

## Lustans Lakejer- Kylan Ligger Över Hela Stan

2015.mars.20

Ukens Utvalgte

The 5D scenario model is unchanged although the 3x3 elevated to 3<sup>3</sup> (i.e. 3x3x3). The combined 5D and 3<sup>3</sup> model for sociopolitical scenarios is however raised accordingly. They will be used in the following UUs for Charlie related analysis. A likely assumption is that one more Charlie event, like in Paris 7/1 and Copenhagen 14/2, will soon follow. Good as any guess of where and when is Stockholm 21/3. Still, as stated, none is religious, but cover-ups for larger CdE Games of 4th degree. If not there and then, such a 3<sup>3</sup> 5D future scenario might uncover important aspects anywhere to consider to reduce the negative and increase the positive.

First, some summaries about the 5D sociopolitical model. The 5D 3<sup>3</sup> model can provide new points of views on historical, present and future scenarios. To build a 3D model, the political powers are related to the classic dimensions Throne, State and Temple (Th, St, Te). The 3 axes have both scales of positive (pro-power) and negative (anti-power). Alternatively, the axes can represent ethical value-systems like GUR (Good/Useful/Right) and negative BAW (Bad/Abuse/Wrong). The positioning of political organizations in the 3D cube might show alternative perceptions of the political realities. There might be deceiving names, - e.g. anti-democrats call themselves democrats, atheists call themselves religious, imperialists call themselves nationalists, royalists are of rivaling thrones, conservatists promoting radical retributions etc. However, LifeQuality and democracy are not included in the 3D model, but could be applied in a separate 3<sup>3</sup> model. Anyhow, the 4D shows historical developments over time and the 5D shows alternative 4D scenarios. The 5D scenarios of the past can uncover deceiving public history writings based on warlike propaganda instead of newer and more reliable information. Future negative 5D scenarios might be alarming, which can call for action to reduce negative outcomes. The novel '1984' is such an example. (UU 2014.sept.12.)

A 5D scenario 'Stockholm 21/3' is based on the assumption that more 'Charlie' events are planned and might be executed. An alternative reasoning might be based on influences by cultures of the Winter Palace, the 'Dolls House' in St. Petersburg, like so many previous 4<sup>th</sup> degree Games (UU 2014.mai.30 and UU 2014.dec.19). Time and place might as well be based on simple numerological belief that 21/3 follows 7/1 and 14/2, - and that geographically an Orion's Belt -like line can be drawn between Paris, Copenhagen and Stockholm – or other nearby capitals. Alternatively, Prague could form a pyramidal triangle. Anyhow, Persian/Egyptian occultisms, simple diluted ideologies and theologies are previously abused in such ways to legitimate sociopathic Games. Peculiarly, today there was a fascinating natural event – a total eclipse of the Sun by the Moon in the Arctic region. This is accompanied by a halo of green aurora of northern light around the polar circle. However, BAW theocrats, with some astronomical knowledge, have too often abused such natural events to prophesize Games of WoW (Well of Wisdom) for own gains and rivals losses. (See previous UU 2015.mars.13 for the 3<sup>3</sup> psycho-social model.)

Historically, Stockholm has status as a main capital of the Baltic Sea and relates to most Baltic powers. The Baltic Sea is like a Nordic Mediterranean that actually was linked to it via the Black Sea by rivers, and thereby Ukraine, Crimea, Constantinople/Roma2. In brief, there are some historical milestones like, the housing the Nordic union (The Calmar Union), the strong opposition against Russian Tsar Ivan (the terrible) and of the Moscow mass-annexation and massacres in the Novgorod region. The split between Denmark and Sweden in DAC/UAC Games that still goes on. (UU 2014.okt.31). Tsar Peter (the Great) built a second capital in St. Petersburg (Throne/Temple), removed powers from Moscow (State) in 1714, which improved

relations to Sweden and other Baltic nations. However, all the major battles between Sweden, Denmark, Holland and Germany in Baltic nations, **Schleswig/Holstein**, region of Kronborg castle and Baltic Sea, indicates that Russia was not absent, but have been playing ulterior roles in most war Games (e.g. LYAHF) for 500 years.

