spørsmål: 'Hva skjedde?'

Peter Gabriel - Come Talk To Me

2013.mars.15

Ukens Utvalgte:

Mennesket er sosialt av natur. Følgelig er sosiologi nært knyttet til psykologi og Livskvalitet. Selv om staten har ansvar for å sikre de enkelte statsborgeres menneskerettigheter, kan de ikke, og skal ikke, detaljstyre ethvert mellommenneskelig forhold. Det er en del av demokratiet, at man selv ordner opp i sine forhold som voksne mennesker, - så langt man makter. Dermed kan man med fordel igjen ta tak i Freud og Jung, - denne gang med fokus på samvær.

Som nevnt egner MBTI seg godt til å stereotype personer, i den hensikt å få indikasjoner om hvilke personer typer en er og ikke er. Med det fundament på plass, er det godt å vite at det er lavet lett og underholdende informasjon om Typene og deres interaksjoner. Unødvendige sosiale misforståelser kan unngås og man kan få gode retningslinjer og råd i egenutvikling og samvær. Det finnes mengder av nettstedet med dokumentasjon, modeller og sosiale media for dette. Søkeord for sosiale forhold er ofte 'conflict handling'. Konflikter har rot i 'dramatiske situasjoner' som endog er klassifisert i 36 typer, som; trusler, kriminalitet, forfølgelse, katastrofe, ulykke, opprør, bortføring, rivalisering, mord, galskap, kjærlighetsdrama, selvoering, avsløring, misforståelse, feilbedømming, anger, gjenoppstandelse og persontap. MBTI kan dermed bli langt mere omfattende enn noen omtale her kan gjøres. En får heller kikke på de links under, særlig video-seriene hvor Typers interaksjoner forklares og diskuteres.

Dr. Erik Berne videreutviklet teorien om T.A. i boken 'Games People Play'. I den bok beskrives en rekke generelle psykologiske Spill (Games), som alle er uærlige pr definisjon og forekommer forbløffende ofte i virkeligheten. I boken beskrives et 60 talls Spill og hvordan man eventuelt kan få avverget de negative konsekvenser ved avsløring av de egentlige motiver og trekk. I disse psykologiske Spill brukes skjulte og falske trekk (Transaksjoner) for å oppnå en gevinst. Det skal dog nevnes at Spill ikke er den eneste type aktivitet i Bernes teorier. Kategorisk nevnes; Pasttimes, Rituals, Work & Games, som nå er utvidet med

Withdrawal & Intimacy. Spill stiller i en egen kategori da uærlighet er avgjørende viktig. Se for øvrig videoserien under.

Mennesker lyver. Hvor mange ganger man lyver daglig er ikke hovedsaken. Det er dog et faktum med konsekvenser man for ofte overser i sosiale, og ikke minst politiske, sammenheng. Der er naturlig nok uskyldige fysiologiske årsaker til at hjernen automatisk korrigerer fakta. Dyr's naturlige kamuflasje, avskrekkende opptreden og seksuale ritual indikerer at det er noe fundamentalt naturlig ved noen typer av bedrag. Men mennesket, som 'intelligente dyr', har et langt større spekter av bedrag. En klassifisering teller 28 typer bedrag som; konseptuelle løgner, bløff, nød-løgn, overdrivelse, oppdiktning, halve sannheter, unngåelser, løgn til barn, empatiske løgner, svindel, bevist feilbeskrivelse, høflighets løgner, hvite løgner, m.m. Bedrag kan dermed være av god eller dårlig moral og ikke nødvendigvis etisk forkastelig. Det er dog viktig å ha sitt eget verdssystem i orden, når en forholder seg til sine egne eller andres bedrag. Et helt uskyldig eksempel er at følelsen av ufrihet kan grunne i et selvbedrag om at en kan gjøre urealistiske ting. Se videoene under.

Janteloven er en anti-tese til Livskvalitet. Det er en destruktiv 'arvesynd' som har fordervet nordisk sosial kultur i et halvt årtusen. Den indoktrineres systematisk i den hensikt å redusere borgernes Livskvalitet med selvbedraget at selvødeleggende atferd gir positiv sosial status. Janteloven representerer med andre ord anti-tesen til verdssystemet 'Godt/Nyttig/Rett', antitesen til Maslows Behovspyramide og Menneskerettighetene, samt T.A. status 'Jeg er OK / Du er OK'. I det hele tatt er Janteloven konstruert for diktatoriske trellesamfunn. I de moderne nordiske samfunn blir denne 'arvesynd' fremmet og vedlikeholdt ved institusjoner som barnehaven, folkeskolen, LO, den fjerde statsmakt og statskirken, - eller sagt med andre ord – fra vugge til grav. Disse autonome Patriark/Matriark Super-egos undertrykker statsborgernes Selvrealisering. Følgelig utvikler samfunnet kollektivt psykiske sykdommer, iht. Freuds psykoanalyse. Statsautorisert selvmedisinering forsterker den negative innvikling. Den slags hypotoser vil bli nærmere omtalt når det teoretiske grunnlaget endelig er på plass i neste måned.

Igjen en hel konsert med verdenskunstneren Peter Gabriel. Denne gang fremføres konserten 'Secret World Live' som er nesten 20 år gammel. Det er en langt mere ungdommelig artist som den gang var på toppen av sin personlige karriere. Det er her også en fryd å se utviklingen i konsertens tema og bruken av den spesielle scene. Som vanlig har han med seg den trofaste bassist Tony Levin fra King Crimson.

Peter Gabriel - Growing Up

2013.mars.08

Ukens Utvalgte:

De fleste forhold til Livskvalitet omhandler viten, tanker og kommunikasjon. Livskvalitet handler dermed mere om psykiske enn fysiske forhold. To psykologer satte fundament i det forrige århundrede, - Sigmund Freud og Carl Jung. Deres tunge akademiske teorier er siden gjort allment og demokratisert. De kan nå leses, forstås og anvendes av enhver. Faktisk er enhver person en hobbypsykologer i den forstand at en prøver å forstå, kommunisere og påvirke sine bekjente. Så vil det være en fordel å kjenne til noen grunnleggende og folkelige modeller basert på Freud og Jung.

Ordet 'psykologi' betyr noe som 'studie av sjelen' og stammer helt fra oldtiden. Freud, 'psykoanalysens far', presenterer i boken 'Civilization and Its Discontents' de 3 deler av psyken; Id, Ego og Super-ego. På 60 tallet moderniserte dr. Eric Berne de samme, men med almene begreper som; ID/Barnet, Ego/Voksen og Superior-Ego/Foreldre. Med de begreper ble det enklere å se at Barn først utvikler sitt Id, så skaper Foreldre dets S-E, og at man som Voksen utvikler sitt Ego/Selvstendighet. Et sunt menneske har naturligvis en balanse av disse tre. Dermed kan man si at mentalhelsen gjenspeiles i personligheten – hvorvidt den er utviklet og om den får utfolde seg i Selvrealisering. Et sterkt undertrykte Ego fører til ubalanse og følgelig psykisk usunnhet, - i verste fall 'psykisk sykdom'.

Eric Berne videreførte teorien til kommunikasjon og interaksjon mellom mennesker, - kalt Transaksjons Analyse (TA). Den positive målsetting med TA er at alle bør tilstrebe holdningen at alle bør være OK. I TA brukes enkle og logiske fremstillinger av kommunikasjonen. Hvem uttrykte hva? Transaksjonene kan sammenlignes med de relevante 'data' i et hav av informasjon. Sosial kommunikasjon med mange aktører er dog besværlig, - og tidvis uoverskuelig. Selv uttrykksmåter til menn og kvinner kan være så forskjellige at det fører til stridigheter. Det er desto viktigere å ta tak i kjernen i ethvert uttrykk, - også de non-verbale. Teorien er underholdende fremstilt i boken 'Du er OK – Jeg er OK' og videreført i boken 'Games People Play'. Sistnevnte er nærmere omtalt i UU som 2012.07.06.

Grunnlaget for Myers-Briggs Type Indikator (MBTI) er Carl Jung sine teorier, hvor hensikten er å få et overblikk over mennesketypers forskjeller og likheter. Hans opprinnelige 2 'dimensjoner' av Typer var den 'Tenkende-Følede' og den 'Sansende-Intuitive'. Med MBTI er to nye dimensjoner tilført; 'Innadvendt-Utadvendt' og 'Sansende-Intuitiv'. Disse 4 dimensjoner kan gi 16 mulige kombinasjoner og dermed 16 forskjellige Typer av personligheter. Når så gjøres, bør også merke seg de tydelige advarsler om at ingen av disse 'Stereotyper' er bedre enn andre, at mennesker er ikke så kategoriske og statiske som kartlegginger kan indikere, at virkelige personligheter er langt mere varierte enn disse stereotyper, samt at personer utvikler seg og kan endre sine MBTI. Boken 'Type Talk' gir en videre forståelse av metoden og medmennesker. MBTI er dog langt mere profesjonell enn det okkulte og en-dimensjonale Enneagrammet. Se forøvrig kritikken i UU 2012.12.21.

MBTI og TA modellene kan kombineres. Dermed får man en sammenhengende modell for personligheter og kommunikasjon. Dette er særdeles anvendelig da psykologer ofte synes uforenlige og tildels selvmotsigende. Kort sagt kan S-Ego inndeles i 2 Foreldre typer; Matriark og Patriark. Videre kan ID inndeles i 3 respektive Barn; Jerk, Nerd og Sulk. Selv ville jeg dog modifisere deres MBTI i forhold til figuren under.

Detaljer i relasjonene bør selvsagt vurderes i enkelt-tilfeller. Hvis man så omsider ønsker å komme seg bort fra Enneagrammet, kan man gå veien via Belbin's forsøk på å gi Enneagrammet 2 dimensjoner og videre ta spranget til MBTI. Felles dimensjon for dem er 'Innadvendt-Utadvendt'. Dog vil det nok være best å springe det hele over og ta direkte tak i MBTI og TA modellene.

For øvrig kommer det stadig riktig gode videoer tilgjengelig på internettet. Serien 'Big Think' er særdeles god og anbefales. Serien omhandler også andre felter av vitenskapen. Se under for noen utvalgte videoer, - og ikke minst, se gjerne igjennom listen over all deres gratis foredrag av profesjonelle.

Peter Gabriel er en av mine største favoritter. Han var vokalisten i bandet Genesis, men måtte starte for seg selv etter noen dårlige transaksjoner (TA). Siden den gang har utviklingen til Genesis gått på tomgang og PG har bemerket seg som en av verdens mest spennende og kreative artister. Fremføringen av stykket 'Growing up', fra album og konsert med samme navn, har symbolikk i særklasse. Det hypersphere han inntar gir et helt nytt inntrykk av sangen. Egentlig ønsket han å rulle utover publikum, men avsto da det ville bli for tungt. I øvrig introduserte PG den spektakulært dristige akt å kaste seg ut til publikum for å forenes med folkemassen og seile over dem. Men noen fornyelse av stuntet, i en hypersphere celle, ble altså stoppet av hensyn til publikums livskvalitet.

Joe Jackson - It's Different For Girls

UU speciale – 2013mars08

Dagen i dag er den 8 mars og en kan ikke helt fri seg for å relatere Kvinnedagen til noen tanker i forhold til Livskvalitet og Menneskerettigheter.

Det er store forskjeller på kvinner og menn. Det lyder kanskje merkelig å måtte konstatere, men politisk propaganda synes til tider å dreie allmenn viten over i massepsykoser med alvorlige sinnsforvirringer. Grunnleggende og fysisk sett, så har ikke kvinner noen Y kromosomer. Menn har XY, og kvinner har XX. Selvfølgelig er det dermed store forskjeller på kvinner og menns fysikk og psyke.

Menneskerettighetene tilsier at alle mennesker har noen minimums rettigheter i forhold til sin nasjon for å kunne realisere et verdig liv. Det betyr på ingen måte at alle og enhver er like og ikke skal få utvikle sine forskjelligheter. Ei heller skal noen behandles på minimumsnivået. Den slags perverterte fortolkninger har gjort markeringsdager som 8 mars nødvendige. Men dessverre misbrukes denne menneskerettighetsdagen partipolitisk til selviske overfokus med overskygging av øvrige menneskerettigheter.

LO kulturer dominerer markeringer av kvinnedagen. Dets opphav er fra den russisk mafia, med Stalin, som var særdeles patriarkisk, voldelig og kjønnsdiskriminerende. Man så tydelige konsekvenser på 70 tallet om desperate behov for kvinnefrigjøring fra de mannsdominerte LO kulturer. Så kan man jo undres over hvem som egentlig ville at disse kvinnene kastet sin BH for allmenn skue, hvem som hyper-krafset på LO's fester og hvem som avgjorde at kvinnekampens symbol skulle assosieres med Fistf... .

Den nordiske kvinnekultur har stått sterkt i tusener av år. Kvinner behøver ikke å fri seg fra nordiske tradisjoner, men behøver å fri seg fra den industrielle LO kulturen. Så kvinnekampen i LO bør igjen rettes innad i sin egen organisasjon. FN's menneskerettighetskonvensjoner har intet med kjønnskamp å gjøre. Alle har grunnleggende rettigheter som menneske og skal ikke slåss mot hverandre av den grunn. Den type stridigheter oppstår i mindre siviliserte kulturer, med undertrykking borgeres rettigheter for kjønn, eiendom, selvbestemmelse, sikkerhet, privatliv, familieliv, arbeid, utdanning, tanke, samvittighet, religion og ytring.

For anledningen kommer her 3 ekstra nummer på rappen, - alle med tekster om forhold mellom kvinner og menn. Vi er og blir forskjellige. Joe Jackson, betrakter forskjeller som mannemann. David Byrne har sine erfaringer fra ungdommen og Blur er simpelthen 'blurred' om det hele.

Roger Waters - Who Needs Information

2013.mars.01

Ukens Utvalgte:

Når 'Livskvalitet' er definert, er det allikevel ikke tilstrekkelig til å forklare de menneskelige kvaliteter fullt ut. Grunnleggende verdisystemer er nødvendig. Informasjon og kommunikasjon er forutsetninger. De menneskelige verdifilosofier er ikke så vanskelige å forstå, hvis man bare holder seg til noen enkle realiteter.

Filosofi betyr noe som 'kjærlighet for visdom'. Det lyder som det ypperste nivå å søke, hvis man ønsker visdom om Livskvalitet. Men filosofi er ikke nødvendigvis nyttig for praktisk anvendelse. Filosofiske spørsmål mister noe egenverdi når de blir besvart og allment kjent. Eksempelvis gir det ikke lengere noen

status å være mester i vurderinger om jorden er flat eller rund. Svaret er blitt allmenn viten og den type filosofiske eksperter er for lengst glemt. Filosofer er for øvrig neppe særlig demokratiske, fordi spredning av deres kunnskap vil svekke deres egen status. Således er det temmelig verdiløst å løpe rundt inne i de eldgamle livsfilosofiske labyrinter i den tro at man vil finne entydige og anvendelige svar. Mere nyttig blir det å søke overblikk, kartlegge poengene og så å ta steget videre. Forenklet sagt, filosofi handler om spørsmålene og vitenskap om svarene, - og det er en dragkamp imellom filosofer og vitenskapsmenn.

Filosofier handler naturlignok om de store grunnleggende spørsmål om realiteter, eksistens, kunnskap, verdier, fornuft, resonnementer, tanker og språk. Religioner kalles for øvrig 'den første filosofi' og omfatter fundamentale spørsmål som start, slutt og omfang for universet, livet, allvitenhet, samt overordnede tanker om positivitet. Spørsmål av denne størrelse er ubesvarlige fordi menneskehetens fatteevne er begrenset. Det står respekt av dem som kan skille mellom sannsynlighetene; Tro, Håp og Viten. For øvrig er de kristne verdier; Tro, Håp og Kjærlighet, mens Plato's republikanske verdier er Visdom, Mot, Moderasjon og Rettferdighet. 'Etikkens Gyldne Regel' er universell og lyder omtrent; 'Du skal gjøre mot andre som du vil de skal gjøre mot deg'. Denne etiske feedback-regel er et utmerket eksempel på avansert moralfilosofi. Logisk sett kan man lave 8 varianter av regelen i positiv/negativ og passiv/aktiv modus. Oppsiktsvekkende nok, vil man antagelig gjenkjenne varianter som uønskede realiteter.

Filosofier om Livskvalitet vil naturlignok omhandle Moral og følgelig Moralfilosofi, - Etikk. Det handler om standarder for verdier, regler og holdninger. All historiens filosofer tilsammen er naturlignok særdeles omfattende, men de er også preget av historisk forsimpning, selvmotsigelser, overfokus, utelatelser og anti-demokrati. I dagens siviliserte samfunn tror man ikke i den grad på absolutter om moralsk 'rett' og 'galt'. Følgelig revurderes tanker om straff og belønning tilsvarende. Videre er den filosofisk tro på absolutt Determinisme (Skjebne) i større grad erstattet med demokratiske filosofier om den Frie Vilje. Man bør ikke bli dømt skyldig for ufrie eller ubevisste handlinger og heller ikke stå til ansvar med straff eller belønning. Dette har en sammenheng med at menneskelige følelser og spontanitet nå anerkjennes som moralske faktorer, tross de uforutsigelige konsekvenser. Eksempelvis anerkjennes kjærlighetens eksistens og moralske påvirkning til tross for at kjærligheten ikke kan bevises eller forutsies. Følelser er nært knyttet til det livsviktige hjertet og antagelig et vitalt feedback system for overlevelse. Følelser kan forklare menneskehetens store overlevelsessevne.

Så omsider til den praktiske anvendelse av all denne Moralfilosofi. Man kan godt oppsummere de fleste verdisystemer til å omhandle 3 usammenlignbare verdier; Godt, Nyttig og Rett. Verdien 'Godt' er relatert til personlige følelser, som ikke kan overføres til andre personer. 'Nyttig' er relatert til sosial omsetning som konstruksjoner og handel. 'Rett' er relatert til udiskutable absolutter. Enhver er selv den beste bedømmer av sin egen Moral. Begrepet 'ingen moral' er en illusjon, eller er en unnskyldning for å fremstå nøytralt. Enhver kan verdsette en mening eller en handling i forhold til verdiene; God, Nyttig og Riktig. Så kan man jo antyde relative verdier som; GNr, gNr, gnR osv. Alternativt kan man vurdere de negativt motsvarende verdier; Ondt, Destruktivt og Galt. Videre kan man saktens diskutere sine verdier med andre og endog forhåpentlig bli enige om noe. Det lyder banalt, - men så enkelt kan avansert Moralfilosofi anvendes av enhver. Så skal man bare tenke over det og våge å samtale med andre om det. Se for øvrig den enkle figuren om verdisystemenes sammenheng.

Radio K.A.O.S. er den andre av Roger Waters tre solo-album etter skille fra Pink Floyd. Albumet har en sammenhengende historie som kan være en oppfølger av 'The Wall' og 'The Final Cut'. Klimaks er dog en tankevekkende falsk alarm om WW3. Radiostasjonen fungerer godt som scene i historien med en rekke meningsløse, og kaotiske, innslag. De er dog ikke fri for Rogers fengende musikk og egne politiske ytringer. Motsatt av K.A.O.S kan man sannelig gå trett av alskens kvasi-demokratisk meningsmaking via den fjerde statsmakt.

Ultravox - Vienna

2013.februar.22

Ukens Utvalgte:

Når Livskvalitet forutsetter Menneskerettigheter, blir nivået avhengig av nasjonens forhold til sine statsborgere. Fremmes eller hemmes de? FN's medlemsstater har ikke eiendomsrett over sine borgere og nasjonsunionen er forpliktet til å beskytte dem, - uansett statsborgerskap. 'The United Nations Charter' er den opprinnelige juridiske kontrakt fra 1946 som forplikter unionenes medlemsstater til å reagere mot enkeltstaters forbrytelser mot menneskeheten. Derfor kan en despotisk medlemsstat 'angripes' av andre medlemsstater for å forsvare dets borgere.

Som nevnt er det tilført flere konvensjoner, som UDHR, ICCPR, ICESCR samt en rekke tilleggsprotokoller. De aller fleste medlemsstater har signert det meste. Statistikk sier endog at ratifisering er nesten like god som signeringen. Men to medlemmer utmerker seg spesielt. Det mangler ratifisering fra Kina på ICCPR og fra USA på ICESCR. Men som nevnt, statistikk om ratifiseringsnivå kan være misvisende fordi virkelig Livskvalitet for statsborgerne sikres ved å dekke deres virkelige behov. Derfor skal man gjøre personundersøkelser og ikke bare publisere statlige statistikker. NGOs (Non-Governmental Organizations) sine informasjonen kan være mere pålitelige. Kort sagt – selv de mest siviliserte samfunn har betydelige svik som ikke synes i statistikker.

FN's Sikkerhetsråd består av 5 permanente medlemmer med veto-rett, samt 10 nasjoner med 2 års deltagelse. Kina, Russland, Frankrike, UK og USA har dermed en uforholdsmessig stor makt siden verdensbildet i dag er endret siden 1946. Følgelig er det flere forhold i FN systemet som bør stå til revurdering etter et halvt århundres byråkratisk inn- og ut-vikling. Man kan saktens reise spørsmålet om ikke ratifisering bør være en betingelse for representasjon i FN's Sikkerhetsråd. Det krav kunne få forrang i de resterende ratifiseringer. Siden '46 har både den europeiske og afrikanske union kommet til. Dermed synes det praktisk at bytte England og Frankrikes faste plasser i Sikkerhetsrådet med EU og AU. Videre er det utrygt å ha kun en lokasjon for hovedkvarteret i en global og truet organisasjon. Eksempelvis har EU 3 lokasjoner for sitt Parlament, i Strasbourg, Brussels og Luxembourg. Videre gir moderne IT alternative muligheter for effektivitet og sikkerhet.

FN's forhistorie er brutal. 'The Concert of Europe' (the Congress of Vienna) ble etablert i 1815 etter de bestialske Napoleonskrigene. Unionen sørget for, utover Norges frigjøring, fred og en historisk fremgang i et århundrede. Dette tok brått slutt med intrigen 'Skuddet i Sarajevo'. Med WW1 ble unionen smadret og 20 millioner europeere drept. (Perioden inkluderte pestkrigen 'Spanskesyken' tok livet av 50-100 millioner på verdensplan.) Følgelig ble den globale 'League of Nations' etablert for å forhindre en ny verdenskrig. Den unionen var en kort fiasko og 70 millioner døde i WW2. Atombomben understreket alvorlet i krigsutviklingen, så det ble lett for nasjonene å samles om de fredelige spilleregler i unionen.

UN Charteret av 1946 er lavet for å forhindre despotiske statsledere i å starte masseutryddelser. Derfor er kontrakten tydelig på at unionens medlemsstater har en gjensidig forpliktelse til å stoppe denslags før det blir for sent. Sanksjonsmidlene er i hovedtrekk 1) Diplomati, 2) Handel/økonomi, 3) Militære handlinger. FN har forhindret en WW3 og er verdens eneste forsikring mot atomkrig. Men trusler mot FN er betydelige og reelle for all verdens skue. Teokrater destruerte FN's nabo WTC og en republikansk despot truer med å 'nuke' vertsbyen til FN hovedkvarter. Problematisk er det dog at diplomati fungerer ikke mot psykisk syke

og tilsvar kan oppfattes som legitimering for opptrapping. Således blir både verdifilosofi og psykologi vesentlig for vurdering av menneskehetens Livskvalitet.

Gruppen Ultravox er indirekte omtalt flere ganger her i UU, - dog ved John Foxx som var vokalisten før Midge Ure. Gjennombruddet for Ultravox kom med skiftet. Gruppen ble en av de største eksponentene for britisk elektronisk pop musikk på 80 tallet. 'Vienna' er antagelig deres viktigste verk med Brit Award i '81. Det er en synthpop ballade som utmerker seg med piano og fiolin. Sangen er inspirert av filmen 'The Third Man' fra 1948, men teksten er ikke særlig beskrivende. Det er derimot den offisielle video. I denne sammenheng kan den anvendes på perioden til 'The Concert of Europe / The Congress of Vienna' før WW1.

Ukens Utvalgte:

Menneskerettighetene er utvilsomt de 'uttrykte behov' i definisjonen av Livskvalitet. De er som behovene i Maslows Behovspyramide. Det forsterkes ved at kvalitetsdefinisjoner ofte relaterer 'behov' til 'krav eller spesifikasjoner'. Menneskerettighetene er nettopp slike 'krav eller spesifikasjoner' for de menneskelige behov.

Nærmest alle de 193 medlemsstatene i de Forente Nasjoner (FN - UN/United Nations) har forpliktet seg til å ratifisere menneskerettighetene i sin nasjonale lovgivning. Statene har forpliktet seg til å sikre sine borgeres rettigheter angående; eiendom, selvbestemmelse, sikkerhet, privatliv, familieliv, arbeid, utdanning, samt å sikre friheter for tanke, samvittighet, religion, ytring og mer. Selv om UN konvensjonene er unyanserte, er statene forpliktet til å konkretisere og realisere rettighetene med tilhørende offentlige tjenester. Dessverre er det stedvis stor avstand mellom teori og praksis – mellom lovgivning og offentlig lovlydighet. Forklaringen er historisk.

I den republikanske stats årtusenens eksistens, er det kun i det siste halve århundrede at statsmenn er såpass juridisk forpliktet til statsborgerne. Historisk sett er rettsutviklingen så: Oldtiden; stat-vs-borger, Romerriket; borger-vs-borger og Opplysningstiden; borger-vs-stat. Sistnevnte heter Naturretten og ble realisert ved FN's Menneskerettskonvensjoner ('The Universal Declaration of Human Rights' (UDHR), 'International Covenant on Civil and Political Rights' (ICCPR) og 'International Covenant on Economic, Social and Cultural Rights' (ICESCR)). Siden har det kommet til en rekke protokoller med særlige spesifiseringer av rettigheter. Senere har regionale organisasjoner spesifisert rettighetene, så som ECHR (European Court of Human Rights) i Europa.

Juridisk og parlamentarisk sett er ratifiserings-prosessen særdeles enkel. En parlamentariker skal bare foreslå at konvensjonene som helhet skal godkjennes som nasjonal lov. Demokratiske lovgivende parlamenter kan ikke nedstemme forslaget og overleve. Ergo, - et enkelt forslag fra en enkelt parlamentariker – og nasjonen får sin "Menneskerettslov". Således fikk nordmenn den juridisk overordnede Menneskerettsloven ved århundreskiftet. Menneskerettsloven begrenser følgelig statens urett mot statsborgerne angående; eiendom, selvbestemmelse, sikkerhet, privatliv, familieliv, arbeid, utdanning, samt å sikrer friheter for tanke, samvittighet, religion, ytring og mer. Statsmenns brudd på Menneskerettsloven kan relateres til Straffeloven og rettsforfølgges.

I fjor ble Norges Grunnlov §2 endret til å inkludere Menneskerettighetene. Dermed er Norsk lov blitt særdeles sterkt bundet til Menneskerettskonvensjoner fra FN og ECHR.

Coldplay er en britisk alternativ rock gruppe fra 1998, som selveste Brian Eno har hjulpet med produksjonen. Gruppen har fått syv Grammy Awards av 25 nominasjoner, 7 Brit Awards, 5 MTV Video Music Awards og hatt UK bestselgende album i 2011. Gruppen har vært en aktiv supporter til flere sosiale og politiske saker som 'Oxfam's Make Trade Fair campaign', Amnesty International, Band Aid og Live 8. Original videoen til denne UU er særlig underholdende, - her er et dukketeater som overgår forventningene.

Yazoo - Only You

2013.feb.08

Ukens Utvalgte:

'Behov' er hovedfaktoren for definisjonen av 'Livskvalitet'. 'Maslows Behovspyramide' viser enkelt de 5 hovedkategorier: Fysiske, Trygghet, Sosiale, Respekt og Selvrealisering. I demokratiske sivilisasjoner er Selvrealisering den allmenne selvfølge for ethvert modent menneske.

Abraham Maslow var en amerikansk-russisk psykolog og en grunnlegger av den humanistiske eksistensielle psykologi. Hans hovedverk 'Motivasjon og personlighet' fremmer den oppfattelse at menneskets natur er i utgangspunktet godt, men at ugunstige levevilkår vil gjøre livet lidelsesfullt eller ødeleggende. I den samme bok presenterer han 'Behovspyramiden' (Behovshieraket). Et hovedpoeng er at en person behøver å få dekket de grunnleggende behov, som Sikkerhet, for å kunne fremme høyere behov som Selvrealisering.

Nord-europeisk kultur har sterke sosiale tradisjoner for å dekke de basale menneskelige behov for sine borgere. På tross av harde og tidvis kalde omgivelser fra naturens side, er det høy levealder og livskvalitet. Antagelig er det heller på grunn av kald og hard natur at vi har lært å sikre gode tiders ressurser til dårlige tiders mangler, - samt å fordele dem etter behov.

De virkelige behov kan komme i skyggen av skapte behov, politiske spill og overtro. Det er dog en selvfølge i et demokrati at enhver skal kunne tilfredsstille sine personlige behov, - så sant det ikke går ut over andre. På den annen side har samfunnet hverken tid, ressurser eller rett til å omfordele feilaktig. Det er en særdeles ansvarstvingende oppgave som krever høy profesjonalitet, moral og rettferdighets. Det primære mål for oppgaven må derfor være å fremme enkle men fornuftige mål for hver enkelt borgers livskvalitet. Mål for tid og penger er sekundært.

Behovet Selvrealisering er i utgangspunktet egoistisk. Følgelig er et visst nivå av egoisme overordnet viktig i en demokratisk sivilisasjon. Antidemokrater motstrider dette med argumentasjon i en halv sannhet om at egoisme er usosialt, - ordet 'ego' tilføres negative betydninger. Men en Selvrealisering kan ikke skje uten betydelig bidrag til det underliggende Fysiske behovet Sosiale Relasjoner. Videre kan profesjonell Selvrealisering berike samfunnet med vitenskap, kunst og lærdom. Derimot Republikanske, Føydale eller Teokratiske diktatur kan ikke eksistere uten systematisk nedbryting av borgernes selvrealisering, - fortrinnsvis ved å undertrykke de underliggende behov. Trelledom skapes ved blokkering av Selvrealisering.

Walter Bishop er en hovedfigur i TV-serien 'Fringe'. Denne UU er tatt fra sesong 5 episode 1, hvor han faktisk kommer til å høre 'Only You' med gruppen Yazoo. Sesongen har iøvrig et ganske annet tema enn de foregående og handler om liberalisering i et dystopisk samfunn, invadert av 'the observers'. Yazoo var en bemerkelsesverdig duo fra 80 tallet med Vince Clarke på synthesizers og Alison Moyet på sang. Clarke lavet praktisk talt hele debut albumet til Depeche Mode før han danne Yazoo. Deretter ble han musikeren til The Assembly og til sist duoen Erasure. Videre har han samarbeidet med band som Blancmange, Heaven 17 og The Human League. Clarke er et utmerket eksempel på behovspyramidens øverste nivå – Selvrealisering.

Ukens Utvalgte:

Begrepet 'Livskvalitet' må være det viktigste for ethvert menneske og menneskeheten som helhet. For snart 20 år siden valgte jeg det som hovedtema for min MSc Thesis. Det faktum at begrepet ikke har noen entydig definisjon var mildt sagt overraskende og tankevekkende. På den annen side ga det meg noen virkelig spennende utfordringer. Jeg ble selv nødt til å definere ordet 'Livskvalitet' og kunne dermed analysere det på egne premisser. Det ble en berikende prosess som har påvirket min tankegang siden.

Som en ingeniør ble det naturlig å ta utgangspunkt i den globalisert anerkjente definisjon av 'Kvalitet på produkter og tjenester'. UN (United Nations) har med ISO (International Standard Organisation) lavet det globalt anerkjente ISO 9000 konsept for bedrifters kvalitetsstyring. Mindre kjent er den tilhørende definisjon for 'Kvalitet på produkter og tjenester' (ISO 8402-1986). Den lyder: "Quality (is) the totality of features and characteristics of a product or service that bears its ability to satisfy stated or implied needs". Oversatt til norsk blir det: «Kvalitet (er) helheten av funksjoner og egenskaper et produkt eller en tjeneste har som tilfredsstiller de uttrykte eller underforståtte behov.»

Ethvert menneske er avhengig av produkter og tjenester. Det er derfor besynderlig at en så enkel definisjon på deres kvalitet er så allment ukjent og såpass misforstått. En misoppfattelse er at ordet 'service' er

ensbetydende med 'kvalitet'. Men ordet 'service' betyr 'tjeneste', - og dens kvalitet kan være god eller dårlig. Videre skilles det ofte mellom materielle og immaterielle produkter. Dermed anses åndsverk og IPR (Intellectual Property Rights), som bøker, musikk og film å være produkter. Dog har de immaterielle produkter spesielle juridiske forhold som 'opphavsrett'. Misforståelsen at programvare er services/tjenester kan forklares i omfortolkninger for å slippe unna moms-avgifter. Kanskje mest betydningsfullt er at den offentlige sektor leverer tjenester til borgerne og samfunnet forøvrig. Det er derfor alvorlig galt at begrepet service/tjeneste tidvis plukkes ut av ISO definisjonen. Offentlige tjenestepersonell og politikere burde ha upåklagelig forstand om hva kvalitet på helse-, transport- og skole-tjenester er. Uvitenheten avdekkes daglig ved uttalelser og handlinger.

Tilsvarende kan man simpelthen definere at «Livskvalitet: (er) den helheten av muligheter og evner en person har til å tilfredsstillere uttrykte eller underforståtte behov». Vanskeligere er det faktisk ikke å lage en global entydig definisjon. Herfra valgte jeg å relatere definisjonen til 'Maslows behovshierarki' og 'Menneskerettighetene'. Dermed får 'Livskvalitet' en rekke omfattende konsekvenser. Dette blir temaet i UU noen måneder fremover. Av praktiske årsaker vil jeg begrense fokus til den europeiske demokratiske kultur.

Den danske gruppe Baal er ufortjent ukjent. De har siden midten av 90 tallet stått som en unik størrelse i dansk rock-musikk. Med deres blanding av kabaret, country, ballader og rock har de skapt seg et navn. Bandet så ut i perioder til å kunne bli av internasjonalt format, med hjelp av Rik Simpson, som har produsert for The Cure, Radiohead og Kula Shaker. Siden har Baal konsentrert seg om å lage musikk til forskjellige teaterstykker, og i 2003 lanserte gruppen i samarbeide med Fredericia Teater rockoperaen 'The Last Show'. Teksten i denne UU handler om Livskvalitet.

Eyeless in Gaza - Veil Like Calm

2013.Januar.25

Ukens Utvalgte:

Man kan få post-apokalyptiske stemninger av bandet 'Eyeless In Gaza'. Det er som om de engang hadde rikelig med elektroniske instrumenter, men må nå klare seg med simple midler. De bruker det lille de har og presterer melodiose og stemningsfulle melodier. De er som to stykk harmoniserte en-manns band.

Bandet har betegnet seg selv som industriell funk, avant-folk og post-punk. Dermed kan det være vanskelig å høre teksten til vokalistene. Punkere skal synges utydelig. Jeg har ikke funnet teksten til denne UU, men under finnes et par andre stykker med tekst som også er utmerkede. Denne UU ble utvalgt fordi den viser dem spille og det minner meg om deres uforglemmelige konsert i Oslo for omtrent 25 år siden.

Navnet 'Eyeless In Gaza' stammer fra Aldous Huxley sin bestseller roman om en blind manns opplevelser. Selv har jeg ikke lest den romanen, men er oppfostret på 'Brave new World'. Dette gir en passende avslutning på dette tema 'Da trubadurer fikk elektrisitet' og passende start på neste omfattende tema 'Livskvalitet'.

Deep Purple – Space Trucking

18.Januar.2013

Ukens Utvalgte:

Deep Purple er et utmerket eksempel på utviklingen av rock musikk. Her er fire selvstendige talenter skrudd sammen til et band. I den legendariske konsert 'Made in Japan' utnyttet de instrumenter og stemme til det ytterste.

Men det tok av til det absurde da krav til sceneshow vokste. Denne UU viser en etterfølgende opptreden hvor bandet bikket over toppen og er på full fart nedover igjen. Organisten har fått loddet på noen effektbokser som bare må testes. Gitaristen har fått montert røykmaskiner på høytalerne og tåkelegger kunsten. Selv vokalisten har funnet frem noen kongotrommer å smadre. Det var liksom ikke nok for arrangørene med det ypperste av kreativ musikk – det måtte bare destrueres og foreviges på film. Skille mellom kreativ og destruktiv rock ble lagt på den tiden.

Heldigvis kan den legendariske 'Made in Japan' konserten ses på 'tuba. Riktignok er det fra truneen i Danmark, - med et litt annet program. Desværre ser kameramannen ut til å ignorere gitaristens prestasjoner, - men pytt pytt. Det er gledelig å endelig få se konserten etter 40 års venten.

Otis Blackwell - Great Balls of Fire

«Dengang trubadurer fikk elektrisitet» er et ad-hoc tema som ble introdusert våren 2012. Det er ment å skape refleksjoner over de store sosiale endringer menneskeheten fikk i etterkrigstiden, - simpelthen ved at poesi og musikk ble forsterket og allment tilgjengelig.

Mikrofonen må sies å være den oppfinnelse som muliggjorde denne poeters revolusjon. Thomas Edison vant i 1877 en patent-krig om mikrofonen mot Emile Berliner. Tidligere tok Edison patent på den 200 år gamle Sengerphone ved å gjøre små justeringer og ved å omdøpte den til Megaphon. Disse prosesser minner forøvrig om hans seier over Nikola Tesla om AC/DC.

Med en mikrofon i gitaren fikk jazzmusikkere et løft i 1930 årene, som vokalister fikk før dem. Dermed kunne de delta i storband og høres. Etter ww2 ble vokalen og gitaren så populære at det løftet dem ut av storband til å danne mindre band. Grunnlaget for rock&roll var skapt. Successen og den påfølgende musikk-revolusjon var uforutsigelig. Men så som de virkelige skapere av teknologien kom i bakgrunnen, kom også grunnleggere av musikkstilen i skyggen.

En av de virkelig store skapere og performere var Otis Blackwell, alias Jack Hammer. Han påvirket utviklingen av rock&roll betydelig. Hans komposisjoner inkluderer blant andre; Little Willie John's "Fever", Jerry Lee Lewis' "Great Balls of Fire" og "Breathless", Elvis Presley's "Don't Be Cruel", "All Shook Up" og "Return to Sender", samt Jimmy Jones' "Handy Man".

The 5th Dimension - Age of Aquarius

04.januar.2013

Ukens Utvalgte:

Dette er første UU i året 2013. Tallet i seg selv er ikke interessant, men det er alle de fortolkninger 13 har fått. Tallet ville forblitt ubemerket, om ikke kalenderen og klokken er så viktig for våre virkelighetsoppfattelser, samt at tidsregninger er lavet så komplisert.

Jorden roterer om seg selv daglig, Månen roterer om Jorden månedlig og en runde om Solen tar et år. Disse sykluser går ikke opp i et tallsystem basert på 10 fingre. Det er besværlig siden disse sykluser ikke passer noe heltalls-system overhodet. Men allikevel - dagens tidsystem er usedvanlig rotete. Det er helt galt å dele opp ett og samme døgn i 24-, 60- og 10-talls systemer. Man burde bruke 2x10 timer/døgn, 100 min/t og 100 sek/m. Videre er det unødvendig rotete å dele opp årets i måneder i 12 ganger 28 eller 30 eller 31 dager. Denslags kan ikke forklares med fornuft. Beslutningen skyldes dominerende og irrasjonell astrologi. Tallsystemene er gjort så forvirrende at folk flest ikke klarer å regne ut relativt simple tidsperioder, som hvor mange dager, timer og minutter det faktisk er mellom et par måneder. Det har negative samfunnsmessige konsekvenser.

Tidsregninger ble fundamentalt endret da det 'Zodiac' horoskop sa at Solen gikk fra sternetegnet Stenbukken til Fiskene. Årstall ble nullstilt og det romerske 10 måneder-system ble erstattet med dagens 12. Det vil ikke forundre om våre time/minutt/sekund -system også stammer fra denne astrologiske revolusjon. Alt skulle gå opp i tallet 12. Men rasjonelt sett bør andre tidssystemer anvendes. For eksempel er en årskalender på 13 måneder á 28d/4u langt mere oversiktlig, - tross det uheldige antall måneder. Systemet heter 'The International Fixed Calendar' og ble foreslått allerede på midten av 1800 tallet. Et annet interessant alternativ ble foreslått av Isaac Asimov. Der utelates simpelthen Månen og det fokuseres på Jordens forhold til Solen. Det gir en årskalender med 4 årstider á 91 dager. Uvant, men meget fornuftig. Uansett valg av kalender skal den dog korrigeres årlig på grunn av heltalls-problemet.

Videre er det virkelig interessant å lese at det faktisk har eksistert horoskop med 13 stjernetegn. Det trettende heter Slangebæreren (Ophiuchus). Tegnet er spesielt i den forstand at den strekker seg over flere andre 'hus' og dermed anses som noe overordnet eller underordnet. Denne slangen holder liksom himmelrommet sammen og kan ha vært relatert til myter som den om Midgardsormen, samt medisins symbol Caduceus. Men slangen er også blitt symbolet for ondskap, så som den i Edens have. I dag er tallet 13 forbundet med ulykke. Det finnes dog ingen annen rasjonell forklaring på 'ulykke' enn at et 13de stjernetegn vil forrykke spådommene til alskens astrologer og okkult religiøse predikanter. En rasjonell omlegning av tidsregning vil plassere dem i bås med historiens mislykkede dommedagsprofeter.

Gruppen 'The 5th Dimension' er ikke en gruppe til min smak. Ingen har vel sluppet unna denne 'hit' til musikalen 'Hair' og deres psycho-trip til en fantasi-dimensjon. Dette forrykte New-Age budskap om at Solen går fra sternetegnet Fiskene til Vannmannen bommet med et par århundre. Det vil skje omtrent i år 2150. (I øvrig tipper andre astrologer på år mellom 2062 og 2680). Det finnes ikke belegg for å påstå at Vannmannens Era vil bli mere harmonisk og fredelig enn Fiskenes Era med Jesus. Denne 68'er filmens budskap er at psykotisk narkotika, passifisme og astrologi er verdenssamfunnets løsning, - 'dop deg ned og bli invadert i lykkerus'. Her har vi vel problemet i et nøtteskall – desillusjonerende religioner fundamenteres på narkotika – og det misbrukes politisk.

Orchestral Manoeuvres in the Dark - Genetic Engineering

28.december.2012

Ukens Utvalgte:

Lucie og Klype ble hovedkarakterene i AG. Det ble nødvendig å skape disse fiktive figurerer for at lesere kan ha noen å relatere seg til og for å skape dialoger og drama. Således fristes man til å la fantasien slippe løs – på kompromiss med fakta. Det kan følgelig forandre fundamentet for historien betraktelig. Fokus ble tatt fra den opprinnelige hensikt å forene Skapelses- og Utviklingsteorier. Man kan endog forestille seg at tilsvarende skriveprosesser er opphavet til mytologier.

Fundamentet til de 'intelligente' vesener i 'Accidental Genesis' kommer fra de monoteistiske skrifter; GT, NT og Koranen. (Skjønt, panteisme er en mere korrekt betegnelse for de skrifter da engler, ånder, samt gudesønner og nephilims ikke ekskluderes, men samles under en overordnet guddommelighet.) Lucie og Klype møter også diverse engleskikkelser. Klype er en genmanipulert humanoid. (Fornavnet er i øvrig et alias for Søren.) Hans opphav var fra en stamme primater på en annen planet. De ble utsatt for en overdose pollen fra kunnskapstrær og de er traumatisk preget av sjokket. Lucie er tilsvarende en Jinn. Hun er som en ånd eller demon og har med andre ord ikke sin egen kropp. Hun behøver å besette andre. I et sjeldent samarbeide med noen engler fikk hun oppfylt sitt høyeste ønske om å få sin personlige designerkropp. Englekollektivet representeres med flere typer avhengig av oppdraget. De er mestre i genetisk ingeniørkunst og modifierer skapelser. Deres medhjelpere er Biots (biological robots). I AG er dog deres oppdrag å abortere den uautoriserte skapelses-prosess.

Lucie og Klype ankommer vårt Solsystem for 65 my siden, - omtrent på den tid dinosaurerne utdødde. Deres oppgave er å kartlegge og dokumentere tilstanden og hendelsesforløpet før skjebnen iværksettes. Sett bort fra Klypes stadige tendens til overdramatisering av fortids-scenario, er nutids-dramaet lagt til den planlagte masseutryddelse av alt liv på Jorden. Klype blir dog nostalgisk og saboterer planen for et område med Jordiske humanoider. Følgelig blir dragene/dinosaurerne utryddet mens 25% av andre livsformer overlever, inklusive hans etterfølgere. Lucie mister sin designerkropp ved et uhell. Etterfølgende forsøk på å få en tilsvarende tilbake fra englene mislykkes. Hun sitter fast i sin lille dino/drage-kropp. Interessant nok, så er det en egnet kropp for hennes åndelige evige liv, siden slektninger som krokodiller ikke dør naturlig ved alderdom.

I mine optimistiske perioder var AG tiltenkt å bli en triologi. Del to ville handle om planlagt rekonstruksjon av restene etter 'Undo'. Del tre ville handle om utvikling frem til de rester vi kan se av stenalder-imperier til pyramidefolkene. De viser tydelig at stenaldermenneskets kulturer kunne være særdeles avanserte. Det er i det hele et meget interessant stort hull i menneskehetens historie før dette. Fortidsmennesket eksisterte beviselig for 3,2 millioner år siden, det moderne mennesket har eksistert i 200.000 år men vi har kun funnet

rester av sivilisert liv de siste 50.000. Evnen har ligget i våres gener hele tiden, men historien sier at vi plutselig, for relativt kort tid siden, fikk evnen til å bygge avanserte sivilisasjoner.

OMD (Orchestral Manoeuvres In The Dark) ble dannet av Andy McCluskey and Paul Humphreys på slutten av 70 tallet. De var inspirert av andre som Brian Eno og Kraftwerk. En vokalist med bassgitar og en synth var et uvanlig konsept for en gruppe. Utover kreativ synth bruk, fikk de også hjelp av andre musikere etter behov. De har en lang rekke hits som neppe har forbigått et eneste øre. 'Genetic Engineering' er av de tidligere gjennombrudd og representativ for den stil.

Peter Murphy - Socrates The Python

21.december.2012

Ukens Utvalgte:

Dette er den historiske dag hvor Mayakalenderens syklus slutter, - for å starte en ny. Så er det tid for å avsløre og stoppe opphavet til de periodevise destruktive massepsykoser, - her med fokus på Enneagrammets mørke sider. Mitt motiv ligger i at anti-tesen til sådanne destruktive spill er å avsløre dem. Folk vil ikke spille med når de kan se bedraget.

George Ivanovich Gurdjieff var fra Armenia og sterkt påvirket av den russisk-ortodokse kirke og deres munk. I mellomkrigstiden ble han en innflytelsesrik spirituell leder. Han predikerte at flertallet går i en hypnotisk tilværelse og at han selv kunne vekke dem til å se hans virkelighet. Et viktig verktøy i hans lære var Enneagrammet (9-talls-grammet). Opphavet ble holdt skjult og fremstilt som noe gudommelig. I dag kan enhver se at det stammer fra det egyptisk Isis (Iris) tempelet og den okkulte Osiris tilbedelse. Denne er basert på en astrologi fra steinalderen og har intet med profesjonell astronomi, psykologi eller sosiologi å gjøre. Gurdjieff kategoriserte sine 9 mennesketyper i 3 grupper. Derne lavet han en mindre kjent gruppe, 'den fjerde vei', så typene ble 12. Ukjent for de aller fleste er at Osiris mytologien har en trettende og skjebnesvangre type, - den som garantert går under og som forhåpentlig gjenoppstår - 'one to rule them all'.

Dagens Enneagram markedsføres aktivt inn i organisasjoner og virksomheter. Ved spørreskjema stemples personalet til en av 9 stereo-typer og fundamenteres der. Riktignok er det oppfunnet såkalte 'vinger' som liksom forklarer hvorfor personer egentlig passer til flere typer. Problemet med denne simple stereo-typing er at det skaper forventninger om skjebnesvangre reaksjoner som ikke er naturlige for dem. Således 'forutsies' og scriptede unaturlige samhandlinger. Modellen er dermed egnet for å lave såpeopera-manuskript eller 'Robinson Spill' med oppkonstruert dramatik og intriger i stedet for å fremme bedrifter og organisasjoners strategi og drift. Enneagrammet gir alvorlige potensialer for misbruk av konkurrenter eller mentalt usunne personer.

Hvis en virksomhet eller organisasjon virkelig ønsker å positivt kartlegge typer i sin organisasjon, så anbefales det sterkt å bruke profesjonelle psykologiske modeller i stedet, som den Carl Jung baserte Myers-Briggs 16 Type indikatorer.

Enneagrammet er nært knyttet til astrologi. Det finnes varianter hvor egyptiske og gresk/romerske guder symboliserer de 9 typer. I denne sammenheng er det viktig å merke seg at også guder av okkult ondskap kan være inkludert. Misbruk av fantasifulle og deterministiske horoskop kan ha påvirket samfunnsutviklingen i det 20. århundre betydelig. I 1930 ble en angivelig gigantisk planet, kalt Planet X, oppdaget i mørket utenfor Neptun. Den ble oppkalt etter døds-guden Pluto. I de forskjellige religioner har den samme avgud navnene Seth (egyptisk), Satan (judeo/kristen/islamisk), Hades (gresk), Pluto (romersk) og Hel (norrøn). Astrologer kunne ha kalt planeten hva som helst, men valgte ble det absolutt destruktive. Dermed ble Seth/Hades/Pluto tegnet inn i horoskoper og enneagram. (Det er like troverdig som om horoskop og enneagram skulle laves med superhelter fra tegneserier.) Følgelig kunne destruktive manuskripter oppkonstrueres og presenteres som sosiale skjebner, - og folk tror. I etterkrigstiden er Pluto avslørt som en ubetydelig dvergplanet blant så mange andre. Den er da heller ingen Planet X eller Nibiru. Omskrivning av mellomkrigs-horoskop var uredelig og galt.

Siden Gurdjieff så det som sin spirituelle misjon å stereo-type alle mennesker til sitt enneagram, vil det være relevant å karakterisere Gurdjieff selv i henhold til klassisk psyko-analyse. Det teoretiske grunnlaget for Freud og Berne er beskrevet i UU 29/6 & 06/7-2012. Kort sagt kan Gurdjieff ha hatt et særdeles oppblåst ID, hvis han som ortodoks armener trodde han stammet direkte fra Noah og følgelig var en av de få utvalgte etter Syndefloden. Videre kan han ha hatt et oppblåst Superior-Ego som en russisk-ortodoks selvutnevnt spirituell leder. Kombinasjonen indikerer ifølge freudiansk psykologi på narsissistiske og psykotiske nevroses. Tilhørende kan det ha vært tvangstanker, psykopati og sosiopati, - spesielt hvis han så seg selv som 'game master' til et okkult enneagram.

Videre passer enneagramsk Osiris typologi til dr. Eric Bernes beskrivelse av det psykologiske spill LYAHF (Let's You and Him Fight). Iris (Isis) er 'us', Osiris er 'you' og Seth er 'him'. Hun er engasjert i kampen, taper intet og lever lykkelig alle sine dager med seierherren. I Osiris myten handler det dog om apokalyptiske ritual da det er i henhold til Månen, Solens og Jordens sykluser. Følgelig var antagelig Gurdjieff sin mentalitet feminin og med seksuelle undertoner. Apokalypse-facinasjoene er manisk-depressiv. Mon tro om ikke Gurdjieff var for Europa før WW2 som Rasputin var for Russland før WW1.

