

Iznogoud – I Wannabe Caliph instead of the Caliph

It is time for a movie called 'Life of Brian 2', - a sequel about self-misguided followers. The simple fact that ISIS is the main Egyptian goddess and a main opponent to Islam provides enough ideas for a Charlie-style script. Besides, the French cartoon Iznogoud, a Caliph Wannabe, has some IS related magazines, movies and songs. Still, knowing the real 'Killing Fields' of Maoism, Monty Python might not be able to make a comedy concerning the 'Killing Fields' of Islamism. Interesting enough, no threats or fatwas have ever reached those cartoonists, - simply because such actors are not considered divine at all. A Caliph Wannabe of ISIS, - what a blasphemous practical joke.

Just to get the basics straight: "A caliphate is a form of Islamic government led by a caliph, a person considered a political and religious successor to the prophet Muhammad and a leader of the entire Muslim community. After Rashidun, the successor of Mohamed, there were many inherited monarchies that claimed to be caliphates. The Sunni branch claim that a Caliph should be elected by Muslims or their representatives. The Shia branch claims a Caliph should be an Imam and Muhammad's direct descendants. ISIS declared itself a Caliphate in 2014, but is not accepted by any country at all." (Ref Wikipedia). Conclusive, any Imam is a despotic caliph wannabe and intent to annex the residential nation, overthrow its government, annul the national law and take autocratic powers over the State, Throne and Temple. This is napoleonism (UU 2014.mai.16) and janissarism (UU 2014.jan.10) that violate the most serious paragraphs of any national penal law. Hesitation by authorities to act on the law is violations of the penalty law too.

On the other hand: "Isis is the main goddess from the polytheistic pantheon of Egypt. She was first worshiped in ancient Egyptian religion and later throughout the Roman Empire and the greater Greco-Roman world. Isis is still widely worshiped by many pagans in diverse religious contexts." "Isis was worshipped as the ideal mother and wife as well as the patroness of nature and magic. She was the friend of slaves, sinners, artisans and the downtrodden, but she also listened to the prayers of the wealthy, maidens, aristocrats and rulers. Isis is often depicted as the mother of Horus, the falcon-headed deity associated with kings and kingship. Theologically, Isis was the first daughter of Geb, god of the Earth, and Nut, goddess of the Sky. She married her brother, Osiris, and she conceived Horus with him. Isis was instrumental in the resurrection of Osiris when he was murdered by Set. This myth became important during the Greco-Roman period (of Roma1)." The Isis cults are thereby closely related to occult mythology and astrology related to the Enneagram. "Additionally, the popular topic of Isis suckling her son Horus lived on in a Christianized context as the popular image of Mary suckling her infant son Jesus from the fifth century onward."

It helps to understand Roma3/Moscow and its heritage from Roma2 to understand the theocratic history. The following three paragraphs provides translated summaries from UU 2014.april.25. "There was a highly questionable constitution of Rome3 based on a monk's statement (UU 2014.mai.02). Theocratically, Roma1 fell due to loss of collective faith after the Vesuv apocalyptic destruction of Pompeii. It caused collective belief that all divine evils joined forces to punish Roma1. There was a theocratic revolution from roman pantheism to Christian monotheism. The ambition in Roma2 was to build 'Heaven on Earth' and the emperors were promoted to be God's representatives, but became consumed with own narcissism. Meanwhile an even more self-centered generation of monotheistic Islam grew in Persia. The Caliphate was

extremely expansive and aggressive. Consequently, the real world outside Roma2's 'Heaven on Earth' became the 'dark middle ages'. The wars of plagues ruled for 300 years with following civil wars, hunger, anarchy and white slave trade. The crusades were as devastating and ruining for the Christian Europe as the Islam Persia. Meanwhile, the theocracy of Roma2 developed a compromise consisting the Trinity of God, humans and spirit, in addition to herds of angels, symbolized with zodiac astrology, Egyptian Isis cults, and Etruscan pontifexes. Yet, Jinns were mostly excluded as evil demons. It all boiled down to a theological stew that anyone should accept."