Mapping Russia in a 3D model is hard these days, because of controversial changes in domestic and foreign policies. Kremlinology can be as hard as Vaticanology. There are myriads of Games going on behind the 'iron-curtain' that is not for public display. However, the four episodes BBC documentary 'Putin, Russia and The West' were analyzed in UU 2014.nov.07, UU 2014.nov.28, UU 2014.nov.21 and UU 2014.nov.14. Moreover, some political Nordic relations were talked through in UU 2014.dec.12 like this: "The Nordic nations have their success despite SU closeness and infiltrations, - not because of it. Nordic relations are talked through in UU 2014.juli.25 and UU 2013.mai.31: "Even after the cold war, one can see that Nordisk Råd (the Nordic Council) is bound to Kaliningrad, Leningrad and Murmansk. These three cities were represented as "the Cuba of the Baltics" KGB/FSB, and the site for massive nuclear testing (See the previous UU 2014.dec.05). Furthermore, there are daily ferry connections between Kaliningrad-Gdansk-Copenhagen-Oslo. Sweden and Finland have probably similar indirect connections to Kaliningrad. More directly are the terror-flights with nuke-capable bombers against the member nations of the Nordic Council. That recalls memories of the terror-bombing of the Danish island Bornholm in ww2, and the threats to make Copenhagen/Sjælland (Selandia) to an East-Denmark like East-Germany."

Historically, using a 4D model, Roma3 was established 500 years ago, - after the fall of Roma2, Constantinople. Prince Ivan of the Grand Duchy of Moscow became emperor (Tsar/Caesar) Ivan. Moscow was declared Roma3 by a monk, and the secret police developed from collective praetors to Oprichnina. 500 years ago, Roma3 was not powerful, but balanced (3,3,3), i.e. Throne, State and Temple. (Please that these numbers far from empirical but rather simple assumptions to indicate changes over time.) The powers increased (5,5,5) during some centuries due to agreements and cooperation. However, moving the capital to St. Petersburg was a CdE changing powers more like (8,3,5). The Tsar lost power to the Russian Orthodox Church with agent Rasputin prior to ww1 (8,3,2). The CdE in 1914 and contra-revolution moved powers back to Moscow and cleansing in 20<sup>th</sup> century caused neo-Roma3 to be (-5,8,-5).

In brief, the CdE of 1990 re-empowered Throne-like powers towards (5,6,3). Olicrates (Throne) were freed with president Gorbatsjov and his Glasnost (openness) and Perestroika (restructuring). Olicrates were empowered with the anti-State Yeltsin. However, the FSB made a silent CdE in 1999 by having president Yeltsin 'abdicated' and put their FSB agent Putin in the seat (3,8,3). President Putin is definitely still FSB/KGB and have strengthened State's power. Nevertheless, Putin took oil olicrates properties and empowered other olicrates instead. Now Russia has the largest number of billionaires in the world, - that all are somehow political too. Even the Russian Orthodox Church got more power with Putin. Today's rating might be something like (5,8,2). Today it seems that Roma3 are under hard stress and the FSB President's disappearances from daily public display is alarming. Today, Russia's (Th,St,Te) position is changed to merely a question mark.

How could Russian 5D models of past and future be? That is out of bond for this UU. However, a main concern is that FSB and GRU are most likely involved with 'secret services' and Games in Georgia, Moldavia, Ukraine, EU and Nordic & Baltic nations. Concerning Charlie 1, 2 and 3, they are probably involved somehow in that too. Therefore this hypothetic Charlie event Stockholm 21/3 will go further in analysis than public media does on Charlie 1 and 2. Positively, some unfortunate sociopathic BAW might be hindered and minimized in order to improve GUR and democratic LifeQualitative in the future.

This 5D Scenario 'Stockholm 21/3' is based on public information from the Oslo, Paris and Copenhagen events. Some similarities and ulteriorities stick out. 1) All attacks were organized in two phases, i.e. a) the

CdE blitz attack, - and b) the mass-massacre. The well-organized first phase of CdE are clearly internationally political organized with infiltrated and manipulated domestic police forces. The second phase is rather a personal reward for the executer with minimal police interference. 2) One person is presented to the public, as an autonom that did all the work that really require powerful organizations. 3) The police and military hindered themselves in doing the extraordinary police work. 4) The executers are quasi-religious manipulated with extreme isms. 5) However, most fortunate, civilized parliaments and civic democracies hindered attempts to cause following retributive uprisings by public peaceful rituals. There were no CdE uprisings like by the '68 generations caused in Paris, Prague, Copenhagen etc.