Nok om den typen. Jorden, Månen, Solen og stjernene går sin gang. Det er noen fantastiske astronomiske målinger og kart pyramidefolket i begge kontinenter har lavet. Egypterne påpekte at Solen tilsynelatende går ned 21/12 og gjenoppstår den 24/12. Egypterne fant også ut at før hvert Era/Age (2150 år) peker de tre stjerner i Orions belte, samt Sirius på Solens gjenoppstandelse i et nytt stjernetegn. Før Moses var Era/age Tyren, Stenbukken for Moses, Fiskene for Jesus og vil bli Vannmannen i år 2150. Det er med andre ord 138 år til det den egyptiske nye era/age og det er intet grunnlag for suicidale apokalyptiske markeringer i dette århundrede. Så får man heller håpe at denne nye maya era/age, som starter Juleaftenen, byr menneskeheten på en ny opplysningstid og sunn mental helse - fri for vanvittige dogmer og myter.

Peter Murphy avslutter her med sitt mesterverk 'Socrates the Python'. Teksten er hovedsaken. Her reflekterer han dypt over grunnleggende filosofier. Selv Gurdjieff er nevnt. Det har med at Peter i en periode var fascinert av Sufisme, men uten å konvertere til Islam. Denne UU viser at jeg ikke deler sådanne oppfatninger.

Det var vanskelig å velge en fremfor andre UU denne gang. Derfor har jeg da også lagt 3 stykker ekstra til. SAGA åpnet hele temaet for 3 måneder siden og får her avslutte med en tankevekkende og nydelig sang. Fremførelsen er også spesiell idet bassisten og vokalisten tar over syntherne mens synthern selv synger og spiller klarinett. De er multikunstnere. Sangen 'Iris' med Goo Goo Dolls er også flott og tankevekkende. Man skal dog prøve å forstå hvordan en engel eller gud ville tenke i sin situasjon. Til sist avslutter Alice Cooper det hele med en hyllest til soloppgangen. Originalen er lavet av den australske Rolf Harris. Albumet 'Love it to Death' har flere originale tekster som til dels forklarer det okkulte opphav til artisten og hvorfor mannsroppen har et kvinnenavn.

Ukens Utvalgte:

Så er det tilbake til start. Det begynner selvfølgelig med Månen - og nå begynner det for alvor. 'Free Enterprise', ny romteknologi, råstoff, industrialisering og masseturisme vil åpne Månen som Amerika ble for noen århundrede siden.

Det er dog besynderlig at man har hørt så lite om Månen i det siste halve århundrede. Mediene er fulle av informasjon om aktiviteter på Mars og exoplaneter, men det er knapt noe nytt fra vår nærmeste nabo. Har interessen for Månen virkelig blitt så liten? Neppe. Det har foregått saker og ting hele tiden. Det spekuleres endog om UFOs og Aliens der oppe. Men ærlig talt, den slags spekulasjoner her på Jorden har da handlet

om hemmelige testflygninger og spioner. Således kan man jo tro at det foregår uoffisielle aktiviteter på Månen av flere nasjoner. Tross alt har jo USA, USSR, EU, Kina, Japan og India vært engasjert i måneferder i lang tid. Dette kan by på seriøse juridiske utfordringer, da ratifiseringer av internasjonale rom-avtaler er heller slett.

For å få gang i aktiviteter som minedrift og kolonialisering må man finne langt mere effektive metoder å løfte utstyr opp fra Jorden. Selv om disse kjemikalieraketene har løftet mengder av satellitter, romferger og annet, duger ikke teknologien i lengden. De er som dampmaskiner å regne. Alternativer må finnes. En 'romheis' har vært ansett som science fiction, men nå planlegges det av flere nasjoner. Heisen består primært av en kabel fra bakken til en romstasjon, hvor en elevator kan løfte ting. Det er hele 400 km til en romstasjon. Det lyder langt, men det er kun noen mil lengere enn avstanden Oslo-Gøteborg eller København-Gøteborg (300 km). Selv mener jeg man også kan vurdere bruke luftskip til å løfte det første stykket (40 km) og eventuelt fra 300 km med en 'Space Shuttle', - eller den ukjente lille fjernstyrte arvtageren Boeing X-37. I øvrig finnes det private romkapsler kalt 'Genesis' i kretsløp, sammen med alt det få har hørt om.

Helium3 vil bli den store magnet for industrialiseringen på Månen. He3 finnes knapt her på Jorden og prisen har økt hurtig fra 150 til 5000 \$/liter. He3 antas å bli drivstoffet til fremtidens effektive fusjonskraftverk. Solen har strødd He3 utover overflaten og det er relativt enkelt å høste. Videre har Månen mengder av Thorium som kan brukes i dagens fisjonskraftverk. Det er mengder av potensialer for utvinning, - for eksempel sies et anlegg for å utvinne det sjeldne platinum å koste rundt 20 mrd \$ og kan inntjenes 2x pr år. Fjernstyrte maskiner kan saktens godt fungere med minimal menneskelig tilstedeværelse. Det vil redusere betraktelig behov for vann, luft, mat og boliger. Energi kan skaffes ved solpaneler og atomkraft. Boliger kan laves av Månens sand eller det kan graves huler. Telt holder neppe i lengden.

Omsider vil Månen bli kolonialisert. Det kan være at ingen vil bli fastboende, men folk vil arbeide og feriere der oppe. Den lave gravitasjon byr naturligvis på utfordringer, men kan også gi fordeler. Det kreves ikke så mye energi for å flytte ting eller fly. Visjoner er endog at mennesket omsider kan klare å fly med vinger i et rom med luft. Menneskets eldgamle drøm kan bli realisert. Baksiden av Månen vil være spesielt egnet for videre utforskning av verdensrommet. Men se heller videoene under om visjoner for minedrift, kolonialisering og transport, - samt til sist er en liten video om visjoner for utforskning av månen Europa.

Frank Sinatra sang neppe ukens utvalgte med en film 'Space Cowboys' i tankene. Men den passer riktig godt. Teksten var riktignok skrevet av Bart Howard i 1954 med tittelen 'In Other Words'. Sangen er sunget av mange artister og brukt til en mengde filmer og begivenheter.

Ukens Utvalgte:

For å åpne for alternative filosofier tas det her utgangspunkt i eldre og nyere teorier, så som klassisk fysikk, Steady State Universe teorien og Fraktaler. Dessverre har fundamentale teorier vist seg feilaktige. De er det også nå og vil være det i fremtiden. Årsaken er at vi simpelthen ikke er allvitende. Menneskets fatteevne er begrenset og vi kan ikke forstå absolutte størrelser som start og slutt for tid og rom. På den annen side har vi behov for trygghetsfølelse mot for mange usikkerheter. Derfor så mange pedagogiske skrøner i vitenskapens navn.

Ny viten kan få problemer med annerkjennelse. Eksempelvis fremmet den danske astronom Tycho Brahe en teori om at Jorden fremdeles var Universets sentrum, Solen og Månen kretser, mens de øvrige planeter kretser om Solen. Dette kompromiss mellom teokratiske dogmer og ny vitenskap ville ingen ha. Tilsvarende ble den danske vitenskapsmannen Niels Bohr så trett av Albert Einstein sine religiøse forsvarsargumenter at Bohr irettesatte han på Solvay-møtet ved å si: 'Einstein, hold opp med at fortelle Gud hva han skal gjøre'. Alt dette med Big Bang og Grand Unified Theory synes å fundamenteres i religiøse dogmer, som den om Mosebokens 'Bli Lys'. 'Stady State Univers' teorien ble skiftet ut med BigBang teorien da det ble målt en konstant bakgrunnsstøy fra rommet. Det er dog ingen grunn til å påstå at støyen kommer fra et eneste universalt Bang. Støyen kan stamme fra flere mindre eksplosjoner. Antagelig kan en galakses kjerne også eksplodere, som en stjerne kan eksplodere til en supernova. BigBang ble forøvrig omtalt i det forrige UU.

Videoen 'Secrets in Plain Sight' er noe av det mest interessante jeg har sett på lenge. Den varer nesten 4 timer og er verdt det. Scott Onstott har lest Dan Browns bøker 'The Da Vinci Code', 'Angels & Demons' og 'The Lost Symbol', samt anskaffet Google Earth og noen Wikis. Dermed har han lavet en omstendig dokumentasjon om matematiske og geometriske sammenhenger i verdens arkitektur, astronomi og religioner. Filmen gir en vitenskapelig spenning som overgår Dan's action-bøker. Man sitter igjen med forundringer om hvorfor dette ikke er allmennkunnskap. Videre blir man ikke så lite forundret over Solens og Månens forhold til Jorden. Se gjerne videoen før den eventuelt forsvinner fra Youtube.

Irettesettelse av vitenskapsmenn skjer til tider. Dog er det uvanlig at en vitenskapsmann utskjelles offentlig, - og særlig hvis han er sterkt handikappet. Videoen under viser en reaksjon da Stephen Hawking uttalte seg om Himmelen. Det er tydelig at det kan være risikabelt å avsløre teokratiske hjemligheter eller bedrag. Det får meg til å tenke på en annen side av videoen 'Secrets in Plain Sight'. Filmen handler naturligvis meget om Egyptisk og Gresk matematisk 'tallmagi'. I sammenheng nevnes Enneagrammet, - og det er alarmerende. Denne okkulte perversjon av psykologien forleder en til å tro at det har noe med vitenskapelig psykologi å gjøre. Opphavet synes å baseres på Egyptisk Osiris okkultisme og er følgelig periodisk destruktiv ihenhold Månens og Solens faser. Enneagrammet er for psykologien som astrologien er for astronomien, - villedende og fordervende. Dessverre populariseres den inn i næringslivet ukritisk, uten tanke på hvilke egyptiske landeplager som følger med. (Se for øvrig UU 28.sept - Astrologien.)

Det er naturligvis nyere matematikk på gang også, - så som de såkalte Fraktaler. Riktignok tok teorien form allerede på 1700 tallet, men ble formet av Mandelbrot nesten hundre år senere. Først for noen tiår siden klarte man å gi formlene nytte og mening da computere kunne utregne og fremstille deres grafikk. Når så Arthur C. Clarke interesserte seg spesielt for Fraktaler mener jeg det bør være noe langt mere enn noen fasinerende mønster. Vi vet jo at naturen er ikke oppbygd av rette linjer, så som klassisk vitenskap fremhever. Her kan det være tale om avgjørende paradigmeskifter i vitenskapen. Vår matematikk er langt fra fullgod og Fraktaler kan være en vei til å bedre forstå naturen, astronomien - og endog mennesket. Det er med andre ord tider for betydelige omstillinger av tankegodset. For inspirasjon, se Clarks video 'Fractals - The Colors Of Infinity', samt den tidløse filosofiske debatt med Sagen og Hawkings. For virkelig å sette ting i perspektiv er det fascinerende å bla seg igjennom simulatoren 'Scale of the Universe 2'. Her vises alle størrelser fra det synlige Univers til Planks konstant. Selv holder jeg med Clarke fremfor Hawkings, - Planks konstant er neppe en endelig minsteverdi, - det er bare enda et teoretisk ankerpunkt på veien.

Den greske komponisten Vangelis er nok mest kjent for filmmusikk til Chariots of Fire, Blade Runner, 1492: Conquest of Paradise og Alexander, samt en rekke TV serier. Han var også en med i bandene Yes og Aphrodite's Child. Han er en av de store kunstnere som bare har det i seg. Det er en mengde gode stykker å velge mellom, men i denne sammenhengen ble 'Message' ukens utvalgte.

Ukens Utvalgte:

Tross optimistiske Sci-Fi filmer er det usannsynlig å besøke andre stjerner i overskuelig fremtid. Men kontakt kan heldigvis bli langt mer effektivt med avansert IT. SETI (Search for ExtraTerrestrial Intelligence) startet for over 100 år siden og har pågått massivt de siste årtier. Kommunikasjon er særdeles tidkrevende over så store avstander, - selv med lysets hastighet. Vi har ikke hørt noe fra andre enda, - tror vi.

Allerede i 1896 foreslo geniet Nikola Tesla å bruke radio til å kontakte utenomjordisk liv, fortrinnsvis fra planeten Mars. Det ble ingen kontakt, men 2 år senere publiserte H.G. Wells boken 'War of the Worlds'. Det finnes ingen offisiell kjennskap til noen SETI svar. Nå som vi utelukker annen intelligens i vårt eget Solsystem, er effektiv SETI kommunikasjon utelukket. En simpel interstellar dialog tar minst 8 år. På den annen side kan annet intelligent liv være oppstått millioner av år før oss og dermed ha utviklet seg tilsvarende langt. Man skal derfor ikke utelukke at andre har effektiv IT som er utenkelig for oss. Hør på Arthur C. Clarke sine halvt århundrede gamle visjoner, om blant annet PC og Internett. Det vekker ikke latter mere, - men andre visjoner er fremdeles sterkt oppsiktsvekkende. Han snudde problemstillingen om SETI på hodet og uttrykte; 'Waiting for ET to call our home'.

I mellomtiden filosoferes det heftig om hvordan andre sivilisasjoner kan være. Den populære Japanske vitenskapsmannen Michio Kaku beretter [vgs1] tydelig i videoen '3 Civilization types' om hvordan vitenskapen forestiller seg 3 typer sivilisasjoner, - astronomisk sett. Menneskeheten er ikke engang medregnet. Vi er i en type '0' som utvikler seg til type '1', - en global kultur som kan kontrollere sin planet. Type '2' kontrollerer sitt stjernesystem og type '3' sin galakse. Disse typer sivilisasjoner er fremstilt i flere Science Fiction historier som; A Space Odyssey 2001, 2010, 2061 og 3001, Babylon 5, Isaac Asimov's Foundation serie og Star Trek. Figuren Q i Star Trek representerer dog en fjerde type fiktiv sivilisasjon fra et parallelt univers som kan manipulere tid, rom, masse og energi. Sci-Fi begrep som 'Godspeed' handler om den slags evne til å reise hvorsomhelst umiddelbart, - så som i B5's 'Thrid Space'. Asimov og Clark's mesterverk har desværre ikke blitt de store filmer de burde, men kikk og lytt gjerne til utvalgte links herunder. Videre kan man saktens regne ut sannsynligheten for hvor mange planeter som kan ha avansert liv ved å bruke 'Drake Equation'. Det er dog meget usikkert hvorvidt intelligent liv er utbredt, - for paradoksalt nok kreves det en viss intelligens for å utrydde seg selv.

Disse filosofier, basert på nåtidens astronomiske viten, får en til å tenke større om mål og mening med samfunnsutvikling. Vi utvikler oss til en global menneskehet og burde ikke prøve å slå oss selv i hjel av den grunn. Videre går teoriene langt lengere enn de monoteistiske forestillinger med Jorden som Universets sentrum og stjerner som mindre betydelige. Dette burde gi sådanne teologier et nødvendig utgangspunkt for omfattende revurdering av virkelighetsoppfattelser. For tross alt, - religioner beskriver hovedsakelig oldtidens oppfattelser av 'aliens' og deres forhold til mennesker. Fremstillinger er fulle av symbolikk, som for eksempel at vinger er symbol på å kunne fly, - ikke nødvendigvis organiske vinger på vesener. Hvem kan ikke fly i dag, - i flyvemaskiner? Det er heller ikke fritt for halv-vitenskaplige teorier om at tidligere møte

med guder er SETI møter med 'Aliens'. Filmen 'Contact' anbefales å se, for dem som interesserer seg for SETI og intelligente religiøse betraktninger om det.

John Foxx er en av de talenter som på et tidspunkt faller fra sitt band og starter for seg selv. Han var frontfiguren i gruppen Ultravox og la grunnlaget for gjennombruddet. Så måtte han bare gjøre det hele for seg selv. Han gjorde det med ekte synth-lyd. Hans tekster stiller seg også et godt stykke på siden av populærmusikken. Åndelige steder, bygninger og mennesker er gjengangere. Denne UU, som også kan relateres til SETI, handler om problemer med å nå igjennom med budskap.

Ukens Utvalgte:

'Ormehull' er en populær løsning når fiksjoner skrives, - men det er en urealistisk løsning basert på misforståtte fortolkning av Relativitetsteorien. Det redder dog Sci-Fi forfattere som så ofte skriver seg fast i hjørner. Denne UU vil omhandle denslags teorier.

Relativitetsteorien sier at en person umulig kan se noe som beveger seg til en hurtigere enn lyshastigheten. Det er like lite mystisk som at man umulig kan høre noe som beveger seg mot en hurtigere enn lydshastigheten. Fordreiningen av lydbølger kalles Doppler-effekten, - og den gjelder så vel for lysbølger som lydbølger. Det er velkjent at når en bil som passerer en, høres det ut til å ha høyere toner når den nærmer seg enn når den fjerner seg. Det skyldes at lydbølgene først blir relativt kortere og deretter relativt lengere for observatøren. Sjåføren selv vil alltid høre den virkelige motorlyd. Ingen observatør vil da tro at lydkilden fra motoren faktisk endres. Ingen burde heller tro at optiske illusjoner for lyshastigheten er virkelige og endrer tid eller masse for en romrakett.

Det finnes ingen naturlov mot å passere lydshastigheten eller lyshastigheten. Matematisk baseres relativiteten på en kombinasjon Newtons klassiske teorier og Lorentz transformasjonen. Sistnevnte har en kompleks utregning, men gir en faktor gamma (γ) som ganges inn i Newtons formler. Forenklet sagt, er poenget at $x/0$ er matematisk umulig og at $x/(c-v)$ derfor ikke kan tillate $v=c$. Matematisk kan en dog godt ha at $v>c$. Det er faktisk ingen matematisk grense for hvor mye større hastighet enn lyshastigheten man kan

ha. Men siden formelen i så fall får kvadratroten av et negativt tall, introduseres imaginær matematikk i en annen dimensjon for observatøren. Herfra alle de underholdende spekulasjoner om Ormehull og 'Hyperspace'. Men som nevnt, det handler ikke om realiteter – det handler kun om den vantro at observatørs illusjoner er den reisendes realitet.

Lydhastigheten har den samme matematiske betegnelse som lyshastigheten 'c'. Det er mange likheter i relativitet for lydbølger og lysbølger. Det kan man godt lære noe av. Det ble også lavet skremmende profetier for 100 år siden om hvor galt det ville gå hvis en brøt lydmuren. Spekulasjonene er nå motbevist. Riktignok kan observatører se en ring om et fly og høre et smell når den bryter lydmuren. Det skyldes en oppsamling av lydenergi som når observatøren samtidig. Tilsvarende vil skje når en rakett bryter lysmuren. Observatøren vil se et lysglimt av oppsamlet lysenergi, men det vil ikke skje noen fantasifulle brudd på naturlovene.

Det er for øvrig besynderlig hvor lite de naturlige optiske fenomener er iberegnet astronomiske observasjoner. 'Red Shift' fenomenet er argumentert som bevis på Universets tilblivelse på et bestemt sted til en bestemt tid – det såkalte BigBang. Problemet er dog at bilder viser galakser i alle farger og ikke spesielt rødlige. Selv vår nærmeste nabo-galakse, Andromeda, er visselig på vei til oss, ikke fra oss. Videre, - enhver kjenner godt til hvordan lys brytes, bøyes og spaltes i luft, vann og krystaller. Det er da besynderlig at disse velkjente optiske fenomener konsekvent ekskluderes for lysets ferd i årevis igjennom tåker, iskrystaller og annet i rommet. Lyset påstås å være nærmest upåvirket og i en universell konstant hastighet. Nå vet vi at lyset kan ha alle hastigheter fra 'c' til null. Det lys vi ser er antagelig ikke hva kilden avgir, - vi kan ikke vite hvordan lyset er påvirket av all Universets usynlige og mørke masser.

Kort sagt, kast ikke all den klassiske fysikk overbord, selvom atomfysikken er kommet i en fundamental krise. Det var for 100 år siden at oldtidens greske fundamentale atomfysikk ble bokstavelig talt spittet ved kjernen. Atomer, som betyr 'udelige', ble splittet og beviselig delelige. I dag prøver moderne vitenskapsmenn finne nye absolutte minimum med alternative Streng teorier, men de er langt fra noe konkret. Gitt så at de moderne teorier for Totalenergi og Relativitet ikke er perfekte og absolutte, - at klassisk Newtons fysikk er mere universelle, - så kan astronomien igjen avmystifiseres fra disse Sci-Fi Ormehull, absurditeter ved lyshastighet, samt dogmer om Univerets tilblivelse. Fremdeles kan vi så tenke forbi lyshastigheten og fremover for å kartlegge rommet forran oss når 'Romskipet Jordan' fortsetter sin utfordrende bane rundt galaksen.

I denne UU er en moderne versjon av Tangerin Dream sin musikk brukt til Sci-Fi klassikeren '2001 Space Odyssey'. Det er mange interessante forhold i den filmen med manus fra Sci-Fi mesteren Arthur C. Clarke. I musikkvideoen vises David Bowman (ikke Bowie) sin stjernereise igjennom et slags Ormehull. Personen fordreies ikke, - kun hva han observerer utenfor. Siden har mengder av filmer og serier fremstilt stjernereiser igjennom Ormehull av ymse slag. Tross tynn teori, gir det mange fantastiske muligheter av Sci-Fi filosofi. Derfor følger links til 3 andre SciFi klassikere om temaet som er verdt å se.

Ukens Utvalgte:

Vi er langt fra drømmen om å realisere interstellar reiser mellom stjerner. Fremdeles brukes de ineffektive rakettmotorer drevet med kjemikalier. I dag er fartsrekorden omtrent 60.000 km/t, som er 0,006% av lyshastigheten (c). Med den hastighet vil det ta 73.000 år å reise de 4,37 lysår til vår nærmeste stjernesystem Alpha Centauri. Med dagens 60-talls teknologi er det derfor urealistisk med interstellar reiser. Vi når knapt nok rundt i vårt eget Solsystem. Interplanetarisk fart krever atomkraft og interstellar fart krever antimaterie. Selv med det er utfordringene uoversiktlige.

Å overvinne Jordens store gravitasjonskraft (G) er naturlignok en hovedårsak til at så små satellitter krever så store raketter og så mye energi. Det meste av energien går med til å løfte drivstoffet som skal brennes av, samt tankene som skrotes på veien. På sikt ville det være langt mere rasjonelt med en utskyttingsbase på Månen, som er 1/5 jordens størrelse og har kun 16% av Jordens gravitasjon. Men for å starte den nødvendige produksjon og drift på Månen, må man bruke langt kraftigere raketter fra Jorden. Løsningen kom allerede på 50 tallet med 'Project Orion'. Drivkraften ville skapes ved mangfoldige små og kontrollerte detoneringer av atomkraft, - mengden ville avhengige av skipets størrelse og rekkevidde. Prosjektet ble politisk terminert med 'The Test Ban Treaty' i 1963 av frykt for ulykker eller misbruk i rommet. Utviklingen er nå fryst i halvt århundre og kan ikke realiseres før den kaldkrigs-politikk endres.

Teoretisk er det mulig å nå hastigheten c/10. Selv Relativitetsteoriens fortolkninger ville ikke skape problem før c/2. Utfordringene er dermed å lave kraftigere motorer, solide skrog og redusere vekt og størrelse. "Nanotubes", som har 100 ganger ståls styrke og veier kun 1/6, gir håp for utviklingen. Teoretisk er det mulig å lave små prober, med kamera og kommunikasjon, som drives av atomkraft. Matematisk vil en akselerasjon på 10G gi hastigheten c etter 1 måneds tid. Men formelen for Totalenergi sier at 10^{17} Joule behøves for å akselerere 1 Kg masse til c. Det er hva teorien sier 1 Kg antimaterie kan avgi. Dermed er fremdeles hastigheten c/10 hva vi må begrense oss til ved planlegging av interstellar reiser. Siden det vil ta et halvt århundre å nå den nærmeste stjerne, kan vi kun satse på autonome prober for kartlegging. Se forøvrig filmen 'Alien Planet' i forrige ukes UU, samt denne ukes 'Voyage to Pandora' og de to videoer om Stjerneskip.

Så blir jeg nødt til å kritisere den populariserte formel for Total-energi, $E=mc^2$. Årsaken er at jeg oppriktig mener det er noe galt med den formelen. Konsekvensen er at vitenskapen ledes til gale konklusjoner og planlegging. Total-energi består naturlignok av totalen av alle energiformer; varme-, kjemisk-, elektrisk-, radioaktiv-, atom-, magnetisk-, elastisk-, lyd-, mekanisk-, lys-, samt masse- og bevegelsesenergi. $E=mc^2$ betyr at den totale energi kun er en dobling av Newton's bevegelses-energi $E=1/2mv^2$, hvor $v=c$. Dagens utnyttelse av atomkraft er ikke bevis for den formel da de prosesser ikke omdanner noen elementærpartikler (proton, nøytron, elektron) til energi. Et atom splittes som kjent kun til mindre atomer og kun bindingsenergien utløses. Teoretisk vil antimaterie-kraft kunne omforme all masse til ren energi. Dermed kan den reelle total-energi være langt større enn den maksimal bevegelses-energi, $E=1/2mc^2$.

Når så allikevel erkjennelsen er gjort, at vi blir her i vårt Solsystem i overskuelig fremtid, så er det da utrolig mye spennende å gjøre med realistisk teknologi. Det vil være en fordel om vi kan sammenligne oppdagelsene i vårt Solsystem med oppdagelsene av hav og kontinenter. Man sender først noen speidere, bygger noen utposter og planlegger videre etter hva man faktisk får vite. Vi behøver faktisk å spre oss utover for å sikre menneskehetens overlevelse over tid. Når vi så mestrer dette, har vi kanskje kartlagt ruter til de nærmeste stjernesystem og kan reise etappe for etappe. Det finnes antagelig objekter imellom

stjernesystemene som blir nødvendige som rasteplasser og utposter. Det ville være vanvittig å satse på en alt på en eneste direkte reise med maksimal hastighet. Man løper bare ikke av sted i blinde i ukjent terreng.

Tangerine Dream er heller ikke hva de var. I starten, for over 40 år siden, var de tre personer med hver sin synthesizer på en veggs størrelse. Musikken var syntetisk, drømmende og hadde metaforiske titler. Nå som ungdom kan bære en tilsvarende synth med seg, har bandet også tilpasset seg teknologien. Ikke bare det, - de har tatt i bruk tradisjonelle instrumenter og viser at de mestrer dem også. Denne ukes video viser en nyere opptreden, - men desværre er det lyd og bilde ikke helt i sync på videoen.

Symphony of Science – ‘The Unbroken Thread’

09.november.2012

Ukens Utvalgte:

Det finnes høyst sannsynlig utallige varianter av liv på mengder av planeter i vår galakse Melkeveien. Som tidligere nevnt har Jorden sannsynligvis vært ‘sådd’ med organisk stoff i flere omganger på sine reiser rundt galaksen. Dette har sannsynligvis skjedd på exoplaneter også, men da med all den materie som ikke havnet her. Vi har ikke mulighet for å finne ut av hvordan virkeligheten er, men sannsynligheter er grenseløse.

Man kan naturlig nok betvile at organisk liv kan overleve rommets harde miljø. Ekstreme forhold med temperaturer, trykk, radioaktivitet, dehydrering er umenneskelige. Men det er bevist at organismer faktisk overlever alt dette. Et eksempel er den såkalte ‘vannbjørnen’ (Tardigrades). Den lille krabat tåler temperaturer fra - 272 C til +151 C, trykk fra vakuum til 6 ganger havets dypeste trykk, 10 års tørke, radioaktivitet på over 6000 Gy hvor 10 Gy er dødelig for mennesker, samt gå i ‘Cryptobiosis’ tilstand i forgiftede miljø. Dette er bevist på romferder i 2007 og 2011. En mengde andre organismer, proteiner, bakterier og virus har også ekstreme overlevelses-evner. Det er dermed ingen tvil at liv kan utmerket godt overleve interstellar reiser i is-kometer og vekkes til live på planeter med sterkt varierende miljø.

Det er naturlignok håpløst å bevise at liv på andre planeter også er 'sådd' med galaksens organismer. Vi har knapt nok kikket på planetene i vårt eget Solsystem. Men Jorden har enorme bevismengder rett utenfor våre egne stuedører. Videoen 'Evolution & Metamorphosis of Life From Other Planets', påviser at opphavet til Jordisk liv sannsynligvis er tilført Jorden og andre planeter. Det supleres med filmen 'NASA Finds Moon Life'. Dog ligger det en viss kritikk av Darwin idet teorien påpeker at mutasjoner og metamorfoser av genetisk arvestoff skjer. På den annen side er filmen heller intet forsvar av religiøst kreasjonisme.

Videoen 'Alien Planet' er et rett underholdende dokumentarisk drama om en fiktiv første-kontakt med andre livsformer. Dette er en Sciences Fiction om hvordan utforskning av en exoplanet kunne foregå og hva man kunne møte av livsformer. De går riktig langt ut i hva det kan være for noe. Det er i øvrig mengder av denslags filosofi i Science Fiction filmer som Avatar og Evolution. (Se UU 14.sept.2012).

Som nevnt innledningsvis i dette tema om 'Accidental Genesis', filosoferte jeg om alternative utviklinger av liv på 4 planter i vårt Solsystem. Naturlignok endte Jorden opp med den store variasjon av liv vi har i dag, men Venus og Mars fikk ublide skjebner. Det var dog rett interessant å skrive seg igjennom den fiktive vann-planetten Astro. Disse Humanoider har fått evnen til å trekke oksygen ut av vann, som fisker gjør med gjeller. Men har man så engang bestemt seg for å beskrive menneskelig utvikling i en tilværelse under vann, så går kompromisser en del utover sannsynligheter. Alikevel, - det er ikke helt utenkelig at menneskearter kan overleve en tilværelse i vann, når alle disse hval-arter kan det. Siden er Astro plassert på grensen av solsystemets livsbelte og fikk alternative energikilder som undersjøiske vulkaner.

Igen går ukens utvalgte til 'Symphony of Science'. Denne gang er temaet livets utvikling på Jorden, 'The Unbroken Thread'. Den er satt sammen med melodiske samplinger av vitenskapsmenn som Attenborough, Goodall og Sagan. Det blir dog litt for snevert med den hyllest til Darwins 'drivhus teori'. Forhåpentlig laves det på et senere tidspunkt en 'Symphony of Science' med med et videre perspektiv på liv utenfor vår egen Jord.

Its The End Of The World As We Know It - Julee Cruise (R E M)

02.november.2012

Ukens Utvalgte:

Det er på tide med 'debunking' av 2012 myter. Om man er følsom i den retning får man heller la vær å lese videre. Det blir noe direkte kritikk av astrologiske dommedagsprofeter som kan føles hardt. Dette er ikke for å såre noen, men av oppriktig mening at det er på tide å bli av med denslags destruktiv tro.

Det er ikke sant at den 22 desember 2012 er profetert som dommedag. Påstandene er i beste fall ignorante misforståelser. Absolutt alle kalendre ender sin syklus før de starter en ny. Det er overhode intet mystisk eller dramatisk i det. Men fordi en gammel Maya kalender ender den store syklus den 21 desember 2012,

har misfortolkning ført til den overtro at enhver tidsregning ender den dag. Det er noe psykotisk vrøvl. Kalenderen går videre og starter den neste syklus, så som våre kalendre slutter hver nyttårsaften.

Videoserien 'Science 360: The Truth About 2012' avsanner falske profetier, som de om: 'Mayan Calendar', 'Planet Nibiru', 'Solar Eruption', 'Galactic Center Alignment' & 'Magnetic Pole Reversal'. De to sistnevnte tema er dog interessante, da vårt solsystem ikke ligger fast i linje med galaksens plan, men faktisk bølgjer opp og ned og igjennom denne ring av solsystemer. Gravitasjonskraften fra planet har tidligere påvirket Jordens kjerne og flyttet polene betydelig. Det er dog millioner av år til neste gang Solen passeret planet.

Tross all viten klarer teokratiske astrologer å skremme vettet av folk. Disse suicidale kvasireligiøse fiksjoner bunner i bevisste feiltolkninger av Maya astrologi. Denslags sosiopatiske massepsykoser er dessverre effektive maktmidler som har fordervet samfunnsutviklingen i tusener av år. Det vises så tydelig i dommedagsskrifter i det Gamle Testamentet, Nye Testamentet og Koranen. Ingen av dem er skrevet av Gud eller gudommelige vesener. De er alle utelukkende skrevet av mennesker som våger å beskyldte Gud for sine egen ondskapsfulle og selvforherligende ønsketenkning.

Nær 90% av menneskeheten tror på guder og halvdelen tror på Gud, Engler & Demoner. Psyko-sosialt er det derfor avgjørende viktig at teologer tydelig uttrykker hva som er direkte galt og ondt i sine skrifter. Manglende tydelighet påvirker mennesker, menneskeheten og samfunn. Eksempelvis er Johannes Åpenbaring så full av ondskapsfull galskap at det må være skrevet av alvorlig mentalt forstyrrede personer. Denne psykose avviker på flere måter fra de andre skrifter i N.T. og hører følgelig ikke hjemme der, - men antagelig G.T. Opphavet er som nevnt av egyptisk astrologi ifølge videoen 'Religion Comes From Ancient Astrology and Sun Worship' (ref UU 28.09.2012.) Denne og andre deler i de tre monoteistiske skrifter, er direkte årsaker til de ekstremt grusomme terrorhandlinger mot uskyldige mennesker. Rett skammelig er teologers fortielser og projisering av sitt ansvar. Paven burde ta mot til seg og få fjernet J.Å. fra N.T. selvom det provoserer destruktive grupperinger. Han og tilhengerne er iøvrigt neppe av de 144.000 overlevende i J.Å -massakren.

Julee Cruise er mest kjent for kjenningsmelodien 'Falling' til TV serien 'Twin Peaks'. Hennes 'luftig' romantiske sanger i 50 talls stil er spesielt stemningsfylte, - dog med dunkle undertoner. Her har hun lånt REM sin hit 'Its The End Of The World As We Know It' og omgjort den til sin personlige stil. Etterfølgende fremfører REM sangen live.

Exoplanet - Don't Worry It's Only Slightly Infinite

26.oktober.2012

Ukens Utvalgte:

Det er antagelig langt flere planeter enn stjerner i vår galakse. Til nå er det registrert 843 'Extrasolar planets'. Antallet øker hurtig siden den første ble bekreftet for kun 24 år siden. Når det så antas at det er 10 ganger mere usynlig masse enn synlig, samt at stjerners masse er over 100.000 ganger større enn planeters, - så er potensialene enorme.

Nå skal man ikke bli helt forblindet av alle disse kunstneristiske fremstillinger av exoplaneter. Man har kun observert en og annen dott av en skygge, eller små avvik av stjernens posisjon. Vitenskaplig er det dog bevis godt nok, men noen bilder har man overhode ikke, - ei heller kan vi forvente å få se noen i vår tid. Så blir alle disse kunstneristiske tegninger mere fantasifulle enn de tidlige forestillinger om Venus og Mars. Dengang var det ikke grenser for hvor livlig det kunne være der nede, - i sci-fi øyne. Det er ingen grunn til å tro at vi oppdager exoplaneter med flere potensialer enn planetene i vårt eget Solsystem, - med mindre SETI registrer noe, - som vist i filmen 'Contact'.

Men likevel, - exoplaneter er spennende nytt og inspirerer vitenskapen stort. Spesielt interessant blir det nå som en planet er registrert i vårt nærmeste stjernesystem Alpha Centauri. På den annen side, det gis så mange merkelige beskrivelser af de første exoplaneter, at selv vitenskapsmenn stusser over konklusjonene. Alt dette blir for vanskelig å beskrive her, så en får heller se på noen av de mengder av gode filmer som fritt kan ses på internettet, så som 'Cosmic Journeys: The Search For Earth-Like Planets', 'National Geographic - Alien Worlds' & '10 Most Habitable Alien Worlds'.

Det kan også være mengder av 'rough planets', uten fast forbindelse til noen stjerne. Det antas at disse kan være flere enn det er planeter i solsystemer. De er et yndet tema for science fiction forfattere. Mindre kjent, men klassisk, er romanen 'When Worlds Collide' fra 1932. Den ble filmatisert i 1951 og det ryktes om en snarlig 're-make'. Mytologien om en viltfarende planet i vårt eget solsystem er tusener av år gammel. De mest kjente navn i dag er Nibiru og Planet X. Førstnevnte stammer fra nytolkninger av sumerisk/babylonsk mytologi og sistnevnte endte med oppdagelsen av dvergplaneten Pluto. Det letes fremdeles etter en stor planet utenfor Kuiper beltet. Det ville isåfall forklare hvorfor beltet plustelig opphører ved 50 AU (50x Jordens avstand til Solen) og de mange uregelmessigheter i beltets objekter. Sammenligninger med symptomer ved Jupiter utenfor Astroidebeltet er slående.

I alle tilfelle, man skal ikke forskrekkes av all den nye overveldende informasjon om Universet, - ei heller av alle spekulasjoner med dårlig skjulte motiver. Avstander, tidshorisonter og usikkerheter er så store at vi kan regne med stillstand i all overskuelig fremtid.

'Exoplanet' er en artist/gruppe jeg ikke hadde hørt om før jeg søkte etter musikk til dette UU. Jeg fant en rekke stykker lavet av Exoplanet. De er velkomponerte og velproduserte innen electronic/house/trans musikk. Opphavet ser ut til å være relatert til en ungdom ved navn Oscar Thomas van Der Knaap. Hollenderne er store innen denne genre og sprer det gjennom mindre offisielle kanaler. Den tradisjonelle musikkindustri frykter disse ukontrollerbare DJ med høy kvalitet og lav omkostning. De er som noen 'rough exoplaneter'. Musikstilen til Exoplanet minner noe om den danske gruppen Trentemøller.

Symphony of Science - 'Our Place in the Cosmos'

19.oktober.2012

Ukens Utvalgte:

Det er en direkte sammenheng mellom livets utvikling på Jorden og planetens ferd igjennom Melkeveiens Spiralarm. Utviklingen har gått i faser og ikke så lineært som Darwinister tror. Jorden har fått tilført mengder av masse, vann og organisk stoff av hver Spiralarm. Videre er det ikke sannsynlig at alt dette er skapt her på Jorden, som Kreasjonister hevder. Det er mer sannsynlig at Jorden simpelthen blir 'sådd' periodevis i sin ferd igjennom Spiralarmene. Det er og forblir en ubeviselig tro at noe som helst har sin opprinnelse i vårt eget Solsystem.

Det finnes et stort mangfold av flora og fauna her på Jorden. Mengder av varianter har kommet og forsvunnet. Det er nærmest ufattelig hvor mange og forskjellige livsformer som er og har vært. Det er mange måter å kategorisere livsformer. En måte er å skille mellom planter, insekter, pattedyr og havdyr. De er så kategorisk forskjellige at det blir nærmest meningsløst å tillegne dem noe darwinistisk slektskap. Det gir større mening å anta at deres opphav er fra forskjellige Spiralarm. Dog er det en avhengighet og harmoni dem imellom, særlig i utveksling av grunnstoffer som oksygen, karbon og hydrogen. Kikk bare på naturen. Den er ikke kaotisk, - den er bare langt mer avansert enn den menneskelig forstand kan forstå.

Det vil bli en omfattende vitenskap å relatere Spiralarmenes påvirkning til Jordens utvikling. Det er dog tilstrekkelig informasjon fra siste runde om Melkeveien. Spor fra tidligere runder er dog slettet av tidens tann. Det er kartlagt når Jorden var hvor, samt hvilke endringer Jorden ble utsatt for. Dermed kan man godt gjøre kvalifiserte antagelser om hva den enkelte Spiralarm påførte Jorden. I de store trekk, ligger årsakene til dramatiske hendelser som istider, supervulkaner, kontinental-adskillelser og masseutryddelser. De mere kreative bidrag fra Spiralarmene ser ut til å være: Sagitarius Arm, som ble passert for 600 MY siden og nylig, ga Jorden betydlige løft av avanserte livsformer. Persus Arm ble passert 500 MY siden og ga Jorden planter og sjødyr. For 400 MY siden ga Norma Arm insekter og frø (seed). For 300 MY siden kom dinosaurer, dog ikke direkte fra en Spiralarm. 200 MY siden ga Scutum Crux avanserte pattedyr. For 50 MY ble dinosaurer utryddet av Sagitarius Arm.

'Snowball Earth' er et begrep for de perioder hvor Jorden har vært nærmest tildekket av is. Det overgår istidene og kan spores til perioder i Jordens forrige runde om galaksen. Det tyder på at Jorden har vært tilført store mengder hydrogen, oksygen og andre lettere grunnstoffer. Disse stoffene kommer fra rommet og har temperatur ned mot -270 C, og har følgelig nedkjølt Jordens overflate. Solen og Jorden har omsider varmet overflaten igjen. Dessuten kan det være at Solen har fått ekstra energi den perioden, da helium og hydrogen er dens drivstoff. Dermed kan Solens ferd igjennom Spiralarm være en oppfriskende energitilførsel for stjerner. Dette bryter dog noe med de tradisjonelle teorier om stjernes livssyklus, da det ser ut til at den type periodisk opptanking av drivstoff ikke er påtenkt.

Ukens Utvalgte musikk har jeg ingen forhold til overhode. Det var en mix jeg fant på Tub'a. Tidligere har mer eller mindre kjente personer vært 'samplet' og 'mixet' inn i melodier. I denne UU er det virkelig tatt tak i noe med mening. Noen av de største vitenskapsmenn på område får presentert sine hovedpoeng på en poetisk og fengende måte. Arthur C. Clarke, Carl Sagan, Dawkins, Kaku, Jastrow er ikke noen almindelige karaoke artister. De sier ting av betydning – og burde bli hørt.

Eric Idle / Clint Black - Galaxy Song

12.oktober.2012

Ukens Utvalgte:

Så til kjernen i alle disse skrivelser om 'Accidental Genesis' 1 og 2. AG1 ble basert på en 'rogue planet' i en komets ovale bane som rotet til solsystemet. I AG2 blir utgangspunktet at Solen er en 'rogue star'. Det er vi selv som farer igjennom alskens galaktiske tåker, spiralarmen, stjernesystemer og 'mørk materie'. Vi har jo visst det i lang tid, men har ikke erkjent konsekvensene. Dette overgår erkjennelsene om at Jorden ikke er flat, at Jorden ikke er Universets sentrum eller at stjerner og planeter er hverken guder eller engler.

Solens rundetid om Melkeveien er usikker, men sies å være fra 200 til 500 millioner år. Uansett har Solen gjort 10-20 runder og seilt igjennom de 4 store spiralarmen hver gang. Det betyr at Solen har seilt igjennom alskens andre systemer, blitt haglet av deres objekter, samt tapt og vunnet nye objekter. Dermed er det ingen grunn til å tro at alle dagens objekter i vårt solsystem har sin opprinnelse her. Videre kan man anta at Solens tidligere planeter og objekter ligger strødd rundt i Melkeveien. Som nevnt, - kun Solen kan med sikkerhet sies å ha sitt opphav i vårt solsystem.

Dette er hele poenget med dagen forsidebilde/banner her på FB. Det er en påviselig sammenheng mellom vårt Solsystems ferd igjennom galaksens spiralarmen, og da blitt betydelig utsatt for Jernmeteroitter, Radioaktivitet og Istider. Det har følgelig vært langt flere påvirkninger enn disse harde fakta tilsier. Det er desværre ikke enkelt å dokumentere denslags, men man kan godt få et inntrykk i videoen 'Charting The Milky Way Galaxy' (se 7:20 -8:00 min). Det er dog skrevet rimelig gode artikler om Solen og Spiralarmene, - uten å omtale hva for påvirkninger og konsekvenser det kan ha hatt for Jorden.

Så gir det en ekstra opplevelse å se National Geographic sin 90 minutters fantastiske video 'Inside the Milky Way'. For alle de alternative utsyn, alle de horisonter og stjernehimler som presenteres, - Jorden har antagelig vært der og tusner av andre steder i vår galakse.

The Galaxy Song er skrevet av Eric Idle fra Mothy Python. Her en nøktern versjon av Clint Black. Egentlig er det en riktig sympatisk trøst til en person som føler seg liten og redd i forhold til andre. Det er noe av det samme tema som Carl Sagan omtaler i videoen 'A Universe Not Made For Us' - for et par UU siden. Historien viser desværre at det kan være en fare for massepsykotisk paranoia ved å filosofere for mye over universets overveldende virkeligheter. Det kan derfor passe godt å følge opp dagens UU med Eric Idle sin

andre slager 'Always look on the bright side of life', selvom hans dunkle humor i versene overskygges av refrengets optimisme.

Van Der Graaf Generator - Childlike Faith In Childhood's End

05.oktober.2012

Ukens Utvalgte:

Solen, og andre stjerner, er og blir fundamentet for solsystemers eksistens. De fleste stjerner er konstanten for livsnødvendig energi, de holder planeter og andre objekter stabilt i bane, og de tiltrekker ny masse til dem alle. Solen er en av antagelig 100 milliarder stjerner i vår galakse Melkeveien, og det antas å være 100 milliarder andre galakser i Universet. Man kan også anta at der er minst 10 planeter pr. stjerne. Det er ufattelige mengder som er hinsides menneskelig forstand å ha noen realistisk forståelse av. Man kan knapt kalle våres oppfattelser som viten. Vi tror meget og vet lite, selvom vi blir stadig mere informert fra kilder som Hubble teleskopet.

Det er naturlignok mangfoldige typer stjerner. Vi er temlig heldige som har en såpass stor og stabil gul stjerne å holde oss til. Den er akkurat passe stor og akkurat passe varm. Skjønt Solen har sykluser på 11 år med topp og bunn av aktiviteter. Faktisk går vi mot et klimaks sommeren 2013. Videoen 'Attack of the sun' fra Cosmic Journeys gir en særdeles god beskrivelse av Solens luner. Det er dog ingen katastrofer på gang, som 2012 apokalyptikere antyder. Dog viser arkeologien at Jorden har hatt perioder med betydelige klimasvingninger, som istider og sterkt varierende vannstand. Historisk, over de milliarder av år, har Solen vært langt mindre stabil.

Besyderlig nok består vårt nærmeste stjernesystem Alpha Centauri av tre stjerner; Alpha, Beta og Proxima. Alpha og Beta er omtrent på Solens størrelse (G class), mens Proxima er en dverg (M class). Selv ser jeg det som usannsynlig at disse tre stjerner er blitt til i et og samme system. Jeg tror heller det er to eller tre solsystemer har funnet sammen, innklusivt deres planeter. I såfall kan man undres om denslags migrering og utveksling er vanlig i det lange løp. Det minner meg om noe jeg engang leste av Arthur C. Clarke. Han kalte vår planet for 'Romskipet Jorden'. Den farer rundt Solen i 107.000 km/t. Solen selv farer rundt Melkeveien i 792.000 km/t. Det er noe hurtigere en gjennomsnittet, - og det har antagelig hatt betydelige konsekvenser for alt i vårt solsystem.

Som nevnt er det overveldende mengder informasjon om stjerner. Helst ville jeg finne en video på som simpelthen beskrev klassifiseringene O, B, A, F, G, K og M, samt varianter av dem. En sådan undervisningsvideo fant jeg ikke, så man får nøyes med Wikipedia's omstendelige artikkel. Videoen 'Hubbles Amazing Universe' av National Geographic er dog vel så god. Den viser at stjerner blir født og dør, galakser holdes sammen av Sorte Hull, det er uendelig mange galakser og at Universets tyngdekrefter domineres

ukjente masser. Vi vet ikke hva denne 'dark matter' er for noe. Kanskje mest fasinende av alt; disse fusjonskraftværk er Universets alkymister. Kun stjerner kan skape de grunnstoffer som planeter og livsformer består av. Vi er alle av stjernestøv fra andre stjernesystem.

'Childlike Faith In Childhood's End' er en av de største verk av gruppen Van der Graaf Generator. Stilen kan sies å være for spesielt interesserte. Original-konseptet til VdGG var to orgler, saksofon og trommer, - noe som er langt på siden av main-stream innen musikken. Tekstene i seg selv er et studie verdt, som stemmen til Peter Hammil. Den svinger mellom det melodiose til det tidvis bristende. Jeg vet ikke om teksten bygger på den prisbelønte novelle 'Childhood's End' av Arthur C. Clarke. Det er en klar filmkandidat. Her er kun et 2 timers hørespill tilgjengelig. Uansett, man skal lete lenge etter tilsvarende VdGG sitt filosofisk oppgjør med menneskeheten verdensbilde.

Magnus Uggle – Astrologen

28.september.2012

Ukens Utvalgte:

Før det tar helt av her, må den vitenskaplige astronomi fundamenteres. Astronomien synes fremdeles å være for påvirket av astrologiske mytologier og dogmer. Tradisjonelt har astrologer i flere årtusener beskrevet Solsystemet og Galaksen. Det er kun i de siste århundrer at astronomien har vært fremtredende. Astrologien var engang en mektig pseudo-vitenskap som ble nært knyttet til teologi. Den sammenblanding av tro og viten er blitt et problem for dem begge.

Himmelen var opprinnelig trodd å være så flat som Jorden. Synlige stjerner ble markert på et flatt kart og fantasifulle figurer ble tegnet av prikkene. Soler ble til fiksstjerner, planeter til vandrestjerner og meteoritter og kometer til stjerneskudd. Stjerner ble trodd å være hellige vesner i himmelen, - endog å være flyvende engler. Så når 'vandrestjernen' Jupiter seilet innom stjernetegnet Jomfruen hver 12 år, ble det ekstra spennende hvis et stjerneskudd kom av det. Astrologisk sett, kom et gudebarn til Jorden. Videre kan man omtrent hvert tusende år se en supernova i flere dager, noe som ble tolket til å være en nyfødt engel. Dermed ble astrologer mere opptatt av å spå sin egen vilje enn å finne ut av virkeligheter. Resultatet er særdeles villedende og primitive kart over verdensrommet. De er ubrukelige.

Egyptisk astrologi er fundamentet for verdensreligionene, hevdes det i den oppsiktsvekkende video-repotasjen 'Religion Comes From Ancient Astrology and Sun Worship'. Den er mer religionskritisk enn holdningen vil være i dette UU temaet. I en religiøs sammenheng bør man også ta med at den bibelske patriark Abraham var fra Mesopotania og tok med seg mytologier om babylonske engler og demoner til Egypten. Dagens verdensreligioner er således en salig blanding av mange stenalderske teokratier. I dette UU tema vil det dog ikke utelukkes at vårt Solsystem og Jorden kan være influert av andre intelligente

livsformer. Fremover vil mulighetene for intelligent liv andre steder i våres galakse belyses på flere måter. I hovedsak vil det baseres på eventuelle sannsynligheter. Noen derute kunne endog være kreative. Det er interessant å vurdere fundamentet til religiøse forestillinger, - av ren filosofisk nysgjerrighet. Religion kalles dog 'den første filosofi'.

Når så kritikken av astrologien er gitt, skal man sagtens passe vel på for å ikke falle for alle disse neo-astronomiske dogmer. De kan hurtig bli til pseudo-vitenskaplig astrologi. Som nevnt har vi nærmest intet sett av vårt Solsystem, vår Galakse og Universet forøvrig. Likefullt vrir det av fantasifulle og villedende fremstillinger av exo-planeter, vår Melkevei og fjerne galakser, - samt de populærerte misforståelse om Bigbang teorien og Relativts teorien.

'Astrologen' av Magnus Uggla er en av de fineste jeg vet. Referenget rører en, - selv med en så enkel kjærlighetserkjennelse. I teksten leser han 'astrologi' og finner at sin kjærlighet passer godt. Lykkeligere kan han ikke bli. Men så oppsøker han 'nummerologi' og får en motsatt spådom. Som en konvertert troende tar avstand fra sin sanne kjærlighet, det vakreste han vet. Det er et eksempel på hvordan pseudo-vitenskaplige trosmotsetninger kan forkvakle ens søken etter noe fundamentalt godt.

Tangerine Dream – Mars Polaris

Ukens Utvalgte:

Det er kommet virkelig mye interessant info på internettet de siste 8 år. For nylig kom jeg over en særdeles god videoserie fra 'Cosmic Journeys'. De utvalgte handler om skjebnene til planetene Mars, Venus, samt potensialene til 'månene' Titan, Enceladus og Europa. Dermed kan astronomers klassifisering av planeter igjen settes under kritikk.

IAU (International Astronomical Union) sin klassifisering av planeter burde forlengst vært tilpasset dagens viten. Dette tema ble grundig omtalt i UU den 2011.12.09. Hovedkonklusjoner var: De tre kategorier, Dverg-, Terra- og Gas-planeter er langt fra tilstrekkelig for tidens og kommende oppdagelser av 100-vis av planeter. Planeter bør klassifiseres utfra sine egenskaper og ikke sine omgivelser. Helt ærlig, StarTrek har lang mere profesjonelle klassifiseringer enn IAU. Astronomene synes å hemmes av astrologers mytologiske påvirkning. Viktigst av alt, - mener jeg at mange av Solsystemets 'måner' i realiteten er dvergplaneter.