"Marco Polo was far more important to the fall of Roma2 than common history tells. The Mongolians occupied Beijing in 1213 and Marco was in a group of European observers, counselors, priests for Kublai Khan for decades. They provided in-depth knowledge about European societies, religion, technologies, weapons and warfare. Marco even told about powerful persians that produced 'assassins' of kidnaped and drugged men. Finally, Marco became free when escorting a Chinese princess to a Persian prince for marriage. The journey was fatal for Marco and the crew. However, finally he reached home to Venice, but was arrested for treason. His stories were written by a cell mate." (UU 2013.juli.19.) Besides, the Chinese were bonded by opium from 'the middle east' about 1001 years ago, long before some Europeans became involved in some Asian drug-traffic.

"The crusades were first arranged with Roma1 State soldiers. European Thrones supported them, when the Muslim caliphate conquered Egypt, Jerusalem, Syria and other important middle-eastern regions. However, the fourth crusade was fatal. Some 'pirates of the fourth crusade' attacked the Christian Roma2 instead of the Muslim Egypt. Roma2 was plundered to ruins and could not rise again under the following chaos. The crusaders failed to administrate the city so decay and the final fall was unavoidable. The crusaders' actions and faiths are full of mystical Games. However, they might have known about Marco's tales and seen the coming Muslim/Mongol invasion, - or simply did the preparations. They might have wanted to save treasures and spread them to European temples and thrones prior to the joint Khan/Caliph attack. The 'Da Vinci Code' is merely one example of some dramatic Games at play." (UU 2014.april.25)

"The Ottoman (Sunni) Caliphate became the de facto leaders, representative of the Islamic world and defender of the Holy Cities of Mecca and Medina. Starting with annexation of Edirne, the empire grew to Anatolia, most of the Middle East, North Africa, the Caucasus, Constantinople (Roma2b), and deep into Eastern Europe." (Ref Wikipedia). Moreover from UU 2014.dec.12: "Large-scale assimilation programs were set in motion after the Muslims invaded Roma2 (UU 2014.april.25). The Muslim got 10% tax while the Christians got 50%. Most infamous is the Janissaries (i.e. 'new soldier'), an elite corps of slaves recruited from young Christian boys. The number of Janissaries grew to 49000 at the most and they fought other Christians in Europe brutally. However ironically is the massive increase of Janissaries (music) corps in the Nordic folk-schools and LO (SU related oligarch trade union) during the Cold War. Too few seem to know the real history and missions, though." (UU 2014.jan.10.) (UU 2015.jan.30) The current relation to neo-Roma3, neo-Mongolia and neo-Persia is daily in the news, although slightly different.

Maybe the most alarming aspect of 4th degree sociopolitical Games, are the willingness to alter and abuse peoples psyche with drugs and NLP (Neuro-linguistic programming). As mentioned above, the Egyptian Isis cults are closely related to occult mythology and astrology associated to the Enneagram and the occultism of Gurdjieff (UU 2013.april.12). Such abuses are talked through in UU 2014.aug.01, UU 2014.dec.19 and will be further discussed in the future. However, legal anti-psychotic drugs (anti-dopamine) might cause need for illegal drugs (dopamine like XTC). The public psychiatry services can therefore unintentionally be main promoters for the illegal drug-market. There were probably extensive use of psychotic drugs like hashish and heroin, - and synthesized euphoric drugs during the cascade of CdE riots in the so-called 'Arabian

spring'. It is therefore alarming that the Asian Otsuka Pharmaceutical Company established in Egypt (only) with the anti-psychotic drug Aripiprazole for treatment of schizophrenia and bipolar disorders. The enterprise is most famous for its 'Lunar Dream Capsule Project' where their popular sports drink Pocari Sweat will be launched with SpaceX rocket in October 2015 and the first product marketed on the Moon, - La Luna. The project indicates delusional megalomania at organizational level. Furthermore, the highly alarming abuses of drug industry's corrupt approval procedures are criticized in the TED talks: Atul Gawande, 'How do we heal medicine?' and Ben Goldacre, 'What doctors don't know about the drugs they prescribe' (see links hereunder). Aripiprazole is now tested on minors in Denmark despite all registered side effects on adults.