How might the next Charlie event be? One can assume that the number 3 is used symbolically and this will be the final in this series. However, it might be planned as a climax, especially after the failures in Copenhagen 14/2. Historically in Stockholm, the Prime Minister Olof Palme was executed in 1986. Although a public display, the Game was as ulterior and deceiving as the JFK execution in 1963. These two executions are however related in the sense that Palme supported Cuba, the Cuban missiles were shipped from Kaliningrad in the Baltic Sea, passed Sweden and Denmark unnoticed, and the catholic JFK got the Cuban missile crisis. Moreover, Palme himself was an active negotiator in a RAF-like bank robbery, where a 'customer' verbally attacked Palme's reluctance and supported the robbers (UU 2014.juni.13). Legal (forensic) **psychiatrists** named this 'the Stockholm syndrome' to reduce the penalty for supporting criminals. Likewise, Minister Anna Lindh was executed publically by knife in Stockholm (2003). She was an outspoken support for Sweden to join EU and other controversial policies. Anyhow, Sweden became recently a member of EU and now works to join NATO's collective defense towards Russian threats. That is extremely upsetting for domestic anti-NATO politicians. A two phase Charlie event in Stockholm would have such regional political purpose and not some religious divine vendetta.

The first phase will rather be like Oslo than Paris, i.e. a spectacular CdE ritual that will mark the history books like Palme, JFK and the Oslo bombing did. The longterm message will not be quasi-religious like 'my god is insulted', even though it might seem so at first. The message will be directed towards political unions like SU, EU, US and even a potential Nordic Union. Anyways, the real assassins will probably not be caught, but rather some national voluntary scapegoat, as for Palme, Lindh and JFK. The real support organization will again be able to prepare, monitor, manipulate the operation in addition to pack up, clear track, and escape out of the country again. Such a major operation cannot possibly be executed by a single 'autonom', but requires a major secret Game playing organization like neo-GRU that was re-established in 2013. However and most fortunate, the final outcome of such unintelligent Game playing will probably be opposite of the intended. Just like the SU tried to scare Denmark and Norway with terror in the 50's, - the result was that the nations were scared into NATO, - not from it.

The second phase of a hypothetical Stockholm 21/7 event will be a massacre as reward for the scapegoat and executioner of the first CdE phase. A related worst case scenario is the Utøya massacre, where the executioner got lots of under-covered support. The police and military were hindered and misled before, under and after the massacre. (This is talked through in UU 18.mai.2012 to UU 20.Juli.2012 and UU 2012.aug.24.) Furthermore, Oslo happened in 22/7/2011 when GRU was placed under ordinary military, by FSB/Putin, which can explain the differences in actions from Paris and Copenhagen. However, in Stockholm 21/3, it might as well be arranged in a marked place, a restaurant or shopping mall. It might be disguised as religious by quasi-religious isms, like Islamism, Christianity or Judaism, - as the previous Charlie events. Since the executioner at Utøya was not shot but arrested, any cover-up stories in the media did not hold at all. No one believes that he was related to some Knight Templar, masons, Nazi, fascist, European, or anti-Muslim organizations. All those deceiving cover-up stories are uncovered and proved false. This major mistake, of not killing the scapegoat, provides clues to uncover the real Game players' motives. The real motives are simply the opposite of the deceiving scapegoat's claims, - i.e. anti-democratic anti-Christian and anti-European.

ABB, the executioner at Utøya, got his para-military training in Eastern Europe and got associated to such cultures. Related organizations were talked through in UU 2014.nov.14: "Nashi (Наши), the Putinized youth organization, turned unacceptable. Wikipedia says: "In 2012, the leader of Nashi announced that the movement would be dissolving in the near future, possibly to be replaced by a different organization. Media have compared it to the Soviet Komsomol or the Hitler Youth and called 'Putin jugend'." In a Nordic view, it is remarkable that Nashi flag is like a diagonal Danish one and the neo-Russian flag is like a diagonal Norwegian one. Although still emotionally controversial, it is now legitimate to relate Nashi to Nordic political youth organizations, - and AUF in particular. No doubt that AUF is strongly related to 'heads of state', the major political party, the labor organization (LO) and public sector." St. Petersburg (former Leningrad), Putin's hometown, is just across the waters of Stockholm and cultures are certainly mutually influenced. Nashi-like organizations seems to flourish in Sweden. A recent article says that Russian media contacted Le Pens Front National, Dansk Folkeparti and Sverigedemokraterna and other 'right wing' parties to complain about EU 'bureaucratic monster' immigrations, homosexuality, western decay in order to support the message that traditional Russia is a stabile contrast to unstable and liberal west." No doubt that a main candidate from DF was heavily subsidized in the previous EU election. Considering the policies, subcultures of the Norwegian FrP, Sp, SV and AUF are most probably likewise corrupted. Anyhow, it is easy to discover, since the arguments are mainly parroting Pravda's English version at the internet.