Planeten Venus ble ikke omtalt i forrige UU sammen med Mars. Det var en forglemmelse. Planeten var lenge ansett som Jordens tvilling-planet og potensielt livsgivende. Det var dog en besynderlig konklusjon, at fordi man ikke så annet enn skydekke, måtte det være avansert liv derunder. Russerne landet faktisk på Venus da Amerikanerne utforsket Månen. Venus viste seg å være overopphetet og dødelig. Den ligger dog i Solens Livsbelte og burde fått en blidere skjebne. Følgelig kan man tro at Solen ikke alltid har vært så stabil som vi erfarer. Den har hatt perioder med hyper-aktivitet – som om den skulle fått overdoser med brennstoff.

Igjen fascinerer dvergplanter alternative skjebner. Tankene faller da på de såkalte 'måner' Europa og Titan. Tenk om de ikke ble fanget av Jupiters og Saturns gravitasjon, men seilet videre og stabiliserte sine baner i Solens Livsbelt - et sted mellom Mars og Venus. Tenk endog om en ble fanget av Jordens gravitasjon istedet. Vi kunne så fått en 'livlig måne' når isen smeltet og organismer ble vekket til live. Selv mener jeg vi godt kjenner til 7 dvergplaneter ekstra, siden 7 kjente måner er større enn dvergplaneten Pluto. Isåfall er vår egen Månen en dvergplanet. Videre er 'Månene' Ganyemede og Titan større enn 'Terra Planeten' Merkur.

Trans Neptun Objects (TNO) kalles alt som finnes i Kuiper beltet og hinsides i Oort skyen. Til nå er 500 objekter funnet og det antas å være mer enn 100.000. Kuiperbeltet har en utstrekning dobbelt så langt som til Pluto. Areal og volumet økes tilsvarende eksponensielt. Oort Skyen strekker seg et helt lysår videre. Vi har med andre ord knapt sett noe av hva Solsystemet virkelig inneholder. Men opptellingen har så smått begynt. Til nå er det oppdaget 13 planeter i Solsystemet, inklusive noen dvergplaneter i Kuiperbeltet. Med de 7 'måner' er vi nå oppe i 20 planeter i vårt Solsystem. Det er mange flere der ute, - antagelig hundrevis.

Tangerine Dream sine komposisjoner er omtalt i allmusic.com som å være av de mest betydningsfulle i 80-90 tallet. Deres instrumenter var synthet på størrelse med gamle sentralbord. De komponerte nye musikkformer som best forklares med plateomslagene metaforiske titler og bilder. De lagde synth musikk i ordets rette forstand og de var like produktive om kreative. Denne UU er ikke av de beste eller mest kjente, - ei heller metaforisk, - men den passer godt til temaet. Riktig mange album ligger derute til fri anvendelse.

Jean Michel Jarre - Oxygene

14.sept.2012

Ukens Utvalgte:

Jorden vår er 'terraformet'. Dette mener jeg er en rimelig konklusjon som både Kreasjonister og Evolusjonister bør kunne anerkjenne. Kreasjonisters Skapelsesberetninger er simpelthen mytologisk

Terraforming. Darwinske Evolusjonister har dog ingen forklaring på hvordan livet kom til Jorden, - kun hvordan det omsider har utviklet seg. Forhåpentlig vil de omsider også søke svar på hvordan og hvorfra organismene kom til Jorden.

Der er betingelser for at en planet kan terraformes og holde på et stabilt økosystem. Det er komplisert, men vår egen planet Jorden har svarene. Det er nærmest ufattelig at liv fremdeles eksisterer her, men fakta overbeviser. Andre planeter og måner's tilstand indikerer hva som kan gå galt. Det finnes nå mengder av interessant informasjon om terraforming på internettet. Populære fokus er at planeten Mars eller månene Europa og Titan kan tilføres de siste forutsetninger og bli beboelig for jordisk liv. Faktisk er oppskriftene klare. Vi er bare ikke helt i stand til prosjekter i den målestokk enda. Teoretisk sett skal Mars bare tilføres noen alger for å starte oksygenproduksjonen. Omsider kan oksygenavhengige organismer overleve.

Begrepet terraforming forutsetter dog ikke utelukkende bebolighet for mennesker. Jorden var terraformet lenge før menneskene kom. Andre livsformer har andre forutsetninger og kan leve i umenneskelige miljø. Det finnes livsformer her på Jorden som overlever ekstrem kulde eller varme, som ikke behøver lys, vann, oksygen eller næring. Dermed kan liv eksistere på planeter eller måner utenfor Solens livsbelte, simpelthen ved energi fra dets kjerne. Europa er dekket av is, men det er sannsynligvis et hav derunder. Dens kjerne kan gi energi ved undersjøiske vulkaner. Forutsetninger for sjøliv er dermed tilstede. Månen Titan anses å ha samme forutsetninger som Jorden hadde før liv oppsto. Den eneste energikilde i nærheten er dens egen kjerne. Forutsetninger for ur-liv er tilstede. Liv kan endog ligge nedfrosset i dvale hvorsomhelst i galaxen. Så er det da grenseløst hvor omfattende spredningen av liv kan ha vært. For Terraforming er en prosess som ikke nødvendigvis behøver å være planlagt. Terraforming kan være tilfeldig, så som Flora og Fauna spres overalt på vår egen jord.

Jean-Michel Jarre er en synth-guru som slo igjennom på 70 tallet med albumet Oxygène. Han laver noen velklingende komposisjoner av ypperlig lyd kvalitet. Men man kan neppe si at han gjør de helt store musikalske prestasjoner. Mest kjent er han nok for noen spektakulære konserter, hvor lasershow var eksepsjonelt, skyskraper ble film lærret og et forrykende fyrværkeri sette klimaks på forestillingen. Sci-fi komdien 'Evolution' setter teorier om terraforming og alternativ evolusjon på prøve. Tross all den åpenbare fiksjon har den noen spennende 'what if' scenarie til alternativ evolusjon. Så kan man faktisk å skrive en roman på et såpass kompleks og omfattende tema. Det er dog trikset med utviklingshastigheten for å holde på hovedpersonene. Videre legges det til noen gode porsjoner humor for holde på publikum, ved å ikke ta seg selv for høytidelig. Her er en trailer samt hele filmen Evolution i 8 deler.

Thomas Dolby - N.E.O.

08.sept.2012

Ukens Utvalgte:

Solsystemets måner og planeter antyder de mengder av EkstraTerra materiale som er tilført i de milliarder år. Noen sammenstøt har skapt store krater og har endog vært deformerende. Større sammenstøt kan ha

vært ødeleggende. Det ser vi kun restene av, men vi kjenner ikke til alt det som sannsynligvis er slukt av Solen og Gasgigantene.

Det handler om så store avstander og så lang tid for sådanne hendelser, at sannsynligheten for å oppleve lignende er minimalt. Det er med andre ord ikke hensikten å spekulere i skremmende spådommer. Hensikten er heller å belyse alternative muligheter for hva vårt solsystem kan ha vært utsatt for. Det kan gi forklaringer på skapelser så vel som ødeleggelser. Alt om alt, med dagens viten om Jordens omgivelser, blir det usannsynlig at alt på Jorden er 'skapt' her og at intet påført utenfra.

Planeten Mars kan engang ha vært frodig. Den ligger i det livgivende beltet, hvor flytende vann kan eksistere, sammen med Jorden. Mars har dog den halve størrelse, ligger lenger fra Solen og har knapt noe vann tilbake. Overflaten er dekket av rødt jernholdig materiale, som neppe er opprinnelig fra planeten. Det er ikke grunn til å tro at det skal være dannet spesielt mye jern på Mars. Det er mere sannsynlig at Mars er truffet av jernholdige meteoritter, - og av en spesielt stor en. Vulkanfjellet Olympus Mons er tre ganger høyere enn Mont Everest og solsystemets høyeste. En mulighet er at bjerget kan være dannet etter at en gigantisk jernmeteoritt rammet planeten, slo hull igjennom overflaten, ble smeltet av planetens magma og følgelig spredd sammen med annet vulkansk materiale i massive mengder. Planetens lave gravitasjon kunne neppe holde på alt og spredte følgelig også sitt eget ut i rommet.

Jorden er antagelig utsatt for flere og større impacts enn Mars og Månen tilsammen, men det er flere grunner til at relativt få krater kan ses i dag. Vulkaner, kontinentalplaters deformasjoner, erosjon, hav, ørken og vegetasjon har dekket over det meste. Mere viktig er at Jordens enorme mengder av vann også kan være tilført Jorden med objekter av is. Antagelig har de fleste planeter og måner blitt bombardert av vannholdige sådanne. Jorden og 'måner' som Europa og Titan har holdt godt på sitt vann, mens Månen og Mars har kun rester tilbake.

En fremstilling av hendelsene vises i sluttscenen i filmen 'Mission to Mars'. Den biten er hele filmen verdt. Filmen har riktig mange spennende ideer, tanker og filosofier i seg, så som dialoger om moralske vurderinger, tanker om arv og utvikling og ikke minst om hvordan overleve reise og opphold på Mars. Men det går desværre som det gjør med så mange gode manus som skal populariseres. Det blir for mye fiction og for lite science. All sympati til forfattere og filmprodusenter – de skal jo tilfredsstille den store masse av kinogjengere og blir nødt til å gå på kompromiss mellom sin kunstneriske verdi og den allmenn interesse.

Thomas Dolby var i slutten av sin karriere med i et prosjekt kalt 'The Gate to the Minds Eye'. Begrepet handler om å visualisere det en måtte se i sine tanker. Computer grafikk var på den tiden enkel, men desto mere nyskapende. Her er et stykket N.E.O. (Near Earth Objects) som passer godt til temaet.

Saga - Don't Be Late (Chapter Two)

31.aug.2012

Ukens Utvalgte:

Så er det tid for helt andre saker. Vi besøkte i sommer et enormt meteoritkrater i Hallingdal omtrent på den tid da roveren Curiosity landet på Mars. Det satte såpass sving i gamle ideer at jeg må erkjenne at jeg ikke kan vente på meg selv lengere. UU fremover vil derfor handle om 'Accidental Genesis'.

For 8 år siden startet jeg et forsøk på å skrive en roman 'AG'. Den ble omskrevet 3 ganger og bør bli omskrevet igjen. Det er et særdeles spennende, men vanskelig tema jeg har tatt tak i. Opprinnelig ønsket jeg bare å beskrive en film jeg håpet å få se engang. Derfor så mange bilder. Men på et tidspunkt gikk jeg trett av prosessene, la det tilside og skrev heller den mere jordnære 'Newfound Land'. Siden har utkastet til AG ligget bortgjemt på internettet.

Skriveriene utviklet seg til å bli et forsøk på å forene Skapelses- og Utviklingslærene. Det byr på utfordringer selv science-fiction forfattere sliter med. Videre byr det meg imot å fable om tidsreiser, og den ignorante 'guds veier er uransakelige' byr meg i mot. Dessuten, lesere krever karakterer de kan forholde seg til, selvom de umulige kunne eksistere på den tid. Dermed ble løsningen i AG å bruke fiktive skikkelser som berettet og handlet. De prøver å finne ut av hva som egentlig skjedde i vår rotete solsystem, ved å analyserer danges rester av det. Videre krever lesere dramatisk og klimaks, så historien utspiller seg med noe mytologisk sci-fi. Siden karakterene ikke vet hva som egentlig skjedde, kan de kun tro - og tar følgelig ofte feil. Det gir grunnlag for en oppfølger Accidental Genesis 2' om viten, tro og feil.

Utgangspunktet i AG var at eksterne objekter påvirket stabiliteten av objekter ytterst i vårt eget solsystem. Dette var et forsøk på å gi en forklaring på alle de bombaderte måner og planeter vi kan se idag. Videre gav is-kometer med biomasse Jordan det vann og liv den har idag. Dramatikken er fremstilt ved at en planet i Oort skyen blir skubbet og får en komets bane rundt solen. Det var ment å gi en alternativ forklaring på de periodiske store istider Jordan faktisk har hatt. For så å filosofere litt over livets utviklingsmuligheter, lot jeg de fire planeter Venus, Jordan, Mars og den fiktive Astro, bli sådd med liv. De har forskjellige miljø som preger utviklingene og favoriserer bestemte arter. Men av naturlige årsaker kan kun en holde på livet i lengden. I det hele føler jeg meg ikke særlig bundet av dagens definisjoner av planeter og måner. Merkur, for eksempel, kan i beste fall kalles en dvergplanet.

Nye fokus vil bli fundamentet i AG2. Der vil være langt mere konkrete forklaring på alt det Jordan og Solsystemet kan ha vært utsatt for i hele sin eksisten. Skjønt, jeg var inne på løsningen allerede i det andre avsnitt i AG, men jeg hang meg opp i ideen om en enkelt 'Rogue Oort planet'. Jeg har nå ingen grunn til å tro at noe, utover Solen selv, har sin opprinnelse her. I romanen skal det forskes, handles og berettes meget, - så et helt nytt sett av pre-menneskelige karakterer blir nødvendig å lave. Dog kan noe av det gamle saktens gjenbrukes og fornyes. Etter et par måneders høyt-tenkende skriblerier bør et solid fundament være på plass for en eventuell fornyet versjon av AG. Jeg kunne endog vurdere å skrive det på norsk.

SAGA er en Canadisk art-rock gruppe som slo igjennom på 80 tallet med albumet Silent Knight og denne 'Don't Be Late'. Gruppen er mest kjente for sine tidligere verk hvor de demonstrerte sine spesielle musikalske evner. Tekstene i de 16 'Chapters' spant seg over 8 studio album og ga spennende beretninger med en viss sammenheng i sci-fi stil. Flere ganger har jeg sett gruppen 'live' hvor de var like overbevisende som på sine studio album, - dengang som nå. Selv synes jeg de fortjener større oppmerksomhet enn de har fått. Etter en tilsynelatende splitt av bandet, ser det ut til at de igjen spiller sammen.

Så har omsider dommen falt i Terror-saken, - 60 år bak lås og slå. Det er dobbelt så lenge som maksimalstraff for grov terrorisme. Den grensesprengende hårde straff rammet kun 'Den hele og fulle Sannhet'. Myndigheten har hemligstemplet det meste av dokumentasjonen til '22. juli-kommission' og lagret det i et bombesikkert rom. Der skal 'Den hele og fulle Sannhet' ligge isolert, gjemt og glemt så ingen skal bli utsatt for den.

'22. juli-kommission' leverte en særdeles profesjonelt begrunnet dom over ansatte i statsmaktene sine manglende evne og vilje til å forhindre terrorisme. Som om ingenting har skjedd, blir de absolutt fleste involverte stadig belønnet med godt beskyttet og godt betalt jobb. 'The Untouchables'. (Konsekvensene av rapporten er så omfattende at de vil bli omtalt i et særskilt tema senere på året. Forøvrig er rettsprosessen omtalt i UU i perioden fra 18 mai til 20 juli. Rettspsykiatrikernes uintelligente Spill er heldigvis diskvalifisert.)

Terroristen selv har omsider fått sitt eget gutteværrelse med PC, fri kost & losji, samt døgnkontinuerlig room-service. Nå skal det studeres på høyt nivå uten allmenne byrder som studiegjeld. Dommen ble ikke 30 års fengsel ihenhold til 'Terrorloven'. Regjeringen har i fullt overlegg gitt terror-rabatt på 9 år ved å forhindre Terrorloven i 4 år og på ubestemt fremtid. Videre kan terroristens soning reduseres ned til 10 år på senere tidspunkt. ABB smilte tilfreds. Det vil enhver annen terrorist gjøre med ham. Norge har med denne dom fremstilt seg selv en terror-fremmede stat.

Det norske rettsvesen er utvilsomt fremdeles alvorlig krigsskadd og lider. Det er tydelig når man sammenligner faktiske straffeutmålinger for forskjellige rettsaker i Norge. Rettsstatens trauma er avslørende i denne rettsak. Den kan ikke helbrede seg selv. Det norske Rettsamfunnet behøver omfattende hjelp utenlands.

10CC er en favorittgruppe fra 70 tallet. De stiller i en egen klasse når det kommer til musikalitet og tekster. Et enkelt musikkstykke kan inneha 4-5 forskjellige melodier. Tekstene var ofte usedvanlig velkrevet sarkastiske, humoristiske og tankevekkende.

Genesis - Selling England By The Pound

17.aug.2012

Ukens Utvalgte:

Vi hadde en fantastisk ferie i Norge, inklusive et seilas på den UNESCO vernede Sognefjorden. En uforglemmelig opplevelse. Det kan synes en detalj å regne å merke seg at den norske mynten Øre forsvant siden sist besøk. Også inspirert av all den engelske kulturpresentasjon de siste uker, faller denne UU på et helt særlig album med gledelig lyd kvalitet. Hendelsen og albummet gir dessuten et par andre tanker.

Selges Norge unna pr kilo eller pr krone? Dobbeltbetydningen av ordet Pound har en poetisk verdi. Det er ingen tvil at myntenhetens forsvinnende verdi er en konsekvens et århundredes statlig finanspolitikk. Det er skremmende enkelt å sette turbo på seddelpressen når en ikke har en fornuftig overordnet pengepolitikk. Det er som å slippe barn løs i en sjokoladefabrikk. Resultatet er en inflasjon som har redusert pengeverdien til 2% på 100 år. Sådan ble kronen redusert til øren's verdi og statsmenn samfunnets storkapitalister.

'Selling England byte by byte', - det er utviklingen til dette albummet. Det lønner seg neppe å selge det på fysiske medier lengere. Dermed finner man kunstverket til fri anvendelse på internettet. På den annen side ville jeg virkelig like å få se en O2 versjon av Genesis konserten, som 'The Wall' ble presentert for en måned siden. Her er store muligheter for multimedia reproduksjoner.

Roger Waters -The Wall – The Trial

20.Juli.2012

Ukens Utvalgte:

I dag skulle dom i '22. juli saken' ha falt, omtrent på årsdagen. Men domsavsigelsen er utsatt til den 24. august. Selv avslutter jeg sesongens tema med denne konklusjon: Terroristen ABB burde dømmes til 30 års fengsel i henhold til 'Straffeloven kapittel 18 - § 132 Grove terrorhandlinger' (Terrorloven). Men politiske Spill antyder reduksjoner i tiltale og soning. Det er oppsiktsvekkende og suspekt og vitner om at den Dømmende makt blir politisk korrupert.

'Terrorloven' ble som nevnt tilføyd Straffeloven i 2008, men fremdeles er den ikke satt i kraft.

Parlamentarisk høring av Terrorloven var lovet før sommeren, men den nyutnevnte justisminister (AP) annonserte en ytterligere 1 års trenering. Dermed kan kun 'Straffeloven 8de kapitel: Forbrydelser mod Statens Selvstændighed og Sikkerhed' anvendes. § 86 har en strafferamme på opptil 21 år. Det er dog ikke ABB som beskyttes ved den politiske blokkering av den Dømmende makt. En eventuell ikraftsettelse av kapittel 18 kan ikke ha tilbakevirkende kraft for ABB. Så dette politiske Spill gjøres for å beskytte den daglige støtte til terror-relaterte; forbund/organisasjoner, trusler, finansiering, oppfordring, rekruttering, opplæring, handlinger, samt unndragning fra straff.

Den Fjerde Statsmakts kommentator og 'valgekspert', professor Frank Aarebrot, uttrykker bekymringer for rettsamfunnets avpolitisering i sin artikkel 'Dommerne hersker i fremtiden'. Selv ble jeg skeptisk til hans oppriktighet under sist EU valg, da han styrte et mediasenter i organisasjonen 'Fra Nei til Ja'. Formålet til organisasjonen var å overbevise motstandere med fakta. Det motsatte skjedde, simpelthen fordi organisasjonen ble undergravd av motstandere. Selv anser jeg han som en 'freelance spin-doctor's' for AP/LO. Valgprosessen førte som kjent til at Parlamentet vedtok og ratifiserte den overordnede EØS Loven i 1992. Loven fremmer de fire friheter for arbeidere og mindre virksomheter i det Indre Marked. Loven forbyr bl.a. statsvirksomheters dominans og diskriminering, samt at statsstøtte skal gå direkte til borgere og ikke direkte til virksomheter. I praksis svindles virksomheter og borgere for millioner hver dag fra statsrelaterte organisasjoner. I løpet av lovens 20 års virke, har han fremdeles ikke påpekt disse fakta. Derfor er det så absolutt ingen grunn til å tro at han vil fremme vesentlige objektive fakta om Menneskerettsloven eller Straffeloven heller. Han er dog kun et symptom på politisk ekstreme subkulturer som mener deres politikk er hevet over loven, - og som presterer å fremme terroristen Lars Gule som den fjerde statsmakts terror-ekspert. Norge har mange bedre kandidater. Sett fra AP/LO regimet kan nok en styrking av rettsamfunnet bli ugunstig, - men ikke sett fra den demokratiske sivilisasjon.

Videre må det nevnes, i forhold til artikkelen, at sivilisasjonens rettsutviklingen er; Oldtiden; stat-vs-borger, Romerriket; borger-vs-borger og Opplysningstiden; borger-vs-stat. Sistnevnte heter Naturretten og ble realisert ved Menneskeretts-konvensjonene fra FN (og ECHR). Borgerne skulle få beskyttelse mot ekstrem-psykopatiske statsledere som Hitler, Stalin og Mao. Ratifiseringen av den overordnede Menneskerettsloven ble forsinket i nesten et halvt århundrede. I år ble Menneskerettighetene også ratifisert i Grunnloven. Dermed har prinsipper som 'Fair Trail' og 'Ytringsfriheten' blitt praktisert i terror-rettsaken. Menneskerettsloven setter dog begrensninger for ekstreme ytringer, ved at loven inkluderer ECHR's 'ytringsansvar'. Derfor ble ABB's ytringer rettmessig sensurert.

Terrorattentatene i Norge ville antagelig ikke skjedd, hvis 'Terrorlovens' ikrafttredelse ikke ble trenert. Den første Statsmakt er derfor medansvarlig til at den andre Statsmakt ble bombet og at den Tredje statsmakt ikke får dømt terroristen for terrorisme. Fremtidige terroraksjoner, i Norge og andre land, kan forhindres ved at Stortinget vedtar umiddelbar ikraftsettelse av 'Straffelovens Kapittel 18, Terrorhandlinger og terrorrelaterte handlinger'. Hver dag teller. De folkvalgte skal bare vise seg sterkere en terrorsensuister.

Hypotetisk, men modig, ville være å dømme terroristen til 30 års fengsel iht Terrorloven, og ugyldiggjøre disse 'politiske' grupperingers trenering av dens ikrafttredelse. Om overhode mulig, ville avgjørelsen naturligvis bli anket, ikke minst av terroristen selv. Men det ville da skape en usedvanlig spennende og samfunnsnyttig retts-situasjon og sette fokus på viktige spørsmål. Skal virkelig sosiopatiske grupperinger få blokkere Terrorlovgivningen i år etter år? I så fall, er da ikke Norge et sivilisert rettsamfunn? - Så er det enda viktigere å gjøre noe med selve årsakene til at terrorisme ikke forhindres.

Pink Floyd's The Wall er blitt en spektakulær multimedia begivenhet. Den fremføres av Roger Waters i Londons konserthall O2. Denne UU er et opptak fra Norges Grunnlovsdag i fjor. Albummet ble opprinnelig lavet for 30 år siden, omtrent da en blivende terrorist ble født. Siste del av konserten er kalt 'The Trial' og handler nettopp om det. Historien skal dog ikke blandes, og langt fra den rettens dom. Fremføringen er meget spesiell. Det er litt av Waters selv i historien, siden han mistet sin far under WW2. Det meget av gruppens første vokalist Syd Barrett i historien, som med overdreven selvmedisinering, mistet stadig mere kontakt med omverdenen. Til sist ble han innlagt på asyl. Dette har vært et trauma for bandets medlemmer og preget deres utvikling. De fikk dog stor suksess, men The Wall splittet bandet. Her er hele konserten i HD til allmennskue. Fallulah - Out Of It

13.Juli.2012

Ukens Utvalgte:

‘Lykke’ heter en stjernespekket dansk TV serie. Den handler om medisinal-industrien og betegnes av DR som en ‘depressionskomedie’. Serien stoppet brått før episode 9 og 10 av sesong 2. DR forsikrer at serien ikke vil fortsette. Det siste jeg så var at en ikke ukjent celle av RAF ble skrevet inn i manus med oppbygning til noen klimaks. Tankene faller dermed hen til hvordan medisiner, eller narkotika, kan påvirke sanser, tanker og følelser. Dette kan forklare noe om hvordan helt normale mennesker kan utvikles til ekstremister.

Narkotikaproblemet er godt kjent. Kort sagt, er kategorier; psykedeliske stoffer som LSD og meskalin (hallucinogener), euforiserende stoffer som hash, bedøvende stoffer som morfin og heroin, samt sentralstimulerende stoffer som amfetamin og designerdrugs som ecstasy. Det er derfor forunderlige at dette forhold synes ekskludert i terror-rettsaken. ABB var visselig på stoffer før og under attentatene. Det forunderer ikke hvis et stort narkotikaforbruk er normalt blant ekstremister.

I København ligger den såkalte fristaden Christiania, - en tidligere navne-tvilling med Oslo. Stedet fremstilles som en idyllisk turistattraksjon, men det er langt fra sannheten. Illusjonen er som med de danske avisoppslag om at Danmark er av de lykkeligste land i verden. Samtidig kan man lese at overforbruket av Lykkepiller er stigende. Pillene har noen alvorlige negative bivirkninger og kan gi avhengighet og dødsfall. Medisinering av mindreårige er bekymrende og kalles ‘det store ADHD bedrag’. Problemet er antagelig tilsvarende i Norge, selvom det ikke omtales så åpent. I Christiania har forlenget heroinpushere og en motorsykelgjeng overtatt ‘Fristaden’ og trellebundet den. Hardcore narkotikamafia regjerer, under et skjul av naive neo-hippies. Når idyllen, og markedet trues, trekkes det våpen i voldlige oppgjør. Mord har skjedd.

Hypnose er i Danmark en salgbar tjeneste som andre kirurgiske inngrep som rotfylling, fettsuging og silikonbryst. I Norge er hypnotiske inngrep legalt kun i psykiatrien. Kriminell hypnose er dog lite omtalt, - spesielt i Norge. DR2 viste programmet “Forbrydelse under Hypnose”, som tar utgangspunkt i en 50 år gammel kriminalsak, hvor en bankraner hevdet at han handlet under hypnose for en politisk organisasjon. Dokumentaren beviser at det er mulig å hypnotisere personer til å gjøre kriminelle handlinger de normalt ikke ville gjøre, - innklusivt vepnet ran. DR gjør en oppsiktsvekkende bevisførsel. I TV programmet hypnotiseres personer til å tro at de er i en velgjørende organisasjon. Etterhvert skapes sterke ‘good guy – bad guy’ fremstillinger. Deltagere ble overtalt til å bekjempe ondt med ondt. Til sist lykkes det å hypnotisere deltagere til å begå kriminalitet. Dermed motbevises hypnotisørers ansvarfraskrivelse for egne handlinger. Dette burde sette et skarpt søkelys på temaet kriminell hypnose, - også i Norge. Men det ser ut til å forbli et tabu-tema. Følgelig kan hypnose-kriminalitet være mer utbredt i Norge enn i Danmark, fordi den får operere i det skjulte og fordi de uvitende borgere ikke får effektivt forsvar mot overgrep.

Uvitende personer kan hypnotiseres til sinnstilstander tilsvarende hat, forelskelse og umoral, - og utføre spionasje, tyveri, utroskap og vold. Videre kan det skapes sinnstilstander tilsvarende mani, fobi, depresjon, psykose og schizofreni. Hypnotisører kan kortsluttet offerets vilje og moral, dets psykologiske Ego, og styre

dets Id som et eksternt S-E. Begreper som psykopati og mental voldtekt kan brukes om denslags. Kombinasjoner av mindre hendelser kan tilsammen utgjøre store og alvorlige saker. I Norge er straffen for uautorisert hypnotisering kun 3 måneder. Men med argumenter i TV programmets bevisførsel, bør kriminallovens 'forledelse til kriminalitet' kunne anvendes. Det har en strafferamme på inntil 6 år. Kriminalitet mot rikets anliggende har maksimalstraff. Dette er forhold som kan sette nytt fokus på 'merkelige og uforklarlige' kriminalsaker. Dessuten, narkotika kan gjøre brukere langt mere mottagelig og avhengig. Det kan være nære sammenhenger med legal eller illegal medisiner og hypnose.

ABB virker til de grader mentalt manipulert og fremstår som et tilfelle fra TV programmet 'Forbrydelse under Hypnose', - som en leiesoldat med ukjente oppdragsgivere. Det er virkelig bekymrende hvor enkelt en soldat kan omprogrammeres til å gjøre hva-som-helst mot hvem-som-helst. Værre våpen finnes ikke. Det er nettopp hva terrorister er. I denne kriminalsak handler det derfor også om å finne terroristers manipulatorer. Det bør være en høyt prioritert oppgave for den 'nasjonale sikkerhet' å minimere antall etterfølgere, - ikke kun den nylige omtalte norske 'al-Qaida konvertitten'.

Fallulah er en dansk-rumensk sangerinne og sangskriver. Hun brøt igjennom med singlen "Out of It", - temasangen til DR's TV serie 'Lykke'. Videoen til DR er virkelig gjennomarbeidet på mange nivå. Men den offisielle video til Fallulah er endda mere verdt å se. Den er en særdeles velgjort beretning og har en humoristisk undertone. Men bakom tekst og fremføring ligger en temlig burlesk tankevekkende historie.

Ukens Utvalgte:

'Honesty is for suckers' er moralen i det psykologiske Spill LYAHF. Det står i sterk kontrast til rettsprinsippet om å fremme 'The Truth, The Whole Truth, and Nothing But The Truth'. Så er det naivt og tro at aktører før, under og etter rettsoppjøret er 100% ærlige. Antagelig har alle noe å skjule. I det store og det hele vitner saken heller om hardcore Spillteori i praksis. Igjen, behøves litt teori før videre omtale.

Berne's vidreutviklingen av teorien om TA resulterte i boken 'Games People Play'. I disse Spill-teorier brukes skjulte og falske trekk (Transaksjoner) for å oppnå en gevinst. I boken beskrives en rekke generelle Spill, som alle er uærlige i sin natur. Spill forekommer forbløffende ofte i praksis. Det skal dog nevnes at Spill ikke er den eneste type aktivitet i Berne's teorier. Kategorisk nevner han; 'Pasttimes, Rituals, Work and Games'. Det meste av tiden bruker man altså til normale ting som; tidsfordriv, jobb og ritualer. Det er naturligvis vanskelig å avgjøre hva som er et Spill eller ikke, fordi en knapt kan vite hva som er den hele og fulle sannhet i enhver sak. Spill kan dog stoppes ved avsløring av de egentlige motiver og trekk, - eller ved å gjøre gevinsten uaktuelt.

Hendelsene forrut og under attentatene, samt den pågående rettssak, vitner om mengder av 'Games People Play'. Kriminelle vil selvfølgelig forhindre å bli avslørt. Det er en vel så stor del av planleggingen som selve handlingen. Hvis rivaler blir dømt istedet, kan det anses som en ekstra gevinst. Relatert til Berne's teorier er de mest åpenbare Spill; SWYMD (See What You Made Me Do), UGMIT (You Got Me Into This), ITHY (I'm Only Trying to Help You), LYAHF (Let's You and Him Fight), LPAFJ (Let's Pull A Fast one on Joey), NIGYSOB (Now I've Got You, You Son of a Bitch) og selvfølgelig Spillene 'Psychiatry' og 'Courtroom'. Det finnes også varianter av Spill, så som NIGYSOB, som har versjoner for Id, for Ego og for S-E.

ABB er utvilsomt en hardcore Gameplayer av SWYMD og UGMIT. På den annen side kan han forrut for aksjonene være utsatt for Spillene LYAHF og LPAFJ av ukjente aktører. I rettsalen utspilles ITHY av Rettspsykiatere, NIGYSOB og 'Psychiatry' av Aktoratet, samt 'Courtroom' av Rettsapparatet. Ukjente aktører kan som nevnt være av BRAF, Militæret (SU/US), Eksil grupperinger, Mafia organisasjoner, samt rivaler til Statsministerposten. (Disse grupperinger ble nevnt innledningsvis i temaet, basert på en sammenligning med filmen JFK.) Men små lokale grupper innen kategoriene Mafia og Eksil er ikke særlig sannsynlige, da de antas å være for ubetydelige og fragmenterte til å se gevinst i en så stor terrorsak. Videre kan man utelate religiøse grupper da terroristen ikke viser noen seriøse tegn til religiøsitet. Ei heller er det vist noe positivt tegn til konstruktiv Europeisk sameksistens. ABB kjører antageligvis spillene UGMIT, LYAHF og LPAFJ mot disse. Fokus fremover forsterkes dermed på stats-relaterte aktører.

Hva kan så gevinster være for andre aktører enn terroristen? Et nøkkelord er Terror i seg selv - som maktmiddel. Før attentatene var flere forhold besynderlige - sett fra et sivilisert samfunn. Sikkerhetstiltak i Regjeringkvartalet og Terrorloven ble konsekvent blokkert på høyeste politiske nivå. Videre har terrorister fått særdeles god behandling i Norge. Mest kjente er Souhaila Andrawes (Flykapring - RAF), Lars Gule (terrorbombe - DFLP) og Mulla Krekars (FNs terrorliste - Al-Qaida). Der er antagelig mange flere. Det tyder på at betydlige politiske krefter i Norge favoriserer terrorisme, - dog i mot andre land. I deres relasjoner finner man antagelig de politiske krefter som har forhindret Terrorlovgivningens virke, - noe som ville gi alle medvirkende streng straff. Rettspsykiatikere burde ha fokusert på terroristers iboende sosiopati og psykopati i stedet for å mystifisere rettsaken med avledende spekulasjoner om psykose og schizofreni.

Norges rettshistorie har også noen merkelige saker, så som mordet i diplomatfamilien Orderud, den partipolitiske Treholt-saken, det uopklarte dødsfall av VG's redaktør Olav Versto, rett før attentatene, samt en rekke mord og dødsfall rett etter attentatene. Disse saker kan også analyseres med psykologisk Spill-teori. Om man så går tom for innspirasjoner, kan man jo ta tak i Gerhard Hølskog's TV serie 'Rikets tilstand'.

Thomas Dolby var først ute i denne sesong sitt tema. Nå som den opprinnelige dato for dommen nærmer seg, kan det passe med en oppfølging av ham. Igjen, fraskrives enhver assosiasjon til noen personer i

rettsoppgjøret. Dette er simpelthen en riktig god video med avansert musikk og underholdende tekst om psykologiske forhold. På den annen side, - det er et mysterie hvordan en uskyldig barn kan bli en så, til de grader, skyldig voksen.

Madness - One Step Beyond

29.Juni.2012

Ukens Utvalgte:

Siden retts-psykiatre insisterer på å spille denne terrorsaken over til sin egen hjemmebane, skal de sannelig få det. Det norske rettsvesen opplevde absurde og tidskrevende psykologiske innspill, som har avledet den profesjonelle rettsak fra flere viktige forhold. En hovedårsak til at det overhode kan skje, er at norsk terrorlovgivning fremdeles ikke er satt, til tross for at den ble tilføyd Straffeloven i 2008. Fremdeles får vi denslags politisk motiverte spill i rettsalen. Denne del av temaet vil derfor bli en psykologisk evaluering av hele saken. Det krever først noe grunnteori.

Psykologi betyr noe som 'studie av sjelen' og stammer fra oldtiden. Freud, 'psykoanalysens far', presenterer i boken 'Civilization and Its Discontents' de 3 deler av psyken; Id, Ego og Super-ego. På 60 tallet moderniserte doktor Eric Berne de samme med populariserte begreper som; ID/Barnet, Ego/Voksen og Superior-Ego/Foreldre. Med populariseringen ble det enklere å se at Barn først utvikler sitt Id, så skaper foreldre dets S-E, og at Ego derefter utvikles med personligheten. Et sunt menneske har naturlig nok en balanse av disse tre. Dermed kan man si at mentalhelsen gjenspeiles i personligheten – hvorvidt den er utviklet og om den får utfolde seg. Psykiske lidelser som psykose og scizofreni, kan forklares i at Ego er så undertrykket at S-E og Id dominerer personligheten. Således er det høyst tvilsomt når rettspsykiatere påstår at 'det er bedre å tvangsinnlegge et mentalt friskt menneske enn å fengsle en mentalt sykt', - spesielt når deres egne diagnoser er tvilsomme i utgangspunktet. De representerer jo selv et dominerende S-E og påvirker pasientenes mentalhelser.

Tilsvarende bør det være mulig å si at usunne samfunn undertrykker borgernes personligheter. Eksempelvis gis ordet 'ego' en negativ betydning. Undertrykte Ego kan skape desillusjoner, frustrasjon, vrede og doping som nødløsning. Totalitære organisasjoner kan systematisk bryte ned borgernes Ego og overta funksjonen som deres Superior-Ego, for så å dominere deres irrasjonelle og emosjonelle Id. På et tidspunkt vil sannsynligvis underkuede personer 'eksplodere' i raseri. Kollektivt sett kan det utløpes i voldelige opprør. Det kan endog arrangeres og styres til såkalte 'revolusjoner'.

Eric Berne vidreførte denne teori til kommunikasjon og interaksjon mellom mennesker, - kalt Transaksjons Analyse (TA). Den positive målsetting er at alle bør mene at 'Du er OK – Jeg er OK'. Grunnleggende i TA er å bruke enkle og logiske fremstillinger av kommunikasjon. Hvem uttykte hva? Transaksjonene kan sammenlignes med fokus på de relevante 'data' i et hav av informasjon. Sosial kommunikasjon med mange aktører, er besværlig, - og tidvis uoverskuelig. Selv uttrykksmåter til menn og kvinner kan være så forskjellige at det fører til stridigheter.

Kan man så psykoanalysere organisasjoner som for personer? Utvilsomt - Ja. Den mest åpenbare grunn er at mange organisasjoner er sterkt personifiserte, - med dominerende patriarker og matriarker. Listen av politiske, religiøse og royale ledere er overbevisende. Andre organisasjoner, som ikke er så personfikserte, har allikevel sterke kollektive S-E som uttrykkes i etikk, lover og reguleringer. Statsmaskinen er ekstremt logisk-rasjonell, mens helse, velferd og pedagogikk er sterkt preget av Id mentalitet. Kollektive begrep som masse-psykose og dobbelt-moral kan relateres til psykologiske begrep som psykose og schizofreni.

Så skal man være særdeles forsiktig med å fremme ubalanse mellom samfunnets overordnede Superior-Ego/Formynder, Ego/Organisasjon og Id/Emokrati. Bekymrende er at ubalansen fra det 20 århundredes globale kriger ikke er korrigeret. Den Lovgivende og Dømmende statsmakt synes svake i forhold til Statsapparatet. Videre mener jeg at en analogi mellom en persons psyke og nasjoners kollektive psyke kan uttrykkes som Id/Trone, Ego/Stat og S-E/Tempel. En sunn nasjon vil ha balanse mellom de 3. I så fall har de Forenede Nasjoner en god del å arbeide med.

Innledningsvis i dette tema, ble fokus satt på potensielle konspirative organisasjoner, basert på sammenligning med blandt annet filmen 'JFK'. En bestemt organisasjon er spesielt sentral for mange aktører, politiske dominerende og sterkt knyttet til de rammede organisasjoner AUF og AP. Det faller derfor naturlig å prøve ut en organisatorisk psykoanalyse på LO. LO er en fundamentalt patriarkisk, 100 årig arbeiderkultur, med indre selvjustis og voldlige tedenser, - uttrykt ved knyttnever, kampbegrep og aggresjon. Dets indre natur klarte dog ikke å forbli innesluttet under den såkalte 'Valla saken'. Den dominerende matriark Valla utfordret patriarkiet såpass at et åpent oppgjør var uunngåelig. Beskyldninger om psykopati i organisasjonen var hyppig fra flere hold. Også massakren på AUF var høyst politisk, psykopatisk og hevngjerrig. 'Vold avler vold' sier et ordtak. Så er antagelig tilsvarende voldsgrupper skjult innenfor organisasjonen. Hvis terroristen har knytninger til BAF kan man antagelig finne tilknytninger til RAF i LO/AUF. Det vil i så fall kunne forklare mange av de uforklarte omstendighetene som gjorde attentatet og masakeren mulig, - samt rettspsykiatriens iver med å overta formynderskap over terroristen. Det vil i så fall forhindre fremtidige avhør og vitneutsagn om etterfølgende rettsaker.

Gruppen Madness ble dannet i 1976, men fikk sitt gjennombrudd 10 år senere. Da fulgte en rekke hits, iblant denne. Tross to vokalister er denne tekst heller knapp, - men den sier det hele. Mest kjent er kanskje "Our House", som ble fremført på taket på Buckingham Palace til dronningens diamant jubileum.

Rettsapparatet, den tredje statsmakt, kjemper for sin autoritet. Det er en kamp om en hovedpilar i den demokratiske sivilisasjon. Rettspsykiatrikere forsøker å overstyre den sivile strafferett for å overta terroristen. Årsaken til rettspsykiatrikeres iver kan søkes ved juridisk og sosial-psykologiske analyser. Denne andre del av dette tema får følgelig den dreining.

Grunnlovens §2 er for nylig endret til å inkludere Menneskerettighetene. Dessuten fikk Nordmenn den juridisk overordnede Menneskerettsloven ved århundreskiftet. Norsk lov er dermed bundet til FN og ECHR sine menneskerettighet konvensjoner. Følgelig blir denne norske rettsprosess betydelig for andre Forenede Nasjoners behandling av terrorsaker. Begrepet 'Fair Trail' har således det sterkeste juridiske fundament en demokratisk sivilisasjon kan ha. Rettsinstanser, dommere, politi og andre autoriteter som misbruker dette kan utsette seg selv for alvorlige juridiske konsekvenser. Så selvom en person er tiltalt for de groveste forbrytelser, gir det ingen legalitet eller legitimitet til å manipulere rettsaken med halve sannheter, fortelser og skjulte agendaer. Hva kan motiver for denslags være?

Riktignok var det juridisk nødvendig med en psykisk vurdering av tiltalte. En psykotisk person er ikke strafferettslig, men skal umyndiggjøres og overføres til tvunget psykisk helsevern. Terrorhandlingene tyder på at det er noe alvorlig traumatisk i aktørens psyke. Derfor ble det laget 2 rapporter om det. Rapport 1 konkluderer at ABB er paranoid og schizofren. Men disse konklusjonene forutsetter at han var helt alene om det hele og at han ikke er en terrorist. Rapport 2 baseres på 3 ukers døgnkontinuerlig observasjon med 18 fagpersoner. Ingen observerte tegn på psykose. De to rapporter er motstridende. Rettspsykiatrien har dermed selv ødelagt sin troverdighet og fremstår tilsvarende; virkelighetsfjern, psykotisk og schizofren.

Man kan ikke se bort fra at rettspsykiatrikere også har skjulte motiver. Det vises jo til at ABB og familien ble innlagt på Statens senter for barne- og ungdomspsykiatri da han var kun 4 år. Den nyskilte diplomatfamilien hadde en stresset familiesituasjon og ble innlagt i 3 uker. Behandlingsteamet ville fjerne ABB fra alenemoren. Prosessen var traumatisk og holdningsskapende. I dag argumenterer rettspsykiatrer at han skal tvangsmedisineres. Et spørsmål er da om det faktisk skjedde allerede i hans barndom, og hvilke følger det kan ha for psykens utvikling. Alle mennesker er jo er formet av sin arv og sitt miljø.

Det kan være mange som ønsker ABB fortiet, gjemt og glemt. All sympati til de pårørendes rettsfølelse. Men han er også hovedvitnet til prosessene før og under terrorhandlingene. Andre involverte kriminelle vil forhindre å bli avslørt. Det er en vel så stor del av planleggingen som selve handlingen. De er antagelig tilstede, de observerer alle begivenhetene og vil manipulere etterforskningen om mulig. ABB har nøklene, - bevisst eller ei. Han besitter antagelig informasjonen kan være avgjørende for å forhindre nye terroraksjoner. Profesjonelle etterforskere skal derfor få gjøre sin jobb, - inklusive avhør av terroristen, - i nykter og troverdig tilstand. Dette er viktig for det siviliserte rettsamfunn.

'Tvilen skal komme tiltalte til gode' er et fundamentalt rettsprinsipp i Norge. Rettspsykiatrisk praksis har tatt hevd på at 'Tvilen skal komme rettspsykiatrien til gode'. Det finnes ingen lovmessig hold i denne hevd. I denne sak har rettspsykiatrien selv skapt åpenbar tvil med sine 2 motstridende rapporter. Det vil være en falitterklæring for domstolen hvis underkaster seg påstanden om rettspsykiatrisk tvangsmedisinering. I så fall legitimeres at Rettspsykiatrien kan alltid annullere en sivil dom ved å spre tvil om sine egne diagnoser. Dermed blir resten av dette tema, frem til den endelige dom, preget av psyko-sosiale analyser av saken.

Imperiet var en svensk rockgruppe på 80 tallet. Jeg så dem faktisk fremføre dette nummeret i et post-industrielt Aker Brygge, før det ble shopping senter. Godt spørsmål – på så mange måter. Videoen gir også inntrykk av at ikke alle er alltid hva de fremstår som. Thåstrøm er neppe i Frelsesarmeen.

Ukens Utvalgte:

En avsluttende oppsummering av den politiske del av dette tema: Attentatet og massakeren var politisk motivert. ABB kan ikke ha vært helt alene om det hele. Han fikk fri bane og fritt handlingrom til bombeattentatet og masakeren. Det krever store ressurser og mange involverte, - eller pr. definisjon – en konspirasjon. Statsmaktene var handlinglammet og forsvarsløs, - som i 1940. Så er det være derfra 'den røde tråd' er trukket.

Under Statskuppet i 1940, var Hitler og Stalin i en rød-brun allianse. Deres 'Molotov–Ribbentrop Pact (1939-1941) kalles riktignok en 'ikke-angreps avtale', men det var noe langt mere. Tyske stalinister stemte for Hitlers nasjonalsosialistiske parti og sørget for deres valgseier. Til gjengjeld ga Hitler til Stalin; et krigsskip, 30 jager og bombefly, lokomotiver, tanks, eksplosiver og kjemiske våpen, samt adgang til baser. Det er ukjent hvordan disse tyske krigsmaskiner ble brukt av Sovjet. Denne rød-brune allianse i Norge kunne ses på 'Festung Furulund', en SS-base med samarbeide mellom tyske nasjonalsosialister og russiske og ukrainske nasjonalkommunister. Sovjets nedtoning av kritikken mot nasjonalsosialister og fascister var begrunnet i at vestlige kapitalisters skjebne var å angripe og ødelegge hverandre. Kamerat Hitler bare kick-startet prosessen. En etterfølgende Sovjetisk invasjon av Europa ble ansett som relativt enkelt.

RAF (Rote Arme Faction) sin eksistens og virke er vel dokumentert, tross deres 'hemlige tjenester' og tilsløring. RAF er avslørt i land som Tyskland, Italia, Spania, samt 'Blekingegadebanden', som opererte i Danmark, Sverige og Norge. Brødrene Weimann var konsulenter for det danske politi. De installerte datasystemet hos politiet og i Utenriksdepartementet. De fikk fortrolig adgang og hadde ansvaret for vedlikeholdet, som i praksis betyr muligheter til lese, kopiere og manipulere data. Samtidig lavet yngstemann det såkalte 'jødekartotek'. Dog konverterte den danske ideologiske fører Gotfred Appel fra Marxisme til Maoisme og har følgelig dreiet danske RAF i den retning. Besynderlig er det å se at den danske Regjering nå har hisset på seg EU angående innvandringspolitikk, - rett før Kinas statsoverhode kommer til Danmark med løfte om 16 milliarder kroner. Hva er forresten solgt til maositene?

Den danske PET (Politiets Efterretnings Tjeneste) hadde mengder av informasjon om den danske RAF celle som de ikke reagerte på. Selvom tilsvarende avsløringer ikke er publisert i Norge, er det god grunn til å anta at PST (Politiets Sikkerhets Tjeneste) har tilsvarende infiltrasjon av RAF. Videre synes den såkalte BAF (Braune Arme Faction) å ha så mange likhetstrekk med RAF at de bør ses i sammenheng, - og ikke som motsetninger. BRAF (Braune-Rote Arme Faction) bør etterforskes på internasjonalt nivå.

Det er ingen grunn til å tro at BRAF infiltrasjon i Skandinavia kun er i danske PET og norske PST. Den tilslørte likvidering av den svenske statsminister Olof Palme (og senere utenriksminister Anna Lindh) indikerer at svenske SÄPO kan være vel så infiltrert. Regjerings Kriseråds ansvarsliste gir hint om plassering av tilsvarende antikrefter i; Regjeringen, Forsvaret, Politiet, Rettapparatet, Utenriksdepartementet, Helsesektoren, Mediene osv. Etter den tyske øst-vest gjenforening ble det avdekket at STASI støttet RAF, - selvom det ikke var offisiell politikk. Organisasjonen hadde omkring 85.500 ansatte og 174.200 angivere i verden. Følgelig kan hvert av de skandinaviske land ha 1000 STASI agenter hver, - kvinner og menn. De behøver ikke engang å være klar over det selv.

Sangen 'First we take Manhattan' av Leonard Cohen ble lavet som en kritikk av RAF. United Nations sitt hovedkvarter ligger på Manhattan og Berlin var den felles øst-vest europeiske hovedstad. STASI og RAF stammer fra Øst-Berlin. Således er det ingen tvil om at denne populære sang er et manifest av en av de største konspirasjonsteorier. Sangen ble brukt i UU for 2 år siden og for første gang har en gjentakelse skjedd, riktignok i en annen versjon. Men den er så treffende at det får gå.

The Police - Every Breath You Take

08.Juni.2012

Ukens Utvalgte:

Politiet's og militæret's håndtering den 22/7 kan sammenlignes historisk. Det var et virkelig Coup d'état i Norge i 1940. Kongen's og Regjeringen's flukt for å bevare nasjonens selvstendighet er spennende lesning. Man skal bare kikke dypere enn de allmenne info-kilder for å finne det. Det er oppsiktsvekkende å sammenligne Statsmaktenes reaksjoner i de 2 Coup d'état anno 1940 og 2011.

En omfattende beskrivelse av krisehåndteringen i 1940 gis av faghistoriker Roy Vega. Kort oppsummert: Arbeiderpartiet (AP) insisterte på å kapitulere Statsmakten til den NasjonalSosialistiske okkupasjonsmakt. Kongen og Høyre nektet. De valgte heller eksil. Det manglet åpenbart grunnleggende planer for håndtering av militær og sivil beredskap. Likeledes var håndteringen av nasjonens gullbeholdning. Hærens overkommando feiltolket situasjonen og beskyttet seg selv. (Politiet hadde allerede overgitt makten til det nasjonalSosialistiske hemlige politi, som ble nabo med LO på Youngstorget.) På grunn av naivitet og forvirring ble unge menn utkalt til mobilisering feilaktig og for sent. De var for dårlig utrustet og forberedt. Sivilbefolkningen fikk alt for mange lidelser i bomberegner, fordi Kongehuset, Regjeringen og Stortinget ble sendt på en høyst improvisert flukt gjennom byer og tettsteder.

Det er bekymrende å lese dette i forhold til dagens håndtering. Etter bombeattentatet i 2011 var Regjeringens Kriseråd det viktigste organ. Kriserådet skal gi Regjeringen overordnet informasjon, tilrettelegge saker, koordinere forsvar, politi, helse osv, samt informere befolkningen. Men Kriserådet hadde faktisk sitt første møte 3 timer etter bombeattentatet og følgelig midt under masakeren. Politiet og militæret skulle ha avverget eller stoppet aksjonene, men som i 1940 var militæret fraværende. Politiet fikk en verdensberømt fremfærd i uprofesjonell opptreden. Det var indirekte årsaken til at masakren ble så omfattende.