Since the second Mongolian invasion of Beijing after ww2, there are growing Moscow/Beijing alliances. A main goal is to make a passage between the empires, which requires control of the Black Sea and the Red Sea, - and land areas like Crimea, Turkey, Greece, Cyprus, Egypt, Syria, Saudi Arabia, Yemen and related regions. Recent news indicates that the new GRU/Spetsnaz must have been involved from 2013 in Ukraine annexation of Crimea and warfare in Donetsk and Luhansk, in addition to Moldavian 'separatist' uprisings and possibly annexation of two Georgian provinces in 2008. The regional forces is called PROSA (Pro-Russian Oligarchs, Separatists and Autonomes) like the former national RAF (Red Army Factions) (UU 2015.feb.20). However, all this is merely to get access to the Black Sea. The means and involvements to get access to the Red Sea involves most likely similar sociopolitical Games. Some indications were in UU 2014.nov.21: "Anyways, in addition to the mysterious cascade of CdE called 'Arabian Spring' there are very ulterior 4th degree CdE Game player at stage. However, less mysterious is the Syrian war with several Muslim groups with loads and loads of Russian weapons, traded by murky Olicrates via Cyprus. Nevertheless, the newest actor in Muslim self-genocides is the so-called IS, alias ISIL alias ISIS. It does not seem to be true religious at all, but rather another neo-RAF, - Jackal style. In fact, the L in ISIL mean Levant that includes Jordan, Israel, Palestine, Lebanon, Cyprus an south Turkey, - which indicates that Israel is a long term goal." Note that SU started the anti-Muslim war in Afghanistan and somehow managed to hand it over to US. (See UU 2014.nov.21).

The relation to Islamism was mentioned in UU 2015.feb.20, and talked through in UU 2014.juni.13. "In brief, 'Red Army Factions', despite their extreme ulteriority, were disclosed in several European nations and probably exists in all. Besides, the hypothesis of RAF development is the pre-RAF as BRAF (brown-red), formed from the ww2 Stalin-Hitler alliance and postwar-Games. This century's RAF has become GRAF (green-red) where green as the color of Islam and do not symbolize of nature at all. Pro-Russian Oligarch, Separatists and Autonomes (PROSA) do not merely operate in Ukraine." This is based on present media observations on how the neo-SU CdE Games are played, where there are hierarchies of RAF cells organized, yet manically denied like in 'Underworld' Games of mafia bosses. The executioner in Oslo, Paris and Copenhagen are displayed as Autonomes, merely to disguise and protect the massively organized crimes behind." It is important to note that Islamism is a political ideology and not a religious theology. In addition, Sufism is a political ideology as well and not pre-Islamic religious. In that sense, IS might as well mean 'Iblis State', and thereby relate to political ideology of Iblisism, - like Satanism.

However, Saudi Arabia is also a main prize for ISIS. Now, with the annexations of the neighbor Yemen is a critical phase. Briefly about the two nations: "The Kingdom of Saudi Arabia is the largest Arab state by land area. It is the only nation with both a Red Sea coast and a Persian Gulf coast. Ibn Saud founded it in 1932 and The House of Saud has since been an absolute monarchy governed along Islamic lines. It holds the two holiest places in Islam, the Holy Mosques in Mecca and Medina. There are 20 million Saudi nationals and 8 million foreigners. Saudi Arabia is the world's dominant oil producer and exporter, and controls the world's

second largest hydrocarbon reserves. It is the only Arab country to be part of the G-20 major economies. Saudi Arabia was the world's second largest arms importer (where Saab in Sweden is a controversial one). "Yemen has been in a state of political crisis since 2011 and in 2014 the National Dialogue Conference was disrupted by conflicts between the Houthis and Islah, as well as the al-Qaeda uprisings. The Houthis took over Yemeni capital Sana'a and the parliament, forcing the President to escape the country. The Houthis declared themselves in control of the government what the UN decries as a coup d'état (CdE Game)." (Ref Wikipedia).

