Extraordinary events influence the extraordinary Dane referendum. However, policies about the sudden mass-migration from 'Arab-spring' nations are not related to the Europol/Eurojust vote, although some might argue so. This extraordinary UU concerns fundamental causes to these human and political tragedies, - and indicate why a metaphor about 'bats and bikes' is used. It is evident that the 'human tsunami' started when the disreputable Red Army returned in the Arab world. Their failed Afghan war seems to be repeating in a most dangerous warzone. That causes mass-panic and is bad news to almost anyone.

Russia have now officially gone to full-scale war in Syria. UN nations speculate on what their motives really are, since hidden agendas and public denials seems to be normal FSB war-tactics. It is as hard to analyzed Kremlinology as Vaticanology. However, some observations pinpoint some obvious reasons and motives for this long-planned long-term engagement. First of all, - Russia's existence and well-being depends on oil & gas export. It is 70% of their total export and employ half a million people in Rosneft and Gazprom. The failed CdE attempts in Ukrainian regions and the UN sanctions caused Russian economic setback to coldwar level. Seemingly incapable to improve their own competences in the energy market leaves only the option to weaken the competitors in the market to keep own position. Another motive is that the Moscow-Beijing alliances requires an effective trade route between Russia and China. China want a new Silk-road and Russia wants corridors to the Pacific sea via Ukraine, the Black sea, the eastern Mediterranean Sea, the Suez channel and the Red sea, - and lots of bordering land-areas. Consequently, a main objective is now to weaken the beaten and very upset Muslims in the neighboring regions like Kazakhstan, Tadjikistan, Armenia, Kirgizstan and Uzbekistan. The new tactic seems to be to move the conflicts to a single proxy-war in the distant Arabian Peninsula.

However, Syria did not fall like other 'Arabian spring' nations in the cascade of CdE (Coup d' Etat). Russia have been an allied for at least 40 years and their oligarchs have armed Syria via Cyprus for decades. The regime became highly robust. However, President Assad rejected a major weapons deal including heavy anti-air defense of SA15 & SA22. Russia then declared the Syrian president unwanted, like so many puppet presidents worldwide before him. Russia changed side and gave support to Syrian separatists in order to trigger a CdE. Somehow, a new faction of Syrian separatist became highly skilled in guerilla warfare, finance, organization, extortion, robbery and recruited extremists worldwide to reestablish a Caliphate. NATO became involved because of some blitz attacks in their capitals. (This became a theme 'Charlie' UU 2015.jan.09 to UU 2015.april.10.) However, NATO targeted the major separatist organization IS (alias ISIL alias ISIS) that definitely weakened the hard-core separatist organization IS. The UN proposed help to civil Syrians, but is blocked by Russia and China in the UN Security Council. Now, Russia have finally deployed the anti-air defense in Syria that certainly will protect IS from NATO attacks. Consequently, some speculates if parts of IS really are Russian agents. Furthermore, the fact that neither SU2, China nor SA (Saudi Arabia) helps the Syrian refugees, and veto the UN help, - tells most about the motives and involvements in this war Game of fourth degree.

It is as hard to analyze Kremlinology as Vaticanology. However, some were done based on the BBC documentary 'Putin, Russia and The West' in UU 2014.nov.07, UU 2014.nov.28, UU 2014.nov.21 and UU 2014.nov.14. It concerned the nova-Russian CdE Games in Georgia and Ukraine during the rejection of the puppet presidents and the following undercover wars in their regions. It lead to the hypothesis about PROSA (Pro-Russian Oligarchs, Separatists and Autonomes), - this century's Underworld version of the ill-reputed coldwar RAF (Red Army Factions). PROSA stems from the ww2 Stalin/Hitler BRAF (Brown-Red Army Factions) alliance based on the Molotov–Ribbentrop Pact 1939-1941. It became GRAF (Green-Red Army

Factions) in this century. As throughout the coldwar, most NATO and EU nations have such Underworld CdE separatist cells today with illegal agenda, - cloaked as legitimate opposition to national governments. The Dane Blekingegadebanden was a RAF-dnk with Scandinavian relations to RAF-swe and RAF-nor. However, it turned GRAF with Gotfred Appel's conversion from Stalinism to Maoism. By nature, such cell are determined to hinder strengthening of 'rule by law' with international cooperation like EUROJUST, EUROPOL and CEPOL, - with urban warlike means, - like Blekingegadebanden and all its related organizations and persons.