På den annen siden, Politidirektoratet har i 7 år anbefalt å sperre Grubbegata for å forhindre eventuelle bilbomber i Regjeringskvartalet. Årsakene til politiets problemer synes å være på politisk nivå langt over deres hoder. Noen har tatt gale valg og det skal de ta ansvar for. '22. juli-kommisjonen' skal til bunn i alt dette, men det synes at kommisjonen blir stadig mere opptatt av å beskytte beslutningstagerne, enn å gi de virkelige svarene. Det er da også symptomatisk at de borgere som faktisk reddet ofrene fra masakeren måtte vente nesten et år på å bli offisielt hedret som takk for hjelpen. Det ble så gjort fra Kongehuset, ikke fra den ansvarlige Statenmakten.

"Every Breath You Take" er den mest kjente hit av bandet The Police. Selvom den var ment som en kjærlighetssang, sier Sting at den er mere skummel enn opprinnelig tenkt. Den kan gi assosiasjoner til Big Brother, overvåkning og manisk kontroll. I denne sammenheng, en ironisk antydning om at all den overvåkning i 22/7 synes forgyves. Her fremføres originalen, samt en Police 'unplugged' versjon.

Manic Street Preachers - If You Tolerate This

01.Juni.2012

Ukens Utvalgte:

Det var et Coup d'état, - selvom det mislykkedes. Likefullt, Regjeringskvarteret og tilhørende departementer ble sprengt i fillebiter. Sivilisasjonen ble lammet og nasjonen ble tvunget inn i en

krigstilstand. Denslags beskrives i 'Straffeloven 8de Kapitel: Forbrydelser mod Statens Selvstændighed og Sikkerhed'. Det handler om aktiviteter 'i krigstid eller med krigstid for øye'. Det er høyst suspekt at politiet og militæret ikke reagerte som påkrevd.

De politiske sjokkbølger i statsbyråkratiet vil få tilbakevendende efterdønninger ut dette årtiet. Allerede er embetsmenn og ministre skiftet ut, departementer flyttet rundt og politiske agendaer endevendt. Siden byråkratiet er fundert på Informasjons Teknologi, skal datasikkerheten i offentlig sektor være upåklagelig. Men det er ingen grunn til å tro at den er bedre enn sikkerheten rundt attentatet og massakeren. Det er heller ingen antydning om forbedring på området.

Bombeattentatet er en global kriminalsak og en krigserklæring mot såvel FN, NATO og EFTA/EU. Saken skal selvfølgelig behandles tilsvarende. Angrepet på den norske Regjering er en trussel mot alle deres Regjeringer. De er kollektivt forpliktet til å reagere. Det er det demokratiske valgte Parlamentets Regjering som er angrepet og skal re-etableres. Utilbørlig innblanding av interesseorganisasjoner er særdeles suspekt.

Ingen involverte skal ha imunitet. Det er derfor nødvendig med inngående efterforskning, - også av 'treenigheten' AP, AUF og LO. Vi vet at AP og AUF ble rammet ekstremt hardt, men vi vet også at LO er nærmest beskånet. Erfaringsvis er det stor forskjell på LO, LO og LO, og de har et betydelige edderkoppnett i Statsforvaltningen med posisjoner på alle sider av forhandlingsbord. Derfor er det nødvendig i efterforskningen å finne eventuelle motiv, midler og alibi i alle LO sine organisasjoner og nettverk. Ønsker LO maktendring? Har de ressursene? Hvem var de i seng med på gjerningstidspunktet? Har de voldlige tendenser? Hva er holdningen til kriminalitet og rettssamfunnet?

I denne uke gikk rettsprosessen i en ny fase. Ofrene er avhørt og nå pågår avhør om anholdelsen, kommunikasjonen og efterforskningen. LO har for anledningen tatt politiet, departementer og fengselsbetjenter ut i streik. Staten er allerede tvunget til å slippe fanger fri og politiet er handlingslammet. Dette trusselbildet påvirker selvfølgelig rettsprosessen.

"If You Tolerate This Your Children Will Be Next" er en særdeles sterkt sang fra Manic Street Preachers. Tittelen er hentet fra en anti-fachistisk plakat fra den spanske borgerkrigen, hvor fascister og sosialister slo ihjel hverandre og sivile. Sitatet "If I can shoot rabbits / then I can shoot fascists" illustrerer at begge sider er like vanvittige i sin selvjustis. Sangens tittel passer således alle typer politikk, religion og folkeslag.

Talking Heads - Cross-eyed and Painless

25.Mai.2012

Ukens Utvalgte:

De var 3, - ikke bare i JFK, men sannsynligvis i Norge også. Det er usannsynlig at ABB var helt alene om planlegning, finansiering, koordinering og utførelse av aksjonene. Men som antydning, man kan se seg blind på de presenterte fakta. Alternativt kan man resonere. I filmen JFK nevnes 5 konspirative makter: Sovjet/Cuba, USA/militæret, eksil-kubanere, mafiaen og en potensiell presidentkandidat. Basert på en analogi mellom JFK og 22/7, er tilsvarende:

1. BRAF er ikke et offisielt navn enda. I mediene nevnes at ABB kontaktet personer tilknyttet det såkalte Braune Arme Faction (BAF). Betegnelsen stammer fra den kalde krigs Rote Arme Faction (RAF), som var Sovjets urban-gerilja i Vest-Europa. RAF likviderte samfunnsstopper, mens BAF likviderer innvandrere. RAF og BAF har mange fellestrekk, - ett er at de oftest unslipper politiet. Et skandinavisk eksempel på en RAF celle er den såkalte Blekingegadebanden. De var indirekte anti-israelsk og utførte ekstremt voldelig bankran, samt kidnappingsforsøk.

2. Norge er en viktig alliert i NATO. Det skyldes hovedsaklig at norskekysten er Nord-europas atlantiske kystlinje. Avdekning av Cuba missilene er som en detalj å regne, i forhold til utplasseringer og avsprenget i nordområdene, - tett ved Norges grenser. Norske myndigheter har vært i konstant terrorbalanse mellom SU og US. Det vites naturligvis ikke hva som er ofret for Rikets sikkerhet. Treenigheten LO/AP/AUF er dog grunnlagt på sovjets politikk og er den sterkeste maktfaktor.

3. Begrepet 'eksil' erstattes for anledningen med 'subkulturer'. Her fokuseres det på grupper som Norge for nylig har vært i konflikt med. I hovedsak er det: Albania vs Serbia, Palestina vs Israel og al-Qaeda vs NATO. Disse var sterkt involverte: Statsministerens far, Thorvald, var fredsmekler da Albania invaderte Kosovo og NATO's følgelige bombet Serbia. AUF og Utenriksministeren støtter indirekte 'Palestinske' terroraksjoner mot Israel. ABB var aktivt involvert i den Pakistansk/muslimske A-gjengens rivaliseringer med B-gjengen. Gjengene organiserer kriminalitet som narkotikahandel, utpresning, tortur og likvidering. Lederen er fengslet for lang tid.

4. Mafiabegrepet er opprinnelig Italiensk, men kan anvendes på uberørlige kriminelle organisasjoner. Dette får bli en jokerkategori, da den type lyssky organisasjoner mestrer å forbli skjulte. Inntil videre får man bare konstantere at ABB har relatert seg til politiske og religiøse miljøer, som FrP Ungdom og Frimurerlosjen.

5. Hvem ville blitt Statsminister, hvis Stoltenberg mistet livet i bombeattentatet? Nevnte Statsministerkandidater, i den rød-grønne regjeringen, er Næringsministeren (AP) og Utenriksministeren (AP). De to andre regjeringspartier SV og SP har betydelige hverv, men ville neppe ha overtatt som Statsminister. Generelt kan man si at hele AUF er AP/LO sitt klekkeri for kommende ministre. Følgelig var 22/7 angrep på nåværende og fremtidige ministre.

Alt dette, og langt mere til, synes å ha passert den andre og tredje statsmakt, - politiet og rettsapparatet. Dermed passer sangen 'Cross-eyed and Painless' fra Talking Heads konserten 'Stop Making Sense' - godt. Gruppen var 'husorkesteret' under temaet 'Det er noe galt i Norge også', rundt 22/7. Det temaets innhold ble forståelig nok endret betraktelig dengang. Gruppen binder disse to tema sammen.

Thomas Dolby - Dissidents

18.mai.2012

Ukens Utvalgte:

Denne sesong sitt tema starter med Grunnlovsdagen. Fokus fremover blir den aktuelle rettsprosess. Det vil bli analyser av Statsmaktenes tilstand i forhold til terrorangrepene i Norge den 22 Juli 2011. Kvaliteten av Statsmaktene er avgjørende for nasjonens eksistens. Dette er ment som en test av dem. Her blir det dog ikke særlig fokus på den tiltalte eller ofrene, men de 3 Statsmakters innvolvering i saken. Et sentralt spørsmål vil dermed være: Var terroristen helt alene om det hele, - eller var det følgelig konspirasjoner? Ergo kommer man ikke utenom konspirasjonsteorier selvom bevismaterieell neppe blir offentlig tilgjengelig i vår levetid.

Modeller for konspirasjonsterorier kan laves ved å trekke paralleller til filmen 'JFK'. Filmen varer i tre timer og er vel verdt å se. (Den finnes fritt på Internettet.) Den handler om en statsadvokat som forsøker å finne ut hva som virkelig skjedde under attentatet på USA's presiden John F. Kennedy. Advokatens ambisjon var som den Dømmende Makt skulle ha praktisert, - å fremme 'The Truth, The Whole Truth, and Nothing But The Truth'. Statsadvokaten konkluderte at det, per definisjon, var en konspirasjon, fordi en enkelt person umulig kunne ha utført det attentatet helt alene. Efterforskningen sannsynliggjør at det var det 3 snikskyttere og en syndebruk. I hovedsak omtales 5 konspirative makter; Sovjet/Cuba, USA/militæret, eksil-kubanere, mafiaen og en potensiell presidentkandidat. Intet kan bevises fordi de avgjørende dokumentasjoner ble hemligstemplet for 75 år. Rettsaken kunne dermed kun rettes mot en eksil-kubaner, som var tilknyttet dobbeltagenten og syndebrucken, - Lee Harvey Oswald.

Det mengder av informasjon om attentatet og masakeren i Norge, - faktisk er det alt for meget. Den 3. og 4. statsmakt overeksponerer grusomme detaljer. Det virker avledende og distraherende fra de store og viktige spørsmål. Man orker snart ikke å høre mere om saken. Det er da også helt unødvendig - juridisk sett. Terroristen har erjent det hele fra første dag og han vil aldri få medhold i påstanden om selvforsvar. Derfor

er det meningsløst å følge rettsapparatets og pressens voldorgie. Her vil det heller bli holdt fast ved hovedpoenger.

Så vil det være ekstra spennende å vurdere konspirasjoner med sosial-psykologiske modeller. Erik Berne skrev på 60 tallet boken 'Games People Play'. Selv om disse teorier omtaler individers interaksjoner og spill, kan de brukes på organisasjoners nivå. I denne sammenheng ville tittelen være 'Games Conspirators Play'. Mere om det om noen uker. Alt om alt - sett fra konspirasjonsteoretiske syn, er ikke attentatet og massakren årsaker, men konsekvenser.

Thomas Dolby er omtalt flere ganger tidligere. Han nådde toppen av sin karriere på 80 tallet, men falt hurtigt ned igjen. I disse dager prøver han comeback med temlig alternative musikkstiler. Ukens Utvalgte er en av de mere direkte og kontroversielle låter. Han eksperimenterer med lydbilder, setter dem i fengende rytmer og skrev en tekst langt utenom det populære. Dette er et kunstverk som få får nyde. Videoen er selvsagt ikke lavet for denne anledning. Fantasifulle assosiasjoner er ikke tiltenkt. Valget ligger i teksten og det å våge å skrive utover det politisk korrekte og dikterte.

Røyksopp - Remind Me

11.mai.2012

Ukens Utvalgte:

Infrastruktur er riktig interessant. Det er tydelig at disse to nordnorske synthere blir fasinert av systemer som fungerer. Det var dog neppe hva Røyksopp tenkte da de skrev teksten til denne sang. Den handler jo heller om noe personlig, samt om noen minner fra England. Røyksopp er blitt verdensberømt for denne myke og melodiske synth genre.

Snakk om infrastruktur, - det er ikke nødvendig med bomringer rundt byer for å regulere trafikken. Bomringer synes å være påskudd for at bilister skal betale for kollektivbiletter også. Årsaken til rushtrafikken finnes ikke mer, da det er unødvendig at alle arbeidende skal inn til jobben samtidig. For et halvt århundre siden, måtte man det fordi fabrikker og butikker hadde åpningstider fra primærnæringsens døgnrytme. Det var dengang de fleste måtte dyrke jorden mens solen var oppe, og alle hadde fri på Søndag. Nå kan mange jobbe hjemmefra like så effektivt som på kontoret, - og det til andre tider. Det er ikke nødvendig at så mange skal arbeide utelukkende 8-16, mandag-fredag. Følgelig kan man godt jevne ut trafikken over tid, så de periodiske overbelastninger av infrastrukturen opphører.

Infrastrukturen til tog er sørgelig underprioritert i forhold til bil og fly. Motorveier er laget med dobbelt, og endog trippelspor, i begge retninger. Ergo kjører en jevn strøm av trailere på motorveiene. Ved siden kan det ligge et enkelt togspor i hver retning, hvor godstog er et sjeldent syn. Når man ser rekken av trailere,

kan man godt forestille seg at disse containere kunne vært fraktet på togsporene istedet. Men trailere er politisk prioritert fremfor godstog. Følgelig er de politiske argumenter om satsning på kollektivtrafikk uten sannhet. Pengene til infrastrukturen er innkrevd mangfoldige ganger, - men statens investeringer er ikke tilsvarende.

Kort sagt, - det er særdeles ufornuftig å overinvestere for toppene i trafikken. Det er langt mere fornuftig å skape mere fleksibel anvendelse av den infrastruktur man allerede har. Så slipper man forhåpentligvis at vedlikeholdsutgiftene ikke spiser av andre budsjett heller.

Frutie Loops

04.Mai.2012

Ukens Utvalgte:

Fruity Loop er, tross det komiske navn, et fantastisk musikk program, - og det er gratis. Hvemsomhelst kan nårsomhelst download'e programmet til sin PC og starte en uendelig opplæring av verdens mest avanserte musikkinstrumenter. Det hele er satt sammen i studioet 'FL'. Tenk, - det ville være så meget bedre om flere ungdom, og voksne, la alle disse krigspill til side og tok i bruk FL10.

Denne gratis demo-versjon har naturlignok begrensninger. Men tross alt, man får et studio bestående av mengder av instrumenter til fri anvendelse. Det hele kan virke overveldende i starten, - men når teenagere er istand til profesjonell produksjon, bør enhver musikkinteressert kunne få glede av det. Man skal bare tak i de tilgjengelige demo'er og lære seg tingene en for en.

Efter en tid ønsker man kanskje å avansere. Fra et par hundre kroner, til et par tusen, kan man utvide studioet til det mest profesjonelle verktøy. Prisen tilsvarer kun 1 - 3 PC spill. Uansett ambisjonen, - man starter simpelthen med laste ned gratisversjonen og prøver seg frem.

Supertramp - School

27.April.2012

Ukens Utvalgte:

Det er nå ti års erfaring med den danske folkeskole. Det har selvfølgelig vært mange gode opplevelser, men desværre også et par forhold så opprørende at de ikke kan forties. Overfølsomme pedagoger frarådes videre lesning.

Efter 9. klasse har alle elever rett til å søke plass på gymnasiet. Det er en menneskerett. Men der er unntak og de kan misbrukes. I praksis kan vejlederen og lærere gi en elev veto ved å erklære eleven for 'ikke uddannelsesparat', argumentert i faglig og personlighets kriterier. I praksis har de bestemt seg ved siste årets skolestart. Forbedringer i 9. klasse synes irrelevant. Denne veto kan dog overprøves ved tester på et gymnasie. Men i praksis viste denne testen seg å være utelukkende faglig. Med andre ord, eleven blir testet faglig flere måneder før eksamen og får følgelig de virkelige eksamensresultatene ugyldiggjort. Folkeskolen

synes dermed vel så korrupt som deler av det danske arbeidsmarkedet. Sådanne diskriminering av mindreårige i deres livsvalg er skammelig og hører ikke hjemme i siviliserte nasjoner.

Erfaringene startet naturlignok for 9 år siden. Det var riktignok uro i klassen, men det var uheldig at en spesiell spesialpedagog overtok som lærer. Tross sjarmerende og livlig oppførsel, viste skyggesider seg over tid. Denne dominerende matriark sitt forhold til menn og gutter var særdeles anstrengt. Det er et faktum at hvert år måtte en utenlandsk dreng forlate klassen begrunnet hans oppførsel. Det var Nasjonal Sosialisme i praksis. I ettertid er det ufattelig at en lærerinne kan diktere skoleleder, psykolog, foreldregruppe og fortsette sin fobiske utrensning. Klassens dukkehjem var urørelig for andre. Den systematiske psykiske vold mot mindreårige har antagelig satt livsvarige trauma og endret barnas livsbaner. Familiene er selvfølgelig også sterkt berørt av kjedereaksjonene. Det hadde vært så meget bedre for så mange om hun selv ble sendt til skolepsykologen på et tidlig tidspunkt. Men det er jo vanskelig å reagere konsekvent når det hele står på. Denne idiotiske ondskap førte til at klassen ble for liten og måtte slås sammen med parallellklassen. Selv ble hun overflødiggjort etter frafall av 6 mindreårige gutter.

Det danske pedokratiet er blitt for sterkt og setter samfunnet i ubalanse. Alikevel fortsetter spesialpedagoger å filosofere på hvorfor det går så galt med så mange barn i folkeskolen, - hvordan folkeskolen masseproduserer sosialklienter. Faktum er at pedagogi er et fag med årtusener av kunnskap til grunn. Bruk det, i stedet for å finne opp 'sjove' og freaky teorier. Dominerende matriarker ønsker ikke selvstendige gutter. Konsekvensen er velkjent i psykologien, - om mannen som aldri slapp fra mor.

Denne ukens utvalgte er i flertall. Gjenhør med Supertramp's 'School' er en riktig god start på denne spilleliste. Babou var 3. finalist i den danske X-faktor. Han innså at spillet var forhåndsbestemt og valgte å avslutningsnummeret 'All the right moves' med OneRepublic. Pink Floyd har dedikert et dobbeltalbum (og film) til problemstillinger med matriarker, skoler og mindreårige's lidelser. Til sist hylles skrekkeksempelet 'Alice' av mengder av talentfulle ungdom. Det er en sammenheng.

Walk off the Earth - Somebody That I Used to Know

20.April.2012

Ukens Utvalgte:

«Dengang trubadurer fikk elektrisitet» er et ad-hoc tema. Det var ment til å påpeke de store sosiale endringer menneskeheten opplevet i etterkrigstiden, simpelthen ved at poesi og musikk ble forsterket og allment tilgjengelig. Det er så overveldende at man rent glemmer at musikk antagelig har vært avgjørende

viktig for menneskeheten under hele dets eksisten. Dermed er det åpnet for et beslektet tema - «Stoneage Orchestra». Temaet er påtenkt lenge, men denne UU ga sterk inspirasjon.

Stenaldermennesket er uforkammet undervurdert. Det er ingen grunn til å tro at stenaldermennesket var mindre kulturelt avansert. Stenalderen sluttet for 4000-6000 år siden og det moderne mennesket har eksistert i over 50000 år. Kulturer som den egyptiske og andre samtidskulturer var meget avanserte, - selvom de kan betegnes som stenaldersk. De hadde filosofi, kunst, musikk, skrift, malerier, poesi, arkitektur, religion, politikk, lov, bygninger, produksjon, energi, transport, båter osv. Holdningene er så symptomantiske som de var for neandertaleren, - de avanseres i takt med ny viten og tapte fordommer. I dag anses neandertaleren og mennesket som tilnærmet like avanserte.

Gruppen 'Walk off the Earth' er et kanadisk lavbudget coverband. Selv hørte jeg ikke om dem før jeg så denne UU på Tub'a. Originalen til "Somebody That I Used to Know" er lavet av den belgiask-australske Gotye. Denne fremførelse er simpelthen genial, - bokstavlig talt. Deres bruk av enkle og uvanlige instrumenter har vel her nådd sitt høydepunkt, hvor de alle spiller på en og samme gitar. Den ga meg assisoisjoner til gamle tanker om avanserte stenalder-samfunn. Teksten og musikken kunne like godt ha stammet fra den tid med deres midler. Originale av Gotye er ikke mindre genial i sin like stenalderske video.

Peter Murphy - Dragnet Drag

13.April.2012

Ukens Utvalgte:

Så er påsken, med dens hyllest til nytt liv, ferdig. Der er dog fremdeles litt tid til eftertanker. Det handler jo om tro, - og tro bør som nevnt revurderes med ny viten. På den måte kan religionsfilosofien få utvikle seg og ta enda et skritt nærmere sannheter, - noe som er religionenes virkelige mål.

Livsformer er langt mere variert og avansert enn vi kan forestille oss. Det er bare å ta en kikk på naturen for å erkjenne det. Vi har en meget begrenset erfaring med annet intelligent liv. Vi ser kun oss selv, fordi vi ikke kan se noen utenfor vår egen lille planet. Det er helt usannsynlig at det ikke finnes flere intelligente eller åndelige livsformer på de milliarder av bebolige planeter i vår egen galakse. Dermed har jeg vel plassert ateismen som den mest ignorante, arrogante og selvforherligende tro av dem alle.

Jesu påske fikk et særdeles grotesk efterspill, skal man tro noen skriftlærde. Fariseeren Paulus ledet forfølgelser og massehenrettelser av de nykristne jøder. Det var 12 disipler, som det er 12 jødiske stammer. Paulus tilhørte den fariseiske stamme og fikk romersk statsborgerskap. Med imperiets forsterkninger startet han en systematiske forfølgelsesle og massakre på de andre stammene. Men på et tidspunkt ble Paulus angivelig blendet av en lysende skikkelse som han trodde var Jesus. Men igjen, den fremtreden er karakteristisk for en Jinn. Med Paulus innenfor kultene ble romersk republikanske henrettelser av jøder intensifisert. Selvom Paulus omtales som en disippel, var han det aldri. Ei heller ble han utnevnt til Nasi, - en jødisk prins.

Når det er sagt, kan man velge å tro på profeters beretninger eller ikke. En ting er sikkert, hverken Gud, Jesus eller noen erkeengel har skrevet et eneste ord i Gamle Testamentet, Nye Testamentet, Koranen eller andre tilhørende skrifter. Her bør man bruke hodet og tenke litt selv også. For eksempel, mennesket har eksistert i over 50.000 år, - det er fakta. Moses skriver at hans forfar Adam ble skapt for ca. 6000 år siden. I rask rekkefølge ble Adam manipulert av Satan i Edens have, var hovedårsaken til revolusjonen i Himmelen hvor 1/3 av englene ble kastet ut, og til sist ble Adam selv kastet ut fra Edens have av selveste Gud. Hvem i all verden kan skrive sådan om sine forfedre og ikke forstå at det er av groveste selvkritikk? Denne forfaren er da intet forbilde?

Endvidere, når en eneste person kunne forårsake så store sosiologiske traumer i Himmelen, - hvordan vil de gjenværende engler forholde seg til en invasjon av milliarder av slektninger med evig liv? Antall mennesker må forlengst ha overgått antall engler. Presters masseutstedelse av Greencards er ikke ensbetydende med aksept i andre enden. Det ser man da på våres jordiske utlendingspolitikk. Der er grenser, kontroll og bortvisning. Man kan jo like godt filosofere seg bort som i filmen 'God's Army – The Prophecy'.

Peter Murphy var en kultfigur fra gruppen Bauhaus. I sin solokarriere markerte han seg med stykker fra lettere pop til tunge balader med kompleks vokal og lyrikk av metaforisk og religiøs karakter. Albumet 'Love Hysteria' ble toppen av karrieren. Det er et sterkt album fra hans mest kreative periode. På et tidspunkt ble denne katolikken mistenkt for å ha konvertert til Islam. Han avviste påstandene med at det kun var en anerkjennelse av Sufisme. Denne ukens utvalgte kan godt være et uttrykk for nettopp dette.

Jesus Christ Superstar 2000 (Gethsemane / I Only Want to Say)

05.April.2012

Ukens Utvalgte:

Skjærtorsdag og Langfredag er det absolutte antiklimaks i Kristendommen. Begivenheten må da også være tidenes kriminalgåte, som overgår all annen påskekrim. Men mere enn det, det er angivelig en historisk hendelse om en metamorforisk transformasjon fra fysiske livsform til en kroppsløs, som transsporteres til et ukjent sted i universet, kalt Himmelen. Dette er religionsfilosofi av ypperste nivå.

Det politiske saksgrunnlaget var at Stat, Trone og Tempel ville av med Jesus, selvom han ikke gjorde noe ulovlig. Dette tidenes justismord endte med at et jødisk demokrati angivelig avsa dommen og at romerne ble bøddler. Her er mange uklarheter og intriger på spill samtidig. Jerusalem lå i skjæringspunktet mellom imperiene Persia, Egypt og Roma. Regionen var deres evige slagmark. Egypten var vekselvis okkupert av Persia, Hellas og Roma. I 30 f.kr ble republikken av med de gudeærklærte Julius Cesar, Cleopatra og deres førstefødte sønn Cesarion. Følelige ble Julius' adoptivsønn Augustus kalt 'sønn av gud' og ble enherker av Roma/Egypt imperiet. Cesarion flyktet etter foreldrenes død, men ble sannsynligvis tatt og henrettet, antagelig på romersk vis, - ved korsfestelse.

Det kan selvfølgelig betviles at Jesus i påskebretningen er den sammen som Jesus i Juleevangeliet, eller at noen av dem var Kristus. Men sett at Jesus ble kronet av tre persiske konger, samt noen himmelske engler, - så ville tilbakekomsten fra Egypt 30 år senere vekke stor hengivenhet og skepsis. Kong Herodes ønsket ikke noen rivaliserende konge, rabbinerne ønsket ingen rabbiat skriftlærd og romerne ønsket ikke flere ærklærte gudesønner. Alle tre ville dømme ham, men ingen fant noen lovlig grunn. Det er i det hele tatt uklart hva planene var og om noen simpelthen gikk galt. Men en ting er rimelig sikkert, Jesus ville fullføre sin mester Johannes sine bragder, men Kong Herodes ønsket ikke å henrette flere rivaler.

Det gikk helt etter oppskriften, hvis man tror evangelistene. De to andre monoteismer, samt disiplene Thomas og Judas, er dog uenige. Der var en rekke profetier i gamle testamentet som ble oppfylt. Til sist var

det bare en ting tilbake for å få sin plass i Himmelen. Dit kommer man ikke uten å dø. Selvmord er diskvalifiserende, men romersk henrettelse var nok den sist ønskelige metode. Gift i Gethsemane, halshugging av Herodes, selv steining av fariseere ville være bedre enn romersk tortur og korsfestelse.

Sett at troen er sann, at Jesus var sønn av Gud. Vel, - Gud setter ikke barn på ungpiker selv. Det har derimot engler gjort ifølge GT. Disse barn av mennesker og engler kalles nephelims. Behandlingen og utstøtelsen fra både engler og mennesker ga dem en ublid skjebne. Det kan man da også si om Jesus. En annen forunderlig detalj er selve forederiet – Judas' symbolske kyss. I de mere okkulte grener av Islam og Jødedommen, kan kyss på munnen symbolisere transmisjon av ånd/djinn fra menneske til menneske. Madonna har demonstrert dette Kabbalah ritualet for all verden.

Jesus Christ SuperStar er den aller første album jeg hadde. Den må jeg ha hørt den 100 ganger – minst. Tekstene er skrevet av Tim Rice, han som skrev tekstene til ex ABBA's musikal Chess. I JCS har Judas første og siste sang. Dermed synes operetten å være mere preget av Judas evangeliet enn noen annen. Av alle sangene er 'Gethsemane' en favoritt. Her vises Jesus' siste refleksjoner i tvil før den endelige overgivelse. Opprinnelig ble den sunget av Deep Purple's Ian Gillan med sin eksepsjonelle stemme. Spesielt ordet 'why' setter seg. Performance er dog bedre i denne reproduksjonen av år 2000.

Ukens Utvalgte:

Definisjoner av religion og science fiction er overlappende. Der er dog unyanser. De er sannhetssøkende, men erkjenner en viss usikkerhet om sin filosofi. Religiøse bruker ordet 'tro' og det står dyp respekt av den ærlighet. Men følgelig bør det også innses at ortodoks tro skal utvikles i samsvar med ny viten. Det vil styrke troens troverdighet.

Det finnes tre anerkjente versjoner av den monoteistisk tro; jødisk, kristen og muslimsk. Skriftene, som i hovedsak er gjensidig inkluderende, beretter om tre typer skapninger; engler, ånder og mennesker. Ingen av dem er Gud, selvom de alle kan hevde å representere Gud. Strengt talt kan ingen oppnå noe i nærheten av Guds allvitenskap og kan følgelig ikke fullt ut forstå hva som er godt & ondt eller rett & galt. Ingen av de tre skapninger er utelukkende gode eller onde.

Over 50% av verdenbefolkningen tilkjenner seg disse monoteistiske religioner hvor tro på engler og ånder er en forutsetning. Dette er vitenskaplig fakta. Det er tankevekkende at flertallet av menneskeheten alltid har trodd på 'space aliens' og tror vi omgås to andre livsformer som er eldre og antagelig mere avanserte enn oss selv. Så bør man da søke noe mere viten hva denne menneskeheten fundamentale tro virkelig er.

Ordet 'Engel' betyr Guds budbringer. Der er uvisshet om et menneske (eller andre) kan omtales som en sådan. Selvom engler ofte fremstilles med vinger på malerier, står det ikke noe sted i Bibelen at de har det. Antagelig er erkeengler som Gabriel, Michael og Raphael likeså vingeløse. Men de overordnede Cherub og Seraph beskrives som rikelig bevinget. Videre er det to distinktive kategorier, - himmelens engler og de falne engler. Hendelsesforløpet til denne revolusjon i Himmelen er noe uklart, men det oppsto uenigheter om hvordan engler skulle forholde seg til det nyskapte mennesket Adam. 1/3 av englene nektet og bøye seg for ham og ble følgelig kastet ut, - fra Himmelen til Jorden.

Kroppsløse, usynlige og udødelige Ånder er vanskeligere å finne ut av. Den Hellige Ånd er naturlig nok dominerende i den kristne verden. Dessuten er ånder som oftest betegnet negativt, som demoner, i

Bibelen. Disse ånder kan besette mennesker. På den annen side kan katolske prester utdrive dem igjen. Erkeengelen Gabriel's Koranen har et langt mere nyansert forhold til ånder og betegner dem Djinn. Muslimer tror fullt ut på Djinn og betegner dem som skapninger av røykfri ild og med fri vilje. Så kan man sagtens undres om ikke den Herren, som ledet Moses i ørkenen, med sin ild og ustyrlig temperament, egentlig var en pre-islamisk Djinn.

Mennesker er mere faste i formen da de angivelig er skapt av jord. Selvom vi betegner oss 'av kjøtt og blod' har man nok filosofert over at kremering gir akse til jorden og at røyken går til himmels. Så har vi visst en sjel, som i sin natur ligner på ånd, djin eller endog spøkelse. Videre har angivelig 200 engler reist til jorden og satt barn på kvinnemennesker. Deres barn, nephelims, fikk overlegne egenskaper og ble tilsvarende uglesett av alt deres opphav. Deres skjebne er usikker, men var angivelig sjebnesvanger.

Gruppen Van der Graaf Generator har vært i UU tidligere. Det er fremdeles like vanskelig å beskrive dem. Navnet er tatt fra maskinen som beviste at den fundamentale greske vitenskap var basert på en misforstått tro, - at atomer er udelelige. Den 'vitenskap' har beviselig vært en gal tro i tusener av år. Etter forrige århundre med nye tvilsomme forklaringer på hvordan det hele henger sammen, er uvissheten nå uttrykt enda sterkere med strengteorier, big bang, og mangfoldige universer. Dermed er det viktig å huske at vitenskapen alltid har insistert på at sin tro er viten. Innrømmelser av feil er ytters sjeldne i samtiden. Det originale konseptet til VDGG var to orgler, saksofon og trommer. Peter Hammil sin sangstemmen svingte mellom det melodiose og tidvis bristende. Tekstene har særdeles avansert poesi. Denne tittelsangen 'Still Life' er en eftertenksom kritikk av streben etter evig liv. Hvis vi engang klarer å oppnå det, - er det da ikke en pris? (Teksten finnes til denne video i kommentarfeltet.)

Påsken og våren står for døren med alle dens gryende livsformer. Når det så kommer til religion, 'den første filosofi', er livsbegrepet mildt sagt eksotisk. Teorier om livsformer basert på ren energi, uten masse, ligger langt utover vår daglige omgang. Det er nesten synd å nevne at filosofier om den type utenomkroppslig eksisten synes forlatt i et par årtusen. Utenomkroppslig og utenomjordisk eksisten er dog livlig filosofert i science fiction litteratur.

Science Fiction har intet navn. Begrepet er som om et barn skulle kalles mor-far, - en betegnelse på sine opphav i stedet for sin egen identitet. Det handler om et udefinert grenseland som er fri og filosofisk. Det er dog noen fiktive 'what-if' betingelser, for det skal være noen urealiserte hypoteser som åpner for sannsynliggjøring av sci-fi scenariet. Oftest er disse forutsetninger teknologiske, men de kan også være livsbetinget, endog av religiøs filosofi.

Star Trek er antagelig den science fiction serie som har filosofert mest om tenkelige og utenkelig livsformer. Siden 1966, er det laget 6 tv serier med over 700 episoder, samt 11 filmer, hvor fremmede livsformer er vesentlig. Følgelig er denne science ficion serien antagelig det mest omfattende samlig filosofiske betraktninger om hva liv kan være, samt dere kulturer, sivilisasjoner og interaksjoner. Der er omfattende adferds- og samfunns-analyser til grunn. Av de 400 beskrevne arter finnes blant andre androiden Data, et doktor hologram, Q fra et paralelt univers, en symbiotisk livsform (Dax), det kybernetiske kollektiv Borg,

protoplasma Changelings, samt en udødelig enegi Douwd. Star Trek's forfattere ser ut til å ha gransket alt som kan tenkes om mulige livsformer, - men alltid med et ateistisk grunnsyn.

En annen betydelig science fiction serier er Babylon 5. Den har religiøse hentydninger. Rasen Vorlons viser seg å være noe englelingnende energi-vesen. I B5 filmen 'The River of souls' finnes en rase som forvandles metamorfoisk til åndelige vesner, som larver forvandles til sommerfugler. Serien Battlestar Galactica er enda mer direkte med å inkludere engler, en demonisk figur og 12 stammer. I gjenproduksjonen av serien kan kunstig intelligens leve evig ved å overføre sin bevissthet til nye kloner. I spinoff serien Caprica finnes et parallelt cyber-univers som mennesker kan leve et dobbeltliv fri for kroppslige hemninger. Det advares mot ekstremistisk cyber religion.

Ytterst sjeldent er science fiction historiene religiøst belærende, selvom enkelte fiktive raser prøver å få dominerende gudestatus, eller blir ufrivillig tilbedt. Viselig nok styres det unna fristelser til å forklare en eventuell allmektig og allvitene universell Gud, - eller benekte Guds eventuelle eksistensen. Det er for tåpelig, - selv for science fiction.

John Foxx er en av de talenter som på et tidspunkt faller fra sitt band og starter for seg selv. Han var frontfigur i gruppen Ultravox og la grunnlaget for gjennombruddet. Så måtte han bare gjøre det hele for seg selv. Han gjorde det med ekte synth-lyd, - ikke noen orkester på boks. Hans tekster stiller seg også et godt stykke på siden av populærmusikken. Åndelige steder, bygninger og mennesker er gjengangstema. Her er tre bidrag til Ukens Utvalgte innen temaet, samt et lille bidrag fra Data da han fikk en emo-chip installert.

Ukens Utvalgte:

Denne månedens tema var 100 dagers-testen av den danske regjering, - kalt en 'Trippel Glistrup'. Utgangspunktet for denne bolde test, er Glistrupsaken fra 70 tallet hvor denne politiske rival ble fengsling for angivelig skatteundragelse. Nå sitter dagens statsminister på en tilsvarende udetonert skattebombe, som kan føre til utpresning eller fengsling. Det er så tid for oppsummering og konklusjon. Men som UU antyder, bør et par andre forhold nevnes.

Dagens regjeringen har økt spindoktor-kvoten til 2 stk pr minister. Således kan en minister fremtre som trehodet. Man vet ikke helt hvilket hode som har tenkt hva og sagt hva til hvem. Spindoktorer er en trussel mot parlamentarismen og et demokratisk problem. De er overhodet ikke folkevalgte og de kan manipulasjon. Spindoktorer har kontrakter som er direkte bundet til mininsterens politiske liv. Som treller

fra middelalderen står og faller de med sin herre, og slåss følgelig for sin minister's og sitt eget yrkesliv. Enkelte journalister har klaget over at spindoktorer får kildebeskyttelse. Det betyr at politisk propaganda kan fremmes som nyhet uten at noen får vite hvor det kommer fra og uten at spindoktoren konfronteres med påstander. Den faglige betegnelse 'doktor' har da heller intet med virkeligheten å gjøre. 'Kvaksalver' eller 'heksedoktor' er nærmere sannheten.

Et vel så stort parlamentarisk problem er regjeringers avhengighet til ansvarsløse støttepartier. Enhetslisten (EL) er ikke det frøkenparti som de fremstår som. Fundamentet er hardcore mannsjåvenistisk nasjonalkommunisme fra Stalins DKP. Pengemotivet for politikken var dårlig tilslørt da EL straks krevde 5,4 milliarder kroner til uspesifisert 'velferd'. Dansk Folkeparti (DF) og EL er to sider av det samme problem for demokratiet. De er begge antipatiske og gis urimelig tyngde – uten å stå til ansvar. SF minner om sitt norske søsterparti SV, som i regjering har brukt statsbudsjettet som egen valgkampkasse. Den avgåtte minister Lysbakken's kammeratslige korrupsjon synes å være en forutsetning for å bli utnevnt til partiets nye formann. Han var eneste reelle kandidat. Han er spådd å bli SV's siste partileder, da partiet nå er på vei under sperregrensen til parlamentet. Dette kan godt bli søsterpartiet SF sin fremtid om 10 år.

De tre foregående UU har vært en kvalitetsvurdering av 3 SF ministre. Udenrigsministeren, Erhvervs- og vækstminister, samt Skatteministeren er alle potensielt juridiske sprengstoff. Kort oppsummert synes de å hverken evne eller ville være sitt ansvar bevisst. Det kan skyldes for sterke påvirkninger fra andre interesser. Straffelovens "Særlig del" kapitel 12-29 kan antagelig anvendes på flere forhold. Den dels tilslørte skattesaken mot statsministeren kan bli misbrukt. Tankene faller på den Ukrainske ex-statsminister Julia Timosjenko, som nå er fengslet. Denne gang vil Putins Gazprom ha gasrør via Dansk land til EU.

Hvis så SF trekkes ut av Regjeringen, må alternativer vurderes. En mindretallregjering bestående kun av S og RV, med både EL og SF som støtteparti, er ikke levedyktig. Det blir dolking. Dog finnes et alternativ, hvis man prioriterer seriøs stabilitet over tradisjonelle rivaliseringer. Sosialdemokratene (44) og Venstre (47) har faktisk flertallet av de 179 mandater. Med Radikale Venstre (17) ville flertallet bli meget solid. En sådan Rød-Blå regjering kunne gi den stabilitet Danmark behøver, - hvis de bare kunne bryte blokkpolitikens tvangstanker og fremme landets felles interesser, - hvis bare Parlamentet kunne se at de er 'splittet og hersket'.

Gruppen Propaganda slutter som de startet dette tema. Ukens Utvalgte "P Machinery" var en mindre hit. Kontroversielt ble det da 12 tommer versjonen hadde sitater fra en forfatter som hyllet den tyske terroristgruppen RAF (Red Army Faction). Den danske Blekingegadebanden var som nevnt kun en av alle nordens fraksjon.

Re-Flex - Politics of Dancing (HQ)

09.Mars.2012

Ukens Utvalgte:

Thor Möger Pedersen (SF) er spesielt utpekt av Villy Søvndal til å være regjeringens Skatteminister, selvom han ikke engang har fullført noen utdannelse etter gymnasen. Denne Villy's 'wonderboy' på 26 år er tidenes yngste og følgelig den minst erfarne minister. Det er simpelthen usannsynlig han er tilsatt på grunn av sin kompetanse. Bjarne Corydon (S) var andre-kandidat til posten som Finansminister, da PET (politiets etterretningstjeneste) nedla veto mot første-kandidaten. Dagens Finansminister var følgelig uforberedt til denne utfordrende oppgave. Resultatene til duoen er da også amatørmessig. Danmark har fått et sterkt behov for demokratisk kontroll og innsyn i skat- og finanspolitikken i denne regjeringsperiode.

Det kjempes hard og tidvis uredelig om samfunnets viktigste maktmiddel – penger. Disse pengene oppbevares ikke lenger i noe hvelv, bevoktet av vepnede vakter. Pengene er digitaliserte og oppbevares i sentrale dataanlegg. 'Datacentralen' hette det danske statlige selskap som opprinnelig betjente sentrale offentlige etater, som helse, politi, skat osv. Driften var under sterk kritikk, så staten valgte å selge selskapet til det amerikanske CSC. Interne statlige rivaliseringer om makt og penger er dermed løftet til internasjonalt nivå og tidvis ut i offentlig presse. Dette er nå Danmarks politisk digitale slagmark. Her settes alskens politiske løgner og bedrag ut i praksis, for å erverve en ufortjent stor del av statsbudsjettet.

Den hardeste og mest kyniske aktøren i CSC indre spill var fagorganisasjonen Prosa. De bruker hard 'politikk' for alternativ agenda med rekruttering av likesinnede i avgjørende posisjoner. Erfaringsvis er organisasjonenes aktiviteter intet mindre en organisert psykopati på 'Robinson'-nivå. Der er en permanent strid om arbeidsliv eller –død, samt svindel og trusler med ledighetsutbetalinger. Uten kjennskap til alskens skjulte agendaer, intriger og spill, holder det ikke med lojalitet til arbeidsgiver. Makta rår. Nå, etter 5 måneders streik ble endelig Prosa fradømt forhandlingrett med CSC. Dermed er forhåpentligvis 5 måneders destruktive konsekvenser for drift og utvilking av offentlige datasystemer slutt. Men så, noe av det første den ferske Skatteministeren gjør, er å true CSC med oppsigelser kontrakter. Her forstår ikke ministeren hva for komplekse intriger han tar part i.

Offentlig sektor investerte massivt i IBM teknologi i det forrige århundrede. Den teknologi er forlenget foreldet med hensyn på driftsøkonomi, effektivitet og sikkerhet. Offentlig sektor er trellebundet til særdeles dyre kontrakter som hemmer nyinvesteringer. Tilsynelatende er kompetansen og motet til restruktureringer fraværende. At IBM solgte Thinkpad til den kinesiske stat's Lenovo, med teknologi, ansatte og kunder, var en falitterklæring som staten bør ta til etterretning. Moderne maoister styrer ex-IBM. Når så både Forsvaret og PET advarer mot den voksende kinesiske cyber spionasje og krigføring, bør relatert teknologi ut av offentlig sektor. Det ingen grunn til spesiell tillitt der lenger, - tvert imot.

Selv de mest banale kriminalromaner er så opplagte som dette politiske spill med ministrene. Alternativ Skat og Finans kan simpelthen bli 'som å stjele slik fra barn'. Det er så åpenbart som da Norges søsterparti SV utnevnte en politisk bimbo til finansminister. Et halvt statsbudsjett forsvant fra oljefondet under finanskrisen. Danske PET bør ha skarpe øyne på statens finansmiljø i årene fremover, for her kan være danmarks-historiens største ran i gjære, - som om RAF's fraksjon Blekingegadebanden er løs. Det kan bli spesielt konfliktfylt når Regjeringen har sagt ja til økonimisk helsesjekk og helsekur for dansk offentlig økonomi. Velgere er snytt når valgflæsket viser seg å være slankekur. Alt om alt, Straffelovens kapitel 18-19, 'Forbrydelser vedrørende betalingsmidler og bevismidler §§ 166-179, kan bli utfordret på mange måter.

Re-Flex var en New Wave gruppe fra 80 tallet. 'The Politics of Dancing' var en hit, men det ble med det. Bandet er således et 'one-hit wonder'. Upubliserte sanger, samt et helt album, ble dog tilgjengelig for nylig. Ukens musikkinnslag er nostalgisk, stadig aktuell, samt litt selvironisk.

Japan - Visions of China

02.Mars.2012

Ukens Utvalgte:

Villy Søvndal begynte sin politiske karriere som backpacker i Sovjetunionen og Latinamerika. Nå, er han den ubestridte leder av Sosialistiske Folkeparti (SF) og får æren for at partiet er i Regjeringen. Villy har selv tatt rollen som Udenrigsminister. Men det er også Villy's ansvar at partiet allerede har tapt sine 3 primære valgsaker. Årsaken er selvsagt at det ikke var realistisk politikk, men kun valgflæsk. Denne konfliktskapende tøffelhet med 'femme fatale' natur, fungerer effektivt i opposisjon, men kan være destruktiv i posisjon.

I opposisjon var Søvndal høylytt med spekulasjoner om mulige CIA fly over Grønland. Det forties nå. Som Grønlands Udenrigsminister inviterer han Kina til massiv utbygging og utnyttelse av de Grønlandske ressurser. Det gis falske forhåpninger om kinesisk medlemskap i Arktisk Råd, fremfor EU. Denne utenrikspolitikken er provoserende mot de faktiske parter i det arktiske området. Å bygge kinesiske 'utposter' ved Nordvestpassasjen er krigshisseri. Russerne har allerede varslet å utstasjonere tusener av soldater. Kanadierne, amerikanerne og resten av NATO kan neppe la dette få utvikle seg. Udenrigsministeren utfordrer Straffelovens Særlig del - 12. kapitel 'Forbrydelser mod statens selvstændighed og sikkerhed'.

Det er også særdeles betenkelig at Udenrigsministeren, som utgir seg for å være miljøbevisst, velger kineserne som aktører i dette spillet. De fikk jo sabotere miljøkonferansen i København i 2010 og slo det globale miljøsam arbeidet tilbake til Kyoto nivå. Kina gikk av med seieren som verdens miljøsvin # 1. Det hele vitner om Søvndals virkelige karakter; som en hemningløst statsprofittør hvor miljø, sikkerhet, naboskap og arbeidsrettigheter er underordnet.

Kina startet en arrogante utfrysningpolitikk mot den norske regjering i 2010, etter at den selvstendige Nobel komiteen ga Fredsprisen til en kinesisk demokratiforkjemper. Politikken er like malplasert som de ekstreme muslimske reaksjoner mot dansk regjering etter Jyllandspostens publisering Muhamedtegninger. Fint nok at de ikke vil tale med Norge, - så er det heller ikke på tale med Kina i Arktisk Råd.

Selv England reagerte på Udenrigsministerens forhastede EU-fobiske reaksjoner på fellesskapets statsfinansielle samarbeide. Kort sagt er de europeiske nasjoner nå endelig enige om en statsøkonomisk helsesjekk, samt helsekur. Dette er elementær økonomisk fornuft som enhver statsborger og bankkunde godt forstår. Men Villy ble ellevill. Som en gresk statsmann, som en junkie, som en teenager med mammas kredittkort, - kom protestene fra Udenrigsministeren og DKP - før forslaget var klart.

Dansk Folkeparti (DF) kastet seg inn med krav om en emokratisk folkeavstemning. De bruker en plakat som symboliserer hat, frykt og vold, - og som ser ut som den er tegnet av DKP eller EL. Dermed er den anti-europeiske alliansen etablert, så som NasjonalSosialister og NasjonalKommunister fant sammen med Hitler og Stalin's 'Molotov-Ribbentrop Pact' i andre verdenskrig. Danmark tapte Island den gang. En tilsvarende tåpelighet kan gjenta forløpet med Grønland.

Det engelske bandet Japan hadde sin storhet på 80 tallet. De skilte seg ut med særdeles spennende musikkstykker. Det ble også lavet noen hits som kunne spilles på diskotek, - men flere av de andre stykker overgår dem kunstnerisk sett. Gruppen fikk personstrid og splitt. David Sylvian kom best ut av det som seriøs musiker og bredt samarbeide med kjente artister. En annen spennende spin-off, med Bauhaus' vokalist Pete Murphy, var Dalis Car. Ironisk nok kjørte det ikke særlig godt. Ukens Utvalgte er nesten ikke nevnt i Japan's sammenheng. Det kan være maoistisk kritikk er politisk ukorrekt og overfølsomt i musikkmiljøer.

David Bowie - The Man Who Sold the World

24.Feb.2012

Ukens Utvalgte:

Det mest kontroversielle regjeringsmedlem synes å være Ole Sohn fra SF (Socialistisk Folkeparti). Han er Erhvervs- og vækstminister i regjeringen. Medieomtaler er tidvis sterkt kritisk til hans politiske fortid og dagens praksis. Det forundres at SF insisterte på nettopp han, blandt så mange andre, absolutt skal i regjeringen. Som Centralkomitees formand i Danmarks Kommunistiske Parti (DKP), mottok han titalls millioner kr/år fra Moskva til partiet - og senere til forlaget Terpo Tryks. Det er ikke overbevisende at han skal være gjeldsfri og ikke kan sette regjeringen i tvangssituasjoner ovenfor en fremmed statsmakt, - som beskrevet i Straffelovens Særlige del.

Allerede i 8. klasse ble han vervet til DKP. Det minner meg om forhistorien om norske Selmer som beskrevet i videoen: 'NRK Spekter - Spionprogrammet Norge ikke fikk se'. Den er tidligere omtalt i UU 12.8.11 så her: «Det er vanskelig å forklare og bli trodd. Det viser TV dokumentaren om Selmer – en 15 årig gutt, en offergave til S.U., for å spionere på U.S. Familien trodde spionasjen skulle være mot de forhatte tyskerne. Hans historie forteller også om U2 flyets sabotasje, profesjonell spionasje og at Bodø var tett på å bli nuke't av S.U. Utsendelsen av dokumentaren ble ulegitimert forhindret av NRK i 30-40 år. Man kan selvsagt tvile på enkelte av Selmer's uttalelser, så som at hans reiser til Oslo var kun for å feste og at han ikke kjente noen andre spioner. Historien gir en menneskelig beskrivelse om hvordan en ufrivillig person kan fremme terror og hvor hardt det kan være å komme seg ut.» Selmer ble dømt for forederi til fordel for CCCP, men ble også benådet av kongen.»

Som Erhvervs- og vækstminister skal man fremme internasjonale handelsavtaler og ikke motarbeide dem. Danmark er lovpliktet til EU's Indre Marked og Konkurrencereglerne. Konkurranseskadede statsstøtte og diskriminering er forbudt, spesielt for offentlige virksomheter. Alle virksomheter har rett til å tilby leveranser til offentlig sektor. Brudd på dette er ulovlig og straffbart, selvom det var lovlig i Danmark for nesten 40 siden. Det var kaldkrigspolitikk. Eksempelvis er det internasjonale handelsimperiet COOP vokst ved diskriminerende avtaler, politikk og kapital. COOP's konkurransevridende, og nå ulovlige, avtaler er hovedårsaken til massenedleggelse av forretninger i nærmiljøene. Tilsvarende brytes anbudsreglerne massivt i offentlig sektor. Ministeren er lovpliktet til å fremme EU's konkurranseregler, selvom det går ut over tradisjonell kammeratlig korrupsjon. Det handler om milliarder av kroner i året.