According to the ulteriority of political Games, it is more likely that the true Game players are not the displayed ones, but rather resourceful and active opponents of the scapegoats' appearances. Still, proving 'secret service' organizations involvements seems impossible despite all the indications. Yet, it is far less likely that Islam organizations are responsible than that Russian ones are the real Game players. Ulteriority, diversity, cover-ups, projections, is per Game definition the very nature of secret services. A major indication is that GRU was re-establishment in 2013, just before the annexation of the Ukrainian region Crimea and the war towards other Ukrainian regions. The goal of the Russian CdE Games is to make a corridor from Russia to the Black sea by annexation of Ukrainian regions. Therefore, the fears in Baltic nations are highly legitimated, - that Russia will go to any kind of wars to make corridors to the isolated major depots of military equipment in Kaliningrad. The Russians make very aggressive threats in the Baltic region with jet-fighters, bombers, submarines and secret agents. It seems to be 2<sup>nd</sup> phase assaults to test the nations' reactions. The Lithuania President confirms that they are already under Russian cyber-attack to lower the defenses.

However, secret services have to be exposed in order to make proper 5D analysis. These following 4 paragraphs should set some focus on the real Games at play: "A most reputed RAF agent is called 'Carlos the Jackal' alias Ramírez Sánchez. He is currently in jail for double life-time in France for killing 11 people, injuring 150 and murdering of 3 agents. Historically, in 1968, Carlos opted for the Patrice Lumumba University in Moscow that was reputed as a notorious hotbed for recruiting foreign communists to the Soviet Union. He was expelled from the university in 1970 by disciplinary reasons, though. Then he travelled to Beirut and Lebanon, where he volunteered for the PFLP (Popular Front for the Liberation of Palestine) in 1970 and tried to establish his own organization with Syrians, Lebanese, and Germans. Carlos was also connected to the STASI that provided him with an office and safe houses in East Berlin, a support staff of 75, a serviced car, and allowed him to carry a pistol in public. The STASI files also show links to the KGB (today's FSB). There is no public information if Carlos and Putin had relations when they both were with the KGB in East Germany. However, Carlos the Jackal was most certainly closely related to RAF-dnk." UU 2014.nov.21.

"RAF (Rote Armee Faction) became reputed as a sociopathic civil war cells in western nations. RAF was designed after the Stalin concept from his past as a Mafia boss in SU/Caucasus. The leader of the Danish RAF (Blekingegadebanden), Gotfred Appel converted from Stalinism to Maoism. Consequently, the RAF-dnk

is related to the Beijing regime, even though it was indirectly controlled from SU. The attempt to kidnap (millionaire's son) 'Jörn Rausing' was a cooperation with RAF-nor and RAF-swe. It is uncertain if the detection shows that the Danes were more people or simply more clumsy. Besides, the extent of Moscow and Beijing cells (RAF-rus and RAF-chn) is uncertain, but likely significant and timely fatale. For example, the RAF-dnk brothers Weimann were consultants and installed computer-systems for the Police and Ministry of Foreign Affairs. They got confidential access and were responsible for the maintenance that includes access to read, copy and manipulate data. At the same time, the youngest made the so-called 'Jew-register', supposedly for the related organization PFLP. UU 2014.juni.13 and UU 2013.juli.01.

"The massive cybercrimes against the Police, Military, Tax-authorities Public health in CSC Denmark and IBM mainframes were executed by disloyal employees, remote computers in Pirate Bay and controlled from Asia. The delays in police investigation indicate massive organized crimes that also include employees in the Danish police force. Therefore, it is simply beyond any nativity to claim that this major operation was organized by two young sociopaths." "Most alarming is the extensive use of the hackers' favorite operating system - Linux. Anyhow, the ongoing trial in Denmark is most probably just the tip of an iceberg in all of the public sectors in all NATO nations." "In fact, the Danish police hindered the investigations for 11 months and actions were taken only after several serious warnings from the Swedish police force, since the Pirate Bay founder was Swedish. According to the prosecution, there were copied personal information from the Danish police's criminal registers, drivers' license register and the EU police register (Schengen) about international criminals in Europe. To top it all, the access to 10,000 police officers' password and email was copied via Pirate Bay to Asia." (UU 2015.feb.20)