Less known, but more important, are relations indicated to the Carlos the Jackal. It was mentioned in UU 2015.feb.20 concerning the GRAF attack at 'Krudttønden' in Copenhagen: "Historically, in 1968, Carlos opted for the Patrice Lumumba University in Moscow that was reputed as a notorious hotbed for recruiting foreign communists to the Soviet Union. He was expelled from the university in 1970 by disciplinary reasons, though. Then he travelled to Beirut and Lebanon, where he volunteered for the PFLP (Popular Front for the Liberation of Palestine) in 1970 and tried to establish his own organization with Syrians, Lebanese, and Germans. Carlos was also connected to the STASI that provided him with an office and safe houses in East Berlin, a support staff of 75, a serviced car, and allowed him to carry a pistol in public. The STASI files also show links to the KGB (today's FSB). There is no public information if Carlos and Putin had relations when they both were with the KGB in East Germany. However, Carlos the Jackal was most certainly closely related to RAF-dnk." (UU 2014.nov.21.) Anyways, the Jackal's main objective was to train Arabs in Underworld urban warfare like any sociopathic attacks from pillaging and terror to mass-murder.

Less known, yet most crucial, is the island Cyprus as emphasized in UU 2014.dec.12 "Now it is very transparent that there are 4th degree CdE Games in relation to African guerillas, 'the Arabic spring' and IS of the Middle East." As mentioned in UU 2014.nov.21 "However, less mysterious is the Syrian war with several Muslim groups with loads and loads of Russian weapons, traded by murky oligarch via Cyprus. Nevertheless, the newest actor in Muslim self-genocides is the so-called IS, alias ISIL alias ISIS. It does not seem to be true religious at all, but rather another neo-RAF, - Jackal style. In fact, the L in ISIL mean Levant that includes Jordan, Israel, Palestine, Lebanon, Cyprus and south Turkey, - which indicates that Israel is a long term goal. IS might as well mean 'Iblis State'." Furthermore, "Cyprus is a key-island and mentioned as a center for war-like trades of narcotics, money, human trafficking and weapons. (It makes associations to the 'Pirates of the 4th Crusade', see UU 2014.nov.28.) The island is strategically sited by the Suez Canal to the Pacific Ocean (Asia) and next to all the war-zones of Syria/Iraq/Iran, Albania/Kosovo, Turkey/Hellas, Palestine/Israel and 'Arabic spring nations' like Libya and Egypt. Cyprus is divided between Russia and EU and functions like some cold-war Berlin outpost towards the Middle East. Consequently, it is mentioned several times in UU like: "The main Danish pseudo-scientific institution of the NLP and Enneagram is closely related to Cyprus and Russia. (UU 2013.des.20) Arne Treholt, a main SU spy for Iraq, works as a guide and consultant at Cyprus (UU 2013.aug.30). More about the relations to the Middle East can also be read in UU 2013.aug.02.

Even lesser known is the cultural legacy Moscow think it has to Roma2 and those rivalries in the region - UU 2015.mars.27: "It helps to understand Roma3/Moscow and its heritage from Roma2 with understanding of the theocratic history. The following (one out of) three paragraphs provides translated summaries from UU 2014.april.25. "There was a highly questionable constitution of Rome3 based on a monk's statement (UU 2014.mai.02)." Furthermore, "The crusades (of Roma2) were first arranged with Roma1 State soldiers. European Thrones supported them, when the Muslim caliphate conquered Egypt, Jerusalem, Syria and other important middle-eastern regions. However, the fourth crusade was fatal. Some 'pirates of the fourth crusade' attacked the Christian Roma2 instead of the Muslim Egypt. Roma2 was plundered to ruins and could not rise again under the following chaos. The crusaders failed to administrate the city so decay and the final fall was unavoidable. The crusaders' actions and faiths are full of mystical Games. However, they might have known about Marco's tales and seen the coming Muslim/Mongol invasion, - or simply did the

preparations. They might have wanted to save treasures and spread them to European temples and thrones prior to the joint Khan/Caliph attack. The 'Da Vinci Code' is merely one example of some dramatic Games at play." (UU 2014.april.25) The pirates handed over the coat of Arms of Roma2, 'the double headed eagle' to Moscow, a monk declared Moscow as the 3rd Roma and Ivan was titled Tsar/Caesar. The Duchy of Moscow grew rapidly by systematic invasions, tax and terror.