Danmark har også i 40 år vært lovpliktet til å fremme den fri bevegelse av arbeidskraft i EU/EFTA sitt Indre Marked. Dette er sterkt hemmet, sammen med sosiale forpliktelser fra Nordisk Råd. Dansk arbeiderbevegelse, med LO i spissen, opptrer fremdeles som om Danmark skulle være en potensiell CCCP satelittstat. Illegal innvandring fra Russiske satelittstater, samt Kina, kan tidvis se ut til å favoriseres og omtales fremfor diskrimineringen av den legale europeiske innvandring. Det kan minne om den gamle tradisjon med organisert menneskesmugling og korrupsjon, som Gulag's koloniserings-program, - skjult som legitim sosialpolitikk. Ministeren er ansvarlig for dette området også. Som næringsminister kunne han sagtens foreslå en ratifisering av Konkurransereglerne til nasjonal lov, - som det er gjort i Norge.

David Bowie er en gjenganger her i UU. Dette er en av hans aller første hits. Bakgrunnen for teksten er usikker. Tittelen kan være inspirert av Heinlein's roman 'The Man Who Sold the Moon', men denne tekst har intet med romanen å gjøre. Teksten kan handle om å møte et alter ego. Opp mot 20 artister har laget coverversjoner av denne sang. Men det ble vel for meget for Bowie da noen Nirvana fans sa det var kult at han sang Nirvanas hit. Her gjør Bowie et comeback, som bare han kan gjøre det. Han beviser at ingen andre kan gjenskape hans eget værk til å bli noe langt mere imponerende enn originalen.

Propaganda - Duel (HQ)

17.Feb.2012

Ukens Utvalgte:

For en måned siden var det 100 dagers jubileum for den danske regjering. Det er dermed tid for '100 dagers testen'. Avisen Politikken skriver at regjeringssperioden preges av løftebrudd og opprydning. Regjeringen er visst ikke helt hva den gir seg ut for å være. De er allerede avslørt for løgn med valgsaker om Københavns bomring og etterlønnen. Sakene kan ha avgjort valgseieren. Kvalitetssikring er viktig, - spesielt for regjeringer. Det er derfor samfunnsmessig velment å gjøre en hypotetisk 'Trippel-Glistrup' for å se om politiske bomber kan ligge udetonert.

Mogens Glistrup etablerte det danske Fremskrittspartiet på 70 tallet. Det var en anti-byråkratisk populist som vanæret formynderiet til folkets fornøyelighet. Til sist gikk Glistrup i en skattefelle og ble fengslet i 1983. Selv bedyrer han sin uskyld med at han kun benyttet lovlige huller i Skatteloven. Tenk, - danske politikere fikk opposisjonslederen fengslet! Det minner styggelig om den aktuelle strafferetts-prosess mot den tidligere Ukrainske statsminister Julia Timosjenko. Nåværende president Viktor Janukovitsj sørget for at hun ble hentet om natten, uten varsel eller forklaring, og satt i fengsel for 7 år. Begrunnelsen er en gasavtale hun inngikk med Russlands president Putin. Janukovitsj betegnes som Putins lakei. Tilsvarende kan man hypotetisk forestille seg et politisk spill hvor dagens danske statsminister blir dømt og fengslet.

Ethvert sivilisert samfunn har en straffelov som også gjelder offentlig ansatte, - og særlig deres ledere. I dansk straffelov er "Særlig del kapitel 12-29", spesielt relevant. Her omtales blandt annet «Forbrydelser; mod statens selvstændighed og sikkerhed, mod statsforfatningen og de øverste statsmyndigheder, mod den offentlige myndighed, i offentlig tjeneste eller hverv, falsk forklaring og falsk anklage, samt vedrørende betalingsmidler og bevismidler". Det er med andre ord rikelig av grunnlag for å vurdere en 'Trippel Glistrup' i de kommende tre ukers utvalgte.

Propaganda var en tysk gruppe med en kort og intens karriere på 80 tallet. De signerte en kontrakt med produsenten Trevor Horn sitt selskap ZTT. Horn var en dyr perfektionist og fremmet flere spennende band med høy kvalitet. Ukens Utvalgte 'Duel', fra albummet 'A Secret Wish', nådde opp til BBC's "Top of the

Pops". Gruppen fikk ikke selveste Horn som produsent og fikk vite av andre at de aldri ville tjene penger med den kontrakten. Det hele endte med splitt av bandet og at Claudia Brücken startet solo i ZTT. Siden har det dog vært reunion, men også enda en splitt.

Rain: A Tribute to the Beatles

10.Feb.2012

Ukens Utvalgte:

Beatles, er antagelig det mest populære band i verden, - også for copy-band. "Rain: A Tribute to the Beatles" vitner om det. Rain er en karaoke-aktig forestilling som går fast på Broadway. Nå er de på turne, og får spille i Falkonersalen i Danmark. Med all respekt for hva det originale Beatles var for sin tid, - det er platt i vår tid med sådan overfokus på et så enkelt konsept. Fenomenet gir meg dog inspirasjon til et nytt tema med ad-hoc kåserier: «Dengang trubadurer fikk elektrisitet».

Beatles var et hard arbeidende band som startet fra bunnen og jobbet dernede i årevis. Men de fikk verdifull praksis av å spille på tyske klubber. 'Bierstube'-musikk er ikke avansert. Det handler om å finne noe populært så værtskapet kan selge mer å drikke. Beatles fant konseptet og lagde mengder av lett fengende melodier og tilhørende tekster. Med «Top 10» hitlister og Radio Luxembourg fikk deres pop musikk ubetalelig hjelp til markedsføring, - backet opp med flokker med hysteriske pikebarn. Bandet gikk fra sin proletar status til nyrike og forvirrede.

Dette altomveltende skift i tilværelsen var mere besværlig enn folk kan forestille seg. Alskens press og forvirring ga utslag i merkverdige stilsifter og opptreden. 'The Butcher Cover' er en av dem. Minst av alle, synes Lennon å takle situasjonen, da han proklamerte at de var 'større enn Jesus'. Hvorvidt dette er årsaken til at Ringo ble en hovedsponsor for Monty Pythons 'Life of Brian', vites ikke. Men Lennons uttalelse fikk Mc Cartney til å gå rettens vei for å oppheve Beatles juridiske status. Siden har han tjent godt på rettigheter på sangene. En helt annen person har irritere Paul mere enn noen annen. Historien sier at Michael Jackson søgte råd hos Paul om hva han skulle gjøre med alle sine penger. 'Kjøp rettigheter til musikk', sa Paul. Da Jackson kjøpte mengder Beatles hits, var det slutt på deres vennskap. Ikke noe mere 'Ebony and Ivory in Perfect Harmony' derigården, men heller 'The Girl is mine'.

Men for all del, - det er hyggelig at de originale Beatles konserter kan gjenskapes og bli populære. Som nevnt synes jeg denslags er viktig for kunsten. Det er bare en smule tankevekkende at ikke større kunstneriske prestasjoner kan få sin fortjente plass i den underholdningsverdenen.

The Musical Box - The Lamb Lies Down On Broadway

03.Feb.2012

Ukens Utvalgte:

Rett om hjørnet for Wall Street ligger Broadway, - kunstens hovedgate i New York. På 70 tallet lavet Genesis dobbeltalbumet 'The Lamb Lies Down on Broadway'. Dengang ble deres stil lagt om til en helhetlig rockopera forestilling. Historien handler om en kunstner som 'blir ofret' sammen med sin kunst. Historien kan virke merkelig og usammenhengende, men det er fordi det handler om hovedpersonens minner og tanker. Hans mange beretninger er særdeles poetiske. Avslutningvis blir budskapet; 'get real'. Bandet spiller som de mestere av art-rock Genesis var.

Dette er en trist uke for dansk kulturliv. Denne legendariske konsertoppsetning er gjenskapt og har verdensturne. Nå er det Europa's tur. Både Norge og Sverige får se forestillingen, men ikke Danmark. Det er det kanadiske coverbandet Musical Box som har fått enerett av Peter Gabriel og Genesis til å gjenprodusere deres orginale konserter.

Jeg så deres forrige oppsetning 'Foxtrot' i Danmark for noen år siden. Det var en spesiell opplevelse å faktisk se en konsert jeg trodde jeg aldri skulle få se. Det orginale Genesis er og forblir historie. Det var med en viss skepsis jeg dro dit. 'Coverband & wanna-be's'? Nei, man kan jo godt se et Shakespeare teaterstykke og aksepterer at William Shakespeare selv ikke er der. Kunsten går i arv. Musical Box har ikke bare dyktige musikere, de er dyktige skuespillere også. Man kunne endog merke i samspillet mellom 'Gabriel' og 'Collins' at det var en spenning mellom dem. Dette førte jo til at bandet søkte etter en erstatnings-vokalist. Tross flere forhandlingsforsøk senere har det vist seg umulig å gjenforene gruppen.

Jeg ville gladelig betale for å ha konsertene på DVD. For jeg er bare nødt til å se dem. Men de finnes ikke. Ej heller kan jeg fly utenlands for enhver enkeltkonsert. Så må man takke med mer eller mindre legale opptak fra konsertene på internettet. Det er trist at arrangører og distributører ikke evner å la betalingsvillige fans få oppleve kunsten. Alle taper. Det kan være det blir en stor industri å gjenskape sådanne utdøde legendariske konserter. Jeg kunne godt betale for å oppleve en gjenproduksjon av et titalls konserter.

10cc - Wall Street Shuffle

27.jan.2012

Ukens Utvalgte:

Det er globale økonomiske kriser - og det poengteres ettertrykkelig. Hvem i all verden kan være overrasket? Enhver politiker har sett dette utvikle seg i et tiår. Symbolsk sett, synes startskuddet for prosessen å være fallet av de to tårn - WTC. Siden har mengder af fly med jurister nådd Washington. Verdenshandelen har vært i finanskriger siden dengang. Det synes trivielt å nevne, men deregulert og uhemmet lånepolitikk er ødeleggende for enhver økonomi. Enhver person vet det så godt fra sin egen privatøkonomi, - regningens dag kommer til sist. Har man brukt over evne, har man brukt av sin fremtid. Selvom noen klarer å løpe fra regningen, så forvinner den ikke. Uskyldige sitter tilbake på regnskapets dag og kan knekke av andres gjeld.

Dokumentaren «Financial Meltdown» varer 3 timer. Den er verdt det. Hendelsesforløpet til dagens kriser er den samme som i 30-årene. Republikanske statskapitalister sørget for deregulering av lånepolitikken, som tillot massive utlån uten sikring. Samtidig skjedde en massiv outsourcing til Kina av produksjon, arbeide og verdiskapning. Da boblen sprakk, gis statlige gavepakker fra republikanske senatorer til utlånerne. Borgerne og bedrifter ender opp med tapene. Tragediene er massive. Det er tydelig at pyramidespillet er arrangert på forhånd mellom republikanske senatorer, jurister og finansfolk. Det er organisert kriminalitet på høyeste

politiske nivå, - og de er sterkere enn rettsvesenet. Dop, hor og korrupsjon hører med. Hva i all verden kan få både republikanere og demokrater til å stadig gjøre så galt? En langt større trussel mot rikets sikkerhet.

I Europa var London og City direkte forbundet til Wallstreet prosessene. Dette er årsaken til at de engelske Tories motarbeider finansreguleringer i EU. Da franske bedrifter ble rammet, aksjonerte ekstreme republikanske fagforeningsledere. De organiserte trusler, vold og kidnapping, som om bedriftsledere hadde skylden. På den annen side prøver Europas regjeringsledere å innføre felles finansreguleringer i de europeiske statsforvaltninger. Det skal være grenser for hvor stor overforbruk, gjeld og inflasjon ministre kan påføre sin nasjon og dets borgere. Island ble rammet spesielt hardt. Det var en desinformerende rapport fra WallStreet miljøet som legitimerte desillusjonert utlånspolitikk. Island tålte ikke knekken og ble praktisk talt konkurs. Norge ble også hard rammet og tapte over 600 milliarder kroner – over et halvt statsbudsjett. Men det ble omtalt som en bagatell i den fjerde statsmakt. Oljefondets forvaltere har uttvilsomt hatt nære kontakter til WallStreet miljøet, og har kjøpt massivt disse usikrede verdipapirer. Det bør reises krav om rettslig granskning av Oljefondets forvaltere, samt datidens finansminister og hennes nærmeste.

Avslutningsvis i TV serien 'Financial Meltdown' indikeres at Kinas viser alvorlige symptom på en overoppblåst økonomi. Mengder av kontorer og leiligheter står tomme. Det nye statskapitalistiske imperiet kan få alvorlige problem med å håndtere svingninger i sine finanser. Dette kan oppstå når Shanghai og Honk Kong kulturene møtes. Et eventuelt oppgjøret mot demokratiske reaksjoner vil bli brutalt. Kina har neppe tilstrekkelig erfaring til å håndtere alt dette. Konsekvensene av en kontra-revolusjon vil bli globale.

10cc er en favorittgruppe fra 70 tallet. De stiller i en egen klasse når det kommer til musikalitet og tekster. Et enkelt musikkstykke kan inneha 5-6 forskjellige melodier. Tekstene var ofte usedvanlig velskrevet sarkastiske, humoristiske og tankevekkende. For anledningen er ukens utvalgte 'Wall Street shuffle' og 'Good morning judge'. Navnet på gruppen er en burlesk gåte.

Frankie Goes To Hollywood - Two Tribes

20.jan.2012

Ukens Utvalgte:

Det har vært mange av disse 'stammer', som ikke finner ut av fredelig fortrolighet. Nærmest alle nåtidens mennesker er oppvokst i den kalde krigen og kjenner ingen annen samfunnstilstand. Det er merkelig at et halvt århundres krigstilstand oppfattes som fredelig og normalt. Republikanske imperier er ikke demokratiske. Den demokratiske allmennkunnskapen reduseres til 'need to know' nivå. Men så kom internett, glasnost og wikis. Det demokratiske historiekunnskap utvides langt ut over tidligere allmennkunnskap fra folkeskole og TV monopol.

Cubakrisen var et kaldkrigs klimaks. Den gang, i 1962, seilet Sovjet sine atom-misiler fra sin militærbase i Kaliningrad til Cuba. Følgelig måtte transportskip, som Grozny og Kasimov, gjennom danske farvann i Østersjøen og Nordsjøen for å nå ut til Atlanterhavet. Tross politiske fortielser om disse grove brudd, ble US oppmerksom på transportene og blokkerte dem. Transporten snudde. Men hvor ble atom-missilene så plassert? Andre steder? - Eller tilbake via Danmark til Kaliningrad? Hvor i all verden ble det forresten av alle sprenghoder fra nedrustningsavtalene? Nåtidens kan faktisk en sådan ladninger fraktes i noe så lite som en tønne eller en koffert. Forhånds-utplassering ved målet - med båt, bil eller fly er altfor nemt, - så som TV serien 'Jericho' viser. Teoretisk kunne transport av atomvåpen fraktes med varebil den korte veien fra Kaliningrad til Gdansk og via fergen fra Gdansk til København. Gdansk fergen og Oslo fergen har alltid delt havn i København. Det er dermed også en indirekte rute mellom Kaliningrad og Youngstorget.

Med internettet popper det frem artikler om planer og utplasseringer. Man skal selvfølgelig være forsiktig med å ta alle artikler for seriøst. På den annen side er det ingen tvil om hensikten med utplasseringer og forhåndslagre av atomladninger. De er ment for bruk. Så dokumenter om stadige maktedemonstrasjoner i danske farvann og planer om å 'nuke' Esbjerg og Roskilde, er ikke usannsynlige. Det handlet ikke om terrorbalanse, men terror som middel for å få politisk dominans over forsvarsløse europeiske nasjoner. Danmark ble dog ikke skremt inn i Warshavapakten, men Nato istedet. Siden har det vært betydelige 'splitt & hersk' -spill mot nordisk politikk, økonomi, kultur og forsvar.

Uansett, Stalinister og Maoister sympatiserer med folkemord og håpet i det lengste på invasjon av hjemlandet og egen belønning for innsatsen. Det skal bare ikke være tvil om dette: Sympatiserer man med regimers massebord på sin befolkning andre steder i verden, er man skremmende nære å sympatisere på massebord av egen befolkning, - selv med nuking. Spør.

Det er ikke så mye å si om Frankie goes to Holywood. Men 'sound & vision' hadde de god forstand på. De lavet noen store hits, hvor 'Two Tribes' er en av dem.

Zager and Evans - In The Year 2525

13.jan.2012

Ukens Utvalgte:

Det er fredag den 13 år 2012! Dette bare innbyr til alsken dommedags og ulykkelsesprofetier på en gang. Skjønt fredag den 13 forekommer 3 ganger i år, i Januar, April og Juli. Om ikke det er nok, så har det etterfølgende år 2013 hele 52 fredager. Triskaidekaphobia kalles denne frykt for tallet 13. Grunnen forklares med at tallet 12 anses som noe riktig, godt og stabilt, så som Jupiters 12-årige syklus og Julius restrukturering av kalendermånedene. Overtroen er at dette forstyrres hvis det kommer en trettende til. Det kan skje ulykker. Harmoni kan kun gjendannes ved å bli av med denne trettende ulykkeskråke, - denne sorte katt - denne syndebukk. Grunnen til overtroen om at Fredager skal være spesielt negative, er heller usikker, men det kan ha med Langfredag og Sabbat å gjøre.

Det er nesten grenseløst for hvor mange potensielle katastrofer som står for dør, hvis en bare vil grave dypt nok i teoriene. Kort oppsummert er kategorier av potensielle katastrofer; global krig, annen masse-ødeleggelse, økologiske forandringer, global pandemi, global oppvarming, ny isalder, økologisk ødeleggelse, overbefolkning, ustyrlig kunstig intelligens, argrikulturel krise, supervulkaner, megatsunamier, meteroitnedslag og kosmiske trusler. Det er nok av teorier for de dommedags-fikserte, - eschatomane og eschatofobe. Virkelige problem blir det dog, hvis massepsykotisk paranoia tar overhånd, som beskrevet i novellen Nightfall av Isaac Asimov.

Det er spesielt de okkulte avgreninger av de tre monotiske religioner, som fremmer dommedagsprofetier. Men den type eschantologi finnes også i Norrøn og Aztec religion. Man kan undres over sammenhengen med dette - samt lampa. Enkelte skrifter er hemningsløst sosiopatiske i forherligende psykoser om menneskehetens lidelser, krig og masseutryddelse. Historienes opphav kan være den vedvarende rivalisering mellom de fallende stenalder-imperiene Persien (Iran/Irak) og Egypten. Moses selv levde 1300 BC, men hans opphav kan føres tilbake til Abraham/Sarah og adoptivsonnen David. Moses ble adoptert av Faraos kone. Hans gud skal siden ha påført Egypten disse 10 landeplager: Blodig vann, Frosker, Mygg, Fluer, Pest på kveg, Smertefulle byller, Hagl og uvær, Gresshoppesverm, Mørketid, samt De førstefødtes død. 6 av plagene er naturgitte, men 4 kan være biologisk krigføring. Vi er til syvende og sist vår egen største trussel.

I 1968 lavet Denny Zager og Rick Evans sangen "In the Year 2525". Den var #1 på Hot 100 i 6 uker og solgte straks 4 millioner kopier. Melodien er enkelt og fengende. Selvom den ikke har refreng, gis variasjon i at versene bygge opp mot et klimaks. Teksten er det mest oppsiktsvekkende, med sitt dystre 10.000 års perspektiv og profetisk budskap om menneskehetens selvødeleggende tendens, - samt dom. Minst 60 coverversjoner i 7 forskjellige språk er lavet siden dengang. Flere av dem kan finnes på 'Tuba'. Uvisst om det er en sammenheng, men det nevnte århundrede er satt i flere romaner, så som 'Brave New World' og 'Planet of the Apes', samt spill som 'Halo' og 'StarCraft'.

Prince - Sign O' The Times

06.jan.2012

Ukens Utvalgte:

Janus, denne mytiske figur med de 2 ansikter, har vendt seg og ser fremover i det nye året. I det gamle Roma var det viktig å begynne allerede den 25 desember, årets første dag, med ritualer for å få en god start på året. På sett og vis har vi uvitende holdt ritualene i live da det er romjul frem til nyttårsaften. Denne andre nyttårsuken endte med noe offergaver som noe saltmat og søtmat og penger og gull. Dagens juletradisjoner stammer med andre ord fra før kristendommen og har egentlig opphav i nyttårstradisjoner.

Dagens Julianske/Gregorianske kalender ble grunnlagt 45 år før Kristus. Denne omfattende reform av den romerske kalender ble gjennomført av Julius Cesar med anbefaling av den egyptiske astronom Sosigenes. Kalenderen ble utvidet fra 10 måneder til 12, med dertil omjustering av dagene. De nye månedene Juli og August ble oppkalt etter keiserne Julius og Augustus. Den nyere Gregorianske kalender har noen mindre justeringer for det evige misforhold mellom dager og år. Men disse moderne kalendre ble ikke utbredt i Europa før 1000 år senere og de ble vanlig på 1700 tallet. Forrut for denne Anno Domini (AD) ble starten av de pre-kristne kalendere satt til de jødiske Anno Adami og Anno Abrahami. Det er dog en misforståelse at noe heter år 0. AD starter med år 1.

Absolutt alle år og alle kalendre ender sin syklus før de starter en ny. Det er overhode intet mystisk eller dramatisk i det. Men fordi en gammel Maya kalender ender den 21 desember 2012, har bevisst misfortolkning ført til den overtro at enhver tidsregning ender. Det er noe psykotisk vrøvl. Kalenderen går videre og starter den neste syklus. Det er en stor begivenhet som fortjerner en ekstra 'nyttårs fest' den dagen. Det er da en riktig god ide?

Prince har overtatt tronen etter 'The king of pop'. Det kan virke besynderlig hvordan religøse grupperinger verver berømte artister innen film og musikk. Michael ble som barn meldt inn i Jehovas Vitner. I voksen alder fikk han betydelige personlige problemer da han innså at de aller fleste av sine kjære fans skulle ofres ifølge 'Johannes Åpenbaring'. Michael brøt med sekten. I 2001 ble Prince vervet den selsamme sekt. Selv anser han det ikke som en konvertering, men heller en personlig realisering han sammenligner med samtalen mellom Morpheus og Neo i filmen The Matrix. Tragisk er denne legitimerede dommedagskult. Uansett, Prince er og forblir et multitalent uten sammenligning. Ingen over og ingen ved siden. Det er fantaskisk å se hans konserter – og jeg hadde glede av det i sommer i København. Så kom regnet og avbrøt det hele.

Så er et nytt år i siktet. For et tiår siden kom vi vel igjennom 1999 tross alle de horrible spådommer. Alt ble normalt, - selvfølgelig. Vi skal sannelig komme godt igjennom 2012 også. Å grave frem en eldgammel kalenders siste dato endrer ingen globale realiteter. Verden går videre - og fremover. Skjønt – det dukker alltid opp et og annet 'omen' som kan trigge bekymringer, - så som å se reklame for Lidl's billige fyrverkeri, raketter og batterier. Kan det gå godt? Tja. Pass på fingre og øyne.

Jeg klikket rundt på nettet for å se hva som skrives om fyrverkeri. Der er beskrivelser av komponenter, reguleringer og historisk utvikling. Ikke særlig spennende lesning. At ordet 'fyr' egentlig betyr kastrert hankatt, visste jeg dog ikke. Fyrverk? Jeg trodde kjønnsoperasjoner virket deaktivierende. Jeg leste mere, og så dukker han opp igjen, - den katolske bombemann Guy Fawke. I England er en stor fyrverkerifest dedikert ham og 'the Gunpowder Plot', - riktignok som en årlig offisiell takkedag for fiaskoen.

Før alt dette fyrverkeri er det tid til å kikke litt bakover i året som gikk - 'and beyond'. Musikalsk er Michael Jacksons bortgang av altoverskyggende betydning. En superstjerne døde brått, - som supernovaer gjør. Nå

hviler han blandt de andre stjerner. Denne video er en av hans større prestasjoner. Så gir den også gode assosiasjoner til desember måneds utvalgte tema.

Så er julen her. Som ordet antyder, våre Nordiske tradisjoner handler naturlignok om at de kommende lysere tider. Det skimtes lys i enden av tunellen. Derfor er de nordiske kultursymboler om nytt liv for mennesker og naturen forøvrig. Julenissen, eller julemanden, representerer omtanke, barmhjertighet og giverglede. Nisseluen, eller nissehuen, har dog tusner av år gammel global tradisjon. I Norden hadde bondemannens treller på fjøset sådanne røde luer. Hvis de ikke ble behandlet godt, særlig på juleaften, kunne det gå riktig ille for bonden og gården hans. Opprinnelig ble tilsvarende luer brukt av frigjorte slaver i Romerriket. Det var et hodeplag for borgelig pleber. Det påstås endog at prins Paris, Odysseus og greske sjømenn bar lingnende hodeplagg. Videre hevdes det at Santa Claus opphav er fra selveste selvest Odin, den norrøne sjefs-aesir. Riktignok var kappen blå, men han skal ha delt ut gaver på denne årstiden. Alt om alt, markering av dette sesongskiftet har sannsynligvis tradisjoner helt fra menneskehistoriens start. Symboler er naturligvis relatert til lys, liv og frihet.

Jesu fødsel er hovedbudskapet i det kristne Julebudskap. Det strides dog om datoen er riktig og at den heller er tilpasset omstendighetene. Budskapet er at 'en frelser er født'. Det er et gledelig budskap i seg selv, uansett tro. Men de to andre beslektede monoteismene, Jødedommen og Islam, benekter at Jesubarnet var selveste Guds sønn. Søker man på begrepet 'frelser' kan man finne at det er sterkt bundet til Egypten. Grunnen ligger i at Alexander den store av Makedonien også erhvervet det okkuperte Egypt da han erobret det Persiske imperiet, - dagens Iran/Irak. Etter Alexanders død erklærte hans hærfører Ptolemy seg konge over Egypt og ble tittelert Soter/frelser. Dette Ptolemiske dynastiet varte i nesten 300 år. Den siste i rekken hette Cleopatra.

Cleopatra ville redde det svekkede imperiet ved en allianse med Roma. Caesarion var den førstefødte sønn av keiser Julius Cesar og Egyptens dronning Cleopatra. Hennes slekt var ansett som gudommelige med deres faraoiske tilknytning. Egyptiske faraoer var erkjent som vanlige mennesker, men ansett som gudommelige konger. De mentes å være blandt stjernene i Himmelen etter sin død. Julius ble erklært gudommelig i den forstand at hans adoptivsønn keiser Augustus ble erklært 'sønn av gud'. Julius selv fant titler som 'gudomlig' og 'konge over alle konger' som besværlig. Det provokerte politiske rivaler. Det endte da også med en martyrdød i Senatet. Hverken erkerivalen, det pre-muslimske Persia, eller det republikanske Roma, ønsket noen forent gudommelig arving av unionen Egypten & Roma. Følgelig ble arvingen Caesarion henrettet, kun 17 år gammel, 30 år før Jesu fødsel. Keiser Augustus hadde de sterkeste motiv og mistenkes også for å ha arrangert morens død, samt rivalen Marcus Antonius. Augustus ble en totalitær keiser over hele Riket.

Julestjernen symboliserer kronen på juleritualet, - astrologisk sett. Astronomisk sett er denne atrologi besynderlig. Det kan nemlig ikke dokumenteres at et så sterkt lysende objekt fantes der og da. Rent statistisk sett kan en supernova ha vist seg rundt den tiden, men overhode ikke så stedsbestemt. På den annen side skal en spesielt lyssterk komet ha åpenbaret seg 44 år f.kr. Det var rett etter Julius Cesar sin død. Følgelig ble kometen tilegnet Julius og fikk navnet 'Sidus Iulium/Julian Star'. Julius ble erklært gudommelig og fikk sitt eget tempel og tilhørende kult. Både sønnen Caesarion og adoptivsønnen Augustus ble dermed begge ansett som 'sønn av gud'. Men det var ikke lenger plass til to av slagsen, når imperiene var forenet.

Dette er ikke tiden å spekulere i hvorvidt Jesus i krybben og på korset er den samme. Men det er rimelig godt stadfestet at 'de tre vise' kom fra det pre-islamske Persia og at deres ryktespredning om enda en

gudesønn indirekte førte til masakeren av alle guttebarn i regionen. Endvidere skjedde det i Keiser Augustus dager at de måtte flykte til Egypt. Jesus kom tilbake noen tiår senere. Men denslags detaljer er ikke budskapet. Julebudskapet og julegleden har lite med tid, sted og enkeltpersoner å gjøre. Det spiller ingen hovedrolle. Julen viser at er noe positivt på gang, - og det kan vi sagtens alle gledes over.

Gregorian er en gruppe, som etter en fornyelse i '98, gjorde en mengde coverlåter i gregoriansk stil. Et album er dedikert julesanger og heter Christmas Chants. Denne UU er tatt fra det album. Chris de Burgh skrev denne etter å ha lest Chariots of the Gods av Erich von Daniken. Han filosoferte dermed på nyere forklaringer om engler, - så som romskip og rommenn. En høyst spekulativ diktning, men likevel et julebudskapet i tiden.

Ukens Utvalgte:

Man kan forestille seg hvor lite vi egentlig har sett av vår egen galakse, når vi nå vet hvor minimalt vi har sett av vårt eget solsystem. Fremdeles er det stort sett de små lysende prikker på himmelvelvingen. Spådommer og teorier laves av forvrengte to-dimensjonerte oppfattelser av tid og rom. Tegninger og livlige fantasier har preget fremstillinger av vårt solsystem. Vi vet egentlig at vi nærmest intet har sett. Vi sitter jo på et fjerntliggende sted og skuer. Det er umulig å få riktige tredimensjonale observasjoner fra kun et enkelt punkt. Vi har ikke vært der ute blandt stjernene i galaksen og utforsket. Det er science fiction – det er kvasivitenskap.

Vår galakse Melkeveien er i sannheten ufattelig stor. Den antas å ha hundrede milliarder stjerner, hver med tilhørende planeter. Selv er vi i utkanten i en av spiralarmene. Den kan ses fra ekvator som et bånd over himmelhvelvingen. Derav fikk hele galaksen navnet til dens arm, - Melkeveien. Vår skue går altså igjennom tåker, som Jordens atmosfære, Solens Oortsky og Melkeveiens spiralarm. Mørk masse (dark matter) antas å være over 80% av universets masse. Det er ikke noe mystisk med det. Det er all den masse vi ikke kan se, - alt annet enn stjerner. Rommet er med andre ord langt fra tomt. Det er fullt av planeter, objekter som iskometer og enorme tåker. Vårt utsyn er med andre ord sterkt påvirket av optiske forvrengninger og tilsløringer av posisjoner og farver.

Det er grunn til skepsis til noen nye teorier, så som de gamle myter. Moderne teorier ser ut til å ha motiv i å understøtte disse. Big Bang teorien er en dårlig fundamentert antagelse om at alle stjerner fjerner seg fra et sentralt punkt i universet. Det er 'Bli lys' dogmet fra gamle testamentet i en moderne fremstilling.

BigBang baseres på 'redshift' fenomenet. Enkelt sagt er det lydets dopler effekt overført til lysfenomener. BigBang motstrider også muligheten for at liv og vann har oppstått andre steder og blitt overført til Jorden ved objekter av is. Vi vet jo nå at skapelsesberetningen er usannsynlig utfra de arkeologiske dokumentasjoner om liv og tidsperioder. Men BigBang motbeviser overhodet ikke varianter av the Stady State Theory.

Misoppfattelser om relativitetsteorier har ført til troen at lyshastigheten ikke kan overskrides. Tilsvarende misforståelser var dominerende for lyd før lyshastigheten ble overskredet. Teorien sier kun at en observatør får forvrengte syn av et objekt som fjerner seg ved store hastigheter, samt at det ikke kan ses hvis lyshastigheten overskrides. Men disse forvrengte illusjoner for observatøren har intet med objektets virkelighet å gjøre. Et objekt med akselerasjon på 10G vil overskride lyshastigheten etter en måned, og fortsette akselerasjonen. Problemet med å passere lyshastigheten er å finne en tilstrekkelig energikilde. Dagen stående teori om totalenergi, som hovedsaklig baseres på lyshastigheten, bør ikke være til hinder for kreativ vidreutvikling. Men uansett er det ikke noe vitenskaplig 'babelsk' hastighetsforbud. Selv lyshastigheten er ikke så konstant som først antatt. Konstanten gjelder kun for vakuum. Hastigheten er betydelig lavere i vann og is, - eller selvfølgelig Oort skyen, Melkeveiens spiralarm og andre tåker. Rommets virkelighet er ikke som vi ser den. Alle bilder av exoplaneter er fantasifulle tegninger. Imens venter vi fremdeles på bilder fra vår nære Måne av de seks LM utskyttingsramper, en bil, flagg, endel annen gadgets, dog ingen astronauter.

OMD (Orchestral Manoeuvres In The Dark) ble dannet av Andy McCluskey and Paul Humphreys på slutten av 70 tallet. De var inspirert av andre som Brian Eno og Kraftwerk. En vocalist med bassgitar og en synth var et uvanlig konsept for en gruppe. Utover kreativ synth bruk, fikk de også hjelp av andre musikere etter behov. De har en lang rekke hits som neppe har forbigått et eneste øre. Selv om McCluskey avsluttet OMD i slutten av nittitallet, fortsatte Humphreys med 'stand-ins'. De ble gjenforenet og lavet denne hit.

I det forrige århundre var solsystemet så enkelt som 9 planeter og deres måner. Astronomers fremstillinger overskygget den mytologiske astrologi. IAU (International Astronomical Union) gikk lengere og definerte omsider en tredje type planet. Pluto, som ble oppdaget i mellomkrigstiden, var ikke verdig betegnelsen 'normal' planet. Denne antatte Planet X, ble redusert til en dvergplanet av IAU. Det var astrologisk ille nok å avsløre at denne dødsplaneten, oppkalt etter Pluto/Hades, ikke var noen gigant likevel. IAU reduserte den til et alminnelig villfarent Plutoid iblant mangfoldige andre i Kuiper beltet, - hinsides Neptun.

Faktisk ligner månene Io, Europa og Titan mere planeter enn Pluto. Merkur og vår egen Månen har derimot slående likheter med Pluto. Pluto sjangler rundt om banen til Neptun, som om den og sine følgesvenner er noen av Neptuns måner på avveie. I dagens terminologi bør Pluto heller anses som en måne og ikke en planet. Den nye kategorien dvergplanet er dog god, fordi begrepet måne ikke beskriver selve objektet, men kun dets bane. Man kan godt anse Io, Europa, Titan og Månen som dvergplaneter. De er jo bare fanget av større planeter. Det er planetsystemer. Men fortsatt tvinges astronomien ned på et astrologisk nivå. Skal vi ta det nødvendige skritt og ta vårt eget verdenrom seriøst, så er vi nødt til å avansere terminologien.

Vi har sett minimalt av våres eget solsystem. Pluto er ca 50 AU fra oss. Kuiper-beltet er 50-100 AU bredt og fullt av objekter. (AU: Astronomical Units, dvs avstanden mellom Jorden og Solen.) Oort skyen strekker seg så langt som 1 lysår fra Solen, dvs over 63000 AU. Vi vet at våres nabo solsystem Alpha Centauri har to soler i centrum og en dvergsterne kretsende i en avstand på et lysår. Så kan det da finnes tusener av objekter i vårt eget solsystem tusener av AU fra Solen.

Jeg kan godt se for meg et ti-talls klassifiseringer av planeter i vårt eget solsystem. Helt ærlig, StarTrek har lang mere profesjonelle definisjoner enn IAU. Det er objektenes egenskaper, og ikke bane, som bør avgjøre klassifiseringen. Utfordringene blir nå tydeliggjort med stadige oppdagelser av exo-planeter hos andre stjerner. Uten en betydelig nyansering vil kartlegging av de milliarder exo-planeter forbli komisk primitivt, så som dagens klassifisering av våres egne planter.

Ukulele er langt fra mitt favorittinstrument. Men når man leter etter favorittstykker på YouTube, så snubler man over spennende nyskapinger. Her spiller de klassikeren av David Bowie. Når så disse ukulelerne ikke helt kan enes om sangen, så kan man jo bare synges noen ekstra, - samtidig. Teksten handler egentlig ikke om liv på Mars eller andre planeter. Det er nok heller et uttrykk for at livet her hjemme til tider kan synes problematisk. Alikevel, selvsagt finnes det organismer der det er livsgrunnlag som vann, carbon, energi, - selvom det neppe er tale om engler eller andre eksotiske skapninger.

Så er julemånen her. Menneskehetens viktige astrologiske begivenhet skal gjennom sitt årlige ritual. Så skal det ryddes på roteloftet, hvor gammel julepyrd er lagret. Mens man er der oppe i høyden, fristes det til å kikke et godt stykke videre, - mot julestjernen 'and beyond', eller nærmere bestemt – våres eget solsystem. Der er det også et salig rot.

Kart over rommets virkelighet er så rotet til av astrologer, prester og spåkoner at det er en fare for vår eksisten. Det kan lyde dramatisk i en uopplyst mørketid. Man ser jo ingen fare når man ser omtrent ingenting. Men som sjømenn behøver gyldige kart, radar og ekkolodd, behøver menneskeheten realistiske oversikter av våres nærmeste omgivelser. Romskipet Jorden farer rundt Solen i 1.700 km/t - i mørket, foruten skikkelig kart, lys, eller radar. Selv småsten kan skade - de store stener fatalt. Fremdeles oppdages ikke store stener før de har sust forbi. Varslingstid på minus to timer er ikke godt nok.

Hvordan i all verdensrom kan man bli opphengt av primitive kart og myter om solsystemets objekter og virke? Svaret er Astrologer. Astronomien har vært koblet til religion helt fra steinalderens dager. Blandingens kalles astrologi. Stjerner ble trodd å være hellige vesner i himmelen, - endog engler. Himmelen var trodd å være like flat som Jorden. Alle stjerner ble markert på kart og to-dimensjonale figurer ble tegnet av prikkene. Soler ble til fiksstjerner, planeter til vandrestjerner og metreoreritter og kometer til stjerneskudd. Så når Jupiter seilet innom Jomfruen hver 12 år, ble det ekstra spennende hvis et stjerneskudd kom fra det. Astrologisk sett, kom et gudebarn til Jorden. Hvert tusende år kan en man se en supernova

stjerne i flere dager. Astrologisk sett ble en engel født. Så ble det viktigere å spå til sin egen vilje og sine ønsker enn å finne ut av sannheter.

Babylons tårn er myteomspunnet. Skrifter varierer med høyder fra 100 til 2000 meter. Det var visst firkantet eller rundt. Men ganske samstemt var hensikten med tårnet å forene Himmel og Jord. Noe gikk galt i myten. Gud skal angivelig ikke likt å bli kikket på, og skapte språklig forvirring blandt innbyggerne. Men at tårnet ble destruert av engler og arbeidere demonisert, hører til de okkulte skrifter. Derimot skal byggingen ha stanset av babelsk språklig forvirring. I dag, med våres utsyn på virkeligheten vet vi at mange av skriftene er direkte løgn. Så la nå disse skyskraperne få stå i fred.

Underworld er en Britisk synth gruppe som egentlig har hold på i 30 år. Originalt hette gruppen Freur. De var først inspirert av Kraftwerk og Reggae. Det gikk med dem som andre suksessfulle band. Det kommer også en nedtur og splittelse. Men duoen Hyde og Smith gjendannet samarbeidet med det nye navn Underworld. Deres musikk kan virke ensformig og langtrekkelig. Men etter å ha hørt deres album noen ganger, ble det noe av det beste jeg har hørt innen kategorien synth-og-nokko-attåt. I denne UU synges en hyllest til en Skyskraper. Man kan mistenke dem å se noe babelsk i lyrikkens utvikling.

Art of Noise Feat Max Headroom – Paranoimia

25.nov.2011

Ukens Utvalgte:

'Max Headroom' var en kultsettende figur fra 80 tallet fra miniserien '20 Minutes into the Future'. Dengang var det banebrytende at en reporter kunne ta seg rundt alene med et mobilt kamera og gjøre repotasjer. Idag er det ikke særlig futuristisk i forhold til den mobile virkelighet, som kom 20 år inn i fremtiden. Nå går enhver ungdom og voksen konstant med et kamera i mobiltelefonen og kan sende direkte til hele verden via Internettet. Storebror har fått alvorlig konkurranse fra Lillesøster og Lillebror. Kameraer er ikke kun på hvert gatehjørne, men også enhver's øyesten. Forøvrig husker jeg en eldre filmatisert novelle av Bing og Bringsvær om fremtidig avhengighet til en personlig mobil computer, kalt 'Lillebror'. Den duoen var faktisk rett dyktige sci-fi forfattere for sin tid.

Navnet Max Headroom er typisk for den dunkle britiske humor i serien. En vei-bom med påskriften 'MAX. HEADROOM: 2.3 M' var det siste journalisten så før sin fatale kollisjon. Med noen teknologisk triks, ala Robocop, ble hans bevissthet reddet i en computer. Dermed ble Max en søvnløs, intelligent og mentalt ustabil kunstig intelligens. Selvom Max fikk mest oppmerksomhet, handler serien hovedsaklig om dominerende mediaselskap og stat. Andre interessante karakterer var The Blanks, som kan godt være idegrunnlaget for dagens Anonymous. De var en gruppe individer som sørget for å slette seg fra sentralregisteret for frihet.

The Art of Noise var en avant-garde synthpop gruppe fra samme periode, med blandt andre produsenten Trevor Horn. De produserte hovedsaklig musikalske innovasjoner med det nye instrumentet Sampler. Larm på box med tangenter. Men det var mer Art enn Noise. Ut over den konkurranse-fordelen med ny teknologi, viste de seg kreative, melodiose og tildels poetiske. Gruppens kobling med Max Headroom var et markedsføring kupp.

1812 Overture - USSR State Symphony Orchestra

18.nov.2011

Ukens Utvalgte:

Den 5. november er blitt en årlig hacker-dag. Ta derfor alltid backup de første dager i november. I år ble FaceBook truet, men av ymse årsaker ble angrepene rettet andet steds hen. Hackergruppen kaller seg Anonymous, men det ser ut til å være besværlig å fremstå enhetlig for en sådan hemlig gruppe. Det er omtrent som med de såkalte Autonome. Det er noen få fjernstyrte overemosjonelle tenårere som blir kollektiv koordinert til utblåsning av frustrasjon i bestemte retninger. Begrepet autonomt synes å brukes for fraskrivning av lederansvar. De unge legges i stikken. Men så kan det dukke opp en virkelig autonom person som setter en alternativ agenda, som den mislykkede annonsering av hacking mot FaceBook.

Filmen 'V for Vendetta' er kult-settende for hacker miljøet. Symbolikk ligger spesielt i 'dato', 'Guy Fawkes-masken' og '1812 Overturen'. Guy Fawkes var en katolsk bombemann som fikk spansk støtte til å sprengte den britiske parlamentet, inklusiv den protestantiske konge og regjering. Det mislykkes. Han ble fanget den 5. november 1605, torturert og henrettet. Herfra stammer diktet som lyder; 'Remember remember the 5th of November'. Musikkstykket '1812 Overturen' er en bombastisk russisk hyllest med ekte kanoner og kirkeklokker. Den er lavet til slaget mot Franskmennene utenfor Moskva. Men slaget var faktisk et gedigent nederlag i det russerne gjorde retrett og overlot eks-hovedstaden til Napoleon. 'Det tredje Roma' brant til grunne, men Napoleon bedyret sin uskyld. Det kan så være, for det er betydelige politiske motsetninger i ethvert imperie som styres av Tempel, Trone og Stat. Dessuten var det betydelige allianser utenlands. Norge ble ingen russisk republikk av dette, men lavet sin egen grunnlov og fikk betinget selvstendighet 2 år senere.

Filme 'V for Vendetta' er godt lavet med kjente skuespillere. Det er en blanding av '1984', 'Phantom of the Opera' og 'Zorro'. Men det er skremmende hvordan kulter er blitt misledet til å tro at historien har noe med virkeligheten å gjøre. Enda mere overaskende er at historien fordreies for å organisere massepsykotisk sosiopati. Det er da grenser for hva man kan tillate seg med forsvar i egen urett. Det er ikke OK å myrde et tosifret antall mennesker, bombe bygninger, lure prester til utukt eller manipulere ungdom til blind hengivenhet og medskyldighet. Filmens fantasi forleder. Karakteren 'V' har sterke likehetstrekk med karakteren 'Joker' spilt av Heath Ledger. Hevn og kaos er målet som liksom skal hellige midlene.

Det er lissom kulere med 'Guy Fawkes-masken' enn Finnlandshette. Før den 5 november må det ha vært en rivalisering blandt de anonyme hackere om hvem som skulle 'sprenges'. En ETA-aktig 'Guy Fawkes'-figur publiserte på YouTube en trussel mot FaceBook. Det mislykkes, - så som i 1605.

Det siste halvåret har UU vært sterkt politisk preget. Det har vært påvirket av tilfeldigheter, uforutsigeligheter og ikke minst det forutsigelige parlamentsvalg. Selv har jeg gitt relativt sterke kommentarer akkompangert med utvalgt musikk. Argumentene er preget av mine 15 års erfaringer, som kan behøve noe bakgrunns-forklaring.

I 1995 var jeg utdannet Master of Science i EuroManagement. Det var et dypgående studie av det europeiske samarbeide i det Indre Market. Det handler om å anvende det beste fra offentlig og privat sektor for å lave bedre løsninger for dem begge, samt samfunnet forøvrig. Dessuten er det en kjennsgjerning at gjensidig samarbeide med naboer gir langt flere fordeler en ulemper. Dette er selvfølgeligheter for personer så vel som nasjoner. Men enhver bedring kan innebære makt- og resurs-omdeling. Statsmenn fryktet endringen. Det ble reagert kollektivt egoistisk med massepsykotiske ekstaser. Politikken ble kjørt ut på fotball-nivå.

Den norske rådgivende folkeavstemning i 1994 viste riktignok 'Nei' til EU medlemskap. Men samtidig ga parlamentet et tydelig 'Ja' til EFTA/EU sin gjensidige EEA/EØS avtale. Følgelig fikk Norge den overordnede EØS Loven i 1994. Norge ble med i Europas Indre Marked. Dette visste vi lærde godt og forventet bokstavelig talt 'lovlydig' og 'rettferdig' praksis i offentlig forvaltning. Naivt, kan det sies i ettertid da jeg påpekte relalitetene ved offentlige diskusjoner. Uoppmerksomt, kan det sies i ettertid, var å ikke tolke utydelige signaler. Likefullt, mine utspill ville neppe vært anderledes, så som; forslaget om opprettelse av 'Økokrim Offentlig avdeling', En Menneskerettslov og aktiv bruk av EØS loven.

Efterfølgende prosesser har bekreftet at det anti-europeiske anti-demokrati hemningsløst bruker effektive, men destruktive, taktikker som 'splitt og hersk' og 'Let's You and Him Fight' (LYAHF), mot nasjoner så vel som personer. Følgelig har offentlig sektor bekjempet de juridiske endringer og utviklet permanente kriminelle kulturer hvor 'angrep anses å være det beste forsvar'. Dette er kulturer som ernæret seg på verdenskrigene og er formet av dem.

Konsekvensene av å forsvare rettsamfunnet mot offentlig kriminalitet har vært belastende i den 15 års periode. Mine argumenters skarphet, er en direkte konsekvens av behandlingen, - likeså er oppfordringene om å bruke Straffeloven mot kriminalitet mot EØS- og Menneskerettsloven. Men jeg har også fått praktisk erfaringer med offentlig kriminalitet og det krigsskadede rettsapparat. Omtrent halvdelen av prosessene jeg har vært utsatt for, ble dokumentert og sendt the European Court of Human Rights. Men etter 2 års trenering, annullerte en midlertidig assistent saksdokumentene og destruerte dem året etter. Det ble gitt ingen ankemulighet. Så synes jeg det var bare en ting å gjøre – å publisere det hele på intnerttet:

Björk er en særdeles unik multikunstner av global størrelse. Spesielt oppmuntrende var hennes opprop for selvstendighet for Tibet i Kina. Modig. Island, hennes hjemland, er i samme politisk forhold til Europa som Norge. Samarbeidet våres er likevel forunderlig lavt. Trist.

Enhver mindretallregjering behøver et støtteparti. Det er et parti regjeringen ikke stoler på, men behøver for å overleve. Kompromissets pris kan bli for høy. Denne regjering's 'sorte får' heter EnhetsListen (EL) og tilsvarer det norske partiet Rødt. EL er fundamentalt sosiopatisk, antiparlamentarisk og antidemokratisk idet det baseres på Moskvatesene. Dermed hører hverken EL eller Rødt til i et demokratisk parlament. Men

velgere kan være naive. Det er spill av tid å argumentere mot dets kvasidemokratiske fasade. 'Målet, som helliger midlene' er voldlig statskupp og eliminering nasjonal parlamentarisme. Omtale av dette er dog alltid viktig.

Kulturelt startet den kalde krigs representanter i 60-tallet med å fremstille seg som intellektuelle. Var man bare så uflidd som Marx og brukte store briller, ville nok folket tro det. Barberhøvel og kam og ble kastet ut sammen med enhver estetisk sans. For er man uflidd og uestetisk, så må man jo være intelligent, ikk'? På 80-tallet var det kvinnfolkets tur. BH'n ble kastet og fremsto som partiets frie sexobjekt, med ga samtidig sterke advarsler til partipamper om holde hendene unna. Det hele ble dopet ned i den fremvoksende Christiania-kultur. Dette 20-året er dedikert rødstømpenes døtre. En fjortis-generasjon i spontane utbrudd og tilsynelatende uten reelle verdigrunnlag. EL generasjonen kan neppe utstå sitt eget politiske opphav hvis det ble erkjent.

Historisk sett ble den republikanske ideal-stat beskrevet av den politiske primat, Plato, for 2500 år siden. I Plato's idealsamfunn er han og likesinnede overherrer, mens samfunnets kvinner og menn er umyndiggjorte treller. Trellene sørger for samfunnets produksjon, mens statsregimet tar det hele og gir kun det livsnødvendige tilbake. Dette er demokratiets anti-tese. Regimet er ikke mere interessert i borgernes velferd enn en bonde er for sine nytteplanter og nyttedyr. Statskapitalismen er maksimert.

Moskva ble utnevnt til 'Det tredje Roma' på 1500 tallet. Det skjedde etter at det andre, og kristne, Roma ble kuppet av muslimer. Keiser Ivan fikk tilnavnet 'den grusomme' under imperiets brutale erhvervelser av nabolandene. Spesielt relavant for danskene er Moskvas gjenreisning for 100 år siden, fordi den danskfødte ex-keiserinne sto midt i menneskehistoriens største masseutryddelser. Dansk-tysk svigermor-svigerdatter intriger kan synes å få hele det kongelige keiserriket til å vakle og falle. Danmarks historie i forrige århundre er sterkt preget av følgene. Relasjonene er fremdeles sterke.

EL er kun en ny innpakning av det demokratiske alibi. Som nevnt innledningvis i dette tema, ble fundamentet grunnlagt av den russiske mafiabossen Stalin, som burde fått tilnavnet 'den grusomste'. Han så potensielle kjedereaksjoner av statskupp ved infiltrasjon av nasjoners arbeiderorganisasjoner. Siden dengang har LO vært en kynisk maktorganisasjon som anvender både fysisk og psykisk vold. De vil ha tilbake dominansen over borgerne i arbeide. Regjeringen presses innenfra så vel som utenfra. Så er det bekymrende at Nordisk Råd er bundet med særlige relasjoner til Kaliningrad, St. Petersburg og Murmansk. Endvidere kan danske neo-maoisters flirt med statskapitalismen gi sterke tilbakeslag. Mongolsk stalinisme har gått via Beijing til finanssenteret Honk Kong. Det gir liv i den gamle barnesang 'Tre små kinesere på Højbro-Plads', et sted som ligger mellom Christiansborg'en og Nordisk Råd.

Lustans Lakejer er en svensk New Wave gruppe som opprinnelig var preget av gruppen Japan sin producer Richard Barbieri. Dermed har de noe av samme opphav som David Sylvian. På 80 tallet hadde de sin storhet og fikk kultstatus. Vokalisten Johan Kinde har vært konstanten i suksess, splitt og gjenreisning. Denne sangen dedikeres EnhetsListen og relaterte organisasjoner.