Furthermore, "The United Nations holds ISIL responsible for human rights abuses and war crimes, and Amnesty International has reported ethnic cleansing by the group on a "historic scale". ISIS has been designated as a terrorist organization by the United Nations. Over 60 countries are directly or indirectly waging war against ISIL." Don't China, Mongolia and North Korea join the civilized nations against anti-UN terrorist group, - and why is that? The new GRAF seems more related to Maoism than Stalinism, i.e. a new Mongol and Muslim alliance like the days of Marco Polo and the fall of the Christian Rome (Roma2). History seems to be repeating after half a millennium.

There are increasing uses and abuses of information technologies (IT). The Charlie events proves that. The executors could not have out-smartened the national police without well-organized high-tech support from foreign secret services, - even within the national public services. Therefore, it is in place with a reminder from the previous UU 2015.03.20 about a hypothetical Charlie event called '21/3 Stockholm' based on experiences from '14/2 Copenhagen' and '7/1 Paris'. "The massive cybercrimes against the Police, Military, Tax-authorities Public health in CSC Denmark and IBM mainframes were executed by disloyal employees, remote computers in Pirate Bay and controlled from Asia. The delays in police investigation indicate massive organized crimes that also include employees in the Danish police force. Therefore, it is simply beyond any nativity to claim that this major operation was organized by two young sociopaths."

"Most alarming is the extensive use of the hackers' favorite operating system - Linux. Anyhow, the ongoing trial in Denmark is most probably just the tip of an iceberg in all of the public sectors in all NATO nations." "In fact, the Danish police hindered the investigations for 11 months and actions were taken only after several serious warnings from the Swedish police force, since the Pirate Bay founder was Swedish. According to the prosecution, there were copied personal information from the Danish police's criminal registers, drivers' license register and the EU police register (Schengen) about international criminals in Europe. To top it all, the access to 10,000 police officers' password and email was copied via Pirate Bay to Asia." (UU 2015.feb.20) Further reading about how Big Blue turned Big Red is talked through in the series UU 2014.mars.14 UU 2014.mars.21, UU 2014.mars.28 and UU 2014.april.04.

Then again, knowing Moscow/Beijing ambitions to control the Red Sea, some rather ulterior influences, relations and positioning are notable. "It is alarming that the AU (African Union's) head quarter (AUCC), that cost 200 million dollars, is not finance and built by Africans themselves, but was a 'gift' from the Chinese Maoistic states regime in 2012. It is not located central in Africa, but located in Ethiopia, next to Red Sea, Yemen and Saudi Arabia. China probably run the Head Quarter's IT as well. AU should as quickly as possible find alternative solution for the location in order to become their masters of their own house." (UU 2014.dec.12.) Now there are plans to build a brand new 'administrative' capital of Egypt. That is probably needed and have great potentials for elevating Egypt to the present urban, national and intergovernmental cultures. However, the Egyptians should be very alarmed about the cascades of the of riots called 'Arabian Spring'. It does not seem to be some occasionally local events caused by some hyper-emotional locals, but rather international organized cascades of CdE Games, - Charlie style. Therefore, controlling a new high tech Egyptian capital will be as dominating as controlling a new high tech AU headquarter (AUCC) next to Yemen and Saudi Arabia. Do not take another neo-GRAF bait.

When knowing that the Charlie executioners in 'Paris 7/1' identified themselves as Al-Qaeda in Yemen, - there cannot be real doubt that the CdE Game of Yemen is ISIS related GRAF-like Games. Some of the Games' grand prizes are 4th degree CdE in Egypt and Saudi Arabia. However, there was a new-defined Game of 4th degree called 'Genocide' in UU 2015.feb.27, - which has potentials for the hypothetical 5th degree Games. It has previously been played out globally with Gimmicks based on Marxism, Stalinism and Maoism. Now the Game Genocide is played out through the passage from Crimea to Yemen with Gimmicks of Islamism. Besides, no doubt that the new alliance of Boko Haram in west Africa and ISIS indicates that the whole continent of Africa is the main prize for neo-GRAF, - probably with abuse of African Unions high tech tenant head quarter (AUCC) next to Yemen. The African Union (AU) needs United Nation's (UN) help in this critical phase of their development. The United Arab Emirates (UAE) seems to manage now, when realized the gravity and are about to gather global support, - with UN's help. (UU 2013.aug.02)