"A new term was made to substantiate the new secret war-like organizations, - PROSA (Pro-Russian Oligarchs, Separatists and Autonomes). Ulterior RAFs and alike exist in most nations and have variations like BRAF and GRAF. The hypothesis of the present multiple RAFs is talk through several times and accumulated in UU 2014.juni.13. In brief, 'Red Army Factions', despite their extreme ulteriority, were disclosed in several European nations and probably exists in all. A RAF-dnk cell called 'Blekingegadebanden' was named after the disclosure of a weapon depot in Copenhagen. Besides, the hypothesis of RAF development is the pre-RAF as BRAF (brown-red), formed from the ww2 Stalin-Hitler alliance and postwar-Games. This century's RAF has become GRAF (green-red) where green as the color of Islam and do not symbolize of nature at all. Pro-Russian Oligarch, Separatists and Autonomes (PROSA) do not merely operate in Ukraine." This is based on present media observations on how the neo-SU CdE Games are played, where there are hierarchies of RAF cells organized, yet manically denied like in 'Underworld' Games of mafia bosses. The executioner in Oslo, Paris and Copenhagen are displayed as Autonomes, merely to disguise and protect the massively organized crimes behind." UU 2015.feb.20

However, all the CdE Games in neighboring regions might rather be spin-offs to the most ulterior core – that is so obvious that it appears as a black hole. Just like in 1915, the 2015 external LYAHF rivalries are initiated to prevent external influences and attacks, - because a major imperial CdE has become inevitable. This is a turning point of no return, - where major irreversible mistakes might happen – or might be avoided. It is a desperate transaction and memes for Putin to publically announce that he was willing to use nuclear weapons during the Crimea annexation. That did not happen. However, the message for the future is that Russia consider using nuclear weapons for annexation in the Baltic and Artic regions. Alternatively, it might be a cryptic message (Game Transaction) that he is poised by nukes like other FSB agents before him. The FSB president has been removed from public display for unusually long periods of time. A main question is then if FSB is abdicated by GRU, and what Games should now have game-over and re-start.

Lustans Lakejer were from Stockholm. The band's name means 'Lackeys of Lust' and the song's title means 'The Cold covers the City'. The association is the new cold war that seems to be rising. The text tells a story about a man that sees the cold and want to find comforting shelter, - but also knows it is wrong, - possibly unfaithful. Lustans Lakejer was a successful new-wave in the 80's. They got the producer Richard Barbieri and were therefor inspired by the sound of Japan with David Sylvian. The singer Johan Kinde have been the constant of the band during the unions and divisions. Now he sometimes acts alone.

### Extra UU

As indicated, occult methods of numerology, astrology, enneagram and more, are abused in sociopolitical Games. This video, song and lyrics 'The dark is rising' by Mercury Rev is a highly qualitative piece of art in that direction. It was previously presented in UU 2011.jan.28. I was so fortunate to see them playing live in den Haag. They do not have many concerts, but intriguingly enough, for Denmark, they chose a tavern at Bornholm to do so.

Anyways, primitive astrology, without proper astronomy, could cause socialpsychological destructive dilutions like Isaac Asimov tries to explain and warn about in the Science Fiction analogy 'Night Fall'. A total eclipse will cause darkness and show all stars at daytime. That might cause anxiety like mass-claustrophobia and following collective destructive reactions.

Hard to imagine such ways of thinking, but trying to imagine that Paris, Copenhagen and Stockholm, or other nearby capitals, could be similar to the Egyptian line of pyramids in the Giza Necropolis that imitates the 3 stars of Orion's belt. However, they point at the place where the sun will rise (Heliopolis) in a new constellation for a new age. The time is determined by the star Sirius when it is in line with the Sun on 22/12 in about 2150 and entering the constellation Aquarius. However, analogue, the site will be nearby Novaya Zemlya, where the tsar bomba, the worlds largest a-bomb was detonated. Such is definitely not divine miracles. Neither was the Tunguska event in 1908.

### Extra UU2

Tomas Di Leva sings, in Swedish, the classic Talking Heads song 'Heaven'. It is a kind of childlike nerdy perception of what might be after life on Earth. No prejudice, no grand rewards, but rather simple self-centered comfort – forever. However, - the Quran does definitely not support suicides, by bombing, at all, - quite the contrary. Do not get fooled by anti-theocrats to the opposite.