Flash & The Pan - Down Among The Dead Men

28.okt.2011

Ukens Utvalgte:

Sosialistisk Folkeparti (SF) er det tredje og minste regjeringsparti. SF tilsvarer det norske Sosialistisk Venstreparti (SV). SV er overhode ikke noe Venstreparti i hverken dansk eller norsk forstand. For både SV og SF fremmer velferdsstatens forran borgernes velferd. Herfra kommer alt presset med å sette turbo, samt alt ekstrautstyr, på statsmaskinen. Dermed behøves ubegrensede mengder penger, makt, eiendom og reguleringer. Midlet overskygger målet i statskapitalismen.

SF hadde en relativt stor fremgang inntil parlamentsvalget. SV derimot hadde en katastrofalt tilbakegang i regjering. Derfor var SV hurtig med et studiebesøk til SF for å lære hvordan suksess skapes. Men her tar de begge feil. SV er flere regjeringsperioder forran SF i utviklingen. Det er SF som bør lære hvordan man takler nedgangen etter alle svikene deres velgere erfarer. Riktignok tar det tid for sympatisører å erkjenne at løftene kun var valgflesk, luftsuppe og venteboller. Men kun totalitære partier klarer å skjule løgner en hel regjeringsperiode. SV kan fortelle SF alt om det følgelige lange seilas mot bunnen. SF har aldri hatt regjeringsansvar og er derfor uerfaren og knapt nok moden for denslags realiteter. Det viser de barnslige beskyldninger mot regjeringspartneren RV.

Landsformanden får æren for fremgangen i SF. Hans startet sin politiske karriere som backpacker i Sovjetunionen og Latinamerika. Nå som utenriksminister kan dansker forvente at utenrikspolitikk blir endret til hans personlige sympatier og antipatier. SF var sterkt kritisk i opposisjon, men har nå lagt lokk på sakene. Det blir neppe mere kritikk om CIA fly over Grønland og militære lekasjer. Et annet signal er at Dalai Lama har kritisert møtet med den kinesiske okkupasjonsmakt. Danmark kan få en kald skulder fra USA, som Norges statsminister fikk etter uakseptable utenriks utspill. Danmarks relasjoner vil få et betydelig skift mot øst igjen ved den kommende vendetta mot tidligere borgerlig statsminister og nåværende NATO generalsekretær. Heldigvis tar andre ministre seg av Europa og Norden.

Dansk-russisk oljepolitikk vil bli en hovedsak i regjeringsperioden. Historisk føler danskene seg snytt da de i 1958 ble med på en midtlinje-delning i Nordsjøen. De trodde på et oljeselskap som sa at Ekofisk var uten olje. Dansker mener fremdeles at deres utenriksminister må ha vært full. Berusende virket det da den russiske oljegiganten Gazprom fikk tillatelse til å legge sitt gasrør via dansk territorie til EU. EU, på sin side, advarer med at konkurranseregler gjelder også russere. Alarmerende for dansker må det være at den tidligere demokratiske ukrainske statsminister Timosjenko nå er fengslet for 7 år etter en gasavtale med Russland. Dagens statsminister, som arrangerte arrestasjonen, opptrer som en russisk lakei. Det skal bli utfordrende for utenriksministeren å håndtere russisk-europeisk energipolitikk nykternt. Hvilke side velges så – Europa eller Russland – Gazprom eller folket?

For anledningen falt Ukens Utvalgte også på en australsk gruppe. Duoen, med en vokalist som knapt synger, hadde adskillige hits på 70 tallet. Tekster og melodier er stort sett fengende hele linjen over. Her, et lite omen.

Midnight Oil - Beds Are Burning

21.okt.2011

Ukens Utvalgte:

Det danske partiet Radikale Venstre (RV) er regjeringens blålige motvekt. Det er et ekte sosial-liberalistisk parti, som det originale Venstre var før verdenskrigene. Partiet er ikke radikalt, så forkortelsen RV gir gale assosiasjoner for nordmenn. Det Radikale Venstre er et ekte demokratisk, EU vennlig, borgerlig parti, som gir håp til EFTA/EU borgere om rettferdig utvikling i det Indre Marked. Dette er dog et tabutema som behøver utdyping.

Nasjonen Danmark har, som Norge, signert juridisk overordnede avtaler for EFTA/EU området. Vi er i det samme juridiske Indre Marked med de samme 4 Friheter. Parlamentene signerte de overordnede traktater i alle EFTA og EU land og har dermed lovpliktighet at: Toll og tilsvarende avgifter er forbudt. Sosial støtte skal gis direkte til borgerne (kontantstøtte). Konkurranseskadelige statsstøtte og diskriminering er forbudt, spesielt for offentlige virksomheter. Alle virksomheter har rett til å tilby leveranser til offentlig sektor. Brudd på dette er ulovlig og straffbart, selvom det var lovlig i Norge for over 15 år siden og i Danmark for nesten 40 siden. Det handler om mangfoldige milliarder kroner i året.

Så er det mildt sagt skuffende å konstant vitne offentlige ansattes ulovlige diskriminering av medborgere i Norden. Enhver nordisk borger har samme juridiske rettigheter i nabolandene som man har i sitt eget hjemland. Det sikres med EU traktatene, EØS loven, samt Europas og FNs Menneskerettighets-lov og konvensjoner. Nordiske statsborgere svindles for milliarder hvert år ved blandt annet skatt avgifter, samt manglende pensjonsoppsparing og refusjoner. Men offentlige ansatte opptrer som om deres kompetanse er undermåls og de handler mot bedre viten. Informasjonsplikten ignoreres. Ulovlighetene er kriminalitet og Straffeloven kan anvendes.

Et eksempel: Da 'toll og tilsvarende avgifter' ble forbudt for biler i det Indre Market, omdøpte Danmark sin 'toll' til 'registreringsavgift'. Et simpelt triks med ord. EFTA/EU borgere som flytter til Danmark for arbeide tvinges til å betale 'registreringsavgift' på over 100% av sin bil's verdi, i tillegg til de betalte avgifter i sitt hjemlandet. Sakens faktum er: Registreringsavgift i EU/EFTA begrenses til ca. 5000 kr. Dansk praksis er ulovlig konfiskering, og det er bevisst organisert kriminalitet. Sådanne statlige kriminaliteter skader Nordens demokratiske kulturarv samt titusener av nordiske familier.

Nordisk Råd er avgjørende viktig for det nordiske demokrati. Danmark har nå etablert et ministerie for nordisk samarbeide. Å være tildelt. Desværre er det ikke oppriktig når den samme minister også skal styre Kirke og Likestillings ministeriet motstander av Folkekirken. Han sier han fremdeles har sin utmeldingsblanket i lommen. Riktignok sier man sjeldent nei til å bli minister. Et dobbelt-ministerie kan bli for mye for en person, men to ministerier vitner om urealistisk egenvurdering. Utnevnelsene er useriøse og vil selvfølgelig ikke fungere profesjonelt nok. Dette er en OM'er, og det vet regjerings-kollisjonen utmerket godt.

Som borgere i et dansk-norsk ekteskap blir en av oss diskriminert og en behandles som annenrangs borger uansett hvilket hjemland vi bor i. Nasjonenes intensjoner, de juridiske forpliktelsen og borgerne er ikke diskriminerende, men forbrytelsene gøres i de offentlige forvaltninger, - bevist eller ei. Den ignorante praksis tilsier at man skal være statsborger i sitt gjeste-land for å beholde sine statsborger-rettigheter. Derfor tillater de fleste europeiske nasjoner dobbelt statsborgerskap. Men desværre, Norge og Danmark er skammelig stamhaftige og annullerer isåtilfelle hjemlandets statsborgerskap. Denne praksis er høyst unormal og strider mot vestlige demokratiers etikk, juridik og moral. Konsekvensen er en inhuman, amoralsk, illegal og uetisk offentlig behandling av nabolandenes borgere, på viktige menneskeretts-områder som eiendomsrett, jobbtilgang, sosial sikring m.m. Følgelig blir dansker og nordmenn i utlandet også diskriminert av sine egne offentlige tjenestemenn. Det danske regjeringspartiet Radikale Venstre gir håp internasjonal likerett i Norden.

Ukens utvalgte gir mer australsk musikk til dette dansk-norsk tema. Australske ørkner kan virke fjernt for nordmenn, men faktisk er vi naboer ved den antarktiske isørken i Dronning Mauds Land. Det var neppe nordmenn gruppen tenkte på da de lavet denne enestående hit om å gi tilbake det som uretmessig er tatt. Tollere og andre statlige syndere kan da umulig sove godt i oljenasjonen Norge.

Nick Cave - Easy Money

14.okt.2011

Ukens Utvalgte:

Sosialdemokratiet (SD) tilsvarer det norske Arbeiderparti (AP). Dog har danskene erklærer seg demokratiske i parti-navnet. Den nye statsministeren er utradisjonell og vil omforme partiet til noe tilsvarende den engelske Tony Blair's New Labor. Følgelig skuler hun til sosialliberalismen og prøver å løsne seg fra LO's båndtvang. Det kan ikke LO like. Det strider mot deres fundamentalt stalinistiske 'ta alt' kultur. Sosiale demokrater skal få merke at den kollektive 'den sterkeste rett' er langt fra demokratisk.

LO er ikke hva de utgir seg for. Det er en storkapitalistisk multinasjonal virksomhet med uhemmet makt- og profittbegjær. Det utnytter tusener av lavtlønnede til sort gratisarbeide i andres virksomheter. Belønning går utenom selvangivelse med kamertslike gjenytelser. Danske LO's økonomiske nøkkeltall er tydelige; konsernets egenkapital er på hele 655,6 millioner kroner, det er kun 148 betalte ansatte, årsresultatet angis til -17,3 millioner kroner og følgelig betaler ikke LO noen skatt. Deres grunnleggende verdier er egen makt og kapital. Fundamentet ble grunnlagt av mafiabossen Stalin, som så potensielle kjedereaksjoner av statskupp ved infiltrasjon av nasjoners arbeiderorganisasjoner. Siden dengang har LO vært en kynisk maktorganisasjon som anvender både fysisk og psykisk vold. Korrupt inkompetase plasseres i beslutningsprosesser på begge sider av forhandlingsbordet. Motivet er ikke medlemmenes eller andre statsborgeres velferd. Argumenter som solidaritet, velferd, likelønn, brukes fordi de er profitable.

Stadig mere penger i statskassen er en hovedsak for statspartier. Faktisk er de samlede skatter og avgifter på over 70% av statsborgernes lønn, når en betrakter hele linjen fra produksjon til konsum. Resten er knapt nok tilstrekkelig til et anstendig liv. Det er særdeles lettjente penger å øke avgifter og innføre nye. Men nå kan det ikke klemmes mere ut av borgerne uten å gjøre dem til gjeldsoffer. Det er statens massive og ustyrlige pengeforbruk som må endres. Derfor er det åpenbart at et finansselskap, og pensjonskasse, ikke kan kreve statssubsidier for en minoritet av sine kunder på bekostning av alle andre i samfunnet. Selskapet skal selvsagt betale av egen kasse til sine egne kunder, selvom det subsidiene kalles Efterløn og kapitalisten heter LO. Tilsvarende er antydningen om de 12 minutter ekstra-arbeide som angivelig skal finansiere de nødvendige 15 milliarder kroner. LO skal jo bare si noen alvorsord til sine egne om å ikke snyde med sykefraværet. Å pjække og skulke skaper ikke flere arbeidsplasser, medlemmer eller inntekter. Disse simple ord fra egne til egne burde være selvfølgelig. Det kunne tette et enormt pengesluk i offentlig sektor.

Det ble heist et stort rødt flagg fra første dag. Det bør vaie under hele regjeringssperioden. Det danske politiets sikkerhetstjeneste, PET, nedla veto mot den utnevnte finansminister. Grunnen var et nært forhold til Hells Angels. Som erstatning ble danmarkshistoriens yngste representant utnevnt til posten. Tidenens yngste er tidenes minst erfarne. Han er sannsynligvis ikke kompetent til rikets hardeste maktkamper om arvegullet. Selv de mest banale kriminalromaner er så opplagte som dette spillet. Det er så åpenbart som da Norge utnevnte en politisk bimbo til finansminister. Et halvt statsbudsjett forsvant under finanskrisen, som om det var en sjebnesvanger bagatell. PET bør ha skarpe øyne på statens finansmiljø i årene fremover, for her er kanskje danmarkshistoriens største ran i gjære, - som om en fraksjon som Blekingegadebanden gikk løs.

Australske Nick Cave er indirekte relatert til Danmark, siden den kommende danske dronning er opprinnelig australsk. Nick spilte da også for kronprinsparet i den kongelige opera. Ukens utvalgte er best i en sådan melankolsk scenopptreden. Budskapet er dog her like klart fra en borger til statsmenn.

VETO - Built To Fail

07.okt.2011

Ukens Utvalgte:

Månedens tema baseres på parlamentsvalget i Danmark. Den nye rød-blå mindretallsregjering er allerede i hardt vær. Politikken diskuteres ivrig her nede. Min vinkling blir dog ikke tradisjonelt dansk. Jeg har ikke stemmerett her jeg jobber, skatter og bor. Dette er kun et lite symptom. Som EFTA/EU borger i et dansk-norsk ekteskap, blir alltid en av oss diskriminert uansett hvor vi bor. Derfor blir disse betraktninger på Danmark og Norge som på to flertallsdiktatur. Så får en heller bruke den stemme en har til å påvirke med skrivelier.

Juridisk sett ligger de internasjonale forpliktelser til demokratisk utvikling på plass. Fundamentet ligger i EFTA og EU traktatene, Europas og FN's menneskeretts konvensjonene, samt Nordisk Råd's konvensjoner. De er signerte for flere titalls år siden. Men manglende nasjonale ratifisering av lovene, samt fortielse i den fjerde statsmakt, skaper ignoranse tilsvarende udemokrati. Problemet ligger ikke så mye i intern nasjonal forsømmelse, som i motarbeidelsen av det forpliktende regjeringssamarbeide.

Historisk sett har Danmark og Norge en anti-demokratisk kulturarv. Miljø og arv er preget av Danmarks, og da spesielt hovedøen Sjælland, sin strategisk viktige posisjon mellom Atlanterhavet & Østersjøen, Russland & Tyskland, samt England & kontinental-Europa. Imperier har sikret seg denne posisjon og følgelig satt dansker ovenfor fatale 'med eller mot oss'-valg. For hva hadde danskene med slavehandel i andre kontinenter å gjøre? Historisk sett har de også diltet etter Napoleon, Hitler og Stalin. Det skyldes ikke frie valg, men påførte ublide skjebner. Desværre er det følgelig utviklet traumatiske arvesynder som Janteloven, gresk statsforvaltning og internasjonal xenofobi. Denne påførte kulturarv har Norge også, helt siden Kalmarunionens dager.

Nå har danskene valgt sin første kvinnelige statsminister. Det er en dyktig leder som kanskje kan mestre situasjonen. Så passer det også godt med sesongstart for den danske TV serie 'Borgen'. På norsk ville en tilsvarende serie hete 'Tinget'. Men noe tilsvarende blir neppe lavet. Her er danskene suverene. TV episodene kan ses her.

Gruppen Laibach ble bemerket med noen ex-jugoslaviske cover-versjoner av kjente hits. Denne fremføring er dog atypisk idet der er en ung kvinne og ikke en patriark som synger. Som en matriark uttrykker hun fundamentale verdier med fire små gutter.

Igjen spiller imperiene mot hverandre i F.N. Rivalers revir ærklæres selvstendighet. Så må det nedlegges veto, så får en alskens dramatiserte psykososiale politiske spill. I dag; US og Israel - I går; SU og Serbia. Blir det en Berlin-mur i Jerusalem?

Imens synges det; 'nothing's gonna change my world'.

Nik Kershaw lavde mange populær-hits. Tekster var ofte gjennomtenkte og gode, noe danseløver neppe bet seg ad nota. Denne tittelen viser til en politisk kultur som er eldre enn kristendommen. En ukultur av den politiske primat, Plato, den republikanske stat sin fader. Nå er bekymringen igjen rettet på det's overvåkere. Er det ikke kvalitative kriterier og kontroll av deres lojalitet og mentalhelse?

Ukens Utvalgte:

Denne 6. og siste episode av "Det er noe galt i Norge – også", baseres på Carsten Jensen's: 'Det første offer'. Tittelen baseres på ordsproget: "Sandheden er det første offer i enhver krig". Han fremviser nyhetsbildene fra massemediene som forfattet og redigert tilsvarende teaterstykker. Informasjonskrigen slutter aldri og sannheten ofres alltid. I denne filmen er Danmark's fokus naturlignok Irak og Afghanistan-krigene på grunn av Mohamed tegningene. I en norsk film ville vinklingen være noe annet, særlig etter den 22/7.

Terroristen er selvsagt ikke alene om en så stor aksjon, selvom politiet og terroristen påstår det. Det ligner mest en leiesoldat med anonyme oppdragsgivere. Han meldte seg ut av samfunnet for 10 år siden og har knyttet kontakter i 10-20 land med bl.a. våpentreningen i Hviterussland. Det er virkelig bekymrende hvor enkelt en leiesoldat kan omprogrammeres til å gjøre hva-som-helst mot hvem-som-helst. Værre våpen finnes ikke. Han kunne aldri ha klart udådene med normal og simpel overvåkning, rapportering og reaksjoner. Det er så mange avgjørende alvorlige feil hos politiet og andre statstjenester at argumenter som antyder tilfeldigheter og uhell er suspekter. Årsaken til alle dekkhistoriene kan juridisk begrunnes i 'hensyn til rikets sikkerhet'. Det er ok så lenget rikets tjenestemenn herefter faktisk tjener rikets sikkerhet.

Overaskende for hele verden, ble Norge det neste offer for terror-bombing. Vi var neppe første-valget for terrorister, men nivået for vår nasjonale sikkerhetspraksis gjorde udåden relativt enkelt å gjennomføre. Mediafokus i denne sorgens måned, synes å overse at terrorangrepet på Regjeringen var et mislykket kupp eller hevnaksjon. En norsk versjon av ukens film kunne derfor sette fokus på Norges engagement i Kosovo-krigen og Palestina-krigen. Som denne ukes kåsør påpeker, den fjerde statsmakts dreier allmennkunnskapen, - og hukommelsen.

I den kalde krigen holdt Tito føderasjonen Jugoslavia sammen. Det var med Russland's velsignelse og støtte. Med Tito's død løsrev land som Macedonia, Kroatia, Serbia og Slovenia seg. Nabolandet Albania så sin sjanse til å innvadere Serbia's region Kosovo med 1 million albanere og en aggressiv gerilja. Norge gav støtte til albanerne på serberners bekostning. Da NATO startet bombing av Serbia skjedde uforklarte ulykker i Norge. Det var Storbrann i Oslo Sentralbanestasjon og voldsom togbrann på Lillestrøm. Det kunne gått langt værre. Politiefterforskningen førte ikke til noe. Nå har Norge og andre land offisielt uttrykt anerkjennelse av Kosovo som selvstendig stat med albansk dominans. Det kan ha uoversiktelige og irreversible konsekvenser i fremtiden. Kan et land bare innvadere naboens region, få militær-støtte og gis nasjonal selvstendighet? Hva så med Russlands tapte satellittstater, Kinas eksplosive ekspansjon og Midt-østens regioner? Tibet? Taiwan? Finnmark? Israel? Ingen grenser vil i så fall være trygge.

Det var en terroraksjon, ikke kun mot Norges regjering, men også mot NATO, EFTA/EU og FN. Derfor skal NATO involveres i efterforskningen. Dessuten blir Europas politi-samarbeide med Schengen-avtalen spesielt aktuell. Norge har nå stort behov for betydelig assistanse fra NATO og EU, for dette klarer vi tydeligvis ikke alene. Man skal ikke glemme uttalelsene fra eks-spionen Selmer's om at spioner skulle ta

karriere i militæret eller politiet (eller selvsagt annen myndighet), eller gifte seg med en (eller selvsagt relateres på andre måter) (uu 12/8). Følgelig skal Utenriksdepartementet's aktiviteter og relasjoner granskes. Her kan 'Midtøsten eksperten' og PFLP/DFLP terrorist Lars Gule bidra med sin ekspertise. Som nevnt var den ekstremt voldlige Blekingegadebandens oppdragsgiver den samme terror-organisasjon (uu29/7). Relasjoner rundt utenriksministeren's appell om Palestina-saken på Utøya kan også gi viktige ledetråder. Det bør også vurderes om det er noen relasjoner til narko-mafiaen som har familien Stoltenberg i vold (uu 1/7). For partiet AP er det et fritt holdningsvalg om de skal tolerere relasjoner til venstre-ekstremister og dermed utsette partiet for andre ekstremisters gjengjeldelser. Men et regjeringsparti skal overhode ikke tolerere noen som helst ekstremistiske relasjoner. Det er å utsette rikets sikkerhet.

Nå er den offisielle sørge-fasen over. Uheldigvis går det direkte over i politisk valgkamp i massemediene. Samfunnet har ikke gått igjennom alle sjokk-fasene enda, heller ikke agresjons-fasen. Partilederne har vist et stort ansvar ved å frastå provoserende innspill. Men det ulmer i ekstremistiske grupperinger og de venter på opportune utspill. Hvordan skal pressen klare å holde seg anstendig og ikke som et negativt massepsykotisk superior-ego? (uu 19/8)

Talking Heads – Heaven (slettet?)

19.aug.2011

Ukens Utvalgte:

Denne nest-siste episode i serien 'Det er noe galt i Norge - også', baseres på Sherin Khankan: 'Korsvejen'. Den har et religiøst tema. Hun sier de fleste muhamedanere er fredlige mennesker og at Islam er forenelig med demokrati. Det må jeg si meg enig i, men dessværre, teori og praksis er ikke så enkelt, kan vi se. Religion handler hovedaklig om positivitet og negativitet. Religioner's, og menneskelig natur, er ikke konstante entydige faktorer. Hverken vi eller våres religioner er perfekte.

Religioner eksisterer. Selv ateister må erkjenne det og må dermed forholde seg til det. Religioner sies å være de første filosofier – de med de store spørsmål. Det er dog grenser for den menneskelige fatte-evne og følgelig vår evne til å besvare. Vi har spørsmål om Universet start og omfang, om hvorvidt tid og sted har begynnelser og slutt, hva liv er, om skapere eksisterer, og om hva som er godt&ondt, konstruktiv&destruktiv, rett&galt. Det finnes ikke noen religion som er utelukkende positiv eller negativ, for det finnes godt og ond i alle mennesker og religioner. Dessværre kan svindlere å innbille godtroende at de er Guds utsending, formidlere eller hevner. Alle religioner kan ha svindlere, lik som enhver stat eller trone kan ha det. Spekulasjoner om Himmel og Helvete er særlig utbredt som falske løfter om belønning eller straff. Dette har gått for langt.

Psykologi betyr læren om sjælen og er dermed opprinnelig et religiøst tema. Både Teister og Ateister må erkjenne det. I teorien ble psyken delt i tre; ID/Barnet/Kropp, Ego/Voksen/Person, samt SuperiorEgo/Foreldre/Formynder. Mentalhelsens nivå kan sies å gjenspeiles i Personligheten – hvorvidt den er utviklet og hvorvidt den får utfolde seg. Usunne samfunn undertrykker borgernes personlighet og gir ordet 'ego' en negativ betydning. Det skaper frustrasjon, vrede og doping. Psykopatiske organisasjoner bryter systematisk ned personer's Ego og tar funksjonen som deres SuperiorEgo. Dermed kan de diktere personens irrasjonelle og emosjonelle ID. Hypnose fungerer tilsvarende.

De tre monoteismer, Jødedommen, Kristendommen og Islam, har med sine skrifter, Gamle Testamentet, Nye Testamentet og Koranen, influert samfunnsutviklingen betydelig i årtusner. Noen kilder er så gamle som fra steinalderen og avspeiler følgelig profetenes mentale nivå. Opptil 90% av menneskeheten tror på guder og cirka 50% på Engler&Jinns/Demoner. Psyko-sosialt er det derfor avgjørende viktig at teologer tydelig uttrykker hva som er direkte galt og ondt i sine skrifter. Manglende tydelighet påvirker direkte mennesker, samfunn og menneskeheten. Eksempelvis er Johannes Åpenbaring så full av onskapsfull galskap at det må være skrevet av alvorlig mentalt forstyrrede personer. Johannes Psykose aviker på flere måter fra de andre skrifter i N.T. og hører ikke hjemme der. Denne, og andre deler i de tre monoteistiske skriftene, er direkte årsaker til de ekstremt grusomme terrorhandlinger mot uskyldige mennesker. Rett skammelig er teologers fortelser og projisering av sitt ansvar. Så blir det også tydelig hvorfor og hvordan ateistiske NasjonalKommunister og ReligionsKommunister har infiltrert og manipulert religiøse organisasjoner til å misbruk.

Siviliserte muslimer, jøder og kristne er selvsagt like velkomne i siviliserte samfunn. Det er menneskeligheten i menneskene som er avgjørende. Skal man så ta budskapet i denne ukes episode på alvor, - så er løsningen Islamsk protestantisme. Jeg har ikke sett noen islamsk Luther. Er ikke muslimer klare for demokratisering av sin religion alikevel?

Ukens Utvalgte:

Tanken var for en måned siden å omtale 3 av de 6 danske episodene, men etter omstendighetene omtales like godt resten av dem. Denne ukes 'Det er noe galt i Norge - også', baseres på Bjørn Lomborg sin 'Blackout – når iltsvind kvæler fornuften'. Utgangspunktet er den danske miljø-aksjon mot oksygenmangel i danske farvann. Med overfølsomme og dårlig dokumenterte miljøargumenter ble 5 mrd kroner plustelig flyttet til en ineffektiv og dyr panikk-løsning. Følgende langtidsgjeld er en indirekte årsak til danskens økonomiske kriser i dag. Spontan massepsykose som politisk beslutningsgrunnlag skjer selvsagt i Norge også. Før man vet ordet av det, sitter man tilbake med Katta i Sekken og et gedigent gjeldsbrev.

Den andre siden av miljøkriminalitet kan skyldes massive fortielser. For Norge, og resten av verden, er naturødeleggelsene i Arktis uforståelig omfattende. Som tidligere nevnt: Atom-katastrofene fra 60-tallet ble massivt organisert fortiet. Men nå kan enhver se og lese om russernes detonering av 224 atombomber, 265 megaton, med sprengkraft 20.000 ganger Hiroshimabomben eller 100 ganger all sprengkraft i den andre verdenskrig. Det hele tilsvarer en totaleutslettende atomkrig i Nordpol-området og tilhørende radioaktiv forurening. Det er et globalt anliggende. Radioaktivt avfall er spred med alle vinder, samt ned Atlanterhavs- og Stillehavs-strømmene. Det ligger også radioaktivt avfall i den smeltende Nordpol-isen. Alt gjenværende liv, som fisk, hval, sel, er sterkt utsatt. Forsøk på å omtale forholdene er bevislig sterkt motarbeidet av russisk sikkerhetstjeneste. Nikitin skrapte kun litt sne av toppen av isbjørget før total-fortielsen.

Hvordan kan hele Nord-Europa holdes uvitende om sådan atomkatastrofe i sitt nærområde i et halvt århundrede? Med psykososial terror – simpelthen. Det er vanskelig å forklare og bli trodd. Det viser TV dokumentaren om Selmer – en 15 årig gutt, en offergave til S.U., for å spionere på U.S. Familien trodde spionasjen skulle være mot de forhatte tyskerne. Hans historie forteller også om U2 flyet, profesjonell spionasje og at Bodø var tett på å bli nuke't. Utsendelsen av dokumentaren ble ulegitimert forhindret av NRK i 30-40 år. Man kan selvsagt tvile på enkelte av Selmer's uttalelser, så som at hans reiser til Oslo var kun for

å feste og at han ikke kjente til andre spioner. (De var høyst sannsynlig riktig mange, når normal organisasjons-illojalitet på 2% gir rundt 100.000 i Norge av forskjellig art.) Historien gir en menneskelig beskrivelse om hvordan en ufrivillig kan fremme terror og hvor hardt det kan være å komme seg ut. Men siviliserte samfunn tilbyr betinget benådning og tilgivelse.

Danmark har i øvrig vært traumatisert av S.U. bombing av Bornholm og etterfølgende frykt for atombomber fra Kaliningrad. Man kan jo også se hvor handlingslammet regjerings-samarbeidet Nordisk Råd er blitt med sine relasjoner til Leningrad, Kaliningrad og Murmansk.

Dog handler ukens episode om Hummer med Pustebesvær og den massive miljøinnsats på området.

Talking Heads – People Like Us

05.aug.2011

Ukens Utvalgte:

Denne tredje del av 'Det er noe galt i Norge - også' baseres på Claes Kastholm: 'Oprøret mod formynderstaten'. Terrorangrepet i Norge har ført til omprioritering, så dette tema er en direkte konsekvens av den danske politiker Pia Kjærsgaard sin innblanding. Denne Tante Jante er en fare for sine omgivelser og hennes maktbegjær tillater neppe å innrømme det. Men nå er det trampet over en grense for meget. Hennes livsfarlige fjortis-politikk skal stoppes med innskjerpet grensekontroll.

Claes sin video omtaler det danske Fremskrittspartiet som ble etablert av Mogens Glistrup. Som i Norge, ble det skapt et valgskred fordi borgerne var så trette av de inkompetente formynderstater. Glistrup var intelligent og provoserende, men ikke særlig karismatisk. Da han ikke helt forsto hvilke mektige krefter han provoserte, kunne han heller ikke se at han gikk rett i en skattefelle. Den danske stat presterte faktisk å fengsle en parlamentariker. Senere tapte Pia en intern votering, følgelig splittet hun Fremskrittspartiet. Hun dannet et dansk Folkeparti som ble matriarkisk, pedagogisk, EU-fobisk, kristen-ekstremt, nasjonalistisk og tilslørt sosialistisk. Tilsvarende splittelse og partikupp ble forsøkt i det norske Fremskrittspartiet i '93. Partilederen ble betydelig svekket, men falt ikke. Derfor er Siv Jensen en vidreføring av Fremskrittspartiet og ikke et resultat av et partikupp. Partiene er ikke sammenlignbare.

Det norske Parlamentet har etter terror-angrepet på sin Regjering fornuftig nok avtalt å moderere politiske uttalelser i denne nasjonale krise. Så våger denne danske Tante Jante i sin vesle-voksne pubertets-mentalitet å kritisere norske politikere for å "gå på kompromis med ytringsfriheten", samt å være "uden rygrad". Pia har igjen uttalt seg sterkt om det hun minst av alt forstår; Ytringsfriheten. Tilhørende er nemlig Ytringsansvaret. Ansvarer gir begrensninger for friheten for nasjonalt sikkerhet, offentlig trygghet, helse og moral, andres omdømme og rettigheter, etc.

Menneskerettsloven - Ytringsfrihet <http://www.lovdatab.no/all/tl-19990521-030-014.html#A10>

Pia brenner for Mohammed-tegningene. Men det behøves visst stadig å påpekes noen fakta. Tegningene ble først publisert av den nytilsatte, russiske-relaterte kulturredaktøren i JyllandsPosten. Alle forsøk på å gi den danske Statsministeren skylden feilet, så JyllandsPosten selv fikk skylden for sin handling. Gjenpubliseringen av tegningen er utvilsomt brudd på Ytringsansvaret fordi det bevisst utsetter rikets sikkerhet. Det er grovt brudd og høyst sannsynlig straffbart, - også med dansk lovgivning. En partileder eller redaktør kan ikke vedvarende påberope seg uvitenhet om dette.

Pia's utilbørlige og tankeløse innblanding i Norges sikkerhet kan dog unnskyldes med dansk kulturutvikling i etterkrigstiden, men hun er også skyld i den. Hun fremstiller seg som en pedagogisk matriark. Pedagogikk betyr som kjent barnelære. Hun applerer primært til Barnet (ID) i danskene. Hun behøver borgere med underutviklet barnlig mentalitet til sine emosjonelle og tankeløse utspill. Hun ønsker ikke ansvar for sine handlinger og plasserer partiet i en vippeposisjon. Det er ideelt for en Femme Fatale. I øvrig er den politiske taktikk basert på det psykologisk spill "LYAHF" - "Let's You and Him Fight".

For de Skandinaviske Rikers sikkerhets skyld ville det være tryggest om Pia ble pålagt taushet inntil sikkerhetskrisen er over. Det kunne gjøres hvis danskene fikk ratifisert menneskerettighetene og koblet det til en straffelov, som i Norge. Desverre er for meget for en nordmann å be om. Men hennes uttalerer synes å ønske eskalering av terrorens skadevirkninger og rammes antagelig av enhver nasjons straffelov. Dessuten kan hennes politiske nettverk ha viktig informasjon for å avdekke internasjonale terrornettverk. Det er derfor rimelig grunn til at Pia Skjersgård inngår i terrorsakens interasjonale etterforskning, og følgelig pålegges taushet mens saken pågår. Hørte jeg et nordisk lettelsens sukk? Neivel. John Cleese har dog noen avsluttende ord om saken:

Talking Heads – Road to Nowhere

29.Juli.2011

Ukens Utvalgte:

Sist ukes begivenhet viser at man ikke behøver å kikke på Danmark for å se at; 'Det er noe galt i Norge - også'. Den hendelse vil stå som en milepel i terrorhistorien. Nå gjelder det for sivilisasjonen å ikke tjene sosiopatiet med forhåndsdømming og kollektiv selvjustis. Ting er ikke helt som de fremvises og følelser gjør en blind. Psykopatiet har igjen erklært krig mot menneskeheten. Menneskehetens neste trekk blir avgjørende.

Dette er en global krimalsak og en krigserklæring mot FN/UN, NATO og EFTA/(EU). Saken skal behandles tilsvarende. Angrepet på den norske Regjering er en trussel mot alle deres Regjeringer og de er kollektivt forpliktet til å gjøre noe med det. Det er det demokratisk valgte Stortingets/Parlamentets Regjering som er

angrepet og skal re-etableres. Utilbørlig innblanding av interesseorganisasjoner vil være høyst suspekt. Særlig alarmerende er interesseorganisasjonen LO sin politiske psykose om en symbiose med Regjeringen.

Kriminelle vil forhindre å bli avslørt. Det er en vel så stor del av planleggingen som selve handlingen. Hvis rivaler blir dømt istedet, anses det som en ekstra seier. Aktøren i dette 'spillet' er til de grader manipulert. Virtuelle virkelighetsoppfatelser dominerer. Han fremstår som et tilfelle nevnt i innlegget av den 8. juli om "Forbrydelse under Hypnose". I denne kriminalsak handler det derfor også om å finne hans manipulatorer. De er tilstede, de observerer alle begivenhetene grundig og de vil manipulere etterforskningen hvis de kan. Aktøren har nøklene, - bevisst eller ei. Profesjonelle etterforskere skal derfor få gjøre sin jobb i sikkerhet før manipulatorene får ta ham. Forøvrig kan en etterforskning av etterforskningen av VG's redaktør Olav Versto's dødfall gi spor i denne saken. Dessuten er det flere hendelser, som Ordrerud-saken, som kan vise rettspraktiske tendenser.

Ingen involverte skal ha imunitet. Det er derfor nødvendig med inngående etterforskning, - også av 'treenigheten' AP, AUF og LO. Vi vet at AP og AUF ble rammet ekstremt hardt, men vi vet også at LO er nærmest beskånet. Det er derfor høyst aktpåliggende i etterforskningen å finne eventuelle motiv, midler og alibi i alle LO sine organisasjoner og nettverk. Ønsker LO makten? Har de ressursene? Hvem var de i seng med på gjerningstidspunktet? Har de voldlige tendenser? Hva er holdningen til kriminalitet og rettssamfunnet?

Min erfaring er at det er store forskjeller på LO, LO og LO. Dessuten har LO internasjonale søsterorganisasjoner. Enda mere interessant kan nettverk til eksterne organisasjoner være. Noen eksempler: Vi kjenner til den ekstremt voldlige Blekingegadebanden, som var en dansk celle tilsvarende RAF (Rote Arme Faction). Banden var konsulenter i politiet, opererte også i Norge og Sverige og ga angivelig pengene til Palestina. AUF's hadde også Palestinsk stat på dagsordenen i sommer. Verden kjenner også Regjeringens favorisering av Albania i Kosovokrigen. Det er slagmarker vi ikke ønsker her i landet. Verden kjenner også til 'Molotov-Ribbentrop Pact' mellom NasjonalSosialistene og NasjonalKommunisten. Valgalianen sørge for Hitlers seier og Stalins ervervelse av bl.a. Nazi krigsfly. De ble selvsagt brukt i tokter på den andre verdenskrig. Er tilsvarende alliansen vekket til live? Det kan forhindres.

Norge er på vei fra Sjokk-fasen til Benektelses-fasen. Norge har sterkt behov for omfattende profesjonell hjelp av sine allierte, - tross benektelser. For menneskeheten og demokratiets skyld, sørg for at det blir en sivilisert rettergang og gjenoppbygning.

Ukens Utvalgte:

'Det er noe galt i Norge - også' del 2 av 3, er basert på Eva Smith sin; 'Der var engang en rettsstat'. Hun fokuserer på de 3 nye lovpakker som ga en betydelig dreining av Rettstaten. Det bekymrer henne meget. Spesielt alarmerende er at Irans republikanske presiden nå sammenligner den danske rettspraksis med sin egen. Hva kan man bruke som demokratisk korleksjon? Svaret er enkelt og selvfølgelig: Ratifier "Menneskerettighedsloven".

Eva Smith: 'Der var engang en retsstat'

http://www.dr.dk/DR2/D/Der_er_noget_galt_i_Danmark/De_6_film/smith.htm

De fleste Forenede Nasjoner signerte Menneskerettskonvensjonene rett etter den andre verdenskrig. Følgelig forpliktet nasjonene seg til å ratifisere dem til nasjonal lov. Nå, – et halvt århundrede senere har de færreste nasjoner fullbyrdet forpliktelsen. Den politisk ukorrekte sannhet er at ratifiseringen aktivt forhindres. Forklaringen er simpel, - menneskerettighetene beskytter borgerne mot statlige overgrep.

Juridisk og parlamentarisk sett er ratifiserings-prosessen særdeles enkel. En parlamentariker skal bare foreslå at konvensjonene skal godkjennes som nasjonal lov. Demokratiske parlament kan ikke nedstemme forslaget og overleve. Ergo, - et enkelt forslag – og nasjonen får “Menneskerettsloven”, Se; <http://www.lovdatab.no/all/nl-19990521-030.html>. Den er juridisk overordnet annen lov – selv Grunnloven.

Menneskerettsloven begrenser statsmenn overgrep mot statsborgerne angående; eiendom, selvbestemmelse, sikkerhet, privatliv, familieliv, arbeid, utdanning, samt sikrer friheter for tanke, samvittighet, religion, ytring og mer. Statmenn's brudd på Menneskerettsloven kan relateres til Straffeloven og rettsforfølges. Men desværre, det norske rettssystemet er alvorlig krigsskadd og viser ikke troverdige tegn på bedring. Menneskerettsloven forblir en meget godt skjult virkelighet.

Talking Heads - Paper

Ukens Utvalgte:

'Der er noget galt i Danmark' heter en programserie fra DR2. 6 menings-makere får fritt ord i noen minutter til å omtale kritikkverdige samfunnsforhold. 'Det er noe galt i Norge - også' burde en tilsvarende norsk programserie hete. Herved vil jeg omtale tilvarende forhold i Norge og tar tak i den første av 3 utvalgte: "Morten Messerschmidt: 'Det store bedrag' (EEC valget)". Se videoen:

http://www.dr.dk/DR2/D/Der_er_noget_galt_i_Danmark/De_6_film/messerschmidt.htm

i 1994 var, og fremdeles er, Norge medlem i EFTA (European Free Trade Association). Det var et klart flertall i Parlamentet (Stortinget) om å bli medlem av EEC (European Economic Community). I demokratiets navn besluttet Stortinget å ha en rådgivende folkeavstemming forut sin egen avstemming. Som kjent viste resultatene et knapt flertall mot EEC traktatet. Ukjent for de fleste er at Stortinget på samme tid vedtok den tilsvarende EEA avtalen (European Economic Area) mellom EFTA og EEC. All argumentasjon om at 'Nei til EEC' var et nei til dets fire friheter, var en massiv og bevist folkeførelse, fordi Stortinget signerte EEA avtalen uansett. Siden 1994 har EØS loven vært overordnet lov i Norge. <http://www.lovdatab.no/all/nl-19921127-109.html>

Landets propaganda-maskiner kjørte i høygir i et halvt års tid – kun for et simpelt Ja/Nei – spørsmål. Følgelig ble de politiske massepsykoser til allmennviten. Alle de halve sannheter om EEC frihandel var irrelevante, simpelt hen fordi vi ble med i det samme Indre Marked uansett. Følgelig ble det til en overordnet lov for alle EFTA og EU land at: Toll og tilsvarende avgifter er forbudt. Sosial støtte skal gis direkte til borgerne (kontantstøtte). Konkurranseskadende statsstøtte og favoriseringer er forbudt, spesielt til offentlige virksomheter. Alle virksomheter skal kunne være leverandør til offentlig sektor. Brudd på dette er ulovlig og straffbart, selvom det var lovlig i Norge for 15 år siden og i Danmark for nesten 40 siden. Det handler om hundretalls milliarder kroner i året.

Hvis Danmark ikke ble med i EU, ville de forblitt i EFTA og sannsynligvis vedtatt den samme EEA avtale. Med Danmarks fire unntak av fra EU traktatet ,samt Schengenavtalen, er Danmark sitt forhold til EU faktisk meget lik Norges, Islands og Sveits' forhold sitt til EU. Det danske forhold til EU ville vært det samme uansett, i eller utenfor EU.

Talking Heads - Mind

08.juli.2011

Ukens Utvalgte:

Kriminell hypnose er lite omtalt, - spesielt i Norge. I Danmark viste DR2 programmet "Forbrydelse under Hypnose". Det tar utgangspunkt i en 50 år gammel kriminalsak, hvor en bankraner hevdet at han handlet under hypnose for en politisk organisasjon. Dokumentaren beviser at det er mulig å hypnotisere personer til å gjøre kriminelle handlinger de normalt ikke ville gjøre, - innklusivt vepnet ran. Dermed motbevises hypnotisørers ansvarfraskrivelse. Dette burde sette et skarpt søkelys på temaet kriminell hypnose. Men det ser ut til å forbli et tabu-tema i Norge. Følgelig er hypnose-kriminalitet mer utbredt i Norge enn i Danmark, fordi den får operere i det skjulte, og fordi de uvitende borgere ikke får effektivt forsvar mot overgrepene. DR2 hjemmeside til 'Forbrydelse under Hypnose'

<http://www.dr.dk/DR2/Temaaften/Udsendelser/!%C3%B8rdag/2008/01/09143218.htm>

Dansk Radio gjør en oppsiktsvekkende bevisførsel. I TV programmet masse-hypnotiseres personer til å tro at de er i en velgjørende organisasjon. Etterhvert skapes sterke 'good guy – bad guy' fremstillinger. Så blir deltagerne overtalt til å bekjempe ondt med ondt. Til sist lykkes det å hypnotisere deltagerne til å begå kriminalitet. Se videoer fra dokumentaren:

Bankrøveri: <http://www.youtube.com/watch?v=kvijtk9BB5Y>

Uvitende personer kan hypnotiseres til midlertidig hat, forelskelse og umoral, - samt spionasje, tyveri og vold. Ugjerninger kan fremprovoseres med sinnstilstander tilsvarende mani, depresjon, psykose og skizofreni. Kombinasjoner av mindre hendelser kan tilsammen utgjøre store og alvorlige saker. I Norge er straffen for uautorisert hypnotisering kun 3 måneder. Men med argumenter i TV programmets bevisførsel, bør kriminallovens 'forledelse til kriminalitet' kunne kombineres. Det har en strafferamme på inntil 6 år. Kriminalitet mot rikets anliggende har maksimalstraff. Dette er forhold som kan sette nytt fokus på 'merkelige og uforklarlige' saker om svindel, utroskap, villfarelse og kriminalitet.

Talking Heads var en av de mest banebrytende band i sin tid. Deres bruk av musikk, scene og tekst gjorde dem unike. Selvom denne teksten ikke nevner hypnose, fremstilles aktøren som en person som godt kunne overveie det middel også. Gruppen er forøvrig godt omtalt i et tidligere innslag.

Tears for Fears - Shout

01.juli.2011

Ukens Utvalgte:

Thorvald Stoltenberg, og hans kone, er foreldre til 3 barn. Narkomafiaen har tatt deres yngste datter som gissel, helt siden hennes ungdom. De er også foreldre til den norske statsminister. Trellbundet av å være politisk korrekt, er denne tidligere Utenriksminister, Jugoslavias fredsforhandler og høytstående FN representant. Hans rop om hjelp har i årtier blitt misoppfattet politisk, fortiet eller fordreid. I et siste desperat håp om å bli oppfattet, foreslår han via FN at menneskeheten skal oppgi motstanden og legaliserer narkotika.

Herved følger mine egne høyst politisk ukorrekte rop. Det kunne også vært uttrykt ved; 'Manic Street Preachers' sin "If You Tolerate This, Your Children Will Be Next". Hasj dopes med morfin/heroin for å skape trellbinding til de tyngste stoffer. Ingen legaliserende nasjon påstår at det er overveiende fordeler ved legalisering. Leaglisering tjener hovedsaklig i narko-mafiaers interesse, og tilhørende politiske grupperinger.

Dette er overhode ingen kritikk noen av familien Stoltenberg. Desverre vil enhver familie i sådanne posisjoner utsettes for trusler. Denne kritikk er direkte rette mot den organiserte psykopatisk/sosiopatisk kriminalitet, som gir seg ut for å være legitim politikk. Det er en utelukkende hemningsløst rovdraft på mennesker og samfunn, i en massepsykotisk illusjon at målet legitimerer midlene. Den minste motstands vei synes å gå igjennom sosial-politikken. Hun er stilltiende systematisk torturert i årtier ved å legitimere avhengighet. Statsansatte har tilsynelatende vært konsekvent avvisende til nødprop. Den organiserte kriminalitet synes målrettet mot trellbinding av ministre til kriminell politikk, så som utenriksaker og statsanliggende. Rikets sikkerhet er på spill. Ministre er konstant indirekte påvirket, og i enkelt-saker direkte påvirket av situasjoner. Straffeloven er særdeles tydelig sådan kriminalitet. Det er ingen skam å angi denslags – tvert imot. Straffeloven: <http://lovdata.no/all/nl-19020522-010.html>

'Tears for Fears' har lavet mange gode musikkstykker, selvom det også kan sies at det er ikke de helt store musikalske prestasjoner de fremfører. Det lyder bare riktig godt med gjentagende gode melodier og refreng. De har tekst, melodi og lyd på sin side. Til denne anledning henger jeg på en ekstra sang av en mindre kjente danske gruppe Baal. Deres album er et kunstverk, men desværre, som for de fleste nordiske grupper - ufortjent ukjente. Tross det dunkle budskap, uttrykker det en poetisk ærlighet, som gir tanker til en pusher's sinn. Denne fremstilling av en usympatiske mørkemann er troværdig fremført.

Gåte - Sjå Attende

24. juni. 2011

Ukens Utvalgte:

Man kan faktisk ta en rundreise; Oslo-Tronhjem-Bergen-Oslo, - med Bergensbanen, Hurtigruten og Dovrebanen. Toget kjører over Dovregubbens Hall, skulle man tro. Dette gir setting for denne ukes

utvalgte, som handler om midtsommer, sol og varme, - masser av varme. Gruppen Gåte levde godt opp til sitt navn. Det var en usedvanlig energisk og talentfull samling ungdom, som presterte å modernisere tradisjonell folkemusikk til ekte rock. Jeg har stadig glede av konserten på DVD, som er produsert av Warner Brothers.

Rundtur fra Bergen, Oslo eller Trondheim - Info

<http://www.norgeietnotteskall.no/no/opplev-fjordene/hurtigruten-norway-in-a-nutshell/>

Egentlig ville jeg i år utelate kritikk den danske St. Hans tradisjon å brenne naturtro dukker. Men når Gåte berører kulturens opphav, kommer noen tanker siden sist år: Heksebrenning i Norden kan nå se ut til å ha vært særlig anti-slavisk, og ha mere Russisk-ortodoks opphav enn Romersk-katolsk. Byen Novgorod ble skapt av vikinger på 900 tallet. Den var et bindeledd mellom Norden og det andre Roma. Muslimene innvaderte dette kristne Roma 600 år senere og brukte midler som krutt og svinepest, samt antagelig narkotika og hypnose. Moskva ble utpekt som det tredje Roma og ga Tsar Ivan fikk en kick-start. Men senere, da han mistet grepet i sitt territorie, startet han Novgorod-masakerene med metodisk avbrenning og annen tortur. Følgelig fikk Ivan tilnavnet 'den grusomme'. Dette kan være det egentlige opphav heksebrenningen.

Tilbake til Dovregubben og andre troll. Filmen 'Troll Hunter' har fått internasjonal oppmerksomhet. Det er en kunstnerisk, humoristisk og intelligent parodi på filmer som 'The Blair Witch Project'. Selves Harry Potter produsenten Chris Columbus er medeier i selskapet som vil gjøre en re-make av filmen. Forhåpentligvis ivaretas disse verdier i neste versjon.

Hurtigruta - Annbjørg Lien

16-17. juni. 2011

Ukens Utvalgte:

Overraskende ble forrige ukes rekord på 7 timer overgått denne ukens utvalgte. Konseptet til Railway Relay gjenbrukes på Hurtigruten som bruker ca 7 dager sin reise fra Bergen til Kirkenes i Nord. I skrivende stund foregår direkte opptagelse og utsendelse. Direktesendingen avsluttes onsdag morgen og her kuttet ned til 134 timer. Men det blir neppe den sammen musikalske innslag for Hurtigruta som Bergensbanen.

<http://nrk.no/hurtigruten/>

Mang en musiker kunne være representativ for denne sendingen. NRK gjør da sikker også sine valg. For meg er Annbjørg Lien noe av det mest særnorske jeg vet. Særnorsk, også i den forstand at hun ikke følger det mest populære, men heller fremfører hva ekte er. Den Hallingfela hadde jeg ikke særlig interesse for i ungdommen. Men med tiden må jeg si meg facinert av stykkene som nå fremføres på mer fasinerende måter. Neppe noen andre får vel så mye lyd et stryker-instrument. Det kan lyde som hun til tider spiller på tre instrumenter samtidig. Fanitullen er spesielt krevende å spill, og har en dyster mytologi om Fanden selv. Annbjørg Lien – Fanitullen:

Hurtigruten seiler langs Nord-Atlanterens østkyst. Dette er en enestående sjanse for å virtuelt delta på en av verdens vakreste cruise. Det er usedvanlig mange vakre skuer på seilaset. Det inkluderer Nærøfjord, som er en av UNESCO World Heritage. Det har selvsagt vært en kontroversiell beslutning å virtualisere dette cruice. Frykten for overkommersialisering, passasjeredgang og virtuel fordervelse har sin grunn. Forhåpentlig gir dette markedsføringseffekt som dobling av passasjerantallet og følgelig halvering av prisen. Dermed kan også jeg se meg råd til å ta det den luksus å ta det virkelige cruise en gang i fremtiden.

RailwayRelay - Trans-Norway

10. juni. 2011

Ukens Utvalgte:

- er en 7 timers sammenhengende serie av trans-dans hits. Det er like lenge som togreisen Bergen – Oslo varer. Dette er et enestående genialt prosjekt som er lagt ut på internettet for allmenn skue. Det er så kreativt, enkelt og underholdende at prosjektet burde fått en rekke ærvervedige priser. Her får man en opplevels-synergi ved simpelthen å sette et kamera og en mp3-spiller i førersetet på Bergensbanen. Ubeskrivelige nye sanseopplevelser av lyd og visjon, av natur og musikk, og ikke minst av multimediet. Hvemsomtelt kan få opplevelsen hvorsomtelt og nårsomtelt.

<http://www.youtube.com/watch?v=QlyoSitK5Qc&list=PL5795CE27FA841CD7>

13 forskjellige DJs har mixet de 7 timers kvalifisert trans-musikk. Jeg innrømmer å ikke kjenne godt til den genre, men en representant fra den yngre generasjon er begeistret for utvalget og mixen. Musikkstykker og komponister er listet i tekstfeltet til hver av videoene. “Så trenger du bare en fabrikkhall, et fett anlegg og et stort lerret. Fyr opp RailwayRelay og du har et ‘instant warehouse party’ ”, - skriver produsentene. For oss mindre ressursterke holder det godt med en PC på fullskjerm, evt. 720p HD, samt ørepropper, - eller et TV med internettadgang. Forhånds-streaming kan bli nødvendig.