All in all, the worst case 5D scenario is the hypothetical 5th degree of sociopolitical Games covering humanity's self-genocide – as scripted in insane prophets' apocalypses. However, we are not such 'lemmings' and must prevent such dilutive actions in time. There are clear indications that GRAF-like LYAHF (Let's You and Him Fight) Genocide Games can get out of control and get global. The only preventive solution is to end such Games are to expose the ulterior actors, remove the spoils of war and clearly state 'Game Over Now', - before it is too late.
Restart.

Iznogoud (Is no good) is a French comics series featuring an eponymous character. His sole aim in life is to overthrow the Caliph and take his place. This is expressed in his famous catch-phrase, "I want to become Caliph instead of the Caliph" ("je veux devenir calife à la place du calife"). The stories have been translated into several languages and the title has been adapted to animated and live-action film. Goscinny's taste for sharp satirical writing keeps the repetitive format of the stories constantly fresh, making Iznogoud one of the most popular anti-heroes in the French comic strip world. Goscinny's skills with puns, made famous in Astérix, is also evident in Iznogoud.

Life of Brian 2

As mentioned, it is about time for a movie called 'Life of Brian 2', - a sequel about self-misguided followers. Meanwhile, some peaks from Life of Brian 1 will do. Monty Python's Life of Brian is a 1979 British comedy film starring and written by the comedy group Monty Python. It tells the story of Brian Cohen, a young man who is born on the same day as, and next door to, Jesus Christ and is subsequently mistaken for the Messiah. The film contains themes of religious satire that were controversial at the time of its release, drawing accusations of blasphemy and protests from some religious groups. Some countries, including Ireland and Norway, banned its showing, with a few of these bans lasting decades. The filmmakers used such notoriety to benefit their marketing campaign, with posters in Sweden reading 'So funny, it was banned in Norway!' The film received a 96% 'Fresh' rating on Rotten Tomatoes with the consensus 'One of the more cutting-edge films of the 1970s, this religious farce from the classic comedy troupe is as poignant as it is funny and satirical', and it was named "greatest comedy film of all time" by several magazines and television networks.

Not at cave in a cave chatting with angels and demons, but the associations will do.

'The Killing Fields' is the soundtrack album for the British drama film of the same name based on the experiences of two journalists in the (Maoism) Khmer Rouge regime in Cambodia. It is the 10th record album by Mike Oldfield and the only full-length film score written by him. The music was orchestrated by David Bedford. The Killing Fields will be re-released in a deluxe edition format in 2015, as per all previous albums which were originally released on the Virgin label.

Extra UU2

Danielle Dax was presented in Extra UU 2015.feb.13. She is an English performer whose mysterious and experimental work reflected the strong influence of biblical mysticism and Middle Eastern musical textures. In relation to this UU, the association is the occult spin-offs from the processes of merging polytheisms into monotheisms. She had success with the album Inky Bloaters and Dark Adapted Eye. A dominant influence on her work was Marc Bolan whose cryptic lyrics and ear for a fuzz guitar. This song 'Fizzling human bomb' could also suite misguided ISIS assassins, - especially when she relates to occult ancient Egyptian mythologies.

Extra UU3

Vincent Furnier, alias Alice Cooper was presented in UU 2015.feb.06. He made several cabaret numbers where he dug deep into the inner and murky self. He came up with some quite artistic performances. Some characters were like Mephisto, Dr. Mabuse and Mr. Hyde. Later repertoires include figures like a

traumatized boy (Steven), an urban terrorist and a mental patient (Dwight Fry). The musical performance was quite professional due to support from Frank Zappa and the Warner Bros. However, taken out of its content and performed as a cheap rock concert, - it loses the original significance. This classic, Desperado, presents an assassin in the 'Wild West', not quite revealing who he was except for being a killer, a clown and a priest. However unfortunate, it is timeless and independent of ideology, theology and anthropology. It certainly suits ISIS as well.