Today, the human flood from the 'Arabian spring' zones can be explained with the 3^3 psychosocial models. Vivid images can be that all kinds of life are fleeing out of the forest from thundering roars and falling trees. "It's back". Nevertheless, - most relevant is the association to the 3x3 model concerning S-E/S-I (Superior-Ego/Superior-ID). The idea was realized in UU 2014.okt.31. "The Oprichnina/Praetor (the origin of the Russian and Constantinople's secret services) is like a definition of psycho-social Games. The Actors and the Games are ulterior and concealed like the very nature of secret services. It is however, a problem if the democratic Quality of Life is not respected. It is serious if the organization consider itself as a Superior-Ego and individual as inferior. It is catastrophic, if it also inherited the properties of Ivan's murky mentality as a collective obsession." The theory of Superior-Id is talked through in UU 2014.jan.10 and the OD (OverConscience Drive) in UU 2014.aug.22." Furthermore, it is mainly explained in UU 2014.jan.10 and extended to the 3^3 model in UU 2015.feb.27 with the (ID dimension) Drive/Animal-Farm Game category. The related concern is in brief "S-I stems from the primitive stages in human development and is the life-force, the will to survive and even love and hate. It is the 'animal' within us, controlled by the 'lizard brain'." (See definition of LifeQuality in UU 2015.juni.26).

The prospects of 3^3 analytic discoveries is indicated in UU 2015.feb.20: "The collective life-force consists of every individual personal life-force." "A most alarming 4th degree Drive related social Game is 'Genocide', like inquisitions, all those 'Killing Fields' and world wars. It is hard to explain, but should be possible with this 3x3 model with the distinctions of the 3 Drive characters represented with WL, AF and RF. However, there was a philosophical talk in UU 2014.jan.10 in relation to S-E/S-I (Belief/Drive) that pinpoints the ethical dilemma with multi-dimensional social psychology. "When asked if the Predator/S-I is evil, the answer is generally 'no'. It is like carrion eaters that instinctively do a necessity for the balance of nature. The predator/S-I do not distinct between consumption of dead or living preys, even if we as emotional humans can see the preys' sufferings and get empathical and ethical. That is a human quality that is rather alien to the ID based nature. When a fox can execute a massacre in a hen farm, it is because its ID has gone ecstatic in an unnatural environment, - and the predator has no mental stop-button. However, - human have that stop-button and should use it." The UN should be enabled too overrule War Games of mass murderer.

Previously, a 4th degree Game of war were called 'Genocide' and 'Honeypot'. However, it might seem that an IS Game can be of a new definition called 'AGH' (Assembled Genocide Honeypot). Furthermore, - T.A. (Transaction Analysis) of what Kremlin says, do and don't, indicates the myriad of Games at Play. T.A. - like; "Do you now realize what you have done?" is SWYMD & YGMIT, and "We will destroy IS like Hitler" is BGGG & ITHY. Likewise, the most apparent classic Kremlin-Games nowadays seems to be: IFWY (If It Weren't For You), SWYMD (See What You Made Me Do), YGMIT (You Got Me Into This), LHIT (Look How Hard I've Tried), ITHY (I'm Only Trying to Help You), Debtor, LPAFJ (Let's Pull A Fast one on Joey), NIGYSOB (Now I've Got You, You Son of a Bitch) and LYAHF (Let's You and Him Fight), in addition to the self-defined 3^3 Games: DAC&UAC (Devide&Conquer & Unite&Conquer), ISR (It Started with the Retribution), ABD (Attack is the Best Defense), BGGG (Bad Guy, Good Guy), RPPP (Robbing Pete to Pay Paul), ODAB (One's Death - Another's Bread) and the Russian BOOFY (Beat your Own and Others will Fear You). Psychosocial Games are in general described in UU 2014.sept.12 and summarized in UU 2015.mars.06.

There was a global Game-changer in 2013 when the Russian secret military organization GRU was freed from the FSB bonds, - at least got a longer leash. (GRU has a Bat as their image.) Russian policies and

warfare have change since then. The use of FSB undercover separatist failed to rock national authorities and the world opinion discovered the plot before GRU could be invited to rescue the region by a FSB puppet president. Now, in Syria, it seems that GRU is set to full power, independent on FSB and cooperating with oligarchic warlords. However, just as important for Russia as the actual invasion, is that neither UN, EU nor NATO gets involved in Syria. The standard tactic seems to make their PROSA agents stirring up those nations with riots and GdE. The Dane Europol referendum is most certainly such an opportunity, to create a 'Pirate Bay', a 'Kardemomme State', an 'Outlaw Haven', 'an infected firewall out of control' - within the European Union.