Bergensbanen – i førersetet - hele turen – Fullscreen med trans musikk (ca 7 timer)

Her er ingen filmtriks. Reisen fra Bergen til Oslo er genuint Live og inkluderer følgelig tuneller og stoppesteder. Avbrekkene er ikke kjedelige. De gir scenskifter og fremhever på musikken. Hvis man har favoritt-strekninger, kan det være nyttig å sjekke ut den 7 minutters hurtigversjonen av reisen <http://www.youtube.com/watch?v=i6Zybcu1Jzg> Hvis man ikke vil kjøre hele showet, kan starte med strekninger som 03, 05, 09.

Når alt dette er sagt – kan selvsagt ikke en sådan virtuell virkelighet måle seg med den virkelige virkelighet. Virtualiteten kan ikke måle seg med reisen selv – ei heller å selv være en del av den virkelige natur.

Selv kjørt: 01, 02, 03, 04, 05, 06, 07, 08, 09+, 10 linse, 11

Sparks – Never turn your back to Mother Earth

03. juni. 2011

Ukens Utvalgte:

Denne dag er dedikert Bellona, en romersk krigsgudinne. Hun var mere enn en avhoppet Valkyr. Hun hadde eget tempel, festival og plass i senatet. Natur-organisasjonen Bellona gjorde utvilsomt betydelige bragder ved markeringer av styggedommer mot naturen. Men suksessen gikk over styr og økonomien kom angivelig ute av kontroll. En millionær, Frank Hugo Storelv, liksom reddet Bellona, - mot sentral posisjon og innflytelse.

Jeg så denne ex-Bellona's personlige miljø-show forut for 'The Climate Change Conference 2009' i København. Etter en times oppbygging med charmerende og underholdende historier, kom klimaks hvor han tok på sin kinesiske dragt og med løfte at kineserne ville overraske verden. Verden ble overrasket, sjokkert og forarget med betegnelser som hykleri og sabotasje. Ingen CO2 begrensninger og 110 planlagte atomkraftverk. Minner om Nikitin-saken vekkes. På nittitallet startet Bellona gransking av Russisk atomforurensning i polarområdet. Forskningen ble stoppet av ex-KGB ved forsøkt på justismord av medarbeideren Nikitin.

Av med sløret: Atom-katastrofene fra 60-tallet forble fortiet. Men nå kan enhver se og lese om russernes detonering av 224 atombomber, med sprengkraft 100 ganger all sprengkraft i 2. verdenskrig. Det tilsvarer en totaleutslettende atomkrig i Nordpol-området og forårsaker en såkalt 'Nuclear Summer'. Tsar bomba, som ble detonert i ozonlaget, var 10 ganger større enn all ww2 sprengkraft. Nå, etter 50 års økt UV-stråling, er polarisen så porøs at den hurtig smelter til vann og varmen i området øker 2 grader pr år. Dette er hovedkilden til den globale oppvarming. Så skriver statsmakter, som aviser, at radioaktiviteten i Nordnorge skyldes Tjernobyli (og ikke Tsar Bomba).

Det er tragi-komisk å se Storelv etabler det såkalte Neptun-Networks med 12-13 hemlige bidragsytere. Verden er bedre foruten den type miljø-aktivister. Han kan stappe sine Yuan og Rubler opp der de hører hjemme.

SPARKS var en bemerkelsesverdig fenomen fra 70 tallet. De to brødrene Ron og Russell er så forskjellige at samarbeidet er nødt til å gi gnister. Sangen 'Never Turn Your Back On Mother Earth' er enkel, men sitter godt. De lagde flere særegne, mer eller mindre, kjente sanger. De er kopiert av andre og er virkelig verdt å lytte til.

Sting - Englishman In New York

27. Maj 2011

Ukens Utvalgte:

51 er ikke så spennende som 50, - med mindre man tenker sted fremfor tid. Area 51; det område har utkonkurrert Bermuda Triangelen i spekulasjoner og konspirasjonsteorier. Med tiden har fokus dreiet til såkalte Aliens. Det er et temlig uskyldig begrep, som nå assosieres med fantasifull illegal innvandring fra Rummet. Selv er jeg langt mere opptatt av 'legal aliens', - nettopp fordi jeg selv er det. Sting har da også tanker om dette, som har gjort begrepet poetisk uslettelig. Engelsk eller norsk, New York eller Køben', - like

så utfordrende kan det være uansett. Et sted i sin karriere klarte han å oppnå såpass status at han kan samle dyktige musikere. Her er en særdeles fargerik samling i lystig lag.

<http://www.youtube.com/watch?v=QsffLE378OQ>

Det er, mildt sagt, skuffende å konstant vitne offentlige ansattes ulovlige diskriminering medborgere innen Norden. Enhver nordisk borger har samme juridiske rettigheter i nabolandene som man har i sitt eget hjemland. Det sikres juridisk med EU traktatene, EØS avtalen/loven, samt de europeiske og FN Menneskerettighets-konvensjoner/loven. Nordiske statsborgere svindles for milliarder hvert år ved blandt annet skatt, toll og tilsvarende avgifter, samt manglende pensjonsoppsparing og refusjoner. Men offentlige ansatte opptrer som om kompetansen er undermåls og handler mot bedre viten. Informasjonsplikten ignoreres. Ulovlighetene er kriminalitet. Straffeloven kan anvendes mot offentlige tjenestemen som bryter Menneskerettsloven eller EØS loven.

Begrepet Area 51 har vært assosiert til eventuelle 51st stat av USA. Mang en nasjon har fått det satelitt-stat stempel. Selv Månen er nevnt, og dermed alle spekulasjoner om rumvesner og illegale space aliens. Matt Johnson var det eneste konstante medlem av gruppen 'The The'. Han forarget seg over UK sitt forhold til US. Utpå ytre venstre-siden var han med i Red Wedge, som brukte musikk til å understøtte Labor partiet. Ironisk nok vant omsider Labor, men formet straks en sterk Bush&Blair allianse. De er jo begge republikanere og fant naturlignok sammen. 'Careful what you wish for, Matt'.

Orinoco Flow – Enya / European Maritime Day

20. Maj 2011

Ukens Utvalgte:

I Danmark er det den Store Bededag i dag. Det ble omtalt i fjor. Fokus i år blir The European Maritime Day. Intensjonen med den markering av sjøfarten er riktig god, - men desværre, det ser ikke ut som effekten står til ambisjonene. Markeringen ville passert meg ubemerket, hvis jeg ikke søkte aktivt etter et alternativt tema for dagen. http://ec.europa.eu/maritimeaffairs/maritimeday/index_en.htm

Sjølivet er fasinerende. Den irske Enya kan virkelig fremstille det i kunstnerisk europeisk stil, der hun står som en galionsfigur i dynamiske malerier og beretter sine reiser i eget kor. Hun er en av verdens bestselgende artister, selvom jeg selv ikke har en eneste single (det betyr vinyl hardware versjon av en mp3 fil.) Men jeg fasineres stadig av hennes estetiske fremførelser, og spesielt denne. Selvom Orinoco ikke er europeisk, handler det jo om reiser på de 7 hav. Europene gjenoppdaget jo Amerika på 1500 tallet. Europa har også en omfattende sjøfartshistorie, langt utover dette.

Orinoco Flow – Enya <http://www.youtube.com/watch?v=xfVJ11GXzXQ>

Historien vendes. Danske Maersk, som har en omsetning tilsvarende 1/5 danske statsbudsjett, kjøper 10 gigantiske frakskip og har tilbud om 10-20 fler. Danske verft nedlegges da bestillingen gikk til Asia. Rederiet utvider den kinesiske bemanning, så man kan forvente sterkt økende import av kinesiske produkter til Europa. Det utvider trenden hvor den greske havn Piraeus er utkontraktert til Kina, en polsk motorvei er utkontraktert til Kina og at kineserne erhvervise i den svenske bilfabrikanten SAAB. Kriseramte virksomheter fristes med statssubsidiert lavpris. Infrastrukturen er lagt for århundredets massive sosialdumping og nedkjøring av europeisk industri. Trenden fremmer Kinas undergraving av menneskerettighetene, massivt og unødvendig CO2 utslipp ved transport halve jorden rundt, samt de 110 planlagte atomkraftverk.

LO uttrykker sin sanne holdning ved sin stilltiende støtte alt dette. De lar sine medlemmer i stikken. Det korrupte LO har beveget seg fra Maoismen til HongKong mafiaen. Medlemmene er trellebundet.

Tilbake til Europa. Det er de spesielle situasjonsbeskrivelser, med musikk 20 år fremfor sin tid, som gjorde Thomas Dolby unik. Om det så ikke var tiltenkt, så synes jeg denne video gir en viktig situasjonbeskrivelse den dag i dag. Thomas Dolby - Europa and the Pirate Twins

Ole Paus - Mitt lille land (original versjon)

13. maj 2011

Ukens Utvalgte:

Den norske nasjonaldag står for døren. Med minst like stor entusiasme har vi feiret den i nesten 200 år. Men tenk, hvordan kan man si at en så gammel nasjon kun er 200 år? Det gjør meg nesten glad over dårlige karakterer i historie på folkeskolen. Med et blankt sinn kan jeg påfylle historikunnskap uten blokkering av folkeskolens kaldkrigspropaganda. Skjønt, alle historiekilder har usikkerheter.

Wikipedia viser Nordens nasjoners tilhørigheter fra før Kalmar Unionen på 1500 tallet og frem til i dag. Kort sagt; Nordmenn la Grønland, Island og Færøene i fellesskapet. Et århundrede senere var vi alle kolonier av Danmark. Finland var underlagt Russland.

http://en.wikipedia.org/wiki/Nordic_countries#Chronology_of_the_Nordic_countries

Jeg kom over en artikkel i Illustrert Vitenskap om rivaliseringen mellom den svenske Gustav Vasa og den danske Christian II. Det var en lang rekke skitne spill med høye innsatser og fatale utfall. Men der må ha vært større aktører med tvilsomme motiver, som også trakk i tråder. Sist i artikkelen, etter Christian ble harmløs, nevnes at Vasa gikk mot Ivan den Grusomme, den første Tsar av Russland. Her er nok hovedårsaken til at unionen ble splittet og at vennskap og samarbeid i Norden aldri har normalisert. Se bare hvor patetisk regjeringssamarbeidet i dagens Nordisk Råd er.

Monty Python's Galaxy Song

06 mai 2011

Ukens Utvalgte:

Orions høyrehånd er en rød gigant kalt Betelgeuse. Den er ca 100 ganger større en vår egen stjerne og særdeles ustabil. Det forventes at den blir den neste supernova vi ser, - en stjerne som synes om dagen i et par uker. Men synet av hendelsen skjedde omtrent 400 år tidligere. Eventuell materie, som neppe når hit, ville kommet ca 4000 år senere etter hendelsen. Tallene justeres dog stadig pga ustabile målinger. Selv begrepet supernova er villedende. Det er ikke en stor ny stjerne som fødes, men en gammel stjerne som dør i sin siste spasme. Etter kolapsen blir den en kompakt dverg.

Den forrige supernova ble observert for 1000 år siden. Den var synlig på dagtid og må ha vært observert og nedskrevet i alle verdens sivilisasjoner. Det var en verdensbegivenhet på størrelse med Bethlehemstjernen, 1000 år før. Restene den eksplosjon ser man i dag som Krabbetåken med en liten stjerne midt i. Det er ikke et mysterie lenger. Mysteriet består i hvorfor og hvordan alle andre skrevne vitenskapelige observasjoner er forsvunnet. Kun kinesiske observasjoner er bevart. Den mørke middelalderen i Europa startet på den tid, - et sort hull i europeisk historie med 300 års pestkriger. Befolkning og litteratur ble dels utryddet.

Denne gang, når Orions røde høyre hånd eksploderer i en supernova, er det ikke et himmelsk varsel om gudomlig fødsel eller dommedag. Det er ikke startskuddet for slippe løs allskens opphopet galskap. Det har heller ikke med Maya-indianernes kalenderskifte å gjøre. Det er ingen grunn til å slippe løs noen A eller B eller C våpen. Begivenheten er kun naturlig avgang for en av alle de milliarder stjerner i vår galakse Melkeveien.

Monty Python, for å ikke glemme dem, kan faktisk lave musikk og fremføre den. De fikk jo Ringo Starr på laget i Brian-perioden. De skal bare alltid gjøre noe ekstremt, som tar oppmerksomheten fra kunsten. Her fortelles en enke hvor ubetydelig hun er etter mannens ufrivillige organdonasjon. Men tatt ut av sammenhengen er sangen faktisk rett god.

Bjarne og Gunnar - År 2000

29. april 2011

Ukens Utvalgte:

Det er 1. mai markering for hundrede gang – minst. Det er helt på sin plass med en sådan årlig markering, men ritualet er desværre kulturelt malplassert i det 21. århundrede. Opphavet stammer fra den russiske mafia, da Stalin fikk fritt leide av Lenin og kuppet det russiske stats-imperiet. Det var som om Al Capone hadde kuppet Det Hvite Hus og dominert USA's utviklingen. Verden ville vært katastrofalt uopprettelig forandret.

Den russiske mafian etablerte LO i Skandinavia og innførte sin hårde kultur. Den er fundamentalt republikansk og udemokratisk. LO sitt forhold til Menneskerettighetene sier sitt, - de hverken fremmes eller praktiseres, - men motarbeides i det stille. Menneskerettighetsloven forbyr jo LO's dominans. Følgelig er denne 12 årige overordnede lov fortiet i norske massemedier. Det er frykten for LO's dominans på arbeidsplasser, som avgjør de fleste arbeidstagers 'valg' av fagforening. Betalende fremmes og andre fjernes. Det er da også nyttig å ha LO sine agenter på plass i Regjeringen, Staten, Statoil, NRK osv, når Gazprom vil ta energi-dominans over Vest-Europa, så som i Øst-Europa. Europa's frihandel forbyr denslags, så det blir spennende å se utfallet.

Bjarne og Gunnar parodiserte grasrotas 'tillittsmenn' og naive tilhengere. Dialogen er nærmest fri for fakta og full av fantasi og fordommer. Kvasi-intelligensen kan oppnå ekstatiske erkjennelser som; 'Gunnar – vi har psykotisk kraft!'. I denne video-snutten forberedes Gunnar til den forestående år 2000 fest. Historisk bakgrunn og fremtidige begivenheter berettes uimotsagt fra tillittsman til tillittsfull, som bare nodder med i sitt 'jajaja'. Otto Jespersen er etter dette blitt så innflytelsesrik at han får nærmest fritt ord til alle NRK/TV2 seere. Det er dog liten forskjell, Bjarne sitter ikke med ryggen til tilhøreren. Nå taler han direkte i ansiktet til publikum, som om de nodder samstemt med i sine 'jajaja'. Så er det fest til Sønda'n, med alle disse lange tog med sinte mennesker, som nodder unisont inni seg med sine 'jajaja'.

Trond Kirkvaag gjorde det vågestykket å påpeke at LO dominerer AP og følgelig den demokratisk valgte regjering. Den forsiktige tittelen 'Intervju med Yngve Hågensen' burde hete noe som 'LO Hågensen – AP'enes konge'. Men som sagt; 'man kødder ikke med oss' og 'da blir det et helvetes spetakkel'. Senere, etter samarbeide Kine Hellebust og O.J., var KLM splittet for alltid.

Alice Cooper - I Love the Dead

22. april 2011

Ukens Utvalgte:

Langfredag er den hardeste dag i året for den kristne verden, og den har rituelt gjentatt seg årlig i 2 årtusner. Det er lavet mengder av fremstillinger om dette fatale klimaks. Men hvis kortene skal på bordet, sammen med brød og vin, så var det et episk spill med et menneskelig offerlam som innsats. En menneskehetens syndebukk. Den ypperste ondskap i scenesettes, - men grundig tilslørt.

Maria og Josef flyktet til Egypten for å redde Jesubarnet sitt liv. Det var en indirekte dødsdom 'de tre besøkende' ga barnet ved å utfordre kong Herodes. Men profetier ble oppfylt med dette og jomfrufødselen. Tilbakekomsten 30 senere kunne vært mulig, hvis ikke kongen allerede hadde abdisert. Det var ingen trone å overta. Det var da heller intet dømmes for når tronen var fjernet. Men denslags politiske spill kan bare ikke kan annulleres. Justismordet var uungåelig for Jesus, liksom for døperen Johannes før han.

Johannes Åpenbaring hører ikke hjemme i det nye kristne testamentet. Det er skrevet i en avvikende dialekt fra gammeltestamentlige dager, og ikke av en Jesu disippel. Denne påståtte åpenbaring, lyder som de ypperste hevntanker en besveken svovelpredikant kan lire av seg på sin egen dommens dag. Det er 'snuff literatur' som umulig kan komme noen absolutte godheter, men heller noe fra en 'lukket avdeling'. Kun 144000 av utvalgte familier skal overleve den beskrevne utryddelse av menneskeheten, - og resten skal lide i evig tid. Det lyder som en test av leseren, om man virkelig er i stand til å skille mellom godt og ond, - mellom rett og galt. Testamentene beskriver jo ofte hvordan profeter ble testet av ondskaperen, og de besto. Johannes Åpenbaring er en sådan test av Bibelens lesere, - om leseren virkelig kan gjennomskue ondskap, når de ser det, - rett forran seg, - på svart og hvitt. Problemet er at testen har utilsiktede bivirkninger. Så flytt det heller tilbake til G.T. – eller helst helt ut av Bibelen.

En dyktig sceneartist kan fremstille hvem det enn måtte være, troverdig - selv ondskaperen, og få en til å forstå dets ideoende galskap. Alice Cooper er en fiktiv iscenesatt figur skapt for å vise hva det kan være. A.C. er en rolle som Faust eller Mister Hyde. I denne sangen er den vanvittige personbeskrivelsen fremført så troverdig at den kan måle seg med større teaterprestasjoner. Musikk-arrangementet kan måle seg med opera. Selv en Anti Christ kunne ha fremført sitt mani med samme innlevelse. Men altså, - man bør kunne skille mellom artist og person.

Prefab Sprout - One of the broken – Michael - Mercy

15. april 2011

Ukens Utvalgte:

Michael er visst en facinasjon for Prefab Sprout. Jeg så dem på en konsert i Norge for 15 år siden. Det ble en gledelig overraskelse med særdeles dyktige musikkere. De har endog hatt Thomas Dolby som produsent på platen. Gruppen er ufortjent ukjent. Detaljer, som at navnet ikke ligger lettest på tungen, kan ha konsekvenser.

Ærkeengelen Michael har fasinert mange i lang tid. For 4000 år siden, da Babylons engler var som polyteiske guder å regne, etablerte en monoteismens patriark seg i et nyervervede land ved Egypten. Abraham fikk barn med tre kvinner. Følgelig har vi i dag de tre monoteistiske trosretninger. Den førstefødte sønn, Ishmael, fikk han med den egyptiske prinsesse Hagar. Gutten Isaak ble gitt til Sarah og Abraham av 'tre besøkende'. Parret hadde et forhold som tidvis betegnes som søsken, ektefeller og andre slektninger. Med en angivelige alder rundt 100 år var de neppe fruktbare. Uansett hvordan man vender historien, var Isaak neppe sønn av Abraham.

Sarah fikk jagd Hagar og Ishmael ut i ørkenen med besynderlige begrunnelser. Det understrekes da også tydelig i skriftene ved at Abraham mente Gud befalte han til å henrette Isaak, som et offerlam. En engel skal i siste stund ha gitt kontra-ordre og avverket drapet. Etter dette forlot Abraham Sarah og fikk 6 barn med Keturah. Uansett hvordan man vender historien, har noen brutt Guds tillitt. Sist gang det skjedde med engler innblandet, var ved det store englefallet fra Himmelen, 2000 år tidligere. I det såkalte 'Testament of Isaac,' står det skrevet at erkeengelen Michael sto for både leveranse og benådning. Siden den tid har de tre kuller slåst så fjøra fyker, - og gjør det den dag i dag.

a-ha - Forever Not Yours

8. April 2011

Ukens Utvalgte:

A-ha har lagt ut på sin siste reis. Det symboliseres godt med denne video, selvom det neppe var meningen. Det har vært en fantastisk bedrift de har prestert og satt Norge på verdens musikk-tavle for evig. Det er synd Morten og Magne ikke fant ut av hverandre. Flere godsaker brandt inne. Det blir vel best å seile sin egen sjø.

Denne video gir dagsaktuelle assosiasjoner. Påske nærmer seg og Julen sies å gå mot en slutt. Det er enda et buskap på gang –som det har vært i årtusner. I løpet av så lang tid endres det meste, - grenser, mennesker, viten og tro. Religion sies å være den første filosofi, hvor spørsmål om starten, slutten, livet, godhet, ondskap, og alverdens umulige 'hvorfor' samles. Disse spørsmål har vært stilt fra menneskets første dager og besvart etter beste evne og vilje, - men alltid forgyeves. Det er grenser for menneskets fatteevne.

Det er dog ingen tvil i noen sivilisert tro, at mennesket er elsket av Gud og at Gud ikke står for noen pinsel, massedrukning eller evig fordømmelse. Denslags hører til steinalder-religioner, hvor steining er legitimert. Mytologien om at Gud druknet alle mennesker, utenom Noah og han følge, er en selvforherligende blasfemi. Den toalett-versjonen av religions-filosofiens hører til ondskapens tro. Det er da grenser for hva Gud kan beskyldes for.

Joe Jackson: - Fools In Love

01. April 2011

Ukens Utvalgte:

Det er den første april idag. Det er den dagen man kan gjøre andre til narr. Dette Charte Blanche gjelder dog kun en enkelt dag i året. Resten av året skal det stå for egen regning. Ritualets opprinnelse er ukjent, men det påstås at den stammer fra Noah, da han sendte en due for å finne land, - alt for tidlig. Humor er uransakelig, men denne historie må være en spøk i seg selv. Man kan selv bli en Aprils Narr hvis man slipper spøken for sent lokal tid. I New Zealand, UK, Australia, og Syd Afrika er tidsfristen klokken 12 og ikke 24. Så kan man forestille seg en dansk-australer om formiddagen sender spøken; 'hun abdiserte idag'. Gjett om det blir 'balade' om hvem som ble Aprils Narr til sist. Spøk til side, de mer dunkle 'April Fools' var dobbeltagenter mot Saddam som fikk nettopp det kodenavn. Da er det mere festlig å lese om dem, som i denne samling Tidenens Top 100: <http://www.museumofhoaxes.com/hoax/aprilfool/>

Joe Jackson er temlig tidløs. Han lavet opprinnelig denne sangen 'Fools in Love'. Som sang- og tekstforfatter er han særdeles dyktig. Igjen spiller han lytterne det puss å fremstå usympatisk og kynisk, for til sist å avlsøre sin selvkritikk. Stemningen snus til sympati og selverkjennelse. For hvem har ikke vært en sådan 'Fool in Love'. Men tidens mote førte til det fatale valgt å lave en raggea-versjon av musikken. Dermed forfalt teksten i en ufortjent ufølsom misforstått populær bølge. Han fikk ikke selv den fortjente anerkjennelsen for stykket. Men det har andre fått, med melankolsk versjon og illustrerende video.

Ruth Purves Smith & the 581 – Godzilla

25. marts 2011

Ukens Utvalgte:

Man kan forstå hvordan japanske myter oppstår, som den om Godzilla. Beliggenheten har særlige naturgitte konsekvenser. Der er jordskjelv, tsunamier, vulkaner, pest og tyfoner. Temlig vanskelig å forklare, må det ha vært i krisetider. Enklere og mere spennende er monster-historier. Titaner, Godzillas og Aliens har det samme opphav og sosiale funksjon.

I tillegg til tilbakevendende naturkatastrofer, har Japan vært utsatt for invasjoner. Det er den andre siden av Godzilla myten. Katastrofer som er menneskeskapte. Monsteret kommer inn fra havet, ser ut som en drage og fjern-styres. Inspirasjonen kan godt stamme fra Gobi-ørkenens forstenede dinosaurskjelett.

Det største invasjonforsøket av Japan var mongolsk. Kinas hovedstat, Beijing, ble okkupert på 1300 tallet av mongolerne. En lang handelsblokkade førte til hungersnød og overgivelse. Imperiet ekspanderte eksplosiv ved bestialsk trelbinding av kontinentets nomadestammer. Så ville mongolerne invadere Japan, men feilet i en kombinasjon av usedvanlig uintelligent marinekommando og dårlig vær. Det ga oppsving for samurai- og nasjonal-heroisme, samt begrenset den øvrige mongoliseringen av verden. Det var dengang. For et halvt århundrede siden, ble Beijing okkupert ved mongolsk stalinisme. Historien gjentar seg.

Det er riktig spennende hvordan man kan komme over ny musikk ved informasjonssøk til et tema. Igjen må jeg innrømme at jeg aldri tidligere hadde hørt om denne ukes utvalgte. Men den er da rett god, - innen sin genre. Dessuten får man et inntrykk om hvor global tidens Titan – Godzilla – er blitt. 50 år er myten allerede blitt.

Extra UU translated Kim 2014.mai.26

I have taken the liberty to translate a writing that I did 3 years ago, related to the previous Godzilla movie. It still applies:

One can understand how Japanese myths occur, - like the one about Godzilla. The location has some special natural consequences. There are earthquakes, tsunamis, volcanoes, plagues and typhoons. It must have been hard to explain that during times of crises. Simpler and more exciting are the monster-tales. Titans, Godzillas and Aliens has the same origin and social functions.

Japan has been invaded in addition to recurring natural disasters. That is the other side of the Godzilla myth, - man-made catastrophes. The monster comes in from the sea, it looks like a dragon and can be remote controlled. The inspiration is probably related to findings of dinosaur skeletons from the Gobi dessert.

The largest attempt to invade Japan was by the Mongolians. They occupied the Chinese capital, Beijing, in the 14th century. A long-lasting trade-blockade caused hunger and finally surrender. The empire expanded fast by beastly thrall bounding of the continents nomads. After that, the Mongolians headed to invade Japan, but failed in a combination of unintelligent marine-command and bad weather. The victory caused growth of Japanese samurai- and national heroism, in addition to reduced mongolization of the rest of the world. That was then. However, half a century ago, Beijing was once again occupied by, - Mongolian Stalinists. The history seems to repeat itself.

Instrumental - Puff Daddy / Come With Me - Jimmy Page / Kashmir

(Some comments to this 'Puff's' singing hints towards 'godzilliation' of the legendary Led Zeppelin. The instrumental version better.)

Sia - Breathe me

2011.mars.18

Ukens Utvalgte:

'Caprica' har fått en egen TV-serie. Byen var hovedstaden i TV-serien Battlestar Galactica før tilintetgjørlsen. Den opprinnelige serien ble lavet rett etter de første Starwars filmene og gjenbrakte produsjonsmetoder og konseptet. Men i den serien var det et kollektiv av særdeles mannevonde robotter som var reprogrammert til å utrydde menneskeheten. Alle Asimovs 3+2 Laws of Robotics ble kastet overbord. I den nye reproduksjonen av serien ble engler og Iblis utskiftet med religiøse humanoids. Noen av dem trodde de var mennesker, andre trodde de var Guds høyre hånd. Rett uoverskuelig hendelsesforløp ble det, som kan oppsummeres til: "What the Frak is Going On?" <http://www.youtube.com/watch?v=UtpFDHDfcQ>

Caprica har en helt annen vinkling på forholde menneske/maskin. Virtuelliseringen kom til etter de første StarWars filmene, som ga det en ubetydelig plass i eldre filmer. Dette rettes opp i Caprica. Handlingen starter 58 før den selvforskyldte tilintetgjørelsen av de 12 kolonier. Det er et poly-teisk samfunn hvor enkeltpersoner kan styre samfunnsutviklingen. Virtuelle virkeligheter er populære alternativ som også viser potensialer innen åndelig tilværelse, - endog evig liv. Cylonene's skaper håper å gjenskape sin døde datters virtuelle alter-ego i en humanoid. Den gryende monoteistiske organisasjonen er mer enn interessert. Religionsfilosofi strekkes langt inn i teknologien, - og det får alvorlige konsekvenser. Serien er overraskende tankevekkende på flere måter.

Sangen 'Breathe me" med Sia var ukjent for meg før denne presentasjonen. Fremstillingen av en rådvill pike passer godt til seriens tema. Det handler om mennesker, ikke maskiner eller virtualiteter. Rett god er sangen og fremføringen.

Celine Dion - Then you look at me - Bicentennial Man

2011.mars.11

Ukens Utvalgte:

Det har tydelig vært vanskelig å få rettigheten til å lave musikk eller film til konseptet 'I, robot'. Et tilfelle har det dog vært etter Asimovs bortgang. Filmen 'The Bicentennial Man' er basert på romanen med samme navn. Senere ble oppfølgeren 'The Positronic Man' skrevet, som er, i en variant, lavet som en personifisert film. Filmen heter Bicentennial Man med ingen ringere enn Robin Williams som androiden NDR-113, alias Andrew. I denne sammenheng kan jo filmen 'I, Robot', med Will Smith, også nevnes. Den har utvilsomt basert seg på hovedfundamentene til Asimov, selvom det benektes av opphavsrettslige årsaker.

Som Startrek's Data er Andrew bundet til alle 3+2 Laws of Robotics. Men Andrew har et unikt avvik som gir tilnærmet menneskelige kvaliteter som samvittighet, kreativitet og kjærlighet. Det er selvfølgelig fiksjon, men det gir historien et godt human-filosofisk perspektiv. Andrew utvikler seg ved å få retten til valg og familie, for så å hevde retten til selvstendighet, egenutvikling, og til sist retten til å dø. Kun ved å dø kunne hans liv bli juridisk anerkjent. (Det må ha vært litt av en luring, den dommeren.) I virkelighetens verden er det viktige med historien at den hjelper oss med å re-tenke våres viktigste ideer om hva det vil si å være menneske.

(Bemerkning til forrige ukes UU. Riktig nok var Asimov en usedvanlig produktiv forfatter, men forrige ukes omtale skulle det hete "skrevet og redigert bortimot 500 bøker".)

... og Celine Dion – hva kan man si? Hun er utvilsomt usedvanlig dyktig innen sin genre. For meg lyder det som en helt ok musikalsk fremførelse til filmen, - så som filmen er en helt ok fremførelse av boken.

The Alan Parsons Project- Don't Let It Show

2011.mars.04

Ukens Utvalgte:

Allan Parson lånte tittelen 'I Robot' og dedikert det til et helt album. Hans Prosjekter er ofte basert på kjente verker, hvor han skriver noe Parsonaktig musikk og lyrikk om temaet. Fremføringen gjøres av mer eller mindre kjente artister. Konseptet fungerer som Disneyfisering av klassiske romaner, - det selger. Men hurtig ble det en disput om opphavsrett til tittelen. Resultatet var at kommaet forsvant fra tittelen og at tekstene ble lite interessante. Parson burde kanskje heller ha droppet dette prosjektet enn å gjennomføre en dels seier over opphavsretten. Et par tekster er dog hørbare, så som denne:

The Alan Parsons Project- Don't Let It Show

<http://www.youtube.com/watch?v=0mY-zdEJkNU>

... og denne: I Robot / I Wouldn't Want to be Like You

<http://www.youtube.com/watch?v=8IMERDMF3w4>

Hva for IPR sto Parson egentlig opp mot?

Isaak Asimov har skrevet bortimot 500 bøker med både ren science og tillagt fiction. Han har fått 21 awards for bøkene og 14 honorable doctoral degrees. I starten, for 60 år siden, skrev han novellesamlingen 'I, Robot'. Den ble fundamentet for seriøse robot fiksjoner i ettertiden. Det skyldes spesielt fordi han skapte de tre 'laws of robotics' hvor hans robotter er hardkodet til å tjene og beskytte menneskene. Han gjorde robotpsykologi til et hovedtema og sannsynliggjorde tanken om den positroniske hjerne. Novellene er uavhengige, men omhandler forholdet menneske, robot og moral. På Asimovsk vis ble fiksjon til science. Senere ble det for enkelt med kun 3 lover, så en 0'te og en 4'de kom til. Det blir robot-revolusjon av denslags kollektiv omprogrammering.

Årsaken til at Asimov ble så fiksert på robotter var at en forlegger ikke likte historier om overlegne aliens. Asimov selv ville ikke skrive utelukkende om underlegne. Dermed handler hele hans galakse i all vesentlighet om mennesker. Det blir en temlig enfoldig og ateistisk galakse han gjør av våres Melkevei. Rett usannsynlig er det, at menneske, og Asimovske robotter, er de eneste intelligente skapninger i galaksen. Men ryddige manus blir det. Etter 'I, Robot' har han skrevet mengder av historier og beskrevet våres utvikling over noen 10 tusner av år. 'Psychohistory' ble en fundamentert vitenskaplig fiksjon. Ideen er at menneskehetens mentalitet har en skjebnesvanger utvikling som kan kartlegges og forutsies, samt at inflytelser kan forhindre fatale sidesprang. Her, en oversikt over dette litterære omfang:

Gary Numan - Down in the Park (live)

2011.feb.25

Ukens Utvalgte:

Gary Numan har fremstilt mange roller på scenen. For det er han beundret og foraktet. Uansett, det må man gi han, - som musiker og sanger er han ofte særdeles original. Han spiller roller, også tildels usympatiske. I denne videoen ser han ut til å fremstille en android, ikke så ulik Data's onde 'bror'. Her tror jeg en del av forakten mot Gary ligger, hos dem som ikke helt klarer å skille mellom artist og person, - som ikke helt ser at dyktige artister kan fremstille usympatiske figurer, som om det virkelig var dem selv.

Musikken er sterkt preget av sound. Det er synthere med enkle og til tider spesielle melodisnutter. Noen av hans Hits er blitt gjenbrukt og endog klippet inn i andres Hits. Hans syngemåte tror jeg ikke noen har kopiert. Om man ikke kan eller ikke vil, vet jeg ikke. Teksten beretter han om en observasjon i en forlystelsespark. Han synes bekymret over hva han så. I tidens dekadanse og arroganse kjører han rundt i sin bil-lingnende rullestol. Effektfullt er det. Det setter inntrykk, enten man liker det eller ikke.

Data fra StarTrek er antagelig den mest kjente android. Det er selvfølgelig en vitenskaplig fiksjon, men han er en underholdende karakter. Han kan gi oss en forståelse om hva det vil si å være en logisk konstruksjon som imiterer den menneskelige natur. Data fikk betydelige problemer med å forstå menneskelig oppførsel, humor og følelser. En god rekke menneskelig selvironi ble det ut av situasjoner. Men at han fremstilles som en så dyktig musiker, kan nok bekymre mang en artist. Det er da kvalitative forskjeller på menneske og maskin? Næh, det er nettopp tvilen om han maskinstatus som er av de mest interessante klipp herunder.

Kraftwerk - The Robots (HD)

2011.feb.18

Ukens Utvalgte:

Kraftwerk var av de første band som tok robotmusikk seriøst. De levde seg inn i rollen og lavet musikk som de mente robotter engang vil gjøre. Lydens kvalitet var langt over hva andre skapte. Men tekst og melodier var ikke imponerende. Det var så fantasiløst som en kan forvente av roboter.

På den tid fantes knapt noen PC. Lommekalkulatorer var hightech. Men var da ikke særlig spennende i lengden å finne Pi og alskens kvadratrøtter. Det er andre tider nå, med Personlige Computer til hvert familiemedlem. Nå lærer barn å erobre en virtuell verden før de lærer å skrive, de laster filmer opp og ned på internettet, og husker knapt et eneste telefon nummer, - ikke det hjem engang. Jeg husker fra min første jobb at jeg ble imponert over en kasse på 1x1x1 meter som innholdt en harddisk på hele 10 MB. Faktisk var jeg utsatt for programmering med manuelle brytere. Det var på den tiden Kraftwerk var enormt futuristisk og populær.

Jeg kan forstå at følgende video ikke imponerer den oppvoksende generasjon. Det skyldes den virtuelle illusjon. Robotter er ikke annet en programmerte dukker. De er ikke som fremstilt i alle disse action filmer. Det er filmtrix og ikke realitet. Det er ikke Science, det er Fiction. Derfor er denne video med Kraftwerk banebrytende og forbildet for mange seriøse synthere. Her har de har tatt seg selv på alvor, programert noen synthesizere og 'roboter' og simpelthen glimrer med sitt menneskelige fravær. Det er vaskeekte robot-humor og kan være rett støtende for oss 'meat-bags'.

Queen - Radio Ga Ga

2011.feb.11

Ukens Utvalgte:

Vi har fått en robot i huset! Det er bare å erkjenne, denne science fiction er i ferd med å realiseres, - ikke av meg, men fru. Riktignok er det kun en lille tingest som svirrer rund i huset og tørker støv. Den synes ikke å ha noe hukommelse utover fra forrige hjørne, selvom reklamen påstår den er intelligent. Den har knapt nok korttidshukommelse.

Så tidlig som 1691 ble en vaskemaskin patentert av Miss Ferguson. Det er antagelig kvinner som kommer til å invadere hjemmene med husholdnings-roboter, som de kommer inn med alskens husholdnings-maskiner. Hjemmet er og forblir deres domene.

Queen spiller Radio Ga-Ga. Videoen er basert på den første sci-fi film 'Metropolis'. Den ble opprinnelig skrevet av en tysk kvinne, som siden ble en mellomkrigs-film. Verdenssuksessen kan skyldes at lydfilmen ikke var oppfunnet enda. Filmen beskriver en bystats fall for en kvinnelig robot. Selvom fortolkninger fremhever at plottet er arbeider vs kapitalist, kan man like godt se det som matriark vs patriark. Hvilke sterke påvirkninger en sådann sort-hvit stumfilm må ha hatt på den tid. Så blir det bare for selvironisk, når Queen's Freddy, blir limt inn som den gynoide skapelse, med sin mandige mustasje.

Roboter er et eldgammelt og viktig filosofisk tema, selvom de faktisk ikke helt eksisterer enda. Ikke bare at man skal erstatte den menneskelige arbeidskraft, men det setter også trelldom i et annet perspektiv. Tankene om å erstatte alle trelle med 'maskiner', er en fiksjon så gammel som sivilisasjonene selv. Nettopp det å være andres 'multipurpose tools' er for nedverdiggende og inntollerant. Men det kan ha sine fordeler også, - avhengigheten kan slå begge veier. Det er vel noe i den retning Queen prøver å ytre. De viser knapt sine musikalske talenter i denne slager. Sangen er desværre musikalsk banal, selvom det svinger. Men visuelt er den slående.

Michael Jackson - Man In The Mirror

2011.feb.04

Ukens Utvalgte:

Dette temaet avsluttes med det som må være den ultimative Nyttårsforsett-sang. 'Start med mannen i speilet'. - Ikke det at kvinner's hovedmisjon er å bedre menn istedet for seg selv. Jeg er fasinert at Michael blir forstått. Noen av hans uttaler ville aldri passert noen språktest, så som sangen 'Døddida jena'. Men her er det kunsten som styrer – og det lyder godt. Han var dog generelt sett temlig misforstått.

Videoen har flere politiske hentydninger til verdensberømte freds-aktivister. Det kan ha provosert motstandere, -og ikke minst sitt eget religiøse opphav. På et tidspunkt gikk det opp for Michael at familiens sekt fremmer dommedag og rettfærdiggjør massiv tilintetgjørelse. Sektens forherliger den påståtte egenfrelse og alle andres fordømmelse. 'Hvorfor hjelpe dem som snart skal smittes, sultes, slaktes og frites?' Hm – nestekjærlighet – 'Who's Bad'? På et tidspunkt gikk det opp for Michael at ofrene er hans fans, verdens barn og de fleste han var så glad i.

Han synger mest til andre med bruk av seg selv som tredjeperson. Jeg vet ikke hva det var med hans speil. Michael endret seg sakte og betraktlig. Det var antagelig grunn av; ønsket om å bli hvit nok for barndoms kjærligheten til Elvis' datter, presset om å stadig overgå seg selv, samt familiesektens religiøse skisme. Mannen i speilet forandret seg, og Michael med. Nyttårsforsettet ble visst brutt ved noe etter årtusenskiftet.

Dette minner meg om Peter Hammill, som hadde ganske andre betraktninger om speilbilder. I denne VGGG live-konserten uttrykker han en dypt personlighetskrise og filosoferer over den. Konklusjonen er dramatisk og helt normal.

Mercury rev - The dark is rising

2011.jan.28

Ukens Utvalgte:

Tittelen til dette episke stykket svarer ikke til de assosiasjoner man umiddelbart kan få. Jeg så gruppen tilfeldigvis live da jeg ventet på VGGG sin gjenforeningskonsert i Den Haag. En smule utolmodig gikk det opp for meg at dette var et band jeg ville minnes. Dette stykket ga inntrykk, med dets melankoli, personlighet og symfoniske mellemspill. Det er så en får store tanker over store perioder. Besynderlig nok valgte de noen år senere å holde en av sine sjeldne konserter på et Gæstgiveri på Bornholm, den danske ø. Det gir spesielle assosiasjoner til disse generelle betraktninger i det nye året.

Halveis i det forrige årtusen ble den nordiske Kalmarunionen etablert, hvor Norge avga Island, Grønland og Færøyene til felleskapet. At Russland samtidig erhvervet Finnland er tydelig, - men innflytelsen på Norden forøvrig er ukjent. Unionen ble brutt da tyskerne var frosset ut fra Hansa-statene. Tilbake sto Norge, Island, Grønland og Færøyene som danske vasalstater. Det er dog tvilsomt at Danmark alene var i stand til å gjennomføre noe i nærheten av en så stor erhvervelse. Senere Danmark mistet Norge etter Napoleonskrigene og Island etter verdenskrigene. Grønland mistes antagelig i dette århundrede.

Etter tapet av Norge skjedde et arrangert og kontroversielt ekteskap, - en tilsynelatende kompensasjon. H.C. Andersen skrev i 1866 at han var blant dem som så Dagmar forlate Danmark. Han skrev: "Yesterday, at the quay, while passing me by, she stopped and took me by the hand. My eyes were full of tears. What a poor child! Oh Lord, be kind and merciful to her! They say that there is a brilliant court in Saint Petersburg and the tsar's family is nice; still, she heads for an unfamiliar country, where people are different and religion is different and where she will have none of her former acquaintances by her side". Det var som 'Prinsessen og havle Kongeriket', 'Keiserinnens Nye Klær' og 'Jette på bjerget' ble realisert i et.

[http://en.wikipedia.org/wiki/Maria_Feodorovna_\(Dagmar_of_Denmark\)#Twice_a_fianc.C3.A9e.2C_ultimately_a_bride](http://en.wikipedia.org/wiki/Maria_Feodorovna_(Dagmar_of_Denmark)#Twice_a_fianc.C3.A9e.2C_ultimately_a_bride)

H.C. Andersen's refleksjoner på starten av verdenshistoriens ultimative ballade synes kulturelt symptomatisk. 'Pedokratiet' er fenomenet's sjeldne ord. Det handler om å forhindre demokratisk utvikling av borgerne. 'Pedagogikk' betyr 'børnelære' og er skapt for barn. 'Androgogikk' heter voksenlæren. Systematisk pedagogisering av voksne fører følgelig til kollektiv mental underutvikling. Inkompetente regimer bruker metoden for å fremstå relativt kompetent. 'Janteloven' er en kollektivt kulturell selvregulering for sådann underutvikling. Men det var hverken Dagmar eller Hans Christian sin hensikt. De var kun aktører i noen spill, med et århundres globale konsekvenser.

Joe Jackson - Crime Don't Pay

2011.jan.21

Ukens utvalgte

.. er jeg riktig glad for. Den er ikke populærisert, men desto et større kunststykke. En tydelig opprørt Joe Jackson raser her igjennom teksten, som faktisk er temlig lyrisk og godt situasjons-fortellende. Egentlig burde man ta avstand fra moralen, men den er så ærlig fremstilt at man tror det er den grimme sannhet. Joe er en ekte musiker som samler dyktige med-musikkanter. Etter mafia-strofene til teksten reserveres siste halve tiden til en rent instrumentalt lek. Organisten har tilsynelatende alt å lære, - men han lærer dog, godt guidet og støttet av takt og tone. Pianisten svirrer rundt organisten og trekker han inn i mere harmoniske veier. Det er synd at produsere valgte å fade det ut før de fikk gjort seg ferdig.

Sangen er tydeligvis koblet til politiske budskap om menneskerettigheter, - ihvertfall her på Tub'a. Politiseringen tar litt av kunstverdien, men tjener dog et godt formål. Med hensikt til å bruke Janus måned til å legge negative ting bak seg, og se positivt fremover, passer teksten godt. Den gir sterke assosiasjoner til nettopp den værste mafia boss noensinne, - Ioseb Besarionis dze Jughashvili, alias Stålmannen.

Historisk sett ble Ioseb kastet ut av skolen fordi han ikke rakk slutteksamen. Han ble Bolsevikenes operasjonsjef i Kaukasus og finansierte organisasjonen ved bankran, kidnapping, utpressing og drap. Han ble faget og sendt til Sibir syv ganger, men rømte hver gang. Han slapp unna militæret i WW1, angivelig på grunn av en dårlig arm. Behovet for en bedret omtale ble fixet med å lave avisen Pravda (Sannhet). Så lavet han sitt alias Stalin (Stålmannen) for å propagandere seg selv og organisasjonen. Lenin mente at Stalin var den rette person til å styre Sovjet og tilsatte han som generalsekretær i mellomkrigstiden. Straks fikk Lenin slag og måtte trekke seg. Stalin fortsatte Lenins meritter og sto for 10-doblet henrettelsen av medborgere. Psykopatiets Patriark ble den ultimative mafiaboss i det ny-republikanske imperiet. Men var det ikke enklere om borgernes penger havnet i en statskasse enn i alle disse besværlige bankene? Hm. 'Ta alt'-politikken ble en internasjonal Toll&Skatt ideologi.

Norge startet det nye årtusen med å gi nordmenn den overordnede Menneskerettsloven <http://www.lovdatab.no/all/nl-19990521-030.html> . Denne ratifisering av FN og CoE konvensjoner kontrollerer statsmenn i forhold til statsborgerne angående; eiendom, selvbestemmelse, sikkerhet, privatliv, familieliv, arbeid, utdanning, samt sikrer friheter for tanke, samvittighet, religion, ytring og mer. Loven kan godt kombineres med Straffeloven. Men etter et halvtårhundres forsinket ratifisering og et tiårs virke, er fremdeles Menneskerettsloven en meget godt skjult virkelighet. Faktisk har alle siviliserte demokratier forpliktet seg til ratifisere konvensjonene. Om de gjorde, - ville det være en god forsikring mot gjentakelser av det forrige århundredets 'Crime of the Century'.

Men her altså, Joe Jackson's kunstneristiske beskrivelse av sitt møte med en ekspansiv gangster.

Internasjonalen

2011.jan.14

Ukens utvalgte

.. er en naturlig oppfølging til forrige uke. Det er politisk tekst og selvsensur som stiller den i samme bås. Teksten er forøvrig interessant og relevant til nyårets oppgjør med det forrige århundredes dårlige sider,- de man bør bli av med.

Historisk sett er det en fransk sang, - de som periodevis har behov for å eksplodere i voldsorgier som revolusjoner og offentlig masse- guillotiner. Teksten er en massiv selvforherligelse og xenofobisk forakt mot eget styre. I ren apokalyptisk stemning suggeres frem en masse-psykose om at; hvis vi bare smadrer alt, går det nok godt til sist, - det blir ihvertfall ikke nødvendig å smadre mer. Internasjonale er ønskesangen for imperiers invasjon-drømmer.

Sangen ble adoptert som Russlands nasjonal-sang etter henrettelsen av tsar-familien. Offentlig tvangs-synging ga kollektiv følelse av legitimering. Det var den tid da Lenin ble, som et masseødeleggelsesvåpen, smuglet inn i landet i en polstret togvogn. Han var tidligere utvist etter å ha splittet det social-demokratiske arbeider partiet, så det kolapset. Som Sosiopatiets grunnlegger nektet han demokrati og sto for folkemordet på 4 millioner medborgere. Det tilsvarer hele Norges befolkning.

Den russiske versjonen ble brukt som nasjonalsang i Sovjetunionen fram til 1944, da den ble avløst av 'Hymne til Sovjetunionen'. Man kunne simpelthen ikke lenger ha en nasjonal sang med teksten; "Vi knuges under stat og love, vi flås af skattens skarpe klo". Det ville jo være avslørende og selvdestruktivt for et totalitært statsregime.

LO er grunnlagt av den nettopp denne borgerkrigs-kultur. LO tilsvarer det sovjetiske tvangsarbeids-systemet 'Gulag' sitt koloniseringsprogram for såkalt 'Exile settlements' (ссылное поселение), - en type inter-NasjonalKommunisme. Følgelig velger organisasjonen nå selvsensur på verset om statlig undertrykkelse. Man våger liksom ikke helt, som sitt patriarkiske imperie, å bli av med sangen, fordi forfedrene fundamenterte den så kraftig. Så blir kompromiet den kollektive feighet å sensurere seg selv, litt for litt, så ingen liksom merker at LO faktisk nå er mot sitt opphav.

Billy Bragg har populisert sangen ved å omskrive det meste. Det er kapitalistiske profitt-potensialer som entertainer. I denne video bruker han lang tid på å sjarmere og myke opp publikum før en høyst sensurert og kortfattet versjon synges. Den er godt pakket inn og ikke til å gjenkjenne. Men det virker, - han blir berømt og tjener penger. Like fullt, sangen er en hyllest til menneskehetens værste regimer og massedrap. Derfor bør denne sangen forbli i forrige århundrede og ikke slepes inn i dette. Temlig motvillig trekkes her liket ut av skapet. Man skal jo heller ikke helt glemme.

Kringsat af fjender - Kim Larsen

2011.jan.07

Ukens Utvalgte:

Det er nok ikke bare følelsen Kim Larsen har, efter en hei-dundrande nyttårsfest. Han har det jo med å åpne den store munnen sin. Men til denne sangen ligger det en virkelig dyptgående historie bak følelsen. Teksten er som en paranoid oppfordring til ungdommen om å slåss mot alle sine 'fiender' rundt seg, uten noe hjelp og uten noe forsvar. De oppfordres endog til å dø for denne rød-brune propaganda. Det hele pakkes godt inn i noen avsluttende vers om helt normal moral.

Teksten "Kringsatt av fiender / Til Ungdommen" ble opprinnelig skrevet av bergenseren Johan Nordahl Brun Grieg i starten av den andre verdenskrig. Johan var en fjern slektning av Edvard Grieg. Han var blitt positivt fasinert av Sovjetunionen og Moskvaprosessene i et lengere opphold derover. Sovjet behøvde poetisk propaganda og navnet hans hadde verdi. Sånn sett må han ha vært den tids motsetning til Knut Hamsun.

I '52 lavet dansken Otto Mortensen musikk til teksten. Det kunne føles nødvendig med gjenlivning av oppfordringen til den tids ungdom. Den sovjetiske teppe-bombing og okkupasjon av den danske øy Bornholm så ut til å være første fase av innvasjon av 'Øst-Danmark'/Sjælland/Selandia, - så som innvasjonen av Øst-Tyskland. Königsberg var allerede etnisk utrensket og omgjort til en massiv Sovjetisk marinebase, - klar til invasjoner. Den Røde Hær hadde allerede rykket inn fra Tyskland i syd. Men Stalin inngikk en overraskende dobbelt-deal med de allierte og annullerte militær invasjonen av Danmark. De forhåpningsfulle NasjonalKommunister ble sviktet, så som NasjonalSosialistene før dem. De ble etterlatt med null gevinst og nix selvforsvar. Så var det trøst i 'Kringsat af fjender'. Holdningen i dag synes å være: Den siste invasjon er alltid best, - den nest-siste er alltid værst. Det tales heller ikke om valg-alliansen mellom NasjonalSosialister og NasjonlaKommunister i Tyskland, - den som sørget for at Hitler's makt over Europa.