Michael Lee Aday is an American musician and actor called Meat Loaf. He is noted for the 'Bat Out of Hell' trilogy that sold more than 43 million copies worldwide, 14 times platinum album. He stayed on the charts for over nine years, making it one of the bestselling albums of all time, a Grammy Award for Best Solo Rock Vocal Performance, Brit Award for Best selling album and single and has appeared in over 50 movies and television shows. The first collaboration was with the composer Jim Steinman. He had an appreciation of Richard Wagner, Phil Spector, Bruce Springsteen and The Who. The album developed from a musical, Neverland, a sci-fi update of Peter Pan, which Steinman wrote for a workshop in 1974. Steinman began to develop the song as part of a seven-song set they wanted to record as an album. The phrase "Bat Out of Hell" can be traced back to the Greek playwright Aristophanes' 414 B.C. with the work titled 'The Birds'. It is believed to be the first reference to a bat out of Hell.

The associations to this UU is that the Russian secret army GRU has chosen a Bat in their symbol.

Furthermore, Putin riding on a motor-tricycle amongst the MCC 'The night wolves' (i.e. like some Russian Hell's Angels') makes vivid scenes in media, - in addition to their declared loyalty to FSB, GRU, Pro-Russian Separatists, Nashi (Наши) and Stalin.

A brand new Norwegian TV-series called 'Occupied' (Okkupert) had premiere last weekend. The public presentation is "In the near future, Norway is occupied by Russia on behalf of the European Union, due to the fact that the newly elected environmental friendly Norwegian government has stopped the oil- and gas-production in the North Sea." In the first episode, the Prime Minister is kidnapped and convinced by a EU commissioner and a Nordic PM that their options are; production or occupation. However, both happens. There are some issues to this 5D scenario that can be explained like this. The Green-Red alliances is powerful in Norway, have been in previous AP/LO governments (Stoltenberg) and might return (Støre). Moscow related political parties have always opposed NATO and EU and would, if they could, cancel membership in both NATO and EFTA (EEA trade agreement with EU). Norway is a major oil & gas exporter to Europe and thereby a main competitor to Russian oil & gas export. Nova Russian ambitions seems to be control over Svalbard and mainland region Finnmark in order to gain control over major areas in the Arctic Sea. Thorium based fusion energy is theoretically possible in a distant future, but no option for the present energy market.

The scenario is based on the brown-red political occupations of the Nordic nations in ww2 that were quite different in the nations. Sweden cut a double-deal without military occupation. Denmark's surrender after 2 hours was due to bureaucratic delay. Finland fought the Russian invasion and thereby the expansion to Finnmark/Norway. Island was under Denmark, but was liberated after the ww2. Norway sunk the warship Blücher with the main invasion force that gave the Throne and government time to escape. The police and LO became BRAF and the major domestic forces for the occupation. (See also UU 08.Juni.2012 about writing of the historian Roy Vega.)

Hybrid proxy-wars seem to be the kind of global warfare nowadays. Like in the TV-series 'Occupied', invasions are well prepared by separatists. However, hybrid proxy-wars are probably as old as warfare itself. Invasions, CdE and occupations are rather about seizing power than destroying rivals. Apparently, autonom separatist seems gain PROSA greatly. Wasn't ABB just another one - after all? (UU 2012.mai.18 - UU 2012.Juli.06 + UU 24 aug.2012.)

Puppets Parroting Pravda (PPP) seems to be a never-ending political Game. Although cloaked as domestic arguments, the origin reveals itself with absurd and shortsighted terminology. The use of the terms like 'the East' for Asia and 'The West' for Europe and Amerika, is absurd outside the Russian 'iron curtain', - and Kremlin in particular. Enlightened people in the rest of the world knows very well that terms like east, west, north and south are relative and that it is absurd to use on any nation or continent. Political use of terms like 'The West' and 'The Middle-east' reveals the origin as Propaganda.

The newspaper Pravda is available in English on internet and do clearly reveal who do domestic PPP Games in any political argument.