Dette lærte visst unge Kim lite om i folkeskolen. Når Danmark knyttet seg til de europeiske naboer ble det gitt nytt liv i oppfordringen 'Til Ungdommen', med en syntet maskin-versjon. Kim sensurerer her det andre verset, - det med det svikefulle svar til den håpløse bønn. Tilbake er en tilsynelatende etisk forsvarlig poesi. Men kombinert med ordtaket 'angrep er det beste forsvar', man man godt forstå hvordan de lokale og destruktive gate- og fotball-opptøyer triggjes.

Men i dette nye året er det da på tide å bli av med denne følelsen av å være 'Kringsatt av fiender'. Man burde heller våge å vende denslags ryggen, samme hvor skremmende det fremstår, og bygge normale forhold til alle sine naboland igjen.

Nyttår - John Foxx - 20th Century

2010.des.31

Ukens Utvalgte;

.. faller på den aller siste dag i året. Øyeblikket 'nyttår' starter faktisk kl 1300 europeisk tid og varer et helt døgn, - hvis man følger årets overgang hele verden rundt. Sånn sett kunne feiringen godt gå fra det tradisjonelle, å være et øyeblikks klimaks kl 24, til å bli en felles global fest i 24 timer. Så kunne all verdens borgere følge hverandres klimaks i de lokale øyeblikk. En stafett av nyttårsforsetter kunne man også legge med. Det er bare å ta tak i tradisjonen som ble skapt i år 2000 med bruk av internet-TV.

Nyttårsforsetter er jo en annen side ved nyttåret. Ikke bare løfter om forbedring, men også at det er nødvendig å legge noe gamle bak seg for å starte et nytt. Det er endog ting man bare bør innrømme var en feil og starte med helt nye øyne på saken. Som man så ser et helt år utløpe, har vi også sett et ti-år, et århundrede endog et årtusent avsluttet. Det 20 århundrede bør ikke bli en arvesynd man skal slepe med seg i generasjoner fremover. Man kunne fylle mengder av websider med oppramsing av forbedringspotensialer, - det er jo bare å kikke på internettet, - men det føles ikke riktig nå. En kan heller velge å ytre seg som denne ex-Ultravox vokalisten i lyrikk, sound og visjon.

Julekveldsvisa - Alf Prøysen

2010.des.24

Ukens Utvalgte:

Julekveldsvisa er vel den mest fredelige og ukontroversielle julesang jeg kan finne. Selv ateister kan synge med, skjønt dialekten er en utfordring å forstå.

Jeg har derfor tatt meg det bry å oversette teksten til dansk for anledningen. Det går dog litt utover den originale poesien som trubaduren fremskapte. Dialekten er så utfordrende at jeg måtte mellom-oversetter via bokmål. Andre kan godt prøve å bedre oversettelsen.

<http://www.youtube.com/watch?v=lzeYvEHM7bM>

Julekveldsvisen på dansk

Nu har vi vasket gulvet, og hentet brænde ind.
Og vi har sat op fuglenek og vi har pyntet tre.
Nu skal vi sidde og hvile os og puste lidt ud.
I mellemtiden vugger jeg, så din bror får en lur.

Tag stolen hit til vinduet, så vi sidder og ser
og prøver på at finde hvorhen julestjerne er,
den lyseste af alle, hun er så klar og stor.
Du ser det over taget, hvor Jordemor Matja bor.

Hun er så venlig stjerne, hun blinker, kan du se?
Og nu vil jeg fortælle dig, og du skal lytte med.
Den første gang hun skinnede, da lavede hun en bro
i mellem sig og himlen, en vugge og en ko.

I krybben låg en lille dreng så frisk og ren og god.
Moren passede og klædte ham og hans far stod og lo.
Og hyrde drenge der i fra, de gik dit til og fra.
Og bar med sig små lamme børn, som drengen ville se.

Og de tre vise mænd - de red i flere dage.
Og ingen vidste vejen, og ej hvorhen det gik.
Men stjernen stod og blinkede på himlen den blå.
Så ingen af dem gik sig bort, og alle tre fik se.

Ja, det var første gang som julestjernen brand
Men siden har den brændt i alle verden lande
Og uanset hvad der sker, er stjernen lige stor
Du ser den over taget, hvor jordemoder Matja bor.

Et barn er født i Betlehem – diverse artister

2010.des.17

Ukens Utvalgte;

Julesangen 'Et barn er født i Betlehem' er en riktig klassiker. Både tekst og melodi er rett hyggelige og synges i de fleste kirker og hjem. Selv synes jeg sangens mysterier, både i tekst og melodi, er det mest fasinerende.

Himmelens kongesønn er nyfødt. Både engler og mennesker tilstede og vitner det hele. Englene er av den typen som daler ned og ikke faller som en stein. De er med andre ord på den rette side. Josef er visst ikke faren. Men jeg kan da ikke tro at den universelle Gud og skaper setter barn på ungpiker. Det synes heller å være en anonym engel, - men hvem? Michael? Gabriel? Neppe. Uansett, som historien beskrives, synes

det å handle om en Nephilim's tilblivelse, så som i gamle testamentet. En hendelse som kan gi mang en science fiction fantastisk hakaslep.

Sangen synges både på dansk og norsk. Teksten er så godt som entydig på de to 'språk'. Men – melodiene er forskjellige. Det var visst en AP Berggreen som omskrev melodien til NFS Grundtvig's tekst, - eller skrev han originalen? Uansett, -hvordan kunne det skje? Det undres jeg hver jul, når jeg blir nødt til å synge sangen i en helt annen tone. Fenomenet er ikke så ulikt hovedforskjellen på 'dialektene' heller. Setningenes melodier er forskjellige, mens ordene har den samme stamme. Det er lettere å lese enn å uttale.

Achmed the Dead Terrorist Christmas Song

2010.des.10

Ukens Utvalgte:

Det skrider mot jul og budskaper brer seg. Høydepunktet blir selvsagt juleaften med julefred, barnefødsel og familiehygge, - tross alt. Forhistorien til tradisjonen har dog noen besynderligheter.

Det skjedde i keiser Augustus' dager. Roma hadde okkupert Egypten, inklusive dagens Jerusalem. Taperne var perserne i midtøsten, inklusive dagens Irak/Iran og Arabia. Jødernes eks-konge Herodes abdiserte for å beholde hodet. Keiser Augustus var trett av historier, som den om Julius, Cleopatra og Caesarion, som skulle utropes til kongelige gudommer og arve imperie-aliasen. Det var gjort omfattende og effektive stoppere, som sikret et fortsatt republikansk Roma.

Så kommer 3 menn ridende inn fra øst. Noen sa de var vise, andre sa de var konger. Men et nytt og gudommelig budskap hadde de med seg. "Det er født ny en konge i landet!" Reaksjonen ble som om de hadde lagt til: "Gjett hvor han er". Mirakuløst nok overlevde jesubarnet den påfølgende massedrap av guttebarn. Den med gull og andre gaver kunne kjøpe beskyttelse. Forståelig nok hørte man ikke fra han på flere ti-år.

Man kan sagtens undres over disse vise's omtanke. Hvis det virkelig var Guds sønn, så var skjebnen forseglet uten deres innblanding. Handlingen var dog en indirekte årsak til masakeren av alle de andre. Dagens stridigheter i regionen har ikke avtatt. Tvert imot. Litt på kanten, er denne filmens dunkle humor. Men den synes å ha år-tusener's aktualitet, - helt fra Abraham og hans tre kvinners dager.

Den prestisje-tunge musikk-avisen Rolling Stones, har valg seg selv til å kåre 'Tidenes 500 største sanger'.

Øverst på listen er; 'Like A Rolling Stone' med Bob Dylan, derefter 'Satisfaction' med The Rolling Stones. På

tredjeplass, den omtalte 'Imagine' av John Lennon. Man skal selvsagt være forsiktig med å kritisere kritikere, men valgene deres synes påfallende. Det er selvsagt lavet langt bedre musikk enn sådanne indirekte avisreklamer.

Jeg er ikke spesielt fan av The Rolling Stones, - ei heller sangen (can't get no) Satisfaction. Den er Brok & Roll (dansk). De klager over sine smålige bekymringer og tusenvis av fans brokker med i ustemt takt. Dette påstår avisen er verdens nest beste sang noensinne. Svada.

Bandet Devo ble bygget på en spøk av et noen kunst-studenter i Kent State University. Devo er en forkortelse for De-evolution hvor det antydes at menneskehetens utvikling er på retur. Egentlig så de ikke for seg at de skulle bli et band, inntil de fikk støtte fra David Bowie, platekontrakt med Warner Brothers og Brian Eno som produsent. Tross bandet vanvittige ideer er musikken faktisk rimelig godt komponert og produsert. Men selv synes jeg det kan bli for mye med tittelsangen.

Best av alle, er deres oppriktige versjon av 'Satisfaction'. Her om-komponeres rekken av kjedelige rocke-riff til noe helt annet. Her blir slageren devofisert til sitt rette. For min del kan de lave et helt album med devofisering av hele avisens Top 10 liste. Snakk om coveralbum i rette ånd.

John Lennon - Imagine Lyrics

2010.nov.26

Ukens Utvalgte:

'Imagine' med John Lennon er ikke bare en 'landeplage', men global plage i årtier. I boken til Geoffrey Giuliano uttalte Lennon at den er "anti-religious, anti-nationalistic, anti-conventional, anti-capitalistic, but because it's sugar-coated, it's accepted." 'Imagine', som er et så flott og viktig ord. Det er bare for drøyt. Sukkerhinnen skrapes herved av.

Årsakssammenhengen han fremstiller er ikke sådann; med personlig eiendomsrett, religiøsitet og nasjonal suverenitet på den ene side, - grådighet, helvete og krig på den andre. Det er heller ingen løsning på problemene at alle FN's nasjoner elimineres, at verdens befolkning blir eiendomsløse og at troen på positivitet opphører. Tvert imot.

"Mere populær enn Jesus", proklamerte Lennon om seg selv. Høyest ble han vel som psykedelisk ungdomsforbilde. Som styrtrik junkie fremsto han lissom som en 'working class hero' for de ruinerte junkies. Big brotherhood of man - Dream on.

Men melodien er fin.

The Dukes of Stratosphear - The Mole From The Ministry

2010.nov.19

Ukens Utvalgte:

Flere artister, og da særlig vokalist, fremstår på scenen som en annen person. Scenen er et sådan sted, både for teater og spill. Noen artister har fått problemer med det stadig ego-skifte og tatt sitt alter-ego til

privatlivet. Det finnes endog hele band som påtar seg alternative roller på konserter. Men sjeldent har et helt band påtatt seg en alternativ band-identitet og opptrer vekselvist som den ene og den andre bandet. XTC var en engelsk gruppe fra 80 tallet som var rimelig godt kjent. Det kan være det ble litt for kjedelig å kun være en almindelig rockgruppe. De lavet ihvertfall en alternativ gruppe som de kalte 'The Dukes of Stratosphear'. De tok den psykedeliske sjanger fra 60 tallets band, som Beatles, Pink Floyd og Kings. The Dukes fremstiller generen ganske godt, hvis man liker stilen og humoren. Dog gir sangen 'kaleidoskop' en kraftig advarsel mot å leke med dop.

'The Mole From The Ministry' kan være så mang en minister. Hos meg popper det opp bilder fra Olje/Pensjons-fondet, - og tanker om de 600 milliarder kroner som bare forsvant, - et halvt norsk, eller 3 Islandske, statsbudsjett! (Miniplenty så en annen vei og Minitrue bagateliserte via den fjerde statsmakt.) Når man da for nylig så bilder av en minister lurke rundt i fondets New York kontor, minnes jeg denne sangen.

1984 - Eurythmics "Ministry Of Love"

2010.nov.12

Ukens Utvalgte:

'The Ministry of Love' er en hard video. Den viser et sammendrag av filmen '1984' og er klart 'voksen'. Eurythmics fikk oppgaven å lave filmmusikken og har dedikert et helt album til det. De fleste sangene ligger på Tub'a.

Man kan få inntrykk av at prosjektet primært var David A. Stewart's, og ikke Annie Lennox, sitt. Musikken er hva man kan forvente av David og teksten sjeldent mere enn gjentakelse av tittelen. Dermed er albummet fullt av potensialer. Her er med andre ord fundamentet til en rockopera allerede lavet. Man skal bare gjøre noe poetisk ut av novellen og iscenesette det. Se hvor godt Bowie's "We are the dead" passer til scenen forrut anholdelsen.

Hovedpersonen Winston gikk i fella. Hans siste håp ble oppfylt da han fikk en lapp av Julia med teksten 'I Love You'. SexCrime avslørte DoubleThink og ThoughtCrime hos 'The Last Man in Europe'.

Rett inspirerende må den takktikken ha vært, siden computer-viruset 'ILOVEYOU' anses som av verdens mest destruktive i den demokratiske verden.

Filmen gikk stort sett gjennom norsk filmcensur. Men en scene ble for sterk, selv for dem. Når Winston omsider er blitt konvertert fra Intellektuell til Partiets Proletar, er han alkoholisert, ensom, slår tiden ihjel med sjakk og er glemt av alle. Hjernevasket ferdig, ytrer han til sist en kjærlighet for Big Brother. Først da kunne han ikke bli martyr. Han er ikke mere verdt enn den kulen i ryggen han fikk. Filmkontrollen fjernet avrettelsen fra filmen. Ministry of Truth.

<http://www.youtube.com/watch?v=cjHS-9munbM>

Men så, etter å ha skrevet så mye om en rockopera, så viser det seg at en opera faktisk er oppført i 2005 og på DVD i 2009. Kritikken er blandet - som mitt inntrykk. Julia er da visselig ingen (Romeo og) Julie.

Nick Cave - Mercy Seat

2010.nov.05

Ukens Utvalgte:

Hvordan kan det ha seg at Nick Cave får holde konsert for den danske Kongehus i Operaen? - Det kan være det er fordi han er Australsk, akkurat som den blivende danske dronning. Kronprinsen er fan, så her er det seriøs kulturinnflytelse på gang. Desværre stengte DR av konserten straks Nick kom på scenen. 'Den gemene hop' fikk aldri sett den opptreden, men det lille glimt av åpningen så temlig Bad Seed -aktig ut.

Det er tilogmed lavet en Teaterkonsert i Århus dedikert Cave's musikk. Ikke at jeg har sett den heller, men deres versjon av 'Mercy Seat' er værdig. Det er en diskre betegnelse på den elektriske stol. Tross det dødsalvorlige tema har flere artister fremført sangen. Selv kan jeg godt forestille meg den som en del av en neo-'1984' operette.

Temaet minner meg også om rivaliseringen mellom Thomas Edison og Nikola Tesla. Assistenten Tesla holdt på å overgå mester Edison. Det ble en bitter strid om Edison's DC eller Teslas' AC burde bli standard for massedistribusjon av elektrisk energi. Man kan faktisk se på Tub'a at Edison demonstrerer at AC er farligere enn DC ved å ved å offentlig avrette elefanten Topsy. Edison vant berømmelse og Tesla's fasinende oppfinnelser ble 'glemt'. Så kom ww1. Med en mere rettferdig behandling ville vi antagelig hatt flere elektriske erstatninger av CO2 maskiner i dag. Men her altså, det Edison inspirerte Mercy Seat.

David Bowie - We are the dead

2010.okt.29

Ukens Utvalgte:

Tross tittelen er dette en av Bowies best sanger, etter min mening. Teksten er ikke original i den forstand at han situasjonsbeskriver en klassiker. Det er en høyst menneskelig fremstilling. Tema for albumet er romanen '1984' og at 'The Last Man in Europe' må innse at det slutt.

'1984' ble skrevet i 1948, - derav bokens nøytraliserende tittelen. Historien er ikke noen fremtidsvisjon om fortiden. Det er et tidløst 'cold war worst case scenario', hvor vest-europas siste demokrati faller. Frykten og hypotesen var reell nok etter å ha vitnet hvor simpelt øst-europeiske stater kunne infiltreres, manipuleres og kuppes. Dette var utenkelig for det store flertall av borgere med sine menneskelige verdier inntakte. Godhetens iboende naivitet.

Fundamentalismen for statsstyring stammer fra arktypen Plato. Denne politiske primat beskrev en virtuell maskin kalt staten og republikken, - et 'hardcore' Roma. I Platons idealsamfunn er han og likesinnede innsatt som overherrer, mens samfunnets kvinner og menn er umyndiggjorte treller. Trellene sørger for at samfunnet produserer, mens statsregimet tar det hele og gir kun det nødvendige tilbake. Dette er demokratiets anti-tese. Regimet er ikke mere interessert i borgerne enn en bonde er for sine nytteplanter og nytte dyr. Statsprofitten er maksimert.

Bøker og filmer om '1984' er kald som originaltanken selv. Men her har Bowie virkelig personifisert mannen. Det er de refleksjoner i teksten og sangen som viser at han sannelig er en betydelig tekstforfatter. Dette grunnlaget kunne bli en utmerket rocke-opera.

David Bowie - Look Back in Anger

2010.okt.22

Ukens Utvalgte:

... er heller ikke blandt de kjente eller populære. Den er ikke spesielt i melodi eller tekst. Teksten viser dog at man sagtens kan være lyrisk uten rim. Soundet gjelder. Brian Eno har her hjulpet Bowie, som han har løftet så mange andre artister. Men når en artist velger å synge seriøst om en engel, er det som om kritikere splittes som ved det store englefallet. Det gis bare ikke en balansert respons. Kritikken svinget fra: "probably the low point of the album" til "one of Lodger's dramatic highlights".

Teksten sies å handle om "a tatty angel of death", som i motsetning til de fleste sier "Look Back in Anger". 'Tarvelig' er et lite brukt ord om engler. Men visse beskrivelser kan neppe betegnes som annet, med mindre det er den beskrivende som gjør urett. Det synes for lett å predikere fordømmelser, når det faktisk kan

være ens egens intolleranse som ligger til grunn. Det bør være grenser for hva Gud skal beskyldes for. Et dårlige renome kan skyldes villfarne teister som ateister.

Videoen er god. Det er Sound & Vision for Bowie, som gir stemmen litt ekstra. Scenariet er basert på Oscar Wilde's 'The Picture of Dorian Gray', hvor selvportretet forbedres på bekostning av artisten selv. Det er et bilde artister kan gjenkjenne. Dette er et stykke godt seriøs kunst.

David Bowie - Aladdin Sane

2010.okt.15

Ukens Utvalgte:

David Bowie er en multi-kunstneren som kunne fylle en hel dag med god underholdning. Når jeg så velger et bestemt stykke, er det ikke det mest populære eller nyeste. Her laver han en ny scene-artist, som fremhever tvetydigheten i perioden. Feilaktig er dualismen fremstilt som tvekjønnet, når det baseres ...på intetkønn av en annen verden. Navnet Aladdin henter nok til historien fra '1001 Natt', hvor det skjer et skebnesvangert møte med en Genie.

Genies forbindes med en 'ånd' og omtales også som Jinni eller Djinn. Det er en pre-muslimsk skapning som også hører monoteismen til. Det er med andre ord 3 intelligent vesner fra forskjellige verdener i monoteismen. Det er mennesker, engler og djinns. Ingen av de 3 er utelukkende ond eller god. I deler av Koranen taler ærkeenglen Gabriel via Mohamed til disse. Men i Testamentene tas det sterkt avstand til dem, hvor de heller omtales som demoner.

Man kan forestille seg mennesker fra den tid, - at de om natten, når de ikke kikket på himlen og undres over hva den skjulte, - kikket antegelig på leirbålet. De så at veden ble til ild, røyk og energi. 'Levende ild' kunne fremkalle forklaringer på mangt og meget. Ikke at de kom frem til at $E=mc^2$, men høyst sannsynlig at $E=mx$, - at det er en sammenheng mellom Energi og masse. (Nåtildags sies det at $x=c^2$) Nåh, uansett, ilden var nok vel så facinerende som stjernene. Djinns ble tildelt egenskaper som; en flammende vind med uhemmet vilje, så vel som ignoranse, falskhet, despotisk og upålitelig.

Teksten i Bowies stykke er rimelig poetisk, men litt banal. Den er fra en periode da han var på det mest originale. Her er det musikken som fasinerer. Det kan han takke gjeste-pianisten Mike Garson's for. I instrumentalpartiet prøver bass og trommer å holde så godt de kan på takt og tone, mens piano og saxofon forviller seg på kantene av det umusikalske. Det er så det svinger mellom Alladin Sane og en Allad Insane.

Leonard Cohen - First we take Manhattan

2010.okt.08

Ukens Utvalgte:

Så over til en virkelig seriøs poet. Leonard Cohen mener hva han synger. Cohen betyr prest - og det er da også hans familie arv. Denne sangen er en blotlegging av lysky, sub-politiske, kvasireligiøse og oppblåste egosentrikere.

Teksten er opprinnelig lavet som en kritikk av RAF (Red Army Faction), men den strekker seg åpenbart langt utover de grenser. Nasjonal-Kommunister tok over der Nasjonal-Sosialister slapp. Stalinisters valg-stemmer sikret nazistenens valgseier. I den Stalin-Hitler alliansen, fungerte Hitler som Stalin's 'Mini-Me'. Han ble den mest effektive erstatning av Trotskij's, - en komplett idiot som enehersker over fiendens styrker. De ble selvdestruktive. I den etterfølgende kalde-krig har NK celler infiltrert religiøse organisasjoner i mange nasjoner. RAF hadde også en Skandinavisk søsterorganisasjon i København, som bl.a. betegnes 'Blekingegadebanden'.

Adolf Schickelgruber sitt alter ego er som klistet ut av Notredamus' samlede 'profetier' fra 1600 tallet. Han skrev om 'Hister' i forbindelse med noen oppdiktete katastrofer og nevner Tyskland spesielt. Det er da bekymrende hvor enkelt det er å ta en gammel 'profeti', iscenesette deler av den og påstå at spådommen er gått i oppfyllelse. Adolf Hitler's gjennombrudd var på den tiden man startet eksperimenter med LSD. Han var da også ledsaget av en personlig doping-doktor. Slavofile taler, med okkulte undertoner, om Arisk

overherredømme, viser at han følte tilhørighet til helt andre steder og kulturer enn Tyskland. Den Grande Exit, ved å gå opp i flammer som en eller annen Super Genie, ble ikke så teatralisk alikevel. Men som Nasjonal-Kommunismen's patriark har verdenhistorien blitt brennmærket. Ut av asken kom også RAF. Her, i denne offisielle videoen, viser Cohen overbevisende hva ble tenkt, men ikke sagt.

Boney M Rasputin

2010.okt.01

Ukens Utvalgte:

Denne vask-ekte tyske gruppen Boney M forteller her Russerne om den virkelige årsaken til Keiserdømmets fall. Denne versjon står ikke i historiebøkene, - den at Rasputin kjørte den kongelige Keiserinnen på tjukka.

Det er dog noe i de rykter historien forteller. Det ilske forholdet mellom svigermor og s...vigerdatter utartet seg til et dansk-tysk 'Tuppen og Lillemor' -forhold. Onde okkulte tunger skaper strid. Russlands skjebne hvilte på keiserens sønn. Riket ble naturligvis bekymret av rykter om arvingens helse og Rasputins virilitet. Selv ikke deres værste fiender ville ha en sådann keiser. Men man kunne saktens få abdisert keiserparret ved justismord. Familien ble da også stille og rolig eskortert til hva de trodde ville bli en rettfærdig rettsak. Imperiet ble revolusjonert fra keiserdømme til republikk, fra St. Petersburg tilbake til Moskva. Det vaskes fremdeles hender i Templer og Stat.

Boney M fremfører her historien like troværdig som sitt opphav, musikalitet og kunstnertalent.

Magnus Ugglas Astrologen

2010.sept.24

Ukens Utvalgte:

'Astrologen' med Magnus Ugglas kan være den fineste jeg vet. Referenget rører en, - selv med en så enkel kjærlighetserkjennelse. På den annen side, med kjennskap til Ugglas poetiske utskjelset, kan man mistenke han for å ha brukt et speil som inspirasjonskilde. Men i teksten leser han 'astrologi' og fin...ner at sin kjærlighet matcher godt. Lykkeligere kan han ikke bli. Men så av en eller annen grunn oppsøker han 'nummerologi' og får motsatt spådom. Som en konvertert troende kan han ikke annet enn å ta avstand fra sin sanne kjærlighet, det vakreste han vet.

For en realist fremstår astrologien som det reneste manipulative nonsens. Det baseres på 'Flat-Jord/Flat-Himmel' teologi fra steinalderens dager. Det er fra den tid man så at blått hav og blå himmel møttes i horisonten og mente de to verdene møttes der. Om natten kunne man få inntrykk av hva som rørte seg der oppe. Fasinerende spekulasjoner om påvirkninger ble uttrykt i astrologi. Vandre-stjerner, som planetene kaltes, ble tillagt overnaturlige menneskelige evner. Astrologiske 2D kart over 3D rommet, og dertil fantasifulle spådommer, har i tider vært avgjørende som politisk virkemiddel å såvel Trone som Tempel.

Tilsvarende kan jeg godt forestille meg en kortkunstner med Tarot-kort. Hva kunne ikke disse oppnå med godtroende maktpersoner, og fått historien kjørt ut på sidesportet og endog ut i grøfta. Se på de små video-snutter under.

Desværre finner jeg ikke video av Magnus Ugglas selv. Denne videoen er presentert av en eller annen Marcus Öhrn, som desværre har klippe bort hele poenget om nummerologi og spådommers dilemma. Så

faller desværre hele sangen ned til å bli enda en romantisk hit med en avansert karaokesanger. Men fin er den.

Jesus Christ Superstar

2010.sept.17

Ukens Utvalgte:

Når temaet er engler i musikk, så kommer man ikke utenom Jesus Christ Superstar.

Tittelsangen, sunget av Judas, har naturlignok et kritisk blikk, på Jesus. Han skal jo forsvare sitt svik. Forøvrig forsvaret han hele sitt folk, for her var presteskaper, eks kongen og folket med. Man skulle simpelthen ikke... ha noen ny gudesønn til konge.

På den tiden trodde man at planeter var stjerner i bevegelse. Ikke så merkelig da de lyste på samme måte. I nettenes mulm og mørke spekulerte man på hva dette kunne være for noe. Lys er liv, så planeter ble til engler/guder og stjernebilder til deres 'hus'. Så når Jupiter, den største vandrestjerne, gikk gjennom stjernebildet Jomfruen, ble det spennende for observatørene. Særlig hvis det også kom et komet eller stjernesudd ut av det. Falne engler, som daler ned i skjul, på Betlehem-stjernes tid, med tilhørende jomfrufødsleser, taler sitt budskap.

Operetten er meget godt skrevet, rent ateistisk sett. En hensikt er å renske Judas, noe som går ut over Jesus' renome. Men fundamentet er dog den uløselige konflikten mellom de 3 samfunnsmakter; Stat, Trone og Temple, - i et geografisk skjæringspunkt mellom de 3 imperier; Egypt, Roma og Persia. En evig slagmark uten fredsutsikter i overskuelig tid.

Så når ateisten Judas i sin etterpåkløskap ser tilbake fra nåtiden, kan han fremdeles ikke forstå hvorfor det gikk som det gikk. Han ser jo alltid saken med ensidig enfoldighet.

Goo Goo Dolls - Iris (Official Music Video)

2010.sept.10

Ukens Utvalgte:

Gruppen Goo Goo Dolls har et navn jeg neppe hadde lyttet til, hvis det ikke var for denne sangen. Det er også den eneste sangen jeg har hørt av dem. Men her traff de spikeren midt på hodet. De fikk den ære å bli offisiell musikk Video til filmen 'City of Angels' med ingen ringere enn Nicolas Cage og Meg Ryan. Iris, heter sangen. Besynderlig nok er hun ikke av den første generasjons engler. Filmen henter til engler i L.A., som

ikke har noen fysisk tilværelse. De kan derfor kun observere alt hva menneskene måtte finne på, uten ingripen. Engelen Seth sin rolle er å guide døende på den rette veien etter livet. Men Maggie gjør alt for å redde døendes liv. Seth faller bokstavelig for Maggie og velger å bli en fallen engel for å kunne føle hennes kjærlighet. Deres tragedie er at kjærligheten er ikke akseptert av hverken mennesker eller engler. Det gikk riktig galt for lenge siden, som beskrevet i Bibelen; "The Nephilim were on the earth in those days—and also afterward—when the sons of God went to the daughters of men and had children by them". Kan det så være at den mest kjente 'gudesønn' av dem alle kaltes Jesus, selvom han ikke er direkte kalt en nephilim. I Goo Goo Dolls sin kunstneristiske fortolkning av filmen, fremstilles en 'engel' som en 'menneskesky' overvåker. Teksten gir da også en noe dunkel og skjebensvanger fremtoning. <http://www.youtube.com/watch?v=HmsCIQ1H0ME> Vis mer Goo Goo Dolls - Iris (Official Music Video) www.youtube.com/watch?v=HmsCIQ1H0ME "Iris" by the great Goo Goo Dolls from the album "Dizzy Up the Girl" (1998) Writer: John Rzeznik Written for the soundtrack of "City of Angels" Thanks for watching! Christopher Walker hverken synger eller spiller musikk. Han er en skuespiller som opptrer i denne musikk videoen. Men danse, det kan han. Ikke bare det, dansen tar av til de virkelig store høyder.

Videoen er så den kunne være en spin-off av Walkers rolle i filmen 'God's Army'.

Det var en lavbudget film hv...or han spiller ærkeengelen Gabriel.

I den historien har han blitt sjalu på menneskene og prøver å starte den andre

revolusjon i Himmelen for å sette seg selv og englene i sin 'rettmessige' plass.

En ærkeengel er egentlig lavt på hieraki-stigen, - som en sersjant i militæret.

Mindreverdighets-komplekset sitter farligt løst. Første gang englene tørnet sammen, var Gabriel på vinnernes side. Taperne ble kastet ut av Himlen. Siden har Gabriel diktert Koranen og det har visst gitt mersmak. I filmen er Gabriels 'Weapon of Choice' en Sjel.

Engler brukes overraskende mye i musikk-tekster. Man skal bare lytte ekstra på hva disse artistene faktisk synger.

Talking Heads sørget for å gjøre deres 'avslutningskonsert' monumental. Det var med tydelig hensikt å forevige deres karrieres høydepunkt. Selvom splittingen av bandet dengang var uungåelig, så spilles konserten antagelig fremdeles daglig verden over fra en eller annen DVD kopi.

Tittelen 'Stop Making Sence' er logikken igjennom hele konserten. Disse nørdy og autistiske karakterer Byrne spiller, har tilsynelatende havnet på feil sted.

Det er helt normal galskap, for 'Making Sence' er ikke essensen for scene eller musikk. Så blir avansert musikk og tekster underholdende med små bidrag av feil ting på feil sted. Selv alvorlige tekster blir humoristiske. 'Burning down the

house' hintes til hans navn og logiske humor, som å vende en sak 365 grader. Denne video-presentasjonen gir bruddstykker fra konserten og avslører desverre konsertens utvikling. Men den gir et ekstra iscenesatt interview med hans hovedperson og andre merkelige karakterer. Denne DVD'en bør oppleves som helhet på et godt anlegg, som PC med ørepropper. Den er simpelthen verdt alle sine femti kroner, - og langt mere til.

The Musical Box C

2010.aug.20

Ukens Utvalgte:

En annen konsert jeg bare måtte se var med The Musical Box. Det er et ukjent canadisk band og spiller ikke sin egen musikk. De er lisensiert av Peter Gabriel og Genesis til å reprodusere deres originale konserter fra 70-tallet. Jeg så Foxtrot oppsetningen i en teatersal. Det var en helt spesiell opplevels...e å se en konsert jeg aldri fikk se i tide, og ei heller noen gang virkelig kan få se, - for det er historie. (Forøvrig turnerte Genesis med VDGG på 70 tallet.) Det var med en viss skepsis jeg dro dit. 'Coverband & Wannabe' kan det nok tenkes. Men siden man godt kan se et Shakespeare teaterstykke og akseptere at William Shakespeare selv ikke kommer på scenen, kan man vel også se andre sceneopptredner med 'standins'. Det kan være det blir en stor industri å gjenskape utdødde legendariske konserter. Musical Box er ikke bare dyktige musikere. De er dyktige skuespillere også. Man kan endog merke i samspill mellom 'Gabriel' og 'Collins' at det er en spenning mellom dem. Det førte jo i sin tid til at badet søkte etter en erstatnings-vokalist, men fant ingen. Så hvis Gabriel skulle ut, så fikk de ta til takke med Collins. Tross flere forhandlingsforsøk senere har det vist seg umulig å gjenforene gruppen. Så er det godt man har band som Musical Box som gjenkaper Genesis beste konserter noensinne.

Van Der Graaf Generator - Undercover Man

2010.aug.13

Ukens Utvalgte:

Det er ikke ofte jeg er til konsert. Jeg synes jeg ikke har råd eller tid. Det blir ofte til at jeg kjøper en DVD konsert i stedet og ser den i fred og ro. God lyd, godt bilde og ingen anmasende fans. Men en sjelden gang gjør jeg unntak. Dette var for å se en re-union konsert, som antagelig ble den enest...e sjansen til å se dem live.

Det er vanskelig å beskrive gruppen Van der Graaf Generator. Navnet er tatt fra maskinen som beviste at den fundamentale greske vitenskap var basert på en eneste stor misforstått tro, - at atomer er udelelige. Vitenskapen har beviselig vært i villrede i tusener av år. Og etter et århundre med sjarlatanske forklaringer på hvordan det hele henger sammen, er uvissheten uttrykt endda sterkere nå med strengteorier og multiple univers. Det kan simpelthen aldri innrømmes.

Nåh, tilbake til musikken. Original konseptet til VDGG var to orgler, saksofon og trommer, - noe som er langt på siden av noen main-stream. Tekstene i seg selv var et studie verdt og Peter Hammil sin bruk av sangstemmen svingte langt mellom det melodiose og tidvis bristende. Helst ville jeg finne et godt opptak av 'Childlike Faith in Childhoods End'. Hvorvidt den bygger på novellen av Arthur C. Clarke, vites ikke. Men lignende filosofisk oppgjør med menneskeheten verdensbilde skal man lete lenge etter. Derimot fant jeg et akseptabelt opptak av 'Undercover Man', hvor det prøves å ta et endelig oppgjør med sitt alter ego, med utfallet '0 - 0'. Ingen av de stykkene fikk jeg se live tross den lange reise over land og strand.

The Black Widow - Alice Cooper

2010.aug.06

Ukens Uvalgte:

Vincent Furnier sitt første alter ego kalles Alice Cooper. Det begynte med gruppen Nash som var upopulær, - antagelig fordi de sang triste sanger om å være upopulære. Gruppen søkte støtte og fikk det omsider hos Frank Zappa og siden hos Warner Brothers. De koblet tanker om 'mislikt' med 'ond' og forestilt...e seg en sådan person mere som en kvinne enn en mann. Vincent ble Alice. Det orgianle album 'Love it to Death' viser det orginale konseptet, som tydelige viser det religiøse dilemma. Temaet gjenopptatt som helhet i albummet 'The Last Temptation', som handler om en lille gutts fortapelse og omvendelse. Vincent er nå en kristen person, en aktet golfspiller og kåserer gjerne. Merkelig nok kan det overraske at en aktør ikke virkelig er hva han spiller på en scene. Hvem i all verden tror Clint Eastwood er en kaldblodig morder og at Rowan Atkinson er en idiot? Vel, selv aktører kan gjøre den store feil og ta med jobben hjem, glemme sine dobbeltroller, og liksom bli sitt alter ego. Vincent gjorde det og endte to perioder på rehab. To ganger skiftet alter egoet karakter.

Denne video er fra en sådan periode. Det orginale bandet var nylig splittet, men Vincent ville videre. Det var usikkerheter om han faktisk eide sitt alter ego, så han lavet et nytt, - Steven. En krise senere skapte han et tredje alter ego, en Mr. Hyde aktig person jeg ikke husker navnet på. Men her er altså en miks av Alice og gutten Steven, som utsettes for ingen ringere enn Vincent Price, stemmen til Michael Jackson's Thriller. Gruppen the Cure kan også ha blitt inspirert av dette stykket til deres hit 'Lullaby'.

Frank Zappa - Stink Foot

2010.juli.30

Ukens Utvalgte:

Frank Zappa ble legendarisk i min ungdomsgenerasjon. Man hatet eller beundret mannen. Zappa var faktisk selv meget inspirert av Spike Jones, men han var i langt større grad en komponist. Tekstene var definitivt selvkomponerte og tøylet toleranse- og sensurgrensen. Zappa og hans Mothers of Invention måtte ...til sist forklare seg i retten.

I Norge ble sangen 'Bobby Brown' en stående hit for Rød Russen i mange år. Zappa trodde følgelig at nordmenn var spesielt merkelige. Faktum var heller at få forstod teksten og enda færre ante meningen. Dette stykket 'Stinkfoot' forklarer temlig uskyldig hvordan han omtaler tabutema med musikk og lyrikk på Zappatisk maner. Latterlig, kan Tom Waits ha tenkt om teksten, men den kunne sagtens få mang en rådvill teenager til å skifte sokker i tide. Stykket inneholder endog en typisk snøvegitar-solo, - amatørmessig visualisert med datidens animasjonsteknologi.

Spike Jones & His City Slickers LIVE

Ukens Utvalgte:

Spike Jones var en grunnlegger til musikalsk underholdning. Navnet Spike fikk han fordi han var tynn som en spiker. Han startet, som mang en guttevalp, av ren kjedsommelighet, å hamre løs på ting. Kokken i jernbaneverket lot han bruke kjøkkenutstyr. Dermed var banen lagt.

Musikken er simpelthen 'Luney Tu...nes', med hemningsløs respektløshet for det klassiske. De nye Radio og TV-stasjoner under ww2 hadde behov for humoristisk underholdning som motvekt til nyheter, så han ble hurtig populær. Spike selv var skuffet over at så få kunne se utover 'galskapen' i hans sceneopptredner.

Som trommeslager prøver han 'liksom' å holde sine City Slickers i tøylene. I dette nummeret, etter en serie abligøyer, avslører de seg som dyktige musikere. Mange av datidens og ettertidens artister er influert av dette. Warner Brothers var naturligvis det selskap som fant spesiell interesse i ham.

CHESSE The Musical-Promo

2010.juli.23

Ukens Utvalgte:

Sjakk? Det lyder da som en temlig nørdy og patetisk ide å basere en rockopera på. Men det lar seg faktisk gjøre. Tim Rice kom med ideen. Han var jo Lloyd Webber's tidligere kolega og forsto godt hva han hadde gang i. Så, når man trekker inn kald krig og trekant kjærlighetsforhold, blir det dramatisk i s...elv en omgang sjakk.

En halv ABBA sto for musikken, - noe Björn og Benny godt kan lage. Musikalen sitt fundament er en hit. Desværre ble den så populær at den overskygger det meste av de andre gode musikkstykkene. Jeg er også usikker på plasseringen av teksten. Den virker som tatt ut av sitt kontekst, som ideen var opprinnelig noe langt mere dramatisk enn hva en Italiensk badeby kan by på.

Jeg fant ikke et riktig godt stykke på nettet, så her er en Promo.

Dollie De Luxe - Which Witch

2010.juli.16

Ukens Utvalgte:

Dolly de Luxe - hva kan man si? De var lovende talenter med selvironisk navn.

Man forsto nok ikke den interne teenager spøken utenfor landegrensen. Jeg var faktisk så heldig å se dem opptre på en ubetydelig lokale i et ubetydelig sted på 80 tallet. Det var rett imponerende å vitne den iver og prestasjon.... Det var simpelthen musikalske talent i gang, - uansett sted og miljø. Jeg var endog så heldig å se en av deres få fremførelse av deres rockopera i Holmenkollen, før det tok slutt. Ikke bare senen, men sjøen og muren rundt ble brukt til fremførelsen.

'Witch Witch' er et mesterværk. Man kan mene forskjellige ting om innholdet av stykket. Men for to piker, å lage en sådann rockopera for så enkle midler, er en prestasjon langt utover musikkindustriens yteevne. Med litt flere ressurser og kontakter på plass, tør jeg påstå at historiene ville fått den fortjente suksess istedet for de personlige konkurser.

Denne videosnutten viser en av de få fremførelser de fikk holde i London etter å

ha sluppet igjennom Andrew Lloyd Webber sitt talentshow. Men burde dog ha dengang visst, at det er det to ting man ikke omtaler i London, - WW2 og religion. Her er to små fremførelser fra the Piccadilly Theatre in London i 1992.

Steve Harley 'Sebastian' 1984

2010.juli.09

Ukens Utvalgte:

Steve Harley er for meg en kjær favoritt. Det har kommet masse av god musikk og tekster i hans 40 årige karriere. Han er endog enda aktiv og kan ses på turne, hvis man følger med i de små annonser.

Hans topp i karrieren var nok da han fikk hovedrollen som 'The Phantom of the Opera'. Det var dog kun i vide...o-hit'en, som sikret finansgrunnlaget til Andrew Lloyd Webber sin rockopera. Det ble en formiddabel success som har kjørt sikkert siden 80 tallet, - men uten Steve Harley. Det er dessvære sånn med Webber som Disney, at kjente klassikere uten opphavsrett kommersialiseres uhemmet.

Det er selvsagt gode grunner for at Steve Harley ble valgt til den æreværdige rolle. Jeg tør påstå at en god grunn for avgjørelsen var hans værk 'Sebastian'. I studioversjonen fremføres stykket teatralisk med full symfoni, noe som dog ikke er helt 'Cockney Rebel -aktig'. Teksten handler om en ukjent person som meget poetisk beskriver sine kompliserte tanker om situasjoner og personer. Det er ikke helt u-Phantom-aktig, når man har sett filmen. Men her altså, et live-opptak med enkel fremførelse.

Vidar Gander Skrindo Hvem var Sebastian?

Ved et par anledninger har jeg sett antydninger om at 'Jack the Ripper' ble kalt Sebastian. Man skal ikke påstå at Steve Harley har lyrisk personifisert legenden, men den monologen kan sagtens passe.

Jeg rotet meg engang b...ort i en diskusjon med Rippologer, - den type der prøver å løse Ripper-gåten med logikk. Mitt bidrag i diskusjone ble enda en teori; 'The Infamous Practical Joke Theory'.

Utgangspunktet for tankegangen var at kirurger på den tid behøvde lik å trene på. Det ble oftest lavstatus mennesker, så som avdøde prostituerte. Kirurgien var sterkt kritisert av religiøse og følgelig gravkjørerne. Den teorien går simpelthen ut på at likkjørerne, på vei fra kirurgien til Whitechapel gravplass, dumpet likene i byen for å vise hva som foregikk i legevitenkapens lukkede kamre. De mystiske og groteske begivenheter førte til mange spekulasjoner, men ingen ville innrømme noe. Synderen fantes ikke, fordi det fantes ikke en synder.

Nåh, Steve for ha meg unskyldt for en uhemmet fortolkning av hans mesterverk. Studioversjonen er som en (rock)opera-forestilling. Vis mer

Japan - Ghosts

2010.juli.02

Ukens Utvalgte

David Sylvian er en sanger i særklasse. Jeg kjenner ikke så godt til all hans kunst, men har blitt mere oppmerksom på ham som soloartist de senere årene. Jeg føler meg uberettiget til noen 'anmeldelse' og vil heller vise til nettsteder som 'All Music Guide'. Han simpelthen fasinere når man finner tid ti...l å lytte.

Her er han vokalist i bandet Japan på 80 tallet. De tok tak i den tids instrumenter og stilarter, så som Human League - Duran Duran - Ultravox. Men de lavde plater av en annen verden. I 'Ghosts' er musikken til versene jo kun fasinerende lyder, og i refrenget kun noen akkorder, dor denslags kunne man også godt få ut av denne nymotens synth'en. Teksten er tankevekkende i seg selv, men får ekstra liv i den spesielle fremførelsen.

Kanskje ikke noen vuggesang for smårollinger, - selvom det ble det. Men det er da ikke 'Trollemors vuggesang' og tilsvarende eventyr, heller.

Apocalyptica - Life Burns

2010.juni.25

Ukens Utvalgte (18år)

Det nærmer seg midtsommer og feiringen av solens og varmens tilbakekomst. Det skal selvsagt feires. Men jeg går ikke til felles arrangementer her nede lenger, fordi det er nærmest obligatorisk å plassere en naturtro dukke på toppen av bålet. Hun er endog fylt med 'heksehyl' for å gi riktig en 5D opplevelse. Selv antenningen av bålet kan være et ritual i ren sosialistdemokratisk stil for hele familien. Andre steder er man mere effektive og bruker flammekaster.

Uansett, det virker som en kulturarv fra en russisk vasallstat, og et janteland, fra før Dagsmars dager. Et system som behøver en årlig ofring av en sydebukk, eller simpelthen en misforstått Gullveig test. Hvis dukken var utkledd som Jeanne d'Arc, hadde kanskje flere sett styggedommen i ritualet.

Disse tre finske cellister har en unik og bemerkelsesverdig opptreden. De presterte faktisk å fremføre dette stykket på Melodi Grand Prix da Finland var vert. Presentasjonen var da naturlig nok uten tekst og bilde. Men altså, - høydepunktet i Europas familiehygge #1 instrumental versjonen av dette stykket. (Det skal også bemerkes at de, tross navn, tross renomme, og tross denne omtale, har flere gode videoer med og uten vel anerkjente gjestearterister.)

Min ringetone på telefonen handler ikke utelukkende om blomster. Egentlig oppfatter jeg den teksten at komme fra en miljø-idealist med anger, etter å ha fått sine ypperste ønsker og budskap oppfylt.

Selv ser jeg at ting er på gang hver eneste vår. Kvinner flyr sporenstraks ut i haven og bare må dyrke blo...mster og lukte på allslags pollen.

Østrogenproduksjonen øker ubevist og poeter får gode tider. Menn reagerer like ubevist på østrogenet med testosteronproduksjon og bare må ha utløp i en eller annen rivalisering.

Det blir ikke som kronhjorter på liv og død. Ei heller som noe hippie orgie eller to kollektive hærer på en slagmark. Det er funnet langt mere massive utløsninger på 'The Annual Happening'. Fotballsesongen starter.

Etter en weekend i London er dette for meg det selvfølgelige valg. John Foxx holder konsert denne weekend, noe jeg da desværre måtte reise fra. Fillern også. Han er en av de talenter som på et tidspunkt faller fra sitt band og starter på nytt for seg selv. Han var frontfigur i Ultravox da grunnlaget for gjennombruddet var lagt. Så skal han bare gjøre det hele for seg selv, med ekte synth-lyd. Hans tekster stiller seg også et godt stykke på siden av mainstream. Åndelige steder, bygninger og mennesker er av gjengangerne. Til denne Live fremføringen får han hjelp. Desværre må man tolmodig nøye seg med dårlige Tuba videoer, når man må reise for tidlig og ikke finner konsert DVD.

Tangerine Dream - Bent Cold Sidewalk

2010.mai.14

Ukens Utvalgte

"Without doubt, the recordings of Tangerine Dream have made the greatest impact on the widest variety of instrumental music during the 1980s and '90s" skrives i allmusic.com . Deres instrumenter var syntner på størrelse med sentralbord. De komponerte nye musikkformer som best forklares med platekovernes m...etaforiske titler og bilder. Det var synth i ordets rette forstand, ikke no' orkester på boks her, nei. De var like produktives om kreative.

Mitt valg sang, er ikke fordi Bent har fødselsdag (selvom det ga en påminnelse). Jeg synes denne er et unikum blandt de unike. Det synges! Men selvfølgelig da høyst orginalt med mystisk tekst. Man stopper opp, lytter, falle i eftertanker og får den ikke ut av hodet igjen. Det er som et noe ut fra en eller annen kult-film.

Her nede er det den Store Bededag i dag. Det er en teokratisk rasjonell sammenslåing av 5-6 andre helligedager. En teologisk Grodag, om man så må si.

Det er uklart for meg om hva man skal be til eller for på denne årlige overhellige fredag. Så får heller nynne med denne ekte kunstner av hjerte, sjel og u...tseende, i hans bønn om lys.

Vidar Gander Skringdo Så er det bolletid. To store hvedeboller står i ovnen og hever seg. Riktignok skal de flates ut og overdekkes med tomat, kjøtt, grønt, ost og krydderier. Men som nytradisjonist, holder jeg meg til tradisjonen om at hvedeboller hører den ...Store Bededagen til.

Det er en misforståelse at bollene skal spises dagen før. Grunnen er at bakerne også hadde arbeidsforbud på selveste dagen. De bakte derfor ekstra mange dagen før så befolkningen kunne mettes tross forbudet. Men danskene klarte simpelthen ikke å styre seg og arrangerte straks bollefest. Først til møllen - først til baker'n.

(Det kan være det ligger en språklig misforståelse i dette. Det er rent sjovt hvordan oppfattelsen av et bestemt ord kan misoppfattes. For eksempel, hvis en danske sier til en nordmann 'du må spise boller' er det ment at man 'kan' gjøre det, mens det oppfattes som en 'skal' gjøre det.)

The Tubes "White punks on Dope" live 1982

Ukens Utvalgte.

The Tubes on YouTube. De ble lavet i den tid da Tube betød TV, og ikke PC, da netter var en direkte kabel og ikke et global internett. Hele deres konsert var en stor parodi på hva TV kunne finne på å vise. Her er den tids sjokkerende opptreden hvor det nevnes ungdom og dop, og det vises undertøy og dertil... antydninger. Det der var for 30 år siden - sjokkerende uskyldig.

Supertramp-crime of the century

Ukens Utvalgte:

Supertramp har vist seg å bestå som fenomen med flere 'evergreens'. De velges ofte av radioverter, av nesten enhver type og til mangfoldige anledninger. Denne er ikke av deres hits. Alikevel er den en favoritt for flere musikinteresserte.

Teksten i første halvdel er som et sideshow med Sherlock. Siste hal...vdel er et musikalsk mesterstykke som setter en godt ned i eftertanke.

(Det er ser ut som kandidater til tittelen utpekes på youtube. Selv synes jeg forrige U.U. representerer en verdig kandidat.)

Vidar Gander Skringdo Så har visst Supertramp også funnet sammen igjen og tar på tour. Dermed forsvant 'gratis' videoer på internettet. Men for all del, kjøp heller deres plater eller se deres konsert. Det er det de lever av.

Thomas Dolby - Flying North.

Ukens Utvalgte:

Dette er en favoritt av en synth-guru, som var forut for sin tid. Heldig for oss, som fikk oppleve et sådan kunstnerisk kvantesprang, - synd for han som falt da Live apparatet feilet. Et kvart århundrede senere er han tilbake, til Scrach, med seg selv som 'The Sole Inhabitant'.

Alikevel, her en hyldest ti...I den originale studioversjonen.

Vidar Gander Skrindo Det er 18 års grense på følgende:

Selvom teksten antyder kun en personlig flyskrekk, kan jeg ikke unngå å assosiere sangen til det århundredes mest fatale flytur nordover.

Vi har begynt å merke langtidsvirkningene.

Jesus Christ Superstar (2000) Heaven

Ukens Utvalgte.

Åpnings nummeret til min første vinyl plate noensinne, - og gjennomhørt hundrede gange. Det nærmer seg Palmesøndag og enkelte får kalde føtter og kaldt hode. Denne monologen sier det meste om dramatikken som er i vente i denne 'humanistiske' versjon av klimaks på slagmarken mellom Egypten, Roma og Babyl...on, - mellom trone, stat og tempel.

Det er et M.I. 0.

Uten å avsløre plottet, kommer her en ekstra bonus før en lang påskeferie. (Det blir ingen Ukens Utvalgte neste uge.) Derimot kommer her den andre monolog som gir dramaet sitt endelige klimaks. Den originale versjon av Ian Gillan fra Deep Pu...rple synger, som ingen andre kan, de siste tanker før skjebnen tar overhånd.

Peter Gabriel - Here Comes The Flood

Ukens utvalgte

Kanskje den artist jeg har værdsatt høyest siden jeg fikk en mono vinyl maskin. Denne 'evergreen' markerer splittet fra Genesis og til selvstendighet som kunstner. Her et gjensyn, - et kvart århundrede senere.

... og jeg som dengang trodde teksten handlet om vann.

Pulp - This Is Hardcore

Ukens Utvalgte.

Det er 18 års grense på denne. Pulp gjorde også det politisk ukorrekte stunt å lave en 'hit' som heter noe sånn som 'Koka Sosialist'. Med det standpunkt falt de ut av det gode Labour Selskap, - som Blur og i motsetning til Oasis.
